Graduates from the Master of Science program in computer engineering are able to apply new theories, methods and designs that can advance the field of computer engineering. More specifically, program graduates have the skills to advance the design, system integration, testing, evaluation and deployment of state-of-the-art hardware and software for systems that include computing, communications and networking (wired and wireless), control functions, sensing, signal processing and actuation.

These skills can be applied in high-demand growth areas, such as autonomous systems and robotics; distributed, dependable and secure systems; as well as in embedded systems for media processing and communications.

Career examples include:

- computer engineering professor
- computer engineering researcher
- computer hardware engineer
- computer systems engineer
- systems software engineer

Graduates may work under the direction of scientists and engineers who hold doctorates in high-tech lab settings, assisting in developing innovative products and systems that require strong foundational knowledge in the underlying sciences and the ability to synthesize and analyze engineering principles as they relate to the development of new computer engineering technology.

Computer Engineering (Electrical Engineering), PHD (ESCENEPHD)

Online Degree Search Title: Computer Engineering (Electrical Engineering), PhD

Campus: Tempe

Program Description:

The PhD program in computer engineering is a transdisciplinary program that builds on the fundamentals of electrical engineering, computer science, applied mathematics and physical sciences. Students can take courses and participate in projects across two schools and among the core areas.

The program in computer engineering with a concentration in electrical engineering is intended for students with excellent ability in mathematics and physical science who are interested in gaining an in-depth knowledge of the foundational principles of engineering and wish to pursue a career in academia, research or highly technical entrepreneurial innovation.

This doctoral program provides broader and more in-depth preparation than the MS programs, in anticipation of a demonstrated ability to independently pursue more creative and substantive innovation with higher impact.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

CSE 551 Foundations of Algorithms (3)

EEE 554 Random Signal Theory (3)

Concentration (9 credit hours)

Focus Area Electives (3 credit hours)

Technical Electives (30 credit hours)

Research (24 credit hours)

CEN 792 Research (24)

Culminating Experience (12 credit hours)

CEN 799 Dissertation (12)

Additional Curriculum Information

Concentration, focus area and technical elective courses are selected in consultation with the academic unit.

The concentration and focus area course lists are located on the computer engineering website and need to meet the following requirements: at least nine credit hours of graduate-level coursework in electrical engineering (EEE XXX) or computer engineering (CEN XXX); and at least three credit hours of graduate-level coursework in computer engineering or computer science (CSE XXX).

This program requires a qualifying exam. Students should see the academic unit for information on timeline and satisfactory progress standards.

Students may apply up to 30 credit hours from a previously awarded master's degree toward their doctoral Interactive Plan of Study with approval of the program and supervisory committee and the dean of the Graduate College.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's degree (or equivalent) or a graduate degree from a regionally accredited institution of recognized standing in a related field such as computer engineering, computer science, computer systems engineering or electrical engineering.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum GPA of 3.50 (scale is 4.00 = "A") in the MS or MSE coursework for acceptance into the doctoral program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. A TOEFL is required for applicants whose native language is not English. <https://admission.asu.edu/international/graduate/english-proficiency>

(<https://admission.asu.edu/international/graduate/english-proficiency>)

Students who hold a U.S. ABET-accredited undergraduate degree are not required to submit GRE scores.

Career Opportunities:

Graduates from the doctoral program in computer engineering are able to analyze and synthesize key theories and methods used in the field of computer engineering. These graduates can generate and evaluate new theories, methods and designs that can advance the field of computer engineering. More specifically, program graduates have the knowledge and skills necessary to fundamentally advance and develop new paradigms for the design, system integration, testing, evaluation and deployment of the state-of-the-art hardware and software for systems that include computing, communications and networking (wired and wireless), control functions, sensing, signal processing, and actuation.

These skills can be applied in high-demand growth areas, such as autonomous systems and robotics; distributed, dependable and secure systems; as well as in embedded systems for media processing and communications. Career examples include:

- computer engineering professor
- computer engineering researcher
- computer hardware engineer
- computer systems engineer
- systems software engineer

Computer Science, MCS (ESCOMSCMCS)

Online Degree Search Title: Computer Science, MCS

Campus: Tempe, Online

Program Description:

The MCS program affords an opportunity for students employed in industry to seek a breadth of advanced education in computer science.

The program reflects the dual nature of computer science as a scientific and engineering discipline by allowing emphasis on theory as well as practical applications. Students can study topics such as:

- artificial intelligence
- big data
- cloud and distributed computing
- cybersecurity
- database management and information retrieval
- database systems
- data mining and machine learning
- distributed computing and operating systems
- imaging, graphics and visualization
- simulation modeling and systems

Students build a project portfolio through the program to demonstrate the knowledge gained.

For questions or more information, students interested in the program through ASU Online should contact mcsonline@asu.edu (<mailto:mcsonline@asu.edu>); students interested in the program at the Tempe campus should contact SCAI.Grad.Admission@asu.edu (SCAI.Grad.Admission@asu.edu).

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Computer Science, BS
- Computer Science (Cybersecurity), BS
- Computer Science (Software Engineering), BS
- Computer Systems Engineering, BSE
- Computer Systems Engineering (Cybersecurity), BSE
- Software Engineering, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio.

Required Core Areas (9 credit hours)

applications (3)

foundations (3)

systems (3)

Electives (21 credit hours)

Culminating Experience (0 credit hours)

portfolio (0)

Additional Curriculum Information

Students should see the academic unit for the list of courses approved for each core area in applications, foundations and systems.

Students choose 21 credit hours of elective coursework approved by their academic advisor. Coursework selected as part of the area core may not be used as elective coursework on the same plan of study.

At least 24 of these hours must be CSE 5XX credits at ASU. A maximum of four CSE 598 courses are allowed as elective coursework, which cannot include courses taken at the undergraduate level. Up to six credit hours of 400-level courses may be applied to the plan of study. All 30 credit hours must be from formal coursework. CSE 590 is not allowed as part of the MCS program plan of study.

All MCS program students must complete a project portfolio from three courses in which the student received a "B" (3.00) grade or higher.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in computer science, computer engineering or a closely related area from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores*
- statement of purpose or a curriculum vitae
- proof of English proficiency

*GRE scores are optional but strongly recommended for Tempe campus applicants.

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students can find more information on the Admission Services website: <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

Students assigned any deficiency coursework upon admission must complete those classes with a grade of "B" (scale is 4.00= "A") or higher within two semesters of admission to the program. Deficiency courses include:

CSE 230 Computer Organization and Assembly Language Programming

CSE 310 Data Structures and Algorithms

CSE 330 Operating Systems

CSE 340 Principles of Programming Languages or CSE 355 Introduction to Theoretical Computer Science

The applicant's undergraduate GPA and depth of preparation in computer science and engineering are the primary factors affecting admission.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/computer-science-mcs/>)

Career Opportunities:

Graduates are able to analyze key theories, algorithms and software modules used in the field of computer science.

Career examples include:

- computer network architect
- computer system analyst
- computer systems engineer
- data scientist or engineer
- machine learning, AI or computer vision engineer
- software engineer
- software developer

Computer Science, MS (ESCOMSCMS)

Online Degree Search Title: Computer Science, MS

Campus: Tempe

Program Description:

The MS program in computer science affords an opportunity for students employed in industry to seek a breadth of advanced education in computer science.

The program reflects the dual nature of computer science as a scientific and engineering discipline by allowing emphasis on theory as well as practical applications. Students may opt for a thesis or nonthesis option as their culminating event. Students can study topics such as:

- artificial intelligence
- big data
- cloud and distributed computing
- cybersecurity
- database management and information retrieval
- database systems
- data mining and machine learning
- distributed computing and operating systems
- imaging, graphics and visualization
- simulation modeling and systems

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Computer Science, BS
- Computer Science (Cybersecurity), BS
- Computer Science (Software Engineering), BS
- Computer Systems Engineering, BSE
- Computer Systems Engineering (Cybersecurity), BSE

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis.

Required Core Areas (9 credit hours)

- applications (3)
- foundations (3)
- systems (3)

Electives (15 or 21 credit hours)

Culminating Experience (0 or 6 credit hours)

CSE 599 Thesis (6) or

portfolio (0)

Additional Curriculum Information

Students should see the academic unit for the list of courses approved for each core area in applications, foundations and systems. Courses selected as part of the core may not be used as other elective coursework on the same plan of study.

Students complete a thesis or portfolio for the culminating experience. Students in the thesis option take 15 credit hours of electives, and students in the portfolio option take 21 credit hours of electives. The project portfolio is developed from three courses in which the student received a "B" grade (3.00 on a 4.00 scale) or higher. Students should see the academic unit for additional information and requirements.

For thesis students, nine of the 15 credit hours of electives must be courses in a chosen research area and approved by the student's academic advisor. Up to six credit hours can be independent study in CSE 590 Reading and Conference.

Students complete a minimum of 30 credit hours for the program. At least 24 of these credit hours must be 500-level CSE courses at ASU. Up to six credit hours of 400-level courses may be applied to the plan of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in computer science, computer engineering or a closely related area from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- scores for the GRE
- a statement of purpose
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

<https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>)

If the student has graduated with an undergraduate degree in computer science or computer systems engineering at ASU, GRE scores are not required.

Students assigned any deficiency coursework upon admission must complete those classes with a grade of "B" (scale is 4.00 = "A") or higher within two semesters of admission to the program. Deficiency courses include:

CSE 230 Computer Organization and Assembly Language Programming

CSE 310 Data Structures and Algorithms

CSE 330 Operating Systems

CSE 340 Principles of Programming Languages or CSE 355 Introduction to Theoretical Computer Science

The applicant's undergraduate GPA and depth of preparation in computer science and engineering are the primary factors affecting admission.

Career Opportunities:

Students completing the Master of Science program in computer science are able to analyze key theories, algorithms and software modules used in the field of computer science.

Career examples include:

- computer network architect
- computer system analyst
- computer systems engineer
- data scientist or engineer
- machine learning, AI or computer vision engineer

- software engineer
- software developer

Computer Science, PHD (ESCOMSCPHD)

Online Degree Search Title: Computer Science, PhD

Campus: Tempe

Program Description:

The PhD program in computer science prepares students to undertake fundamental and applied research in computer science, preparing them to apply their studies in the world of academia, governmental policy, and industry. The program is available for students of high ability who seek to develop and implement their own research studies.

Students can conduct cutting-edge research in a wide variety of research areas, including:

- artificial intelligence
- big data
- cloud and distributed computing
- computer design and architecture
- cybersecurity
- data mining and machine learning
- database management and information retrieval
- social computing
- statistical modeling
- theory and algorithms

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core Areas (15 credit hours)

architecture and networked systems (3)

data and information systems (3)

foundations of computation and algorithms (3)

intelligent and interactive systems (3)

software and information assurance (3)

Depth (6 credit hours)

six additional credit hours in one core area (6)

Research (18 credit hours)

CSE 792 Research (18)

Electives and Additional Research (33 credit hours)

Culminating Experience (12 credit hours)

CSE 799 Dissertation (12)

Additional Curriculum Information

Courses that are used to satisfy the core area requirement cannot be used to satisfy electives or other requirements. A grade of "B" or better is required for core courses.

Eighteen credit hours of CSE 792 Research is required and up to 24 credit hours is allowed on the plan of study. Students with research credit hours in excess of 18 add these credit hours to their electives and additional research.

Electives include:

- additional CSE 792 Research credit hours (up to six credit hours allowed beyond required 18)
- computer science courses of which up to 18 credit hours of CSE 590 and CSE 790 Reading and Conference is allowed
- up to 15 credit hours of interdisciplinary electives in other academic units that are subject to program chair approval

When approved by the academic unit and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree.

A maximum of six credit hours of 400-level coursework may be applied to the plan of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in computer science, computer engineering or a closely related area. Most applicants should have earned a master's degree, but exceptional undergraduate applicants may be admitted directly into the doctoral program.

Applicants must have a minimum cumulative GPA of 3.50 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.50 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts from every university attended
- three letters of recommendation
- a statement of purpose
- curriculum vitae or resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency:

<https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>)

Submission of GRE scores is optional.

Students assigned any deficiency coursework upon admission must complete those classes with a grade of "B" or higher (scale is 4.00 = "A") within two semesters of admission to the program. Deficiency courses include:

- CSE 230 Computer Organization and Assembly Language Programming
- CSE 310 Data Structures and Algorithms
- CSE 330 Operating Systems
- CSE 340 Principles of Programming Languages or CSE 355 Introduction to Theoretical Computer Science

The applicant's undergraduate GPA and depth of preparation in computer science and engineering are the primary factors affecting admission.

Career Opportunities:

Graduates who receive the doctorate in computer science are able to analyze, understand and apply key theories and algorithms used in the field of computer science. They are also able to generate and evaluate new theories, algorithms and software modules that can advance the field of computer science.

Computer Science (Arts, Media and Engineering), MS (ESAMECSMS)

Online Degree Search Title: Computer Science (Art, Media and Engineering), MS

Campus: Tempe

Program Description:

The MS program in computer science with a concentration in arts, media and engineering emphasizes research on the integration of the human physical experience with computation and digital media.

Arts, media and engineering researchers produce experiential media systems and models that assist the disadvantaged, empower creativity, enhance scientific discovery, evolve human ability, facilitate learning and improve quality of life. Within these application areas, researchers explore experiential construction, interaction and feedback, knowledge creation, sensing, perception and modeling.

The purpose of the arts, media and engineering concentration under the master's degree in computer science is to train hybrid engineering-arts graduates who get their inspiration from the arts and their methodology from computer science and engineering. Students specialize in transdisciplinary media development. More information about the arts, media and engineering concentration can be found on the school's website at <https://artsmediaengineering.asu.edu> (<https://artsmediaengineering.asu.edu/>).

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Computer Science, BS
- Computer Science (Cybersecurity), BS
- Computer Science (Software Engineering), BS
- Computer Systems Engineering, BSE
- Computer Systems Engineering (Cybersecurity), BSE

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis.

Required Core Areas (9 credit hours)

applications (3)

foundations (3)

systems (3)

Concentration (9 credit hours)

AME 511 Advanced Interactive Sound (3)

AME 515 Machine Vision and Pattern Recognition (3)

AME 520 Understanding Activity (3)

AME 532 Media Synthesis (3)

AME 535 Mobile Development (3)

AME 570 Programming for Social and Interactive Media (3)

Electives or Research (6 credit hours)

Culminating Experience (6 credit hours)

AME 599 Thesis (2)

CSE 599 Thesis (4)

Additional Curriculum Information

Students should see the academic unit for the list of courses approved for each core area in applications, foundations and systems.

Students complete nine credit hours of arts, media and engineering concentration courses selected in consultation with the student's graduate advisor. Courses that are used to satisfy the concentration requirement on the plan of study cannot be used to satisfy the core requirement.

Additionally, courses selected as part of the core or concentration may not be used as other elective coursework on the same plan of study.

Students complete a minimum of 30 credit hours for the program. At least 24 of these credit hours must be 500-level CSE courses at ASU. Up to six credit hours of 400-level courses may be applied to the plan of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in computer science, computer engineering or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- statement of purpose
- curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

<https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>)

GRE scores are not required if the student has graduated with an undergraduate degree in computer science or computer systems engineering at ASU.

The statement of purpose must address the transdisciplinary nature of the arts, media and engineering program. Applicants should explain in a concise and persuasive manner how their educational, professional and personal experiences inform their research and creative interests, writing on any aspect of their background that supports candidacy to the program. For further information on how this statement can be expanded upon by students interested in a research assistantship or an integrative graduate education and research traineeship within arts, media and engineering, students should visit the School of Arts, Media and Engineering website at <https://artsmediaengineering.asu.edu> (<https://artsmediaengineering.asu.edu/>). Students should submit a curriculum vitae with the statement of purpose.

Students assigned any deficiency coursework upon admission must complete those classes with a grade of "B" (scale is 4.00 = "A") or higher within two semesters of admission to the program. Deficiency courses include:

- CSE 230 Computer Organization and Assembly Language Programming
- CSE 310 Data Structures and Algorithms

Computer Science (Big Data Systems), MCS (ESCSEBDMCS)

Online Degree Search Title: Computer Science (Big Data Systems), MCS

Campus: Tempe, Online

Program Description:

The big data systems concentration under the MCS degree program is designed for graduate students who want to pursue a thorough education in the area of big data systems.

Students acquire the knowledge, skills and expertise in designing scalable systems (parallel, distributed and real time) that acquire, store, process and access large-scale heterogeneous multisource data, and they learn to use analytical tools to mine information from the data

Graduates are able to choose and deploy the appropriate data management processing and analysis systems with a suitable structured or unstructured data model that a particular task and domain application needs.

For questions or more information, students interested in the program through ASU Online should contact mcsonline@asu.edu (<mailto:mcsonline@asu.edu>); students interested in the program at the Tempe campus should contact SCAI.Grad.Admission@asu.edu (SCAI.Grad.Admission@asu.edu).

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Computer Science, BS
- Computer Science (Cybersecurity), BS
- Computer Science (Software Engineering), BS
- Computer Systems Engineering, BSE
- Computer Systems Engineering (Cybersecurity), BSE
- Software Engineering, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio.

Required Core Areas (9 credit hours)

applications (3)

foundations (3)

systems (3)

Concentration (9 credit hours)

CSE 511 Data Processing at Scale (3)

CSE 575 Statistical Machine Learning (3)

CSE 578 Data Visualization (3)

Restricted Electives (6 credit hours)

Electives (6 credit hours)

Culminating Experience (0 credit hours)

portfolio (0)

Additional Curriculum Information

Students should see the academic unit for the list of courses approved for electives and each core area in applications, foundations and systems.

Coursework selected as part of the area core may not be used as elective coursework on the same plan of study. Students should check with their academic advisor to ensure that the total number of credit hours of their plan of study is equal to 30.

At least 24 of these hours must be CSE 5XX credits at ASU. A maximum of four CSE 598 courses may be allowed as elective coursework, which cannot include courses taken at the undergraduate level. All 30 credit hours must be from formal coursework (including CSE 591). CSE 590 is not allowed as part of the Master of Computer Science program plan of study.

All Master of Computer Science program students must complete a project portfolio from three courses in which the student received a "B" grade (scale is 4.00 = "A") or higher.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in computer science, computer engineering or a closely related area from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores (optional, but strongly recommended)
- statement of purpose OR curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. More information is available on Admission Services English proficiency website: <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

Students assigned any deficiency coursework upon admission must complete those classes with a grade of "B" (scale is 4.00= "A") or higher within two semesters of admission to the program. Deficiency courses include:

- CSE 230 Computer Organization and Assembly Language Programming (3)
- CSE 310 Data Structures and Algorithms (3)
- CSE 330 Operating Systems (3)
- CSE 340 Principles of Programming Languages (3) or CSE 355 Introduction to Theoretical Computer Science (3)

The applicant's undergraduate GPA and depth of preparation in computer science and engineering are the primary factors affecting admission.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-big-data/>)

Career Opportunities:

Graduates who complete the Master in Computer Science program are able to analyze key theories, algorithms and software modules used in the field of computer science. There is a growing need for data scientists and engineers who can architect, implement and manage large data systems. Graduates of this program have a competitive advantage in securing employment.

Career examples include:

- computer network architect
- computer system analyst
- computer systems engineer
- data scientist or engineer
- machine learning, AI computer vision engineer
- software engineer
- software developer

Computer Science (Big Data Systems), MS (ESCSEBDMS)

Online Degree Search Title: Computer Science (Big Data Systems), MS

Campus: Tempe

Program Description:

The big data systems concentration under the MS degree program in computer science is designed for graduate students who want to pursue a thorough education in the area of big data systems. The program has a thesis and nonthesis project portfolio option.

The goal of this concentration is to provide students with the knowledge, skills and advanced research expertise in designing scalable systems (parallel, distributed and real-time) for acquiring, storing, processing and accessing large-scale heterogeneous multisource data and in using analytical tools to mine information from the data.

Graduates are able to choose and deploy the appropriate data management processing and analysis systems with a suitable structured or unstructured data model that a particular task and domain application needs.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Computer Science, BS
- Computer Science (Cybersecurity), BS
- Computer Science (Software Engineering), BS
- Computer Systems Engineering, BSE
- Computer Systems Engineering (Cybersecurity), BSE

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis.

Required Core Areas (9 credit hours)

- applications (3)
- foundations (3)
- systems (3)

Concentration (9 credit hours)

- CSE 510 Database Management System Implementation (3)
- CSE 512 Distributed Database Systems (3)
- CSE 572 Data Mining (3) or IEE 520 Statistical Learning for Data Mining (3)

Restricted Electives (6 credit hours)

- CSE 515 Multimedia and Web Databases (3)
- CSE 546 Cloud Computing (3)
- CSE 573 Semantic Web Mining (3)
- CSE 575 Statistical Machine Learning (3)
- CSE 578 Data Visualization (3)

Electives (0 or 6 credit hours)

Culminating Experience (0 or 6 credit hours)

- CSE 599 Thesis (6) or
- portfolio (0)

Additional Curriculum Information

Students should see the academic unit for the list of courses approved for each core area in applications, foundations and systems.

Courses that are used to satisfy the concentration requirement on the plan of study cannot be used to satisfy the core requirement. Additionally, courses selected as part of the core or concentration may not be used as other elective coursework on the same plan of study.

Students complete a thesis or portfolio for the culminating experience. Regardless of culminating experience chosen, all students in the program must complete six credit hours from the restricted electives list. Students in the portfolio culminating experience option must also take six credit hours of electives.

Portfolio: The project portfolio is developed from three courses in which the student received a "B" grade (3.00) or higher and should have significant content in big data systems. Students should see the academic unit for additional information and requirements.

Students complete a minimum of 30 credit hours for the program. At least 24 of these credit hours must be 500-level CSE courses at ASU. Up to six credit hours of 400-level courses may be applied to the plan of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- official GRE test scores
- statement of purpose
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Official TOEFL scores should be submitted from tests that must have been taken within the last two years (only required for those who did not graduate with a baccalaureate degree from an accredited U.S. institution). The TOEFL score must be valid on the first day of class for the term the student is applying for. The department requires that TOEFL scores must be above 575 (paper) or 90 (iBT), or that the minimum IELTS is an overall band score of 7.0. <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>)

International students must have taken the official GRE General Test within the past five years and submit those test scores.

All international records must be submitted in the original language accompanied by an official English translation. If the student has attended a U.S. institution, one set of official transcripts from every college and university attended, except ASU, is required.

Students assigned any deficiency coursework upon admission must complete those classes with a grade of "B" (scale is 4.00 = "A") or higher within two semesters of admission to the program. Deficiency courses include:

- CSE 230 Computer Organization and Assembly Language Programming
- CSE 310 Data Structures and Algorithms
- CSE 330 Operating Systems
- CSE 340 Principles of Programming Languages or CSE 355 Introduction to Theoretical Computer Science

Career Opportunities:

Graduates are able to analyze and apply key theories, algorithms and software modules used in the field of computer science. This gives them a competitive advantage in pursuit of secure employment as there is a growing need for data scientists and engineers who can architect, implement and manage large data systems.

Career examples include:

- computer network architect
- computer system analyst
- computer systems engineer
- data scientist or engineer
- machine learning, AI computer vision engineer
- software engineer
- software developer

Computer Science (Biomedical Informatics), MS (ESCSBIOIMS)

Online Degree Search Title: Computer Science (Biomedical Informatics), MS

Campus: Tempe

Program Description:

The MS program in computer science with a concentration in biomedical informatics is designed for graduate students who wish to perform research in such topics as genomics and computational systems biology.

The concentration is transdisciplinary in nature, providing preparation that integrates technological expertise in the information sciences, computer science, biosciences and statistics with an understanding of the clinical environment of the health care professional. The curriculum exposes computer science students to current issues in clinical practice as well as the use of information systems in health care settings.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Computer Science, BS
- Computer Science (Cybersecurity), BS
- Computer Science (Software Engineering), BS
- Computer Systems Engineering, BSE
- Computer Systems Engineering (Cybersecurity), BSE

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis.

Required Core Areas (9 credit hours)

- applications (3)
- foundations (3)
- systems (3)

Concentration (9 credit hours)

- BMI 502 Foundations of Biomedical Informatics Methods I (3)
- BMI 601 Fundamentals of Health Informatics (3)
- Select once course from the following:
 - BMI 505 Foundations of Biomedical Informatics Methods II (3)
 - BMI 517 Advanced Biostatistics for Biomedical Research and Health Care (3)
 - BMI 550 Translational Bioinformatics (3)
 - BMI 598 Topic: Knowledge Management and Engineering (3)
 - BMI 615 Human Factors Engineering for Biomedical Applications (3)
 - BMI 616 Clinical Decision Support and Evidence-Based Medicine (3)

Electives or Research (6 credit hours)

Culminating Experience (6 credit hours)

- CSE 599 Thesis (6)

Additional Curriculum Information

Students focus their research in one of the following areas: bioinformatics, biomedical informatics, clinical informatics, imaging informatics or public health informatics.

Courses that are used to satisfy the concentration requirement on the plan of study cannot be used to satisfy the core requirement. Additionally,
Academic Catalog Archive 2022-2023

courses selected as part of the core or concentration may not be used as other elective coursework on the same plan of study. Students complete a minimum of 30 credit hours for the program. At least 21 of these credit hours must be 500-level CSE courses at ASU.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in computer science, computer engineering or a closely related area.

Applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- statement of purpose
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency via a TOEFL score regardless of current residency.

The student must submit verbal, quantitative and analytical GRE scores (optional: subject test in computer science) unless the student has graduated with an undergraduate degree in computer science or computer systems engineering from ASU.

Students assigned any deficiency coursework upon admission must complete those classes with a grade of "B" (scale is 4.00 = "A") or higher within two semesters of admission to the program. Deficiency courses are:

CSE 230 Computer Organization and Assembly Language Programming

CSE 310 Data Structures and Algorithms

CSE 330 Operating Systems

CSE 340 Principles of Programming Languages or CSE 355 Introduction to Theoretical Computer Science

The applicant's undergraduate GPA and depth of preparation in computer science and engineering are the primary factors affecting admission.

Career Opportunities:

Graduates of the Master of Science in computer science are able to analyze and apply key theories, algorithms and software modules used in the field of computer science.

Career examples include:

- computer network architect
- computer system analyst
- computer systems engineer
- data scientist or engineer
- machine learning, AI computer vision engineer

Computer Science (Cybersecurity), MCS (ESCSEIMCS)

Online Degree Search Title: Computer Science (Cybersecurity), MCS

Campus: Tempe, Online

Program Description:

The MCS with a concentration in cybersecurity is an advanced degree program designed for graduate students who want to pursue a thorough education in the area of cybersecurity and information assurance; students with an undergraduate education in computing and related disciplines; and students employed in industry who can best profit from further breadth and background in computer science and information assurance.

This concentration program provides students with the knowledge and skills in science and engineering pertaining to cybersecurity, including computer and network security, software security, data and information security, applied cryptography and computer forensics.

According to the National Security Agency, information assurance is defined as the set of measures intended to protect and defend information and information systems by ensuring their availability, integrity, authentication, confidentiality and nonrepudiation. This includes providing restoration of information systems by incorporating protection, detection and reaction capabilities.

Cybersecurity courseware at ASU has been certified by the Information Assurance Courseware Evaluation Program to satisfy the standards for Information Systems Security Professionals (NSTISSI 4011) and Senior Systems Managers (CNSSI 4012).

For questions or more information, students interested in the program through ASU Online should contact mcsonline@asu.edu (<mailto:mcsonline@asu.edu>); students interested in the program at the Tempe campus should contact SCAI.Grad.Admission@asu.edu (SCAI.Grad.Admission@asu.edu).

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Computer Science, BS
- Computer Science (Cybersecurity), BS
- Computer Science (Software Engineering), BS
- Computer Systems Engineering, BSE
- Computer Systems Engineering (Cybersecurity), BSE
- Software Engineering, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio.

Required Core Areas (9 credit hours)

applications (3)

foundations (3)

systems (3)

Concentration (9 credit hours)

CSE 543 Information Assurance and Security (3)

Choose two:

CSE 539 Applied Cryptography (3)

CSE 545 Software Security (3)

CSE 548 Advanced Computer Network Security (3)

Electives (12 credit hours)

Culminating Experience (0 credit hours)

portfolio (0)

Additional Curriculum Information

Students should see the academic unit for the list of courses approved for each core area in applications, foundations and systems.

Coursework selected as part of the area core may not be used as elective coursework on the same plan of study. Students should check with their academic advisor to ensure that the total credit hours of their plan of study are equal to 30.

The concentration coursework cannot be used as part of the area core on the same plan of study. Students must complete concentration course requirements as listed and complete different coursework for each of the core areas in applications, foundations and systems.

The interactive plan of study must contain a minimum of 30 credit hours of approved graduate-level work. At least 24 of these hours must be CSE

5XX credits at ASU. A maximum of four CSE 598 courses may be allowed as elective coursework, which cannot include courses taken at the undergraduate level. All 30 credit hours must be from formal coursework (including CSE 591). CSE 590 will not be allowed as part of the MCS program.

All Master of Computer Science students must complete a project portfolio from three courses in which the student received a "B" grade (3.00) or higher.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in computer science, computer engineering or a closely related area from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose OR curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. More information is available on Admission Services' English proficiency website: <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

GRE scores are optional, but they are strongly recommended.

Students assigned any deficiency coursework upon admission must complete those classes with a grade of "B" (scale is 4.00 = "A") or higher within two semesters of admission to the program. Deficiency courses include:

CSE 230 Computer Organization and Assembly Language Programming (3)

CSE 310 Data Structures and Algorithms (3)

CSE 330 Operating Systems (3)

CSE 340 Principles of Programming Languages (3) or CSE 355 Introduction to Theoretical Computer Science (3)

Computer Science (Cybersecurity), PHD (ESCSEIAPHD)

Online Degree Search Title: Computer Science (Cybersecurity), PhD

Campus: Tempe

Program Description:

The PhD program in computer science with a concentration in cybersecurity is designed for graduate students who want to pursue a thorough education in the area of cybersecurity and information assurance.

The goal of this concentration is to provide students the knowledge and skills in science and engineering for cybersecurity, including applied cryptography, computer and network security, computer forensics, data and information security and software security.

According to the National Security Agency, information assurance is defined as the set of measures intended to protect and defend information and information systems by ensuring their availability, integrity, authentication, confidentiality and nonrepudiation. This includes providing restoration of information systems by incorporating protection, detection and reaction capabilities.

ASU has been certified as a National Center of Academic Excellence in Information Assurance Education and a National Center of Academic Excellence in Information Assurance - Research by the National Security Agency and the Department of Homeland Security. Information assurance courseware at ASU has been certified by the Information Assurance Courseware Evaluation Program to satisfy the standards for Information Systems Security Professionals (NSTISSI 4011) and Senior Systems Managers (CNSSI 4012).

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core Areas (15 credit hours)

architecture and networked systems (3)

data and information systems (3)

foundations of computation and algorithms (3)

intelligent and interactive systems (3)

software and information assurance (3)

Concentration (9 credit hours)

CSE 543 Information Assurance and Security (3)

Choose two:

CSE 539 Applied Cryptography (3)

CSE 545 Software Security (3)

CSE 548 Advanced Computer Network Security (3)

Research (18 credit hours)

CSE 792 Research (18)

Electives and Additional Research (30 credit hours)

Culminating Experience (12 credit hours)

CSE 799 Dissertation (12)

Additional Curriculum Information

Courses that are used to satisfy the core area requirement cannot be used to satisfy electives or other requirements. A grade of B or better is required for core courses.

18 credit hours of CSE 792 Research is required and up to 24 credit hours is allowed on the plan of study. Students with research credit hours in excess of 18 add these credit hours to their electives and additional research.

Electives include:

- additional CSE 792 Research credit hours (up to six credit hours allowed beyond required 18)
- computer science courses of which up to 18 credit hours of CSE 590 and CSE 790 Reading and Conference is allowed
- up to 12 credit hours of interdisciplinary electives in other academic units that are subject to program chair approval

be used for this degree.

A maximum of six credit hours of 400-level coursework may be applied on the plan of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in computer science, computer engineering or a closely related area. Most applicants should have earned a master's degree, but exceptional undergraduate applicants may be admitted directly into the doctoral program.

Applicants must have a minimum cumulative GPA of 3.50 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.50 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts from every university attended
- three letters of recommendation
- a statement of purpose
- curriculum vitae or resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency:

<https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

GRE scores are optional.

If the student is assigned any deficiency coursework upon admission, those classes must be completed with a grade of "B" (scale is 4.00 = "A") or higher within two semesters of admission to the program. Deficiency courses include:

CSE 230 Computer Organization and Assembly Language Programming

CSE 310 Data Structures and Algorithms

CSE 330 Operating Systems

CSE 340 Principles of Programming Languages or CSE 355 Introduction to Theoretical Computer Science

The applicant's undergraduate GPA and depth of preparation in computer science and engineering are the primary factors affecting admission.

Career Opportunities:

Graduates who complete the doctorate program in computer science are able to analyze, understand and apply key theories and algorithms used in the field of computer science. They are also able to generate and evaluate new theories, algorithms and software modules that can advance the field of computer science. Graduates have a competitive advantage when it comes to securing employment.

Career examples include:

- computer science professor
- computer science researcher
- data scientist engineer
- machine learning, AI or computer vision engineer
- machine learning, AI or computer vision scientist

Construction Engineering, MSE (ESCONEMSE)

Online Degree Search Title: Construction Engineering, MSE

Campus: Tempe

Program Description:

The MSE in construction engineering is a transdisciplinary degree program that encompasses the areas of geotechnical engineering, structural engineering, transportation engineering, construction engineering and management-related topics.

This focus on a combination of design and management prepares the student for a career at the interface of design and construction. Students who are interested in a career emphasizing construction of infrastructure find this program especially desirable.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Civil Engineering, BSE
- Civil Engineering (Environmental Engineering), BSE
- Civil Engineering (Sustainable Engineering), BSE
- Construction Engineering, BSE

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a written comprehensive exam.

All candidates for the Master of Science in engineering are required to complete approved graduate coursework.

Additional courses may be assigned by the graduate supervisory committee depending on the background of the candidate.

Details of the comprehensive written examinations for the different specialty areas can be obtained on the graduate studies section of the program's website.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering or other closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants must take the GRE and have their scores sent to Graduate Admission Services. Prospective students should note that the following two requirements need to be met for consideration for admission: minimum score in the quantitative section is 700 and a minimum combined quantitative and verbal score is 1100. More information regarding how to send official GRE scores to Graduate Admission Services can be found at <https://admission.asu.edu/graduate/apply> (<https://admission.asu.edu/graduate/apply>).

A student whose undergraduate degree is not in civil or construction engineering is required to take appropriate undergraduate courses as deficiency courses to establish a base of knowledge in the discipline. Deficiencies for admission to the graduate degree programs are specified at the time of admission and details can be obtained on the graduate studies section of the program's website.

Applicants with an undergraduate GPA lower than 3.00 may be provisionally admitted at the discretion of the admission committee.

Career Opportunities:

The construction engineering graduate, with a strong background in design and management, is prepared to enter a career in the engineering and construction industry as a field engineer, project engineer or project designer working for:

- construction companies
- design firms
- facility owners
- materials suppliers
- specialty subcontractors

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

Construction Management, PHD (ESCONPHD)

Online Degree Search Title: Construction Management, PhD

Campus: Tempe

Program Description:

The Del E. Webb School of Construction has one of the top construction management doctoral programs in the United States. It provides a rigorous education and teaching environment for students seeking an advanced degree.

The PhD program in construction management requires novel, independent research that broadly contributes to the construction management body of knowledge; transdisciplinary research is often required due to the nature of the topics studied. Students can focus their elective coursework in emphasis areas such as heavy construction, commercial and residential, and specialty construction.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The doctoral program in construction typically requires three to four years of full-time study and research beyond the master's degree. Generally, students are admitted into the doctoral program at or near the completion of their master's degree.

The program requires 84 credit hours post-bachelor's degree or 54 credit hours post-master's degree.

The program consists of:

- core construction courses
- elective courses
- a qualifying examination
- a written and oral comprehensive examination
- admission to candidacy
- successful defense of a dissertation prospectus and complete dissertation

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Students who hold a master's degree in a related field from a regionally accredited university or equivalent are eligible to apply for admission to the program. Only exceptional students are admitted without a master's degree. Related fields include construction, civil engineering, architecture and business. At the discretion of the admission committee, students from other disciplines may be eligible as well. In addition, applicants are expected to be competent in construction topics.

Applicants must have a minimum cumulative GPA of 3.20 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- official GRE scores
- a current resume
- an evaluation of the student's academic and professional background
- masters' degree thesis abstract
- personal statement
- research interests
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants required to demonstrate English proficiency and seeking a teaching assistantship must demonstrate proficiency in spoken English; a score of 55 or better on the Speaking Proficiency English Assessment Kit or a score of 26 on the speaking portion of the TOEFL is required.

Applicants must take the GRE and have their official scores sent directly to Graduate Admission Services. More information regarding how to send official GRE scores can be found on the Graduate Admission Services website.

The personal statement should describe the applicant's career goals and research objectives.

Career Opportunities:

Graduates of the Del E. Webb School of Construction's doctoral program have careers in architecture, engineering and construction industries, academia, and local, state and federal government. The program provides a foundation for students who wish to pursue careers as project managers, project engineers, estimators or schedulers and eventually become principals of firms engaged in the construction of industrial, commercial or residential projects.

The heavy construction emphasis area prepares students for careers related to public works such as highways, airports, bridges, utility systems and water or waste treatment facilities.

The commercial and residential emphasis areas prepare students for careers in real estate development, home production systems, commercial construction, health care and special industrial building projects. Students are also prepared to enter the sustainable or green construction market.

The specialty construction emphasis prepares students to organize, lead and manage the building process at the subcontractor level and prepares students for careers as contractors working with mechanical and electrical systems. It also prepares students for careers in management at specialty contracting firms, such as control systems, electrical distribution or heating, ventilation and air conditioning systems for large and complex facilities such as data centers, health care organizations and semiconductor manufacturing plants as well as commercial facilities.

Construction Management and Technology, MS (ESCONSTMS)

Online Degree Search Title: Construction Management and Technology, MS

Campus: Tempe, Online

Program Description:

The transdisciplinary MS program in construction management and technology allows students with a bachelor's degree in construction or a related field such as architecture, business or engineering to broaden and improve their professional capabilities in construction. This meets the growing need for professionals with advanced technical, management and applied research skills in the construction industry.

The program allows a candidate's plan of study to reflect individual interests and career goals. Courses are offered in several areas, allowing a student to tailor their degree to their interests:

- construction management --- project, program and company management
- commercial and residential areas --- various types of real estate development
- facilities management --- maintenance, operation, renovation or decommissioning of existing facilities
- heavy construction --- infrastructure development
- specialty construction --- mechanical and electrical systems

This program is facilitated by the faculty of the Del E. Webb School of Construction.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Construction Management and Technology, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours and a written comprehensive exam, or 30 credit hours and an applied project (CON 593).

Required Core (6 credit hours)

Project Management and Controls Core Area (3 credit hours)

- CON 502 Front-End Planning (3)
- CON 530 Facilities Operations and Maintenance (3)
- CON 532 Facilities Project Management (3)
- CON 540 Construction Productivity (3)
- CON 541 Public Works Capital Construction (3)
- CON 545 Construction Project Management (3)
- CON 548 Sustainable Construction (3)
- CON 551 Alternative Project Delivery Methods (3)
- CON 557 Principles of Leadership for Project Managers (3)
- CON 567 Advanced Procurement Systems (3)
- CON 589 Construction Company Financial Control (3)

Construction Technology Core Area (3 credit hours)

- CON 531 Facility Management: Building Energy Management (3)
- CON 554 Trenchless Construction Methods (3)
- CON 570 Introduction to Advanced Technology Facilities (3)
- CON 571 Construction of Advanced Technology Facilities (3)
- CON 575 Information Technology in Construction (3)

Electives or Research (18-24 credit hours)

Culminating Experience (0-6 credit hours)

- CON 593 Applied Project (3)
- CON 599 Thesis (6)
- written comprehensive exam (0)

Additional Curriculum Information

Students chose one three-credit hour course from each of the core areas listed above for a total of nine credit hours. If a course is chosen as a core area course, it cannot be used as an elective course simultaneously.

The number of electives and research is adjusted depending on the culminating experience chosen by the student.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- current resume
- an evaluation of the student's academic and professional background
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency by meeting the Graduate College English proficiency requirements regardless of current residency.

Applicants required to demonstrate English proficiency and seeking a teaching assistantship must demonstrate proficiency in spoken English, and a score of 55 or better on the Speaking Proficiency English Assessment Kit or a score of 26 on the speaking portion of the TOEFL is required.

Applicants are expected to be competent in basic construction topics.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-construction-management/>)

Career Opportunities:

Graduates of the construction management and technology program are well prepared for numerous types of careers, depending upon which subject area they focused their coursework:

construction management --- project managers, project engineers, estimators or schedulers who can eventually become principals of firms engaged in the construction of industrial, commercial or residential projects

commercial and residential --- real estate developers, commercial construction managers, managers and supervisors of health care and special industrial building projects or home production systems, and managers or supervisors of sustainable or green construction

facilities management --- managers who supervise the maintenance, operation, renovation or decommissioning of existing facilities

heavy construction --- supervisors of the construction and maintenance of public works such as highways, airports, bridges, utility systems and water or waste treatment facilities

specialty construction --- organizers, leaders and managers of the building process at the subcontractor or contractor level working with mechanical and electrical systems, and in management at specialty contracting firms, such as those who do work in control systems, electrical distribution or HVAC systems for large and complex facilities such as data centers, health care organizations and semiconductor manufacturing plants as well as commercial facilities

Data Science, Analytics and Engineering, PHD (ESDSEPHD)

Online Degree Search Title: Data Science, Analytics and Engineering, PhD

Campus: Tempe

Program Description:

The PhD program in data science, analytics and engineering engages students in fundamental and applied research.

The program's educational objective is to develop each student's ability to perform original research in the development and execution of data-driven methods for solving major societal problems. This includes the ability to identify research needs, adapt existing methods and create new methods as needed. This is accomplished through a rigorous education with research and educational experiences.

Students complete a foundational core covering database management, information assurance, statistical learning and statistical theory before choosing to focus on data analytics or data engineering. The program culminates in the production of a dissertation.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (12 credit hours)

CSE 511 Data Processing at Scale (3)

CSE 543 Information Assurance and Security (3)

CSE 572 Data Mining (3) or IEE 520 Statistical Learning for Data Mining (3)

IEE 670 Mathematical Statistics (3) or STP 502 Theory of Statistics II: Inference (3)

Electives (39 credit hours)

Research (12 credit hours)

DSE 792 Research (12)

Other Requirements (9 credit hours)

data engineering coursework or

data analytics coursework

Culminating Experience (12 credit hours)

DSE 799 Dissertation (12)

Additional Curriculum Information

All students must take qualifying exams covering the required core courses within one year of matriculation into the program.

The dissertation prospectus should be submitted and its oral defense completed no later than one year following completion of the 60th credit hour and also no later than the fourth year in the program.

Students must select coursework from either the data engineering or the data analytics requirements. Students should see the academic unit for the approved course list.

Students cannot take a data engineering or data analytics course and have it meet an elective requirement at the same time. Students need to take a different elective course to reach the number of credit hours required for the program. Other coursework may be used with approval of the academic unit to fulfil these requirements.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework are to be made up of electives to reach the required 84 credit hours.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering, computer science, mathematics, statistics or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- letter of intent or written statement

- GRE scores
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency:
<https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

If the student is assigned any deficiency coursework upon admission, those classes must be completed with a grade of "B"; (scale is 4.00 = "A") or higher within two semesters of admission to the program. Deficiency courses do not apply to the total credit hours required to complete the degree program.

Deficiency courses are:

CSE 205 Object-Oriented Programming and Data Structures
 IEE 380 Probability and Statistics for Engineering Problem Solving
 MAT 242 Elementary Linear Algebra OR MAT 342 Linear Algebra OR MAT 343 Applied Linear Algebra
 MAT 267 Calculus for Engineers III

Career Opportunities:

Graduates demonstrate proficiency with existing methodology and significant accomplishment at advancing the state of the art in their chosen area, enabling them to pursue careers in advanced research, teaching, business, industry and government.

Electrical Engineering, MS (ESEEMS)

Online Degree Search Title: Electrical Engineering, MS

Campus: Tempe

All students seeking a master's degree in electrical engineering must apply to the electrical engineering MSE (<https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/ESEEMSE/graduate/false>) program.

Program Description:

This program does not accept applications to the MS directly. If interested in the Master of Science program, students should apply to the MSE program and, once admitted, consult with the Master of Science in Engineering program advisors.

The electrical engineering faculty in the Ira A. Fulton Schools of Engineering offer a research program leading to the Master of Science in electrical engineering.

Graduate courses and programs are offered in the following six areas of specialization:

- control systems
- electric power and energy systems
- electromagnetics, antennas and microwave circuits
- electronic and mixed-signal circuit design
- physical electronics and photonics
- signal processing and communications.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Electrical Engineering, BSE
 Electrical Engineering (Electric Power and Energy Systems), BSE

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis.

The credits earned toward this research degree must include a minimum of eight courses (24 credit hours minimum) and six hours of EEE 599 Thesis. As part of the eight courses, at least two should be outside the area of specialization.

Requirements include:

at least four EEE courses

at least two courses outside the area of specialization

at most two 400-level courses

at least three EEE 500-level courses

at most one EEE 590 Reading and Conference or FSE course exam

A final oral examination in defense of the thesis completes the master's degree requirements.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students desiring the Master of Science in electrical engineering must initially apply to the Master of Science in Engineering program. Students who later obtain a research advisor may transfer to the Master of Science program.

Career Opportunities:

The graduate with a Master of Science in electrical engineering has an advanced understanding of electrical engineering concepts and theories and the ability to develop, contribute to, and apply them to their specialization.

Career examples include:

- computer hardware engineer
- computer and information research scientist
- computer network architect
- director of engineering
- electrical engineer
- electrical engineering researcher
- energy engineer

Electrical Engineering, MSE (ESEEMSE)

Online Degree Search Title: Electrical Engineering, MSE

Academic Catalog Archive 2022-2023

Campus: Tempe, Online

Program Description:

The electrical engineering faculty in the Ira A. Fulton Schools of Engineering offer a professional program leading to the MSE in electrical engineering.

Graduate courses and programs are offered in six areas of specialization:

- control systems (not an option for the online degree but available to on-campus students)
- electric power and energy systems
- electromagnetics, antennas and microwave circuits
- electronic and mixed-signal circuit design
- physical electronics and photonics
- signal processing and communications

A concurrent degree, the MBA/MSE in electrical engineering, is available as an online option. For more information, students should visit the following W. P. Carey School of Business website: <https://wpcarey.asu.edu/mba-programs/online/concurrent-degrees> (<https://wpcarey.asu.edu/mba-programs/online/concurrent-degrees>).

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as a concurrent program with the following: W. P. Carey MBA - Online Program

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Electrical Engineering, BSE
- Electrical Engineering (Electric Power and Energy Systems), BSE

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a written comprehensive exam.

The master's degree in electrical engineering is a professional degree program requiring a minimum of 30 credit hours of coursework (a minimum of 10 classes) and a final comprehensive examination in the area of specialization. The examination is given each semester at the end of the sixth week of classes.

Requirements include:

- at least five EEE courses
- at least three EEE 500-level courses
- at least two courses outside the area of specialization
- at most one EEE 590 Reading and Conference or FSE course
- at most two 400-level courses

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

The decision to admit a student who has earned a bachelor's degree from a program accredited by ABET to a master's degree program in electrical engineering is based on a number of factors. A minimum requirement is an undergraduate GPA of 3.00 (scale is 4.00 = "A") in the student's last two years of undergraduate work.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- GRE scores (required if undergraduate program is not ABET-accredited)*
- proof of English proficiency

*International and domestic applicants are exempt from taking the GRE if they have earned a degree from an ABET-accredited program (<https://www.abet.org/> (<https://www.abet.org/>)) from a U.S. or overseas institution and if they meet the minimum GPA required for admission. Students who do not meet these requirements are required to provide GRE scores.

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students seeking teaching assistantships must demonstrate proficiency in spoken English by scoring at least 26 on the speaking portion of the TOEFL iBT or 50 on the ASU-administered Speaking Proficiency English Assessment Kit.

Admission to electrical engineering graduate programs is highly competitive. Preferred applicants have an undergraduate degree in electrical engineering.

Applicants should see the program website for application deadlines.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-engineering-electrical-engineering/>)

Career Opportunities:

Graduates of the Master of Science program in electrical engineering have an advanced understanding of electrical engineering concepts and theories.

Career examples include:

- computer hardware engineer
- computer and information research scientist
- computer network architects
- director of engineering
- electrical engineer
- energy engineer

Electrical Engineering, PHD (ESEEPHD)

Online Degree Search Title: Electrical Engineering, PhD

Campus: Tempe

Program Description:

The PhD in electrical engineering is awarded upon evidence of excellence in research leading to a scholarly dissertation that is a contribution to knowledge.

Graduate courses and programs are offered in the following six areas of specialization:

- control systems
- electric power and energy systems
- electromagnetics, antennas and microwave circuits
- electronic and mixed-signal circuit design
- physical electronics and photonics
- signal processing and communications

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Doctoral students are required to complete 84 credit hours of academic credit beyond the bachelor's degree. The following summarizes the degree course requirements:

Master's degree (30 credit hours)
from any accredited institution

Electives 500-level or above (18 credit hours)
at least nine credit hours of EEE courses

Research Class or Omnibus Courses (12 credit hours)
can be 400-level and above or
EEE 792 Research (12)

Dissertation (12 credit hours)
EEE 799 Dissertation (12)

Additional Curriculum Information

The 84 credit hours include 30 credit hours from the master's degree, a required 18 credit hours of doctoral coursework, 12 credit hours of research (EEE 792), and 12 credit hours (and only 12 credit hours) of dissertation (EEE 799).

The additional 12 credit hours can be more hours of research (EEE 792) or can be coursework as determined by the supervisory committee. At least nine credit hours of the minimum requirement of 18 credit hours of doctoral coursework must be in electrical engineering. EEE 790 Reading and Conference can be used for no more than three credit hours toward the required 18 but does not count toward the nine hours of 500-level EEE classes required.

All courses counting toward the required 18 credit hour minimum must be at the 500 level or higher. (Note: All courses having the prefix EEE 591 count as 400-level courses.) No more than one three-hour reading and conference course (EEE 790) may be taken as part of the 18 credit hour requirement. The content of any proposed reading and conference course must be reviewed and approved by the electrical engineering graduate program chair before a student registers for the course.

A qualifying examination, a comprehensive exam and the dissertation defense are required. Additional information on the program can be found in the Blue Student Guide published and available on the program's website.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

In general, a student must have a minimum GPA of 3.00 (scale is 4.00 = "A") in all undergraduate coursework and a minimum GPA of 3.50 (scale is 4.00 = "A") in all graduate coursework for admission to the doctoral program. A student usually must hold a master's degree before being admitted to the doctoral program. Direct doctoral admission is available for students graduating from an ABET-accredited electrical engineering program with a GPA of 3.60 (scale is 4.00 = "A") or higher.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students seeking teaching assistantships must demonstrate proficiency in spoken English by scoring at least 26 on the speaking portion of the internet-based TOEFL or 50 on the ASU-administered Speaking Proficiency English Assessment Kit.

A student whose master's degree is not from a U.S. institution must score 156 or higher on the quantitative section of the GRE General Test. A good score on the writing portion is considered desirable.

A student whose undergraduate degree is not in electrical engineering may need to take appropriate undergraduate courses to establish a baseline of knowledge in the discipline.

Applicants should see the program website for application deadlines.

Career Opportunities:

The graduate with a PhD in electrical engineering has an advanced understanding of electrical engineering concepts and theories and the ability to develop, contribute to, and apply them to their specialization.

Career examples include:

- computer hardware engineer
- computer and information research scientist
- computer network architect
- director of engineering
- electrical engineer
- electrical engineering researcher
- energy engineer

Electrical Engineering (Arts, Media and Engineering), MS (ESAMEMS)

Online Degree Search Title: Electrical Engineering (Art, Media and Eng), MS

Campus: Tempe

Program Description:

This concentration in arts, media and engineering in the MS program in electrical engineering is a collaboration between the electrical engineering program at ASU and the Herberger Institute for Design and the Arts, and it is available for MS and PhD students admitted to this program who take two-thirds of their course, research and thesis credits from the electrical engineering program and one-third of the credits from the arts, media and engineering program.

All applicants are strongly encouraged to review the FAQ on this concentration available at <https://ecee.engineering.asu.edu/arts-media-and-engineering-ms-phd/> (<https://ecee.engineering.asu.edu/arts-media-and-engineering-ms-phd/>).

Electrical engineering students in the arts, media and engineering concentration undergo training toward integrating principles of digital signal processing, pattern recognition, computer vision and multimedia computing with transdisciplinary objectives, with the goal of enabling new paradigms of human-machine experience that directly address societal needs and facilitate knowledge. Examples include media-based intelligent systems for health care and well-being as well as promotion of environmentally sustainable practices.

For more information on current research projects and initiatives, students should see <https://artsmediaengineering.asu.edu/faculty-research> (<https://artsmediaengineering.asu.edu/faculty-research>).

Degree Requirements:

30 credit hours and a thesis.

Eight courses are required for this program, typically five from EEE and three from AME. In addition, six credit hours of thesis are required, typically four credit hours from EEE and two from AME.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Students from ABET-accredited undergraduate programs who wish to be considered for a master's degree program must have a minimum GPA of 3.00 (scale is 4.00 = "A") in the last two years of undergraduate coursework. Students from undergraduate programs that are not accredited by ABET must have a minimum GPA of 3.50 (scale is 4.00 = "A") in the last two years of undergraduate coursework or have graduated first class with distinction and must score in the 90th percentile or higher on the quantitative section of the GRE general test.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- curriculum vitae
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International applicants seeking teaching assistantships must demonstrate proficiency in spoken English by scoring at least 26 on the speaking portion of the internet-based TOEFL or 50 on the ASU-administered Speaking Proficiency English Assessment Kit.

Applicants should submit materials that reflect the hybrid nature of the arts and engineering degree, including a statement of purpose and curriculum vitae demonstrating interest and relevant experience in the area. Applicants will have the opportunity to upload their curriculum vitae and statement of purpose when completing the online application. Additionally, the arts, media and engineering program requires three letters of recommendation from individuals familiar with the applicant's ability to succeed in a transdisciplinary research environment.

Career Opportunities:

Graduates are able to apply new ideas, theories and systems related to the intersection of media arts and electrical engineering. The transdisciplinary nature of this program allows art, media and engineering graduates to connect electrical engineering signals and systems constructs to multimedia computing, digital communication, immersive augmented reality and virtual reality experiences, and data visualization.

Career examples include:

- augmented and virtual reality researcher
- computer systems engineer
- electrical engineering professor
- systems software engineer

Electrical Engineering (Arts, Media and Engineering), PHD (ESAMEPHD)

Online Degree Search Title: Electrical Engineering (Art, Media and Eng), PhD

Campus: Tempe

Program Description:

This concentration in arts, media and engineering is a collaboration between the electrical engineering program at ASU and the Herberger Institute for Design and the Arts, and it is available for MS and PhD students admitted to this program.

Students take two-thirds of their coursework from the electrical engineering program and one-third of the credits from the arts, media and engineering program.

All applicants are strongly encouraged to see the FAQ on this concentration available at <https://ecee.engineering.asu.edu/arts-media-and-engineering-ms-phd/> (<https://ecee.engineering.asu.edu/arts-media-and-engineering-ms-phd/>).

Electrical engineering students in the arts, media and engineering concentration undergo training toward integrating principles of digital signal processing, pattern recognition, computer vision and multimedia computing with transdisciplinary objectives, with the goal of enabling new paradigms of human-machine experience that directly address societal needs and facilitate knowledge. Examples include media-based intelligent systems for health care and well-being, as well as promotion of environmentally sustainable practices. For more information on current research

projects and initiatives, students should visit <https://artsmediaengineering.asu.edu/faculty-research> (<https://artsmediaengineering.asu.edu/faculty-research>).

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The program requires the following:

- a comprehensive examination
- the dissertation defense
- a qualifying examination
- 10 courses, typically seven from EEE and three from AME
- 12 credit hours of dissertation, typically eight credits from EEE and four from AME
- 12 credit hours of research, typically eight credits from EEE and four from AME

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants with a master's degree who wish to be considered for the doctoral program must have a minimum GPA of 3.50 (scale is 4.00 = "A") in their master's degree program. Applicants without a master's degree must have a minimum GPA of 3.60 (scale is 4.00 = "A") in the last two years of undergraduate coursework and have graduated from an ABET-accredited undergraduate program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- curriculum vitae
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students seeking teaching assistantships must demonstrate proficiency in spoken English by scoring at least 26 on the speaking portion of the internet-based test (iBT) or 50 on the ASU-administered Speaking Proficiency English Assessment Kit.

Applicants should submit materials that reflect the transdisciplinary nature of the arts and engineering degree, including a statement of purpose and curriculum vitae demonstrating interest and relevant experience in the area. Applicants will have the opportunity to upload their curriculum vitae and statement of purpose when completing the online application. Additionally, the arts, media and engineering program requires three letters of recommendation from individuals familiar with the applicant's ability to succeed in a transdisciplinary research environment.

Career Opportunities:

Graduates are able to generate and apply new ideas, theories and systems related to the intersection of media arts and electrical engineering. The transdisciplinary nature of this program allows art, media and engineering graduates to connect electrical engineering signals and systems constructs to multimedia computing, digital communication, immersive augmented reality and virtual reality experiences, and data visualization.

Career examples include:

- augmented and virtual reality researcher
- computer systems engineer
- electrical engineering professor
- systems software engineer

Engineering, MEng (EENGRMENG)

Online Degree Search Title: Master of Engineering, MEng

Campus: Online

Program Description:

Engineers have the opportunity to gain valuable experience applicable to their chosen industry while gaining an advanced degree.

The MEng degree program is designed to meet the unique needs of professional engineers, and it is delivered entirely online. It is a practice-oriented degree program, and students can customize their learning experience by selecting a curriculum that addresses their academic and professional goals.

In this master's degree program, multiple emphasis areas are available. Within each area of study, there are specific course requirements in addition to the general program requirements. Students can select one of several areas of study available, such as engineering management, quality, reliability and statistical engineering, and systems engineering. A computing and technology area of study has been developed to support ASU's global initiatives.

Convenience and flexibility are key advantages of this program. The Master of Engineering is a 30 credit hour degree program that does not require GRE results, a thesis or on-campus attendance; it is only available through distance learning. The program is supported through online courses available from the Ira A. Fulton Schools of Engineering.

Degree Requirements:

30 credit hours and a written comprehensive exam, or 30 credit hours and an oral comprehensive exam, or 30 credit hours including the required applied project course (CSE 593 or IEE 585 or IEE 593).

Students must complete 30 credit hours equaling 10 courses to earn a Master of Engineering. Half of all coursework, excluding the practice-oriented project, must be in engineering.

Students must complete three credit hours of applied engineering mathematics and three credit hours of engineering management or business.

A culminating event is required and is identified by the student's advisory committee. It could be a final written or oral examination or the final report of a practice-oriented project. Additional requirements may exist for some academic units and emphasis areas of the Master of Engineering program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the desired field of study from a regionally accredited institution.

Applicants must have a minimum GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts from all institutions attended
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/>)

Career Opportunities:

Engineers approach a broad range of disciplinary and transdisciplinary opportunities by applying new approaches and technologies to solve problems, innovate and create value.

The Master of Engineering degree is an interdisciplinary program preparing engineering, science and technology majors with more advanced technical, management and practical skills that enhance a student's marketability to potential employers. The program is designed for people who are already employed in engineering or technical roles, or who are interested in expanding their skill set before entering a technical organization as manager or individual contributors.

According to the Bureau of Labor Statistics, engineers are highly paid, and there is significant growth in the number of employment opportunities. Graduates of this multidisciplinary program are able to fill these roles in the following career paths:

- Engineering managers hold leadership positions in the management of projects, process and people, combining engineering competency with managerial skills to support the efficient development of new technology and products.
- Quality and reliability engineers utilize engineering principles to make business and production processes and products more efficient and dependable. They may also look for ways to seek efficiencies while maintaining reliable products and production methods.
- Systems engineers may become technical managers who develop the technical design of complex systems, and manage them, by building on their interdisciplinary expertise, systems engineering principles and practical experience.

Engineering, MS (TSEGRMS)

Online Degree Search Title: Engineering, MS

Campus: Polytechnic

Program Description:

In the MS program in engineering, students develop applied analytical expertise across disciplinary boundaries, with direct applications of advanced design principles to system design, management and control.

The student's expertise, developed through the core curriculum, is reinforced with the flexibility of focus area options that include alternative energy, mechanical engineering and manufacturing engineering.

The culminating experience options are also flexible, allowing students to tailor the program to support their unique career goals while also becoming problem-solvers who create and shape the future.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Engineering (Automotive Systems), BSE
- Engineering (Electrical Systems), BSE
- Engineering (Mechanical Engineering Systems), BSE
- Engineering (Robotics), BSE
- Manufacturing Engineering, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis, or 30 credit hours including the required applied project course (EGR 593).

Required Core (6 credit hours)

EGR 520 Engineering Analysis I (3)

EGR 530 Principles of Systems Engineering (3)

Focus Area (15 credit hours)

Electives (3-9 credit hours)

Culminating Experience (0-6 credit hours)

EGR 593 Applied Project (3) or
EGR 599 Thesis (6) or
portfolio (0)

Additional Curriculum Information

Students should see the academic unit for a list of approved electives.

The elective credit hours required are dependent upon the chosen culminating experience option. Completion of 30 credit hours of coursework is required for all culminating experience options.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a U.S. bachelor's or master's degree from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution that is officially recognized by that country in engineering, physical sciences, mathematics or a similar field.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should review the Graduate Admission Services website at <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

If the applicant does not meet the minimum GPA requirements, the application may still be considered. In certain cases, demonstrated aptitude through professional experience or additional postbaccalaureate education will be considered.

Career Opportunities:

Engineers collaborate on interdisciplinary teams to design, manufacture and deliver innovative technological products and services. Program graduates possess not only sophisticated engineering technical skills but also the important professional skills of communication, teamwork and collaboration, and the adaptability that many employers seek.

Graduates are prepared to work in large corporations, government agencies, small businesses, as well as to go on to pursue a doctorate degree. Due to the emphasis on design and project-based learning, the program supports an entrepreneurial spirit, and some graduates start companies of their own.

Engineering Education Systems and Design, PHD (ESEESDPHD)

Online Degree Search Title: Engineering Education Systems and Design, PhD

Campus: Polytechnic

Program Description:

The PhD program in engineering education systems and design prepares all students to conduct engineering education research related to their scholarly interests using a systems and design approach.

Students who enroll in the program have a passion for developing skills as engineering education researchers and commitment to contributing to

the engineering education community. Learning is driven by engagement with faculty and peers through coursework, research and programmatic events. Students who complete the program will be equipped as exemplary scholars and leaders ready to take on a variety of roles across a range of educational settings (e.g., pre-college and higher education, science centers, government agencies, museums, policy setting institutions and industry).

Students may enter the program with a bachelor's or master's degree in an engineering or a related discipline. Areas of research may include workforce adaptability, culturally responsive education, education policy, accessibility, broadening participation in engineering, engineering classroom pedagogy, race and gender studies, student persistence, online education and teacher empathy.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam and a dissertation.

Required Core (21 credit hours)

EGR 535 Innovation and Design of Engineering Academic Settings (IDEAS) (3)

EGR 565 Qualitative Methods for Engineering Education Research (3)

EGR 572 Quantitative Methods for Engineering Education Research (3)

EGR 574 Engineering Education Systems in Context (3)

EGR 576 From Then Until Now: Examining Inequities in STEM (3)

EGR 671 Applications of Qualitative Methods for Engineering Education Research (3)

EGR 673 Applications of Quantitative Methods for Engineering Education Research (3)

Electives and Research (18 credit hours)

electives (6)

research (12)

Other Requirement (3 credit hours)

EGR 594 Topic: EESD Seminar (3)

Culminating Experience (12 credit hours)

EGR 799 Dissertation (12)

Additional Curriculum Information

Students may be allowed to apply up to 30 credit hours from a previously awarded master's degree to their doctoral program as approved by the academic unit and the Graduate College. If students do not have a master's degree, the remaining 30 credit hours must consist of at least 18 graduate-level credit hours in a particular engineering discipline and at most nine credit hours in support of the student's dissertation research area.

Students are allowed up to six credit hours of 400-level coursework on the student plan of study with appropriate faculty advisor and program chair approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- CV or resume
- writing sample
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should see the Graduate Admission Services website at <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

Global Launch at ASU offers an online alternative to standardized testing for international students who are seeking admission to ASU but need proof of English proficiency. <https://globallaunch.asu.edu/learn-english> (<https://globallaunch.asu.edu/learn-english>)

Unofficial transcripts may be submitted at time of application. If admitted, applicants must then submit official transcripts to ASU Graduate Admission Services.

If the applicant does not meet the minimum GPA requirements, the application may still be considered. In certain cases, demonstrated aptitude through professional experience or additional postbaccalaureate education is considered.

The GRE requirement is being waived for applicants through Spring 2023.

Career Opportunities:

Upon completion of the program, graduates are equipped for competitive positions in top-tier research institutions as exemplary scholars and teachers or for work as leaders in engineering education in a variety of settings, including:

- education startups
- government agencies
- industry
- policy setting institutions
- science centers and museums
- think tanks
- universities

Engineering Science (Software Engineering), MSE (ESSFEMSE)

Online Degree Search Title: Engineering Science (Software Engineering), MSE

Campus: Online

Program Description:

The MSE program in engineering science with a software engineering concentration offers specialized courses founded on the fundamentals and principles of software engineering. The program provides the knowledge and skills needed by a software engineer or software task leader on large and small projects requiring either agile methodologies or formal capability maturity model integration approaches.

The program addresses major software development methodologies, techniques, tools and processes for developing and managing software projects. The curriculum is based on the Software Engineering Body of Knowledge under the leadership of the IEEE Computer Society. Each course places an emphasis on applied assignments and projects that are relative to the student's workplace.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours including the required applied project course (CSE 593).

Required Core (6 credit hours)

CSE 565 Software Verification, Validation, and Testing (3)

CSE 566 Software Project, Process, and Quality Management (3)

Concentration (3 credit hours)

CSE 591 Topic: Software Engineering Principles and Concepts (3)

Restricted Electives (18-21 credit hours)

Culminating Experience (0-3 credit hours)

CSE 593 Applied Project (3)

portfolio (0)

Additional Curriculum Information

For an approved list of restricted electives, students should see the academic unit.

Students select five or six elective courses: five for the applied project option or six for the portfolio option.

Two faculty member-approved 400-level courses may also be selected as electives for the restricted electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in computer engineering, software engineering or a related field from a regionally accredited institution.

Applicants must have a minimum GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 12 units of the postbaccalaureate transcript.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants must provide evidence of demonstrated expertise in the area of object-oriented programming, advanced data structures, algorithm design and algorithm analysis; maturity in high-level programming (required); and successful completion of Calculus I (a minimum requirement).

GRE scores are not required.

Graduates of non-U.S. institutions must satisfy admission requirements established by the ASU Graduate College.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-engineering-engineering-science-concentration-software/>)

Career Opportunities:

Software engineers solve a broad range of disciplinary and transdisciplinary problems and apply new technologies to improve the quality of life. This master's degree prepares graduates for advanced study in computing and engineering, and it provides leadership to software engineering development projects and teams. Graduates of the program have experience using the software development life cycle and tools to solve complex, real-world problems.

According to the Bureau of Labor Statistics, software engineers are highly paid, and there is significant growth in the number of employment opportunities. Some software engineering jobs may include:

- developing software to manage new regulatory requirements in industries such as health care, and administering existing policies digitally
- identifying requirements and developing testing plans for computer systems being built into consumer electronics
- leading software development teams and projects for organizations of various sizes and complexities

Environmental and Resource Management, MS (ESERMMS)

Online Degree Search Title: Environmental and Resource Management, MS

Campus: Polytechnic

Program Description:

The MS program in environmental and resource management provides the regulatory and technical background needed to mitigate the environmental impact of industrial sources of pollution, ensure compliance with environmental regulations, and manage and preserve engineered and natural ecosystems. It is designed for students with a background in the sciences, engineering, management, natural resources management, environmental health and safety, or other affiliated areas.

The curriculum focuses on areas such as environmental law, water and wastewater treatment, air pollution management, solid and hazardous waste management, management of hazardous materials, soils and groundwater contamination, water law and policy, environmental toxicology, hazardous waste management, natural resources management, occupational health and safety, sustainable development, and international environmental laws and policies.

Graduate courses are available in a traditional face-to-face format as well as web-based distance learning. It is possible to complete the program within two years, including summers. Many students are working professionals and are able to finish the degree while working full time.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Business (Global Agribusiness), BA
- Environmental Science, BS
- Environmental Science, BA
- Environmental and Resource Management, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis, or 30 credit hours and a written comprehensive exam, or 30 credit hours including the required applied project course (ERM 593).

Required Core (6 credit hours)

ERM 502 Regulatory Framework for Toxic and Hazardous Substances (3) or ERM 527 Environmental/Resources Regulations Concepts (3)
ERM 503 Principles of Toxicology (3)

Track Courses (9 credit hours)

Electives or Research (6-12 credit hours)

Other Requirement (3 credit hours)

ERM 506 Chemistry of Hazardous Materials (3)

Culminating Experience (0-6 credit hours)

ERM 593 Applied Project (3)

ERM 599 Thesis (6)

portfolio (0)

written comprehensive exam (0)

Additional Curriculum Information

Students select either the environmental management track or the international environmental management track.

Students choose one of the culminating experiences listed above. Thesis students take nine credit hours of electives and research; applied project students take 12 credit hours of electives and research; portfolio and written comprehensive exam students take 15 credit hours of electives and research.

Students should see the academic unit for a complete list of approved electives and track courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in one of the following fields: environmental engineering, environmental and resource management, biology, chemistry, geology, environmental health, environmental management, environmental science, occupational safety and health, environmental technology, industrial hygiene, natural resource management, or a related field.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- professional resume
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should see the Graduate Admission Services website at <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency> target="_Blank").

Global Launch at ASU offers an online alternative to standardized testing for international students who are seeking admission to ASU but need proof of English proficiency. <https://globallaunch.asu.edu/learn-english/online-english/english-for-admission> (<https://globallaunch.asu.edu/learn-english/online-english/english-for-admission>)

If the applicant does not meet the minimum GPA requirements, the application may still be considered. In certain cases, demonstrated aptitude through professional experience or additional postbaccalaureate education is considered.

Unofficial transcripts may be submitted at time of application. If admitted, applicants must then submit official transcripts to ASU Graduate Admission Services.

Career Opportunities:

Graduates are employed by industrial operations such as manufacturing and mining industries; federal, state and local environmental and water agencies; environmental firms; utilities; nongovernmental organizations; and international agencies such as the U.N. and the World Bank.

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Students should note that not all programs within the Fulton Schools of Engineering lead to professional licensure.

Environmental and Resource Management (Water Management), MS (ESERMWTMS)

Online Degree Search Title: Environmental and Resource Management (Water Management), MS

Campus: Polytechnic

Program Description:

The MS program in environmental and resource management provides students who have a background in the sciences, engineering, management, natural resources management, environmental health and safety, or other affiliated areas with the regulatory and technical background they need to mitigate the environmental impact of industrial sources of pollution, ensure compliance with environmental regulations, and manage and preserve engineered and natural ecosystems.

The concentration in water management focuses on issues of water quality, supply, treatment, reclamation, conservation and augmentation strategies. This program is applicable especially to people who work in municipal, state, federal and tribal water and environmental agencies; water providers to urban and agricultural users; people who work in manufacturing and mining industries; as well as those interested in sustainable development in this country and around the world.

Graduate courses are available in a traditional face-to-face format as well as web-based, asynchronous distance learning. It is possible to complete the program within two years, including summers. Many students are working professionals and are able to finish the degree while working full time.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Environmental Science, BS
- Environmental Science, BA
- Environmental and Resource Management, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis, or 30 credit hours and a written comprehensive exam, or 30 credit hours including the required applied project course (ERM 593).

Required Core (6 credit hours)

ERM 502 Regulatory Framework for Toxic and Hazardous Substances (3) or ERM 527 Environmental/Resources Regulations Concepts (3)
ERM 503 Principles of Toxicology (3)

Concentration (9 credit hours)

ERM 523 Soils and Groundwater Contamination (3)
ERM 533 Water and Wastewater Treatment Technologies (3)
ERM 535 Water Law and Policy (3)

Electives or Research (9-15 credit hours)

Culminating Experience (0-6 credit hours)

ERM 593 Applied Project (3)
ERM 599 Thesis (6)
portfolio (0)
written comprehensive exam (0)

Additional Curriculum Information

Students choose one of the culminating experiences listed above. Thesis students take nine credit hours of electives and research; applied project students take 12 credit hours of electives and research; portfolio and written comprehensive exam students take 15 credit hours of electives and research.

Students should see the academic unit for the approved course list for electives or research. Other coursework may be used with the approval of the academic unit.

The thesis and applied project options have an oral defense.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a U.S. bachelor's or master's degree from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution that is officially recognized by that country in engineering, physical sciences, mathematics or a similar field.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Environmental Engineering, MS (ESEVEMS)

Online Degree Search Title: Environmental Engineering, MS

Campus: Tempe

Program Description:

The MS program in environmental engineering is designed for students who have a background in agricultural, biological, chemical, civil or environmental engineering or related fields.

The program provides students with advanced knowledge that can be applied when addressing grand challenges facing society, such as how to supply clean water and safe food, design a future without pollution, recover valuable resources from waste, and create healthy and smart cities.

Environmental engineers study nanotechnology, biotechnology and sustainable engineering.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours and a written comprehensive exam, or 30 credit hours and an applied project (EVE 593).

Required Core (12 credit hours)

CEE 561 Physical-Chemical Treatment of Water and Waste (3)

CEE 562 Environmental Biochemistry and Waste Treatment (3)

CEE 563 Environmental Engineering Chemistry (3)

CEE 567 Environmental Microbiology (3)

Electives or Research (6 - 12 credit hours)

Other Requirements (6 credit hours)

CEE 560 Soil and Groundwater Remediation (3)

CEE 564 Contaminant Fate and Transport (3)

EVE 568 Environmental Risk Assessment (3)

EVE 571 Water Quality Modeling (3)

Culminating Experience (3 or 6 credit hours)

EVE 593 Applied Project (3) or

EVE 599 Thesis (6)

written comprehensive exam (0)

Additional Curriculum Information

Students complete a thesis, applied project or take a written comprehensive exam as the culminating experience. Regardless of the culminating experience chosen, all students in the program complete six credit hours from the other requirements course list. Other requirement coursework may be substituted with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in environmental engineering, chemical engineering, civil engineering, agricultural engineering, biological engineering or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Those seeking a teaching assistantship must demonstrate proficiency in spoken English with a score of 55 or better on the Speaking Proficiency English Assessment Kit or a score of 26 on the speaking portion of the TOEFL.

The student's credentials for admission are evaluated by the graduate program chair. A student whose undergraduate degree is not in environmental engineering or a related field is required to take appropriate undergraduate courses as deficiency courses to establish a base of knowledge in the discipline. Deficiencies for admission to the graduate degree program are specified at the time of admission.

Prospective students should note the following GRE score requirements need to be met for consideration for admission: minimum score in the quantitative section of 155 and minimum combined score for the quantitative and verbal sections of 301.

Applicants are strongly encouraged to submit a professional resume and personal statement.

Career Opportunities:

Graduates with a master's degree in environmental engineering are employed in engineering consulting, private industry, local and federal government, and nongovernmental organizations.

Graphic Information Technology, MS (ESGITMS)

Online Degree Search Title: Graphic Information Technology, MS

Campus: Polytechnic, Online

Program Description:

The MS program in graphic information technology provides students the opportunity to study within the various areas of graphics and cross-media design. Courses offered provide students with a working knowledge of the technology and management required of the diverse graphic industries.

This program prepares students to be industry leaders who develop and manage content through numerous communication and distribution modes. Creative and comfortable with complex digital technology, graduates are innovative problem-solvers prepared for leading roles in the rapidly evolving graphics industry.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Applied Science (Graphic Information Technology), BAS
- Applied Science (Internet and Web Development), BAS
- Graphic Information Technology, BS
- Graphic Information Technology (Full-Stack Web Development), BS
- Graphic Information Technology (User Experience), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis, or 30 credit hours including the required applied project course (GIT 593).

Required Core (3 credit hours)

GIT 537 Current Issues in Cross Media Production (3)

Electives or Research (18-24 credit hours)

Other Requirement (3 credit hours)

GIT 500 Research Methods (3)

Culminating Experience (0-6 credit hours)

GIT 593 Applied Project (3) or

GIT 599 Thesis (6) or

portfolio (0)

Additional Curriculum Information

Students select an applied project, thesis or portfolio for the culminating experience. The culminating experience selected determines how many electives or research credit hours the student needs to take to complete 30 credit hours for the program.

Students should note that the thesis option is only available for on-campus students.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's degree or master's degree from a regionally accredited institution in a related field such as graphic design, web design and development, photography, videography, motion graphics and visual effects, or user experience design.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- professional resume
- proof of English proficiency
- writing sample

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should review the Graduate Admission Services website at <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

Global Launch at ASU offers an online alternative to standardized testing for international students who are seeking admission to ASU but need proof of English proficiency: <https://globallaunch.asu.edu/learn-english/asu-admission> (<https://globallaunch.asu.edu/learn-english/asu-admission>).

Unofficial transcripts may be submitted at time of application. If admitted, applicants must then submit official transcripts to ASU Graduate Admission Services.

If the applicant does not meet the minimum GPA requirements, the application may still be considered. In certain cases, demonstrated aptitude through professional experience or additional postbaccalaureate education is considered.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/graphic-information-technology-ms/>)

Career Opportunities:

This degree program prepares graduates for management positions in diverse graphic technology industries, such as:

- digital asset management
- digital media production
- internet and web development
- motion graphics
- planning and evaluation of cross media content creation and output
- pre-media, digital printing and publishing
- social media
- usability and user experience

Human Systems Engineering, MS (ECAPSYCHMS)

Online Degree Search Title: Human Systems Engineering, MS

Campus: Polytechnic

Program Description:

The MS program in human systems engineering in the Ira A. Fulton Schools of Engineering provides students with a deep understanding of the science of human performance and experience.

Students learn to use methods and tools that enable them to apply this understanding, to design and problem solve in a wide variety of domains such as product usability, learning design, sports performance, cyber security, human-robot teaming and workplace and patient safety.

A broad range of professions needs experts in human factors to work on problems that involve an understanding of human performance. Students gain real-world experience by tackling projects that examine cutting-edge issues such as cell phones as a source of driver distraction, detection of improvised explosive devices, process optimization in health care and even control of unmanned vehicles.

Interest areas include user experience, aviation human factors, cognitive performance, consumer psychology, transportation human factors, patient safety, effective teamwork, human-robot teaming, health psychology, learning optimization, social cognition, threat detection and sports psychology.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Human Systems Engineering, BS
- Human Systems Engineering (User Experience), BS
- Industrial and Organizational Psychology, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis, or 30 credit hours including the required applied project course (HSE 593).

Required Core (12 credit hours)

HSE 520 Methods and Tools in Applied Cognitive Science (3)
HSE 530 Intermediate Statistics for Human Systems Engineering (3)
HSE 531 Data Analytics: Modeling Human Subjects Data (3)
HSE 542 Foundations of Human Systems Engineering (3)

Electives and Research (12-18 credit hours)

Culminating Experience (0-6 credit hours)

HSE 593 Applied Project (6) OR
HSE 599 Thesis (6) OR
portfolio (0)

Additional Curriculum Information

Students have the option of doing a thesis (with industry guidance), an applied project to develop and demonstrate professional knowledge and skills, or a portfolio as the culminating experience.

Students selecting the thesis option work on the thesis, under faculty supervision, for at least one calendar year. The first three thesis credits are devoted to developing an idea and preparing a proposal for approval by a faculty committee. The next three credits allow for preparing the details of research design and data collection for the thesis (materials, computer programs, experimental test beds, questionnaires, etc.). The final six credits are devoted to collecting and analyzing data and writing and revising the thesis under the direction of the student's committee chair. Students defend the thesis in an oral examination.

In cases in which a student is engaged in a project initiated by industry, they may opt for the applied project option. Students carry out the applied project, under faculty supervision and guided by industry, in a calendar year in which the 12 credit hours outside of the core are allocated to a combination of research, applied project and report writing appropriate to the goals of the student and the industry partner. In all cases, the project culminates in a substantial written report followed by a comprehensive oral examination covering the project and other materials from required courses.

The portfolio should demonstrate a high level of mastery of the principles and practice of human systems engineering through a compilation of work that the student has completed through the course of their graduate study. While the specific details depend on the student's specialization, all portfolios must describe three notable projects or academic accomplishments that the student has completed through the course of graduate study that illustrate the evolution and advancement of the student's technical expertise and mastery of the field of human systems engineering. Submitted with the portfolio is a written document comprised of an overview of graduate experience and descriptions of the projects presented in the portfolio.

Applied project students take 12 elective credit hours, thesis students take nine elective credit hours plus three credit hours of HSE 592 Research, and portfolio students take 18 elective credits.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in psychology or a related field (including engineering, computer science or business) from a regionally accredited institution.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose describing professional and academic aspirations
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International applicants can find complete information on the English proficiency exams and other required documents on the Polytechnic School website: <https://poly.engineering.asu.edu/hse/ms/> (<https://poly.engineering.asu.edu/hse/ms/>).

The letters of recommendation should be from college professors, employers (in a human factors-related field) or a combination of both academic and professional references.

Applicants to this program generally have completed an undergraduate course in statistics.

Only complete applications are reviewed.

Unofficial transcripts may be submitted at time of application. If admitted, applicants must then submit official transcripts to ASU Graduate Admission Services.

Career Opportunities:

This master's degree program prepares students for industry and government careers in positions such as:

- game designer
- human factors engineer
- human systems integrator
- information systems designer
- interface designer
- military scientist
- user experience designer
- usability engineer

Graduates may work as a member of a design team for a product or system.

Recent graduates are working at places like Intel, Boeing, GoDaddy, Mayo Clinic, PayPal, Motorola, Google and the Air Force Research Lab. Recipients of this ASU master's degree also have gone on to pursue doctorates at ASU and other prestigious institutions.

Human Systems Engineering, PHD (TSSMACSPHD)

Online Degree Search Title: Human Systems Engineering, PhD

Campus: Polytechnic

Program Description:

Human systems engineering describes a growing transdisciplinary field consisting of the disciplines of psychology, engineering and computer science. This field explores how people interact with technological and social systems in contexts that include transportation, medicine, military, computing and other complex systems. Cognitive science provides the foundation necessary for integrating human capabilities and limitations into complex sociotechnical systems (i.e., the practice of cognitive engineering), and the application of cognitive science relies heavily on human systems engineering methods.

A large domain exists in which the combination of applied cognitive science and human factors with a systems approach is imperative for the design of complex sociotechnical systems. Examples include:

- design and evaluation of learning settings and technology
- development of intelligent agents that work well with humans
- driving simulators for research on driver distraction
- dynamical systems models of team interaction
- gaming simulators for studying business decision-making
- human-in-the-loop simulation studies of cybersecurity analysis
- medical simulation for health care research
- models of cognitive states and processes of sociocultural systems
- nuclear control room simulation for improved human system integration
- pilot training research using aircraft simulators
- simulation of consumer behavior
- tests of future airspace control concepts using air traffic control simulators

This PhD program in human systems engineering is designed to ensure graduates are well-grounded and skilled in the methods of human systems engineering. The curriculum provides transdisciplinary, research-driven training in the computing, engineering, technology, applied cognitive science and human systems integration.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (12 credit hours)

HSE 520 Methods and Tools in Applied Cognitive Science (3)

HSE 521 Methods and Tools in Human Systems Engineering (3)

HSE 540 Foundations of Applied Cognitive Science (3)

HSE 542 Foundations of Human Systems Engineering (3)

Foundations (6 credit hours)

Methods and Tools (3 credit hours)

Applications (9 credit hours)

Electives (36 credit hours)

Research (6 credit hours)

HSE 792 Research (6) or additional electives as selected by the PhD committee

Culminating Experience (12 credit hours)

HSE 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework is made up of electives.

Electives are identified by the committee and approved by executive committee's approval.

No more than six credit hours of 400-level course work can be included on a graduate plan of study.

Students may petition the HSE Executive Committee to allow HSE-relevant or dissertation-relevant courses to be included as HSE elective courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a minimum of a bachelor's degree in psychology, engineering, cognitive science, computer science or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts from each college or university attended
- personal statement
- professional resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should review the Graduate Admission Services website at <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>). Global Launch at ASU offers an online alternative to standardized testing for international students who are seeking admission to ASU but need proof of English proficiency.

If the applicant does not meet the minimum GPA requirements, the application may still be considered. In certain cases, demonstrated aptitude through professional experience or additional postbaccalaureate education is considered.

Unofficial transcripts may be submitted at time of application. If admitted, applicants must then submit official transcripts to ASU Graduate Admission Services.

Career Opportunities:

Graduates are well-grounded in cognitive science and skilled in its methods and applications. Employers (e.g., Department of Defense, Federal Aviation Administration, Nuclear Regulatory Commission, hospitals, industry) have an ever-increasing demand for personnel who can bridge the gap between rigorous science and solutions to real-world problems. This program prepares students for industry, academic and government careers in positions such as:

- human factors engineer
- human systems integrator
- information systems designer
- interface designer
- military scientist
- user experience designer
- usability engineer

Graduates may work as a member of a design team for a product or system.

Human Systems Engineering (Aviation Human Factors), MS (ESHSEAHFMS)

Online Degree Search Title: Human Systems Engineering (Aviation Human Factors), MS

Campus: Polytechnic

Program Description:

The MS program in human systems engineering with a concentration in aviation human factors provides students with a deep understanding of the science of human performance and experience in the aerospace and aviation industries.

Students in this program participate in courses focusing on methods and tools in applied cognitive science, foundations of human systems engineering, uses of simulation, aviation physiology and crew resource management, among other topics. They gain understanding of cognitive science and human systems concepts and tools that enables them to effectively analyze, design and develop aerospace and aviation products, workspaces, operations and training programs.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis, or 30 credit hours including the required applied project course (HSE 593).

Required Core (12 credit hours)

- HSE 520 Methods and Tools in Applied Cognitive Science (3)
- HSE 530 Intermediate Statistics for Human Systems Engineering (3)
- HSE 531 Data Analytics: Modeling Human Subjects Data (3)
- HSE 542 Foundations of Human Systems Engineering (3)

Concentration (6 credit hours)

- AMT 533 Aviation Systems and Psychology (3)
- AMT 565 Safety in Complex Systems (3)

Electives and Research (6 or 12 credit hours)

Culminating Experience (0 or 6 credit hours)

- HSE 593 Applied Project (6) or
- HSE 599 Thesis (6) or
- portfolio (0)

Additional Curriculum Information

For electives and research coursework, enrollment in HSE 592 Research for three credit hours is required for students completing a thesis and optional for students completing the applied project or portfolio culminating experience. Students in all culminating experience options should contact the academic unit for an approved electives list.

Students completing a portfolio for the culminating experience must complete 12 credit hours of electives and research coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering, aeronautical management, psychology or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- curriculum vitae or professional resume
- professional statement
- research summary
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Global Launch at ASU offers an online alternative to standardized testing for international students who are seeking admission to ASU but need proof of English proficiency: <https://globallaunch.asu.edu/learn-english/online-english/english-for-admission> (<https://globallaunch.asu.edu/learn-english/online-english/english-for-admission>).

Unofficial transcripts may be submitted at time of application. If admitted, applicants must then submit official transcripts to ASU Graduate Admission Services.

Career Opportunities:

Graduates of this program are prepared for management, research and training positions in aerospace and aircraft manufacturing, airlines, flight training and government.

Human Systems Engineering (Health Systems), MS (ESHSEHSMS)

Online Degree Search Title: Human Systems Engineering (Health Systems), MS

Campus: Polytechnic

Program Description:

The MS program in human systems engineering with a concentration in health systems provides current and future managers with the technical expertise to lead efficient health care systems by identifying needs through system modeling, field research and analytics to improve existing health care systems. This concentration program also allows students to perform research and develop innovative approaches to transform health care from reactive to proactive systems, which reflect National Institute of Health initiatives.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis, or 30 credit hours including the required applied project course (HSE 593).

Required Core (12 credit hours)

HSE 520 Methods and Tools in Applied Cognitive Science (3)

HSE 530 Intermediate Statistics for Human Systems Engineering (3)

HSE 531 Data Analytics: Modeling Human Subjects Data (3)

HSE 542 Foundations of Human Systems Engineering (3)

Concentration (6 credit hours)

BMI 605 Health Information Systems and Applications (3)

BMI 613 Workflow Analysis and Redesign in Health Systems Engineering (3)

BMI 616 Clinical Decision Support and Evidence-based Medicine (3)

HCD 502 Health Care Systems and Design (3)

HCD 570 Process Engineering (3)

HCD 575 Leadership and Professionalism (3)

Electives and Research (0 - 9 credit hours)

Other Requirements (3 credit hours)

HSE 525 Health and Human Systems Engineering (3)

Culminating Experience (0 or 6 credit hours)

HSE 593 Applied Project (6) or

HSE 599 Thesis (6) or

portfolio (0)

Additional Curriculum Information

For electives and research coursework, enrollment in HSE 592 Research for three credit hours is required for students completing a thesis, and optional for students completing the applied project or portfolio culminating experience. Students in all culminating experience options should contact the academic unit for an approved electives list.

Students completing a portfolio for the culminating experience must complete 9 credit hours of electives and research coursework.

Other requirement course HSE 525 is required for all students, but in some situations may be substituted with academic unit approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering, health, nutrition, psychology or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- curriculum vitae or professional resume
- professional statement
- research summary
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Global Launch at ASU offers an online alternative to standardized testing for international students who are seeking admission to ASU but need proof of English proficiency: <https://globallaunch.asu.edu/learn-english/online-english/english-for-admission> (<https://globallaunch.asu.edu/learn-english/online-english/english-for-admission>).

Unofficial transcripts may be submitted at time of application. If admitted, applicants must then submit official transcripts to ASU Graduate Admission Services.

Career Opportunities:

Health care is a growing sector of the economy, accounting for almost 18% of the U.S. Gross Domestic Product in 2020 (<https://www.cdc.gov> (<https://www.cdc.gov/>)). Recent changes to the health care landscape at the federal level have led to increasing demand for measurable increases in efficiency and effectiveness of care delivery. To that end, technologies are deployed to manage, track and measure treatment effectiveness, patient satisfaction, provider reimbursement and process improvement, all of which require understanding of the human system and the complex

processes involved in this work. Thus, human systems engineering tools and techniques can create efficiencies in all aspects of care delivery in which a human is involved to improve system performance. Related to human systems engineers in health care, employment of industrial engineers is projected to grow 10% between 2016 and 2026, which is also faster than average for all occupations (Bureau of Labor Statistics).

Human Systems Engineering (Intelligent Systems), MS (ESHSEISMS)

Online Degree Search Title: Human Systems Engineering (Intelligent Systems), MS

Campus: Polytechnic

Program Description:

Intelligent technologies have seen rapid growth in the last decade. These technologies are now seen within public sector industries such as military and space exploration, private sector such as medicine manufacturing, and education sector with the rise interactive e-learning environments and the use of learning technology within classrooms. The real change will be the way the humans are able to interact with these new technologies: humans teaming up with robots and AI assistants.

The MS program in human systems engineering with a concentration in intelligent systems provides students with a deep understanding of the science of human performance and experience in the engineering of intelligent systems, robotics and autonomous systems industries.

Students in this program participate in courses focusing on methods and tools in applied cognitive science and foundations of human systems engineering, including uses of simulation and robotics, among other topics.

This concentration prepares students for facilitating the future of work when humans will work closely with heterogeneous technology in the military, space exploration, education, manufacturing, medicine and agriculture.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis, or 30 credit hours including the required applied project course (HSE 593).

Required Core (12 credit hours)

HSE 520 Methods and Tools in Applied Cognitive Science (3)

HSE 530 Intermediate Statistics for Human Systems Engineering (3)

HSE 531 Data Analytics: Modeling Human Subjects Data (3)

HSE 542 Foundations of Human Systems Engineering (3)

Concentration (9 credit hours)

Electives and Research (3 or 9 credit hours)

Culminating Experience (0 or 6 credit hours)

HSE 593 Applied Project (6) or

HSE 599 Thesis (6) or

portfolio (0)

Additional Curriculum Information

For electives and research coursework, enrollment in HSE 592 Research for three credit hours is required for students completing a thesis and optional for students completing the applied project or portfolio culminating experience. Students in all culminating experience options should contact the academic unit for an approved electives list.

Students completing a portfolio for the culminating experience must complete nine credit hours of electives and research coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering, robotics engineering, mathematics or a related field from a regionally accredited institution. Students must have sufficient mathematics background for this concentration,

including up to calculus III and linear algebra.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- curriculum vitae or professional resume
- professional statement
- research summary
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Global Launch at ASU offers an online alternative to standardized testing for international students who are seeking admission to ASU but need proof of English proficiency: <https://globallaunch.asu.edu/learn-english/online-english/english-for-admission> (<https://globallaunch.asu.edu/learn-english/online-english/english-for-admission>).

Unofficial transcripts may be submitted at time of application. If admitted, applicants must then submit official transcripts to ASU Graduate Admission Services.

Career Opportunities:

Graduates skilled in human interactions with robots, artificial intelligence agents and autonomous systems are needed to design the future of work. They can compose teams of human and nonhuman agents so that they are safe, effective, and have a positive impact on society and human well-being. The individuals who design those interactions and who decide what tasks to allocate to AI need to understand human capabilities and limitations and be able to work on multidisciplinary teams to ensure human considerations are accounted for.

Human Systems Engineering (User Experience Research), MS (ESHSEUERMS)

Online Degree Search Title: Human System Engineering (User Experience Research), MS

Campus: Polytechnic

Program Description:

The MS program in human systems engineering with a concentration in user experience research focuses on designing products that are useful, usable, desirable, easy to learn, efficient to use and easy to remember. It focuses on the research, design and validation of all system components an end user interacts with, including software user interfaces, documentation, help systems, user support, aesthetics and communication. It is an important specialization within human systems engineering with a bright job outlook.

Students may complement their education with courses in graphic information technology, technical communications and entrepreneurship to strengthen their skills in information architecture, visual design and user interface prototyping. Additionally, hands-on user experience projects in these classes help students build portfolios necessary for entry-level positions.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis, or 30 credit hours including the required applied project course (HSE 593).

Required Core (12 credit hours)

HSE 520 Methods and Tools in Applied Cognitive Science (3)

HSE 530 Intermediate Statistics for Human Systems Engineering (3)

HSE 531 Data Analytics: Modeling Human Subjects Data (3)

HSE 542 Foundations of Human Systems Engineering (3)

Concentration (9 credit hours)
HSE 521 Methods and Tools in Human Systems Engineering (3)
HSE 525 Health and Human Systems Engineering (3)
TWC 511 Principles of Visual Communication (3)
TWC 514 Visualizing Data and Information (3)
TWC 544 User Experience (3)

Electives or Research

Culminating Experience
HSE 593 Applied Project (6) or
HSE 599 Thesis (6) or
portfolio (0)

Additional Curriculum Information

For electives and research coursework, enrollment in HSE 592 Research for three credit hours is required for students completing a thesis and optional for students completing the applied project or portfolio culminating experience. Students in all culminating experience options should contact the academic unit for an approved electives list.

Students completing a portfolio for the culminating experience must complete nine credit hours of electives and research coursework.

Admission Requirements:

An applicant must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering, user experience, psychology or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- curriculum vitae or professional resume
- professional statement
- research summary
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should review the Graduate Admission Services website at <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

Unofficial transcripts may be submitted at time of application. If admitted, applicants must then submit official transcripts to ASU Graduate Admission Services.

Career Opportunities:

This master's degree program prepares students for industry and government careers in positions such as:

- game designer
- human factors engineer
- human systems integrator
- information systems designer
- interface designer
- military scientist
- usability engineer
- user experience designer

Graduates of the Master of Science program in human systems engineering find employment in user experience design and user experience research at companies like Apple, Hulu, Slack, HP, GoDaddy and Intel.

Industrial Engineering, MS (ESINDENMS)

Online Degree Search Title: Industrial Engineering, MS

Campus: Tempe, Online

Program Description:

The industrial engineering MS program prepares students to give practical and economically efficient solutions to real-life, complex problems --- solutions that require a system level approach. Examples of these problems include health delivery, food and energy systems as well as those that arise in the strategic planning of manufacturing, logistics operations and service industries. Some of the tools used to address these problems include statistics, optimization, computer simulation and advanced analytics.

The industrial engineering program is immersed in the innovation environment that permeates Arizona State University, and its faculty members are internationally recognized for their innovative research projects, funded both by government and industry.

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as a concurrent program with the following: W. P. Carey MBA - Online Program

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Engineering Management, BSE
Industrial Engineering, BSE

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including a portfolio.

Required Core (12 credit hours)

IEE 505 Information Systems Engineering (3) or IEE 506 Web-Enabled Decision Support Systems (3)

IEE 545 Advanced Simulating Stochastic Systems (3) or IEE 561 Production Systems (3)

IEE 572 Design Engineering Experiments (3) or IEE 573 Reliability Engineering (3) or IEE 578 Regression Analysis (3)

IEE 574 Applied Deterministic Operations Research (3) or IEE 575 Applied Stochastic Operations Research Models (3)

Elective (0-6 credit hours)

Related Area (9-12 credit hours)

Culminating Experience (0-6 credit hours)

IEE 599 Thesis (6) or
portfolio (0)

Additional Curriculum Information

The Master of Science in industrial engineering is a 30 credit hour program which has a thesis and a nonthesis track. The thesis track requires 24 credit hours of coursework, six credit hours of thesis, a written thesis and a final oral examination. The nonthesis track requires 30 credit hours of coursework and a portfolio.

At the time of admission, students' applications are considered primarily for the nonthesis track. After matriculating at Arizona State University, a student may consult with and receive approval from the industrial engineering faculty to pursue the thesis track.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.20 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts from all institutions attended
- a statement of purpose
- three letters of recommendation
- proof of English language proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

<https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>)

At the time of application, all applicants must have successfully completed a minimum of nine credit hours of calculus (Calculus I, II, III) with a grade of "C" (scale is 4.00 = "A") or higher.

A student with any deficiency coursework must complete each deficiency with a grade of "B" or better (scale is 4.00 = "A") within two semesters of admission to the program. Deficiency courses include:

CSE 110 Principles of Programming

CSE 205 Object-oriented Programming and Data Structures

IEE 376 Operations Research Deterministic Techniques/Applications

IEE 380 Probability and Statistics for Engineering Problem Solving

IEE 470 Stochastic Operations Research

MAT 242 Elementary Linear Algebra

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-industrial-engineering/>)

Career Opportunities:

Industrial engineers integrate people, processes, equipment, information and systems to do things better. The industrial engineering graduates will be developing, implementing and improving processes, operations and systems in industries for manufacturing, services, communications, agriculture or any other field.

Students completing the Master of Science program in industrial engineering are suited for careers in logistics, finance, defense, travel and health care.

Industrial Engineering, PHD (ESINDENPHD)

Online Degree Search Title: Industrial Engineering, PhD

Campus: Tempe

Program Description:

The PhD program in industrial engineering engages students in fundamental and applied research. The overall educational objective of graduate study in industrial engineering is to improve each student's ability to identify, define and solve problems and perform original research to address

the underlying causes of these problems. Industrial engineers develop qualitative and quantitative abilities to guide the design and operation of sustainable organizations and systems.

This doctoral program provides a rigorous education and provides students with research and educational experiences. A large number of these students are involved in applied research projects that are carried out in the context of government or privately-funded research. The program provides students access to many opportunities to participate in highly impactful research projects and interact with the leaders of the subfield that they choose to study and specialize in. Hence, many of them graduate with significant accomplishments resulting from the work they performed during the course of their doctoral study.

Degree Requirements:

85 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (15 credit hours)

IEE 605 Foundations of Information Systems Engineering (3)

IEE 620 Optimization I (3)

IEE 622 Optimization II (3)

IEE 640 Probability and Stochastic Processes (3)

IEE 670 Mathematical Statistics (3)

Electives (42 credit hours)**Research and Internship Required Coursework (16 credit hours)**

IEE 594 Conference and Workshop (1)

IEE 700 Research Methods (1)

IEE 784 Teaching Internship (1)

IEE 790 Reading and Conference (1) OR IEE 584 Internship (1)

IEE 792 Research (12)

Culminating Experience (12 credit hours)

IEE 799 Dissertation (12)

Additional Curriculum Information

Students are required to complete five core courses within the first year of full-time enrollment in the doctoral program. To be allowed to continue in the program after completion of the core courses, each student must take and successfully pass a qualifying exam on three of the five core courses.

Eligible students can request a master's in passing after successfully completing the qualifying exam and completing 30 credit hours in the doctoral program.

A written and an oral comprehensive examination are required no later than the semester following completion of 57 credit hours of coursework in the plan of study. The student must also successfully defend the dissertation prospectus and the dissertation research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.50 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.50 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a statement of purpose
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency:

<https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>)

At the time of application, all applicants must have successfully completed a minimum of nine credit hours of calculus (Calculus I, II, III) with a grade of "C" or higher (scale is 4.00 = "A").

A student with any deficiency coursework must complete each deficiency with a grade of "B" (3.00) or better within two semesters of admission to the program.

Deficiency courses include:

CSE 110 Principles of Programming

CSE 205 Object-Oriented Programming and Data Structures

IEE 376 Operations Research Deterministic Techniques/Applications

IEE 380 Probability and Statistics for Engineering Problem Solving

IEE 470 Stochastic Operations Research

MAT 242 Elementary Linear Algebra

Students should see the program website for application deadlines.

Career Opportunities:

Graduates of the program are prepared for careers in academia, government and industry doing teaching, advanced research, and developing and making use of advanced techniques for the operation of their businesses.

Information Technology, MS (TSIFTMS)

Online Degree Search Title: Information Technology, MS

Campus: Polytechnic, Online

Program Description:

The MS program in information technology teaches advanced technology skills to prepare students for careers in industry, education or government.

Students gain the ability to conceptualize, organize and realize information technology projects that meet the needs of users within an organizational or societal context. Students select coursework that encompasses core technologies in one of two focus areas: information technology security and information systems management. A student's focus area at the time of admission defines the coursework for degree completion.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Information Technology, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours including the required applied project course (IFT 593).

Required Core (9 credit hours)

IFT 510 Principles of Computer and Information Technology Architecture (3)

IFT 520 Advanced Information Systems Security (3) or IFT 530 Advanced Database Management Systems (3)

IFT 540 Information Systems Development (3)

Open Elective (6-9 credit hours)

Focus Area Electives (12 credit hours)

Culminating Experience (0 or 3 credit hours)
IFT 593 Applied Project (3) or
portfolio (0)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in information technology, computer science, applied computing, engineering or a closely related field from a regionally accredited college or university.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should see the Graduate Admission Services website at <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency> target="_Blank").

Unofficial transcripts may be submitted at time of application. If admitted, applicants must then submit official transcripts to ASU Graduate Admission Services.

If the applicant does not meet the minimum GPA requirements, the application may still be considered. In certain cases, demonstrated aptitude through professional experience or additional postbaccalaureate education are considered.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/information-technology-ms/>)

Career Opportunities:

Graduates of the information technology program are well qualified for careers in the management of IT departments as this degree couples technical skills with the business skills needed to manage technical functions. Some graduates may pursue careers as technical support staff based on the focus area and secondary skills they achieve. Graduates also have the ability to manage technical professionals within their focus areas.

Innovation and Venture Development, MS (HIIVDMS)

Online Degree Search Title: Innovation and Venture Development, MS

Campus: Tempe

Program Description:

The MS program in innovation and venture development integrates the most advanced practices and technologies from business, engineering and design in a transdisciplinary, experience-based program that prepares the next generation of leaders with skills needed for launching successful ventures in any industry or sector, inside existing organizations or as new entities.

Graduates are prepared to lead cross-disciplinary teams in a world of growing uncertainty and ambiguity. They can identify needs and evaluate opportunities, generating insights from real-world problems; innovate solutions; and create and launch scalable business models that provide value to all stakeholders. Founders with this innovation and venture development degree from ASU can define a new standard for venture development.

Degree Requirements:

30 credit hours including the required capstone course (IVD 661).

Required Core (18 credit hours)

IVD 525 Fundamentals of Entrepreneurial Leadership (3)

IVD 560 Innovation Studio I: Discovery and Insight (3)

IVD 561 Innovation Studio II: Problem Reframing (3)

IVD 562 Innovation Studio III: Explore, Fail, Solve (3)

IVD 630 Scaling Entrepreneurial Leadership (3)

IVD 660 Innovation Studio IV: Business Model (3)

Electives or Research (6 credit hours)

Culminating Experience (6 credit hours)

IVD 661 Innovation Studio V: Scale (6)

Additional Curriculum Information

Students should see the academic unit for a list of approved elective coursework.

Admission Requirements:

Applicants must fulfill the requirements of the Graduate College, the Herberger Institute for Design and the Arts, the Ira A. Fulton Schools of Engineering and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in business, design, engineering or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- professional resume
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The applicant's written statement should describe an instance from the professional background outlining the applicant's use of innovation and entrepreneurial experience.

Career Opportunities:

Career opportunities include:

- chief innovation officer
- creative developer
- director of engineering
- founder or CEO
- innovation manager
- management consultant
- marketing director
- product developer

Lean Six Sigma Black Belt (Certificate), Certificate (ESLSSBGRCT)

Online Degree Search Title: Lean Six Sigma Black Belt (Graduate Certificate)

Campus: Tempe, Online

Program Description:

The Lean Six Sigma Black Belt graduate certificate is designed for engineers and managers who oversee tactical and strategic projects as well as various operational functions in their organizations.

The certificate program provides students with a set of contemporary tools they would use to produce measurable improvements in business processes. Students gain an in-depth understanding of the Six Sigma define, measure, analyze, improve, control process and the tools used to achieve effective process and product improvement. They develop the leadership and team-building skills necessary for overseeing continuous improvement projects with many stakeholders, and they understand how lean principles and design for Six Sigma fit into the overall task of product and process improvement.

The culminating experience is in line with the black belt certification requirements used nationwide in similar certification programs.

Degree Requirements:

15 credit hours including the required capstone courses (IEE 585).

Required Core (6 credit hours)

IEE 570 Advanced Quality Control (3)

IEE 581 Six Sigma Methodology (3)

Electives (6 credit hours)

Culminating Experience (3 credit hours)

IEE 585 Six Sigma Capstone (3)

Additional Curriculum Information

For electives, students should see the academic unit for the approved course list.

A minimum grade of "B" is required for capstone course IEE 585.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

<https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>)

Required Prerequisite Courses:

CSE 110 Principles of Programming, or equivalent

IEE 380 Probability and Statistics for Engineering Problem Solving, or equivalent

MAT 267 Calculus for Engineers III, or equivalent

No more than 40% of coursework toward the requirements of a graduate certificate may be completed prior to admission to the certificate program.

This certificate is also available through the Pathways for the Future program. <https://pff.asu.edu> (<https://pff.asu.edu>)

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/certificates/lean-six-sigma-black-belt-graduate-certificate/>)

Career Opportunities:

Six Sigma is a proven systematic approach to continuous improvement of critical processes in a wide range of industrial environments such as banks, manufacturing facilities and hospitals. The American Society of Quality defines the certified Six Sigma black belt as a professional who can explain Six Sigma philosophies and principles, including supporting systems and tools.

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Manufacturing Engineering, MS (TSMEGRMS)

Online Degree Search Title: Manufacturing Engineering, MS

Campus: Polytechnic

Program Description:

Manufacturing engineering draws upon two distinct bodies of knowledge: manufacturing processes (i.e., how materials are altered in either shape or properties) and the processes of manufacturing (i.e., manufacturing systems and management). This combination of topics is embedded in the MS program in manufacturing engineering, and students can follow their interests by developing deeper expertise in either manufacturing processes or the processes of manufacturing.

The program provides advanced technical content to help students prepare for career transitions and improve company competitiveness. It consists of a core set of courses designed to provide all students with advanced knowledge of manufacturing fundamentals and an introduction to systems engineering. The expertise developed in the core curriculum supports student focus areas building on existing unit faculty strengths, including automation, additive and subtractive manufacturing processes including computer numerical control machining, modeling and simulation, electronics manufacturing and manufacturing management.

Thesis, applied project and portfolio options are offered for the culminating experience.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Engineering (Automotive Systems), BSE
- Engineering (Electrical Systems), BSE
- Engineering (Mechanical Engineering Systems), BSE
- Engineering (Robotics), BSE
- Manufacturing Engineering, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis, or 30 credit hours including the required applied project course (EGR 593).

Required Core (6 credit hours)

EGR 520 Engineering Analysis I (3)

EGR 522 Statistics for Quality Control in Manufacturing (3)

Electives (15-21 credit hours)

Other Requirement (3 credit hours)

EGR 598 Topic: Manufacturing Systems Management (3)

Culminating Experience (0-6 credit hours)

EGR 593 Applied Project (3) or

EGR 599 Thesis (6) or

portfolio (0)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives.

EGR 598 Topic: Manufacturing Systems Management may be substituted with approval from the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a minimum of a bachelor's or master's degree in engineering, physical sciences, mathematics or similar from a regionally accredited U.S. institution, or the equivalent of a U.S. bachelor's degree from an international institution that is officially recognized by that institution's country.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should review the Graduate Admission Services website at <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

Global Launch at ASU offers an online alternative to standardized testing for international students who are seeking admission to ASU but need proof of English proficiency. <https://globallaunch.asu.edu/learn-english/online-english/english-for-admission> (<https://globallaunch.asu.edu/learn-english/online-english/english-for-admission>)

If the applicant does not meet the minimum GPA requirements, the application may still be considered. In certain cases, demonstrated aptitude through professional experience or additional postbaccalaureate education is considered.

Unofficial transcripts may be submitted at time of application. If admitted, applicants must then submit official transcripts to ASU Graduate Admission Services.

Career Opportunities:

Graduates of the Master of Science program in manufacturing engineering find opportunities in both large and small corporations and government agencies as well as within startup enterprises where they play a critical role.

Typical job responsibilities include manufacturing process design, manufacturing process management and quality control and assurance, and graduates with advanced degrees have opportunities to participate in and lead research teams that are developing the next generation of advanced manufacturing technologies.

ASU manufacturing engineering graduates are well placed and command top salaries in their engineering careers, some of which include:

- additive manufacturing
- automation and robotics
- engineering economics
- logistics and supply chain management
- manufacturing operations
- project management
- quality management and reliability

Materials Science and Engineering, MS (ESMATEMS)

Online Degree Search Title: Materials Science and Engineering, MS

Campus: Tempe, Online

Program Description:

The MS program in materials science and engineering prepares engineers for doctoral study or industrial positions that specialize in research, project management and product innovation in materials science and engineering.

The program stresses a sound foundation in technical fundamentals, communication and professionalism. To this end, a broad-based curriculum is offered in thermodynamics, structures and mechanical properties; kinetics; optical and magnetic properties; materials characterization; and energy production and storage.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Chemical Engineering, BSE
- Chemistry, BS
- Materials Science and Engineering, BSE
- Mechanical Engineering, BSE
- Mechanical Engineering (Computational Mechanics), BSE
- Mechanical Engineering (Energy and Environment), BSE
- Physics, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including a portfolio, or 30 credit hours including the required applied project course (MSE 593).

Required Core (6 credit hours)

- MSE 503 Concepts in Materials Science (3)
- MSE 523 Structural and Mechanical Properties of Materials (3)
- MSE 524 Advanced Thermodynamics (3)
- MSE 525 Fundamentals of Electrical, Optical, and Magnetic Materials and Device Applications (3)
- MSE 550 Advanced Materials Characterization (3)
- MSE 560 Nanomaterials in Energy Production and Storage (3)
- MSE 561 Phase Transformations, Kinetics, and Diffusion in Solids (3)

Technical Electives (18 or 24 credit hours)

Culminating Experience (0-6 credit hours)

- MSE 593 Applied Project (3) or
- MSE 599 Thesis (6) or
- portfolio (0)

Additional Curriculum Information

The materials science and engineering MS program has two options: thesis and nonthesis.

All students are admitted to the nonthesis option. The nonthesis option requires a portfolio. During the last semester of their program, students in the portfolio option submit a portfolio containing at least two projects from previous materials science and engineering coursework along with a paper explaining the projects. Students must successfully complete the portfolio requirements to pass the culminating experience. Students completing a portfolio must also take an extra six credit hours of elective coursework to reach the required 30 credit hours for the program.

Students in the applied project option write a written report in consultation with their faculty chair and present at the end of semester poster symposium.

If students wish to change to the thesis option, a faculty advisor has to be secured, and then a petition can be submitted to change to the thesis option. Students in the thesis option must complete a thesis and pass the thesis defense examination.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Admission to the materials science and engineering graduate program is highly competitive. All applicants must submit:

- graduate admission application and application fee
- official transcripts from all prior institutions attended
- personal statement
- resume or curriculum vitae
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants whose native language is not English are required to achieve a minimum score of 90 on the Internet-based TOEFL.

Admission to the 4+1 degree program requires a 3.50 ASU GPA (scale is 4.00 = "A") in degree-applicable courses. All applications are subject to review and admission is not guaranteed.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-materials-science-and-engineering/>)

Career Opportunities:

Professionals with a materials science and engineering master's degree have strong opportunities at all levels in material design, selection, synthesis and characterization for a wide range of applications including electro-optical-magnetic systems, environmental systems, energy conversion and storage, manufacturing and construction. Materials jobs are available at a large number of high tech and manufacturing companies all sizes as well as national (DOE, DOD, NASA) laboratories and universities. Analytical skills learned in materials engineering are also valued for other non-engineering positions.

Career examples include:

- engineer
- engineering manager or director
- engineering professor
- research engineer

Campus: Tempe

Program Description:

The PhD program in materials science and engineering prepares students for professional careers in materials science and engineering and related fields in industry, government and educational institutions.

This field draws upon a fundamental base of knowledge, with underpinnings in physics, chemistry and engineering. The program extends that knowledge to address a broad range of materials-driven challenges, such as energy efficiency, sustainability, functional nanostructures, electronic materials, biomaterials and polymers.

Interdisciplinary in nature, the curriculum offers required courses in four core subjects:

- advanced thermodynamics
- kinetics and phase transformations
- physics of materials
- structure and properties of materials

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (12 credit hours)

MSE 523 Structural and Mechanical Properties of Materials (3)

MSE 524 Advanced Thermodynamics (3)

MSE 525 Fundamentals of Electrical, Optical, and Magnetic Materials and Device Applications (3)

MSE 561 Phase Transformations, Kinetics, and Diffusion in Solids (3)

Electives (3-18 credit hours)

Research (24-39 credit hours)

MSE 792 Research

Other Requirement (3 credit hours)

MSE 591 Seminar (3)

Culminating Experience (12 credit hours)

MSE 799 Dissertation (12)

Additional Curriculum Information

Students entering with a bachelor's degree are required to complete a minimum of 18 credit hours of elective coursework. Graduate elective courses may be selected from any of the graduate courses in the materials science and engineering curriculum as well as elective courses from related disciplines (e.g., chemistry, physics, electrical engineering), subject to approval by the faculty advisor. These courses should comprise a focused plan of study with emphasis in a particular area of materials science, organized in consultation with faculty supervisory committee.

Students entering the doctoral program with a master's degree need to complete 24 credit hours of research (MSE 792). Students entering with a bachelor's degree are required to complete 39 credit hours of research (MSE 792).

MSE 591 is a one credit hour course to be taken in three semesters. The seminar course consists of a series of seminars presented by invited speakers and graduate students. Doctoral students are required to give a seminar presentation once during the academic year after they have begun their research.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework is made up of electives and research coursework as specified by the academic unit. If the master's degree has not been completed, a maximum of 12 credit hours of graduate work may be applied with program approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited U.S. or international institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Admission to the materials science and engineering doctoral program is highly competitive. All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- personal statement
- resume or curriculum vitae
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Once the application file is complete, the file is forwarded to the faculty admissions committee for evaluation and recommendation.

The admission process considers all aspects of the student's application. The typical successful applicant has, at minimum, a cumulative GPA of 3.25 (scale is 4.00 = "A") in engineering and science coursework in a bachelor's or master's degree program and has high GRE scores as well as high TOEFL scores for those whose native language isn't English.

Financial aid is available to highly qualified students. The most common type of financial aid is teaching and research assistantships, which are accompanied by tuition waivers and major medical insurance benefits. Other types of financial aid include Ira A. Fulton Schools of Engineering fellowships and Science Foundation Arizona fellowships.

Career Opportunities:

Professionals with a materials science and engineering doctoral degree have strong opportunities at all levels in material design, selection, synthesis and characterization for a wide range of applications including electro-optical-magnetic systems, environmental systems, energy conversion and storage, manufacturing and construction. Materials jobs are available at a large number of high tech and manufacturing companies of all sizes as well as national (DOE, DOD, NASA) laboratories and universities. Analytical skills learned in materials engineering are also valued for other nonengineering positions.

Career examples include:

- engineer
- engineering manager or director
- engineering professor
- research engineer

Mechanical Engineering, MS (ESMEMS)

Online Degree Search Title: Mechanical Engineering, MS

Campus: Tempe

Program Description:

The MS program in mechanical engineering prepares engineers for doctoral study or industrial positions that specialize in research, project management and product innovation in mechanical engineering.

The program stresses a sound foundation in technical fundamentals, communication and professionalism. To this end, a broad-based curriculum is

offered in design, system dynamics and control; fluid mechanics and aerodynamics; mechanics and dynamics of solids and structures; transport phenomena; thermodynamics; and energy.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Aerospace Engineering (Aeronautics), BSE
- Aerospace Engineering (Astronautics), BSE
- Aerospace Engineering (Autonomous Vehicle Systems), BSE
- Mechanical Engineering, BSE
- Mechanical Engineering (Computational Mechanics), BSE
- Mechanical Engineering (Energy and Environment), BSE

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis, or 30 credit hours including an applied project (MAE 593).

Major Area of Emphasis (12 or 15 credit hours)

Technical Electives (6 or 9 credit hours)

Mathematics (6 credit hours)

Culminating Experience (0 to 6 credit hours)

MAE 593 Applied Project (3) or

MAE 599 Thesis (6) or

portfolio (0)

Additional Curriculum Information

All students are admitted to the nonthesis option unless a faculty thesis advisor is secured, at which time the student can initiate a change to the thesis option.

The plan of study must be in accordance with university and program requirements. A minimum cumulative GPA of 3.00 (scale is 4.00 = "A") is required throughout the program. Candidates for the program must complete a minimum of 30 credit hours of approved courses at the 500 level and above, with a minimum cumulative GPA of 3.00 or above.

Coursework for the major area of emphasis is restricted to MAE coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume or curriculum vitae
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency; a minimum score of 80 on the internet-based TOEFL is required.

Admission to the mechanical engineering graduate program is highly competitive and preferred applicants have an undergraduate degree in aerospace engineering or mechanical engineering.

Admission to the 4+1 degree program requires a 3.50 ASU GPA (scale is 4.00 = "A") in degree-applicable courses. All applications are subject to review and admission is not guaranteed.

Applicants should see the program website for application deadlines.

Career Opportunities:

Professionals with a mechanical engineering master's degree have strong opportunities at most levels in mechanical engineering in research, design, and manufacturing at companies of all sizes as well as national laboratories (DOE, DOD, NASA). Analytical skills learned in mechanical engineering are also valued for other nonengineering positions.

Career examples include:

- engineer
- engineering manager or director
- research engineer

Mechanical Engineering, PHD (ESMEPHD)

Online Degree Search Title: Mechanical Engineering, PhD

Campus: Tempe

Program Description:

This PhD program in mechanical engineering emphasizes original research and provides students with a strong background for employment by academic institutions, government laboratories and industrial research laboratories with a focus on mechanical engineering.

The program stresses a sound foundation in technical fundamentals, communication and professionalism. To this end, a broad-based curriculum is offered in design, system dynamics and control; fluid mechanics and aerodynamics; mechanics and dynamics of solids and structures; transport phenomena; thermodynamics; and energy. Modern computational and laboratory facilities are available to support timely research investigations.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

84 credit hours
qualifying exams
written and oral comprehensive exams
prospectus
dissertation

All students pursuing the doctorate are required to pass both a qualifying and a comprehensive examination administered by the program committee.

credit hours of coursework directly related to the research area (18)
credit hours of mathematics (9)
credit hours of graduate elective courses outside the major research area (9)
MAE 792 Research
MAE 799 Dissertation credit hours (12)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from an accredited U.S. or international institution.

Applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- personal statement
- resume or curriculum vitae
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency and is required to achieve a minimum score of 80 on the internet-based TOEFL.

Admission to the mechanical engineering doctoral program is highly competitive and preferred applicants have an undergraduate or Master of Science degree in aerospace engineering or mechanical engineering. The admission process considers all aspects of the student's application and admission is not guaranteed. The typical successful applicant has at least a cumulative GPA score of 3.25 (scale is 4.00 = "A") in engineering and science coursework in a bachelor's or master's degree program and has high GRE and a successful applicant whose native language isn't English would also have a high TOEFL score.

Applicants should see the program website for application deadlines.

Career Opportunities:

Professionals with a mechanical engineering doctoral degree have strong opportunities at all levels in mechanical engineering in research, design, and manufacturing at companies of all sizes as well as national laboratories (DOE, DOD, NASA). Analytical skills learned in mechanical engineering are also valued for other nonengineering positions.

Modern Energy Production and Sustainable Use, MS (ESMEPSUMS)

Online Degree Search Title: Modern Energy Production and Sustainable Use, MS

Campus: Tempe

Program Description:

This MS program in modern energy production and sustainable use prepares students for professional careers in transdisciplinary areas of renewable energy generation and storage, energy-saving materials, manufacturing, sustainable transportation, and related fields in industry, government, and educational institutions.

Students are provided with the skills and knowledge needed to address the challenges associated with the different modalities in energy production and storage, and they are encouraged to work with instructors in the program who are conducting research.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and

master's degree with:

Mechanical Engineering, BSE
Mechanical Engineering (Energy and Environment), BSE

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio.

Required Core (12 credit hours)

Choose four courses:

ALT 535 Applied Photovoltaics (3)
CHE 573 Fuel Cells and Biofuel Cells (3)
CHE 578 Biomass Energy Conversion Technology (3)
MAE 576 Energy Efficiency (3)
MAE 579 Wind Energy (3)
MAE 582 Renewable Energy: Mechanical Systems (3)
MSE 560 Nanomaterials in Energy Production and Storage (3)
SEC 501 Solar Engineering and Commercialization I (3)

Mathematics Elective (3 credit hours)

Sustainability Electives (6 credit hours)

Technical Electives (9 credit hours)

Culminating Experience (0 credit hours)
portfolio (0)

Additional Curriculum Information

The modern energy production and sustainable use program only offers a nonthesis, portfolio option.

Students should see the academic unit for a list of approved elective coursework. Other coursework may be used with approval of the academic unit.

During the last semester of their program, students submit a portfolio containing at least two projects from previous engineering coursework along with a paper explaining the projects. Students must successfully complete the portfolio requirements to pass the culminating experience.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any engineering, physical science or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- professional resume
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. The minimum score required on the TOEFL iBT is 90.

Career Opportunities:

Professionals with a modern energy production and sustainable master's degree have strong opportunities at all levels in various energy related technologies with private and government entities. The skills learned in this degree prepare graduates for a career as a practicing engineer.

Career examples include:

- development engineer
- process engineer
- product engineer

Molecular, Cellular, Tissue, and Biomaterials Engineering (Certificate), Certificate (ESMCTBGRCT)

Online Degree Search Title: Molecular, Cellular, Tissue and Biomaterials Engineering (Graduate Certificate)

Campus: Tempe, Online

This program is not accepting applications at this time.

Program Description:

Engineers are constantly improving in their capability to manipulate the components of biological systems. Approaches for localized delivery of drugs, genetic manipulations of cells, and building of tissue scaffolds are changing rapidly.

The certificate program in molecular, cellular, tissue and biomaterials engineering exposes students to many of the principles and techniques which are central to molecular, cellular, tissue and biomaterials engineering. Students who complete the program have a set of skills that enables them to participate in engineering biological systems at levels from the molecular to tissues.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

BME 567 Tissue Engineering and Regenerative Medicine (3)

Electives (12 credit hours)

Additional Curriculum Information

Students should see the academic unit for an approved list of elective courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Students should see below for more information.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students must have a BS or BSE in biomedical engineering; or a BS or BSE in engineering plus advanced (postbaccalaureate) training in medicine, physiology or related fields; or a BS in a science discipline plus additional background work in biology, thermodynamics, fluids, transport and additional work in medicine, physiology or related fields. Specifically, applicants need to demonstrate equivalent proficiency in at least four of the following five areas:

- biomaterials
- electrical networks or circuits
- engineering mechanics
- fluid mechanics or engineering transport
- thermodynamics or physical chemistry

Admission examinations are not required.

Career Opportunities:

Professionals who specialize in molecular, cellular, tissue and biomaterials engineering are in high demand across sectors and industries, including business, academia, hospitals, government agencies and research facilities. The skill set gained by completing the certificate program in molecular, cellular, tissue and biomaterials engineering is sought by local, national and international employers.

Neural Engineering (Certificate), Certificate (ESNENGRCT)

Online Degree Search Title: Neural Engineering (Graduate Certificate)

Campus: Online

ASU is not currently accepting applications for this program.

Program Description:

Technologies for ameliorating neural disorders, such as epilepsy, stroke and paralysis, are developing rapidly. Understanding and deploying these technologies requires specialized skills in neurophysiology, bioelectricity and neural-electronic interfaces.

The certificate program in neural engineering prepares clinical, industrial and academic practitioners with those skills through courses in areas of knowledge in neurophysiology, neuroanatomy and neuropathology. Students then go on to learn of the state-of-the-art neurotechnologies applied to current neural disorders as well as the biophysics which these devices exploit.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

BME 526 Introduction to Neural Engineering (3)

BME 561 Clinical Neuroscience (3)

Electives (9 credit hours)

Additional Curriculum Information

For electives, students should see the academic unit for the approved course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Students should see below for more information.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. The English proficiency requirement is equivalent to the ASU Graduate College policy: TOEFL of at least 550 PBT or 80 iBT, or IELTS overall band score of 6.5.

Applicants must have earned a BS or BSE or master's degree in biomedical engineering; or have earned a BS or BSE in engineering and have advanced (postbaccalaureate) training in medicine, physiology or related fields; or a BS in a science discipline plus have additional background work in thermodynamics, fluids, transport and additional work in medicine, physiology or related fields. Specifically, applicants need to demonstrate equivalent proficiency in at least four of the following six areas:

- biomaterials
- electrical networks or circuits
- engineering mechanics
- fluid mechanics or engineering transport
- signals and systems or control systems
- thermodynamics or physical chemistry

Nuclear Power Generation (certificate), Certificate (ESNPGGRCT)

Online Degree Search Title: Nuclear Power Generation (Graduate Certificate)

Campus: Tempe, Online

Program Description:

The nuclear power generation graduate certificate program is a transdisciplinary professional option within the Ira A. Fulton Schools of Engineering.

Students typically begin with the study of nuclear science and engineering fundamentals. Subsequent core courses focus on nuclear power plant dynamics and diagnostics, nuclear power plant operations and safety, and nuclear reactor theory and design.

Elective courses allow students to tailor the remaining studies toward facilitating their career goals and focusing on studies tied to their academic interests. Example elective courses include nuclear power engineering, health physics and electrical power plants.

Degree Requirements:

15 credit hours.

Required Core (9 credit hours)

EEE 562 Nuclear Reactor Theory and Design (3)

EEE 563 Nuclear Reactor System Dynamics and Diagnostics (3)

EEE 564 Interdisciplinary Nuclear Power Operations (3)

Electives (6 credit hours)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in an engineering or science discipline, such as physics, chemistry and mathematics from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- statement of career and educational goals
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Transcripts should be submitted for all undergraduate and graduate coursework taken.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-nuclear-power-generation/>)

Global Opportunities:

PLuS Alliance:

The PLuS Alliance partnership combines the strengths of three leading research universities from three continents --- Arizona State University, King's College London and UNSW Sydney --- to create and share knowledge that will solve pressing educational and societal challenges.

Students have the opportunity to collaborate with peers and specialists across the globe through PLuS-partner courses offered online. Through this PLuS Alliance collaboration certificate program, students develop transferable global competencies and gain exposure to international teaching and academic content. <https://www.plusalliance.org/global-learning-network-programmes> (<https://www.plusalliance.org/global-learning-network-programmes>)

Career Opportunities:

The program prepares students and professionals from a variety of engineering and scientific disciplines to work effectively in the nuclear energy industry. Careers include positions in nuclear power plants, government regulatory agencies and national laboratories.

Robotics and Autonomous Systems (Artificial Intelligence), MS (ESRASAIMS)

Online Degree Search Title: Robotics and Autonomous Systems (Artificial Intelligence), MS

Campus: Tempe

Program Description:

The artificial intelligence concentration is one of four concentrations in the multidisciplinary MS program in robotics and autonomous systems, which emphasizes robotics, controls, autonomous systems, artificial intelligence and related fields. This concentration is appropriate for students who wish to emphasize applications in artificial intelligence and computer science.

Students receive a solid theoretical and practical background in a variety of topics that facilitate the study of intelligent agents, that is any robotic system that perceives its environment and takes actions that maximize its chance of successfully achieving its goals. Thus, students in this concentration are exposed to the frontiers of the general topics in AI, including statistical machine learning, computer vision, natural language processing, knowledge retrieval and reasoning, and formal methods of planning. When compared to the other concentrations, the AI concentration focuses more on the algorithmic aspects of robotics.

This concentration program is offered by the School of Computing and Augmented Intelligence.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Computer Science, BS
Computer Systems Engineering, BSE
Informatics, BS
Software Engineering, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis.

Required Core (6 credit hours)

MAE 501 Linear Algebra in Engineering (3)

MAE 547 Modeling and Control of Robots (3) or EGR 545 Robotic Systems I (3)

Concentration (12 credit hours)

Electives or Research (6-12 credit hours)

Culminating Experience (0-6 credit hours)

CSE 599 Thesis (6) or

portfolio (0)

Additional Curriculum Information

Students are required to select one of the approved culminating experiences for the concentration.

Students should see the academic unit for the approved concentration coursework as well as the available elective and research courses. Elective or research coursework must be selected from among the courses listed for the other three concentrations. Additional electives must be graduate courses in science, engineering, mathematics or others approved by the graduate program committee.

A defense is required for the thesis option.

The portfolio is a compilation of three projects that are finished in the required concentration courses. Students must write a portfolio report that includes the highlights of the three projects.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering, science, mathematics or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- letter of intent or written statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should review the Admission Services website for more details. <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>)

Students applying to the artificial intelligence concentration are expected to possess basic knowledge in key relevant areas, e.g., programming languages; discrete mathematics; data structures and algorithms; or similar topics. Indicative ASU courses include CSE 220 Programming for Computer Engineering or 240 Introduction to Programming Languages; MAT 243 Discrete Mathematical Structures or 300 Mathematical Structures; and CSE 310 Data Structures and Algorithms.

Career Opportunities:

Graduates with a Master of Science in artificial intelligence are prepared for doctoral study or for industrial positions in numerous industries as varied as manufacturing, transportation, aerospace, defense and health care.

Robotics and Autonomous Systems (Biomedical Engineering), MS (ESRASBEMS)

Online Degree Search Title: Robotics and Autonomous Systems (Biomedical Engineering), MS

Campus: Polytechnic, Tempe

Program Description:

This is an advanced degree that emphasizes competency in the rapidly growing fields of robotics and autonomous systems and with applications in biomedical engineering and medicine.

The biomedical engineering concentration is one of five concentrations in the multidisciplinary MS program in robotics and autonomous systems, which emphasizes robotics, controls, autonomous systems, artificial intelligence and related fields. This concentration is appropriate for students who wish to focus on applications in biomedical engineering.

Biomedical engineers work at the interface of technology and medicine on challenges that are critical to the advancement of health and scientific discovery.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours and an applied project (BME 593).

Required Core (6 credit hours)

MAE 501 Linear Algebra in Engineering (3)

MAE 547 Modeling and Control of Robots (3) or EGR 545 Robotic Systems I (3)

Concentration (6 credit hours)

BME 564 Cyber Biomedical Systems (3)

Choose one course from the following:

BME 507 Introduction to Digital Image Processing and Analysis (3)

BME 521 Neuromuscular Control Systems (3)

BME 526 Introduction to Neural Engineering (3)

BME 527 Biomedical Device Design (3)

BME 556 Human Systems Neuroscience (4)

BME 561 Clinical Neuroscience (3)

BME 565 Magnetic Resonance Imaging (3)

BME 566 Medical Imaging Instrumentation (3)

BME 567 Tissue Engineering and Regenerative Medicine (3)

BME 568 Human Factors and System Design in Assistive Technologies (3)

Electives or Research (12 or 15 credit hours)

Culminating Experience (3 or 6 credit hours)

BME 593 Applied Project (3) or

BME 599 Thesis (6)

Additional Curriculum Information

Students are required to select one of the approved culminating experiences for the concentration.

Elective or research coursework must be selected from among the courses listed for the other concentrations. Additional electives must be graduate courses in science, engineering, mathematics or others approved by the graduate program committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering, science, mathematics or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- letter of intent or written statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

Graduates are prepared for doctoral study or for industrial positions in numerous and varied industries, such as manufacturing, transportation, aerospace, defense and health care.

Program Description:

This advanced degree program emphasizes competency in the rapidly growing fields of robotics and autonomous systems. This concentration is appropriate for students who wish to focus on applications in electrical engineering.

The electrical engineering concentration is one of four concentrations in the multidisciplinary MS program in robotics and autonomous systems, which emphasizes robotics, controls, autonomous systems, artificial intelligence and related fields.

Students in this concentration receive a solid theoretical and practical background in a variety of topics that include theory, design and implementation of control systems; signal processing; real-time and embedded systems; computer vision; and machine learning. They are exposed to state-of-the-art and emerging theories and implementations related to sensing, data processing, adaptive control, automated mobility, autonomous systems, human-machine interaction and robotic applications in various domains including public safety, manufacturing, health care, automotive and assistive technologies.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Electrical Engineering, BSE

Electrical Engineering (Electric Power and Energy Systems), BSE

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis.

Required Core (6 credit hours)

MAE 501 Linear Algebra in Engineering (3)

MAE 547 Modeling and Control of Robots (3) or EGR 545 Robotic Systems 1 (3)

Concentration (6 credit hours)

Electives or Research (12-18 credit hours)

Culminating Experience (0-6 credit hours)

EEE 599 Thesis (6) or

portfolio (0)

Additional Curriculum Information

Students should refer to the academic unit for the approved concentration coursework as well as the available elective and research courses. Elective or research coursework must be selected from among the courses listed for the other three concentrations. Additional electives must be graduate courses in science, engineering, mathematics or others approved by the Graduate Program Committee.

Students are required to select one of the approved culminating experiences for the concentration.

A defense is required for the thesis option.

The portfolio includes a poster presentation with content from courses taken in the program. Students must write a portfolio report that includes the highlights of the three projects.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering, science, mathematics or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- letter of intent or written statement
- professional resume
- GRE scores (required if undergraduate program is not ABET-accredited)*
- proof of English proficiency

*International and domestic applicants are exempt from taking the GRE if they have earned a degree from an ABET-accredited program (<https://www.abet.org/> (<https://www.abet.org/>)) from a U.S. or overseas institution and if they meet the minimum GPA required for admission. Students who do not meet these requirements are required to provide GRE scores.

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

Graduates of the electrical engineering concentration of the Master of Science program in robotics and autonomous systems are prepared for doctoral study or for industrial positions in numerous and varied industries; some examples are manufacturing, transportation, aerospace, defense and health care.

Robotics and Autonomous Systems (Mechanical and Aerospace Engineering), MS (ESRASMAEMS)

Online Degree Search Title: Robotics and Autonomous Systems (Mechanical and Aerospace Engineering), MS

Campus: Tempe

Program Description:

The mechanical and aerospace engineering concentration is one of five concentrations in the multidisciplinary MS program in robotics and autonomous systems, which emphasizes robotics, controls, autonomous systems, artificial intelligence and related fields.

This concentration is appropriate for students who wish to focus on applications in mechanical or aerospace engineering.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Aerospace Engineering (Aeronautics), BSE
- Aerospace Engineering (Astronautics), BSE
- Aerospace Engineering (Autonomous Vehicle Systems), BSE
- Mechanical Engineering, BSE

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis, or 30 credit hours including the required applied project course (MAE 593).

Required Core (6 credit hours)

MAE 501 Linear Algebra in Engineering (3)

MAE 547 Modeling and Control of Robots (3) or EGR 545 Robotic Systems I (3)

Concentration (6 credit hours)

Electives or Research (12-18 credit hours)

Culminating Experience (0-6 credit hours)

MAE 599 Thesis (6) or

MAE 593 Applied Project (3) or

portfolio (0)

Additional Curriculum Information

Students are required to select from one of the available concentrations and one of the approved culminating experiences for the concentration.

Students should see the academic unit for the approved concentration coursework as well as the available elective and research courses. Elective or research coursework must be selected from among the courses listed for the other three concentrations. Additional electives must be graduate courses in science, engineering, mathematics or others approved by the graduate program committee. Three credit hours of internship may be included among the electives.

A defense is required for the thesis option.

The applied project requires a written report and an oral presentation.

The portfolio includes a poster presentation with content from courses taken in the program. Students must write a portfolio report that includes the highlights of the three projects.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering, science, mathematics or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or

applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- letter of intent or written statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

Robotics engineers are in high demand in various engineering specialty areas like manufacturing, mechanical, aerospace, biomedical-rehabilitation, autonomous vehicles, artificial intelligence, etc. Skills in the design and control of robotic systems, artificial intelligence, machine learning and robot perception are valuable to consumer, automotive, aerospace and defense industries.

Career examples include:

- automation engineer
- machine learning and AI engineer
- robotics engineer
- systems engineer

Robotics and Autonomous Systems (Systems Engineering), MS (ESRASSEMS)

Online Degree Search Title: Robotics and Autonomous Systems (Systems Engineering), MS

Campus: Polytechnic

Program Description:

This is an advanced degree emphasizing system-level competency in the rapidly growing fields of robotics and autonomous systems.

The systems engineering concentration is one of four concentrations in the multidisciplinary MS program in robotics and autonomous systems, which emphasizes robotics, controls, autonomous systems, artificial intelligence and related fields.

This concentration is appropriate for students who wish to focus on applications in systems engineering.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Engineering (Automotive Systems), BSE
- Engineering (Electrical Systems), BSE
- Engineering (Mechanical Engineering Systems), BSE
- Engineering (Robotics), BSE
- Manufacturing Engineering, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis, or 30 credit hours including the required applied project course (EGR 593).

Required Core (6 credit hours)

MAE 501 Linear Algebra in Engineering (3)

MAE 547 Modeling and Control of Robots (3) or EGR 545 Robotic Systems I (3)

Concentration (6 credit hours)

Electives or Research (12-18 credit hours)

Culminating Experience (0-6 credit hours)

EGR 599 Thesis (6) or

EGR 593 Applied Project (3) or

portfolio (0)

Additional Curriculum Information

Students are required to select one of the approved culminating experiences for the concentration.

Students should see the academic unit for the approved concentration coursework as well as the available elective and research courses. Elective or research coursework must be selected from among the courses listed for the other three concentrations. Additional electives must be graduate courses in science, engineering, mathematics, or others approved by the graduate program committee. Three credit hours of internship may be included among the electives.

A defense is required for the thesis option.

The applied project requires a written report and an oral presentation.

The portfolio includes a summary of the graduate program and a report highlighting three projects from the program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a US bachelor's or master's degree from a regionally accredited institution, or the equivalent of a US bachelor's degree from an international institution that is officially recognized by that country in engineering, physical sciences, mathematics or a similar field.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts from each college or university attended
- personal statement
- professional resume
- official GRE scores
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should see the Graduate Admission Services website at <https://admission.asu.edu/international/graduate/english-proficiency> ([https://admission.asu.edu/international/graduate/english-proficiency" target="_Blank](https://admission.asu.edu/international/graduate/english-proficiency)).

Global Launch at ASU offers an online alternative to standardized testing for international students who are seeking admission to ASU but need proof of English proficiency: <https://learnenglish.asu.edu/online/admission> (<https://learnenglish.asu.edu/online/admission>).

If the applicant does not meet the minimum GPA requirements, the application may still be considered. In certain cases, demonstrated aptitude through professional experience or additional postbaccalaureate education will be considered.

A GRE waiver may be requested if the applicant received a bachelor's degree in a related field from the United States with a cumulative GPA of 3.00 or better. Engineering programs must have a bachelor's degree from an ABET-accredited program. Applicants should email polygrad@asu.edu (<mailto:polygrad@asu.edu>) to request a waiver. Applicants can also submit a GRE waiver request form if they have five years of full-time applicable professional experience. An approved waiver does not guarantee admission.

Career Opportunities:

Graduates are prepared for industry careers in positions such as:

- automation engineer
- controls engineer
- machine learning engineer
- robotics engineer
- systems engineer

Semiconductor Processing (Certificate), Certificate (ESSCPRGRCT)

Online Degree Search Title: Semiconductor Processing (Graduate Certificate)

Campus: Tempe, Online

Program Description:

This certificate program provides a series of courses in semiconductor processing, packaging and characterization that prepare students for careers in the industry or for graduate studies. Students select from a set of core courses and technical electives.

Degree Requirements:

15 credit hours.

Required Core (9 credit hours)

EEE 530 Advanced Silicon Processing (3)

IEE 572 Design Engineering Experiments (3)

MSE 550 Advanced Materials Characterization (3)

Electives or Research (6 credit hours)

Additional Curriculum Information

Students should see the academic unit for available elective and research coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/certificates/semiconductor-processing-graduate-certificate/>)

Career Opportunities:

Professionals with a semiconductor processing certificate can find employment with semiconductor device manufacturers and semiconductor processing equipment manufacturers at all levels. The skills learned in this program prepare graduates for a career as a practicing engineer.

Career examples include:

- development engineer
- process engineer
- product engineer

Sensor Signal and Information Processing (Certificate), Certificate (ESSSIPGRCT)

Online Degree Search Title: Sensor Signal and Information Processing (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate program in sensor signal and information processing provides background and application-oriented training in processing and interpreting signals acquired from sensors. The focus is on building knowledge and skills in several sensor network applications.

The program includes courses on signal and data processing for sensor systems. Course topics include digital signal processing, random signal theory, detection and estimation, sensor systems, big data and machine learning. The certificate may be completed with on-campus coursework and iCourses.

Degree Requirements:

16 credit hours.

Required Core (10 credit hours)

EEE 407 Digital Signal Processing (4) or EEE 509 DSP Algorithms and Software (3)

EEE 517 Sensors and Machine Learning (1)

EEE 554 Probability and Random Processes (3)

EEE 556 Detection and Estimation Theory (3) or EEE 606 Adaptive Signal Processing (3)

Electives (6 credit hours)

Additional Curriculum Information

Students choose from EEE 407 or EEE 509 and EEE 556 or EEE 606 as part of the core coursework.

For electives or research, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in an engineering or a science discipline such as physics, mathematics or computer science from an accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Regular admission is granted to applicants who have at least a GPA of 3.00 or equivalent (scale is 4.00 = "A") and are competitive in the applicant pool. All prerequisites to the sensor signal and information processing certificate required courses must be in place (EEE 203 and EEE 350 from ASU, or signals and systems and random signals course equivalents from other universities).

Career Opportunities:

The certificate is a professional graduate program. The area of sensor information extraction and interpretation has various professional applications including health, sustainability, media, communications and security.

Software Engineering, MS (TSSERMS)

Online Degree Search Title: Software Engineering, MS

Campus: Polytechnic

Program Description:

The MS program in software engineering focuses on students' development of advanced knowledge and abilities in the design and application of software.

This unique Master of Science program involves the application of engineering principles to software development, including design methodologies, operation principles and maintenance and testing approaches. Students learn to solve issues through engaging projects, commonly as a member of a development team. The program develops students' professional skills in this discipline and provides opportunities for them to engage in and develop research abilities.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Software Engineering, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required capstone course (SER 517).

Required Core (9 credit hours)

SER 501 Advanced Data Structures and Algorithms (3)

SER 502 Emerging Languages and Programming Paradigms (3)

SER 515 Foundations of Software Engineering (3)

Electives (15-18 credit hours)

Culminating Experience (3 or 6 credit hours)

SER 517 Software Factory I (3) or
SER 599 Thesis (6)

Additional Curriculum Information

Students should see the academic unit for a list of approved electives.

For the culminating experience, students have the choice of completing the capstone course (SER 517) or a thesis (SER 599). Completion of 30 credit hours of coursework is required for all culminating experience options.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in information technology, computer science, applied computing, engineering or a closely related field from a regionally accredited institution (or international equivalent).

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE test scores
- personal statement
- proof of English language proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. More information is available on the Admission Services website: <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

If the student is assigned any deficiency coursework upon admission, those classes must be completed with a grade of "B" (3.00) or higher within two semesters of admission to the program. Deficiency courses include:

CSE 240 Introduction to Programming Languages

CSE 360 Introduction to Software Engineering

SER 222 Design and Analysis of Data Structures and Algorithms OR CSE 310 Data Structures and Algorithms

SER 334 Operating Systems and System Programming OR CSE 330 Operating Systems

Career Opportunities:

Software engineers solve a broad set of transdisciplinary problems and apply new technologies to improve the quality of life.

Graduates are able to design and engineer innovative systems that may include mechanical and electrical components that interact with software. They are prepared for advanced study in computing or in an allied field or to enter the computing profession, most commonly as an application software engineer.

According to the Bureau of Labor Statistics, software engineers are highly paid and there is significant growth in the number of employment opportunities. Some software engineering jobs may include:

- creating applications for mobile devices
- creating web applications
- designing, creating and validating software for avionics, robotics and similar systems fields

PICHO 245

SCAI.Grad.Admission@asu.edu

480-965-3199

Online Degree Search Title: Sustainable Engineering, MSE

Campus: Online

Program Description:

The MSE in sustainable engineering is a multidisciplinary graduate program ideal for professionals and graduate-level students with engineering and physical science backgrounds who wish to design a flexible individualized plan of study.

Courses cover such sustainable engineering topic areas as energy systems and alternative energy production; water, transportation or earth systems engineering; industrial ecology; life cycle assessment; environmental technologies; green construction practices and sustainable technology systems.

The goal of sustainable engineering is to enable long-lasting improvement of the human condition. Sustainable engineering transcends traditional engineering education by integrating considerations of complex social, environmental, political and economic factors into engineering theory and practice in order to achieve more economically, technically, environmentally, institutionally and socially efficient and robust solutions.

Degree Requirements:

30 credit hours including the required applied project course (CEE 593) and a written comprehensive exam, or 30 credit hours, a thesis and a written comprehensive exam, or 30 credit hours, a written comprehensive exam and the required capstone course (CEE 588).

Required Core (12 credit hours)

Infrastructure Systems Track (9 credit hours) or
Energy Systems Track (9 credit hours) or
Earth Systems Engineering and Industrial Ecology Track (9 credit hours)

Electives (3 credit hours)

Culminating Experience (6 credit hours)

Additional Curriculum Information

Students complete nine credit hours in a selected track. Available track options are infrastructure systems, energy systems, and earth systems engineering and industrial ecology.

Students should see the academic unit for an approved course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's degree or master's degree in engineering or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students with a degree in civil engineering, environmental engineering, construction engineering, mechanical engineering or with an engineering degree other than these listed may be admitted, with deficiencies as identified by the sustainable engineering faculty, if appropriate. If the applicant does not have an undergraduate degree in any of these programs, additional requirements may be necessary based upon the applicant's background, including sufficient courses in mathematics that include calculus, differential equations and linear algebra. A faculty committee determines which required courses are needed on a case-by-case basis.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-engineering/>)

Career Opportunities:

Sustainable engineering graduates can pursue careers as sustainability consultants, sustainability managers, corporate social responsibility sustainability professionals and water engineering specialists, among others.

Systems Engineering, PHD (ESSYSPHD)

Online Degree Search Title: Systems Engineering, PhD

Campus: Polytechnic

Program Description:

The PhD in systems engineering is a transdisciplinary graduate program offered by the School of Manufacturing Systems and Networks.

The program is aimed at advancing the understanding of complex engineering systems and where these systems are inclusive of technological aspects, as well as social, cultural, environmental and other interacting components that impact the input, output and interactions within a system. The program prepares students to identify, model, analyze, interpret, optimize and manage the multidimensional interactions of the ever-increasing complexity of modern technological and societal challenges.

A typical incoming student in this program would have a master's degree in engineering or related discipline. The core curriculum provides the foundation for systems thinking, systems identification, systems modeling and systems design and analysis using diverse disciplinary methodological approaches. Students in this doctoral program use their capacity to evaluate complex systems and a depth of mathematical maturity to study problems for which complexity is impeding progress.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam and a dissertation.

Required Core (9 credit hours)

EGR 602 Principles of Independent Research (3)

EGR 608 Advanced Simulation (3)

EGR 611 Complex Engineering Systems (3)

Technical Electives (3 credit hours)

Electives and Research (60 credit hours)

Culminating Experience (12 credit hours)

EGR 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used toward this degree. If students do not have a previously awarded master's degree, the 30 credit hours of coursework is made up of electives to reach the required 84 credit hours.

Students are required to take 12 credit hours of EGR 792 as part of their research coursework.

Elective coursework should be directly in support of the student's research as advised by the supervisory committee.

Students with a BS degree coming into the doctoral program in systems engineering must complete at least nine credit hours of approved mathematics courses after the completion of their bachelor's degree. Students select appropriate elective courses in consultation with the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a minimum of a bachelor's or master's degree in engineering from a regionally accredited institution, or if they have earned the equivalent of a US bachelor's degree from an international institution that is officially recognized by that country in engineering, physical sciences, mathematics or a similar field.

Applicants without a master's degree in engineering or a closely related field must have a minimum cumulative GPA of 3.75 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program coupled with a record of research or leadership accomplishments (or both). Applicants with a master's degree in engineering or a closely related field must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in the applicable master's degree program. Exceptional undergraduates are encouraged to apply after completion of a BS degree.

All applicants must submit:

- graduate admission application and application fee
- official transcripts from each college or university attended
- two letters of recommendation
- GRE scores
- statement of purpose
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should see the Graduate Admission Services website at <https://admission.asu.edu/international/graduate/english-proficiency> ([https://admission.asu.edu/international/graduate/english-proficiency" target="_Blank](https://admission.asu.edu/international/graduate/english-proficiency)).

Global Launch at ASU offers an online alternative to standardized testing for international students who are seeking admission to ASU but need proof of English proficiency. <https://globallaunch.asu.edu/learn-english/asu-admission> (<https://globallaunch.asu.edu/learn-english/asu-admission>)

If the applicant does not meet the minimum GPA requirements, the application may still be considered. In certain cases, demonstrated aptitude through professional experience or additional postbaccalaureate education is considered.

A GRE waiver may be requested if the applicant received a bachelor's degree in a related field from the United States with a cumulative GPA of 3.00 or better. Engineering programs must have a bachelor's degree from an ABET-accredited program. Applicants should email polygrad@asu.edu (<mailto:polygrad@asu.edu>) to request a waiver. An approved waiver does not guarantee admission.

Unofficial transcripts may be submitted at time of application. If admitted, applicants must then submit official transcripts to ASU Graduate Admission Services.

Career Opportunities:

The doctoral program in systems engineering prepares students for industry careers in areas such as:

- automotive systems
- energy systems, including alternative energy and grids
- manufacturing
- robotics

Technology (Aviation Management and Human Factors), MSTech (TSHFMSTECH)

Online Degree Search Title: Technology (Aviation Management and Human Factors), MSTech

Campus: Polytechnic

Program Description:

The MSTech degree program offers a concentration in aviation management and human factors.

Students in this program are provided with professional skills and exposed to educational theory and practice for use in leadership positions within

the aviation industry. Management and leadership positions at airports of all sizes require skills in labor management and policy, economics and analysis, national aerospace structure and aviation law, as well as an awareness of unmanned systems and flight operations. Those interested in the human systems and safety area find exceptional use of educational discussions on human performance and the human limitations and capabilities of working within a complex system.

Courses are offered at the Polytechnic campus, with some courses offered as iCourses.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Aeronautical Management Technology (Air Traffic Management), BS
- Aeronautical Management Technology (Air Transportation Management), BS
- Aeronautical Management Technology (Professional Flight), BS
- Aeronautical Management Technology (Unmanned Aerial Systems), BS
- Air Traffic Management, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

33 credit hours and a portfolio, or 33 credit hours and a thesis, or 33 credit hours including the required applied project course (AMT 593).

Required Core (12 credit hours)

Restricted Electives (3-21 credit hours)

Human Factors Track Option (12 or 15 credit hours)

Aviation Management Track Option (12 or 15 credit hours)

Culminating Experience (0-6 credit hours)

AMT 593 Applied Project (3) or

AMT 599 Thesis (6) or

portfolio (0)

Additional Curriculum Information

The detailed design of the graduate student's program requirements with the selection of the required courses is the responsibility of the student along with the supervisory committee chair and committee members.

Students in this graduate program also have the opportunity to enroll in human systems engineering (prefix HSE) and technological entrepreneurship and management (prefix TEM) graduate courses. Students may focus their study on courses that best prepare them for their career or for the next step in their educational process.

Applied project students complete 15 credit hours (five track courses) and thesis students complete 12 credit hours (four track courses) selected in consultation with an advisor. In addition, three credit hours of AMT elective coursework are chosen in conjunction with the student's advisor or committee. Students who do not select a track complete 15 or 18 credit hours from the restricted electives list or other courses approved by the student's supervisory committee. All students in the aviation management and human factors concentration must take at least five AMT graduate courses.

The portfolio option demonstrates a high level of mastery of the principles and practice of aviation management and human factors through a compilation of work the student completes through the course of their graduate study. While the specific details depend on the student's specialization, all portfolios must describe three notable projects or academic accomplishments that illustrate the evolution and advancement of the student's technical expertise and mastery of the field of aviation management and human factors. The submission must include a written document that includes an overview of graduate experience and descriptions of projects presented in the portfolio.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit:

- graduate admission application and application fee
- official transcript from each college or university attended
- personal statement
- professional resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should see the Graduate Admission Services website at <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

Unofficial transcripts may be submitted at time of application. If admitted, applicants must then submit official transcripts to ASU Graduate Admission Services.

If the applicant does not meet the minimum GPA requirements, the application may still be considered. In certain cases, demonstrated aptitude through professional experience or additional postbaccalaureate education is considered.

Career Opportunities:

The program's focus is on preparing graduates for a career in the aviation industry, and it can serve as the foundation for further advanced study. Graduates of this program possess technical and professional skills for use in leadership positions in the aviation industry.

Technology (Management of Technology), MSTech (TSMRMSTECH)

Online Degree Search Title: Technology (Management of Technology), MSTech

Campus: Polytechnic

Program Description:

As the nature of work continues to change, the world needs new kinds of leaders who can balance the demands of business, technology and innovation. The MSTech program in technology was constructed for this purpose.

Students in this program develop a foundation in business and develop insights into the implications and impact of technology. The flexibility in course options allows students to gain new capabilities, and by integrating these disciplines, they learn to transform industries.

Students also receive a foundation of leadership and managerial skills to complement their existing technical skills. The program then adds cutting-edge innovation strategy, data-driven decision making, and entrepreneurial skills that companies who want to compete in future economies need to have. Finally, students choose classes in their interests that mix hard and soft skills in critical areas of interdisciplinary data science; sustainable enterprises; social, entrepreneurial and disruptive innovation; enterprise logistics and operations; or advanced technologies such as smart manufacturing and engineering, artificial intelligence or blockchain technology industries.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Engineering (Automotive Systems), BSE
- Engineering (Electrical Systems), BSE
- Engineering (Mechanical Engineering Systems), BSE
- Engineering (Robotics), BSE
- Global Management, BGM
- International Trade, BS

Technological Entrepreneurship and Management, BS
Technological Entrepreneurship and Management, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

33 credit hours and a portfolio, or 33 credit hours including the required applied project course (TMC 593).

It is expected that graduates of the program possess skills in research and the ability to apply these research skills in practice. To achieve this goal, each student is required to complete OMT 549 Research Techniques and Applications and either TMC 593 Applied Project or a portfolio.

Additionally, each student is required to select four courses from the following list: (12 credit hours)

- OMT 503 Marketing Management (3)
- OMT 504 Ethical Issues in Technology (3)
- OMT 540 International Management (3)
- OMT 548 Statistical Methods for Research (3)
- OMT 592 Research (1-3)
- OMT 598 Special Topics (1-4)
- TMC 584 Internship (1-3)

Graduate courses from other majors may be selected with approval from the student's graduate advisory committee; these additional courses are selected to support the student's individual career goals and perceived needs. To ensure that all courses taken fit into the plan of study, all students are expected to discuss their tentative plan with their program advisors prior to registering for their first class and they must have an approved plan of study on file by the completion of nine credit hours toward the degree.

Students without a statistics course at the undergraduate level are required to complete an appropriate course during the first semester in the program. This course is in addition to the other requirements for the degree. Additional courses may be required to fulfill deficiencies, based on a review of the applicant's transcripts. Students should contact the department for more information.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts from each college or university attended
- personal statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should see the Graduate Admission Services website for more details: <https://admission.asu.edu/international/graduate/english-proficiency> ([https://admission.asu.edu/international/graduate/english-proficiency" target="_Blank](https://admission.asu.edu/international/graduate/english-proficiency)).

Global Launch at ASU offers an online alternative to standardized testing for international students who are seeking admission to ASU but need proof of English proficiency. More information on the program is available on the Global Launch website. <https://globallaunch.asu.edu/learn-english/online-english/english-for-admission> (<https://globallaunch.asu.edu/learn-english/online-english/english-for-admission>)

If the applicant does not meet the minimum GPA requirements, the application may still be considered. In certain cases, demonstrated aptitude through professional experience or additional postbaccalaureate education is considered.

Career Opportunities:

The Master of Science in technology program with a concentration in management of technology is tailored to individual professional goals, ensuring that each graduate not only obtains basic leadership and management skills, but is ready to excel in an array of tech leadership roles.

Program alumni currently work in fields such as:

- AI data analytics
- manufacturing
- marketing
- operations management
- product management
- project management
- QA
- startup founding

User Experience, MS (ESUSEXMS)

Online Degree Search Title: User Experience, MS

Campus: Polytechnic, Online

Program Description:

The MS program in user experience combines topics in web, human factors, visual displays and technical communication to make products, systems and services useful, usable and desirable.

Students learn how to research user needs, identify criteria for successful products and services, prototype those products and services, and refine them through usability testing and other user-centered evaluation methods.

User experience skills are increasingly valued by industry yet are not typically covered in depth in traditional engineering or technical communication programs.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Graphic Information Technology (User Experience), BS
- Human Systems Engineering (User Experience), BS
- Technical Communication (User Experience), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio.

Required Core (18 credit hours)

GIT 540 Cross-Media Design Solutions (3)

GIT 542 Usability and User Experience (3)

HSE 521 Methods and Tools in Human Systems Engineering (3)

HSE 542 Foundations of Human Systems Engineering (3)

TWC 501 Fundamentals of Technical Communication (3)

TWC 544 User Experience (3)

Electives or Research (12 credit hours)

Culminating Experience (3 credit hours)
portfolio (0)

Additional Curriculum Information

Students should see the academic units for a complete list of approved electives and research courses. Other courses may be used with approval
Academic Catalog Archive 2022-2023

of the academic units.

Admission Requirements:

Applicants must fulfill the requirements of the Graduate College, the Ira A. Fulton Schools of Engineering and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in related fields such as psychology, graphic information technology, graphic design, human systems engineering, business, cognitive science, design or technical communication from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- professional resume
- writing sample
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should see the Graduate Admission Services website at <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>). Global Launch at ASU offers an online alternative to standardized testing for international students who are seeking admission to ASU but need proof of English proficiency. <https://globallaunch.asu.edu/learn-english/online-english/english-for-admission> (<https://globallaunch.asu.edu/learn-english/online-english/english-for-admission>)

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/online-user-experience-masters/>)

Career Opportunities:

Graduates with this degree possess the skills in research, analysis, design and communication to be UX professionals who effectively lead teams and collaborate with clients and technical personnel.

UX is a rapidly growing field. Graduates can typically expect to find jobs in the areas of:

- design research
- digital visualization design
- human-computer interaction
- human factors research
- interaction design
- interface design
- usability testing
- user experience
- user research

Global Futures, College of

Applied Ethics and the Professions (Biomedical and Health Ethics), MA (LAAEPMEMA)

Online Degree Search Title: Applied Ethics (Biomedical and Health Ethics), MA

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

Medicine is infused with moral values and is deeply embedded in a variety of social and cultural contexts which significantly determine the effectiveness of medical care in achieving healthy outcomes for patients and populations. The objective of the biomedical and health ethics concentration in the MA program in applied ethics is to integrate academic and clinical dimensions of moral issues with medical practice and biomedical research.

Students from a broad range of backgrounds are exposed to the internal and external logics of medicine, health care and biotechnology, and they will gain substantive understanding of ethical, cultural and societal issues in a variety of domains through coursework and other experiences. Students deliberate individually and collectively about a wide range of issues and problems in contemporary medicine and the history of medicine; develop advanced critical normative reasoning and judgment capacities; and cultivate effective communication skills for academic, clinical and policy contexts.

Degree Requirements:

30 credit hours including the required applied project course (AEP 593).

Required Core (3 credit hours)

AEP 501 Practical and Professional Ethics (3)

Concentration (3 credit hours)

BIO 516 Foundations of Bioethics (3)

Concentration Electives (18 credit hours)

Culminating Experience (6 credit hours)

AEP 593 Applied Project (6)

Additional Curriculum Information

Electives are related to the concentration study. Students must request approval from the chairperson of the degree program prior to selecting elective coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement of interest and qualification
- resume
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

GRE scores are not required.

Applied Ethics and the Professions (Science, Technology and Ethics), MA (LAAEPSEEMA)

Online Degree Search Title: Applied Ethics (Science, Tech and Ethics), MA

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

The science, technology and ethics concentration of the MA program in applied ethics and the professions focuses on the ethical issues that arise from the multiple challenges involved in balancing economic, technological, environmental, social and cultural development in a world increasingly affected by science and technology. It provides the student with a general background in ethics and ethical systems with an emphasis on ethical issues in science and technology. The program also exposes students to new challenges posed by rapidly evolving sociotechnical systems in such areas as:

- energy, environment and development
- genetic engineering and biotechnology
- information and communication technology
- nanotechnology
- risk assessment
- technology and security

Degree Requirements:

30 credit hours including the required applied project course (AEP 593).

Required Core (3 credit hours)

AEP 501 Practical and Professional Ethics (3)

Concentration (3 credit hours)

HSD 598 Topic: Science, Technology and Ethics (3)

Concentration Electives (18 credit hours)

Culminating Experience (6 credit hours)

AEP 593 Applied Project (6)

Additional Curriculum Information

Electives are related to the concentration study. Students must request approval from the chairperson of the degree program prior to selecting elective coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Biomimicry, MS (LABMYMS)

Online Degree Search Title: Biomimicry, MS

Campus: Online

Program Description:

The MS program in biomimicry, the practice of emulating nature's strategies for human designs, is offered in conjunction with The Biomimicry Center <http://biomimicry.asu.edu> (<http://biomimicry.asu.edu>), in cooperation with Biomimicry 3.8, the internationally recognized leader in the field.

Designed to empower change agents passionate about a world mentored by life's genius, graduates work toward innovative and sustainable solutions to pressing global challenges, exploring the way business is conducted, buildings and products are designed, governments operate, health care is provided, goods are manufactured and how future generations will be educated --- all inspired by nature's time-tested sustainable solutions developed over the last 3.8 billion years.

The program is designed to prepare students to facilitate the practice of biomimicry across corporate, government, education and nongovernment organization sectors. In addition to core content and electives, students gain biomimicry experience in biome-based applications, business case studies, biological strategy research and in each participant's self-designed biomimicry project in the student's chosen career field.

Degree Requirements:

30 credit hours and a portfolio.

Required Core (13 credit hours)

BMY 501 Essentials of Biomimicry (1)

BMY 502 Life's Principles (4)

BMY 503 Biology Taught Functionally (4)

BMY 504 Biomimicry Thinking (4)

Electives or Research (11 credit hours)

Other Requirements (6 credit hours; choose 3)

BMY 530 Virtual Design Lab Practicum (2)

BMY 580 Topic: BioBrainstorm Practicum (2)

BMY 580 Topic: Biomimicry Case Study Practicum (2)

BMY 580 Topic: Biomimicry Genius of Place Practicum (2)

Culminating Experience
portfolio

Additional Curriculum Information

For electives or research, students should contact the academic unit for the approved course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- questionnaire (to be filled out and uploaded)
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-biomimicry/>)

Global Opportunities:

Global Experience:

The program offers a unique global network of participants, with more than 30% of the student population being comprised of international students. In addition to multiple collaboration opportunities across the program with a diverse set of peers, one has the ability to custom design one or more of their practicum courses to include study abroad. Students can find more information on the Global Education website at <https://goglobal.asu.edu/> (<https://goglobal.asu.edu/>).

Career Opportunities:

Training in biomimicry offers a toolset of transferable skills that enhance work in any trade: commercial, industrial or government. Graduates will engage and lead others within their organization by practicing and demonstrating world-class biomimicry.

Opportunities include leading research groups focused on biomimicry thinking, developing in-house training and biomimicry tools for companies, becoming a biologist at the design table or directing sustainability efforts. The knowledge and skills gained can also lead to initiating or transforming a consulting practice into the field of biomimicry. Biomimicry helps set professionals apart, brings about positive change, and complements or creates any career path.

As a transdisciplinary, transformative field, the unprecedented challenges the world faces today demand new thinking, perspectives, tools and solutions. Training in biomimicry uniquely positions one for careers and opportunities that don't yet exist but which the world is demanding.

From the School of Complex Adaptive System's 2021 alumni employment survey, 100% of biomimicry graduates that responded are employed or pursuing continuing education. Of those respondents employed, 64% have jobs directly related to biomimicry.

Biomimicry (Certificate), Certificate (LABMYGRCT)

Online Degree Search Title: Biomimicry (Graduate Certificate)

Campus: Online

Program Description:

The graduate certificate in biomimicry, the practice of emulating nature's strategies for human designs, is offered in conjunction with The Biomimicry Center (<http://biomimicry.asu.edu> (<http://biomimicry.asu.edu>)) in cooperation with Biomimicry 3.8, the internationally recognized leader in the field.

The program is designed to introduce and delve into the core fundamentals of biomimicry, such as Biomimicry Thinking and Life's Principles with the intention to apply the knowledge and tools to one's specific interests or discipline. It is best suited for individuals with an established career who wish to integrate biomimicry into that career. Participants have the opportunity to explore the application of these core fundamentals in their own discipline, field or area of interest during the biomimicry Virtual Design Lab as their culminating project.

Graduates have the ability to work toward innovative and sustainable solutions within their discipline, emulating nature's time-tested sustainable solutions evolved over the last 3.8 billion years.

Degree Requirements:

15 credit hours.

Required Core (13 credit hours)

BMY 501 Essentials of Biomimicry (1)

BMY 502 Life's Principles (4)

BMY 503 Biology Taught Functionally (4)

BMY 504 Biomimicry Thinking (4)

Other Requirement (2 credit hours)

BMY 530 Virtual Design Lab Practicum (2)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program

Applicants must submit the following:

- graduate admissions application and application fee
- official transcripts
- fill out and upload questionnaire
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-biomimicry/>)

Global Opportunities:

Global Experience:

The program offers a unique global network of participants with more than 30% of the student population being comprised of international students. In addition to multiple collaboration opportunities across the program with a diverse set of peers, one has the ability to custom design one or more of their practicum courses to include study abroad. More information on available programs can be found on the Global Education website at <https://goglobal.asu.edu/> (<https://goglobal.asu.edu/>).

Career Opportunities:

Completing a biomimicry certificate can help professionals bring about positive change. The unique knowledge and skills gained enhance a student's graduate degree or expand existing professional experience, increasing career prospects and helping professionals stand out in a sea of job applicants. The certificate can complement any career path, whether it's in business, technology, science, education or government. It helps one define a biomimicry specialty within a student's current discipline.

Complex Adaptive Systems Science (certificate), Certificate (SUCASGRCT)

Online Degree Search Title: Complex Adaptive Systems Science (Graduate Certificate)

Campus: Downtown Phoenix, Polytechnic, Tempe

Program Description:

Complex adaptive systems science is the study of interactive and dynamic systems that change over time, producing their own emergent properties. The complex adaptive systems science graduate certificate can be pursued along with any doctoral degree program at Arizona State University. Students in the certificate program pursue their chosen field of study while addressing complex global challenges.

Complex adaptive system concepts and methods provide a common language that enable the interdisciplinary collaborations needed to come to grips with the intellectual and societal challenges of the 21st century. The program aims to train the next generation of scientists in advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences. The program is tightly integrated with diverse, ongoing university-wide research on complex adaptive system science at Arizona State University and emphasizes the value of a complex adaptive systems perspective to give science better insight and a more active role in seeking solutions to a broad array of critical issues facing society today. Students become fluent in the common language of complexity while also receiving a solid foundation in the domain knowledge of existing academic disciplines.

Students pursuing the certificate must have a complex adaptive systems science faculty member on their supervisory committee.

Degree Requirements:

15 credit hours.

Required Core (12 credit hours)

Electives (3 credit hours)

Additional Curriculum Information

Students should contact the academic unit about appropriate coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they are either enrolled in or accepted into an ASU doctoral degree program and they must be in good standing within the program.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admissions application and application fee
- official transcripts
- statement of intent
- letter of support from an ASU faculty member (for existing ASU students) or other faculty member (for incoming students)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Career Opportunities:

A complex systems approach to the program means graduates possess the ability to understand the interconnections within and between technological, economic, societal, biomedical and environmental systems and have developed cutting-edge digital skills like modeling and network science. This gives them an edge in diverse careers in science, technology and data analytics, especially compared with peers in their field of study who lack such expertise.

Graduates who hold this certificate can apply the skills learned to any field or profession, although advanced degrees or certifications may be required. Career area examples include:

- business intelligence analytics
- consulting
- corporate social responsibility and sustainability

- data and microsystem engineering
- data science
- education
- military intelligence systems
- nongovernmental and nonprofit organizations
- policymaking in government and regulatory agencies
- research and development

Complex Systems Science, MS (GFCMPXSSMS)

Online Degree Search Title: Complex Systems Science, MS

Campus: Tempe, Online

Program Description:

Most systems are complex. This means that through the interaction between their parts these systems exhibit emergent properties and unintended consequences.

The curriculum in the MS program in complex systems science focuses on developing skills in theoretical foundations, modeling, problem solving, critical thinking, and the importance of direct experience through research or related activities. Complex systems science students cultivate the ability to approach complex problems through analysis and modeling and by identifying issues, asking questions and collaborating with others to create effective solutions.

Graduates in complex systems science can apply their skills to a large number of areas and in many professions where they can make a difference through innovative and creative methods. Knowledge and skills gained in the program include:

- domain knowledge in areas such as strategy, economics, marketing, communications and public relations, talent development and human resources, research and design, and product development
- human skills such as critical thinking, creativity, analytical reasoning, communication and collaboration
- business enabler skills such as project management, decision-making, visualization and data communication
- digital building block skills such as artificial intelligence and data analytics, big data and data management, software development and information security

Degree Requirements:

30 credit hours including the applied project course (CAS 593).

Required Core (15 credit hours)

- CAS 501 Fundamentals of Complex Systems Science: Evolution (3)
- CAS 502 Fundamentals of Complex Systems Science: Computation (3)
- CAS 503 Fundamentals of Complex Systems Science: Collectives (3)

Choose two from the following:

- CAS 520 Agent Based Modeling (3)
- CAS 521 Methods for Complex Systems Science: Network Analysis (3)
- CAS 522 Methods for Complex Systems Science: Dynamical Systems (3)
- CAS 523 Methods for Complex Systems Science: Statistics and Dimensionality Reduction (3)

Electives (9 credit hours)

Culminating Experience (6 credit hours)

- CAS 593 Applied Project (6)

Additional Curriculum Information

The applied project is a modeling and research project in any of the applied or foundational areas of complex systems science. Students define this project with a faculty mentor and apply a selection of methods covered in the methods courses to a dataset. The applied project also involves the creation of a portfolio of student accomplishments.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a STEM field, economics, social sciences, humanities or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- written statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/complex-system-science-masters/>)

Career Opportunities:

Complex adaptive system concepts and methods serve as bridges between disciplines, providing a common language that enable the interdisciplinary collaborations necessary for coming to grips with the intellectual and societal challenges of the 21st century.

A complex systems approach gives graduates the ability to understand the interconnections within and between technological, economic, societal, biomedical, and environmental systems. It gives graduates cutting edge digital skills like modeling and network science. Graduates are fluent in the language of complexity and have a solid foundation in the domain knowledge of existing academic disciplines. This will give them an edge in diverse careers in science, technology, and data analytics, especially compared with peers in their field of study who lack such expertise.

Career examples include:

- business intelligence analytics and data science
- consulting
- corporate social responsibility and sustainability
- data and microsystem engineering
- education
- environmental systems
- natural or health science management
- nongovernmental and nonprofit organizations
- policy making in government and regulatory agencies
- research and development

Energy and Sustainability (certificate), Certificate (SUERGSGRCT)

Online Degree Search Title: Energy and Sustainability (Graduate Certificate)

Campus: Tempe

Program Description:

The global energy system is a complex socio-technical system. Leaders in sustainable energy require a transdisciplinary perspective that combines

technical, economic, social and policy dimensions of energy systems. The certificate in energy and sustainability is designed to train students from diverse educational backgrounds who are in graduate-level energy-related fields to see beyond the boundaries of traditional methodologies and disciplinary viewpoints, enabling them to integrate technological knowledge with societal insights.

Graduates of the program have a basic understanding of sustainable energy technology and systems, including social dimensions such as markets and policies. They understand energy transitions as a dynamic socio-technical process, and they are able to perform analyses of energy generation, consumption and costs, and how these metrics can be utilized in policy discussions.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

SOS 572 Sustainable Energy Transitions (3)

SOS 574 Data Analytics for Sustainable Energy (3)

Electives (9 credit hours)

technical fundamentals of energy systems elective (3)

policy and governance of energy systems elective (3)

restricted elective (3)

Additional Curriculum Information

Students should contact the academic unit for the most recent approved elective coursework. Other coursework may be used with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Career Opportunities:

Future energy challenges will be addressed by leaders who understand the complexity and dynamics of global energy systems and can communicate with diverse stakeholders to implement adaptive solutions. Graduates with this certificate are competitive for employment opportunities in academia, industry or government.

Career examples include:

- policy analyst
- project manager
- regulatory affairs specialist
- renewable energy engineer
- strategy consultant

Environmental and Sustainability Economics (Certificate), Certificate (SUESECGRCT)

Online Degree Search Title: Environmental and Sustainability Economics (Graduate Certificate)

Campus: Downtown Phoenix, Polytechnic, Tempe

Program Description:

The graduate certificate program in environmental and sustainability economics provides training in the economic theory and quantitative modeling tools of environmental and resource economics. Environmental and resource economics provides an approach to evaluate the consequences, social benefits and costs of changes to markets and environmental policies.

Prospective students for this certificate include master's and doctoral students in fields with a sustainability, environmental science or policy focus, including sustainability, public affairs, biology, environmental social science, applied mathematics and agribusiness, where training in environmental and resource economics may be complementary to research interests or career development.

Graduates of the certificate program are able to identify and evaluate the economic assumptions embedded in policy analyses and recommendations. They are also able to critically evaluate the validity of publications in environmental and resource economics; apply economic modeling approaches to real-world cases; utilize econometric techniques to generate predictions; and test hypotheses using applied economic models.

Degree Requirements:

17 credit hours.

Required Core (5 credit hours)

SOS 512 Environmental and Resource Economics (3)

SOS 529 Research Seminar in Environmental and Sustainability Economics (2)

Electives (12 credit hours)

Additional Curriculum Information

Students choose one elective course in each of the following categories: microeconomic theory, statistical and econometric modeling, environmental and resource economics, and modeling and empirical methods.

Students should see the academic unit for a list of approved electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Prerequisite coursework: None. However, it is strongly recommended that students have at least one semester of calculus or the equivalent such as MAT 251 Calculus for Life Sciences, MAT 265 Calculus for Engineers or SOS 211 Calculus and Probability.

Career Opportunities:

Professionals with expertise in environmental and resource economics are in demand across sectors and industries, including business, sustainability, government, biology and applied mathematics.

Career examples include:

- chief sustainability officer
- economist
- environmental economist
- environmental engineer
- environmental protection specialist
- environmental restoration planner
- health sciences manager
- postsecondary environmental sciences professor
- sustainability specialist
- urban planner

Food Policy and Sustainability Leadership (certificate), Certificate (SUFPSLGRCT)

Online Degree Search Title: Food Policy and Sustainability Leadership (Graduate Certificate)

Campus: Tempe, Online

Program Description:

The certificate program in food policy and sustainability leadership trains students in food policy, from understanding policymaking to developing specific, master-level skills that allow them to effectively navigate legislative, budgetary and administrative governmental processes. This empowers students to grapple with real-life food system complexities and become effective agents of change.

Students are exposed to contemporary food policy issues and are required to choose a food policy issue in which, with faculty assistance, they become an expert. Students participate in research projects and professional presentations that contribute to food policy knowledge among sustainable food system advocates.

This certificate program allows students to self-schedule work, with the exception of weekly calls with their professor; the program also requires students to spend a week meeting with food producers in Arizona and a week meeting with policymakers in Washington, D.C.

Degree Requirements:

15 credit hours including the required capstone course (SFS 565).

Required Core (12 credit hours)

SFS 560 Tools and Tactics for Food Policy Change (3)

SFS 561 Food and Farm Immersion Experience (2)

SFS 562 Managing Natural Resources for Food Production (3)

SFS 563 Applied Food Policy Immersion Experience (2)

SFS 564 American Agriculture in the Global Context (2)

Culminating Experience (3 credit hours)

SFS 565 Organizational Leadership (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- professional resume
- personal statement
- interview (in-person or virtual)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The personal statement should not exceed 1,500 words, and it should describe a food policy issue of interest to the applicant and why the applicant thinks that engaging in policy is important as it relates to this issue.

Applicants should also have a minimum of two years of professional or organizational experience in food and agriculture.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/certificates/sustainable-food/>)

Career Opportunities:

Graduates of this program can pair the certificate with a variety of graduate degrees to enhance their expertise and career prospects for work in government, public health organizations, food companies or educational institutions.

Career examples include:

- agricultural consultant
- education coordinator
- food policy analyst
- food resource manager
- lobbyist
- nonprofit advocate

Futures and Design, MS (GFFDMS)

Online Degree Search Title: Futures and Design, MS

Campus: ASU@Mesa City Center

Program Description:

The MS program in futures and design combines future-focused theories and practices, including speculative design, science fiction and foresight studies, to investigate and craft alternative futures. Students learn a range of future-oriented theories and methods used today by organizations --- and invent the theories and methods of tomorrow. Students explore a variety of epistemological perspectives and experiential processes to systematically define complex problems and explore robust strategies of change. In doing so, they diversify their critical thinking and problem-solving skills.

of complexity, including objects, platforms, services, organizations and systems. Students work in transdisciplinary teams with real-world partners from industry and the community to produce compelling visions of that future in diverse media.

The Master of Science in futures and design is offered by the transdisciplinary School for the Future of Innovation in Society.

Degree Requirements:

33 credit hours including the required applied project course (HSD 593).

Required Core (15 credit hours)

HDA 581 Emerging Media Colloquium (3)

HSD 550 Prototyping Futures (3)

HSD 551 Future-Focused Research Methods (3)

HSD 552 Worldbuilding and Imagination (3)

HSD 555 Strategic Design Futures (3)

Electives (9 credit hours)

Other Requirements (3 credit hours)

DSC 584 Internship (3)

DSC 590 Reading and Conference (3)

DSC 592 Research (3)

HDA 580 Practicum (3)

HSD 584 Internship (3)

HSD 590 Reading and Conference (3)

HSD 592 Research (3)

Culminating Experience (6 credit hours)

HSD 593 Applied Project (6)

Additional Curriculum Information

Students take the one credit hour course HDA 581 three times to attain a total of three credits for the course.

Admission Requirements:

Applicants must fulfill the requirement of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- professional resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

There is an increasing demand for professionals who are trained in navigating uncertainty, design thinking and strategically coping with disruptive change --- key skills that graduates of this program are equipped with. In fact, Bain and Associates found that over half the Fortune 500 companies use scenario planning, one of the core methods covered in the program. Harvard Business School has identified "anticipation" as an essential skill of a strategic leader.

Some career examples include:

- director of futures strategy

- futurist
- global trends manager
- growth strategist
- ideation leader
- issues manager
- principal foresight researcher
- strategic planner

Global Development and Innovation (Certificate), Certificate (FIGDIGRCT)

Online Degree Search Title: Global Development and Innovation (Graduate Certificate)

Campus: Tempe, Online

Program Description:

The graduate certificate program in global development and innovation responds to the knowledge and skills gap that development practitioners around the world often struggle with. It provides current and critical perspectives as well as analytical and practical skills to address some of today's most pressing global challenges including inequality, sustainability and poverty.

Program graduates will have acquired an understanding of the main debates in global development and will be able to engage in informed and critical ways with professionals from a range of development backgrounds to challenge development orthodoxies. Graduates will have learned how to approach development problems with creativity and confidence and with the ability to work collaboratively on addressing some of today's most pressing global challenges, including inequality and sustainability.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

GTD 501 Global Technology and Development (3)

GTD 511 Development Policy and Practices (3)

Electives (9 credit hours)

Additional Curriculum Information

Students select nine credit hours from a restricted list of electives; no more than three one-credit courses may count toward the nine. The electives can change over time as needed, with unit director approval. For a current and complete list of approved electives, students should see the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution or the equivalent from an international institution that is officially recognized by that country.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- personal statement
- resume
- official transcripts
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Acceptable proof consists of a TOEFL score of at least 550 (PBT) or 80 (iBT), an IELTS overall band score of at least 6.5 with no band below 6.0, or a Pearson Test of English score of at least 60. The most current requirements are available on the Admission Services website at <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

International students who need an F1 or J1 visa first need to apply to and be accepted into a master's degree or doctoral degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Attend Online:

(<https://asuonline.asu.edu/online-degree-programs/certificates/global-development-and-innovation-graduate-certificate/>)

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Identify and analyze competing theories and practices on global development and innovation.
- Communicate global development policies, the practice of development, and actual outcomes.

Career Opportunities:

Graduates of this program may pair the certificate with other graduate degrees to pursue a variety of careers. Professionals with an understanding of the main debates in development are in high demand across a wide range of global development agencies including nongovernmental organizations, civil society, foundations, industries and philanthropic organizations.

Career examples include:

- data analyst
- development planner
- development program associate
- development field researcher
- gender specialist in nongovernmental organizations
- organizational consultant
- organizational development specialist
- poverty analyst
- social entrepreneur

Global Sustainability Science, MS (SUGSUSMS)

Online Degree Search Title: Global Sustainability Science, MS

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

The MS in global sustainability science is a two-year collaborative degree program offered jointly by Arizona State University and Leuphana University of Luneburg, Germany. Students who participate in the program earn a Master of Science in global sustainability science from ASU and a Master of Science in global sustainability science from Leuphana University.

Students from both universities collaborate throughout the program and spend one semester together at Leuphana in Luneburg as well as one semester together at ASU in Tempe, Arizona. The program culminates with a capstone project resulting in a publishable scientific journal article. Students have the opportunity to engage with sustainability problems and solutions in an international setting.

The program focuses on value-oriented and transformational aspects of sustainability, linking research with practical implementation of sustainability solutions. Project-based learning offers students opportunities to conduct their research on real-world sustainability solutions in collaboration with stakeholders and professionals. In addition, the program facilitates intercultural collaboration, which prepares graduates for working in internationally operating institutions and organizations.

Degree Requirements:

41 credit hours including the required capstone course (SOS 596).

Required Core (17 credit hours)

SOS 510 Perspectives on Sustainability (3)

SOS 511 Advanced Sustainability Problem Solving (3)

SOS 525 Social-Ecological-Technical Systems (SETS): Domains and Interfaces (3)

SOS 557 Global Sustainability Research Preparation (1)

SOS 558 Global Sustainability Research Project (3)

SOS 559 Global Sustainability Science Perspectives Seminar (1)

SOS 581 Synthesis for Sustainability Research (3)

Methods Elective (3 credit hours)

Open Electives (15 credit hours)

Culminating Experience (6 credit hours)

SOS 596 Capstone: Scientific Paper (6)

Additional Curriculum Information

Students should see the academic unit for elective coursework approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- three letters of recommendation
- letter of intent or written statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants not meeting the minimum GPA requirement may still be considered, although the college will require a GPA petition

References should be from educators (this is preferred) or professionals familiar with the applicant's experience and capability for graduate work. It is highly recommended that the recommendations are academic in nature and address the applicant's experience and potential for success in a graduate program; however, professional recommendations also are accepted. If possible, at least one recommendation should be academic in nature.

All applicants must upload a statement of intent when completing the online application. In no more than 600 words, applicants must explain the goals they intend to achieve through their program of study at the College of Global Futures. Applicants should describe how their background will contribute to their success in the program and how completion of the degree program will support their long-term career goals. Finally, applicants should elaborate on key research questions they wish to address or problems they wish to solve as part of their program of study and identify potential faculty advisors

GRE scores are required but may be waived for students already enrolled at Leuphana University of Luneburg.

Global Opportunities:

Global Degree:

With a global degree program, students have the opportunity to receive their ASU degree in partnership with an international institution. Students and faculty can create and share knowledge, combining two institutions' strengths in research and teaching to solve pressing global and societal challenges. Global degree programs also give students exposure to international academic experiences and content. Students should contact the academic unit directly for more information about this global degree program.

Career Opportunities:

Completing a master's degree in global sustainability science can help graduates apply sustainable solutions in a diverse workforce both domestic and internationally. Graduates of the program often enter doctoral studies immediately after completing the program.

According to the School of Sustainability's 2021 alumni employment survey, 94% of master's degree program respondents are either employed or pursuing continuing education. Of those employed, 75% of respondents have jobs directly related to sustainability.

Career opportunities include:

- entrepreneur
- field director
- program manager
- sustainability analyst

Global Technology and Development, MS (LSGTDMS)

Online Degree Search Title: Global Technology and Development, MS

Campus: Tempe, Online

Program Description:

The MS in global technology and development is a program in international development that examines social, economic and political development and is concerned with the global disparity in wealth and access to resources between and among countries around the world.

Global in scope, the program highlights the variables of technology and innovation in these development dynamics with explicit goals to seek equity, justice and ease human suffering. The program offers an interdisciplinary social science curriculum and trains students with diverse undergraduate degrees, backgrounds and experiences.

Students have the opportunity to pursue a customized program to address social, economic and political problems anywhere in the world. Through a wide variety of theoretical, research, policy and special topics courses, students are prepared to finish the degree program with an applied project of their choosing that explores theoretical aspects of global development or applied solutions for impact.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Innovation in Society, BS

Innovation in Society, BA

Technological Entrepreneurship and Management, BS

Technological Entrepreneurship and Management, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required applied project course (GTD 593).

Required Core (3 credit hours)

GTD 511 Development Policies and Practices (3)

Other Requirements (12 credit hours)

GTD 501 Global Technology and Development (3)

GTD 503 Technology and the International Political System (3)

GTD 505 Social Science Inquiry for Global Development (3)

GTD 506 Applied Project Methods in Global Development (3)

Restricted Electives (12 credit hours)

Culminating Experience (3 credit hours)

GTD 593 Applied Project (3)

Additional Curriculum Information

For the approved electives course list, students should contact the academic unit. Other requirement courses may be substituted with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's degree from a regionally accredited college or university recognized by ASU in a related field such as political science, international relations, sociology, anthropology, economics, business, education, technology, engineering, life sciences, foreign languages or literature (i.e., topics related to global development, culture or socioeconomic institutions).

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- two letters of recommendation
- resume
- proof of English language proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. A TOEFL score is required. Applicants should visit <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>) for more information.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-global-technology-development/>)

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Identify, articulate and critique main theories of global technology and development.
- Identify a current problem in global development, and create relevant and focused research questions, followed by a research design, and completed research or applied solution.
- Identify current priorities in global development, and critique how discourse, institutions and policies shape development outcomes.

Global Opportunities:

Global Experience:

Study abroad is possible for graduate students, with more than 50 program opportunities spanning all seven continents. Faculty-directed programs tend to be the best fit for graduate students; taking courses over the summer or during academic breaks with ASU professors offers close mentorship and professional network growth in many fields of study while earning ASU credit. Exchange program participation is also possible with careful planning. Students can find more information on the Global Education website at <https://goglobal.asu.edu/students/graduate-students> (<https://goglobal.asu.edu/students/graduate-students>).

Career Opportunities:

Graduates of the global technology and development program pursue impactful and rewarding careers in international development across all sectors, working for government agencies, non-governmental organizations, nonprofits, educational institutions, private businesses and corporations. Learning outcomes and skills include research, writing, analysis, and the ability to understand the complexity of diverse cultural, social and political contexts. These skills and abilities transfer to a myriad of career pathways, since they are in demand from organizations across industries.

From the School for the Future of Innovation in Society's 2021 alumni employment survey, 100% of master's degree program respondents are either employed or pursuing continuing education. Of those respondents employed, 62% have jobs directly related to their degree.

Career examples include:

- analyst (research, project, technical, data)
- consultant (fundraising, marketing, information technology)
- coordinator (environmental, health, safety, operations)
- educator (instructional design, teacher, instructor)
- manager (product, project, security, business, program, information technology)
- researcher (higher education, government, nonprofit)

Global Technology and Development (Applied International Development), MS (FIGTDAIDMS)

Online Degree Search Title: Global Technology and Development (Applied International Development), MS

Campus: Online

Program Description:

The MS in global technology and development with a concentration in applied international development is a program focused on policies and practices in the development field and includes specializations provided by other units across the university.

The program offers an interdisciplinary social science curriculum and trains students with diverse undergraduate degrees, backgrounds and experiences. Highly customizable, the program allows professionals, whether early in their careers or experienced, to develop and enhance skills in planning, management, analysis and evaluation in development practice.

Students select an area to specialize in, such as education, sustainability, health, business, management, public policy or community development, where they can directly apply their knowledge to a relevant sector. Learning outcomes emphasize the utilization of skills and experience that students already possess, and enhanced abilities in analysis, critical thinking and the application of knowledge to development-related challenges. Through a wide variety of research, policy and special topics courses, students are prepared to finish the degree program with an applied project of their choosing that explores a critical aspect of global development and an applied solution for impact.

Degree Requirements:

30 credit hours including an applied project (GTD 593).

Required Core (3 credit hours)

GTD 511 Development Policy and Practices (3)

Concentration (9 credit hours)

GTD 501 Global Technology and Development (3)

GTD 503 Technology and the International Political System (3)

GTD 504 Technology and Development in Zones of Conflict (3)

GTD 505 Social Science Inquiry for Global Development (3)

GTD 506 Applied Project Methods in Global Development (3)

GTD 508 Technology and Development in Latin America (3)

NLM 520 Financial and Resource Management (3)
NLM 530 Program Evaluation and Information Management (3)

Specialization Electives (15 credit hours)

Culminating Experience (3 credit hours)
GTD 593 Applied Project (3)

Additional Curriculum Information

Students select three courses from the concentration list for a total of nine credit hours.

Students may take elective courses in an area of interest from a variety of ASU Online academic programs such as business, management, education, community development and health. Students should see the academic unit for available specializations and approved course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in global development, education, business, health, management, community development or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- letter of intent or written statement
- two letters of recommendation
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

A personal statement of purpose of one to two pages is required for admission as well as two letters of recommendation, either academic or professional. While the GRE is not required, the statement of purpose is a significant factor in the application process, and it should address the background and capabilities of the applicant as well as the applicant's interest in the program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/global-technology-development-applied-international-development-ms/>)

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Identify, and critique global technology and development concepts and current challenges.
- Identify and articulate a current problem in global development and create relevant and focused applied research project or an applied solution.
- Identify current priorities in global development, and critique how discourse, institutions and policies shape development outcomes.

Global Opportunities:

Global Experience:

Study abroad is possible for graduate students, with more than 50 program opportunities spanning all seven continents. Faculty-directed programs tend to be the best fit for graduate students; taking courses over the summer or during academic breaks with ASU professors offers close mentorship and professional network growth in many fields of study while earning ASU credit. Exchange program participation is also possible with careful planning. Students can find more information on the Global Education website at <https://goglobal.asu.edu/students/graduate-students> (<https://goglobal.asu.edu/students/graduate-students>).

Career Opportunities:

From the School for the Future of Innovation in Society's 2021 alumni employment survey, 100% of master's degree program respondents are

either employed or pursuing continuing education. Of those respondents employed, 62% have jobs directly related to their degree.

Graduates pursue impactful and rewarding careers in international development across all sectors, working for government agencies, non-governmental organizations nonprofits, educational institutions, private businesses and corporations. Students learn skills that include research, writing, analysis, and the ability to understand the complexity of diverse cultural, social and political contexts. These skills and abilities transfer to a myriad of career pathways, since they are in demand from organizations across industries.

Career examples include:

- analyst (research, project, technical, data)
- consultant (fundraising, marketing, information technology)
- coordinator (environmental, health, safety, operations)
- educator (instructional design, teacher, instructor)
- manager (product, project, security, business, program, information technology)
- researcher (higher education, government, nonprofit)

Human and Social Dimensions of Science and Technology, PHD (GCHSDSTPHD)

Online Degree Search Title: Human and Social Dimensions of Science and Technology, PhD

Campus: Tempe

Program Description:

The PhD program in human and social dimensions of science and technology is an intellectually rigorous program with problem-oriented research. It prepares students to teach and conduct research using humanistic and social science methods on the social, historical, philosophical and policy foundations of science and technology as well as on their current and future interactions with society.

The curriculum responds to growing demand for transdisciplinary research in the humanities, information sciences and social sciences that can provide insights into the dynamic relationship between science, technology and society.

The program is flexible, combining a strong, integrated, first-year experience with substantial freedom for students who, in conjunction with their advisors, design carefully crafted plans of study relevant to their own areas of specialization and expertise. Unique among programs of this kind in the nation, students also learn to communicate and work with scientists, engineers, policymakers, business and community officials, or the public in conducting and applying research.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (8 credit hours)

HSD 601 HSD I: Human Dimensions of Science and Technology (4)

HSD 602 HSD II: Science, Power and Politics (4)

Culminating Experience (12 credit hours)

HSD 799 Dissertation (12)

Additional Curriculum Information

This is a research degree, culminating in a dissertation, which must draw on multiple disciplinary perspectives.

Students may apply up to 30 credit hours from a prior master's degree toward the total hour requirement, upon approval of the steering committee. Each student, with his or her supervisory committee, develops a unique plan of study, which the student's supervisory committee approves.

Each student completes a yearlong core seminar, a second-year research project, two major fields, one minor field, methods training, electives and research. Students also regularly attend the program colloquia. There are no foreign language or statistics requirements, except as needed for a particular student's selected dissertation project.

Comprehensive Examination

The written dissertation prospectus and its oral defense constitute the written and oral comprehensive examinations required by the Graduate College for advancement to candidacy. Each student develops a written dissertation prospectus, including a bibliography and discussion of relevant research skills. The student makes an oral defense of the dissertation prospectus to his or her supervisory committee, which must approve the prospectus. Students normally complete the dissertation prospectus and its defense in the fifth semester.

Dissertation

The dissertation represents an original body of research that contributes to existing knowledge in a significant way.

Final Examination

Upon completing the dissertation, the student makes an oral defense of the dissertation to the supervisory committee, which must approve the dissertation. The doctorate is granted upon successful completion of the oral defense and any revisions to the dissertation required by committee members.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- HSD academic record form
- a curriculum vitae or resume
- a personal statement
- a writing sample
- general GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. In order to meet English proficiency students must have an IELTS overall band score of at least 6.5 with no band below 6.0, or Pearson Test of English score of at least 60, or a TOEFL score of at least 550 (PBT) or 80 (iBT). ASU's institutional code is 4007. ASU only accepts electronic copies of the TOEFL score report.

Preference is given to students with demonstrated interest and competence in relevant areas of intellectual work.

The personal statement should be one or two single-spaced pages. It must be a statement of proposed research that clearly explains why the student feels ASU is the appropriate place to pursue their doctorate, identifies one or more faculty members whose interests or work are relevant to the student's proposed research, and describes the goals for pursuing the degree.

The writing sample should be a 10- to 25-page sample of academic writing, such as a course paper, an undergraduate thesis, or an excerpt from a master's thesis.

Students should see the program website for application deadlines.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Evaluate foundational theories and existing literature in humanistic and social studies of science and technology and identify gaps and opportunities for future research
- Design a comprehensive research proposal to critique, analyze, and/or explore a key issue or theme in the human and social dimensions of science and/or technology

Global Opportunities:

Global Experience:

Study abroad is possible for graduate students, with more than 50 program opportunities spanning all seven continents. Faculty-directed programs tend to be the best fit for graduate students; taking courses over the summer or during academic breaks with ASU professors offers close

mentorship and professional network growth in many fields of study while earning ASU credit. Exchange program participation is also possible with careful planning. Students can find more information on the Global Education website at <https://goglobal.asu.edu/students/graduate-students> (<https://goglobal.asu.edu/students/graduate-students>).

Career Opportunities:

Professionals with expertise in the human and societal dimensions of science, technology and innovation are in high demand across many sectors. From the School for the Future of Innovation in Society's 2021 alumni employment survey, 100% of doctoral program respondents are employed. Of those respondents employed, 75% have jobs directly related to their degree.

Most graduates have careers in academia, but a number also work in nonprofits, think tanks and government. Skills in foresight, technology assessment, implications and values of innovation, and science policy are critical for guiding businesses, institutions, governments and societies in considering and shaping the role of science, technology and innovation in their futures.

Career examples include:

- director of operations
- energy social scientist
- executive director
- information security manager
- professor
- research and development associate
- research strategist

Innovation in Global Development, PHD (FIIGDPHD)

Online Degree Search Title: Innovation in Global Development, PhD

Campus: Tempe

Program Description:

The PhD program in innovation in global development emphasizes critical and diverse perspectives on global development and innovative policies and practices that challenge the status quo. This research-based program is both rigorous and flexible, designed to meet the needs of a diverse set of students committed to a vision of development that values context, inclusivity and equity and is socially, culturally and ecologically sensitive.

Students emerge from this program equipped with the comprehensive research capabilities, critical thinking skills, leadership skills and global perspectives necessary to navigate complex development challenges in a way that reduces inequalities and builds a more sustainable and inclusive future.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (17 credit hours)

GTD 505 Social Science Inquiry for Global Development (3)

IGD 601 Re-Thinking Global Development (4)

IGD 602 Innovation for Inclusive Development (4)

IGD 603 Methods for Research in Global Development (4)

IGD 604 Colloquium in Innovation in Global Development (2)

Electives or Research (55 credit hours)

Culminating Experience (12 credit hours)

IGD 799 Dissertation (12)

Additional Curriculum Information

Students are required to take IGD 604 once for two credits as a core course requirement. They may take it one additional time for two more credits

that can be used towards electives.

Elective courses are chosen based on the students' area of interest and approval from their committee. Other electives may be used with approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program may allow up to 30 credit hours from a previously awarded master's degree to be used for this program. If students do not have a previously awarded master's degree, the remaining coursework is made up of electives and research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in anthropology, natural resource management, agriculture development, political science, development studies, economics, development management, rural development, technology and development, sociology, science and technology or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- letter of intent or written statement
- professional resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrated their ability to contribute to the body of knowledge around global development.
- Identify and articulate the main theories, concepts and challenges in the field of global development in their historical and contemporary contexts; and apply them in an equitable and sustainable manner
- Design a comprehensive research proposal, synthesize a literature review, and analyze datasets using appropriate methodology
- Communicate orally and in writing a well-developed research agenda that includes development themes, theories, policies and practices; methodology and analysis; and conclusions for positive changes in global development

Global Opportunities:

Global Experience:

Study abroad is possible for graduate students, with more than 50 program opportunities spanning all seven continents. Faculty-directed programs tend to be the best fit for graduate students; taking courses over the summer or during academic breaks with ASU professors offers close mentorship and professional network growth in many fields of study while earning ASU credit. Exchange program participation is also possible with careful planning. Students can find more information on the Global Education website at <https://goglobal.asu.edu/students/graduate-students> (<https://goglobal.asu.edu/students/graduate-students>).

Career Opportunities:

The new generation of development scholars are competent in dealing with global development challenges with foresight and imagination that promote well-being and an equitable future for all. Professionals with expertise in global development are in high demand across a wide range of development agencies such as the World Bank, United Nation Agencies, Asian Development Bank, African Development Bank, United States Agency for International Development and nongovernmental organizations.

Scholars with training in theories, concepts and debates in the field of global development are also in high demand by research institutions, think tanks, universities, development studies centers, multinational companies, foundations and governments.

Career examples include:

- development researcher

- global development consultant
- global development specialist
- government official
- leader in civil society organizations
- organization official
- poverty alleviation advocate
- professor
- program officer

Nonfiction Writing and Publishing (Certificate), Certificate (LANWPGRCT)

Online Degree Search Title: Nonfiction Writing and Publishing (Graduate Certificate)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:

The graduate certificate program in nonfiction writing and publishing teaches students the art of telling true stories. The program is based on the belief that the work done within the university is most impactful when it can be shared --- in a clear and compelling way --- with audiences beyond one's chosen fields of research.

In this interdisciplinary certificate program, graduate students read, study and write narrative nonfiction, from literary journalism to op-eds and from explanatory essays to memoir. Students learn how to analyze the craft and stylistic decisions of professional and literary nonfiction writers and utilize these skills in their own work.

Award-winning faculty teach scholars and students to produce vivid writing that connects with a larger public as well as the most effective ways to get their writing out into the world, be it through blogs, online or print publications, trade books, or film and television.

The program is open to all graduate students, whether from the humanities, sciences, engineering, health or other academic disciplines, who want to write eloquently, persuasively and memorably about their research or life experiences.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

HSD/HPS/HST 520 Masters of Nonfiction (3)

HSD 521 Writing True Stories that Matter (3)

Electives (9 credit hours)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Applicants who attended school outside of the U.S. must hold a bachelor's degree, graduate degree or equivalent from an institution that is officially recognized by that country.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours or 90 quarter hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- writing sample
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Applicants are encouraged to enroll in a graduate degree program in conjunction with this certificate but are not required to do so.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Read, analyze, and synthesize works of journalistic or literary nonfiction and create individual works based on key concepts.
- Demonstrate an understanding of nonfiction writing and publishing conventions and the ability to write for diverse non-academic audiences.
- Demonstrate an understanding of nonfiction writing and publishing conventions and the ability to write for diverse nonacademic audiences.

Career Opportunities:

According to Forbes, storytelling is the most important skill in today's job market. Of the many sources of information in the world, it is people who write compelling stories who are best heard.

Graduates with this skill are more attractive to employers both in academia and the private sector. Expertise in writing and storytelling are in demand in business, media, entertainment, politics and community organizations. Strong writers and vivid storytellers are particularly valuable to businesses and institutions relying on narrative-based strategies to engage and grow audiences online.

Graduates may pair the certificate with other degrees to create stronger career opportunities.

Career examples include:

- communications specialist
- content strategist
- editor
- public relations manager or specialist
- screenwriter
- social media manager
- video game designer

Public Interest Technology, MS (FIPITCHMS)

Online Degree Search Title: Public Interest Technology, MS

Campus: Online

Program Description:

The MS program in public interest technology asks this fundamental question: How can technology be used for good? When studying the public interest, it is vital to understand how new technologies pose new challenges and opportunities for society.

Students in this program acquire the ability to work in cross-disciplinary teams and gain a fluency that permeates technology and society issues and solutions. Graduates think analytically, design new systems and processes, and gain exposure to emerging technologies that can make a difference in how government agencies, nongovernment organizations, nonprofits and private companies emphasize social impact. People working in this space ask communities what their needs are first, using a co-design approach to innovation with cultural awareness and values top of mind.

Public interest technology expertise is relevant to all entities who seek to embed the goals of technology assessment, fairness, sustainability and environmental justice in their products and processes.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Innovation in Society, BA

Innovation in Society, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including an applied project (PIT 593).

Required Core (12 credit hours)

PIT 501 Principles of Public Interest Technology (3)

PIT 502 Co-designing the Future (3)

PIT 503 Technology Impact Assessments (3)

PIT 504 Public Engagement Strategies (3)

Electives (15 credit hours)

Culminating Experience (3 credit hours)

PIT 593 Applied Project (3)

Additional Curriculum Information

Students should see the academic unit for the current elective course list. The elective list may change over time as new courses become available. Students must meet any prerequisites for the course in order to register for it or receive permission from the Master of Science in public interest technology degree program chair and the instructor of the course.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in computer science, public administration, engineering, business or marketing or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- professional resume
- written statement
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/public-interest-technology-masters/>)

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply a transdisciplinary approach in the creation of a public interest technology design or development process, and analyze existing public interest technology solutions by applying fundamental principles, theoretical and conceptual frameworks (e.g. co-design) to real-world cases.
- Think critically and evaluate the success or failure of existing sociotechnical systems and make recommendations on how to overcome systemic problems related to justice, equity, diversity, inclusion and fairness, among other human rights dimensions.
- Create and disseminate the results of their public engagements using different forms of communication such as professional report writing and oral communications, employing creative strategies through traditional and emerging online platforms.

•Students will be able to apply a transdisciplinary approach in the creation of a public interest technology design or development process, and analyze existing public interest technology solutions by applying fundamental principles, theoretical and conceptual frameworks (e.g., co-design) to real-world cases.

Global Opportunities:

Global Experience:

Study abroad is possible for graduate students, with more than 50 program opportunities spanning all seven continents. Faculty-directed programs tend to be the best fit for graduate students; taking courses over the summer or during academic breaks with ASU professors offers close mentorship and professional network growth in many fields of study while earning ASU credit. Exchange program participation is also possible with careful planning. Students can find more information on the Global Education website at <https://goglobal.asu.edu/students/graduate-students> (<https://goglobal.asu.edu/students/graduate-students>).

Career Opportunities:

Graduates of this program are public interest technologists, an emerging domain of expertise. Generally, those completing the degree will become analysts, advisors, assessors, coordinators, policymakers, consultants or managers.

Careers for graduates include telecommunications, information technology, government, education, energy, transport, health care, international global development, standards setting, accountability, oversight and ombudsperson service. Graduates have options to enact change within their workplace using their newly acquired skills and are able to develop ideas for new for-profit and nonprofit startups that are user-centric, collective and community-driven.

Career examples include:

- advisor (solutions, technology impact)
- analyst (policy, data privacy, systems)
- assessor (public interest technology, public health)
- consultant (content strategist, business, safety, user experience)
- coordinator (advocacy, standards)
- manager (data governance, cybersecurity, data privacy, environmental affairs, executive)
- policymaker (human rights, emerging technology)

Responsible Innovation in Science, Engineering and Society (certificate), Certificate (GCRSESGRCT)

Online Degree Search Title: Responsible Innovation in Science, Engineering and Society (Graduate Certificate)

Campus: Tempe

Program Description:

The certificate program in responsible innovation in science, engineering and society is designed for scientists, engineers, research managers, technology officers, public administrators and policy officials who seek to advance science and technology to improve societal outcomes and to develop creative solutions to the fundamental global challenges of the 21st century.

The program provides knowledge, skills and methods for analyzing innovation and technological systems and it addresses knowledge and uncertainty in decision-making; the regulation and governance of science and technology; the uptake of science and technology in complex societal settings; and interactions between science, technology and the public.

The certificate may be pursued by professionals in industry or government or by students pursuing other Arizona State University graduate degree programs.

Degree Requirements:

15 credit hours including the required capstone course (HSD 580).

Required Core (3 credit hours)
HSD 540 Responsible Innovation and Research (3)

Electives (9 credit hours)

Culminating Experience (3 credit hours)
HSD 580 Practicum (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- resume
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Acceptable proof of English proficiency is an IELTS overall band score of at least 6.5 with no band below 6.0 (no institutional code needed); or a Pearson Test of English score of at least 60; or a TOEFL score of at least 550 (PBT) or 80 (iBT). Students should note that the ASU institutional code for the TOEFL is 4007. Also, students should note that ASU only accepts electronic copies of the TOEFL score report.

International students who need an F1 or J1 visa first need to apply to and be accepted into a master's or doctoral program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Applicants should see the program website for application deadlines.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Identify, analyze, recognize an opportunity to justify and design a responsible innovation program within a science and technology initiative.
- Communicate in writing and verbally how to implement a responsible innovation program within a science policy initiative.

Career Opportunities:

Recent graduates of this program have paired the certificate with technical graduate degrees to make themselves competitive for science policy jobs in the public sector. State legislatures, courts and agencies seek employees with a technical perspective and the ability to understand and analyze their social, political, environmental and economic aspects.

Career examples include:

- analyst
- environmental assessor
- federal agency staff
- government liaison
- law clerk
- legislative staff

Science and Technology Policy, MSTP (LAHSDPSM)

Online Degree Search Title: Science and Technology Policy, MSTP

Campus: Tempe

Program Description:

The MSTP program uniquely prepares its graduates to have an impact in today's science and technology decision-making. It is designed to train future leaders, policymakers and analysts in tackling diverse and complex policy issues such as climate change and artificial intelligence in ways that are socially responsible and that contribute to a more just and vibrant future.

This cohort-based program attracts students of the highest caliber and can be completed in one year or over an extended period on a part-time basis. It is suited to anyone interested in a career in which they work to ensure, through responsive and effective policy development and implementation, that science and technology serve society. Students come from a wide range of backgrounds.

The program provides students with knowledge and tools to analyze and answer complex questions around science and technology policy issues, including:

- How are science and technology influenced by the policy process?
- What is the rightful place of scientific expertise in public policymaking?
- What values and assumptions underlie society's current understanding of science and technology?
- Who should make decisions about science and technology policy? Only experts? Or should lay people also have a voice?
- How should policymakers deal with the risks and uncertainties that come from new science and technology (e.g., biotechnology, nanotechnology, geoengineering, information technology)?
- How can policymakers balance concerns about science and technology, while maintaining innovation and international competitiveness?

Students work on topics as varied as responsible innovation, technological convergence, social and environmental sustainability, health and well-being, energy, equity, security, data privacy, infrastructure, democracy, STEM education, the role of science, and space exploration and policy. They are able to describe the historical, social and institutional foundations of science and technology policy; discuss the complexities of science and technology policy decisions, decision-making under uncertainty and the role of experts; employ effective policy communications skills and techniques; and work collaboratively and effectively with experts from different backgrounds, including scientists, engineers and elected officials.

Graduates are able to apply critical skills and methods to science and technology policy analysis, apply cutting-edge approaches to ensuring socially responsive and responsible technology innovation, and contribute to developing and implementing creative solutions to many of today's most complex challenges.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

African and African American Studies, BA
Gender, Women and Sexuality Studies, BA
Innovation in Society, BA
Innovation in Society, BS
Justice Studies, BA
Justice Studies, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required applied project course (HSD 593).

Required Core (6 credit hours)

HSD 501 Science and Technology Policy (3)

HSD 502 Advanced Science and Technology Policy (3)

Electives (9 credit hours)

Restricted Electives (9 credit hours)

Other Requirements (3 credit hours)

HSD 591 Topic: MSTP Professional Development Seminar Series (3)

Culminating Experience (3 credit hours)

HSD 593 Applied Project (3)

Additional Curriculum Information

Restricted electives are from a list provided by the program chair.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's degree or equivalent or a graduate degree from a regionally accredited college or university of recognized standing. Students are strongly encouraged to have prior relevant education, training or experience in science and technology policy; management of science, technology or innovation; or science, technology and society.

Applicants must have a minimum cumulative GPA of a 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- resume
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students should see the program website for application deadlines.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Identify and analyze science and technology policy challenges, apply policy frameworks, and develop policy insights and recommendations.
- Communicate science and technology policy challenges/issues/options to diverse audiences.
- Research and analyze the history of a public law related to science, technology, or innovation and use professional writing formats to explain how the law was implemented.

Global Opportunities:

Global Experience:

Study abroad is possible for graduate students, with more than 50 program opportunities spanning all seven continents. Faculty-directed programs tend to be the best fit for graduate students; taking courses over the summer or during academic breaks with ASU professors offers close mentorship and professional network growth in many fields of study while earning ASU credit. Exchange program participation is also possible with careful planning. Students can find more information on the Global Education website at <https://goglobal.asu.edu/students/graduate-students> (<https://goglobal.asu.edu/students/graduate-students>).

Career Opportunities:

Science and technology policy professionals are in high demand across sectors and industries, including business, think tanks, nongovernmental organizations, international organizations, academic institutions, as well as local, state and federal government. Skills in policy analysis and the policymaking process are valuable to businesses and institutions that deal with science and technology policy issues.

From the School for the Future of Innovation in Society's 2021 alumni employment survey, 100% of master's degree program respondents are either employed or pursuing continuing education. Of those respondents employed, 62% have jobs directly related to their degree.

Some career examples include:

- editor of a science and technology-focused magazine or journal
- environmental protection specialist
- government program administrator
- information technology specialist in the federal government and private sector
- intelligence analyst on science and technology threats
- official at U.S. Patent and Trademark Office
- regulatory policy analyst
- science and technology research analyst, program or policy analyst, or legislative analyst
- science, technology or health care policy advisor
- smart cities program manager

Sustainability, MA (SUSUSTMA)

Online Degree Search Title: Sustainability, MA

Campus: Tempe

Program Description:

The MA in sustainability is a research-oriented degree program that culminates with research writing: either a thesis or publishable scientific paper.

The program focuses on knowledge generation and investigating potential solutions to sustainability challenges and prepares students to design and conduct transdisciplinary research. Although the graduate degree programs emphasize the integration of a broad range of expertise, this program is best-suited to students inclined toward transdisciplinary science, humanities, planning or related fields and who are interested in a career in research or academia.

Students learn how different disciplines view and approach the challenges of sustainability in theory, research and practice. They develop academic and technical skills as well as ethical insights that can help them understand, research and provide solutions to complex sustainability challenges at the local, regional, national and global levels.

All program graduates understand the need for a transdisciplinary approach to solving sustainability challenges; are able to communicate their work to professionals in other disciplines and to policymakers and the general public; and have the breadth of vision to recognize the interconnectedness of social, economic, environmental and technical systems. They have the critical thinking skills necessary for approaching sustainability challenges from a systems perspective, the ability to work effectively in interdisciplinary teams, and the technical skills required to formulate and solve problems at the appropriate scale.

Degree Requirements:

35 credit hours and a thesis, or 35 credit hours including the required capstone course (SOS 596).

Required Core (14 credit hours)

SOS 510 Perspectives on Sustainability (3)

SOS 520 Research Design and Methods for Sustainability (3)

SOS 525 Social-Ecological-Technical Systems: Domains and Interfaces (3)

SOS 581 Synthesis for Sustainability Research (3)

SOS 589 Community of Graduate Student Scholars (2)

Electives (15 credit hours)

methods (3)

normative dimensions of sustainability (3)

general electives (9)

Culminating Experience (6 credit hours)

SOS 596 Capstone: Scientific Paper (6) or

SOS 599 Thesis (6)

Additional Curriculum Information

The taught-course element of the program is evaluated through course-specific examinations, research papers or applied projects and is

considered successfully completed if the student obtains a GPA of 3.25 or higher. Graduate College policies and procedures for fulfillment of degree requirements must also be met.

SOS 589 is a one-credit-hour course students take twice, for two credit hours total.

Approved general elective subjects include the following:

SOS, ASB, ART, PAF, SGS, POS, SOC, PSB, PGS, PHI, COM, CPP, CRD, ESS, PGV, NTR, MCO, GCU, SCM, HPS, HST, JHR, JMC, JUS, LAW, LES, PUP, SBS, RTM, STS, TDM, URB

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of intent
- three letters of recommendation
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of intent should not exceed 600 words and should describe how the applicant's background will contribute to success in the program and describe how completion of the degree will support long-term career goals. The statement should elaborate on key research questions the applicant wishes to address or problems to solve as part of the plan of study, and it should identify potential faculty advisors.

Letters of recommendation must be from three people who can attest to the applicant's academic and professional achievements. At least one letter should be academic in nature.

Global Opportunities:

Global Experience:

Study abroad is possible for graduate students, with more than 50 program opportunities spanning all seven continents. Many students in the program also conduct research abroad as part of their culminating experience.

Career Opportunities:

Professionals with expertise in sustainability frameworks, interdisciplinary research and strong research skills are in high demand across industries, including business, academia and government. Skills in critical thinking, teamwork, sustainability problem-solving and research are valuable to businesses and institutions burdened by sustainability problems.

From the School of Sustainability's 2021 alumni employment survey, 94% of master's degree program respondents are either employed or pursuing continuing education. Of those employed, 75% of respondents have jobs directly related to sustainability.

Career examples include:

- chief sustainability officer
- conservation program lead
- disaster relief manager
- environmental restoration planner

- program director or manager
- research associate
- sustainability communications specialist
- sustainability instructor or teacher
- sustainability specialist
- zero waste consultant

Sustainability, PHD (SUSUSTPHD)

Online Degree Search Title: Sustainability, PhD

Campus: Tempe

Program Description:

The PhD program in sustainability prepares students to become scientists and leaders in research and to investigate the urgent sustainability challenges of this century. The flexible, transdisciplinary nature of the program allows students to focus on problems of interest to them, drawing upon relevant knowledge from sustainability science and a variety of disciplines. This full-time program includes a high degree of faculty interaction and collaboration.

Graduates possess an advanced understanding of the dynamics of coupled social-ecological systems and use this knowledge to conduct original research to inform robust solutions to specific sustainability challenges. All sustainability doctoral students gain a better understanding of the need for a transdisciplinary approach to solving sustainability challenges as well as the ability to communicate their research effectively to academic and non-academic audiences alike.

In addition to the common learning outcomes, students are able to conduct research on particular sustainability challenges using theoretical lenses and methods from sustainability science and a range of complementary disciplines. Students learn to translate sustainability challenges to tractable research questions, develop a portfolio of quantitative and qualitative research methods to address these research questions, formulate and test hypotheses, utilize rigorous elicitation methods to gather qualitative and quantitative datasets, learn to engage with stakeholders to co-produce knowledge, use statistical and other analytic techniques to analyze data, and build and apply models of social-ecological systems.

They develop expertise in the analysis of institutional policies and regulations and the design of the built environment and technologies to support sustainable development. They also develop the foundational knowledge of concepts and methods required to conduct interdisciplinary research and effectively communicate their findings across academic disciplines as well as to policymakers and the general public.

Upon graduation they are equipped to lead others in the development of sustainable strategies at the local, national and global levels.

Degree Requirements:

86 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (8 credit hours)

SOS 510 Perspectives on Sustainability (3)

SOS 520 Research Design and Methods for Sustainability (3)

SOS 589 Community of Graduate Student Scholars (2)

Solutions Workshop Electives (6 credit hours)

Open Electives (48 credit hours)

Research (12 credit hours)

SOS 792 Research (12)

Culminating Experience (12 credit hours)

SOS 799 Dissertation (12)

Additional Curriculum Information

For electives, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit. Only six credit hours of 400-level coursework can be included in the plan of study.

When approved by the student's supervisory committee and the Graduate College, this program allows up to 30 credit hours from a previously awarded master's degree to be used for this program. If students do not have a previously awarded master's degree, the remaining coursework is to be made up of appropriate electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. The school encourages applicants with diverse educational backgrounds and experiences that are relevant to the school's core objectives.

Applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of intent
- three letters of recommendation
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of intent should not exceed 600 words and should describe how the applicant's background will contribute to success in the program; describe how completion of the degree will support long-term career goals; elaborate on key research questions the applicant wishes to address or problems to solve as part of the plan of study; and identify potential faculty advisors.

Letters of recommendation must be from three people who can attest to the applicant's academic and professional achievements. At least one letter should be academic in nature.

Global Opportunities:

Global Experience:

Sustainability (Certificate), Certificate (SUSUSGRCT)

Online Degree Search Title: Sustainability (Graduate Certificate)

Campus: Downtown Phoenix, Polytechnic, Tempe, West, Online

Program Description:

The development of sustainable solutions depends on interdisciplinary collaboration. The graduate certificate program in sustainability provides the foundational knowledge required to integrate sustainable thinking into any academic or professional field.

The skills developed in this program, like systems thinking and futures thinking, are essential to addressing sustainability challenges across disciplines. Students in the program learn to communicate and collaborate with faculty and peers from varied backgrounds, preparing them to lead teams in the future.

Courses introduce students to the foundations of sustainability through a disciplinary overview and problem-solving methodology. With electives, students can explore specific areas that are of greatest interest to them. Subjects include policy, international development, clean air and water, sustainable food systems, corporate social responsibility, waste reduction, human rights, climate transformation and clean energy.

This program is designed to be taken independently or as a supplement to another graduate degree program.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

SOS 508 Pathways to Sustainability (3)

SOS 509 Leading Sustainability Transitions (3)

Electives (9 credit hours)

Additional Curriculum Information

Students select six credit hours of sustainability-focused electives from EMS, SFS and SOS course prefixes. Other coursework may be used with approval of the sustainability graduate committee. In addition, students take three credit hours of other elective coursework related to sustainability.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/certificates/graduate-sustainability-certificate/>)

Career Opportunities:

This certificate program may be relevant to individuals in a variety of industries.

Graduates of this program can pair the certificate with a range of graduate degrees to enhance their expertise and career prospects related to sustainability. Because many organizations seek to implement greener initiatives, knowledge of sustainability may be valuable across many areas, including business, engineering, government, nonprofit and education sectors. Students can use their skills to bring sustainable initiatives to organizations.

Career examples include the following. Additional advanced degrees or certifications may be required for some.

- chief sustainability officer
- civil engineer
- economist
- energy engineer
- environmental economist
- environmental restoration planner
- industrial ecologist
- project coordinator
- sustainability specialist
- urban planner
- water resource specialist

Sustainability (Complex Adaptive Systems Science), PHD (SUSUSTCPHD)

Online Degree Search Title: Sustainability (Complex Adaptive Systems Science), PhD

Campus: Tempe

Program Description:

Complex adaptive systems science is the study of interactive and dynamic systems that change over time. The complex adaptive systems science concentration program under the PhD in sustainability trains the next generation of scientists in advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences. The program is tightly integrated with varied, ongoing, university-wide research on complex adaptive systems science at Arizona State University and emphasizes the value of a complex adaptive systems science perspective for better insight and an active role in seeking solutions to a broad array of critical issues facing society today. Students become fluent in the common language of complexity while also receiving a solid foundation in the domain knowledge of existing academic disciplines.

By broadly embedding an understanding of complex adaptive system-relevant approaches into the practice of normal science, students gain the ability to transform science. The program promotes the development and testing of more robust theories and sophisticated methods in a wider array of research settings needed in order to develop a deeper understanding of the nature and dynamics of complex adaptive systems, which are grounded in concrete examples and applications.

The program prepares students to become scientists and leaders in research and to investigate the urgent sustainability challenges of this century. Graduates possess an understanding of the need for a transdisciplinary approach to solving sustainability challenges; the ability to communicate their work to professionals in other disciplines, to policymakers and to the general public; and the breadth of vision to recognize the interconnectedness of social, economic, environmental and technical systems. Their critical thinking skills enable them to approach sustainability challenges from a systems perspective; they also have the skills needed to work effectively in interdisciplinary teams and the technical skills to formulate and solve problems at the appropriate scale.

In addition to the common learning outcomes, graduates are able to conduct research on particular sustainability challenges using standard skills, including the capacity to identify problems; to formulate and test hypotheses; to use statistical, econometric and geographical information system techniques to construct and analyze datasets; and to build and apply models. They are prepared to lead others in the analysis and design of the

built environment and institutions' policies, regulations and technologies to support sustainable development and lead others in applying these concepts and methods to the development of sustainable strategies for water, land, air and urban management at the local and global levels. Graduates understand the concepts and methods of a number of critical disciplines bearing on the sustainability of systems at different spatial and temporal scales.

The doctoral program in sustainability with a concentration in complex adaptive systems science is offered for students who have completed a bachelor's or master's degree program.

Degree Requirements:

86 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (8 credit hours)

SOS 510 Perspectives on Sustainability (3)

SOS 520 Research Design and Methods for Sustainability (3)

SOS 589 Community of Graduate Student Scholars (2)

Solutions Workshop Electives (6 credit hours)

Open Electives (36 credit hours)

Concentration (12 credit hours)

CASS fundamentals (3)

mathematics of CASS (3)

modeling CASS (3)

application of CASS approaches (3)

Research (12 credit hours)

SOS 792 Research (12)

Culminating Experience (12 credit hours)

SOS 799 Dissertation (12)

Additional Curriculum Information

For open electives and concentration coursework, students should see the academic unit for the approved course list. Students should note that only six credit hours of 400-level coursework can be included on the plan of study.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the remaining coursework is made up of appropriate electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. The school encourages applicants with diverse educational backgrounds and experiences that are relevant to the school's core objectives.

Applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of intent
- three letters of recommendation
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of intent should not exceed 600 words and should describe how the applicant's background will contribute to success in the program,

describe how completion of the degree will support the applicant's long-term career goals and explain why the applicant is applying to the College of Global Futures and, more specifically, the doctoral program with a complex adaptive systems science concentration. The statement of intent should elaborate on key research questions the applicant wishes to address or problems to solve as part of the plan of study, and it should identify potential faculty advisors.

Letters of recommendation must be from three people who can attest to the applicant's academic and professional achievements. At least one letter should be academic in nature.

Global Opportunities:

Global Experience:

Study abroad is possible for graduate students, with more than 50 program opportunities spanning all seven continents. Faculty-directed programs tend to be the best fit for graduate students; taking courses over the summer or during academic breaks with ASU professors offers close mentorship and professional network growth in many fields of study while earning ASU credit. Exchange program participation is also possible with careful planning. <https://goglobal.asu.edu/students/graduate-students> (<https://goglobal.asu.edu/students/graduate-students>)

Students may also participate in a School of Sustainability study abroad program. More information is available on the School of Sustainability study abroad website: <https://schoolofsustainability.asu.edu/student-life/study-abroad> (<https://schoolofsustainability.asu.edu/student-life/study-abroad/>). Many students in the program also conduct research abroad as part of their culminating experience.

Career Opportunities:

Professionals with expertise in complex adaptive systems science are in high demand across sectors and industries, including business, government and academia. Experts in complexity, who can serve as a bridge between disciplines and scholars, are essential to solving a variety of sustainability challenges.

From the School of Sustainability's 2021 alumni employment survey, 95% of doctoral program respondents are employed. Of those respondents employed, 100% have jobs directly related to sustainability.

Career examples include:

- chief sustainability officer
- energy engineer
- environmental economist
- environmental restoration planner
- environmental sciences professor
- industrial ecology
- natural science manager
- professor
- research scientist
- sustainability specialist
- urban planner

Sustainability Leadership, EMSL (SUEMSLEMSL)

Online Degree Search Title: Sustainability Leadership - Executive, EMSL

Campus: Online

Program Description:

A sustainable future requires leaders who are able to integrate sustainability into existing institutions and new enterprises. A particular knowledge base and skill set is required to drive this kind of transformational change. Professionals with tools and skills learned in sustainability leadership, as opposed to other degree programs, are in a prime position to establish sustainability practices in any type of organization.

The EMSL program prepares professionals to advance social, economic and environmental responsibility. Designed to be completed in 12 continuous months, the program is created and delivered by people who have worked in and with companies making sustainability transitions and those who continue to be on the cutting edge of global sustainability leadership.

The curriculum includes coursework in the following synergistic thematic areas:

- communications and change management
- global context of sustainability
- leadership for sustainability
- sustainability and strategy

The program also includes opportunities for students to add elective coursework that is related to their specific area of interest. In addition to the coursework, students also have monthly individual coaching sessions with program faculty to help with career planning and professional development.

Degree Requirements:

30 credit hours including the required capstone courses (EMS 515 and EMS 516).

Required Core (18 credit hours)

EMS 522 Mastering the Global Sustainability Context (3)

EMS 523 Strategic Sustainability and Leadership (3)

EMS 524 Sustainability Storytelling and Communications (3)

EMS 525 Essentials for Transformative Leadership in Sustainability (3)

SOS 508 Pathways to Sustainability (3)

SOS 509 Leading Sustainability Transitions (3)

Electives (6 credit hours)

Culminating Experience (6 credit hours)

EMS 515 Immersive Experience for Sustainability Leadership (3)

EMS 516 Capstone Course for EMSL Students (3)

Additional Curriculum Information

Students are encouraged to attend one in-person session in Washington, D.C. (EMS 515). Students who cannot attend should contact the college for an alternative option.

Elective courses must be at the 500 level or above.

Admission Requirements:

Applicants must fulfill the requirements for both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume or curriculum vitae
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants to the program should be interested in and passionate about advancing sustainability in their organizations, either directly or indirectly. Successful candidates are expected to draw from and apply solutions to actual professional challenges and opportunities.

Because this is an executive master's degree for experienced professionals, work and life experience may be taken into account in lieu of deficiencies from past bachelor's degree program experience. Applicants with GPAs lower than 3.00 (scale is 4.00 = "A") may be admitted on a provisional status. Applicants should contact the program for more details if their GPA falls below the 3.00 requirement.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/executive-sustainability-leadership/>)

Career Opportunities:

Graduates of this program advance their leadership skills with practical, actionable tools and can accelerate sustainability throughout their organizations. An Executive Master of Sustainability Leadership degree enhances career opportunities in a variety of sectors, whether business, technology, science, education or government. From the School of Sustainability's 2021 alumni employment survey, 96% of degree program respondents are either employed or pursuing continuing education. Of those employed, 82% of respondents have jobs directly related to sustainability.

Typical careers include:

- business organization manager
- chief executive officer
- chief sustainability officer
- consultant
- director of strategic initiatives
- sustainability analyst
- sustainability coordinator
- sustainability director
- sustainability manager
- training manager

Sustainability Leadership, MSL (SUSUSLMSL)

Online Degree Search Title: Sustainability Leadership, MSL

Campus: Online

Program Description:

A sustainable future requires leaders who are able to integrate sustainability into existing institutions and new enterprises. A particular knowledge base and skill set is required to drive this kind of transformational change. Professionals with tools and skills learned in sustainability leadership, as opposed to other degree programs, are in a prime position to establish sustainability practices in any type of organization.

The MSL program prepares professionals to advance social, economic and environmental responsibility. It equips graduates to drive high-impact sustainability results in organizations and communities. The program is designed and delivered by people who have worked in and with companies making sustainability transitions and continue to be on the cutting edge of global sustainability leadership. Students can complete the program in one to three years.

The curriculum includes four synergistic thematic areas:

- communications and change management
- global context of sustainability
- leadership for sustainability
- sustainability and strategy

The program also includes opportunities for students to include electives that are related to their specific area of interest. Elective courses are offered that focus on the military, cities, climate, food systems and other thematic areas. Students also may choose to go on an approved study abroad trip to fulfill elective credits.

Degree Requirements:

30 credit hours including the required applied project course (EMS 593).

Required Core (21 credit hours)

EMS 522 Mastering the Global Sustainability Context (3)

EMS 523 Strategic Sustainability and Leadership (3)
EMS 524 Sustainability Storytelling and Communications (3)
EMS 525 Essentials for Transformative Leadership in Sustainability (3)
EMS 589 MSL Capstone Project Preparation (3)
SOS 508 Pathways to Sustainability (3)
SOS 509 Leading Sustainability Transitions (3)

Electives (6 credit hours)

Culminating Experience (3 credit hours)
EMS 593 Applied Project (3)

Additional Curriculum Information

Elective courses must be at the 500 level or above.

Admission Requirements:

Applicants must fulfill the requirements for both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. They should also have a minimum of three years of professional or organizational experience or the equivalent.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program. Applicants who have a GPA less than 3.00 may submit a statement describing contributing circumstances and reference personal experience to be considered for admission.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of intent
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Sustainability Solutions, MSUS (SUSUSOMSUS)

Online Degree Search Title: Sustainability Solutions, MSUS

Campus: Tempe, ASU@Los Angeles

Program Description:

The MSUS program prepares students to apply sustainability principles and approaches to careers in a variety of fields, addressing complex human and environmental challenges. The focus is on developing solutions by working with stakeholders on these challenges using a sustainability framework.

A distinguishing element of the program is its applied approach and emphasis on learning how to develop solutions. Students begin the program with a foundation in sustainability theory and methods, then take electives in an area of interest.

Final courses include learning how to manage sustainability projects as well as the capstone experience, where students team up with a company, a government agency or a nongovernmental organization to develop a real-world sustainability solution. Carried out collaboratively in lieu of a thesis, the capstone provides practical experience positioning graduates for today's competitive, knowledge- and skill-intensive job market.

In order to promote access, students may submit a GPA petition if they don't meet the 3.00 GPA requirement for admission. More information can be found on the School of Sustainability graduate admission website at <https://schoolofsustainability.asu.edu/admissions/application-process/graduate-admissions/> (<https://schoolofsustainability.asu.edu/admissions/application-process/graduate-admissions/>).

Los Angeles location: Currently, programs of study are offered in a hybrid learning model. Select courses are offered through in-person instruction in the Herald Examiner building. The majority of courses are offered virtually from Arizona through a combination of synchronous and asynchronous learning technologies. Students should consult their advisor and schedule of classes for additional information.

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as concurrent degree program with:

- Legal Studies, MLS
- Master of Mass Communication, MMC
- Public Administration, MPA
- Public Policy, MPP
- Urban and Environmental Planning, MUEP

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Sustainability, BA
- Sustainability, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the applied project requirement of (SOS 593).

Required Core (6 credit hours)

SOS 508 Pathways to Sustainability (3) or SOS 510 Perspectives on Sustainability (3), and
SOS 509 Leading Sustainability Transitions or SOS 511 Advanced Sustainability Problem Solving (3)

Other Requirements (15 credit hours)

SOS 582 Project Management for Sustainability (3)

competency mastery courses (6)

methods courses (6)

Focus Area Electives (6 credit hours)

Culminating Experience (3 credit hours)

SOS 593 Applied Project (3)

Additional Curriculum Information

MSUS students specialize in a focus area and take six credit hours of elective coursework related to that area, with approval by their academic advisor.

For a list of approved courses that may fulfill the methods and competency mastery requirements, students should see the academic unit. No more than six credit hours of 400-level coursework can be included in the plan of study.

The Graduate College policies and procedures for fulfillment of degree requirements must also be met.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of intent
- three letters of recommendation
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Letters of recommendation must be from three people who can attest to the applicant's academic and professional achievements. At least one letter should be academic in nature.

The statement of intent should not exceed 600 words and should explain the goals the applicant intends to achieve through the plan of study, describe how the applicant's background will contribute to success in the program, explain how completion of the degree will support long-term career goals, and elaborate on project ideas the applicant wishes to pursue as part of the program of study.

Global Opportunities:

Global Experience:

Study abroad is possible for graduate students, with more than 50 program opportunities spanning seven continents. Sustainable Energy, PHD (SUSUEPHD)

Online Degree Search Title: Sustainable Energy, PhD

Campus: Tempe

Program Description:

Society is in the midst of a transition toward sustainable energy. Because the global energy system is a complex, socio-technical system, the transition toward sustainable energy requires the next generation of leaders to possess a transdisciplinary perspective comprising both technical and societal dimensions of energy.

The PhD program in sustainable energy integrates these perspectives in preparing students to address the challenges in energy transitions. Students enter the program from diverse backgrounds in engineering, planning, business, policy, and natural and social sciences. The core classes provide them with an interdisciplinary expertise and skills related to current and emerging energy technologies and systems, economic analysis of energy systems, and social and policy dynamics of energy transitions. Elective classes allow students to develop more specialized methodological skills, technical expertise and topical knowledge.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (17 credit hours)

SOS 571 Sustainable Energy Technologies and Systems (3)

SOS 572 Sustainable Energy Transitions (3)

SOS 573 Sustainable Energy Policy (3)

SOS 574 Data Analytics for Sustainable Energy (3)

SOS 575 Sustainable Energy Research Seminar (4)

SOS 589 Community of Graduate Student Scholars (1)

Electives or Research (12 credit hours)

Other Requirement (13 credit hours)

SOS 792 Research (13)

Culminating Experience (12 credit hours)

SOS 799 Dissertation (12)

Additional Curriculum Information

Students take SOS 575 in four different semester terms for 1 credit hour each term.

Electives can be chosen from applicable courses in the following areas based on the student's area of interest and approval from the committee: engineering of matter, transport and energy; sustainable engineering and the built environment; geographical sciences and urban planning; molecular sciences; life sciences; future of innovation in society; physics; and sustainability.

Other electives may be used with approval from the academic unit. Student electives are customizable based on the student's area of research.

Doctoral students are expected to include higher level courses (600 and 700 levels) as part of the elective and research coursework.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 credit hours of coursework is made up of electives and research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume or curriculum vitae
- statement of intent
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The school encourages applicants with diverse educational backgrounds and experiences. Sample related fields include engineering, geography, urban planning, environmental science, physics, chemistry or planning for future innovations and societal changes.

All applicants must upload a statement of intent as part of the application process. In no more than 600 words, applicants must explain the goals they intend to achieve through their program of study at the College of Global Futures. Applicants should describe how their background will contribute to their success in the program and how completion of their degree will support their long-term career goals. Finally, applicants should elaborate on key research questions they wish to address or problems they wish to solve as part of their program of study and identify potential faculty advisors.

Global Opportunities:

Global Experience:

Study abroad is possible for graduate students, with more than 50 program opportunities spanning seven continents. Faculty-directed programs tend to be the best fit for graduate students; taking courses over the summer or during academic breaks with ASU professors offers close mentorship and professional network growth in many fields of study while earning ASU credit. Many students in the program also conduct research abroad as part of their culminating experience.

Career Opportunities:

From the School of Sustainability's 2021 alumni employment survey, 95% of doctoral program respondents are employed. Of those respondents employed, 100% have jobs directly related to sustainability.

Professionals with expertise in sustainable energy are in high demand across industries that including academia, business, planning and government. Skills in cross-disciplinary research, socio-technical innovation, sustainable energy solutions and policymaking are valuable to businesses and institutions relying on data-driven strategies to solve urgent sustainability problems and shape global futures.

Career examples include:

- assistant or associate professor
- chief sustainability officer
- director of policy advocacy
- energy analyst
- project manager
- renewable energy project manager
- researcher
- science and technology policy advisor
- senior policy analyst
- sustainability consultant
- sustainability specialist
- urban and regional planner

Sustainable Food Systems, MS (SUSUSFSMS)

Online Degree Search Title: Sustainable Food Systems, MS

Campus: Online

Program Description:

The MS in sustainable food systems is a research-oriented degree program in which students develop an understanding of present-day health, agriculture and environmental policy; develop strategies to lead policy discussions; interact with a network of food and agriculture policy leaders and mentors; and apply their knowledge and skills to address problems related to food and food systems.

This program also allows students to spend a week meeting with food producers in Arizona and a week meeting with policymakers in Washington, D.C. Students participate in research projects and professional presentations that contribute to food policy knowledge among sustainable food system advocates.

Graduates of the program are able to employ solutions-based thinking and a dynamic systems framework to create the inclusive, diverse and resilient food systems of the future.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Sustainable Food Systems, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required capstone course (SFS 596).

Required Core (21 credit hours)

SOS 508 Pathways to Sustainability (3)

SOS 509 Leading Sustainability Transitions (3)

SFS 560 Tools and Tactics for Food Policy Change (3)

SFS 561 Food and Farm Immersion Experience (2)
SFS 562 Managing Natural Resources for Food Production (3)
SFS 563 Applied Food Policy Immersion Experience (2)
SFS 564 American Agriculture in the Global Context (2)
SFS 565 Organizational Leadership (3)

Electives (6 credit hours)

Culminating Experience (3 credit hours)
SFS 596 Capstone (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- statement of intent
- two letters of recommendation
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of intent should not exceed 600 words and applicants must explain the goals they intend to achieve through their plan of study at the College of Global Futures, specifically in the field of sustainable food systems. Applicants should elaborate on key research questions they wish to address or problems they wish to solve as part of their plan of study. Finally, applicants should describe how their background will contribute to their success in the program.

Letters of recommendation must be from two people who can attest to the applicant's academic and professional achievements. At least one letter should be academic in nature.

Global Management, Thunderbird School of

Applied Leadership and Management, MALM (TBALMMALM)

Online Degree Search Title: Applied Leadership and Management, MALM

Campus: Online

Program Description:

Professionals expand their management and leadership repertoire while sharpening their business skills in Thunderbird School of Global Management's MALM program, earning a unique graduate degree with classes taught online by Thunderbird's world-class professors. The program provides mastery of modern practices for managers and executives in transnational organizations from a global perspective, delivering the highest quality graduate education in a flexible online format.

This is an in-depth, professional degree program that features applicable training in the nuances of managing a global business, government agency or nonprofit organization.

The Master of Applied Leadership and Management program combines cutting-edge management coursework with a truly global curriculum, cross-cultural communication and negotiation training, personal development and leadership components to prepare graduates to thrive as decision-makers in enterprises that operate across borders.

Designed to empower graduates with well-rounded, future-ready skill sets, this transformational master's degree provides a strategically choreographed progression through every facet of international management, with courses spanning the gamut of Thunderbird's online offerings, from accounting and data-driven decision making to global finance and marketing. Students also receive hands-on, experiential learning opportunities in practical, real-world situations through elective courses that allow them to apply the full range of professional skills acquired during their studies.

The Master of Applied Leadership and Management allows students to work at their own pace to earn their degree in as few as 12 months. The program is designed specifically for students from around the world and allows them to join the globally connected Thunderbird alumni network that opens doors and opportunities all over the planet. More information is available on the Thunderbird alumni website.

<https://thunderbird.asu.edu/alumni?action> (<https://thunderbird.asu.edu/alumni?action>)

Specializations

Thunderbird's Master of Applied Leadership and Management degree offers optional specializations, one delivered in English and three delivered in Mandarin. Please see the Thunderbird website for details.

The global and public affairs specialization is delivered in English, and more information is available on the program website.

<https://thunderbird.asu.edu/degrees/online/master-applied-leadership-management> (<https://thunderbird.asu.edu/degrees/online/master-applied-leadership-management>)

The data analytics, financial management and global business specializations are delivered in Mandarin. More information on these specialization areas are available on the ASU Online website. <https://www.asuonline.cn/malm/> (<https://www.asuonline.cn/malm/>)

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and

master's degree with:

Global Management, BGM
International Trade, BS
Technological Entrepreneurship and Management, BS
Technological Entrepreneurship and Management, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required capstone course (TAM 542).

Required Core (3 credit hours)

TAM 582 Communicating and Negotiating in a Dynamic Global World (3) or TGM 506 Communicating and Negotiating Across Cultures (3)

Electives (24 credit hours)

Culminating Experience (3 credit hour)

TAM 542 Global Leadership and Personal Development (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- professional resume or CV
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. The English proficiency requirements are the same as the Graduate College requirements.

Two years of work experience is preferred but not required.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-applied-leadership-management/>)

Global Opportunities:

Global Experience:

Students in the Master of Applied Leadership and Management program have the unique opportunity to apply their learning in an international setting. Some options include:

Global Field Seminars --- During this course students will experience an intensive one-week immersion in-country. Students enjoy a hands-on learning experience in a focused region of the world, comprised of company site visits, high-level meetings and presentations with business, government and cultural leaders as well as Thunderbird alumni. Through these interactions, students learn the challenges and opportunities that make doing business in the region unique.

Thunderbird Global Challenge Laboratories --- This is a client-facing, project-based course that involves a one-week immersion in-country. Projects are tailored to the business needs of the client and provide sophisticated data and market analysis; strategy recommendations; and practical, effective plans for sustained growth. For more information, students should visit the Thunderbird Global Challenge Lab website <https://thunderbird.asu.edu/challenge-labs> (<https://thunderbird.asu.edu/challenge-labs>).

The program fee for one Global Field Seminar or Global Challenge Lab experience is included in the tuition and fees for the Master of Applied Leadership and Management degree. Airfare and incidental expenses are extra.

Career Opportunities:

More than ever, today's global organizations need versatile leaders and managers with creative problem-solving skills who can elevate diverse teams across cultures in multiple markets around the world. The Master of Applied Leadership and Management prepares graduates to lead in all sectors: government, private enterprise, NGOs and nonprofits.

Career examples include:

- compensation and benefits managers
- financial analysts
- human resources managers
- logistics analysts
- logistics managers
- management analysts
- marketing managers
- sales managers
- supply chain managers

Global Affairs (Certificate), Certificate (TBGAFGRCT)

Online Degree Search Title: Global Affairs (Graduate Certificate)

Campus: Downtown Phoenix

ASU is not currently accepting applications for this program.

Program Description:

The graduate certificate program in global affairs is designed to provide an in-depth study of the global political economy, global theory, global institutional environment, decision-making and global strategy.

The global affairs certificate provides a foundation for students to become globally-minded policymakers serving in national, regional or local government agencies; international or nongovernmental organizations; or multinational corporations. The school's innovative and practical curriculum (a strong core of global business management skills, international political economy and cross-cultural training) is delivered through a transdisciplinary approach.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Degree Requirements:

15 credit hours including the required capstone course (TGM 598).

Required Core (12 credit hours)

SGS 501 Global Theory (3)

SGS 502 Global Institutions and Actors (3)

SGS 503 Methods: Global Decision Making Under Uncertainty (3)

POS 591 Seminar (3)

Culminating Experience (3 credit hours)

TGM 598 Special Topics (Capstone Course)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management.
Academic Catalog Archive 2022-2023

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00="A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00="A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GMAT or GRE test scores
- one letter of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Career Opportunities:

Graduates who have combined the certificate in global affairs with their major program of study may become more marketable to employers. They often decide to pursue employment in government, nonprofit and social impact areas.

Advanced degrees or certifications may be required for academic or clinical positions.

Global Affairs and Management, MA (TBGAMMA)

Online Degree Search Title: Global Affairs and Management, MA

Campus: Downtown Phoenix, ASU@Los Angeles, ASU@Washington, D.C.

Program Description:

The MA in global affairs and management is a transdisciplinary degree program that covers all aspects of global affairs and management, including global relations, political economy and cross-cultural communications, while supplementing this valuable international affairs curriculum with core courses in accounting, finance, management and marketing.

The program prepares students with the tools and insight needed to address complex issues in diplomacy, business and society and to bring an increased focus on social responsibility to corporate employers.

Los Angeles location: The specialization in global creative industries is for creatives seeking the skills of management and managers seeking the craft of creativity. It is designed for individuals pursuing global leadership and management careers in film, television or new media; music; AR, VR or XR; gaming; design; dance; fashion; theatre; or the arts, as well as for careers in themed and location-based entertainment and sports. Interested students should apply to this specialization separately.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Degree Requirements:

30 credit hours including the required capstone course (TGM 545).

Required Core (3 credit hours)

TGM 575 Global Affairs (3)

Other Requirements (18 credit hours)

TGM 501 Global Accounting (3)
TGM 502 Financial Management for Global Value Creation (3)
TGM 503 Global Marketing (3)
TGM 504 Managing Organizations from a Global Perspective (3)
TGM 505 States and Markets in a Global Economy (3)
TGM 508 Regional Business Environment I: Emerging Markets (3)

Electives (6 credit hours)

Culminating Experience (3 credit hours)
TGM 545 Global Leadership and Strategy (3)

Additional Curriculum Information

Other requirements courses may be substituted with approval of the academic unit.

For elective coursework, students should see the academic unit for the approved course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GMAT or GRE may be required
- one letter of recommendation
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants are exempt from taking the GMAT or GRE if they have five or more years of professional work experience or a cumulative undergraduate GPA of 3.25 or above. Applicants who do not meet either requirement are reviewed by the application committee and may receive an exception on a case-by-case basis.

Global Opportunities:

Global Experience:

Students can choose to travel abroad by adding one of Thunderbird's immersive week-long global challenge labs or field seminars.

Global Field Seminar

This one-week, for-credit seminar offers a hands-on learning experience in a focused region of the world, comprised of site visits, high-level meetings and presentations with business, government and cultural leaders to learn what makes doing business in the region unique.

Thunderbird Global Challenge Laboratories

This is a client-facing, project-based course built on a one-week immersion assignment in destinations all over the world. Projects are tailored to the business needs of the client and challenge students to provide sophisticated data and market analysis, strategy recommendations and plans for sustained growth that are both practical and effective. For more information, students should visit the Thunderbird global challenge labs website <https://thunderbird.asu.edu/challenge-labs> (<https://thunderbird.asu.edu/challenge-labs>).

Global Affairs and Management (Executive), MA (TBGAMEMA)

Online Degree Search Title: Global Affairs and Management - Executive, MA

Campus: ASU@Washington, D.C.

Program Description:

At the Intersection of Global Business and Global Policy

Today's world needs future-ready global leaders and managers more than ever. Accelerating global complexity and dynamism in this Fourth Industrial Revolution is reshaping how people create value, work, live. Thunderbird's one-year MA program in global affairs and management with an executive focus provides a digital global mindset and a unique combination of 21st-century hard and soft skills for leading systems and new enterprises, managing complexity, disruptive innovation, digital transformation, collaborative problem-solving and creating sustainable global futures across geographies, cultures and sectors. Based in Washington, DC, the program is tailored for mid-career professionals in all sectors, offering specializations in global business or global public policy. The schedule --- most classes meet every other Friday and Saturday --- allows participants to remain working while earning their degree. Students can choose to travel abroad by adding one of Thunderbird's immersive week-long global challenge labs or field seminars.

Earning this leading-edge executive master's degree prepares graduates for executive leadership positions within their existing organizations or to make a bold move in their careers by switching industries entirely. The program allows students to earn a master's degree from a top global leadership and management school in as little as one year, so that they can immediately put their newly acquired skills to work and leverage Thunderbird' global alumni network to advance their career goals.

Global Leadership for the Fourth Industrial Revolution

Thunderbird's executive Master of Arts program in global affairs and management in Washington, DC includes an intensive focus on how to manage the systemic hazards facing the business and policy worlds. Policymakers and business leaders alike learned from the financial crisis of 2008 that we need to understand the risks emerging from interactions in interdependent financial institutions, rather than merely looking at each institution on its own. From the coronavirus pandemic to global social unrest to the ever more evident impacts of climate upheaval, such systemic fragilities are becoming ever more apparent. To build more robust organizations and resilient societies, new mindsets and new tools are needed.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Degree Requirements:

30 credit hours including the required capstone course (TGM 545).

Required Core (3 credit hours)

TGM 575 Global Affairs (3)

Electives (9 credit hours)

Other Requirement (15 credit hours)

TGM 505 States and Markets in a Global Economy (3)

TGM 518 International Finance and Trade (3)

TGM 549 Global Leadership (3)

TGM 577 International Organizations (3)

TGM 586 Global Entrepreneurship and Sustainable Business (3)

Culminating Experience (3 credit hours)

TGM 545 Global Leadership and Strategy (3)

Additional Curriculum Information

Students focus their elective courses in a specific area approved by the academic unit. Other requirement courses may be substituted with approval of the academic unit.

Coursework on complex systems provides a framework for insights into how many social, economic and ecological systems actually work, and --- despite the inherent uncertainties in such systems --- how to manage them, using a much larger toolkit than the standard tools of policy and business analysis.

A key element of managing complexity and uncertainty is the engagement of a wide range of stakeholders in decision-making. Multiple required courses and elective courses cover techniques for facilitating productive multi-stakeholder engagement in the context of complex global systems. For example, in the core course on the craft of global networks in global affairs, students learn how and why to build resilient collaborations across borders and sectors in issues from health to human rights, war to economic renewal, the environment to terrorism.

The program culminates in the global leadership and strategy capstone course, which enables students to apply the new form of leadership needed to manage complex systems through a deep dive into addressing a specific real-world problem. The course thus pulls together the full set of capabilities required to excel at the top of a global organization.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any subject from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- one letter of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Global Opportunities:

Global Experience:

Students can choose to travel abroad by adding one of Thunderbird's immersive week-long global challenge labs or field seminars.

Global Field Seminar

During this course students will experience an intensive one-week immersion in-country. Students enjoy a hands-on learning experience in a focused region of the world, comprised of company site visits, high-level meetings and presentations with business, government and cultural leaders as well as Thunderbird alumni. Through these interactions, students learn the challenges and opportunities that make doing business in the region unique.

Thunderbird Global Challenge Laboratories

This is a client-facing, project-based course built on a one-week immersion assignment in destinations all over the world. Projects are tailored to the business needs of the client and challenge students to provide sophisticated data and market analysis, strategy recommendations and plans for sustained growth that are both practical and effective. Global Finance (Certificate), Certificate (TBGFINGRCT)

Online Degree Search Title: Global Finance (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

The graduate certificate program in global finance provides specialized content knowledge in financial management, investments, private equity and portfolio management for business, governmental and nongovernmental entities that operate on a global scale. Knowledge of global and regional economic and political landscapes, multinational tax management and country risk analysis are key in financial decision-making.

The courses in this program position students in multinational entities where the accounting emphasis is on international financial reporting standards rather than the United States' generally accepted accounting principles and financial value creation is contingent on efficient management of cross-border transfer pricing, tax planning, currency hedging and interest rate risks. The courses help students explore the business and management differences in countries with varying corporate governance, joint venture structures and financial measures of country business performance. Courses emphasize an experiential approach to learning, using case studies featuring companies across the globe with different cultures and complex legal environments.

The school's innovative and practical curriculum, with a strong core of global business management skills, international political economy and cross-cultural training, is delivered through a transdisciplinary approach.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Global Leadership and Strategy, MGLS (TBGLSMGLS)

Online Degree Search Title: Global Leadership and Strategy, MGLS

Campus: Downtown Phoenix

ASU is not currently accepting applications for this program. Students interested in global leadership and strategy should apply to the executive global leadership and strategy program (<https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/TBGLSMGLS/graduate/false>).

Program Description:

The MGLS is a global cohort executive leadership and strategy program that centers on development of students' advanced capabilities to conceptualize and deliver profitable growth along with the competencies to lead strategy execution efforts in a complex and dynamic global environment. This innovative program closely patterns executive decision realities by orienting around key themes that naturally flow, from the macro to the micro, global to local, public to private, interweaving relevant disciplines to address the pressing issues executives face. It is transdisciplinary in both approach and execution.

The Master of Global Leadership and Strategy program combines thematically anchored content with field-deployed experiential learning projects (alternating between developed and emerging markets) that allow participants to interact first-hand with leaders who shape policy and industry and to demonstrate executive acumen through action and response simulation, sprint consultancy engagement, and innovation challenge delivery. The result is a deeply innovative, action-oriented, global executive education experience.

Degree Requirements:

30 credit hours including the required capstone course (TGM 606).

Required Core (5 credit hours)

TGM 601 Megatrends: Understanding Future Drivers and their Influencers (5)

Other Requirement (20 credit hours)

TGM 602 Sustainable Futures: Building, Tapping and Creating Shared Value in a Changing World (5)

TGM 603 Shaping Markets: Market Entry and Winning Strategies (5)

TGM 604 Capturing Dividends: Finding, Fostering and Exploiting New Insights (5)

TGM 605 Deliver Results I: Resourcing and Influencing to Maximize Impact (5)

Culminating Experience (5 credit hours)

TGM 606 Delivering Results II: Peak Dynamism Execution and Comprehensive Debrief (5)

Additional Curriculum Information

Other requirement courses may be substituted with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any subject or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Global Leadership and Strategy, MGLS (TBGLSX MGLS)

Online Degree Search Title: Global Leadership and Strategy - Executive, MGLS

Campus: Downtown Phoenix

Program Description:

Thunderbird School of Global Management's MGLS program with an executive focus delivers an immersive training experience for executives that takes the student inside the boardrooms of businesses and governments around the world, providing actionable insights into the strategy and leadership nuances at play in today's complex and dynamic global economy.

Through an integrated curriculum that follows a thematic pattern mirroring executive decision-making realities, students engage in online courses and onsite experiential learning opportunities that develop their global mindset and bring them face-to-face with leaders of transnational enterprises who shape policy and industry.

The program consists of six rigorous courses of five credits each, deep dives led by eminent professors and practitioners into topics such as global business megatrends, building sustainable enterprises, and tapping into emerging markets. The six onsite modules are delivered in key global locations, taking students on a transformative journey that includes in-person learning experiences in Los Angeles, Geneva, Nairobi, Mumbai, Shanghai and São Paulo. These travel-training adventures feature powerful professional development experiences such as attending exclusive business and government roundtables or taking part in targeted site visits that offer inside access to regional business. All in-person instruction follows a schedule designed for working professionals and is supplemented by sophisticated online coursework.

The Master of Global Leadership and Strategy program breaks free of the traditional, lock-step curriculum of other graduate business programs, immersing the student in hands-on, culturally complex leadership situations that build their analysis and decision-making capabilities, enhance their executive presence and accelerate their career advancement.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Global Management, MGM (TBTGMMGM)

Online Degree Search Title: Global Management, MGM

Campus: Downtown Phoenix, Online

Program Description:

Thunderbird School of Global Management's specialized MGM program delivers cross-cultural, hands-on training in the nuances of international management, preparing students with the perfect balance of practical and people skills to inspire, influence and drive global success. Students globalize their mindset and marketability by pairing their deep-dive leadership training with an innovative concentration area, foreign language options, practical training through the Global Challenge Laboratories, consultative collaborations with corporate partners, internships, real-world simulations and study abroad modules.

The master's degree program starts in August or January with a 16- or 21-month track.

The Accelerated 4+1 Master of Global Management program allows students to earn both a bachelor's and master's degree in as few as five years: <https://thunderbird.asu.edu/degrees/graduate-degree/4-plus-1-master-global-management> (<https://thunderbird.asu.edu/degrees/graduate-degree/4-plus-1-master-global-management>). With the help of their undergraduate academic advisor, this cost-effective option allows students to take 12 credit hours of their core master's degree classes during their senior year based on their major map.

This program features three concentration options for STEM specializations that meet special F-1 international student visa status requirements: global business, global digital transformation and data science.

Global management, evolved

Upon its founding in 1946, Thunderbird became the world's first graduate school focused exclusively on global business and leadership. Blending international trade, public policy, and international affairs, Thunderbird now specializes in the expert development of leaders and managers across sectors, enhancing performance in public and private organizations globally. Students in the Master of Global Management program can choose from one of the 16 concentration areas below or design their own concentration:

Thunderbird concentrations:

- global affairs
- global business
- global digital transformation
- global entrepreneurship

Concentrations offered in partnership with other ASU schools and colleges:

- creative industries and design thinking
- data science
- development and innovation
- digital audience strategy
- health care delivery
- integrated health care
- legal studies
- nonprofit leadership and management
- public administration
- public policy
- sustainability solutions
- sustainable tourism

Students complete rigorous core courses in global management, international political economy and cross-cultural engagement, with electives spanning the gamut of the university's offerings. The result is a flexible, multidisciplinary curriculum featuring a rich variety of coursework in international business and management, social sciences and humanities.

Learn by doing

A Thunderbird education features experiential learning for exponential impact. Applied learning courses give students diverse opportunities to work face-to-face with clients or participate in real-life simulations as part of their program. Through these hands-on courses, students have a variety of options to develop and refine their hard skills. By choosing from a wide spectrum of applied learning offerings that are at once practical and cutting-edge, graduates holding a Master of Global Management enter the workforce prepared to thrive immediately. These real-world experiences are built into the curriculum, ensuring 100% participation from Thunderbird students.

Moving from theory to real-world practice, students get invaluable experience by taking on projects for major corporations and other global organizations, including nonprofits and government agencies. In the Global Challenge Labs, students work on consulting projects in emerging markets while developing leadership, cultural sensitivity and international business acumen.

In the Global Organizational Consulting program, students gain distinctive experience in consulting frameworks through client projects. Internships allow students to work for multinational businesses in a wide variety of industries in full-time positions for at least eight weeks on graduate-level projects or over the summer. Thunderbird's simulations present real-world scenarios in the areas of global marketing, global finance and global strategy, allowing students to test solutions in a sandbox setting. They can also travel to specific regions to study local business practices, master intercultural management skills and develop international relationships that can last a lifetime.

Thunderbird School of Global Management has produced uniquely agile and resilient leaders for more than 70 years, leaders in every sector who are capable of tackling the world's greatest challenges.

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

49 credit hours including a foreign language exam and the required capstone course (TGM 597).

Required Core (3 credit hours)

TAM 582 Communicating and Negotiating in a Dynamic Global World (3) or
TGM 506 Communicating and Negotiating Across Cultures (3)

Other Requirements (21 credit hours)

TGM 515 Navigating Global and Regional Business Environments (3)

TGM 517 Global Accounting and Financial Management (3)

TGM 545 Global Leadership and Strategy (3)

TGM 557 Global Marketing and Data Analytics (3)

TGM 586 Global Entrepreneurship and Sustainable Business (3)

TGM 596 Thunderbird Experiential Practicum (6)

Electives (24 credit hours)

Culminating Experience (1 credit hours)

TGM 597 Thunderbird Personal Leadership Development (1)

Additional Curriculum Information

Proficiency in a second language is required for graduation from the MGM degree. Students whose native language is not English who meet the admission requirements for this program satisfy the language requirement.

Students whose native language is English must satisfy the graduation requirement for language proficiency by waiving this requirement through an oral proficiency interview administered by a third-party vendor or by successfully completing six credit hours of 400-level or higher foreign language coursework.

For electives coursework, students should see the academic unit for approved courses.

For other requirements coursework, other courses may be used with approval from the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. The program is open to candidates from any undergraduate major.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume
- essay response to application question
- GMAT or GRE may be required
- one professional or academic reference
- interview
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The resume should demonstrate the applicant's professional and academic history.

An interview is required. Final applicants may be asked to complete an additional interview.

Applicants are exempt from taking the GMAT or GRE if they have eight or more years of professional work experience or a cumulative undergraduate GPA of 3.25 or above. Applicants who do not meet either requirement are reviewed by the application committee and may receive an exception on a case-by-case basis.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-applied-leadership-management/>)

Global Opportunities:

Global Experience:

Students in Thunderbird's Master of Global Management program have unique opportunities to apply and hone their learning in international settings. Experiential learning exposes students to actual problems faced by leaders of multinational businesses and governmental or nonprofit organizations that operate on an international level. Working with Thunderbird professors, their fellow students, alumni and corporate partners, students master and apply global management principles and concepts to meet real business challenges through special courses, labs and projects. Thunderbird offers a wide variety of experiential learning engagements, giving students the ability to solve real-world challenges by collaborating with the school's corporate partners around the world. Some options include:

Global Field Seminars

This two- or three-week seminar exposes students to the dynamics and nuances of doing business in a focused region of the world. Teams of students go on company site visits and attend high-level meetings and presentations with business, government and cultural leaders as well as with Thunderbird alumni. Students gain invaluable hands-on experience while expanding their global business skills so they can become major assets to any organization they join after graduating.

Thunderbird Global Challenge Laboratories

This is a client-facing, project-based course built on a five-week immersion assignment in a key emerging market. Projects take students to destinations all over the world. They are tailored to the business needs of the client and challenge students to provide sophisticated data and market analysis, strategy recommendations and plans for sustained growth that are both practical and effective. For more information, students should visit the Thunderbird Global Challenge lab website: <https://thunderbird.asu.edu/challenge-labs> (<https://thunderbird.asu.edu/challenge-labs>).

Career Opportunities:

Thunderbird prepares graduates to enter this complex and exciting global economy with specialized, hands-on training in international business, cross-cultural relations, global political economy and regional business environments. With their global mindset, core professional skills, mastery of 21st century management principles and practices, and multicultural outlook, Thunderbird graduates are prepared for leadership roles in organizations with a global scope.

Career examples include:

- financial managers
- general and operations managers
- intelligence analysts
- logistics managers
- marketing managers
- market research analysts and marketing specialists
- management analysts
- social and community services managers
- sustainability specialists
- supply chain managers

Global Management, MGM (TBTGMXMGM)

Online Degree Search Title: Global Management (Executive), MGM

Campus: Downtown Phoenix, ASU@Los Angeles

Program Description:

Global management, evolved

Thunderbird School of Global Management's MGM program with an executive focus is designed for experienced professionals interested in broadening their global outlook and their worldwide network. The program combines cutting-edge management coursework, cross-cultural insight and regional studies to prepare graduates to lead transnational businesses, nonprofit organizations or government agencies. With the busy schedules of working professionals in mind, this specialized master's degree is designed to be completed as a lock-step program in 12 months.

Thunderbird's highly ranked Master of Global Management is an interactive learning experience delivered through hands-on training by prominent professors in international management strategies and through collaboration with executive-level classmates. Students master cultural nuances

affecting regional business environments around the globe. Traditional business courses like accounting, finance and marketing are available as electives --- all taught through a global lens --- giving graduates the perfect balance of practical and people-influencing skills to inspire and drive success.

Students in the executive focus program learn to lead teams and manage projects across borders and across all levels of an organization that operates in different locations around the world. This program goes beyond the traditional executive-level business degree, offering comprehensive instruction in global management disciplines as well as cross-cultural communications, negotiations and international political economy. With its transdisciplinary philosophy blending business and trade, public policy and international affairs, the well-rounded curriculum builds capability in every facet of international management, featuring hands-on, experiential learning opportunities and practical, applicable explorations of the intricacies of leading global enterprises.

Residence modules and experiential learning

The yearlong executive focus program begins with an intense residence module delivered in the school's state-of-the-art facilities located in the downtown business district of Phoenix, the nation's fifth-largest and fastest-growing city. Throughout the program, the cohort meets on weekends for in-person instruction with Thunderbird faculty.

The program also offers global field seminars --- hands-on learning experiences in a focused region of the world --- composed of site visits, high-level meetings and presentations with local businesses, governments and cultural leaders, to learn what makes doing business in the region unique.

Los Angeles Location: The specialization in space leadership and business is tailored for individuals pursuing executive careers in commercial spaceflight, defense and civil aerospace, AI and big data, and next-generation manufacturing. The curriculum prioritizes industry immersion and focuses on modern practices, principles and case studies for corporate, startup, nonprofit and governmental organizations operating in space. Interested students should apply to this specialization separately.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Degree Requirements:

31 credit hours including the required capstone course (TGM 597).

Required Core (3 credit hours)

TAM 582 Communicating and Negotiating in a Dynamic Global World (3) or
TGM 506 Communicating and Negotiating Across Cultures (3)

Other Requirements (15 credit hours)

TGM 515 Navigating Global and Regional Business Environments (3)
TGM 530 Big Data in the Age of the Global Economy (3)
TGM 549 Global Leadership (3)
TGM 598 Topic: Global Digital Transformation (3)
TGM 598 Topic: Lifelong Personal Leadership in the Global Economy (3)

Electives (12 credit hours)

Culminating Experience (1 credit hour)

TGM 597 Thunderbird Personal Leadership Development (1)

Additional Curriculum Information

For other requirements, the academic unit may approve other courses to be used than those listed.

For electives coursework, students should see the academic unit for the approved course list.

Students are allowed up to six credit hours of 400-level courses on the plan of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. The program is open to candidates from any undergraduate major.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume
- one letter of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

GRE or GMAT scores may be required after a complete review of the student's application material, including resume, academic transcripts and letter of recommendation.

Global Opportunities:

Global Experience:

Students in the executive Master of Global Management program travel with classmates on one faculty-led Global Field Seminar or Global Challenge Lab during the program.

Global field seminar

This one-week, for-credit seminar offers a hands-on learning experience in a focused region of the world, comprised of site visits, high-level meetings and presentations with business, government and cultural leaders to learn what makes doing business in the region unique.

Thunderbird global challenge laboratories

This is a client-facing, project-based course built on a one-week immersion assignment in a key emerging market or advanced market. Projects take students to destinations all over the world. They are tailored to the business needs of the client and challenge students to provide sophisticated data and market analysis, strategy recommendations, and plans for sustained growth that are both practical and effective. For more information, students should visit the Thunderbird global challenge lab website: <https://thunderbird.asu.edu/challenge-labs> (<https://thunderbird.asu.edu/challenge-labs>).

Career Opportunities:

Examples of career opportunities include professional titles such as:

- chief compliance officer
- chief executive officer
- chief financial officer
- chief information officer
- chief marketing officer
- chief operating officer
- chief sustainability officer
- executive director
- vice president

Global Management (Certificate), Certificate (TBTGMGRCT)

Online Degree Search Title: Global Management (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

Thunderbird's graduate certificate program in global management provides an in-depth study of global political economy, leadership, strategy, negotiations and cross-cultural communications, giving students the skills they need to succeed in today's increasingly global business environment.

The school's innovative and practical curriculum, with a strong core of global business management skills, international political economy and

cross-cultural training, is delivered through a transdisciplinary approach.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

TGM 545 Global Leadership and Strategy (3)

Restricted Electives (12 credit hours)

TGM 506 Communicating and Negotiating Across Cultures (3)

TGM 515 Navigating Global and Regional Business Environments (3)

TGM 517 Global Accounting and Financial Management (3)

TGM 557 Global Marketing and Data Analytics (3)

TGM 586 Global Entrepreneurship and Sustainable Business (3)

Additional Curriculum Information

For restricted electives, students select four courses from the list above. Other courses may be approved by the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GMAT or GRE test scores
- one letter of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Career Opportunities:

Graduates who have combined the certificate in global management with their major program of study may become more marketable to employers. They often decide to pursue employment in corporate functions such as marketing, strategy, finance, human resources and supply chain management.

Advanced degrees or certifications may be required for academic or clinical positions.

Global Management (Creative Industries and Design Thinking), MGM (TBGMCIDMGM)

Online Degree Search Title: Global Management (Creative Industries and Design Thinking), MGM
Academic Catalog Archive 2022-2023

Campus: Downtown Phoenix

Program Description:

The World Economic Forum reports that empathy and collaboration are two critical abilities for global manager success. These are equally critical for those seeking careers in creative industries and industries that use design thinking. These abilities rely on the development of social capital. Students in this program have the ability to build sustainable, trusting relationships --- the basis of social capital --- with others from diverse parts of the world by developing a deep capacity for intercultural empathy, the ability to have an interpersonal impact and the ability to act with diplomacy. This program is designed to develop a student's social capital through field-based action learning, team-based projects and stretch assignments. This concentration is offered in collaboration with the Herberger Institute for Design and the Arts. <https://herbergerinstitute.asu.edu> (<https://herbergerinstitute.asu.edu/>)

Inventive thinking. Innovative leadership.

There is an entrepreneurial skills gap among traditional art and design graduates, which can be filled by this program. The National Strategic National Arts Alumni Project survey of over 100,000 art and design graduates indicates that while 77% of architecture graduates and 75% of fine arts graduates believe entrepreneurial skills to be somewhat or very important, only 24% and 21% respectively gained the necessary entrepreneurial knowledge and skills as undergraduates.

The MGM program with a concentration in creative industries and design thinking teaches students critical skills with an interdisciplinary focus to meet a current need in the globally expanding field of creative industries. Additionally, providing students with an entrepreneurial skill set strengthens their ability to connect interdisciplinary knowledge of the cultural industries with design thinking methodology, building on management skills and the ability to apply entrepreneurial vision to the globally interconnected sector of art and design. Students are exposed to design-thinking pedagogy as they increase their capacity for interpersonal communication, public communication, opportunity recognition, network and systems thinking, problem recognition and creativity, as well as demonstrated abilities in cultural leadership, knowledge of the creative industries, distribution of creative products, the creative process and management of innovation in the creative industries.

This master's degree program empowers students to advance innovation in the cultural sector, support creative work and careers, harness social capital and design public and private enterprises that will strengthen arts and design in the future. The program prepares graduates to understand the complex economic, legal, political and social contexts that surrounds any innovation or enterprise.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Global Management (Data Science), MGM (TBGMDSCMGM)

Online Degree Search Title: Global Management (Data Science), MGM

Campus: Downtown Phoenix

Program Description:

This STEM-designated* MGM program in global management with a concentration in data science, designed in partnership with ASU's School of Computing and Augmented Intelligence in the Ira A Fulton Schools of Engineering, is offered to students who are interested in gaining both global management and data management expertise in order to work in multinational corporations, international nonprofit entities, governmental and nongovernmental organizations around the globe.

As global companies and organizations in the Fourth Industrial Revolution continue to rely on data to drive management decisions, it is increasingly important for leaders to have the skills necessary to understand and interpret that data.

Thunderbird School of Global Management has produced unique leaders for 75 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

*As an added bonus for international students, this program meets special F-1 international student status requirements. This means that international students who graduate with the data science concentration qualify for a 24-month extension to their Optional Practical Training in the United States beyond the 12-month period already provided to international students in non-STEM degrees.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Global Management (Digital Audience Strategy), MGM (TBGMDASMGM)

Online Degree Search Title: Global Management (Digital Audience Strategy), MGM

Campus: Downtown Phoenix

Program Description:

The World Economic Forum reports that empathy and collaboration are two critical abilities for a global manager's success. These abilities rely on the development of social capital, and they are equally critical for those seeking careers in digital audience strategy. This program is designed to develop social capital through field-based action learning, team-based projects and stretch assignments. Students have the ability to build sustainable trusting relationships --- the basis of social capital --- with others from diverse parts of the world by developing intercultural empathy, the ability to have an interpersonal impact and the ability to lead with diplomacy.

Digital marketing is expected to have annual growth, and advances in technology have brought programming and data analysis within reach for individuals who are far less technically trained. This has created a new class of hybrid jobs that combine digital skills with marketing and design (Burning Glass). In response to this trend, Thunderbird School of Global Management has designed the digital audience strategy concentration within the MGM degree program in collaboration with the Walter Cronkite School of Journalism and Mass Communication: <https://cronkite.asu.edu/> (<https://cronkite.asu.edu/>).

Digital Reach. Global Impact.

The concentration in digital audience strategy is designed for students interested in augmenting their digital skills in the areas of marketing, design and product development. Through a collaborative sequence of courses offered in partnership with other ASU colleges, students can combine the global management skills found in graduates of the traditional Master of Global Management with digital expertise.

Strong quantitative and qualitative research methods provide the foundation of effective digital audience strategy, and graduates of the program master the ability to conduct research to identify and reach target audiences and to demonstrate returns on investments.

The research used to identify and reach target audiences through digital audience strategy includes traditional and emerging methods such as real-time website and social media audience analysis, social network analysis, search engine optimization analysis, surveys, focus groups and competitive analysis. Graduates master a range of methods to inform strategy for specific outcomes.

This concentration is perfect for students who are interested in expanding and refining their digital skills in the areas of marketing, design and product development to complement a strong core of global leadership and management skills. A Master of Global Management from Thunderbird with a concentration in digital audience strategy prepares graduates to take on leadership roles around the world in industries such as entertainment, journalism, public relations, marketing and many others.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

49 credit hours, a foreign language exam, including the required capstone course (TGM 597).

Required Core (3 credit hours)

TAM 582 Communicating and Negotiating in a Dynamic Global World (3) or
TGM 506 Communicating and Negotiating Across Cultures (3)

Concentration (12 credit hours)

MCO 561 Defining the Digital Audience (3)
MCO 562 Search Engine Strategy for Digital Audience Acquisition (3)
MCO 563 Social Media Campaigns and Engagement (3)
MCO 564 Digital Audience Research and Behavior (3)
MCO 565 Digital Audience Analytics (3)

Electives (12 credit hours)

Other Requirements (21 credit hours)

foreign language
TGM 515 Navigating Global and Regional Business Environments (3)
TGM 517 Global Accounting and Financial Management (3)
TGM 545 Global Leadership and Strategy (3)
TGM 557 Global Marketing and Data Analytics (3)
TGM 586 Global Entrepreneurship and Sustainable Business (3)
TGM 596 Thunderbird Experiential Practicum (6)

Culminating Experience (1 credit hour)

TGM 597 Thunderbird Personal Leadership Development (1)

Additional Curriculum Information

For the concentration coursework, students must take MCO 561, then choose three courses from MCO 562, MCO 563, MCO 564 or MCO 565 for a total of 12 credit hours.

Electives are approved by the academic unit.

Except for TGM 596 and the foreign language requirement, other requirement courses may be substituted with approval of the academic unit.

Proficiency in a second language is required for graduation from the MGM degree program. Students whose native language is not English who meet the admission requirements for the Master of Global Management program satisfy the language requirement.

Students whose native language is English must satisfy the graduation requirement for language proficiency by waiving this requirement through an oral proficiency interview administered by a third-party vendor or by successfully complete six credit hours of 400-level or higher foreign language coursework as part of the program electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any subject or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or

applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- resume
- essay response to application question
- one professional or academic reference
- GMAT or GRE may be required
- interview
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The resume should demonstrate the applicant's professional and academic history.

An interview is required. Final applicants may be asked to complete an additional interview.

Applicants are exempt from taking the GMAT or GRE if they have eight or more years of professional work experience or a cumulative undergraduate GPA of 3.25 or above. Applicants who do not meet either requirement are reviewed by the application committee and may receive an exception on a case-by-case basis.

Global Opportunities:

Global Experience:

Students in Thunderbird's Master of Global Management program have unique opportunities to apply and hone their learning in international settings. Experiential learning exposes students to actual problems faced by leaders of multinational businesses and governmental or nonprofit organizations that operate on an international level. Working with Thunderbird professors, their fellow students, alumni and corporate partners, students master and apply global management principles and concepts to meet real business challenges through special courses, labs and projects. Thunderbird offers a wide variety of experiential learning engagements, giving students the ability to solve real-world challenges by collaborating with the school's corporate partners around the world. Some options include:

Global Field Seminars

This two- or three-week seminar exposes students to the dynamics and nuances of doing business in a focused region of the world. Teams of students go on company site visits and attend high-level meetings and presentations with business, government and cultural leaders as well as with Thunderbird alumni. Students gain invaluable hands-on experience while expanding their global business skills so they can become major assets to any organization they join after graduating.

Thunderbird Global Challenge Laboratories

This is a client-facing, project-based course built on a six- to seven-week immersion assignment in a key emerging or advanced market. Projects take students to destinations all over the world. They are tailored to the business needs of the client and challenge students to provide sophisticated data and market analysis, strategy recommendations, and plans for sustained growth that are both practical and effective. For more information, students should visit the Thunderbird Global Challenge Lab website: <https://thunderbird.asu.edu/challenge-labs> (<https://thunderbird.asu.edu/challenge-labs>).

Global Management (Global Business), MGM (TBGMGBMGM)

Online Degree Search Title: Global Management (Global Business), MGM

Campus: Downtown Phoenix

Program Description:

This STEM-designated MGM program with a concentration in global business delivers cross-cultural, hands-on training in the nuances of international management, preparing students with the perfect balance of practical and people skills to inspire, influence and drive global success.*

The concentration in global business allows students to specialize in the various pathways in global business such as global finance, global marketing, supply chain or management consulting. By developing students' skills such as cross-cultural competency, social and emotional intelligence as well as creative and adaptive thinking, this program helps sharpen their global mindset, along with leadership and management skills, preparing them for a boundless career as a global manager or leader in their chosen field.

Global business effectiveness requires knowledge and understanding of global dynamics, the ability to simplify and explain complex ideas, and a nuanced, cosmopolitan view of the world. These three dimensions form the basis of global intellectual capital. In the Master of Global Management degree program, this capital is built inside and outside the classroom through a cutting-edge international business curriculum reinforced with field-based projects that integrate international business experience, illustrating social proof of global intellectual capital mastery. The concentration in global business prepares students who aspire to become global managers or leaders in their chosen fields.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

*This program meets special F-1 international student status requirements. This means that international students who graduate with the global business concentration qualify for a 24-month extension to their Optional Practical Training in the United States beyond the 12 months already provided to international students in non-STEM degrees.

Global Management (Global Development and Innovation), MGM (TBGMGDIMG)

Online Degree Search Title: Global Management (Global Development and Innovation), MGM

Campus: Downtown Phoenix

Program Description:

Recent research reveals that graduate programs in international development are in high demand. In fact, Devex found that the master's in international development was No. 3 in their survey of most demanded degrees (Devex, 2016). In a study of international development graduates in Canada, researchers found that over 86% of graduates were employed (Tiessen and Cameron, 2017). To meet this surging demand, Thunderbird School of Global Management created the development and innovation concentration within the MGM degree program.

Offered in collaboration with the School for the Future of Innovation in Society (<https://sfis.asu.edu/school-future-innovation-society>) (<https://sfis.asu.edu/school-future-innovation-society>), the Master of Global Management in global development and innovation prepares global leaders to leverage innovation strategies to tackle development and planetary challenges. The ability to access the tremendous resources available throughout ASU for a truly customizable and transdisciplinary education sets this degree program apart.

Tailored to each student's ambitions and interests, this unique academic concentration is relevant to development practitioners who seek to complement their skills and experience and to those interested in pursuing careers in international development agencies within and beyond government as well as in nongovernmental organizations and community organizations at local, national and international levels.

Graduates are equipped with the analytical and practical skills and experience needed to engage critically as leaders in issues around innovation and development and to work across the intersections of innovation, development policy and global management. They are prepared to make a positive impacts in leadership roles alongside the school's global alumni network of professionals who are making a difference. Graduates have opportunities around the world to tackle some of humanity's most difficult and urgent challenges. They are on the frontline working as agents of change, advancing a shared vision of a world with inclusive and sustainable prosperity.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Culminating Experience (1 credit hour)

TGM 597 Thunderbird Personal Leadership Development (1)

Additional Curriculum Information

For concentration coursework, students choose four courses from the approved list for a total of 12 credit hours.

Electives are approved by the academic unit.

Except for TGM 596 and the foreign language requirement, other requirement courses may be substituted with approval of the academic unit.

Proficiency in a second language is required for graduation from the MGM degree program. Students whose native language is not English who meet the admission requirements for the Master of Global Management program satisfy the language requirement.

Students whose native language is English must satisfy the graduation requirement for language proficiency by waiving this requirement through an oral proficiency interview administered by a third party vendor or by successfully completing six credit hours of 400-level or higher of foreign language coursework as part of the program electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any subject or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- resume
- essay response to application question
- one professional or academic reference
- GMAT or GRE may be required
- interview
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The resume should demonstrate the applicant's professional and academic history.

An interview is required. Final applicants may be asked to complete an additional interview.

Applicants are exempt from taking the GMAT or GRE if they have eight or more years of professional work experience or a cumulative undergraduate GPA of 3.25 or above. Applicants who do not meet either requirement are reviewed by the application committee and may receive an exception on a case-by-case basis.

Global Opportunities:

Global Experience:

Students in Thunderbird's MGM program have unique opportunities to apply and hone their learning in international settings. Experiential learning exposes students to actual problems faced by leaders of multinational businesses and governmental or nonprofit organizations that operate on an international level. Working with Thunderbird professors, their fellow students, alumni and corporate partners, students master and apply global management principles and concepts to meet real business challenges through special courses, labs and projects. Thunderbird offers a wide variety of experiential learning engagements, giving students the ability to solve real-world challenges by collaborating with the school's corporate partners around the world. Some options include:

Global Field Seminars

This two- or three-week seminar exposes students to the dynamics and nuances of doing business in a focused region of the world. Teams of students go on company site visits and attend high-level meetings and presentations with business, government and cultural leaders as well as with Thunderbird alumni. Students gain invaluable hands-on experience while expanding their global business skills so they can become major assets to any organization they join after graduating.

Thunderbird Global Challenge Laboratories

This is a client-facing, project-based course built on a six- to seven-week immersion assignment in a key emerging or advanced market. Projects take students to destinations all over the world. They are tailored to the business needs of the client and challenge students to provide sophisticated data and market analysis, strategy recommendations and plans for sustained growth that are both practical and effective. For more information, students should visit Thunderbird's Global Challenge Lab website: <https://thunderbird.asu.edu/challenge-labs> (<https://thunderbird.asu.edu/challenge-labs>).

Career Opportunities:

Career examples include:

- business continuity planners
- environmental economists
- environmental restoration planners
- regulatory affairs managers
- sustainability specialists
- urban and regional planners
- water resource specialists

Global Management (Global Digital Transformation), MGM (TBGMGDTMGM)

Online Degree Search Title: Global Management (Global Digital Transformation), MGM

Campus: Downtown Phoenix

Program Description:

Thunderbird designed the STEM-designated* global digital transformation concentration within the MGM degree program for students interested in augmenting their digital skills in the areas of management consulting, marketing, design and product development. Students can tailor this cutting-edge academic concentration to fit their specific learning goals. Through collaborative courses offered in partnership with other ASU colleges, students may combine the global management skills gained in the Master of Global Management with digital expertise to create a dual specialization that will continue to be in high demand throughout the global economy.

A new brand of leadership: global, digital, cross-sectoral, transdisciplinary.

The World Economic Forum reports that empathy and collaboration are two critical abilities for a global manager's success. These abilities are equally critical for those seeking careers in global digital transformation. They are skills that rely on the development of social capital. This program is designed to develop a student's social capital through field-based action learning, team-based projects and stretch assignments. Students can build sustainable trusting relationships --- the basis of social capital --- with others from diverse parts of the world. By developing a deep capacity for intercultural empathy, mastering interpersonal communication and negotiation skills, and cultivating the ability to act with diplomacy, graduates are prepared to take on a leadership role in a global organization.

Digital transformation leadership is a highly sought-after expertise. However, technical skills need to be supplemented with a strong repertoire of management and collaboration skills. The Master of Global Management program with a concentration in global digital transformation expands students' choices of electives and fuses technological skills with managerial skills. In this concentration, students combine the global management skills of the Master of Global Management with digital expertise by specializing in the various pathways of global digital transformation through program coursework and applied learning projects guided by faculty experts.

*As a bonus for international students, this program meets special F-1 international student status requirements. This means that international students who graduate with the global digital transformation concentration qualify for a 24-month extension to their Optional Practical Training in the United States beyond the 12 months already provided to international students in non-STEM degrees.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Global Management (Global Entrepreneurship), MGM (TBGMGEMGM)

Online Degree Search Title: Global Management (Global Entrepreneurship), MGM

Campus: Downtown Phoenix

Program Description:

Entrepreneurship activities continue to grow globally and increasingly, these innovative activities were triggered by opportunities rather than by the kinds of necessity that historically drove creativity for many decades around the world. The new digital technological transformation has created tremendous opportunities and led to an increase in the need for new, creative ventures. Additionally, the report also found that the change in attitude toward entrepreneurship and regulations in various countries had sparked and perpetuated entrepreneurship activities.

To meet this market need, Thunderbird has designed the global entrepreneurship concentration within the school's top-ranked MGM degree program. This concentration is offered to students who are interested in starting their own business or who need to be entrepreneurial in the organizations they work for.

The World Economic Forum reports that empathy and collaboration are two critical abilities for a global leader's success. These abilities are equally critical for those seeking careers in global entrepreneurship, and they rely on the development of social capital. This academic concentration is designed to develop a student's social capital through field-based action learning, team-based projects and stretch assignments. Students learn and master proven methods and techniques to build sustainable, trusting relationships --- the basis of social capital --- with others from diverse parts of the world, developing intercultural empathy, the ability to have an interpersonal impact and the mental dexterity to act with diplomacy.

Global entrepreneurs are innovators who use their international business acumen and professional connections to identify transnational and cross-cultural opportunities, turning them into new value-generating initiatives. The Master of Global Management program with a concentration in global entrepreneurship provides a broad foundation of international business knowledge and sharpens students' entrepreneurial skills by helping develop business plans for global enterprises. This concentration offers learning opportunities specifically designed to foster innovation and economic growth worldwide to stimulate the growth of students into global entrepreneurs. Students build on a base of skills in areas such as finance and accounting with specialized education in research, pitching business ideas and analyzing markets for the viability of new products and services.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Global Management (Global Health Care Delivery), MGM (TBGMGHDMGM)

Online Degree Search Title: Global Management (Global Health Care Delivery), MGM

Campus: Downtown Phoenix

Program Description:

Students gain practical skills and hands-on experience in both global management and health care delivery. Due to the aging population of the U.S. and the world, many careers of the future will involve health care services, including health care management and delivery. The U.S. Bureau of Labor Statistics predicts that careers in the field of medical and health care management will grow 20% between 2016 and 2026. The Bureau also estimates the median annual wage for health care managers is almost twice that of the U.S. median, making these leadership positions not only lucrative but impactful.

This MGM concentration allows graduates to meet the growing need for skilled health care managers who possess a solid foundation of international business skills and a global mindset.

The Master of Global Management program with a concentration in global health care delivery is designed for current or aspiring executives and managers in health care who would like to hone their leadership and business skills to position themselves for careers leading health care organizations around the world. Some health care practitioners, such as nurses and doctors, may also use the degree as a way to move from clinical practice into management roles.

The concentration in global health care delivery addresses the current and future needs of the management workforce in the health care industry globally, including C-suite executives and administrators, health care providers (physicians, physician assistants, nurse practitioners and nurses), frontline staff (respiratory therapists, occupational therapists, physical therapists and dietitians) and students in medical disciplines. Students master core and advanced skills in designing systems, processes and mechanisms used to optimize health care delivery anywhere in the world. In addition, students integrate evidence-based financial principles geared toward improved individual and population health outcomes, such as leadership strategies in change management, for example.

This concentration is offered in collaboration with the College of Health Solutions. <https://chs.asu.edu/> (<https://chs.asu.edu/>)

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Global Management (Global Legal Studies), MGM (TBGMGLSMGM)

Online Degree Search Title: Global Management (Global Legal Studies), MGM

Campus: Downtown Phoenix

Program Description:

The MGM program in global management with a concentration in global legal studies is designed for students with a desire to work in areas requiring knowledge of global legal issues but who may not want to be lawyers. Other students may use this concentration as an introduction to legal studies before pursuing law school. In this program, students gain transdisciplinary global management and legal expertise that open doors in multiple sectors within organizations operating around the world. This concentration is offered in collaboration with the Sandra Day O'Connor College of Law: <https://law.asu.edu/> (<https://law.asu.edu/>).

The first step in understanding and applying laws is developing an understanding of basic legal principles and then using those principles to identify and analyze relevant legal issues. The foundational courses of the Master of Global Management with a concentration in global legal studies lead to mastery of the relevant legal principles while developing legal analysis skills, mainly through case briefings, such as identifying a particular case's legal issue, articulating the legal rule, discussing the court's analysis and concluding. These legal analysis skills are tested on final exams in the foundational courses through hypothetical fact scenarios. Students gain and master the ability to understand legal principles --- the basis of legal analysis --- and to apply them in their field of interest.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

49 credit hours, a foreign language exam, including the required capstone course (TGM 597).

Required Core (3 credit hours)

TGM 506 Communicating and Negotiating Across Cultures (3)

Concentration (12 credit hours)

Electives (12 credit hours)

Other Requirements (21 credit hours)

foreign language

TGM 515 Navigating Global and Regional Business Environments (3)

TGM 517 Global Accounting and Financial Management (3)

TGM 545 Global Leadership and Strategy (3)

TGM 557 Global Marketing and Data Analytics (3)

TGM 586 Global Entrepreneurship and Sustainable Business (3)

TGM 596 Thunderbird Experiential Practicum (6)

Culminating Experience (1 credit hour)

TGM 597 Thunderbird Personal Leadership Development (1)

Additional Curriculum Information

Electives are approved by the academic unit.

Except for TGM 596 and the foreign language requirement, other requirement courses may be substituted with approval of the academic unit.

Proficiency in a second language is required for graduation from the MGM degree program. Students whose native language is not English who meet the admission requirements for the Master of Global Management program satisfy the language requirement.

Students whose native language is English must satisfy the graduation requirement for language proficiency by waiving this requirement through an oral proficiency interview administered by a third-party vendor or by successfully completing six credit hours of 400-level or higher foreign language coursework as part of the program electives

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any subject or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- resume
- essay response to application question
- one professional or academic reference
- GMAT or GRE may be required
- interview
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The resume should demonstrate the applicant's professional and academic history.

An interview is required. Final applicants may be asked to complete an additional interview.

Applicants are exempt from taking the GMAT or GRE if they have eight or more years of professional work experience or a cumulative undergraduate GPA of 3.25 or above. Applicants who do not meet either requirement are reviewed by the application committee and may receive an exception on a case-by-case basis.

Global Opportunities:

Global Experience:

Students in Thunderbird's MGM program have unique opportunities to apply and hone their learning in international settings. Experiential learning exposes students to actual problems faced by leaders of multinational businesses and governmental or nonprofit organizations that operate on an international level. Working with Thunderbird professors, their fellow students, alumni and corporate partners, students master and apply global management principles and concepts to meet real business challenges through special courses, labs and projects. Thunderbird offers a wide variety of experiential learning engagements, giving students the ability to solve real-world challenges by collaborating with the school's corporate partners around the world. Some options include:

Global Field Seminars

This two- or three-week seminar exposes students to the dynamics and nuances of doing business in a focused region of the world. Teams of students go on company site visits and attend high-level meetings and presentations with business, government and cultural leaders as well as with Thunderbird alumni. Students gain invaluable hands-on experience while expanding their global business skills so they can become major assets to any organization they join after graduating.

Thunderbird Global Challenge Laboratories

This is a client-facing, project-based course built on a six- to seven-week immersion assignment in a key emerging or advanced market. Projects take students to destinations all over the world. They are tailored to the business needs of the client and challenge students to provide sophisticated data and market analysis, strategy recommendations and plans for sustained growth that are both practical and effective. For more information, students should visit Thunderbird's Global Challenge Lab website <https://thunderbird.asu.edu/challenge-labs> (<https://thunderbird.asu.edu/challenge-labs>).

Global Management (Integrated Health Care), MGM (TBGMIHCMGM)

Online Degree Search Title: Global Management (Integrated Health Care), MGM

Campus: Downtown Phoenix

Program Description:

The World Economic Forum reports that empathy and collaboration are two critical abilities for a global manager's success. These skills are equally critical for those seeking careers in integrated health care. Capacity for these key abilities relies on the development of social capital. This program is designed to develop social capital through field-based action learning, team-based projects and stretch assignments. Students become experts in building sustainable, trusting relationships --- the basis of social capital --- with others from diverse parts of the world by mastering intercultural empathy, the skill set to have an interpersonal impact and the business acumen to act with diplomacy.

Delivering care with global reach

The MGM program in global management with a concentration in integrated health care is designed for current or aspiring managers in health care who would like to develop, implement, evaluate and sustain integrated care programs in diverse health care settings globally. Students gain perspectives on both global management and integrated health care in this program.

Doing well by doing good with a specialized master's degree

Students in this program master the ability to apply foundational business concepts and analytics of health care and integrated care to transform health care management practices. Students learn to leverage key aspects of health care systems, organizational cultures and populations, and workforce issues necessary to implement, evaluate and sustain integrated care delivery globally. Graduates position themselves to enter the workforce in leadership roles in which they can make a difference. Graduates achieve a demonstrated proficiency in cross-cultural leadership, interdisciplinary teamwork, change management and health care technologies, empowering them to develop innovative clinical, operational and financial strategies and techniques.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and

master's degree with:

Global Management (Nonprofit Leadership and Management), MGM (TBGMNLMGM)

Online Degree Search Title: Global Management (Nonprofit Leadership and Management), MGM

Campus: Downtown Phoenix

Program Description:

Nonprofit organizations around the world are poised to meet the double-bottom line mentality of millennials. Thunderbird has created the nonprofit leadership and management concentration within the MGM degree program to prepare students for these impactful roles.

Because the lines between the functions of nonprofit and for-profit organizations are increasingly blurry, Thunderbird's renowned faculty has designed a curriculum that is cross-sectoral and transdisciplinary in nature, tailored for students aspiring to leadership roles in global nonprofit institutions in which they can leverage their business and global management expertise in their work.

This unique concentration in nonprofit leadership and management within the Master of Global Management program provides students with a deep understanding of the nonprofit sector's role in the global economy and with the knowledge and skills to lead and manage transnational nonprofit organizations. Offered in collaboration with ASU's Watts College of Public Service and Community Solutions (<https://publicservice.asu.edu/>), students take courses in nonprofit leadership and management through Watts College. Students learn to evaluate and articulate the historical and philosophical context of nonprofit organizations in society, the theory and practice of philanthropy, while mastering cutting-edge financial management practices.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Global Management (Public Administration), MGM (TBGMPAMGM)

Online Degree Search Title: Global Management (Public Administration), MGM

Campus: Downtown Phoenix

Program Description:

New research is emphasizing that the millennial generation is increasingly motivated by values such as social justice and environmental stewardship and many graduates are looking for careers in the public and nonprofit sectors (Chamberlain, 2018). However, only 7% of federal employees are under the age of 30 (Curry, 2017). This mismatch between millennials' desire for meaningful work and their relatively low representation in the public sector highlights that many public administration programs are not meeting current market conditions. New programs are needed that integrate expert training in public administration with global management.

To meet this new need, Thunderbird School of Global Management has created the public administration concentration in the highly ranked MGM degree program in collaboration with ASU's Watts College of Public Service and Community Solutions. <https://publicservice.asu.edu/> (<https://publicservice.asu.edu/>)

This concentration is intended for future leaders who want public service skills and experience as part of their global management repertoire and for students seeking roles within public institutions or roles that interact with those institutions, especially on matters where public policy overlaps with business or other global enterprises. The program is designed by Thunderbird's renowned faculty and allows students to take courses in public administration through Watts College of Public Service and Community Solutions.

Students earn a broad skill set and solid foundational understanding of public administration, leadership, management and policy analysis in service to the public good. This program prepares students for leadership roles in governmental and nonprofit organizations around the world.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Global Management (Public Policy), MGM (TBGMPPMGM)

Online Degree Search Title: Global Management (Public Policy), MGM

Campus: Downtown Phoenix

Program Description:

Careers in public policy are projected to continually increase over the next decade. In addition, the nonprofit sector is anticipated to grow significantly between 2020 and 2030, after having been negatively affected during the years of the pandemic. Many jobs are open, or are expected to be created, because of the need to replace public policy and nonprofit sector workers who transfer to different occupations or retire the labor force (Bureau of Labor Statistics, 2021). To meet this market need, the Thunderbird School of Global management has designed the public policy concentration within the flagship MGM degree program.

The public policy concentration program is designed for students who would like to work in cross-sector roles within public and nonprofit institutions around the world. Other students may use this program as a springboard into jobs in the private sector that have significant overlap with public agencies. In short, graduates are prepared in both global management and public policy in order to meet the demands of an increasingly interwoven economy.

The Master of Global Management program with a concentration in public policy prepares students for careers as policy analysts and leaders in public service. Offered in collaboration with the Watts College of Public Service and Community Solutions (<https://publicservice.asu.edu/>) at ASU, graduates are able to apply analytical techniques and conceptual frameworks to understand policy issues as well as to identify potential solutions to real-world challenges.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

49 credit hours, a foreign language exam, including the required capstone course (TGM 597).

Required Core (3 credit hours)

TAM 582 Communicating and Negotiating in a Dynamic Global World (3) or

TGM 506 Communicating and Negotiating Across Cultures (3)

Concentration (12 credit hours)

PAF 501 Public Service Research I (3)

PAF 505 Public Policy Analysis (3)

PAF 540 Advanced Policy Analysis (3)

PAF 541 Program Evaluation (3)

Electives (12 credit hours)

Other Requirement (21 credit hours)

foreign language

TGM 515 Navigating Global and Regional Business Environments (3)

TGM 517 Global Accounting and Financial Management (3)

TGM 545 Global Leadership and Strategy (3)

TGM 557 Global Marketing and Data Analytics (3)

TGM 586 Global Entrepreneurship and Sustainable Business (3)

TGM 596 Thunderbird Experiential Practicum (6)

Culminating Experience (1 credit hour)

TGM 597 Thunderbird Personal Leadership Development (1)

Additional Curriculum Information

Electives are approved by the academic unit.

Except for TGM 596 and the foreign language requirement, other requirement courses may be substituted with approval of the academic unit.

Proficiency in a second language is required for graduation from the Master of Global Management degree program. Students whose native language is not English and who meet the admission requirements for the program satisfy the language requirement.

Students whose native language is English must satisfy the graduation requirement for language proficiency by waiving this requirement through an oral proficiency interview administered by a third-party vendor or by successfully completing six credit hours of 400-level or higher foreign language coursework as part of the program electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any subject or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume
- essay response to application question
- one professional or academic reference
- GMAT or GRE may be required
- interview
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The resume should demonstrate the applicant's professional and academic history.

An interview is required. Final applicants may be asked to complete an additional interview.

Applicants are exempt from taking the GMAT or GRE if they have eight or more years of professional work experience or a cumulative undergraduate GPA of 3.25 or above. Applicants who do not meet either requirement are reviewed by the application committee and may receive an exception on a case-by-case basis.

Global Opportunities:

Global Experience:

Students in Thunderbird's Master of Global Management program have unique opportunities to apply and hone their learning in international settings. Experiential learning exposes Thunderbird students to actual problems faced by leaders of multinational businesses and governmental or nonprofit organizations that operate on an international level. Working with Thunderbird professors, their fellow students, alumni and corporate

partners, students master and apply global management principles and concepts to meet real business challenges through special courses, labs and projects. Thunderbird offers a wide variety of experiential learning engagements, giving students the ability to solve real-world challenges by collaborating with the school's corporate partners around the world. Some options include:

Global Field Seminars

This two- or three-week seminar exposes students to the dynamics and nuances of doing business in a focused region of the world. Teams of students go on company site visits and attend high-level meetings and presentations with business, government and cultural leaders as well as with Thunderbird alumni. Students gain invaluable hands-on experience while expanding their global business skills so they can become major assets to any organization they join after graduating.

Thunderbird Global Challenge Laboratories

This is a client-facing, project-based course built on a six- to seven-week immersion assignment in a key emerging or advanced market. Projects take students to destinations all over the world. They are tailored to the business needs of the client and challenge students to provide sophisticated data and market analysis, strategy recommendations and plans for sustained growth that are both practical and effective. For more information, students should visit Thunderbird Global Challenge lab website <https://thunderbird.asu.edu/challenge-labs> (<https://thunderbird.asu.edu/challenge-labs>).

Career Opportunities:

Career examples include:

- business continuity planners
- intelligence analysts
- legislators
- political scientists
- regulatory affairs managers
- sustainability specialists
- social and community service managers

Global Management (Sustainability Solutions), MGM (TBGMSSMGM)

Online Degree Search Title: Global Management (Sustainability Solutions), MGM

Campus: Downtown Phoenix

Program Description:

Solutions for the planet and industry

The Thunderbird MGM program with a concentration in sustainability solutions prepares students for the professions of the future. In this concentration, students earn a degree that benefits their career and the planet. There is an accelerating demand for leaders with a global mindset who possess expertise in sustainability, understand how to apply its principles and technology in approaching problems, and know how to work with and draw from different disciplines to develop practical solutions to the world's most urgent sustainability challenges.

The World Economic Forum reports that empathy and collaboration are two critical abilities for global manager success. These are equally critical for those seeking careers in sustainability solutions. These abilities rely on the development of social capital. This program is designed to develop a student's social capital through field-based action learning, team-based projects and stretch assignments. Students have the ability to build sustainable trusting relationships --- the basis of social capital --- with others from diverse parts of the world by learning techniques and methods of developing intercultural empathy, the ability to have interpersonal impact, and to act with diplomacy when influencing others. This concentration is offered in collaboration with ASU's School of Sustainability.

Doing well by doing good with a specialized master's degree

Research shows that more than 40% of executives want to align their company's goals with sustainability principles. In the same survey, chief executive officers identified sustainability as a top priority (McKinsey, 2014). Governments are also increasingly recognizing the importance of sustainability. This has led the United Nations to outline sustainable development goals for 2030, an effort that many multinational corporations, nonprofit organizations and state entities have pledged to join. As sustainability gains more traction, knowledge and management expertise in this area will become increasingly attractive to employers. Thunderbird has designed the sustainability solutions concentration to prepare students for these new organizational norms and to capitalize on the need for expert leadership in this rapidly growing profession.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Global Management (Sustainable Tourism), MGM (TBGMSTMG)

Online Degree Search Title: Global Management (Sustainable Tourism), MGM

Campus: Downtown Phoenix

Program Description:

Research indicates that 1 in 10 people are employed in a tourism-related job (World Economic Forum, 2017). Another study showed that travelers are more likely to visit places if there are sustainable practices in place (Mandala, 2017). In addition, governments are recognizing the importance of sustainability, leading the United Nations to outline sustainable development goals. As the tourism industry continues to adopt eco-tourism and sustainability practices, a new set of skills is needed.

Solutions for the planet and the tourism industry

Thunderbird's MGM program with a concentration in sustainable tourism prepares students for management and executive-level positions in the tourism industry globally. Offered in collaboration with ASU's Watts College of Public Service and Community Solutions (<https://publicservice.asu.edu/> (<https://publicservice.asu.edu/>)), Thunderbird's sustainable tourism concentration addresses the unique character of the sustainability revolution. The program prepares graduates to transform the sustainability practices of global enterprises in tourism development and management.

The program is designed for students interested in working in sustainable tourism, hospitality, travel and related fields. The concentration in sustainable tourism opens up a world of opportunities, allowing students to take courses in sustainable tourism from ASU's Watts College of Public Service and Community Solutions at the Downtown Phoenix campus, located in the heart of the state capital's thriving business district.

Students specialize in sustainable tourism management, mastering the principles and practices of successful sustainable development in the tourism field. Together, a diverse cohort learns to integrate economic, social and environmental aspects of sustainability as it relates to tourism; conduct sustainability audits for destinations and businesses; evaluate community impacts of tourism; innovate and evaluate sustainable tourism practices; and perform business planning and management. Students receive specialized, hands-on training in international business, cross-cultural relations, global political economy and regional business environments.

Graduates enter their profession ready to oversee initiatives in research, development, implementation, execution and evaluation of sustainable tourism plans for businesses and destinations. Graduates are prepared to enter today's complex and exciting global economy at the top of organizations that operate across borders. They join a global network of Thunderbird alumni who hold leadership positions in global organizations worldwide.

With their global mindset, future-ready core professional skills, mastery of management principles, and multicultural outlook, students are prepared to lead enterprises with a global scope. Potential employers include international tour operators as well as cities and venues around the world that attract guests from all over the globe.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Global Marketing (Certificate), Certificate (TBGMKTGRCT)

Online Degree Search Title: Global Marketing (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

Domestic marketing frameworks and tools are not sufficient in comparison to the global marketing framework that includes idiosyncrasies and complexities of the political, economic, legal, societal and cultural differences that exist in foreign markets.

The courses in Thunderbird's global marketing certificate program position students to thrive in multinational corporations and international organizations by equipping them with the knowledge of how and why customers make decisions. Students learn how to leverage branding across all channels to create value and to use the abundance of data available in today's market for cutting-edge business analytics. Courses emphasize the experiential approach to learning, using case studies featuring companies from around the globe with different cultures and complex legal environments.

Students learn to understand the critical, nuanced differences that managers need to recognize when conducting business across borders, and they examine how customer decision-making and how branding, business analytics, negotiation, channels and distribution, sales force management, product development and strategic services marketing are playing out in the international arena.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

TGM 553 Global Customer Decision Making (3)

TGM 554 Global Marketing Research (3)

Electives (9 credit hours)

Additional Curriculum Information

Students choose three elective courses from a restricted list. Additional courses may be utilized with approval from the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Applicants must have taken TGM 551 Global Marketing Strategy and TGM 552 Global Marketing Management, or TGM 503 Global Marketing, or a three credit hour, 500-level graduate course with a minimum grade of "B" (scale is 4.00 = "A") or its equivalent. Coursework must be from a regionally accredited institution, from an institution accredited by a business accreditation organization such as the Association to Advance Collegiate Schools of Business, European Quality Improvement System, Association of MBAs or other institutions with approval from the academic unit.

Career Opportunities:

Graduates who have combined the certificate in global marketing with their major program of study may become more marketable to employers. They often decide to pursue employment in product marketing, social media or market research areas.

Advanced degrees or certifications may be required for academic or clinical positions.

Program Description:

Professionals expand their management and leadership repertoire while sharpening their business skills in Thunderbird School of Global Management's MLM program, earning a unique graduate degree with classes taught by Thunderbird's world-class professors. The program provides mastery of modern practices from a global perspective for managers and executives in transnational organizations, delivering the highest quality graduate education in a flexible format.

This is an in-depth, professional degree program that features applicable training in the nuances of managing a global business, government agency or nonprofit organization.

The Master of Leadership and Management program combines cutting-edge management coursework with a truly global curriculum, cross-cultural communication and negotiation training, and personal development and leadership components to prepare graduates to thrive as decision-makers in enterprises that operate across borders.

Empowering graduates with well-rounded, future-ready skill sets, this transformational master's degree provides a strategically choreographed progression through every facet of international management with courses spanning the gamut of Thunderbird's offerings, from accounting and data-driven decision making to global finance and marketing. Students also receive hands-on, experiential learning opportunities in practical, real-world situations through elective courses that allow them to apply the full range of professional skills acquired during their studies.

The Master of Leadership and Management program allows students to work at their own pace to earn their degree in as few as 12 months. The program is designed specifically for students from around the world and allows them to join the globally connected Thunderbird alumni network (<https://thunderbird.asu.edu/alumni?action>) that opens doors and opportunities all over the planet.

Specializations

Thunderbird's Master of Leadership and Management degree program offers optional specializations. Students can focus their coursework in global and public affairs (delivered in English) and data analytics, financial management or global business (delivered in Mandarin).

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Degree Requirements:

Required Core (3 credit hours)

TAM 582 Communicating and Negotiating in a Dynamic Global World (3) or

TGM 506 Communicating and Negotiating Across Cultures (3)

Electives (24 credit hours)

Culminating Experience (3 credit hours)
TAM 541 Strategy in a Competitive World (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Two years of work experience is preferred but not required.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu>)

Global Opportunities:

Global Experience:

Students in the Master of Leadership and Management program have the unique opportunity to apply their learning in an international setting. Some options include:

Global Field Seminars --- During this course students experience an intensive, one-week immersion in-country. Students enjoy a hands-on learning experience in a focused region of the world comprised of company site visits, and high-level meetings and presentations with business, government and cultural leaders as well as Thunderbird alumni. Through these interactions, students learn the challenges and opportunities that make doing business in the region unique.

Thunderbird Global Challenge Laboratories --- This is a client-facing, project-based course that involves a one-week immersion in-country. Projects are tailored to the business needs of the client and provide sophisticated data and market analysis; strategy recommendations; and practical, effective plans for sustained growth. For more information, students should visit the Global Challenge Lab website at <https://thunderbird.asu.edu/degree/students/graduates/global-challenge-lab> (<https://thunderbird.asu.edu/degree/students/graduates/global-challenge-lab>).

The program fee for one Global Field Seminar or Global Challenge Lab experience is included in the tuition and fees for the Master of Leadership and Management degree. Airfare and incidental expenses are extra.

Career Opportunities:

More than ever, today's global organizations need versatile leaders and managers with creative problem-solving skills who can elevate diverse teams across cultures in multiple markets around the world. The Master of Leadership and Management program prepares graduates to lead in all sectors: government, private enterprise, NGOs and nonprofits.

Career examples include:

- compensation and benefits managers
- financial analysts
- human resources managers
- logistics analysts
- logistics managers
- management analysts
- marketing managers

- sales managers
- supply chain managers

Health Solutions, College of

Audiology, AuD (LAAUDAUD)

Online Degree Search Title: Audiology, AuD

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

The three-year course of study for the AuD degree consists of basic science coursework, professional knowledge coursework and clinical practicum experiences. Full-time commitment is critical because graduate courses are offered once per academic year. In addition, course content and the sequence of courses are closely tied to clinical practicum assignments. Moreover, full-time enrollment assures timely completion of the program.

Students have the option of graduating after the completion of the three-year program of study or enrolling in a clinical externship during their fourth year for up to an additional three credit hours of clinical training. A minimum of 850 hours of clinical training is required for graduation and is obtained during the first three years of training. Additional practicum hours toward the 1,820 hours required for the Certificate of Clinical Competence in Audiology, also known as CCC-A, by the American Speech-Language-Hearing Association can be met during completion of the fourth year externship under the supervision of an ASHA-certified audiologist. The remaining clinical clock hours for ASHA certification can also be met after graduation. However, students should be aware of state licensure requirements when making the determination of whether or not to complete an externship. Initial licensure in some states may require the completion of the externship.

Degree Requirements:

88 credit hours, a written and oral comprehensive exam.

Required Core (58 credit hours)

- SHS 502 Basic Audiometry (4)
- SHS 504 Amplification I (4)
- SHS 505 Sign Language for Audiologists and Speech Pathologists (2)
- SHS 508 Pediatric Audiology (3)
- SHS 510 Amplification II (3)
- SHS 511 Auditory Perception by the Hearing Impaired (3)
- SHS 513 Neurophysiology of the Auditory System (3)
- SHS 516 Auditory Evoked Potentials (4)
- SHS 517 Balance Assessment (4)
- SHS 518 Rehabilitative Audiology (3)
- SHS 520 Auditory Pathologies/Disorders and Otoneurologic Applications (4)
- SHS 522 Tinnitus/Advanced Audiometry (3)
- SHS 523 Central Auditory Processing Disorders (4)
- SHS 524 Counseling in Communication Disorders (2)
- SHS 525 Audiology Practice Management (3)
- SHS 526 Launch to Clinical Methods in Audiology (1)
- SHS 552 Physiological Measures of Auditory Function (4)
- SHS 555 Cochlear Implants (4)

Other Requirements (27-30 credit hours)

- SHS 500 Research Methods (3)
- SHS 580 Clinical Practicum (8)
- SHS 584 Clinical Internship (12)
- SHS 589 Audiology Grand Rounds (4)

SHS 590 Reading and Conference (Audiology Clerkship) (0-3)

American Speech-Language-Hearing Association Praxis national certification examination in audiology (0)

Electives and Research (3 credit hours)

Culminating Experience

written and oral comprehensive exam

Additional Curriculum Information

Students have the option to continue enrollment in SHS 590 at one credit per semester for up to three semesters for the additional training experience and to complete the externship requirements of the ASHA certification if desired. These extra hours of clinical experience allow students to apply for ASHA certification upon graduation or for state licensure for certain states. Students should maintain continuous enrollment and not apply for graduation until they have completed the additional clinical hours for the certification.

Since certification and licensure requirements vary by profession and from state to state, the College of Health Solutions recommends students visit the ASU licensure website at <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>) to determine if their program meets the requirements of individual state licensures or national certifications, as applicable. The decision to complete an externship or not is an individual decision based on career objectives and desired state of licensure among other factors.

In addition to the Graduate College requirements, eligibility for graduation is based upon the following:

Formative Exam (Year 1)

Students must pass a formative exam given at the end of the first academic year of the program. This is a 100-question, multiple-choice test covering the content of the courses taken during the fall and spring semesters. Students receiving scores of less than 70% are given one opportunity to retake the exam.

Summative Exam (Year 3)

Students must pass a summative exam in the fall of the third academic year of the program. This is a comprehensive written and oral exam pertaining to clinical case diagnosis and management. One retake is allowed if the student does not pass on the initial attempt.

National Certification Exam (Praxis)

All students pursuing the Doctor of Audiology degree must pass the praxis examination in audiology as a graduation requirement. There are no credit hours tied to it. The Praxis exam result must be sent directly from the Education Testing Service to the ASU audiology program office in order to process the graduation approval.

Clinical Clock Hours

Students must successfully complete 850 hours of supervised clinical clock hours as accrued between on-campus clinic, off-campus internship sites and possible simulation opportunities.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in speech and hearing science or another related discipline from a regionally accredited institution. Applicants with degrees in related fields, such as nursing, education and any of the biological sciences, may apply, although they may be admitted as leveling students and must complete at least one year of prerequisite courses in speech and hearing science at the undergraduate level.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Upon receipt of application a timed writing statement will be administered as part of the first stage of the admissions process. Applicants meeting the first-stage admissions criteria will be notified and invited to provide additional information to complete the second stage of the admissions process. All other applicants will be denied admission. Invited applicants who wish to continue the application process must provide a seven- to ten-minute video introducing themselves and answering several questions from the admission committee. The same questions are given to all

applicants along with instructions about format and submission. Applicants who do not submit a video and writing sample are denied admission. The committee may ask to schedule an interview to ascertain additional information from applicants after reviewing the recorded video and will make final decisions regarding admission. Space is available for a total of 15 students. Invitations will be sent by the beginning of February with a deadline for video submission in mid-February.

The personal statement should not exceed 300 words and should describe the reasons for pursuing graduate study in audiology; successful applicants submit statements that are free of grammatical errors and demonstrate proficiency in written communication.

Letters of recommendation should outline the applicant's potential success for graduate-level coursework. Letters from faculty members are most useful. A standard form is not used; letters should be submitted on letterhead from the recommender's institution.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Understand and apply the foundations of clinical practice that provide the building blocks for professional, evidence-based practice of audiology.
- Analyze and evaluate clinical information by graduation.
- Meet eligibility criteria for certification and/or licensure in Audiology.

Career Opportunities:

A career as an audiologist offers fulfilling work with an exceptional work-life balance. Graduates who complete the Doctor of Audiology degree find rewarding careers in hospitals, physician's offices, audiology clinics, school districts and industry. Careers associated with a doctoral degree in audiology and areas of specialization include:

- audiologist
- cochlear implant audiologist
- cochlear implant manufacturer representative
- educational audiologist
- hearing aid manufacturer representative
- intraoperative monitoring
- manufacturer representative
- pediatric audiologist
- research audiologist
- vestibular audiologist

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Auditory and Language Neuroscience, MS (NHALNEUMS)

Online Degree Search Title: Auditory and Language Neuroscience, MS

Campus: Tempe

Program Description:

The MS program in auditory and language neuroscience trains scholars in basic and applied research in the fields of auditory and language neuroscience to prepare them for doctoral-level graduate studies as well as for positions in science, health care and industry.

In addition to innovative coursework in neuroscience, this program includes hands-on training in instrumentation such as neuroimaging, neurophysiology and clinical research applications. Students develop a strong foundation that enables them to conduct impactful neuroscience research related to auditory and language processing and human communication.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Speech and Hearing Science, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

31 credit hours including a thesis, or 31 credit hours including an applied project course (SHS 593).

Required Core (6 credit hours)

SHS 541 Data Analysis in Auditory and Language Neuroscience (3)

SHS 542 Applied Research Methods in Auditory and Language Neuroscience (3)

Restricted Electives (12 credit hours)

Research (6 credit hours)

SHS 592 Research (6)

Other Requirement (1 credit hour)

SHS 590 Reading and Conference (1)

Culminating Experience (6 credit hours)

SHS 593 Applied Project (6) or

SHS 599 Thesis (6)

Additional Curriculum Information

For restricted electives, students should see the academic unit for an approved course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited college or university.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- letter of intent or written statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

In the letter of intent or written statement, applicants should indicate potential research mentors with whom they are interested in working. Letters of recommendation preferably are written by instructors, research mentors or clinical supervisors who can speak to the applicant's aptitude for research and master's-level coursework.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Critically analyze and synthesize knowledge from the neuroscience research literature related to language and/or hearing.
- Demonstrate competence in experimental design, data collection, data analysis, and interpretation of neuroscience research related to language and/or hearing.

- Identify and describe principles and concepts related to the responsible conduct of research.

Career Opportunities:

Graduates have acquired the experience with clinical and medical applications of their neuroscience-related expertise and the skills gained in lab rotations that give them increased marketability and enable them to be competitive for jobs in technology or for further doctoral level training.

In the tech field, there has been significant interest in the areas of deep learning and artificial intelligence for speech. These fields rely on computational models of speech perception and production to perform automated tasks such as speech and speaker recognition.

Employment opportunities for graduates include team settings in clinical research centers and hospitals; with manufacturers of hearing aids, cochlear implants and EEG systems or augmentative and alternative communication applications; and with software development companies working with speech recognition programs and brain-computer interfaces.

Career examples include:

- data analyst
- educator
- laboratory technician or manager
- product developer
- public relations specialist or spokesperson for a research institute or device manufacturer
- research scientist

Behavioral Health, DBH (LSBEVHEDBH)

Online Degree Search Title: Behavioral Health, DBH

Campus: Online

ASU is not currently accepting applications for this program. Applicants interested in the Doctor of Behavioral Health program should apply directly to the clinical or management concentrations.

Program Description:

The DBH is an innovative and interdisciplinary applied program designed to upgrade master's degree-level professionals, preparing them to become experts in the emerging field of integrated behavioral care.

Integrated care is the holistic treatment of both medical and behavioral conditions. When undetected and untreated, whether in primary care or other medical settings, the results are poor clinical outcomes and increased medical costs related to overuse of medical services. A key recommendation in health care reform is improved integration of medical and behavioral care in order to both improve health outcomes as well as decrease health care costs.

The doctoral curriculum is explicitly focused on graduating experts who can both speak the language of evidence-based clinical interventions and the perform cost savings and return on investment analyses that are in high demand in new models of accountable care delivery. Traditional doctoral training does not prepare clinicians or managers with the interdisciplinary knowledge required to meet these new demands in the health care marketplace. This program reflects a paradigm shift to a curriculum based on business entrepreneurship skills, such as business plans, marketing and returns on investment specific to health care; evidence-based behavioral interventions for primary care that are efficient and contribute to cost savings by reducing unnecessary medical care services and costs; health care systems policies, economics and finance that respond to emerging opportunities in health care reform; and medical literacy, to understand common medical conditions seen in primary care and consult effectively with the medical team.

The curriculum is unique in that it incorporates internship experience in primary care or similar medical settings, and it integrates clinical and professional affiliated faculty as well as faculty associates who are experts and are directly employed in health care environments in the area that they are teaching. It is a flexible, online degree program that enables students to select a program of study ranging from part-time to full-time attendance, and it is available through ASU Online as a distance-learning program. The program offers either a clinical track for licensed clinicians or a management track for health care managers and leaders, and it replaces the dissertation with a culminating research project that combines an applied research study with a business plan.

Internship experiences are arranged with local site liaisons, and students meet in small groups with a doctoral consultant who leads case reviews and studies. Rural health and experiences with disadvantaged and multicultural populations are encouraged.

Graduates of the program contribute to a societal transformation by leading to improved access to behavioral care, integration of a behavioral provider on the medical team, improved patient outcome and satisfaction and decreased cost of care.

Degree Requirements:

84 credit hours including the required applied project course (IBC 793).

Required Core (18 credit hours)

HCD 501 Biostatistics and Data Management (3)

IBC 586 Behavioral Health Professional Writing Style (3)

IBC 611 Population-Based Behavioral Health Management (3)

IBC 614 Quality and Performance Measurement, Improvement, and Incentives in Health Care (3)

IBC 718 Healthcare Systems: Organization, Delivery and Economics (3)

IBC 720 Behavioral Health Entrepreneurship (3)

Electives (57 credit hours)

Other Requirement (3 credit hours)

IBC 684 Internship (3)

Culminating Experience (6 credit hours)

IBC 793 Applied Project (6)

Additional Curriculum Information

In order to use the 30 credits from a previously awarded master's degree, applicants must possess a bachelor's degree and master's degree from a regionally accredited postsecondary institution in the U.S. or an equivalent degree from an recognized international postsecondary institution.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (on a 4.00 scale) in the applicable master's degree.

All applicants must submit an online graduate admission application. Applicants should see specific concentrations for the items that must be submitted.

Additional Application Information

An applicant whose native language is not English must meet university and degree program English proficiency requirements regardless of current residency.

In order to use the 30 credits from a previous master's degree, applicants must possess a bachelor's degree and a master's degree from a regionally accredited postsecondary institution in the U.S. or an equivalent degree from a recognized international postsecondary institution.

Behavioral Health (Clinical), DBH (NHBVHCDBH)

Online Degree Search Title: Behavioral Health (Clinical), DBH

Campus: Online

Program Description:

The DBH is a global, interdisciplinary degree program that offers an innovative curriculum, a hands-on internship placement in primary care, and an applied research project for domestic and international students who are already licensed, or license eligible, to practice in a clinical field. The DBH program of study does not support a pathway to licensure.

Clinical concentration students learn how to develop and implement evidence-based interprofessional practices that are tailored to fit the needs of the local community, patient populations and health care systems. Students are prepared to anticipate trends in health care policy and to leverage their expertise using clinical practice skills, quality improvement approaches, population health strategies and health care cost management to thrive in the evolving health care marketplace.

The curriculum addresses the problem of poor health outcomes, barriers to patient access, and rising health care costs by preparing students to achieve the Quadruple Aim in health care of: improved patient experience of care, population health management, cost savings and improved team satisfaction. Students learn to demonstrate cost savings and return on investment by developing a business case for integrated care. With a focus on team-based, whole person care, students learn strategies to improve team satisfaction that integrates behavioral health into traditional medical settings.

The student learning experience includes easy access to online articles, videos and websites, weekly live webinars led by faculty experienced in the field, live peer student interactions and written assignments that parallel the writing used for clinical and business proposals.

In the culminating project, students address a primary care clinic's clinical, operational or financial challenge using the quality improvement model to solve key problems. Examples include how to support improved patient outcomes, improve organizational processes and integrated care clinical outcomes, or decrease provider stress and burnout by training them to use resources more efficiently.

The internship program is hands-on in a local primary care clinic with in-person consultation by a licensed faculty member in a weekly small group webinar format. Students also have a site preceptor with whom they collaborate in support of the patient-centered medical home and accountable care organization approaches to primary care. Students on the clinical track are independently licensed in their respective fields, and collaboratively work with their internship site preceptor who is a trained medical professional not necessarily in their field of practice. This is consistent with an interprofessional team approach.

Students may join special research projects or have the opportunity for a semester of study abroad. The faculty are seasoned professionals and content experts representing clinical practice, management and applied research in integrated care.

Degree Requirements:

84 credit hours including the required applied project course (IBC 793).

Required Core (18 credit hours)

HCD 501 Biostatistics and Data Management (3)

IBC 586 Behavioral Health Professional Writing Style (3)

IBC 611 Population-Based Behavioral Health Management (3)

IBC 614 Quality and Performance Measurement, Improvement and Incentives in Health Care (3)

IBC 718 Healthcare Systems: Organization, Delivery and Economics (3)

IBC 720 Behavioral Health Entrepreneurship (3)

Concentration (15 credit hours)

IBC 601 Models of Integrated Primary Care (3)

IBC 603 Brief Interventions in Primary Care (3)

IBC 604 Clinical Medicine/Pathophysiology (3)

IBC 609 Clinical Neuropathophysiology (3)

Electives or Research (39 credit hours)

Other Requirement (6 credit hours)

IBC 684 Internship (6)

Culminating Experience (6 credit hours)

IBC 793 Applied Project (6)

Additional Curriculum Information

The program may allow up to 30 credit hours from a previously awarded master's degree or other courses approved by the supervisory committee with Graduate College approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (on a 4.00 scale) in the applicable master's degree.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- copy of the applicant's license or license eligibility
- one professional letter of recommendation
- updated curriculum vitae or resume
- program policies acknowledgements
- video or webcam admission interview (if indicated)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants with master's degrees in counseling, family therapy, nursing, occupational health and social work, among others, are encouraged to apply. Applicants must be master's degree-level professionals who are either currently employed or aspire to be employed in a clinical capacity within integrated health care.

Licensed and license-eligible are terms defining a license to practice issued by a state licensing board (e.g., Arizona Board of Behavioral Health Examiners, Arizona Board of Occupational Therapy Examiners, etc.). Examples include license-eligible master's degree-level behavioral clinician, licensed master's degree-level behavioral clinician, and master's degree-level licensed medical or ancillary health care provider (nurse, dietitian, occupational therapist).

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/doctor-behavioral-health-clinical/>)

Career Opportunities:

Graduates of the clinical concentration program have the skills to move into clinical leadership and management positions across health care settings. They are well prepared to develop and manage programs related to integrated behavioral health care.

Potential job titles include:

- behavioral health provider, consultant or specialist in primary care and other medical settings
- CEO of integrated care
- clinical team manager
- director of clinical services or operations
- health and wellness manager
- integrated care clinical provider
- integrated care manager or consultant
- integrated health care manager or specialist
- wellness program administrator

Behavioral Health (Management), DBH (NHBVHMDBH)

Online Degree Search Title: Behavioral Health (Management), DBH
Academic Catalog Archive 2022-2023

Campus: Online

Program Description:

The DBH is a global, interdisciplinary degree program that offers an innovative curriculum, a hands-on internship placement in health care settings, and an applied research project for domestic and international students.

Integrated health care is the team-based, coordinated approach to the treatment of medical and behavioral health issues, lifestyle issues and behaviors that affect health, all in one setting. The management concentration of the Doctor of Behavioral Health program provides students the knowledge and skills needed for management of integrated health care programs. Students learn about the impact of social determinants of health and health disparities and how to leverage resources to contain costs while ensuring the provision of quality health care.

The program enables both domestic and international students to tailor learned innovative management practices to local health system geography, culture and policy. The curriculum focuses on integrated health management in primary care, especially in the patient-centered medical home and accountable care organization models, and focuses on three areas: integrated behavioral health program design, quality and performance measurement, and business entrepreneurship. The curriculum includes emerging health technologies such as integrated health measures in electronic health records, mobile health applications and wearable technology to facilitate and assist with tracking health behavior change, big data and analytics.

Graduates of the management concentration are positioned to achieve the Quadruple Aim in health care: improved patient experience of care, population health management, cost savings and improved health care team experience. They are expected to apply entrepreneurial concepts and skills to promote integrated health programs with key stakeholders, such as medical directors and chief executive officers.

The Doctor of Behavioral Health program of study does not support a pathway to clinical or other licensure.

Degree Requirements:

84 credit hours including the required applied project course (IBC 793).

Required Core (18 credit hours)

HCD 501 Biostatistics and Data Management (3)

IBC 586 Behavioral Health Professional Writing Style (3)

IBC 611 Population-Based Health Management (3)

IBC 614 Quality and Performance Measurement, Improvement, and Incentives in Health Care (3)

IBC 718 Healthcare Systems: Organization, Delivery and Economics (3)

IBC 720 Behavioral Health Entrepreneurship (3)

Concentration (18 credit hours)

HCD 602 Health Informatics for Future Healthcare Professionals (3)

IBC 601 Models of Integrated Primary Care (3)

IBC 626 Behavioral Health Management (3)

IBC 630 Financial Management of Health Care (3)

IBC 660 Healthcare Legal, Ethical, and Professional Issues (3)

IBC 740 Integrated Behavioral Interventions, Cost Savings, Medical Cost Offset and Return on Investment (3)

Electives or Research (39 credit hours)

Other Requirement (3 credit hours)

IBC 684 Internship (3)

Culminating Experience (6 credit hours)

IBC 793 Applied Project (6)

Additional Curriculum Information

The program may allow up to 30 credit hours from a previously awarded master's degree or other courses approved by the supervisory committee with Graduate College approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (on a 4.00 scale) in the applicable master's degree.

All applicants must submit:

- graduate admission application
- official transcripts
- personal statement
- one professional letter of recommendation
- updated curriculum vitae or resume
- program policies acknowledgements
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

As part of the admissions process, applicants may need to complete an interview through video conference software or submit a previously recorded video.

Applicants with master's degrees in business administration, public health, nursing, counseling, behavioral health, health care administration and social work, among others, are encouraged to apply. Applicants must be master's degree-level professionals who are either currently employed or aspire to be employed in a clinical capacity within integrated health care.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/doctor-behavioral-health-management/>)

Career Opportunities:

Graduates of the management concentration in the Doctor of Behavioral Health program have the organizational understanding and management skills required to move into leadership and management positions across health care settings. They are well prepared to develop and manage programs related to integrated behavioral health care and choose careers such as integrated care practice managers and leadership positions in integrated care delivery systems, health plans and managed care organizations as well as positions as integrated care industry consultants.

This program does not prepare non-clinicians for clinical practice.

Potential job titles include:

- behavioral health staff coordinator
- CEO or director of integrated care
- director of physician relations
- health and wellness manager

Biomedical Diagnostics, MS (NHBMDMS)

Online Degree Search Title: Biomedical Diagnostics, MS

Campus: Online

Program Description:

The MS program in biomedical diagnostics can be completed in one year, if enrolled full-time. The flexible, innovative degree program is offered in condensed sessions through ASU's unique online framework.

Four areas provide the progressing foundation of the degree program:

- science of diagnostics
- technology of diagnostics
- business of diagnostics
- application of diagnostics

Students complete a culminating experience in which they work on a team-based project with an ASU professor and industry partner on a topic relevant to the diagnostics field.

Degree Requirements:

31 credit hours including an applied project (BMD 593).

Required Core (19 credit hours)

BMD 502 Foundations of Biomedical Informatics Methods I (3)

BMD 510 Current Perspectives in Biomedical Diagnostics (3)

BMD 511 Health Economics, Policy, and Payment Models (3)

BMD 513 Principles of Diagnostic Technology: Immunoassays (4)

BMD 514 Principles of Diagnostic Technology: Molecular Diagnostics (3)

BMD 667 Regulation of Medical Diagnostics (3)

Electives (6 credit hours)

Research (3 credit hours)

BMD 592 Research (3)

Culminating Experience (3 credit hours)

BMD 593 Applied Project (3)

Additional Curricular Information

Students should see the academic unit for an approved elective list of BMD courses. They should note that BMD 592 and BMD 593 are contiguous courses and cannot be taken in different years.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited college or university in one of the following fields, or a closely related field: biomedical informatics, biology, life sciences, chemistry, biochemistry, engineering, biomedical engineering, business, computer science, supply chain management, health sciences or medical studies.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- statement of purpose
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should see the Graduate College requirement <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

Admission examinations are not required.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-biomedical-diagnostics/>)

Career Opportunities:

Professional opportunities are quite broad and depend on the individual's educational and work backgrounds as well as the personal interests of the student. Graduates can pursue diverse options such as executive leadership or entrance to medical school. The following career examples are just a small portion of the possibilities:

- account manager
- clinical laboratory management
- clinical laboratory technologist
- clinical research coordinator
- quality analyst
- marketing manager
- product manager
- research analyst
- sales representative

Biomedical Informatics, MS (ESBIOINFMS)

Online Degree Search Title: Biomedical Informatics, MS

Campus: Tempe

Program Description:

The MS in biomedical informatics offers students the opportunity to become professionals who use biomedical data, information and knowledge to improve human health.

Students in the master's program learn problem-solving, theory and the methodologies underlying the field of biomedical informatics. They take courses in areas such as knowledge representation, clinical environments, imaging, bioinformatics and data science. Core courses provide a background in clinical informatics, while electives allow specialization in focus areas such as data science or mobile health.

Biomedical informatics fosters collaborations among academic researchers, clinical practitioners and regional health care providers to apply new developments in informatics theory to clinical practice. The program educates students in the informatics knowledge and skills that will enable them to:

- detect disease early
- improve the quality of patient health care and reduce its cost
- improve the patient hospital experience
- improve the precision of diagnosis
- minimize hospital visits

Biomedical informatics has a key role to play in the transition to more effective and efficient health care through the use of knowledge and information technology.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Biomedical Informatics, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

32 credit hours including an applied project (BMI 593).

Required Core (17 credit hours)

BMI 502 Foundations of Biomedical Informatics Methods I (3)
BMI 505 Foundations of Biomedical Informatics Methods II (3)
BMI 515 Applied Biostatistics in Medicine and Informatics (3)
BMI 540 Problem Solving in Biomedical Informatics (3)
BMI 570 BMI Symposium (2)
BMI 601 Fundamentals of Health Informatics (3)

Other Requirements (3 credit hours)

BMI 404 Clinical Environments (3) or
BMI 504 Introduction to Clinical Environments (3)

Electives (9 credit hours)

Culminating Experience (3 credit hours)

BMI 593 Applied Project (3)

Additional Curriculum Information

Six credit hours of electives must be BMI courses.

Core course BMI 570 is one credit hour taken twice for a total of two credit hours.

BMI 404 or 504 is required and may be substituted with other coursework with approval of the academic unit.

Due to the diverse academic backgrounds of students requesting admission into this program, many will find it necessary to take some coursework in preparation. However, all students take 32 credit hours of graduate-level coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in biology, computer science, engineering, nursing or statistics from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- three letters of recommendation
- GRE scores
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency via TOEFL scores regardless of current residency.

Applicants who have earned degrees in other unrelated fields with appropriate academic backgrounds also will be considered. However, all applicants must have basic competencies in college-level calculus (similar to MAT 270), general biology (similar to BIO 188) or physiology, statistics (similar to STP 226) and basic computer programming (similar to CSE 100 or CSE 110).

The applicant's undergraduate GPA, statement of purpose and depth of preparation in their field are the primary factors affecting admission. Every applicant must submit scores for the GRE or any other graduate-level entry examination.

Career Opportunities:

Professionals with advanced training in biomedical informatics are in high demand across a variety of sectors and industries, including academics institutions, not-for-profit research institutes, governmental and public health agencies, health care organizations, as well as information technology, biotech and pharmaceutical industries. Graduates can also pursue entrance to medical school.

Career examples include:

- research scientist
- data scientist

- analyst
- product manager
- account manager

Biomedical Informatics, PHD (ESBMIPHD)

Online Degree Search Title: Biomedical Informatics, PhD

Campus: Tempe

Program Description:

The PhD program in biomedical informatics allows students to develop expertise in areas such as bioinformatics, clinical informatics, population health management and imaging science. The biomedical informatics program fosters collaborations among academic researchers, health care providers and industry partners to apply new developments in informatics theory to clinical practice, biomedical research and public health.

Additional specialization coursework in an area of focus and emphasis on independent research places students at the leading edge of the field. Strong collaborative relationships with a variety of health care organizations, the bioscience industry and governmental agencies provide an unparalleled opportunity for doctoral students to explore and contribute to advances in informatics. Students may explore cross-cutting areas such as data science and artificial intelligence.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (22 credit hours)

- BMI 502 Foundations of Biomedical Informatics Methods I (3)
- BMI 504 Introduction to Clinical Environments (3)
- BMI 505 Foundations of Biomedical Informatics Methods II (3)
- BMI 515 Applied Biostatistics in Medicine and Informatics (3)
- BMI 540 Problem Solving in Biomedical Informatics (3)
- BMI 560 Teaching in Biomedical Informatics (2)
- BMI 570 BMI Symposium (2)
- BMI 601 Fundamentals of Health Informatics (3)

Electives (32 credit hours)

Research (18 credit hours)

- BMI 792 Research (18)

Culminating Experience (12 credit hours)

- BMI 799 Dissertation (12)

Additional Curriculum Information

Due to the diverse academic backgrounds of students requesting admission into this program, many find it necessary to take some coursework in preparation. However, all students take 84 credit hours of approved graduate-level coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee

- official transcripts
- statement of purpose
- 3 letters of recommendation
- GRE scores
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Scores for the TOEFL for applicants whose native language is not English is required.

An applicant should have earned a bachelor's degree in biology, computer science, engineering or statistics, or be trained as a post-baccalaureate health professional in medicine, nursing or pharmacy. Those who have earned degrees in other fields with appropriate academic backgrounds are also considered. All applicants must have basic competencies in bioscience, computer programming, and statistics.

The applicant's undergraduate GPA, statement of purpose, GRE scores (verbal, quantitative and analytical are required; the subject test is optional) and depth of preparation in their field are the primary factors affecting admission.

Career Opportunities:

Professionals with advanced training in biomedical informatics are in high demand across a variety of sectors and industries, including academics institutions, not-for-profit research institutes, governmental and public health agencies, health care organizations, as well as information technology, biotech and pharmaceutical industries.

Career examples include:

- bioinformatics scientist
- biostatistician
- data scientist
- deep learning engineer
- public health informatics scientist
- research scientist
- senior analyst
- software engineer
- university faculty

Clinical Exercise Physiology, MS (NHCEPMS)

Online Degree Search Title: Clinical Exercise Physiology, MS

Campus: Downtown Phoenix

Program Description:

The MS in clinical exercise physiology degree program prepares students for careers as clinical exercise physiologists.

Students learn how to use primary and secondary prevention strategies to improve, maintain or abate declines in fitness and health in populations ranging from children to older adults. They learn to collaborate with medical professionals to guide exercise and rehabilitation programs for at-risk clients and clients with chronic diseases.

This program provides the knowledge, clinical experience and skills needed by individuals preparing for successful completion of the registration examination for the certification.

American College of Sports Medicine is the national association responsible for establishing guidelines and recommendations for exercise testing, prescription and evaluation of research for both healthy populations and those with chronic disease. ACSM certification is deemed the organization's most prestigious credential for clinical professionals who have a master's degree and 600 hours of hands-on clinical experience.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Clinical Exercise Science, BS
Kinesiology, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

31 credit hours and a written comprehensive exam, or 31 credit hours, a thesis, a written comprehensive exam and an oral comprehensive exam.

Required Core (21 credit hours)

EXW 501 Research Statistics (3)

EXW 535 Advanced Exercise Assessment and Prescription (3)

EXW 542 Health Promotion (3)

EXW 560 Cardiopulmonary Rehabilitation (3)

EXW 565 Cardiovascular and Pulmonary Physiology (3)

EXW 568 Management and Treatment of Chronic Disease for the Clinical Exercise Physiologist (3)

KIN 547 ECG Interpretation (3)

Electives (1 credit hour)

EXW 591 Seminar (1)

Other Requirement (3 or 9 credit hours)

EXW 500 Research Methods (3), or

EXW 515 Advanced Exercise Physiology (3) and EXW 584 Clinical Exercise Physiology Internship (6)

Culminating Experience (0-6 credit hours)

written comprehensive exam, or

EXW 599 Thesis (6)

Additional Curriculum Information

This program has a thesis option or a non-thesis option. Students in the thesis option must take EXW 500 Research Methods. Students selecting the non-thesis option must complete a clinical internship of six credit hours EXW 584 Clinical Exercise Physiology and take EXW 515 Advanced Exercise Physiology.

All students must pass a written comprehensive exam. Thesis students must also pass an oral comprehensive exam.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in exercise science, exercise physiology, kinesiology or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- letter of intent
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

A foreign language exam is not required.

One letter of recommendation must be submitted by an academic reference from major coursework. All qualified applicants are admitted providing they have met all requirements for admission. Admission is not limited to any target number of students unless enrollment exceeds the projected

capacity of the program to provide an adequate, quality program. In the case of space limitations, applicants are prioritized based on GRE scores, GPA, letters of reference and letter of intent for admission to the program.

Career Opportunities:

Clinical exercise physiology, in which exercise is used to help clients manage or reduce their risk of chronic disease, is a relatively new career field. It is an exciting and growing profession in the health care realm that has recently been organized on the national level, recognized by the federal government and defined as an occupation. The unique and vital profession will grow as certifications and licensures support the value of clinical exercise physiology.

Career opportunities are available in:

- hospital-based research facilities
- hospitals
- outpatient clinics
- physician offices
- university laboratories

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Communication Disorders, MS (LACOMDISMS)

Online Degree Search Title: Communication Disorders, MS

Campus: Tempe

Program Description:

The MS program in communication disorders prepares students to become certified speech language pathologists in a full-time residential program that can be completed in 20 months. The program trains students to evaluate and treat clients with speech, language, cognitive and swallowing disorders.

The first year develops knowledge and skills for the assessment and treatment of communication disorders in people of all ages. Students complete clinical practicum with clinical faculty educators. In the second year, students acquire additional clinical skills with two full semesters of external placements.

This program offers research and clinical opportunities in different settings, including inpatient and outpatient medical sites, public schools, early intervention programs and private practices. A part-time employment program is available for speech-language pathology assistants in public schools. Those seeking specialized training can pursue a multicultural and multilingual certificate.

The program is accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association.

Degree Requirements:

60 credit hours and a thesis, or 60 credit hours and a written comprehensive exam.

Required Core (34 credit hours)

SHS 538 Clinical Methods and Simulation in Speech-Language Pathology (4)

SHS 539 Professional Issues in Speech-Language Pathology (2)

SHS 567 Neural Bases of Communication Disorders (2)

SHS 570 Communication Disorders and Multicultural Populations (2) or SHS 597 Bilingual Speech-Language Pathology (2)

SHS 571 Augmentative Communication and Language Programming (2)

SHS 572 Language Assessment and Intervention in Infants and Toddlers (2)

SHS 573 Language Assessment and Intervention with School-Age Populations (2)
SHS 574 Management of Feeding and Swallowing Disorders (2)
SHS 575 Aphasia and Related Neurogenic Language Disorders (2)
SHS 577 Current Assessment, Intervention and Research in Autism (2)
SHS 578 Fluency Disorders (2)
SHS 579 Voice and Resonance Disorders (2)
SHS 581 Traumatic Brain Injury and Cognitive Linguistic Disorders (2)
SHS 582 Differential Diagnosis of Communication Disorders (2)
SHS 585 Articulation and Phonology: Assessment and Intervention (2)
SHS 587 Language Assessment and Intervention with Preschool Populations (2)

Electives (0 or 6 credit hours)

Other Requirements (20 credit hours)

SHS 500 Research Methods (1)
SHS 580 Clinical Practicum (9)
SHS 584 Clinical Internship (10)
American Speech-Language-Hearing Association Praxis national exam in speech language pathology (0)

Culminating Experience (0 or 6 credit hours)

written comprehensive exam (0) or
SHS 599 Thesis (6)

Additional Curricular Information

SHS 538 and 539 are each taken twice across consecutive fall/spring semesters. The content for each semester is different and the spring class builds upon content covered in the fall.

Students in the nonthesis option take six credit hours of electives. Students should see the academic unit for an approved list of elective courses.

Both the thesis and nonthesis options require the American Speech-Language-Hearing Association Praxis national exam in speech language pathology. For the nonthesis option, a department-administered comprehensive examination in speech-language pathology is required in addition to the national exam.

Eligibility for graduation is based upon a passing score on the American Speech-Language-Hearing Association Praxis national certification examination in speech-language pathology; successful completion of the thesis or nonthesis option, including the required culminating experience and academic credits; and successful completion of clinical experiences.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in speech and hearing science or a related field from a regionally accredited institution and completed prerequisite coursework in speech and hearing.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement not to exceed 300 words
- email addresses of three recommenders
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students should see the program website for application deadlines and admission terms. Candidates who have undergraduate deficiencies may need to take required prerequisite courses.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Generate recommendations for clients by synthesizing in-depth knowledge of communication and swallowing processes including etiologies,

characteristics, anatomical physiological, acoustic, psychological, developmental, linguistic, and cultural correlates.

- Formulate prevention, assessment and treatment options for clients with communication and swallowing disorders
- Demonstrate skill based competency in the evaluation and treatment of people across the life span with communication, speech, language, literacy, cognition and swallowing difficulties.
- Function in their role as a speech-language pathologist including active utilization of interprofessional collaboration, interpersonal skills, counseling skills, supervision, advocacy for individuals who need services as well as the ability to act in accordance with the ethical, legal and philosophical principles of the speech-language pathology profession and the American Speech-Language-Hearing Association.
- Evaluate evidence based resources using scientific foundation principles to justify an approach to service provision as a speech-language pathologist

Career Opportunities:

Speech-language pathologists evaluate speech, cognitive, hearing and language test results, swallow results, or medical or background information to diagnose and plan treatment for speech, language, fluency, voice or swallowing disorders.

There are many opportunities to work with culturally and linguistically diverse populations. Speech-language pathologists collaborate with other professionals on a daily basis. People who value relationships, independence and helping others achieve optimal performance are a great fit for this career.

Speech-language pathologists are in high demand and can find employment in a wide range of settings including schools, private practice, early intervention programs, and medical centers, hospitals and clinics. Employment rates are extremely high, especially in school settings.

Career settings include:

- all levels of schools, including elementary, middle and high school
- early intervention settings, including home health
- inpatient and acute care hospitals
- neonatal intensive care units
- outpatient rehabilitation
- pediatric outpatient centers

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Communication Disorders in Multilingual/Multicultural Populations (certificate), Certificate (NHCDMPGRCT)

Online Degree Search Title: Communication Disorders in Multilingual/Multicultural Populations (Graduate Certificate)

Campus: Tempe

Program Description:

The certificate program in communication disorders in multilingual and multicultural populations provides expanded coursework on working with adults, children and families who are culturally and linguistically diverse. It also offers enhanced academic classes, clinical experience in authentic community-based settings and engagement in community-centered, interprofessional projects.

Students who complete the certificate program have the knowledge and practical experience to effectively address the needs of culturally and linguistically diverse adults, children and families.

Degree Requirements:

17 credit hours including an applied project (SHS 593).

Required Core (11 credit hours)

SHS 524 Counseling in Communication Disorders (2)

SHS 570 Communication Disorders and Multicultural Populations (2)

SHS 586 Language Essentials for Teaching Reading (2)

SHS 588 Bilingual Language Acquisition (3)

SHS 597 Bilingual Speech-Language Pathology (2)

Other Requirement (4 credit hours)

SHS 584 Clinical Internship (4)

Culminating Experience (2 credit hours)

SHS 593 Applied Project (2)

Additional Curriculum Information

The culminating experience is an applied, community-based project that builds depth of knowledge resulting in a paper that students must present to the academic unit.

As part of the certificate requirements, students also must complete an online module on parent training with culturally and linguistically appropriate techniques.

Students who wish to obtain a bilingual endorsement must complete the Arizona Classroom Teacher Spanish Proficiency Examination administered by the School of International Letters and Cultures.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the certificate program if they are enrolled in the MS program in communication disorders at ASU.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- letter of intent or written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa will need to first apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Candidates who have undergraduate deficiencies may need to take required prerequisite courses.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Adapt communication, assessment, and treatment to meet the cultural and linguistic diversity of the clients they serve.
- Use evidence-based practices to serve children who are culturally and linguistically diverse
- Practice as a speech language pathology clinician and evaluate appropriate resources, including mentorship, in settings that have culturally and linguistically diverse populations.

Career Opportunities:

Employers in many settings value professionals who are equipped to work with diverse populations. Students can advance their career options as a certified and licensed speech-language pathologist with this certificate demonstrating that they have undertaken the specialized training required for working with clients who have diverse linguistic or cultural backgrounds.

Exercise and Nutritional Sciences, PHD (ECNUTRIPHD)

Online Degree Search Title: Exercise and Nutritional Sciences, PhD

Campus: Downtown Phoenix

Program Description:

With integrated disciplinary contexts, the PhD in exercise and nutritional sciences curriculum trains scholars and leaders to address health problems and helps meet the increasing demand for the development of effective physical activity, exercise and nutrition programs for all segments of society. The mission of the program is to train research scholars to conduct high-impact, interdisciplinary research in exercise and nutrition sciences. In contrast to other programs, this program integrates both exercise and nutrition research using a problem-centered, interdisciplinary approach.

Students work collaboratively with an approved mentor from the beginning to the end of the doctoral program and focus their research on one primary area of interest: metabolism and physiology, behavioral and community health sciences, or biomechanics and motor control. Students and faculty conduct high-quality, use-inspired research intended to reduce the physical, social and economic costs of unhealthy living. Students engage in research at every stage of the program through research practicums, translational research teams, research seminars and colloquia, and dissertation research.

After earning a master's degree, the program can be completed in four years with full-time study. The program also accepts part-time students.

Degree Requirements:

89 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

EXW 640 Analysis of Variance for Exercise and Wellness (3)

EXW 645 Advanced Applied Methods and Data Analysis (3)

Required Research (12 credit hours)

EXW 700 Research Methods (3)

EXW 701 Advanced Research Methods (3)

EXW 780 or NTR 780 Practicum (6)

Elective Research (15 credit hours)

Professional Development (5 credit hours)

EXW 691 or NTR 691 Seminar (3)

EXW 784 Internship (2)

Focus Area (9 credit hours)

Electives (30 credit hours)

Culminating Experience (12 credit hours)

EXW 799 or NTR 799 Dissertation (12)

Additional Curriculum Information

Students tailor a course of study in one of three focus areas:

- behavioral and community health sciences
- metabolism and physiology
- biomechanics and motor control

Courses in the focus or thematic area are determined by the student and supervisory committee. Up to six but not more than nine credit hours in the focus area may be taken from a program outside the nutrition, exercise science, and health promotion programs.

Professional development courses include a teaching internship (EXW 784) to help prepare students in exercise and nutritional science to become
Academic Catalog Archive 2022-2023

teaching faculty, and a seminar course taken over three semesters (EXW/NTR 691) that addresses career opportunities and preparation for faculty or professional positions in the nutrition, exercise and health promotion fields.

When approved by the student's supervisory committee and Graduate College, 30 credit hours from a previously awarded master's degree are allowed to be used for this degree.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a master's degree in any field from a regionally accredited institution, and prefer that a data-based research thesis has been completed.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, and applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores (verbal, quantitative and writing)
- letter of intent
- professional resume
- three letters of recommendation
- teaching or research assistantship application
- writing sample (six to 10 pages)
- an oral interview with program faculty (via Skype or Zoom) prior to acceptance
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants must submit a TOEFL score unless the requirements for an exception have been met. Details are available at

<https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

The letter of intent should indicate research or scholarly interest, primary program area, statement of career goals and name of a potential faculty mentor from the list of approved faculty mentors.

Prerequisites

All applicants must have taken a graduate-level research methods and a graduate-level research statistics course prior to admission. Students are expected to take a pretest in research methods and research statistics the summer prior to enrolling.

It is expected that students admitted to the program have documented academic training and a strong interest in nutrition science, exercise science, biomechanics, rehabilitation, or health promotion. Thus, depending on the student's academic training, background, scholarly interests and focus area, a student may be asked to take undergraduate courses as deficiencies prior to, or concurrently with, graduate course enrollment.

Program Pathways

Two pathways through the program are available to students depending on their funding source, full-time via TA/RA funding or part-time self-funded. With both pathways, the intent is to involve and embed students in ongoing research as well as in-class study throughout their enrollment.

Students should see the program website for application deadlines and admission terms.

Career Opportunities:

Graduates are prepared for research careers in research-intensive universities, governmental agencies and health-related research positions in private industry. Students are strongly encouraged to pursue postdoctoral research opportunities upon graduation.

Career examples include:

- consultant
- entrepreneur
- exercise physiologist
- dietician or nutritionist
- health educator
- health, research or sports scientist
- postsecondary biomechanics, exercise science or nutrition teacher

- professor
- public health professional

Genetic Counseling, MS (NHGCOMS)

Online Degree Search Title: Genetic Counseling, MS

Campus: Downtown Phoenix

Program Description:

The MS program in genetic counseling, accredited by the Accreditation Council for Genetic Counseling, prepares students for a successful career as a genetic counselor where they can apply their knowledge and unique skill set to help advance the understanding of genetics and genomic-related conditions within the communities where they work and live.

The two-year, full time program offers an engaging and comprehensive curriculum covering topics such as: clinical genetics and genomics; the fundamentals of genetic counseling and advanced genetic counseling techniques; cultural competencies in genetics; social and ethical dimensions of genetic counseling and decision-making; and the role of genetic counselors in laboratories and research. The curriculum is taught by genetic counselors and medical geneticists.

Students also have the opportunity to participate in diverse fieldwork experiences throughout Phoenix. Upon graduation, new graduates are prepared to pass the American Board of Genetic Counseling certification exam and find a job that fits their acquired skills.

Degree Requirements:

71 credit hours and a thesis, or 71 credit hours including the required applied project course (GCO 593).

Required Core (46 credit hours)

- GCO 510 Fieldwork Preparatory (1)
- GCO 530 Genetic Counseling Fundamentals (3)
- GCO 540 Foundations of Medical Genetics (3)
- GCO 560 Practice of Genetic Counseling (3)
- GCO 570 Clinical Genetics (3)
- GCO 610 Laboratory Fundamentals & Population Screening (3)
- GCO 620 Genetic Counseling Techniques (3)
- GCO 625 Cultural, Ethical & Legal Aspects of Genetics (3)
- GCO 630 Advanced Genetic Counseling Techniques (3)
- GCO 650 Cancer, Cardiac Genomics and Precision Medicine (3)
- GCO 659 Embryology and Genetics (3)
- GCO 660 Professional Issues for Genetic Counselors (3)
- HCD 501 Biostatistics and Data Management (3)
- HCD 520 Population Health (3)
- HCD 562 Emerging Bioethical Issues in Translational Biomedical Research (3)
- IBC 640 Family and Couples in Primary Care (3)

Fieldwork (15 credit hours)

- GCO 583 or GCO 683 Fieldwork (15)

Other Requirements (4 credit hours)

- GCO 691 Topic: Journal Club I (1)
- GCO 691 Topic: Journal Club II (1)
- GCO 691 Topic: Journal Club III (1)
- GCO 691 Topic: Journal Club IV (1)

Culminating Experience (6 credit hours)

- GCO 593 Applied Project (6) or
- GCO 599 Thesis (6)

Additional Curriculum Information

Other requirements topic courses are 1 credit hour each semester in this series: Journal Club (I-IV). This course is designed to introduce students to the process of identifying relevant and current peer-reviewed articles on a topic pertaining to the field of genetics. Students are expected to present the article (review, discuss and critique the article) to their fellow students (first and second year-students take this course together).

Students who choose the applied project as their culminating experience work under the supervision of a faculty member to identify and complete a project in a related area of study.

Students must have a minimum of 50 participatory cases during their fieldwork experiences with individuals who are being evaluated in the specialty areas of prenatal, pediatric, cancer and other adult conditions, with no one specialty dominating. All 50 participatory cases must be supervised by an experienced ABGC/ABMG(G)/CAGC certified genetic counselor. The fieldwork coordinator for the program will place all students at their fieldwork sites and works with the sites to ensure students are exposed to the necessary types and numbers of cases to meet the requirements for graduation. The fieldwork experience must be completed by the end of spring semester of year two of the program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admissions application and application fee
- official transcripts
- letter of intent
- professional resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

All applicants are strongly encouraged to interview genetic counselors and observe genetic counseling sessions when possible. Experience working in the health care setting, volunteering or working with individuals who have special needs and advocacy experience or experience providing crisis counseling is also highly recommended.

Career Opportunities:

Graduates of the program are prepared for a position as a genetic counselor in clinical care, research or a laboratory setting or as an industry based genetic counselor. Genetic counselors are uniquely trained with a skill set that will allow them to work in a variety of medical, scientific, or research-based settings as well as in private practice and academia.

Health Informatics, MAS (GCHLHINMAS)

Online Degree Search Title: Health Informatics, MAS

Campus: Online

Program Description:

The MAS in health informatics is a flexible program designed to meet the needs of working professionals. Core courses provide a background in clinical informatics, while electives allow students to specialize in areas such as data science or mobile health.

Degree Requirements:

30 credit hours including the required applied project course (BMI 593).

Required Core (15 credit hours)

BMI 601 Fundamentals of Health Informatics (3)

BMI 603 Health Informatics Database Modeling and Applications (3)

BMI 604 Health Information Communication (3)

BMI 614 Current Perspectives in Health Informatics (3)

HCD 575 Leadership and Professionalism (3)

Electives (12 credit hours)

Culminating Experience (3 credit hours)

BMI 593 Applied Project

Admission Requirements:

Applicants must fulfill the requirements of the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in a related field such as biology, computer science, medicine, nursing, pharmacy or public health, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- current resume or curriculum vitae
- two letters of recommendation
- statement of purpose
- proof of English proficiency

Additional Admission Requirements

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. A TOEFL score is required for applicants whose native language is not English.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-advanced-study-health-informatics/>)

Career Opportunities:

The degree program prepares graduates with skills for careers in a wide range of health care settings. Professionals from fields outside of health and health care can also develop the skills needed to transition into careers in this rapidly expanding field.

Career opportunities include:

- clinical analyst
- clinical application developer
- clinical informatics manager
- director of clinical informatics (medical informatics)
- director of health information management or health IT
- electronic health record application specialist
- health care data analyst
- health care informatics consultant or manager
- health care IT project manager
- health data resource manager or clinical data manager

Integrated Behavioral Health - Clinical (Certificate), Certificate (NHIBHCGRCT)

Online Degree Search Title: Integrated Behavioral Health -Clinical (Graduate Certificate)

Campus: Online

Program Description:

The integrated behavioral health clinical certificate meets the growing demand to integrate behavioral health clinicians into primary care or other traditional medical settings. This program trains students in evidence-based practice and team-based care focused on quality, population health, technology and cost effectiveness and provides a certificate which indicates training in the provision of integrated behavioral health. It is designed for clinicians who aspire to work in integrated primary care behavioral health.

The curriculum offers students a deeper understanding of models of primary care behavioral health and training on evidence-based approaches to behavioral health care, population-based health and medical literacy to ensure applicants have a working knowledge of the skills necessary for success.

The program may be completed as a stand-alone program, to supplement a student's existing clinical skills or their current practice within an integrated team-based health care setting, or to complement a student's major program of study.

Degree Requirements:

15 credit hours.

Required Core (12 credit hours)

IBC 601 Models of Integrated Primary Care (3)

IBC 603 Brief Interventions in Primary Care (3)

IBC 604 Clinical Medicine/Pathophysiology (3)

IBC 611 Population-based Behavioral Health Management (3)

Electives (3 credit hours)

Additional Curriculum Information

Students should see the academic unit for the approved course list of electives. Other coursework may be used with the approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a master's degree in a related field such as social work, counseling, family therapy, clinical psychology or nursing, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official graduate transcripts
- personal statement
- one letter of professional recommendation
- current resume or curriculum vita
- submission of licensure form and copy of license
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

All applicants are required to hold a master's degree that results in behavioral health licensure or license-eligibility. In rare cases, applicants are considered with a master's degree and licensure unrelated to their degree (e.g., applicant with a master's degree in public health and licensure as a registered dietician). Consistent with the current admissions process for the Doctor of Behavioral Health program, licensure and licensure-eligibility is determined by the student's submission of an online form that is part of the supplemental application and a copy of their board-issued license.

The requirements for the personal statement are outlined on the online application.

Attend Online:

Integrated Behavioral Health - Management (Certificate), Certificate (NHIBHMGRCT)

Online Degree Search Title: Integrated Behavioral Health - Management (Graduate Certificate)

Campus: Online

Program Description:

The integrated behavioral health management certificate meets the growing demand for health care managers of programs that integrate behavioral health into primary care or other traditional medical settings. This program trains students to manage and contain health care costs, while working to obtain a return on investment through revenue management in the various health care financial models.

Students learn to develop management strategies that address the needs of populations with evidence-based practices and team-based care that is focused on quality, leveraging technology and cost effectiveness.

The program may be completed as a stand-alone program, as supplement to a student's existing clinical skills or their current practice within an integrated team-based health care setting, or it can complement a student's major program of study.

Degree Requirements:

15 credit hours.

Required Core (12 credit hours)

IBC 601 Models of Integrated Primary Care (3)

IBC 614 Quality and Performance Measurement, Improvement and Incentives in Health Care (3)

IBC 626 Behavioral Health Management (3)

IBC 630 Financial Management of Health Care (3)

Electives (3 credit hours)

Additional Curriculum Information

Students should see the academic unit for the approved course list of electives. Other coursework may be used with the approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a master's degree, in a related field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

Integrated Health Care, MIHC (NHIHCFMIHC)

Online Degree Search Title: Integrated Health Care, MIHC

Campus: Online

ASU is not currently accepting applications for this program.

Program Description:

Graduates of the MIHC degree program are prepared to develop, implement, evaluate and sustain integrated care delivery in diverse health care settings.

Through the Master of Integrated Health Care program, students gain management-level knowledge in health care operations, financial management, quality improvement, big data analytics, evidence-based practice, interprofessional leadership, teamwork and strategic planning. Students apply their knowledge and advance their competencies through a final project. With the final project, they have the opportunity to assist an existing or emerging practice to develop or improve programs that include interprofessional team-based health care, integrated care programs, or programs that integrate medical and behavioral health care.

Degree Requirements:

30 credit hours including the required applied project course (IBC 593).

Required Core (21 credit hours)

HCD 570 Process Engineering (3)

HCD 575 Leadership and Professionalism (3)

HCD 602 Health Informatics for Future Health Care Professionals (3)

IBC 520 Integrated Health Care: The Patient-Centered Medical Home (PCMH) (3)

IBC 530 Evidence-based Integrated Health Care (3)

IBC 550 Integrated Care Business Operations (3)

IBC 570 Integrated Health Care Financial Management (3)

Electives or Research (6 credit hours)

Culminating Experience (3 credit hours)

IBC 593 Applied Project (3)

Additional Curricular Information

Students select HCI 500-level elective courses with approval from the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a minimum of a bachelor's degree in social or behavioral sciences, health, business, public health, management or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- personal statement
- official transcripts
- curriculum vitae
- letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International Health Management, MIHM (NHIHMIHM)

Online Degree Search Title: International Health Management, MIHM

Campus: Online

Program Description:

The 100% online MIHM degree is offered by Arizona State University in partnership with the University of New South Wales in Sydney, Australia.

Ideal for students seeking a career in international health systems management, this Master of International Health Management program advances the core principles of the PLuS Alliance to develop solutions to global challenges and generate social impact in health and health care. The collaborative and international nature of the program provides students access to global academic networks and industry partners.

Students in the program build knowledge necessary for leadership and management, including policy, economics, finance and development from the combined expertise of faculty at two world-renowned research universities. After courses in health care management, finance and comparative health systems, students choose an area of focus in health informatics, quality improvement in health care, health economics or hospital management.

Degree Requirements:

30 credit hours including the required capstone course (HCD 550).

Required Core (6 credit hours)

HCD 532 Health Care Management and Finance (3)

HCD 537 Comparative Health Care Systems (3)

Track Courses (12 credit hours)

Electives (9 credit hours)

Research (2 credit hours)

HCD 592 Research (2)

Culminating Experience (1 credit hour)

HCD 550 Capstone (1)

Additional Curriculum Information

Coursework taken for this program is provided through ASU and the University of New South Wales. For the specified core course, students take the equivalent of HCD 537 (PHCM 9471) at the University of New South Wales.

Students select one of the tracks as part of their curriculum. Some track courses are also listed as possible electives. In the event that an elective course is also listed as a specific track course for the track the student has selected, the student must select a different course as the elective. Students should see the academic unit for an approved list of track and elective courses.

The research requirement is taken in preparation for the capstone course. Students complete HCD 592 for one credit hour twice in consecutive terms.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's degree or equivalent or master's degree from a regionally accredited college or university in a related field such as biology, chemistry, biochemistry, nursing, public health, pharmacy, biomedical informatics, social work, premed, prehealth, nutrition, health promotion or others.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of reference
- personal statement
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Three letters of reference from either academic or professional sources are required; reference letters from friends or relatives are not accepted. Letters demonstrating involvement in health care, community service or leadership are encouraged.

A personal statement must be submitted that explains how the applicant plans to contribute to the health care system after the degree is obtained, how the program will help the applicant achieve their goals, what the applicant's career aspirations are, and what interested the applicant in this degree program.

A phone or video conference interview with the admissions committee may be required.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/international-health-management-mihm/>)

Global Opportunities:

PLuS Alliance:

The PLuS Alliance partnership combines the strengths of three leading research universities from three continents --- Arizona State University, King's College London and UNSW Sydney --- to create and share knowledge that will solve pressing educational and societal challenges.

Students have the opportunity to engage with peers and specialists across the globe through PLuS-partner courses offered online. Through this PLuS Alliance collaborative degree program, students develop transferable global competencies and gain exposure to international teaching and

academic content. <https://www.plusalliance.org/global-learning-network-programmes> (<https://www.plusalliance.org/global-learning-network-programmes>)

Career Opportunities:

Major sites of employment for graduates include hospital systems, nursing homes and similar facilities, and outpatient clinics. There is a significant growth market for graduates with skills in international health management given the aging populations and the need for a health care workforce competent in informatics, leadership and finance.

Medical Nutrition, MS (NHMNTSMS)

Online Degree Search Title: Medical Nutrition, MS

Campus: Online

Program Description:

This MS program in medical nutrition is for current and future health care professionals, including gap-year students; those who have completed their bachelor's degree but have not yet secured admission to medical, veterinary, dental, osteopathic, physician assistant or similar schools; and for current medical students, residents, fellows and practitioners in the aforementioned fields who seek to develop a strong knowledge base in the nutritional sciences and its application in the health care field.

Graduate students in the medical nutrition program learn the role of nutrition in health maintenance, the treatment of disease and disease prevention. Coursework and culminating experiences provide an overview of the components of therapeutic diets and the role of qualified health care providers in diet prescription. Students also learn about nutrition guidelines and supplements as well as functional food usage for optimal health.

The program emphasizes self-directed learning with immersion in current nutrition research, and students develop foundational knowledge of nutritional assessment techniques used by health care providers in clinical practice. Proficiency in reading and interpreting nutrition research is another key program goal, and ensures graduates are well versed in the importance of making recommendations grounded in evidence-based practice.

Degree Requirements:

30 credit hours including an applied project course (NTR 593).

Required Core (21 credit hours)

NTR 502 Statistics in Research (3)

NTR 510 Food and Nutrition Across the Lifespan (3)

NTR 511 Medical Nutrition in the Care and Prevention of Disease (3)

NTR 524 Chronic Inflammation and Metabolic Syndrome: The Common Pathway for Cardiovascular Disease, Diabetes (3)

NTR 525 Complementary Nutrition (3)

NTR 533 Ethics and Policy of American Diets (3)

NTR 535 Nutrigenomics (3)

Other Requirement (3 credit hours)

NTR 500 Research Methods (3)

Culminating Experience (6 credit hours)

NTR 593 Applied Project (6)

Additional Curriculum Information

Other requirement coursework may be substituted with the approval of the student's graduate committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. A previous bachelor's or master's degree in nutrition, public health, biology, chemistry or related field is preferred.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- one page personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The letters of recommendation should be from previous instructors or professors.

Nutritional Science, MS (ECHNUTMS)

Online Degree Search Title: Nutritional Science, MS

Campus: Downtown Phoenix

Program Description:

Nutritional science marks the intersection of food, biology, chemistry, microbiology, sociology and more, centered on topics and challenges that affect everyday health and well-being.

The MS program in nutritional science prepares students to translate nutrition science into practical use for human health and wellness. Students immerse themselves in the latest nutrition topics and research partnered with accomplished faculty, developing practical understanding through internship experiences and their own guided research. Building on the scientific foundations of human nutrition, students learn strong writing and problem-solving skills, grow computer literacy, and increase interpretive expertise. Students are afforded nutrition research experiences grounded in the latest science that can match their own interests and goals.

Students who have completed an accredited Didactic Program in Dietetics may also elect to apply to the ASU dietetic internship in order to meet the requirements to become a registered dietitian nutritionist: <https://chs.asu.edu/students/internships/dietetic-internship> (<https://chs.asu.edu/students/internships/dietetic-internship>). More information is available at <https://chs.asu.edu/programs/nutrition-dietetics/how-become-registered-dietitian> (<https://chs.asu.edu/programs/nutrition-dietetics/how-become-registered-dietitian>).

A sports nutrition track provides an option for students to select specialized courses in sports nutrition and exercise science and obtain hands-on training and research with sports dietitians and nutrition faculty who are experts in the field. Students in this track complete the same core nutrition graduate courses but take track-specific classes and electives that focus on sports nutrition, hydration, exercise physiology and other vital parts of the discipline. The culminating experience research is under the guidance of sports nutrition professors in the College of Health Solutions.

The maternal-child health track provides an option for students to select specialized courses in maternal-child health and obtain hands-on training with the nutrition and other faculty who work on nutrition-related health behaviors and outcomes across campus. Students in this track will complete the same core nutrition graduate courses but will take track courses and electives that focus on maternal-child health competencies, including policy and advocacy, leadership development, communication and ethics. They will complete their required research under the guidance of one of several faculty conducting nutrition-related maternal and child health research. Competitive funding may be available through the TRANSCEND program for students in the maternal-child health track: <https://transcendprogram.weebly.com/> (<https://transcendprogram.weebly.com/>)

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Dietetics, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours and a thesis - Maternal Child Health Track, or 30 credit hours and a thesis - Sports Nutrition Track, or 30 credit hours including the required applied project course (NTR 593).

Required Core (3 credit hours)

EXW 501 Research Statistics (3) or

NTR 502 Statistics in Research (3)

Restricted Electives (9 or 12 credit hours)

NTR 501 Research Methods in Nutrition (3)

NTR 503 Designing Health Behavior Change Interventions (3)

NTR 524 Chronic Inflammation and Metabolic Syndrome: The Common Pathway for Cardiovascular Disease, Diabetes (3)

NTR 525 Complementary Nutrition (3)

NTR 527 Policies, Environment and Obesity Prevention (3)

NTR 529 Pediatric Nutrition (3)

NTR 532 Endocrine Pathophysiology and Nutrition (3)

NTR 533 Ethics and Policy of American Diets (3)

NTR 535 Nutrigenomics (3)

NTR 537 Evidence-based Nutrition (3)

NTR 551 Geriatric Nutrition (3)

NTR 553 Nutrition and Cardiovascular Disease (3)

NTR 555 Nutrition and the Athlete (3)

NTR 557 Nutritional Epidemiology (3)

NTR 598 Special Topics (3)

Open Electives or Required Track Courses (6 or 9 credit hours)

Research (3 credit hours)

NTR 500 Research Methods (3)

Culminating Experience (6 credit hours)

NTR 593 Applied Project (6) or

NTR 599 Thesis (6)

Additional Curriculum Information

Students choose three courses from the restricted electives list for a total of nine credit hours without a track. Students in the sports nutrition and maternal child health tracks complete specific course requirements for the track and complete 12 credit hours for restricted electives. Other courses may be used with approval of the academic unit. Students should consult with the program advisor.

One research methods course is required.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree (nutrition or science is recommended) from a regionally accredited institution. Students who are pursuing the Master of Science in nutritional science need to complete the following prerequisites: anatomy and physiology, biochemistry, general chemistry with lab, general nutrition for majors, microbiology, organic chemistry with lab, and statistics.

These courses are part of the ASU didactic program in dietetics required for ASU's BS degree in dietetics and to be eligible to apply for admission into an accredited dietetic internship to become a registered dietitian. If an applicant has completed a didactic program in dietetics from another university, these prerequisites are considered complete. Prerequisite courses can be in progress when the student submits the application; however, if the student is accepted into the Master of Science degree program, all prerequisites must be completed before the program begins in the fall semester.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A" in an applicable master's degree program).

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume
- personal statement
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

A resume that summarizes the academic, research, volunteer and employment experiences of the applicant needs to be submitted with the graduate admission application.

A personal statement that includes the following must be submitted with the graduate admission application:

- a description of the applicant's significant professional responsibilities
- the applicant's professional goals and the reasons for the desire to enroll in ASU's program
- the applicant's strengths that will allow the applicant success in the program and in reaching professional goals
- the applicant's personal research interests, described as specifically as possible and including any previous research experience, along with indication of any interest in being considered for the optional track in sports nutrition or maternal child health

Three letters of recommendation are required, including at least one from an instructor at the applicant's undergraduate school. Letters of recommendation can be submitted with the graduate admission online application.

Finalists for admission are interviewed.

Career Opportunities:

Nutritional science applies the principles of food and nutrition to health. It's a vital, growing profession with many career possibilities. In this field, graduates share their knowledge of food and nutrition to help people make healthful food choices. Graduates have gone on to become registered dietitian nutritionists, to pursue doctorates, or to apply to medical and professional school to become medical doctors, physician assistants, pharmacists and dentists, among other fields.

Settings in which food and nutrition careers can be found include:

- community and public health organizations
- corporations
- food manufacturing industries
- government agencies
- hospitals and other medical facilities
- long-term care facilities
- nonprofit organizations
- schools

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in

Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Nutritional Science (Dietetics), MS (ECNTRDMS)

Online Degree Search Title: Nutritional Science (Dietetics), MS

Campus: Online

Program Description:

The MS program in nutritional science with a concentration in dietetics is a nonthesis option for registered dietitian nutritionists and those with a verification statement from a didactic program in dietetics who are seeking to continue their education and advance their skills as practitioners.

The program emphasizes the scientific foundations of nutrition and prepares students to have interpretive expertise, problem-solving skills, strong writing skills and computer literacy.

Designed with working professionals and students' learning preferences in mind, the program is completely online and can be completed either full time or part time. It is an ideal option for busy schedules with multiple start dates each year and course lengths of 7.5 weeks. Up to 12 credit hours can be transferred from another accredited program with the approval of the program director.

Degree Requirements:

30 credit hours including the required applied project course (NTR 593).

Required Core (3 credit hours)

EXW 501 Research Statistics (3) or

NTR 502 Statistics in Research (3)

Concentration (9 credit hours)

NTR 501 Research Methods in Nutrition (3)

NTR 503 Designing Health Behavior Change Interventions (3)

NTR 524 Chronic Inflammation and Metabolic Syndrome: The Common Pathway for Cardiovascular Disease, Diabetes (3)

NTR 525 Complementary Nutrition (3)

NTR 529 Pediatric Nutrition (3)

NTR 533 Ethics and Policy of American Diets (3)

NTR 535 Nutrigenomics (3)

NTR 537 Evidence-based Nutrition (3)

NTR 551 Geriatric Nutrition (3)

NTR 555 Nutrition and the Athlete (3)

NTR 598 Special Topics (3)

Research (3 credit hours)

NTR 500 Research Methods (3)

Open Electives (9 credit hours)

Culminating Experience (6 credit hours)

NTR 593 Applied Project (6)

Additional Curriculum Information

For concentration coursework, students choose three courses from the list above for a total of nine credit hours.

One research methods course is required. NTR 500 may be substituted with approval from the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants must be either a Registered Dietitian Nutritionist (RDN) or have completed a Didactic Program in Dietetics (DPD)-accredited program, and will provide either a copy of the RDN credential or the DPD Verification Statement with their application.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of Registered Dietitian status or DPD verification statement
- resume
- personal statement
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants with RDN certification need to submit proof of registered dietitian status by accessing the Commission on Dietetic Registration's website (<https://www.cdrnet.org> (<https://www.cdrnet.org>)) and complete the verification process using the online credential verification search. Applicants who completed a Didactic Program in a Dietetics-accredited program, need to provide a DPD Verification Statement with their application.

A resume is required that summarizes the applicant's academic, volunteer and employment experiences.

Also required is a one- to two-page, typed, double-spaced personal statement addressing the following: significant professional responsibilities the applicant has held; professional goals and reasons for desiring to enroll in this program; strengths that will help the applicant succeed in this program and in reaching their professional goals; and personal interests in research, including, if applicable, studies involving the practice of dietetics.

Two letters of recommendation are to be submitted with the application, including at least one from an employer or work supervisor.

A foreign language examination is not required for this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-nutritional-science-dietetics/>)

Career Opportunities:

Nutritional science is a vital, growing profession with many career possibilities. In this field, graduates share their knowledge of food and nutrition to help people make healthful food choices.

Obesity Prevention and Management, MS (NHOBSMS)

Online Degree Search Title: Obesity Prevention and Management, MS

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Program Description:

The MS in obesity prevention and management is an innovative degree program that draws on a wide array of expertise at ASU. The curriculum is designed to integrate perspectives from the social, applied, life and health sciences and provides advanced, graduate-level, problem-focused, experiential training that is grounded in evidence and best practices for effective prevention and management of obesity.

This degree program is geared toward postbaccalaureate students and professionals who wish to advance their understanding of the social, cultural, environmental, health and psychological issues associated with obesity. The program emphasizes the complex etiology of obesity and includes courses that will enhance students' ability to work with individuals and populations at risk of obesity to develop effective strategies for prevention and management of the condition across the lifespan.

Degree Requirements:

30 credit hours including a thesis, or 30 credit hours including an applied project (OBS 593).

Required Core (3 credit hours)

OBS 501 Obesity Prevention and Management: An Introduction (3)

Electives (21 credit hours)

Culminating Experience (6 credit hours)

OBS 593 Applied Project (6) or

OBS 599 Thesis (6)

Additional Curriculum Information

Students choose one three-credit hour elective course from each of the following categories: concepts in behavior change, research methods and statistics.

Additional elective course selections depends upon the student's chosen track. Students select six credit hours from prescribed categories for each track and six credits from the following categories: cultural aspects of behavior change, general track, public health approaches for behavior change, and technological approaches for behavior change.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's (or equivalent) or master's degree in social or health science-related fields from a regionally accredited institution. The following entry-level competencies are needed for admission to the program: Students should have completed undergraduate-level coursework in statistics and psychology and, ideally, have completed one or more courses in nutrition, physiology and chemistry.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit

- graduate admission application and application fee
- official transcripts
- GRE scores (verbal, quantitative and analytical)
- statement of educational and career goals
- writing sample
- letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students who have an undergraduate GPA of 3.25 or higher in the last 60 hours of their undergrad program may have the GRE requirement waived with approval of the academic unit.

Foreign language examinations are not required for admittance to the program.

Writing sample: A two- to three-page application letter is required in which applicants explain why they want to pursue this degree and why they feel well-prepared to succeed in this graduate program.

Physical Activity and Health, MS (ECEXERMS)

Online Degree Search Title: Physical Activity and Health, MS

Campus: Downtown Phoenix

Program Description:

The MS program in physical activity and health offers an opportunity for advanced training in exercise science, physical activity and aging, or physical activity and health promotion alongside faculty who are immersed in the latest research.

This program prepares students to translate and apply evidence-based exercise science, fitness and lifestyle behavior change approaches to improve health and well-being and prevent chronic disease across the lifespan.

Students in the program develop competencies in research design, statistical methods and the ethical conduct of research studies. They have the opportunity to conduct a mentored research project as part of a thesis, if desired. They also learn to apply theoretical models of behavior change for the development and implementation of interventions to facilitate the adoption and maintenance of physical activity and other health and wellness behaviors. Students develop and demonstrate their knowledge of the causes, risks factors and impact of exercise, physical activity and fitness on the disease process in cardiovascular disease, Type 2 diabetes, metabolic syndrome, cancer, musculoskeletal health and functional fitness through a critical examination of epidemiological research and exercise intervention studies.

The skills and knowledge acquired during the course of training enables each student to develop professional competencies that can be applied to significant problems and issues within the fields of exercise science and health promotion.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Clinical Exercise Science, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

32 credit hours and a thesis, or 32 credit hours and a written comprehensive exam, or 32 credit hours and an applied project (EXW 593).

Required Core (9 credit hours)

EXW 501 Research Statistics (3)

EXW 536 Physiological Aspects of Physical Activity and Chronic Disease (3)

EXW 542 Health Promotion (3)

Research (5 credit hours)

EXW 500 Research Methods (3)

EXW 591 Exercise and Wellness Seminar (2)

Electives (12-18 credit hours)

Culminating Experience (0-6 credit hours)

EXW 599 Thesis (6) or

EXW 593 Applied Project (6) or
written comprehensive exam (0)

Additional Curriculum Information

All students must focus their plan of study in one of three areas: exercise science, physical activity and aging , or physical activity and health promotion. The focus determines the choice of electives available to students. For a list of approved elective courses, students should contact their academic unit.

Exercise science --- This is focused study in areas such as advanced exercise physiology, muscle physiology, fuel metabolism, exercise endocrinology, advanced exercise testing and prescription, physiology of physical activity and chronic disease, biomechanics and motor control. This focus area is a good option for students who are interested in pursuing further graduate study in the area of exercise science and chronic disease prevention and management.

Physical Activity and Aging --- This is focused study in areas such as advanced exercise physiology, advanced exercise testing and prescription, physiology of physical activity and chronic disease, physical activity and aging, biomechanics and motor control. This focus area is a good option for students who are interested in pursuing careers in gerontology, working with older adults in the fitness industry, or students who may be pursuing further graduate study in applied exercise science, physical therapy or the medical fields.

Physical activity and health promotion --- This is focused study in areas such as health promotion program planning; implementation and evaluation; physical activity policy in public health; health behavior change theory; motivational interviewing; physiology of physical activity and chronic disease; exercise for obesity; aging and sleep; and the role of mindfulness in stress, health and health behavior. This focus area is a good option for students who are interested in pursuing careers in health promotion, corporate wellness or public health and who may be pursuing further graduate study in health promotion or public health.

All students are admitted to the nonthesis option but may apply to the thesis option.

The nonthesis option requires an applied project or a written comprehensive exam as the culminating experience. The nonthesis option is an appropriate choice for those students who cannot devote full-time to their research endeavors or for students who are seeking to continue their education, advance their skill level as practitioners or advance their current careers. Students who take the written comprehensive exam are required to take six additional elective courses in the focus area.

In the thesis option, the thesis is considered the final integrative experience of the degree; it involves conducting research that is guided by a recognized research paradigm (e.g., scientific, interpretive) and producing a scholarly report of the process and results. The thesis option is a good choice for students who are interested in pursuing more advanced graduate study in the field.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited institution. Students are expected to have the coursework and undergraduate credit for the basic courses required for a BS degree in exercise and wellness. Students who do not have these course competencies can be admitted with deficiencies. Deficiencies are determined upon admission, and these courses must be completed, usually by the end of the first year of study. These courses are not considered part of the graduate plan of study. A graduate course may be substituted for a deficiency but will be evaluated on a case-by-case basis.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- statement of career or research interests
- three professional letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must submit proof of English proficiency regardless of current residency.

BIO 201 and BIO 202 must be completed prior to admission to the master's degree program. Other deficiency courses may be taken prior to or during the master's degree program. The corresponding ASU course can be found in parentheses:

Human Anatomy and Laboratory (BIO 201 Human Anatomy and Physiology I)

Human Physiology and Laboratory (BIO 202 Human Anatomy and Physiology II)

Human Nutrition (NTR 241 Human Nutrition)

Exercise Physiology and Laboratory (SSP 315 Exercise and Sport Physiology)

Kinesiology and Laboratory (EXW 330 Kinesiological Foundations of Movement)
Exercise Testing and Laboratory (EXW 420 Exercise Testing)
Exercise Prescription (EXW 425 Exercise Prescription for Health and Wellness)

An undergraduate course in statistics is strongly recommended.

Students should see the program website for application deadlines.

Career Opportunities:

Professionals with expertise in exercise science and chronic disease prevention, physical activity and health promotion, wellness, or exercise across the lifespan are in demand across sectors and industries including commercial fitness and wellness centers, health care systems, corporate fitness and wellness programs, research settings and public health.

Career examples include:

- corporate fitness coordinator or director
- exercise physiologist
- fitness and wellness coordinator
- fitness trainer or aerobics instructor
- health promotion specialist or health educator
- personal trainer
- research coordinator

Population Health, PHD (NHPOPHLPHD)

Online Degree Search Title: Population Health, PhD

Campus: Downtown Phoenix

Program Description:

The PhD program in population health brings together multiple disciplines, illustrating the complex factors that affect the health and well-being of populations. The program addresses the interaction between health systems and other sectors of society, sectors that include the private sector; government; nonprofit, and nongovernmental organizations; media; and academia that work together to affect population health outcomes.

Required courses reinforce a strong repertoire of systems science, quantitative and qualitative research methods, epidemiology and biostatistics, and ethics. The practicum offers an applied experience and the dissertation requires novel research on population health.

Students personalize their program of study by completing courses from one of four tracks: health equity, complex adaptive systems, urban environments for health or dissemination and implementation science.

The health equity track trains doctoral students to conduct empathetic research, incorporating the lived experience of populations vulnerable for health disparities into applied research. Students use an asset-based approach to collaborate with populations to improve health outcomes to address social determinants of health.

In the complex adaptive systems track, students learn about theory, principles, models and techniques used to analyze complex systems and data as applied to population health.

Exacerbated by population growth and climate change, city-dwelling populations are experiencing health challenges such as new and reemerging infectious diseases, noncommunicable diseases, unhealthy diets, physical inactivity, obesity, poor water quality and injuries from road trauma. The track on urban environments for health prepares students to meet those challenges from an evidence-based and transdisciplinary environmental perspective.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation, or 84 credit hours, a written comprehensive exam, a prospectus and a dissertation - Dissemination and Implementation Science Track.

Required Core (15 credit hours)

BMI 515 Applied Biostatistics in Medicine and Informatics (3)
EXW 645 Advanced Applied Methods and Data Analysis (3)
NUR 608 Qualitative Research Design and Methods (3)
POP 605 Population Health Systems Science and Theory (3)
POP 633 Population Health Ethics (3)

Track (15 credit hours)

Electives (30 credit hours)

Research (6 credit hours)

EXW 700 Research Methods (3)
EXW 701 Advanced Research Methods (3)

Other Requirement (6 credit hours)

POP 591 Seminar: Evaluating the Population Health Literature (3)
POP 780 Population Health Practicum (3)

Culminating Experience (12 credit hours)

POP 799 Dissertation (12)

Additional Curriculum Information

Students select from tracks in health equity, complex adaptive systems, urban environments for health or dissemination and implementation science.

Other requirement course POP 591 Seminar may be substituted with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or a master's degree in any field from a regionally accredited institution. Preference is given to applicants who completed a data-based research thesis during their master's degree program.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- three letters of recommendation
- professional resume
- writing sample (six to 10 pages)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants must submit a TOEFL score unless the requirements for an exception have been met. Details are available at:

<https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

An oral interview with program faculty is required prior to acceptance; the interview may be in person or by videoconference.

The personal statement should indicate research or scholarly interest, primary program area, statement of career goals and the name of a potential faculty mentor from the list of approved faculty mentors.

All applicants must have passed a graduate-level epidemiology course (e.g., EXW 642 Exercise Epidemiology, NTR 557 Nutritional Epidemiology, POP 598 Topic: Epidemiology) and a graduate-level research statistics course (e.g., EXW 501 Research Statistics or NTR 502 Statistics in Research) prior to admission, or if not completed prior to admission, must be completed prior to matriculating.

GRE scores (verbal, quantitative and writing) are not required but are encouraged.

It is expected that students admitted to the program have documented academic training and a strong interest in public health, health care or population health. Thus, depending on the student's academic training, background, scholarly interests and focus area, a student may be asked to take course deficiencies prior to or concurrently with graduate course enrollment.

Career Opportunities:

Graduates of this interdisciplinary program are prepared to become:

- executives or analysts in the private industry such as medical device, biotechnology, health IT startups, health insurance or health care delivery organizations
- faculty at research-intensive universities in schools of population health, public health, medicine or health sciences
- leaders and directors of health in local, state and federal government agencies
- program directors and officers for global health organizations such as World Health Organization or the World Bank
- program directors and officers of local and national non-governmental foundations such as the American Cancer Society or American Diabetes Association
- research or policy analysts at federal health agencies such as the National Institutes of Health or Centers for Disease Control and Prevention.

Students are strongly encouraged to pursue postdoctoral research opportunities upon graduation.

Career examples include:

- entrepreneur
- epidemiologist
- global health professional
- health information manager or director
- health scientist
- population health analyst or manager
- postsecondary public health teacher
- professor
- public health consultant or policy advisor
- research scientist

Science of Health Care Delivery, MS (NHSKCDMS)

Online Degree Search Title: Science of Health Care Delivery, MS

Campus: Downtown Phoenix, Online

Program Description:

The MS program in science of health care delivery focuses on the study and design of systems, processes, leadership and management approaches used to optimize health care delivery and health for all. This degree program is for individuals interested in a career in the health care industry. It provides students with the knowledge and competencies they will need for contributing in a patient-centered, safe and cost-effective health care system.

The curriculum is centered on achieving high-value care through leadership, population health, informatics, systems engineering, health care management, and health economics and policy. Students learn Lean Six Sigma principles and apply them to health care delivery issues.

The program challenges students to work on innovative solutions to improve the U.S. health care system by simultaneously improving the health of the population, enhancing the patient experience and reducing per capita cost of care. Students apply concepts through case studies and team-based projects to facilitate integration of knowledge and competencies. Participating students work in a cohort through the program and are able to complete the degree in nine months (one academic year). Students are paired with leading health care delivery organizations to complete an applied capstone project during the program.

Degree Requirements:

30 credit hours including the required capstone course (HCD 550).

Required Core (24 credit hours)

HCD 501 Biostatistics and Data Management (3)

HCD 502 Health Care Systems and Design (3)

HCD 511 Health Economics, Policy, and Payment Models (3)

HCD 520 Population Health (3)

HCD 532 Health Care Management and Finance (3)

HCD 570 Process Engineering (3)

HCD 575 Leadership and Professionalism (3)

HCD 602 Health Informatics for Future Health Care Professionals (3)

Electives (3 credit hours)

Research (2 credit hours)

HCD 592 Research: Part One (1)

HCD 592 Research: Part Two (1)

Culminating Experience (1 credit hour)

HCD 550 Capstone (1)

Additional Curriculum Information

Elective coursework must be HCD 500 level courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited college or university of recognized standing in a related field such as biology, chemistry, biochemistry, nursing, public health, pharmacy, biomedical informatics, social work, premed, prehealth, nutrition, health promotion or others.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of reference
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Three letters of reference from either academic or professional sources are required; reference letters from friends or relatives are not accepted. Letters demonstrating involvement in health care, community service or leadership are encouraged.

A personal statement must be submitted that explains how the applicant plans to contribute to the health care system after the degree is obtained, how the program will help the applicant achieve the applicant's goals, what the applicant's career aspirations are, and what interested the applicant in this degree program.

A phone or video conference interview with the admissions committee may be required.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-science-health-care-delivery/>)

Career Opportunities:

Professionals with knowledge about innovations and improvements for health care delivery are in demand across the health care industry. The flexible program is also ideal for gap-year students who are pursuing entrance to medical and professional school prior to intended careers in health and health care.

Career examples for program graduates include:

- health care providers
- hospital administrators
- policy experts
- program managers

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Science of Health Care Delivery (Certificate), Certificate (NHHCDGRCT)

Online Degree Search Title: Science of Health Care Delivery (Graduate Certificate)

Campus: Online

Program Description:

The online, self-paced certificate program in science of health care delivery provides students a foundation in the science of health care delivery enabling them to address the current and future needs of the workforce in the health care industry.

Students can choose from multiple start dates and three tracks: leadership, quality and process improvement, and clinical informatics. All 15 credit hours of the graduate certificate program may be applied to the MS in science of health care delivery program for students interested in furthering their knowledge of this field.

Degree Requirements:

15 credit hours.

Required Core (9 credit hours)

HCD 502 Health Care Systems and Design (3)

HCD 511 Health Economics, Policy and Payment Models (3)

HCD 520 Population Health (3)

Track (6 credit hours)

Additional Curriculum Information

Students select one of the following tracks: quality and process improvement, clinical informatics, and leadership.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. The following disciplines are preferred: business or law (health care and business administration, economics, finance or law), engineering (biomedical engineering), general science (biology or physiology), health-related field (nursing, health policy or public health), or math or computer science (statistics or computer science).

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- evidence of work experience

- proof of English language proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

More than two years of work experience in a health-related field is preferred.

Applicants must have basic competencies in college-level math, general biology (or physiology) and statistics. Course equivalencies include:

BIO 181 General Biology I

BIO 182 General Biology II

HCD 300 Biostatistics

MAT 117 College Algebra

or other coursework, with approval of the academic unit

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-science-health-care-delivery/>)

Career Opportunities:

This innovative certificate program teaches skills and knowledge relevant for C-suite executives and administrators, health care providers (physicians, physician assistants, nurse practitioners and nurses), front line staff (respiratory therapists, occupational therapists, physical therapists and dietitians) and students in health-related disciplines.

Speech and Hearing Science, PHD (LAHEARPHD)

Online Degree Search Title: Speech and Hearing Science, PhD

Campus: Tempe

Program Description:

The interdisciplinary PhD program in speech and hearing science prepares scholars for careers in basic and applied research in academic, industrial or health care environments.

Students pursue an individualized program with the unifying theme of human communication and disorders. Courses tailored to students' specific interests are taken from a variety of departments. In addition to a self-designed program of study, concentrations are offered in auditory and language neuroscience and in translational genetics of communication abilities. Students should visit the department website for further details about these options.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (2 credit hours)

SHS 701 Scientific Writing and Presentation in Communication Sciences and Disorders I (1)

SHS 702 Scientific Writing and Presentation in Communication Sciences and Disorders II (1)

Culminating Experience (12 credit hours)

SHS 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, 28 credit hours from a previously awarded master's degree are allowed to be used for the degree.

Students complete content area coursework within speech and hearing science and other disciplines that can be tailored to the student's research

interests. A student completes their plan of study under the guidance of their faculty mentor and program committee. A formal research experience during the first three semesters of the program provides students with a jumpstart into research, preparing the student for their subsequent dissertation research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in a related field and do not wish to earn a clinical master's degree, or if they have earned a master's degree or equivalent in speech and hearing science, psychology, linguistics, or a related discipline from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of undergraduate and graduate study
- application cover letter and personal statement
- three letters of recommendation
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. International applicants are welcome to apply for the program, which has a strong record of training international students. For all applicants of graduate programs at ASU, English proficiency is a requirement. There are several different avenues to demonstrate English proficiency, including through previous academic experiences in English, standardized tests, or through online courses. Students should refer to ASU's Graduate College English proficiency requirements for more details about English proficiency requirements.

Professional letters of recommendation should be from three individuals who can speak to one or more of the following: academic performance, clinical performance, or potential to succeed in a research-intensive doctoral program. The letter writers are typically faculty, clinical or research supervisors. If the applicant has spent some time away from research or academia, it is still recommended to have some letters from those experiences, in addition to a more recent clinical or research supervisor.

In addition to uploading a letter of recommendation, letter writers are asked to rate the applicant on the following:

- academic performance
- analytical skills
- creativity and originality
- emotional maturity
- honesty and integrity
- intellectual potential
- mathematical and statistical skills
- motivation to complete a PhD
- oral communication skills
- promise as a researcher in the discipline
- working with others
- written communication skills.

Letter writers also are asked to respond to the following short answer questions or prompts:

- What is the context in which you have known the applicant?
- Describe instances where you have seen this person go above and beyond?
- Do you have any reservations about this applicant? If yes, what are they?
- Describe an instance where you have seen the applicant demonstrate technical, analytical or problem-solving skills.
- Would you admit this applicant to our PhD program? Why or why not?
- Please provide any additional comments regarding the applicant's potential.

The personal statement, typically one or two double-spaced pages, should address the student's motivation to pursue a PhD with a specific faculty mentor in the program and include evidence of potential to succeed in a research-intensive doctoral program and goals for the future. Examples of evidence of potential to succeed include technical skills, clinical experiences, and research achievements and interests.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Develop curriculum and instruct in key knowledge areas in their particular area of expertise within Speech and Hearing Science.
- Engage with scholars in academic and professional settings.
- Master the key concepts related to research in the field at an advanced level.

Career Opportunities:

Doctoral-level scientists in the field of speech and hearing science are well situated to pursue positions in which they can lead independent research programs, such as a university professor or research scientist in the private or public sectors. There is a particular need for doctorate-level scientists with speech-language pathology or audiology backgrounds in tenure-track academic positions.

Career examples include:

- lecturer
- professor
- program officer at a nonprofit or government agency
- research analyst
- research scientist

Speech and Hearing Science (Auditory and Language Neuroscience), PHD (NHSALPHD)

Online Degree Search Title: Speech and Hearing Science (Auditory and Language Neuroscience), PhD

Campus: Tempe

Program Description:

The auditory and language neuroscience concentration within the PhD program in speech and hearing science trains scholars in basic and applied research in the fields of auditory and language neuroscience. Students develop a strong foundation from which to conduct impactful neuroscience research related to healthy auditory and language abilities as well as the neural bases of communication disorders.

This program's expert faculty are in a unique position to provide this integrated training experience because of the program's focus on innovative approaches to the field of speech, language and hearing science. Faculty backgrounds include engineering, neuroscience and psychology in addition to expertise in speech-language pathology and auditory neural prosthetics.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (2 credit hours)

SHS 701 Scientific Writing and Presentation in Communication Sciences and Disorders I (1)

SHS 702 Scientific Writing and Presentation in Communication Sciences and Disorders II (1)

Concentration (12 credit hours)

Research (21 credit hours)

SHS 792 Research (12)

research methods and statistics (9)

Electives or Additional Research (28 credit hours)

Other Requirements (9 credit hours)

professional seminars (9)

preliminary exam (0)

comprehensive exams (0)

Culminating Experience (12 credit hours)
SHS 799 Dissertation (12)

Additional Curriculum Information

The concentration courses focus on issues related to auditory and language neuroscience. These credit hours may be accomplished in regular graduate-level (500+) courses or in special topic seminars and independent studies. The student's program committee guides selection of these courses, which may be focused on a broad base of areas related to auditory and language neuroscience.

Students complete nine credit hours of SHS 790 Reading and Conference or similar courses, such as CHS 791 and GRD 791 seminars. Students should see the academic unit for approved concentration courses, professional seminars, research and electives. Other research, seminar and elective courses may be used with approval of the academic unit.

The preliminary exam research project is to be in the field of auditory or language neuroscience, or in both. Each student gives a formal presentation of their prospectus to their program committee. The defense for the preliminary exam research project includes a written document of the research project and an oral defense. This formal research experience during the first three semesters of the program provides students with a jumpstart into research, preparing the student for their subsequent dissertation research.

The comprehensive exams entail a written examination and an oral examination. The written exam takes one of the following formats: students write responses to questions posed by each committee member or students complete a written paper for each member of the committee.

For the proposed concentration, at least two of the three questions, or topics for the written papers, posed by the committee members must be focused in the area of auditory or language neuroscience, or in both. The comprehensive examination committee evaluates the written paper and the oral defense during a closed meeting with the student.

When approved by the student's supervisory committee and the Graduate College, this program allows 28 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 28 credit hours of coursework is to be made up of electives and research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in a related field and do not wish to earn a clinical master's degree, or if they have earned a master's degree or equivalent in speech and hearing science, psychology, linguistics, or a related discipline from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of undergraduate and graduate study
- application cover letter and personal statement
- three letters of recommendation
- resume or curriculum vitae
- proof of English proficiency

Speech and Hearing Science (Translational Genetics of Communication Abilities), PHD (NHSSTGPHD)

Online Degree Search Title: Speech and Hearing Science (Translational Genetics of Communication Abilities), PhD

Campus: Tempe

Program Description:

The translational genetics of communication abilities concentration within the PhD program in speech and hearing science provides doctoral students with training in an innovative approach to the clinical sciences, pioneered at ASU, in which the concepts of precision medicine are applied to all disciplines within communication sciences and disorders. Training in molecular genetics and bioinformatics equips students to investigate the

interactions among genetic, brain-based and behavioral traits. Prior training in genetics is not required.

Knowledge of genotype-phenotype associations provides the foundation for the translational components of this program: early identification and intervention, individualized management and interprofessional approaches. Students have the option of focusing primarily on basic sciences aspects, on clinical translations, or both.

This program leverages strong research and clinical expertise at ASU's College of Health Solutions across clinical linguistics and its expertise in the biosciences and translational clinical sciences. Collaborating units at ASU include the Biodesign Institute, the School of Life Sciences and the College of Health Solutions, as well as many subspecialties such as bioinformatics, the Department of Psychology and many others.

Upon completion of this doctoral concentration, graduates have the skills to discover and understand networks of genotype-phenotype associations and to contribute to more effective clinical management of communication disorders using preventative, targeted and interprofessional methods.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (2 credit hours)

SHS 701 Scientific Writing and Presentation in Communication Sciences and Disorders I (1)

SHS 702 Scientific Writing and Presentation in Communication Sciences and Disorders II (1)

Concentration (12 credit hours)

Research (21 credit hours)

SHS 792 Research (12)

research methods and statistics (9)

Electives or Additional Research (28 credit hours)

Other Requirements (9 credit hours)

professional seminars (9)

preliminary exam (0)

comprehensive exams (0)

Culminating Experience (12 credit hours)

SHS 799 Dissertation (12)

Additional Curriculum Information

The concentration courses focus on issues related to translational genetics. These credit hours may be accomplished in regular graduate-level courses (500-level and higher) or in special topic seminars and independent studies. The student's program committee guides selection of these courses, which may be focused on a broad base of areas related to translational genetics. All doctoral graduates with this concentration are required to have foundational knowledge in genetics.

Students complete nine credit hours of SHS 790 Reading and Conference or other similar courses, such as CHS 791 and GRD 791 seminars. Students should see the academic unit for approved concentration courses, professional seminars, research and electives. Other research, seminar and elective courses may be used with approval of the academic unit.

The preliminary exam research project is to be within the field of translational genetics of communication abilities. Each student gives a formal presentation of their prospectus to their program committee. The defense for the preliminary exam research project includes a written document of the research project and an oral defense. This formal research experience during the first three semesters of the program provides students with a jumpstart into research, preparing the student for their subsequent dissertation research.

Prior to commencing dissertation research, the student must pass a comprehensive written examination covering their field of study, which must be orally defended.

When approved by the student's supervisory committee and the Graduate College, this program allows 28 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 28 hours of coursework is to be made up of electives and research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in a related field and do not wish to earn a clinical master's

degree, or if they have earned a master's degree or equivalent in speech and hearing science, psychology, linguistics or a related discipline from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- application cover letter and personal statement
- three letters of recommendation
- resume or curriculum vitae
- proof of English proficiency

Strength and Conditioning, MS (NHSTRCDMS)

Online Degree Search Title: Strength and Conditioning, MS

Campus: Downtown Phoenix

Program Description:

The MS program in strength and conditioning focuses on specialized knowledge of human physiology and movement mechanics to optimize the physical abilities of active groups, including athletic and tactical populations, and to prevent injury-related problems.

Required courses address advances in health and performance monitoring, how to design successful exercise and recovery programs for maximum physical performance, and coaching strategies that motivate increased individual effort in sport or work. Students gain practical experience that hones their coaching skills and refines their abilities to motivate individuals to achieve the increased workloads that are necessary for performance improvement.

This program prepares students to sit for certification examinations offered through the National Strength and Conditioning Association to become certified strength and conditioning specialists, tactical strength and conditioning facilitators or certified performance sports scientists.

Degree Requirements:

30 credit hours and a written exam.

Required Core (24 credit hours)

KIN 520 Applied Sport Psychology (3)

KIN 530 Exercise and Sport Physiology (3)

KIN 540 Sport Biomechanics (3)

NTR 555 Nutrition and the Athlete (3)

SSP 501 Data Collection, Analysis and Interpretation in Strength and Conditioning (3)

SSP 530 Advanced Performance Programming (3)

SSP 534 Measurement and Monitoring in Sport and Fitness (3)

SSP 560 Performance Sports Coaching (3)

Other Requirements (6 credit hours)

SSP 584 Internship (6)

Culminating Experience (0 credit hours)

written comprehensive exam (0)

Additional Curriculum Information

The written comprehensive exam covers the three coaching application courses SSP 530, SSP 534 and SSP 560.

The internship is a fully immersive experience working under a certified strength and conditioning specialist. Hours are spent learning all aspects of the job in addition to best practices for improving athletic performance.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in exercise science, kinesiology, sports science, exercise physiology, human movement, physical education or a related field from a regionally accredited institution. Applicants with a bachelor's degree in another area may apply and be considered if they can demonstrate that they have experience in strength and conditioning.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- written statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

If an applicant does not have a bachelor's degree in one of the areas listed above but has strength and conditioning experience, evidence must be included in either in the professional resume or written statement.

Career Opportunities:

Graduates have acquired the fundamental skills to not only be a strength and conditioning coach but also to pursue a sports scientist career, a career as a tactical performance professional or a career working with high-activity occupations, i.e., military, police, firefighters or emergency medical technicians.

Career opportunities are available as:

- athletic trainers
- exercise physiologists
- fitness trainers and aerobics instructors
- fitness and wellness coordinators
- sports performance coaches or scouts
- sports scientists

Integrative Sciences and Arts, College of

Applied Biological Sciences, MS (TSAPBIOSMS)

Online Degree Search Title: Applied Biological Sciences, MS

Campus: Polytechnic

Program Description:

The MS program in applied biological sciences offers advanced instruction in the ecology and sustainable management of natural and urban ecosystems. Rigorous programs of study involving field and laboratory work are custom-designed to apply ecological or biological principles to problems in species or ecosystem conservation. All programs culminate with the completion of an intensive, research-based thesis or applied project.

The program is supported by faculty members with backgrounds in:

- ecological restoration
- environmental microbiology
- environmental stress physiology
- desert horticulture
- plant-fungal ecology
- plant systematics
- riparian and stream ecology
- wildlife biology

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Applied Biological Sciences (Applied Biological Sciences), BS
- Applied Biological Sciences (Applied Ecology and Preveterinary Medicine), BS
- Applied Biological Sciences (Natural Resource Ecology), BS
- Applied Biological Sciences (Preveterinary Medicine), BS
- Applied Biological Sciences (Secondary Education in Biology), BS
- Applied Biological Sciences (Sustainable Horticulture), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (ABS 592 and ABS 593).

Required Core (3 credit hours)

ABS 550 Vegetation Dynamics (3) or

ABS 555 Wildlife Dynamics (3)

Electives or Research (21 credit hours)

Culminating Experience (6 credit hours)

ABS 592 Research (3) and ABS 593 Applied Project (3)

ABS 599 Thesis (6)

Additional Curriculum Information

The electives coursework is chosen to support the student's educational objectives.

Students choose a thesis or applied project option. A final oral examination covering the thesis and related subject matter is required.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume
- statement of intent
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants are expected to have completed 18 credit hours in biological sciences and closely related courses. Specific fields of study may have specific expectations regarding courses taken at the undergraduate level. Applicants not meeting these course requirements may be considered for admission with deficiencies.

The statement of intent should not exceed 600 words and should explain the applicant's interest in environmental resources, as well as their academic background and educational objectives.

The letters of recommendation should be from references who are qualified to comment on the applicant's potential in the selected area of study.

Department faculty evaluate the applications and supporting materials and recommend to Graduate Admission Services whether the applicant should be granted admission, either regular or provisional, or denied admission. If admission is provisional, the Graduate College specifies in its letter of admission the provisions that need to be met to gain regular status. The school informs successful applicants of the procedures for

enrollment.

Career Opportunities:

Professionals with expertise in the study of evolution, natural history and conservation of plants and animals are in high demand across sectors and industries, including county and state organizations as well as community management. Those with skills in laboratory work, field research and data analysis are valuable to businesses and institutions that are building deep connections within leading scientific and technological industries to create innovative solutions to challenging global problems in a technologically focused 21st century world. Studying biology can lead to a wide range of careers, such as research, teaching, health care, and policy development.

Career examples include:

- biologists
- fish and wildlife biologists
- medical scientists
- natural science managers
- postsecondary biological science teachers

Counseling, MC (EDCOUNMC)

Online Degree Search Title: Counseling, MC

Campus: Tempe

Program Description:

The MC program is approved by the Arizona Board of Behavioral Health Examiners (<https://www.azbbhe.us/node/553> (<https://www.azbbhe.us/node/553>)).

The mission of the 60 credit hour program is to prepare students to become licensed professional counselors in Arizona and other states with comparable licensure requirements.

With its strong focus on multicultural counseling across the lifespan, students in the Master of Counseling program learn to promote the health of individuals, families, groups and organizations in a diverse society.

Faculty research and clinical foci include:

- advocacy
- children and adolescents
- counseling process and outcome
- couple and family relationships
- crisis assessment
- culturally responsive treatment
- mental health disparities
- nonbinary stress and resilience
- play therapy

The program instills in students the importance of research in advancing the counseling profession. The crucial link between science and practice is evident in the three complementary functions of the program's state-of-the-art Counselor Training Center: clinical service provision, high-quality training, and innovative process and outcome research.

The Master of Counseling program has endorsed the American Counseling Association's Code of Ethics and the following American Counseling Association competencies: ALGBTIC Competencies for Counseling LGBTQIA Individuals (2012), Competencies for Counseling the Multiracial Population (2015), Multicultural and Social Justice Counseling Competencies (2015), Competencies for Addressing Spiritual and Religious Issues in Counseling (2009) and Multicultural Career Counseling Competencies (2009).

Degree Requirements:

60 credit hours and a thesis, or 60 credit hours and a written comprehensive exam.

Required Core (36 credit hours)

CED 501 Introduction to Research and Evaluation in Counseling (3)

CED 502 Counseling Research Data Analysis (3)

CED 522 Theories of Counseling and Psychotherapy (3)

CED 523 Psychological Tests (3)

CED 527 Prevention and Consultation (3)

CED 529 Lifespan Human Development (3)

CED 534 Occupations and Careers (3)

CED 545 Analysis of the Individual (3)

CED 567 Group Dynamics and Counseling (3)

CED 577 Counseling Prepracticum (3)

CED 645 Professional Issues and Ethics (3)

CED 671 Multicultural Counseling (3)

Electives or Research (6-12 credit hours)

Other Requirements (12 credit hours)

CED 680 Practicum: Seminar (3)

CED 680 Practicum: Clinic (3)

CED 684 Internship (6)

Culminating Experience (0-6 credit hours)

CED 599 Thesis (6) or

written comprehensive exam (0)

Additional Curriculum Information

Students choose either a thesis or written comprehensive exam pathway. The written comprehensive exam is for students in the practitioner pathway, and they take 12 credit hours of elective coursework. The thesis option is for students who are focusing their program on research, and they take six credit hours of research coursework plus six credit hours of thesis.

The clinical portion of the program is comprised of CED 680 Practicum Seminar and Clinic and CED 684 Internship. These are required for all students. CED 580 Practicum Clinic and CED 584 Internship may be taken by students needing to log required clinical hours after CED 680 and CED 684 are completed. CED 580 and CED 584 are not required unless additional clinical hours are needed.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two- to three-page personal statement
- at least two and a maximum of three letters of recommendation
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. This program requires a TOEFL score of at least 600 (pBT) or 100 (iBT).

Finalists are invited for a virtual interview.

Nonacademic, Professional, or Life Experiences:

Applicants are required to submit a two- to three-page personal statement (12pt. Times New Roman font with 1" margin, double-spaced) that indicates their qualifications (e.g., professional experiences and personal attributes) and interest in ASU's MC program. Specifically, applicants are asked to describe how their education and training as well as volunteer and professional experiences inform why they want to pursue the MC degree. They also should outline how the program will help them meet their future goals. Applicants are expected to discuss their ability to work with

and be sensitive to the needs of a multicultural and diverse society, including but not limited to members of diverse racial and ethnic groups and sexual minority individuals.

Recommendations:

At least two and at most three recommendation letters are required. These should be from persons able to evaluate the applicant's academic potential (e.g., faculty member) and professional or volunteer experience (e.g., a supervisor). Applicants are discouraged from asking for recommendations from individuals or acquaintances who have not overseen their professional, volunteer or academic work.

Students should see the program website for application deadlines.

Career Opportunities:

Graduates of the Master of Counseling program meet licensure requirements as a professional counselor with the Arizona Board of Behavioral Health Examiners. Because requirements vary by state, students should consult the licensing requirements for the state in which they tend to reside.

Graduates provide clinical services in a range of settings, such as community agencies, hospitals, private practice, and university counseling centers. The program also prepares graduates who wish to pursue doctoral-level studies.

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Counseling Psychology, PHD (EDCPSYPHD)

Online Degree Search Title: Counseling Psychology, PhD

Campus: Tempe

Program Description:

This American Psychological Association-accredited PhD program in counseling psychology adheres closely to the scientist-practitioner training model in preparing graduates for employment in academic and clinical settings.

Although faculty interests are diverse, there is a common emphasis on using empirical data as the basis for culturally-responsive professional practice. The program boasts a strong commitment to diversity, equity and inclusion as evidenced in course offerings, clinical training, professional development activities, and research foci.

Faculty research foci include the following:

- acculturative stress
- cultural socialization
- mental health disparities
- microaggressions
- psychotherapy process and outcome
- retention in graduate education
- social and personal relationships
- socioeconomic status and financial stress
- trans and non-binary minority stress and resilience

Students enjoy exceptional clinical opportunities including placement in local hospitals, university and college counseling centers, community agencies and assessment sites. The program's state-of-the-art Counselor Training Center provides practicum experiences with campus and community clients as well as clinical supervision experiences. The center supports three complementary functions: clinical service provision, high-quality training, and innovative process and outcome research.

Degree Requirements:

113 credit hours, a written comprehensive exam, a prospectus and a dissertation.

The doctoral curriculum typically requires three to four years of full-time graduate study plus a yearlong internship in an APA-approved setting. Each of these years involves coursework pertaining to theory, research and practice in counseling psychology.

Students are expected to maintain full-time status. This requirement applies only to the academic year and not summer sessions.

At a minimum, students are required to complete two years of coursework in residence at ASU.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- a completed biographical information form
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement should be single-spaced, roughly 600-800 words, and it should describe the applicant's history, academic and professional goals, and reasons for selecting the counseling psychology program at ASU.

Applicants must submit a sample of their expository writing (e.g., taken from a paper prepared for a course or a report on a project the applicant has completed in this field) not to exceed 1MB.

At least two of the recommendation letters must be from persons familiar with the applicant's academic work.

Applicants should see the program website for application deadlines.

Career Opportunities:

Graduates of the counseling psychology doctoral program meet the licensure requirements of most states. Because requirements vary by state, it is recommend that students consult the licensing requirements for the state in which they intend to reside.

Graduates provide clinical services in a variety of settings, such as community agencies, hospitals, private practice and university counseling centers. Graduates also are employed in academic positions in universities across the country.

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Integrative Social Science, MS (LSISSMS)

Online Degree Search Title: Integrative Social Science, MS

Campus: Polytechnic

Program Description:

The MS in integrative social science is an advanced degree program designed to cross-educate students in the social sciences in order to meet the complex issues that confront human society in a technically sophisticated 21st century world.

The emphasis of the program lies in bridging traditional disciplinary boundaries to immerse students in the myriad theories and skills available across disciplines which would elude them in traditional disciplinary social science programs. Thus, graduates of the program are prepared with theory and research skill sets that allow them to draw from the best of the multiple disciplines of the social sciences.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Integrative Social Science, BS

Political Science, BS

Science, Technology and Society, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including a thesis, or 30 credit hours including an applied project (ISS 593).

Required Core (12 credit hours)

ISS 501 Advanced Integrated Social Research Methods (3)

ISS 502 Advanced Seminar in Integrated Social Science (3)

ISS 504 Advanced Integrated Theories of Social Science (3)

ISS 505 Multivariate Methodologies of Social Science (3)

Electives or Research (12 credit hours)

Other Requirement (3 credit hours)

ISS 584 Internship (3)

Culminating Experience (3-6 credit hours)

ISS 593 Applied Project (3) or

ISS 599 Thesis (6)

Additional Curriculum Information

Students choose either the thesis or applied project option. The internship is only required for students in the applied project option and is a structured practical experience that follows a contract or plan that is supervised by faculty and practitioners.

For the elective and research coursework, students choose from a list of preapproved courses for a total of 12 credit hours. Students should contact the academic unit for a list of possible courses. Other courses may be used with approval from the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any social science or interdisciplinary field such as political science, sociology, philosophy, economics, psychology, public policy, administration or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee

- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

Professionals with expertise in analyzing complex social and global issues are in high demand across sectors and industries, including business, public administration, politics and community organizations. Those who possess skills in the analysis of social phenomena and complex social problems are valuable to businesses and institutions relying on data-driven strategies for engagement and growth.

Career examples include:

- city planner
- community health worker
- mediator
- regulatory affairs manager
- transportation planner

Liberal Studies, MLSt (LAMLSMLS)

Online Degree Search Title: Liberal Studies, MLSt

Campus: Tempe, Online

Program Description:

The MLSt program offers students interested in creative, critical and integrative approaches to the study of human ideas and values an opportunity to explore, experiment with, and integrate a range of liberal studies insights.

The program is intended for students seeking a graduate degree that explores the integration of humanities questions with relevant political, religious, social and scientific insights. Throughout the program, students develop concrete creative and critical tools to respond to these urgent questions of the contemporary moment. This interdisciplinary approach trains students in the skills needed for the jobs of the future: communication, research and an understanding of the diverse and changing world.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- English, BA
- History, BA
- Interdisciplinary Studies, BA
- Interdisciplinary Studies (Organizational Studies), BA
- Liberal Studies, BA
- Organizational Leadership, BA
- Organizational Leadership (Project Management), BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required applied project course (MLS 593).

Required Core (9 credit hours)

MLS 501 Writing About Social Issues (3)

MLS 502 Religion, Culture and Health: Where Cultures Intersect (3)

MLS 503 Ethics, Science and Culture (3)

MLS 504 Film Analysis (3)

Electives (18 credit hours)

Culminating Experience (3 credit hours)

MLS 593 Applied Project (3)

Additional Curriculum Information

Students choose three of the four courses listed above to fulfill the nine credit hour core requirement.

Emphasis areas available are borders (migration, health and cultural identity); gender, religion and culture; and science, nature and creative nonfiction writing.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a letter of interest in the program
- a resume, biographical statement or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Narrative Studies, MA (LSNRSMA)

Online Degree Search Title: Narrative Studies, MA

Campus: Polytechnic

Program Description:

The MA in narrative studies is a comprehensive program that explores narrative and storytelling across a range of cultures and historical periods.

With curriculum emphasis on teaching and research, students study the structural, social, cultural, rhetorical and historical aspects of narrative and storytelling in texts, film and other media.

Graduates are primed for critical and eloquent engagement with the world beyond the university.

Degree Requirements:

30 credit hours including the required capstone course (ENG 597).

Required Core (6 credit hours)

ENG 503 History of Narrative (3)

ENG 509 Studies in Narrative Writing (3)

Electives or Research (21 credit hours)

Culminating Experience (3 credit hours)

ENG 597 Graduate Capstone Seminar (3)

Additional Curriculum Information

Students choose six courses from a restricted list for a total of 21 credit hours. Students should see the academic unit for the approved course list. Other courses (ENG, COM, FMS, HST or appropriate field) may be utilized for up to six credit hours with approval from the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's degree (or equivalent) or master's degree from a regionally accredited college or university in a related field such as English or any humanities discipline.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- written letter of intent that includes a detailed statement of purpose
- portfolio of at least three documents
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The portfolio must include at least three documents that demonstrate the applicant's ability to write in a variety of genres. Portfolio documents can include both academic and professional writing for a range of audiences and purposes. At least one of the documents must be a sample of academic writing. One of the three documents can be a sample of creative writing. The portfolio should be 15 to 30 total pages in length. The writing samples in the portfolio are evaluated using a rubric that considers several criteria, including intellectual focus, strength of argument and documentation, awareness of audience, organization, clarity, mechanical soundness and overall effectiveness.

The letters of recommendation should be either academic or professional and speak to the background and capabilities of the applicant.

Career Opportunities:

Graduates are equally prepared to become candidates for further academic studies, to advance their careers as area educators in the language arts, and to step into one of the many professions that value creativity, critical thinking and highly skilled communication, including teaching, writing, online publishing and editing.

Professionals with expertise in narrative are in high demand across many sectors and industries, including publishing, media, entertainment, marketing and politics. Skills in crafting and interpreting narratives are valuable to businesses and institutions that communicate, entertain and educate.

Career examples include:

- copy writer
- creative writer
- editor
- freelance writer
- high school teacher

Organizational Leadership, MS (LSORGLMS)

Online Degree Search Title: Organizational Leadership, MS

Campus: Polytechnic, Tempe, Online

Program Description:

The MS program in organizational leadership offers a theoretically and methodologically rigorous approach to studying and creating use-inspired research needed to impact organizational leadership.

Students explore areas such as organizational dynamics, institutional evolution, strategic change, leading diverse teams, collaborative governance, conflict mediation, critical problem-solving and leadership assessment, and they learn advanced methodological and statistical skills.

The program places special emphasis on learning best practices and other applied aspects of leading organizations. Students tailor their degree to their interests through a vast array of leadership elective courses. In consultation with a faculty advisor, students choose from many different elective courses, such as not-for-profit leadership and intercultural leadership.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

English, BA
History, BA
Interdisciplinary Studies, BA
Interdisciplinary Studies (Organizational Studies), BA
Liberal Studies, BA
Organizational Leadership, BA
Organizational Leadership (Project Management), BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

33 credit hours and a thesis, or 33 credit hours including the required applied project course (OGL 593).

Required Core (9 credit hours)

OGL 520 Organizational Leadership: Social Psychological Perspectives (3)

OGL 530 Critical Perspectives in Leadership Theory (3)

OGL 540 Evidence-Based Inquiry in Organizational Leadership (3)

Required Methods Courses (6 credit hours)

OGL 550 Leading Organizational Change (3) and OGL 570 Analyzing Organizations (3); or

OGL 574 Qualitative Data Analysis in Leadership Research (3) and OGL 575 Quantitative Data Analysis in Leadership Research (3)

Restricted Electives (12 or 15 credit hours)

Culminating Experience (3 or 6 credit hours)

OGL 593 Applied Project (3)

OGL 599 Thesis (6)

Additional Curriculum Information

Students complete either an applied project or thesis for the culminating experience.

For the required methods coursework, students complete OGL 550 and 570 if in the applied project culminating experience option. Students in the thesis option complete OGL 574 and 575.

Students select four or five courses from a restricted elective list depending on the culminating experience selected. Students should see the academic unit for the approved restricted elective list.

Other courses may be used for the methods and elective coursework with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any area or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- letter of intent
- professional resume
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. This applicant is expected to have either a TOEFL score of 600 on the traditional paper-based test or 100 on the internet-based test, or the applicant must have a passing score in the English for Graduate Admission online course through ASU Global Launch.

GRE or GMAT scores are recommended but not required.

All applicants must submit a written letter of intent that includes a detailed statement of purpose addressing how the program goals coincide with the student's personal and professional objectives. The essay is evaluated on the basis of content, presentation and evidence of graduate-level writing ability; the essay maximum is 500 words.

The professional resume or curriculum vitae are limited to two pages in length.

Applicants must submit two letters of reference that focus on the ability of the applicant to do academic work.

TWC 599 Thesis (6)

Additional Curriculum Information

Students who do not have previous technical communication coursework or relevant industry experience must take TWC 501 Fundamentals of Technical Communication as a restricted elective. For a full list of the approved elective courses, students should inquire at the academic unit offices.

Students complete an applied project, capstone course or thesis for the culminating experience. Students who choose the capstone option will complete a total of 27 elective credit hours.

TWC 506 is a requirement for students completing an applied project or thesis only.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- portfolio
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Since this degree requires a high degree of proficiency in English, an applicant whose native language is not English is expected to have one the following TOEFL scores: 600 traditional paper-based, 100 internet-based, or 250 computer-based.

All applicants must submit a written letter of application that includes a detailed statement of purpose as well as a portfolio of at least three documents that demonstrate the applicant's ability to write in a variety of genres. Portfolio documents can include both academic and professional writing for a range of audiences and purposes and need not be in the area of technical communication. The portfolio should be 15 to 30 pages in length. The writing samples in the portfolio are evaluated using a rubric that considers several criteria, including a demonstration of the ability to focus on a specific purpose and to meet audience needs and show organization, clarity, mechanical soundness and overall effectiveness.

All applicants must submit three letters of reference, either academic or professional, that speak to the background and capabilities of the applicant.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-technical-communication/>)

Career Opportunities:

Professionals with expertise in technical communication are in high demand across sectors and industries, including technology, business, entertainment, education and community organizations. Graduates are prepared for technical communication positions in the private, public and nonprofit sectors and offers professionals the opportunity to further advance their careers.

Skills in the analysis of users and data, writing and creating visuals, and managing online and multimedia content are valuable to businesses and institutions relying on rhetorical awareness and understanding of complex information to manage specialized content and to translate them to broad audiences for maximum impact.

Career examples include:

- instructional designer
- IT project manager
- public relations manager
- quality assurance analyst and tester
- social media manager
- technical writer
- user experience specialist
- web content developer

Technical Communication (certificate), Certificate (LSTECGRCT)

Online Degree Search Title: Technical Communication (Graduate Certificate)

Campus: Polytechnic, Online

Program Description:

Through the technical communication program, students learn how to produce and communicate technical information using traditional and digital technologies.

Degree Requirements:

18 credit hours.

Core Requirement (9 credit hours)

TWC 501 Fundamentals of Technical Communication (3)

Choose two of the following courses:

TWC 511 Principles of Visual Communication (3)

TWC 521 Principles of Web Authoring (3)

TWC 531 Principles of Technical Editing (3)

Electives (9 credit hours)

Additional Curriculum Information

Students choose any 500-level TWC courses as their electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Disclosure information for this U.S. Department of Education Gainful Employment program is available at

<https://catalog.asu.edu/files/disclosures/LSTECGRCT/Gedt.pdf> (<https://catalog.asu.edu/files/disclosures/LSTECGRCT/Gedt.pdf>).

SANCA 233

User Experience, MS (ESUSEXMS)

Online Degree Search Title: User Experience, MS

Campus: Polytechnic, Online

Program Description:

The MS program in user experience combines topics in web, human factors, visual displays and technical communication to make products, systems and services useful, usable and desirable.

Students learn how to research user needs, identify criteria for successful products and services, prototype those products and services, and refine them through usability testing and other user-centered evaluation methods.

User experience skills are increasingly valued by industry yet are not typically covered in depth in traditional engineering or technical communication programs.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Graphic Information Technology (User Experience), BS

Human Systems Engineering (User Experience), BS

Technical Communication (User Experience), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio.

Required Core (18 credit hours)

GIT 540 Cross-Media Design Solutions (3)

GIT 542 Usability and User Experience (3)

HSE 521 Methods and Tools in Human Systems Engineering (3)

HSE 542 Foundations of Human Systems Engineering (3)

TWC 501 Fundamentals of Technical Communication (3)

TWC 544 User Experience (3)

Electives or Research (12 credit hours)

Culminating Experience (3 credit hours)

portfolio (0)

Additional Curriculum Information

Students should see the academic units for a complete list of approved electives and research courses. Other courses may be used with approval of the academic units.

Admission Requirements:

Applicants must fulfill the requirements of the Graduate College, the Ira A. Fulton Schools of Engineering and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in related fields such as psychology, graphic information technology, graphic design, human systems engineering, business, cognitive science, design or technical communication from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts

- personal statement
- professional resume
- writing sample
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should see the Graduate Admission Services website at <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>). Global Launch at ASU offers an online alternative to standardized testing for international students who are seeking admission to ASU but need proof of English proficiency. <https://globallaunch.asu.edu/learn-english/online-english/english-for-admission> (<https://globallaunch.asu.edu/learn-english/online-english/english-for-admission>)

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/online-user-experience-masters/>)

Career Opportunities:

Graduates with this degree possess the skills in research, analysis, design and communication to be UX professionals who effectively lead teams and collaborate with clients and technical personnel.

UX is a rapidly growing field. Graduates can typically expect to find jobs in the areas of:

- design research
- digital visualization design
- human-computer interaction
- human factors research
- interaction design
- interface design
- usability testing
- user experience
- user research

Interdisciplinary Arts and Sciences, New College of

Biological Data Science, MS (ASBDSMS)

Online Degree Search Title: Biological Data Science, MS

Campus: West, Online

Program Description:

The MS program in biological data science provides students with a foundation in biology and computational methods along with hands-on training through real-world projects at the interface of the natural and mathematical sciences.

Students learn to manipulate big data, including the generation and analysis of data using statistical and computational toolsets. Students use their analytical skills in ecological, environmental, toxicological and other biological applications. The program incorporates multiple levels of experiential learning to ensure students gain critical thinking skills in addition to core competencies.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Applied Computing, BS
Applied Mathematics, BS
Biology, BA
Biology, BS
Pharmacology and Toxicology, BS
Statistics, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

32 credit hours and a thesis, or 32 credit hours including the required applied project course (ACO 593, BIO 593 or MAT 593), or 32 credit hours including the required capstone course (LSC 586).

Required Core (12 credit hours)

ACO 501 Database Systems and Problem Solving in Python (3)
LSC 555 Integrative Biology I (3)
LSC 556 Integrative Biology II (3)
LSC 562 Applied Mathematics Techniques in Biology (3)

Other Requirements for Campus Immersion (8 credit hours)

LSC 547 Wet Laboratory Experience (1)
LSC 598 Topic: Statistics for Biological Data Science I (3)
LSC 598 Topic: Statistics for Biological Data Science II (3)
LSC 519 Applied Learning Lab (1)

Other Requirements for Digital Immersion (14 credit hours)

ACO 580 Practicum (3)
LSC 598 Topic: Statistics for Biological Data Science I (3)
LSC 598 Topic: Statistics for Biological Data Science II (3)
LSC 519 Applied Learning Lab (2)
LSC 585 Capstone I in Biological Data Science (3)

Electives (3 or 6 credit hours)

Culminating Experience (3 or 6 credit hours)

ACO 593 Applied Project (6)
BIO 593 Applied Project (6)
MAT 593 Applied Project (6)
ACO 599 Thesis (6)
BIO 599 Thesis (6)
MAT 599 Thesis (6)
LSC 586 Capstone II in Biological Data Science (3)

Additional Curriculum Information

The Master of Science program in biological data science is delivered through the campus immersion or digital immersion modality. Culminating experiences require three or six credit hours with various options based on modality.

Students in the campus immersion modality select either an applied project or thesis for the culminating experience based on their interests and career goals in biological data science. The applied project option usually results in a written report summarizing the work that was completed. The thesis is best suited for students who want to pursue a research career because it requires an oral defense and the written thesis is considered a publication. These students complete the courses listed under Other Requirements for Campus Immersion and select six credit hours of electives in consultation with the academic unit.

The capstone course option is reserved for students in the digital immersion modality. These students complete the courses listed under Other Requirements for Digital Immersion and select three credit hours of electives in consultation with the academic unit. The capstone course will incorporate a work-based learning model and provide industry-relevant projects for students.

Courses from the other requirements lists above may be substituted if students receive approval from the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field such as biology, mathematics, statistics or computing, as well as unrelated fields, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- two letters of recommendation
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

It is preferred that letters of recommendation be from faculty members who know the applicant's work well; if these are not available, letters of recommendation from individuals in supervisory or professional roles will be accepted.

The statement of purpose should describe the applicant's educational background, scholarly interests, and academic and professional goals.

Depending on the applicant's educational background, deficiency courses may be required.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/biological-data-science-masters/>)

Career Opportunities:

The proliferation of big data sets generated in biological science fields has dramatically increased the demand for individuals with the solid skill sets they need to manipulate and interpret this data.

Graduates are ready to enter one of the fastest-growing job markets to work with consulting firms, government agencies as well as nongovernmental organizations, in data science, informatics, data analytics, database development and mathematical modeling of biological systems that are relevant to a variety of industries. They are well suited for employment in positions such as:

- bioinformatics data scientist
- chemical biology data scientist
- clinical data analyst
- computational biologist
- data engineer, data mining engineer
- database developer
- fisheries scientist, dairy scientist, animal scientist
- genomic scientist
- natural resources data scientist
- pharmaceutical scientist

Graduates also are ready to seek advanced professional or graduate degrees, such as in medical, dental, veterinary and public health fields.

Biological Data Science (Certificate), Certificate (ASBDSGRCT)

Online Degree Search Title: Biological Data Science (Graduate Certificate)

Campus: West, Online

Program Description:

This biological data science certificate program sits at the intersection of biology, computing, mathematics and statistics, providing students in any of these disciplines the unique opportunity to develop an integrative tool set that is in high demand for the analysis of data in the context of biological applications. It provides students with real-world training at the interface of the natural and mathematical sciences.

Students learn to manipulate "big data," including the generation and analysis of data using statistical and computational toolsets. Students can use their analytical skills in ecological, environmental, toxicological and other biological applications and are prepared to work in emerging areas of interdisciplinary and transdisciplinary research.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

ACO 501 Database Systems and Problem Solving in Python (3)

Other Requirements (6 credit hours)

LSC 598 Topic: Statistics for Biological Data Science I (3)

LSC 598 Topic: Statistics for Biological Data Science II (3)

Restricted Electives (6 credit hours)

FOR 540 Advanced Topics in Human Forensic DNA Typing (3)

LSC 555 Integrative Biology I (3)

LSC 556 Integrative Biology II (3)

LSC 562 Applied Mathematics Techniques in Biology (3)

STC 510 Data Wrangling (3)

Additional Curriculum Information

Other requirement and restricted elective coursework may be substituted with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or they must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of purpose should respond directly to questions one and two below. Responses to each prompt should be limited to 250 words or less.

- Describe your career goals and how a graduate certificate in biological data science will help you achieve those goals
- Biological data science is a discipline that spans a broad range of biological topics from molecular biology to ecology, and uses a variety of computational methods. Briefly describe two aspects of biological data science that you are most interested in and why.
- Optional) If there are any extenuating circumstances that affected your undergraduate performance, or that affect you now, you may use this space to explain your situation. You do not need to complete this section if you feel that your application meets all requirements for admission into the program.

A professional resume may be included in the application materials, but is optional.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-biological-data-science>)

Career Opportunities:

With the multiple levels of experiential learning in the program, graduates of the biological data science certificate are ready to enter one of the fastest-growing job markets; work with consulting firms, government agencies as well as non-governmental organizations; or go on to seek advanced professional or graduate degrees. Students completing this graduate certificate have the foundation to enter a broad range of careers that require skills in analytical reasoning, computer programming and database design.

Career fields relevant to the certificate program include:

- bioinformatics
- data management and databases
- data processing, hosting and related services
- environmental consulting
- marketing or advertising for companies with large consumer data sets
- research data analysis
- work in health care industries that involves dealing with patient data

Communication Studies, MA (ASCOMSTMA)

Online Degree Search Title: Communication Studies, MA

Campus: West

Program Description:

The MA in communication studies is a cutting-edge degree program designed for students who wish to pursue a wide range of today's communication professions.

With special emphases on both advocacy and social technologies as defining themes, students can tailor the program to their personal goals, focusing on topics such as interpersonal, organizational, sport, environmental, social media politics and global or technology-mediated communication.

Students use multiple perspectives to explore a variety of topics and issues in communication.

These include how individuals and collectives participate effectively in personal relationships; organizational settings and public dialogues across cultural contexts; and the impact and effects of media, mediated representations and new technologies. They also learn to use communication strategically to advocate for others.

Graduates are prepared to pursue doctoral work or careers in a variety of communication-driven fields such as public affairs, public relations, employee development, strategic communication, community relations and grassroots movements through exposure to a variety of research methods, theories and practical applications.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- American Studies, BA
- Applied Science, BAS
- Biology, BA
- Communication, BA
- Communication, BS
- Environmental Science, BA
- Ethnicity, Race and First Nations Studies, BA
- Gender, Women and Sexuality Studies, BS
- Global Management, BGM
- History, BA
- Interdisciplinary Arts and Performance, BA

Interdisciplinary Arts and Sciences, BA
Latin American Studies, BA
Philosophy, Religion and Society, BA
Political Science, BA
Political Science, BS
Psychology, BA
Psychology, BS
Social and Behavioral Sciences, BA
Social and Behavioral Sciences, BS
Sociology, BS
Sociology, BA
Women and Gender Studies, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

36 credit hours and a written comprehensive exam, or 36 credit hours including an applied project (CMN 593) and a written comprehensive exam, or 36 credit hours, a written comprehensive exam and a thesis.

Required Core (9 credit hours)

CMN 502 Theory and Practice in Communication and Persuasion (3) or CMN 522 Argumentation and Advocacy (3)

CMN 505 Methods in Applied Communication Research (3)

CMN 506 Humanistic Inquiry and Field Research in Communication (3)

Electives (up to 27 credit hours)

Culminating Experience Options (0-6 credit hours)

CMN 593 Applied Project, with written comprehensive exam (3)

CMN 599 Thesis, with written comprehensive exam (6)

written comprehensive examination (0 credit hours)

Additional Curriculum Information

Electives are selected in consultation with the student's program advisor and may include courses with either the CMN (communication) or STC (social technology) prefixes. When appropriate, students may take up to six credit hours outside the program (non-CMN and STC prefix).

The thesis or applied project must demonstrate intellectual ability, academic ability and professional growth. The thesis is supervised and approved by the student's advisor and committee. An oral defense is required for the thesis. The applied project is supervised by the student's advisor. The achievements or results of the applied project should be made available to the public in the form of a presentation, poster, report or other form negotiated with the faculty advisor.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- three letters of recommendation
- an academic writing sample (preferred) or professional writing sample
- resume or curriculum vitae (optional)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of purpose should describe the educational background, scholarly interests, and academic and professional goals of the applicant.

It is preferred that the letters of recommendation are from faculty members who know the applicant's work well; if faculty members are not available, then the applicant may submit letters of recommendation from individuals in supervisory or professional roles.

Career Opportunities:

The Master of Arts degree program in communication studies helps prepare graduates for jobs in corporate communication, journalism, mass media, politics, higher education or a wide range of other fields. Graduates already employed may find the skills they acquired through the program are helpful for career advancement; some leadership positions require a master's degree. Those interested in changing careers may pursue a master's in a communication studies to align with their particular professional goals. This master's degree can also prepare graduates for doctoral studies where they will conduct research or a career in higher education educating students.

Career examples include:

- fundraising manager
- human resources manager
- internal communications manager
- journalist
- learning and development analyst
- marketing: account executive, consultant or research analyst
- political campaign manager
- professor: community college, tenure-track or nontenure track academic (e.g., lecturer, admissions director, academic advisor, etc.)
- sales account executive
- speech writer
- technical communication specialist
- web producer

English, MA (ASENGLMA)

Online Degree Search Title: English, MA

Campus: West

Program Description:

The MA in English offered by the New College of Interdisciplinary Arts and Sciences is a comprehensive program that addresses the many facets of English: its literatures; its linguistic, social and cultural histories; and its capacities for persuasion, exposition and elucidation.

The program is grounded in scholarly tradition but designed for the demands of the 21st century. Its innovative curriculum has been developed to train present and future educators as well as individuals pursuing careers in the wide variety of professions that value advanced critical thinking, research and communication skills.

The world-class faculty is ready to help enhance students' skill set, deepen their knowledge base and put the Master of Arts in English degree to work in their chosen profession.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Applied Science, BAS
- Communication, BS
- Communication, BA
- Disability Studies, BA
- English, BA
- Gender, Women and Sexuality Studies, BS
- History, BA
- Interdisciplinary Arts and Performance, BA

Interdisciplinary Arts and Sciences, BA
Latin American Studies, BA
Philosophy, Religion and Society, BA
Social and Cultural Analysis (American Studies), BA
Social and Cultural Analysis (Ethnicity, Race and Indigenous Studies), BA
Social and Cultural Analysis (Latin American Studies), BA
Social and Cultural Analysis (Peace Studies), BA
Social and Cultural Analysis (Queer and Sexuality Studies), BA
Social and Cultural Analysis (Women and Gender Studies), BA
Spanish, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required capstone course (ENG 597).

Required Core (6 credit hours)

ENG 502 Contemporary Critical Theories (3) or MAS 505 Theories of Change, Culture and Mind (3)

ENG 582 Pedagogy (3)

Electives or Research (12 credit hours)

ENG 500 Research Methods (3)

ENG 591 Seminar (3)

ENG or LIN courses (6)

Open Elective or Research Courses (9 credit hours)

Culminating Experience (3 credit hours)

ENG 597 Graduate Capstone Seminar (3)

Additional Curriculum Information

For electives or research, students should see the academic unit for the approved course list from ENG and LIN courses through New College.

ENG 500 is a required research course for all students and must be included in the plan of study.

For the open elective or research courses, nine credit hours can be selected from ENG or non-ENG coursework offered by various academic units.

The selection of coursework is in consultation with the student's committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program; or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- two letters of recommendation
- an academic writing sample or professional writing sample (optional)
- resume or curriculum vitae (optional)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of purpose should describe the educational background, scholarly interests and academic and professional goals of the applicant.

It is preferred that the letters of recommendation are from faculty members who know the applicant's work well; if such faculty are not available, then recommendation letters from individuals in supervisory or professional roles are acceptable.

An academic writing sample (preferred) or a professional writing sample is recommended, but not required, when submitting an application.

Career Opportunities:

The ability to influence and motivate behavior through the power of well-crafted language is a skill valued in every industry dependent upon customers, employees, suppliers or investors.

Graduates with a master's degree in English are able to use language to accomplish organizational goals; possess advanced critical thinking abilities and advanced skills for clear and effective verbal communication; are able to construct well-supported and persuasive arguments; can perform complex textual analysis; are knowledgeable about historical trends in written discourse; have an awareness of the role of literary discourse in broader social and historical contexts; and have the ability to engage in big picture thinking.

Career fields are many and varied. Examples include:

- business communication
- community college teaching
- editing
- grant writing
- journalism
- nonprofit consulting
- public relations
- publishing
- secondary teaching (continuing education)
- technical writing
- web (content management, social media management)

Forensic Psychology, MS (ASFPSYMS)

Online Degree Search Title: Forensic Psychology, MS

Campus: Online

Program Description:

The MS program in forensic psychology provides working professionals with an understanding of mental health issues and human behavior with respect to crime and the criminal justice and legal systems.

The curriculum involves specialized coursework in criminal law, criminal behavior, the diagnosis and treatment of mental disorders, and legal decision-making. Through these courses, students learn about the various roles for psychologists in the legal system and help them discover which roles they might like to pursue through careers in mental health, criminal justice or through additional graduate training.

Graduates are not license-eligible for clinical practice but are well prepared to pursue advanced degree and continuing education programs in counseling and related fields.

Degree Requirements:

33 credit hours including the required capstone course (PSY 549).

Required Core (15 credit hours)

PSY 544 Advanced Psychology of Criminal Investigation (3)

PSY 545 Advanced Legal Psychology (3)

PSY 546 Advanced Forensic Psychology (3)

PSY 547 Advanced Correctional Psychology (3)

PSY 573 Psychopathology (3)

Electives (9 credit hours)

Statistics and Methods (3 credit hours)
PSY 514 Fundamentals of Forensic Psychology Research (3)

Criminal Justice System Courses (3 credit hours)

Choose one of the following:

CRJ 501 Seminar in Criminal Justice (3)

CRJ 513 Seminar in Courts and Sentencing (3)

Culminating Experience (3 credit hours)

PSY 549 Capstone in Forensic Psychology (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in psychology, criminal justice, social science or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- one letter of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants must provide evidence of successful completion of an undergraduate or graduate social science statistics and research methods course.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-forensic-psychology/>)

Career Opportunities:

The Master of Science in forensic psychology opens the door to a wide variety of careers. The field of forensic psychology offers many career options, from consulting on public policy to working within the criminal justice system. Many forensic psychologists will work in the court system in order to help lawyers, judges and juries better understand the motivations behind criminal behavior. Some graduates choose this path to advocate on behalf of underserved populations, including African-Americans, Latinos, those from lower-economic areas, children or those with mental illness.

Career examples include:

- correctional counselor
- crime analyst
- forensic research psychologists
- forensic social worker
- investigative journalist
- jail supervisor
- jury consultant
- police consultant
- probation officer
- victim advocate

Forensic Science, PSM (ASFRSCIPSM)

Online Degree Search Title: Forensic Science, PSM

Campus: Online

Program Description:

The PSM program in forensic science readies students for career advancement by providing them with greater educational depth and breadth in the forensic sciences and helps them develop new competencies related to laboratory supervision. This includes an understanding of how to work with regulatory bodies that provide the framework for oversight in forensic laboratories, consistent with the guiding principles of the National Professional Science Master's Association.

Students develop deeper scientific inquiry skills in biology, chemistry, genetics and related topics, as well as critical laboratory leadership skill sets.

Successful graduates are armed with the tools and experiences required for administrative and other advancement opportunities both within and beyond the forensic science laboratory in both governmental and private sectors.

Degree Requirements:

30 credit hours including the required applied project course (FOR 593).

Required Core (9 credit hours)

FOR 525 Forensic Science and Governance (3)

FOR 550 Ethics in Forensic Science (3)

FOR 565 Laboratory Leadership, Policy and Practice (3)

Other Requirement (15 credit hours)

FOR 501 Forensic Toxicology (3) or FOR 532 Principles of Pharmacology (3)

FOR 502 Forensic Botany (3) or FOR 503 Forensic Entomology (3)

FOR 540 Advanced Topics in Human Forensic DNA Typing (3)

FOR 560 Quantitative Methods in Forensic Science Research (3), BMI 515 Applied Biostatistics in Medicine and Informatics (3) or HCD 501 Biostatistics and Data Management (3)

PSY 546 Advanced Forensic Psychology (3) or CRJ 537 Criminal Procedure of Investigations for Social and Forensic Scientists (3)

Culminating Experience (6 credit hours)

FOR 593 Applied Project (6)

Additional Curriculum Information

Other Requirement courses may be substituted with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in an appropriate physical, biological, computer science or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of purpose should describe the applicant's educational background, scholarly interests, and academic and professional goals.

It is preferred that the letters of recommendation be from individuals in supervisory or professional roles.

Gender, Women and Sexuality Studies (Certificate), Certificate (ASWSTCERT)

Online Degree Search Title: Gender, Women and Sexuality Studies

Campus: West

This program's name has changed effective Fall 2022. The previous name was Women and Gender Studies.

Program Description:

The certificate program in gender, women and sexuality studies examines the changing political, social, economic and cultural realities of racial, ethnic and indigenous communities in the United States and the Americas.

The program combines interdisciplinary topics and methods to critically analyze, unpack and address how relations of gender are embedded in and connected to social, political and cultural transformations. The intellectual core draws from theories, methods and teachings in women and gender studies while engaging complementary fields of social justice, cultural studies, sexuality studies, queer studies, literature, history, sociology, psychology, oral history, ethnicity, race and indigenous studies, and transnational studies.

Admission Requirements:

Students wishing to pursue this certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure the appropriate set of courses is taken and the required paperwork is submitted.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career Opportunities:

This program prepares students for graduate study or a variety of fields including business, health care, criminal justice, social services, education, public relations, nonprofits, community development, public policy and government. Possible careers include community health workers, secondary school teachers, human resource managers, probation officers, social and community service managers, writers or academia.

Interdisciplinary Studies, MA (ASINTERMA)

Online Degree Search Title: Interdisciplinary Studies, MA

Campus: West

Program Description:

The MA in interdisciplinary studies offered by the New College of Interdisciplinary Arts and Sciences is an innovative program that allows students to combine the study of two or more disciplines for their program of study.

Founded on the conviction that solving problems in the 21st century often requires an interdisciplinary approach, this flexible program provides exposure to a variety of research methods, interdisciplinary perspectives, modes of inquiry, and practice.

The program consists of three required MAS courses, six courses of your choice and a capstone the final semester, and gives students access to faculty members who are active practitioners of interdisciplinary inquiry. Working with the faculty, students may define their own area of emphasis or adopt an existing area within the Humanities, Arts and Social Sciences.

The skills and knowledge that students acquire can be directed toward doctoral study or professional goals in any enterprise that engages in research, entrepreneurship or education.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- American Studies, BA
- Applied Science, BAS
- Communication, BS
- Communication, BA
- English, BA
- Ethnicity, Race and First Nations Studies, BA
- Gender, Women and Sexuality Studies, BS
- History, BA
- Interdisciplinary Arts and Performance, BA
- Interdisciplinary Arts and Sciences, BA
- Philosophy, Religion and Society, BA
- Political Science, BA
- Political Science, BS
- Psychology, BA
- Psychology, BS
- Social and Behavioral Sciences, BS
- Social and Behavioral Sciences, BA
- Sociology, BA
- Sociology, BS
- Women and Gender Studies, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required capstone course (MAS 585).

Required Core (9 credit hours)

MAS 501 Methods for Interdisciplinary Inquiry (3)

MAS 502 Perspectives in Interdisciplinary Studies (3)

MAS 505 Theories of Change, Culture and Mind (3)

Electives (18 credit hours)

Culminating Experience (3 credit hours)
MAS 585 Capstone Course (3)

Additional Curriculum Information

The core courses are designed as a sequence and are meant to guide students through the program, from learning about interdisciplinarity to practicing interdisciplinary research. Therefore, students are required to take each of the core courses the first time that they are available while the student is enrolled in the program.

For electives, students work with a faculty mentor to select 18 credit hours of graduate-level coursework that helps prepare them for their capstone or reflects particular areas of specialty or interest.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- two letters of recommendation
- an academic writing sample (preferred) or professional writing sample
- resume or curriculum vitae (optional)
- GRE scores (if applicable)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of purpose should describe the educational background, scholarly interests, and academic and professional goals of the applicant.

It is preferred that the letters of recommendation are from faculty members who know the applicant's work well, but if faculty are not available, then from individuals in supervisory or professional roles.

If the applicant does not meet the minimum GPA requirements, the application may be considered if accompanied by an official GRE score.

Career Opportunities:

The program's emphasis on a variety of research methods and modes of inquiry increases students' value to many organizations. As graduates, they reach their professional goals in a multitude of industries and organization, including advertising and marketing, nonprofit leadership and media production, museum curatorship, community college teaching and leading-edge entrepreneurship.

Career examples include:

- area, ethnic and cultural studies teachers and professors
- archivists
- art therapists
- education administrators
- film and video editors
- high school teachers
- human resources managers
- market research analysts and marketing specialists
- multimedia artists and animators
- professors

Interdisciplinary Studies (Interdisciplinary Arts and Performance), MA (ASIDSIPMA)

Online Degree Search Title: Interdisciplinary Studies (Interdisciplinary Arts and Performance), MA

Campus: West

Program Description:

The MA program in interdisciplinary studies offered by ASU's New College of Interdisciplinary Arts and Sciences is an innovative program where students can combine the study of two or more disciplines for their program of study. The concentration in interdisciplinary arts and performance enables students to engage the innovative study of interdisciplinary art practices and theories from a perspective developed over decades of New College's undergraduate interdisciplinary arts and performance major.

The IAP program is celebrated in the Oxford Handbook of Interdisciplinarity, the definitive academic volume on interdisciplinarity, as the leading program in defining interdisciplinary arts. Throughout the curriculum, interdisciplinary arts are "outwardly and continually inclusive, expanding, evolving and innovative", which empowers students to shape and direct their creative pathways. Students engage in a deeper collaborative investigation of multiple artistic disciplines, interacting with theoretically advanced studies in visual, sonic and performance arts to become versatile artists and art scholars, preparing them for the complex and changing world through current approaches to aesthetic innovation.

The program gives students access to faculty members who are active practitioners of interdisciplinary inquiry. Working with the faculty, students may define their own areas of artistic practices.

Degree Requirements:

30 credit hours including the required capstone course (MAS 585).

Required Core (9 credit hours)

MAS 501 Methods for Interdisciplinary Inquiry (3)

MAS 502 Perspectives in Interdisciplinary Studies (3)

MAS 505 Theories of Change, Culture and Mind (3)

Concentration (9 credit hours)

MAS 560 Composition: Process, Technique and Style (3)

MAS 569 Digital Graphic Applications (3)

MAS 570 Language, Culture and Performance (3)

Electives (9 credit hours)

Culminating Experience (3 credit hours)

MAS 585 Capstone Course (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences. Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution. Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admissions application and application fee
- official transcripts
- personal statement
- two letters of recommendation
- art portfolio
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The art portfolio could include digital examples of work created or links to digital archives of work performed or exhibited.

The personal statement should describe the educational background; artistic studies and experience; artistic and scholarly interests; and the

aesthetic, academic and professional goals of the applicant.

It is preferred that the letters of recommendation are from faculty members who know the applicant's work well, but if faculty are not available, then from individuals in supervisory or professional roles is acceptable.

Career Opportunities:

The skills and knowledge that students acquire can be directed toward doctoral study or professional goals in any enterprise that engages in research or education. Graduates of this program may enter many different career fields including:

- arts administrator
- arts educator (community college, K--12)
- arts writer, scholar and critic
- composer and sound artist
- digital designer
- film and video editor
- performance and theatre artist
- recording artist
- video and board game designer
- visual artist in multiple mediums

Law and Psychology, PHD (ASLPSYPHD)

Online Degree Search Title: Law and Psychology, PhD

Campus: Downtown Phoenix, West

Program Description:

The PhD program in law and psychology is designed to train a new generation of scholars in the field by taking a broad interdisciplinary approach that combines rigorous training in the law and psychology field with training in advanced research methodology and statistics, criminological theory, and contextual training in other subfields of psychology.

The goal of the program is for students to use this knowledge to tackle the many important but understudied areas where the legal system is in desperate need of empirical psychological research.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (21 credit hours)

PSY 515 Quantitative Analysis I (3)

PSY 516 Quantitative Analysis II (3)

PSY 517 Quantitative Analysis III (3)

PSY 544 Advanced Psychology of Criminal Investigation (3)

PSY 545 Advanced Legal Psychology (3)

PSY 546 Advanced Forensic Psychology (3)

PSY 550 Advanced Social Psychology (3)

Electives (36 credit hours)

Required Research (15 credit hours)

PSY 500 Research Methods (3)

PSY 792 Research (12)

Culminating Experience (12 credit hours)

PSY 799 Dissertation (12)

Additional Curriculum Information

Students are required to take 15 credit hours of research coursework and 36 credit hours of elective coursework.

When approved by the student's supervisory committee and Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework is made up of electives and research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in psychology, criminal justice, social science, or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

Graduates of the law and psychology doctorate program are sought for their unique skill sets melding the complexities of law and justice with human behavior. Careers can be pursued in government, academia or private enterprise.

Career examples include:

- academic researcher or instructor as a college or university professor
- criminal justice data analyst
- government or nonprofit researcher and evaluator
- legal policy researcher and evaluator
- legal or trial consultant
- mental health policy analyst or consultant
- postdoctoral research fellow

Psychology, MS (ASPGSMS)

Online Degree Search Title: Psychology, MS

Campus: West, Online

Program Description:

The MS program in psychology, offered by the New College of Interdisciplinary Arts and Sciences, is available in two modalities (campus-immersion or online) with different culminating experience options (thesis, applied project, or capstone).

The campus-immersion option is ideal for students who plan to pursue doctoral work or careers that involve psychological research methods such as marketing research, education research analysis, public policy analysis, research project management or program evaluation. The program is intensive and research-oriented, and it culminates in a thesis or applied project. Students receive training in advanced research methodology and statistical analysis, grant proposal writing, laboratory instrumentation, data collection and manuscript development. Students gain first-hand exposure to designing and conducting research, analyzing data and developing presentations and manuscripts. Students are encouraged to

present research reports at professional meetings and conferences and to publish as co-authors in faculty-guided research.

The online program option gives students and working professionals an understanding of psychological theory and empirical research findings as they relate to human behavior, cognition, emotion and attitudes. The coursework is designed to help students learn about the various roles of psychologists in society today and discover which they might like to pursue through careers in education, social service, for-profit and nonprofit organizations, management or through additional graduate training. The online program culminates with a capstone course.

Both options offer elective courses in several areas, including abnormal psychology, affective science, behavior analysis, cognitive psychology, developmental psychology, health psychology, legal psychology, psychophysiology and social psychology.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Psychology, BS
- Psychology, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

36 credit hours and a thesis, or 36 credit hours including the required applied project course (PSY 593), or 36 credit hours including the required capstone course (PSY 553), or 36 credit hours including the required capstone course (PSY 553) - Mandarin Pathway.

Required Core (6 credit hours)

PSY 502 Professional Issues in Psychology (3)

PSY 513 Fundamentals of Quantitative Research (3) or PSY 515 Quantitative Analysis I (3)

Foundation (0 or 15 credit hours)

Research (3 or 9 credit hours)

Electives (9 or 12 credit hours)

Other Requirement (0-6 credit hours)

Culminating Experience (3 or 6 credit hours)

PSY 553 Capstone in General Psychology (3)

PSY 593 Applied Project (6)

PSY 599 Thesis (6)

Additional Curriculum Information

The MS in Psychology is delivered in-person and online through digital immersion. The capstone course option is only for students in the online program and the Mandarin pathway. Thesis and applied project options are for in-person program students.

The thesis option is intended for students who are interested in later gaining admission to a doctoral program. This option has hands-on experience with research and in-depth learning on advanced quantitative analysis. Thesis students complete a written and oral prospectus before proceeding to their thesis research which they must defend before a committee. Thesis students take PSY 516 Quantitative Analysis II and PSY 517 Quantitative Analysis III for six credit hours as an other requirement.

The applied project option provides students who are interested in pursuing a professional career in research with sufficient methodology and statistic skills to enhance their professional career opportunities. Applied project students also complete a written research proposal that is reviewed by their advisor and one additional committee member. As an other requirement, applied project students take PSY 516 Quantitative Analysis II for three credit hours.

Capstone course online options (English and Mandarin) provide students who are interested in professional development the necessary communication and methodology skills to advance in their chosen career. Students in the capstone must write a literature review paper on a research topic of their choice. Foundation coursework is required for the capstone course option only. Students should see the academic unit for a preapproved list of courses.

All students take core course PSY 502. Students take either PSY 513 or PSY 515 as their secondary core course based on the option selected. Thesis and applied project students take PSY 515, capstone course online students take PSY 513 or PSY 515.

For research, all students take PSY 500 for three credit hours. Students who are in the thesis or applied project options also take PSY 592 for six credit hours.

Students are able to specialize or go more in-depth in one or two focus areas with their elective coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program. Priority is given to applicants who have achieved a 3.25 GPA or higher.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- GRE scores (combined minimum verbal and quantitative score of 300)
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

At the time of application, students must identify the culminating experience that they wish to pursue. Students applying to the capstone course option are only considered for the online program. Students applying to the thesis or applied project option are only considered for the in-person program.

Applicants must provide evidence of successful completion of an undergraduate, or graduate, social science statistics and research methods course.

The statement of purpose should describe the educational background, scholarly interests and academic and professional goals of the applicant.

It is preferred that the letters of recommendation are from faculty members who know the applicant's work well; if these are not available, then recommendations should be from individuals in supervisory or professional roles. Two letters of recommendation are required. However, for the in-person program, three letters of recommendation are strongly recommended.

Applicants for the applied project or thesis program option (offered face-to-face) are required to submit a GRE score. Priority is given to applicants who have achieved a 305 or higher on the GRE.

Students applying to the capstone course option offered in the online delivery of the program are encouraged to submit GRE scores; it is a recommendation, not a requirement.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-psychology/>)

Career Opportunities:

The Master of Science degree program in psychology is specialized to prepare students for admission into doctoral programs in psychology in areas that include clinical or counseling, social, cognitive and developmental specialties.

Graduates may pursue professional research careers in education, health care or marketing. Though this program is not designed to prepare students for clinical practice, graduates may pursue a clinical internship and additional coursework to prepare for licensure exams.

Career examples include:

- community health workers
- health educators
- market research analysts and marketing specialists
- medical and health services managers

- mental health counselors
- psychology teachers, postsecondary
- social and human service assistants
- social and community service managers
- social science research assistants

Social Justice and Human Rights, MA (ASJHRMA)

Online Degree Search Title: Social Justice and Human Rights, MA

Campus: West, Online

Program Description:

From labor and migration to education and the environment, the MA program in social justice and human rights allows students to explore key topics and the legal, political, historical and cultural frameworks that contextualize them.

Students may focus on specific issues in international or domestic contexts, including refugee resettlement, immigration and citizenship, human trafficking, racialized violence, and international human rights law and organizations. In theoretically and methodologically rigorous courses taught by experienced faculty from various disciplines, students develop understanding of how social justice and human rights issues are defined by multiple and intersecting forms of inequality and social identity, including gender, race, ethnicity, class, sexuality and nationality. The program is well-suited to those aiming to channel their interests and passions towards ethical responses to social injustice and human rights abuses.

Many students complete internships domestically or internationally, with interns typically working alongside other researchers and advocates for social justice to grasp the complexities of the issues and to hone their abilities to work effectively in both research and advocacy contexts. Internships may also inform the basis of the culminating experience: a traditional Master of Arts thesis, an applied project or a capstone course.

Students in this program gain deeper insight into the theory and practice of social justice, human rights and humanitarian efforts, and they develop practical skills in research and grant writing.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- American Studies, BA
- Applied Science, BAS
- Biology, BA
- Communication, BS
- Communication, BA
- English, BA
- Environmental Science, BA
- Ethnicity, Race and First Nations Studies, BA
- Gender, Women and Sexuality Studies, BS
- History, BA
- Interdisciplinary Arts and Performance, BA
- Interdisciplinary Arts and Sciences, BA
- Latin American Studies, BA
- Philosophy, Religion and Society, BA
- Political Science, BS
- Political Science, BA
- Psychology, BA
- Psychology, BS
- Social Justice and Human Rights, BA
- Social and Behavioral Sciences, BS
- Social and Behavioral Sciences, BA
- Social and Cultural Analysis (American Studies), BA
- Social and Cultural Analysis (Ethnicity, Race and Indigenous Studies), BA

Social and Cultural Analysis (Latin American Studies), BA
Social and Cultural Analysis (Peace Studies), BA
Social and Cultural Analysis (Queer and Sexuality Studies), BA
Social and Cultural Analysis (Women and Gender Studies), BA
Sociology, BS
Sociology, BA
Women and Gender Studies, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

33 credit hours and a thesis, or 33 credit hours including the required applied project course (JHR 593), or 33 credit hours including the required capstone course (JHR 549).

Required Core (12 credit hours)

JHR 501 Proseminar in Social Justice and Human Rights (3)

JHR 506 Grant Writing for Social Justice and Human Rights (3)

JHR 510 Problem-Based Seminar in Social Justice and Human Rights (3)

JHR 525 Action Research in Social Justice and Human Rights (3)

Electives (3-6 credit hours)

Research (3 credit hours)

JHR 500 Research Methods (3)

Other Requirements (9 credit hours)

JHR 584 Internship (3) and
track coursework (6)

or

JHR 503 Gender Based Violence and Sex-Trafficking (3)

JHR 504 International Law and Organizations (3)

JHR 505 Migration, Asylum and Refugees (3)

Culminating Experience (3-6 credit hours)

JHR 549 Capstone in Social Justice and Human Rights (3) or

JHR 593 Applied Project (3) or

JHR 599 Thesis (6)

Additional Curriculum Information

The MA in Social Justice and Human Rights is delivered in-person and online. Students in each modality complete the same required core and research coursework; however, the other requirements and culminating experience options vary.

In-person --- Students attending in-person have the following options for other requirements and culminating experience selections:

- complete one of three tracks in social justice and human rights research, social justice and human rights advocacy, or critical trauma studies and social work in addition to a required internship
- complete JHR 593 Applied Project or JHR 599 Thesis for the culminating experience*
- select track and elective coursework in collaboration with faculty

*Students attending in-person who complete an applied project must complete six credit hours of electives; those who complete a thesis must complete only three credit hours.

Online --- Students in the online delivery option fulfill other requirements by completing JHR 503, JHR 504, and JHR 505. For the culminating experience, they complete the capstone course, JHR 549. Students in the online option must complete six credit hours of electives.

When approved by the academic unit, other requirements courses may be substituted.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- graduate application and application fee
- official transcripts
- statement of purpose
- two letters of recommendation
- an academic writing sample (preferred) or professional writing sample
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of purpose should describe the educational background, scholarly interests and academic and professional goals of the applicant.

It is preferred that letters of recommendation be from faculty members who know the applicant's work well; if these are not available, letters of recommendation from individuals in supervisory or professional roles will be accepted. If letters of recommendation from two faculty members are not available, then it is strongly preferred that at least one letter be from a faculty member.

A writing sample is recommended but not required for students applying to the digital immersion program. If the applicant does not meet the minimum GPA requirements, the application may still be considered.

Applicants should see the program website for application deadlines.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/social-justice-and-human-rights-ma/>)

Global Opportunities:

Global Experience:

Study abroad is possible for graduate students, with more than 50 program opportunities spanning seven continents. Faculty-directed programs tend to be the best fit for graduate students; taking courses with ASU professors during the summer or during academic breaks offers close mentorship and professional network growth in many fields of study while earning ASU credit. Exchange program participation is also possible with careful planning. More information is available on the Global Education website. <https://goglobal.asu.edu/students/graduate-students> (<https://goglobal.asu.edu/students/graduate-students>)

Career Opportunities:

Graduates with a master's degree in social justice and human rights can begin or advance their careers in advocacy work in nonprofit or government agencies, humanitarian work, international law and advocacy, as well as in careers that enable them to address forced migration, trafficking, and gender-based or racialized violence. Graduates from this program are well poised to pursue additional graduate education, such as law school or PhD programs.

Career examples include:

- advocate or lobbyist
- community organizer
- grant writer
- humanitarian aid worker
- policy analyst or researcher
- program officer
- public defender
- social justice specialist or consultant
- social service worker

Social Technologies, MA (ASSTCMA)

Online Degree Search Title: Social Technologies, MA

Campus: West, Online

Program Description:

The MA program in social technologies is for those interested in the ways new kinds of social data introduce challenges and opportunities to society.

The program combines a thorough grounding in digital social science with the skills needed for engaging in the analysis of social data. This unique combination provides graduates with the ability to understand and contribute to creating ethical social platforms. They are also well positioned to advise institutions, businesses and government agencies on appropriate policies, and to draw on large-scale trace data to help address significant social issues.

The rapid shift toward algorithmic structures of social interaction represents one of the most significant challenges to society, and questions of equity, privacy and autonomy have become a recurring theme running through many modern social problems. These technologies also may provide the keys for addressing substantial social issues. To critically analyze these socio-technical systems requires both technical abilities and an understanding of social theory.

ASU offers an Master of Arts in social technologies for those interested in engaging research at the intersection of data and society. It prepares graduates to be leaders in social data science, working with organizations to help them make ethical and effective use of social data, consulting on broader issues of social change and networked technologies, or continuing on to doctoral work in cognate fields.

Students in the program work through a series of courses that provide a grounding in social theory and digital research methods as well as opportunities to apply that knowledge to social issues.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Biology, BA
- Environmental Science, BA
- Psychology, BS
- Psychology, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

33 credit hours including a thesis, or 33 credit hours including the required capstone course (STC 570).

Required Core (27 credit hours)

- STC 501 Theories of Data and Society (3)
- STC 510 Data Wrangling (3)
- STC 512 Data, Places, People and Things (3)
- STC 527 Ethics and Policies of Social Data (3)
- STC 536 Networked Publics (3)
- STC 537 Technologies of Community (3)
- STC 539 Social Search and Filtering (3)
- STC 550 Computational Social Methods I (3)
- STC 551 Computational Social Methods II (3)

Other Requirements (0 or 3 credit hours)

- STC 528 Communicating Data Science (3)

Culminating Experience (3 or 6 credit hours)

- STC 570 Social Data Projects (3) or
- STC 599 Thesis (6)

Additional Curriculum Information

Students complete either a three credit hour capstone course (STC 570 Social Data Projects) or a six credit hour thesis (STC 599). Students who choose to complete the capstone course also complete STC 528.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- an academic writing sample (preferred) or professional writing sample
- GRE scores (optional)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of purpose should describe the educational background, scholarly interests and academic and professional goals of the applicant.

GRE scores are recommended, but not required for all applicants. Applicants who have a GPA of less than 3.00 in the last 60 credit hours of the bachelor's degree are strongly encouraged to provide GRE scores.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/social-data-science/>)

Career Opportunities:

Graduates of the Master of Arts program in social technologies should be well-positioned for research roles in businesses, nonprofits and government organizations. They also may move on to doctoral study.

The program deliberately seeks to be more reflective of the diversity of those who are affected by datafication and actively promote the careers of professionals who are underrepresented in data-related fields.

Career examples include:

- chief information officer
- communications director
- community manager
- data journalist
- intelligence or policy analyst
- program or project manager
- public affairs specialist
- social media manager
- social strategist
- research and data analyst

Digital Audience Strategy, MS (CSDASMS)

Online Degree Search Title: Digital Audience Strategy, MS

Campus: ASU@Los Angeles, Online

Admission to this program is limited to students who do not have an undergraduate degree or minor in digital audiences.

Program Description:

The MS program in digital audience strategy prepares students to design and execute digital strategies that connect audiences to goals through a data-driven, multidisciplinary, hands-on curriculum.

Students learn to measure and analyze how consumers interact with content online, on social media and on mobile devices. Using those measurement skills, students develop strategies and tactics to grow audiences through search engine optimization, search engine marketing, paid and organic social media campaigns, and digital content creation. They work with real-world clients to develop, test and execute audience growth strategies in real time.

Through required coursework in ethics, media law and entrepreneurship, students learn to make ethical business decisions regarding consumer privacy, digital data security and community engagement. Through elective courses, students develop additional expertise in areas such as management, audience data and intellectual property.

Students graduate from the program ready to drive audience growth, lead digital marketing and further business development in the digital age.

Note: This program is not eligible for federal financial aid in Los Angeles.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Journalism and Mass Communication, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required capstone course (MCO 566).

Required Core (21 credit hours)

MCO 503 Media Law (3)

MCO 556 Media Entrepreneurship (3)

MCO 561 Defining the Digital Audience (3)

MCO 562 Search Engine Strategy for Digital Audience Acquisition (3)

MCO 563 Social Media Campaigns and Engagement (3)

MCO 564 Digital Audience Research and Behavior (3)

MCO 565 Digital Audience Analytics (3)

Electives or Research (6 credit hours)

Culminating Experience (3 credit hours)

MCO 566 Digital Audience Management (3)

Additional Curriculum Information

For electives or research, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Walter Cronkite School of Journalism and Mass Communication.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in journalism, communications, public relations or a related field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement of intent
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. TOEFL scores must be at least 100 for the internet-based TOEFL iBT.

In 300 to 500 words, the personal statement of intent should describe the applicant's interest in the Master of Science program in digital audience strategy, explain how previous academic or professional experience will inform the applicant's work in the program and how the program will help achieve personal or career goals of the applicant.

Investigative Journalism, MA (CSINVJOURMA)

Online Degree Search Title: Investigative Journalism, MA

Campus: Downtown Phoenix

Program Description:

The MA program in investigative journalism prepares students to launch high-level investigative reporting careers at the world's most prestigious news organizations.

This program is designed for career switchers with experience in fields such as law, health, business, government and the arts, and for early-career to mid-career journalists who want to develop specialization in investigative techniques.

Students combine their existing knowledge with investigative reporting techniques, multimedia production skills and interdisciplinary research methods to produce storytelling with deep public impact.

Degree Requirements:

36 credit hours including the required capstone course (MCO 570).

Required Core (21 credit hours)

MCO 502 Journalism Skills (8)

MCO 503 Media Law (3)

MCO 510 Data Journalism (3)

MCO 530 History, Philosophy and Ethics of Journalism (3)

MCO 544 Accountability in Journalism (1)

MCO 545 Techniques of Investigative Reporting (3)

Research (6 credit hours)

Culminating Experience (9 credit hours)

MCO 570 Capstone Experience (9)

Additional Curriculum Information

Students must complete a total of eight credit hours of MCO 502, which is offered at variable credit hours and can be taken multiple times.

Students must complete six credit hours of interdisciplinary research methods courses offered under the MCO 591 course listing. Selection of these courses will require departmental approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Walter Cronkite School of Journalism and Mass Communication.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any discipline or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- GRE scores
- professional resume
- letter of intent
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants must receive a score of 100 (iBT) or better on the TOEFL.

Applicants should provide a 300- to 500-word statement describing interest in investigative journalism, career goals and how previous work and academic experience have prepared the student for success.

Global Opportunities:

Journalism and Mass Communication, PHD (CSJMCPHD)

Online Degree Search Title: Journalism and Mass Communication, PhD

Campus: Downtown Phoenix

Program Description:

The PhD program at the Walter Cronkite School of Journalism and Mass Communication is a highly individualized program that attracts seasoned media professionals transitioning to academia as well as recent graduates of master's degree-level journalism and communication and other related programs.

Students have access to the resources, training and mentorship they need to answer critical questions that challenge the fields of journalism, digital and social media, strategic communication and audience studies, and global mass communication.

The program is designed around core values of inclusion, collaboration and mentoring, transdisciplinarity, and original research.

Students are able to develop individual programs of study, taking coursework and drawing on knowledge and methodologies from diverse fields that

have a bearing on questions within mass communication. Examples include political science, film, computer and data sciences, sociology, anthropology and more.

At home in the Cronkite School, students work closely with faculty mentors and fellow students on collaborative projects as well as developing their own research program, and benefit from the advice and example of senior scholars for personalized guidance.

The ultimate goal of the program is to train scholars capable of identifying key questions, designing appropriate studies to investigate those questions, and conducting independent and impactful research. Students are exposed to a wide range of theories and methods so they can forge their own scholarly identity based on interests and aptitudes.

The Cronkite School is committed to creating an environment in which everyone feels they are represented, their experience is equitable, they are fully accepted for who they are, and that they are valued. The school strives daily to be a welcoming place for all members of the community, where the importance and contribution of each individual is valued and respected.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (18 credit hours)

Electives (18 credit hours)

Other Requirements (24 credit hours)

previous master's degree or additional hours approved by the supervisory committee (24)

Research (12 credit hours)

Dissertation (12 credit hours)

Additional Curriculum Information

Students should see the academic unit for an approved course list.

Students entering the program with a master's degree in journalism or mass communication, or a related field must complete 60 credit hours of coursework. Students who are admitted to the program without a master's degree are required to complete an additional 24 credit hours of coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Walter Cronkite School of Journalism and Mass Communication.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement of interest
- statement of research goals
- resume
- samples of scholarly work (optional)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. TOEFL scores must be at least 600 on the paper-based examination and 100 on the internet-based; a Duolingo score must be at least 120.

The personal statement of interest should be approximately 1,000-1,500 words and explain why the student wants to pursue a PhD in mass communication as well as why the Cronkite School program fits their career and personal aims.

The statement of research goals should indicate at least two Cronkite research faculty members with whom the student would like to work,

supported by relevant citations of the faculty members' scholarly publications.

Students should see the program website for application deadlines and admission terms. Applicants must meet all deadlines and application requirements to be considered.

The Cronkite School's doctoral committee reviews complete applications. Recommendations for admission are made to Graduate Admission Services, where the final admission decisions are made.

Career Opportunities:

Graduates with a doctorate in journalism and mass communication are prepared for any of a number of career opportunities.

Professionals with expertise in mass media and communications are in high demand as universities and institutions train the next generation of media professionals. Career examples include:

- communications professor
- journalism professor
- researcher
- social sciences professor

Mass Communication, MMC (CSMCOMMMC)

Online Degree Search Title: Master of Mass Communication, MMC

Campus: Downtown Phoenix

Program Description:

The Walter Cronkite School of Journalism and Mass Communication's MMC degree program uses the teaching hospital model to immerse students in the practices of journalism and strategic communications and prepares them for careers in today's rapidly evolving media industry.

This 36 credit hour program begins with a multimedia boot camp, teaching students how to report and produce stories with text, photo, video and audio elements. In the second semester, students can dive deeper into a selection of advanced courses, such as those focused on narrative writing, podcasting, advanced broadcast production, documentary production, health reporting, Spanish-language news, transborder coverage, strategic communications and digital entrepreneurship.

The program culminates in a professional immersion experience in one of the Cronkite School's strategic communication labs or news bureaus in Los Angeles, Phoenix or Washington, D.C. Working under the guidance of award-winning journalists and strategists, these capstone programs offer real-world experience in a professional news or agency environment.

The cornerstone of the graduate program is the journalism school's professional programs:

Cronkite News Phoenix --- Students report on topics such as sustainability, social justice, health, government and politics, producing a daily newscast on Arizona PBS, reaching 1.9 million households, and digital content for cronkitenews.azpbs.org (<https://cronkitenews.azpbs.org>), Cronkite News social platforms and partner sites across Arizona.

Cronkite News Washington --- Students cover Congress, the White House and the U.S. Supreme Court for Cronkite News and partner newsrooms.

Cronkite News Los Angeles --- Students report for Cronkite News and partner with newsrooms from the second-largest media market in the country.

Cronkite Noticias --- Students produce Spanish-language news for digital and broadcast platforms in collaboration with Univision Arizona.

Carnegie-Knight News21 --- Students produce major national investigations in partnership with newsrooms such as The Washington Post and NBCNews.com.

New Media Innovation and Entrepreneurship Lab --- Journalism, engineering, design and business students work together to create cutting-edge digital products and launch new businesses.

Public Relations Lab --- Students work in a strategic communications agency environment to develop campaigns for clients ranging from Fortune 500 companies to startups.

Digital Audiences Lab --- Students work in a first-of-its-kind professional immersion program working with real clients to grow, engage and measure their audiences in real time.

This program is also offered as a dual MD/MMC degree with the Mayo Clinic. For more information, students should visit the dual degree website: <https://mayo.asu.edu/dualdegrees#MMC> (<https://mayo.asu.edu/dualdegrees#MMC>).

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as concurrent degree program with:

- Legal Studies, MLS
- Sustainability Solutions, MSUS

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Journalism and Mass Communication, BA
- Sports Journalism, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required applied project course (MCO 593)-Mid-Career, or 30 credit hours including the required capstone course (MCO 570)-Mid-Career, or 36 credit hours including the required capstone course (MCO 570)-Full Time.

Required Core (9 credit hours)

- MCO 503 Media Law (3)
- MCO 510 Data Journalism (3) or MCO 536 Public Relations Research (3)
- MCO 525 21st-Century Media Organization and Entrepreneurship (3)

Electives (6 credit hours)

Other Requirements (12 credit hours)

- MCO 502 Journalism Skills (8)
- MCO 504 Journalism Skills Lab (1)
- MCO 530 History, Philosophy and Ethics of Journalism (3) or MCO 519 Strategic Communications Leadership and Ethics (3)

Culminating Experience (3 or 9 credit hours)

- MCO 570 Master of Mass Communication Capstone (3 or 9)
- MCO 593 Applied Project (3)

Additional Curriculum Information

The master's degree program is a full-time, 36 credit hour program. Students with extensive professional journalism experience may be offered the opportunity to pursue the 30 credit hour mid-career option.

Students must complete a total of eight credit hours of MCO 502, which is offered at variable credit hours and can be taken multiple times.

Students should see the academic unit for a complete list of approved electives. Other requirement coursework may be substituted with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Walter Cronkite School of Journalism and Mass Communication.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited

institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement of interest (350 to 500 words in length)
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. TOEFL scores must be at least 600 for the paper-based examination and 100 for the internet-based.

The Cronkite School's graduate committee reviews complete and on-time applications. Recommendations for admission are made to Graduate Admission Services, where the final admission decisions are made.

Global Opportunities:

Global Experience:

Study abroad is possible for graduate students, with more than 50 program opportunities spanning all seven continents. Faculty-directed programs tend to be the best fit for graduate students; taking courses over the summer or during academic breaks with ASU professors offers close mentorship and professional network growth in many fields of study while earning ASU credit. Exchange program participation is also possible with careful planning. Students can find more information on the Global Education website at <https://goglobal.asu.edu/students/graduate-students> (<https://goglobal.asu.edu/students/graduate-students>).

Career Opportunities:

The skills of strong reporting, research, writing and multimedia production are in high demand across industries, including in journalism, strategic communication, nonprofit leadership, international affairs, political advocacy and entrepreneurship.

Career examples include:

- digital strategist
- editor
- media executive
- photojournalist
- producer
- PR strategist
- reporter
- strategic communications leader
- videographer

Narrative and Emerging Media, MA (CSNEMMA)

Online Degree Search Title: Narrative and Emerging Media, MA

Campus: ASU@Los Angeles

Program Description:

In the MA program in narrative and emerging media, students learn how to tell stories that aren't just watched or read --- they're experienced. In under one year, students learn innovative storytelling techniques, explore the emerging media marketplace, connect with the field's top professionals, and develop critical media project management skills.

Through hands-on learning, students explore the entire landscape of emerging immersive media techniques including augmented reality, virtual reality, extended reality, 360 video, animated graphics, short-form digital video and documentary production to tell creative fictional stories or nonfiction journalistic work. Students capture and create content for workflow in multiple industries, and they learn to lead teams of producers, engineers, writers and artists across different technologies. They build business acumen too; central to the program is enhanced insight on research, development and the finance and business models driving the future of emerging media.

Delivered exclusively at ASU's California Center, the program immerses students in a state-of-the-art emerging media hub. The building includes a green screen studio that allows for virtual reality productions and live broadcasts, and a second Planar LCD studio, which allows for immersive film and video shoots. Students learn and work in these spaces to create compelling visual storytelling for client productions and their own passion projects.

Students engage in courses that anchor content creation and project management with communication theory and current case studies, along the way building a cohesive portfolio of professional work aligned with industry standards. Students also network and get critiques from industry professionals whose work may inspire their own. Students who complete the program are well-prepared to leap into creation, production and project management roles across the media industry, or pursue independent work.

Note: This program is not eligible for federal financial aid in Los Angeles.

Degree Requirements:

30 credit hours including the required applied project course (NEM 693).

Required Core (21 credit hours)

NEM 501 Emerging Media (3)

NEM 510 Narrative Development and Pre-Production (3)

NEM 515 Emerging Media Production (3)

NEM 530 Emerging Media Project Management (3)

NEM 550 Diversity and Ethics in Emerging Media (3)

NEM 585 Portfolio (1)

NEM 630 Emerging Media for Clients (3)

Other Requirements (3 credit hours)

NEM 520 AR/VR/XR for Storytelling (3)

NEM 525 Virtual Production for Storytelling (3)

NEM 601 Short Form and 360 Video Production (3)

Electives (3 credit hours)

Culminating Experience (3 credit hours)

NEM 593 Applied Project (3)

Additional Curriculum Information

NEM 585 is a one credit hour course that must be taken three times, for a total of three credit hours.

Students must complete one course from the Other Requirements list.

Admission Requirements:

Applicants must fulfill the requirements of the Graduate College, the Walter Cronkite School of Journalism and Mass Communication and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or they must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. TOEFL scores must be at least 100 for the internet-based TOEFL (iBT).

Global Opportunities:

Global Experience:

Students may use elective slots to participate in applicable study abroad experiences. Students are also encouraged to pursue work globally for their applied projects.

Career Opportunities:

This degree prepares students to thrive in a growing emerging media industry. According to a Burning Glass industry report in tandem with Epic Games (<https://www.burning-glass.com/research-project/visualizing-future-3d-skills-workforce/>), "Demand for 3D technology skills is growing quickly in the job market --- so quickly, in fact, that demand for these skills is outpacing the growth of the labor market overall." And according to EMSI data, job postings requiring skills in virtual reality are at an all-time high, with more than 13,000 jobs posted in August alone for roles such as advertising specialists and product developers at firms from Facebook to Deloitte.

Graduates are well-suited to careers in AR/VR/XR production, immersive storytelling, journalism and documentary production, and media project management, or to become entrepreneurial storytellers ready to seek funding for their own projects.

Sports Journalism, MA (CSSPJMA)

Online Degree Search Title: Sports Journalism, MA

Campus: Downtown Phoenix

Program Description:

Sports journalism is the fastest-growing sector of the news media industry, with continued growth on all platforms --- multimedia outlets, broadcast and cable channels and networks, radio and podcasting, and team, league and conference websites and social media platforms.

The Walter Cronkite School of Journalism and Mass Communication's MA program in sports journalism is a 36 credit hour, three-semester program providing students with unparalleled preparation for careers in sports media and communications.

Students begin with an intensive multimedia skills-based course, which teaches them to produce sports and news coverage across broadcast, digital and print platforms. From there, students choose advanced classes in sports reporting, videography, podcast production, live sports production, play-by-play, narrative writing, documentary video and participate in sports bureaus located in Phoenix and Los Angeles. Students learn the values and principles embodied by Walter Cronkite in classes that focus on sports journalism ethics and the challenges faced by the industry.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Journalism and Mass Communication, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

36 credit hours including the required capstone course (MCO 570).

Required Core (15 credit hours)

MCO 503 Media Law (3)

MCO 510 Data Journalism (3)

MCO 526 Advanced Issues in 21st Century Sports and Media (3)

MCO 529 Ethics and Diversity in Sports Journalism (3)
MCO 540 Sports Reporting (3)

Electives or Research (3 credit hours)

Other Requirement (9 credit hours)
MCO 502 Journalism Skills (8)
MCO 504 Journalism Skills Lab (1)

Culminating Experience (9 credit hours)
MCO 570 Capstone: Cronkite News - Los Angeles Sports Bureau (9) or
MCO 570 Capstone: Cronkite News - Phoenix Sports Bureau (9)

Additional Curriculum Information

Students must complete a total of eight credit hours of MCO 502, which is offered at variable credit hours and can be taken multiple times.

Students should see the academic unit for a complete list of approved electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Walter Cronkite School of Journalism and Mass Communication.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement of interest (350 to 500 words in length)
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. TOEFL scores must be at least 600 for the paper-based examination and 100 for the internet-based examination.

The Cronkite School's graduate committee reviews complete and on-time applications on a rolling basis, with priority for admissions and funding for applications received by December 1.

Global Opportunities:

Global Experience:

Study abroad is possible for graduate students, with more than 50 program opportunities spanning all seven continents. Faculty-directed programs tend to be the best fit for graduate students; taking courses over the summer or during academic breaks with ASU professors offers close mentorship and professional network growth in many fields of study while earning ASU credit. Exchange program participation is also possible with careful planning. Students can find more information on the Global Education website at <https://goglobal.asu.edu/students/graduate-students> (<https://goglobal.asu.edu/students/graduate-students>).

Career Opportunities:

Expertise in the sports journalism field is in high demand across sports organizations, news networks and digital media outlets. The high-value takeaways and tactical skills gained in the sports journalism master's degree program turn students into competitive candidates and sports journalism leaders.

Career opportunities for students who obtain a sports journalism master's degree include:

- sports editor
- sports news reporter
- sports play-by-play announcer
- sports PR and strategic communications professional

- sports television reporter
- sports television and video producer
- team, league or conference reporter

Law, Sandra Day O'Connor College of

Biotechnology and Genomics, LL.M. (LWGENOMLLM)

Online Degree Search Title: Biotechnology and Genomics, LLM

Campus: Downtown Phoenix

Program Description:

Today's lawyers must be prepared to handle challenges like those that surround international trade, evidentiary standards, personalized medicine, licensing and business planning, to name a few.

The LLM degree program in biotechnology and genomics is associated with the Center for Law, Science and Innovation, the nation's largest and oldest multidisciplinary research center focusing on the legal implications of new scientific discoveries and emerging technologies. The faculty has a long history of high-quality teaching, and a vast number hold postgraduate degrees in a wide array of sciences.

Coursework and research opportunities are diverse. Through classroom instruction and guided independent study, Master of Laws candidates examine the legal issues surrounding genetic applications such as:

- cloning
- forensic evidence
- gene testing
- gene therapy
- genetically modified organisms
- stem cells and behavioral genetics

The issues relate to:

- business planning
- confidentiality
- evidentiary standards
- intellectual property
- international trade
- liability
- licensing
- privacy
- regulation

Students in the Master of Laws program in biotechnology and genomics explore and examine the law that enables and constrains the development, control and application of biotechnology and genomics.

Forensic science and ethical constraints upon the various contemplated uses are also important elements of the program.

Because the legal, ethical and policy aspects of genomics and biotechnology are of global significance, this program is also beneficial for non-U.S. lawyers. Candidates for a Master of Laws degree must have received their JD or comparable terminal law degree from another country.

Degree Requirements:

The program is designed to be completed in nine months on a full-time basis but also may be pursued on a part-time basis. A degree candidate

must complete 24 credit hours of coursework to obtain the Master of Laws degree in biotechnology and genomics. A candidate may elect to write a graduate thesis for either three or six credit hours or can elect not to write a thesis and fulfill the equivalent credits with other coursework. Two required courses are: genetics and the law, and biotechnology: science, law and policy.

The remaining credit hours generally are obtained from the list of elective courses. With faculty advisor approval, a candidate may satisfy up to six credit hours with courses offered by other ASU departments or by law courses that are not included on the approved elective list.

Admission Requirements:

Applicants should see the program website for application deadlines.

Admission to the program is competitive. In order to be admitted, an applicant must have completed a Juris Doctor degree program or a law degree program at a foreign institution that would qualify the applicant to practice law or pursue license to practice in that country and have submitted a complete application to the program. Selection is based on:

- academic background and potential
- career experience and ambitions
- diversity of experience and background
- space and resource limitations in the law school
- strength of experience related to the program sought and other factors

For an application to be considered complete, it must include the following:

- completed Law School Admissions Council electronic application form, available at <https://law.asu.edu/admission/llm> (<https://law.asu.edu/admission/llm>)
- completed LLM Credential Assembly Service report: <https://www.lsac.org/llm-other-law-program-applicants/application-process-llm-other-law-programs> (<https://www.lsac.org/llm-other-law-program-applicants/application-process-llm-other-law-programs>)
- required application fee
- resume that does not exceed three typed pages
- personal statement that does not exceed 1,250 words (double-spaced typed pages)
- transcripts from all institutions attended, including the transcript showing that the bachelor's degree and law degree were conferred
- two letters of recommendation
- writing sample

Additional Application Information

Transcripts and letters of recommendation or evaluations must be submitted through the Law School Admissions Council's Credential Assembly Service and will be provided to the ASU College of Law by LSAC.

Applicants with degrees from foreign institutions must meet ASU Graduate College and Sandra Day O'Connor College of Law English proficiency requirements.

Career Opportunities:

Graduates of the Master of Laws program in biotechnology and genomics can excel in the following legal fields:

- agricultural law and policy
- bioethics
- biomedical research ethics and law
- biotechnology policy
- biotechnology licensing and litigation
- FDA regulation
- genetics and the law
- health law, particularly public health law
- intellectual property law
- nanotechnology law and policy
- neuroscience and the law
- patent law and patent litigation
- privacy

Health Law and Policy (Certificate), Certificate (LWHLPGRCT)

Online Degree Search Title: Health Law Policy (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

The health law and policy certificate at ASU's Sandra Day O'Connor College of Law is a pivotal component in launching a career in health law and policy.

The program is designed to immerse students in multiple areas of health law and policy, broadening their knowledge and skills in preparation for applied practice in public and private sectors, policy development or academic work.

Degree Requirements:

Required Core (5 credit hours)

LAW 650 Health Law (3)

LAW 651 Public Health Law (2)

Electives (10 credit hours)

Culminating Experience

writing requirement and active participation in health law

Additional Curriculum Information

Students are required to participate in at least one of the following activities; other activities consistent with this listing also may be considered by the program or certificate director or designee:

- active participation as an officer for at least one year in the student Health Law Society
- editorial board position for at least one year with JURIMETRICS
- health or public health law-based externships, upon approval from program director or designee, for at least one semester or summer session
- research assistantship for at least one semester or summer session with the Public Health Law and Policy Program or other centers or programs at ASU Law, provided research is focused predominantly on health-related topics

The student must write a substantial paper on a health or public health law topic of at least 15 single-spaced pages and under guidance of an ASU Law faculty member. Papers satisfying the college's graduation writing requirement or flexible writing requirement or law journal requirements can fulfill this certificate requirement, including as part of seminar courses among the elective courses.

Each student must earn a cumulative average grade of at least 3.00 (scale is 4.00 = "A") for courses taken to satisfy the substantive requirements of the health law and policy certificate. A student also must earn a minimum grade of a "B-" for any course applied toward the certificate.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must be existing JD or LLM students who are currently enrolled in coursework and in good academic standing with ASU Law.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- admission application for the certificate program through Law Interactive*
- proof of English proficiency

*Students should refer to the ASU Law website.

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered

for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Further specific requirements for admission to the certificate program can be found on the Sandra Day O'Connor College of Law website.

Career Opportunities:

ASU JD, LLM, and MLS students concentrating in health law and policy are finding career placements across the United States in an array of positions from diverse employers. Among the opportunities are employment with:

- government agencies at all levels
- health care entities
- health insurers
- law firms
- policy think tanks and academic institutions

For more information, students should consult the Office of Career Services and check out the listing of prominent health law alums and their current positions on the center's website.

Human Resources and Employment Law, MHREL (LWHREMREL)

Online Degree Search Title: Human Resources and Employment Law, MHREL

Campus: Downtown Phoenix, Online

Program Description:

The MHREL is a non-JD graduate program that specifically caters to both entry level and established non-lawyer human resources, recruitment and operations professionals who wish to understand the legal and regulatory framework that governs recruiting, hiring, maintaining, promoting and dismissing employees and independent contractors in the public and private sectors.

Students identify and solve critical employment-related problems facing organizations that only trained professionals understand by learning the complex legal and regulatory framework governing HR activities.

The Master of Human Resources and Employment Law program can be completed either in-person or online in one to three years, on a full-time or part-time basis.

Degree Requirements:

Required Core (18 credit hours)

SDO 501 U.S. Law and Legal Analysis: Masters (3)

SDO 531 Employment Law: Masters (3)

SDO 541 HR and Employment Law: Masters (3)

SDO 551 Duties, Obligations and Rights in the Workplace: Masters (3)

SDO 552 Employment Discrimination: Masters (3)

SDO 569 Advanced HR and Employment Law: Masters (3)

Electives or Research (9 credit hours)

Culminating Experience (3 credit hours)

SDO 685 Human Resource and Employment Law Capstone (3)

Additional Curriculum Information

Following completion of the six required core courses (18 credit hours), students in the Master of Human Resources and Employment Law program can select from varied elective courses (at least nine credit hours) that will count toward their degree. The pool of elective courses students can choose from include courses focused on employment law adjacent subject areas like privacy rights, dispute resolution and contracts. Students are also able to choose elective courses that present an opportunity to explore other legal areas that may interest them or be pertinent to their chosen

career path.

The degree culminates in a three credit hour capstone course that focuses on the practical application of knowledge and skills gained during the degree. During the capstone course, students evaluate the impact of various statutory and regulatory laws that affect the day-to-day operations of a human capital management professional, learn how to successfully navigate challenges these laws present, and manage relationships with varying employee groups at all organizational levels.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- professional resume
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants with foreign education credentials should have all transcripts evaluated by the Academic Credentials Evaluation Institute, Inc. ACEI independently evaluates all academic documents issued in countries other than the United States.

All applicants must meet the requirements of the Graduate College, as well as those at ASU Law. If English is not an applicant's native language, and an applicant has not completed a bachelor's degree or higher at a regionally accredited institution in the United States, the applicant must provide evidence of English proficiency as indicated by acceptable scores. Most competitive applicants should have a TOEFL score of at least 66 (pBT) or 90 (iBT), an IELTS score of at least 7.0, or a PTE score of at least 64. Exceptional candidates with relevant experience and background who have scores slightly below the thresholds above will also be considered. ASU's institutional code is 4007.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/hr-and-employment-law/>)

Career Opportunities:

Employment opportunities exist in supervisory and management positions in government agencies (federal, state and local) and the private sector including:

- compensation and benefits managers
- employment recruiters
- equal employment opportunity managers and specialists
- executive search consultants
- hiring managers
- human resources managers and specialists
- labor advocates
- labor relations specialists
- legal support workers
- ombudsman

Human resources employment is projected to grow faster than average (employment increase of 5% or more) in the U.S. and to have 100,000 or more job openings nationwide over the period 2019 to 2029.

The Society of Human Resources Management, a premier HR professional organization with 300,000+ members nationwide and globally, has recognized ASU Law as the first law school that is fully aligned with the SHRM curriculum guidelines. <https://www.shrm.org> (<https://www.shrm.org>)

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Indian Law (certificate), Certificate (LWLAWGRCI)

Online Degree Search Title: Indian Law (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

The Indian Law graduate certificate within ASU's Sandra Day O'Connor College of Law provides ASU Law students with the legal expertise to practice Indian law, real world experiences with tribal organizations, and opportunities for scholarship and externships. The certificate recognizes law students with extensive legal knowledge in tribal law and Federal Indian Law.

Established more than 30 years ago, the ILP is one of the most respected Indian law programs in the nation.

Degree Requirements:

The certificate program requires a minimum of 21 credit hours of substantive work in Indian law and related fields. The following courses are required:

LAW 632 Federal Indian Law I

LAW 704 Federal Indian Law II

LAW 776 Indian Legal Clinic

two advanced Indian law courses approved by the faculty director of the Indian Legal Program

The remaining credit hours are comprised of elective courses approved by the faculty director. Students must complete a substantial paper on an Indian law topic approved by the faculty director. Students must receive a grade of "C" (scale is 4.00 = "A") or above or a "Pass" in each course used to fulfill the Indian law certificate requirements.

More specific requirements for completion of the Indian law certificate can be found on the Sandra Day O'Connor College of Law website.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Students wishing to pursue the Indian law certificate must be enrolled in the Juris Doctor degree program at the Sandra Day O'Connor College of Law and must be in good standing. Specific requirements for the Indian law certificate program can be found at the college's website.

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

Graduates stand out to employers, especially if seeking a job in representing state, federal or tribal governments or representing companies that do business with tribes.

Working for tribes, in public service, private practice and nonprofit organizations, Indian Legal Program alumni are making a difference in Indian Country.

Juris Doctor of Law, JD (LWJDJD)

Online Degree Search Title: Juris Doctor, JD

Campus: Downtown Phoenix

Program Description:

The JD degree program from the Sandra Day O'Connor College of Law prepares the next generation of legal scholars to become successful lawyers. The Juris Doctor program offers a large selection of courses with options for transdisciplinary study with other departments on campus. Students find the opportunity to take classes with a more traditional, theoretical focus and to take advantage of many options that focus on the development of practice skills. The variety of focus areas offered by ASU Law include:

- business law
- criminal law
- health law
- Indian law
- intellectual property
- international law
- international rule of law and security
- law, science and technology
- law and sustainability
- patent practice
- sports law and business
- trial advocacy

ASU Law JD students must complete a total of 88 credit hours in order to graduate. First-year JD students take courses in civil procedure, contracts, torts, legal method and writing, property, constitutional law I, criminal law, legal advocacy and professional responsibility. After the first year, all courses are electives; students must satisfy two writing requirements and an experiential requirement in order to graduate. A full list of graduation requirements can be found on the ASU Law website: <https://law.asu.edu/aba-disclosures> (<https://law.asu.edu/aba-disclosures>).

Focus programs, (<https://law.asu.edu/degree-programs> (<https://law.asu.edu/degree-programs>)), certificates (<https://law.asu.edu/degree-programs/jd/certificates> (<https://law.asu.edu/degree-programs/jd/certificates>)), study abroad options (<https://law.asu.edu/experiences/abroad>) (<https://law.asu.edu/experiences/abroad>)), the Washington, D.C. campus, and many other opportunities are available, to enhance students' experiences.

Students can pursue a Juris Doctor concurrently with other degrees from ASU like an MBA, MSW, MSLB or a PhD in justice studies. Mayo Clinic School of Medicine students also have an opportunity to pursue a dual JD/MD degree. More information is available on the Mayo Clinic and ASU website: <https://mayo.asu.edu/dualdegrees> (<https://mayo.asu.edu/dualdegrees>).

A flexible schedule program is offered for students who wish to attend law school but cannot manage full-time enrollment due to other obligations in their lives; however, it is not an evening program. More information can be found on the ASU Law website at <https://law.asu.edu/degree-programs/jd/jd-flexible-schedule> (<https://law.asu.edu/degree-programs/jd/jd-flexible-schedule>).

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as concurrent degree program with:

- Justice Studies, PhD
- Social Work - Standard Program, MSW
- W. P. Carey MBA - Full-Time Program

Degree Requirements:

Required Core (30 credit hours)

LAW 515 Contracts (4)

LAW 516 Criminal Law (3)

LAW 517 Torts (4)

LAW 518 Civil Procedure (4)

LAW 519 Legal Method and Writing (3)

LAW 522 Constitutional Law (3)

LAW 523 Property (4)

LAW 524 Legal Advocacy (2)

LAW 638 Professional Responsibility (3)

Electives (58 credit hours)

Additional Curriculum Information

A minimum of 64 units must be obtained from courses that involve attendance at regularly scheduled class sessions. The following do not count toward these required 64 units: all externships; independent studies; non-LAW courses taken at the College of Law under section II A 11 c; credits received for working for a journal under section II A 11 d; credits received for Moot Court under section II A 11 e; credits received for being a teaching assistant under section II A 11 f; and credit from courses without regularly scheduled meetings.

Students should see the ASU Law's Statement of Student Policies for additional JD degree requirements.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

To be considered for admission to the JD program, applicants must have taken the LSAT (excludes applicants applying to the ASU Achievement Program) and have earned or will earn by the time of enrollment in law school a bachelor's degree that has been awarded by an institution that is accredited by an accrediting agency recognized by the United States Department of Education.

ASU Law requires applicants to apply electronically through the Law School Admission Council website at <https://www.lsac.org/> (<https://www.lsac.org/>).

An application for admission must include:

- electronic application (application fee waived for all 2021 applicants)
- personal statement (no more than two pages, double-spaced and font size no smaller than 11 point)
- resume (no more than two pages and font size no smaller than 11 point)
- character and fitness statement, if applicable, explaining affirmative answers to questions 1-8 in the Character and Fitness section
- binding admission contract, if applicable;
- a valid LSAT score (excludes applicants applying to the ASU Achievement Program)
- transcripts from each undergraduate and graduate institution attended (must be sent to LSAC)
- proof of English proficiency for applicants whose native language is not English regardless of current residency.

Applications may also include:

- letters of recommendation: no more than two letters submitted through LSAC to be included in applicant's Credential Assembly Service report*
- Optional addenda

*Since these are not required, the admission office will not wait for letters to complete an applicant's file for review.

Additional Application Information

The JD program enrolls one first-year class per year, entering in the fall semester. The degree is a three-year full-time program. However, ASU Law offers a flexible scheduling option for students with circumstances that make full-time enrollment impossible, but it is not an evening program. Admission to ASU Law is competitive and each year ASU Law receives more applications from eligible candidates than can be accommodated.

ASU Law seeks to enroll a dynamic group of individuals that will provide an engaging learning environment. The admissions committee makes decisions after considering all the information provided by the applicant. Among the factors influencing the admission decision are LSAT performance, undergraduate grade point average, quality and grading patterns of undergraduate institutions, previous graduate education, demonstrated commitment to public service, work and leadership experience, extracurricular or community activities, history of overcoming economic or other disadvantages, uniqueness of experience and background, maturity, ability to communicate, foreign language proficiency, honors and awards, service in the armed forces, and publications.

For detailed information about the Juris Doctor application process, interested applicants are asked to visit the ASU Law website. <https://law.asu.edu/admission/jd> (<https://law.asu.edu/admission/jd>)

Global Opportunities:

Global Experience:

Study abroad is possible for graduate students, with more than 50 program opportunities spanning seven continents. Faculty-directed programs tend to be the best fit for graduate students; taking courses over the summer or during academic breaks with ASU professors offers close mentorship and professional network growth in many fields of study while earning ASU credit. Exchange program participation is also possible with careful planning. More information is available on the Global Education website. <https://goglobal.asu.edu/students/graduate-students> (<https://goglobal.asu.edu/students/graduate-students>)

Career Opportunities:

According to the U.S. Bureau of Labor Statistics, employment of lawyers is projected to grow 9% between 2020 and 2030. The Juris Doctor degree can lead to a lucrative career in any of several fields.

Career examples include:

- administrative or regulatory attorney
- antitrust lawyer
- appellate lawyer
- arbitration, mediation and dispute resolution attorney
- banking lawyer
- chief executive officer
- chief legal officer
- compliance attorney
- corporate lawyer
- criminal prosecutor or criminal defense attorney
- education lawyer
- elder law attorney
- environmental lawyer
- family lawyer or divorce attorney
- health care lawyer
- human rights or civil rights lawyer
- immigration attorney
- intellectual property lawyer
- international lawyer
- judge advocate in the U.S. military
- judicial clerk
- law firm administrator
- law firm partner
- law school professor
- politician or member of congress
- tax lawyer

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Law and Sustainability (Certificate), Certificate (LWLSUSGRCT)

Online Degree Search Title: Law and Sustainability (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

The law and sustainability graduate certificate within ASU's Sandra Day O'Connor College of Law is designed to propel ASU Law students into

environmental sustainability-related legal careers.

Environmental sustainability is a primary emphasis at ASU, and this certificate program leverages that emphasis by recognizing those law students who have successively immersed themselves in sustainability-related law coursework during their time at the law school.

The certificate program provides instruction and meaningful research experiences, equipping students with the knowledge and skills necessary to become influential leaders in the global sustainability movement. The program's renowned faculty research and teach in every major area of sustainability policy, including climate change, water, energy and environmental protection. Students in the program have access to a range of externships, research opportunities, moot court experiences and mentorships.

Degree Requirements:

Required Core (6 credit hours)

LAW 619 Energy Law and Policy (3)

LAW 631 Environmental Law (3)

LAW 639 Natural Resource Law (3)

LAW 643 Water Law (3)

Electives (9 credit hours)

Culminating Experience

writing requirement and active participation in sustainability law

Additional Curriculum Information

Students must select two of the required core courses from the above list.

The academic unit maintains a list of preapproved elective coursework. Students should contact the academic unit for the current list.

Students must earn a cumulative grade point average of at least 3.00 (scale is 4.00 = "A") for those courses taken to satisfy the substantive coursework requirement for the law and sustainability certificate. Students also must earn a minimum grade of "B" in any approved elective course taken outside of the Sandra Day O'Connor College of Law.

To earn the certificate, students must participate in at least two different activities from the following list:

- completion of a sustainability-focused legal externship approved by the program or faculty director
- completion of the Sustainability Law Research Seminar
- membership on the elected board of the law school's Environmental Law Society student chapter
- participation in an extramural environmental or sustainability moot court competition approved by the program or faculty director
- participation as a mentee in the Mentorship Initiative in Sustainability Law

Each student must write a substantial paper on a topic related to law and sustainability. The paper must be at least 15 pages in length and written under the guidance of a member of the Sandra Day O'Connor College of Law faculty. A sustainability-related paper written to satisfy ASU Law's graduate writing requirement or flexible writing requirement can fulfill this writing requirement, including a paper written as part of a seminar course included on the list of elective courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution. Applicants must be existing JD or LLM students who are currently enrolled in coursework and in good academic standing with ASU Law.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- an admission application for the certificate program through Law Interactive*
- proof of English proficiency

*Students should refer to the Sandra Day O'Connor College of Law website.

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Further specific requirements for admission to the certificate program can be found on the Sandra Day O'Connor College of Law website.

Career Opportunities:

Due to ASU Law's close proximity to dozens of law firms, government offices and other legal employers in sustainability-related fields, numerous ASU law students involved in the law and sustainability program secure legal externships each year. Externships that ASU law students have participated in recently include: Arizona Attorney General's Office, Arizona Corporation Commission, Arizona Department of Environmental Quality, Arizona State Legislature, City of Mesa, City of Scottsdale, Climate Institute, Gammage and Burnham PLC, Kyl Center for Water Policy, Office of Water Master, Rose Law Group PC, Salt River Project, and the United States Environmental Protection Agency.

Law, Science, & Technology (certificate), Certificate (LWLAWSTCE)

Online Degree Search Title: Law, Science, and Technology (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

The law, science, and technology certificate program is for students with science and technology interests and is limited to students in good standing pursuing a JD degree at the Sandra Day O'Connor College of Law.

At ASU, the law, science and technology program is home to intellectual property, life sciences and biotechnology, and governance of emerging technologies focus areas, as well as the newest addition: data, privacy and security. In each area, the program offers a specialized graduate certificate with robust coursework, student cohorts with attorney and faculty mentorship, and presentation and publication opportunities. In addition, the program collaborates with five ASU Law student organizations, programs in health law, international law and sustainability law, and other ASU partners to create an interdisciplinary understanding of the issues driven by science and technology that span all areas of law, policy and practice.

Students may choose to earn a general certificate or focus in one or more of the following areas:

- data, privacy and security
- intellectual property
- life sciences

Degree Requirements:

Students must satisfy their graduation writing requirement on a topic related to law, science and technology. The paper must meet all of the Sandra Day O'Connor College of Law requirements for a graduation writing requirement and must be supervised by a center fellow.

A minimum cumulative GPA of 3.00 (scale is 4.00 = "A") is required for those courses that satisfy the substantive coursework requirements of the certificate. Courses used to satisfy the core or focus area requirements may not be taken for pass or fail credit. A student may take one elective course on a pass or fail basis.

Substantive coursework is required in law, science and technology subjects for a minimum of seven courses, earning at least 16 credit hours, at the Sandra Day O'Connor College of Law. Two courses are chosen from the designated core courses and five courses are chosen from a list of elective courses.

Each student is encouraged to actively participate in the events (lectures, conferences, symposia) sponsored by the Center for Law, Science and Innovation and to participate in at least one approved activity for two semesters.

Additional details of the program requirements for the law, science and technology certificate can be found in the Sandra Day O'Connor College of Law Statement of Student Policies.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Students wishing to pursue the law, science and technology certificate must be enrolled in the JD program at the Sandra Day O'Connor College of Law and be in good standing.

Specific requirements for admission to the law, science and technology certificate program can be found on the college website.

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

The certificate in law, science and technology is designed for those interested in becoming an attorney and practicing law with an emphasis in law, science and technology. Careers include practicing attorneys in intellectual property, life sciences, data, privacy and security legal sectors.

Laws, LL.M. (LAWLAWSLLM)

Online Degree Search Title: Laws, LLM

Campus: Downtown Phoenix, Online

Program Description:

The LLM program allows one year of post-JD study tailored to the scholarly and practice interests of participating students. Study is available in a variety of areas in which the law school holds particular strength.

With more than 250 unique courses to choose from each year (<https://law.asu.edu/admissions/courses>), the 24 credit hour Master of Laws program is customized to meet students' career goals with focus on popular areas of study: <https://law.asu.edu/degree-programs>. The graduate program is flexible with fall and spring starts as well as full-time and part-time options. In order to be admitted to the Master of Laws program, applicants must have completed a Juris Doctor degree or a law degree at a foreign institution that would qualify an applicant to practice law.

The college also offers a Master of Laws in biotechnology and genomics (<https://law.asu.edu/focus-areas/biotech-genomics>) and in tribal policy, law and government (<https://law.asu.edu/indian-legal-program>).

To learn more, students should attend one of many provided information sessions, which may be found at <https://law.asu.edu/visit>.

Emphasis areas include:

- business law: <https://law.asu.edu/emphasis-areas/business-law>
- criminal law: <https://law.asu.edu/emphasis-areas/criminal-law>
- entrepreneurship law and strategy: <https://law.asu.edu/emphasis-areas/entrepreneurship-law-strategy>
- health law: <https://law.asu.edu/emphasis-areas/public-health-law-policy>
- Indian gaming: <https://law.asu.edu/emphasis-areas/indian-gaming-governance>
- Indian law: <https://law.asu.edu/indian-legal-program>
- intellectual property law: <https://law.asu.edu/programs/intellectual-property>
- international law: <https://law.asu.edu/emphasis-areas/international>
- international rule of law and security: <https://law.asu.edu/programs/irls>
- law and sustainability: <https://law.asu.edu/programs/sustainability>
- patent practice: <https://law.asu.edu/emphasis-areas/patent>
- science and technology law: <https://law.asu.edu/emphasis-areas/law-technology>
- tribal self-governance: <https://law.asu.edu/emphasis-areas/indian-gaming-governance>

governance)

Degree Requirements:

The program requires 24 credit hours. Required courses depend on the student's particular concentration in the degree. International students are required to take LAW 596 Professional Legal Writing. A candidate may elect either to write a master's degree portfolio paper or complete an applied project. The remaining credit hours generally are obtained from the list of elective courses. With faculty advisor approval, a candidate may satisfy up to six credit hours with courses offered by other ASU departments or by law courses that are not included on the approved elective list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants are eligible to apply to the program if they have earned a Juris Doctor degree in the U.S. or a law degree at a foreign institution that would qualify the applicant to practice law or pursue license to practice in that country.

All applicants must submit:

- completed LLM application form
- official transcripts from all institutions attended
- explanations to affirmative answers to any conduct questions
- resume, not exceeding three typed pages
- statement of interest, not exceeding 1,250 words (double-spaced, typed pages)
- two letters of recommendation
- writing sample
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should see the Sandra Day O'Connor College of Law website for acceptable TOEFL scores and additional information for foreign educated applicants.

All foreign educated applicants are required to use the Law School Admission Council LLM Credential Assembly Service, which includes the ASU Law Electronic Application, the Document Assembly Service, and the International Transcript and Authentication Service. Students should refer to the special instructions for foreign-educated applicants at <https://law.asu.edu/admissions/apply/llm/foreign> (<https://law.asu.edu/admissions/apply/llm/foreign>).

Complete the LSAC Electronic Application found at <https://llm.lsac.org/login/access.aspx?appl=4007L1> (<https://llm.lsac.org/login/access.aspx?appl=4007L1>).

Complete the CAS report. The CAS report must be from the current application year. <https://www.lsac.org/> (<https://www.lsac.org/>)
U.S.-educated applicants have the option of applying through the LSAC LLM Credential Assembly Service, which includes the ASU Law Electronic Application and Document Assembly Service or applying through the ASU Law website using the LLM application form found at <https://www.law.asu.edu/LLMApp> (<https://www.law.asu.edu/LLMApp>).

ASU law alumni graduates who are interested in the LLM should refer to the Law for Life program. <https://law.asu.edu/alumni> (<https://law.asu.edu/alumni>)

Transcripts and letters of recommendation or evaluations must be submitted through the Law School Admissions Council's Credential Assembly Service and these are provided to the ASU College of Law by LSAC. Transcripts are required from all institutions attended, and transcripts showing that the bachelor's degree and law degree were conferred must be included. Applicants who encounter any problems should contact the LSAC help desk at 215-968-1001.

For applications to be considered complete, submissions must include all items in the bulleted list above.

Admission to the program is competitive. Selection is based on academic background and potential, diversity of experience and background, career experience and ambitions, strength of experience related to the program sought, space and resource limitations in the law school and other factors.

Applicants should see the program website for application deadlines.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-of-laws/>)

Career Opportunities:

According to the U.S. Bureau of Labor Statistics, employment of lawyers is projected to grow 9% between 2020 and 2030. The Master of Laws degree can lead to a number of opportunities in the legal profession at large, helping current lawyers advance in their careers by refining their leadership skills, becoming fluent with advanced terminology, and developing a keen sense of professionalism.

Career examples include:

- chief executive officer
- chief legal officer
- judge
- law firm administrator
- law firm partner
- law school professor
- litigation support director
- politician or member of Congress
- private banker

Laws (Global Legal Studies), LL.M. (LAWLGLPLLM)

Online Degree Search Title: Laws (Global Legal Studies), LLM

Campus: Downtown Phoenix

Program Description:

The LLM program allows one year of post-JD study tailored to the scholarly and practice interests of participating students.

The program draws on the unique focus of the center and the faculty's international and transnational legal expertise in global health, the environment, human rights, trade and emerging technologies. The program emphasizes transdisciplinary study and links rigorous legal training with the research and scholarship drawn from political science, policy studies, anthropology and sustainability.

Students can take a wide variety of courses on international topics, ranging from international environmental law to international human rights law to international institutions. These include business-related courses such as international contracts, international taxation, international commercial arbitration and international business transactions.

Student who participate in externships gain practical experience that makes them more competitive for jobs at home and abroad. ASU Law can place every eligible enrolled student into an externship at organizations in Arizona (<https://law.asu.edu/locations/phoenix>) or Washington, D.C., like the U.S. State Department, World Bank, International Rescue Committee, Department of Homeland Security and Human Rights First. ASU Law DC-based externship opportunities are available to view here: <https://law.asu.edu/experiences/externships> (<https://law.asu.edu/experiences/externships>). The opportunity for students to network with international decision-makers, opinion leaders and top practitioners is further amplified through ASU's large presence in Washington, D.C. (<https://washingtondc.asu.edu/#why-is-asu-in-washington-dc>) (<https://washingtondc.asu.edu/#why-is-asu-in-washington-dc>).

Students can develop professionally by engaging with globally minded leaders in the legal, government and business communities. For instance, the Phoenix Committee on Foreign Relations hosts events and other forums for select students to engage with prominent leaders and practitioners on trending international issues.

Each year, the Sandra Day O'Connor College of Law holds a workshop with the American Red Cross on international humanitarian law that brings students, members of the military and community leaders together to learn more about the principles governing armed conflict.

Degree Requirements:

The program is designed to be completed in one academic year (nine months) on a full-time basis but may also be pursued on a part-time basis. A degree program candidate must complete 24 credit hours of coursework. A candidate may elect to write a master's degree portfolio paper or, instead, can elect to complete an applied project. Required coursework includes two of the following courses:

LAW 615 Public International Law (3)
LAW 691 Seminar: International Institutions (2)
LAW 709 International Human Rights (2-3)
LAW 768 International Business Transactions (2-4)

An international student whose initial law degree is not from a U.S. law school is required to take the following course:

LAW 596 Professional Legal Writing (3)

The remaining credit hours are generally obtained from the list of elective courses in international law.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants are eligible to apply to the program if they have earned a Juris Doctor degree in the U.S. or a law degree at a foreign institution that would qualify the applicant to practice law or pursue license to practice in that country.

All applicants must submit:

- completed LLM application form
- official transcripts
- resume, not exceeding three typed pages
- statement of interest, not exceeding 1,250 words (double-spaced, typed pages)
- two letters of recommendation
- writing sample
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should see the College of Law website for acceptable TOEFL scores and additional information for foreign educated applicants.

Applicants are encouraged to apply electronically through <https://www.lsac.org> (<https://www.lsac.org/>).

Transcripts and letters of recommendation or evaluations must be submitted through the Law School Admissions Council's Credential Assembly Service and are provided to the ASU College of Law by LSAC. Transcripts are required from all institutions attended, and transcripts showing that the bachelor's degree and law degree were conferred must be included.

Admission to the program is competitive. Selection is based on academic background and potential, diversity of experience and background, career experience and ambitions, strength of experience related to the program sought, space and resource limitations in the law school and other factors.

Potential applicants should see the program website for application deadlines.

Career Opportunities:

According to the U.S. Bureau of Labor Statistics, employment of lawyers is projected to grow 9% between 2020 and 2030. The Master of Laws degree can lead to a number of opportunities in the legal profession at large, helping current lawyers advance in their careers by refining their leadership skills, becoming fluent with advanced terminology, developing a keen sense of professionalism, and learning how to navigate an ever-changing global environment.

Pursuant to American Bar Association standards, no law credits completed prior to admission to a JD program, including credits earned in the Master of Legal Studies program, may be transferred to a future Juris Doctor program under any circumstances.

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as concurrent degree program with:

- Information Systems Management, MS
- Management, MS
- Master of Mass Communication, MMC
- Real Estate Development, MRED

Degree Requirements:

The program consists of 30 credit hours of approved study. The degree program can be completed on a full-time or part-time basis. Students are required to take:

LAW 581 U.S. Law and Legal Analysis (3)

Students are required to choose one of the following basic foundational courses:

LAW 515 Contracts* or LAW 530 Fundamentals of Contract Law (4/3)

LAW 516 Criminal Law (3)*

LAW 517 Torts (2/4)*

LAW 518 Civil Procedure (3/5)*

LAW 522 Constitutional Law (3)*

LAW 523 Property (2/4)*

LAW 602 Civil Procedure II (3/4)

LAW 604 Criminal Procedure (3)

LAW 625 Survey of Individual Rights in Constitutional Law (3/4)

LAW 654 Business Organizations (3/4)

LAW 664 Intellectual Property (2/4)

*Students may enroll in no more than two of the courses marked with an asterisk.

The remainder of the credits are electives. Elective course selection is flexible, to accommodate the diversity of intellectual and professional interests the program is intended to serve.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from an accredited four-year college or university in the United States or attained a comparable degree from a foreign institution.

All applicants must submit:

- completed MLS application form and application fee
- official transcripts from all institutions attended
- proof of English proficiency
- resume that does not exceed three typed pages

Additional Application Information

Applicants who have received their bachelor's or master's degree in the U.S. can apply through the MLS FastApp application process, which streamlines the application process and may allow for an offer of conditional admission to the MLS program while the applicant continues to submit any additional requested documentation.

If a decision cannot be made from the FastApp, the Sandra Day O'Connor College of Law Admissions team may request additional information from the applicant, including any or all of the following:

- writing sample
- explanations to affirmative answers to application questions pertaining to conduct
- two letters of recommendation

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should see the Sandra Day O'Connor College of Law website for acceptable TOEFL scores and additional information for foreign-educated applicants.

MLS applicants with foreign education credentials must have all transcripts evaluated by the Academic Credentials Evaluation Institute, Inc. independently evaluates all academic documents issued in countries other than the United States. Students should contact ACEI through that organization's website to obtain an application for an evaluation. Applicants must request a course-by-course evaluation and order an official copy be sent directly to:

Arizona State University
Beus Center for Law and Society
Office of Admissions and Financial Aid
Mail Code: 9520
111 E Taylor St.
Phoenix, AZ 85004

Admission to the program is competitive. Selection is based on a variety of factors, including academic background and potential, diversity of experience and background, career experience and ambitions, space and resource limitations in the law school and other factors.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-legal-studies/>)

Career Opportunities:

The Master of Legal Studies degree is designed for those looking to obtain working knowledge of the law but do not intend on becoming practicing lawyers. Graduates have achieved training in complicated legal topics and lawyering skills that prove invaluable to law firms, court systems, government agencies and corporations. There are many career paths for graduates, including:

- accreditation director
- fraud investigator
- operations director
- risk analyst
- senior administrator (e.g., inside a law firm)
- senior business analyst
- senior contract negotiator
- Senior compliance director

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage. <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>)

Sports Law and Business, MSLB (LWSLBMSLB)

Online Degree Search Title: Sports Law and Business, MSLB

Campus: Downtown Phoenix

Program Description:

The MSLB program at the Sandra Day O'Connor College of Law at Arizona State University is centrally located in vibrant downtown Phoenix. This unique program blends sports, law and business from a nationally ranked law school with world-class faculty, including MLB Commissioner Emeritus Allan "Bud" Selig.

The sports law and business program uses the expertise of world-class faculty and programming to provide specialized and targeted experiences for legal scholars with career aspirations in sports. It is the only law master's degree program in the U.S. that combines sports, law and business into one comprehensive program.

This in-person 36-credit hour degree program is offered in the fall semester and has both full-time and part-time student opportunities. The program offers admitted students the opportunity to apply for the following opportunities: The Allan "Bud" Selig Scholarship, the SLB Graduate Assistant Team, and the MSLB Graduate Assistantship positions with Sun Devil Athletics. These opportunities are only available to students who have been accepted into the Master of Sports Law and Business program.

Degree Requirements:

Required Core (21 credit hours)

SLB 510 Amateur Sports Law: MSLB (3) or SLB 512 Professional Sports Law: MSLB (3)

SLB 511 Career Strategies and Business Communications in the Sports Industry (3)

SLB 514 Negotiations and Alternative Dispute Resolutions in the Sports Industry (3)

SLB 515 Sports Business Strategies and Executive Decisions (3)

SLB 517 Marketing for Sports Organizations (3)

SLB 518 Sports Analytics (3)

SLB 581 U.S. Law and Legal Analysis Through Sport: MSLB (3) or LAW 519 Legal Method and Writing (3)

Electives or Research (12 credit hours)

SLB 516 Revenue Generation in the Sports Industry (3)

SLB 519 Pro Sports Team Operations and Legal Issues: MSLB (3)

SLB 522 NCAA Compliance, Infractions and Enforcement: MSLB (3)

SLB 523 MLB's Impact on Law and Society: MSLB (1-3)

SLB 524 Law and Business of Sports Branding: MSLB (3)

SLB 525 Sports Big Events: Law/Biz/Ops: MSLB (3)

SLB 598 Topic: Innovating Sports Organizations: Leadership and Diversity and Inclusion (3)

SLB 598 Topic: Sports Sponsorship, Partnership, and Activations (3)

SLB 598 Topic: Strategic Planning for the Future in Sports (3)

Culminating Experience (3-6 credit hours)

SLB 593 Applied Project (3-6)

Additional Curriculum Information

Students must complete a minimum of three credits with a maximum of six credits of an applied project to serve as their culminating experience.

This allows for additional applied projects for those who want to apply their studies to varying experiences.

Admission Requirements:

Applicants must fulfill and complete all requirements in order for their application to be reviewed. Applicants that submit an incomplete application or do not provide all of the required documents will not be reviewed by the admissions committee.

In addition to the MSLB application, applicants are required to submit the following documents:

- official transcripts or unofficial transcripts
- resume (fewer than 3 pages)
- personal statement; a minimum of 1,250 words is required
- two professional letters of recommendation

Additional application requirements may be requested. For updates on these items, students may visit the ASU Law website:

<https://law.asu.edu/admission/mslb> (<https://law.asu.edu/admission/mslb>).

Applications are reviewed on a rolling admissions basis. Once an application has been reviewed, an applicant may be selected for an interview based on the qualifications of the application.

A minimum of a bachelor's degree from a regionally accredited four-year college or university in the United States or a comparable degree from a foreign institution is required.

Admissions into the sports law and business program is only offered for the Fall semester. Applicants do not have the option to apply for Spring or Summer semester start date.

International Student Application Information

An applicant whose native language is not English must provide proof of English proficiency as indicated by acceptable scores regardless of current residency. Applicants should have a TOEFL score more than 600 (paper), 250 (computer), or 100 (internet). Exceptional candidates with relevant experience and background who have scores of at least 590 (paper), 243 (computer) or 96 (internet) also are considered. ASU's institutional code is 4007. This proof of English proficiency is required for international students and must be included in the documents required for the MSLB application.

Applicants who have received undergraduate or graduate degrees from foreign institutions must have their transcripts evaluated by World Education Services, and WES must send that evaluation to the offices of the Sandra Day O'Connor College of Law. Evaluation of international transcripts must be reviewed and included in the application.

Additional Application Information

Transcripts

Official transcripts from all postsecondary institutions of higher education attended must be submitted to mslbasu@asu.edu (mailto:mslbasu@asu.edu) or mailed to the ASU Law Admission Office. An official transcript is a transcript certified by the issuing school and sent directly to ASU or delivered to ASU in a sealed envelope with a seal intact.

Character and Fitness

If an applicant answers Yes to any of the questions in this section, a separate statement or electronic attachment providing a complete description of the actions and full details of the charges and sanctions against the applicant must be included. The applicant also must include any charges that have been expunged, sealed or set aside, even if told by a judge or attorney it is not necessary to include. Additionally, the applicant should provide a personal account of the events that led to the charges or discipline. Failure to include this information results in an incomplete application. Incomplete applications will not be reviewed by the admission committee.

Admission to the Master of Sports Law and Business program is very competitive. Selection is based on a variety of factors, including academic background, experience and background in the sports industry, personal statement and goals, and other factors determined through the application process.

Career Opportunities:

Graduates are equipped to understand the sports market and the regulatory forces at play in the U.S. and globally.

Phoenix is a destination for the next generation of sports professionals, boasting opportunities for working, learning and networking in every major industry in American sports.

ASU Law's Master of Sports Law and Business program prepares graduates for a career in the sports industry at the highest levels and is geared toward those who want to master legal principles that impact sports organizations such as the NBA, NFL, NCAA, MLB or PGA.

Trial Advocacy (Certificate), Certificate (LWTAGRCT)

Online Degree Search Title: Trial Advocacy (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

The graduate certificate program in trial advocacy provides students interested in pursuing a career in criminal prosecution, criminal defense or civil litigation with a prescribed course of study to help prepare them for practice.

Degree Requirements:

Required Core (6 credit hours)

LAW 602 Civil Procedure II (3) or LAW 604 Criminal Procedure (3)

LAW 605 Evidence (3)

Alternative Dispute Resolution Requirement (2 credit hours)

Litigation Requirement (3 credit hours)

Electives (4 credit hours)

Other requirements

practical experience in client representation

Additional Curriculum Information

To earn the certificate, a student must take classes in courtroom practice and procedure as well as alternative dispute resolution, participate in experiential learning either through simulation-based instruction in litigation and courtroom advocacy or by representing clients in a clinical setting,

and gain additional practical experience through pro bono service, participation in a moot court competition or enrollment in a Rule 38 externship.

Students must complete four credit hours of electives from a selection of over 40 classes.

For the Alternative Dispute Resolution requirement, students must complete a minimum of two credit hours from the Alternative Dispute Resolution requirement course list.

For the Litigation requirements, students must complete a minimum of three credit hours from the Litigation requirement course list.

Students must gain practical experience in client representation by completing one of the following while maintaining continuous enrollment:

- completion of a Rule 38 externship
- pro bono service --- minimum of 50 hours working with an approved legal services organization
- representation of ASU Law in a regional, national or international moot court competition

Additional information on what specific courses can be used to fulfill the certificate requirements can be found on the ASU Law trial advocacy page.

Admission Requirements:

Applicants must fulfill the requirements of the both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Applicants must be existing JD program students who are currently enrolled in coursework and in good academic standing with ASU Law.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- trial advocacy certificate application
- graduate application through Law Interactive (applicants should refer to the ASU Law website)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Further specific requirements for admission to the certificate program can be found on the Sandra Day O'Connor College of Law website.

Career Opportunities:

The trial advocacy graduate certificate serves as a credential representing to future employers and clients that a JD student has a demonstrated interest in trial advocacy and a solid foundation in the knowledge and the skills needed to succeed in the field.

Tribal Policy, Law and Government, LL.M. (LWTBLMLAWS)

Online Degree Search Title: Tribal Policy, Law, and Government, LLM

Campus: Downtown Phoenix

Program Description:

This LLM program is designed for lawyers and law school graduates who will work on issues related to tribal law and federal Indian law at the professional and academic levels. The Master of Laws program in tribal policy, law, and government can be focused in three areas: Indian gaming; tribal self-governance; or tribal policy, law and government. Core curricular offerings focus on domestic tribal law, federal Indian law and American

institutions of law and government. The program explores the expression of domestic law within contemporary administrative, governmental and judicial institutions.

Home to the nationally known Indian Legal Program, the Sandra Day O'Connor College of Law leads the nation in producing graduates specializing in Indian law. Candidates benefit from the extensive resources committed to the Indian Legal Program, including a director, experienced Native faculty and staff, and an Indian law clinic.

Arizona State University is located in the heart of the southwestern U.S., home to roughly one-third of the native population in the U.S. and where many of the largest Indian nations in the country are located. The university is the academic home for several nationally known scholars researching American Indian issues and houses many unique resources for such scholarship, including the Labriola Collection at Hayden Library.

Degree Requirements:

The program is administered by the Indian Legal Program and is oriented toward students who seek practical experience in tribal law and federal Indian law. It provides intensive instruction to students who graduated from a law school that had few or no courses in Indian law and who now seek to practice in these areas at a professional level. This degree program requires a minimum of 24 credit hours of study. A thesis is not required.

Students immerse themselves in the study of tribal law and federal Indian law and apply the knowledge and experience they gain through the practical component of the degree program which may consist of research projects for tribal courts and governments; state, tribal and federal court practice; and tribal code drafting.

Graduates are well equipped for professional positions that require knowledge and expertise in tribal law and federal Indian law. Students have the option of pursuing the degree on a part-time basis.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and College of Law English proficiency requirements.

Admission to the program is competitive. In order to be admitted, an applicant must have completed a JD degree or law degree at a foreign institution that would qualify the applicant to practice law or pursue license to practice in that country and have submitted a complete application to the program.

Selection is based on academic background and potential, career experience and ambitions, diversity of experience and background, space and resource limitations in the law school, and the applicant's strength of experience related to the program sought, as well as other factors.

Applicants are encouraged to apply electronically through the Law School Admission Council website: <https://www.lsac.org> (<https://www.lsac.org>).

For an application to be considered complete, it must include the following:

- the completed LLM application form
- the required application fee
- a resume that does not exceed three typed pages
- a statement of interest that does not exceed 1,250 words, typed and double-spaced
- transcripts from all institutions attended, including the transcript showing that the bachelor's degree and law degree were conferred
- two letters of recommendation
- a writing sample

Transcripts and letters of recommendation or evaluations must be submitted through the Law School Admissions Council's Credential Assembly Service and are provided to ASU Law by LSAC.

Students should see the program website for application deadlines.

Career Opportunities:

According to the U.S. Bureau of Labor Statistics, employment of lawyers is projected to grow 9% between 2020 and 2030. The Master of Laws in tribal policy, law and government program can lead to a number of opportunities in Indian law, at large, helping current lawyers advance in their careers by refining their leadership skills, becoming fluent with advanced terminology, and developing a keen sense of professionalism.

Graduates of the program are prepared for lucrative careers in government, economic development or health care positions that impact Native populations.

Career examples include:

- chief executive officer

- chief legal officer
- court justice
- election director for Native communities
- judge
- law firm administrator
- law firm partner
- law school professor
- litigation support director
- politician or member of congress
- private banker for Native communities

Liberal Arts and Sciences, The College of

Actuarial Science, MS (LAACTMS)

Online Degree Search Title: Actuarial Science, MS

Campus: Tempe

Program Description:

The MS program in actuarial science emphasizes broad awareness and appreciation of current issues faced by insurance industry practitioners as well as innovative resolutions provided by actuaries.

Students advance their knowledge base by applying mathematical and statistical concepts and data analytics to the disciplines of risk management, finance and insurance. It also includes a new focused set of professional learning outcomes aligned with the needs of the ever-evolving insurance industry, while keeping the core technical learning outcomes in place. These guide students' development of professional competencies through coursework, independent projects and opportunities outside of the classroom, while remaining firmly based on a strong foundation of scholarly technical work in actuarial science.

Actuaries must pass a series of intensive professional exams to become credentialed. Program graduates are prepared for the examinations required to become credentialed professionals by the Society of Actuaries or Casualty Actuarial Society and to be competitive employees in the insurance and finance industries.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Actuarial Science, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including an applied project (ACT 593).

Required Core (6 credit hours)

ACT 560 Advanced Data Analytics in Insurance I (3)

ACT 561 Advanced Data analytics in Insurance II (3)

Electives or Research (21 credit hours)

Culminating Experience (3 credit hours)

ACT 593 Applied Project (3)

Additional Curriculum Information

For electives and research, students select seven courses from an approved list. Students should see the academic unit for the approved course list. Other courses may be used with approval of the academic unit.

Only six credit hours of 400-level coursework is allowed on the plan of study per Graduate College policy.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree (or equivalent) or master's degree from a regionally accredited college or university in a related field such as mathematics, statistics, business, economics and predictive analytics.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- letter of intent or written statement
- two letters of recommendation
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants should have completed the following courses with a "B" or better (scale is 4.00 = "A"). ASU equivalents are given in parenthesis.

Courses may be substituted with approval of the academic unit:

Linear Algebra (MAT 342 or MAT 343)

Calculus Sequence 1-3 (MAT 270, 271, and MAT 272)

Applied Statistics (STP 420)

Upper-division Probability (ACT 415 or STP 421)

Career Opportunities:

Risk is a part of daily life, and wherever there is risk there are opportunities for actuarial intervention. Many actuaries work with insurance companies to calculate premiums, determine reserves needed to ensure an organization's financial health and to ensure organizations conform to stringent, complex legal mandates. Others help companies to establish retirement plans or are employed as consultants.

Graduates possess skills that are transferable to any industry and any organization that requires risk modeling and management, including:

- colleges and universities
- consulting firms
- energy, such as utilities, oil and gas
- environment (on issues such as climate change and the financial impact or risk of extreme events)
- financial services, such as banking and investment management
- government agencies such as Social Security, the Department of Labor and Medicare (to manage social programs and to develop regulations and legislation)
- insurance companies
- retirement and pensions
- transportation, such as shipping and air travel

Graduates can also apply the advanced problem-solving skills to a variety of other professional careers, including:

- analysts
- business operations specialists
- consultants
- teachers

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information,

students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure>

Addiction and Substance-Use Related Disorders (certificate), Certificate (LAASRDGRCT)

Online Degree Search Title: Addiction and Substance-Use Related Disorders (Graduate Certificate)

Campus: Online

Program Description:

Addiction and substance abuse is one of America's top public health problems, and there is a growing need for well-trained addictions counselors.

The graduate certificate in addiction and substance-use related disorders pairs state-of-the-art research by internationally recognized experts in addictions with clinical expertise of licensed psychologists and licensed substance abuse counselors who have decades of experience providing substance abuse treatment.

This program is valuable for those in counseling, social work, psychology, medicine and various fields of therapy who provide services to individuals and families suffering from addiction and substance use disorders.

The addiction certificate meets all the curricular requirements of the Arizona State Board of Behavioral Health Examiners for licensure in substance abuse counseling as well as most national and state certification requirements.

Degree Requirements:

21 credit hours.

Required Core (18 credit hours)

PSY 570 Psychopharmacology (3)

PSY 601 Addiction and Substance Abuse: Assessment and Diagnosis (3)

PSY 602 Comorbidity in Substance Use Related Problems (3)

PSY 603 Evidence-Based Interventions for Substance Use Related Problems (3)

PSY 604 Multicultural Issues Related to Substance Use Related Problems (3)

PSY 605 Group Therapy for Substance Use-Related Problems (3)

Other Requirements (3)

PSY 591 Topic: Ethics (3)

Additional Curriculum Information

This graduate certificate meets all seven of the core content curricular requirements for the Arizona State Board of Behavioral Health Examiners, for students interested in pursuing licensure in substance abuse counseling. In addition, the course is in compliance with national certification curriculum guidelines.

PSY 591 can be substituted with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any health, behavioral health or counseling-related field, from a regionally accredited institution or an equivalent degree from an international institution that is officially recognized by that country.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee

- official transcripts
- curriculum vitae or resume
- one letter or recommendation
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/certificates/addiction-and-substance-use-related-disorders-graduate/>)

Career Opportunities:

Substance abuse counselor jobs can be incredibly rewarding and offer a wide variety of experiences. Jobs are available in substance abuse treatment centers; community mental health agencies; the primary care, integrated health and criminal justice fields; hospitals; schools and universities; and military and veteran's affairs. The U.S. Bureau of Labor Statistics expects employment of substance abuse counselors to grow 22% between 2018 and 2028, much faster than other occupations. Job prospects are expected to be very good for counselors who are licensed.

Career examples include:

- addiction counselor
- licensed addiction counselor
- licensed substance abuse counselor
- substance abuse counselor
- substance abuse technician

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Addiction Psychology, MS (LAADPSYMS)

Online Degree Search Title: Addiction Psychology, MS

Campus: Tempe, Online

Program Description:

The MS program in addiction psychology pairs state-of-the-art research from internationally recognized experts in addictions with clinical expertise from licensed psychologists and licensed addiction counselors who have decades of experience providing addiction treatment. This program meets the educational requirements necessary to pursue subsequent licensure as an addiction counselor.

Degree Requirements:

45 credit hours including the required applied project course (PSY 593).

Required Core (27 credit hours)

PSY 570 Psychopharmacology (3)

PSY 601 Addiction and Substance Abuse: Assessment and Diagnosis (3)

PSY 602 Comorbidity in Substance Use Related Problems (3)

PSY 603 Evidence-based Interventions for Substance Use Related Problems (3)

PSY 604 Multicultural Issues Related to Substance Use Related Problems (3)

PSY 605 Group Therapy for Substance Use-Related Problems (3)
PSY 606 Case Management for Substance Use Related Problems (3)
PSY 607 Family and Adolescent Treatment for Substance Use Related Problems (3)
PSY 608 Supervision of Addictions Counselors (3)

Research (3 credit hours)
PSY 600 Research Methods (3)

Other Requirements (9 credit hours)
PSY 591 Seminar: Ethics (3)
PSY 680 Practicum (6)

Culminating Experience (6 credit hours)
PSY 593 Applied Project (6)

Additional Curriculum Information

Students complete six credit hours of practicum, which consists of 600 hours of applied work as an addiction counselor under supervision of licensed substance abuse counselors. With support from program advisors, students arrange for a supervision experience at a licensed addiction treatment center where they are located that will provide supervision as part of the training experience. Program staff will verify the licensure status of the agency and supervisor and maintain a practicum training agreement. The practicum course also includes a weekly didactic class that facilitates the training process and monitors for any problems and successful completion of the practicum experience.

The culminating experience is a six credit hour applied project. For the applied project, students evaluate existing research on addiction treatment, identify gaps in the literature, and generate a study or recommendations that contribute to the field of addiction psychology. The applied project course also includes completion of a practice licensing exam that helps prepare students to obtain state licensure as an addiction counselor.

Completion of the Master of Science program in addiction psychology does not result in licensure as an addictions counselor. Pursuit of state licensure is a part of career development and occurs subsequent to completion of a terminal degree. State governments administer licensing, and have several requirements, including educational and training requirements (which this program meets), supervised work experience (as a part of employment after completion of the degree), and passing a licensing exam that is administered through the state licensing entity (this program prepares students for this licensing exam, but the exam is taken after completion of the degree).

Courses listed for other requirements may be substituted with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in health, behavioral health, psychology, counseling or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or they must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- professional resume
- two letters of recommendation
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

African Studies (certificate), Certificate (LAAFRICACE)

Online Degree Search Title: African Studies (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate program in African studies focuses on interdisciplinary study of the peoples, history and cultures of Africa and the multifaceted experiences of people of African descent in Europe and the Americas. Students gain access to an extensive range of information and systematic knowledge committed to the new model of African and African diaspora studies that focuses on the intersections of race, culture and gender with transdisciplinary perspectives.

Courses examine interdisciplinary approaches to studying race, ethnicity, social justice, gender, citizenship and economic development. Students study issues in African and African American history, migration patterns, art, literature, religion, family life and education, as well as how race and institutional racism have impacted the development of African descended people in America and around the world.

As this certificate program offers students an international dimension to the study of peoples and cultures of African descent, students enhance their knowledge about global issues and further expand their research pursuits. The program characterizes the faculty members' intellectual and research strengths and the curriculum's transdisciplinary strategies and research approaches that highlight the continuities and disjuncture of history and experiences throughout Africa and the diaspora.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

AFR 502 Africa and African Diaspora World (3)

Electives (12 credit hours)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Students who are not regularly admitted to a graduate degree program may still pursue the certificate.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program. When applicable, applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in a master's degree program.

Applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Official copies of transcripts must be submitted from all college and universities where the applicant earned a bachelor's or master's degree.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Employ appropriate theory and methods in the study of the African Diaspora at a graduate level.
- Apply knowledge of the African Diaspora

Career Opportunities:

Students who earn a graduate certificate in African studies have many career opportunities, including being able to:

- attend graduate school in any number of disciplines, including anthropology, archeology, history, political science, psychology and sociology
- attend medical school or law school
- pursue a career in journalism, teaching, law enforcement, social policy, human rights or civil rights
- start their own business
- write novels or screen plays

American Indian Studies (Cultural Resource Revitalization and Sustainability), MS (LAAISCMS)

Online Degree Search Title: American Indian Studies (Cultural Resource Revitalization and Sust), MS

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

The MS program in American Indian studies is a transdisciplinary program that results in students having an intellectual and practical understanding of the issues facing American Indian populations and the ability to apply that knowledge.

Students acquire problem-solving skills useful in a range of professional arenas, including government, private and nonprofit agencies. The focus of this curriculum is on languages, cultures, arts, activism, histories, legal policy and education from an American Indian studies paradigm perspective. Delivery is mainly through in-person courses.

The cultural resource revitalization and sustainability concentration explores the development and implementation of American Indian-focused cultural resource management processes and analyzes how policies and laws can improve or hinder the protection of American Indian cultural and funerary patrimony.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (AIS 580).

Required Core (9 credit hours)

AIS 501 American Indian Studies Paradigms (3)

AIS 502 American Indian Studies Research Methods (3)

AIS 503 Contemporary Issues of American Indian Nations (3)

Concentration (9 credit hours)

Electives (6 credit hours)

Culminating Experience (6 credit hours)

AIS 580 Practicum (6) or

AIS 599 Thesis (6)

Additional Curriculum Information

Students may select a thesis or nonthesis option. Thesis students are involved in a major research project under the direction of their faculty

advisors, culminating in a thesis. This is the option students should select if they have an interest in a research-oriented position within an organization or agency or wish to pursue a doctoral degree. Nonthesis students complete an applied project that identifies and addresses an applied problem or issue relevant to a partner agency or organization under the direction of their faculty advisors. This is the option students should select if they are interested in a leadership or managerial level position within an organization or agency.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited college or university of recognized standing in a related field such as history, justice study, sociology, ethnic studies, anthropology, political science or education.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should visit <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>) for more information.

Career Opportunities:

After leaving ASU, many graduates:

- conduct research related to indigenous culture revitalization
- direct or manage Indigenous culture organizations or companies
- facilitate indigenous community partnerships and projects

American Indian Studies (Indigenous Rights and Social Justice), MS (LAAISIMS)

Online Degree Search Title: American Indian Studies (Indigenous Rights and Social Justice), MS

Campus: Tempe

Program Description:

The MS in American Indian studies is a transdisciplinary program that provides students with an intellectual and practical understanding of the issues facing American Indian populations and helps students strengthen their ability to apply that knowledge. Students acquire problem-solving skills in a range of professional arenas, including governmental, private and nonprofit agencies.

The program focuses on languages, cultures, the arts, activism, histories, legal policies and education from an American Indian studies paradigm and perspective. Delivery is through in-person courses.

The Indigenous rights and social justice concentration explores the historical dimensions of colonization on American Indian political, economic and cultural institutions. Students analyze the legal, political and social implications of American Indian relationships with federal, state and local governments and investigate processes that American Indian nations and community members use to strategize and work toward social justice and Indigenous rights.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

American Indian Studies, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (AIS 580).

Required Core (9 credit hours)

AIS 501 American Indian Studies Paradigms (3)

AIS 502 American Indian Studies Research Methods (3)

AIS 503 Contemporary Issues of American Indian Nations (3)

Concentration (9 credit hours)

Electives (6 credit hours)

Culminating Experience (6 credit hours)

American Indian Studies (Tribal Leadership and Governance), MS (LAAISTMS)

Online Degree Search Title: American Indian Studies (Tribal Leadership and Governance), MS

Campus: Tempe

Program Description:

The MS in American Indian studies is a transdisciplinary program that provides students with an intellectual and practical understanding of the issues facing American Indian populations and helps students strengthen their ability to apply that knowledge. Students acquire problem-solving skills useful in a range of professional arenas, including governmental, private and nonprofit agencies.

The program focuses on languages, cultures, arts, activism, histories, legal policy and education from an American Indian studies paradigm and perspective. Delivery is through in-person courses.

The tribal leadership and governance concentration explores traditional and modern concepts of Indian education leadership, tribal government leadership, tribal governments, decision-making and legislation, constitutional reform, planning, economic development, community development, nation rebuilding, tribal courts, administration and planning.

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as a concurrent program with the following: Public Administration, MPA

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

American Indian Studies, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

American Indian Studies (Visual and Oral Culture), MS (LAAISVMS)

Online Degree Search Title: American Indian Studies (Visual and Oral Culture), MS

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

The MS program in American Indian studies is a transdisciplinary program that results in students having an intellectual and practical understanding of the issues facing American Indian populations and the ability to apply that knowledge.

Students gain problem-solving skills in a range of professional arenas, including governmental, private and nonprofit agencies. The program focuses on the languages, cultures, arts, activism, histories, legal policy and education from an American Indian studies perspective. Delivery is through in-person courses.

The visual and oral culture concentration explores and contributes to American Indian culture and history as it exists in visual, material and written forms through creative writing, literature, poetry, film, photography, performing arts, digital arts, oral tradition, history and communication from an American Indian studies paradigm.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (AIS 580).

Required Core (9 credit hours)

AIS 501 American Indian Studies Paradigms (3)

AIS 502 American Indian Studies Research Methods (3)

AIS 503 Contemporary Issues of American Indian Nations (3)

Concentration (9 credit hours)

Electives (6 credit hours)

Culminating Experience (6 credit hours)
AIS 580 Practicum (6) or
AIS 599 Thesis (6)

Additional Curriculum Information

For concentration and electives options, students should see the academic unit for approved courses.

Students select a thesis or nonthesis option. Both are research projects, but the applied project is more applied in nature. Thesis students are involved in a major research project under the direction of their faculty advisors, culminating in a thesis. This is the option students should select if they have an interest in a research-oriented position within an organization or agency or wish to pursue a doctoral degree. Nonthesis students complete a practicum project that identifies and addresses an applied problem or issue relevant to a partner agency or organization under the direction of their faculty advisors. This is the option students should select if they are interested in a leadership or managerial-level position within an organization or agency.

The required core classes emphasize the knowledge and skills all graduates must have. Concentrations and electives are designed so students can concentrate in the areas of visual and oral culture, Indigenous rights and social justice, cultural resource revitalization, and sustainability or tribal leadership and governance.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited college or university of recognized standing in a related field such as history, justice studies, sociology, ethnic studies, anthropology, political science or education.

Applicants must have a minimum cumulative GPA of a 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of a 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should visit <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>) for more information.

Career Opportunities:

After leaving ASU, many graduates:

American Studies, MA (LAAMSTMA)

Online Degree Search Title: American Studies, MA

Campus: Tempe

Program Description:

ASU's MA program in American studies trains students in interdisciplinary approaches aimed at understanding the American experience in local and global contexts.

The array of disciplines spans the arts, humanities and social sciences, and faculty expertise covers a broad range of ethnographic, historical, literary and media studies as well as interdisciplinary and community-based approaches. Given its geographical location in the American Southwest, ASU's American studies program values an exploration of diasporic and transnational influences in U.S. cultures and social and political history.

The American studies faculty have strengths and expertise in the areas of critical ethnic studies, Indigenous studies, gender studies, Black studies, immigration studies, justice studies, disability studies, queer studies, Latino studies, transborder studies, Asian American studies, cultural studies, environmental humanities and sports studies, allowing students to focus their education around these areas.

Students gain expertise from working in a community of scholars dedicated to addressing critical questions of what America means, what American studies uncovers, and how to expand the boundaries of the new American conversation. Graduate students are immersed in conversations of how one develops, conducts and engages in research on the American experience in academia and beyond. Additionally, faculty and students include the role of other nations, cultures and communities in their study of the meaning of America and critically evaluate the United States in global matters.

American studies graduates can bridge a strong theoretical foundation with applied research to better equip them to enter national and international dialogues.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Asian Pacific American Studies, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (AMS 593).

Required Core (3 credit hours)

AMS 502 American Studies: Theory and Method (3)

Other Requirements (3 credit hours)

Methods Course (3)

Electives or Research (18 or 21 credit hours)

Culminating Experience (3 or 6 credit hours)

AMS 593 Applied Project (3) or

AMS 599 Thesis (6)

Additional Curriculum Information

Students must complete one methods course for the degree with academic advisor approval; AMS 502 cannot be used to meet this requirement. These courses can be drawn from a wide array of units across the various campuses of Arizona State University, but students should take advantage of the SST graduate methods courses. The academic unit will send lists of SST methods courses once per semester; students should consult with their faculty advisor/chairperson and get approval from the graduate chairperson in American Studies to determine the best classes.

For electives or research, students should see the academic unit for the approved course list. Students choose 18 credit hours for the thesis option or 21 for the applied project option.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
 - writing sample
- curriculum vitae
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. The history program requires a TOEFL score of at least 600 (PBT) or 90 (iBT).

The writing sample may be an article, published or unpublished; a research paper; a seminar paper; or any other extended sample of expository skill. A minimum of 4,000 to 5,000 words is required. The document should not be password protected.

The statement of purpose should be addressed to the American Studies Graduate Studies Committee. It must explain the applicant's scholarly background and training, career goals, the area of study the applicant wishes to pursue, and why the applicant wants to pursue graduate study at ASU. It must be about 500 words in length.

Two references are required. Applicants should contact faculty or professional supervisors they intend to use for references prior to listing them on the application and inform the intended recommenders that they will be receiving an email from the ASU American studies program asking them to complete a questionnaire and provide comments on the applicant's suitability for graduate study. Updated email addresses for references should be confirmed before submitting them on the application. References from family members or relations are not recommended.

Career Opportunities:

Graduates may go on to law school, graduate school or other professional degree programs. Graduates of the Master of Arts program in American studies find success in a number of areas, in local and international contexts, including the following:

- business
- communications
- education
- government positions
- journalism
- law and medical fields
- nonprofits
- political consulting
- professional writing
- public engagement and community relations

Animal Behavior, PHD (LAANBPHD)

Online Degree Search Title: Animal Behavior, PhD

Campus: Tempe

Program Description:

The PhD program in animal behavior is a transdisciplinary graduate degree program that provides doctoral-level training in mechanistic and functional approaches to understanding behavior in a variety of animal taxa.

The study of behavior is at the interface of several scientific disciplines, including physiology, anatomy, neuroscience, ecology and evolution. This program offers the diverse but specialized array of skills and knowledge needed to produce excellent research in animal behavior.

Students gain knowledge and skills with applied scientific value in areas such as veterinary science and mental and behavioral health in humans. The ecological focus of the program feeds into local, state and global priorities in biological conservation and ecosystem sustainability.

Degree Requirements:

84 credit hours, a oral and written exam, a prospectus and a dissertation.

Required Core (8 credit hours)

ANB 601 Research Strategies in Animal Behavior (4)

ANB 602 Current Issues in Animal Behavior (4)

Electives or Research (64 credit hours)

The department and the student's advisor determine these courses in conjunction with the student.

Culminating Experience (12 credit hours)

dissertation (12)

Additional Curriculum Information

Core courses ANB 601 and ANB 602 are one credit hour courses, each taken four times.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in a related discipline, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admissions application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

A doctorate in animal behavior provides strong preparation for academic careers at every level, from community colleges to research universities. The skills and knowledge obtained in this program are also valuable for government careers in federal and state agencies responsible for wildlife management and conservation and for conservation-related careers in nongovernmental organizations.

Career examples include:

- animal scientist
- biology professor
- conservation biologist
- postsecondary biology teacher
- wildlife biologist

Anthropology, PHD (LAANTHRPHD)

Online Degree Search Title: Anthropology, PhD

Campus: Tempe

Program Description:

The School of Human Evolution and Social Change is an excellent choice for students interested in pursuing a PhD in the classic fields of anthropology:

- archaeology
- bioarchaeology
- evolutionary anthropology
- sociocultural anthropology

It is also an ideal environment for students who want to combine these approaches and other disciplines to explore specific issues or research questions within a transdisciplinary context. The flexible graduate curricula are designed to encourage students to design innovative plans of study in order to pursue their interests while receiving broad training in key areas. The anthropology faculty actively engage with faculty in other disciplines, including:

- applied mathematics
- chemistry
- environmental economics
- epidemiology
- formal modeling
- genetics
- sociology
- sustainability
- technology and society
- urban planning

The training students receive in this program prepares them to become expert scholars able to contribute not only to their chosen field but also to finding solutions to humankind's greatest challenges. This program provides training in data analysis and research design within the context of human evolution, archaeology and the wider field of anthropology. Through anthropological coursework, students learn how to ask important questions about the human species and employ statistics to analyze and extract meaning from data. Students will learn to appreciate humanity's place in nature and the long history of human societal change.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Students entering with a master's degree in a related field may be granted up to 30 credit hours toward the 84 credit hours required for the doctorate. This leaves 30 credit hours of coursework, 12 credit hours of research and 12 credit hours of dissertation (54 credit hours total) to be earned post-admission.

Students entering without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio which is formally evaluated by a faculty committee, and present that research in a public forum before continuing on in the later stage of the doctorate.

All students must maintain a GPA of 3.20 (scale is 4.00 = "A") in their courses and complete degree requirements per the program's satisfactory progress policy.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Undergraduate coursework in anthropology is not a prerequisite for admission but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of general anthropology in a manner to be specified at the time of admission.

Applicants also may submit with their application materials an optional scholarly writing sample not to exceed 30 double-spaced pages.

Career Opportunities:

The demand in the job market for people with an anthropology background is stimulated by a growing need for researchers and analysts with keen thinking skills who can manage, evaluate and interpret large amounts of data. As the many spheres of human interaction expand globally, people trained in anthropology are increasingly sought for their broad, holistic knowledge and perspectives, which are the hallmarks of anthropology. Some career opportunities include:

- acting as legal advocates in international cases
- analyzing and proposing policies
- conducting postgraduate academic research
- consulting for private and public organizations
- curating cultural resources
- directing nonprofit organizations
- directing programs in the private or public sector
- managing culture or heritage resources in private or public sectors
- modeling infectious diseases
- planning communities
- teaching

Anthropology (Complex Adaptive Systems Science), PHD (LAANTHCPHD)

Online Degree Search Title: Anthropology (Complex Adaptive Systems Science), PhD

Campus: Tempe

Program Description:

The School of Human Evolution and Social Change is an excellent choice for students wanting to pursue a PhD in the classic fields of anthropology: archaeology, bioarchaeology, evolutionary anthropology and sociocultural anthropology.

It is also an ideal environment for students who want to combine these approaches and other disciplines to explore specific issues or research questions within a transdisciplinary context. The flexible graduate curricula are designed to encourage students to design innovative plans of study to pursue their interests while receiving broad training in key areas. The anthropology faculty actively engage with faculty in other disciplines; these include applied mathematics, chemistry, environmental economics, epidemiology, formal modeling, genetics, sociology, sustainability, technology and society, and urban planning.

The complex adaptive systems science doctoral concentration trains the next generation of scientists in advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences. The program is tightly integrated with diverse, ongoing, university-wide research on complex adaptive systems science at Arizona State University and emphasizes the value of a complex adaptive perspective to give better insight and a more active role in seeking solutions to a broad array of critical issues facing society today. The training students receive in this program prepares them to become expert scholars able to contribute not only to their chosen field but to finding solutions to humankind's greatest challenges.

This degree program provides training in data analysis and research design within the context of human evolution, archaeology and the wider field of anthropology. In this program, through anthropological coursework, students learn how to ask important questions about the human species and employ statistics to analyze and extract meaning from data. Students learn to appreciate their place in nature and the long history of human societal change that brought them to where they are today.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Students entering with a master's degree in a related field may be granted up to 30 credit hours toward the 84 credit hour total required for the doctorate degree program. This leaves 30 credit hours of coursework, 12 credit hours of research and 12 credit hours of dissertation (54 credit hours total) to be earned post-admission.

Students entering without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio which is formally evaluated by a faculty committee, and present that research in a public forum before continuing on in the later stage of the doctoral degree program.

All students must maintain an average GPA of 3.20 (scale is 4.00 = "A") in their courses and complete degree requirements per the program's satisfactory progress policy.

For the concentration in complex adaptive systems science, 12 credit hours are selected from an approved list of applicable courses related to complexity.

Student doctoral dissertations should include the application of complex adaptive systems concepts and methods in their field of study and they typically have a member of the complex adaptive systems science graduate faculty as a member of their doctoral supervisory committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Undergraduate coursework in anthropology is not a prerequisite for admission but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of general anthropology in a manner to be specified at the time of admission.

Career Opportunities:

The demand in the job market for people with an anthropology background is stimulated by a growing need for researchers and analysts with keen thinking skills who can manage, evaluate and interpret large amounts of data. As the many spheres of human interaction expand globally, people trained in anthropology are increasingly sought for their broad, holistic knowledge and perspectives, which are the hallmarks of anthropology. Some career opportunities include:

- acting as legal advocates in international cases
- analyzing and proposing policies
- conducting postgraduate academic research
- consulting for private and public organizations
- curating cultural resources
- directing nonprofit organizations
- directing programs in the private or public sector
- managing culture or heritage resources in private or public sectors
- modeling infectious diseases
- planning communities
- teaching

Anthropology (Urbanism), PHD (LAURBPHD)

Online Degree Search Title: Anthropology (Urbanism), PhD

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

The School of Human Evolution and Social Change is an excellent choice for students wanting to pursue a PhD in the classic fields of anthropology:

- archaeology
- bioarcheology
- evolutionary anthropology
- sociocultural anthropology

It is also an ideal environment for students who want to combine these approaches and other disciplines when exploring specific issues or research questions within a transdisciplinary context. The flexible graduate curricula are designed to encourage students to design innovative plans of study to pursue their interests while receiving broad training in key areas. The anthropology faculty actively engage with faculty in other disciplines, including:

- applied mathematics
- chemistry
- environmental
- economics
- epidemiology
- formal modeling
- genetics
- sociology
- sustainability
- technology and society
- urban planning

The training students receive in this program prepares them to become expert scholars able to contribute not only to their chosen field but to finding solutions to humankind's greatest challenges. The concentration in urbanism leverages the varied interests in urbanism and helps emerging scholars as they attempt to compare, contrast and take stock of urbanism. Working with faculty from across a range of departments and programs at ASU, doctoral students are able to capture the creative tensions that scholarship on urbanism has inspired in order to stimulate a provocative, constructive kind of inquiry.

This degree program provides training in data analysis and research design within the context of human evolution, archaeology and the wider field of anthropology. In this program, through anthropological coursework, students learn how to ask important questions about the human species and employ statistics to analyze and extract meaning from data. Students learn to appreciate their place in nature and the long history of human societal change that brought them to where they are today.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students entering with a master's degree in a related field may be granted up to 30 credit hours toward the 84 credit hour total required for the doctorate. This leaves 30 credit hours of coursework, 12 hours of research credit and 12 hours of dissertation credit (54 credit hours total) to be earned post-admission.

Students entering without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio which is formally evaluated by a faculty committee, and present that research in a public forum before continuing on in the later stage of the doctorate.

All students must maintain an average GPA of 3.20 (scale is 4.00 = "A") in their courses and complete degree requirements per the program's satisfactory progress policy.

For the concentration in urbanism, 15 credit hours are selected from an approved list of applicable courses related to urbanism. These courses include the core urbanism course, GCU 516, as well as one course from each of the four urbanism clusters. These clusters are:

- built form
- culture and society
- institutions and governance
- natural environment

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Undergraduate coursework in anthropology is not a prerequisite for admission, but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of general anthropology in a manner to be specified at the time of admission.

Applicants may include with their application materials an optional scholarly writing sample, not to exceed 30 double-spaced pages.

Career Opportunities:

The demand in the job market for people with an anthropology background is stimulated by a growing need for researchers and analysts with keen thinking skills who can manage, evaluate and interpret large amounts of data. As the many spheres of human interaction expand globally, people trained in anthropology are increasingly sought for their broad, holistic knowledge and perspectives, which are the hallmarks of anthropology. Applied Behavior Analysis, MS (LAAPBAMS)

Online Degree Search Title: Applied Behavior Analysis, MS

Campus: Tempe

Program Description:

Offered by the Department of Psychology, this MS program in applied behavior analysis is a full-time, scientifically based, two-year program that

meets the Behavior Analyst Certification Board's fifth-edition task list for coursework with 345 classroom hours and 2,000 hours of supervised practicum fieldwork.

Successful graduates are able to sit for BACB's certification and once certified, are eligible for state-licensure. The program's learning outcomes include mastery across three major areas as identified by the certification board: basic behavior-analytic skills, client-centered responsibilities and foundational knowledge.

Applied behavior analysis training in the Department of Psychology at ASU includes supervised experience and instruction in:

- behavior analytic attitudes such as determinism, empiricism and parsimony
- fundamental elements of behavior change and behavior change procedures
- identification, assessments and interventions for behavioral excesses, deficiencies and challenging behavior
- professional ethics and conduct of applied behavior analysis
- training others in the science and practice of applied behavior analysis
- use of different behavioral measurement types and systems
- use of experimental designs to determine relationships among and between measurement, relevant variables and behavior

Degree Requirements:

42 credit hours including the required applied project course (PSB 593).

Required Core (24 credit hours)

PSB 501 Basic Principles of Applied Behavior Analysis (3)

PSB 510 Basic Principles of Experimental Analysis of Behavior (2)

PSB 511 Advanced Research Methods (2)

PSB 520 Ethical Issues and Professional Standards in Applied Behavior Analysis (3)

PSB 530 Behavioral Observation and Functional Assessment (3)

PSB 540 Development of Applied Behavioral Intervention Programs (3)

PSB 563 Basic Principles of Organizational Behavior Management (2)

PSB 573 Advanced Principles of Learning and Analysis of Behavior (3)

PSB 578 Applied Behavior Analysis in Developmental Disorders (3)

Electives or Research (4 credit hours)

PSB 591 Seminar (2)

PSB 598 Special Topics (2)

Other Requirements (9 credit hours)

PSB 580 Practicum: Applied Behavior Analysis (5)

PSB 583 Fieldwork: Applied Behavior Analysis (4)

Culminating Experience (5 credit hours)

PSB 593 Applied Project (5)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in psychology, human development, sociology or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose form
- curriculum vitae or resume
- GRE scores
- SlideRoom application
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The application is completed online through ASU's Graduate Admission Services website. Applicants should upload their unofficial transcripts to the application before submitting.

Applicants also upload supporting documents, including reference contact information, into a system called SlideRoom. Complete details are located on the department's website.

It is strongly recommended that applicants download and print the Master of Science in applied behavioral analysis admission checklist from the Department of Psychology website to ensure completion of the application process and inclusion of all the required supplemental forms.

The statement of purpose form should describe professional and academic aspirations.

Applicants must submit two letters of recommendation from professionals or faculty who can speak to the applicant's abilities.

Career Opportunities:

Graduates are positioned to be highly sought after in the human services sector. With an evidence-based practice orientation, Board Certified Behavior Analysts® are charged with assessment of socially significant behaviors and developing interventions to promote adaptive, flexible behavior and provide alternative responses to challenging behavior. The domains into which graduates of the program go are vast. Below is a list of some potential careers:

- assistant clinical director
- behavior specialist
- Board Certified Behavior Analyst®
- clinical director

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Applied Linguistics, PHD (EDAPLPHD)

Online Degree Search Title: Applied Linguistics, PhD

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

Applied linguistics combines research topics in the linguistics sciences and education to pursue principled approaches to language-related concerns. The PhD program in applied linguistics is focused on simultaneous and developmental bilingualism in children and adolescents.

Faculty participate in the program from within multiple curricular units across the institution's four campuses. The program encourages transdisciplinary study, and its flexible requirements enable students to pursue those aspects of the disciplines that interest them the most. The program prepares students for entrance into the field as teachers, scholars and professionals.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Foundation Coursework (18 credit hours)

Overview of the Field: A three-credit course providing a survey of the field of applied linguistics is required. (3)

Linguistics: Coursework in theoretical linguistics, including one approved linguistics elective, is required. (15)

Teaching Internship (1 credit hour)

Colloquia (8 credit hours)

A four-semester sequence of two-credit colloquium meetings is required for students in the first two years.

Research Methods (6 credit hours)

Students must take two courses in research methods, selected in consultation with the advisor.

Research Specialization (33 credit hours)

In consultation with the program director, students take 11 three-credit courses in their field of specialization.

Breadth (6 credit hours)

Two courses in a secondary concentration area are required.

Dissertation (12 credit hours)

Additional Curriculum Information

An oral defense of the dissertation is required.

There must be a minimum of 54 credit hours beyond the master's degree level, including a minimum of 12 units of dissertation credit. All students in the program must satisfy 18 credit hours of foundation coursework.

Because applied linguistics is transdisciplinary in nature, applicants may differ from one another with regard to their prior experience and preparation. For instance, while some applicants may have substantial prior training in core theoretical linguistics (foundations), others may have considerable preparation in an area related to a supported concentration. Students should consult the program director for assistance in planning their degree programs. The program director may address potential redundancies in a student's program requirements with prior academic preparation by allocating a maximum of 30 credit hours from an awarded and approved graduate degree toward the applied linguistics program requirements, or the director may permit the student to take additional elective courses in lieu of introductory courses covered in an undergraduate program.

Language Requirement: Students in the applied linguistics doctoral program must demonstrate proficiency in a second language equivalent to two years of study. A language appropriate to the student's area of interest is selected in consultation with the advisor. The language requirement must be satisfied, by examination or coursework, prior to advancement to candidacy. Computer or other nonhuman languages may not be used to satisfy this requirement. Students for whom English is a second language may use their first language to satisfy the requirement by examination. Course credit used to satisfy the language requirement cannot be used to satisfy other program requirements and cannot be counted toward the total required 84 credit hours.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- academic writing sample relevant to the field
- GRE general test scores
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should see the Department of English website for specific details about English proficiency requirements.

Applied Mathematics, PHD (LAAPMPHD)

Online Degree Search Title: Applied Mathematics, PhD

Campus: Tempe

Program Description:

This PhD program in applied mathematics is intended for students with superior computational and mathematical modeling ability. It emphasizes a solid mathematical foundation and promotes creative scholarship in an application discipline. The School of Mathematical and Statistical Sciences at Arizona State University has faculty in applied mathematics with outstanding transdisciplinary research programs with strong external funding.

Current research interests include mathematical epidemiology and mathematical ecology, mathematical neuroscience, environmental fluid dynamics and high performance computing, imaging and inverse problems, supply chain dynamics, control and optimization, computational methods for ordinary and partial differential equations, analysis of differential equations, and geophysical and environmental fluid dynamics.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

APM 505 Applied Linear Algebra (3)

Other Requirements (12 credit hours)

APM 501 Differential Equations I (3)

APM 502 Differential Equations II (3)

APM 503 Applied Analysis (3)

APM 504 Applied Probability and Stochastic Processes (3)

APM 506 Computational Methods (3)

Electives and Research (57 credit hours)

Culminating Experience (12 credit hours)

APM 799 Dissertation (12)

Additional Curriculum Information

Students must pass:

- two qualifying examinations
- a written comprehensive examination
- an oral dissertation prospectus defense.

Students should see the department website for examination information.

Each student must write a dissertation and defend it orally in front of five dissertation committee members.

Electives are to be chosen from math or related area courses approved by the student's supervisory committee.

Students choose four out of the five courses listed for other requirements.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in mathematics, applied mathematics, economics, engineering or a natural science from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of education and career goals
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Additional eligibility requirements include:

- be competitive in an applicant pool as evidenced by coursework in linear algebra (equivalent to ASU course MAT 342 or MAT 343) and advanced calculus (equivalent to ASU course MAT 371)
- have scientific programming skills (desirable)

Career Opportunities:

Foundational knowledge in mathematics is required for building careers in science and technology. It can be applied in many different types of professions in fields like engineering, life sciences, business, and economic and social sciences. These are just a few of the top careers possible with a doctorate in applied mathematics:

- biostatistician
- data scientist
- engineer
- financial analyst
- government and military research
- industrial research
- mathematical modeling expert
- mathematician
- medical researcher
- operations research analyst
- university instructor and faculty

Applied Mathematics for the Life & Social Sciences, PHD (LAAMPLPHD)

Online Degree Search Title: Applied Mathematics for the Life and Social Sciences, PhD

Campus: Tempe

Program Description:

The PhD program in applied mathematics for the life and social sciences focuses on the training needed for analyzing and more definitively answering questions about underlying patterns hidden within human health, behaviors and experiences, and for teaching others to do the same.

Under the transdisciplinary instruction of national experts from five different schools at Arizona State University, program participants learn new applications for tools such as agent-based models, evolutionary computing, geographical information systems, machine learning, multiobjective optimization nonlinear dynamical systems, and stochastic processes. In doing so, they unlock new revelations and categories for not just understanding the material, but also the need for scientists and professionals quantitatively trained in the life and social sciences.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

AML 610 Topics in Applied Mathematics for the Life and Social Sciences (3)

AML 612 Applied Mathematics for the Life and Social Sciences Modeling Seminar (3)

Other Requirements (15 credit hours)

ASM, AML or BIO: courses in evolution, ecology or social sciences (400 level or above) (3)*

one graduate-level course in biostatistics (3)*

one graduate-level School of Mathematical and Statistical Sciences course approved by graduate chair (3)

APM, AML, MAT 590 or 790 Reading and Conference (6)

*Substitution courses may be acceptable with approval of director.

Electives (39 credit hours)

See the Additional Curriculum Information section below.

Research (12 credit hours)

AML 592 or 792 Research (12)

Culminating Experience (12 credit hours)

AML 799 Dissertation (12)

Additional Curriculum Information

Electives must include six credit hours of life science and six credit hours of social sciences.

Once the 15 credit hour requirement in the Other Requirements section has been fulfilled, other courses from that category may be taken as electives.

Students must register for research credit (AML 592 or 792) supported by their participation in one of two summer programs, Mathematical and Theoretical Biology Institute or J. Bustoz Math-Science Honors Program, sponsored by the Simon A. Levin Mathematical, Computational and Modeling Sciences Center. Up to three credit hours of research per summer may be applied based on hours and level of participation with approval from the graduate chair and the summer program director.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework will be made up of electives to reach the required 84 credit hours.

All students must maintain an average GPA of 3.20 (scale is 4.00 = "A") in their courses and complete degree requirements per the program's satisfactory progress policy.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. A master's degree in the social sciences (e.g., anthropology, gender studies, geography, sociology), life sciences or related fields (e.g., biology, ecology, genomics), applied mathematics, mathematics or statistics is preferred.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants may submit an optional scholarly writing sample, not to exceed 30 double-spaced pages, to be included in their application materials.

Prior to admission, students should have completed, at the undergraduate junior or senior level, a minimum of the following:

- 15 credit hours of mathematics or statistics
- nine credit hours of life sciences and social sciences coursework at the senior or college graduate level
- no fewer than three credit hours each of life sciences and social sciences coursework

Career Opportunities:

The need for scientists and professionals quantitatively trained in the life and social sciences is strong in Arizona and the nation. This degree's applied use of mathematics, modeling, statistics and simulation methodologies are in high demand and provide excellent training for future academics and professionals.

Graduates are prepared to enter the environmental, life, health, mathematical and social science fields. They possess the quantitative, scientific and analytical skills that are critical for professionals working in these areas.

This program creates entirely new opportunities, while building upon mathematical foundations and in-demand career paths long established in fields such as:

- bioinformatics
- computational sciences
- data mining
- ecology
- genomics
- mathematical analysis
- mathematical epidemiology
- nonlinear dynamics
- population dynamics
- social science

Applied Mathematics for the Life and Social Sciences (Complex Adaptive Systems Science), PHD (LAAMLCPHD)

Online Degree Search Title: Applied Math for the Life and Social Sciences (Complex Adaptive Sys Science), PhD

Campus: Tempe

Program Description:

The PhD program in applied mathematics for the life and social sciences focuses on training researchers to analyze scientific questions at the intersection of the mathematical, life and social sciences. Graduates of the program make innovative and far-reaching scientific contributions that rely on the cutting-edge computational mathematical and modeling approaches.

This program focuses on producing quantitative scientists and applied mathematicians who conduct high-level transdisciplinary research. The program's faculty include mathematicians, statisticians, theoretical biologists and social scientists from five different schools at Arizona State University.

There is a high demand for first-rate scientists, researchers and faculty interested in meeting the challenges faced by communities in the 21st century. Institutional research and planning programs create space and opportunity to address such challenges on a global scale. The health, environmental and natural resource challenges in Arizona and the nation are urgently in need of a large pool of researchers with these transdisciplinary skills.

There are three tracks a student can follow. Applied mathematics is a more in-depth focus on the tools applied to the life and social sciences, such as dynamical systems, computational and numerical methods, simulation and mathematical analysis. Life sciences focuses on understanding the tools for representing the structure and operation of complex biological and ecological processes. Social sciences focuses on understanding the tools for representing the structure and operation of complex social systems and processes.

By offering courses that enhance transdisciplinary exchanges and collaboration among the faculty and students interested in addressing questions of social relevance, the program builds upon foundations already established.

The complex adaptive systems science concentration trains the next generation of scientists in advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences. The program is tightly integrated with diverse, ongoing, university-wide research on complex adaptive system science at Arizona State University and emphasizes the value of a complex adaptive perspective to give better insight

and a more active role in seeking solutions to a broad array of critical issues facing society today. Students become fluent in the common language of complexity while also receiving a solid foundation in the domain knowledge of existing academic disciplines.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

AML 610 Topics in Applied Mathematics for the Life and Social Sciences (3)

AML 612 Applied Mathematics for the Life and Social Sciences Modeling Seminar (3)

Concentration Courses (6 credit hours)

ASM 570 Fundamentals of CAS Science (3) or BIO 570 Fundamentals of CAS Science (3)

Complex Adaptive Systems Science approaches class (3)

Restricted Electives (12 credit hours)

biostatistics course (3)

numerical analysis course (3)

life sciences and social sciences (6)

Electives (36 credit hours)

Research (12 credit hours)

AML 592/792 Research (12)

Culminating Experience (12 credit hours)

AML 799 Dissertation (12)

Additional Curriculum Information

Students should see the academic unit for a complete list of complex adaptive systems sciences approaches courses required for the concentration.

For required research, other XXX 592/792 Research courses may be substituted with academic unit approval.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework is made up of electives to reach the required 84 credit hours.

Students entering the program without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio which is formally evaluated by a faculty committee and present that research in a public forum before continuing on in the later stage of the doctoral program.

All students must maintain an average GPA of 3.20 (scale is 4.00 = "A") in their courses and complete degree requirements per the program's satisfactory progress policy.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. A master's degree in the social sciences (e.g., anthropology, sociology, gender studies or geography), life sciences or related fields (e.g., biology, genomics or ecology), applied mathematics, mathematics or statistics is preferred.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants may submit an optional scholarly writing sample, not to exceed 30 double-spaced pages, to be included in their application materials.

Prior to admission, students should have completed at the undergraduate junior or senior level a minimum of the following:

- 15 credit hours of mathematics or statistics
- nine credit hours of life sciences and social sciences coursework at the senior or college graduate level
- no fewer than three credit hours each of life sciences and social sciences coursework

Career Opportunities:

The degree program in applied mathematics for the life and social sciences prepares students to enter the environmental, life, health, mathematical and social science fields. Graduates of the program possess the quantitative, scientific and analytical skills that are critical for professionals working in these areas.

The need for scientists and professionals quantitatively trained in the life and social sciences is strong in Arizona and the nation. This degree's applied use of mathematics, modeling, statistics and simulation methodologies are in high demand and provide excellent training for future academics and professionals in industries including:

- bioinformatics
- computational sciences
- ecology
- genomics
- mathematical analysis
- mathematical epidemiology
- nonlinear dynamics
- population dynamics

Applied Prevention Science (Certificate), Certificate (LAAPSGRCT)

Online Degree Search Title: Applied Prevention Science (Graduate Certificate)

Campus:

ASU is not currently accepting applications for this program.

Program Description:

This graduate certificate program provides foundational and theoretical knowledge necessary for employment in the field of mental illness prevention and health promotion.

The program offers five courses totaling 15 credits. Training is self-directed with one-on-one feedback from faculty. Specific training areas and assignments are highly relevant to job demands, including community-based program evaluation, evidence-based psychosocial interventions, prevention ethics including in diverse settings and with diverse populations, and community psychology, advocacy, and funding seeking for prevention programming initiations and sustainment.

Degree Requirements:

15 credit hours.

Required Core (15 credit hours)

PSY 563 Prevention Planning and Evaluation in Service Settings (3)

PSY 564 Prevention Education, Communication and Service Delivery (3)

PSY 567 Prevention Organization and Community Change (3)

PSY 569 Professional Ethics, Growth and Responsibility in Prevention (3)

PSY 678 Preventive Psychosocial Interventions that Work (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in psychology or in any health, mental health, or counseling-related field, from a regionally accredited institution, or an equivalent degree from an international institution that is officially recognized by that country.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa need first to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/certificates/applied-prevention-science-graduate-certificate/>)

Career Opportunities:

The certificate program in applied prevention science is valuable for those aspiring to work in fields that provide services to children and families in diverse settings such as schools, courts, community health centers and mental health agencies, child welfare, home visiting programs, foster care services and tribal behavioral health.

Career examples include:

- behavioral health specialist
- community and social service specialists
- community health worker
- prevention specialist

Asian Languages and Civilizations (Chinese), MA (LACHINAMA)

Online Degree Search Title: Asian Languages/Civilizations (Chinese), MA

Campus: Tempe

Program Description:

The Chinese graduate program in the School of International Letters and Cultures offers an MA degree program with a focus in one of two areas: culture (literature, linguistics, religion) or pedagogy.

The two areas of instruction are designed to prepare students to succeed in Chinese language environments with cultural competence. Each of these two areas also introduce students to the fundamentals of Sinology and East Asian studies, which can prepare them for further scholarly, educational and professional pursuits.

The focus on culture (literature, linguistics, religion) provides disciplinary training that allows students to achieve in-depth command of spoken, aural

and oral Mandarin Chinese as well as written literary Chinese.

The pedagogy focus is intended for students whose major interest is in teaching modern Chinese in K-16 environments. Students are trained in communicative and task-based language teaching approaches embedded within appropriate cultural contexts, as well as developing solid foundations in teaching Chinese literacy, pronunciation and linguistic systems.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (CHI 593).

Required Core (3 credit hours)

CHI 501/JPN 501 Proseminar: East Asian Humanities (3)

Concentration (3 credit hours)

SLC 596 Second Language Methodologies (3)

Electives (15 credit hours)

Other Requirements (3 credit hours)

CHI 598 Topic: History of the Chinese Language (3)

Culminating Experience (6 credit hours)

CHI 593 Applied Project (6) or

CHI 599 Thesis (6)

Additional Curriculum Information

The Master of Arts in Asian languages and civilizations has concentrations in Chinese and Japanese. Students in the Chinese concentration take CHI 501 as required core and students in the Japanese concentration take JPN 501 for core. The course is cross-listed.

Electives are selected in consultation with the program chairperson.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in Chinese or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
 - resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The writing sample should represent the applicant's thinking and writing skills on a topic connected with Chinese culture.

Candidates for the master's degree should present the equivalent of an undergraduate major in Chinese upon entrance to the program. Those who lack this background but show strong potential and meet the Graduate College admission requirements, including those with regard to English proficiency, may be admitted to a graduate program on a provisional basis, pending removal of specified deficiencies. These deficiencies must be completed in addition to the regular plan of study for the master's degree.

Career Opportunities:

Professionals with this degree can confidently move into academic, business and international fields. Skills developed through this program are valued for teaching positions, translation work or work in a larger sectors such as governmental, diplomatic and international business career

opportunities.

Career examples include:

- teachers and professors of area, ethnic and cultural studies
- teachers and professors of foreign language and literature
- foreign service
- historians
- interpreters and translators
- lawyers
- reporters and correspondents
- social and community service managers
- state department
- supply chain managers

Asian Languages and Civilizations (Japanese), MA (LAJAPANMA)

Online Degree Search Title: Asian Languages/Civilizations (Japanese), MA

Campus: Tempe

Program Description:

The Asian languages faculty in the School of International Letters and Cultures offer a graduate program leading to an MA in Asian languages and civilizations with a concentration in Japanese.

ASU's Japanese master's program allows students to pursue their interests in Japanese history, literature and culture through advanced training in modern and classical Japanese, and through in-depth study of specific historical and cultural periods. The training equips students with the skills to do original research in primary sources and with the critical and methodological background to understand their chosen fields. Areas of particular faculty strength include early modern and modern literature; film, animation and popular culture; translation studies; modern history; Japan's warrior cultures; and transnational studies, especially Sino-Japanese literary and cultural relations and kanshibun genres.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (JPN 593).

Required Core (3 credit hours)

CHI 501/JPN 501 Proseminar: East Asian Humanities (3)

Concentration (3 credit hours)

JPN 586 History of Japanology (3)

Electives (18 credit hours)

Culminating Experience (6 credit hours)

JPN 593 Applied Project (6) or

JPN 599 Thesis (6)

Additional Curriculum Information

The MA in Asian languages and civilizations has concentrations in Chinese and Japanese. Students in the Chinese concentration take CHI 501 as required core and students in the Japanese concentration take JPN 501 for core. The course is cross-listed.

Electives are selected in consultation with the program chairperson.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in Japanese or a related field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The writing sample should represent the applicant's thinking and writing skills on a topic connected with Japanese culture. An academic writing sample, such as a research paper from a previous course, is preferred. The personal statement should highlight the applicant's motivations and skills and indicate why they are interested in the Japanese graduate program. Candidates for the program should present the equivalent of an undergraduate major in Japanese upon entrance to the program. Those who lack this background but who show strong potential and meet the Graduate College admission requirements may be admitted to a graduate program on a conditional basis, pending removal of specified deficiencies. These deficiencies must be completed in addition to the regular plan of study for the master's degree.

Students should see the School of International Letters and Cultures website for more information.

Career Opportunities:

Professionals with this degree can confidently move into academic, business and international fields. Skills developed through this program are valued for teaching positions, translation work or work in a larger sector such as governmental, diplomatic and international business career opportunities.

Career examples include:

- area, ethnic, and cultural studies teachers, postsecondary
- foreign language and literature teachers, postsecondary
- foreign service
- interpreters and translators
- lawyers
- reporters and correspondents
- social and community service managers
- state department
- supply chain managers

Asian Studies (certificate), Certificate (LAASIANCE)

Online Degree Search Title: Asian Studies (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate in Asian studies offers graduate students a transdisciplinary specialization in Asian language and area studies.

The certificate program is available in two tracks. The East Asia track includes China, Japan and Korea, and the Southeast Asia track includes Burma, Laos, Thailand, Vietnam, Malaysia, Singapore, Indonesia, the Philippines, Brunei and Timor Leste.

Degree Requirements:

18 credit hours.

Required Core (6 credit hours)

two courses at the 500 level or above dealing with Asian content from a single discipline

Electives (6 credit hours)

two courses at the 500 level or above dealing with Asian content from a discipline other than that chosen for the core courses

Other Requirements (6 credit hours)

language proficiency requirement: two courses at the 400 level or above in one Asian language (Chinese, Indonesian, Japanese, Korean, Thai, Vietnamese)

Additional Curricular Information

Students work closely with a faculty advisor from the Center for Asian Research to develop a cohesive curriculum tailored to their individual goals and interests.

Some of the coursework from the discipline in which the student is earning a graduate degree may be used to satisfy these requirements.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Graduate students currently enrolled in any discipline may pursue a certificate in Asian studies in conjunction with their degree program.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. For more information, students should visit <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Career Opportunities:

The graduate certificate program in Asian studies provides students with training and knowledge relevant to careers in government, nongovernmental organizations, nonprofit organizations, global relationships, intercultural understanding, foreign service, researchers, professional writing and community college teaching.

Career examples include:

- cultural center associate
- language interpreter
- historical society and exhibit curator
- teacher or instructor

Astrophysics, PHD (LAASTPHPHD)

Online Degree Search Title: Astrophysics, PhD

Campus: Tempe

Program Description:

The PhD program in astrophysics is designed to develop creative scholarship and prepare students for professional careers in astrophysics, astronomy or related fields.

Students in this program take graduate-level courses in stars and interstellar media, galaxies, and cosmology; obtain quantitative skills through analysis and modelling; may have observing opportunities through regional and international telescope observatories; and conduct independent, fundamental, astrophysical research. Graduate students work closely with a research advisor on a wide range of topics including theoretical physics, cosmology, galaxy dynamics, stellar evolution, exoplanets, and developing and building instrumentation.

Graduate students in astrophysics become leaders in observational and theoretical research; they participate in NASA- and NSF-funded space missions and study topics such as how stars are born and die, how galaxies interact and evolve, and how the universe changed as it developed from its earliest beginnings.

The program's world-class faculty have research expertise across the full breadth of astrophysics including the solar system, stars and galaxies from the Milky Way to the most distant galaxies in the universe. Current ASU research applies both computational and observational approaches to the exploration of a range of topics such as fundamental cosmology and whether there is life on exoplanets.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (1 credit hour)

SES 502 Exploring SESE Research (1)

Electives or Research (51 credit hours)

Other Requirements (20 credit hours)

AST 521 Stars and Interstellar Medium I (3)

AST 522 Stars and Interstellar Medium II (3)

AST 523 Stars and Interstellar Medium III (3)

AST 531 Galaxies and Cosmology I (3)

AST 532 Galaxies and Cosmology II (3)

AST 533 Galaxies and Cosmology III (3)

AST 591 Seminar: Astrophysics (1)

SES 501 SESE Colloquium (1)

Culminating Experience (12 credit hours)

SES 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree in a related field to be used for this degree.

Substitutions for Other Requirements courses may be made per departmental approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admissions application and application fee
- official transcripts
- statement of purpose

- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

Professionals with expertise in astrophysics are in high demand across all sectors and industries, including remote sensing, data science, instrument building, computational science, defense industries and scientific research. Coding and numerical modeling skills translate across many domains, even beyond astrophysics. Skills in the measurement and analysis of data related to the physics, chemistry, structure of the universe and exoplanetary systems are valuable to businesses and institutions relying on data-driven strategies to explore beyond the Earth and solar system.

The doctoral degree in astrophysics is required for some careers in post-secondary education and research.

Career examples include:

- astrophysics professor
- data scientist
- instrument builder
- project manager
- research astronomer
- telescope operator

Atmospheric Science (certificate), Certificate (LAATMOSCE)

Online Degree Search Title: Atmospheric Science (Graduate Certificate)

Campus: Tempe

This program is not currently accepting applications.

Program Description:

The transdisciplinary certificate in atmospheric science is administered by an executive committee composed of faculty from the Ira A. Fulton Schools of Engineering and The College of Liberal Arts and Sciences. The objective of this program is to recognize Arizona State University graduate students who complete a dissertation on a topic related to the atmospheric or oceanic sciences under the supervision of a faculty member from one of the cooperating departments.

Degree Requirements:

16 credit hours.

A minimum of 16 credit hours is required in order to qualify for the atmospheric science certificate, consisting of:

- three 3 credit hour courses from a list of courses in the core disciplines (9)
- two 3 credit hour courses from a list of electives at the 400 level or above (6)
- a capstone seminar (1)

Considering the diversity of courses and in order to ensure a transdisciplinary flavor, all prospective recipients have the certificate program approved by the certificate executive committee. Certificates only are awarded to students who are enrolled in an MA, MS, MNS or PhD program at ASU. The student's thesis or dissertation must also be related to some aspect of atmospheric science.

The core courses are offered at least once every other year, so the certificate may be completed within two years.

Specific requirements are:

- approval by the certificate committee of the student's proposed course selection
- completion of one course from each of the core disciplines with a grade of "B" (3.00) or better
- completion of two courses from the list of electives with a grade of "B" (3.00) or better
- completion of the capstone seminar, which is one credit hour
- completion of a dissertation on a topic related to the atmospheric or oceanic sciences

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Biochemistry, MS (LABIOCHMS)

Online Degree Search Title: Biochemistry, MS

Campus: Tempe

Program Description:

Students earning an MS degree in biochemistry in the School of Molecular Sciences are trained in the fundamental aspects of the discipline, but most also choose to learn by joining transdisciplinary teams that work on larger, mission-based contemporary problems in areas such as:

- biogeochemistry
- energy and sustainability
- fundamental chemical biology
- materials and nanoscience

- medicine and health
- structure function and dynamics

The master's degree program in biochemistry provides students with the training they need to solve biological problems at the molecular scale and to contribute to research in current challenging societal issues.

Degree Requirements:

30 credit hours and a thesis.

500-level or above courses as approved by the school (12)

BCH 501 or CHM 501 Seminar or other seminar course as approved by the school (4)

BCH 592 Research courses (8)

BCH 599 Thesis (6)

Additional Curricular Information

The program consists of coursework and seminars selected by the student in consultation with the student's supervisory committee and based on the student's area of research. A written thesis is required and must be successfully defended during a public final oral defense. Students must maintain a minimum GPA of 3.00 (scale is 4.00 = "A") or better.

A program fee in the amount of \$300 per semester is required in addition to the normal tuition costs.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in chemistry, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

Professionals with training achieved in pursuit of a graduate degree in chemistry or biochemistry have opportunities in five general areas: industry (R&D, quality control), academia (high school and higher education), government (research, policy), nonprofit (policy, public education), and entrepreneurship (consulting, start-ups). In addition to specialized technical skills, graduates possess high-demand skills like critical thinking, teamwork and collaboration, time management and many others.

Some career examples include:

- chemistry lecturer
- drug discovery scientist
- government scientist
- high school teacher
- pharmacology scientist
- research and development scientist
- science consultant

The American Chemical Society also provides helpful resources and a more exhaustive list of possible careers on their website at <https://www.acs.org/content/acs/en/careers/chemical-sciences.html> (<https://www.acs.org/content/acs/en/careers/chemical-sciences.html>).

Biochemistry, PHD (LABIOCHPHD)

Online Degree Search Title: Biochemistry, PhD

Campus: Tempe

Program Description:

The PhD program in biochemistry through the School of Molecular Sciences provides students with the training they need to solve biological problems at the molecular scale and to be successful, independent scientists who can contribute to current challenging societal issues.

Students earning a doctoral degree in biochemistry are fully trained in all fundamental aspects of the discipline. Most also choose to join transdisciplinary teams that work on larger, mission-based contemporary problems in areas such as:

- biogeochemistry
- energy and sustainability
- fundamental chemical biology
- materials and nanoscience
- medicine and health
- structure function and dynamics

Students should visit the prospective student site to learn more about this doctoral program (<https://sms.asu.edu/graduate-study> (<https://sms.asu.edu/graduate-study>)) and the graduate research page (<https://sms.asu.edu/graduate-study/research> (<https://sms.asu.edu/graduate-study/research>)) to learn more about the cutting-edge, transdisciplinary research being conducted in the School of Molecular Sciences.

The doctoral program in biochemistry prepares students for professional careers in industry, government and academia.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

six graduate-level courses (12-18)
enrollment in a BCH 501/CHM 501 seminar (8)
BCH 792 Research (46-52)
BCH 799 Dissertation (12)

Additional Curriculum Information

The program consists of coursework and seminars selected by the student in consultation with the student's supervisory committee and based on the student's area of research. Qualifying exams consisting of a written comprehensive exam, an oral comprehensive exam and a prospectus are required to advance to candidacy. Students must successfully defend their dissertation during a public final oral defense. Students must also maintain a minimum GPA of 3.00 (scale is 4.00 = "A") or better.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in chemistry, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

In addition to the admission application, applicants must complete an online supplemental application to the School of Molecular Sciences. The supplemental application is available 24 to 48 hours after submission of the admission application. The personal statement and contact information for the letters of recommendation are submitted as part of the supplemental application. Information about the supplemental application can be found on the department's website. Applications lacking a supplemental application are not reviewed.

Career Opportunities:

Professionals with training achieved in pursuit of a graduate degree in chemistry or biochemistry have opportunities in five general areas:

- industry (R&D, quality control)
- academia (high school and higher education)
- government (research, policy)
- nonprofit (policy, public education)
- entrepreneurship (consulting, start-ups).

Biochemistry (Medicinal Biochemistry), MS (LABCHMCMS)

Online Degree Search Title: Biochemistry (Medicinal Chemistry), MS

Campus: Tempe

Program Description:

The faculty in the School of Molecular Sciences offer a program leading to the MS in biochemistry with a concentration in medicinal chemistry. This program is intended for students who plan to continue their educational training in pharmacy or medical school or in a related field and want to expand their background knowledge in biochemistry before beginning their professional education.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Biochemistry, BS
- Biochemistry (Medicinal Chemistry), BS
- Chemistry, BS
- Molecular Biosciences and Biotechnology, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required applied project (research paper) course (CHM 593 or BCH 593).

A minimum of 30 credit hours are required, including coursework, seminars, research and an applied project consisting of a written research paper. Courses are selected by students in consultation with their supervisory committee based on the research area.

The Master of Science in biochemistry is awarded when the student has obtained a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in coursework, demonstrated quality performance in the laboratory and completion of the research project, completed and presented an approved research paper at an oral defense to the student's supervisory committee, and met all deadline dates and requirements set by the Graduate College.

A program fee in the amount of \$300 per semester is required in addition to the normal tuition.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in chemistry, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants interested in pursuing the accelerated degree program should review the requirements and submit a pre-application found on the School of Molecular Sciences website prior to submitting a formal Graduate Admission Services application to the degree program.

Career Opportunities:

Professionals with training achieved in pursuit of a graduate degree in chemistry or biochemistry have opportunities in five general areas: industry (R&D, quality control), academia (high school and higher education), government (research, policy), non-profit (policy, public education), and entrepreneurship (consulting, start-ups). In addition to specialized technical skills, graduates possess high-demand skills like critical thinking, teamwork and collaboration, time management and many other vital skills.

Some career examples include:

- chemistry lecturer
- drug discovery scientist
- high school teacher
- medical doctor
- medical lab technician
- pharmacist
- pharmacology scientist
- research and development scientist
- veterinarian

The American Chemical Society also provides helpful resources and a more exhaustive list of possible careers on their website at <https://www.acs.org/content/acs/en/careers/chemical-sciences.html> (<https://www.acs.org/content/acs/en/careers/chemical-sciences.html>).

Biology, MS (LABIOMS)

Online Degree Search Title: Biology, MS

Campus: Tempe

Program Description:

This MS in biology is a flexible program based around a student's individual research interests, allowing students to explore areas of biology that thrive outside of traditional boundaries. This program complements other, more specialized life sciences programs, allowing both interdisciplinary and traditional approaches. Courses include laboratory, field and theoretical work.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Biological Sciences, BS
- Biological Sciences (Biology and Society), BS
- Biological Sciences (Biomedical Sciences), BS
- Biological Sciences (Conservation Biology and Ecology), BS
- Biological Sciences (Genetics, Cell and Developmental Biology), BS
- Biological Sciences (Neurobiology, Physiology and Behavior), BS
- Microbiology, BS
- Microbiology (Medical Microbiology), BS
- Molecular Biosciences and Biotechnology, BS
- Neuroscience, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including a portfolio, or 30 credit hours including a written comprehensive exam, or 30 credit hours including an applied project (BIO 593), or 30 credit hours including the required capstone course (BIO 597).

Required Core (3 credit hours)

BIO 541 SOLS Seminar Series (1)

BIO 542 SOLS Current Topics in the Life Sciences (1)

BIO 610 Introduction to Responsible Conduct of Research (RCR) in Life Sciences (1) or BIO 611 Current Topics in Responsible Conduct of Research (RCR) in the Life Sciences (1)

Electives (21-27 credit hours)

Culminating Experience (0-6 credit hours)

BIO 593 Applied Project (3)

BIO 597 Capstone (3)

BIO 599 Thesis (6)

portfolio (0)

written comprehensive exam (0)

Additional Curriculum Information

Students choose one of five culminating experience options listed above. The credit hours required for the electives depends on the culminating experience chosen as all students must complete 30 credit hours for this degree program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in biology or a related discipline, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

It is desired that applicants have research experience.

Career Opportunities:

This master's program is designed to prepare students for careers in teaching and research in educational, medical, industrial and governmental institutions.

A Master of Science in biology provides strong preparation for academic careers, from community colleges to research universities. The skills and knowledge obtained in this program are also valuable for government careers in federal and state agencies responsible for wildlife management and conservation, and for careers in industry and nongovernmental organizations.

Career examples include:

- food, agriculture and health care scientists in academic, private and industrial labs
- instructors at community colleges
- researchers and technicians in government labs and nonprofit organizations
- science teachers in elementary and high schools
- wildlife, animal and conservation scientists

Biology, PHD (LABIOPHD)

Online Degree Search Title: Biology, PhD

Campus: Tempe

Program Description:

The PhD program in biology offers individualized courses of study tailored to students interests that include laboratory, field and theoretical work. Flexibility in the program is achieved by requiring only one core class, which is a choice between two topics that cover the breadth of the research directions in this program.

Electives are also as flexible as possible and include areas outside of biology. The major goal is to provide students opportunities to create an adaptable and general degree program that allows both traditional and interdisciplinary approaches in any area of biology.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3-4 credit hours)

BIO 514 Statistical Models for Biology (4) or

BIO 620 Research Prospectus Writing (3)

Electives (67-68 credit hours)

Other Requirements (1 credit hour)

BIO 610 Introduction to Responsible Conduct of Research in Life Sciences (1)

Culminating Experience (12 credit hours)
BIO 799 Dissertation (12)

Additional Curriculum Information

The program is tailored to the needs of the individual student. The plan of study is developed by the student and a supervisory committee consisting of a major professor and three additional faculty members. The electives credit hours are comprised of coursework showing breadth in biology subdisciplines, seminars and research.

An oral comprehensive examination is required in order to advance to candidacy and a formal defense of the final written dissertation is required prior to graduation.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in biology or a related discipline from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Research experience is desired for entry into this program.

Career Opportunities:

A doctorate in biology provides strong preparation for academic careers at every level, from community colleges to research universities. The skills and knowledge obtained in this program are also valuable in government careers with federal and state agencies responsible for wildlife management and conservation and for careers in industry and nongovernmental organizations.

Career examples include:

- food, agriculture and health care scientists in academic, private and industrial labs
- principal investigators in government labs and nonprofit organizations
- professors or instructors in universities and colleges
- science teachers in elementary and high schools
- wildlife, animal and conservation scientists

Biology (Biology and Society), MS (LABIOSMS)

Online Degree Search Title: Biology (Biology and Society), MS

Campus: Tempe

Program Description:

In the biology and society concentration of the MS program in biology, students examine topics in which biology intersects with society.

The concentration tailors individual plans of study to individual needs and interests, with a solid grounding in the life and related sciences and with a rigorous analytical and interdisciplinary education. The program offers suggested courses for those wishing to focus on these areas: bioethics, policy and law; biology education research; ecology, economics and ethics of the environment; and history and philosophy of science.

Bioethics, policy and law --- Students are trained in the pressing moral, policy and legal issues raised by the biosciences and biomedicine and in the disciplinary methods necessary to address these issues.

Biology education research --- This focuses on using education research to identify ways to improve undergraduate biology education broadly.

Ecology, economics and ethics of the environment --- This area trains students in the theory and empirical methods for understanding, analyzing and shaping policy for coupled human-natural systems.

History and philosophy of science --- Students are trained in the conceptual foundations of science, especially the epistemological and methodological assumptions that shape science and its progress.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Biological Sciences, BS
- Biological Sciences (Biology and Society), BS
- Biological Sciences (Biomedical Sciences), BS
- Biological Sciences (Conservation Biology and Ecology), BS
- Biological Sciences (Genetics, Cell and Developmental Biology), BS
- Biological Sciences (Neurobiology, Physiology and Behavior), BS
- Neuroscience, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis.

An individual student plan is developed in consultation with the student's advisor and committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students are expected to have completed the equivalent of core requirements for an undergraduate major in biology or a related discipline (typically evolution, genetics and other courses appropriate to the student's particular interests). Students without an undergraduate-level competency in the sciences may be considered for conditional admission to the biology and society concentration.

Career Opportunities:

A Master of Science in biology and society provides strong preparation for academic careers. The skills and knowledge obtained in this program are also valuable for government careers in federal and state agencies responsible for management and conservation and for careers in industry and nongovernmental organizations.

Career examples include:

- food, agriculture and health care scientists in academic, private and industrial labs
- instructors at community colleges and research universities
- researchers and policy developers in government labs and nonprofit organizations
- science teachers in elementary and high schools
- wildlife, animal and conservation scientists

Biology (Biology and Society), PHD (LABIOSPHD)

Online Degree Search Title: Biology (Biology and Society), PhD

Campus: Tempe

Program Description:

In the biology and society concentration of the PhD program in biology, students examine topics with biological and social dimensions that are best understood together rather than in isolation. The concentration provides plans of study tailored to individual needs and interests. It encompasses a solid foundation in life sciences and related sciences and provides a rigorous analytical and interdisciplinary education. Students may further specialize in one of four tracks:

Bioethics, policy and law --- This track focuses on pressing moral, policy and legal issues raised by biosciences and biomedicine and on the methods needed to address them.

History and philosophy of science --- This track focuses on the conceptual foundations of science, especially the epistemological and methodological assumptions that shape science and its progress.

Ecology, economics and ethics of the environment --- This track focuses on the theory and empirical methods for understanding, analyzing and shaping policy that steer society toward a more productive, equitable and sustainable ecological future.

Biology education research --- This track focuses on using education research to identify ways to broadly improve undergraduate biology education.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3-4 credit hours)

BIO 514 Statistical Models for Biology (4) or

BIO 620 Research Prospectus Writing (3)

Electives (68-69 credit hours)

Culminating Experience (12 credit hours)

BIO 799 Dissertation (12)

Additional Curriculum Information

An individual student program is developed in consultation with the student's advisor and committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Students

are expected to have completed the equivalent of core requirements for an undergraduate major in biology or a related discipline, typically evolution, genetics and other courses appropriate to the student's particular interests. Students without an undergraduate-level competency in the sciences may be considered for conditional admission to the biology and society concentration.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- writing sample
- three letters of recommendation
- proof of English proficiency

Biology (Complex Adaptive Systems Science), PHD (LABIOCPHD)

Online Degree Search Title: Biology (Complex Adaptive Systems Science), PhD

Campus: Tempe

Program Description:

The PhD program in biology with a concentration in complex adaptive systems science trains the next generation of scientists in advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences.

The program is tightly integrated with diverse, ongoing university-wide research at Arizona State University on complex adaptive system science and emphasizes the value of a complex adaptive perspective to give students better insight and a more active role in seeking solutions to a broad array of critical issues facing society today. Students become fluent in the common language of complexity while also receiving a solid foundation in the domain knowledge of existing academic disciplines.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Student doctoral dissertations should include the application of complex adaptive systems concepts and methods in their field of study, and candidates typically have a member of the complex adaptive systems science graduate faculty as a member of the doctoral supervisory committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Only students admitted to participating doctoral programs may apply for a complex adaptive systems concentration. A letter of application from the student must be sent to the chair of the complex adaptive systems science graduate faculty. The application is reviewed by members of the graduate faculty who make final admission recommendations to the Graduate College.

Career Opportunities:

A doctorate in biology with a concentration in complex adaptive systems science provides strong preparation for academic careers at every level, from community colleges to research universities. The skills and knowledge graduates obtained in this program are also valuable in government careers with federal and state agencies responsible for wildlife management and conservation and for careers in industry and nongovernmental organizations.

Career examples include:

- food, agriculture and health care scientists in academic, private and industrial labs
- principal investigators in government labs and non-profit organizations
- professors or instructors in universities and colleges
- science teachers in elementary and high schools
- wildlife, animal, and conservation scientists

Chemistry, MS (LACHEMMS)

Online Degree Search Title: Chemistry, MS

Campus: Tempe

Program Description:

Students earning an MS degree in chemistry in the School of Molecular Sciences are trained in the foundation disciplines of analytical, organic, physical, inorganic and environmental chemistry and geochemistry. Most also choose to learn by joining transdisciplinary research teams that work on larger, mission-based contemporary problems in areas such as:

- energy and sustainability
- frontiers of chemical measurement
- fundamental molecular science
- geologic and biospheric science
- materials and nanoscience
- medicine and health
- structure function and dynamics

The master's degree program in chemistry provides students with the training they need to solve molecular scale problems and to contribute to research in current challenging societal issues.

Degree Requirements:

30 credit hours and a thesis.

500-level or above courses as approved by the school (12)

BCH 501 or CHM 501 Seminar or other seminar course as approved by the school (4)

CHM 592 Research (8)

CHM 599 Thesis (6)

Additional Curriculum Information

The program consists of coursework and seminars selected by the student in consultation with the student's supervisory committee and based on the student's area of research. A written thesis is required and must be successfully defended during a public final oral defense. Students must maintain a minimum GPA of 3.00 (scale is 4.00 = "A") or better.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in chemistry, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

Professionals with training achieved in pursuit of a graduate degree in chemistry or biochemistry have opportunities in five general areas: industry (R&D, quality control), academia (high school and higher education), government (research, policy), nonprofit (policy, public education) and entrepreneurship (consulting, start-ups). In addition to specialized technical skills, graduates possess high-demand skills like critical thinking, teamwork and collaboration, time management and many others.

Some career examples include:

- chemistry lecturer
- chemical technician
- environmental science specialist
- government scientist
- high school teacher
- materials scientist
- military scientist
- science consultant

Chemistry, PHD (LACHEMPHD)

Online Degree Search Title: Chemistry, PhD

Campus: Tempe

Program Description:

The PhD program in chemistry in the School of Molecular Sciences provides students with the training they need to solve molecular scale problems and to be successful independent scientists who can contribute to current challenging societal issues.

Students earning a doctorate in chemistry from the School of Molecular Sciences are trained in the foundation disciplines of analytical, organic, physical, inorganic, environmental or geological chemistry, and most also choose to join transdisciplinary research teams that work on larger, mission-based contemporary problems in areas such as:

- energy and sustainability
- frontiers of chemical measurement
- fundamental molecular science
- geologic and biospheric science
- materials and nanoscience
- medicine and health
- structure function and dynamics

Students should visit the department prospective student webpage at <https://sms.asu.edu/graduate-study> (<https://sms.asu.edu/graduate-study>) to learn more about this doctoral program and the graduate research webpage (<https://sms.asu.edu/graduate-study/research> (<https://sms.asu.edu/graduate-study/research>)) to learn about the cutting-edge, transdisciplinary research being conducted in the school.

The doctoral program in chemistry prepares students for professional careers in industry, government and academia.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

six graduate-level courses (12-18)

enrollment in a BCH 501 or CHM 501 seminar (8)

CHM 792 Research (46-52)

CHM 799 Dissertation (12)

Additional Curriculum Information

The program consists of coursework and seminars selected by the student in consultation with the student's supervisory committee and based on the student's area of research.

Qualifying exams consisting of a written comprehensive exam, an oral comprehensive exam and a prospectus are required to advance to candidacy. Students must successfully defend their dissertation during a public final oral defense.

Students must also maintain a minimum GPA of 3.00 (scale is 4.00 = "A") or better.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in chemistry, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

In addition to the admission application, applicants must complete an online supplemental application to the School of Molecular Sciences. The

supplemental application is available 24 to 48 hours after submission of the admission application. The personal statement and contact information for the letters of recommendation are submitted as part of the supplemental application. Information about the supplemental application can be found on the School of Molecular Sciences website. Applications lacking a supplemental application are not reviewed.

Career Opportunities:

Professionals with training achieved in pursuit of a graduate degree in chemistry or biochemistry have opportunities in five general areas: industry (R&D, quality control), academia (high school and higher education), government (research, policy), nonprofits (policy, public education) and entrepreneurship (consulting, start-ups). In addition to specialized technical skills, graduates possess high-demand skills like critical thinking, teamwork and collaboration, time management and many other vital skills.

Some career examples include:

- chemistry lecturer
- environmental science specialist
- government scientist
- materials scientist
- military scientist
- research and development scientist
- research group leader
- science consultant
- university professor

Classical Liberal Education and Leadership, MA (LACLEDLMA)

Online Degree Search Title: Classical Liberal Education and Leadership, MA

Campus: Tempe

Program Description:

The MA program in classical liberal education and leadership is an integrated, interdisciplinary course of study that is student-learning centered, employing the Socratic method of classroom dialogue. This Master of Arts degree program fosters a learning community of students and faculty oriented to the classical, holistic pursuit of knowledge.

The curriculum focuses on philosophy, politics, literature, ethics, economics and history. It combines theory and practice with ideas and application, incorporating inquiry about the good life with the practical challenge of leading others --- nations, societies and individuals --- in the pursuit of a way of life that accords with the precepts of justice and the ethos of humanity.

Intellectual, moral and civic education are understood to be component parts of a genuine liberal education; all are necessary for the flourishing of the individual and society. As Aristotle taught, there is no substitute for doing the right thing in the right way. This is true in how children are educated, neighbors are lived with, and nations are governed. The classical liberal education and leadership program aims to prepare the next generation's teachers, scholars, civic leaders and statesmen to meet the challenges ahead with foresight, integrity, prudence and imagination.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Civic and Economic Thought and Leadership, BA
- Civic and Economic Thought and Leadership, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

36 credit hours including a thesis, or 36 credit hours including an applied project.

Required Core (9 credit hours)

CEL 501 Literary Leaders (3)

CEL 503 Classic Texts in Political Philosophy and Justice (3)

CEL 513 Classic Texts in Leadership and Statesmanship (3)

Restricted Elective (3 credit hours)

LAT 421 Advanced Latin (3)

SLC 598 Topic: Greco-Roman Ideas of Leadership and Politics (3)

SLC 598 Topic: The Classical Tradition (3)

SLC 598 Topic: Tragedy and Comedy in the Greek Polis (3)

Open Electives or Research (18 or 21 credit hours)

Culminating Experience (3 or 6 credit hours)

CEL 593 Applied Project (3)

CEL 599 Thesis (6)

Additional Curriculum Information

For the restricted elective, students select one course from the list of options. Students should see the School of Civic and Economic Thought and Leadership for the most current list. Other courses may be substituted with approval of the academic unit.

Open electives and research are selected in consultation with the academic advisor.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in liberal arts, political science, history, philosophy, theology, the natural sciences or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation from people in education or leadership positions
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

A master's degree allows students to upgrade their bachelor's degree. Students gain specialized knowledge to advance in a chosen field. As the workforce evolves, a graduate degree shows employees are dedicated to enhancing their industry expertise and credibility. Students can focus on a particular field of study, which helps them become more competitive in their area of employment.

A master's degree can open many career doors, including certain career fields, advancement opportunities and higher salaries in the following areas:

- civic leadership and engagement
- education, at all levels
- government
- nonprofit work
- politics

Communication, MA (LACOMMOMA)

Online Degree Search Title: Communication, MA

Campus: Online

Program Description:

The MA in communication program provides advanced training in communication skills and competencies for professionals, preparing students for success in their careers and a dynamic job market.

The flexible delivery offers easy access to a rigorous education. Instruction includes social influence, conflict transformation, communicating in global contexts, best workplace practices and more. The program concludes with a capstone project in which students work with an organization of their choice and create a communication training and development module.

Degree Requirements:

30 credit hours including the required capstone course (COM 550).

Required Core (12 credit hours)

COM 501 Research Methods in Communication (3)

COM 504 Theories and Models in Communication (3)

COM 530 Training and Development (3)

COM 540 Conducting Communication Research (3)

Electives (15 credit hours)

Culminating Experience (3 credit hours)

COM 550 Capstone (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in communication or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/communication-ma/>)

Career Opportunities:

This program is designed for individuals looking to change career trajectories or get ahead in their current professions. Graduates with a master's degree in communication can expect to find work in the following:

- fundraising
- government
- health care
- human resources

- management
- marketing
- nonprofits
- public relations
- sales
- teaching

Communication, PHD (LACOMMOPHD)

Online Degree Search Title: Communication, PhD

Campus: Tempe

Program Description:

The Hugh Downs School of Human Communication offers a transdisciplinary graduate program leading to the PhD in communication.

This program provides coursework and resources in interpersonal communication, intercultural communication, organizational communication, health communication, rhetoric and performance studies. Students receive training in communication theory, research methodology and multiple areas of emphasis, and they actively participate in one or more of the school's collaborative research initiatives.

The program is designed to meet the needs of students whose interests transcend traditional disciplinary boundaries and to prepare scholars for research-oriented careers in universities and in the public or private sectors.

Degree Requirements:

96 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (9 credit hours)

COM 604 Theory Construction in Communication (3)

Choose two:

COM 607 Contemporary Rhetorical Methods (3)

COM 608 Multivariate Statistical Analysis of Data in Communication (3)

COM 609 Advanced Qualitative Research Methods in Communication (3)

Electives (45 credit hours)

Other Requirements (24 credit hours)

COM 691 Seminar (24)

Research (6 credit hours)

COM 792 Research (6)

Culminating Experience (12 credit hours)

COM 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree; 66 credit hours are required beyond an appropriate master's degree.

At least six elective credit hours must be coursework outside of the communication field.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume or curriculum vitae
- statement of goals
- three letters of recommendation
- writing sample
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Most commonly, students enter with a research-based MA in which they have completed a master's thesis.

Applicants should visit the Hugh Downs School of Human Communication website for further details.

Career Opportunities:

A PhD in communication opens doors to a variety of careers in research, teaching, training and consulting. Graduates typically obtain jobs in research and teaching institutions that range from large research universities to four-year teaching schools and community colleges. A number of career opportunities appear in government agencies and organizations, both for-profit and nonprofit.

Career examples include:

- academic advisors
- campaign managers
- consultants
- policy advocates
- professors
- program directors
- researchers
- trainers

Comparative Culture and Language, PHD (LAILCPHD)

Online Degree Search Title: Comparative Culture and Language, PhD

Campus: Tempe

Program Description:

The PhD program in comparative culture and language offers professional training that is linguistically well-grounded, historically and culturally informed, and methodologically transdisciplinary through courses and supervision of research. Central to the program is the critical inquiry of primary texts, media and cultural expressions, aiming at an original understanding of cultures and social groups in their formations, interactions and transformations throughout history.

This degree program is attentive to the various roles of language in societies and in the different perspectives through which language can be studied --- among other aspects, its variations, transformations, hybridizations and processes of acquisition. The doctorate in comparative culture and language focuses particularly on research questions and themes that cannot be fully explored within the traditional disciplinary boundaries; instead, it fosters dynamic collaboration across disciplines in order to engage in the production of knowledge that is crucial to understanding transnational and transcultural interactions across time and space.

The program provides an innovative intellectual platform that advances transdisciplinary research and teaching. In consultation with their advisor, students arrange their coursework in a primary and a secondary area of emphasis. Both areas are organized around interdisciplinary study and

research in more than one language. Advanced language requirements vary depending on chosen areas of research. A sample program of study might include a primary emphasis area in French literature and visual culture, and a secondary emphasis area in gender studies, with research conducted in French and German. In another sample program, students might study multilingualism in Bolivia and Arizona from a comparative sociolinguistics perspective.

Faculty members are drawn from the School of International Letters and Cultures and other programs in the humanities and social sciences across Arizona State University.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, two foreign language exams, a prospectus and a dissertation.

Required Core (3 credit hours)

SLC 602 Comparative Cultural Theory (3)

Restricted Electives (36 credit hours)

primary field of study (18)

secondary field of study (18)

Electives and Research (33 credit hours)

Culminating Experience (12 credit hours)

SLC 799 Dissertation (12)

Additional Curriculum Information

Students will do coursework in a primary and a secondary area of emphasis. Both areas will be organized around interdisciplinary study and research in more than one language; students will be expected to have advanced proficiency in one language other than English (this is the "language of primary emphasis"), and at least reading knowledge in a second language other than English ("language of secondary emphasis").

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative of GPA 3.30 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume or curriculum vitae
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement should describe the questions, issues or challenges the student plans to explore through the doctoral program in comparative culture and language and explain how previous studies, training or professional experiences prepare the student for this research. It should include a proposed plan of study based on the current graduate-level offerings at ASU. In a brief statement, the student should indicate how those courses will be preparation for the dissertation, how the plan fits with the description and goals of this doctoral program, and why the proposed program does not fit some other degree program.

Applicants must provide a 15- to 20-page writing sample in English; a writing sample in the primary language of interest may also be requested at the discretion of the admissions committee. The writing sample should reflect the student's analytical and critical skills.

Career Opportunities:

Professionals with this doctoral degree can confidently move into academic and international fields as an expert on concentration topics. Skills developed through this program are valued for teaching positions, translation work or work in a larger sector such as governmental, diplomatic and

international business career opportunities.

Career examples include:

- area, ethnic and cultural studies teachers and professors
- education administrators
- foreign language and literature teachers and professors
- interpreters and translators
- philosophy and religion teachers and professors
- reporters and correspondents

Computational Life Sciences (Certificate), Certificate (LACMLSGRCT)

Online Degree Search Title: Computational Life Sciences (Graduate Certificate)

Campus: Tempe, Online

Program Description:

Students in the computational life sciences graduate certificate program develop expertise in the understanding, interpretation and analysis of diverse data types generated from a variety of life sciences disciplines, including ecology, botany, evolutionary biology, neuroscience, molecular and cellular biology, and animal behavior.

Degree Requirements:

16 credit hours including a portfolio.

Required Core (1 credit hour)

BIO 610 Introduction to Responsible Conduct of Research (RCR) in Life Sciences (1) or
BIO 611 Current Topics in Responsible Conduct of Research (RCR) in Life Sciences (1)

Electives (15 credit hours)

Culminating Experience (0 credit hours)
portfolio (0)

Additional Curriculum Information

Elective coursework is selected from a restricted list in consultation with the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in life sciences or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The written statement should discuss the applicant's future career goals, to better assist the student with selecting the most applicable set of courses in computational life sciences.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/certificates/computational-life-science-graduate-certificate/>)

Career Opportunities:

Professionals with expertise in computational life sciences are in high demand in biotech and biomedical industries. Skills in data science are critical for the analysis and interpretation of life sciences data. These skills are valuable to businesses and institutions relying on data-driven life sciences research including hospitals, biotechnology companies and for-profit and nonprofit research institutions.

Career examples include:

- bioinformatics scientist
- computational lab technician
- core facilities researcher
- ecologist
- educator
- microbiologist
- natural sciences manager
- software developer

Computer-Assisted Language Learning (Certificate), Certificate (LACALLGRCT)

Online Degree Search Title: Computer-Assisted Language Learning (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate program in computer-assisted language learning focuses on the application of technology in foreign language teaching and research.

The program teaches the practical, hands-on skills needed to create and evaluate learning and teaching materials with new computer-based technologies. Students learn how to use technology effectively to facilitate instructed second language acquisition and how to develop, manage and maintain a cutting-edge language computing facility. The program also provides students with a solid theoretical and pedagogical framework for the integration of technology into the foreign language curriculum and provides them with the tools necessary to teach language courses in either a hybrid or distance learning environment.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

APL/ENG/SLC 557 Computer-Assisted Language Learning (3)

APL 558/SLC 510 Computer-Assisted Language Learning Praxis (3)

Restricted Electives (3 credit hours)

Electives (6 credit hours)

Additional Curriculum Information

For restricted electives, students select a second language acquisition course with department approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned from a regionally accredited institution a bachelor's or master's degree with a major or minor in foreign language study, English or English education.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Career Opportunities:

Professionals with this certificate can confidently move into academic, business and international fields. Skills developed through this program are valued for teaching and research positions or work in the public or private sectors.

Career examples include:

- distance learning coordinators
- educational technology teachers and professors
- foreign language or TESOL teachers and professors
- instructional coordinators
- instructional designers and technologists
- technology for language learning consultants
- training and development specialists

Creative Writing, MFA (LACWRITMFA)

Online Degree Search Title: Creative Writing, MFA

Campus: Tempe

Program Description:

The MFA in creative writing at ASU has always been an unswervingly student-first program. Through small classes, intimate workshops or one-to-one mentoring, the centuries-old apprenticeship model thrives within the New American University. Poets and fiction writers work with outstanding faculty who have published more than 80 books and garnered national and international attention through awards and honors that include:

- Guggenheim, Howard Foundation, Lannan Foundation, MacArthur Foundation, National Endowment for the Arts, and United Artists fellowships
- International Griffin Poetry Prize and Whiting Award
- Multiple Pulitzer Prizes
- Two Medals of Achievement from the National Society of Arts and Letters

- Two Chancellors of the Academy of American Poets
- Walt Whitman Award from the Academy of American Poets

Additionally, in concert with the Master of Fine Arts program, several campus entities contribute to the MFA experience: the Virginia G. Piper Center for Creative Writing offers students a wide range of support and opportunities, travel scholarships, professional development support, and other teaching and leadership opportunities; the Center for Imagination in the Borderlands brings writers and other artists for intensive workshops, classes, and public events, and it offers an Artistic Development and Teaching Assistant Fellowship. Within the Master of Fine Arts, Poetry for the People offers teaching assistantships that provide training in a pedagogy that links art and activism. The program also hosts a newly inaugurated series of craft lectures and an alumni reading series.

Furthermore, students have access to a variety of additional professional development opportunities, including serving on the editorial board of an international literary journal, Hayden's Ferry Review translation experience through the Thousand Languages Project, and internships with award-winning independent literary press Four Way Books.

Degree Requirements:

48 credit hours, a written comprehensive exam and an applied project (ENG 593).

Coursework (39 credit hours)

Other Requirement (6 credit hours)

ENG 592 Research (6)

Culminating Experience (3 credit hours)

ENG 593 Applied Project (3)

Additional Curriculum Information

The creative writing program requires 48 credit hours of study evenly divided between writing courses and literature courses designed to inform that writing.

While students are expected to satisfy these requirements in the genre in which they were accepted, the program encourages cross-genre study and electives can include courses taken outside of the creative writing program, even outside the English department.

A written comprehensive exam and an applied project are required.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Applicants should have an undergraduate major in English or creative writing; however, exceptional students who do not have either of these undergraduate majors may be admitted on the basis of writing excellence.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- creative manuscript
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students applying for a teaching assistantship must submit a statement of teaching philosophy and an academic writing sample.

The personal statement should include the applicant's writing background, intended area of specialization, and a brief self-evaluation of recent work (double spaced, up to 3 pages or 750 words).

The creative manuscript should be up to 20 pages of poetry or up to 30 pages of prose (prose should be double-spaced).

Applicants should see the Department of English website for details.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Create original fiction or poetry that incorporates theoretical and foundational literary knowledge.
- Explicate their creative works articulately.
- Analyze and critique the writing of other creative writers.

Career Opportunities:

A Master of Fine Arts in creative writing prepares students primarily for the professional creation of new art, including fiction, poetry and other written forms. In addition to working as novelists, poets and short story writers, students go on to careers in education, arts administration, media and entertainment, and in political and community organizations.

Career examples include:

- book designer or marketer
- book or magazine editor
- creative writing professor
- essayist or journalist
- literary events coordinator
- novelist
- poet
- screenwriter
- secondary education teacher

Critical Theory (certificate), Certificate (LACRTGRCT)

Online Degree Search Title: Critical Theory (Graduate Certificate)

Campus: Tempe, West

Program Description:

The certificate program in critical theory provides students with opportunity for advanced study in critical and contemporary theory. It promotes the skills required for the use and interpretation of concepts from continental philosophy and from the theoretical trends that have followed over the last two centuries. The program offers tools for creating a critical engagement with society and for the production of new cultural texts and ideas. Myriad developments in theory cut across disciplines in the arts, humanities, social sciences, and the technical and physical sciences. Students find a wide variety of existing and new courses to apply toward the certificate.

Degree Requirements:

15 credit hours and a portfolio.

Required Core (3 credit hours)

ENG 502 Contemporary Critical Theories (3)

Electives (12 credit hours)

Culminating Experience (0 credit hours)

portfolio (0)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.
Academic Catalog Archive 2022-2023

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Specific details about English proficiency requirements are available on the Department of English website.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

The graduate certificate in critical theory is available to all ASU graduate students irrespective of their major, as well as to nondegree graduate students and working professionals provided they meet eligibility criteria. Sample majors include English; women and gender studies; art history; and arts, media and engineering.

Eligible applicants must have taken two courses in critical theory or a related field at the upper-division undergraduate level (such as ENG 401 Topics in Critical Theory) or at the graduate level (such as ENG 502 Contemporary Critical Theories).

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Recognize and apply the affordances and limitations in the applications of foundational concepts of critical theory
- Apply the paradigms of critical theory to develop original research projects
- Build on, qualify, or challenge claims in critical theory.

Career Opportunities:

Writers and other content professionals are in demand today, not only in traditional print media, but on a myriad digital platforms. The modes of logical argumentation and conceptual analysis found in critical theory are valuable skills useful across the media spectrum, from scholarly writing to popular magazines and websites with social, cultural and political themes. Students of critical theory are also increasingly involved in multimedia work and technologies, such as A.I. and other forms of human-to-media interface, that can be used in cutting edge institutional ventures, both academic and commercial, such as tech start-ups.

Career examples include:

- analyst for cultural tech company
- content provider for social media
- freelance cultural critic (on- and offline)
- grass-roots activist
- instructor in critical theory, cultural studies or media studies
- political strategist or campaign worker
- writer in marketing and advertising

Online Degree Search Title: Digital Humanities (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate program in digital humanities provides students with methods and skills central to conducting humanities research that employs both qualitative and quantitative approaches.

The program is designed to promote cross-disciplinary study in humanities and social and computational sciences, and is open to students in all disciplines. The program features training in transdisciplinary collaboration, project-based communication skills, critical theory and the simultaneous application of quantitative and qualitative problem-solving skills.

This certificate highlights an area of excellence within ASU that has emerged across its colleges, schools and departments and is integral to the effort of transforming the humanities at ASU into new transdisciplinary configurations.

Degree Requirements:

15 credit hours including an applied project course (CDH 593).

Required Core (3 credit hours)

CDH 501 Digital Humanities: Critical Theory and Methods (3)

Electives (6 credit hours)

Other Requirement (3 credit hours)

CDH 580 Practicum (3)

Culminating Experience (3 credit hours)

CDH 593 Applied Project (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Admission is open to all ASU graduate students enrolled in an existing master's or doctoral program and in good standing. Students who are interested in transdisciplinary work are particularly well-suited for this certificate program.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. The program requires a TOEFL score of at least 600 (PBT) or 100 (iBT).

Students are asked to outline a desired transdisciplinary area of inquiry. For example, a student who works on digital rhetoric and literacy may want to understand how to create and manage social media data sets or how to create a social media application. Alternatively, a student in the School of International Letters and Cultures may want to study digital archives of Slavic literature and may need to understand how digital archives are enmeshed in national and capitalist networks.

Career Opportunities:

Professionals with this certificate can confidently move into academic, business and international fields. Skills developed through this program are valued for teaching positions, translation work or work in a larger sector such as governmental, diplomatic and international business career opportunities.

Career examples include:

- computer and information research scientist
- cultural designer
- data scientist

- digital curator
- digital humanities instructor
- humanities digital content editor
- information architect
- metadata analyst
- social science research assistant

Disability Studies (Certificate), Certificate (LADISGRCT)

Online Degree Search Title: Disability Studies (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate program in disability studies focuses on the creation of new knowledge and consequent practical implications in the area of disability. It coordinates courses into an individualized systemic plan of study that trains students to conduct disability research.

Students examine disability from diverse perspectives, including disability law and justice, cultural politics of disability, family perspectives, as well as research methods in disability studies. The emphasis for students is on examining and creating new theoretical perspectives and methodological approaches at different levels of analysis while analyzing topics of critical importance locally and globally.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

JUS 530 Social Policy, Critical Advocacy and Disability (3) or
 JUS 565 Critical and Comparative Issues in Disability (3)

Electives (12 credit hours)

Additional Curriculum Information

Students should see the academic unit for the pre-approved list of elective coursework. Other coursework may be used with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in areas such as social sciences, education, social work, law, health care and health care policy or any related field from a regionally accredited institution

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Critically examine and apply appropriate methodological approaches to the study of disability culture locally and globally.
- Explain key theoretical perspectives contributing to the development of disability studies.

Career Opportunities:

A disability studies certificate can benefit individuals working within a variety of fields such as health care, human services, education, rehabilitation sciences and social work. Additionally, individuals with a disability certificate can work within a number of diverse settings, including:

- assisted living centers
- community and family support agencies
- gerontology institutes
- independent living centers
- parent education, consulting and information centers
- protection and advocacy, nonprofit agencies
- research centers and institutes
- self-advocacy associations
- state and local disabilities agencies
- university or college offices for students, with disabilities and transition centers

East Asian Languages and Civilizations (Chinese), PHD (LAEALCPHD)

Online Degree Search Title: East Asian Languages and Civilization, PhD

Campus: Tempe

Program Description:

The PhD program in East Asian languages and civilizations is a research-intensive, transdisciplinary, area-based degree in the study of traditional and modern languages and cultures of China. Students may focus on:

- comparative cultural studies
- cultural history
- linguistics
- literary criticism
- literary thought

In every case, students are expected to acquire a solid grounding in the classical and modern versions of Chinese.

Degree Requirements:

84 credit hours, two foreign language exams, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

CHI 501 Proseminar: East Asian Humanities (3)

Concentration (6 credit hours)

CHI 514 Advanced Classical Chinese (6)

Other Requirements (39 credit hours)

CHI 502 Academic Writing (3)

CHI 598 Topic: Proseminar: Chinese Literary History (3)

CHI 598 Topic: History of the Chinese Language (3)

CHI 598 Special Topics (15)

CHI 691 Seminar (15)

Electives (24 credit hours)

Culminating Experience (12 credit hours)

CHI 799 Dissertation (12)

Additional Curriculum Information

15 credit hours of CHI 598 Special Topics must be comprised of five courses, and 15 credit hours of CHI 691 must be comprised of five seminar courses. Other requirements and elective coursework for the degree are to be chosen in consultation with the program chair.

Courses for the other requirements may be substituted with the approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Applicants specializing in Chinese should have completed at least three years of modern Chinese and one year of classical Chinese.

Applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- speech sample in Chinese or Japanese
- resume or curriculum vitae
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The writing sample, which should be no more than 15 pages, should represent the applicant's thinking as well as writing skills, and it should be on a topic connected with Chinese, Japanese or East Asian culture.

The speech sample is required if the applicant is applying for teaching assistantship funding. The speech sample should be a recorded message approximately four minutes in length, in Chinese or Japanese, on a topic of the applicant's choosing. (Applicants are asked to not read the message. This is to help the committee evaluate the level of proficiency, and the message should realistically reflect the applicant's spoken Chinese or Japanese). Recordings should be emailed to SILC@asu.edu (<mailto:SILC@asu.edu>).

Applicants should see the department website for more information.

Career Opportunities:

Professionals with this degree can confidently move into academic, business and international fields. Skills developed through this program are valued for teaching positions, translation work or work in a larger sector such as governmental, diplomatic and international business career opportunities.

Career examples include:

- teachers or professors of area, ethnic and cultural studies
- teachers or professors of foreign language and literature
- historians
- interpreters and translators
- lawyers
- reporters and correspondents
- social and community service managers

English, MA (LAENGLMA)

Online Degree Search Title: English, MA

Campus: Tempe, Online

Program Description:

The MA program in English allows for a variety of transdisciplinary studies within five distinct tracks:

Comparative literature --- Students interpret cultural productions in English and at least one other language, and they explore approaches ranging from textual criticism, critical theory and translation to cultural studies and the social sciences.

Creative writing -- Students in the accelerated BA/MA creative writing track strengthen their artistic practice by participating in intensive creative writing workshops in either fiction or poetry, alongside the study of contemporary literature and innovative creative techniques.

English studies --- Students in this track learn how to interpret and articulate complex cultural, historical, literary and language related ideas into accessible material for general audiences through a series of courses from across disciplinary areas of study.

Literature --- Students develop and hone skills in oral presentation, writing and critical thinking while exploring social, historical and cultural contexts.

Writing, rhetorics and literacies --- This program offers students a wide array of courses encompassing the history, theory and practice of rhetoric and pedagogy of writing.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- English (Creative Writing), BA
- English (Literature), BA
- English (Writing, Rhetorics and Literacies), BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required applied project course (ENG 593 or LIN 593) and a foreign language exam, or 30 credit hours including the required capstone course (ENG 597) and a foreign language exam, or 30 credit hours, a thesis and a foreign language exam.

Required Core (3 credit hours)

ENG 501 Approaches to Research (3)

A student may pursue a track in comparative literature, English studies, literature, or writing, rhetorics and literacies. The creative writing track is available only for students in the accelerated BA/MA creative writing track program. All tracks have a foreign language requirement.

Comparative Literature Track

one course in concept and methods (course in comparative literature, criticism or translation)

four courses in a language other than English

electives

Creative Writing Track

ENG 594 Conference and Workshop: Fiction (3) or

ENG 594 Conference and Workshop: Poetry (3)

ENG 538 Studies in Modern and Contemporary American Literature (3) or

ENG 539 Studies in Modernist and Postmodernist Literature and Theory (3)

electives or research courses

ENG 584 Internship (3)

English Studies Track

one course in linguistics

one course in literature
one course in writing, rhetorics and literacies
one course in English education
electives or research courses

Literature Track

one course in literary theory
a distribution requirement
electives
two courses selected must be graduate seminars at the 600 level

Writing, Rhetorics and Literacies Track

one course in composition theory
one course in rhetoric theory
electives, which must include six credit hours of graduate seminars at the 600 level

Culminating Experience (3 or 6 credit hours)

ENG 593 Applied Project (3) or
ENG 597 Graduate Capstone Seminar (3) or
ENG 599 Thesis (6)

Additional Curriculum Information

Students should see the academic unit for an approved course list.

The capstone culminating experience option is available to students in the English studies track only. Students in this track must take the capstone. Students in one of the other tracks may select an applied project or thesis for the culminating experience.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- academic writing sample relevant to the field
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should see the Department of English website for specific details about English proficiency requirements.

Applicants for the master's degree program in English with a track in comparative literature must prove fluency in a foreign language to a level sufficient for graduate study. The one- to two-page, single-spaced statement of purpose should detail the applicant's background, reasons for wanting to do graduate work in comparative literature, and plans for the future.

Applicants for the master's degree program in English with a track in creative writing must be undergraduate students in the creative writing concentration at ASU and approved to enter the accelerated program. The one- to two-page statement of purpose should detail the applicant's background, reasons for wanting to do graduate work in creative writing, and their plans for the future.

Applicants for the master's degree program in English with a track in English studies (the online program) are required to submit two academic or professional letters of recommendation; a third recommendation is optional. An academic writing sample is not required. The two-page, single-spaced statement of purpose should explain how the applicant's academic and professional interests fit with the English studies track of the Master of Arts in English. Applicants with undergraduate majors in English, foreign language, history, philosophy, liberal studies or other areas in humanities are considered.

Applicants for the master's degree program in English with a track in literature are required to have an undergraduate major in English. Those who

do not have a major in English are encouraged to register as nondegree students while they take supplementary courses, as identified by the advisor. The one- to two-page, single-spaced statement of purpose should detail the applicant's background, reasons for wanting to do graduate work in literature, and plans for the future.

Applicants for the master's degree program in English with a track in writing, rhetorics and literacies may have undergraduate majors in fields such as anthropology, cognitive science, communication, comparative languages and literatures, education, English literature, history, law, modern languages, philosophy, political science, psychology, religion, rhetoric or composition, sociology, or speech and hearing science. The one- to two-page, single-spaced statement of purpose should detail the applicant's background, reasons for wanting to do graduate work in writing, rhetorics and literacies, and plans for the future.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-arts-english/>)

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Use concepts from a discipline in English Studies to analyze (break into constituent parts) a relevant creative/literary, rhetorical or linguistic artifact or other cultural phenomenon according to standards of rigor in the field.
- Compose a compelling case, argument or creative work relevant to English Studies that meets or exceeds standards of rigor in the field.
- Use theories, concepts and methods from a discipline in English Studies to sustain an evidence-based line of reasoning that makes a grounded, situated & qualified contribution according to standards of rigor in the field.
- Graduates from the MA in English program at ASU will be able to use concepts from a discipline in English Studies to analyze (break into constituent parts) a relevant creative, literary, rhetorical or linguistic artifact or other cultural phenomenon according to standards of rigor in the field.
- Graduates of the MA program will be able to use theories, concepts and methods from a discipline in English Studies to sustain an evidence-based line of reasoning that makes a grounded, situated and qualified contribution according to standards of rigor in the field.

Career Opportunities:

Professionals with expertise in all areas of English studies are able to articulate and translate complex ideas for a general audience and are prepared for career opportunities in public humanities, business, digital media, teaching, museums, nonprofits and arts organizations. In addition, the program nurtures concrete skills in writing, oral presentation and critical thinking that are valuable assets for any career.

Career examples include:

- communications director
- copywriter
- editor or author
- human resources specialist
- instructor
- market research analyst
- library or museum administrator
- publisher
- social media manager
- technical writer

English (English Education), PHD (LAENEDPHD)

Online Degree Search Title: English (English Education), PhD

Campus: Tempe

Program Description:

The PhD program in English with a concentration in English education prepares students to examine the writing and reading practices of secondary students as well as the instructional practices of secondary English language arts teachers by emphasizing the relationship between pedagogy and research methodologies used to study the teaching of secondary English.

The curriculum comprises dynamic coursework, mentoring, interdisciplinary learning opportunities and community outreach.

Possible areas for research focus within this program include young adult literature, secondary reading and writing practices, new literacies, English language learning, critical literacy and secondary English language arts curriculum and instruction development. The program encourages students to pursue coursework in other subdisciplines within the Department of English, such as rhetoric and composition, applied linguistics and literature, and coursework in the ASU Mary Lou Fulton Teachers College, such as literacy and educational research methodology.

Students benefit from the program's links to the Central Arizona Writing Project, and this relationship offers opportunities for related coursework, research, community outreach and teacher in-service programs.

The doctorate in English education prepares students to become professors of English education or to pursue other relevant opportunities in research and administration.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

ENG 501 Approaches to Research (3)

Foundational Distribution (12 credit hours)

Advanced Studies Distribution (12 credit hours)

Internships (6 credit hours)

ENG 784 Internship (6)

Specialization (9 credit hours)

Culminating Experience (12 credit hours)

ENG 799 Dissertation (12)

Additional Curriculum Information

Students must take 12 credit hours at the 500 level, selected from a list of approved courses in education, English, linguistics and applied linguistics for the foundational distribution.

Students must take at least three courses in the area of specialization.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If not approved, the 30 credit hours of coursework will be made up of electives and research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree from a regionally accredited institution.

Applicants with master's degrees in English education and related fields, such as English literature, applied linguistics, education, and rhetoric and composition will be considered. A minimum of three years of full-time teaching or volunteer work in secondary English language arts classrooms or in literate-rich settings is required.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.50 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- academic writing sample
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should see the Department of English website for specific details about English proficiency requirements.

The one- to two-page statement should explain the applicant's interest in the program and how the applicant's background and preparation led to the specific career and research goals. The three letters of recommendation should be from individuals familiar with the applicant's promise in English education, including one letter from a school principal and two letters from university professors. Applicants applying for funding must also submit a statement of teaching philosophy.

Applicants should see the Department of English website for specific details.

Career Opportunities:

Careers for English education graduates include professions related to the field of secondary language arts and literacy education in secondary schools.

Career examples include:

- curriculum developer
- dual enrollment teacher
- faculty position (college, university)
- instructional leader
- literacy coach
- middle or high school English teacher
- teacher leadership and research

English (Literature), PHD (LAENLITPHD)

Online Degree Search Title: English (Literature), PhD

Campus: Tempe

Program Description:

The PhD program in English with a concentration in literature trains students in the various methodologies, pedagogies and areas of inquiry that constitute literary and cultural studies.

With a diverse and accomplished faculty, the program offers opportunities for specialization in traditional areas of literary criticism, cultural analysis and theory, as well as various fields of interdisciplinary study.

A doctorate in literature equips students with a range of highly sought-after skills and competencies: research and analysis of complex material, communication in written and oral modes, collaboration, independence and self-motivation, creativity and adaptability.

Degree Requirements:

84 credit hours, a foreign language exam, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

A student with an appropriate master's degree must complete a minimum of 54 credit hours of approved graduate work, which includes 12 credit hours of dissertation, provided the student's master's degree is accepted by the supervisory committee and the academic unit. Research hours may be used toward coursework in consultation with the advisor.

A student without an appropriate master's degree must complete 84 credit hours of work at ASU. At the advisor's discretion, students may include up to 12 credit hours of appropriate, graduate-level coursework undertaken at another university and not previously counted toward any other degree.

Specifically required are six credit hours in theory courses and ENG 501 Approaches to Research. Students must complete eight graduate courses in any of the following categories:

- cultural studies

- ethnic studies
- gender studies
- genre
- history and structure of the English language
- literature 1500-1660
- literature 1660-1900
- literature since 1900
- literature to 1500
- postcolonial or anglophone literatures

Students must take at least five graduate seminars at the 600 level en route to the doctorate, at least three of which must be taken in the doctoral program. Up to 12 credit hours taken outside the department may be counted toward the degree. Students should consult with their supervisory committees when choosing electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.50 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- academic writing sample relevant to the field
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should see the Department of English website for specific details about English proficiency requirements. <https://english.clas.asu.edu/admission/graduate-admission/how-to-apply/information-international-students> (<https://english.clas.asu.edu/admission/graduate-admission/how-to-apply/information-international-students>)

The well-considered, one- to two-page, single-spaced statement of purpose should explain how the applicant's experience and training have prepared them for the program as well as the purpose for pursuing the doctorate. Applicants applying for funding must also submit a statement of teaching philosophy. Students should see the Department of English website for specific details.

Career Opportunities:

Graduates are prepared for careers in higher education and other fields that value this expertise. Sectors employing high numbers of arts and humanities graduates include: information and communication, financial and insurance, public administration and defense, arts and entertainment, and education.

Career examples include:

- archivist
- art director
- copywriter
- criminal investigator or special agent
- editor
- educator
- intelligence analyst
- librarian
- market research analyst
- museum curator, educator or exhibit designer
- political analyst
- public relations specialist or manager
- technical writer

English (Writing, Rhetorics, and Literacies), PHD (LAENRHTPHD)

Online Degree Search Title: English (Writing, Rhetorics and Literacies), PhD

Campus: Tempe

Program Description:

The PhD in English with a concentration in writing, rhetorics and literacies promotes the study of rhetorical strategies, production, distribution and interpretation of oral, written, digital, visual, discursive, material and symbolic texts.

Students study the history, theories and methods of inquiry as well as pragmatic and social actions of writing, rhetoric and literacies. With theories and methods from both historical and contemporary contexts, students learn strategies for inquiry; the ways in which communication creates knowledge and action; and how communication is constructed, circulated, reacted to and repurposed over time and across space. Program requirements are designed to encourage a full understanding of theoretical and applied aspects of writing studies, rhetorical studies and literacy studies. Students also are provided many opportunities to explore the intersections and tensions that exist within and between the three different areas of inquiry.

The program encourages transdisciplinary study, and its flexible requirements enable students to pursue those aspects of the disciplines that interest them the most. The program prepares students for working lives as teachers, scholars and communications professionals.

Degree Requirements:

84 credit hours, a foreign language exam, a written comprehensive exam, a prospectus and a dissertation, or 84 credit hours, a foreign language exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

ENG 501 Approaches to Research (3)

Concentration (9 credit hours)

ENG 551 Rhetorical Traditions (3)

ENG 552 Composition Studies (3)

ENG 556 Theories of Literacy (3)

Focus Area (9 credit hours)

Electives or Research (18 credit hours)

research methods (3)

electives (15)

Other Requirements (3 credit hours)

writing for publication/scholarly writing coursework (3)

Culminating Experience (12 credit hours)

dissertation (12)

Additional Curriculum Information

Students may be allowed 30 credit hours from a previously awarded master's degree as approved by the academic unit and the Graduate College. Students who do not hold a master's degree are required to take additional elective and research credit hours to reach the 84 credit hours required for this program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Applicants with bachelor's or master's degrees in fields such as anthropology, applied linguistics, cognitive science, communication, comparative languages and literatures, English literature, education, history, law, linguistics, modern languages, philosophy, political science, psychology,

religion, rhetoric, composition, sociology, and speech and hearing science will be considered.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.50 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- academic writing sample relevant to the field
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should see the Department of English website for specific details about English proficiency requirements.

In the well-considered, one- to two-page, single-spaced statement of purpose, applicants should explain how their experience and training have prepared them for the program. Applicants should indicate their career goals and explain how these goals relate to the program in writing, rhetorics and literacies. Applicants applying for funding must also submit a statement of teaching philosophy. Applicants should see the Department of English website for specific details.

Career Opportunities:

Professionals with expertise in written communication, research and knowledge management are in high demand across sectors and industries, including business, media, law, entertainment, politics, nonprofits and community organizations. Skills in the measurement and analysis of data for the development of multimodal (digital, print, oral, visual) content are valuable to businesses, organizations and institutions relying on data-driven strategies to address and communicate complex, knowledge-rich issues to broad professional audiences.

Career examples include:

- editor and content manager
- English or communications professor
- human resources specialist
- market research analyst
- public relations specialist
- publishing copyeditor or proofreader
- social media manager
- technical writer

English Education, MA (LAENEDMA)

Online Degree Search Title: English Education, MA

Campus: Tempe

Program Description:

The MA in English education is a one-year, intensive program designed to prepare practicing and transitioning teachers for careers as exemplary educators, teacher-researchers and leaders in English language arts instruction.

Students in the program develop a deep understanding of the English language arts by learning how to access, analyze and apply research and best practices for teaching secondary students (grades 7-12). This program balances the refining of disciplinary knowledge with pedagogical application of that knowledge in classrooms. Students take a variety of dynamic, cutting-edge methods courses, including advanced methods courses in research in English education, methods of teaching writing and text, teaching postcolonial young adult literature and teaching writing in an era of standardization.

This innovative course of study culminates with an inquiry project related to English language arts instruction in secondary classrooms. The program empowers students to employ teacher research and inquiry to address questions they have about their own students' learning and their own teaching practice.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

English (Secondary Education), BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required applied project course (ENG 593).

Required Core (12 credit hours)

ENG 501 Approaches to Research (3)

ENG 506 Methods and Issues in Teaching Language (3)

ENG 507 Methods and Issues in Teaching Composition (3)

ENG 606 Advanced Studies in English Education (3)

Electives or Research (12 credit hours)

Other Requirements (3 credit hours)

ENG 594 Conference and Workshop (3)

Culminating Experience (3 credit hours)

ENG 593 Applied Project (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in English, creative writing, English education, secondary education or secondary curriculum and instruction, or a master's degree in education or a closely related field from a regionally accredited institution. Current certification in secondary English language arts (grades 6-12), or equivalent certification, or a minimum of two years teaching English language arts in a school setting is required.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should see the Department of English website for specific details about English proficiency requirements.

The one- to two-page statement of purpose should explain the applicant's background, reasons for wanting to do graduate work in English education, and goals. Three academic or professional letters of recommendation are required, and at least one must be from a faculty member familiar with the applicant's academic work.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Recognize various qualitative and quantitative research methods as appropriate and effective means for pursuing specific lines of classroom-

based teacher inquiry and explain the pros and cons of a given methodological approach in terms of their classroom research.

- Locate, analyze, and synthesize qualitative or quantitative teacher research studies specific to important issues in their own English language arts classrooms or schools.

- Identify important educational issues they face in teaching English language arts, survey a variety of resources (i.e., research literature, expert opinion, and educational policy) and synthesize their learning into plans for best practice.

- Interrogate their own pedagogical practices (i.e., curriculum and instruction, differentiation, English language learners, cultural responsiveness, assessment, digital/new literacies) in the teaching of English language arts (reading, writing, speaking, listening, use of language, technology) and make appropriate adaptations to best meet all students' needs.

Career Opportunities:

Careers for English education graduates include professions related to the field of secondary language arts and literacy education in secondary schools.

Career examples include:

- curriculum development
- dual enrollment teachers
- faculty positions at colleges and universities
- instructional leaders
- literacy coaches
- middle and high school English teachers
- teacher leadership and research

Environmental Communication and Leadership (Certificate), Certificate (LAECLGRCT)

Online Degree Search Title: Environmental Communication and Leadership (Graduate Certificate)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:

Scientists must go beyond publishing in journals if they want their research to be relevant to society. However, academic training rarely covers how to communicate with the press, the public, policymakers and other relevant stakeholders.

This certificate program in environmental communication and leadership gives graduate students in environmental disciplines the important leadership and communication skills needed to increase their influence and reach above and beyond academia.

Degree Requirements:

15 credit hours.

Required Core (3)

BIO 578 Environmental Leadership and Communication (3)

Electives (12)

policy and management (3)

communication (3)

leadership (3)

open elective (3)

Additional Curriculum Information

Students must choose three credit hours from each of the three categories with approval of the School of Life Sciences. If a student takes a course for fewer than three credit hours, the student must take more than one course in that category to meet the three-credit-hour requirement. Students should contact the School of Life Sciences for a complete list of courses.

Students choose one three-credit-hour elective course from any of the three categories above. Students should note that only three credit hours of approved 400-level coursework can appear on the plan of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Sample related fields include business, education, biology, geosciences, political science and English.

Applicants must have completed 12 undergraduate credit hours of natural science or social science coursework related to the environment at the time of application to the graduate certificate program. They must meet all other graduate admissions requirements. Courses are reviewed by the School of Life Sciences graduate committee to ensure that they fulfill this requirement.

Career Opportunities:

Professionals skilled in communication as well as analytical and critical thinking are highly sought in public and private industry. Experience with conservation science, policy, management and leadership prepare graduates for careers in research, policy development, law and business management, among many others.

Career examples include:

- attorney
- ecologist
- professor
- research scientist
- science journalist or communicator

Environmental Life Sciences, PHD (LAELSPHD)

Online Degree Search Title: Environmental Life Sciences, PhD

Campus: Tempe

Program Description:

The PhD in environmental life sciences is a novel graduate degree program that provides doctorate-level training in several complementary fields focused on the interactions between organisms (e.g., plant, microbe, people and other animals) and the environment.

This unique program provides opportunities to train across many fields of study, including:

- biology
- biochemistry and chemistry

- conservation science
- ecology
- evolution
- environmental engineering
- geosciences
- mathematics and statistics
- spatial sciences
- social sciences
- sustainability

Graduate students are trained by means of a core class taught by environmental life science faculty members, through hands-on experiences in the lab and field, with guidance from committee members across multiple disciplines, and in research seminars.

The focus is on collaborative, interdisciplinary and integrative study of the causes and consequences of environmental variation across scales ranging from the organism to the globe. The overall goal is to provide a unique, interdisciplinary doctoral program that encourages students to explore and solve complex problems in the context of natural and anthropogenic environmental change.

Administered by ASU's School of Life Sciences, seven additional schools participate in this interdisciplinary program to promote broad, collaborative training.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

ELS 501 Environmental Life Sciences: Grand Challenge: Global Climate Change (3)

Electives (69 credit hours)

Culminating Experience (12 credit hours)

ELS 799 Dissertation (12)

Additional Curriculum Information

ELS 501 is required for students to take during their first semester at ASU.

For electives, students should see the academic unit for approved coursework. Students also may take ELS omnibus courses to fulfill some of the elective requirements.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework are made up of electives and research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related discipline from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

Environmental life sciences addresses ecological, environmental, sociological or governance questions in a changing world. Graduates are prepared for a range of careers related to global environmental change, conservation and resource management, among others.

Career examples include:

- atmospheric and space scientist, professor, consultant or research director
- forestry and conservation science professor, consultant or research director
- climate change analyst, oceans and climate manager
- environmental compliance inspector, environmental engineer, environmental safety and health coordinator
- public health scientist
- insect ecologist and exhibits specialist
- operations research scientist
- research ecologist
- wildfire biologist

Environmental Social Science, PHD (LAESSPHD)

Online Degree Search Title: Environmental Social Science, PhD

Campus: Tempe

Program Description:

The PhD program in environmental social science is one of the few doctoral degree programs in the U.S. that draws on the premise that reducing human impacts and developing more sustainable environmental practices is difficult, if not impossible, to achieve without a focus on the social dynamics of environmental issues using critical social science perspectives.

The program is organized around theoretically based conceptual domains:

- culture and the environment
- environmental hazards and vulnerability
- environmental justice
- human environment impacts
- political ecology
- science and technology studies

These are the bases for addressing various topical foci, including urban environments, technologies and their consequences, landscapes, institutions, and health and the environment.

Students work with faculty who have expertise in a broad range of fields including:

- archaeology
- community resources
- cultural and medical anthropology
- demography
- environmental history
- geographic information systems
- human and physical geography
- planning
- public affairs
- science and technology studies
- sociology

The program trains students to move into teaching and research positions or to assume leadership roles in government, industry or nongovernmental organizations.

Coursework for the degree is focused on developing real-world skills and a solid grasp of complex social science approaches to environmental issues. Students work closely with their committee to develop a curriculum appropriate to their chosen interests and career goals.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students entering with a master's degree in a related field may be granted up to 30 credit hours toward the 84 credit hour total required for the doctorate degree program. This leaves 30 credit hours of coursework, 12 credit hours of research credit and 12 hours of dissertation credit (54 credit hours total) to be earned post-admission.

Students entering without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio which is formally evaluated by a faculty committee and present that research in a public forum before continuing on in the later stage of the doctorate degree program.

All students must maintain an average GPA of 3.20 (scale is 4.00 = "A") in their courses and complete degree requirements per the program's satisfactory progress policy.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Undergraduate coursework in the social sciences (e.g., geography, political science, sociology, anthropology, planning or history) is not a prerequisite for admission but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of the social sciences in a manner to be specified at the time of admission.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants may include in the application materials an optional scholarly writing sample, not to exceed 30 double-spaced pages.

Career Opportunities:

The demand in the job market is for people with keen thinking skills who can manage, evaluate and interpret large amounts of data. As the many spheres of human interaction expand globally, people trained in this degree are increasingly sought for their broad, holistic knowledge and perspectives. Some career opportunities include:

- acting as legal advocates in international cases
- analyzing and proposing policies
- conducting postgraduate academic research
- consulting for private and public organizations
- curating cultural resources
- directing nonprofit organizations
- directing programs in the private or public sector
- managing culture or heritage resources in private or public sectors
- planning communities
- teaching

Environmental Social Science (Complex Adaptive Systems Science), PHD (LAESSCPHD)

Online Degree Search Title: Environmental Social Science (Complex Adaptive Systems Science), PhD

Campus: Tempe

Program Description:

The PhD program in environmental social science is one of the few doctoral degree programs in the U.S. that draws on the premise that reducing human impacts and developing more sustainable environmental practices will be difficult, if not impossible, to achieve without a focus on the social dynamics of environmental issues using critical social science perspectives.

The program is organized around theoretically based conceptual domains:

- culture and the environment
- environmental hazards and vulnerability
- environmental justice
- human environment impacts
- political ecology
- science and technology studies

These are the bases for addressing various topical foci, including urban environments, technologies and their consequences, landscapes, institutions, and health and the environment.

Students work with faculty who have expertise in a broad range of fields including:

- archaeology
- community resources
- cultural and medical anthropology
- demography
- environmental history
- geographic information systems
- human and physical geography
- planning
- public affairs
- science and technology studies
- sociology

The program trains students to move into teaching and research positions or to assume leadership roles in government, industry and nongovernmental organizations.

Coursework for the degree is focused on developing real-world skills and a solid grasp of complex social science approaches to environmental issues. Students work closely with their committee to develop a curriculum appropriate to their chosen interests and career goals.

The complex adaptive systems science doctoral concentration trains the next generation of scientists in advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences. The program is tightly integrated with diverse, ongoing, university-wide research on complex adaptive systems science at Arizona State University and emphasizes the value of a complex adaptive systems perspective to give better insight and a more active role in seeking solutions to a broad array of critical issues facing society today. Students will become fluent in the common language of complexity while also receiving a solid foundation in the domain knowledge of existing academic disciplines.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (9 credit hours)

Concentration (12 credit hours)

Electives or Research (21 credit hours)

Culminating Experience (12 credit hours)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework will be made up of electives and research.

Students entering without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio which is formally evaluated by a faculty committee and present that research in a public forum before continuing on in the later stage of the doctorate.

All students must maintain an average GPA of 3.20 (scale is 4.00 = "A") in their courses and complete degree requirements per the program's satisfactory progress policy.

Student doctoral dissertations should include the application of complex adaptive systems concepts and methods in their field of study and typically have a member of the complex adaptive systems science graduate faculty as a member of their doctoral supervisory committee.

Students should see the academic unit for a complete list of approved electives and concentration courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Undergraduate coursework in the social sciences (e.g., geography, political science, sociology, anthropology, planning or history) is not a prerequisite for admission but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of the social sciences in a manner to be specified at the time of admission.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants may include in their application materials an optional scholarly writing sample, not to exceed 30 double-spaced pages.

Career Opportunities:

The demand in the job market is for people with keen thinking skills who can manage, evaluate and interpret large amounts of data. Environmental Social Science (Urbanism), PHD (LAESSURPHD)

Online Degree Search Title: Environmental Social Science (Urbanism), PhD

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

The PhD in environmental social science is one of the few doctoral degree programs in the U.S. that draws on the premise that reducing human impacts and developing more sustainable environmental practices will be difficult, if not impossible, to achieve without a focus on the social dynamics of environmental issues using critical social science perspectives.

The program is organized around theoretically based conceptual domains:

- culture and the environment
- environmental hazards and vulnerability
- environmental justice
- human environment impacts
- political ecology
- science and technology studies

These are the bases for addressing various topical foci, including urban environments, technologies and their consequences, landscapes, institutions, and health and the environment.

Students work with faculty who have expertise in a broad range of fields including:

- archaeology
- community resources
- cultural and medical anthropology
- demography
- environmental history
- geographic information systems
- human and physical geography
- planning
- public affairs
- science and technology studies
- sociology

The program trains students to move into teaching and research positions or to assume leadership roles in government, industry or in nongovernmental organizations.

Coursework for the degree is focused on developing real-world skills and a solid grasp of complex social science approaches to environmental issues. Students work closely with their committee to develop a curriculum appropriate to their chosen interests and career goals.

The concentration in urbanism leverages the varied interests in urbanism and helps emerging scholars as they attempt to compare, contrast and take stock of urbanism. Working with faculty from across a range of departments and programs at ASU, doctoral students are able to capture the creative tensions that scholarship on urbanism has inspired in order to stimulate a provocative, constructive kind of inquiry.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students entering with a master's degree in a related field may be granted up to 30 credit hours toward the 84 credit hour total required for the doctorate. This leaves 30 credit hours of coursework, 12 credit hours of research and 12 credit hours of dissertation (54 credit hours total) to be earned post admission.

Students entering without a master's degree must earn an additional 30 credit hours of graduate coursework, produce a research portfolio which is formally evaluated by a faculty committee, and present that research in a public forum before continuing on in the later stage of the doctorate degree program.

All students must maintain an average GPA of 3.20 (scale is 4.00 = "A") in their courses and complete degree requirements per the program's satisfactory progress policy.

All students entering the program complete 18 credit hours of core classes in conceptual domains and topical foci. For the concentration in urbanism, 15 credit hours are to be selected from an approved list of applicable courses related to urbanism. Some of the environmental social science core courses also count toward the concentration in urbanism. These courses include the core urbanism course GCU 516 as well as one course from each of the four urbanism clusters: built form, culture and society, institutions and governance, and natural environment.

Additional credit hours come from courses in research design, technical expertise and electives. Students may select from a substantial range of courses to satisfy noncore requirements.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Undergraduate coursework in the social sciences (e.g., geography, political science, sociology, anthropology, planning or history) is not a prerequisite for admission but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of the social sciences in a manner to be specified at the time of admission.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants may submit with their application materials an optional scholarly writing sample, not to exceed 30 double-spaced pages.

Evolutionary Biology, PHD (LAEVOPHD)

Online Degree Search Title: Evolutionary Biology, PhD

Campus: Tempe

Program Description:

The evolutionary biology PhD is a transdisciplinary graduate degree program that provides doctorate-level training in the historical, conceptual, empirical and quantitative aspects of biological evolution.

Evolution is a fundamental scientific concept underlying all aspects of modern biological, environmental and health-related research. It cuts across biological sciences in ways that few other foci do and informs the theoretical foundations of subfields like population genetics and ecosystem ecology. It allows integration of information and patterns across levels of organization, informs the theoretical foundations of subfields ranging from population genetics to systematics to ecosystem ecology, and provides bridges between temporal and spatial scales.

Forgoing emphases on particular taxa or methods, the program focuses on understanding the patterns and processes that have shaped life on Earth and continue to do so, training the next generation of scientists to use this knowledge to meet present and future challenges to the biosphere and human health in the face of increasing environmental perturbation.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (9 credit hours)

BIO 514 Statistical Models for Biology (4)

EVO 601 Principles of Evolution (3)

EVO 610 Research Areas of Evolution (2)

Electives (9 credit hours)

The program advisor as well as the student's advisor will determine these courses in conjunction with the student.

Other Requirements (54 credit hours)

research, coursework or 30 credit hours from a previously awarded master's degree

Dissertation (12 credit hours)

EVO 799 Dissertation (12)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in a related discipline, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

A PhD in evolutionary biology provides strong preparation for academic careers at every level from community colleges to research universities. The skills and knowledge obtained in this program are also valuable for government careers in federal and state agencies and for careers in industry and nongovernmental organizations.

Career examples include:

- health care scientists in academic, private, and industrial labs
- principal investigators in government labs and nonprofit organizations
- professors or instructors in universities and colleges
- science teachers in elementary and high schools

- wildlife, animal and conservation scientists

Evolutionary Medicine (Certificate), Certificate (LAEVMDGRCT)

Online Degree Search Title: Evolutionary Medicine (Graduate Certificate)

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

With rising need for health science-related skills and an aging population in the United States, innovations in health and medicine are in demand.

Evolutionary medicine is a new and burgeoning field situated between the life and social sciences that integrates the fields of genetics, medicine, global health, evolutionary biology and public health to transform understanding of disease and improve human health. Students that complete this certificate program learn how to integrate perspectives from across fields to answer questions about health and disease in the context of human life history.

Students are introduced to integrated approaches within the biological and social sciences that are capable of addressing an emerging, anticipated public need such as reemerging infectious disease, challenges with vaccines, the expansion of chronic disease and other growing public health crises.

Degree Requirements:

15 credit hours including the required capstone course (BIO 571).

Required Core (3 credit hours)

ASB 507/BIO 507 Advanced Evolutionary Medicine (3) or

ASM 503/BIO 510 Evolutionary Medicine and Global Health (3)

Restricted Electives in Anthropology (3 credit hours)

ASB 503 Medical Anthropology (3)

ASB 510 Health: Social and Biocultural Theories (3)

Restricted Electives in Biology (3 credit hours)

ASM 546/BIO 546 Principles of Human Genetics (3)

BIO 545 Populations: Evolutionary Genetics (3)

EVO 601 Principles of Evolution (3)

Electives or Research (3 credit hours)

Culminating Experience (3 credit hours)

BIO 571 Evolutionary Medicine Capstone (3)

Additional Curriculum Information

Students choose one course from an approved list of electives or research courses and cannot choose courses already taken for required core or restricted electives in anthropology and biology. For restricted electives in anthropology and biology, students must choose one course from the list indicated for each subject.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the life or social sciences or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or

applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- professional resume
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The professional resume should demonstrate the applicant's skills and previous training.

The written statement should address future career goals to better assist the student with selection of the most applicable set of courses in evolutionary medicine.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Career Opportunities:

According to the Bureau of Labor Statistics, demand for health science-related careers is expected to grow 18% between 2016 and 2022. With an aging population in the United States and a pivot toward global health concerns, there is an increase in demand for health care services.

Health care professional programs have competitive admissions processes and students with a certificate in evolutionary medicine are able to set themselves apart from their peers with skills in problem-solving to address the integration of basic medical and public health science and practice. They also have a working knowledge of how evolutionary thinking influences medical and public health intervention and have the ability to apply an integrated conceptual framework to the problems of public health and medicine in order to produce more holistic outcomes for the improvement of human health.

Career examples include:

- anthropologists and sociologists
- biologists
- educators
- physicians, nurses, psychologists and psychiatrists
- public health professionals

Exploration Systems Design, MS (LAESDMS)

Online Degree Search Title: Exploration Systems Design, MS

Campus: Tempe

Program Description:

The MS program in exploration systems design promotes the development and growth of engineering-literate scientists and science-literate engineers. Its unique curriculum combines science applications with engineering knowledge and skills through engineering and science courses focused on Earth science, space science and astrophysics.

Three concentrations are also offered for those who wish more specific training in instrumentation, systems engineering and sensor networks.

Degree Requirements:

30 credit hours including capstone course (SES 511).

Required Core (5 credit hours)
SES 501 SESE Colloquium (1)
SES 502 Exploring SESE Research (1)
SES 510 Graduate Exploration Project I (3)

Electives or Research (22 credit hours)

Culminating Experience (3 credit hours)
SES 511 Graduate Exploration Project II (3)

Additional Curriculum Information

For elective coursework, students select from the AST, GLG, SES or engineering courses in consultation with their faculty advisor. Six credit hours must be science coursework approved by the faculty advisor. Other courses can be used with academic unit approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering, physical science or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- written statement
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

The U.S. Department of Labor predicts that the economy will add an additional 63,000 jobs in engineering fields related to systems engineering and exploration systems design (involving electrical and electronics, aerospace and mechanical engineering). This is in addition to the 900,000 jobs already existing in the economy in these fields: <https://www.bls.gov/ooh/architecture-and-engineering/home.htm> (<https://www.bls.gov/ooh/architecture-and-engineering/home.htm>).

The state of Arizona has a considerable presence from aerospace and other technology companies with high demand for skilled labor. In particular, local aerospace companies have high demand for students with direct experience and training in the space sector. This degree program is uniquely positioned to provide this training.

Exploration Systems Design, PHD (LAESDPHD)

Online Degree Search Title: Exploration Systems Design, PhD

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

The PhD program in exploration systems design offers students an advanced systems approach for developing scientific exploration technologies in a wide variety of demanding environments on the earth, planets, moons and in space.

This transdisciplinary degree program provides a unique platform to train systems engineers targeting technological development for exploration science. This collaborative program between the School of Earth and Space Exploration and the Ira A. Fulton Schools of Engineering allows students to specialize in topics related to planetary exploration, astronomical instrumentation, robotics, sensors and sensor networks.

The curriculum integrates the School of Earth and Space Exploration's science, instrumentation and systems engineering core courses with related coursework from the Ira A. Fulton Schools of Engineering. Students must select a concentration as part of this degree program. Concentrations are available in instrumentation, systems engineering and sensor networks.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (1 credit hour)

SES 502 Exploring SESE Research (1)

Electives or Research (70 credit hours)

Other Requirements (1 credit hour)

SES 501 SESE Colloquium (1)

Culminating Experience (12 credit hours)

SES 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree in a related field to be used for this degree. Related fields include, but are not limited to, engineering, computer science, geological sciences or physics.

As part of the electives or research, students take two science courses selected from the SESE graduate catalog (GLG, SES, or AST prefixes). Substitutions may be made per academic unit approval.

Substitutions for Other Requirements may be made per department approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admissions application and application fee
- official transcripts
- statement of purpose
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students should see the program website for application deadlines.

Instrumentation concentration:

An undergraduate degree in electrical engineering, aerospace engineering or mechanical engineering is preferred.

Systems engineering concentration:

Successful completion of a senior capstone or design project is an admission requirement for this concentration. Students who have not had a design course are required to take SES 405 Exploration Systems Engineering as a deficiency course.

Sensor networks concentration:

An undergraduate degree in electrical engineering or computer science is preferred.

Career Opportunities:

Professionals with expertise in exploration systems design are in high demand across sectors and industries, including remote sensing, systems engineering, data science, environmental consulting, Earth and planetary science, and engineering. Coding and numerical modeling skills translate across many domains, even beyond exploration systems design. Skills in the design, manufacture and deployment of engineered solutions to science problems are valuable to businesses and institutions relying on data-driven strategies to manage large teams and complex problems. The doctoral degree in exploration systems design is generally required for careers in post-secondary education and research.

Career examples include:

- data scientist
- engineering professor
- project manager
- research engineer

Exploration Systems Design (Instrumentation), MS (LAESDIMS)

Online Degree Search Title: Exploration Systems Design (Instrumentation), MS

Campus: Tempe

Program Description:

The MS program in exploration systems design with a concentration in instrumentation promotes the development and growth of engineering-literate scientists and science-literate engineers who are interested in the design, construction and implementation of scientific instrumentation. Its unique curriculum combines science applications with engineering knowledge and skills through engineering and science courses focused on Earth science, space science and astrophysics. The concentration trains students to design the next generation of in-situ or remote sensing instrumentation for exploration of the Earth, space and the universe.

Degree Requirements:

30 credit hours including capstone course (SES 511).

Required Core (5 credit hours)

SES 501 SESE Colloquium (1)

SES 502 Exploring SESE Research (1)

SES 510 Graduate Exploration Project I (3)

Concentration (9 credit hours)

AST 540 Astronomical Instrumentation and Data Analysis (3)

EEE 543 Antenna Analysis and Design (3)

EEE 545 Microwave Circuit Design (3)

EEE 548 Coherent Optics (3)

EGR 608 Advanced Simulation (3)

MAE 503 Finite Elements in Engineering (3)

MAE 557 Mechanics of Composite Materials (3)

Electives or Research (13 credit hours)

Culminating Experience (3 credit hours)

SES 511 Graduate Exploration Project II (3)

Additional Curriculum Information

Students select three courses from the available concentration coursework.

For elective coursework, students select from the AST, GLG, SES or engineering courses in consultation with their faculty advisor. Six credit hours must be science coursework approved by the faculty advisor. Other courses can be used with academic unit approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering, physical science or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- written statement
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

The U.S. Department of Labor predicts that the economy will add an additional 63,000 jobs in engineering fields related to instrumentation and exploration systems design (involving electrical and electronics, aerospace and mechanical engineering). This is in addition to the 900,000 jobs already existing in the economy in these fields. <https://www.bls.gov/ooh/architecture-and-engineering/home.htm> (<https://www.bls.gov/ooh/architecture-and-engineering/home.htm>)

The state of Arizona has a considerable presence from aerospace and other technology companies with high demand for skilled labor. In particular, local aerospace companies have high demand for students with direct experience and training in the space sector. The concentration in instrumentation is uniquely positioned to provide this training.

Exploration Systems Design (Instrumentation), PHD (LAESDIPHD)

Online Degree Search Title: Exploration Systems Design (Instrumentation), PhD

Campus: Tempe

Program Description:

The exploration systems design PhD program offers an advanced systems approach for developing scientific exploration technologies in a range of demanding environments on Earth and in space.

This transdisciplinary degree program provides a unique platform to train systems engineers targeting technological development for exploration science. This is a collaborative program between the School of Earth and Space Exploration and the Ira A. Fulton Schools of Engineering that allows students to specialize in topics related to planetary exploration, astronomical instrumentation, robotics, sensors and sensor networks.

The curriculum integrates the School of Earth and Space Exploration's science, instrumentation and systems engineering core courses with related coursework from the Ira A. Fulton Schools of Engineering. The instrumentation concentration prepares students in the development of state of the art sensors and systems for remote and in-situ sensing related to planetary science, earth science and astronomy.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (1 credit hour)

SES 502 Exploring SESE Research (1)

Electives or Research (61 credit hours)

Other Requirements (1 credit hour)

SES 501 SESE Colloquium (1)

Concentration (9 credit hours)

Culminating Experience (12 credit hours)

SES 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree in a related field to be used for this degree. Related fields include, but are not limited to, engineering, computer science, geological sciences or physics.

As part of the electives or research, students take two science courses selected from the SESE graduate catalog (GLG, SES or AST prefixes). Substitutions may be made per academic unit approval.

Substitutions for Other Requirements may be made per department approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. An undergraduate degree in electrical engineering, aerospace engineering or mechanical engineering is preferred.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admissions application and application fee
- official transcripts
- statement of purpose
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students should see the program website for application deadlines.

Career Opportunities:

Professionals with expertise in exploration systems design are in high demand across sectors and industries, including remote sensing, systems engineering, data science, consulting, Earth and planetary science, and engineering. Coding and numerical modeling skills translate across many domains, even beyond exploration systems design. Skills in the design, manufacture and deployment of engineered solutions to science problems are valuable to businesses and institutions relying on data-driven strategies to manage large teams and complex problems. The doctoral degree in exploration systems design is generally required for careers in post-secondary education and research.

Career examples include:

- data scientist
- engineering professor
- instrument builder
- machining specialist
- project manager
- research engineer

Exploration Systems Design (Sensor Networks), MS (LAESDSNMS)

Online Degree Search Title: Exploration Systems Design (Sensor Networks), MS

Campus: Tempe

Program Description:

The MS program in exploration systems design with a concentration in sensor networks promotes the development and growth of engineering-literate scientists and science-literate engineers interested in the use of robotics, data science and other computational tools applied to science problems in Earth and space sciences.

Its unique curriculum combines science applications with engineering knowledge and skills through engineering and science courses focused on Earth science, space science and astrophysics. The concentration program trains students to use modern computational tools to solve the some of the most complex science problems humanity faces.

Degree Requirements:

30 credit hours including Capstone Course (SES 511).

Required Core (5 credit hours)

SES 501 SESE Colloquium (1)

SES 502 Exploring SESE Research (1)

SES 510 Graduate Exploration Project I (3)

Concentration (9 credit hours)

CEN 571 Hardware Acceleration and FPGA Computing (3)

EEE 507 Multidimensional Signal Processing (3)

EEE 511 Artificial Neural Computation (3)

EEE 515 Machine Vision and Pattern Recognition (3)

EEE 551 Information Theory (3)

MAE 547 Modeling and Control of Robots (3)

Electives or Research (13 credit hours)

Culminating Experience (3 credit hours)

SES 511 Graduate Exploration Project II (3)

Additional Curriculum Information

Students select three courses from the available concentration coursework.

For elective coursework, students select from the AST, GLG, SES or engineering courses in consultation with their faculty advisor. Six credit hours must be science coursework approved by the faculty advisor. Other courses can be used with academic unit approval.

Family and Human Development, MS (LAFAMHDMS)

Online Degree Search Title: Family and Human Development, MS

Campus: Online

Program Description:

The MS program in family and human development provides practitioner-oriented professionals with an understanding of relationships and developmental dynamics.

Students learn how to effectively evaluate and consume research, translate research into best practices, and apply these principles at work. They gain knowledge and skills necessary for promoting healthy individual and family development as they study the factors that promote successful relationships and positive outcomes for individuals, families and communities across the lifespan.

The online format provides easy access to rigorous and valuable information that informs best practices in improving the lives of families and family members. The program also includes a customizable culminating experience that allows students to focus their training in their areas of interest and work.

Degree Requirements:

30 credit hours including the required capstone course (FAS 588).

Required Core (9 credit hours)

CDE 531 Theoretical Issues in Child Development (3)

FAS 586 or SOC 586 Capstone I (3)

FAS 587 or SOC 587 Capstone II (3)

Electives or Research (18 credit hours)

FAS 500 Research Methods (3)

CDE 501 Social Statistics (3)

diversity course (3)

other elective coursework (9)

Culminating Experience (3 credit hours)

FAS 588 Capstone III (3)

Additional Curriculum Information

Students complete the coursework and culminating experience courses in consultation with the assigned faculty advisor. The plan of study should be completed and approved by the faculty advisor once completing 50% of the minimum required credit hours for the degree. Acceptance of the proposed plan of study must be verified by the signature of the chair and faculty advisor. After approval from the program or college, the plan of study is submitted to the Graduate College for final approval.

FAS 500 and CDE 501 may be replaced by equivalent courses with approval by the academic advisor.

The diversity course and other elective coursework are chosen with approval by the academic advisor. The remaining elective credits must be from the FAS, CDE or SOC prefixes.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate coursework
- current resume or curriculum vitae
- personal statement of goals relevant to the master's degree program
- two letters of recommendation from professional or academic backgrounds
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement must be four to five pages, double-spaced, and must address the applicant's professional goals, the applicant's strengths that will enable the applicant to succeed in the program, and relevant professional experience or responsibilities to the program.

Letters of recommendation must be from at least two academic or professional sources. Family members or friends do not meet this criterion. Applicants should see the program website for full application deadlines and admission terms and details.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-family-and-human-development/>)

Career Opportunities:

Graduates often pursue careers in human, social and government agencies working with children, youth and adults in positions such as:

- caseworker
- children, youth and family services worker
- community engagement specialist
- community support program official
- family support specialist
- human service specialist
- manager
- nonprofit organization administrator
- outreach coordinator

While the information students learn in this program could be beneficial to therapists and counselors, this degree does not enable students to seek licensure as a professional counselor or marriage and family therapist; that requires the completion of an additional program or degree.

Family and Human Development, PHD (LAFAMSCPHD)

Online Degree Search Title: Family and Human Development, PhD

Campus: Tempe

Program Description:

The PhD program in family and human development is devoted to the study of families, children and youth. The program's research, teaching and service have direct meaning in the lives of children and adults, and for the families and communities in which they live.

The faculty share a common commitment to high-quality research that both increases the basic understanding of human and family development and has the potential to contribute to the improvement of the lives of children and families.

Degree Requirements:

85 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (1 credit hour)

FAS 503 Academic Professional Development (1)

Electives (40 credit hours)

Other Requirements (26 credit hours)

CDE 531 Theoretical Issues in Child Development (3)

FAS 500 Research Methods (3)

FAS 531 Theoretical Issues in Family Sciences (3)

FAS or CDE 598 Topic: Quantitative Methods in the Social Sciences I (3)

FAS or CDE 598 Topic: Quantitative Methods in the Social Sciences II (3)

FAS or CDE 598 Topic: Quantitative Methods I Lab (1)

FAS or CDE 598 Topic: Quantitative Methods II Lab (1)

two graduate-level courses in advanced methods or statistics (6)

one graduate-level diversity course (3)

Research (6 credit hours)

FAS or CDE 592 Research (6)

Culminating Experience (12 credit hours)

FAS or CDE 799 Dissertation (12)

Additional Curriculum Information

Postbaccalaureate (students entering after the bachelor's degree): Of the 85 credit hours for a postbaccalaureate program, six credit hours are dedicated to an empirical project and 12 credit hours are for the dissertation.

Post-master's (students entering after the master's degree): When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this credential. Of the 55 credit hours of the post-master's degree program, 12 credit hours are for the dissertation.

Electives should be chosen in consultation with and approval of the advisor. Electives may be selected within or outside of the Sanford School. All elective courses must be 500 level or higher.

Substitutions for all courses listed under other requirements may be made per department approval.

For the diversity course requirement, students should refer to the department for a list of approved courses.

For the advanced methods or statistics requirement, students take two courses with content that advances beyond Quantitative Methods I and II.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a resume or curriculum vitae
- statement of goals relevant to the doctoral program
- three letters of recommendation
- verbal, quantitative and analytical GRE scores
- proof of English proficiency

Additional Application Information:

An applicant whose native language is not English must provide proof of English proficiency via a TOEFL score of at least 600 regardless of current residency.

The personal statement must be four to six pages, double-spaced, and address the applicant's professional goals, the applicant's strengths that will enable the applicant to succeed in the program, a detailed description of past research experience, relevant professional experiences or responsibilities, and specific personal research interests. The applicant also must identify two or three faculty members whose research interests match their own and explain why they are good matches.

Three letters of recommendation are required. These must include at least one from an instructor at the applicant's institution where undergraduate or graduate work was completed. The letters should be from people who know the applicant in a professional or academic capacity. Letters from family members or friends do not meet this criterion.

Students should see the program website for full application deadlines.

Career Opportunities:

Students in this program gain knowledge and skills necessary for promoting healthy individual and family development as they study the factors that promote successful relationships and positive outcomes for individuals, families and communities across the lifespan. Graduates often pursue careers working with children, youth and adults in human, social and government agencies.

Career examples include:

- community support program officials
- government agency administrators and professionals
- instructors
- nonprofit organization administrators
- research professionals

Film and Media Studies, MAS (LAAMPCMAS)

Online Degree Search Title: Film and Media Studies, MAS

Campus: Online

Program Description:

Providing a comprehensive overview of film, television, videogames and other digital media across a range of texts and platforms, the MAS program in film and media studies develops students into more critically informed writers, teachers, storytellers and consumers of popular culture and media.

Delivered exclusively online, the program explores the aesthetic, industrial, social and cultural dimensions of U.S. media production within a dynamic, interactive and flexible learning environment.

Graduates of this program are able to analyze current and historic issues in connection with media texts, examine the cultural contexts of media production, and identify the economic, political, technological and social factors that influence media production and analysis.

Degree Requirements:

30 credit hours and a written comprehensive exam.

Required Core (9 credit hours)

FMS 504 Film Analysis (3)

FMS 510 Digital Media Studies (3)

FMS 520 Cultural History of US Television: Theory and Method (3)

Electives (21 credit hours)

Culminating Experience (0 credit hours)

written comprehensive exam (0)

Additional Curriculum Information

The program consists of nine credit hours of core courses, 21 credit hours of electives and a written comprehensive exam. Students should review the webpage and then consult the director.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- letters of recommendation (optional)
- application essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should see the Department of English website for specific details about English proficiency requirements.

The two-page statement of purpose should describe past academic work, reasons for pursuing the Master of Advanced Study, and the skills that prepare the applicant for this degree.

Applicants are asked to write and submit a three-page essay that assesses their knowledge of media theory and critical analysis skills. The subject of the essay is given in the online application. Applicants should demonstrate the ability to write well and construct a persuasive critical argument. Appropriate secondary sources should be used in this essay.

While letters of recommendation are optional, applicants may include two or three letters in their application. Recommenders should be former teachers or supervisors, addressing the applicant's academic performance, motivation and character.

An interview via Skype may be requested before final admission decisions are made.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-advanced-study-american-media-and-popular-culture/>)

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze the cultural, economic, political, and technological factors that influence media production, reception, and analysis.
- Engage theory and apply key concepts in film and media studies.
- Identify, evaluate, and integrate appropriate primary and secondary sources in relation to the study of media

Career Opportunities:

Media industries are sources of ever-increasing opportunities for graduates. The Master of Advanced Study in film and media studies provides students with a set of valuable skills that lead to numerous employment opportunities in fields including education, academia, journalism, communications, research and media consulting. There is also more need for media studies experts in every major industry, with media presence being a requirement in today's society. Every industry and company has media departments with specialists in media policy, strategy, research, marketing, social media and branding.

Career examples include:

- archivist
- branding strategist
- educator
- media buyer
- media critic
- media industry journalist
- media researcher
- political media strategist
- producer
- public relations expert
- social media strategist
- teacher

French (Comparative Literature), MA (LAFRECLMA)

Online Degree Search Title: French Comparative Literature, MA

Campus:

This program is not currently accepting applications.

Program Description:

The MA in French comparative literature provides students with an opportunity to develop an advanced knowledge of French and of Francophone and other world literatures, histories and major works. Students also develop a sound knowledge of the traditions, aims and methods of scholarly research in the field.

Degree Requirements:

30 credit hours including the required applied project course (FRE 593) and a written comprehensive exam.

Graduate students may take only 500-level courses for graduate credit. At least nine credit hours must be selected from those courses listed exclusively for graduate students. The program must include:

- FRE 500 Research Methods (3)
- two courses in linguistics, civilization or translation, of which one course must be in linguistics
- one course in critical or cultural theory

It is recommended that the candidate enroll in FRE 500 as early as possible.

A minimum of four core courses offered by the French section must be selected from any combination of the following categories:

- Francophone studies courses
- genre courses
- period courses

When approved by the graduate committee, up to six credit hours of related coursework may be taken outside of French.

A student must achieve a grade of "B" (scale is 4.00 = "A") or higher in all work specifically included in the plan of study. Grades below a "C" (2.00) cannot be used to meet the requirements of a graduate degree. No student may accumulate more than one incomplete at any one time.

Independent study courses are given only under exceptional circumstances and do not duplicate courses which are available. The French graduate committee is responsible for authorizing such work in cooperation with the individual professor. No more than three credit hours of independent study is permitted.

Students must complete an applied project.

The written examination for the concentration in comparative literature is administered by the interdepartmental committee for comparative literature and consists of two essay-based components: general concepts of comparative literature and problems of comparative literature.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in French from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The writing sample should represent the applicant's thinking as well as writing skills, and it should be written in French on a topic connected with the language or French culture. The writing sample should be approximately five to 10 pages in length.

Those who lack the appropriate background but who show strong potential and meet the Graduate College admission requirements may be admitted to a graduate program on a provisional basis, pending removal of specified deficiencies. These deficiencies must be completed in addition to the regular program of study for the master's degree.

Career Opportunities:

Professionals with this degree can confidently move into academic, business and international fields. Skills developed through this program are valued for teaching positions, translation work or work in a larger sector such as governmental, diplomatic and international business career opportunities.

Career examples include:

- teachers and professors of area, ethnic and cultural studies
- editors
- foreign language and literature teachers and professors
- historians
- interpreters and translators
- lawyers
- reporters and correspondents
- social and community service managers

French (Linguistics), MA (LAFRELINMA)

Online Degree Search Title: French Linguistics, MA

Campus:

This program is not currently accepting applications.

Program Description:

The MA in French linguistics provides students with the opportunity to develop an advanced knowledge of current linguistic theory as it applies to French as well as a sound grounding in the tools necessary to carry out linguistic research.

Degree Requirements:

30 credit hours including the required applied project course (FRE 593) and a written comprehensive exam.

The plan of study for the master's degree includes:

- an applied project
- a minimum of 30 credit hours of graduate-level work as approved by the candidate's supervisory committee
- a 500-level bibliography and research methods course offered by the department
- in some programs, six credit hours in another language or in closely related courses (when approved by the candidate's supervisory committee)

All candidates are required to pass a comprehensive written examination designed to evaluate the candidate's knowledge in the area of specialization. A reading list as agreed upon serves as a guide to prepare for this examination.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in French from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Gender Studies, PHD (LAGSTPHD)

Online Degree Search Title: Gender Studies, PhD

Campus: Tempe

ASU is not currently accepting applications for this program. The next round of applications will be accepted for Fall 2023. Interested students should check back for updates.

Program Description:

The PhD program in gender studies is part of the nation's first School of Social Transformation. The inclusive gender studies doctoral program empowers tomorrow's community leaders by immersing them in:

- ASU's on-campus Digital Humanities research lab
- creative and critical knowledge production
- deep fluency in feminist theory and practical applications
- publicly engaged academic research
- socially embedded community partnerships

The connections between social locations, community and lived experience are the foundation of the research, teaching and community engagement. Faculty and students explore these intersections from a holistic perspective that goes beyond the classroom.

Focus areas within the Gender Studies program include:

Gender, Justice and Social Change --- Courses in this area explore the gender dimension of social structures, institutions and organizations; the processes of social change and community development; and the ways policies and laws can change gender relations. Students can choose to specialize in:

- child welfare
- domestic violence
- globalization
- immigration
- labor and employment
- social policy
- sustainability
- transnational feminisms

- women's rights, sexuality and gender equality in the Global South

Health, Science and Technology --- Courses in this area explore the impact of gender on health care, health occupations, science and technology and health, science and technology policy. Students can choose to specialize in:

- adolescent pregnancy and parenting in the Global South
- bioethics
- gender and technology
- health and sexuality
- HIV and AIDS prevention

Visual and Narrative Culture --- Courses in this area explore historical and contemporary representations of gender in all genres, including art, literature, popular culture, scientific, medical, historical and legal discourse, and theater and performance. Students can choose to specialize in:

- affect theory
- intersections of gender representations with representations of race, sexuality, disability and class
- literary theory
- literature, theatre and performance, film, music and media
- performance theory
- queer of color critique
- representation as discourse

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (12 credit hours)

WST 601 Critical Concepts of Gender (3)

WST 602 Mapping the Intersections of Gender (3)

WST 603 Engendering Methodology (3)

WST 701 Research Design and Proposal Development in Gender Studies (3)

Elective Coursework in Methodology (6 credit hours)

Elective Coursework in Specialization (12 credit hours)

General Electives (30 credit hours)

Research and Dissertation (24 credit hours)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework is made up of electives to reach the required 84 credit hours.

Students should see the academic unit for a complete list of approved electives.

Students must maintain an average GPA of 3.50 (scale is 4.00 = "A") in their courses.

The gender studies doctoral program is designed to provide students with the transdisciplinary training in theory and methods needed to conduct original research and scholarship about gender. Thus, students also take two research methods courses relevant to their dissertation chosen in consultation with their faculty advisor.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

The gender studies program welcomes applications from qualified students without regard to race, creed, color, religion, sex or national origin. Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official copies of all undergraduate and graduate transcripts
- resume or curriculum vitae
- statement of purpose
- three letters of reference, preferably from faculty or other researchers
- writing sample (10 to 15 pages)
- proof of English language proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students should see the ASU Graduate Admission Services website for mailing addresses and further admission information.

For additional financial information, students should consult the Financial Aid and Scholarship Services website at <https://students.asu.edu/financial-aid> (<https://students.asu.edu/financial-aid>).

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Integrate and apply the core theories of gender in the field of Women and Gender Studies.
- Examine and apply intersectionality as a foundational framework in the field of Women and Gender Studies.
- Evaluate and apply core methodologies in the field of Women and Gender Studies.

Career Opportunities:

Graduates of the program have gone on to careers at universities, research and policy institutes, government organizations and nonprofit organizations.

Gender Studies (certificate), Certificate (LAWSTGRCT)

Online Degree Search Title: Gender Studies (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate program in gender studies offers graduate students the opportunity to enhance their advanced degrees with demonstrated proficiency and knowledge about gender research and theories that they may apply in their own fields.

The certificate is pursued in tandem with any graduate degree program at ASU.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

WST 601 Critical Concepts of Gender (3)

WST 602 Mapping the Intersections of Gender (3)

Electives (9 credit hours)

Additional Curriculum Information

Elective courses may be chosen from other WST graduate courses or from more than 30 approved courses from other departments throughout the university. Other courses may also be used with the graduate director's approval.

Up to six credit hours not used for another ASU degree or certificate can be transferred from another university, with the graduate director's approval.

approval. Courses should be recorded on the transfer section of the student's interactive program of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the United States on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The certificate is not offered as a stand-alone, certificate-only program. It is open only for degree-seeking students. However, up to nine credit hours of ASU nondegree credit can be transferred into the program for those who eventually gain admission into an ASU graduate degree program.

Students should see the program website for more information about the certificate and to design coursework.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Gain an understanding of the key concepts, theoretical frameworks, interdisciplinary approaches & critical debates that have shaped the field of gender studies.
- Gain an understanding of theoretical concepts, metaphors & frameworks employed by feminist scholars to understand the way gender articulates with other categories of difference

Career Opportunities:

Graduates of the program have gone on to careers at universities, research and policy institutes, government organizations and nonprofit organizations.

Geographic Education, MAS (LAGEOEDMAS)

Online Degree Search Title: Geographic Education, MAS

Campus: Tempe, Online

ASU is not currently accepting applications for this program.

Program Description:

The MAS program in geographic education provides teachers with the opportunity to obtain specialized experience in geographic pedagogy. The degree program is intended for K-12 teachers and is appropriate for both elementary and secondary school teachers.

Degree Requirements:

30 credit hours and an applied project.

Required Core (3 credit hours)

COE 501 Introduction to Research and Evaluation in Education (3)

Geography Coursework (24 credit hours)

Culminating Experience (3 credit hours)

DCI 593 Applied Project (3) or

SED 593 Applied Project (3)

Additional Curriculum Information

Students should see the academic unit for an approved course list.

Students are required to have access to a computer with an Internet connection and the capability to view video and animated files with sound, access to email, and access to a word processing program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in education, geography or related area from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Letters of recommendation must be from three people who can attest to the applicant's academic and professional achievements. One letter must be from a former instructor.

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Geographic Information Science, PHD (LAGISPHD)

Online Degree Search Title: Geographic Information Science, PhD

Campus: Tempe

Program Description:

The PhD program in geographic information science fosters training of next generation scientists and engineers who will excel at theoretical, computational, analytical and technical knowledge in transdisciplinary geospatial sciences.

Students in this doctoral program have the opportunity to conduct research at the Spatial Analysis Research Center alongside world-renowned faculty specializing in remote sensing and earth observation, GIS, geoinformatics, spatial statistics and spatial-temporal analysis. Researchers are investigating a variety of issues, including voting habits, health crises, altering landscapes and more --- all in an attempt to better understand this complex and changing world.

The program has sufficient flexibility to allow for individual needs and interests, allowing students to create a plan of study that fits their personal, academic and professional goals.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (12 credit hours)

GIS 520 GIScience Issues and Debates (3)

GIS 521 Geographic Information Science Programming (3)

GIS 571 Spatial Statistics for Geography and Planning (3)

GCU 585 Geographic Research Design and Proposal Writing (3)

Electives or Research (55 credit hours)

Remote Sensing (3 credit hours)

Other Requirements (2 credit hours)

GCU 591 or GPH 591 Seminar: Geography Colloquium (2)

Culminating Experience (12 credit hours)

GIS 799 Dissertation (12)

Additional Curriculum Information

Students select electives, remote sensing and other requirements seminar coursework in consultation with their academic advisor.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in geography, geology, earth science, computer programming, GIS, environmental science, geomatics or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- written statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Letters of recommendation should be from academic professionals or professional colleagues capable of evaluating the applicant's abilities, accomplishments and professional potential.

The written statement must address the following questions:

- What area of specialization within GIS do you wish to pursue, and why?
- Describe the aspects of your education that will enable you to pursue this area of specialization.
- What additional training do you feel you can obtain at Arizona State University to realize your education and career goals?

Also in the written statement, applicants should provide any other information (for example: research experience or information which might be drawn from a resume) that they feel the committee should consider in the application for admission.

The written statement should be no longer than two pages. A generic statement, often sent to multiple universities, does not substitute for a statement that addresses the applicant's reasons for applying to this doctoral program in geographic information science.

Career Opportunities:

Professionals with expertise in geospatial information science research, theory and practice are in high demand across sectors and industries, including in institutions of higher education, consulting firms and government agencies. Skills in geographical data science, mapping and data analysis are valuable to businesses and institutions that rely on data-driven approaches to solve complex real-world problems.

Career examples include:

- computer scientist
- conservation scientist
- geoscientist
- geospatial information scientist or technologist
- geospatial intelligence analyst
- remote sensing scientist or technologist

Geographic Information Science (certificate), Certificate (LAGEOGISCE)

Online Degree Search Title: Geographic Information Science (Graduate Certificate)

Campus: Tempe

Program Description:

Geographic information scientists have the ability to not only map out information but to provide a deeper understanding of the world and the human interactions in it. By combining the disciplines of computer science, statistics and geography, geographic information sciences, experts can help answer the what, where, why and how questions that span areas of interest in many industries.

The geographic information sciences certificate program teaches students the theoretical aspects of GIS, the technical side of the discipline and applications of the science. Students learn how to analyze policy problems and research questions from a spatial lens, acquire and analyze remotely sensed data, and model spatial phenomenon.

Skills in geographic information science and geospatial data analytics offer students market-ready tools for turning novel sources of spatial data into informed practice and prepare students to address issues such as climate change, population growth and aging and active transportation. The certificate program enables ASU graduate students from all disciplines and GIS professionals to learn how to apply GIS concepts and technology to solve complex problems, a valuable skill across multiple disciplines and sectors.

The certificate is intended as either a specialization within an existing master's degree or a stand-alone nondegree program for practicing professionals with a previously earned graduate degree.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

PAF 571 Geographic Information Systems (GIS) and Analysis (3) or
PAF 576 GIS Workshop (3)

Electives (6 credit hours)

Other Requirements (6 credit hours)

ABS 485 GIS in Natural Resources (3)
GIS 521 Geographic Information Science Programming (3)
GIS 561 Fundamentals of Spatial Optimization (3)
GIS 562 Location Analysis and Modeling (3)

GIS 563 Local Statistical Modeling (3)
GIS 571 Spatial Stats for Geography and Planning (3)
GIS 591 Seminar: Data Mining and Data Driven Geography (3)

Additional Curriculum Information

Students select one of the required core courses for a total of three credit hours.

Two of the other requirement courses are selected from the list above for a total of six credit hours; other courses may be substituted with approval from the program director. The program recognizes that other graduate-level courses on GIS are offered at ASU. Advanced courses are often taught in omnibus courses, courses that have rotating content and whose content is not reflected in their titles. Students may include these courses in their certificate curriculum with approval of the program director.

Students select two three-credit hour elective courses for a total of six credit hours in consultation with the program director.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they are currently pursuing a master's degree at ASU or have earned a master's degree and are currently practicing professionals.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

The personal statement must be a one-page letter describing the applicant's overall objective for the GIS certificate program. It should clearly state the applicant's interest in GIS and provide evidence that the certificate will enhance the applicant's education or current employment.

Currently practicing professionals must submit a final transcript from the master's degree-granting institution.

Career Opportunities:

Professionals with expertise in geospatial information science are in high demand across sectors and industries, including consulting firms, government agencies and community organizations. Skills in geographical data science, mapping and geospatial analysis are valuable to businesses and institutions relying on data-driven approaches to solve complex real-world problems.

Career examples include:

- cartographer or photogrammetrist
- geographic information systems technician
- geospatial information scientist or technologist
- geospatial intelligence analyst
- mapping technician
- remote sensing scientist or technologist

Geographic Information Systems, MAS (LAGISMAS)

Online Degree Search Title: Geographic Information Systems, MAS

Campus: Tempe

Program Description:

The MAS in geographic information systems is a compact, one-year degree program fostering advanced study in the management and use of GIS technology in public and corporate environments. The degree program meets important educational needs of working professionals and recent college graduates seeking to improve their career standing. The program provides a comprehensive professional program that balances work in the theoretical and technical aspects of GIS with the applications domain. Students are exposed to innovative technology with a focus on building invaluable problem-solving skills, and the opportunity to work on real-world GIS projects.

The program places the focus on location --- the heart of geography and GIS. From that foundation, students learn advanced modeling solutions in GIS and Earth-observing as well as how to integrate computer science, statistics and geography to address a multitude of questions.

Small class sizes ensure quality attention from the faculty, and classes are held in the evening during the week, allowing flexibility for the working professional. The degree is achievable in a one-year time period. A new cohort begins the program each August, with students attending evening classes during the fall and spring semesters. Upon completion of the spring semester, students select a project to complete during a summer eight-week session. Final presentations take place in mid-July, and in fewer than 11 months the degree program is complete.

Degree Requirements:

30 credit hours including the required applied project course (GPH 693 or GIS 693).

Required Core (24 credit hours)

- GIS 601 Introduction to Geographic Information Systems (2)
- GIS 602 Intermediate GIS (2)
- GIS 603 Spatial Statistics and Modeling (2)
- GIS 604 Implementation in the Corporate and Public Sectors (2)
- GIS 605 GIS Project Planning and Implementation (2)
- GIS 606 GIS Project Presentation (2)
- GIS 610 Programming the GIS Environment (3)
- GIS 630 GIS Technologies (3)
- GIS 640 GIS for Business (3)
- GIS 650 GIS for the Internet (3)

Other Requirement (3 credit hours)

- GIS 684 Internship (3)

Culminating Experience (3 credit hours)

- GIS 693 Applied Project (3) or
- GPH 693 Applied Project (3)

Additional Curriculum Information

Other requirement coursework may be substituted with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in a related field from a regionally accredited institution or if they demonstrate a minimum of three years related professional experience with a bachelor's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants must prepare a formal, written personal statement regarding relevant academic experience, professional experience and overall interest in GIS.

Letters of recommendation must be from two people who can attest to the applicant's academic and professional achievements. Letters can be from any combination of current or former instructors, supervisors or professionals currently employed within the GIS or related discipline.

Career Opportunities:

Professionals with expertise in geospatial information science are in high demand across sectors and industries, including consulting firms, government agencies and community organizations. Skills in geographical data science, mapping and data analysis are valuable to businesses and institutions relying on data-driven approaches to solve complex real-world problems.

Students prepare for careers in private and public industry in which employees with these skill sets are needed for a wide range of positions, such as software developers, GIS analysts, mapping engineers, real estate researchers and more. Additional career examples include:

- cartographer or photogrammetrist
- geospatial information scientist or technologist
- geospatial intelligence analyst
- mapping technician
- software developer
- remote sensing scientist or technologist

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Geography, MA (LAGEOGMA)

Online Degree Search Title: Geography, MA

Campus: Tempe, Online

Program Description:

The MA in geography program is designed to offer specialized academic and professional training in geography so students may secure a sound graduate background for further specialization or for immediate employment. The program has sufficient flexibility to allow for individual needs and interests, allowing students to create a plan of study that fits their personal and professional goals.

In addition to innovative coursework, the state-of-the-art research centers Spatial Analysis Research Center and Urban Climate Research Center offer students the opportunity to work with exceptional faculty on diverse research projects. Students have the opportunity to work alongside some of the brightest minds in geography, including four members of the National Academy of Sciences and rising talent in the fields of urban heat island research, GIS and more.

Students earning the Master of Arts in geography have the ability to build a path of knowledge that reflects their personal interests within the realms of geography. Students benefit from a wide variety of coursework and research opportunities in four broad interdisciplinary themes that span the expertise of the faculty within the School of Geographical Sciences and Urban Planning:

- computational spatial science
- earth systems and climate science
- place, identities and culture
- sustainability science and studies

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Geography, BA
- Geography, BS
- Geography (Meteorology-Climatology), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required capstone course (GPH 597).

Required Core (3 credit hours)

GCU 585 Geographic Research Design and Proposal Writing (3), or

GCU 596 Geographic Research Methods (3)

Other Requirement (8 credit hours)

GCU 528 Geographic Problems and Context (3) or GCU 529 Contemporary Geographic Thought (3)

GCU 591 or GPH 591 Seminar: Geography Colloquium (1)

GCU 591 or GPH 591 Seminar: Geography Colloquium (1)

methods and statistics course (3)

Electives (13 or 16 credit hours)

Culminating Experience (3 or 6 credit hours)

GCU 599 Thesis (6) or GPH 599 Thesis (6)

GPH 597 Geography Capstone (3)

Additional Curriculum Information

Coursework and research hours are selected by the student in consultation with an advisory committee. The program recognizes that other graduate-level courses are offered at ASU. Advanced courses are often taught in omnibus courses, courses that have rotating content and whose content is not reflected in their titles. Students may include these courses in their curriculum with approval of the program directors.

The other requirement course, S: Geography Colloquium, is taken twice, once in each of the first two semesters of the program, for one credit hour each time. Other courses may be used with approval of academic unit. For the methods and statistics course requirement, students should consult with the academic unit for eligible courses.

Students take 13 credit hours of electives for the thesis culminating experience option and take 16 credit hours of electives for the non-thesis option.

Up to six credit hours of 400-level coursework may be applied toward the plan of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement must address three items:*

- What specialty in geography does the applicant wish to pursue, and why?
- What aspects of the applicant's education (a description is needed) will enable the student to pursue this specialty?
- What additional training does the applicant believe can be obtained at Arizona State University to realize the applicant's educational and career goals?

*Applicants also should provide any other information they feel should be considered in their application for admission, e.g., research experience or information which might be drawn from the applicant's resume.

Letters of recommendation must be from three faculty members who can attest to the applicant's academic achievements.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/geography-masters/>)

Career Opportunities:

Professionals with expertise in geographical sciences research, theory and practice are in high demand across sectors and industries, including consulting firms, government agencies, community organizations and public and private research facilities. Skills in geographical data analysis, mapping and climate science are valuable to businesses and institutions relying on research-based approaches to solve complex real-world problems.

Some graduates of the program continue on to pursue doctoral degrees.

Career examples include:

- environmental scientist or specialist
- geographic information systems technician
- geological materials technician
- geophysical data technician
- geoscientist
- geospatial information scientist or technologist

Geography, PHD (LAGEOPHD)

Online Degree Search Title: Geography, PhD

Campus: Tempe

Program Description:

The specialized academic and professional training students receive in the PhD program in geography is sound graduate background for further specialization or for immediate employment. The program has sufficient flexibility to allow for individual needs and interests, allowing students to create a plan of study that fits their personal and professional goals.

In addition to innovative coursework, the state-of-the-art Spatial Analysis Research Center and Urban Climate Research Center offer students the opportunity to work with exceptional faculty on diverse research projects. Students have the opportunity to work alongside some of the brightest minds in geography, including four members of the National Academy of Sciences and rising talent in the fields of climate science, sustainability and environmental science, urban heat island research, GIS and more.

Students in the program have the ability to build a path of knowledge that reflects their personal interests within the realms of geography. Students benefit from a wide variety of coursework and research opportunities in four broad interdisciplinary themes that span the expertise of the faculty within the School of Geographical Sciences and Urban Planning:

- computational spatial science
- earth systems and climate science
- place, identities and culture

- sustainability science and studies

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

GCU 585 Geographic Research Design and Proposal Writing (3)

Electives or Research (43 credit hours)

Methods or Statistics Electives (6 credit hours)

Skills Electives (6 credit hours)

Specialization Electives (9 credit hours)

Other Requirement (5 credit hours)

GCU 529 Contemporary Geographic Thought (3)

GCU 591 or GPH 591 Seminar: Geography Colloquium (1)

GCU 591 or GPH 591 Seminar: Geography Colloquium (1)

Culminating Experience (12 credit hours)

GCU or GPH 799 Dissertation (12)

Additional Curriculum Information

Doctoral students entering with a bachelor's degree must complete 84 credit hours. These hours include 72 credit hours of coursework and research at ASU and 12 dissertation credit hours.

Doctoral students entering with a master's degree must complete 54 credit hours. These include 42 credit hours of combined coursework and research hours at ASU and 12 dissertation credit hours.

Coursework and research hours are selected by the student in consultation with an advisory committee. The program recognizes that other graduate-level courses are offered at ASU. Advanced courses are often taught in omnibus courses, courses that have rotating content and whose content is not reflected in their titles. Students may include these courses in their curriculum with approval of the program directors.

The other requirement course, S: Geography Colloquium, is taken twice, once in each of the first two semesters of the program, for one credit hour each. Other courses may be used with approval of academic unit.

Up to six credit hours of 400-level coursework may be applied toward the plan of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Incoming students must demonstrate or attain competence in cartography and quantitative methods and complete other basic coursework that will enable them to pursue graduate studies in their area of specialization.

The personal statement must address four items:

- What specialty in geography does the applicant wish to pursue, and why?
- What aspects of the applicant's education (a description is needed) will enable the student to pursue this specialty?
- What additional training does the applicant believe can be obtained at Arizona State University to realize the applicant's educational and career goals?
- Applicants should provide any other information they feel should be considered in their application for admission, e.g., research experience or information which might be drawn from the applicant's resume.

Letters of recommendation must be from three faculty members who can attest to the applicant's academic achievements.

Career Opportunities:

Professionals with expertise in geographical sciences research, theory and practice are in high demand across sectors and industries, including institutions of higher education, consulting firms, government agencies, research facilities and community organizations. Skills in geographical data analysis, mapping and climate science are valuable to businesses and institutions relying on research-based approaches to solve complex real-world problems.

Career examples include:

- environmental scientist or specialist
- geographic information systems technician
- geophysical data technician
- geoscientist
- geospatial information scientist or technologist
- postsecondary atmospheric, earth, marine or space sciences teacher

Geological Sciences, MS (LAGEOSCMS)

Online Degree Search Title: Geological Sciences, MS

Campus: Tempe

Program Description:

The MS program in geological sciences is designed to provide fundamental graduate training in geology. Students are encouraged to cross subject boundaries and pursue new understandings of Earth and the solar system.

Degree Requirements:

30 credit hours and a thesis.

Required Core (1 credit hour)
SES 502 Exploring SESE Research (1)

Electives or Research (22 credit hours)

Other Requirements (1 credit hour)
SES 501 SESE Colloquium (1)

Culminating Experience (6 credit hours)
SES 599 Thesis (6)

Additional Curriculum Information

Substitutions for courses listed as other requirements may be made per department approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admissions application and application fee
- official transcripts
- statement of purpose
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants should see the program website for application deadlines.

Career Opportunities:

Graduates of the program are prepared for further graduate study or for careers in geochemistry, field geology, geomorphology, structure and tectonics, mineralogy and petrology, geophysics, planetary geology, hydrology, volcanology, Earth observation and remote sensing, and related areas, including geoscience education.

Professionals with expertise in geological sciences are in high demand across sectors and industries, including remote sensing, natural resource management, data science, economic geology (oil and mining industries), environmental consulting, hazard and risk assessment, geophysics, and planetary science. Coding and numerical modeling skills translate across many domains, even beyond geosciences. Skills in the measurement and analysis of data related to the physics, chemistry and structures of the Earth and of planetary systems are valuable to businesses and institutions relying on data-driven strategies to interact with the planet and explore beyond the Earth.

Career examples include:

- data scientist
- environmental consultant
- GIS or mapping specialist
- materials analyst
- planetary scientist
- research geologist

Some students go onto doctoral programs in the field of geological sciences.

Geological Sciences, PHD (LAGEOSCPHD)

Online Degree Search Title: Geological Sciences, PhD

Campus: Tempe

Program Description:

The PhD program in geological sciences is designed to develop creative scholarship in the terrestrial and planetary geosciences. Students are encouraged to cross subject boundaries and pursue new understandings of Earth and the solar system.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (1 credit hour)
SES 502 Exploring SESE Research (1)

Electives or Research (70 credit hours)

Other Requirements (1 credit hour)

SES 501 SESE Colloquium (1)

Culminating Experience (12 credit hours)

SES 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree in a related field to be used for this degree. Substitutions for courses listed as other requirements may be made per department approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admissions application and application fee
- official transcripts
- statement of purpose
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

The geological sciences doctoral program prepares students for academic and professional careers in geological science fields such as geochemistry, field geology, geomorphology, structure and tectonics, mineralogy and petrology, geophysics, planetary geology, hydrology, volcanology, Earth observation and remote sensing, and related areas, including geoscience education.

Professionals with expertise in geological sciences are in high demand across sectors and industries, including remote sensing, natural resource management, data science, environmental consulting, economic geology (oil and mining industries), hazard and risk assessment, geophysics and planetary science. Coding and numerical modeling skills translate across many domains, even beyond geosciences. Skills in the measurement and analysis of data related to the physics, chemistry and structures of earthly and planetary systems are valuable to businesses and institutions that rely on data-driven strategies to interact with the planet and explore beyond the Earth. The doctoral degree in geological sciences is required for careers in post-secondary education and research.

Career examples include:

- data scientist
- environmental consultant
- geologist
- geosciences professor
- instrument builder
- planetary scientist
- program manager
- research scientist

German, MA (LAGERMMA)

Online Degree Search Title: German, MA

Campus: Tempe

This program is not currently accepting applications.

Program Description:

The MA program in German offers students professional training in German linguistic, literary and cultural studies through courses and supervision of research culminating in an applied project or thesis.

In consultation with their advisor, students arrange their coursework around one of three focus areas: literature, comparative literature, or language and culture. The program is designed to equip students to become independent and creative professionals as they broaden their knowledge of Germany as one of the world's leading economies, cultural contributors and human rights advocates.

This program is from the School of International Letters and Cultures.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (GER 593).

The plan of study for the master's degree includes a minimum of 30 credit hours of graduate-level work and a thesis or an applied project, as approved by the candidate's supervisory committee. The program must include a 500-level bibliography and research methods course offered by the school. When approved by the candidate's supervisory committee, nine credit hours in another language or in closely related courses may be included in the program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in German from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume or curriculum vitae
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Those who lack this background but who show strong potential and meet the Graduate College admission requirements may be admitted to a graduate program on a provisional basis, pending removal of specified deficiencies. These deficiencies must be completed in addition to the regular program of study for the master's degree.

The writing sample should represent the applicant's thinking as well as their writing skills, and it should be written in German on a topic pertaining to the German language or culture.

Career Opportunities:

Professionals with the valued skills developed through this degree program can confidently move into academic, business, diplomatic, government and international fields.

Career examples include:

- area, ethnic and cultural studies teachers and professors
- foreign language and literature teachers and professors
- historians
- interpreters and translators
- lawyers
- reporters and correspondents
- social and community service managers

Global Health, MA (LASSHMA)

Online Degree Search Title: Global Health, MA

Campus: Tempe

Program Description:

In this MA program, global health is considered to be much more than and very different from international public health. It emphasizes that major health challenges stem from many factors well beyond disease itself --- factors that are cultural, ecological, evolutionary, historical, institutional, social and technological.

Any effective, sustainable solutions to the most pressing global health challenges need to take all of these factors into account, including the complex ways in which they relate to each other. In this manner, this degree program teaches students to understand health as not simply a product of disease but rather emerging in the contexts of complex and interrelated ecology, politics, history, culture, social institutions and evolutionary biology. It also places primacy on how to address the broader bases (i.e., structural, cultural) of ill health in complicated, ever-changing health challenges in low-resource community settings and a globalizing world. To do this, the program combines both social and life science theories with on-the-ground research and its application. There is a strong emphasis on collaborative action as key to identifying and addressing global health problems in a sustainable and meaningful way.

Students accepted into the program are tied to ongoing transdisciplinary global health projects that address complicated, multifaceted health challenges that defy easy fixes, such as climate change-related diseases, emerging infectious diseases and obesity.

By applying a collaborative, problem-solving format, the master's degree program in global health is intended to provide those planning to enter health or related fields (i.e., environmental, social) with the transdisciplinary orientation, team skills and social and cultural acuity that the Pew Health Professions Commission inter alia has identified as critical but lacking in current health workforce training. The program also emphasizes experiential learning as a way to gain mastery and requires participation in a global internship program based in one of the international partnering communities.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Global Health, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required applied project course (SSH 593).

Required Core (3 credit hours)

ASB 510 Health: Social and Biocultural Theories (3)

Open Electives (6 credit hours)

Restricted Electives (6 credit hours)

ASB 580 Practicum (1-6)

ASB 583 Fieldwork (1-6)

ASB 584 Internship (1-6)

Other Requirements (9 credit hours)

ASB 500 Ethnographic Research Methods (3)

ASB 503 Medical Anthropology (3)

SSH 591 Seminar: Principles of Epidemiology for Global Health (3)

Culminating Experience (6 credit hours)

SSH 593 Applied Project (6)

Additional Curriculum Information

For restricted electives, students complete at least six credit hours from the list above.

Substitutes may be permitted by the graduate director for other requirement and restricted elective coursework. Additional methods-focused courses or graduate-level epidemiology courses can count toward these requirements.

Applied projects are completed in consultation with a faculty advisor. Students may use the fieldwork, internship or practicum experience as part of the research for the applied project.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned, from a regionally accredited institution, a bachelor's or master's degree in the social or life sciences (i.e., anthropology, sociology, gender studies, geography, political science, or public health or related fields (i.e., nutrition, human biology)).

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants may submit with their application materials an optional scholarly writing sample not to exceed 30 double-spaced pages.

Admission is competitive and based on student academic excellence, additional relevant experience, and fit with available faculty. Value is placed on foreign language skills; practical, cross-cultural and international experiences; and prior social science and life science research.

Career Opportunities:

Nationally and internationally, the health field provides enormous and varied career opportunities, and demand is high and growing for graduates with specific skills. The major supports the goals of those pursuing careers in academic research, teaching and health services. Sample employment venues include:

- departments of health
- government agencies
- international agencies (World Health Organization, Center for Disease Control, Global Health Council, World Bank, Inter-American Development Bank)
- nongovernmental organizations
- private sector
- universities

The degree program also provides a broad intellectual base for those who plan advanced specialist health training in fields such as:

- dentistry

- medicine
- nursing
- pharmacy

In Arizona and elsewhere, there is a pressing need for professionals with appropriate skills to work in cross-cultural settings or with underserved populations such as migrants, minorities and those living in poverty, and many of these jobs are directly or indirectly related to health.

Global Health, MS (LASSHMS)

Online Degree Search Title: Global Health, MS

Campus: Online

Program Description:

The MS program in global health in the School of Human Evolution and Social Change exposes students to a comprehensive understanding of the factors that lead to morbidity around the world, including ecological, political, cultural, institutional, historical, evolutionary, social and technological factors. This program seeks to equip students with the necessary skills to create effective, sustainable and culturally appropriate approaches to prevent, assess and mitigate disease, as well as to assess critically the work of others in their professional environments.

The program helps learners to cultivate professional practice through focus on application of technical knowledge into professional settings by integrating recognized global health competencies.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Anthropology, BA
- Anthropology, BS
- Global Health, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio.

Required Core (6 credit hours)

ASB 504 Global Health Policy (3)

ASM 503 Evolutionary Medicine and Global Health (3)

Restricted Electives (9 credit hours)

ASB 455 Practicum for Social Sciences (3)

ASB 462 Medical Anthropology: Culture and Health (3)

ASB 526 Survey Topics in Global Nutrition (3)

ASB 598 Topic: Maternal and Child Health (3)

ASB 598 Topic: Reproductive Ecology (3)

Electives or Research (12 credit hours)

Other Requirement (3 credit hours)

ASB 584 Internship (3)

Culminating Experience (0 credit hours)

portfolio (0)

Additional Curriculum Information

For restricted electives, students complete at least nine credit hours from the list above.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- written statement
- three letters of recommendation
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students who have graduated from programs in anthropology, biology, public health, applied mathematics, statistics, or in a related social science degree may be particularly well-positioned for this program. Applicants with previous degrees in other fields should address in the written statement how their previous studies have prepared them for this program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/masters-global-health-ms/>)

Career Opportunities:

Nationally and internationally, the health field provides varied career opportunities, and demand is growing for graduates with specific skills. The program supports the goals of those pursuing careers in academic research, programming, teaching and policy. Sample employment venues include:

- data analyst
- learning specialist
- program manager
- research associate
- technical advisor

Global Health, PHD (LASSHPHD)

Online Degree Search Title: Global Health , PhD

Campus: Tempe

Program Description:

The PhD in global health draws on the premise that sustainable and satisfying solutions to the most pressing global health challenges require a sophisticated understanding of how cultural context, social and ecological processes and disease are really related.

The program is designed to train those who anticipate working in transdisciplinary academic settings, medical schools or nonacademic health settings, such as the commercial sector, government agencies or nongovernmental organizations.

The transdisciplinary graduate program trains students broadly in cutting-edge health social science research theory and methods. The program leverages the strength of ASU's medical anthropology programming and 15 medical anthropologists, and it has the advantage of accessing a much

wider set of skills offered by those in such fields as medical sociology, demography, human geography and epidemiology

Some particular thematic foci of the program are biocultural approaches to human coping, computer-based complexity modeling, culture and health, health in the Americas, and indigenous and minority health, as well as mathematical epidemiology, nutritional anthropology, social justice and vulnerable populations, social networks, and urban and environmental health.

The program draws some 80 faculty members from throughout the university to consider how cutting-edge social science can be applied to understand and substantively improve the health of populations. The program favors community-based research in communities of all sizes and types, from hunter-gatherer communities to large U.S. cities, and runs collaborative projects in which students are encouraged to gain experience and conduct research.

Students generally enter the program with a master's degree in a relevant field.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

ASB 510 Health: Social and Biocultural Theories (3)

Electives (39 credit hours)

Other Requirements (18 credit hours)

ASB 500 Ethnographic Research Methods (3)

ASB 501 Professionalism (3)

ASM 579 Proposal Writing (3)

SSH 591 Topic: Principles of Epidemiology for Global Health (3)

systematic methods courses (6)

Research (12 credit hours)

ASB 792 Research (12)

Culminating Experience (12 credit hours)

ASB 799 Dissertation (12)

Additional Curriculum Information

For electives, students should see the academic unit for a course list approved by the chair.

Other requirement coursework may be substituted with the approval of the academic unit. At least two systematic methods courses in an area other than epidemiology or biostatistics and ethnography should be selected, such as nutrition, survey, archival analysis, demography or geographic information systems.

When approved by the student's supervisory committee and the Graduate College, this program may allow up to 30 credit hours from a previously awarded master's degree to be used for this program. If students do not have a previously awarded master's degree, the remaining coursework is to be made up of electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Suitable backgrounds for admission include a master's degree in the social sciences (e.g., anthropology or sociology), public health, human biology or related fields. Students entering directly from a bachelor's degree program should have already completed at least 15 credit hours of social science and six credit hours of human biology or equivalent at the senior level and also should have some background in statistics or epidemiology.

Applicants may submit with their application materials an optional scholarly writing sample not to exceed 30 double-spaced pages.

Career Opportunities:

Nationally and internationally, the health field provides enormous and varied career opportunities, and demand is high and growing for graduates with specific skills. The major supports the goals of those pursuing careers in academic research, teaching and health services. Sample employment venues include:

- departments of health
- government agencies
- international agencies (World Health Organization, Center for Disease Control, Global Health Council, World Bank, Inter-American Development Bank)
- nongovernmental organizations
- private sector
- universities

The degree program also provides a broad intellectual base for those who plan advanced specialist health training in fields such as:

- dentistry
- medicine
- nursing
- pharmacy

In Arizona and elsewhere, there is a pressing need for professionals with appropriate skills to work in cross-cultural settings or with underserved populations, such as migrants, minorities and those living in poverty, and many of these jobs are directly or indirectly related to health.

Global Security, MA (LAGSCMA)

Online Degree Search Title: Global Security, MA

Campus: Online

Program Description:

The MA in global security is an interdisciplinary, fully online program designed to aid professional advancement in government, military, nonprofit and private sector careers. Students are trained to critically engage international security issues in a comprehensive manner.

The program is based on four key pillars: enabling innovative strategic thinking; developing analytic tools; supporting critical interdisciplinary engagement; and encouraging flexible and resilient approaches to the inherently complex challenges of current and future global security.

Students may pursue the master's degree from anywhere in the world, study while working full time or part time, and may advance at their own pace. The program assists students in gaining a grounded and relevant understanding of major global trends while developing critical analytic skills to improve their capacity to succeed in multiple career paths related to domestic and international security.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Global Studies, BA
- Political Science, BA
- Political Science, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required capstone course (GSC 550).

Required Core (3 credit hours)

GSC 501 War, Conflict and Security (3)

Electives or Research (24 credit hours)

Culminating Experience (3 credit hours)

GSC 550 Capstone (3)

Additional Curriculum Information

For electives, students take eight courses from a restricted list for a total of 24 credit hours. Students should contact the academic unit for the approved course list. Other coursework may be used with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the humanities (English, history, etc.); social sciences (anthropology, sociology, political science, etc.); sciences (biology, chemistry, etc.); policy (public administration, etc.); computer science; engineering (all subfields); or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- letters of recommendation
- resume or curriculum vitae
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants must submit at least one letter of recommendation for admission. Applicants may submit additional letters.

The application requires a two- to three-page personal statement.

Attend Online:

Global Security (Cybersecurity), MA (LAGSCSECMA)

Online Degree Search Title: Global Security (Cybersecurity), MA

Campus: Online

Program Description:

The cybersecurity concentration is a unique element within the MA program in global security, engaging cyber issues from an interdisciplinary perspective with a focus on global security.

This nontechnical program provides students with relevant and continually updated understandings of the complex risks, threats and modes of protection and response associated with cybersecurity. It's a program more theoretical in nature and uses real-world examples. Students progress at their own pace; it can be completed in one year or in a six-year period. Students may pursue the degree while working full time or part time.

This program is designed to prepare students for a rapidly expanding field with a focus on the complex relationship between cybersecurity and global politics. Students learn from top faculty, including global thought leaders, seasoned scholars and skilled practitioners. Classes integrate case studies, policy exercises and critical thinking to prepare students for career advancement.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Global Studies, BA
- Political Science, BS
- Political Science, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required capstone course (GSC 550).

Required Core (3 credit hours)

GSC 501 War, Conflict and Security (3)

Concentration (12 credit hours)

GSC 560 Overview of Cybersecurity (3)

GSC 561 Cybersecurity Threats and Trends (3)

GSC 562 Cybersecurity, Global Politics and Resiliency (3)

GSC 563 Cybersecurity Planning and Strategy (3)

Electives or Research (12 credit hours)

Culminating Experience (3 credit hours)

GSC 550 Capstone (3)

Additional Curriculum Information

For electives, students take coursework from a restricted list for a total of 12 credit hours. Students should contact the academic unit for the approved course list. Other coursework may be used with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the humanities (English, history, etc.); social

sciences (anthropology, sociology, political science, etc.); sciences (biology, chemistry, etc.); policy (public administration, etc.); computer science; engineering (all subfields) or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- curriculum vitae or resume
- one letter of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants must submit at least one letter of recommendation for admission. Applicants may submit additional letters.

The application requires a two- to three-page personal statement.

Global Security and Competitive Statecraft (Certificate), Certificate (LAGSCSGRCT)

Online Degree Search Title: Global Security and Competitive Statecraft (Graduate Certificate)

Campus: Online

Program Description:

The certificate in global security and competitive statecraft is an interdisciplinary program designed to aid professional advancement in government, military, nonprofit and private sector careers. Students are trained to critically engage contemporary international security issues in a comprehensive manner.

The program is based on four key pillars: enabling innovative strategic thinking, developing analytic tools, supporting critical interdisciplinary engagement, and encouraging flexible and resilient approaches to the inherently complex challenges of current and future global security. Program faculty have extensive experience as practitioners in the field of security and foreign policy. They bring their deep understanding of the issues to rigorous and interesting coursework that allows students to develop a sophisticated understanding of the complex global, political environment in

which political actors compete.

Students may pursue the certificate from anywhere in the world, study while working full-time or part-time, and they may advance at their own pace.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

GSC 512 Global Trends (3)

Restricted Electives (12 credit hours)

GSC 503 Future of War (3)

GSC 509 Emerging Technologies and Global Security (3)

GSC 561 Cybersecurity Threats and Trends (3)

GSC 598 Special Topics (3)

IAL 504 U.S. Diplomacy in Action: The Embassy Country Team (3)

IAL 505 Key Issues in Today's Global Economy (3)

Additional Curriculum Information

For restricted electives, students take four courses from the restricted list for a total of 12 credit hours. Students should contact the academic unit for eligible GSC 598 topics. Other GSC and IAL courses may be used with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field such as political science, international relations, emergency management, criminal justice, history or government from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- one letter of recommendation
- personal statement
- professional resume
- proof of English proficiency

Additional Application Information

History, MA (LAHISTMA)

Online Degree Search Title: History, MA

Campus: Tempe, Online

Program Description:

ASU's MA program in history combines classes taught by ASU's distinguished faculty in an online or on-ground environment with an emphasis on the development of analytical and communication skills. It offers dynamic content that deepens students' knowledge of history while developing their core competences that are applicable in a variety of settings. Students graduate from the program with an enhanced ability in finding and analyzing information, planning and organizing projects, and writing and speaking effectively.

The master's degree program offers studies in North American, European, public and global-comparative history, and it provides students with opportunities for professional development through colloquia, internship experiences and conference attendance.

Graduates with a Master of Arts degree in history will have acquired advanced historical thinking skills, as well as skills employers consistently identify as highly valuable, including effective oral and written communication, critical thinking and problem-solving.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

History, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (HST 593), or 30 credit hours including the required capstone course (HST 597).

Required Core (9 credit hours)

HST 640 Historical Methods (3)

Pick two from the following:

HST 502 Public History Methodology (3)

HST 641 North American History (3)

HST 643 Global History (3)

HST 644 Area Studies in History (3)

Electives (12 credit hours)

Other Requirements (3 or 6 credit hours)

HST 591 Seminar (3) or (6)

Culminating Experience (3 or 6 credit hours)

HST 593 Applied Project (3) or

HST 597 Capstone (3) or

HST 599 Thesis (6)

Additional Curriculum Information

There are two options for the master's degree program in history, the thesis option (for in-person students only) and the nonthesis option. The thesis option requires 30 total credit hours of coursework, including six credit hours of HST 599 Thesis, three credit hours of HST 591 Seminar and 21 credit hours of coursework. The nonthesis option requires 30 total credit hours, including three credit hours of HST 593 Applied Project or HST

597 Capstone, six credit hours of HST 591 Seminar and an additional 21 credit hours of coursework.

For elective coursework, students should refer to the unit for a list of approved courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in an applicable master's degree program. The most competitive applicants have a GPA of 3.30 or higher.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
 - resume or curriculum vitae
 - writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. The history program requires a TOEFL score of at least 600 (PBT) or 90 (iBT).

Students are required to submit a minimum of three email addresses from faculty or others qualified to speak to the student's suitability for graduate study in history.

The statement of purpose should be addressed to the history admission committee and should explain the applicant's scholarly background and training, career goals, the primary field the applicant wishes to pursue, and why the applicant wants to pursue graduate study at ASU (about 500 words in length). It is not necessary to specify a research topic, but if an applicant has one in mind, they should include it in the statement of purpose.

The writing sample may be an article (it may be published or unpublished), a research paper or any other extended sample of expository writing no longer than 35 pages in length. Longer writing samples should not be submitted without first consulting the graduate director. Documents and files should not be password protected. Acceptable file types are .rtf, .pdf and .doc.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-arts-history/>)

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Gain proficiency in historical methods and demonstrate nuanced understanding of different historical lenses and interpretive frameworks
- Conduct and defend original historical research
- Demonstrate successful attainment of program goals in research and historiography.

Career Opportunities:

The Master of Arts program in history provides students the fundamental training needed for careers in research, teaching, public history, government service and a host of other positions in the public, private and nonprofit sectors. Program graduates serve as first-rate historians, highly qualified teachers at the elementary, secondary levels, community colleges, researchers and consultants, archivists, foreign service officers, management professionals, community organizers and public servants.

Career examples include:

- archivist
- business executive
- college instructor

- diplomat
- editorial and publishing professional
- K-12 school teacher
- museum director and staff
- nonprofit director
- research professional

History, PHD (LAHISTPHD)

Online Degree Search Title: History, PhD

Campus: Tempe

Program Description:

The PhD program in history offers outstanding opportunities for graduate study in North American, European, public and global-comparative history.

The School of Historical, Philosophical and Religious Studies' world-class faculty members deliver courses and individualized mentoring in a wide range of historical topics, such as urban history, environment and sustainability studies, politics and policy, immigration, gender, race and ethnicity, and comparative history. Moreover, doctoral history students are strongly encouraged to take advantage of the numerous collaborative opportunities that exist throughout the university in ASU's many innovative schools and centers.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (16 credit hours)

- HST 502 Public History Methodology (3)
- HST 640 Historical Methods (3)
- HST 641 North American History (3)
- HST 643 Global History (3)
- HST 644 Area Studies in History (3)
- HST 682 Advanced Research Skill (1)

Electives and Research (44 credit hours)

Other Requirement (12 credit hours)

- HST 591 Seminar (6)
- HST 792 Research (6)

Culminating Experience (12 credit hours)

- HST 799 Dissertation (12)

Additional Curriculum Information

In general, all credit hours must be at the 500 level or above. Graduate credit may be awarded for 400-level courses; it must be approved in advance and documented in the student's file.

The doctoral program requires a minimum of 84 credit hours and may be completed in four to five years. Students with a master's degree may apply 30 credit hours toward the 84 required credit hours with approval of the academic unit and the Graduate College. If the student does not already have a master's degree in a related field, then the remaining 30 credit hours are made up of electives and research to reach the 84 credit hours required for the doctoral program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program. The most competitive applicants have a GPA of 3.30 or higher.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. The history program requires a TOEFL score of at least 600 (PBT) or 90 (iBT). A student whose native language is not English also must submit a copy of an article or research paper in the student's native or principal research language in addition to the English writing sample required of all students.

Students are required to submit a minimum of three email addresses from faculty or others qualified to speak to the student's suitability for graduate study in history. Letters of reference should be submitted by the recommenders in addition to the electronic reference form they are asked to complete.

The statement of purpose is to be addressed to the history admission committee and should explain the applicant's scholarly background and training, career goals, the primary field the applicant wishes to pursue, the proposed research specialization, and why the applicant wants to pursue graduate study at ASU; it should be about 500 words in length.

The writing sample, either published or unpublished, may be an article, a research paper, or any other extended sample of expository skill no longer than 35 pages in length. Longer writing samples should not be submitted without first consulting the graduate director. Documents and files should not be password protected. Acceptable file types are .rtf, .pdf and .doc.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate mastery of three domains of historical knowledge as well as display expertise in their proposed topic of study
- Accomplish meaningful contributions to the profession through accepted publications and presentations
- Identify and complete applications for funding opportunities that can support their research

Career Opportunities:

Graduates possess the foundational skills in research, writing and communication and fundamental training needed for careers in research, archival work, higher education, teaching, public history, government service and a host of other areas in the public, private and nonprofit sectors. They serve as first-rate historians, highly qualified instructors and professors at two-year schools and universities, researchers and consultants for business and government, archivists, foreign service officers, management professionals, community organizers and public servants.

Career examples include:

- archivist
- diplomat
- editorial and publishing professional
- K-12 school teacher
- museum director and staff
- nonprofit director
- research professional
- university professor

History and Philosophy of Science, PHD (LAHPSCIPHD)

Online Degree Search Title: History and Philosophy of Science, PhD

Campus: Tempe

Program Description:

The history and philosophy of science is an interdisciplinary field that traces its origin to foundational works such as Thomas Kuhn's "Structure of Scientific Revolutions." The field is based on the idea that the best way to understand science is to study how it changes over time, along with careful analysis of its concepts and fundamental principles.

The PhD program in history and philosophy of science combines training in the core areas of history and philosophy of science with an emphasis on interdisciplinary studies of the sciences, including:

- computational history and philosophy of science
- foundations of evolutionary theory
- general philosophy of science and epistemology
- history and philosophy of applied ethics and science policy
- history of 19th and 20th century biology

The program is especially appropriate for students with an undergraduate or master's degree in philosophy, history or the sciences, and for those who seek to broaden their disciplinary studies. Science students who have not taken relevant undergraduate humanistic core courses can make these up during their first years in the program.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

HPS 615 Biology and Society Lab (3)

HPS 620 Research Prospectus Writing (3)

Restricted Program Electives (30 credit hours)

Program Electives (24 credit hours)

Research (12 credit hours)

HPS 792 Research (12)

Dissertation (12 credit hours)

HPS 799 Dissertation (12)

Additional Curriculum Information

An individual student program is developed in consultation with the student's advisor and committee.

HPS 615 Biology and Society Lab is a one credit hour course focused on student presentations of works-in-progress. Students must register for it three times during their graduate study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution of recognized standing in a related field such as history, philosophy, or history and philosophy of science as well as a demonstrated background and interest in one or more sciences.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement

- curriculum vitae or resume
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

A doctorate in history and philosophy of science provides strong preparation for academic careers at every level from community colleges to research universities, including research, teaching and administration, and science communication. The skills and knowledge obtained in this program are also valuable for government careers in federal and state agencies responsible for management and conservation, and for careers in industry and nongovernmental organizations.

Career examples include:

- food, agriculture and health care scientists in academic, private and industrial labs
- principal investigators and policymakers in government labs and nonprofit organizations
- professors or instructors in universities and colleges
- science teachers in elementary and high schools
- wildlife, animal and conservation scientists

Immigration Studies (certificate), Certificate (LAIMMSTUCE)

Online Degree Search Title: Immigration Studies (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate program in immigration studies provides students with a holistic understanding of the historical, current and long-term causes and consequences of international migration as well as relevant professional and research training opportunities.

The objective of the certificate program is to offer traditional academic training through coursework, research and the practical experience of working with local immigrant and refugee communities.

Degree Requirements:

15 credit hours.

All students are required to take one core course, three approved elective courses on immigration, and three credit hours of a culminating experience (either an internship or a research project). Students are to contact the school for a list of approved courses.

Students may do an internship with Phoenix-based, nongovernmental organizations or government agencies that provide services to immigrants and refugees. Such internships give students professional training and actual experience working with immigrant and refugee communities. Students are required to write a report describing the organization and their experience as interns.

Students may enroll in three credit hours of research with a faculty member in order to do an independent research project. They must write a substantial research paper based on field research in a local immigrant community, on library and archival research or on readings on an immigration topic.

Certificate students may choose to specialize in humanities, Mexican and Latino immigrants in the U.S., or social sciences.

Given the nature of the immigration courses offered at ASU and the preponderance of Latino immigrant communities in the Phoenix area, the program emphasizes Latino immigration. However, students have the opportunity to take broader courses focusing on global migration and other immigrant groups as well as work with local Asian or Southeast Asian immigrants and refugee communities.

For students currently enrolled in an ASU graduate degree program, applicable certificate courses may count toward their degree program with the approval and consent of the degree granting program. For certificate students who are later admitted to an ASU graduate degree program, up to 12 credit hours from the certificate program may count toward their doctoral degree or up to 12 credit hours may count toward their master's degree, with the approval and consent of the degree-granting program.

All requirements for the certificate program should be completed within a three year time limit with a minimum cumulative GPA of 3.00 (scale is 4.00 = "A"). Students who require more time to finish the program, because of their part-time status or lack of desirable or available courses, must obtain approval from the executive committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- one letter of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Applicants may submit an optional scholarly writing sample with their application materials; the sample is not to exceed 30 double-spaced pages.

Career Opportunities:

The demand in the job market is high for researchers and analysts with keen thinking skills who can manage, evaluate and interpret large amounts of data on human thought and human behavior.

The program prepares graduates for future study in graduate and professional schools or for careers as immigration practitioners and advocates in nongovernmental organizations, local and federal government agencies as well as in other private and public institutions serving immigrant and refugee communities.

Some career opportunities include:

- acting as legal advocates in international cases
- analyzing and proposing policies
- conducting postgraduate academic research
- consulting for private and public organizations
- directing nonprofit organizations
- directing programs in the private or public sector

Indigenous Education, MA (LAIEDMA)

Online Degree Search Title: Indigenous Education, MA

Campus: Online

Program Description:

The MA program in Indigenous education provides students with advanced training in research, theory and practice related to both Indigenous education, broadly defined, as well as the process of schooling. The main audiences for this degree are those working in Indian education, those working for tribal nations with education programs, and those interested in Indigenous education.

Because the Center for Indian Education is housed in the School of Social Transformation with faculty that collaborate with colleagues internationally, nationally and across ASU campuses, students have access to a wealth of additional resources at the master's degree level, which allow them to develop a final project that best fits their specific professional aspirations.

Degree Requirements:

30 credit hours including the required capstone course (IED 585).

Required Core (9 credit hours)

IED 501 Critical Indigenous Research Methodologies (3)

IED 502 Indigenous Knowledges in Education (3)

IED 503 Current Issues in Indigenous Education (3)

Other Required Courses (15 credit hours)

IED 510 History of Indigenous Education (3)

IED 530 Language/Literacy-Indig People (3)

IED 535 Community-based Participatory Action Research (3)

SST 520 Learning Technologies in Native Education (3)

SST 530 Culture and Education (3)

Research (3 credit hours)

IED 592 Research (3)

Culminating Experience (3 credit hours)

IED 585 Capstone (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field such as history, education, anthropology, sociology, ethnic studies, justice studies or political science, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- letter of intent or written statement
- example of writing
- professional resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

A selection committee, comprised of faculty members, selects candidates based on application materials and the applicant's ability to succeed.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/indigenous-education-ma/>)

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following

program outcomes:

- Appraise and compose the parallels of historical Indigenous education and current schooling for American Indian students; using an evidence based approach to support their case.
- Articulate the contradictions and complexities between Western schooling and Indigenous educational processes for Native nations.
- Analyze research methods and methodologies through an Indigenous framework and compose their own research methodologies.
- Design and articulate Indigenous knowledge system(s), as it relates to education and schooling in Indian country

Career Opportunities:

Graduates of the master's program can pursue careers in education, government or nonprofit organizations. Graduates can also work as researchers or policy analysts at educational policy centers, K-12 schools and universities, and within community-based organizations.

Infant Family Practice, MAS (LACDEMAS)

Online Degree Search Title: Infant - Family Practice, MAS

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

This self-contained, accelerated MAS program in infant-family practice provides high-quality coursework and supervised internship experiences designed to train professionals to work in prevention and intervention programs serving families with infants, toddlers and preschool-age children.

Coursework prepares students for professional endorsement of the Infant-Toddler Mental Health Coalition of Arizona's endorsement for culturally sensitive, relationship-based practice promoting infant mental health.

Degree Requirements:

30 credit hours and a portfolio.

Required Core (12 credit hours)

Practicum (9 credit hours)

Other Requirements (6 credit hours)

Research (3 credit hours)

Additional Curriculum Information

The Master of Applied Science in infant-family practice requires successful completion of a minimum of 30 credit hours and an applied project, including required coursework and an internship in a community placement approved by the faculty of the master's degree program in infant-family practice. Internships are expected to last approximately 12 months.

Students must meet the expectations of the agency supervising their internship.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in a related field such as counseling, psychology, and family and human development.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a personal statement
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The letters of recommendation should be from individuals familiar with the applicant's academic background.

GRE scores are not required for this program.

Career Opportunities:

There are many career paths available to graduates with this degree. A few examples are:

- child abuse prevention
- child welfare
- early childhood education and child care administration
- early intervention
- family support
- home visiting
- infant and early childhood mental health

International Affairs and Leadership, MA (LAIALMA)

Online Degree Search Title: International Affairs and Leadership, MA

Campus: Online

Program Description:

The MA program in international affairs and leadership prepares students for international leadership roles in a dynamic learning environment led by senior international affairs professionals from the public and private sectors.

The program offers a unique blend of leadership capacity development --- both theory and practice --- as well as substantive training focused on U.S. foreign policy decision-making, national security, international trade, human rights issues and other key global issues. Courses are taught by experts with real-world experience, from former U.S. ambassadors to three-star generals, with the goal of readying students to become leaders in the international affairs realm.

Students have regular interactions with world-class professors and practitioners who help students learn how to shape the world in a meaningful and positive way. The program is a collaboration between the School of Politics and Global Studies and the Leadership, Diplomacy and National Security Lab. The School of Politics and Global Studies is host to the Center on the Future of War, the Center for Latina/os and American Politics Research, and the SPGS Experimental Laboratory.

Degree Requirements:

30 credit hours including the required capstone course (IAL 560).

Required Core (9 credit hours)

IAL 501 Principles of Character-Driven Leadership (3)

IAL 502 The Making of U.S. National Security Policy (3)

IAL 503 Applied International Leadership: Case Studies (3)

Electives (18 credit hours)

Culminating Experience (3 credit hours)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- letter of intent
- professional resume
- writing sample
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

GRE or GMAT results are not required but can be submitted as an additional application material.

Applicants should have a deep-rooted interest in international issues of the future and a desire to influence them through character-driven leadership within the context of an increasingly complicated, globalized world. Ideal candidates are those who have previous leadership experience and who plan to devote their careers to working with other cultures and nations across a variety of sectors. While an ideal candidate has previous experience traveling or living overseas or has previously studied a language other than English, candidates with no prior experience in these areas are also welcome to apply. Both international and domestic students are encouraged to apply.

Using the letter of intent, applicants should narrate their own leadership journeys as well as their motivations for further studies in the areas of international affairs and leadership. The letter of intent should describe applicants' academic and professional interests to date, their definitions of character-driven leadership, their reasons for pursuing a master's degree in international affairs and leadership, and how this advanced degree relates to their specific future goals.

The application review panel also reviews the applicant's writing skills. Successful applicants must be able to tell a concise, coherent story about their past experiences and future goals.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/international-affairs-master-degree/>)

Career Opportunities:

This program prepares students to succeed in a wide variety of international affairs professions, including:

- business operations specialist
- career civil servant or contractor at the U.S. State Department, U.S. Department of Commerce or U.S. Treasury or Defense Department
- foreign service officer
- international political economist
- military officer or noncommissioned officer in strategic, special or tactical operations
- nonprofit or NGO analyst or program coordinator
- permanent staff for a member of Congress or Congressional committee
- public policy analyst
- U.S. government intelligence community policy analyst or program manager

Justice Studies, MS (LAJUSSTMS)

Online Degree Search Title: Justice Studies, MS

Campus: Tempe

Program Description:

The MS program in justice studies is an innovative, interdisciplinary program that prepares students to work, research and advocate on behalf of social justice. Students study a wide range of topics at the local, national and international levels, gaining the training needed to analyze social, economic, cultural, political and legal inequalities and promote pathways to more just societies.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Justice Studies, BS

Justice Studies, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (JUS 593).

Required Core (12 credit hours)

JUS 500 Justice Research Methods (3)

JUS 501 Justice Theory (3)

JUS 509 Statistical Problems in Justice Research (3)

JUS 521 Qualitative Data Analysis and Evaluation (3)

Electives (12 credit hours)

Research (0-3 credit hours)

JUS 592 Research (3)

Culminating Experience (3-6 credit hours)

JUS 593 Applied Project (3) or

JUS 599 Thesis (6)

Additional Curriculum Information

Each student's program is developed in concert with the advisory committee. The required foundation courses provide students with a fundamental understanding of the theories, methods and analytic techniques associated with the study of justice.

To satisfy the thesis requirement for the degree, candidates must write a thesis and defend it in an oral examination conducted by the student's advisory committee. Students in this option are not required to take JUS 592 Research.

Students who elect to complete the applied project option will have to enroll in three credit hours of JUS 592 Research prior to enrolling in JUS 593 Applied Project. Candidates pursuing the applied project option must present their applied project and defend it in an oral examination conducted by the faculty member who supervises the project and the graduate programs director or designated representative. The applied project typically includes a brief literature review to identify the nature of the issue or problem and a description of the methodology used and, if relevant, of the program studied, followed by an analysis.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- resume or curriculum vitae
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Information regarding acceptable proof of English proficiency can be found via the Graduate Admission Services webpage:

<https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

Applicants should visit the School of Social Transformation's Master of Science in justice studies webpage for further details on the listed application requirements and application deadlines.

GRE testing is not required for admission.

Mailing addresses and further admission information are available on the ASU Graduate Admission Services website.

Application requirements vary for the accelerated justice studies 4+1 program. Undergraduate students majoring in justice studies who are interested and eligible for this accelerated graduate program should contact the academic unit, to schedule an appointment with a graduate advisor prior to submitting an application. Further details about the accelerated justice studies 4+1 program can be found on the School of Social Transformation webpage.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Interpret and conduct quantitative research.
- Interpret and conduct qualitative research.
- Demonstrate knowledge of various theoretical perspectives of justice in both their written and oral work.
- Demonstrate intersectional knowledge of justice and use an interdisciplinary/multidisciplinary approach to address societal problems and generate solutions in their projects.

Career Opportunities:

Graduates of the Master of Science program in justice studies are prepared to work in justice-related organizations, teach in community colleges, pursue doctoral programs, and research in the justice field.

Justice Studies, PHD (LAJUSSTPHD)

Online Degree Search Title: Justice Studies, PhD

Campus: Tempe

Program Description:

The PhD in justice studies at the nation's first School of Social Transformation invites all qualified applicants.

The diverse community of scholars unites students and faculty across academic boundaries to strategically create social change that is democratic, inclusive and just. The interdisciplinary doctoral program in justice studies prepares future scholars and change agents to address complex social problems and become tomorrow's leaders.

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak

with their academic advisor for more details.

This degree is also offered as a concurrent program with the following: Juris Doctor, JD

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

JUS 620 Justice Research Methodology (3)

JUS 640 Theoretical Perspectives on Justice (3)

Other Requirement (3 credit hours)

JUS 630 Data Analysis for Justice Research (3) or

JUS 650 Advanced Qualitative Data Analysis (3) or

SST 691 Topic: Qualitative Methods for Qualitative Researchers (3)

Culminating Experience (12 credit hours)

JUS 799 Dissertation (12)

Additional Curriculum Information

For the other requirement course, students may take JUS 630, JUS 650, SST 691 or other methods course at ASU approved by the JSI graduate director.

Students entering the doctoral program with a master's or JD degree may complete a minimum of 54 credit hours for the program. In addition to the requirements listed above, coursework will include 15 credit hours of elective classroom hours (nine of which must have a JUS prefix) and 18 credit hours comprised of any combination of additional elective courses, reading and conference or research.

Students entering the doctoral program without a master's or Juris Doctor degree are required to complete 84 credit hours. In addition to the requirements listed above, the coursework will include 12 credit hours of 500-level foundation courses, 24 credit hours of elective classroom hours (15 of which must have a JUS prefix) and 27 credit hours comprised of any combination of additional electives courses, reading and conference or research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- three letters of recommendation (academic references are preferred)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement should be one-and-a-half to two pages, double-spaced, outlining areas of interest, educational and career goals, and the writing sample should be 10 to 15 pages and should discuss the research that best represents the applicant's academic thinking and writing skills.

The PhD/JD option allows qualified students to earn a Juris Doctor from ASU's Sandra Day O'Connor College of Law while simultaneously earning a transdisciplinary doctoral degree in justice studies. Students must apply separately to both programs. Applicants should contact the Sandra Day O'Connor College of Law for their requirements.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate knowledge of both qualitative and quantitative research methodologies.
- Differentiate various theoretical perspectives of justice in their written work.
- Demonstrate intersectional knowledge of justice and use an interdisciplinary/multidisciplinary approach to address societal problems and generate solutions in their dissertations.

Career Opportunities:

Graduates of the doctoral program in justice studies are prepared to work in justice-related organizations, teach in community colleges and universities, and research in the justice field.

Language Teaching, MA (LALANTCHMA)

Online Degree Search Title: Language Teaching, MA

Campus: Tempe

Program Description:

The MA program in language teaching prepares both current and aspiring language teachers with the tools they need to effectively teach languages in the secondary schools and in higher education. This program provides professional development to practicing language teachers in K-12, community colleges or at the university level.

Teachers in Arizona who are interested in continuing their professional development in both language pedagogy and language proficiency can pursue this degree. Teachers receive training in teaching methodologies, second language acquisition, heritage language pedagogy, computer-assisted language teaching, applied linguistics, and the teaching of literature and culture. In addition, this program may also interest other individuals who wish to become highly proficient bilinguals.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- French, BA
- German, BA
- Spanish, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including an applied project (SLC 593).

Required Core (3 credit hours)

SLC 596 Second Language Methodologies (3)

Track (9 credit hours)

Other Requirements (12 credit hours)

Electives (3 credit hours)

Culminating Experience (3 credit hours)

SLC 593 Applied Project (3)

Additional Curriculum Information

Tracks available for students to select from are French, German or Spanish. Students should see their academic unit for approved track coursework. Students select coursework in consultation with their committee chair.

Other requirement coursework may be substituted with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a foreign language, applied linguistics, linguistics, literature, education or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- letter of intent or written statement
- two letters of recommendation
- proof of target language proficiency
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The written statement should be no more than two pages, single-spaced, and should discuss how the educational background and experiences have prepared the applicant for this graduate program. The applicant should also describe why they are interested in pursuing this master's degree and how it fits their career goals.

Proof of target language proficiency is accepted by an audio or video submission of a two-minute self-introduction.

Career Opportunities:

Professionals with this degree can confidently move into academic and business fields. Language skills developed through this program are valued for teaching positions, translation work or work in a larger sector such as business, government and public administration careers.

Career examples include:

- adult basic and secondary education and literacy teachers and instructors
- foreign language and literature teachers and professors
- high school teachers
- instructional coordinators
- instructional designers and technologists
- interpreters and translators
- middle school teachers
- reporters and correspondents

Linguistics (certificate), Certificate (LALINGUICE)

Online Degree Search Title: Linguistics (Graduate Certificate)

Campus: Tempe

Program Description:

This transdisciplinary graduate certificate program in linguistics offers students the opportunity to gain an understanding of the ways that languages are structured, how they are acquired and how they vary over time, space, modality and situational contexts.

The skills acquired through the completion of the core courses for this certificate include analytical abilities, critical thinking, effective communication and problem-solving. In addition, the knowledge acquired in the areas of discourse analysis and pragmatics makes students aware of the necessity

to use appropriate registers and styles when creating written documents or oral presentations to different audiences.

Degree Requirements:

18 credit hours.

Required Core Areas (9 credit hours)

discourse analysis and pragmatics (3)

phonology (3)

syntax (3)

Electives (9 credit hours)

Additional Curriculum Information

The electives may be chosen from fields such as applied linguistics, educational linguistics, natural language processing, second language acquisition and sociolinguistics. The electives are determined by the student in consultation with a faculty advisor.

As a prerequisite, students must have completed an introductory course in linguistics taken at the upper-division or graduate level. They should consult the certificate program director for advice.

All certificate coursework must be completed with an average grade of "B" or higher (3.00 on a 4.00 scale).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should visit the Department of English website for specific details about English proficiency requirements.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

The one- to two-page, well-considered statement of purpose should detail the applicant's background and reasons for wanting to do the linguistics certificate.

To be considered for admission, an applicant must have taken an introductory course in linguistics at the upper-division or graduate level. Applicants must also show proof of a formal knowledge of a foreign language, equivalent to two years of study at the university level or plans to fulfill the language requirement concurrently with certificate courses. The language requirement may be met by completion of courses through the second-year level (four semesters) at ASU or elsewhere, or by completion of an upper-division language course with an average of "B" or better (3.00 on a 4.00 scale) for all such coursework (200 or 300 level), or through an examination that indicates placement above the 200 level. Language placement tests are available online at the Language Placement Policies and Tests webpage on the School of International Letters and Cultures website. If this requirement is not already fulfilled at the time of application, candidates must demonstrate completion of this requirement at the end of their certificate coursework in order for their certificate to be granted.

Career Opportunities:

A graduate certificate in linguistics can serve as an important stepping stone for individuals interested in gaining a better understanding of linguistics, perhaps as a way to get an edge in their careers or to explore the field before applying to a master's or doctoral degree program.

The linguistics certificate offers an important dimension to various careers including:

- computer programmer
- data analyst
- foreign service worker
- language consultant or language documentation expert

Linguistics and Applied Linguistics, MA (LALINMA)

Online Degree Search Title: Linguistics and Applied Linguistics, MA

Campus: Tempe

Program Description:

The MA program in linguistics and applied linguistics focuses on the study of human language and the application of that study to the human condition.

At the master's degree level, the program provides foundational training and professional development in several interdisciplinary areas, including discourse analysis, Indigenous American linguistics, language contact and change, language revitalization, language planning, phonetics, phonology, pragmatics, second language acquisition, second-language learning and teaching, semantics, sociolinguistics, syntax, teaching English to speakers of other languages, and World Englishes.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

English (Linguistics), BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including a foreign language exam and a thesis, or 30 credit hours including a foreign language exam and the required applied project course (LIN 593 or APL 593).

Required Core (3 credit hours)

LIN 515 American English (3) or

LIN 516 Pragmatics and Discourse Analysis (3)

General Linguistics Track (6 credit hours)

LIN 511 Phonetics and Phonology (3)

LIN 514 Syntax (3)

Applied Linguistics Track (6 credit hours)

LIN 511 Phonetics and Phonology (3) or LIN 514 Syntax (3)

LIN 520 Second-Language Acquisition Theories (3) or APL 601 Introduction to Applied Linguistics (3)

Electives (12-15 credit hours)

Research (3 credit hours)

LIN 501 Approaches to Research (3)

Culminating Experience (3-6 credit hours)

LIN 599 or APL 599 Thesis (6)

LIN 593 or APL 593 Applied Project (3)

Additional Curriculum Information

Students choose one of the two tracks in either general linguistics or applied linguistics.

Electives are restricted based on the student's chosen track. For the general linguistics track, one of the electives must be a 600-level course from the approved course list.

Students who select the thesis option take 12 credit hours of electives. Applied project students select 15 credit hours of electives.

Students must demonstrate evidence of a competent knowledge of a natural language other than modern English, to be selected by the student, subject to the approval of the chair of the thesis committee or the director of the applied project. This requirement may be met by:

- earning a "B" or better (3.00 on a 4.00 scale) in a 400- or 500-level course in an appropriate (approved) language course
- demonstrating comparable proficiency by taking a language examination, administered by the School of International Letters and Cultures, in a language approved by the student's supervisory committee
- demonstrating native-speaker proficiency, as determined by the School of International Letters and Cultures, in a language approved by the student's supervisory committee
- earning a "B" or better (3.00 on a 4.00 scale) in both ENG 530 Old English and ENG 531 Old English Literature or their equivalent
- holding a bachelor's degree in an approved foreign language
- two years (four semesters) of successfully completed college-level coursework (completed no more than six years prior to admission to the degree program) at least at the 100 and 200 levels with a "C" or better (scale is 4.00 = "A") for languages which the School of International Letters and Cultures does not offer or does not offer above the 200 level

Any course in which all class meetings are conducted in the approved language satisfies the requirement for a "B" or better in a 400- or 500-level course in an appropriate language; courses conducted in English do not satisfy the requirement. Also satisfying the requirement are GER 550 German for Reading Knowledge, FRE 550 French for Reading Knowledge, SPA 550 Spanish for Reading Knowledge, and ITA 550 Italian for Reading Knowledge. The Department of English does not require its graduate students to write papers in the approved language.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in such related fields as anthropology, applied linguistics, communication, cognitive science, comparative languages and literatures, literature, education, history, law, linguistics, modern languages, philosophy, political science, psychology, religious studies, rhetoric, composition, sociology, or speech and hearing science from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should see the Department of English website for specific details about English proficiency requirements.

Successful completion of at least one upper-division course in linguistics, language study or a related topic is required.

The one-page, single-spaced statement of purpose should explain the applicant's background in language study, reasons for wanting to do graduate work in linguistics and plans for the future.

Career Opportunities:

Graduates with research expertise in linguistics and applied linguistics work in a variety of professional contexts around the globe, including academia, government, business, health care, legal settings, the private sector, nongovernmental organizations, advertising, marketing and publishing. Many graduates also go on to pursue doctorates in linguistics, applied linguistics and many other fields and disciplines such as education, speech and hearing sciences, law, information technology, computer science, communication and anthropology.

Career examples include:

- accent coach
- data analyst
- computer programmer
- foreign service worker
- language consultant or language documentation expert
- language program director or coordinator
- language teacher
- lexicographer
- materials designer and developer
- program and curriculum developer
- teacher trainer
- writer or editor

Linguistics and Applied Linguistics, PHD (LALINPHD)

Online Degree Search Title: Linguistics and Applied Linguistics, PhD

Campus: Tempe

Program Description:

The PhD program in linguistics and applied linguistics focuses on the study of human language and the application of that study to the human condition.

Students in this program select a research specialization in formal linguistics, applied linguistics or some combination of these areas. The curriculum provides professional training in linguistics and applied linguistics with focused research in several areas, including discourse analysis, Indigenous American linguistics, language contact and change, language planning, language revitalization, phonetics, phonology, pragmatics, second language acquisition, second language teaching and learning, semantics, sociolinguistics, syntax, teaching English to speakers of other languages, and World Englishes.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a foreign language exam, a prospectus and a dissertation.

Required Core (18 credit hours)

APL 555 Disciplinary Discourses (3)

APL 601 Introduction to Applied Linguistics (3)

LIN 511 Phonetics and Phonology (3)

LIN 514 Syntax (3)

LIN 515 American English (3) or LIN 516 Pragmatics and Discourse Analysis (3)

LIN 655 Advanced Disciplinary Discourses in Linguistics and Applied Linguistics (3)

Electives and Research (24 credit hours)

LIN 501 Approaches to Research (3)

specialization (21)

Culminating Experience (12 credit hours)

LIN 799 or APL 799 Dissertation (12)

Other Requirements (30 credit hours)

If students do not have a previously awarded master's degree, then 30 credit hours is made up of additional elective coursework which must include

LIN 510, if they have not previously taken it or its equivalent. The electives must be approved by their supervisory committee.

Additional Curriculum Information

Students must demonstrate evidence of a competent knowledge of a natural language other than modern English, to be selected by the student and subject to the approval of the chair of the dissertation committee. The language requirement must be completed before the student is eligible to take the doctoral examinations. This requirement may be met by any of the following:

- earning a "B" or higher (3.00 on a 4.00 scale) in a 400- or 500-level course in an appropriate (approved) language
- demonstrating comparable proficiency by taking a language examination, administered by the School of International Letters and Cultures, in a language approved by the student's supervisory committee
- demonstrating native-speaker proficiency, as determined by the School of International Letters and Cultures, in a language approved by the student's supervisory committee
- earning a "B" or higher (3.00 on a 4.00 scale) in both ENG 530 Old English and ENG 531 Old English Literature or the equivalent of each
- holding a bachelor's degree in an approved foreign language
- having fulfilled a foreign language requirement toward a previously awarded master's degree that was completed within five years of the semester for which the student was admitted to the doctoral program
- two years (four semesters) of successfully completed college level coursework (no more than six years prior to admission to the degree program) at least at the 100 and 200 levels with a "C" or better, for languages which the School of International Letters and Cultures does not offer or does not offer above the 200 level

The foreign language requirement must be in a language approved by the student's doctoral supervisory committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.50 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- academic writing sample relevant to the field
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should see the Department of English website for specific details about English proficiency requirements.

Undergraduate degrees in such related fields as anthropology, applied linguistics, communication, cognitive science, comparative languages and literatures, literature, education, history, law, linguistics, modern languages, philosophy, political science, psychology, religious studies, rhetoric, composition, sociology, or speech and hearing science will be considered.

The one- to two-page, single-spaced statement of purpose should explain how the applicant's experience and training have prepared them for the program. It should also indicate career goals and explain how these goals relate to the graduate program in linguistics and applied linguistics. Applicants applying for funding must also submit a statement of teaching philosophy. Students should see the Department of English website for specific details.

Career Opportunities:

Graduates with research expertise in linguistics and applied linguistics work in a variety of professional contexts, such as academia, government, business, health care, legal settings, publishing, the private sector and nongovernmental organizations.

Career examples include:

- computer-assisted language learning expert
- data analyst
- forensic linguist
- language policy or documentation expert

- language program director or coordinator
- language researcher
- linguistic consultant
- program and curriculum developer
- publisher
- university professor

Marriage and Family Therapy, MAS (LAMFTMAS)

Online Degree Search Title: Marriage and Family Therapy, MAS

Campus: Tempe

Program Description:

This self-contained, accelerated MAS program in marriage and family therapy provides high-quality coursework and supervised internship experiences. The curriculum and degree requirements have been specified and approved by the Arizona Board of Behavioral Health Examiners and are designed to meet the degree requirements for licensure in the State of Arizona for the practice of marriage and family therapy. The program is designed to train practitioners who wish to practice marriage and family therapy.

Degree Requirements:

39 credit hours and a master's research paper.

The master's degree program in marriage and family therapy requires the successful completion of a minimum of 39 credit hours and a project, including required coursework and completion of 300 client-contact hours in a community internship placement approved by the master's degree in marriage and family therapy faculty. Internships are expected to last approximately 12 months. Students must maintain a GPA of 3.00 (scale is 4.00 = "A") in all coursework and satisfactorily meet the expectations of the agency supervising their internship.

Students are required to have a vehicle and a valid Arizona driver's license for internship placement.

An internship entrance examination is held at the end of the first 7.5-week semester to determine student readiness for internship placement.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in a related field, such as counseling, psychology, and family and human development, among others.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a personal statement
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Letters of recommendation must be from three people who know the applicant in a professional or academic capacity. Family members and friends do not meet this criterion.

Students should refer to the program's website for detailed information on admission requirements.

Career Opportunities:

There are many career paths available to students pursuing this degree. A few examples are:

- genetic counselor
- psychologist
- rehabilitation counselor
- school and career counselor
- social and community service manager
- social and human service assistant
- social worker
- substance abuse, behavioral disorder and mental health counselor

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Mathematics, MA (LAMATHMA)

Online Degree Search Title: Mathematics, MA

Campus: Tempe

Spring admission is limited to students in the 4+1 program.

Program Description:

The MA program in mathematics is designed to increase mathematical knowledge beyond the traditional level of a bachelor's degree in order to prepare students for careers requiring sophisticated mathematical skills. Students may choose to specialize in applied mathematics, core mathematics, mathematics education or statistics through their course selections.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Computational Mathematical Sciences, BS
Mathematics, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and 2 written comprehensive exams, or 30 credit hours and a portfolio, or 30 credit hours, a thesis and a written comprehensive exam.

Required Core (3 credit hours)

APM 505 Applied Linear Algebra (3) or APM 506 Computational Methods (3) or MAT 543 Abstract Algebra I (3) or MAT 570 Real Analysis I (3)

Electives (21-27 credit hours)

Culminating Experience (0-6 credit hours)

MAT 599 Thesis (6)

portfolio (0)

two written comprehensive exams

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in mathematics or a closely related field from a regionally accredited institution as well as completed coursework in linear algebra (equivalent to ASU course MAT 342 or MAT 343) and advanced calculus (equivalent to ASU course MAT 371).

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of education and career goals
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

The Master of Arts program in mathematics is designed to prepare students for careers requiring sophisticated mathematical skills that may be applied to many different sectors, including education, industry and government.

Potential career opportunities include:

- finance and investment analyst
- mathematician
- mathematics professor or instructor
- operations research analyst
- statistician

Students also may pursue graduate study in mathematics or statistics in preparation for an academic career.

Mathematics, PHD (LAMATHPHD)

Online Degree Search Title: Mathematics, PhD

Campus: Tempe

Program Description:

The PhD program in mathematics is intended for students with superior mathematical ability. The program emphasizes a solid mathematical foundation and promotes creative scholarship in mathematics and its many related disciplines.

The School of Mathematical and Statistical Sciences has very active research groups in analysis, number theory, geometry and discrete mathematics.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

MAT 501 Geometry and Topology of Manifolds I (3) or

MAT 516 Graph Theory I (3) or

MAT 543 Abstract Algebra I (3) or
MAT 570 Real Analysis I (3)

Other Requirements (3 credit hours)
MAT 591 Seminar (3)

Electives (24-39 credit hours)

Research (27-42 credit hours)
MAT 792 Research

Culminating Experience (12 credit hours)
MAT 799 Dissertation (12)

Additional Curriculum Information

Electives are to be chosen from math or related area courses approved by the student's supervisory committee.

Students must pass:

- two qualifying examinations
- a written comprehensive examination
- an oral dissertation prospectus defense

Students should see the department website for examination information.

Each student must write a dissertation and defend it orally in front of five dissertation committee members.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in mathematics, or a closely related area from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of education and career goals
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Additional eligibility requirements include competitiveness in an applicant pool as evidenced by coursework in linear algebra (equivalent to ASU course MAT 342 or MAT 343) and advanced calculus (equivalent to ASU course MAT 371), and it is desirable that applicants have scientific programming skills.

Career Opportunities:

The doctoral program in mathematics is designed to prepare students for careers requiring sophisticated mathematical skills that may be applied to many different sectors, including education, industry and government. Potential career opportunities include:

- faculty-track academic
- finance and investment analyst
- mathematician
- mathematics professor, instructor or researcher
- operations research analyst
- statistician

Mathematics Education, PHD (LAMTEPHD)

Online Degree Search Title: Mathematics Education (Mathematics and Statistics Dept - Grades 9-20), PhD

Campus: Tempe

Program Description:

This transdisciplinary PhD program in mathematics education accommodates students from a variety of academic backgrounds. It provides students with a solid foundation in graduate-level mathematics as well as research skills and perspectives that allow them to incorporate mathematics into such core educational areas as:

- curriculum
- learning
- teaching
- technology

Conducting individual and collaborative research in the learning and teaching of mathematics is an integral part of the program.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (12 credit hours)

MTE 501 Research in Undergraduate Mathematics Education I (3)

MTE 502 Research in Undergraduate Mathematics Education II (3)

MTE 503 Research in Undergraduate Mathematics Education III (3)

MTE 504 Research in Undergraduate Mathematics Education IV (3)

Electives (42 credit hours)

Area Courses (12 credit hours)

Research (6 credit hours)

MTE 792 Research (6)

Culminating Experience (12 credit hours)

MTE 799 Dissertation (12)

Additional Curriculum Information

Four to five graduate-level (500 and above) elective courses from mathematics, cognitive science, psychology, educational technology, philosophy or research should be taken as approved by the advisor.

For the area courses, students are required to take four graduate-level courses from the following areas of interest: mathematics, applied mathematics or statistics. Students should see the academic unit for the approved course list.

Students should see the school's website for information about qualifier and comprehensive examinations based on math coursework.

The doctoral dissertation culminating experience consists of a dissertation prospectus, oral dissertation defense and the submission of a final revised, formatted dissertation document to the Graduate College. Dissertations are composed under chair and committee supervised research including literature review, research, data collection and analysis, and writing.

When approved by the student's supervisory committee and the Graduate College, this program may allow up to 30 credit hours from a previously awarded master's degree to be used for this program. If students do not have a previously awarded master's degree, the remaining coursework is made up of electives and research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in mathematics or a closely related area, with exceptionally high grades in advanced coursework in mathematics, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of education and career goals
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

At least two of the letters of recommendation must be from faculty.

Career Opportunities:

Graduates of the doctoral program in mathematics education have opportunities in Arizona, the US and internationally, typically at research universities and liberal arts colleges, community colleges, and education consulting firms and in positions such as:

- faculty-track academic
- education consultant or analyst
- mathematics professor, instructor or researcher

Medieval Studies (certificate), Certificate (LAMEDSTCE)

Online Degree Search Title: Medieval Studies (Graduate Certificate)

Campus: Tempe

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Program Description:

The certificate program in medieval studies prepares students for advanced study or for academic positions by augmenting their skills and knowledge, thereby making them better equipped to meet the demands of their fields.

Degree Requirements:

18 credit hours, or 27 credit hours.

Medieval Latin:

one semester (three or four credit hours) for students at the master's degree level, two semesters (six to eight credit hours) for doctoral students

proficiency attested either by achieving a grade of "B" (3.00 on a 4.00 scale) or better in the Medieval Latin courses or by satisfactory performance on the Medieval/Renaissance Latin examinations offered by the Centre for Medieval Studies at the University of Toronto (the requirement presupposing two years or 12 to 16 credit hours or equivalent of undergraduate training in Latin)

Medieval vernacular language (e.g., Old English, Old Norse, Old French):

two semesters (six credit hours) for students at the master's degree level, three semesters (nine credit hours) for doctoral students

Paleography:

one semester (three credit hours)

Medieval coursework outside the major discipline:
two semesters (six credit hours) for students at the master's degree level, three semesters (nine credit hours) for doctoral students

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Admission is open to all ASU graduate students in good standing who are enrolled in an existing master's or doctoral degree program.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. The Graduate College requires a TOEFL score of at least 550 (PBT) or 80 (iBT).

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Microbiology, MS (LAMICROMS)

Online Degree Search Title: Microbiology, MS

Campus: Tempe

Program Description:

The MS program in microbiology is designed to prepare students for careers in bacteriology, virology, mycology, immunology and oncology in academic institutions, government agencies or commercial entities.

Students receive advanced training in the study of microbes and their impact on humankind, disease and the environment. They use tools ranging from nanotechnologies and genomics to mathematical models and satellite-based imaging. Students receive training in both teaching and basic, translational and use-inspired research with world-class faculty and collaborative research partners. Faculty members are associated with the School of Life Sciences, The Biodesign Institute, The Translational Genomics Institute, Barrow Neurological Institute, and other area hospitals and research centers.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Biological Sciences, BS
- Biological Sciences (Biology and Society), BS
- Biological Sciences (Biomedical Sciences), BS
- Biological Sciences (Conservation Biology and Ecology), BS
- Biological Sciences (Genetics, Cell and Developmental Biology), BS
- Biological Sciences (Neurobiology, Physiology and Behavior), BS
- Microbiology, BS
- Microbiology (Medical Microbiology), BS
- Molecular Biosciences and Biotechnology, BS
- Neuroscience, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis.

Required Core (3 credit hours)

MIC 501 Foundations in Microbiology (3)

Electives and Research (21 credit hours)

Culminating Experience (6 credit hours)

MIC 599 Thesis (6)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the biological sciences, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Prior research experience is a desired qualification for admission.

Career Opportunities:

Professionals with tailored research training in specific directions, including microbial physiology, environmental microbiology, evolution and ecology, immunology, virology, and various aspects of modern molecular genetics are in demand for diverse sectors.

Career examples include:

- environmental scientists and specialists (including health)
- lab managers in academic and industrial labs
- medical and clinical laboratory technologists
- microbiologists in diverse sectors including food service and health care industry
- natural sciences managers
- research technicians in academic and industrial labs

Microbiology, PHD (LAMICROPHD)

Online Degree Search Title: Microbiology, PhD

Campus: Tempe

Program Description:

The PhD program in microbiology offers a dynamic research environment; a broad range of basic, translational and use-inspired research areas; cutting-edge transdisciplinary training; and opportunities to work with world-class faculty and collaborative research partners committed to training scientific leaders with skills necessary for addressing significant global microbiological problems and challenges.

This program focuses on the smallest of living things and immunology. Students can tailor the program around their interests, and gain skills in contemporary approaches used in microbiology, biomedicine and biotechnology.

Faculty members are associated with the School of Life Sciences, The Biodesign Institute, The Translational Genomics Institute, Barrow Neurological Institute, and other area hospitals and research centers.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (4 credit hours)

BIO 610 Introduction to Responsible Conduct of Research in Life Sciences (1)

MIC 501 Foundations in Microbiology (3)

Electives or Research (68 credit hours)

Culminating Experience (12 credit hours)

MIC 799 Dissertation (12)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the biological sciences, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Prior research experience is a desired qualification for admission.

Career Opportunities:

This program provides intense and interactive educational and research training that prepares students for advanced careers in research and education, specifically in bacteriology, virology, mycology, immunology and oncology at universities and colleges, government agencies and industry.

Career possibilities are diverse with opportunities in academic organizations, research and development industries, government service, and other professional organizations.

Career examples include:

- instructors in universities and colleges

- principal investigators in government labs and nonprofit organizations
- professors in universities and colleges
- research associates in universities
- research scientists in industry

Molecular and Cellular Biology, MS (LACELLMS)

Online Degree Search Title: Molecular and Cellular Biology, MS

Campus: Tempe

Program Description:

The MS program in molecular and cellular biology focuses on the fundamental molecular events at the core of all life. It encourages interdisciplinary, innovative, world-class research, allowing students to choose from a diverse range of research and training opportunities that extend beyond the traditional boundaries of biological research. Students are able to tailor the program around their interests and gain skills in contemporary approaches used in molecular and cellular biology.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Biological Sciences, BS
- Biological Sciences (Biology and Society), BS
- Biological Sciences (Biomedical Sciences), BS
- Biological Sciences (Conservation Biology and Ecology), BS
- Biological Sciences (Genetics, Cell and Developmental Biology), BS
- Biological Sciences (Neurobiology, Physiology and Behavior), BS
- Microbiology, BS
- Molecular Biosciences and Biotechnology, BS
- Neuroscience, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis.

Required Core (6 credit hours)

MCB 555 Advanced Molecular and Cellular Sciences (3)

MCB 556 Advanced Molecular and Cellular Biology II (3)

Electives or Research (10 credit hours)

Other Requirements (8 credit hours)

MCB 501 Seminar: Molecular and Cellular Biology Colloquium (4)

BIO 543 Molecular Genetics and Genomics (3)

BIO 610 Introduction to Responsible Conduct of Research in Life Sciences (1)

Culminating Experience (6 credit hours)

MCB 599 Thesis (6)

Additional Curriculum Information

Students are required to take MCB 501 each semester they are registered. If a student is registered for more or fewer than four semesters, the research hours and MCB 501 hours may be adjusted accordingly to reach 30 credit hours.

Students should see the academic unit for a complete list of approved electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the biological sciences, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Research experience is a desired qualification.

Career Opportunities:

A master's degree in molecular and cellular biology provides strong preparation for academic careers from community colleges to research universities. The skills and knowledge obtained in this program are also valuable for government careers in federal and state agencies and for careers in industry and nongovernmental organizations.

Career examples include:

- food, agriculture and health care scientists in academic, private and industrial labs
- instructors at community colleges
- researchers and technicians in government labs and non-profit organizations
- science teachers in elementary and high schools

Molecular and Cellular Biology, PHD (LACELLPHD)

Online Degree Search Title: Molecular/Cellular Biology, PhD

Campus: Tempe

Program Description:

The PhD program in molecular and cellular biology prepares students for careers that cross traditional disciplinary boundaries.

The program focuses on the fundamental molecular events at the core of all life. Students can tailor the program around their interests and gain skills in contemporary approaches used in molecular and cellular biology.

It provides a diverse range of research and training opportunities for doctoral students interested in pursuing a transdisciplinary approach to their studies that extends beyond the traditional boundaries of biological research. Participating faculty members and researchers are drawn from multiple departments, colleges, centers and institutes across the university, including:

- Department of Chemistry and Biochemistry
- Department of Psychology
- New College of Interdisciplinary Arts and Sciences

- School of Biological and Health Systems Engineering
- School for Engineering of Matter, Transport and Energy
- School of Human Evolution and Social Change
- School of Life Sciences
- School of Mathematical and Statistical Sciences

Participating faculty members are also based at partner institutions in the greater Phoenix area, including:

- Barrow Neurological Institute
- Carl T. Hayden Veteran's Administration Medical Center
- Mayo Clinic in Arizona
- Translational Genomics Research Institute
- University of Arizona College of Medicine-Phoenix

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

MCB 555 Advanced Molecular and Cellular Sciences (3)

MCB 556 Advanced Molecular and Cellular Biology II (3)

Electives or Research (54 credit hours)

Other Requirements (12 credit hours)

BIO 543 Molecular Genetics and Genomics (3)

BIO 610 Introduction to Responsible Conduct of Research in Life Sciences (1)

MCB 701 Seminar: Molecular and Cellular Biology Colloquium (8)

Culminating Experience (12 credit hours)

MCB 799 Dissertation (12)

Additional Curriculum Information

Courses listed as other requirements may be substituted with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the biological sciences, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Research experience is a desired qualification.

Career Opportunities:

A doctoral degree in molecular and cellular biology provides strong preparation for academic careers at every level from community colleges to research universities. Graduates possess the skills and knowledge that are also valuable in government careers at federal and state agencies and for careers in industry and nongovernmental organizations.

Career examples include:

- food, agriculture and health care scientists in academic, private and industrial labs
- principal investigators in government labs and non-profit organizations

Museum Studies, MA (LAMUSSTMA)

Online Degree Search Title: Museum Studies, MA

Campus: Tempe

Program Description:

The MA program in museum studies examines how museums produce and reflect culture and examines the role museums play worldwide.

Students develop theoretical questions and applied skills that engage the functions, practices and critical analyses of museums. They also gain practical experience while being encouraged to challenge preconceived notions about museums and the way museums affect and are affected by societies and cultures. Designed to be use-inspired, socially embedded and transcultural, the program ensures that students understand the meaning and significance of museums in contemporary society and prepares them for diverse museum careers.

Degree Requirements:

30 credit hours and a portfolio.

Required Core (3 credit hours)

ASB 579 Critical Issues in Museum Studies (3)

Electives and Research (18)

ASB 592 Research (6)

other electives and research (12)

Other Requirements (9)

ASB 500 Research Methods (3) or ASB 572 Museum Collection Management (3)

ASB 584 Internship (6) OR ASB 584 Internship (3) and ASB 580 Practicum (3)

Culminating Experience (0 credit hours)

portfolio (0)

Additional Curriculum Information

For a complete list of approved elective and research courses, students should contact the school.

Internship (ASB 584) and Practicum (ASB 580) must be approved by their supervisory committees, usually in a museum setting or museum quality collection or archive related to their chosen area of study: anthropology, art history, theory and criticism or public history.

Other courses may be substituted for ASB 500 as an equivalent course with academic unit approval.

On completion of the internship, students must submit a journal or portfolio about the internship and skills acquired.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Suitable backgrounds for admission include disciplines related to museum studies, anthropology, history or art (fine art or art history).

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00="A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00="A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

The demand in the job market is for people with the skill set to analyze a broad range of data on human thought and human behavior. There is a growing need for researchers and analysts with keen thinking skills who can manage, evaluate and interpret large amounts of data.

Some career opportunities include:

- acting as legal advocates in international cases
- analyzing and proposing policies
- conducting postgraduate academic research
- consulting for private and public organizations
- directing nonprofit organizations
- directing programs in the private or public sector

Museum Studies (certificate), Certificate (LAMUSEUMCE)

Online Degree Search Title: Museum Studies (Graduate Certificate)

Campus: Tempe

Program Description:

In the museum studies certificate program, students examine how museums produce and reflect culture and they examine the role museums play worldwide.

Students develop theoretical questions and applied skills that engage the functions, practices and critical analyses of museums. They gain practical experience while being encouraged to challenge preconceived notions about museums and the way they affect and are affected by societies and cultures. Designed to be use-inspired, socially embedded and transcultural, the program ensures that students understand the meaning and significance of museums in contemporary society and prepares them for diverse museum careers.

Degree Requirements:

18 credit hours.

Required Core (3 credit hours)

ASB 579 Critical Issues in Museum Studies (3)

Electives (9 credit hours)

Other Requirements (6 credit hours)

ASB 580 Practicum (3) and ASB 584 Internship (3) OR

ASB 584 Internship (6)

Additional Curriculum Information

Certificate students may choose to specialize in areas such as anthropology, art history and public history.

For a complete list of approved elective and research courses, students should contact the school.

Internship (ASB 584) and Practicum (ASB 580) must be approved by their supervisory committees, usually in a museum setting or museum-quality collection or archive related to their chosen area of study: anthropology, art history, theory and criticism or public history.

For students currently enrolled in an ASU graduate degree program, applicable certificate courses may count toward their degree program, with the approval and consent of the degree granting program. For certificate students who are later admitted to an ASU graduate degree program, up to 12 credit hours from the certificate program may count toward their doctoral degree or up to 12 credit hours may count toward their master's degree, with the approval and consent of the degree-granting program.

All requirements for the certificate program should be completed within a three-year time limit with a minimum cumulative GPA of 3.00 (scale is 4.00 = "A"). Students who require more time to finish the program, because of their part-time status or lack of desirable or available courses, must obtain approval from the executive committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Suitable backgrounds for admission include disciplines related to museum studies, anthropology, history or art (fine art or art history).

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

For information on spring admission, students should contact the School of Human Evolution and Social Change.

Disclosure information about this U.S. Department of Education Gainful Employment program is available at <https://catalog.asu.edu/files/disclosures/LAMUSEUMCE/Gedt.pdf> (<https://catalog.asu.edu/files/disclosures/LAMUSEUMCE/Gedt.pdf>).

Career Opportunities:

The demand in the job market is high for people with a skill set to analyze a broad range of data on human thought and human behavior. There is a growing need for researchers and analysts with keen thinking skills who can manage, evaluate and interpret large amounts of data.

Nanoscience, PSM (LANANPSM)

Online Degree Search Title: Nanoscience, PSM

Campus: Tempe

This program is not currently accepting applications.

Program Description:

The PSM in nanoscience is a cohesive program of transdisciplinary courses that provide the knowledge base required for research and innovation in nanoscience. The program incorporates courses in:

- chemistry and biochemistry
- electrical engineering
- materials science
- physics

Commercial innovation is a particular target goal of the degree, including applications in:

- biochemistry and sensing technology
- biophysics and biomedical technology
- nanomaterials and nanoscale devices

The Professional Science Master's degree program in nanoscience is suitable for working professionals as well as for students who have obtained a traditional bachelor's degree or master's degree in related fields.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Biochemistry, BS
Biochemistry (Medicinal Chemistry), BS
Chemistry, BS
Materials Science and Engineering, BSE
Physics, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

32 credit hours including the required applied project course (NAN 593).

Required Core (5 credit hours)

NAN 505 Nanoscience and Society (2) or NAN 506 Innovation and IP Management (2)

NAN 571 Quantum Physics (3) or NAN 544 Introduction to Nanoscience (3)

Electives or Research (15 credit hours)

Other Requirements (6 credit hours)

NAN 591 Professional Seminar (6)

Culminating Experience (6 credit hours)

NAN 593 Applied Project (6)

Additional Curriculum Information

Students must take either NAN 505 or NAN 506. Students may also take the other course as an elective.

Students with a physical science or engineering background should take NAN 571 Quantum Physics and students with a biochemistry or life
Academic Catalog Archive 2022-2023 1225

sciences background should take NAN 544 Introduction to Nanoscience.

The program includes a two-semester, student-centered professional seminar in which emerges the central role of the program as a vehicle for innovation. During the spring semester and summer session, students conduct an individual applied project in association with a research group. Throughout the program, students interact with research faculty and other students in a variety of disciplines related to nanoscience. Students also meet with visiting speakers and industrialists in the professional seminar as well as in other seminars.

If taken full time, the PSM in nanoscience can be completed in 12 months (fall semester, spring semester and two eight-week summer sessions). Another option is the two-year, part-time program which allows prospective students and their employers flexibility in scheduling the program of study.

Students should see the academic unit for a complete list of approved electives. Many of the requisite elective courses are currently offered within the Department of Physics and the Department of Chemistry and Biochemistry. Most are cross-listed with other units.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in physics, chemistry or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. TOEFL scores or equivalent are required for applicants whose native language is not English.

The personal statement should outline the applicant's research interests and why the applicant wants to apply to the Professional Science Master's degree program.

GRE scores are not required but are taken into consideration if submitted.

Letters of recommendation should be from individuals familiar with the applicant's work or studies relevant to the program.

Career Opportunities:

Nanoscale science and engineering are having an increasing impact on many aspects of daily life and the opportunities for careers are rapidly expanding. In areas as diverse as designing medical diagnostic devices to building better batteries, from creating cosmetics to enhancing energy efficient windows, from auto and plane manufacturing to researching the nature of matter itself, knowledge of nanoscale science and engineering will be increasingly important during upcoming years and decades.

The highly technical field of nanotechnology and nanoscience is always looking for scientists, engineers and technicians. Career examples include:

- applications engineer
- biotechnologist
- forensic scientist
- instrument development engineer
- manufacturing engineer
- market development manager
- materials scientist
- mechanical or electrical engineer
- medical engineer
- microscopist
- optical engineer
- research scientist

- technical program manager

Natural Science (Earth and Space Sciences), MNS (LANATSCIMN)

Online Degree Search Title: Natural Science (Earth and Space Sciences), MNS

Campus: Tempe

This program's name has changed effective Fall 2022. The previous name was Natural Science (Geological Sciences), MNS.

Program Description:

The School of Earth and Space Exploration participates in the program leading to the MNS in natural science with a concentration in earth and space sciences. This transdisciplinary degree program is designed to meet the needs of professionals seeking a graduate-level degree. The program is especially suited for individuals who desire professional training rather than research training.

The program offers the opportunity for transdisciplinary graduate training in the natural sciences (i.e., biological sciences, mathematics and physical sciences) and cognate areas. Because it is flexible by design, the program also offers the opportunity for individualized professional graduate programs depending upon the backgrounds and goals of the students. The program must be transdisciplinary; students are expected to emphasize coursework in two or more areas of specialization.

Degree Requirements:

30 credit hours and an applied project (SES 593).

Required Core (1 credit hour)

SES 502 Exploring SESE Research (1)

Other Requirements (19 credit hours)

SES 501 SESE Colloquium (1)

GLG or SES courses (18)

Electives or Research (4 credit hours)

Culminating Experience (6 credit hours)

SES 593 Applied Project (6)

Additional Curriculum Information

Other Requirements coursework includes SES 501 and 18 credit hours of GLG or SES graduate-level courses. Exceptions and substitutions may be allowed with approval of the academic unit.

The supervisory committee is chosen by the student in conjunction with the advisor. The composition of the supervisory committee must reflect the transdisciplinary nature of the program. The student develops a suitable applied project with the approval of the supervisory committee.

Students must submit a plan of study after conferring with the supervisory committee. While a minimum of 30 credit hours is required for the degree, more credit hours may be required by the supervisory committee, depending upon the background of the student and the nature of the proposed program.

In some cases, undergraduate courses may be required to remove deficiencies.

Admission Requirements:

Admission For Catalog:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admissions application and application fee
- official transcripts
- statement of purpose
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

Professionals with expertise in earth and space sciences are in high demand across sectors and industries, including remote sensing, natural resource management, data science, environmental consulting, hazard and risk assessment, geophysics and planetary science. Skills in the measurement and analysis of data related to the physics, chemistry and structures of earthly and planetary systems are valuable to businesses and institutions relying on data-driven strategies to interact with the planet and explore beyond the Earth.

Career examples include:

- geologist
- high school teacher
- science communication expert
- science writer and science journalist

Contact Information:

Natural Science (Physics), MNS (LAPHYSMNS)

Online Degree Search Title: Physics, MNS

Campus: Tempe

Program Description:

The MNS program in physics provides transdisciplinary graduate training in physics, physical science or physics education. The program is especially suited for in-service high school science teachers who desire professional training rather than pursuit of a research-based degree.

Designed for flexibility, the curriculum also features individualized professional graduate programs. These programs are well suited to the backgrounds and goals of students. Students are expected to emphasize coursework in two or more areas of concentration. The program must be transdisciplinary.

Degree Requirements:

30 credit hours including the required applied project course (PHS 593).

The graduate advisor and the student suggest three faculty members who reflect the transdisciplinary nature of the program to serve on the supervisory committee which, upon the recommendation of the chair of the Department of Physics, is appointed by the vice provost for the Graduate College soon after the student has been admitted to the degree program.

After conferring with the student, the supervisory committee recommends the plan of study. The committee may require additional coursework to ensure proficiency, depending upon the student's background and the nature of the proposed program. In some cases, undergraduate courses may be required to overcome deficiencies.

Teachers may enroll in these courses in order to earn credit toward recertification or to pursue a Master of Natural Science degree. These courses are held during the summer. Depending on teacher interest, they may be offered at other times. For some courses, the prerequisites are two semesters of trigonometry-based college physics and an introductory calculus course.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree from a regionally accredited institution. The program is open to in-service high school teachers who have completed two semesters of college physics and an introductory calculus course. Under-prepared teachers can make up deficiencies in regularly scheduled courses. Students must be able to attend classes in-person at the Tempe campus.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate coursework
- two letters of recommendation
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The letters of recommendation should be from individuals familiar with the applicant's work or studies relevant to the natural science program.

Conditions for admission are the availability of resources for the proposed program and a Department of Physics faculty member designated to serve as a graduate advisor.

Career Opportunities:

Master of Natural Science graduates gain deeper understanding of physics and related subjects both conceptually and pedagogy. They are better prepared for teaching physics and other related subjects. Graduates maybe qualified to teach dual enrollment courses in physics or related subjects such as chemistry.

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Neuroscience, PHD (GCBMENPHD)

Online Degree Search Title: Neuroscience, PhD

Campus: Tempe

Program Description:

Neuroscience is the scientific study of the nervous system. Studies in neuroscience can be multifaceted and combine physiology, anatomy, molecular biology, developmental biology, cytology, computer science and mathematical modeling to understand the fundamental and emergent properties of the many different cells in the brain and how they interact and co-regulate each other.

Students integrate several levels of analysis --- molecular, cellular, systems, behavioral and cognitive --- to investigate basic, translational and clinical questions about the relationship between the brain and behavior.

The PhD program in neuroscience includes aspects of graduate-level training from many different units on campus as well as from the program's partner institutions distributed across the greater Phoenix area. Partner institutions include Barrow Neurological Institute, Translational Genomics Research Institute, University of Arizona College of Medicine and Sun Health Research Institute.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (8 credit hours)

BIO 610 Introduction to Responsible Conduct of Research in Life Sciences (1)

NEU 556 Human Systems Neuroscience (4)

NEU 576 Advanced Cellular and Molecular Neuroscience (3)

Electives or Research (58 credit hours)

Other Requirements (6 credit hours)

NEU 558 Neuroscience Journal Club (3)

NEU 591 Seminar (3)

Culminating Experience (12 credit hours)

NEU 799 Dissertation (12)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Regular admission may be granted to applicants who have achieved the minimum cumulative GPA requirement or better in the last two years of work leading to a bachelor's degree and who are competitive in the applicant pool as evidenced by letters of recommendation. Particular attention is paid to research experience and overall preparation in problem-solving abilities as evidenced by previous coursework and research experiences.

There are no specific undergraduate course requirements other than those implied by the degree requirements described above. Most students are expected to have had coursework in biology, chemistry and math.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Research experience is a desired qualification.

Career Opportunities:

A doctorate in neuroscience provides strong preparation for academic careers at every level from community colleges to research universities. The skills and knowledge obtained in this program are also valuable for government careers in federal and state agencies, for careers in industry (biotech, medical or pharmaceutical), as well as nongovernmental organizations.

Career examples include:

- health care scientists in academic, private and industrial labs
- principal investigators in government labs and nonprofit organizations
- professors or instructors in universities and colleges
- science teachers in elementary and high schools

Philosophy, MA (LAPHILMA)

Online Degree Search Title: Philosophy, MA

Campus: Tempe

Program Description:

The School of Historical, Philosophical and Religious Studies offers an MA degree program in traditional and contemporary philosophy. General areas of research include ethics, political philosophy, metaphysics, epistemology, philosophy of law, philosophy of science, feminist philosophy, philosophy of language, experimental philosophy and the history of philosophy.

Members of the faculty are involved in interdisciplinary work in a variety of fields and enjoy close ties with the Lincoln Center for Applied Ethics, the Sandra Day O'Connor College of Law, and a number of other graduate programs at ASU. The philosophy program sponsors an active colloquium series and regular philosophical conferences on diverse topics. The Lincoln Center for Applied Ethics also sponsors a wide range of activities, including large-scale conferences, distinguished visitors and support for graduate study.

The program seeks to maintain a balance between course offerings in the traditional areas of philosophy and opportunities for study of current philosophical developments.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis.

Required Core Areas (9 credit hours)

epistemology (3)

metaphysics (3)

value theory (3)

Electives and Research (15 or 21 credit hours)

Culminating Experience (0 or 6 credit hours)

PHI 599 Thesis (6) or

portfolio (0)

Additional Curriculum Information

There are two culminating experience options for the master's degree program in philosophy: the thesis option and the nonthesis portfolio option.

Thesis students take 15 credit hours of electives. Portfolio students take 21 credit hours of electives, which must include PHI 592 Research for three credit hours.

Students should see the academic unit for the list of courses approved for each core area in epistemology, metaphysics and value theory.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- curriculum vitae
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency as well as a copy of an article or research paper in their native or principal research language in addition to the English writing sample required of all students. The philosophy program requires a TOEFL score of at least 600 (PBT) or 90 (iBT).

The statement of purpose should explain the applicant's specific intent and be no more than 600 words in length.

The writing sample must be a piece of philosophical writing, preferably a seminar paper or published article of no more than 20 pages and not a thesis or dissertation.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Identify and articulate a philosophical problem or question in one of the core areas in philosophy--that is, metaphysics, epistemology, and value theory.
- Construct a reasoned defense of a clear, creative, and original solution to a philosophical problem in one of the core areas of philosophy--that is, metaphysics, epistemology, and value theory.
- Evaluate a solution or answer to a philosophical problem or question (such as one of those explicated in the course readings)
- Explain a philosophical argument or point verbally.

Career Opportunities:

Both the Master of Arts and doctoral programs in philosophy help students to develop and hone skills that are highly marketable and easily transferable. As routine jobs are increasingly being lost to advances in automation and artificial intelligence, philosophy teaches its students to think critically, creatively and imaginatively. These skills are irreplaceable by technology, highly sought-after by employers, and transferrable from one occupation to another. They include the following skills and abilities: to read closely and with a critical eye, to analyze complex problems, to identify all the possible solutions to that problem, including some creative solutions, to assess the merits of each possible solution, and to articulate and argue for or against various possible solutions in clear, precise and unambiguous language.

As philosophy focuses on honing certain skills rather than acquiring a particular body of knowledge, philosophy prepares its students for a wide variety of careers rather than for just one particular occupation. Indeed, philosophy prepares its students for any career requiring problem-solving; clear, critical and creative thinking; and excellent reading, writing and communication skills.

The master's degree program in philosophy is designed to prepare students to enter doctoral programs, teach philosophy at the community college level, or work in any area that requires critical, analytical thinking, such as medicine, law, government or publishing.

Career examples include:

- businessperson
- computer programmer
- counselor
- educator
- journalist
- lawyer
- politician
- public policy analyst
- publisher
- writer

Philosophy, PHD (LAPHILPHD)

Online Degree Search Title: Philosophy, PhD

Campus: Tempe

Program Description:

The School of Historical, Philosophical and Religious Studies offers a newly redesigned PhD program in philosophy. General areas of research include ethics, political philosophy, metaphysics, epistemology, philosophy of law, philosophy of science, philosophy of language, philosophy of religion and the history of philosophy.

The program features a focus on practical and applied philosophy and an interdisciplinary coursework component related to the student's research topic. Practical philosophy includes the fields of ethics, philosophy of law, social and political philosophy, feminist ethics and political philosophy. Applied philosophy includes both the application of theories developed within any of the subdisciplines of philosophy to everyday problems or phenomena; such as the application of the philosophy of language in relation to hate speech or the philosophy of mind in relation to computing and artificial intelligence. Applied philosophy also includes the application of research produced by methods used in other disciplines in order to understand and address philosophical questions, like the application of data-gathering instruments used in psychology to answer questions in experimental philosophy.

Students may design dissertation projects in any of the major subfields of philosophy. For their interdisciplinary coursework supporting the dissertation project, students might, for example, pursue a certificate in social transformation, gender studies, responsible innovation in sciences, or engineering and society.

Members of the faculty are involved in interdisciplinary work in a variety of fields and enjoy close ties with the Lincoln Center for Applied Ethics, the College of Law and a number of other graduate programs at the university. The ASU philosophy faculty group sponsors an active colloquium series and regular philosophical conferences on diverse topics. The Lincoln Center for Applied Ethics also sponsors a wide range of activities, including large-scale conferences, distinguished visitors and support for graduate study.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core Areas (15 credit hours)

applied philosophy (3)
epistemology (3)
formal methods (3)
metaphysics (3)
value theory (3)

Electives (45 credit hours)

Research (12 credit hours)

PHI 792 Research (12)

Culminating Experience (12 credit hours)

PHI 799 Dissertation (12)

Additional Curriculum Information

Students should see the academic unit for the list of courses approved for each required core area.

In completing the electives requirements, at least nine credit hours and no more than 18 credit hours must be from other disciplines supporting the student's proposed dissertation area; 30 credit hours from a previously awarded master's degree may apply toward this requirement with approval by the student's supervisory committee and the Graduate College.

To ensure breadth in the traditional areas of philosophy, students must pass with a grade of "B" or better (3.00 on a 4.00 scale).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- curriculum vitae

- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency, a copy of an article or research paper in their native or principal research language, as well as the English writing sample required of all students regardless of current residency. The philosophy program requires a TOEFL score of at least 600 (PBT) or 100 (iBT), or 7.0 on the IELTS.

The statement of purpose should explain the applicant's scholarly background and training, career goals, the primary field the applicant wishes to pursue, and the proposed research specialization (no more than 600 words in length).

The writing sample must be a piece of philosophical writing, preferably a seminar paper or published article of no more than 20 pages.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Achieve competence with philosophical literature and writing
- Achieve professional-level skills in mastering literature and philosophical writing
- Identify and articulate a philosophical problem or question in one of the core areas in philosophy--that is, metaphysics, epistemology, and value theory.

Career Opportunities:

Both the MA and doctoral programs in philosophy help students to develop and hone skills that are both highly marketable and easily transferable. As routine jobs are increasingly being lost to advances in automation and artificial intelligence, philosophy teaches its students to think critically, creatively and imaginatively. These skills are irreplaceable by technology, highly sought-after by employers, and transferrable from one occupation to another. They include the following skills and abilities: to read closely and with a critical eye, to analyze complex problems, to identify all the possible solutions to that problem, including some creative solutions, to assess the merits of each possible solution, and to articulate and argue for or against various possible solutions in clear, precise and unambiguous language.

As philosophy focuses on honing certain skills rather than acquiring a particular body of knowledge, philosophy prepares its students for a wide variety of careers rather than for just one particular occupation. Indeed, philosophy prepares its students for any career requiring problem-solving; clear, critical and creative thinking; and excellent reading, writing and communication skills.

The program is designed to prepare students for careers as philosophers, as teachers of philosophy and in areas in which they may benefit from advanced training in philosophy, such as law, civil service and publishing.

Career examples include:

- businessperson
- computer programmer
- counselor
- educator
- journalist
- lawyer
- politician
- public policy analyst
- publisher
- writer

Physics, MS (LAPHYSIMS)

Online Degree Search Title: Physics, MS

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

The MS program in physics provides graduate instruction and research experience appropriate to many physics-related careers. The structure of the program is flexible enough to allow a wide range of programs of study and a wide range of student backgrounds. It is also suitable for part-time study.

Completion of the program requires a minimum of two years, with students typically taking courses for the first three semesters and completing a research project in their final semester. Each student defends a master's degree thesis at the end of the program.

Degree Requirements:

30 credit hours and a thesis.

The master's degree in physics can emphasize either physics or physics in combination with other fields.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in physics or a closely related field from a regionally accredited institution. To be admitted to the master's degree program in physics without deficiencies, applicants should have adequate undergraduate preparation equivalent to an undergraduate major of 30 credit hours in physics and 20 credit hours in mathematics. Courses in analytic mechanics, electromagnetism and modern physics, including quantum mechanics, are particularly important.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- test scores for the verbal, quantitative and analytical sections of the GRE
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency in the form of a TOEFL or equivalent score regardless of current residency.

Submission of scores for the physics GRE subject test is recommended, although not mandatory.

Financial support in the form of teaching or research assistantships is contingent upon satisfactory performance in coursework, timely completion of the final examination for the master's degree, and need and availability of such support.

Students on probation are offered financial support only under exceptional circumstances.

Career Opportunities:

As a professional physicist, graduates can advance the frontiers of physics by generating new knowledge in their subfield while working on the most challenging scientific problems at the forefront of human understanding. Physicists are valued for their analytical, technical and mathematical skills and find employment in a vast majority of employment sectors, including:

- academia
- engineering
- finance
- technology

Physics, PHD (LAPHYSIPHD)

Online Degree Search Title: Physics, PhD

Campus: Tempe

Program Description:

The PhD program in physics is intended for highly capable students having the interest and ability to follow a career in independent research. The recent advent of the graduate faculty initiative at ASU extends the spectrum of potential physics doctoral topics and advisors to include highly transdisciplinary projects that draw upon:

- biochemistry
- biology
- chemistry
- electrical engineering
- materials science
- other related fields

Consequently, students and doctoral advisors can craft novel doctoral projects that transcend the classical palette of physics subjects. Transdisciplinary expertise of this nature is increasingly vital to modern science and technology.

Current areas of particular emphasis within the department include:

- biological physics
- cosmology
- electron diffraction and imaging
- nanoscale and materials physics
- particle physics and astrophysics

The department has more than 90 doctoral students and more than 40 faculty members.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Coursework (18 credit hours)

PHY 500 Research Rotation I (3)

PHY 500 Research Rotation II (3)

PHY 521 Classical and Continuum Mechanics (3)

PHY 531 Electrodynamics (3)

PHY 541 Statistical Physics (3)

PHY 576 Quantum Theory (3)

Electives or Research (54 credit hours)

Culminating Experience (12 credit hours)

PHY 799 Dissertation (12)

Additional Curriculum Information

Of particular note within the core courses are the PHY 500 Research Rotations, which are specifically designed to engage doctoral students in genuine, faculty-guided research starting in their first semester at ASU. Students take PHY 500 in the first and second year of study.

Coursework beyond the core courses is established by the student's doctoral advisor and supervisory committee, working in partnership with the student. The intent is to tailor the doctoral training to the specific research interests and aptitudes of the student while ensuring that each graduating student emerges with the expertise, core knowledge and problem-solving skills that define a successful doctoral degree in physics.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 credit hours of coursework are made up of electives to reach the required 84 credit hours.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in physics or a closely related area, from a

regionally accredited institution. Applicants must have had adequate undergraduate preparation equivalent to an undergraduate major of 30 credit hours in physics and 20 credit hours in mathematics. Courses in analytic mechanics, electromagnetism and modern physics, including quantum mechanics, are particularly important.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants requesting credit for prior graduate courses, taken either at ASU or elsewhere, must demonstrate mastery of the relevant course material to the graduate-level standards of the Department of Physics.

Career Opportunities:

As a professional physicist, graduates can advance the frontiers of physics by generating new knowledge in their subfield while working on the most challenging scientific problems at the forefront of human understanding. Graduates find positions in a variety of settings, such as academic faculty, administration, government labs, industrial labs and management.

Physicists are valued for their analytical, technical and mathematical skills and find employment in a vast array of employment sectors, including:

- academia
- engineering
- finance
- technology

Plant Biology and Conservation, MS (LAPLBIOMS)

Online Degree Search Title: Plant Biology and Conservation, MS

Campus: Tempe

Program Description:

Conservation demonstrates a growing need for botanists and conservation biologists in academic institutions, government agencies and nongovernmental organizations.

The MS program in plant biology and conservation provides students with advanced training in plant ecology, evolution and floristics as well as in theory and practice of conservation biology. Students have the opportunity to work with faculty and researchers from ASU and the Desert Botanical Garden, located in Phoenix near ASU's Tempe campus.

This master's degree program is offered in collaboration with the Desert Botanical Garden.

Degree Requirements:

30 credit hours and a thesis.

Required Core (3 credit hours)

PLB 502 Perspectives in Plant Biology (3)

Research (3 credit hours)
PLB 592 Research (3)

Electives (17 credit hours)

Other Requirements (1 credit hour)
BIO 591 Seminar (1)

Culminating Experience (6 credit hours)
PLB 599 Thesis (6)

Additional Curriculum Information
Students should see the academic unit for a complete list of approved electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in biology, botany or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

A master's degree in plant biology and conservation provides strong preparation for academic careers. The skills and knowledge obtained in this program are also valuable for government careers in federal and state agencies responsible for management and conservation and for careers in industry and nongovernmental organizations.

Career examples include:

- conservation scientists
- food and agriculture scientists in academic, private and industrial labs
- instructors at community colleges
- researchers and technicians in government labs and nonprofit organizations
- science teachers in elementary and high schools

Political Psychology, MA (LAPPSMA)

Online Degree Search Title: Political Psychology, MA

Campus: Online

Program Description:

Developed as an interdisciplinary program crossing political science and psychology, the MA in political psychology was created to aid in the professional advancement of electoral and issue advocacy campaigns, government and private sector careers, and careers in nonprofit organizations. Students learn skills necessary to mobilize voters and social movements, advance governmental programs, design successful political communication strategies, and effectively market political candidates for local, state and federal offices.

The program's mission is to educate students in the most recent insights from evidence-based research, prepare students with innovative tools and knowledge that gives them an advantage over their peers, and encourage hands-on training that ensures what they learn inside of the classroom applies outside of the classroom. Students have regular interactions with world-class teachers and researchers who help students learn how to shape the world in a meaningful and positive way.

The School of Politics and Global Studies is host to the Center on the Future of War, the Center for Latina/os and American Politics Research, and the SPGS Experimental Laboratory. The Department of Psychology hosts 10 doctoral, master's degree and graduate certificate programs that investigate issues such as social influence and persuasion, prejudices and discrimination, and neuroscience and clinical pathology. Faculty members are active in collaborative interdisciplinary research at ASU and with scholars at other universities and have won many major grants and awards.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Political Science, BA
Political Science, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required capstone course (PPS 550).

Required Core (3 credit hours)

PPS 501 Fundamentals of Political Psychology (3)

Other Requirement (6 credit hours)

PPS 504 Attitudes and Persuasion (3)

PPS 506 Experimental Design (3)

Electives (18 credit hours)

Culminating Experience (3 credit hours)

PPS 550 Capstone (3)

Additional Curriculum Information

Students should see the academic unit for a list of approved elective courses.

Other requirement coursework may be substituted with approval from the program director. Substitutions are based on student interest in narrowing their specialization with guidance. This program does not seek to replicate existing communications or marketing degrees, but rather harness the political psychology perspective as applied to a variety of potential student interests and careers.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- letter of intent or written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/political-psychology-ma/>)

Career Opportunities:

The Master of Arts program in political psychology prepares students for a variety of careers in politics and related fields. An understanding of how voters make decisions and behave is crucial for jobs in political campaigns, grassroots organizations and political party organizations. The communication skills developed in this program could lead to careers in political marketing or political advertising. Graduates are also prepared for a variety of jobs in local, state or federal government.

Career examples include:

- campaign manager
- campaign strategist
- community organizer
- fundraising consultant
- issue advocacy consultant
- legislative aide
- lobbyist
- media strategist
- political analyst
- political marketing manager

Political Science, MA (LAPOLSCMA)

Online Degree Search Title: Political Science, MA

Campus: Tempe

Please note that the GRE requirement is being waived for fall 2023 admissions.

Program Description:

The MA program in political science offers a variety of areas of specialization within and between the four main subfields of political science -- American politics, comparative politics, international relations, and political theory -- with particular strengths in ethno-religious dynamics, women and politics, political violence, human rights, political psychology, political economy, and Latina/o politics.*

Faculty are also active in collaborative interdisciplinary research at ASU and with scholars at other universities; many have won major grants and awards. The school is host to the Center on the Future of War, the Center for Latina/os and American Politics Research and an experimental lab. Faculty are also affiliated with other centers at ASU, such as the Leadership, Diplomacy and National Security Lab, the Center for the Study of Religion and Conflict, the Melikian Center for Russian, Eurasian, and East European Studies, as well as the Center for the Study of Economic Liberty.

This Master of Arts program may be taken as a terminal program or as a step toward eventual fulfillment of the requirements for the doctorate. Students who plan to obtain the doctorate at ASU should apply directly to the doctoral program.

*Students interested in a political theory specialization should consult with the academic unit prior to application prior to application.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Global Studies, BA
Political Science, BS

Political Science, BA
Politics and the Economy, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis.

Required Core Course (3 credit hours)

POS 503 Empirical Political Inquiry (3)

Other Requirements (6 credit hours)

focus area course (3)

POS 603 Polimetrics I or second focus area course for political theory (3)

Electives (15 - 21 credit hours)

Culminating Experience (0 - 6 credit hours)

POS 599 Thesis (6) or

portfolio (0)

Additional Curriculum Information:

Students selecting the thesis option must submit a written thesis and hold an oral defense. Students selecting the portfolio option must submit a written paper and hold an oral defense.

The course POS 603 Polimetrics I may be substituted with permission of both the director of Graduate studies and the faculty advisor. Students in the political theory focus area take a second focus area course instead of POS 603.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- GRE scores
- three letters of recommendation
- list of political science courses taken
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

To assist in evaluating all candidates, the applicant should list titles and related information for all previous undergraduate and graduate courses or coursework in political science or related fields. The file must be saved in a .pdf, .doc, .rtf or .txt format and uploaded with the online graduate admission application. The information should be in a table with the following column headings: Course Title, Undergrad Credit Hours, Graduate Credit Hours, Grade, Institution, Year.

Undergraduate coursework in political science is not a prerequisite for admission. However, master's degree students should have a basic understanding of elementary statistics and the undergraduate content of the political science fields of concentration that they wish to study. Students should allow sufficient time to acquire such a background.

Career Opportunities:

This program provides advanced education for students preparing for research or applied careers in political science in government, nonprofits and

the private sector.

Career examples include:

- campaign consultant
- campaign strategist
- data analyst
- lobbyist
- research specialist

Political Science, PHD (LAPOLSCPHD)

Online Degree Search Title: Political Science, PhD

Campus: Tempe

Please note that the GRE requirement is being waived for fall 2023 admissions.

Program Description:

The PhD program in political science is intended to develop scholars who demonstrate a high level of excellence in teaching and research as professional political scientists. It offers a variety of areas of specialization within and between the four main subfields of political science: American politics, comparative politics, international relations and political theory. Students interested in a political theory specialization should consult with the academic unit prior to application.

Program faculty have particular strengths in Latino and Latina politics, women and politics, ethno-religious dynamics, political violence, human rights, political psychology and political economy.

The school is host to the the Center for Latinos and American Politics Research, the Center on the Future of War, and an experimental lab. Faculty are also affiliated with other centers at ASU, such as the Leadership, Diplomacy and National Security Lab; the Center for the Study of Religion and Conflict; the Melikian Center for Russian, Eurasian and East European Studies; as well as the Center for the Study of Economic Liberty. Many faculty members are active in collaborative interdisciplinary research at ASU and with scholars at other universities, and they have won major grants and awards, as have the school's doctoral students.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

POS 503 Empirical Political Inquiry (3)

Electives and Research (39 credit hours)

Culminating Experience (12 credit hours)

POS 799 Dissertation (12)

Additional Curriculum Information

A maximum of 12 credit hours of approved coursework outside the department but within ASU may count toward the required 84 credit hours.

Coursework beyond the 12 credit hour maximum may be taken outside the department with permission of both the director of Graduate Studies and the faculty advisor.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework is made up of electives to reach the required 84 credit hours.

Also required is a formal oral defense of the dissertation and a written comprehensive examination in the major field.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- GRE scores
- three letters of recommendation
- list of political science courses taken
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

To assist in evaluating all candidates, the applicant should list titles and related information for all previous undergraduate and graduate courses or coursework in political science or related fields. The file must be saved in a .pdf, .doc, .rtf or .txt format and uploaded with the online graduate admission application. The information should be in a table with the following column headings: Course Title, Undergrad Credit Hours, Graduate Credit Hours, Grade, Institution, Year.

Undergraduate coursework in political science is not a prerequisite for admission. However, applicants to the doctoral program should have a basic understanding of elementary statistics and the undergraduate content of the political science fields of specialization that they wish to study. Students without this background should allow sufficient time to acquire it.

Career Opportunities:

Program graduates have a strong track record of obtaining positions in academic, public and private sectors. The program works closely with students so they have the opportunity and tools needed to achieve their career goals. The doctoral program provides advanced education for students preparing for teaching, research or applied careers in political science in government, nonprofits and the private sector.

Career examples include:

- campaign consultant
- campaign strategist
- data analyst
- lobbyist
- research specialist
- tenure-track or instructional faculty in political science

Psychology, PHD (LAPSYCHPHD)

Online Degree Search Title: Psychology, PhD

Campus: Tempe

Program Description:

The Department of Psychology offers PhD programs designed to provide outstanding training in innovative research, methodology and the application of psychological principles to a wide variety of human conditions.

The department is organized into six major areas of interest. The quantitative research methods area is a formalized concentration separate from the other training areas; it requires application directly to that program

(<https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/LAPSYQUPHD/graduate/false>
(<https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/LAPSYQUPHD/graduate/false>)).

- behavioral neuroscience and comparative psychology
- clinical psychology
- cognitive science
- developmental psychology
- quantitative research methods
- social psychology

Students pursue their graduate studies within one of these six areas, and each area determines the basic curriculum for their graduate program. There is, however, substantial opportunity to integrate courses of study across areas in the department.

Further specialized emphases are available that integrate across programs in the university.

At the core of doctoral training in psychology is an emphasis on the development of skill in research and quantitative methods. Faculty in all six areas are actively engaged in major research programs. These theoretically grounded research programs address the breadth of psychological processes, including evolution and behavior; cognitive processes (e.g., attention, language, memory) as they occur within the context of perception and action, personality and issues of stigma and prejudice; individual resilience; cultural influences on psychological processes; neurobiological and psychosocial processes that underlie behavior and health (e.g., drug abuse, stress, heart disease); prevention of child mental health problems; and lifespan developmental aspects of emotion and cognition.

A unique strength of the Department of Psychology is the wealth of outstanding faculty members whose specialization is quantitative methods. A breadth of courses and experiences in quantitative methods are available that are well integrated into the areas of research that characterize the department and offer students the distinctive opportunity to develop expertise in this critical domain.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 or 4 credit hours)

PSY 502 Professional Issues in Psychology (3) or

PSY 531 Multiple Regression in Psychological Research (4)

Electives and Research (68 or 69 credit hours)

Culminating Experience (12 credit hours)

PSY 799 Dissertation (12)

Additional Curriculum Information

In addition to required coursework pertaining to the training area, students take courses related to their area of interest as determined in consultation with their supervisory committees. Requirements vary across training areas.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in psychology or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- SlideRoom application and fee
- statement of purpose form
- curriculum vitae or resume
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

To apply to the doctoral programs, applicants must follow the instructions on the doctoral program admissions instructions and checklist. It is strongly recommended that applicants download and print this form to ensure completion of the application process and include all of the required supplemental forms.

The Department of Psychology application process is completed online through ASU's Graduate Admission Services which includes the application form and official transcripts. Application to Department of Psychology doctoral programs is also completed via SlideRoom to process supplemental application materials. The SlideRoom account requires an additional fee.

Applicants must submit three academic letters of recommendation from faculty members who know the student well. Three letters are required but four letters of recommendation may be submitted.

Career Opportunities:

Professionals with expertise in research and applications of psychological science are in high demand across multiple career sectors including academia, education, industry, health care, mental health care, government and community organizations. Skills in measurement, research design and analysis of data across areas of psychological science are important in all of these career sectors as are skills in mental health assessment, prevention, treatment and program evaluation.

Career options include:

- clinical professor
- consultant
- data scientist-biostatistician
- evaluation program specialist
- licensed clinical psychologist
- research associate
- research professor
- senior analyst
- staff psychologist
- teaching faculty

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Psychology (Quantitative Research Methods), PHD (LAPSYQUPHD)

Online Degree Search Title: Psychology (Quantitative Research Methods), PhD

Campus: Tempe

Program Description:

The quantitative research methods concentration of the PhD program in psychology focuses on the broad class of quantitative and methodological issues that arise in the conduct of both basic and applied psychological research.

There are six core faculty members in the quantitative concentration who, in addition to their quantitative research, collaborate with colleagues in substantive research areas. These collaborations help to support the training of students in quantitative methods against a backdrop of methodological issues associated with the substance of psychological science.

The quantitative concentration program is committed to training the next generation of psychological methodologists who make contributions in developing methods in the areas of measurement, study design and analysis, modeling, and evaluating the utility of new and existing methods in psychological research.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 or 4 credit hours)

PSY 502 Professional Issues in Psychology (3) or

PSY 531 Multiple Regression in Psychological Research (4)

Concentration (3 credit hours)

PSY 533 Structural Equation Modeling (3)

Other Requirements (31 credit hours)

PSY 530 Intermediate Statistics (4)

PSY 532 Analysis of Multivariate Data (3)

PSY 534 Psychometric Methods (3)

PSY 536 Statistical Methods in Prevention Research (3)

PSY 537 Longitudinal Growth Modeling (3)

PSY 538 Advanced Structural Equation Modeling (3)

PSY 539 Multilevel Models for Psychological Research (3)

PSY 540 Missing Data Analysis (3)

PSY 543 Statistical Mediation Analysis (3)

PSY 555 Experimental and Quasi-Experimental Designs for Research (3)

Electives (22 or 23 credit hours)

Research (12 credit hours)

Culminating Experience (12 credit hours)

PSY 799 Dissertation (12)

Additional Curriculum Information

Electives are determined in consultation with the student's supervisory committee.

Other requirements courses may be substituted for other courses based on consultation with the student's supervisory committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- SlideRoom application and fee
- statement of purpose form
- curriculum vitae or resume
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

To apply to the doctoral program, applicants must follow the instructions on the Doctoral Program Admissions Instructions and Checklist. It is strongly recommended that applicants download and print the Doctoral Program Admissions Instructions and Checklist to ensure completion of the application process and include all of the required supplemental forms.

The Department of Psychology application process is completed online through ASU's Graduate Admission Services which includes the application form and official transcripts. Application to the Department of Psychology doctoral programs is also completed via SlideRoom to process

supplemental application materials. The SlideRoom account requires an additional fee.

Applicants must submit three academic letters of recommendation from faculty members who know the student well. Three letters are required but four letters of recommendation may be submitted.

Career Opportunities:

Quantitative psychologists have expertise in both developing and applying sophisticated statistical and methodological solutions to issues that arise in research. Although students' home department is psychology, the skills developed during the doctoral training span an incredible array of applications, including areas like education, health, neuroscience and marketing.

Graduates from the ASU program are especially prized for their ability to work in interdisciplinary teams and to communicate complex concepts clearly.

Career examples include:

- consultant
- data scientist
- policy analyst
- psychology professor
- psychometrician
- research scientist

Religious Studies, MA (LARELIGMA)

Online Degree Search Title: Religious Studies, MA

Campus: Tempe

Program Description:

The faculty in religious studies offer a graduate program leading to the MA in religious studies.

Candidates are offered an opportunity to develop knowledge of various religious traditions in their historical and cultural contexts and to learn research methods. Although students often concentrate upon a single religious tradition for their thesis work, the program provides a broadly comparative understanding of religions, not simply a specialist's training in a single tradition.

Degree Requirements:

30 credit hours including the required applied project course (REL 593) and a foreign language exam, or 30 credit hours, a thesis and a foreign language exam.

Required Core (6 credit hours)

REL 501 The Study of Religion I: Genealogies, Disciplines and Power (3)

REL 502 The Study of Religion II: Epistemology, Practice and Mediation(3)

Electives or Research (18-21 credit hours)

Culminating Experience (3-6 credit hours)

REL 599 Thesis (6) or

REL 593 Applied Project (3)

Additional Curriculum Information

There are two options for the culminating experience: a thesis or an applied project. An oral defense of the final written work is required for both options.

The thesis option is recommended for students intending to seek admission to a doctoral program upon completion of the master's degree or for students who plan to teach in the discipline at community colleges. Thesis students must have reading knowledge of all languages relevant to the

proposed thesis topic and take 18 credit hours of electives or research coursework.

The applied project option is recommended for students intending to augment their primary area of expertise and professional training in fields such as counseling, journalism, K-12 education, law, social work and the ministry. The applied project requires submission of three publishable papers: one on theory and method, one on the student's minor area of study, and one on the major area of study. The student's chosen areas of study determine the coursework taken as electives, with applied project students taking 21 credit hours of electives coursework, four courses being in a major area of study and two courses being in a minor area. Reading knowledge of a foreign language relevant to the proposed area of study is required.

The student's plan of study may include up to six credit hours of 400-level coursework or one REL 690: Reading and Conference course with department approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Transcripts must show evidence of having completed the equivalent of 15 credit hours of undergraduate work in the study of religions, including advanced courses in both western and Asian or other nonwestern religions. Applicants who have not met this requirement may be required to take additional coursework beyond program requirements to remedy this deficiency.

Applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program. The most competitive applicants have a GPA of 3.50 or higher.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
 - curriculum vitae
 - writing sample
- contact information for three references
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students are required to submit contact information for three academic references who are qualified to provide detailed, accurate evaluations of the applicant's potential as a graduate student in religious studies. Professors are preferred, particularly faculty advisors. Recommenders are contacted by the Graduate College with a request to complete a reference questionnaire.

The statement of purpose should be approximately 1,000 words and should outline the applicant's academic background, career goals and specific areas of interest in religious studies.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Critique and evaluate classical and contemporary theoretical approaches through the examination and evaluation of supporting literature and data in the academic study of religion
- Develop important research questions through critical analysis of primary and secondary sources
- Engage in original research leading to understanding and explaining developments in religion and their broader impact and to present their findings in a clearly written Prospectus Proposal and Defense.

Career Opportunities:

The Master of Arts program in religious studies provides students with training and knowledge relevant to careers in government, nongovernmental organizations, nonprofit organizations, global relationships, intercultural understanding, foreign service, researchers, professional writing, community college teaching, journalism and publishing.

Career examples include:

- book editor
- community college instructor

- foreign service employee
- global affairs writer
- nongovernmental organization professional
- nonprofit management

Religious Studies, PHD (LARELIGPHD)

Online Degree Search Title: Religious Studies, PhD

Campus: Tempe

Program Description:

The academic study of religion is a central component of the humanities and has become increasingly recognized as a critical tool in understanding society and politics in a globalized world.

The PhD program in religious studies is designed for graduate students who would benefit from greater expertise regarding the nature and role of religion around the world. The program provides supplementary training that includes history, anthropology, political science, journalism, secondary education and justice studies.

Doctoral tracks in the study of religion approach the study in a variety of contexts. Specifically offered are tracks in:

- anthropology of religion
- global Christianity
- Islam in global contexts
- religion in Asia
- religion in the Americas

Degree Requirements:

84 credit hours, foreign language exams, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

REL 501 The Study of Religion I: Genealogies, Disciplines and Power (3)

REL 502 The Study of Religion II: Epistemology, Practice and Mediation (3)

Other Requirement (3 credit hours)

REL 700 Research Methods: Introduction to College Teaching (3)

Electives (51 credit hours)

Research (12 credit hours)

REL 792 Research (12)

Culminating Experience (12 credit hours)

REL 799 Dissertation (12)

Additional Curriculum Information

Students must choose one of the five focus areas that are listed in the program description, and they select courses for the focus area as part of their electives in consultation with their supervisory committee.

As part of electives, students may include up to three credit hours of REL 690 Reading and Conference. Additionally, students may select up to six credit hours of graduate-level courses from a related discipline that support the student's research.

Other requirement course REL 700 may be substituted with approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program may allow up to 30 credit hours from a previously

awarded master's degree to be used for this program. If students do not have a previously awarded master's degree, the remaining coursework will be made up of electives and research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Transcripts must show evidence of having completed the equivalent of 15 credit hours of undergraduate work in the study of religions, including advanced courses in both western and Asian or other nonwestern religions. Applicants who have not met this requirement may be required to take additional coursework beyond program requirements to remedy this deficiency.

Applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in an applicable master's degree program. The most competitive applicants have a GPA of 3.50 or higher.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- curriculum vitae
- writing sample
- contact information for three references
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. The Graduate College requires a minimum TOEFL score of 550 (PBT) or 80 (iBT).

The statement of purpose should be approximately 1,000 words describing the applicant's academic background, the reasons for wishing to pursue a doctorate in religious studies, the proposed area of specialization, and specific research topics the student plans to engage in at Arizona State University.

The writing sample should be a work of original scholarly writing, approximately 15 to 30 pages in length. It should represent the student's best academic writing.

Students are required to submit contact information for three academic references who are qualified to provide detailed, accurate evaluations of the applicant's potential as a graduate student in religious studies. Professors, particularly faculty advisors, are preferred. Recommenders are contacted by the Graduate College with a request to complete a reference questionnaire. Letters of recommendation can be submitted in addition to answering these questions online.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze and present theories and methods in the study of religion through in-class discussion, oral presentation, and submission of original written seminar paper
- Critically analyze religion(s) by formulating research questions, examining various kinds of qualitative data, and drawing connections to relevant secondary literatures
- Conduct original research through a doctoral study drawing connections to relevant secondary literature, collect and analyzes primary data, communicate, and defend responses to research questions.

Career Opportunities:

The doctoral program in religious studies provides students with training and knowledge relevant to careers in a variety of different roles and in a range of employment sectors. Some typical employers include government agencies, especially the U.S. Department of Health and Human Services; nongovernmental organizations; schools, colleges and universities; charities and nonprofit organizations; social services; and churches and other religious organizations.

Career examples include:

- book editor
- church administrator
- case management director

- foreign service employee
- global affairs writer
- nongovernmental organization professional
- nonprofit manager
- professional researcher and writer
- university instructor

Renaissance Studies (certificate), Certificate (LARENAISCE)

Online Degree Search Title: Renaissance Studies (Graduate Certificate)

Campus: Tempe

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Program Description:

In this Renaissance studies certificate program, Renaissance language, early modern language and paleography lay the foundation for the examination of a time that gave the world humanism, the statue of David and more.

Degree Requirements:

18 credit hours (MA certificate), or 27 credit hours (PhD certificate).

Renaissance Language:

Master's degree students are required to take one semester of a Renaissance language (three to four credit hours). Doctoral degree students of Medieval/Renaissance Latin, Spanish literature or Portuguese literature are required to take two semesters (six to eight credit hours). This requirement presupposes two years or 12 to 16 credit hours or the equivalent of undergraduate training in Latin.

Proficiency is proven either by achieving a grade of "B" or better (3.00 on a 4.00 scale) in the medieval Latin courses or by satisfactory performance on the Medieval/Renaissance Latin examinations offered by the Centre for Medieval Studies, University of Toronto.

Early modern language at the upper-division level:

Master's degree students are required to take two semesters (six credit hours). Doctoral degree students are required to take three semesters (nine credit hours). Literature or linguistics classes may apply.

Paleography:

Students are required to take one semester (three credit hours).

Coursework outside the major discipline:

Master's degree students are required to take two semesters (six credit hours). Doctoral degree students are required to take three semesters (nine credit hours).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Admission is open to all ASU graduate students enrolled in an existing master's degree or doctoral program and in good standing.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Career Opportunities:

Students completing the certificate program are prepared for advanced study or for academic positions.

Scientific Teaching in Higher Education (certificate), Certificate (LASTHEGRCT)

Online Degree Search Title: Scientific Teaching in Higher Education Certificate (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate program in scientific teaching in higher education provides graduate students with the skills and knowledge needed to implement and evaluate evidence-based teaching at the college level.

As part of the program, students gain experience teaching science in a higher education setting, take teaching-related coursework, and complete a culminating experience under the guidance of a scientific teaching faculty mentor. This culminating experience can be either a significant teaching experience, including the use of evidence-based teaching, or discipline-based education research focused on undergraduate science education.

Degree Requirements:

15 credit hours including an applied project course (BIO 593).

Required Core (2 credit hours)
BIO 530 Scientific Teaching (2)

Electives (10 credit hours)

Culminating Experience (3 credit hours)
BIO 593 Applied Project (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admissions application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Career Opportunities:

Professionals with expertise in scientific teaching are in high demand in academia and educational institutions. The skills and knowledge obtained in this program are also valuable for careers in federal and state agencies responsible for educational policy, in industry and in nongovernmental organizations.

Career examples include:

- educators in nonprofit organizations and government agencies
- professors or instructors in universities and colleges
- science teachers in elementary and high schools

Sexuality Studies (Certificate), Certificate (LASXSGRCT)

Online Degree Search Title: Sexuality Studies (Graduate Certificate)

Campus: Downtown Phoenix, Tempe, West

Program Description:

The graduate certificate program in sexuality studies addresses the social construction and political economy of sexualities, sexual identities and cultures. This program interrogates heterosexuality and institutionalized heteronormativity and addresses lesbian, gay, bisexual, transgender, queer and two-spirit identities and expressions as well as nonnormative sexual identities that are not captured by LGBTQ categories.

This program allows students the flexibility to work with courses in sexuality studies offered across disciplines and units at ASU. Students gain theoretical and analytic tools to examine gendered and racialized sexual structural inequities and how social issues, economic inequalities and state institutions impact and are impacted by sexuality as a social norm. In addition, coursework allows students to further investigate sexualities in relation to sexual stratification, reproductive rights and justice, sexual health and justice, carceral genders and sexualities, sex work, the state and legal system, and transnational and diasporic formations. The certificate integrates disciplinary, multidisciplinary and interdisciplinary perspectives.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

SST 604 Sexuality Studies (3)

Electives (12 credit hours)

Additional Curriculum Information

For elective coursework, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a statement of purpose for pursuing the certificate
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The certificate is only open to current ASU degree-seeking students. However, with academic unit and Graduate College approval, up to nine credit hours of ASU nondegree credit may be transferred into the certificate program for those who eventually gain admission into an ASU graduate degree program. This is administered by the graduate certificate committee. Students should refer to the Graduate College policy on certificate programs.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze how sexuality has been conceptualized and understood as an interdisciplinary category of analysis across the humanities, social sciences, and/or behavioral sciences.
- Articulate key theories that have contributed to the development of sexuality studies and their significance.

Career Opportunities:

Graduates of the program have gone on to careers at universities, research and policy institutes, government organizations and nonprofit organizations.

Social and Cultural Pedagogy, MA (LASCPMA)

Online Degree Search Title: Social and Cultural Pedagogy, MA

Campus: Tempe

Program Description:

The MA in social and cultural pedagogy is a two-year program designed for educators with professional experience who seek to develop real-world skills and practical knowledge to help them accomplish specific career goals.

After being equipped with philosophical, theoretical and practical knowledge on social pedagogy, students are able to analyze social structures and cultural dynamics, and work with communities to address complex societal problems through the design, implementation and evaluation of socio-educational strategies.

Students have the opportunity to create an individualized path of study that accommodates their personal interests and career goals. Students can also join a vibrant university club (Social and Cultural Pedagogy Graduate Organization), a national organization of scholars and practitioners (Social Pedagogy Association) and an international organization (Global Alliance for Social Pedagogy and Social Education).

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Asian Pacific American Studies, BA
- Justice Studies, BS
- Justice Studies, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (SST 593).

Required Core (9 credit hours)

JUS 500 Research Methods (3)

SST 501 Foundations of Social Transformation (3)

SST 510 Social and Cultural Pedagogy: Theoretical and Practical Issues (3)

Electives (15 or 18 credit hours)

Culminating Experience (3 or 6 credit hours)

SST 593 Applied Project (3) or

SST 599 Thesis (6)

Additional Curriculum Information

Students who elect to complete the applied project option must take 18 credit hours of elective coursework to reach the required 30 credit hours for the program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution recognized by ASU.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor' degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. TOEFL scores are required for applicants whose native language is not English.

Applicants should supply a two- to three-page application letter (writing sample) in which they explain why they want to study in this program and why they feel well prepared to succeed in this graduate program.

The resume should describe prior educational history, related work or volunteer experiences.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate an understanding of key theories and concepts in the field of Social and Cultural Pedagogy in both their written and oral presentation work.
- Demonstrate the ability to interpret and conduct quantitative and qualitative research.
- Demonstrate knowledge of social transformation and social change through an interdisciplinary lens and use an interdisciplinary/multidisciplinary approach to address social/cultural pedagogy issues and solutions in their projects.

Career Opportunities:

This master's degree enables graduates to create a better future via traditional, nontraditional and nonformal educational settings, including early childhood education programs, schools, youth programs, local governments, nongovernmental organizations, museums, nonprofits, intercultural programs, co-operatives, citizenship education, human rights programs, anti-poverty programs, community development programs, literacy programs, community centers and social movements.

Social Science Research Methods (Certificate), Certificate (LASSRMGRCT)

Online Degree Search Title: Social Science Research Methods (Graduate Certificate)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:

Many of the biggest problems today --- from tracking the outbreak of diseases to managing scarce water resources to understanding the impact of new technologies --- require collaboration across the medical sciences, the physical and biological sciences, the social sciences and engineering. ASU's emphasis on collaborative work across disciplines is crucial for understanding these complex problems and to develop solutions.

The interdisciplinary graduate certificate program in social science research methods prepares students to acquire, manage and analyze a broad range of data on human thought and human behavior. Data can be qualitative (e.g., text, images or sound) or quantitative (e.g., direct observation, surveys or geospatial). Data acquisition skills may include the downloading and managing of information from online sources or the primary collection of data in surveys or in direct observation. A key feature of this program is a focus on data analysis, so students and professionals will be able to analyze and interpret any data that they can collect. All students in this program demonstrate skills in statistical analysis as well as a selection of methods related to their interests.

This program is designed for applicants who hold a minimum of a bachelor's degree from regional, national or internationally accredited institutions, and in any field or discipline (e.g., anthropology, sociology, human development, sustainability, geography, political science or other fields with approval of the academic unit).

Degree Requirements:

18 credit hours including an applied project course (GCU 593).

Required Core (3 or 4 credit hours)

FAS 508 Structural Equation Analysis for the Social Sciences (3) or
SOC 508 Structural Equation Analysis for the Social Sciences (3) or
STP 533 Applied Multivariate Analysis (3) or
STP 530 Applied Regressions Analysis (3) or
STP 531 Applied Analysis of Variance (3) or
PSY 531 Multiple Regression in Psychological Research (4)

Electives or Research (11 or 12 credit hours)

Culminating Experience (3 credit hours)

GCU 593 Applied Project (3)

Additional Curriculum Information

Students select one of the multivariate data analysis core courses for a total of three or four credit hours.

Students select four elective and research methods courses for a total of 11 or 12 credit hours in consultation with the program directors. The program recognizes that other graduate-level courses on research methods are offered at ASU. Advanced courses on methods are often taught in omnibus courses, courses that have rotating content and whose content is not reflected in their titles. Students may include these courses in their certificate curriculum with approval of the program directors.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in a field such as human development, sustainability, geography or political science. Other subject areas may be accepted with approval from the academic unit.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must have completed an introductory statistics course before admission to the program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of interest
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Examples of introductory statistics courses include:

CRJ 504 Statistical Tools for Criminology and Criminal Justice

NUR 617 Foundational Concepts in Science and Statistics

POS 603 Polimetrics I

STP 530 Applied Regression Analysis

or equivalent with approval of the academic unit

A statement of interest should include how the certificate program will enhance the applicant's graduate studies or professional work.

Career Opportunities:

Professionals with expertise in social science research are in high demand across sectors and industries, including consulting firms, government agencies and community organizations. Skills in data acquisition, management and analysis are valuable to businesses and institutions relying on data-driven strategies in an interdisciplinary and collaborative marketplace.

Career examples include:

- data analyst
- economist
- field researcher
- human behavior researcher
- social science research assistant
- statistician

Social Transformation Certificate, Certificate (LASOTGRCT)

Online Degree Search Title: Social Transformation (Graduate Certificate)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:

The graduate certificate program in social transformation is designed for graduate and postbaccalaureate students interested in how change is catalyzed by social movements, protest, law, social entrepreneurship, activism and community organizing. Through the exploration of theories and research related to social change, students are able to augment their disciplinary degrees and are prepared to contribute as leaders and change-makers in their communities.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

SST 501 Foundations of Social Transformation (3)

Electives (12 credit hours)

Additional Curriculum Information

The electives taken are selected with the faculty advisor. The faculty advisor helps to directionalize the electives to ensure they have a common theme. This helps to ensure students' experiences in the courses align with the learning goals outlined for the certificate.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Students must submit a statement of purpose to the School of Social Transformation that is no longer than 250 words. The statement should indicate any demonstrated interest in the study of social transformation (e.g., previous coursework, professional experience, internships, career plans).

Applicants must meet the above criteria as judged by the School of Social Transformation graduate committee to have strong academic credentials, undergraduate or graduate GPA, as well as demonstrated interest in the area of social transformation. The committee reviews applications for the certificate program in the fall and spring semesters of each year and makes its admission recommendations to Graduate Admission Services.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Demonstrate knowledge of social theory, concepts and research methods to understand social change issues and analyze solutions to social problems.
- Apply the foundations and principles of social change theory and research to specific domestic or international issues through advanced research.

Career Opportunities:

Certificate graduates may go on to law school, graduate school or other professional degree programs. Potential career options include working as community organizers, youth and community advocates, community-based researchers and social justice consultants.

Socio-Economic Justice (certificate), Certificate (LAECJUGRCT)

Online Degree Search Title: Socio-Economic Justice (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate in socioeconomic justice addresses the social and political implications of global and local economies for economic inequality and social justice. This transdisciplinary program fuses interests in political economy, socioeconomic inequality and analysis of related

policies and their consequences for social welfare in areas of income, housing, employment and education.

This program complements the current graduate curriculum at ASU and is structured to allow students to draw upon a combination of core courses in justice and social inquiry and coursework from units from throughout the university. The approach is transdisciplinary (i.e., inclusive of courses in a variety of disciplines but transcending disciplinary boundaries through an integrative core curriculum), intersectional (i.e., considering gender, race, class, nation and sexual relations) and transnational (courses that examine global and local concerns). It strengthens student understanding of the justice implications of the convergence of social and economic inequalities in the global economy.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

Students must select one course from each of the following two areas of study:

Economic Justice (3 credit hours)

JUS 550 Gender, Race and Economic Justice (3) or

JUS 660 Globalization and Economic Justice (3) Conducting Research in Communities (3 credit hours)

JHR 525 Action Research in Social Justice and Human Rights (3) or

JUS 633 Community Research (3)

Electives (9 credit hours)

Additional Curriculum Information

Students must select three elective courses on socioeconomic justice from a restricted list, and they should see the academic unit for the full list of possible courses.

Only one 400-level course may be listed on the plan of study. Students must have prior approval from the director of the certificate program for use of any 400-level course.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- at least one letter of recommendation
- statement of purpose for pursuing the certificate
- writing sample demonstrating excellent writing and analytical skills
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The letter of recommendation, statement of purpose and writing sample should be submitted to the justice and social inquiry program office.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Conduct systematic analyses (quantitative and qualitative) of the social and political dimensions of global and/or local economics and their implications for social justice.
- Demonstrate knowledge of socio-economic and intersectional dimensions of justice, in relation to public policies at the local, national and global level.

Career Opportunities:

Graduates of this program are prepared to work in justice-related organizations, work in community colleges, pursue graduate programs and research in the justice field.

Sociology, MA (LASOCMA)

Online Degree Search Title: Sociology, MA

Campus: Online

Program Description:

The MA program in sociology provides advanced training for those preparing for applied careers in sociology. Students gain knowledge and skills that can be used to promote healthy individuals and families. They develop an understanding of how social context influences well-being and an understanding of the factors that promote successful relationships and positive outcomes.

The online format provides easy access to rigorous and valuable information that informs best practices in improving the lives of individuals, families and communities. The program also includes a customizable culminating experience that allows students to focus their training in their areas of interest and work.

Degree Requirements:

30 credit hours and the required capstone course (SOC 588).

Required Core (9 credit hours)

SOC 585 Sociological Theory (3)

SOC 586 Capstone I or FAS 586 Capstone I (3)

SOC 587 Capstone II or FAS 587 Capstone II (3)

Electives (12 credit hours)

Other Requirements (6 credit hours)

SOC 500 Research Methods (3)

SOC 501 Social Statistics (3)

Culminating Experience (3 credit hours)

SOC 588 Capstone III (3)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives.

SOC 500 and SOC 501 may be replaced by equivalent courses with approval by the academic advisor.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate coursework
- current resume or curriculum vitae

- a personal statement of goals relevant to the master's degree program
- two letters of recommendation from academic or professional backgrounds
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency; required is a TOEFL score of at least 600.

The personal statement must be four to five pages long, double-spaced, and it should address the applicant's professional goals, applicant's strengths for success in the program, and any relevant professional experience or responsibilities that have been completed.

Letters of recommendation must be from at least two individuals with a professional or academic background and connection to the applicant. Family members and friends do not meet this criterion. Letters of recommendation will be received electronically.

Applicants should see the program website for application deadlines and admission terms.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-arts-sociology/>)

Career Opportunities:

Professionals with expertise in research methodologies and data analysis coupled with an understanding of social and cultural issues and social change are sought after in areas like human services, human resources, education, public policy and community service in the social service, business and nonprofit sectors.

Career examples include:

- case managers
- mediators
- mental health counselors
- probation officers
- social and community service managers
- sociologists
- sociology instructors
- social workers
- urban and regional planners

Sociology, PHD (LASOCPHD)

Online Degree Search Title: Sociology, PhD

Campus: Tempe

Program Description:

The PhD program in sociology provides advanced training in theory, research methodology and substantive fields to prepare sociologists for teaching and research with special emphasis on family, medical sociology and demography.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

SOC 603 Perspectives in Sociological Inquiry (3)

SOC 685 Applied Social Theory (3)

Theory (3 credit hours)

Methods (3 credit hours)

Statistics (3 credit hours)

Elective and Research (27 credit hours)

Culminating Experience (12 credit hours)

SOC 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, 30 credit hours from a previously awarded master's degree are allowed to be used toward this degree.

A minimum of 30 credit hours of the approved doctoral program, exclusive of dissertation and research hours, must be completed after admission to the program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a master's degree in sociology or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- current resume or curriculum vitae
- personal statement detailing professional goals and research experiences
- writing sample
- GRE scores (verbal, quantitative and writing)
- three letters of appraisal from persons familiar with the applicant's academic background
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

A personal statement is required. It must be three pages or less, double-spaced, and address the applicant's professional goals and reasons for desiring to enroll in the program, describe strengths that will help the student succeed in the program and reach professional goals, describe research experience (include a description of master's thesis if applicable) and relevant responsibilities held, indicate personal research interests as specifically as possible, and include any additional information that will help the committee to evaluate the application.

Three letters of recommendation are required, including at least one from an instructor at the applicant's institution where graduate work was completed and at least one from an instructor at the applicant's institution where undergraduate or graduate work was completed. These letters should be from people who know the applicant as a student or in a professional capacity. Letters from family members or friends do not meet this criterion.

Students should see the program website for application deadlines.

Career Opportunities:

Professionals with expertise in research methodologies and data analysis as well as an understanding of cultural and social change, various social issues and phenomena are sought after in many areas, including human services, business, education, public policy, and community service and nonprofit sectors.

Career examples include:

- demographers
- mediators
- research professionals
- social and community service managers
- sociologists

- sociology instructors
- urban and regional planners

Spanish, MA (LSPANMA)

Online Degree Search Title: Spanish, MA

Campus: Tempe

Program Description:

The MA program in Spanish includes tracks in literature and culture and in linguistics. While the former includes Spanish, Spanish American and Mexican American literature and culture, the latter includes sociolinguistics or second language acquisition and applied linguistics.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Spanish, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio.

Required Core (3 credit hours)

SPA 540 History of the Spanish Language (3)

Culminating Experience

portfolio

Additional Curriculum Information

Students seeking a master's degree in Spanish should consult with the respective graduate representative.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in Spanish from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume or curriculum vitae
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants should provide an academic writing sample such as an academic term paper, critical paper or research paper approximately 10 to 25 pages, prepared in an upper-division or graduate Spanish course.

Applicants should provide a personal statement that is no more than two pages, summarizing past educational experiences and goals in pursuing a graduate degree.

Career Opportunities:

Professionals with this degree can confidently move into further academic, business and international fields. Skills developed through this program are valued for teaching positions, including in museums and libraries; translation work; work in a larger sector such as governmental, diplomatic and international business; and for careers in publishing, media, nonprofits and international relations.

Career examples include:

- area, ethnic and cultural studies teachers and professors
- foreign language and literature teachers and professors
- historians
- interpreters and translators
- lawyers
- reporters and correspondents
- social and community service managers

Spanish, PHD (LASPANPHD)

Online Degree Search Title: Spanish, PhD

Campus: Tempe

Program Description:

The Spanish PhD program consists of two specializations in Spanish literature or culture and three tracks: early modern, Mexican-American studies and visual cultures.

The specializations in Spanish literature and cultural studies, which are intended to be as flexible as possible, establish broad areas of competence through an individualized program of study set with the supportive guidance of the student's advisor.

In addition, the track in literature consists of five courses that allow for a specialization in early modern, Mexican-American studies or visual cultures.

Graduate courses in literature and cultural studies focus on the production, distribution and reception of texts and their linguistics, either written or visual (e.g., photographs, films, visual narratives), their linguistic, rhetorical and literary structure and functions, with an emphasis on literary theories and aesthetics. Many literature courses explore issues relating to gender, class, race, ethnicity, globalization, environmental humanities, disability theories, post-human theories and digital humanities.

Degree Requirements:

84 credit hours, a foreign language exams, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

SPA 545 Concepts of Literary Criticism (3)

Literature and Culture Electives (51 credit hours)

Electives (6 credit hours)

Research (12 credit hours)

SPA 792 Research (12)

Culminating Experience (12 credit hours)
SPA 799 Dissertation (12)

Additional Curriculum Information

Coursework for the literature and culture electives must be SPA literature or culture content courses and approved by the student's supervisory committee. Students may not use SPA 596 Second Language Methodologies towards this requirement.

Each candidate is expected to demonstrate a reading knowledge of one language other than English and Spanish. This language requirement must be satisfied before the candidate is eligible to take the comprehensive examination.

The written and oral comprehensive examination, designed to ascertain the candidate's knowledge and orientation in the field of study and competency to proceed with the dissertation, is required at or near the end of coursework.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in Spanish or equivalent from a regionally accredited institution. Applicants from other academic backgrounds with relevant coursework in Spanish language and cultural studies also may be evaluated by the admissions committee.

Applicants must have a minimum cumulative GPA of 3.75 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.75 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- writing sample
- personal statement
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

It is recommended but not required that students applying for admission to the program submit GRE scores; this is especially advisable for applicants for the Spanish Graduate Fellowship Award.

Candidates for the program are required to demonstrate a near-native oral proficiency in Spanish and to show that they have developed a high order of expository prose in English and Spanish by presenting a term paper or a chapter of the master's degree thesis as their writing sample.

Career Opportunities:

Professionals with this degree can confidently move into the academic profession, careers in education, including in museums and libraries, and professions outside academia such as in the publishing industry, media, nonprofits and international relations. Skills developed through this program are valued for teaching positions, translation work or work in a larger sector such as governmental, diplomatic and international business career opportunities.

Career examples include:

- area, ethnic and cultural studies teachers and professors
- editors
- foreign language and literature teachers and professors
- instructional design coordinators
- interpreters and translators
- lawyers
- reporters and correspondents
- social and community service managers

Spanish Language Pedagogy (certificate), Certificate (LASPAPGRCT)

Online Degree Search Title: Spanish Language Pedagogy (Graduate Certificate)

Campus: Tempe

Program Description:

Through graduate coursework, the certificate program in Spanish language pedagogy enables practicing teachers and graduate students to understand the process of Spanish language acquisition and learn cutting-edge teaching methodologies to make sound pedagogical decisions that lead to effective teaching and learning.

Students gain competence in designing effective and engaging Spanish language lessons for their students and learn to be sensitive to the needs of students with diverse linguistic and cultural backgrounds, such as heritage learners. Students learn to design accurate assessment measurements, writing assignments and culture-based lessons as well as utilize modern technologies to enhance Spanish language education.

Degree Requirements:

18 credit hours and a portfolio.

Required Core (3 credit hours)

SPA 596 Second Language Methodologies (3)

Other Requirements (9 credit hours)

SPA 543 Structure of Spanish (3)

SPA 546 Heritage Language Pedagogy (3)

SPA 598 ST: Spanish Second Language Acquisition (3)

Electives (6 credit hours)

Culminating Experience (0 credit hours)

portfolio (0)

Additional Curriculum Information

For courses listed as other requirements, alternative courses may be used with approval of the certificate codirectors.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in Spanish, Spanish literature and culture, Spanish linguistics, applied linguistics, second language acquisition and teaching, or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. Spanish Linguistics, PHD (LASPALIPHD)

Online Degree Search Title: Spanish Linguistics, PhD

Campus: Tempe

Program Description:

The PhD program in Spanish linguistics offers advanced interdisciplinary graduate training that combines key areas in second language acquisition and teaching, applied linguistics, heritage language research and pedagogy, sociolinguistics and bilingualism with the supportive guidance of the student's advisor that best prepares the candidate for a productive career in the discipline of Hispanic studies.

Degree Requirements:

84 credit hours, a foreign language exam, a written comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

SPA 543 Structure of Spanish (3)

Track (9 credit hours)

Electives or Research (41 credit hours)

Other Requirements (19 credit hours)

COE 502 Introduction to Data Analysis (3)

GRD 791 Seminar: Preparing Future Faculty and Scholars (PFx) (1)

SPA 544 Spanish Phonology (3)

SPA 546 Heritage Language Pedagogy (3)

SPA 598 Topic: Research Methods for Linguists (3)

SPA 598 Topic: Sociolinguistics (3)

SPA 598 Topic: Spanish Second Language Acquisition (3)

Culminating Experience (12 credit hours)

SPA 799 Dissertation (12)

Additional Curriculum Information

Students choose a track from two available: in Spanish heritage studies and sociolinguistics, or in second language acquisition and teaching.

Students should see the academic unit for the approved course list for each track.

Each candidate is expected to demonstrate a reading knowledge of one language other than English and Spanish. This language requirement must

be satisfied before the candidate is eligible to take the comprehensive examination.

Other requirements courses may be substituted with approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used toward this degree. If students do not have a previously awarded master's degree, the 30 credit hours of coursework is made up of electives or research to reach the required 84 credit hours.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in Spanish or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.75 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.75 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- written statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Career Opportunities:

The doctoral program in Spanish linguistics prepares students for entrance into an academic profession (teacher, scholar) as well as for a profession outside of academia. Professionals with the valued skills developed through this degree program can confidently move into business, diplomatic, government and international fields.

Career examples include:

- editors
- foreign language and linguistics teachers and professors
- instructional design coordinators
- interpreters and translators
- lawyers
- reporters and correspondents
- social and community service managers
- teachers and professors of area, ethnic and cultural studies

Statistics, MS (GCSTATMS)

Online Degree Search Title: Statistics, MS

Campus: Tempe

Spring admission is limited to students in the 4+1 program.

Program Description:

The MS program in statistics draws upon a wide spectrum of faculty research and teaching interests, including from faculty outside of the school. As a result, plans of study can be transdisciplinary and tailored to reflect students' individual needs and goals.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Mathematics (Statistics), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio - Professional Track, or 30 credit hours including a thesis - Academic Track, or 30 credit hours including an applied project (STP 593) - Academic Track, or 30 credit hours, a written comprehensive exam and an oral comprehensive exam - Academic Track.

Required Core (3 credit hours)

ECN 525 Applied Regression Models (3) or

IEE 578 Regression Analysis (3) or

STP 530 Applied Regression Analysis (3)

Track Coursework (9 or 12 credit hours)

Electives (9-18 credit hours)

Culminating Experience (0-6 credit hours)

ECN 599 or IEE 599 or STP 599 Thesis (6)

STP 593 Applied Project (3)

oral and written comprehensive exam (0)

portfolio (0)

Additional Curriculum Information

Students in the Masters of Science program in statistics are required to select one of the two available tracks: the academic track or the professional track. Students should speak with their advisor in regards to the selection of a track and elective coursework based on the target career.

Students in the professional track complete the portfolio culminating experience and students in the academic track choose from an applied project, thesis or comprehensive exams.

Prerequisites may not be used to complete the 30 credit hours required for the degree.

If a student selects the thesis or applied project options, they must be defended at an oral examination. The thesis must conform to the Graduate College format requirements.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in mathematics, statistics or a closely related area from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of education and career goals
- three letters of recommendation
- proof of English proficiency

Additional Curriculum Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants should have completed the following courses (equivalents at ASU are given in parentheses) and applicants who lack any of these prerequisite courses must complete the prerequisites before being considered for admission:

- advanced calculus (MAT 371)
- calculus (MAT 270, MAT 271 and MAT 272)
- computer programming (CSE 100)
- introductory statistics (STP 420)
- linear algebra (MAT 342)

Career Opportunities:

Statistical analysis and data mining have been identified as two of the most desirable skills in today's job market.

Graduates with a master's degree in statistics can pursue a broad variety of careers in fields as diverse as business, finance, engineering, technology, education, marketing, government and other areas of the economy. These are just a few of the top career opportunities:

- actuary
- business consultant or analyst
- data scientist
- financial analyst
- market research analyst
- software engineer
- statistician

This program also provides preparation for students interested in doctoral study and a faculty-track academic career.

Statistics, PHD (LASTPPHD)

Online Degree Search Title: Statistics, PhD

Campus: Tempe

Program Description:

As a science, statistics focuses on data collection and data analysis by using theoretical, applied and computational tools. The PhD program in statistics reflects this breadth in tools and considerations while allowing students sufficient flexibility to tailor their program of study to reflect individual interests and goals. Research can be of a disciplinary or transdisciplinary nature.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

STP 526 Theory of Statistical Linear Models (3)

Other Requirements (15 credit hours)

IEE 572 Design Engineering Experiments (3) or STP 531 Applied Analysis of Variance (3)

IEE 578 Regression Analysis (3) or STP 530 Applied Regression Analysis (3)

STP 501 Theory of Statistics I: Distribution Theory 3 (3)

STP 502 Theory of Statistics II: Inference (3)

STP 527 Statistical Large Sample Theory (3)

Electives (42 credit hours)

Research (12 credit hours)

STP 792 Research (12)

Culminating Experience (12 credit hours)

STP 799 Dissertation (12)

Additional Curriculum Information

Electives are to be chosen from statistics or related area courses approved by the student's supervisory committee.

Other requirements courses may be substituted with department approval.

Students must pass:

- one qualifying examination and coursework in analysis
- a written comprehensive examination
- a dissertation prospectus defense

Students should see the department website for examination information.

Each student must write a dissertation and defend it orally in front of five dissertation committee members.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in mathematics, statistics or a closely related area, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of education and career goals
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Completion of the following courses (equivalents at ASU are given in parentheses) is required. Applicants who lack any of these prerequisite courses must complete the prerequisites before being considered for admission.

- calculus (MAT 270, 271 and 272)
- advanced calculus (MAT 371)
- linear algebra (MAT 342)
- computer programming (CSE 100)
- introductory applied statistics (STP 420)

Career Opportunities:

Statistical analysis and data mining have been identified as two of the most desirable skills in today's job market. Data and the analysis of data is big business, and the Department of Labor projects overall employment of mathematicians and statisticians is projected to grow 33% between 2020 and 2030, much faster than the average for all occupations. For graduates of the doctorate in statistics, that means a broad variety of career opportunities in fields as diverse as business, finance, engineering, technology, education, marketing, government and other areas of the economy.

These are just a few of the top career opportunities available for a graduate with a doctoral degree in statistics:

- actuary
- business consultant or analyst
- data science professor, instructor or researcher
- data scientist
- faculty-track academic
- financial analyst
- market research analyst
- software engineer
- statistician

Statistics and Data Science (certificate), Certificate (GCSTATCE)

Online Degree Search Title: Statistics and Data Science (Graduate Certificate)

Campus: Tempe

Program Description:

The statistics certificate program provides statistical training for graduate students at ASU and working professionals in the Phoenix metropolitan area.

The program draws upon a variety of faculty research and teaching interests from various academic units so programs of study can be tailored to reflect individual needs and goals. This certificate program is part of the shift in the School of Mathematical and Statistical Sciences' statistics curriculum to include data science coursework. In particular, there are several new machine learning classes that are available to certificate students.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

STP 530 Applied Regression Analysis (3) or ECN 525 Applied Regression Models (3) or IEE 578 Regression Analysis (3)

STP 531 Applied Analysis of Variance (3) or IEE 572 Design Engineering Experiments (3)

Electives (9 credit hours)

Additional Curriculum Information

The nine elective credits are taken from a set of courses approved by the School of Mathematical and Statistical Sciences.

Students must have a GPA of at least 3.00 (scale is 4.00 = "A") in the courses which apply to the certificate.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Applicants should have completed the following courses (equivalents at ASU are given in parentheses):

- introductory applied statistics (ECN 221, STP 226 or STP 420)
- one semester of calculus (MAT 210, MAT 265 or MAT 270)

Applicants are also required to have some computer literacy with knowledge of a programming language, a spreadsheet program or a statistical software program.

Career Opportunities:

Statistical analysis and data mining have been identified as two of the most desirable skills in today's job market.

Graduates have knowledge that may be applied in a broad variety of career opportunities in fields as diverse as business, finance, engineering, technology, education, marketing, government and other areas of the economy. These are just a few of the top career opportunities supported by the statistics certificate program:

- business consultant or analyst
- data analyst

Teaching English to Speakers of Other Languages, MTESOL (LAENGMTESL)

Online Degree Search Title: Teaching English to Speakers of Other Languages, MTESOL

Campus: Tempe, Online

Program Description:

The MTESOL program is for individuals who wish to build a career in the international field of teaching English as a second or additional language. Students develop scholarly and professional knowledge and skills in four main areas that are central to teaching English to speakers of other languages: language, learning, teaching and research.

Students have opportunities to study a variety of key topics, including second language acquisition, computer-assisted language learning, critical pedagogy, curriculum design, World Englishes, English as an international language, English for specific purposes, English grammar, grammar for TESOL, intercultural rhetoric, discourse analysis, interlanguage pragmatics, language and identity, language testing and assessment, learning transfer, materials development, nonnative English speakers in TESOL, second language phonology and second language writing.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

English (Linguistics), BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required capstone course (LIN 597) and a foreign language exam.

Required Core (12 credit hours)

LIN 501 Approaches to Research (3)

LIN 510 Linguistics (3)

LIN 520 Second-Language Acquisition Theories (3)

LIN 521 Methods of Teaching English as a Second Language (3)

Other Requirement (3 credit hours)

LIN 584 Internship (3)

Electives or Research (12 credit hours)

Culminating Experience (3 credit hours)

LIN 597 Capstone (3)

Additional Curriculum Information

The foreign language requirement must be completed during the program prior to the master's degree being awarded.

The capstone is overseen by a director chosen from the Department of English linguistics and TESOL faculty.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Applicants may have undergraduate majors in the following fields, but are not limited to these: anthropology, applied linguistics, cognitive science, communication, comparative languages and literatures, education, English literature, history and law.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should see the Department of English website for specific details about English proficiency requirements. <https://english.asu.edu/admission/graduate-admission/how-to-apply/information-international-students> (<https://english.asu.edu/admission/graduate-admission/how-to-apply/information-international-students>)

The one-page, single-spaced statement of purpose should explain how the master's degree program fits with the applicant's long-term goals.

Letters of recommendation should provide a clear picture of the applicant's potential for successfully completing a master's degree. At least some of the letters should be from university professors who are familiar with the applicant's academic work and with master's level academic programs.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-teaching-english-speakers-other-languages/>)

Career Opportunities:

Language professionals with training and expertise in TESOL remain in high demand in the U.S. and abroad. TESOL-related skills are valuable in businesses and institutions and to individuals of a wide range of linguistic and cultural contexts who rely on the ability to learn, teach and communicate effectively in a globally connected world.

Career examples include:

- adult education teacher
- consultant
- English language or foreign language teacher
- international aid worker
- materials designer or developer
- program and curriculum developer
- refugee English coordinator
- subtitler
- teacher trainer
- translator

Transborder Studies, MAS (LATCLMAS)

Online Degree Search Title: Transborder Studies, MAS

Campus: Tempe

Program Description:

The MAS program in transborder studies is designed for students interested in border issues and communities. Students learn from interdisciplinary scholars, both in the social sciences and humanities, in order to develop their individualized plan of study and focus area.

Students have the opportunity to engage in innovative research or applied experiences or they may focus their plan of study on a more professional and applied track.

The program has historically been grounded in and inspired by the geographical specificity of the U.S.-Mexico border. Given the massive scale of globalization in the 21st century and its influence on local, regional, national, subnational and international environments, the program examines transborder regions and populations around the world, including metaphorical, linguistic and cultural borders, as well as patterns and implications of immigration and migration.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Transborder Chicana/o and Latina/o Studies (Media and Expressive Culture), BA
- Transborder Chicana/o and Latina/o Studies (Transborder Community Development and Health), BA
- Transborder Chicana/o and Latina/o Studies (US and Mexican Regional Immigration Policy and Economy), BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (TSS 593), or 30 credit hours including the required capstone course (TSS 596).

Required Core (6 credit hours)

TSS 502 Foundations of Transborder Studies (3)

TSS 504 Theories and Methods for Transborder Research (3)

Electives (18 or 21 credit hours)

Culminating Experience (3 or 6 credit hours)

TSS 593 Applied Project (3) or

TSS 596 Transborder Studies Capstone (3) or

TSS 599 Thesis (6)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the social sciences, humanities, sciences, health, education, business or professional field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- resume or curriculum vitae
- three letter of recommendation (colleagues or professors)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. For more information, students should visit the Admission Services website. <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>)

Career Opportunities:

Graduates are well suited to positions in local, state, national, nongovernmental organizations and international agencies. They also are well prepared for pursuit of research opportunities or a doctoral degree.

Transborder Studies, PHD (LATCLPHD)

Online Degree Search Title: Transborder Studies, PhD

Campus: Tempe

Program Description:

The PhD program in transborder studies develops the next generation of superior research, scholarship and application in transborder and transnational contexts.

Students gain foundational knowledge in transborder, transnational and border issues from interdisciplinary scholars in anthropology, history, literature, political science, public policy, sociology, urban planning, and women and gender studies.

Faculty in the program approach transborder studies in a way that has been historically grounded in and inspired by the geographical specificity of the U.S.-Mexico border and the Chicano, Chicana, Latino and Latina populations. Arizona State University's proximity to the U.S.-Mexico border and the faculty's expertise make the university the ideal place of study. Given the massive scale of globalization in the 21st century and its influence on local, regional, national and transnational environments, the program is expanding to examine other transborder regions and populations.

Degree Requirements:

84 credit hours, a foreign language exam, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

TSS 502 Foundations of Transborder Studies (3)

TSS 503 Epistemologies and Transborder Thought (3) or TSS 504 Theories and Methods for Transborder Research (3)

Electives and Research (36 credit hours)

Dissertation (12 credit hours)

TSS 799 Dissertation (12)

Additional Curricular Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not already have a master's degree in a related field, then the remaining 30 credit hours are made up of electives and research that equal the 84 credit hours required for the doctoral program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a master's degree in a related field such as anthropology, economics, education, sociology, literature or psychology from a regionally accredited institution. Applicants who have earned a master's degree in another discipline must align their scholarly interests with the program's mission.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- resume or curriculum vitae
- three letters of recommendation (from academicians)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. For more information, students should visit the Admission Services webpage: <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

The personal statement should include an explanation of past experiences and current scholarly interests but concentrate on potential areas of research that draw upon the specific resources of the department and faculty.

Career Opportunities:

Depending on the plan of study, students may focus on a trajectory in academia with career options as faculty or in research positions. Students who wish to pursue career options outside of academia may focus the plan of study on a more professional and applied track with potential interest in local, state, national or international agencies.

Transdisciplinary Transportation Studies (certificate), Certificate (GCTRANSCE)

Online Degree Search Title: Transdisciplinary Transportation Studies (Graduate Certificate)

Campus: Tempe

Program Description:

Transportation has emerged as one of the highest priority issues for policymakers, planners, employers and citizens.

To respond to this challenge, the transdisciplinary transportation studies certificate program builds upon existing ASU programs in a variety of disciplines offered in five colleges and two campuses, giving ASU graduate students and current and future transportation professionals the opportunity to pursue a wide range of transportation-related issues from a multimodal, interdisciplinary perspective.

Students collaborate with researchers and professionals across academic disciplines that include policy, planning, economics, technology, behavior, location, land use, equity and sustainability; with different research methods; and, focused on transport modes that range from walking to air travel.

The program is intended to be either a specialization within an existing master's degree or as a stand-alone nondegree program.

ASU is a transdisciplinary hub for innovative and integrative transportation research and education. This work contributes to the development of smart, sustainable and socially equitable transportation systems. These systems leverage technology to foster resilient communities and high quality of life, locally and globally.

Degree Requirements:

16 credit hours including the required applied project course (PUP 593).

Required Core (3 credit hours)

PUP 564 Transportation Systems Professional Seminar (3)

Transportation Electives (9 credit hours)

Other Requirement (1 credit hour)

CEE 591 Interdisciplinary Transportation Seminar (1)

Culminating Experience (3 credit hours)

PUP 593 Applied Project (3)

Additional Curriculum Information

Students take three credit hours from each category for a total of nine credit hours to fulfill the transportation elective requirement.

- from any school in The College of Liberal Arts and Sciences
- from a college outside of The College of Liberal Arts and Sciences
- from subject prefixes CEE, PUP, GPH, GIS, SOS, PAF

Elective coursework is taken in consultation with the academic advisor.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- letter of interest
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Applicants who wish to seek a graduate degree in any of the cooperating departments and who are not currently enrolled at ASU must complete the full graduate school application process as specified by the department of interest in addition to the online application for the transdisciplinary transportation studies certificate. The applications are evaluated independent of each other.

Applicants are asked to explain in their letter of interest what they expect to gain from the transportation studies certificate program and the types of courses in the program that would be the most helpful in meeting their objective.

Disclosure information for this U.S. Department of Education Gainful Employment program is available at <https://catalog.asu.edu/files/disclosures/GCTRANSCE/Gedt.pdf> (<https://catalog.asu.edu/files/disclosures/GCTRANSCE/Gedt.pdf>).

Career Opportunities:

Professionals with expertise in transportation systems are in high demand across sectors and industries, including consulting firms, government agencies and community organizations. Skills in the analysis of transportation alternatives and interrelationships with other disciplines are valuable to businesses and institutions relying on an integrated systems approach to solving complex real-world problems.

Career examples include:

- airfield operations specialist
- logistics analyst
- supply chain manager
- transportation analyst
- transportation engineer
- transportation planner

Translation Studies (Certificate), Certificate (LALTSGRCT)

Online Degree Search Title: Translation Studies (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate in translation studies is a transdisciplinary program offering coursework that intensively engages with translation practice, issues related to the cultural role of the translator and translation, studies of the variety of theoretical approaches to translation, and studies of transhistorical and cross-cultural theories of translation. These areas of emphasis enable students to gain expertise in practical and theoretical knowledge of the field of literary and practical (commercial) translation and to engage in developing new models for the practice of translation today. The program offers interested students the opportunity to develop an understanding of intercultural intersections and transdisciplinary approaches to the practice of translation and advanced training and mentorship.

Degree Requirements:

15 credit hours including an applied project course (ENG 593 or SLC 593).

Required Core (6 credit hours)

ENG 550 Translation (3)

SLC 551 Global Approaches to Translation (3)

Electives (6 credit hours)

Culminating Experience (3 credit hours)

ENG 593 Applied Project (3) or SLC 593 Applied Project (3)

Additional Curriculum Information

For electives, students should see the academic unit for the approved course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- writing sample
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The personal statement should be no more than two pages and should summarize past educational experiences and goals in pursuing a graduate certificate.

Applicants should have knowledge of a language other than English, a minimum of six semesters of a second language, or the equivalent (for example, advanced placement in high school). Applicants who have passed a language proficiency exam achieving an advanced level in the target

language may also apply.

Career Opportunities:

Professionals with this certificate can confidently move into academic, business and international fields. Skills developed through this program are valued for teaching positions, translation work or work in a larger sector such as governmental, diplomatic and international business career opportunities.

Career examples include:

- archivists
- editors
- foreign language and literature teachers and professors
- historians
- interpreters and translators
- lawyers
- reporters and correspondents
- social and community service managers

Urban and Environmental Planning, MUEP (ARURBMUEP)

Online Degree Search Title: Urban and Environmental Planning, MUEP

Campus: Tempe

Program Description:

The MUEP program prepares students to help solve complex social, economic and environmental issues and create healthier, safer and more vibrant communities. The master's degree program emphasizes theories of planning, methods of analysis, effective public engagement, planning processes and creative implementation of planning tools, strategies and approaches. It is accredited by the Planning Accreditation Board. Students who join the program are eligible for certification by the American Institute of Certified Planners after two years of professional practice.

The Master of Urban and Environmental Planning program offers a unique opportunity to integrate urban and environmental aspects of planning in a rapidly developing metropolitan area. Small classes, one-on-one advising and a common core of courses that translate knowledge into practice provide students opportunities to build technical skills and grow their professional network.

As a part of the School of Geographical Sciences and Urban Planning, the program is enriched by school faculty whose research and teaching are grounded in geography, GIS, and meteorology and climatology. Students have access to a wide selection of electives within the school, electives that explore issues such as population and migration, environmental and landscape dynamics, and urban climate systems. The program is also complemented by the participation of faculty from other disciplines within the university and collaboration with leading planning practitioners in the Phoenix area.

Faculty research and teaching interests focus especially on the following broad interdisciplinary themes:

- city building and urban structure
- environmental and resiliency planning
- housing, neighborhoods and community development
- spatial analytics and smart cities
- transportation planning and policy

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as concurrent degree program with:

Public Administration, MPA

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Geographic Information Science, BS
- Geography, BS
- Geography, BA
- Geography (Meteorology-Climatology), BS
- Urban Planning, BSP

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

47 credit hours and a thesis, or 47 credit hours including the required applied project course (PUP 593), or 47 credit hours including the required capstone course (PUP 580).

Required Core (21 credit hours)

- PUP 501 Planning, History and Theory (3)
- PUP 520 Planning Practice, Ethics and Processes (3)
- PUP 531 Planning and Development Control Law (3)
- PUP 544 Urban Land Use Planning (3)
- PUP 571 Planning Methods I (3)
- PUP 579 Planning Methods II (3)
- PUP 642 Urban and Regional Economic Analysis (3)

Electives (14-15 credit hours)

Other Requirement (6 credit hours)

- PUP 542 Environmental Planning (3)
- PUP 576 GIS Workshop (3)

Culminating Experience (5-6 credit hours)

- PUP 580 Practicum: Planning Workshop (5) or
- PUP 593 Applied Project (5) or
- PUP 599 Thesis (6)

Additional Curriculum Information

Students take 14 credit hours of electives for the thesis option and take 15 credit hours of electives for nonthesis.

Students take PUP 576 or another methods course approved by the department.

Students take PUP 542 or another environmental planning course approved by the department.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement should be no longer than 600 words and must address the applicant's academic and professional background and, if appropriate, preparation for the selected area of specialty which may include written samples or a portfolio, though these are not required.

Letters of recommendation must be from three people who can attest to the applicant's academic and professional achievements.

Career Opportunities:

Professionals with expertise in planning theory and practice are in high demand across sectors and industries, including planning consulting firms, local governments and community organizations. Skills in environmental impact assessment, geographical data analysis and community resiliency planning are valuable to businesses and institutions relying on practical, research-based approaches to solve complex real-world problems.

Alumni of the Master of Urban and Environmental Planning program work as professional planners in a variety of public, private and nonprofit settings. Career examples include:

- city and regional planning aide
- geospatial information technologist
- social services director
- sustainability specialist
- transportation planner
- urban and regional planner

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Urban Planning, PHD (ARPUPPHD)

Online Degree Search Title: Urban Planning, PhD

Campus: Tempe

Program Description:

The PhD program in urban planning educates scholars for positions in leading universities; research institutions; nongovernmental organizations; international multilateral institutions; national, state and local governments; and high-level consulting firms. The program provides a strong foundation for undertaking research in planning, urbanism, urban design and urban sustainability.

The School of Geographical Sciences and Urban Planning maintains close relationships with many of the communities in the Phoenix metropolitan area that are leading the way on issues like urban climate change, sustainability and transportation planning. Students have opportunities to interact with planning leaders, mentors and community organizations. Students conduct research alongside faculty, take classes focused on current issues in the field, conduct research and reports for local clients, and start building their professional network across the public, private and nonprofit sectors.

Students benefit from a wide variety of coursework and research opportunities in five broad interdisciplinary themes that span the expertise of the faculty within the School of Geographical Sciences and Urban Planning:

- city building and urban structure
- environmental and resiliency planning
- housing, neighborhoods and community development
- spatial analytics and smart cities
- transportation planning and policy

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

PUP 710 Current Planning Theory and Practice (3)

PUP 724 Planning Methods for Doctoral Students (3)

Electives and Research (34 credit hours)

Other Requirement (2 credit hours)

PUP 701 Urban Planning Colloquium (1)

Culminating Experience (12 credit hours)

PUP 799 Dissertation (12)

Additional Curriculum Information

Students take two semesters of PUP 701 for a total of two credit hours.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree.

Up to six credit hours of 400-level courses may be applied to the plan of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a master's degree in a related field such as urban studies, geography, environmental studies, sustainability, architecture, public policy or public administration from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program and a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement must be 600 words or fewer and explain the applicant's interest in planning at the doctoral level; academic and professional background and, if appropriate, preparation for the selected area of specialty which may include written samples or portfolio; and educational and professional objectives.

Letters of recommendation should be from three faculty members who can attest to the applicant's academic achievements.

Career Opportunities:

Professionals with expertise in planning research, theory and practice are in high demand across sectors and industries, including institutions of higher education, planning consulting firms and community organizations. Skills in environmental impact assessment, geographical data analysis and community resiliency planning are valuable to organizations and institutions relying on research-based approaches to solve complex real-world problems.

Career examples include:

- chief sustainability officer
- city and regional planning aide
- environmental restoration planner

- transportation planner
- urban and regional planner
- urban planning teacher, postsecondary

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Women and Gender Studies, MA (LAWSTMA)

Online Degree Search Title: Women and Gender Studies, MA

Campus: Tempe

Program Description:

The MA program in women and gender studies is designed for students who wish to gain research skills and knowledge about gender analysis and to apply those tools to real-world problems and solutions. The program is designed for those who want a master's degree as a terminal degree.

This flexible, 30 credit hour master's degree program provides advanced training in feminist research, theory and methodologies. All students may take an internship and all must complete an applied project in which students conduct research that addresses practical, site-specific problems linked to gender. Final projects may take a variety of forms, including program assessments, grant proposals, tests of new interventions or curricula, and so on. These projects may help lead students to careers in human services, program evaluation, policy development and other fields.

Full-time students can complete the degree program within two years while part-time students take longer but can combine work with study.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Gender, Women and Sexuality Studies, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (WST 593).

Required Core (6 credit hours)

WST 501 Foundations of Feminist Thought (3)

WST 502 Interdisciplinary Gender Research Methodologies (3)

Electives (18 credit hours)

Culminating Experience (6 credit hours)

WST 593 Applied Project (6)

Additional Curriculum Information

Students must successfully provide an oral defense of the applied project.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Students may be admitted with a BA or BS in any field as long as they have completed two courses in women and gender studies or have equivalent experience. Appropriate majors may include women, gender and sexuality studies; history; English; sociology; religious studies; social work; psychology; communication or ethnic studies. Students who have previously majored in a science, technology, engineering or mathematics field and have interests in gender and education or gender and science may also apply for this program.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts from all college and universities where the applicant earned a bachelor's or master's degree
- personal statement
- resume or curriculum vitae
- writing sample
- two or three letters of recommendation
- relevant coursework
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement should be approximately 1,000 words and describe any prior research experience and training, professional goals and research interests, and the fit between interests and the program's emphases. The statement should be uploaded.

The writing sample should be seven to 10 pages. This can include a research brief or report, a white paper, a policy paper or a paper for a recent academic course. The writing sample should reflect the applicant's writing ability and critical thinking skills.

The letters of recommendation should be from a recommender who can speak to the applicant's strengths and weaknesses for graduate study; critical thinking, writing, speaking and presentation skills; intellectual ability; leadership potential; interpersonal skills and ability to work with others; or other relevant accomplishments that best highlight the applicant's ability to complete a graduate degree in women and gender studies.

The list of relevant coursework should include at least two courses, undergraduate or graduate, the applicant has taken that focus on gender or women. In addition, the applicant should list any research methods or social justice courses.

Further details about application requirements and application deadlines are available on the School of Social Transformation's webpage.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply the key concepts, theoretical frameworks, interdisciplinary approaches & critical debates that have shaped the field of gender studies.
- Develop and conduct research through a feminist perspective.
- Perform intersectional feminist analysis.

Career Opportunities:

Graduates of the program have gone on to careers at universities, research and policy institutes, government organizations and nonprofit organizations.

World War II Studies, MA (LAWWSMA)

Online Degree Search Title: World War II Studies, MA

Campus: Online

Program Description:

Through advanced interdisciplinary study of World War II, students in the MA program in World War II studies explore the causes and effects of World War II, the global nature of the conflict, the evolution of governance and political systems, and human responses to conflict, violence and genocide. Program coursework also helps students contextualize current events through study of the war's historical, political and cultural legacies.

Degree Requirements:

30 credit hours including the required capstone course (WWS 597).

Required Core (12 credit hours)

WWS 561 Decision Points I (3)

WWS 562 Decision Points II (3)

WWS 563 The Lived Experience of World War II (3)

WWS 566 World War II Today (3)

Electives or Research (9 credit hours)

Other Requirements (6 credit hours)

HST 454 History of Genocide (3) or WWS 564 The Global War (3)

WWS 460 World War II (3) or HST 460 World War II (3)

Culminating Experience (3 credit hours)

WWS 597 Capstone (3)

Additional Curriculum Information

Students should refer to the academic unit for the approved electives and research course list.

For the other requirements section, students must take either HST 454 or WWS 564. If a student chooses to take HST 454 to fulfill the requirement, they may take WWS 564 as an elective. Likewise, if a student chooses to take WWS 564 to fulfill a requirement, they may take HST 454 as an elective. Other coursework may be used with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree (or equivalent) or master's degree from a regionally accredited college or university. Students from any field who demonstrate potential are considered for admission.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- letter of intent or written statement
- written responses to unit-developed prompts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

An applicant's potential for success is determined by the quality of writing and clarity of thought demonstrated in the letter of intent and responses to the application questions. Letters of recommendation that point to a student's ability to deliver high-quality academic work and persist to an academic goal receive priority. An applicant's GPA and academic performance, particularly in humanities coursework, also indicate potential.

During the application process, applicants are prompted to write short written responses to World War II-related questions. These responses serve to demonstrate to the committee a student's writing ability and potential for thoughtful participation in degree coursework.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/world-war-ii-studies-ma/>)

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Evaluate the global, social, cultural, economic, and/or political legacy of World War II since 1945, with particular attention to differing narratives.
- Analyze the decision-making process and explore the contingent nature of historical events within the larger context of the Second World War.
- Analyzing the causes, course, and memory of the genocidal nature of the World War II will be able to compose evidence-based arguments grounded in the analysis of sources.

Career Opportunities:

The Master of Arts program in World War II studies provides students the fundamental training needed for careers in research, teaching, public history, government service and a host of other positions in the public, private and nonprofit sectors. Graduates serve as first-rate historians, highly qualified teachers at the elementary, secondary levels, community colleges, researchers and consultants, archivists, foreign service officers, management professionals, community organizers and public servants.

Career examples include:

- archivist
- college instructor
- editorial and publishing professional
- museum director and staff
- nonprofit director
- research professional

Nursing and Health Innovation, Edson College of

Acute Care Pediatric Nurse Practitioner (certificate), Certificate (NUACPNGRCT)

Online Degree Search Title: Acute Care Pediatric Nurse Practitioner (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

This certificate program, accredited by the Commission on Collegiate Nursing Education, is designed for nurses who are board certified in a different APRN specialty who seek additional certification as an acute care pediatric nurse practitioner, for nurses with a doctoral degree in nursing who seek to become an acute care pediatric nurse practitioner, and as a pathway to obtain a DNP degree.

The acute care pediatric nurse practitioner program prepares pediatric nurses to meet the physical, psychological and social needs of infants, children, adolescents and young adults. Core courses including pharmacology, advanced pathophysiology, advanced health assessment, and others determined by the student's unique gap analysis must be completed in the past five years to be eligible for credit. Specialty courses focus on assessment and management of a supportive, family-centered, culturally appropriate plan of care for pediatric patients with unstable chronic, complex acute and life-threatening illnesses.

This program is offered in a hybrid format that requires students to travel to campus for up to one week for orientation at the beginning of the program and then two or three times each semester.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete their assigned clinical placement.

Students residing outside of Maricopa County, Arizona, are responsible for identifying the required number of clinical sites in their area of residence and for identifying preceptors and sites willing to accommodate clinical rotations, and Edson College of Nursing and Health Innovation must approve these sites before starting any clinical experience; the DNP program office does not guarantee a clinical placement site for any student outside Maricopa County. If, during the program, faculty determine the student needs additional supervision for clinical progress in the program, the student must complete clinical experiences in the Phoenix area.

Experiences with disadvantaged and multicultural populations are encouraged, as are experiences in rural areas, and sites are available for these

experiences.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to persons located in individual SARA states in accordance with the Council's established policies and standards. California does not participate in SARA and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College. These exceptions are noted on the ASU state authorizations website: <https://admission.asu.edu/academics/authorizations> (<https://admission.asu.edu/academics/authorizations>).

Degree Requirements:

20 credit hours.

Required Core (20 credit hours)

DNP 606 Principles of Pediatric Acute Care I (3)

DNP 607 Advanced Pediatric Acute Care Practicum I (7)

DNP 619 Principles of Pediatric Acute Care II (3)

DNP 620 Advanced Pediatric Acute Care Practicum II (7)

Additional Curriculum Information

Every certificate student must complete 600 hours of direct patient care with a nurse practitioner or physician preceptor in the clinical setting. Documented clinical experiences are required by the Pediatric Nursing Certification Board in order for the graduate to be eligible to take the national pediatric nurse practitioner acute care certification examination. Focused clinical experiences are arranged with appropriate preceptors and administrators. Every attempt is made to arrange this in the student's geographical area. In the event that clinical sites are unavailable in that area or if the faculty determine the student needs additional faculty supervision of skills, the student is required to complete the clinical experience in the Phoenix area. Experiences with disadvantaged and multicultural populations are encouraged, as are experiences in rural areas, and sites are available for these experiences.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree in nursing from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three professional letters of recommendation.
- professional resume
- goal statement
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

The applicant must be nationally certified as a primary care pediatric nurse practitioner. Nationally certified family nurse practitioners working as a nurse practitioner in a pediatric setting will be considered.

The goal statement should indicate the applicant's understanding of the role of the advance practice nurse with the population of interest and any experience the applicant may have working with the patient population of interest.

The admission essay should briefly describe how meeting "The Essentials of Doctoral Education for Advanced Nursing Practice" (2006) will further

their career goals.

An interview with program faculty is required.

One year of clinical experience working in the pediatric acute care setting is preferred

Health and safety requirements include passing disposition on a background clearance and satisfactory completion of a substance screen.

No admission examination is required.

Career Opportunities:

The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. The acute care pediatric nurse practitioner role has grown exponentially in the past decade and the demand for board certified advanced practice acute care providers has never been higher. Graduates of the Doctor of Nursing Practice program in advanced practice nursing are prepared to provide health care for newborns, children, adolescents and young adults. Careers include:

- acute care home services
- critical care
- education and training of future health care providers
- emergency care
- inpatient hospitalist service
- specialty service provider
- transport teams

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. These exceptions are noted on the ASU state authorization website: <https://admission.asu.edu/academics/authorizations> (<https://admission.asu.edu/academics/authorizations>).

Degree Requirements:

22 credit hours.

Required Core (22 credit hours)

DNP 623 Adult-Gerontology Health Promotion (3)

DNP 624 Adult-Gerontology Health Promotion Practicum (3)

DNP 625 Management of Common Health Problems in Adult-Gerontology: Theory (3)

DNP 626 Management of Common Health Problems in Adult-Gerontology: Practicum (5)

DNP 627 Management of Complex Health Problems in Adult-Gerontology: Theory (3)

DNP 628 Management of Common Health Problems in Adult-Gerontology: Practicum (5)

Additional Curriculum Information

Nurses who complete this certificate meet the eligibility requirements for taking the National Adult Gerontology Nurse Practitioner Certification Examination. In addition to completing didactic courses, students complete 13 credit hours (585 clock hours) of practicum experiences in a community setting.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree in nursing from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- documentation of a current unencumbered RN license in the state in which the student plans to do clinical practicums
- three professional letters of recommendation
- resume
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

All students are required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

Applicants are required to have an in-person interview with the program faculty.

Applicants are asked to submit an admission essay and:

- describe career goals for the next five to 10 years and discuss how obtaining a NP certificate from Arizona State University will help meet these goals
- read *The Essentials of Doctoral Education for Advanced Nursing Practice* (2006) from the American Association of Colleges of Nursing, then focus on one of the first seven essentials and describe how meeting this essential will further the stated career goals

All Edson College of Nursing and Health Innovation students are required to complete health and safety requirements, and must have a passing disposition on a background clearance and satisfactory completion of a substance screen with the program's identified agency.

One year of clinical experience working within the student's specialty population is preferred.

Career Opportunities:

The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. Graduates of the adult gerontology nurse practitioner certificate program have the knowledge and training to provide health care for patients in a wide variety of settings. This broad base of comprehension and clinical expertise enables them to effectively participate and lead within clinical, community and academic arenas.

Career examples:

- business owner
- community advocate
- nurse practitioner
- professor

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Advanced Nursing Practice, DNP (NUANPDNP)

Online Degree Search Title: Advanced Nursing Practice, DNP

Campus: Downtown Phoenix

Program Description:

The DNP program, accredited by the Commission on Collegiate Nursing Education, is designed for master's degree-prepared advanced practice nurses seeking a Doctor of Nursing Practice degree.

Courses are designed for clinical experts and are innovative, interesting and organized to provide students with expert colleagues and mentors across the U.S. who can challenge them to take their practice to a new level.

Graduates of this program are able to facilitate the application and integration of research into clinical practice using innovative approaches to improve health care outcomes of populations and individuals across multiple settings.

This program is offered in a hybrid iCourse and in-person format that requires students to travel to campus for up to a week for orientation at the beginning of the program and two to three times per semester.

Degree Requirements:

84 credit hours including the required applied project course (DNP 707).

Required Core (13 credit hours)

DNP 704 Principles of Evidence-Based Care in Advanced Practice (4)

DNP 705 Health Care Outcome Management (3)

DNP 708 Systems Thinking in a Complex Healthcare Environment (3)

DNP 709 Individual and Innovation Leadership in Healthcare Practice (3)

Other Requirement (23 credit hours)

DNP 679 Biostatistics: Principals of Statistical Inference (3)

DNP 703 Innovation in Communication: Scholarly and Professional Writing (2)

DNP 711 Healthcare Policy and Innovation (3)

DNP 712 Clinical Residency and Management (12)

DNP 715 Dynamics and Principles of Information in Health Care (3)

Electives and Research (45 credit hours)

Culminating Experience (3 credit hours)

DNP 707 Disseminating Evidence to Advance Best Practice in Health Care and Health Policy (3)

Additional Curriculum Information

Applicants to the post-master's program should identify a relevant clinical issue related to advanced practice nursing that they would like to pursue during their doctoral program. Students complete 540 hours of clinical practice residency and the program courses. Completion of an evidence-based doctoral applied project is required. Each project is developed individually with each student. Each student has a primary mentor working with them on the project. Clinical practice residency hours are used to complete the project in a practice setting; work settings may be included, but specific objectives are developed individually with each student and may be different from the student's job. Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas, and sites are available for these experiences.

For electives or research, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program allows up to 30 credit hours from a previously awarded master's degree to be used for this program.

Other requirement coursework may be substituted with approval of the academic unit if the student is in an approved concurrent program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in nursing from a nationally recognized, regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three professional letters of recommendation
- resume
- goal statement
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

Applicants must be certified as an advanced practice nurse. A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

An interview with program faculty is required.

One year of clinical experience working within the student's specialty population is preferred.

Health and safety requirements include passing disposition on a background clearance and satisfactory completion of a substance screen.

An admission examination is not required.

Applications are reviewed on a space-available basis after the priority deadline.

Career Opportunities:

Graduates of the Doctor of Nursing Practice program have the knowledge and training to provide health care for patients across the lifespan in a wide variety of settings. This broad base of comprehension and clinical expertise enables them to effectively participate and lead within clinical, community and academic arenas.

Career examples:

- business owner
- community advocate
- nurse practitioner
- professor

Advanced Nursing Practice (Acute Care Pediatric Nurse Practitioner), DNP (NUANPACDNP)

Online Degree Search Title: Advanced Nursing Practice (Acute Care Pediatric Nurse Practitioner), DNP

Campus: Downtown Phoenix

Program Description:

This DNP program, accredited by the Commission on Collegiate Nursing Education, provides a foundation for the specialty in acute care pediatrics through the application of theory to advanced practice.

The acute care pediatric nurse practitioner program prepares pediatric nurses to meet the physical, psychological and social needs of infants, children, adolescents and young adults. Specialty courses focus on assessment and management of a supportive, family-centered, culturally appropriate plan of care for pediatric patients with unstable chronic, complex acute and life-threatening illnesses.

This program is offered in a hybrid format that requires students to travel to campus for up to one week for orientation at the beginning of the program and then two or three times each semester.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete their assigned clinical placement.

Students residing outside of Maricopa County, Arizona, are responsible for identifying the required number of clinical sites in their area of residence and for identifying preceptors and sites willing to accommodate clinical rotations, and Edson College of Nursing and Health Innovation must approve these sites before starting any clinical experience; the DNP program office does not guarantee a clinical placement site for any student outside Maricopa County. If, during the program, faculty determine the student needs additional supervision for clinical progress in the program, the student must complete clinical experiences in the Phoenix area.

Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas when sites are available for these experiences.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to persons located in individual SARA states in accordance with the Council's established policies and standards. California does not participate in SARA and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College. These exceptions are noted on the ASU state authorization website. <https://admission.asu.edu/academics/authorizations> (<https://admission.asu.edu/academics/authorizations>)

Degree Requirements:

85 credit hours including an applied project (DNP 707).

Required Core (13 credit hours)

DNP 704 Principles of Evidence-Based Care in Advanced Practice (4)

DNP 705 Health Care Outcome Management (3)

DNP 708 Systems Thinking in a Complex Healthcare Environment (3)

DNP 709 Individual and Innovation Leadership in Healthcare Practice (3)

Concentration (26 credit hours)

DNP 606 Principles of Pediatric Acute Care I (3)

DNP 607 Advanced Pediatric Acute Care Practicum I (6)

DNP 619 Principles of Pediatric Acute Care II (3)

DNP 620 Advanced Pediatric Acute Care Practicum II (6)

DNP 643 Developmentally Based Care of the Well Child (3)

DNP 644 Well Child Advanced Practicum (2)

DNP 649 Advanced Physiology (3)

Other Requirements (40 credit hours)

DNP 601 Theoretical Foundations for Advance Practice Nursing (3)

DNP 602 Evaluating Research for Practice (3)

DNP 604 Advanced Human Pathophysiology Across Lifespan (4)

DNP 609 Advanced Practice Nursing Role (1)

DNP 641 Advanced Health Assessment Pediatrics (3)

DNP 642 Applied Pharmacotherapeutics for Pediatrics (3)

DNP 679 Biostatistics: Principals of Statistical Inference (3)

DNP 703 Innovation in Communication: Scholarly and Professional Writing (2)

DNP 711 Healthcare Policy and Innovation (3)

DNP 712 Clinical Residency and Management (12)

DNP 715 Dynamics and Principles of Information in Health Care (3)

Electives (3 credit hours)

Culminating Experience (3 credit hours)

DNP 707 Disseminating Evidence to Advance Best Practice in Health Care and Health Policy (3)

Additional Curriculum Information

Nurse practitioner students complete 585 hours of clinical practicum work in the first two years of their degree program. They complete an additional 540 hours in their clinical residency course (DNP 712) for a total of 1,125 clinical and residency hours.

Every student must complete 600 hours of direct patient care with a nurse practitioner or physician preceptor in the clinical setting. Documented clinical experiences are required by the Pediatric Nursing Certification Board in order for the graduate to be eligible to take the national Pediatric Nurse Practitioner Acute Care certification examination. Focused clinical experiences are arranged with appropriate preceptors and administrators. Every attempt is made to arrange this in the student's geographical area. In the event that clinical sites are unavailable in that area or if the faculty determine the student needs additional faculty supervision of skills, the student is required to complete the clinical experience in the Phoenix area.

When approved by the student's supervisory committee and the Graduate College, this program allows up to 30 credit hours from a previously awarded master's degree to be used for this program.

Other requirement coursework may be substituted with approval of the academic unit if the student is in an approved concurrent program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in nursing from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three professional letters of recommendation.
- professional resume
- goal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to

have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

An interview with program faculty is required.

One year of clinical experience working in the student's specialty population is preferred.

Health and safety requirements include passing disposition on a background clearance and satisfactory completion of a substance screen.

An admission examination is not required.

Career Opportunities:

The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. Doctor of Nursing Practice graduates are prepared to practice at the most advanced level of nursing.

The acute care pediatric nurse practitioner role has grown exponentially in the past decade and the demand for board-certified advanced practice acute care providers has never been higher. Graduates are prepared to provide health care for newborns and children, to young adulthood, in careers that include:

- acute care home services
- critical care providers
- education and training of future health care providers
- emergency care providers
- inpatient hospitalist services
- specialty service providers
- transport teams

Advanced Nursing Practice (Adult-Gerontology Nurse Practitioner), DNP (NUANPAGDNP)

Online Degree Search Title: Advanced Nursing Practice (Adult-Gerontology Nurse Practitioner), DNP

Campus: Downtown Phoenix

Program Description:

This DNP program, accredited by the Commission on Collegiate Nursing Education, provides a foundation for this specialty through graduate courses in the application of theory to advance practice. A major focus of the program is the acquisition of advanced knowledge and skills for primary care, case management, screening and health promotion of adults through the lifespan in a variety of settings, including private practice, ambulatory clinics, long-term care facilities and the patient's home.

This program is offered in a hybrid in-person and iCourse format, requiring students to travel to campus for up to one week for orientation at the beginning of the program and then two or three times per semester.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete their assigned clinical placement.

Students residing outside of Maricopa County, Arizona, are responsible for identifying the required number of clinical sites in their area of residence and for identifying preceptors and sites willing to accommodate clinical rotations, and Edson College of Nursing and Health Innovation must approve these sites before starting any clinical experience; the DNP program office does not guarantee a clinical placement site for any student outside Maricopa County. If, during the program, faculty determine the student needs additional supervision for clinical progress in the program, the

student must complete clinical experiences in the Phoenix area.

Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas when sites are available for these experiences.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to persons located in individual SARA states in accordance with the council's established policies and standards. California does not participate in SARA and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions. Advanced Nursing Practice (Family Psychiatric and Mental Health Nurse Practitioner), DNP (NUANPCFDNP)

Online Degree Search Title: Advanced Nursing Practice (Family Psychiatric and Mental Health Nurse Practitioner), DNP

Campus: Downtown Phoenix

Program Description:

This DNP program, accredited by the Commission on Collegiate Education, provides a foundation for the specialty through graduate courses in the application of theory to advanced practice. The focus is on development of expertise in providing mental health care to individuals of all ages within traditional, nontraditional and culturally diverse families.

Courses are designed to prepare students for certification in advanced nursing as a family psychiatric mental health nurse practitioner. This Doctor of Nursing Practice program specialty as a family psychiatric nurse practitioner emphasizes the assessment, diagnosis and evidence-based management of common and complex mental health disorders across the lifespan. Valid and reliable tools for screening and identification of mental health disorders as well as early interventions for these problems are highlighted. Content for each disorder include epidemiology, incidence, early signs and symptoms, differential diagnosis, and sociocultural variations in evidence-based management and treatment. Management includes psychopharmacologic and therapeutic skills building that are based in motivational interviewing, mindfulness, cognitive behavioral therapy and dialectical behavior therapy. Individual, group and family therapy techniques are emphasized.

This program is offered in a hybrid iCourse format that requires students to travel to campus for up to a week for orientation at the beginning of the program and then two or three times per semester.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete their assigned clinical placement.

Students residing outside of Maricopa County, Arizona, are responsible for identifying the required number of clinical sites in their area of residence and for identifying preceptors and sites willing to accommodate clinical rotations, and Edson College of Nursing and Health Innovation must approve these sites before starting any clinical experience; the DNP program office does not guarantee a clinical placement site for any student outside Maricopa County. If, during the program, faculty determine the student needs additional supervision for clinical progress in the program, the student must complete clinical experiences in the Phoenix area.

Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas when sites are available for these experiences.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to persons located in individual SARA states in accordance with the council's established policies and standards. California does not

participate in SARA, and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College. These exceptions are noted on the ASU state authorization website. <https://admission.asu.edu/academics/authorizations> (<https://admission.asu.edu/academics/authorizations>)

Degree Requirements:

85 credit hours including the required applied project course (DNP 707).

Required Core (13 credit hours)

DNP 704 Principles of Evidence-Based Care in Advanced Practice (4)

DNP 705 Health Care Outcome Management (3)

DNP 708 Systems Thinking in a Complex Healthcare Environment (3)

DNP 709 Individual and Innovation Leadership in Healthcare Practice (3)

Concentration (29 credit hours)

DNP 660 Advanced Neuropsychopathology Lifespan (2)

DNP 671 Advanced Mental Health Assessment Across the Lifespan (2)

DNP 672 Psychopharmacology Across the Lifespan (3)

DNP 673 Mental Health Promotion Across the Lifespan (3)

DNP 674 Mental Health Promotion Across the Lifespan Practicum (3)

DNP 675 Management of Common Mental Health Disorders Across the Lifespan (3)

DNP 676 Management of Common Mental Health Disorders Across the Lifespan Practicum (5)

DNP 677 Management of Complex and Chronic Mental Health Disorders Across the Lifespan (3)

DNP 678 Management of Complex and Chronic MH Disorders Across the Lifespan Practicum (5)

Other Requirements (40 credit hours)

DNP 601 Theoretical Foundations for Advance Practice Nursing (3)

DNP 602 Evaluating Research for Practice (3)

DNP 604 Advanced Human Pathophysiology Across Lifespan (4)

DNP 605 Advanced Health Assessment Across Lifespan (3)

DNP 608 Applied Pharmacotherapeutics Across Lifespan (3)

DNP 609 Advanced Practice Nursing Role (1)

DNP 679 Biostatistics: Principals of Statistical Inference (3)

DNP 703 Innovation in Communication: Scholarly and Professional Writing (2)

DNP 711 Healthcare Policy and Innovation (3)

DNP 712 Clinical Residency and Management (12)

DNP 715 Dynamics and Principles of Information in Health Care (3)

Culminating Experience (3 credit hours)

DNP 707 Disseminating Evidence to Advance Best Practice in Health Care and Health Policy (3)

Additional Curriculum Information

Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced practice nursing is required.

The American Nurses Credentialing Center has recommended a minimum of 1,000 postbaccalaureate practicum hours for all students completing a Doctor of Nursing Practice. This program includes 1,125 practicum hours, exceeding the ANCC requirement.

When approved by the student's supervisory committee and the Graduate College, this program allows up to 30 credit hours from a previously awarded master's degree to be used for this program.

Other requirement coursework may be substituted with approval of the academic unit if the student is in an approved concurrent program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in nursing from a nationally recognized, regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee

- official transcripts
- three professional letters of recommendation
- resume
- goal statement
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

An interview with program faculty is required.

One year of clinical experience working in the student's specialty population is preferred.

Health and safety requirements include passing disposition on a background clearance and satisfactory completion of a substance screen.

An admission examination is not required.

Career Opportunities:

The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. Doctor of Nursing Practice graduates are prepared to practice at the most advanced level of nursing.

Graduates have the knowledge and training to provide health care for patients across the lifespan in a wide variety of settings. This broad base of comprehension and clinical expertise enables them to participate effectively and lead within clinical, community and academic arenas.

Career examples:

- business owner
- community advocate
- nurse practitioner
- professor

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure webpage: <https://admission.asu.edu/academics/licensure> (<https://admission.asu.edu/academics/licensure>).

Advanced Nursing Practice (Innovation Leadership), DNP (NUANPILDNP)

Online Degree Search Title: Advanced Nursing Practice (Innovation Leadership), DNP

Campus: Downtown Phoenix, ASU@Los Angeles

Program Description:

Designed to take the student's thinking and career to the next level, this nationally recognized DNP program leverages innovation theory, complexity science and the application of the latest evidence to advanced health system outcomes.

This program of study is for all clinical leaders, including educators, executives and informaticists, who want to create sustainable health care in the communities they serve.

Students learn how to optimize human and social capital, create measurable impact on their organizations and foster environments of excellence through innovation.

Some of the courses students take include:

- Innovation Leadership for Tomorrow's Health Care
- Financing Health Care for a Sustainable Future
- Navigating Culture to Create Successful Change and Transformation
- Systems Thinking for Improved Organizational Performance

Offered as a hybrid program, most coursework is in the iCourse format which affords optimal flexibility. There are also two to three opportunities per semester for in-person dialogue and exchange.

Acknowledged by graduates as a life-changing experience, this program is one of deep personal discovery and diverse professional enrichment. Students are part of a rich social fabric of highly engaged, intellectually astute and practically sound nursing leaders who are changing health care for the nation.

Los Angeles location: Currently, programs of study are offered in a hybrid learning model. Select courses are offered through in-person instruction in the Herald Examiner building. The majority of courses are offered virtually from Arizona through a combination of synchronous and asynchronous learning technologies. Students should consult their advisor and schedule of classes for additional information.

Degree Requirements:

84 credit hours including the required applied project course (DNP 716).

Required Core (13 credit hours)

DNP 704 Principles of Evidence-Based Care in Advanced Practice (4)

DNP 705 Health Care Outcome Management (3)

DNP 708 Systems Thinking in a Complex Healthcare Environment (3)

DNP 709 Individual and Innovation Leadership in Healthcare Practice (3)

Concentration (9 credit hours)

DNP 713 Analysis of Organizational Cultures in Health Care (3)

DNP 714 Professional Relationships in Healthcare (3)

NUR 640 Integrative Theories of Innovation Health Care (3)

Other Requirements (23 credit hours)

DNP 679 Biostatistics: Principals of Statistical Inference (3)

DNP 703 Innovation in Communication: Scholarly and Professional Writing (2)

DNP 711 Healthcare Policy and Innovation (3)

DNP 712 Clinical Residency and Management (12)

DNP 715 Dynamics and Principles of Information in Health Care (3)

Electives and Research (36 credit hours)

Culminating Experience (3 credit hours)

Applied Project: DNP 716 Leadership of Innovation in Health Care (3)

Additional Curriculum Information

Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced practice nursing is required.

The American Nurses Credentialing Center has recommended a minimum of 1,000 postbaccalaureate practicum hours for all students completing a nurse practitioner doctoral program. This program includes 1,125 practicum hours, exceeding the ANCC requirement.

For electives or research, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program allows up to 30 credit hours from a previously awarded master's degree to be used for this program.

Other requirement coursework may be substituted with approval of the academic unit if the student is in an approved concurrent program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's and a master's degree in nursing from a nationally recognized, regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three professional letters of recommendation
- resume
- goal statement

Advanced Nursing Practice (Neonatal Nurse Practitioner), DNP (NUANPNDNP)

Online Degree Search Title: Advanced Nursing Practice (Neonatal Nurse Practitioner), DNP

Campus: Downtown Phoenix

ASU is not currently accepting applications for this program.

Program Description:

This DNP program is designed for nurses seeking to become advanced practical nurses as neonatal nurse practitioners.

practice, advanced pathophysiology, advanced pharmacology and advanced health assessment. Advanced neonatal nursing theory and clinical courses focus on the development of a framework for developmentally supportive, family-centered, culturally appropriate advanced nursing practice with infants, children and families.

Focused clinical experiences are arranged with appropriate preceptors and administrators. Every attempt is made to arrange this in the student's geographical area. In the event that clinical sites are unavailable in that area or if the faculty determine the student needs additional faculty supervision of skills, the student is required to complete the clinical experience in the Phoenix area. Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas, and sites are available for these experiences.

Degree Requirements:

84 credit hours including the required applied project course (DNP 707).

Required Core (21 credit hours)

- DNP 604 Advanced Human Pathophysiology Across Lifespan (4)
- DNP 605 Advanced Health Assessment Across Lifespan (3)
- DNP 608 Applied Pharmacotherapeutics Across Lifespan (3)
- DNP 609 Advanced Practice Nursing Role (1)
- DNP 704 Principles of Evidenced-Based Care in Advanced Practice (4)
- DNP 705 Healthcare Outcomes Management (3)
- DNP 708 Systems Thinking in a Complex Healthcare Environment (3)

Concentration (34 credit hours)

- DNP 653 Advanced Development and Family Health Promotion: Neonatal Theory I (3)
- DNP 654 Neonatal Practicum I (3)
- DNP 655 Management of Common Neonatal Problems (3)
- DNP 656 Neonatal Practicum II (5)
- DNP 657 Management of Complex Problems in Neonates (3)
- DNP 658 Neonatal Practicum III: Management of Complex Problems in Neonates (5)
- DNP 712 Clinical Residency and Management (12)

Other Requirement (20 credit hours)

- DNP 601 Theoretical Foundations for Advance Practice Nursing (3)
- DNP 602 Evaluating Research for Practice (3)
- DNP 679 Biostatistics: Principals of Statistical Inference (3)
- DNP 703 Innovation in Communication: Scholarly and Professional Writing (2)
- DNP 709 Individual and Innovation Leadership in Healthcare Practice (3)
- DNP 711 Healthcare Policy and Innovation (3)
- DNP 715 Dynamics and Principles of Information in Health Care (3)

Electives and Research (6 credit hours)

Culminating Experience (3 credit hours)

- DNP 707 Disseminating Evidence to Advance Best Practice in Health Care and Health Policy (3)

Additional Curriculum Information

Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced practice nursing is required.

The American Nurses Credentialing Center has recommended a minimum of 1,000 postbaccalaureate practicum hours for all students completing a nurse practitioner doctoral program. This program includes 1,125 practicum hours, exceeding the ANCC requirement.

For electives or research, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program allows up to 30 credit hours from a previously awarded master's degree to be used for this program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in nursing from a nationally recognized, regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three online recommendations and one self-evaluation
- satisfactory completion of the analytical writing section of the GRE
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

The three online recommendations should be from individuals knowledgeable about the applicant's academic and nursing leadership potential; the self-evaluation is completed by the applicant.

A current unencumbered license is required. If clinical practice will occur outside of Arizona, the student must have a current unencumbered license in the state where clinical practice will be conducted. If clinical practice will occur within Arizona, the student must have a current unencumbered Arizona license to practice as a registered nurse.

An interview with a representative of the specialty area is required.

Students should see the program website for application deadlines.

Career Opportunities:

Doctor of Nursing Practice graduates are prepared to practice at the most advanced level of nursing.

Graduates of the neonatal nurse practitioner concentration of the Doctor of Nursing Practice in advanced nursing practice have the knowledge and training to provide health care for patients in an acute care setting. This broad base of clinical expertise enables them to participate effectively and lead within clinical, community and academic arenas.

Career examples:

- business owner
- community advocate
- nurse practitioner
- professor

Advanced Nursing Practice (Pediatric Nurse Practitioner), DNP (NUANPPDNP)

Online Degree Search Title: Advanced Nursing Practice (Pediatric Nurse Practitioner), DNP

Campus: Downtown Phoenix

Program Description:

This DNP program, accredited by the Commission on Collegiate Nursing Education, provides a foundation for this specialty through the application of theory to advanced practice. The primary care pediatric nurse practitioner program prepares pediatric nurses to meet the physical, psychological and social needs of infants, children, adolescents and young adults (birth to 21 years of age).

Coursework focuses on the development of a framework for supportive, family-centered, culturally appropriate advanced nursing practice for pediatric patients. Using best evidence, specialty pediatric courses focus on health promotion and the assessment and management of health care for well infants, children, adolescents and young adults as well as those with minor, acute and stable complex and chronic health disorders.

This program is offered in a hybrid format that requires the student to travel to campus for up to a one-week orientation at the beginning of the program and then two or three times each semester for course in-person immersions.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete their assigned clinical placement.

Students residing outside of Maricopa County, Arizona, are responsible for identifying the required number of clinical sites in their area of residence and for identifying preceptors and sites willing to accommodate clinical rotations, and Edson College of Nursing and Health Innovation must approve these sites before starting any clinical experience; the DNP program office does not guarantee a clinical placement site for any student outside Maricopa County. If, during the program, faculty determine the student needs additional supervision for clinical progress in the program, the student must complete clinical experiences in the Phoenix area.

Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas when sites are available for these experiences.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to persons located in individual SARA states in accordance with the council's established policies and standards. Advanced Nursing Practice (Women's Health Nurse Practitioner), DNP (NUANPWHDNP)

Online Degree Search Title: Advanced Nursing Practice (Women's Health Nurse Practitioner), DNP

Campus: Downtown Phoenix

Program Description:

The DNP degree with specialty as a women's health nurse practitioner prepares graduates to provide holistic, client-centered primary care for women from adolescence through older adulthood.

Courses focus on the assessment, diagnosis and evidence-based management of common and complex gynecologic, sexual, reproductive, menopause-transition and post-menopause health care; uncomplicated and high-risk antepartum and postpartum care, as well as sexual and reproductive health care for men. Courses emphasize research and theories to provide the context essential to advanced nursing practice focusing on health promotion, risk assessment and disease prevention for women across the lifespan, taking into account factors that influence health care and health outcomes.

This program, accredited by the Commission on Collegiate Nursing Education, provides a foundation for this specialty through graduate courses in application of theory to advanced practice.

This program is offered in a hybrid iCourse and in-person format that requires students to travel to campus for up to a week for orientation at the beginning of the program and then two or three times per semester.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete their assigned clinical placement.

Students residing outside of Maricopa County, Arizona, are responsible for identifying the required number of clinical sites in their area of residence and for identifying preceptors and sites willing to accommodate clinical rotations, and Edson College of Nursing and Health Innovation must approve these sites before starting any clinical experience; the DNP program office does not guarantee a clinical placement site for any student outside Maricopa County. If, during the program, faculty determine the student needs additional supervision for clinical progress in the program, the student must complete clinical experiences in the Phoenix area.

Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas.

Aging, MS (LAALDMS)

Online Degree Search Title: Aging, MS

Campus: Downtown Phoenix, Online

Program Description:

Aligned with ASU's charter and design aspirations, the MS program in aging assumes responsibility for the overall health of communities by educating students to become experts in the field of aging. By fusing intellectual disciplines and socially embedding with partners in the aging network of health, wellness and social services, as well as entrepreneurs developing senior-related business ventures, this program is uniquely positioned to address the diverse needs of the rapidly aging population.

The program provides students with advanced, interdisciplinary knowledge that focuses on improving the well-being of older adults within the context of their diverse families and communities. The curriculum is competency-based and designed in accordance with the Academy for Gerontology in Higher Education competencies for graduate education.

The curriculum addresses the multidimensional aging process and the needs of aging populations and their potential contributions to society; reflects national health initiatives; and encourages community collaborations that are reciprocal, beneficial, and sustainable to improve health outcomes of older adults.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Applied Science (Health Entrepreneurship and Innovation), BAS
- Community Health, BS
- Health Care Coordination, BS
- Health Entrepreneurship and Innovation, BS
- Integrative Health, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students are advised by their academic departments to apply.

Degree Requirements:

36 credit hours including the required applied project course (HCA 593), or 36 credit hours including the required applied project course (HCA 593) - Mandarin Pathway.

Required Core (18 credit hours)

HCA 501 Perspectives on Aging and the Life Course (3)

HCA 502 Research and Program Evaluation Issues in Aging (3)

HCA 503 Diversity in Aging (3)

HCA 504 Caregiving Issues for Families and Professionals (3)

HCA 505 Interdisciplinary and Community Collaboration in Aging (3)

HCA 508 Mental Health Assessment and Intervention (3)

Track (6 credit hours)

Electives (6 credit hours)

Other Requirements (3 credit hours)

HCA 509 Interventions to Support Aging in Place (3) or

HCA 510 Innovations in Program Development and Policy (3)

Culminating Experience (3 credit hours)

HCA 593 Applied Project (3)

Additional Curriculum Information

Students choose a track for a total of six credit hours:

- aging services and case management
- innovation and entrepreneurship
- long-term care administration
- palliative and end-of-life care

The program also requires six credit hours of electives to support the track and career interests. Students should see the academic unit for the current approved elective list. Other courses may be used with approval of the academic unit.

For other requirement coursework, students select either HCA 509 or HCA 510.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- professional resume
- letter of intent or written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program

description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/aging-ms/>)

Career Opportunities:

Graduates of the Master of Science program in aging have the knowledge and training to provide relevant information for the aging population in a wide variety of settings. The broad base of comprehension and expertise enables graduates to effectively participate and lead within the aging community.

Career examples include:

- entrepreneur
- facilities director
- program manager
- research coordinator

Clinical Research Management, MS (NUCRMMS)

Online Degree Search Title: Clinical Research Management, MS

Campus: Online

Program Description:

Clinical research management is a growing field of medical, health and research professionals who direct and conduct clinical trials for new medical products.

With clinical research rapidly expanding, the clinical research master's program takes a transdisciplinary approach in providing an education strong in commercial and fiscal practices of conducting clinical research to prepare students for clinical trial management. This graduate program explores the ethical and regulatory aspects of research and overall management of clinical drug, biological and medical device trials, management of clinical studies, data management, drug discovery and medical devices. In this master's program, students are encouraged to innovate and develop entrepreneurial skills to lead clinical research endeavors.

The MS program in clinical research management is designed to be flexible and conducive for the adult learner and working professional. Part-time study is available. Completion of the program requires a project applicable to the clinical research management field.

This clinical research management graduate degree is the first clinical research graduate degree to receive accreditation from the Commission on Accreditation of Allied Health Education Programs. The CAAHEP is the largest programmatic accreditor in the health sciences field and is recognized by the Council for Higher Education Accreditation in the U.S. and internationally.

Degree Requirements:

33 credit hours including the required capstone course (HCR 566).

Required Core (18 credit hours)

- HCR 551 Clinical Research Monitoring (3)
- HCR 561 Responsible Conduct of Clinical Research (3)
- HCR 562 Clinical Research Data Management and Technology Implementation (3)
- HCR 563 Fundamentals of Regulatory Affairs (3)
- HCR 565 Clinical Research Operations (3)
- HCR 574 Scientific and Research Review Boards (3)

Restricted Electives (12 credit hours)

- HCR 552 Medical Device Development and Regulation (3)
- HCR 553 Quality and Clinical Research (3)
- HCR 555 Pharmaceutical Safety and Risk Management (3)
- HCR 557 Clinical Research Design and Methods (3)
- HCR 564 Global Regulatory Affairs Leadership (3)
- HCR 567 Research Management and Contemporary Research Topics (3)
- HCR 568 Health Care Project Management (3)

HCR 575 Management and Negotiation of Clinical Trial Budgets and Contracts (3)
HCR 576 Drug Discovery, Development and Regulations (3)

Culminating Experience (3 credit hours)
HCR 566 Capstone Clinical Research Management Project II (3)

Additional Curriculum Information
Students select four courses from the restricted electives list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree that includes courses with content in anatomy and physiology and medical terminology or if they have earned a bachelor's degree. Education or experience in anatomy, physiology and medical terminology is recommended.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours or 90 quarter hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume or curriculum vitae
- two online references
- personal statement
- response to application questions
- proof of English language proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The applicant must have six months of full-time, related clinical research work or internship experience as described in a resume or curriculum vitae. Applicants who do not have six months of experience are required to complete a course in clinical research foundations, provided by the program, prior to enrolling in courses.

The online references should be from colleagues, supervisors or other professional contacts and should attest to the applicant's academic and leadership experiences.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-clinical-research-management/>)

Career Opportunities:

Arizona State University's Master of Science degree program in clinical research management prepares students for careers in governmental and regulatory agencies, health care institutions, academic institutions, and national or international research organizations.

Graduates with a Master of Science in clinical research management have career opportunities in many areas. Career examples include:

- clinical data manager
- clinical research associate
- clinical research coordinator
- clinical trial director
- clinical trial program manager

Clinical Research Management (certificate), Certificate (NUHCRGRCC)

Online Degree Search Title: Clinical Research Management (Graduate Certificate)

Campus: Online

Program Description:

The clinical research management certificate is for research professionals seeking to advance their career in the clinical research business. The program is designed to help them build a solid foundation in clinical trial management.

Students of this program learn the ethical and responsible conduct of clinical research as well as clinical research regulations, ethics, operations and data management. This includes management of day-to-day operations, recruitment, retention, staffing, data management and more in clinical trials.

Degree Requirements:

15 credit hours.

Required Core (12 credit hours)

HCR 561 Responsible Conduct of Clinical Research (3)

HCR 562 Clinical Research Data Management and Technology Implementation (3)

HCR 563 Fundamentals of Regulatory Affairs (3)

HCR 565 Clinical Research Operations (3)

Restricted Elective (3 credit hours)

Additional Curriculum Information

Students should see the academic unit for the list of restricted electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume or curriculum vitae
- two online references
- personal statement
- response to application questions
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants must have six months of full-time, related clinical research work or internship experience as described on the applicant's resume or curriculum vitae. Applicants may be required to submit a job description or internship transcript from their employer.

The online references should be professional references from colleagues, supervisors, professors or other professional contacts who can attest to the applicant's academic and leadership experiences.

Knowledge of anatomy, physiology and medical terminology is recommended.

Applications are due 30 days before the start of the session.

Clinical Research Management (Regulatory Science), MS (NUCRMRSMS)

Online Degree Search Title: Clinical Research Management (Regulatory Science), MS

Campus: Online

Program Description:

Regulatory science addresses the safety, efficacy, quality and regulation of new medical products, diagnostics and treatments. Regulatory affairs ensure new products meet the requirements and standards set by regulatory authorities. This master's program aligns regulations and national competencies throughout the lifecycle of medical products. With a regulatory science degree, graduates may have the ability to advance medical care and treatment while ensuring new discoveries adhere to rules and regulations that keep patients safe.

The regulatory science concentration of this program provides students a balance of clinical research management and regulatory affairs and sciences. Coursework in this rigorous program includes regulatory writing techniques, quality assurance, medical devices and drugs, and pharmaceutical safety and risk management, ethical standards and regulation in addition to clinical trial management.

This program meets the needs of professional adult learners and provides the flexibility of online courses and allows enrollment five times per year. Students can complete the program on a part-time basis allowing them to continue to work while earning this masters degree.

This clinical research management graduate degree is the first clinical research graduate degree to receive accreditation from the Commission on Accreditation of Allied Health Education Programs. The CAAHEP is the largest programmatic accreditor in the health sciences field and is recognized by the Council for Higher Education Accreditation in the U.S. and internationally.

Emergency Nurse Practitioner (Certificate), Certificate (NUEMNPGRCT)

Online Degree Search Title: Emergency Nurse Practitioner (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

This certificate program, accredited by the Commission on Collegiate Nursing Education, is designed for nurses who are board certified as a family nurse practitioner, those who seek additional certification as an emergency nurse practitioner, or for students currently enrolled in their third year in the DNP program in family nurse practitioner at Arizona State University who seek to become an emergency nurse practitioner. This program is validated by the American Academy of Emergency Nurse Practitioners.

Courses focus content needed to care for patients across the lifespan in ambulatory, urgent and emergent settings. Focus on care for patients with cardiovascular, thoracic-respiratory, dermatologic, abdominal, musculoskeletal, psychiatric, traumatic, renal, genitourinary, endocrine, nervous, head, ear, nose and throat system diseases and disorders.

This program is offered in a hybrid in-person and iCourse format that requires students to travel to campus one or two times per semester.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete their assigned clinical placement.

Students residing outside of Maricopa County, Arizona, are responsible for identifying the required number of clinical sites in their area of residence and for identifying preceptors and sites willing to accommodate clinical rotations, and Edson College of Nursing and Health Innovation must approve these sites before starting any clinical experience; the DNP program office does not guarantee a clinical placement site for any student outside Maricopa County. If, during the program, faculty determine the student needs additional supervision for clinical progress in the program, the student must complete clinical experiences in the Phoenix area.

Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas when sites are available for these experiences.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to persons located in individual SARA states in accordance with the Council's established policies and standards. California does not participate in SARA and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College. These exceptions are noted on the ASU state authorizations website: <https://admission.asu.edu/academics/authorizations> (<https://admission.asu.edu/academics/authorizations>).

Degree Requirements:

15 credit hours.

Required Core (15 credit hours)

DNP 610 Principles of Advanced Emergency Nursing I (3)

DNP 611 ENP Practicum I: Advanced Emergency Nursing Practice (3)

DNP 630 Principles of Advanced Emergency Nursing II (3)

DNP 631 ENP Practicum II: Advanced Emergency Nursing Practice (3)

DNP 649 Advanced Physiology (3)

Additional Curriculum Information

Every certificate student must complete 270 hours of direct patient care with a nurse practitioner or physician preceptor in the clinical setting. Documented clinical experiences are required by the certification organization (AANP) in order for the graduate to be eligible to take the national Emergency Nurse Practitioner certification examination.

Focused clinical experiences are arranged with appropriate preceptors and administrators. Every attempt is made to arrange this in the student's geographical area. In the event that clinical sites are unavailable in that area or if the faculty determine the student needs additional faculty supervision of skills, the student is required to complete the clinical experience in the Phoenix area. Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas, and sites are available for these experiences.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree in nursing, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- three professional letters of recommendation.
- professional resume
- goal statement
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

The goal statement should indicate the applicant's understanding of the role of the advance practice nurse with the population of interest and any experience the applicant may have working with the patient population of interest.

The admission essay should briefly describe how meeting "The Essentials of Doctoral Education for Advanced Nursing Practice" (2006) will further their career goals.

Applicants must be a licensed family nurse practitioner currently, or enrolled in the family nurse practitioner program at ASU.

An interview with program faculty is required.

Health and safety requirements include passing disposition on a background clearance and satisfactory completion of a substance screen.

No admission examination is required.

Career Opportunities:

The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. Graduates of the emergency nurse practitioner certificate program have the knowledge and training to provide health care for patients across the lifespan in a wide variety of settings. The broad base of comprehension and clinical expertise graduates have enable them to effectively participate and lead within clinical, community and academic arenas.

Career examples include:

- business owner
- community advocate
- nurse practitioner
- professor

Professional Licensure:

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state.
