Course Component	Description
Fieldwork (FLD)	Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.
Individualized Instruction (IND)	A class in which an individual student is provided an opportunity for original study or investigation in a major or field of specialization on a more autonomous basis. Normally a contract or plan is used and supervised by faculty and/or practitioners.
Integrated Lecture/Lab (LEL)	Integrated lecture/lab is a class that has some lecture and some hands-on components but do not require a separate time like a traditional lab.
Laboratory (LAB)	The hands-on, workshop component of a class usually held in a laboratory. The laboratory time is separate from the lecture although it is often associated to a lecture(s).
Lecture (LEC)	A traditional method of instruction in which students are taught a subject by a member of the faculty.
Practicum (PRA)	Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely. Internships and student teaching fit into this category. These classes are often held off campus at a professional location.
Recitation (REC)	Recitations are small interactional meetings that combine formal presentations, review, and interaction between the students and an instructor. These are small interactional meetings and are usually combined with a lecture as the primary component. Recitations are often lead by teaching assistants (TAs) or graduate assistants (GAs) to supplement a lecture. TAs/GAs review the lecture, expand on the concepts, and usually allow for question/answer time.
Research (RSC)	Under the supervision of a faculty member or group of faculty, student conducts research that is expected to lead to a specific project such as dissertation, thesis, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.
Seminar (SEM)	A small class emphasizing discussion, presentations by students, and written research papers.
Studio (STO)	A hands-on workshop component of design and the arts courses.
Thesis (THE)	Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.
Discussion (DIS)	Discussions are small interactional meetings that combine formal presentations, review, and interaction between the students and an instructor. They are usually combined with a lecture as the primary component.
