Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates often work as members of design and development teams, cooperating with other people in and outside of their company. The BS in mechanical engineering technology, and its automation engineering technology concentration, offer great flexibility in type of work and location. Graduates are prepared to seek employment in any company that employs automated manufacturing equipment, large and small, providing a wide range of opportunities for graduates. This very wide spectrum includes food and beverage processing, aerospace and automotive manufacturing, and power companies. Students can also seek traditional mechanical engineering technology employment opportunities in companies that design, develop, manufacture, implement and improve products, machinery and systems.

Mechanical Engineering Technology (Automotive), BS (TSMECTBS)

Campus: Polytechnic

Program Description:

Mechanical engineering technology programs offer students four years of applied engineering education in a hands-on, experiential, team-based learning environment. Our faculty members have real-world engineering experience, which they use to teach students how to apply engineering theory to practice in state-of-the-art labs stocked with up-to-date equipment used in industry today. Students learn how to produce practical and technically innovative solutions to real-world problems, thereby helping people and the environment.

The automotive concentration addresses vehicle design. The course configuration is based on the functional structure of an automotive company and emphasizes system integration of power plants, chassis and related systems.

The mechanical engineering technology program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Product Development and Manufacturing Technology, BS (TSMETBS)

Campus: Polytechnic

Program Description:

Product development and related manufacturing technology is a wide-ranging and dynamic field. Conceiving of products and moving them to market is a complex and fascinating process that begins with an understanding of the humans who will use the product. Then, the prototype must be made, developed and manufactured on a scale that ensures financial success. The product development and manufacturing technology degree provides students with the opportunity to learn all these facets of successful product development. At its core, product development is about creating and delivering products that have value to customers and society.

People with deep knowledge of product development are key team members in the production of products such as automobiles, airplanes, electronic devices, surgical instruments, toys, building products and foodstuffs. They often work closely with manufacturing engineers in the design of processes to make products with the required functionality, to desired quality standards, based on customer's needs, at the best possible price and in environmentally friendly ways. The product development curriculum provides students a hands-on, team-based learning environment, with students having access to outstanding fabrication facilities.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Software Engineering, BS (TSSERBS)

Campus: Polytechnic, Online

Program Description:

The program blends engineering, computing, project leadership and software construction. Students learn how to make creative software solutions to today's problems. Software systems are complex, often including in excess of a million lines of code. Graduates of the BS in software engineering possess the knowledge and skills of a defined engineering approach to complex systems analysis, planning, design and construction.

The program is a unique project-driven curriculum, establishing a new model for software engineering education. The program is built around the

concepts of engaged learning, discovery-based education and learn-by-doing. Students complete projects in every semester of the program, to provide emphasis in communication, teamwork, critical thinking and professionalism. Students have flexibility in designing their course of study; they select a software engineering application area such as Web applications, mobile systems, embedded systems, or graphics and game development as their primary focus, and they may obtain interdisciplinary knowledge through a secondary area of their design.

Please note that the accelerated degree is only allowed for the software engineering program on the Polytechnic campus.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Software Engineering (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- Admission may be granted with one deficiency in no more than two competency (<https://students.asu.edu/admission/competencies>) areas. Deficiencies in both math and laboratory science are not acceptable.

Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 2.75 for less than 24 transfer hours, and
- satisfy the freshmen admission requirements

Transfer students with more than 24 transferable college credit hours:

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- If Admission Services requires submission of a high school transcript, admission may be granted with one deficiency in no more than two competency (<https://students.asu.edu/admission/competencies>) areas. Deficiencies in both math and laboratory science are not acceptable.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. (http://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-software-engineering?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Career Opportunities:

Software engineers solve a broad set of transdisciplinary problems and apply new technologies to improve the quality of life. Graduates design and engineer innovative systems that may include mechanical and electrical components that interact with software. The bachelor's degree program in software engineering is a unique program in which students learn by solving engaging projects, commonly as a member of a development team. The program prepares graduates for advanced study in computing, an allied field, or to enter the computing profession (most commonly as an application software engineer). According to the Bureau of Labor Statistics, software engineers are highly paid, and there is significant growth in the number of employment opportunities. Some software engineering jobs may include:

- creating video games
- creating Web applications
- creating applications for mobile devices
- designing embedded systems
- developing distributed applications
- working on data, network, security or computer systems administration

Technological Entrepreneurship and Management, BS (TSTEM2BS)

Campus: Polytechnic, Online

Program Description:

The BS program in technological entrepreneurship and management advances the knowledge and practice of entrepreneurship and innovation. To enhance students' understanding of business fundamentals, the Fulton Schools of Engineering have partnered with the W. P. Carey School of Business to offer a degree jointly conferred by both colleges. The degree program prepares students to: address social and corporate issues to impact and change the world; create, launch and improve technology-based products, services and ventures; and identify and solve open-ended problems using engineering and technology approaches.

Through this degree program, students receive a foundation in both technology and business fundamentals, with an emphasis on technology entrepreneurship and innovation in one of two focus areas: innovation and operation management or social entrepreneurship.

The program objectives for this degree include:

- demonstrate the ability to identify, analyze and synthesize information to address and solve use-inspired, open-ended problems, assessing their impact on social, cultural and economic environments
- formulate methodologies to advance the knowledge of entrepreneurship and innovation
- launch technology-based products and services from idea generation through actualization
- use quantitative and qualitative methods to demonstrate continuous improvement of products, services, and processes
- utilize a systems approach for the effective design and improvement of entrepreneurial and innovation ventures

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Career Opportunities:

Small businesses and startups create the majority of new jobs in the U.S., while larger corporations are looking to hire individuals who can see the big picture and solve complex problems. Students in the technological entrepreneurship and management program learn the range of skills needed to develop new products, services and business models as well as whole new industries. The technological entrepreneurship and management program prepares students for a wide variety of career possibilities, including technology-based entrepreneurship, product development, consulting, venture capital analysis, business development, market analysis, technology marketing and many more.

Future of Innovation in Society, School for the

Innovation in Society, BA (FIFISBA)

Campus: Tempe

Program Description:

This BA program in innovation in society provides students with tools and concepts to analyze new and emerging innovations and the diverse local and global futures they enable. Students will be prepared to build more inclusive future societies and develop strategies that link innovation with social needs and values. The curriculum develops transdisciplinary perspectives that synthesize research and theory from the social sciences, humanities, natural sciences, and engineering. Students will learn qualitative methods to investigate how science and technology have shaped and reflect social values, in preparation for careers in public service, business, policy and academia.

Global Management, Thunderbird School of

Global Management, BGM (TBTGMBGM)

Campus: West

Program Description:

The BGM degree program in global management draws on Thunderbird School of Global Management's expertise in global management practices and intercultural communication training to provide students with a highly specialized, global business education.

The Bachelor of Global Management program will prepare students to take on leadership roles in multinational corporations as well as nongovernmental organizations. Thunderbird's outstanding global management faculty members and strong relationships with global organizations will allow students to develop the skills needed to operate effectively in today's globally connected world. Students will develop skills that international employers, governments and nongovernmental entities value highly.

The program offers two tracks: the language and culture track, in which two years of foreign language is required; and the international business and culture track, in which there is no foreign language requirement but more emphasis on management-related courses. Students who select the foreign language track may complete course work in Arabic, Chinese or Spanish. Speakers of English as a second language can choose to focus on further developing their English language skills or choose a third language.

Students will have the opportunity to put the skills they have learned into practice in real-world settings through a required internship. Although the program strongly encourages students to pursue international internships, students may also satisfy this requirement by doing a local internship with an international orientation. Students will also complete a senior capstone project of their choice, which draws upon the unique skills they have developed throughout the program. The internship and the capstone project allow students to demonstrate their skills and work experience for potential employers as part of their professional development plan.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Admission Requirements:

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

At this time, this program is only available to incoming freshmen and students with fewer than 64 hours of transfer credit.

Career Opportunities:

Graduates of the Bachelor of Global Management degree program will have a variety of transferable skills combined with the ability to adapt to ever-changing business environments, tolerance for ambiguity and a demonstrated passion for learning about other cultures. Students who complete this program will be equipped to play key roles in multinational corporations and in government as well as nongovernmental organizations. There is demand for global skills in careers such as international business, trade, finance, accounting, human resources, marketing, corporate communications and international relations.

International Trade, BS (TBINTRABS)

Campus: West

Program Description:

The BS program in international trade provides rigorous training in skills related to a career in international trade. It is unique in training students in the knowledge and skills needed to do business in different parts of the world. Students learn the functional disciplines of international business while gaining an in-depth understanding of the political, cultural and economic aspects of doing business in the international market. Supported by Thunderbird's emphasis on a global perspective, students acquire tools to manage supply chains, systematically assess risk, export and import goods and services, and use economic agreements to develop effective strategies for conducting international trade.

Applied Science (Medical Laboratory Science), BAS (NUMLSBAS)

Campus: Downtown Phoenix

Program Description:

The BAS in medical laboratory sciences is designed to provide the academic knowledge and professional skills to allow students to advance their employment opportunities within the field of medical technology, cytology, clinical laboratory science and related areas. Medical laboratory scientists, also known as clinical laboratory scientists, are highly skilled professionals who perform analytical tests on blood, tissue and body fluids to provide laboratory information for the detection, diagnosis and treatment of human diseases. They work independently and have skills and knowledge that are greater in depth and breadth compared to medical laboratory technicians, who typically are graduates of a two-year or community college program. There also is a growing trend for medical laboratory scientists to perform wellness laboratory testing aimed at preventing disease.

Biomedical Informatics, BS (ESBMIBS)

Campus: Tempe

Program Description:

Biomedical informatics combines information technology, data science and knowledge to improve health. The program will educate undergraduate students in the informatics knowledge and skills that will enable them to:

Improve the quality and reduce the cost of patient health care.

- Consolidate patient health history and interventions across hospitals and clinics.
- Provide the right information about patient health to clinicians.
- Reduce clinical errors and waste.

Minimize hospital visits.

- Manage patient clinical condition at home.
- Monitor patient health at home.
- Shorten hospital stays.

Improve patient hospital experience.

- Optimize patient time in the hospital.
- Provide patient with faster access to resources.

Detect disease early.

- Make early detection of patient condition.
- Track patient disease progression.
- Support clinician in making better diagnosis.

Improve the precision of diagnosis, prognosis and treatment of patient disease.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Biomedical Informatics (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Campus: Downtown Phoenix

Program Description:

The concentration in exercise for obesity prevention will prepare students to assist others in adopting physical activity behaviors for healthy lifestyles, obesity prevention and weight management. Students will engage in focused study on the use of exercise for reducing disease risk and improving health in meeting the challenges of obesity. Students will learn to assess health and fitness, learn about the etiology and consequences of obesity and provide appropriate exercise prescriptions for health and weight management goals. Students will be prepared for the American College of Sports Medicine Certified Exercise Physiologist certification exam. Students in this concentration will be exposed to applied assessment labs and practical internships to gain the knowledge and experience they will need to be competent exercise and health promotion professionals.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Students who complete the bachelor's degree program in exercise and wellness with a concentration in exercise for obesity prevention will be well-suited for employment in fitness and wellness-oriented locations such as:

- bariatric weight loss clinic counseling and management
- corporate fitness and worksite wellness
- health care systems and medical centers
- lifestyle and weight management consulting
- nonprofit disease prevention agencies (e.g., American Heart Association)
- university fitness and wellness centers

Students also will be well-prepared for admission into graduate programs in exercise physiology, obesity prevention and management, rehabilitative fields (e.g. physical therapy) and medicine.

Exercise and Wellness (Fitness and Wellness Specialist), BS (ECEXWBS)

Campus: Downtown Phoenix

Program Description:

The BS program in exercise and wellness provides the student with the knowledge and practical skills to assist individuals in attaining their personal level of optimum health. Students are prepared to pursue nationally recognized and credentialed certifications provided by professional organizations in fields of study related to fitness, strength and conditioning and sports medicine.

Students in the exercise and wellness degree program are matriculated through a carefully designed curriculum emphasizing:

- competency in the instruction of basic and advanced techniques related to flexibility, resistance training and cardiovascular exercise
- foundational knowledge of exercise physiology and applied kinesiology
- methods to understand and help improve individuals with regard to their health behavior choices
- skills in assessing and interviewing clients in preparation for fitness and wellness programming
- skills in designing and manipulating program variables to work with apparently healthy or symptomatic individuals
- competencies required to attain advanced level certifications from professional associations in the field

Students in the exercise and wellness degree program also have the ability to enroll in courses that will enhance their abilities to work with high performance athletes, obese individuals or those at risk for suffering from other hypokinetic diseases.

Employment of fitness and wellness professionals is expected to grow by up to 24 percent through 2020, much faster than other occupations, driven by efforts to reduce health care costs by teaching people about healthy behaviors. The need for exercise and wellness programming and facilities will increase the need for workers in these areas.

Additional Program Fee: Y

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Career Opportunities:

Students who complete the exercise and wellness degree will have enhanced opportunities in fitness and wellness employment settings because clients and employers prefer to work with people who are more highly prepared and qualified.

Undergraduates in this concentration often pursue careers in such fields as:

- clinical exercise
- corporate fitness
- fitness management

- personal training
- sports performance
- wellness centers

Students may also pursue further graduate study in such fields as:

- athletic training*
- cardiac rehabilitation*
- occupational therapy*
- physical therapy*
- physician assistant*

*Advanced degrees or certifications may be required for academic or clinical positions.

Exercise and Wellness (Health Promotion), BS (ECEXWHBS)

Campus: Downtown Phoenix

Program Description:

The BS in exercise and wellness with a concentration in health promotion provides students a pathway to become a Certified Health Education Specialist. Students will gain the knowledge, skills and expertise to develop and deliver programs that enhance awareness about healthy lifestyle behavior, increase health-enhancing behaviors, decrease health risk behaviors and create environments supportive of healthy lifestyles.

Students are prepared with:

- competencies required to pursue the Certified Health Education Specialist certification
- foundational knowledge in nutrition, physical activity and stress for chronic disease prevention
- knowledge, skills and ethics for assessing and understanding group and community health needs
- methods for helping people make health behavior changes and teaching people about health risks and behaviors
- skills in designing, implementing, administering and evaluating effective health promotion programs in work site, community, health care and agency settings

A distinctive aspect of the health promotion concentration is an outstanding capstone internship that provides preprofessional experience in health promotion settings.

Additional Program Fee: Y

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.
 Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The rising cost of health care has increased the need for individuals with the skills and abilities to provide health education and health promotion programs. As health care costs continue to rise, insurance companies, employers and governments are attempting to find ways to curb costs. One of the more cost effective ways is to employ health promotion professionals to teach people how to live healthy lives and avoid costly treatments for illnesses. Health promotion professionals work in various environments based on the industry in which they are employed. In public health, nonprofit organizations, corporations and businesses, colleges and universities, and medical care settings, they primarily work in offices. However, they may spend a lot of time away from the office implementing and attending programs, meeting with community organizers, speaking with patients or teaching classes.

Undergraduates in this concentration often pursue careers in such fields as:

- college and university wellness and health promotion
- government health departments and agencies
- health and wellness coaching
- nonprofit disease prevention agencies
- private health care organizations
- wellness centers
- worksite wellness and health promotion

Students may also pursue further graduate study in such fields as:

- dentistry
- health education
- health promotion
- health psychology
- medicine
- occupational therapy
- physician assistant
- public health

Advanced degrees or certifications may be required for academic or clinical positions.

Exercise and Wellness (Strength and Conditioning Specialist), BS (NHEXWSCBS)

Campus: Downtown Phoenix

Program Description:

The strength and conditioning specialist concentration is designed for students who want to work with competitive athletic or occupational athletic populations. These students will work with high school, college or professional sports organizations in scholastic or private sports performance training facilities, with tactical sports performance clients (military, police, firefighters, EMT) in municipal or government-run facilities or with individual clients participating in competitive recreational activities. The student will be prepared to sit for the Certified Strength and Conditioning Specialist or the Tactical Strength and Conditioning-Facilitator examinations offered by the National Strength and Conditioning Association (<https://www.nasca.com>) at the completion of their course work. Students in this concentration will be exposed to applied assessment labs and practical fieldwork to gain the knowledge they will need to be competent coaches in this field.

Health Education and Health Promotion, BS (NHHEHPBS)

Campus: Downtown Phoenix, Lake Havasu, Online

Program Description:

The BS in health education and health promotion provides students a pathway to become certified health education specialists, and it is the only undergraduate program at ASU designed specifically to provide professional preparation in population-based health, including school and community health education. Students pursuing a bachelor's degree in health education and health promotion will gain foundational knowledge in health promotion program planning, implementation and evaluation, as well as certified health education specialist competencies, and they will learn about specific health education strategies for effectively delivering community and school health education interventions. Students will develop an understanding of various areas addressed by certified health education specialists, including, injury prevention, violence prevention, substance abuse prevention, sexual health education, emotional health education, foundations of school health education, social media and marketing in health education, nutrition, physical activity, stress for chronic disease prevention, and more.

Additional Program Fee: Y

Second Language Requirement: N

Health Sciences (Health Policy), BS (NUHSCHPBS)

Campus: Downtown Phoenix

Program Description:

The BS in health sciences is designed to provide the academic knowledge and skills to allow students to move directly into a range of employment opportunities within the health field or continue their education in discipline-specific programs. Students will complete a complement of core courses that emphasize ethics, communication skills, critical thinking and cultural awareness.

The health policy program is designed for students interested in the community policy aspects of disease prevention and health promotion. The continuum of health care now spans a diverse array of health providers ranging from private practitioner offices and outpatient care centers to residential care facilities and acute care hospitals. Key to the enhancement of health care within the U.S. is the development and implementation of innovative, cost effective and universally accessible programs. Students in this concentration will be required to complete a supervised practicum, providing hands-on experience within their field of interest. Students may also wish to consider using their electives to complete a minor in nonprofit administration, which requires 15 credits.

Health Sciences (Healthy Lifestyles Coaching), BS (NUHSCHLCBS)

Campus: Downtown Phoenix, West, Online

Program Description:

The BS program in health sciences is designed to provide the academic knowledge and skills to allow students to move directly into a range of employment opportunities within the health field or continue their education in discipline-specific programs. Students will complete a complement of core courses that emphasize ethics, communication skills, critical thinking and cultural awareness. The healthy lifestyles coaching emphasis brings together course work from exercise and wellness, nutrition and health sciences to give students a strong background in preventative health care.

The on-campus program is accredited by National Consortium for Credentialing Health and Wellness Coaches program accreditation standards:

<http://www.ncchwc.org/organizations/> (<http://www.ncchwc.org/organizations/>). Students in the on-campus program will receive a health and wellness coaching certificate and will be able to sit for the NCCHWC certification examination if they choose to do so upon graduation.

The degree program allows students to explore a range of interests in health education and is designed for students who are seeking immediate employment in the community health education or health promotion fields. For those interested in further education, the program also is constructed to meet the prerequisites for pursuit of a Bachelor of Science in Nursing.

Additional Program Fee: Y

Health Sciences (Pre-professional), BS (NUHSCPRES)

Campus: Downtown Phoenix

Program Description:

The BS in health sciences is designed to provide the academic knowledge and skills to allow students to move directly into a range of employment opportunities within the health field or continue their education in discipline-specific programs. The preprofessional program is designed for students planning to enter medical, dental, osteopathic, physical therapy, veterinary, pharmacy and similar professional schools. In addition to a comprehensive core of basic science courses, the concentration is unique in that it will provide a solid base in ethics; communication; the evaluation of research (the cornerstone of evidence-based practice); and healthy lifestyles (the foundation of health promotion and chronic disease risk reduction avenues of health care), including the role of complementary and alternative care within the U.S. health care system. Students will also have the ability to incorporate electives that contribute to their knowledge of and sensitivity to the needs of populations impacted by health disparities.

Health Systems Management, BS (TSHSYMBS)

Campus: Polytechnic

Program Description:

The BS in health systems management provides students with a unique opportunity to develop a marketable skill set via a multidisciplinary educational approach to the development of health care leaders, technologists and entrepreneurs. The flexible program allows students to select one of two focus areas, technology entrepreneurship management and information technology management. The degree develops graduates whose decisions are evidence-based, a critical skill as health systems evolve. Students will receive a strong foundation in health systems, technology, business and consumer-behavior associated with health, with an emphasis on innovation and service development. Program graduates will have the skills to transform the current health care system or individual health care organizations to become more efficient and agile by improving processes, adopting best practices, evaluating and adopting technologies. Graduates will lead such organizations and systems to become more competitive globally.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 119 - Finite Mathematics

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates of the program are well qualified for careers in the management of health systems. This degree couples technical skills with the business skills needed to manage complex health systems. The focus area of information technology management allows the graduate to pursue a career in technical support administration for various health systems, which will address information assurance, securing computer applications, and security of communication and information. These skills are combined with knowledge of computer systems and networking design, configuration and

administration. The process innovation focus area provides students with the opportunity to analyze and improve processes and practices as well as generate and evaluate products and services for the health system enterprise. Students will be able to pursue careers in marketing and consumer behavior as it relates to health systems. Careers in health systems operations and social entrepreneurship will be available to these students.

Medical Studies, BS (NHMEDBS)

Campus: Downtown Phoenix, West

Program Description:

The BS in medical studies is an interdisciplinary degree program designed to provide a solid undergraduate knowledge base in health and health care. The program provides a rigorous education in the natural sciences, social sciences, humanities, statistics, health economics and global health, with particular attention to the integration of disciplines and the impact on health and health care. Students will learn about health systems and gain skills in evaluation of the health sciences literature, communication, leadership and interprofessionalism. The program prepares students for health-related careers and is designed for students with an interest in postgraduate health degrees, such as medical school, providing excellent preparation for the changes in the MCAT and medical school admission requirements.

Nutrition (Food and Nutrition Management), BS (ECNTRMBS)

Campus: Downtown Phoenix, Online

Program Description:

The BS in nutrition with a concentration in food and nutrition management provides students with the ability to apply nutrition principles to food production. This concentration is designed to provide students with an understanding of the food industry so they can manage and market food and develop a food or menu that meets a specific nutritional guideline.

Course work focuses on a strong foundation in food purchasing, production and planning. Additional course work in management, marketing and nutrition prepares students for a variety of food service positions. Graduates can also pursue the credentials of certified dietary manager, school nutrition specialist or registered sanitarian.

Campus: Downtown Phoenix

Program Description:

The BS in nutrition with a concentration in food and tourism management prepares students to operate healthy, cost-effective food service operations in the food and tourism industries. Students take courses from the School of Nutrition and Health Promotion in the College of Health Solutions and from the School of Community Resources and Development in the College of Public Service and Community Solutions to develop a unique skill set to thrive in these growing industries.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

This program is beneficial for students interested in seeking careers as food service directors in resorts, parks, convention centers and a variety of other tourism venues around the globe.

Nutrition (Human Nutrition), BS (ECNTRHBS)

Campus: Downtown Phoenix

Program Description:

The BS in nutrition with a concentration in human nutrition provides students with a strong foundation in nutrition and science that prepares them for careers in public or community health and clinical or graduate research programs. Students in this concentration usually intend to apply to medical school or another health profession. In addition to providing a strong foundation in medical nutrition therapy, the course work includes anatomy, physiology, chemistry and microbiology. Students gain knowledge of nutritional concepts that health care professionals sometimes lack.

Students from this program have gone on to study:

- dentistry
- medicine
- naturopathic medicine
- optometry and podiatry
- osteopathic medicine
- pharmacy

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Career Opportunities:

The nutrition field provides employment opportunities in:

- education
- food and nutrition marketing and sales
- food service
- health care
- nutrition and health promotion and consulting
- public health

Graduates of the human nutrition program often go on to apply to medical school or another health profession. The area of nutrition research is also a good fit for human nutrition majors. Several outstanding scientists have received their bachelor's degree from this program; add a master's degree or a doctorate, and the opportunities within the research field are unlimited.

Nutrition (Nutrition Communication), BS (ECNTRCBS)

Campus: Downtown Phoenix, Online

Program Description:

The BS in nutrition with a concentration in nutrition communication is designed to help students become experts in communicating health and nutrition content. This concentration was originally developed in collaboration with the Walter Cronkite School of Journalism and Mass Communication.

Nutrition courses provide the content for articles students write in their communication-related classes. This degree program provides students with a strong understanding of the scientific method, statistics, nutrition, health care and wellness that many traditional journalists lack. Faculty members teach students how to avoid sensationalism or sacrificing reality to get a better story.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(http://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-nutrition-communication?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The nutrition communication field offers employment opportunities with:

- community and health care agencies
- magazines
- newspapers
- private corporations (public relations firms)
- Web-based companies

With this degree, graduates can pursue careers as:

- authors
- consultants in program or product development
- freelance writers for newspapers and magazines
- public relations representatives for food and beverage companies

Public Health, BS (NHPBHBS)

Campus: Downtown Phoenix

Program Description:

The BS in public health is designed to provide students with knowledge and skills in the core concepts of public health; namely health behavior, health statistics, environmental health, epidemiology, health administration and policy. The degree prepares public health practitioners who are competent to plan, implement, evaluate and monitor public health functions in local, state, national and international settings. Graduates are prepared to fill entry-level positions in public and community health as well as to further their education through the Master of Public Health, Master of Health Administration or other advanced degree programs. The bachelor's degree in public health is designed to appeal to students with interests in population rather than individual health.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Graduates of this program will qualify for entry-level positions in public health education, sanitation and environmental control, public health administration, health promotion and similar areas. Employment opportunities are available within national, state or local health departments; community clinics, community or private advocacy groups, health education programs and nonprofit organizations.

Science of Health Care Delivery, BS (NHHCDBS)

Campus: Downtown Phoenix

Program Description:

The BS in the science of health care delivery is designed to provide undergraduate students a foundation in the multidisciplinary field of health care delivery. The student will receive a solid knowledge base in health care systems, health economics and policy, population health, health information technology and analytics, health care management, process engineering and health care finance as well as skills in leadership and communication. Graduates may pursue entry-level positions in health care administration, delivery or policy or pursue further education through graduate programs.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with Science of Health Care Delivery

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates of this program will be academically prepared, well-rounded and adept in skills for a number of exciting careers in health care. Job areas may include entry-level positions in health care administration, management, policy, system design, quality improvement and health services research. Opportunity may include jobs in hospital systems, physician practices and clinics, patient navigation, the pharmaceutical industry, insurance companies, government and regulatory agencies, and health research organizations. Students may pursue further education through graduate programs in areas such as health care delivery, administration and management.

Speech and Hearing Science, BS (LASHSBS)

Campus: Tempe

Program Description:

Students in the BS in speech and hearing science program study the normal aspects of the communication process. Emphasis is placed on:

- anatomy and physiology of the hearing mechanism
- speech, language and hearing science
- the human communication system, including normal development of speech and language

Graduates attain broad-based knowledge in the basic aspects of speech, language and hearing sciences, which prepares them for graduate studies in audiology or speech language pathology.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Employment opportunities for those with a bachelor's degree may include positions as:

- management trainees
- research assistants or associates in behavioral disciplines
- speech-language pathology assistants

Primarily, a degree in this field prepares the student for entrance into a graduate program in speech-language pathology or audiology. In both fields, a graduate degree is required for employment.

The undergraduate degree in speech and hearing science is also excellent preparation for those who wish to enter professional or graduate programs in fields such as:

- education
- law
- medicine
- rehabilitation
- special education
- teaching for the deaf

Graduates in speech-language pathology and audiology can work in a variety of settings, including:

- clinics
- hospitals
- schools

Honors - Barrett, The Honors College

Honors College, (9HOHONALL)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:

ABOUT THE COLLEGE

Barrett, the Honors College is a selective, residential college that recruits academically outstanding undergraduates. Named "Best Honors College" in the nation, this honors community is known nationally for its record-breaking number of National Merit, National Hispanic, and Flinn scholars and its nationally ranked numbers of recipients of Fulbright, Truman, Goldwater, Udall and Marshall fellowships.

Barrett is an international model for supporting ASU honors students with a presence on four campuses, a multimillion dollar endowment used to support honors students and their projects, and dedicated deans, faculty and staff that include 42 Faculty Fellows within the college; more than 1,800 faculty members who teach honors students university-wide each year; and 61 staff. Barrett represents a powerful and unique combination of the special care and attention an honors student should expect in academics and advising from an excellent residential liberal arts college, with the vast program choices and research mentoring resources of a vibrant Research I university.

In 2009, Barrett opened the nation's first comprehensive four-year residential honors college within a top-tier Research I university. The \$140 million nine-acre honors campus community on the Tempe campus includes all the Barrett Faculty Fellows and administration offices; 14 classrooms; 1,700 beds; a dining center with signature refectory and cafe; several courtyards; and a community center with student lounges, activity rooms and computer labs. The four-year residential campus in Tempe expanded to the Vista Del Sol property across the street in 2013 and now accommodates 1,300 additional beds, the honors admission and recruiting operations, and amenities that include a theater, a pool, a writing center, and fitness, recreation and events facilities. Barrett students on the Polytechnic, West and Downtown campuses also enjoy new facilities and the benefits of living in growing honors communities that offer the four-year honors residential component, academic and co-curricular experiences, and

faculty and staff committed to enabling the best education possible for intellectually engaged students from around the world.

PROGRAM REQUIREMENTS

Barrett welcomes applications from highly motivated, high-achieving, academically strong high school seniors and transfer students, as well as students currently enrolled at ASU. Prospective students may apply to Barrett after they have submitted an application to ASU. Current ASU and transfer students can apply for entrance to Barrett in the second semester of the freshmen year or the first semester of the junior year. Admission information and the online application are available on the Barrett website at <https://barretthonors.asu.edu> (<https://barretthonors.asu.edu>).

Barrett students complete a challenging honors curriculum through a combination of honors-only seminars, honors enrichment contracts, internships, research, honors study abroad and a culminating honors thesis or creative project. Generally, students complete 36 hours of honors credits within the 120 credit hours required to earn a bachelor's degree. Details regarding the academic requirements can be viewed using the major map.

STUDENT OPPORTUNITIES

Barrett students take advantage of an array of opportunities that enrich the honors experience.

They receive national and international graduate scholarships. They engage in cutting-edge research with distinguished ASU faculty, and they benefit from special partnerships with the Mayo Clinic, the Biodesign Institute, and Intel. Students are developing iPhone applications, building robots, designing games or developing tools to improve health care, meet global energy needs, provide clean water or secure data and information privacy.

There are more than six hundred internship opportunities developed exclusively for Barrett students. All internships are paid positions with companies or agencies like Goldman Sachs, Google, Microsoft, and the American Heart Institute. Students also secure internships in the Arizona governor's office, local congressional districts, and the United States Senate.

Many Barrett students cultivate leadership opportunities and organize a full range of service, wellness, arts, cultural, social, entrepreneurial and sustainability programming. Popular events on the Tempe campus include Lunch with the Dean, Dinner with Faculty nights, and the Ladies Tea at the historic University Club. Barrett students have opportunities to attend Tony Award-winning Broadway musicals at Gammage theater; explore the world's only Musical Instrument Museum; attend weekly Zumba or Insanity fitness classes; learn healthy eating habits from a certified nutritionist; and share their musical talents at monthly Open Mic Nights in Barrett's very own Burning B Cafe.

Our Downtown Phoenix campus hosts a fantastic Urban Tour series with visits to the time-honored Orpheum Theater and world-renowned Heard Museum. Popular events downtown include Donuts with the Dean, the Barrett Fashion Show and Career Development night, and the Winter Wonderland Barrett Ski trip. Our Polytechnic campus is known for its Innovation Showcase, an impressive exhibition of student projects that demonstrate how students are solving real-world problems with innovative solutions. The Barrett Polytechnic campus faculty and staff also host the Human Event Tribunal, Pottery Painting, Earth Week festival and Golf Land and Sun Splash excursions. Our West campus Barrett faculty and staff host the annual TEDx event and other traditions like the Barrett Ball and Meet the West Campus Deans night.

Barrett students on all four campuses participate in summer abroad programs that enable them to enjoy small classes taught by Barrett faculty and experience different cultures while earning honors credits. Great American Cities is one of the most popular travel programs, with a visit to cities like Boston, New York, New Orleans, Anchorage and Miami to engage in a service project and soak in the history, culture and great food. Other travel opportunities range from turn-around trips to Arizona parks and monuments to overnight trips to San Diego or ski trips to Colorado.

Additional Program Fee: Y

Second Language Requirement: N

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students must complete an application to Arizona State University before submitting a separate application to Barrett, The Honors College. Students who have demonstrated high levels of academic achievement in high school or college may apply for admission to Barrett. Each candidate must file an application to the college separate from the ASU application, in accordance with the appropriate Barrett deadlines.

Applicants are evaluated on the basis of their academic records, their ranking within the graduating class, and their performances on the SAT or ACT. The college also values students who have special talents and aptitudes, exhibit exceptional leadership qualities, have had unusual life experiences or display significant community involvement.

The Barrett admission application and additional information about the college and its activities are available at <http://barretthonors.asu.edu> (<http://barretthonors.asu.edu>).

Integrative Sciences and Arts, College of

Agribusiness (Preveterinary Medicine), BS (AGAGBPBS)

Campus: Polytechnic

Program Description:

The BS in agribusiness teaches students the business of agricultural production, finance, marketing and distribution. Students explore global agribusiness issues such as international trade, food safety and sustainability through a technology-rich curriculum that focuses on real-world projects.

The agribusiness industry is increasingly competitive, sophisticated and global, driving demand for innovative leaders who understand the industry's unique challenges and practices. The programs offered through the highly respected College of Integrative Sciences and Arts prepare graduates for success in graduate school or a wide range of careers.

By adding a concentration in preveterinary medicine, students can build on course work in chemistry and biology, to open opportunities for further study, including in veterinary medicine. Others may seek to apply their science knowledge in the human or veterinary pharmaceutical industries or in the food industry, with a focus on processing, production and food safety.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Applied Biological Sciences (Applied Biological Sciences), BS (TSABSABS)

Campus: Polytechnic

Program Description:

The BS program with a concentration in applied biological sciences offers students solid foundations in biology and related sciences while allowing them to focus on an area of special interest. This concentration works well for students interested in pursuing research careers in biology or for students planning to enter graduate or professional programs related to human health including:

- biotechnology
- dentistry
- epidemiology
- medical technology
- medicine
- physical therapy
- public health
- physician's assistant programs

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Applied Biological Sciences (Applied Ecology and Preveterinary Medicine), BS (TSABSRBS)

Campus: Polytechnic

Program Description:

The applied ecology and preveterinary medicine concentration is designed for students who want a strong scientific foundation in animal biology and health. It is especially appropriate for students planning to enter graduate or professional programs in veterinary medicine, animal health, or wildlife biology and ecology, or to start careers related to wildlife biology, ecology, restoration and rangeland management. Public and private career options are diverse and include small- and large-animal veterinary medicine, wildlife veterinary medicine, domestic and wild animal care, animal biology and habitat research and secondary education.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with Applied Biological Sciences (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Applied Biological Sciences (Sustainable Horticulture), BS (TSABSUBS)

Campus: Polytechnic

Program Description:

The sustainable horticulture concentration is designed for students who want theory and practical experiences in the unique aspects of the culture of plants in an urban desert environment. Students acquire the skills to produce, design and care for ornamental and edible plantscapes using sustainable technologies.

Students are prepared for a range of horticulture careers in the private and public sectors, including in nursery plant production, landscape design and culture as well as local food production and organic urban farming.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Horticulture is a multibillion dollar national and international enterprise that offers a diverse and exciting choice of professional careers. Graduates can pursue numerous entry-level careers in horticulture. Employment opportunities exist in private and public sectors. The sustainable horticulture concentration prepares graduates to succeed in graduate or professional schools in disciplines such as:

- aftermarket care of plants
- biology of the plants in desert cities
- care and management of trees in cities
- creation of public, community and private gardens in arid climates
- design and installation of outdoor landscapes including landscape irrigation systems
- integrated pest management

- nursery production
- marketing
- organic farming
- plant identification
- plant propagation

The general program in sustainable horticulture also prepares graduates to succeed in roles such as:

- arboretum or botanical garden manager
- city horticulturist
- city park superintendent or manager
- horticultural consultant
- horticultural plant researcher or educator
- horticulture products and supplies
- horticulture supply sales representative
- integrated pest management specialist
- interior plant specialist
- irrigation system designer or consultant
- landscape designer or contractor
- landscape services company owner or operator
- nursery plant broker and plant salesperson
- nursery production owner or manager
- organic farmer or permaculturist
- plant propagator
- urban forester, tree specialist or arborist
- urban plant ecologist

Career opportunities for urban horticulture graduates are not limited to any one geographic location; graduates can embark on careers throughout the United States, Canada, Mexico, and overseas.

Applied Mathematics, BS (LSMATBS)

Campus: Polytechnic

Program Description:

The BS program in applied mathematics offered by the College of Integrative Sciences and Arts is a transdisciplinary program focused on developing flexible problem-solvers who can apply mathematical techniques and skills to a wide range of problems in the biological and physical sciences. The course work builds a foundation in mathematical modeling, data analysis and the interpretation of mathematical results in real-world settings. Students choose science electives in applied biology, applied physics or other areas of interest to complement and provide context for their mathematical training.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Students in this program will be prepared to apply their analytic skills and technical knowledge to problems in a range of careers in industry, government, education or nonprofit organizations. They also may pursue advanced degrees in the mathematical sciences (e.g., mathematics, statistics and applied mathematics such as in mathematical biology).

cisa@asu.edu

Applied Physics, BS (LSAPHYBS)

Campus: Polytechnic

Program Description:

The acceleration of advances at the frontier between physics, engineering and technology creates a need for interdisciplinary training and research that is not readily accommodated by traditional single-focus programs in physics. Bringing fundamental physics together with its immediate applications, the BS in applied physics will be attractive to students whose interests span new physical technologies in industry and engineering. The degree combines physics, computer science and applied mathematics to tackle complex real-life problems in physics, material sciences, engineering, chemistry and others.

The bachelor's degree program brings together the expertise of physics faculty, particularly in modeling of physical systems which relies heavily on both modern numerical techniques and fundamental physics. The growing presence of Intel and other high-tech companies in the east valley and metropolitan Phoenix presents a unique opportunity to enhance the students' interaction with industry. Given the importance of hands-on experience, the degree program offers a series of unique courses allowing students interactive involvement in a project-based environment.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates of this program should be able to apply their knowledge in high-performance and scientific computing, biophysics, condensed matter physics, chemistry, material science, electrodynamics, and radar physics. This knowledge is vital for employment in chemical and pharmaceutical companies, environmental management agencies, and firms specializing in scientific software. Graduates should also be prepared to continue their studies in graduate programs in physics and chemistry.

Applied Quantitative Science, BS (LSAQSBBS)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:

Students will learn to integrate and apply STEM-like skills that are increasingly in demand in the 21st century. Students who complete the applied quantitative science degree program will acquire the following six "habits of mind" related to 21st century skills. A habit of mind is a mental activity that becomes increasingly automatic over progress through the curriculum and extends into career development.

- apply and project quantitative reasoning to unfamiliar contexts
- communicate well within and without the expert domain
- critically and adaptably think about complex problems
- effectively search through and evaluate information
- experiment creatively and in an informed manner in search of new insights
- use sophisticated insight involving statistical inference and quantitative reasoning

This program is offered as a stand-alone degree on the Polytechnic campus. Students pursuing degrees on all four metropolitan campuses can add this degree as a concurrent degree.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Increasingly, employers are hiring people who know how to use quantitative information. By completing this degree program, students will equip themselves with 21st century skills and knowledge that will be appealing to employers. People who work in any business or industry needs to use quantitative skills to solve problems.

Applied Science (Technical Communication), BAS (LSTECBAS)

Campus: Polytechnic

Program Description:

The BAS in technical communication is a flexible degree plan designed specifically for students who have earned an AAS from a regionally accredited institution. This major combines the technical experience gained in the student's associate degree program with a broader education of skills in management, leadership, critical thinking and communication.

Technical communication is applied workplace communication that makes technical information understandable and available to many audiences. In the technical communication concentration, students learn how to produce, design and manage information using both traditional and developing technologies.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from

Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree from a regionally accredited institution. This program is not available for freshmen.

Career Opportunities:

The Bureau of Labor Statistics estimates the need for writers and editors will increase by 25 percent during the next five years. Software and electronics companies, media corporations, financial institutions, government agencies, nonprofits and other areas will see an increased demand for writers. Students in the program will prepare for careers as:

- advertising and promotions managers
- communications teachers (postsecondary)
- copy writers
- correspondence clerks
- court clerks
- desktop publishers
- editors
- media and communication workers
- proofreaders and copy markers
- public relations specialists
- reporters and correspondents
- technical writers
- writers and authors

Communication, BA (LSCOMBA)

Campus: Downtown Phoenix, Polytechnic

Program Description:

The BA in communication in the College of Integrative Sciences and Arts explores how communication processes create, maintain and transform identities, relationships, workplaces and communities. With a dual emphasis on urban communication and technology, it allows for a concerted focus on the rapidly changing modalities of communication occurring today. The program's mission statement is: Through the study and critique of human communication, we generate knowledge, creativity and understanding to facilitate healthy relationships and workplaces, civil and secure communities, and constructive intercultural interaction.

Majors complete a minimum of 12 upper-division credit hours of COM courses offered by the College of Integrative Sciences and Arts.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

Graduates of our program often attend other top-tier graduate schools, law schools and business schools, or find gainful employment in careers such as these:

- advertising and promotions managers
- clinical research coordinators
- communications teachers, postsecondary
- correspondence clerks
- customer service representatives
- distance learning coordinators
- editors
- education administrators, postsecondary
- labor relations specialists
- lawyers
- legal support workers, all other
- marketing managers
- media and communication workers, all other
- meeting, convention and event planners
- middle school teachers
- paralegals and legal assistants
- postsecondary teachers
- public address system and other announcers
- public relations specialists
- retail salespersons
- sales and related workers
- sales managers
- sales representatives
- secondary school teachers
- survey researchers
- training and development managers
- training and development specialists

English, BA (LSENGBA)

Campus: Polytechnic

Program Description:

The BA program in English focuses on effective writing, critical thinking and sophisticated reading of literary and nonliterary texts. Our faculty teach courses in English, American and world literature, from the Classical period to the present; creative and academic writing; and American and international film. We also offer internships in online publishing through our acclaimed online literary journal, *Superstition Review*:

<https://superstitionreview.asu.edu/> (<https://superstitionreview.asu.edu/>)

Majors complete a minimum of 12 upper-division credit hours of ENG courses offered by the College of Integrative Sciences and Arts.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The bachelor's degree program in English prepares scholars and teachers for graduate or professional study and for careers in education, writing and other related fields. Career prospects for secondary language arts teachers in Arizona are particularly strong. More importantly, students in the program will develop skills that employers value, such as analyzing ideas and problems, finding and evaluating information, communicating effectively, and presenting clear and logical arguments. With these skills, graduates of the program can find jobs such as these:

- advertising and promotions managers
- broadcast news analysts
- copy writers
- court reporters
- editors
- English language and literature teachers
- judicial law clerks
- lawyers
- legal support workers
- marketing managers
- media and communication workers
- middle school teachers
- paralegals and legal assistants
- poets, lyricists and creative writers
- postsecondary teachers
- public relations specialists
- sales managers
- sales representatives
- secondary school teachers
- teachers and instructors

Exploratory Health and Life Sciences, (UCHSCIEXPL)

Campus: Downtown Phoenix, Lake Havasu, Polytechnic, Tempe, Online

Program Description:

The exploratory health and life sciences track affords students an opportunity to explore a variety of majors related to the health and life science professions. ASU recognizes that many students are not ready to choose a specific academic program of study when first entering the university. Allowing students the option to declare exploratory status permits them to begin meeting general studies requirements that all ASU graduates must fulfill as well as affording students some time to explore a variety of academic courses that may lead to a potential major interest.

All College of Integrative Sciences and Arts exploratory students are required to enroll in the following major and career exploration courses which must be taken sequentially:

UNI 150 Major and Career Exploration (1)

UNI 250 Choosing a Major (1)

UNI 270 Career Direction for a Successful Future (1)

For a complete list of all majors associated with this exploratory track, refer to <https://cisa.asu.edu/exp-health-life-sciences-majors> (<https://cisa.asu.edu/exp-health-life-sciences-majors>).

Northland Pioneer College (<http://transfer.asu.edu/northland-pioneer>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

General studies majors have the option of working in almost any field that requires effective interaction with others, from sales to social services and organizational management to government administration. Graduates will be equipped with transferable skills highly desired by many employers; therefore, a wide array of job choices are available. The bachelor's degree creates great flexibility in career choice because of the versatility within the program.

Graduates may choose to enter one of the occupations for which their cluster prepares them, including:

- administrative services manager
- curator
- medical and health service
- middle school teacher
- postsecondary teacher
- property, real estate and community association managers
- public relations specialist
- purchasing manager
- real estate sales agent
- sales manager
- writer and author

History, BA (LSHISBA)

Campus: Polytechnic

Program Description:

The BA in history focuses on American and European history, with a special emphasis on the history of the Southwest, environmental history and related fields. Students are trained in methods of historical research and study the development of human society from social, cultural, political and economic perspectives.

Majors complete a minimum of 12 upper-division credit hours of HST courses offered by the College of Integrative Sciences and Arts.

Students who would like to combine this degree with teaching certification should also contact the Mary Lou Fulton Teachers College.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The bachelor's degree program in history prepares scholars and teachers for graduate and professional studies and for careers in education, writing and other related fields. Career prospects for secondary history and social studies teachers in Arizona are particularly strong. Students in the program develop skills in:

- analyzing ideas and problems

- communicating effectively
- finding and evaluating information
- presenting clear and logical arguments

With these skills, graduates of this program may find jobs as:

- archivists
- broadcast news analysts
- court reporters
- curators
- historians
- history teachers
- judicial law clerks
- lawyers
- legal support workers
- media and communication workers
- middle school teachers
- museum technicians and conservators
- paralegals and legal assistants
- postsecondary teachers
- reporters and correspondents
- secondary school teachers
- teachers and instructors
- writers and authors

The degree also prepares students to continue in graduate and professional programs.

Interdisciplinary Studies, BA (LSBISBIS)

Campus: Downtown Phoenix, Polytechnic, Tempe, Online

Program Description:

The ASU interdisciplinary studies degree, one of the top five in the country, offers students the freedom to select two concentration areas from a rich menu of more than 160 possibilities (see concentration check sheets at <https://cisa.asu.edu/interdisciplinary-studies-concentrations> (<https://cisa.asu.edu/interdisciplinary-studies-concentrations>)). The core curriculum provides students the intellectual tools to integrate their concentration areas, engage in transdisciplinary problem-solving and prepare for careers and graduate programs that increasingly cross disciplinary boundaries.

An interdisciplinary studies student could choose to integrate concentrations like music and business, applied psychology and social welfare, communication and justice studies, public administration and ethics, digital culture and computer gaming, or many other unique combinations.

Interdisciplinary studies is an approach to answering questions, solving problems and addressing contemporary social issues from multiple perspectives. Interdisciplinary studies students take an active role in designing their educational plans and defining their career goals. The degree emphasizes written communication, versatility, self-assessment and critical thinking -- essential skills for today's dynamic world.

Those interested in the interdisciplinary studies online program may visit the ASU Online website for more information.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The program is available to all students in good academic standing who have achieved sophomore, junior or senior standing. Students should complete the online pre-advising workshop (found in student resources at <https://cisa.asu.edu/bisworkshop> (<https://cisa.asu.edu/bisworkshop>)) prior to meeting with an advisor to declare their major as interdisciplinary studies.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(http://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-interdisciplinary-studies?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Career Opportunities:

Because of the flexibility of the interdisciplinary studies program, graduates take many exciting career paths after leaving ASU. While some students complete graduate or professional degrees, others immediately enter the job market. For example, one graduate combined business and communication and now owns a small business; another integrated sociology and family studies to further a career in law enforcement; another studied philosophy and economics to prepare for law school; another combined biology and chemistry in preparation to pursue a master of pharmacy degree; yet another studied Spanish and religious studies and now works as an employee trainer for a major company.

Possible career opportunities include:

- archivist
- chief executive
- climate change analyst
- compliance manager
- computer network support specialist
- curator
- editor
- environmental restoration planner
- general and operations manager
- regulatory affairs manager
- reporters and correspondent
- Web developer
- wholesale and retail buyer (except farm products)

Campus: Online

Program Description:

Please note: Students interested in completing the BA program in the Gila Valley or Yuma are encouraged to complete a Transfer Admission Guarantee (TAG) program. Please see admission requirements below.

Interdisciplinary studies is an approach to answering questions, solving problems and addressing contemporary social issues from multiple perspectives. Interdisciplinary students develop the intellectual tools needed to build bridges between academic disciplines and apply their skills, innovations and knowledge in various academic and practical settings. The degree in organizational studies is intended for students seeking an interdisciplinary degree and possessing a desire to learn about the dynamics of contemporary organizations. Organizational studies students gain valuable knowledge of management styles, communication strategies, technologies, diversity, ethics and politics. All course work for organizational studies is offered online, giving students freedom and flexibility in completing their requirements.

Those interested in the interdisciplinary studies (organizational studies) online program may visit the ASU Online website for more information.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The Gila Valley Students:

ASU has a pathway that allows students to complete the ASU Transfer Admission Guarantee in interdisciplinary studies with a concentration in organizational studies, a prescribed sequence of courses that meets the requirements for the community college's Associate of Arts degree and the lower-division requirements for the ASU Bachelor of Arts in Interdisciplinary Studies (Organizational Studies). Upon completion of the TAG, students will complete the remaining requirements for ASU's bachelor's program. Visit <https://transfer.asu.edu/> (<https://transfer.asu.edu/>) for more information about ASU degrees offered at local community colleges.

This program may also accept transfer credit in lieu of a TAG agreement. Please contact the department for details.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(http://asuonline.asu.edu/degree-programs/undergraduate/bachelor-interdisciplinary-studies-organizational-studies?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Coconino Community College (<http://transfer.asu.edu/coconino>)

Cochise College (<http://transfer.asu.edu/cochise>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Northland Pioneer College (<http://transfer.asu.edu/northland-pioneer>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Career Opportunities:

By engaging in a breadth of knowledge and experience, and by acquiring the skills to integrate various domains of knowledge, students prepare themselves for a range of careers, including as:

- human resources specialists
- industrial organizational psychologists
- investment fund managers
- loss prevention managers
- management analysts
- regulatory affairs managers
- supply chain managers
- urban and regional planners

Many organizational studies students already have a chosen career field, yet desire a degree that is versatile, flexible, meaningful and that affords the opportunity for continued career development and advancement. Because of the flexibility of the program, organizational studies graduates take many different career paths after finishing their degree. Recent graduates have found opportunities in many exciting fields such as:

- business
- education
- health care administration
- nonprofit administration
- tourism

Liberal Studies, BA (LABLSBLS)

Campus: Polytechnic, The Gila Valley, Online

Program Description:

Please note: Students interested in completing the BA program at the Gila Valley location are encouraged to complete a Transfer Admission Guarantee. Please see admission requirements below.

The liberal studies program helps to address student interests in a broad array of disciplines and subject matter. The program aims to give students the grounding to use knowledge as more successful thinkers, decision-makers and leaders. The liberal studies core classes are designed to: promote critical and creative thinking as students learn how to draw upon diverse disciplinary perspectives and modes of inquiry, help advance communication skills, and support professional career development.

Students majoring in liberal studies have become part of an international movement in higher education. This movement has proven empowering to people who are given the flexibility to explore multiple interests or approach a particular interest from various perspectives. Students are not alone in their chosen path. In fact, this program is just one of hundreds of similar programs offered in colleges and universities across the nation.

The program shares with all other liberal arts and science degrees the goal of developing analytical and communicative abilities. The program offers breadth of learning in an online setting. The liberal studies degree is transdisciplinary, providing students a thematic approach to education.

For more information on eligibility requirements, visit the college website.

Students interested in the program offered in the Gila Valley or Yuma should consider completing a TAG program. Arizona State University and Eastern Arizona College have established a partnership that allows students to complete their associate degree at EAC and then pursue this bachelor's degree through classes delivered on the EAC Thatcher campus. Visit <https://transfer.asu.edu/eac> (<https://transfer.asu.edu/eac>) for more information about ASU degrees offered at Eastern Arizona College Thatcher campus in the Gila Valley. View the major map for this program here: <https://webapp4.asu.edu/programs/t5/roadmaps/ASU00/LABLSBLS/null/EAC/2016> (<https://webapp4.asu.edu/programs/t5/roadmaps/ASU00/LABLSBLS/null/EAC/2016>)

Those interested in the liberal studies online program may visit the ASU Online website for more information.

Career Opportunities:

Liberal studies graduates are prepared to enter the workforce or pursue graduate or professional studies.

Liberal studies courses prepare students for careers as:

- chief executives
- data warehousing specialists
- document management specialists
- elementary, middle and high school principals
- emergency medical technicians and paramedics
- general and operations managers
- human resources specialists
- industrial ecologists
- lawyers
- paralegals and legal assistants
- police detectives
- postsecondary teachers
- technical writers
- Web administrators

Organizational Leadership, BA (LSORGLBA)

Campus: Lake Havasu, Polytechnic, The Gila Valley, CAC, Yuma, Online

Program Description:

Please note: Students interested in completing the BA program in the Gila Valley, Pinal County or Yuma are encouraged to complete a Transfer Admission Guarantee program. Please see admission requirements below.

The BA program in organizational leadership uses transdisciplinary methods that prepare students to become leaders in organizations. Students

develop skills and knowledge that leaders need to solve problems, communicate effectively, assess programs, manage resources and use emerging technologies in organizations. Students will be prepared for a range of positions in the public and private sectors, including in government, health care administration, nonprofit agencies, in businesses and the service industry.

Arizona State University has established partnerships with Arizona Western College, Central Arizona College and Eastern Arizona College that allows students to complete their associate degree at AWC, CAC or EAC and then pursue this bachelor's degree through classes delivered on these campuses. Visit <https://transfer.asu.edu/> (<https://transfer.asu.edu/>) for more information about ASU degrees offered at these locations.

This program is also offered at the ASU Colleges in Lake Havasu City. View the major map here:

<https://webapp4.asu.edu/programs/t5/roadmaps/ASU00/LSORGLBA/null/CALHC/2016>

(<https://webapp4.asu.edu/programs/t5/roadmaps/ASU00/LSORGLBA/null/CALHC/2016>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics Online: MAT 142 or MAT 117 or higher. Lake Havasu: MAT 117 or higher. Students simply need to fulfill the General Studies math requirement.

Program Math Intensity: Moderate

Admission Requirements:

Political Science, BS (LSPOLBS)

Campus: Polytechnic

Program Description:

The BS in political science gives students the background and skills to gain employment in a relevant profession or to continue their studies in graduate programs in political science, in the social sciences or to pursue a particular discipline at a professional school. The program helps students understand the assumptions underlying political science and develop the research skills to analyze complex socio-political issues. Those objectives are accomplished by offering a flexible program and by providing students with both individual and group experiences working with faculty on concrete intellectual and policy issues.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

The program serves as good preparation for staff, manager or policy analyst positions in local, state and federal government. This degree is recognized by employers as qualification for many careers in business (for-profit and nonprofit) and industry. Opportunities may include positions that involve binational, crossborder positions linking U.S. and Mexican businesses, Arizona-Sonora local government or local community groups on both sides of the border.

Many students use the degree as a gateway to law school or a basis for further study in such applied fields as:

- community development
- political science
- public administration
- public policy
- social science
- urban affairs
- urban and regional planning

Science, Technology and Society, BS (ECSTSBS)

Campus: Polytechnic

Program Description:

Questions surrounding the interaction of science, technology and human systems are highly transdisciplinary and cultural, requiring analytical techniques that transcend space and time. Thus, the science, technology and society program stresses the need to step outside both disciplinary and cultural boxes in pursuit of knowledge. Accordingly, the program is heavy on cultural and information literacy and critical thinking. The primary goal is to produce generalists who understand the intricate interrelationship of science, technology and society and are armed with the technical skills to change their environment. The following three tracks are available:

- general science, technology and society
- global technology and development
- science, technology and governance

Students may use the general science, technology and society track to design targeted programs of their choosing, including premed and prelaw.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

The bachelor's degree program in science, technology and society prepares professionals and scholars for careers in the 21st century world focusing primarily, but not exclusively, on the interaction of science and technology with human systems. The program focuses on the development of the technical skills required to audit social, political and policy impacts of technological advancement and the competence required to navigate questions surrounding the future trajectory of science and technology. Graduates are prepared for graduate or professional study or professional careers as:

- commercial and industrial designers
- compliance managers
- environmental restoration planners
- public relations specialists
- recycling coordinators
- regulatory affairs specialists
- sales representatives (wholesale, manufacturing, technical, scientific products)
- sustainability specialists
- training and development specialists
- transportation planners
- urban and regional planners

Technical Communication, BS (LSTECBS)

Campus: Polytechnic, Online

Program Description:

Technical communication is applied workplace communication that makes technical or specialized information understandable and available to many different users. It involves using a range of technologies to craft an ever expanding array of print and digital information products: websites, social media sites, help files, training materials, grants and proposals, and information graphics, to name just a few. Technical communicators work in many professional roles, such as information developers, grant writers, Web interface designers or usability experts. What all of these roles have in common is the focus on creating accessible and appealing communication that has a practical purpose and is intended for a particular audience. In the technical communication program, students learn how to write, design, produce and manage print and digital information using traditional and developing technologies.

The BS in technical communication in the College of Integrative Sciences and Arts is the only undergraduate technical communication degree program available in the state of Arizona.

Those interested in the technical communication online program may visit the ASU Online website for more information.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Northland Pioneer College (<http://transfer.asu.edu/northland-pioneer>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

The Bureau of Labor Statistics estimates that job growth in technical writing and related areas will continue to be significantly higher than average during the next five years. Software and electronics companies, media corporations, financial institutions, government agencies, nonprofits and other areas will see an increased demand for writers. Students in the program will prepare for careers as:

- communications teachers (postsecondary)
- computer user support specialists
- copy writers
- desktop publishers
- editors
- media and communication workers
- proofreaders and copy markers
- public relations specialists
- reporters and correspondents

- technical writers
- Web developers
- writers and authors

Interdisciplinary Arts & Sciences, New College of

Applied Computing, BS (ASACOBS)

Campus: Lake Havasu, West

Program Description:

The School of Mathematical and Natural Sciences offers a BS degree in applied computing in the New College of Interdisciplinary Arts and Science at ASU's West campus.

Applied computing provides a foundation in computer science, combining technical computing skills with an understanding of the impact of computer science in real-world contexts.

The applied computing program's technical component is concerned with the design and use of appropriate systems and technologies, while its social sciences component is concerned with understanding how people seek, obtain, evaluate, use and categorize information.

Lower-division courses provide a computer science foundation, while upper-division courses emphasize database systems and computer networks. The program offers small class sizes and extensive opportunities for research, and requires an internship or research with a professor, typically completed during the senior year.

Graduates are prepared for graduate study as well as for entry-level employment in information technology roles in a variety of businesses, nonprofits, government agencies and academic institutions.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Students are prepared to integrate technology with human activities, respond to global changes, solve problems, and create and manage the technological production of information and creative products. Core information technology industries are among the fastest growing sectors in the U.S. economy. Graduates will find employment opportunities with corporations and businesses, nonprofit and government agencies, digital arts

media industries and in the academic world.

Applied Mathematics, BS (ASMATBS)

Campus: West

Program Description:

The School of Mathematical and Natural Sciences offers a BS degree in applied mathematics in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Applied mathematics is an interdisciplinary program that provides a broad and rigorous foundation in applied mathematics. It includes a foundation in computing and statistics as well as both theoretical and applied mathematics.

The program emphasizes quantitative problem-solving and critical thinking through courses that expose students to a variety of mathematical theories, techniques and applications currently used by analysts and researchers in government, industry and nonprofit organizations.

Students also complete a capstone project involving real-world problems under the supervision of an advisor and in close consultation with an external project sponsor.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Applied Science, BAS (ASBASBAS)

Campus: West

Program Description:

The School of Humanities, Arts, and Cultural Studies offers a BAS degree in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program for students who have already earned an AAS degree allows students to apply the technical knowledge gained from their associate degree and significantly broaden their education.

The program offers several unique areas of concentration tailored to students' individual interests and career goals. These include business, communication, criminal justice, teaching, environmental issues, languages and cultures, and social sciences.

Students who have earned an AAS from an accredited institution may transfer up to 60 credit hours plus another 15 hours of general studies courses from an accredited Arizona community college. The program also includes a capstone project.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Communication Studies (MA)

Interdisciplinary Studies (MA)

Social Justice and Human Rights (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree. This program is not available for freshmen.

Career Opportunities:

Because the program allows students to tailor their concentration, graduates are prepared for a wide range of career opportunities as well as graduate programs in law, business, social sciences and education.

Biology, BA (ASLSCBA)

Campus: West

Program Description:

The School of Mathematical and Natural Sciences offers a BA in biology in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The biology program, with an emphasis in the natural sciences, examines the interdisciplinary nature of the life and physical sciences, focusing on the ways in which these disciplines intersect. The program's organization and flexibility allows students to simultaneously study another subject outside their major, and students are encouraged to minor or add a concurrent degree in another subject area.

Students gain hands-on experience as they work both in small groups and one-on-one with individual faculty members. Students may participate in cutting-edge scientific research by assisting in faculty research laboratories or even publish in top journals and present their results at regional and national scientific meetings.

Graduates are prepared for entry-level jobs in research, nonprofit, education and outreach organizations or other roles in the life sciences and for related graduate programs.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Biology, BS (ASLSCBS)

Campus: Lake Havasu, West

Program Description:

The School of Mathematical and Natural Sciences offers a BS in biology in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The biology program, with an emphasis in the natural sciences, examines these disciplines through experiential learning, and all of the program's core courses include laboratories. By learning in an integrative environment that emphasizes the connectedness of the life sciences, students gain a better understanding of larger scientific concepts and can view these concepts from multiple perspectives.

Students are encouraged to conduct independent research under the mentorship of faculty members or during internships. Some even publish in top journals and present their results at scientific meetings.

Graduates are prepared for employment with state and federal agencies or private organizations such as biomedical laboratories and environmental consultancies, or to enter graduate or doctoral programs in human or veterinary medicine, pharmacy, dentistry or scientific research.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Career Opportunities:

The bachelor's degree in biology prepares students for a wide range of careers by offering course and laboratory work and quantitative research opportunities that develop fundamental problem-solving, critical thinking, writing and communication skills. Graduates may enter careers in:

- business
- laboratory or field research
- medicine
- publishing
- scientific journalism
- teaching

Undergraduate laboratory experience, both on and off campus, enhances employability as a laboratory technician or research associate in university and government research laboratories; in hospital and diagnostic laboratories; and in pharmaceutical, biotechnology, agricultural and food processing companies.

Students engaged in field studies are prepared for entry-level positions in private companies and state and federal agencies (e.g., wildlife biologist, environmental consultant or conservation officer).

Biology (Environmental Science), BS (ASLSCEBS)

Campus: Lake Havasu, West

Program Description:

The School of Mathematical and Natural Sciences offers a BS in biology with a concentration in environmental science in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

All the core courses, which emphasize experiential learning, include required laboratories. By learning in an integrative environment that underscores the connectedness of these disciplines, students gain a better understanding of larger scientific concepts and can view these concepts from multiple perspectives. Students pursuing this concentration will take a more environmental science set of courses than those pursuing a BS in biology.

While the emphasis is on science, students will learn to approach environmental science from an interdisciplinary perspective, in part by studying environmental ethics and policy.

Graduates are prepared for entry-level employment in the growing field of environmental science (which includes environmental consulting, environmental remediation, natural resource management and more) as well as for graduate programs in environmental science or related disciplines.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Arizona Western College (<http://transfer.asu.edu/az-western>)

Career Opportunities:

According to the 2010-2011 Occupational Outlook Handbook (U.S. Bureau of Labor Statistics, 2010), employment of environmental scientists is expected to grow by 28 percent between 2008 and 2018. This is far more rapid growth than the average rate of growth for all occupations. The handbook indicates most rapid growth will occur in the private sector (primarily, in private environmental consulting firms).

This concentration will allow students to tailor their courses of study to interests they possess in the science of the environment, to help prepare them for careers in the public and private sectors (e.g., in environmental consulting, environmental remediation, natural resource management, etc.) as well as entry into graduate programs in environmental science and related disciplines.

Biology (Forensics), BS (ASLSCFBS)

Campus: West

Program Description:

The School of Mathematical and Natural Sciences offers a BS in biology with a concentration in forensics in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The forensics concentration emphasizes the study of scientific techniques used to solve crimes. Students pursuing the forensics concentration will take a more forensics-relevant set of courses than those students pursuing the BS degree in biology.

Much of the required course work will be completed in chemistry or biology lab science courses, to ensure that graduates of this program are more competitive as they apply to graduate degree programs, pursue relevant careers and enter the workforce.

Graduates are prepared to pursue careers in forensics laboratories and in the research and development of new criminal forensic technologies. Completion of the bachelor's degree in biology also ensures graduates are prepared for graduate, professional or medical degree programs.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates of this program will be able to pursue careers in forensics laboratories and in the research and development of new technologies in forensics. Graduates will be particularly competitive for positions in forensics laboratories because the concentration focuses heavily on chemistry and biology laboratory course work (areas that administrators and current employees in crime labs have reported are critically important). For example, as reliance upon DNA fingerprinting technologies increases, demand for forensic scientists trained in the requisite amounts of molecular biology will increase. The concentration also places focus on oral communication skills (e.g., through course work in argumentation, COM 222 Argumentation (3) or COM 422 Advanced Argumentation (3)), which will prepare graduates for the multifaceted aspects of their careers in forensics (e.g., providing articulate and compelling expert testimony in criminal trials). Graduates of this program will also be well positioned to enter graduate programs in forensic science.

602-543-6050

Biology (Pharmacology/Toxicology), BS (ASLSCPBS)

Campus: West

Program Description:

The intricate connections among biology, chemistry and physics form the basis of the biology curriculum. The BS program in biology emphasizes experiential learning, and all required core courses have laboratories. By learning in an integrative environment that emphasizes the connectedness of disciplines, students gain a better understanding of larger scientific concepts and can view these concepts from multiple perspectives. Undergraduates have the opportunity to conduct independent research under the mentorship of faculty members or in internships outside the school.

The pharmacology and toxicology concentration approaches the study of these disciplines from both the physiological as well as the biochemical perspective, with an emphasis on both the molecular and physiological components of drug and body interactions.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Communication, BA (ASCOMMBA)

Campus: Lake Havasu, West

Program Description:

The School of Social and Behavioral Sciences offers a BA degree in communication in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The study of communication comprises research, practice and advocacy. Relying upon diverse competencies, it requires an understanding of what contributes to and detracts from effective human communication.

The course work and faculty-led research projects in the communications program cover an array of topics, including work and personal relationships, conflict resolution, social media and technology, global communication, communication philosophy, and risk and crisis communication. Students explore communication in organizations and interpersonal relationships; in public, political and social situations; and across cultures.

Graduates of this program are trained in effective communication skills, are able to write and speak well, and can convey complex ideas effectively. They are prepared for employment in communication-intensive fields or further graduate study.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Communication Studies (MA)

Interdisciplinary Studies (MA)

Social Justice and Human Rights (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Central Arizona College (<http://transfer.asu.edu/central-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

The Bachelor of Arts in communication is a broadly-based program that trains individuals to speak and write competently; manage relationships well; effectively problem-solve; and understand the role and function of communication in public forums, organizational settings, relational exchanges and intercultural situations. Because these skills are crucial to many professions, communication graduates work in a variety of fields, including:

- advertising
- customer service and customer relations
- education
- fundraising
- health and human services
- human resources
- international service
- legal professions

- lobbying
- management
- marketing
- media and public relations
- mediation
- ministry
- public administration
- public advocacy
- public office
- research
- sales
- social media design and implementation
- speech writing
- training and development

English, BA (ASENGBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in English in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Students in this program learn not only how to write clearly and effectively but also to think critically and construct well-supported arguments.

The program stresses the formal aesthetic qualities of texts and the issues of class, gender, race and ethnicity relating to literary representation. Students will gain a familiarity with standard literary-critical terminology and an awareness of various theoretical approaches to literary study. Students will also become aware of uses of the English language in the U.S. and around the world.

The program provides students with a balanced overview of major literature in the English language and an awareness of the role of literary discourse in broader social and historical contexts.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

English (Secondary Education), BA (ASENGSEBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA degree in English with a concentration in secondary education in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program provides rigorous content in literature, composition, linguistics and secondary teaching, extensively preparing students to meet the needs of all student populations, including attention to levels of academic performance and cultural and linguistic diversity.

The demand for teachers in Arizona is high. Students will complete their teaching internship in school districts in the greater Phoenix area or on one of the 22 Native American nations.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Environmental Science, BA (ASENVBA)

Campus: Lake Havasu, West

Program Description:

The BA program in environmental science prepares students to pursue careers in environmental science. The curriculum builds a strong foundation in the natural sciences to understand the biological and chemical functioning of our natural environment, with an additional emphasis on the social, political and economic dimensions of environmental science. The program also focuses on communication, management and planning skills that will prepare graduates for leadership careers in environmental science.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Ethnicity, Race and First Nations Studies, BA (ASETHBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in ethnicity, race and First Nations studies in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The first such program in Arizona, this program provides an integrated, comparative and comprehensive approach to the study of diversity among ethnic and racial groups and First Nations. A highlight of the program is the internship, which fosters direct links between the university and community-based settings. Both theoretical and applied perspectives are embedded in a curriculum addressing how ethnicity, race and First Nations shape identities, literacies, public policies and communities in local and transnational U.S. contexts. Students identify a career area enabling them to integrate their knowledge with specific course work tied to their career and advanced educational goals.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western

states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Exploratory Humanities, Fine Arts and Design, (ASHUFAEXPL)

Campus: West

Program Description:

The exploratory humanities, fine arts and design track provides students with the academic opportunities to explore a variety of majors related to humanities, fine arts and design professions.

Many students are not ready to choose a specific academic program of study when first entering the university. Exploratory programs provide an opportunity to discover the options available at ASU and students are provided the time, resources and guidance needed to assess their skills, interests and aptitudes. Declaring exploratory status permits students to begin meeting general studies requirements that all ASU graduates must fulfill. It also allows students to take some time to explore a variety of academic courses that may lead to a potential major interest.

Additional Program Fee: N

Forensics, BS (ASFOREBS)

Campus: West

Program Description:

The School of Mathematical and Natural Sciences offers a BS in forensics in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Forensics is the study and application of scientific methods to matters of law. The forensics program emphasizes laboratory course work in chemistry and biology, as both areas provide essential experience with techniques commonly used in crime labs. Rigorous course work in the natural and mathematical sciences is required to ensure graduates are competitive in the workforce. The program is enhanced by a focus on oral communication skills that help prepare graduates for the multifaceted, transdisciplinary aspects of careers in forensic science, such as providing articulate expert witness testimony. If pursuing a career as a forensic DNA analyst, nine cumulative hours of course work in biochemistry, molecular biology and genetics is required; course work in population genetics is desirable. Employers may require documentation for completed course work, such as an official course syllabus.

Forensics students may apply for and participate in internships sponsored by metropolitan Phoenix area crime labs. Internships are competitive and the application process takes time. Fall semester internships generally require application in the spring semester prior, and spring or summer semester internships generally require application by the start of the fall semester. Internship positions are unpaid and require concurrent enrollment in FOR 484 Internship. Students must also have a faculty mentor and abide by all internship standards for the school and the location where the internship is held. Students may also participate in cutting-edge research with a faculty mentor either as a volunteer in the faculty member's lab or by registering for FOR 499 Individualized Instruction. For more information, see an academic advisor.

Job applicants and students seeking a volunteer or internship position within a crime lab may be required to undergo an extensive background check that includes a polygraph exam (commonly known as a lie detector test), fingerprinting and drug testing. Actions that can disqualify an applicant include but are not limited to: recent or past illicit drug use, felony convictions and drunk driving convictions.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Forensics graduates are prepared to enter the workforce with crime labs and private forensic science labs at the local, state and federal levels. Graduates also are prepared for graduate programs in forensic science, law school, medical school and related fields. As of fall 2015, 40 percent of ASU's forensics graduates were employed in the field or were in graduate school, and a quarter of students who applied to graduate in fall 2015 received offers of employment in the field prior to graduation.

History, BA (ASHISBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in history in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The history degree program provides a strong foundation for understanding the forces of change that shape society, the marketplace and people's lives. The program introduces students to a broad span of history that covers the ancient world through the modern period and extends from Europe to Latin America and the United States. In addition to learning about the origins and development of various peoples, ideas and institutions of the past, students engage in the practice of history by learning to conduct original research, analyze historical evidence and formulate arguments using historiographical perspectives and methodological approaches.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

History (Secondary Education), BA (ASHISSEBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in history with a secondary education concentration in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

For students considering a career in education, this flexible program fully prepares students for teaching and certification while providing all the disciplinary knowledge of a traditional history degree. Students will understand history in all its breadth and depth while developing strong critical reading, writing and research skills as well as skills in oral presentation.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Interdisciplinary Arts and Performance, BA (ASIAPBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in interdisciplinary arts and performance in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Interdisciplinary arts and performance students engage with faculty in collaborative investigation of many disciplines, preparing for our complex and

changing world through current approaches to artistic and aesthetic research. Students engage in practical and theoretical studies of visual, sonic, performance and interactive arts to become versatile artists. With skill sets preparing them for professional and entrepreneurial opportunities, students can tap into evolving marketplaces and expanding fields of arts research and practice.

Students who major in interdisciplinary arts and performance receive extensive preparation for careers as artists, performers and creative professionals, and develop critical backgrounds useful for becoming future teachers and scholars.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Interdisciplinary Arts and Sciences, BA (ASIASBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in interdisciplinary arts and sciences in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program is a variation of the classic liberal arts degree, as students combine lower-division foundational courses with upper-division courses in a specific area of concentration unique to their interests and career goals. The concentration can include but is not limited to: business, communication, criminal justice, education, environmental issues and physical sciences, languages and cultures, and social sciences and policy issues. The program culminates with a capstone internship experience.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

Emphasizing interdisciplinary study combined with a specific area of concentration (e.g., business, communication studies, English, gerontology, history, psychology or preprofessional studies), students tailor their programs to meet individualized career goals. The capstone internship program prepares students to make the transition smoothly to graduate school or postbaccalaureate employment in:

- business settings
- community settings
- cultural settings
- educational settings
- social sciences and human service settings

this program for a broad range of future academic and career pursuits.

Latin American Studies, BA (ASLASBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in Latin American studies in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Unlike programs that are predominantly based on social science and taught in English, this program fosters language and cultural knowledge beyond print literature and is unique in its inclusion of the arts and sciences.

The program allows students to immerse themselves in content courses while honing their language skills, and it provides a broad foundation for students to study Latin America, the United States and the Iberian Peninsula.

Students can choose from five tracks: the arts; narrative (literature and film); history and political science; education and linguistics; sociology and anthropology.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Political Science, BA (ASPOLBA)

Campus: Lake Havasu, West

Program Description:

The School of Social and Behavioral Sciences offers a BA in political science in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Political science is the study of governmental practices, politics and theories. Course work in the political science program covers American institutions, international relations, political theory and world affairs.

The program helps students gain a basic understanding of the assumptions underlying political science and develop the necessary research skills for analyzing complex sociopolitical issues. In addition to course work, students learn through internships, service-learning and research opportunities.

Graduates of this program are prepared for work as analysts or aides in local, state or national legislative offices, among other roles. Many graduates go on to law school or graduate programs in political science, social science, urban planning or public administration.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The political science curriculum provides a solid background for employment in a relevant profession and prepares students for graduate work in:

- political science
- professional schools
- social science disciplines
- urban planning

The program serves as a good precursor to staff, manager or policy analyst positions in local, state and federal government. This degree is recognized as qualification for many careers in business (for-profit and nonprofit) and industry.

Work may include binational, cross-border positions linking U.S. and Mexican businesses, Arizona-Sonora local government or local community groups on both sides of the border. Many students use the degree as a gateway to law school or basis for further study in such applied fields as:

- community development
- public administration
- public policy
- urban affairs and urban and regional planning

Psychology, BA (ASPGSBA)

Campus: Lake Havasu, West, Online

Program Description:

The School of Social and Behavioral Sciences offers a BA in psychology in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Psychology is the scientific study of human behavior. This diverse field includes mental health and counseling as well as child development, neuroscience and brain function, memory and decision-making, behavior analysis, statistics and more. It also crosses over into other disciplines such as medicine, the law, business and economics.

The psychology program --- which emphasizes critical thinking and reasoning, quantitative research methods and writing --- goes beyond the classroom, adding practical experiences through internships, service-learning and faculty-supervised research. (Note: Some opportunities are not available to students enrolled in the degree offered through ASU Online.)

Graduates are prepared for graduate programs in psychology or other areas as well as professional employment.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Northland Pioneer College (<http://transfer.asu.edu/northland-pioneer>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

A degree in psychology will prepare students for a career in:

- government (sales and marketing, human resources management)
- industry
- mental health professions (youth counselor, substance abuse counselor)
- social services (high school psychology teacher, occupational analyst)

The degree also provides an excellent foundation for graduate study in fields such as public administration, law, family studies, communication and the various graduate programs in psychology:

- clinical and counseling
- cognitive neuroscience
- developmental
- environmental
- experimental
- health
- legal
- physiological
- social

Psychology, BS (ASPGSBS)

Campus: Lake Havasu, West, Online

Program Description:

The School of Social and Behavioral Sciences offers a BS in psychology in the New College of Interdisciplinary Arts and Sciences at the West campus of Arizona State University.

Psychology is the scientific study of human behavior. This diverse field includes mental health and counseling as well as child development, neuroscience and brain function, memory and decision-making, behavior analysis, statistics and more. It also crosses over into other disciplines

such as medicine, the law, business and economics.

This psychology program --- which emphasizes critical thinking and reasoning, quantitative research methods and writing --- goes beyond the classroom, adding practical experiences through internships, service-learning and faculty-supervised research. (Note: Some opportunities are not available to students enrolled in the degree offered through ASU Online.) The BS degree requires precalculus and two more laboratory science courses than the BA degree.

Graduates are prepared for graduate programs in psychology or other areas as well as professional employment.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Communication Studies (MA)

Interdisciplinary Studies (MA)

Social Justice and Human Rights (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Social and Behavioral Sciences, BA (ASSBSBA)

Campus: West

Program Description:

The School of Social and Behavioral Sciences offers a BA in social and behavioral sciences in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The social and behavioral sciences curriculum provides an understanding of assumptions underlying the social and behavioral sciences; develops the students' research skills necessary for analysis of complex social issues; offers a flexible program tailored to the career goals of the individual student; and offers individual and group experiences in working with faculty on concrete intellectual and policy issues.

The core courses provide students a background suitable to helping them better understand psychological and social principles related to the behavior of individuals across multiple social contexts and institutions (e.g., family, community, society and culture).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics Students who select the individual and behavior theme area will need to have completed MAT 170 in order to meet the prerequisite requirements of courses in that area.

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Communication Studies (MA)
- Interdisciplinary Studies (MA)
- Social Justice and Human Rights (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Social and Cultural Analysis (American Studies), BA (ASSCAASBA)

Campus: West

Program Description:

The BA program in Social and Cultural Analysis with a concentration in American studies engages in the transdisciplinary and comparative study of the United States as a cultural and political site of ongoing change and conflict. Students learn diverse methods to analyze the nation-making processes of migration, nationalist politics, public and private cultural practices and transnationalism in keeping with the creative and critical scholarship of the discipline. The curriculum also brings attention to identity formations around gender, sexuality, race and ethnicity. As a transdisciplinary field, American studies unites the social sciences, the humanities and the arts together to stimulate students to have rigorous and adventurous conversations on American culture, politics and history, exploring knowledge beyond disciplinary boundaries, bringing differing perspectives and understandings into dialogue with one another, and generating a unique level of intellectual rigor and excitement.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Social and Cultural Analysis (Ethnicity, Race and Indigenous Studies), BA (ASSCAERBA)

Campus: West

Program Description:

The BA program in Social and Cultural Analysis with a concentration in ethnicity, race and indigenous studies combines transdisciplinary topics and methods to critically analyze relationships among individuals, groups, institutions, governments, economies and environments. This concentration enriches the study of individual racialized and indigenous groups by drawing upon theories, methods and pedagogies in ethnicity, race and indigenous studies, while engaging complementary fields of literature, history, sociology, oral history, sexuality, queer studies, social justice, transnational and cultural studies. Course work in the concentration will be grounded in a deep understanding of the particular historical, social, economic, cultural and political experiences of individual racialized groups as well as an analysis of the relationships among them.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Social and Cultural Analysis (Peace Studies), BA (ASSCAPSBA)

Campus: West

Program Description:

The BA program in Social and Cultural Analysis with a concentration in peace studies is a unique, transdisciplinary offering, fostering critical investigation of peace primarily, but not exclusively, through a humanities lens and providing an analysis of its connection to issues such as gender, ethnicity, race and religion. Students will learn many approaches to and perspectives on peace, including theories and practices of peace building, nonviolence, and conflict avoidance and resolution as the program builds on the expertise of humanities and social sciences faculty in fields such as history, linguistics, literature, ethics, philosophy, sociology, ethnic studies and women and gender studies.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Career Opportunities:

There is a growing concern for peacebuilding within social and political institutions. As a consequence, numerous jobs now exist in peace-related sectors. Graduates of the Social and Cultural Analysis BA program with a concentration in peace studies will be prepared with the skills and knowledge necessary for graduate work as well as careers in government, education, business and nonprofit organizations. Knowledge gained can be applied toward professional and personal advancement in education, writing, policy, law, cross-cultural communication, ethics and work with nongovernmental organizations. Due to the emphasis on the social aspects of peace, diversity, and identity, students will develop an awareness of the needs of diverse populations and the discourses that help create a culture of peace. Graduates will be able to apply their knowledge to areas as diverse as the following:

- civil rights organizations
- colleges and universities
- corporations
- government agencies
- law firms
- libraries

Social and Cultural Analysis (Queer and Sexuality Studies), BA (ASSCAQSBA)

Campus: West

Program Description:

The BA program in Social and Cultural Analysis with a concentration in queer and sexuality studies combines transdisciplinary topics and methods to critically analyze the function of ideologies of sexuality; the history and present conditions of sexual identity formation; structural inequalities and queer resistance to those same inequalities; and the diversity of LGBTQA communities. Drawing from the premise that sex, gender and sexual orientation are both private experiences as well as profoundly political and public issues with important legal, social and cultural implications, the intellectual core of this program draws from theories, methods and pedagogies in queer theory and sexuality studies while engaging complementary fields of social justice, cultural studies, women's studies, gender studies, literature, history, sociology, psychology and transnational studies. Areas of emphasis include sexuality in culture, transnational queer studies, queer social movements and resistance, sexual fluidity, trans studies and critical heterosexualities.

Social and Cultural Analysis (Women and Gender Studies), BA (ASSCAWSBA)

Campus: West

Program Description:

The BA program in Social and Cultural Analysis with a concentration in women and gender studies offers students a transdisciplinary curriculum that focuses on the diverse experiences of women in both national and international contexts. The program also examines the meaning of gender as a socially constructed category that shapes personal identities, beliefs, opportunities and behaviors. The wide range of classes explores the intersections of gender, race, class and sexuality; the institutional structures that have an impact on women's and men's lives; and the broad range of feminist theories that seek to explain and influence women's status in society. Areas of emphasis include gender and sexuality, critical race feminisms, gender and the borderlands, transnational feminisms, social activism and social movements, histories of feminism and critical embodiment studies.

Sociology, BA (ASSOCBA)

Campus: Lake Havasu, West

Program Description:

The School of Social and Behavioral Sciences offers a BA in sociology in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Sociology is the study of the organization and development of societies and the institutions within them. The sociology program helps students better understand the development, structure, interaction and collective behavior of organized groups. The program explores the theories, practices and policies underlying the issues of social change, inequality and diversity.

This is a flexible program that provides opportunities for students to work collaboratively with faculty on intellectual and policy issues and helps them develop the research skills necessary for the analysis of complex social issues.

Graduates are prepared for employment in corporate or governmental organizations or to continue their studies in graduate programs in sociology, social science or professional schools.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Career Opportunities:

Graduates apply the sociological perspective to a wide variety of jobs in:

- business and management
- government
- social services
- the criminal justice system
- the health professions

Course work in sociology provides a valuable preparation for careers in:

- journalism
- law
- politics
- public administration
- public relations
- nonprofit sector

These are all fields that involve investigative skills and an ability to work with diverse groups. Graduates with an advanced degree in sociology may become:

- community developers
- criminologists
- demographers
- gerontologists
- research analysts
- statisticians
- survey researchers
- urban planners

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Career Opportunities:

Graduates apply the sociological perspective to a wide variety of jobs in:

- business and management
- government
- social services
- the criminal justice system
- the health professions
- nonprofit sector

Graduates receive valuable preparation for careers in:

- journalism
- politics
- public administration
- public relations

These are all fields that involve investigative skills and an ability to work with diverse groups. Graduates with an advanced degree in sociology may become:

- community developers
- criminologists
- demographers
- gerontologists
- research analysts
- statisticians
- survey researchers
- urban planners

Spanish, BA (ASSPABA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in Spanish in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program emphasizes Spanish language, literature and culture, all of which are integrated within the discipline and other disciplines within the college.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Cochise College (<http://transfer.asu.edu/cochise>)

Coconino Community College (<http://transfer.asu.edu/coconino>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Career Opportunities:

The Spanish program offers excellent preparation for graduate school or for employment as a teacher in the elementary or secondary school system, especially in those districts where bilingual programs are integral to the curricula. Outside the education system, students majoring in Spanish can find employment as translators and interpreters in:

- diplomatic corps
- federal and state courts
- law enforcement agencies
- law firms
- social agencies

The business world also provides employment for those fluent in Spanish. This is especially true in the American Southwest, with its proximity to Mexico, and through outlets opened by the tri-national North American Free Trade Agreement.

Statistics, BS (ASSTABS)

Campus: West

Program Description:

The School of Mathematical and Natural Sciences offers a BS in statistics in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program is the only Bachelor of Science degree in statistics in the state of Arizona.

Statisticians collect, analyze and interpret data from experiments and surveys. Their work is critical in helping individuals and organizations better understand the information contained in the data.

Emphasizing the practical application of statistics, this program builds upon the foundation of mathematics and computing to study concepts in theoretical and applied statistics.

Students must select one focus area and complete a minimum of nine credit hours (three courses) from that focus area. The focus area courses are in addition to the general studies requirements. Students should consult with an academic advisor in the School of Mathematical and Natural Sciences before enrolling in any focus area course.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

In the era of big data, there is great demand for individuals with all levels of statistical training. Graduates of this program leave with an understanding of the transdisciplinary nature of statistics and are prepared for graduate study in statistics and related fields or for entry-level positions in a variety of fields, including business, government and the natural and social sciences.

Statisticians are in high demand in many areas of industry, government and academia. Some areas with particularly high demand include:

- finance
- manufacturing
- medical
- pharmaceutical

Women and Gender Studies, BA (ASWSTBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in women and gender studies in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This is an interdisciplinary program emphasizing intersectional approaches to the study of gender, race, class, ethnicity and sexuality in national and transnational contexts.

Consistent with the university's design imperatives of social embeddedness and use-inspired research, the program's course offerings, research initiatives and cocurricular programs further the understanding of women and gender and promote social justice.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Communication Studies (MA)

Interdisciplinary Studies (MA)

Social Justice and Human Rights (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Journalism & Mass Communication, Walter Cronkite School of

Journalism and Mass Communication, BA (CSJMCBA)

Campus: Downtown Phoenix

Program Description:

The journalism major at Arizona State University's Walter Cronkite School of Journalism and Mass Communication, one of the best journalism schools in the country, is a highly professional, hands-on journalism and mass communication degree program that prepares students for careers in media.

Undergraduate students at the journalism school learn the values and principles that have long formed the core of the journalism profession, and they master the highly specialized, practical skills needed to succeed in today's digital world and start a career in journalism.

High-performing students can apply to the school's accelerated bachelor's degree and master's degree program, which allows for the completion of both degrees in five years. They can also become part of ASU's Barrett, The Honors College.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics
or any MAT course that satisfies the math requirement

Program Math Intensity: General

Concurrent Degrees:

This degree is also offered as concurrent degree with:

- Geography (Meteorology-Climatology), BS
- Graphic Information Technology, BS
- Transborder Chicana/o and Latina/o Studies (Media and Expressive Culture), BA
- Transborder Chicana/o and Latina/o Studies (Transborder Community Development and Health), BA
- Transborder Chicana/o and Latina/o Studies (US and Mexican Regional Immigration Policy and Economy), BA

Accelerated Degrees:

This degree is also offered as an accelerated degree with Master of Mass Communication (MMC)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The Bachelor of Arts in journalism and mass communication degree program has higher admission requirements and an application deadline of June 1 for fall. Students should select a second choice major on the application. All applicants will be reviewed by the school. Those who are not admitted to the Cronkite School will, if eligible, be admitted to their second choice major.

Freshman applicants must meet all of the following standards:

- have a 3.00 (4.00 = "A") ABOR GPA
- have no English competency deficiencies
- 1040 SAT Reasoning if taken before March 2016 or 1120 SAT Reasoning if taken after March 2016 or 22 ACT score

Transfer students (with 12 or more transfer hours after high school graduation) are required to have a cumulative transfer GPA of 3.00 or higher and no English competency deficiencies. Transfer students should contact the school for additional steps after admission to ASU. For more information regarding transfer admission see http://cronkite.asu.edu/undergrad/xfer_major_change.php (http://cronkite.asu.edu/undergrad/xfer_major_change.php).

Concurrent degree admission requirements:

Freshman applicants must meet all of the following standards:

- 3.75 minimum ABOR GPA
- no English competency deficiencies
- 1040 SAT Reasoning if taken before March 2016 or 1120 SAT Reasoning if taken after March 2016 or 22 ACT score

Transfer students must have a minimum cumulative GPA of 3.00 from a transfer institution.

ASU students:

ASU students who would like to change their majors to one of the concurrent programs in journalism and mass communication must have at least a 3.00 cumulative GPA in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's non-elective General Studies requirements.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Walter Cronkite School of Journalism and Mass Communication graduates work for:

- corporate and business communication divisions
- magazines
- newspapers, radio and television stations
- online services
- public relations firms

Positions include:

- editors
- media managers
- photojournalists
- reporters
- writers

Sports Journalism, BA (CSSPJBA)

Campus: Downtown Phoenix

Program Description:

Sports journalism is the fastest-growing sector of the news media industry, with continued growth on all platforms --- specialty magazines, multimedia outlets, and TV channels and networks. The Walter Cronkite School of Journalism and Mass Communication's sports journalism program gives students unparalleled preparation for careers in sports media and communications through courses such as sports writing, sports photography, sports strategic communications, and ethics and diversity in sports. Students in the program cover Major League Baseball spring training, the Olympics and other major sporting events for major market media partners. Students also complete an internship and intensive professional experience in the school's Phoenix or Los Angeles sports bureau.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

or any MAT course that satisfies the math requirement

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Liberal Arts & Sciences, College of

Actuarial Science, BS (LAACTBS)

Campus: Tempe

Program Description:

Risk is a part of daily life. Actuarial science majors learn to use tools from mathematics, statistics and finance to measure the impact of risk in order to improve forecasting and decision-making in business and government.

Actuary is consistently rated as one of the top jobs in the United States, and for good reason. Actuaries enjoy an excellent starting salary, exceptional job security with numerous opportunities for career growth and no graduate degree is required. Actuaries must pass a series of intensive professional exams to become credentialed. The BS program in actuarial science at ASU prepares students for the credentialing exams and provides the tools to succeed in this dynamic career.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Wherever there is risk, there are opportunities to be an actuary. Many actuaries work with insurance companies to calculate premiums, determine reserves needed to ensure an organization's financial health and to make sure organizations conform to stringent, complex legal mandates. Others help companies to establish retirement plans or are employed as consultants. With a Bachelor of Science degree in actuarial science, students acquire skills that are transferable to any industry and any organization that requires risk modeling and management, including:

- accounting firms

- colleges and universities
- energy, such as utilities, oil and gas
- environment (on issues such as climate change and the financial impact or risk of extreme events)
- financial services, such as banking and investment management
- government agencies such as Social Security, the Department of Labor and Medicare (to manage social programs and to develop regulations and legislation)
- transportation, such as shipping and air travel

Students can also apply the advanced problem-solving skills learned in the actuarial science undergraduate program to a variety of other professional careers, including:

- analysts
- business operations specialists
- career advisers
- consultants
- teachers

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.
 Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Because of its emphasis on various social aspects and groups, the African and African American studies program provides students with practical applications useful for various workplaces. This program helps students develop cultural sensitivity and prepares them for careers in:

- administration
- advertising
- business
- counseling
- education
- human resources
- international relations
- journalism
- justice
- management
- travel

Our program prepares students for work in:

- civil rights organizations
- colleges and universities
- corporations
- government agencies
- hotel chains
- law firms
- libraries
- museums
- nonprofit organizations
- political action groups
- public relation firms
- research organizations

American Indian Studies, BS (LAAISBS)

Campus: Tempe

Program Description:

The BS program in American Indian studies provides students with unique opportunities to evaluate issues of American Indian nations within domestic and international contexts. The bachelor's degree program in American Indian studies encompasses two areas of emphasis: legal, policy, and community and economic development; and arts, languages and culture. The American Indian studies program is committed to broadening the knowledge of students interested in the histories, languages, cultures, arts and contemporary situations of American Indian nations and people. The program is designed to protect the integrity and identity of the indigenous populations of North America and to create a learning environment conducive to critical and creative thought.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

American Indian Studies (Indigenous Rights and Social Justice) (MS)

American Indian Studies (Tribal Leadership and Governance) (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their

academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Graduates of American Indian studies will be qualified to fill positions at the tribal, state and federal government levels and in the private sector. Graduates can advance to graduate school or can pursue professional careers in such fields as government service or public service. For example, federally and tribally operated schools located in remote areas within Indian Country have high turnover rates for both teachers and staff. American Indian studies graduates should be available to help fill these positions. Furthermore, the federal government, a major employer on many reservations across the country, is in need of qualified people who are knowledgeable of Indian cultures, laws and policies. Additionally, many American Indian nations' economies and infrastructures are developing at a rapid pace, and they are in continuous need to fill mid-management and management-level positions.

Graduates find positions in many areas, such as:

- casino employment
- community action work
- public administration (tribal or state relations, nonprofit management, education administration, planner)
- public health
- the arts
- tribal employment (political office, tribal management, cultural resource programming, grant writer, cultural specialist, youth services)

This program also provides suitable preparation for graduate study or law school.

Anthropology, BA (LAASBBA)

Campus: Tempe, Online

Program Description:

Anthropology helps students develop strong critical-thinking and oral and written expression skills, important for success in many career areas. The BA program in anthropology gives students an opportunity to learn how and why humans evolved and how our evolutionary biological, social and cultural trajectories help us understand the meaning of being human in past, present and future environments.

Anthropology majors learn how to use the scientific method to formulate and test hypotheses and gather qualitative and quantitative data through participant observation, interviewing, ethnographic study, careful excavation and measurement. They also learn how to employ statistics to analyze and extract meaning from data.

A special feature of the ASU anthropology program is its relevance to other disciplines and many exciting hands-on learning opportunities in laboratories and through study abroad and field-based courses.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The demand in the job market for people with an anthropology background is stimulated by a growing need for researchers and analysts with keen thinking skills who can manage, evaluate and interpret large amounts of data. As the many spheres of human interaction expand globally, people trained in anthropology will increasingly be sought for their broad, holistic knowledge and perspective of understanding, which are the hallmarks of anthropology. Some career opportunities include:

- acting as legal advocates in international cases
- analyzing and proposing policies
- consulting for private and public organizations
- curating cultural resources
- directing nonprofit organizations
- directing programs in the private or public sector
- modeling infectious diseases
- planning communities
- postgraduate academic research and teaching
- professional employment in heritage (cultural resource) management in private or public sectors
- providing health care as nurses, doctors or public or global health professionals

Anthropology, BS (LAASBBS)

Campus: Tempe

Program Description:

Anthropology is the study of how and why humans evolved and how our evolutionary biological, social and cultural trajectories help us understand the meaning of being human in past, present and future environments. The BS program in anthropology gives students an opportunity to master anthropological or anthropologically relevant knowledge and skills through applications of the scientific method and quantitative methodologies.

In core and elective courses, the bachelor's degree program in anthropology allows students to explore problems that may require the use of theories and methods from diverse disciplines, including biology, global health, applied mathematics, psychology, economics, sociology, medicine, law and engineering. The curriculum provides many exciting, hands-on learning opportunities through laboratories, study abroad and field-based courses.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Applied Mathematics for Life and Social Sciences, BS (LAAMLBS)

Campus: Tempe

Program Description:

The BS program in applied mathematics for the life and social sciences offers a challenging and exciting curriculum that investigates and integrates complex areas of the physical, life and social sciences while preparing a new generation skilled in the use of theories and techniques such as mathematical modeling and computational methods to solve practical real-world problems.

The program focuses on the development of critical-thinking skills and purposeful competencies in mathematics. It instills an appreciation for the contributions of mathematics to the fields of sciences, engineering, business, government and economics. Course work is directed toward an understanding of mathematical theory and its relation to other fields of studies. Emphasis is placed on precision of definition, reasoning to accurate conclusions, and analyzing and developing solutions to problems using mathematical principles.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

Academic Catalog Archive 2016-2017

Career Opportunities:

The bachelor's degree in applied mathematics for the life and social sciences indicates students entering the environmental, life, health, mathematical and social science fields possess the quantitative, scientific and analytical skills that are critical for professionals working in these areas.

The need for quantitatively trained scientists and professionals in the life and social sciences is strong in Arizona and the nation. This degree's applied use of mathematics, modeling, statistics and simulation methodologies are in high demand and provide excellent training for future academics and professionals in industries including:

- astrophysics
- biostatistics
- chemical engineering
- communications
- computational biology
- computer animation
- data mining
- demography
- digital and medical imaging
- e-commerce
- education
- forensics
- genomics
- informatics and complex systems research
- materials science
- neuroscience
- pharmaceutical engineering
- political science
- public health
- risk management
- security and military
- social network analysis

Asia Studies (East Asia), BA (LAHSTEABA)

Campus: Tempe

Program Description:

The BA program in Asia studies offers students the opportunity to study East Asia, South Asia or Southeast Asia in depth through a coherent concentration of academic study across a number of disciplines. The transdisciplinary approach will provide students with a variety of intellectual tools to address contemporary political, social and cultural issues in Asia and to apply their knowledge in various academic and practical settings.

Students will identify which concentration (East, South or Southeast Asia) they will pursue.

The concentration in East Asia includes:

- China
- Japan
- Korea
- Taiwan

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The Asia Studies major is especially useful for students who anticipate future careers for which a knowledge of Asia will be a primary career asset, including

- diplomacy
- international business
- journalism
- law
- military and security forces
- philanthropy
- public health
- social work
- teaching

Asian Languages (Chinese), BA (LACHIBA)

Campus: Tempe

Program Description:

The BA program in Asian languages with a concentration in Chinese emphasizes proficiency in reading, writing and speaking Mandarin and in reading classical Chinese. It provides an in-depth understanding of the fundamentals of the rich Chinese cultural tradition, centered on primary Chinese texts (in Chinese and in English translation) from the literary, intellectual and religious cultures of Chinese-speaking societies. These texts include visual and written materials on, among other things:

- linguistics
- literary theory and history
- media
- religions and thought
- urban culture

Students in the program have a number of options available to enhance their education through study abroad: <https://mystudyabroad.asu.edu/> (<https://mystudyabroad.asu.edu/>). Highly-motivated students interested in learning Chinese to professional-level proficiency are encouraged to inquire about the Chinese Language Flagship Program: <https://international.clas.asu.edu/chineseflagship> (<https://international.clas.asu.edu/chineseflagship>). All students with higher levels of linguistic competency may enroll in targeted courses (conducted in Chinese) offered as part of the Chinese Flagship track.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Knowledge of multiple languages and intercultural competencies enhance any occupation and offer graduates many career opportunities.

Language-intensive careers include:

- foreign correspondent or media professional
- foreign service officer
- health professional
- intelligence officer
- international banking and finance professional
- international businessperson
- language teacher
- law and immigration professional
- multilingual administrative professional
- nongovernmental organization professional
- professor of language, literature and culture
- social services professional
- translator or interpreter
- travel professional

Career fields and occupations using languages include:

- advertising, marketing or communications
- airline industry
- film, television or multimedia
- foreign correspondence or journalism
- hospitality industry
- hotel and resort management
- intelligence
- international education and study abroad administration
- international law
- military
- ministry
- public relations
- publishing
- technology industries

Additional education and certification may be required for some career paths.

Asian Languages (Japanese), BA (LAJPNBA)

Campus: Tempe

Program Description:

Students in the BA program in Asian languages with a concentration in Japanese study the language, literature and culture of Japan and gain a respectable measure of competence in reading, writing, oral and aural skills in the Japanese language. Students also gain linguistic and cultural competence through the required study of classical Japanese. Throughout the program, students take courses in either Chinese or Korean language or culture and related courses in Japanese and East Asian culture on topics such as:

- art
- government
- Japanese history
- linguistics
- literary and cultural theory
- religion

In addition, ASU offers summer or yearlong programs to study abroad in Japan. More information on study abroad opportunities is available at <https://mystudyabroad.asu.edu/> (<https://mystudyabroad.asu.edu/>).

Asian Pacific American Studies, BA (LAAPABA)

Campus: Tempe

Program Description:

The BA program in Asian Pacific American studies provides an opportunity for students to study the long history and rich contemporary experiences, cultures and communities of Asian Pacific Americans in the Southwest with dedicated, inspiring faculty. A liberal arts emphasis on critical thinking, complex reasoning and solid writing skills prepares students to engage in research that will inform meaningful dialogues between policymakers, educators and society at large about Asian American and Pacific Islander communities for years to come. The Asian Pacific American Studies program is housed in ASU's School of Social Transformation, the only school of its kind in the United States.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

Biochemistry, BA (LABCHBA)

Campus: Tempe

Program Description:

The BA program in biochemistry provides students with a course of study in the chemical processes of living organisms. Discoveries of new drugs, the recognition and control of new pathogens, development of new catalysts for energy transformations and the production of new materials, and solutions to problems such as food production and environmental remediation depend upon a thorough grounding in this area.

This program is a flexible option for students interested in a liberal arts degree with a strong grounding in physical science. It is ideal for students seeking to complete two degrees. Students wishing to pursue a scientific graduate degree should consider the BS in biochemistry.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 251 - Calculus for Life Sciences

Students may complete MAT 270 Calculus with Analytic Geometry I, MA (4) in lieu of MAT 251 Calculus for Life Sciences, MA (3)

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

A solid undergraduate education in biochemistry provides the necessary background for career paths in areas such as:

- chemical industries
- government
- health care
- research
- teaching

Students often study biochemistry with supporting work in biology and chemistry as the route for preprofessional training for careers in these fields:

- dentistry
- medicine
- pharmacy
- veterinary

Biological Sciences, BS (LABSCBS)

Campus: Tempe

Program Description:

The life sciences delve into the basic organization and processes of life (microbes, plants and animals) at scales ranging from molecules to ecosystems and in time from picoseconds to millennia. This includes investigations into how hereditary information is transferred and how organisms evolve, the interplay of organisms and their environments, and how these factors interact in health and disease. Students interested in a degree in life sciences can opt for a BS in biological sciences or choose one of five concentrations with biological sciences:

- biology and society
- biomedical sciences
- conservation biology and ecology
- genetics, cell and developmental biology
- neurobiology, physiology and behavior

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Biology (Biology and Society) (MS)

Biology (MS)

Molecular and Cellular Biology (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Pima Community College (<http://transfer.asu.edu/pima>)

Career Opportunities:

The biological sciences major with no concentration is designed for students who are committed to studying and training in multiple disciplines in biology and students who want to get more exposure to the life sciences before deciding whether they want to concentrate as an undergraduate. Therefore, students in this major take core courses from several concentrations. Students in this major have more flexibility to customize their program of study so they can focus on their own area of interest that may not have a concentration, such as plant biology or genomics.

The biological science major provides an excellent foundation for graduate study as well as preparation for professional schooling in:

- dentistry
- medicine
- pharmacy
- veterinary medicine

Graduates may also enter positions in:

- certain technical fields
- education
- government
- industry

Biological Sciences (Biology and Society), BS (LABSCSBS)

Campus: Tempe

Program Description:

The BS program in biology and society focuses on training biology students to understand the social context of their science; to ask how and why a biological problem has been and should be studied. Students explore the ways in which policy decisions shape and are shaped by biological research and they investigate the meaning and significance of the life sciences in understanding our complex world.

The biology and society curriculum is highly individualized. This unique degree is home to world-class researchers and teachers in diverse fields, including bioscience ethics, history and philosophy of science, science communication, science education and science policy, all brought together under one program. Students have the opportunity to work with many renowned scholars in independent study and research projects.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Biology and society students gain the historical, philosophical, political and ethical perspectives needed to explore interactions between the life sciences and related, complex human issues. As a result, the program contributes to better informed and more effective teachers, writers, policymakers, clinicians and researchers in areas related to biology, medicine and society.

As a result of the individualized, skill-based curriculum, biology and society majors are eligible for a broad range of career options. Most graduates have chosen to pursue professional degrees in medicine, law, public health or public policy, or graduate study in biology, ethics, education or history and philosophy of science. Our graduates enter the workforce, whether in academia, industry, government or clinical practice with a deep sensitivity to the complexity of biology in society and the skill to navigate that complexity throughout their careers.

Biological Sciences (Biomedical Sciences), BS (LABSCMBS)

Campus: Tempe

Program Description:

The biomedical sciences concentration serves students in the biological sciences BS degree program who wish to pursue careers in medicine, other health professions or biomedical research in an academic, clinical or industry settings. The curriculum aligns with the broad scientific competencies recommended for premed students in a report of the American Medical Colleges and the Howard Hughes Medical Committee and reflected in the 2015 changes to the MCAT. Course work draws from the school's concentration in genetics, cell and developmental biology and the concentration in neurobiology, physiology and behavior, with the addition of courses in biology and in medicine and society. The concentration focuses on the chemistry, biochemistry, math and physics course work that is necessary to prepare students for the MCAT or medical school admissions. The concentration emphasizes core concepts, competencies and critical intellectual skills necessary to succeed in medical school or biomedical research.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with Molecular and Cellular Biology (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their

academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Upon completion of the biological sciences, biomedical sciences concentration degree, students will be well-equipped to enter into careers as research scientists or as scientists in the health professions. Students will have met the majority of prerequisite requirements and mastered many of the competencies valued by graduate programs in medical, dental and optometry fields or in programs which prepare students to be physician assistants or physical therapists. Additionally, graduates of this program will have an understanding of the process of science preparing them for a career in research. They will have knowledge of foundational concepts in biological sciences, chemistry, physics and statistics, as well as the ability to understand and apply core biomedical concepts. This will prepare students to enter into biology research in a vast number of areas including, but not limited to, genetics, genomics, evolution, physiology and immunology.

Biological Sciences (Conservation Biology and Ecology), BS (LABSCCBS)

Campus: Tempe

Program Description:

Ecology is the study of the distribution and abundance of organisms, the interactions among organisms, and the interactions between organisms and the physical environment. Conservation biology is an applied science based on ecological principles that focuses on conserving biological diversity and on restoring degraded ecosystems. Arizona State University has made a commitment toward a more sustainable world, and knowledge of conservation biology and ecology is one critical component to help us meet this global challenge.

Conservation biologists at ASU investigate the impact of humans on Earth's biodiversity and develop practical approaches to prevent the extinction of species and promote the sustainable use of biological resources. Some investigate the causes of ecosystem degradation and use ecological principles to reestablish desired conditions within a range of ecosystems, including rivers, wetlands, grasslands, urban landscapes and forests.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Biology (Biology and Society) (MS)

Biology (MS)

Molecular and Cellular Biology (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The curriculum prepares students for employment and provides a solid platform for students who wish to attend graduate school. The skills and concepts are preparation for careers with:

- governmental agencies such as the Environmental Protection Agency and state game and fish departments
- K-12 education, colleges and universities
- nongovernmental organizations such as The Nature Conservancy and Conservation International
- private companies focused on environmental resources, environmental law or environmental economics

The concentration can provide training in specific skills that might be needed in these areas:

- animal and plant physiology, identification and ecology
- behavioral ecology and population biology
- community, ecosystem and landscape ecology
- conservation of endangered species
- ecology of different habitats, including cities, lakes, rivers and grasslands
- restoration of degraded ecosystems

Biological Sciences (Genetics, Cell and Developmental Biology), BS (LABSCGBS)

Campus: Tempe

Program Description:

Genetics, cell and developmental biology are exciting, closely related areas of life science research. Genetics examines the blueprints of life (i.e., DNA sequence and gene expression) while cell biology studies the machinery of life enclosed within the boundaries of cells. Developmental biology uses genetics and cell biology to understand how genes and the environment interact to produce a whole new individual from a single cell, in addition to developmental changes that organisms undergo throughout life. Many diseases are understood through the study of genetics, cell biology and development.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Biology (Biology and Society) (MS)

Biology (MS)

Molecular and Cellular Biology (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Students in this concentration have a variety of career options. This degree provides the fundamental course work necessary for admission into medical, dental, veterinarian, pharmacy or graduate schools or any of the health professions. There also are many employment opportunities that can be pursued upon receipt of the BS in this concentration:

- animal breeder technician
- bioinformaticist
- biotechnologist
- cell culture specialist
- cloning technician
- crime lab technician
- cytotechnologist
- drug design technician
- food and drug inspector
- genetic counselor
- histologist
- in vitro fertilization technician
- plant improvement specialist
- teacher
- technical writer
- vaccine development technician

Students in this concentration learn critical-thinking skills that can be applied to many scientific problems and professions as well as to the challenges of daily life. We encourage students to engage in independent research projects or internship opportunities in order to develop a better sense of how science is done.

Biological Sciences (Neurobiology, Physiology and Behavior), BS (LABSCABS)

Campus: Tempe

Program Description:

Physiology is the study of how organisms regulate the flow of energy and maintain the conditions necessary for health, survival and reproduction. It might seem that physiology and behavior are quite separate fields, but physiology and behavior interact extensively to achieve common goals.

In the neurobiology, physiology and behavior concentration, students will receive a rigorous and broad education by studying behavior and physiology from the perspectives of molecular and cellular biology, evolution, organ systems (neural, endocrine, cardiovascular, respiratory, immune, etc.) and the environment. Students in this concentration also learn to apply principles from mathematics, chemistry and physics. Discoveries are made at the laboratory bench and in the field, and students in this concentration are encouraged to participate in research projects in the labs of our faculty members.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Biology (Biology and Society) (MS)
- Biology (MS)

Molecular and Cellular Biology (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The broad education and critical-thinking skills students receive in this concentration are well suited for a variety of rewarding careers. Premedical, preveterinary and pre dental students get the background and courses needed for professional school application and beyond. Many students go on to graduate school for academic, teaching or research careers in areas such as:

- endocrinology
- environmental or behavioral physiology
- human physiology
- metabolism
- neurobiology
- social behavior

With a BS in this concentration, there are opportunities for technical positions in hospitals, research institutes and industry (food, dairy, chemical, pharmaceutical and biotechnology) as well as in government laboratories and agencies. The most important skills students learn in the concentration are critical-thinking and problem-solving skills that can be applied to many scientific problems and professions as well as to the challenges of daily life.

Chemistry, BA (LACHMBA)

Campus: Tempe

Program Description:

Chemistry is concerned with the composition, properties, and reactions of matter. The BA program in chemistry provides the fundamental knowledge and skills necessary to address scientific needs of society in transdisciplinary areas such as energy and sustainability, medicine and health, materials and nanoscience, geologic and biospheric science, frontiers of chemical measurement, and fundamental molecular science.

This Bachelor of Arts degree in chemistry is a flexible option for students interested in a liberal arts degree with a strong grounding in physical science. It is ideal for students seeking to complete two degrees. Students pursuing a bachelor's degree in chemistry have opportunities to explore interests in analytical, inorganic, organic and physical chemistry as well as biochemistry, geochemistry, solid-state and materials chemistry. Students wishing to pursue a scientific graduate degree should consider the BS in chemistry.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Cochise College (<http://transfer.asu.edu/cochise>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Career Opportunities:

A solid undergraduate education in chemistry provides the necessary background for many career paths in chemical industries, government and other areas. Chemistry can be combined with law for patent work, with economics for sales and marketing careers, and with computer science for careers in information storage and retrieval. Students planning careers in medicine, dentistry or veterinary medicine often pursue a course of study in chemistry with supporting work in biology as the route for preprofessional training.

Chemistry (Environmental Chemistry), BS (LACHMEBS)

Campus: Tempe

Program Description:

The BS degree in chemistry with an environmental chemistry concentration is a transdisciplinary degree program that combines training in the traditional disciplines of chemistry with related environmental sciences courses from geology, mathematics and physics. Discoveries of new materials, processes and solutions to problems such as pollution control and climate change depend upon a thorough grounding in this area of science.

This program prepares student to become scientists and leaders in solving environmental problems and serves as excellent preparation for a career in environmental science or further study of physical sciences in graduate school.

Computational Mathematical Sciences, BS (LACMSBS)

Campus: Tempe

Program Description:

New technologies, from smartphones to DNA sequencers, are changing the way people live, and the science behind these innovations owes a lot to computational mathematics.

This cutting-edge bachelor's degree program is a fusion of mathematics, science and computing. Students in the BS in computational mathematical sciences program learn how to translate problems in science and engineering into mathematical problems and solve them using computing algorithms. They develop strong problem solving, analytical and programming skills as they work across diverse areas of science and mathematics.

One of the great advantages of earning a Bachelor of Science degree in computational math is that there are so many different directions to pursue. Subjects such as cancer modeling, weather forecasting, business and finance all involve computational mathematical sciences.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Mathematics (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

In a recent study, mathematics, computer science, applied mathematics and statistics all ranked among the top 15 most valuable college majors in terms of salary and career prospects. The computational mathematical sciences program brings all these disciplines together.

A bachelor's degree in computational mathematical sciences is one of the most versatile math degrees. The degree positions students for careers in computer technology, business, medical research, teaching and education, engineering and more. Some students also pursue graduate opportunities in areas such as biophysics, economics, medicine, statistics and law.

Earth and Environmental Studies, BA (LAEESBA)

Campus: Tempe

Program Description:

The BA program in earth and environmental studies provides a foundational understanding of the evolution of the earth system with an emphasis on the planetary context for sustainable human societies. The degree includes broad training in the physical sciences, especially process-oriented geosciences that focus on Earth's life-sustaining surface environment. Advanced courses focus on topics including:

- climate change
- Earth's water, energy and material resources
- impact of land-use change on human civilization
- physical, chemical and biological process interactions that define Earth's evolution

The degree is designed as a liberal arts program with an emphasis on basic scientific literacy, not as a preparatory degree for graduate study in the natural sciences. However, successful earth and environmental studies graduates will be well prepared for green energy career opportunities such as:

- education
- environmental reporting
- natural resource management
- public planning
- sustainability

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Coconino Community College (<http://transfer.asu.edu/coconino>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

With a breadth of knowledge and experience and the acquired skills to integrate various domains of knowledge, graduates of earth and environmental studies have prepared themselves for a variety of careers that help find solutions to tomorrow's environmental and sustainability challenges. Chief among these are the following career settings:

- consultancy
- education
- governmental agencies
- industry
- museums
- nongovernmental organizations
- nonprofit organizations
- publishing
- regulatory agencies
- utilities

Recent environmental awareness in business and government has also resulted in new employment opportunities (e.g., environmental coordinators, directors and managers). They are also well prepared for admission to strong professional schools.

Earth and Space Exploration, BS (LASESBS)

Campus: Tempe

Program Description:

The BS program in earth and space exploration offers students an integrated education across earth sciences, planetary sciences, astrophysics and engineering. The degree program incorporates:

- a learning community that includes science and engineering students
- a yearlong collaborative capstone senior exploration project
- strong quantitative preparation

This strong foundation in geosciences, astrophysics and exploration engineering will prepare students for key roles in:

- earth resources and exploration
- environmental and geologic engineering
- space research and industry
- water and environmental use policy

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

or MAT 270

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Earth and Space Exploration (Astrobiology and Biogeosciences), BS (LASESABBS)

Campus: Tempe

Program Description:

Astrobiology studies the origins, evolution, distribution and future of life in the universe. Biogeoscience focuses on the interaction of biological and geological processes on Earth at present and in the geologic past. These topics are closely related because the concepts of biogeoscience inform the study of planetary habitability and the search for habitable worlds. Therefore, the astrobiology and biogeoscience concentration in earth and space exploration is designed to offer students a strong foundation for exploring the interaction of geological and biological processes, how such interactions sustain life on Earth, and how they might operate on other planets. This scientific background is needed to contribute to the search for life on other planets as well as the exploration of extreme environments here on Earth. It also provides training in the interplay of forces that impact global change.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I
or MAT 270

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Students in the astrobiology and biogeosciences program will be well prepared for graduate studies in this field. Because astrobiology is increasingly the motivation for NASA exploration missions, they will also be well suited for entry-level careers at NASA research centers. The

degree also provides broad training across a range of science fields, giving students a strong background for careers in biomedical, environmental or sustainability areas.

Earth and Space Exploration (Astrophysics), BS (LASESABS)

Campus: Tempe

Program Description:

The BS in earth and space exploration with a concentration in astrophysics is designed to offer students a fundamental grounding in astronomy and astrophysics, with exposure to the related fields of geology, planetary science and engineering. Students will emerge from this program with the skills to pursue a career in astrophysics, physics or related fields.

The rigorous course work includes a combination of physics courses taught in the School of Earth and Space Exploration and the Department of Physics. Students should graduate from the program with the ability to compete at the national level on standardized physics exams. The tools of astronomical discovery are increasingly dependent on technological advances so students will be exposed to engineering principles. Through the capstone project in the senior year, students will gain valuable experience in translating science drivers into engineering solutions.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I
or MAT 265

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Career opportunities include but are not limited to:

- aerospace engineer
- astrobiologist
- astronomer
- computer programmer
- data analyst
- instrumentation specialist
- planetary scientist
- science policy intern
- science writer
- teacher
- telescope operator

Career settings include:

- federal government
- K-12 schools

- manufacturing
- museums
- NASA facilities
- national laboratories
- NSF facilities
- observatories
- planetariums
- publishing
- space industries
- universities and colleges

Some of the listed careers may require advanced degrees or additional certifications. This program also provides suitable preparation for graduate study.

Earth and Space Exploration (Exploration Systems Design), BS (LASESESDBS)

Campus: Tempe

Program Description:

The exploration systems design concentration offers students a fundamental curriculum in geology, physics and astrophysics while providing tools that enable them to design and build hardware and software to achieve specified scientific goals.

At the heart of the program is a sound grounding in the fundamentals of physics, mathematics and chemistry. Upon that foundation, students explicitly tackle issues concerning hardware design, instrument assembly and, ultimately, how to knit these components together when conceiving the requirements needed for a mission or project destined for space or another planet.

As part of this degree program, each student will have the opportunity to learn how projects and missions are designed and planned, starting with the scientific drivers and then defining engineering specifications. All students are expected to complete a senior project that takes a desired scientific measurement and realizes the technological solution to achieve the observation.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I
 or MAT 270

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Earth and Space Exploration (Geological Sciences), BS (LASESGSBS)

Campus: Tempe

Program Description:

Geological science is the study of the Earth and other planets with an emphasis on the processes that have shaped them since the origin of the solar system. Students apply their knowledge to topics such as the co-evolution of life, oceans, atmosphere and the Earth's climate system and the record of that evolution encoded in rocks, soil, ice and isotopes.

The BS program in earth and space exploration with a concentration in geological sciences educates students in the fundamentals of the geological sciences, providing a solid background in chemistry, mathematics and physics as well as transdisciplinary training in engineering, astronomy and planetary science.

Students will gain a strong understanding of field methods as well as modern computing, remote sensing and instrumentation in order to effectively study the natural environment and Earth's resources. Graduates of the program will learn to apply their knowledge for the benefit of Arizona, the nation and society in general.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I
 or MAT 270

Economics, BS (LAECNBS)

Campus: Tempe

Program Description:

The mission of the Department of Economics at ASU is to provide the highest quality instruction to students, conduct cutting-edge research in economics and provide leadership and service to our professional communities. The department's undergraduate program aims to provide students with the critical-thinking and communication skills needed to succeed in business, government or graduate school.

The BS in economics is built on a strong core of economic theory, supplemented by mathematics and data analysis. All students are encouraged to develop programs of study tailored to their individual needs and interests. Students choose from a variety of courses within the department as well as from the College of Liberal Arts and Sciences and the university to broaden their knowledge and skills and individualize their learning experience.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 270

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

English (Creative Writing), BA (LAENGCBA)

Campus: Tempe

Program Description:

Undergraduate students can pursue BA degrees in English with concentrations in creative writing, linguistics, literature, secondary education and writing, rhetorics and literacies. A bachelor's degree in English is also offered completely online.

Students in the creative writing concentration study and practice the art of writing poetry and fiction. The distinguished faculty in the Department of English are actively engaged in creative writing and scholarly research. Students gain practical experience through research and internships that prepare them for an ever-expanding variety of careers. The undergraduate programs also prepare students to continue their studies in graduate and professional programs.

English (Secondary Education), BA (LAENGSEBA)

Campus: Tempe

Program Description:

Undergraduate students can pursue BA degrees in English with concentrations in creative writing; linguistics; literature; secondary education; and writing, rhetorics and literacies. A bachelor's degree in English is also offered completely online.

The BA in English with a concentration in secondary education focuses on rigorous content in literature, composition, linguistics and secondary teaching pedagogy. This program provides extensive preparation for meeting the needs of all student populations, including attention to levels of academic performance and cultural and linguistic diversity. Students finish the program with Arizona Department of Education certification for middle and high school English language arts. Both a fingerprint clearance and a background check are required in the second year of the program.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Students graduating with a bachelor's degree in English with a concentration in secondary education will have tremendous opportunities for employment. With more than one million students in a state ranked seventh in the nation in population growth, the need for certified teachers in Arizona is self-evident. Arizona State University provides more of those teachers than any other institution of higher education. In the last 15 years, ASU graduates have had their pick of teaching jobs around the valley and in the state. After student teaching in school districts in the greater Phoenix area or in one of the 22 Native American nations, students are often hired to teach in the same school in which they completed their internship. New teachers will continue to be in demand because the predicted rate of population growth in Arizona is still strong and the retirement rate of teachers is increasing.

English (Writing, Rhetorics and Literacies), BA (LAENGWBA)

Campus: Tempe

Program Description:

Undergraduate students can pursue BA degrees in English with concentrations in creative writing; linguistics; literature; secondary education; and writing, rhetorics and literacies. A bachelor's degree in English is also offered completely online.

The concentration in writing, rhetorics and literacies teaches students strategies for inquiry. Students will study the ways in which communication has, does and will create knowledge and action; and how communication is constructed, circulated, reacted to and repurposed through time and place. Through differing tools of inquiry, students will study the history, theories and methods of inquiry as well as pragmatic and social actions of rhetoric, writing and literacies.

Family and Human Development, BS (LAFASBS)

Campus: Tempe, Online

Program Description:

The BS in family and human development offers course work on the development of individuals and families as they relate to their social worlds. A required concentration in family studies and child development provides a firm foundation for more individualized studies on contemporary issues related to human development from infancy through the end of the life span, and the development, formation and dissolution of families. Students develop proficiency in written communication, computer skills, statistics and research methods.

Film (Film and Media Studies), BA (LAFMSBA)

Campus: Tempe, Online

Program Description:

The BA in film and media studies is an innovative program in the study of film, television, computer games, the Internet and screenwriting.

This program provides students with the analytic, creative and communication skills needed to interpret and create media texts, and it prepares students for opportunities in the entertainment industry as executives, producers and writers. The major in film and media studies empowers students to be critical consumers of media, creative industry professionals and rigorous scholars of media texts and culture.

French, BA (LAFREBA)

Campus: Tempe

Program Description:

The BA in French offers the opportunity to study the language, literature and culture of France and francophone countries. Students gain competence in reading, writing, oral and aural skills in the French language and take a number of related courses on topics such as:

- art
- colonization
- government and political science
- history and civilization
- international business
- linguistics
- literature and culture
- religion

Students are encouraged to join the French Club to help them gain proficiency in the language. In addition, the School of International Letters and Cultures offers faculty-directed summer study abroad programs in France and Quebec, Canada, and it endorses partnership and exchange programs in francophone Africa, Canada and Europe. More information on study abroad opportunities is available at <https://international.clas.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages> (<https://international.clas.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages>).

Knowledge of multiple languages and intercultural competencies enhance any occupation and offer graduates many career opportunities.

Career fields and occupations using languages include:

- advertising, marketing and communications
- airline industry
- cultural advisor
- diplomatic and foreign service agent
- domestic and international banking
- domestic and international business
- domestic and international law
- film, television and multimedia
- foreign correspondence and journalism
- health professions
- hospitality industry
- hotel and resort management
- intelligence
- international education and study abroad
- interpreting and translation
- military
- ministry
- multilingual administration
- nongovernmental organization administration
- public relations

- publishing

Geographic Information Science, BS (LAGISBS)

Campus: Tempe

Program Description:

The BS degree in geographic information science focuses on the computational dimension of geographic information system technology. Students in the program will learn

- commercial and open source GIS and related software
- computational principles in GIS
- concepts in spatial thinking and geographic problem solving
- mathematical and statistical spatial modeling
- programming in multiple languages (e.g., Java, C++, and Python)

These essential programming skills combined with GIS knowledge will form the basis for designing and implementing GIS software.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Career opportunities are found in private and public sectors in the GIS and computer science world. In the private sector, students may find employment with top software development companies. Job activities range from designing desktop systems and implementing Web and mobile applications to developing workflow systems. Public sector job activities, such as with local or national governmental agencies, involve customizing desktop and project management systems as well as spatial models and systems, including both Web and mobile applications.

Geography, BA (LAGCUBA)

Campus: Tempe, Online

Program Description:

The BA in geography teaches students to see the world through the twin lenses of space and place.

Geographers have a unique spatial perspective in understanding the modern world, global to local. The BA in geography emphasizes humanistic and cultural traditions. Students pursuing undergraduate studies in geography typically concentrate knowledge-building in understanding various cultural phenomena or in studying regions such as:

- Africa
- Asia
- Australia and Oceania
- Europe
- Latin America
- North America

Additional Program Fee: N

Geography, BS (LAGCUBS)

Campus: Tempe, Online

Program Description:

Students in the BS program in geography learn to see the world through the twin lenses of space and place.

Geographers have a unique spatial perspective in understanding the modern world, global to local. The Bachelor of Science in geography emphasizes spatial patterns in natural science features such as:

- landforms
- plants
- water
- weather

The degree also emphasizes social science or environmental science dynamics involving:

- economic patterns
- human populations
- transportation

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(http://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-geography?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

With a focus on geospatial techniques, geographers with a bachelor of science degree go on to careers such as:

- computer cartographers
- environmental impact assessment analysts
- geographic information science specialists and analysts
- geomorphologists
- hydrology and water resource specialists
- location analysts for businesses
- photogrammetry specialists
- remote sensing analysts

Graduates are presented with a host of other geospatial career options in the burgeoning fields of geographic information science, mapping and navigation systems.

Geography (Meteorology-Climatology), BS (LAGCUMBS)

Campus: Tempe

Program Description:

The meteorology-climatology concentration under the BS in geography is designed to meet the requirements for certification as a meteorologist by the National Weather Service. It covers dynamic as well as synoptic meteorology.

Required courses include:

- atmospheric physics
- operational weather forecasting
- three semesters of calculus
- two semesters of calculus-based physics

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Substantial

Concurrent Degrees:

This degree is also offered as concurrent degree with Journalism and Mass Communication, BA

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Concurrent degree admission requirements:

Freshman applicants must meet all of the following standards:

- 3.75 minimum ABOR GPA
- no English competency deficiencies
- 1040 SAT Reasoning or 22 ACT score

Transfer students must have a minimum cumulative GPA of 3.00 from a transfer institution.

ASU students:

ASU students who would like to change their majors to the concurrent program with journalism and mass communication must have at least a 3.00 cumulative GPA in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's non-elective General Studies requirements.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Students successfully completing the program have found employment with:

- airlines
- energy power companies
- government agencies
- military*
- National Weather Service

*meteorology and pilot training

This program also provides suitable preparation for graduate study in either meteorology or climatology.

Geography (Urban Studies), BS (LAGCUUBS)

Campus: Tempe

Program Description:

Geographers have a unique spatial perspective in understanding the modern world, global to local, through the twin lenses of space and place.

The urban studies concentration under the BS in geography applies the tools of geography to the study of urban areas. Students have an opportunity to focus in particular on the Phoenix metropolitan area and other rapidly urbanizing regions in arid climates. Tied with geographic information science, the urban studies major brings both knowledge and skill sets together in a powerful way.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Students successfully completing the program pursue employment with city planning agencies as well as other government entities at various levels (county, state, federal). The urban studies concentration, especially when combined with a focus on geographic information science, gives graduates an advantage in careers that combine urban planning with GIS and in other jobs dealing with urban issues, including:

- economic development planning
- GIS databases for city governments
- housing issues
- sustainable planning
- transportation

German, BA (LAGERBA)

Campus: Tempe

Program Description:

Students in the BA in German study the language, literature and culture of German-speaking people and gain a respectable measure of competence in reading, writing, oral and aural skills in the German language. Students broaden and deepen their studies with related courses on topics such as:

- art
- government
- history
- international business
- linguistics
- literature and culture
- religion

Students are encouraged to study abroad in Germany as participants in the School of International Letters and Cultures faculty-directed summer program in Regensburg or in one of the academic-year exchange programs available at several German universities. More information on study abroad opportunities is available at <https://mystudyabroad.asu.edu/> (<https://mystudyabroad.asu.edu/>).

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Global Health, BA (LASSHBA)

Campus: Tempe, Online

Program Description:

The BA in global health is a transdisciplinary degree designed for students who seek a broad and flexible set of skills for understanding contemporary health challenges and thinking about how they might best be solved. Global is understood in the anthropological sense, meaning ways of understanding and addressing disease, health and well-being that can incorporate all cultures, places and time and that can integrate knowledge of health's social, historical, biological and ecological dimensions.

The curriculum emphasizes the development of core skills in critical thinking, problem-solving and the importance of direct experience (research, study abroad, service learning and advocacy). The program cultivates capacities to deal with any complex problem with social components: how to identify the critical issues, ask the right questions and create solutions that are meaningful and effective.

Students are required to participate in an approved global health study abroad program.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with Global Health (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(http://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-global-health?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Nationally and internationally, the health field provides enormous and varied career opportunities, and demand is high and growing for graduates with skills. The major supports the goals of those pursuing careers in academic research, teaching and health services. Sample employment venues include:

- departments of health
- government agencies
- international agencies (World Health Organization, Center for Disease Control, Global Health Council, World Bank, Inter-American Development Bank)
- nongovernmental organizations
- private sector
- universities

The degree also provides a broad intellectual base for those who plan advanced specialist health training in fields such as:

- dentistry
- medicine
- nursing
- pharmacy

In Arizona and elsewhere, there is a pressing need for professionals with appropriate skills to work in cross-cultural settings or with underserved populations (such as migrants, minorities and those living in poverty), and many of these jobs are directly or indirectly related to health.

Global Studies, BA (LASGSBA)

Campus: Tempe

Program Description:

Global studies examines the causes and consequences of problems that cross national boundaries and the governance of these problems in social, cultural and economic contexts. The major aims to address real-world problems and their solutions. This mission is enabled by an internationally recognized faculty that has extensive global experience from a wide variety of disciplines in the social sciences, humanities and law. The global studies program uses teaching, research and public policy activities to address some of the most challenging issues that include:

- built environments
- economic and social development
- global cities and urbanization
- global governance of health and climate change
- justice and human rights
- religious identities, rights and conflicts
- world culture

Global studies faculty members orient their work toward solving global problems by drawing on expertise in diverse disciplines, including:

- anthropology
- economics
- geography
- history
- law
- planning
- political science

- sociology

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with Political Science (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

History, BA (LAHISBA)

Campus: Tempe, Online

Program Description:

Students pursuing the BA in history study the growth and development of human society from political, social, economic and cultural aspects.

Students learn to craft stories from materials other people have left behind --- constitutions, land deeds, diaries, guns and bones. They learn to make decisions about what to investigate, about whom to believe, about what happened first, and about why things fell apart or came together.

History is a discipline that constantly adopts new techniques of analysis and new ways of gathering and presenting information. Students of history learn to use and create digital media, to perform quantitative as well as qualitative analysis, and to present their findings in compelling ways to all kinds of audiences.

Students choose a primary geographic concentration from:

- Asia
- Europe
- Latin America
- United States

Students considering the online bachelor's degree in history offered through ASU Online choose a primary concentration in either United States or world history.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with History (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Dine College (Dine College)

Career Opportunities:

History majors are in demand. They know how to find and evaluate evidence, form arguments and present analysis --- skills essential to most careers including law, business, education, medicine and government.

Three out of four employers surveyed by the Association of American Colleges and Universities say they want colleges to place more emphasis on helping students develop five key learning outcomes: critical thinking, complex problem-solving, written communication, oral communication, and applied knowledge in real-world settings. These learning outcomes are integral elements of an undergraduate degree in History.

History majors seek jobs in:

- business and industry
- communications
- education
- foreign service
- law enforcement
- museums
- public administration
- social services

History is an excellent foundation for graduate and professional studies in:

- business
- history
- justice studies
- law
- medicine
- public administration
- public history
- theology

History (Secondary Education), BA (LAHISSEBA)

Campus: Tempe

Program Description:

The secondary education concentration within the BA in history offers a flexible degree for students who are considering a career in education. The concentration fully prepares students for teaching and certification. At the same time, the concentration provides all the disciplinary knowledge of a traditional history degree and prepares students for a variety of non-education careers. By developing strong critical reading, writing and research skills as well as skills in oral presentation, the concentration creates a solid foundation for graduate work in history, law or business.

Integrated Studies, BA (LAISTBA)

Campus: Tempe

Program Description:

The integrated studies program is a unique and highly focused individualized plan of study for students whose academic interests are not served by more traditional disciplinary pursuits. Developed for academically superior students whose interests lie beyond established departmental emphases and boundaries, the integrated studies program provides students the opportunity to work one-on-one with faculty mentors to create a personalized and individually tailored bachelor of arts plan.

Students who are approved to develop an integrated studies major will pursue a focused and coherent course of study that draws its curricula from more than one academic department or college.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Not available to freshmen. There is an additional application for this degree. Admissions consist of completion of 32 credit hours at ASU with a GPA of at least 3.25 and three letters of recommendation from ASU faculty members. For more information contact the assistant dean for academic affairs, Office of Student and Academic Programs, Fulton Center, Suite 110.

Career Opportunities:

The professional and vocational opportunities provided by the integrated studies major will depend on the area of concentration and the particular focus of study. The integrated studies major shares with all other liberal arts and sciences programs in the goal of developing students' analytical abilities and communication skills. The program combines breadth of learning across multiple disciplinary contexts with an appropriate depth in a focused area of inquiry. Integrated studies graduates are prepared to enter the work force or pursue graduate or professional studies at the completion of their undergraduate program.

International Letters and Cultures, BA (LASLCBA)

Campus: Tempe

Program Description:

The BA in international letters and cultures is a degree grounded in the advanced study of at least one foreign language. It is more transcultural and transdisciplinary than a traditional languages and literature degree and is designed to encourage students to explore and challenge the traditional boundaries of cultures, texts and disciplines. Students work closely with faculty and advisors to choose a program that combines study and research in a minimum of two cultures or disciplines (or both).

Students must meet with an advisor in the School of International Letters and Cultures to discuss this degree option; it is not recommended for first-year students.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

International Letters and Cultures (Classical Civilization), BA (LASLCVBA)

Campus: Tempe

Program Description:

Classics is a transdisciplinary field that includes the study of the literature, art, history and philosophy of the ancient Greeks and Romans, subjects which fueled the Renaissance and have continued to provide an intellectual foundation for innovative and influential people ever since.

ASU's BA program in international letters and cultures with a concentration in classical civilization provides a thorough grounding in the culture and history of the ancient Greeks or Romans while allowing students to satisfy their language requirement outside the classics. The degree begins with two cores: an introduction to ancient Greek and Roman literature (read in English translation) and knowledge of ancient history. With that basis, students are allowed to build a program to meet their needs and interests. Among the variety of topics students pursue are:

- ancient history, war, politics and economics
- archaeology of the ancient Mediterranean world
- art and architecture of the ancient Egyptians, Greeks and Romans
- mythology and religious practices of the Greeks and Romans
- thought of figures such as Plato, Aristotle and Lucretius
- use of the classics in today's film, books and other media

In addition to the concentration in classical civilization, ASU also offers a classics concentration with a similar focus, but more emphasis on training in ancient languages. Students should consult their advisor and choose the concentration that best meets their needs.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

College graduates with a degree in classical civilization have the valuable experience of studying a culture very different from, and yet lying at the root of, the modern world. This gives them a perspective that serves them well in a variety of disciplines. Classical civilization graduates may consider careers in:

- business
- film, television or multimedia
- law
- public service
- teaching in K-12 schools
- writing and editing (fiction, journalism, technical writing)

Additional education may be required for some career fields.

International Letters and Cultures (Classics), BA (LASLCCBA)

Campus: Tempe

Program Description:

Classics is the study of the literature, art, history and philosophy of the ancient Greeks and Romans --- a transdisciplinary field that fueled the Renaissance and that has continued to provide an intellectual foundation for innovative and influential people ever since. ASU's BA program in international letters and cultures with a concentration in classics begins with two cores: language skills in ancient Greek or Latin (or, if the student chooses, both) and knowledge of ancient history. With that basis, students are allowed to build a program to meet their needs and interests. Among the variety of topics students pursue are:

- ancient history, war, politics and economics
- literary classics such as Homer, Sophocles, Virgil and Ovid
- the archaeology of the ancient Mediterranean world
- the art and architecture of the ancient Egyptians, Greeks and Romans
- the mythology and religious practices of the Greeks and Romans
- the thought of figures such as Plato, Aristotle and Lucretius
- the use of the classics in today's film, books and other media

In addition to the concentration in classics, ASU also offers a classical civilization concentration with a similar focus but different language requirements. Students should consult their advisor and choose the concentration that best meets their needs.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

College graduates with a degree in the classics have developed skills in research and the precise use and analysis of language that will serve them well in a wide range of fields. The transdisciplinary study of a culture very different from, and yet lying at the root of, the modern world also fosters a student's ability to view issues from many angles and think critically about them. Classics graduates often find careers in:

- business
- Christian ministry
- film, television and multimedia
- law
- politics
- teaching Latin or Greek in K-12 schools
- university teaching (after graduate school)
- writing and editing (fiction, journalism, technical writing)

As many employers are well aware, a classics graduate has the training to solve difficult puzzles, to see through obscure language, and to conduct rigorous research on often ill-defined problems. These skills are prized in any field of endeavor.

Italian, BA (LAITABA)

Campus: Tempe

Program Description:

The BA in Italian offers students an opportunity to study the literature and culture of Italy while gaining a respectable measure of competence in reading, writing, oral and aural skills in the Italian language. Students broaden their knowledge by completing a number of related courses on topics such as:

- art
- film
- government
- history
- literature and culture
- religion

Faculty-directed summer programs in Italy are available for students who wish to study the language and culture while living in the country. Study abroad programs in various cities in Italy are also available during the academic year. More information on study abroad opportunities may be found at <https://international.clas.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages> (<https://international.clas.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages>).

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Knowledge of multiple languages and intercultural competencies enhance any occupation and offer graduates many career opportunities.

Language-intensive careers include:

- foreign correspondent and media professional
- foreign service officer
- health professional
- intelligence officer
- international banking and finance professional
- language teacher
- law and immigration professional
- multilingual administrative professional
- NGO professional
- professor of language, literature and culture
- social services professional
- translator and interpreter
- travel professional

Career fields and occupations using languages include:

- advertising, marketing and communications
- airline industry
- film, television and multimedia
- hospitality industry
- hotel and resort management
- intelligence
- international business
- international education and study abroad administration
- international law
- lifestyle management
- military
- ministry
- public relations
- publishing
- technology industries

Additional education and certification may be required for some career paths.

Jewish Studies, BA (LAJSTBA)

Campus: Tempe

Program Description:

The BA in Jewish studies offers a transdisciplinary, cross-cultural program of study in the humanities that examines ethical, religious and spiritual values while exploring a range of philosophical and political viewpoints. The major focuses on the study of Judaism, defined as the civilization of the Jews. It considers Jewish history and modern life, enhances the student's understanding of Jewish contributions to Western civilization, and facilitates enhanced cultural awareness and global perspective. As with other degree programs in the humanities, a bachelor's degree program in Jewish studies can provide a balance to studies in contemporary science and technology.

Students choose a thematic concentration from:

- history and society
- literature and culture
- religion and thought

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Students who receive a bachelor's degree in Jewish studies and pursue a career with one of the hundreds of U.S. companies that do business in Israel will have a competitive edge because of their familiarity with the Hebrew language and Jewish culture. Jewish studies graduates are also prepared to:

- attend rabbinical seminary in preparation for becoming a community rabbi or chaplain
- engage in world political and economic issues
- pursue advanced education in Jewish professional service fields
- pursue advanced degrees related to their area of interest in fields that may include:
 - archaeology
 - creative writing
 - ethics
 - film and media
 - history
 - journalism
 - justice studies
 - law
 - philosophy
 - political science
 - religious studies

Justice Studies, BA (LAJUSBA)

Campus: Tempe

Program Description:

Justice studies is an innovative social science program examining current social justice issues, such as human rights, domestic violence and immigration, against a backdrop of legal systems, law and culture. The BA in Justice Studies equips students with a dynamic knowledge of the world's justice systems and gives them the skills to create meaningful, real-world change.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Justice Studies (MS)

Science and Technology Policy, MSTP

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Mathematics, BA (LAMATBA)

Campus: Tempe

Program Description:

Math is the science of problem-solving. Students in the BA degree program in mathematics will be able to apply the critical thinking and problem-solving skills they learn to many endeavors because math is a crucial component in engineering, life sciences, business, economics and social sciences. In the bachelor's degree in mathematics, students acquire a strong general mathematics background, but retain the flexibility to pursue other areas of interest through a minor or even a second major. Combining a second area of study such as life science, physics, computer science or business creates a powerful combination for future career goals.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (<https://students.asu.edu/freshman/requirements>)
Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)
International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Cochise College (<http://transfer.asu.edu/cochise>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Career Opportunities:

The BA in mathematics includes a foreign language requirement, making this an ideal option for students interested in careers in global business. It is also a top option for international students looking for a general math background. The Bachelor of Arts degree in mathematics can be the springboard for many different careers:

- business management
- computer engineering
- financial analysis
- healthcare
- law
- teaching

Mathematics, BS (LAMATBS)

Campus: Tempe

Program Description:

A mathematics degree opens up a world of possibilities. In fact, the three top-rated jobs in the United States in terms of salary, employment outlook and more are all careers with a strong math focus. Students pursuing the BS in mathematics also learn critical-thinking and problem-solving skills that can be applied to almost any profession.

The degree offers a grounding in both theoretical and applied mathematical concepts. Classes cover a broad spectrum of advanced mathematical topics, including number theory, cryptography and functional analysis. Students with a bachelor's degree in mathematics can pursue careers in fields as diverse as computer science, biotechnology, engineering, medical research and education.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Mathematics (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Mathematics is foundational and can be applied to many different types of careers. Math is a crucial part of engineering, life sciences, business, economics and social sciences. Many undergraduate math majors also pursue graduate studies in medicine or law. These are just a few of the top careers possible with a BS in mathematics:

- cryptographer
- engineer
- financial analyst
- mathematician
- operations research analyst
- statistician
- teacher

Students interested in a career in teaching or education may also consider the bachelor's degree in mathematics concentration in secondary education. <https://math.asu.edu/degree-programs/lamatsbs> (<https://math.asu.edu/degree-programs/lamatsbs>)

Mathematics (Secondary Education), BS (LAMATSBS)

Campus: Tempe

Program Description:

School districts across the country are struggling with shortages of teachers, particularly in math. ASU's BS program in mathematics with a concentration in secondary education provides a new pathway for students interested in teaching. Students acquire strong content knowledge in diverse areas of math and the skills to convey these concepts to others. This degree program offers a deeper mastery of mathematics coupled with the ability to handle the challenges of a high school classroom.

Students who wish to teach at the secondary level will take courses preparing them to earn certification in the State of Arizona through this program. By providing a carefully designed curriculum of courses and instructional experiences the program develops the deep understandings and connections needed to be a highly effective mathematics teacher. Graduates emerge equipped to provide mathematics instruction that is coherent, meaningful and challenging.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Mathematics (Statistics), BS (LAMATTBS)

Campus: Tempe

Program Description:

The volume and detail of information being captured through sources such as the Web and social media is growing exponentially. This large volume of information is called data, and it's changing the way we live.

In the BS program in mathematics with a concentration in statistics, students learn innovative mathematical, computational and statistical methods to analyze data sets, as well as how to use data in real-world applications. Using data analytics, students discover how to generate insights that inform fact-based decision-making. They use cutting-edge techniques to study and understand methods of statistical inference and explore strategies for dealing with uncertainty.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:
 All students are required to meet general university admission requirements.

 Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.
 Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Statistical analysis and data mining have been identified as two of the most desirable skills in today's job market. Based on factors like pay, growth and job satisfaction, statistics has been named in separate job reports as one of the best careers for millennials. Data and the analysis of data is big business, and the Department of Labor projects a 25 percent growth in the need for employees trained in data analytics between now and 2018. For students pursuing a bachelor's degree in mathematics with a concentration in statistics, that means an exciting future of career opportunities in fields as diverse as business, finance, engineering, technology, sports, marketing, government and other areas of the economy.

These are just a few of the top career paths you can pursue with a major in this bachelor's degree program:

- actuary
- data scientist
- financial analyst
- market research analyst
- software engineer
- sports statistician
- teacher or professor

Students can also combine statistics with other disciplines, such as business or economics, to enhance preparation for their personal career goals.

Microbiology, BS (LAMICBS)

Campus: Tempe

Program Description:

The BS in microbiology combines the study of the branch of biology involving the smallest of living things (bacteria, fungi, algae, protozoa and viruses) and immunology (the study of all aspects of the immune system). Despite their small size, microbes are fundamental to life on Earth and compose the majority of all Earth's life forms. In addition to their essential contributions to the natural world, microbes have been model experimental subjects due to their impact on human health and ease of manipulation in the laboratory. A significant portion of medical research employs microbiological and immunological methods in order to examine basic genetic and biological phenomena.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Biology (MS)

Molecular and Cellular Biology (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The microbiology degree program places emphasis on understanding microorganisms and their interrelationships with other organisms in nature and on the influence of microorganisms in biomedicine and biotechnology. Students in the microbiology degree program will study not only the background and current findings in the field of microbiology but also acquire the critical-thinking skills and the hands-on laboratory and field skills required to succeed in science. The major provides excellent training for premedical, pre dental, preveterinary and prepharmacy students as well as advanced study in microbiology and immunology.

The discipline of microbiology is diverse and the job opportunities for microbiologists are enormous. Graduates with a degree in microbiology have opportunities for employment in:

- government
- hospitals
- industrial laboratories (food, dairy, chemical, pharmaceutical, environmental and biotechnology companies)
- public health laboratories
- research laboratories

Many students are also suitably prepared for admission into graduate school and advanced study in these fields:

- dentistry

- medicine
- pharmacy
- veterinary

Microbiology (Medical Microbiology), BS (LAMICMBS)

Campus: Tempe

Program Description:

The medical microbiology concentration serves students in the microbiology BS degree program who aim to pursue careers in health professions, medical microbiology or other areas of biomedical research. The curriculum aligns with the scientific competencies recommended for premed students in a report of the American Medical Colleges and the Howard Hughes Medical Institute Committee and are also reflected in the 2015 changes to the MCAT. Course work includes many of the courses in the microbiology major, including chemistry, biochemistry, math and physics, but some microbiology courses have been replaced with cell biology, animal physiology and courses that relate to human biology and society. The concentration program emphasizes core concepts, competencies and critical intellectual skills necessary to succeed in medical school or biomedical research. The course work that students need to prepare for the MCAT or medical school admission are included in the concentration.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with Biology (MS)
 Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

 Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.
 Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Upon completing the bachelor's degree in microbiology with a concentration in medical microbiology, students will have completed the majority of prerequisite requirements and mastered many of the competencies valued by graduate programs in medical, dental and optometry fields and by programs which prepare students to be physician assistants or physical therapists. Additionally, graduates of this program will have a practical understanding of the process of science, preparing them for a career in research. Students will have knowledge of foundational concepts in biological sciences, chemistry, physics and statistics as well as the ability to understand and apply core microbiology concepts. This will prepare students to enter research in a number of areas including, but not limited to, cellular biology, immunology, bacteriology and virology.

Molecular Biosciences and Biotechnology, BS (LAMBBBS)

Campus: Tempe

Program Description:

The BS in molecular biosciences and biotechnology encompasses many of the cutting-edge disciplines in life sciences research. Biotechnology is an exciting, rapidly growing field with major applications in agriculture (green biotechnology, leading to improved crops or production of vaccines in plants), health care (red biotechnology, leading to better therapeutics, diagnostics and personalized medicine) and industry (white biotechnology, leading to sustainable production of energy, enzymes and chemicals).

Our molecular biosciences and biotechnology degree program is differentiated from the other life sciences majors by its focus on the interface between molecular biology and biotechnology. This interface drives many of our major advancements in knowledge and in applied research and development, like the development of next-generation biomedical products or biofuels. Other hallmarks of this program are the focus on hands-on research and the capstone course with both science and business or entrepreneurial components.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Biochemistry (Medicinal Chemistry) (MS)

Biology (MS)

Molecular and Cellular Biology (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The molecular biosciences and biotechnology degree program provides an excellent background and training for a growing number of careers that incorporate this innovative area of the molecular life sciences. Independent research and courses with classroom plus lab components result in a solid base of knowledge and practical expertise in biotechnology and the molecular biosciences, providing many options for further education or for entering the workforce. After graduation, many molecular biosciences and biotechnology students enter graduate programs in a molecular biosciences and biotechnology-related area. A number of students also enroll in medical school, other health-related professional programs or in other advanced programs. Students also have the knowledge and technical skills to enter the biotechnology workforce in an area matching their expertise and interest.

The molecular biosciences and biotechnology program has a faculty mentoring program which provides students with the opportunity to speak with faculty regarding career choices, selection and timeline of major courses and of independent research projects, and much more.

Philosophy, BA (LAPHIBA)

Campus: Tempe, Online

Program Description:

The BA program in philosophy teaches students how to think well, which in turn lays the foundation for personal and professional success. Philosophy students learn how to structure arguments, write precisely and clearly, and communicate their ideas in an orderly, persuasive and unambiguous way. Many philosophical texts are complicated, and philosophy courses teach students how to read, comprehend and summarize conceptually difficult material. In short, studying philosophy trains one to be a better, clearer thinker.

Course work includes the major subfields of philosophy such as metaphysics, epistemology and ethics as well as electives that connect philosophy to other areas of inquiry and that emphasize the social relevance of philosophy. Philosophy alumni are well-prepared for leadership roles in whatever path they take, whether it be in business, law, politics, medicine or education.

Philosophy (Morality, Politics and Law), BA (LAPHIMPBA)

Campus: Tempe, Online

Program Description:

The philosophy concentration in morality, politics and law combines the basic analytical approaches of philosophy with an emphasis on the moral questions that arise in political theory and law. The foundations of our political and legal systems are moral values, such as individual liberty, equality and justice. These are contested values, open to different understandings of their nature and implications.

Students explore the nature of morality, political theory, legal theory and the interconnections between them. Students complete philosophy courses as well as courses from disciplines related to philosophy to enrich and enliven their understanding of the intersections of morality, politics and law. This degree program is of special interest to students planning to pursue postgraduate work in law, policy or politics.

Physics, BA (LAPHYBA)

Campus: Tempe

Program Description:

Physics is concerned with the nature, structure and interactions of matter and radiation. The BA in physics provides a flexible and efficient option for students who are interested in a liberal arts degree with broad knowledge of physics. This degree program is ideal for students seeking to complete two degrees, with physics as the second degree. Students wishing to pursue a graduate degree in physics are advised to consider the BS in physics.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Central Arizona College (<http://transfer.asu.edu/central-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Students graduating with a BA degree in physics may pursue such careers as:

- health physicist
- lawyer
- medical doctor*
- patent attorney
- physical therapist
- radiation physicist
- research or lab assistant
- science policy analyst
- secondary science teacher
- technology support analyst

*requires additional premedical course work

Physics, BS (LAPHYBS)

Campus: Tempe

Program Description:

Physics is concerned with the nature, structure and interactions of matter and radiation. The BS degree program in physics provides students a solid foundation in physical science and mathematics, which is also appropriate for further graduate study in physics, other sciences or engineering programs.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Nanoscience (PSM)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The broad range of applicability of the principles of physics gives the physicist great flexibility in a choice of career or further education. About half of the graduates with a bachelor's degree in physics go on to graduate school in:

- astronomy
- engineering
- medicine

- physics

The other half go directly into employment in areas such as:

- business
- education
- engineering
- materials science

Physics (Secondary Education), BS (LAPHYSEBS)

Campus: Tempe

Program Description:

The BS in physics with a concentration in secondary education provides rigorous training in physics and in education. Physics is the cornerstone of STEM disciplines --- science, technology, engineering and mathematics, and the shortage of highly qualified physics teachers in every state is an ongoing problem. This degree concentration is designed to produce more and better qualified physics teachers to meet local and national needs. Students who graduate from this program will be recommended by the Mary Lou Fulton Teachers College for certification by the State of Arizona.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Fewer than half of in-service physics teachers have degrees in physics. Program graduates will have tremendous opportunities for employment; with more than one million students in a state ranked seventh in the nation in population growth, the need for certified teachers in Arizona is self-evident. During the last 15 years, ASU graduates have had their pick of teaching jobs around the valley and in the state. After student teaching in school districts in the greater Phoenix area or with one of the 22 Native American nations, students are often hired to teach in the same school where they completed their internship. As the predicted rate of population growth climbs and the number of teachers retiring increases, new teachers will continue to be in demand.

Political Science, BA (LAPOSBA)

Campus: Tempe, Online

Program Description:

Political science is the study of how citizens interact with their governments and how governments at all levels formulate policies to serve their citizens. The BA program offers a variety of courses and opportunities to study politics and policies at the local, national and global levels. The major aims to provide students with the tools and skills necessary to link theory with real-world problems and issues.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with Political Science (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Northland Pioneer College (<http://transfer.asu.edu/northland-pioneer>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

Many of our graduates have found positions in the following:

- Arizona governor's office
- Federal Reserve
- foreign service
- judiciary branch of government
- local and national newspapers
- local, national and global nonprofit organizations
- local, state and national government
- multinational corporations

In addition, some of our graduates have gone on to other top-tier graduate and professional schools. These students have found a range of employment opportunities in the fields of:

- communication
- education
- foreign service
- journalism
- law
- political science
- public service

Psychology, BA (LAPGSBA)

Campus: Tempe

Program Description:

In the Psychology BA degree program at ASU's Tempe campus, students use scientific methodology to explore fundamental questions about the brain, mind and behavior. Students work with faculty and other psychology majors in a collaborative, diverse environment in course work, research and other engagement activities to explore such fascinating questions as:

- Can robotics explain how we field in baseball?
- How do stress and emotions affect adolescent adjustment?
- How do we recognize and regulate emotions?
- How does body image relate to eating disorders?
- How does chronic stress affect the brain?
- How has evolution shaped our choice of partner?
- What are the physical and psychological consequences of adolescent substance use?

The Bachelor of Arts in psychology degree option is ideal for students looking for a liberal arts focus with a second-language requirement while studying psychology.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Transfer applicants must meet university transfer admission requirements and have successfully completed the following courses (or their equivalents) with a grade of "C" or better: PSY 101 Introduction to Psychology, ENG 101 First-Year Composition, MAT 170 Precalculus. Transfer students should select an additional major when applying for admission. Related disciplines include: anthropology, biology, sociology, and philosophy.

Readmission applicants must meet university readmission requirements, ASU cumulative GPA of 2.00 or better and have completed the following courses (or their equivalents) with a grade of "C" or better: PSY 101 Introduction to Psychology, ENG 101 First-Year Composition, MAT 170 Precalculus. Readmission students should select an additional major when applying for readmission. Related disciplines include: anthropology, biology, sociology, and philosophy (College of Liberal Arts and Sciences, Tempe campus) OR applied psychology (BS) - Polytechnic campus, psychology (BA/BS) - West campus.

Students with fewer than 45 hours who are not admissible to a Department of Psychology psychology major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social/behavioral sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 hours who are not admissible to a Department of Psychology psychology major and who did not select a second major or are not admissible to their second major choice will be contacted to select an appropriate major. Related disciplines include: anthropology, biology, sociology, and philosophy, (College of Liberal Arts and Sciences, Tempe campus) OR applied psychology (BS) - Polytechnic campus, psychology (BA/BS) - West campus.

Current ASU students who wish to change their current major to a Department of Psychology psychology major must have an ASU cumulative GPA of 2.00 or better and have completed the following courses (or their equivalents) with a grade of "C" or better: PSY 101 Introduction to Psychology, ENG 101 First-Year Composition, MAT 170 Precalculus.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Psychology (Psychological Science), BS (LAPGSPSBS)

Campus: Tempe

Program Description:

The BS in psychology with a concentration in psychological science emphasizes critical-thinking and analytic and quantitative skills involved in psychological research to prepare students for graduate study. Students take advanced course work in statistics and receive hands-on research experience by working with faculty members in the laboratory. Students are exposed to theories and research addressing topics such as:

- How can people use social influence to increase compliance?
- How do children develop?
- How do people remember information over long periods of time?
- How do the mind and body react to stress?
- Which types of treatments are most effective for individuals who are depressed?

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences Or MAT 270 Calculus with Analytical Geometry

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The BS in psychology with a concentration in psychological science is open to students who have:

- completed a BS in psychology critical courses (ENG 101, ENG 102, MAT 251 or MAT 270, PSY 101, PSY 230, PSY 290) with a "C" or better
- earned at least 45 credit hours
- earned at least an ASU 3.00 cumulative GPA

Students must maintain at least a 3.00 cumulative GPA from admittance through graduation.

Career Opportunities:

The bachelor's degree program in psychology with a concentration in psychological science prepares students who aspire to careers as researchers, teachers or clinicians for graduate study. The program is also ideal preparation for professional postgraduate programs in the fields of law and medicine.

Religious Studies, BA (LARELBA)

Campus: Tempe, Online

Program Description:

Religion is a fundamental part of the human experience. It informs and shapes politics, literature, philosophy, art and science as well as the daily life of millions around the globe. An understanding of religious traditions is critical to understanding our shared past and present and navigating toward our shared future.

Students who pursue the BA in religious studies come from a wide diversity of faiths, cultural backgrounds and intellectual interests. What many find fascinating and exciting about religious studies is that it draws from a wide variety of disciplines --- history, philosophy, anthropology, literature, political science and theology, to name a few. Course offerings reflect a diversity of approaches (historical, anthropological, ethical and theological); regions (North America, South America, Europe, Middle East, Africa, South Asia and Southeast Asia) and traditions (Buddhism, Christianity, Hinduism, Islam, Judaism and Native American traditions).

Additional Program Fee: N**Second Language Requirement:** Y**First Required Math Course:** MAT 142 - College Mathematics**Program Math Intensity:** General**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Russian, BA (LARUSBA)

Campus: Tempe**Program Description:**

With more than 300 million speakers worldwide, Russian is the fourth most spoken language in the world, after Chinese, English and Spanish, and it is the lingua franca of the former Soviet empire. The BA program in Russian offers students a unique opportunity to study the language, literature and culture of Russia, and students in the program gain intermediate to advanced reading, writing, oral and aural Russian language skills.

The Russian language program also partners with the Melikian Center to offer a transdisciplinary baccalaureate certificate in Russian, Eurasian and East European Studies (REEES) for students in agribusiness, anthropology, architecture, economics, geography, history, political science, religious studies, Russian, sociology and women's studies.

Students of Russian are encouraged to study abroad for a semester or year in Moscow or St. Petersburg or in Kazan, in the new ASU exchange program in Russian language and translation.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Since the fall of the Soviet Union in 1991, Russian remains a strategic, critical language, with government scholarships to study abroad, to do research and internships, and to find jobs in government agencies. Knowledge of multiple languages and intercultural competencies enhance any occupation and offer graduates many career opportunities.

Career fields and occupations using languages include:

- administration of nongovernmental organizations
- advertising and marketing
- airlines
- cultural advisor
- diplomatic and foreign service
- domestic and international business
- film, television and multimedia
- foreign correspondent and journalist
- hotel and resort management
- intelligence
- international banking
- international education and study abroad administration
- international law
- interpreting and translation
- medicine and health professions
- military
- ministry
- public relations
- publishing
- social work
- teaching and research
- travel and tourism
- technology industries

Additional education and certification may be required for some career paths.

Spanish, BA (LASPABA)**Campus:** Tempe, Online

Program Description:

Students pursuing a BA degree in Spanish have the opportunity to gain oral, reading, speaking and written proficiency in the language. The Tempe campus program offers two study options: the Spanish linguistics track and the Spanish literature and culture track.

- The linguistics track provides an in-depth understanding of the Spanish language (syntax, morphology).
- The literature and culture track addresses historical and contemporary issues throughout the Spanish-speaking world as seen through the lenses of the themes of Spanish, Latin American and Mexican American culture and literature.

A Bachelor of Arts degree in Spanish is also available for ASU Online students that combines courses from both the linguistics track and the literature and culture track.

Students majoring in Spanish may also work toward a professional certificate in Spanish-to-English translation.

Students are encouraged to contact a school advisor to discuss which option is best for them. ASU offers opportunities throughout the year to study in Spain, Mexico and other Spanish-speaking countries through study abroad and exchange programs. More information regarding study abroad opportunities is available at <https://mystudyabroad.asu.edu/> (<https://mystudyabroad.asu.edu/>).

Transborder Chicana/o and Latina/o Studies (Media and Expressive Culture), BA (LATCLMBA)

Campus: Tempe

Program Description:

The BA program in transborder Chicana/o and Latina/o studies focuses on the political, cultural, economic, sociological, historical, psychological, and artistic experiences of Mexican-origin and Latina/o populations in the United States and the U.S.-Mexico transborder region. Students will be able to understand the complexities of the Chicana/o and Latina/o experience on the U.S.-Mexico border and beyond, with implications for other border communities around the world.

In the media and expressive culture concentration, students will focus their study on the cultures of Latina/o communities. Students will learn about the cultural diversity of Chicana/o, Mexican, Puerto Rican, Cuban, Dominican, Central American and other Latina/o populations in the United States and their contributions to the arts by analyzing:

- film and the media
- history
- literature (novels, short stories, poetry)
- performance
- visual art

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Degrees:

This degree is also offered as concurrent degree with Journalism and Mass Communication, BA

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Concurrent degree admission requirements:

Freshman applicants must meet all of the following standards:

- 3.75 minimum ABOR GPA
- no English competency deficiencies
- 1040 SAT Reasoning or 22 ACT score

Transfer students must have a minimum cumulative GPA of 3.00 from a transfer institution.

ASU students:

ASU students who would like to change their majors to the concurrent program with journalism and mass communication must have at least a 3.00 cumulative GPA in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's non-elective general studies requirements.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The media and expressive culture concentration equips students with analytical and communication skills vital to the pursuit of graduate work and various career paths including:

- education (administration and teaching)
- film and media
- law
- local, state and national government agencies
- public policy and administration
- social work and nonprofit organizations
- the arts

Transborder Chicana/o and Latina/o Studies (Transborder Community Development and Health), BA (LATCLTBA)

Campus: Tempe

Program Description:

The BA degree program in transborder Chicana/o and Latina/o studies focuses on the political, cultural, economic, sociological, historical, psychological, and artistic experiences of Mexican-origin and Latina/o populations in the United States and the U.S.-Mexico transborder region. Students will be able to understand the complexities of the Chicana/o and Latina/o experience on the U.S.-Mexico border and beyond, with implications for other border communities around the world.

In the transborder community development and health concentration, students will focus their learning on the health inequalities and issues affecting Mexican-origin, Chicana/o and Latina/o communities. Students will also develop an understanding of the relationship between the places where people live, play, work, and heal and the impact they have on people's health and well-being. Overall, students will be able to design, implement and evaluate community-based health programs.

Urban Planning, BSP (ARPUPBSP)

Campus: Tempe, Online

Program Description:

Urban planning is shaping the way our cities, states and communities operate, how people navigate the globe, and how cities are planned for success. Urban planners guide communities in making wise decisions about their use of land and resources. The BSP program in urban planning provides students with expertise in both the analysis and the synthesis of the physical, social, political and economic issues that shape urban and regional development. Planning includes:

- computer and research methods
- environmental impact assessment
- geographic information systems
- housing
- landscape architecture and urban design
- planning and zoning law
- public policy formulation and administration
- transportation
- urban and development economics
- utilities

Students take courses that include:

- comprehensive planning
- computer and analytical methods
- planning law
- public policy formulation and administration
- site planning
- socioeconomic and environmental analyses
- urban design

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with Urban and Environmental Planning (MUEP)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

(http://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-urban-planning?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Graduates in urban planning pursue career opportunities with private planning firms and governmental planning agencies (mainly at the city level, but also with county, state and federal entities). Some planners elect to pursue graduate degrees to develop specialty skills and to enhance their opportunities for career advancement. The urban planning degree, especially when combined with a focus on geographic information science, gives graduates an advantage in careers that combine urban planning with GIS and in other jobs dealing with urban issues, including:

- comprehensive and long-range planning
- economic development planning
- housing issues
- planning law
- public participation in the planning process
- socioeconomic and environmental analyses
- sustainable planning
- transportation

Women and Gender Studies, BA (LAWSTBA)

Campus: Tempe, Online

Program Description:

Through course work and scholarly research students in the BA degree program in women and gender studies gain critical knowledge and a deep understanding of feminist theory and practice. Students are offered the opportunity to challenge conventional wisdom about gender and explore new ways of viewing the world through the study of:

- culture
- economics
- film
- history
- literature
- politics
- science

Internship and leadership opportunities allow students to pursue career goals in:

- business
- government
- nonprofit organizations

Additional Program Fee: N

Second Language Requirement: Y

Nursing and Health Innovation, College of

Applied Science (Health Innovation), BAS (NUHCIBAS)

Campus: Downtown Phoenix, West

Program Description:

The BAS program in applied science with a concentration in health innovation is designed for students with an AAS degree in allied health fields who want to lead transformative change in health through the creation of new products, processes and systems.

Students will integrate their current health care background with innovation and leadership education, reflecting on who they are as an innovator and a leader. Students will have the opportunity to examine current evidence-based practice and health care policy through a lens of innovation using an integrated systems perspective, and they will begin to hone the skills necessary to be a leader of innovation in a health care context.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: Any math course with the MA general studies designation will satisfy the math requirement.

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students must have an Associate of Applied Science from a regionally accredited institution to be eligible for admission to BAS in applied science programs at Arizona State University.

Career Opportunities:

Students with health-related backgrounds who would like to learn more about innovation and leadership within health care organizations may be interested in the health innovation concentration. Students with an AAS in business or a related field may also have interest if they have employment experience in the health industry. Primary career opportunities include health care administrators and health care managers.

Community Health, BS (NUCHLTBS)

Campus: Downtown Phoenix, West, Online

Program Description:

The BS degree program in community health is designed for students who want to create healthy, sustainable communities with an emphasis on working with specific populations. Community health professionals work in partnership with private and public organizations to address health needs of diverse populations by providing advocacy, capacity building, service coordination, education, monitoring, evaluation and interventions within a community setting. This degree uses the same prerequisites as pre-nursing and the nursing major; therefore, students who become off-track may seamlessly transition to this major and obtain a Bachelor of Science degree in a health-related field.

Changes to the health care system call for an increased need for community health professionals who can advocate for patients, families and communities as well as provide health education services. It is anticipated that the demand for community health professionals will increase with the continued implementation of the Affordable Care Act. Graduates of this program will provide health education, health promotion, care coordination, disease management, health care navigation and advocacy services for patients, families and communities.

Integrative Health, BS (NUIHLTBS)

Campus: Downtown Phoenix, West, Online

Program Description:

Integrative health is an emerging field focused on integrative and holistic health, providing students with a broader perspective on treatment using approaches from allopathic and complementary medicine to elicit the best health outcomes.

The BS program in integrative health provides a foundation in integrative health, a holistic approach to wellness that focuses on the mind, body and

spirit. The program provides students with a foundation of innovative and interprofessional approaches to serving and supporting diverse populations. Students will learn to differentiate the ethics, legalities and standards of practice of integrative health and to think critically about different therapies, modalities and practitioners. Course work and experiences include an emphasis on research and evidence-based practices and gaining an understanding of the historical and cultural foundations of the integrative health field.

Nursing, BSN (NUNURDBSN)

Campus: Downtown Phoenix, The Gila Valley, Online

Program Description:

Through a curriculum centered upon evidence-based practice, clinical reasoning, innovation, interprofessional communication and information technology, the BSN degree program prepares students to provide high-quality professional nursing care. The Bachelor of Science in nursing may be earned through several unique pathways.

Prelicensure Nursing Programs:

In the traditional prelicensure clinical nursing program, students complete prerequisite course work and then advance to the upper-division nursing program. The upper-division nursing program may be completed in a 16 month year-round schedule or a 24 month academic year schedule.

Students admitted directly into a traditional prelicensure clinical nursing program must meet continuing eligibility criteria to advance to the upper-division nursing program. Directly admitted nursing students who do not meet continuing eligibility criteria, transfer students, or students who are changing majors may apply for advancement to the upper-division nursing program, competing for any remaining spaces.

The postbaccalaureate nursing program is a prelicensure nursing program for students who have earned a bachelor's degree. After completing prerequisite course work, students apply for advancement to the 12 month upper-division nursing program. Students are admitted to the post-baccalaureate nursing program annually in the spring semester.

The online RN to BSN program (<http://bsn.asu.edu/>) is available to students who have earned an associate degree in nursing or a nursing diploma and have a current RN license in good standing with the Board of Nursing. The RN to BSN program courses are offered online in 7.5 week sessions and can be completed in 16 to 24 months. There are five starts per year: twice in the fall, twice in the spring, and once in the summer. Assignments vary from course to course and may include readings, papers, presentations, and practice application activities completed in the student's geographic area. Transfer pathway agreements are in place with all community colleges in Arizona, which provide additional benefits to students. The RN to BSN program does not have approval from the Boards of Nursing in Tennessee, Rhode Island or Washington to be offered to RNs licensed in those states. Visit <http://bsn.asu.edu> (<http://bsn.asu.edu/>) for more information.

Concurrent Enrollment Program

The concurrent enrollment program pathway is offered through participating community colleges. This program is designed for qualified nursing students who are interested in earning their Bachelor of Science in nursing while simultaneously pursuing their AAS in nursing. Selected students will be enrolled in the community college program and ASU RN to BSN courses concurrently. RN to BSN courses taken at ASU will be delivered in an online format.

Eastern Arizona College Partnership

The ASU and Eastern Arizona College partnership has two options: the concurrent enrollment program and the RN to BSN. The Concurrent Enrollment Program is designed for qualified students pursuing an Associate of Applied Science in Nursing from EAC while simultaneously earning a Bachelor of Science in nursing from ASU. Another option allows students with an associate degree or diploma in nursing to pursue the ASU BSN at Eastern Arizona College on the Thatcher campus.

Visit <https://transfer.asu.edu/eac> (<https://transfer.asu.edu/eac>) for more information about ASU degrees offered through ASU@TheGilaValley.

Additional Requirements:

The admission standards for majors in the College of Nursing and Health Innovation are higher than minimum university standards. Freshmen admission requirements: top 25% of high school class OR 3.30 GPA in ASU competency courses (based on 4.0 grading scale) AND either a 24 ACT combined score OR an 1100 SAT (prior to March 2016) or 1170 SAT (March 2016 and later) combined evidence-based reading and writing plus math score.

Freshmen should select an additional major when applying for admission.

English Language Proficiency for applicants whose native language is not English:

- minimum score of 540 (paper-based), 207 (computer-based), or 76 (internet-based) on the Test of English as a Foreign Language (TOEFL)
- minimum overall band of 6.5 with no band below 5.5 on the International English Language Testing System (IELTS).

Students not admissible directly to the BSN Nursing program will be placed into the BS program in Community Health.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. (http://asuonline.asu.edu/degree-programs/undergraduate/bachelor-science-nursing-rn-bsn?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)
Arizona Western College (<http://transfer.asu.edu/az-western>)
Coconino Community College (<http://transfer.asu.edu/coconino>)
Cochise College (<http://transfer.asu.edu/cochise>)
Central Arizona College (<http://transfer.asu.edu/central-az>)
Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)
Mohave Community College (<http://transfer.asu.edu/mohave>)
Northland Pioneer College (<http://transfer.asu.edu/northland-pioneer>)
Pima Community College (<http://transfer.asu.edu/pima>)
Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

Graduates deliver nursing care to individuals, families and communities. Completion of this degree program also prepares individuals for entrance into graduate study in nursing at the master's or doctoral levels, which is essential for teaching, administration, clinical specialization and research.

Public Service and Community Solutions, College of

Applied Science (Emergency Management), BAS (PPEMGBAS)

Campus: Downtown Phoenix

Program Description:

The BAS program is a flexible, 60 credit hour degree program. The curriculum designed specifically for students who have earned an AAS from a regionally accredited institution. The required capstone class provides experience to students through coordinated internships.

In cooperation with the Arizona Division of Emergency Management, ASU hosts and maintains Arizona's Alternate State Emergency Operations Center on the Polytechnic campus. This contextual learning laboratory is used for demonstrating practical applications of theory taught within the Bachelor of Applied Science curricula as well as providing a platform for conducting exercises and demonstration of emerging technologies in emergency management.

Students applying to this program must have completed an Associate of Applied Science from a regionally accredited institution. This program is not available to freshmen.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree from a regionally accredited institution. This program is not available for freshmen.

Career Opportunities:

The degree in emergency management opens the door to a challenging career as a professional emergency manager. The advancement of technology has created the potential for more devastating disasters than ever before. As a result, there is an increasing demand for emergency managers who have a solid foundation in scientific and technical disciplines as well as management skills.

Community Advocacy and Social Policy, BA (PPCASPBA)

Campus: Downtown Phoenix, West, Online

Program Description:

The BA program in community advocacy and social policy focuses on advocacy strategies by exploring, analyzing and comparing social service systems and policies in-depth and from an empowerment perspective. Emphasis will be on examining the needs of individuals, families and communities that have been historically under-served. Policy analysis and social change will be critical themes in developing an advocacy knowledge base, as are the equally important themes of prevention and social well-being. Students complete courses in two core areas: diversity and oppressed populations, and social issues and interventions.

Additional Program Fee: N

Community Sports Management, BS (PPCSMBS)

Campus: Downtown Phoenix

Program Description:

The community sports management degree focuses on the many roles recreational and amateur sports play within a community as a mechanism to contribute to quality of life, domestically and abroad. Emphasis will be on the role of sports in youth development; the role of sports organizations and programs in community development; the impact of sports tourism and multisport events on community development; and the role of sports in delivery of nonprofit agency services. Both a program and a managerial emphasis will be targeted, with a focus on delivery of services across the lifespan. Some specific areas of opportunity include work with youth sports, adaptive sports, sports events, sports tourism and sports clubs.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Numerous opportunities are available in community sports. Community sports programs are part of many nonprofit organizations, such as the Boys and Girls Clubs of America and the YMCA or YWCA. Also prevalent are city parks and recreation programs that include youth and adult sports as well as clubs and organizations that focus on youth sports. Sports tourism organizations are part of many communities. Many cities and nonprofit organizations offer sports events, youth sports tournaments (including international and multisport events), and adaptive or therapeutic sports programs produced by organizations such as Special Olympics, Wounded Warriors Project and Daring Adventures (known for its River Rampage program). Though the focus of this program is not on professional sports management, there are employment opportunities with organizations such as these in areas like event management and facility management.

Criminology and Criminal Justice, BS (PPCRIMJBS)

Campus: Downtown Phoenix, Lake Havasu, West, Yuma, Online

Program Description:

Please note: Students interested in completing the BS program in Yuma are encouraged to complete a TAG program. Please see admission requirements below.

The criminology and criminal justice program is for students who want to understand the causes of crime, the role of criminal justice agencies in the control of crime, and the consequences of crime. They will learn sociological, psychological, biological and economic explanations for individual crime as well as differences in crime across neighborhoods, states, countries and over time. They will learn about the history, legal issues and current practices of crime control via police agencies, the court system, prisons, probation and parole.

These topics are delivered by top-ranking research faculty who offer students hands-on research opportunities and by experienced criminal justice professionals with intimate knowledge of the daily realities of crime and criminals. Students are encouraged to take advantage of internship opportunities in more than 200 agencies, study abroad programs, and flexible course scheduling offered in-person, online and across multiple campuses.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Criminal Justice (MA)

Criminology and Criminal Justice (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Yuma Students: ASU has a pathway that allows students to complete the ASU Transfer Admission Guarantee in criminology and criminal justice, a prescribed sequence of courses that meets the requirements for the community college's Associate of Arts degree and the lower-division requirements for the ASU Bachelor of Science in criminal justice and criminology. Upon completion of the TAG, students will complete the remaining requirements for ASU's bachelor's program. Visit <https://transfer.asu.edu/> (<https://transfer.asu.edu/>) for more information about ASU degrees offered at local community colleges.

This program may also accept transfer credit in lieu of a TAG agreement. Please contact the department for details.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Nonprofit Leadership and Management, BS (PPNLMBS)

Campus: Downtown Phoenix

Program Description:

Through the BS program in nonprofit leadership and management, students are empowered to become successful professionals who work to advance the quality of life in communities. The nonprofit sector in the United States is unique in form and function. This sector includes institutions and individuals situated between government, public, business and commerce sectors. It is this sector, with more than 1.6 million organizations in the U.S., that employs more people than the finance, insurance and real estate industries combined.

Philanthropy (voluntary action for the public good) is a hallmark of the nonprofit sector as individuals give their time, money and know-how to causes about which they care. Students in the nonprofit leadership and management program learn about the nonprofit sector through curriculum instruction and field experience. The required internship component of the program leads students to professional opportunities within the nonprofit sector. Within the undergraduate degree requirements, students may also choose to pursue the National Certified Nonprofit Professional credential through ASU's affiliation with the Nonprofit Leadership Alliance (formerly American Humanics, Inc.). For more information, access the school's website.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Community Resources and Development (MS)

Community Resources and Development (Nonprofits and NGOs)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Career Opportunities:

Depending on their interests, graduates seek work in diverse settings that include a wide range of missions, including arts and culture, environmental, health, youth development, etc. Some graduates find employment with local, grassroots, direct-service nonprofits while others find work with grant-making foundations. Many work in affiliates of well-known national organizations such as:

- American Red Cross
- America's Second Harvest
- Humane Society of the United States
- March of Dimes
- National Urban League
- United Way
- youth-serving entities such as Big Brothers Big Sisters, Boys and Girls Clubs, Boy Scouts of America, Girl Scouts of the USA, Camp Fire USA and the YMCA of the USA

Increasing opportunities in the nonprofit sector include careers across the spectrum of community issues such as the arts, environment, health care and others. Typical positions include roles as:

- field executives
- fund development directors
- program directors
- program officers for grant-making organizations
- volunteer program managers

Parks and Recreation Management, BS (PPRMBS)

Campus: Downtown Phoenix

Program Description:

The BS program in parks and recreation management provides a transdisciplinary education in the management of parks, protected areas, community-based recreation services and special-event management. The parks and recreation field emerged from the youth development, recreation and park movements of the late 19th century. Students learn to integrate the managerial, natural, and social sciences to make informed decisions for recreation service delivery.

The curriculum of classroom instruction and field experiences covers:

- communication
- history
- inclusive services
- management
- parks and recreation policy
- planning
- programming

The required internship component of the program allows students to gain practical experience in the parks and recreation professions. The bachelor's degree program in parks and recreation management prepares students for professional positions in a variety of public, private and nonprofit organizations. The National Recreation and Park Association accredits this degree program. There are three areas of emphasis:

- community recreation services management
- natural resource recreation management
- special event management

Students interested in the BS in parks and recreation management may also be interested in the school's therapeutic recreation program. See the school website for details.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Career Opportunities:

This degree program prepares students for professional positions in a variety of public, private and nonprofit organizations. Graduates are employed in a variety of settings in Arizona, nationally and abroad. Graduates find employment in such diverse settings as:

- armed forces recreation
- city park and recreation departments
- county and state park agencies
- federal natural resource agencies
- hospitals and care facilities
- nonprofit recreation programs
- private and commercial recreation facilities
- special event management
- sport venues
- youth agencies

In such settings, graduates design, develop and manage services that address the recreational needs of a particular clientele.

Public Service and Public Policy, BS (PPPAFBS)

Campus: Downtown Phoenix, Online

Program Description:

The BS in public service and public policy prepares students for work in government at all levels and in nonprofit organizations through comprehensive coverage of topics in public policy, public leadership and management, and urban studies.

Students discover the challenges of management and learn how to lead a public organization and understand the process of policy development. This program examines the public sector and addresses, in a practical way, the challenges facing the public. The program is unique because it enables students to study public service, policy and administration with a professional focus.

Students select one of the following concentration areas to supplement their core courses:

- American Indian studies
- business
- criminology
- emergency management
- health policy
- law and policy
- nonprofit leadership and management
- parks and recreation management
- public leadership and management
- public policy
- science and technology
- social services delivery
- sustainability
- urban studies

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Career Opportunities:

This degree program provides students with the knowledge and skills to transform government and policy at all levels. The public service sector offers sustainable, exciting and fulfilling career options. Upon graduation, students will be empowered to use knowledge of the public sector as a catalyst to change the world. By understanding the challenges facing government and being well-versed in the development of multiple, useful and realistic solutions, students will contribute to the development of local, national and global communities.

The bachelor's degree program in public service and public policy prepares students for entry- and mid-level supervisory and managerial positions in city, county, state and federal agencies. For those who already have work experience, the degree provides further opportunity for promotion.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The program is primarily focused on individuals working in or interested in working in the public sector. The skills and knowledge the students will acquire in the program will allow them to successfully function in many other types of organizations as well; however, the primary focus is on public organizations. A bachelor's degree program in public service and public policy prepares students for entry- and mid-level supervisory and managerial positions in city, county, state and federal agencies. For those who already have work experience, the degree provides further opportunity for promotion.

The business concentration prepares students with an interest in policy to focus on business issues and their policy implications.

Public Service and Public Policy (Criminology), BS (PPPAFCBS)

Campus: Downtown Phoenix

Program Description:

The School of Public Affairs offers a concentration in criminology as part of their BS in public service and public policy. Criminology continues to be a highly sought-after area and it presents broad policy implications for future public sector professionals. The concentration introduces students to the fundamental foundations in criminal justice and criminology by preparing them to think critically, contribute to society and enhance public safety.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Public Service and Public Policy (Emergency Management and Homeland Security), BS (PPPAFEHBS)

Campus: Downtown Phoenix, Online

Program Description:

The School of Public Affairs offers a concentration in emergency management and homeland security as part of their BS in public service and public policy. This concentration provides students with the skills and knowledge to manage and assume positions of leadership within the field of emergency management and homeland security. Concepts of public policy and management are blended together with emergency management

principles to enhance and foster critical thinking within the general field of study. More specifically, the program's focus provides the student with a comprehensive perspective which is critically important for today's and tomorrow's disaster managers.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

(http://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-public-service-and-public-policy-emergency?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The program is primarily focused on providing students with the knowledge and skills required for entry- and mid-level supervisory and managerial positions in the public sector, such as city, county, state and federal agencies, though they would successfully function in many other types of organizations as well. For those who already have work experience, the degree provides further opportunity for promotion. In addition, the program prepares students for future graduate study in law, public policy and public administration.

Retiring baby boomers plus increasing demand for public services have resulted in an increase in job opportunities for graduates in the public sector. The federal government is the nation's largest employer with nearly 2 million people employed across the country, and nearly 85 percent of those jobs exist outside the Washington, D.C. area. The federal government is anticipated to hire tens of thousands of new employees for mission-critical positions in the next few years. Students with preparation in academic areas related to public service will have an advantage in that market.

Public Service and Public Policy (Health Policy), BS (PPPAFHPBS)

Campus: Downtown Phoenix

Program Description:

The School of Public Affairs offers a concentration in health policy as part of the BS in public service and public policy. This allows students to build a course of study that emphasizes their own areas of interest. The health care industry is continuing to be a major part of the U.S. and world economy.

The concentration in health policy will provide students who have an interest in policy to focus on health-related issues and their policy implications. The courses in the concentration are offered by the School of Nutrition and Health Promotion and the School of Human Evolution and Social Change. All the courses are part of the college's regular degree offerings. Thus, students emerge from the program prepared to address policy issues in this substantive area with an understanding of the range of public service careers (including government, nonprofit and for-profit options), the economics of public affairs, the challenge of leadership in the public context, and the dynamics of administering public programs.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Social Work, BSW (PPSWUSWU)

Campus: Downtown Phoenix, West, Tucson

Program Description:

Please note: Students interested in completing the BSW program in Tucson are encouraged to complete a Transfer Admission Guarantee program. The Tucson location option is only available to transfer students. For admission requirements, please see <https://socialwork.asu.edu/bsw> (<https://socialwork.asu.edu/bsw>).

Social work practitioners are committed to the enhancement of individual, family and group problem-solving capacities and the creation of a more nurturing, just and humane social environment. The undergraduate curriculum leads to a Bachelor of Social Work. Juniors and seniors majoring in social work focus on social work courses in social policy and services, human behavior in the social environment, social work practice, research and field instruction in community agencies. In addition, majors take elective courses in related areas.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Tucson Students: ASU has a pathway that allows students to complete the ASU Transfer Admission Guarantee in social work, a prescribed sequence of courses that meets the requirements for the community college's Associate of Arts degree and the lower-division requirements for the ASU Bachelor of Social Work. The Tucson program option is only available to transfer students. Upon completion of the TAG, students will complete the remaining requirements for ASU's bachelor's program. Visit <https://transfer.asu.edu/> (<https://transfer.asu.edu/>) for more information about ASU degrees offered at local community colleges.

This program may also accept transfer credit in lieu of a TAG agreement. Please contact the School of Social Work for details.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Pima Community College (<http://transfer.asu.edu/pima>)
Arizona Western College (<http://transfer.asu.edu/az-western>)

Career Opportunities:

The program prepares students to be generalist social work practitioners, focusing on advocacy, referrals, case management and problem-solving functions with individuals, groups, families, organizations and the community.

Employment in social work is expected to increase commensurately with the needs of a growing and diverse population.

Social workers are employed in public and private agencies dealing with a wide variety of social issues, including:

- adoption
- aging
- AIDS
- child abuse
- corrections
- delinquency
- disability
- discrimination
- domestic violence
- family dysfunction
- foster care
- health
- homelessness
- mental health
- poverty
- school-related problems
- substance abuse
- teen pregnancy

Social work skills such as problem-solving, resource utilization, counseling, group work and community organization are also useful for positions with industry in employee relations and mediation.

Tourism Development and Management, BS (PPTDMBS)

Campus: Downtown Phoenix

Program Description:

Through the BS program in tourism development and management, students acquire the planning and management skills related to the growth and development of tourism throughout the world. The curriculum prepares students for employment across a wide variety of occupations in the rapidly expanding travel and tourism industry while taking full advantage of its strong connections with the professional tourism community in Phoenix.

The required internship component of the program allows students to gain practical experiences leading to professional positions in various travel, tourism and related fields. Exposure to the practices of heritage tourism, sustainable tourism, resort management, and meeting and convention planning prepares students for successful careers in the travel and tourism industry. While pursuing the bachelor's degree in tourism development and management, a student may also choose to complete a certificate in convention sales and meeting planning. Additionally, students have the opportunity to participate in a study abroad program.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The travel and tourism industry is the largest employer in the world and the second largest in Arizona. Based upon interests, graduates can seek work in the public, nonprofit or private and commercial sectors. Graduates find employment in such diverse settings as resorts, meeting planning, convention and visitor bureaus, tour operations and commercial recreation businesses. In such settings, graduates design, develop and manage services that address the needs of a particular clientele. The metropolitan Phoenix area is a major hub of tourism in the southwestern U.S. and has experienced rapid growth in:

- business and corporate travel
- meetings and conventions
- resorts and hotels
- sports tourism
- state and national parks
- the air transportation sector
- the gaming and casino sectors

Tourism Development and Management (Resort and Hotel Leadership), BS (PPTDMRBS)

Campus: Downtown Phoenix

Program Description:

The concentration in resort and hotel leadership will attract students and professionals who have interests in the diverse areas of knowledge needed within the accommodations sector, such as:

- career opportunities
- ecological, social and economic sustainability practices in the industry
- management and leadership specifically for the accommodations sector
- meeting the expectations of hotel and resort guests
- the interrelated functions within departments of the lodging, food and beverage industries

A concentration in resort and accommodations leadership will provide students an academic option to study in depth the resort and accommodations system and gain knowledge of the importance of the business relationships between suppliers, intermediaries and vendors, guests, and the public and private sectors. The concentration will prepare students to serve our community by developing the skills, knowledge,

techniques and capabilities needed for addressing major issues related to resorts and other tourism accommodations.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Campus: Downtown Phoenix

Program Description:

The tourism development and management major provides students with the theoretical understanding necessary to maneuver the complexities of one of the world's largest industries. A concentration in sustainable tourism allows majors to hone their understanding of the key concepts of sustainability and how these can be applied to tourism destinations and development. Students will learn the dominant theories and language that make up sustainability science and the skills necessary to measure, create and implement sustainability policies in tourism destinations, from the planning to the management stage of development. Students will take courses offered by the School of Sustainability in addition to courses in the School of Community Resources and Development, guaranteeing a strong foundation in the basic theories of the growing field of sustainability while applying these newfound skills to tourism development and management.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Community Resources and Development (MS)
- Community Resources and Development (Sustainable Communities)
- Community Resources and Development (Tourism)
- Sustainable Tourism (MAS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

The area of sustainable tourism is becoming increasingly important. Many tourism businesses are hiring sustainability coordinators; these businesses include hotels, airlines, convention and visitor bureaus and large attractions. Tour companies, such as those that implement ecotourism and volunteer tourism experiences, are especially interested in employees with a strong sustainable tourism background. Numerous sustainable tourism nonprofit organizations have emerged in recent years, and many government-related tourism organizations also hire those with a strong sustainability focus. Consulting opportunities are available to assist tourism businesses in developing sustainable practices as well.

Urban and Metropolitan Studies, BA (PPURBBA)

Campus: Downtown Phoenix

Program Description:

Located in the heart of downtown Phoenix, the urban and metropolitan studies program is for students who have a yearning to study and understand urban theory in order to effectively address the challenges of rapid growth along with other contemporary urban issues.

Students discover what makes the city tick --- and the city is their classroom. They examine challenges and solutions by researching history, society, culture, economy and politics in order to understand urban theory, and they use that knowledge to get involved in their communities. This gives them an outlet through which they can experience practical ways of solving complex problems faced by metropolitan regions. The students are invested in their neighborhoods. Many of them live and work downtown and they learn how to improve urban health and well-being, often training themselves to be the future leaders of urban environments. Others focus on making a wide variety of other contributions to society, studying the role of arts and culture, business and property development, revitalization and community-building in the life of the region.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

The urban and metropolitan studies program prepares students for work in a wide range of fields. The transdisciplinary approach of the program allows graduates to successfully enter fields as diverse as urban management, revitalization, community development, urban sustainability and urban planning.

There are many careers and advanced degrees that may be pursued with a bachelor's degree in urban and metropolitan studies. Some of these careers require additional graduate-level studies and professional experience. Students in the program are advised to explore their options with academic and career advisors to prepare an appropriate program of study and plan to participate in an internship that complements their long-term professional goals.

Sustainability, School of

Sustainability, BA (SUSUSTBA)

Campus: Polytechnic, Tempe, Online

Program Description:

Students in ASU's School of Sustainability are rethinking and reinventing the future of a world at risk. The school's programs encourage experiential learning, study abroad, research with faculty, community engagement and leadership development. The knowledge and solutions that are created today will shape the quality of life for future generations.

The School of Sustainability offers two degrees in sustainability: a BA and a BS. Both programs introduce students to the concept of sustainability in the context of real-world problems and focus on developing practical solutions to some of the most pressing environmental, economic and social challenges of sustainability. The curriculum trains students to approach challenges with consideration of complex adaptive systems and resilience; interconnections and cascading effects between scales; management of tradeoffs; stakeholder engagement; future visioning and scenario typologies for transitioning social-ecological systems; and other cutting-edge frameworks.

The Bachelor of Arts is geared toward students interested in the social and human aspects of sustainability in global, regional and local contexts. Disciplinary perspectives included in the core courses of the degree tracks include anthropology, urban planning and design, environmental economics, ethics, geography, philosophy of science, political science, sociology and other disciplines relevant to the sustainability of environmental resources and social institutions.

Students select from one of the four following tracks:

- international development and sustainability
- policy and governance in sustainable systems
- society and sustainability
- sustainable urban dynamics

Students in the School of Sustainability not only gain an understanding of the field of sustainability and strong problem-solving, systems-thinking, stakeholder engagement and future scenario-building skills, they also develop strength in a more traditional discipline of their choice. They blend and apply these skills and streams of knowledge through required capstone experiences in the senior year. Capstone requirements consist of an internship with a sustainability-focused organization and a workshop in which students work together as a team to develop solutions to real sustainability problems. Students graduate with a portfolio of accomplishments and skills. They also have the opportunity to participate in study abroad programs, student organizations, professional development workshops and hands-on initiatives such as ProMod (<https://schoolofsustainability.asu.edu/student-experience/promod> (<https://schoolofsustainability.asu.edu/student-experience/promod>)). Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: SOS 101 - Intro Appl Math Life & Soc Sci
Program Math Intensity: Moderate

Concurrent Degrees:

This degree is also offered as concurrent degree with Supply Chain Management, BS

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The School of Sustainability has higher admission requirements. Applicants must select a second choice for their major on the application. Students who are not admitted to the School of Sustainability and who did not select a second major or are not admissible to the second major choice will be admitted to the exploratory social and behavioral sciences program within the College of Integrative Sciences and Arts. Students with more than 45 transfer hours who are not admissible to the College of Integrative Sciences and Arts will be contacted to select an appropriate major.

Freshman applicants must meet the following standards:

Have a minimum high school ABOR GPA of 3.30 AND

- rank in the top 15 percent of their high school graduating class OR
- an SAT combined score of 1140 or higher (if taken prior to March 2016) or 1210 or higher (if taken in or after March 2016) OR
- an ACT combined score of 25 or higher.
- No high school math competency deficiency.

Transfer students (with 12 or more transfer hours after high school graduation) are required to have a cumulative transfer GPA of 3.30 or higher.

ASU students who would like to change their major to sustainability are required to have a cumulative ASU GPA of 3.30 or higher (based on at least 12 credit hours).

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(http://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-sustainability?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

In addition to going on to graduate school, graduates of the program are qualified for well-paying positions in:

- consultancy
- government
- industry
- intergovernmental organizations
- international development
- management
- municipalities
- nongovernmental organizations or nonprofits
- policy-making enterprises
- regulatory agencies
- utilities

Recent interest in sustainability within business and government has created new employment opportunities (e.g., sustainability coordinators, directors and managers). Of alumni who have shared their experiences with the school, 95 percent are employed in sectors such as those listed above and four percent have gone on to a graduate program. Sustainability students offer employers and graduate programs an integrated approach to developing solutions to sustainability challenges. They understand the complexity of systems, have engaged in a range of knowledge and experience from different disciplinary perspectives, and understand the importance of planning for the future and how to engage stakeholders in that process. Graduates of the program are adaptable and prepared for a changing world.

Teachers College, Mary Lou Fulton

Early Childhood and Early Childhood Special Education, BAE (TEECSEBAE)

Campus: Tempe

Program Description:

The most effective educators stretch. They keep going. They're relentless. They suspect that there's always a better way---and they find it. They embrace responsibility for the world's most important job. Graduates of ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that will enable them thrive in their careers and play a vital role in improving the educational experience and outcomes of children.

The BAE program for early childhood and early childhood special education prepares students for certification in both early childhood education (birth to age eight or grade three) and early childhood special education (birth to age eight or grade three).

This is a premier program taught by nationally renowned faculty who emphasize community connectedness, technology integration, policy analysis and advocacy related to young children with or without disabilities or developmental delays.

The program teaches child development, best practices in early childhood education and the skills to assess, monitor and report the progress of children with and without disabilities. It provides techniques and approaches to involve family members in the growth and development of young children.

The early childhood and early childhood special education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in course work to practice in preK-12 classrooms. Teachers College students complete internships during their junior year that require one to two days per week in a classroom and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools coach interns and student teachers during required preschool and K-3rd grade general education and special education clinical experiences. The clinical experience provided by the program, known as iTeachAZ, is unmatched in Arizona. It provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

This program also offers a full structured English immersion endorsement to work with English language learners and provides extensive experiences in integrating technology into teaching.

Graduates are recommended for teacher certification. Those desiring to teach in a public school must pass the appropriate Arizona educator exams, National Evaluation Series or Arizona Educator Proficiency Assessments, in both content area and professional knowledge to be certified to teach in the state of Arizona.

There is a strong demand for early childhood special education teachers in Arizona. A high percentage of students from this program receive job offers during their senior year residency. Many graduates with a degree in early childhood special education hold leadership positions in Head Start, private nonprofit and private for-profit center-based programs and public school early childhood environments. Early childhood certification or endorsement is required for teaching kindergarten in Arizona.

Education Exploratory, (TEEDUEXPL)

Campus: Polytechnic, Tempe, West

Program Description:

The most effective educators stretch. They keep going. They're relentless. They suspect that there's always a better way---and they find it. They embrace responsibility for the world's most important job. Graduates of ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that will enable them to thrive in their careers and play a vital role in improving the educational experience and outcomes of children.

Students in the education exploratory track have the unique opportunity to explore different certification areas prior to selecting one of many majors within the Mary Lou Fulton Teachers College. During the program's course, TEL 101 The Teachers College Experience (1), and through specific events scheduled throughout freshman year, students on this track will be exposed to all programs and certification areas. Students will be able to make a more informed decision about the grade level or subject they want to teach while the exploratory track keeps them on track to graduate from any of the BAE programs. This track will not lead to a degree, and students will need to declare a major after completion of 30 credits.

Educational Studies, BAE (EDSLSTBAE)

Campus: Polytechnic, Tempe, West, Online

Program Description:

The most effective educators stretch. They keep going. They're relentless. They suspect that there's always a better way---and they find it. They embrace responsibility for the world's most important job. Graduates of ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that will enable them to thrive in their careers and play a vital role in improving the educational experience and outcomes of children.

The BAE for educational studies is not a teacher certification program. It prepares students to work with children and youth outside of traditional classrooms. The program embraces the view that teaching happens not only in schools but in a variety of contexts that includes the workplace, cultural institutions and people's interactions with media.

The program provides a strong general foundation in education through research and discussion of current issues in education, educational psychology, human development and community-based educational opportunities. There are two delivery options for educational studies: face-to-face and online.

In the face-to-face option, the students select electives from the following areas:

- early childhood education
- educational technology
- environmental education
- games and impact
- physical activity and coaching

In the 100 percent online option, students are provided the opportunity to explore learning opportunities within their own community and to develop as leaders and advocates for children, youth or adults.

Educational Studies (Early Childhood Education), BAE (TEESECEBAE)

Campus: Additional Arizona Locations

Program Description:

The BAE in educational studies with a concentration in early childhood education is only offered in specific rural areas. Students interested in studying in the Phoenix metropolitan area should apply to the BAE educational studies program.

The Bachelor of Arts in Education in educational studies prepares students to work with children and youth outside of traditional classrooms. This program provides a strong foundation in education by examining current issues in education, educational psychology, child development and evidence-based practices.

Students in the program prepare for a variety of career paths working in nonprofit or government organizations, private educational or recreational settings, or as entrepreneurs in youth-oriented fields. With the specialization in early childhood education, graduates are also eligible to teach in a Head Start program or in similar organizations. In addition, this degree is a good fit for students who wish to pursue graduate-level programs in education or education-related fields. The knowledge and practical experience students gain throughout the program will positively impact children and families in rural sites.

Note: The educational studies program does not lead to teacher certification. Students seeking teacher certification should enroll in one of the other Mary Lou Fulton Teachers College undergraduate programs.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Elementary Education, BAE (TEEEDBAE)

Campus: Polytechnic, Tempe, West

Program Description:

The most effective educators stretch. They keep going. They're relentless. They suspect that there's always a better way---and they find it. They embrace responsibility for the world's most important job. Graduates of ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that will enable them to thrive in their careers and play a vital role in improving the educational experience and outcomes of children.

This BAE program leads to elementary education certification in the state of Arizona for grades 1-8.

This program offers students a firm grounding in academic content and best practices, accompanied by real-world classroom experiences. Faculty are nationally recognized in their fields of expertise. This program also offers a full structured English immersion endorsement

to work with English language learners and provides extensive experiences in integrating technology into teaching.

The elementary education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in course work to practice in preK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during their junior year that require one day per week in grades 1-8 classrooms and student teaching, which is a full-time, year-long apprenticeship known as their senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences. The clinical experience provided by the program, known as iTeachAZ, is unmatched in Arizona. It provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

Graduates are recommended for grades 1-8 elementary teacher certification. Those desiring to teach in a public school must pass the appropriate Arizona educator exams, National Evaluation Series or Arizona Educator Proficiency Assessments, in both content area and professional knowledge to be certified to teach in the state of Arizona.

Elementary Education (Bilingual Education and English as a Second Language), BAE (TEDLLBAE)

Campus: Tempe

Program Description:

The most effective educators stretch. They keep going. They're relentless. They suspect that there's always a better way---and they find it. They embrace responsibility for the world's most important job. Graduates of ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that will enable them to thrive in their careers and play a vital role in improving the educational experience and outcomes of children.

The BAE program for elementary education, bilingual education and English as a second language offers students a firm grounding in current research about and best practices for English language learners, accompanied by real-world classroom experiences.

Students can expect to learn principles of first and second language acquisition, foundations of various program models, global awareness and diversity in families and communities in multicultural settings, as well as academic content areas including math, language arts, computer literacy and science with a specific focus on meeting the academic and linguistic needs of English language learners.

The elementary education, bilingual education and English as a second language teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in course work to practice in preK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during the junior year that require one day per week in grades 1-8 classrooms and student teaching, which is a full-time, year-long apprenticeship known as their senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences with high concentrations of English language learners. The clinical experience provided by the program, known as iTeachAZ, is unmatched in Arizona. It provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

The program requires six credit hours of a foreign language or its equivalent and enables students to work with second-language learners.

Graduates are recommended for grades 1-8 elementary teacher certification. Those desiring to teach in a public school must pass the appropriate Arizona educator exams, National Evaluation Series or Arizona Educator Proficiency Assessments, in both content area and professional knowledge to be certified to teach in the state of Arizona. In addition, students must complete six credit hours of a foreign language or equivalent and pass an appropriate language proficiency test to be eligible for the BLE endorsement.

Elementary Education (Science, Technology, Engineering and Mathematics), BAE (TEESTEMBAE)

Campus: Polytechnic

Program Description:

The most effective educators stretch. They keep going. They're relentless. They suspect that there's always a better way---and they find it. They embrace responsibility for the world's most important job. Graduates of ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that will enable them to thrive in their careers and play a vital role in improving the educational experience and outcomes of children.

The BAE program in elementary education with an emphasis on science, technology, engineering and math has course work that leads to an elementary education teaching certificate and highly qualified teaching status in middle school science or math. This STEM program offers students a firm grounding in math and science content, with current research and best practices accompanied by real-world experience in math and science classrooms. This program also offers a full structured English immersion endorsement to work with English language learners and provides extensive experiences in integrating technology into teaching.

The elementary education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in course work to practice in preK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during the junior year that require one day per week in grades 1-8 classrooms and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences in math or science settings. Secondary Education (Additional Arizona Locations), BAE (TESEDBAE)

Campus: The Gila Valley, Yuma

Program Description:

The most effective educators stretch. They keep going. They're relentless. They suspect that there's always a better way---and they find it. They embrace responsibility for the world's most important job. Graduates of ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that will enable them to thrive in their careers and play a vital role in improving the educational experience and outcomes of children.

Please note: This program is designed for students who complete an ASU Transfer Admission Guarantee (TAG) program. It is offered at specific Arizona locations in partnership with community colleges. Please see the admission requirements below.

The BAE program in secondary education prepares educators to teach youth enrolled in grades 6-12. While teacher candidates develop a strong theoretical background in their specific content areas, the program focuses on developing the skills and teaching abilities required to successfully teach middle or high school students.

In order to integrate teacher preparation with the secondary education requirements for an academic specialization, Mary Lou Fulton Teachers College collaborates with academic departments across the university. The program offers the following secondary education certification areas: biological sciences, chemistry, earth and space sciences, economics, English, French, geography, German, history, Japanese, mathematics, physical education, physics, political science and Spanish.

The secondary education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in course work to practice in preK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during the junior year that require one day per week in grades 6-12 classrooms and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (<https://students.asu.edu/freshman/requirements>)
Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)
International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

ASU has a pathway that allows students to complete the ASU Transfer Admission Guarantee in secondary education, a prescribed sequence of courses that meets the requirements for the community college's Associate of Arts degree and the lower-division requirements for the ASU Bachelor of Arts in Education in secondary education. Upon completion of the TAG, students will complete the remaining requirements for ASU's secondary education BAE at a local community college. Visit <https://transfer.asu.edu/> (<https://transfer.asu.edu/>) for more information about ASU degrees offered at local community colleges. Applicants must have completed the TAG agreement and earned an associate degree for acceptance to the bachelor's.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Career Opportunities:

Graduates from secondary education are recommended for certification in an approved area for grades 6-12. While teacher candidates develop a strong theoretical background in their specific content areas, the program focuses on developing the skills and teaching abilities required to successfully teach middle or high school students. This program also offers a full structured English immersion endorsement to work with English language learners and provides extensive experiences in integrating technology into teaching.

In order to integrate teacher preparation with the secondary education requirements for an academic specialization, the college collaborates with academic departments across the university. The program offers the following secondary education certification areas: biological sciences, chemistry, earth and space sciences, economics, English, French, geography, German, history, Japanese, mathematics, physical education, physics, political science and Spanish.

The secondary education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in course work to practice in preK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during the junior year that require one day per week in grades 6-12 classrooms and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences. The clinical experience provided by the program, known as iTeachAZ, is unmatched in Arizona. It provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

Graduates of the program desiring to teach in a public school must pass the appropriate Arizona educator exams (either the National Evaluation Series or Arizona Educator Proficiency Assessments) in both content area and professional knowledge to be certified to teach in the state of Arizona.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences. The clinical experience provided by the program, known as iTeachAZ, is unmatched in Arizona. It provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

Graduates of the program desiring to teach in a public school must pass the appropriate Arizona educator exams (either the National Evaluation Series or Arizona Educator Proficiency Assessments) in both content area and professional knowledge to be certified to teach in the state of Arizona.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates from secondary education are recommended for certification in an approved area for grades 6-12. The demand for well-prepared secondary teachers is strong, particularly in the areas of math and science. Job opportunities in a fast growing state such as Arizona are numerous. Graduates with a degree in secondary education work in:

- charter schools
- private school settings
- public schools

Special Education and Elementary Education, BAE (TESPEBAE)

Campus: Polytechnic, Tempe, West

Program Description:

The most effective educators stretch. They keep going. They're relentless. They suspect that there's always a better way---and they find it. They embrace responsibility for the world's most important job. Graduates of ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that will enable them to thrive in their careers and play a vital role in improving the educational experience and outcomes of children.

The BAE dual program in special education and elementary education leads to the following teaching certificates: Mild-Moderate Disabilities Special Education, K-12 and Elementary Education, grades 1-8. The dual certification program prepares students to work with typical children and youth and those with mild to moderate disabilities in inclusive settings. This program also offers a full structured English immersion endorsement to work with English language learners and provides extensive experiences in integrating technology into teaching.

The dual program is designed to give preservice teachers foundational knowledge in academic content with current research and evidence-based practices in literacy, math, sciences, health and social studies; integration of technology into all areas; and real-world experience in classrooms through the iTeachAZ program.

The special education and elementary education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in course work to practice in PreK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during the junior year that require one day per week in grades 1-8 classrooms and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences. The clinical experience provided by the program, known as iTeachAZ, is unmatched in Arizona. It provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

Because the general education classroom is a viable placement option for many students with mild and moderate learning and behavioral disabilities, training special education teachers to collaborate is emphasized throughout the professional preparation sequence. Students receive additional training in interpersonal communication and problem-solving skills. They also learn adaptive techniques and assistive technologies that facilitate the successful integration of students with diverse learning needs into general education classrooms.

Graduates of the program desiring to teach in a public school must pass the appropriate Arizona educator exams (either the National Evaluation Series or Arizona Educator Proficiency Assessments) in both content area and professional knowledge to be certified to teach in the state of Arizona. Graduates will receive mild to moderate certification in special education for K-12 students with mild to moderate intellectual disabilities, emotional disorders, specific learning disabilities, orthopedic impairments, and other health impairments. They also receive an elementary certificate for teaching grades 1-8.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Coconino Community College (<http://transfer.asu.edu/coconino>)

Cochise College (<http://transfer.asu.edu/cochise>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Career Opportunities:

National and state studies report the projected need in the next five to 10 years will be high for special education teachers. Graduates of the program will be eligible to teach in elementary education grades 1-8 and K-12 for the spectrum of high-incidence disabilities:

- emotional disorders
- intellectual disabilities (mild or moderate)
- orthopedic impairments
- other health impairments

- specific learning disabilities

Graduates can teach in a variety of inclusive educational settings, including public, charter and private schools, as well as nontraditional settings (juvenile system, children's hospital, etc.).

HIDGCTEBA

Effective Fall 2016, this degree program's name has changed to Digital Culture (Graphic Information Technology) (Technological Entrepreneurship).

Term 1	0 - 16 Credit Hours	Critical course signified by 	Hours	Minimum Grade	Notes
	AME 101: ASU Digital Culture Experience		1	C	<ul style="list-style-type: none"> • An SAT, ACT, Accuplacer, IELTS or TOEFL score determines placement into first-year composition courses. • ASU Mathematics Placement Test score determines placement in mathematics course. • ASU 101 or College specific equivalent First Year Seminar required of all freshman students. Digital culture students complete AME 101 to fulfill this requirement. • AME 130 is offered in the fall only. Students who begin the Digital Culture program in a spring semester should take this course in their second term.
	AME 111: Introduction to Digital Culture (CS)		3	C	
	AME 130: Prototyping Dreams		3	C	
	AME 210: Media Editing		3	C	
	ENG 101 or ENG 102: First-Year Composition OR ENG 105: Advanced First-Year Composition OR ENG 107 or ENG 108: First-Year Composition		3	C	
	MAT 210: Brief Calculus (MA)		3	C	
	Maintain 3.00 GPA in Digital Culture coursework.				
	Minimum 2.50 GPA ASU Cumulative.				
	Term hours subtotal:		16		

Term 2	17 - 31 Credit Hours	Critical course signified by 	Hours	Minimum Grade	Notes
	AME 112: Computational Thinking for Digital Culture		3	C	<ul style="list-style-type: none"> • All Digital Culture majors must have a 3.0 Digital Culture GPA at the end of Term 2 to continue in the program. If a student's Digital Culture GPA is below a 3.0, the student will be placed on a probationary status for 1 term. If the student is not successful in raising their digital culture GPA to a 3.0 after the probationary term,
	AME 230: Programming for the Media Arts		3	C	
	GIT 211: Introduction to Video Game Art OR GIT 215: Introduction to Web Authoring		3	C	
	ENG 101 or ENG 102: First-Year Composition OR ENG 105: Advanced First-Year Composition OR ENG 107 or ENG 108: First-Year Composition		3	C	
	Social-Behavioral Sciences (SB) AND Cultural Diversity in the U.S. (C)		3		
	Complete ENG 101 OR ENG 105 OR ENG 107 course(s).				

⚠ Maintain 3.00 GPA in Digital Culture coursework.

⚠ Minimum 2.50 GPA ASU Cumulative.

⚠ Milestone: GPA First-Year Review

Term hours subtotal: 15

the student will not be able to continue in the Digital Culture program.

- AME 230 and the AME 112 are offered in the spring only. Students who begin the Digital Culture program in a spring semester should take these courses in their first term.

FAFPRBA

Term 1	0 - 16 Credit Hours	Critical course signified by 	Hours	Minimum Grade	Notes
<i>Complete 2 courses:</i>					
	FMP 250: Sex and Violence in Film and TV: Ethics Survey OR FMS 100: Introduction to Film (HU) OR FMS 200: Film History ((L or HU) & H)		6	C	<ul style="list-style-type: none"> • An SAT, ACT, Accuplacer, IELTS or TOEFL score determines placement into first-year composition courses. • ASU Mathematics Placement Test score determines placement in mathematics course. • ASU 101 or college-specific equivalent First-Year Seminar required of all freshman students. THF 125: Orientation to Theatre & Film fulfills this requirement for theatre and film majors. • Minimum 3.0 Film Core GPA required for highly selective Film and Media Production concentration.
	THF 125: Orientation to Film, Dance and Theatre		1	C	
	THF 160: Introduction to Storytelling OR THF 215: Design and Composition for Theatre and Film		3	C	
	ENG 101 or ENG 102: First-Year Composition OR ENG 105: Advanced First-Year Composition OR ENG 107 or ENG 108: First-Year Composition		3	C	
	Mathematics (MA)		3		
	Maintain 2.50 GPA in Theatre and Film courses.				
		Term hours subtotal:	16		

Term 2	17 - 30 Credit Hours	Critical course signified by 	Hours	Minimum Grade	Notes
	FMP 250: Sex and Violence in Film and TV: Ethics Survey OR FMS 100: Introduction to Film (HU) OR FMS 200: Film History ((L or HU) & H)		3	C	<ul style="list-style-type: none"> • THF 160 and THF 215 must be completed by term 3. • Minimum 3.0 Film Core GPA required for highly selective Film and Media Production concentration.
	THF 126: School of Film, Dance and Theatre: First-Year Experience		2	C	
	THF 160: Introduction to Storytelling OR THF 215: Design and Composition for Theatre and Film		3	C	
	ENG 101 or ENG 102: First-Year Composition OR ENG 105: Advanced First-Year Composition OR ENG 107 or ENG 108: First-Year Composition		3	C	
	Elective		3		
	Complete ENG 101 OR ENG 105 OR ENG 107 course(s).				
	Maintain 2.50 GPA in Theatre and Film courses.				

Term hours subtotal: 14

Term 3 31 - 46 Credit Hours		Hours	Minimum Grade	Notes
Critical course signified by 				
 FMP 201: Film: The Creative Process I (HU) OR FMP 261: Introduction to Screenwriting	3	C	<ul style="list-style-type: none"> • Complete FMP 201, FMP 261, THF 220 by the end of term 4. • Students interested in the Film and Media Production concentration may apply for admission the semester they are completing the Film core. See Film and Media Production major map. For information on the interview process, visit: http://theatrefilm.asu.edu/admissions/undergrad/applying/ba_fmp.php • Minimum 3.0 Film Core GPA required for highly selective Film and Media Production concentration. 	
THF 220: Principles of Dramatic Analysis (L or HU)	3	C		
Computer/Statistics/Quantitative Applications (CS) (FMP 255 recommended)	3			
Natural Science - Quantitative (SQ)	4			
Social-Behavioral Sciences (SB) AND Cultural Diversity in the U.S. (C) OR Social-Behavioral Sciences (SB) AND Global Awareness (G)	3			
 Complete Mathematics (MA) requirement.				
Complete First-Year Composition requirement.				
Maintain 2.50 GPA in Theatre and Film courses.				
Term hours subtotal:		16		

Term 4 47 - 62 Credit Hours		Hours	Minimum Grade	Notes
Critical course signified by 				
 FMP 201: Film: The Creative Process I (HU) OR FMP 261: Introduction to Screenwriting	3	C	<ul style="list-style-type: none"> • Students interested in the Film and Media Production concentration may apply for admission in the semester they are completing the Film core. See Film and Media Production major map. For information on the interview process, visit: http://theatrefilm.asu.edu/admissions/undergrad/applying/ba_film.php • Minimum 3.0 Film Core GPA required for highly selective Film and Media Production concentration. 	
Film Elective	3	C		
Natural Science - Quantitative (SQ) OR Natural Science - General (SG)	4			
Social-Behavioral Sciences (SB) AND Cultural Diversity in the U.S. (C) OR Social-Behavioral Sciences (SB) AND Global Awareness (G)	3			
Elective	3			
 Complete THF 220 course(s).				
Maintain 2.50 GPA in Theatre and Film courses.				
Term hours subtotal:		16		

Term 5 63 - 77 Credit Hours		Hours	Minimum Grade	Notes
Necessary course signified by 				
 FMP 300: Film Production: Filmmaking Practices OR Upper Division Screenwriting Course	3	C	<ul style="list-style-type: none"> • Upper Division Related Study Elective: Course cannot be from FMP, 	

THF 101: Acting Introduction OR THP 102: Acting I: Fundamentals OR THP 194: Understanding Acting OR THP 387: Acting: TV and Film	3	C	THE or THP prefix; must have Film in the title.
Film Elective	3	C	
Upper Division Related Study Elective	3	C	
Upper Division Elective	3		
Maintain 2.50 GPA in Theatre and Film courses.			
Term hours subtotal:		15	

Term 6	78 - 91 Credit Hours	Necessary course signified by 	Hours	Minimum Grade	Notes
 FMP 380: Film Production Crew OR FMP 484: Internship			1	C	<ul style="list-style-type: none"> Students must take 2 credit hours of either FMP 380 Film Production Crew or FMP 484 Internship by the end of term 8 to meet this requirement.
 THF 397: Professional Development Seminar			1	C	
THE 403: Independent Film (HU)			3	C	
Producing Course			3	C	
Upper Division Screenwriting Course			3	C	
Upper Division Literacy and Critical Inquiry (L)			3		
 Complete THF 101 OR THP 102 OR THP 194: Understanding Acting OR THP 387 course(s).					
Maintain 2.50 GPA in Theatre and Film courses.					
Term hours subtotal:			14		

Term 7	92 - 106 Credit Hours	Necessary course signified by 	Hours	Minimum Grade	Notes
 FMP 380: Film Production Crew OR FMP 484: Internship			1	C	<ul style="list-style-type: none"> Students must take 2 credit hours of either FMP 380 Film Production Crew or FMP 484 Internship to satisfy the requirement.
 THF 497: Senior Project			2	C	
Screenwriting Course OR Film/Media Technology Course			3	C	
Complete 2 courses: Upper Division Film Elective			6	C	
Upper Division Elective			3		
Maintain 2.50 GPA in Theatre and Film courses.					
Term hours subtotal:			15		

Term 8	107 - 120 Credit Hours	Necessary course signified by 	Hours	Minimum Grade	Notes
 THF 497: Senior Project			2	C	<ul style="list-style-type: none"> Upper Division Related Study Elective: Course cannot be from FMP, THE or THP prefix; must have Film in the title. Transfer students complete 1 additional hour of
Upper Division Film Elective			3	C	
Upper Division Related Study Elective			3	C	
Complete 2 courses: Upper Division Elective			6		

Maintain 2.50 GPA in Theatre and Film courses.

Term hours subtotal: 14

elective credit in term 8 to reach 120 hours because THF 125: Orientation to Theatre & Film (term 1) is not required for transfer students.

Term hours subtotal:			14		
Term 3	28 - 44 Credit Hours	Critical course signified by 	Hours	Minimum Grade	Notes
 AMT 214: Commercial Pilot Ground School			3	C	

- Please note that both PHY 112 and PHY 114 must be taken to secure SQ General Studies credit.

❖ AMT 280: Aerospace Structures, Materials and Systems	4	C
❖ ATC 230: Fundamentals of Air Traffic Management	3	C
ECN 211: Macroeconomic Principles (SB) OR ECN 212: Microeconomic Principles (SB)	3	C
PHY 112: General Physics (SQ)	3	C
PHY 114: General Physics Laboratory (SQ)	1	C
❖ Complete Mathematics (MA) requirement.		
Term hours subtotal:	17	

Term 4	45 - 60 Credit Hours	Critical course signified by ❖	Hours	Minimum Grade	Notes
❖ AMT 222: Instrument Pilot Ground School			3	C	
❖ AMT 287: Aircraft Powerplants			4	C	
PSY 230: Introduction to Statistics (CS) OR STP 226: Elements of Statistics (CS)			3	C	
Humanities, Arts and Design (HU) AND Cultural Diversity in the U.S. (C)			3		
Literacy and Critical Inquiry (L)			3		
Term hours subtotal:			16		

Term 5	61 - 75 Credit Hours	Necessary course signified by ★	Hours	Minimum Grade	Notes
★ AMT 308: Air Transportation (G)			3	C	
★ AMT 350: Aircraft Design and Logistics Management			3	C	
★ ATC 331: Tower Operations			3	C	
AMT 360: Aircraft Dispatch Ground School			3	C	
Humanities, Arts and Design (HU) AND Historical Awareness (H)			3		
Term hours subtotal:			15		

Term 6	76 - 91 Credit Hours	Necessary course signified by ★	Hours	Minimum Grade	Notes
★ AMT 396: Aviation Professional			1	C	
★ AMT 408: National Aviation Policy			3	C	
★ AMT 442: Aviation Law and Regulations			3	C	
★ ATC 332: TRACON Operations			3	C	
★ ATC 431: Tower Operations and Procedures			3	C	
AMT 460: Aircraft Dispatch Capstone			3	C	
Term hours subtotal:			16		

Minimum

Term 7	92 - 106 Credit Hours	Necessary course signified by ★	Hours	Grade	Notes
★	AMT 410: Aviation Safety and Human Factors		3	C	
★	ATC 333: En Route Operations		3	C	
★	ATC 432: TRACON Operations and Procedures		3	C	
	ATC 484: Internship		3	C	
	Upper Division Social-Behavioral Sciences (SB) OR Upper Division Humanities, Arts and Design (HU)		3		
Term hours subtotal:			15		

Term 8	107 - 120 Credit Hours	Necessary course signified by ★	Hours	Minimum Grade	Notes
★	AMT 444: Airport Management and Planning		3	C	<ul style="list-style-type: none"> • Technical Elective: Please see subject list below. Consult with an academic advisor when selecting technical electives.
★	ATC 433: En Route Operations and Procedures		3	C	
★	ATC 491: Air Traffic Management Capstone		3	C

Upper Division Technical Electives	Exploration Courses (Please follow up with your assigned advisor with specific course questions)
AEE 426: Design of Aerospace Structures	
AEE 465: Rocket Propulsion	Foreign Language Courses
AEE 466: Rotary Wing Aerodynamics and Performance	AST OR GLG Elective
AEE 471: Computational Fluid Dynamics	MAT 2** Elective or MAT 3** Elective or MAT 4** Elective
MAE 341: Mechanism Analysis and Design	CHM 2** Elective or CHM 3** Elective or CHM 4** Elective
MAE 372: Fluid Mechanics	PHY 2** Elective or PHY 3** Elective or PHY 4** Elective
MAE 417: Control System Design	
MAE 455: Polymers and Composites	Any course that is designated as HU or SB and is not being used in your HU/SB category or Humanities, Arts and Design (HU) or Social-Behavioral Sciences (SB)
MAE 494: Special Topics or MSE 494: Special Topics or CHE 494: Special Topics	
MEE 323: Computer-Aided Engineering II	
MEE 340: Thermofluids II	

MEE 434: Internal Combustion Engines	Any course that is designated as a Literacy (L) course that is not applying to your major requirements or Literacy and Critical Inquiry (L)
MEE 482: Thermodynamics	
Students may choose no more than one course from the following:	Any course that is designated as H, C or G awareness and is not being used in your awareness category or Cultural Diversity in the U.S. (C) or Global Awareness (G) or Historical Awareness (H)
AST 321: Introduction to Planetary and Stellar Astrophysics (SQ)	
AST 322: Introduction to Galactic and Extragalactic Astrophysics (SQ)	Any course from the following prefixes that is not equivalent to a course that is required for your major:
EEE 304: Signals and Systems II	
EEE 334: Circuits II	AEE OR BME OR CEE OR CHE OR CON OR CSE OR EEE OR FSE OR IEE OR MAE OR MEE OR MSE Elective
EEE 350: Random Signal Analysis	
FSE 301: Entrepreneurship and Value Creation	
IEE 300: Economic Analysis for Engineers	
MAT 362: Advanced Mathematics for Engineers and Scientists or higher level MAT	
PHY 310: Classical Particles, Fields, and Matter I or higher level PHY	
SES 311: Essentials of Astrobiology: Exploration for Life in the Universe	
SES 350: Engineering Systems and Experimental Problem Solving	
SES 405: Exploration Systems Engineering	
SES 410: Senior Exploration Project I	
By approval only:	
MAE 484: Internship	
MAE 492: Honors Directed Study	
MAE 493: Honors Thesis (L)	
MAE 498: Pro-Seminar or MAE 499: Individualized Instruction	
*Students may be allowed by instructor consent to take these courses without have the pre-requisites fulfilled. Courses not listed here require a department petition form. To take any 494 class, please check with your advisor first. MAE 484/492/493/498/499 can only use max of 3 credits towards TE requirements.

BAS Graduation Requirements Summary:

This program allows students who have earned an Associate of Applied Science from a regionally accredited institution to transfer 60 or 75 credit hours toward a Bachelor of Applied Science at ASU. Students may opt to complete additional general studies course work at a community college to be eligible to transfer up to 75 credits towards the BAS.

- Total hours: 120 minimum
- ASU hours: 30 minimum
- 4-year institution hours: 45-60 minimum
- Upper division hours: 45 minimum
- Academic Recognition: 56 minimum
- GPA: 2.000 minimum
- Total hours transferred from community college: 60-75 maximum

	Complete Mathematics (MA) requirement.				
	Term hours subtotal:		16		

Term 4	48 - 62 Credit Hours	Critical course signified by 	Hours	Minimum Grade	Notes
	BME 200: Conservation Principles in Biomedical Engineering		3	C	
	BME 282: Biomedical Engineering Product Design and Development II		1	C	
	CHM 231: Elementary Organic Chemistry (SQ) OR CHM 233: General Organic Chemistry I		3	C	
	CHM 235: Elementary Organic Chemistry Laboratory (SQ) OR CHM 237: General Organic Chemistry Laboratory I		1	C	
	EEE 202: Circuits I		4	C	
	MAT 275: Modern Differential Equations (MA)		3	C	
	Term hours subtotal:		15		

Term 5	63 - 77 Credit Hours	Necessary course signified by 	Hours	Minimum Grade	Notes
	BME 350: Signals and Systems for Bioengineers		3	C	
	BME 300: Bioengineering Product Design		3	C	
	BME 318: Biomaterials		4	C	
	BME 322: Statistics for Biomedical Engineering		1	C	
	MAE 212: Engineering Mechanics		4	C	
	Term hours subtotal:		15		

Term 6	78 - 92 Credit Hours	Necessary course signified by 	Hours	Minimum Grade	Notes
	BME 370: Microcomputer Applications in Biomedical Engineering		3	C	<ul style="list-style-type: none"> The general studies requirements for HU or SB and the awareness areas do not have to be taken in exact combinations (as outlined on major map).
	BME 301: Numerical Methods in Biomedical Engineering		2	C	
	BME 331: Transport Phenomena for Biomedical Engineering		3	C	
	BME 382: Biomedical Engineering Product Design and Development III		1	C	
	Academic Catalog Archive 2016-2017				

BME 340: Thermodynamics for Biomedical Engineers	3	C
Humanities, Arts and Design (HU) AND Cultural Diversity in the U.S. (C)	3	
Term hours subtotal:	15	

By the end of term 8, all need to be completed, however the combinations may vary.

Term 7

93 - 106 Credit Hours

Hours Necessary course signified by 

Hours	Minimum Grade	Notes
-------	---------------	-------

 BME 417: Biomedical Engineering Capstone Design I (L)	4	C	<ul style="list-style-type: none"> The general studies requirements for HU or SB and the awareness areas do not have to be taken in exact combinations (as outlined on major map). By the end of term 8, all need to be completed, however the combinations may vary. Additional information regarding approved related electives can be found online at: http://sbhse.engineering.asu.edu/academics/currentstudents/undergraduate/curriculum/
BME 413: Biomedical Instrumentation (L)	3	C	
BME 423: Biomedical Instrumentation Laboratory (L)	1	C	
Upper Division Related Elective	3	C	
Social-Behavioral Sciences (SB) AND Global Awareness (G)	3		
Term hours subtotal:	14		

Term 8

107 - 120 Credit Hours

Hours Necessary course signified by 

Hours	Minimum Grade	Notes
-------	---------------	-------

 BME 490: Biomedical Engineering Capstone Design II	4	C	<ul style="list-style-type: none"> The general studies requirements for HU or SB and the awareness areas do not have to be taken in exact combinations (as outlined on major map). By the end of term 8, all need to be completed, however the combinations may vary. Additional information regarding approved related electives can be found online at: http://sbhse.engineering.asu.edu/academics/currentstudents/undergraduate/curriculum/
Upper Division Related Elective	4	C	
Upper Division Humanities, Arts and Design (HU) OR Upper Division Social-Behavioral Sciences (SB)	3		
Humanities, Arts and Design (HU) AND Historical Awareness (H)	3		
Term hours subtotal:	14

CHE 469: Air Quality Engineering OR
CHE 475: Biochemical Engineering OR
CHE 400 to CHE 489

CHE 494 *check with advisor first

CHE 492/493 max of 6 credits towards
CHE TE requirements

May choose one from:

MSE 300 to MSE 389

MSE 400 to MSE 489

CEE 400: Earth Systems Engineering and
Management ((L or HU) & H) or FSE 301:
Entrepreneurship and Value Creation or
IEE 300: Economic Analysis for Engineers
or IEE 380: Probability and Statistics for
Engineering Problem Solving (CS)

Note: Students taking IEE 380 cannot also
take STP 420 or STP 421 for NSM TE

CHE 484 may be used per approval

CHE 498/499 by approval

Not from: BIO 311, BIO 312, MSE 301,
MSE 308, MSE 330, MAT 342, MAT 411,
MAT 485

Note: Students may be allowed by
instructor consent to take these courses
without having the prerequisites fulfilled.
Courses not listed here require a department
petition form.

BCH 462: General Biochemistry

BIO 353: Cell Biology OR BIO 300 to 389

BIO 400 to 489

CHM Upper Division Elective

MAT 300: Mathematical Structures (L) OR
MAT 300 to MAT 389

MAT 475: Differential Equations OR MAT
400 to 489

MSE 300 to 389

MSE 400 to 489

PHY 300 to 389

PHY 400 to 489

STP 421: Probability or STP 420:
Introductory Applied Statistics (CS)

Note: Students taking STP 420 or STP 421
cannot also take IEE 380 for CHE TE

Not from: BIO 311, BIO 312, MSE 301,
MSE 308, MSE 330, MAT 342, MAT 411,
MAT 485

- Please see course lists below for CSE Technical Electives. Contact CIDSE Advising or visit the [CIDSE website](#) for additional information. Maximum 6 hours at the 300-level.

Biology or Chemistry Courses	CSE Technical Electives
BIO 181: General Biology I (SQ)	Note: 6 hours maximum of 300-level Technical Electives. 6 hours minimum of 400-level Technical Electives.
BIO 182: General Biology II (SG)	
BIO 201: Human Anatomy and Physiology I (SG)	Maximum 3 hours of CSE 484 or FSE 301.
BIO 202: Human Anatomy and Physiology II (SG)	Maximum 6 hours of CSE 484, 492, 493 or 499.
CHM 113: General Chemistry I (SQ)	Some Technical Electives may require additional prerequisites.
CHM 116: General Chemistry II (SQ)	Students considering graduate program in Computer Science should take CSE 340 and CSE 355.
CHM 114: General Chemistry for Engineers (SQ)	
	CPI 411: Graphics for Games
	CPI 412: Cognitive Systems and Intelligent Agents
	CSE 340: Principles of Programming Languages
	CSE 355: Introduction to Theoretical Computer Science

EEE 304: Signals and Systems II

EEE 350: Random Signal Analysis

EEE 404: Real-Time DSP Systems

EEE 407: Digital Signal Processing

EEE 425: Digital Systems and Circuits

EEE 455: Communication Systems

EEE 480: Feedback Systems

EEE 481: Computer-Controlled Systems

FSE 301: Entrepreneurship and Value Creation

IEE 385: Engineering Statistics: Probability

MAT 421: Applied Computational Methods (CS)

BAS Graduation Requirements Summary:

This program allows students who have earned an Associate of Applied Science from a regionally accredited institution to transfer 60 or 75 credit hours toward a Bachelor of Applied Science at ASU. Students may opt to complete additional general studies course work at a community college to be eligible to transfer up to 75 credits towards the BAS.

- Total hours: 120 minimum
- ASU hours: 30 minimum
- 4-year institution hours: 45-60 minimum
- Upper division hours: 45 minimum
- Academic Recognition: 56 minimum
- GPA: 2.000 minimum
- Total hours transferred from community college: 60-75 maximum

BAS Graphic Information Technology Focus Area

Concentration Focus Area courses should be selected from the available focus area with assistance from faculty and an advisor.

- Select a minimum of nine semester hours from one of the following Career Focus Study Areas. Students will need to submit a Career Focus Proposal Form prior to taking classes. Please note that some of these courses may require additional prerequisites. All course options should be discussed with an advisor, as classes have prerequisites and are sequential.
- Visit [CIDSE](#) website for additional information about Career Focus Study Area and Technical Elective courses.

- Informatics Focus Area and Informatics Electives: Select a focus area and complete at least 15 hours in that focus area. Select another 21 hours from the courses on these lists to complete the 36 hour requirement. Students are limited to 22 hours of lower-division courses for the focus area and electives, combined. It is recommended that you work with your academic advisor when making course selections. Visit the [CIDSE website](#) for additional information about Informatics Electives or Focus Area Required Courses.

Informatics Focus Area (Digital Culture Studies)	Informatics Focus Area (Enterprise Informatics)	Informatics Focus Area (Game Informatics)
Recommended first course is AME 111.		
AME 111: Introduction to Digital Culture (CS)	Required courses: AND MAT 266: Calculus for Engineers II (MA) AND IEE 376: Operations Research Deterministic Techniques/Applications AND IEE 385: Engineering Statistics: Probability AND IEE 470: Stochastic Operations Research AND Select One:	Required: AND CPI 111: Game Development I (CS) AND CPI 211: Game Development II AND CPI 311: Game Engine Development AND CPI 321: Fundamentals of Game Art AND Select one:
AME 130: Prototyping Dreams		CPI 411: Graphics for Games
AME 294: Introduction to Interactive Environments or ART 294: Introduction to Interactive Environments	IEE 421: Urban Operations Research	CPI 412: Cognitive Systems and Intelligent Agents
AME 340: Compositional and Computational Principles for Media Arts	IEE 426: Operations Research in Healthcare	CPI 421: 3-D Modeling and Texturing
AME 494: Programming for Social and Interactive Media	IEE 461: Production Control	CPI 422: 3-D Animation and Rigging for Video Games
AME 494: Animating Virtual Worlds	IEE 474: Quality Control	EDT 310: Games for Impact: The Full Life Cycle
AME 494: Integrated System Development	IEE 475: Simulating Stochastic Systems (CS)	EDT 329: Games, Simulations, and Virtual Environments
AME 494: Understanding Activity	IEE 477: System Dynamics and Thinking	EDT 340: Designing Games for Impact
AME 112: Computational Thinking for Digital Culture		EDT 460: Games, Technology and Society
AME 220: Programming for the Web		EDT 463: Games for Impact: The Full Life Cycle
AME 230: Programming for the Media Arts		EDT 494: Special Topics
AME 310: Media Literacies and Composition		SER 431: Advanced Graphics
AME 320: Motion Capture for Integrative Systems		
AME 494: Media Installations		
AME 494: Advanced Interactive Sound		
ANP 394: Digital Modeling and Fabrication		

ANP 494: Design by Algorithm

ANP 494: Designing Hybrid Spaces

ART 194: Digital Art and Culture

ART 218: 3D Tools

ART 294: The Still Image in Digital Culture

ART 494: Visual Prototyping

DCE 294:
HybridAction:PhysicalIntelligenceinDigitalCulture

DSC 294: Media Editing

IAP 103: Foundations I: Interdisciplinary Digital Media

IAP 104: Foundations I: Fundamentals of Sound Art

MDC 211: Introduction to Digital Sound

MDC 311: Composing and Performing for Hybrid Ensembles

Informatics Focus Area (Geo-Informatics)	Additional Informatics Electives
Required:	Students may choose from any of the courses not in their selected focus area as Informatics Electives in addition to the courses listed below:
GIS 205: Geographic Information Technologies (CS)	
GIS 211: Geographic Information Science I (CS)	ART 346: 3-D Computer Imaging and Animation (CS)
GIS 311: Geographic Information Science II (CS)	BIO 355: Introduction to Computational Molecular Biology (CS)
Select two:	BIO 411: Quantitative Methods in Conservation and Ecology
ABS 485: GIS in Natural Resources	BIO 424: Dynamic Modeling in Social and Ecological Systems
GCU 361: Urban Geography (SB)	BIO 456: Bioinformatics and Molecular Evolution
GCU 441: Economic Geography (SB)	BIO 469: Computational Neuroscience: Case Studies in Neuroethology
GCU 442: Geographical Analysis of Transportation (SB)	CIS 300: Web Design and Development
GCU 494: Special Topics	CIS 365: Business Database Systems Development
GIS 341: Introduction to Cartography and Georepresentation (CS)	CPI 400: Scientific Computing and Visualization
GIS 351: Air Photo Interpretation	CPI 441: Gaming Capstone
GIS 461: Optimization Fundamentals for Spatial Analysis	CPI 460: Intelligent Interactive Instructional Systems
GIS 471: Geographic Information Analysis	

CSE 220: Programming for Computer Engineering

CSE 240: Introduction to Programming Languages

CSE 310: Data Structures and Algorithms

CSE 360: Introduction to Software Engineering

CSE 394: Special Topics

CSE 408: Multimedia Information Systems

CSE 412: Database Management

CSE 471: Introduction to Artificial Intelligence

CSE 476: Introduction to Natural Language Processing

CSE 477: Introduction to Computer-Aided Geometric Design or CSE 494: Special Topics

CSE Special Topics must be Digital Culture classes with 3** or 4** numbers.

IEE 385: Engineering Statistics: Probability

MAT 267: Calculus for Engineers III (MA)

Total Community College Hrs: 64 maximum

General University Requirements Legend

General Studies Core Requirements:

- Literacy and Critical Inquiry (L)
- Mathematical Studies (MA)
- Computer/Statistics/Quantitative Applications (CS)
- Humanities, Arts and Design (HU)

- Social-Behavioral Sciences (SB)
- Natural Science - Quantitative (SQ)
- Natural Science - General (SG)

General Studies Awareness Requirements:

- Cultural Diversity in the U.S. (C)
- Global Awareness (G)
- Historical Awareness (H)

First-Year Composition

General Studies designations listed on the major map are current for the 2016 - 2017 academic year.

Name: _____	ASU ID: _____
AAS Degree: _____	AAS degree date: _____
AAS Institution: _____	Catalog year: _____
Number of upper division transfer credits: _____	Expected Graduation Semester: _____
Institution of transfer work (upper division only): _____	

Course Subject and Title	Hrs.	Upper Division	Transfer Course/Grade	Minimum Grade if Required	Additional Notes
GENERAL STUDIES SEQUENCE: 19 CREDIT HOURS					
ASC 315 Numeracy in Technology (MA) OR Mathematics (MA)	3	<input type="checkbox"/>			Students must also satisfy general studies awareness areas either through completed transfer work or by sharing with L, HU, or SB courses at ASU: <input type="checkbox"/> Cultural Diversity in the U.S. (C) <input type="checkbox"/> Global Awareness (G) <input type="checkbox"/> Historical Awareness (H)
ASC 325 Physical Sciences in Technology (SQ) OR Natural Science - Quantitative (SQ)	4	<input type="checkbox"/>			
Humanities, Arts and Design (HU)	3	<input type="checkbox"/>			
Upper Division Humanities, Arts and Design (HU) OR Upper Division Social-Behavioral Sciences (SB)	3	<input checked="" type="checkbox"/>			
Upper Division Literacy and Critical Inquiry (L)	3	<input checked="" type="checkbox"/>			
Social-Behavioral Sciences (SB)	3	<input type="checkbox"/>			
BAS CORE: 15 CREDIT HOURS					
ABS 350 Applied Statistics (CS) OR STS 401 Statistics in Science and Technology Studies (CS)	3	<input checked="" type="checkbox"/>			TMC 470 prerequisite is TMC 330.
GIT 335 Computer Systems Technology or GIT 394 Web Foundations	3	<input checked="" type="checkbox"/>			
TMC 330 Leading the Enterprise	3	<input checked="" type="checkbox"/>			
TMC 470 Enterprise Planning and Implementation	3	<input checked="" type="checkbox"/>			
Literacy and Critical Inquiry (L) AND TWC Upper Division Elective	3	<input checked="" type="checkbox"/>			
CONCENTRATION: 21 CREDIT HOURS					
GIT 334 Image Editing and Manipulation	3	<input checked="" type="checkbox"/>			Enroll in GIT 480 during final semester. GIT 418 prerequisite is GIT 417.
GIT 340 Information Design and Usability	3	<input checked="" type="checkbox"/>			
GIT 414 Web Site Design and Internet/Web Technologies	3	<input checked="" type="checkbox"/>			
GIT 417 Advanced Web Markup and Scripting	3	<input checked="" type="checkbox"/>			
GIT 418 Multimedia Authoring, Scripting and Production	3	<input checked="" type="checkbox"/>			
GIT 432 Graphic Industry Business Practices	3	<input checked="" type="checkbox"/>			
GIT 480 Senior Project	3	<input checked="" type="checkbox"/>			
ASSIGNABLE CREDITS: 5 CREDIT HOURS*					
	3	<input checked="" type="checkbox"/>			Students should work with an advisor for assistance in selecting assignable credits.
	2	<input type="checkbox"/>			

*GIT 394 Web Content Design should be taken prior to enrolling in the concentration courses if the content covered was not included in the student's AAS degree requirements.

BAS Graduation Requirements Summary:

This program allows students who have earned an Associate of Applied Science from a regionally accredited institution to transfer 60 or 75 credit hours toward a Bachelor of Applied Science at ASU. Students may opt to complete additional general studies course work at a community college to be eligible to transfer up to 75 credits towards the BAS.

- Total hours: 120 minimum
- ASU hours: 30 minimum
- 4-year institution hours: 45-60 minimum
- Upper division hours: 45 minimum
- Academic Recognition: 56 minimum
- GPA: 2.000 minimum
- Total hours transferred from community college: 60-75 maximum
