| BME     | 182         | Biomedical Engineering Product Design and Development I                 | Continuation of hands-on training and implementation of medical device product design and development skills; FDA-regulated U.S. and global medical device healthcare markets and opportunities, business development in regulated environments, medical product and project management planning, exempt and Class I medical devices, medical product component and device levels, identification and selection of customer needs, translation of customer needs, product specification development, virtual and physical prototypes, prototype product specification verification, product design and development process documentation, FDA regulatory best-industry practices. | N                 | LAB               | N               | GNA           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering BSE major; Pre- or corequisite(s): ENG 101, 105, or 107 with C or better if completed  |
| BME     | 191         | First-Year Seminar  | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1-3   |                 |  |
| BME     | 194         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1-4   |                 |  |
| BME     | 200         | Conservation Principles in Biomedical Engineering                       | Applies bioengineering analysis and problem solving of mass, energy, and charge balances to medical and biological systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): Biomedical Engineering major; BIO 181 or BME 111 with C or better; CHM 114 or 116 with C or better; PHY 121 with C or better; Pre- or corequisite(s): MAT 275 |
| BME     | 201         | Anatomy & Physiology: Cell & Tissue Physiology                          | Introduces the major structural and functional characteristics of individual cells and tissues in the mammalian body. Physiological principles in the context of biomedical problem solving. Describes the functions of basic cell and tissue systems in the body, describes how they interact in healthy and diseased tissues, and identifies how simple biomedical devices interface with these systems.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical engineering student; Pre- or corequisites: BIO 181 with C or better if completed; CHM 114, 116 or 118 with C or better if completed                |
| BME     | 202         | Anatomy & Physiology: Organs & Systems                                  | Introduces the fundamental structural and functional characteristics of the major organs and systems in the mammalian body. Physiological principles in the context of biomedical problem solving. Describes the functions of fundamental physiology of organs comprised of the five tissue types of the body, describes how they interact in healthy and diseased tissues, and identifies how simple biomedical devices interface with these systems.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; Pre- corequisite(s): BME 201 with C or better if completed; Credit is allowed for only BME 202 or 294 (A&P: Tissues)          |

|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|---------------------------|-----------------------------------|-------|-----------------|---|
| BME     | 313         | Preclinical and Clinical Trials in Biomedical Engineering    | Explores the rationale and the tools required to evaluate the safety and efficacy of medical devices designed and developed using best industry practices for human consumption. Introduces the design and conduct of pre-clinical trials (in vitro, ex vivo or in vivo systems other than humans), as well as clinical trials that are required for FDA approval to market medical devices in the U.S. Covers the following topics: an overview of medical device development; FDA regulatory affairs and practices; ethics concerns in animal and human trials; experimental design and biostatistics for medical device preclinical and clinical studies; preclinical (IACUC) and clinical trial (IRB) approval; informed consent best practices; medical device preclinical and clinical trial management; recruitment of clinical study participants and populations; ethics of preclinical and clinical trials; and alternatives to animal and human trials. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; BME 213 or BME 294 (Biomedical and Bioengineering Ethics) with a C or better   |
| BME     | 316         | Biomechanics for Biomedical Engineers                        | Biomechanics provides conceptual and mathematical tools that are necessary for understanding how living things move. Focuses on human biomechanics with an emphasis on the musculoskeletal system.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): Biomedical Engineering major; PHY 121 with C or better; PHY 122 with C or better; Pre- or corequisite(s): BME 235 with C or better if completed  |
| BME     | 318         | Biomaterials   | Material properties of natural and artificial biomaterials. Tissue and blood biocompatibility. Uses of materials to replace body parts.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 4     |                 | Prerequisite(s): Biomedical Engineering BSE major; BIO 181 (or BIO 188), BME 111, CHM 114, or CHM 116 with C or better; BME 235 with C or better; MAT 274 or 275 with C or better   |
| BME     | 321         | Probability for Biomedical Engineering                       | Introduces probability distributions in the context of basic biological phenomena and biomedical engineering.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; Pre- corequisite: MAT 342 or MAT 343 (with C or better if completed)   |
| BME     | 322         | Statistics for Biomedical Engineering                        | Introduces parametric and nonparametric statistics tests in the context of common biomedical experiments.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering major; MAT 274 (or 275) with C or better  |
| BME     | 331         | Transport Phenomena for Biomedical Engineering               | Transport phenomena with emphasis on momentum, energy, and mass transport in living systems, medical devices, and other therapeutic/diagnostic applications.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): Biomedical Engineering BSE major; BME 200, 212, or 294 (Conservation Principles) with C or better; MAT 274 or 275 with C or better; PHY 121 with C or better   |
| BME     | 340         | Thermodynamics for Biomedical Engineers                      | Thermodynamics is a branch of science dealing with processes (chemical or mechanical) and the subsequent energy and mass transfers. Studies whether a process is favorable (possible) or unfavorable (impossible) while assessing energy and mass transfer within each specific stage of the process. The operation of living systems is heavily based on the use of chemical reactions and or mechanical processes such as beating of the heart, biochemical reactions of a drug in liver, phase equilibria. Covers the fundamental principles and laws of thermodynamics. Helps students think thoroughly about the applications of thermodynamics in biological sciences and bioengineering with the main emphasis on basic concepts and problem-solving skills.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): Biomedical Engineering BSE major; BME 200 with C or better; Pre- or corequisite(s): MAT 267 or 272 with C or better if completed   |
| BME     | 341         | Engineering Design Method                                    | Covers the engineering design method, a collection of valuable design tools, and the application of the method and tools to address current problems in the field of biomedical engineering.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; BME 100, 101, 103 or BME 194 (Introduction to Biomedical Engineering) with C or better; ENG 102, 105 or 108 with C or better   |
| BME     | 342         | 3D Spatial Modeling  | 3D spatial modeling tools applied in the context of biomedical engineering to create computational models of idealized and anatomical biological structures (e.g., blood vessels).   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; BME 100, 101, 103 or BME 194 (Introduction to Biomedical Engineering) with C or better; BME 203 or 294 (Cell Tissue Physiology) or 294 (A&P: Tissues) or 294 (A&P: Systems) with C or better |
| BME     | 350         | Signals and Systems for Bioengineers                         | Applies principles of calculus and ordinary differential equations to analysis and computer processing of biosignals and linear modeling of biosystems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): Biomedical Engineering major; MAT 275 with C or better   |
| BME     | 351         | Circuits for Biomedical Engineering Instrumentation          | Circuits is a specialized skill that is developed for students interested in building devices which serve as electrical interfaces to the body. These are interfaces which have very specialized requirements. Students who have been familiarized with the basics of electrical circuit design as well as physiology learn some of the issues that arise and solutions that have been generated to provide for these interfaces.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; BME 312 or BME 394 (Transforms For BME Apps) with C or better  |
| BME     | 352         | Filtering of Deterministic and Stochastic Signals            | Introduces properties of deterministic and stochastic signals and their use in biomedical signal processing.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; Pre- corequisite: BME 312 or BME 394 (Transforms For BME Apps) with C or better if completed   |
| BME     | 353         | Microcomputing & Embedded Systems for Biomedical Engineering | Introduces the use of microcontrollers to analyze biological signals.  | N                 | LAB               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; Pre- corequisite: BME 352 with C or better if completed  |

| BME     | 360         | Control in Biological Systems                                     | Illustrates the basic principles of control through examples from evolved and synthetic biological systems. Surveying topics including feedback and feedforward control mechanisms, insulation of circuits via modularity, and discovering optimal intervention strategies.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): Biomedical Engineering BSE major; BIO 353 with C or better; MAT 275 with C or better  |
| BME     | 361         | Design of Experiments and Clinical Trials                         | Explores advanced techniques in trial and experimental design in biomedical engineering, including testing new products or drugs, or even generation of new methods and treatments, designed to provide statistical confirmation at the end of trials. Design of trials, experiments, and measures, so that efficacy can be properly evaluated using statistical tests. Although this course makes reference to regulatory procedures, emphasizes the proper application of statistical techniques in the design of experiments.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; BME 322 or BME 394 (Statistics For BME) with C or better  |
| BME     | 362         | Methods in Molecular and Cellular Biology                         | Gives junior-level undergraduate students hands-on experience on the methods used in molecular and cellular biology lab, especially methods to engineer or analyze DNA and protein.   | N                 | LAB               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering BSE major; Pre- or corequisite(s): BIO 353 with C or better if completed   |
| BME     | 370         | Microcomputer Applications in Biomedical Engineering              | Uses microcomputers for real-time data collection, analysis, and control of experiments involving actual and simulated physiological systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): Biomedical Engineering major; EEE 202 with C or better; BME 350 with C or better  |
| BME     | 382         | Biomedical Engineering Product Design and Development III         | Continuation of hands-on training and implementation of medical device product design and development skills; experimental practices, data gathering, presentation, and statistical analysis in regards to demonstration of validation and verification tools and testing, identification and selection of customer needs, translation of customer needs, product specification development, virtual and physical prototypes, prototype product specification verification, product design and development process documentation, FDA regulatory best industry practices. | N                 | LAB               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering major; BME 182 with C or better; BME 282 with C or better  |
| BME     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-4   |                 |  |
| BME     | 401         | Biomedical Engineering Product Design & Development: Capstone     | Introduces global biomedical engineering design factors that affect the selection and implementation of medical device product innovation, design, and development using best industry practices. These include technical, regulatory, economic, legal, business, entrepreneurial, social, and ethical aspects of medical device systems engineering design.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; with C or better: BME 313; BME 331; BME 341; BME 342; BME 353 and BME 361   |
| BME     | 402         | Biomedical Engineering Product Design & Development: Capstone II  | Introduces project management and product innovation, design and development processes and their best practices.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; Pre- corequisite(s): BME 401 with C or better if completed  |
| BME     | 403         | Biomedical Engineering Product Design & Development: Capstone III | Introduces conceptual product design and development best practices using three-dimensional modeling and other design tools for the determination of product specifications.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 2     |                 | Prerequisite(s): Biomedical Engineering student; Pre- corequisite(s): BME 401 with C or better; BME 402 with C or better   |
| BME     | 405         | Biomedical Engineering Product Design & Development: Capstone V   | Introduces prototyping of the capstone device and begins experiments of the device prototype.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; Pre- corequisite(s): BME 404 with C or better if completed  |
| BME     | 406         | Biomedical Engineering Product Design & Development: Capstone VI  | Addresses prototype device verification and validation methods to achieve a robust design; the conclusion of the capstone project.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 2     |                 | Prerequisite(s): Biomedical Engineering student; Pre- corequisite(s): BME 404 with C or better; BME 405 with C or better   |
| BME     | 413         | Biomedical Instrumentation  | Principles of medical instrumentation. Studies of medical diagnostic instruments and techniques for the measurement of physiologic variables in living systems. Both BME 413 and BME 423 need to be taken together to secure L General Studies credit.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     | L               | Prerequisite(s): Biomedical Engineering major; BME 350 with C or better; Corequisite(s): BME 423   |
| BME     | 416         | Advanced Biomechanics   | Mechanical properties of bone, muscle, and soft tissue. Static and dynamic analysis of human movement tasks such as locomotion.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): Biomedical Engineering major; BME 316 with C or better  |
| BME     | 417         | Biomedical Engineering Capstone Design I                          | Technical, regulatory, economic, legal, social, and ethical aspects of medical device systems engineering design.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 4     | L               | Prerequisite(s) all with C or better: Biomedical Engineering major; BME 300; BME 318; BME 331; BME 382; BME 122 or 322; BME 360 or 370; BME 316, BME 416, or MAE 212; ECN 211 or 212 |
| BME     | 419         | Biocontrol Systems  | Applies linear and nonlinear control systems techniques to analysis of neuromusculoskeletal, cardiovascular, thermal, and mass transfer systems of the body.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): Fulton Engineering undergraduate student; BME 350 with C or better; BME 370 with C or better  |
| BME     | 421         | Biomedical Instrumentation I                                      | Introduces principles of biomedical instrumentation and techniques of physiologic measurement as used in medicine and biology.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; BME 341 and 353 with C or better  |
| BME     | 422         | Biomedical Instrumentation II                                     | Principles of biomedical instrumentation and techniques as used in medicine and biology with an emphasis on medical diagnostic imaging.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering major; Pre- or corequisite(s): BME 421 with C or better if completed   |
| BME     | 423         | Biomedical Instrumentation Laboratory                             | Lab experience with problems, concepts, and techniques of biomedical instrumentation in static and dynamic environments. Both BME 413 and BME 423 need to be taken together to secure L General Studies credit.   | N                 | LAB               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     | L               | Pre-requisite: Biomedical Engineering student; Co-requisite: BME 413   |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                                       | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                        | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|-----------------------------------|-------|-----------------|---|
| BME     | 434         | Applications of Bioengineering Transport Phenomena | Develops mathematical models of transport phenomena in physiological systems, medical devices, and pharmacokinetic analysis.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): Fulton Engineering undergraduate student; BME 331 with C or better   |
| BME     | 467         | Tissue Engineering and Regenerative Medicine       | Covers the fundamentals of engineering and developmental biology concepts relevant to tissue engineering and regenerative medicine (TERM). Topics covered range from basic cell biology principles to nutrient exchange parameters to cell material interactions that inform engineering design of regenerative strategies.   | N                 | LEC               | N               | GNA           | Ira A. | BME     | 492         | Honors Directed Study                              | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| BME     | 493         | Honors Thesis                                      | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| BME     | 494         | Special Topics                                     | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-4   |                 |   |
| BME     | 498         | Pro-Seminar  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-7   | L               | Prerequisite(s): Bioengineering or Pre-Med Engineering BS or BSE student  |
| BME     | 499         | Individualized Instruction                         | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-3   |                 |   |
| BME     | 520         | Bioelectric Phenomena                              | Study of the origin, propagation, and interactions of bioelectricity in living things; volume conductor problem, mathematical analysis of bioelectric interactions, and uses in medical diagnostics.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BME     | 521         | Neuromuscular Control Systems                      | Overview of sensorimotor brain structures. Application of nonlinear, adaptive, optimal, and supervisory control theory to eye-head-hand coordination and locomotion.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BME     | 522         | Biosensor Design and Application                   | Theory and principles of biosensor design and application in medicine and biology. Principles of measurements with biosensors.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BME     | 524         | Fundamentals of Applied Neural Control             | Fundamental concepts of electrical stimulation and recording in the nervous system with the goal of functional control restoration.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BME     | 525         | Surgical Techniques                                | Principles of surgical techniques, standard operative procedures, federal regulations, guidelines, and state-of-the-art methods.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 2     |                 | Pre-requisites: Graduate Engineering students only  |
| BME     | 526         | Introduction to Neural Engineering                 | Introduces the field of neural engineering. Neural engineering, as with all engineering fields, can be thought of as applied scientific understanding, in this case, applied neuroscience. Covers aspects of neurophysiology, neuroanatomy, neurosurgery, biophysics, electronics and signal processing; integrates these knowledge areas into neural engineering applications. Covers an entire process for conducting research in neural engineering: surgical implantation of electrodes, data acquisition, processing neural signals, decoding neural data, and controlling prosthetic devices. Provides foundation for working with neural engineering applications and conducting research in neural engineering. | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only BME 526 or BME 598 (Intro to Neural Engineering)   |
| BME     | 527         | Biomedical Device Design                           | Basic phenomena behind various types of biomedical devices which measure indicators using optical, thermal and other modalities. Provides an introductory coverage of the theory and history of these devices and includes some hands-on activities to use, reverse engineer and analyze data gathered from in-class activities with currently existing devices. Uses Matlab to perform most of the analysis. Preliminarily exposes students to principles of device design and testing with consideration to FDA regulations and requirements.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): graduate Biomedical Engineering student; Credit is allowed for only BME 527 or BME 598 (Biomedical Device Design)  |
| BME     | 533         | Transport Processes I                              | Unified treatment of momentum, heat, and mass transfer from molecular theory, and continuum points of view. Continuum equations of microscopic and macroscopic systems and multicomponent and multiphase systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): graduate Engineering major. Credit is allowed for only BME 533 or CHE 533 or MAE 533   |
| BME     | 544         | Chemical Reactor Engineering                       | Reaction rates, thermodynamics, and transport principles applied to the design and operation of chemical reactors.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BME     | 556         | Human Systems Neuroscience                         | Systems-level neuroscience course focusing on human diseases. Classes involve lectures and/or other activities such as observations of clinical procedures and tours of clinical facilities (e.g., the neurosurgical suite, imaging facilities).  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 4     |                 | Prerequisite(s): BME PhD student or Neuroscience PhD student; Credit is allowed for only BIO 598 (Human Sys Neuroscience) or BME 556 or NEU 556   |

| BME     | 561         | Clinical Neuroscience                                     | Fundamental mechanisms that underlie diseases and disorders of the central and peripheral nervous systems. Introduces assessment and pharmacological, surgical and rehabilitative management of nervous systems disorders. Prior knowledge of neural systems is helpful. Identifies the mechanisms by which key disease and trauma states impact neural systems and how clinicians identify the locus and type of damage based on clinical and imaging criteria.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 565         | Magnetic Resonance Imaging                                | Provides a foundation in the fundamental concepts of magnetic resonance imaging and some applications to measure physiological processes and changes with respect to disease. Incorporates real-time demos using a bench-top MRI system. Several local MR experts present guest lectures on specialized topics. Requires a working knowledge of the fundamentals of signal analysis and Fourier transform theory and linear algebra to be successful in this course.                                    | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): graduate Engineering student or Chemistry MS or PhD student or Physics MS or PhD student; Credit is allowed for only BME 565 or BME 494 (Principles Magnetic Resonance) or BME 598 (Principles Magnetic Resonance Spectroscopy & Imaging) |
| BME     | 566         | Medical Imaging Instrumentation                           | Design and analysis of imaging systems and nuclear devices for medical diagnosis, therapy and research.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 567         | Tissue Engineering and Regenerative Medicine              | Covers the fundamentals of engineering and developmental biology concepts relevant to tissue engineering and regenerative medicine (TERM). Topics covered range from basic cell biology principles to nutrient exchange parameters to cell material interactions that inform engineering design of regenerative strategies. Prior knowledge of high-level engineering mathematics (up to differential equations), engineering transport concepts (particularly mass transfer), and biology is expected. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): Biomedical Engineering graduate student; Credit is allowed for only BME 467 or BME 567 or BME 598 (Regenerative Medicine)   |
| BME     | 568         | Human Factors and System Design in Assistive Technologies | The field of human factors engineering as it relates to the design, development and use of assistive technology for individuals with sensory, motor and cognitive disabilities. Includes lectures, guest lectures, hands-on demonstrations and class discussions of relevant and current topics related to human-centered design of assistive technology.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): BME graduate student; Credit is allowed for only BME 568 or BME 598 (IGERT: Human Factors)  |
| BME     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 590         | Reading and Conference                                    | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 593         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 594         | Conference and Workshop                                   | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 595         | Continuing Registration                                   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-4   |                 | Pre-requisites: Graduate Bioengineering students only  |
| BME     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 695         | Continuing Registration                                   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 780         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 792         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

| BMI     | 101         | Introduction to Bioinformatics                      | Introduces existing and future applications of biomedical informatics. Overview of history and present state of the field. Introduces topics in translational bioinformatics, such as sequence alignment, the Human Genome Project, gene expression analysis, genome-wide association studies, next-generation sequencing.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions       | 3     |                 |  |
| BMI     | 102         | Introduction to Public Health Informatics           | Applies information and computer science and technology to public health practice, research, policy and decision support. This new scientific area focuses on the capture, management and use of electronic public health data. Introduces the field of public health informatics and the current systems that are used for public health decision making. This is not a programming course or a mathematics course. While these backgrounds are prominent in the field, the purpose of this course is to provide the history and context of the field and enable students to develop their own public health informatics system using techniques of their choice. | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions       | 3     |                 |  |
| BMI     | 201         | Introduction to Clinical Informatics                | Introduces existing and future applications of biomedical informatics. Overview of history and present state of the field. Provides an introduction to biomedical informatics techniques and applications used in clinical environments. Includes searching and organizing free text information, decision analysis techniques and clinical decision support systems, and clinical applications including physician order entry used in electronic medical records. Also covers challenges in clinical informatics, including sociotechnical and cognitive issues in implementation and use.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions       | 3     |                 |  |
| BMI     | 211         | Modeling Biomedical Decisions                       | First semester of a three-semester course sequence surveying the methods and theories underlying the field of biomedical informatics. Explores models of medical decision making, including classical decision theory, Bayesian, and cognitive models. Also includes a component discussing evaluation methods in biomedical informatics.  | N                 | PRA               | N               | OPT           | College of Health Solutions | College of Health Solutions       | 3     |                 |  |
| BMI     | 221         | Knowledge Representation for Biomedical Informatics | Introduces topics in knowledge representation and modeling, including frame-based systems, logic-based systems, rule-based systems, inference, and reasoning. Overview of history and present state of the field.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions       | 3     |                 |  |
| BMI     | 311         | Modeling Biomedical Knowledge                       | Introduces concepts of artificial intelligence and knowledge modeling using medical informatics examples. Historical foundations and motivations of AI in medical applications; problem solving, reasoning, knowledge management, and planning as applied to medical informatics problems.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions       | 3     |                 |  |
| BMI     | 312         | Modeling Biomedical Data                            | Third semester of a three-semester course surveying the methods and theories underlying the field of biomedical informatics. Explores methods of use in the design and maintenance of biomedical databases, machine learning techniques, information retrieval in biomedicine and other methods specific to bioinformatics.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions       | 3     |                 |  |
| BMI     | 330         | Topics in Translational Bioinformatics              | Provides an introduction to bioinformatics methods and applications used in the field of translational medicine research. Topics include bioinformatics data acquisition and management, including microarrays, database modeling and integration; analysis methodologies, including statistics and data mining; and applications.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions       | 3     |                 |  |
| BMI     | 332         | Team Dynamics for Healthcare IT Projects            | Teaches the fundamentals of leadership, management, and team dynamics in a project-focused software engineering environment, and with a focus on informatics and healthcare applications. Teaches students about team and group dynamics, recognizing dysfunctional teams, and helping to fostering productive group and leadership skills.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions       | 3     |                 |  |
| BMI     | 394         | Special Topics                                      | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | College of Health Solutions       | 1-4   |                 |  |
| BMI     | 404         | Clinical Environments                               | Designed for medical informatics students who have no significant clinical experience in the U.S. Introduces medical terminology and exposes students to the clinical environments in which health care providers create, manage, and use clinical information. Students attend lectures and spend a significant portion of time examining and reporting on different clinical settings throughout the semester.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions       | 3     |                 | Prerequisite(s): minimum 45 hours                              |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                                     | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                  | Units | General Studies | Requirements   |
|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|-----------------------------|-----------------------------|-------|-----------------|--|
| BMI     | 410         | Database Management in Health Care               | Database fundamentals and the use of databases in health care. Fundamental concepts in relational database design spanning both operational and analytical use cases. Students learn and practice SQL syntax. Discusses modern implementations of databases in health care; exposes students to the most common forms of modern health care data: EHR data, claims (pharmacy and medical), and health care data models (includes health care data warehouses). When possible, exposes students to real (deidentified) data and database schemas, but synthetic data may also be used that closely matches the format it is intended to represent.          | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): CSE 205 with C or better; Credit is allowed for only BMI 410 or BMI 394 (Database Management in Healthcare) |
| BMI     | 461         | Advanced Topics in Biomedical Informatics I      | Covers current trends and cutting-edge research areas of clinical, public health, and consumer health informatics. Particular emphasis on research that is of relevance to patients, and the healthy public, covering such topics as outbreak detection and the personal health record. Also covers research on the use of technology in medical education, and the ways in which clinical decision support systems are applied in contemporary medical practice.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 |  |
| BMI     | 462         | Advanced Topics In Biomedical Informatics II     | Covers current trends and cutting-edge research areas of bioinformatics, imaging informatics, and translational science. Emphasizes informatics approaches to the novel data sources that are supplied by the next generation of methods for affordable gene sequencing, and initiatives underway to accelerate the integration of novel research findings into everyday clinical practice. Includes a series on modeling and simulation, current approaches to computer-aided diagnosis of medical images, ways in which technology can support the discovery of new knowledge, and the application of telemedicine to remotely facilitate clinical care. | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 |  |
| BMI     | 465         | Introduction to Comparative Genomics             | Explores genomic sequences and hypotheses for their structure, evolutionary history, and underlying mechanisms.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Credit is allowed for only BMI 465 or BIO 455  |
| BMI     | 482         | Capstone I                                       | First course in capstone sequence for biomedical informatics majors emphasizing the development of technical skills and effective team work within the context of a research project in biomedical informatics.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     | L               |  |
| BMI     | 483         | Capstone II                                      | Second course in capstone sequence for biomedical informatics majors emphasizing the development of technical skills and effective team work within the context of an applied project in biomedical informatics.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     | L               | Prerequisite(s): BMI 482 with C or better  |
| BMI     | 484         | Internship                                       | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | College of Health Solutions | 1-12  |                 |  |
| BMI     | 492         | Honors Directed Study                            | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.  | N                 | LEC               | Y               | Z1            | College of Health Solutions | College of Health Solutions | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| BMI     | 493         | Honors Thesis                                    | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | LEC               | Y               | Z1            | College of Health Solutions | College of Health Solutions | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| BMI     | 494         | Special Topics                                   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | College of Health Solutions | 1-4   |                 |  |
| BMI     | 499         | Individualized Instruction                       | Provides an opportunity for original study or investigation in the major or field of specialization, on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | IND               | Y               | Z1            | College of Health Solutions | College of Health Solutions | 1-3   |                 |  |
| BMI     | 501         | Introduction to Biomedical Informatics           | Overview of the field of biomedical informatics for use of computers and information in healthcare and the biomedical sciences.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): Degree- or Nondegree-seeking graduate. Credit is allowed for only BMD 501 or BMI 501                        |
| BMI     | 502         | Foundations of Biomedical Informatics Methods I  | First semester of a two-semester course surveying the methods and theories underlying the field of biomedical informatics.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): Degree- or Nondegree-seeking graduate. Credit is allowed for only BMD 502 or BMI 502                        |
| BMI     | 504         | Introduction to Clinical Environments            | Course is divided into three sections. The first section covers medical and health care concepts and terms, and discuss observational techniques. In the second portion, students investigate a variety of different clinical environments and report back to the class on their findings. The final portion summarizes the key points of information technology in these clinical environments.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): graduate BME or BMI major   |
| BMI     | 505         | Foundations of Biomedical Informatics Methods II | Second semester of a two-semester course surveying the methods and theories underlying the field of biomedical informatics.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; BMI 502 with C or better                                     |
| BMI     | 506         | Clinical Decision Support                        | The course will provide an in-depth analysis of computer-based approaches to supporting clinical decision making for providers and patients (as well as healthy individuals, for disease prevention/health maintenance). The history of the field of clinical decision support (CDS) and the spectrum of methodologies will be reviewed. Practical issues involved in successful implementations of CDS will be discussed. The roles of standards and infrastructure will be examined. Current research topics and foci will be explored.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                  | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|-----------------------------|-----------------------------|-------|-----------------|--|
| BMI     | 507         | Introduction to Digital Image Processing and Analysis | Core course with four sections for students seeking to concentrate in biomedical imaging informatics. The first section analyzes the concepts and terms of image processing and analysis. The second section evaluates key algorithms in image processing (e.g., image filtering, Fourier transform, image restoration). The third section examines advanced image analysis methods (e.g., image segmentation, mathematical morphology, image topology, shapes and boundaries, color processing, image coding and compression, wavelet, and special effects). The fourth section develops the practical applications of image processing and analysis in medicine and biology.  | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only BMD 507 or BMI 507                                |
| BMI     | 515         | Applied Biostatistics in Medicine and Informatics     | Comprehensive treatment of the statistical methods used most often to analyze quantitative data collected in medical and biomedical informatics studies, including clinical trials, epidemiologic studies, studies of the accuracy and performance of screening and diagnostic tests, and studies to develop predictive models. Students learn to use SAS statistical software to analyze biomedical data.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BMI     | 516         | Advanced Biomedical Data Analysis                     | Acquisition, conversion and organization of biological data into relevant diagnostic, therapeutic, and research information using information extraction and data mining.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; BMI 501 with C or better   |
| BMI     | 520         | Modeling Gene Regulatory Networks                     | Computational and mathematical modeling used to approximate gene regulatory networks as well as signaling pathways and inference of model parameters.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; BMI 505 with C or better; BMI 516 with C or better                           |
| BMI     | 540         | Problem Solving in Biomedical Informatics             | Theory and practice of software engineering principles as they apply to large- and medium-scale clinical systems from bench to bedside.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; BMI 601 with C or better   |
| BMI     | 550         | Translational Bioinformatics                          | Provides an introduction to bioinformatics methods and applications used in the field of translational medical research. Topics include bioinformatics data acquisition and management, analysis methodologies, and applications.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only BMD 550 or BMI 550                                |
| BMI     | 555         | Statistical Learning for Data Mining                  | Surveys data analysis methods for massive data sets and provides experience in analysis with computer software.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; BMI 515 or IEE 572 or IEE 578; Credit is allowed for only BMI 555 or IEE 520 |
| BMI     | 560         | Teaching in Biomedical Informatics                    | Student serves as a teaching assistant with a faculty member who is teaching either a required or elective course in the Biomedical Informatics curriculum. Such courses will generally be BMI courses but with the approval of the student's faculty program advisor may include a course that is an approved elective in the BMI program but is offered in another department within the university. The experience provides a significant teaching role, either lecturing or moderating small group sessions or laboratories. Grading class homework assignments and designing/grading examinations will also typically be part of the experience. Assisting other students outside of class and being available during office hours will also generally be part of the student teacher's role. A student may also receive 1 hour of credit for participating substantively in the design of a new course, working closely with a faculty member. Generally in such circumstances the student should then serve as course teaching assistant when it is offered for the first time (separate enrollment in this course). | Y                 | LEC               | Y               | OPT           | College of Health Solutions | College of Health Solutions | 1     |                 | Prerequisite(s): Biomedical Informatics PhD student  |
| BMI     | 570         | BMI Symposium   | Students attend the BMI Symposium Speaker Series twice a month and the student journal club discussion on alternate weeks. During the journal club weeks, each student leads a discussion on a current topic pertinent to the field of biomedical informatics.  | N                 | SEM               | Y               | YGB           | College of Health Solutions | College of Health Solutions | 1     |                 | Pre-requisite: BMI Graduate student  |
| BMI     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | College of Health Solutions | College of Health Solutions | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BMI     | 590         | Reading and Conference                                | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | College of Health Solutions | College of Health Solutions | 1-12  |                 | Pre-requisite: Biomedical Informatics Masters student  |
| BMI     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | College of Health Solutions | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BMI     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | N                 | RSC               | Y               | Z1            | College of Health Solutions | College of Health Solutions | 1-12  |                 | Prerequisite(s): Biomedical Informatics MS student   |
| BMI     | 593         | Applied Project                                       | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | College of Health Solutions | College of Health Solutions | 1-12  |                 | Prerequisite(s): Health Informatics MAS, Biomedical Informatics MIP, or Biomedical Informatics MS student                                    |
| BMI     | 595         | Continuing Registration                               | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | College of Health Solutions | College of Health Solutions | 1     |                 | Prerequisite(s): graduate Biomedical Informatics student   |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title  | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                  | Units | General Studies | Requirements   |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|-----------------------------|-----------------------------|-------|-----------------|--|
| BMI     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | College of Health Solutions | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BMI     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.  | Y                 | LEC               | Y               | Z2            | College of Health Solutions | College of Health Solutions | 1-12  |                 | Pre-requisite: Biomedical Informatics Masters student          |
| BMI     | 601         | Fundamentals of Health Informatics                    | Offers an overview of the field of health informatics. Combines perspectives from medicine and computer science for use of computers and information in health care and the health sciences. Includes an overview of health information literacy and data standards. Covers specific applications and general methodology in health informatics using current topics in the field. Discusses evaluations of health systems.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BMI     | 602         | Programming in a Health Care Domain                   | Intensive introduction to object-oriented programming concepts focused on the unique challenges such as those related to data volume, complexity, and uncertainty inherent to applications in a health care domain. Also covers the fundamentals of algorithm analysis and data structure design. Stresses a software engineering approach to abstraction for problem decomposition and solution formulation, with object-oriented and reusability concepts introduced early. Emphasizes the use of generic data structures and abstractions from template libraries for reusability, as well as modular design. In addition, also covers basic concepts of algorithms and data structures.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BMI     | 603         | Health Informatics Database Modeling and Applications | Thorough coverage of the foundations of database systems and their specific use and modeling in healthcare and biomedical environments. Students learn through hands-on experience with the modeling and implementation of health-related databases using the relational approach. Topics include an overview of database models and architecture, database design, SQL, XML, and data warehousing as they are applied in clinical domains. Students are encouraged to explore database-related topics of their own, choosing ones that are relevant to a bioinformatics or clinical domain.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BMI     | 604         | Health Information Literacy                           | Students learn to locate, retrieve, and store information with an emphasis on electronic search, retrieval, and storage. They also learn to assess the validity and quality of information, improve the quality of information, and how to improve the quality of, protect, and effectively communicate health information.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 2     |                 | Pre-requisite: Health Informatics MAS student                  |
| BMI     | 605         | Health Information Systems and Applications           | Explores the use of information systems in different health care settings, analyzing operational and strategic objectives for their deployment. Emphasizes the analysis of the different factors that influence decision making during the process of design and deployment of systems, including human factors, hardware, software, policy, communications, and the successful management of such systems. Also covers guidelines for the design and successful deployment of systems to meet those objectives and includes discussion of architectures, components, and models. Analyzes specific case studies of successfully and unsuccessfully deployed systems.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BMI     | 608         | Project Management for Interdisciplinary Teams        | Introduces students to the health care team and explores tools and techniques for establishing effective interdisciplinary teams in a health care setting, emphasizing collaborative clinical decision-making and patient management. By working in small teams, the course puts into practice these techniques, allowing students to collaborate with other health professionals to solve specific problems, provide services, or develop new understandings. Also covers the concepts, skills, tools, and techniques involved in the management of information system projects, providing an introduction to the established discipline of project management, with a specific focus on how they apply to managing information systems for a biomedical setting. | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BMI     | 610         | Clinical Culture and the Health Care Environment      | Designed for medical informatics students who have no significant clinical experience in the U.S. Introduces medical terminology and reviews clinical environments in which health care providers create, manage and use clinical information. Students perform observations in a variety of clinical environments.  | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): Health Informatics MAS student                |
| BMI     | 612         | Applied Data Mining                                   | Comprehensive introduction to data mining methods and algorithms used most often to analyze data collected in biomedical informatics studies, including genomics and proteomic disease association studies, clinical trials, clinical image analysis and studies of the accuracy and performance of screening and diagnostic tests. Emphasizes assessing data quality, understanding how to select an overall approach to analysis, and presenting and interpreting the results of data mining analysis. Students learn to use Excel to effectively display data collected in biomedical research studies and Weka software to analyze data using approaches that are used commonly in biomedical studies.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |

|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|--|-----------------------------|-------|-----------------|--|
| BMI     | 613         | Workflow Analysis and Redesign in Health Systems Engineering | Provides an overview of workflow analysis and process redesign and their use in quality improvement activities, including specification. Uses case examples to highlight key concepts and measurement concepts and covers techniques. Includes the links of systems engineering to fundamentals of decision theory, statistics and optimization. Includes discussion of current successful techniques for systems engineering. System engineering seeks to enable the successful design, implementation, deployment and maintenance of successful systems. Emphasizes gathering and analysis of customer needs for the specification and documentation of required functionality early in the system's lifecycle.  | N                 | LEC               | N               | GNA           | College of Health Solutions              | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BMI     | 614         | Current Perspectives in Health Informatics                   | Seminar course using external speakers to discuss and review the current state of the health informatics field.  | N                 | LEC               | N               | GNA           | College of Health Solutions              | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BMI     | 615         | Human Factors Engineering for Biomedical Applications        | Fundamental principles of human-computer interaction and human factors and how to apply them to real-world problems through class projects, homework, and real-world design. Focuses on learning why user-friendly interfaces can greatly improve work productivity and enhance the quality of healthcare without radically changing the underlying technology.  | N                 | LEC               | N               | GNA           | College of Health Solutions              | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BMI     | 616         | Clinical Decision Support and Evidence-Based Medicine        | Focuses on the major problems of human decision making in health care including causes of errors, decreased quality and increased costs. Explores the role of information technology, primarily through computer-based clinical decision support (CDS), to address these problems. Explores key methods used to provide CDS, the capabilities and limitations of current approaches, and the challenges for managing and updating the knowledge needed to deliver CDS in an enterprise setting. Origins of evidence-based decision making and policy formulation; how to use the tools and approaches that have been developed to support evidence-based decision making and policy formulation; and the history and evolution of systematic review and meta-analysis as a tool to inform decisions and policies based on evidence. Students gain hands-on experience by conducting a systematic review and a meta-analysis and using the results to draw conclusions and formulate health policy. | N                 | LEC               | N               | GNA           | College of Health Solutions              | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BMI     | 617         | Principles of Evidence-based Medicine                        | The origins of evidence-based decision making and policy formulation; how to use the tools and approaches that have been developed to support evidence-based decision making and policy formulation. The history and evolution of systematic review and meta-analysis as a tool to inform decisions and policies based on evidence. Hands-on experience by conducting a systematic review and a meta-analysis and using the results to draw conclusions and formulate policy.  | N                 | LEC               | N               | GNA           | College of Health Solutions              | College of Health Solutions | 2     |                 | Prerequisite(s): Health Informatics MAS student                |
| BMI     | 618         | Leadership and Change in Clinical Environments               | Covers core concepts related to leadership and specific methodologies used by effective leaders, including running meetings, negotiation, and conflict management. Also reviews change management as a structured approach to transitioning individuals, teams, and organizations from a current state to a desired future state. Provides exposure to various models and processes related to change management and the tradeoffs between these different approaches. Includes case examples related to health information.   | N                 | LEC               | N               | GNA           | College of Health Solutions              | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BMI     | 790         | Reading and Conference                                       | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions              | College of Health Solutions | 1-12  |                 | Prerequisite(s): Biomedical Informatics PhD student            |
| BMI     | 792         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | College of Health Solutions              | College of Health Solutions | 1-15  |                 | Prerequisite(s): Biomedical Informatics PhD student            |
| BMI     | 799         | Dissertation   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | College of Health Solutions              | College of Health Solutions | 1-15  |                 | Prerequisite(s): Biomedical Informatics PhD student            |
| BMY     | 500         | Research Methods   | Course on research methods in a specific discipline.   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences     | 1-12  |                 |  |
| BMY     | 501         | Essentials of Biomimicry                                     | Offered as a sampler of the various topics (discipline, emulate, ethos, (re)connect and iSites, human-nature connection, biomimicry yinking, and life's principles) within the discipline of biomimicry. Each week is devoted to a specific topic and is led by a different instructor. Provided a basic overview of each aspect of the discipline with ample opportunity for conversation and dialogue around the specific components, with an understanding that greater depth into each topic can be learned by taking the advanced BMY courses.  | N                 | LEC               | N               | OP2           | The College of Liberal Arts and Sciences | School of Life Sciences     | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                 | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                                  | Department              | Units | General Studies | Requirements  |
|---------|-------------|------------------------------|---|-------------------|-------------------|-----------------|---------------|--|-------------------------|-------|-----------------|---|
| BMY     | 502         | Life's Principles            | Life's principles are nature's universal design guidelines based on 3.8 billion years of successful strategies across all life. With instruction by Dr. Dayna Baumeister, this 16-week online course takes participants on a deep dive of life's principles, including the review and study of life's operating conditions, the six primary principles and their related sub-principles. Gives participants the experience necessary to bring these design guidelines into practice.  | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | School of Life Sciences | 4     |                 | Pre- or corequisite(s): Biomimicry MS or Biomimicry certificate student; BMY 501  |
| BMY     | 503         | Biology Taught Functionally  | Biomimicry teaches biology through the lens of function, thereby providing a core understanding in biology for all students, no matter their background. Explores how biologists gather and research information and how that knowledge can inform other disciplines. Also introduces the art of translating biological concepts into strategies for application, which is then carried throughout all the courses. Students learn how to work with biologists on a biomimicry team and how to weave biology and biomimicry together. The biologists in the cohort not only learn to look at nature through the function lens, but also act as subject matter experts for their interdisciplinary teams and teaching assistants.  | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | School of Life Sciences | 4     |                 | Pre- or corequisite(s): Biomimicry MS or Biomimicry certificate student; BMY 501  |
| BMY     | 504         | Biomimicry Thinking          | Biomimicry thinking is the practice of biomimicry from a methodology-based approach. It is a 15-week intensive in the methodology of biomimicry that reviews how biology and biomimicry can be incorporated into the four major phases of any design process: scoping, discovering, creating and evaluating. Covers the art of translating biological concepts into strategies for application and building a taxonomy of design principles.  | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | School of Life Sciences | 4     |                 | Prerequisite(s): Biomimicry MS student or Biomimicry certificate student; Pre- or corequisite(s): BMY 501   |
| BMY     | 511         | Biomimicry and Design        | Biomimicry is innovation inspired by nature, or the conscious emulation of nature's genius. Prepares participants to design sustainable innovations using the biomimicry philosophy and methodology. Participants complete a 16-week series of lectures and assignments to demystify the design thinking process, understand how to harness the potential of approaching challenges with a design mind, distill a design challenge, understand user needs, build a bridge between biology and design, use a methodology for discovering models from nature, abstract design principles from bio-inspired strategies, and translate those principles into sustainable innovations. Participants both with a design background and without equally experience a deep immersion into the world of biomimetic design. | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Pre- or corequisite(s): Biomimicry MS student; BMY 501  |
| BMY     | 512         | Biomimicry and Engineering   | Prepares participants to understand the field of engineering; identify the types of engineers and what each one does; what constrains engineers' work under, materials selected by engineers, how to present biological ideas to engineers and how to integrate ideas from their discipline into sustainable engineering designs using biomimicry principles. Most examples used are of large engineered structures. These structures play critical functions in human systems, have a significant impact on the environment and last for over a 100 years, so it is important to imbed as much sustainability into their design as possible. Requires a final team project designed to put these ideas into practice.  | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Pre- or corequisite(s): Biomimicry MS student; BMY 501  |
| BMY     | 516         | Biomimicry and Business      | Addresses business topics from the biomimicry point of view; explains mechanisms and tools for comparing and contrasting business and nature. Challenges participants to question conventional ways of conducting business and come up with new approaches based on a different point of view. Recommend BMY 502 and BMY 504 to be successful in this course.   | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Pre- or corequisite(s): Biomimicry MS student; BMY 501  |
| BMY     | 517         | Human-Nature Connection      | Grounds the emerging discipline of biomimicry as a continuation of our ancestral connection with nature. Human-Nature Connection (HNC) engages participants in an exploration of the meaning and value of connecting with nature. Topics include defining humans, nature, and our connection with nature; establishing the evolutionary, personal, and socio-cultural influences on the different expressions of this connection; and illustrating the relevance of biomimicry to the human-nature connection.  | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | School of Life Sciences | 2     |                 | Pre- or corequisite(s): Biomimicry MS student; BMY 501  |
| BMY     | 530         | Virtual Design Lab Practicum | Practicum designed to allow participants to dive deep into the biomimicry tools and resources presented during the program and to apply them selectively to a specific and unique opportunity of the student's choosing. Projects should have a meaningful outcome achievable within the semester, and should engage the scoping, discovering, creating and evaluating phases of biomimicry thinking. Deliverables are milestone based, and the final deliverable should have application in a real-world setting.  | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | School of Life Sciences | 2     |                 | Prerequisite(s): BMY 501; BMY 502; BMY 503; BMY 504; Biomimicry MS student with minimum 20 hours or Biomimicry Certificate student with minimum 13 hours; Pre- or corequisite(s): Biomimicry MS or Biomimicry Certificate student |
| BMY     | 580         | Practicum                    | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | N                 | LEC               | Y               | GNA           | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): Biomimicry MS student; BMY 501; BMY 502; BMY 503; BMY 504  |
| BMY     | 583         | Fieldwork                    | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 |   |
| BMY     | 584         | Internship                   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| BUS     | 591         | Seminar                         | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business            | Prebusiness Office                       | 0.5-12 |                 | Prerequisite(s): W.P. Carey degree-seeking graduate student    |
| BUS     | 592         | Research                        | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business            | Prebusiness Office                       | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BUS     | 593         | Applied Project                 | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business            | Prebusiness Office                       | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BUS     | 594         | Conference and Workshop         | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business            | Prebusiness Office                       | 0.5-12 |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BUS     | 595         | Continuing Registration         | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | W.P. Carey School of Business            | Prebusiness Office                       | 1      |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BUS     | 598         | Special Topics                  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business            | Prebusiness Office                       | 1-4    |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BUS     | 599         | Thesis                          | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | W.P. Carey School of Business            | Prebusiness Office                       | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BUS     | 690         | Reading and Conference          | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business            | Prebusiness Office                       | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BUS     | 692         | Research                        | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business            | Prebusiness Office                       | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BUS     | 695         | Continuing Registration         | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | W.P. Carey School of Business            | Prebusiness Office                       | 1      |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BUS     | 700         | Research Methods                | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | W.P. |---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|--|---|-------|-----------------|--|
| CBS     | 592         | Research                                 | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CBS     | 595         | Continuing Registration                  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | The College of Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CBS     | 598         | Special Topics                           | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CDE     | 191         | First-Year Seminar                       | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics    | 1-3   |                 | Pre-requisites: Freshman Standing; Maximum 25 hours  |
| CDE     | 232         | Human Development                        | Lifespan development from conception through adulthood, with emphasis on family influences. Recognition of individuality within the universal pattern of development.   | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts        | 3     | SB              |  |
| CDE     | 232         | Human Development                        | Lifespan development from conception through adulthood, with emphasis on family influences. Recognition of individuality within the universal pattern of development.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics    | 3     | SB              |  |
| CDE     | 244         | Children Facing Health Care Challenges   | Provides a comprehensive introduction to family-centered care, psychosocial assessment of the hospitalized and chronically ill child, and techniques to support their coping. Utilizes the principles/theories of child development, and introduces the role of a child-life specialist in the promotion of effective coping through play, preparation and education among children, youth and families facing challenges related to health care and hospitalization.   | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics    | 3     |                 | Credit is allowed for only CDE 244 or CDE 294 (Children Facing Health Care Challenges)   |
| CDE     | 294         | Special Topics                           | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics    | 1-4   |                 |  |
| CDE     | 312         | Adolescence                              | In-depth examination of the developmental and social processes that help explain modern adolescence.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics    | 3     | SB              | Prerequisite(s): Minimum 24 hours; SOC 101, PSY 101(PGS 101), FAS 101 or FAS 330 with C or better; Credit is allowed for only CDE 312 or SOC 312   |
| CDE     | 337         | Early Childhood Intervention             | Explores how child development theory affects practice with children and families, emphasizing development of young children and early intervention.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics    | 3     |                 |  |
| CDE     | 338         | Child Development Practicum              | Supervised practicum in the Child Development Lab preparing students for work in child care centers and agencies serving young children and families.   | N                 | PRA               | Y               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics    | 2-4   |                 | Prerequisite(s): minimum 45 hours  |
| CDE     | 350         | Inequality and Diversity in Education    | Advanced exploration of various dimensions of diversity in relation to educational systems and outcomes. Through sociological and psychological research, case studies and films, students examine how educational inequality is created and reproduced through individual actions and institutional constraints. Also considers the connection between schooling and human rights and ways in which educational inequality may be addressed.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics    | 3     | L & C           | Prerequisite(s): APA 200, AFR 212 (or AFS 210), APA 210, CDE 232, JUS 210, TCL 210 or minimum 30 hours; Credit allowed for only AFR 350 (or AFS 350), APA 350, CDE 350, JUS 365, SOC 350, TCL 360 or AFS/APA/CED/TCL 394 (Inequality & Diversity in Education) |
| CDE     | 356         | Race and Child Development               | Reviews the current research and literature about the particular role of race in child development. Even though race is not a valid biological construct, it has significant social implications as it shapes how children interact and are treated by others. Through primarily class discussions/activities, presentations and papers, addresses: (1) What are the research and theoretical issues in studying race? (2) What does race and racism mean? (3) How does race influence developmental processes? | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics    | 3     |                 | Prerequisite(s): APA 200 or APA 210 or 30 hours. Credit is allowed for only APA 356 or CDE 356 or APA 394 (Race and Child Development)   |
| CDE     | 394         | Special Topics                           | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics    | 1-4   |                 |  |
| CDE     | 418         | Aging and the Life Course                | Examines aging as a process of change and adaptation over the lifespan, patterned by social, cultural, and historical forces.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics    | 3     | SB & H          | Prerequisite(s): FAS 101, 330, PGS 101 or SOC 101 with C or better; minimum 30 hours; Credit is allowed for only CDE 418 or SOC 418  |
| CDE     | 418         | Aging and the Life Course                | Examines aging as a process of change and adaptation over the lifespan, patterned by social, cultural, and historical forces.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences             | School of Social and Behavioral Sciences        | 3     | SB & H          | Prerequisite(s): FAS 101, 330, PGS 101 or SOC 101 with C or better; minimum 30 hours; Credit is allowed for only CDE 418 or SOC 418  |
| CDE     | 430         | Infant/Toddler Development in the Family | Examines the development of infants/toddlers, the socialization processes of families, and the interactions of these processes.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics    | 3     | SB              |  |
| CDE     | 450         | Child Dysfunction in the Family          | This course will provide a focused study of the development of dysfunction within the family context. Other contextual influences will also be considered.  | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts        | 3     |                 | Prerequisite(s): CDE 232, PGS 101, or SOC 101 with C or better; minimum junior standing  |

| CDE     | 501         | Social Statistics  | Understands and uses statistics for applications in the social sciences.  | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Prerequisite(s): Degree- or Nondegree-seeking graduate; Credit is allowed for only CDE 501, SOC 501 or SOC 598 (Statistics for Social Sciences) |
| CDE     | 531         | Theoretical Issues in Child Development                                  | Major developmental theories, related research, and their application to family interaction.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 533         | Research Issues in Child Development                                     | In-depth exploration and critique of research focusing on child development in a family setting.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 534         | Risk and Resilience in Children and Adolescents                          | Integrates child development, family theory, and research to understand risk and resilience in children and adolescents.  | N                 | SEM               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisites: CDE 531; FAS 500  |
| CDE     | 570         | Child Development for Infant Family Practice                             | Examines development during infancy and early childhood with an emphasis on social and emotional development, mental health, and early parent-child relationships.  | N                 | SEM               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-IFP student  |
| CDE     | 571         | Infant Mental Health for Infant Family Practice                          | Surveys the biological and environmental risk factors that jeopardize the mental health of infants and young children; overview of prevention and intervention strategies.  | N                 | SEM               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-IFP student  |
| CDE     | 572         | Assessment of Infants, Toddlers, and Families for Infant Family Practice | Developmentally appropriate assessment of mental disorders and developmental disabilities in infants, toddlers, and preschool children and parent-child relationships.  | N                 | SEM               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-IFP student  |
| CDE     | 573         | Cultural Competence for Infant Family Practice                           | Examines cultural issues impacting parent-child relationships and child rearing and the effectiveness of infant mental health and early intervention services on families of various ethnic and cultural backgrounds.   | N                 | SEM               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-IFP student  |
| CDE     | 574         | Observation and Reflection for Infant-Family Practice                    | Strategies for observing infant behavior and parent-child relationships and skills for reflective, relationship-based intervention.   | N                 | SEM               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-IFP student  |
| CDE     | 575         | Advanced Observation and Reflection for Infant-Family Practice           | Advanced strategies for observing infant behavior and parent-child relationships and skills for reflective relationship-based intervention.   | N                 | SEM               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-IFP student  |
| CDE     | 576         | Applied Research Methods for Infant Family Practice                      | Survey and critical examination of child development, parent-child relationships, family relationships, and early intervention research and the application to IFP.   | N                 | SEM               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-IFP student  |
| CDE     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 590         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 593         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 594         | Conference and Workshop  | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 595         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | LEC               | Y               | Z3            | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics       | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CDE     | 799         | Dissertation                                    | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics       | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CDH     | 501         | Digital Humanities: Critical Theory and Methods | Digital technologies are now intricately woven into our lives--whether it's in terms of authoring a paper in a text editor, sending texts and emails, or doing data analysis. Popular narratives of the "big" and the "new" celebrate and sometimes bemoan the ways that these tools shape our communication, access to information, habits and even our physical bodies. Focuses on the histories of these technologies, their operations, popular conceptions about such tools, and their affordances and limits for humanities scholarship. Students learn how to leverage digital technologies, but also how to critically read them. Broad ranging; in addition to surveying the "big tent," students are encouraged to utilize their final projects to engage with specific disciplinary digital tools and methods relevant to their scholarly work. | N                 | LEL               | N               | OPT           | The College of Liberal Arts and Sciences | Historical, Philosophical & Religious Studies, Sch | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CDH 501 or HST 504 or REL 504 |
| CDH     | 580         | Practicum                                       | Structured practical experience in a professional program, supervised by a practitioner or faculty member with whom the student works closely.   | Y                 | PRA               | Y               | OPT           | The College of Liberal Arts and Sciences | Historical, Philosophical & Religious Studies, Sch | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CDH     | 584         | Internship                                      | Structured practical experience that follows a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | The College of Liberal Arts and Sciences | Historical, Philosophical & Religious Studies, Sch | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CDH     | 593         | Applied Project                                 | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | LEC               | Y               | Z1            | The College of Liberal Arts and Sciences | Historical, Philosophical & Religious Studies, Sch | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CDH     | 598         | Special Topics                                  | Topical courses not offered in regular course rotation (e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand).  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Historical, Philosophical & Religious Studies, Sch | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CED     | 191         | First-Year Seminar                              | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.   | Y                 | SEM               | Y               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts           | 1-3   |                 |  |
| CED     | 194         | Special Topics                                  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts           | 1-4   |                 |  |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                                   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                                  | Department                               | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|--|--|-------|-----------------|---|
| CED     | 498         | Pro-Seminar                                    | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | SEM               | Y               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 1-7   |                 |   |
| CED     | 499         | Individualized Instruction                     | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 1-3   |                 |   |
| CED     | 500         | Research Methods                               | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CED     | 501         | Intro to Research and Evaluation in Counseling | Introduction to the basic models of research and evaluation in the field of counseling.   | N                 | LEC               | N               | GNA           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking).; Credit is allowed for only CED 501 or 591 (Res. & Eval. in Counseling)                                  |
| CED     | 502         | Counseling Research Data Analysis              | Descriptive statistics, visual approaches, estimation, and inferential methods for univariate and bivariate counseling research problems using statistical software.  | N                 | LEC               | N               | GNA           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only CED 502 or CED 591 ( Counseling Research Data Analysis)                                      |
| CED     | 522         | Theories of Counseling and Psychotherapy       | Presents major theories of psychological intervention as well as underlying personality theory upon which they are based.   | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: Counseling MC or MED student OR Counseling Psychology PhD student  |
| CED     | 523         | Psychological Tests                            | Standardized tests in the study of the individual, with emphasis on test score interpretation in counseling.  | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student  |
| CED     | 525         | Evaluation of Learning Systems                 | Examines procedures for evaluating educational programs, training systems and new-technology applications. Focuses on basic evaluation concepts, steps in conducting a systematic evaluation project, the preparation of an evaluation report, as well as ethical issues.   | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): EDP 540 or EDT 501 or EDT 502; degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate; Credit is allowed for only CED 525 or EDT 506 |
| CED     | 527         | Prevention and Consultation                    | Community focus with emphasis on outreach, prevention, psychoeducation, consulting, and advocacy from a systematic multicultural perspective.   | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: Counseling MC or MED student OR Counseling Psychology PhD student  |
| CED     | 528         | School Counseling                              | Introduces counseling within multicultural settings. Emphasizes counseling, consultation, and coordination skills needed for schools' comprehensive developmental guidance programs.  | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: Counseling MC or MED student OR Counseling Psychology PhD student  |
| CED     | 529         | Lifespan Human Development                     | Issues and models of human development as it occurs across the lifespan.  | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CED     | 534         | Occupations and Careers                        | The world of work, career development, education, and training for occupational entry and mobility.   | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |
| CED     | 545         | Analysis of the Individual                     | Theory and methods commonly used in studying the individual. Observational methods, diagnostic interviews, structured, and semi-structured methods for assessing personality.   | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: Counseling MC or MED student OR Counseling Psychology PhD student  |
| CED     | 567         | Group Dynamics and Counseling                  | Group process factors, theory, and diversity issues determining effective interaction in small groups. Emphasis placed on lecturettes, self awareness, and experiential components.   | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: Counseling MC or MED student OR Counseling Psychology PhD student  |
| CED     | 577         | Counseling Prepracticum                        | Focus on racial, social, and cultural factors in the development of helping relationships through integration of cognitive and affective self-awareness with counseling skills.   | N                 | LEC               | N               | YGB           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): Counseling MC or Counseling Psychology PhD student   |
| CED     | 580         | Practicum                                      | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |
| CED     | 583         | Fieldwork                                      | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |
| CED     | 584         | Internship                                     | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |
| CED     | 590         | Reading and Conference                         | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |
| CED     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |
| CED     | 592         | Research                                       | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |

| CED     | 799         | Dissertation                                   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts         | 1-15  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |
| CEE     | 181         | Technological, Social, and Sustainable Systems | Introduces the importance and role of technological, social, and sustainable systems in the modern world. Provides a framework for the theory and practice of sustainable engineering.                           | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Civil, Environmental and Sustainable Eng Program | 3     | HU              | Credit is allowed for only CEE 181, FSE 181, or SOS 181   |
| CEE     | 191         | First-Year Seminar                             | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended. | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering                | Civil, Environmental and Sustainable Eng Program | 1-3   |                 |   |
| CEE     | 194         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering                | Civil, Environmental and Sustainable Eng Program | 1-4   |                 |   |
| CEE     | 210         | Engineering Mechanics I: Statics               | Force systems, resultants, equilibrium, distributed forces, area moments, fluid statics, internal forces, friction, and stability.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): FSE 100 with C or better; MAT 266 or 271 with C or better; PHY 121 with C or better; PHY 122 with C or better; Credit is allowed for only CEE 210 or CNE 210   |
| CEE     | 212         | Engineering Mechanics II: Dynamics             | Kinematics and kinetics of particles, translating and rotating coordinate systems, rigid body kinematics, dynamics of systems of particles and rigid bodies, and energy and momentum principles.                 | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): CEE 210 or CNE 210 with C or better; MAT 274 or 275 with C or better; Credit is allowed for only CEE 212 or CNE 212  |
| CEE     | 213         | Introduction to Deformable Solids              | Strain-displacement and stress-strain-temperature relations. Stresses and deformations due to axial, shear, torsional and bending moments. Buckling, stability.  | N                 | LEC               | N               | OPT           | Ira A. | CEE     | 281         | Surveying                                      | Theory and fieldwork in construction and land surveys.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): MAT 170 or higher with C or better; Credit is allowed for only CEE 281, CNE 241 or CON 241   |
| CEE     | 294         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering                | Civil, Environmental and Sustainable Eng Program | 1-4   |                 |   |
| CEE     | 300         | Engineering Business Practice                  | Engineering economic principles, cost/benefit analysis, project financing and delivery, management of engineering design, business practices, ethical and professional responsibilities.                         | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Civil, Environmental and Sustainable Eng Program | 3     | L               | Prerequisite(s): Engineering BSE major; minimum junior standing; MAT 267 with C or better   |
| CEE     | 321         | Structural Analysis and Design                 | Statically determinate and indeterminate structures (trusses, beams, and frames) by classical and matrix methods. Introduces structural design.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Civil, Environmental and Sustainable Eng Program | 4     |                 | Prerequisite(s): Civil Engineering BSE or Construction Engineering BSE major; CEE 212 or CNE 212 or MAE 212; CEE 213 or CNE 213 with C or better; Credit is allowed for only CEE 321 or CNE 321   |
| CEE     | 341         | Fluid Mechanics for Civil Engineers            | Fundamental principles and methods of fluid mechanics forming the analytical basis for water resources engineering. Conduit and open channel flow.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Civil, Environmental and Sustainable Eng Program | 4     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 212 with C or better; CEE 213 with C or better OR Environmental Engineering BSE major; EVE 214 with C or better; Pre- or corequisite(s): CEE 384 or MAE 384 with C or better if completed                   |
| CEE     | 351         | Geotechnical Engineering                       | Index properties and engineering characteristics of soils. Compaction, permeability and seepage, compressibility and settlement, and shear strength.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Civil, Environmental and Sustainable Eng Program | 4     |                 | Prerequisite(s): CEE 213 or CNE 213 with C or better; Civil Engineering BSE major or Construction Engineering BSE major; Credit is allowed for only CEE 351 or CNE 351  |
| CEE     | 353         | Civil Engineering Materials                    | Structure and behavior of civil engineering materials, including steel, aggregate, concrete, masonry, asphalt, wood, composites. Atomic structure and engineering applications.                                  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Civil, Environmental and Sustainable Eng Program | 4     |                 | Prerequisite(s): Civil Engineering or Construction Engineering or Environmental Engineering BSE major; CEE 213 or CNE 213 with C or better; Credit is allowed for only CEE 353 or CNE 353   |
| CEE     | 361         | Introduction to Environmental Engineering      | Concepts of air and water pollution; environmental regulation, risk assessment, chemistry, water quality modeling, water and wastewater treatment systems designs.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Civil, Environmental and Sustainable Eng Program | 4     |                 | Prerequisite(s): Fulton Engineering undergraduate student; CEE 213 with C or better; CHM 114 or CHM 116; Pre- or corequisite(s): IEE 380  |
| CEE     | 372         | Transportation Engineering                     | Fundamental background of highway and traffic engineering in the areas of planning, design, and operations.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE student; CEE 213 with C or better; Pre- or corequisite(s): IEE 380   |
| CEE     | 384         | Numerical Methods for Engineers                | Numerical methods and computational tools for selected problems in engineering.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Civil, Environmental and Sustainable Eng Program | 3     | CS              | Prerequisite(s): Fulton Engineering undergrad; MAT 274 or 275 with C or better; MAT 242 or 343 (or 342 for non-MAE student) with C or better; Pre- or corequisite(s): MAT 267 or 272 with C or better if complete; Credit allowed for only MAE 384 or CEE 384 |
| CEE     | 394         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering                | Civil, Environmental and Sustainable Eng Program | 1-4   |                 |   |
| CEE     | 400         | Earth Systems Engineering and Management       | Introduces earth systems engineering and management, and the technological, economic and cultural systems underlying the terraformed Earth.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Civil, Environmental and Sustainable Eng Program | 3     | (L or HU) & H   | Prerequisite(s): Civil Engineering BSE major; CEE 300 with C or better OR non-CEE; minimum junior standing; Credit is allowed for only CEE 400 or CNE 400   |
| CEE     | 412         | Pavement Analysis and Design                   | Design of flexible and rigid pavements for highways and airports. Surface, base, and subgrade courses. Cost analysis and pavement selection.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 351 with C or better; CEE 353 with C or better; Credit is allowed for only CEE 412 or 511   |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title  | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                                       | Units | General Studies | Requirements  |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|---|
| CEE     | 420         | Steel Structures  | Behavior of structural components and systems. Design of steel members and connections. Load and resistance factor design methods.   | N                 | LEC               | N               | OPT           | Ira A. | CEE     | 440         | Hydrology   | Descriptive and quantitative hydrology; hydrologic cycle, models, and systems. Rain-runoff models. Hydrologic design. Concepts, properties, and basic equations of groundwater flow. Emphasizes quantitative methods.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): CEE 341 or MEE 340 or GLG 362 with C or better; Credit is allowed for only CEE 440 or CEE 545 or CEE 598 (Hydrology) or GLG 471 or GLG 490 (Hydrology)   |
| CEE     | 441         | Water Resources Engineering                             | Applies the principles of hydraulics and hydrology to the engineering of water resources projects; design and operation of water resources systems; water quality.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major or Environmental Engineering BSE major; CEE 341 with C or better   |
| CEE     | 452         | Foundations   | Applies soil mechanics to foundation and retaining wall systems, including bearing capacity, settlement, and lateral earth pressure.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major or Construction Engineering major; CEE 351 or CNE 351 with C or better; Credit is allowed for only CEE 452 or CNE 452  |
| CEE     | 462         | Unit Operations in Environmental Engineering            | Design and operation of unit processes for water and wastewater treatment.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 361 with C or better OR Environmental Engineering BSE major; EVE 302 with C or better   |
| CEE     | 466         | Urban Water System Design                               | Capacity; planning and design of water supply; domestic and storm drainage; and solid waste systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 341 with C or better; CEE 361 with C or better OR Environmental Engineering BSE major; CEE 341 with C or better; EVE 261 with C or better   |
| CEE     | 467         | Environmental Microbiology                              | Overview of the microbiology of natural and human-impacted environment, microbial detection methodologies, waterborne disease outbreaks, risk assessment, and regulations.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 361 or MIC 220 with C or better OR Environmental Engineering BSE major; EVE 303 with C or better; Credit is allowed for only CEE 467 or CEE 567   |
| CEE     | 470         | Sustainable Environmental Biotechnologies               | Introduces principles of green chemistry and green engineering and their integration in the design of sustainable bioengineering and biotechnology applications that protect environmental quality and human health.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisites: CEE 361; Credit is allowed for only CEE 470, 494 (Sustainable Environmental Biotechnologies), 570 or 598 (Sustainable Environmental Biotechnologies)  |
| CEE     | 474         | Transportation Systems Planning                         | Transportation systems modeling procedures, travel characteristics analysis, traffic predictions, transportation systems management, and transit planning methods.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 372 with C or better; CEE 384 with C or better  |
| CEE     | 475         | Highway Geometric Design                                | Design of visible elements of roadway, design controls, at-grade intersections, freeways, and interchanges.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 372 with C or better; Credit is allowed for only CEE 475 or CEE 576   |
| CEE     | 481         | Civil Engineering Project Management                    | Civil engineering project management and administration, planning and scheduling, cost estimating and bidding strategies, financial management, quality control and safety, and computer applications.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 321 with C or better; CEE 351 with C or better; CEE 372 with C or better; Credit is allowed for only CEE 481 or CEE 585   |
| CEE     | 483         | Highway Materials, Construction, and Quality            | Properties of highway materials, including aggregates, asphalt concrete, and portland cement concrete; construction practice; material delivery, placement, and compaction; quality control.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 351 with C or better; CEE 372 with C or better; CEE 353 with C or better; Credit is allowed for only CEE 483 or CEE 583   |
| CEE     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 1-12  |                 |   |
| CEE     | 485         | Sustainable Civil and Environmental Systems Engineering | Provides working knowledge of operations research methodologies, both the traditional and more modern metaheuristic techniques, to evaluate sustainable civil engineering systems and quantitatively evaluate project alternatives involving single or multiple goals. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 300; MAT 242 with C or better   |
| CEE     | 486         | Integrated Civil Engineering Design                     | Requires completion of a civil engineering design in a simulated practicing engineering environment. Limited to undergraduates in their final semester.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 4     | L               | Prerequisite(s): Civil Engr major; CEE 321; CEE 341; CEE 351; CEE 353; CEE 361; CEE 372 OR Construction Engr major; CEE 321 or CNE 321; CEE 351 or CNE 351 OR Environmental Engr major; CEE 351; CEE 353; Credit is allowed for only CEE 486 or CNE 486 |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                                       | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|---|
| CEE     | 492         | Honors Directed Study                                    | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| CEE     | 493         | Honors Thesis  | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 1-6   | L               | Pre-requisite: Barrett Honors Engineering student   |
| CEE     | 494         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 1-4   |                 |   |
| CEE     | 498         | Pro-Seminar  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 1-7   |                 |   |
| CEE     | 499         | Individualized Instruction                               | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 1-3   |                 |   |
| CEE     | 502         | Front-End Planning                                       | Principles and applications for effective early planning of capital facilities, including: finance, economics decision making, risk management, team alignment and front-end planning processes and tools.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): graduate Civil Engineering or Construction Engineering student; Credit is allowed for only CEE 502 or CON 502 or CON 598 (Front End Planning) or CEE 598 (Front End Planning)  |
| CEE     | 506         | Life Cycle Assessment for Civil Systems                  | Covers fundamental and advanced concepts of the life cycle assessment framework exploring products, services, activities and infrastructure systems. Examines key concepts for system boundary selection, functional unit selection, inventorying, impact assessment and interpretation stages with a focus on energy and environmental assessment. Advanced concepts include allocation of effects, problem formulation for assessing footprints versus decisions or policies, and assessment of infrastructure interdependencies and supply chains. Exposes tools and data sources and presents approaches for evaluation of sensitivity and uncertainty of results. Encourages students with broad sustainability interests to enroll and explore how life cycle assessment can aid their work by shifting their views from direct to cradle-to-grave effects. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only CEE 506 or CEE 598 (Lifecycle Assessment) or SOS 546 or SOS 598 (Lifecycle Assessment)   |
| CEE     | 507         | Urban Infrastructure Anatomy and Sustainable Development | Understanding how built environment infrastructure systems interact with ecosystem services is critical for policies and decisions directing urban sustainability. Brings together students from several disciplines to develop a semester-long research project focused on a particular urban sustainability problem in Phoenix. During the semester, students are given background on how infrastructure systems work and are interdependent, and explore tools and methods for urban sustainability assessment with peers from several disciplines. As a class, students evaluate a particular urban sustainability problem for Phoenix, interact with local policy and decision makers in developing solutions, and present their findings at the end of the semester to the ASU community.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): degree-or nondegree-seeking graduate. Credit for only CEE 507 or 598(Urban Infrastruct Anatomy/Sustainable Dev) or PUP553 or 598(Urban Infrastruct Anatomy/Sustainable Dev) or SOS547 or SOS598 (Urban Infrastr Anatomy & Sustain Dev) |
| CEE     | 511         | Pavement Analysis and Design                             | Design of flexible and rigid pavements for highways and airports. Surface, base, and subgrade courses. Cost analysis and pavement selection.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering or Construction Engineering graduate student; Credit is allowed for only CEE 412 or CEE 511  |
| CEE     | 512         | Pavement Performance and Management                      | Pavement management systems, including data collection, evaluation, optimization, economic analysis, and computer applications for highway and airport design.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering or Construction Engineering graduate student   |
| CEE     | 513         | Pavement Evaluation, Maintenance, and Rehabilitation     | Provides the necessary information for pavement engineers to evaluate, identify, and select reliable and cost-effective rehabilitation alternatives for existing Hot Mix Asphalt (HMA) and Portland Cement Concrete (PCC) pavements.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Civil, Environmental, and Sustainable Engineering Graduate student   |
| CEE     | 514         | Bituminous Materials and Mixture                         | Types of bituminous materials used in pavement mixtures. Chemical composition, physical properties, desirable aggregate characteristics, optimum asphalt contents, superpave asphalt binder, mixture design.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Graduate Civil Engineering student   |
| CEE     | 515         | Properties of Concrete                                   | Materials science of concrete. Cement chemistry, mechanisms of hydration, interrelationships among micro- and macro-properties of cement-based materials. Mechanical properties, failure theories, fracture mechanics of concrete materials. Cement-based composite materials and the durability aspects.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Engineering CEE or Construction Engineering graduate student   |
| CEE     | 516         | Sustainable Energy and Material Use                      | Sustainable engineering; overall energy needs and impacts; thermodynamics, heat transfer, and fluid mechanisms; atmospheric energy systems; field investigation; current and future urban energy systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Civil, Environmental, and Sustainable Engineering Graduate student   |
| CEE     | 521         | Stress Analysis  | Introduces tensors: kinematics, stress analysis, and constitutive assumptions leading to elastic and plastic behavior. Strain energy and energy methods; applications.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Engineering CEE or Construction Engineering graduate student; Credit is allowed for only CEE 521 or MAE 520  |

ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                                     | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                                       | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|---|
| CEE     | 522         | Experimental Stress Analysis                     | Specification and analysis of stress and strain at a point, stress-strain relationships. Mechanical, optical, and electrical strain gages and circuits, digital data acquisition and analysis, closed loop mechanical testing, fracture mechanics, optical methods and photoelasticity, and introduction to nondestructive testing.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Engineering CEE or Construction Engineering graduate student   |
| CEE     | 523         | Structural Damage                                | Fundamental mechanisms of damage in infrastructural materials from both imposed mechanical and environmental loading. Covers assessment of damage through noninvasive tools involving stress-wave, electrical, electro-chemical, radiographic and optical techniques. Methods for strengthening of structural elements and selected methods of design of strengthening systems for concrete and steel structures. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): graduate Civil or Construction Engineering student; Credit is allowed for only CEE 523 or CEE 598 (Structural Damage Evaluation and Strengthening)   |
| CEE     | 526         | Finite Elements for Engineers                    | Direct stiffness, method of weighted residuals, weak formulation, and variational techniques in the solution of engineering problems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): graduate Engineering student; APM 505 or MAE 501 with C or better; Credit is allowed for only CEE 526 or MAE 527   |
| CEE     | 527         | Advanced Concrete Structures                     | Ultimate strength design. Combined shear and torsion. Serviceability. Plastic analysis. Special systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Engineering CEE or Construction Engineering graduate student   |
| CEE     | 530         | Prestressed Concrete                             | Materials and methods of prestressing. Analysis and design for flexure, shear, and torsion. Prestress losses due to friction, creep, shrinkage, and anchorage set. Statically indeterminate structures. Design of flat slabs, bridges, and composite beams.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Engineering CEE or Construction Engineering graduate student   |
| CEE     | 532         | Developing Software for Engineering Applications | Fundamentals of engineering software development and object-oriented programming. Programming in C++. Development of matrix toolbox. Introduces finite element method. Computer graphics.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Engineering CEE or Construction Engineering graduate student; Credit is allowed for only CEE 432 or CEE 532  |
| CEE     | 533         | Structural Optimization                          | Linear and nonlinear programming. Problem formulation. Design sensitivity analysis. FEM-based optimal design of structural and mechanical systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student   |
| CEE     | 536         | Structural Dynamics for Civil Engineering        | Free vibration and forced response of discrete and continuous systems, exact and approximate methods of solution, response spectra, computational techniques, special topics.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Construction Engineering or Engineering CEE graduate student   |
| CEE     | 540         | Groundwater Hydrology                            | Physical properties of aquifers, well pumping, subsurface flow modeling, unsaturated flow, numerical methods, land subsidence, and groundwater pollution.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student   |
| CEE     | 541         | Surface Water Hydrology                          | Hydrologic cycle and mechanisms, including precipitation, evaporation, and transpiration; hydrograph analysis; flood routing; statistical methods in hydrology and hydrologic design.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student   |
| CEE     | 543         | Water Resources Systems                          | Theory and application of quantitative planning methodologies for the design and operation of water resources systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student   |
| CEE     | 545         | Hydrology  | Descriptive and quantitative hydrology; hydrologic cycle, models and systems. Rain-runoff models. Hydrologic design. Concepts, properties and basic equations of groundwater flow. Emphasizes quantitative methods.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil, Environmental and Sustainable Engineering MS, MSE or PhD major; Credit is allowed for only CEE 440 or CEE 545 or CEE 598 (Hydrology) or GLG 471 or GLG 490 (Hydrology)                  |
| CEE     | 546         | Advanced Watershed Hydrology                     | Watershed processes leading to runoff generation and the transformation of meteorological forcing through a hydrologic system. Emphasizes physical mechanisms and their treatment in numerical models. Quantification of uncertainty in hydrological modeling through probabilistic methods. Provides hands-on experience with data analysis and hydrologic models.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CEE 546 or GLG 546 or GLG 598 (Advanced Watershed Hydrology)   |
| CEE     | 549         | Ecohydrology of Semiarid Landscapes              | Interactions between terrestrial plants and limiting resources in arid and semiarid environments. Temporal and spatial aspects of plant-water relations. Process-oriented discussion and examples using simple and complex numerical models. Provides experience with data analysis and instrumentation.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CEE 549 or CEE 598 (Ecohydrology of Semiarid Landscapes) or GLG 549 or GLG 598 (Ecohydrology of Semiarid Landscapes) |
| CEE     | 550         | Soil Behavior                                    | Physicochemical aspects of soil behavior, stabilization of soils, and engineering properties of soils.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Engineering CEE or Construction Engineering graduate student   |
| CEE     | 551         | Advanced Geotechnical Testing                    | Odometer, triaxial (static and cyclic) back pressure saturated and unsaturated samples, pore pressure measurements, closed-loop computer-controlled testing, in-situ testing, and sampling.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Engineering CEE or Construction Engineering graduate student   |
| CEE     | 552         | Soil Improvement                                 | Physical, chemical and biological methods for improving (modifying) the properties of the ground for engineering purposes; the applicability of these techniques to different ground conditions (e.g., sand, silt, clay) and design objectives (e.g., erosion control, stability, liquefaction mitigation); design of ground improvement programs for common ground modification techniques used in practice.     | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): graduate Civil Engineering student; Credit is allowed for only CEE 552 or CEE 598 (Soil Improvement)   |
| CEE     | 553         | Advanced Soil Mechanics                          | Applies theories of elasticity and plasticity to soils, theories of consolidation, failure theories, and response to static and dynamic loading.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Engineering CEE or Construction Engineering graduate student   |
| CEE     | 554         | Shear Strength and Slope Stability               | Shear strength of saturated and unsaturated soils strength-deformation relationships, time-dependent strength parameters, effects of sampling, and advanced slope stability.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Engineering CEE or Construction Engineering graduate student   |

| Subject | Catalog Nbr | Course Title                                      | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                                       | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|--|
| CEE     | 555         | Advanced Foundations                              | Deep foundations, braced excavations, anchored bulkheads, reinforced earth, and underpinning.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 557         | Geoenvironmental Engineering                      | Environmental site assessment, solid waste management, waste containment system design, soil and groundwater remediation, soil erosion control, brownfields development.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Engineering CEE or Construction Engineering graduate student  |
| CEE     | 558         | Unsaturated Soil Mechanics                        | Advanced unsaturated soil mechanics theory, including introduction of stress-state variables and constitutive relationships for unsaturated flow and stress-strain applications. Knowledge of CEE 351 or equivalent material is required to be successful in this course.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Civil, Environmental, and Sustainable Engineering Graduate student  |
| CEE     | 559         | Earthquake Engineering                            | Characteristics of earthquake motions, selection of design earthquakes, site response analyses, seismic slope stability, and liquefaction.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Engineering CEE or Construction Engineering graduate student  |
| CEE     | 560         | Soil and Groundwater Remediation                  | Presents techniques for remediation of contaminated soils and groundwaters with basic engineering principles.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 561         | Physical-Chemical Treatment of Water and Waste    | Theory and design of physical and chemical processes for the treatment of water and wastewaters.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3-4   |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 562         | Environmental Biochemistry and Waste Treatment    | Theory and design of biological waste treatment systems. Pollution and environmental assimilation of wastes.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3-4   |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 563         | Environmental Engineering Chemistry               | Analyzes water, domestic and industrial wastes, lab procedures for pollution evaluation, and the control of water and waste treatment processes.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 564         | Contaminant Fate and Transport                    | Fate and transport processes with emphasis on governing equations and parameters relevant to the migration of chemicals in the environment.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 565         | Advanced Environmental Biotechnology              | Emerging topics in environmental biotechnology and related problem-solving techniques.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); CEE 562 and 567; Credit is allowed for only CEE 565 or 598 (Advanced Environmental Biotechnology)  |
| CEE     | 566         | Water Reuse and Reclamation                       | Reuse and reclamation of water, tertiary treatment technologies of water for reuse applications, cloth filtration and UV disinfection, agricultural reuse and engineering, landscape irrigation, industrial reuse, environmental restoration, groundwater recharge, direct and indirect potable reuse, water reuse planning and dual distribution systems, storage requirements.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CEE 566 or CEE 598 (Water Reuse & Reclaim)  |
| CEE     | 567         | Environmental Microbiology                        | Overview of the microbiology of natural and human-impacted environment, microbial detection methodologies, waterborne disease outbreaks, risk assessment, and regulations.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisites: Engineering CEE Graduate student; Credit is allowed for only CEE 467 or 567  |
| CEE     | 568         | Unit Processing in Environmental Engineering      | Design and operation of unit processes for water and wastewater treatment.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 569         | Air Quality Engineering                           | Chemical and physical processes by which air pollutants are generated and controlled with an emphasis on urban air quality.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): graduate Engineering major; Credit is allowed for only CEE 469 or CEE 569 or CHE 469 or CHE 569   |
| CEE     | 570         | Sustainable Environmental Biotechnologies         | Introduces principles of green chemistry and green engineering and their integration in the design of sustainable bioengineering and biotechnology applications that protect environmental quality and human health.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisites: Civil, Environmental and Sustainable Engineering MS, MSE or PhD student; Credit is allowed for only CEE 470, 494 (Sustainable Environmental Biotechnologies), 570 or 598 (Sustainable Environmental Biotechnologies) |
| CEE     | 571         | Advanced Environmental Chemistry                  | Applied water quality and water treatment aquatic chemistry. Knowledge of environmental chemistry topics is necessary to be successful in this course.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Civil, Environmental and Sustainable Engineering MS, MSE or PhD major   |
| CEE     | 572         | Life Cycle Assessment for Civil Systems           | Concepts of the life cycle assessment (LCA) framework exploring products, services, activities and infrastructure systems. Examines key concepts for system boundary selection, functional unit selection, inventorying, impact assessment and interpretation stages with a focus on energy and environmental assessment. Advanced concepts include allocation of effects, problem formulation for assessing footprints versus decisions or policies, and assessment of infrastructure interdependencies and supply chains. Exposure to tools and data sources occur throughout the course; presents approaches for evaluation of sensitivity and uncertainty of results. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): graduate Civil Engineering or Construction Engineering major  |
| CEE     | 573         | Transportation Operations                         | Driver, vehicle, and roadway characteristics; traffic control devices; traffic engineering studies; and transportation system management measures.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 576         | Highway Geometric Design                          | Design of visible elements of roadway, design controls, at-grade intersections, freeways, and interchanges.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student; Credit is allowed for only CEE 475 or 576   |
| CEE     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | N                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 1-12  |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 581         | Advanced Earth Systems Engineering and Management | Advanced introduction to earth systems engineering and management, and the technological, economic and cultural systems underlying the terraformed Earth.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Civil, Environmental, and Sustainable Engineering Graduate student; Credit is allowed for only CEE 581 or SOS 552   |

|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|--|
| CEE     | 582         | Industrial Ecology and Design for Sustainability | The conceptual, ethical, and practical challenges in the design, manufacture, and life cycle performance of products; environmental evaluation via materials flow analysis and life cycle assessment; global economic, environmental, cultural, and social aspects of competitive and functional product development and manufacture.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Civil, Environmental, and Sustainable Engineering Graduate student  |
| CEE     | 583         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 1-12  |                 | Prerequisite(s): Civil, Environmental, and Sustainable Engineering or Construction Engineering graduate student; Credit is allowed for only CEE 483 or CEE 583 |
| CEE     | 584         | Internship                                       | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 1-12  |                 | Pre-requisite: Civil, Environmental, and Sustainable Engineering Graduate student  |
| CEE     | 585         | Civil Engineering Project Management             | Civil engineering project management and administration, planning and scheduling, cost estimating and bidding strategies, financial management, quality control and safety, and computer applications.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): MS, MSE or PhD Civil, Environmental and Sustainable Engineering major. Credit is allowed for only CEE 481 or CEE 585                          |
| CEE     | 590         | Reading and Conference                           | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | N                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 1-12  |                 | Pre-requisite: Civil Engineering MS or MSE student   |
| CEE     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 1-12  |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | N                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 1-12  |                 | Pre-requisite: Civil Engineering MS or MSE student   |
| CEE     | 593         | Applied Project                                  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 1-12  |                 | Pre-requisite: Civil, Environmental, and Sustainable Engineering Graduate student  |
| CEE     | 594         | Conference and Workshop                          | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 1-12  |                 | Pre-requisite: Civil, Environmental, and Sustainable Engineering Graduate student  |
| CEE     | 595         | Continuing Registration                          | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | N                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 1     |                 | Pre-requisite: Civil Engineering MS or MSE student   |
| CEE     | 598         | Special Topics                                   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 1-4   |                 | Prerequisite(s): Engineering CEE or Construction Engineering graduate student  |
| CEE     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | N                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 1-12  |                 | Pre-requisite: Civil Engineering MS or MSE student   |
| CEE     | 692         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CEE     | 784         | Internship                                       | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | OPT           | Ira A. | CEL     | 100         | Great Ideas of Politics and Ethics   | Introduces fundamental debates and ideas of politics in both the West and beyond. Surveys ancient, medieval and modern thinkers in the Greek, Jewish, Christian and Muslim traditions, tracing their influences on contemporary debates with focus on the great questions of human nature, social and political life, and the relationship between religion and politics. Studies both the ideas and historical statesmanship of such figures as Plato, Cicero, Tertullian, Aquinas, Saadyah Gaon, Maimonides, Al-Farabi, Ibn Rushd (Averroes) and Al-Ghazali, as well as various leaders and writers from modernity in America and abroad. Includes separate discussion to encourage active learning; expects students to write analytical papers and make a class presentation.   | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | School of Civic & Economic Thought and Leadership | 3     | HU              | Credit is allowed for only CEL 100 or CEL 194 (Great Ideas of Politics and Ethics)  |
| CEL     | 191         | First-Year Seminar   | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Civic & Economic Thought and Leadership | 1-3   |                 |   |
| CEL     | 194         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Civic & Economic Thought and Leadership | 1-4   |                 |   |
| CEL     | 200         | Great Debates in American Politics and Economics                                       | Introduces fundamental ideas and debates about liberty and equality in American thought from the colonial era to the present, focusing on major political and economic figures and issues--ideas that continue to shape political and economic debates in 21st-century America, thus providing crucial foundations for future leadership roles in either public affairs or the private sector. A major theme is the tension between liberty and equality and between constitutionalism and democracy, in three centuries as a democratic, commercial republic. Includes separate discussion sessions at the end of each week to encourage active learning; expects students to write analytical papers and make a class presentation.   | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | School of Civic & Economic Thought and Leadership | 3     |                 | Credit is allowed for only CEL 200 or CEL 294 (Great Debates in American Politics and Economics)  |
| CEL     | 235         | Federalists, Anti-Federalists, and the Enduring Debate over American Constitutionalism | Examines the arguments and questions raised by the Federalists and Anti-Federalists during their debates over the 1787 Constitution, which provide resources to understand and contribute to contemporary political debates. Federalists and Anti-Federalists debated such fundamental issues as political power, federalism, republicanism, representation, separation of powers, protection of rights, slavery and the character of the people and their leaders. They model how intellectually deep, and morally serious, public discourse can be. Students study their arguments and, with the help of Tocqueville's Democracy in America, apply these debates to our current politics, while considering the rhetorical and other demands placed upon statesmen in constitutional, democratic systems. Students write analytical papers and participate in a simulation of a modern-day constitutional convention. | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | School of Civic & Economic Thought and Leadership | 3     |                 | Credit is allowed for only CEL 235 or CEL 294 (Federalists, Anti-Federalists & Enduring Debate)   |
| CEL     | 294         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Civic & Economic Thought and Leadership | 1-4   |                 |   |
| CEL     | 300         | Capitalism and Great Economic Debates  | Explores fundamental ideas and debates about economics and political economy in Western civilization, from ancient Greece to this globalized era, especially the major arguments about commerce and capitalism--ideas that continue to shape economic debates in America and internationally, thus providing crucial foundations for future leadership roles in either public affairs or the private sector. Classic thinkers discussed in this seminar course include Aristotle, Aquinas, Locke, Montesquieu, Smith, Marx, Keynes and Hayek, to understand the larger concepts of political economy and justice that provide crucial context for continuing debates about free markets, capitalism, economic efficiency and inequality or fair opportunity.  | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | School of Civic & Economic Thought and Leadership | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 30 hours; Credit is allowed for only CEL 300 or CEL 394 (Capitalism and Great Economic Debates)             |
| CEL     | 305         | Classical Political Philosophy and Statesmanship: The Greeks                           | Examine the themes of justice and leadership in democracy and war through the texts of classical political thinkers, including Plato's Republic, Aristophanes' Clouds, Aristotle's Politics and Ethics, and Thucydides' account of The Peloponnesian War. Investigates questions of political leadership, ambition and the common good. Proceeds through discussion and student-led presentations of the big questions these texts raise.   | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | School of Civic & Economic Thought and Leadership | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 30 hours; Credit is allowed for only CEL 305 or CEL 394 (Classical Political Philosophy & Statesmanship)    |
| CEL     | 320         | Modern Political Thought: Origins and Debates about Modern Liberty                     | Examines crucial debates in modern political thought, especially in the United States. A focus is defining what is distinctive about "modern thought," with recourse to Tocqueville's Democracy in America on the difference between ancien régime monarchies and modern liberal democratic polities. Other primary readings include works from such seminal moderns as Machiavelli, Hobbes and Locke, but America (not Europe) is the ultimate focus. Queries the core documents and ideas of the American Founding, and discerns the complex interplay of classical republican and liberal intellectual traditions. Close reading of The Federalist and selected Anti-Federalist writings prepare for a broader re-examination of the American political tradition, concluding with the ongoing dispute among progressivism, socialism and conservatism.  | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | School of Civic & Economic Thought and Leadership | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 30 hours; Credit is allowed for only CEL 320 or CEL 394 (Mod Political Thght.Orgns & Debats abt Mod Librty) |

|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|--|---|-------|-----------------|---|
| CEL     | 345         | Classics of Modern Economic Thought: Smith to Hayek and Beyond | Addresses how major economic thinkers since Adam Smith (and his contemporaries) have dealt with the political, moral and economic issues that arise from modernity's embrace of the goal of economic progress. Course readings cover the age of Smith and Rousseau up to the times of Thomas Piketty and Deirdre McCloskey. Features close readings and discussion of primary texts and class presentations. Students write analytical papers on these important authors and debates.  | N                 | SEM               | N               | GNA           | The College of Liberal Arts and Sciences | School of Civic & Economic Thought and Leadership | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 30 hours; Credit is allowed for only CEL 345 or CEL 394 (Classcs of Mod Ecnmic Thght:Smith to Hayek & Beyond) |
| CEL     | 375         | Politics and Leadership in the Age of Revolutions, 1776-1826   | Examines political thought and political leadership in the era of the American, French, Haitian and Latin American Revolutions. Begins with a look at Enlightenment political thought, focusing on natural rights, constitutionalism and political economy. Then considers leading political ideas connected with each of the great upheavals that began with the American Revolution and ended, 50 years later, with the independence of Latin America. Examines the record of political leadership during the same episodes, via biographies of figures such as Washington and Jefferson, Sièyes and Robespierre, Toussaint and Napoleon, Bolivar and San Martin.  | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | School of Civic & Economic Thought and Leadership | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 30 hours; Credit is allowed for only CEL 375 or CEL 394 (Politics & Leadership in the Age of Revolution)      |
| CEL     | 394         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Civic & Economic Thought and Leadership | 1-4   |                 |   |
| CEL     | 475         | Statesmanship and American Grand Strategy                      | Discusses great ideas and figures in political leadership and statesmanship, from ancient Greece and early modern Europe to America's founding and the present global uncertainty, especially the major arguments about war, peace and international affairs--ideas that shape foreign policy and grand strategy debates in the 21st century, thus providing crucial foundations for future leadership roles. Major thinkers and episodes include Thucydides, Plutarch, Montesquieu, George Washington, Lincoln, Truman and the Cold War, and Reagan, as well as contemporary debates about America's post-Cold War strategies for its leadership role in global affairs. Incorporates a Marshall brief (a policy presentation) and a group simulation exercise. | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | School of Civic & Economic Thought and Leadership | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 30 hours; Credit is allowed for only CEL 475 or CEL 494 (Statesmanship and American Grand Strategy)           |

| CEL     | 498         | Pro-Seminar  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Civic & Economic Thought and Leadership | 1-7   |                 |   |
| CEL     | 499         | Individualized Instruction                                     | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Civic & Economic Thought and Leadership | 1-3   |                 |   |
| CEL     | 598         | Special Topics   | Topical courses not offered in regular course rotation (e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand).  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Civic & Economic Thought and Leadership | 1-4   |                 |   |
| CEN     | 501         | Computer Systems I   | Introduces digital CMOS circuit and logic design and signal processing and analysis. Design of digital CMOS logic gates, combinational and sequential logic circuits, arithmetic logic unit; register-transfer-level design; Fourier and z transforms, filters, sampling, random variables, distribution and density functions.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering                | Computer Science and Engineering Program          | 3     |                 | Pre-requisites: Computer Engineering Graduate student; Credit is allowed for only CEN 501 or 591 (Computer Systems I)   |
| CEN     | 502         | Computer Systems II  | Covers fundamentals of computer architecture and focuses on basic principles of systems programming, operating systems, compilers and networking topics that cover the computer science to computer engineering interface.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering                | Computer Science and Engineering Program          | 3     |                 | Pre-requisite: Computer Engineering Graduate student; Credit is allowed for only CEN 502 or 591 (Computer Systems II)   |
| CEN     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | PRA               | Y               | OPT           | Ira A. Fulton Engineering                | Computer Science and Engineering Program          | 1-12  |                 |   |
| CEN     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | PRA               | Y               | Z1            | Ira A. Fulton Engineering                | Computer Science and Engineering Program          | 1-12  |                 |   |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                               | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|---|
| CEN     | 590         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 593         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 594         | Conference and Workshop  | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 |   |
| CEN     | 595         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 790         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 792         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 795         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 799         | Dissertation   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHE     | 100         | Introduction to Chemical Engineering                           | Introduces design in chemical engineering, teaming, chemical engineering profession, computer models, communication skills, quality and customer satisfaction. A basic understanding of high school algebra, computing, and physics are necessary to be successful in this course.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program             | 2     |                 | Pre-requisite: Ira A. Fulton School of Engineering and University College student   |
| CHE     | 191         | First-Year Seminar   | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | SEM               | Y               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program             | 1-3   |                 |   |
| CHE     | 194         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program             | 1-4   |                 |   |
| CHE     | 211         | Introduction to Chemical Processing                            | Applies chemical engineering analysis and problem solving to chemical processes material and energy balance methods and skills.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program             | 3     |                 | Prerequisite(s): CHM 116 with C or better; MAT 266 or 271 with C or better  |
| CHE     | 231         | Introduction to Transport Phenomena I: Fluids                  | Transport phenomena, with emphasis on fluid systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program             | 3     |                 | Prerequisite(s): CHE 211 with C or better; MAT 266 or 271 with C or better; PHY 121 with C or better; Corequisite(s): MAT 274 or 275; Credit is allowed for only CHE 231 or 501 |
| CHE     | 294         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program             | 1-4   |                 |   |
| CHE     | 298         | Honors Directed Study  | Independent study or practicum under the supervision of a faculty member.   | N                 | RSC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program             | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| CHE     | 334         | Introduction to Transport Phenomena II: Heat and Mass Transfer | Applies heat and mass transport principles. Design of heat exchangers and continuous contactors.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program             | 3     |                 | Prerequisite(s): Chemical Engineering BSE major; CHE 231 with C or better   |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                                    | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                   | Units | General Studies | Requirements  |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|---------------------------|------------------------------|-------|-----------------|---|
| CHE     | 342         | Introduction to Applied Chemical Thermodynamics | Applies conservation and accounting principles with nonideal property estimation techniques.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     |                 | Prerequisite(s): Chemical Engineering BSE major; CHE 231 with C or better; Pre- or corequisite(s): MAT 267 or 272 with C or better if completed   |
| CHE     | 352         | Chemical Engineering Lab I                      | Engineering lab equipment, data collection and analysis; strengthens ability to generate written reports and oral presentations; reinforces teamwork skills; strengthens and extends the understanding of earlier technical contents in the curriculum; strengthens abilities in recognizing and understanding key issues associated with lab and process safety. | N                 | LAB               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     | L               | Prerequisite(s): Chemical Engineering BSE major; CHE 334 with C or better; CHE 342 with C or better; PHY 131 with C or better   |
| CHE     | 384         | Numerical Methods for Chemical Engineers        | Study and application of numerical methods in solving problems commonly encountered in chemical engineering. Emphasizes chemical engineering applications using MATLAB and Excel. Roots, linear algebraic equations, matrices, curve fitting, differentiation, integration, ordinary and partial differential equations.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     | CS              | Prerequisite(s) with C or better: Chemical Engr BSE major; MAT 242, 342, or 343; MAT 274 or 275; Pre- or coreq(s): MAT 267 or 272 with C or better if completed; Credit allowed for only CEE 384, CHE 384, CHE 394 (Num Methods for Chemical Eng), or MAE 384 |
| CHE     | 394         | Special Topics                                  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 1-4   |                 |   |
| CHE     | 432         | Principles of Chemical Engineering Design       | Multicomponent distillation, engineering economics, equipment sizing and costs, plant operation economics, process safety, and simulation and optimization techniques.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     |                 | Prerequisite(s): Chemical Engineering BSE major; CHE 433 with C or better; CHE 442 with C or better   |
| CHE     | 433         | Modern Separations                              | Design of modern separation equipment in chemical engineering other than fractionation.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering undergraduate student; CHE 334 with C or better; CHE 342 with C or better   |
| CHE     | 442         | Introduction to Chemical Reactor Design         | Applies kinetics to chemical reactor design.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering undergraduate student; CHE 334 with C or better; CHE 342 with C or better; Credit is allowed for only CHE 442 or CHE 505  |
| CHE     | 451         | Chemical Engineering Laboratory II              | Operation, control and design of experimental and industrial process equipment; strengthens abilities in recognizing and understanding key issues associated with lab and process safety; group research projects.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     |                 | Prerequisite(s): Chemical Engineering BSE major; CEE 384, CHE 384, or CHE 394 (Numerical Methods for Chemical Engineers) with C or better; CHE 352 with C or better; CHE 433 with C or better; CHE 442 with C or better                                       |
| CHE     | 461         | Process Dynamic Control                         | Process dynamics, instrumentation, and feedback applied to automatic process control.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     | CS              | Prerequisite(s): Chemical Engineering BSE major; CEE 384, CHE 384, or CHE 394 (Numerical Methods for Chemical Engineers) with C or better; CHE 433 with C or better; CHE 442 with C or better   |
| CHE     | 462         | Process Design                                  | Applies economic principles to optimize equipment selection and design; process safety; development and design of process systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     | L               | Prerequisite(s): Chemical Engineering BSE major; CHE 432 with C or better; CHE 433 with C or better; CHE 442 with C or better   |
| CHE     | 469         | Air Quality Engineering                         | Chemical and physical processes by which air pollutants are generated and controlled with an emphasis on urban air quality.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     |                 | Prerequisite(s): Chemical Engineering BSE major; CHE 342, or Civil Engineering BSE major; CEE 361, or Materials Science and Engineering BSE major; MSE 330; Credit is allowed for only CEE 469 or CEE 569 or CHE 469 or CHE 569                               |
| CHE     | 475         | Biochemical Engineering                         | Applies chemical engineering methods, mass transfer, thermodynamics, and transport phenomena to industrial biotechnology.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     |                 | Pre-requisite: CHE 334 and 442  |
| CHE     | 476         | Bioreaction Engineering                         | Principles of analysis and design of reactors for processing with cells and other biologically active materials; applies reaction engineering in biotechnology.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     |                 | Pre-requisites: Engineering BS or BSE student OR Graduate Engineering student   |
| CHE     | 484         | Internship                                      | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Ira A. Fulton Engineering | Chemical Engineering Program | 1-12  |                 |   |
| CHE     | 492         | Honors Directed Study                           | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Chemical Engineering Program | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| CHE     | 493         | Honors Thesis                                   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Ira A. Fulton Engineering | Chemical Engineering Program | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| CHE     | 494         | Special Topics                                  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. | CHE     | 498         | Pro-Seminar                                     | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | SEM               | Y               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 1-7   |                 | Prerequisite(s): Fulton Engineering undergraduate student   |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                               | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                   | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|------------------------------|-------|-----------------|---|
| CHE     | 499         | Individualized Instruction                 | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | Ira A. Fulton Engineering | Chemical Engineering Program | 1-3   |                 |   |
| CHE     | 518         | Fundamentals of Microelectronics Packaging | Multidisciplinary foundation course in addressing electrical, thermal, materials, chemical, manufacturing, and reliability problems in packaging.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     |                 | Pre-requisites: Engineering Graduate student; Credit is allowed for only MSE 518, EEE 518, MAE 518, MSE 475, or CHE 518 |
| CHE     | 533         | Transport Processes I                      | Unified treatment of momentum, heat, and mass transfer from molecular theory, and continuum points of view. Continuum equations of microscopic and macroscopic systems and multicomponent and multiphase systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     |                 | Prerequisite(s): graduate Engineering major. Credit is allowed for only BME 533 or CHE 533 or MAE 533                   |
| CHE     | 543         | Thermodynamics of Chemical Systems         | Classical and statistical thermodynamics of nonideal physicochemical systems and processes; prediction of optimum operating conditions.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     |                 | Pre-requisites: Graduate Engineering student  |
| CHE     | 544         | Chemical Reactor Engineering               | Reaction rates, thermodynamics, and transport principles applied to the design and operation of chemical reactors.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering graduate student  |
| CHE     | 561         | Advanced Process Control                   | Dynamic process representation, linear optimal control, optimal state reconstruction, and parameter and state estimation techniques for continuous and discrete time systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering graduate student  |
| CHE     | 569         | Air Quality Engineering                    | Chemical and physical processes by which air pollutants are generated and controlled with an emphasis on urban air quality.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     |                 | Prerequisite(s): graduate Engineering major; Credit is allowed for only CEE 469 or CEE 569 or CHE 469 or CHE 569        |
| CHE     | 580         | Practicum                                  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Engineering graduate student  |
| CHE     | 584         | Internship                                 | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Ira A. Fulton Engineering | Chemical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Engineering graduate student  |
| CHE     | 590         | Reading and Conference                     | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | SEM               | Y               | Z2            | Ira A. Fulton Engineering | Chemical Engineering Program | 1-12  |                 | Prerequisite(s): graduate Chemical Engineering student  |
| CHE     | 591         | Seminar                                    | A small class emphasizing discussion, presentations by students, and written research papers.   | N                 | SEM               | Y               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Engineering graduate student  |
| CHE     | 592         | Research                                   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering | Chemical Engineering Program | 1-12  |                 | Pre-requisites: Chemical Engineering Master's degree student  |
| CHE     | 593         | Applied Project                            | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering | Chemical Engineering Program | 1-12  |                 | Prerequisite(s): graduate CHE major   |
| CHE     | 594         | Conference and Workshop                    | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | SEM               | Y               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Engineering graduate student  |
| CHE     | 595         | Continuing Registration                    | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Ira A. Fulton Engineering | Chemical Engineering Program | 1     |                 | Prerequisite(s): Fulton Engineering graduate student  |
| CHE     | 598         | Special Topics                             | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 1-4   |                 | Pre-requisite: Graduate Engineering student   |
| CHE     | 599         | Thesis                                     | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering | Chemical Engineering Program | 1-12  |                 | Pre-requisites: Chemical Engineering Master's degree student  |
| CHE     | 695         | Continuing Registration                    | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Ira A. Fulton Engineering | Chemical Engineering Program | 1     |                 | Prerequisite(s): Fulton Engineering graduate student  |
| CHE     | 780         | Practicum                                  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Ira A. | CHI     | 101         | First-Year Chinese I                | Pronunciation, grammar, elementary conversation, and development of basic reading and writing skills. Standard dialect. 5 class hours.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 5     | G               | Credit is allowed for only CHI 101 or MND 101  |
| CHI     | 102         | First-Year Chinese II               | Pronunciation, grammar, elementary conversation, and development of basic reading and writing skills. Standard dialect. 5 class hours.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 5     | G               | Prerequisite(s): CHI 101; Credit is allowed for only CHI 102 or MND 102  |
| CHI     | 110         | Intensive Chinese I                 | Adopts different pedagogical approaches to help students acquire basic skills in listening, speaking, reading and writing in Modern Standard Chinese. While linguistic elements are the focus of this course, appropriate cultural information related to language use is also an important component of instruction. Trains students to be able to function successfully in Chinese culture. Students don't simply learn to "speak Chinese" or read and write characters as some form of party trick. Teaches a practical skill set that allows students to communicate and behave appropriately in Chinese culture.   | N                 | LEL               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 1-8   |                 | Credit is allowed for only CHI 101 or CHI 102 or CHI 110   |
| CHI     | 120         | Introduction to Chinese Culture     | Introduces geographical, historical, literary, and intellectual premises of Chinese culture.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     | L or HU         | Pre/Co-requisites: ENG 101, 105, or 107; Credit is allowed for only SLC 120 or CHI 120   |
| CHI     | 191         | First-Year Seminar                  | Small course emphasizing student-faculty discussion/interaction. Strongly recommended for first-year students.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 1-3   |                 | Pre-requisites: Maximum 25 hours   |
| CHI     | 194         | Special Topics                      | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 1-4   |                 |  |
| CHI     | 201         | Second-Year Chinese I               | Systematic review of grammar. Development of vocabulary through reading and writing. Drill in aural/oral skills. 5 class hours.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 5     | G               | Prerequisite(s): CHI 102; Credit is allowed for only CHI 201 or MND 201  |
| CHI     | 202         | Second-Year Chinese II              | Systematic review of grammar. Development of vocabulary through reading and writing. Drill in aural/oral skills. 5 class hours.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 5     | G               | Prerequisite(s): CHI 201; Credit is allowed for only CHI 202 or MND 202  |
| CHI     | 205         | Chinese Calligraphy                 | Introduces styles and techniques of Chinese writing. Requires no knowledge of Chinese or Japanese.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 1     |                 |  |
| CHI     | 210         | Intensive Chinese II                | Intensive 2nd-year college-level Modern Standard Chinese designed for students who are highly motivated and have successfully completed at least 1st-year college-level Modern Standard Chinese language course or equivalent. Reviews and reinforces 1st-year Chinese grammatical patterns and introduces new ones in order to further develop students' communicative competence in listening, speaking, reading and writing in modern Chinese. Introduces over 500 new characters and presents and expands an equal number of spoken vocabulary items. Students increase their vocabulary, consolidate their grammar, describe objects and express ideas more accurately and fluently. | N                 | LEL               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 1-8   |                 | Prerequisite(s): CHI 102 or 110 with C or better; Credit is allowed for only CHI 201 or CHI 202 or CHI 210                         |
| CHI     | 294         | Special Topics                      | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 1-4   |                 |  |

| Subject | Catalog Nbr | Course Title                                      | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                                  | Department                                   | Units | General Studies   | Requirements  |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|--|--|-------|-------------------|---|
| CHI     | 338         | The Daoist Bible: The Daode jing                  | At 5,000 words, the Daode Jing (Tao-te ching) is arguably the shortest religious book in the world. It is also the most widely translated, after the Christian Bible. Introduces the wisdom of the Old Boy, Laozi himself, and to some of the startlingly wide variety in which his short, gnomic utterances have been interpreted. No knowledge of Chinese required; all readings and lectures in English.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     | HU & L            | Prerequisite(s): ENG 101, 105 or 107 with C or better; Credit is allowed for only CHI 338, 394 (Daoist Bible: The Dao De Jing) or REL 338 |
| CHI     | 343         | Daoism  | Introduces the history, doctrines, and practices of Taoism from the mid-second century CE up to the present.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     | (L or HU) & G & H | Prerequisite(s): ENG 102, 105 or 108 with C or better; minimum 24 hours; Credit is allowed for only CHI or REL 343                        |
| CHI     | 345         | Chinese Film and Civilization                     | Screening and discussion of recent films from China, Taiwan, and Hong Kong in the context of modern Chinese civilization.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                   |   |
| CHI     | 346         | Chinese Religions                                 | Examines the history and practices of Chinese religions with particular attention to culture, society, and history.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                   | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 24 hours; Credit is allowed for only CHI 346 or REL 346                   |
| CHI     | 348         | Pathways into Chinese Culture                     | Introduces some important aspects of China's cultural history and traditions. Provides an overview of Chinese history and culture and reviews major developments in science and technology. Incorporates current social and cultural topics and reviews through the lens of historical context. Classroom activities enable students to gain a better understanding of traditional Chinese culture with respect to both elite and popular culture. Conducted in Mandarin and is designed for the students who are currently enrolled in CHI 301 and CHI 401 or whose Chinese proficiency level in all four skills (speaking, listening, reading and writing) are at the intermediate mid to intermediate high level according to ACTFL guidelines. | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                   | Prerequisite(s): CHI 202 with C or better. Credit is allowed for only CHI 348 or CHI 394 (Pathways into Chinese Culture)                  |
| CHI     | 380         | The Chinese Language                              | Introduces the Chinese languages from linguistic perspectives. Topics include the linguistic structure and characteristics (phonetics, phonology, morphology and syntax) of the Chinese language; linguistic history and dialects of Chinese; and its relationship with culture.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                   |   |
| CHI     | 394         | Special Topics                                    | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 1-4   |                   |   |
| CHI     | 401         | Fourth-Year Chinese I                             | Focuses on solidifying and improving students' knowledge of modern Mandarin. Emphasizes learning strategies to increase reading and listening comprehension, as well as further strengthening oral fluency and written skills. Surveys a wide variety of original text and media materials, in both full-form and simplified characters. Conducted in Chinese.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     | G                 | Prerequisite(s): CHI 302 with C or better   |
| CHI     | 402         | Fourth-Year Chinese II                            | Continuation of CHI 401.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     | G                 | Prerequisite(s): CHI 401 with C or better   |
| CHI     | 407         | Chinese for Academic and Professional Purposes I  | Part of the Chinese Flagship program; course has a three-fold objective: (1) to improve language proficiency in all four language skills; (2) to support other Flagship courses by introducing specific vocabulary, literary genres, key reference materials; and (3) to develop the use of explicit language learning strategies that support professional-level literacy.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     | G                 | Prerequisite(s): CHI 402 with C or better   |
| CHI     | 408         | Chinese for Academic and Professional Purposes II | Part of the Chinese Flagship Program. Improves language proficiency in all four language skills; supports other Flagship courses by introducing specific vocabulary, literary genres, key reference materials; develops the use of explicit language learning strategies that supports professional level literacy. All course work in Mandarin Chinese.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     | G                 | Prerequisite(s): CHI 407 with C or better   |
| CHI     | 430         | Readings in Chinese Religions                     | Readings in Chinese religious texts, including Buddhism, Daoism, local religious cults, and others. May be repeated once for credit.   | N                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     | HU & G            | Prerequisite(s): CHI 308 with C or better   |
| CHI     | 450         | Classical Prose                                   | Readings in classical prose forms, including guwen, sanwen, pianwen, fu, and incidental writings. Course content varies with instructor.   | N                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                   | Prerequisite(s): CHI 308 with C or better   |
| CHI     | 451         | Chinese Cultural History I                        | China's classics in translation studied both for their intrinsic ideas and for the origins of Chinese thought.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     | (HU or SB) & H    | Prerequisite(s): ENG 102, 105 or 108 with C or better; minimum 55 hours; Credit is allowed for only CHI 451, HST 451 or SLC 451           |
| CHI     | 452         | Chinese Cultural History II                       | Evolution of Confucian thought, its synthesis with Taoism and Buddhism, and modern reactions against, and uses of, Confucian traditions.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     | SB & G & H        | Prerequisite(s): ENG 102, 105 or 108 with C or better; minimum 55 hours; Credit is allowed for only CHI 452 or HST 452 or SLC 452         |
| CHI     | 461         | Readings in Traditional Chinese Literature I      | Readings in performance literature in colloquial Chinese. Bianwen, zhugongdiao, baojuan, zaju, chuanqi drama.  | N                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                   | Pre-requisites: CHI 302; CHI 307 with C or better   |
| CHI     | 462         | Readings in Traditional Chinese Literature II     | Readings in the shorter and longer fiction of the late imperial period written in classical vernacular language.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                   | Prerequisite(s): CHI 302; CHI 308   |
| CHI     | 470         | Modern Chinese Literature and Culture             | Readings in modern Chinese literary texts, including prose, fiction, and poetry. Course content changes with instructor.   | N                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                   | Prerequisite(s): CHI 302 with C or better   |
| CHI     | 482         | History of the Chinese Language                   | Introduces the history of the Chinese language. Graduate/advanced undergraduate-level introductory course on the historical changes of the sounds, writing system, grammar, and other aspects of the Chinese language. Topics include the historical phonology of Chinese, development of graphs (Hanzi), some topics of syntactic changes in texts, morphology, lexicography, cultural implication of language.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                   | Pre-requisites: CHI 302; CHI 308  |

| CHI     | 509         | Methods of Research in Chinese Applied Linguistics | Offers an overview of issues in applied linguistics, specifically related to the teaching and learning of Chinese as a second language. Divided according to broad topics and may vary depending on interests and background of class participants.   | N                 | SEM               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student. Credit is allowed only for CHI 509 or 591 (Chinese Applied Linguistics)   |
| CHI     | 514         | Advanced Classical Chinese                         | Close readings in selected premodern texts, with focus on special grammatical features, and increased vocabulary.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 520         | Teaching of Chinese as a Second Language           | Theory and practice of teaching Chinese, including presentation, interaction, and evaluation, with consideration given to cultural factors.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 561         | Readings in Traditional Xiaoshuo                   | Introduces major issues, texts, and resource materials for the study of narrative forms, including short stories and longer works of fiction. Focuses on the period from 1400 to 1900. One year of university-level classical Chinese or equivalent proficiency; three years of university-level modern Chinese recommended.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 590         | Reading and Conference                             | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 593         | Applied Project                                    | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 595         | Continuing Registration                            | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 596         | Second Language Methodologies                      | Provides a solid overview of current methodologies in foreign/second language teaching and learning, including the World-readiness standards for learning languages and the Proficiency Guidelines of the American Council on the Teaching of Foreign Languages (ACTFL). Focuses on current pedagogical trends and theories in several areas of second language acquisition, including grammar and vocabulary, reading, writing, listening and speaking, and intercultural competence. Also provides opportunities to obtain practice in creating and adapting instructional materials, preparing and implementing individual lesson plans, written and oral assignments, and exams. Focuses on discussing student diversity in today's classrooms and differences between heritage and second language learners. Students have the opportunity to research a topic of their interest. Course consists of lectures, discussion, hands-on experience to encourage meaningful and collaborative learning. | N                 | SEM               | N               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): degree- or nondegree-seeking grad stdnt; Credit only allowed for CHI 591 (Lang Teach Mthd & Prin) or CHI 596 or SLC 591 (Lang Teach Mthd & Prin) or SLC 596 or SPA 591 (Teach Mthd) or SPA 591 (Lang Teach Mthd & Prin) or SPA 596 |
| CHI     | 598         | Special Topics                                     | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 600         | Research Methods                                   | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| CHM     | 111         | General Chemistry Laboratory for Majors I  | Laboratory course in general chemistry for chemistry and biochemistry majors intended to complement CHM 117 lecture course. Covers a diverse range of laboratory experiments appropriate to chemistry and biochemistry majors designed to reinforce chemical principles and to develop a broad range of chemical synthesis skills. Uses modern analytic and characterization techniques to study the physical and chemical properties of substances. Suitable for students who have completed introductory chemistry at the high school level. Both CHM 117 and CHM 111 must be taken to secure SQ General Studies credit. | N                 | LAB               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 1     | SQ              | Pre- or corequisite(s): Biochemistry, Biophysics or Chemistry major; CHM 117 with C or better   |
| CHM     | 112         | General Chemistry Laboratory for Majors II | Continuation of CHM 111 laboratory course in general chemistry for chemistry and biochemistry majors intended to complement CHM 118 lecture course. Covers a diverse range of laboratory experiments appropriate to chemistry and biochemistry majors designed to reinforce chemical principles and to develop a broad range of chemical synthesis skills. Uses modern analytic and characterization techniques to study the physical and chemical properties of substances. Both CHM 118 and CHM 112 must be taken to secure SQ General Studies credit.   | N                 | LAB               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 1     | SQ              | ;Prerequisite(s): Biochemistry, Biophysics or Chemistry major; CHM 111 with C or better; Pre- or corequisite(s): CHM 118 with C or better   |
| CHM     | 113         | General Chemistry I                        | Principles of chemistry. Adapted to the needs of students in the physical, biological, and earth sciences.   | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts    | 4     | SQ              | Prerequisite(s): CHM 101 with C or better, or Mathematics Placement Test score of 50% or higher, or ALEKS score of 61 or higher, OR Pre- or corequisite(s): MAT 170, 171, 210, 251, 265 or 270 with C or better if completed                                |
| CHM     | 113         | General Chemistry I                        | Principles of chemistry. Adapted to the needs of students in the physical, biological, and earth sciences.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 4     | SQ              | Prerequisite(s): CHM 101 with C or better, or Mathematics Placement Test score of 50% or higher, or ALEKS score of 61 or higher, OR Pre- or corequisite(s): MAT 170, 171, 210, 251, 265 or 270 with C or better if completed                                |
| CHM     | 113         | General Chemistry I                        | Principles of chemistry. Adapted to the needs of students in the physical, biological, and earth sciences.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences             | School of Mathematical and Natural Sciences | 4     | SQ              | Prerequisite(s): CHM 101 with C or better, or Mathematics Placement Test score of 50% or higher, or ALEKS score of 61 or higher, OR Pre- or corequisite(s): MAT 170, 171, 210, 251, 265 or 270 with C or better if completed                                |
| CHM     | 114         | General Chemistry for Engineers            | Chemical principles with emphasis toward engineering. Students without high school chemistry or are chemical engineering majors must enroll in the CHM 113, 116 sequence instead of CHM 114.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 4     | SQ              | Prerequisite(s): CHM 101 with C or better, or Mathematics Placement Test score of 50% or higher, or ALEKS score of 61 or higher, OR Pre- or corequisite(s): MAT 170, 171, 210, 251, 265, or 270 with C or better if completed                               |
| CHM     | 116         | General Chemistry II                       | Continuation of CHM 113. Equilibrium theory, thermodynamics, kinetics, electrochemistry, nuclear chemistry, descriptive chemistry.   | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts    | 4     | SQ              | Prerequisite(s): CHM 113, 114, or 117 with C or better  |
| CHM     | 116         | General Chemistry II                       | Continuation of CHM 113. Equilibrium theory, thermodynamics, kinetics, electrochemistry, nuclear chemistry, descriptive chemistry.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 4     | SQ              | Prerequisite(s): CHM 113, 114, or 117 with C or better  |
| CHM     | 116         | General Chemistry II                       | Continuation of CHM 113. Equilibrium theory, thermodynamics, kinetics, electrochemistry, nuclear chemistry, descriptive chemistry.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences             | School of Mathematical and Natural Sciences | 4     | SQ              | Prerequisite(s): CHM 113, 114, or 117 with C or better  |
| CHM     | 117         | General Chemistry for Majors I             | Lecture course in general chemistry for chemistry and biochemistry majors and is complemented by the CHM 111 laboratory course. Covers electronic structure of atoms and molecules, intermolecular forces, bonding models, molecular geometry, physical states of matter, gas laws, and chemistry of condensed matter and modern materials. Highlights chemical reactivity, periodic trends and descriptive chemistry. Both CHM 111 and CHM 117 must be taken to secure SQ General Studies credit.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     | SQ              | Prerequisite(s): Biochemistry, Biophysics, or Chemistry major; CHM 101 with C or better, or Mathematics Placement Test score of >=50%, or ALEKS score of >=61, or Pre- or corequisite(s): MAT 170, 171, 210, 251, 265, or 270 with C or better if completed |

| CHM     | 302         | Environmental Chemistry                    | Explores major environmental issues, problems, and solutions from analytical and chemistry perspectives.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Prerequisite(s): CHM 114, 116, or 118 with C or better; CHM 231, 233, or 333 with C or better  |
| CHM     | 302         | Environmental Chemistry                    | Explores major environmental issues, problems, and solutions from analytical and chemistry perspectives.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences             | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): CHM 114, 116, or 118 with C or better; CHM 231, 233, or 333 with C or better  |
| CHM     | 303         | Environmental Chemistry Laboratory         | Lab in environmental chemistry to complement CHM 302. First-hand experience with sampling methods, analytical techniques, and environmental lab methods. Both CHM 303 and CHM 348 must be taken to secure L General Studies credit.                      | N                 | LAB               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 2     | L               | Pre- or corequisite(s): CHM 302 with C or better if completed  |
| CHM     | 325         | Analytical Chemistry                       | Advanced principles and theory of quantitative analysis, including stoichiometry, equilibria, photometric methods, electrochemistry, separation processes, statistical data analysis, and applications to advanced topics in analytical chemistry.       | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts    | 3     |                 | Pre-requisites: CHM 116 or CHM 118 with C or better  |
| CHM     | 325         | Analytical Chemistry                       | Advanced principles and theory of quantitative analysis, including stoichiometry, equilibria, photometric methods, electrochemistry, separation processes, statistical data analysis, and applications to advanced topics in analytical chemistry.       | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Pre-requisites: CHM 116 or CHM 118 with C or better  |
| CHM     | 325         | Analytical Chemistry                       | Advanced principles and theory of quantitative analysis, including stoichiometry, equilibria, photometric methods, electrochemistry, separation processes, statistical data analysis, and applications to advanced topics in analytical chemistry.       | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences             | School of Mathematical and Natural Sciences | 3     |                 | Pre-requisites: CHM 116 or CHM 118 with C or better  |
| CHM     | 326         | Advanced Analytical Chemistry Laboratory   | Practical methods of quantitative analysis for chemistry majors, including titrimetric, gravimetric, and photometric analysis, and analytical separation processes, statistical data analysis, and applications to advanced topics in chemical analysis. | N                 | REC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts    | 1     |                 | Pre- or co-requisite(s): CHM 325 with C or better if completed   |
| CHM     | 326         | Advanced Analytical Chemistry Laboratory   | Practical methods of quantitative analysis for chemistry majors, including titrimetric, gravimetric, and photometric analysis, and analytical separation processes, statistical data analysis, and applications to advanced topics in chemical analysis. | N                 | REC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 1     |                 | Pre- or co-requisite(s): CHM 325 with C or better if completed   |
| CHM     | 326         | Advanced Analytical Chemistry Laboratory   | Practical methods of quantitative analysis for chemistry majors, including titrimetric, gravimetric, and photometric analysis, and analytical separation processes, statistical data analysis, and applications to advanced topics in chemical analysis. | N                 | REC               | N               | OPT           | New Interdis Arts & Sciences             | School of Mathematical and Natural Sciences | 1     |                 | Pre- or co-requisite(s): CHM 325 with C or better if completed   |
| CHM     | 327         | Instrumental Analysis                      | Principles of instrumental methods in chemical analysis. Electroanalytical and optical techniques.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Prerequisite(s): CHM 325 with C or better; CHM 326 with C or better; Pre- or corequisite(s): CHM 346 with C or better if completed   |
| CHM     | 327         | Instrumental Analysis                      | Principles of instrumental methods in chemical analysis. Electroanalytical and optical techniques.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences             | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): CHM 325 with C or better; CHM 326 with C or better; Pre- or corequisite(s): CHM 346 with C or better if completed   |
| CHM     | 328         | Instrumental Analysis Laboratory           | Experiments in chemical analysis by electroanalytical and optical techniques.  | N                 | LAB               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 2     |                 | Pre- or corequisite(s): CHM 327 with C or better if completed  |
| CHM     | 328         | Instrumental Analysis Laboratory           | Experiments in chemical analysis by electroanalytical and optical techniques.  | N                 | LAB               | N               | OPT           | New Interdis Arts & Sciences             | School of Mathematical and Natural Sciences | 2     |                 | Pre- or corequisite(s): CHM 327 with C or better if completed  |
| CHM     | 333         | Organic Chemistry for Majors I             | Structures, reaction mechanisms and kinetics, and systematic syntheses of organic compounds.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Prerequisite(s): Biochemistry or Chemistry major; CHM 116 or 118 with C or better; Credit is allowed for only CHM 231, 233 or 333  |
| CHM     | 334         | Organic Chemistry for Majors II            | Continuation of CHM 333.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Prerequisite(s): Biochemistry or Chemistry major; CHM 333 with C or better; Credit is allowed for only CHM 234 or 334  |
| CHM     | 337         | Organic Chemistry Laboratory for Majors I  | Emphasizes mechanisms, kinetics, and products of organic reactions.  | N                 | REC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 1     |                 | Prerequisite(s): Biochemistry or Chemistry major; Pre- or corequisite: CHM 333 with C or better if completed; Credit is allowed for only CHM 237 or 337  |
| CHM     | 338         | Organic Chemistry Laboratory for Majors II | Continuation of CHM 337.   | N                 | REC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 1     |                 | Prerequisite(s): Biochemistry or Chemistry major; CHM 337 with C or better; Pre- or corequisites: CHM 334; Credit is allowed for only CHM 238 or 338   |
| CHM     | 341         | Elementary Physical Chemistry              | Thermodynamics, equilibrium, states of matter, solutions, and chemical kinetics. For students in premedical, biological, and educational curricula.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Prerequisite(s): CHM 114, 116, or 118 with C or better; CHM 231, 233, or 333 with C or better; MAT 251, 265, or 270 with C or better; PHY 101, 112, or 131 with C or better; Credit is allowed for only BCH 341 or CHM 341 |
| CHM     | 343         | Elementary Physical Chemistry Laboratory   | Physical chemistry experiments.  | N                 | REC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 1     |                 | Pre- or corequisite(s): BCH 341 or CHM 341 with C or better if completed; Credit is allowed for only CHM 343 or CHM 348 and CHM 349  |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                        | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                                  | Department                                  | Units | General Studies | Requirements   |
|---------|-------------|-------------------------------------|--|-------------------|-------------------|-----------------|---------------|--|---|-------|-----------------|--|
| CHM     | 345         | Physical Chemistry I                | Introduces quantum chemistry with application to electronic structure and dynamics of atoms and molecules.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Prerequisite(s): CHM 116 or 118 with C or better; CHM 240 OR PHY 201 OR both MAT 274 (or MAT 275) and MAT 242 (or MAT 342 or 343) with C or better; MAT 267 or 272 with C or better; PHY 131 or 151 with C or better |
| CHM     | 346         | Physical Chemistry II               | Introduces equilibrium and statistical thermodynamics. Laws of thermodynamics, equations of state, multicomponent chemical and phase equilibria, and electrochemistry.                                       | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Prerequisite(s): CHM 345 with C or better  |
| CHM     | 348         | Physical Chemistry Laboratory I     | Lab experiments in spectroscopy and computational chemistry. To secure L General Studies credit the following must be taken: CHM 303 & CHM 348 or CHM 348 & CHM 349 & CHM 452.                               | N                 | REC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 1     | L               | Pre- or corequisite(s): CHM 345 with a C or better if completed  |
| CHM     | 349         | Physical Chemistry Laboratory II    | Lab experiments in thermodynamics, electrochemistry, and computational chemistry. CHM 348, CHM 349 and CHM 452 must be taken to secure L General Studies credit.   | N                 | REC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 1     | L               | Pre- or corequisite(s): CHM 346 with C or better if completed  |
| CHM     | 385         | Oceanography                        | Introduces marine geology, chemistry, and physical and biological oceanography. Methods of oceanic exploration, environmental and social aspects of oceans.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Prerequisite(s): BIO 100, BIO 182, BIO 282, GLG 101, or SES 121 with C or better; CHM 101, 113, or 114 with C or better; Credit is allowed for only BIO 325 or CHM 385 or GLG 325                                    |
| CHM     | 392         | Introduction to Research Techniques | Instrumental methods and philosophy of research by actual participation in chemical research projects.   | Y                 | RSC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 1-3   |                 |  |
| CHM     | 394         | Special Topics                      | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 1-4   |                 |  |
| CHM     | 394         | Special Topics                      | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences             | School of Mathematical and Natural Sciences | 1-4   |                 |  |
| CHM     | 424         | Separation Science                  | Basic theory and practical aspects of gas, liquid, ion-exchange, and gel-permeation chromatographies, and other important industrial and research techniques.  | N                 | REC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Prerequisite(s): CHM 234, 334, or 346 with C or better   |
| CHM     | 433         | Advanced Organic Chemistry I        | Reaction mechanisms, reaction kinetics, linear free energy relationships, transition state theory, and Woodward-Hoffmann rules.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Prerequisite(s): BCH 341, CHM 341, or CHM 346 with C or better; CHM 234 or 334 with C or better; Credit is allowed for only CHM 433 or CHM 531   |
| CHM     | 434         | Advanced Organic Chemistry II       | Continuation of CHM 433.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Prerequisite(s): CHM 433 or 531 with C or better   |
| CHM     | 435         | Medicinal Chemistry                 | Principles of medicinal and pharmaceutical chemistry. Drug design, synthesis, and mechanism of action.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Prerequisite(s): BCH 361 or BCH 461 or CHM 460; CHM 234 or CHM 334; Credit is allowed for only CHM 435 or CHM 535  |
| CHM     | 442         | Practical NMR Spectroscopy          | Covers the practical operation of NMR spectrometers, common <sup>1</sup> H/ <sup>13</sup> C/X nuclei NMR spectroscopy, safety around NMR spectrometers and basic NMR data processing, handling and analysis. | N                 | LEL               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 1     |                 | Prerequisite(s): CHM 101, 114, 116, or 118 with C or better; Credit is allowed for only CHM 442 or CHM 494 (Practical Nuclear Magnetic Resonance Spectroscopy) or CHM 542  |
| CHM     | 452         | Inorganic Chemistry Laboratory      | Preparation and characterization of typical inorganic substances, emphasizing methods and techniques. CHM 348, CHM 349 and CHM 452 must be taken to secure L General Studies credit.                         | N                 | REC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 1     | L               | Pre- or corequisite(s): CHM 453 with C or better if completed  |
| CHM     | 453         | Inorganic Chemistry                 | Principles and applications of inorganic chemistry.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Prerequisite(s): BCH 341 or CHM 341 or CHM 346 with C or better  |
| CHM     | 460         | Biological Chemistry                | Structure and function of macromolecules and their involvement in the processing of energy and information by living cells.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Prerequisite(s): CHM 234 or 334 with C or better; CHM 346 with C or better   |
| CHM     | 471         | Solid-State Chemistry               | Crystal chemistry, thermodynamics and electrochemistry of solids, nonstoichiometric compounds, diffusion and solid-state reactions, crystal growth, and selected topics.                                     | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Pre- or corequisite(s): CHM 346 with C or better if completed; Credit is allowed for only CHM 471 or CHM 571   |
| CHM     | 480         | Methods of Teaching Chemistry       | Organization and presentation of appropriate content of chemistry; preparation of reagents, experiments, and demonstrations; organization of stock rooms and laboratories; experience in problem solving.    | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts    | 3     |                 |  |

| CHM     | 489         | Field Geochemistry               | Explores basic field measurements and sampling techniques for environmental systems, with a focus on carbon cycling in the Colorado River. Surveys a variety of geochemical principles, including: equilibrium aqueous speciation, acid-base chemistry, solution-mineral equilibrium systems, oxidation-reduction reactions, organic and environmental geochemistry and biogeochemical cycles. Applies chemical principles and analytical techniques to answer questions about environmental systems and processes.   | N                 | LEL               | N               | GNA           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     | L               | Prerequisite(s): CHM 302 or GLG 321 or GLG 481 with C or better; Credit is allowed for only CHM 489 or GLG 489 or GLG 490 (Field Geochemistry)                               |
| CHM     | 492         | Honors Directed Study            | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| CHM     | 493         | Honors Thesis                    | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 1-6   | L               | Prerequisite(s): Barrett Honors student  |

| CHM     | 501         | Current Topics in Chemistry      |   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 520         | Chemical Biology                 | Chemical biology, broadly defined, is the application of chemical tools toward the study biological problems. The purpose of this class is to provide the foundation for translational research involving cross-disciplinary approaches to tackling significant problems in the biosciences. This one-semester class will cover topics ranging from traditional molecular biology and biochemistry to state-of-the-art techniques in genomics and proteomics. Particular emphasis will be placed on modern concepts in enzymology. The class will be taught using a combination of current literature and text-based materials. | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Pre-requisites: Graduate students (degree and non-degree); Credit is allowed for only BCH 520 or CHM 520   |
| CHM     | 523         | Advanced Analytical Chemistry    | Theoretical principles of analytical instrumentation and measurements.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 524         | Separation Science               | Addresses principles and applications for all areas of chemical separations. Emphasizes separations principles in microfluidics and its interface with nanotechnology and traditional electronic materials.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 531         | Advanced Organic Chemistry I     | Reaction mechanisms, reaction kinetics, linear free energy relationships, transition state theory, molecular orbital theory, and Woodward-Hoffmann rules.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Pre-requisite: degree- or nondegree-seeking graduate. Credit is allowed for only CHM 433 or CHM 531  |
| CHM     | 532         | Advanced Organic Chemistry II    | Organic mechanisms, thermodynamic and kinetic control, structure/activity relationships, isotope effects, multistep reactions, reactive intermediates, radical reactions, electron transfer.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 535         | Medicinal Chemistry              | Principles of medicinal and pharmaceutical chemistry. Drug design, synthesis, and mechanism of action.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Pre-requisites: Graduate degree or non-degree seeking students; Credit is allowed for only CHM 435 or 535  |
| CHM     | 540         | Integrated Physics and Chemistry | Collaborative inquiry methods for teaching and coordinating physics and chemistry.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only CHM 540 or PHS 540  |
| CHM     | 541         | Advanced Thermodynamics          | Equilibrium thermodynamics. Chemical reactions, phase equilibria, and stability in multicomponent systems. Aqueous solutions and electrochemistry. Introduces statistical thermodynamics.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only CHM 541 or MSE 524  |
| CHM     | 542         | Practical NMR Spectroscopy       | Covers the practical operation of NMR spectrometers, common $^1\text{H}/^{13}\text{C}/\text{X}$ nuclei NMR spectroscopy, safety around NMR spectrometers and basic NMR data processing, handling and analysis.  | N                 | LEL               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences                | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CHM 442 or CHM 542 or CHM 598 (Practical Nuclear Magnetic Resonance Spectroscopy) |

|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|--|------------------------------|-------|-----------------|--|
| CHM     | 543         | Computational Chemistry                       | Provides basic concepts and practical experience in computational chemistry as applied to molecules and solids. Systematically covers theoretical background and applied aspects of electronic structure methods/simulation, and related visualization techniques. Provides weekly laboratory session will provide hands-on experience with state-of-the-art molecular and solid-state simulation/visualization packages, with an emphasis on their reliability, predictive capability and practical limitations. | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 544         | Introduction to Nanoscience                   | Survey of nanoscience: quantum/ statistical mechanics/kinetics; measurement and fabrication methods; applications to materials, nano-electronics, molecular electronics and nano-biology.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only CHM 544, NAN 544, PHY 444 or PHY 544 |
| CHM     | 545         | Quantum Chemistry                             | Wave and matrix formulation of quantum mechanics applied to the vibrational, rotational, and electronic states of polyatomic molecules. Hartree-Fock, electron correlation, and molecular orbital theory. Selection rules and introduction to group theory.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 546         | Molecular Spectroscopy and Group Theory       | Applies quantum mechanics to the general problem of the interaction of light with molecular systems. Angular momentum and group theory. Symmetry classifications. Overview of the formalism and experimental techniques in different resonant-based spectroscopies.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 549         | Advanced Topics in Physical Chemistry         | Various advanced and special topics in physical chemistry. Previous topics included: supercooled liquids and the glass transition, vibrational spectroscopy of solids, phase transitions and critical phenomena.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 553         | Advanced Inorganic Chemistry                  | Principles of modern inorganic chemistry applied over the entire periodic system. Bonding theory, chemical reactivity, spectroscopic and magnetic properties.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 560         | Matter and Light                              | Interactions of light with matter. Lasers and spectroscopy.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CHM 560 or PHS 560                          |
| CHM     | 571         | Structure, Bonding, and Symmetry in Materials | Principles of structural and materials chemistry, emphasizing crystal chemistry. Symmetry of periodic structures (space groups), factors determining bond lengths and coordination geometries, and the role of structure in determining physical properties.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only CHM 471 or 571                      |
| CHM     | 581         | Structure of Matter and its Properties        | Models of matter and its properties.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CHM 581 or PHS 581                          |
| CHM     | 583         | Fieldwork                                     | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | RSC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 584         | Internship                                    | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | RSC               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Molecular Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 590         | Reading and Conference                        | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Molecular Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 591         | Seminar                                       | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 592         | Research                                      | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Molecular Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 593         | Applied Project                               | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Molecular Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 594         | Conference and Workshop                       | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | RSC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 595         | Continuing Registration                       | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | The College of Liberal Arts and Sciences | School of Molecular Sciences | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 598         | Special Topics                                | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | The College of Liberal Arts and Sciences | School of Molecular Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 784         | Internship                                    | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | RSC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Molecular Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

| CHS     | 100         | Designing Your Well-Being                        | Addresses concepts, mindsets and practices associated with various aspects of health and well-being. Applies strategies and skills to design well-being for college, work and life.   | N                 | LEC               | N               | GNA           | College of Health Solutions              | College of Health Solutions  | 3     | SB              | Credit is allowed for only CHS 100 or CHS 300                                    |
| CHS     | 101         | The ASU Experience for Health Solutions Students | Required, one-hour course, offered in sections capped at 19 and designed to introduce all new first-time ASU students to the unique elements, culture, challenges and opportunities of their university. Covers several core topics.  | N                 | LEC               | N               | GNA           | College of Health Solutions              | College of Health Solutions  | 1     |                 |  |
| CHS     | 194         | Special Topics                                   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions              | College of Health Solutions  | 1-4   |                 |  |
| CHS     | 201         | International Indigenous Health                  | This course aims to develop student's understanding of core concepts in the health and well-being of Indigenous peoples worldwide, with particular focus on the Aboriginal and Torres Strait Islander peoples in Australia and Indigenous peoples in United States (or the Americas more broadly). The course highlights the differences in distribution of disease and health disparities between Indigenous and non-Indigenous peoples and develops an understanding of underlying interrelated physical, psycho-social, cultural and other determinants of Indigenous peoples' health. Students will be provided with examples of evidence-based research and health practice to learn about the ways in which Indigenous health and well-being can be supported.  | N                 | LEC               | Y               | NSW           | College of Health Solutions              | College of Health Solutions  | 1-3   |                 | Prerequisite(s): Bachelor of International Public Health major                   |
| CHS     | 300         | The Science of Well-Being                        | A scientific exploration into lifelong well-being by examining evidence from health, history, neuroscience, physiology, sociology, positive psychology, life design and the science of happiness. Students analyze and practice skills, strategies and mindsets that facilitate self-awareness, resilience, social connections and happiness to design personal and professional well-being.  | N                 | LEC               | N               | GNA           | College of Health Solutions              | College of Health Solutions  | 3     | SB              | Prerequisite(s): minimum 45 hours; Credit is allowed for only CHS 100 or CHS 300 |
| CHS     | 301         | Epidemiology for International Public Health     | Epidemiology and its use in public health research and practice. This course introduces students to epidemiological principles and methods. It aims to enable students to apply an epidemiological approach to the study of disease and illness, to interpret and assess the quality of evidence of a range of study designs and report on epidemiological research.  | N                 | LEC               | Y               | NSW           | College of Health Solutions              | College of Health Solutions  | 1-3   |                 | Prerequisite(s): Bachelor of International Public Health major                   |
| CHS     | 303         | Health Promotion                                 | Health Promotion is a fundamental component of any approach to public health and population health, whether it be research, policy or practice. The World Health Organization defines health promotion as the process of enabling people to increase control over, and to improve, their health. It moves beyond a focus on individual behavior towards a wide range of social and environmental interventions. ( <a href="http://www.who.int/topics/health_promotion/en/">http://www.who.int/topics/health_promotion/en/</a> ). This course provides an overview of health promotion including examination of the social determinants of health, health literacy and foundations in health promotion. During the course students will explore the role of health promotion in addressing a range of current global health issues and their relevance to the field of public health. Students will examine contemporary perspectives on health and health promotion contributions to public health and population health responses. The course enables students to gain an understanding of how health can be defined from different perspectives, and develop core knowledge of health promotion including its foundation theories, principles and concepts. The course will equip students with the capacity to engage in public health and population health through the essential health promotion skills and understandings. | N                 | LEC               | Y               | NSW           | College of Health Solutions              | College of Health Solutions  | 1-3   |                 | Prerequisite(s): Bachelor of International Public Health major                   |

| CHS     | 304         | Communicable Disease                                  | This course will introduce students to the burden of infectious or communicable disease worldwide. Students will learn about the theory of transmission modes, surveillance, outbreak investigation, current disease prevention, control and management strategies, and emerging and re-emerging infections. Key case studies covering different types of communicable diseases will be used to illustrate these important concepts. Current and future challenges in communicable disease control will be highlighted.   | N                 | LEC               | Y               | NSW           | College of Health Solutions | College of Health Solutions | 1-3   |                 | Prerequisite(s): Bachelor of International Public Health major  |
| CHS     | 305         | Principles of Prevention & Public Health Surveillance | Disease surveillance and population health monitoring represents one of the most important tools for public health, for early disease detection and prevention, and the monitoring and evaluation. Early detection of and rapid response to a public health threat has huge potential to save lives and costs from preventing hospitalizations and deaths. This course provides an overview of different types of surveillance systems and the sources of data that are used in such systems. Students learn to assess challenges and limitations associated with different types of public health surveillance systems and develop the skills to examine the tools and approaches that can be used to improve the effectiveness of public health surveillance systems. The course looks at principles of disease prevention more broadly. Public health prevention measures are discussed including immunization and screening, using case studies for both communicable and non-communicable diseases. The role of epidemiological and social factors is also considered. | N                 | LEC               | Y               | NSW           | College of Health Solutions | College of Health Solutions | 1-3   |                 | Prerequisite(s): Bachelor of International Public Health major; Pre- or corequisite(s): CHS 301; CHS 304; HCD 300 |
| CHS     | 306         | Public Health Policy & Programs                       | The overall aim of this course is to enable students to develop their understanding of both public health policy and programs as a part of public health practice. Students will learn about the concept and role of policy and the key concepts, models and approaches to designing and evaluating public health programs. Case studies from multiple countries and contexts will be used as teaching material.  | N                 | LEC               | Y               | NSW           | College of Health Solutions | College of Health Solutions | 1-3   |                 | Prerequisite(s): Bachelor of International Public Health major  |
| CHS     | 307         | Health Leadership                                     | The course aims to develop students understanding of different approaches to leading and managing at different levels in health services in local and international contexts to improve individual, community and population level outcomes. Students will be introduced to the common and overlapping skills and features of effective health leadership within public health agency settings requiring coordinated system-wide action through to health care management in more clinically focused patient delivery settings. Topics include management and leadership theories and models; systems perspectives and strategic thinking; influence, power and leading change; managing interprofessional teams and motivating staff; conflict management and improving health worker performance.   | N                 | LEC               | Y               | NSW           | College of Health Solutions | College of Health Solutions | 1-3   |                 | Prerequisite(s): Bachelor of International Public Health major  |
| CHS     | 308         | Comparative Health Systems                            | Principles and practice of health system analysis, the sources and utilization of information relating to health services, and frameworks for assessing health systems performance. Examines the constitutional, legal, economic, social and political environments within which health care systems operate. Compares different models of health system funding and operation. Reviews different health services organization and management, health service financing arrangements and the health workforce.  | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): CHS 306  |
| CHS     | 309         | Global Health and Lifestyle Disease                   | This course aims to enhance students' understanding of the major non-communicable diseases-specifically so-called "lifestyle diseases" including cardiovascular disease, cancer, type II diabetes, chronic lung disease- and the interaction between their associated lifestyle behaviors such as unhealthy diet, physical inactivity, tobacco use and alcohol use. Students will examine the concept of the epidemiological transition to provide insights into trends in the burden of lifestyle diseases and injuries globally and in developing countries. This course will help students to evaluate prevention and control approaches to lifestyle diseases, and to critique the modern social environment and lifestyle behaviors with respect to global health. Topics include: the global burden of disease, the epidemiological transition, injury prevention, health systems, global tobacco control, obesity, and global action plan on non-communicable diseases.  | N                 | LEC               | Y               | NSW           | College of Health Solutions | College of Health Solutions | 1-3   |                 | Prerequisite(s): Bachelor of International Public Health major  |
| CHS     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | GNA           | College of Health Solutions | College of Health Solutions | 1-4   |                 |   |

| CHS     | 401         | Ethics in Public Health                          | This course provides an overview of ethical considerations and issues pertinent to public health and health care. Students will examine ethical theories and principles, and key legal concepts, and their application to health care and public health contexts. The course enables students to identify and analyse the ethical challenges of balancing the interests of individuals and communities within a health care context which is costly, complex and increasingly globalized. While the focus is on public health ethics which includes health policy and promotion, clinical and research ethics will also be examined as integral components of contemporary, cutting-edge health care service and delivery.                            | N                 | LEC               | Y               | NSW           | College of Health Solutions   | College of Health Solutions       | 1-3   |                 | Prerequisite(s): Bachelor of International Public Health major   |
| CHS     | 484         | Internship                                       | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | College of Health Solutions   | College of Health Solutions       | 1-12  |                 | Prerequisite(s): minimum 45 hours; minimum 2.00 GPA  |
| CHS     | 492         | Honors Directed Study                            | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | College of Health Solutions   | College of Health Solutions       | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| CHS     | 493         | Honors Thesis                                    | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | College of Health Solutions   | College of Health Solutions       | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| CHS     | 494         | Special Topics                                   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions   | College of Health Solutions       | 1-4   |                 |  |
| CHS     | 499         | Individualized Instruction                       | Provides an opportunity for original study or investigation in the major or field of specialization, on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. This course may be taken only by outstanding senior students who have completed at least one semester in residence and who have a cumulative GPA of 3.00 or higher in the major or field of specialization. A special class fee may be required. | Y                 | IND               | Y               | Z1            | College of Health Solutions   | College of Health Solutions       | 1-3   |                 | Prerequisite(s): minimum 45 hours  |
| CIS     | 105         | Computer Applications and Information Technology | Introduces business information systems from a business intelligence perspective and the uses of application software with emphasis on database and spreadsheet packages for efficient and effective problem solving.   | N                 | LEC               | N               | OPT           | W.P. | CIS     | 191         | First-Year Seminar                               | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Information Systems | 1-3   |                 |  |
| CIS     | 194         | Special Topics                                   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Information Systems | 1-4   |                 |  |
| CIS     | 235         | Introduction to Information Systems              | Survey course introducing the competitive and strategic uses of information systems, how information systems are transforming organizations and their management, and the issues, difficulties, and opportunities facing the technology professional and business manager today.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Pre-requisite(s): CIS 105, 200 or 220 with C or better; MAT 210, 270, 211 or 271 with C or better; Credit allowed for only CIS 235 or CIS 236                    |
| CIS     | 236         | Honors Introduction to Information Systems       | Introduces strategic leveraging of IS solutions and surveys different facets of IS in order to gain an understanding of how business problems are addressed and opportunities realized.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Department of Information Systems | 3     | CS              | Prerequisite(s): Barrett Honors student  |
| CIS     | 294         | Special Topics                                   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Information Systems | 1-4   |                 | Pre-requisite: Accountancy or Computer Information Systems BS or PRE student   |
| CIS     | 300         | Web Design and Development                       | Focuses on Web site development, including target audience, image presentation, page/content topic organization, site navigational functionality, implementation needs, and future needs. Web site design and development practice using business software products.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): minimum 2.00 GPA; minimum 56 hours, OR post-baccalaureate undergraduate student, OR non-degree student; minimum 2.00 GPA, OR graduate student   |
| CIS     | 308         | Advanced Excel in Business                       | Covers advanced Excel skills using an applied focus on different types of decisions one may analyze using spreadsheet capabilities; graphs and charts to communicate complex analytics; pivot tables to slice and dice data for reporting.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): CIS 105 or CIS 236 with C or better; minimum 45 hours; Credit is allowed for only CIS 308 or CIS 394 (Advanced Excel in Business)               |
| CIS     | 309         | Business Process Management                      | Flow charting, swimlane diagramming, process simulation using modern tool suites. Teaches the types of process evaluation decision analytics most commonly used and covers applied process analysis in a variety of contexts.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): CIS 105 or CIS 236 with C or better; minimum 45 hours; Credit is allowed for only CIS 309 or CIS 394 (Process Management)                       |
| CIS     | 310         | Business Data Visualization                      | The design of insightful business data visualizations and dashboards to improve business decision making. Applies advanced data visualization techniques to make sense of temporal, geospatial, topical and network business data while also making it easier to digest and utilize for business users.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): CIS 105 or 236 with C or better   |
| CIS     | 311         | Business Project Management                      | Overview of project management emphasizing the fundamentals and analytics that can support project decision making. Covers project planning, resource and disruption management and problem resolution skills. Leverages widely available project management computer tools.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): CIS 105 or CIS 236 with C or better; minimum 45 hours; Credit is allowed for only CIS 311 or CIS 394 (Project Management - Information Systems) |

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                       | Department                        | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|-------------------------------|-----------------------------------|-------|-----------------|--|
| CIS     | 312         | Business Mobile Commerce and Monetization             | Teaches students the entire mobile commerce process starting with recognizing what it is, what it does, how to build it and the business value of it. Familiarizes students with software development platforms and ecosystems, strategies for development and deployment, and monetization strategies.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): CIS 105 or 236 with C or better; minimum 45 hours; Credit is allowed for only CIS 294 (Business Mobile App Development and Monetization) or CIS 312   |
| CIS     | 315         | Introduction to Business Data Analytics               | Overview of analytics in the business context; concepts of strategic and operational analytics; overview of concepts like dimensional modeling, the Model Lifecycle, data mining, big data, KPIs and metrics, ERP and analytics, in-database/memory analytics; real-time analytics and data stream analysis.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): Business Data Analytics BS major; CIS 235 or 236 with C or better; ECN 221 or 231 with C or better; MAT 211, 266, or 271 with C or better   |
| CIS     | 325         | Fundamental Techniques for Business Data Analytics    | Manipulating, processing, cleaning and crunching data with a focus on utilizing scripting and programming tools toward business applications. Also a practical, modern introduction to extraction, transformation and loading of enterprise data for business applications.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): Business Data Analytics BS major or Computer Information Systems BS major or Business (Information Security) major; CIS 235 or 236 with C or better; ECN 221 or 231 with C or better; MAT 211, 266, or 271 with C or better |
| CIS     | 340         | Business Information System Development I             | Systems Development Life Cycle (SDLC) tools, techniques, and methodologies used to plan and analyze the needs of modern business information system development.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W. P. Carey CIS BS student; ACC 241, 242 or 271 with C or better; CIS 235 or 236 with C or better; ECN 221 with C or better; MAT 211 with C or better.  |
| CIS     | 345         | Business Information System Development II            | Provides a clear understanding of the Systems Development Life Cycle (SDLC) tools, techniques, and methodologies used to design, implement, and support modern business information systems development.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): Computer Information Systems BS major; CIS 340 with C or better   |
| CIS     | 355         | Business Data Warehouses and Dimensional Modeling     | SQL, stored procedures and data warehouse architectures; data warehouse requirements definition, design and analysis; overview of the steps in building information-enabled business models; role of data warehousing in data mining and analytics.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisites(s): BS Business Data Analytics major. Corequisite(s): CIS 315  |
| CIS     | 360         | Business Database Concepts                            | Database theory, design, and application, including the entity-relationship model; the relational, hierarchical, and network database models; and query languages.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W. P. Carey Accountancy BS or Business (Information Security) BA major; ACC 231, 232 or 261 with C or better; ACC 241, 242 or 271 with C or better; CIS 105 or 236 with C or better   |
| CIS     | 365         | Business Database Systems Development                 | Focuses on business database and data warehousing systems, development and management. Topics include capturing business requirements using data modeling, SQL, data security, operational and analytical data stores and data integrity.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): Computer Information Systems BS major; CIS 235 or 236 with C or better  |
| CIS     | 375         | Business Data Mining                                  | Building predictive analytics (e.g., SEMMA, KDD); exposure to logistic regression, machine learning and decision tree methods; Understanding lift factors, ROC curves; hands-on use of mining software; business case studies.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): CIS 315 with C or better; BS Business Data Analytics major  |
| CIS     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Information Systems | 1-4   |                 | Pre-requisites: Minimum 2.0 ASU cum GPA and minimum 56 earned hours, OR Non-degree student with minimum 2.0 ASU cum GPA, OR Graduate student   |
| CIS     | 401         | Managing Cyber Risks in Enterprise Business Processes | Covers the activities, decisions, risks and controls associated with enterprise business processes. Specific focus on the activities in the sales-to-cash (revenue cycle) and purchase-to-pay (expenditure cycle) processes. Students understand how IT enables performing those processes more efficiently and effectively. In addition to identifying internal controls necessary for accurate, complete performance of processes, also covers the fundamentals of cybersecurity.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): ACO 320 or CIS 235 or CIS 236 or CSE 310 or IEE 305 with C or better; Credit is allowed for only ACC 444 or ACO 401 or CIS 401  |
| CIS     | 402         | Privacy, Ethics and Compliance Issues                 | Covers the activities, mechanisms and challenges associated with implementing the principles of privacy into corporate structures. Also provides an overview of the privacy regulatory landscapes as well as emerging challenges with privacy. Specific focus areas include the Generally Accepted Privacy Principles framework and the implementation of privacy controls via the use of process and technology.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): ACO 401, CIS 401, or CSE 465 with C or better; Credit is allowed for only ACO 402 or CIS 402  |
| CIS     | 405         | Business Intelligence                                 | Business intelligence (BI) is a term describing a broad category of applications, technologies, architectures and processes for gathering, storing, accessing and analyzing data to provide business users with timely information to enable better insights into project and process management and evidence-based decision making. BI is based on techniques for data decision capture, cleansing, validation, warehousing and analytics to help decision makers improve decision outcomes. Provides a capstone understanding of the concepts of managing data resources and the development of business intelligence capabilities using data visualization, data warehousing, data mining, online analytical processing decision support systems and other advanced BI topics. | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): CIS 105 or CIS 236 with C or better; minimum 45 hours; Credit is allowed for only CIS 394 (Business Intelligence) or CIS 405  |
| CIS     | 415         | Big Data Analytics in Business                        | Applications of machine learning, data and text mining for big data, Hadoop, cloud-based solutions, fundamentals of big data programming, social media and big data, NoSQL, GIS, business case studies.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): Business Data Analytics BS major; CIS 315 with C or better; CIS 325 with C or better  |

Students analyze, propose and develop a full technology solution for a business enterprise.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     | L               | Prerequisite(s): W.P. Carey Computer Information Systems BS major; CIS 401 with C or better; CIS 425 with C or better           |
| CIS     | 450         | Enterprise Analytics  | Model lifecycle analysis, analytics governance, aligning governance, aligning firm and analytics strategy, big data security issues, enterprise search, applied projects.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): BS Business Data Analytics major; CIS 355 with C or better, CIS 375 with C or better, CIS 415 with C or better |
| CIS     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | W.P. Carey School of Business | Department of Information Systems | 1-12  |                 | Pre-requisite: W.P. Carey CIS BS student  |
| CIS     | 492         | Honors Directed Study                                       | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Information Systems | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| CIS     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | W.P. Carey School of Business | Department of Information Systems | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| CIS     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | GNA           | W.P. Carey School of Business | Department of Information Systems | 1-4   |                 | Pre-requisites: W.P. Carey ACC BS or CIS BS student   |
| CIS     | 497         | Honors Colloquium   | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | N                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Information Systems | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| CIS     | 498         | Pro-Seminar   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Information Systems | 1-7   |                 | Prerequisite(s): W.P. Carey CIS BS major  |
| CIS     | 499         | Individualized Instruction                                  | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Information Systems | 1-3   |                 | Pre-requisites: W.P. Carey CIS BS student   |
| CIS     | 502         | Information Systems: Digital Innovations and Transformation | Organizational, strategic, and technical issues of the management of information. Evaluation, design, and use information systems as competitive advantage.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 1-4   |                 | Prerequisite(s): W.P. Carey MBA degree program student  |
| CIS     | 503         | Decision Making with Data Analytics                         | Presents frameworks and approaches to equip students to recognize patterns in data and models, recommend actions and implement organizational changes. Students learn multiple concepts to improve decision making in organizations including the curation of data repositories for cross-functional analytics, recognition of decision biases, recommendation and communication of business process changes, and the establishment of iterative processes for decision analytics. Readings address decision-making dilemmas and challenges facing managers in analytics-rich business environments. Students get an immersive experience in analyzing the individual biases inherent in decision making, the informational requirements and the data analytics governance requirements to ensure effective deployment and continuous renewal of analytics culture at the enterprise level. | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 2.5-3 |                 | Prerequisite(s): W.P. Carey graduate student  |
| CIS     | 505         | Introduction to Enterprise Analytics                        | Ensuring the foundational understanding of contextualized analytics within the business enterprise continuum by covering how data flows and is managed across the landscape of enterprise business processes.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey graduate student  |
| CIS     | 506         | Information Management                                      | Addresses central issues in managing information to achieve competitive advantage and support innovation. Specific topics covered include data quality, data modeling using both entity relationship models and star schemas, data governance, document management, document search, enterprise performance management and visualization techniques.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 1-4   |                 | Prerequisite(s): graduate W. P. Carey major   |
| CIS     | 508         | Data Mining I   | Charting a roadmap for data-driven decision making and getting a practical understanding of how IT tools and techniques can allow managers to extract predictive analytics and patterns from primarily numeric data.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey graduate student  |
| CIS     | 509         | Data Mining II  | Uses tools and techniques to analyze unstructured data that are applied to business problems to support informed decision making and the extraction of predictive analytics and patterns from primarily nonnumeric data.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Pre-req for CIS 509   |
| CIS     | 510         | Business Process and Workflow Analysis                      | Builds foundations for process analysis by focusing on information, documents, people, roles and business rules. Provides an introduction to various techniques and tools of process analysis, including an understanding of organizational issues in rolling out change initiatives.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey graduate major. Credit is allowed for only CIS 510 or CIS 591 (Business Process Workflow Analysis)  |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                                 | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                       | Department                        | Units | General Studies | Requirements  |
|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|-------------------------------|-----------------------------------|-------|-----------------|---|
| CIS     | 512         | Business Intelligence                        | Understanding how organizations make use of Business Intelligence (BI) to gain a sustainable competitive advantage. Builds the foundations for evidence-based managerial decision making. Covers technologies for data warehousing and data mining from a managerial perspective. Covers contemporary topics such as real-time BI, business analytics, and business performance management with the help of case studies, audio-video content, guest speakers, online forums to generate creative thinking and discussion. | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 1-4   |                 | Prerequisite(s): W.P. Carey graduate major  |
| CIS     | 515         | Business Analytics Strategy                  | Evaluating, strategically aligning, planning for and directing investments in and governance of processes for continuous renewal of analytics deployments in business.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Pre-requisite: W.P. Carey graduate major  |
| CIS     | 525         | Strategic Value of Information Technology    | Instills balanced and disciplined view of IT and business with their interplay. Assigns cases and assignments involving the symbiotic relationship of IT and business to provide real-world exposure for critical thinking and engaging discussion.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey graduate major; Credit is allowed for only CIS 525 or CIS 591 (Strategic Value of Information Technology) |
| CIS     | 540         | Enterprise Information Security and Controls | Provides a broad survey of information security and controls, utilizing the COBIT framework to illustrate how information security and controls contribute to effective IT governance. Develops an understanding of the issues associated with information security and effective IT governance, with particular emphasis on how management contributes to the effectiveness of an organization's information security program.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey graduate major. Credit is allowed for only CIS 540 or CIS 591 (Information Security & Controls)           |
| CIS     | 541         | Business Data Visualization                  | The design of insightful business data visualizations and dashboards to improve business decision making. Applies advanced data visualization techniques to make sense of large data sets including temporal, geospatial, topical and business data while also making it easier to digest, present and utilize for business needs and users.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey graduate student  |
| CIS     | 545         | Managing Enterprise Systems                  | Investigates major categories of enterprise systems, factors driving software adoption and keys for successful implementation. Pays special attention to evaluating the potential impact of emerging technologies on business environments.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey graduate major; Credit is allowed for only CIS 545 or CIS 591 (Enterprise Systems)                        |
| CIS     | 560         | IT Services and Project Management           | Provides an overview of the project management process groups and knowledge areas (defined by the PMBOK) and focuses on the application of key concepts, tools and techniques for delivering on-time, on-budget IT project and services that meet end-user needs.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey graduate major; Credit is allowed for only CIS 560 or CIS 591 (IT Services and Project Management)        |
| CIS     | 565         | Artificial Intelligence and Business         | Explores modern artificial intelligence (AI) technology, applications, techniques and their implications for business. People, process and technology factors related to the innovation and adoption of AI in the commercial enterprise and how it shapes the competition and society in the future. Also covers implications for information systems professionals as it pertains to managing the AI infrastructure (robots, algorithms, platforms).  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey graduate student  |
| CIS     | 575         | Emerging Technologies                        | Explores decision models and frameworks applied to assess, evaluate and implement emerging technologies. Explains the principles of sustaining and disruptive technological innovation on the adoption and diffusion of emerging technologies. Discusses the technical, industrial and legal parameters that enable convergence and commoditization of technologies.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey graduate major; Credit is allowed for only CIS 575 or CIS 591 (Emerging Technologies in IT)               |
| CIS     | 580         | Practicum                                    | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Information Systems | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CIS     | 584         | Internship                                   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Information Systems | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CIS     | 590         | Reading and Conference                       | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Information Systems | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CIS     | 591         | Seminar                                      | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Information Systems | 1-12  |                 | Pre-requisite: Specific W.P. Carey Graduate student   |
| CIS     | 592         | Research                                     | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Information Systems | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CIS     | 593         | Applied Project                              | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Information Systems | 1-12  |                 | Pre-requisite: Specific W.P. Carey Graduate student   |
| CIS     | 594         | Conference and Workshop                      | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Information Systems | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CIS     | 595         | Continuing Registration                      | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | LEC               | Y               | Z3            | W.P. Carey School of Business | Department of Information Systems | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| CMN     | 500         | Research Methods                                       | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences  | Dean, New Interdisciplinary Arts and Sciences | 1-12  |                 | Pre-requisite: Communication Studies Master of Arts student                        |
| CMN     | 502         | Theory and Practice in Communication and Persuasion    | Theoretical exploration of communicative and persuasive practices as applied in various contexts. Surveys classical, modern, and contemporary theories of persuasion.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Prerequisite(s): Communication Studies MA student                                  |
| CMN     | 505         | Methods in Applied Communication Research              | Examines the intellectual, practical, and ethical dimensions of engaging in applied research. Emphasizes empirical and quantitative methods.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Prerequisite(s): Communication Studies MA student                                  |
| CMN     | 506         | Humanistic Inquiry and Field Research in Communication | Examines interpretive, critical, and rhetorical approaches to communication and advocacy, including hermeneutics, ethnography, and cultural studies.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Pre-requisite: Communication Studies Master of Arts student                        |
| CMN     | 515         | Ethical Issues in Communication Advocacy               | Examines the ethical issues or concerns related to communication advocacy. Variable topics; examines research, theory, and/or practice.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Pre-requisite: Communication Studies Master of Arts student                        |
| CMN     | 516         | Mediation and Dispute Resolution                       | Examines advocacy's role in fair negotiation and effective and successful dispute resolution. Examines research, theory, and/or practice.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Prerequisite(s): Communication Studies MA student                                  |
| CMN     | 520         | Communication Campaigns                                | Explores public communication strategies aimed at advocating for general or specific audiences and/or for particular issues and causes.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Prerequisite(s): Communication Studies MA student; CMN 502 or 522 with C or better |
| CMN     | 522         | Argumentation and Advocacy                             | Introduces various models of argumentation and their applications to various spheres of advocacy.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Pre-requisite: Communication Studies Master of Arts students                       |
| CMN     | 531         | Communication and Social Change                        | Examines human communication and technologies of communication as agents of social change within groups, communities, organizations, and/or cultures.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Pre-requisite: Communication Studies Master of Arts student                        |
| CMN     | 532         | Advocacy in Interpersonal Settings                     | Examines particular relational contexts in which advocacy plays a pronounced role (e.g., personal, family, and service provider relationships).   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Pre-requisite: Communication Studies Master of Arts student                        |
| CMN     | 550         | Advocacy in Organizational Settings                    | Examines issues of upward influence, the expression of dissent, and grievance systems within organizational contexts.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Pre-requisite: Communication Studies Master of Arts student                        |

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department                                    | Units | General Studies | Requirements  |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|------------------------------|---|-------|-----------------|---|
| CMN     | 551         | Democracy and Power in Organizations                | Examines structural, historical, relational, and symbolic dimensions of organizational communication and discourses that foster or impede communication advocacy.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Prerequisite(s): Communication Studies MA student   |
| CMN     | 557         | Communication and Technology                        | Assesses technology's role in the social dynamics of human interaction. Emphasizes the impact of technology with regard to communication advocacy.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Pre-requisite: Communication Studies Master of Arts student   |
| CMN     | 565         | Globalization and Advocacy                          | Explores the forces leading to increased intergroup contact and their impact on social, economic, and political dynamics.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Pre-requisite: Communication Studies Master of Arts student   |
| CMN     | 570         | Communication and Advocacy in Social Context        | Variable topics course exploring the intersection of communication and advocacy in specific contexts not addressed in other elective courses.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Pre-requisite: Communication Studies Master of Arts student   |
| CMN     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 1-12  |                 | Prerequisite(s): Communication Studies MA student   |
| CMN     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 1-12  |                 | Prerequisite(s): Communication Studies MA student   |
| CMN     | 590         | Reading and Conference                              | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 1-12  |                 | Prerequisite(s): Communication Studies MA student   |
| CMN     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 1-12  |                 | Pre-requisite: Communication Studies Master of Arts student   |
| CMN     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 1-12  |                 | Prerequisite(s): Communication Studies MA student   |
| CMN     | 593         | Applied Project                                     | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 1-6   |                 | Prerequisite(s): Communication Studies MA student   |
| CMN     | 594         | Conference and Workshop                             | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | RSC               | Y               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 1-12  |                 | Prerequisite(s): Communication Studies MA student   |
| CMN     | 595         | Continuing Registration                             | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 1     |                 | Prerequisite(s): Communication Studies MA student   |
| CMN     | 598         | Special Topics                                      | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CMN     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 1-6   |                 | Prerequisite(s): Communication Studies MA student   |
| CNE     | 210         | Engineering Mechanics I: Statics                    | Force systems, resultants, equilibrium, distributed forces, area moments, fluid statics, internal forces, friction, and stability.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering    | Construction Engineering                      | 3     |                 | Prerequisite(s): FSE 100 with C or better; MAT 266 (or MAT 271) with C or better; PHY 121 with C or better; PHY 122 with C or better; Credit is allowed for only CEE or CNE 210 |
| CNE     | 212         | Engineering Mechanics II: Dynamics                  | Kinematics and kinetics of particles, translating and rotating coordinate systems, rigid body kinematics, dynamics of systems of particles and rigid bodies, and energy and momentum principles.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Construction Engineering                      | 3     |                 | Prerequisite(s): CEE 210 (or CNE 210) and MAT 275 (or MAT 274) completed with C or better; Credit is allowed for only CEE or CNE 212  |
| CNE     | 213         | Introduction to Deformable Solids                   | Strain-displacement and stress-strain-temperature relations. Stresses and deformations due to axial, shear, torsional and bending moments. Buckling, stability.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Construction Engineering                      | 3     |                 | Prerequisite(s): CEE 210, CNE 210, or EVE 214 with C or better; MAT 274 or 275 with C or better; Credit is allowed for only CEE 213 or CNE 213                                  |
| CNE     | 241         | Surveying   | Theory and fieldwork in construction and land surveys.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Construction Engineering                      | 3     |                 | Prerequisite(s): MAT 170 or higher with C or better; Credit is allowed for only CEE 281, CNE 241 or CON 241   |
| CNE     | 243         | Heavy Construction Equipment, Methods and Materials | Emphasizes Horizontal construction. Fleet operations, maintenance programs, methods, and procedures to construct tunnels, roads, dams, and the excavation of buildings.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Construction Engineering                      | 3     |                 | Credit is allowed for only CON 243 or CNE 243   |
| CNE     | 271         | Construction Safety                                 | Safety procedures and equipment. OSHA requirements for construction. Biological aspects of construction safety.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Construction Engineering                      | 3     |                 | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; Credit is allowed for only CNE 271 or CON 271  |
| CNE     | 294         | Special Topics                                      | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering    | Construction Engineering                      | 1-4   |                 |   |
| CNE     | 296         | Summer Field Internship                             | Participation as interns on construction projects to observe and experience the daily activities.   | N                 | PRA               | N               | OPT           | Ira A. Fulton Engineering    | Construction Engineering                      | 1     |                 | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; CON 271 or CNE 271; Credit is allowed for only CON 296 or CNE 296                            |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                               | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department               | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--------------------------|-------|-----------------|---|
| CNE     | 321         | Structural Analysis and Design             | Statically determinate and indeterminate structures (trusses, beams, and frames) by classical and matrix methods. Introduces structural design.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Construction Engineering | 4     |                 | Prerequisite(s): Civil Engineering BSE or Construction Engineering BSE major; CEE 212 or CNE 212 or MAE 212; CEE 213 or CNE 213 with C or better; Credit is allowed for only CEE 321 or CNE 321   |
| CNE     | 351         | Geotechnical Engineering                   | Index properties and engineering characteristics of soils. Compaction, permeability and seepage, compressibility and settlement, and shear strength.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Construction Engineering | 4     |                 | Prerequisite(s): CEE 213 or CNE 213 with C or better; BSE Civil Engineering or Construction Engineering major; Credit is allowed for only CEE or CNE 351  |
| CNE     | 353         | Civil Engineering Materials                | Structure and behavior of civil engineering materials, including steel, aggregate, concrete, masonry, asphalt, wood, composites. Atomic structure and engineering applications.                           | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Construction Engineering | 4     |                 | Prerequisite(s): CEE 213 or CNE 213 with C or better; Civil Engineering or Construction Engineering BSE major; Credit is allowed for only CEE 353 or CNE 353  |
| CNE     | 383         | Construction Estimating                    | Analyzes construction drawings and specifications. Utilizes advanced technical and ethical practices in estimating process. Quantity surveying techniques for CSI divisions.                              | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Construction Engineering | 4     |                 | Prerequisite(s): Construction Management BS major; CON 243 and CON 252 OR Construction Engineering BSE major; CNE 243 or CON 243; Credit is allowed for only CNE 383 or CON 383   |
| CNE     | 394         | Special Topics                             | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Construction Engineering | 1-4   |                 |   |
| CNE     | 400         | Earth Systems Engineering and Management   | Introduces earth systems engineering and management, and the technological, economic and cultural systems underlying the terraformed Earth.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Construction Engineering | 3     | (L or HU) & H   | Prerequisite(s): Civil Engineering BSE major; CEE 300 with C or better OR non-CEE junior or senior; Credit is allowed for only CEE 400 or CNE 400   |
| CNE     | 420         | Steel Structures                           | Behavior of structural components and systems. Design of steel members and connections. Load and resistance factor design methods.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Construction Engineering | 3     |                 | Prerequisite(s): BSE Civil Engineering or Construction Engineering major; CEE 321, or CNE 321 with C or better. Credit is allowed for only CEE 420 or CNE 420   |
| CNE     | 421         | Concrete Structures                        | Behavior of concrete structures and the design of reinforced and prestressed concrete members, including footings. Partial design of concrete building system.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Construction Engineering | 3     |                 | Prerequisite(s): BSE Civil Engineering or Construction Engineering major; CEE 321 or CNE 321 with C or better; Credit is allowed for only CEE or CNE 421  |
| CNE     | 450         | Geotechnical Applications for Construction | Soil formation, engineering properties and use as building materials. Soil's influence on construction of built environment, including specifications and biological aspects.                             | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Construction Engineering | 3     |                 | Prerequisite(s): Construction Management BS major; CON 223 with C or better; CON 310; Credit is allowed for only CNE 450 or CON 450   |
| CNE     | 452         | Foundations                                | Applies soil mechanics to foundation and retaining wall systems, including bearing capacity, settlement, and lateral earth pressure.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Construction Engineering | 3     |                 | Prerequisite(s): Civil Engineering BSE or Construction Engineering major; CEE 351 or CNE 351 with C or better; Credit is allowed for only CEE 452 or CNE 452  |
| CNE     | 453         | Construction Technology                    | Building information modeling, including current computer programs and technology planning strategies for advanced project deliveries.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Construction Engineering | 3     |                 | Prerequisite(s): Construction Management BS major; CON 251 OR Construction Engineering BSE major; minimum senior standing; Credit is allowed for only CNE 453 or CON 453  |
| CNE     | 455         | Construction Project Management II         | Advanced topics in administrative procedures, planning processes, and coordination required to successfully complete construction projects on time and budget.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Construction Engineering | 3     |                 | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; CNE 453 or CON 453; Pre- or corequisite(s): CNE 495 or CON 495; Credit is allowed for only CNE 455 or CON 455  |
| CNE     | 484         | Internship                                 | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Ira A. Fulton Engineering | Construction Engineering | 1-12  |                 | Prerequisite(s): Construction Management BS major with CON 296 or CNE 296 OR Construction Engineering BSE major with CON 271 or CNE 271; Credit is allowed for only CON 484 or CNE 484  |
| CNE     | 486         | Integrated Civil Engineering Design        | Requires completion of a civil engineering design in a simulated practicing engineering environment. Limited to undergraduates in their final semester.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Construction Engineering | 4     | L               | Prerequisite(s): Civil Engr major; CEE 321; CEE 341; CEE 351; CEE 353; CEE 361; CEE 372 OR Construction Engr major; CEE 321 or CNE 321; CEE 351 or CNE 351 OR Environmental Engr major; CEE 351; CEE 353; Credit is allowed for only CEE 486 or CNE 486 |
| CNE     | 494         | Special Topics                             | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Construction Engineering | 1-4   |                 |   |
| CNE     | 495         | Construction Planning and Scheduling       | Various network methods of project scheduling, such as AOA, AON Pert, bar-charting, line-of-balance, and VPM techniques. Microcomputers used for scheduling, resource allocation, and time/cost analysis. | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Construction Engineering | 3     | CS              | Prerequisite(s): Construction Management BS major or Construction Engineering BSE major; CON 383 or CNE 383; Credit is allowed for only CON 495 or CNE 495  |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                                  | Department                                    | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|--|---|-------|-----------------|--|
| CNE     | 496         | Construction Contract Administration                 | Surveys administrative procedures of general and subcontractors. Studies documentation, claims, arbitration, litigation, bonding, insurance, and indemnification. Discusses ethical practices.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Construction Engineering                      | 3     | L               | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; CNE 453 or CON 453; Credit is allowed for only CNE 496 or CON 496 |
| COE     | 501         | Introduction to Research and Evaluation in Education | Overview of educational inquiry from controlled, quantitative to qualitative, naturalistic. Emphasizes locating and critically interpreting published research.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College           | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only COE 501 or ECD 503 or PPE 501 or SPE 501 or TEL 501       |
| COE     | 502         | Introduction to Data Analysis                        | Descriptive statistics, visual approaches, estimation, and inferential methods for univariate and bivariate educational research problems. Experience using statistical software.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College           | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| COE     | 503         | Introduction to Qualitative Research                 | Terminology, historical development, approaches (including ethnography, ethnomethodology, critical theory, grounded theory, and hermeneutics), and qualitative versus quantitative social sciences; methods of inquiry.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College           | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| COE     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | N                 | PRA               | N               | OPT           | MaryLouFulton Teachers College           | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| COE     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College           | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| COE     | 594         | Conference and Workshop                              | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College           | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| COE     | 595         | Continuing Registration                              | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College           | Educational Leadership & Innovation, Division | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| COE     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College           | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| COE     | 695         | Continuing Registration                              | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College           | Educational Leadership & Innovation, Division | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| COE     | 784         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College           | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| COE     | 791         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College           | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| COE     | 792         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College           | Educational Leadership & Innovation, Division | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| COE     | 799         | Dissertation   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | MaryLouFulton Teachers College           | Educational Leadership & Innovation, Division | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| COM     | 100         | Introduction to Human Communication                  | Topics-oriented introduction to basic theories, dimensions, and concepts of human communicative interaction and behavior.   | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts      | 3     | SB              |  |

| COM     | 314         | Inner-City Families: The Cycle of Poverty                       | Examines issues and concerns that confront inner-city families. Blends theory and application. From a theoretical perspective, examines issues that affect families who live in the inner city (e.g., race and poverty), as well as specific skills and programmatic elements that are needed to work with families in an urban setting. In terms of application, provides an intensive service-learning-based experience. Engages students in specific service to an embedded inner-city organization for a minimum of 3 hours per week. Students work with the professor to determine appropriate service placements. | N                 | PRA               | Y               | GNA           | New Interdis Arts & Sciences             | School of Social and Behavioral Sciences | 3     |                 | Pre-requisite: COM 100 OR Junior standing; Credit is allowed for only COM 314 or 498 (Inner City Family)                                     |
| COM     | 316         | Gender and Communication  | Introduces gender-related communication. Research into the practical uses of performed literature.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 3     |                 | Prerequisite(s): minimum 2.00 GPA   |
| COM     | 342         | Oral History and Storytelling               | Examines the formation of culture and history through research, presentations, the collection of oral history, and the telling of stories.  | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences             | School of Social and Behavioral Sciences | 3     |                 | Pre-requisite: ENG 101 or 102; Credit is allowed for only CMN 394 (Storytelling and Oral History), COM 342 or 394 (Storytelling and Oral History) |
| COM     | 353         | Professional Communication                  | Introduces both verbal and written professional communication styles and technologies in preparation for communication-related internships and careers.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences             | School of Social and Behavioral Sciences | 3     |                 | Pre-requisite: Minimum 2.0 GPA  |
| COM     | 364         | Cultural Communicology                      | Basic introduction to cultural communicology, focusing on its relationship to general systems theory and semiotics (the study of signs and sign systems). Focuses on lived-experience as a semiotic interrelation between culture and communication. General systems theory and semiotic theory are used to study culture as a living condition of communicative relations among humans and within their environment. Emphasizes practical applications to real-world problems. Examines communication as a confluence of intrapersonal, interpersonal, group and transcultural networks of codes and messages. Uses comparative cultural contexts as a basis for applied analysis. | N                 | LEC               | N               | GNA           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): COM 100; Credit is allowed for only COM 364 or COM 394 (Cultural Communicology)  |

| COM     | 377         | Communication, Terrorism, and National Security | Surveys strategic communication and its relationship to terrorism challenges facing the United States and the rest of the world. Begins with a look at language and definitions, how strategic communication functions are traditionally conceptualized, and the scope and extent of the terrorism problem. Focuses on the contemporary problems of terrorism, including its extent, tactics, and strategies and strategies that aim to combat it. Concludes with a look at new frontiers in the terrorism struggle, including new media and communication approaches.   | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 3     |                 | Prerequisite(s): minimum junior standing; minimum 2.00 GPA  |

| COM     | 457         | New Media  | Explores how new communication and information technologies affect communication and culture.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences             | School of Social and Behavioral Sciences | 3     |                 | Prerequisite(s): COM 207 with C or better OR minimum junior standing; minimum 3.0 GPA   |
| COM     | 459         | Theory and Methods of Social Media Networks            | A network-based perspective plays an increasingly important role in our understanding of contemporary communication process of which much has shifted from a hierarchical, densely bounded group basis to a personalized, lateral network. Especially, along with the popularity of social media, social networking has become a key term that characterizes our everyday life. Discusses the role of new media technologies in evolving networked society, and how online networks are intertwined with our offline life. Covers theories and computerized methods that help understand online network structure. Includes lectures and discussions on theoretical issues with hands-on exercises of analytic methods.   | N                 | LEL               | N               | GNA           | New Interdis Arts & Sciences             | School of Social and Behavioral Sciences | 3     |                 | Prerequisite(s): minimum junior standing; minimum 2.50 GPA; MAT 142 or higher with C or better; Credit is allowed for only COM 459 or COM 494 (Social Networks)                                       |
| COM     | 463         | Intercultural Communication in a Global Context        | Survey and analysis of major theories and research dealing with communication between people of different cultural backgrounds, primarily in international settings.  | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     | SB & G          | Prerequisite(s): COM 263 with C or better; COM 308 with C or better; minimum 2.00 GPA   |

| COM     | 464         | Communicative Sexualities                              | Grounded in the discipline of communicology, provides an introduction to the qualitative research practice of semiotic phenomenology. Examines sexuality as a personal, social, historical, and cultural phenomenon, wherein communication is studied as the mediating force through which meanings are ascribed to sexuality and sexual experience. Sexuality is studied as it manifests among a wide variety of people, practices, and contexts. U.S. American culture provides the primary cultural context. Addresses basic questions including: How do we understand sexuality? How have we come to know what we know about sexuality? How do we understand the relationship between sexuality as personal desire, and sexuality as social norm in specific cultural contexts. | N                 | LEC               | N               | GNA           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     | SB              | Prerequisite(s): ENG 101, 105, or 107 with C or better; Pre- or corequisite(s): minimum junior standing; minimum 2.50 GPA; Credit is allowed for only COM 464   |
| COM     | 465         | Intercultural Communication Workshop                   | Experientially based study of communication between members of different cultures designed to help students improve their intercultural communication skills.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1-3   |                 | Prerequisite(s): minimum 2.00 GPA   |

| COM     | 471         | Global Media and Cultural Identity   | Explores theory and practices of global media production, dissemination and consumption. Surveys the ways in which local, regional and global sociocultural and political forces interplay to shape cultural identities and media consumption.  | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences             | School of Social and Behavioral Sciences | 3     | G               | Prerequisite(s): minimum 2.50 GPA; junior standing  |
| COM     | 477         | Sport, Culture, and Discourses       | Introduces sport as a global economic and cultural force, and as a foundational discourse experienced largely through media. Facilitates the understanding of sport as a major cultural and socializing institution and, thus, as a key site for the construction of knowledge, understandings, ideologies, and identities.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences             | School of Social and Behavioral Sciences | 3     |                 | Prerequisite(s): minimum 2.50 GPA   |
| COM     | 483         | Advanced Communication and Mentoring | Students serve as peer mentors in the Communication Assessment Learning Lab (CALL) with instructional emphasis on speaker apprehension, listening, the dynamics of group communication and leadership. Through experiential learning, mentors employ ethical peer tutoring practices by coaching undergraduates in managing public speaking apprehension, speech development and organization. Further, mentors provide on-the-spot feedback to undergraduates relating to delivery techniques, style, nonverbal communication, persuasive strategies and the use of presentational material. | N                 | LEL               | Y               | GNA           | New Interdis Arts & Sciences             | School of Social and Behavioral Sciences | 3     |                 | Prerequisite(s): COM 383 with C or better   |

| COM     | 501         | Research Methods in Communication              | Critical analysis of systems of inquiry in communication, focusing on the identification of variables and approaches to conducting research in communication.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 3     |                 | Prerequisite(s): Communications graduate student   |
| COM     | 504         | Theories and Models in Communication           | Theory construction, metatheoretical concerns, models, construct definition, and comparative analysis of current theories in communication.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 3     |                 | Prerequisite(s): Communications graduate student   |
| COM     | 507         | Qualitative Research Methods in Communication  | Qualitative research methods, including interviewing, field methods, and other nonquantitative techniques for analyzing communication.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 3     |                 | Prerequisite(s): Communications Graduate student; Credit is allowed for only COM 407 or 507    |
| COM     | 508         | Quantitative Research Methods in Communication | Empirical research designs, measurements, and statistical strategies and techniques in analyzing and evaluating experimental and descriptive research in communication.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 3     |                 | Pre-requisites: Communications Graduate student. Credit is allowed for only COM 408 or COM 508 |
| COM     | 510         | Transmedia Narratives                          | Explores the history, production, distribution and consumption of transmedia narratives as an emergent multiple-platform dynamic of storytelling. Focuses on digital storytelling, the dynamics of nonlinear narrative and immersive audience experience.   | N                 | SEM               | N               | GNA           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                 |
| COM     | 540         | Conducting Communication Research              | Develops the skills necessary to conduct communication research in the workplace. Students develop a research proposal for a project that they could conduct at their current jobs or a job they would like to have. They may choose to develop a proposal for their capstone project or a project that they would like to conduct in the future.   | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 3     |                 | Prerequisite(s): COM 501; COM 504; minimum four completions of COM 598                         |
| COM     | 550         | Capstone                                       | Culminating experience of the Master of Arts in Communication. The capstone course allows each student to develop a project that answers a question or solves a problem tailored to his or her interests, needs and goals. Develops final products individually based on consultation with faculty. Each student has a two-faculty member committee to support the capstone project.  | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 3     |                 | Prerequisite(s): COM 501; COM 504; COM 540; minimum four completions of COM 598                |
| COM     | 580         | Practicum                                      | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                 |
| COM     | 584         | Internship                                     | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                 |
| COM     | 590         | Reading and Conference                         | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | PRA               | Y               | Z1            | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                 |
| COM     | 592         | Research                                       | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                 |
| COM     | 593         | Applied Project                                | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                 |
| COM     | 594         | Conference and Workshop                        | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | PRA               | Y               | OPT           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1-12  |                 | Pre-requisite: Communications Graduate student   |
| COM     | 595         | Continuing Registration                        | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                 |
| COM     | 598         | Special Topics                                 | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                 |
| COM     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | PRA               | Y               | Z2            | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                 |
| COM     | 600         | Research Methods                               | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                 |
| COM     | 604         | Theory Construction in Communication           | Review and analysis of philosophical problems inherent in communicative research and of metatheories designed to deal with these problems.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 3     |                 | Prerequisite(s): Communications PhD student  |

| COM     | 608         | Multivariate Statistical Analysis of Data in Communication   | Statistical analysis of communication research data. Multivariate procedures used in communication research and methods of causal analysis.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 3     |                 | Prerequisite(s): Communications PhD student   |
| COM     | 609         | Advanced Qualitative Research Methods in Communication       | Analysis of issues in the practice of qualitative communication research, including data gathering, fieldwork issues, analysis strategies, and reporting results.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 3     |                 | Prerequisite(s): Communications PhD student   |
| COM     | 680         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1-12  |                 | Pre-requisite: Communications PhD student   |
| COM     | 690         | Reading and Conference                                       | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | PRA               | Y               | Z1            | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| COM     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): Communications Graduate student  |
| COM     | 692         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| COM     | 700         | Research Methods   | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| COM     | 780         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): Communications PhD student; COM 600 or COM 608 with B or better; COM 601 or COM 700 with B or better |
| COM     | 790         | Reading and Conference                                       | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | PRA               | Y               | OPT           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| COM     | 791         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| COM     | 792         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| COM     | 795         | Continuing Registration                                      | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| COM     | 799         | Dissertation   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | PRA               | Y               | Z2            | The College of Liberal Arts and Sciences | Hugh Downs School of Human Communication | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CON     | 100         | Introduction to Construction                                 | Introduces construction industry sectors and professionals. Additional content includes developing personal competencies required of construction professionals.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Del E. Webb Construction                 | 2     |                 |   |
| CON     | 101         | Construction and Culture: a Built Environment                | Analyzes the cultural context of construction, emphasizing its centrality in the evolution and expansion of built environments as expressions of ethical and historical value systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Del E. Webb Construction                 | 3     | HU & H          |   |
| CON     | 106         | Introduction to Concrete Materials for the Built Environment | Effects of concrete-making materials (aggregates, cements, admixtures, etc.) on the properties of fresh and hardened concrete. Discusses concrete mixture proportioning along with the calculations and statistical analysis of strength testing.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering                | Del E. Webb Construction                 | 4     | SQ              |   |
| CON     | 191         | First-Year Seminar   | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering                | Del E. Webb Construction                 | 1-3   |                 |   |
| CON     | 194         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering                | Del E. Webb Construction                 | 1-4   |                 |   |
| CON     | 221         | Applied Statics  | Vectors, forces and moments, force systems, equilibrium, analysis of basic structures and structural components, friction, centroids, and moments of inertia.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Del E. Webb Construction                 | 2     |                 | Prerequisite(s): MAT 170 or higher with C or better; PHY 111 with C or better; PHY 113 with C or better               |
| CON     | 223         | Strength of Materials  | Analyzes strength and rigidity of structural members in resisting applied forces. Stress, strain, shear, moment, deflections, combined stresses, and connections.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Del E. Webb Construction                 | 2     |                 | Prerequisite(s): CON 221 with C or better   |
| CON     | 241         | Surveying  | Theory and fieldwork in construction and land surveys.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Del E. Webb Construction                 | 3     |                 | Prerequisite(s): MAT 170 or higher with C or better; Credit is allowed for only CEE 281, CNE 241 or CON 241           |
| CON     | 243         | Heavy Construction Equipment, Methods and Materials          | Emphasizes Horizontal construction. Fleet operations, maintenance programs, methods, and procedures to construct tunnels, roads, dams, and the excavation of buildings.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Del E. Webb Construction                 | 3     |                 | Credit is allowed for only CON 243 or CNE 243   |
| CON     | 244         | Working Drawing Analysis                                     | Provides the ability to read and understand architectural plans; to understand drawing symbols, dimensions, abbreviations, and terms.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Del E. Webb Construction                 | 2     |                 |   |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title  | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department               | Units | General Studies | Requirements   |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|---------------------------|--------------------------|-------|-----------------|--|
| CON     | 251         | Microcomputer Applications for Construction                 | Applies the microcomputer as a problem-solving tool for the constructor. Uses spreadsheets, information management, and multimedia software.   | N                 | LAB               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): MAT 170 or higher with C or better  |
| CON     | 252         | Building Construction Methods, Materials, and Equipment     | Emphasizes Vertical construction. Methods, materials, codes, and equipment used in building construction corresponding to the division of the CSI Master Format.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 |  |
| CON     | 271         | Construction Safety   | Safety procedures and equipment. OSHA requirements for construction. Biological aspects of construction safety.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; Credit is allowed for only CNE 271 or CON 271   |
| CON     | 273         | Electrical Construction Fundamentals and Project Management | Electrical construction, design, estimating, scheduling and project management. Electrical safety, blueprints and symbols, theory, sequence of installation. National Electrical Code (NEC).   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 |  |
| CON     | 294         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 1-4   |                 |  |
| CON     | 296         | Summer Field Internship                                     | Participation as interns on construction projects to observe and experience the daily activities.  | N                 | PRA               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 1     |                 | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; CON 271 or CNE 271; Credit is allowed for only CON 296 or CNE 296   |
| CON     | 310         | Testing of Materials for Construction                       | Structural and behavioral characteristics, engineering properties, measurements, and application of construction materials. Not open to engineering students.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 4     |                 | Prerequisite(s): Construction Management BS major; CON 221 with C or better; CON 223 with C or better  |
| CON     | 343         | Advanced Heavy Equipment Operations                         | Reviews the principles of horizontal construction. Emphasizes fleet operations, maintenance programs, methods and procedures to construct tunnels, roads, dams and the excavation of buildings.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): CON 252; minimum junior standing; Credit is allowed for only CON 343 or CON 394 (Advanced Heavy Equipment Operations)   |
| CON     | 345         | Mechanical Systems  | Design parameters and equipment related to heating and cooling systems for mechanical construction. Biorelated aspects of mechanical systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction Management BS major; CON 221 with C or better; CON 252 with C or better; PHY 111 or 121 with C or better; PHY 113 or 122 with C or better  |
| CON     | 377         | Residential Construction Production Procedures              | Process used in residential construction. How a house is built: design, permits, scheduling, codes, contracting, site management, mechanical/electrical.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction BS major or Design BSD major; CON 221 with C or better; CON 252  |
| CON     | 383         | Construction Estimating                                     | Analyzes construction drawings and specifications. Utilizes advanced technical and ethical practices in estimating process. Quantity surveying techniques for CSI divisions.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 4     |                 | Prerequisite(s): Construction Management BS major; CON 243 and CON 252 OR Construction Engineering BSE major; CNE 243 or CON 243; Credit is allowed for only CNE 383 or CON 383  |
| CON     | 384         | Environmental Aspects of Heavy Construction                 | Methods, measures and analysis related to control of erosion, dust generation and storm water discharge during projects.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): BS Construction Management major. Pre- or corequisite(s): CON 243. Credit is allowed for only CON 384 or CON 394 (Environmental Aspects of Heavy Construction)  |
| CON     | 389         | Construction Cost Accounting and Control                    | Nature of construction cost. Depreciation and tax theory and variable equipment costs. Cash flow theory, investment models, profitability, and analysis. Computer applications. Funding sources and arrangements. Builder's insurance.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     | CS              | Prerequisite(s): Engineering and Design BS or BSD major; CON 221 with C or better; CON 251 OR Construction Engineering student   |
| CON     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 1-4   |                 | Pre-requisite: Engineering BS or BSE student   |
| CON     | 424         | Structural Design   | Economic use of concrete, steel, and wood in building and engineered structures. Design of beams, columns, concrete formwork, and connections.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction Management BS major; CON 223 with C or better; Pre- or corequisite(s): CON 310   |
| CON     | 430         | Facilities Operations and Maintenance                       | Operations, maintenance and energy management requirements of various types of facilities and built environments. Ethical practices.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): minimum junior standing; Credit is allowed for only CON 430 or CON 494 (Facilities Management/Operations & Maintenance) or CON 530 or CON 598 (Facilities Management/Operations & Maintenance)  |
| CON     | 441         | Public Works Capital Construction                           | Practices and policies employed in delivering capital construction projects by government agencies at various levels. The full lifecycle of the typical public works capital construction project from planning, through design and construction, to operations and maintenance. Additional lecture topics include sustainability, strategic planning, risk management and safety. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): junior or senior Construction Engineering or Construction Management major; Credit is allowed for only for CON 441 or CON 541 or CEE 494/CON 494 (Public Works Capital Construction) or CEE 598/CON 598 (Public Works Capital Construction) |
| CON     | 446         | Marketing for Construction                                  | Provides key marketing practices to include strategic planning, marketing collateral, networking, business development, and interview preparation for project pursuits. Covers all aspects of service-based marketing topics and practices.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): COM 225; CON 221 with C or better   |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                                       | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department               | Units | General Studies | Requirements  |
|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|---------------------------|--------------------------|-------|-----------------|---|
| CON     | 448         | Sustainable Construction                           | Studies the principles associated with sustainable construction: problem definition, definition of sustainability, measures of sustainability, examination of current industry practices, financial and resource impacts of sustainable construction, independent student investigation.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction BS or Civil (Sustainable Engineering) BSE major; minimum senior standing; Credit is allowed for only CON 448 or CON 494 or CON 598 (Sustainability in Construction)                     |
| CON     | 450         | Geotechnical Applications for Construction         | Soil formation, engineering properties and use as building materials. Soil's influence on construction of built environment, including specifications and biological aspects.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction Management BS major; CON 223 with C or better; CON 310; Credit is allowed for only CNE 450 or CON 450   |
| CON     | 453         | Construction Technology                            | Building information modeling, including current computer programs and technology planning strategies for advanced project deliveries.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction Management BS major; CON 251 OR Construction Engineering BSE major; minimum senior standing; Credit is allowed for only CNE 453 or CON 453  |
| CON     | 454         | Trenchless Construction Methods                    | Theory and practice of trenchless construction methods. Types of equipment, roles of site personnel, engineering design, contractual issues and safety. Lecture, class projects, and site visits. Knowledge of heavy construction equipment, methods and materials required to be successful in this course.                     | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; Pre- or corequisite(s): CNE 243 or CON 243; Credit is allowed for only CON 454 or CON 494 (Trenchless Construction Mth) or CON 554 |
| CON     | 455         | Construction Project Management II                 | Advanced topics in administrative procedures, planning processes, and coordination required to successfully complete construction projects on time and budget.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; CNE 453 or CON 453; Pre- or corequisite(s): CNE 495 or CON 495; Credit is allowed for only CNE 455 or CON 455                      |
| CON     | 457         | Principles of Leadership for Project Managers      | Individual, organizational and process/structure leadership in project setting. Four-step leadership transformational model for project leaders. Project leadership tools and applications to motivation, conflict management, team building and delegation of risk.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Pre-requisites: BS Construction Management or BSE Construction Engineering major; Pre/Co-requisite(s): CON 243; Credit is allowed for only CON 457, 494 (Prin Lead & Management), 557 or 598 (Prin Lead and Mgmt)     |
| CON     | 465         | Deductive Logic, Leadership and Industry Structure | Simple, logical explanations of construction and other industries. State-of-the-art supply chain, profit maximizing and efficient practices.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): junior or senior standing; Credit is allowed for only CON 465 or CON 565   |
| CON     | 467         | Advanced Procurement Systems                       | Development of multicriteria decision procurement model for selecting the performing contractor.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): junior or senior standing; Credit is allowed for only CON 467 or CON 567 or CON 494 (Advanced Procurement Systems)   |
| CON     | 471         | Mechanical and Electrical Project Management       | Specialty contracts and agreements, scheduling, material handling, labor unit analysis, and job costing for mechanical and electrical construction.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction BS major; CON 453 with C or better  |
| CON     | 472         | Development Feasibility Reports                    | Integrates economic location theory, development cost data, market research data, and financial analysis into a feasibility report.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     | L               | Pre-requisite: Construction BS or Design BSD student; REA 380   |
| CON     | 477         | Residential Construction Business Practices        | Topics addressed include development, marketing, financing, legal issues, and sales.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Engineering BS major or Design BSD major; CON 377 with C or better; CON 389 with C or better; CON 446 with C or better or MKT 382 or 395   |
| CON     | 483         | Advanced Building Estimating                       | Concepts of pricing and markup, development of historic costs, life cycle costing, change order and conceptual estimating.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction BS major; CON 383 with C or better  |
| CON     | 484         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | PRA               | Y               | Z1            | Ira A. Fulton Engineering | Del E. Webb Construction | 1-12  |                 | Prerequisite(s): Construction Management BS major with CON 296 or CNE 296 OR Construction Engineering BSE major with CON 271 or CNE 271; Credit is allowed for only CON 484 or CNE 484                                |
| CON     | 486         | Heavy Construction Estimating                      | Methods analysis and cost estimation for construction of highways, bridges, tunnels, dams, and other engineering works.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction BS major; CON 383 with C or better OR Construction Engineering BSE major  |
| CON     | 487         | Heavy Construction Project Management              | Studies methods used to manage large magnitude heavy construction projects.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): BS Construction Management major; CON 243 (or CNE 243) with C or better; Credit is allowed for only CON 487 or 494 (Heavy Const Proj Mgmt)   |
| CON     | 488         | Heavy Construction Earthworks                      | Geotechnical issues with respect to foundation grading, forming and location for various types of infrastructure and transportation projects. Also includes streets, highway and embankment developments, retaining wall system, mechanically stabilized earth walls, and required quality control methods for these activities. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; Pre- or corequisite(s): CON 243; Credit is allowed for only CON 488 or CON 494 (Heavy Construction Earthworks)                     |
| CON     | 491         | Construction Project Capstone                      | Develops understanding and knowledge of topics and concepts required to be a construction manager. A construction project is the basis for applying cost estimating, scheduling, safety, communications and other construction management skills.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): CON 383; CON 495; Pre- or corequisite(s): CON 455; Credit is allowed for only CON 491 or CON 494 (Construction Project Capstone)   |

|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|---------------------------|--------------------------|-------|-----------------|--|
| CON     | 492         | Honors Directed Study                           | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.  | N                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Del E. Webb Construction | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| CON     | 493         | Honors Thesis                                   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | RSC               | N               | Z1            | Ira A. Fulton Engineering | Del E. Webb Construction | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| CON     | 494         | Special Topics                                  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 1-4   |                 |  |
| CON     | 495         | Construction Planning and Scheduling            | Various network methods of project scheduling, such as AOA, AON Pert, bar-charting, line-of-balance, and VPM techniques. Microcomputers used for scheduling, resource allocation, and time/cost analysis.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     | CS              | Prerequisite(s): Construction Management BS major or Construction Engineering BSE major; CON 383 or CNE 383; Credit is allowed for only CON 495 or CNE 495   |
| CON     | 496         | Construction Contract Administration            | Surveys administrative procedures of general and subcontractors. Studies documentation, claims, arbitration, litigation, bonding, insurance, and indemnification. Discusses ethical practices.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     | L               | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; CNE 453 or CON 453; Credit is allowed for only CNE 496 or CON 496   |
| CON     | 498         | Pro-Seminar                                     | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.   | Y                 | SEM               | Y               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 1-7   |                 |  |
| CON     | 499         | Individualized Instruction                      | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.  | Y                 | IND               | Y               | Z1            | Ira A. Fulton Engineering | Del E. Webb Construction | 1-3   |                 |  |
| CON     | 501         | Construction Research Methods                   | Data collection methodologies, applied parametric and nonparametric statistics, data analysis techniques, technical writing, and data presentation.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Pre-requisite: Construction Graduate student   |
| CON     | 502         | Front-End Planning                              | Principles and applications for effective early planning of capital facilities, including: finance, economics decision making, risk management, team alignment and front-end planning processes and tools.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): graduate Civil Engineering or Construction or Construction Engineering student; Credit is allowed for only CEE 502 or CON 502 or CON 598 (Front End Planning) or CEE 598 (Front End Planning)   |
| CON     | 530         | Facilities Operations and Maintenance           | Operations, maintenance and energy management requirements of various types of facilities and built environments. Ethical practices  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking); Credit is allowed for only CON 430, 494 (Facilities Management/Operations & Maintenance), 530 or 598 (Facilities Management/Operations & Maintenance)                         |
| CON     | 531         | Facility Management: Building Energy Management | Understand and learn energy management techniques in facilities management. Identifying and performing efficiency evaluations on various types of heating, ventilation and air conditioning systems in typical buildings. Concepts and methods of managing, adjusting and balancing equipment and systems for maximum facility performance. Facilities organizations best practices to maximize energy savings and performance, such as insulation usage, lighting optimization, energy management systems and commissioning procedures. Identification of ancillary benefits to energy-efficient building systems such as indoor air quality, sustainability and energy audits. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only CON 531 or CON 598 (Facility Management Building)   |
| CON     | 532         | Facilities Project Management                   | Understand and learn project management techniques in facilities management. Stakeholder analysis, including roles, responsibilities and risk considerations. Asset owner and manager considerations within project components and deliverables. Development of project scope, requirements, schedules, budgets and communication plans from a facility manager's perspective. Best practices of facilities organizations for managing contract types, contract governance and performance management.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate; Credit is allowed for only CON 532 or CON 598 (Facility Project Management)  |
| CON     | 540         | Construction Productivity                       | Productivity concepts. Data collection. Analysis of productivity data and factors affecting productivity. Means for improving production and study of productivity improvement programs.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction MS or Construction Engineering MSE major   |
| CON     | 541         | Public Works Capital Construction               | Practices and policies employed in delivering capital construction projects by government agencies at various levels. The full lifecycle of the typical public works capital construction project from planning, through design and construction, to operations and maintenance. Additional lecture topics include sustainability, strategic planning, risk management and safety.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): graduate Construction Engineering or Construction Management student; Credit is allowed for only for CON 441 or CON 541 or CEE 494/CON 494 (Public Works Capital Construction) or CEE 598/CON 598 (Public Works Capital Construction) |
| CON     | 545         | Construction Project Management                 | Theory and practice of construction project management. Roles of designer, owner, general contractor, and construction manager.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction or Construction Engineering graduate student   |

| CON     | 554         | Trenchless Construction Methods                    | Theory and practice of trenchless construction methods. Types of equipment, roles of site personnel, engineering design, contractual issues, and safety. Lecture, class projects, and site visits. Knowledge of heavy construction equipment, methods, and materials required to be successful in this course.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction Engineering OR Construction Management graduate student   |
| CON     | 557         | Principles of Leadership for Project Managers      | Individual, organizational and process/structure leadership in project setting. Four-step leadership transformational model for project leaders. Project leadership tools and applications to motivation, conflict management, team building and delegation of risk.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CON 457 or CON 494 (Prin Lead & Management) or CON 557 or CON 598 (Prin Lead and Mgmt) |
| CON     | 561         | International Construction                         | Investigation of the cultural, social, economic, political, and management issues related to construction in foreign countries and remote regions.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Pre-requisite: Engineering Graduate student   |
| CON     | 565         | Deductive Logic, Leadership and Industry Structure | Simple, logical explanations of construction and other industries. State-of-the-art supply chain, profit maximizing, and efficient practices.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): graduate student (degree seeking or nondegree seeking). Credit is allowed for only CON 465 or CON 565  |
| CON     | 567         | Advanced Procurement Systems                       | Development of multicriteria decision procurement model for selecting the performing contractor.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only CON 467, 567 or 494 (Advanced Procurement Systems)                              |
| CON     | 570         | Introduction to Advanced Technology Facilities     | Introduces advanced technology facilities such as cleanrooms, data centers, research labs, and hospitals. The constructor's viewpoint, including: planning, structures, mechanical, and tool installation. Site visits.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CON     | 571         | Construction of Advanced Technology Facilities     | Construction issues for advanced technology facilities such as cleanrooms, data centers, research labs, and hospitals. Issues include scheduling, cost estimating, project management, mechanical, safety, commissioning and tool hookup. Site visits.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): CON 570 with C or better   |
| CON     | 575         | Information Technology in Construction             | Uses virtual construction methodologies to improve the construction enterprise using communications, facility modeling, and decision making. Site visits.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CON     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CON     | 583         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CON     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Ira A. Fulton Engineering | Del E. Webb Construction | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CON     | 589         | Construction Company Financial Control             | Financial accounting and cost control at the company level in construction companies. Accounting systems. Construction project profit calculations. Financial analysis.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Pre-requisite: Engineering MS, MSE or PHD student   |
| CON     | 590         | Reading and Conference                             | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | Ira A. Fulton Engineering | Del E. Webb Construction | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CON     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CON     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Del E. Webb Construction | 1-12  |                 | Pre-requisite: Construction Masters student   |
| CON     | 593         | Applied Project                                    | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Del E. Webb Construction | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CON     | 594         | Conference and Workshop                            | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CON     | 595         | Continuing Registration                            | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | IND               | Y               | Z3            | Ira A. Fulton Engineering | Del E. Webb Construction | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CON     | 598         | Special Topics                                     | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 1-4   |                 | Prerequisite(s): Construction Engineering OR Construction Management graduate student   |
| CON     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering | Del E. Webb Construction | 1-12  |                 | Pre-requisite: Construction Masters student   |
| CON     | 680         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | N                 | PRA               | Y               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CON     | 693         | Applied Project                                    | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Del E. Webb Construction | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| CON     | 799         | Dissertation                                   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering                | Del E. Webb Construction                 | 1-15  |                 | Pre-requisite: Construction Doctoral student                                     |
| CPI     | 101         | Introduction to Informatics                    | Concepts, tools, techniques, and applications of informatics. Includes overview of programming, data management, visualization, modeling, and social implications.  | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     | CS              |  |
| CPI     | 101         | Introduction to Informatics                    | Concepts, tools, techniques, and applications of informatics. Includes overview of programming, data management, visualization, modeling, and social implications.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Computing and Informatics Program        | 3     | CS              |  |
| CPI     | 111         | Game Development I                             | Introduces video game design, art theory, and concepts as they apply to video game development. Basic art principles used in game development. Covers the fundamental video game art principles of 2-D and 3-D composition, color theory, modeling, and lighting techniques. Demonstrates practical application of these art fundamentals in establishing style guides, concept art, storyboards, and in-game assets. Also includes game design, game production, asset production, and game programming. Hands-on experience by creating 2-D game prototypes belonging to different video game genres and evaluating the techniques. | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering                | Computing and Informatics Program        | 3     | CS              |  |
| CPI     | 194         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering                | Computing and Informatics Program        | 1-4   |                 |  |
| CPI     | 200         | Mathematical Foundations of Informatics        | Practical introduction to the mathematics necessary for studies in informatics. Topics include discrete math, analytic geometry, calculus, and linear algebra.  | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     | MA              | Prerequisite(s): MAT 242, 342, or 343 with C or better; 243 with C or better     |
| CPI     | 200         | Mathematical Foundations of Informatics        | Practical introduction to the mathematics necessary for studies in informatics. Topics include discrete math, analytic geometry, calculus, and linear algebra.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Computing and Informatics Program        | 3     | MA              | Prerequisite(s): MAT 242, 342, or 343 with C or better; 243 with C or better     |
| CPI     | 211         | Game Development II                            | Introduces the basics of 3D game development by using a game engine. Focuses on the pipeline of 3D game development including environment and contents creation, scripting to control components, and graphics user interfaces development. Develops several 3D games for multi platforms.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering                | Computing and Informatics Program        | 3     |                 | Prerequisite(s): CPI 111 with C or better  |
| CPI     | 220         | Applied Data Structures and Algorithms         | Thorough grounding in applied knowledge and skills related to algorithms and data structures used in the development of software designed to solve complex problems. Overview of computational and critical thinking skills that can be called upon to analyze and solve complex problems in multiple domains.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering                | Computing and Informatics Program        | 3     |                 | Prerequisite(s): CSE 205 with C or better  |
| CPI     | 221         | Advanced Object-Oriented Principles Using Java | Advanced object-oriented programming using the Java language. Design concepts and problem solving.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering                | Computing and Informatics Program        | 3     |                 | Prerequisite(s): CPI 220 with C or better  |
| CPI     | 294         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering                | Computing and Informatics Program        | 1-4   |                 |  |
| CPI     | 310         | Web-Based Information Management Systems       | Relational database design, entity-relationship modeling, relational algebra, SQL, database access through Web, Web data management, introduction to XML, fundamentals of Web application development, Web server architectures, lecture, in-class lab activities.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Computing and Informatics Program        | 3     |                 | Prerequisite(s): CSE 205 with C or better  |
| CPI     | 311         | Game Engine Development                        | State-of-the-art techniques for computer game design and programming with an emphasis on 3-D graphics and interaction. Focuses on a practical, example-driven approach to learning the unique art of 3-D game development. Topics include graphics game engines, textures, shader programming, artificial intelligence, physics, modeling, sound effects, and techniques for user interfaces.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering                | Computing and Informatics Program        | 3     |                 | Prerequisite(s): CPI 211 with C or better  |
| CPI     | 321         | Fundamentals of Game Art                       | Introduces art theory and concepts as they apply to video game development. Covers 2-D and 3-D composition, color theory, modeling, and lighting techniques. Demonstrates practical application of these art fundamentals in establishing style guides, concept art, storyboards, and in-game assets.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering                | Computing and Informatics Program        | 3     |                 | Prerequisite(s): CPI 211 with C or better  |
| CPI     | 350         | Evaluation of Informatics Systems              | Methods for evaluation of informatics systems, including design of computational and human experiments, ethnography, and analytic techniques.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Computing and Informatics Program        | 3     |                 | Prerequisite(s): GIS 470, IEE 380, STP 226, STP 231, or STP 420 with C or better |

| CPI     | 394         | Special Topics                                | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 1-4   |                 |  |
| CPI     | 400         | Scientific Computing and Visualization        | Introduces scientific computing and visualization, supported by data acquisition, geometric modeling, and computer graphics. Covers the necessary mathematical foundations, data structures, and algorithms.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): CPI 101 with C or better; CPI 200 with C or better  |
| CPI     | 411         | Graphics for Games                            | Examines real-time rendering of high-quality interactive graphics. Studies advances in graphics hardware and algorithms that make this possible. Examples of techniques and topics include nonphotorealistic rendering, occlusion culling, level of detail, terrain rendering, shadow generation, image-based rendering, and physical simulation. Helps students add graphics-related features to the game architecture developed in CPI 311.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): CPI 311 or CSE 470 with C or better   |
| CPI     | 412         | Cognitive Systems and Intelligent Agents      | Advanced concepts and techniques of rule-based programming and agent architectures, incorporating ideas from artificial intelligence, cognitive psychology, and linguistics, along with their use in creating intelligent synthetic characters for interactive games and other virtual environments.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): CPI 311 with C or better  |
| CPI     | 421         | 3-D Modeling and Texturing                    | Provides working knowledge of 3-D modeling, texture mapping, and paint concepts for the creation of 3-D video games art assets. Students work on concepts such as 3-D lighting, high polygon mesh rendering, and various third-party software and how to integrate them into the asset production pipeline.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): CPI 211 with C or better  |
| CPI     | 422         | 3-D Animation and Rigging for Video Games     | 3-D rigging, skinning, and 3-D animation techniques for video game development. Includes rotoscoping for character animation, animation loops, and integration of motion capture data, as well as prop animation. Covers operation of 3-D cameras and 3-D rendering.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): CPI 321 with C or better  |
| CPI     | 441         | Gaming Capstone                               | Industry-oriented course emphasizing the video game development process, technical skills, teamwork and communication among the students enrolled in the gaming certificate. Students partner with local industry involved in game development, visual art, and educational gaming and solve real-world problems by working in a team comprised of students from the three tracks available within the certificate.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): BS Informatics or BIS (Computer Gaming) or Computer Gaming certificate; senior standing   |
| CPI     | 460         | Intelligent Interactive Instructional Systems | Intelligent interactive instructional systems serve as tutors, as learning companions or both. Covers their design, the technology that powers them, the learning theories that motivate them and results from experimental evaluations. Emphasizes intelligent tutoring systems, as they are a more mature technology.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): CSE 205 with C or better; Credit is allowed for only CPI 460 or CSE 494 (Intelligent Instr Sys)   |
| CPI     | 462         | Design for Learning in Virtual Worlds         | Focuses on issues of design for learning in virtual worlds by exploring: the history and evolution of virtual worlds, the theories behind the use of virtual worlds for learning, the design of curricula in virtual worlds, design guidelines for elements experienced in virtual worlds to support learning, design guidelines for learning quests and activities in virtual worlds. Also introduces virtual world building using Unity 3D.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): CPI 221, CSE 220, or CSE 240 with C or better; Credit is allowed for only CPI 494 (Design for Learning in Virtual Worlds) or CSE 494 (Design for Learning in Virtual Worlds) or CPI 462 |
| CPI     | 484         | Internship                                    | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Ira A. Fulton Engineering | Computing and Informatics Program | 1-12  |                 |  |
| CPI     | 485         | Informatics Capstone I                        | Team-based design of an informatics system; working with clients; development of requirements, use cases, class/object diagrams, and plans for quality assurance and other evaluations; technical communication; teamwork.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     | L               | Prerequisite(s): Informatics BS major; CPI 350 with C or better; CSE 463 with C or better  |
| CPI     | 486         | Informatics Capstone II                       | Implementation of the informatics system designed during CPI 485; work processes; keeping designs consistent with implementations; conducting QA and other evaluations; technical communication; teamwork.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 4     | L               | Prerequisite(s): Informatics BS student; CPI 485 with C or better  |
| CPI     | 492         | Honors Directed Study                         | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Computing and Informatics Program | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| CPI     | 493         | Honors Thesis                                 | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Ira A. Fulton Engineering | Computing and Informatics Program | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| CPI     | 494         | Special Topics                                | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 1-4   |                 |  |
| CPI     | 499         | Individualized Instruction                    | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | Ira A. Fulton Engineering | Computing and Informatics Program | 1-3   |                 |  |
| CPI     | 598         | Special Topics                                | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|--|
| CPP     | 101         | Foundations of Cross Sector Leadership | Prepares NGSC track members for success in their four-year journey while also sparking opportunities to develop as a leader throughout their Sun Devil careers. Provides a baseline for ethical decision making which is the cornerstone of effective leadership. This is accomplished through the lens of the public, private and nonprofit sectors. Also explores complex challenges we face and examples of successful cross-sector collaboration that have led to sustainable solutions. Additionally, students develop teamwork, time management, professionalism and respect for fellow NGSC team members.   | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 1     |                 | Credit is allowed for only CPP 101 or CPP 194 (Next Generation Service Corps) or CPP 194 (Foundations of Cross Sector Leadership)  |
| CPP     | 194         | Special Topics                         | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 1-4   |                 |  |
| CPP     | 201         | NGSC Community Impact Lab              | Behind every challenge is an opportunity to innovate. Course offers hands-on, service learning opportunities for students within the ASU Public Service Academy--Next Generation Service Corp (NGSC). Using a problem-solving method called human-centered design, student teams work closely with a nonprofit organization, small business, government office or community organization to develop a solution to a critical issue within their organization that is based in research and empathy for the organization and their stakeholders. Beyond learning and applying the design thinking process, students also develop skills in team management, conflict management and reflection. | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 2     |                 | Prerequisite(s): CPP 101; Credit is allowed for only CPP 201 or CPP 294 (NGSC Community Impact Lab)  |
| CPP     | 294         | Special Topics                         | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 1-4   |                 |  |
| CPP     | 301         | Cross-Sector Collaboration             | Examines how public, private and nonprofit organizations seek to address social challenges and explores how the three sectors work together and in isolation to tackle social problems. Students learn about the motivation of employees in the public, private and nonprofit sectors and the ways in which organizational structure, environment and legal contexts differently constrain or facilitate action within and across these organizations. Explores effective strategies for collaboration among the public, private and nonprofit sectors and identifies organizational similarities and points of contrast that could enhance or create barriers to such collaboration.          | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): CPP 101; Pre- or corequisite(s): Public Service Academy student; minimum 45 hours; Credit is allowed for only CPP 301 or CPP 294 (Cross-Sector Collaboration) |
| CPP     | 353         | Community Impact Lab                   | Offers hands-on, service learning opportunities for upper-division students from the College of Public Service and Community Solutions. Using a problem-solving method called design thinking, student teams have the opportunity to work closely with a nonprofit organization, small business, government office or community organization to develop a solution to a critical issue within their organization.  | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): minimum 45 hours; Credit is allowed for only CPP 353 or CPP 494 (Community Impact Lab)  |
| CPP     | 394         | Special Topics                         | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 1-4   |                 |  |
| CPP     | 410         | Social Entrepreneurship                | In-depth study of social entrepreneurship, including how ideas are formulated, constructed, and implemented; experiential learning in developing a social enterprise plan.   | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): Cross-Sector Leadership certificate or NLM 220; Credit is allowed for only CPP 410 or NLM 410   |
| CPP     | 484         | Internship                             | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | N                 | LEC               | N               | Z1            | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 1-12  |                 |  |
| CPP     | 494         | Special Topics                         | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 1-4   |                 |  |
| CPP     | 498         | Pro-Seminar                            | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.   | Y                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 1-7   | L               |  |
| CPP     | 499         | Individualized Instruction             | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.  | N                 | LEC               | N               | Z1            | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 1-3   |                 |  |

| Subject | Catalog Nbr | Course Title   | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department  | Units | General Studies | Requirements   |
|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|--|
| CPP     | 510         | Hazards Governance   | Examines how hazards are managed by both community- and national level policymaking and administrative systems, with a particular focus on understanding how policies and management practices are related to risk reduction and resilience capacity promotion. Explores what governance means in practice and presents existing research, including policy reports, cases studies and quantitative analyses of community-level and national-level hazards management programs and related public policies--and how their integration is relevant to hazards governance. Emphasizes understanding the nature of public goods production processes, including how inter-sector integration (i.e., between, public, private and nonprofit organizations) and extant community vulnerability profiles matter to the specific risk reduction efforts, and what those same efforts yield in terms of aggregate community resilience outcomes.                   | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CPP 510 or CPP 591 (Hazards Governance) |
| CPP     | 511         | Hazard Mitigation Planning   | Examines policies, methodologies and guidance for state and local hazard mitigation planning.  | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CPP     | 512         | Exercises and Planning for Emergency Management and Homeland Security                | Comprehensively explains the processes of emergency planning exercises in the domains of natural and technological hazards and homeland security, as well as other related domains such as public health or emergency medical services. Explores processes of emergency exercises within the Homeland Security Exercise & Evaluation Program (HSEEP) context and its standard guidelines that shape appropriate exercise practices.  | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CPP     | 513         | Public Private Partnerships for Emergency Management and Homeland Security           | Focuses on how public private partnerships (P3s) offer alternative mechanisms for supporting community emergency preparedness efforts, hazard and risk management practices, and community resilience promotion. The traditional form of a P3 model is typically a build-operate-maintain arrangement (with various permutations of those element combinations) around physical infrastructure. However, more complex public-private relationships related to emergency and disaster management issues, public health issues and other social welfare concerns have emerged over the past several decades. Investigating how these arrangements might affect emergency management, homeland security and the management of hazards and risk in general is critical to understanding how public sector operations are likely to function in the future in the United States.  | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CPP     | 514         | Interagency and Intersector Coordination for Emergencies and Disasters               | Examines the nature of intersector and interagency coordination and collaboration efforts in the domain of emergency management and homeland security. Three core substantive area of focus: (1) covers the nature of inter-sector, inter-agency coordination and collaboration activities as a chief feature of the general emergency management function any community must address; (2) focuses on issues related to the required interaction between the local, county, state and federal government emergency management functions and the private sector; (3) focuses on the functional roles and the specific types of contributions made by public, private and nonprofit sector organizations in community preparedness for emergencies and disasters.  | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CPP     | 520         | Program Evaluation for Emergency Management and Homeland Security                    | Examines core concepts and techniques of program evaluation and policy analysis and applies them to specific challenges in the domains of emergency management and homeland security. Develops knowledge and expertise in the practice of evaluating public sector programs, policies and other agency actions related to hazards issues--both natural and human-made. Develops students' knowledge, skill and ability in identifying appropriate research designs for particular evaluation and policy analysis problems; in managing data and focusing reports based on project objectives; and in appropriately characterizing and presenting empirical those data gathered for program evaluation and policy research projects. Provides an opportunity to learn about conducting evaluation and policy research in a way that is relevant to solving policy and management challenges germane to emergency management and homeland security agencies. | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): CRJ 511; Credit is allowed for only CPP 520 or CPP 591 (Program Evaluation in EMHS)                               |
| CPP     | 521         | Public Finance and Project Management for Emergency Management and Homeland Security | Focuses on the related topics of how state and local governments utilize use budgeting and financing techniques in the emergency services domain as well as how emergency/disaster services projects are managed. Specifically, the first part of the course covers budgeting and finance mechanisms and processes in the public sector generally and how those mechanisms and processes relate to emergency response, general hazards management and disaster recovery. The second part of the course covers core principles of project management and then applies those principles to process related to grant application and grant award management in the areas of preparedness, hazard mitigation and disaster recovery.  | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|--|
| CPP     | 523         | Foundations of Program Evaluation I: Multiple Regression             | Regression serves as the foundation for modern quantitative program evaluation techniques. Regression analysis is not a single thing--it is a powerful set of tools used to examine relationships in data and test hypotheses concerning the significance of these relationships. Regression can be used to analyze observational data, in which case it can be used to identify important correlations that help us predict when events will occur together. In the program evaluation context we are specifically interested in causal analysis, which allows us to determine whether a management practice, a nonprofit or government program, or a specific public policy has a positive impact. When certain conditions are met we can use regression analysis to estimate the impact of a policy or program. This course builds a foundational understanding of the mechanics of multiple regression, the proper interpretation of regression models, and the circumstances in which we can use regression results for causal reasoning. | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| CPP     | 524         | Foundations of Program Evaluation II: Research Design                | Covers important concepts in research design and common quasi-experimental tools for causal analysis.  | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): CPP 523                                       |
| CPP     | 525         | Foundations of Program Evaluation III: Advanced Regression Tools     | Extends previous course by translating each specific form of the counterfactual--pre-post with comparisons, reflexive design, and the post-test only design--into specific regression models that leverage each counterfactual. Helps expand program evaluation toolkit by demonstrating how to estimate several common regression models that leverage unique data and counterfactual specifications and teaches how to estimate program effects using a given research design.   | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): CPP 524                                       |
| CPP     | 526         | Foundations of Data Science I: Introduction to Data Programming in R | Data is an essential ingredient of any program evaluation or performance management system. Organizations that want to embrace an evidence-based approach to management need to develop processes for gathering data; linking multiple datasets; running analysis; and sharing results with stakeholders through reports, dashboards or Web applications. The ability to collect, organize and analyze data is a desirable skill set for professional knowledge workers, high-level management and evaluators. Introduces the R data programming language, an open source platform that has become an industry standard because of its flexibility and power.  | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| CPP     | 527         | Foundations of Data Science II: Data Wrangling                       | The data preparation cycle: gather, clean, tidy and wrangle the data to produce a custom research database.  | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): CPP 526                                       |
| CPP     | 528         | Foundations of Data Science III: Project Management                  | The main tools and practices of managing large or complex data projects, typically involving teams. Students learn about project management tools used by open source software developers, useful tools for creating client reports, important considerations.   | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): CPP 527                                       |
| CPP     | 529         | Data Analytics Practicum   | Applies knowledge and tools from previous courses in program evaluation and data analytics in order to get practice building and analyzing custom research databases. Students are given a collection of raw data that needs to be linked together in order to conduct analysis, and guidance on how to implement a specific research question. Students merge the data, wrangle it into the proper format for analysis, apply the prescribed regression techniques, interpret results, and create a report with key findings.   | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): CPP 523; CPP 526                              |
| CPP     | 530         | Leadership for Innovation in Public Fire Services                    | Provides current and future fire service leaders with an understanding and the skills necessary to manage creativity and foster a culture of innovation in public fire and emergency services. The approach is to treat the fire officer as an entrepreneur who identifies ideas and opportunities, then builds a business case for innovation.  | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| CPP     | 540         | Foundations of Emergency Medical Services                            | Examines the operational structure of emergency medical services in the United States, including the current organization, delivery and financing of these systems. Discusses strengths, weaknesses and future challenges of EMS with consideration for creating systems better integrated with the overall health care delivery system.   | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| CPP     | 550         | Community Paramedicine: Mobile Integrated Health Care                | Explores mobile integrated health care and community paramedic programs and how health care professionals and community partners can work together to identify community health needs, foster partnerships and overcome hurdles in MIH/CP program development. Discusses examples of successful MIH/CP programs.   | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| CPP     | 560         | Emergency Services Operations Analysis and Planning                  | Applies common data analysis tools and techniques appropriate to risk assessment, deployment analysis and performance measurement to evaluate an organization's abilities to respond to community risk.  | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |

| Subject | Catalog Nbr | Course Title   | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department  | Units | General Studies | Requirements   |
|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|--|
| CPP     | 570         | GIS for Hazards Analysis                             | Provides a basic level of familiarity with several aspects of geographic information science such as key geographic concepts and techniques related to the theory and application of geographic information systems (GIS). Covers topics such as data models, geographic coordinate system and map projections, data entry and editing, and various types of spatial analysis in both conceptual terms as well as practical application. Additionally, outlines a range of GIS-related activities in emergency management and homeland security. Exposes students to the current and potential roles of GIS in support of emergency management activities in each of the four stages of the emergency management cycle. Gives students a basic understanding of GIS and its possibilities along with the capabilities as they apply to emergency management and homeland security.   | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CPP 570 or CPP 591 (GIS for Hazards Analysis) |
| CPP     | 575         | U.S. Cyber and Information Security Policy           | Prepares students to understand and manage human and technical resources within the increasingly important cyber and information security domains. As high-profile data breaches and cyberattacks--that result in physical losses, disruptions and disasters--impose greater risks and costs on our public and private sector--as well as military and intelligence--networks, the policy and management aspects of these challenges have come to the fore. Compounding the technical and operational challenges arising from the protection of operating systems, networking and systems administration, managers and Chief Technology/Risk/Security/Data/Information Officers face a multidimensional set of political risks, including how to effectively manage data content and evaluation, information veracity and information sharing and distribution.  | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CPP     | 576         | Information Assurance Principles                     | The aim of this course is to provide insights into on modern cyber security threats and defensive controls and explore effective computer security and risk management strategies, Information Assurance (IA) practices and techniques. The course provides a graduate level foundation in IA for a diverse audience, from middle level managers to executives with non-technical and technical backgrounds and from variety of government, commercial and non-for-profit organisations. This course will explore concepts such as layered defense mechanisms, using different technologies and multiples thereof (true defense in depth), threat/risk identification and mitigation and incident response techniques. It will enable executive level managers to properly understand the real world challenges faced by their Cyber Security teams today. It will also assist in developing the frameworks, policies and the evidence-based decisions required to allow teams to protect their environments efficiently and to understand the resulting costs and benefits. | N                 | LEC               | Y               | NSW           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 1-3   |                 | Prerequisite(s): Emergency Management and Homeland Security (Cybersecurity Policy and Management) MA student                             |
| CPP     | 577         | Cybersecurity and Critical Infrastructure Protection | Critical Infrastructure (CI) refers to the diverse, complex, inter-dependent delivery and support systems as well as the distributed networks for all large-scale services that are essential to a nation. These services include emergency response, law enforcement databases, supervisory control and data acquisition (SCADA) systems, power control networks, military support services, financial applications and mobile communications. Some national services are provided directly by government, but most are provided by commercial organisations and groups such as Internet service providers, airlines and banks. Systems that operate in national critical infrastructure run everything from electricity power plants to gas pipelines, hospitals and highways.   | N                 | LEC               | Y               | NSW           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 1-3   |                 | Prerequisite(s): Emergency Management and Homeland Security (Cybersecurity Policy and Management) MA student                             |
| CPP     | 578         | Cyber Defense  | Designed to provide students with knowledge on how to defend organisations and their systems. It is designed to provide a deep understanding of cyber defense within organisations and the necessary skills to examine the operational aspects of cyberspace, information assurance and cybersecurity. The emphasis of this course is to provide a contextual link between the management and governance of an organisation and its rapidly evolving cybersecurity and cyber-defense requirements. This course also provides insight into cyber governance in the Defense context, focusing on the management and acquisition of mission-critical systems and ensuring that these systems are resilient to internal faults and external cyber disruptions.   | N                 | LEC               | Y               | NSW           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 1-3   |                 | Prerequisite(s): Emergency Management and Homeland Security (Cybersecurity Policy and Management) MA student                             |
| CPP     | 581         | Bioterrorism and Health Intelligence                 | This course is for professionals involved in any aspect of bioterrorism preparedness and response, who wish to be intellectually challenged, to think outside the square, to gain insight into quantum changes in science which pose a biosecurity risk, to understand the different perspectives of sectors involved in response, and to gain new critical skills which can be applied in their professional practice.  | N                 | LEC               | Y               | NSW           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 1-3   |                 | Prerequisite(s): Emergency Management and Homeland Security (Biosecurity and Threat Management) MA student                               |
| CPP     | 582         | Infectious Disease Intelligence                      | This course aims to give you the skills to critically evaluate, analyse and interpret important information and issues in infectious diseases intelligence as it applies to human health.  | N                 | LEC               | Y               | NSW           | Watts Col of Pub Ser & Com Sol | Watts College of Public Service & Community Solut | 1-3   |                 | Prerequisite(s): Emergency Management and Homeland Security (Biosecurity and Threat Management) MA student                               |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                                     | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                                  | Department  | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|--|---|-------|-----------------|---|
| CPP     | 583         | Health Aspects of Crises, Emergencies, Disasters | The aim of the course is to build learners' capacity to operate as public health professionals and managers within the context of local or international crises, emergencies and disasters. It will develop their knowledge of the healthcare aspects of these events, prepare them to assess and respond to such events from the perspective of healthcare services and providers, and assist them to develop the skills required to work within disaster and complex emergency settings.  | N                 | LEC               | Y               | NSW           | Watts Col of Pub Ser & Com Sol           | Watts College of Public Service & Community Solut | 1-3   |                 | Prerequisite(s): Emergency Management and Homeland Security (Biosecurity and Threat Management) MA student  |
| CPP     | 590         | Reading and Conference                           | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic or writing a literature review of a topic.  | N                 | LEC               | N               | Z1            | Watts Col of Pub Ser & Com Sol           | Watts College of Public Service & Community Solut | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CPP     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol           | Watts College of Public Service & Community Solut | 1-12  |                 |   |
| CPP     | 593         | Applied Project                                  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | N                 | LEC               | N               | Z1            | Watts Col of Pub Ser & Com Sol           | Watts College of Public Service & Community Solut | 1-12  |                 |   |
| CPP     | 594         | Conference and Workshop                          | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol           | Watts College of Public Service & Community Solut | 1-12  |                 |   |
| CPP     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol           | Watts College of Public Service & Community Solut | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CPY     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| CPY     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CPY     | 600         | Research Methods                                 | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CPY     | 623         | Counseling At-Risk Youth                         | Examines the behaviors that place adolescents at risk for not achieving career goals and interventions to address these behaviors.  | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts          | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CPY     | 635         | Professional Development                         | A series of presentations designed to expose beginning doctoral students to the multidimensional facets and competencies for being a counseling psychologist.   | N                 | SEM               | Y               | YGB           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts          | 1     |                 | Prerequisite(s): Counseling Psychology PhD student; Credit is allowed for only CPY 635 or CPY 691 (Professional Development)                                |
| CPY     | 644         | Psychology of Careers                            | Advanced career counseling, including theory, research, and practice.   | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts          | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate OR undergraduate postbaccalaureate student   |
| CPY     | 645         | Professional Issues and Ethics                   | Ethical, legal, and professional issues of concern to practitioners and researchers functioning in a variety of settings.   | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts          | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate   |
| CPY     | 650         | Counseling Latinos                               | Survey course addressing mental health concerns and perspectives for individuals and families of Latino, Spanish-speaking origin.   | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts          | 3     |                 | Pre-requisite: CED 522  |
| CPY     | 651         | Personality Assessment                           | Training in the use of major objective personality instruments to assess psychological symptoms; emphasizes MMPI-2 and MCMI-III.  | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts          | 3     |                 | Pre-requisite: CED 523  |
| CPY     | 652         | Individual Intellect Assessment                  | Examines the nature of human intellectual/cognitive abilities, their standardized measurement, and related issues in interpretation and practice. Provides preliminary training and experience in the administration and interpretation of two of the most widely used tests in this area: the Wechsler Adult Intelligence Scale, 4th ed. & the Wechsler Intelligence Scale for Children, 5th ed. Introduces other instruments at a topical level. Emphasizes theoretical foundations, practice skills, cultural considerations and ethical issues in intellectual/cognitive assessment. Operates under the broad principles of a cooperative learning approach. By researching and presenting on key course concepts, students practice incorporating a scholarly and empirical basis into their clinical work to develop specialized expertise in clinical assessment. Class format includes instructor- and student-led didactics, discussion and practice labs. | N                 | SEM               | N               | GNA           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts          | 3     |                 | Prerequisite(s): Master of Counseling or Counseling Psychology PhD student; Credit is allowed for only CPY 652 or CPY 691 (Individual Intellect Assessment) |

|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|--|--|-------|-----------------|--|
| CPY     | 653         | Neuropsychology  | Assumes students have knowledge of basic topics in physiological psychology and/or in brain and behavior-type courses. Concentrates on human neuropsychology; the main topics are related to functional brain organization and hemispheric specialization, with a particular emphasis on functional assessment. Includes several other topics related to late-breaking empirical developments in the field. Read and discuss articles and studies, employing a large variety of methodologies, ranging from the 1950s to the latest publications, with both normal and pathological subject populations. Much of the course is spent discussing brain assessment techniques to study cognitive function and dysfunction. Emphasizes commonly used approaches in the assessment and measurement of human behavior and how the human brain is responsible for cognition, language, memory, spatial processing, emotion and personality.   | N                 | SEM               | N               | GNA           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): Master of Counseling or Counseling Psychology PhD student; Credit is allowed for only CPY 653 or CPY 691 (Neuropsychology)      |
| CPY     | 654         | Biobases of Behavior                                   | Fulfills the APA requirement for a three-semester-hour course devoted to the broad and general biological bases that underlie behavior, and surveys a variety of fundamental physiological principles. Designed for students enrolled in an APA-accredited professional psychology training program; it does not focus on application of physiological principles to psychological practice. Capitalizes on most students' prior familiarity with psychopathology to help enable acquisition of general information about important brain structures and functions. Includes information about basic nervous system-related biochemistry, cellular structure and physiology, and anatomy and physiology. Students participate in classroom problem solving activities during which an array of principles is covered based on reading assignments. Challenges students to consider the role of biological, evolutionary and genetic factors in the expression of an array of typical and atypical behavior. | N                 | SEM               | N               | GNA           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): Master of Counseling or Counseling Psychology PhD student; Credit is allowed for only CPY 654 or CPY 691 (Biobases of Behavior) |
| CPY     | 660         | Prevention and Consultation                            | Community focus with emphasis on outreach, prevention, psychoeducation, consulting, and advocacy from a systematic multicultural perspective.   | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: Counseling MC or MED student OR Counseling Psychology PhD student   |
| CPY     | 668         | Grant Writing and Grant Makers: The Washington Context | Develops successful proposals for educational research projects. Students gain experience writing for federal agencies, reviewing, and being evaluated on grant proposals.  | N                 | LEC               | N               | GNA           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only CPY or HED 668                                 |
| CPY     | 670         | Individual Differences                                 | Focuses on definitions and assessment of ways humans vary on psychological constructs.  | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CPY     | 671         | Multicultural Counseling                               | Provides awareness of the influence of sociocultural variables on human development and explores implications for counseling minority populations.  | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| CPY     | 674         | Counseling Women                                       | Explores women's development and its implications for counseling. Sexism in mental health, sex differences in diagnosis and psychopathology, and women's particular treatment needs.  | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| CPY     | 675         | Health and Wellness Counseling                         | Theory, research, and practice in health and wellness counseling.   | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CPY     | 676         | Social Bases of Behavior                               | In-depth examination of contemporary research and theory in selected areas of social psychology.  | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CPY     | 677         | Advanced Counseling                                    | Advanced topics in counseling theory, research, and practice.   | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate  |

| CPY     | 780         | Practicum                                       | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts      | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| CPY     | 783         | Fieldwork                                       | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts      | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| CPY     | 784         | Internship                                      | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts      | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| CPY     | 790         | Reading and Conference                          | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts      | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| CPY     | 791         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts      | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| CPY     | 792         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts      | 1-15  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| CPY     | 795         | Continuing Registration                         | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts      | 1     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| CPY     | 799         | Dissertation                                    | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts      | 1-15  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| CRD     | 191         | First-Year Seminar                              | Small course emphasizing student-faculty discussion/interaction. Strongly recommended for first-year students. Must have taken 25 or fewer semester hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol           | School of Community Resources and Development | 1-3   |                 | Pre-requisite: Maximum 25 hours; Credit is allowed for only CRD, PRM or TDM 191  |
| CRD     | 194         | Special Topics                                  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol           | School of Community Resources and Development | 1-4   |                 |  |
| CRD     | 210         | Community Services and Professions              | Introduces the system of public, nonprofit and private sector resources and services comprising contemporary communities. Organized into three modular units with emphasis on the delivery of services in the community sports, parks and recreation, tourism, and nonprofit professions.   | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol           | School of Community Resources and Development | 3     |                 | Pre- or corequisite(s): NLM 160 or PRM 120 with C or better if completed   |
| CRD     | 235         | Leadership and Ethics                           | Examines ethical questions faced by emerging leaders. Focuses on helping students develop emotional intelligence, current professional issues, and the refinement of a professional philosophy and comprehensive set of competences that enable transition from student to professional.  | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol           | School of Community Resources and Development | 3     |                 | Credit is allowed for only CRD 235 or NLM 235  |
| CRD     | 301         | Sustainable Communities                         | Analyzes community as concept and as an organizing system for promoting sustainability.   | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol           | School of Community Resources and Development | 3     |                 | Pre- or corequisite(s): PRM 120 or NLM 160 with C or better if completed; Credit is allowed for only CRD 301, NLM 301, PRM 301, SOS 301 or TDM 301   |
| CRD     | 302         | Inclusive Community Development                 | Examines the characteristics of diverse populations across the lifespan to effectively develop inclusive community programs and services.   | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol           | School of Community Resources and Development | 3     | SB & C          | Prerequisite(s): ENG 102 with a C or better; MAT 142 or higher with a C or better; NLM 160 (or PRM 120) with a C or better; 2.50 GPA; 45 earned hours; Credit is allowed for only CRD 302, NLM 302, PRM 302 or TDM 302 |

| CRD     | 590         | Reading and Conference                                    | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 1-12  |                 |  |
| CRD     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 1-12  |                 |  |
| CRD     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | IND               | Y               | Z1            | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 1-12  |                 |  |
| CRD     | 593         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | IND               | Y               | Z1            | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 1-12  |                 |  |
| CRD     | 594         | Conference and Workshop                                   | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | IND               | Y               | OPT           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 1-12  |                 |  |
| CRD     | 595         | Continuing Registration                                   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 1     |                 |  |
| CRD     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 1-4   |                 |  |
| CRD     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | IND               | Y               | Z2            | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 1-12  |                 |  |
| CRD     | 610         | Sustainable Communities                                   | Analyzes community as concept and as an organizing system for promoting sustainability. Considers issues at different scales, ranging from urban to rural, local to global, historical to contemporary. Critically examines the role of public, private, and nonprofit institutions in promoting quality of life.   | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student         |
| CRD     | 620         | Community Research Methods                                | Introduces community research methods, with emphasis on methodological questions and techniques relevant to contemporary community-based research.  | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student         |
| CRD     | 640         | Research Seminar in Community Resources and Development I | A seminar designed to explore issues related to advancing a career as a researcher in the fields associated with community resources and development (i.e., nonprofit, recreation and parks, tourism). Critical to this study is an understanding of the conduct of high quality research, an understanding of issues that arise in professional settings (e.g., expediency vs. effectiveness), and ethical principles and processes that undergird research. | N                 | SEM               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 3     |                 | Pre-requisite: Doctoral student in Community Resources and Development |
| CRD     | 650         | Research Seminar II                                       | Helps prepare doctoral students to become productive and successful social scientists in community resources and development. Covers a wide range of topics under the broader conceptual umbrella of research, teaching, and service.   | N                 | SEM               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 3     |                 | Pre-requisite: Doctoral student in Community Resources and Development |
| CRD     | 683         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student         |
| CRD     | 690         | Reading and Conference                                    | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student         |
| CRD     | 691         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 1-12  |                 |  |
| CRD     | 695         | Continuing Registration                                   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 1     |                 |  |

| CRJ     | 317         | Inside Out Prison Exchange Program                    | Pairs university students and correctional students inside a prison to examine the criminal justice system through a combination of theoretical knowledge and practical experience, paying special attention to race, gender, socioeconomic status, age, and ethnicity.  | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): CRJ 100; Credit is allowed for only CRJ 317 or CRJ 494 (Inside-Out Prison Exchange)   |
| CRJ     | 321         | Imperatives of Proof                                  | Problems and means of establishing identity and fact in relation to arrest, detention, adjudication, sentencing, and correctional case management.   | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): CRJ 100 with C or better; CRJ 201 with C or better; junior or senior standing   |
| CRJ     | 350         | Law and Social Control                                | Resolution of social issues through the application of law as an agent of social control. Nature, sanctions, and limits of law. Categories of law and schools of jurisprudence.  | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     | SB              | Prerequisite(s): CRJ 100 with C or better; CRJ 201 with C or better; junior or senior standing   |
| CRJ     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 1-4   |                 |  |
| CRJ     | 403         | Victims and the Criminal Justice System               | Victimization theories. Nature and extent of victimization. Interactions among victims, the criminal justice system and society. Victim rights and services.   | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminology and Criminal Justice major; CRJ 302; CRJ 303 OR Law and Human Behavior certificate student; PSY 230; PSY 290  |
| CRJ     | 404         | Juvenile Delinquency                                  | Causes, correlations and strategies to reduce juvenile delinquency.  | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): CRJ 302; CRJ 303; Credit is allowed for only CRJ 404 or CRJ 494 (Juvenile Delinquency)  |
| CRJ     | 405         | Neighborhoods and Crime                               | Variation in crime across neighborhoods from ecology of crime and urban sociology perspectives. Influence of social institutions on community crime patterns.  | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): CRJ 302; CRJ 303; Credit is allowed for only CRJ 405 or CRJ 494 (Neighborhoods and Crime)   |
| CRJ     | 406         | Sex Crimes  | Prevalence, nature and etiology of sex crimes. Response of criminal justice system to victims and perpetrators of sex crimes.  | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminology and Criminal Justice BS major; CRJ 302 with C or better; CRJ 303 with C or better OR Correctional Studies certificate or Law and Human Behavior certificate student; CRJ 100 with C or better                               |
| CRJ     | 408         | Drugs and Crime                                       | Patterns of illegal drug use. Problems, practices and policies associated with drugs, crime and drug policy.   | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): CRJ 302; CRJ 303  |
| CRJ     | 409         | Police Accountability                                 | Command and control systems. Managing police culture. Community policing and accountability to the community. Police training.   | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): CRJ 302; CRJ 303; Credit is allowed for only CRJ 409 or CRJ 494 (Police Accountability)   |
| CRJ     | 410         | Procedural Criminal Law                               | Criminal procedures mandated by the U.S. Constitution.   | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminology and Criminal Justice major; CRJ 302; CRJ 303 OR Law and Human Behavior certificate student; PSY 230; PSY 290  |
| CRJ     | 411         | Legal Issues in Corrections                           | Explores the constitutional and statutory law concerning prisoners in the United States. Places special emphasis on the First, Fourth, Fifth, Sixth, Eighth and Fourteenth Amendment rights of persons under the jurisdiction of correctional agencies, as well as their rights under relevant statutes and case law, including those affecting habeas corpus right. | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminology and Criminal Justice BS major; CRJ 302 with C or better; CRJ 303 with C or better OR Correctional Studies certificate student; CRJ 100 with C or better   |
| CRJ     | 412         | International Terrorism                               | Structural, organizational, political and legal characteristics of international terrorism.  | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): CRJ 302; CRJ 303; Credit is allowed for only CRJ 412 or CRJ 494 (Homeland Security) or CRJ 494 (International Terrorism)  |
| CRJ     | 417         | Cyber Terrorism                                       | Terrorism perpetuated online. Terrorism and technology.  | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): CRJ 302; CRJ 303  |
| CRJ     | 419         | Domestic Terrorism                                    | Evolution of domestic terrorism in the United States. History and future of domestic security. Public policy responses. Internal and external political implications.  | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): CRJ 302; CRJ 303; Credit is allowed for only CRJ 419 or CRJ 494 (Domestic Terrorism)  |
| CRJ     | 422         | Violence in America                                   | Theories, patterns, prevention and policy responses to violence in the United States. Varieties of violence including domestic, gang-related, hate crimes, school violence and sex crimes.   | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): CRJ 302; CRJ 303; Credit is allowed for only CRJ 422 or CRJ 494 (Violence in America)   |
| CRJ     | 433         | Death Investigations: Principles of Forensic Medicine | Medico-legal investigation of death via postmortem examinations. Identification, thanatology, thanato-etiology of unexpected natural deaths, accidental deaths, suicides and homicides. Forensic examination of living people following sexual assault, traffic offenses, child abuse and drug crimes.   | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminal Investigations certificate students: CRJ 100 OR Criminal Justice and Criminology majors: CRJ 302; CRJ 303  |
| CRJ     | 434         | Drugs of Abuse  | Pharmacological and toxicological characteristics of commonly abused drugs such as alcohol, barbiturates, amphetamines, narcotics, stimulants and hallucinogens. Forensic toxicology. Acute and long-term effects of drug abuse.   | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminology and Criminal Justice major; CRJ 302; CRJ 303 OR Correctional Studies or Criminal Investigations certificate; CRJ 100 OR Law and Human Behavior certificate; PSY 230; PSY 290  |
| CRJ     | 435         | Crime and Forensic Mental Health                      | Clinical assessment of people under court jurisdiction. Topics include psychological paradigms, nomenclature of mental disorders, forensic clinical assessment, mental disorders and crime, legal standards governing mentally disordered criminal offenders.  | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminology & Criminal Justice major; CRJ 302; CRJ 303 OR Correctional Studies or Criminal Investigations cert; CRJ 100 OR Law & Human Behavior cert; PSY 230; PSY 290; Credit allowed for only CRJ 435 or 494 (Crime & Mental Illness) |

|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|--------------------------------|--|-------|-----------------|--|
| CRJ     | 521         | Seminar on the Nature of Crime              | Examines patterns and correlates of crime at individual, situational, and aggregate levels. Topics include defining crime, offender typographies, and criminal careers.   | N                 | SEM               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students   |
| CRJ     | 522         | Seminar on Gangs and Crime                  | Theoretical perspectives and research on gangs and crime, and on the role of the community and the criminal justice system in causes and control.   | N                 | SEM               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students   |
| CRJ     | 524         | Seminar on Punishment and Society           | Examines the fundamental philosophical principles of justice and punishment. Includes a comparative and historical perspective.   | N                 | SEM               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students   |
| CRJ     | 525         | Seminar on Life-Course Criminology          | Provides an intensive examination of life-course explanations of crime, the life-course perspective and a theoretical orientation, and research methods used in life-course research.   | N                 | SEM               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students   |
| CRJ     | 526         | Theories of Crime Causation                 |   | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminal Justice MA or Criminology and Criminal Justice MS or PhD major; Credit is allowed for only CRJ 526 or 598 (Theories of Crime Causation)  |
| CRJ     | 527         | Police Accountability                       | Examines the great authority of police, the various and most common ways that police abuse that authority, the consequences of those abuses, and accountability mechanisms that can prevent those abuses from occurring.  | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: MA in Criminal Justice or MS in Criminology and Criminal Justice or PhD in Criminology and Criminal Justice major; Credit is allowed for only CRJ 527 or 598 (Police Accountability)          |
| CRJ     | 528         | Prison and Jail Administration              | Overview of prison and jail administrative practices, with emphasis on policy and management issues in modern correctional institutions.  | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminal Justice MA or Criminology and Criminal Justice MS or Criminology and Criminal Science PhD student  |
| CRJ     | 529         | Community Corrections                       | Provides a review of theory, research and policy focusing primarily on correctional strategies and programs that take place within the community setting, as well as the function of community corrections within the larger correctional system. Gives particular attention to the purpose and goals of community-based corrections; the historical development of probation and parole practices; and contemporary community corrections programs and strategies such as evidence-based practices, risk assessment, offender reentry, sex offender management, diversion, restitution, community service programs and other emerging alternatives to traditional incarceration. | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: MA in Criminal Justice or MS in Criminology and Criminal Justice or PhD in Criminology and Criminal Science student   |
| CRJ     | 530         | Seminar in Forensics                        | Explores recent and sometimes controversial developments in forensic science. Includes topics such as quality assurance, the CSI effect and the National Academy of Sciences' report entitled "Strengthening Forensic Science in the United States: A Path Forward."  | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminal Justice MA or Criminology and Criminal Justice MS or Criminology and Criminal Justice PhD student; Credit is allowed for only CRJ 530 or CRJ 598 (Seminar in Forensics)            |
| CRJ     | 531         | Crime Mapping                               | Examines the applied research methodology and conceptual framework used to conduct spatial analysis within the crime analysis profession.   | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminal Justice MA or Criminology and Criminal Justice MS or Criminology and Criminal Justice PhD student; Credit is allowed for only CRJ 531 or CRJ 598 (Crime Mapping)                   |
| CRJ     | 532         | Sex Crimes                                  | Not only discusses the distinctions among types of offenders, but also applies theory, analyzes public policy, examines the effect of sex offenses on victims, and discusses how we've legislated sexual behavior over human history.   | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminal Justice MA or Criminology and Criminal Justice MS or Criminology and Criminal Justice PhD student; Credit is allowed for only CRJ 532 or CRJ 598 (Sex Offenders & Sex Crimes)      |
| CRJ     | 533         | Seminar in White Collar Crime               | Provides a general overview of white collar crimes including forms, contexts and response by the criminal justice system toward offenders and victims. Also addresses theoretical perspectives.   | N                 | SEM               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminal Justice MA, Criminology and Criminal Justice MS, or Criminology and Criminal Justice PhD student; Credit is allowed for only CRJ 533 or CRJ 598 (Seminar in White-Collar Crime)    |
| CRJ     | 535         | Seminar in Crime and Forensic Mental Health | This interdisciplinary course, which draws from the fields of criminology, psychology, sociology and law, focuses on the clinical assessment of people under the jurisdiction of a court of law.  | N                 | SEM               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminal Justice MA, Criminology and Criminal Justice MS, or Criminology and Criminal Justice PhD student; Credit is allowed for only CRJ 535 or CRJ 598 (Crime and Forensic Mental Health) |
| CRJ     | 553         | Terrorism and Weapons of Mass Destruction   | Historical evolution of terrorism and weapons of mass destruction. Analyzes current theories and mitigation, preparedness, and response tactics.  | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

| CRJ     | 554         | Homeland Security                                  | Presents skills necessary to develop policies, strategies, programs, and organizational structure of an all hazards/all risk homeland security program.   | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminal Justice MA or Emergency Management and Homeland Security MA or Criminology & Criminal Justice MS or Criminology & Criminal Justice PhD student; Credit is allowed for only PAF 461 or CRJ 554   |
| CRJ     | 555         | Police and International Terrorism                 | Suicide bomber interdiction, jihadism and anti-terrorism intelligence gathering. History of prior attacks and policy responses.   | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminal Justice MA or Criminology and Criminal Justice MS or Criminology and Criminal Justice PhD student; Credit is allowed for only CRJ 445 or CRJ 555 or CRJ 598 (Police and Int'l Terrorism-Israel) |
| CRJ     | 556         | Etiology of Martyrdom                              | Development of a jihadist mindset. Social support for beliefs that lionize martyrdom.   | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminal Justice MA or Criminology and Criminal Justice MS or Criminology and Criminal Justice PhD students; Credit is allowed for only CRJ 456 or CRJ 556 or CRJ 598 (Etiology of Martyrdom)            |
| CRJ     | 557         | Seminar in Domestic Terrorism                      | Develops a foundation of theoretical approaches to understanding domestic terrorism in the United States of America.  | N                 | SEM               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminal Justice MA or Criminology and Criminal Justice MS or Criminology and Criminal Justice PhD student; Credit is allowed for only CRJ 557 or CRJ 598 (Seminar in Domestic Terrorism)                |
| CRJ     | 558         | Seminar in International Terrorism                 | Reviews the various definitions of terrorism and how to apply these to terrorism issues and instances globally.   | N                 | SEM               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminal Justice MA student OR Criminology and Criminal Justice MS student OR Criminology and Criminal Justice PhD student; Credit is allowed for only CRJ 558 or CRJ 598 (International Terrorism)      |
| CRJ     | 583         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CRJ     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 1-12  |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 1-12  |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 1-12  |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 593         | Applied Project                                    | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 1-12  |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 594         | Conference and Workshop                            | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 1-12  |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 595         | Continuing Registration                            | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 1     |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 598         | Special Topics                                     | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | SEM               | Y               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 1-4   |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | N                 | RSC               | Y               | Z2            | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 1-12  |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 601         | Seminar on Criminological Theory                   | Examines historical and contemporary criminological theories.   | N                 | SEM               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 602         | Seminar on Criminal Justice Policies and Practices | Analyzes responses to crime and the operation of criminal justice system, with emphasis on theory and research on effectiveness of policies and practices of the system.  | N                 | SEM               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 603         | Advanced Research Design                           | Exposes students to advanced topics in research design and methodology in preparation for writing the doctoral dissertation.  | N                 | RSC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |

## ASU Course Catalog Archive - Spring 2019

|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|--|--|-------|-----------------|---|
| CRJ     | 604         | Advanced Statistical Analysis                                    | Use and application of advanced statistical techniques and multivariate analysis of data.  | N                 | SEM               | N               | OPT           | Watts Col of Pub Ser & Com Sol           | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 605         | Topics in Quantitative Methods                                   | Explores advanced techniques of statistical analysis within the field of criminal justice.   | N                 | SEM               | Y               | OPT           | Watts Col of Pub Ser & Com Sol           | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 606         | Advanced Topics in Theoretical Criminology                       | Focuses on criminological theory construction, historical and contemporary theoretical debates within criminology, theory testing, empirical support for theories, and theoretical integration.  | N                 | SEM               | N               | OPT           | Watts Col of Pub Ser & Com Sol           | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 607         | Advanced Topics in Policing                                      | Covers the major issues related to policing and police organizations in the United States. Principal focus on policing and police organizations in large cities, with a focus on police organizational structure, police culture, police organizational environment, police decision making and change in the police organization.   | N                 | SEM               | N               | OPT           | Watts Col of Pub Ser & Com Sol           | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 608         | Advanced Topics in Courts and Sentencing                         | Focuses on recent research on charging, plea bargaining, bail decision making, jury decision making and sentencing, as well as the impact of recent reforms directed at the criminal court system.   | N                 | SEM               | N               | OPT           | Watts Col of Pub Ser & Com Sol           | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 609         | Advanced Topics in Corrections                                   | Provides a critical examination of the theoretical framework underpinning current correctional policy (institutional and community based), as well as advanced, in-depth analyses of contemporary issues surrounding corrections.  | N                 | SEM               | N               | OPT           | Watts Col of Pub Ser & Com Sol           | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 610         | Advanced Topics in Juvenile Justice                              | Examines the meaning of the concept of juvenile delinquency as a separate entity in the criminal justice system. Considers the relationship between social attitudes and definitions of youthful law violation, and reviews studies on various forms of delinquency, such as drug offenses, sex delinquency, and status offenders. Also focuses on the internal workings of the juvenile justice system. | N                 | SEM               | N               | OPT           | Watts Col of Pub Ser & Com Sol           | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 611         | Advanced Topics in Crime and Victimization                       | Examines research on criminal offending and victimization, focusing on the correlates of offending and victimization, risk and protective factors, and policies designed to reduce the impact of crime on victims.   | N                 | SEM               | N               | OPT           | Watts Col of Pub Ser & Com Sol           | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 612         | Advanced Topics in Race, Gender, and the Criminal Justice System | Examines the interrelationships among race and ethnicity, gender, crime and the criminal justice system. Focuses on theoretical perspectives and empirical research on racial minorities and women as victims, offenders, and criminal justice professionals.  | N                 | SEM               | N               | OPT           | Watts Col of Pub Ser & Com Sol           | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 613         | Qualitative Methods  | Provides students with an examination of the design, execution, and write-up of qualitative research. Discusses methods of data collection, including participant-observation, ethnography, and interviewing.  | N                 | SEM               | N               | OPT           | Watts Col of Pub Ser & Com Sol           | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | SEM               | Y               | OPT           | Watts Col of Pub Ser & Com Sol           | School of Criminology and Criminal Justice | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                      |
| CRJ     | 792         | Research   | Independent study that is expected to lead to a specific project such as a thesis or dissertation, report or publication, in which a student conducts research under the supervision of a faculty member. Assignments might include data collection, experimental work, data analysis or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Watts Col of Pub Ser & Com Sol           | School of Criminology and Criminal Justice | 1-15  |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 795         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | RSC               | Y               | Z3            | Watts Col of Pub Ser & Com Sol           | School of Criminology and Criminal Justice | 1     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 799         | Dissertation   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | Watts Col of Pub Ser & Com Sol           | School of Criminology and Criminal Justice | 1-15  |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CSE     | 100         | Principles of Programming with C++                               | Principles of problem solving using C++, algorithm design, structured programming, fundamental algorithms and techniques, and computer systems concepts. Social and ethical responsibility.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Computer Science and Engineering Program   | 3     | CS              |   |
| CSE     | 110         | Principles of Programming  | Concepts of problem solving using an object-oriented programming language, algorithm design, structured programming, fundamental algorithms and techniques.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Computer Science and Engineering Program   | 3     | CS              |   |
| CSE     | 120         | Digital Design Fundamentals                                      | Number systems, conversion methods, binary and complement arithmetic, Boolean algebra, circuit minimization, ROMs, PLAs, flipflops, synchronous sequential circuits.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Computer Science and Engineering Program   | 3     |                 | Prerequisite(s): degree-seeking student; Credit is allowed for only CSE 120 or EEE 120              |
| CSE     | 180         | Computer Literacy  | Students gain fluency in integrating technology to efficiently and effectively solve problems using computational thinking.  | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts   | 3     | CS              |   |
| CSE     | 180         | Computer Literacy  | Students gain fluency in integrating technology to efficiently and effectively solve problems using computational thinking.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Computer Science and Engineering Program   | 3     | CS              |   |
| CSE     | 182         | Applied Problem Solving with C#.Net                              | Introduces object oriented programming, problem solving, fundamental algorithms and techniques, computer systems concepts, and implementation of programs using Visual C#.Net platform.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Computer Science and Engineering Program   | 3     |                 |   |
| CSE     | 194         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering                | Computer Science and Engineering Program   | 1-4   |                 |   |
| CSE     | 205         | Object-Oriented Programming and Data Structures                  | Problem solving by programming with an object-oriented programming language. Introduces data structures. Overview of computer science topics.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Computer Science and Engineering Program   | 3     | CS              | Prerequisite(s): CSE 110 with C or better; Credit is allowed for only ACO 102 or CSE 205 or CST 200 |
| CSE     | 220         | Programming for Computer Engineering                             | Introduction to C/C++, systems programming, and concurrency.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Computer Science and Engineering Program   | 3     |                 | Prerequisite(s): CSE 205 with C or better   |

|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|--|
| CSE     | 230         | Computer Organization and Assembly Language Programming | Register-level computer organization. Instruction set architecture. Assembly language. Processor organization and design. Memory organization. IO programming. Exception/interrupt handling.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): degree-seeking stdnt w min C: CSE 100 or 110; CSE 120 or EEE 120 OR Software Engr maj w min C: CSE 110; SER 232 OR Elec Engr maj; CSE 100 or 110; CSE 120 or EEE 120 OR Comp Sci & Engr grad; Credit is allowed for only CSE 230 or EEE 230 |
| CSE     | 240         | Introduction to Programming Languages                   | Introduces the procedural, object-oriented, functional and declarative languages.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): ACO 102 with C or better OR CSE 205 with C or better OR GIS major with GIS 222 with C or better OR Software Engineering graduate student; Credit is allowed for only ACO 240 or CSE 240   |
| CSE     | 259         | Logic in Computer Science                               | Logic has been called the calculus of computer science. The argument is that logic plays a fundamental role in computer science, similar to that played by calculus in physical sciences and other engineering disciplines. Indeed, logic plays an important role in computer architecture (Boolean logic, digital gates, hardware verification); software engineering (specification, verification); programming languages (semantics, type theory, logic programming); databases (relational algebra, database query language); artificial intelligence (automated theorem proving, knowledge representation); algorithms and theory of computation (complexity, computability, expressiveness). This course is a mathematically solid introduction to propositional logic, first order logic, logic programming, and their applications in computer science. | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): CSE 205 with C or better; Credit is allowed for only CSE 259 or CSE 294 (Logic in Computer Science)   |
| CSE     | 294         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-4   |                 |  |
| CSE     | 298         | Honors Directed Study                                   | Independent study or practicum under the supervision of a faculty member.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| CSE     | 301         | Computing Ethics  | Ethics for computing majors: history of computing, intellectual property, privacy, ethical frameworks, professional ethical responsibilities, and risks of computer-based systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 205 with C or better; FSE 100 with C or better   |
| CSE     | 310         | Data Structures and Algorithms                          | Advanced data structures and algorithms, including stacks, queues, trees (B, B+, AVL), and graphs. Searching for graphs, hashing, external sorting.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): CSE 220 or 240 with C or better; MAT 243 or 300 with C or better; Computational Math Sci, Computer Sci, Computer Systems Engr, Digital Culture (Media Processing), Engr Management, Geo Info Sci or Informatics OR BMI/CEN/CS grad student  |
| CSE     | 320         | Design and Synthesis of Digital Hardware                | Design and synthesis of digital hardware with hardware description language, computer-aided design tools, and programmable devices.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Systems Engineer BSE or Computer Science BS major; CSE 220 with C or better; CSE 230 or EEE 230 with C or better   |
| CSE     | 325         | Embedded Microprocessor Systems                         | System-level programming and analysis of embedded microprocessors systems. Fundamental concepts of digital system design for embedded system applications.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 220 with C or better, CSE 230 or EEE 230 with C or better  |
| CSE     | 330         | Operating Systems                                       | Operating system structure and services, processor scheduling, concurrent processes, synchronization techniques, memory management, virtual memory, input/output, storage management, and file systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 230 or EEE 230 with C or better; CSE 310 with C or better OR CSE graduate student; Credit is allowed for only ACO 350 or CSE 330   |
| CSE     | 335         | Principles of Mobile Application Development            | Covers topics pertaining to fundamental concepts of mobile application development principles including design patterns; data persistence; interfacing with services and devices; location and incorporation of existing frameworks; user interface and experience; context awareness; utilization of built-in tools for software profiling, testing, and version control; and security/privacy issues.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Informatics BS or Computer Systems Engineering BSE major; CSE 220 or 240 with C or better; Credit is allowed for only CSE 335 or CSE 394 (Principles of Mobile Application)  |
| CSE     | 340         | Principles of Programming Languages                     | Formal syntactic and semantic descriptions, compilation and implementation issues, and theoretical foundations for several programming paradigms.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Systems Engineer BSE or Computer Science BS major; CSE 310 with C or better; CSE 230 or EEE 230 with C or better OR CSE graduate student   |
| CSE     | 355         | Introduction to Theoretical Computer Science            | Introduces formal language theory and automata, Turing machines, decidability/undecidability, recursive function theory, and complexity theory.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Systems Engineering BSE or Computer Science BS major; CSE 310 with C or better OR CSE graduate student   |
| CSE     | 360         | Introduction to Software Engineering                    | Software life cycle models; project management, team development environments and methodologies; software architectures; quality assurance and standards; legal, ethical issues.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): CSE 220 or 240 with C or better; Biomedical Informatics BS or Computer Science BS or Digital Culture (Media Processing) BA or Geographic Information Science BS or Comp Systems BSE or Engr Mgmt BSE OR Comp Sci or Software Engr graduate  |

| CSE     | 412         | Database Management              | Introduces DBMS concepts. Data models and languages. Relational database theory. Database security/integrity and concurrency.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Biomedical Informatics BS, Comp Sci BS, or Comp Syst Engr BSE major; CSE 310 with C or better OR Comp Sci and Engr or Software Engr grad student; Credit is allowed for only ACO 220 or ACO 320 or CSE 412 or IFT 433 (or CST 433) or SER 322 |
| CSE     | 414         | Advanced Database Concepts       | Object-oriented data modeling, advanced relational features, JDBC and Web access to databases, XML and databases, object-oriented databases, and object-relational databases.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Systems Engineering BSE or Computer Science BS major; CSE 412 with C or better OR Computer Science and Engineering or Software Engineering graduate student  |
| CSE     | 420         | Computer Architecture I          | Computer architecture. Performance versus cost tradeoffs. Instruction set design. Basic processor implementation and pipelining.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 230 or EEE 230 with C or better; CSE 310 with C or better OR graduate Computer Engineering student; Credit is allowed for only CSE 420 or CSE 520                          |
| CSE     | 423         | Systems Capstone Project I       | Development process: specification, design, implementation, evaluation, and testing with economic, social, and safety considerations. Technical communication and team skills enrichment.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     | L               | Prerequisite(s): Computer Systems Engineering BSE major; CSE 320 with C or better; CSE 325 with C or better; CSE 330 with C or better; CSE 360 with C or better; senior standing or postbaccalaureate; Credit is allowed for only CSE 423 or CSE 485           |
| CSE     | 424         | Systems Capstone Project II      | Continuation of capstone project started in CSE 423.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     | L               | Prerequisite(s): Computer Systems Engineering BSE major; CSE 423 with C or better; senior standing or postbaccalaureate  |
| CSE     | 432         | Operating System Internals       | IPC, exception and interrupt processing, memory and thread management, user-level device drivers, and OS servers in a modern microkernel-based OS.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Systems Engineering BSE or Computer Science BS major; CSE 430 with C or better OR Computer Science and Engineering or Software Engineering graduate student  |
| CSE     | 434         | Computer Networks                | Network architecture and protocols, principles of network applications, socket programming, flow and congestion control, switching and routing, link-layer technologies, traffic capture and analysis, security.                         | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engr BSE major; CSE 230 or EEE 230 with C or better; CSE 310 with C or better OR Computer Science and Engr or Software Engr graduate student; Credit is allowed for only ACO 330 or CSE 434           |
| CSE     | 438         | Embedded Systems Programming     | Development of embedded system software, I/O handlers, and multiple threaded programs. Scheduling algorithms. Embedded software structures. Real-time operating system.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     | L               | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 325 with C or better OR Computer Science and Engineering or Software Engineering graduate student  |
| CSE     | 440         | Compiler Construction I          | Introduces programming language implementation. Implementation strategies such as compilation, interpretation, and translation. Major compilation phases such as lexical analysis, semantic analysis, optimization, and code generation. | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Systems Engineering BSE or Computer Science BS major; CSE 310 with C or better OR Computer Science and Engineering or Software Engineering graduate student  |
| CSE     | 445         | Distributed Software Development | Distributed system architectures and design, service-oriented computing, and frameworks for development of distributed applications and software components.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 360 with C or better OR Computer Science and Engineering or Software Engineering graduate student  |

| CSE     | 460         | Software Analysis and Design               | Object-oriented and structured analysis and design; software architecture and design patterns; component-based development; software safety and reliability.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS, Geographic Information Science BS, or Computer Systems Engineering BSE major; CSE 360 with C or better OR Computer Science and Engineering, Software Engineering, or online CS nondegree-seeking graduate student       |
| CSE     | 463         | Introduction to Human Computer Interaction | Design, evaluate, and implement interactive software intended for human use.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Comp Sci BS or Comp Syst Engr BSE or GIS BS major; CSE 310 with C or better OR Digital Culture (Media Processing) BA or Informatics BS major; CPI 310 with C or better OR Computer Science and Engr or Software Engr graduate student        |
| CSE     | 464         | Software Quality Assurance and Testing     | Software quality assurance (SQA), software quality metrics, software configuration management, software verification and validation, reviews, inspections, understanding software testing process, functional testing, structural testing, model-based testing, integration, system, and regression testing techniques, software life cycle models and software testing, testing distributed software, bug management, and use of testing tools. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Comp Sci BS or Comp Systems Engr BSE major; CSE 360 with C or better OR Comp Sci and Engr or Software Engr graduate student; Credit is allowed for only CSE 464 or CSE 494/598 (Software Quality Assurance and Testing)                      |
| CSE     | 466         | Computer Systems Security                  | Countermeasures to attacks to computer systems from miscreants (or hackers) and basic topics of cryptography and network security.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 310 with C or better OR Computer Science and Engineering or Software Engineering graduate student   |
| CSE     | 467         | Data and Information Security              | Basic concepts of security and privacy, data and database security, access controls, trust models, watermarking, and private information retrieval.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 310 with C or better OR Computer Science and Engineering or Software Engineering graduate student   |
| CSE     | 468         | Computer Network Security                  | Practical network security exposure and hands-on experience about basic concepts, case studies, and useful tools.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 310 with C or better OR Computer Engineering or Software Engineering graduate student   |
| CSE     | 469         | Computer and Network Forensics             | Identification, extraction, documentation, interpretation, and preservation of computer media for evidentiary purposes, file system forensics, and network forensics.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): CSE 310 with C or better OR Computer Science and Engineering or Software Engineering graduate student; Credit is allowed for only CSE 469 or CSE 598 (Computer and Network Forensics)  |
| CSE     | 470         | Computer Graphics                          | Introduces basic concepts of interactive computer graphics, realistic rendering, and 3-D viewing.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Digital Culture (Media Processing) BA, Computer Science BS, Geographic Information Science BS, or Computer Systems Engineering BSE major; CSE 310 with C or better; MAT 342 or 343 OR Comp Sci and Engr or Software Engr graduate student    |

ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                                    | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                               | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|--|
| CSE     | 471         | Introduction to Artificial Intelligence         | State space search, heuristic search, games, knowledge representation techniques, expert systems, and automated reasoning.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS, Geographic Information Science BS, or Computer Systems Engineering BSE major; CSE 310 with C or better OR Computer Science and Engineering or Software Engineering graduate student                                  |
| CSE     | 472         | Social Media Mining                             | Network measures, social network analysis, network models, random graphs, small-world model, power laws, data mining, influence and homophily, information diffusion, epidemics, behavioral analysis, recommendation in social media, community detection.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engr BSE major; with a C or better: CSE 310; IEE 380; MAT 343 OR Computer Science and Engr or Software Engr graduate student; Credit is allowed for only CSE 472 or CSE 494 (Social Media Mining) |
| CSE     | 476         | Introduction to Natural Language Processing     | Principles of computational linguistics, formal syntax, and semantics, as applied to the design of software with natural (human) language I/O.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 310 with C or better OR Computer Science and Engineering or Software Engineering graduate student  |
| CSE     | 477         | Introduction to Computer-Aided Geometric Design | Introduces basic concepts of 3-D computer geometry, including curves, surfaces, meshes.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; MAT 342 or 343 with C or better OR Computer Science and Engineering or Software Engineering graduate student   |
| CSE     | 484         | Internship                                      | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | N                 | PRA               | Y               | YGB           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): junior or senior standing   |
| CSE     | 485         | Computer Science Capstone Project I             | First course in capstone sequence for computer science majors emphasizing development process, technical skills, teamwork, and communication.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     | L               | Prerequisite(s): Computer Science BS major; senior standing or postbaccalaureate; CSE 330 with C or better; CSE 340 with C or better; CSE 355 with C or better; CSE 360 with C or better; Credit is allowed for only CSE 423 or CSE 485                    |
| CSE     | 486         | Computer Science Capstone Project II            | Second course in capstone sequence for computer science majors continuing the development process, technical skills, teamwork, and communication.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     | L               | Prerequisite(s): Computer Science BS major; CSE 485 with C or better; senior standing or postbaccalaureate   |
| CSE     | 492         | Honors Directed Study                           | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| CSE     | 493         | Honors Thesis                                   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| CSE     | 494         | Special Topics                                  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-4   |                 | Prerequisite(s): CSE 310 with C or better  |
| CSE     | 498         | Pro-Seminar                                     | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-7   |                 | Pre-requisite: Computer Systems Engineering BSE or Computer Science BS student; Minimum cumulative GPA of 2.50 or Graduate Engineering student   |
| CSE     | 499         | Individualized Instruction                      | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-3   |                 |  |
| CSE     | 509         | Digital Video Processing                        | Concepts of digital video compression, video analysis, video indexing, browsing and retrieval, video transmission over networks, video processors, and relevant industry standards.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student   |
| CSE     | 510         | Database Management System Implementation       | Implementation of database systems. Data storage, indexing, querying, and retrieval. Query optimization and execution, concurrency control, and transaction management.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student   |
| CSE     | 511         | Data Processing at Scale                        | Delves into new frameworks for generating, processing and managing large-scale data-sets. More specifically, covers the following topics: core database concepts, distributed and parallel data systems, deploying and operating data systems in the cloud, NoSQL database systems, and big data tools.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student; Credit is allowed for only CSE 511 or CSE 512  |
| CSE     | 512         | Distributed Database Systems                    | Distributed database design, query processing, and transaction processing. Distributed database architectures and interoperability. Emerging technology.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Engineering or Computer Science or Software Engineering graduate student; Credit is allowed for only CSE 511 or CSE 512  |

| Subject | Catalog Nbr | Course Title                                     | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                               | Units | General Studies | Requirements  |
|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|---|
| CSE     | 515         | Multimedia and Web Databases                     | Data models for multimedia and Web data; query processing and optimization for inexact retrieval; advanced indexing, clustering, and search techniques.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student  |
| CSE     | 520         | Computer Architecture II                         | Computer architecture description languages, computer arithmetic, memory-hierarchy design, parallel, vector, multiprocessors, and input/output.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student  |
| CSE     | 522         | Real-Time Embedded Systems                       | Development of real-time embedded systems, scheduling algorithms, embedded software structures, real-time operating system.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Pre-requisite: Computer Science, Computer Engineering, Master of Engineering or Engineering Science (Software Engineering) Graduate student   |
| CSE     | 530         | Embedded Operating System Internals              | Investigating Linux source including: memory management, kernel synchronization and driver design topics. Designing, coding, testing, and evaluating embedded operating system software in a Linux environment.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student  |
| CSE     | 531         | Distributed and Multiprocessor Operating Systems | Distributed systems architecture, remote file access, message-based systems, object-based systems, client/server paradigms, distributed algorithms, replication and consistency, and multiprocessor operating systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student  |
| CSE     | 534         | Advanced Computer Networks                       | Advanced network protocols and infrastructure, applications of high-performance networks to distributed systems, high-performance computing and multimedia domains, special features of networks.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student  |
| CSE     | 535         | Mobile Computing                                 | Mobile networking, mobile information access, adaptive applications, energy-aware systems, location-aware computing, mobile security and privacy.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student  |
| CSE     | 536         | Advanced Operating Systems                       | Protection and file systems. Communication, processes, synchronization, naming, fault tolerance, security, data replication, and coherence in distributed systems. Real-time systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student  |
| CSE     | 539         | Applied Cryptography                             | Uses cryptography for secure protocols over networked systems, including signatures, certificates, timestamps, electrons, digital cash, and other multiparty coordination.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student  |
| CSE     | 543         | Information Assurance and Security               | Comprehensive understanding of information assurance and security problems with the solutions as well as hands-on experiences about applying these solutions.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student or Online Computer Science nondegree-seeking graduate student; Credit is allowed for only CSE 465 or CSE 543 |
| CSE     | 545         | Software Security                                | Theories and tools for software security, including secure design, threat analysis and modeling, security testing and coding.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Engineering, Computer Science, or Software Engineering graduate student OR Online Computer Science nondegree-seeking graduate student                         |
| CSE     | 546         | Cloud Computing                                  | Virtualization, cloud computing, programmable networking, performance evaluation, information assurance, distributed and parallel computing, and cloud computing-based applications. Students must have a solid background in computer architecture, operating system and computer networking to be successful in this course. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Engineering or Computer Science or Software Engineering graduate student; Credit is allowed for only CSE 546 or CSE 591 (Cloud Computing)                     |
| CSE     | 548         | Advanced Computer Network Security               | Comprehensive understanding of network security and corresponding solutions, including cryptography, access control, secure Web transactions, e-mail security, and viruses.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student  |
| CSE     | 550         | Combinatorial Algorithms and Intractability      | Combinatorial algorithms, nondeterministic algorithms, classes P and NP, NP-hard and NP-complete problems, and intractability. Design techniques for fast combinatorial algorithms.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student  |
| CSE     | 551         | Foundations of Algorithms                        | Advanced topics in formal algorithm design and analysis, including advanced shortest-paths algorithms, amortized analysis, network flows, NP-completeness and selected topics in computational geometry, distributed/parallel, randomized, and approximation algorithms.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Engineering or Computer Science graduate student or Online CS nondegree-seeking graduate student; Credit is allowed for only CSE 450 or CSE 551               |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                               | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|---|
| CSE     | 552         | Randomized and Approximation Algorithms                      | Introduces two important areas of algorithm design for graduate students. A randomized algorithm is allowed to rely on the outcome of a random experiment in deciding on its next step. In many applications, randomized algorithms are simpler than any deterministic algorithms known, but in several cases, they are in fact more powerful or more efficient than any deterministic algorithms. Covers basic paradigms for randomized algorithm design and analysis, as well as for derandomization. | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): graduate Computer Engineering or Computer Science student; CSE 550 or 551 or 555 with B or better  |
| CSE     | 555         | Theory of Computation  | Rigorous treatment of regular languages, context-free languages, Turing machines and decidability, reducibility, and other advanced topics in computability theory.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student                              |
| CSE     | 556         | Game Theory with Applications to Networks                    | Strategic conflict as matrix games, notions of equilibrium, definition and existence of Nash equilibrium, zero-sum games, extensive-form games, Bayes Nash equilibrium, potential games, routing games, algorithmic game theory, computation of Nash equilibrium, incentives and pricing in communication networks, application of game theory in wireless networks. Knowledge of calculus, discrete mathematics, probability theory and algorithms is necessary to be successful in this course.       | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student; Credit is allowed for only CSE 556 or CSE 591 (Game Theory with Applications to Networks) |
| CSE     | 561         | Modeling and Simulation Theory and Application               | Modeling theories, simulation protocols, object-oriented modeling, model design, simulation analysis, network-based systems, discrete-event modeling, continuous modeling, hybrid modeling.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student                              |
| CSE     | 563         | Software Requirements and Specification                      | Examines the definitional stage of software development; analysis of specification representations, formal methods, and techniques emphasizing important application issues.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): graduate Computer Engineering or Computer Science or Software Engineering student  |
| CSE     | 564         | Software Design  | Examines software design issues and techniques. Includes a survey of design representations and a comparison of design methods.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): graduate Computer Engineering or Computer Science or Software Engineering student  |
| CSE     | 565         | Software Verification, Validation, and Testing               | Test planning, requirements-based and code-based testing techniques, tools, reliability models, and statistical testing.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Engineering or Computer Science or Software Engineering graduate student or Online CS nondegree-seeking graduate student                    |
| CSE     | 566         | Software Project, Process, and Quality Management            | Project management, risk management, configuration management, quality management, and simulated project management experiences.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Engineering or Computer Science or Software Engineering graduate student OR Online Computer Science nondegree-seeking graduate student      |
| CSE     | 569         | Fundamentals of Statistical Learning and Pattern Recognition | Concepts of statistical pattern recognition, Bayesian decision theory, parameter estimation, discriminant analysis, basics of artificial neural networks, basics of data clustering. Knowledge of college-level calculus, linear algebra, basic probability theory and proficiency in computer programming is necessary to be successful in this course.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Pre-requisite: Computer Engineering or Computer Science Graduate student; Credit is allowed for only CSE 569 or 591 (Statistical Learning and Pattern Recognition)    |
| CSE     | 570         | Advanced Computer Graphics I                                 | 3D shape analysis techniques: half-edge data structure, polygon mesh processing, fast marching method, iterative closest point algorithms, heat kernel and spectral analysis, isometric embedding.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student                              |
| CSE     | 571         | Artificial Intelligence                                      | Definitions of intelligence, computer problem solving, game playing, pattern recognition, theorem proving, and semantic information processing; evolutionary systems; heuristic programming.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Engineering or Computer Science or Software Engineering graduate student or Online CS nondegree-seeking graduate student                    |
| CSE     | 572         | Data Mining  | Advanced data mining techniques: classification, clustering, association, preprocessing; performance evaluation; information assurance, Web mining, security and privacy issues, and other applications. Students must have a solid background in database management systems, search, learning, and statistics to be successful in this course.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Engineering or Computer Science or Software Engineering graduate student or Online CS nondegree-seeking graduate student                    |
| CSE     | 573         | Semantic Web Mining  | Data mining techniques for structuring and organizing unstructured sources such as text and Web data into meaningful machine-processable information; computational aspects of information extraction and data linkage; discovery and prediction tasks where text serves as data such as detecting events, measuring public opinion and making recommendations. A background in databases, algorithms and theory of computation is necessary to be successful in this course.                           | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): graduate standing in Computer Engineering or Computer Science; Credit is allowed for only CSE 573 or CSE 591 (Semantic Web Mining)                   |
| CSE     | 574         | Planning and Learning Methods in AI                          | Reasoning about time and action, plan synthesis and execution, improving planning performance, applications to manufacturing intelligent agents.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student                              |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                           | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                               | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|--|
| CSE     | 575         | Statistical Machine Learning           | Spectral clustering, regression, classification, semi-supervised learning, feature reduction, manifold learning, ranking, kernel learning and multitask learning.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Engineering or Computer Science graduate student or Online CS nondegree-seeking graduate student; Credit is allowed for only CSE 575 or CSE 591 (Machine Learning) |
| CSE     | 576         | Topics in Natural Language Processing  | Comparative parsing strategies, scoping and reference problems, nonfirst-order logical semantic representations, and discourse structure.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student   |
| CSE     | 577         | Advanced Geometric Modeling I          | Advanced concepts of geometric modeling: rectangular and triangular surfaces, triangle meshes, Voronoi diagrams, discrete and continuous shape measures, volumes and volume visualization. Students must have a solid background in linear algebra, calculus, and basic 3D graphics to be successful in this course.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student   |
| CSE     | 578         | Data Visualization                     | Amidst the information flood in which we are currently immersed, visualizations can be a well-placed treetop. The rise of big data has the potential to inform decisions, and visual representations can play a crucial intermediate role in our daily information consumption. Covers techniques and algorithms for creating effective visualizations based on principles from graphic design, visual art, perceptual psychology and cognitive science to enhance the understanding of complex data. | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Engineering or Computer Science graduate student or Online CS nondegree-seeking graduate student   |
| CSE     | 579         | Knowledge Representation and Reasoning | Covers knowledge representation and reasoning algorithms in artificial intelligence, shows how they can be used in practice, and provides an overview of current research trends.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Engineering or Computer Science or Software Engineering graduate student or Online CS nondegree-seeking graduate student   |
| CSE     | 580         | Practicum                              | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CSE     | 584         | Internship                             | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CSE     | 590         | Reading and Conference                 | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | GNA           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CSE     | 591         | Seminar                                | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student   |
| CSE     | 592         | Research                               | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CSE     | 593         | Applied Project                        | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student   |
| CSE     | 594         | Conference and Workshop                | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 |  |
| CSE     | 595         | Continuing Registration                | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CSE     | 598         | Special Topics                         | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-4   |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student OR Online Computer Science nondegree-seeking graduate student   |
| CSE     | 599         | Thesis                                 | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CSE     | 691         | Seminar                                | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CSE     | 790         | Reading and Conference                 | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

| CSM     | 294         | Special Topics                                  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 1-4   |                 |   |
| CSM     | 305         | Sports Facility Operations and Management       | Overview of the management and operations of sports facilities.   | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 3     |                 | Prerequisite(s): Community Sports Management major; CRD 210 (or NLM/PRM/TDM 210) with C or better; MAT 142 or higher; minimum 2.50 cumulative GPA; minimum 45 hours   |
| CSM     | 335         | Sports and Recreation for Youth Development     | Provides an overview of definitions, statistics, theories and models, and types of programs surrounding youth development in relation to sports, recreation and leisure services. Addresses current trends related to youth development and collaborative partnerships in sports, recreation and leisure services at various levels within local, state, national and/or international systems.         | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 3     |                 | Pre-requisite: minimum 45 hours. Credit is allowed for only CSM 335 or PRM 335  |
| CSM     | 350         | Tourism, Recreation and Sports Marketing        | Critical examination of marketing principles in leisure and related industries in diverse settings, including local, national, and international.   | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 3     |                 | Prerequisite(s): CRD 210, CSM 201 or TDM 205; ENG 102, 105 or 108 with C or better; MAT 142 or higher with C or better; minimum 45 hours; Credit is allowed for only CRD 350 or CSM 350 or PRM 350 or TDM 350 |
| CSM     | 401         | Managing Leisure Enterprises                    | Analyzes administrative function, structure, and policies. Successful application in administrative situations.   | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 3     |                 | Prerequisite(s): CRD 210 or PRM 210; TDM 372 or CSM 203 or PRM 203; minimum 2.50 GPA; Credit is allowed for only CRD 401 or CSM 401 or PRM 401  |
| CSM     | 402         | Assessment and Evaluation of Community Services | Introduces applied leisure research with emphasis on program evaluation, research design, data collection techniques, and data analysis.  | N                 | LEC               | N               | OPT           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 3     |                 | Pre- or corequisite(s): CRD 401, CSM 401, PRM 401, TDM 401, or NLM 410 with C or better if completed; Credit is allowed for only CRD 402 or CSM 402 or NLM 402 or PRM 402 or TDM 402                          |
| CSM     | 407         | Ethics and Legal Issues in Sports               | Comprehensive look at ethical decision making from many perspectives in the sports environment. Presents legal issues as they relate to history, present society and future trends.   | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 3     |                 | Pre-requisite: CSM 201  |
| CSM     | 453         | Inclusive and Adaptive Sports and Recreation    | Provides an overview of adaptive community recreation, the importance of inclusion in the recreational field and how to facilitate programs in this growing field.  | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 3     |                 | Prerequisite(s): minimum 45 hours; Credit is allowed for only CSM 453 or CSM 494 (Inclusive and Adaptive Sports and Recreation) or PRM 453 or PRM 494 (Inclusive and Adaptive Sports and Recreation)          |
| CSM     | 463         | Senior Internship                               | Supervised guided experience in selected agencies.  | N                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 1-12  |                 | Prerequisite(s) with C or better: CRD 403 or PRM 413; CSM 402 or NLM 402 or PRM 402 or TDM 402. Credit is allowed for only CSM 463 or NLM 463 or PRM 463 or TDM 463   |
| CSM     | 483         | Sports Tourism                                  | Examines the relationship between sports and tourism, and the role of recreation and amateur sports as an economic and community development strategy. Also considers the motives, behaviors and experiences of sport tourists; the impacts of sport tourism; and trends in sports tourism.   | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 3     |                 | Prerequisite(s): minimum 45 hours; Credit is allowed for only CSM 483 or PRM 483 or TDM 483   |
| CSM     | 484         | Internship                                      | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 1-12  |                 |   |
| CSM     | 485         | Sports Events                                   | Expands the basic concepts of recreation, leisure or tourism program planning and leadership as they are specifically related to sport events management.   | N                 | LEC               | N               | GNA           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 3     |                 | Pre-requisite: minimum 45 hours. Credit is allowed for only CSM 485 or PRM 485  |
| CSM     | 494         | Special Topics                                  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Watts Col of Pub Ser & Com Sol | School of Community Resources and Development | 1-4   |                 |   |
| DAH     | 194         | Special Topics                                  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-4   |                 |   |
| DAH     | 294         | Special Topics                                  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-4   |                 |   |

| DAH     | 492         | Honors Directed Study      | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 1-6   |                 | Prerequisite(s): Barrett Honors student                        |
| DAH     | 493         | Honors Thesis              | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 1-6   | L               | Prerequisite(s): Barrett Honors student                        |
| DAH     | 494         | Special Topics             | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 1-4   |                 |  |
| DAH     | 499         | Individualized Instruction | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 1-3   |                 |  |
| DAH     | 500         | Research Methods           | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| DAH     | 580         | Practicum                  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| DAH     | 590         | Reading and Conference     | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| DAH     | 591         | Seminar                    | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| DAH     | 593         | Applied Project            | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| DAH     | 594         | Conference and Workshop    | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| DAH     | 595         | Continuing Registration    | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| DAH     | 598         | Special Topics             | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| DAN     | 394         | Special Topics             | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 1-4   |                 |  |
| DBA     | 500         | Research Methods           | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Dean, W.P. Carey School of Business | 1-12  |                 |  |
| DBA     | 580         | Practicum                  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | W.P. | DCE     | 123         | Hip Hop I                                 | Equips student with understanding of hip hop dance history, culture and music through studio work on various hip-hop dance styles.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 |   |
| DCE     | 124         | Latin/Swing/Ballroom I                    | Introduces major Latin and ballroom dances and focuses on a system of elements that are found in all partnership dances, including movement components, rhythmic patterns, dance positions, and unique characteristics used to better define each dance.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 |   |
| DCE     | 125         | Latin/Salsa I                             | Introduces Latin dancing. Instruction focuses on salsa, cha-cha, merengue, and rumba.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 |   |
| DCE     | 126         | Country-Western                           | Initiates the student into the rhythm two-step, progressive two-step, night club two-step, country cha-cha, country waltz, triple swing and a multitude of line dances.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 |   |
| DCE     | 130         | First-Year Movement Practices I           | Introduces diverse somatic movement principles and practices through exploration of movement, context, theory, and personal reflection.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: Dance major  |
| DCE     | 131         | First-Year Movement Practices II          | Modular structure enables a series of short intensive studies including movement, context, theory, and personal reflection.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): Dance student; DCE 130 with C or better  |
| DCE     | 133         | Urban Movement Practices I                | Designed as an introduction to dance, history, culture, and music in urban movement styles.  | N                 | LEL               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: Dance majors, BA Performance and Movement, BIS-Dance, Dance minor; Credit is allowed for only DCE 133, 194 (Intro to Urban Mvt. Practices) or 494 (Urban Movement Practices)                         |
| DCE     | 134         | Postmodern Contemporary I                 | Introduces postmodern contemporary dance technique and theory. Designed to enhance the dancer's technical and artistic proficiency by using movement that is athletically challenging, nuanced, and rhythmically complex.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: BA Performance and Movement or BFA Dance major   |
| DCE     | 135         | Contemporary Ballet I                     | Introduces contemporary view of ballet technique and theory with attention to enhancing student's dynamic alignment.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: BA Performance and Movement or BFA Dance major   |
| DCE     | 136         | Somatic Practices I                       | Survey course offers a practical and theoretical introduction to some of the major somatic practices evolving out of the 20th century. Guest practitioners and teachers of various embodied practices share theory, practice and context. Explores movement and the integration of the body and mind through a variety of somatic lenses (e.g., the Alexander Technique, Authentic Movement, and experiential anatomy).          | N                 | LEL               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Credit is allowed for only DCE 136 or 194 (Intro Movemnt Language Sources)  |
| DCE     | 137         | African and Diaspora Movement Practices I | Foundational course in the African and the Diaspora movement practices curriculum.   | N                 | LEL               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: Dance BFA, BIS-Dance concentration or Dance minor; Credit is allowed for only DCE 137, 194 (Mvt Practice: Africa/Diaspora), 294 (Mvt Practice: Africa/Diaspora) or 494 (African & Diaspora Mvt Prac) |
| DCE     | 160         | First-Year Creative Practices I           | Explores creativity and creative processes with reference to some key historical practices and influential artists. Seeks to encourage and develop students' awareness of their own imagination and creative process through individual and group projects involving problem solving, creative tasks, and reflection.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite: BA Performance and Movement or BFA Dance major   |
| DCE     | 161         | First-Year Creative Practices II          | Explores creativity and creative processes with reference to some key historical practices and influential artists. Encourage and develops students' awareness of their own imagination and creative process through individual and group projects involving problem solving, creative tasks, and reflection.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Dance BFA or Performance and Movement BA major; DCE 160 with C or better   |
| DCE     | 170         | First-Year Seminar I                      | Orientation to the university learning environment and profession of dance with emphasis on developing tools and processes for reflection and critical thinking.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Prerequisite(s): Dance BFA or Performance and Movement BA major   |
| DCE     | 171         | First-Year Seminar II                     | Continuation of First-Year Seminar I. Focuses on orientation to the larger field of contemporary dance practice with an emphasis on developing tools and processes for reflection, synthesis, and critical thinking. Requires participation in School of Dance "Dance Matters."  | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Prerequisite(s): Dance BFA or Performance and Movement BA major   |
| DCE     | 194         | Special Topics                            | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-3   |                 |   |
| DCE     | 201         | Dance, Culture, and Global Contexts       | Introduces the study of dance as culture in diverse global contexts.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | HU              |   |
| DCE     | 202         | Dance in U.S. Popular Culture             | Investigates vital cultural heritages that have shaped dance in U.S. American popular culture from 20th century to the present. Emphasizes dance as a producer of social space and cultural identity as well as a reflection of diverse social realities and dynamics of power. Following required reading and videos, the course surveys time periods of dance from the late 1800s through the 20th century to the present day. | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | HU & C          | Credit is allowed for only DCE 202 or 294 (Dance in US Popular Culture)   |
| DCE     | 203         | Walk this Way                             | Addresses walking as a key component in movement studies and further brings the study of bodily movements center stage as a means to address the dynamic between self and society. Designed for nonmajors. Not eligible for majors credit.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre- or corequisite(s): ENG 101, 105 or 107 with C or better; Credit is allowed for only DCE 203 or 294 (Walk this Way)   |
| DCE     | 210         | Argentine Tango II                        | Builds upon concepts, figures, and elements of the Argetine Tango introduced in level one.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: DCE 110 or DAN/DCE 194 (Argentine Tango I)   |
| DCE     | 211         | Belly Dancing II                          | Focuses on refining beginning technique, advanced movements, layering and musical interpretation. Uses choreography and improvisation to encourage mind-body awareness.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): DCE 111  |

| DCE     | 225         | Latin/Salsa II                    | Reviews and reinforces the basics introduced in Latin/Salsa I and builds upon more complicated concepts and figures.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: DCE 125 or DAN 194 (Latin/Salsa I)   |
| DCE     | 230         | Second-Year Movement Practices I  | Investigates selected movement forms in the second-year movement practices. New movement forms include but are not limited to contact improvisation, Alexander technique, Feldenkrais, Body Mind Centering (BMC), taekwondo, aikido, wushu, LMA, yoga, or somatic bodywork.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): Dance majors; DCE 131 with C or better                                   |
| DCE     | 231         | Second-Year Movement Practices II | This course is set up in two modules. In module one, students will investigate a movement form, include but are not limited to contact improvisation, Alexander technique, Feldenkrais, Body Mind Centering (BMC), taekwondo, aikido, wushu, LMA, yoga, or somatic bodywork. Module two expands the practice of rhythmic awareness through exploration and investigation of the close relation between thought and act, the kinesthetic and the verbal, the text and the beat, as well as the breath and the word.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): Dance student; DCE 230 with C or better                                  |
| DCE     | 233         | Urban Movement Practices II       | A practical and theoretical investigation of the urban movement forms and practices developed over recent years in urban centers around the world. Addresses the evolution of hip hop/urban movement dance through the study of House style.  | N                 | LEL               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): DCE 133 with B+ or better  |
| DCE     | 234         | Postmodern Contemporary II        | Investigation and practices of postmodern contemporary dance technique. Development of movement quality and performance skills.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): Performance and Movement BA or Dance BFA major; DCE 134 with C or better |
| DCE     | 235         | Contemporary Ballet II            | Explores the possibilities of contemporary ballet technique and theory with awareness of student's individual anatomical differences.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): Performance and Movement BA or Dance BFA major; DCE 135 with C or better |
| DCE     | 236         | Somatic Practices II              | Laboratory for somatic education that explores the foundations of movement, voice, expression and spatial awareness. Open to nonmajors, the class welcomes and encourages the participation of students from a wide variety of disciplines. Taught through the principles of specific somatic lenses (e.g., the Alexander Technique, Bartenieff Fundamentals, and Body Mind Centering), the course highlights how embodied awareness affects artistic process and choice making, as well as enhancing physical capacities, kinesthetic intelligence, and the refinement of performance and technical skills. Emphasizes developing a holistic perception of ourselves, our relation to one another, and to the environment. | N                 | LEL               | Y               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 |   |
| DCE     | 240         | Media for Dance                   | Computer applications for human movement modeling, digital video design and creation, sound composition, and the incorporation of multimedia design elements into online environments.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | CS              |   |
| DCE     | 260         | Second-Year Creative Practices I  | Explores concepts introduced in the first year of creative practice and further expands into the themes of analysis and investigation. Year two experience involves the investigation of learning to compose and construct choreographic material through individual, collaborative, improvisational, and group exploration.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Dance major; DCE 161 with C or better                                    |
| DCE     | 261         | Second-Year Creative Practices II | Continues developing students' awareness of their own creative process through individual and group projects involving problem solving, creative tasks, and reflection.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Dance major; DCE 260 with C or better                                    |
| DCE     | 262         | Rhythmic Theory for Dance I       | Elements of music, music structures, and their relationship to dance. Emphasis on rhythmic analysis and dance accompaniment.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: BA Performance and Movement or BFA Dance major                             |
| DCE     | 270         | Second-Year Seminar I             | Continues developing tools and processes for reflection and critical thinking by identifying individual goals and objectives related to the students' current and future academic and professional careers  | N                 | SEM               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Prerequisite(s): Dance major; DCE 171   |
| DCE     | 271         | Second-Year Seminar II            | Provides basic understanding of costume design, sound production, and interactive performance for dance.  | N                 | SEM               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Prerequisite(s): Dance major; DCE 270 with C or better                                    |
| DCE     | 294         | Special Topics                    | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-4   |                 |   |
| DCE     | 300         | Moving Histories                  | In-depth study of the history of Western dance in Europe and America. Students learn about various ways of conducting research into dance history, including interviewing, researching using primary resources and performing scholarship.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | HU              | Prerequisite(s): ENG 101, 105 or 107 with C or better                                     |

| DCE     | 301         | Meaning in Motion                                 | Critical inquiry into the nature of dance through the lens of dance theory. Covers philosophical and theoretical issues raised by the study of dance in relation to specific historical and global contexts.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | L or HU         | Prerequisite(s): ENG 101 (or ENG 105 or 107) with C or better   |
| DCE     | 303         | The Body Condition(ed)                            | Examines contemporary practices of conditioning the body from a triangulation of perspectives: physical, social, and experiential. Enhances the ability to obtain a holistic understanding of how the self/social dynamic operates within the context of body conditioning. Designed for Non-Majors. Not Eligible for Dance Major Requirements.   | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | SB              | Pre/Co-requisite: ENG 102, ENG 105 or ENG 108   |
| DCE     | 324         | Latin/Swing/Ballroom III                          | Refines dances learned in the intermediate level of Latin and ballroom dances, including foxtrot, waltz, salsa, cha cha, rumba, samba, west coast swing, bolero, tango, and swing. Prepares students to have a more advanced command of the complex rhythms and figures used in the major partnership dances.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: DCE 224 or DAN 294 (Latin/Swing/Ballroom II)   |
| DCE     | 330         | Third-Year Movement Practices I                   | Focuses on the application of diverse movement forms and somatic studies in a range of performance contexts. These contexts may include live and mediated performance, community-based projects, pedagogy, analysis of movement forms in relation to musical compositions or the creation of new movement languages.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: Dance major; DCE 231   |
| DCE     | 331         | Third-Year Movement Practices II                  | Student will focus on the integration of diverse movement forms and somatic practices, as well as developing an in-depth understanding of a range of performance contexts practically and theoretically.  | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): Dance student; DCE 330 with C or better  |
| DCE     | 333         | Urban Movement Practices III                      | A practical and theoretical integration of the urban movement forms that have been investigated and practiced in the urban movement practices curriculum.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): DCE 233 with B+ or better  |
| DCE     | 334         | Postmodern Contemporary III                       | Integrates dance theory and practices of postmodern contemporary dance technique. Refines movement quality and performance skills.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Performance and Movement BA or Dance BFA major; DCE 234 with C or better   |
| DCE     | 335         | Contemporary Ballet III                           | Expansion of student's technical skills and theoretical knowledge through utilization of a hybridized ballet movement vocabulary.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite: BA Performance and Movement or BFA Dance major   |
| DCE     | 336         | Somatic Practices III                             | Laboratory for somatic education that explores the foundations of movement, voice, expression and spatial awareness. Open to nonmajors, the class welcomes and encourages the participation of students from a wide variety of disciplines. Taught through the principles of specific somatic lenses (e.g., the Alexander Technique, Bartenieff Fundamentals, and Body Mind Centering), the course highlights how embodied awareness affects artistic process and choice making, as well as enhancing physical capacities, kinesthetic intelligence, and the refinement of performance and technical skills. Emphasizes developing a holistic perception of ourselves, our relation to one another, and to the environment. | N                 | LEL               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): minimum 45 hours   |
| DCE     | 338         | Urban Movement Practices Ensemble                 | Focuses on building a cooperative practice among artists. The ensemble of dancers and musicians explore the connections between urban musical praxis and urban movement forms in a live, improvisatory setting. Places special emphasis on hybridization, or the blending of musical and gestic traits from two or more genres. Participants are expected to experiment in a cross-disciplinary manner throughout the semester. Course serves as an "experiment lab" for students enrolled in DCE 333 as well as other music and dance students.  | N                 | LAB               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Prerequisite(s): minimum 45 hours; Corequisite(s): DCE 333; Credit is allowed for only DCE 338 or DCE 294 (Urban Movement Practices Ensemble) |
| DCE     | 350         | Dance in the Classroom: Learning Through Movement | Explores theories of learning, thought development, and knowledge construction through aesthetic movement experiences. Students look to theories from the fields of aesthetics, phenomenology (study of lived experiences), somatics (study of the soma or body/mind), sociology and epistemology (theory of knowledge) to understand how the intertwined relationship of human thought development and movement patterning can affect children's learning and development.   | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | HU              | Prerequisite(s): ENG 102, 105 or 108 with C or better; minimum junior standing  |
| DCE     | 354         | Creative Approaches to Teaching Dance I           | Explores creative strategies and methodologies for teaching dance to a variety of populations in diverse settings.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Dance BFA major  |
| DCE     | 356         | Creative Approaches to Teaching Dance II          | Explores creative strategies and methodologies for teaching dance to a variety of populations in diverse settings.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite: Dance major  |
| DCE     | 360         | Third-Year Creative Practices I                   | Provides an orientation to the field of community dance practice. Students investigate foundational theories pertaining to the development of community dance worldwide, are exposed to leaders in community dance practice, and have in-depth applied experiences interacting with different populations in a variety of community dance contexts.   | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite(s): Dance BFA student; DCE 261 with C or better   |
| DCE     | 361         | Third-Year Creative Practices II                  | Historical survey of music and compositional elements relative to dance. Emphasis on analysis of choreography from a musical standpoint.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite(s): Dance major; DCE 360 with C or better   |
| DCE     | 370         | Third-Year Seminar I                              | Provides an orientation to the field of community dance practice. Over two consecutive semesters, students investigate foundational theories pertaining to the development of community dance worldwide, are exposed to leaders in community dance practice, and have in-depth applied experiences interacting with different populations in a variety of community dance contexts.   | N                 | SEM               | N               | YGB           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Pre-requisite: Dance major; DCE 271 with a Y  |

|---------|-------------|--------------------------------------|--|-------------------|-------------------|-----------------|---------------|------------------------------|-----------------------------------|-------|-----------------|--|
| DCE     | 371         | Third-Year Seminar II                | Hones skills in collaborative approaches, teaching, leading, and facilitation through partnerships with community organizations in the Phoenix metropolitan area. Students study community dance practices covering a range of creative process and community building tools that can be used in diverse settings. Applies research methods, such as data collection, analysis, and reflection, to measure the efficacy of community arts practices.   | N                 | SEM               | N               | YGB           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Pre-requisite: Dance major; DCE 370 with a Y.  |
| DCE     | 394         | Special Topics                       | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-4   |                 |  |
| DCE     | 402         | Ethnography of Dance Practices       | Examines the field of ethnochoreology, ethnographic methods, and interpretive research practices. Develops critical writing, thinking, and viewing skills for comparative dance study.   | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | L               | Prerequisite(s): DCE 201 with C or better; ENG 102, 105, or 108 with C or better                     |
| DCE     | 404         | Dance and Ethics                     | Examines ethical issues as they relate to the field of dance, including the following: the ethical treatment of dancers within educational and professional institutions; the ethical creation of dances sensitive to copyright/appropriation concerns as well as issues of form and content; the ethical engagement of the arts by the state; the ethical use of dance in trauma recovery and community building.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): ENG 102, 105 or 108 with C or better; minimum junior standing                       |
| DCE     | 405         | Rhetorical Moves                     | Addresses creative practice from the perspective of the embodied creative artist. Embodiment is theorized using a conflation of interdisciplinary concepts to analyze the complex and fluid nexus that occurs as the artist creates. Students theorize the creative artist as a rhetor and the creative practice as a rhetorical situation to understand the deconstructive interaction of the creative act. Explores ways to utilize this new theorization of embodiment for interdisciplinary research into creative practice. | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | L or HU         | Prerequisite(s): minimum 45 hours  |
| DCE     | 438         | Dance Theatre Performance/Production | Performance or technical theatre work in designated dance productions. 3 hours a week per semester hour.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): Dance BFA, Performance and Movement BA, Dance minor or BIS Dance concentration      |
| DCE     | 460         | Transition Project I                 | Original choreography for group performance with analysis and critique of problems encountered in production.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): Dance BFA or Performance and Movement BA major                                      |
| DCE     | 461         | Transition Project II                | Original research that integrates dance and a related field of interest. Includes production of written document and public presentation. Fall semester must be completed before spring registration. May be repeated for a total of 4 semester hours.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): Dance BFA or Performance and Movement BA major; DCE 460 with C or better            |
| DCE     | 470         | Fourth-Year Seminar                  | Explores and investigates the larger world of dance as it pertains to transitioning out of the university environment into professional lives. Discussion revolves around career opportunities, options and finding potential work synergies that will parlay into meaningful and exciting lives.  | N                 | SEM               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Pre-requisites: BFA Dance major; DCE 371; Credit is allowed for only DCE 470 or 494 (4th-Yr Seminar) |
| DCE     | 484         | Internship                           | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 |  |
| DCE     | 492         | Honors Directed Study                | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.  | N                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| DCE     | 493         | Honors Thesis                        | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | LEC               | N               | Z1            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| DCE     | 494         | Special Topics                       | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-4   |                 |  |
| DCE     | 499         | Individualized Instruction           | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.                              | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-3   |                 |  |
| DCE     | 500         | Research Methods                     | Course on research methods in a specific discipline.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                       |
| DCE     | 501         | Philosophy of Dance                  | Analyzes traditional and contemporary theories of dance with regard to issues of expression, form, and meaning.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                       |
| DCE     | 502         | Cultural Concepts of Dance           | Examines the close connections among culture, dance, and movement through writings in cultural theory, dance ethnology, and philosophy.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                       |
| DCE     | 504         | Dance and Ethics                     | Examination of ethical issues as they relate to the field of dance, including the following: the ethical treatment of dancers within educational and professional institutions; the ethical creation of dances sensitive to copyright/appropriation concerns as well as issues of form and content; the ethical engagement of the arts by the state; the ethical use of dance in trauma recovery and community building.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Dance MFA student   |

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department                        | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|------------------------------|-----------------------------------|-------|-----------------|--|
| DCE     | 505         | Rhetorical Moves  | Addresses creative practice from the perspective of the embodied creative artist. Embodiment is theorized using a conflation of interdisciplinary concepts to analyze the complex and fluid nexus that occurs as the artist creates. Students theorize the creative artist as a rhetor and the creative practice as a rhetorical situation to understand the deconstructive interaction of the creative act. Explores ways to utilize this new theorization of embodiment for interdisciplinary research into creative practice.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisites: Herberger Institute of Design and the Arts graduate students   |
| DCE     | 530         | Graduate Movement Practices I   | The four-semester sequence of graduate movement practices are a sequence of graduate-level movement studies experiences designed to emphasize in-depth psychophysical explorations of specific somatic movement practices and frameworks as well as epistemological frameworks for learning in and through the body. Addresses the integrated practices and theoretical underpinnings of Laban/Bartenieff praxis, Body Mind Centering and other somatic practices that are explored within the four-course sequence that facilitate movement exploration, movement functioning, movement performance and movement creation as well as performance and social theory constructs.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: MFA Dance student   |
| DCE     | 531         | Graduate Movement Practices 2   | The series of graduate movement practices courses are a sequence of two graduate-level movement studies experiences designed to emphasize in-depth psychophysical explorations of specific somatic movement practices and frameworks as well as epistemological frameworks for learning in and through the body. Classroom experiences are approached from theoretically grounded and contextualized perspectives that address through practice current somatic and epistemological thinking. The overarching frameworks for the first and fourth modules are designed as "bookends" for introducing, contextualizing, and synthesizing classroom experiences and concepts explored within the two-course sequence.   | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: MFA Dance student   |
| DCE     | 534         | Postmodern Contemporary   | Preparation in the performance and comprehension of professional-level modern dance for first-year graduate students. 6 hours weekly.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite: Dance Graduate student  |
| DCE     | 535         | Contemporary Ballet   | Graduate-level theoretical study and movement practice of contemporary ballet for contemporary dancers.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: MFA Dance student   |
| DCE     | 536         | Somatic Practices   | Laboratory for somatic education that explores the foundations of movement, voice, expression and spatial awareness. Open to nonmajors, the class welcomes and encourages the participation of students from a wide variety of disciplines. Taught through the principles of specific somatic lenses (e.g., the Alexander Technique, Bartenieff Fundamentals, and Body Mind Centering), the course highlights how embodied awareness affects artistic process and choice making, as well as enhancing physical capacities, kinesthetic intelligence, and the refinement of performance and technical skills. Emphasizes developing a holistic perception of ourselves, our relation to one another, and to the environment. Integrated lecture/lab. Prerequisite(s): degree- or nondegree-seeking graduate. | N                 | LEL               | Y               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only DCE 536 or DCE 598 (Movement Language Sources) or (Somatic Practices) |
| DCE     | 537         | African and Diaspora Movement Practices   | Investigates and integrates historical and cultural contexts for West, Central, and South African and Post-African (diasporic) movement practices. Engages movement and physical articulation as tools to examine specific dance cultural knowledge and demonstrate/embody techniques representing that cultural knowledge.   | N                 | LEL               | Y               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite: MFA Dance major; Credit is allowed for only DCE 537 or DCE 598 (African Diaspora Movement Practices)                                      |
| DCE     | 538         | Dance Theatre   | Performance in specially choreographed dance productions.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Pre-requisite: MFA Dance student   |
| DCE     | 540         | Issues in Media for Dance   | Introduces desktop multimedia as it relates to dance creation, production, education, and research.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite: MFA Dance student   |
| DCE     | 543         | Sound Design for Dance  | Audio mixing for analog/digital recording and editing.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: Dance majors  |
| DCE     | 554         | Teaching Praxis I: Postsecondary Teaching Philosophies, Foundations and Practices | Provides both the theoretical basis and practical application of principles for teaching contemporary dance disciplines in a postsecondary setting. Includes discussion, co-teaching and individual teaching projects and sessions, practical application of course readings, and guest speakers. Both dance and discussion of ideas in each class session.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Dance MFA student   |
| DCE     | 560         | Graduate Creative Practices I   | Artistic research through the practices of improvisation, choreographic choice making, and interdisciplinary collaboration.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite: MFA Dance student   |
| DCE     | 561         | Graduate Creative Practices II  | Explores a variety of contemplative practices designed to cultivate awareness and serve as stimuli for generating choreography and creative approaches in interdisciplinary collaborations.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite: Dance Graduate student; DCE 560   |
| DCE     | 563         | Rhythmic Awareness  | This course focuses on the kinesthetic aspects of weight, space, and time. It is opportunity for individual exploration as well as an ensemble experience, a chance to come together as a group through the communicative nature of sound, movement, and visual patterns.   | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Dance MFA student   |

| DCE     | 570         | Graduate First-Year Seminar I  | Part of a four-semester sequence that offers a cohort experience to increase awareness of current global dance practices, present opportunities for dialoguing about topics significant to fulfilling degree requirements and that promote success in the dance program as well as to facilitate transition into the professional world. Seminar.   | N                 | SEM               | N               | YGB           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Pre-requisite: Dance Graduate student; Credit is allowed for only DCE 570 or DCE 591 (1st Year Graduate Seminar)                    |
| DCE     | 571         | Graduate First-Yr Seminar II   | Part of a four-semester sequence that offers a cohort experience to increase awareness of current global dance practices; present opportunities for dialoguing about topics significant to fulfilling degree requirements and that promote success in the dance program as well as to facilitate transition into the professional world.  | N                 | SEM               | N               | YGB           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Prerequisite(s): Dance MFA student  |
| DCE     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LAB               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCE     | 583         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCE     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCE     | 590         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCE     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCE     | 593         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCE     | 594         | Conference and Workshop  | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCE     | 595         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCE     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCE     | 634         | Postmodern Contemporary  | Preparation in the performance and comprehension of professional-level modern dance for second-year graduate students. 6 hours weekly.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite: Dance Graduate student   |
| DCE     | 654         | Teaching Praxis II: Theories, Contexts, Populations, Psychomotor Development and Curriculum Design | Applies current learning theories and psychomotor development approaches to teaching practices and curriculum design for a variety of contexts and populations ranging from early childhood to late adulthood and community to institutional settings. Students develop and implement pedagogical praxis frameworks that stem from their developing teaching perspectives, values and objectives. Course experiences are designed to help students effectually integrate pedagogical theory and practice toward successful and meaningful ends.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): DCE 554; Credit is allowed for only DCE 654 or DCE 598 (Apprenticeship)  |
| DCE     | 656         | Teaching Praxis III: Secondary Practices and Teacher Preparation Course Development/Implementation | Prepares students to teach in secondary dance education settings; to develop and teach higher education dance pedagogy, curriculum development, and teacher prep courses that meet professional teaching standards, state and national learning standards and requirements and institutional benchmarks. Participants develop specific teaching strategies and frameworks, as well as gain practical experience, within the settings of secondary dance education and university teacher preparation courses. Utilizes Laban Movement Analysis and other social somatic frameworks as inroads into teaching, curricular design and student assessment. Students help instruct and mentor undergraduate dance majors in a secondary dance teaching methods course. Illuminates current sociocultural and educational issues that influence teaching and learning in secondary dance classrooms, and addresses strategies and requirements for pre-service teacher preparation courses. | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 4     |                 | Prerequisite(s): DCE 554; Credit is allowed for only DCE 656 or DCE 680 (Secondary Teaching Praxis and Teacher Training Frameworks) |
| DCE     | 657         | Pedagogical Research and Fieldwork   | Provides a theoretical and practical foundation for students to engage in pedagogical research and fieldwork. Places primary emphasis on investigating and applying qualitative methods to processes of pedagogical inquiry and research. Students are mentored through processes of gathering information, focusing, designing, implementing and assessing an educational research project through fieldwork in a context of their choosing. The outcomes of students' fieldwork projects are documented and articulated in the forms of a scholarly research paper and live research presentation.  | N                 | RSC               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): DCE 554  |
| DCE     | 660         | Graduate Creative Practices III  | Artistic research through the practices of choreographic choice making, exploration, and experimentation of integrated environments and interdisciplinary collaboration.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite: MFA Dance student  |

|---------|-------------|---------------------------------|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|---|
| DCE     | 661         | Graduate Creative Practices IV  | Culmination of a four-semester Creative Practices sequence, focusing on articulating individual creative practices and identifying the needs of each student relative to their Applied Projects. Students are also responsible for understanding the content and requirements for the selected modules of this course.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 3     |                 | Pre-requisite: MFA Dance student  |
| DCE     | 670         | Graduate Second-Year Seminar I  | Part of a four semester sequence that offers a cohort experience to increase awareness of current global dance practices, presents opportunities for dialoguing about topics significant to fulfilling degree requirements and promotes success in the dance program as well as to facilitate transition into the professional world. Reflection is a key component of the School of Dance curriculum; develops ability and skills in analysis, but more importantly builds awareness of intuitive and habitual patterns of response to new stimuli. The Seminar is a key moment each week to develop a community of inquiry amongst peers. | N                 | SEM               | N               | YGB           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1     |                 | Pre-requisite: MFA Dance student; Credit is allowed for only DCE 591 (2nd Yr Seminar) or DCE 670                  |
| DCE     | 671         | Graduate Second-Year Seminar II | The Second-Year Graduate Seminar is part of a four semester sequence that offers a cohort experience to increase awareness of current global dance practices, present opportunities for dialoguing about topics significant to fulfilling degree requirements and that promote success in the dance program as well as to facilitate transition into the professional world.  | N                 | SEM               | N               | YGB           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1     |                 | Prerequisite(s): Dance MFA student  |
| DCE     | 680         | Practicum                       | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCE     | 683         | Fieldwork                       | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCE     | 691         | Seminar                         | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCE     | 693         | Applied Project                 | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCE     | 695         | Continuing Registration         | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCI     | 191         | First-Year Seminar              | Small course emphasizing student-faculty discussion/interaction. Strongly recommended for first-year students.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-3   |                 |   |

Its current orientations and applications, modes of inquiry, and community of scholars and practitioners.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division  | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post Baccalaureate Undergraduate student |
| DCI     | 702         | Interdisciplinary Research Seminar                   | Core research course for students in the interdisciplinary PhD in Curriculum and Instruction program.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division  | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCI     | 780         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCI     | 784         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division  | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post Baccalaureate Undergraduate student |
| DCI     | 790         | Reading and Conference                               | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division  | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post Baccalaureate Undergraduate student |
| DCI     | 791         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division  | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post Baccalaureate Undergraduate student |
| DCI     | 792         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division  | 1-15  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post Baccalaureate Undergraduate student |
| DCI     | 795         | Continuing Registration                              | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division  | 1     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post Baccalaureate Undergraduate student |
| DCI     | 799         | Dissertation   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division  | 1-15  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post Baccalaureate Undergraduate student |
| DNP     | 601         | Theoretical Foundations for Advance Practice Nursing | Examines philosophical foundations of advanced nursing practice by analyzing interrelationships among theory, philosophy, practice, and research.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation    | Edson College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DNP     | 602         | Evaluating Research for Practice                     | Provides opportunities for graduate students to develop the knowledge and skills to critically analyze scientific literature and research for application to practice.  | N                 | SEM               | N               | OPT           | Nursing & Health Innovation    | Edson College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|-----------------------------|--|-------|-----------------|--|
| DNP     | 603         | Health Equity and Social Justice  | Focuses on the application of theories related to social justice and knowledge of social determinants of health to the role of the graduate prepared nurse for the purpose of advocating for health equity and creating innovative methods of addressing social injustices to improve health outcomes.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): admission to graduate Nursing program   |
| DNP     | 604         | Advanced Human Pathophysiology Across Lifespan  | Core course focuses on human pathophysiology and concepts of genetics for advance practice nursing.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 4     |                 | Prerequisite(s): DNP Advanced Nursing Practice (Adult-Gerontolog or Fam Psy MentHlth or Family NP or Women's Hlth NP or Neonatal NP or Pediatric NP) major or Family Nurse Practitioner or Family Psychiatric and Mental Health Nurse Practitioner certificate |
| DNP     | 605         | Advanced Health Assessment Across Lifespan  | Advanced health assessment skills, including history-taking strategies and physical, functional, developmental, and psychosocial assessment.  | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 3     |                 | Pre-requisites: DNP Adv Nursing Practice major or Family Nurse Practitioner or Family Psychiatric and Mental Health Nurse Practitioner certificate   |
| DNP     | 606         | Principles of Pediatric Acute Care I  | Provides the theoretical basis for the assessment and management of infants, children, adolescents and young adults with select complex acute, critical and chronic health conditions in tertiary, emergency and specialty inpatient/outpatient health care settings. Emphasizes recognition of the dynamic and fluctuating health status of emergent pediatric health conditions by body system.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): graduate student enrolled in Advanced Nursing Practice (Acute Care Pediatric Nurse Practitioner) DNP program or Advanced Nursing Practice (Acute Care Pediatric Nurse Practitioner) certificate; Corequisite(s): DNP 607                      |
| DNP     | 607         | Advanced Pediatric Acute Care Practicum I   | This clinical course focuses on the assessment, diagnosis and management of infants, children, adolescents and young adults with select complex acute, critical and chronic health conditions in tertiary, emergency and specialty inpatient/outpatient health care settings.   | N                 | PRA               | N               | GNA           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 2-7   |                 | Prerequisite(s): graduate student enrolled in Advanced Nursing Practice (Acute Care Pediatric Nurse Practitioner) DNP program or Advanced Nursing Practice (Acute Care Pediatric Nurse Practitioner) certificate; Corequisite(s): DNP 606                      |
| DNP     | 608         | Advanced Pharmacotherapeutics Across Lifespan   | For advanced practice nurses, expands theoretical and evidence-based knowledge and promotes synthesis of pharmacotherapeutic concepts and principles across the lifespan.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 3     |                 | Pre-requisites: DNP Adv Nursing Practice major or Family Nurse Practitioner or Family Psychiatric and Mental Health Nurse Practitioner certificate   |
| DNP     | 609         | Advanced Practice Nursing Role  | Focuses on the examination and implementation of the advanced practice nursing (APN) role. Presents historical and contemporary social and political influences on the development and implementation of the APN role and the circumstances prompting the movement of education for advanced practice to the doctoral level. Emphasizes the analysis of the role the APN and the Doctor of Nursing Practice prepared provider within the greater health care system. Explores issues and challenges related to advanced practice. | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 1     |                 | Prerequisite(s): Doctor of Nursing Practice student  |
| DNP     | 612         | Pediatric Palliative and End-of-Life Care: Research, Theory and Clinical Implications | Examines research, theory and principles for end of life and palliative care in infants, children, adolescents and young adults (birth to age 21 years).  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DNP     | 613         | Women's Health Promotion I  | Didactic course focuses on theories of health behavior, health promotion, disease prevention and patient education.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Women's Health student; Co-requisite: DNP 614   |
| DNP     | 614         | Women's Health Practicum I  | Clinical assessment and education of women across the lifespan for the purposes of health promotion and disease prevention.   | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Women's Health student; Co-requisite: DNP 613   |
| DNP     | 615         | Management of Common Problems in Women's Health                                       | Focuses on management of nursing care for high-risk perinatal women and women with common health problems.  | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Women's Health student; Co-requisite: DNP 616   |
| DNP     | 616         | Advanced Women's Health Practicum II  | Clinical application of theories, concepts, and principles in area of concentration.  | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Women's Health student; Co-requisite: DNP 615   |
| DNP     | 617         | Management of Complex and Chronic Disease in Women                                    | Didactic course focused on using current evidence-based research as the context for the assessment and management of complex and chronic reproductive and gynecologic health status across the lifespan and patient education.  | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Women's Health student; Co-requisite: DNP 618   |
| DNP     | 618         | Advanced Women's Health Practicum III   | Clinical course focused on using current evidence-based research as the context for the assessment and management of complex and chronic reproductive and gynecologic health states across the lifespan and patient education.  | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Women's Health student; Co-requisite: DNP 617   |
| DNP     | 619         | Principles of Pediatric Acute Care II   | Continues to provide the theoretical basis for the assessment and management of infants, children, adolescents and young adults with select complex acute, critical and chronic health conditions in tertiary, emergency and specialty inpatient/outpatient health care settings. Emphasizes recognition of the dynamic and fluctuating health status of emergent pediatric health conditions by body system.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): DNP 606; DNP 607; Corequisite(s): DNP 620   |
| DNP     | 620         | Advanced Pediatric Acute Care Practicum II  | This clinical course focuses on the assessment, diagnosis and management of infants, children, adolescents and young adults with select complex acute, critical and chronic health conditions in tertiary, emergency and specialty inpatient/outpatient health care settings.   | N                 | PRA               | N               | GNA           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 2-7   |                 | Prerequisite(s): DNP 606; DNP 607; Corequisite(s): DNP 619   |
| DNP     | 621         | Health Assessment Skills  | Skill-based course focuses on advanced clinical skills including suturing, splinting, x-ray, ECG and advanced lab interpretation.   | N                 | LEL               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 1     |                 | Prerequisite(s): DNP 605   |
| DNP     | 623         | Adult-Gerontology Health Promotion  | Introduces health promotion and disease prevention for adults across the lifespan emphasizing principles of evidence-based practice in clinical and community settings.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): DNP Advanced Nursing Practice (Adult-Gerontology Nurse Practitioner) major. Corequisite(s): DNP 624   |

| DNP     | 636         | Management of Common Health Problems in Children, Adults, and Families Practicum              | Clinical application of theories, concepts, and research related to the management of acute and common problems in family practice across the lifespan.   | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Advanced Nursing Practice (Family Nurse Practitioner); Co-requisite: DNP 635                      |
| DNP     | 637         | Management of Complex and Chronic Health Problems in Children, Adults and Families            | Didactic course that integrates research into clinical decision making as the context for the assessment and management of complex and chronic problems in family practice across the lifespan.                     | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Advanced Nursing Practice (Family Nurse Practitioner); Co-requisite: DNP 638                      |
| DNP     | 638         | Management of Complex and Chronic Health Problems in Children, Adults, and Families Practicum | Clinical application of theories, concepts, and research related to the management of complex and chronic problems in family practice across the life span for Family Nurse Practitioner role specialty.            | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Advanced Nursing Practice (Family Nurse Practitioner); Co-requisite: DNP 637                      |
| DNP     | 640         | Advanced Human Pathophysiology Pediatrics   | Didactic course for pediatric nurse practitioner students focuses on applying concepts of human pathophysiology and genetics in pediatric patients.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 4     |                 | Pre-requisite: DNP Advanced Nursing Practice (Pediatric Nurse Practitioner)  |
| DNP     | 641         | Advanced Health Assessment Pediatrics   | Skills-based advanced health assessment course that includes history-taking strategies and physical, functional, developmental, psychosocial health assessment of children (birth-21).                              | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): Advanced Nursing Practice DNP (Pediatric Nurse Practitioner)  |
| DNP     | 642         | Applied Pharmacotherapeutics for Pediatrics   | Applies evidence-based pharmacotherapeutic principles to disease treatment and health promotion and maintenance for pediatric patients.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Advanced Nursing Practice (Pediatric Nurse Practitioner)  |
| DNP     | 643         | Developmentally Based Care of the Well Child  | Offers information for theory-based developmental care of well children. Includes anticipatory guidance for parents and/or children/teens.  | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Advanced Nursing Practice (Pediatric Nurse Practitioner); Co-requisite: DNP 644                   |
| DNP     | 644         | Well Child Advanced Practicum   | Clinical application of theories, concepts and principles as they relate to the developmentally based care of the well child.   | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Advanced Nursing Practice (Pediatric Nurse Practitioner); Co-requisite: DNP 643                   |
| DNP     | 645         | Management of Common Problems in Pediatric Primary Care                                       | Provides health promotion and disease prevention strategies for the advanced nursing care of all children and families.   | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Advanced Nursing Practice (Pediatric Nurse Practitioner); Co-requisite: DNP 646                   |
| DNP     | 646         | Management of Common Problems in Pediatric Primary Care Practicum                             | Facilitates development of advanced clinical skills in the assessment and management of child health, health surveillance and promotion.  | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Advanced Nursing Practice (Pediatric Nurse Practitioner); Co-requisite: DNP 645                   |
| DNP     | 647         | Management of Complex and Chronic Health Problems in Pediatric Primary Care                   | Third pediatric didactic course focuses on assessment and management of childhood complex and chronic health problems and special health conditions.  | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Advanced Nursing Practice (Pediatric Nurse Practitioner); Co-requisite: DNP 648                   |
| DNP     | 648         | Management of Complex & Chronic Problems Pediatric Primary Care Practicum                     | Clinical course assists students in developing advanced clinical skills in decision making with chronically ill or special needs pediatric patients.  | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Advanced Nursing Practice (Pediatric Nurse Practitioner); Co-requisite: DNP 647                   |
| DNP     | 650         | Advanced Human Pathophysiology Neonates   | Didactic course for neonatal nurse practitioner students focuses on applying concepts of human pathophysiology and genetics in neonatal patients.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 4     |                 | Pre-requisites: DNP Advanced Nursing Practice (Neonatal Nurse Practitioner)  |
| DNP     | 651         | Advanced Health Assessment of Neonates  | Skill-based course focuses on advanced health assessment skills, including history-taking strategies and the physical, functional, genetic, developmental, and psychosocial/cultural health assessment of neonates. | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): Advanced Nursing Practice (Neonatal Nurse Practitioner) DNP   |
| DNP     | 652         | Applied Pharmacotherapeutics for Neonates   | Focuses on the application of knowledge of pharmacological principles in the treatment of diseases and promotion of health for neonates and their families.   | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Advanced Nursing Practice (Neonatal Nurse Practitioner)   |
| DNP     | 653         | Advanced Development and Family Health Promotion: Neonatal Theory I                           | Concepts, theories, interventions, and research related to the promotion, management, and maintenance of physical, behavioral, and developmental needs of at-risk newborns and infants and their families.          | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Advanced Nursing Practice (Neonatal Nurse Practitioner); Co-requisite: DNP 654                    |
| DNP     | 654         | Neonatal Practicum I  | Clinical application of theories, concepts, and principles in area of concentration.  | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | Edson College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Advanced Nursing Practice (Neonatal Nurse Practitioner); Co-requisite: DNP 653                    |

| DNP     | 690         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | N                 | IND               | N               | Z1            | Nursing & Health Innovation  | Edson College of Nursing and Health Innovation | 1-12  |                 |  |
| DNP     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Nursing & Health Innovation  | Edson College of Nursing and Health Innovation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DNP     | 695         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Nursing & Health Innovation  | Edson College of Nursing and Health Innovation | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DNP     | 703         | Innovation in Communication-Scholarly and Professional Writing                   | Provides a review of principles of scholarly and professional writing, plagiarism and APA 6th edition format.   | N                 | SEM               | N               | GNA           | Nursing & Health Innovation  | Edson College of Nursing and Health Innovation | 2     |                 | Prerequisite(s): Doctor of Nursing Practice student  |
| DNP     | 704         | Principles of Evidenced-Based Care in Advanced Practice                          | Foundational course focuses on the evidence-based process and understanding of evidence-based practice principles assist advanced practice nurses and other healthcare professionals in clinical decision making in order to provide best care.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation  | Edson College of Nursing and Health Innovation | 4     |                 | Pre-requisite: Doctor of Nursing Practice student  |
| DNP     | 705         | Health Care Outcomes Management  | Outcomes management methodology supports implementation of evidence-based practice and measurement of both patient and health care system outcomes attributed to adoption of best practices.  | N                 | SEM               | N               | OPT           | Nursing & Health Innovation  | Edson College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): Doctor of Nursing Practice student; DNP 704   |
| DNP     | 706         | Implementing Sustainable Change toward Evidence-Based Practice                   | Facilitates student learning about striving for and evaluating sustainable change that hinges on active improvement of practices through implementing evidence-based practice (EBP). Students engage strategies designed to facilitate advanced practice nurses' leadership of this change. Students analyze the success of their evidence-based applied clinical project that is implemented in their clinical residency course. Students evaluate the impact of their doctorally prepared evidence-based advanced practice nurse role on shifting culture to best practice. Students explore the use of adult learning, ethical, and mentorship principles to facilitate understanding of EBP in their workplace. | N                 | LEC               | N               | OPT           | Nursing & Health Innovation  | Edson College of Nursing and Health Innovation | 4     |                 | Pre-requisite: Doctor of Nursing Practice major; DNP 704; DNP 705; Co-requisite: DNP 712   |
| DNP     | 707         | Disseminating Evidence to Advance Best Practice in Health Care and Health Policy | Focuses on methods for dissemination of evidence to advance best practice within local, regional, and/or national settings, as well as advancement of EBP in health policy and the media.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation  | Edson College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): DNP 705   |
| DNP     | 708         | Systems Thinking in a Complex Healthcare Environment                             | Studies basic and advanced systems principles as they relate innovation to the American healthcare system.  | N                 | SEM               | N               | OPT           | Nursing & Health Innovation  | Edson College of Nursing and Health Innovation | 3     |                 | Pre-requisite: Doctor of Nursing Practice student  |
| DNP     | 709         | Individual and Innovation Leadership in Healthcare Practice                      | Introduces the role of the innovator, including the essential behaviors of risk taking, managing workload, and addressing the challenges of innovation.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation  | Edson College of Nursing and Health Innovation | 3     |                 | Pre-requisite: Doctor of Nursing Practice student  |
| DNP     | 710         | Clinical Perspectives on Biomedical Device Design                                | Examines clinical perspectives on principles of biomedical device design, including interprofessional engagement with engineering and regulatory professionals.   | N                 | LEC               | N               | OPT           | Nursing & Health Innovation  | Edson College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): Doctor of Nursing Practice student  |
| DNP     | 711         | Healthcare Policy and Innovation   | Introduces the political, organizational, and economic dimensions of healthcare policy with emphasis on strategies for innovative policy and practice.  | N                 | SEM               | Y               | OPT           | Nursing & Health Innovation  | Edson College of Nursing and Health Innovation | 3     |                 | Pre-requisite: Doctor of Nursing Practice student  |
| DNP     | 712         | Clinical Residency and Management  | Demonstrates DNP competencies through portfolio documentation of clinical learning experiences and implementation of the DNP Evidence-Based Clinical Applied Project. Doctoral students submit the DNP Portfolio in partial fulfillment of the degree.  | N                 | PRA               | Y               | Z1            | Nursing & Health Innovation  | Edson College of Nursing and Health Innovation | 1-12  |                 | Pre-requisites: Doctor of Nursing Practice student   |
| DNP     | 713         | Analysis of Organizational Cultures in Healthcare                                | Analyzes culture, organizational implications and relationships to change and innovation in healthcare.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation  | Edson College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): Advanced Nursing Practice (Innovation Leadership) major   |
| DNP     | 714         | Professional Relationships in Healthcare   | Analyzes professional relationships within healthcare organizations and evidence-based strategies to improve communication, coordination, and collaboration.  | N                 | LEC               | N               | OPT           | Nursing & Health Innovation  | Edson College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): Advanced Nursing Practice (Adult-Gerontology NP, Family Psychiatric Mental Health NP, Family NP, Innovation Leadership, Pediatric NP, or Women's Health NP) DNP student |
| DNP     | 715         | Dynamics and Principles of Information in Health Care                            | Analyzes and applies multiple sources of information for health care leaders across the continuum of evidence including research, evidence-based practice, translational research, improvement science and quality improvement.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation  | Edson College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): Advanced Nursing Practice DNP student   |
| DNP     | 716         | Leadership of Innovation in Health Care  | Analyzes leadership theories in the creation of complex health care system innovation.  | N                 | SEM               | N               | GNA           | Nursing & Health Innovation  | Edson College of Nursing and Health Innovation | 4     |                 | Prerequisite(s): Advanced Nursing Practice DNP student or Advanced Nursing Practice (Innovation Leadership) DNP student  |
| DNP     | 791         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Nursing & Health Innovation  | Edson College of Nursing and Health Innovation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DSC     | 100         | ASU Design Experience  | Covers ASU's mission as the New American University, the importance and benefits of an entrepreneurial approach to problem solving, solutions to sustainability challenges, and the importance of social embeddedness. Additionally, through various course discussions and assignments, students examine the concept of academic integrity and its potential impact on their future, gain awareness of the value of engaging in research activities, and learn about taking an interdisciplinary perspective.  | N                 | REC               | N               | GNA           | Herberger Inst Design & Arts | The Design School                              | 1     |                 | Prerequisite(s): BS, BSD or BSLA Design School major. Credit is allowed for only DSC 100 or 194 (ASU Design Experience)  |
| DSC     | 101         | Design Awareness   | Surveys cultural, global, and historical context for the design professions.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School                              | 3     | HU & G          |  |

|---------|-------------|-----------------------------------|---|-------------------|-------------------|-----------------|---------------|------------------------------|-------------------|-------|-----------------|--|
| DSC     | 102         | Introduction to Design            | Introduces design, with an emphasis on understanding the process and principles by which design shapes our world.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | The Design School | 3     |                 |  |
| DSC     | 191         | First-Year Seminar                | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-3   |                 |  |
| DSC     | 194         | Special Topics                    | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-4   |                 |  |
| DSC     | 236         | Introduction to Computer Modeling | Computers in design, including software concepts, specific packages, and problem solving, illustration, typography, modeling, and animation.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | The Design School | 3     | CS              | Prerequisite(s): Industrial Design major; passed milestone   |
| DSC     | 294         | Special Topics                    | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-4   |                 |  |
| DSC     | 394         | Special Topics                    | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-4   |                 |  |
| DSC     | 484         | Internship                        | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 |  |
| DSC     | 492         | Honors Directed Study             | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| DSC     | 493         | Honors Thesis                     | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Herberger Inst Design & Arts | The Design School | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| DSC     | 494         | Special Topics                    | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-4   |                 |  |
| DSC     | 498         | Pro-Seminar                       | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-7   | L               |  |
| DSC     | 499         | Individualized Instruction        | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-3   |                 |  |
| DSC     | 500         | Research Methods                  | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Pre-requisite: Master of Science in Design or PhD in Environmental Design & Planning student   |
| DSC     | 501         | Qualitative Research in Design    | Theory and application of qualitative research. Emphasizes using ethnography to identify and specify innovative concepts and strategies.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School | 3     |                 | Prerequisite(s): Master of Industrial Design or Master of Science in Design major  |
| DSC     | 520         | Contemporary Design Issues        | Issues influencing contemporary design such as sustainability, globalization, education, gender, collaboration and emotion.   | N                 | SEM               | N               | OPT           | Herberger Inst Design & Arts | The Design School | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DSC     | 558         | Daylighting                       | Daylighting as a design determinant; concepts, techniques, methodology, experiments, and case studies.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School | 3     |                 | Pre-requisite: Herberger Institute of Design and the Arts graduate student   |
| DSC     | 580         | Practicum                         | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Pre-requisite: Master of Science in Design student   |
| DSC     | 584         | Internship                        | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Pre-requisite: Design (Graphic Design) MSD, Design (Indus Design) MSD or Design (Inter Design) MSD student   |
| DSC     | 590         | Reading and Conference            | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Pre-requisite: Design (Graphic Design) MSD, Design (Indus Design) MSD, or Design (Inter Design) MSD student  |
| DSC     | 592         | Research                          | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Pre-requisite: Design (Graphic Design) MSD, Design (Indus Design) MSD, or Design (Inter Design) MSD student  |
| DSC     | 593         | Applied Project                   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Pre-requisite: Design (Graphic Design) MSD, Design (Indus Design) MSD, or Design (Inter Design) MSD student  |
| DSC     | 594         | Conference and Workshop           | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | PRA               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DSC     | 595         | Continuing Registration           | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Herberger Inst Design & Arts | The Design School | 1     |                 | Prerequisite(s): Master of Industrial Design, Master of Interior Architecture, Master of Science in Design, or Master of Visual Communication Design major |
| DSC     | 598         | Special Topics                    | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---------------------------------|-------|-----------------|---|
| DSC     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Pre-requisite: Design (Graphic Design) MSD, Design (Indus Design) MSD, or Design (Inter Design) MSD student |
| DSC     | 680         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | RSC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DSC     | 683         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DSC     | 684         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DSC     | 690         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.                                     | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DSC     | 691         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | RSC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DSC     | 692         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DSC     | 693         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EAC     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation | 1-12  |                 |   |
| ECD     | 191         | First-Year Seminar  | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 1-3   |                 |   |
| ECD     | 211         | The Developing Child: Theory into Practice, Prenatal-Grade 3            | Examines process of physical, social, emotional, cognitive, language, and literacy development of young children; includes observation, practical application, fieldwork.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     | SB              |   |
| ECD     | 220         | Introduction to Nutrition, Health and Safety                            | Emphasizes providing proper nutrition, promoting a safe but challenging learning environment, and becoming knowledgeable of a child's health status. Also covers practical applications for assisting young children to develop good habits and attitudes and to assume lifelong responsibility for their own well-being. | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 2     |                 |   |
| ECD     | 294         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 1-4   |                 |   |
| ECD     | 298         | Honors Directed Study   | Independent study or practicum under the supervision of a faculty member.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| ECD     | 302         | Foundations of Early Childhood Education                                | Foundational basis of the early childhood field, including historical roots, current practices, ethics, models of teaching, and application in early childhood settings.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): admission to the Professional Program  |
| ECD     | 312         | Social/Emotional Foundations of Learning                                | Foundations of early social development and evidence-based practices for promoting social-emotional development; young children's understanding, interactions, and relationships to the social world.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): admission to the Professional Program  |
| ECD     | 313         | Technology in Early Childhood Education                                 | Evaluates technology and technological learning tools for early childhood classrooms; integrates technology and its tools into students' learning. Lecture, discussion, active participation.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): admission to the Professional Program  |
| ECD     | 315         | Classroom Organization and Guidance of Young Children                   | Theories and strategies to guide children's development toward becoming self governing; typical and atypical behaviors; implementing age-appropriate classroom management techniques that foster individual, social, and academic competence.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): admission to the Professional Program  |
| ECD     | 316         | Teacher Research: Studying Children in Context                          | Introduces designing, conducting, interpreting, and reporting teacher research; methods of research and fieldwork with children to improve teaching practices and child outcomes.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): admission to the Professional Program  |
| ECD     | 321         | Emerging Language and Literacy  | Language and literacy development; language acquisition; methods of facilitating oral language in relation to emergent reading and writing; methods of facilitating early literacy development; clinical observation.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): admission to the Professional Program  |
| ECD     | 323         | Building Home, School, and Community Partnerships                       | Knowledge and skills to facilitate positive and continuous family-school partnerships; family background, social context, family involvement, and current research on family-school interaction and academic success.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     | SB              | Prerequisite(s): admission to the Professional Program  |
| ECD     | 324         | Social Studies and Creative Arts Curriculum, Instruction and Assessment | Social studies and creative arts standards, curriculum, and instructional and assessment strategies in an integrated social studies and creative expression curriculum for children birth through grade 3.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): admission to the Professional Program  |
| ECD     | 341         | Administration/Evaluation of EC Programs                                | Administration and evaluation of early childhood programs. Emphasizes planning and evaluation; regulations; health, nutrition, and safety; operations, budgeting, and supervision of personnel.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): admission to the Professional Program  |
| ECD     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 1-4   |                 |   |
| ECD     | 396         | Student Teaching: Early Childhood (Ages Birth-5)                        | Student teaching in early childhood education classrooms ages birth to 5; synthesized experience in curriculum, instruction, assessment and classroom management.   | N                 | PRA               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 1-4   |                 | Prerequisite(s): admission to the Professional Program  |

| ECD     | 497         | Honors Colloquium  | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | N                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| ECD     | 499         | Individualized Instruction   | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-3   |                 |  |
| ECD     | 503         | Introduction to Research and Evaluation in Education                 | Overview of educational inquiry from controlled, quantitative to qualitative, naturalistic. Emphasizes locating and critically interpreting published research.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only COE 501 or ECD 503 or PPE 501 or SPE 501 or TEL 501 |
| ECD     | 504         | Learning and Instruction   | Introduces psychology of learning and instruction. Includes the foundations of learning theories and their application to educational practice.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ECD     | 505         | Foundations of Early Childhood Education                             | Foundational basis of the early childhood field, including historical roots, current practices, ethics, models of teaching, and application in early childhood settings.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Pre-requisite: Graduate student  |
| ECD     | 520         | Child Guidance and Management: Child, Family, Community, and Culture | Introductory exploration of a variety of techniques for developing a positive classroom environment. Includes overview of several classroom and school management programs and possible effects of implementation. Focuses on observations made during the students' classroom and field experiences. Provides the catalyst for introducing students to the program's professional portfolio requirement.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Pre-requisite: Graduate student  |
| ECD     | 525         | Emergent Literacy  | Examines current and classic research on oral language and literacy development and effective strategies for teaching language and literacy from birth through kindergarten, including phonemic awareness and alphabet instruction and beginning decoding.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ECD 525 or RDG 525                                  |
| ECD     | 526         | Integrated Literacy for the Young Learner                            | Examines current and classic research on language and literacy development and effective strategies for teaching and assessing language and literacy from kindergarten through third grade.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ECD     | 527         | Mathematics in Early Childhood Education                             | Explores methods of teaching and assessing mathematical skills and reasoning in children ages birth through third grade along with the broader impact of math literacy in young children.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ECD     | 541         | Assessment of Young Children   | Assessment principles, techniques, and issues related to guiding learning for children birth through eight years. Test construction, interpretation and communication.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ECD     | 549         | Foundations of Diversity, Human Development, and the Young Child     | Psychology of learning and instruction, including the foundations of learning theories and their application to educational practice with an emphasis on diversity, multidirectional human change and cultural embeddedness.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ECD     | 565         | Appropriate Instructional Methodologies for Young Children           | Surveys appropriate teaching methodologies for young children across the curriculum.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Pre-requisite: Graduate student  |
| ECD     | 567         | Clinical Experience: Early Childhood (Ages Birth-5)                  | Applies course content in early childhood education preschool classrooms birth to age 5: emphasizes observation, pupil management, planning and delivery of instruction, and assessment.  | N                 | PRA               | Y               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 0-2   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

| ECN     | 503         | Global Business Environment   | Macroeconomic analysis of issues related to economic growth, inflation, interest rates behavior, unemployment, exchange rate determination, and global competitiveness.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Department of Economics | 1-4   |                 | Prerequisite(s): MBA degree program student  |
| ECN     | 504         | Basics of Decisions, Market Structure and Games: Managerial Economics | Applies microeconomic analysis to managerial decision making in areas of demand, production, cost and pricing. Evaluates competitive strategies. Designed for students with limited business experience and without an undergraduate business degree.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Economics | 3     |                 | Prerequisite(s): ASU degree-seeking graduate student   |
| ECN     | 510         | Microeconomic Theory and Applications                                 | Applies economic theory to production, consumer demand, exchange, and pricing in a market economy.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Department of Economics | 2-4   |                 | Pre-requisites: W.P. Carey degree seeking graduate student   |
| ECN     | 525         | Applied Regression Models   | Simple linear regression, multiple regression, indicator variables, and logistic regression. Emphasizes business and economic applications.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Department of Economics | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ECN     | 527         | Categorical Data Analysis   | Discrete data analysis in business research. Multidimensional contingency tables and other discrete models.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Department of Economics | 3     |                 | Pre-requisites: ECN 525  |
| ECN     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Economics | 1-12  |                 | Pre-requisites: W.P. Carey degree seeking graduate student   |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                    | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                       | Department              | Units | General Studies | Requirements   |
|---------|-------------|---------------------------------|---|-------------------|-------------------|-----------------|---------------|-------------------------------|-------------------------|-------|-----------------|--|
| ECN     | 590         | Reading and Conference          | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Economics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ECN     | 591         | Seminar                         | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | W.P. Carey School of Business | Department of Economics | 1-12  |                 | Pre-requisites: W.P. Carey degree seeking graduate student   |
| ECN     | 592         | Research                        | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | W.P. Carey School of Business | Department of Economics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ECN     | 593         | Applied Project                 | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Economics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ECN     | 594         | Conference and Workshop         | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | Z2            | W.P. Carey School of Business | Department of Economics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ECN     | 595         | Continuing Registration         | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | W.P. Carey School of Business | Department of Economics | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ECN     | 598         | Special Topics                  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Economics | 1-4   |                 | Prerequisite(s): W.P. Carey degree seeking graduate student; ECN 712 and ECN 714 with C or better                |
| ECN     | 599         | Thesis                          | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | W.P. Carey School of Business | Department of Economics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ECN     | 690         | Reading and Conference          | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Economics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ECN     | 691         | Seminar                         | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | W.P. Carey School of Business | Department of Economics | 1-12  |                 | Pre-requisites: W.P. Carey degree seeking graduate student   |
| ECN     | 692         | Research                        | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | W.P. | ECN     | 760         | Economics of Growth and Development                        | Economic problems, issues, and policy decisions facing the developing nations of the world.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business  | Department of Economics         | 3     |                 | Pre-requisites: W.P. Carey degree seeking graduate student; ECN 711 and 712 with C+ or better; Co-requisite: ECN 713 and 714  |
| ECN     | 770         | Mathematics for Economists                                 | Surveys mathematical ideas encountered in economics and econometrics. Topics include measure theory, probability theory, and mathematical statistics.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business  | Department of Economics         | 3     |                 | Pre-requisites: W.P. Carey degree seeking graduate student  |
| ECN     | 784         | Internship   | Structured practical experience that follows a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business  | Department of Economics         | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECN     | 790         | Reading and Conference                                     | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business  | Department of Economics         | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECN     | 791         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | SEM               | Y               | OPT           | W.P. Carey School of Business  | Department of Economics         | 1-12  |                 | Pre-requisites: W.P. Carey degree seeking graduate student  |
| ECN     | 792         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | W.P. Carey School of Business  | Department of Economics         | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECN     | 795         | Continuing Registration                                    | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.            | Y                 | RSC               | Y               | Z3            | W.P. Carey School of Business  | Department of Economics         | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECN     | 799         | Dissertation   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | W.P. Carey School of Business  | Department of Economics         | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECS     | 310         | Foundations in Typical / Atypical Child Development        | Examines the process of typical and atypical physical, social, emotional, cognitive, and language development of young children with or at risk for delay.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): minimum junior standing  |
| ECS     | 312         | Social and Emotional Development of the Young Child        | Examines genetic, environmental and biological influences on typical and atypical social and emotional developmental processes through current research, current issues, as well as connections to practice.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     | SB              | Prerequisite(s): Professional Teacher Preparation Program student OR Educational Studies BAE student; minimum junior standing OR Early Childhood minor OR Educational Studies minor |
| ECS     | 315         | Classroom Organization and Child Guidance                  | Develops and implements analysis, intervention, and consultation strategies for effective management of classroom behavior for students with and without disabilities. Age-appropriate techniques addressing individual, social, and academic competence.  | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): minimum junior standing  |
| ECS     | 316         | Assessment/Evidence-based Practice                         | Examines assessments appropriate to birth - grade 3 instruction to align curriculum with learner needs. Focuses on test design, interpretation, lesson design, and aspects related to multiple classroom and formal assessments. Introduces designing, conducting, interpreting, and reporting teacher research; methods of research and fieldwork with children to improve teaching practices and child outcomes. | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): minimum junior standing  |
| ECS     | 321         | Communication, Language Development, and Emergent Literacy | Language and literacy development; language acquisition; methods of facilitating oral language in relation to emergent reading and writing; methods of facilitating early literacy development; clinical observation.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): minimum junior standing  |
| ECS     | 340         | Creative Curriculum for Children Birth to 8                | Provides an overview of research and curricular strategies for preschool classrooms, including best practices for classroom design, management, scheduling and lesson development. A comprehensive, research-based curriculum that features exploration and discovery as a way of learning.  | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): minimum junior standing  |
| ECS     | 394         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 1-4   |                 |   |

| ECS     | 397         | Student Teaching: Inclusive Early Childhood (Ages Birth-5)                                      | Student teaching in early childhood education inclusive classrooms ages birth to 5: synthesized experience in curriculum, instruction, assessment and classroom management.   | N                 | PRA               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-4   |                 | Prerequisite(s): admission to the Professional Program   |
| ECS     | 411         | Instructional Methodologies for Young Children: STEM  | Explores, applies and integrates STEM (Science, Technology, Engineering and Math) content, project-enhanced instructional strategies and assessments.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): admission to the Professional Program   |
| ECS     | 412         | Mathematics Curriculum, Instruction and Assessment  | Focuses on math content, methods, skills, and attitudes to be considered in teaching young children. Examines the theoretical foundation for young children's inquiry and learning. Methods focus on practical application of theory in classroom practice.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): admission to the Professional Program   |
| ECS     | 413         | Literacy Curriculum, Instruction and Assessment   | Extends ECD 321; language and literacy development in K-3 classrooms; language acquisition; methods of facilitating oral language in relation to emergent reading and writing; methods of facilitating early literacy development; clinical experience.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     | L               | Prerequisite(s): admission to the Professional Program   |
| ECS     | 420         | Evaluation and Intervention Strategies for Infants, Toddlers and Preschoolers with Disabilities | Students will learn to screen, assess and provide services to young children with special needs using norm-referenced, criterion-referenced, and formative assessments to determine special education eligibility, plan individualized family service programs, and monitor progress for eligible students.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): minimum junior standing   |
| ECS     | 430         | Systems, Policy, and Advocacy in Early Childhood/Special Education                              | Social policies at the national and state levels; values and assumptions of policies; political factors shaping policy and implementation; links among policy, educational practice, schools, and family functioning that have a direct impact on both typical and special needs children in early childhood programs.  | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): admission to the Professional Program   |
| ECS     | 431         | Family, Community and Professional Support Systems  | Covers methods and issues in cooperative teaching for special education students in general education classrooms, with an emphasis on collaborative communication skills for working with a variety of school professionals and families.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): admission to Professional Teacher Preparation Program or enrolled in Educational Studies program or enrolled in Early Childhood minor |
| ECS     | 478         | Student Teaching: Special Education (Grades K-3)  | Student teaching in early childhood education inclusive classrooms grades K-3: synthesized experience in curriculum, instruction, assessment and classroom management.  | N                 | PRA               | Y               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-6   |                 | Prerequisite(s): admission to the Professional Program   |
| ECS     | 499         | Individualized Instruction  | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-3   |                 |  |
| ECT     | 479         | Capstone Seminar in ECT   | Reflective, experience-based integration of theory and practice; professional development for preschool through grade 3 teachers.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): admission to the Professional Program   |
| EDA     | 499         | Individualized Instruction  | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-3   |                 |  |
| EDA     | 501         | Competency/Performance in Educational Administration  | Nature of educational administration and the concept of competency as it applies to educational administration.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 505         | American Education System   | Political, social, historical, and philosophical analyses of American education at all levels. Examines primary sources, legal findings, and case studies.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 511         | School Law  | Interpreting state and federal law and policy in school settings. Includes statutory authority for administrators, liability, constitutional rights, law, and ethics.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 514         | Leadership in Curriculum and Assessment   | Curriculum and assessment responsibilities of school administrators.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 526         | Instructional Supervision   | Administering curriculum improvement, in-service education, evaluating, and improving teaching competence; administrative instructional responsibilities.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 548         | School, Family, and Community Connections   | Administrative factors of primary importance in developing community involvement in public schools. Emphasizes theory and skill of school system and individual communication.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 572         | School Finance and Human Resources  | Effective ethical models and strategies for organizing and administering the conduct of school site human resources administration and school financial affairs.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 578         | Critical Issues in Educational Leadership   | Explores current critical issues in school leadership, including student support and relationships with governmental agencies and the community.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 583         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                                    | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department                                    | Units | General Studies | Requirements  |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|---|
| EDA     | 590         | Reading and Conference                          | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 593         | Applied Project                                 | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 594         | Conference and Workshop                         | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 595         | Continuing Registration                         | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 598         | Special Topics                                  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 611         | Educational Policy and the Law                  | Emphasizes policy analysis and application of federal and state law to policy evaluation and development in public schools.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 634         | Instructional Leadership                        | Theory, practice, and issues in school change and reform with a focus on leading change efforts at the school site.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 676         | The School Superintendency                      | Critical examination of the school superintendency and the primary functions of this educational position. Includes the duties, responsibilities, activities, and problems of the school superintendent. Examines the unique leadership role of the school superintendent.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 679         | Administration of Special Programs in Education | For personnel administering special education and federal programs; responsibilities of principals, supervisors, counselors, and directors for special education and federally funded programs.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 680         | Practicum                                       | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 683         | Fieldwork                                       | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 684         | Internship                                      | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 685         | Education in Global Contexts                    | Global perspectives on education in contemporary society with emphasis on social, political, and economic factors that affect access and equity.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3-6   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 690         | Reading and Conference                          | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 691         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 692         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 693         | Applied Project                                 | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| EDA     | 791         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 792         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 793         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 795         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 799         | Dissertation  | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDP     | 194         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-4   |                 |   |
| EDP     | 294         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-4   |                 |   |
| EDP     | 302         | Assessment and Evaluation in Education  | Applies assessment and evaluation principles to education contexts, using a case format.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1     |                 |   |
| EDP     | 310         | Educational Psychology for Non-Teachers                                       | Human behavior in educational situations. Individual differences, factors affecting learning, behavioral and cognitive learning, motivation, testing, and assessment.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-6   | SB              |   |
| EDP     | 311         | Educational Psychology for Future Teachers                                    | Planning and conducting effective instruction based on learning theories and principles.  | N                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-3   | SB              | Prerequisite(s): Teachers College major, minor or certificate student                                 |
| EDP     | 313         | Childhood and Adolescence   | Principles underlying total development of pre- and early-adolescent children. Emphasizes physical, intellectual, social, and emotional development with practical implications for teachers. Meets ADE requirement for one course in early adolescent psychology for middle grade endorsement.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     | SB              |   |
| EDP     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-4   |                 |   |
| EDP     | 454         | Statistical Data Analysis in Education  | Role of data analysis in research and decision making. Elements of exploratory data analysis, descriptive indexes, and statistical inference.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     | CS              |   |
| EDP     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-12  |                 |   |
| EDP     | 492         | Honors Directed Study   | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| EDP     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| EDP     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-4   |                 |   |
| EDP     | 499         | Individualized Instruction  | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-3   |                 |   |

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department                                    | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|--|
| EDP     | 502         | Introduction to Data Analysis                         | Descriptive statistics, visual approaches, estimation, and inferential methods for univariate and bivariate educational research problems. Experience using statistical software.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 503         | Introduction to Qualitative Research                  | Terminology, historical development, approaches (including ethnography, ethnomethodology, critical theory, grounded theory, and hermeneutics), and qualitative versus quantitative social sciences; methods of inquiry.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 504         | Learning and Instruction                              | Introduces psychology of learning and instruction. Includes the foundations of learning theories and their application to educational practice.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 510         | Psychology in Education                               | Planning and conducting effective instruction based on learning theories and principles.  | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDP     | 514         | Psychology of the Adolescent                          | Cognitive, physical, and social development of adolescents in contemporary society. Impact of family, school, and workplace on adolescent development.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 523         | Educational Assessment                                | Increases teachers' and others' competence in classroom assessment, grading, and testing. Emphasizes integration of curriculum, instruction, and assessment.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDP     | 529         | Lifespan Human Development                            | Issues and models of human development as it occurs across the lifespan.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDP     | 530         | Theoretical Issues and Research in Human Development  | Psychological theories, research, and methods relevant to human development, emphasizing the relations between early development and later performance.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 536         | Physiology of Behavioral Disorders                    | Critical study of nervous system, brain function for fundamental behaviors, and system dysfunctions in mental/neurological disorders.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 540         | Learning Theories and Instructional Strategies        | Studies grounded instructional strategies rooted in established theories of learning to form the basis of building instruction. Explores how teaching, learning and performing can be designed via technological environments to support instruction.                                 | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate student; Credit is allowed for only EDP 540 or LSE 540 |
| EDP     | 541         | Motivating Students to Learn                          | Examines multiple perspectives on motivation and the management of learning environments as bases for reflecting on educational practice.   | N                 | SEM               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student  |
| EDP     | 552         | Multiple Regression and Correlation Methods           | Educational applications of regression techniques. Quantitative and qualitative predictors, curvilinear trends, and interactions. Emphasizes analyzing data and interpreting results.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 554         | Analysis-of-Variance Methods                          | Educational applications of ANOVA techniques. Between- and within-subjects designs, multiple comparisons. Emphasizes using statistical software and interpreting results.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 563         | Consultation and Supervision                          | Examines consultation and supervision research relevant to school psychology practice.  | N                 | SEM               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student  |
| EDP     | 566         | Advanced Psychoeducational Practice                   | Develops advanced knowledge and skills in psychoeducational assessment and intervention with an emphasis on case conceptualization and evidence-based methods.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisites: EDP 560 and 562 with B or better   |
| EDP     | 567         | School Psychological Services for Diverse Populations | Examines historical, legal, ethical, and practical issues involved in the delivery of school psychological services to diverse populations.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 568         | Psychological Assessment and Intervention             | Skills-building course emphasizing interventions, assessment, and outcome-based educational decisions for students experiencing emotional and/or behavioral difficulties.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student  |
| EDP     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 583         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 590         | Reading and Conference                                | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic. | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |

Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 593         | Applied Project                                      | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 594         | Conference and Workshop                              | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 595         | Continuing Registration                              | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.                     | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 597         | Applied Research and Reflection                      | The dual purpose of the project is to synthesize learning from multiple areas of scholarship on teaching and learning, and to reflect on the content and process of the master's degree program. Culminating product includes a reflective paper with a corresponding project, such as a literature review, curricular model, technology product, or other project as agreed upon by the student and the student's advisor. | N                 | SEM               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDP     | 598         | Special Topics                                       | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-4   |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 651         | Methods and Practices of Qualitative Research        | Advanced course for students familiar with theory and extant work. Topics include data collection, analysis, reporting, and an extensive fieldwork project.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): COE 503 with C or better  |
| EDP     | 652         | Multivariate Procedures for Data Analysis            | Educational applications of multivariate methods, including MANOVA, discriminant analysis, and exploratory factor analysis. Emphasizes analyzing data and reporting results.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 654         | Structural Equation Modeling in Educational Research | Educational applications of confirmatory factor analysis, path analysis, and full latent variable models. Experience in conducting analyses and reporting results.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 680         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 683         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 684         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 690         | Reading and Conference                               | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 692         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 693         | Applied Project                                      | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 700         | Research Methods                                     | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDP     | 780         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |

| EDP     | 783         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 784         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 790         | Reading and Conference                                  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 791         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 792         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-15  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 795         | Continuing Registration                                 | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 799         | Dissertation  | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-15  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDS     | 191         | First-Year Seminar                                      | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 1-3   |                 | Pre-requisites: Freshman standing, Maximum 25 hours  |
| EDS     | 194         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 1-4   |                 |  |
| EDS     | 200         | Design Literacy and Communication                       | Builds the requisite skills for students to be able to express their ideas visually. Gives exercises to create an understanding of basic principles of design as well as design communication, principles of composition and aesthetic evaluation. Uses tools such as sketching, drawing, computer graphics and model making as a vehicle to develop an understanding of visual methods of expressing one's self.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 | Prerequisite(s): Environmental Design or The Arts (Fashion Design) major   |
| EDS     | 201         | Fundamentals of Sustainability in Design                | Explores sustainability as it relates to the key disciplines that comprise environmental design. Topics range from issues affecting the preservation of the urban fabric to the development of earth-friendly materials used by interior designers and product designers to the design of sustainable buildings by architects through the use of appropriate materials and requisite energy efficiencies. Surveys the literature of sustainability, identifying critical issues on the subject today. Explores the theoretical underpinnings of the sustainability movement as it affects environmental design and related disciplines. | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 |  |
| EDS     | 223         | Design Thinking   | Introduces the notion of design thinking, a concept that is gaining significant recognition in several disciplines including art, design, business, engineering and others. Design thinking can be described as a creative, multidisciplinary, human-centered approach to solving complex problems. Contemporary society faces numerous challenges, and the need for new tools and methods to tackle and solve these problems is more pressing than ever before. Offers several new techniques of design thinking and creative problem solving through engaging lectures and exciting projects.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 |  |
| EDS     | 294         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 1-4   |                 |  |
| EDS     | 301         | Contemporary Issues in Design Strategies and Innovation | Covers theories and methods needed in design, innovation and management of environmental design projects. Uses best practices and case studies related to the design of artifacts and to the design of built environments as a vehicle to develop students' understanding of different aspects of environmental design in a real-world setting. Also discusses the impact of contemporary issues such as globalization, digital tools, global connectivity on the theories and practice of environmental design.  | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 | Pre- or corequisite(s): EDS 200  |
| EDS     | 302         | Design Inquiry and Undergraduate Research               | Theories and methods of design inquiry within a research environment. Prepares students for the senior-year synthesis courses. Students take on design-related research and develop and write a proposal for an integrative experience/project for an environmental design intervention and make an implementation plan to realize this intervention.   | N                 | RSC               | N               | GNA           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 | Pre-requisite: EDS 301   |

| EDS     | 401         | Environmental Design Synthesis I   | First of a two-semester sequence of synthesis courses intended to be integrative, based on design research and inquiry. Serves as a culminating experience where, through the successful completion of an environmental design research project/application or experience, students demonstrate their understanding and synthesis of the knowledge and skills they have acquired in the program. Students identify a relevant research problem in environmental design and undertake the necessary literature search and reading regarding theories and methods related to the selected research question. Emphasizes the use of visual methods as a method of inquiry and research. | N                 | RSC               | N               | GNA           | Herberger Inst Design & Arts   | The Design School               | 3     |                 | Prerequisite(s): GRA 440 with C or better              |
| EDS     | 402         | Environmental Design Synthesis II  | Second of a two-semester sequence of synthesis courses intended to be integrative, based on design research and inquiry. Serves as a culminating experience where, through the successful completion of an environmental design research project/application or experience, students demonstrate their understanding and synthesis of the knowledge and skills they have acquired in the program. Students implement the research study identified in the first semester of the two-semester sequence. Emphasizes the use of visual methods as a method of inquiry and research.   | N                 | RSC               | N               | GNA           | Herberger Inst Design & Arts   | The Design School               | 3     |                 | Prerequisite(s): EDS 401                               |
| EDS     | 484         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 |  |
| EDS     | 492         | Honors Directed Study  | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.  | N                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School               | 1-6   |                 | Prerequisite(s): Barrett Honors student                |
| EDS     | 493         | Honors Thesis  | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | RSC               | N               | Z1            | Herberger Inst Design & Arts   | The Design School               | 1-6   | L               | Prerequisite(s): Barrett Honors student                |
| EDS     | 494         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School               | 1-4   |                 |  |
| EDS     | 498         | Pro-Seminar  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School               | 1-7   | L               |  |
| EDS     | 499         | Individualized Instruction   | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.  | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School               | 1-3   |                 |  |
| EDT     | 180         | Technology Literacy: Problem Solving using Digital Technology Applications | Introducing digital technologies and their place in society. Applies 21st-century skills to problem solving using digital technology applications including spreadsheets and databases.  | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     | CS              | Credit is allowed for only EDT 180 or EDT 321          |
| EDT     | 184         | Modeling, Inquiry, & Analysis Using Technology Tools                       | Project-based course as an overview of modeling, simulation, statistics, probability, and the role of technology in education, business and personal. Investigates exploration and presentation of emerging technology along with their acquisition, use, and implementation into society. Course includes the use of software programs and online simulations for scientific investigation, internet research, data collection, visual representation of data, probability, measures of central tendency, Action Research, 3D modeling, and Web page design.  | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 |  |
| EDT     | 210         | Games, Technology and Society  | Introduces the role and significance of digital games in society and the process of designing games for impact in areas such as education, healthcare and social activism. Explores general theories about the relationship between technology and society, using games as examples, as well as develops a better understanding of methods that take a systemic, contextualized approach to designing games for impact.  | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 |  |
| EDT     | 220         | Understanding Games for Impact   | Explores the nature of learning in and around games designed for entertainment as well as games designed intentionally for impact. Students gain familiarity with current research on course topics; develop a language for reflection on the cognitive, sociocultural and educational merits and drawbacks of game-centered learning environments; and gain new insights into the ways in which digital playspaces and pastimes shape how people think and learn. Develops the ability to analyze learning in games and game-related social contexts, using different theoretical perspectives and tools.   | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): ENG 101, 105, or 107 with C or better |
| EDT     | 294         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 1-4   |                 |  |
| EDT     | 310         | Games for Impact: The Full Life Cycle                                      | Focuses on the complete life cycle of impact games, from perceived need through design to evaluating impact. Highlights ethics of game-based learning, unintended consequences of impact interventions, and how to involve stakeholders in the design process. Students collaboratively workshop an original impact game concept and publishing plan to address a key 21st-century challenge.  | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): junior or senior standing             |

| Subject | Catalog Nbr | Course Title  | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department                                    | Units | General Studies | Requirements   |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|--|
| EDT     | 321         | Computer Literacy: Mobile Technologies and Your World | Uses mobile technologies across disciplines for communication, collaboration, creativity and problem solving. Employs digital tools including Microsoft Office's spreadsheets and databases, Google apps, mobile apps, and a variety of other Web-based tools in problem-based environments.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     | CS              | Pre-requisite: Minimum 45 hours; Credit is allowed for only EDT 180 or EDT 321   |
| EDT     | 329         | Games, Simulations, and Virtual Environments          | Focuses on the use of Gaming, Simulations, and Virtual Environments (GS/VE) in education and instruction. Examines how educational professionals and other practitioners can leverage students interests in digital culture to accelerate their learning. Participants explore the foundational, social, and cultural implications of these new media and the power they hold to engage learners in new ways. Discusses historical overview of GS/VE with an emphasis on educational applications. Analyzes the distinctive features of GS/VE from different pedagogical, psychological (cognitive/emotional), social, and entertainment perspectives. Participants learn how to analyze the design of games, simulations, and virtual environments, creating evaluative criteria for the selection of products in educational environments. | N                 | LEL               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 |  |
| EDT     | 340         | Designing Games for Impact                            | Introduces concepts, methods, techniques and issues associated with designing interactive, game-centered experiences that are developed through a lens of impact. As a cumulative project, students create and test a digital game or game-based experience that demonstrates understanding of impact models and learning science principles.  | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): junior or senior standing   |
| EDT     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-4   |                 |  |
| EDT     | 440         | Creating and Marketing Mobile Apps                    | Focuses on conceptualizing, creating and marketing of apps for mobile devices.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): minimum 45 hours; Credit is allowed for only EDT 440 or EDT 494 (Creating and Marketing Mobile Apps) or EDT 540 |
| EDT     | 460         | Games, Technology and Society                         | Education, healthcare and social activism. Explores general theories about the relationship between technology and society using games as examples, as well as develops a better understanding of methods that take a systemic, contextualized approach to designing games for impact. Students play and analyze existing impact games as well as conduct a landscape analysis for an impact game on a topic of their own choosing.  | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Pre-requisite: Junior or Senior standing; Credit is allowed for only EDT 460 or 560  |
| EDT     | 461         | Understanding Games for Impact                        | Explores the nature of learning in and around games designed for entertainment as well as games designed intentionally for impact. Students gain familiarity with current research on course topics; develop a language for reflection on the cognitive, sociocultural and educational merits and drawbacks of game-centered learning environments; and gain new insights into the ways in which digital playspaces and pastimes shape how people think and learn. Develops the ability to analyze learning in games and game-related social contexts, using different theoretical perspectives and tools.   | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): minimum junior standing   |
| EDT     | 462         | Designing Games for Impact                            | Concepts, methods, techniques and issues associated with designing interactive, game-centered experiences that are developed through a lens of impact. As a cumulative project, students create and test a digital game or game-based experience that demonstrates understanding of impact models and learning science principles.   | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): minimum junior standing   |
| EDT     | 463         | Games for Impact: The Full Life Cycle                 | Presents an impact game publishing methodology covering the full life cycle and key considerations for impact game design, development and publishing as well as the unique challenges in making games for impact. Applies methodology to examine an existing impact game currently in development. Students collaboratively workshop an original impact game concept and publishing plan that harnesses the power of games to address a key 21st-century challenge.   | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): junior or senior standing. Credit is allowed for only EDT 463 or EDT 563  |
| EDT     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-4   |                 |  |
| EDT     | 499         | Individualized Instruction                            | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.  | N                 | IND               | N               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-3   |                 |  |
| EDT     | 501         | Foundations of Learning Design and Technologies       | Foundations and evolution of the field of learning design and technology; examines accomplishments and issues in the field and explores possible career paths.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate                                |
| EDT     | 502         | Design and Development of Instruction                 | Centers on the design and development of competency-based instructional materials, based on a variety of instructional design models, for learning in a multitude of settings.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate                                |
| EDT     | 503         | Design of Effective Communications                    | Explores the theory, research and practice of computer-mediated communication including principles of graphic design for the purposes of creating effective presentations, job aids/infographics and video/audio for educational purposes. Includes a focus on accessibility and Section 508 compliance.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): EDP 540; EDT 501; EDT 502; degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate     |

| Subject | Catalog Nbr | Course Title   | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department                                    | Units | General Studies | Requirements  |
|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|---|
| EDT     | 504         | Modalities of Learning                               | Focuses on the development, design and creation of various forms of Web-based instruction including blended, hybrid and online learning. Examines the characteristics of interactive media, synchronous and asynchronous forms of distance/online learning, eLearning software and project management.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): EDP 540; EDT 501; EDT 502; degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate  |
| EDT     | 506         | Evaluation of Learning Systems                       | Examines procedures for evaluating educational programs, training systems and new-technology applications. Focuses on basic evaluation concepts, steps in conducting a systematic evaluation project, the preparation of an evaluation report, as well as ethical issues.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): EDP 540 or EDT 501 or EDT 502; degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate; Credit is allowed for only CED 525 or EDT 506 |
| EDT     | 507         | Performance Improvement and Leadership               | Introduces the field of human performance technology. Emphasizes the analysis of performance problems, their causes, and interventions.  | N                 | SEM               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate   |
| EDT     | 511         | Emerging Trends and Technologies for Learning Design | Identifies current and future trends in the field of educational technology. Examines key trends, developing technologies and the affordances these technologies might offer, as well as the challenges with implementation that might be faced. Prepares students to embrace the ever-evolving nature of teaching and learning with technology, and how this may impact the process of design. Our awareness and openness to change influences our practice, and staying current with trends is an important characteristic of any future role related to educational technology that one may have.       | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student OR undergraduate postbaccalaureate student   |
| EDT     | 523         | Issues in Online and Distance Education              | Investigates current issues and trends specific to the implementation of web-based teaching and learning as well as practices for effective online instruction. Examines online learning principles, practices and their effectiveness by exploring the use of related systems and applications.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate; EDP 540; EDT 501; EDT 502  |
| EDT     | 524         | Principles and Issues in K-12 Online Learning        | Examines current issues, policies, and trends pertaining to K-12 Web-based teaching and learning. Actively explores research related to online learning, with a focus on virtual schooling and emerging best practices for effective online instruction.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Practicing or licensed K-12 teacher  |
| EDT     | 530         | Technology Integration Methods across the Curriculum | Examines a constructivist approach to technology in education. Investigates technology as a catalyst for rethinking instructional goals and practices.   | Y                 | LEL               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDT     | 540         | Creating and Marketing Mobile Apps                   | Focuses on conceptualizing, creating and marketing of apps for mobile devices.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only EDT 440 or EDT 494 (Creating and Marketing Mobile Apps) or EDT 540                   |
| EDT     | 545         | Using the Internet in Education                      | Explores the Internet as an educational tool for research, inquiry-based learning, and online learning communities. Incorporates constructivist theory.  | N                 | LEL               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDT     | 560         | Games, Technology and Society                        | The role and significance of digital games in society and the process of designing games for impact in areas such as education, healthcare and social activism. Explores general theories about the relationship between technology and society, using games as examples, as well as develops a better understanding of methods that take a systemic, contextualized approach to designing games for impact.   | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only EDT 460 or EDT 560   |
| EDT     | 561         | Understanding Games for Impact                       | Explores the nature of learning in and around games designed for entertainment as well as games designed intentionally for impact. Students gain familiarity with current research on course topics; develop a language for reflection on the cognitive, sociocultural and educational merits and drawbacks of game-centered learning environments; and gain new insights into the ways in which digital playspaces and pastimes shape how people think and learn. Develops the ability to analyze learning in games and game-related social contexts, using different theoretical perspectives and tools. | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only EDT 461 or EDT 561   |
| EDT     | 562         | Designing Games for Impact                           | Concepts, methods, techniques and issues associated with designing interactive, game-centered experiences that are developed through a lens of impact. As a cumulative project, students create and test a digital game or game-based experience that demonstrates understanding of impact models and learning science principles.   | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only EDT 462 or EDT 562   |
| EDT     | 563         | Games for Impact: The Full Life Cycle                | Focuses on the complete life cycle of impact games, from perceived need through design to evaluating impact. Highlights ethics of game-based learning, unintended consequences of impact interventions, and how to involve stakeholders in the design process. Students collaboratively workshop an original impact game concept and publishing plan to address a key 21st-century challenge.  | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only EDT 463 or EDT 563   |
| EDT     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): EDT 501, 502, and 503 with C or better   |
| EDT     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | PRA               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: EDT 501, 502, and 503 with C or better   |
| EDT     | 590         | Reading and Conference                               | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student  |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                       | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department                                    | Units | General Studies | Requirements   |
|---------|-------------|------------------------------------|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|--|
| EDT     | 591         | Seminar                            | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDT     | 593         | Applied Project                    | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | N                 | LEC               | N               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): EDP 540; EDT 501; EDT 502; degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate   |
| EDT     | 594         | Conference and Workshop            | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDT     | 595         | Continuing Registration            | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDT     | 598         | Special Topics                     | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-4   |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDT     | 680         | Practicum                          | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate  |
| EDT     | 683         | Fieldwork                          | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisites: Accepted in either the MED in EDTCH, PHD in EDTECH, or the certificate in EDTECH programs  |
| EDT     | 684         | Internship                         | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | N                 | PRA               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisites: Accepted in either the MED in EDTCH, PHD in EDTECH, or the certificate in EDTECH programs  |
| EDT     | 690         | Reading and Conference             | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | N                 | IND               | N               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDT     | 691         | Seminar                            | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDT     | 695         | Continuing Registration            | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDT     | 701         | Research in Educational Technology | Review and analysis of research studies in educational technology. Methodology for designing, conducting, and reporting educational technology research.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): EDT 501 with C or better; EDT 502 with C or better  |
| EDT     | 704         | Emerging Technologies in Education | Examines the role and impact of emerging technologies in education.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student; Credit is allowed for only EDT 591 (Emerging Technologies in Education) or 704 |
| EDT     | 780         | Practicum                          | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): EDT 502 with C or better  |
| EDT     | 783         | Fieldwork                          | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisites: Accepted in either the MED in EDTCH, PHD in EDTECH, or the certificate in EDTECH programs  |
| EDT     | 784         | Internship                         | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): EDT 501, 502, and 503 with C or better  |
| EDT     | 790         | Reading and Conference             | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDT     | 791         | Seminar                            | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDT     | 792         | Research                           | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-15  |                 | Prerequisite(s): EDT 701 with C or better  |
| EDT     | 795         | Continuing Registration            | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDT     | 799         | Dissertation                       | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-15  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |

| EED     | 411         | Science in Elementary Schools                    | Science education standards, curriculum, instructional and assessment strategies for all children.  | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): admission to the Professional Program; Credit is allowed for only EED 411 or SCN 411            |
| EED     | 412         | Mathematics in Elementary Schools                | Methods of teaching mathematics to all students at the K-8 level, instructional planning and assessment.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): admission to the Professional Program; Credit is allowed for only EED 412 or MTE 412 or SPE 410 |
| EED     | 433         | Language Method Management and Assessment        | Theory on the social nature of oral and written language and congruent teaching, management and assessment practices. Emphasizes skills, strategies and dispositions for teaching 21st-century multimodal literacies to diverse learners including ELL with a focus on learners as creators of content, communicators, collaborators and global citizens.   | N                 | LEL               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): admission to the Professional Program   |
| EED     | 478         | Student Teaching: Elementary School (Grades 1-8) | Student teaching in elementary education classrooms grades 1-8: synthesized experience in curriculum, instruction, assessment and classroom management.   | N                 | PRA               | Y               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3-15  |                 | Prerequisite(s): admission to the Professional Program   |
| EED     | 492         | Honors Directed Study                            | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| EED     | 493         | Honors Thesis                                    | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| EED     | 494         | Special Topics                                   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-4   |                 |  |
| EED     | 497         | Honors Colloquium                                | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | N                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| EED     | 499         | Individualized Instruction                       | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.     | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-3   |                 | Prerequisite(s): admission to the Professional Program   |
| EED     | 500         | Research Methods                                 | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EED     | 511         | Curriculum Theory and Instructional Planning     | Contemporary curriculum theories. Curriculum as an interrelated entity. Process for instructional planning for student understanding and achievement.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EED     | 521         | Instructional Planning for the Diverse Classroom | Planning and delivering instruction; making adaptations for English language learners and students with special needs.  | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EED     | 524         | Social Studies Methods and Assessment            | Provides strategies for integrating social studies content knowledge with other curricular areas. Addresses a variety of issues related to social studies instruction in the elementary school, with an emphasis on valuing diverse cultures and experiences within historical and geographical perspectives. Emphasizes meeting the academic and linguistic needs of all learners including English language learners.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EED     | 526         | Communication Arts in the Elementary School      | Critical examination of school language arts teaching, focusing on theoretical assumptions regarding oral- and written-language development.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EED     | 529         | Science Methods and Assessment                   | Problems and trends of current programs. Development of a balanced and articulated science program.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EED     | 531         | Teaching with Educational Technology             | Focuses on using technology in K-12 classrooms. Addresses the integration of technology in all curricular areas for all students.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EED     | 537         | Mathematics Methods and Assessment               | Contemporary mathematics teaching. Content, materials, and approaches to instruction.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate student        |
| EED     | 550         | Elementary Methods in Content Areas              | Advanced level of development of knowledge and skills of instructional planning and methods of teaching and evaluating in elementary schools.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only EED 550 or SPE 504    |

| EED     | 695         | Continuing Registration            | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                                       |
| EED     | 700         | Research Methods                   | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EED     | 780         | Practicum                          | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                                       |
| EED     | 783         | Fieldwork                          | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                                       |
| EED     | 784         | Internship                         | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                                       |
| EED     | 790         | Reading and Conference             | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                                       |
| EED     | 791         | Seminar                            | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                                       |
| EED     | 792         | Research                           | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-15  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                                       |
| EED     | 795         | Continuing Registration            | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                                       |
| EED     | 799         | Dissertation                       | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-15  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                                       |
| EEE     | 101         | Introduction to Engineering Design | Introduces engineering design, teaming, engineering profession; computer models and programming; communication skills; design of electrical and computer-based systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 2     |                 |  |
| EEE     | 120         | Digital Design Fundamentals        | Number systems, conversion methods, binary and complement arithmetic, Boolean algebra, circuit minimization, ROMs, PLAs, flipflops, synchronous sequential circuits.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 3     |                 | Prerequisite(s): degree-seeking student; Credit is allowed for only CSE 120 or EEE 120   |
| EEE     | 191         | First-Year Seminar                 | Small course emphasizing student-faculty discussion/interaction. Strongly recommended for first-year students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 1-3   |                 |  |
| EEE     | 194         | Special Topics                     | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 1-4   |                 |  |
| EEE     | 202         | Circuits I                         | Principles for analyzing linear and nonlinear circuits. Uses SPICE and MATLAB. Design and measurement of linear analog electrical systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 4     |                 | Prerequisite(s): degree-seeking student; Pre- or corequisite(s): MAT 274 or 275 with C or better if completed; PHY 131 with C or better if completed   |
| EEE     | 203         | Signals and Systems I              | Introduces continuous and discrete time signal and system analysis, linear systems, Fourier, and z-transforms.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 3     |                 | Prerequisite(s): degree-seeking student; EEE 202; AND MAT 242 with C or better or Pre- or corequisite(s): MAT 342 or 343 with C or better if completed |

|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--------------------------------|-------|-----------------|---|
| EEE     | 436         | Fundamentals of Solid-State Devices              | Semiconductor fundamentals, pn junctions, metal-semiconductor contacts, metal-oxide-semiconductor capacitors and field-effect transistors, bipolar junction transistors.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 352   |
| EEE     | 437         | Optoelectronics                                  | Basic operating principles of various types of optoelectronic devices that play important roles in commercial and communication electronics; light-emitting diodes, injection lasers, and photodetectors.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 352   |
| EEE     | 439         | Semiconductor Facilities and Cleanroom Practices | Microcontamination, controlled environments, cleanroom layout and systems, modeling, codes and legislation, ultrapure water, production materials, personnel and operations, hazard management, advanced concepts.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 352   |
| EEE     | 443         | Antennas for Wireless Communications             | Fundamental parameters; radiation integrals; wireless systems; wire, loop, and microstrip antennas; antenna arrays; smart antennas; ground effects; multipath.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 341   |
| EEE     | 445         | Microwaves                                       | Waveguides; circuit theory for waveguiding systems; microwave devices, systems, and energy sources; striplines and microstrips; impedance matching transformers; measurements.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 341 (EEE 340)   |
| EEE     | 448         | Fiber Optics                                     | Principles of fiber-optic communications.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 341 (EEE 340)   |
| EEE     | 455         | Communication Systems                            | Signal analysis techniques applied to the operation of electrical communication systems. Introduction to and overview of modern digital and analog communications.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 350   |
| EEE     | 459         | Communication Networks                           | Fundamentals of communication networks. Study of Seven-Layer OSI model. Focus on functionality and performance of protocols used in communication networks.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 203; Corequisite(s): EEE 350  |
| EEE     | 460         | Nuclear Power Engineering                        | Radioactivity and decay. Radiation interactions and dose. Nuclear reaction, fission and fusion theory. Fission reactors, four factor formula, moderation. Nuclear power, TMI, Chernobyl. Nuclear fuel cycle.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; CHM 114 or 116; MAT 274 or 275 with C or better; PHY 241 or 361 with C or better  |
| EEE     | 463         | Electrical Power Plants                          | Generation of electric power using fossil, nuclear, and renewable, including solar, geothermal, wind, hydroelectric, biomass and ocean, energy sources. Power plant thermal cycle analysis. Cogeneration and combined cycles. Economics, operations, and design of electric power stations. Energy storage.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; CHM 114 or 116; MAE 240 or PHY 241 with C or better; MAT 274 or 275 with C or better                                      |
| EEE     | 465         | Photovoltaic Energy Conversion                   | Photovoltaics for production of electricity from solar energy. The grand energy challenge. Solar radiation and utilization. Fundamentals of semiconductors for photovoltaics: crystal structures, band theory, doping, carrier statistics, optical absorption, and p-n junctions. Principles of solar cells including loss mechanisms and design principles. Current solar cell technologies. Manufacturing of silicon solar cells. Solar modules, arrays and systems. Economic analysis of solar photovoltaic systems. Terawatt-scale deployment of solar cells. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 352; Credit is allowed for only EEE 465 or 498: Solar Energy  |
| EEE     | 470         | Electric Power Devices                           | Analyzes devices used for short circuit protection, including circuit breakers, relays, and current and voltage transducers. Protection against switching and lightning over voltages. Insulation coordination.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 360   |
| EEE     | 471         | Power System Analysis                            | Review of transmission line parameter calculation. Zero sequence impedance, symmetrical components for fault analysis, short circuit calculation, review of power flow analysis, power system stability, and power system control concepts.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 360   |
| EEE     | 472         | Power Electronics and Power Management           | Principles of switch mode power conversion, analysis, design and control of dc-dc converters, PWM rectifiers and inverters, power management, power electronics applications in information technology, renewable energy systems, motion control and lighting.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 203   |
| EEE     | 473         | Electrical Machinery                             | Operating principles, modeling and speed control of DC, brushless DC, and AC machines; power converters for DC and AC motors drives.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 360   |
| EEE     | 480         | Feedback Systems                                 | Analysis and design of linear feedback systems. Frequency response and root locus techniques, series compensation, and state variable feedback.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 203 or MAE 318 with C or better   |
| EEE     | 481         | Computer-Controlled Systems                      | Implements computer-based, embedded, control systems using MATLAB xPC Target toolbox. Small-scale, representative projects demonstrate theoretical issues and provide hands-on expertise.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 203 and EEE 230/CSE 230, or MAE 318   |
| EEE     | 488         | Senior Design Laboratory I                       | Design process: research, concept, feasibility, simulation, specifications, benchmarking, and proposal generation. Technical communications and team skills enrichment.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     | L               | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; ENG 102, 105 or 108, EEE 241; EEE 334; EEE 350; three courses from the following list: EEE 304, 333, 335, 341, 352 or 360 |
| EEE     | 489         | Senior Design Laboratory II                      | Implement, evaluate, and document EEE 488 design. Social, economic, and safety considerations. Technical communications and team skills enrichment.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     | L               | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE senior or post-bacc undergraduate student; EEE 488   |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                                       | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                     | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--------------------------------|-------|-----------------|--|
| EEE     | 492         | Honors Directed Study                              | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-6   |                 | Prerequisite(s): Barrett Honors Electrical Engineering BSE senior  |
| EEE     | 493         | Honors Thesis                                      | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 0-6   | L               | Prerequisite(s): Barrett Honors Electrical Engineering BSE senior  |
| EEE     | 494         | Special Topics                                     | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 1-4   |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 433  |
| EEE     | 498         | Pro-Seminar  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 1-7   |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student   |
| EEE     | 499         | Individualized Instruction                         | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-3   |                 | Prerequisite(s): Electrical Engineering BSE senior   |
| EEE     | 501         | Overview of Electrical Engineering                 | Electromagnetic fields, electrical circuit analysis, transmission lines, communications systems, electromagnetic interference and compatibility, computational techniques and electromagnetic software  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 505         | Time-Frequency Signal Processing                   | Joint time-frequency analysis of time-varying signals and systems; linear and quadratic time-frequency representations; applications in current areas of signal processing.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 506         | Digital Spectral Analysis                          | Principles and applications of digital spectral analysis, least squares, random sequences, parametric, and nonparametric methods for spectral estimation.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 507         | Multidimensional Signal Processing                 | Processing and representation of multidimensional signals. Design of systems for processing multidimensional data. Introduces image and array processing issues.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 508         | Digital Image and Video Processing and Compression | Fundamentals of digital image perception, representation, processing, and compression. Emphasizes image coding techniques. Signals include still pictures and motion video.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 509         | DSP Algorithms and Software                        | Linear systems review, digital filter design, software aspects, DFT, FFT, random signals, programming aspects, applications projects, MATLAB and Java simulations.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 510         | Multimedia Signal Processing                       | Speech/audio coding algorithms. LPC, CELP, MPEG, Cell phone, DTV, cinema, and surround sound standards. MPEG/JPEG introduction.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 511         | Artificial Neural Computation                      | Networks for computation, learning function representations from data, learning algorithms and analysis, function approximation and information representation by networks, applications in control systems and signal analysis.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering graduate student   |
| EEE     | 518         | Fundamentals of Microelectronics Packaging         | Multidisciplinary foundation course in addressing electrical, thermal, materials, chemical, manufacturing, and reliability problems in packaging.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, SBHSE, SEMTE or SSEBE graduate student; Credit for only MSE 518, EEE 518, MAE 518, MSE 475, or CHE 518           |
| EEE     | 521         | Low-Power Bioelectronics                           | Begins with fundamental theory and techniques for low-power analog circuit design especially subthreshold CMOS and BJT circuits (e.g., translinear circuits), then moves to biomedical applications and bio-inspired systems focused upon neuromorphic circuits. Also touches on concepts such as wireless challenges for implants, energy harvesting and electrochemistry. Students have the opportunity to have their final projects fabricated in a commercial CMOS process.                     | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, SBHSE, SEMTE or SSEBE graduate student; Credit is allowed for only EEE 521 or EEE 598 (Low Power Bioelectronics) |
| EEE     | 522         | Radio Frequency Test                               | Covers current production test schemes for mixed-signal and RF circuits, the economics of production test, and recent research techniques in reducing the production test cost. Prior knowledge of Matlab is necessary to be successful in this class.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 523         | Advanced Analog Integrated Circuits                | Analysis and design of analog integrated circuits: analog circuit blocks, reference circuits, operational-amplifier circuits, feedback, and nonlinear circuits.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton Engineering graduate student   |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title  | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                     | Units | General Studies | Requirements   |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|---------------------------|--------------------------------|-------|-----------------|--|
| EEE     | 524         | Communication Transceiver Circuits Design               | Communication transceivers and radio frequency system design; fundamentals of transceivers circuits; RF, IF, mixers, filters, frequency synthesizers, receivers, CAD tools, and lab work on IC design stations.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton Engineering graduate student   |
| EEE     | 525         | VLSI Design   | Analysis and design of Very Large Scale Integrated (VLSI) circuits. Physics of small devices, fabrication, regular structures, and system timing.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton Engineering graduate student   |
| EEE     | 526         | VLSI Architectures                                      | High throughput and low-power VLSI architectures for signal processing. Array processor systems; data path design and optimization; memory design; high-level synthesis; low-power design at system level, algorithm level, and architecture level.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering graduate student   |
| EEE     | 527         | Analog to Digital Converters                            | Detailed introduction to the design of Nyquist rate, CMOS analog to digital converters. Requires knowledge of analog integrated circuits (analog circuit blocks, reference circuits, operational-amplifier circuits, feedback, and nonlinear circuits) to be successful in this course.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton Engineering graduate student   |
| EEE     | 528         | Sensors for the Internet of Things and Wearable Devices | Fundamentals, concepts of system analysis and design, and principles that apply to phase-locked loops (PPLs) used in frequency synthesis.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EEE     | 529         | Semiconductor Memory Technologies and Systems           | Design of semiconductor memory technologies and systems, from the device cell structures to the array and architecture design, with emphasis on the industry trends and cutting-edge technologies including SRAM, DRAM and FLASH technologies and emerging memory technologies such as STT-MRAM, PCRAM and RRAM.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton Electrical, Comp & Energy Engr (ECEE), CIDSE, POLY, SBHSE, SEMTE, or SSEBE graduate student; Credit is allowed for only EEE 529 or EEE 598 (Semicondctr Memory Tech & Sys) or CEN/CSE 591 (Memory Sys: Device, Circuit & Architecture) |
| EEE     | 530         | Advanced Silicon Processing                             | Thin films, CVD, oxidation, diffusion, ion-implantation for VLSI, metallization, silicides, advanced lithography, dry etching, rapid thermal processing.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering graduate student   |
| EEE     | 531         | Semiconductor Device Theory I                           | Transport and recombination theory, pn and Schottky barrier diodes, bipolar and junction field-effect transistors, and MOS capacitors and transistors.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering graduate student   |
| EEE     | 532         | Semiconductor Device Theory II                          | Advanced MOSFETs, charge-coupled devices, solar cells, photodetectors, light-emitting diodes, microwave devices, and modulation-doped structures.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering graduate student   |
| EEE     | 533         | Semiconductor Process/Device Simulation                 | Process simulation concepts, oxidation, ion implantation, diffusion, device simulation concepts, pn junctions, MOS devices, bipolar transistors.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 534         | Semiconductor Transport                                 | Carrier transport in semiconductors. Hall effect, high electric field, Boltzmann equation, correlation functions, and carrier-carrier interactions.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 535         | Electron Transport in Nanostructures                    | Nanostructure physics and applications. 2-D electron systems, quantum wires and dots, ballistic transport, quantum interference, and single-electron tunneling.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 536         | Semiconductor Characterization                          | Measurement techniques for semiconductor materials and devices. Electrical, optical, physical, and chemical characterization methods.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 537         | Semiconductor Optoelectronics                           | Electronic states in semiconductors, quantum theory of radiation, absorption processes, radiative processes, nonradiative processes, photoluminescence, and photonic devices.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 538         | Optoelectronic Devices                                  | Provides graduate students with detailed theory and practical knowledge of semiconductors materials and optoelectronic devices such as light-emitting diodes, lasers, photodetectors and solar cells. Also discusses the applications of these devices. Offers not only classroom lectures but also demonstration of real-world experiments in research laboratories at ASU. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, SBHSE, SEMTE or SSEBE graduate student; Credit is allowed for only EEE 538 or EEE 598 (Optoelectronic Devices)   |
| EEE     | 539         | Intro Solid-State Electronics                           | Crystal lattices, reciprocal lattices, quantum statistics, lattice dynamics, equilibrium, and nonequilibrium processes in semiconductors.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 540         | Fast Computational Electromagnetics                     | Method of moments, finite difference time-domain, finite element methods implemented using fast algorithms (wavelets, FMM, Nystrom) to gain high efficiency.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 541         | Electromagnetic Fields and Guided Waves                 | Polarization and magnetization; dielectric, conducting, anisotropic, and semiconducting media; duality, uniqueness, and image theory; plane wave functions, waveguides, resonators, and surface guided waves.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                           | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                     | Units | General Studies | Requirements   |
|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|---------------------------|--------------------------------|-------|-----------------|--|
| EEE     | 543         | Antenna Analysis and Design            | Impedances, broadband antennas, frequency independent antennas, miniaturization, aperture antennas, horns, reflectors, lens antennas, and continuous sources design techniques.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 544         | High-Resolution Radar                  | Fundamentals; wideband coherent design, waveforms, and processing; stepped frequency; synthetic aperture radar (SAR); inverse synthetic aperture radar (ISAR); imaging.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 545         | Microwave Circuit Design               | Analysis and design of microwave attenuators, in-phase and quadrature-phase power dividers, magic tees, directional couplers, phase shifters, DC blocks, and equalizers.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 546         | Advanced Fiber Optics                  | Theory of propagation in fibers, couplers and connectors, distribution networks, modulation, noise and detection, system design, and fiber sensors.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 547         | Microwave Solid-State Circuit Design I | Applies semiconductor characteristics to practical design of microwave mixers, detectors, limiters, switches, attenuators, multipliers, phase shifters, and amplifiers.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 548         | Coherent Optics                        | Diffraction, lenses, optical processing, holography, electro-optics, and lasers.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 550         | Transform Theory and Applications      | Introduces abstract integration, function spaces, and complex analysis in the context of integral transform theory. Applications to signal analysis, communication theory, and system theory.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 551         | Information Theory                     | Entropy and mutual information, source and channel coding theorems, applications for communication and signal processing.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 552         | Digital Communications                 | Complex signal theory, digital modulation, optimal coherent and incoherent receivers, channel codes, coded modulation, Viterbi algorithm.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 553         | Coding and Cryptography                | Introduces algebra, block and convolutional codes, decoding algorithms, turbo codes, coded modulation, private and public key cryptography.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 554         | Random Signal Theory                   | Applies statistical techniques to the representation and analysis of electrical signals and to communications systems analysis.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 556         | Detection and Estimation Theory        | Combines the classical techniques of statistical inference and the random process characterization of communication, radar, and other modern data processing systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 557         | Broadband Networks                     | Physics of wireless and optical communications. Broadband multiplexing and switching methods. Blocking and queuing analysis. Network optimization, routing, and economics.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 558         | Wireless Communications                | Cellular systems, path loss, multipath fading channels, modulation and signaling for wireless, diversity, equalization coding, spread spectrum, TDMA/FDMA/CDMA.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 559         | Wireless Networks                      | Design principles of cellular networks. Multiple access control protocols for wireless systems. Wireless routing and TCP/IP. Mobile management. Call admission control and resource allocation (e.g., power control and rate control). Wireless security. Future-generation wireless networks. A previous course in random signal theory is required to be successful in this class. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, SBHSE, SEMTE or SSEBE graduate student       |
| EEE     | 562         | Nuclear Reactor Theory and Design      | Principles of neutron chain reacting systems. Neutron diffusion and moderation. One-, two-, and multigroup diffusion equation solution methods. Heterogeneous reactors. Nuclear fuel steady-state performance. Core thermal-hydraulics. Core thermal design.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                                    | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                     | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|---------------------------|--------------------------------|-------|-----------------|--|
| EEE     | 563         | Nuclear Reactor System Dynamics and Diagnostics | Time-dependent solution to neutron diffusion equation. Reactor kinetics and reactivity changes. Dynamics, stability, and control of reactor systems. Modeling neutronic and thermal processes. System characterization in time and frequency domains. Reactor surveillance and diagnostics.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 564         | Interdisciplinary Nuclear Power Operations      | Nuclear power plant systems. Studies interrelationship and propagation of effects that systems and design changes have on one another, especially in relation to nuclear power plant safety and operations. Case studies and design projects.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 565         | Solar Cells                                     | Introduction to the generation and utilization of electricity from solar energy. Exploration of the science and engineering of direct conversion (photovoltaics), including the design, fabrication, and operation of solar cells, and the construction and performance of solar cell modules. Prior knowledge of properties of electronic materials is required to be successful in this course. | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 566         | Advanced Device Modeling and Simulation         | Understanding semi-classical and quantum transport theory in conjunction with device simulations at the nanoscale. Prior knowledge of semiconductor device theory, quantum mechanics and classical semiconductor device simulation is necessary to be successful in this class.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student; Credit is allowed for only EEE 566 or EEE 598 (Advanced Device Modeling) |
| EEE     | 571         | Power System Transients                         | Simple switching transients. Transient analysis by deduction. Damping of transients. Capacitor and reactor switching. Transient recovery voltage. Travelling waves on transmission lines. Lightning. Protection of equipment against transient overvoltages. Introduces computer analysis of transients.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 572         | Advanced Power Electronics                      | Analyzes device operation, including thyristors, gate-turn-off thyristors, and transistors. Design of rectifier and inverter circuits. Applications such as variable speed drives, HVDC, motor control, and uninterruptable power supplies.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 573         | Electric Power Quality                          | Sinusoidal waveshape maintenance; study of momentary events, power system harmonics, instrumentation, filters, power conditioners, and other power quality enhancement methods.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 574         | Computer Solution of Power Systems              | Algorithms for digital computation for the Newton and fast-decoupled power flow problem, and fault analysis. Sparse matrix and vector programming methods, creation of elimination trees, network equivalencing, solution of the least squares problem, introduction to state estimation.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 575         | Power System Stability                          | Dynamic performance of power systems with emphasis on stability. Modeling of system components and control equipment. Analysis of the dynamic behavior of the system in response to small and large disturbances. Knowledge of EEE470, 471 and 473 (or equivalents) is required to be successful in this course.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 576         | Power System Dynamics                           | Dynamic performance of power systems with emphasis on control. Modeling of control equipment, FACTS devices, wind generators, and nonlinear loads. Design of power system stabilizers. Prior knowledge of electric power devices, power system analysis, and electrical machinery is required to be successful in this course.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 577         | Power Engineering Operations and Planning       | Economic dispatch, unit commitment, dynamic programming, power system planning and operation, control, generation modeling, AGC, and power production.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 579         | Power Transmission and Distribution             | High-voltage transmission line electric design; conductors, corona, RI and TV noise, insulators, clearances. DC characteristic, feeders voltage drop, and capacitors.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 581         | Filtering of Stochastic Processes               | Modeling, estimation, and filtering of stochastic processes, with emphasis on the Kalman filter and its applications in signal processing and control.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 582         | Linear System Theory                            | Controllability, observability, and realization theory for multivariable continuous time systems. Stabilization and asymptotic state estimation. Disturbance decoupling, noninteracting control.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 584         | Internship                                      | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                              | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                     | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|---------------------------|--------------------------------|-------|-----------------|--|
| EEE     | 585         | Security and Privacy in Networked Systems | Comprehensive understanding of critical cyber security and privacy threats as well as corresponding solutions in emerging wireless networks, mobile systems, social networks, Internet-of-Things, critical infrastructures, cloud computing, big data analytics, wearable and edge computing, and mobile health. Requires prior knowledge of communications systems or computer networking to be successful in this course.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Elect, Comp and Energy Engr (ECEE) or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student; Credit is allowed for only EEE 585 or EEE 598 (Adv Topics in Wireless & Internet Security) or EEE 598 (Selected Topics in Network Security) |
| EEE     | 586         | Nonlinear Control Systems                 | Stability theory, including phase-plane, describing function, Liapunov's method, and frequency domain criteria for continuous and discrete, nonlinear, and time-varying systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 587         | Optimal Control                           | Optimal control of systems. Calculus of variations, dynamic programming, linear quadratic regulator, numerical methods, and Pontryagin's principle.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 588         | Design of Multivariable Control Systems   | Practical tools for designing robust MIMO controllers. State feedback and estimation, model-based compensators, MIMO design methodologies, CAD, real-world applications.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 589         | Linear Algebra and Convex Optimization    | Linear algebra and convex optimization. Vector spaces, matrix algebra, linear programming, Lagrange multipliers, Karush-Kuhn-Tucker (KKT) conditions, duality theory and algorithms for convex optimization. Newton's method, gradient and steepest descent methods. Algorithms for unconstrained, equality constrained and inequality constrained problems, which include interior point methods. Applications to approximation and data fitting and some geometric problems. Applications to signal processing, communications and control systems. Background in linear algebra necessary to be successful in this course. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 590         | Reading and Conference                    | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Electrical Engineering MS, MSE, or PHD students   |
| EEE     | 591         | Seminar                                   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 592         | Research                                  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 593         | Applied Project                           | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 594         | Conference and Workshop                   | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 595         | Continuing Registration                   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering | Electrical Engineering Program | 1     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 598         | Special Topics                            | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 1-4   |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 599         | Thesis                                    | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 600         | Research Methods                          | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                                 | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                     | Units | General Studies | Requirements   |
|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|---------------------------|--------------------------------|-------|-----------------|--|
| EEE     | 606         | Adaptive Signal Processing                   | Principles and applications of adaptive signal processing, adaptive linear combiner, Wiener least-squares solution, gradient search, performance surfaces, LMS/RLS algorithms, block time/frequency domain LMS.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 607         | Speech Coding for Multimedia Communications  | Speech and audio coding algorithms for applications in wireless communications and multimedia computing.   | N                 | LEC               | N               | OPT           | Ira A. | EEE     | 680         | Practicum                                    | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 683         | Fieldwork                                    | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 684         | Internship                                   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 686         | Adaptive Control                             | Main topics covered: adaptive identification, convergence, parametric models, performance and robustness properties of adaptive controllers, persistence of excitation, and stability.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 690         | Reading and Conference                       | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Electrical Engineering MS, MSE, or PHD student or Master of Engineering student   |
| EEE     | 691         | Seminar                                      | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 692         | Research                                     | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 700         | Research Methods                             | Course on research methods in a specific discipline.   | Y                 | LEC               | Y               | OPT           | Ira A. | EEE     | 792         | Research                                    | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-15  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 793         | Applied Project                             | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 795         | Continuing Registration                     | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering | Electrical Engineering Program | 1     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 799         | Dissertation                                | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-15  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EET     | 406         | Control System Technology                   | Control system components, analysis of feedback control systems, stability, performance, and application.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 3-4   |                 | Pre-requisites: EST 310; MAT 266; Credit for EET 506 or EET 406  |
| EET     | 408         | Digital Real-Time Control                   | Analysis, simulation, and design of discrete systems. Approach taken in this class begins with the analysis, simulation and design of a continuous system, which yields an s-based, transfer function compensator. Then, this compensator is transformed into a z-based transfer function, which can be realized with a difference equation in a microcontroller.                                       | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs           | 3     |                 | Pre-requisite: EET 406; Credit is allowed for only EET 408 or 494 (Digital Realtime Control)   |
| EET     | 430         | Instrumentation and Measurement Systems     | Instrumentation and measurement techniques, sensors operating principles. Signal and error analysis. Signal conditioning and data acquisition.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 3     |                 | Pre-requisites: EST 310; Credit is allowed for only EET 430 or 530   |
| EET     | 494         | Special Topics                              | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 1-4   |                 |  |
| EET     | 506         | System Dynamics and Control                 | Time, frequency, and transform domain analysis of physical systems. Transfer function analysis of feedback control systems performance and stability. Compensation.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only EET 406 or EET 506  |
| EET     | 508         | Digital Real-Time Control                   | Sample data control techniques and applications to process control.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 3     |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student OR Fulton Schools of Engineering senior student with minimum 3.00 ASU GPA |
| EET     | 530         | Electronic Test Systems and Applications    | Analysis, design, and application of electronic test equipment, test systems, specifications, and documentation.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 3     |                 | Pre-requisites: Graduate (degree or non-degree) students; Credit is allowed for only EET 430 or EET 530  |
| EET     | 598         | Special Topics                              | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 1-4   |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student OR Fulton Schools of Engineering senior student with minimum 3.00 ASU GPA |
| EGR     | 101         | Foundations of Engineering Design Project I | Introduces engineering as a profession, critical thinking in engineering design and modeling, team dynamics, engineering communication.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 3     |                 | Prerequisite(s): first-time freshman or maximum 45 hours   |

| EGR     | 102         | Foundations of Engineering Design Project II  | Development and experimental verification of engineering models, engineering design, data acquisition, critical analysis of data, introduction to CADD, engineering communications.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 101; first-time freshman or maximum 45 hours; Corequisite(s): ENG 101, 105, or 107 with C or better; MAT 170 or higher |
| EGR     | 104         | Critical Inquiry in Engineering               | Critical thinking. Systematic evaluation of information as input to well-informed decision making. Close reading and substantive writing in a technical setting.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     | L               | Pre- or corequisite(s): ENG 102, 105, or 108 with C or better if completed; Credit is allowed for only EGR 104 or TWC 104                   |
| EGR     | 194         | Special Topics                                | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 1-4   |                 |   |
| EGR     | 201         | Use-Inspired Design Project I                 | Design, professionalism, and engineering practice developed in a multidisciplinary project setting.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 102; MAT 265 or 270 with C or better   |
| EGR     | 202         | Use-Inspired Design Project II                | Design, problem solving, and engineering practice developed in a multidisciplinary project setting.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 104 with C or better; EGR 201 with C or better   |
| EGR     | 216         | Engineering Electrical Fundamentals           | Introduces modeling of electrical systems using mathematical and scientific principles. Covers electrical circuit analysis techniques including Kirchhoff's and Ohm's laws, series and parallel circuit elements, equivalent elements and circuits, and nodal analysis. These techniques are developed for DC, AC, and transient conditions. Also introduces the basic structure of a modern electronic measurement system and relates this structure to measurement accuracy, precision and resolution. | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): MAT 265 or 270 with C or better; Credit is allowed for only EGR 216 or EGR 294 (Engineering Fundamentals I)                |
| EGR     | 217         | Engineering Mechanics Fundamentals            | Provides a foundation in the theory and principles of statics and dynamics. Examines the effect of forces acting on particles and rigid bodies. Extensively uses vector mechanics. Statics addresses the topics of equilibrium in two and three dimensions, to include distributed loads, trusses, frames, friction and the moment of inertia. Dynamics addresses kinematics and kinetics of particles.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Pre- or corequisite(s): PHY 121 with C or better if completed   |
| EGR     | 218         | Materials and Manufacturing Processes         | Applies material properties and manufacturing processes to the design and fabrication of engineered artifacts.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): CHM 113 or 114 with C or better  |
| EGR     | 219         | Computational Modeling of Engineering Systems | Introduces computing that develops software to find solutions to engineering problems. Students write and document code to solve problems in data acquisition, modeling of physical systems, and optimization.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): MAT 266; Pre- or corequisite(s): MAT 275   |
| EGR     | 240         | CADD and Solid Modeling                       | Uses 3-D solid modeling software to model mechanical parts and produce valid engineering drawings, including use of geometric dimensioning and tolerancing.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 |   |
| EGR     | 280         | Engineering Statistics                        | Applications-oriented introduction to statistics with computer-based experience using statistical software for formulating and solving engineering problems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     | CS              | Prerequisite(s): MAT 265 or 270 with C or better  |
| EGR     | 294         | Special Topics                                | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 1-4   |                 |   |
| EGR     | 301         | Concentration Project I                       | Design, communication, and critical thinking developed in a project setting based on selected concentration.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): MAT 267 or 272 with C or better  |
| EGR     | 302         | Concentration Project II                      | Design, engineering practice, and communication developed in a project setting based on selected concentration.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 301 with C or better   |
| EGR     | 303         | Mechanical Systems Project I                  | Analyze, design, implement and characterize a mechanical system through an in-depth mechanical system design project. Project includes modeling, analysis and measurement of the dynamic behavior of the mechanical system. Develops professional and engineering skills in this project setting.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 202 with C or better; EGR 217 with C or better; EGR 218 with C or better; EGR 219 with C or better                     |
| EGR     | 304         | Embedded Systems Design Project I             | Design, implement and debug an embedded electromechanical system through an in-depth design project. Develops professional and engineering skills in this project setting.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 202 with C or better; EGR 216 with C or better; EGR 219 with C or better   |
| EGR     | 305         | Robotics Systems Project I                    | Analyze, design, implement and debug a robotic electromechanical system through an in-depth robotic system design project. Develops professional and engineering skills in this project setting.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 202 with C or better; EGR 216 with C or better; EGR 219 with C or better   |
| EGR     | 306         | Automotive Systems Project I                  | Analyze, design, implement and verify an automotive system through an in-depth design project. Develops professional and engineering skills in this project setting.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 202 with C or better; EGR 217 with C or better; EGR 219 with C or better   |
| EGR     | 307         | Humanitarian Engineering Project I            | Analyzes, designs, implements and characterizes an engineered system that addresses a humanitarian objective. Project includes modeling, analysis and measurement of the behavior of the system. Develops professional and engineering skills in this project setting.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): minimum junior standing  |
| EGR     | 313         | Mechanical Systems Project II                 | Applies design principles to conceptualize, implement and characterize a fluid and/or thermodynamic system in a project setting. Project emphasizes communication with project stakeholders; applying an appropriate design approach in the context of a fluid and/or thermodynamic system; critical thinking in developing system specifications and evaluating a prototype relative to these specifications; and increasing technical competence.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 303 with C or better; EGR 340 with C or better   |
| EGR     | 314         | Embedded Systems Design Project II            | Applies design principles to conceptualize, implement and characterize an embedded electromechanical system in a project setting. Project emphasizes communication with project stakeholders; applying a human-centered design approach in the context of an embedded system; critical thinking in developing system specifications and evaluating a prototype relative to these specifications; and increasing technical competence.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 304 with C or better   |

| EGR     | 316         | Automotive Systems Project II              | Applies design principles to conceptualize, implement and characterize an automotive system in a project setting. Project emphasizes communication with project stakeholders; applying a human-centered design approach in the context of an automotive system; critical thinking in developing system specifications and evaluating a prototype relative to these specifications; and increasing technical competence.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 306 with C or better  |
| EGR     | 317         | Humanitarian Engineering Project II        | Applies design principles to conceptualize, implement and characterize an engineered system that addresses a humanitarian objective in a project setting. Project emphasizes communication with project stakeholders, applying an appropriate design approach, thinking critically in developing system specifications and evaluating a prototype relative to these specifications, and increasing technical competence.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 307 with C or better; minimum junior standing   |
| EGR     | 321         | Water Resource Systems                     | Fundamentals of water supply and surface water hydrology in the context of the engineering, design and analysis of water resources systems. Places particular emphasis on those aspects of water systems that apply in the context of the developing world as well as in the context of environmentally sustainable systems. Course delivery is designed for engineering students with a broad understanding of engineering fundamentals but without specialist civil engineering knowledge.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 217 with C or better; EGR 219 with C or better  |
| EGR     | 324         | Structural Design for Land Development     | Covers essential structural engineering concepts including loads, materials, constraints, specifications, optimization, and the design environment; structural modeling, analysis, and design.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 221; EGR 222  |
| EGR     | 325         | Water and Wastewater Treatment             | Essential elements of aquatic chemistry, water pollution and water and wastewater treatment technologies. Provides a fundamental basis for understanding sustainable water and wastewater treatment processes and their design considerations. Includes critical evaluation of contemporary issues concerning our water environment and the associated regulatory framework to strengthen and emphasize importance of adequate practices used in operation and design of engineered water and wastewater treatment systems.            | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): CHM 113 with C or better; EGR 321 with C or better  |
| EGR     | 330         | Design of Electrical Systems               | Overview of electrical system architectures and components used in design of smart electrical and electromechanical systems.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 216 with C or better; EGR 219 with C or better  |
| EGR     | 333         | Distributed Circuits and Systems           | Analysis and modeling of the generation and distribution of electrical signals and energy across distributed systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 235; MAT 274 or 275   |
| EGR     | 334         | Analog-Digital Interface                   | Signal processing and operational tools that lie between sensors and digital data processors developed from a system perspective. Includes selection, deployment and analysis of sensors, analog signal processors and converters as well as their appropriate power supplies and the impact of all these components on system performance and cost. Uses experimental and simulation tools to demonstrate typical-use cases for medical, military, industrial and consumer applications.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 216 with C or better; EGR 219 with C or better  |
| EGR     | 338         | Microcontrollers in Smart Systems          | Microcontroller implementation of smart systems. Microcontrollers applied to control dynamic systems, including the interface with sensors and actuators as well as developing simple open- and closed-loop control laws.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 330 with C or better; EGR 334 with C or better  |
| EGR     | 339         | Fabrication of Electrical Systems          | Overview of electrical fabrication techniques; design cycle time, cost, quality, reliability, product life cycle, and testing; programmable versus hard-wired implementation.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 235; MAT 274 or 275   |
| EGR     | 340         | Engineering Thermo-Fluids I                | First and second laws of thermodynamics, systems, processes, equations of state, property tables. Fluid statics, conservation of momentum, Bernoulli's equation, applications.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): PHY 121 with C or better; Pre- or corequisite(s): MAT 274 or 275 with C or better if completed; Credit is allowed for only EGR 340 or MET 340 |
| EGR     | 343         | Mechanics of Solid Materials               | Studies strength and physical performance, such as deformations and load-carrying capacity, of natural and artificial solid structures.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 217 with C or better; EGR 218 with C or better  |
| EGR     | 363         | Automotive Powertrains and Thermal Systems | Internal combustion engine (ICE) design in the context of automotive systems and heat management in vehicle systems, including thermal design of engine and transmission cooling systems. Operating characteristics and efficiencies of the ICE, terminology and abbreviations used in the automotive industry, contemporary fuels and the latest hybrid technology, CAFE standards and EPA vehicle emissions standards, lubrication systems and fluids appropriate for a given design, and current and future standards requirements. | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Pre- or corequisite(s): EGR 340 with C or better if completed  |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title  | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department           | Units | General Studies | Requirements  |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|---------------------------|----------------------|-------|-----------------|---|
| EGR     | 371         | Best Practices for Humanitarian Engineering                 | Technological and process-based best practices for engineering students to gain applied competence in low-cost and low-tech appropriate methods and technologies for small-scale technical problems in local and international humanitarian development contexts.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): Fulton Schools of Engineering major; junior or senior standing   |
| EGR     | 388         | Engineering Materials And Semiconductor Science             | Semiconductor technology operates at the limits of our understanding of many sciences--materials, optics, mechanics, plasma chemistry and charge movement. As well as examining the concepts, considers how they interact within tight constraints and how this affects continuous production, future development options and trouble shooting.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Pre-requisite: Engineering BSE or Manufacturing Engineering BS major; Junior standing   |
| EGR     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 1-4   |                 |   |
| EGR     | 401         | Professional Design Project I                               | First half of a comprehensive project experience based on cumulative knowledge and skills gained in earlier course work.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     | L               | Prerequisite(s): EGR 313, 314, 315, 316, or 317 with C or better OR MFG 308 with C or better; MFG 318 with C or better  |
| EGR     | 402         | Professional Design Project II                              | Second half of a comprehensive project experience based on cumulative knowledge and skills gained in earlier course work.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 401 with C or better taken within one previous term  |
| EGR     | 425         | Unit Treatment Technologies and Systems                     | Addresses fundamental concepts of unit treatment technologies and the scientific and engineering principles that govern the proper design, operation and management of these systems. Course is divided into two overlapping major categories of unit treatment technologies: air-pollution controls and soils/groundwater remediation. Enhances understanding of the unit treatment technologies by reviews of dimensional analysis, mass transport mechanisms, mass balances, modeling, kinetics and reactors.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 325 with C or better   |
| EGR     | 426         | Integrated Solid Waste Systems                              | Addresses the fundamental concepts of solid waste, pathways and transformation processes following the from cradle-to-grave approach. Follows the life of the solid waste from point of generation, reclamation and treatment to point of disposal. Emphasizes describing the present solid waste systems as an integrative set of functional units. Considers physical, chemical and biological transformations of the solid waste, together with the existing technologies and practices for management, treatment and disposal of the solid waste. Includes a specific overview of sustainable solid waste practices such as waste minimization, pollution prevention, reuse and reclamation, together with current domestic and foreign regulations. Addresses planning and design of solid waste operations and facilities. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 325 with C or better   |
| EGR     | 427         | Principles of Hazardous Waste and Materials                 | Trains future environmental engineers and professionals in fundamental hazardous waste and materials concepts. Addresses regulatory requirements; materials hazard communication; material safety concepts; types of hazardous waste/materials (chemical, radioactive, and infectious); risk assessment and routes of exposure; personal protective equipment; prudent practices; treatment; storage and disposal of hazardous waste/materials through the lens of the cradle-to-grave concept. Gains knowledge about the hazardous waste enforcement processes.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 325 with C or better   |
| EGR     | 430         | Design, Fabrication, and Architecture of Electronic Devices | Comprehensive introduction to the design, operation, production and application of the most common semiconductor devices and categories of integrated circuit. Demonstrates the close interaction among materials, semiconductor physics and circuit performance, especially in terms of the applications and economics of digital systems.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 330 with C or better   |
| EGR     | 431         | Power Management  | Devices and techniques to supply and manage power in electrical systems.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 330 with C or better   |
| EGR     | 432         | Engineering Thermo-Fluids II                                | Thermodynamic analysis of mixtures and power cycles. Design and analysis of fluid systems, conduction heat transfer, and introduction to convection and radiation.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 340 with C or better; Credit is allowed for only EGR 432 or MET 432  |
| EGR     | 433         | Transforms and Systems Modeling                             | State-space and transform-domain modeling and analysis of electrical and electromechanical systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 216 with C or better; EGR 455 with C or better; MAT 274 or 275 with C or better; Pre- or corequisite(s): MAT 343 with C or better if completed |
| EGR     | 438         | RF Systems  | Applies fundamental principles of electromagnetics to design and analyze engineered RF systems and applications. Introduces and describes transmission lines, Smith Charts, s-parameters, waves in free space, reflection and refraction and their use in engineering systems.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): PHY 331; Credit is allowed for only EGR 438 or EGR 494 (Fundamentals of RF)  |
| EGR     | 444         | Engineering Design  | Applies fundamentals of mechanics in analysis and synthesis of machine components and systems, with emphasis on stress and failure.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 343 with C or better   |
| EGR     | 445         | Mechanical Engineering Systems                              | Design and modeling of multicomponent electromechanical systems. Applications of computers, controllers, electronics using system hardware and software development.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 219 with C or better; EGR 444 with C or better   |
| EGR     | 455         | Robotic Systems I   | Analysis and design of robotic systems focusing on kinematics, dynamics, coordinate transformations and modeling.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 217 with C or better; EGR 219 with C or better   |
| EGR     | 456         | Robotic Systems II  | Design of robotic systems focusing on dynamics, modeling and controlling a robot.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 455 with C or better   |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department           | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|---------------------------|----------------------|-------|-----------------|--|
| EGR     | 463         | Vehicle Electrical Systems and Hybrid Systems           | Basic theory and operation of hybrid electric drive systems of motor vehicles. Covers fundamentals of next generation electrification including: batteries technology, charging, power electronic operation. Emphasizes the principals of HEV energy management strategies and HEV modeling fundamentals.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 216 with C or better; EGR 363 or EGR 394 (Intro to Concepts in Automotive Engineering) with C or better |
| EGR     | 465         | Ground Vehicle Dynamics                                 | Basic understanding of vehicle dynamics principles and a sufficient knowledge to analyze vehicle dynamic performance and associated chassis system design concepts. Understanding of various dynamical equations of motion governing vehicle behavior as well as computer simulation.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 363 or EGR 394 (Intro to Concepts in Automotive Engineering) with C or better                           |
| EGR     | 475         | Alternative Energy                                      | Covers basic principles, thermodynamics and economics of alternative energy conversion technologies including solar photovoltaics, concentrating solar, wind, biomass, nuclear, fuel cells and energy storage. Briefly discusses conventional heat and power systems as they pertain to alternative energy integration. Introduces operating characteristics of renewable energy technologies through simulation and then reinforces through hands-on demonstrations and experiments with renewable energy systems. | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EEE 202, EGR 340, MAE 240, or PHY 151 with C or better  |
| EGR     | 476         | Microgrid Design and Operation                          | Design, modeling, integration, operation and maintenance of microgrids. Simulation-based design is coupled with hands-on integration to provide a comprehensive approach to microgrid systems.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 216, EEE 202, MAE 240, or PHY 151 with C or better  |
| EGR     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Engineering Programs | 1-12  |                 |  |
| EGR     | 492         | Honors Directed Study                                   | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Engineering Programs | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| EGR     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | Ira A. Fulton Engineering | Engineering Programs | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| EGR     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 1-4   |                 |  |
| EGR     | 499         | Individualized Instruction                              | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.                 | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 1-3   |                 |  |
| EGR     | 500         | Research Methods  | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 520         | Engineering Analysis                                    | Analytical methods for evaluation of engineering systems.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 525         | Lean Systems  | Creates a framework and model of lean engineering and a methodology for applying lean practices to systems engineering as a basis for lean product development.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 530         | Principles of Systems Engineering                       | Engineering is increasingly about complex systems. Addresses scale, scope and complexity increase that engineers need to consider to bring together technical and social issues in a highly integrated way as they design flexible, adaptable, robust systems that can be easily modified and reconfigured to satisfy changing requirements and new technological opportunities.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; EGR 520  |
| EGR     | 535         | Engineering Innovation and Entrepreneurship             | Provides knowledge of innovation and entrepreneurship practices and experience in the application of engineering systems innovation within an entrepreneurial setting of driving a product or process to successful launch. Includes protection of intellectual property and contractual relations.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 565         | Qualitative Methods for Engineering Education Research  | Provides a deep, empirical exposure to interpretive research methods in engineering education research.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): PhD student   |
| EGR     | 570         | Capstone Design   | Comprehensive project experience based on cumulative knowledge and skills gained in earlier course work. Small-group project designing, building, evaluating and analyzing components, assemblies and systems.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Pre-requisite: EGR 530   |
| EGR     | 572         | Quantitative Methods for Engineering Education Research | Specific quantitative analysis techniques used in the field of engineering education, with special focus on instrument design, ANOVA and multiple regression. Prior coursework or experience with basic statistical techniques is necessary to be successful in this course.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): PhD student   |
| EGR     | 574         | Engineering Education Systems in Context                | Provides a systems understanding of current trends in engineering education research to engage engineering education research graduate students with the latest developments in the field in which they will situate their research projects.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): PhD student   |
| EGR     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Engineering Programs | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                                  | Department                                    | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|--|---|-------|-----------------|--|
| EGR     | 590         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering                | Engineering Programs                          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering                | Engineering Programs                          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 593         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering                | Engineering Programs                          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 594         | Conference and Workshop   | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering                | Engineering Programs                          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 595         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.                             | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering                | Engineering Programs                          | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering                | Engineering Programs                          | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering                | Engineering Programs                          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 602         | Principles of Independent Research                                      | Practice of key components of independent research that include project planning, literature survey, interview, data collection and analysis, proposal development, technical writing and presentation.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering                | Engineering Programs                          | 3     |                 | Prerequisite(s): Engineering PhD major   |
| EGR     | 608         | Advanced Simulation   | Simulation has a central role in design, operation, optimization and evolution of complex systems. There are many tools but they have a common need for rigorous science/math, parameterized models and realistic validation. Uses and compares five common platforms.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering                | Engineering Programs                          | 3     |                 | Prerequisite(s): Engineering PhD major   |
| EGR     | 611         | Complex Engineering Systems   | Advanced concepts in design and evaluation of engineering systems: subsystems, systems architectures and seamless integration of subsystems.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering                | Engineering Programs                          | 3     |                 | Prerequisite(s): Engineering PhD major   |
| EGR     | 671         | Applications of Qualitative Methods for Engineering Education Research  | Provides a deep, situated exposure to making and handling data in qualitative engineering education research projects.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering                | Engineering Programs                          | 3     |                 | Prerequisite(s): EGR 565; PhD standing   |
| EGR     | 673         | Applications of Quantitative Methods for Engineering Education Research | Applies quantitative analysis techniques to an engineering education research project. Specific focus on data collection, instrument development, and ANOVA/regression analysis techniques. Prior coursework or experience with basic statistical techniques is necessary to be successful in this course.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering                | Engineering Programs                          | 3     |                 | Prerequisite(s): PhD standing; EGR 572   |
| EGR     | 792         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering                | Engineering Programs                          | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 799         | Dissertation  | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering                | Engineering Programs                          | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ELL     | 504         | Instructional Design for Culturally and Linguistically Diverse Students | Provides a foundation in instructional design to meet the academic and linguistic needs of culturally and linguistically diverse students, with a focus on English language learners.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College           | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only BLE 404 or ELL 504 or SPE 404 |
| ELL     | 515         | Structured English Immersion (SEI) Methods                              | Addresses the role of language and culture in teaching, program types, and specific SEI strategies for teaching English Language Learners (ELLs).   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College           | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ELL     | 516         | Advanced SEI Methods for ELLs   | More fully prepares teachers for linguistically diverse classrooms in which there are students learning through SEI methodology.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College           | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ELS     | 501         | Environmental Life Sciences: Grand Challenge: Global Climate Change     | Introduces first-year graduate students to a range of fields related to the Environmental Life Sciences graduate program. Co-instructed by an interdisciplinary faculty team, combines overview lectures and active discussion of current literature in the fields of inquiry. Culminates in synthetic collaborative research proposals on topics that foster transdisciplinary approaches to environmental life science questions. | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences                       | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ELS     | 502         | Environmental Life Sciences: Field Camp                                 | Combines lecture, field, and laboratory components; provides opportunities to develop field skills relevant to current questions in environmental life science, and to carry out a wide range of observations and measurements in natural systems. Instructed by an interdisciplinary faculty team. Travel out of the country is required and students need to be in possession of a valid passport.                                | N                 | PRA               | N               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences                       | 4     |                 | Pre-requisites: ELS 501  |

| ELS     | 535         | Sustainable Ecosystems              | How human activities and management practices alter biodiversity, ecosystem functioning and the provisioning of ecosystem services; use of economic and other social-science perspectives to estimate the value of ecosystem services; evaluation of options for achieving the sustainable flow of services from ecosystems.   | N                 | SEM               | N               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences  | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only ELS 535 or SOS 535  |
| ELS     | 591         | Seminar                             | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences  | 1-12  |                 |  |
| ELS     | 598         | Special Topics                      | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences  | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ELS     | 700         | Research Methods                    | Course on research methods in a specific discipline.   | Y                 | RSC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ELS     | 784         | Internship                          | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | PRA               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Life Sciences  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ELS     | 790         | Reading and Conference              | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | RSC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ELS     | 792         | Research                            | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Life Sciences  | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ELS     | 795         | Continuing Registration             | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | RSC               | Y               | Z3            | The College of Liberal Arts and Sciences | School of Life Sciences  | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ELS     | 799         | Dissertation                        | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | The College of Liberal Arts and Sciences | School of Life Sciences  | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EMS     | 501         | First Workshop and Orientation      | Covers the four learning threads of the EMSL program: global context, strategic sustainability, communications and sustainability, and sustainability leadership. Students engage in meaningful group discussions, field trips and hands-on experiences directly tied to sustainability. Faculty, guest speakers and practitioners engage students in critical thought and apply sustainability theories into real-world scenarios.  | N                 | SEM               | N               | OPT           | School of Sustainability                 | School of Sustainability | 1     |                 | Prerequisite(s): Executive Masters for Sustainability Leadership major   |
| EMS     | 502         | Global Context I                    | Examine global sustainability issues, determine materiality for their organization and practice communicating this information to critical stakeholders, i.e., translating the complex global context into compelling organizational realities. Applies tools to identify relevant risks and opportunities within their organizational context and investigates potential responses.   | N                 | LEC               | N               | OPT           | School of Sustainability                 | School of Sustainability | 2     |                 | Prerequisite(s): Executive Masters for Sustainability Leadership or Master of Sustainability Leadership major; Corequisite(s): EMS 503; Pre- or corequisite(s): EMS 501 or SOS 501 |
| EMS     | 503         | Strategic Sustainability I          | As a foundational course in strategic sustainability, focuses on sustainability as a strategic lens. Explores the interface among strategy, sustainability and ongoing success, developing a framework for strategic sustainability that underpins authentic and transparent strategic efforts. Identifies the different levels and implications of organizational maturity from a strategic sustainability perspective. Engages in systems mapping, planning and prioritizing methods, tools and techniques to identify and assess strategic opportunities. | N                 | LEC               | N               | OPT           | School of Sustainability                 | School of Sustainability | 2     |                 | Prerequisite(s): Executive Masters for Sustainability Leadership or Master of Sustainability Leadership major; Corequisite(s): EMS 502; Pre- or corequisite(s): EMS 501 or SOS 501 |
| EMS     | 504         | Communications and Sustainability I | This foundational course for professional communications aims to create chief sustainability storytellers. Helps students survey their internal communications environments, understand their target audiences and their unique customer centricities, and develop their voices through the use of proven story structures and techniques.   | N                 | LEC               | N               | OPT           | School of Sustainability                 | School of Sustainability | 2     |                 | Prerequisite(s): EMS 502, 503. Corequisite(s): EMS 505   |
| EMS     | 505         | Sustainability Leadership I         | Focuses on emerging sustainability leadership. Students meld powerful and traditional leadership skills while challenging their prior knowledge with a multiple lens examination of leadership in a sustainability context. Provides a view of oneself to prepare students to better understand others. Students create the first phase of their personal plans for their unique needs and individual growth toward sustainability leadership.   | N                 | LEC               | N               | OPT           | School of Sustainability                 | School of Sustainability | 2     |                 | Prerequisite(s): EMS 502, 503. Corequisite(s): EMS 504   |
| EMS     | 506         | Global Context II                   | Building on the skills gained in previous course work, explores proactive response strategies to material global sustainability challenges and opportunities. Examine how organizations can evolve from risk avoidance and compliance to innovation and thought leadership and explores what role they can play as sustainability leaders.   | N                 | LEC               | N               | OPT           | School of Sustainability                 | School of Sustainability | 2     |                 | Prerequisite(s): EMS 504, 505; Corequisite(s): EMS 507   |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                  | Department               | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|--------------------------|--------------------------|-------|-----------------|--|
| EMS     | 507         | Strategic Sustainability II                         | Uses reframing, re-visioning and backcasting via a sustainability lens as constructs for introducing strategic sustainability across all aspects of an organization both internally and externally. Students apply and integrate various science-based methods, used successfully by organizations large and small, for developing flexible action platforms for sustainable enterprises. Expects students to create a strategic vision and action plan for an organization.  | N                 | LEC               | N               | OPT           | School of Sustainability | School of Sustainability | 2     |                 |  |
| EMS     | 508         | International Immersive                             | The international immersive experience takes place in a compelling location where all the challenges and opportunities of sustainability are in play. It is designed as a dynamic vehicle to make real-world connections to sustainability leaders, projects and communities, and is among the most memorable experiences of the program. Students "see" and "feel" sustainability from another country and culture's perspective and see the overlap and conflict to their own context. Extending one's professional network to other host countries and generating a reflective experience and analysis report are experiential learning artifacts that are generated from this experience. Collaborative teams work through a sustainability case study and present their solutions. | N                 | SEM               | N               | OPT           | School of Sustainability | School of Sustainability | 2     |                 | Prerequisite(s): EMS 506, 507                                  |
| EMS     | 509         | Communications and Sustainability II                | Focuses on audiences and looks at how and where students are telling their stories of sustainability. Students map internal, external and target audiences/markets, strategize channels to reach them with their sustainability stories, and create multi-channel communications plans that incorporate modes of engagement for all audiences.  | N                 | LEC               | N               | OPT           | School of Sustainability | School of Sustainability | 2     |                 | Prerequisite(s): EMS 506; EMS 507;<br>Corequisite(s): EMS 510  |
| EMS     | 510         | Sustainability Leadership II                        | Challenges prior definitions of systems, responsibility and community from a sustainability and leadership perspective. Also provides a toolbox for leading with sustainability as a fundamental success platform. Provides information needed for students to better understand others, a necessary skill to be able to persuasively lead others to transform their organization into a sustainable enterprise. The focus shifts away from being centered around oneself and towards a focus on audience/stakeholders. Students continue to develop their personal leadership skills.  | N                 | LEC               | N               | OPT           | School of Sustainability | School of Sustainability | 2     |                 | Prerequisite(s): EMS 506; EMS 507;<br>Corequisite(s): EMS 509  |
| EMS     | 511         | Global Context III                                  | Expands student perspectives beyond the needs of their organizations and considers what could be gained from industry and cross-industry collaborations. Assesses the implications of changes in leadership perspectives to their organizational contexts.  | N                 | LEC               | N               | OPT           | School of Sustainability | School of Sustainability | 2     |                 | Prerequisite(s): EMS 509, 510.<br>Corequisite(s): EMS 512      |
| EMS     | 512         | Strategic Sustainability III                        | Focuses on expanding efforts for strategic planning and sustainable success beyond the bounds of a given enterprise through strategic collaboration, partnering, innovation and resource development. Applies strategic sustainability as a tool for developing synergistic collaborations and driving innovation for more sustainable enterprises and enterprise systems. Also develops sustainability-informed collaborative approaches to identify and garner resources for strategic imperatives.   | N                 | LEC               | N               | OPT           | School of Sustainability | School of Sustainability | 2     |                 | Prerequisite(s): EMS 509, 510.<br>Corequisite(s): EMS 511      |
| EMS     | 513         | Communications and Sustainability III               | Ignites the storyteller within as students learn to think like authors; craft their stories in scenes; and produce their presentations to entertain, educate and engage their audiences to move them to action. Reveals the students' transformation into courageous storytellers in presentations that combine their compelling narratives with captivating visual storytelling. Also creates social media editorial calendars to publish their stories to help express their thought leadership in sustainability online. By the end of this course, students learn how to own any room, from the boardroom and break room to the chat room and living room.  | N                 | LEC               | N               | OPT           | School of Sustainability | School of Sustainability | 2     |                 | Prerequisite(s): EMS 511; EMS 512;<br>Corequisite(s): EMS 514  |
| EMS     | 514         | Sustainability Leadership III                       | Focuses on transformational leadership for global success, which requires students to identify and apply pathways to inspire, persuade and influence others to act toward a shared global vision. Some of the challenges that all future sustainability leaders face are future orientation; reframing organizations to be globally scalable yet locally focused; and redefining success and growth using sustainability as a success lens. These are just a few of the challenging tasks that sustainability leaders face. Importantly, sustainable leadership involves being an effective change leader, and this course provides the tools and learning needed to initiate and sustain change.   | N                 | LEC               | N               | OPT           | School of Sustainability | School of Sustainability | 2     |                 | Prerequisite(s): EMS 511, 512.<br>Corequisite(s): EMS 513      |
| EMS     | 515         | Capstone  | In this online-only capstone course, students complete drafts of the major deliverables leading to the completion of their capstone. Throughout this process, faculty advise and provide feedback to students.  | N                 | SEM               | N               | OPT           | School of Sustainability | School of Sustainability | 2     |                 | Prerequisite(s): EMS 513, 514                                  |
| EMS     | 516         | Capstone II - Sustainability Leadership Workshop II | Develops a proof of concept based on project proposal and feasibility study. Requires a TED-style final project presentation.   | N                 | SEM               | N               | OPT           | School of Sustainability | School of Sustainability | 1     |                 | Prerequisite(s): EMS 515                                       |
| EMS     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | Z1            | School of Sustainability | School of Sustainability | 0     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |

| EMS     | 586         | Introduction to MSL Capstone | Students select and prepare for their final capstone project in the MSL program. Students have an opportunity to present and discuss their concepts and plans with faculty and with other students in the cohort. Students also learn project management techniques for completing their capstone project.  | N                 | LEC               | N               | GNA           | School of Sustainability       | School of Sustainability                      | 1     |                 | Prerequisite(s): EMS 504; EMS 505                              |
| EMS     | 587         | MSL Capstone Preparation     | Students take their culminating capstone project from proposal to hands-on implementation. Students connect, network, leverage, test, adapt and finally implement their capstone projects.  | N                 | LEC               | N               | GNA           | School of Sustainability       | School of Sustainability                      | 1     |                 | Prerequisite(s): EMS 586                                       |
| EMS     | 588         | MSL Capstone                 | Students complete and fully implement their capstone projects.  | N                 | RSC               | N               | GNA           | School of Sustainability       | School of Sustainability                      | 2     |                 | Prerequisite(s): EMS 587                                       |
| EMS     | 590         | Reading and Conference       | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic  | Y                 | IND               | Y               | Z1            | School of Sustainability       | School of Sustainability                      | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EMS     | 591         | Seminar                      | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | School of Sustainability       | School of Sustainability                      | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EMS     | 593         | Applied Project              | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | School of Sustainability       | School of Sustainability                      | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EMS     | 594         | Conference and Workshop      | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | School of Sustainability       | School of Sustainability                      | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EMS     | 595         | Continuing Registration      | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | School of Sustainability       | School of Sustainability                      | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EMS     | 598         | Special Topics               | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | School of Sustainability       | School of Sustainability                      | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| ENE     | 590         | Reading and Conference       | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |

| ENG     | 205         | Introduction to Writing, Rhetorics and Literacies | How do we understand the ways in which people in systems--both small and large--social, political, and economic, throughout the world use language and other symbolic resources to carry out work? Three fields of study take this kind of questioning especially seriously: studies in writing, studies in rhetoric, and studies in literacy. Inquiry--that persistent, deliberate commitment to question and to build methods sufficient to that questioning--is a generative force in each of these fields of study. Familiarizes students with such questioning traditions and to help them judge for themselves what each is good for. The goal is to strengthen your own repertoire and decision-making power for producing and circulating work (widely defined across material, print, and digital media) that matters in our risk-ridden world. Quite simply, then, this is a course in asking good questions and in evaluating responses to situations that spur questioning. | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | Department of English                            | 3     | L               | Prerequisite(s): ENG 102, 105, or 108 with C or better        |

| ENG     | 229         | Love and Lust in Medieval Literature              | The medieval period, roughly 600-1500, cannot reasonably be called the "dark ages." Indeed, the Middle Ages provides us with a corpus of literature replete with complex characters struggling to live and love, dealing with sin and lust, unity and diversity, faith and reason within a tumultuous cultural milieu and religious rigor, all of which are feeling the winds of changes. Explores medieval literature, noting the astonishing differences from our own time, as well as surprising similarities. Western civilization, our own 21st century, for better or for worse, is indebted to the love and lust of the medievals.  | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences             | School of Humanities, Arts, and Cultural Studies | 3     |                 | Prerequisite(s): ENG 102, 105 or 108 with C or better; Credit is allowed for only ENG 229 or 294 (Love and Lust in Medieval Lit)   |
| ENG     | 230         | Introduction to Film Studies                      | Introduces the style and cultural significance of feature films.   | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts         | 3     | L or HU         | Prerequisite(s): ENG 102, 105, or 108 with C or better (FYC)   |
| ENG     | 235         | Introduction to Contemporary Theory               | Introduces key ideas and concepts in contemporary critical and cultural theory. In addition to the "posts"--postmodernism, poststructuralism, post-Marxism, postcolonial studies, post-feminism and posthumanism--explores new theoretical formations that have emerged in response to our contemporary social condition, such as queer theory, trauma theory, disability studies, cognitive studies, the new "object-oriented" philosophies and materialist theories. And then there's the "trans" domains--transnationalism, transgender studies and transhumanism--which, like so many contemporary theoretical formations opens up new perspectives on where and how we live, who we are and even what we are. The contemporary theories studied in this course provide the tools for understanding 21st-century life and the limits and enjoyments of our humanity. | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | Department of English                            | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only ENG 235 or ENG 294 (Literary Theory & Interdisciplinary Studies) or ENG 294 (Introduction to Contemporary Theory) |

| ENG     | 316         | Literary Readings of the Hebrew Bible            | Literary analysis of two of the main genres of the Hebrew Bible: narrative art and poetry. Students learn the main literary conventions of biblical prose and poetry, and how these conventions are applied or subverted. Each class comprises the study of a literary aspect, close readings, and thematic discussions. Biblical texts are read only in translation. They are situated in the religious, literary and artistic traditions that have developed on their basis.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Department of English                            | 3     | L or HU         | Prerequisite(s): minimum 45 hours. Credit is allowed for only ENG 316, HEB 316, JST 316, REL 316 or HEB 394 (Literary Readings of the Bible)                  |
| ENG     | 317         | Cross-Cultural Writing                           | Cultural differences and their impact on writing and/or their role in miscommunication and misinterpretation.   | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts         | 3     | (L or HU) & G   | Prerequisite(s): ENG 102, 105, or 108 with C or better (FYC)  |
| ENG     | 317         | Cross-Cultural Writing                           | Cultural differences and their impact on writing and/or their role in miscommunication and misinterpretation.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Department of English                            | 3     | (L or HU) & G   | Prerequisite(s): ENG 102, 105, or 108 with C or better (FYC)  |
| ENG     | 317         | Cross-Cultural Writing                           | Cultural differences and their impact on writing and/or their role in miscommunication and misinterpretation.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences             | School of Humanities, Arts, and Cultural Studies | 3     | (L or HU) & G   | Prerequisite(s): ENG 102, 105, or 108 with C or better (FYC)  |
| ENG     | 318         | The Life and Death of Languages                  | The history of language development, spread and contraction as well as thinking on where language may be going in the future. Discusses how languages differentiate and become new languages, how they mix with each other and how the development of writing can change this process. Maintains a focus on the ways speakers from different language communities have found to communicate through pidgin languages, bilingualism and languages of wider communication. Moreover, discusses the invention of new varieties and languages by people who feel their current choices do not fit their needs. Lastly, in considering what might be needed in the future, addresses issues such as machine translation, brain-to-brain communication, aspects of intergalactic communication posed in science fiction and interspecies communication. | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | Department of English                            | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only ENG 318 or ENG 394 (The Life and Death of Languages)                       |
| ENG     | 319         | Future of English                                | This transdisciplinary course investigates what varieties of English are currently used by whom and for what purposes, and attempts to predict the future of English and its significance at the individual, national and global levels.  | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | Department of English                            | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only ENG 319 or ENG 394 (Future of English)                                     |

| Subject | Catalog Nbr | Course Title                  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                                  | Department                                       | Units | General Studies | Requirements  |
|---------|-------------|-------------------------------|---|-------------------|-------------------|-----------------|---------------|--|--|-------|-----------------|---|
| ENG     | 390         | Methods of Inquiry            | Studies in writing, rhetoric and literacy are multiple and diverse because these areas deal with complicated ways people create meaning, circulate meaning, and understand meaning in a variety of contexts and a variety of modal formats. Examines ways of developing research problems and questions, designing studies and conducting, reading and evaluating research in the areas of writing, rhetoric and literacy. Qualitative methods (e.g., case study, ethnographic methods, interviewing); historical methods (e.g., archival, document analysis and artifact interpretation); rhetorical analysis and discourse analysis; feminist approaches to research and analysis; and recent advances in research in the fields of rhetoric, writing and literacy studies. Investigates the many attitudes and assumptions about creativity and cultural work that make methods of inquiry as controversial as they are significant to contemporary public life.   | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | Department of English                            | 3     | L               | Prerequisite(s): ENG 102, 105, or 108 with C or better  |
| ENG     | 391         | Writing in Context            | How do we understand the ways in which people use written language to carry out work in professional, academic, social and/or personal contexts? How does our understanding of the ways writing is produced for an audience shift between and among these different contexts? More importantly, how do writers adapt their writing practices in order to facilitate audience understanding as well as cultivate an audience's capacity for action? Familiarize students with rhetorical practices that position them to read, assess and respond to the rhetorical demands of a wide range of writing contexts. Strengthens students' existing rhetorical skill sets and problem-setting capacities for producing and circulating work (widely defined across material, print and digital media) that responds to a range of problems in an applied manner. Assesses the rhetorical demands of writing contexts and in developing and producing tailored, audience-specific texts that forward work in complex, interdisciplinary environments. | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | Department of English                            | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better  |
| ENG     | 392         | History of Rhetorical Theory  | Begins in ancient Greece with the rise of the art of public oratory (known as rhetoric) and ends in the present, an era dominated by mass media. Engages in a great deal of reading--lots of very old writings as well as some newer ones. Covers a great many topics and ideas; focuses by continually returning to the subject of public discourse. Challenging readings designed to emphasize the connection between systems of philosophy (or "worldview") and systems of communication. By focusing on big ideas, students become a better thinker and communicator in any chosen career.  | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | Department of English                            | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better  |
| ENG     | 393         | Theories of Literacy          | While theories of literacy have, for the most part, been determined by the primacy of reading and writing script, more recent scholarship in literacy theory and history has served to challenge such limitations. Many contemporary perspectives on literacy view scripted text as one component of complex acts and practices of written communication that occur in social contexts. Studies that examine such communicative acts in their local contexts reveal that literate practices and the texts that are produced are imbued with social and cultural values and traditions and the needs and desires of individuals. As the statements above illustrate, theories of literacy themselves are embedded within the values and assumptions of individuals, institutions, and academic specialization. Examines some of these theories, their influences on academic scholarship and pedagogy, the ideological assumptions that inform them, and how we might view these theories within broader social-cultural landscapes.             | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | Department of English                            | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better  |

| ENG     | 485         | Digital Tools                                 | Digital (online, electronic) tools as best utilized in language arts curriculum and instruction for junior and senior high schools. Addresses many practical classroom matters; broadens knowledge of Web 2.0 opportunities for teaching and learning. Creates a detailed inventory of the digital tools familiar to secondary students, and compares these to what a clever English teacher can access in a public school classroom. Imaginations, studies, and designs digital tools to enhance student achievement. Uses digital tools to increase student access to history and culture and opportunities for individuals to find and articulate their voices, as well as opens avenues for their creativity. Empowers the English language arts classroom with critical understandings of media, culture and public relations (digital information manipulation) and develops secondary students from passive consumers to literate participants in democracy. | N                 | LEC               | N               | GNA           | The College of The College of Liberal Arts and Sciences | Department of English                            | 3     |                 | Prerequisite(s): English (Secondary Education) BA major; ENG 102, 105, 108 and one other ENG course with C or better  |

| ENG     | 541         | Teaching Texts in Secondary Classrooms                       | English language arts teachers want all of their students to love literature and become immersed in the texts they assign. Explores activities and philosophies for building a strong reading curriculum in the secondary language arts classroom. Through identifying proficient readers, conducting thoughtful conversations about students and reading, and using a variety of ways to invite readers into texts, designs and experiences reading workshops based on innovative and effective teaching strategies. Students learn to create and implement reading units, literature circles, books of choice, literary tea parties, reading portfolios and final projects. Students also learn hands-on strategies for supporting ethnically and linguistically diverse readers and for teaching reading from a critical lens. | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | Department of English                            | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ENG 541 or ENG 598 (Teaching the Novel Grades 6-12) |

| ENG     | 557         | Computer-Assisted Language Learning                   | Explores the field of computer-assisted language learning. Traces the development of computer-assisted language learning (CALL) over the last three decades. Focuses on research that explores how computer technology can help facilitate second language development; relies primarily on empirical data to do so. Examine established as well as new research methods in CALL. Participants participate in one research study and apply theoretical and practical aspects of CALL in these projects.   | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | Department of English                            | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only APL 557 or ENG 557 or LIN 591 (Intro to Computer Assisted Language Learning) or SLC 557 |

| ENG     | 571         | Foundations for Teaching English Learners             | Provides teachers with foundational knowledge of English language learner education including: identification and knowledge of English language learners in school contexts, the role of culture in learning, principles of second language acquisition and teaching, historical and current perspectives and policies related to English learner education, and the role of parents and communities in the education of English learners.  | N                 | LEC               | Y               | GNA           | The College of Liberal Arts and Sciences | Department of English                            | 3     |                 | Prerequisite(s): ENG 580 (1 hour); Credit is allowed for only ENG 571 or ENG 598 (Foundations for Teaching English Learners)   |
| ENG     | 572         | Strategies for Teaching English Learners              | Supports teachers through a review of core knowledge of strategies and correlated assessments for the instruction of English learners. Teachers learn to assess EL language needs and apply appropriate teaching strategies for supporting learning English and content. Primary emphasis is in the integration of EL language and learning needs and implementation of lesson planning, strategies and appropriately leveled instruction. Teachers complete a semester-long inquiry on integrating course content into their teaching practices. | N                 | LEC               | N               | GNA           | The College of Liberal Arts and Sciences | Department of English                            | 3     |                 | Prerequisite(s): ENG 571; Pre- or corequisite(s): ENG 580 (2 hours); Credit is allowed for only ENG 572 or ENG 598 (Strategy/Assessment/Core for Teaching Eng Learners)            |
| ENG     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts         | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English                            | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | New Interdis Arts & Sciences             | School of Humanities, Arts, and Cultural Studies | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 581         | Methods of Teaching Secondary Writing                 | Emphasizes methods of planning, teaching, and assessing appropriate content in the instruction of composition and related skills in secondary classrooms.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences             | School of Humanities, Arts, and Cultural Studies | 3     |                 | Credit is allowed for only ENG 481 or 581  |
| ENG     | 582         | Pedagogy  | Overview of diverse theories of English instruction, including composition/rhetoric, linguistics and literary, with emphasis upon development and implementation for high school- and community college-level instructors.  | N                 | SEM               | N               | GNA           | New Interdis Arts & Sciences             | School of Humanities, Arts, and Cultural Studies | 3     |                 | Prerequisite(s): admission to any graduate program   |
| ENG     | 583         | Methods of Teaching Secondary Literature and Language | Emphasizes educational methods of planning, teaching, and assessing appropriate content in the instruction of secondary literature, literacy, and language usage.   | N                 | LEC               | N               | OPT           | College of Integrative Sciences and Arts | College of Integrative Sciences and Arts         | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

| ENG     | 602         | Advanced Studies in Theory and/or Criticism                          | Seminar courses on the principles, strategies, and applications of critical, cultural, and/or literary theory and/or criticism.   | N                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 603         | Advanced Studies in Comparative Literature                           | Seminar courses on the problems, methods, and principles of comparative analysis.   | N                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 604         | Interdisciplinary Cultural Studies                                   | Seminar courses on work from literature, anthropology, and/or other disciplines, with an emphasis on cultural influences and functions.   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 606         | Advanced Studies in English Education                                | Current research, issues, and trends in English education.  | N                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 625         | Advanced Studies in Second Language Writing                          | Provides opportunities to explore advanced research topics as well as current issues and controversies in the field of second language writing--an interdisciplinary field of inquiry simultaneously situated in applied linguistics, rhetoric and composition, and teachers of English to Speakers of Other Languages.   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only ENG or LIN 625 |
| ENG     | 632         | Advanced Studies in Medieval and Renaissance Literature and Culture  | Seminar in works of the Medieval or Renaissance periods, studied in their cultural contexts.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 635         | Advanced Studies in British Literature                               | Seminar courses on works produced in or about England, Scotland, and Wales, studied in their cultural contexts.   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 636         | Advanced Studies in American Literature                              | Seminar courses on works produced in or about the United States, studied in their cultural contexts.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 639         | Advanced Studies in Modernism and Postmodernism                      | Seminar courses on topics in Modernist and Postmodernist studies. May include literary and theoretical texts.   | N                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 642         | Advanced Studies in Ethnic, Anglophone, or Post-Colonial Literatures | Seminar courses that consider the influence of cultural or geopolitical developments on the production and circulation of texts.  | N                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 651         | Advanced Studies in History and Theories of Rhetoric                 | Selected topics in the history and/or theory of rhetoric.   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 652         | Advanced Composition Studies   | Selected topics on particular composition theories, practices, pedagogies, and figures.   | N                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 654         | Advanced Studies in Rhetoric, Writing, Technology, and Culture       | Advanced study of theoretical, methodological, and pedagogical issues concerning the interrelationships among rhetoric, culture, writing, and writing technologies.   | N                 | SEM               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 655         | Disciplinary Discourses  | Investigation of professional and disciplinary issues related to linguistics and applied linguistics.   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only ENG 655 or LIN 655            |
| ENG     | 656         | Studies in Cross-Cultural Discourse                                  | Theoretical and methodological issues in the comparative study of discourses between cultures and communities of practice.  | N                 | SEM               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 662         | Poetic Genres  | Creative writing courses in the long poem, the erotic image, death and transfiguration, reading and influence, and others.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 664         | Mixed Genres   | Creative writing courses in the prose poem, magical realism, the literature of obsession.   | N                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 665         | Creative Methods   | Creative writing courses in theory of the novel, poetics, story into film, and others.  | N                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 667         | Issues in the Writing Professions                                    | Focuses on career preparation, resources, the role of writing in the community, creative writing, and the Internet.   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 680         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 695         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | The College of Liberal Arts and Sciences | Department of English | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 780         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 784         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 790         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 791         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Department of English | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 792         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | The College of Liberal Arts and Sciences | Department of English | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENG     | 795         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | The College of Liberal Arts and Sciences | Department of English | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

|---------|-------------|-------------------------------------|---|-------------------|-------------------|-----------------|---------------|--|---|-------|-----------------|--|
| ENG     | 799         | Dissertation                        | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | The College of Liberal Arts and Sciences | Department of English                         | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ENT     | 290         | My Life Venture                     | Interdisciplinary course that engages students in aspects of self-discovery and entrepreneurship. Students learn about themselves, their decisions, and their goals, and see how entrepreneurship could play a role in their lives. Introduces students to concepts in entrepreneurship and personal finance in the context of not-for-profit, business, political, and artistic realms. Includes both individual and team activities and is open to any ASU student.                                       | N                 | LEL               | N               | GNA           | W.P. Carey School of Business            | Department of Management and Entrepreneurship | 3     |                 |  |
| ENT     | 305         | Principles of Entrepreneurship      | Entrepreneurship, with an interdisciplinary basis, focusing principles that involve the startup of a new organization, as well as its management into a fully established firm. Specific discipline-based concepts range from marketing to finance and strategic management.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business            | Department of Management and Entrepreneurship | 3     |                 | Prerequisite(s): minimum 2.50 GPA; minimum 30 hours  |
| ENT     | 340         | Creativity and Innovation           | Teaches key concepts and useful tools and techniques of creativity and innovation to students in order to encourage development of creative skills and habits that can propel them in their career or guide them down a path to start a new venture of their own. Coursework and activities involve complex problem solving activities and relevant trend and environmental analysis in order to explore alternative approaches to challenges. Coursework includes both individual and team activities.     | N                 | LEC               | N               | GNA           | W.P. Carey School of Business            | Department of Management and Entrepreneurship | 3     | L or HU         | Prerequisite(s): Business major or Entrepreneurship and Innov cert student; min 2.5 GPA; min 40 hours; Pre- or corequisite(s): ENT 305 OR Prerequisite(s): Non-Business majors; min 2.5 GPA; min 40 hours; Pre- or corequisite(s) ENT 290, ENT 305, or MGT 290 |
| ENT     | 360         | Entrepreneurship and Value Creation | In-depth application of entrepreneurial concepts including opportunity recognition, value creation and new business management. Identifies the needs of a market and problem solves to meet those needs through innovation. Covers common mistakes made in the new venture process and how to work to avoid these mistakes.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business            | Department of Management and Entrepreneurship | 3     |                 | Prerequisite(s): Business student; ACC 241, 242, or 271 with C or better OR Engineering student; minimum junior standing OR Non-Business student; minimum junior standing; minimum 2.50 GPA; Credit is allowed for only ENT 360 or FSE 301                     |
| ENT     | 440         | Entrepreneurship                    | Prepares students for the challenges of assembling and growing high-potential innovative ventures through the use of analytical frameworks that encompass uncertainty inherent in entrepreneurship (or in entrepreneurial activity). In-depth discussion of cases provides a strong empirical foundation.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business            | Department of Management and Entrepreneurship | 3     |                 | Prerequisite(s): W.P. Carey BA or BS major; FIN 300, 302, or 303 with C or better; MGT 300, 303, or 310 with C or better   |
| ENT     | 441         | Entrepreneurial Management          | Provides a framework for dealing with issues from an entrepreneur's perspective. Covers all areas of entrepreneurship from idea conception to prototype development, to testing, refining and harnessing resources. Covers readings and cases related to topics of business models, business plans, managing startups, business law, founder's issues, managing growth, broad business functions and overall strategic and financial positioning.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business            | Department of Management and Entrepreneurship | 3     |                 | Prerequisite(s): W.P. Carey Business Entrepreneurship BS major; ENT 305 with C or better; ENT 360 (MGT 360) with C or better   |
| ENT     | 445         | Business Model Development          | Develops a complete strategic business model emphasizing the planning process undertaken by successful small business owners and entrepreneurs.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business            | Department of Management and Entrepreneurship | 3     |                 | Prerequisite(s): W.P. Carey BA or BS major; ENT 440 (or MGT 440) with C or better  |
| ENT     | 446         | Venture Capital Experience          | Students learn the details of the startup funding process and available resources. Exposes the history of venture capital and other types of capital, current trends, and the trends that are anticipated in the future. Students learn due diligence process as performed by investors and applies these concepts to building and growing their own ventures. Coursework includes both individual and team activities and is open to students in any major of study with the required prerequisite.        | N                 | LEC               | N               | GNA           | W.P. Carey School of Business            | Department of Management and Entrepreneurship | 3     |                 | Prerequisite(s): W.P. Carey BA or BS major; ACC 240, 241, or 242 with C or better OR non-business student; minimum 2.50 GPA; minimum 56 hours; Credit is allowed for only ENT 446 (or MGT 446) or MGT 494 (Venture Capital Experience)                         |
| ENT     | 447         | Lean Launch                         | Students learn lean and customer development methodologies to test assumptions made about a new business concept that they wish to explore or launch. Teaches how to effectively utilize business models and critically assess the assumptions made through the testing of hypotheses to create innovative and market-ready ventures. Includes weekly presentations of learning points and team activities outside of the classroom. Open to students in any major of study with the required prerequisite. | N                 | LEC               | N               | GNA           | W.P. Carey School of Business            | Department of Management and Entrepreneurship | 3     |                 | Prerequisite(s): W.P. Carey BA or BS major; ACC 241, 242, or 271 with C or better OR non-Business student with minimum ASU 2.50 GPA; minimum 56 hours; Credit is allowed for only ENT 447 (or MGT 447) or HON 447 or MGT 494 (Lean Launch)                     |
| ENT     | 448         | Corporate Entrepreneurship          | Covers five general areas of corporate entrepreneurship: entrepreneurial orientation and corporate venturing; franchising the refining of business models; social venturing; and the extension of partnerships (e.g., joint ventures, strategic alliances).   | N                 | LEC               | N               | GNA           | W.P. | ENV     | 130         | Introduction to Environmental Science          | Introduces the interconnected nature of Earth's hydrosphere, lithosphere (soils and rocks), atmosphere, and biosphere.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 4     | SQ              | Credit is allowed for only ABS 130 or BIO 130 or ENV 130   |
| ENV     | 191         | First-Year Seminar                             | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.   | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 1-3   |                 |  |
| ENV     | 194         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 1-4   |                 |  |
| ENV     | 201         | Fundamentals of Environmental Science          | Examines the functioning of the earth system and how it has changed over long and short time scales. Emphasizes understanding global processes and how human activities can disrupt these processes, changing the ability of our global environment to support life. Also emphasizes important feedbacks between biological and physical processes and their effects on the biosphere. Discusses the response of natural and managed ecosystems to global change along with prospects for the future.  | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 3     |                 | Prerequisite(s): BIO 181 and 182 with C or better; CHM 116 with C or better  |
| ENV     | 294         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 1-4   |                 |  |
| ENV     | 300         | Plant Diversity and Evolution                  | An examination of the major groups of land plants, emphasizing evolutionary history, comparative data, and phylogenetic methods.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 4     | L or SG         | Prerequisite(s): BIO 181 (or BIO 188) with C or better; BIO 182 (or BIO 187 or PLB 200) with C or better OR BIO 281 with C or better; BIO 282 with C or better; Credit is allowed for only BIO 303 or ENV 300 or PLB 300 |
| ENV     | 302         | Plants and Civilization                        | Plants and plant products used by people throughout the world. Cultivation, processing, and uses in modern life (beverages, fibers, foods, medicinals, and perfumes).  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 3     | L               | Prerequisite(s) with C or better: BIO 181 (or BIO 188) and BIO 182 (or BIO 187 or both PLB 200 and 201) OR BIO 281 and 282; Credit is allowed for only BIO 304 or ENV 302 or PLB 302                                     |
| ENV     | 345         | Spatial Analysis in the Environmental Sciences | Develops an understanding of the methods, tools and technologies used to collect, display, analyze and interpret spatial data in environmental science and natural resource management. Provides overview of geographic information system (GIS) applications in these fields. Basics of integrating the global position system (GPS) and remote sensing (RS) into GIS to solve problems in environmental science and natural resource management.   | N                 | LEL               | N               | GNA           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 3     |                 | Prerequisite(s): ENV 201 with C or better  |
| ENV     | 385         | Environmental Impact Assessment                | An understanding of federal and state environmental laws, including the scientific processes that are incorporated into decision making, is critical for a variety of careers in the environmental sciences. Provides an overview of these laws and processes and develops the specific written and oral communications skills needed for many environmental, biophysical and natural science professions.   | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 3     |                 | Prerequisite(s): ENV 201 with C or better  |
| ENV     | 388         | Research Fundamentals for the Natural Sciences | Teaches research skills in the natural sciences. Topics covered include the basic research techniques of the study organism and system, experimental design, literature searches, statistical analysis and preparation of scientific papers and posters.   | Y                 | LEL               | Y               | GNA           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 3     | L               | Prerequisite(s): BIO 181; BIO 182 OR ACO 320 OR MAT 272; Credit is allowed for only LSC 388 or LSC 498 (Research Fundamentals for the Natural Sciences) or ENV 388 or FOR 388 or PLB 388 or PTX 388                      |
| ENV     | 394         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 1-4   |                 | Prerequisite(s): minimum 45 hours  |
| ENV     | 410         | Soil Science                                   | Fundamental principles of soil science, including physical, chemical, biological and ecological properties. Applies these principles to explain the importance of soil as both a natural resource and ecosystem. Discusses the role of soils as the heart of terrestrial ecosystems, both natural and managed, and the importance of this key natural resource to environmental health and biological productivity. Explores how human activity and global change are impacting this vital natural resource and ecosystem that is crucial to life on earth. The laboratory component also introduces applications and standard methodology for investigating these principles. | N                 | LEL               | N               | GNA           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 4     |                 | Prerequisite(s): BIO 320 with C or better; CHM 116 with C or better; PHY 101 or higher with C or better  |
| ENV     | 484         | Internship                                     | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 1-12  |                 | Prerequisite(s): minimum 45 hours  |
| ENV     | 492         | Honors Directed Study                          | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.  | Y                 | RSC               | Y               | Z1            | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 1-6   |                 | Prerequisite(s): Barrett Honors student; minimum 45 hours  |
| ENV     | 493         | Honors Thesis                                  | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | RSC               | N               | Z1            | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 1-6   |                 | Prerequisite(s): Barrett Honors student; minimum 45 hours  |
| ENV     | 494         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 1-4   |                 | Prerequisite(s): minimum 45 hours  |
| ENV     | 497         | Honors Colloquium                              | A class emphasizing discussion, written and/or oral presentation by students, and active participation.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 1-6   |                 | Prerequisite(s): Barrett Honors student; minimum 45 hours  |

| ENV     | 499         | Individualized Instruction                            | Provides an opportunity for original study or investigation in the major or field of specialization, on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. This course may be taken only by outstanding senior students who have completed at least one semester in residence and who have a cumulative GPA of 3.00 or higher in the major or field of specialization. A special class fee may be required.  | Y                 | IND               | Y               | Z1            | New Interdis Arts & Sciences   | School of Mathematical and Natural Sciences   | 1-3   |                 | Prerequisite(s): minimum 45 hours                              |
| EPA     | 500         | Research Methods                                      | Course on research methods in a specific discipline.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 |  |
| EPA     | 532         | Becoming an Informed Consumer of Educational Research | Development of critical analyses skills in the examination and synthesis of educational research.  | N                 | SEM               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EPA     | 555         | Translating Research for Educational Change           | Teaches educators how to translate research to promote educational change in their schools and districts. Three concepts emerge to empower practitioners to translate research to their individual schools and communities: (1) a needs assessment to understand the context (student population, community, networks); (2) an emphasis on the generalizability of research to provide an understanding of which findings are most applicable to specific contexts at which times and under which conditions; and (3) explicit training on ways of knowing to encourage practitioners to develop their own theoretical perspectives and test them against the academic research.   | N                 | SEM               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EPA     | 556         | Data Analysis for Education Decision Makers           | Prepares educators to use the sources of information (i.e., results, reports and interactive programs) at their disposal to make educational decisions. Dynamic content is adapted based on the real-world information sources brought forth by the course participants.   | N                 | SEM               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EPA     | 559         | Systematic Inquiry for Problem Solving                | Trains participants to produce a policy analysis aimed at addressing a problem they identify within their own organizations. Participants identify a problem, gather, analyze data and evidence to draw conclusions, and clearly and succinctly report their findings and recommendations to policymakers.   | N                 | SEM               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EPA     | 565         | Critical Topics in Education Policy                   | Critical topics in contemporary educational policy debates in the USA. Explores the dominant ideological and theoretical perspectives about what should be the purposes of schooling. Students analyze the humanist, core-curriculum, vocational, pragmatic as well as the standards-based, market-driven, professionally led, and networked models of reform, theories of change, implementation challenges, and the critiques leveled against these approaches. Students analyze critical topics such as policy formation, leadership, teachers unions, academic performance and community involvement. Encourages students to learn critical "policy skills" and reach reflexive and research-based conclusions about what are the requirements to develop "good school systems" and what their their individual and collective contributions could be. | N                 | SEM               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EPA     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 |  |
| EPA     | 583         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 |  |
| EPA     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 |  |
| EPA     | 590         | Reading and Conference                                | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | REC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EPA     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EPA     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 |  |
| EPA     | 593         | Applied Project                                       | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 |  |
| EPA     | 594         | Conference and Workshop                               | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 |  |
| EPA     | 595         | Continuing Registration                               | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 |  |

Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering    | Environmental and Resource Management             | 1-3   |                 |  |
| ERM     | 201         | Environmental Management                          | Develops an understanding of the fundamentals of environmental science, environmental issues and major environmental standards. Topics covered include basic ecology, population dynamics, environmental resources, environmental pollution and its prevention, the environmental management regulatory framework, sustainability, pollution prevention, waste minimization, and environmental management systems. Provides the foundational knowledge used by environmental professionals who manage environmental problem solving for industry, regulatory agencies, municipalities, consulting firms, military installations, academic institutions and nonprofit organizations specializing in environmental advocacy. Overview course covering elements that are developed in more depth in other ERM courses.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Environmental and Resource Management             | 3     |                 |  |
| ERM     | 203         | Environmental Regulations                         | Explains and discusses federal environmental laws and regulations that apply to the field of environmental management. Addresses the most important Arizona state and county/local regulations that impact decision making in the environmental management practice area. Emphasizes the federal-level requirements, including laws that are most likely to be used by professionals who are not lawyers and working in positions having environmental management and engineering assignments. Uses case studies to help students learn how the laws are applied and implemented in practical situations. Develops an understanding of the fundamentals of environmental laws and regulations. Provides essential knowledge used by environmental and engineering professionals who manage regulatory issue problem solving for industry, government, consulting firms, military installations, academic institutions and nonprofit organizations. | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Environmental and Resource Management             | 3     |                 | Prerequisite(s): any SG or SQ course   |
| ERM     | 294         | Special Topics                                    | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering    | Environmental and Resource Management             | 1-4   |                 |  |
| ERM     | 302         | Water and Wastewater Treatment Technology         | Explores the development of treatment technologies. Addresses regulatory standards. Emphasizes theory and practice of system design, lab analysis standards and procedures.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Environmental and Resource Management             | 3     |                 | Prerequisite(s): CHM 101 or 113; MAT 170 or higher                                 |
| ERM     | 364         | Toxicology and Biohazards in Emergency Management | Introduces poisons. Dose response routes of exposure and toxicokinetics. Diseases associated with natural disasters. Clinical presentation of treatments.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Environmental and Resource Management             | 3     |                 |  |
| ERM     | 394         | Special Topics                                    | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering    | Environmental and Resource Management             | 1-4   |                 |  |
| ERM     | 401         | Hazardous Waste Management                        | Definition of hazardous waste, RCRA and CERCLA regulations, hazardous waste classification system. Overview of hazardous waste management.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Environmental and Resource Management             | 3     |                 | Prerequisite(s): CHM 101 or higher; ERM 203 or Environmental Engineering BSE major |
| ERM     | 402         | Unit Treatment Technologies                       | Addresses various treatment technologies for contaminated air, water, and soil. Emphasizes design based upon medium, type of contamination, and concentration.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Environmental and Resource Management             | 3     |                 | Prerequisite(s): ERM 302   |
| ERM     | 406         | Environmental Chemistry                           | Examines reactions, transport, and fates of hazardous chemicals in water, soil, air, and living organisms.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Environmental and Resource Management             | 3     |                 | Pre-requisites: CHM 101 (or 113) and MAT 170 or higher                             |
| ERM     | 407         | Occupational Hygiene                              | Overview of occupational health hazards, including recognition, evaluation, and control. Includes regulatory status and health standards.  | N                 | LEC               | N               | OPT           | Ira A. | ERM     | 432         | Sustainable Solid Waste Management                      | Addresses engineering and management principles associated with integrated solid waste systems. Follows the life of the solid waste from point of generation, reclamation and treatment to point of disposal. Emphasizes the functional units of a solid waste system and the relationships among them. Addresses the physical, chemical and biological transformations of the solid waste, together with the existing technologies and engineering practices for collection, management, treatment and disposal of the solid waste. Emphasizes the sustainable practices such as waste minimization, pollution prevention, reuse and reclamation of the solid waste. Also discusses existing domestic and foreign regulations guiding the proper solid waste management techniques, as well as planning and design of solid waste system operations and facilities. | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): MAT 170 or higher; minimum junior standing; Credit is allowed for only ERM 432 or ERM 494 (Integrated Solid Waste Systems) or ERM 532 |
| ERM     | 480         | Senior Project  | Capstone project experience refining skills in communication, research and information retrieval, critical analysis and criticism, and demonstrating technical competence in each student's area of study.   | N                 | LEC               | N               | OPT           | Ira A. | ERM     | 499         | Individualized Instruction                              | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. This course may be taken only by outstanding senior students who have completed at least one semester in residence and who have a cumulative GPA of 3.00 or higher in the major or field of specialization. A special class fee may be required.   | Y                 | IND               | Y               | Z1            | Ira A. Fulton Engineering | Environmental and Resource Management | 1-3   |                 |  |
| ERM     | 501         | Principles of Hazardous Materials and Waste Management  | Foundation for courses in curriculum. Topics include definitions of toxic and hazardous substances and wastes, RCRA classification, and OSHA criteria.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ERM     | 502         | Regulatory Framework for Toxic and Hazardous Substances | Examines federal, state, and local regulations for hazardous materials and wastes. Includes history and trends in regulatory development.  | N                 | LEC               | N               | OPT           | Ira A. | ERM     | 503         | Principles of Toxicology                                | Interaction of chemicals with life and environment. Mechanisms of toxic action, dose-response relationships, toxicity testing models, predictive toxicology, and epidemiology.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ERM     | 506         | Chemistry of Hazardous Materials                        | Chemistry and toxicology of hazardous chemicals. Topics include proper handling, storage, transportation, and disposal.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ERM     | 507         | Industrial Hygiene                                      | Emphasizes chemical hazards in industrial settings. Topics include recognizing and measuring hazards, control techniques, and regulatory standards.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ERM     | 520         | Sustainability and Sustainable Development              | Explores broad field of environmental sustainability with U.S. and international coverage of green living practices.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ERM     | 522         | Air Pollution and Toxic Chemicals                       | Examines issues in the measurement analysis and control of toxic chemicals in air pollution.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ERM     | 523         | Soils and Groundwater Contamination                     | Theoretical and practical hydrogeology as it applies to cleaning up contamination. Investigative techniques, monitoring, risk assumptions, and assessment methodology.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ERM     | 527         | Environmental/Resources Regulations Concepts            | Environmental regulations related to water, land use, endangered species, NEPA and other policy issues.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ERM     | 528         | International Environmental Management                  | Studies environmental issues and laws outside the U.S., impact of free trade, and multinational corporations.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ERM 428 or ERM 528  |

Fulton Engineering                | Environmental and Resource Management     | 3     |                 | Prerequisite(s): Fulton Schools of Engineering or School of Sustainability or Urban and Environmental Planning graduate student or enrolled in ERM 4+1 program; Credit is allowed for only ERM 432 or ERM 532 or ERM 598 (Sustainable Solid Waste System) |
| ERM     | 533         | Water and Wastewater Treatment Technologies         | Covers the most essential elements of aquatic chemistry, water pollution and water and wastewater treatment technologies to graduates in environmental and resource management and other interested parties. Provides a fundamental basis for understanding sustainable water and wastewater treatment operations. Includes critical evaluation of contemporary issues concerning our water environment and the associated regulatory framework in the lectures to strengthen and emphasize the importance of adequate practices used in the management of engineered water and wastewater treatment systems. Incorporates lectures, field trips and professional guest speakers.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering                | Environmental and Resource Management     | 3     |                 | Prerequisite(s): graduate student in Ira A. Fulton Schools of Engineering, the School of Sustainability, or Urban Planning  |
| ERM     | 535         | Water Law and Policy                                | Regulatory framework that governs use of surface water and groundwater, including federal and state laws, interstate compacts and international treaties. Emphasizes the history and development of water resources in the arid American West. Explores the impact of climate change, population growth and competing interests of sectors such as agriculture, municipalities, tribes and hydropower in terms of policy implications for water use.   | N                 | LEL               | N               | GNA           | Ira A. | ERM     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering                | Environmental and Resource Management     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ERM     | 593         | Applied Project                                     | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering                | Environmental and Resource Management     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ERM     | 595         | Continuing Registration                             | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering                | Environmental and Resource Management     | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ERM     | 598         | Special Topics                                      | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering                | Environmental and Resource Management     | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ERM     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.  | Y                 | LEC               | Y               | Z2            | Ira A. Fulton Engineering                | Environmental and Resource Management     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 501         | Social Theory and the Environment                   | Investigates key conceptual domains of environmental social science from interdisciplinary and comparative perspectives.   | N                 | SEM               | N               | GNA           | The College of Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 502         | Political Ecology: Theory and Research              | Investigates key theories and research of political ecology through the conceptual domains of environmental social science from interdisciplinary and comparative perspectives.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 504         | Analysis of Large-Scale Socio-Technological Systems | Provide skills and methods to analyze the design and management of large-scale socio-technological systems and the societal impacts of large-scale technological systems change. Emphasizes assessing the intertwining of lives and livelihoods in large-scale technological systems and the risks and vulnerabilities associated with large-scale systems failures, including the effects of both technological failures and natural hazards.   | N                 | SEM               | N               | OPT           | The College of Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 510         | Urban Environments                                  | Investigates major issues and themes on the urban environment, from urban sprawl to environmental justice.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Human Evolution & Social Change | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 513         | Institutions  | Studies formal and informal institutional arrangements for the governance of natural resources using case studies, experiments, and formal models.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Human Evolution & Social Change | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 514         | Urban and Environmental Health                      | Integrates theory and practice of social sciences (including anthropology, demography, and human geography) to understand environmental contexts of health, particularly urban.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Human Evolution & Social Change | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                            | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                                  | Department                                | Units | General Studies | Requirements  |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|--|---|-------|-----------------|---|
| ESS     | 540         | Statistical Modeling for Sustainability | Equips students with sufficient knowledge of statistical theory and methods of applied data analysis to begin conducting empirical analyses in their domains of interest; bring students to a high level of competency in using a cutting-edge statistical software package (Stata) for data management and data analysis tasks; expose students to applications of statistical methods in the economics/policy/social science sustainability literatures in order to develop an understanding for how statistical tools are operationalized in the research world; and develop an appreciation for the careful synthesis of social and natural science theory, knowledge of data and its limitations and command of statistical tools that constitute quality empirical research. | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Human Evolution & Social Change | 4     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only AML, ESS or SOS 540  |
| ESS     | 577         | Interdisciplinary Writing Seminar       | If you want your work to make a difference in the world, you need to be able to communicate your ideas to diverse audiences in a way that is interesting and accessible. Teaches students to write clearly, persuasively and ethically to people in their disciplines, in other disciplines, and outside academia. Approaches writing as a way to think critically and refine ideas, as well as to communicate them to others.   | N                 | SEM               | Y               | GNA           | The College of Liberal Arts and Sciences | School of Human Evolution & Social Change | 2     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is only allowed for ESS 577 or SOS 577 or SOS 598 (Interdisciplinary Writing) or SOS 598 (Writing Seminar) |
| ESS     | 580         | Practicum                               | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 583         | Fieldwork                               | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.   | Y                 | PRA               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 584         | Internship                              | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 590         | Reading and Conference                  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | LEC               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 591         | Seminar                                 | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | SEM               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 592         | Research                                | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| ESS     | 799         | Dissertation                                 | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | The College of Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EST     | 115         | Digital Systems I                            | Introduces digital electronics. Topics include number systems and codes used in digital systems, Boolean algebra, logic gates, logic families, and combinational and memory circuits.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering                | Engineering Programs                      | 3     |                 |   |
| EST     | 160         | Introduction to Electronic Systems           | Introduces the components, devices, and practical design principles that are used to create competitive electronic systems.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering                | Engineering Programs                      | 3     |                 | Credit is allowed for only EST 160 or 194 (Intro to Electronic Systems)   |
| EST     | 194         | Special Topics                               | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering                | Engineering Programs                      | 1-4   |                 |   |
| EST     | 200         | Project Lab                                  | Provides theoretical and practical overview of principles of measuring instruments and the main objective is to build good lab disciplines.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering                | Engineering Programs                      | 2     |                 | Pre-requisites: Sophomore standing  |
| EST     | 210         | Circuit Analysis I                           | Parallel/Series circuits, ohm's law, network theorems, capacitors/inductors and transient analysis. Overview of electronic devices, BJTs, FETs, op-amps.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Engineering Programs                      | 3     |                 | Prerequisites: MAT 266 (or 271); PHY 112 (or 131)   |
| EST     | 294         | Special Topics                               | Covers topics of immediate or special interest to a faculty member and students.  | N                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering                | Engineering Programs                      | 1-4   |                 |   |
| EST     | 310         | Circuit Analysis II                          | Electronic device analysis and introduction to design. Power supplies, diode circuits, FETs, BJTs, op-amps. Emphasizes frequency response.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Engineering Programs                      | 3     |                 | Pre-requisites: EST 210   |
| EST     | 315         | Digital Systems II                           | Digital electronics systems, HDL circuits and systems design techniques, and device applications.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering                | Engineering Programs                      | 3     |                 | Pre-requisite: EST 115 and 210; Credit is allowed for only EST 315 or 394 (Digital Electronics II)  |
| EST     | 345         | Planning and Delivering Engineering Projects | Project-based, hands-on course teaches team building, planning, soft skills, tracking progress, and powerful methods that deliver successful, on-time projects.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Engineering Programs                      | 3     |                 | Pre-requisites: EST 200   |
| EST     | 350         | Microcontroller Applications                 | Interfacing of microcontrollers to sensors, switches, indicators, and other human interfaces using the C programming language. Applications involve the integration of both hardware and software. Also addresses applications dealing with open- and closed-loop applications.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering                | Engineering Programs                      | 3     |                 | Pre-requisite: EST 315; Credit is allowed for only EST 350 or 394 (Adv Micro Controllers)   |
| EST     | 370         | Sensors                                      | Overview of sensor technology, including mechanical, magnetic, radiation, thermal, chemical, and biological applications.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering                | Engineering Programs                      | 3     |                 | Pre-requisites: EST 200; EST 210; UET 331   |
| EST     | 380         | Electronic Devices                           | Covers materials, structures, and technology for the design, production, and application of the major categories of electronic devices.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering                | Engineering Programs                      | 3     |                 | Pre-requisite: UET 331; Credit is allowed for only EST 380 or 394 (Intro to Electronic Devices)   |
| EST     | 394         | Special Topics                               | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering                | Engineering Programs                      | 1-4   |                 |   |
| EST     | 410         | Electronic System Design                     | Analysis and design of Op-amps, power amplifiers, and digital logic families, Feedback design using frequency response. Computer analysis and design.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering                | Engineering Programs                      | 3     |                 | Pre-requisite: EST 310; Credit is allowed for only EST 410 or 494 (Electronics Systems Design)  |
| EST     | 465         | Statistical Process Control                  | Introduces statistics, seven QC tools, and control charts for data analysis and interpretation; process capability, 6-sigma, lean manufacturing, and quality system.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering                | Engineering Programs                      | 3     |                 | Prerequisite(s): Fulton Schools of Engineering undergraduate student; Senior standing; Credit is allowed for only EST 465, 494 (Statistical Process Control) or 565 |

ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title                | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department           | Units | General Studies | Requirements   |

| EST     | 471         | Capstone Design II          | Continuation of a small-group project encompassing designing, building, evaluating, and analyzing components, assemblies, and systems.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Pre-requisite: EST 470   |
| EST     | 484         | Internship                  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Engineering Programs | 1-12  |                 |  |
| EST     | 490         | Electronics Project         | Individual or small group projects in applied electronics; emphasizes lab practice or hardware solutions to practical problems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 1-4   |                 | Prerequisite(s): Fulton Schools of Engineering undergraduate student; min GPA 2.25; OR Fulton Schools of Engineering graduate student  |
| EST     | 492         | Honors Directed Study       | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Engineering Programs | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| EST     | 493         | Honors Thesis               | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | Ira A. Fulton Engineering | Engineering Programs | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| EST     | 494         | Special Topics              | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 1-4   |                 |  |
| EST     | 498         | Pro-Seminar                 | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 1-7   | L               | Prerequisite(s): Fulton Schools of Engineering undergraduate student; min GPA 2.25; OR Fulton Schools of Engineering graduate student  |
| EST     | 499         | Individualized Instruction  | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Engineering Programs | 1-3   |                 |  |
| EST     | 500         | Research Methods            | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 1-12  |                 | Prerequisite(s): Fulton Polytechnic School graduate student; minimum 15 hours graduate level courses   |
| EST     | 565         | Statistical Process Control | Seven QC tools and control charts for data analysis and interpretation; process capability, 6-sigma, lean manufacturing, quality system, case study and lab experiment.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Pre-requisites: Graduate (degree seeking or nondegree seeking) student; Credit is allowed for only EST 465, 565 or 598 (Statistical Process Control)   |
| EST     | 580         | Practicum                   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student OR Fulton Schools of Engineering senior student with minimum 3.00 ASU GPA |
| EST     | 584         | Internship                  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Engineering Programs | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student OR Fulton Schools of Engineering senior student with minimum 3.00 ASU GPA |
| EST     | 590         | Reading and Conference      | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Engineering Programs | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student OR Fulton Schools of Engineering senior student with minimum 3.00 ASU GPA |
| EST     | 591         | Seminar                     | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 1-12  |                 | Pre-requisites: MS in Technology graduate student  |
| EST     | 592         | Research                    | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Engineering Programs | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student OR Fulton Schools of Engineering senior student with minimum 3.00 ASU GPA |
| EST     | 593         | Applied Project             | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Engineering Programs | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student OR Fulton Schools of Engineering senior student with minimum 3.00 ASU GPA |
| EST     | 594         | Conference and Workshop     | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student OR Fulton Schools of Engineering senior student with minimum 3.00 ASU GPA |
| EST     | 595         | Continuing Registration     | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering | Engineering Programs | 1     |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student OR Fulton Schools of Engineering senior student with minimum 3.00 ASU GPA |

| EST     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Ira A. Fulton Engineering    | Engineering Programs                             | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student OR Fulton Schools of Engineering senior student with minimum 3.00 ASU GPA   |
| ETH     | 100         | Ethnic and Indigenous Lives  | Undertakes an introductory comparative analysis of ethnic groups to understand cultural diversity within the United States.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | SB & C          |  |
| ETH     | 194         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 1-4   |                 |  |
| ETH     | 300         | Principles of Ethnic Studies   | Familiarizes students with a range of analytical and theoretical frameworks in the field of ethnic studies.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | C               |  |
| ETH     | 310         | Critical Research Methods  | Examines methodological approaches common to programs in such disciplines as American Studies, Ethnic Studies, and Women's Studies. Critical qualitative, historical, archival, and feminist methodological approaches to the study of diverse United States populations comprise the focus of this course.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | SB              | Pre-requisite: Minimum 40 hours  |
| ETH     | 334         | The American Southwest in Literature and Film                          | Evaluates literary texts and films addressing the diverse literatures and cultures of the American Southwest.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | (L or HU) & C   | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only AMS 336 or ENG 334 or ETH 334   |
| ETH     | 353         | African American Literature: Beginnings through the Harlem Renaissance | Focuses on the history of African American literature through the Harlem Renaissance, as exemplified in selected slave narratives, poems, and fiction.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | (L or HU) & C   | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only AFR 353 (or AFH 353) or AMS 353 or ENG 353 or ETH 353   |
| ETH     | 354         | African American Literature: Harlem Renaissance to the Present         | Examines the literary productions of African Americans from the Harlem Renaissance (about 1920) to the present focusing on fiction, poetry, drama, and essays.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | (L or HU) & C   | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only AFR 354 (or AFH 354) or AMS 354 or ENG 354 or ETH 354   |
| ETH     | 380         | Race, Gender, and Class  | In-depth examination of how social inequalities are reproduced and perpetuated. Explores the intersections of race, class and gender in culture and society.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | SB & C          | Prerequisite(s): WST 100 or WST 300 or minimum 30 hours; Credit is allowed for only AMS 380 or ETH 380 or WST 380  |
| ETH     | 394         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 1-4   |                 |  |
| ETH     | 428         | Chicano Cultures in the Southwest                                      | Examines the history and cultures of people of Mexican descent in the Southwestern region of the United States through exploration of "cultural citizenship" and "belonging" as they relate to the pursuit of civil rights, equality, justice and cultural production.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | SB              | Prerequisite(s): ENG 102 or 105 or 108 with C or better; Credit is allowed for only AMS 428 or ETH 428 or LAS 428 or MAS 598 (Chicano Cultures in Southwest)   |
| ETH     | 430         | Gender on the Borderlands  | Examines women's status in the U.S.-Mexico borderlands through key issues such as migration, labor, violence, education, and culture.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | SB & G          | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 24 hours OR WST 100 or 300 with C or better; Credit is allowed for only ETH 430 or LAS 430 or WST 430 or JHR 598 (Gender on the Borderlands)                                   |
| ETH     | 449         | Hate Speech, Manifestos, and Radical Writings                          | Examines writings, speeches and texts that provoke radical or even revolutionary social change. At its core, this course asks: What is the radical and what does it do? How do radical writings function as texts, speech acts, inspirational documents, testimonies, accounts of madness, frightening moments, calls to arms, peacekeeping entities or speaking truth to power? Examines injurious speech and provocative writings that span a range of social movements and topics, including radical feminism, radical queer, Black power, indigenous rights, art and performance, anti-technology, animal rights, violence, madness and revolutionary resistance.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | SB & C          | Prerequisite(s): minimum 35 hours; minimum 2.50 GPA; Credit is allowed for only AMS 449 or ETH 449 or LAS 449 or WST 394 (Hate Speech and Manifestos)  |
| ETH     | 450         | Latina/os, Schooling and Social Inequality                             | Advanced interdisciplinary understanding of the issues facing Chicano, Mexican American and Latino communities in relation to K-16 schooling in the southwestern United States. Examines various schools of thought that have shaped social discourse and policies, develops a critical perspective on the social and political issues affecting education, and identifies issues--both historical and contemporary--affecting Chicanos in public education.  | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | C               | Prerequisite(s): minimum 45 hours; Credit is allowed for only AMS 450 or ETH 450 or LAS 450 or AMS 429 (Latino/a School & Social Inequity)   |
| ETH     | 469         | Abject Bodies and the Politics of Trash                                | Examines the possibilities inherent in "theorizing from the gutter"; looking at the world not from a lofty "Ivory Tower" but from the slime, the muck, the dumpster, the trash heap, the wasteland, the discarded and the downtrodden. Takes its theoretical framework from a radical 1960s manifesto called SCUM Manifesto by Valerie Solanas and from the French feminist philosophies of Julia Kristeva, who theorized the abject as a relationship with the grotesque that reveals the deep-seated fear of death. Uses these theoretical positions to examine trash, both abstractly and literally. Works through a variety of concepts ranging from actual trash, garbage, waste, toxic sludge, pollution and dirt, and tackles more abstract notions of trash such as the knowledge produced on the fringe in circuses, amusement parks, "trailer trash" zones, freak shows and the bodies of those marked as "Other" or different. | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | SB & C          | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 36 hours; Credit is allowed for only AMS 469 or ETH 469 or WST 469 or WST 494 (Trash, Freaks and SCUM) or JHR 598 (Trash, Freaks and SCUM) or MAS 598 (Trash, Freaks and SCUM) |

|---------|-------------|-----------------------------|---|-------------------|-------------------|-----------------|---------------|--|-------------------------|-------|-----------------|--|
| EVO     | 590         | Reading and Conference      | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 591         | Seminar                     | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 592         | Research                    | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 593         | Applied Project             | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | PRA               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 594         | Conference and Workshop     | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 595         | Continuing Registration     | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | N                 | RSC               | Y               | Z3            | The College of Liberal Arts and Sciences | School of Life Sciences | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 598         | Special Topics              | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 599         | Thesis                      | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 600         | Research Methods            | Course on research methods in a specific discipline.  | Y                 | RSC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 601         | Principles of Evolution     | Introductory course for graduate students; covers the principles of evolutionary biology from theoretical, empirical, and historical perspectives.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 610         | Research Areas of Evolution | Broadly conceived description of the current research areas of evolutionary biology. Expected of all first-year evolution students.   | N                 | SEM               | Y               | YGB           | The College of Liberal Arts and Sciences | School of Life Sciences | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 680         | Practicum                   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 683         | Fieldwork                   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 684         | Internship                  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 690         | Reading and Conference      | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 691         | Seminar                     | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 692         | Research                    | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 693         | Applied Project             | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | PRA               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 695         | Continuing Registration     | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | N                 | RSC               | Y               | Z3            | The College of Liberal Arts and Sciences | School of Life Sciences | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 700         | Research Methods            | Course on research methods in a specific discipline.  | Y                 | RSC               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 780         | Practicum                   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 783         | Fieldwork                   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 784         | Internship                  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 790         | Reading and Conference      | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 791         | Seminar                     | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | The College of Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |

| EVO     | 799         | Dissertation  | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | The College of Liberal Arts and Sciences | School of Life Sciences     | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                    |
| EXW     | 100         | Introduction to Health and Wellness                                 | Current concepts in health, exercise, and wellness. Emphasizes personal health, theories, attitudes, beliefs, and behaviors.   | N                 | LEC               | N               | OPT           | College of Health Solutions              | College of Health Solutions | 3     | SB              | Credit is allowed for only EXW, HSC or KIN 100  |
| EXW     | 101         | Foundations in Exercise Science and Wellness                        | Student-centered instructional course designed to excite and propel the student into the development of a successful academic and professional career path in the field of exercise science and wellness. Presents a general overview of the career opportunities for students in the field with group and individual assignments that enable students to more thoroughly explore options related to their goals. Divided into 3 major sections: academic preparation, professional development and career exploration. Helps students develop their own individual blueprint for accomplishing their professional goals and understand the skills they need to develop along the way to be successful.                      | N                 | LEC               | N               | GNA           | College of Health Solutions              | College of Health Solutions | 3     |                 | Credit is allowed for only EXW 101 or EXW 290 or EXW 300  |
| EXW     | 102         | Principles and Foundations of Health Education and Health Promotion | Designed for students who anticipate working as a health educator in clinical, governmental, worksite/corporate, research-based, or other professional settings. Students gain an understanding of the selected historical, cultural, philosophical, professional and ethical issues in the practice of health education.  | N                 | LEC               | N               | GNA           | College of Health Solutions              | College of Health Solutions | 3     |                 |   |
| EXW     | 194         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions              | College of Health Solutions | 1-4   |                 |   |
| EXW     | 214         | Flexibility Instructional Competency Laboratory                     | Science and methods of instruction related to flexibility exercises and activities.  | N                 | LEC               | N               | OPT           | College of Health Solutions              | College of Health Solutions | 2     |                 | Prerequisite(s): Exercise and Wellness major or enrolled in Personal Fitness Training certificate |
| EXW     | 216         | Muscular Strength Instructional Competency Laboratory               | Science and methods of instruction related to resistance training and muscular strength activities.  | N                 | LEC               | N               | OPT           | College of Health Solutions              | College of Health Solutions | 2     |                 | Prerequisite(s): Exercise and Wellness major or enrolled in Personal Fitness Training certificate |
| EXW     | 218         | Cardiovascular Instructional Competency Laboratory                  | Science and methods of instruction for cardiovascular exercise and fitness activities.   | N                 | LEC               | N               | OPT           | College of Health Solutions              | College of Health Solutions | 2     |                 | Prerequisite(s): Exercise and Wellness major or enrolled in Personal Fitness Training certificate |
| EXW     | 284         | Exercise and Wellness PreInternship                                 | Professional development course designed to help students prepare for their respective senior-year internships and post-graduate career fields, while developing and enhancing professional practice skills. Students engage in individual assessment and group learning with student peers through activities such as required readings and self assessments, career-related exploration assignments and networking. Utilizes on-campus resources, such as Career Services and the Writing Center, for support and assistance with course work and assignments. Focuses on developing long-term professional and interpersonal competencies career preparation, professional self marketing, and workplace professionalism. | N                 | LEC               | N               | YGB           | College of Health Solutions              | College of Health Solutions | 1     |                 | Prerequisite(s): minimum 75 hours   |
| EXW     | 294         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions              | College of Health Solutions | 1-4   |                 |   |
| EXW     | 302         | Fundamentals of Wellness  | Overview of fundamental health, exercise and wellness concepts. Emphasizes personal wellness assessment and application.   | N                 | LEC               | N               | OPT           | College of Health Solutions              | College of Health Solutions | 3     | L               |   |
| EXW     | 303         | Human Sexuality for Health Education                                | Provides preprofessional primary/secondary teachers and health education specialists with knowledge of the physiological, psychological and social aspects of human sexuality for health education. Provides content knowledge and curriculum development strategies to support educators in creating human sexuality curriculum for school and community health settings.   | N                 | LEC               | N               | GNA           | College of Health Solutions              | College of Health Solutions | 3     |                 | Prerequisite(s): minimum 45 hours   |
| EXW     | 312         | HIV/AIDS Prevention   | Provides an introductory, nontechnical examination of the HIV/AIDS epidemic and HIV/AIDS, examining biological, social, epidemiology, prevention, history, compassion, legal issues, testing and societal implications of acquired immunodeficiency syndrome (AIDS) and HIV infection. The need for HIV/AIDS education emerges from a comprehensive model of addressing epidemics. Health professionals need to become competent in the delivery of HIV information and prevention planning.   | N                 | LEC               | N               | GNA           | College of Health Solutions              | College of Health Solutions | 1     |                 | Prerequisite(s): minimum 45 hours   |

| EXW     | 315         | Physiological Foundations of Movement              | Studies human movement with emphasis on physiological function of the body in response to physical activity and fitness training.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): BIO 201 with C or better; BIO 202 with C or better; Pre- or corequisite(s): EXW 101 or KIN 101; Corequisite(s): EXW 316 |
| EXW     | 316         | Physiological Foundations of Movement Laboratory   | Investigates theories and methods of exercise physiology in a laboratory and/or applied setting.   | N                 | LAB               | N               | GNA           | College of Health Solutions | College of Health Solutions | 1     |                 | Prerequisite(s): BIO 201 with C or better; BIO 202 with C or better; Corequisite(s): Exercise and Wellness BS major: EXW 315             |
| EXW     | 320         | Management and Leadership in Exercise and Wellness | Studies management, leadership, legal, ethical, and programmatic theories and applications in fitness and wellness settings.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Pre-requisites: ENG 102, 105 or 108; Minimum 30 hours  |
| EXW     | 321         | Consumer Health                                    | Provides preprofessional primary/secondary educators and community health education specialists with (1) a model for making informed consumer health-related decisions; (2) current information involving consumer related topics, emphasizing necessity of current information for making informed decisions; (3) mechanisms for continued consumer awareness.  | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 1     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 325         | Fitness for Life                                   | Analyzes physical fitness and benefits of exercise with emphasis on application of strategies for fitness and wellness evaluation, behavior change, and lifelong program planning.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Pre-requisites: ENG 101; Minimum 30 hours  |
| EXW     | 330         | Kinesiological Foundations of Movement             | Study and consideration of human movement with emphasis on kinesiology principles and their application to movement and fitness.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 4     |                 | Prerequisite(s): BIO 201 with C or better; Pre- or corequisite(s): EXW 101 or KIN 101  |
| EXW     | 331         | Violence Prevention                                | Examines violence prevention strategies and violence prevention content. Examines the literature to understand principles for use in the development of violence prevention curriculum in school and community settings.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 1     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 335         | Physical Activity and Fitness Concepts             | Topics are designed for the physical activity and health education professional and focus on application of basic exercise physiology and nutritional concepts in the design and implementation of exercise and physical activity programs to increase physical function and improve health risk factors.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 340         | Health Behavior Theory                             | Focuses on health behavior change theories and concepts that are necessary for planning, implementing and evaluating health education and health promotion programs.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): PSY 101 (or PGS 101); minimum 45 hours  |
| EXW     | 341         | Health Education Methods for Injury Prevention     | Explores specific strategies for injury prevention. Examines principles for the development of school and community health curriculum that address injury prevention in various areas such as home safety, fire safety, personal protection, responding to emergencies, firearm safety, motor vehicle safety, occupational safety, recreational safety, school safety and related issues.  | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 1     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 342         | Health Behavior Change                             | Examines major theories of health behavioral change. Develops intervention strategies and techniques employed to facilitate health behavioral change.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Pre-requisites: PSY 101 (PGS 101); minimum hours 45  |
| EXW     | 344         | Physical Activity in Health and Disease            | Examines the role of physical activity and fitness in the development of morbidity and mortality throughout the human life span.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 348         | Methods of Health Education                        | Intended for the pre-professional health educator to learn how to develop sound, effective, and appropriate presentation methods to create learning experiences that facilitate voluntary changes leading to health-enhancing behaviors. Focuses on the knowledge and skills necessary to understand learning and the diverse learner; structure the learning environment; develop appropriate behavioral learning objectives; select appropriate instructional methods; and develop quality lesson, presentation, and unit plans with sound strategies for evaluating learning. | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 350         | Substance Abuse and Addictive Behavior             | In depth study of the pharmacology and effects of addictive substances and the psychosocial risk factors and consequences of substance abuse.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): BIO 201; PSY 101 (or PGS 101); Pre- or corequisite(s): BIO 202  |
| EXW     | 351         | Substance Abuse Prevention                         | Prepares preprofessional primary/secondary school and community health educators to prepare and deliver substance abuse prevention education and programming.  | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 1     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 361         | Social Media and Marketing in Health Education     | Develops competence in technologies using social media that support and promote health education. Intended for preprofessional, primary/secondary teachers and community health education specialists to learn how to create and apply health-related social marketing messages and strategies to information systems that facilitate health education and health promotion.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 1     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 371         | Conflict Management and Mediation                  | Covers conflict resolution and methods of preventing, managing and resolving conflict. Prepares students to address conflict, deal effectively with difficult people and incorporate effective conflict management and mediation strategies in various interdisciplinary settings within the classroom and community.  | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 1     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 380         | Body Image and Wellness                            | Explores body image in American culture from physical, psychological, historical, and societal perspectives.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): PSY 101 with C or better; minimum 30 hours  |
| EXW     | 394         | Special Topics                                     | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | College of Health Solutions | 1-4   |                 |  |
| EXW     | 400         | Stress Management for Wellness                     | Examines the stress response and management from a behavioral perspective as it pertains to individuals or groups.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): PSY 101; minimum 60 hours   |

| EXW     | 412         | Pediatric Obesity                                    | Covers a variety of aspects related to pediatric obesity including the causes and consequences in terms of physiologic, genetic, psychosocial, environmental and economic. Also discusses potential interventions such as behavioral, pharmacologic, surgical and public health and policy. Evidenced-based course where research guides class lectures and discussions.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): EXW 315 or KIN 340; Credit is allowed for only EXW 412 or KIN 446 or EXW 494 (Pediatric Obesity) or KIN 494 (Pediatric Obesity)                                 |
| EXW     | 420         | Exercise Testing                                     | Theoretical basis and practical application of pre-exercise screening, exercise testing, estimates of energy expenditure, and interpretation of results.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 4     |                 | Prerequisite(s): EXW 214 with C or better; EXW 216 with C or better; EXW 218 with C or better; EXW 315 with C or better; EXW 316 with C or better; EXW 330 with C or better      |
| EXW     | 425         | Exercise Prescription                                | Theoretical basis for and application of general principles of exercise prescription to various ages, fitness levels, and health states.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): EXW 420 with C or better  |
| EXW     | 434         | Sports Movement and Conditioning                     | Applied course covering advanced fitness, speed development and movement techniques. Information applies to professionals working with individuals in whom a major goal of their physical activity program is to maximize human performance potential either for personal fitness goals or success in specific sports or for applications in occupational athletes (military, fire and police). Guides students in development of techniques and skills critical to safe, effective and motivating instruction of advanced speed, agility and conditioning exercises and programs for varying individuals and teams. | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): EXW 216; minimum 75 hours; Pre- or corequisite(s): EXW 315; EXW 330; Credit is allowed for only EXW 434 or EXW 494 (Sports and Fitness Conditioning) or EXW 534 |
| EXW     | 443         | Emotional Health and Interpersonal Relationships     | Explores factors associated with the development of emotional health and well being. Emphasizes pre-professional primary/secondary teachers and health education specialists teaching and promoting emotional health within a school or community setting. Encourages pre-professional primary/secondary teachers and health education specialists to deepen their commitment to effective curriculum principles related to emotional health.  | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 444         | Epidemiology   | Introduces epidemiological concepts and prepares the student to read, comprehend, and report epidemiological research.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): any CS statistics course with C or better   |
| EXW     | 446         | Health Promotion and Program Evaluation              | Applies theory-based concepts and methods of health promotion and program evaluation.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Pre- or corequisite(s): EXW 101 or 102 (or EXW 290 or 300) with C or better if completed; EXW 340, 342, or 394 (Health Behavior Theory) with C or better if completed            |
| EXW     | 448         | Foundations of School Health Education               | Explores various special topics for the school and community health educator including the CDC's Division of Adolescent and School Health, the School Health Index, the Health Education Curriculum Analysis Tool, and the Coordinated School Health Approach.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 2     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 450         | Social Determinants of Health and Health Behavior    | Examines the social determinants (e.g., early childhood, family, schools, worksites, built and food environments, and socio-economic status) of health and health behavior, particularly physical activity behavior and eating.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     | (L or SB) & C   | Prerequisite(s): minimum 60 hours  |
| EXW     | 452         | Health Advocacy in Health Education                  | Links advocacy for individual patients/consumers (patient advocacy) with advocacy for groups of patients/consumers (policy advocacy). Identifies and explores specific skills needed by community health educators, pre-professional primary/secondary health teachers and health education specialists for developing a practice of advocacy in their work. Methods, techniques and resources used in advocating in health promotion.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 454         | Health Promotion Program Planning and Implementation | Applies theory-based concepts and methods of health promotion (HP). Covers selected topics in HP across a variety of domains of health. Program planning concepts include the use of planning frameworks, needs assessments, and the use of theory in health promotion program planning. Also covers practical issues related to health promotion program implementation such as resource management and program marketing.  | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): EXW 101 or 102 (or EXW 290 or 300) with C or better; EXW 340 or 342 or 394 (Health Behavior Theory) with C or better  |
| EXW     | 456         | Health Promotion Program Evaluation                  | Covers program evaluation concepts including how to plan an evaluation, how to analyze and interpret data, and how to report evaluation results. Students learn a basic framework for conducting a program evaluation, various research/evaluation designs, and data analysis and statistics. Topics are covered in enough detail so that the student may understand how inferences are made regarding program evaluation.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Pre- or corequisite(s): EXW 454  |

| EXW     | 460         | Resistance Training Application and Theory                     | Fosters critical thinking as it applies to resistance training theory.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): EXW 216 with C or better; EXW 315 with C or better; Credit is allowed for only EXW 460 or EXW 530 or EXW 598 (Resistance Training Application and Theory) or EXW 598 (Theory of Strength Training)                                       |
| EXW     | 466         | Health Promotion Program Management and Administration         | Uses team and individual processes to build knowledge and skills for managing and administering health education/promotion programs. Emphasizes management perspectives, professional skill development and demonstrating leadership; performing team collaboration roles; managing human and financial program resources; and developing collaborative research. Aligned with specific competencies and objectives required for Certified Health Education Specialists (CHES) offered by the National Commission for Health Education Credentialing (NCHEC). | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): minimum 45 hours   |
| EXW     | 476         | Community Health   | Applies major concepts of community health. Focuses on populations, settings and social issues related to community health. Basics of epidemiology, disease prevention, and health promotion. Explores community health concepts related to organizing and building community coalitions and health programs. Also explores school health, maternal, infant and child health, minority health, and environmental influences on community health.  | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): EXW 101 or 102 (or EXW 290 or 300) with C or better; EXW 340 or 342 or 394 (Health Behavior Theory) with C or better; Pre- or corequisite(s): EXW 446 or 456 with C or better  |
| EXW     | 484         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | GNA           | College of Health Solutions | College of Health Solutions | 1-12  |                 | Prerequisite(s) with C or better: Exercise & Wellness major: EXW 420; EXW 425; min 2.00 GPA OR Health Promotion major: EXW 284; EXW 315 or 335; EXW 446; min 2.00 GPA OR Health Education & Health Promotion major: EXW 284; EXW 436 or 476; min 2.00 GPA |
| EXW     | 486         | Applied Projects in Health Education and Health Promotion      | Provides an opportunity for a structured, applied project in the field of study or major. Requires students to develop and submit an original proposal for their applied project. Students must obtain instructor approval for the project well in advance of regular registration. During the course, students independently develop and/or implement the approved project with faculty supervision.   | Y                 | PRA               | Y               | GNA           | College of Health Solutions | College of Health Solutions | 1-6   |                 | Prerequisite(s): EXW 284; EXW 476   |
| EXW     | 492         | Honors Directed Study  | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | College of Health Solutions | College of Health Solutions | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| EXW     | 493         | Honors Thesis  | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | College of Health Solutions | College of Health Solutions | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| EXW     | 494         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | College of Health Solutions | 1-4   |                 |   |
| EXW     | 499         | Individualized Instruction                                     | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | LEC               | Y               | Z1            | College of Health Solutions | College of Health Solutions | 1-3   |                 |   |
| EXW     | 500         | Research Methods   | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | College of Health Solutions | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 501         | Research Statistics  | Statistical procedures; sampling techniques, hypothesis testing, and experimental designs as they relate to research publications.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 530         | Theory and Application of Resistance Training                  | Critical analysis of the theories and mechanisms of resistance training with application for the development of resistance training programs for a variety of populations and outcomes.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only EXW 460 or EXW 530 or EXW 598 (Resistance Training Application and Theory) or EXW 598 (Theory of Strength Training)  |
| EXW     | 534         | Sports and Fitness Conditioning                                | Bases of sports and fitness conditioning, including aerobic and anaerobic power, strength, flexibility, and analysis of conditioning components for sports and fitness.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only EXW 434 or EXW 494 (Sports and Fitness Conditioning) or EXW 534  |
| EXW     | 535         | Advanced Exercise Assessment and Prescription                  | Theory and practice of laboratory methods in applied exercise physiology. Procedures for assessment and prescription for individuals with chronic disease.  | N                 | LEL               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 536         | Physiological Aspects of Physical Activity and Chronic Disease | Role of physiological mechanisms associated with acute and long-term physical activity and its influence on chronic disease and wellness.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 538         | Obesity, Exercise and Health                                   | Critically examines scientific and medical evidence concerning obesity, exercise, and health across the life span.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

## ASU Course Catalog Archive - Spring 2019

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                  | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|-----------------------------|-----------------------------|-------|-----------------|---|
| EXW     | 540         | Mindfulness, Stress and Health   | Overview of the theory, measurement, research and efficacy of mindful awareness practices and programs on stress reduction, health outcomes and health behavior. Includes an experiential learning component focused on practices and content consistent with mindfulness-based stress reduction.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only EXW 540 or EXW 598 (Mindfulness Stress and Health) |
| EXW     | 542         | Health Promotion   | Theory and research concerning fitness and wellness programs in nutrition, physical activity, smoking cessation, and stress management.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 544         | Fitness/Wellness Management  | Development of the fitness/wellness industry. Planning, organizing, promoting, and managing fitness/wellness programs.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 554         | Planning and Implementation in Health Promotion                                    | Covers selected topics in health promotion across a variety of domains of health. Program planning concepts include the application of planning frameworks, needs assessments, and theory in health promotion program planning and development. Also focuses on practical issues related to health promotion program implementation such as implementation planning, resource management and program marketing. Also covers process evaluation and quality improvement strategies.  | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 556         | Program Evaluation in Health Promotion   | Comprehensive and systematic introduction to the key concepts and methodologies of program evaluation, specifically related to health programs. Discusses approaches to program evaluation in relation to the program's stage of development, resources and informational needs for decision-making. Focus includes program evaluation literature related to physical activity and nutrition.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only EXW 556 or EXW 598 (Program Evaluation)            |
| EXW     | 560         | Cardiopulmonary Rehabilitation   | Exercise testing and prescription for cardiac and pulmonary patients as well as pharmacology, electrocardiography, pathophysiology of chronic diseases, and leadership of patients in cardiac rehabilitation and pulmonary rehabilitation programs.   | N                 | LEL               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 562         | Functional Assessment and Exercise Prescription for Older Adults                   | Assessment of functional capacity and prescription of exercise that is appropriate for older adults including healthy, frail, diseased and very old.  | N                 | LEL               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): MS Clinical Exercise Physiology or Exercise and Wellness major   |
| EXW     | 564         | Aging and Lifestyle Behaviors  | Provides an overview of health behaviors in older adults. Centers on the perceptions and behaviors of older adults in reference to illness prevention, health promotion and reactions to acute and chronic illness and the context in which these behaviors occur. Specifically examines the psychological, familial, cultural and contextual factors which influence older adults' personal health practices and illness behaviors. Considers the older person as an individual in a complex system, engaged in decision making and his/her subsequent actions to maintain or improve health status. Solidifies concepts through the use of in-class case studies and discussions. | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Pre-requisite: EXW 542  |
| EXW     | 565         | Cardiovascular and Pulmonary Physiology  | In-depth study of the physiology of exercise with special regard to cardiovascular and pulmonary responses in healthy and chronically diseased individuals.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Clinical Exercise Physiology MS students  |
| EXW     | 568         | Management and Treatment of Chronic Disease for the Clinical Exercise Physiologist | Investigates the physiology, pathophysiology and treatment options for a variety of diseases that the clinical exercise physiologist routinely encounters in the work environment. Prepares students to qualify for ACSM Clinical Exercise Physiologist certification.  | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Pre-requisite: EXW 560  |
| EXW     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | College of Health Solutions | College of Health Solutions | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 590         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | College of Health Solutions | College of Health Solutions | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | College of Health Solutions | College of Health Solutions | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | College of Health Solutions | College of Health Solutions | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 593         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | College of Health Solutions | College of Health Solutions | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 595         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | College of Health Solutions | College of Health Solutions | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 597         | Capstone Project   | For non-thesis students in the MS degree program to provide a culminating field experience or non-research project for students to apply the coursework and healthy aging concepts.   | N                 | RSC               | N               | YGB           | College of Health Solutions | College of Health Solutions | 1-12  |                 | Prerequisite(s): EXW 500; EXW 501; EXW 536; EXW 542; EXW 591  |
| EXW     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | College of Health Solutions | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|--|--|-------|-----------------|---|
| EXW     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | College of Health Solutions              | College of Health Solutions                  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 635         | Physical Activity and Aging                    | Examines and discusses the theoretical and applied health-related research on physical activity and aging.  | N                 | LEC               | N               | OPT           | College of Health Solutions              | College of Health Solutions                  | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 640         | Analysis of Variance for Exercise and Wellness | Analyzes variance methods with an emphasis on research measures of human performance.   | N                 | LEC               | N               | OPT           | College of Health Solutions              | College of Health Solutions                  | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 641         | Qualitative Research Methods                   | Introductory overview of qualitative research methods frequently used in education and health. Emphasizes analysis of research and practical application.   | N                 | LEC               | N               | OPT           | College of Health Solutions              | College of Health Solutions                  | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 642         | Exercise Epidemiology                          | Physical activity, exercise, and physical fitness and the development of chronic disease.   | N                 | LEC               | N               | OPT           | College of Health Solutions              | College of Health Solutions                  | 3     |                 | Prerequisite(s): EXW 500 with C or better; EXW 501 with C or better   |
| EXW     | 643         | Correlation/Regression/Multivariate Statistics | Graduate-level statistics course for PhD/master's students who will be doing research in the area of exercise and wellness.   | N                 | LEC               | N               | OPT           | College of Health Solutions              | College of Health Solutions                  | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 645         | Advanced Applied Methods and Data Analysis     | Heavily applied focus on implementing research methods and statistical modeling techniques in the health promotion sciences. Addresses practical issues in specifying, interpreting and presenting research findings using appropriate statistical techniques. Addresses reporting standards (e.g., CONSORT, STROBE, PRISMA) and practical issues related to manuscript submission. Covers analytical methods including multiple regression and logistic regression, ANOVA, mediation and moderation, exploratory factor analysis, multilevel models for hierarchical data and intensive longitudinal data, basic time-to-event analyses (i.e., survival), and meta-analysis; also remains flexible to address critical and emerging methodologies in the health promotion sciences. Covers statistical methods in a conceptual nature with a focus on the use of statistical software packages (primarily SPSS) and interpretation of outputs. | N                 | LEC               | N               | OPT           | College of Health Solutions              | College of Health Solutions                  | 3     |                 | Prerequisite(s): EXW 640, 643   |
| EXW     | 655         | Physical Activity and Public Health            | In-depth analysis of the role of physical inactivity as a public health problem and public health approaches to the study and practice of increasing physical activity. Includes analysis of public health strategies for increasing physical activity at the community, national and international levels.   | N                 | LEC               | N               | GNA           | College of Health Solutions              | College of Health Solutions                  | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only EXW 655 or EXW 598 (Pa Pub Health) |

| FAS     | 494         | Special Topics                                       | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences             | School of Social and Behavioral Sciences     | 1-4   |                 |  |
| FAS     | 497         | Honors Colloquium                                    | A class emphasizing discussion, written and/or oral presentation by students, and active participation.  | N                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| FAS     | 498         | Pro-Seminar  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.   | Y                 | LEC               | Y               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-7   |                 |  |
| FAS     | 499         | Individualized Instruction                           | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.  | Y                 | RSC               | Y               | Z1            | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-3   |                 |  |
| FAS     | 499         | Individualized Instruction                           | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.  | Y                 | RSC               | Y               | Z1            | New Interdis Arts & Sciences             | School of Social and Behavioral Sciences     | 1-3   |                 |  |
| FAS     | 500         | Research Methods                                     | Course on research methods in a specific discipline.   | Y                 | LEL               | Y               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FAS     | 503         | Academic Professional Development                    | Becoming and working as a academic, including how to write a vita, choose a thesis topic, or find dissertation data.   | N                 | REC               | N               | GNA           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FAS     | 505         | Applied Regression Analysis                          | Multiple linear regression topics relevant to social science data analysis. Computer applications.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only FAS or SOC 505  |
| FAS     | 507         | Categorical Data Analysis                            | Logistic regression and related topics relevant to categorical data analysis in social sciences. Computer applications.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only FAS or SOC 507  |
| FAS     | 508         | Structural Equation Analysis for the Social Sciences | Theory and application of structural equation modeling. Path analysis and latent variable models such as CFA, multiple group analysis and models for longitudinal data. Projects involve conducting analyses and writing results.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only FAS or SOC 508  |
| FAS     | 509         | Event History Analysis                               | Proportional hazards models and other methods for analyzing longitudinal data and establishing hazard rates of events for exploratory variables.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only FAS or SOC 509  |
| FAS     | 510         | Bayesian Analyses in the Social Sciences             | Discusses principles and practices of Bayesian approaches to statistical inference and modeling. Topics include: philosophical underpinnings of Bayesian inference; associated interpretations of probability; univariate and multivariate models prevalent in the social sciences; Markov chain Monte Carlo estimation; data-model fit; model comparisons procedures; missing data analyses. Course consists of lectures, demonstrations of software, reading assignments, homework assignments and a project. Exposes students to key concepts in Bayesian methods and gains technical foundations necessary to be consumers and contributors to applied and methodological research. Assumes previous knowledge of statistics through multiple regression, and recommends additional topics: multivariate statistics, latent variable modeling, probability theory. | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CDE 591 (Bayesian Analyses in the Social Sciences) or CDE 591 (Introduction to Bayesian Analyses) or FAS 510 or SOS 510 |
| FAS     | 512         | Secondary Data Anlysis                               | Works with existing data to produce a publishable article.   | N                 | SEM               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only FAS or SOC 512  |
| FAS     | 531         | Theoretical Issues in Family Sciences                | Historical and current approaches to theory development, evaluation, and application in family studies.  | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FAS     | 539         | Research Issues in Family Interaction                | Critical review of current and past research in the area of family dynamics. Emphasizes interactional processes within the family.   | N                 | LEC               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FAS     | 570         | Introduction to Marriage and Family Therapy          | Introduces major marriage and family therapy orientations. Reviews history, theory, application, and outcome research for each orientation.  | N                 | SEM               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-MFT student   |
| FAS     | 571         | Assessment in Marriage and Family Therapy            | Assessment and outcome evaluation of couples and families involved in marital and family therapy.  | N                 | SEM               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-MFT student   |
| FAS     | 572         | Advanced Techniques in Marriage and Family Therapy   | In-depth review of assumptions and advanced techniques associated with contemporary marriage and family therapy approaches.  | N                 | SEM               | N               | OPT           | The College of Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-MFT student   |
