## Course Catalog Archive

### 2018-2019

This document provides an archival record of the course catalog offered during the 2018-2019 academic year. It is a printable option of the online course catalog for accreditation organizations, agencies and university offices for data collection, evaluation purposes and referencing. The courses presented in this archive may no longer be offered. For current course information and offerings, refer to the online version of the course catalog.

# Classification of Courses

---

## course numbering system

### Lower-Division Courses

Lower-division courses, numbered from 100 to 299, are designed primarily for freshmen and sophomores. Certain classes are closed to freshmen who lack the designated prerequisites or whose majors are outside the units offering the courses. This information is available in the course catalog [1] or from the student's academic advisor.

### Upper-Division Courses

Upper-division courses, numbered from 300 to 499, are designed primarily for juniors and seniors. Prerequisites and other restrictions should be noted before registration. Courses at the 400 level apply to graduate degree requirements for some graduate programs when approved by the Graduate College.

### Graduate-Level Courses

Graduate-level courses, numbered from 500 to 799, are designed primarily for graduate students. However, an upper-division undergraduate student may enroll in courses numbered 500-599 with the approval of the student's advisor, course instructor, department chair and dean of the college in which a course is offered. If such a course does not meet an undergraduate graduation requirement, it may be eligible for use in a future graduate program on the same basis as work taken by a nondegree graduate student. See graduate credits earned by undergraduate students [2].

### Omnibus Courses

Omnibus numbers are used for courses offered on an experimental or tutorial basis or for courses in which the content is new or periodically changes. Academic units use their prefixes with omnibus course numbers. The general nature of the work required for a particular omnibus course is consistent from unit to unit, but subject matter varies. Omnibus courses are often offered for a variable number of credit hours.

Within the academic catalog and course catalog, abbreviations are frequently used with a colon to introduce specific omnibus course topics (e.g., MGT 494 ST: Cultural Factors in International Business). See the omnibus course abbreviations.

## Omnibus Course Abbreviations

| Abbreviation | Title                   | Number                  |
|--------------|-------------------------|-------------------------|
| AP           | Applied Project         | 593, 693, 793           |
| CW           | Conference and Workshop | 594                     |
| FW           | Fieldwork               | 583, 683, 783           |
| FYS          | First-Year Seminar      | 191                     |
| HC           | Honors Colloquium       | 497                     |
| I            | Internship              | 484, 584, 684, 784      |
| P            | Practicum               | 580, 680, 780           |
| PS           | Pro-Seminar             | 498                     |
| R            | Research                | 592, 692, 792           |
| RC           | Reading and Conference  | 590, 690, 790           |
| RM           | Research Methods        | 500, 600, 700           |
| S            | Seminar                 | 591, 691, 791           |
| ST           | Special Topics          | 194, 294, 394, 494, 598 |

## Omnibus Undergraduate Courses

### **191 First-Year Seminar (1–3)**

Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.

### **194, 294, 394, 494 Special Topics (1–4)**

Covers topics of immediate or special interest to a faculty member and students.

### **484 Internship (1–12)**

Structured practical experience following a contract or plan, supervised by faculty and practitioners.

### **498 Pro-Seminar (1–7)**

Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.

### **499 Individualized Instruction (1–3)**

Provides an opportunity for original study or investigation in the major or field of specialization, on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. This course may be taken only by outstanding senior students who have completed at least one semester in residence and who have a cumulative GPA of 3.00 or higher in the major or field of specialization. A special class fee may be required.

**Honors Courses** The courses listed as 298 and 492 Honors Directed Study, 493 Honors Thesis, 497 Honors Colloquium, and all courses with the HON prefix are reserved for students in Barrett, the Honors College. These courses range from one to six credit hours. Consulting with an honors advisor before enrolling is recommended.

## Omnibus Graduate Courses

### **500, 600, 700 Research Methods (1–12)**

Course on research methods in a specific discipline.

### **580, 680, 780 Practicum (1–12)**

Structured practical experience in a professional program, supervised by a practitioner or faculty member with whom the student works closely.

### **583, 683, 783 Fieldwork (1–12)**

Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.

### **584, 684, 784 Internship (1–12)**

Structured practical experience that follows a contract or plan, supervised by faculty and practitioners.

**590, 690, 790 Reading and Conference (1–12)**

Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic or writing a literature review of a topic.

**591, 691, 791 Seminar (1–12)**

A small class emphasizing discussion, presentations by students and written research papers.

**592, 692 Research (1–12)**

Independent study that is expected to lead to a specific project such as a thesis or dissertation, report or publication, in which a student conducts research under the supervision of a faculty member. Assignments might include data collection, experimental work, data analysis or preparation of a manuscript.

**593, 693, 793 Applied Project (1–12)**

Preparation of a supervised applied project that is a graduation requirement in some professional majors.

**594 Conference and Workshop (1–12)**

Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.

**595, 695, 795 Continuing Registration (1)**

Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded and no grade is assigned.

**598 Special Topics (1–4)**

Topical courses not offered in regular course rotation (e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand).

**599 Thesis (1–12)**

Supervised research focused on preparation of a thesis, including literature review, research, data collection and analysis, and writing.

**792 Research (1–15)**

Independent study that is expected to lead to a specific project such as a thesis or dissertation, report or publication, in which a student conducts research under the supervision of a faculty member. Assignments might include data collection, experimental work, data analysis or preparation of a manuscript.

**799 Dissertation (1–15)**

Supervised research focused on preparation of a dissertation, including literature review, research, data collection, analysis and writing.

The preceding courses are described in the Graduate College announcements and are also available in the respective departments. Under special circumstances, at the dean's request and through the approval of the executive vice president and provost of the university, arrangements may be made to increase the standard credit hours of credit.

### **Visiting Student Program**

The numbers 597, 697 and 797 in the LAW prefix have been reserved for the visiting student program in the Sandra Day O'Connor College of Law.

### **Study Abroad Programs**

Courses with the prefix SAO are reserved for participants in partnership and exchange study abroad programs through the Study Abroad Office. This is a placeholder course that remains on the student's academic record until the student's record is updated by SAO following the completion of the student's study abroad program. This course will be dropped and will be replaced with the ASU courses, credits, and grades equivalent to the course work completed abroad. Students must register for at least the number of credits equivalent to full-time study at ASU (i.e., 12 credits for undergraduate students and nine credits for graduate students during the fall and spring semesters, or one to six hours during the summer session). Students participating in an SAO partnership program must register for the subtopic "SAO: Study Abroad Program;" participants in an SAO exchange program must register for the subtopic "SAO: Exchange Program." Note: The SAO placeholder course is not an indication of the level of course work or the total number of credits the student may complete abroad.

## **Grades and Grading Policies**

For letter grades and grading policies, please refer to the 2018-2019 Academic Catalog Archive.

## Course Component Descriptions

Each course is composed of one or more components, different instructional modes or meeting types such as labs, studios, lectures and seminars. A course can have more than one component. However, all components must be scheduled. The primary component is always the graded component.

| Course Component                           | Description   |
|--|---|
| <b>Individualized Instruction</b><br>(IND) | This is a class in which an individual student is provided an opportunity for original study or investigation in a major or field of specialization on a more autonomous basis. Normally a contract or plan is used, and the student is supervised by faculty or practitioners.   |
| <b>Integrated Lecture/Lab</b><br>(LEL)     | The integrated lecture/lab is a class that has some lecture and some hands-on components but does not require a separate time like a traditional lab. It is scheduled like a lecture. This is primarily used in educational technology, computer science, technology, and engineering. As per ABOR: "At least fifteen (15) contact hours of recitation, lecture, discussion, testing or evaluation, seminar, or colloquium, as well as a minimum of thirty (30) hours of student homework is required for each unit of credit."   |
| <b>Laboratory</b><br>(LAB)                 | The hands-on, workshop component of a class is usually held in a laboratory. The laboratory time is separate from the lecture although it is often associated to a lecture. This is primarily used in science and engineering. As per ABOR: "Laboratory courses require a minimum of forty-five (45) contact hours per unit of credit."   |
| <b>Lecture</b><br>(LEC)                    | A lecture is the traditional method of instruction in which students are taught a subject by a member of the faculty. As per ABOR: "At least fifteen (15) contact hours of recitation, lecture, discussion, testing or evaluation, seminar, or colloquium, as well as a minimum of thirty (30) hours of student homework is required for each unit of credit."  |
| <b>Practicum</b><br>(PRA)                  | A practicum is structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely. Internships and student teaching fit into this category. These classes are often held off campus at a professional location. The practicum component should also be used for internships and field studies courses. As per ABOR: "Each unit of internship or practicum must require a minimum of forty-five (45) contact hours per unit of credit."   |
| <b>ProMod</b><br>(PRO)                     | In ProMod courses the role of lectures is deemphasized in favor of learning based on projects. The learning is driven by the needs of the project, not by predetermined lecture topics. Students will go where the questions take them, leading to an individualized exploration of the issues at hand.   |
| <b>Recitation</b><br>(REC)                 | A recitation is a small interactional meeting that combines formal presentation, review and interaction between the students and an instructor, and it is usually combined with a lecture as the primary component. Recitations are often lead by teaching assistants (TAs) or graduate assistants (GAs) to supplement a lecture. TAs/GAs will review the lecture, expand on the concepts and usually allow for question-and-answer time. The recitation component should also be used for courses previously categorized as discussion (also known as break-outs). As per ABOR : "At least fifteen (15) contact hours of recitation, lecture, discussion, testing or evaluation, seminar, or colloquium, as well as a minimum of thirty (30) hours of student homework is required for each unit of credit." |

| Course Component         | Description   |
|--------------------------|---|
| <b>Research</b><br>(RSC) | Under the supervision of a faculty member or group of faculty, the student conducts research that is expected to lead to a specific project such as dissertation, thesis, report or publication. Assignments might include data collection, experimental work, data analysis or preparation of a manuscript. This component is appropriate to use for continuing registration, dissertation, thesis, individualized instruction, research, etc. |
| <b>Seminar</b><br>(SEM)  | A seminar is a small class that emphasizes discussion, presentations by students, and written research papers. As per ABOR: "At least fifteen (15) contact hours of recitation, lecture, discussion, testing or evaluation, seminar, or colloquium, as well as a minimum of thirty (30) hours of student homework is required for each unit of credit."   |
| <b>Studio</b><br>(STO)   | The studio is a hands-on workshop component of design and the arts courses. As per ABOR: "Studios must involve at least thirty (30) contact hours and at least fifteen (15) hours of homework for each unit of credit."   |

**ABOR Policy # 2-224 regarding Academic Credit can be found at:**

<https://public.azregents.edu/Policy%20Manual/2-224-Academic%20Credit.pdf>

**ABOR Definition of a Unit of Credit:** An hour of work is the equivalent of 50 minutes of class time (often called a "contact hour") or 60 minutes of independent study work. A minimum of 45 hours of work by each student is required for each unit of credit. Ordinarily, a course must cover a 1-week period for every unit of credit given. During summer sessions, however, 6 units of credit may be given over a 5-week period.

## Grading Basis Descriptions

---

| <b>Grading Option</b> | <b>Grading Basis Description</b>           |
|-----------------------|--|
| <b>ELG</b>            | Enhanced Learning Grading Basis            |
| <b>GNA</b>            | Graded with No Audit                       |
| <b>GRD</b>            | Graded                                     |

Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                        | 1-7   | L               |  |
| AAD     | 499         | Individualized Instruction               | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | Herberger Inst Design & Arts | The Design School                        | 1-3   |                 |  |
| AAD     | 500         | Research Methods                         | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                        | 1-12  |                 | Pre-requisites: Building Design MS student   |
| AAD     | 552         | Architectural Management II              | Organizational, human performance, and market influences on architecture firms and projects. Readings, case studies, and analysis of managerial problems and solutions.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School                        | 3     |                 | Pre-requisites: Building Design MS, Master of Architecture, Master of Urban Design or Master of Landscape Architecture student |
| AAD     | 580         | Practicum                                | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                        | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| AAD     | 584         | Internship                               | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | The Design School                        | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| AAD     | 590         | Reading and Conference                   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School                        | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| AAD     | 591         | Seminar                                  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                        | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| AAD     | 592         | Research                                 | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School                        | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| AAD     | 593         | Applied Project                          | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School                        | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| AAD     | 594         | Conference and Workshop                  | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | PRA               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                        | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| AAD     | 595         | Continuing Registration                  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Herberger Inst Design & Arts | The Design School                        | 1     |                 | Herberger Institute of Design and the Arts Graduate student  |
| AAD     | 598         | Special Topics                           | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                        | 1-4   |                 | Herberger Institute of Design and the Arts Graduate student  |
| AAD     | 599         | Thesis                                   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Herberger Inst Design & Arts | The Design School                        | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| ABS     | 130         | Introduction to Environmental Science    | Introduces the interconnected nature of Earth's hydrosphere, lithosphere (soils and rocks), atmosphere, and biosphere.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts | 4     | SQ              | Credit is allowed for only ABS 130 or BIO 130  |
| ABS     | 194         | Special Topics                           | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | GNA           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts | 1-4   |                 |  |
| ABS     | 207         | Applied Plant Taxonomy                   | Introduces identification of vascular plants emphasizing seed plants. Surveys seed plant families.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): BIO 182 or BIO 282  |
| ABS     | 225         | Soils                                    | Fundamental properties of soils and their relations to plant growth, nutrition of man and animals, and environmental quality. Both ABS 225 and ABS 226 must be taken to secure General Studies SQ credit.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts | 3     | SQ              | Prerequisite(s): CHM 101 or CHM 113  |
| ABS     | 226         | Soils Laboratory                         | Selected exercises to broaden the background and understanding of basic soil principles. Both ABS 225 and ABS 226 must be taken to secure General Studies SQ credit.  | N                 | LAB               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts | 1     | SQ              | Pre- or corequisite(s): ABS 225  |
| ABS     | 260         | Fundamentals of Sustainable Horticulture | Principles and practices of horticulture, emphasizing development, growth, and propagation of horticultural plants and environmental factors that affect these processes.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts | 4     | SG              |  |
| ABS     | 270         | Sustainable Biological Systems           | Ecological foundations of sustainable biological systems, anthropogenic impacts on ecosystem structure and function, and ecological risk assessment.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts | 3     |                 |  |
| ABS     | 271         | Veterinary Medicine Today                | Introduces the role of the veterinarian as related to the fields of food supply and veterinary medicine.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts | 3     |                 |  |
| ABS     | 274         | Introduction to Wildlife Management      | Managing wildlife in the Southwest, including life histories of small game, fur bearers, big game, and selected nongame specials.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts | 4     |                 | Prerequisite(s): BIO 182 (or BIO 187) or BIO 282   |
| ABS     | 294         | Special Topics                           | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts | 1-4   |                 |  |
| ABS     | 302         | Ethical and Policy Issues in Biology     | Policy environment and ethics in the practice of biology. Covers ethical reasoning, policy formulation, and regulatory agencies with examples from biotechnology and the environment.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts | 2     |                 |  |
| ABS     | 311         | Molecular and Cellular Biology           | Overview of the biology of the cell; emphasizes structure and function of biomolecules within the cell and their applications associated with recombinant DNA technology, genetic engineering, plant and agriculture biotechnology, and human pharmaceutical development.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): BIO 181 or 281 with C or better   |
| ABS     | 312         | Structure and Function                   | Surveys structural and functional attributes of plant and animals of particular importance in the applied biological sciences.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): BIO 182 or 282 with C or better   |
| ABS     | 314         | Applied Plant Physiology                 | Understanding control of plant growth and developmental processes through innovated technologies.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): BIO 182 or 282  |
| ABS     | 350         | Applied Statistics                       | Statistical methods with applications in the biological sciences and natural resource management. Uses computers and the Internet.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts | 3     | CS              | Prerequisite(s): one course meeting General Studies MA requirement with C or better  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                            | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                               | Units | General Studies | Requirements   |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|-----------------------------|--|-------|-----------------|--|
| ABS     | 355         | Ecology and Adaptations of Vertebrates  | Evolution, classification systematics, diversity, anatomical and physiological adaptations anatomy, and physiology, specializations and conservation status of the vertebrates.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Pre- or corequisite(s): BIO 182 or 282   |
| ABS     | 360         | Southwest Home Gardening                | Multimedia course for nonmajors surveying contemporary topics in Southwest home horticulture, including landscaping, flower and vegetable gardening, citriculture, interiorscaping, and others.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 2     |                 |  |
| ABS     | 362         | Landscape Plants                        | Identification, design, and use of plants in urban landscapes.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 4     |                 | Prerequisite(s): minimum 45 hours  |
| ABS     | 363         | Sustainable Landscape Practice          | Landscape technologies and practices including landscape design theory, job costing and bidding, sprinkler and drip irrigation design, landscape installation, landscape valuation techniques, landscape ordinances, and maintenance practices of commercial and residential landscapes. | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 4     |                 | Prerequisite(s): ABS 260   |
| ABS     | 364         | Urban Forestry                          | Care, maintenance, and valuation of the urban forest, including public and private landscape codes.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: ABS 260   |
| ABS     | 368         | Plant Propagation                       | Theory and application of sexual and asexual propagation techniques. Considers plant materials used both for urban horticulture and ecological restoration applications.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 |  |
| ABS     | 370         | Ecology                                 | Interactions between organisms and their environments; structure and dynamics of populations, communities, ecosystems, and landscapes, with emphasis on vegetation.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): BIO 182 or 282  |
| ABS     | 372         | Captive Animal Behavior Management      | Natural animal behaviors during captive animal management including wild and domestic animal training and enrichment, exhibit design, husbandry, and livestock management.   | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): BIO 182 or 282 with C or better; Credit is allowed for only ABS 372 or ABS 394 (Applied Animal Behavior)                  |
| ABS     | 376         | Wildlife Ecology                        | Examines ecological principles underlying wildlife population dynamics with emphasis on physiology, genetics, nutrition, and habitat factors.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Pre/Co-requisites: ABS 274; ABS 370  |
| ABS     | 377         | International Wildlife Conservation     | Studies wildlife around the world including biogeography, biodiversity, conservation topics and the complexity of conserving wildlife in both developed and developing nations.  | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): BIO 182 or 282; Credit is allowed for only ABS 377 or ABS 494 (International Wildlife Conservation)                       |
| ABS     | 378         | Animal Nutrition                        | Principles of nutrient metabolism in animal species; emphasizes understanding the interaction of animals with their environment.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisites: BIO 181 or BIO 182; CHM 101 or CHM 113   |
| ABS     | 380         | Restoration and Wildlife Plants         | Important wildland plants, including invasive and endangered species, wildlife food species, and species used for ecosystem restoration.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: ABS 207   |
| ABS     | 381         | Natural Resources Policy                | Policies and regulations affecting management of natural resources, with emphases on wildlife and ecological restoration.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): minimum 45 hours  |
| ABS     | 384         | Natural Resources Measurements          | Inventory, sampling and monitoring techniques of natural resources. Data evaluation and interpretation as related to management, restoration and conservation needs of natural resources.  | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): minimum 45 hours  |
| ABS     | 394         | Special Topics                          | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-4   |                 |  |
| ABS     | 401         | Intermediate Statistics                 | Analysis of variance, multiple comparisons, multiple regression.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 |  |
| ABS     | 414         | Plant Pathology                         | Identification and control of biotic and abiotic factors that cause common disease problems to plants.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     | L               | Prerequisite(s): BIO 181 with C or better; BIO 182 or PLB 200 with C or better OR BIO 281 with C or better; BIO 282 with C or              |
| ABS     | 425         | Soil Classification and Management      | Principles of soil genesis, morphology, and classification. Presents management and conservation practices.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): ABS 225   |
| ABS     | 430         | Watershed Management                    | Hydrologic, physical, biological, and ecological principles applied to watershed management. Impact of ecosystem manipulations on water yield and quality.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): minimum 45 hours  |
| ABS     | 434         | Soil Ecology                            | Soils viewed in an ecosystem context, soil-plant relationships, nutrient budgets, and abiotic factors that influence soil processes.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisites: ABS 370 or BIO 320; Credit is allowed for only ABS 434 or BIO 418  |
| ABS     | 435         | Applied Systems Ecology                 | Simulation modeling as a tool to study ecological processes and human impact on ecosystems and organisms.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisites: ABS 370, ABS 350 (or STP 420)  |
| ABS     | 440         | Ecological Restoration Techniques       | Techniques for ecological restoration, riparian and wetland restoration, and monitoring restoration success.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): ABS 370   |
| ABS     | 441         | Ecological Restoration Practicum        | Field experience in the evaluation and monitoring of implemented ecological restoration projects.  | N                 | LEL               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1     |                 | Pre/Co-requisite: ABS 440  |
| ABS     | 452         | Commercial Applications of Fermentation | Biochemical applications and technologies of fermentation including use of fungi and bacteria in fermentation to improve human health and immunity, and produce pharmaceutical drug supplements and medicines, foods, beverages, and alternative fuels.                                  | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): BIO 181 or 281 with C or better; Credit is allowed for only ABS 452 or ABS 494 (Commercial Applications of Fermentation)  |
| ABS     | 460         | Organic Gardening                       | Applies principles and practices of organic gardening in the low desert, including environmental impacts of modern food production.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 2     |                 |  |
| ABS     | 462         | Greenhouse/Nursery Management           | Greenhouse structures, environment, and nursery operations. Includes irrigation, nutrition, and other principles relative to production of nursery crops.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 4     |                 | Pre-requisite: ABS 260   |
| ABS     | 463         | Golf and Sports Turf Management         | Selection, establishment, and maintenance of turf grasses bred specifically for golf and sports facilities.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: ABS 260   |
| ABS     | 464         | Desert Horticulture                     | Students learn about and practice the principles of sustainable horticulture in an arid climate. Includes capstone projects on sustainability issues related to horticultural practice in arid environments.   | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): ABS 260; Credit is allowed for only ABS 464 or ABS 494 (Sustainable Desert Horticulture) or ABS 498 (Desert Horticulture) |
| ABS     | 470         | Life History of Mammals                 | Evolution, classification, environmental, anatomical and physiological adaptations, ecology, and conservation of mammals worldwide. Emphasis on the identification, habitat relationships, conservation, and management techniques of Arizona and select North American mammals.         | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): ABS 355 or BIO 370  |
| ABS     | 472         | Applied Herpetology                     | Systematics, evolution, ecology and life history of amphibians and reptiles emphasizing wildlife management methodologies.   | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: ABS 355 or BIO 370; Credit is allowed for only ABS 472 or 498 (Applied Herpetology)   |
| ABS     | 473         | Applied Ornithology                     | Evolution, ecology, classification and life history of birds, emphasizing wildlife management methodologies.   | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): ABS 355 or BIO 370; Credit is allowed for only ABS 473 or ABS 494 (Applied Ornithology)                                   |
| ABS     | 474         | Riparian Ecosystem Management           | Management principles of riparian ecosystems based on fluvial geomorphological and ecological concepts. Discusses human impacts to riparian ecosystems.  | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): minimum 45 hours  |
| ABS     | 475         | Habitat Management for Small Wildlife   | Habitat management considerations and practices for small game and nongame wildlife species in North America.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): ABS 370 or BIO 320  |
| ABS     | 476         | Big Game Habitat Management             | Habitat management considerations and practices for big game wildlife species in North America.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): ABS 370 or BIO 320  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                              | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                               | Units | General Studies | Requirements  |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|-----------------------------|--|-------|-----------------|---|
| ABS     | 479         | Ecosystem Management and Planning         | Principles of ecosystem management, with emphasis on economic and policy constraints on the planning process. Risk assessment and management.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     | L               | Pre-requisite: Senior standing  |
| ABS     | 481         | Riparian and Wetland Restoration          | Principles and problems in the restoration of degraded riparian and wetland ecosystems. Construction of wetlands.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): ABS 370  |
| ABS     | 482         | Ecology and Planning for Restoration      | Ecological principles and resource planning processes applied to the restoration of degraded landscapes.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): ABS 225  |
| ABS     | 483         | Restoration Planning Practicum            | Field experience in ecological restoration techniques, selection of mitigation techniques, and implementation planning.   | N                 | LEL               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 2     |                 | Pre- or corequisite(s): ABS 482   |
| ABS     | 484         | Internship                                | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 |   |
| ABS     | 485         | GIS in Natural Resources                  | Principles of Geographic Information Systems (GIS) utilized in natural resource management. Use of computers for spatial analysis of natural resources.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): minimum 45 hours   |
| ABS     | 486         | Introduction to Remote Sensing            | Remote sensing technologies in natural resource management using computerized data from aerial photography and satellite imagery. Not for graduate credit.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 4     |                 | Prerequisite(s): minimum 45 hours   |
| ABS     | 489         | Undergraduate Research                    | Undergraduate research under the supervision of an applied biological sciences faculty member.  | N                 | RSC               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-3   |                 | Pre-requisite: Junior or Senior standing  |
| ABS     | 490         | Applied Biological Sciences Seminar       | Current literature and significant developments related to applications of the biological sciences. May be repeated for credit.   | N                 | SEM               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1     |                 | Pre-requisite: Senior standing  |
| ABS     | 492         | Honors Directed Study                     | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| ABS     | 493         | Honors Thesis                             | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| ABS     | 494         | Special Topics                            | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-4   |                 |   |
| ABS     | 498         | Pro-Seminar                               | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-7   |                 | Prerequisite(s): minimum 45 hours   |
| ABS     | 499         | Individualized Instruction                | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | LEC               | Y               | Z1            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-3   |                 |   |
| ABS     | 500         | Research Methods                          | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 |   |
| ABS     | 541         | Advanced Rangeland Ecosystem Management   | Combines the principles of ecology, planning and restoration in the application of rangeland ecosystem management. Studies fundamental topics such as range plant physiology, range plant ecology, rangeland stocking-rates and grazing systems in considering management practices for rangeland ecosystems.   | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 4     |                 | Pre-requisite: Degree- or non-degree seeking graduate. Credit is allowed for only ERM 541 or ABS 598 (Adv Rangeland Ecosystem Management)   |
| ABS     | 542         | Management of Fire Adapted Ecosystems     | Fire adapted ecosystems which evolved with high-frequency and low-intensity fires now support a range of regimes from no fire to uncharacteristically large and intense fires, causing a concern about the current and future role of wildland fire as well as forest and rangeland health. Explores management considerations and techniques for reintroducing fire to these ecosystems.   | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only ABS 598 (Fire Ecology), or ERM 542   |
| ABS     | 550         | Vegetation Dynamics                       | Dynamics of vegetation linking physiological, population, and community ecology. Collection and analysis of vegetation data.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ABS     | 551         | Advanced Environmental Analysis           | Advanced statistical procedures and experimental design for the biological sciences. Techniques for analyzing data that do not meet statistical assumptions.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ABS     | 553         | Riparian Ecology                          | Review of recent literature, developments, and methods related to riparian ecology. Applies soil and landscape ecology to riparian systems.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ABS     | 555         | Wildlife Dynamics                         | Explores major concepts in population and community ecology with an emphasis on their application to the study and management of wildlife species. Explores the theory and sometimes controversial nature of these concepts in the form of lectures and discussions. Instructor and student workshops and oral presentations of student research.   | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ABS 555 (or ERM 550) or ABS 598 (Wildlife Dynamics) or ETM 598 (Wildlife Population Ecology) |
| ABS     | 560         | Ecological Modeling                       | Mathematical modeling of animal populations, food-web structural and ecological processes in space and time. May use modeling tools on computer clusters.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: Graduate (Degree and non-degree) students; Credit is allowed for only ABS, BIO 560 or MAT 561  |
| ABS     | 570         | Advanced Animal Nutrition                 | Metabolic and physiological interactions of nutrients in wild and domesticated animals consuming natural feeds.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ABS     | 586         | Remote Sensing in Environmental Resources | Principles and application of remote sensing technologies in natural resource management using computerized data from aerial photography and satellite imagery.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ABS     | 590         | Reading and Conference                    | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ABS     | 591         | Seminar                                   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ABS     | 592         | Research                                  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ABS     | 593         | Applied Project                           | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ABS     | 594         | Conference and Workshop                   | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ABS     | 595         | Continuing Registration                   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| ACC     | 194         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | School of Accountancy                    | 1-4   |                 |   |
| ACC     | 231         | Uses of Accounting Information I                          | Introduces the uses of accounting information focusing on the evolution of the business cycle and how accounting information is used for internal and external purposes.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | School of Accountancy                    | 3     |                 | Prerequisite(s): CIS 105 or 236 with C or better; minimum 25 hours OR Technological Entrepreneurship Management major: EDT 180; minimum 25 hours OR Pre- or corequisite(s): Engineering Management major: CSE 205; minimum 25 hours |
| ACC     | 232         | Financial Accounting I                                    | Develops an understanding of the theory, concepts, principles and practices underlying preparation, interpretation, and use of external financial reports. Emphasizes interpreting the economic substance of events and transactions and their association with contemporaneous and prospective events, relationships, and outcomes. Gains understanding of the accounting information model and develops an ability to analyze and record business transactions and analyze basic financial statements. Meant for prospective accounting and finance majors (and students who plan current majors in these areas) and develops skills and abilities facilitating success in higher-level accounting courses. | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | School of Accountancy                    | 3     |                 | Prerequisite(s): Accountancy or Finance majors; CIS 105, 220 or 236 with C or better  |
| ACC     | 241         | Uses of Accounting Information II                         | Introduces the uses of accounting information focusing on the evolution of the business cycle and how accounting information is used for internal and external purposes.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | School of Accountancy                    | 3     |                 | Prerequisite(s): ACC 231, 261, or 303 with C or better  |
| ACC     | 242         | Managerial Accounting I                                   | Develops an understanding of the theory, concepts, principles, and practices underlying managerial accounting. Emphasizes three functions managers must perform within their organizations: plan operations, control activities, and make decisions. Explains what accounting information is necessary, how to collect it, and how to interpret it. Meant for prospective accounting and finance majors and students who plan current majors in these areas and develop skills and abilities facilitating success in higher-level accounting courses.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | School of Accountancy                    | 3     |                 | Pre-requisite(s): Open to W. P. Carey Accountancy and Finance majors, and others with School of Accountancy approval; ACC 231, ACC 232, ACC 261 or ACC 303 with C or better   |
| ACC     | 261         | Honors Fundamentals of Financial Accounting               | Covers basic financial accounting concepts and applications. Develops an understanding of the environment in which financial reporting choices are made.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | School of Accountancy | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACC     | 585         | Performance Measurement and Advanced Managerial Accounting          | Applies quantitative techniques to accounting problems.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | School of Accountancy | 3     |                 | Pre-requisite: Business Graduate student   |
| ACC     | 586         | Shareholder Value Creation and Financial Statement Analysis         | Develops skills necessary to exploit financial reporting information in a business environment and appreciation of reporting issues faced by management.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | School of Accountancy | 1-4   |                 | Pre-requisite: Specific Business Graduate majors   |
| ACC     | 587         | Multi-Jurisdictional Taxation I                                     | Multistate taxation and interplay between multistate tax issues and federal and state constitutional limitations.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | School of Accountancy | 3     |                 | Prerequisite(s): Master of Taxation major  |
| ACC     | 588         | Professional Accounting Research                                    | Applies the technical knowledge of accounting theory and principles developed in other academic courses through the use of "real life" case studies, where such knowledge and professional judgment is applied in resolving advanced accounting problems and issues.  | N                 | RSC               | N               | OPT           | W.P. Carey School of Business | School of Accountancy | 3     |                 | Pre-requisite: W. P. Carey Master of Accountancy student   |
| ACC     | 589         | Multijurisdictional Tax II  | Addresses the U.S. taxation of U.S. individuals and businesses that do business outside the U.S. as well as the U.S. taxation of foreign persons and tax treaties, allocation of income, foreign tax credits, and transfer pricing. Emphasizes planning related to some of the tax issues that commonly arise in cross-border businesses.   | N                 | RSC               | N               | OPT           | W.P. Carey School of Business | School of Accountancy | 3     |                 | Pre-requisite: W. P. Carey Master of Taxation student  |
| ACC     | 590         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | School of Accountancy | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACC     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | School of Accountancy | 1-12  |                 | Pre-requisite: Specific Business Graduate majors   |
| ACC     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | School of Accountancy | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACC     | 593         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | School of Accountancy | 1-12  |                 | Pre-requisite: Specific Business Graduate majors   |
| ACC     | 594         | Conference and Workshop   | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | School of Accountancy | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACC     | 595         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | W.P. Carey School of Business | School of Accountancy | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACC     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | School of Accountancy | 1-4   |                 | Pre-requisite: Specific Business Graduate majors   |
| ACC     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | W.P. Carey School of Business | School of Accountancy | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACC     | 690         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | School of Accountancy | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACC     | 692         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | School of Accountancy | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACC     | 695         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | W.P. Carey School of Business | School of Accountancy | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACC     | 700         | Research Methods  | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | School of Accountancy | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACC     | 790         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | School of Accountancy | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACC     | 791         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | School of Accountancy | 1-12  |                 | Pre-requisite: Business Administration (Accountancy) PHD student   |
| ACC     | 792         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | School of Accountancy | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACC     | 793         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | School of Accountancy | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACC     | 795         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | W.P. Carey School of Business | School of Accountancy | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                       | Department                                  | Units | General Studies | Requirements  |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|-------------------------------|---|-------|-----------------|---|
| ACC     | 799         | Dissertation  | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | W.P. Carey School of Business | School of Accountancy                       | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ACO     | 100         | All About Data: Design, Query, and Visualization      | Data modeling and design, spreadsheets, relational databases and querying, visualization and XML.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 3     | CS              |   |
| ACO     | 101         | Introduction to Computer Science                      | Concepts of problem solving, structured and object-oriented programming in Java, fundamental algorithms, computer system concepts. Social and ethical responsibilities.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 3     | CS              | Prerequisite(s): MAT 117 with C or better, or Mathematics Placement Test with a score of 50% or higher, or ALEKS score of 61 or higher  |
| ACO     | 102         | Object-Oriented Programming                           | Object-oriented programming using introductory algorithms and data structures. Overview of concepts in computer science.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 3     | CS              | Prerequisite(s): ACO 101 with C or better. Credit is allowed for only ACO 102 or CSE 205 or CST 200   |
| ACO     | 201         | Data Structures and Algorithms                        | Static and dynamic data structures, recursive and iterative sorting and searching, object-oriented design and programming, software design models and implementation/testing strategies, professional responsibilities.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 3     | CS              | Prerequisite(s): ACO 102 with C or better; MAT 210 with C or better   |
| ACO     | 240         | Introduction to Programming Languages                 | Introduces the procedural (C/C++/Python), applicative (LISP/Scheme) and declarative (Prolog) languages.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s) with C or better: CSE 205 OR Applied Computing major with ACO 102 OR GIS major with GIS 321 OR Software Engineering graduate student; Credit is allowed for only ACO 240 or CSE 240 |
| ACO     | 320         | Database Systems                                      | Entity-relationship and relational data models. Database design theory. Relational algebra, calculus and SQL query languages. Query optimization. XML fundamentals. Transactions, recovery and concurrency control.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): ACO 201; MAT 243 or 300; Credit is allowed for only ACO 220 or ACO 320 or CSE 412 or CST 433   |
| ACO     | 321         | Database Development & Applications                   | Stored procedures and triggers. Security and authorization. Call-level interface. Database Web applications. Advanced topics.   | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): ACO 320 with C or better; Credit is allowed for only ACO 321 or CSE 414 or IFT 458   |
| ACO     | 330         | Computer Networks                                     | Network architecture and protocols, principles of network applications, socket programming, flow and congestion control, switching and routing, link-layer technologies, traffic capture and analysis, security.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): ACO 201; Credit is allowed for only ACO 330 or CSE 434   |
| ACO     | 331         | Network Design  | Fundamental network design principles, internetworking design, network architectures, network management, traffic analysis, security management, case study and hands-on experiments.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): ACO 330 with C or better   |
| ACO     | 350         | Systems Programming                                   | Introduces operating systems as resource managers, processes, threads, memory allocation, file systems, protection, system calls, application program interfaces.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 3     | CS              | Prerequisite(s): ACO 201 with C or better   |
| ACO     | 351         | Governance, Risk and Compliance                       | Broad requirements for effective cybersecurity governance, the elements required to develop an appropriate governance strategy, and the actions required to implement it.   | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): ACO 201 or CIS 235 with C or better  |
| ACO     | 361         | Secure Coding Concepts                                | Secure software development process including designing secure applications, writing secure code that can withstand attacks, and security testing and auditing. Focuses on the security issues a developer faces, common security vulnerabilities and flaws, and security threats. Explains security principles, strategies, coding techniques and tools that can help make code more resistant to attacks. Students write and analyze code that demonstrates specific security development techniques. | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): ACO 201 or 240 with C or better  |
| ACO     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 1-4   |                 |   |
| ACO     | 399         | Supervised Research                                   | Experience within the context of current faculty research projects. Student is assigned responsibility depending on qualifications.   | N                 | RSC               | Y               | YGB           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 1-3   |                 | Prerequisite(s): ACO 102; minimum 30 hours  |
| ACO     | 401         | Managing Cyber Risks in Enterprise Business Processes | Covers the activities, decisions, risks and controls associated with enterprise business processes. Specific focus on the activities in the sales-to-cash (revenue cycle) and purchase-to-pay (expenditure cycle) processes. Students understand how IT enables performing those processes more efficiently and effectively. In addition to identifying internal controls necessary for accurate, complete performance of processes, also covers the fundamentals of                                    | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): ACO 320 or CIS 235 or CIS 236 or CSE 310 or IEE 305 with C or better; Credit is allowed for only ACC 444 or ACO 401 or CIS 401   |
| ACO     | 420         | Big Data Systems                                      | Modern technologies to manage, process and analyze big data. Data processing of large data sets with Map/Reduce. NoSQL data stores. NewSQL databases. Data visualization. Applications.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): ACO 320 with C or better   |
| ACO     | 421         | Data Mining and Warehousing                           | Introduces data mining from a database perspective, including classification, clustering, and association rules. Data warehousing methodologies.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): ACO 320 with C or better; STP 226 with C or better   |
| ACO     | 422         | XML and Databases                                     | XML data model, schema specification and validation, querying, storage, indexing, and current research topics.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): ACO 320 with C or better   |
| ACO     | 430         | Wireless Networks                                     | Wireless transmission fundamentals, wireless LAN, cellular networks and systems, Bluetooth, mobile application development, sensor networks, performance analysis and recent advances.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): ACO 330  |
| ACO     | 431         | Network Security                                      | Digital threats and attacks, cryptography, confidentiality, authentication protocols, message integrity, security in network applications, intrusion detection, malicious software countermeasures.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): ACO 330  |
| ACO     | 432         | Distributed Systems                                   | Distributed system models, distributed programming technique, clock synchronization, distributed snapshot, distributed mutual exclusion, concurrency control, fault tolerance, security, recent advances.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): ACO 330  |
| ACO     | 461         | Security Operations                                   | How organizations monitor and manage the security of their infrastructures in the real world. Explains architecture principles, the use of monitoring tools and technologies, how to interpret different security data sources, as well as how to identify and respond to various security threats within a complex infrastructure. Requires students to utilize security toolsets within a laboratory setting to demonstrate their understanding of the technologies as well as course concepts.       | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): ACO 350 with C or better; ACO 361 with C or better   |
| ACO     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | IND               | Y               | Z1            | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 1-12  |                 |   |
| ACO     | 492         | Honors Directed Study                                 | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | IND               | Y               | Z1            | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| ACO     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | IND               | N               | Z1            | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| ACO     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 1-4   |                 |   |
| ACO     | 498         | Pro-Seminar   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | IND               | Y               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences | 1-7   | L               |   |

| ACO     | 499         | Individualized Instruction                                   | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.  | Y                 | IND               | Y               | Z1            | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences     | 1-3   |                 |  |
| ACO     | 500         | Research Methods   | Course on research methods in a specific discipline.   | Y                 | RSC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACO     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | PRA               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACO     | 583         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.   | Y                 | PRA               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACO     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACO     | 590         | Reading and Conference                                       | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | LEC               | Y               | Z1            | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACO     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACO     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | LEC               | Y               | Z1            | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACO     | 593         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | LEC               | Y               | Z1            | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACO     | 594         | Conference and Workshop                                      | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACO     | 595         | Continuing Registration                                      | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | LEC               | Y               | Z3            | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences     | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACO     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences     | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACO     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.  | Y                 | LEC               | Y               | Z2            | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ACT     | 194         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 1-4   |                 |  |
| ACT     | 201         | Introduction to Elements and Techniques of Actuarial Science | Introduces important aspects of actuarial work. Exposes the development of actuarial techniques in the context of life insurance, casualty and property insurance, superannuation and investment. Develops problem-solving skills and gives basic tools for risk management and financial modeling, including the use of Excel spreadsheets for both, calculations and simulations. Shows how studies in related disciplines (such as accounting, demography, economics, statistics, computing and mathematics) are essential to the education of an actuary. Guest speakers from the industry share their knowledge and insight on how to become a successful actuary.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): CIS 105 with B or better; MAT 270 with B or better  |
| ACT     | 294         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 1-4   |                 |  |
| ACT     | 301         | Risk Management and Insurance                                | Provides an introduction to the different types of risks faced by individuals, businesses and society along with ways in which they make an assessment of, control and transfer of different types of risks including property risk, liability risk, personal risks and speculative risks such as financial risks. Covers risk management techniques including risk control and risk financing with a focus on insurance policies, and also presents other major topics in personal financial planning, social insurance, insurance operations and regulations, and reinsurance. Also gives attention to contemporary issues and challenges in risk management and insurance.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): MAT 210, 265, or 270 with C or better; ECN 211 or 212; ECN 221, STP 226, or STP 420               |
| ACT     | 302         | Fundamentals of Enterprise Risk Management                   | Examines in detail the Enterprise Risk Management (ERM) as a decision support system that helps organizations understand risk and assure the achievement of their goals. Provides understanding of what risk is and what an ERM process looks like for organizations, including some common challenges and pitfalls of institutionalizing an ERM culture.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): ACT 301   |
| ACT     | 310         | Mathematics of Finance                                       | Prepares potential actuaries to master national exams. Provides an understanding of the fundamental concepts of financial mathematics and how those concepts are applied in calculating present and accumulated values for various streams of cash flows as a basis for future use in: reserving, valuation, pricing, asset/liability management, investment income, capital budgeting and valuing contingent cash flows. Topics include: mathematics of compound interest including annuities certain, amortization schedules, yields curves, sinking funds and bonds. Gives an introduction to financial instruments including derivatives and the concept of no-arbitrage as it relates to financial mathematics. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 4     |                 | Prerequisite(s): ACT 201 with B or better; MAT 270 with B or better; Credit is allowed for only ACT 310 or MAT 340 |
| ACT     | 320         | Property and Casualty Insurance                              | Examines the fundamental principles and uses of property and casualty insurance. Also includes detailed examination of contracts, rating, underwriting, regulation and financial strength of insurers. In particular, devotes attention to the role of property and casualty insurance in addressing the economic and social problems encountered by businesses. Furthermore, also assists in the preparation to take the State of Arizona's Department of Insurance Property & Casualty exam.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): ACT 301   |

| ACT     | 330         | Life and Health Insurance            | Develops an understanding of life and health insurance and the place of those products in the risk management plans of individuals and businesses. In particular, devotes attention to the role of life and health insurance in addressing the economic and social problems encountered by individuals and businesses. Furthermore, prepares the students to take the State of Arizona's Department of Insurance Life and Health Insurance exam.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): ACT 301   |
| ACT     | 394         | Special Topics                       | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 1-4   |                 |  |
| ACT     | 415         | Probability for Risk Management      | Prepares potential actuaries to master national exams. Develops knowledge of the fundamental probability tools for quantitatively assessing risk. Topics include: introduction to probability concepts including definition of probability, independence, conditional probability, random variables, specific discrete and continuous probability distributions, multivariate random variables, moments and moment generating functions, functions of random variables, sampling distributions and central limit theorem. Emphasizes the application of these tools to problems encountered in actuarial science. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): ACT 201 with B or better; MAT 272 with B or better; Credit is allowed for only ACT 415 or STP 326 |
| ACT     | 430         | Mathematics of Financial Derivatives | Prepares potential actuaries to master the national exams. Develops knowledge of the theoretical basis of certain actuarial models and the application of those models to insurance and other financial risks. Topics include: option pricing, Black-Scholes formula, delta hedging, exotic options, Brownian motion, interest rate models and simulations.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): ACT 310 with B or better; ACT 415 with B or better  |
| ACT     | 435         | Actuarial Business Forecasting       | Business forecasting using statistical techniques such as: simple linear regression, multiple linear regression, hypothesis testing and confidence intervals in linear regression models, testing of models, data analysis and appropriateness of models, linear time series models, moving average, regression based and/or ARIMA models, estimation, data analysis and forecasting with time series models, forecast errors and confidence intervals.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): MAT 342 or 343 with B or better; STP 420 with B or better   |
| ACT     | 440         | Life Contingencies I                 | Prepares potential actuaries to master the national exams. Develops knowledge of the theoretical basis of life-contingent actuarial models and the application of those models to insurance and other financial risks. Topics include: life tables, present value determination for life insurances and annuities, benefit premiums and reserves.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): ACT 310 with B or better; ACT 415 with B or better; MAT 343 with B or better                      |
| ACT     | 441         | Life Contingencies II                | Prepares potential actuaries to master the national exams. Develop the student's knowledge of the theoretical basis of life-contingent actuarial models and the application of those models to insurance and other financial risks. Topics include: multiple life functions, multiple decrement models and benefit reserves.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): ACT 440 with C or better  |
| ACT     | 450         | Actuarial Models and Modeling I      | Prepares potential actuaries to master the national exams. Helps student understand the steps involved in the modeling process and how to carry out these steps in solving business problems. Students analyze data from an application in a business context, determine a suitable model including parameter values and provide measures of confidence for decision making based upon the model. Topics include: survival, severity, frequency and aggregate models and their modifications.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): ACT 415 with B or better; STP 427 with B or better  |
| ACT     | 451         | Actuarial Models and Modeling II     | Prepares potential actuaries to master the national exams. Helps students understand the steps involved in the modeling process and how to carry out these steps in solving business problems. Students analyze data from an application in a business context, determine a suitable model including parameter values and provide measures of confidence for decision making based upon the model. Topics include: construction and selection of parametric models, Bayesian estimation, credibility and simulation.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): ACT 450 with C or better  |
| ACT     | 484         | Internship                           | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 1-12  |                 |  |
| ACT     | 491         | Actuarial Exam Preparation Seminar   | Provides potential actuaries with review and practice for an actuarial examination.   | N                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 1     |                 | Prerequisite(s) with B or better: ACT 310 (or ACT 415 or 430 or both ACT 440 and 441 or both ACT 450 and 451)      |
| ACT     | 494         | Special Topics                       | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 1-4   |                 |  |
| ACT     | 498         | Pro-Seminar                          | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 1-7   |                 |  |
| ACT     | 499         | Individualized Instruction           | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 1-3   |                 |  |
| ADE     | 191         | First-Year Seminar                   | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                               | 1-3   |                 |  |
| ADE     | 194         | Special Topics                       | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                               | 1-4   |                 |  |
| ADE     | 294         | Special Topics                       | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                               | 1-4   |                 |  |
| ADE     | 321         | Architectural Studio I               | Introductory building design problems. Emphasizes design process, communication methods, aesthetics, construction, and technology.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                               | 5     |                 | Pre-requisites: Architecture student; ALA 226 with C or better   |
| ADE     | 322         | Architectural Studio II              | Site and building design problems. Emphasizes programmatic and environmental determinants and building in natural and urban contexts.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                               | 5     |                 | Pre-requisites: Architectural Studies student; ADE 321 with C or better  |
| ADE     | 394         | Special Topics                       | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                               | 1-4   |                 |  |
| ADE     | 421         | Architectural Studio III             | Topical design problems of intermediate complexity, including interdisciplinary problems.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                               | 5     |                 | Prerequisite(s): ADE 322 with C or better  |
| ADE     | 422         | Architectural Studio IV              | Topical design problems of advanced complexity, including interdisciplinary problems.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                               | 5     |                 | Pre-requisites: Architectural Studies student; ADE 421 with C or better  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                      | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department                                   | Units | General Studies | Requirements   |
|---------|-------------|-----------------------------------|---|-------------------|-------------------|-----------------|---------------|------------------------------|--|-------|-----------------|--|
| ADE     | 484         | Internship                        | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | The Design School                            | 1-12  |                 |  |
| ADE     | 492         | Honors Directed Study             | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School                            | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| ADE     | 493         | Honors Thesis                     | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Herberger Inst Design & Arts | The Design School                            | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| ADE     | 494         | Special Topics                    | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                            | 1-4   |                 |  |
| ADE     | 498         | Pro-Seminar                       | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                            | 1-7   | L               |  |
| ADE     | 499         | Individualized Instruction        | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | Herberger Inst Design & Arts | The Design School                            | 1-3   |                 |  |
| ADE     | 500         | Research Methods                  | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                            | 1-12  |                 | Pre-requisites: Master of Architecture, Master of Landscape Architecture, or Master of Urban Design  |
| ADE     | 510         | Foundation Architectural Studio   | Fundamentals of architectural design, methodology, visualization, and representation.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                            | 6     |                 | Pre-requisites: Master of Architecture student; Co-requisite: ATE 553 and ATE 563  |
| ADE     | 511         | Core Architectural Studio I       | Applies design fundamentals in architectural problems, including construction, technology, programmatic and environmental determinants.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                            | 6     |                 | Pre-requisites: Master of Architecture student; ADE 510 with C or better   |
| ADE     | 512         | Core Architectural Studio II      | Applies architectural design fundamentals to increasingly complex problems, including specific sites and activities.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                            | 6     |                 | Pre-requisites: Master of Architecture student; ADE 511 with C or better   |
| ADE     | 521         | Advanced Architectural Studio I   | Design problems emphasizing theory, aesthetics, and tectonics as influences on architectural form.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                            | 5     |                 | Pre-requisites: Master of Architecture student; Co-requisite: ATE 553 and ATE 563  |
| ADE     | 522         | Advanced Architectural Studio II  | Design problems emphasizing the comprehensive integration of building systems and technologies as influences on architectural form.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                            | 5     |                 | Pre-requisites: Master of Architecture student; ADE 521 with a C or better; Co-requisites: APH 505 and ATE 556   |
| ADE     | 580         | Practicum                         | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                            | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| ADE     | 584         | Internship                        | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | The Design School                            | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| ADE     | 590         | Reading and Conference            | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School                            | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| ADE     | 591         | Seminar                           | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                            | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| ADE     | 592         | Research                          | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School                            | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| ADE     | 593         | Applied Project                   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School                            | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| ADE     | 594         | Conference and Workshop           | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | PRA               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                            | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| ADE     | 595         | Continuing Registration           | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | PRA               | Y               | Z3            | Herberger Inst Design & Arts | The Design School                            | 1     |                 | Herberger Institute of Design and the Arts Graduate student  |
| ADE     | 598         | Special Topics                    | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                            | 1-4   |                 | Herberger Institute of Design and the Arts Graduate student  |
| ADE     | 599         | Thesis                            | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Herberger Inst Design & Arts | The Design School                            | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| ADE     | 621         | Advanced Architectural Studio III | Design problems emphasizing the urban context, planning issues, and urban design theory as influences on architectural form.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                            | 5     |                 | Pre-requisites: Master of Architecture student; ADE 522 with a C or better; Co-requisite: APH 515 OR Bldg Des(Energy Perform/Bldgs) MS student                           |
| ADE     | 622         | Advanced Architectural Studio IV  | Individual, student-initiated project reflecting a culminating synthesis of architectural ideas.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                            | 5     |                 | Prerequisite(s): ADE 621 with C or better; Master of Architecture student; Corequisite(s): APH 515 or Built Environment (Energy Perf/Climate Responsive Arch) MS student |
| ADE     | 691         | Seminar                           | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                            | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| ADE     | 692         | Research                          | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School                            | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AEE     | 191         | First-Year Seminar                | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering    | Mechanical and Aerospace Engineering Program | 1-3   |                 |  |
| AEE     | 194         | Special Topics                    | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering    | Mechanical and Aerospace Engineering Program | 1-4   |                 |  |
| AEE     | 294         | Special Topics                    | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering    | Mechanical and Aerospace Engineering Program | 1-4   |                 |  |
| AEE     | 313         | Aircraft Dynamics and Control     | Aircraft static stability; equations of motion; dynamic modes and stability; stability derivatives; response to controls; introduces automatic control of aircraft.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Mechanical and Aerospace Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering major; AEE 360 (or MAE 360) with C or better; MAE 301 with C or better; MAE 318 with C or better                                     |

| AEE     | 426         | Design of Aerospace Structures              | Flight vehicle loads, design of semimonocoque structures, local buckling and crippling, fatigue, aerospace materials, composites, joints, and finite element applications.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Mechanical and Aerospace Engineering Program | 3     |                 | Prerequisite(s): Aerospace Engineering BSE major; AEE 325 (or MAE 325) or MAE 394 (Aerospace Structures and Materials) with C or better; Credit is allowed for only AEE 426 or MAE 598 (Design of Aerospace Structures)  |
| AEE     | 445         | Fundamentals of Spacecraft Design           | Spacecraft subsystems. Systems engineering, space mission design, space environment. Cost analysis. Risk and reliability analysis.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Mechanical and Aerospace Engineering Program | 3     |                 | Prerequisite(s): Aerospace Engineering (Aeronautics) BSE major; AEE 325 with C or better; AEE 462 with C or better; MAE 214 with C or better; MAE 318 with C or better; Credit is allowed for only AEE 445 or MAE 494 (Fundamentals of Spacecraft Design)      |
| AEE     | 462         | Space Vehicle Dynamics and Control          | Attitude dynamics and control, orbital mechanics, orbital transfer/rendezvous, spacecraft control systems design.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Mechanical and Aerospace Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering undergraduate student; MAE 301 with C or better; MAE 318 with C or better  |
| AEE     | 463         | Aircraft Propulsion                         | Fundamentals of gas-turbine engines. Analysis and design of components. Alternative aircraft propulsion systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Mechanical and Aerospace Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering undergraduate student; MAE 362 with C or better; MAE 384 with C or better  |
| AEE     | 465         | Rocket Propulsion                           | Rocket flight performance; nozzle design; combustion of liquid and solid propellants; component design; advanced propulsion systems; interplanetary missions; testing.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Mechanical and Aerospace Engineering Program | 3     |                 | Prerequisite(s): Aerospace or Mechanical Engineering major; AEE 362 with C or better; AEE 462 with C or better   |
| AEE     | 466         | Rotary Wing Aerodynamics and Performance    | Introduces helicopter and propeller analysis techniques. Momentum and blade-element, helicopter trim. Hover and forward flight. Ground effect, autorotation and compressibility effects.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Mechanical and Aerospace Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering major; AEE 360 with C or better; Credit is allowed for only AEE 466 or MAE 566   |
| AEE     | 468         | Aircraft Systems Design                     | Group projects related to aircraft vehicle design, working from mission definition and continuing through preliminary design.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Mechanical and Aerospace Engineering Program | 3     |                 | Prerequisite(s): Aerospace Engineering (Aeronautics) BSE major; AEE 313 with C or better; AEE 325 with C or better; AEE 344 with C or better; Pre- or corequisite(s): AEE 463 with C or better if completed  |
| AEE     | 469         | Projects in Aeronautics or Astronautics     | Various multidisciplinary team projects available each semester. Projects include design of high-speed aircraft autonomous vehicles, liquid-fueled rockets, microaerial vehicles, satellites.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Mechanical and Aerospace Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering undergraduate student  |
| AEE     | 471         | Computational Fluid Dynamics                | Numerical solutions for selected problems in fluid mechanics.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Mechanical and Aerospace Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering major; AEE 360 or MEE 340 with C or better; MAE 384 with C or better; Credit is allowed for only AEE 471 or MAE 561  |
| AEE     | 478         | Fundamentals of Autonomous Aircraft Systems | First of a two-semester capstone sequence. Introduces autonomous aircraft performance and operations, aircraft performance prediction, ground control and support, sensors, communications and telemetry, aerospace ethics and law, design methods.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Mechanical and Aerospace Engineering Program | 3     |                 | Prerequisite(s): AEE 313 with C or better, AEE 360 with C or better  |
| AEE     | 479         | Design of Autonomous Aircraft Systems       | Interdisciplinary capstone design project for aerospace and electrical engineering students.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Mechanical and Aerospace Engineering Program | 3     |                 | Prerequisite(s): MAE 400 with C or better; AEE 478 with C or better  |
| AEE     | 480         | Space Systems Design                        | Group projects related to space systems design, working from mission definition and continuing through conceptual design.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Mechanical and Aerospace Engineering Program | 3     |                 | Prerequisite(s): Aerospace Engineering (Aeronautics) BSE major; AEE 445 with C or better; AEE 465 (or MAE 465) with C or better; EEE 350 with C or better; MAE 214 with C or better  |
| AEE     | 484         | Internship                                  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Mechanical and Aerospace Engineering Program | 1-12  |                 |  |
| AEE     | 492         | Honors Directed Study                       | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | PRA               | Y               | Z1            | Ira A. Fulton Engineering | Mechanical and Aerospace Engineering Program | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| AEE     | 493         | Honors Thesis                               | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Ira A. Fulton Engineering | Mechanical and Aerospace Engineering Program | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| AEE     | 494         | Special Topics                              | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Mechanical and Aerospace Engineering Program | 1-4   |                 |  |
| AEE     | 498         | Pro-Seminar                                 | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Mechanical and Aerospace Engineering Program | 1-7   |                 |  |
| AEE     | 499         | Individualized Instruction                  | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | Ira A. Fulton Engineering | Mechanical and Aerospace Engineering Program | 1-3   |                 | Prerequisite(s): minimum 45 hours  |

| AEP     | 501         | Practical and Professional Ethics           | Acquaints students with practical and professional ethics. Assumes no prior experience in ethics, and provides practicable knowledge as well as theoretical knowledge. The first in a series of courses for the MA program in Applied Ethics and the Professions, the course is primarily intended to prepare students in that degree program for their subsequent courses. However, it has been designed to be useful to all graduate students who are interested in learning about practical and professional ethics. The beginning of the course is devoted to the more general subjects of practical ("everyday") ethics and professional ethics, while the remaining weeks are spent focusing on the ethical issues that occur in the context of specific professions, with particular emphasis given to those professions that seem most relevant to the aspirations and interests of the students enrolled in the | N                 | SEM               | N               | OPT           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): graduate student or Barrett Honors student    |
| AEP     | 580         | Practicum                                   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | PRA               | Y               | OPT           | Col of Pub Serv & Comm Solutns  | School of Public Affairs                       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |

| AEP     | 593         | Applied Project                             | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | PRA               | Y               | Z1            | Col of Pub Serv & Comm Solutns  | School of Public Affairs                       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AEP     | 593         | Applied Project                             | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | PRA               | Y               | Z1            | Future of Innovation in Society | School for the Future of Innovation in Society | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AEP     | 595         | Continuing Registration                     | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | RSC               | Y               | Z3            | Future of Innovation in Society | School for the Future of Innovation in Society | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AEP     | 598         | Special Topics                              | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns  | School of Public Affairs                       | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AEP     | 598         | Special Topics                              | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | Future of Innovation in Society | School for the Future of Innovation in Society | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AES     | 101         | Air Force Today I                           | Survey course designed to introduce students to the United States Air Force and Air Force Reserve Officer Training Corps (AFROTC). Featured topics include: mission and organization of the Air Force, officership and professionalism, military customs and courtesies, Air Force officer opportunities, group leadership problems, and an introduction to communication skills.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences       | Department of Aerospace Studies                | 2     |                 |  |
| AES     | 102         | Leadership Laboratory                       | Dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Air Force second lieutenants and complement the AFROTC academic program. Emphasizes common Air Force customs and courtesies, drill and ceremonies, health and physical fitness through group participation.  | N                 | LAB               | Y               | YGB           | Liberal Arts and Sciences       | Department of Aerospace Studies                | 0     |                 | Co-requisite: AES 101  |
| AES     | 103         | Air Force Today II                          | Introduce students to the United States Air Force and encourage participation in Air Force Reserve Officer Training Corps (AFROTC). Featured topics include: introduction to leadership, Air Force core values, introduction to interpersonal communication and team building, and a continuation of communication skills.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences       | Department of Aerospace Studies                | 2     |                 |  |
| AES     | 104         | Leadership Laboratory                       | Dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Air Force second lieutenants and complement the AFROTC academic program. Emphasizes learning the environments and dynamics of an Air Force officer.  | N                 | LAB               | Y               | YGB           | Liberal Arts and Sciences       | Department of Aerospace Studies                | 0     |                 | Co-requisite: AES 103  |
| AES     | 191         | First-Year Seminar                          | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences       | Department of Aerospace Studies                | 1-3   |                 | Pre-requisites: Freshman standing; Maximum 25 hours            |
| AES     | 201         | The Evolution of USAF Air and Space Power I | Focuses on facilitating the transition from Air Force ROTC cadet to Air Force ROTC candidate. Examines the general aspects of air and space power through a historical perspective. Utilizing this perspective, covers a time period from the first balloons and dirigibles to the modern technology currently used in overseas contingency operations. Featured topics include: Air Force heritage, Air Force leaders, introduction to ethics and values, group leadership problems and continuing application of communication skills.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences       | Department of Aerospace Studies                | 2     |                 |  |

ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                 | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                      | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|---------------------------------|-------|-----------------|--|
| AES     | 202         | Leadership Laboratory                        | Dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Air Force second lieutenants and complement the AFROTC academic program. Provides application of advanced drill and ceremonies; issuing commands; knowing flag etiquette; and developing, directing, and evaluating skills to lead others.  | N                 | LAB               | Y               | YGB           | Liberal Arts and Sciences | Department of Aerospace Studies | 0     |                 | Co-requisite: AES 201  |
| AES     | 203         | The Evolution of USAF Air and Space Power II | Provides knowledge-level understanding for general element and employment of air and space power. Furthermore, discusses the importance of Air Force Core Values with use of operational examples and historical Air Force leaders. Continues to develop communication skills. Topics include: the Air Force mission and organization, modern joint expeditionary Airmen, officer opportunities, and professionalism.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of Aerospace Studies | 2     |                 |  |
| AES     | 204         | Leadership Lab                               | Dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Air Force second lieutenants and complement the AFROTC academic program. Emphasizes preparation for field training.   | N                 | LAB               | Y               | YGB           | Liberal Arts and Sciences | Department of Aerospace Studies | 0     |                 | Co-requisite: AES 203  |
| AES     | 294         | Special Topics                               | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | Department of Aerospace Studies | 1-4   |                 |  |
| AES     | 301         | Air Force Leadership Studies I               | Study of communication skills, leadership and quality management fundamentals, leadership ethics, and professional knowledge required of an Air Force officer.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of Aerospace Studies | 3     | L               |  |
| AES     | 302         | Leadership Laboratory                        | Dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Air Force second lieutenants and complement the AFROTC academic program. Advanced leadership experiences applying leadership and management principles to motivate and enhance the performance of other cadets.   | N                 | LAB               | Y               | YGB           | Liberal Arts and Sciences | Department of Aerospace Studies | 0     |                 | Co-requisite: AES 301  |
| AES     | 303         | Air Force Leadership Studies II              | Continuation of AES 301. Topics include: communication skills, ethics, leadership, professional knowledge, and quality management required of an Air Force officer.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of Aerospace Studies | 3     | L               |  |
| AES     | 304         | Leadership Laboratory                        | Dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Air Force second lieutenants and complement the AFROTC academic program. Emphasizes planning the military activities of the cadet corps and applying advanced leadership methods.   | N                 | LAB               | Y               | YGB           | Liberal Arts and Sciences | Department of Aerospace Studies | 0     |                 | Co-requisite: AES 303  |
| AES     | 401         | National Security Affairs                    | Examines advanced ethics, Air Force doctrine, national security process, and regional studies. Special topics include: civilian control of the military, military justice, and officership.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of Aerospace Studies | 3     | L               |  |
| AES     | 402         | Leadership Laboratory                        | Dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Air Force second lieutenants and complement the AFROTC academic program. Advanced leadership experience demonstrating learned skills in planning and controlling the military activities of the corps.  | N                 | LAB               | Y               | GNA           | Liberal Arts and Sciences | Department of Aerospace Studies | 0     |                 | Co-requisite: AES 401  |
| AES     | 403         | Preparation for Active Duty II               | Continuation of AES 401. Topics include: civilian control of the military, doctrine, ethics, military justice, the national security process, and officership.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of Aerospace Studies | 3     |                 |  |
| AES     | 404         | Leadership Lab                               | Continuation of AES 402 with emphasis on preparation for transition from civilian to military life.   | N                 | LAB               | N               | OPT           | Liberal Arts and Sciences | Department of Aerospace Studies | 0     |                 |  |
| AES     | 498         | Pro-Seminar                                  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | Department of Aerospace Studies | 1-7   |                 |  |
| AES     | 499         | Individualized Instruction                   | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | N                 | LEC               | N               | Z1            | Liberal Arts and Sciences | Department of Aerospace Studies | 1-3   |                 |  |
| AES     | 590         | Reading and Conference                       | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | Department of Aerospace Studies | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                 |
| AET     | 210         | Measurements and Testing                     | Measurement systems, components, system response, and the characteristics of experimental data.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs            | 3     |                 | Prerequisite(s): PHY 112; Pre/Corequisite(s): MAT 266  |
| AET     | 215         | Aircraft Systems                             | Principles and design features of aircraft structures, systems, and materials.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs            | 2     |                 |  |
| AET     | 300         | Aircraft Design I                            | Applied aerodynamics, standard atmosphere, speed measurement, infinite and finite wings, airplane performance.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs            | 3     |                 | Pre-requisites: AET 215; MET 211, ECE 210, or MAE 212  |
| AET     | 415         | Gas Dynamics and Propulsion                  | Introduces compressible flow, internal and external flow, and aerothermodynamic analysis of propulsion systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs            | 3     |                 | Prerequisite(s): AET 300; MET 340 or MAE 340 or Fulton Schools of Engineering graduate student |
| AET     | 417         | Aerospace Structures                         | Analysis and design of aircraft and aerospace structures. Shear flow. Semimonocoque structures. Effects of dynamic loading.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs            | 3     |                 | Prerequisite(s): MET 213, MET 313 (or ECE 313); MET 212, AET 312 (or ECE 312); AET 300         |
| AET     | 420         | Experimental Aerodynamics and Wind Tunnels   | Experimental applied aerodynamics related to aeronautical and mechanical design. Wind tunnel design and testing. Low speed flows.   | N                 | LAB               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs            | 1     |                 | Pre-requisites: AET 300; MET 340   |
| AET     | 492         | Honors Directed Study                        | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Engineering Programs            | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| AET     | 524         | Application of Heat Transfer                 | Energy conservation, steady-state and transient conduction, convection transfer, free and forced convection Reynolds analogy, blackbody and environmental radiation.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs            | 3     |                 | Pre-requisites: MET 432 or MAE 340; Credit is allowed for only AET 524 or AET 432              |
| AET     | 525         | Advanced Propulsion                          | Mechanics and thermodynamics of propulsion systems. Solid, liquid propellant rocket design performance. Electrical nuclear propulsion systems. Space missions.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs            | 3     |                 | Pre-requisites: MET 434, AET 415 or MAE 340  |
| AET     | 560         | Numerical Methods in Engineering Technology  | Analyzes problems in physical sciences, models physical problems, perturbation techniques, curvefitting, data analysis, numerical solutions, ordinary and partial differential equations.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs            | 3     |                 | Prerequisite(s): Fulton Engineering students; Senior or higher academic level                  |
| AET     | 580         | Practicum                                    | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs            | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                 |
| AET     | 583         | Fieldwork                                    | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs            | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                 |

| AET     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Engineering Programs            | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AET     | 593         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Engineering Programs            | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AET     | 594         | Conference and Workshop  | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs            | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AET     | 595         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering | Engineering Programs            | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AET     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs            | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AET     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Ira A. Fulton Engineering | Engineering Programs            | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AFR     | 191         | First Year Seminar   | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 1-3   |                 | Pre-requisites: Freshman standing; Maximum 25 hours  |
| AFR     | 194         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 1-4   |                 |  |
| AFR     | 200         | Introduction to Africana Studies                                   | Introduces the study of African and African-descended peoples; theory, themes, and perspectives.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 3     | SB & G & H      |  |
| AFR     | 202         | Immigration and Ethnic Relations in the U.S.                       | The ethnic and social consequences of international migration with a focus on the United States. Examines the impact of immigration on both American society and immigrant ethnic minorities over time.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 3     | SB & C          | Credit is allowed for only AFR 202 (or AFS 202) or ASB 202   |
| AFR     | 210         | Introduction to African American Studies                           | Examines the political, historical, and cultural origins of African American studies as an academic discipline.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 3     | C               |  |
| AFR     | 212         | Introduction to Ethnic Studies in the U.S.                         | Covers diversity of experiences and relations among racial and ethnic groups in the United States.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 3     | C               | Credit is allowed for only AFR 212 (or AFS 210) or APA 210 or JUS 210 or TCL 210   |
| AFR     | 215         | Bob Marley and Reggae: Lyrics of Resistance                        | Studies political content, influence, and impact of Caribbean popular music, in particular the music of Bob Marley.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 3     | HU & G          | Credit is allowed for only AFR 215 or AFR 394 (Bob Marley: Reggae and Resistance) or JUS 215   |
| AFR     | 225         | Black Movements in America   | Survey course on the historical and political development of mass movements by African Americans and Black resistance in the United States. Traces nearly 400 years of Black resistance against injustices and mass struggles for equality and liberation. Topics include the anti-slavery movement, anti-lynching campaign, the Civil Rights movement, the Black Power movement, prison abolitionism, the reproductive justice movement, and movements for economic justice.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 3     |                 | Credit is allowed for only AFR 225 (or AFS 225) or JUS 200 (Black Movements in America) or JUS 225   |
| AFR     | 294         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 1-4   |                 |  |
| AFR     | 298         | Honors Directed Study  | Independent study or practicum under the supervision of a faculty member.   | N                 | RSC               | N               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| AFR     | 300         | Precolonial Africa   | In-depth course study of contemporary Africa, providing thorough examination of the continent's pre-colonial history, particularly before 1900. The course will study the continent and its people, the way the history of the continent has been interpreted by non-Africans, how the continent's anatomy has affected historical development, and the methodology and interdisciplinary scholarship in the study of Africa  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 3     | SB & G & H      | Prerequisite(s): AFR 200 (or AFS 200) or minimum 45 hours; Credit is allowed for only AFR 300 (or AFH 300) or ASB 310                                  |
| AFR     | 301         | Race and Racism in Africa/African Diaspora                         | Advanced study of the concepts of race and racism and how they manifest themselves in the USA, the Caribbean, and Africa. Examines the construction of race, racism, and race relations in Africa and the African Diaspora as well as practices to challenge ethnicity, racism, and racial oppression.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 3     | SB & G          | Prerequisite(s): AFR 200 (or AFS 200) or minimum 45 hours; Credit is allowed for only AFR 301 (or AFS 301) or JUS 300                                  |
| AFR     | 302         | History of Black Women in America                                  | Advanced examination of the challenges that black women have faced historically in America and how they have responded to those challenges socially, politically, economically, and culturally.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 3     | SB & H          | Prerequisite(s): AFR 200 (or AFS 200) or WST 100 or WST 300 or minimum 45 hours; Credit is allowed for only AFR 302 (or AFS 302) or HST 335 or WST 302 |
| AFR     | 304         | Islands of Globalization: Caribbean Politics and Political Economy | In-depth study of the complexities of contemporary Caribbean politics and political economy. Examines the countries that constitute the Caribbean community and common market and the Caribbean Latin American countries such as Cuba and the Dominican Republic and analyzes the historical evolution of the region's political and economic systems and the impact of globalization. Traces the development of the region's political economy from the colonial period to the present; looks at the impact of globalization on contemporary politics, economics, and culture and the region's response. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 3     | SB & G & H      | Prerequisite(s): AFR 200 (or AFS 200) or minimum 45 hours; Credit is allowed for only AFR 304 (or AFS 304) or JUS 304                                  |
| AFR     | 305         | The Global History of the Trans-Atlantic Slave Trade               | Reading- and writing-intensive course that employs critical thought to look at the origins, development, abolition, and impact of Atlantic slave trade as a global economic enterprise and great human tragedy; slavery experience.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 3     | SB & H          | Prerequisite(s): AFR 200 (or AFS 200) or HST 109 or minimum 45 hours; Credit is allowed for only AFR 305 (or AFH 305) or HST 326                       |
| AFR     | 310         | African/African American Psychology                                | In-depth study of the historical development of African and African American psychology. Course will critically examine the African American frame of reference as well as examine African and African American psychology from a contemporary perspective.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 3     |                 | Prerequisite(s): AFR 200 (or AFS 200) or minimum 45 hours  |

| AFR     | 312         | Contemporary African and African Diaspora Women                        | A critical analysis of recent literary, theoretical, and methodological themes concerning the study of African and African Diaspora women. Particular study will focus on the historical impact these themes have had on the phenomena of transformation by various African and African Diasporan women's populations.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation          | 3     |                 | Prerequisite(s): AFR 200 (or AFS 200) or minimum 45 hours  |
| AFR     | 317         | Genes, Race and Society  | An in-depth examination of the biological and social construction of race in western societies. Special emphasis is placed on examining these constructs from a historical perspective  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation          | 3     | SB & H & C      | Prerequisite(s): AFR 200 (or AFS 200) or minimum 45 hours  |
| AFR     | 318         | African and African Diaspora Women Writers                             | Intersection of race, class, gender, and ethnicity in black women's fiction from the United States, the Caribbean, and Africa.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation          | 3     | HU & G          | Prerequisite(s): AFR 200 (or AFS 200) or WST 100 or WST 300 or minimum 45 hours; Credit allowed only for AFR 318 (or AFH 318) or WST 318   |
| AFR     | 320         | Africa: Politics, Environment, and Development                         | An in-depth analysis of the African experience as a way to understand the consequences of human environment relationships, wealth and power differentials, and individual and global citizenship.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation          | 3     |                 | Prerequisite(s): AFR 200 (or AFS 200) or minimum 45 hours  |
| AFR     | 325         | Music as Political Discourse: Reggae, Calypso, and Hip Hop             | This is a reading and writing intensive course that employs critical thought that explores African Diaspora popular music as a medium of social and political expression. It examines the political content of Reggae, Calypso and Hip Hop and their role in triggering and influencing popular discourse in the Caribbean and the USA. Course material will analyze the interrelationships among the musical forms and their role in fostering Black and Pan African Cultural Identity, Political Consciousness and World Peace. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation          | 3     | HU & H & G      | Prerequisite(s): AFR 200 (or AFS 200); minimum 45 hours; Credit is allowed for only AFR 325 (or AFS 325) or JUS 326  |
| AFR     | 327         | Human Rights in Africa   | In-depth study of the development of African organizations and instruments engaged in the dynamic processes of conceptualizing human rights that reflect its particular histories. It will also assess the effectiveness and appropriateness of efforts to address the human rights abuses and violations found in Africa.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation          | 3     |                 | Prerequisite(s): AFR 200 (or AFS 200) or minimum 45 hours  |
| AFR     | 330         | Survey of African American Politics                                    | In-depth study of the dynamics of the African American political experience. Examines the historical development of African American politics from the anti-slavery era to the Civil Rights breakthrough of the 1960's through the present political climate.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation          | 3     | SB & H          | Prerequisite(s): AFR 200 (or AFS 200) or minimum 45 hours; Credit is allowed for only AFR 330 or JUS 330   |
| AFR     | 331         | Studies in African American Women Writers of Pre-Harlem Renaissance    | In depth analysis and advanced comparative study of novels, short stories, essays, speeches, and dramas that gave voices to African American woman in the pre-Harlem Renaissance era.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Social Transformation          | 3     |                 | Prerequisite(s): AFR 200 (or AFS 200); ENG 101, 105 or 107 with C or better OR ENG 101, 105 or 107 with C or better; minimum 45 hours  |
| AFR     | 332         | Life and Death in Ancient Egypt  | Reveals ancient Egyptian life through recent research in archaeology and physical anthropology on cemeteries, tombs, and the dead themselves.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation          | 3     |                 | Prerequisite(s): ENG 101, 105, 107, or 111 with C or better; Credit is allowed for only AFR 332 (or AFS 332) or ASM 332  |
| AFR     | 333         | American Ethnic Literature   | Examines America's multiethnic identity through works of literature that depict American ethnic, gender, and class sensibilities.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation          | 3     | (L or HU) & C   | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only AFR 333 (or AFH 333) or ENG 333   |
| AFR     | 333         | American Ethnic Literature   | Examines America's multiethnic identity through works of literature that depict American ethnic, gender, and class sensibilities.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences | 3     | (L or HU) & C   | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only AFR 333 (or AFH 333) or ENG 333   |
| AFR     | 335         | Historical Studies in Race, Crime, and the Law                         | Studies the historical relationship between the criminal justice system in the United States and a segment of society that has traditionally faced official and unofficial discrimination: American racial minorities. Focuses on the experiences of Mexican Americans and African Americans with the criminal justice system.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation          | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only AFR 335 or HST 323 or TCL 335   |
| AFR     | 336         | African Art  | Anthropological perspective of ancient visual art traditions of Africa. In-depth studies focus on several important themes and case studies that are pivotal to the understanding of the rich and diverse artistic heritage of the African continent.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation          | 3     | HU & G          | Prerequisite(s): AFR 200 (or AFS 200) or ASB 102 or minimum 45 hours; Credit is allowed for only AFR 336 (or AFH 336) or ASB 336   |
| AFR     | 340         | The Making of Modern Africa  | Advanced study of the events and processes leading up to the colonization of Africa and the subsequent changes in African societies under colonial rule and independence.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation          | 3     | SB & G & H      | Prerequisite(s): AFR 200 (or AFS 200) or minimum 45 hours  |
| AFR     | 345         | Peoples and Cultures of the Caribbean                                  | Traces the socio-political history of the wider Caribbean from the 15th century to the present. Focuses on the following broad areas: the early years of European settlement and colonization; the construction of slavery and plantation society; and the transition from colonization to political independence. Critically examines the origins and building blocks of Caribbean society as well as analyzes the linkages between the region and the rest of the African diaspora.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation          | 3     | SB & G & H      | Prerequisite(s): AFR 200 (or AFS 200) or minimum 45 hours; Credit is allowed for only AFR 345 (or AFS 345) or JUS 345  |
| AFR     | 350         | Inequality and Diversity in Education                                  | Advanced exploration of various dimensions of diversity in relation to educational systems and outcomes. Through sociological and psychological research, case studies and films, students examine how educational inequality is created and reproduced through individual actions and institutional constraints. Also considers the connection between schooling and human rights and ways in which educational inequality may be addressed.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation          | 3     | L & C           | Prerequisite(s): APA 200, AFR 212 (or AFS 210), APA 210, CDE 232, JUS 210, TCL 210 or minimum 30 hours; Credit allowed for only AFR 350 (or AFS 350), APA 350, CDE 350, JUS 365, SOC 350, TCL 360 or AFS/APA/CED/TCL 394 (Inequality & Diversity in Education) |
| AFR     | 352         | Race, Space and the Production of Inequality                           | Explores how the relationship between race and space has been important to the development of broad patterns of social inequality in the United States. Through a variety of readings, films and other material, examines how ideas of race and space have been important to the making and maintenance of national boundaries, citizenship, regional histories and spatial typologies such as border, ghetto, suburb and prison.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation          | 3     | SB & C          | Pre-requisites: APA 200 (or APA 210); minimum 45 hours; Credit is allowed for AFR 352 or APA 352 or JUS 353 or TCL 353 or APA 394 topic 43   |
| AFR     | 353         | African American Literature: Beginnings through the Harlem Renaissance | Focuses on the history of African American literature through the Harlem Renaissance, as exemplified in selected slave narratives, poems, and fiction.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation          | 3     | (L or HU) & C   | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only AFR 353 (or AFH 353) or AMS 353 or ENG 353 or ETH 353   |
| AFR     | 354         | African American Literature: Harlem Renaissance to the Present         | Examines the literary productions of African Americans from the Harlem Renaissance (about 1920) to the present focusing on fiction, poetry, drama, and essays.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation          | 3     | (L or HU) & C   | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only AFR 354 (or AFH 354) or AMS 354 or ENG 354 or ETH 354   |
| AFR     | 355         | Democracy and Civil Society in Africa                                  | Advanced examination of contending perspectives on the state and civil society of Africa. Course will specifically analyze the democratic struggles in sub-Saharan Africa.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation          | 3     |                 | Prerequisite(s): AFR 200 (or AFS 200) or minimum 45 hours  |

| AFR     | 358         | The Yoruba and the Atlantic World                                   | The Yoruba in the African diaspora is how Africans, separated from their home country and scattered in a new land, managed to retain their traditions and reform their identities. The slave trade led to the spreading of African culture, religion, dance, art and music from one hemisphere to another and contributed to the cultural diversity of the New World. Allows students to trace the experiences of one African cultural group throughout the cycle of the slave experience in the Americas. Utilizes different sources or approaches (e.g., anthropology, archaeology, written document, oral tradition) to provide an understanding of how the Yoruba were integrated into the Atlantic world, the transformations of Yoruba identities and culture, and the strategies for resistance employed by the Yoruba in the New World. | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences   | School of Social Transformation          | 3     |                    | Prerequisite(s): minimum 30 hours; Credit is allowed for only AFR 358 or ASB 358 or AFS 394/ASB 394/HST 394/SGS 394 (Yoruba in the African Diaspora World)   |
| AFR     | 360         | Black Families in the Diaspora: U.S. and Caribbean                  | Within a historical, cultural, social-economic, and international context, the institution of Black families begins with their lives in Africa, South America, and the Caribbean and follows the cultural continuities and adaptations impacting the structure and functioning of contemporary African America families. Theoretical models provide focus to studying voluntary and involuntary migration, family labor force involvement, gender roles, marital relations, parenting, kinship and community networks. Throughout the course attention is given to the role of social policies in shaping the well-being of Black families.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences   | School of Social Transformation          | 3     | SB & C             | Prerequisite(s): AFR 200 (or AFS 200) or FAS 101; Credit is allowed for only AFR 360 (or AFS 360) or FAS 360   |

| AFR     | 490         | Field Studies in the Diaspora                          | Introduces methods and principles of research applied to Black communities within and outside Arizona. Involves working with field officer and faculty.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 3     |                 |   |
| AFR     | 492         | Honors Directed Study                                  | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Social Transformation | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| AFR     | 493         | Honors Thesis  | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Liberal Arts and Sciences | School of Social Transformation | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| AFR     | 494         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 1-4   |                 |   |
| AFR     | 497         | Honors Colloquium                                      | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| AFR     | 498         | Pro-Seminar  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 1-7   | L               | Prerequisite(s): 9 upper-division hours, or AFR 200 (or AFS 200) and minimum junior standing  |
| AFR     | 499         | Individualized Instruction                             | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | Liberal Arts and Sciences | School of Social Transformation | 1-3   |                 |   |
| AFR     | 500         | Research Methods                                       | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AFR     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AFR     | 583         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AFR     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences | School of Social Transformation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AFR     | 590         | Reading and Conference                                 | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | Liberal Arts and Sciences | School of Social Transformation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AFR     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AFR     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Social Transformation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AFR     | 593         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Social Transformation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AFR     | 594         | Conference and Workshop                                | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AFR     | 595         | Continuing Registration                                | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences | School of Social Transformation | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AFR     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AFR     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | IND               | Y               | Z2            | Liberal Arts and Sciences | School of Social Transformation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AFR     | 600         | Research Methods                                       | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AFR     | 680         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AFR     | 683         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AFR     | 684         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AFR     | 690         | Reading and Conference                                 | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | Liberal Arts and Sciences | School of Social Transformation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|-------------------------------|---------------------------------|-------|-----------------|--|
| AGB     | 422         | Consumer Behavior                        | Applies behavioral concepts in analyzing consumer food purchases and their implications for marketing strategies.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): AGB 321, FIN 300, or TMC 320                        |
| AGB     | 425         | Food Supply Networks                     | Information, methods and resources used in the management of global food supply networks. Emphasizes systems of food marketing and distribution from the farm to the consumer.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): AGB 250 or ECN 212                                  |
| AGB     | 429         | Marketing Research                       | Examines the marketing research process and its role in facilitating agribusiness decisions. Emphasizes problem identification, survey design, and data analysis.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): AGB 321 with C or better; MKT 300 with C or better  |
| AGB     | 431         | Agribusiness Financial Management        | Comprehensive treatment of topics in financial management of agribusiness: capital structure, dividend policy, asset valuation, mergers and acquisitions, risk management.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): AGB 321, FIN 300 or TMC 320                         |
| AGB     | 433         | Agribusiness Financial Markets           | Role and function of agribusiness in U.S. financial system. Topics include rural banking, farm credit system, monetary policy, and federal reserve.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): AGB 333 or FIN 300                                  |
| AGB     | 435         | Commodity Futures and Options Markets    | Provides an understanding of how to use futures and options markets in a risk management and pricing context, especially as it pertains to the marketing and procurement of agricultural commodities by grain and livestock merchandisers, food manufacturers, and producers/distributors/consumers of natural resources.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): AGB 250 or ECN 212                                  |
| AGB     | 440         | Food Safety                              | Control, prevention, and prediction of microbial and chemical food-borne diseases.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 |  |
| AGB     | 445         | Food Retailing                           | Critical examination of trends, problems and management functions of food retail managers across various retail institutions. Emphasizes the biological nature of food products and the dietary preferences of consumers.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): AGB 321 or MKT 300 or MKT 302 or MKT 303 or MKT 390 |
| AGB     | 452         | Global Food and Agricultural Policy      | Applies international trade theory to analyze the effects of government policies and trade agreements on the global food and agribusiness sector.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): minimum 45 hours                                    |
| AGB     | 454         | Global Food and Agribusiness Trade       | Business practices of multinational food and agribusiness firms in the cross border trading of agricultural commodities, technology and value-added products and services.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): AGB 302   |
| AGB     | 456         | Food Product Innovation and Development  | The food product development process and how it interfaces with food technology and packaging concepts. Emphasizes the team approach, which is prevalent in the food industry.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): AGB 321 or MKT 300 or MKT 302 or MKT 303 or MKT 390 |
| AGB     | 481         | Strategic Pricing in Food Markets        | By applying the basic concepts of microeconomics to real-world data, this course allows the student to not only gain a book-oriented understanding of how businesses in the food industry behave, but practical, hands-on experience that lasts far beyond the classroom.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): AGB 250 or ECN 212                                  |
| AGB     | 484         | Internship                               | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Morrison School of Agribusiness | 1-12  |                 |  |
| AGB     | 492         | Honors Directed Study                    | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Morrison School of Agribusiness | 1-6   |                 | Prerequisite(s): Barrett Honors student                              |
| AGB     | 493         | Honors Thesis                            | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | W.P. Carey School of Business | Morrison School of Agribusiness | 1-6   | L               | Prerequisite(s): Barrett Honors student                              |
| AGB     | 494         | Special Topics                           | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 1-4   |                 |  |
| AGB     | 498         | Pro-Seminar                              | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 1-7   |                 |  |
| AGB     | 499         | Individualized Instruction               | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Morrison School of Agribusiness | 1-3   |                 |  |
| AGB     | 500         | Research Methods                         | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 1-12  |                 |  |
| AGB     | 511         | Advanced Agribusiness Management         | Analysis of organization behavior, change, and resource requirements within agribusiness systems.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student       |
| AGB     | 514         | Advanced Agribusiness Analysis           | Vertical integration and differentiation in food and agricultural industries.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student       |
| AGB     | 528         | Advanced Agribusiness Marketing          | Theory and analysis of marketing strategy related to food and fiber products. Covers concepts of strategic market planning (e.g., segmenting, targeting and positioning), with application of these concepts at an advanced level. Also examines the broad social, cultural, political and economic issues that impact marketing.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student       |
| AGB     | 529         | Advanced Agribusiness Marketing Channels | Analyzes agribusiness market channel systems. Formulation of marketing strategies.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student       |
| AGB     | 532         | Advanced Agribusiness Finance            | Financial management of agribusiness firms; agribusiness financial analysis, investment analysis, agricultural risk management, and introduction to agricultural financial intermediaries.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student       |
| AGB     | 535         | Commodity Analysis                       | Analysis of commodity markets.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student       |
| AGB     | 552         | International Agricultural Policy        | Uses international trade theory to analyze the effects of government policies, trade agreements, and exchange rates on agribusiness.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student       |
| AGB     | 554         | Advanced International Trade             | Advanced international practices in trading of agribusiness, technology, and resource products and services.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student       |
| AGB     | 560         | Advanced Agribusiness Management Systems | Development and use of decision support systems for agribusiness management decision making.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student       |
| AGB     | 561         | Applied Econometrics                     | Uses model building, hypothesis testing, and empirical analysis in solving agribusiness problems.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Morrison School of Agribusiness | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student       |

| AIS     | 375         | Innovation for American Indian Sustainability       | American Indian tribes are poised at an historic opportunity to accelerate innovation within their communities. Many tribal leaders have stated that to create true sustainability, tribes need to practice innovation and sustainable development in a manner that is a cultural match to their traditions and values. Examines topics directly associated with creating tribal economies with innovation, entrepreneurial and sustainability in an American Indian context as key factors. Consists of class lectures, guest speakers, student discussion, individual and group teamwork, and presentations. Participants form into teams to identify, develop and define an innovative product or service idea that addresses a significant need in Indian Country that can be addressed through innovation.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only AIS 375 or AIS 394 (Innovation for American Indian Sustainability)                                 |
| AIS     | 380         | Contemporary Issues of American Indian Nations      | Surveys legal, socioeconomic, political, and educational state of contemporary reservation and urban Indians.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | American Indian Studies Program | 3     | C               |   |
| AIS     | 381         | American Indian Women                               | Draws from a diverse range of Indigenous critical traditions to examine discourses of gender, identity, and sexuality as sites of cultural revitalization and conflict and theorizes the meaning of each of these categories from diverse Indigenous communities. Considers contemporary and traditional works by Indigenous women with a special emphasis on the historical, socio-cultural, and legal contexts of each work.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | American Indian Studies Program | 3     | C               | Prerequisite(s): WST 100, 300, or AIS 180 with C or better OR Corequisite(s) if completed 30 hours or more: AIS 180, or WST 100 or 300; Credit is allowed for only AIS 381 or WST 382 |
| AIS     | 385         | Entrepreneurship for American Indian Sustainability | Concentrates on developing a product or service idea, creating an entrepreneurial model and plan to implement the product or service in the context of an AI sustainable venture (profit and nonprofit). Begins with a review of established AI context with additional focus on tribal economic development throughout the course. The innovation process executed during the semester and the resulting product/service ideas and choices. Students are also encouraged to embark on new venture ideas as well. Students are then introduced to all aspects of venture (profit and non-profit) and entrepreneurial model creation, including strategy, product/service development planning, marketing, operations, alliances, management, finance and investment. In parallel, teams continue refinement and, where possible, further prototyping of the idea they chose from the previous semester and/or creation of new high-impact, high-potential ideas. | N                 | LEL               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only AIS 385 or AIS 394 (Entrepreneurship for American Indian Sustainability) or SOS 380                |
| AIS     | 394         | Special Topics                                      | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | American Indian Studies Program | 1-4   |                 |   |
| AIS     | 420         | American Indian Studies Research Methods            | Surveys diverse research methods, including statistical, historical, interpretative, and narrative approaches.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | American Indian Studies Program | 3     | L               | Prerequisite(s): AIS 180 with C or better   |
| AIS     | 430         | Contemporary Indigenous Spirituality                | Why do so many indigenous people across North America want to revitalize their traditional ways when there is supposedly so much opportunity awaiting them in all segments of American society? What are the benefits of such an endeavor and what might be the consequences if this objective is not pursued? This course is premised on the hypothesis that indigenous customs and beliefs contain knowledge that is not only vital to the well-being of the communities in which this native wisdom is found, but also to those communities seeking a more sustainable way of living in the land they call home. After delving into a critique of the religious principles that went into the settling of America, complete with notions of manifest destiny, a way is opened for a more native-oriented discourse on community, nature, economy, and politics.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): ENG 102, 105 or 108 with C or better; minimum junior standing; Credit is allowed for only AIS 430 or 494 (Ind Spirituality in Postmodern)                            |
| AIS     | 440         | Cultural Professionalism                            | Emphasizes professional and leadership skills to prepare students for academic and career endeavors after undergraduate degree completion. Explores indigenous perspectives on communication, research, professional and leadership skills. Research focuses on addressing the needs of Arizona Indian Nations and Tribes and culminates in a research paper, in-class presentation and community development poster presentation. Showcases research posters in a research symposium in which guests vote on the most innovative and practical poster proposal.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     | C               | Prerequisite(s): minimum junior standing; Credit is allowed for only AIS 440 or AIS 494 (Cultural Professionalism)  |
| AIS     | 455         | Human Rights and Cultural Resource Laws             | Examines how U.S. laws, policies, executive orders, and court decisions have affected Indian nations and peoples in matters of cultural resources and burial rights. Considers the protests, legal battles, and political campaigns Indians have waged to reaffirm their fundamental human rights in the areas of repatriation and sacred sites protection. Examines the ways in which filmmakers and the media present these issues to the public. Assesses the present status of Indian religious rights and cultural resource laws. Sovereignty and its relationship to Indian spirituality is a theme that permeates the course.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): ENG 102, 105 or 108 with C or better; minimum junior standing; Credit is allowed for only AIS 455 or 494 (American Indian Cultural Resources)                        |
| AIS     | 470         | Tribal Governance                                   | Critical and historical examination of Indigenous governance and leadership. Includes a survey of historical policy developments and political change that laid the foundation for contemporary Indian government and an assessment of the effectiveness of modern tribal administrations and decision-making bodies. Explores the diverse approaches to tribal governance, community-based political strategy and local interpretations and assertions of sovereignty and self-governance. Project work facilitates focused student learning on the challenges and opportunities in government for a specific Indian nation. Case work and consultation with practitioners in Indian government complement textbook reading in law, history and policy.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Pre-requisite: AIS 285; Credit is allowed for only AIS 470 or AIS 494, Tribal Governance  |
| AIS     | 480         | Actualizing Decolonization                          | Provides an in-depth investigation of the theory and concepts of colonization, decolonization, and Indigenous peoples in America, with brief comparisons with global Indigenous peoples and experiences. Covers classic scholarly works on colonization and decolonization to understand the frameworks in which colonization and decolonization develops, expands, and impacts Indigenous peoples. Through that theoretical understanding, examines and formulates ways in which decolonization can impact and be integrated into Indigenous lives and communities. Students shift from theory to praxis by writing and presenting on an informal grant proposal for a decolonizing project that can be implemented in an Indigenous or non-Indigenous community.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | American Indian Studies Program | 3     | HU & C & G      | Pre-requisites: ENG 101; ENG 102; Junior standing; Credit is allowed for only AIS 480 or 494 (Readings-Decolonization)  |

Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.  | Y                 | IND               | Y               | Z1            | Liberal Arts and Sciences | American Indian Studies Program | 1-3   |                 |  |
| AIS     | 501         | American Indian Studies Paradigms                       | American Indian Studies emerged as an academic discipline in the late 1960s in part because of increasing dissatisfaction among Indians about the works of historians, anthropologists, and other scholars that was very often marred by methodological and conceptual flaws. Course provides an overview of ways of "doing" Indian studies from an American Indian Studies paradigm(s) through a critical examination of some of the most significant works emanating from this growing body of literature. Critiques paradigms that selected scholars have employed in the researching and writing of their topics. Seminar format allows students to take the lead in discussing each week's readings. Covers a range of scholarship dealing with American Indian issues; explores the development of American Indian Studies as an academic discipline; probes paradigms that Indigenous scholars have developed; and considers how those paradigms differ from those used by other disciplines. | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AIS     | 502         | American Indian Studies Research Methods                | Prepares students for thesis research, writing, and completion. Surveys graduate research methods in the field of American Indian Studies including historical, interpretative, and narrative approaches. Focuses on methodological issues specific but not limited to American Indian and Indigenous Studies. Focuses on Indian-centered methodological approaches to research that are essential to qualitative writing of the various topics in Indian country and other issues.  | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AIS     | 503         | Contemporary Issues of American Indian Nations          | Provides an overview of the current status of American Indian Nations with regard to sovereignty, policy, politics, economy, and society. An exploration of current issues illustrates the unique challenges and innovative solutions put forth by Indian communities.   | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AIS     | 504         | American Indian Film and Activism                       | Examines the American Indian film and activism with emphases on American Indian production, directing, editing, investigative journalism, documentary film, entertainment, and research. Exposes students to the development of activism in film and how film has been utilized to educate, inspire, and contribute to the challenges in Indian Country.   | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AIS     | 505         | Contemporary Visual Arts of American Indians            | Focuses on a critical analysis of art, film, and media as they intersect with shaping the image and sustaining the culture of American Indians in North America. Examines the persistent and inappropriate stereotypes of American Indians as portrayed in film and media, including explanations for the persistence of negative stereotypes drawing on various aspects of critical race theory including power, politics, and race. Also introduces the scope and diversity of American Indian art and artists and highlights how native artists portray their views and culture through contemporary image making and representations. Stresses the interplay of art with sovereignty, identity, and politics. Emphasizes the powerful and significant connection between contemporary American Indian art and the persistence of indigenous cultures.  | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AIS     | 506         | Indigenous American Literature and the Tribal Community | Teaches Indigenous (Indian, Native American, First Nations) literature's role in Indigenous history, cultural history, philosophy, society, culture, and developing cultural traditions. Students learn how tribal communities articulate themselves intellectually and artistically through literature and its development locally, nationally, and internationally.  | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AIS     | 508         | Revitalizing Indigenous Languages                       | Critically examines Indigenous languages, their decline and revitalization from a language ecology and a self-determination perspective. Includes historical, sociopolitical, educational, linguistic, sociolinguistic, and cultural issues that have had and continue to impact Indigenous peoples and their languages worldwide and their reclamation efforts. Also examines various epistemologies, theories, ideologies, and practices of Indigenous people (including American Indian, Indigenous Alaskan, Hawaiian, Maori, Quechua). Topics include: language policy and planning, language acquisition, child language socialization, identity development, bilingual education, Indigenous language pedagogy, and current models and approaches for Indigenous language maintenance and revitalization (ILMR).   | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AIS     | 509         | American Indian and Indigenous Rights                   | Examines the rights of American Indian peoples with an emphasis on asserting indigenous rights in national as well as international forums. Challenges students to address issues related, but limited to: treaty rights, land rights, water rights, self-determination, rights to a distinct culture, religion, language, spiritual practices, customs, ceremonies, nationhood, autonomy, to seek redress and justice, rights to education, rights to protect from destruction and violence, rights to economic development, rights to protect lands from military, ecological, cultural, and environmental threats, and other rights that may effect the lives of American Indian people.  | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |

|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|---------------------------------|-------|-----------------|--|
| AIS     | 510         | Social Change in American Indian Communities           | Committed to the preservation of political autonomy and cultural identity, American Indian communities are increasingly gaining rule over the effects of social change impinged upon them. Recapturing their histories and redefining colonial relationships, they are forging a preferred future grounded in their own traditional institutions of community, religions, and strengthening of self-determination. Provides students with: (1) an understanding of the enduring struggle of American Indian communities to resist the movement of collective assimilation and retain the right of self-determination; (2) an examination over time of social changes in American Indian communities' social structures and their political and social movements towards the establishment of environmental, economic, and social justice; and (3) knowledge of strategies and tactic for achieving social change within American Indian communities that support Indian self-determination and self-governance.                     | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AIS     | 511         | Genders and Sexualities in American Indian Societies   | Grounds students in the theory and concepts of American Indian genders and sexualities. In American Indian societies, there were more than two genders. With colonization through laws, boarding schools, and loss of culture, language, and land, these different genders were attacked and made to disappear. Examine the concepts of gender and sexuality from Native perspectives and theory, and through western imperial views. Also covers the ways in which decolonization plays a role in understanding indigenous genders and sexualities.  | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AIS     | 512         | Historical Trauma, Healing, and Decolonization         | In recent years, scholars have begun to explore the prevalence of historical trauma among American Indian communities. This research argues that the genocide, violence, breakdown of customary cultures through external coercion; and oppression that Indians continue to face at the hands of foreign colonizers has left Indians with harmed with intergenerational self-destructive behavior, domestic violence, suicide, anxiety, depression, low self-esteem, and anger. As a result of this violence and oppression, they have developed models of recovering healthy nations while challenging violations of their human rights in the domestic and international arenas. This history has given rise to a widespread cultural revitalization movement often referred to as decolonization. Scholars from an array of academic disciplines are producing a growing body of literature about decolonization.  | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AIS     | 513         | Urban Indian Issues                                    | According to the 2010 Census, 64.1% of the American Indian/Alaskan Native population resides in a place outside of tribal areas. Cities such as Los Angeles, New York, and Phoenix have historically counted more than 25,000 American Indian residents. What draws Indigenous families to urban areas? How does an urban address impact the federal trust relationship with nonreservation Indians? What are the social, political, and economic implications for a family who lives off the reservation and away from tribal homeland? Course explores these issues and dynamics and challenges the student to examine the unique identity and contributions of urban Indians. Students learn the history of Indigenous migrations to the city and assess current needs and concerns through consultation work coordinated with Phoenix area Indian Centers and nonprofit organizations.  | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AIS     | 514         | American Indian Intellectuals                          | Does it make sense to speak about American Indian "intellectuals," "thinkers," or "philosophers"? Not only have Indians been thinking and thinking deeply for generations, but they have produced a body of written works that have formed the foundation of contemporary American Indian studies. Course covers some of the major figures, their works, and the ideas and opinions (many of which were controversial) that shaped their thinking.  | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AIS     | 515         | The Work and Legacy of Vine Deloria, Jr                | Vine Deloria, Jr, Standing Rock Sioux (1933-2005) has often been referred to as "Uncle Vine" for his role in the intellectual development of innumerable scholars, as well as legal and political figures, all of whom have striven along side Deloria at making the world a better and more just place for indigenous communities. As such, Deloria has also been labeled "the Dean of American Indian Studies" because of his work at shaping the intellectual and political agenda, which began in 1969 with the seminal publication of Custer Died for Your Sins: An Indian Manifesto and continued posthumously with works on the medicine man traditions throughout North America and a reflection on Carl Gustav Jung's analyses of american indian customs and beliefs. this seminar, the first of its kind, takes a comprehensive look at Deloria's philosophical and legalistic legacy by examining his major works and analyzing, in addition to critiquing, the ideas and opinions that shaped his intellectual career. | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AIS     | 516         | Concepts of Power and Indigeneity                      | Grounds students in the theory and concepts of power and indigeneity with comparisons with global Indigenous peoples and experiences. Through that theoretical understanding, examines and understands ways in which these concepts impact Indigenous communities and formulates ways in which to develop practical ways to address these issues.   | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AIS     | 517         | Customary Tribal Law and Governance                    | Examines traditional governance systems, institutions, and cultures of American Indians, with emphasis on customary law, justice, and government.   | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AIS     | 518         | Tribal Jurisdiction                                    | Examines traditional governance systems, institutions, and cultures of American Indians, with emphasis on customary law, justice, and government.   | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| AIS     | 519         | Burial Rights, Repatriation, and Sacred Places Matters | Probes U.S. laws and policies, court cases, and Indian struggles for dignity, burial rights, repatriation, and religious freedom from the late 1800s to the present. Examines developments in the United Nations and international arena pertaining to Indigenous human rights, religious freedom, repatriation, and sacred places protection. U.S. policies, laws, practices, court decisions, land developers, pot hunters, and archaeologists have restricted the human rights of American Indians in term of burial rights and religious freedom. Congress has enacted cultural resource and environmental protection laws, religious freedom, and reburial laws that aim to regulate the use and abuse of cultural resources and Indian rights.  | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |

| AIS     | 521         | American Indian Leadership and Resistance                            | Examines the modern leadership struggles in American Indian communities with a foundation of traditional concepts of leadership. Topics include leadership qualities and systems pre-contact, federal-tribal relations, state-tribal relations, tribal politics, internal disputes, activism, mobilization, cultural continuity, social change, community leadership, political/elected leadership, diplomacy, political agendas, and other topics related to American Indian leadership and resistance.  | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences    | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AIS     | 522         | Tribal Governance  | Explores American Indian leadership, political ideology, and the history and current state of tribal government. What makes tribal governments tick? Examines past and present challenges faced by leaders and members of indigenous communities. Brainstorms potential strategies for the further enhancement, protection, and assertion of this indigenous "brand" of governance. How do politics, policy development and the ever-changing face of indigenous sovereignty impact the way we think about governance? How can we educate and inspire tribal communities to have greater ownership and interest in government? Students engage with the current research, debate the issues, and learn from people who provide governance to indigenous communities. Case studies focus on specific issues in local communities. Individual portfolio project work facilitates learning and the articulation of leadership and governance as practiced by one particular tribe of your choice.  | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences    | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AIS     | 523         | Community Development with American Indian Communities               | Tribal community development is more complicated than large urban population centers or even rural communities because tribal communities continue to struggle with years of colonial, paternalistic, and assimilationist federal policies that have impeded their efforts to become self-determined and self-governing nations. Provides students with the knowledge and skills they need to support community development in American Indian communities within a self-determined and self-governing context. Content includes: (1) a framework for review of current economic, political, social, and cultural issues facing American Indian communities; (2) an overview of community development theories, of the underlying values behind those ideas, and of the linkages between theory and practice in American Indian and other Indigenous communities; and (3) a sampling of intervention strategies and tactics for effective community development in American Indian communities. | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences    | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AIS     | 524         | Indian Control of Indian Education: Tribal Colleges and Universities | Examines American Indian control of education from a tribal college and university perspective. Focuses on the tribal college movement, including the historical and contemporary political, policy, research, and best practices that have influenced and sustained tribal colleges and universities.  | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences    | American Indian Studies Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AIS     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | American Indian Studies Program | 1-12  |                 |   |
| AIS     | 590         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | American Indian Studies Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AIS     | 595         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences    | American Indian Studies Program | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AIS     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | American Indian Studies Program | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AIS     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences    | American Indian Studies Program | 1-12  |                 |   |
| ALA     | 100         | Introduction to Environmental Design                                 | Surveys environmental design: includes historic examples and the theoretical, social, technical, and environmental forces that shape them.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 3     | HU & H & G      | Credit is allowed for only ALA or PUP 100   |
| ALA     | 102         | Landscapes and Sustainability  | Surveys ideas relating to landscapes and sustainability and the role of landscape architecture in the creation of humanized environments.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 3     | HU & G          |   |
| ALA     | 121         | Design Fundamentals I  | Development of visual literacy. Introduces drawing and graphic representation as methods of seeing and problem solving.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 3     |                 | Prerequisite(s): Architectural Studies, Environmental Design, Interior Design, or Landscape Architecture major; Credit is allowed for only ALA 121 or INT 120                                     |
| ALA     | 122         | Design Fundamentals II   | Exercises in basic design, stressing creative problem-solving methods, principles of composition, and aesthetic evaluation. Development of vocabulary for environmental design.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 3     |                 | Prerequisite(s): ALA 121 with C or better; Architecture, Environmental Design or Landscape Architecture major. Corequisite(s): ALA 124  |
| ALA     | 124         | Design Fundamentals II Lecture                                       | Theory and applications of basic design principles, history and theory of how architecture and landscape architecture design is impacted by basic design.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 1     |                 | Prerequisite(s): Architectural Studies, Environmental Design, Interior Design, or Landscape Architecture major; Corequisite(s): ALA 122 or INT 221; Credit is allowed for only ALA 124 or INT 222 |
| ALA     | 194         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School               | 1-4   |                 |   |
| ALA     | 225         | Design Fundamentals III  | Applies history and theory of design fundamentals with an emphasis on architectural and landscape architectural design issues.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 4     |                 | Pre-requisites: Architecture or Landscape Architecture student; ALA 122 with C or better; Passed milestone; Co-requisite: ALA 235   |
| ALA     | 226         | Design Fundamentals IV   | Basic design, stressing creative problem-solving methods, principles of composition, and aesthetic evaluation. Development of vocabulary for environmental design.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 4     |                 | Prerequisite(s): ALA 225 with C or better   |
| ALA     | 235         | Introduction to Computer Modeling                                    | Fundamentals of computer operation, geographic information systems, geometric modeling of 3-D forms and rendering of light, mathematical modeling of processes using spreadsheets.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 3     | CS              | Prerequisite(s): Architecture or Environmental Design or Landscape Architecture major; Corequisite(s): ALA 225 or EDS 200 or LDE 261  |

| ALA     | 240         | Sustainable Design in Built Environment          | Reviews the physical principles used in the design of sustainable buildings, landscapes, and urban environments.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School                        | 3     |                 |   |
| ALA     | 294         | Special Topics                                   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                        | 1-4   |                 |   |
| ALD     | 101         | Introduction to Aging Issues                     | Introduces students to general issues of aging, including theoretical background, influences of earlier-life experiences, physical changes, social policies, relationships in midlife and beyond, living options, caregiving, and retirement.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 3     | SB              |   |
| ALD     | 191         | First-Year Seminar                               | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-3   |                 |   |
| ALD     | 194         | Special Topics                                   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-4   |                 |   |
| ALD     | 202         | Field Placement I                                | Provides students an opportunity to work directly with older adults in a variety of settings.   | N                 | PRA               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1     |                 | Prerequisite(s): ALD 101 with C or better   |
| ALD     | 203         | Field Placement II                               | Provides students an opportunity to work directly with older adults in a variety of settings.   | N                 | PRA               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1     |                 | Prerequisite(s): ALD 101 with C or better; ALD 202  |
| ALD     | 204         | Field Placement III                              | Provides students an opportunity to work directly with older adults in a variety of settings.   | N                 | PRA               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1     |                 | Prerequisite(s): ALD 101 with C or better; ALD 202; ALD 203   |
| ALD     | 294         | Special Topics                                   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-4   |                 |   |
| ALD     | 301         | Research Methods in Aging                        | Examines social science approaches to the study of aging. Includes particular methodological issues that must be considered when studying older adults.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1     |                 | Prerequisite(s): ALD 101 with C or better   |
| ALD     | 394         | Special Topics                                   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-4   |                 |   |
| ALD     | 403         | Aging, Lifespan Development, and the Family      | Analyzes aging issues and their effects on family members of older adults. Integrates social policy, health, and relational factors.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 3     |                 | Pre-requisites: Minimum 60 hours (including 6 hours of PSY and/or SOC).   |
| ALD     | 404         | Sexuality in Mid-Life and Beyond                 | Analyzes physical changes, myths and stereotypes, gender issues, and relationship issues pertaining to sexuality in the middle and older adult years.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 3     |                 | Pre-requisites: Minimum 60 hours (including 6 hours of PSY and/or SOC).   |
| ALD     | 420         | Health Issues and Older Adults                   | Analyzes and synthesizes the biological, social, and behavioral aspects of health and healthcare delivery in the later adult years.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 3     | SB              | Pre-requisites: Minimum 60 hours (including 6 hours of PSY and/or SOC); Credit is allowed for only ALD 420, 520 or FAS 421                                      |
| ALD     | 431         | Caregiving for Older Adults                      | In-depth analysis of the theory and practice of caregiving for the senior population. Integrates multiple perspectives (family caregivers, professionals, paraprofessionals, government, and industry policies).  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 3     |                 | Pre-requisites: Minimum 60 hours (including 6 hours of PSY and/or SOC); Credit is allowed for only ALD 431, 531 or FAS 421                                      |
| ALD     | 440         | Social Policy and Aging                          | Critical analysis and evaluation of the historical, socio-political, and economic issues that are specific to older Americans. Includes federal, state, and local policy issues.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 3     |                 | Pre-requisites: Minimum 60 hours (including 6 hours of PSY and/or SOC).   |
| ALD     | 460         | Alzheimer's and Related Dementias                | In-depth analysis of Alzheimer's disease and related dementias from a caregiver's perspective.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 3     |                 | Pre-requisites: Minimum 60 hours (including 6 hours of PSY and/or SOC).   |
| ALD     | 472         | Women, Aging, and the Life Course                | Critical evaluation of issues affecting women as they age, including media messages, cultural differences, economic issues, and relationships.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 3     |                 | Pre-requisites: Minimum 60 hours (including 6 hours of PSY and/or SOC).   |
| ALD     | 484         | Internship                                       | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-12  |                 |   |
| ALD     | 493         | Honors Thesis                                    | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| ALD     | 494         | Special Topics                                   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-4   |                 |   |
| ALD     | 498         | Pro-Seminar                                      | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-7   | L               |   |
| ALD     | 499         | Individualized Instruction                       | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-3   |                 |   |
| ALD     | 500         | Research Methods                                 | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ALD     | 505         | Perspectives on Aging and the Life Course        | Overview of general issues of aging, including theoretical background, influences of earlier-life experiences, physical changes, social policies, relationships in mid-life and beyond, living options, caregiving, and retirement. Requires applied project.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ALD     | 520         | Health Aspects of Aging Adults                   | Examines biological, social, and behavioral aspects of health in the later years, and the organization and delivery of care. Includes an emphasis on wellness.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Pre- or corequisite(s): ALD 505 with C or better; Credit is allowed for only ALD 420 or ALD 520 |
| ALD     | 525         | Mental Health in Midlife and Beyond              | Focuses on the psychological, emotional, and cognitive changes as individuals age. Includes assessment and treatment.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ALD     | 531         | Caregiving Issues for Families and Professionals | Examines the issues of caregiving by family members, in-home aids, and professionals in care facilities. Focuses on issues related to providing care to older adults in a variety of settings. Includes social policy toward caregiving, caregiver stress and reward, the role of social workers, and cultural concerns.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 3     |                 | Pre- or corequisite(s): ALD 505 with C or better if completed; Credit is allowed for only ALD 431 or ALD 531 or FAS 421   |
| ALD     | 535         | Physical Activity and Aging                      | Examines and discusses the theoretical and applied health-related research on physical activity and aging.  | N                 | REC               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ALD     | 540         | Public Policy Issues and Aging                   | Examines in detail the historical, socio-political, and economic issues that are specific to older Americans at the federal, state, and local levels. Requires applied project.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ALD     | 545         | Elder Abuse and Neglect                          | Provides a comprehensive review of crimes against older adults. Includes all types of abuse and neglect, as well as prevention, intervention, and public policy.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ALD     | 560         | Dementia   | Thorough examination of dementia and dementia syndromes, including Alzheimer's disease. Includes the complexity and diversity of behaviors that define dementia, and implications for planning interventions.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only ALD 460 or 560   |
| ALD     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department                               | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|------------------------------|--|-------|-----------------|--|
| ALD     | 583         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ALD     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ALD     | 590         | Reading and Conference                                      | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ALD     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ALD     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ALD     | 593         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ALD     | 594         | Conference and Workshop                                     | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ALD     | 595         | Continuing Registration                                     | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ALD     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ALD     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | N                 | LEC               | Y               | Z2            | Liberal Arts and Sciences    | School of Aging and Lifespan Development | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ALT     | 194         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                     | 1-4   |                 |  |
| ALT     | 360         | Renewable Energy Technologies: Fundamentals and Integration | Technical fundamentals, economic, and social aspects of renewable energy technologies with emphasis on solar cells, hydrogen economy, and fuel cells.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                     | 3     |                 | Pre-requisites: MAT 266; PHY 112; CHM 113  |
| ALT     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                     | 1-4   |                 |  |
| ALT     | 401         | Hydrogen Generation, Storage, and Distribution              | Overview of primary technologies, economic aspects, and social policy issues related to development of hydrogen systems and hydrogen economy.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                     | 3     |                 | Pre- or corequisite(s): ALT 360. Credit is allowed for only ALT 401 or ALT 501   |
| ALT     | 405         | Power Conditioning  | Fundamentals of power electronics; DC-DC converters and DC-AC inverters; battery charge controllers. Lab experience.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                     | 3     |                 | Pre-requisites: EST 310; Credit is allowed for only ALT 405 or 505   |
| ALT     | 410         | Solar Cells and Module                                      | Basic device physics and engineering of solar cells. Lab experience on fabrication, characterization, and testing of solar cells and module.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                     | 3     |                 | Pre-requisite: UET 331   |
| ALT     | 412         | Village Energy Systems                                      | The role of energy resources in economic development. The need for and use of energy at the Base of the Economic Pyramid (BoP). Individual Problem Based Learning (PBL) investigations of potential solutions to energy-poverty at the BoP.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering    | Engineering Programs                     | 3     |                 | Prerequisite(s): Senior Standing in Engineering, Engineering Technology, Mathematics or another Science-based curriculum. Credit is allowed for only ALT 412 or ALT 494 (Village Energy Systems) |
| ALT     | 420         | Electrochemical Energy Technologies                         | Thermodynamic and electrochemical principles of fuel cells. Hands-on experience on fabrication and testing of fuel cells; problem solving skills.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                     | 3     |                 | Pre-requisites: CHM 113; ALT 360   |
| ALT     | 435         | Applied Photovoltaics                                       | Overview of solar radiation, operating principles of photovoltaics, qualitative analysis on influencing parameters. market trends, basics of PV systems.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                     | 3     |                 | Pre-requisites: ALT 360; ALT 410 (not required for BAS students); Credit is allowed for only ALT 435 or 535  |
| ALT     | 445         | Automotive and Stationary Fuel Cell Systems                 | Practical overview of fuel cell systems for stationary, residential, and transportation applications based on load and duty cycle requirement of specific application.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                     | 3     |                 | Pre-requisites: ALT 360; CHM 113; Credit is allowed for only ALT 445 or 545  |
| ALT     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                     | 1-4   |                 |  |
| ALT     | 502         | Batteries for Portable Electronics                          | Theoretical and practical overview of primary, secondary, and lithium batteries. Key performance characteristics, construction materials, typical applications, recycling, and disposal.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                     | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ALT     | 503         | Fuel Cells for Portable Electronics                         | Overview of electrochemistry, portable electronics industry, principles of fuel cells, and prospects for micro fuel cells.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                     | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ALT     | 505         | Power Conditioning  | Fundamentals of power electronics, DC-DC converters and DC-AC inverters, battery charge controllers.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                     | 3     |                 | Credit is allowed for only ALT 405 or 505  |
| ALT     | 507         | Evaluations of Photovoltaic and Fuel Cell Systems           | Field testing, data collection, and evaluation of real-world photovoltaic and fuel cell systems available on campus and data analysis.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                     | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ALT     | 512         | Village Energy Systems                                      | Establishes leadership in the development of energy resources at the Base of the Economic Pyramid (BoP). Individual Problem-Based Learning (PBL) investigations of potential solutions to energy-poverty at the BoP.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering    | Engineering Programs                     | 3     |                 | Prerequisite(s): Graduate Standing in Engineering, Engineering Technology, Mathematics or another Science-based curriculum; Credit allowed for only ALT 512 or ALT 598 (Village Energy Systems)  |
| ALT     | 515         | Alternative Energy Reliability and Standards                | Alternative energy systems and their reliability issues, accelerated life and safety testing, standards and codes, regulatory requirements.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                     | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ALT     | 535         | Applied Photovoltaics                                       | Term projects, overview of solar radiation, operating principles, qualitative analysis on influencing parameters, market trends, basics of PV systems.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                     | 3     |                 | Pre-requisites: Graduate status; Credit is allowed for only ALT 435 or 535   |
| ALT     | 545         | Automotive and Stationary Fuel Cell Systems                 | Practical overview of fuel cell systems for stationary, residential, and transportation applications based on load and duty cycle requirement of specific applications.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                     | 3     |                 | Pre-requisites: Graduate status. Credit is allowed for only ALT 445 or 545   |
| ALT     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                     | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AME     | 101         | ASU Digital Culture Experience                              | Orientation to the Digital Culture program with emphasis on resources for academic success.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T        | 1     |                 | Prerequisite(s): Herberger Institute for Design and the Arts Digital Culture BA major; Credit is allowed for only AME 101 or AME 194 (ASU Digital Culture Experience)                            |

ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                               | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department                        | Units | General Studies | Requirements   |
|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|------------------------------|-----------------------------------|-------|-----------------|--|
| AME     | 111         | Introduction to Digital Culture            | Examines the effects of digital technology on the way we live, communicate, learn, and create. Proposes that we are moving towards a hybrid (physical-digital) existence and culture. Traces that evolution, looks at current examples of hybrid cultural processes and outcomes, and discusses possible future trends. Discusses how these changes are influencing the work and career possibilities of people involved in all aspects of human culture. Comprises diverse readings, media products, class interaction, group discussion and hands-on collaborative projects exploring concepts covered in class. Also includes a number of guest lectures from ASU faculty.  | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     | CS              | Credit is allowed for only AME 111 or 194 (Introduction to Digital Culture)  |
| AME     | 112         | Computational Thinking for Digital Culture | Introduces fundamental concepts relevant for understanding computation. What are algorithms and how can computer code express them? Basics of how real-world signals are captured, encoded, recorded, retrieved and decoded. Designed for students with little or no background in programming.  | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Credit is allowed for only AME 112 or 194 (Computational Thinking for Digital Culture)   |
| AME     | 120         | Digital Culture Studio                     | Provides advice on career preparation and industry skills through a series of guest lectures. Sample topics include resumes, personal Websites and portfolios, how to pitch a project idea, and topics chosen by guest industry presenters.  | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1     |                 | Credit is allowed for only AME 120 or AME 194 (Digital Culture Studio)   |
| AME     | 130         | Prototyping Dreams                         | How do you build your dreams? Explores the idea of inspirational prototyping across multiple media, including physical fabrication, science fiction, virtual worlds and film. Students create and iterate their own prototypes for visions of the future: new technologies, solutions to challenges, and tools or systems that expand the horizon of human potential. These prototypes do not have to be functional tools, but they must be functional stories, effectively sharing the creator's vision with others. Just as the Star Trek communicator inspired early cellphones, these prototypes will help shape new conversations about the future we want to build. Surveys a series of creative paradigms for inspirational prototyping, including design fiction, rapid fabrication and 3D printing, science fiction prototyping, gaming and virtual world-building.   | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Credit is allowed for only AME 130 or AME 194 (Prototyping Dreams)   |
| AME     | 194         | Special Topics                             | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-4   |                 |  |
| AME     | 210         | Media Editing                              | Introduces the fundamental principles of media editing including form, composition, structure, pattern, sequence and rhythm. Using a combination of open source, commercial and custom-designed tools and platforms, students design, construct, communicate and interpret rich media messages. Through creating and critiquing visual compositions, audiovisual artifacts, spatial narratives or generated graphs, students explore the practice of media editing as a spatial, temporal and dynamic process.   | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Credit is allowed for only AME 210 or AME 294 (Media Editing) or DSC 294 (Media Editing)   |
| AME     | 220         | Programming for the Web                    | Introduces a range of technologies used for Web development: marking up content with HTML, styling with CSS and interaction using Javascript. Explores the latest foundational Web standards such as HTML5 and CSS3 to learn how to create compelling content for the World Wide Web. Goes beyond simply coding a Web page to understanding how the Web works. The World Wide Web is used in an incredible variety of applications that we now find integral to our lives, from talking to our friends on Facebook to discovering music on the iTunes Music Store, paying bills from our bank's Web site to finding the route to our vacation destination on Google maps. Investigates how Web standards have enabled the creation of dynamic applications delivered over the Internet.  | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): AME 230; Credit is allowed for only AME 220 or AME 294 (Programming for the Web)  |
| AME     | 230         | Programming for the Media Arts             | Introductory-level course in practical aspects of programming systems for media arts. Explores techniques in programming in the context of images, sounds, interaction, networking and data visualization. Uses the processing programming language, an accessible yet powerful environment for learning how to program. Students create images, animations and interactive programs, and learn how to use images, movies, sound files, microphones and cameras in their programs.   | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     | CS              | Credit is allowed for only AME 230 or AME 294 (Programming for Media Arts)   |
| AME     | 244         | Introduction to Interactive Environments   | Introduces software programming in the context of real-time interactivity. Builds the skills and develops the confidence needed to produce interactive audiovisual environments. Primarily uses the Max 7 (cycling74.com) programming language to write code for manipulating digital images, sounds and video in real time. For these systems to be interactive (respond to human activity), uses the tools and techniques for gathering and processing real-time input from sensors such as microphones, electronics, cameras and interface devices.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Credit is allowed for only AME 244 or ART 244 or AME 294 (Introduction to Interactive Environments) or ART 294 (Introduction to Interactive Environments)      |
| AME     | 294         | Special Topics                             | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-4   |                 |  |
| AME     | 310         | Media Literacies and Composition           | When we integrate computational systems into the core of our cultural and social practices, we reinvent how we tell stories. The roles of creators, critics and audiences are blurring at the same time that digital tools allow us to infinitely reproduce and remix narratives, radically changing what we mean by the "work" or "text." These new media platforms empower us to create, share and respond to cultural narratives that defy traditional notions of how stories operate, demanding new literacies. Explores our powers and responsibilities as readers, writers and creators of new cultural languages, including new forms such as games, digital video, electronic literature and social media. Students study relevant media narratives and cultural ecosystems from the 20th and 21st centuries, acquiring a set of literacies that they hone through practices of authorship, critique and collaboration, culminating in the presentation of their own digital media narratives. | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): Digital Culture major; ENG 101, 105, or 107; minimum 45 hours; Credit is allowed for only AME 310 or AME 394 (Media Literacies & Composition) |

| AME     | 320         | Motion Capture for Integrative Systems                    | Presents the broad principles and techniques for movement study in oneself and others that includes applied, dynamic anatomy. Also presents the functional techniques for motion capture with a special emphasis on the capture of human movement from visual sensors. Students understand the technology behind motion capture; a high-level understanding of movement and anatomical systems; the ability to perform motion capture and customize it to suit the requirements of specific creative applications in animation, sound and live performance as well as applications in movement rehabilitation and education. Looks at the technology behind various modern motion capture systems based on markers, inertial sensors, accelerometers, and depth sensors, so the student appreciates the technical capabilities and limitations of each technique. | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): Digital Culture major; minimum 45 hours. Credit is allowed for only AME 320 or AME 394 (Motion Capture for Integrative Systems)  |
| AME     | 330         | Digital-Physical Systems                                  | Hands-on course where students explore digital-physical systems by working with the fundamental building blocks of interactive technologies and examining exemplar works of media art. Basics of electronics, circuit design, sensors, actuators, simple mechanical design, the iterative design process and microcontroller programming. Emphasizes media and arts applications such as real-time interactive performance, robotic installations and tangible computer interfaces. Prior knowledge in hardware/circuit design is not required.   | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): Digital Culture major; AME 230; minimum 45 hours; Credit is allowed for only AME 330 or AME 394 (How to Build a Digital-Physical System)   |
| AME     | 340         | Compositional and Computational Principles for Media Arts | In much of today's contemporary art practice there is a tight coupling of compositional form, content and underlying computational mechanisms. This integration holds the potential to yield new modes of expression and wholly new art experiences as is evident in emerging forms of real-time generative art, network-based art, game-based art, and interactive performance. As both practitioners and participants, we must develop a critical understanding of the relevant compositional and computational principles that frame this work. Students study relevant media art works from the 20th and 21st century, develop a working understanding of fundamental compositional and computational principles, and apply their understanding through the realization of exploratory media artworks that are presented at the end of the semester.          | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): Digital Culture major; minimum 45 hours. Credit is allowed for only AME 340 or AME 394 (Compositional & Computational Principles for Media)  |
| AME     | 385         | Collaborative Projects and Research I                     | Project-based class for experience in collaborative design principles, project pitching and research. Includes readings and small projects with teams formed at the outset of the class. Over the course, teams develop their own project along with a schedule for realization. Project themes vary, yet all projects must explore relationships of digital technologies and cultural products or processes. Includes presentations, discussion and analysis of team projects.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): BA in the Arts (Digital Culture) or BA Design Studies (Digital Culture) or Digital Culture major; Minimum 45 earned hours; Credit is allowed for only AME 385 or 394 (Collaborative Projects & Research I) |
| AME     | 386         | Collaborative Projects and Research II                    | Project-based class for experience in collaborative design principles, project pitching and research. Includes readings and small projects with teams formed at the outset of the class. Over the course, teams develop their own project along with a schedule for realization. Project themes vary, yet all projects must explore relationships of digital technologies and cultural products or processes. Includes presentations, discussion and analysis of team projects.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Pre-requisites: AME 385; Credit is allowed for only AME 386 or 394 (Collaborative Projects & Research II)   |
| AME     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-4   |                 |   |
| AME     | 410         | Interactive Materials                                     | Focuses on embedding computational media into the physical world. Students make, tinker and experiment with high-tech and low-tech materials, ranging from electronics (microcontrollers, sensors and actuators) to softer components including textiles, paper, paints, food and organic/living systems. Hands-on, materially oriented work is grounded in theoretical concepts from HCI (Human Computer Interaction), design and information studies to prototype tangible interactive systems.   | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): AME 330 or AME 394 (How to Build a Digital-Physical System); Credit is allowed for only AME 410 or AME 494 (Interactive Materials)   |
| AME     | 411         | Advanced Interactive Sound                                | Explores the development of interactive music systems. Covers a variety of sound synthesis methods with particular emphasis as to how they can be used in real-time sound creation. Covers techniques for sensing such as computer vision, sound analysis, tangible interfaces and 3D sensing.  | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): MDC 311; Credit is allowed for only AME 411 or AME 511 or MDC 411 or MDC 511 or AME/MDC 494 (Advanced Interactive Sound) or AME/MDC 598 (Advanced Interactive Sound)                                       |
| AME     | 430         | Mac Development for Media Arts                            | Explores native application development for OS X (Macintosh) for use in the domain of media arts. Project-based course covers the native Xcode development environment and the C and Objective-C programming languages. Native applications are able to achieve the highest levels of performance; they leverage the unique technologies built for a platform and they are able to participate in the native user experience (look and feel) that all users of a popular platform expect. To understand native apps for OS X, the course examines a number of code frameworks provided for developers by Apple (the core of which are often called Cocoa), including Foundation, AppKit, AV Foundation, Core Animation and SpriteKit.   | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): AME 230; Credit is allowed for only AME 430 or AME 494 (Mac Development for Media Arts)  |
| AME     | 435         | Mobile Development  | Explores native application development for iOS for use in the domain of media arts. Project-based course covers the native Xcode development environment, and the Swift programming language. Native applications are able to achieve the highest levels of performance, they leverage the unique technologies built for a platform, and they are able to participate in the native user experience (look and feel) that all users of a popular platform expect. Examines a variety of frameworks such as UIKit, CoreMotion, CoreLocation, MapKit, AVFoundation AVKit, and SpriteKit to understand native apps for iOS.  | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): AME 430 or AME 494 (Mac Development for Media Arts); Credit is allowed for only AME 435 or AME 535 or AME 494 (Mobile Development) or AME 598 (Mobile Development)   |

|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|------------------------------|-----------------------------------|-------|-----------------|---|
| AME     | 444         | Media Installations                          | Investigates historical and contemporary instances of the media installation, not only as a form of art but as a cultural artifact that appears in a variety of contexts. Students design and build media installations by learning to gather, manipulate and present many different kinds of media using a variety of high- and low-tech tools and techniques. Advanced skills with the tools and techniques for creating and manipulating digital images, sounds, graphics and video. Students learn how to make installations interactive by integrating sensors, input devices and computer vision systems. Design, build and refine media installations, and learn to document these installations at a high level using the latest video editing tools. | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): AME 294 (Introduction to Interactive Environment); Credit is allowed for only AME 444 or AME 544 or AME 494 (Media Installations)  |
| AME     | 470         | Programming for Social and Interactive Media | Web sites, desktop applications connected to the "cloud" and mobile applications depend on services supplied by server-based software that is the invisible center of users' networked experiences. Applications and data servered over the Web are at the core of popular software from social applications such as Facebook, Twitter or Instagram to networked media like iTunes, Netflix or Hulu. Investigates the development of Web applications and services. Creates modern dynamic Web applications using open source technologies.   | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): Digital Culture major; minimum 45 hours; Credit is allowed for only AME 470 or AME 570 or AME 494 (Programming for Social and Interactive Media) or AME 598 (Programming for Social and Interactive Media) |
| AME     | 484         | Internship                                   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-12  |                 |   |
| AME     | 485         | Digital Culture Capstone I                   | Senior capstone projects in digital culture are interdisciplinary team projects that offer experience in diverse collaborations for solving complex problems, a proficiency widely demanded by employers. Students integrate, extend and apply information, principles, theories and/or methods learned in previous courses while supervised by the instructor.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): Digital Culture major, minor, or certificate; minimum 70 hours; Credit is allowed for only AME 485 or AME 494 (Digital Culture Capstone I)   |
| AME     | 486         | Digital Culture Capstone II                  | Senior capstone projects in digital culture are interdisciplinary team projects that offer experience in diverse collaborations for solving complex problems, a proficiency widely demanded by employers. Students integrate, extend and apply information, principles, theories and/or methods learned in previous courses while supervised by the instructor.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Pre-requisites: AME 485; Credit is allowed for only AME 486 or 494 (Digital Culture Capstone II)  |
| AME     | 492         | Honors Directed Study                        | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| AME     | 493         | Honors Thesis                                | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| AME     | 494         | Special Topics                               | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-4   |                 |   |
| AME     | 498         | Pro-Seminar                                  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | SEM               | Y               | OPT           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-7   | L               |   |
| AME     | 499         | Individualized Instruction                   | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | IND               | Y               | Z1            | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-3   |                 |   |
| AME     | 511         | Advanced Interactive Sound                   | Explores the development of interactive music systems. Covers a variety of sound synthesis methods with particular emphasis as to how they can be used in real-time sound creation. Covers techniques for sensing such as computer vision, sound analysis, tangible interfaces and 3D sensing.  | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only AME 411 or AME 511 or MDC 411 or MDC 511 or AME/MDC 494 (Advanced Interactive Sound) or AME/MDC 598 (Advanced Interactive Sound) |
| AME     | 520         | Understanding Activity                       | Focuses on computational and humanistic underpinnings for describing human activities for interactive systems. Obtains a holistic understanding of both the computational models, as well as somatic approaches, and enables their translation into meaningful interactive systems for a variety of applications. Project-driven course encourages students to work individually and collaboratively to generate movement to interface with appropriate sensing, analysis and feedback systems with applications in health and well being, creative practices and games. Transdisciplinary course; therefore, expectations for skills and outcomes are multiple and varied, with students expected to work with students and ideas from other disciplines.    | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only AME 520 or AME 598 (Understanding Activity)  |
| AME     | 530         | Experiential Media Methodology and Theory I  | Engages students in the theory and practice of designing and evaluating experiential media systems. Building on ideas and concepts explored in the companion introductory course, students create and critique a variety of integrated media systems demonstrating technical competence, aesthetic knowledge, analytic rigor and theoretical relevance.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student. Credit is allowed for only AME 530 or 598 (Experiential Media Methodology and Theory I)   |
| AME     | 531         | Experiential Media Methodology and Theory II | Focuses on media arts and sciences in the 20th and 21st century, discussing issues surrounding the definition of the field, media art creation practices, methods of criticism and analysis, interdisciplinary/transdisciplinary work and research, collaboration and current trends. Also focuses on the methodology, theory and history behind the design and development of experiential media systems. Directed toward those interested in researching, designing, building or critiquing experiential media systems that are culturally provocative, socially meaningful and deeply essential.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): AME 530; credit is allowed for only AME 531 or 598 (Experiential Media Methodology and Theory II)  |
| AME     | 532         | Creating by Algorithm                        | Focuses on creation of media of all kinds using computation. Using algorithms it is possible to create complex media that is difficult or impossible by traditional methods. Some techniques can capture the unpredictable evolutionary and emergent behavior found in nature. Investigates influential algorithmic methods including stochastic processes and Markov chains, Perlin noise, cellular automata, fractals, L-systems and genetic algorithms.  | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title   | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department                        | Units | General Studies | Requirements  |
|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|------------------------------|-----------------------------------|-------|-----------------|---|
| AME     | 533         | Realtime Data Analysis and Pattern Recognition for Interaction | Real-time computing is increasingly used in a variety of settings and scenarios--no more so than in mobile computing. Embedded within our mobile devices are a multitude of onboard sensors, including a three-axis accelerometer, magnetometers, microphones, cameras and GPS. Explores, through the frame of mobile computing, the foundations of employing real-time sensor, visual or audio signals to deliver novel media applications. Introduces computational techniques for classification, detection and recognition of these diverse signal sources through practical example and relevant literature, including signal smoothing, feature extraction, clustering, pattern recognition, neural networks and content classification. Introduces the technical possibilities for such systems as well as the considerations involved in designing and developing real-time solutions. | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AME     | 535         | Mobile Development   | Explores native application development for iOS for use in the domain of media arts. Project-based course covers the native Xcode development environment, and the Swift programming language. Native applications are able to achieve the highest levels of performance, they leverage the unique technologies built for a platform, and they are able to participate in the native user experience (look and feel) that all users of a popular platform expect. Examines a variety of frameworks such as UIKit, CoreMotion, CoreLocation, MapKit, AVFoundation AVKit, and SpriteKit to understand native apps for iOS.   | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only AME 435 or AME 535 or AME 494 (Mobile Development) or AME 598 (Mobile Development)   |
| AME     | 541         | Interactive Forms  | This course explores how computational models can enhance the form, meaning, and engagement of interactive mediated experiences. Special emphasis is given on how new computational models (stochastic procedures, non-linear dynamics) can be used to mediate the complexity of our current experiences.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AME     | 544         | Media Installations  | Investigates historical and contemporary instances of the media installation, not only as a form of art but as a cultural artifact that appears in a variety of contexts. Students design and build media installations by learning to gather, manipulate and present many different kinds of media using a variety of high- and low-tech tools and techniques. Advanced skills with the tools and techniques for creating and manipulating digital images, sounds, graphics and video. Students learn how to make installations interactive by integrating sensors, input devices and computer vision systems. Design, build and refine media installations, and learn to document these installations at a high level using the latest video editing tools.  | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only AME 444 or AME 544 or AME 598 (Media Installations)  |
| AME     | 570         | Programming for Social and Interactive Media                   | Web sites, desktop applications connected to the "cloud" and mobile applications depend on services supplied by server-based software that is the invisible center of users' networked experiences. Applications and data servered over the Web are at the core of popular software from social applications such as Facebook, Twitter or Instagram to networked media like iTunes, Netflix or Hulu. Investigates the development of Web applications and services. Creates modern dynamic Web applications using open source technologies.  | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only AME 470 or AME 570 or AME 494 (Programming for Social and Interactive Media) or AME 598 (Programming for Social and Interactive Media) |
| AME     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AME     | 590         | Reading And Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | N                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AME     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AME     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AME     | 593         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AME     | 595         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | RSC               | Y               | Z3            | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AME     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AME     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.  | Y                 | LEC               | Y               | Z2            | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AME     | 684         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AME     | 691         | Seminar  | A small class emphasizing discussion, presentations by students and written research papers.   | Y                 | SEM               | Y               | OPT           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AME     | 784         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AME     | 790         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AME     | 792         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| AME     | 799         | Dissertation  | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.  | Y                 | LEC               | Y               | Z2            | Herberger Inst Design & Arts | Arts, Media and Engineering Sch T         | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 100         | Introduction to Applied Mathematics for the Life and Social Sciences                  | Introduces quantitative techniques as applied to problems in the life and social sciences. Includes challenges like understanding the complexities of the human genome or the implications of globalization for infectious disease, human health, and economic stability.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | MA              | Prerequisite(s): MAT 117 with C or better, or Mathematics Placement Test with a score of 50% or higher, or ALEKS score of 61 or higher; Credit is allowed for only AML 100 or SOS 101   |
| AML     | 191         | First-Year Seminar  | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-3   |                 |   |
| AML     | 194         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-4   |                 |   |
| AML     | 253         | Introduction to Mathematical Tools and Modeling for the Life and Social Sciences      | Introduces the evaluation and construction of mathematical models used in the life and social sciences. Includes the basic steps in developing a model, analyzing it, and testing it with actual data. Covers the first steps concerning how to use formal mathematical techniques including developing equation-based relationships, plotting graphs, linear regression, and solving equations using computer software.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): AML 100 or SOS 101 with C or better  |
| AML     | 294         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-4   |                 |   |
| AML     | 330         | Social Simulation   | Students will apply computer simulation and agent-based modeling techniques to study social systems relating to concrete research questions.   | N                 | LAB               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 4     | CS              | Prerequisite(s): AML 100 or MAT 142, 170, 210, 265, or 270 with C or better OR Mathematics Placement Test score of 50% or higher; minimum 56 hours; Credit is allowed for only ASB 430 or CPI 430 or AML 330  |
| AML     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-4   |                 |   |
| AML     | 406         | Directed Reading and Research in Applied Mathematics for the Life and Social Sciences | Collaborative, practice-oriented course where students produce individual or team-initiated research project reports on pertinent topics in the life and social sciences. Students select topics, design, identify and formulate effective research ideas, and then translate them into clear and effective research plans.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Pre-requisites:AML 100 and MAT 342 (or MAT 343); 86 minimum hours   |
| AML     | 441         | Mathematical Concepts and Tools in Sustainability                                     | Explores various mathematical analysis and models pertinent to sustainability science drawn from both social and natural sciences and introduced in a problem-based context. Demonstrates basic concepts from game theory such as pure-strategy and mixed-strategy Nash equilibriums in such classic games as prisoner's dilemma, hawk-dove, coordination. Explores the evolutionary dynamics of these games through the replicator equations. Studies important concepts of stability and regime shift for selected problems. Also discusses some basic solution concepts in cooperative game theory (depending on interest and time).  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s) with C or better: AML 253, or SOS 210(or SOS 294 Intro to Math Tools & Modeling). Credit is allowed for only AML 441 or 494 (Math Concepts & Tools in Sustainability) or SOS 441 or 494 (Mathematical Concepts and Tools in Sustainability) |
| AML     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-12  |                 |   |
| AML     | 492         | Honors Directed Study   | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.  | N                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| AML     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | RSC               | N               | Z1            | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| AML     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-4   |                 |   |
| AML     | 497         | Honors Colloquium   | A class emphasizing discussion, written and/or oral presentation by students, and active participation.  | N                 | SEM               | Y               | Z1            | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| AML     | 498         | Pro-Seminar   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-7   | L               |   |
| AML     | 499         | Individualized Instruction  | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. This course may be taken only by outstanding senior students who have completed at least one semester in residence and who have a cumulative GPA of 3.00 or higher in the major or field of specialization. A special class fee may be required.                               | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-3   |                 |   |
| AML     | 520         | Agent-Based Modeling  | Introduces agent-based modeling to simulate social and social-ecological systems. Topics include design, analysis, and empirical grounding of agent-based models to a variety of application domains including collective action, diffusion processes, resource use, health, and complex societies.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 540         | Statistical Modeling for Sustainability   | Equips students with sufficient knowledge of statistical theory and methods of applied data analysis to begin conducting empirical analyses in their domains of interest; bring students to a high level of competency in using a cutting-edge statistical software package (Stata) for data management and data analysis tasks; expose students to applications of statistical methods in the economics/policy/social science sustainability literatures in order to develop an understanding for how statistical tools are operationalized in the research world; and develop an appreciation for the careful synthesis of social and natural science theory, knowledge of data and its limitations and command of statistical tools that constitute quality empirical research. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 4     |                 | Pre-requisites: Graduate (degree or non-degree) student; Credit is allowed for only AML, ESS or SOS 540   |

| AML     | 541         | Mathematical Concepts and Tools in Sustainability                     | Explores various mathematical analysis and models pertinent to sustainability science drawn from both social and natural sciences and introduced in a problem-based context. Demonstrates basic concepts from game theory such as pure-strategy and mixed-strategy Nash equilibriums in such classic games as prisoner's dilemma, hawk-dove, coordination. Explores the evolutionary dynamics of these games through the replicator equations. Studies important concepts of stability and regime shift for selected problems. Also discusses some basic solution concepts in cooperative game theory (depending on interest and time). | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit allowed for only AML 494 (Math Concepts & Tools in Sustainability), AML 541, SOS 494 (Math Concepts & Tools in Sustainability), SOS 541 or SOS 598 (Math Concepts & Tools in Sustainability) |
| AML     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 590         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 593         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 595         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 610         | Topics in Applied Mathematics for the Life and Social Sciences        | Introductory course in applied mathematics for the life and social sciences, combined with the first semester of a two-semester course in mathematical biology. Provides a solid introduction to the modeling of biological and social processes as well as to some of the mathematical approaches involved in their analysis and simulation.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 612         | Applied Mathematics for the Life and Social Sciences Modeling Seminar | Presents and applies mathematical modeling principles and techniques for representing the structure and operation of complex life and social systems and processes. Helps students identify potential problems in the life and social sciences and the corresponding mathematical and statistical methods that can be used for their study.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 680         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 684         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 690         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 691         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 692         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 693         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 695         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 780         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 784         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 790         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 791         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AML     | 792         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| AML     | 795         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences    | School of Human Evolution & Social Change        | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AML     | 799         | Dissertation   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences    | School of Human Evolution & Social Change        | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AMS     | 191         | First-Year Seminar   | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 1-3   |                 |  |
| AMS     | 194         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 1-3   |                 |  |
| AMS     | 201         | Introduction to American Studies                                       | Provides an intellectual foundation for the interdisciplinary study of American culture, history, and society. Introduces students to ideas, methods, tools, and theories in the vibrant field of American studies.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | L & C           | Prerequisite(s): ENG 101, ENG 105, or ENG 107 with C or better   |
| AMS     | 276         | U.S. Women's Movements   | Historical survey of sources influential in the development of the feminist movement in the United States.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | H & C           | Prerequisite(s): ENG 102 or 105 or 108 with C or better; Credit is allowed for only AMS 276 or WST 276   |
| AMS     | 294         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 1-4   |                 |  |
| AMS     | 310         | History of American Systems to 1865                                    | First of a two-part survey of political, legal, and economic institutions, placed in the context of the nation's colonial background and early national period.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | H               |  |
| AMS     | 311         | History of American Systems Since 1865                                 | Second in a two-part survey of political, legal, and economic institutions, placed in the context of a dynamic industrialist capitalist society, from the age of industrialism and modern America.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | H               |  |
| AMS     | 320         | American Cultural History I  | First of a two-part survey of American culture, broadly defined as historically transmitted patterns of meaning expressed in symbolic forms, including ideas, ideals, the arts, and social and economic standards from the nation's colonial background and early national period.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | SB & H          | Prerequisite(s): ENG 102, 105 or 108 with a C or better; minimum 30 hours; Credit is allowed for only AMS 320 or HST 313                                     |
| AMS     | 326         | Popular Culture  | Topics in American popular culture, including theories of popular culture; the history and analysis of mass media, including television, film, and the music industry; and vernacular art and the folk tradition.   | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     |                 |  |
| AMS     | 327         | Regional Cultures  | Examines the concept of regionalism and regional cultures in America with a special emphasis on the Southwest/Borderlands.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     |                 |  |
| AMS     | 330         | American Lives   | Examines American society through the study of autobiography and ethnography.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | HU & C          | Prerequisite(s): minimum 30 hours  |
| AMS     | 332         | Studies in Race and Ethnicity  | Topics relating to issues of race and ethnicity in American life. May be repeated for credit when topics vary.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     |                 |  |
| AMS     | 334         | Class in America   | Explores social class and inequality in the U.S. including history, culture, work, politics, globalization, and intersections of gender, race, ethnicity, and place.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | SB              | Prerequisite(s): minimum sophomore standing  |
| AMS     | 335         | American Biography   | Topics in biographies of individuals, comparative biographies, the art of biography, and the function of autobiography.   | N                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     |                 | Pre-requisites: Minimum 45 hours   |
| AMS     | 336         | The American Southwest in Literature and Film                          | Evaluates literary texts and films addressing the diverse literatures and cultures of the American Southwest.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | (L or HU) & C   | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only AMS 336 or ENG 334 or ETH 334   |
| AMS     | 353         | African American Literature: Beginnings through the Harlem Renaissance | Focuses on the history of African American literature through the Harlem Renaissance, as exemplified in selected slave narratives, poems, and fiction.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | (L or HU) & C   | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only AFR 353 (or AFH 353) or AMS 353 or ENG 353 or ETH 353                     |
| AMS     | 354         | African American Literature: Harlem Renaissance to the Present         | Examines the literary productions of African Americans from the Harlem Renaissance (about 1920) to the present focusing on fiction, poetry, drama, and essays.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | (L or HU) & C   | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only AFR 354 (or AFH 354) or AMS 354 or ENG 354 or ETH 354                     |
| AMS     | 380         | Race, Gender, and Class  | In-depth examination of how social inequalities are reproduced and perpetuated. Explores the intersections of race, class and gender in culture and society.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | SB & C          | Prerequisite(s): WST 100 or WST 300 or minimum 30 hours; Credit is allowed for only AMS 380 or ETH 380 or WST 380  |
| AMS     | 394         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 1-4   |                 |  |
| AMS     | 412         | Studies in American Politics & Law                                     | Topics in American political and legal systems, including social movements in the United States and women and the law. May be repeated for credit when topics vary.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     |                 |  |
| AMS     | 417         | Religious Traditions of the American Southwest                         | Examines the sacred traditions that have evolved within the North American Southwest context.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     |                 |  |
| AMS     | 420         | Theatre in America   | Examines the major movements and pivotal moments in the history of American theatre from the 1700s to its current state, particularly its efforts to establish an identity that reflects the unique and changing citizenry of the United States.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre                | 3     | HU              | Prerequisite(s): minimum 40 hours. Credit is allowed for only AMS 420 or IAP 420 or THE 420  |
| AMS     | 420         | Theatre in America   | Examines the major movements and pivotal moments in the history of American theatre from the 1700s to its current state, particularly its efforts to establish an identity that reflects the unique and changing citizenry of the United States.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | HU              | Prerequisite(s): minimum 40 hours. Credit is allowed for only AMS 420 or IAP 420 or THE 420  |
| AMS     | 422         | Studies in American Literature   | Topics in American literature, including contemporary American comic fiction, literature of the American South, literature of American wars, Hispanic chronicles of the Southwest, literature of la Chicana, and American rhetoric. May be repeated for credit when topics vary.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     |                 |  |
| AMS     | 428         | Chicano Cultures in the Southwest                                      | Examines the history and cultures of people of Mexican descent in the Southwestern region of the United States through exploration of "cultural citizenship" and "belonging" as they relate to the pursuit of civil rights, equality, justice and cultural production.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | SB              | Prerequisite(s): ENG 102 or 105 or 108 with C or better; Credit is allowed for only AMS 428 or ETH 428 or LAS 428 or MAS 598 (Chicano Cultures in Southwest) |
| AMS     | 429         | Interdisciplinary Topics   | Senior-level seminar that examines issues relevant to two or more American cultures' fields. Topics may include Southwest/border Hispanic folklore, Southwestern corridors, American art and the city, and the West of the imagination. May be repeated for credit when topics vary.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     |                 |  |
| AMS     | 431         | Gender Studies   | Topics relating to issues of gender in American life. May be repeated for credit when topics vary.  | N                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     |                 |  |

|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|------------------------------|--|-------|-----------------|--|
| AMS     | 449         | Hate Speech, Manifestos, and Radical Writings      | Examines writings, speeches and texts that provoke radical or even revolutionary social change. At its core, this course asks: What is the radical and what does it do? How do radical writings function as texts, speech acts, inspirational documents, testimonies, accounts of madness, frightening moments, calls to arms, peacekeeping entities or speaking truth to power? Examines injurious speech and provocative writings that span a range of social movements and topics, including radical feminism, radical queer, Black power, indigenous rights, art and performance, anti-technology, animal rights, violence, madness and revolutionary resistance.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies   | 3     | SB & C          | Prerequisite(s): minimum 35 hours; minimum 2.50 GPA; Credit is allowed for only AMS 449 or ETH 449 or WST 449 or WST 394 (Hate Speech and Manifestos)  |
| AMS     | 450         | Latina/os, Schooling and Social Inequality         | Advanced interdisciplinary understanding of the issues facing Chicano, Mexican American and Latino communities in relation to K-16 schooling in the southwestern United States. Examines various schools of thought that have shaped social discourse and policies, develops a critical perspective on the social and political issues affecting education, and identifies issues--both historical and contemporary--affecting Chicanos in public education.  | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies   | 3     | C               | Prerequisite(s): minimum 45 hours; Credit is allowed for only AMS 450 or ETH 450 or LAS 450 or AMS 429 (Latino/a School & Social Inequity)   |
| AMS     | 469         | Abject Bodies and the Politics of Trash            | Examines the possibilities inherent in "theorizing from the gutter"; looking at the world not from a lofty "Ivory Tower" but from the slime, the muck, the dumpster, the trash heap, the wasteland, the discarded and the downtrodden. Takes its theoretical framework from a radical 1960s manifesto called SCUM Manifesto by Valerie Solanas and from the French feminist philosophies of Julia Kristeva, who theorized the abject as a relationship with the grotesque that reveals the deep-seated fear of death. Uses these theoretical positions to examine trash, both abstractly and literally. Works through a variety of concepts ranging from actual trash, garbage, waste, toxic sludge, pollution and dirt, and tackles more abstract notions of trash such as the knowledge produced on the fringe in circuses, amusement parks, "trailer trash" zones, freak shows and the bodies of those marked as "Other" or different. | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies   | 3     | SB & C          | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 36 hours; Credit is allowed for only AMS 469 or ETH 469 or WST 469 or WST 494 (Trash, Freaks and SCUM) or JHR 598 (Trash, Freaks and SCUM) or MAS 598 (Trash, Freaks and SCUM) |
| AMS     | 484         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies   | 1-12  |                 |  |
| AMS     | 490         | Writing Certificate Portfolio                      | Preparing a portfolio demonstrating advanced writing skills. Limited to and required of students in the Writing Certificate Program.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies   | 1     |                 |  |
| AMS     | 492         | Honors Directed Study                              | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies   | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| AMS     | 493         | Honors Thesis                                      | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies   | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| AMS     | 494         | Special Topics                                     | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies   | 1-4   |                 |  |
| AMS     | 498         | Pro-Seminar  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies   | 1-7   | L               | Prerequisite(s): ENG 101 or 105 with C or better; AMS 301 with C or better   |
| AMS     | 499         | Individualized Instruction                         | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | LEC               | Y               | Z1            | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies   | 1-3   |                 |  |
| AMS     | 500         | Research Methods                                   | Course on research methods in a specific discipline.  | Y                 | RSC               | Y               | OPT           | Liberal Arts and Sciences    | Historical, Philosophical & Religious Studies, Sch | 1-12  |                 |  |
| AMS     | 500         | Research Methods                                   | Course on research methods in a specific discipline.  | Y                 | RSC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies   | 1-12  |                 |  |
| AMS     | 502         | American Studies: Theory and Method                | Explores some of the major themes in American studies scholarship by considering American cultural formation and change over the last two centuries.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | Historical, Philosophical & Religious Studies, Sch | 3     |                 | Prerequisite(s): MA American Studies major   |
| AMS     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies   | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AMS     | 590         | Reading and Conference                             | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies   | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AMS     | 593         | Applied Project                                    | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | Historical, Philosophical & Religious Studies, Sch | 1-12  |                 |  |
| AMS     | 593         | Applied Project                                    | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies   | 1-12  |                 |  |
| AMS     | 594         | Conference and Workshop                            | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies   | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AMS     | 598         | Special Topics                                     | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Historical, Philosophical & Religious Studies, Sch | 1-4   |                 |  |
| AMS     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences    | Historical, Philosophical & Religious Studies, Sch | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AMT     | 101         | Introduction to Aeronautical Management Technology | Facilitates entry into aeronautical management technology programs. Emphasizes General Catalog; major and concentration requirements, registration, careers, and Polytechnic campus resources. Introduces various learning styles and strategies that assist students in becoming successful learners. Emphasizes time management techniques and academic integrity.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Aviation Programs                                  | 1     |                 |  |
| AMT     | 105         | Flight Operations and Safety I                     | Supervised private pilot operations, flight instruction, flight safety briefings and recurrent aviation subjects appropriate for private pilots. Flight instruction is considered to be the laboratory for this academic class. Course completion requirements are based on completion of lessons and FAA Practical Exam(s) within the appropriate flight training syllabus and satisfactorily completing all academic requirements. Flight instruction costs are not included in university tuition and fees. Students following the single engine flight training track earn their Single Engine Private Pilot certificate. Students following the multiengine flight training track earn their Single Engine Private Pilot Certificate and their Multiengine Private Pilot certificate.  | N                 | LEL               | N               | GNA           | Ira A. | AMT     | 270         | Unmanned Aircraft                           | Introduces elements comprising the unmanned aircraft system (UAS). Includes review of UAS, Unmanned Aerial Vehicle (UAV); system development and certification, selection and design, aerodynamics and airframe configurations, characteristics of vehicle types, design standards and regulatory aspects, airframe design, payload types, and control and stability. Students apply concepts acquired in classroom sessions and construct various unmanned aircraft, train to operate using existing simulators, and conduct flight-testing. The final course project is the design, development and construction of a group 1 unmanned aircraft, serving as the core unmanned vehicle used in subsequent UAS courses. Incorporates UAS data collection and analysis throughout the course. Course concepts enable UAS student pilots to become knowledgeable of aerodynamic aspects of UAV to ensure safety of flight and improved maneuverability. | N                 | LEC               | N               | GNA           | Ira A. | AMT     | 350         | Aircraft Design and Logistics Management                  | Fundamental aircraft design principles, including performance factors associated with mission profiles and the identification of basic logistical support requirements.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 4     |                 | Prerequisite(s): Applied Science (Aviation) BAS major or Air Traffic Management BS major or Aeronautical Management Technology BS major; Pre- or corequisite(s): AMT 287 with C or better if completed |
| AMT     | 360         | Aircraft Dispatch Ground School                           | Aeronautical knowledge areas required for Aircraft Dispatch certification, as well as preparation for the Aircraft Dispatch knowledge examination. Regulations, aerodynamics, emergencies, flight physiology, weight and balance, navigation, aircraft performance, meteorology, and flight operations.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): AMT 214; AMT 220; AMT 222; Credit is allowed for only AMT 360 or AMT 394 (Airline Dispatcher Ground School)   |
| AMT     | 370         | Unmanned Aircraft Systems                                 | Students build upon gained knowledge, skills and experience by exploring unmanned aircraft avionics, autopilot systems, first person video (FPV), on-screen displays (OSD), communication systems, command and control (C2), ground control stations (GCS), flight software, and UAV launch and recovery systems. Students continue flight training and gain proficiency in unmanned aircraft operation using simulators and hands-on flight-testing. Students demonstrate their abilities to upgrade and modify their previously constructed unmanned aircraft in order to operate and conduct actual flight-testing. Incorporates UAS data collection and analysis throughout the course.                                    | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): AMT 270 with C or better  |
| AMT     | 382         | Air Navigation  | Theory and application of modern advanced navigation and flight instrument systems. Introduces crew resource management in multiplace cockpits.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): Aeronautical Management Technology (Professional Flight) BS major; AMT 210  |
| AMT     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 1-4   |                 |  |
| AMT     | 396         | Aviation Professional                                     | Career focus for management and flight students, including internships, writing, interviews, and employment search in aviation industry.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 1     |                 | Prerequisite(s): BAS or BS aviation program major; junior standing   |
| AMT     | 408         | National Aviation Policy                                  | Examines aviation and airspace policies and policy process, including agencies involved in formulation, implementation, and evaluation of aviation policy.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Pre- or corequisite(s): AMT 308 with C or better if completed  |
| AMT     | 410         | Aviation Safety and Human Factors                         | Aviation accident prevention, human factors, life support, fire prevention, accident investigation, and crash survivability. Development and analysis of aviation safety programs.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Pre- or corequisite(s): AMT 182 with C or better if completed; AMT 308 with C or better if completed   |
| AMT     | 442         | Aviation Law and Regulations                              | Aviation within context of U.S. Common Law system. Public law, administrative rule making, sovereignty, enforcement, and case law analysis.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Pre- or corequisite(s): AMT 308 with C or better if completed  |
| AMT     | 444         | Airport Management and Planning                           | Orientation to administration and management of modern public airports, including overview of planning, funding, and development of airport facilities.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Pre- or corequisite(s): AMT 308 with C or better if completed  |
| AMT     | 456         | Organized Labor in Aviation                               | Explores topics of labor relations, unions, federations, collective bargaining, grievances and labor legislation.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): MGT 300 or TMC 330 (or TMC 346); Credit is allowed for only AMT 456 or OMT 456  |
| AMT     | 460         | Aircraft Dispatch Capstone                                | Capstone for aircraft dispatch whereby students are engaged in practical applications of regulations, aerodynamics, emergencies, flight physiology, weight and balance, navigation, aircraft performance, meteorology and flight operations. Uses various scenarios in which students can employ the strategies and procedures necessary for safe flight.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): AMT 360   |
| AMT     | 470         | Unmanned Aircraft Payloads, Sensors, and Control Stations | Builds on previously gained knowledge and experience. Student pilots utilize long-range communication and data links, UAS sensors, geospatial data collection, and still-imaging mosaicking. Students continue flight training using existing simulators and flight-tests during the course. Students apply concepts acquired during classroom sessions and construct a ground control station, modify and upgrade existing unmanned aircraft with payloads/sensors, train to operate sensors using existing simulators, and conduct flight-testing. Incorporates UAS data collection and analysis throughout the course.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): AMT 370 with C or better  |
| AMT     | 482         | Airline Instrument Procedures                             | Advanced instrument flight using airline instrument procedures and airline crew and cockpit resource management.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): Aeronautical Management Technology (Professional Flight) BS major; AMT 382 with C or better   |
| AMT     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Aviation Programs | 1-12  |                 | Prerequisite(s): AMT 308 with C or better; junior standing   |
| AMT     | 486         | Regional Jet Aircraft Systems                             | Regional jet airline aircraft systems and flight procedures. Includes theoretical education for regional jet commercial passenger aircraft.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): AMT 382 with C or better; Aeronautical Management Technology (Professional Flight) student  |
| AMT     | 488         | Regional Jet Aircraft Systems II                          | Regional jet systems, with emphasis on air navigation systems, including Flight Management System (FMS), Selective Calling (SELCAL), and flight profiles.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Pre-requisite(s): Aeronautical Management Technology (Professional Flight) student; AMT 382 with C or better   |
| AMT     | 489         | Airline Administration                                    | Administrative organizations, economics of airline administration, operational structure, and relationship with federal government agencies.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): minimum junior standing; Pre- or corequisite(s): AMT 308 with C or better if completed  |
| AMT     | 490         | Regional Jet Operations Capstone                          | Regional jet aircraft operations and flight procedures. Includes theoretical education for RJ aircraft, FTD and full-motion simulator time.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): Aeronautical Management Technology (Professional Flight) BS major; AMT 305; AMT 482 with C or better; AMT 486 with C or better  |
| AMT     | 491         | Aviation Management Capstone                              | Integrated group project with industry partner to address current problems in either air carrier or airport management focus area.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Pre- or corequisite(s): AMT 489 with C or better if completed  |
| AMT     | 492         | Honors Directed Study                                     | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.  | N                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Aviation Programs | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| AMT     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | LEC               | N               | Z1            | Ira A. Fulton Engineering | Aviation Programs | 1-6   | L               | Prerequisite(s): Barrett Honors student  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department        | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|-------------------|-------|-----------------|---|
| AMT     | 494         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 1-4   |                 | Pre-requisite: Minimum 2.25 GPA   |
| AMT     | 495         | Unmanned Aircraft Systems Operations                   | Capstone course applies student pilots' knowledge and skills gained in previous UAS courses to safely deploy a UAS in response to real-world situation or research. Students collaborate with other university departments, state or federal agencies, and other organizations and conduct actual or simulated missions in geospatial data collection, search and rescue, and near-space operations. Course blocks include flight planning and preparation, aircraft preflight and maintenance, launch and recovery operations, payload operations, normal and emergency procedures, and mission planning and execution. Students continue flight training using existing simulators and flight-tests. Students use real-world situations which require deployment of equipment and systems developed during previous course. Places specific emphasis on aircraft and payload selection based upon proposed mission analysis. Incorporates UAS data collection and analysis throughout the course. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): AMT 470  |
| AMT     | 498         | Pro-Seminar  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 1-7   | L               |   |
| AMT     | 499         | Individualized Instruction                             | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Aviation Programs | 1-3   |                 |   |
| AMT     | 522         | Aviation Law   | Examines the U.S. legal system with a focus on the aviation perspective, administrative agencies, FAA enforcement, and case   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AMT     | 523         | Intermodal Transportation Management                   | Systems theory applied to intermodal transportation networks. Surveys air and ground transportation infrastructure, institutional frameworks, and intermediaries promoting connections between modes.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) OR Senior in Fulton Schools of Engineering with a University Cum GPA 3.0 or greater |
| AMT     | 525         | Airport Planning and Design                            | Completion of various phases of airport master planning process. Provides guidance for logical and timely development of airports. Project work groups assigned.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AMT     | 526         | Aviation Labor Relations                               | Investigates labor-management relations in the aviation industry, including laws, unionism, collective bargaining, public sector relationships, grievance procedures, and conflict.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AMT     | 527         | Airline Management Strategies                          | Since deregulation, airlines have undergone profound changes through mergers, consolidation, and acquisition. In-depth look at airline management strategies for the 21st century.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AMT     | 533         | Training Systems & Simulation                          | Provides an overview of simulation and its various uses in aviation instruction. Three main focus areas: simulation, learning and human performance, instruction and evaluation of instructional effectiveness. Focuses on research findings in these areas and practical application and implementation of simulation to improve learning and performance.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AMT     | 534         | Airline Pricing and Yield Management                   | Focuses on the fundamentals of airline economics and the volatility of industry performance at the operating level. Topics include the structure of the airline industry and the various historical and current operational strategies; demand, traffic, price and yield; operating revenues and operating costs. The airline industry is affected by various economic, environmental, political and regulatory conditions. Reviews the implications of these conditions on airline pricing, capacity, fleet selection and scheduling. Analyzes current and predicted future conditions to develop potential strategies for successful revenue management within the industry.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Pre-requisite: degree- or nondegree-seeking graduate student. Credit is allowed for only AMT 534 or AMT 598 (Airline Pricing and Yield Management)          |
| AMT     | 541         | Aviation Physiology                                    | Surveys human physiology and human performance principles related to modern aircraft and aircraft systems operating in multiple environments.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AMT     | 546         | Crew Resource Management/Line-Oriented Flight Training | Evaluates in-depth, multicrew coordination issues for commercial aviation pilots. Stresses importance of critical thinking, decision making, integrated resource utilization.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AMT     | 565         | Safety in Complex Systems                              | Evaluates human error in aerospace systems. Discusses different theories of error and taxonomies as well as safety management systems to help identify hazards and risks and then help mitigate and/or eliminate them. Extensively uses case studies to highlight human failures as well as demonstrate organizational changes that resulted in safe and successful operations.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AMT     | 570         | Unmanned Aerial Systems                                | Examines the system design, operations and employment of unmanned aerial systems (UAS), beginning with an overview of the system and human factors and specific issues involved with UAS design and operations. Communication, remote operations, operator display interface, and situational awareness and teamwork required for successful employment. Evaluates accident data to understand technology and human error concerns.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Aviation Programs | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| AMT     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) OR Fulton Polytechnic School student  |
| AMT     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Aviation Programs | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) OR Fulton Polytechnic School student  |
| AMT     | 590         | Reading and Conference                                 | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Aviation Programs | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) OR Fulton Polytechnic School student  |
| AMT     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Aviation Programs | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) OR Fulton Polytechnic School student  |

ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                           | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department              | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|-------------------------|-------|-----------------|--|
| AMT     | 592         | Research                               | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Aviation Programs       | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) OR Fulton Polytechnic School student |
| AMT     | 593         | Applied Project                        | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Aviation Programs       | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) OR Fulton Polytechnic School student |
| AMT     | 594         | Conference and Workshop                | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Aviation Programs       | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AMT     | 595         | Continuing Registration                | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering | Aviation Programs       | 1     |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) OR Fulton Polytechnic School student |
| AMT     | 598         | Special Topics                         | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Aviation Programs       | 1-4   |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) OR Fulton Polytechnic School student |
| AMT     | 599         | Thesis                                 | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Ira A. Fulton Engineering | Aviation Programs       | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) OR Fulton Polytechnic School student |
| ANB     | 500         | Research Methods                       | Course on research methods in a specific discipline.  | Y                 | RSC               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ANB     | 580         | Practicum                              | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ANB     | 583         | Fieldwork                              | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ANB     | 584         | Internship                             | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ANB     | 590         | Reading and Conference                 | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

| ANB     | 600         | Research Methods                       | Course on research methods in a specific discipline.  | Y                 | RSC               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ANB     | 601         | Research Strategies in Animal Behavior | Using hands-on experiences, teaches key concepts underlying the control and function of animal behaviors and contemporary methods for measuring, analyzing, and reporting animal behaviors. Combines introductory classroom lectures on concepts and methods with direct application in observations and experiments on animal behavior in the field and the lab. Topics include communication, mating behavior and systems, parental care, kin selection, cooperation and competition, migration and dispersal, foraging, and anti-predator strategies.  | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 4     |                 | Pre-requisites: Animal Behavior PhD student  |
| ANB     | 602         | Current Issues In Animal Behavior      | Student-led seminar course centers on discussions of contemporary literature in the field of animal behavior. Takes a student-driven approach, with course participants selecting a target theme for the semester, selecting individual papers to discuss each week, and leading discussions about relevant merits and shortcomings of each article. Additional topics may include: conceptual frameworks and results from the dissertation projects of participating students, career options and strategies in the behavioral sciences, responsible research conduct in the field, and tactics in manuscript publication and grantsmanship. | N                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 1     |                 | Pre-requisites: Animal Behavior PhD student  |
| ANB     | 680         | Practicum                              | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ANB     | 683         | Fieldwork                              | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ANB     | 684         | Internship                             | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ANB     | 690         | Reading and Conference                 | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ANB     | 691         | Seminar                                | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

| ANB     | 692         | Research                   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ANB     | 693         | Applied Project            | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences    | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ANB     | 695         | Continuing Registration    | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | N                 | RSC               | Y               | Z3            | Liberal Arts and Sciences    | School of Life Sciences | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ANB     | 700         | Research Methods           | Course on research methods in a specific discipline.  | Y                 | RSC               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ANB     | 780         | Practicum                  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ANB     | 783         | Fieldwork                  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ANB     | 784         | Internship                 | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences    | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ANB     | 790         | Reading and Conference     | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ANB     | 791         | Seminar                    | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| ANP     | 594         | Conference and Workshop                        | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | PRA               | Y               | OPT           | Herberger Inst Design & Arts | The Design School               | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ANP     | 595         | Continuing Registration                        | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Herberger Inst Design & Arts | The Design School               | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ANP     | 598         | Special Topics                                 | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School               | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ANP     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Herberger Inst Design & Arts | The Design School               | 1-12  |                 | Pre-requisites: Building Design Knowledge and Computing MS student; ANP 592 with a grade of Y  |
| ANP     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School               | 1-12  |                 | Pre-requisite: Building Design Knowledge and Computing MS student  |
| APA     | 191         | First-Year Seminar                             | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 1-3   |                 | Pre-requisite: Freshman status   |
| APA     | 194         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 1-4   |                 |  |
| APA     | 200         | Introduction to Asian Pacific American Studies | Examines historical and contemporary issues facing Asian Americans and Pacific Islanders in the United States.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 3     | (HU or SB) & C  |  |
| APA     | 210         | Introduction to Ethnic Studies in the U.S.     | Covers diversity of experiences and relations among racial and ethnic groups in the United States.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 3     | C               | Credit is allowed for only AFR 212 (or AFS 210) or APA 210 or JUS 210 or TCL 210   |
| APA     | 220         | Introduction to Social Transformation          | Introduces key concepts in the study of social change, social innovation, and social transformation. Studies examples of social movements, social activism, community organizing, and coalition building and how such efforts have transformed society and culture.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 3     |                 | Credit is allowed for only APA 220 or JUS 220 or SST 220   |
| APA     | 294         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 1-4   |                 |  |
| APA     | 298         | Honors Directed Study                          | Independent study or practicum under the supervision of a faculty member.   | N                 | RSC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| APA     | 310         | Asian Pacific American Arts and Cultures       | In-depth exploration of Asian Pacific American cultural expression in art, literature, film, theatre, dance, and music.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 3     | HU & C          | Pre-requisite: APA 200 or APA 210 or minimum 30 hours. Credit is allowed for only APA 310 or FMS 310   |
| APA     | 315         | Asian Pacific American Literature              | In-depth exploration of the literary history, critical reception, and major theories in Asian Pacific American poetry, fiction, and prose.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 3     | HU & C          | Pre-requisite: APA 200 or 210 or 30 minimum hours  |
| APA     | 330         | Asian Pacific American Genders and Sexualities | In-depth exploration of gender and sexuality issues as they relate to Asian Pacific American experiences, including interracial relationships, stereotypes, feminism, queer theory.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 3     | (L or SB) & C   | Pre-requisites: APA 200 or 210 or 30 minimum hours. Credit is allowed for only APA 330 or WST 331  |
| APA     | 340         | Asian Pacific Americans and Media              | Advanced study of the social construction of Asian Pacific American media images and resistance to those images in various historical contexts.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 3     | HU & C          | Pre-requisite: APA 200 or APA 210 or 30 hours  |
| APA     | 345         | Asian Pacific Americans and Film               | In-depth examination of the representations of Asian Pacific Americans in narrative, popular, experimental, and documentary film.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 3     | HU & C & H      | Pre-requisite: APA 200, APA 210, or FMS 100, or minimum 30 hours. Credit is allowed for only APA 345 or FMS 345  |
| APA     | 347         | Immigration, Education and the Family          | Cultural processes related to immigration and their impact on the social construction of the immigrant family and the education of other children. Immigration theories, immigration debates and discourses, the immigration landscape of the 21st century, conceptualizations of the family, and the methodological challenges family researchers face. Topics include issues pertaining to education and the family and globalization.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 3     | L               | Prerequisite(s): ENG 102, 105 or 108 with C or better; Minimum 24 hours; Credit is allowed for only APA 347, JUS 347, APA 394 (Immigration, Education & Family) or JUS 394 (Immigration, Edu. & Family)  |
| APA     | 350         | Inequality and Diversity in Education          | Advanced exploration of various dimensions of diversity in relation to educational systems and outcomes. Through sociological and psychological research, case studies and films, students examine how educational inequality is created and reproduced through individual actions and institutional constraints. Also considers the connection between schooling and human rights and ways in which educational inequality may be addressed.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 3     | L & C           | Prerequisite(s): APA 200, AFR 212 (or AFS 210), APA 210, CDE 232, JUS 210, TCL 210 or minimum 30 hours; Credit allowed for only AFR 350 (or AFS 350), APA 350, CDE 350, JUS 365, SOC 350, TCL 360 or AFS/APA/CED/TCL 394 (Inequality & Diversity in Education) |
| APA     | 352         | Race, Space and the Production of Inequality   | Explores how the relationship between race and space has been important to the development of broad patterns of social inequality in the United States. Through a variety of readings, films and other material, examines how ideas of race and space have been important to the making and maintenance of national boundaries, citizenship, regional histories and spatial typologies such as border, ghetto, suburb and prison.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 3     | SB & C          | Prerequisite(s): APA 200 or 210; minimum 45 hours; Credit is allowed for only AFR 352 (or AFS 352) or APA 352 or JUS 353 or TCL 353 or APA 394 (Race, Space and the Production of Inequality)  |
| APA     | 356         | Race and Child Development                     | Reviews the current research and literature about the particular role of race in child development. Even though race is not a valid biological construct, it has significant social implications as it shapes how children interact and are treated by others. Through primarily class discussions/activities, presentations and papers, addresses: (1) What are the research and theoretical issues in studying race? (2) What does race and racism mean? (3) How does race influence developmental processes? | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 3     |                 | Prerequisite(s): APA 200 or APA 210 or 30 hours. Credit is allowed for only APA 356 or CDE 356 or APA 394 (Race and Child Development)   |
| APA     | 360         | Asian Pacific American Experience              | Advanced study of the historical and contemporary experiences of Asian Pacific American racial/ethnic groups in the United States.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 3     | (HU or SB) & C  | Pre-requisite: APA 200 or APA 210 or 30 hours  |
| APA     | 394         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 1-4   |                 | Pre-requisite: APA 200 or APA 210 or 30 hours  |
| APA     | 428         | Critical Race Theory                           | In-depth analysis of the ways in which race has been historically utilized, constructed, and contested in American civil society.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 3     |                 | Prerequisite(s): ENG 102, 105 or 108 with C or better; minimum 36 hours; Credit is allowed for only AFR 428, APA 428, JUS 428 or SST 428   |
| APA     | 450         | Asian Pacific American Contemporary Issues     | Advanced study of the issues shaping Asian Pacific American communities, including immigration, politics, education, health, family, gender, youth, interracial relations, and other contemporary topics.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 3     | SB & C          | Pre-requisite: APA 200 or APA 210 or minimum 45 hours  |
| APA     | 484         | Internship                                     | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Social Transformation | 1-12  |                 |  |
| APA     | 492         | Honors Directed Study                          | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Social Transformation | 1-6   |                 | Prerequisite(s): Barrett Honors student  |

|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|------------------------------|---------------------------------|-------|-------------------|---|
| APA     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | Liberal Arts and Sciences    | School of Social Transformation | 1-6   | L                 | Prerequisite(s): Barrett Honors student   |
| APA     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 1-4   |                   | Pre-requisite: APA 200 or APA 210 or minimum 45 hours   |
| APA     | 497         | Honors Colloquium   | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 1-6   |                   | Prerequisite(s): Barrett Honors student   |
| APA     | 498         | Pro-Seminar   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 1-7   | L                 |   |
| APA     | 499         | Individualized Instruction  | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Social Transformation | 1-3   |                   |   |
| APA     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 1-12  |                   | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APA     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 1-4   |                   | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APA     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Liberal Arts and Sciences    | School of Social Transformation | 1-12  |                   | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APA     | 691         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | School of Social Transformation | 1-12  |                   | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APH     | 191         | First-Year Seminar  | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School               | 1-3   |                   |   |
| APH     | 194         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School               | 1-4   |                   |   |
| APH     | 212         | Culture of Place  | Explores contemporary conditions in the built environment as they are shaped by cultural phenomena.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 3     | HU                |   |
| APH     | 294         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School               | 1-4   |                   |   |
| APH     | 300         | World Architecture I/Western Cultures   | Historical and contemporary built environments of Western civilizations: Mediterranean, Europe, and the Americas as manifestations of cultural history and responses to environmental determinants.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 2-3   | HU & H & G        | Pre-requisite: May not be Pre-Architectural Studies or Architectural Studies BSD student  |
| APH     | 313         | History of Architecture I   | Intensive study of history of architecture from earliest traces to 1300. Examines cultures from around the world.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 3     | (L or HU) & G & H | Pre-requisites: Architectural Studies major with ALA 100 or ALA 102 and passed degree milestone review or non-majors with junior standing |
| APH     | 314         | History of Architecture II  | Intensive introduction to history of architecture from roughly 1300 to present day. Examines cultures from around the world.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 3     | (L or HU) & G & H | Prerequisite(s): APH 313 with C or better   |
| APH     | 336         | 20th-Century Architecture I   | Architecture in Europe and America from the foundations of the modern movement to the culmination of the international style.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 3     | HU                | Pre-requisites: Minimum Junior standing or Digital Culture: Design major  |
| APH     | 337         | 20th-Century Architecture II  | Developments in architecture since the international style.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 3     | HU                | Pre-requisite: APH 336  |
| APH     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School               | 1-4   |                   |   |
| APH     | 405         | Contemporary Architecture and Urbanism 1970 to the Present                      | Addresses issues of global architecture and urbanism in the late 20th and early 21st centuries.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 3     | HU & H            | Prerequisite(s): APH 313 and APH 314, or graduate standing  |
| APH     | 414         | Great Cities  | Historical survey of great cities from antiquity to the present.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 3     | (L or HU) & H     | Prerequisite(s): minimum ASU cumulative 3.00 GPA; minimum 60 hours; Credit is allowed for only APH 414 or MUD 598 (Great Cities)          |
| APH     | 421         | First Concepts: What is... The Writing, Philosophy, and Culture of Architecture | Examines the major writings and concepts that surround the history of architecture. Focuses on (but not exclusively) work in the 20th century.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 3     | L or HU           | Prerequisite(s): Architectural Studies or Environmental Design majors; APH 313 with C or better; APH 314 with C or better                 |
| APH     | 441         | Ancient Arch  | Architecture of the ancient Mediterranean world with selective emphasis on major historical complexes and monumental sites.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 3     |                   |   |
| APH     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | The Design School               | 1-12  |                   |   |
| APH     | 492         | Honors Directed Study   | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School               | 1-6   |                   | Prerequisite(s): Barrett Honors student   |
| APH     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Herberger Inst Design & Arts | The Design School               | 1-6   | L                 | Prerequisite(s): Barrett Honors student   |
| APH     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School               | 1-4   |                   |   |
| APH     | 498         | Pro-Seminar   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School               | 1-7   | L                 |   |
| APH     | 499         | Individualized Instruction  | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | Herberger Inst Design & Arts | The Design School               | 1-3   |                   |   |
| APH     | 500         | Research Methods  | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School               | 1-12  |                   | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APH     | 505         | Foundation Theory Seminar   | Foundation of conceptual architectural inquiry, stressing the reciprocal and interdependent relationship between design and theory.   | N                 | SEM               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 3     |                   | Pre-requisite: Master of Architecture student; Co-requisites: ADE 522; ATE 556  |
| APH     | 509         | Foundation Seminar  | Historical, technical, theoretical, environmental, and professional issues in architecture.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 3     |                   | Pre-requisite: Master of Architecture; Co-requisite: ADE 510  |
| APH     | 515         | Current Issues and Topics   | Critical examination of current architectural issues, topics, and discourse.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School               | 3     |                   | Pre-requisites: APH 505 with a C or better; Co-requisite: ADE 621   |
| APH     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School               | 1-12  |                   | Herberger Institute of Design and the Arts Graduate student   |
| APH     | 581         | Contemporary Urban Design   | Explores contemporary city and urban design issues related to contemporary cities.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School               | 3     |                   | Herberger Institute of Design and the Arts Graduate student   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                        | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department            | Units | General Studies | Requirements   |
|---------|-------------|-------------------------------------|---|-------------------|-------------------|-----------------|---------------|------------------------------|-----------------------|-------|-----------------|--|
| APH     | 584         | Internship                          | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | The Design School     | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| APH     | 590         | Reading and Conference              | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School     | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| APH     | 591         | Seminar                             | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | RSC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School     | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| APH     | 592         | Research                            | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School     | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| APH     | 593         | Applied Project                     | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School     | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| APH     | 594         | Conference and Workshop             | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | PRA               | Y               | OPT           | Herberger Inst Design & Arts | The Design School     | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| APH     | 595         | Continuing Registration             | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Herberger Inst Design & Arts | The Design School     | 1     |                 | Herberger Institute of Design and the Arts Graduate student  |
| APH     | 598         | Special Topics                      | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School     | 1-4   |                 | Herberger Institute of Design and the Arts Graduate student  |
| APH     | 599         | Thesis                              | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Herberger Inst Design & Arts | The Design School     | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| APH     | 683         | Fieldwork                           | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | RSC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School     | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| APH     | 691         | Seminar                             | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Herberger Inst Design & Arts | The Design School     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| APL     | 500         | Research Methods                    | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Department of English | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| APL     | 518         | World Englishes                     | Examines the implications of the global spread of English, including its diverse forms and functions.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only APL 518 or APL 591 (World Englishes) or APL 691 (World Englishes)                       |
| APL     | 555         | Disciplinary Discourses             | Professional and disciplinary issues in linguistics and applied linguistics.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| APL     | 557         | Computer-Assisted Language Learning | Explores the field of computer-assisted language learning. Traces the development of computer-assisted language learning (CALL) over the last three decades. Focuses on research that explores how computer technology can help facilitate second language development; relies primarily on empirical data to do so. Examine established as well as new research methods in CALL. Participants participate in one research study and apply theoretical and practical aspects of CALL in these projects. | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | Department of English | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only APL 557 or ENG 557 or LIN 591 (Intro to Computer Assisted Language Learning) or SLC 557 |
| APL     | 580         | Practicum                           | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences    | Department of English | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| APL     | 583         | Fieldwork                           | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences    | Department of English | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| APL     | 584         | Internship                          | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences    | Department of English | 1-12  |                 | Pre-requisite: Applied Linguistics Ph.D. student   |
| APL     | 588         | Spanish Language Acquisition        | Examines Spanish language acquisition in children and adults in the context of monolingual and bilingual language acquisition.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Department of English | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only SHS 588 or APL 588  |
| APL     | 590         | Reading and Conference              | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | Liberal Arts and Sciences    | Department of English | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| APL     | 591         | Seminar                             | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | Department of English | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| APL     | 592         | Research                            | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | Department of English | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| APL     | 593         | Applied Project                     | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | Department of English | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| APL     | 594         | Conference and Workshop             | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Department of English | 1-12  |                 | Pre-requisite: Applied Linguistics Ph.D. student   |
| APL     | 595         | Continuing Registration             | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Liberal Arts and Sciences    | Department of English | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| APL     | 598         | Special Topics                      | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Department of English | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| APL     | 599         | Thesis                              | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences    | Department of English | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| APL     | 600         | Research Methods                    | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Department of English | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|---------------------------|---|-------|-----------------|--|
| APL     | 601         | Introduction to Applied Linguistics          | Overview of the field of applied linguistics. Applies linguistic knowledge to the resolution of language-related issues facing multilingual societies (e.g., second language acquisition and ultimate attainment, literacy, language assessment, bilingualism, heritage and indigenous languages, language attitudes, language planning and policy, language and politics, world Englishes).                         | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English                           | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APL     | 680         | Practicum                                    | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | Department of English                           | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APL     | 683         | Fieldwork                                    | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.   | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | Department of English                           | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APL     | 684         | Internship                                   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | Department of English                           | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APL     | 690         | Reading and Conference                       | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | IND               | Y               | Z1            | Liberal Arts and Sciences | Department of English                           | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APL     | 691         | Seminar                                      | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | Department of English                           | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APL     | 692         | Research                                     | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | Department of English                           | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APL     | 693         | Applied Project                              | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | Department of English                           | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APL     | 695         | Continuing Registration                      | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.              | Y                 | RSC               | Y               | Z3            | Liberal Arts and Sciences | Department of English                           | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APL     | 700         | Research Methods                             | Course on research methods in a specific discipline.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | Department of English                           | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APL     | 780         | Practicum                                    | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | Department of English                           | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APL     | 783         | Fieldwork                                    | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.   | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | Department of English                           | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APL     | 784         | Internship                                   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences | Department of English                           | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APL     | 790         | Reading and Conference                       | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | IND               | Y               | Z1            | Liberal Arts and Sciences | Department of English                           | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APL     | 791         | Seminar                                      | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | Department of English                           | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APL     | 792         | Research                                     | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | Department of English                           | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APL     | 793         | Applied Project                              | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | Department of English                           | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APL     | 795         | Continuing Registration                      | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.              | Y                 | RSC               | Y               | Z3            | Liberal Arts and Sciences | Department of English                           | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APL     | 799         | Dissertation                                 | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences | Department of English                           | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APM     | 501         | Differential Equations I                     | Linear and nonlinear ordinary differential equations. Existence and uniqueness of solutions, limit sets, stability, Lyapunov functions, linear systems with constant coefficients. Geometry of behavior in two and three dimensions, including Poincare-Bendixson theorem, Lorenz equations, linearization, sensitive dependence on initial conditions, bifurcations.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APM     | 502         | Differential Equations II                    | Partial differential equations, including classification, method of characteristics, separation of variables, boundary value and initial value problems, Green's functions, maximum principle, distributions, and weak solutions. Students must have already taken or be concurrently enrolled in Differential Equations 1.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APM     | 503         | Applied Analysis                             | Convergence sequences and series of functions; metric space topology, compactness, completeness and the Ascoli-Arzelà Theorem; Contraction Mapping Principle, Implicit Function Theorem; intro to Lebesgue integration leading to $L^p$ -spaces; properties of Hilbert spaces, Fourier transform. Students should have knowledge of linear algebra, multivariable calculus, and analysis at the undergraduate level. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APM     | 504         | Applied Probability and Stochastic Processes | Markov chains, Martingales, probability measures, SDE, Brownian motion, Monte Carlo methods.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APM     | 505         | Applied Linear Algebra                       | Fundamentals of linear algebra and numerical linear algebra, including decompositions (LU, QR, SVD), Eigen values, spectral theory, least squares problems. Programming with MATLAB.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APM     | 506         | Computational Methods                        | Covers interpolation, solution of nonlinear equations and systems, numerical differentiation, numerical integration, numerical solution of ordinary and partial differential equations.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| APM     | 520         | Advanced Numerical Linear Algebra            | Extends topics of APM 505. Introduces essential iterative methods, Gauss-Seidel, conjugate gradients. Methods for SVD, total least squares and root-finding applications in image analysis. Students should have basic knowledge of numerical linear algebra and a programming language.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |

ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                                      | Units | General Studies | Requirements  |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|---------------------------|---|-------|-----------------|---|
| APM     | 522         | Numerical Methods for Partial Differential Equations          | Numerical methods for parabolic, elliptic, and hyperbolic partial differential equations, including finite difference/volume, finite element, and spectral methods. Mathematical concepts of stability, consistency, and convergence. Applications to scientific, biomedical, and industrial problems. Students should have a basic knowledge of PDE's and a programming language.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APM     | 523         | Optimization  | Building on a fundamental undergraduate background in linear algebra and calculus, covers continuous optimization, constrained/unconstrained and linear/nonlinear, as well as selected topics in discrete optimization. Some programming experience is needed for course projects.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APM     | 524         | Spectral Methods  | Extends approximation theory to global methods, including Fourier and orthogonal polynomial expansions. Applications to imaging and hyperbolic, parabolic, and elliptic partial differential equations. Students should have previous graduate courses in ordinary and partial differential equations, basic programming skills.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APM     | 525         | High-Performance Computing                                    | Supercomputer architectures, parallel programming environments, languages, libraries, and algorithms for high-performance numerical simulations. Instructor/Department approval is required for this course.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only APM 525, MAE 494 (High-Performance Computing) or MAE 598 (High-Performance Computing) |
| APM     | 526         | Advanced Numerical Methods for Partial Differential Equations | Partial content will vary from semester to semester, but may include hyperbolic conservation laws, finite element methods, multigrid methods, and parallel algorithms for partial differential equations. Applications to scientific, biomedical, and industrial problems. Students should have basic knowledge of PDE's and a programming language.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APM     | 530         | Mathematical Cell Physiology                                  | Mathematical modeling of dynamical aspects of cell physiology. Diffusion, membrane transport, intracellular calcium channel kinetics, calcium oscillations and waves.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APM     | 531         | Mathematical Neuroscience I                                   | Mathematical modeling of electrochemical processes in nerve cells. Dendritic modeling, dendritic spines and synaptic plasticity, bifurcation analysis of excitable membrane models, deterministic and stochastic methods for threshold dynamics and bursting, relaxation oscillations. Students should have had a previous graduate-level PDE course.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APM     | 533         | Mathematical Population Biology I                             | Selectively covers population biology models in the forms of systems of difference equations or ordinary differential equations. Focuses on mathematical analysis of population models as well as model formulation and simulation. Students should have a previous graduate-level course in ODE.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APM     | 534         | Mathematical Population Biology II                            | Selectively covers population biology models in the form of partial differential equations and systems. Focuses on mathematical analysis of population models as well as model formulation and simulation. Students should have a previous basic graduate-level course in ODE and PDE.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APM     | 535         | Mathematical Models in Medicine                               | Mathematical models for the etiology, epidemiology, pathogenesis, morphology and treatment of disease. Covers dynamical models of cancer and viral infections.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APM     | 541         | Stochastic Modeling in Biology                                | Markov processes, random walks, martingales, branching processes, logistic growth model, Wright-Fisher model, Kingman's coalescent, bound and site percolations, contact processes, voter models. Students should have previously taken course work in probability and/or stochastic processes (or have a recommendation from their advisor). Recommendation from advisor is typically for students in biology or physics that have not taken statistics courses but have a good background in mathematics. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APM     | 553         | Dynamical Systems   | Center manifolds, structural stability, normal forms, averaging, chaos, control and synchronization. Students should have a previous graduate course in ODE or applied analysis.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APM     | 560         | Applied Dynamical Systems                                     | Bifurcations, normal forms, pattern formations, mixing, Lagrangian chaos, and applications to fluid dynamics.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APM     | 570         | Applied Linear Operators                                      | Bounded linear and compact operators on Hilbert spaces. Linear integral equations, Fredholm and Hilbert-Schmidt theory, and approximate methods. Distributions. Completion of a course in Applied Analysis is strongly recommended prior to enrollment in this course.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APM     | 575         | Perturbation Methods in Applied Mathematics                   | Regular and singular perturbation methods for ordinary and partial differential equations, Boundary layer theory, matched asymptotic expansions, multiple-scale, homogenization, and WKB methods. Application to nonlinear oscillations, bifurcation and stability problems. Completion of a course in Differential Equations II or Partial Differential Equations in Engineering is strongly recommended prior to enrollment in this course.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Pre-requisites: APM 502 or MAE 502; Credit is allowed for only APM 575 or MAE 505   |
| APM     | 576         | Theory of Partial Differential Equations I                    | Existence and uniqueness theorems, boundary value and initial value problems, characteristics, Green's functions, maximum principle, distributions, and weak solutions.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APM     | 577         | Theory of Partial Differential Equations II                   | Continuation of existence and uniqueness theorems, boundary value and initial value problems, characteristics, Green's functions, maximum principle, distributions, and weak solutions.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): APM 576  |
| APM     | 581         | Geometry and Control of Dynamical Systems I                   | Manifolds, tangent and cotangent bundle, Lie theory, integrability and controllability, and feedback control. Students should have previously taken coursework in differential equations, applied analysis, applied probability, and stochastic processes.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APM     | 582         | Geometry and Control of Dynamical Systems II                  | Variational principles, Euler-Lagrange equations, Hamiltonian systems, optimal control, connections and curvature. Students should have previously taken coursework in differential equations, applied analysis, applied probability, and stochastic processes.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APM     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APM     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| APM     | 700         | Research Methods  | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OP4           | Liberal Arts and Sciences | School of Mathematical and Statistical Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| APM     | 790         | Reading and Conference                         | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| APM     | 792         | Research                                       | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences  | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| APM     | 795         | Continuing Registration                        | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | N                 | LEC               | Y               | Z3            | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences  | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| APM     | 799         | Dissertation                                   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences  | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ARA     | 101         | ASU: The Art Experience                        | Introduces the culture, challenges and opportunities of the School of Art. Addresses essentials for academic and personal success within the university.  | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 1     |                 | Credit is allowed for only ARA 101, 194 (ASU Art Experience) or HDA 194 (ASU Herberger Inst Experience)                          |
| ARA     | 110         | Sculpture Safety                               | Introduces safety and environmental health in the sculpture studios. Pre- or corequisite for all sculpture classes.   | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 1     |                 |  |
| ARA     | 191         | First-Year Seminar                             | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 1-3   |                 |  |
| ARA     | 194         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 1-4   |                 |  |
| ARA     | 195         | Art in My World                                | Basic concepts and fundamental questions that provide insights into art making and that affect one's understanding and appreciation of art.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     | HU              |  |
| ARA     | 202         | Understanding Photographs                      | Slide lecture course in understanding photography as a fine art form. Broad-ranging introduction to art and the visual world, focusing on art and artifacts from diverse cultures and eras, various two- and three-dimensional media, meaning and purpose in art, as well as community and internet art resources.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 |  |
| ARA     | 218         | Art and Visual Learning                        | Each year a committee of School of Art faculty and graduate students works together to bring important international artists to ASU to give lectures and meet with graduate students. Undergraduate students have the opportunity to attend those lectures, which are free and open to the public. The goal of this required class is to make sure that students get in the habit of taking advantage of this opportunity to hear first-hand from some of the world's most important and visionary artists and learn to write think and write about the work of other artists.  | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     | HU              | Credit is allowed for only ARA 218 or 294 (Art and Visual Learning)  |
| ARA     | 240         | Encounters with Contemporary Art               | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 1-4   |                 |  |
| ARA     | 294         | Special Topics                                 | Explores contemporary practice through lectures, readings, exhibition visits, screenings and discussions. Explores work created within the past thirty years up to the present. Students act as a collective "ear to the ground" for the medium, engaging in first-hand experiences and research and being responsible to share those experiences with the class as active agents of discovery. Requires reading current periodicals, attending and discussing photographic lectures and exhibitions both in-class and beyond within the local community.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): minimum 2.00 GPA; minimum 45 hours. Credit is allowed for only ARA 309 or 394 (Photography Now)                 |
| ARA     | 309         | Photography Now                                | Foundations of art for children and young adults. Emphasizes learning, development, and understanding art in historical and cultural contexts.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     | HU              | Prerequisite(s): non-ART student; ENG 101; ENG 102; minimum junior standing  |
| ARA     | 311         | Art Appreciation and Human Development         | Critical survey of recent theory and practice in "intermedia" art. Created specifically to provide a common historical and theoretical framework for students majoring in the intermedia area, as well as to anyone seeking to broaden his or her understanding of non-traditional media, performance, installation, computer art, video, social practice, Webart and interactivity and their relationship to contemporary society and discourse.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): ART 216 or minimum 45 hours; Credit is allowed for only ARA 330 or ARA 494 (Issues in Intermedia)               |
| ARA     | 330         | Issues in Intermedia                           | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 1-4   |                 |  |
| ARA     | 394         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 1-4   |                 |  |
| ARA     | 396         | Professional Practices for Design and the Arts | Prepares young artists, designers and individuals in other creative fields to successfully enter the professional world of art and culture beyond the support system of the university. Through examining contemporary artists' models of practice and creative entrepreneurship; developing real life materials to promote their practice; engaging with guest artists, designers and other creative professionals; exploring best practices for arts-based businesses; and the array of continuing opportunities, student artists learn how they can shape their lives to sustain their artistic practice once they graduate. Best suited for students who are prepared to seriously contemplate the continuation of their specific practice beyond graduation. Students should enter this course with a collection of work samples that demonstrate their experience in their chosen discipline. | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): minimum 56 hours; Credit is allowed for only ARA 394 (Professional Practices for Artist) or ARA 396             |
| ARA     | 460         | Gallery Exhibitions                            | Practical experience in all phases of department gallery operations and preparation of gallery publications.  | N                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Credit is allowed for only ARA 460 or 560  |
| ARA     | 460         | Gallery Exhibitions                            | Practical experience in all phases of department gallery operations and preparation of gallery publications.  | N                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     |                 |  |
| ARA     | 484         | Internship                                     | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | School of Art                                    | 1-12  |                 |  |
| ARA     | 489         | Writing Art and Design Criticism               | Arts writing workshop designed to help develop critical voice in written form. During the course of the semester, students learn about art and design criticism by reading work in a variety of contexts, looking at examples of art and design in person and discussing them, and writing and revising their own pieces of criticism.  | N                 | SEM               | Y               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Pre-requisites: Minimum 2.00 GPA; Minimum 45 hours; Credit is allowed for only ARA 489 or 494 (Writing Art and Design Criticism) |
| ARA     | 494         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 1-4   |                 |  |

| ARA     | 494         | Special Topics                        | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 1-4   |                 |   |
| ARA     | 498         | Pro-Seminar                           | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | SEM               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 1-7   | L               |   |
| ARA     | 499         | Individualized Instruction            | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | School of Art                                    | 1-3   |                 |   |
| ARA     | 499         | Individualized Instruction            | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | LEC               | Y               | Z1            | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 1-3   |                 |   |
| ARA     | 560         | Gallery Exhibitions                   | Provides practical experience in all phases of art gallery operations. Students learn professional art gallery practices through hands-on experience in the School of Art Student Galleries including Harry Wood, Step, and Gallery 100. Class members assist BFA and MFA candidate students in many phases of exhibition preparation and execution as well as assist with the curation and design of group exhibitions.  | N                 | LEL               | Y               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only ARA 460, 560 or 598 (Gallery Exhibitions)                       |
| ARA     | 584         | Internship                            | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | School of Art                                    | 1-12  |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours                    |
| ARA     | 589         | Writing Art and Design Criticism      | Arts writing workshop designed to help develop critical voice in written form. During the course of the semester, students learn about art and design criticism by reading work in a variety of contexts, looking at examples of art and design in person, analyzing and discussing them, and writing and revising their own pieces of criticism.   | N                 | SEM               | Y               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Pre-requisite: Graduate student (degree seeking or non-degree seeking). Credit is allowed for only ARA 489 or ARA 589 or ARA 598 (Writing Art & Design Criticism) |
| ARA     | 591         | Seminar                               | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 1-12  |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours                    |
| ARA     | 592         | Research                              | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 1-12  |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours                    |
| ARA     | 594         | Conference and Workshop               | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 1-12  |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours                    |
| ARA     | 595         | Continuing Registration               | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Herberger Inst Design & Arts | School of Art                                    | 1     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours                    |
| ARA     | 598         | Special Topics                        | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ARA     | 598         | Special Topics                        | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ARB     | 101         | Elementary Arabic I                   | Reading, writing, speaking, and understanding basic Arabic.   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures     | 4     |                 | Credit is allowed for only ARB 101 or MSA 101   |
| ARB     | 102         | Elementary Arabic II                  | Reading, writing, speaking, and understanding basic Arabic.   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures     | 4     |                 | Credit is allowed for only ARB 102 or MSA 102   |
| ARB     | 191         | First-Year Seminar                    | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures     | 1-3   |                 | Pre-requisites: Maximum 24 earned hours   |
| ARB     | 194         | Special Topics                        | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures     | 1-4   |                 |   |
| ARB     | 201         | Intermediate Arabic I                 | Review of Arabic grammar with emphasis on the development of the skills of listening comprehension, reading, speaking, and writing.   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures     | 4     | G               | Credit is allowed for only ARB 201 or MSA 201   |
| ARB     | 202         | Intermediate Arabic II                | Review of Arabic grammar with emphasis on the development of the skills of listening comprehension, reading, speaking, and writing.   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures     | 4     | G               | Credit is allowed for only ARB 202 or MSA 202   |
| ARB     | 294         | Special Topics                        | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures     | 1-4   |                 |   |
| ARB     | 311         | Advanced Arabic Skills I              | Focuses on developing all four skills of the Arabic language acquisition: reading, writing, listening, and speaking. Aims to help students acquire an advanced proficiency in Arabic.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures     | 3     |                 | Prerequisite(s): ARB 202 with C or better   |
| ARB     | 321         | Arabic Conversation I                 | Emphasizes spoken Arabic and conversation skills. Simultaneously develops communicative skills, vocabulary, and cultural awareness.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures     | 3     |                 |   |
| ARB     | 331         | Arabic/Islamic Culture and Literature | General introduction to the Middle East that synthesizes cultural, social, and literary information. Focuses on the experiences of ordinary Middle Eastern people to convey a grassroots sense of the Middle East.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures     | 3     | HU & H & G      | Prerequisite(s): ENG 101, 105, or 107 with C or better; Credit is allowed for only ARB 331 or SLC 331   |
| ARB     | 335         | Arabic Culture and Islam              | Develops awareness of Arabic culture and Islam. Covers a variety of cultural topics, including family, status of women, food, music, and Islam.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures     | 3     | G               |   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                            | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department                                   | Units | General Studies | Requirements  |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|------------------------------|--|-------|-----------------|---|
| ARB     | 336         | Introduction to the Qur'an              | Introduces the Qur'an and examines the historical, contextual, religious and interpretive dimensions wherein the Qur'an developed. Deals with the structure of the Qur'an, the different sections, suras (Qur'anic chapters), and some of the verses. Also includes an introduction to the idea of revelation, its history, the content and some of the different themes of the Qur'an, and discusses aspects of the Qur'an as a source of law. Taught in English; requires no knowledge of Arabic or Islam.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     |                 | Prerequisite(s): ENG 101, ENG 105, or ENG 107 with C or better; Credit is allowed for only ARB 336 or ARB 394 (Introduction to the Qur'an)  |
| ARB     | 337         | Hadith and Prophetic Tradition          | Considers the Hadith as a literary text and as the prophetic tradition in Islam. Focuses on the development of the Hadith as a vast subject in Arabic literature, its collection methodology, Hadith science, and its contents. Gives special attention to the relationship of the Hadith as the second source, after the Qur'an, of Islamic knowledge, Islamic theology, Islamic philosophy and Islamic law. Explores the various ways and approaches in which Muslims employ the Hadith along with the Qur'an in their search for meaning, identity and knowledge. All readings are in English; requires no prior knowledge of Arabic language. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     |                 | Prerequisite(s): ENG 101, ENG 105, or ENG 107 with C or better; Credit is allowed for only ARB 337 or ARB 394 (Arabic Hadith and Prophetic Tradition)   |
| ARB     | 341         | Quran Text and Women                    | Addresses Muslim women scholars' argument that it is not the religion but the patriarchal interpretation of the Quran that have kept Muslim women oppressed.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     | HU & H          |   |
| ARB     | 351         | Classical Arabic Literature             | Provides a survey in classical Arabic literature. Focuses on the development of classical Arabic poetry and prose since their interceptions.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     |                 |   |
| ARB     | 352         | Modern Arabic Literature in Translation | Surveys the major trends, themes and genres of modern Arabic literature in translation. Provides a foundational knowledge of modern literature in the Arabic language. Focuses on continuity and change, cultural diversity and multiplicity in the Middle East, and the social, religious and historical aspects of modern Arab culture. No knowledge of Arabic language is required for this course.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     |                 | Prerequisite(s): ENG 101, ENG 105 or ENG 107 with C or better; Credit is allowed for only ARB 352 or ARB 394 (Introduction to Modern Arabic Literature)   |
| ARB     | 394         | Special Topics                          | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 1-4   |                 |   |
| ARB     | 411         | Advanced Arabic Skills II               | Focuses on developing all four skills of the Arabic language acquisition: reading, writing, listening, and speaking. Aims to help students acquire an advanced proficiency in Arabic.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     |                 | Prerequisite(s): ARB 311 with C or better   |
| ARB     | 421         | Arabic Conversation II                  | Focuses on developing all four skills of the Arabic language acquisition: reading, writing, listening, and speaking. Aims to help students acquire an advanced proficiency in Arabic.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     |                 |   |
| ARB     | 422         | Advanced Arabic Media                   | Advanced language course designed to improve students' reading, writing, listening, speaking and debating skills. Exposes students to Arabic language used in the media. Incorporates news items from print and electronic media sources, including print and online news articles, television news and YouTube videos, among other materials. The purpose of using many sources is to enable the students to have an advanced experience reading diverse media materials.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     |                 | Prerequisite(s): ARB 311 with B or better; Credit is allowed for only ARB 422 or ARB 494 (Advanced Arabic Media [in Arabic]) or ARB 494 (Advanced Arabic Media)   |
| ARB     | 484         | Internship                              | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of International Letters and Cultures | 1-12  |                 |   |
| ARB     | 492         | Honors Directed Study                   | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of International Letters and Cultures | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| ARB     | 493         | Honors Thesis                           | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Liberal Arts and Sciences    | School of International Letters and Cultures | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| ARB     | 494         | Special Topics                          | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 1-4   |                 |   |
| ARB     | 499         | Individualized Instruction              | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | School of International Letters and Cultures | 1-3   |                 |   |
| ARB     | 590         | Reading and Conference                  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ARB     | 598         | Special Topics                          | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ARE     | 191         | First-Year Seminar                      | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                | 1-3   |                 |   |
| ARE     | 250         | Teaching Inquiry in Art                 | Issues in teaching and learning through directed, guided, and independent inquiry about artworks and through art making.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                | 3     |                 | Prerequisite(s): ARS 101 or 102; 6 hours (2 classes) from ART 111, 112, 113, or 115 with C or better  |
| ARE     | 294         | Special Topics                          | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                | 1-4   |                 |   |
| ARE     | 301         | Studio Art and Human Development        | Study of human development in studio art from early childhood to adult years.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                | 3     |                 |   |
| ARE     | 370         | Teaching Visual Culture                 | Explores issues and applications of everyday aesthetics that contain powerful technological, social, and economic factors.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                | 3     |                 | Prerequisite(s) with C or better: BA or BFA Art major: ARE 250 OR BIS Interdisciplinary Studies (Studio Art concentration) or Studio Art minor: ARS 101 or ARS 102; ART 110; ART 112 (or ART 113, 115 or 116) |
| ARE     | 394         | Special Topics                          | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                | 1-4   |                 |   |
| ARE     | 440         | Interdisciplinary Art Education         | Explorations in art education's disciplines, history, and people's artmaking development at diverse age levels and abilities.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                | 3     |                 | Prerequisite(s): BIS Interdisciplinary Studies (Studio Art concentration) or Herberger Institute major or Studio Art minor; minimum 2.00 GPA; minimum 55 hours  |

| ARE     | 446         | Multicultural Issues in Art Education      | Explores multicultural issues, ethnicity and cultures related to art and education. Discussion course on facts and sometimes controversial interdisciplinary materials draws upon knowledge from various disciplines. Emphasizes art educational issues and teaching. Also explores international and global issues concerning multiculturalism.  | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Minimum 45 hours; Credit is allowed for only ARE 446, 494 (Multicultural Issues in Art Education), 546 or 598 (Multicultural Art Education)                      |
| ARE     | 482         | Teaching Art Processes                     | Art traditions of the 20th century as a basis for studio and art history instruction. Meets art postbaccalaureate certification requirement.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Pre-requisite: Fine Arts Art student  |
| ARE     | 484         | Internship                                 | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | School of Art | 1-12  |                 |   |
| ARE     | 486         | Art Education: Strategies and Applications | Implementation and evaluation of art instruction for K-12 population. Includes teaching of Saturday classes in the Children's Art Workshop. Meets art postbaccalaureate certification requirement.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Pre-requisite(s): Art student; ARE 482 with C or better   |
| ARE     | 492         | Honors Directed Study                      | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | School of Art | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| ARE     | 493         | Honors Thesis                              | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Herberger Inst Design & Arts | School of Art | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| ARE     | 494         | Special Topics                             | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 1-4   |                 |   |
| ARE     | 496         | Methods and Assessment of Learning in Art  | Individual or group research on the assessment of art learning incorporating theory and practice. Meets art postbaccalaureate certification requirement.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Pre-requisites: Art student; ARE 250 with B- or better  |
| ARE     | 498         | Pro-Seminar                                | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 1-7   | L               |   |
| ARE     | 499         | Individualized Instruction                 | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | School of Art | 1-3   |                 | Pre-requisites: Minimum 90 hours  |
| ARE     | 510         | Visual Culture Research                    | Research on instruction of everyday aesthetics and related issues that contain powerful technological, social, and economic factors.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours                                    |
| ARE     | 520         | Issues in Teaching Inquiry in Art          | Issues in teaching and learning focused both on inquiry about artworks and on inquiry through art making.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours                                    |
| ARE     | 525         | Research on Art Instruction                | Research methods and assessment of learning in art. Pilot studies on the effects of instruction on learning.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours                                    |
| ARE     | 530         | Issues in Teaching Studio Art              | Critical examination of issues concerning teaching multicultural art to different populations of students. Historical and philosophical foundations reviewed. Recommended to be taken before ARE 535.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours                                    |
| ARE     | 535         | Research on Teaching Studio Art            | Review of empirical and historical research methods, learning theory, and assessment of learning in studio art, including developmental studies and their limitations. Pilot studies on the effects of instruction upon learning. Recommended to be taken after ARE 530.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours                                    |
| ARE     | 540         | Teaching Art in Cultural Contexts          | Relationship of multicultural perspectives to teaching/learning art criticism, aesthetics, studio art, and art history.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours                                    |
| ARE     | 546         | Multicultural Issues in Art Education      | Explores multicultural issues, ethnicity and cultures related to art and education. Discussion course on facts and sometimes controversial interdisciplinary materials draws upon knowledge from various disciplines. Emphasizes art educational issues and teaching. Also explores and analyzes international and global issues concerning multiculturalism.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Degree- or Nondegree-seeking graduate; Credit is allowed for only ARE 446, 494 (Multicultural Issues in Art Education), 546 or 598 (Multicultural Art Education) |
| ARE     | 584         | Internship                                 | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | School of Art | 1-12  |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours                                    |
| ARE     | 590         | Reading and Conference                     | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | School of Art | 1-12  |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours                                    |
| ARE     | 591         | Seminar                                    | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 1-12  |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours                                    |
| ARE     | 592         | Research                                   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | School of Art | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ARE     | 593         | Applied Project                            | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | School of Art | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ARE     | 595         | Continuing Registration                    | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Herberger Inst Design & Arts | School of Art | 1     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours                                    |
| ARE     | 598         | Special Topics                             | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ARE     | 599         | Thesis                                     | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Herberger Inst Design & Arts | School of Art | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title               | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department        | Units | General Studies | Requirements   |
|---------|-------------|----------------------------|---|-------------------|-------------------|-----------------|---------------|------------------------------|-------------------|-------|-----------------|--|
| ARE     | 684         | Internship                 | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | Herberger Inst Design & Arts | School of Art     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ARE     | 690         | Reading and Conference     | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | School of Art     | 1-12  |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours |
| ARE     | 691         | Seminar                    | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art     | 1-12  |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours |
| ARE     | 692         | Research                   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | School of Art     | 1-12  |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours |
| ARE     | 695         | Continuing Registration    | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Herberger Inst Design & Arts | School of Art     | 1     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours |
| ARE     | 784         | Internship                 | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | Herberger Inst Design & Arts | School of Art     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ARE     | 790         | Reading and Conference     | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art     | 1-12  |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours |
| ARE     | 791         | Seminar                    | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art     | 1-12  |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours |
| ARE     | 792         | Research                   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | School of Art     | 1-15  |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours |
| ARE     | 795         | Continuing Registration    | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Herberger Inst Design & Arts | School of Art     | 1     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours |
| ARE     | 799         | Dissertation               | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Herberger Inst Design & Arts | School of Art     | 1-15  |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours |
| ARP     | 191         | First-Year Seminar         | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-3   |                 |  |
| ARP     | 294         | Special Topics             | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-4   |                 |  |
| ARP     | 451         | Architecture Field Studies | Organized field study of architecture in specified national and international locations. Credit/no credit. May be repeated for credit with director approval.   | N                 | PRA               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-6   |                 |  |
| ARP     | 484         | Internship                 | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Pre-requisite: ADE 322 with a C or better; Co-requisite: ADE 421; ATE 451  |
| ARP     | 494         | Special Topics             | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-4   |                 |  |
| ARP     | 498         | Pro-Seminar                | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-7   | L               |  |
| ARP     | 499         | Individualized Instruction | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-3   |                 |  |
| ARP     | 500         | Research Methods           | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| ARP     | 580         | Practicum                  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| ARP     | 584         | Internship                 | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Pre-requisites: Master of Architecture student; ADE 522 with a C or better   |
| ARP     | 590         | Reading and Conference     | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| ARP     | 591         | Seminar                    | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| ARP     | 592         | Research                   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| ARP     | 593         | Applied Project            | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| ARP     | 594         | Conference and Workshop    | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | PRA               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |

| ARS     | 438         | Art of the 20th Century I                               | Developments and directions in art between 1900 and World War II.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | HU & H          | Pre-requisite: ARS 102 with B- or better or one course in ARS, ENG or HST at 200 level or higher with B or better   |
| ARS     | 439         | Art of the 20th Century II                              | Art since World War II, with consideration of new concepts and experimentation with media and modes of presentation.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     | HU & H          | Pre-requisites: ARS 102 or ARS 438 with B- or better; Credit is allowed for only ARS 439 or ARS 539   |
| ARS     | 439         | Art of the 20th Century II                              | Art since World War II, with consideration of new concepts and experimentation with media and modes of presentation.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | HU & H          | Pre-requisites: ARS 102 or ARS 438 with B- or better; Credit is allowed for only ARS 439 or ARS 539   |
| ARS     | 440         | Identity and World Film                                 | Examines how films around the world represent gender, race, ethnicity, and sexual orientation through the lens of genres and their variations and how genres reinforce or critique stereotypes.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): any 200-level or higher course in APH, ARS, ENG, FMS, HST, or MHL with B or better; Credit is allowed for only ARS 440 or ENG 465 or FMS 427   |
| ARS     | 441         | Public Art  | Explores the lively field of contemporary public art, particularly as defined by percent-for-art programs established through city ordinances during the last forty years. Also considers historical precedents, including Civil War monuments and the City Beautiful Movement.  | N                 | SEM               | N               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): Minimum 50 hours; Minimum 2.00 GPA; Credit is allowed for only ARS 441, 498 (Public Art), 541 or 591 (Public Art)  |
| ARS     | 442         | Critical Issues in American Painting                    | Explores issues of national identity and western expansion, Manifest Destiny, through images of race and violence in western American painting from 1800 to the early 20th century. Includes "claiming and settling the wilderness," cultures in conflict, the cowboy, and visions of an enchanted land.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     | HU              | Pre-requisites: ARS 101; ARS 102; Credit is allowed for only ARS 442 or 542   |
| ARS     | 443         | Artists in Film: Artists' Biopics                       | Examines artists' "biopics," biographical films about artists, chronologically from the subgenre's first appearance in 1936 to recent films. Explores relationships between film and history and between film and myths of creativity; major directors' attraction to artists' biopics; stereotypes of artists (e.g., genius, deviant); and how notions of creativity are inflected by gender, race and national identity. Assignments include weekly readings and film viewings and one short paper; optional documentaries and films are also available. | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): any 200-level or higher course in APH, ARS, ENG, FMS, HST, or MHL with B or better; Credit is allowed for only ARS 443 or FMS 430  |
| ARS     | 444         | Films of India  | Examines classic, Bollywood and diasporic films of India from 1950 to the present.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): any 200-level or higher course in APH, ARS, ENG, FMS, HST, or MHL with B or better; Credit is allowed for only ARS 444 or ARS 544 or FMS 426 or ARS 494 (Films of India) or ARS 494 (South Asian Cinema) |
| ARS     | 451         | 20th Century Photography                                | Personalities, processes, images, and ideas in photography from 1914 to present.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 |   |
| ARS     | 456         | Introduction to Museums                                 | Broad scope of what museums do by exploring their history and the critical issues they face. Acquaints students with the basic functions of specific museum departments and staff, including the role of director, curator, registrar, preparator, as well as fund raising, marketing, audience development, education, exhibitions, conservation, ethics, cultural/heritage tourism and public art. Guest speakers and field trips enhance classroom material.  | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): ARS 101 or ARS 102 OR any 200-, 300- or 400-level course in ASB, ENG or HST with B- or better  |
| ARS     | 458         | Critical Theories in the Visual Arts                    | Examines current critical theories through their application to all visual arts. May include new historicism, Marxism, deconstruction, post-structuralism, semiotics, Lacanian psychoanalysis, feminism, postmodernism.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     | HU              | Pre-requisites: ARS 101; ARS 102  |
| ARS     | 459         | Writing Art Criticism                                   | Traditional and contemporary approaches to the criticism of art. Students write critical essays. Latter half of the semester stresses the criticism of contemporary art in various media.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Pre-requisite: ARS 458  |

| ARS     | 499         | Individualized Instruction                 | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | Herberger Inst Design & Arts | School of Art                                    | 1-3   |                 | Pre-requisite: Minimum 90 hours   |
| ARS     | 501         | Methodologies and Art History              | History of the discipline and an exploration of various methodologies, critical theory, and bibliographies used by art historians.  | N                 | SEM               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours  |
| ARS     | 502         | Critical Studies in Egyptian Art           | Egyptian art from pre-Dynastic to New Kingdom periods. Focus on aesthetic, philosophical, and cultural contexts. Research paper and readings required.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only ARS 402 or 502   |
| ARS     | 504         | Critical Approaches to Greek Art           | Art and architecture of Aegean civilizations (Cycladic, Minoan, Mycenaean) and of Greece to end of Hellenistic period. Research paper and readings required.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only ARS 404 or 504   |
| ARS     | 506         | Critical Studies in Roman Art              | Art and architecture of Etruria, the Roman Republic, and the Roman Empire. Research paper and/or supplemental readings required.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours  |
| ARS     | 514         | Critical Approaches to Romanesque Art      | Sculpture, painting, architecture, and the minor arts in western Europe, ca. 1030-1200, considered within religious, economic, and social contexts. Requires research paper.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only ARS 414 or 514   |
| ARS     | 533         | The Pre-Raphaelites                        | Explores Pre-Raphaelite culture, both literature and art, and relevant social history, from the Pre-Raphaelite Brotherhood through Aestheticism and early twentieth century, focusing on interactions between images and texts.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only ARS 435 or ARS 533 or ENG 428  |
| ARS     | 534         | Art and Visual Culture of the 19th Century | Critical study of visual arts using primary source material from mid-19th century to WWI within philosophical, socioeconomic, and economic contexts.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only ARS 434 or 534   |
| ARS     | 538         | Art of the 20th Century I                  | Charts how the avant-garde in the early 20th century developed different strands of modern art as it sometimes grew closer to, and at other times veered away from, radical politics.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only ARS 438, 538 or 598 (Art of 20th Century I)   |
| ARS     | 539         | Art of the 20th Century II                 | General introduction to major trends and issues of Euro-American art created between 1955 to around the turn of the 21st century.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): graduate student (degree seeking or nondegree seeking). Credit is allowed for either ARS 439 or ARS 539 or ARS 598, Art of 20th C                                    |
| ARS     | 540         | Identity and World Film                    | Examines how films around the world represent gender, race, ethnicity, and sexual orientation through the lens of genres and their variations and how genres reinforce or critiques stereotypes.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only ARS 540, FMS 527 or (ARS 494, ENG 465, FMS 494 or ARS 598 Identity and World Film) |
| ARS     | 541         | Public Art                                 | Explores the lively field of contemporary public art, particularly as defined by percent-for-art programs established through city ordinances during the last forty years. Considers historical precedents including Civil War monuments and the City Beautiful Movement.   | N                 | SEM               | N               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only ARS 441, 498 (Public Art), 541 or 591 (Public Art)                                 |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                         | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department    | Units | General Studies | Requirements  |
|---------|-------------|--------------------------------------|--|-------------------|-------------------|-----------------|---------------|------------------------------|---------------|-------|-----------------|---|
| ARS     | 542         | Critical Issues in American Painting | Explores themes and social issues in American art with a critical study of American painting from the 18th century to 1850.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only ARS 340, 442 or 542  |
| ARS     | 543         | Artists in Film: Artists' Biopics    | Examines artists' "biopics," biographical films about artists, chronologically from the subgenre's first appearance in 1936 to recent films. Explores relationships between film and history and between film and myths of creativity; major directors' attraction to artists' biopics; stereotypes of artists (genius, deviant, etc.); and how notions of creativity are inflected by gender, race and national identity. Assignments include weekly readings and film viewings and one short paper; optional documentaries and films are also available. | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ARS 443 or ARS 543 or FMS 430 or FMS 543 or ARS 598 (Artists in Film: Biopics) |
| ARS     | 544         | Films of India                       | Examines classic, Bollywood and diasporic films of India from 1950 to the present.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking). Credit is allowed for only ARS 444, ARS 544, ARS 598 (Films of India) or FMS 426                  |
| ARS     | 565         | Native Art of North America          | Critical examination of Native American art within culture, prehistory to the present.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only ARS 465 or 565   |
| ARS     | 574         | Studies in Japanese Art              | Critical examination of the nature and history of Japanese art, its rich heritage and its indebtedness to foreign sources.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only ARS 473 or 574   |
| ARS     | 575         | Approaches to Chinese Painting       | Critical history of Chinese painting from Eastern Chou to 1911. Emphasis on masters, regional developments, and conceptual underpinnings.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Pre-requisites: Minimum 108 hours; Senior or Postbaccalaureate Undergraduate or Graduate; Credit is allowed for only ARS 475 or 575                                       |
| ARS     | 584         | Internship                           | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | School of Art | 1-12  |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours                            |
| ARS     | 585         | Women in the Visual Arts             | Historical study of art by women in various media; related social, political, educational issues; representation of women in art.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only ARS 485 or 585   |
| ARS     | 586         | Theories of Contemporary Art         | Upper-level introduction to a variety of issues in contemporary art theory. Over the course of the semester, students travel through a different thematic segment each week. Topics covered include globalization, activism, relational aesthetics, art and ecology, as well as other themes that have found increased relevance as new art forms, media and theory proliferate in the 21st century.   | N                 | SEM               | N               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ARS 586 or ARS 591 (Theories of Contemporary Art)                              |
| ARS     | 590         | Reading and Conference               | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | School of Art | 1-12  |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours                            |
| ARS     | 591         | Seminar                              | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | SEM               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ARS     | 592         | Research                             | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | School of Art | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ARS     | 594         | Conference and Workshop              | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.  | Y                 | RSC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 1-12  |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours                            |
| ARS     | 595         | Continuing Registration              | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | RSC               | Y               | Z3            | Herberger Inst Design & Arts | School of Art | 1     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours                            |
| ARS     | 598         | Special Topics                       | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 1-4   |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking) or Seniors or Post Bacc undergraduates with minimum of 108 earned hours                            |
| ARS     | 599         | Thesis                               | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | Herberger Inst Design & Arts | School of Art | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ARS     | 690         | Reading and Conference               | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | School of Art | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ARS     | 691         | Seminar                              | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | SEM               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ARS     | 692         | Research                             | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | School of Art | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ARS     | 695         | Continuing Registration              | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | RSC               | Y               | Z3            | Herberger Inst Design & Arts | School of Art | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ARS     | 700         | Research Methods                     | Course on research methods in a specific discipline.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ARS     | 790         | Reading and Conference               | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | RSC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Herberger Inst Design & Arts | School of Art | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ARS     | 799         | Dissertation   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Herberger Inst Design & Arts | School of Art | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ART     | 110         | Drawing as Seeing and Thinking                                   | Immerses students from a broad range of non-art disciplines in the practice of drawing. Considers and reflects on drawing in its most expanded form: as a primary tool of communication and creative problem solving, as movement, as sensory experience and as its own unique method of cognition. Divides class meetings among lectures, exercises, field excursions and opportunities for critical dialogue. Students leave with an appreciation of the unique power of mark-making and an improved understanding of its application in their lives.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art | 3     | HU              | Credit is allowed for only ART 110 or 194 (Drawing as Seeing and Thinking)   |
| ART     | 111         | Drawing I  | Fundamental, technical, and perceptual skills using common drawing media and their application to pictorial organization. 6 hours a week.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 |  |
| ART     | 112         | 2-D Design   | Fundamentals of pictorial design. 6 hours a week.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art, Art-Exploratory, Minor in Studio Art, or BIS concentration in Studio Art student   |
| ART     | 113         | Color  | Principles of color theory as related to the visual arts. 6 hours a week.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 |  |
| ART     | 115         | 3-D Design   | Fundamentals of 3-D form. 6 hours a week.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 |  |
| ART     | 116         | Introduction to Digital Media                                    | Concentrates on the fundamentals of digital media, including imagery, sound, video, animation, and the Web. Assignments are given to engage students in the technical, conceptual, and aesthetic aspects of digital media. Students employ a diverse range of techniques and software as they become familiar with contemporary artistic processes involving the use of the computer and/or other technologies. Consists of hands-on experimentation and production supplemented by slide lectures, videos, visiting artists, and academic research.  | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Credit is allowed for only ART 116 or 194 (Introduction to Digital Media)  |
| ART     | 191         | First-Year Seminar   | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 1-3   |                 |  |
| ART     | 194         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 1-4   |                 |  |
| ART     | 201         | Photography I  | An introduction to photography, with emphasis on investigating personal, social, cultural and aesthetic concerns with the camera. Class lectures address contemporary and historical photographers and various philosophical and technical approaches to the medium. Lab sections emphasize the creative process through camera work and darkroom procedures using 35 mm film, as well as digital capturing from cell phone camera to DSLR. Students leave this class with a better understanding of the role of photographs in culture and in their own lives.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     | HU              |  |
| ART     | 202         | Photography I Lab  | An introduction to photography, with emphasis on investigating personal, social, cultural and aesthetic concerns with the camera. Class lectures address contemporary and historical photographers and various philosophical and technical approaches to the medium. Lab sections emphasize the creative process through camera work and darkroom procedures using 35 mm film, as well as digital capturing from cell phone camera to DSLR. Students leave this class with a better understanding of the role of photographs in culture and in their own lives.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 0     |                 | Corequisite(s): ART 201  |
| ART     | 204         | Photography II: Black and White                                  | Photography as an art medium with additional exploration into personal photographic aesthetics. 6 hours a week.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): ART 201 with C or better;   |
| ART     | 205         | Photography II: Color  | Uses both film and digital capture to explore color photography in depth. Emphasizes computer editing and printing.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): ART 201 with C or better; ART 202 with C or better  |
| ART     | 206         | Digital Photography I: The Still Image in Digital Culture        | Through readings, lectures, discussion and studio assignments, explores the ways in which digital technology affects how we read and use still photographic imagery. Asks how digital technology has changed the functions and meanings of the photograph. Explores the new options but also ponders the new responsibilities and complexities that accompany electronic imagery. Works toward an integrated understanding of what the translation to digital means for still photography. Beginning with an introduction to using digital cameras, sorting, storing and developing a work flow, exposes students to a variety of digital applications to create, disseminate and reflect on images through a variety of formats including social media, personal Web pages and one-to-one electronic conversation. Addresses other non-Web-based presentations such as print-to-order books, CD/DVDs, projections and large format prints. | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Credit is allowed for only ART 206 or ART 294 (The Still Image in Digital Culture)   |
| ART     | 207         | Digital Photography II: The Photograph in the Age of Information | Considers social, historical and political context of images, image-to-image relationship and media theory as applied to creating and understanding images.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): ART 206   |
| ART     | 211         | Drawing II   | Continued development of technical and perceptual skills. Emphasizes materials and pictorial content. 6 hours a week.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art major: ART 111 with C or better; ART 112 with C or better; minimum 2.00 GPA OR All other majors: ART 110 with C or better; ART 112, 113, 115, or 116 with C or better; minimum 2.00 GPA |
| ART     | 214         | Life Drawing I   | Development of skill and expressiveness in drawing the basic form, construction, and gesture from the human figure. 6 hours a week.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art major: ART 111 with C or better; ART 112 with C or better; minimum 2.00 GPA OR All other majors: ART 110 with C or better; ART 112, 113, 115, or 116 with C or better; minimum 2.00 GPA |

| ART     | 216         | Intermedia Practices                     | Investigates the multidisciplinary practice of Intermedia within a fine art context and functions as a bridge between foundation courses and the Intermedia degree area specialty. Relying on principles and techniques from foundation level classes, students learn to choose appropriate media for a particular idea and construct work that is concept-driven and incorporates cross-disciplinary approaches. Students develop individual and diverse approaches to fusing traditional art disciplines with experimental, performative, spatial, and digital technologies. Students explore the full range of options available to contemporary artists and discuss the ever-shifting definition of intermedia and new media. Students may work in media including drawing, photography, mixed media, video, sculpture, networked, multimedia, electronic arts, digital sound manipulation, image processing, performance, and installation. | Y                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Pre- corequisite(s): ART 113, 116 or 194 (Intro to Intermedia) with C or better; 2 from ART 111, 112 or 115 with C or better OR Art Digital Culture major; ART 111, 112 or 113 with C or better; credit for only ART 216 or 294 (Intermedia Practices) |
| ART     | 217         | Introduction to Computer Animation       | Prepares students for the exciting world of digital animation. Looks back at animation through history and how it has developed into what we understand today. Looks at history, theory, principles, practices and animation techniques. Expands the student's current knowledge of 3D digital animation and how it has changed and affected society through time. Students use learned techniques to create art in animation.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Credit is allowed for only ART 217 or ART 294 (Introduction to Animation)  |
| ART     | 218         | 3D Tools                                 | Introduces 3D data capture, 3D modeling and rendering, and 3D prototyping and fabrication through creative/research activities using CNC and rapid prototyping tools. Projects are given to engage students in the technical, conceptual, and aesthetic aspects of digital media. Students employ a diverse range of techniques, software tools, and hardware in the course of making their creative/research projects, becoming familiar with contemporary artistic and engineering processes involving the use of the computer and/or other technologies. Consists of hands-on experimentation and production supplemented by slide lectures, videos, visiting artists, and academic research.   | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Credit is allowed for only ART 218 or 294 (3D Tools)   |
| ART     | 223         | Painting I                               | Fundamental concepts and materials of traditional and experimental painting media. Emphasizes preparation of painting supports, composition, and color. Lab. 6 hours a week.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art major: ART 111 with C or better; ART 112 or 113 with C or better; minimum 2.00 GPA OR All other majors: ART 110 with C or better; ART 112, 113, 115, or 116 with C or better; minimum 2.00  |
| ART     | 227         | Watercolor I                             | Fundamental concepts, materials, and techniques of watercolor. Emphasizes problem solving, basic skills, composition, and color. 6 hours a week.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art major: ART 111 with C or better; ART 112, 113, 115, or 116 with C or better; minimum 2.00 GPA OR All other majors: ART 110 with C or better; ART 112, 113, 115, or 116 with C or better; minimum 2.00 GPA                         |
| ART     | 231         | Sculpture I                              | Explores sculptural forms through concepts related to basic materials. Students learn how to create original sculptures using mold-making, wood-working and sheet metal construction. Focuses on studio production, safety, aesthetic criticism and history of sculpture. 6 hours a week.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 |  |
| ART     | 244         | Introduction to Interactive Environments | Introduces software programming in the context of real-time interactivity. Builds the skills and develops the confidence needed to produce interactive audiovisual environments. Primarily uses the Max 7 (cycling74.com) programming language to write code for manipulating digital images, sounds and video in real time. For these systems to be interactive (respond to human activity), uses the tools and techniques for gathering and processing real-time input from sensors such as microphones, electronics, cameras and interface devices.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Credit is allowed for only AME 244 or ART 244 or AME 294 (Introduction to Interactive Environments) or ART 294 (Introduction to Interactive Environments)  |
| ART     | 253         | Introduction to Printmaking              | Introduces basic monotype, intaglio, relief, and related techniques.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art student; ART 113 with C or better   |
| ART     | 261         | Ceramic Survey                           | Handforming methods, throwing on the wheel, decorative processes, and glaze application. 6 hours a week.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art student; ART 112 with C or better; ART 115 with C or better OR non-Art major; minimum 45 hours  |
| ART     | 272         | Introduction to Metals and Jewelry       | Emphasizes metal fabrication. Basic techniques of cutting, piercing, forging, soldering, and forming of non-ferrous metals.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art student; maximum junior standing; ART 112 with C or better; ART 115 with C or better  |
| ART     | 274         | Wood I                                   | Fundamental woodworking techniques to produce creative functional 3-D objects. 6 hours a week.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 |  |
| ART     | 276         | Fibers I                                 | Explores traditional and contemporary materials and basic techniques related to fibers. Embroidery, feltmaking, dyeing, block printing, plaiting, 3-D structures.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art major: ART 112 or 113 with C or better; ART 115 with C or better OR Fashion major: ART 110 with C or better; ART 113 with C or better   |
| ART     | 294         | Special Topics                           | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 1-4   |                 |  |
| ART     | 300         | Photo Editing: Narrative/Non-Narrative   | Explores how structure in images can be created both within the image (by setting up a picture) and by sequencing images that may or may not have had any relation when they were created. By exploring two prevalent ways in which images function in the art world--the directoral mode and sequencing mode--students gain valuable tools in terms of understanding how to construct meaning with their images. Emphasizes creating cohesive and complete sequences both narrative and non-narrative.  | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): ART 206; ART 207  |
| ART     | 301         | Alternative Processes I                  | Recognition Alternative Processes of the inherent characteristics of nonsilver processes and their use in communicating ideas. 6 hours a week.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art major with completed portfolio; ART 204 with C or better  |

| ART     | 302         | The Still and Moving Image: Digital Photography and Video        | Through screenings, readings, discussion and practical assignments, explores the differences between the still and the moving image coming from the perspective of a still photographer. How does the addition of time, sound and movement affect the way we experience images? How have the histories of photography and cinema overlapped and how are they different? How does the fact that video and film are no longer prohibitively expensive for most people affect the approach that people take to creating videos? How can photographers make engaging video using their photo skills? Looking at practitioners and learning basic video editing tools--as well as various methods for output--students create video and still images with an understanding of the intersections, variations and potential of the similar yet markedly different languages of film, video and still photography. | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): ART 206; ART 207   |
| ART     | 304         | Junior Photographic Projects                                     | Interpretation and manipulation of light as a tool in the performance of expressive photography. 6 hours a week.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art student with completed portfolio; ART 204 with C or better; ART 101 with C or better; ART 201 with C or better   |
| ART     | 307         | View Camera  | View camera and darkroom techniques.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art student; ART 204 with C or better; ART 101 with C or better OR ART 201 with C or better  |
| ART     | 311         | Drawing III  | Emphasizes composition and exploration of drawing media.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art major or completed studio milestone; ART 211 with C or better or Studio Art Minor or BIS (Studio Art); ART 110 with C or better; ART 112 with C or better  |
| ART     | 314         | Life Drawing II  | Drawing from the model with greater reference to structural, graphic, and compositional concerns. 6 hours a week.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art major; ART 111 with C or better; ART 112 with C or better; ART 214 with C or better; minimum 2.00 GPA OR All other majors: ART 110 with C or better; ART 112, 113, 115, or 116 with C or better; minimum 2.00 GPA            |
| ART     | 317         | Advanced Digital Photography: The Virtual and the Physical Image | Thoroughly examines the distribution, interaction of physical and virtual aspects of the photograph. Emphasizes creating work and interacting with an audience--examining the relationship between the physical and the virtual in terms of photographic imagery.  | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): ART 206  |
| ART     | 323         | Painting II  | Development of competency in skills and expression. Assigned problems involve light, space, color, form, and content. 6 hours a week.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art major: ART 223 with C or better; minimum 2.00 GPA OR All other majors: ART 110 with C or better; ART 112, 113, 115, or 116 with C or better; minimum 2.00 GPA  |
| ART     | 325         | Figure Painting  | The human figure clothed and nude as the subject for painting in selected media.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art major: ART 214 or 223 with C or better; minimum 2.00 GPA OR All other majors: ART 110 with C or better; ART 112, 113, 115, or 116 with C or better; minimum 2.00 GPA   |
| ART     | 327         | Watercolor II  | Explorations of personal expression in watercolor. Continued development of watercolor skills using traditional and experimental materials and techniques. 6 hours a week.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art major: ART 227 with C or better; minimum 2.00 GPA OR All other majors: ART 110 with C or better; ART 112, 113, 115, or 116 with C or better; minimum 2.00 GPA  |
| ART     | 331         | Sculpture II   | Emphasizes metal fabrication as an expressive sculptural process. Techniques in welding, cutting and bending of metals and their aesthetics. 6 hours a week.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art major or completed studio milestone: ART 231 with C or better OR BIS (Studio Art) or Studio Art minor: ART 110, 115 with C or better   |
| ART     | 332         | Sculpture III  | Explores diverse media with a focus on mold-making processes. Development of the sculpture portfolio. 6 hours a week.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): ART 331 with C or better   |
| ART     | 333         | Foundry Casting Methods  | Fine art and techniques of metal casting: mold making, foundry safety, finishing techniques, application of patinas, and history of casting. 6 hours a week.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art Majors: ART 331 with C or better, or Non-art majors: ART 231 with C or better  |
| ART     | 345         | Visualization and Prototyping                                    | Studio/seminar introduces concepts of computer visualization, modeling, and rapid prototyping in an interdisciplinary manner.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Digital Art OR Intermedia student  |
| ART     | 346         | 3-D Computer Imaging and Animation                               | 3-D modeling and animation. Emphasizes concepts and fine arts applications.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     | CS              | Prerequisite(s): ART major or Digital Culture (Art) major: ART 111, ART 112 or ART 113 with a 'C' or better OR Minor in Studio Art (HISTARTMIN): ART 110 with a 'C' or better, and ART 112 or ART 113 or ART 115 or ART 116 with a 'C' or better. |
| ART     | 348         | Animation Motion Studies   | Principles and applications of 3-D animation for fine arts. Emphasizes animation techniques for expressive effects.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art student; ART 346 with C or better  |
| ART     | 351         | Intaglio I   | Introduces concepts and techniques of intaglio processes, including non-acid and acid techniques such as drypoint, line etch, aquatint, photo etching; introduces multiple plate printing ala poupee wiping, chine colle, and basic color. Idea-generating exercises include visual signifiers of identity, democratic multiple, time and space, the disembodied gaze, and reconsidering beauty. 6 hours a week.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art major; ART 253 with C or better OR Studio Art minor; ART 110 with C or better; ART 112 or 113 with C or better   |
| ART     | 352         | Lithography I  | Monochromatic and color planographic printmaking utilizing stone and aluminum plate processes. 6 hours a week.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art major: ART 253 with C or better, or Studio Art Minor: ART 110 with C or better; ART 112 or 113 with C or better  |
| ART     | 354         | Screen Printing I  | Introduces paper, direct, and photographic stencil techniques. 6 hours a week.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art major; two from ART 111, 112, 113 with C or better OR Studio Art minor; ART 110 with C or better; ART 112 or 113 with C or better  |
| ART     | 360         | Ceramic Throwing   | Design analysis and production of functional pottery. Emphasis on throwing techniques, surface enrichment, and glaze application.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): minimum 42 hours   |
| ART     | 364         | Ceramic Handbuilding I   | Search for form using handbuilding techniques. Kiln firing and related problems.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): minimum 42 hours   |
| ART     | 365         | Ceramic Handbuilding II  | Continuation of ART 364 with an additional focus on large-scale works, surface treatments, and glaze decoration with related kiln firing applications.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art student; ART 261 with C or better; ART 364 with C or better OR BIS Studio Art student or Studio Art student; ART 364 with C or better  |
| ART     | 367         | Ceramic Vessels  | Focuses on the exploration and creation of ceramic vessel forms utilizing a variety of technical approaches. Students develop a personal direction through guided assignments focusing on both historical/contemporary vessels, function vs. design, and various forming processes. Students should have previous experience with either wheel-throwing or hand-building techniques.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): minimum 45 hours; Credit is allowed for only ART 367 or ART 394 (Ceramic Vessels)  |

| Subject | Catalog Nbr | Course Title                      | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department                                       | Units | General Studies | Requirements   |
|---------|-------------|-----------------------------------|---|-------------------|-------------------|-----------------|---------------|------------------------------|--|-------|-----------------|--|
| ART     | 372         | Casting and Jewelry Techniques    | Covers lost wax casting for jewelry scale work and alternative casting methods and mold making as well as other techniques such as chain making and marriage of metals.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): Art student; ART 272 with C or better   |
| ART     | 373         | Form Emphasis in Metals           | Covers forming non-ferrous metals using techniques such as anticlastic and sinclastic forming, raising, fold forming. Projects focus on hollow forms using these various techniques.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): Art student; ART 272 with C or better   |
| ART     | 374         | Wood II                           | Individual and directed problems in wood related to the production of unique functional art objects. 6 hours a week.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): Art student; ART 274 with C or better   |
| ART     | 376         | Weaving and Dyeing                | Focuses on loom-controlled woven structures in conjunction with a variety of dye techniques. In the investigation of these new practices, an emphasis is placed on technical issues, historical trajectories and contemporary contexts.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): Art major: ART 276 with C or better OR Fashion BA major: FSH 201 with C or better OR All other majors: ART 110, 112, 113, 115, or 116 with C or better  |
| ART     | 377         | Surface to Form                   | Explores a variety of surface design processes such as sewing, embroidery, dyeing and interlacing, as well as the construction of collage, piece work and creatively fabricates sculptural forms with their newly soft design materials.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): Art major: ART 276 with C or better OR Fashion major: FSH 201 with C or better OR All other majors: ART 110, 112, 113, 115, or 116 with C or better   |
| ART     | 378         | Digital Textiles                  | Starting in the 19th century with advent of the Jacquard loom, which is often noted as the inspiration for the modern day computer, explores the interwoven history and practice of textiles and technology. Taking theoretical and practical approaches, works through textile techniques, such as knitting, printing and wearables, as well as research and readings. Emphasizes applying the information presented to support individual bodies of work.   | Y                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): C or better: ART 110 or 111; ART 112, 113, 115, or 116; min 2.00 GPA OR Digital Culture student; C or better: AME 111; AME 112 or 130; min 2.00 GPA OR Fashion major; FSH 201; Credit is allowed for only ART 378 or 394 (Digital Textiles) |
| ART     | 394         | Special Topics                    | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 1-4   |                 |  |
| ART     | 394         | Special Topics                    | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | STO               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 1-4   |                 |  |
| ART     | 400         | The Photobook                     | Photographers have long seen the photobook as an excellent way to showcase their work. From the mid 1960s art photographers have used self-publishing through methods as simple as a photocopier to disseminate their work. Recent advances in the accessibility of high-quality reproduction capacities have resulted in an explosion of flexible and creative ways for photographers to execute their ideas and contribute to a wide range of conversations. Practical and theoretical course on the photobook. Students learn about the history of the photobook and the multitude of contemporary applications from the major photography publishers such as Aperture, through to the small press and self-publishing and the exciting world of art book fairs. Students also create a handmade photobook and create and order a print-to-order book of their own work. | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): ART 206; ART 207; ART 300   |
| ART     | 402         | Traditional Genres in Photography | Through practical assignments, lectures, readings, discussion and critique, investigates traditional photographic genres such as portrait and landscape. Students create works in the genre in question and contextualize these images in historical and contemporary art. Addresses such questions as what defines a genre and the social, political and cultural impacts these genres have had on photography and art. Also addresses how genres have been transformed with the advent of digital technology explores how this affects images in a broader cultural and social history. Emphasizes the students' work and a final portfolio of portraits.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): ART 206; ART 207; ART 300   |
| ART     | 403         | Senior Photographic Projects      | Technical and philosophical refinement of personal aesthetic with various photographic media. 6 hours a week. May be repeated for credit.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): Art student; ART 204 with C or better; ART 101 with C or better OR ART 201 with C or better   |
| ART     | 404         | Portraiture Photography           | Photographing people. Critical discussions and slide lectures on issues in portraiture. 6 hours a week. May be repeated for credit.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): Art student; ART 204 with C or better; ART 101 with C or better OR ART 201 with C or better   |
| ART     | 406         | New Genres in Digital Photography | Explores the ways in which contemporary technology and the key changes--ubiquity, speed and reproducibility--have spawned new genres in photo-based art. Explores these emerging and changeable genres and examines the potential they present for creative expression and in-depth conversation about new ideas. Defines these new genres: selfie sticks, Instagram, screenshots from Google Streetview or remote cameras that we control from our home computer. Students are given weekly assignments and at the end of the course create a project within one of the new genres.  | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): ART 206; ART 207; ART 300   |
| ART     | 407         | Digital Photography Capstone      | Culminating class of the online Digital Photography degree. It is organized around a single, major self-directed project. Students will submit work once a week for critiques and will participate in their classmates' critiques as well. Classmates and instructor will guide each student towards the best execution of their vision. Students will complete course with a portfolio of images that may be realized in a variety of forms including but not limited to: an online gallery, a website, or a printed portfolio or a photobook. Students will also write an artist statement to accompany the work and conduct research where there is an audience for their work.  | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): ART 206; ART 207; ART 307   |
| ART     | 408         | Experimental Film                 | Facilitates the exploration of 16 mm motion picture film as material and methodological fodder for artists. Students use original, found, and hand-altered footage to create projects of their own design. Covers basic techniques including camera operation, film exposure, and analog editing practices. Explorations also include in-class experiments, readings, discussions and screenings. For upper-division undergraduate and graduate art students attracted to the material and theoretical issues embodied in film and who are curious about how film might inform their own ongoing advanced artistic pursuits.  | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): minimum 3.00 GPA; minimum 45 hours. Credit is allowed for only ART 408 or ART 508   |
| ART     | 409         | Photographic Exhibition           | Care of photographic prints, print presentation, and exhibition. Practical experience in gallery operations. 6 hours a week.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 |  |
| ART     | 410         | Landscape Photography             | Photographing landscapes. Critical discussion and presentations on issues in landscape photography. May be repeated for credit. 6 hours a week.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 |  |
| ART     | 411         | Drawing IV                        | Visual and intellectual concepts through problem solving and independent study. Emphasis on the individual creative statement. 6 hours a week.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): Art student; ART 211 and ART 311 with C or better   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                 | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department    | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|------------------------------|---------------|-------|-----------------|---|
| ART     | 412         | Advanced Techniques in Digital Photography   | Highly technical course consists mainly of technical applications, readings, quizzes and discussion. Focuses on learning advanced image-editing software such as Photoshop, and photo management and manipulation software. Covers montage and color management systems including profiling for color printing and monitors. Students also learn about using digital backs on medium format and view cameras.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): ART 206; ART 207; ART 317  |
| ART     | 414         | Life Drawing III                             | Various media and techniques on an advanced level. The human figure as an expressive vehicle in various contexts. 6 hours a week. May be repeated for credit.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): ART 314; credit is allowed for only ART 414 or ART 514   |
| ART     | 415         | Digital Compositing                          | Photographically based lab/lecture course designed to address ideas and concepts using digital montage/manipulation as an expressive medium. Emphasizes both assignments and self-defined projects. Includes discussion of technological theory and the extent to which digital imaging has affected the field of photography in the fine arts and professional arenas. Introduces new and more advanced techniques, but students also review retouching, coloration, enhancement and montage techniques. Covers the basic principles of pattern design in relationship to photography and the use of the computer as a pattern generator.  | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): minimum 45 hours; Credit is allowed for only ART 415 or ART 494 (Digital Compositing)  |
| ART     | 418         | Alternative Processes II                     | Despite the convenience of modern photographic technology, many artists prefer to enrich their methods with the tactile wonders of the traditional processes that this course introduces. Part two of Alternative Processes with a finer focus on project-based work. Explores salt print, 3-color gum bichromate, wet plate collodion, albumen printing processes, daguerreotypes, as well as 21st-century alternative processes. Provides new opportunities for digital/analog hybrid processes and alternative ways of presentation, such as videos, photo sculptures and performances. Involves intensive studio work, lecture and critique sessions. Students must have a film or digital camera to produce new images for the projects assigned in this course. Also requires a basic understanding of Adobe Photoshop for digital negative outputting. Students are expected to share ideas, techniques and their photographic experimentations. | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): minimum 45 hours; Credit is allowed for only ART 418 or ART 494 (Alternative Processes II) or ART 518 or ART 598 (Alternative Processes II)  |
| ART     | 423         | Painting III                                 | Further exploration of techniques and concepts of painting.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art major: ART 323 with C or better; minimum 2.00 GPA OR All other majors: ART 110 with C or better; ART 112, 113, 115, or 116 with C or better; minimum 2.00 GPA; Credit is allowed for only ART 423 or ART 523                           |
| ART     | 425         | Advanced Figure Painting                     | The human figure clothed and nude as the subject for painting in selected media. 6 hours a week.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art undergrad major: ART 325 with C or better OR Herberger Institute student: min 55 hours; min 2.00 GPA OR BIS Studio Art emphasis or Studio Art minor: ART 110; ART 112, 113, 115, or 116; Credit is allowed for only ART 425 or ART 525 |
| ART     | 427         | Art on Paper                                 | Advanced techniques, concepts, and processes with water media and mixed painting and drawing media on paper.  | Y                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art major: ART 327; minimum 2.00 GPA OR All other majors: ART 110 with C or better; ART 112, 113, 115, or 116 with C or better; minimum 2.00 GPA; Credit is allowed for only ART 427 or ART 527  |
| ART     | 428         | Video and Sound as Sculptural Materials      | Students learn to incorporate video and sound into sculptures and installations. Covers basic video and sound capturing and editing, but emphasizes new techniques for controlling and presenting video and sound: Max/MSP programming language, Arduino microcontrollers and Raspberry Pi. The latest developments in video and sound for sculpture and sculpture for video and sound.   | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art BA or BFA major; ART 231 with C or better; Credit is allowed for only ART 428 or ART 494 (New Systems-Sculpture) or ART 528  |
| ART     | 430         | Advanced Sculpture: Materials and Techniques | Encourages individual investigation in sculpture with an emphasis on the development of a personal approach to materials and techniques. Students have acquired a strong background in the basic techniques and materials in sculpture in previous classes and now are working toward the development of a portfolio or body of work.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): ART 331  |
| ART     | 431         | Special Problems in Sculpture                | Development of a personal approach to sculpture. Emphasis on form, individual problems, and related color technology. Professional practices and presentation. 6 hours a week.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art student; ART 231, ART 331 and 332 with C or better   |
| ART     | 432         | Neon Sculpture                               | Techniques for creating neon in an art context. Glass tube bending and fabrication. Construction of artworks utilizing light-generating gasses. 6 hours a week.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art student; ART 231 with C or better or BIS Studio Art emphasis or Studio Art minor; ART 110 and 115 with C or better   |
| ART     | 433         | Foundry Casting Methods                      | Thorough and directed course for the professional preparation of sculptors. Requires participation in all aspects of the foundry process, including serving on both a casting and foundry process maintenance team. Provides a history of the use of cast metal in the visual arts and an understanding of how casting processes can be applied to contemporary sculptural concepts. Requires participation in special projects such as exhibitions, iron casting, and field trips to local foundries as the semester course schedule dictates.   | Y                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art Majors: ART 331 with C or better, or Non-art majors: ART 231 with C or better  |
| ART     | 434         | Advanced Sculpture: Context and Content      | Studio-based class offers an opportunity for guided individual study with an emphasis on content, context and professional practices. Students work on developing a series of related works on a theme of their choosing. Assignments help students gain a greater understanding of the themes and ideas that are important in their art and expand their awareness of historical and contemporary artist working along similar lines. Requires students to develop a packet for self-promotion including a resume, portfolio and artist statement and to submit these materials to a competitive exhibition, commission, residency, scholarship or similar opportunity.  | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): ART 331  |
| ART     | 435         | Foundry Research Methods                     | Research in foundry techniques.   | N                 | LEL               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 1-4   |                 | Prerequisite(s): minimum 45 hours   |
| ART     | 436         | Architectural Sculpture                      | Sculptural concepts as related to architecture and other man-made environments. Scale drawing, models and relief sculpture. Students learn to produce proposals for large-scale and public commissions.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art Majors: ART 331 with C or better, or Non-art majors: ART 231 with C or better  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department    | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|------------------------------|---------------|-------|-----------------|--|
| ART     | 437         | Film Animation                                 | Production of short 16mm films that feature articulated sculptural objects, models, dolls, puppets, and graphics through the use of single-frame filming techniques. 6 hours a week. May be repeated for credit.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art student; ART 231 with C or better   |
| ART     | 438         | Moving and Interactive Systems in Sculpture    | Explores the use of Arduino microcontrollers to control light, sound, interactivity and movement in sculptures and installations. Covers basics of electronic circuits, mechanics and audio electronics. Also covers historical and contemporary artists who incorporate technology into their work.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): ART 231 with C or better; Credit is allowed for only ART 438 or ART 538   |
| ART     | 439         | Intermedia Studio                              | Exploring visual effects by combining traditional and nontraditional methods, techniques, and concepts. 6 hours a week.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art student or Digital Culture (Art) student; ART 111, ART 112 or ART 113 with C or better or Studio Art minor (or BIS Studio Art emphasis), ART 110 and 116; credit is allowed for only ART 439 or 539 |
| ART     | 440         | Experimental Video Art                         | Explores creative possibilities through the production of experimental video art works referencing new approaches to concept, theory and art practice. The Experimental Video Art curriculum emphasizes the use of metaphor and simulation to depict reality and linear story telling. Students study relational aesthetics, content, stylistic formats and presentation issues as they reference time-based media. The textbook entitled, "Video Art" by Michael Rush serves as a research tool for experimentation. The technical component concentrates on the use and operation of equipment for video recording, audio mixing, lighting, video editing and computer graphics. Students create stand-alone video works, video installations, multimedia time-based performances, through individual and group projects. | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art major: ART 116 with C or better, or Art minor or non-Art major with minimum 45 hours  |
| ART     | 441         | Video Art                                      | Utilizing video and audio equipment essential to the production of broadcast quality video art. 2 hours a week. May be repeated for credit.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 1     |                 | Prerequisite(s): Art portfolio completed; corequisite ART 440  |
| ART     | 442         | Art and Community                              | Explores through studio practice, research and presentations intermedia social art practice, public practice, art/life practice, relational aesthetics, community-based projects, and other critical theories and conventions that engage art and community.  | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Studio Art minor or BIS Studio Art emphasis or minimum 45 hours; ART 110 with C or better; ART 116 with C or better; Credit is allowed for only ART 442 or 494 (Art and Community)                      |
| ART     | 443         | Intermedia Performance                         | Experimental, conceptual, and interdisciplinary studio art with emphasis on performance and new media practices. May be repeated once for credit.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Studio Art minor or BIS Studio Art emphasis; ART 110 and 116 with C or better or Art major; Credit is allowed for only ART 443, ART 543 or ART 598 (Intermedia Performance)                             |
| ART     | 444         | Web Art  | Explores Web technology as a medium to create interactive art works for the Internet. Concept-driven curriculum wherein the idea for each work and its development is emphasized. The technical aspect of the work supports the concept. Students create storyboards and flowcharts to facilitate the application of the concept to the technology. The technical emphasis is on interactivity and time-based Net art. Students use existing software, learning the interface and programming associated with the software.   | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Intermedia majors eligible for upper-division credit; credit is allowed for only ART 444 or 494 (Web Art)   |
| ART     | 445         | Digital Processes for Printmaking              | Introduces digital applications and processes as they relate to all areas of photo-mechanical printmaking processes. Comprised of three smaller sections to give a broad overview of possibilities and how they relate to analog printmaking techniques, including image capture, film generation and analog processes, and digital and inkjet printing.  | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): 50 minimum hours; credit is allowed for only ART 445 or 494 (Digital Process for Print)   |
| ART     | 449         | Computer Animation and Video                   | Integrates 3-D fine arts animation with video and compositing. May be repeated for credit.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art student; ART 346 and ART 348 with C or better   |
| ART     | 451         | Advanced Intaglio                              | Gives students the opportunity to further develop their skills with intaglio printmaking techniques. Primary areas of research include image development, multiple plate and color printing. Additional techniques include lift grounds, spit bite aquatint, white ground, and viscosity printing. Develops sharper critical responses, both aesthetically and conceptually, to their own work, as well as the work of other artists.   | Y                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): ART 351 with C or better; credit is allowed for only ART 451 or ART 551   |
| ART     | 452         | Advanced Lithography                           | Continuation of ART 352. 6 hours a week. May be repeated for credit.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art student or completion of portfolio milestone; ART 253 and ART 352 with C or better  |
| ART     | 453         | Experimental Printmaking: Expanding the Matrix | Alternative methods of working with print techniques, including installations, actions or performances, and other nontraditional formats.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): at least one of the following: ART 351, 352, 354, 355, 456, 459, 477, 478, 494 (Relief), or 394 (Photolithography) with C or better; Credit is allowed for only ART 453 or ART 553                      |
| ART     | 454         | Advanced Screen Printing                       | Continuation of paper, direct, and photographic stencil techniques. 6 hours a week.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art major; ART 354 with C or better   |
| ART     | 455         | Artists' Books                                 | Concepts, materials, techniques and structures related to book arts. Explores a variety of traditional and nontraditional binding structures, basic editioning and low-tech printing techniques while simultaneously working on studio assignments that challenge them on a conceptual level.   | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): minimum 45 hours; Credit is allowed for only ART 455 or ART 494 (Artists' Books) or ART 555   |
| ART     | 456         | Letterpress Studio                             | Equipment, techniques and applications of letterpress printing. Students hand set type and create photopolymer plates and are encouraged to integrate the tactile quality of letterpressed type and image with other media. Discusses conceptual and material aspects of letterpress.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art major; ART 253 with C or better OR non-art major with 56 hours; minimum 2.50 GPA; Credit is allowed for only ART 456 or ART 556 or ART 598 (Fine Printing and Bookmaking I)                         |
| ART     | 457         | Fine Printing and Bookmaking II                | Continuation of ART 456. Bookbinding, book design and printing, advanced typography, theory, and presswork. May be repeated for credit.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art student; ART 253 with C or better; ART 456 with C or better; Credit is allowed for only ART 457, ART 557 or ART 598 (Fine Printing and Bookmaking II)   |
| ART     | 458         | Paper Studio                                   | The equipment, techniques and applications of papermaking, exploring both traditional sheet forming, paper pulp painting as well as sculptural paper.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): Art student with ART 112 with C or better, OR non-Art majors with 56 minimum credit hours and minimum 2.50 GPA; Credit is allowed for only ART 458 or ART 558   |

| ART     | 459         | Monoprinting                            | Nonmultiple printed image using a variety of technical approaches. 6 hours a week. May be repeated for credit.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): BA or BFA Art major, minimum 45 hours; or BIS Interdisciplinary Studies (Studio Art concentration) or Studio Art minor; ART 110, 112, 113, 115 or 116 with C or better                                    |
| ART     | 460         | Ceramic Clay                            | Research into various clay body formulations, local natural materials, slip glazes, and engobes.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): Art student; ART 261 with C or better; Pre- or corequisite(s): ART 360 and ART 364 with C or better if completed  |
| ART     | 461         | Polymer Plate Prints                    | Explores the creative process of polymer plate printmaking as a fine art medium.  | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): Minimum 50 hours; credit allowed for only ART 461 or 494 (Polymer Plate Prints)   |
| ART     | 463         | Ceramic Glaze                           | Glaze calculation and formulation using various glaze colors and surfaces.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): Art major; ART 261 with C or better   |
| ART     | 466         | Special Problems in Ceramics            | Emphasis on personal expression within structure of seminars, critiques, and studio work. Professional methods of presentation/documentation of work. 6 hours a week. May be repeated for credit.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): Art student; ART 261 and ART 364 with C or better   |
| ART     | 467         | Art and Ecology                         | Designed for students with advanced independent studio art practices or sustainability studies students who have an interest in the way that their lives and practices engage environments. Through readings, slide presentations, discussions, guest visits, hands-on activities and screenings, explores the work of many contemporary ecological artists engaging with environments and environmental issues from a multitude of angles. Artists engage land remediation, agriculture, socio-ecological justice, sustainable materials, landscape design and much more. As cultural workers must be informed, the course content addresses some basic literacy with regard to environmental concerns and shares examples of realized accessible sustainable solutions. In addition to learning about ecologies and artists, students complete three art or research projects, inspired by assignments. | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): minimum 45 hours; Credit is allowed for only ART 467 or ART 494 (Art and Ecology) or ART 567 or ART 598 (Art and Ecology) or SOS 467 or SOS 494 (Art and Ecology) or SOS 567 or SOS 598 (Art and Ecology) |
| ART     | 472         | Advanced Jewelry and Surface Techniques | Covers jewelry forms and techniques including surface embellishment such as granulation, keum-boo and filigree to be used as tools for aesthetic expression and expand student awareness of historical and contemporary jewelry/metalwork.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): Art student; ART 272 and ART 372 with C or better   |
| ART     | 473         | Advanced Metals and Mechanisms          | Covers new techniques and develops existing skills in non-ferrous metal forming and mechanism fabrication while further refining fitting and finishing techniques, incorporating concept with craft and emphasizing professional practices/portfolio development.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): Art student; ART 272 with C or better; ART 373 with C or better; Credit is allowed for only ART 473 or 598 (Adv. Metals & Mechanisms)   |
| ART     | 474         | Advanced Wood                           | Extended experience and advanced techniques in the use of wood to create functional works of art. 6 hours a week. May be repeated for credit.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): Art student; ART 274 and ART 374 with C or better   |
| ART     | 476         | Advanced Textile Construction           | Expanding on technical knowledge of knit and woven structures, this course emphasizes the creation of a body of work. The materialization ranges from the functional to the formal to the conceptual depending on one's research trajectory within his or her program of study.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): Art student; ART 276 with C or better; ART 376 with C or better   |
| ART     | 477         | Printed Textiles                        | Techniques for screen printing on fabric exploring pattern as a compositional element. Various stencil methods including photographic processes.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): Art major: ART 276 with C or better; ART 377 with C or better OR Fashion BA major: FSH 201  |
| ART     | 478         | Advanced Surface to Form                | Broadening knowledge of surface design and the construction of 3D structures, presents advanced explorations in embroidery, dyeing and quilting.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): ART 276, ART 377 and ART 477 with C or better; Credit is only allowed for ART 478 or ART 578  |
| ART     | 479         | 3-D Fibers: Construction and Content    | Explores hand-constructed fiber techniques through the context of the history and communities from which they came, as well as contemporary applications. Emphasizes research and the development of one's work through studio and social practice.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): Art major or Studio Art minor; ART 276 with C or better; Credit is allowed for only ART 479 or ART 579 or ART 598 (3-D Fibers)  |
| ART     | 482         | Senior Exhibitions/Portfolio            | Capstone course required of all BFA studio art majors. Students participate in a group exhibition and focus on professional practices, including exhibition display and advertisement, career planning, and development of a professional packet with artist statement, CV, and digital portfolio.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 3     |                 | Prerequisite(s): BFA student; minimum 100 hours; credit is allowed for only ART 482 or 494 (Senior Exhibition/Portfolio)   |
| ART     | 484         | Internship                              | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | School of Art                                    | 1-12  |                 | Prerequisite(s): Art student   |
| ART     | 492         | Honors Directed Study                   | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | STO               | Y               | Z1            | Herberger Inst Design & Arts | School of Art                                    | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| ART     | 493         | Honors Thesis                           | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | STO               | N               | Z1            | Herberger Inst Design & Arts | School of Art                                    | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| ART     | 494         | Special Topics                          | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 1-4   |                 | Prerequisite(s): minimum 45 hours  |
| ART     | 494         | Special Topics                          | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | STO               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 1-4   |                 | Prerequisite(s): minimum 45 hours  |
| ART     | 498         | Pro-Seminar                             | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                                    | 1-7   | L               |  |
| ART     | 498         | Pro-Seminar                             | Small-group study and research for advanced students within their majors. | Subject | Catalog Nbr | Course Title                                | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department    | Units | General Studies | Requirements  |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|------------------------------|---------------|-------|-----------------|---|
| ART     | 501         | Cross-Practice Critique                     | Engages graduate students in deep, sustained critical discussion about artwork made by students in the class. Students investigate together the process(es) of critiquing artwork and consider and discuss the underlying assumptions and values they bring to this method of communication and pedagogy. Helps students develop and improve their critical voice at whatever level they are at, including the ability to receive and accept critical feedback of their work. Encourages students to hone their sense of personal agency in the context of "the crit."  | N                 | LEL               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate  |
| ART     | 508         | Experimental Film                           | Facilitates the exploration of 16 mm motion picture film as material and methodological fodder for artists. Students use original, found, and hand-altered footage to create projects of their own design. Covers basic techniques including camera operation, film exposure, and analog editing practices. Explorations also include in-class experiments, readings, discussions and screenings. For upper-division undergraduate and graduate art students attracted to the material and theoretical issues embodied in film and who are curious about how film might inform their own ongoing advanced artistic pursuits. Graduate level focuses on the development of a personal approach.  | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only ART 408, 494 (experimental Film), or ART 508, or ART 598 (Experimental Film)                           |
| ART     | 514         | Graduate Life Drawing                       | Advanced study of the human figure as an expressive vehicle in various contexts. Graduate level focused on the development of personal approach. Timed poses of short and long duration with emphasis on using the figure to enhance the students individual research. Art historical component will be included to enable the student to fit themselves into the context of the use of the figure as it relates to the study of the history of art.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student OR senior or postbaccalaureate undergraduate with minimum 108 hours; Credit is allowed for only ART 414 or ART 514         |
| ART     | 518         | Advanced Alternative Processes              | Despite the convenience of modern photographic technology, many artists prefer to enrich their methods with the tactile wonders of the traditional processes that this course introduces. Part two of Alternative Processes with a finer focus on project-based work. Explores salt print, 3-color gum bichromate, wet plate collodion, albumen printing processes, daguerreotypes, as well as 21st-century alternative processes. Provides new opportunities for digital/analog hybrid processes and alternative ways of presentation, such as videos, photo sculptures and performances. Involves intensive studio work, lecture and critique sessions. Students must have a film or digital camera to produce new images for the projects assigned in this course. Also requires a basic understanding of Adobe Photoshop for digital negative outputting. Students are expected to share ideas, techniques and their photographic experimentations. | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ART 418 or ART 494 (Alternative Processes II) or ART 518 or ART 598 (Alternative Processes II) |
| ART     | 523         | Graduate Painting                           | Concentrates on formal and conceptual skills and explores a variety of topics, including historical and contemporary painting issues, visual literacy, critical thinking, and professional practices.   | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student OR Senior or Postbaccalaureate undergraduate with minimum 108 hours; credit is allowed for only ART 423 or 523             |
| ART     | 525         | Advanced Figure Painting                    | Advanced study of the human figure clothed and nude as the subject for painting in selected media. Graduate-level study focuses on the development of personal expression.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ART 425 or ART 525   |
| ART     | 527         | Art on Paper                                | Exploration focused on conceptual and technical approaches combining mixed media painting and drawing on paper and related surfaces.  | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student OR senior or undergraduate postbaccalaureate with minimum 108 hours; Credit is allowed for only ART 427 or ART 527         |
| ART     | 528         | Video and Sound as Sculptural Materials     | Students learn to incorporate video and sound into sculptures and installations. Covers basic video and sound capturing and editing, but emphasizes new techniques for controlling and presenting video and sound: Max/MSP programming language, Arduino microcontrollers and Raspberry Pi. The latest developments in video and sound for sculpture and sculpture for video and sound.   | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ART 428 or ART 528 or ART 598 (New Systems Sculpture)  |
| ART     | 529         | Experimental Video Art                      | Explores creative possibilities through the production of experimental video art works referencing new approaches to concept, theory and art practice. The experimental video art curriculum emphasizes the use of metaphor and simulation to depict reality and linear story telling. Students study relational aesthetics, content, stylistic formats and presentation issues as they reference time-based media. The textbook entitled, "Video Art" by Michael Rush serves as a research tool for experimentation. The technical component concentrates on the use and operation of equipment for video recording, audio mixing, lighting, video editing and computer graphics. Students create stand-alone video works, video installations, multimedia time-based performances, through individual and group projects. Graduate students create a collaborative Video anthology.   | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ART 529 or ART 598 (Experimental Video Art) or ART 598 (New Media Concepts)                    |
| ART     | 530         | Digital Compositing                         | Fine arts digital compositing of computer animation, video, and video editing of composites with audio.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student OR senior OR postbaccalaureate undergraduate with minimum of 108 earned hours  |
| ART     | 532         | Neon Sculpture                              | Emphasizes techniques for creating neon in an art context, including glass bending and fabrication.   | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; credit is allowed for only ART 532 or ART 598 (Neon Sculpture)  |
| ART     | 533         | Foundry Casting Methods                     | Thorough and directed course for the professional preparation of sculptors. Students are expected and required to participate in all aspects of the foundry process, including serving on both a casting and foundry process maintenance team. Students deepen their knowledge of the history of the use of cast metal in the visual arts and understanding of how casting processes can be applied to contemporary sculptural concepts, participating in special projects such as exhibitions, iron casting, and field trips to local foundries as the semester course schedule dictates.  | Y                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; credit is allowed for only ART 533 or 598 (Foundry Casting Methods)   |
| ART     | 538         | Moving and Interactive Systems in Sculpture | Explores the use of Arduino microcontrollers to control light, sound, interactivity and movement in sculptures and installations. Covers basics of electronic circuits, mechanics and audio electronics. Also covers historical and contemporary artists who incorporate technology into their work.  | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ART 438 or ART 538 or ART 598 (Experimental Systems in Sculpture)                              |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department    | Units | General Studies | Requirements   |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|------------------------------|---------------|-------|-----------------|--|
| ART     | 539         | Intermedia Studio                           | Investigates how intermedia practice can expand the realm of conversations within contemporary art, life and society. Encourages investigation of social art practice, art/life practices, conceptual art, digital art, emergent media, installation, new genre public art, performance, and visual art with emphasis on research, production and theory. Students expand their ability to assess interdisciplinary strategies. Through reinforcing artistic rigor, students deepen their ability to employ intermedia methods as artistic communication, to express a personalized point of view.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; credit is allowed for only ART 439, 539 or 598 (Intermedia Studio)   |
| ART     | 542         | Art and Community                           | Through studio practice, research and presentations, explores intermedia social art practice, public practice, art/life practice, relational aesthetics, community-based projects, and other critical theories and conventions that engage art and community. Graduate students, in conjunction with the instructor, create their own workplan for the course.   | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; credit is allowed for only ART 542 or 598 (Art and Community)  |
| ART     | 543         | Intermedia Performance                      | This concept-driven course explores intermedia as a contemporary art practice from a performance/live art perspective. Students create performance and time-based work connected to their individual artistic interests while making connections among art, life, and society. Students working in a diverse range of disciplines and artistic genres discover new processes of working and negotiate unexpected connections inherent in interdisciplinary production and cross-disciplinary collaboration. Student projects depend on particular specializations and passions brought to the class and may produce a range of multimedia performance work including performing for the camera, interactive networks, analogue/digital sound, video, sculpture, and installation. Semester I addresses the body as material exploring the body, subjectivity, and cultural histories. Semester II focuses on the body in public space exploring intervention and the everyday. | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; credit is allowed for only ART 543 or 598 (Intermedia Performance)   |
| ART     | 544         | Graduate-Level Web Art                      | Students research Web art and apply this to their own art practice. Concepts and content of the Web art class projects parallel individual aesthetic preferences. Explores Web technology as a new medium to create interactive Internet works. Technical emphasis on interactivity and time-based net art. Utilizes existing software, learning the interface and programming associated with it. Includes articles and essays by professional Web artists and theorists in required reading.   | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; credit is allowed for only ART 494 (Web Art), ART 544, or ART 598 (Web Art)  |
| ART     | 545         | Digital Processes for Printmaking           | Introduces digital applications and processes as they relate to all areas of photo-mechanical printmaking processes. Course is comprised of three smaller sections to give a broad overview of possibilities and how they relate to analog printmaking techniques: image capture, film generation and analog processes, and digital and inkjet printing.   | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; credit is allowed for only ART 545 or 598 (Digital Processes for Printmaking)  |
| ART     | 551         | Advanced Intaglio                           | Gives students the opportunity to further develop their skills with intaglio printmaking techniques. Primary areas of research include image development, multiple plate and color printing. Additional techniques include lift grounds, spit bite aquatint, white ground, and viscosity printing. Develops sharper critical responses, both aesthetically and conceptually, to their own work, as well as the work of other artists.  | Y                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or senior or post-baccalaureate undergraduate with minimum of 108 earned hours; credit is allowed for only ART 451 or 551             |
| ART     | 553         | Experimental Printmaking: Beyond the Matrix | Focuses on the development of concepts in printmaking beyond the traditional two-dimensional image on paper that is contained in a portfolio or frame. Explores alternative techniques and materials, methods of extending the print beyond 2 dimensions, and expanding the concept of what is a print. Students are encouraged to understand printmaking within the wider context of contemporary art, especially those directly related to the student's main artistic emphasis (if not printmaking).  | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or senior or postbaccalaureate undergraduate with minimum 108 hours; Credit is allowed for only ART 453 or ART 553                    |
| ART     | 554         | Graduate Screenprinting                     | Focuses on the development of screenprinting techniques and the ability to utilize these techniques as an expressive visual method of exploring and developing individual research concepts.   | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; credit is allowed for only ART 554 or 598 (Advanced Screen Printing)   |
| ART     | 555         | Artists' Books                              | Graduate-level introduction to concepts, materials, techniques and structures related to book arts. Explores a variety of traditional and nontraditional binding structures, basic editioning and low-tech printing techniques while simultaneously working on studio assignments that challenge on a conceptual level.  | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ART 555 or ART 598 (Artists' Books) or ART 455  |
| ART     | 556         | Letterpress Studio                          | The equipment, techniques and applications of letterpress printing. Students hand-set type and create photopolymer plates and are encouraged to integrate the tactile quality of letterpressed type and image with other media. Discusses conceptual and material aspects of letterpress.  | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ART 456 or ART 556 or ART 598 (Fine Printing and Bookmaking I)  |
| ART     | 557         | Fine Printing and Bookmaking                | Continuing study of letterpress in fine art--the book arts--with emphasis on the book.   | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ART 457 or ART 557 or ART 598 (Fine Printing and Bookmaking II)   |
| ART     | 558         | Paper Studio                                | The equipment, techniques and applications of papermaking, exploring both traditional sheet forming, paper pulp painting as well as sculptural paper.  | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ART 458 or ART 558  |
| ART     | 559         | Monoprinting                                | Investigates monoprint/monotype printmaking and its aesthetic possibilities. Students acquire basic and advanced skills in the medium through demonstrations, problem solving exercises, and experimentation.  | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or senior or postbaccalaureate undergraduate with minimum 108 hours; credit is allowed for only ART 559 or 598 (Monoprinting)         |
| ART     | 561         | Polymer Plate Prints                        | Explores the creative process of polymer plate printmaking as a fine art medium.   | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or senior or postbaccalaureate undergraduate with minimum 108 hours; credit is allowed for only ART 561 or 598 (Polymer Plate Prints) |

|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|------------------------------|---|-------|-----------------|---|
| ART     | 563         | Ceramic Glaze Research                      | Focuses on an investigation into the science and art of clay and glazes and a process of exploration of materials and surfaces, which continues to evolve with the students' evolving creative expression. The first assignments help students choose a direction to investigate for their own artwork. Each student selects a particular glaze to focus on during the term. Investigates ways of altering and improving recipes, focusing on one particular glaze quality at a time. By the end of the term students understand their glaze focus extensively and know how to go about altering all glaze types for special effects and required changes.  | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art                             | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ART 563 or ART 598 (Ceramic Glaze Research)  |
| ART     | 567         | Art and Ecology                             | Designed for students with advanced independent studio art practices or sustainability studies students who have an interest in the way that their lives and practices engage environments. Through readings, slide presentations, discussions, guest visits, hands-on activities and screenings, explores the work of many contemporary ecological artists engaging with environments and environmental issues from a multitude of angles. Artists engage land remediation, agriculture, socio-ecological justice, sustainable materials, landscape design and much more. As cultural workers must be informed, the course content addresses some basic literacy with regard to environmental concerns and shares examples of realized accessible sustainable solutions. In addition to learning about ecologies and artists, students complete three art or research projects, inspired by assignments. | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art                             | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ART 467 or ART 494 (Art and Ecology) or ART 567 or ART 598 (Art and Ecology) or SOS 467 or SOS 494 (Art and Ecology) or SOS 567 or SOS 598 (Art and Ecology) |
| ART     | 576         | Advanced Textile Construction               | Expanding on technical knowledge of knit and woven structures, this course emphasizes the creation of a body of work. The materialization ranges from the functional to the formal to the conceptual depending on one's research trajectory within his or her program of study.   | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art                             | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ART 476 or ART 576 or ART 598 (Woven Structures)   |
| ART     | 577         | Printed Textiles                            | Provides advanced instruction in surface design techniques, focusing on screen printing on fabric. Explores a variety of stencil methods. Studio problems explore structured pattern and single edition prints. Emphasizes conceptual development with technical proficiency.   | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art                             | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; credit is allowed for only ART 577 or 598 (Printed Textiles)  |
| ART     | 578         | Advanced Surface to Form                    | Broadening knowledge of surface design and the construction of 3D structures, this class presents advanced explorations in embroidery, dyeing and quilting.   | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art                             | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ART 478 or ART 578 or ART 598 (Advanced Surface Design)  |
| ART     | 579         | 3-D Fibers: Construction and Content        | Explores hand-constructed fiber techniques through the context of the history and communities from which they came, as well as contemporary applications. Emphasizes research and the development of one's work through studio and social practice.   | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Art                             | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate; Credit is allowed for only ART 479, 579 or 598 (3D Fibers)  |
| ART     | 584         | Internship                                  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | School of Art                             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or senior or postbaccalaureate undergraduate with minimum of 108 earned hours  |
| ART     | 591         | Seminar                                     | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or senior or postbaccalaureate undergraduate with minimum of 108 earned hours  |
| ART     | 592         | Research                                    | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | GNA           | Herberger Inst Design & Arts | School of Art                             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ART     | 594         | Conference and Workshop                     | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or senior or postbaccalaureate undergraduate with minimum of 108 earned hours  |
| ART     | 595         | Continuing Registration                     | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Herberger Inst Design & Arts | School of Art                             | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or senior or postbaccalaureate undergraduate with minimum of 108 earned hours  |
| ART     | 598         | Special Topics                              | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                             | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or senior or postbaccalaureate undergraduate with minimum of 108 earned hours  |
| ART     | 621         | Studio Problems                             | Advanced study. 3 hours a week each section.  | Y                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                             | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ART     | 680         | Practicum                                   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | Z2            | Herberger Inst Design & Arts | School of Art                             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| ASB     | 322         | Peoples of Latin America                              | Indigenous, mestizo, and national cultures, rural and urban peoples in the region that today we call Latin America. Covers historic and contemporary events and cultures.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | (L or SB) & G      | Prerequisite(s): ASB 102 with C or better or minimum 45 hours  |
| ASB     | 324         | Peoples of the Pacific                                | Peoples and cultures of Oceania focusing particularly on societies of Melanesia, Micronesia, and Polynesia.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | G                  |  |
| ASB     | 325         | Peoples of Southeast Asia                             | Cultural-ecological perspective on the peoples of mainland and insular Southeast Asia. Subsistence modes, social organization, and the impact of modernization.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | G                  |  |
| ASB     | 326         | Human Impacts on Ancient Environments                 | World survey of successful and unsuccessful ancient societies and their impacts on the environment.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | SB & H             |  |
| ASB     | 327         | Disaster!   | Examines the causes of disasters, such as famines and pandemics, throughout human history. Explores cases in which social responses to disaster have helped people survive or led to their demise. Through hands-on activities, students gain experience with popular tools to understand human responses to disasters.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | (L or SB) & C      | Prerequisite(s): ASB 102 with C or better or minimum 45 hours  |
| ASB     | 328         | Rules, Games, and Society                             | Concepts and practical tools to study the relation between groups of people and their common resources and public goods. Methods for identifying the diversity of institutional arrangements and analyzing their effectiveness. Example topics include sports, digital commons, environmental management, and urban environments.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | L                  | Pre-requisites: ENG 101; Minimum 45 hours  |
| ASB     | 330         | Understanding Archaeology                             | In-depth study and critique of theories and methods for reconstructing the lives of prehistoric peoples.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | SB                 | Prerequisite(s): minimum 45 hours  |
| ASB     | 333         | Frauds, Myths and Mysteries                           | Depictions of archaeology in popular culture are full of dubious tales of ancient extraterrestrials, giants and widespread scientific conspiracy. Explores such fantastic claims and learn how archaeologists separate plausible arguments from pseudoscience. Critically examines how and why such pseudoscientific claims develop and take hold of the public imagination. | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                    | Prerequisite(s): minimum 42 hours; Credit is allowed for only ASB 333 or ASB 394 (Myth Busters)  |
| ASB     | 335         | Ancient Ruins of the Southwest                        | Archaeological exploration of the the major cultural developments in the prehispanic Southwest, including Mesa Verde, Chaco Canyon, Mimbres, Hohokam and Rio Grande.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts  | 3     | SB & H & C         | Prerequisite(s): ASB 102 or 222 or 223 or minimum 45 hours   |
| ASB     | 335         | Ancient Ruins of the Southwest                        | Archaeological exploration of the the major cultural developments in the prehispanic Southwest, including Mesa Verde, Chaco Canyon, Mimbres, Hohokam and Rio Grande.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | SB & H & C         | Prerequisite(s): ASB 102 or 222 or 223 or minimum 45 hours   |
| ASB     | 336         | African Art   | Anthropological perspective of ancient visual art traditions of Africa. In-depth studies focus on several important themes and case studies that are pivotal to the understanding of the rich and diverse artistic heritage of the African continent.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | HU & G             | Prerequisite(s): AFR 200 (or AFS 200) or ASB 102 or minimum 45 hours; Credit is allowed for only AFR 336 (or AFH 336) or ASB 336             |
| ASB     | 337         | Pyramids and Hieroglyphs: Life in Ancient Mesoamerica | Preconquest cultures and civilizations of Mexico. The Aztecs, Mayas, and their predecessors.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | (HU or SB) & G & H | Prerequisite(s): minimum 45 hours  |
| ASB     | 338         | Archaeology of North America                          | In-depth study of the origin, spread, and development of the prehistoric Indians of North America up to historic tribes. Does not include the Southwest.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | SB                 | Pre-requisites: ASB 102 or ASB 222 or ASB 223  |
| ASB     | 339         | Grassroots Social Movements                           | Explores how groups mobilize collectively to produce social, political, economic, and cultural change, with an emphasis on the United States.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences  | 3     | SB                 | Prerequisite(s): ENG 101, 105, or 107 with C or better; Credit is allowed for only ASB 339 or POS 339 or SBS 339 or SOC 339                  |
| ASB     | 340         | Migration and Culture                                 | Examines migration and culture embedded in a transnational field of social, economic and political processes.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences  | 3     | SB & G             | Prerequisite(s): minimum 45 hours. Credit is allowed for only ASB 340 or SOC 328   |
| ASB     | 342         | Mexico-U.S. Borderlands                               | Contemporary examination of socioeconomic and political dimensions of border communities, and formation of Mexican-origin communities within and outside the Southwest.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences  | 3     | SB & C             | Credit is allowed for only ASB, SBS or SOC 342   |
| ASB     | 344         | Technology and Society                                | Development of technology in relation to society, work, science, the environment, public health, and cultural values related to social change.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | L or SB            | Pre-requisite: Minimum 45 hours; Credit is allowed for only ASB 344 or SOC 334   |
| ASB     | 346         | Marriage and Family Diversity                         | Social, economic, and cultural factors that shape family diversity in relation to generational and gender dynamics within the family.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences  | 3     | SB & C             |  |
| ASB     | 350         | Anthropology and Art                                  | Art forms of people in relationship to their social and cultural setting.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | HU                 |  |

| ASB     | 356         | Central American Studies                              | Part of the summer ASU study abroad Costa Rica Program, which is a language and social sciences immersion program in the capital city, San Jose. A summer offering permits students to enroll in the program without conflicting with full course loads during the fall or spring semester. However, the course is proposed as a stand-alone course that can be offered in a regular semester as well.  | N                 | REC               | Y               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences  | 3     | SB & G          | Credit is allowed for only ASB 356 or GCU 356 or POS 354 or SBS 356 or SOC 356  |
| ASB     | 357         | Society, Drugs and Health                             | Analyzes how humans use exogenous chemicals to change psychology, biology and behavior, and what positive and negative consequences this has for human health. Explores how such chemical technologies arise through cultural evolution, how societies decide what are appropriate and inappropriate uses of such technologies, how these technologies change what is considered normal biological functioning and behavior, and how these technologies shape human health. Through this substantive topic, introduces basic concepts and tools in two related fields--medical anthropology and epidemiology. A consistent focus in the course is developing tools that can be applied to improve the provision of care and health care policy.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): minimum 45 hours; Credit is allowed for only ASB 357 or ASB 395 (Society and Drugs)  |
| ASB     | 358         | The Yoruba and the Atlantic World                     | The Yoruba in the African diaspora is how Africans, separated from their home country and scattered in a new land, managed to retain their traditions and reform their identities. The slave trade led to the spreading of African culture, religion, dance, art and music from one hemisphere to another and contributed to the cultural diversity of the New World. Allows students to trace the experiences of one African cultural group throughout the cycle of the slave experience in the Americas. Utilizes different sources or approaches (e.g., anthropology, archaeology, written document, oral tradition) to provide an understanding of how the Yoruba were integrated into the Atlantic world, the transformations of Yoruba identities and culture, and the strategies for resistance employed by the Yoruba in the New World. | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): minimum 30 hours; Credit is allowed for only AFR 358 or ASB 358 or AFS 394/ASB 394/HST 394/SGS 394 (Yoruba in the African Diaspora World)  |
| ASB     | 361         | Pleistocene Archaeology                               | Biosocial evolution in the Pleistocene, emphasizing technological achievements and the relationship between technology and environment in western Europe, sub-Saharan Africa.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | H               |   |
| ASB     | 362         | People and Plants                                     | Offers a global survey of ethnobotany, the study of the uses of plants by people. Integrating botany, anthropology and archaeology, students learn about the roles plants have played as foods, tools, medicines and foci of religious devotion and ritual experience across human history.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): minimum 45 hours   |
| ASB     | 366         | African Archaeology: Precolonial Urban Culture        | In-depth analysis of African civilization from the last 10,000 years up to 1850 via archaeological, documentary, and oral data. Special study will be placed on the evidence relating to dynamics of civilizations in ancient Africa, their foundation, growth, and failure, which spans a period of two million years  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | SB & H          | Prerequisite(s): AFR 200 (or AFS 200) or minimum 45 hours. Credit is allowed for only AFR 366 (or AFS 366) or ASB 366   |
| ASB     | 368         | Hunter-Gatherers                                      | Studies of known hunting and gathering societies with the goal of developing approaches to understanding past and/or present hunting and gathering societies.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | SB              | Prerequisite(s): minimum 45 hours   |
| ASB     | 370         | Ethics of Eating                                      | This multidisciplinary course examines the elements of modern food systems and current ethical issues regarding food production, distribution and consumption. Also provides a foundation for investigating the effects of social inequality in food systems and global and local responses to address those challenges.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | L or SB         | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only ASB 370 or ASB 394 (Production, People, and Environments) or ASB 394 (Ethics of Eating) or SOC 370 or SOS 370 or SSH 370 |
| ASB     | 371         | Inequality and Sustainability                         | Efforts to shift societies onto a sustainable trajectory are facing profound challenges from the degree and dynamics of global inequalities of income, wealth, and life chances. Data and ideas from a spectrum of disciplines are employed to examine, analyze, and criticize the prospects for redressing global inequalities in a sustainable manner.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | L               | Prerequisite(s): ENG 101,105 or 107 with C or better; minimum of 45 hours; Credit is allowed for ASB 371, ASB 394 (Inequality and Sustainability), SOS 371 or SOS 394 (Inequality and Sustainability)       |
| ASB     | 374         | Cultures and Politics of the Internet                 | Explores the culture and politics of the Internet in global perspective, including virtual communities, free software, copyleft, blogs, and hacktivism.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences  | 3     | SB              | Credit for only ASB 374, POS 374, SBS 374 or SOC 374  |
| ASB     | 375         | Humans and the Environment: What's the Connection?    | How do diverse human groups across global ecosystems (desert, tropics, arctic, alpine, urban) interact with and adapt to their environments and how are these relationships changing in response to globalization, climate change and other social, historical and political-economic drivers? Cultures situated in landscapes are the basis for an incredible global diversity of worldviews and behaviors that in turn affect how humans experience and "use" their environments. This course will provide an introduction to current and benchmark literature and methods in environmental and ecological anthropology that address people-environment interactions.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | (L or SB) & G   | Prerequisite(s): minimum 45 hours; Credit is allowed for only ASB 375 or SOS 375 or ASB 394 (People: Environment Connections in Anthropology) or ASB 494 (Ecological and Environmental Anthropology)        |
| ASB     | 376         | Global Health Policy                                  | Examines the relationship among global policy, population dynamics and human health. Learn about what quantitative indicators (i.e., measures) can tell us about the scope, distribution and determinants of population health problems. The population focus organizes the course according to the broad domains of fertility, morbidity and mortality.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): minimum 42 hours; Credit is allowed for only ASB 376 or ASB 494 (Global Health Policy)   |
| ASB     | 378         | McGlobalization: Migration, Mass Media and McDonald's | Explores the impact of globalization on local societies and cultures by focusing on the international migration of peoples, the global expansion of capitalism and global mass media and popular culture. Examines both the socioeconomic causes and consequences of globalization, as well as how local peoples around the world have been affected by, participated in and resisted the forces of globalization.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | (L or SB) & C   | Prerequisite(s): ENG 101, 105, 107, or 111 with C or better; Credit is allowed for only ASB 378 or TCL 378  |
| ASB     | 380         | Language, Culture and Gender                          | Focuses on how language, thought and culture are intertwined in everyday practice. Students learn the central role of language in shaping and reflecting social norms and social actions cross-culturally.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | SB              | Prerequisite(s): minimum 42 hours   |
| ASB     | 389         | Ethnographic Field Lab                                | Hands-on, guided ethnographic qualitative research and interpretative analysis.   | N                 | LAB               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences  | 1-6   |                 | Prerequisite(s): minimum 45 hours; Credit is allowed for only ASB 389 or SBS 389 or SOC 389   |
| ASB     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-4   |                 |   |
| ASB     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences  | 1-4   |                 |   |

|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|------------------------------|---|-------|-----------------|--|
| ASB     | 395         | Topics in Comparative Culture                         | In-depth study of specific topic(s) cross-culturally. Students engage with the subject matter through critical evaluation of literature, hands-on analysis and interpretation of data, and scientific writing.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | SB & G          | Prerequisite(s): minimum 42 hours  |
| ASB     | 402         | Visual Anthropology                                   | Explores visual anthropology as a method for social documentation, and as a way to interpret cultural ways of seeing. Brings together anthropology, fine art, and art history students to exchange ideas about how we create, interpret, and communicate visual meanings.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 |  |
| ASB     | 412         | History of Anthropology                               | Historical treatment of the development of the culture concept and its expression in the chief theoretical trends in anthropology between 1860 and 1950.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | L or SB         |  |
| ASB     | 417         | Political Anthropology                                | Comparative examination of the forms and processes of political organization and activity in primitive, peasant, and complex societies.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | L               |  |
| ASB     | 421         | Education and Society                                 | Uses contemporary sociological perspectives to examine effects of schools and schooling on individuals and society.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | SB              |  |
| ASB     | 430         | Social Simulation                                     | Students will apply computer simulation and agent-based modeling techniques to study social systems relating to concrete research questions.   | N                 | LAB               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 4     | CS              | Prerequisite(s): AML 100 or MAT 142, 170, 210, 265, or 270 with C or better OR Mathematics Placement Test score of 50% or higher; minimum 56 hours; Credit is allowed for only ASB 430 or CPI 430 or AML 330 |
| ASB     | 440         | Women in the Global Factory                           | Examines the impact of Third World women's incorporation into the new global division of labor in the late 20th century.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences  | 3     | SB & G          | Prerequisite(s): minimum 45 hours  |
| ASB     | 442         | Global Cities   | This close look at megacities in the global south decisively challenges the outdated impression that the rest of the world's cities still lag way behind the U.S. and Europe. The social sciences' debate over "global cities" anchors our examination of the reorganization of metropolitan social space under impact of neoliberal globalization since the 1970s. Explores urban inequalities of slums and dreamworlds; compares vernacular and transnational styles of urbanism (in architecture, design, markets, consumerism, jobs, ads, ways of living); and asks how transnational flows of people, capital and culture have reconfigured ethnic relations and national identities rooted in global cities. Students become virtual transnational flâneurs, tacking between the slums and skyscrapers of global cities, and conduct guided research on a global megacity to investigate how the production of the global city changes the lived space and urban culture of local residents, and how they respond. We ask, whose city is it? | N                 | LEL               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences  | 3     | SB & G          | Prerequisite(s): minimum junior standing; Credit is allowed for only ASB 442 or SBS 460  |
| ASB     | 443         | Cross-Cultural Studies in Global Health               | Direct investigations of society, ecology, and health in international settings.   | N                 | PRA               | Y               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3-6   | (L or SB) & G   | Pre-requisite: SSH 100 or ASB 100. Credit is allowed for only ASB 443 or SSH 403   |
| ASB     | 447         | Citizenship, Nationalism, and Identity                | Historical and contemporary examination of citizenship as a form of belonging and fidelity, and the creation of good citizens within the U.S.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences  | 3     | SB & C          | Credit is allowed for only ASB 447, POS 447, or SBS 447  |
| ASB     | 452         | Community Partnerships for Global Health              | Supervised community-based activities relevant to a global perspective on contemporary U.S. health. Addresses community-identified issues using appropriate methodologies.   | N                 | PRA               | Y               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3-9   | SB              | Pre-requisites: Minimum 45 credit hours; SSH 100 or ASB 100; Credit is allowed for only SSH 402 or ASB 452   |
| ASB     | 455         | Practicum for Social Sciences                         | Students integrate theoretical, methodological, ethical and experiential learning related to social science research questions.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3-9   |                 | Prerequisite(s): minimum 42 hours  |
| ASB     | 462         | Medical Anthropology: Culture and Health              | Role of culture in health, illness, and curing; health status, provider relations, and indigenous healing practices in United States ethnic groups.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | SB & C          | Credit is allowed for only ASB 462 or SSH 404  |
| ASB     | 463         | Political Ecology of the Border                       | Examines the political ecology of the human-environment relationship in Mexico and on the U.S.-Mexican border. Through case studies, students learn about the most pressing environmental issues facing human populations and their communities on both sides of the U.S.-Mexican border and the various ways in which these issues are dealt with.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | SB & G          | Prerequisite(s): minimum 45 hours; Credit is allowed for only ASB 463 or SOS 463 or TCL 443  |
| ASB     | 464         | The Ethnography of Mexico and the Borderlands         | Students learn basic principles of ethnographic research and obtain a better understanding of the social, ecological, cultural, political and economic processes affecting people in Mexico and in the U.S.-Mexico borderlands. Through case studies, students become aware of the variety of issues shaping the lives of those living in these regions. Focuses on contemporary issues such as migration, economy, gender, labor, health and the environment.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | SB & G          | Prerequisite(s): minimum 45 hours; Credit is allowed for only ASB 464 or TCL 444 or TCL 598 (The Ethnography of Mexico and the Borderlands)  |
| ASB     | 466         | Peoples and Cultures of Africa                        | Surveys African peoples and their cultures, external contact, and changes. Meets non-Western requirement.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | G               | Prerequisite(s): AFR 200 (or AFS 200) or minimum 45 hours; Credit is allowed for only AFR 466 (or AFS 466) or ASB 466  |
| ASB     | 471         | Introduction to Museums                               | History, philosophy, and current status of museums. Explores collecting, preservation, exhibition, education, and research activities in different types of museums.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | L               |  |
| ASB     | 480         | Principles of Linguistics                             | Descriptive and historical linguistics. Surveys theories of human language, emphasizing synchronic linguistics.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 |  |
| ASB     | 483         | Sociolinguistics and the Ethnography of Communication | Relationships between linguistic and social categories; functional analysis of language use, maintenance, and diversity; interaction between verbal and nonverbal communication.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | SB              |  |
| ASB     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-12  |                 |  |
| ASB     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | New Interdis Arts & Sciences | School of Social and Behavioral Sciences  | 1-12  |                 |  |
| ASB     | 485         | U.S.-Mexico Border in Comparative Perspective         | Explores the multicultural and social dimensions of communities along the U.S.-Mexico border, emphasizing social organization, migration, culture, and frontier ideology.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 |  |
| ASB     | 490         | Earliest Cities                                       | Archaeological research on the origins and development of the earliest urban centers around the world. Applies urban theory and comparative analysis. Compares ancient and modern cities.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     | SB & H          | Prerequisite(s): ASB 222 or 223 with C or better; minimum 45 hours; Credit is allowed for only ASB 490 or PUP 490  |
| ASB     | 492         | Honors Directed Study                                 | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.  | N                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| ASB     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | RSC               | N               | Z1            | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| ASB     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | RSC               | N               | Z1            | New Interdis Arts & Sciences | School of Social and Behavioral Sciences  | 1-6   | L               | Prerequisite(s): Barrett Honors student  |

| ASB     | 500         | Research Methods  | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 503         | Medical Anthropology  | Theory in medical anthropology and cross-cultural studies that illustrate particular theories. ASB 503/SSH 503.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 510         | Health: Social and Biocultural Theories                       | Comparative and critical approaches to complexities of health, drawn from anthropology and related fields. Focuses on theories that address how social and cultural factors shape human health.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 511         | Ethics in Health Social Science Research                      | Ethics and social justice issues in community-based health research relevant to health social science, including informed consent, community involvement, control, advocacy.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 512         | Social Science Applications in Community Health               | Supervised community-based activities relevant to improvement of health through application of social science theory.   | N                 | PRA               | Y               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3-9   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 513         | Research Design and Proposal Writing in Health Social Science | Research design, piloting, and proposal writing for social scientists conducting health research.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 517         | Uncertainty and Decision Making                               | Knowledge is always incomplete, yet decisions must be made. Explores uncertainty and its relation to decision making, with a particular focus on the ways that science and science-derived information is applied with the intent of improving decisions. Explores the many meanings and origins of uncertainty, using theoretical and case-based approaches. A central theme is the relation among uncertainty, scientific prediction, and decision making, especially in politically charged issues, for example as related to management of the environment. Ultimately understands how effective decisions can be made in the face of inevitable uncertainties and contested knowledge.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only ASB 517 or BIO 517 or BIO 591 (Uncertainty & Decision Making) or HSD 517 or POS 527 or SOS 518   |
| ASB     | 525         | Introduction to Material Culture                              | Considers how objects embody social relationships and therefore cultural meanings. Seminar explores theories that give insight into social processes such as exchange, consumption, and identity.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 529         | Culture and Political Economy                                 | Origin and spread of Western capitalism and its impact on non-Western societies. Utilizes ethnographic and historical case studies.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 530         | Changing Human-Nature Relationships                           | Explores key concepts in Western and non-Western thinking now intersecting in the Anthropocene to influence human interactions with and descriptions of Nature. Humans may protect Nature, but simultaneously use/overuse resources and drive change in social-ecological systems. Examines evolving assumptions about Nature, values/world views, progress, change, uncertainty, rationality, knowledge, tradeoffs and control/management, using a range of theoretical lenses (e.g., environmental/ecological/historical anthropology, culture, geography, ecology, economics, institutions, economic development, complex systems and sustainability science). Also studies a set of iconic Human-Environmental challenges and examines how theories and assumptions explain behaviors and human, ecological and policy outcomes. In turn, focuses on lessons that emerge for interdisciplinary scholarship. Encourages students to apply methods, concepts and theories to their evolving research questions. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ASB 530 or SOS 553   |
| ASB     | 532         | Graduate Field Anthropology                                   | Independent research on a specific anthropological problem to be selected by the student in consultation with the staff. May be repeated for credit.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 2-8   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 537         | Topics in Mesoamerican Archaeology                            | Explores changing organization of pre-Columbian civilizations in Mesoamerica through interpretive issues, such as regional analysis, chiefdoms, urbanism, and exchange.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 540         | Scholarly Inquiry in Anthropology                             | Basic issues and concepts in anthropology.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Pre-requisites: Graduate student within one of the following programs in the School of Human Evolution and Social Change: Anthropology, Museum Anthropology, Social Science and Health, and Environmental Social Sciences |
| ASB     | 541         | Theory in Sociocultural Anthropology                          | Basic issues and concepts in sociocultural anthropology.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 542         | Archaeology of Small-Scale Societies                          | Approaches to small-scale (i.e., hunter-gatherer and tribal) societies, archaeological method and theory, ethnography, models of human and cultural evolution.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 544         | Settlement Patterns   | Spatial arrangement of residences, activity sites, and communities over landscape. Emphasizes natural and cultural factors influencing settlement patterns.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 547         | Origins of Agriculture  | Archaeological evidence for transitions in Old World subsistence economies from hunting and gathering to dependence on domesticated plants and animals.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 549         | Chiefdoms   | Examines archaeological evidence of chiefdoms, distinguished by hereditary leadership and non-bureaucratized decision-making elite, to illustrate emergence of social complexity, inequality.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 558         | Mortuary Practices and Cultural Analysis                      | Critical overview of theory and methods of reconstructing lifeways of past peoples with ethnographic/archaeological data and a bioarchaeological perspective.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

|---------|-------------|-----------------------------------|---|-------------------|-------------------|-----------------|---------------|------------------------------|---|-------|-----------------|---|
| ASB     | 560         | Theory and Archaeology            | Applies social theory to archaeological study of societies of the past. Includes practice theory, hierarchy, space and place, material culture.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 563         | Hunter-Gatherer Adaptations       | Evolution of prehistoric hunter-gatherer societies in the Old and New Worlds from the most ancient times through protohistoric chiefdoms.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 567         | Southwestern Archaeology          | Broad coverage of Southwestern cultural developments focusing on current debates and rigorous use of archaeological data in making cultural inferences.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 568         | Intrasite Research Strategies     | Research issues within a single site context. Topics include quantitative spatial analysis, site definition, sampling, distributional analysis, and substantive interpretation.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 572         | Museum Collection Management      | Principles and practices of acquisition, documentation, care, and use of museum collections; registration, cataloging, and preservation methods; legal and ethical issues.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 573         | Museum Administration             | Formal organization and management of museums, governance, personnel matters, fund raising and grantsmanship, legal and ethical issues.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate; Credit is allowed for only ASB 573 or HST 573 |
| ASB     | 574         | Exhibit Design and Development    | Exhibition philosophies and development; processes of planning, designing, staging, installing, evaluating, and disassembling temporary and long-term exhibits.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 579         | Critical Issues in Museum Studies | Current debates of museum practice from an anthropological perspective. Addresses issues of collection, presentation, authenticity, and authority.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 580         | Practicum                         | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 583         | Fieldwork                         | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 584         | Internship                        | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 584         | Internship                        | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | New Interdis Arts & Sciences | School of Social and Behavioral Sciences  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 590         | Reading and Conference            | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | REC               | Y               | Z1            | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 590         | Reading and Conference            | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | REC               | Y               | Z1            | New Interdis Arts & Sciences | School of Social and Behavioral Sciences  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 591         | Seminar                           | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 592         | Research                          | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 592         | Research                          | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | New Interdis Arts & Sciences | School of Social and Behavioral Sciences  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 593         | Applied Project                   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 594         | Conference and Workshop           | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 595         | Continuing Registration           | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ASB     | 598         | Special Topics                    | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Human Evolution & Social Change | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| ASB     | 799         | Dissertation                       | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences   | School of Human Evolution & Social Change | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| ASC     | 191         | First-Year Seminar                 | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.   | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts  | 1-3   |                 |  |
| ASC     | 294         | Special Topics                     | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts  | 1-4   |                 |  |
| ASC     | 315         | Numeracy in Technology             | Contextual uses of mathematics in applied sciences. Emphasizes using mathematical methodologies to solve technology-related problems.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts  | 3     | MA              | Prerequisite(s): BAS major                                     |
| ASC     | 325         | Physical Sciences in Technology    | Physical systems and their interrelationships on technology systems. Real-world applications of physical systems.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts  | 4     | SQ              | Prerequisite(s): BAS major                                     |
| ASC     | 394         | Special Topics                     | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts  | 1-4   |                 | Pre-requisites: Polytechnic BAS student                        |
| ASC     | 494         | Special Topics                     | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts  | 1-4   |                 |  |
| ASC     | 498         | Pro-Seminar                        | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.   | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts  | 1-7   |                 |  |
| ASC     | 499         | Individualized Instruction         | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.                | Y                 | LEC               | Y               | Z1            | Integrative Sciences & Arts | College of Integrative Sciences and Arts  | 1-3   |                 | Pre-requisites: Polytechnic BAS student                        |
| ASC     | 594         | Conference and Workshop            | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.  | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts  | 1-12  |                 | Pre-requisites: Polytechnic BAS student                        |
| ASM     | 104         | Bones, Stones, and Human Evolution | Physical anthropology and archaeology. Evidence and processes of human evolution and of culture change. Primates. Fossil hominids and their tools. Race, variation, and heredity. Environment and human biology. Prehistoric culture and society.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences   | School of Human Evolution & Social Change | 4     | SB or SG        |  |
| ASM     | 191         | First-Year Seminar                 | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences   | School of Human Evolution & Social Change | 1-3   |                 | Pre-requisites: Freshman standing; Maximum 25 hours            |
| ASM     | 201         | Epidemics and Outbreaks            | Covers epidemiologic methods for the control of conditions such as infectious and chronic diseases, mental disorders, community and environmental health hazards, and unintentional injuries. Other topics include quantitative aspects of epidemiology, including data sources, measures of morbidity and mortality, evaluation of association and causality, and study design. A background in basic biology and a basic understanding of the principles of human diseases helpful in succeeding in this course. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences   | School of Human Evolution & Social Change | 3     |                 | Credit is allowed for only ASM 201 or SSH 201                  |
| ASM     | 246         | Human Origins                      | History of discoveries and changing interpretations of human evolution. Earliest ancestors to emergence of modern humans. Humanity's place in nature.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences   | School of Human Evolution & Social Change | 3     | SB              |  |
| ASM     | 275         | Forensic Anthropology              | Discusses the role of the forensic anthropologist in medico-legal investigations involving skeletonized human remains. Includes forensic recovery techniques, identification of decedents through skeletal and dental analysis, and reconstructing the crime scene through analysis of trauma patterns. Covers the legal aspects of forensic practice and considers historical case studies and the contributions forensic anthropologists make to mass disaster investigations and human rights abuses.           | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences   | School of Human Evolution & Social Change | 4     | SB or SG        |  |
| ASM     | 294         | Special Topics                     | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences   | School of Human Evolution & Social Change | 1-4   |                 |  |
| ASM     | 298         | Honors Directed Study              | Independent study or practicum under the supervision of a faculty member.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences   | School of Human Evolution & Social Change | 1-6   |                 | Prerequisite(s): Barrett Honors student                        |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                      | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                                | Units | General Studies | Requirements  |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|---------------------------|---|-------|-----------------|---|
| ASM     | 300         | Anthropological Sciences Seminar                  | Focuses on the ways in which research findings are produced by diverse theories and methods in the anthropological sciences, usually in combination with other life and physical sciences, with a strong focus on combination anthropological conceptual frameworks with quantitative methodologies.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): Anthropology BS major; Two of the following: ASB 102, 222 or 223, AML 100 or ASM 104 with a C or better  |
| ASM     | 301         | Peopling of the World                             | Reviews all evidence for human dispersal during the last 100,000 years, origins of language, cultures, races, and beginnings of modern humans.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     | SB              | Pre-requisite: ASM 104  |
| ASM     | 313         | Great Adaptations                                 | Tiny hummingbirds and huge whales commute thousands of miles every year, male bower birds construct elaborately decorated structures to impress females, and some parasites program suicidal behavior into their hosts. These amazing (and sometimes bizarre) behaviors are all adaptations--traits that have been favored by selection because they enhance the ability of individuals to survive and reproduce successfully. The study of adaptation helps us to understand how evolution generates complexity and to understand the processes that underlie the rich diversity of life. Covers the principles of natural selection and a diverse and remarkable range of adaptations in nature. | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): minimum 45 hours; Credit is allowed for only ASM 313 or ASM 394 (Great Adaptations)  |
| ASM     | 332         | Life and Death in Ancient Egypt                   | Reveals ancient Egyptian life through recent research in archaeology and physical anthropology on cemeteries, tombs, and the dead themselves.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): ENG 101, 105, 107, or 111 with C or better; Credit is allowed for only AFR 332 (or AFS 332) or ASM 332   |
| ASM     | 338         | Anthropological Field Session                     | Anthropological field techniques, analysis of data, and preparation of field reports.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 |   |
| ASM     | 341         | Human Osteology                                   | Osteology, human paleontology, and osteometry. Description and analysis of archaeological and contemporary human populations.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 4     |                 | Prerequisite(s): ASM 104 with C or better; 25 minimum hours   |
| ASM     | 342         | Evolution of Human Behavior                       | Examines how evolutionary theory informs our understanding of human behavior, psychology and culture. Explores evolutionary explanations of human behavioral variation and cultural diversity and the influence of natural selection on shaping human cognition. Topics include nepotism, economic decisions, behavioral strategies throughout the life course, mate choice and sexual behavior, perception and judgment, motivation and emotions, social learning and culture, cooperation and prosociality, interpersonal violence and warfare, and norms and moral sentiments.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s) with C or better: ASM 104 (or BIO 181 or 282). Credit is allowed for only ASM 342 or BIO 327  |
| ASM     | 344         | Fossil Hominids                                   | The fossil evidence for human evolution, emphasizing the concepts and methods for reconstructing the past.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 4     |                 | Pre-requisite: ASM 104  |
| ASM     | 345         | Disease and Human Evolution                       | Interaction of people and pathogens from prehistoric times to the present, with emphasis on disease as an agent of genetic selection.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): ASM 104 or BIO 100 or BIO 181 (or BIO 188) or BIO 182 (or BIO 187) or BIO 281 or BIO 282   |
| ASM     | 348         | Social Issues in Human Genetics                   | Moral and social implications of developments in genetic science, particularly as they affect reproduction, medicine, and evolution.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     | SB              |   |
| ASM     | 350         | Geoarchaeology                                    | Geologic context relevant to archaeological research. Topics include sediments, deposition environments, soils, anthropogenic and biogenic deposits, and quaternary chronology.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): ASB 222 or 223, GLG 101 or 103, or GPH 111 with C or better  |
| ASM     | 365         | Doing Archaeology                                 | Using hands-on analysis of artifacts and a mock site, this advanced introduction to archaeology acquaints the student with the field and laboratory methods applied by archaeologists, the information archaeologists use, and how they construct knowledge of the past.   | N                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3-4   |                 | Prerequisite(s): ASB 222 (or ASB 223 or 335 or 337)   |
| ASM     | 394         | Special Topics                                    | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-4   |                 |   |
| ASM     | 401         | Health and Human Biology                          | Health and biology in contexts of human evolutionary history, biological and cultural variation, lab-based health status assessments, core concepts of human variation.  | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3-4   |                 | Pre-requisites: ASB 100 (or ASM 104); SSH 100; Credit is allowed for only ASM or SSH 401  |
| ASM     | 414         | Urban and Environmental Health                    | Integrates theory and practice of social sciences (including anthropology, demography, and human geography) to understand environmental contexts of health, particularly urban.  | N                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     | SB              | Prerequisite(s): ASB 100, 102, 222, 223, AML 100, ASM 104 or SSH 100 with C or better; minimum 45 hours; Credit is allowed for only ASM 414 or SOS 414 or SSH 414 |
| ASM     | 424         | Dynamic Modeling in Social and Ecological Systems | Introduces the development and use of dynamic mathematical models to study social and ecological phenomena.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 4     |                 | Prerequisite(s): MAT 210, 251, 265, or 270 with C or better; Credit is allowed for only SOS 424 or BIO 424 or ASM 424   |
| ASM     | 435         | Archaeological Pollen Analysis                    | Theory, methodology, and practice of pollen analytic techniques. Compares uses in botany, geology, and archaeology.  | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 |   |
| ASM     | 443         | Primatology                                       | Evolution and adaptations of nonhuman primates, emphasizing social behavior. Includes material from fossil evidence and field and lab studies in behavior and biology which must be critically integrated with relevant competing theories concerning the evolution of primate behavior and biology.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): ASM 104 with C or better; Minimum 56 hours. Credit is allowed for only ASM 443 or 543  |
| ASM     | 446         | Principles of Human Genetics                      | Molecular and cellular analysis of the human genome.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     | L               | Prerequisite(s): ASM 301 or BIO 340 or LSC 347 or MBB 347 with C or better; Credit is allowed for only ASM 446 or ASM 546 or BIO 446 or BIO 546                   |
| ASM     | 450         | Bioarchaeology                                    | Surveys archaeological and physical anthropological methods and theories for evaluating skeletal and burial remains to reconstruct biocultural adaptation and lifeways.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Pre-requisite: ASM 104  |
| ASM     | 452         | Dental Anthropology                               | Human and primate dental morphology, growth, evolution, and genetics. Within- and between-group variation. Dental pathology and behavioral-cultural-dietary factors.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 4     | SG              | Pre-requisites: ASM 104. Credit is allowed for only ASM 552 or ASM 452  |
| ASM     | 453         | Human Behavior through Bone Chemistry             | Focuses on the many ways that biogeochemical analyses of archaeological bone and teeth can inform our understanding of past human behavior. Topics include migration and residential mobility, paleodiet, post-depositional contamination and dating methods. Students will learn through lectures, discussions, student presentations, and hands-on laboratory projects.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): ASB 222 or 223 with C or better; ASM 104 with C or better; minimum 56 hours; Credit is allowed for only ASM 453 or 553                           |
| ASM     | 454         | Comparative Primate Anatomy                       | Functional anatomy of the cranial, dental, and locomotor apparatus of primates, including humans, emphasizing the relation of morphology to behavior and environment.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 4     |                 |   |
| ASM     | 455         | Primate Behavior Laboratory                       | Instruction and practice in methods of observation and analysis of primate behavior. Discusses the relationship between class work on captive animals and field techniques for studying free-ranging groups.   | N                 | LAB               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     | L               | Pre-requisite: ASM 343  |
| ASM     | 456         | Infectious Disease and Human Evolution            | Study of infectious disease and humanity, using evidence from anthropology, history, medicine, and ancient skeletons.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Pre-requisite: ASM 345  |
| ASM     | 459         | Forensic Anthropology                             | Applies anthropology, primarily human osteology, to legal questions, including individual identification, crime scenes, forensic reports, police work, and court testimony.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Pre-requisite: ASM 341; ASM 275; Credit is allowed for only ASM 459 or 559  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                                | Units | General Studies | Requirements   |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|---------------------------|---|-------|-----------------|--|
| ASM     | 460         | Human Growth and Development: An Evolutionary Perspective | How growth and development influences human variation; stages of human life; evolution through the fossil record; genetic, environmental, and biocultural factors.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): ASM 104 with C or better; ASM 341, 342, 344, 345, or 348  |
| ASM     | 465         | Quantification and Analysis for Anthropologists           | Statistical and quantitative strategies for envisioning and exploring archaeological, physical anthropological, bioarchaeological, and socialcultural data. Univariate and bivariate methods. A basic understanding of algebra is necessary to be successful in this course.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     | CS              |  |
| ASM     | 472         | Archaeological Ceramics                                   | Analysis and identification of pottery wares, types, and varieties. Systems for ceramic classification and cultural interpretation.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 |  |
| ASM     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 |  |
| ASM     | 492         | Honors Directed Study                                     | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.  | N                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| ASM     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | LEC               | N               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| ASM     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-4   |                 |  |
| ASM     | 497         | Honors Colloquium   | A class emphasizing discussion, written and/or oral presentation by students, and active participation.  | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| ASM     | 498         | Pro-Seminar   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-7   |                 |  |
| ASM     | 499         | Individualized Instruction                                | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-3   |                 |  |
| ASM     | 500         | Research Methods  | Course on research methods in a specific discipline.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ASM     | 506         | Clinical Gross Anatomy                                    | Dissection of the human body with an emphasis on the application of anatomical knowledge to clinical applications.   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 6     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only BIO 506, ASM 506 or MCB 506         |
| ASM     | 520         | Agent-Based Modeling                                      | Introduces agent-based modeling to simulate social and social-ecological systems. Topics include design, analysis, and empirical grounding of agent-based models to a variety of application domains including collective action, diffusion processes, resource use, health, and complex societies.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ASM     | 525         | Primate Paleobiology                                      | Seminar-based survey of primate evolution, focusing on comparative biology of the extant primates and the fossil record through the Miocene.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ASM     | 530         | Paleoanthropology   | Seminar-based in-depth study of the fossil record of human evolution and its geological, environmental, and phylogenetic contexts.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ASM     | 543         | Primateology  | Advanced study of nonhuman primate behavioral adaptations, emphasizing comparative sociality, incorporating data on behavior and biology from field and captivity.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit allowed for ASM 443 or 543                              |
| ASM     | 546         | Principles of Human Genetics                              | Examines human molecular genetics from an evolutionary perspective, particularly analysis, current debates, the Human Genome Project, disease, ethics.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking); credit is allowed for only BIO 446, ASM 446, BIO 546 or ASM 546 |
| ASM     | 548         | Geoarchaeology  | Geologic context relevant to archaeological research. Topics include sediments, deposition environments, soils, anthropogenic and biogenic deposits, and quaternary chronology.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ASM     | 552         | Dental Anthropology                                       | Evolutionary anthropology of non-human primate and human dentition and research from extant and extinct species of non-human primates and hominins.  | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 4     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only ASM 452 or ASM 552                  |
| ASM     | 553         | Human Behavior through Bone Chemistry                     | Focuses on the many ways that biogeochemical analyses of archaeological bone and teeth can inform our understanding of past human behavior. Topics include migration and residential mobility, paleodiet, post-depositional contamination and dating methods. Students will learn through lectures, discussions, student presentations, and hands-on laboratory projects.  | N                 | LEL               | N               | GNA           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only ASM 453 or 553                      |
| ASM     | 555         | Advanced Human Osteology                                  | Intensive lab course covers identification of human skeletal remains and bone fragments from archaeological contexts. Emphasizes skeletal biology, variation, anatomical landmarks, determinants of age, sex, and stature.   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 4     |                 | Pre-requisite: ASM 341 or Anthropology graduate student  |
| ASM     | 560         | Human Growth and Development: An Evolutionary Perspective | How growth and development influences human variation; stages of human life; evolution through the fossil record; genetic, environmental, and biocultural factors.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ASM     | 565         | Quantitative Archaeology                                  | Formal methods of structuring, codifying, and analyzing data for archaeological problems. Designing research to yield data amenable to productive analysis.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ASM     | 568         | GIS and Spatial Technologies in Anthropological Research  | In-depth survey of spatial technologies in anthropological research, including GIS, spatial modeling, remote sensing, and image analysis and classification.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ASM     | 570         | Fundamentals of CAS Science                               | Many phenomena of critical relevance to human society are dynamic systems that change over individual and evolutionary time scales, and are highly interactive, both within and between systems. That is, they are complex adaptive systems (CAS), and thus share isomorphic properties like near-decomposability, hierarchical organization, scale-free networks, self-organized criticality, and emergence. Fundamentals of CAS science explores the diverse, interdisciplinary applications of a complex adaptive systems across the social, behavioral, and life sciences. | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Pre-requisites: Graduate student (degree or non-degree); Credit is allowed for only ASM, BIO, or SOS 570                               |
| ASM     | 573         | Lithic Analysis   | Analysis and interpretation of chipped stone artifacts. Focus on both techniques and underlying concepts and their application to real collections.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ASM     | 579         | Proposal Writing  | Proposal writing and reviewing with a focus on the NSF dissertation improvement grant format. Discusses professional development.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ASM     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title            | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                                | Units | General Studies | Requirements   |
|---------|-------------|-------------------------|---|-------------------|-------------------|-----------------|---------------|---------------------------|---|-------|-----------------|--|
| ASM     | 583         | Fieldwork               | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 584         | Internship              | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 590         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 591         | Seminar                 | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 592         | Research                | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 593         | Applied Project         | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 594         | Conference and Workshop | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 595         | Continuing Registration | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 598         | Special Topics          | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 599         | Thesis                  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 600         | Research Methods        | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 611         | Paleopathology          | Explores patterns of disease manifested in the human skeleton and differential diagnosis of infectious, metabolic, neoplastic, congenital, and other conditions.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking); ASM 555 |
| ASM     | 680         | Practicum               | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 683         | Fieldwork               | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 684         | Internship              | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 690         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 691         | Seminar                 | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 692         | Research                | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 693         | Applied Project         | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 695         | Continuing Registration | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 700         | Research Methods        | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 780         | Practicum               | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 783         | Fieldwork               | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 784         | Internship              | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 790         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 791         | Seminar                 | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 792         | Research                | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 795         | Continuing Registration | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |
| ASM     | 799         | Dissertation            | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                 |

|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|------------------------------|---|-------|-----------------|--|
| AST     | 111         | Introduction to Solar Systems Astronomy                 | History, properties of light, instruments, study of solar system and nearby stars. For nonscience majors. Optional lab (AST 113). Both AST 111 and AST 113 or AST 114 must be taken to secure SQ general studies credit.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3     | SQ              |  |
| AST     | 111         | Introduction to Solar Systems Astronomy                 | History, properties of light, instruments, study of solar system and nearby stars. For nonscience majors. Optional lab (AST 113). Both AST 111 and AST 113 or AST 114 must be taken to secure SQ general studies credit.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     | SQ              |  |
| AST     | 112         | Introduction to Stars, Galaxies, and Cosmology          | Structure and evolution of stars, star clusters, galaxies, cosmology. For nonscience majors. Optional lab (AST 114). Both AST 112 and AST 113 or AST 114 must be taken to secure SQ General Studies   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3     | SQ              |  |
| AST     | 112         | Introduction to Stars, Galaxies, and Cosmology          | Structure and evolution of stars, star clusters, galaxies, cosmology. For nonscience majors. Optional lab (AST 114). Both AST 112 and AST 113 or AST 114 must be taken to secure SQ General Studies   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     | SQ              |  |
| AST     | 113         | Astronomy Laboratory I                                  | Astronomical observations and experiments designed to help the student become familiar with the sky, telescopes, and astronomical measurements. Both AST 111 and 113 or AST 113 and 321 must be taken to secure SQ General Studies credit.  | N                 | LAB               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1     | SQ              | Pre/Co-requisite: AST 111 or AST 321   |
| AST     | 113         | Astronomy Laboratory I                                  | Astronomical observations and experiments designed to help the student become familiar with the sky, telescopes, and astronomical measurements. Both AST 111 and 113 or AST 113 and 321 must be taken to secure SQ General Studies credit.  | N                 | LAB               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1     | SQ              | Pre/Co-requisite: AST 111 or AST 321   |
| AST     | 114         | Astronomy Laboratory II                                 | Similar to AST 113, but material chosen to supplement AST 112 and 322. Both AST 112 and 114 or AST 114 and 322 must be taken to secure SQ General Studies credit  | N                 | LAB               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1     | SQ              | Pre/Co-requisite: AST 111, 112, 321 or 322   |
| AST     | 114         | Astronomy Laboratory II                                 | Similar to AST 113, but material chosen to supplement AST 112 and 322. Both AST 112 and 114 or AST 114 and 322 must be taken to secure SQ General Studies credit  | N                 | LAB               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1     | SQ              | Pre/Co-requisite: AST 111, 112, 321 or 322   |
| AST     | 191         | First-Year Seminar                                      | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-3   |                 | Pre-requisite: Maximum 25 hours  |
| AST     | 194         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-4   |                 |  |
| AST     | 294         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-4   |                 |  |
| AST     | 298         | Honors Directed Study                                   | Independent study or practicum under the supervision of a faculty member.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| AST     | 321         | Introduction to Planetary and Stellar Astrophysics      | Physical laws; celestial mechanics; properties of planets, the sun, and other stars; formation and evolution of stars and planetary systems. Both AST 113 and 321 must be taken to secure SQ General Studies credit   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3     | SQ              | Prerequisite(s): MAT 266 or 271 with C or better; PHY 121 and 122 (or PHY 150) with C or better  |
| AST     | 322         | Introduction to Galactic and Extragalactic Astrophysics | Evolved stars, introduction to relativity, galaxies and interstellar matter, structure and dynamics of galaxies, cosmology. Both AST 114 and 322 must be taken to secure SQ General Studies credit.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3     | SQ              | Prerequisite(s): MAT 266 or 271 with C or better; PHY 121/122 with C or better or PHY 150 with C or better   |
| AST     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-4   |                 |  |
| AST     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1-4   |                 |  |
| AST     | 421         | Astrophysics I  | Selected astrophysical topics, including stellar evolution, star formation, interstellar medium, galactic structure, extragalactic astronomy, high-energy astrophysics, and cosmology.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3     |                 | Prerequisite(s): AST 321 or 322 with C or better; PHY 252 with C or better   |
| AST     | 422         | Astrophysics II   | Same range of astrophysical topics as for AST 421 but emphasizes different specific topics in a given year.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3     |                 | Prerequisite(s): AST 321 or 322 with C or better; PHY 252 with C or better   |
| AST     | 460         | Astrobiology  | Origin, early evolution, distribution, and future of life on Earth and elsewhere in the cosmos.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3     |                 | Prerequisite(s): AST 112 or BIO 182 or BIO 282 or GLG 102 or SES 122 with C or better; one 300-level course in AST or BIO or CHM or GLG or MIC or PHY or SES with C or better; Credit is allowed for only AST 460 or GLG 460 |
| AST     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-12  |                 |  |
| AST     | 492         | Honors Directed Study                                   | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| AST     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| AST     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-4   |                 |  |
| AST     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1-4   |                 |  |
| AST     | 497         | Honors Colloquium                                       | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| AST     | 498         | Pro-Seminar   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-7   |                 |  |
| AST     | 499         | Individualized Instruction                              | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-3   |                 |  |

|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|------------------------------|---|-------|-----------------|--|
| AST     | 522         | Stars and Interstellar Medium II               | Stellar structure, radiative transport, boundary conditions, equations of state, nuclear reactions, opacity, nucleosynthesis, chemical evolution of the galaxy, stellar evolution.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 523         | Stars and Interstellar Medium III              | Structure of the interstellar medium, gaseous nebulae, recombination theory, ionization fronts and shock waves, galactic magnetic fields, magnetohydrodynamics, molecular clouds.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 531         | Galaxies and Cosmology I                       | Structure and evolution of the Milky Way, stellar properties, populations and associations/clusters, interstellar medium, dark matter.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 532         | Galaxies and Cosmology II                      | Structure of galaxies and the nearby universe, Hubble sequence, kappa-space, stellar populations, active galaxies, galaxy environments.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 533         | Galaxies and Cosmology III                     | Issues in modern cosmology, the distance scale, cosmological parameters, cosmological tests, cosmic background radiation, early universe, galaxy formation and evolution.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 540         | Astronomical Instrumentation and Data Analysis | Studies a range of optical astronomical hardware including telescopes, digital detectors and instrument design and theory. Focuses on the use of CCDs in terms of operation, calibration, use, measurement, limitations, noise and signal, statistics, and preliminary understanding prior to data reduction. Discusses practical optical astronomical observing: the choice of filters and their design, planning your observing run, bringing your data home and the types of data you will need. Final class project requires the reduction and measurement of data using computers. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only AST 540 or AST 598 (Optical Astro Tech & Data) or AST 598 (Observing Instrumentation and Data Analysis) |
| AST     | 580         | Practicum                                      | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 584         | Internship                                     | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 590         | Reading and Conference                         | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 592         | Research                                       | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 592         | Research                                       | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 593         | Applied Project                                | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 594         | Conference and Workshop                        | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 595         | Continuing Registration                        | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 598         | Special Topics                                 | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 692         | Research                                       | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 700         | Research Methods                               | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 780         | Practicum                                      | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 783         | Fieldwork                                      | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 784         | Internship                                     | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 790         | Reading and Conference                         | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 791         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 792         | Research                                       | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| AST     | 795         | Continuing Registration                        | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

| AST     | 799         | Dissertation                | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.  | Y                 | LEC               | Y               | Z2            | Liberal Arts and Sciences   | School of Earth and Space Exploration            | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                  |
| ASU     | 10          | Connect: ASU Orientation    | Students enrolled in the Starbucks College Achievement Plan will learn about ASU's mission as the New American University, discover the value of a university degree from a research institution, discuss academic integrity, explore the tools used in online courses, and identify key components of a work/life/school balance plan.  | N                 | LEC               | N               | NOG           | Office of the Provost       | Online & Extended Campus                         | 0     |                 |   |
| ASU     | 11          | ASU Online Orientation      | Students enrolled in ASU Online Orientation will learn about ASU and its mission as the New American University, discover the value of a university degree from a research institution, discuss academic integrity, explore the tools used in online courses, and identify key components of a work/life/school balance plan.  | N                 | LEC               | N               | NOG           | Office of the Provost       | Online & Extended Campus                         | 0     |                 |   |
| ASU     | 19          | Jump Start                  | One-week program for incoming first-year students to ASU and is designed to set them up for academic success. Introduces the tools and processes that support their journey. Students learn how to connect with other students via collaborative environments.   | N                 | LEC               | N               | YGB           | University College          | University Academic Success Programs             | 0     |                 | Prerequisite(s): Jump Start or SPIRIT student                                   |
| ASU     | 42          | Online Military Orientation | Active duty and veteran students enrolled in ASU 42 will explore ASU academic, veteran, and career resources, discover the value of a university degree from a research institution, discuss academic integrity, explore the tools used in online courses, and craft a plan balancing work, school, and life.  | N                 | LEC               | N               | NOG           | Office of the Provost       | Online & Extended Campus                         | 0     |                 |   |
| ASU     | 150         | The LEAD Project I          | Students develop in academic areas while also gaining essential career skills in creativity, problem solving, and teamwork. Students learn how to think critically and manage a project from inception to completion. Through course discussions and assignments, students examine connections between their work in other courses and ASU 150. This is the first part of a two-part curriculum which continues into the spring semester. Separate grades will be issued for each semester.  | N                 | LEC               | N               | GNA           | University College          | Dean, University College                         | 1     |                 | Credit is allowed for only ASU 150 or ASU 194 (The LEAD Project I) or UNI 120   |
| ASU     | 151         | The LEAD Project II         | Students continue to develop in academic areas while gaining essential career skills in creativity, problem solving and teamwork. Students learn how to think critically and manage a project from inception to completion. Through course discussions and assignments, students examine connections between their work in other courses and this course. Second part of a two-part curriculum, which continues from the fall semester. Separate grades are issued for each semester.  | N                 | LEC               | N               | GNA           | University College          | Dean, University College                         | 1     |                 | Credit is allowed for only ASU 151 or ASU 194 (The LEAD Project II)             |
| ASU     | 101-AEE     | The ASU Experience          | Students will learn about ASU's mission as the New American University, the importance and benefits of an entrepreneurial approach to problem solving, solutions to sustainability challenges, and the importance of social embeddedness. Additionally, through various course discussions and assignments, students will examine the concept of academic integrity and its potential impact on their future, gain awareness of the value of engaging in research activities, and learn about taking an interdisciplinary perspective. | N                 | LEC               | N               | OPT           | Ira A. | ATC     | 230         | Fundamentals of Air Traffic Management   | Introduces the manuals, procedures, maps, charts, and regulations used by air traffic controllers in the National Airspace System (NAS).  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering      | Aviation Programs                             | 3     |                 | Prerequisite(s): AMT 201 with C or better  |
| ATC     | 331         | Tower Operations                         | Provides knowledge of air traffic control procedures, phraseology, equipment, and aircraft separation requirements used in ATC towers.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Aviation Programs                             | 3     |                 | Prerequisite(s): ATC 230 with C or better  |
| ATC     | 332         | TRACON Operations                        | Provides knowledge of air traffic control procedures, phraseology, equipment, and aircraft separation requirements used in FAA TRACONS.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Aviation Programs                             | 3     |                 | Prerequisite(s): ATC 230 with C or better  |
| ATC     | 333         | En Route Operations                      | Provides knowledge of air traffic control procedures, phraseology, equipment, and aircraft separation requirements used in FAA ATC En Route Centers.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Aviation Programs                             | 3     |                 | Prerequisite(s): ATC 230 with C or better  |
| ATC     | 431         | Tower Operations and Procedures          | Opportunity to operate in tower simulator environment to run scenarios for local and ground control and flight data/clearance delivery.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Aviation Programs                             | 3     |                 | Prerequisite(s): ATC 331 with C or better  |
| ATC     | 432         | TRACON Operations and Procedures         | Opportunity to operate in tower simulator environment to run scenarios for local and ground control and flight data/clearance delivery.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Aviation Programs                             | 3     |                 | Pre-requisite(s): ATC 332 with C or better   |
| ATC     | 433         | En Route Operations and Procedures       | Opportunity to operate in tower simulator environment to run scenarios for local and ground control and flight data/clearance delivery.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Aviation Programs                             | 3     |                 | Prerequisite(s): ATC 333 with C or better  |
| ATC     | 484         | Internship                               | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering      | Aviation Programs                             | 1-12  |                 | Prerequisite(s): minimum junior standing   |
| ATC     | 491         | Air Traffic Management Capstone          | Overview of problem solution tools, quality metrics, and current technology initiatives related to air traffic management and related industry problems in a project environment. Student projects focus on airport and airspace requirements. Student teams work with partners from industry, government, and academia to define project objectives and work toward a formal recommendation to help solve the specified problem. Class discussions focus on project management, organizational structures, strategic initiatives, strategy implementation and execution. Uses review and analysis of current industry problems and resolutions to provide examples of practical solutions. | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Aviation Programs                             | 3     |                 | Prerequisite(s): ATC 331 with C or better; ATC 332 with C or better; ATC 333 with C or better; Pre- or corequisite(s): ATC 431 with C or better if completed; ATC 432 with C or better if completed; ATC 433 with C or better if completed |
| ATC     | 494         | Special Topics                           | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | GNA           | Ira A. Fulton Engineering      | Aviation Programs                             | 1-4   |                 |  |
| ATE     | 191         | First-Year Seminar                       | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 1-3   |                 |  |
| ATE     | 242         | Introduction to Architectural Technology | Materials and methods of construction. Aesthetic, code and construction costs. Exposure to building information management (BIM).   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 | Prerequisite(s): Architectural Studies major. Corequisite(s): ALA 226  |
| ATE     | 294         | Special Topics                           | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 1-4   |                 |  |
| ATE     | 361         | Architectural Technology I               | Introduces load distribution on structures. Static analysis of determinant beams, trusses, arches, and rigid frames. Computer applications.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 | Corequisite(s): ADE 321  |
| ATE     | 362         | Architectural Technology II              | Strength of materials. Stresses in beams and columns. Thermal effects on structures. Analysis, design, and detailing of wood structural systems.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 | Prerequisite(s): ATE 361 with C or better  |
| ATE     | 451         | Building Systems I                       | Principles of solar radiation, heat and moisture transfer, and environmental control systems as form influences. Energy-conscious design.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 | Co-requisites: ADE 421   |
| ATE     | 452         | Architectural Technology III             | Architectural design implications of heating, ventilation, and air conditioning systems. Principles of lighting, daylighting, and acoustics, and their applications.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 | Prerequisite(s): ATE 362 with C or better; Corequisite(s): ADE 422   |
| ATE     | 484         | Internship                               | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School                             | 1-12  |                 |  |
| ATE     | 494         | Special Topics                           | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 1-4   |                 |  |
| ATE     | 498         | Pro-Seminar                              | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 1-7   | L               |  |
| ATE     | 499         | Individualized Instruction               | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | IND               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School                             | 1-3   |                 |  |
| ATE     | 500         | Research Methods                         | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student  |
| ATE     | 521         | Building Environmental Science           | Scientific principles relating to comfort and environmental control. Heat and moisture transfer. Solar/natural energies for heating, cooling, and lighting.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 | Pre-requisites: Bldg Design MS, Master of Architecture, Master of Urban Design, or Master of Landscape Architecture student  |
| ATE     | 550         | Passive Heating and Cooling              | Theory, analysis, and application of passive and low-energy systems in order to maximize comfort and minimize energy consumption in buildings.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 | Pre-requisites: Bldg Design MS, Master of Architecture, Master of Urban Design, or Master of Landscape Architecture student  |
| ATE     | 553         | Architectural Technology IV              | Design and integration of building systems, including mechanical, electrical, plumbing, security, communications, fire protection, and transportation.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 | Prerequisite(s): Master of Architecture student; Corequisite(s): ADE 521; ATE 563  |
| ATE     | 556         | Architectural Technology V               | Comprehensive design development through the understanding and integration of building materials and systems.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 | Corequisite(s): ADE 522; APH 505   |
| ATE     | 560         | Building Energy Analysis                 | Computer simulation of building thermal behavior. Software review. Detailed study of selected simulation models using case study projects.  | N                 | LAB               | N               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 | Pre-requisites: Bldg Design MS, Master of Architecture, Master of Urban Design, or Master of Landscape Architecture student  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department        | Units | General Studies | Requirements  |
|---------|-------------|-------------------------------|---|-------------------|-------------------|-----------------|---------------|------------------------------|-------------------|-------|-----------------|---|
| ATE     | 562         | Experimental Evaluation       | Instrumentation, measurement and computational techniques for analysis of building components, and assessment of thermal and luminous performance.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School | 3     |                 | Pre-requisites: Bldg Design MS, Master of Architecture, Master of Urban Design, or Master of Landscape Architecture student |
| ATE     | 563         | Architectural Technology VI   | Analysis, design, and detailing of steel buildings and frames. Lateral analysis of small rigid and braced frame systems.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School | 3     |                 | Prerequisite(s): Master of Architecture student   |
| ATE     | 580         | Practicum                     | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Pre-requisites: Bldg Design MS, Master of Architecture, Master of Urban Design, or Master of Landscape Architecture student |
| ATE     | 582         | Environmental Control Systems | Heating, ventilation, and air-conditioning systems. Loads, psychrometrics, refrigeration cycle, air/water distribution, controls, energy performance standards, and utility rates.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School | 3     |                 | Pre-requisites: Bldg Design MS, Master of Architecture, Master of Urban Design, or Master of Landscape Architecture student |
| ATE     | 583         | Fieldwork                     | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ATE     | 584         | Internship                    | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ATE     | 590         | Reading and Conference        | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Pre-requisites: Herberger Institute of Design and the Arts Graduate student   |
| ATE     | 591         | Seminar                       | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Pre-requisites: Herberger Institute of Design and the Arts Graduate student   |
| ATE     | 592         | Research                      | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Pre-requisites: Herberger Institute of Design and the Arts Graduate student   |
| ATE     | 593         | Applied Project               | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Pre-requisites: Herberger Institute of Design and the Arts Graduate student   |
| ATE     | 594         | Conference and Workshop       | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | PRA               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Pre-requisites: Herberger Institute of Design and the Arts Graduate student   |
| ATE     | 595         | Continuing Registration       | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Herberger Inst Design & Arts | The Design School | 1     |                 | Pre-requisites: Herberger Institute of Design and the Arts Graduate student   |
| ATE     | 598         | Special Topics                | Topical courses not offered in regular course rotation—e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-4   |                 | Pre-requisites: Herberger Institute of Design and the Arts Graduate student   |
| ATE     | 599         | Thesis                        | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Herberger Institute of Design and the Arts Graduate student   |
| ATE     | 691         | Seminar                       | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Pre-requisites: Herberger Institute of Design and the Arts Graduate student   |
| AVC     | 191         | First-Year Seminar            | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-3   |                 |   |
| AVC     | 194         | Special Topics                | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-4   |                 |   |
| AVC     | 294         | Special Topics                | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-4   |                 |   |
| AVC     | 394         | Special Topics                | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-4   |                 |   |
| AVC     | 484         | Internship                    | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 |   |

| Subject | Catalog Nbr | Course Title                               | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department                                  | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|------------------------------|---|-------|-----------------|--|
| AVC     | 595         | Continuing Registration                    | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Herberger Inst Design & Arts | The Design School                           | 1     |                 | Pre-requisites: Herberger Institute of Design and the Arts Graduate student  |
| AVC     | 598         | Special Topics                             | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                           | 1-4   |                 | Pre-requisites: Herberger Institute of Design and the Arts Graduate student  |
| AVC     | 599         | Thesis                                     | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing. Small course emphasizing student-faculty discussion and interaction.  | Y                 | RSC               | Y               | Z2            | Herberger Inst Design & Arts | The Design School                           | 1-12  |                 | Pre-requisites: Herberger Institute of Design and the Arts Graduate student  |
| BCH     | 191         | First-Year Seminar                         | Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 1-3   |                 |  |
| BCH     | 294         | Special Topics                             | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 1-4   |                 |  |
| BCH     | 341         | Physical Chemistry with a Biological Focus | Thermodynamics, equilibrium, states of matter, solutions and chemical kinetics with a focus on biological systems. For students in biochemical, premedical, biomedical and educational curricula.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | School of Molecular Sciences                | 3     |                 | Prerequisite(s): CHM 114 or 116 or 118 with C or better; CHM 231 or 233 or 333 with C or better; MAT 251 or 265 or 270 with C or better; PHY 101 or 112 or 131 with C or better; Credit is allowed for only BCH 341 or CHM 341 |
| BCH     | 361         | Advanced Principles of Biochemistry        | Advanced consideration of the structures, properties, and functions of proteins, enzymes, nucleic acids, carbohydrates, and lipids; principles and theory of the utilization and synthesis of these materials by living systems, and the relationship of these processes to energy production and utilization. The course is recommended for pre-health students. No credit for Biochemistry majors.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts    | 3     |                 | Prerequisite(s): CHM 231 with C or better OR Pre- or corequisite(s): CHM 234 or CHM 334 with C or better if completed  |

| BCH     | 498         | Pro-Seminar                                | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 1-7   |                 |  |
| BCH     | 499         | Individualized Instruction                 | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | School of Molecular Sciences                | 1-3   |                 |  |
| BCH     | 501         | Current Topics in Biochemistry             |   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                                   | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|---|
| BCH     | 520         | Chemical Biology   | Chemical biology, broadly defined, is the application of chemical tools toward the study biological problems. The purpose of this class is to provide the foundation for translational research involving cross-disciplinary approaches to tackling significant problems in the biosciences. This one-semester class will cover topics ranging from traditional molecular biology and biochemistry to state-of-the-art techniques in genomics and proteomics. Particular emphasis will be placed on modern concepts in enzymology. The class will be taught using a combination of current literature and text-based materials. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences                 | 3     |                 | Pre-requisite: Graduate students (degree and nondegree); Credit is allowed for only BCH or CHM 520  |
| BCH     | 561         | Advanced Topics in Biochemistry                          | Topics selected from emerging areas of biochemistry based primarily on current literature.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences                 | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BCH     | 564         | Bionanotechnology  | The use of biomolecules, bioelectronics, and biomedicine for applications in nanotechnology.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences                 | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BCH     | 568         | Molecular Mechanisms of Photosynthesis                   | Structure and function of photosynthetic complexes; mechanism of energy conversion in plants, bacteria, and model systems.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences                 | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BCH     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences                 | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BCH     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Molecular Sciences                 | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BCH     | 593         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Molecular Sciences                 | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BCH     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences                 | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BCH     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences | School of Molecular Sciences                 | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BCH     | 792         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Molecular Sciences                 | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BCH     | 799         | Dissertation   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences | School of Molecular Sciences                 | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BCS     | 101         | Elementary Serbo-Croatian                                | Structural grammar, basic vocabulary; introduction and reinforcement of aural/oral, reading, and writing skills.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 4     | G               |   |
| BCS     | 102         | Elementary Serbo-Croatian                                | See BCS 101.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 4     | G               |   |
| BCS     | 201         | Intermediate Serbo-Croatian                              | Systematic review of grammar. Development of vocabulary through reading and writing. Drill in aural/oral skills.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 4     |                 |   |
| BCS     | 202         | Intermediate Serbo-Croatian                              | See BCS 201.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 4     |                 |   |
| BCS     | 311         | Bosnian/Croatian/Serbian Composition and Conversation I  | Develops writing ability and oral expression.   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): BCS 202 with C or better; Credit is allowed for only BCS 311, 394 (Serbo-Croatian Conv & Comp I) or SLC 394 (Serbo-Croatian Comp/Conv) |
| BCS     | 312         | Bosnian/Croatian/Serbian Composition and Conversation II | Develops writing ability and oral expression.   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): BCS 311 with C or better; Credit is allowed for only BCS 312 or 394 (Bosnian/Croatian/Serbian Composition and Conversation II)         |
| BCS     | 394         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-4   |                 |   |
| BCS     | 495         | Serbo-Croatian for Heritage Speakers                     | Generates professional proficiency by developing communicative and written competency in standard literary Serbo-Croatian.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-6   |                 |   |
| BDE     | 590         | Reading and Conference                                   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Harrington Bioengineering Program            | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BDE     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Harrington Bioengineering Program            | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BDE     | 595         | Continuing Registration                                  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | N                 | RSC               | Y               | Z3            | Ira A. Fulton Engineering | Harrington Bioengineering Program            | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BDE     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program            | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BDE     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering | Harrington Bioengineering Program            | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BDE     | 692         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program            | 1-12  |                 |   |
| BDE     | 700         | Research Methods   | Course on research methods in a specific discipline.  | Y                 | RSC               | Y               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program            | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BDE     | 701         | Fundamentals of Biological Design I                      | Training in the essentials of fields underlying interdisciplinary research in the biosciences and in the integration of multiple disciplines in use-inspired research. Modules concentrate on key concepts and current questions in the biological sciences, physical sciences, and engineering.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program            | 9     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BDE     | 702         | Fundamentals of Biological Design II                     | Emphasizes the integrative areas of computational bioinformatics, systems biology, and synthetic biology, and their application in biomedical research.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program            | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                       | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department                                  | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|------------------------------|---|-------|-----------------|---|
| BDE     | 721         | Integrative Research                               | Develops comprehensive solutions to societal problems by small interdisciplinary teams of students, including a proposal for research in an integrated science area. Covers issues of intellectual property, commercialization, societal impact and value, project management, product design, and historical examples of disruptive technological innovations.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Harrington Bioengineering Program           | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BDE     | 722         | Research Design                                    | Writing and presentation of a research proposal in the form of a grant application, peer review sessions to provide feedback, examination of the grant review and funding process.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Harrington Bioengineering Program           | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BDE     | 751         | Teaching in Science                                | Guidance in teaching and exposition through assisting a faculty teaching mentor in the Biological Design core course and training in oral presentation skills, including instruction in how to effectively present posters and seminars and participation in outreach experiences in the community.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering    | Harrington Bioengineering Program           | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BDE     | 780         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Ira A. Fulton Engineering    | Harrington Bioengineering Program           | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BDE     | 791         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering    | Harrington Bioengineering Program           | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BDE     | 792         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering    | Harrington Bioengineering Program           | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BDE     | 799         | Dissertation                                       | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering    | Harrington Bioengineering Program           | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 100         | The Living World                                   | Principles of biology. Cannot be used for major credit in the biological sciences.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts    | 4     | SQ              |   |
| BIO     | 100         | The Living World                                   | Principles of biology. Cannot be used for major credit in the biological sciences.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     | SQ              |   |
| BIO     | 100         | The Living World                                   | Principles of biology. Cannot be used for major credit in the biological sciences.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 4     | SQ              |   |
| BIO     | 108         | Concepts in Plant Biology                          | Introduces concepts of plant biology that are of human relevance using commercially important, edible, and medicinal plants as examples. Not for majors in the biological sciences.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     | SQ              |   |
| BIO     | 112         | Discovery: Why Sex?                                | "Why?" is a question that animates the youngest of children to the most seasoned of scientists. The acts of asking and answering "Why?" highlight the integrated nature of scientific knowledge and discovery. Demonstrates scientific disciplines are not walled cities in which knowledge is neatly segregated from lines of inquiry and knowledge in other disciplines. Instead, scientific concepts weave throughout and between disciplines and scientists increasingly rely on colleagues from different scientific fields to find answers to scientific questions. So our journey to find responses to the question "Why Sex?" takes us not just to biology, but also to earth science and to physics. Along the way, scientists are linked together not only through concepts that crosscut the disciplines, but also in their reliance upon key scientific skills such as the ability to observe, think critically, measure, gather data and communicate their findings. | N                 | LEL               | N               | GNA           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     | SG              | Credit is allowed for only BIO 112 or BIO 194 (Discovery: Why Sex?)   |
| BIO     | 113         | Dinosaurs  | Principles of evolution, ecology, behavior, anatomy and physiology using dinosaurs and other extinct life as case studies. Geological processes and the fossil record. Cannot be used for major credit in the biological sciences.  | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 4     | SG              | Credit is allowed for only BIO 113 or LSC 294 t 2 (Dinosaurs)   |
| BIO     | 130         | Introduction to Environmental Science              | Introduces the interconnected nature of Earth's hydrosphere, lithosphere (soils and rocks), atmosphere, and biosphere.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 4     | SQ              | Credit is allowed for only BIO 130 or ABS 130   |
| BIO     | 140         | Greek and Latin Roots in Bioscientific Terminology | Introduces students to the ancient Greek and Latin root words most commonly used in biological, medical, and other scientific terminology, and gives practice identifying them in context. The knowledge of these root words enables students to memorize with greater ease and increased retention the bioscientific terminology they encounter in other coursework as well as in their medical or scientific profession.  | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 |   |
| BIO     | 151         | Biological Thinking                                | The science behind the science of life. Masters the core concepts of modern biology, understands the scientific discoveries that lie behind those concepts, and develops scientific reasoning skills so that students can contribute discoveries of their own.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     | SQ              | Prerequisite(s): Life Sciences student; Mathematics Placement Test with a score below 50 or ALEKS score below 61; Credit is allowed for only BIO 100 or BIO 151 |
| BIO     | 181         | General Biology I                                  | Biological concepts emphasizing principles and the interplay of structure and function at the molecular, cellular, and organismal levels. Intended for life sciences, biology, and health-related science majors.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts    | 4     | SQ              | Credit is allowed for only BIO 181 or BIO 281 or BIO 282  |
| BIO     | 181         | General Biology I                                  | Biological concepts emphasizing principles and the interplay of structure and function at the molecular, cellular, and organismal levels. Intended for life sciences, biology, and health-related science majors.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     | SQ              | Credit is allowed for only BIO 181 or BIO 281 or BIO 282  |
| BIO     | 181         | General Biology I                                  | Biological concepts emphasizing principles and the interplay of structure and function at the molecular, cellular, and organismal levels. |---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|------------------------------|---|-------|-----------------|---|
| BIO     | 191         | First-Year Seminar  | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1-3   |                 | Pre-requisites: Freshman standing; Maximum 25 hours   |
| BIO     | 194         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1-4   |                 |   |
| BIO     | 201         | Human Anatomy and Physiology I                            | Studies the structure and function of the human body. Topics include cells, tissues, integumentary system, skeletal system, muscular system, and nervous system. Cannot be used for major credit in the life sciences.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts    | 4     | SG              |   |
| BIO     | 201         | Human Anatomy and Physiology I                            | Studies the structure and function of the human body. Topics include cells, tissues, integumentary system, skeletal system, muscular system, and nervous system. Cannot be used for major credit in the life sciences.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     | SG              |   |
| BIO     | 201         | Human Anatomy and Physiology I                            | Studies the structure and function of the human body. Topics include cells, tissues, integumentary system, skeletal system, muscular system, and nervous system. Cannot be used for major credit in the life sciences.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 4     | SG              |   |
| BIO     | 202         | Human Anatomy and Physiology II                           | Studies the structure and function of the human body. Topics include cardiovascular, respiratory, lymphatic/immune, endocrine, renal, digestive, and reproductive systems. Cannot be used for major credit in the life sciences.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts    | 4     | SG              | Prerequisite(s): BIO 201 with C or better   |
| BIO     | 202         | Human Anatomy and Physiology II                           | Studies the structure and function of the human body. Topics include cardiovascular, respiratory, lymphatic/immune, endocrine, renal, digestive, and reproductive systems. Cannot be used for major credit in the life sciences.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     | SG              | Prerequisite(s): BIO 201 with C or better   |
| BIO     | 202         | Human Anatomy and Physiology II                           | Studies the structure and function of the human body. Topics include cardiovascular, respiratory, lymphatic/immune, endocrine, renal, digestive, and reproductive systems. Cannot be used for major credit in the life sciences.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 4     | SG              | Prerequisite(s): BIO 201 with C or better   |
| BIO     | 281         | Conceptual Approaches to Biology for Majors I             | Covers the themes and concepts that underlie the molecular biology of cells and multicellular organisms as well as the biological processes that shape the diversity of organisms on our planet.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     | SQ              | Prerequisite(s): School of Life Sciences student; Pre- or corequisite(s): STP 226 or 231 with C or better if completed; Credit is allowed for only BIO 181, BIO 182 or BIO                                |
| BIO     | 282         | Conceptual Approaches to Biology for Majors II            | Builds upon established conceptual foundations, covers the themes and concepts underlying organismal biology, with an emphasis on physiology and ecology.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     |                 | Prerequisite(s): School of Life Sciences student; Credit is allowed for only BIO 181 or BIO 182 or BIO 282  |
| BIO     | 289         | School of Life Sciences Undergraduate Research Apprentice | Students gain exposure to contemporary issues in research excellence, mentoring skills, and professional development in this seminar. Enriches individual lab research experiences students by bringing them together in a peer-community environment. Introduces students to the resources they have at their disposal (e.g. on campus, online) to facilitate research productivity and career planning. Rigorously evaluates their research processes and products, in light of their eventual professional plans. | N                 | SEM               | Y               | YGB           | Liberal Arts and Sciences    | School of Life Sciences                     | 1     |                 | Co-requisite: BIO 310, or BIO 494 (Advanced Study Practicum), or BIO/HPS/MBB/MIC/PLB 484/492/493/495/496/499, or MIC 401  |
| BIO     | 294         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1-4   |                 |   |
| BIO     | 300         | Natural History of Arizona                                | Plant and animal communities of Arizona. Cannot be used for major credit in the biological sciences. Both BIO 300 and BIO 301 must be taken to secure SG General Studies credit  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     | SG              |   |
| BIO     | 301         | Field Natural History                                     | Organisms and their natural environment. Cannot be used for major credit in the biological sciences. Both BIO 300 and BIO 301 must be taken to secure SQ General Studies credit  | N                 | PRA               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1     | SG              | Pre- or corequisite(s): BIO 300 or LSC 310 with C or better if completed  |
| BIO     | 302         | Cancer--Mother of All Diseases                            | History of cancer; disease statistics; pathogenesis; diagnosis, treatment and prevention; case studies.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     | L               | Prerequisite(s): BIO 181 with C or better; BIO 182 with C or better OR BIO 282 with C or better   |
| BIO     | 303         | Plant Diversity and Evolution                             | An examination of the major groups of land plants, emphasizing evolutionary history, comparative data, and phylogenetic methods.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     | L or SG         | Prerequisite(s) with C or better: BIO 181 or BIO 188 and BIO 182 or BIO 187 or PLB 200 OR BIO 281 with C or better and BIO 282 with C or better; Credit is allowed for only BIO 303 or LSC 307 or PLB 300 |
| BIO     | 304         | Plants and Civilization                                   | Plants and plant products used by people throughout the world. Cultivation, processing, and uses in modern life (beverages, fibers, foods, medicinals, and perfumes).  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s) with C or better: BIO 181 (or BIO 188) and BIO 182 (or BIO 187 or both PLB 200 and 201) OR BIO 281 and 282; Credit is allowed for only BIO 304 or PLB                                     |
| BIO     | 305         | Biology Behind the Crime Scene                            | Explores biological technology behind forensic techniques like fingerprinting, Polymerase Chain Reaction (PCR), and paternity testing.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 4     | SG              | Pre-requisites: Minimum Sophomore standing  |
| BIO     | 306         | Modes of Biological Thought                               | Involves students in the process of biological discovery to examine how we identify truth in biological science.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     | L               | Pre-requisites: ENG101 or ENG 105 with C or better; BIO181 (or BIO188) and BIO182 (or BIO187) with C or better  |
| BIO     | 307         | Dinosaurs   | Principles of evolution, ecology, behavior, anatomy, and physiology using dinosaurs and other extinct life as case studies. Geological processes and the fossil record. Weekend field trip required. Cannot be used for major credit in the biological sciences.   | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 4     |                 | Pre-requisite: Minimum sophomore standing; Credit is allowed for only BIO 307 or LSC 294 (Dinosaurs)  |
| BIO     | 308         | Plant Physiology  | Concepts of plant function: carbon metabolism, energy acquisition, regulation of growth and development, stress responses, and water and nutrient uptake.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     |                 | Prerequisite(s) with C or better: BIO 181 (or BIO 188) and BIO 182 (or BIO 187 or both PLB 200 and 201) OR BIO 281 and 282; CHM 116; Credit is allowed for only BIO 308 or PLB 308                        |
| BIO     | 309         | Plant Anatomy   | Development and mature structure of tissues of vascular plants; patterns and modifications of the leaf, stem, root, and flower.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 or PLB 200 with C or better OR BIO 281 with C or better; BIO 282 with C or   |
| BIO     | 310         | Special Problems and Techniques                           | Qualified undergraduates may investigate a specific biological problem under the direction of a faculty member.  | N                 | IND               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1-3   |                 |   |
| BIO     | 311         | Biology and Society                                       | Explores interactions between biological sciences and society, e.g., biomedical, environmental, ethical, historical, legal, philosophical, political, and social issues.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 (or PLB 200) with C or better OR BIO 281 with C or better; BIO 282 with C or better; Credit is allowed for only BIO 311 or HPS 340                     |
| BIO     | 312         | Bioethics   | Critical examination of moral questions arising in biomedical contexts, particularly due to new technologies and scientific discoveries.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     | HU              | Prerequisite(s): minimum 45 hours. Credit is allowed for only BIO 312, IAS 340, or PHI 320  |

|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|------------------------------|---|-------|-----------------|--|
| BIO     | 313         | The Flora of Arizona                            | Overview of Arizona's flora and plant communities; emphasizes identification, classification, and natural history of the state's native vascular species.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     |                 | Prerequisite(s) with C or better: BIO 181 (or BIO 188) and BIO 182 (or BIO 187 or both PLB 200 and 201) OR BIO 281 and 282; Credit is allowed for only BIO 313 or PLB  |
| BIO     | 314         | Research Colloquium in Biology and Society I    | Develops critical thinking abilities, research methods, and writing skills for research in the interactions between biological sciences and society. Both BIO 314 & 414 must be taken to secure L General Studies designation.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 2     | L               | Prerequisite(s): Biological Sciences (Biology and Society) BS majors   |
| BIO     | 315         | Science, Values, and the Public                 | Examines science, communication, and a range of public opinion to understand science as a discourse of profound social power.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; Minimum 35 hours; Credit is allowed for only ENG 370 or BIO 315  |
| BIO     | 316         | History of Biology: Conflicts and Controversies | Focuses on 19th and 20th centuries, considering biology as a discipline. Evolution, problems of heredity, development, and cell theory.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     | H               | Credit is allowed for only BIO 316 or HPS 330  |
| BIO     | 317         | History of Science                              | Development and application of scientific thinking from the 18th century to the present.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     | HU & H          | Prerequisite(s): minimum 45 hours; Credit is allowed for only BIO 317 or HPS 323   |
| BIO     | 318         | History of Medicine                             | Scientific study of the human body, changing theories of disease, evolution of practical opinions on treatment, and the emerging institutionalization of medical practice.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     | HU & H          | Credit is allowed for only BIO 318 or HPS 331  |
| BIO     | 320         | Fundamentals of Ecology                         | Organization, functioning, and development of ecological systems; energy flow; biogeochemical cycling; environmental relations; population dynamics.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts    | 3     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 (or PLB 200) with C or better OR BIO 281 with C or better; BIO 282 with C or better; CHM 116 or 118   |
| BIO     | 320         | Fundamentals of Ecology                         | Organization, functioning, and development of ecological systems; energy flow; biogeochemical cycling; environmental relations; population dynamics.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 (or PLB 200) with C or better OR BIO 281 with C or better; BIO 282 with C or better; CHM 116 or 118   |
| BIO     | 320         | Fundamentals of Ecology                         | Organization, functioning, and development of ecological systems; energy flow; biogeochemical cycling; environmental relations; population dynamics.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 (or PLB 200) with C or better OR BIO 281 with C or better; BIO 282 with C or better; CHM 116 or 118   |
| BIO     | 321         | Introductory Ecology Laboratory                 | Lab and field observations and experiments to test current concepts and theories in ecology.  | N                 | LAB               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 2     |                 | Pre- or corequisite(s): BIO 320 with C or better if completed  |
| BIO     | 322         | Conservation of Biodiversity                    | Species-level approaches to the protection, management, and restoration of biological resources from scientific and policy perspectives.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 (or PLB 200) with C or better OR BIO 281 with C or better; BIO 282 with C or better   |
| BIO     | 323         | Ecosystem Restoration and Management            | Ecosystem-level approaches to the protection, management, and restoration of biota and ecosystem processes from local to global scales.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 (or PLB 200) with C or better OR BIO 281 with C or better; BIO 282 with C or better   |
| BIO     | 324         | Environmental Ethics                            | Examines a full range of philosophical positions pertaining to our moral relationship to the natural world; anthropocentrism, individualism, biocentrism.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     | HU              | Credit is allowed for only BIO 324 or PHI 310  |
| BIO     | 325         | Oceanography                                    | Introduces marine geology, chemistry, and physical and biological oceanography. Methods of oceanic exploration, environmental and social aspects of oceans.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 100, BIO 182, BIO 282, GLG 101, or SES 121 with C or better; CHM 101, 113, or 114 with C or better; Credit is allowed for only BIO 325 or CHM 385 or GLG 325  |
| BIO     | 327         | Evolution of Human Behavior                     | Examines how evolutionary theory informs our understanding of human behavior, psychology and culture. Explores evolutionary explanations of human behavioral variation and cultural diversity and the influence of natural selection on shaping human cognition. Topics include nepotism, economic decisions, behavioral strategies throughout the life course, mate choice and sexual behavior, perception and judgment, motivation and emotions, social learning and culture, cooperation and prosociality, interpersonal violence and warfare, and norms and moral sentiments. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): ASM 104, BIO 181 or 282 with C or better; Credit is allowed for only ASM 342 or BIO 327   |
| BIO     | 331         | Animal Behavior                                 | Theories of evolutionary, genetic, physiological, and ecological bases of animal behavior.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s) with C or better: BIO 181; BIO 182 OR BIO 281; 282; Credit is allowed for only BIO 331 or LSC 331  |
| BIO     | 331         | Animal Behavior                                 | Theories of evolutionary, genetic, physiological, and ecological bases of animal behavior.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s) with C or better: BIO 181; BIO 182 OR BIO 281; 282; Credit is allowed for only BIO 331 or LSC 331  |
| BIO     | 340         | General Genetics                                | Science of heredity and variation.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts    | 4     |                 | Prerequisite(s) with C or better: BIO 181 and 182 (or PLB 200) OR BIO 181 (or BIO 281 or MBB 245) and MBB 247 OR BIO 281 and 282; Non-Molecular Biosciences and Biotechnology majors only; Credit is allowed for only BIO 340 or MBB 347 |
| BIO     | 340         | General Genetics                                | Science of heredity and variation.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     |                 | Prerequisite(s) with C or better: BIO 181 and 182 (or PLB 200) OR BIO 181 (or BIO 281 or MBB 245) and MBB 247 OR BIO 281 and 282; Non-Molecular Biosciences and Biotechnology majors only; Credit is allowed for only BIO 340 or MBB 347 |
| BIO     | 340         | General Genetics                                | Science of heredity and variation.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 4     |                 | Prerequisite(s) with C or better: BIO 181 and 182 (or PLB 200) OR BIO 181 (or BIO 281 or MBB 245) and MBB 247 OR BIO 281 and 282; Non-Molecular Biosciences and Biotechnology majors only; Credit is allowed for only BIO 340 or MBB 347 |
| BIO     | 342         | General Genetics Laboratory                     | Explores general principles of inheritance with special reference to Mendelian, molecular, and computational genetics via lab experiments.  | N                 | LAB               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 2     |                 | Pre- or corequisite(s): BIO 340 with C or better if completed  |
| BIO     | 343         | Genetic Engineering and Society                 | Introduces genetic engineering, with emphasis on applications (transgenic plants and animals, cloning, vaccines, therapeutics, and diagnostics).  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     | L               | Prerequisite(s): MBB 347 or BIO 340 with C or better; Credit is allowed for only BIO 343 or MBB 343  |
| BIO     | 344         | Origins, Evolution, and Creation                | History of opposition to evolutionary thinking with special reference to American creationism.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): Credit is only allowed for BIO 344 or HPS 311 Pre-regs for BIO 344  |
| BIO     | 345         | Evolution                                       | Processes of adaptive change and speciation in sexual populations.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts    | 3     |                 | Pre- or corequisite(s): BIO 340 or LSC 347 or MBB 347 with C or better   |
| BIO     | 345         | Evolution                                       | Processes of adaptive change and speciation in sexual populations.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Pre- or corequisite(s): BIO 340 or LSC 347 or MBB 347 with C or better   |
| BIO     | 345         | Evolution                                       | Processes of adaptive change and speciation in sexual populations.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Pre- or corequisite(s): BIO 340 or LSC 347 or MBB 347 with C or better   |

| BIO     | 385         | Comparative Invertebrate Zoology                 | Characteristics, life cycles, adaptations, and evolution of invertebrate animals.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 with C or better OR BIO 281 with C or better; BIO 282 with C or better  |
| BIO     | 385         | Comparative Invertebrate Zoology                 | Characteristics, life cycles, adaptations, and evolution of invertebrate animals.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 4     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 with C or better OR BIO 281 with C or better; BIO 282 with C or better  |
| BIO     | 386         | General Entomology                               | Specialized focus on form, activities, and classification of insects.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 with C or better OR BIO 281 with C or better; BIO 282 with C or better  |
| BIO     | 389         | School of Life Sciences Undergraduate Researcher | While performing undergraduate research at ASU, students gain exposure to contemporary issues in research excellence, mentoring skills, and professional development. Goals include: enriching individual lab research experiences of each student by bringing them together in a peer-community environment; introducing students to the resources they have at their disposal (e.g., on campus, online) to facilitate research productivity and career planning; rigorously evaluating their research processes and products, in light of their eventual professional plans. | N                 | SEM               | Y               | YGB           | Liberal Arts and Sciences    | School of Life Sciences                     | 1     |                 | Prerequisite(s): School of Life Sciences majors; 3.00 GPA  |
| BIO     | 390         | Medical/Dental Field Placement                   | Field placement for students exploring a career in a health profession. Requires classroom sessions and fieldwork.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 |  |
| BIO     | 393         | Careers in Natural and Health Sciences           | This seminar course is designed to provide students with proficiency in analyzing career options and to help students explore the full range of careers that are open to those who major at the undergraduate level in the natural sciences. The course will include short presentations by professionals in a variety of fields, including environmental biology, biotechnology, business, education, and various health sciences. There will be ample opportunities for questions and personal interactions.   | N                 | LEC               | N               | YGB           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1     |                 | Pre-requisites: BIO 188 or BIO 182; Minimum 45 hours   |
| BIO     | 394         | Special Topics                                   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1-4   |                 |  |
| BIO     | 400         | Topics in Neuroscience                           | Covers in-depth important and emerging developments in neuroscience, emphasizing lectures that include readings of recent reviews and contemporary publications in peer-reviewed journals. Includes a significant writing component; students learn skills for writing scientific publications and grant applications.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 360 with C or better; Credit is allowed for only BIO 400 or KIN 400 or PSY 400 or SHS 400   |
| BIO     | 406         | Computer Applications in Biology                 | Computer analysis techniques in biology emphasizing data entry, management and analysis, and graphic portrayal.  | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 (or PLB 200) with C or better OR BIO 281 with C or better; BIO 282 with C or better                                       |
| BIO     | 410         | Techniques in Conservation Biology and Ecology   | Lecture, field, and laboratory experience in techniques used in conservation biology and ecology. Course is modular, with each module instructed by a discipline-specific expert (e.g., plant ecologist, mammal conservationist, soil ecologist).  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     | L               | Prerequisite(s): ENG 101, 105, or 107 with C or better; BIO 320 with C or better; BIO 322 or BIO 323 with C or better  |

|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|------------------------------|---|-------|-----------------|--|
| BIO     | 410         | Techniques in Conservation Biology and Ecology    | Lecture, field, and laboratory experience in techniques used in conservation biology and ecology. Course is modular, with each module instructed by a discipline-specific expert (e.g., plant ecologist, mammal conservationist, soil ecologist).   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     | L               | Prerequisite(s): ENG 101, 105, or 107 with C or better; BIO 320 with C or better; BIO 322 or BIO 323 with C or better  |
| BIO     | 411         | Quantitative Methods in Conservation and Ecology  | Quantitative methods in conservation ecology: develop mathematical models of ecological and natural resource systems and use the models to better understand and inform management of ecosystems.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     |                 | Prerequisite(s): BIO 320 or 322 with C or better; BIO 415 or STP 226 or STP 231 with C or better; MAT 210, 251, 265, or 270 with C or better   |
| BIO     | 412         | Conservation in Practice                          | Global biodiversity patterns, processes, and conservation; global environmental change; sustainable use of natural resources; emphasizing international approaches to conservation biology.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 322 with C or better; BIO 323 with C or better  |
| BIO     | 412         | Conservation in Practice                          | Global biodiversity patterns, processes, and conservation; global environmental change; sustainable use of natural resources; emphasizing international approaches to conservation biology.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): BIO 322 with C or better; BIO 323 with C or better  |
| BIO     | 414         | Research Colloquium in Biology and Society II     | Further develops critical thinking abilities, research methods, and writing skills for research in the interactions between biological sciences and society. Both BIO 314 & 414 must be taken to secure L General Studies designation.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1     | L               | Prerequisite(s): BIO 314 with C or better  |
| BIO     | 415         | Biometry  | Statistical methods applied to biological problems, design of experiments, estimation, significance, analysis of variance, regression, correlation, chi square, and bioassay; the use of computers.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     | CS              | Prerequisite(s): MAT 210, 251, 265 or 270 with C or better, or a 200 level statistics course (STP 226, or 231) with C or better  |
| BIO     | 415         | Biometry  | Statistical methods applied to biological problems, design of experiments, estimation, significance, analysis of variance, regression, correlation, chi square, and bioassay; the use of computers.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 4     | CS              | Prerequisite(s): MAT 210, 251, 265 or 270 with C or better, or a 200 level statistics course (STP 226, or 231) with C or better  |
| BIO     | 416         | Biomedical Research Ethics                        | Considers issues related to values in science such as collaboration, finances, legal issues, media, mentoring, ownership of ideas, scientific integrity.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     | L               | Prerequisite(s): minimum 45 hours; Credit is allowed for only for BIO 416 or HPS 410   |
| BIO     | 417         | Experimental Design                               | Fixed, random, mixed models; crossed and nested factorial designs; balanced and unbalanced data; completely randomized, blocked, repeated measure designs; ANCOVA.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 415 with C or better  |
| BIO     | 418         | Soil Ecology                                      | Soils viewed in an ecosystem context, soil-plant relationships, nutrient budgets, and abiotic factors that influence soil processes.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Pre-requisite: ABS 370 or BIO 320. Credit is allowed for only ABS 434 or BIO 418   |
| BIO     | 419         | Physiological Plant Ecology                       | Physiological and morphological responses and adaptations of plants to their environment, emphasizing mechanisms that influence carbon and water balance, growth, and population distributions.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 320 or PLB 308 with C or better; Credit is allowed for only BIO 419 or PLB 419 or BIO 519 or PLB 519  |
| BIO     | 420         | Immunology: Molecular and Cellular Foundations    | Antibody/antigen interactions, cellular response, cytokines, immunogenetics, immunoregulation, autoimmunity, psychoneuroimmunology research/medical perspectives.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 353, BIO 360, or MIC 220 with C or better; Credit is allowed for only BIO 420 or MIC 420  |
| BIO     | 421         | Landscape Ecology                                 | Discusses how landscape heterogeneity interacts with ecological processes, and implications for biodiversity conservation, resource management, and landscape and urban planning.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 320 with C or better; Credit is allowed for only BIO 421 or BIO 521 or SOS 421 or SOS 521   |
| BIO     | 422         | Ecosystem Ecology                                 | Explores the structure, development and dynamics of ecosystems, with a focus on the exchange of energy and materials between the atmosphere, soils, water, biosphere, and anthro-sphere.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 320 with C or better; Credit is allowed for only BIO 422 or BIO 494 (Ecosystem Ecology)   |
| BIO     | 422         | Ecosystem Ecology                                 | Explores the structure, development and dynamics of ecosystems, with a focus on the exchange of energy and materials between the atmosphere, soils, water, biosphere, and anthro-sphere.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): BIO 320 with C or better; Credit is allowed for only BIO 422 or BIO 494 (Ecosystem Ecology)   |
| BIO     | 423         | Population and Community Ecology                  | Organization and dynamics of population and communities. Theoretical and empirical approaches.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 320 or LSC 320 with C or better   |
| BIO     | 423         | Population and Community Ecology                  | Organization and dynamics of population and communities. Theoretical and empirical approaches.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): BIO 320 or LSC 320 with C or better   |
| BIO     | 424         | Dynamic Modeling in Social and Ecological Systems | Introduces the development and use of dynamic mathematical models to study social and ecological phenomena.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     |                 | Prerequisite(s): MAT 210, 251, 265, or 270 with C or better; Credit is allowed for only ASM 424 or BIO 424 or SOS 424  |
| BIO     | 426         | Limnology   | Structure and function of aquatic ecosystems, with emphasis on freshwater lakes and streams.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3-4   | L               | Prerequisite(s): BIO 320 with C or better  |
| BIO     | 426         | Limnology   | Structure and function of aquatic ecosystems, with emphasis on freshwater lakes and streams.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3-4   | L               | Prerequisite(s): BIO 320 with C or better  |
| BIO     | 427         | Fire  | A survey of fire on Earth--history, ecology, behavior, and management.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     | H               | Prerequisite(s): BIO 181 with C or better; BIO 182 (or PLB 200) with C or better OR BIO 281 with C or better; BIO 282 with C or better   |
| BIO     | 429         | Human Impacts on Ecosystem Functioning            | Explores our current understanding of how humans are impacting the functioning of ecosystems and how changes in ecosystems would affect provisioning of ecosystem services and ultimately human well-being. The two primary drivers of ecosystem change are growth of the human population and increased consumption per capita. These drivers affect the Earth's cycles of carbon, nitrogen and water, as well as regional and global-scale changes in biodiversity and climate. Includes an in-depth discussion of scenarios for the next 50 and 100 years, which articulate costs and benefits of alternative development pathways in terms of climate change, food production, clean water and biodiversity. Scenarios of change in biodiversity lead to the topic of the consequences of biodiversity change for the functioning of ecosystems from the point of view of their productivity and stability. Human activities have disrupted several biogeochemical cycles including nitrogen and carbon cycles. | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 320 (or SOS 326); Credit is allowed for only BIO 429, BIO 528, SOS 429, SOS 528, or SOS 494/598 (Human Impacts on Ecosystem Functioning), or BIO 494/598 (Human Impacts on Ecosystem Functioning) |
| BIO     | 430         | Plant Geography                                   | Plant communities of the world and their interpretation, emphasizing North American plant associations.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 181 or GPH 111 or PLB 200 with C or better; Credit is allowed for only BIO 430 or GPH 422 or PLB 422  |
| BIO     | 431         | Genes, Development, and Evolution                 | Contribution of genes, developmental processes, and evolution to pattern of phenotypic variation, including disease.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     | L               | Prerequisite(s): BIO 181 with C or better; BIO 182 (or PLB 200) with C or better OR BIO 281 with C or better; BIO 282 with C or better   |
| BIO     | 431         | Genes, Development, and Evolution                 | Contribution of genes, developmental processes, and evolution to pattern of phenotypic variation, including disease.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     | L               | Prerequisite(s): BIO 181 with C or better; BIO 182 (or PLB 200) with C or better OR BIO 281 with C or better; BIO 282 with C or better   |
| BIO     | 432         | Why People Steal, Cheat and Lie                   | Explores the ecological and evolutionary causes of selfishness and cooperation in human societies. Students apply biological models to predict patterns of behavior in human populations and evaluate these models with empirical data. Develops new scientific and philosophical perspectives on human behavior by integrating ideas from complementary disciplines, including biology, psychology, anthropology, criminology, sociology and philosophy.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 182 or 282; Credit is allowed for only BIO 432 or BIO 494 (Why People Steal, Cheat, and Lie)  |

|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|------------------------------|---|-------|-----------------|---|
| BIO     | 434         | People and Nature: Ecosystem Services   | Explores the drivers of biodiversity change and the consequences they have for human wellbeing, taking both an ecological and an economic perspective.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Pre-requisites: MAT 117 or higher or SOS 101; junior standing. Credit is allowed for only BIO 434, SOS 434, or BIO 494 (Ecosys Servcs:People&Nature)                |
| BIO     | 435         | Research Techniques in Animal Behavior  | Experimental and field studies of animal behavior; description and quantification of animal behavior and interpretation of behavior within an evolutionary framework.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 331 with C or better   |
| BIO     | 436         | Sociobiology and Behavioral Ecology     | Surveys animal and human social behavior examined from ecological and evolutionary perspectives using theoretical and empirical constructs.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 331 with C or better   |
| BIO     | 440         | Functional Genomics                     | Covers emerging fields of genomics and proteomics. Discusses key technologies and their applications to the study of genomes.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 340 or LSC 347 or MBB 347 with C or better; Credit is allowed for only BIO 440 or CBS 540 or MBB 440 or MCB 540                                |
| BIO     | 443         | Applied Molecular Genetics and Genomics | Nature and function of the gene; emphasizes the molecular genetic disease states; molecular biology; regulation of gene expression; genomics.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): LSC 347 with C or better; CHM 233 with C or better; CHM 237 with C or better   |
| BIO     | 446         | Principles of Human Genetics            | Molecular and cellular analysis of the human genome.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     | L               | Prerequisite(s): ASM 301 or BIO 340 or LSC 347 or MBB 347 with C or better; Credit is allowed for only ASM 446 or ASM 546 or BIO 446 or BIO 546                     |
| BIO     | 450         | Advanced Developmental Biology          | Current concepts and experimental methods involving differentiation and biosynthetic activities of cells and organisms, with examples from microorganisms, plants, and animals.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 351 with C or better   |
| BIO     | 451         | Cell Biotechnology Laboratory           | Mammalian cell culture techniques, including mouse embryonic stem cells, the use of bioreactors, cell fractionation, and digital video imaging.  | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     |                 | Prerequisite(s): BIO 353 or MBB 245 with C or better  |
| BIO     | 453         | Animal Histology                        | Microscopic study of animal tissues.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     |                 | Prerequisite(s) with C or better: BIO 201, 353, or 360 or MIC 220   |
| BIO     | 453         | Animal Histology                        | Microscopic study of animal tissues.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 4     |                 | Prerequisite(s) with C or better: BIO 201, 353, or 360 or MIC 220   |
| BIO     | 455         | Introduction to Comparative Genomics    | Explores genomic sequences and hypotheses for their structure, evolutionary history, and underlying mechanisms.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Credit is allowed for only BMI 465 or BIO 455   |
| BIO     | 461         | Comparative Animal Physiology           | A comparative approach to understanding the function of animal physiological systems.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 360 with C or better   |
| BIO     | 462         | Endocrine Physiology                    | Mechanisms of action of hormones; endocrine control of homeostasis, growth, stress responses, and reproduction.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 360 with C or better   |
| BIO     | 465         | Neurophysiology                         | Detailed treatment of cellular and organismal neurophysiology and nervous system function.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 360 with C or better   |
| BIO     | 467         | Neurobiology                            | Introduces major areas of neurobiology, from fundamental cellular and molecular processes through systems neuroscience and neural bases of behavior.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 360 with C or better   |
| BIO     | 471         | Ornithology                             | Biology of birds.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts    | 3     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 with C or better OR BIO 281 with C or better; BIO 282 with C or better   |
| BIO     | 471         | Ornithology                             | Biology of birds.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 with C or better OR BIO 281 with C or better; BIO 282 with C or better   |
| BIO     | 471         | Ornithology                             | Biology of birds.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 with C or better OR BIO 281 with C or better; BIO 282 with C or better   |
| BIO     | 472         | Mammalogy                               | Classification, structure, habits, ecology, and distribution of mammals, emphasizing North American forms.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 with C or better OR BIO 281 with C or better; BIO 282 with C or better   |
| BIO     | 473         | Ichthyology                             | Systematics and biology of recent and extinct fishes.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 with C or better OR BIO 281 with C or better; BIO 282 with C or better   |
| BIO     | 474         | Herpetology                             | Classification, structure, habits, ecology and distribution of reptiles and amphibians, emphasizing North American forms.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 with C or better OR BIO 281 with C or better; BIO 282 with C or better   |
| BIO     | 474         | Herpetology                             | Classification, structure, habits, ecology and distribution of reptiles and amphibians, emphasizing North American forms.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 4     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 with C or better OR BIO 281 with C or better; BIO 282 with C or better   |
| BIO     | 475         | Advanced Human Anatomy                  | Continues study of the human body. Specifically, explores and differentiates anatomic concepts at an advanced level. Additional didactic assignments designed to facilitate critical evaluation of pathophysiological principles and common misconceptions of human physiology, as well as a capstone presentation project. Grades are determined by class exercises, presentations and a series of critical thinking exercises.   | N                 | LEL               | Y               | GNA           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts    | 3     |                 | Prerequisite(s): BIO 201 with C or better; BIO 202 with C or better; Credit is allowed for only BIO 475 or BIO 494 (Advanced Study Practicum: Anatomy & Physiology) |
| BIO     | 475         | Advanced Human Anatomy                  | Continues study of the human body. Specifically, explores and differentiates anatomic concepts at an advanced level. Additional didactic assignments designed to facilitate critical evaluation of pathophysiological principles and common misconceptions of human physiology, as well as a capstone presentation project. Grades are determined by class exercises, presentations and a series of critical thinking exercises.   | N                 | LEL               | Y               | GNA           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 201 with C or better; BIO 202 with C or better; Credit is allowed for only BIO 475 or BIO 494 (Advanced Study Practicum: Anatomy & Physiology) |
| BIO     | 476         | Cellular and Molecular Neuroscience     | Explores the cellular and molecular neurobiology of the central nervous system across many levels (genetic, molecular, cellular and network) by examining the principles underlying the function of individual neurons and how these principles give rise to integrated neuronal networks. Emphasizes critical thinking and problem solving in all evaluation exercises, including daily class participation.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 360 with C or better   |
| BIO     | 477         | Systems and Behavioral Neuroscience     | Explores the functions of the nervous system across many levels (genetic, molecular, cellular and network) in regard to how neural systems produce behavior, and how problems (e.g., injury, disease) of the CNS arise and can be overcome. Examines principles underlying the function of individual neurons and how these principles give rise to integrated neuronal networks. Emphasizes critical thinking and problem solving in all evaluation exercises, including daily class participation. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 360 with C or better   |
| BIO     | 480         | Methods of Teaching Biology             | Methods of instruction, experimentation, organization, and presentation of appropriate content in biology.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts    | 3     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 (or PLB 200) with C or better OR BIO 281 with C or better; BIO 282 with C or                                     |

| BIO     | 480         | Methods of Teaching Biology                           | Methods of instruction, experimentation, organization, and presentation of appropriate content in biology.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 (or PLB 200) with C or better OR BIO 281 with C or better; BIO 282 with C or         |
| BIO     | 480         | Methods of Teaching Biology                           | Methods of instruction, experimentation, organization, and presentation of appropriate content in biology.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 (or PLB 200) with C or better OR BIO 281 with C or better; BIO 282 with C or         |
| BIO     | 482         | Advanced Methods of Teaching Biology                  | Design, delivery, and evaluation of student-centered, inquiry-based lessons for high school biology students. Learning cycle.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts    | 3     |                 | Prerequisite(s): BIO 480 with C or better   |
| BIO     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1-12  |                 |   |
| BIO     | 489         | School of Life Sciences Undergraduate Research Fellow | While performing undergraduate research at ASU, students gain exposure to contemporary issues in research excellence, mentoring skills, and professional development. Goals include: enriching individual lab research experiences of each student by bringing them together in a peer-community environment; introducing students to the resources they have at their disposal (e.g., on campus, online) to facilitate research productivity and career planning; rigorously evaluating their research processes and products, in light of their eventual professional plans.   | N                 | SEM               | Y               | YGB           | Liberal Arts and Sciences    | School of Life Sciences                     | 1     |                 | Prerequisite(s): School of Life Sciences majors; 3.50 GPA   |
| BIO     | 490         | Surgical Field Placement                              | Advanced field placement for students exploring a career in a health profession. Requires classroom sessions and fieldwork.  | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): BIO 390 with C or better   |
| BIO     | 492         | Honors Directed Study                                 | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.  | N                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | School of Life Sciences                     | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| BIO     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | RSC               | N               | Z1            | Liberal Arts and Sciences    | School of Life Sciences                     | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| BIO     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | RSC               | N               | Z1            | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| BIO     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts    | 1-4   |                 |   |
| BIO     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1-4   |                 |   |
| BIO     | 495         | Undergraduate Research                                | Supervised research in biology/microbiology/molecular biosciences and biotechnology/or plant biology.  | Y                 | RSC               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1-3   |                 | Pre-requisite: Junior or senior standing  |
| BIO     | 495         | Undergraduate Research                                | Supervised research in biology/microbiology/molecular biosciences and biotechnology/or plant biology.  | Y                 | RSC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1-3   |                 | Pre-requisite: Junior or senior standing  |
| BIO     | 496         | Undergraduate Thesis                                  | Guided research culminating in the preparation of an undergraduate thesis based on supervised research done in this and previous semesters.  | N                 | RSC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): junior or senior standing; Credit is allowed for only BIO 496 or HPS 496 or MBB 496 or MIC 496                         |
| BIO     | 497         | Honors Colloquium                                     | A class emphasizing discussion, written and/or oral presentation by students, and active participation.  | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| BIO     | 498         | Pro-Seminar   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1-7   |                 |   |
| BIO     | 499         | Individualized Instruction                            | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.  | Y                 | IND               | Y               | Z1            | Liberal Arts and Sciences    | School of Life Sciences                     | 1-3   |                 |   |
| BIO     | 499         | Individualized Instruction                            | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. | BIO     | 500         | Research Methods                                      | Course on research methods in a specific discipline.   | Y                 | RSC               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 500         | Research Methods                                      | Course on research methods in a specific discipline.   | Y                 | RSC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 502         | Transmission Electron Microscopy                      | Theory, use, and methods of preparing biological materials for transmission electron microscopy.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Pre/Co-requisites: BIO 504                                      |
| BIO     | 503         | Bioimaging Lab  | Provides a fundamental understanding of light-based microscopy through the training and use of instruments contained within the SOLS Keck Bioimaging laboratory. Examines the use of bright field, contrast, epi-fluorescent, total internal reflective fluorescence (TIRF), confocal, multiphoton and atomic force microscopy and how they are applied to various research applications. Additional focus given toward image ethics, analysis, and presentation using programs such as Adobe Photoshop and ImageJ. During the second half of the semester, students propose and develop an experimental project, based on their graduate research, in which they collect data, do analysis, and prepare results for a final project presentation. | N                 | LAB               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 2     |                 | Pre/Co-requisites: BIO 504, MCB 504, or BIO 598 Special Topic: Bioimaging Current Techniques; Credit is allowed for only BIO or MCB 503 |
| BIO     | 504         | Bioimaging  | Lecture survey of modern techniques for imaging tissues, cells, and macromolecules, including light microscopy (e.g. video, fluorescence, confocal, multiphoton, single molecule), electron microscopy (e.g. transmission, scanning, cryogenic, tomographic) and ancillary techniques.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 2     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only BIO or MCB 504                       |
| BIO     | 506         | Clinical Gross Anatomy                                | Dissection of the human body with an emphasis on the application of anatomical knowledge to clinical applications.   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 6     |                 | Pre-requisites: Graduate student; Credit is allowed for only ASM, BIO or MCB 506  |
| BIO     | 515         | Science, Technology and Public Affairs                | Explores the political, economic, cultural, and moral foundations of science and technology policy and governance in democratic society.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only BIO 515 or GLG 547 or HSD 515 or PAF 547 or SOS 516  |
| BIO     | 516         | Foundations of Bioethics                              | Advanced introduction to the theoretical and normative foundations of the field of bioethics.  | N                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department              | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|-------------------------|-------|-----------------|---|
| BIO     | 517         | Uncertainty and Decision Making                      | Knowledge is always incomplete, yet decisions must be made. Explores uncertainty and its relation to decision making, with a particular focus on the ways that science and science-derived information is applied with the intent of improving decisions. Explores the many meanings and origins of uncertainty, using theoretical and case-based approaches. A central theme is the relation among uncertainty, scientific prediction, and decision making, especially in politically charged issues, for example as related to management of the environment. Ultimately understands how effective decisions can be made in the face of inevitable uncertainties and contested knowledge.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only ASB 517 or BIO 517 or BIO 591 (Uncertainty & Decision Making) or HSD 517 or POS 527 or SOS 518   |
| BIO     | 518         | History of Biology                                   | Covers themes such as the voyages of discovery, systematics, and classification; morphology and embryology; Darwin and evolutionary biology; the rise of genetics; molecular and organismal approaches of post-WWII biology; recent history of biology.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking); Credit is allowed for only BIO 518 or HPS or HST 516   |
| BIO     | 519         | Physiological Plant Ecology                          | Physiological and morphological responses and adaptations of plants to their environment, emphasizing mechanisms that influence carbon and water balance, growth, and population distributions  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only BIO 519, PLB 419 or PLB 519  |
| BIO     | 521         | Landscape Ecology                                    | Discusses how landscape heterogeneity interacts with ecological processes, and implications for biodiversity conservation, resource management, and landscape and urban planning.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only BIO 421 or BIO 521 or SOS 421 or SOS 521   |
| BIO     | 522         | Populations: Evolutionary Ecology                    | Principles of population biology and community ecology within an evolutionary framework.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 527         | Environmental Ethics and Policy Goals                | Advanced seminar in applied environmental ethics, focusing on the most influential and policy-relevant approaches in the field of environmental ethics. Core topics include the historical and philosophical foundations of alternative understandings of environmental responsibility; the debate over utility and preservation in environmental policy argument; and the interplay of ethical principles, scientific knowledge and societal priorities in environmental decision making. Consideration of the ethical and value dimensions of biodiversity conservation, wilderness protection, environmental valuation, environmental activism, climate change and sustainability, among other challenges.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only BIO 527 or SOS 527 or BIO 591 (Environ Ethics & Policy Goals)  |
| BIO     | 528         | Human Impacts on Ecosystem Functioning               | Explores our current understanding of how humans are impacting the functioning of ecosystems and how changes in ecosystems would affect provisioning of ecosystem services and ultimately human well-being. The two primary drivers of ecosystem change are growth of the human population and increased consumption per capita. These drivers affect the Earth's cycles of carbon, nitrogen and water, as well as regional and global-scale changes in biodiversity and climate. Includes an in-depth discussion of scenarios for the next 50 and 100 years, which articulate costs and benefits of alternative development pathways in terms of climate change, food production, clean water and biodiversity. Scenarios of change in biodiversity lead to the topic of the consequences of biodiversity change for the functioning of ecosystems from the point of view of their productivity and stability. Human activities have disrupted several biogeochemical cycles including nitrogen and carbon cycles. | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Prerequisite(s): Degree- or Nondegree-seeking graduate. Credit is allowed for only BIO 429, BIO 528, SOS 429, SOS 528, or SOS 494/598 (Human Impacts on Ecosystem Functioning), or BIO 494/598 (Human Impacts on Ecosystem Functioning) |
| BIO     | 530         | Scientific Teaching                                  | Guides graduate students to better understand issues related to undergraduate learning in science courses, and prepares students to become more effective teachers. Topics focus on emerging research that supports active and student-centered learning activities as well as methods that include the 5Es, concept-mapping, and "backward" design. Students reflect on their own teaching philosophy, and begin building an ePortfolio documenting and validating their ability to teach effectively.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 2     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only BIO 530 or 591 (Scientific Teaching)   |
| BIO     | 531         | Advanced Scientific Teaching                         | Further develops the teaching abilities of graduate students by applying knowledge into the more advanced teaching activities including large class sizes, diverse student populations, online delivery, and technology-integrated teaching. Students have more in-depth practice fully developing lesson plans, assessments and other teaching activities based on the concepts of evidence-based teaching.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only BIO 531 or BIO 594 (Advanced Scientific Teaching)  |
| BIO     | 532         | Recent Papers in Discipline-Based Education Research | Discipline-based education research is a newly emerging scholarly field that combines the knowledge of teaching and learning with the deep knowledge of discipline-specific science content. Currently, discipline-based education research is being used to transform the way we teach undergraduate science courses. Readings in recent papers in the field of discipline-based education research, spanning the disciplines of physics, chemistry, geosciences and biology.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 537         | Comparative Biomechanics and Motor Control           | Guides students to critically evaluate how the physical and mechanical properties of organisms and their environment affect biological tissues, structures, and motor control.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Credit is allowed for only BIO 537 or KIN 437 or KIN 537 or KIN 494 (Comparative Biomechanics and Motor Control) or KIN 598 (Comparative Biomechanics and Motor Control)  |
| BIO     | 543         | Molecular Genetics and Genomics                      | Advanced study of genetics, focusing on the molecular basis of inheritance and gene expression in eukaryotes and prokaryotes, and study of genomics, or the high-throughput analysis of the entire organism's genes and their function. Knowledge of general genetics recommended before registering for this course.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 545         | Populations: Evolutionary Genetics                   | Mathematical models in the description and analysis of the genetics of populations.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 546         | Principles of Human Genetics                         | Examines human molecular genetics from an evolutionary perspective, particularly analysis, current debates, the Human Genome Project, disease, ethics.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only ASM 446, 546, BIO 446 or 546   |
| BIO     | 549         | Phylogenetic Biology and Analysis                    | Basic theory and general concepts of phylogenetic inference as well as practical, hands-on experience with many of the commonly used methods for inferring and interpreting phylogenetic trees.   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 552         | Developmental Genetics                               | Genetic approaches to the analysis of development during the life cycle of eukaryotic organisms, and the role of genes in the unfolding of the differentiated phenotype.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| Subject | Catalog Nbr | Course Title                               | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department                                  | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|------------------------------|---|-------|-----------------|--|
| BIO     | 560         | Ecological Modeling                        | Mathematical modeling of animal populations, food-web structural and ecological processes in space and time. May use modeling tools on computer clusters.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only ABS, BIO 560 or MAT 561                                 |
| BIO     | 564         | Cellular Physiology and Signaling          | Emphasizes the molecular basis for cell structure, function and intercellular signaling.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BIO     | 568         | Stress and the Brain                       | Covers the fundamentals of stress and brain interactions. Presents a foundation from a historical perspective, then the basics of an organism's stress response, including the activation of the sympathetic nervous system and the hypothalamic-pituitary-adrenal axis. The stress response is highly conserved and allows organisms to respond and adapt to their environment. A highly effective and robust stress response facilitates adaptation and behavioral flexibility. However, a maladaptive stress response can produce detrimental outcomes. The ultimate goal is to understand the dynamic and reciprocal processes by which the stress response and brain interact to produce behavioral flexibility and resilience or detrimental outcomes.                                      | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s) degree- or nondegree-seeking graduate student; Credit is allowed for either BIO 568 or PSY 568   |
| BIO     | 570         | Fundamentals of CAS Science                | Many phenomena of critical relevance to human society are dynamic systems that change over individual and evolutionary time scales, and are highly interactive, both within and between systems. That is, they are complex adaptive systems (CAS), and thus share isomorphic properties like near-decomposability, hierarchical organization, scale-free networks, self-organized criticality, and emergence. Fundamentals of CAS science explores the diverse, interdisciplinary applications of a complex adaptive systems across the social, behavioral, and life sciences.  | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only ASM, BIO, or SOS 570                                    |
| BIO     | 578         | Environmental Leadership and Communication | America remains inactive about the ramifications of critical societal challenges such as climate change, environmental hazards and living sustainably, and less than 2% of Congress has any professional background in science. Environmental issues are no longer local and solutions cannot remain provincial. Scientists must become envoys of knowledge that is global; science is now part of an unavoidable and contentious public discussion on these issues, and we need it to catalyze solutions. Increasingly, scientists who are communicators are moving into positions of leadership, engaging with society and changing their academic institutions from within. This seminar provides leadership training and important skills for early career scientists to communicate science. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only BIO 578 or BIO 591 (Environmental Leadership and Communication) |
| BIO     | 580         | Practicum                                  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BIO     | 583         | Fieldwork                                  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BIO     | 583         | Fieldwork                                  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BIO     | 584         | Internship                                 | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Life Sciences                     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BIO     | 584         | Internship                                 | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BIO     | 590         | Reading and Conference                     | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | School of Life Sciences                     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department                                  | Units  | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|------------------------------|---|--------|-----------------|---|
| BIO     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1-4    |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences    | School of Life Sciences                     | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 600         | Research Methods   | Course on research methods in a specific discipline.  | Y                 | RSC               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 610         | Introduction to Responsible Conduct of Research (RCR) in Life Sciences   | Introduces ethical and regulatory issues in the nine core areas of responsible conduct of research. Discusses real and hypothetical cases that tie broad ethical considerations to current concern of scientists.   | N                 | REC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1      |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 611         | Current Topics in Responsible Conduct of Research (RCR) in Life Sciences | Explores a single topic in the responsible conduct of research in depth. Topic changes depending on current issues in responsible conduct of research as well as the interests of the instructor and students. Possible topics include: responsible authorship; conflicts of interest; human subjects research; and misconduct, data management, and academic integrity.  | N                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1      |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking)  |
| BIO     | 614         | Biometry   | Fundamental concepts of statistics and how to apply a range of standard statistical tools to the analysis of biological data. Uses the software applications SPSS and R to carry out these tests, and how to identify the particular situations in which each test is appropriate. Topics include: basic probability, descriptive statistics, estimation, hypothesis testing, t-tests, analysis of variance, regression, correlation, chi-square analysis, randomization tests, and | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 4      |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 615         | Biology and Society Lab  | This course brings together graduate students, postdocs, and faculty members in biology and society. Sessions include panel discussions of biology and society topics from multiple perspectives, student-led discussions of important literature, practice presentations of papers for national meetings, discussion of dissertation and thesis ideas, and other activities that help to forge an active intellectual lab group.   | N                 | LAB               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1      |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 620         | Research Prospectus Writing  | Workshop-style course where students develop and peer review graduate-level project prospectuses, such as those for NSF grant proposals, journal articles, theses, and dissertations. Appropriate for graduate students in Biology and Society, History and Philosophy of Science, the life sciences, and related programs.   | N                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 3      |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only BIO or HPS 620 |
| BIO     | 680         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 683         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 684         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Life Sciences                     | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 690         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Life Sciences                     | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 692         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | School of Life Sciences                     | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 693         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Life Sciences                     | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 695         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | N                 | LEC               | Y               | Z3            | Liberal Arts and Sciences    | School of Life Sciences                     | 1      |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 784         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 790         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 791         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                     | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 792         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | School of Life Sciences                     | 1-15   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 795         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Liberal Arts and Sciences    | School of Life Sciences                     | 1      |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 799         | Dissertation   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences    | School of Life Sciences                     | 1-15   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BIO     | 100M        | The Living World   | Principles of biology. Cannot be used for major credit in the biological sciences.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 0.25-4 | SQ              |   |
| BIO     | 130M        | Introduction to Environmental Science                                    | Introduces the interconnected nature of Earth's hydrosphere, lithosphere (soils and rocks), atmosphere, and biosphere.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 0.25-4 | SQ              |   |
| BIO     | 201M        | Human Anatomy and Physiology I   | Studies the structure and function of the human body. Topics include cells, tissues, integumentary system, skeletal system, muscular system, and nervous system. Cannot be used for major credit in the life sciences.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 0.25-4 | SG              |   |

| BIS     | 497         | Honors Colloquium                                   | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts    | College of Integrative Sciences and Arts | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| BIS     | 498         | Pro-Seminar   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts    | College of Integrative Sciences and Arts | 1-7   |                 |   |
| BIS     | 499         | Individualized Instruction                          | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | RSC               | Y               | Z1            | Integrative Sciences & Arts    | College of Integrative Sciences and Arts | 1-3   |                 |   |
| BLE     | 220         | Foundations of Structured English Immersion         | Examines current educational practices and historical legal issues. Prepares teacher candidates with a provisional Structured English Immersion endorsement.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation          | 3     |                 | Prerequisite(s): non-Educational Studies BAE major  |
| BLE     | 221         | Theories for Acquiring and Learning Languages       | Languages are tools people use and learn to use for a variety of purposes. While nearly all people naturally acquire at least one language in their lifetime, the construct of bilingualism or multilingualism can occur as either an elective or a forced process. The context or the decision that leads to second or multiple language learning can have profound effects on the way and the extent to which those languages are learned. Examines the variables affecting both language acquisition and language learning as well as some methods to better facilitate these processes. | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation          | 3     |                 | Prerequisite(s): non-Teacher Preparation student  |

| BLE     | 492         | Honors Directed Study   | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| BLE     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| BLE     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-4   |                 |   |
| BLE     | 499         | Individualized Instruction  | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-3   |                 |   |
| BLE     | 511         | Introduction to Language Minority Education                             | Historical, philosophical, theoretical, and pedagogical foundations of language minority education in the United States.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| BLE     | 515         | Instructional Methods for Bilingual Students                            | Introduces general dual language teaching approaches. Focuses on the effective teaching of limited English proficient populations.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| BLE     | 520         | ESL for Children  | Examines approaches to second-language development for children congruent with recent research in second-language acquisition in children.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| BLE     | 522         | Literacy/Biliteracy Development   | Acquaints teachers with first- and second-language literacy research, practice, and assessment in elementary school settings (Spanish-English emphasis)   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| BLE     | 527         | SEI for Middle and Secondary Schools                                    | Prepares middle and secondary teachers and administrators in the areas required for Structured English Immersion endorsement.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BLE     | 529         | Language Assessment and Evaluation of ESL/BLE Students                  | Assessment and evaluation of linguistic minorities; test theory, score interpretation; culturally responsive assessment; assessment of language and school achievement.   | N                 | SEM               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BLE     | 533         | Literacy in Secondary BLE/ESL Settings                                  | Examines first- and second-language literacy research, practice, and assessment across content areas in secondary school settings.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| BLE     | 535         | Sociolinguistic Issues in Bilingual Education                           | Surveys major theoretical issues (e.g., language situations, communicative competence, language attitudes) interrelating language, social processes, and bilingual education.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| BLE     | 537         | Language Structure Acquisition  | Introduces linguistics and language acquisition. Grammatical theory; language use in educational contexts; first, second, and simultaneous language acquisition.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Credit is allowed for only BLE 537 or LIN 510   |
| BLE     | 541         | Nature of Bilingualism/Second-Language Acquisition                      | Bilingual and second-language acquisition, with emphasis on children and adolescents. Stresses cognitive, social, and cultural aspects.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| BLE     | 561         | Parent Involvement in Language Minority Education Programs              | Examines issues, approaches, and strategies for improving parental and community involvement in the schooling of language minority children and youth.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                    | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department                                    | Units | General Studies | Requirements  |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|---|
| BLE     | 580         | Practicum                                       | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate student; minimum 9 hours in English as a Second Language MA program |
| BLE     | 584         | Internship                                      | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |
| BLE     | 590         | Reading and Conference                          | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |
| BLE     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |
| BLE     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |
| BLE     | 593         | Applied Project                                 | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |
| BLE     | 594         | Conference and Workshop                         | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |
| BLE     | 595         | Continuing Registration                         | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |
| BLE     | 597         | Capstone  | Reflective, experience-based integration of theory and practice; professional development for individuals working with English language learners.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): MA English as a Second Language major  |
| BLE     | 598         | Special Topics                                  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-4   |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |
| BLE     | 690         | Reading and Conference                          | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |
| BLE     | 691         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                     | Units | General Studies | Requirements  |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|-----------------------------|--------------------------------|-------|-----------------|---|
| BMD     | 507         | Introduction to Digital Image Processing and Analysis | Core course with four sections for students seeking to concentrate in biomedical imaging informatics. The first section analyzes the concepts and terms of image processing and analysis. The second section evaluates key algorithms in image processing (e.g., image filtering, Fourier transform, image restoration). The third section examines advanced image analysis methods (e.g., image segmentation, mathematical morphology, image topology, shapes and boundaries, color processing, image coding and compression, wavelet, and special effects). The fourth section develops the practical applications of image processing and analysis in medicine and biology.                            | N                 | LEC               | N               | GNA           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only BMD 507 or BMI 507   |
| BMD     | 510         | Current Perspectives in Biomedical Diagnostics        | Seminar course using external speakers who review the current state of the biomedical diagnostics industry in terms of technology, regulation or legal issues.  | N                 | LEC               | N               | GNA           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMD     | 511         | Health Economics, Policy, and Payment Models          | Economics provides a framework to understand and predict human decision making under scarcity, uncertainty and imperfect information. Examines concepts central to health care economics and their application to important decisions made by patients, families, practitioners, administrators and policy makers. Uses an individual family's scenario through a progressive case study to evaluate how incentives and information affect the health and health care of each family member. Each meeting integrates basic economic principles, existing facts and knowledge from economic research, and individual perspectives and experience regarding how these concepts apply to health care policy. | N                 | LEC               | N               | GNA           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): Degree- or Nondegree-seeking graduate; Credit is allowed for only BMD 511 or HCD 511   |
| BMD     | 513         | Principles of Diagnostic Technology: Immunoassays     | Provides a detailed understanding of the theory and applications of advanced diagnostic assay systems and devices. Students gain knowledge in immunoassay design and validation with particular attention to the manipulation of the immune system for disease recognition. This module assumes no former knowledge of immunoassays, but some knowledge would be advantageous.  | N                 | LEC               | N               | GNA           | College of Health Solutions | Biomedical Informatics Program | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only BMD 513 or BMD 598 (Principles of Diagnostic Technology 2: Immunology) |
| BMD     | 550         | Translational Bioinformatics                          | Provides an introduction to bioinformatics methods and applications used in the field of translational medical research. Topics include bioinformatics data acquisition and management, analysis methodologies, and applications.   | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only BMD 550 or BMI 550   |
| BMD     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMD     | 583         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMD     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMD     | 590         | Reading and Conference                                | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMD     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMD     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Prerequisite(s): Biomedical Diagnostics MS student  |
| BMD     | 593         | Applied Project                                       | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Prerequisite(s): Biomedical Diagnostics MS student  |
| BMD     | 595         | Continuing Registration                               | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | College of Health Solutions | Biomedical Informatics Program | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMD     | 598         | Special Topics  | Topical courses not offered in regular course rotation—e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMD     | 600         | Research Methods                                      | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMD     | 617         | Genetics and the Law                                  | Provides background on genetics and recent genetic advances; addresses the legal consequences and issues associated with such advances.   | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 2-3   |                 | Prerequisite(s): College of Law major or MS in Biomedical Diagnostics major. Credit is allowed for only BMD 617 or LAW 617  |
| BMD     | 667         | Regulation of Medical Diagnostics                     | Examines the regulation of drugs, medical devices, and biologics (e.g. vaccines) by the Food and Drug Administration.   | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate  |
| BMD     | 680         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMD     | 683         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMD     | 684         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMD     | 690         | Reading and Conference                                | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMD     | 691         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMD     | 692         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMD     | 693         | Applied Project                                       | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                        | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|-----------------------------|-----------------------------------|-------|-----------------|--|
| BMD     | 700         | Research Methods   | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program    | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BMD     | 780         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program    | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BMD     | 783         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program    | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BMD     | 784         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program    | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BMD     | 790         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program    | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BMD     | 791         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program    | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BMD     | 793         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program    | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 100         | Introduction to Biomedical Engineering                                   | Introduces engineering design methods, experimental practices, data gathering, presentation and statistical analysis. Lecture/labs focus on device design and application, including hands-on experience.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 4     |                 | Prerequisite(s): Biomedical Engineering major  |
| BME     | 101         | Introduction to Biomedical Engineering I: Belief Systems in Engineering  | Biomedical engineering is a highly interdisciplinary field with a mixture of basic science, design, and application. Reviews the process of building a knowledge base, including how we form belief systems (both founded and unfounded). Understands how the scientific process works to generate "true" knowledge of the world and the dangers of denying fact. Teaches how BME uses science as a belief system to generate innovations that improve our quality of life.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1     |                 | Pre-requisite: Biomedical Engineering student  |
| BME     | 102         | Introduction to Biomedical Engineering II                                | Guides the student through the transition from how knowledge is generated by the scientific process/method to how the bioengineer uses the engineering method, design tools, and interdisciplinary skill sets to translate relevant scientific and related knowledge to create new healthcare technological solutions, i.e., medical device solutions, to address unmet biomedical and health care needs for individuals, as well as for society as a whole.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1     |                 | Pre-requisite: Biomedical Engineering student; Pre/Corequisite: BME 101  |
| BME     | 103         | Introduction to Biomedical Engineering III: Product Design & Development | Hands-on training in and implementation of selected product design skills necessary to successfully conduct engineering medical device product design using best industry practices. Runs concurrently with BME 101 and BME 102, which introduce the underlying theory that connects the principles of the scientific method with engineering design method in the practice of biomedical product research and development (R&D). Provides the beginning biomedical engineer with a hands-on design experience that connects product design theory with product development best practices via student exposure to the core elements of the engineering design process--specifically prototype conceptualization and realization. | N                 | LAB               | N               | OPT           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1     |                 | Pre-requisite: Biomedical Engineering major; Pre/Co-requisite: BME 101; Credit is allowed for only BME 103 or 194 (Introduction to BME III)                                    |
| BME     | 111         | Engineering Perspectives on Biological Systems                           | Biological concepts for the emerging engineer. Introduces biological and earth systems engineering, materials, structures, fluid mechanics, bioelectricity, and the dynamic, nonlinear nature of nature.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 3     |                 | Pre-requisite: Engineering student   |
| BME     | 112         | Engineering Perspectives on Biological Systems Laboratory                | Introduces biological concepts for the emerging engineer in a lab setting: biological and earth systems engineering, materials, structures, fluid mechanics, bioelectricity, and the dynamic, nonlinear nature of nature.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1     |                 | Pre-requisite: Engineering student   |
| BME     | 121         | Programming in Biomedical Engineering                                    | Introduces computer programming in the context of scientific and engineering problem solving. Topics include loops, functions, pointers, data structures, and algorithms in the context of a biomedical problem. Culminates in an introduction to object-oriented programming, with a look at modern wireless (iPad and iPhone) devices for biomedical applications.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1     |                 | Prerequisite: Biomedical Engineering student; Pre/Co-requisite: MAT 265 or MAT 270   |
| BME     | 182         | Biomedical Engineering Product Design and Development I                  | Continuation of hands-on training and implementation of medical device product design and development skills; FDA-regulated U.S. and global medical device healthcare markets and opportunities, business development in regulated environments, medical product and project management planning, exempt and Class I medical devices, medical product component and device levels, identification and selection of customer needs, translation of customer needs, product specification development, virtual and physical prototypes, prototype product specification verification, product design and development process documentation, FDA regulatory best-industry practices.   | N                 | LAB               | N               | GNA           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering BSE major; Pre- or corequisite(s): ENG 101, 105, or 107 with C or better if completed  |
| BME     | 191         | First-Year Seminar   | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1-3   |                 |  |
| BME     | 194         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1-4   |                 |  |
| BME     | 200         | Conservation Principles in Biomedical Engineering                        | Applies bioengineering analysis and problem solving of mass, energy, and charge balances to medical and biological systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): Biomedical Engineering major; BIO 181 or BME 111 with C or better; CHM 114 or 116 with C or better; PHY 121 with C or better; Pre- or corequisite(s): MAT 275 |
| BME     | 201         | Anatomy & Physiology: Cell & Tissue Physiology                           | Introduces the major structural and functional characteristics of individual cells and tissues in the mammalian body. Physiological principles in the context of biomedical problem solving. Describes the functions of basic cell and tissue systems in the body, describes how they interact in healthy and diseased tissues, and identifies how simple biomedical devices interface with these systems.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical engineering student; Pre- or corequisites: BIO 181 with C or better if completed; CHM 114, 116 or 118 with C or better if completed                |
| BME     | 202         | Anatomy & Physiology: Organs & Systems                                   | Introduces the fundamental structural and functional characteristics of the major organs and systems in the mammalian body. Physiological principles in the context of biomedical problem solving. Describes the functions of fundamental physiology of organs comprised of the five tissue types of the body, describes how they interact in healthy and diseased tissues, and identifies how simple biomedical devices interface with these systems.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; Pre- corequisite(s): BME 201 with C or better if completed; Credit is allowed for only BME 202 or 294 (A&P: Tissues)          |

| BME     | 212         | Conservation Principles   | Basics of conservation principles in complex biological applications. Subsystem approaches to render a simplified approach to solving complex system problems with known and unknown variables. Application of MATLAB and Mathcad for solving conservation problems.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; Pre- corequisite: BME 211 with C or better if completed  |
| BME     | 213         | Biomedical and Bioengineering Ethics                            | Explores ethical issues in biomedical and medical sciences and engineering practices and includes professional ethics, medical ethics, engineering ethics and the Biomedical Engineering Society (BMES) Code of Ethics, the ethics of human and animal tissue and subjects use in biomedical science and engineering research, responsible conduct for research, ethical issues in the design and manufacture of medical devices for developing and developed countries, and the impact of biomedical engineering solutions on society and the environment.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Pre-requisite: Biomedical Engineering student   |
| BME     | 214         | FDA Regulatory Processes and Technical Communications           | Develops writing skills to factually and effectively communicate all facets of biomedical product design and development activities that are required to successfully conceive, develop, and launch a medical device into the market place using the FDA quality systems best practices that are utilized by the health care technology industry.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering major; Pre- or corequisite(s): ENG 102, 105, or 108 with C or better if completed   |
| BME     | 235         | Physiology for Engineers  | Physiology of the nervous, muscular, cardiovascular, endocrine, renal, and respiratory systems. Emphasizes use of quantitative methods in understanding physiological systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 4     |                 | Prerequisite(s): Biomedical Engineering BSE major; BIO 181, BIO 188 or BME 111 with C or better; CHM 114 or 116 with C or better; Pre- or corequisite(s): PHY 131; PHY 132  |
| BME     | 282         | Biomedical Engineering Product Design and Development II        | Hands-on training and implementation of product design skills that combine virtual analytical model prototype development with component and sub-assembly integration to develop both virtual and physical prototypes of a medical device product at the product architecture level and verify selected product architecture specifications from design input and earlier design process verification steps.   | N                 | LAB               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering major   |
| BME     | 294         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-4   |                 |   |
| BME     | 298         | Honors Directed Study   | Independent study or practicum under the supervision of a faculty member.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| BME     | 300         | Bioengineering Product Design                                   | The fundamentals of financial and organizational structure of business and how it influences bioengineering analysis, design, and decision making; biomedical ethics and device and drug regulation; and fundamentals of business and technical management.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): Biomedical Engineering BSE major; BME 100 with C or better; BME 213 with C or better; BME 214 with C or better; ENG 102, 105, or 108 with C or better; minimum junior standing                                   |
| BME     | 301         | Numerical Methods in Biomedical Engineering                     | Applications of numerical methods to biomedical engineering problems.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 2     |                 | Prerequisite(s): Biomedical Engineering student; MAT 274 (or MAT 275) with C or better  |
| BME     | 302         | Biomaterials/Physicochemical Properties                         | Introduces the science and engineering of biomaterials; addresses material properties of natural and artificial biomaterials.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; PHY 121 (or PHY 150) with C or better; Pre-corequisite: BME 203 (with C or better if completed)  |
| BME     | 303         | Biological Response to Implanted Biomaterials                   | How biomaterials interact with surrounding tissue; biocompatibility. Also discusses specific clinical problems that are treated using implants.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; Pre-corequisite: BME 302 (with C or better if completed)   |
| BME     | 311         | Basic Concepts of Signals and Systems in Biomedical Engineering | Applies principles of calculus and ordinary differential equations to analysis and computer processing of biosignals and linear modeling of biosystems.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; EEE 202 with C or better; Pre-corequisite: MAT 342 or MAT 343 (with C or better if completed)  |
| BME     | 312         | Transforms for Biomedical Engineering Applications              | Introduces properties of discrete and continuous transforms for the purpose of analyzing signals and applying the transforms to solve biomedical engineering problems.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student. Pre- corequisite: BME 311 (with C or better if completed)  |
| BME     | 313         | Preclinical and Clinical Trials in Biomedical Engineering       | Explores the rationale and the tools required to evaluate the safety and efficacy of medical devices designed and developed using best industry practices for human consumption. Introduces the design and conduct of pre-clinical trials (in vitro, ex vivo or in vivo systems other than humans), as well as clinical trials that are required for FDA approval to market medical devices in the U.S. Covers the following topics: an overview of medical device development; FDA regulatory affairs and practices; ethics concerns in animal and human trials; experimental design and biostatistics for medical device preclinical and clinical studies; preclinical (IACUC) and clinical trial (IRB) approval; informed consent best practices; medical device preclinical and clinical trial management; recruitment of clinical study participants and populations; ethics of preclinical and clinical trials; and alternatives to animal and human trials. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; BME 213 or BME 294 (Biomedical and Bioengineering Ethics) with a C or better   |
| BME     | 318         | Biomaterials  | Material properties of natural and artificial biomaterials. Tissue and blood biocompatibility. Uses of materials to replace body parts.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 4     |                 | Prerequisite(s): Biomedical Engineering BSE major; BIO 181 (or BIO 188), BME 111, CHM 114, or CHM 116 with C or better; BME 235 with C or better; MAT 274 or 275 with C or better   |
| BME     | 321         | Probability for Biomedical Engineering                          | Introduces probability distributions in the context of basic biological phenomena and biomedical engineering.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; Pre- corequisite: MAT 342 or MAT 343 (with C or better if completed)   |
| BME     | 322         | Statistics for Biomedical Engineering                           | Introduces parametric and nonparametric statistics tests in the context of common biomedical experiments.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering major; MAT 274 (or 275) with C or better  |

|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|---------------------------|-----------------------------------|-------|-----------------|---|
| BME     | 331         | Transport Phenomena for Biomedical Engineering                    | Transport phenomena with emphasis on momentum, energy, and mass transport in living systems, medical devices, and other therapeutic/diagnostic applications.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Pre-requisites: Biomedical Engineering student; BME 200, 212 or 294 (Conservation Principles) with C or better; MAT 274 or 275 with C or better; PHY 121 with C or better   |
| BME     | 340         | Thermodynamics for Biomedical Engineers                           | Thermodynamics is a branch of science dealing with processes (chemical or mechanical) and the subsequent energy and mass transfers. Studies whether a process is favorable (possible) or unfavorable (impossible) while assessing energy and mass transfer within each specific stage of the process. The operation of living systems is heavily based on the use of chemical reactions and or mechanical processes such as beating of the heart, biochemical reactions of a drug in liver, phase equilibria. Covers the fundamental principles and laws of thermodynamics. Helps students think thoroughly about the applications of thermodynamics in biological sciences and bioengineering with the main emphasis on basic concepts and problem-solving skills. | N                 | LEC               | N               | GNA           | Ira A. | BME     | 341         | Engineering Design Method   | Covers the engineering design method, a collection of valuable design tools, and the application of the method and tools to address current problems in the field of biomedical engineering.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; BME 100, 101, 103 or BME 194 (Introduction to Biomedical Engineering) with C or better; ENG 102, 105 or 108 with C or better   |
| BME     | 342         | 3D Spatial Modeling   | 3D spatial modeling tools applied in the context of biomedical engineering to create computational models of idealized and anatomical biological structures (e.g., blood vessels).  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; BME 100, 101, 103 or BME 194 (Introduction to Biomedical Engineering) with C or better; BME 203 or 294 (Cell Tissue Physiology) or 294 (A&P: Tissues) or 294 (A&P: Systems) with C or better |
| BME     | 350         | Signals and Systems for Bioengineers                              | Applies principles of calculus and ordinary differential equations to analysis and computer processing of biosignals and linear modeling of biosystems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): Biomedical Engineering major; MAT 275 with C or better   |
| BME     | 351         | Circuits for Biomedical Engineering Instrumentation               | Circuits is a specialized skill that is developed for students interested in building devices which serve as electrical interfaces to the body. These are interfaces which have very specialized requirements. Students who have been familiarized with the basics of electrical circuit design as well as physiology learn some of the issues that arise and solutions that have been generated to provide for these interfaces.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; BME 312 or BME 394 (Transforms For BME Apps) with C or better  |
| BME     | 352         | Filtering of Deterministic and Stochastic Signals                 | Introduces properties of deterministic and stochastic signals and their use in biomedical signal processing.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; Pre- corequisite: BME 312 or BME 394 (Transforms For BME Apps) with C or better if completed   |
| BME     | 353         | Microcomputing & Embedded Systems for Biomedical Engineering      | Introduces the use of microcontrollers to analyze biological signals.   | N                 | LAB               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; Pre- corequisite: BME 352 with C or better if completed  |
| BME     | 361         | Design of Experiments and Clinical Trials                         | Explores advanced techniques in trial and experimental design in biomedical engineering, including testing new products or drugs, or even generation of new methods and treatments, designed to provide statistical confirmation at the end of trials. Design of trials, experiments, and measures, so that efficacy can be properly evaluated using statistical tests. Although this course makes reference to regulatory procedures, emphasizes the proper application of statistical techniques in the design of experiments.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; BME 312 or BME 394 (Statistics For BME) with C or better   |
| BME     | 370         | Microcomputer Applications in Biomedical Engineering              | Uses microcomputers for real-time data collection, analysis, and control of experiments involving actual and simulated physiological systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): Biomedical Engineering major; EEE 202 with C or better; BME 350 with C or better   |
| BME     | 382         | Biomedical Engineering Product Design and Development III         | Continuation of hands-on training and implementation of medical device product design and development skills; experimental practices, data gathering, presentation, and statistical analysis in regards to demonstration of validation and verification tools and testing, identification and selection of customer needs, translation of customer needs, product specification development, virtual and physical prototypes, prototype product specification verification, product design and development process documentation, FDA regulatory best industry practices.   | N                 | LAB               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering major; BME 282 with C or better; Credit is allowed for only BME 382 or BME 494 (Prototyping from Design to Marketing) or BME 598 (Prototyping from Design to Marketing)                               |
| BME     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-4   |                 |   |
| BME     | 401         | Biomedical Engineering Product Design & Development: Capstone     | Introduces global biomedical engineering design factors that affect the selection and implementation of medical device product innovation, design, and development using best industry practices. These include technical, regulatory, economic, legal, business, entrepreneurial, social, and ethical aspects of medical device systems engineering design.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; with C or better: BME 313; BME 331; BME 341; BME 342; BME 353 and BME 361  |
| BME     | 402         | Biomedical Engineering Product Design & Development: Capstone II  | Introduces project management and product innovation, design and development processes and their best practices.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; Pre- corequisite(s): BME 401 with C or better if completed   |
| BME     | 403         | Biomedical Engineering Product Design & Development: Capstone III | Introduces conceptual product design and development best practices using three-dimensional modeling and other design tools for the determination of product specifications.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 2     |                 | Prerequisite(s): Biomedical Engineering student; Pre- corequisite(s): BME 401 with C or better; BME 402 with C or better  |
| BME     | 404         | Biomedical Engineering Product Design & Development: Capstone IV  | Introduces entrepreneurial biomedical product development business practices for successful quality systems premarket submission of a verified detailed medical device design of a capstone project.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; BME 403 or BME 494 (Capstone III) with C or better   |
| BME     | 405         | Biomedical Engineering Product Design & Development: Capstone V   | Introduces prototyping of the capstone device and begins experiments of the device prototype.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; Pre- corequisite(s): BME 404 with C or better if completed   |
| BME     | 406         | Biomedical Engineering Product Design & Development: Capstone VI  | Addresses prototype device verification and validation methods to achieve a robust design; the conclusion of the capstone project.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 2     |                 | Prerequisite(s): Biomedical Engineering student; Pre- corequisite(s): BME 404 with C or better; BME 405 with C or better  |
| BME     | 413         | Biomedical Instrumentation  | Principles of medical instrumentation. Studies of medical diagnostic instruments and techniques for the measurement of physiologic variables in living systems. Both BME 413 and BME 423 need to be taken together to secure L General Studies credit.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     | L               | Prerequisite(s): Biomedical Engineering major; BIO 201 and 202 with C or better or BME 201, 202, and 203 with C or better or BME 235 with C or better; BME 350 with C or better   |

| BME     | 419         | Biocontrol Systems                                 | Applies linear and nonlinear control systems techniques to analysis of neuromusculoskeletal, cardiovascular, thermal, and mass transfer systems of the body.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): Fulton Engineering undergraduate student; BME 350 with C or better; BME 370 with C or better   |
| BME     | 421         | Biomedical Instrumentation I                       | Introduces principles of biomedical instrumentation and techniques of physiologic measurement as used in medicine and biology.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering student; BME 341 and 353 with C or better   |
| BME     | 422         | Biomedical Instrumentation II                      | Principles of biomedical instrumentation and techniques as used in medicine and biology with an emphasis on medical diagnostic imaging.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): Biomedical Engineering major; Pre- or corequisite(s): BME 421 with C or better if completed  |
| BME     | 423         | Biomedical Instrumentation Laboratory              | Lab experience with problems, concepts, and techniques of biomedical instrumentation in static and dynamic environments. Both BME 413 and BME 423 need to be taken together to secure L General Studies credit.   | N                 | LAB               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1     | L               | Pre-requisite: Biomedical Engineering student; Co-requisite: BME 413  |
| BME     | 434         | Applications of Bioengineering Transport Phenomena | Develops mathematical models of transport phenomena in physiological systems, medical devices, and pharmacokinetic analysis.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): Fulton Engineering undergraduate student; BME 331 with C or better   |
| BME     | 484         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-12  |                 |   |
| BME     | 490         | Biomedical Engineering Capstone Design II          | Individual projects in medical systems or medical device design and development.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 4     |                 | Prerequisite(s): Fulton Engineering undergraduate student; BME 417 with C or better   |
| BME     | 492         | Honors Directed Study                              | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| BME     | 493         | Honors Thesis                                      | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| BME     | 494         | Special Topics                                     | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-4   |                 |   |
| BME     | 498         | Pro-Seminar  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-7   | L               | Prerequisite(s): Bioengineering or Pre-Med Engineering BS or BSE student  |
| BME     | 499         | Individualized Instruction                         | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Harrington Bioengineering Program | 1-3   |                 |   |
| BME     | 520         | Bioelectric Phenomena                              | Study of the origin, propagation, and interactions of bioelectricity in living things; volume conductor problem, mathematical analysis of bioelectric interactions, and uses in medical diagnostics.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BME     | 521         | Neuromuscular Control Systems                      | Overview of sensorimotor brain structures. Application of nonlinear, adaptive, optimal, and supervisory control theory to eye-head-hand coordination and locomotion.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BME     | 522         | Biosensor Design and Application                   | Theory and principles of biosensor design and application in medicine and biology. Principles of measurements with biosensors.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BME     | 524         | Fundamentals of Applied Neural Control             | Fundamental concepts of electrical stimulation and recording in the nervous system with the goal of functional control restoration.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BME     | 525         | Surgical Techniques                                | Principles of surgical techniques, standard operative procedures, federal regulations, guidelines, and state-of-the-art methods.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 2     |                 | Pre-requisites: Graduate Engineering students only  |
| BME     | 526         | Introduction to Neural Engineering                 | Introduces the field of neural engineering. Neural engineering, as with all engineering fields, can be thought of as applied scientific understanding, in this case, applied neuroscience. Covers aspects of neurophysiology, neuroanatomy, neurosurgery, biophysics, electronics and signal processing; integrates these knowledge areas into neural engineering applications. Covers an entire process for conducting research in neural engineering: surgical implantation of electrodes, data acquisition, processing neural signals, decoding neural data, and controlling prosthetic devices. Provides foundation for working with neural engineering applications and conducting research in neural engineering. | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only BME 526 or BME 598 (Intro to Neural Engineering)   |
| BME     | 527         | Biomedical Device Design                           | Basic phenomena behind various types of biomedical devices which measure indicators using optical, thermal and other modalities. Provides an introductory coverage of the theory and history of these devices and includes some hands-on activities to use, reverse engineer and analyze data gathered from in-class activities with currently existing devices. Uses Matlab to perform most of the analysis. Preliminarily exposes students to principles of device design and testing with consideration to FDA regulations and requirements.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): graduate Biomedical Engineering student; Credit is allowed for only BME 527 or BME 598 (Biomedical Device Design)  |
| BME     | 533         | Transport Processes I                              | Unified treatment of momentum, heat, and mass transfer from molecular theory, and continuum points of view. Continuum equations of microscopic and macroscopic systems and multicomponent and multiphase systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): graduate Engineering major. Credit is allowed for only BME 533 or CHE 533 or MAE 533   |
| BME     | 544         | Chemical Reactor Engineering                       | Reaction rates, thermodynamics, and transport principles applied to the design and operation of chemical reactors.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BME     | 556         | Human Systems Neuroscience                         | Systems-level neuroscience course focusing on human diseases. Classes involve lectures and/or other activities such as observations of clinical procedures and tours of clinical facilities (e.g., the neurosurgical suite, imaging facilities).  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 4     |                 | Prerequisite(s): BME PhD student or Neuroscience PhD student; Credit is allowed for only BIO 598 (Human Sys Neuroscience) or BME 556 or NEU 556   |
| BME     | 561         | Clinical Neuroscience                              | Fundamental mechanisms that underlie diseases and disorders of the central and peripheral nervous systems. Introduces assessment and pharmacological, surgical and rehabilitative management of nervous systems disorders. Prior knowledge of neural systems is helpful. Identifies the mechanisms by which key disease and trauma states impact neural systems and how clinicians identify the locus and type of damage based on clinical and imaging criteria.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Harrington Bioengineering Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

## ASU Course Catalog Archive - Summer 2018

| BME     | 580         | Practicum                                 | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 584         | Internship                                | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 590         | Reading and Conference                    | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 591         | Seminar                                   | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 592         | Research                                  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 593         | Applied Project                           | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 594         | Conference and Workshop                   | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 595         | Continuing Registration                   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 598         | Special Topics                            | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1-4   |                 | Pre-requisites: Graduate Bioengineering students only  |
| BME     | 599         | Thesis                                    | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.  | Y                 | LEC               | Y               | Z2            | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 695         | Continuing Registration                   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 780         | Practicum                                 | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 792         | Research                                  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 795         | Continuing Registration                   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BME     | 799         | Dissertation                              | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.  | Y                 | LEC               | Y               | Z2            | Ira A. Fulton Engineering   | Harrington Bioengineering Program | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BMI     | 101         | Introduction to Bioinformatics            | Introduces existing and future applications of biomedical informatics. Overview of history and present state of the field. Introduces topics in translational bioinformatics, such as sequence alignment, the Human Genome Project, gene expression analysis, genome-wide association studies, next-generation sequencing.   | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program    | 3     |                 |  |
| BMI     | 102         | Introduction to Public Health Informatics | Applies information and computer science and technology to public health practice, research, policy and decision support. This new scientific area focuses on the capture, management and use of electronic public health data. Introduces the field of public health informatics and the current systems that are used for public health decision making. This is not a programming course or a mathematics course. While these backgrounds are prominent in the field, the purpose of this course is to provide the history and context of the field and enable students to develop their own public health informatics system using techniques of their choice. | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program    | 3     |                 |  |
| BMI     | 194         | Special Topics                            | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program    | 1-4   |                 |  |
| BMI     | 201         | Introduction to Clinical Informatics      | Introduces existing and future applications of biomedical informatics. Overview of history and present state of the field. Provides an introduction to biomedical informatics techniques and applications used in clinical environments. Includes searching and organizing free text information, decision analysis techniques and clinical decision support systems, and clinical applications including physician order entry used in electronic medical records. Also covers challenges in clinical informatics, including sociotechnical and cognitive issues in implementation and use.   | N                 | LEC               | N               | GNA           | College of Health Solutions | Biomedical Informatics Program    | 3     |                 |  |
| BMI     | 211         | Modeling Biomedical Decisions             | First semester of a three-semester course sequence surveying the methods and theories underlying the field of biomedical informatics. Explores models of medical decision making, including classical decision theory, Bayesian, and cognitive models. Also includes a component discussing evaluation methods in biomedical informatics.  | N                 | PRA               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program    | 3     |                 |  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                     | Units | General Studies | Requirements   |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|-----------------------------|--------------------------------|-------|-----------------|--|
| BMI     | 221         | Knowledge Representation for Biomedical Informatics | Introduces topics in knowledge representation and modeling, including frame-based systems, logic-based systems, rule-based systems, inference, and reasoning. Overview of history and present state of the field.  | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 |  |
| BMI     | 294         | Special Topics                                      | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program | 1-4   |                 |  |
| BMI     | 311         | Modeling Biomedical Knowledge                       | Introduces concepts of artificial intelligence and knowledge modeling using medical informatics examples. Historical foundations and motivations of AI in medical applications; problem solving, reasoning, knowledge management, and planning as applied to medical informatics problems.   | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 |  |
| BMI     | 312         | Modeling Biomedical Data                            | Third semester of a three-semester course surveying the methods and theories underlying the field of biomedical informatics. Explores methods of use in the design and maintenance of biomedical databases, machine learning techniques, information retrieval in biomedicine and other methods specific to bioinformatics.  | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 |  |
| BMI     | 330         | Topics in Translational Bioinformatics              | Provides an introduction to bioinformatics methods and applications used in the field of translational medicine research. Topics include bioinformatics data acquisition and management, including microarrays, database modeling and integration; analysis methodologies, including statistics and data mining; and applications.   | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 |  |
| BMI     | 332         | Team Dynamics for Healthcare IT Projects            | Teaches the fundamentals of leadership, management, and team dynamics in a project-focused software engineering environment, and with a focus on informatics and healthcare applications. Teaches students about team and group dynamics, recognizing dysfunctional teams, and helping to fostering productive group and leadership skills.  | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 |  |
| BMI     | 394         | Special Topics                                      | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program | 1-4   |                 |  |
| BMI     | 404         | Clinical Environments                               | Designed for medical informatics students who have no significant clinical experience in the U.S. Introduces medical terminology and exposes students to the clinical environments in which health care providers create, manage, and use clinical information. Students attend lectures and spend a significant portion of time examining and reporting on different clinical settings throughout the semester.   | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): minimum 45 hours  |
| BMI     | 410         | Database Management in Health Care                  | Database fundamentals and the use of databases in health care. Fundamental concepts in relational database design spanning both operational and analytical use cases. Students learn and practice SQL syntax. Discusses modern implementations of databases in health care; exposes students to the most common forms of modern health care data: EHR data, claims (pharmacy and medical), and health care data models (includes health care data warehouses). When possible, exposes students to real (deidentified) data and database schemas, but synthetic data may also be used that closely matches the format it is intended to represent.          | N                 | LEC               | N               | GNA           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): CSE 205 with C or better; Credit is allowed for only BMI 410 or BMI 394 (Database Management in Healthcare) |
| BMI     | 461         | Advanced Topics in Biomedical Informatics I         | Covers current trends and cutting-edge research areas of clinical, public health, and consumer health informatics. Particular emphasis on research that is of relevance to patients, and the healthy public, covering such topics as outbreak detection and the personal health record. Also covers research on the use of technology in medical education, and the ways in which clinical decision support systems are applied in contemporary medical practice.  | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 |  |
| BMI     | 462         | Advanced Topics In Biomedical Informatics II        | Covers current trends and cutting-edge research areas of bioinformatics, imaging informatics, and translational science. Emphasizes informatics approaches to the novel data sources that are supplied by the next generation of methods for affordable gene sequencing, and initiatives underway to accelerate the integration of novel research findings into everyday clinical practice. Includes a series on modeling and simulation, current approaches to computer-aided diagnosis of medical images, ways in which technology can support the discovery of new knowledge, and the application of telemedicine to remotely facilitate clinical care. | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 |  |
| BMI     | 465         | Introduction to Comparative Genomics                | Explores genomic sequences and hypotheses for their structure, evolutionary history, and underlying mechanisms.  | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Credit is allowed for only BMI 465 or BIO 455  |
| BMI     | 466         | Bioinformatics and Molecular Evolution              | Fundamental biological motivation and methods used in bioinformatics.  | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): BIO 345 with C or better; BIO 355 or MBB 355 or MAT 355 with C or   |
| BMI     | 482         | Capstone I  | First course in capstone sequence for biomedical informatics majors emphasizing the development of technical skills and effective team work within the context of a research project in biomedical informatics.  | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     | L               |  |
| BMI     | 483         | Capstone II   | Second course in capstone sequence for biomedical informatics majors emphasizing the development of technical skills and effective team work within the context of an applied project in biomedical informatics.   | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     | L               | Prerequisite(s): BMI 482 with C or better  |
| BMI     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 |  |
| BMI     | 492         | Honors Directed Study                               | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.  | N                 | LEC               | Y               | Z1            | College of Health Solutions | Biomedical Informatics Program | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| BMI     | 493         | Honors Thesis                                       | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | LEC               | Y               | Z1            | College of Health Solutions | Biomedical Informatics Program | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| BMI     | 494         | Special Topics                                      | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program | 1-4   |                 |  |
| BMI     | 498         | Pro-Seminar   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program | 1-7   | L               |  |
| BMI     | 499         | Individualized Instruction                          | Provides an opportunity for original study or investigation in the major or field of specialization, on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | IND               | Y               | Z1            | College of Health Solutions | Biomedical Informatics Program | 1-3   |                 |  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                     | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|-----------------------------|--------------------------------|-------|-----------------|--|
| BMI     | 501         | Introduction to Biomedical Informatics                | Overview of the field of biomedical informatics for use of computers and information in healthcare and the biomedical sciences.   | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): Degree- or Nondegree-seeking graduate. Credit is allowed for only BMD 501 or BMI 501  |
| BMI     | 502         | Foundations of Biomedical Informatics Methods I       | First semester of a two-semester course surveying the methods and theories underlying the field of biomedical informatics.  | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): Degree- or Nondegree-seeking graduate. Credit is allowed for only BMD 502 or BMI 502  |
| BMI     | 504         | Introduction to Clinical Environments                 | Course is divided into three sections. The first section covers medical and health care concepts and terms, and discuss observational techniques. In the second portion, students investigate a variety of different clinical environments and report back to the class on their findings. The final portion summarizes the key points of information technology in these clinical environments.  | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): graduate BME or BMI major   |
| BMI     | 505         | Foundations of Biomedical Informatics Methods II      | Second semester of a two-semester course surveying the methods and theories underlying the field of biomedical informatics.   | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; BMI 502 with C or better   |
| BMI     | 506         | Clinical Decision Support                             | The course will provide an in-depth analysis of computer-based approaches to supporting clinical decision making for providers and patients (as well as healthy individuals, for disease prevention/health maintenance). The history of the field of clinical decision support (CDS) and the spectrum of methodologies will be reviewed. Practical issues involved in successful implementations of CDS will be discussed. The roles of standards and infrastructure will be examined. Current research topics and foci will be explored.   | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BMI     | 507         | Introduction to Digital Image Processing and Analysis | Core course with four sections for students seeking to concentrate in biomedical imaging informatics. The first section analyzes the concepts and terms of image processing and analysis. The second section evaluates key algorithms in image processing (e.g., image filtering, Fourier transform, image restoration). The third section examines advanced image analysis methods (e.g., image segmentation, mathematical morphology, image topology, shapes and boundaries, color processing, image coding and compression, wavelet, and special effects). The fourth section develops the practical applications of image processing and analysis in medicine and biology.  | N                 | LEC               | N               | GNA           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only BMD 507 or BMI 507                                |
| BMI     | 515         | Applied Biostatistics in Medicine and Informatics     | Comprehensive treatment of the statistical methods used most often to analyze quantitative data collected in medical and biomedical informatics studies, including clinical trials, epidemiologic studies, studies of the accuracy and performance of screening and diagnostic tests, and studies to develop predictive models. Students learn to use SAS statistical software to analyze biomedical data.  | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BMI     | 516         | Advanced Biomedical Data Analysis                     | Acquisition, conversion and organization of biological data into relevant diagnostic, therapeutic, and research information using information extraction and data mining.   | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; BMI 501 with C or better   |
| BMI     | 520         | Modeling Gene Regulatory Networks                     | Computational and mathematical modeling used to approximate gene regulatory networks as well as signaling pathways and inference of model parameters.   | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; BMI 516 with C or better   |
| BMI     | 540         | Problem Solving in Biomedical Informatics             | Theory and practice of software engineering principles as they apply to large- and medium-scale clinical systems from bench to bedside.   | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; BMI 501 with C or better   |
| BMI     | 550         | Translational Bioinformatics                          | Provides an introduction to bioinformatics methods and applications used in the field of translational medical research. Topics include bioinformatics data acquisition and management, analysis methodologies, and applications.   | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only BMD 550 or BMI 550                                |
| BMI     | 555         | Statistical Learning for Data Mining                  | Surveys data analysis methods for massive data sets and provides experience in analysis with computer software.   | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; BMI 515 or IEE 572 or IEE 578; Credit is allowed for only BMI 555 or IEE 520 |
| BMI     | 560         | Teaching in Biomedical Informatics                    | Student serves as a teaching assistant with a faculty member who is teaching either a required or elective course in the Biomedical Informatics curriculum. Such courses will generally be BMI courses but with the approval of the student's faculty program advisor may include a course that is an approved elective in the BMI program but is offered in another department within the university. The experience provides a significant teaching role, either lecturing or moderating small group sessions or laboratories. Grading class homework assignments and designing/grading examinations will also typically be part of the experience. Assisting other students outside of class and being available during office hours will also generally be part of the student teacher's role. A student may also receive 1 hour of credit for participating substantively in the design of a new course, working closely with a faculty member. Generally in such circumstances the student should then serve as course teaching assistant when it is offered for the first time (separate enrollment in this course). | N                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program | 1     |                 | Pre-requisite: Biomedical Informatics PhD student  |
| BMI     | 570         | BMI Symposium   | Students attend the BMI Symposium Speaker Series twice a month and the student journal club discussion on alternate weeks. During the journal club weeks, each student leads a discussion on a current topic pertinent to the field of biomedical informatics.  | N                 | SEM               | Y               | YGB           | College of Health Solutions | Biomedical Informatics Program | 1     |                 | Pre-requisite: BMI Graduate student  |
| BMI     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | N                 | PRA               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Pre-requisite: BMI Graduate student  |
| BMI     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BMI     | 590         | Reading and Conference                                | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Pre-requisite: Biomedical Informatics Masters student  |
| BMI     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| BMI     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | N                 | RSC               | Y               | Z1            | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Prerequisite(s): Biomedical Informatics MS student   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                     | Units | General Studies | Requirements  |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|-----------------------------|--------------------------------|-------|-----------------|---|
| BMI     | 593         | Applied Project                                       | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | LEC               | Y               | Z1            | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Prerequisite(s): Health Informatics MAS, Biomedical Informatics MIP, or Biomedical Informatics MS student |
| BMI     | 595         | Continuing Registration                               | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | LEC               | Y               | Z3            | College of Health Solutions | Biomedical Informatics Program | 1     |                 | Prerequisite(s): graduate Biomedical Informatics student  |
| BMI     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMI     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.  | Y                 | LEC               | Y               | Z2            | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Pre-requisite: Biomedical Informatics Masters student   |
| BMI     | 601         | Fundamentals of Health Informatics                    | Offers an overview of the field of health informatics. Combines perspectives from medicine and computer science for use of computers and information in health care and the health sciences. Includes an overview of health information literacy and data standards. Covers specific applications and general methodology in health informatics using current topics in the field. Discusses evaluations of health systems.  | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMI     | 602         | Programming in a Health Care Domain                   | Intensive introduction to object-oriented programming concepts focused on the unique challenges such as those related to data volume, complexity, and uncertainty inherent to applications in a health care domain. Also covers the fundamentals of algorithm analysis and data structure design. Stresses a software engineering approach to abstraction for problem decomposition and solution formulation, with object-oriented and reusability concepts introduced early. Emphasizes the use of generic data structures and abstractions from template libraries for reusability, as well as modular design. In addition, also covers basic concepts of algorithms and data structures.  | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMI     | 603         | Health Informatics Database Modeling and Applications | Thorough coverage of the foundations of database systems and their specific use and modeling in healthcare and biomedical environments. Students learn through hands-on experience with the modeling and implementation of health-related databases using the relational approach. Topics include an overview of database models and architecture, database design, SQL, XML, and data warehousing as they are applied in clinical domains. Students are encouraged to explore database-related topics of their own, choosing ones that are relevant to a bioinformatics or clinical domain.   | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMI     | 604         | Health Information Literacy                           | Students learn to locate, retrieve, and store information with an emphasis on electronic search, retrieval, and storage. They also learn to assess the validity and quality of information, improve the quality of information, and how to improve the quality of, protect, and effectively communicate health information.  | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 2     |                 | Pre-requisite: Health Informatics MAS student   |
| BMI     | 605         | Health Information Systems and Applications           | Explores the use of information systems in different health care settings, analyzing operational and strategic objectives for their deployment. Emphasizes the analysis of the different factors that influence decision making during the process of design and deployment of systems, including human factors, hardware, software, policy, communications, and the successful management of such systems. Also covers guidelines for the design and successful deployment of systems to meet those objectives and includes discussion of architectures, components, and models. Analyzes specific case studies of successfully and unsuccessfully deployed systems.  | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMI     | 606         | Health Data Standards                                 | The cost-effective delivery of high quality, safe healthcare requires access to multiple data sources and systems and applications responsible for data acquisition and management, the ability to aggregate, integrate, and analyze data from multiple sources, and the ability to communicate the results of such analyses or the knowledge resulting from those analyses to users in a timely fashion at points where they are needed. A variety of standards are required, at the data and communication level. Reviews the state of these standards, and the multiple entities that have a stake in them, and enables the student to navigate this complex process in selecting, implementing, or extending health systems in a variety of settings.          | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 1     |                 | Pre-requisite: Health Informatics MAS student   |
| BMI     | 607         | Effective Professional Communications                 | To be able to work in the field of biomedical informatics or health information technology requires an understanding of not only science and technology but also biomedicine and healthcare. This requires both familiarity with the basic concepts of these fields, as covered in other courses, as well as the ability to present ideas clearly in both written and oral communication. Also requires the ability to work effectively in groups, with shared understanding of group and individual roles, assignments, and responsibilities. Provides experience with oral, written, and group communication tasks, and uses critique and feedback as a method for highlighting issues and areas for improvement.  | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 2     |                 | Pre-requisite: Health Informatics MAS student   |
| BMI     | 608         | Project Management for Interdisciplinary Teams        | Introduces students to the health care team and explores tools and techniques for establishing effective interdisciplinary teams in a health care setting, emphasizing collaborative clinical decision-making and patient management. By working in small teams, the course puts into practice these techniques, allowing students to collaborate with other health professionals to solve specific problems, provide services, or develop new understandings. Also covers the concepts, skills, tools, and techniques involved in the management of information system projects, providing an introduction to the established discipline of project management, with a specific focus on how they apply to managing information systems for a biomedical setting. | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMI     | 609         | Capstone  | This course assists students in preparing their capstone project, which represents the culmination of their study for the MAS in Health Informatics focusing on development process, technical skills, and communication.  | N                 | LEC               | N               | OPT           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Pre-requisite: Health Informatics MAS student   |

| Subject | Catalog Nbr | Course Title   | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                     | Units | General Studies | Requirements   |
|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|-----------------------------|--------------------------------|-------|-----------------|--|
| BMI     | 610         | Clinical Culture and the Health Care Environment             | Designed for medical informatics students who have no significant clinical experience in the U.S. Introduces medical terminology and reviews clinical environments in which health care providers create, manage and use clinical information. Students perform observations in a variety of clinical environments.  | N                 | LEC               | N               | GNA           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): Health Informatics MAS student                |
| BMI     | 611         | Applied Data Analysis  | Students learn what statistical methods are used most widely in the analysis of data from studies of disease risk factors, health interventions, and health care improvements, and what statistical methods should be used to analyze data from various types of studies. They learn how to estimate the number of subjects needed for studies of various designs. They learn to conduct and interpret multiple linear, multiple logistic, and multivariate lifetable analysis. Hands-on experience in the use of statistical software to conduct analysis of health data.   | N                 | LEC               | N               | GNA           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BMI     | 612         | Applied Data Mining  | Comprehensive introduction to data mining methods and algorithms used most often to analyze data collected in biomedical informatics studies, including genomics and proteomic disease association studies, clinical trials, clinical image analysis and studies of the accuracy and performance of screening and diagnostic tests. Emphasizes assessing data quality, understanding how to select an overall approach to analysis, and presenting and interpreting the results of data mining analysis. Students learn to use Excel to effectively display data collected in biomedical research studies and Weka software to analyze data using approaches that are used commonly in biomedical studies.   | N                 | LEC               | N               | GNA           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BMI     | 613         | Workflow Analysis and Redesign in Health Systems Engineering | Provides an overview of workflow analysis and process redesign and their use in quality improvement activities, including specification. Uses case examples to highlight key concepts and measurement concepts and covers techniques. Includes the links of systems engineering to fundamentals of decision theory, statistics and optimization. Includes discussion of current successful techniques for systems engineering. System engineering seeks to enable the successful design, implementation, deployment and maintenance of successful systems. Emphasizes gathering and analysis of customer needs for the specification and documentation of required functionality early in the system's lifecycle.  | N                 | LEC               | N               | GNA           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BMI     | 614         | Current Perspectives in Health Informatics                   | Seminar course using external speakers to discuss and review the current state of the health informatics field.  | N                 | LEC               | N               | GNA           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BMI     | 615         | Human Factors Engineering for Biomedical Applications        | Fundamental principles of human-computer interaction and human factors and how to apply them to real-world problems through class projects, homework, and real-world design. Focuses on learning why user-friendly interfaces can greatly improve work productivity and enhance the quality of healthcare without radically changing the underlying technology.  | N                 | LEC               | N               | GNA           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BMI     | 616         | Clinical Decision Support and Evidence-Based Medicine        | Focuses on the major problems of human decision making in health care including causes of errors, decreased quality and increased costs. Explores the role of information technology, primarily through computer-based clinical decision support (CDS), to address these problems. Explores key methods used to provide CDS, the capabilities and limitations of current approaches, and the challenges for managing and updating the knowledge needed to deliver CDS in an enterprise setting. Origins of evidence-based decision making and policy formulation; how to use the tools and approaches that have been developed to support evidence-based decision making and policy formulation; and the history and evolution of systematic review and meta-analysis as a tool to inform decisions and policies based on evidence. Students gain hands-on experience by conducting a systematic review and a meta-analysis and using the results to draw conclusions and formulate health policy. | N                 | LEC               | N               | GNA           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BMI     | 617         | Principles of Evidence-based Medicine                        | The origins of evidence-based decision making and policy formulation; how to use the tools and approaches that have been developed to support evidence-based decision making and policy formulation. The history and evolution of systematic review and meta-analysis as a tool to inform decisions and policies based on evidence. Hands-on experience by conducting a systematic review and a meta-analysis and using the results to draw conclusions and formulate policy.  | N                 | LEC               | N               | GNA           | College of Health Solutions | Biomedical Informatics Program | 2     |                 | Prerequisite(s): Health Informatics MAS student                |
| BMI     | 618         | Leadership and Change in Clinical Environments               | Covers core concepts related to leadership and specific methodologies used by effective leaders, including running meetings, negotiation, and conflict management. Also reviews change management as a structured approach to transitioning individuals, teams, and organizations from a current state to a desired future state. Provides exposure to various models and processes related to change management and the tradeoffs between these different approaches. Includes case examples related to health information.   | N                 | LEC               | N               | GNA           | College of Health Solutions | Biomedical Informatics Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| BMI     | 790         | Reading and Conference                                       | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | Biomedical Informatics Program | 1-12  |                 | Prerequisite(s): Biomedical Informatics PhD student            |
| BMI     | 792         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | College of Health Solutions | Biomedical Informatics Program | 1-15  |                 | Prerequisite(s): Biomedical Informatics PhD student            |
| BMI     | 799         | Dissertation   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | College of Health Solutions | Biomedical Informatics Program | 1-15  |                 | Prerequisite(s): Biomedical Informatics PhD student            |
| BMY     | 500         | Research Methods   | Course on research methods in a specific discipline.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences   | School of Life Sciences        | 1-12  |                 |  |

ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                 | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department              | Units | General Studies | Requirements  |
|---------|-------------|------------------------------|---|-------------------|-------------------|-----------------|---------------|---------------------------|-------------------------|-------|-----------------|---|
| BMY     | 501         | Essentials of Biomimicry     | Offered as a sampler of the various topics (discipline, emulate, ethos, (re)connect and iSites, human-nature connection, biomimicry ythinking, and life's principles) within the discipline of biomimicry. Each week is devoted to a specific topic and is led by a different instructor. Provided a basic overview of each aspect of the discipline with ample opportunity for conversation and dialogue around the specific components, with an understanding that greater depth into each topic can be learned by taking the advanced BMY courses.   | N                 | LEC               | N               | OP2           | Liberal Arts and Sciences | School of Life Sciences | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMY     | 502         | Life's Principles            | Life's principles are nature's universal design guidelines based on 3.8 billion years of successful strategies across all life. With instruction by Dr. Dayna Baumeister, this 16-week online course takes participants on a deep dive of life's principles, including the review and study of life's operating conditions, the six primary principles and their related sub-principles. Gives participants the experience necessary to bring these design guidelines into practice.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Life Sciences | 4     |                 | Pre- or corequisite(s): Biomimicry MS or Biomimicry certificate student; BMY 501  |
| BMY     | 503         | Biology Taught Functionally  | Biomimicry teaches biology through the lens of function, thereby providing a core understanding in biology for all students, no matter their background. Explores how biologists gather and research information and how that knowledge can inform other disciplines. Also introduces the art of translating biological concepts into strategies for application, which is then carried throughout all the courses. Students learn how to work with biologists on a biomimicry team and how to weave biology and biomimicry together. The biologists in the cohort not only learn to look at nature through the function lens, but also act as subject matter experts for their interdisciplinary teams and teaching assistants.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Life Sciences | 4     |                 | Pre- or corequisite(s): Biomimicry MS or Biomimicry certificate student; BMY 501  |
| BMY     | 504         | Biomimicry Thinking          | Biomimicry thinking is the practice of biomimicry from a methodology-based approach. It is a 15-week intensive in the methodology of biomimicry that reviews how biology and biomimicry can be incorporated into the four major phases of any design process: scoping, discovering, creating and evaluating. Covers the art of translating biological concepts into strategies for application and building a taxonomy of design principles.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Life Sciences | 4     |                 | Prerequisite(s): Biomimicry MS student or Biomimicry certificate student; Pre- or corequisite(s): BMY 501   |
| BMY     | 511         | Biomimicry and Design        | Biomimicry is innovation inspired by nature, or the conscious emulation of nature's genius. Prepares participants to design sustainable innovations using the biomimicry philosophy and methodology. Participants complete a 16-week series of lectures and assignments to demystify the design thinking process, understand how to harness the potential of approaching challenges with a design mind, distill a design challenge, understand user needs, build a bridge between biology and design, use a methodology for discovering models from nature, abstract design principles from bio-inspired strategies, and translate those principles into sustainable innovations. Participants both with a design background and without equally experience a deep immersion into the world of biomimetic design. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Pre- or corequisite(s): Biomimicry MS student; BMY 501  |
| BMY     | 512         | Biomimicry and Engineering   | Prepares participants to understand the field of engineering; identify the types of engineers and what each one does; what constrains engineers' work under, materials selected by engineers, how to present biological ideas to engineers and how to integrate ideas from their discipline into sustainable engineering designs using biomimicry principles. Most examples used are of large engineered structures. These structures play critical functions in human systems, have a significant impact on the environment and last for over a 100 years, so it is important to imbed as much sustainability into their design as possible. Requires a final team project designed to put these ideas into practice.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Pre- or corequisite(s): Biomimicry MS student; BMY 501  |
| BMY     | 516         | Biomimicry and Business      | Addresses business topics from the biomimicry point of view; explains mechanisms and tools for comparing and contrasting business and nature. Challenges participants to question conventional ways of conducting business and come up with new approaches based on a different point of view. Recommend BMY 502 and BMY 504 to be successful in this course.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Pre- or corequisite(s): Biomimicry MS student; BMY 501  |
| BMY     | 517         | Human-Nature Connection      | Grounds the emerging discipline of biomimicry as a continuation of our ancestral connection with nature. Human-Nature Connection (HNC) engages participants in an exploration of the meaning and value of connecting with nature. Topics include defining humans, nature, and our connection with nature; establishing the evolutionary, personal, and socio-cultural influences on the different expressions of this connection; and illustrating the relevance of biomimicry to the human-nature connection.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Life Sciences | 2     |                 | Pre- or corequisite(s): Biomimicry MS student; BMY 501  |
| BMY     | 530         | Virtual Design Lab Practicum | Practicum designed to allow participants to dive deep into the biomimicry tools and resources presented during the program and to apply them selectively to a specific and unique opportunity of the student's choosing. Projects should have a meaningful outcome achievable within the semester, and should engage the scoping, discovering, creating and evaluating phases of biomimicry thinking. Deliverables are milestone based, and the final deliverable should have application in a real-world setting.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Life Sciences | 2     |                 | Prerequisite(s): BMY 501; BMY 502; BMY 503; BMY 504; Biomimicry MS student with minimum 20 hours or Biomimicry Certificate student with minimum 13 hours; Pre- or corequisite(s): Biomimicry MS or Biomimicry Certificate student |
| BMY     | 580         | Practicum                    | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | N                 | LEC               | Y               | GNA           | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): Biomimicry MS student; BMY 501; BMY 502; BMY 503; BMY 504  |
| BMY     | 583         | Fieldwork                    | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 |   |
| BMY     | 584         | Internship                   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMY     | 590         | Reading and Conference       | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | REC               | Y               | Z1            | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BMY     | 591         | Seminar                      | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| BUS     | 594         | Conference and Workshop          | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business  | Prebusiness Office                            | 0.5-12 |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BUS     | 595         | Continuing Registration          | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | W.P. Carey School of Business  | Prebusiness Office                            | 1      |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BUS     | 598         | Special Topics                   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business  | Prebusiness Office                            | 1-4    |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BUS     | 599         | Thesis                           | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | W.P. Carey School of Business  | Prebusiness Office                            | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BUS     | 690         | Reading and Conference           | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business  | Prebusiness Office                            | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BUS     | 692         | Research                         | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business  | Prebusiness Office                            | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BUS     | 695         | Continuing Registration          | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | W.P. Carey School of Business  | Prebusiness Office                            | 1      |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BUS     | 700         | Research Methods                 | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business  | Prebusiness Office                            | 1-12   |                 | Pre-requisite: W.P. Carey Degree-seeking Graduate student   |
| BUS     | 790         | Reading and Conference           | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business  | Prebusiness Office                            | 1-12   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| BUS     | 791         | Seminar                          | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business  | Prebusiness Office                            | 1-12   |                 | Pre-requisite: W.P. Carey Degree-seeking Graduate student   |

| CAP     | 120         | Introduction to Counseling                                | Provides an introduction to and broad overview of the field of counseling. Covers several counseling topics related to ethics, prevention, intervention and treatment, as well as multicultural counseling.   | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 3     | SB              |  |
| CAP     | 194         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 1-4   |                 |  |
| CAP     | 220         | Self in a Multicultural Society                           | Covers current theories and research on culture, race and ethnicity, gender and other specific aspects of cultural diversity in a multicultural society. Explores themes, theories, topics and research related to power, privilege and oppression in the United States.  | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 3     |                 |  |
| CAP     | 240         | Counseling Skills   | Provides an introduction to counseling skills and intervention techniques used in treatment. Focuses on active listening, self-awareness and other related skills.  | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 3     |                 | Prerequisite(s): CAP 120                                       |
| CAP     | 260         | Survey of Careers in Counseling and Applied Psychology    | Provides a broad overview of the various career opportunities in counseling and applied psychology fields.  | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 1     |                 | Prerequisite(s): CAP 120 or PSY 101                            |
| CAP     | 294         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 1-4   |                 |  |
| CAP     | 310         | Addictions I: Foundations and Basic Principles            | Covers the history, overview and principles of addiction as well as introductory counseling techniques specific to addictions and substance abuse. Students also learn the basic types of addictions and techniques to diagnose them.   | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 3     |                 | Prerequisite(s): CAP 120                                       |
| CAP     | 315         | Trauma and Crisis Intervention                            | The role of counselors in traumatic events, crises and situations. Also introduces students to counseling skills and techniques particularly specialized for crises such as child abuse, partner violence, war, natural disasters and many others.  | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 3     |                 | Prerequisite(s): CAP 120                                       |
| CAP     | 320         | Theories of Counseling and Psychotherapy                  | Provides the theoretical foundations and knowledge related to the principles of counseling.   | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 3     |                 | Prerequisite(s): ENG 102, 105, or 108; CAP 120; CAP 240        |
| CAP     | 325         | Professional Practice and Ethics in Counseling            | Discusses ethical issues (confidentiality, informed consent, integrity, respect) and professional codes of conduct in the counseling field.   | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 3     |                 | Prerequisite(s): CAP 120; CAP 240                              |
| CAP     | 330         | Group Counseling  | Provides an overview of theories, techniques and approaches to group counseling and therapy.  | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 3     |                 | Prerequisite(s): CAP 120; CAP 240                              |
| CAP     | 340         | Multicultural Counseling Theory and Practice              | Provides an overview of multicultural theory, research and practice. Topics include acculturation, identities, prejudice and other related topics.  | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 3     |                 | Prerequisite(s): CAP 120; CAP 220                              |
| CAP     | 342         | Community Outreach, Prevention and Intervention           | Provides an understanding of the methodologies in community outreach and prevention treatment.  | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 3     |                 | Prerequisite(s): CAP 120; CAP 220                              |
| CAP     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 1-4   |                 | Prerequisite(s): minimum 45 hours                              |
| CAP     | 400         | Advanced Counseling Research Methods                      | Builds upon introductory research methods and provides students with a strong foundation of research knowledge in counseling. Covers critical reading and analysis of peer-reviewed journal articles, types of research methodologies and proposal development.   | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 3     |                 | Prerequisite(s): CAP 120; PSY 290                              |
| CAP     | 420         | School Counseling   | Provides an overview of counseling in school settings. Covers the role of school counselors in supporting youth and adolescents in many areas such as developmental disabilities/mental illness, as well as ethical and legal issues.   | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 3     |                 | Prerequisite(s): CAP 120; CAP 240                              |
| CAP     | 440         | Addictions II: Treatment, Recovery and Relapse Prevention | Builds upon previous course work. Covers philosophies and models of treatment, recovery, relapse prevention and continuing care in substance abuse counseling.  | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 3     |                 | Prerequisite(s): CAP 120; CAP 310                              |
| CAP     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | N                 | PRA               | N               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 1-12  |                 | Prerequisite(s): minimum 45 hours                              |
| CAP     | 492         | Honors Directed Study                                     | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | Y                 | LEC               | Y               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 1-6   |                 | Prerequisite(s): Barrett Honors student                        |
| CAP     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | Y                 | RSC               | Y               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 1-6   |                 | Prerequisite(s): Barrett Honors student                        |
| CAP     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 1-4   |                 | Prerequisite(s): minimum 45 hours                              |
| CAP     | 498         | Pro-Seminar   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 1-7   |                 | Prerequisite(s): minimum 45 hours                              |
| CAP     | 499         | Individualized Instruction                                | Provides an opportunity for original study or investigation in the major or field of specialization, on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. This course may be taken only by outstanding senior students who have completed at least one semester in residence and who have a cumulative GPA of 3.00 or higher in the major or field of specialization. A special class fee may be required. | Y                 | IND               | Y               | GNA           | Integrative Sciences & Arts   | College of Integrative Sciences and Arts        | 1-3   |                 | Prerequisite(s): minimum 45 hours                              |
| CBS     | 499         | Individualized Instruction                                | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences     | School of Mathematical and Statistical Sciences | 1-3   |                 |  |
| CBS     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences     | School of Mathematical and Statistical Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |

ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                             | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department                                      | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|------------------------------|---|-------|-----------------|--|
| CBS     | 590         | Reading and Conference                   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CBS     | 591         | Seminar                                  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CBS     | 592         | Research                                 | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CBS     | 595         | Continuing Registration                  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CBS     | 598         | Special Topics                           | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CDE     | 191         | First-Year Seminar                       | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics    | 1-3   |                 | Pre-requisites: Freshman Standing; Maximum 25 hours  |
| CDE     | 232         | Human Development                        | Lifespan development from conception through adulthood, with emphasis on family influences. Recognition of individuality within the universal pattern of development.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts        | 3     | SB              |  |
| CDE     | 232         | Human Development                        | Lifespan development from conception through adulthood, with emphasis on family influences. Recognition of individuality within the universal pattern of development.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics    | 3     | SB              |  |
| CDE     | 244         | Children Facing Health Care Challenges   | Provides a comprehensive introduction to family-centered care, psychosocial assessment of the hospitalized and chronically ill child, and techniques to support their coping. Utilizes the principles/theories of child development, and introduces the role of a child-life specialist in the promotion of effective coping through play, preparation and education among children, youth and families facing challenges related to health care and hospitalization.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics    | 3     |                 | Credit is allowed for only CDE 244 or CDE 294 (Children Facing Health Care Challenges)   |
| CDE     | 294         | Special Topics                           | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics    | 1-4   |                 |  |
| CDE     | 312         | Adolescence                              | In-depth examination of the developmental and social processes that help explain modern adolescence.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics    | 3     | SB              | Prerequisite(s): Minimum 24 hours; SOC 101, PSY 101(PGS 101), FAS 101 or FAS 330 with C or better; Credit is allowed for only CDE 312 or SOC 312   |
| CDE     | 337         | Early Childhood Intervention             | Explores how child development theory affects practice with children and families, emphasizing development of young children and early intervention.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics    | 3     |                 |  |
| CDE     | 338         | Child Development Practicum              | Supervised practicum in the Child Development Lab preparing students for work in child care centers and agencies serving young children and families.   | N                 | PRA               | Y               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics    | 2-4   |                 | Prerequisite(s): minimum 45 hours  |
| CDE     | 350         | Inequality and Diversity in Education    | Advanced exploration of various dimensions of diversity in relation to educational systems and outcomes. Through sociological and psychological research, case studies and films, students examine how educational inequality is created and reproduced through individual actions and institutional constraints. Also considers the connection between schooling and human rights and ways in which educational inequality may be addressed.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics    | 3     | L & C           | Prerequisite(s): APA 200, AFR 212 (or AFS 210), APA 210, CDE 232, JUS 210, TCL 210 or minimum 30 hours; Credit allowed for only AFR 350 (or AFS 350), APA 350, CDE 350, JUS 365, SOC 350, TCL 360 or AFS/APA/CED/TCL 394 (Inequality & Diversity in Education) |
| CDE     | 356         | Race and Child Development               | Reviews the current research and literature about the particular role of race in child development. Even though race is not a valid biological construct, it has significant social implications as it shapes how children interact and are treated by others. Through primarily class discussions/activities, presentations and papers, addresses: (1) What are the research and theoretical issues in studying race? (2) What does race and racism mean? (3) How does race influence developmental processes? | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics    | 3     |                 | Prerequisite(s): APA 200 or APA 210 or 30 hours. Credit is allowed for only APA 356 or CDE 356 or APA 394 (Race and Child Development)   |
| CDE     | 394         | Special Topics                           | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics    | 1-4   |                 |  |
| CDE     | 418         | Aging and the Life Course                | Examines aging as a process of change and adaptation over the lifespan, patterned by social, cultural, and historical forces.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics    | 3     | SB & H          | Prerequisite(s): FAS 101, 330, PGS 101 or SOC 101 with C or better; minimum 30 hours; Credit is allowed for only CDE 418 or SOC 418  |
| CDE     | 418         | Aging and the Life Course                | Examines aging as a process of change and adaptation over the lifespan, patterned by social, cultural, and historical forces.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences        | 3     | SB & H          | Prerequisite(s): FAS 101, 330, PGS 101 or SOC 101 with C or better; minimum 30 hours; Credit is allowed for only CDE 418 or SOC 418  |
| CDE     | 430         | Infant/Toddler Development in the Family | Examines the development of infants/toddlers, the socialization processes of families, and the interactions of these processes.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics    | 3     | SB              |  |
| CDE     | 450         | Child Dysfunction in the Family          | This course will provide a focused study of the development of dysfunction within the family context. Other contextual influences will also be considered.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts        | 3     |                 | Prerequisite(s): CDE 232, PGS 101, or SOC 101 with C or better; minimum junior standing  |
| CDE     | 450         | Child Dysfunction in the Family          | This course will provide a focused study of the development of dysfunction within the family context. Other contextual influences will also be considered.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics    | 3     |                 | Prerequisite(s): CDE 232, PGS 101, or SOC 101 with C or better; minimum junior standing  |
| CDE     | 484         | Internship                               | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics    | 1-12  |                 |  |
| CDE     | 493         | Honors Thesis                            | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics    | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| CDE     | 494         | Special Topics                           | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics    | 1-4   |                 |  |
| CDE     | 497         | Honors Colloquium                        | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics    | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| CDE     | 498         | Pro-Seminar                              | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics    | 1-7   |                 |  |

| CDE     | 534         | Risk and Resilience in Children and Adolescents                          | Integrates child development, family theory, and research to understand risk and resilience in children and adolescents.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisites: CDE 531; FAS 500  |
| CDE     | 570         | Child Development for Infant Family Practice                             | Examines development during infancy and early childhood with an emphasis on social and emotional development, mental health, and early parent-child relationships.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-IFP student  |
| CDE     | 571         | Infant Mental Health for Infant Family Practice                          | Surveys the biological and environmental risk factors that jeopardize the mental health of infants and young children; overview of prevention and intervention strategies.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-IFP student  |
| CDE     | 572         | Assessment of Infants, Toddlers, and Families for Infant Family Practice | Developmentally appropriate assessment of mental disorders and developmental disabilities in infants, toddlers, and preschool children and parent-child relationships.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-IFP student  |
| CDE     | 573         | Cultural Competence for Infant Family Practice                           | Examines cultural issues impacting parent-child relationships and child rearing and the effectiveness of infant mental health and early intervention services on families of various ethnic and cultural backgrounds.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-IFP student  |
| CDE     | 574         | Observation and Reflection for Infant-Family Practice                    | Strategies for observing infant behavior and parent-child relationships and skills for reflective, relationship-based intervention.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-IFP student  |
| CDE     | 575         | Advanced Observation and Reflection for Infant-Family Practice           | Advanced strategies for observing infant behavior and parent-child relationships and skills for reflective relationship-based intervention.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-IFP student  |
| CDE     | 576         | Applied Research Methods for Infant Family Practice                      | Survey and critical examination of child development, parent-child relationships, family relationships, and early intervention research and the application to IFP.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-IFP student  |
| CDE     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 590         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 593         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 594         | Conference and Workshop  | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 595         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 610         | Gender Development   | Examines current theories and research concerning the various aspects of gender and developmental change.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 612         | Children's Peer Relationships  | Studies scientific theory, research, and evidence on peer relationships and social competence from early childhood through adolescence.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite(s): CDE 531 with C or better  |
| CDE     | 634         | Prevention and Child Development   | Advanced training in research and theory-based approaches to developing and evaluating prevention programs for children at risk.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 3     |                 | Prerequisite: CDE 534   |
| CDE     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 780         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 783         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 791         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 792         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDE     | 793         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | OPT           | Liberal Arts and Sciences | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| CDH     | 501         | Digital Humanities: Critical Theory and Methods | Digital technologies are now intricately woven into our lives--whether it's in terms of authoring a paper in a text editor, sending texts and emails, or doing data analysis. Popular narratives of the "big" and the "new" celebrate and sometimes bemoan the ways that these tools shape our communication, access to information, habits and even our physical bodies. Focuses on the histories of these technologies, their operations, popular conceptions about such tools, and their affordances and limits for humanities scholarship. Students learn how to leverage digital technologies, but also how to critically read them. Broad ranging; in addition to surveying the "big tent," students are encouraged to utilize their final projects to engage with specific disciplinary digital tools and methods relevant to their scholarly work. | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences   | Historical, Philosophical & Religious Studies, Sch | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDH     | 580         | Practicum                                       | Structured practical experience in a professional program, supervised by a practitioner or faculty member with whom the student works closely.   | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences   | Historical, Philosophical & Religious Studies, Sch | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDH     | 584         | Internship                                      | Structured practical experience that follows a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences   | Historical, Philosophical & Religious Studies, Sch | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDH     | 593         | Applied Project                                 | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences   | Historical, Philosophical & Religious Studies, Sch | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CDH     | 598         | Special Topics                                  | Topical courses not offered in regular course rotation (e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand).  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences   | Historical, Philosophical & Religious Studies, Sch | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CED     | 191         | First-Year Seminar                              | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.   | Y                 | SEM               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts           | 1-3   |                 |   |
| CED     | 194         | Special Topics                                  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts           | 1-4   |                 |   |
| CED     | 250         | Career Development                              | Covers models of the individual, the world of work, and decision making with emphasis on individual application.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts           | 3     | L               |   |

|---------|-------------|--------------------------------|---|-------------------|-------------------|-----------------|---------------|-----------------------------|--|-------|-----------------|---|
| CED     | 567         | Group Dynamics and Counseling  | Group process factors, theory, and diversity issues determining effective interaction in small groups. Emphasis placed on lecturettes, self awareness, and experiential components.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: Counseling MC or MED student OR Counseling Psychology PhD student                                  |
| CED     | 577         | Counseling Prepracticum        | Focus on racial, social, and cultural factors in the development of helping relationships through integration of cognitive and affective self-awareness with counseling skills.   | N                 | LEC               | N               | YGB           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): Counseling MC or Counseling Psychology PhD student   |
| CED     | 580         | Practicum                      | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| CED     | 583         | Fieldwork                      | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| CED     | 584         | Internship                     | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| CED     | 590         | Reading and Conference         | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| CED     | 591         | Seminar                        | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| CED     | 592         | Research                       | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| CED     | 593         | Applied Project                | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| CED     | 594         | Conference and Workshop        | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| CED     | 595         | Continuing Registration        | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| CED     | 598         | Special Topics                 | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-4   |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| CED     | 599         | Thesis                         | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| CED     | 600         | Research Methods               | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CED     | 672         | Marriage and Family Counseling | Introduces marriage and family counseling theories. Emphasizes a systems-communication model utilizing cocounseling.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| CED     | 680         | Practicum                      | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Counseling Graduate student  |
| CED     | 683         | Fieldwork                      | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Counseling Graduate student  |
| CED     | 684         | Internship                     | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Counseling Graduate student  |
| CED     | 685         | School Counseling Internship   | Structured practical experience in school counseling following a contract or plan, supervised by faculty and practitioners.   | Y                 | PRA               | Y               | YGB           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: Masters of Counseling major  |
| CED     | 690         | Reading and Conference         | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| CED     | 691         | Seminar                        | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| CED     | 692         | Research                       | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| CED     | 693         | Applied Project                | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |
| CED     | 700         | Research Methods               | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CED     | 780         | Practicum                      | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student |

|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|-----------------------------|--|-------|-----------------|---|
| CED     | 791         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | SEM               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts         | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |
| CED     | 792         | Research                                       | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript. | Y                 | RSC               | Y               | Z1            | Integrative Sciences & Arts | College of Integrative Sciences and Arts         | 1-15  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |
| CED     | 799         | Dissertation                                   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | Integrative Sciences & Arts | College of Integrative Sciences and Arts         | 1-15  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate student   |
| CEE     | 181         | Technological, Social, and Sustainable Systems | Introduces the importance and role of technological, social, and sustainable systems in the modern world. Provides a framework for the theory and practice of sustainable engineering.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 3     | HU              | Credit is allowed for only CEE 181, FSE 181, or SOS 181   |
| CEE     | 191         | First-Year Seminar                             | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 1-3   |                 |   |
| CEE     | 194         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 1-4   |                 |   |
| CEE     | 210         | Engineering Mechanics I: Statics               | Force systems, resultants, equilibrium, distributed forces, area moments, fluid statics, internal forces, friction, and stability.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): FSE 100 with C or better; MAT 266 or 271 with C or better; PHY 121 with C or better; PHY 122 with C or better; Credit is allowed for only CEE 210 or CNE 210   |
| CEE     | 212         | Engineering Mechanics II: Dynamics             | Kinematics and kinetics of particles, translating and rotating coordinate systems, rigid body kinematics, dynamics of systems of particles and rigid bodies, and energy and momentum principles.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): CEE 210 or CNE 210 with C or better; MAT 274 or 275 with C or better; Credit is allowed for only CEE 212 or CNE 212  |
| CEE     | 213         | Introduction to Deformable Solids              | Strain-displacement and stress-strain-temperature relations. Stresses and deformations due to axial, shear, torsional and bending moments. Buckling, stability.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): CEE 210 or CNE 210 with C or better; MAT 274 or MAT 275 with C or better; Credit is allowed for only CEE 213 or CNE 213  |
| CEE     | 281         | Surveying                                      | Theory and fieldwork in construction and land surveys.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): MAT 170 or higher with C or better; Credit is allowed for only CEE 281, CNE 241 or CON 241   |
| CEE     | 294         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 1-4   |                 |   |
| CEE     | 300         | Engineering Business Practice                  | Engineering economic principles, cost/benefit analysis, project financing and delivery, management of engineering design, business practices, ethical and professional responsibilities.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 3     | L               | Prerequisite(s): Engineering BSE major; minimum junior standing; MAT 267 with C or better   |
| CEE     | 321         | Structural Analysis and Design                 | Statically determinate and indeterminate structures (trusses, beams, and frames) by classical and matrix methods. Introduces structural design.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 4     |                 | Prerequisite(s): Civil Engineering BSE or Construction Engineering BSE major; CEE 212 or CNE 212 or MAE 212; CEE 213 or CNE 213 with C or better; Credit is allowed for only CEE 321 or CNE 321   |
| CEE     | 341         | Fluid Mechanics for Civil Engineers            | Fundamental principles and methods of fluid mechanics forming the analytical basis for water resources engineering. Conduit and open channel flow.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 4     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 212 or CEE 211 or MAE 212 with C or better; CEE 213 with C or better; Pre- or corequisite: CEE 384 or MAE 384 with C or better if completed   |
| CEE     | 351         | Geotechnical Engineering                       | Index properties and engineering characteristics of soils. Compaction, permeability and seepage, compressibility and settlement, and shear strength.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 4     |                 | Prerequisite(s): CEE 213 or CNE 213 with C or better; Civil Engineering BSE major or Construction Engineering BSE major; Credit is allowed for only CEE 351 or CNE 351  |
| CEE     | 353         | Civil Engineering Materials                    | Structure and behavior of civil engineering materials, including steel, aggregate, concrete, masonry, asphalt, wood, composites. Atomic structure and engineering applications.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 4     |                 | Prerequisite(s): CEE 213 or CNE 213 with C or better; Civil Engineering BSE major or Construction Engineering BSE major; Credit is allowed for only CEE 353 or CNE 353  |
| CEE     | 361         | Introduction to Environmental Engineering      | Concepts of air and water pollution; environmental regulation, risk assessment, chemistry, water quality modeling, water and wastewater treatment systems designs.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 4     |                 | Prerequisite(s): Fulton Engineering undergraduate student; CEE 213 with C or better; CHM 114 or CHM 116; Pre- or corequisite(s): IEE 380  |
| CEE     | 372         | Transportation Engineering                     | Fundamental background of highway and traffic engineering in the areas of planning, design, and operations.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE student; CEE 213 with C or better; Pre- or corequisite(s): IEE 380   |
| CEE     | 384         | Numerical Methods for Engineers                | Numerical methods and computational tools for selected problems in engineering.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 3     | CS              | Prerequisite(s): Fulton Engineering undergrad; MAT 274 or 275 with C or better; MAT 242 or 343 (or 342 for non-MAE student) with C or better; Pre- or corequisite(s): MAT 267 or 272 with C or better if complete; Credit allowed for only MAE 384 or CEE 384 |
| CEE     | 394         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 1-4   |                 |   |
| CEE     | 400         | Earth Systems Engineering and Management       | Introduces earth systems engineering and management, and the technological, economic and cultural systems underlying the terraformed Earth.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 3     | (L or HU) & H   | Prerequisite(s): Civil Engineering BSE major; CEE 300 with C or better OR non-CEE; minimum junior standing; Credit is allowed for only CEE 400 or CNE 400   |
| CEE     | 412         | Pavement Analysis and Design                   | Design of flexible and rigid pavements for highways and airports. Surface, base, and subgrade courses. Cost analysis and pavement selection.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 351 with C or better; CEE 353 with C or better; Credit is allowed for only CEE 412 or 511   |
| CEE     | 420         | Steel Structures                               | Behavior of structural components and systems. Design of steel members and connections. Load and resistance factor design methods.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major or Construction Engineering major; CEE 321 or CNE 321 with C or better. Credit is allowed for only CEE 420 or CNE 420  |
| CEE     | 421         | Concrete Structures                            | Behavior of concrete structures and the design of reinforced and prestressed concrete members, including footings. Partial design of concrete building system.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major or Construction Engineering major; CEE 321 or CNE 321 with C or better; Credit is allowed for only CEE 421 or CNE 421  |
| CEE     | 423         | Structural Design                              | Analysis and design of reinforced concrete steel, masonry, and timber structures.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 421 with C or better; Pre- or corequisite(s): CEE 420 with C or better if completed   |

ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                                       | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|--|
| CEE     | 432         | Developing Software for Engineering Applications        | Matrix and computer applications to structural engineering and structural mechanics. Stiffness and flexibility methods, finite elements, and differences.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 321 with C or better; Credit is allowed for only CEE 432 or CEE 532  |
| CEE     | 440         | Hydrology   | Descriptive and quantitative hydrology; hydrologic cycle, models, and systems. Rain-runoff models. Hydrologic design. Concepts, properties, and basic equations of groundwater flow. Emphasizes quantitative methods.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): CEE 341 or MEE 340 or GLG 362 with C or better; Credit is allowed for only CEE 440 or CEE 545 or CEE 598 (Hydrology) or GLG 471 or GLG 490 (Hydrology)  |
| CEE     | 441         | Water Resources Engineering                             | Applies the principles of hydraulics and hydrology to the engineering of water resources projects; design and operation of water resources systems; water quality.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 341 with C or better   |
| CEE     | 452         | Foundations   | Applies soil mechanics to foundation and retaining wall systems, including bearing capacity, settlement, and lateral earth pressure.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major or Construction Engineering major; CEE 351 or CNE 351 with C or better; Credit is allowed for only CEE 452 or CNE 452   |
| CEE     | 462         | Unit Operations in Environmental Engineering            | Design and operation of unit processes for water and wastewater treatment.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 361 with C or better   |
| CEE     | 466         | Urban Water System Design                               | Capacity; planning and design of water supply; domestic and storm drainage; and solid waste systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 341 with C or better; CEE 361 with C or better   |
| CEE     | 467         | Environmental Microbiology                              | Overview of the microbiology of natural and human-impacted environment, microbial detection methodologies, waterborne disease outbreaks, risk assessment, and regulations.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 361 or MIC 220 with C or better; Credit is allowed for only CEE 467 or CEE 567   |
| CEE     | 470         | Sustainable Environmental Biotechnologies               | Introduces principles of green chemistry and green engineering and their integration in the design of sustainable bioengineering and biotechnology applications that protect environmental quality and human health.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisites: CEE 361; Credit is allowed for only CEE 470, 494 (Sustainable Environmental Biotechnologies), 570 or 598 (Sustainable Environmental Biotechnologies)   |
| CEE     | 474         | Transportation Systems Planning                         | Transportation systems modeling procedures, travel characteristics analysis, traffic predictions, transportation systems management, and transit planning methods.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 372 with C or better; CEE 384 with C or better   |
| CEE     | 475         | Highway Geometric Design                                | Design of visible elements of roadway, design controls, at-grade intersections, freeways, and interchanges.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 372 with C or better; Credit is allowed for only CEE 475 or CEE 576  |
| CEE     | 481         | Civil Engineering Project Management                    | Civil engineering project management and administration, planning and scheduling, cost estimating and bidding strategies, financial management, quality control and safety, and computer applications.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil Engineering BSE major; CEE 321 with C or better; CEE 351 with C or better; CEE 372 with C or better; Credit is allowed for only CEE 481 or CEE 585  |
| CEE     | 483         | Highway Materials, Construction, and Quality            | Properties of highway materials, including aggregates, asphalt concrete, and portland cement concrete; construction practice; material delivery, placement, and compaction; quality control.  | N                 | LEC               | N               | OPT           | Ira A. | CEE     | 499         | Individualized Instruction                              | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 1-3   |                 |  |
| CEE     | 502         | Front-End Planning                                      | Principles and applications for effective early planning of capital facilities, including: finance, economics decision making, risk management, team alignment and front-end planning processes and tools.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): graduate Civil Engineering or Construction or Construction Engineering student; Credit is allowed for only CEE 502 or CON 502 or CON 598 (Front End Planning) or CEE 598 (Front End Planning)                                 |
| CEE     | 506         | Life Cycle Assessment for Civil Systems                 | Covers fundamental and advanced concepts of the life cycle assessment framework exploring products, services, activities and infrastructure systems. Examines key concepts for system boundary selection, functional unit selection, inventorying, impact assessment and interpretation stages with a focus on energy and environmental assessment. Advanced concepts include allocation of effects, problem formulation for assessing footprints versus decisions or policies, and assessment of infrastructure interdependencies and supply chains. Exposes tools and data sources and presents approaches for evaluation of sensitivity and uncertainty of results. Encourages students with broad sustainability interests to enroll and explore how life cycle assessment can aid their work by shifting their views from direct to cradle-to-grave effects. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only CEE 506 or CEE 598 (Lifecycle Assessment) or SOS 546 or SOS 598 (Lifecycle Assessment)  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                                       | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|---|
| CEE     | 507         | Urban Infrastructure Anatomy and Sustainable Development | Understanding how built environment infrastructure systems interact with ecosystem services is critical for policies and decisions directing urban sustainability. Brings together students from several disciplines to develop a semester-long research project focused on a particular urban sustainability problem in Phoenix. During the semester, students are given background on how infrastructure systems work and are interdependent, and explore tools and methods for urban sustainability assessment with peers from several disciplines. As a class, students evaluate a particular urban sustainability problem for Phoenix, interact with local policy and decision makers in developing solutions, and present their findings at the end of the semester to the ASU community. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): degree-or nondegree-seeking graduate. Credit for only CEE 507 or 598(Urban Infrastruct Anatomy/Sustainable Dev) or PUP553 or 598(Urban Infrastruct Anatomy/Sustainable Dev) or SOS547 or SOS598 (Urban Infrastr Anatomy & Sustain Dev) |
| CEE     | 511         | Pavement Analysis and Design                             | Design of flexible and rigid pavements for highways and airports. Surface, base, and subgrade courses. Cost analysis and pavement selection.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisites: Graduate Civil Engineering student; Credit is allowed for only CEE 412 or 511   |
| CEE     | 512         | Pavement Performance and Management                      | Pavement management systems, including data collection, evaluation, optimization, economic analysis, and computer applications for highway and airport design.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Graduate Civil Engineering student   |
| CEE     | 513         | Pavement Evaluation, Maintenance, and Rehabilitation     | Provides the necessary information for pavement engineers to evaluate, identify, and select reliable and cost-effective rehabilitation alternatives for existing Hot Mix Asphalt (HMA) and Portland Cement Concrete (PCC) pavements.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Civil, Environmental, and Sustainable Engineering Graduate student   |
| CEE     | 514         | Bituminous Materials and Mixture                         | Types of bituminous materials used in pavement mixtures. Chemical composition, physical properties, desirable aggregate characteristics, optimum asphalt contents, superpave asphalt binder, mixture design.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Graduate Civil Engineering student   |
| CEE     | 515         | Properties of Concrete                                   | Materials science of concrete. Cement chemistry, mechanisms of hydration, interrelationships among micro- and macro-properties of cement-based materials. Mechanical properties, failure theories, fracture mechanics of concrete materials. Cement-based composite materials and the durability aspects.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student   |
| CEE     | 516         | Sustainable Energy and Material Use                      | Sustainable engineering; overall energy needs and impacts; thermodynamics, heat transfer, and fluid mechanisms; atmospheric energy systems; field investigation; current and future urban energy systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Civil, Environmental, and Sustainable Engineering Graduate student   |
| CEE     | 521         | Stress Analysis  | Introduces tensors: kinematics, stress analysis, and constitutive assumptions leading to elastic and plastic behavior. Strain energy and energy methods; applications.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student   |
| CEE     | 522         | Experimental Stress Analysis                             | Specification and analysis of stress and strain at a point, stress-strain relationships. Mechanical, optical, and electrical strain gages and circuits, digital data acquisition and analysis, closed loop mechanical testing, fracture mechanics, optical methods and photoelasticity, and introduction to nondestructive testing.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student   |
| CEE     | 523         | Structural Damage  | Fundamental mechanisms of damage in infrastructural materials from both imposed mechanical and environmental loading. Covers assessment of damage through noninvasive tools involving stress-wave, electrical, electro-chemical, radiographic and optical techniques. Methods for strengthening of structural elements and selected methods of design of strengthening systems for concrete and steel structures.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): graduate Civil or Construction Engineering student; Credit is allowed for only CEE 523 or CEE 598 (Structural Damage Evaluation and Strengthening)   |
| CEE     | 526         | Finite Elements for Engineers                            | Direct stiffness, method of weighted residuals, weak formulation, and variational techniques in the solution of engineering problems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): graduate Engineering student; APM 505 or MAE 501 with C or better; Credit is allowed for only CEE 526 or MAE 527   |
| CEE     | 527         | Advanced Concrete Structures                             | Ultimate strength design. Combined shear and torsion. Serviceability. Plastic analysis. Special systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student   |
| CEE     | 530         | Prestressed Concrete                                     | Materials and methods of prestressing. Analysis and design for flexure, shear, and torsion. Prestress losses due to friction, creep, shrinkage, and anchorage set. Statically indeterminate structures. Design of flat slabs, bridges, and composite beams.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student   |
| CEE     | 532         | Developing Software for Engineering Applications         | Fundamentals of engineering software development and object-oriented programming. Programming in C++. Development of matrix toolbox. Introduces finite element method. Computer graphics.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student; Credit is allowed for only CEE 432 or 532  |
| CEE     | 533         | Structural Optimization                                  | Linear and nonlinear programming. Problem formulation. Design sensitivity analysis. FEM-based optimal design of structural and mechanical systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student   |
| CEE     | 536         | Structural Dynamics                                      | Free vibration and forced response of discrete and continuous systems, exact and approximate methods of solution, response spectra, computational techniques, special topics.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisites: Engineering CEE Graduate student; Credit is allowed for only CEE 536, MAE 494 (Structural Dynamics) or 515  |
| CEE     | 540         | Groundwater Hydrology                                    | Physical properties of aquifers, well pumping, subsurface flow modeling, unsaturated flow, numerical methods, land subsidence, and groundwater pollution.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student   |
| CEE     | 541         | Surface Water Hydrology                                  | Hydrologic cycle and mechanisms, including precipitation, evaporation, and transpiration; hydrograph analysis; flood routing; statistical methods in hydrology and hydrologic design.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student   |
| CEE     | 543         | Water Resources Systems                                  | Theory and application of quantitative planning methodologies for the design and operation of water resources systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student   |
| CEE     | 545         | Hydrology  | Descriptive and quantitative hydrology; hydrologic cycle, models and systems. Rain-runoff models. Hydrologic design. Concepts, properties and basic equations of groundwater flow. Emphasizes quantitative methods.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): Civil, Environmental and Sustainable Engineering MS, MSE or PhD major; Credit is allowed for only CEE 440 or CEE 545 or CEE 598 (Hydrology) or GLG 471 or GLG 490 (Hydrology)  |
| CEE     | 546         | Advanced Watershed Hydrology                             | Watershed processes leading to runoff generation and the transformation of meteorological forcing through a hydrologic system. Emphasizes physical mechanisms and their treatment in numerical models. Quantification of uncertainty in hydrological modeling through probabilistic methods. Provides hands-on experience with data analysis and hydrologic models.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CEE 546 or GLG 546 or GLG 598 (Advanced Watershed Hydrology)   |
| CEE     | 549         | Ecohydrology of Semiarid Landscapes                      | Interactions between terrestrial plants and limiting resources in arid and semiarid environments. Temporal and spatial aspects of plant-water relations. Process-oriented discussion and examples using simple and complex numerical models. Provides experience with data analysis and instrumentation.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CEE 549 or CEE 598 (Ecohydrology of Semiarid Landscapes) or GLG 549 or GLG 598 (Ecohydrology of Semiarid Landscapes)   |
| CEE     | 550         | Soil Behavior  | Physicochemical aspects of soil behavior, stabilization of soils, and engineering properties of soils.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student   |

| CEE     | 551         | Advanced Geotechnical Testing                     | Odometer, triaxial (static and cyclic) back pressure saturated and unsaturated samples, pore pressure measurements, closed-loop computer-controlled testing, in-situ testing, and sampling.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 552         | Soil Improvement                                  | Physical, chemical and biological methods for improving (modifying) the properties of the ground for engineering purposes; the applicability of these techniques to different ground conditions (e.g., sand, silt, clay) and design objectives (e.g., erosion control, stability, liquefaction mitigation); design of ground improvement programs for common ground modification techniques used in practice.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): graduate Civil Engineering student; Credit is allowed for only CEE 552 or CEE 598 (Soil Improvement)  |
| CEE     | 553         | Advanced Soil Mechanics                           | Applies theories of elasticity and plasticity to soils, theories of consolidation, failure theories, and response to static and dynamic loading.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 554         | Shear Strength and Slope Stability                | Shear strength of saturated and unsaturated soils strength-deformation relationships, time-dependent strength parameters, effects of sampling, and advanced slope stability.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 555         | Advanced Foundations                              | Deep foundations, braced excavations, anchored bulkheads, reinforced earth, and underpinning.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 557         | Geoenvironmental Engineering                      | Environmental site assessment, solid waste management, waste containment system design, soil and groundwater remediation, soil erosion control, brownfields development.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 558         | Unsaturated Soil Mechanics                        | Advanced unsaturated soil mechanics theory, including introduction of stress-state variables and constitutive relationships for unsaturated flow and stress-strain applications. Knowledge of CEE 351 or equivalent material is required to be successful in this course.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Civil, Environmental, and Sustainable Engineering Graduate student  |
| CEE     | 559         | Earthquake Engineering                            | Characteristics of earthquake motions, selection of design earthquakes, site response analyses, seismic slope stability, and liquefaction.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 560         | Soil and Groundwater Remediation                  | Presents techniques for remediation of contaminated soils and groundwaters with basic engineering principles.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 561         | Physical-Chemical Treatment of Water and Waste    | Theory and design of physical and chemical processes for the treatment of water and wastewaters.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3-4   |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 562         | Environmental Biochemistry and Waste Treatment    | Theory and design of biological waste treatment systems. Pollution and environmental assimilation of wastes.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3-4   |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 563         | Environmental Engineering Chemistry               | Analyzes water, domestic and industrial wastes, lab procedures for pollution evaluation, and the control of water and waste treatment processes.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 564         | Contaminant Fate and Transport                    | Fate and transport processes with emphasis on governing equations and parameters relevant to the migration of chemicals in the environment.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 565         | Advanced Environmental Biotechnology              | Emerging topics in environmental biotechnology and related problem-solving techniques.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); CEE 562 and 567; Credit is allowed for only CEE 565 or 598 (Advanced Environmental Biotechnology)  |
| CEE     | 566         | Water Reuse and Reclamation                       | Reuse and reclamation of water, tertiary treatment technologies of water for reuse applications, cloth filtration and UV disinfection, agricultural reuse and engineering, landscape irrigation, industrial reuse, environmental restoration, groundwater recharge, direct and indirect potable reuse, water reuse planning and dual distribution systems, storage requirements.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CEE 566 or CEE 598 (Water Reuse & Reclaim)  |
| CEE     | 567         | Environmental Microbiology                        | Overview of the microbiology of natural and human-impacted environment, microbial detection methodologies, waterborne disease outbreaks, risk assessment, and regulations.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisites: Engineering CEE Graduate student; Credit is allowed for only CEE 467 or 567  |
| CEE     | 568         | Unit Processing in Environmental Engineering      | Design and operation of unit processes for water and wastewater treatment.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 569         | Air Quality Engineering                           | Chemical and physical processes by which air pollutants are generated and controlled with an emphasis on urban air quality.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): graduate Engineering major; Credit is allowed for only CEE 469 or CEE 569 or CHE 469 or CHE 569   |
| CEE     | 570         | Sustainable Environmental Biotechnologies         | Introduces principles of green chemistry and green engineering and their integration in the design of sustainable bioengineering and biotechnology applications that protect environmental quality and human health.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisites: Civil, Environmental and Sustainable Engineering MS, MSE or PhD student; Credit is allowed for only CEE 470, 494 (Sustainable Environmental Biotechnologies), 570 or 598 (Sustainable Environmental Biotechnologies) |
| CEE     | 571         | Advanced Environmental Chemistry                  | Applied water quality and water treatment aquatic chemistry. Knowledge of environmental chemistry topics is necessary to be successful in this course.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Civil, Environmental and Sustainable Engineering MS, MSE or PhD major   |
| CEE     | 572         | Life Cycle Assessment for Civil Systems           | Concepts of the life cycle assessment (LCA) framework exploring products, services, activities and infrastructure systems. Examines key concepts for system boundary selection, functional unit selection, inventorying, impact assessment and interpretation stages with a focus on energy and environmental assessment. Advanced concepts include allocation of effects, problem formulation for assessing footprints versus decisions or policies, and assessment of infrastructure interdependencies and supply chains. Exposure to tools and data sources occur throughout the course; presents approaches for evaluation of sensitivity and uncertainty of results. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Prerequisite(s): graduate Civil Engineering or Construction Engineering major  |
| CEE     | 573         | Transportation Operations                         | Driver, vehicle, and roadway characteristics; traffic control devices; traffic engineering studies; and transportation system management measures.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 576         | Highway Geometric Design                          | Design of visible elements of roadway, design controls, at-grade intersections, freeways, and interchanges.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Engineering CEE Graduate student; Credit is allowed for only CEE 475 or 576   |
| CEE     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | N                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 1-12  |                 | Pre-requisite: Engineering CEE Graduate student  |
| CEE     | 581         | Advanced Earth Systems Engineering and Management | Advanced introduction to earth systems engineering and management, and the technological, economic and cultural systems underlying the terraformed Earth.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Civil, Environmental, and Sustainable Engineering Graduate student; Credit is allowed for only CEE 581 or SOS 552   |
| CEE     | 582         | Industrial Ecology and Design for Sustainability  | The conceptual, ethical, and practical challenges in the design, manufacture, and life cycle performance of products; environmental evaluation via materials flow analysis and life cycle assessment; global economic, environmental, cultural, and social aspects of competitive and functional product development and manufacture.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program | 3     |                 | Pre-requisite: Civil, Environmental, and Sustainable Engineering Graduate student  |

|---------|-------------|--------------------------------------|---|-------------------|-------------------|-----------------|---------------|---------------------------|---|-------|-----------------|---|
| CEE     | 583         | Fieldwork                            | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program    | 1-12  |                 | Pre-requisite: Civil, Environmental, and Sustainable Engineering Graduate student; Credit is allowed for only CEE 483 or 583          |
| CEE     | 584         | Internship                           | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program    | 1-12  |                 | Pre-requisite: Civil, Environmental, and Sustainable Engineering Graduate student   |
| CEE     | 585         | Civil Engineering Project Management | Civil engineering project management and administration, planning and scheduling, cost estimating and bidding strategies, financial management, quality control and safety, and computer applications.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program    | 3     |                 | Prerequisite(s): MS, MSE or PhD Civil, Environmental and Sustainable Engineering major. Credit is allowed for only CEE 481 or CEE 585 |
| CEE     | 590         | Reading and Conference               | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | N                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program    | 1-12  |                 | Pre-requisite: Civil Engineering MS or MSE student  |
| CEE     | 591         | Seminar                              | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program    | 1-12  |                 | Pre-requisite: Engineering CEE Graduate student   |
| CEE     | 592         | Research                             | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | N                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program    | 1-12  |                 | Pre-requisite: Civil Engineering MS or MSE student  |
| CEE     | 593         | Applied Project                      | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program    | 1-12  |                 | Pre-requisite: Civil, Environmental, and Sustainable Engineering Graduate student   |
| CEE     | 594         | Conference and Workshop              | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program    | 1-12  |                 | Pre-requisite: Civil, Environmental, and Sustainable Engineering Graduate student   |
| CEE     | 595         | Continuing Registration              | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | N                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program    | 1     |                 | Pre-requisite: Civil Engineering MS or MSE student  |
| CEE     | 598         | Special Topics                       | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program    | 1-4   |                 | Pre-requisite: Engineering CEE Graduate student   |
| CEE     | 599         | Thesis                               | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | N                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program    | 1-12  |                 | Pre-requisite: Civil Engineering MS or MSE student  |
| CEE     | 692         | Research                             | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program    | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEE     | 784         | Internship                           | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program    | 1-12  |                 | Pre-requisite: Civil, Environmental, and Sustainable Engineering Graduate student   |
| CEE     | 790         | Reading and Conference               | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | N                 | IND               | Y               | OPT           | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program    | 1-12  |                 | Pre-requisite: Civil Engineering PhD student  |
| CEE     | 792         | Research                             | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | N                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program    | 1-15  |                 | Pre-requisite: Civil Engineering PhD student  |
| CEE     | 795         | Continuing Registration              | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | N                 | IND               | Y               | Z3            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program    | 1     |                 | Pre-requisite: Civil Engineering PhD student  |
| CEE     | 799         | Dissertation                         | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering | Civil, Environmental and Sustainable Eng Program    | 1-15  |                 | Prerequisite(s): Civil Engineering PhD student  |
| CEL     | 191         | First-Year Seminar                   | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Civic and Economic Thought and Leadership | 1-3   |                 |   |
| CEL     | 194         | Special Topics                       | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Civic and Economic Thought and Leadership | 1-4   |                 |   |
| CEL     | 294         | Special Topics                       | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Civic and Economic Thought and Leadership | 1-4   |                 |   |
| CEL     | 394         | Special Topics                       | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Civic and Economic Thought and Leadership | 1-4   |                 |   |
| CEL     | 484         | Internship                           | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Civic and Economic Thought and Leadership | 1-12  |                 |   |
| CEL     | 492         | Honors Directed Study                | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Civic and Economic Thought and Leadership | 1-6   |                 |   |
| CEL     | 493         | Honors Thesis                        | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Civic and Economic Thought and Leadership | 1-6   |                 |   |
| CEL     | 494         | Special Topics                       | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Civic and Economic Thought and Leadership | 1-4   |                 |   |
| CEL     | 498         | Pro-Seminar                          | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Civic and Economic Thought and Leadership | 1-7   |                 |   |
| CEL     | 499         | Individualized Instruction           | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Civic and Economic Thought and Leadership | 1-3   |                 |   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                               | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|---|
| CEN     | 501         | Computer Systems I   | Introduces digital CMOS circuit and logic design and signal processing and analysis. Design of digital CMOS logic gates, combinational and sequential logic circuits, arithmetic logic unit; register-transfer-level design; Fourier and z transforms, filters, sampling, random variables, distribution and density functions.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Pre-requisites: Computer Engineering Graduate student; Credit is allowed for only CEN 501 or 591 (Computer Systems I)   |
| CEN     | 502         | Computer Systems II  | Covers fundamentals of computer architecture and focuses on basic principles of systems programming, operating systems, compilers and networking topics that cover the computer science to computer engineering interface.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Pre-requisite: Computer Engineering Graduate student; Credit is allowed for only CEN 502 or 591 (Computer Systems II)   |
| CEN     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 |   |
| CEN     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 |   |
| CEN     | 590         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 593         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 594         | Conference and Workshop  | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 |   |
| CEN     | 595         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 790         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 792         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 795         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CEN     | 799         | Dissertation   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHE     | 100         | Introduction to Chemical Engineering                           | Introduces design in chemical engineering, teaming, chemical engineering profession, computer models, communication skills, quality and customer satisfaction. A basic understanding of high school algebra, computing, and physics are necessary to be successful in this course.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program             | 2     |                 | Pre-requisite: Ira A. Fulton School of Engineering and University College student   |
| CHE     | 191         | First-Year Seminar   | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | SEM               | Y               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program             | 1-3   |                 |   |
| CHE     | 194         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program             | 1-4   |                 |   |
| CHE     | 211         | Introduction to Chemical Processing                            | Applies chemical engineering analysis and problem solving to chemical processes material and energy balance methods and skills.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program             | 3     |                 | Prerequisite(s): CHM 116 with C or better; MAT 266 or 271 with C or better  |
| CHE     | 231         | Introduction to Transport Phenomena I: Fluids                  | Transport phenomena, with emphasis on fluid systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program             | 3     |                 | Prerequisite(s): CHE 211 with C or better; MAT 266 or 271 with C or better; PHY 121 with C or better; Corequisite(s): MAT 274 or 275; Credit is allowed for only CHE 231 or 501 |
| CHE     | 294         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program             | 1-4   |                 |   |
| CHE     | 298         | Honors Directed Study  | Independent study or practicum under the supervision of a faculty member.   | N                 | RSC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program             | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| CHE     | 334         | Introduction to Transport Phenomena II: Heat and Mass Transfer | Applies heat and mass transport principles. Design of heat exchangers and continuous contactors.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program             | 3     |                 | Prerequisite(s): Chemical Engineering BSE major; CHE 231 with C or better   |
| CHE     | 342         | Introduction to Applied Chemical Thermodynamics                | Applies conservation and accounting principles with nonideal property estimation techniques.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program             | 3     |                 | Prerequisite(s): Chemical Engineering BSE major; CHE 231 with C or better; Pre- or corequisite(s): MAT 267 or 272 with C or better if completed                                 |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                               | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                   | Units | General Studies | Requirements  |

| CHE     | 493         | Honors Thesis                              | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Ira A. Fulton Engineering | Chemical Engineering Program | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| CHE     | 494         | Special Topics                             | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 1-4   |                 | Prerequisite(s): Fulton Engineering undergraduate student   |
| CHE     | 498         | Pro-Seminar                                | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | SEM               | Y               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 1-7   |                 | Prerequisite(s): Fulton Engineering undergraduate student   |
| CHE     | 499         | Individualized Instruction                 | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | Ira A. Fulton Engineering | Chemical Engineering Program | 1-3   |                 |   |
| CHE     | 518         | Fundamentals of Microelectronics Packaging | Multidisciplinary foundation course in addressing electrical, thermal, materials, chemical, manufacturing, and reliability problems in packaging.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     |                 | Pre-requisites: Engineering Graduate student; Credit is allowed for only MSE 518, EEE 518, MAE 518, MSE 475, or CHE 518   |
| CHE     | 533         | Transport Processes I                      | Unified treatment of momentum, heat, and mass transfer from molecular theory, and continuum points of view. Continuum equations of microscopic and macroscopic systems and multicomponent and multiphase systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     |                 | Prerequisite(s): graduate Engineering major. Credit is allowed for only BME 533 or CHE 533 or MAE 533   |
| CHE     | 543         | Thermodynamics of Chemical Systems         | Classical and statistical thermodynamics of nonideal physicochemical systems and processes; prediction of optimum operating conditions.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     |                 | Pre-requisites: Graduate Engineering student  |
| CHE     | 544         | Chemical Reactor Engineering               | Reaction rates, thermodynamics, and transport principles applied to the design and operation of chemical reactors.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering graduate student  |
| CHE     | 561         | Advanced Process Control                   | Dynamic process representation, linear optimal control, optimal state reconstruction, and parameter and state estimation techniques for continuous and discrete time systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering graduate student  |
| CHE     | 569         | Air Quality Engineering                    | Chemical and physical processes by which air pollutants are generated and controlled with an emphasis on urban air quality.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 3     |                 | Prerequisite(s): graduate Engineering major; Credit is allowed for only CEE 469 or CEE 569 or CHE 469 or CHE 569  |
| CHE     | 580         | Practicum                                  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Engineering graduate student  |
| CHE     | 584         | Internship                                 | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Ira A. Fulton Engineering | Chemical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Engineering graduate student  |
| CHE     | 590         | Reading and Conference                     | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | SEM               | Y               | Z2            | Ira A. Fulton Engineering | Chemical Engineering Program | 1-12  |                 | Prerequisite(s): graduate Chemical Engineering student  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                        | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                                   | Units | General Studies | Requirements   |
|---------|-------------|-------------------------------------|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|--|
| CHE     | 591         | Seminar                             | A small class emphasizing discussion, presentations by students, and written research papers.   | N                 | SEM               | Y               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program                 | 1-12  |                 | Prerequisite(s): Fulton Engineering graduate student   |
| CHE     | 592         | Research                            | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering | Chemical Engineering Program                 | 1-12  |                 | Pre-requisites: Chemical Engineering Master's degree student   |
| CHE     | 593         | Applied Project                     | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering | Chemical Engineering Program                 | 1-12  |                 | Prerequisite(s): graduate CHE major  |
| CHE     | 594         | Conference and Workshop             | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | SEM               | Y               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program                 | 1-12  |                 | Prerequisite(s): Fulton Engineering graduate student   |
| CHE     | 595         | Continuing Registration             | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Ira A. Fulton Engineering | Chemical Engineering Program                 | 1     |                 | Prerequisite(s): Fulton Engineering graduate student   |
| CHE     | 598         | Special Topics                      | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program                 | 1-4   |                 | Pre-requisite: Graduate Engineering student  |
| CHE     | 599         | Thesis                              | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering | Chemical Engineering Program                 | 1-12  |                 | Pre-requisites: Chemical Engineering Master's degree student   |
| CHE     | 695         | Continuing Registration             | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Ira A. Fulton Engineering | Chemical Engineering Program                 | 1     |                 | Prerequisite(s): Fulton Engineering graduate student   |
| CHE     | 780         | Practicum                           | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Ira A. Fulton Engineering | Chemical Engineering Program                 | 1-12  |                 | Prerequisite(s): Fulton Engineering graduate student   |
| CHE     | 792         | Research                            | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Chemical Engineering Program                 | 1-15  |                 | Pre-requisites: Chemical Engineering Doctoral student  |

| CHI     | 101         | First-Year Chinese I                | Pronunciation, grammar, elementary conversation, and development of basic reading and writing skills. Standard dialect. 5 class hours.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 5     | G               | Credit is allowed for only CHI 101 or MND 101  |
| CHI     | 102         | First-Year Chinese II               | Pronunciation, grammar, elementary conversation, and development of basic reading and writing skills. Standard dialect. 5 class hours.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 5     | G               | Prerequisite(s): CHI 101; Credit is allowed for only CHI 102 or MND 102                                    |
| CHI     | 110         | Intensive Chinese I                 | Adopts different pedagogical approaches to help students acquire basic skills in listening, speaking, reading and writing in Modern Standard Chinese. While linguistic elements are the focus of this course, appropriate cultural information related to language use is also an important component of instruction. Trains students to be able to function successfully in Chinese culture. Students don't simply learn to "speak Chinese" or read and write characters as some form of party trick. Teaches a practical skill set that allows students to communicate and behave appropriately in Chinese culture.   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 6-8   |                 | Credit is allowed for only CHI 101 or CHI 102 or CHI 110   |
| CHI     | 120         | Introduction to Chinese Culture     | Introduces geographical, historical, literary, and intellectual premises of Chinese culture.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | L or HU         | Pre/Co-requisites: ENG 101, 105, or 107; Credit is allowed for only SLC 120 or CHI                         |
| CHI     | 191         | First-Year Seminar                  | Small course emphasizing student-faculty discussion/interaction. Strongly recommended for first-year students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-3   |                 | Pre-requisites: Maximum 25 hours   |
| CHI     | 194         | Special Topics                      | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-4   |                 |  |
| CHI     | 201         | Second-Year Chinese I               | Systematic review of grammar. Development of vocabulary through reading and writing. Drill in aural/oral skills. 5 class hours.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 5     | G               | Prerequisite(s): CHI 102; Credit is allowed for only CHI 201 or MND 201                                    |
| CHI     | 202         | Second-Year Chinese II              | Systematic review of grammar. Development of vocabulary through reading and writing. Drill in aural/oral skills. 5 class hours.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 5     | G               | Prerequisite(s): CHI 201; Credit is allowed for only CHI 202 or MND 202                                    |
| CHI     | 205         | Chinese Calligraphy                 | Introduces styles and techniques of Chinese writing. Requires no knowledge of Chinese or Japanese.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1     |                 |  |
| CHI     | 210         | Intensive Chinese II                | Intensive 2nd-year college-level Modern Standard Chinese designed for students who are highly motivated and have successfully completed at least 1st-year college-level Modern Standard Chinese language course or equivalent. Reviews and reinforces 1st-year Chinese grammatical patterns and introduces new ones in order to further develop students' communicative competence in listening, speaking, reading and writing in modern Chinese. Introduces over 500 new characters and presents and expands an equal number of spoken vocabulary items. Students increase their vocabulary, consolidate their grammar, describe objects and express ideas more accurately and fluently. | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 6-8   |                 | Prerequisite(s): CHI 102 or 110 with C or better; Credit is allowed for only CHI 201 or CHI 202 or CHI 210 |
| CHI     | 294         | Special Topics                      | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-4   |                 |  |
| CHI     | 301         | Third-Year Chinese I                | Expansion of proficiency in listening comprehension, speaking, reading, and writing.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 5     | G               | Prerequisite(s): CHI 202 with C or better  |
| CHI     | 302         | Third-Year Chinese II               | Continuation of CHI 301.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 5     | G               | Prerequisite(s): CHI 301 with C or better  |
| CHI     | 307         | Introduction to Literary Chinese I  | Reading in various genres of pre-20th century literature (wen-yen), with analysis of the structure of the classical writings.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | HU              | Prerequisite(s): CHI 302 or JPN 202 or KOR 202 with C or better  |
| CHI     | 308         | Introduction to Literary Chinese II | Continuation of CHI 307.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | HU              | Prerequisite(s): CHI 307 with C or better  |
| CHI     | 321         | Chinese Literature                  | Masterworks of the tradition from the 7th century BCE through the 13th century. Readings, lectures, and examinations are in English.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | HU              |  |
| CHI     | 322         | Chinese Literature                  | Masterpieces from the later tradition and its transition to modern times. Readings, lectures, and examinations are in English.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | HU & G          |  |

| CHI     | 333         | China   | Political, economic, social, and cultural history of the Chinese people from early times to the 17th century.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | SB & H            | Prerequisite(s): ENG 102, 105 or 108 with C or better; minimum 30 hours; Credit is allowed for only CHI 333, HST 383 or SLC 333           |
| CHI     | 335         | History of Chinese Medicine                       | Explores developments of Chinese traditions dealing with the natural world, science, and medicine.   | N                 | LEC               | N               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | HU & H & G        | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 30 hours; Credit is allowed for only CHI 335 or HST 385 or SLC 335        |
| CHI     | 336         | Interpreting China's Classics                     | Study of selected Confucian and/or Taoist classics and ways they have been read in both Asian and Western scholarship.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | (L or HU) & H     | Prerequisite(s): ENG 102, 105 or 108 with C or better; minimum 30 hours; Credit is allowed for only CHI 336, HST 386 or SLC 336           |
| CHI     | 338         | The Daoist Bible: The Daode jing                  | At 5,000 words, the Daode Jing (Tao-te ching) is arguably the shortest religious book in the world. It is also the most widely translated, after the Christian Bible. Introduces the wisdom of the Old Boy, Laozi himself, and to some of the startlingly wide variety in which his short, gnomic utterances have been interpreted. No knowledge of Chinese required; all readings and lectures in English.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | HU & L            | Prerequisite(s): ENG 101, 105 or 107 with C or better; Credit is allowed for only CHI 338, 394 (Daoist Bible: The Dao De Jing) or REL 338 |
| CHI     | 343         | Daoism  | Introduces the history, doctrines, and practices of Taoism from the mid-second century CE up to the present.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | (L or HU) & G & H | Prerequisite(s): ENG 102, 105 or 108 with C or better; minimum 24 hours; Credit is allowed for only CHI or REL 343                        |
| CHI     | 345         | Chinese Film and Civilization                     | Screening and discussion of recent films from China, Taiwan, and Hong Kong in the context of modern Chinese civilization.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                   |   |
| CHI     | 346         | Chinese Religions                                 | Examines the history and practices of Chinese religions with particular attention to culture, society, and history.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                   | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 24 hours; Credit is allowed for only CHI 346 or REL 346                   |
| CHI     | 348         | Pathways into Chinese Culture                     | Introduces some important aspects of China's cultural history and traditions. Provides an overview of Chinese history and culture and reviews major developments in science and technology. Incorporates current social and cultural topics and reviews through the lens of historical context. Classroom activities enable students to gain a better understanding of traditional Chinese culture with respect to both elite and popular culture. Conducted in Mandarin and is designed for the students who are currently enrolled in CHI 301 and CHI 401 or whose Chinese proficiency level in all four skills (speaking, listening, reading and writing) are at the intermediate mid to intermediate high level according to ACTFL guidelines. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                   | Prerequisite(s): CHI 202 with C or better. Credit is allowed for only CHI 348 or CHI 394 (Pathways into Chinese Culture)                  |
| CHI     | 380         | The Chinese Language                              | Introduces the Chinese languages from linguistic perspectives. Topics include the linguistic structure and characteristics (phonetics, phonology, morphology and syntax) of the Chinese language; linguistic history and dialects of Chinese; and its relationship with culture.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                   |   |
| CHI     | 394         | Special Topics                                    | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-4   |                   |   |
| CHI     | 401         | Fourth-Year Chinese I                             | Focuses on solidifying and improving students' knowledge of modern Mandarin. Emphasizes learning strategies to increase reading and listening comprehension, as well as further strengthening oral fluency and written skills. Surveys a wide variety of original text and media materials, in both full-form and simplified characters. Conducted in Chinese.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | G                 | Prerequisite(s): CHI 302 with C or better   |
| CHI     | 402         | Fourth-Year Chinese II                            | Continuation of CHI 401.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | G                 | Prerequisite(s): CHI 401 with C or better   |
| CHI     | 407         | Chinese for Academic and Professional Purposes I  | Part of the Chinese Flagship program; course has a three-fold objective: (1) to improve language proficiency in all four language skills; (2) to support other Flagship courses by introducing specific vocabulary, literary genres, key reference materials; and (3) to develop the use of explicit language learning strategies that support professional-level literacy.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | G                 | Prerequisite(s): CHI 402 with C or better   |
| CHI     | 408         | Chinese for Academic and Professional Purposes II | Part of the Chinese Flagship Program. Improves language proficiency in all four language skills; supports other Flagship courses by introducing specific vocabulary, literary genres, key reference materials; develops the use of explicit language learning strategies that supports professional level literacy. All course work in Mandarin Chinese.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | G                 | Prerequisite(s): CHI 407 with C or better   |
| CHI     | 430         | Readings in Chinese Religions                     | Readings in Chinese religious texts, including Buddhism, Daoism, local religious cults, and others. May be repeated once for credit.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                   | Prerequisite(s): CHI 308 with C or better   |
| CHI     | 450         | Classical Prose                                   | Readings in classical prose forms, including guwen, sanwen, pianwen, fu, and incidental writings. Course content varies with instructor.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                   | Prerequisite(s): CHI 308 with C or better   |
| CHI     | 451         | Chinese Cultural History I                        | China's classics in translation studied both for their intrinsic ideas and for the origins of Chinese thought.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | (HU or SB) & H    | Prerequisite(s): ENG 102, 105 or 108 with C or better; minimum 55 hours; Credit is allowed for only CHI 451, HST 451 or SLC 451           |
| CHI     | 452         | Chinese Cultural History II                       | Evolution of Confucian thought, its synthesis with Taoism and Buddhism, and modern reactions against, and uses of, Confucian traditions.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | SB & G & H        | Prerequisite(s): ENG 102, 105 or 108 with C or better; minimum 55 hours; Credit is allowed for only CHI 452 or HST 452 or SLC 452         |
| CHI     | 461         | Readings in Traditional Chinese Literature I      | Readings in performance literature in colloquial Chinese. Bianwen, zhugongdiao, baojuan, zaju, chuangqi drama.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                   | Pre-requisites: CHI 302; CHI 307 with C or better   |
| CHI     | 462         | Readings in Traditional Chinese Literature II     | Readings in the shorter and longer fiction of the late imperial period written in classical vernacular language.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                   | Prerequisite(s): CHI 302; CHI 308   |
| CHI     | 470         | Modern Chinese Literature and Culture             | Readings in modern Chinese literary texts, including prose, fiction, and poetry. Course content changes with instructor.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                   | Prerequisite(s): CHI 302 with C or better   |
| CHI     | 482         | History of the Chinese Language                   | Introduces the history of the Chinese language. Graduate/advanced undergraduate-level introductory course on the historical changes of the sounds, writing system, grammar, and other aspects of the Chinese language. Topics include the historical phonology of Chinese, development of graphs (Hanzi), some topics of syntactic changes in texts, morphology, lexicography, cultural implication of language.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                   | Pre-requisites: CHI 302; CHI 308  |
| CHI     | 492         | Honors Directed Study                             | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.  | N                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures | 1-6   |                   | Prerequisite(s): Barrett Honors student   |
| CHI     | 493         | Honors Thesis                                     | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | LEC               | N               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures | 1-6   | L                 | Prerequisite(s): Barrett Honors student   |

## ASU Course Catalog Archive - Summer 2018

|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|---|
| CHI     | 494         | Special Topics                                     | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-4   |                 |   |
| CHI     | 499         | Individualized Instruction                         | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures | 1-3   |                 |   |
| CHI     | 500         | Research Methods                                   | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 509         | Methods of Research in Chinese Applied Linguistics | Offers an overview of issues in applied linguistics, specifically related to the teaching and learning of Chinese as a second language. Divided according to broad topics and may vary depending on interests and background of class participants.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student. Credit is allowed only for CHI 509 or 591 (Chinese Applied Linguistics) |
| CHI     | 514         | Advanced Classical Chinese                         | Close readings in selected premodern texts, with focus on special grammatical features, and increased vocabulary.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 520         | Teaching of Chinese as a Second Language           | Theory and practice of teaching Chinese, including presentation, interaction, and evaluation, with consideration given to cultural factors.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 561         | Readings in Traditional Xiaoshuo                   | Introduces major issues, texts, and resource materials for the study of narrative forms, including short stories and longer works of fiction. Focuses on the period from 1400 to 1900. One year of university-level classical Chinese or equivalent proficiency; three years of university-level modern Chinese recommended.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 590         | Reading and Conference                             | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 593         | Applied Project                                    | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 595         | Continuing Registration                            | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences | School of International Letters and Cultures | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 598         | Special Topics                                     | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 600         | Research Methods                                   | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 680         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHI     | 683         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| CHM     | 108         | Chemistry and Society Laboratory           | Experiments in chemical principles presented in chemistry and society lectures (CHM 107). Students must complete both CHM 107 and CHM 108 to receive an SQ (General Studies).  | N                 | LAB               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts     | 1     | SQ              |   |
| CHM     | 108         | Chemistry and Society Laboratory           | Experiments in chemical principles presented in chemistry and society lectures (CHM 107). Students must complete both CHM 107 and CHM 108 to receive an SQ (General Studies).  | N                 | LAB               | N               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                 | 1     | SQ              | Pre/Co-requisite: CHM 107   |
| CHM     | 111         | General Chemistry Laboratory for Majors I  | Laboratory course in general chemistry for chemistry and biochemistry majors intended to complement CHM 117 lecture course. Covers a diverse range of laboratory experiments appropriate to chemistry and biochemistry majors designed to reinforce chemical principles and to develop a broad range of chemical synthesis skills. Uses modern analytic and characterization techniques to study the physical and chemical properties of substances. Suitable for students who have completed introductory chemistry at the high school level. Both CHM 117 and CHM 111 must be taken to secure SQ General Studies credit. | N                 | LAB               | N               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                 | 1     | SQ              | Pre- or corequisite(s): Biochemistry, Biophysics or Chemistry major; CHM 117 with C or better   |
| CHM     | 112         | General Chemistry Laboratory for Majors II | Continuation of CHM 111 laboratory course in general chemistry for chemistry and biochemistry majors intended to complement CHM 118 lecture course. Covers a diverse range of laboratory experiments appropriate to chemistry and biochemistry majors designed to reinforce chemical principles and to develop a broad range of chemical synthesis skills. Uses modern analytic and characterization techniques to study the physical and chemical properties of substances. Both CHM 118 and CHM 112 must be taken to secure SQ General Studies credit.   | N                 | LAB               | N               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                 | 1     | SQ              | Pre- or corequisite(s): Biochemistry, Biophysics or Chemistry major; CHM 111 with C or better; Pre- or corequisite(s): CHM 118 with C or better   |
| CHM     | 113         | General Chemistry I                        | Principles of chemistry. Adapted to the needs of students in the physical, biological, and earth sciences.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts     | 4     | SQ              | Prerequisite(s): CHM 101 with C or better, or Mathematics Placement Test score of 50% or higher, or ALEKS score of 61 or higher, OR Pre- or corequisite(s): MAT 170, 171, 210, 251, 265 or 270 with C or better if completed  |
| CHM     | 113         | General Chemistry I                        | Principles of chemistry. | CHM     | 116         | General Chemistry II                    | Continuation of CHM 113. Equilibrium theory, thermodynamics, kinetics, electrochemistry, nuclear chemistry, descriptive chemistry.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts    | 4     | SQ              | Prerequisite(s): CHM 113, 114, or 117 with C or better  |
| CHM     | 116         | General Chemistry II                    | Continuation of CHM 113. Equilibrium theory, thermodynamics, kinetics, electrochemistry, nuclear chemistry, descriptive chemistry.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 4     | SQ              | Prerequisite(s): CHM 113, 114, or 117 with C or better  |
| CHM     | 116         | General Chemistry II                    | Continuation of CHM 113. Equilibrium theory, thermodynamics, kinetics, electrochemistry, nuclear chemistry, descriptive chemistry.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 4     | SQ              | Prerequisite(s): CHM 113, 114, or 117 with C or better  |
| CHM     | 117         | General Chemistry for Majors I          | Lecture course in general chemistry for chemistry and biochemistry majors and is complemented by the CHM 111 laboratory course. Covers electronic structure of atoms and molecules, intermolecular forces, bonding models, molecular geometry, physical states of matter, gas laws, and chemistry of condensed matter and modern materials. Highlights chemical reactivity, periodic trends and descriptive chemistry. Both CHM 111 and CHM 117 must be taken to secure SQ General Studies credit. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 3     | SQ              | Prerequisite(s): Biochemistry, Biophysics, or Chemistry major; CHM 101 with C or better, or Mathematics Placement Test score of >=50%, or ALEKS score of >=61, or Pre- or corequisite(s): MAT 170, 171, 210, 251, 265, or 270 with C or better if completed |
| CHM     | 118         | General Chemistry for Majors II         | Continuation of CHM 117 lecture course in general chemistry for chemistry and biochemistry majors and is complemented by the major's CHM 112 laboratory course. Topics include thermodynamics, properties of solutions, chemical equilibrium, aqueous chemistry, acids and bases, electrochemistry, chemical kinetics, nuclear chemistry, coordination chemistry. Both CHM 118 and CHM 112 must be taken to secure SQ General Studies credit.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 3     | SQ              | Prerequisite(s): Biochemistry, Biophysics, or Chemistry major; CHM 117 with C or better   |
| CHM     | 191         | First-Year Seminar                      | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 1-3   |                 | Pre-requisites: Biochemistry or Chemistry major; Maximum 45 hours   |
| CHM     | 194         | Special Topics                          | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 1-4   |                 |   |
| CHM     | 231         | Elementary Organic Chemistry            | Surveys organic chemistry, with emphasis on the reactivity of basic functional groups. Both CHM 231 and 235 must be taken to secure SQ General Studies credit.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts    | 3     | SQ              | Prerequisite(s): CHM 101, 114, 116, or 118 with C or better   |
| CHM     | 231         | Elementary Organic Chemistry            | Surveys organic chemistry, with emphasis on the reactivity of basic functional groups. Both CHM 231 and 235 must be taken to secure SQ General Studies credit.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 3     | SQ              | Prerequisite(s): CHM 101, 114, 116, or 118 with C or better   |
| CHM     | 231         | Elementary Organic Chemistry            | Surveys organic chemistry, with emphasis on the reactivity of basic functional groups. Both CHM 231 and 235 must be taken to secure SQ General Studies credit.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     | SQ              | Prerequisite(s): CHM 101, 114, 116, or 118 with C or better   |

| CHM     | 435         | Medicinal Chemistry            | Principles of medicinal and pharmaceutical chemistry. Drug design, synthesis, and mechanism of action.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 3     |                 | Prerequisite(s): BCH 361 or BCH 461 or CHM 460; CHM 234 or CHM 334; Credit is allowed for only CHM 435 or CHM 535   |
| CHM     | 442         | Practical NMR Spectroscopy     | Covers the practical operation of NMR spectrometers, common <sup>1</sup> H/ <sup>13</sup> C/X nuclei NMR spectroscopy, safety around NMR spectrometers and basic NMR data processing, handling and analysis.  | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 1     |                 | Prerequisite(s): CHM 101, 114, 116, or 118 with C or better; Credit is allowed for only CHM 442 or CHM 494 (Practical Nuclear Magnetic Resonance Spectroscopy) or CHM 542 |
| CHM     | 452         | Inorganic Chemistry Laboratory | Preparation and characterization of typical inorganic substances, emphasizing methods and techniques. CHM 348, CHM 349 and CHM 452 must be taken to secure L General Studies credit.  | N                 | REC               | N               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 1     | L               | Pre- or corequisite(s): CHM 453 with C or better if completed   |
| CHM     | 453         | Inorganic Chemistry            | Principles and applications of inorganic chemistry.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 3     |                 | Prerequisite(s): BCH 341 or CHM 341 or CHM 346 with C or better   |
| CHM     | 460         | Biological Chemistry           | Structure and function of macromolecules and their involvement in the processing of energy and information by living cells.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 3     |                 | Prerequisite(s): CHM 234 or 334 with C or better; CHM 346 with C or better  |
| CHM     | 471         | Solid-State Chemistry          | Crystal chemistry, thermodynamics and electrochemistry of solids, nonstoichiometric compounds, diffusion and solid-state reactions, crystal growth, and selected topics.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 3     |                 | Pre- or corequisite(s): CHM 346 with C or better if completed; Credit is allowed for only CHM 471 or CHM 571  |
| CHM     | 480         | Methods of Teaching Chemistry  | Organization and presentation of appropriate content of chemistry; preparation of reagents, experiments, and demonstrations; organization of stock rooms and laboratories; experience in problem solving.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts    | 3     |                 |   |
| CHM     | 480         | Methods of Teaching Chemistry  | Organization and presentation of appropriate content of chemistry; preparation of reagents, experiments, and demonstrations; organization of stock rooms and laboratories; experience in problem solving.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 3     |                 |   |
| CHM     | 481         | Geochemistry                   | Origin and distribution of the chemical elements. Geochemical cycles operating in the Earth's atmosphere, hydrosphere, and lithosphere.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 3     |                 | Prerequisite(s): BCH 341, CHM 341, CHM 346, or GLG 321 with C or better; Credit is allowed for only CHM 481 or GLG 481  |
| CHM     | 484         | Internship                     | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | School of Molecular Sciences                | 1-12  |                 |   |
| CHM     | 484         | Internship                     | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | RSC               | Y               | Z1            | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1-12  |                 |   |
| CHM     | 485         | Meteorites and Cosmochemistry  | Chemistry of meteorites and their relationship to the origin of the Earth, solar system, and universe.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 3     |                 | Prerequisite(s): CHM 341, CHM 346, or GLG 321 with C or better; Credit is allowed for only GLG 485 or CHM 485   |
| CHM     | 489         | Field Geochemistry             | Explores basic field measurements and sampling techniques for environmental systems, with a focus on carbon cycling in the Colorado River. Surveys a variety of geochemical principles, including: equilibrium aqueous speciation, acid-base chemistry, solution-mineral equilibrium systems, oxidation-reduction reactions, organic and environmental geochemistry and biogeochemical cycles. Applies chemical principles and analytical techniques to answer questions about environmental systems and processes.   | N                 | LEL               | N               | GNA           | Liberal Arts and Sciences    | School of Molecular Sciences                | 3     | L               | Prerequisite(s): CHM 302 or GLG 321 or GLG 481 with C or better; Credit is allowed for only CHM 489 or GLG 490 (Field Geochemistry)                                       |
| CHM     | 492         | Honors Directed Study          | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | School of Molecular Sciences                | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| CHM     | 493         | Honors Thesis                  | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Liberal Arts and Sciences    | School of Molecular Sciences                | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| CHM     | 494         | Special Topics                 | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 1-4   |                 |   |
| CHM     | 494         | Special Topics                 | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1-4   |                 |   |
| CHM     | 497         | Honors Colloquium              | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | N                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| CHM     | 498         | Pro-Seminar                    | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 1-7   |                 |   |
| CHM     | 499         | Individualized Instruction     | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | IND               | Y               | Z1            | Liberal Arts and Sciences    | School of Molecular Sciences                | 1-3   |                 |   |
| CHM     | 499         | Individualized Instruction     | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. | CHM     | 501         | Current Topics in Chemistry    |   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHM     | 520         | Chemical Biology               | Chemical biology, broadly defined, is the application of chemical tools toward the study biological problems. The purpose of this class is to provide the foundation for translational research involving cross-disciplinary approaches to tackling significant problems in the biosciences. This one-semester class will cover topics ranging from traditional molecular biology and biochemistry to state-of-the-art techniques in genomics and proteomics. Particular emphasis will be placed on modern concepts in enzymology. The class will be taught using a combination of current literature and text-based materials. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 3     |                 | Pre-requisites: Graduate students (degree and non-degree); Credit is allowed for only BCH 520 or CHM 520  |
| CHM     | 523         | Advanced Analytical Chemistry  | Theoretical principles of analytical instrumentation and measurements.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CHM     | 524         | Separation Science             | Addresses principles and applications for all areas of chemical separations. Emphasizes separations principles in microfluidics and its interface with nanotechnology and traditional electronic materials.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Molecular Sciences                | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| CHM     | 531         | Advanced Organic Chemistry I                  | Reaction mechanisms, reaction kinetics, linear free energy relationships, transition state theory, molecular orbital theory, and Woodward-Hoffmann rules.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Pre-requisite: degree- or nondegree-seeking graduate. Credit is allowed for only CHM 433 or CHM 531  |
| CHM     | 532         | Advanced Organic Chemistry II                 | Organic mechanisms, thermodynamic and kinetic control, structure/activity relationships, isotope effects, multistep reactions, reactive intermediates, radical reactions, electron transfer.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 535         | Medicinal Chemistry                           | Principles of medicinal and pharmaceutical chemistry. Drug design, synthesis, and mechanism of action.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Pre-requisites: Graduate degree or non-degree seeking students; Credit is allowed for only CHM 435 or 535  |
| CHM     | 540         | Integrated Physics and Chemistry              | Collaborative inquiry methods for teaching and coordinating physics and chemistry.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only CHM 540 or PHS 540  |
| CHM     | 541         | Advanced Thermodynamics                       | Equilibrium thermodynamics. Chemical reactions, phase equilibria, and stability in multicomponent systems. Aqueous solutions and electrochemistry. Introduces statistical thermodynamics.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only CHM 541 or MSE 524  |
| CHM     | 542         | Practical NMR Spectroscopy                    | Covers the practical operation of NMR spectrometers, common <sup>1</sup> H/ <sup>13</sup> C/X nuclei NMR spectroscopy, safety around NMR spectrometers and basic NMR data processing, handling and analysis.  | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CHM 442 or CHM 542 or CHM 598 (Practical Nuclear Magnetic Resonance Spectroscopy) |
| CHM     | 543         | Computational Chemistry                       | Provides basic concepts and practical experience in computational chemistry as applied to molecules and solids. Systematically covers theoretical background and applied aspects of electronic structure methods/simulation, and related visualization techniques. Provides weekly laboratory session will provide hands-on experience with state-of-the-art molecular and solid-state simulation/visualization packages, with an emphasis on their reliability, predictive capability and practical limitations. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences | 4     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking). Pre/Co-requisite: CHM 545  |
| CHM     | 544         | Introduction to Nanoscience                   | Survey of nanoscience: quantum/ statistical mechanics/kinetics; measurement and fabrication methods; applications to materials, nano electronics, molecular electronics and nano-biology.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only CHM 544, NAN 544, PHY 444 or PHY 544                                       |
| CHM     | 545         | Quantum Chemistry                             | Wave and matrix formulation of quantum mechanics applied to the vibrational, rotational, and electronic states of polyatomic molecules. Hartree-Fock, electron correlation, and molecular orbital theory. Selection rules and introduction to group theory.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 546         | Molecular Spectroscopy and Group Theory       | Applies quantum mechanics to the general problem of the interaction of light with molecular systems. Angular momentum and group theory. Symmetry classifications. Overview of the formalism and experimental techniques in different resonant-based spectroscopies.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 549         | Advanced Topics in Physical Chemistry         | Various advanced and special topics in physical chemistry. Previous topics included: supercooled liquids and the glass transition, vibrational spectroscopy of solids, phase transitions and critical phenomena.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 553         | Advanced Inorganic Chemistry                  | Principles of modern inorganic chemistry applied over the entire periodic system. Bonding theory, chemical reactivity, spectroscopic and magnetic properties.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 560         | Matter and Light                              | Interactions of light with matter. Lasers and spectroscopy.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CHM 560 or PHS 560  |
| CHM     | 571         | Structure, Bonding, and Symmetry in Materials | Principles of structural and materials chemistry, emphasizing crystal chemistry. Symmetry of periodic structures (space groups), factors determining bond lengths and coordination geometries, and the role of structure in determining physical properties.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only CHM 471 or 571  |
| CHM     | 581         | Structure of Matter and its Properties        | Models of matter and its properties.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CHM 581 or PHS 581  |
| CHM     | 583         | Fieldwork                                     | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | RSC               | Y               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 584         | Internship                                    | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Molecular Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 590         | Reading and Conference                        | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Molecular Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 591         | Seminar                                       | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 592         | Research                                      | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Molecular Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 593         | Applied Project                               | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Molecular Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 594         | Conference and Workshop                       | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | RSC               | Y               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 595         | Continuing Registration                       | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Liberal Arts and Sciences | School of Molecular Sciences | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 598         | Special Topics                                | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences | School of Molecular Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CHM     | 784         | Internship                                    | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | RSC               | Y               | OPT           | Liberal Arts and Sciences | School of Molecular Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

| CHS     | 100         | Foundations of Health & Well-Being                    | Addresses the knowledge, attitudes and behaviors associated with various health dimensions. Explores interprofessionalism and current issues in health and well-being.  | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions                    | 3     | SB              |   |
| CHS     | 101         | The ASU Experience for Health Solutions Students      | Required, one-hour course, offered in sections capped at 19 and designed to introduce all new first-time ASU students to the unique elements, culture, challenges and opportunities of their university. Covers several core topics.  | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions                    | 1     |                 |   |
| CHS     | 194         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | College of Health Solutions                    | 1-4   |                 |   |
| CHS     | 201         | International Indigenous Health                       | This course aims to develop student's understanding of core concepts in the health and well-being of Indigenous peoples worldwide, with particular focus on the Aboriginal and Torres Strait Islander peoples in Australia and Indigenous peoples in United States (or the Americas more broadly). The course highlights the differences in distribution of disease and health disparities between Indigenous and non-Indigenous peoples and develops an understanding of underlying interrelated physical, psycho-social, cultural and other determinants of Indigenous peoples' health. Students will be provided with examples of evidence-based research and health practice to learn about the ways in which Indigenous health and well-being can be supported.  | N                 | LEC               | Y               | NSW           | College of Health Solutions | School for the Science of Health Care Delivery | 1-3   |                 | Prerequisite(s): Bachelor of International Public Health major  |
| CHS     | 301         | Epidemiology for International Public Health          | Epidemiology and its use in public health research and practice. This course introduces students to epidemiological principles and methods. It aims to enable students to apply an epidemiological approach to the study of disease and illness, to interpret and assess the quality of evidence of a range of study designs and report on epidemiological research.  | N                 | LEC               | Y               | NSW           | College of Health Solutions | School for the Science of Health Care Delivery | 1-3   |                 | Prerequisite(s): Bachelor of International Public Health major  |
| CHS     | 303         | Health Promotion                                      | Health Promotion is a fundamental component of any approach to public health and population health, whether it be research, policy or practice. The World Health Organization defines health promotion as the process of enabling people to increase control over, and to improve, their health. It moves beyond a focus on individual behavior towards a wide range of social and environmental interventions. ( <a href="http://www.who.int/topics/health_promotion/en/">http://www.who.int/topics/health_promotion/en/</a> ). This course provides an overview of health promotion including examination of the social determinants of health, health literacy and foundations in health promotion. During the course students will explore the role of health promotion in addressing a range of current global health issues and their relevance to the field of public health. Students will examine contemporary perspectives on health and health promotion contributions to public health and population health responses. The course enables students to gain an understanding of how health can be defined from different perspectives, and develop core knowledge of health promotion including its foundation theories, principles and concepts. The course will equip students with the capacity to engage in public health and population health through the essential health promotion skills and understandings. | N                 | LEC               | Y               | NSW           | College of Health Solutions | School for the Science of Health Care Delivery | 1-3   |                 | Prerequisite(s): Bachelor of International Public Health major  |
| CHS     | 304         | Communicable Disease                                  | This course will introduce students to the burden of infectious or communicable disease worldwide. Students will learn about the theory of transmission modes, surveillance, outbreak investigation, current disease prevention, control and management strategies, and emerging and re-emerging infections. Key case studies covering different types of communicable diseases will be used to illustrate these important concepts. Current and future challenges in communicable disease control will be highlighted.   | N                 | LEC               | Y               | NSW           | College of Health Solutions | School for the Science of Health Care Delivery | 1-3   |                 | Prerequisite(s): Bachelor of International Public Health major  |
| CHS     | 305         | Principles of Prevention & Public Health Surveillance | Disease surveillance and population health monitoring represents one of the most important tools for public health, for early disease detection and prevention, and the monitoring and evaluation. Early detection of and rapid response to a public health threat has huge potential to save lives and costs from preventing hospitalizations and deaths. This course provides an overview of different types of surveillance systems and the sources of data that are used in such systems. Students learn to assess challenges and limitations associated with different types of public health surveillance systems and develop the skills to examine the tools and approaches that can be used to improve the effectiveness of public health surveillance systems. The course looks at principles of disease prevention more broadly. Public health prevention measures are discussed including immunization and screening, using case studies for both communicable and non-communicable diseases. The role of epidemiological and social factors is also considered.   | N                 | LEC               | Y               | NSW           | College of Health Solutions | School for the Science of Health Care Delivery | 1-3   |                 | Prerequisite(s): Bachelor of International Public Health major; Pre- or corequisite(s): CHS 301; CHS 304; HCD 300 |
| CHS     | 306         | Public Health Policy & Programs                       | The overall aim of this course is to enable students to develop their understanding of both public health policy and programs as a part of public health practice. Students will learn about the concept and role of policy and the key concepts, models and approaches to designing and evaluating public health programs. Case studies from multiple countries and contexts will be used as teaching material.  | N                 | LEC               | Y               | NSW           | College of Health Solutions | School for the Science of Health Care Delivery | 1-3   |                 | Prerequisite(s): Bachelor of International Public Health major  |

| CHS     | 307         | Health Leadership                                | The course aims to develop students understanding of different approaches to leading and managing at different levels in health services in local and international contexts to improve individual, community and population level outcomes. Students will be introduced to the common and overlapping skills and features of effective health leadership within public health agency settings requiring coordinated system-wide action through to health care management in more clinically focused patient delivery settings. Topics include management and leadership theories and models; systems perspectives and strategic thinking; influence, power and leading change; managing interprofessional teams and motivating staff; conflict management and improving health worker performance.  | N                 | LEC               | Y               | NSW           | College of Health Solutions   | School for the Science of Health Care Delivery | 1-3   |                 | Prerequisite(s): Bachelor of International Public Health major   |
| CHS     | 308         | Comparative Health Systems                       | Principles and practice of health system analysis, the sources and utilization of information relating to health services, and frameworks for assessing health systems performance. Examines the constitutional, legal, economic, social and political environments within which health care systems operate. Compares different models of health system funding and operation. Reviews different health services organization and management, health service financing arrangements and the health workforce.   | N                 | LEC               | N               | GNA           | College of Health Solutions   | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): CHS 306   |
| CHS     | 309         | Global Health and Lifestyle Disease              | This course aims to enhance students' understanding of the major non-communicable diseases-specifically so-called "lifestyle diseases" including cardiovascular disease, cancer, type II diabetes, chronic lung disease- and the interaction between their associated lifestyle behaviors such as unhealthy diet, physical inactivity, tobacco use and alcohol use. Students will examine the concept of the epidemiological transition to provide insights into trends in the burden of lifestyle diseases and injuries globally and in developing countries. This course will help students to evaluate prevention and control approaches to lifestyle diseases, and to critique the modern social environment and lifestyle behaviors with respect to global health. Topics include: the global burden of disease, the epidemiological transition, injury prevention, health systems, global tobacco control, obesity, and global action plan on non-communicable diseases. | N                 | LEC               | Y               | NSW           | College of Health Solutions   | School for the Science of Health Care Delivery | 1-3   |                 | Prerequisite(s): Bachelor of International Public Health major   |
| CHS     | 394         | Special Topics                                   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | GNA           | College of Health Solutions   | College of Health Solutions                    | 1-4   |                 |  |
| CHS     | 401         | Ethics in Public Health                          | This course provides an overview of ethical considerations and issues pertinent to public health and health care. Students will examine ethical theories and principles, and key legal concepts, and their application to health care and public health contexts. The course enables students to identify and analyse the ethical challenges of balancing the interests of individuals and communities within a health care context which is costly, complex and increasingly globalized. While the focus is on public health ethics which includes health policy and promotion, clinical and research ethics will also be examined as integral components of contemporary, cutting-edge health care service and delivery.   | N                 | LEC               | Y               | NSW           | College of Health Solutions   | School for the Science of Health Care Delivery | 1-3   |                 | Prerequisite(s): Bachelor of International Public Health major   |
| CHS     | 484         | Internship                                       | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | College of Health Solutions   | College of Health Solutions                    | 1-12  |                 | Prerequisite(s): minimum 45 hours; minimum 2.00 GPA  |
| CHS     | 492         | Honors Directed Study                            | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.  | N                 | LEC               | Y               | Z1            | College of Health Solutions   | College of Health Solutions                    | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| CHS     | 493         | Honors Thesis                                    | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | RSC               | Y               | Z1            | College of Health Solutions   | College of Health Solutions                    | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| CHS     | 494         | Special Topics                                   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions   | College of Health Solutions                    | 1-4   |                 |  |
| CHS     | 499         | Individualized Instruction                       | Provides an opportunity for original study or investigation in the major or field of specialization, on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. This course may be taken only by outstanding senior students who have completed at least one semester in residence and who have a cumulative GPA of 3.00 or higher in the major or field of specialization. A special class fee may be required.  | Y                 | IND               | Y               | Z1            | College of Health Solutions   | College of Health Solutions                    | 1-3   |                 | Prerequisite(s): minimum 45 hours  |
| CIS     | 105         | Computer Applications and Information Technology | Introduces business information systems from a business intelligence perspective and the uses of application software with emphasis on database and spreadsheet packages for efficient and effective problem solving.  | N                 | LEC               | N               | OPT           | W.P. |---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|-------------------------------|-----------------------------------|-------|-----------------|---|
| CIS     | 308         | Advanced Excel in Business                            | Covers advanced Excel skills using an applied focus on different types of decisions one may analyze using spreadsheet capabilities; graphs and charts to communicate complex analytics; pivot tables to slice and dice data for reporting.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): CIS 105 or CIS 236 with C or better; minimum 45 hours; Credit is allowed for only CIS 308 or CIS 394 (Advanced Excel in Business)  |
| CIS     | 309         | Business Process Management                           | Flow charting, swimlane diagramming, process simulation using modern tool suites. Teaches the types of process evaluation decision analytics most commonly used and covers applied process analysis in a variety of contexts.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): CIS 105 or CIS 236 with C or better; minimum 45 hours; Credit is allowed for only CIS 309 or CIS 394 (Process Management)  |
| CIS     | 310         | Business Data Visualization                           | The design of insightful business data visualizations and dashboards to improve business decision making. Applies advanced data visualization techniques to make sense of temporal, geospatial, topical and network business data while also making it easier to digest and utilize for business users.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): CIS 105 or 236 with C or better  |
| CIS     | 311         | Business Project Management                           | Overview of project management emphasizing the fundamentals and analytics that can support project decision making. Covers project planning, resource and disruption management and problem resolution skills. Leverages widely available project management computer tools.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): CIS 105 or CIS 236 with C or better; minimum 45 hours; Credit is allowed for only CIS 311 or CIS 394 (Project Management - Information Systems)  |
| CIS     | 312         | Business Mobile Commerce and Monetization             | Teaches students the entire mobile commerce process starting with recognizing what it is, what it does, how to build it and the business value of it. Familiarizes students with software development platforms and ecosystems, strategies for development and deployment, and monetization strategies.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): CIS 105 or 236 with C or better; minimum 45 hours; Credit is allowed for only CIS 294 (Business Mobile App Development and Monetization) or CIS 312                                      |
| CIS     | 315         | Introduction to Business Data Analytics               | Overview of analytics in the business context; concepts of strategic and operational analytics; overview of concepts like dimensional modeling, the Model Lifecycle, data mining, big data, KPIs and metrics, ERP and analytics, in-database/memory analytics; real-time analytics and data stream analysis.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): Business Data Analytics BS major; CIS 235 or 236 with C or better; ECN 221 or 231 with C or better; MAT 211, 266, or 271 with C or better  |
| CIS     | 325         | Fundamental Techniques for Business Data Analytics    | Manipulating, processing, cleaning and crunching data with a focus on utilizing scripting and programming tools toward business applications. Also a practical, modern introduction to extraction, transformation and loading of enterprise data for business applications.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): Business Data Analytics BS major or Computer Information Systems BS major; CIS 235 or 236 with C or better; ECN 221 or 231 with C or better; MAT 211, 266, or 271 with C or better       |
| CIS     | 340         | Business Information System Development I             | Systems Development Life Cycle (SDLC) tools, techniques, and methodologies used to plan and analyze the needs of modern business information system development.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey CIS BS student; ACC 241, 242 or 271 with C or better; CIS 235 or 236 with C or better; ECN 221 with C or better; MAT 211 with C or better.                                    |
| CIS     | 345         | Business Information System Development II            | Provides a clear understanding of the Systems Development Life Cycle (SDLC) tools, techniques, and methodologies used to design, implement, and support modern business information systems development.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): Computer Information Systems BS major; CIS 340 with C or better  |
| CIS     | 355         | Business Data Warehouses and Dimensional Modeling     | SQL, stored procedures and data warehouse architectures; data warehouse requirements definition, design and analysis; overview of the steps in building information-enabled business models; role of data warehousing in data mining and analytics.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): BS Business Data Analytics major. Corequisite(s): CIS 315  |
| CIS     | 360         | Business Database Concepts                            | Database theory, design, and application, including the entity-relationship model; the relational, hierarchical, and network database models; and query languages.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey Accountancy BS student and CIS 105 or 236; ACC 231, 232 or 261; ACC 241, 242 or 271 with C or better  |
| CIS     | 365         | Business Database Systems Development                 | Focuses on business database and data warehousing systems, development and management. Topics include capturing business requirements using data modeling, SQL, data security, operational and analytical data stores and data integrity.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): Computer Information Systems BS major; CIS 235 or 236 with C or better   |
| CIS     | 375         | Business Data Mining                                  | Building predictive analytics (e.g., SEMMA, KDD); exposure to logistic regression, machine learning and decision tree methods; Understanding lift factors, ROC curves; hands-on use of mining software; business case studies.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): CIS 315 with C or better; BS Business Data Analytics major   |
| CIS     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Information Systems | 1-4   |                 | Pre-requisites: Minimum 2.0 ASU cum GPA and minimum 56 earned hours, OR Non-degree student with minimum 2.0 ASU cum GPA, OR Graduate student  |
| CIS     | 401         | Managing Cyber Risks in Enterprise Business Processes | Covers the activities, decisions, risks and controls associated with enterprise business processes. Specific focus on the activities in the sales-to-cash (revenue cycle) and purchase-to-pay (expenditure cycle) processes. Students understand how IT enables performing those processes more efficiently and effectively. In addition to identifying internal controls necessary for accurate, complete performance of processes, also covers the fundamentals of  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): ACO 320 or CIS 235 or CIS 236 or CSE 310 or IEE 305 with C or better; Credit is allowed for only ACC 444 or ACO 401 or CIS 401   |
| CIS     | 405         | Business Intelligence                                 | Business intelligence (BI) is a term describing a broad category of applications, technologies, architectures and processes for gathering, storing, accessing and analyzing data to provide business users with timely information to enable better insights into project and process management and evidence-based decision making. BI is based on techniques for data decision capture, cleansing, validation, warehousing and analytics to help decision makers improve decision outcomes. Provides a capstone understanding of the concepts of managing data resources and the development of business intelligence capabilities using data visualization, data warehousing, data mining, online analytical processing decision support systems and other advanced BI topics. | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): CIS 105 or CIS 236 with C or better; minimum 45 hours; Credit is allowed for only CIS 394 (Business Intelligence) or CIS 405   |
| CIS     | 415         | Big Data Analytics and Visualization in Business      | Text and stream mining, visualizations for big data, Hadoop, cloud-based solutions, fundamentals of big data programming, social media and big data, NoSQL, software tool support for visualizations; GIS, business case studies.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): BS Business Data Analytics major; CIS 315 with C or better   |
| CIS     | 425         | Web Technologies for the Enterprise                   | Modern Web application technologies for the enterprise. Covers development of Web applications for handling business transactions and strategies including the use of cloud-based applications.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey Accountancy BS or Computer Information Systems BS major; CIS 360 or 365 with C or better  |
| CIS     | 430         | Mobile Platforms for Business                         | Mobile application development for the enterprise to address mobile transactions and consumer engagement. Covers business frameworks, app development; and management of devices, applications and services in today's multi-platform environment.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey Computer Information Systems BS major; ACC 330 or 444 with C or better; CIS 340 or 410 with C or better; Pre- or corequisite(s): CIS 360 or 365 with C or better if completed |
| CIS     | 440         | Capstone in Information Systems                       | Offers a capstone experience integrating concepts from the business as well as the technology curricula. Students analyze, propose and develop a full technology solution for a business enterprise.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     | L               | Prerequisite(s): W.P. Carey Computer Information Systems BS major; CIS 360 or 365 with C or better; CIS 430 with C or better  |

| CIS     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | W.P. Carey School of Business | Department of Information Systems | 1-12  |                 | Pre-requisite: W.P. Carey CIS BS student  |
| CIS     | 492         | Honors Directed Study                                       | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Information Systems | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| CIS     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | W.P. Carey School of Business | Department of Information Systems | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| CIS     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | GNA           | W.P. Carey School of Business | Department of Information Systems | 1-4   |                 | Pre-requisites: W.P. Carey ACC BS or CIS BS student   |
| CIS     | 497         | Honors Colloquium   | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | N                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Information Systems | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| CIS     | 498         | Pro-Seminar   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Information Systems | 1-7   |                 | Prerequisite(s): W.P. Carey CIS BS major  |
| CIS     | 499         | Individualized Instruction                                  | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Information Systems | 1-3   |                 | Pre-requisites: W.P. Carey CIS BS student   |
| CIS     | 502         | Information Systems: Digital Innovations and Transformation | Organizational, strategic, and technical issues of the management of information. Evaluation, design, and use information systems as competitive advantage.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 1-4   |                 | Prerequisite(s): W.P. Carey MBA degree program student  |
| CIS     | 503         | Decision Making with Data Analytics                         | Presents frameworks and approaches to equip students to recognize patterns in data and models, recommend actions and implement organizational changes. Students learn multiple concepts to improve decision making in organizations including the curation of data repositories for cross-functional analytics, recognition of decision biases, recommendation and communication of business process changes, and the establishment of iterative processes for decision analytics. Readings address decision-making dilemmas and challenges facing managers in analytics-rich business environments. Students get an immersive experience in analyzing the individual biases inherent in decision making, the informational requirements and the data analytics governance requirements to ensure effective deployment and continuous renewal of analytics culture at the enterprise level. | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 2.5-3 |                 | Prerequisite(s): W.P. Carey graduate student  |
| CIS     | 505         | Introduction to Enterprise Analytics                        | Ensuring the foundational understanding of contextualized analytics within the business enterprise continuum by covering how data flows and is managed across the landscape of enterprise business processes.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey graduate student  |
| CIS     | 506         | Information Management                                      | Addresses central issues in managing information to achieve competitive advantage and support innovation. Specific topics covered include data quality, data modeling using both entity relationship models and star schemas, data governance, document management, document search, enterprise performance management and visualization techniques.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 1-4   |                 | Prerequisite(s): graduate W. P. Carey major   |
| CIS     | 508         | Data Mining I   | Charting a roadmap for data-driven decision making and getting a practical understanding of how IT tools and techniques can allow managers to extract predictive analytics and patterns from primarily numeric data.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey graduate student  |
| CIS     | 509         | Data Mining II  | Uses tools and techniques to analyze unstructured data that are applied to business problems to support informed decision making and the extraction of predictive analytics and patterns from primarily nonnumeric data.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Pre-req for CIS 509   |
| CIS     | 510         | Business Process and Workflow Analysis                      | Builds foundations for process analysis by focusing on information, documents, people, roles and business rules. Provides an introduction to various techniques and tools of process analysis, including an understanding of organizational issues in rolling out change initiatives.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey graduate major. Credit is allowed for only CIS 510 or CIS 591 (Business Process Workflow Analysis)        |
| CIS     | 512         | Business Intelligence                                       | Understanding how organizations make use of Business Intelligence (BI) to gain a sustainable competitive advantage. Builds the foundations for evidence-based managerial decision making. Covers technologies for data warehousing and data mining from a managerial perspective. Covers contemporary topics such as real-time BI, business analytics, and business performance management with the help of case studies, audio-video content, guest speakers, online forums to generate creative thinking and discussion.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 1-4   |                 | Prerequisite(s): W.P. Carey graduate major  |
| CIS     | 515         | Business Analytics Strategy                                 | Evaluating, strategically aligning, planning for and directing investments in and governance of processes for continuous renewal of analytics deployments in business.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Pre-requisite: W.P. Carey graduate major  |
| CIS     | 525         | Strategic Value of Information Technology                   | Instills balanced and disciplined view of IT and business with their interplay. Assigns cases and assignments involving the symbiotic relationship of IT and business to provide real-world exposure for critical thinking and engaging discussion.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey graduate major; Credit is allowed for only CIS 525 or CIS 591 (Strategic Value of Information Technology) |
| CIS     | 540         | Enterprise Information Security and Controls                | Provides a broad survey of information security and controls, utilizing the COBIT framework to illustrate how information security and controls contribute to effective IT governance. Develops an understanding of the issues associated with information security and effective IT governance, with particular emphasis on how management contributes to the effectiveness of an organization's information security program.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey graduate major. Credit is allowed for only CIS 540 or CIS 591 (Information Security & Controls)           |
| CIS     | 545         | Managing Enterprise Systems                                 | Investigates major categories of enterprise systems, factors driving software adoption and keys for successful implementation. Pays special attention to evaluating the potential impact of emerging technologies on business environments.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey graduate major; Credit is allowed for only CIS 545 or CIS 591 (Enterprise Systems)                        |
| CIS     | 560         | IT Services and Project Management                          | Provides an overview of the project management process groups and knowledge areas (defined by the PMBOK) and focuses on the application of key concepts, tools and techniques for delivering on-time, on-budget IT project and services that meet end-user needs.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems | 3     |                 | Prerequisite(s): W.P. Carey graduate major; Credit is allowed for only CIS 560 or CIS 591 (IT Services and Project Management)        |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                       | Department                                    | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|-------------------------------|---|-------|-----------------|---|
| CIS     | 575         | Emerging Technologies                                  | Explores decision models and frameworks applied to assess, evaluate and implement emerging technologies. Explains the principles of sustaining and disruptive technological innovation on the adoption and diffusion of emerging technologies. Discusses the technical, industrial and legal parameters that enable convergence and commoditization of technologies.                                    | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Information Systems             | 3     |                 | Prerequisite(s): W.P. Carey graduate major; Credit is allowed for only CIS 575 or CIS 591 (Emerging Technologies in IT) |
| CIS     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Information Systems             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CIS     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Information Systems             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CIS     | 590         | Reading and Conference                                 | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Information Systems             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CIS     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Information Systems             | 1-12  |                 | Pre-requisite: Specific W.P. Carey Graduate student   |
| CIS     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Information Systems             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CIS     | 593         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Information Systems             | 1-12  |                 | Pre-requisite: Specific W.P. Carey Graduate student   |
| CIS     | 594         | Conference and Workshop                                | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Information Systems             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CIS     | 595         | Continuing Registration                                | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | W.P. Carey School of Business | Department of Information Systems             | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CIS     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Information Systems             | 1-4   |                 | Pre-requisite: Specific W.P. Carey Graduate student   |
| CIS     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | W.P. Carey School of Business | Department of Information Systems             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CIS     | 690         | Reading and Conference                                 | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Information Systems             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CIS     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Information Systems             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CIS     | 692         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Information Systems             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CIS     | 695         | Continuing Registration                                | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | W.P. Carey School of Business | Department of Information Systems             | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CIS     | 700         | Research Methods                                       | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Information Systems             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CIS     | 790         | Reading and Conference                                 | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Information Systems             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CIS     | 791         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Information Systems             | 1-12  |                 | Pre-requisite: W.P. Carey Info Systems PhD student  |
| CIS     | 792         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Information Systems             | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CIS     | 795         | Continuing Registration                                | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | W.P. Carey School of Business | Department of Information Systems             | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CIS     | 799         | Dissertation   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | W.P. Carey School of Business | Department of Information Systems             | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CMN     | 500         | Research Methods                                       | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences  | Dean, New Interdisciplinary Arts and Sciences | 1-12  |                 | Pre-requisite: Communication Studies Master of Arts student   |
| CMN     | 502         | Theory and Practice in Communication and Persuasion    | Theoretical exploration of communicative and persuasive practices as applied in various contexts. Surveys classical, modern, and contemporary theories of persuasion.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Prerequisite(s): Communication Studies MA student   |
| CMN     | 505         | Methods in Applied Communication Research              | Examines the intellectual, practical, and ethical dimensions of engaging in applied research. Emphasizes empirical and quantitative methods.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Prerequisite(s): Communication Studies MA student   |
| CMN     | 506         | Humanistic Inquiry and Field Research in Communication | Examines interpretive, critical, and rhetorical approaches to communication and advocacy, including hermeneutics, ethnography, and cultural studies.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Pre-requisite: Communication Studies Master of Arts student   |
| CMN     | 515         | Ethical Issues in Communication Advocacy               | Examines the ethical issues or concerns related to communication advocacy. Variable topics; examines research, theory, and/or practice.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Pre-requisite: Communication Studies Master of Arts student   |
| CMN     | 516         | Mediation and Dispute Resolution                       | Examines advocacy's role in fair negotiation and effective and successful dispute resolution. Examines research, theory, and/or practice.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Prerequisite(s): Communication Studies MA student   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department                                    | Units | General Studies | Requirements  |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|------------------------------|---|-------|-----------------|---|
| CMN     | 520         | Communication Campaigns                             | Explores public communication strategies aimed at advocating for general or specific audiences and/or for particular issues and causes.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Prerequisite(s): Communication Studies MA student; CMN 502 or 522 with C or better  |
| CMN     | 522         | Argumentation and Advocacy                          | Introduces various models of argumentation and their applications to various spheres of advocacy.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Pre-requisite: Communication Studies Master of Arts students  |
| CMN     | 531         | Communication and Social Change                     | Examines human communication and technologies of communication as agents of social change within groups, communities, organizations, and/or cultures.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Pre-requisite: Communication Studies Master of Arts student   |
| CMN     | 532         | Advocacy in Interpersonal Settings                  | Examines particular relational contexts in which advocacy plays a pronounced role (e.g., personal, family, and service provider relationships).   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Pre-requisite: Communication Studies Master of Arts student   |
| CMN     | 550         | Advocacy in Organizational Settings                 | Examines issues of upward influence, the expression of dissent, and grievance systems within organizational contexts.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Pre-requisite: Communication Studies Master of Arts student   |
| CMN     | 551         | Democracy and Power in Organizations                | Examines structural, historical, relational, and symbolic dimensions of organizational communication and discourses that foster or impede communication advocacy.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Prerequisite(s): Communication Studies MA student   |
| CMN     | 557         | Communication and Technology                        | Assesses technology's role in the social dynamics of human interaction. Emphasizes the impact of technology with regard to communication advocacy.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Pre-requisite: Communication Studies Master of Arts student   |
| CMN     | 565         | Globalization and Advocacy                          | Explores the forces leading to increased intergroup contact and their impact on social, economic, and political dynamics.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Pre-requisite: Communication Studies Master of Arts student   |
| CMN     | 570         | Communication and Advocacy in Social Context        | Variable topics course exploring the intersection of communication and advocacy in specific contexts not addressed in other elective courses.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 3     |                 | Pre-requisite: Communication Studies Master of Arts student   |
| CMN     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 1-12  |                 | Prerequisite(s): Communication Studies MA student   |
| CMN     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 1-12  |                 | Prerequisite(s): Communication Studies MA student   |
| CMN     | 590         | Reading and Conference                              | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 1-12  |                 | Prerequisite(s): Communication Studies MA student   |
| CMN     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 1-12  |                 | Pre-requisite: Communication Studies Master of Arts student   |
| CMN     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 1-12  |                 | Prerequisite(s): Communication Studies MA student   |
| CMN     | 593         | Applied Project                                     | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 1-6   |                 | Prerequisite(s): Communication Studies MA student   |
| CMN     | 594         | Conference and Workshop                             | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | RSC               | Y               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 1-12  |                 | Prerequisite(s): Communication Studies MA student   |
| CMN     | 595         | Continuing Registration                             | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 1     |                 | Prerequisite(s): Communication Studies MA student   |
| CMN     | 598         | Special Topics                                      | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CMN     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences | 1-6   |                 | Prerequisite(s): Communication Studies MA student   |
| CNE     | 210         | Engineering Mechanics I: Statics                    | Force systems, resultants, equilibrium, distributed forces, area moments, fluid statics, internal forces, friction, and stability.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering    | Construction Engineering                      | 3     |                 | Prerequisite(s): FSE 100 with C or better; MAT 266 (or MAT 271) with C or better; PHY 121 with C or better; PHY 122 with C or better; Credit is allowed for only CEE or CNE 210                 |
| CNE     | 212         | Engineering Mechanics II: Dynamics                  | Kinematics and kinetics of particles, translating and rotating coordinate systems, rigid body kinematics, dynamics of systems of particles and rigid bodies, and energy and momentum principles.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Construction Engineering                      | 3     |                 | Prerequisite(s): CEE 210 (or CNE 210) and MAT 275 (or MAT 274) completed with C or better; Credit is allowed for only CEE or CNE 212  |
| CNE     | 213         | Introduction to Deformable Solids                   | Strain-displacement and stress-strain-temperature relations. Stresses and deformations due to axial, shear, torsional and bending moments. Buckling, stability.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Construction Engineering                      | 3     |                 | Prerequisite(s): CEE 210 (or CNE 210) with C or better; MAT 274 (or MAT 275) with C or better; Credit is allowed for only CEE or CNE 213  |
| CNE     | 241         | Surveying   | Theory and fieldwork in construction and land surveys.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Construction Engineering                      | 3     |                 | Prerequisite(s): MAT 170 or higher with C or better; Credit is allowed for only CEE 281, CNE 241 or CON 241   |
| CNE     | 243         | Heavy Construction Equipment, Methods and Materials | Emphasizes horizontal construction. Fleet operations, maintenance programs, methods, and procedures to construct tunnels, roads, dams, and the excavation of buildings.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Construction Engineering                      | 3     |                 | Credit is allowed for only CON 243 or CNE 243   |
| CNE     | 271         | Construction Safety                                 | Safety procedures and equipment. OSHA requirements for construction. Biological aspects of construction safety.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Construction Engineering                      | 3     |                 | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; Credit is allowed for only CNE 271 or CON 271  |
| CNE     | 294         | Special Topics                                      | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering    | Construction Engineering                      | 1-4   |                 |   |
| CNE     | 296         | Field Internship                                    | Participation as interns on construction projects to observe and experience the daily activities.   | N                 | PRA               | N               | OPT           | Ira A. Fulton Engineering    | Construction Engineering                      | 1     |                 | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; CON 271 or CNE 271; Credit is allowed for only CON 296 or CNE 296  |
| CNE     | 321         | Structural Analysis and Design                      | Statically determinate and indeterminate structures (trusses, beams, and frames) by classical and matrix methods. Introduces structural design.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Construction Engineering                      | 4     |                 | Prerequisite(s): Civil Engineering BSE or Construction Engineering BSE major; CEE 212 or CNE 212 or MAE 212; CEE 213 or CNE 213 with C or better; Credit is allowed for only CEE 321 or CNE 321 |
| CNE     | 351         | Geotechnical Engineering                            | Index properties and engineering characteristics of soils. Compaction, permeability and seepage, compressibility and settlement, and shear strength.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering    | Construction Engineering                      | 4     |                 | Prerequisite(s): CEE 213 or CNE 213 with C or better; BSE Civil Engineering or Construction Engineering major; Credit is allowed for only CEE or CNE 351  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department                                    | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|--|
| CNE     | 353         | Civil Engineering Materials                          | Structure and behavior of civil engineering materials, including steel, aggregate, concrete, masonry, asphalt, wood, composites. Atomic structure and engineering applications.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Construction Engineering                      | 4     |                 | Prerequisite(s): CEE 213 or CNE 213 with C or better; Civil Engineering or Construction Engineering BSE major; Credit is allowed for only CEE 353 or CNE 353   |
| CNE     | 383         | Construction Estimating                              | Analyzes construction drawings and specifications. Utilizes advanced technical and ethical practices in estimating process. Quantity surveying techniques for CSI divisions.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Construction Engineering                      | 4     |                 | Prerequisite(s): Construction Management BS major; CON 243 and CON 252 OR Construction Engineering BSE major; CNE 243 or CON 243; Credit is allowed for only CNE 383 or CON 383  |
| CNE     | 394         | Special Topics                                       | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering      | Construction Engineering                      | 1-4   |                 |  |
| CNE     | 400         | Earth Systems Engineering and Management             | Introduces earth systems engineering and management, and the technological, economic and cultural systems underlying the terraformed Earth.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Construction Engineering                      | 3     | (L or HU) & H   | Prerequisite(s): Civil Engineering BSE major; CEE 300 with C or better OR non-CEE junior or senior; Credit is allowed for only CEE 400 or CNE 400  |
| CNE     | 420         | Steel Structures                                     | Behavior of structural components and systems. Design of steel members and connections. Load and resistance factor design methods.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Construction Engineering                      | 3     |                 | Prerequisite(s): BSE Civil Engineering or Construction Engineering major; CEE 321, or CNE 321 with C or better. Credit is allowed for only CEE 420 or CNE 420  |
| CNE     | 421         | Concrete Structures                                  | Behavior of concrete structures and the design of reinforced and prestressed concrete members, including footings. Partial design of concrete building system.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Construction Engineering                      | 3     |                 | Prerequisite(s): BSE Civil Engineering or Construction Engineering major; CEE 321 or CNE 321 with C or better; Credit is allowed for only CEE or CNE 421   |
| CNE     | 450         | Geotechnical Applications for Construction           | Soil formation, engineering properties and use as building materials. Soil's influence on construction of built environment, including specifications and biological aspects.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Construction Engineering                      | 3     |                 | Prerequisite(s): Construction Management BS major; CON 223 with C or better; CON 310; Credit is allowed for only CNE 450 or CON 450  |
| CNE     | 452         | Foundations  | Applies soil mechanics to foundation and retaining wall systems, including bearing capacity, settlement, and lateral earth pressure.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Construction Engineering                      | 3     |                 | Prerequisite(s): Civil Engineering BSE or Construction Engineering major; CEE 351 or CNE 351 with C or better; Credit is allowed for only CEE 452 or CNE 452   |
| CNE     | 453         | Construction Project Management I                    | Building information modeling, including current computer programs and LEED methodologies for advanced project deliveries.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Construction Engineering                      | 3     |                 | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; CON 271 or CNE 271 with C or better; CON 383 or CNE 383; Pre-or corequisite(s): CON 495 or CNE 495; Credit is allowed for only CON 453 or CNE 453       |
| CNE     | 455         | Construction Project Management II                   | Advanced topics in administrative procedures, planning processes, and coordination required to successfully complete construction projects on time and budget.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Construction Engineering                      | 3     |                 | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; CNE 453 or CON 453; Pre- or corequisite(s): CNE 495 or CON 495; Credit is allowed for only CNE 455 or CON 455   |
| CNE     | 484         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Ira A. Fulton Engineering      | Construction Engineering                      | 1-12  |                 | Prerequisite(s): Construction Management BS major with CON 296 or CNE 296 OR Construction Engineering BSE major with CON 271 or CNE 271; Credit is allowed for only CON 484 or CNE 484   |
| CNE     | 486         | Integrated Civil Engineering Design                  | Requires completion of a civil engineering design in a simulated practicing engineering environment. Limited to undergraduates in their final semester.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Construction Engineering                      | 4     | L               | Prerequisite(s): Civil Engineering BSE major; CEE 321; CEE 341; CEE 351; CEE 361; CEE 372 with C or better OR Construction Engineering student; CEE or CNE 321; CEE or CNE 351 with C or better; Credit is allowed for only CEE or CNE 486 |
| CNE     | 494         | Special Topics                                       | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering      | Construction Engineering                      | 1-4   |                 |  |
| CNE     | 495         | Construction Planning and Scheduling                 | Various network methods of project scheduling, such as AOA, AON Pert, bar-charting, line-of-balance, and VPM techniques. Microcomputers used for scheduling, resource allocation, and time/cost analysis.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering      | Construction Engineering                      | 3     | CS              | Prerequisite(s): Construction Management BS major or Construction Engineering BSE major; CON 383 or CNE 383; Credit is allowed for only CON 495 or CNE 495   |
| CNE     | 496         | Construction Contract Administration                 | Surveys administrative procedures of general and subcontractors. Studies documentation, claims, arbitration, litigation, bonding, insurance, and indemnification. Discusses ethical practices.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Construction Engineering                      | 3     | L               | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; CNE 453 or CON 453; Credit is allowed for only CNE 496 or CON 496   |
| COE     | 501         | Introduction to Research and Evaluation in Education | Overview of educational inquiry from controlled, quantitative to qualitative, naturalistic. Emphasizes locating and critically interpreting published research.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only COE 501 or ECD 503 or PPE 501 or SPE 501 or TEL 501   |
| COE     | 502         | Introduction to Data Analysis                        | Descriptive statistics, visual approaches, estimation, and inferential methods for univariate and bivariate educational research problems. Experience using statistical software.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| COE     | 503         | Introduction to Qualitative Research                 | Terminology, historical development, approaches (including ethnography, ethnomethodology, critical theory, grounded theory, and hermeneutics), and qualitative versus quantitative social sciences; methods of inquiry.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| COE     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | N                 | PRA               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| COE     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| COE     | 594         | Conference and Workshop                              | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| COE     | 595         | Continuing Registration                              | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| COE     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |

| COM     | 314         | Inner-City Families: The Cycle of Poverty                       | Examines issues and concerns that confront inner-city families. Blends theory and application. From a theoretical perspective, examines issues that affect families who live in the inner city (e.g., race and poverty), as well as specific skills and programmatic elements that are needed to work with families in an urban setting. In terms of application, provides an intensive service-learning-based experience. Engages students in specific service to an embedded inner-city organization for a minimum of 3 hours per week. Students work with the professor to determine appropriate service placements. | N                 | PRA               | Y               | GNA           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences | 3     |                 | Pre-requisite: COM 100 OR Junior standing; Credit is allowed for only COM 314 or 498 (Inner City Family)                                     |
| COM     | 316         | Gender and Communication  | Introduces gender-related communication. | COM     | 453         | Communication Training and Development                 | Examines the procedures and types of communication training and development in business, industry, and government.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences | 3     |                 | Prerequisite(s): minimum 2.50 GPA   |
| COM     | 454         | Rhetorical and Critical Approaches to Public Relations | An historical and contemporary account of how public relations messages build corporate identities and persuade audiences by shaping public values.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences | 3     |                 | Prerequisite(s): COM 207 with C or better OR minimum junior standing; minimum 3.0 GPA; Credit is allowed for only COM 454 or CMN 598 (Rhetorical&Critical Approaches to Public Relations) |
| COM     | 456         | Political Communication Campaigns                      | Theory and research related to political campaign communication. The persuasive process of political campaigning, the role of the media, the candidate and image creation.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Hugh Downs School of Human Communication | 3     |                 | Prerequisite(s): minimum 2.50 GPA   |
| COM     | 456         | Political Communication Campaigns                      | Theory and research related to political campaign communication. The persuasive process of political campaigning, the role of the media, the candidate and image creation.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences | 3     |                 | Prerequisite(s): minimum 2.50 GPA   |
| COM     | 457         | New Media  | Explores how new communication and information technologies affect communication and culture.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences | 3     |                 | Prerequisite(s): COM 207 with C or better OR minimum junior standing; minimum 3.0   |
| COM     | 459         | Theory and Methods of Social Media Networks            | A network-based perspective plays an increasingly important role in our understanding of contemporary communication process of which much has shifted from a hierarchical, densely bounded group basis to a personalized, lateral network. Especially, along with the popularity of social media, social networking has become a key term that characterizes our everyday life. Discusses the role of new media technologies in evolving networked society, and how online networks are intertwined with our offline life. Covers theories and computerized methods that help understand online network structure. Includes lectures and discussions on theoretical issues with hands-on exercises of analytic methods.   | N                 | LEL               | N               | GNA           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences | 3     |                 | Prerequisite(s): minimum junior standing; minimum 2.50 GPA; MAT 142 or higher with C or better; Credit is allowed for only COM 459 or COM 494 (Social Networks)                           |
| COM     | 463         | Intercultural Communication in a Global Context        | Survey and analysis of major theories and research dealing with communication between people of different cultural backgrounds, primarily in international settings.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts | 3     | SB & G          | Prerequisite(s): COM 308 with C or better; minimum 2.50 GPA   |

| COM     | 463         | Intercultural Communication in a Global Context        | Survey and analysis of major theories and research dealing with communication between people of different cultural backgrounds, primarily in international settings.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences | 3     | SB & G          | Prerequisite(s): COM 308 with C or better; minimum 2.50 GPA   |
| COM     | 464         | Communicative Sexualities                              | Grounded in the discipline of communicology, provides an introduction to the qualitative research practice of semiotic phenomenology. Examines sexuality as a personal, social, historical, and cultural phenomenon, wherein communication is studied as the mediating force through which meanings are ascribed to sexuality and sexual experience. Sexuality is studied as it manifests among a wide variety of people, practices, and contexts. U.S. American culture provides the primary cultural context. Addresses basic questions including: How do we understand sexuality? How have we come to know what we know about sexuality? How do we understand the relationship between sexuality as personal desire, and sexuality as social norm in specific cultural contexts. | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts | 3     |                 | Pre-requisites: Junior or Senior standing; Minimum 2.50 GPA; Credit is allowed for only COM 464 or 494 (Communicative Sexualities)  |

|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|-----------------------------|--|-------|-----------------|---|
| COM     | 508         | Quantitative Research Methods in Communication             | Empirical research designs, measurements, and statistical strategies and techniques in analyzing and evaluating experimental and descriptive research in communication.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences   | Hugh Downs School of Human Communication | 3     |                 | Pre-requisites: Communications Graduate student. Credit is allowed for only COM 408 or COM 508                        |
| COM     | 510         | Transmedia Narratives                                      | Explores the history, production, distribution and consumption of transmedia narratives as an emergent multiple-platform dynamic of storytelling. Focuses on digital storytelling, the dynamics of nonlinear narrative and immersive audience experience.   | N                 | SEM               | N               | GNA           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| COM     | 540         | Conducting Communication Research                          | Develops the skills necessary to conduct communication research in the workplace. Students develop a research proposal for a project that they could conduct at their current jobs or a job they would like to have. They may choose to develop a proposal for their capstone project or a project that they would like to conduct in the future.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences   | Hugh Downs School of Human Communication | 3     |                 | Prerequisite(s): COM 501; COM 504; minimum four completions of COM 598  |
| COM     | 550         | Capstone   | Culminating experience of the Master of Arts in Communication. The capstone course allows each student to develop a project that answers a question or solves a problem tailored to his or her interests, needs and goals. Develops final products individually based on consultation with faculty. Each student has a two-faculty member committee to support the capstone project.                    | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences   | Hugh Downs School of Human Communication | 3     |                 | Prerequisite(s): COM 501; COM 504; COM 540; minimum four completions of COM 598                                       |
| COM     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences   | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| COM     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences   | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| COM     | 590         | Reading and Conference                                     | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences   | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| COM     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences   | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| COM     | 593         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences   | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| COM     | 594         | Conference and Workshop                                    | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences   | Hugh Downs School of Human Communication | 1-12  |                 | Pre-requisite: Communications Graduate student  |
| COM     | 595         | Continuing Registration                                    | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences   | Hugh Downs School of Human Communication | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| COM     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences   | Hugh Downs School of Human Communication | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| COM     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | PRA               | Y               | Z2            | Liberal Arts and Sciences   | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| COM     | 600         | Research Methods   | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences   | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| COM     | 604         | Theory Construction in Communication                       | Review and analysis of philosophical problems inherent in communicative research and of metatheories designed to deal with these problems.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences   | Hugh Downs School of Human Communication | 3     |                 | Prerequisite(s): Communications PhD student   |
| COM     | 607         | Contemporary Rhetorical Methods                            | Analysis of issues in the practice of rhetorical communication research, including criticism and scholarship.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences   | Hugh Downs School of Human Communication | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| COM     | 608         | Multivariate Statistical Analysis of Data in Communication | Statistical analysis of communication research data. Multivariate procedures used in communication research and methods of causal analysis.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences   | Hugh Downs School of Human Communication | 3     |                 | Prerequisite(s): Communications PhD student   |
| COM     | 609         | Advanced Qualitative Research Methods in Communication     | Analysis of issues in the practice of qualitative communication research, including data gathering, fieldwork issues, analysis strategies, and reporting results.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences   | Hugh Downs School of Human Communication | 3     |                 | Prerequisite(s): Communications PhD student   |
| COM     | 680         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences   | Hugh Downs School of Human Communication | 1-12  |                 | Pre-requisite: Communications PhD student   |
| COM     | 690         | Reading and Conference                                     | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences   | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| COM     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences   | Hugh Downs School of Human Communication | 1-12  |                 | Prerequisite(s): Communications Graduate student  |

| CON     | 221         | Applied Statics  | Vectors, forces and moments, force systems, equilibrium, analysis of basic structures and structural components, friction, centroids, and moments of inertia.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction                 | 2     |                 | Prerequisite(s): MAT 170 or higher with C or better; PHY 111 with C or better; PHY 113 with C or better   |
| CON     | 223         | Strength of Materials  | Analyzes strength and rigidity of structural members in resisting applied forces. Stress, strain, shear, moment, deflections, combined stresses, and connections.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction                 | 2     |                 | Prerequisite(s): CON 221 with C or better   |
| CON     | 241         | Surveying  | Theory and fieldwork in construction and land surveys.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction                 | 3     |                 | Prerequisite(s): MAT 170 or higher with C or better; Credit is allowed for only CEE 281, CNE 241 or CON 241   |
| CON     | 243         | Heavy Construction Equipment, Methods and Materials          | Emphasizes Horizontal construction. Fleet operations, maintenance programs, methods, and procedures to construct tunnels, roads, dams, and the excavation of buildings.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction                 | 3     |                 | Credit is allowed for only CON 243 or CNE 243   |
| CON     | 244         | Working Drawing Analysis                                     | Provides the ability to read and understand architectural plans; to understand drawing symbols, dimensions, abbreviations, and terms.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction                 | 2     |                 |   |
| CON     | 251         | Microcomputer Applications for Construction                  | Applies the microcomputer as a problem-solving tool for the constructor. Uses spreadsheets, information management, and multimedia software.  | N                 | LAB               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction                 | 3     |                 | Prerequisite(s): MAT 170 or higher with C or better   |
| CON     | 252         | Building Construction Methods, Materials, and Equipment      | Emphasizes Vertical construction. Methods, materials, codes, and equipment used in building construction corresponding to the division of the CSI Master Format.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction                 | 3     |                 |   |
| CON     | 271         | Construction Safety  | Safety procedures and equipment. OSHA requirements for construction. Biological aspects of construction safety.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction                 | 3     |                 | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; Credit is allowed for only CNE 271 or CON 271  |
| CON     | 273         | Electrical Construction Fundamentals and Project Management  | Electrical construction, design, estimating, scheduling and project management. Electrical safety, blueprints and symbols, theory, sequence of installation. National Electrical Code (NEC).  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction                 | 3     |                 |   |
| CON     | 294         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction                 | 1-4   |                 |   |
| CON     | 296         | Field Internship   | Participation as interns on construction projects to observe and experience the daily activities.   | N                 | PRA               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction                 | 1     |                 | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; CON 271 or CNE 271; Credit is allowed for only CON 296 or CNE 296  |
| CON     | 310         | Testing of Materials for Construction                        | Structural and behavioral characteristics, engineering properties, measurements, and application of construction materials. Not open to engineering students.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction                 | 4     |                 | Prerequisite(s): Construction Management BS major; CON 221 with C or better; CON 223 with C or better   |
| CON     | 345         | Mechanical Systems   | Design parameters and equipment related to heating and cooling systems for mechanical construction. Biorelated aspects of mechanical systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction                 | 3     |                 | Prerequisite(s): Construction Management BS major; CON 221 with C or better; CON 252 with C or better; PHY 111 or 121 with C or better; PHY 113 or 122 with C or better   |
| CON     | 377         | Residential Construction Production Procedures               | Process used in residential construction. How a house is built: design, permits, scheduling, codes, contracting, site management, mechanical/electrical.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction                 | 3     |                 | Prerequisite(s): Construction BS major or Design BSD major; CON 221 with C or better; CON 252   |
| CON     | 383         | Construction Estimating                                      | Analyzes construction drawings and specifications. Utilizes advanced technical and ethical practices in estimating process. Quantity surveying techniques for CSI divisions.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction                 | 4     |                 | Prerequisite(s): Construction Management BS major; CON 243 and CON 252 OR Construction Engineering BSE major; CNE 243 or CON 243; Credit is allowed for only CNE 383 or CON 383                                 |
| CON     | 384         | Environmental Aspects of Heavy Construction                  | Methods, measures and analysis related to control of erosion, dust generation and storm water discharge during projects.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction                 | 3     |                 | Prerequisite(s): BS Construction Management major. Pre- or corequisite(s): CON 243. Credit is allowed for only CON 384 or CON 394 (Environmental Aspects of Heavy Construction)                                 |
| CON     | 389         | Construction Cost Accounting and Control                     | Nature of construction cost. Depreciation and tax theory and variable equipment costs. Cash flow theory, investment models, profitability, and analysis. Computer applications. Funding sources and arrangements. Builder's insurance.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction                 | 3     | CS              | Prerequisite(s): Engineering and Design BS or BSD major; CON 221 with C or better; CON 251 OR Construction Engineering student  |
| CON     | 394         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction                 | 1-4   |                 | Pre-requisite: Engineering BS or BSE student  |
| CON     | 424         | Structural Design  | Economic use of concrete, steel, and wood in building and engineered structures. Design of beams, columns, concrete formwork, and connections.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction                 | 3     |                 | Prerequisite(s): Construction Management BS major; CON 223 with C or better; Pre- or corequisite(s): CON 310  |
| CON     | 430         | Facilities Operations and Maintenance                        | Operations, maintenance and energy management requirements of various types of facilities and built environments. Ethical practices.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction                 | 3     |                 | Prerequisite(s): minimum junior standing; Credit is allowed for only CON 430 or CON 494 (Facilities Management/Operations & Maintenance) or CON 530 or CON 598 (Facilities Management/Operations & Maintenance) |

ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                       | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department               | Units | General Studies | Requirements   |
|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|---------------------------|--------------------------|-------|-----------------|--|
| CON     | 441         | Public Works Capital Construction                  | Practices and policies employed in delivering capital construction projects by government agencies at various levels. The full lifecycle of the typical public works capital construction project from planning, through design and construction, to operations and maintenance. Additional lecture topics include sustainability, strategic planning, risk management and safety. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): junior or senior Construction Engineering or Construction Management major; Credit is allowed for only CON 441 or CON 541 or CEE 494/CON 494 (Public Works Capital Construction) or CEE 598/CON 598 (Public Works Capital Construction) |
| CON     | 446         | Marketing for Construction                         | Provides key marketing practices to include strategic planning, marketing collateral, networking, business development, and interview preparation for project pursuits. Covers all aspects of service-based marketing topics and practices.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): COM 225; CON 221 with C or better   |
| CON     | 448         | Sustainable Construction                           | Studies the principles associated with sustainable construction: problem definition, definition of sustainability, measures of sustainability, examination of current industry practices, financial and resource impacts of sustainable construction, independent student investigation.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Pre-requisite: Construction BS or Civil (Sustainable Engineering) student; Senior standing; Credit is allowed for only CON 448, CON 494 or CON 598 (Sustainability in Construction)  |
| CON     | 450         | Geotechnical Applications for Construction         | Soil formation, engineering properties and use as building materials. Soil's influence on construction of built environment, including specifications and biological aspects.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction Management BS major; CON 223 with C or better; CON 310; Credit is allowed for only CNE 450 or CON 450  |
| CON     | 453         | Construction Project Management I                  | Building information modeling, including current computer programs and LEED methodologies for advanced project deliveries.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction Management BS major or Construction Engineering BSE major; CON 271 or CNE 271 with C or better; CON 383 or CNE 383; Pre-or Corequisite(s): CON 495 or CNE 495; Credit is allowed for only CON 453 or CNE 453               |
| CON     | 454         | Trenchless Construction Methods                    | Theory and practice of trenchless construction methods. Types of equipment, roles of site personnel, engineering design, contractual issues and safety. Lecture, class projects, and site visits. Knowledge of heavy construction equipment, methods and materials required to be successful in this course.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; Pre- or corequisite(s): CNE 243 or CON 243; Credit is allowed for only CON 454 or CON 494 (Trenchless Construction Mth) or CON 554                                    |
| CON     | 455         | Construction Project Management II                 | Advanced topics in administrative procedures, planning processes, and coordination required to successfully complete construction projects on time and budget.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; CNE 453 or CON 453; Pre- or corequisite(s): CNE 495 or CON 495; Credit is allowed for only CNE 455 or CON 455   |
| CON     | 457         | Principles of Leadership for Project Managers      | Individual, organizational and process/structure leadership in project setting. Four-step leadership transformational model for project leaders. Project leadership tools and applications to motivation, conflict management, team building and delegation of risk.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Pre-requisites: BS Construction Management or BSE Construction Engineering major; Pre/Co-requisite(s): CON 243; Credit is allowed for only CON 457, 494 (Prin Lead & Management), 557 or 598 (Prin Lead and Mgmt)  |
| CON     | 465         | Deductive Logic, Leadership and Industry Structure | Simple, logical explanations of construction and other industries. State-of-the-art supply chain, profit maximizing and efficient practices.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): junior or senior standing; Credit is allowed for only CON 465 or CON 565  |
| CON     | 467         | Advanced Procurement Systems                       | Development of multicriteria decision procurement model for selecting the performing contractor.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): junior or senior standing; Credit is allowed for only CON 467 or CON 567 or CON 494 (Advanced Procurement Systems)  |
| CON     | 471         | Mechanical and Electrical Project Management       | Specialty contracts and agreements, scheduling, material handling, labor unit analysis, and job costing for mechanical and electrical construction.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction BS major; CON 453 with C or better   |
| CON     | 472         | Development Feasibility Reports                    | Integrates economic location theory, development cost data, market research data, and financial analysis into a feasibility report.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     | L               | Pre-requisite: Construction BS or Design BSD student; REA 380  |
| CON     | 477         | Residential Construction Business Practices        | Topics addressed include development, marketing, financing, legal issues, and sales.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Engineering BS major or Design BSD major; CON 377 with C or better; CON 389 with C or better; CON 446 with C or better or MKT 382 or 395  |
| CON     | 483         | Advanced Building Estimating                       | Concepts of pricing and markup, development of historic costs, life cycle costing, change order and conceptual estimating.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction BS major; CON 383 with C or better   |
| CON     | 484         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | PRA               | Y               | Z1            | Ira A. Fulton Engineering | Del E. Webb Construction | 1-12  |                 | Prerequisite(s): Construction Management BS major with CON 296 or CNE 296 OR Construction Engineering BSE major with CON 271 or CNE 271; Credit is allowed for only CON 484 or CNE 484   |
| CON     | 486         | Heavy Construction Estimating                      | Methods analysis and cost estimation for construction of highways, bridges, tunnels, dams, and other engineering works.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction BS major; CON 383 with C or better OR Construction Engineering BSE major   |
| CON     | 487         | Heavy Construction Project Management              | Studies methods used to manage large magnitude heavy construction projects.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): BS Construction Management major; CON 243 (or CNE 243) with C or better; Credit is allowed for only CON 487 or 494 (Heavy Const Proj Mgmt)  |
| CON     | 488         | Heavy Construction Earthworks                      | Geotechnical issues with respect to foundation grading, forming and location for various types of infrastructure and transportation projects. Also includes streets, highway and embankment developments, retaining wall system, mechanically stabilized earth walls, and required quality control methods for these activities.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; Pre- or corequisite(s): CON 243; Credit is allowed for only CON 488 or CON 494 (Heavy Construction Earthworks)  |
| CON     | 491         | Construction Project Capstone                      | Develops understanding and knowledge of topics and concepts required to be a construction manager. A construction project is the basis for applying cost estimating, scheduling, safety, communications and other construction management skills.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): CON 383; CON 495; Pre- or corequisite(s): CON 455; Credit is allowed for only CON 491 or CON 494 (Construction Project Capstone)  |
| CON     | 492         | Honors Directed Study                              | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.  | N                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Del E. Webb Construction | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| CON     | 493         | Honors Thesis                                      | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | RSC               | N               | Z1            | Ira A. Fulton Engineering | Del E. Webb Construction | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| CON     | 494         | Special Topics                                     | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 1-4   |                 |  |
| CON     | 495         | Construction Planning and Scheduling               | Various network methods of project scheduling, such as AOA, AON Pert, bar-charting, line-of-balance, and VPM techniques. Microcomputers used for scheduling, resource allocation, and time/cost analysis.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     | CS              | Prerequisite(s): Construction Management BS major or Construction Engineering BSE major; CON 383 or CNE 383; Credit is allowed for only CON 495 or CNE 495   |

ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                       | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department               | Units | General Studies | Requirements   |
|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|---------------------------|--------------------------|-------|-----------------|--|
| CON     | 496         | Construction Contract Administration               | Surveys administrative procedures of general and subcontractors. Studies documentation, claims, arbitration, litigation, bonding, insurance, and indemnification. Discusses ethical practices.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     | L               | Prerequisite(s): Construction Management BS or Construction Engineering BSE major; CNE 453 or CON 453; Credit is allowed for only CNE 496 or CON 496   |
| CON     | 498         | Pro-Seminar  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.   | Y                 | SEM               | Y               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 1-7   |                 |  |
| CON     | 499         | Individualized Instruction                         | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.  | Y                 | IND               | Y               | Z1            | Ira A. Fulton Engineering | Del E. Webb Construction | 1-3   |                 |  |
| CON     | 501         | Construction Research Methods                      | Data collection methodologies, applied parametric and nonparametric statistics, data analysis techniques, technical writing, and data presentation.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Pre-requisite: Construction Graduate student   |
| CON     | 502         | Front-End Planning                                 | Principles and applications for effective early planning of capital facilities, including: finance, economics decision making, risk management, team alignment and front-end planning processes and tools.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): graduate Civil Engineering or Construction or Construction Engineering student; Credit is allowed for only CEE 502 or CON 502 or CON 598 (Front End Planning) or CEE 598 (Front End Planning)   |
| CON     | 530         | Facilities Operations and Maintenance              | Operations, maintenance and energy management requirements of various types of facilities and built environments. Ethical practices  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking); Credit is allowed for only CON 430, 494 (Facilities Management/Operations & Maintenance), 530 or 598 (Facilities Management/Operations & Maintenance)                         |
| CON     | 531         | Facility Management: Building Energy Management    | Understand and learn energy management techniques in facilities management. Identifying and performing efficiency evaluations on various types of heating, ventilation and air conditioning systems in typical buildings. Concepts and methods of managing, adjusting and balancing equipment and systems for maximum facility performance. Facilities organizations best practices to maximize energy savings and performance, such as insulation usage, lighting optimization, energy management systems and commissioning procedures. Identification of ancillary benefits to energy-efficient building systems such as indoor air quality, sustainability and energy audits. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only CON 531 or CON 598 (Facility Management Building)   |
| CON     | 532         | Facilities Project Management                      | Understand and learn project management techniques in facilities management. Stakeholder analysis, including roles, responsibilities and risk considerations. Asset owner and manager considerations within project components and deliverables. Development of project scope, requirements, schedules, budgets and communication plans from a facility manager's perspective. Best practices of facilities organizations for managing contract types, contract governance and performance management.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate; Credit is allowed for only CON 532 or CON 598 (Facility Project Management)  |
| CON     | 540         | Construction Productivity                          | Productivity concepts. Data collection. Analysis of productivity data and factors affecting productivity. Means for improving production and study of productivity improvement programs.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction MS or Construction Engineering MSE major   |
| CON     | 541         | Public Works Capital Construction                  | Practices and policies employed in delivering capital construction projects by government agencies at various levels. The full lifecycle of the typical public works capital construction project from planning, through design and construction, to operations and maintenance. Additional lecture topics include sustainability, strategic planning, risk management and safety.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): graduate Construction Engineering or Construction Management student; Credit is allowed for only for CON 441 or CON 541 or CEE 494/CON 494 (Public Works Capital Construction) or CEE 598/CON 598 (Public Works Capital Construction) |
| CON     | 545         | Construction Project Management                    | Theory and practice of construction project management. Roles of designer, owner, general contractor, and construction manager.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): Construction or Construction Engineering graduate student   |
| CON     | 551         | Alternative Project Delivery Methods               | Design/construction interaction; conceptual estimation and scheduling; the RFQ/RFP process; legal, insurance, risk allocation issues; procurement and selection.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CON     | 554         | Trenchless Construction Methods                    | Theory and practice of trenchless construction methods. Types of equipment, roles of site personnel, engineering design, contractual issues, and safety. Lecture, class projects, and site visits. Knowledge of heavy construction equipment, methods, and materials required to be successful in this course.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Pre-requisite: Construction Graduate student   |
| CON     | 557         | Principles of Leadership for Project Managers      | Individual, organizational and process/structure leadership in project setting. Four-step leadership transformational model for project leaders. Project leadership tools and applications to motivation, conflict management, team building and delegation of risk.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CON 457 or CON 494 (Prin Lead & Management) or CON 557 or CON 598 (Prin Lead and Mgmt)  |
| CON     | 561         | International Construction                         | Investigation of the cultural, social, economic, political, and management issues related to construction in foreign countries and remote regions.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Pre-requisite: Engineering Graduate student  |
| CON     | 565         | Deductive Logic, Leadership and Industry Structure | Simple, logical explanations of construction and other industries. State-of-the-art supply chain, profit maximizing, and efficient practices.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): graduate student (degree seeking or nondegree seeking). Credit is allowed for only CON 465 or CON 565   |
| CON     | 567         | Advanced Procurement Systems                       | Development of multicriteria decision procurement model for selecting the performing contractor.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only CON 467, 567 or 494 (Advanced Procurement Systems)   |
| CON     | 570         | Introduction to Advanced Technology Facilities     | Introduces advanced technology facilities such as cleanrooms, data centers, research labs, and hospitals. The constructor's viewpoint, including: planning, structures, mechanical, and tool installation. Site visits.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CON     | 571         | Construction of Advanced Technology Facilities     | Construction issues for advanced technology facilities such as cleanrooms, data centers, research labs, and hospitals. Issues include scheduling, cost estimating, project management, mechanical, safety, commissioning and tool hookup. Site visits.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): CON 570 with C or better  |
| CON     | 575         | Information Technology in Construction             | Uses virtual construction methodologies to improve the construction enterprise using communications, facility modeling, and decision making. Site visits.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CON     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | PRA               | Y               | OPT           | Ira A. Fulton Engineering | Del E. Webb Construction | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

| CON     | 584         | Internship                              | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Ira A. Fulton Engineering   | Del E. Webb Construction                 | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student               |
| CON     | 589         | Construction Company Financial Control  | Financial accounting and cost control at the company level in construction companies. Accounting systems. Construction project profit calculations. Financial analysis.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering   | Del E. Webb Construction                 | 3     |                 | Pre-requisite: Engineering MS, MSE or PHD student                            |
| CON     | 590         | Reading and Conference                  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | Ira A. Fulton Engineering   | Del E. Webb Construction                 | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student               |
| CON     | 591         | Seminar                                 | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Ira A. Fulton Engineering   | Del E. Webb Construction                 | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student               |
| CON     | 592         | Research                                | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering   | Del E. Webb Construction                 | 1-12  |                 | Pre-requisite: Construction Masters student                                  |
| CON     | 593         | Applied Project                         | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering   | Del E. Webb Construction                 | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student               |
| CON     | 594         | Conference and Workshop                 | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering   | Del E. Webb Construction                 | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student               |
| CON     | 595         | Continuing Registration                 | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | IND               | Y               | Z3            | Ira A. Fulton Engineering   | Del E. Webb Construction                 | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student               |
| CON     | 598         | Special Topics                          | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. | CPI     | 111         | Game Development I                      | Introduces video game design, art theory, and concepts as they apply to video game development. Basic art principles used in game development. Covers the fundamental video game art principles of 2-D and 3-D composition, color theory, modeling, and lighting techniques. Demonstrates practical application of these art fundamentals in establishing style guides, concept art, storyboards, and in-game assets. Also includes game design, game production, asset production, and game programming. Hands-on experience by creating 2-D game prototypes belonging to different video game genres and evaluating the techniques. | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering   | Computing and Informatics Program        | 3     | CS              |  |
| CPI     | 194         | Special Topics                          | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering   | Computing and Informatics Program        | 1-4   |                 |  |
| CPI     | 200         | Mathematical Foundations of Informatics | Practical introduction to the mathematics necessary for studies in informatics. Topics include discrete math, analytic geometry, calculus, and linear algebra.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     | MA              | Prerequisite(s): MAT 242, 342, or 343 with C or better; 243 with C or better |
| CPI     | 200         | Mathematical Foundations of Informatics | Practical introduction to the mathematics necessary for studies in informatics. Topics include discrete math, analytic geometry, calculus, and linear algebra.  | N                 | LEC               | N               | OPT           | Ira A. ## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                        | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|-----------------------------------|-------|-----------------|--|
| CPI     | 220         | Applied Data Structures and Algorithms         | Thorough grounding in applied knowledge and skills related to algorithms and data structures used in the development of software designed to solve complex problems. Overview of computational and critical thinking skills that can be called upon to analyze and solve complex problems in multiple domains.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): CSE 205 with C or better  |
| CPI     | 221         | Advanced Object-Oriented Principles Using Java | Advanced object-oriented programming using the Java language. Design concepts and problem solving.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): CPI 220 with C or better  |
| CPI     | 294         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 1-4   |                 |  |
| CPI     | 310         | Web-Based Information Management Systems       | Relational database design, entity-relationship modeling, relational algebra, SQL, database access through Web, Web data management, introduction to XML, fundamentals of Web application development, Web server architectures, lecture, in-class lab activities.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): CSE 205 with C or better  |
| CPI     | 311         | Game Engine Development                        | State-of-the-art techniques for computer game design and programming with an emphasis on 3-D graphics and interaction. Focuses on a practical, example-driven approach to learning the unique art of 3-D game development. Topics include graphics game engines, textures, shader programming, artificial intelligence, physics, modeling, sound effects, and techniques for user interfaces.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): CPI 211 with C or better  |
| CPI     | 321         | Fundamentals of Game Art                       | Introduces art theory and concepts as they apply to video game development. Covers 2-D and 3-D composition, color theory, modeling, and lighting techniques. Demonstrates practical application of these art fundamentals in establishing style guides, concept art, storyboards, and in-game assets.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): CPI 211 with C or better  |
| CPI     | 350         | Evaluation of Informatics Systems              | Methods for evaluation of informatics systems, including design of computational and human experiments, ethnography, and analytic techniques.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): GCU 495, IEE 380, STP 226, STP 231, or STP 420 with C or better   |
| CPI     | 360         | Decision Making and Problem Solving            | Practical use of database systems, computer graphics, and modeling to inform decision making.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): CSE 205 with C or better  |
| CPI     | 394         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 1-4   |                 |  |
| CPI     | 400         | Scientific Computing and Visualization         | Introduces scientific computing and visualization, supported by data acquisition, geometric modeling, and computer graphics. Covers the necessary mathematical foundations, data structures, and algorithms.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): CPI 101 with C or better; CPI 200 with C or better  |
| CPI     | 411         | Graphics for Games                             | Examines real-time rendering of high-quality interactive graphics. Studies advances in graphics hardware and algorithms that make this possible. Examples of techniques and topics include nonphotorealistic rendering, occlusion culling, level of detail, terrain rendering, shadow generation, image-based rendering, and physical simulation. Helps students add graphics-related features to the game architecture developed in CPI 311. | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): CPI 311 or CSE 470 with C or better   |
| CPI     | 412         | Cognitive Systems and Intelligent Agents       | Advanced concepts and techniques of rule-based programming and agent architectures, incorporating ideas from artificial intelligence, cognitive psychology, and linguistics, along with their use in creating intelligent synthetic characters for interactive games and other virtual environments.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): CPI 311 with C or better  |
| CPI     | 421         | 3-D Modeling and Texturing                     | Provides working knowledge of 3-D modeling, texture mapping, and paint concepts for the creation of 3-D video games art assets. Students work on concepts such as 3-D lighting, high polygon mesh rendering, and various third-party software and how to integrate them into the asset production pipeline.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): CPI 211 with C or better  |
| CPI     | 422         | 3-D Animation and Rigging for Video Games      | 3-D rigging, skinning, and 3-D animation techniques for video game development. Includes rotoscoping for character animation, animation loops, and integration of motion capture data, as well as prop animation. Covers operation of 3-D cameras and 3-D rendering.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): CPI 321 with C or better  |
| CPI     | 441         | Gaming Capstone                                | Industry-oriented course emphasizing the video game development process, technical skills, teamwork and communication among the students enrolled in the gaming certificate. Students partner with local industry involved in game development, visual art, and educational gaming and solve real-world problems by working in a team comprised of students from the three tracks available within the certificate.                           | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): BS Informatics or BIS (Computer Gaming) or Computer Gaming certificate; senior standing   |
| CPI     | 460         | Intelligent Interactive Instructional Systems  | Intelligent interactive instructional systems serve as tutors, as learning companions or both. Covers their design, the technology that powers them, the learning theories that motivate them and results from experimental evaluations. Emphasizes intelligent tutoring systems, as they are a more mature technology.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): CSE 205 with C or better; Credit is allowed for only CPI 460 or CSE 494 (Intelligent Instr Sys)   |
| CPI     | 462         | Design for Learning in Virtual Worlds          | Focuses on issues of design for learning in virtual worlds by exploring: the history and evolution of virtual worlds, the theories behind the use of virtual worlds for learning, the design of curricula in virtual worlds, design guidelines for elements experienced in virtual worlds to support learning, design guidelines for learning quests and activities in virtual worlds. Also introduces virtual world building using Unity 3D. | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Computing and Informatics Program | 3     |                 | Prerequisite(s): CPI 221, CSE 220, or CSE 240 with C or better; Credit is allowed for only CPI 494 (Design for Learning in Virtual Worlds) or CSE 494 (Design for Learning in Virtual Worlds) or CPI 462 |
| CPI     | 484         | Internship                                     | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Ira A. Fulton Engineering | Computing and Informatics Program | 1-12  |                 |  |
