|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|--|
| CPI     | 499         | Individualized Instruction             | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.  | Y                 | IND               | Y               | Z1            | Ira A. Fulton Engineering      | Computing and Informatics Program                 | 1-3   |                 |  |
| CPI     | 598         | Special Topics                         | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering      | Computing and Informatics Program                 | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CPP     | 101         | Foundations of Cross Sector Leadership | Prepares NGSC track members for success in their four-year journey while also sparking opportunities to develop as a leader throughout their Sun Devil careers. Provides a baseline for ethical decision making which is the cornerstone of effective leadership. This is accomplished through the lens of the public, private and nonprofit sectors. Also explores complex challenges we face and examples of successful cross-sector collaboration that have led to sustainable solutions. Additionally, students develop teamwork, time management, professionalism and respect for fellow NGSC team members.   | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 1     |                 | Credit is allowed for only CPP 101 or CPP 194 (Next Generation Service Corps) or CPP 194 (Foundations of Cross Sector Leadership)  |
| CPP     | 194         | Special Topics                         | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 1-4   |                 |  |
| CPP     | 201         | NGSC Community Impact Lab              | Behind every challenge is an opportunity to innovate. Course offers hands-on, service learning opportunities for students within the ASU Public Service Academy--Next Generation Service Corp (NGSC). Using a problem-solving method called human-centered design, student teams work closely with a nonprofit organization, small business, government office or community organization to develop a solution to a critical issue within their organization that is based in research and empathy for the organization and their stakeholders. Beyond learning and applying the design thinking process, students also develop skills in team management, conflict management and reflection.   | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 2     |                 | Prerequisite(s): CPP 101; Credit is allowed for only CPP 201 or CPP 294 (NGSC Community Impact Lab)  |
| CPP     | 294         | Special Topics                         | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 1-4   |                 |  |
| CPP     | 301         | Cross-Sector Collaboration             | Examines how public, private and nonprofit organizations seek to address social challenges and explores how the three sectors work together and in isolation to tackle social problems. Students learn about the motivation of employees in the public, private and nonprofit sectors and the ways in which organizational structure, environment and legal contexts differently constrain or facilitate action within and across these organizations. Explores effective strategies for collaboration among the public, private and nonprofit sectors and identifies organizational similarities and points of contrast that could enhance or create barriers to such collaboration.  | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 3     |                 | Prerequisite(s): CPP 101; Pre- or corequisite(s): Public Service Academy student; minimum 45 hours; Credit is allowed for only CPP 301 or CPP 294 (Cross Sector Collaboration) |
| CPP     | 394         | Special Topics                         | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 1-4   |                 |  |
| CPP     | 410         | Social Entrepreneurship                | In-depth study of social entrepreneurship, including how ideas are formulated, constructed, and implemented; experiential learning in developing a social enterprise plan.   | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 3     |                 | Prerequisite(s): Cross-Sector Leadership certificate or NLM 220; Credit is allowed for only CPP 410 or NLM 410   |
| CPP     | 494         | Special Topics                         | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 1-4   |                 |  |
| CPP     | 498         | Pro-Seminar                            | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.   | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 1-7   | L               |  |
| CPP     | 499         | Individualized Instruction             | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.  | N                 | LEC               | N               | Z1            | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 1-3   |                 |  |
| CPP     | 499         | Individualized Instruction             | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.  | N                 | LEC               | N               | Z1            | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 1-3   |                 |  |
| CPP     | 510         | Hazards Governance                     | Examines how hazards are managed by both community- and national-level policymaking and administrative systems, with a particular focus on understanding how policies and management practices are related to risk reduction and resilience capacity promotion. Explores what governance means in practice and presents existing research, including policy reports, cases studies and quantitative analyses of community-level and national-level hazards management programs and related public policies--and how their integration is relevant to hazards governance. Emphasizes understanding the nature of public goods production processes, including how inter-sector integration (i.e., between, public, private and nonprofit organizations) and extant community vulnerability profiles matter to the specific risk reduction efforts, and what those same efforts yield in terms of aggregate community resilience outcomes. | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CPP 510 or CPP 591 (Hazards Governance)   |

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department  | Units | General Studies | Requirements  |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|---|
| CPP     | 520         | Program Evaluation for Emergency Management and Homeland Security | Examines core concepts and techniques of program evaluation and policy analysis and applies them to specific challenges in the domains of emergency management and homeland security. Develops knowledge and expertise in the practice of evaluating public sector programs, policies and other agency actions related to hazards issues-both natural and human-made. Develops students' knowledge, skill and ability in identifying appropriate research designs for particular evaluation and policy analysis problems; in managing data and focusing reports based on project objectives; and in appropriately characterizing and presenting empirical those data gathered for program evaluation and policy research projects. Provides an opportunity to learn about conducting evaluation and policy research in a way that is relevant to solving policy and management challenges germane to emergency management and homeland security agencies.           | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 3     |                 | Prerequisite(s): CRJ 511; Credit is allowed for only CPP 520 or CPP 591 (Program Evaluation in EMHS)  |
| CPP     | 530         | Leadership for Innovation in Public Fire Services                 | Provides current and future fire service leaders with an understanding and the skills necessary to manage creativity and foster a culture of innovation in public fire and emergency services. The approach is to treat the fire officer as an entrepreneur who identifies ideas and opportunities, then builds a business case for innovation.   | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CPP     | 540         | Foundations of Emergency Medical Services                         | Examines the operational structure of emergency medical services in the United States, including the current organization, delivery and financing of these systems. Discusses strengths, weaknesses and future challenges of EMS with consideration for creating systems better integrated with the overall health care delivery system.  | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CPP     | 550         | Community Paramedicine: Mobile Integrated Health Care             | Explores mobile integrated health care and community paramedic programs and how health care professionals and community partners can work together to identify community health needs, foster partnerships and overcome hurdles in MIH/CP program development. Discusses examples of successful MIH/CP programs.  | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CPP     | 560         | Emergency Services Operations Analysis and Planning               | Applies common data analysis tools and techniques appropriate to risk assessment, deployment analysis and performance measurement to evaluate an organization's abilities to respond to community risk.   | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CPP     | 590         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic or writing a literature review of a topic.  | N                 | LEC               | N               | Z1            | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CPP     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 1-12  |                 |   |
| CPP     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 1-12  |                 |   |
| CPP     | 593         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | N                 | LEC               | N               | Z1            | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 1-12  |                 |   |
| CPP     | 593         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | N                 | LEC               | N               | Z1            | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 1-12  |                 |   |
| CPP     | 594         | Conference and Workshop   | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 1-12  |                 |   |
| CPP     | 691         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | College of Public Service and Community Solutions | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CPY     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Integrative Sciences & Arts    | College of Integrative Sciences and Arts          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CPY     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Integrative Sciences & Arts    | College of Integrative Sciences and Arts          | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate   |
| CPY     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Integrative Sciences & Arts    | College of Integrative Sciences and Arts          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CPY     | 600         | Research Methods  | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts    | College of Integrative Sciences and Arts          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CPY     | 623         | Counseling At-Risk Youth  | Examines the behaviors that place adolescents at risk for not achieving career goals and interventions to address these behaviors.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts    | College of Integrative Sciences and Arts          | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CPY     | 635         | Professional Development  | A series of presentations designed to expose beginning doctoral students to the multidimensional facets and competencies for being a counseling psychologist.   | N                 | SEM               | Y               | YGB           | Integrative Sciences & Arts    | College of Integrative Sciences and Arts          | 1     |                 | Prerequisite(s): Counseling Psychology PhD student; Credit is allowed for only CPY 635 or CPY 691 (Professional Development)                                |
| CPY     | 644         | Psychology of Careers   | Advanced career counseling, including theory, research, and practice.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts    | College of Integrative Sciences and Arts          | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate OR undergraduate postbaccalaureate student   |
| CPY     | 645         | Professional Issues and Ethics                                    | Ethical, legal, and professional issues of concern to practitioners and researchers functioning in a variety of settings.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts    | College of Integrative Sciences and Arts          | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate   |
| CPY     | 650         | Counseling Latinos  | Survey course addressing mental health concerns and perspectives for individuals and families of Latino, Spanish-speaking origin.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts    | College of Integrative Sciences and Arts          | 3     |                 | Pre-requisite: CED 522  |
| CPY     | 651         | Personality Assessment  | Training in the use of major objective personality instruments to assess psychological symptoms; emphasizes MMPI-2 and MCMI-III.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts    | College of Integrative Sciences and Arts          | 3     |                 | Pre-requisite: CED 523  |
| CPY     | 652         | Individual Intellect Assessment                                   | Examines the nature of human intellectual/cognitive abilities, their standardized measurement, and related issues in interpretation and practice. Provides preliminary training and experience in the administration and interpretation of two of the most widely used tests in this area: the Wechsler Adult Intelligence Scale, 4th ed. & the Wechsler Intelligence Scale for Children, 5th ed. Introduces other instruments at a topical level. Emphasizes theoretical foundations, practice skills, cultural considerations and ethical issues in intellectual/cognitive assessment. Operates under the broad principles of a cooperative learning approach. By researching and presenting on key course concepts, students practice incorporating a scholarly and empirical basis into their clinical work to develop specialized expertise in clinical assessment. Class format includes instructor- and student-led didactics, discussion and practice labs. | N                 | SEM               | N               | GNA           | Integrative Sciences & Arts    | College of Integrative Sciences and Arts          | 3     |                 | Prerequisite(s): Master of Counseling or Counseling Psychology PhD student; Credit is allowed for only CPY 652 or CPY 691 (Individual Intellect Assessment) |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                               | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|-----------------------------|--|-------|-----------------|--|
| CPY     | 653         | Neuropsychology  | Assumes students have knowledge of basic topics in physiological psychology and/or in brain and behavior-type courses. Concentrates on human neuropsychology; the main topics are related to functional brain organization and hemispheric specialization, with a particular emphasis on functional assessment. Includes several other topics related to late-breaking empirical developments in the field. Read and discuss articles and studies, employing a large variety of methodologies, ranging from the 1950s to the latest publications, with both normal and pathological subject populations. Much of the course is spent discussing brain assessment techniques to study cognitive function and dysfunction. Emphasizes commonly used approaches in the assessment and measurement of human behavior and how the human brain is responsible for cognition, language, memory, spatial processing, emotion and personality.   | N                 | SEM               | N               | GNA           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): Master of Counseling or Counseling Psychology PhD student; Credit is allowed for only CPY 653 or CPY 691 (Neuropsychology)      |
| CPY     | 654         | Biobases of Behavior                                   | Fulfills the APA requirement for a three-semester-hour course devoted to the broad and general biological bases that underlie behavior, and surveys a variety of fundamental physiological principles. Designed for students enrolled in an APA-accredited professional psychology training program; it does not focus on application of physiological principles to psychological practice. Capitalizes on most students' prior familiarity with psychopathology to help enable acquisition of general information about important brain structures and functions. Includes information about basic nervous system-related biochemistry, cellular structure and physiology, and anatomy and physiology. Students participate in classroom problem solving activities during which an array of principles is covered based on reading assignments. Challenges students to consider the role of biological, evolutionary and genetic factors in the expression of an array of typical and atypical behavior. | N                 | SEM               | N               | GNA           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): Master of Counseling or Counseling Psychology PhD student; Credit is allowed for only CPY 654 or CPY 691 (Biobases of Behavior) |
| CPY     | 660         | Prevention and Consultation                            | Community focus with emphasis on outreach, prevention, psychoeducation, consulting, and advocacy from a systematic multicultural perspective.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: Counseling MC or MED student OR Counseling Psychology PhD student   |
| CPY     | 668         | Grant Writing and Grant Makers: The Washington Context | Develops successful proposals for educational research projects. Students gain experience writing for federal agencies, reviewing, and being evaluated on grant proposals.  | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only CPY or HED 668                                 |
| CPY     | 670         | Individual Differences                                 | Focuses on definitions and assessment of ways humans vary on psychological constructs.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CPY     | 671         | Multicultural Counseling                               | Provides awareness of the influence of sociocultural variables on human development and explores implications for counseling minority populations.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| CPY     | 674         | Counseling Women                                       | Explores women's development and its implications for counseling. Sexism in mental health, sex differences in diagnosis and psychopathology, and women's particular treatment needs.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| CPY     | 675         | Health and Wellness Counseling                         | Theory, research, and practice in health and wellness counseling.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CPY     | 676         | Social Bases of Behavior                               | In-depth examination of contemporary research and theory in selected areas of social psychology.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CPY     | 677         | Advanced Counseling                                    | Advanced topics in counseling theory, research, and practice.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate  |
| CPY     | 678         | Supervision Theory                                     | Models of therapist development and clinical supervision.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CPY     | 679         | History and Systems of Psychology                      | Examines the development and differentiation of the discipline of psychology from its origins in philosophy to the present.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| CPY     | 680         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| CPY     | 690         | Reading and Conference                                 | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| CPY     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| CPY     | 692         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| CPY     | 693         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post-Baccalaureate Undergraduate  |
| CPY     | 694         | Substance Abuse: Therapy and Psychoeducation           | Develops knowledge and skills for conducting psychotherapeutic and educational interventions to address substance use disorders and associated concerns.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts | College of Integrative Sciences and Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

Must have taken 25 or fewer semester hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-3   |                 | Pre-requisite: Maximum 25 hours; Credit is allowed for only CRD, PRM or TDM 191  |
| CRD     | 194         | Special Topics                                    | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-4   |                 |  |
| CRD     | 210         | Community Services and Professions                | Introduces the system of public, nonprofit and private sector resources and services comprising contemporary communities. Organized into three modular units with emphasis on the delivery of services in the community sports, parks and recreation, tourism, and nonprofit professions.   | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Pre- or corequisite(s): NLM 160 or PRM 120 with C or better if completed   |
| CRD     | 235         | Leadership and Ethics                             | Examines ethical questions faced by emerging leaders. Focuses on helping students develop emotional intelligence, current professional issues, and the refinement of a professional philosophy and comprehensive set of competencies that enable transition from student to professional.   | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Credit is allowed for only CRD 235 or NLM 235  |
| CRD     | 301         | Sustainable Communities                           | Analyzes community as concept and as an organizing system for promoting sustainability.   | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Pre- or corequisite(s): PRM 120 or NLM 160 with C or better if completed; Credit is allowed for only CRD 301, NLM 301, PRM 301, SOS 301 or TDM 301   |
| CRD     | 302         | Inclusive Community Development                   | Examines the characteristics of diverse populations across the lifespan to effectively develop inclusive community programs and services.   | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     | C               | Prerequisite(s): ENG 102 with a C or better; MAT 142 or higher with a C or better; NLM 160 (or PRM 120) with a C or better; 2.50 GPA; 45 earned hours; Credit is allowed for only CRD 302, NLM 302, PRM 302 or TDM 302 |
| CRD     | 394         | Special Topics                                    | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-4   |                 |  |
| CRD     | 403         | Leadership and Professional Development           | Examines leadership theory and strategies, current professional issues, and refinement of professional philosophy and competencies that enable transition from student to professional.   | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Prerequisite(s): CRD 210, NLM 210, PRM or TDM 210 with C or better; CRD 301, NLM 301, PRM 301 or TDM 301 with C or better; senior standing; 2.50 GPA; Credit is allowed for only CRD 403, NLM 403, PRM 403 or TDM 403  |
| CRD     | 435         | Service Learning for Community Development        | Applies youth and adult development theories through community service immersion in collaboration with local nonprofit partners.  | N                 | REC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Prerequisite(s): Minimum 45 hours. Credit is allowed for only CRD 435 or NLM 435   |
| CRD     | 492         | Honors Directed Study                             | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | Y                 | RSC               | Y               | Z1            | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| CRD     | 493         | Honors Thesis                                     | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | Y                 | RSC               | Y               | Z1            | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| CRD     | 494         | Special Topics                                    | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | GNA           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-4   |                 |  |
| CRD     | 499         | Individualized Instruction                        | Provides an opportunity for original study or investigation in the major or field of specialization, on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. This course may be taken only by outstanding senior students who have completed at least one semester in residence and who have a cumulative GPA of 3.00 or higher in the major or field of specialization. A special class fee may be required. | Y                 | IND               | Y               | Z1            | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-3   |                 |  |
| CRD     | 500         | Research Methods                                  | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-12  |                 |  |
| CRD     | 502         | Statistical and Data Analysis                     | Introduces descriptive and inferential methods used in community development, with an emphasis on nonprofit, tourism, and recreation sciences. Students gain experience using statistical software.   | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 |  |
| CRD     | 530         | Community Services Management                     | Examines and applies organizational behavior, leadership, human resources, development, planning, and risk management to profession.  | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CRD     | 552         | Critical Issues                                   | Examines critical research issues in the leisure, recreation and tourism fields.  | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CRD     | 555         | Theoretical Perspectives in Community Development | Reviews theoretical and empirical literature in community development with an emphasis on nonprofit, tourism, and recreation sciences.  | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 |  |
| CRD     | 563         | Advocacy in Therapeutic Recreation                | Explores issues facing therapeutic recreation professionals and advocacy practices integral to therapeutic recreation service delivery. Investigates a variety of topics and community-engaged experiences facilitate the development of competencies needed to effectively lead therapeutic recreation programs.   | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CRD 563 or CRD 598 (Advocacy in Therapeutic Recreation)   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department                                    | Units | General Studies | Requirements   |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|--|
| CRD     | 569         | Advanced Tourism and Recreation Studies                   | Advanced study of tourism with an emphasis on relevant practices, theories, and concepts.  | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CRD     | 570         | Social Aspects of Outdoor Recreation Management           | Analyzes the social aspects of natural resource science, policy, and management.   | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 |  |
| CRD     | 572         | Community and Social Innovations                          | Considers community innovation and development from the perspective of achieving balance among economic, environmental, social, physical and political realms as a framework of sustainability.  | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only CRD, NLM 572 or NLM 598 (Community & Social Innovations) |
| CRD     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | PRA               | Y               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-12  |                 |  |
| CRD     | 583         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.   | Y                 | IND               | Y               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-12  |                 |  |
| CRD     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | IND               | Y               | Z1            | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-12  |                 |  |
| CRD     | 590         | Reading and Conference                                    | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | IND               | Y               | Z1            | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-12  |                 |  |
| CRD     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-12  |                 |  |
| CRD     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | IND               | Y               | Z1            | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-12  |                 |  |
| CRD     | 593         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | IND               | Y               | Z1            | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-12  |                 |  |
| CRD     | 594         | Conference and Workshop                                   | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.  | Y                 | IND               | Y               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-12  |                 |  |
| CRD     | 595         | Continuing Registration                                   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | LEC               | Y               | Z3            | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1     |                 |  |
| CRD     | 598         | Special Topics  | Topical courses not offered in regular course rotation—e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-4   |                 |  |
| CRD     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.  | Y                 | IND               | Y               | Z2            | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-12  |                 |  |
| CRD     | 610         | Sustainable Communities                                   | Analyzes community as concept and as an organizing system for promoting sustainability. Considers issues at different scales, ranging from urban to rural, local to global, historical to contemporary. Critically examines the role of public, private, and nonprofit institutions in promoting quality of life.  | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CRD     | 620         | Community Research Methods                                | Introduces community research methods, with emphasis on methodological questions and techniques relevant to contemporary community-based research.   | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CRD     | 640         | Research Seminar in Community Resources and Development I | A seminar designed to explore issues related to advancing a career as a researcher in the fields associated with community resources and development (i.e., non]profit, recreation and parks, tourism). Critical to this study is an understanding of the conduct of high quality research, an understanding of issues that arise in professional settings (e.g., expediency vs. effectiveness), and ethical principles and processes that undergird research. | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Pre-requisite: Doctoral student in Community Resources and Development   |
| CRD     | 650         | Research Seminar II                                       | Helps prepare doctoral students to become productive and successful social scientists in community resources and development. Covers a wide range of topics under the broader conceptual umbrella of research, teaching, and service.  | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Pre-requisite: Doctoral student in Community Resources and Development   |
| CRD     | 683         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.   | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CRD     | 690         | Reading and Conference                                    | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | RSC               | Y               | Z1            | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CRD     | 691         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-12  |                 |  |
| CRD     | 695         | Continuing Registration                                   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | LEC               | Y               | Z3            | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1     |                 |  |
| CRD     | 792         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CRD     | 795         | Continuing Registration                                   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | N                 | LEC               | Y               | Z3            | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CRD     | 799         | Dissertation  | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.  | Y                 | IND               | Y               | Z2            | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CRJ     | 100         | Introduction to Criminal Justice                          | History and current practice of the criminal justice system. Roles of law enforcement agencies, courts and correctional agencies.  | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice    | 3     | SB              |  |
| CRJ     | 201         | Criminal Justice Crime Control Policies and Practices     | Dimensions and causes of crime. Criminal justice system responses.   | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice    | 3     |                 |  |

| CRJ     | 516         | Seminar in Criminal Justice Organization and Management | Graduate-level review of policing and police organizations. Seminar examines research on police strategies and practices designed to address crime.   | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 517         | Seminar on Juvenile Delinquency and Juvenile Justice    | Examines patterns and correlates of delinquency within the context of theories of delinquency. Reviews the response of the juvenile justice system.   | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 518         | Seminar on Race/Ethnicity, Crime, and Justice           | Theoretical perspectives and research on the overrepresentation of racial minorities as victims, offenders, and defendants in the criminal justice system.  | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 519         | Seminar on Victimization                                | Examines theory and research concerning victimization and consequences for victims, society, and the justice system. Also examines effective responses to victims' post-crime needs.  | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 520         | Seminar on Violent Crime                                | Examines patterns and correlates of violent crime, as well as prevention strategies and policy implications.  | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 521         | Seminar on the Nature of Crime                          | Examines patterns and correlates of crime at individual, situational, and aggregate levels. Topics include defining crime, offender typographies, and criminal careers.   | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 522         | Seminar on Gangs and Crime                              | Theoretical perspectives and research on gangs and crime, and on the role of the community and the criminal justice system in causes and control.   | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 524         | Seminar on Punishment and Society                       | Examines the fundamental philosophical principles of justice and punishment. Includes a comparative and historical perspective.   | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 525         | Seminar on Life-Course Criminology                      | Provides an intensive examination of life-course explanations of crime, the life-course perspective and a theoretical orientation, and research methods used in life-course research.   | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 526         | Theories of Crime Causation                             |   | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminal Justice MA or Criminology and Criminal Justice MS or PhD major; Credit is allowed for only CRJ 526 or 598 (Theories of Crime Causation)                                   |
| CRJ     | 527         | Police Accountability                                   | Examines the great authority of police, the various and most common ways that police abuse that authority, the consequences of those abuses, and accountability mechanisms that can prevent those abuses from occurring.  | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: MA in Criminal Justice or MS in Criminology and Criminal Justice or PhD in Criminology and Criminal Justice major; Credit is allowed for only CRJ 527 or 598 (Police Accountability) |
| CRJ     | 528         | Prison and Jail Administration                          | Overview of prison and jail administrative practices, with emphasis on policy and management issues in modern correctional institutions.  | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminal Justice MA or Criminology and Criminal Justice MS or Criminology and Criminal Science PhD student   |
| CRJ     | 529         | Community Corrections                                   | Provides a review of theory, research and policy focusing primarily on correctional strategies and programs that take place within the community setting, as well as the function of community corrections within the larger correctional system. Gives particular attention to the purpose and goals of community-based corrections; the historical development of probation and parole practices; and contemporary community corrections programs and strategies such as evidence-based practices, risk assessment, offender reentry, sex offender management, diversion, restitution, community service programs and other emerging alternatives to traditional incarceration. | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: MA in Criminal Justice or MS in Criminology and Criminal Justice or PhD in Criminology and Criminal Science student  |
| CRJ     | 530         | Seminar in Forensics                                    | Explores recent and sometimes controversial developments in forensic science. Includes topics such as quality assurance, the CSI effect and the National Academy of Sciences' report entitled "Strengthening Forensic Science in the United States: A Path Forward."  | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminal Justice MA or Criminology and Criminal Justice MS or Criminology and Criminal Justice PhD student; Credit is allowed for only CRJ 530 or CRJ 598 (Seminar in Forensics)   |
| CRJ     | 531         | Crime Mapping   | Examines the applied research methodology and conceptual framework used to conduct spatial analysis within the crime analysis profession.   | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminal Justice MA or Criminology and Criminal Justice MS or Criminology and Criminal Justice PhD student; Credit is allowed for only CRJ 531 or CRJ 598 (Crime Mapping)          |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                       | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department                                 | Units | General Studies | Requirements  |
|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|--------------------------------|--|-------|-----------------|---|
| CRJ     | 532         | Sex Crimes   | Not only discusses the distinctions among types of offenders, but also applies theory, analyzes public policy, examines the effect of sex offenses on victims, and discusses how we've legislated sexual behavior over human history.  | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminal Justice MA or Criminology and Criminal Justice MS or Criminology and Criminal Justice PhD student; Credit is allowed for only CRJ 532 or CRJ 598 (Sex Offenders & Sex Crimes)                   |
| CRJ     | 553         | Terrorism and Weapons of Mass Destruction          | Historical evolution of terrorism and weapons of mass destruction. Analyzes current theories and mitigation, preparedness, and response tactics.   | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CRJ     | 554         | Homeland Security                                  | Presents skills necessary to develop policies, strategies, programs, and organizational structure of an all hazards/all risk homeland security program.  | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminal Justice MA or Emergency Management and Homeland Security MA or Criminology & Criminal Justice MS or Criminology & Criminal Justice PhD student; Credit is allowed for only PAF 461 or CRJ 554   |
| CRJ     | 555         | Police and International Terrorism                 | Suicide bomber interdiction, jihadism and anti-terrorism intelligence gathering. History of prior attacks and policy responses.  | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminal Justice MA or Criminology and Criminal Justice MS or Criminology and Criminal Justice PhD student; Credit is allowed for only CRJ 445 or CRJ 555 or CRJ 598 (Police and Int'l Terrorism-Israel) |
| CRJ     | 556         | Etiology of Martyrdom                              | Development of a jihadist mindset. Social support for beliefs that lionize martyrdom.  | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Prerequisite(s): Criminal Justice MA or Criminology and Criminal Justice MS or Criminology and Criminal Justice PhD students; Credit is allowed for only CRJ 456 or CRJ 556 or CRJ 598 (Etiology of Martyrdom)            |
| CRJ     | 583         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.   | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CRJ     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 1-12  |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 1-12  |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | LEC               | Y               | Z1            | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 1-12  |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 593         | Applied Project                                    | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | RSC               | Y               | Z1            | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 1-12  |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 594         | Conference and Workshop                            | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.  | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 1-12  |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 595         | Continuing Registration                            | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | LEC               | Y               | Z3            | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 1     |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 598         | Special Topics                                     | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | SEM               | Y               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 1-4   |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.  | N                 | RSC               | Y               | Z2            | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 1-12  |                 | Prerequisite(s): Master of Arts in Criminal Justice or Master of Science in Criminology & Criminal Justice or PhD in Criminology & Criminal Justice students  |
| CRJ     | 601         | Seminar on Criminological Theory                   | Examines historical and contemporary criminological theories.  | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 602         | Seminar on Criminal Justice Policies and Practices | Analyzes responses to crime and the operation of criminal justice system, with emphasis on theory and research on effectiveness of policies and practices of the system.   | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 603         | Advanced Research Design                           | Exposes students to advanced topics in research design and methodology in preparation for writing the doctoral dissertation.   | N                 | RSC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 604         | Advanced Statistical Analysis                      | Use and application of advanced statistical techniques and multivariate analysis of data.  | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 605         | Topics in Quantitative Methods                     | Explores advanced techniques of statistical analysis within the field of criminal justice.   | N                 | SEM               | Y               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 606         | Advanced Topics in Theoretical Criminology         | Focuses on criminological theory construction, historical and contemporary theoretical debates within criminology, theory testing, empirical support for theories, and theoretical integration.  | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 607         | Advanced Topics in Policing                        | Covers the major issues related to policing and police organizations in the United States. Principal focus on policing and police organizations in large cities, with a focus on police organizational structure, police culture, police organizational environment, police decision making and change in the police organization.   | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 608         | Advanced Topics in Courts and Sentencing           | Focuses on recent research on charging, plea bargaining, bail decision making, jury decision making and sentencing, as well as the impact of recent reforms directed at the criminal court system.   | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 609         | Advanced Topics in Corrections                     | Provides a critical examination of the theoretical framework underpinning current correctional policy (institutional and community based), as well as advanced, in-depth analyses of contemporary issues surrounding corrections.  | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 610         | Advanced Topics in Juvenile Justice                | Examines the meaning of the concept of juvenile delinquency as a separate entity in the criminal justice system. Considers the relationship between social attitudes and definitions of youthful law violation, and reviews studies on various forms of delinquency, such as drug offenses, sex delinquency, and status offenders. Also focuses on the internal workings of the juvenile justice system. | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |

|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|--------------------------------|--|-------|-----------------|---|
| CRJ     | 611         | Advanced Topics in Crime and Victimization                       | Examines research on criminal offending and victimization, focusing on the correlates of offending and victimization, risk and protective factors, and policies designed to reduce the impact of crime on victims.  | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 612         | Advanced Topics in Race, Gender, and the Criminal Justice System | Examines the interrelationships among race and ethnicity, gender, crime and the criminal justice system. Focuses on theoretical perspectives and empirical research on racial minorities and women as victims, offenders, and criminal justice professionals.   | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 613         | Qualitative Methods  | Provides students with an examination of the design, execution, and write-up of qualitative research. Discusses methods of data collection, including participant-observation, ethnography, and interviewing.   | N                 | SEM               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 3     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| CRJ     | 792         | Research   | Independent study that is expected to lead to a specific project such as a thesis or dissertation, report or publication, in which a student conducts research under the supervision of a faculty member. Assignments might include data collection, experimental work, data analysis or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 1-15  |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 795         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 1     |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CRJ     | 799         | Dissertation   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Col of Pub Serv & Comm Solutns | School of Criminology and Criminal Justice | 1-15  |                 | Pre-requisite: Criminology and Criminal Justice PhD student   |
| CSE     | 100         | Principles of Programming with C++                               | Principles of problem solving using C++, algorithm design, structured programming, fundamental algorithms and techniques, and computer systems concepts. Social and ethical responsibility.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Computer Science and Engineering Program   | 3     | CS              |   |
| CSE     | 110         | Principles of Programming  | Concepts of problem solving using an object-oriented programming language, algorithm design, structured programming, fundamental algorithms and techniques.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Computer Science and Engineering Program   | 3     | CS              |   |
| CSE     | 120         | Digital Design Fundamentals                                      | Number systems, conversion methods, binary and complement arithmetic, Boolean algebra, circuit minimization, ROMs, PLAs, flipflops, synchronous sequential circuits.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Computer Science and Engineering Program   | 3     |                 | Prerequisite(s): degree-seeking student; Credit is allowed for only CSE 120 or EEE 120  |
| CSE     | 180         | Computer Literacy  | Students gain fluency in integrating technology to efficiently and effectively solve problems using computational thinking.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts    | College of Integrative Sciences and Arts   | 3     | CS              |   |
| CSE     | 180         | Computer Literacy  | Students gain fluency in integrating technology to efficiently and effectively solve problems using computational thinking.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Computer Science and Engineering Program   | 3     | CS              |   |
| CSE     | 182         | Applied Problem Solving with C#.Net                              | Introduces object oriented programming, problem solving, fundamental algorithms and techniques, computer systems concepts, and implementation of programs using Visual C#.Net platform.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Computer Science and Engineering Program   | 3     |                 |   |
| CSE     | 194         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering      | Computer Science and Engineering Program   | 1-4   |                 |   |
| CSE     | 205         | Object-Oriented Programming and Data Structures                  | Problem solving by programming with an object-oriented programming language. Introduces data structures. Overview of computer science topics.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Computer Science and Engineering Program   | 3     | CS              | Prerequisite(s): CSE 110 with C or better; Credit is allowed for only ACO 102 or CSE 205 or CST 200   |
| CSE     | 220         | Programming for Computer Engineering                             | Introduction to C/C++, systems programming, and concurrency.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Computer Science and Engineering Program   | 3     |                 | Prerequisite(s): CSE 120 or EEE 120 with C or better; CSE 205 with C or better  |
| CSE     | 230         | Computer Organization and Assembly Language Programming          | Register-level computer organization. Instruction set architecture. Assembly language. Processor organization and design. Memory organization. IO programming. Exception/interrupt handling.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Computer Science and Engineering Program   | 3     |                 | Prerequisite(s) all with C or better: degree-seeking student: CSE 100 or 110; CSE 120 or EEE 120 OR Software Engineering BS major: CSE 100 or 110; SER 232 OR Computer Science & Engineering grad student; Credit is allowed for only CSE 230 or EEE 230  |
| CSE     | 240         | Introduction to Programming Languages                            | Introduces the procedural (C/C++/Python), applicative (LISP/Scheme) and declarative (Prolog) languages.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Computer Science and Engineering Program   | 3     |                 | Prerequisite(s); CSE 205 with C or better OR Applied Computing major; ACO 102 with C or better OR GIS major; GIS 321 with C or better OR Software Engineering graduate student; Credit is allowed for only ACO 240 or CSE 240                             |
| CSE     | 259         | Logic in Computer Science  | Logic has been called the calculus of computer science. The argument is that logic plays a fundamental role in computer science, similar to that played by calculus in physical sciences and other engineering disciplines. Indeed, logic plays an important role in computer architecture (Boolean logic, digital gates, hardware verification); software engineering (specification, verification); programming languages (semantics, type theory, logic programming); databases (relational algebra, database query language); artificial intelligence (automated theorem proving, knowledge representation); algorithms and theory of computation (complexity, computability, expressiveness). This course is a mathematically solid introduction to propositional logic, first order logic, logic programming, and their applications in computer science. | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Computer Science and Engineering Program   | 3     |                 | Prerequisite(s): CSE 205 with C or better; Credit is allowed for only CSE 259 or CSE 294 (Logic in Computer Science)  |
| CSE     | 294         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering      | Computer Science and Engineering Program   | 1-4   |                 |   |
| CSE     | 298         | Honors Directed Study  | Independent study or practicum under the supervision of a faculty member.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Computer Science and Engineering Program   | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| CSE     | 301         | Computing Ethics   | Ethics for computing majors: history of computing, intellectual property, privacy, ethical frameworks, professional ethical responsibilities, and risks of computer-based systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Computer Science and Engineering Program   | 1     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 205 with C or better; FSE 100 with C or better  |
| CSE     | 310         | Data Structures and Algorithms                                   | Advanced data structures and algorithms, including stacks, queues, trees (B, B+, AVL), and graphs. Searching for graphs, hashing, external sorting.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Computer Science and Engineering Program   | 3     |                 | Prerequisite(s): CSE 220 or 240 with C or better; MAT 243 or 300 with C or better; Computational Math Sci, Computer Science, Computer Syst Engineering, Digital Culture (Media Proc), Engineering Management, Geo Info Sci or Informatics or BMI/CSE grad |
| CSE     | 320         | Design and Synthesis of Digital Hardware                         | Design and synthesis of digital hardware with hardware description language, computer-aided design tools, and programmable devices.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Computer Science and Engineering Program   | 3     |                 | Prerequisite(s): Computer Systems Engineer BSE or Computer Science BS major; CSE 220 with C or better; CSE 230 or EEE 230 with C or better  |

|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|---|
| CSE     | 325         | Embedded Microprocessor Systems              | System-level programming and analysis of embedded microprocessors systems. Fundamental concepts of digital system design for embedded system applications.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 220 with C or better, CSE 230 or EEE 230 with C or better   |
| CSE     | 330         | Operating Systems                            | Operating system structure and services, processor scheduling, concurrent processes, synchronization techniques, memory management, virtual memory, input/output, storage management, and file systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 230 or EEE 230 with C or better; CSE 310 with C or better OR CSE graduate student   |
| CSE     | 335         | Principles of Mobile Application Development | Covers topics pertaining to fundamental concepts of mobile application development principles including design patterns; data persistence; interfacing with services and devices; location and incorporation of existing frameworks; user interface and experience; context awareness; utilization of built-in tools for software profiling, testing, and version control; and security/privacy issues. | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Informatics BS or Computer Systems Engineering BSE major; CSE 220 or 240 with C or better; Credit is allowed for only CSE 335 or CSE 394 (Principles of Mobile Application)   |
| CSE     | 340         | Principles of Programming Languages          | Formal syntactic and semantic descriptions, compilation and implementation issues, and theoretical foundations for several programming paradigms.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Systems Engineer BSE or Computer Science BS major; CSE 310 with C or better; CSE 230 or EEE 230 with C or better OR CSE graduate student  |
| CSE     | 355         | Introduction to Theoretical Computer Science | Introduces formal language theory and automata, Turing machines, decidability/undecidability, recursive function theory, and complexity theory.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Systems Engineering BSE or Computer Science BS major; CSE 310 with C or better OR CSE graduate student  |
| CSE     | 360         | Introduction to Software Engineering         | Software life cycle models; project management, team development environments and methodologies; software architectures; quality assurance and standards; legal, ethical issues.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): CSE 220 or 240 with C or better; Biomedical Informatics BS or Computer Science BS or Digital Culture (Media Processing) BA or Geographic Information Science BS or Comp Systems BSE or Engr Mgmt BSE OR Comp Sci or Software Engr graduate |
| CSE     | 394         | Special Topics                               | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-4   |                 |   |
| CSE     | 408         | Multimedia Information Systems               | Design, use, and applications of multimedia systems. Introduces acquisition, compression, storage, retrieval, and presentation of data from different media such as images, text, voice, and alphanumeric.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 310 with C or better OR Computer Science and Engineering or Software Engineering graduate student   |
| CSE     | 412         | Database Management                          | Introduces DBMS concepts. Data models and languages. Relational database theory. Database security/integrity and concurrency.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Biomedical Informatics BS, Computer Science BS, or Computer Systems Engr BSE major; CSE 310 with C or better OR Computer Science and Engr or Software Engr grad student; Credit is allowed for only ACO 220 or ACO 320 or                  |
| CSE     | 414         | Advanced Database Concepts                   | Object-oriented data modeling, advanced relational features, JDBC and Web access to databases, XML and databases, object-oriented databases, and object-relational databases.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Systems Engineering BSE or Computer Science BS major; CSE 412 with C or better OR Computer Science and Engineering or Software Engineering graduate student   |
| CSE     | 420         | Computer Architecture I                      | Computer architecture. Performance versus cost tradeoffs. Instruction set design. Basic processor implementation and pipelining.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 230 or EEE 230 with C or better; CSE 310 with C or better OR graduate Computer Engineering student; Credit is allowed for only CSE 420 or CSE 520                       |
| CSE     | 423         | Systems Capstone Project I                   | Development process: specification, design, implementation, evaluation, and testing with economic, social, and safety considerations. Technical communication and team skills enrichment.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     | L               | Prerequisite(s): Computer Systems Engineering BSE major; CSE 320 with C or better; CSE 325 with C or better; CSE 330 with C or better; CSE 360 with C or better; senior standing or postbaccalaureate; Credit is allowed for only CSE 423 or CSE 485        |
| CSE     | 424         | Systems Capstone Project II                  | Continuation of capstone project started in CSE 423.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     | L               | Prerequisite(s): Computer Systems Engineering BSE major; CSE 423 with C or better; senior standing or postbaccalaureate   |
| CSE     | 432         | Operating System Internals                   | IPC, exception and interrupt processing, memory and thread management, user-level device drivers, and OS servers in a modern microkernel-based OS.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Systems Engineering BSE or Computer Science BS major; CSE 430 with C or better OR Computer Science and Engineering or Software Engineering graduate student   |
| CSE     | 434         | Computer Networks                            | Network architecture and protocols, principles of network applications, socket programming, flow and congestion control, switching and routing, link-layer technologies, traffic capture and analysis, security.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engr BSE major; CSE 230 or EEE 230 with C or better; CSE 310 with C or better OR Computer Science and Engr or Software Engr graduate student; Credit is allowed for only ACO 330 or CSE 434        |
| CSE     | 438         | Embedded Systems Programming                 | Development of embedded system software, I/O handlers, and multiple threaded programs. Scheduling algorithms. Embedded software structures. Real-time operating system.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     | L               | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 325 with C or better OR Computer Science and Engineering or Software Engineering graduate student   |
| CSE     | 440         | Compiler Construction I                      | Introduces programming language implementation. Implementation strategies such as compilation, interpretation, and translation. Major compilation phases such as lexical analysis, semantic analysis, optimization, and code generation.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Systems Engineering BSE or Computer Science BS major; CSE 310 with C or better OR Computer Science and Engineering or Software Engineering graduate student   |
| CSE     | 445         | Distributed Software Development             | Distributed system architectures and design, service-oriented computing, and frameworks for development of distributed applications and software components.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 360 with C or better OR Computer Science and Engineering or Software Engineering graduate student   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                               | Units | General Studies | Requirements  |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|---|
| CSE     | 446         | Software Integration and Engineering        | Software development using architecture design, composition, workflow, services, data resources, data representations, data management, and development tools.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Pre- or corequisite(s): Computer Science BS or Computer Systems Engr BSE major; CSE 445 with C or better if completed OR Computer Science and Engr or Software Engr grad student; Credit allowed for only CSE 446 or 598 (Software Integration & Engineering) |
| CSE     | 450         | Design and Analysis of Algorithms           | Design and analysis of computer algorithms using analytical and empirical methods; complexity measures, design methodologies, and survey of important algorithms.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 310 with C or better OR Computer Engineering graduate student; Credit is allowed for only CSE 450 or CSE 551  |
| CSE     | 457         | Theory of Formal Languages                  | Theory of grammar, methods of syntactic analysis and specification, types of artificial languages, relationship between formal languages, and automata.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Systems Engineering BSE or Computer Science BS major; CSE 355 with C or better OR Computer Science and Engineering or Software Engineering graduate student   |
| CSE     | 459         | Logic for Computing Scientists              | Propositional logic, syntax and semantics, proof theory versus model theory, soundness, consistency and completeness, first order logic, logical theories, automated theorem proving, ground resolution, pattern matching unification and resolution, Dijkstras logic, proof obligations, and program proving.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 355 with C or better OR Computer Science and Engineering or Software Engineering graduate student   |
| CSE     | 460         | Software Analysis and Design                | Object-oriented and structured analysis and design; software architecture and design patterns; component-based development; software safety and reliability.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Geographic Information Science BS or Computer Systems Engineering BSE major; CSE 360 with C or better OR Computer Science and Engineering or Software Engineering graduate student                                    |
| CSE     | 463         | Introduction to Human Computer Interaction  | Design, evaluate, and implement interactive software intended for human use.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Comp Sci BS or Comp Syst Engr BSE or GIS BS major; CSE 310 with C or better OR Digital Culture (Media Processing) BA or Informatics BS major; CPI 310 with C or better OR Computer Science and Engr or Software Engr graduate student        |
| CSE     | 464         | Software Quality Assurance and Testing      | Software quality assurance (SQA), software quality metrics, software configuration management, software verification and validation, reviews, inspections, understanding software testing process, functional testing, structural testing, model-based testing, integration, system, and regression testing techniques, software life cycle models and software testing, testing distributed software, bug management, and use of testing tools. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Comp Sci BS or Comp Systems Engr BSE major; CSE 360 with C or better OR Comp Sci and Engr or Software Engr graduate student; Credit is allowed for only CSE 464 or CSE 494/598 (Software Quality Assurance and Testing)                      |
| CSE     | 465         | Information Assurance                       | Concepts of information assurance (IA); basic IA techniques, policies, risk management, administration, legal and ethics issues.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Comp Info Sys BS or Comp Sci BS or Comp Sys Engr BSE or Industrial Engr BSE major; CIS 300 or CSE 310 or IEE 305 with C or better OR Comp Sci and Engr or Software Engr grad student; Credit is allowed for only CSE 465 or CSE 543          |
| CSE     | 466         | Computer Systems Security                   | Countermeasures to attacks to computer systems from miscreants (or hackers) and basic topics of cryptography and network security.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 310 with C or better OR Computer Science and Engineering or Software Engineering graduate student   |
| CSE     | 467         | Data and Information Security               | Basic concepts of security and privacy, data and database security, access controls, trust models, watermarking, and private information retrieval.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 310 with C or better OR Computer Science and Engineering or Software Engineering graduate student   |
| CSE     | 468         | Computer Network Security                   | Practical network security exposure and hands-on experience about basic concepts, case studies, and useful tools.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 310 with C or better OR Computer Engineering or Software Engineering graduate student   |
| CSE     | 469         | Computer and Network Forensics              | Identification, extraction, documentation, interpretation, and preservation of computer media for evidentiary purposes, file system forensics, and network forensics.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): CSE 310 with C or better OR Computer Science and Engineering or Software Engineering graduate student; Credit is allowed for only CSE 469 or CSE 598 (Computer and Network Forensics)  |
| CSE     | 470         | Computer Graphics                           | Introduces basic concepts of interactive computer graphics, realistic rendering, and 3-D viewing.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Digital Culture (Media Processing) BA, Computer Science BS, Geographic Information Science BS, or Computer Systems Engineering BSE major; CSE 310 with C or better; MAT 342 or 343 OR Comp Sci and Engr or Software Engr graduate student    |
| CSE     | 471         | Introduction to Artificial Intelligence     | State space search, heuristic search, games, knowledge representation techniques, expert systems, and automated reasoning.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS, Geographic Information Science BS, or Computer Systems Engineering BSE major; CSE 310 with C or better OR Computer Science and Engineering or Software Engineering graduate student                                     |
| CSE     | 472         | Social Media Mining                         | Network measures, social network analysis, network models, random graphs, small-world model, power laws, data mining, influence and homophily, information diffusion, epidemics, behavioral analysis, recommendation in social media, community detection.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engr BSE major; with a C or better: CSE 310; IEE 380; MAT 343 OR Computer Science and Engr or Software Engr graduate student; Credit is allowed for only CSE 472 or CSE 494 (Social Media Mining)    |
| CSE     | 476         | Introduction to Natural Language Processing | Principles of computational linguistics, formal syntax, and semantics, as applied to the design of software with natural (human) language I/O.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; CSE 310 with C or better OR Computer Science and Engineering or Software Engineering graduate student   |

ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                     | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                               | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|---|
| CSE     | 477         | Introduction to Computer-Aided Geometric Design  | Introduces basic concepts of 3-D computer geometry, including curves, surfaces, meshes.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science BS or Computer Systems Engineering BSE major; MAT 342 or 343 with C or better OR Computer Science and Engineering or Software Engineering graduate student  |
| CSE     | 484         | Internship                                       | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | N                 | PRA               | Y               | YGB           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-12  |                 | Prerequisite(s): junior or senior standing  |
| CSE     | 485         | Computer Science Capstone Project I              | First course in capstone sequence for computer science majors emphasizing development process, technical skills, teamwork, and communication.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     | L               | Prerequisite(s): Computer Science BS major; senior standing or postbaccalaureate; CSE 330 with C or better; CSE 340 with C or better; CSE 355 with C or better; CSE 360 with C or better; Credit is allowed for only CSE 423 or CSE 485 |
| CSE     | 486         | Computer Science Capstone Project II             | Second course in capstone sequence for computer science majors continuing the development process, technical skills, teamwork, and communication.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     | L               | Prerequisite(s): Computer Science BS major; CSE 485 with C or better; senior standing or postbaccalaureate  |
| CSE     | 492         | Honors Directed Study                            | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| CSE     | 493         | Honors Thesis                                    | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| CSE     | 494         | Special Topics                                   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-4   |                 | Prerequisite(s): CSE 310 with C or better   |
| CSE     | 498         | Pro-Seminar                                      | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-7   |                 | Pre-requisite: Computer Systems Engineering BSE or Computer Science BS student; Minimum cumulative GPA of 2.50 or Graduate Engineering student  |
| CSE     | 499         | Individualized Instruction                       | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | Ira A. Fulton Engineering | Computer Science and Engineering Program | 1-3   |                 |   |
| CSE     | 509         | Digital Video Processing                         | Concepts of digital video compression, video analysis, video indexing, browsing and retrieval, video transmission over networks, video processors, and relevant industry standards.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student  |
| CSE     | 510         | Database Management System Implementation        | Implementation of database systems. Data storage, indexing, querying, and retrieval. Query optimization and execution, concurrency control, and transaction management.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student  |
| CSE     | 511         | Semi-Structured Data Management                  | Addresses the data management issues for semi-structured data, which are commonly found in Web applications. Covers techniques on modeling, storing, querying and searching data without schemas, with optional confidence, and/or provenance information. Requires knowledge on relational databases and programming skills.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student  |
| CSE     | 512         | Distributed Database Systems                     | Distributed database design, query processing, and transaction processing. Distributed database architectures and interoperability. Emerging technology.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Engineering or Computer Science or Software Engineering graduate student  |
| CSE     | 515         | Multimedia and Web Databases                     | Data models for multimedia and Web data; query processing and optimization for inexact retrieval; advanced indexing, clustering, and search techniques.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student  |
| CSE     | 520         | Computer Architecture II                         | Computer architecture description languages, computer arithmetic, memory-hierarchy design, parallel, vector, multiprocessors, and input/output.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student  |
| CSE     | 522         | Real-Time Embedded Systems                       | Development of real-time embedded systems, scheduling algorithms, embedded software structures, real-time operating system.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Pre-requisite: Computer Science, Computer Engineering, Master of Engineering or Engineering Science (Software Engineering) Graduate student   |
| CSE     | 530         | Embedded Operating System Internals              | Investigating Linux source including: memory management, kernel synchronization and driver design topics. Designing, coding, testing, and evaluating embedded operating system software in a Linux environment.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student  |
| CSE     | 531         | Distributed and Multiprocessor Operating Systems | Distributed systems architecture, remote file access, message-based systems, object-based systems, client/server paradigms, distributed algorithms, replication and consistency, and multiprocessor operating systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student  |
| CSE     | 534         | Advanced Computer Networks                       | Advanced network protocols and infrastructure, applications of high-performance networks to distributed systems, high-performance computing and multimedia domains, special features of networks.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student  |
| CSE     | 535         | Mobile Computing                                 | Mobile networking, mobile information access, adaptive applications, energy-aware systems, location-aware computing, mobile security and privacy.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student  |
| CSE     | 536         | Advanced Operating Systems                       | Protection and file systems. Communication, processes, synchronization, naming, fault tolerance, security, data replication, and coherence in distributed systems. Real-time systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student  |
| CSE     | 539         | Applied Cryptography                             | Uses cryptography for secure protocols over networked systems, including signatures, certificates, timestamps, electrons, digital cash, and other multiparty coordination.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student  |
| CSE     | 543         | Information Assurance and Security               | Comprehensive understanding of information assurance and security problems with the solutions as well as hands-on experiences about applying these solutions.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): graduate Computer Science or Computer Engineering student; Credit is allowed for only CSE 465 or CSE 543   |
| CSE     | 545         | Software Security                                | Theories and tools for software security, including secure design, threat analysis and modeling, security testing and coding.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Engineering or Computer Science or Software Engineering graduate student  |
| CSE     | 546         | Cloud Computing                                  | Virtualization, cloud computing, programmable networking, performance evaluation, information assurance, distributed and parallel computing, and cloud computing-based applications. Students must have a solid background in computer architecture, operating system and computer networking to be successful in this course.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Engineering or Computer Science or Software Engineering graduate student; Credit is allowed for only CSE 546 or CSE 591 (Cloud Computing)   |
| CSE     | 548         | Advanced Computer Network Security               | Comprehensive understanding of network security and corresponding solutions, including cryptography, access control, secure Web transactions, e-mail security, and viruses.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                               | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|--|
| CSE     | 550         | Combinatorial Algorithms and Intractability                  | Combinatorial algorithms, nondeterministic algorithms, classes P and NP, NP-hard and NP-complete problems, and intractability. Design techniques for fast combinatorial algorithms.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student   |
| CSE     | 551         | Foundations of Algorithms                                    | Advanced topics in formal algorithm design and analysis, including advanced shortest-paths algorithms, amortized analysis, network flows, NP-completeness and selected topics in computational geometry, distributed/parallel, randomized, and approximation algorithms.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): graduate Computer Engineering or Computer Science student; Credit is allowed for only CSE 450 or CSE 551  |
| CSE     | 552         | Randomized and Approximation Algorithms                      | Introduces two important areas of algorithm design for graduate students. A randomized algorithm is allowed to rely on the outcome of a random experiment in deciding on its next step. In many applications, randomized algorithms are simpler than any deterministic algorithms known, but in several cases, they are in fact more powerful or more efficient than any deterministic algorithms. Covers basic paradigms for randomized algorithm design and analysis, as well as for derandomization. | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): graduate Computer Engineering or Computer Science student; CSE 550 or 551 or 555 with B or better   |
| CSE     | 555         | Theory of Computation  | Rigorous treatment of regular languages, context-free languages, Turing machines and decidability, reducibility, and other advanced topics in computability theory.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student   |
| CSE     | 556         | Game Theory with Applications to Networks                    | Strategic conflict as matrix games, notions of equilibrium, definition and existence of Nash equilibrium, zero-sum games, extensive-form games, Bayes Nash equilibrium, potential games, routing games, algorithmic game theory, computation of Nash equilibrium, incentives and pricing in communication networks, application of game theory in wireless networks. Knowledge of calculus, discrete mathematics, probability theory and algorithms is necessary to be successful in this course.       | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student; Credit is allowed for only CSE 556 or CSE 591 (Game Theory with Applications to Networks)              |
| CSE     | 561         | Modeling and Simulation Theory and Application               | Modeling theories, simulation protocols, object-oriented modeling, model design, simulation analysis, network-based systems, discrete-event modeling, continuous modeling, hybrid modeling.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student   |
| CSE     | 563         | Software Requirements and Specification                      | Examines the definitional stage of software development; analysis of specification representations, formal methods, and techniques emphasizing important application issues.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): graduate Computer Engineering or Computer Science or Software Engineering student   |
| CSE     | 564         | Software Design  | Examines software design issues and techniques. Includes a survey of design representations and a comparison of design methods.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): graduate Computer Engineering or Computer Science or Software Engineering student   |
| CSE     | 565         | Software Verification, Validation, and Testing               | Test planning, requirements-based and code-based testing techniques, tools, reliability models, and statistical testing.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): graduate Computer Engineering or Computer Science or Software Engineering student   |
| CSE     | 566         | Software Project, Process, and Quality Management            | Project management, risk management, configuration management, quality management, and simulated project management experiences.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): graduate Computer Engineering or Computer Science or Software Engineering student   |
| CSE     | 569         | Fundamentals of Statistical Learning and Pattern Recognition | Concepts of statistical pattern recognition, Bayesian decision theory, parameter estimation, discriminant analysis, basics of artificial neural networks, basics of data clustering. Knowledge of college-level calculus, linear algebra, basic probability theory and proficiency in computer programming is necessary to be successful in this course.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Pre-requisite: Computer Engineering or Computer Science Graduate student; Credit is allowed for only CSE 569 or 591 (Statistical Learning and Pattern Recognition)                 |
| CSE     | 570         | Advanced Computer Graphics I                                 | Hidden surface algorithms, lighting models, and shading techniques. User interface design. Animation techniques. Fractals and stochastic models. Raster algorithms.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student   |
| CSE     | 571         | Artificial Intelligence                                      | Definitions of intelligence, computer problem solving, game playing, pattern recognition, theorem proving, and semantic information processing; evolutionary systems; heuristic programming.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Engineering or Computer Science or Software Engineering graduate student   |
| CSE     | 572         | Data Mining  | Advanced data mining techniques: classification, clustering, association, preprocessing; performance evaluation; information assurance, Web mining, security and privacy issues, and other applications. Students must have a solid background in database management systems, search, learning, and statistics to be successful in this course.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Engineering or Computer Science or Software Engineering graduate student   |
| CSE     | 573         | Semantic Web Mining  | Data mining techniques for structuring and organizing unstructured sources such as text and Web data into meaningful machine-processable information; computational aspects of information extraction and data linkage; discovery and prediction tasks where text serves as data such as detecting events, measuring public opinion and making recommendations. A background in databases, algorithms and theory of computation is necessary to be successful in this course.                           | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): graduate standing in Computer Engineering or Computer Science; Credit is allowed for only CSE 573 or CSE 591 (Semantic Web Mining)                                |
| CSE     | 574         | Planning and Learning Methods in AI                          | Reasoning about time and action, plan synthesis and execution, improving planning performance, applications to manufacturing intelligent agents.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student   |
| CSE     | 575         | Statistical Machine Learning                                 | Spectral clustering, regression, classification, semi-supervised learning, feature reduction, manifold learning, ranking, kernel learning and multitask learning.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Pre-requisite: Computer Science or Computer Engineering MCS, MS, or PhD major; Credit is allowed for only CSE 575 or 591 (Machine Learning)  |
| CSE     | 576         | Topics in Natural Language Processing                        | Comparative parsing strategies, scoping and reference problems, nonfirst-order logical semantic representations, and discourse structure.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student   |
| CSE     | 577         | Advanced Geometric Modeling I                                | Advanced concepts of geometric modeling: rectangular and triangular surfaces, triangle meshes, Voronoi diagrams, discrete and continuous shape measures, volumes and volume visualization. Students must have a solid background in linear algebra, calculus, and basic 3D graphics to be successful in this course.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student   |
| CSE     | 578         | Data Visualization   | Amidst the information flood in which we are currently immersed, visualizations can be a well-placed treetop. The rise of big data has the potential to inform decisions, and visual representations can play a crucial intermediate role in our daily information consumption. Covers techniques and algorithms for creating effective visualizations based on principles from graphic design, visual art, perceptual psychology and cognitive science to enhance the understanding of complex data.   | N                 | SEM               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): graduate Computer Engineering or Computer Science student   |
| CSE     | 579         | Knowledge Representation and Reasoning                       | Covers knowledge representation and reasoning algorithms in artificial intelligence, shows how they can be used in practice, and provides an overview of current research trends.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Computer Science and Engineering Program | 3     |                 | Prerequisite(s): Computer Engineering or Computer Science or Software Engineering graduate student; Credit is allowed for only CSE 579 or CSE 591 (Knowledge, Represent/Reasoning) |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                    | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department                                    | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|--|
| CSE     | 580         | Practicum                                       | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Ira A. Fulton Engineering      | Computer Science and Engineering Program      | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CSE     | 584         | Internship                                      | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Ira A. Fulton Engineering      | Computer Science and Engineering Program      | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CSE     | 590         | Reading and Conference                          | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | GNA           | Ira A. Fulton Engineering      | Computer Science and Engineering Program      | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CSE     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering      | Computer Science and Engineering Program      | 1-12  |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student   |
| CSE     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering      | Computer Science and Engineering Program      | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| CSE     | 593         | Applied Project                                 | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering      | Computer Science and Engineering Program      | 1-12  |                 | Prerequisite(s): Computer Science or Computer Engineering graduate student   |
| CSE     | 594         | Conference and Workshop                         | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering      | Computer Science and Engineering Program      | 1-12  |                 |  |
| CSE     | 595         | Continuing Registration                         | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | Ira A. Fulton Engineering      | Computer Science and Engineering Program      | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

| CSM     | 201         | Introduction to Community Sports                | Examines the role of community sports at the local, national and international levels.  | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Credit is allowed for only CSM 201 or PRM 201  |
| CSM     | 203         | Program Planning                                | Effective program planning in varied leisure delivery systems.  | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Credit is allowed for only CSM 203 or PRM 203  |
| CSM     | 294         | Special Topics                                  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-4   |                 |  |
| CSM     | 305         | Sports Facility Operations and Management       | Overview of the management and operations of sports facilities.   | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Prerequisite(s): Community Sports Management major; CRD 210 (or NLM/PRM/TDM 210) with C or better; MAT 142 or higher; minimum 2.50 cumulative GPA; minimum 45 hours                      |
| CSM     | 335         | Sports and Recreation for Youth Development     | Provides an overview of definitions, statistics, theories and models, and types of programs surrounding youth development in relation to sports, recreation and leisure services. Addresses current trends related to youth development and collaborative partnerships in sports, recreation and leisure services at various levels within local, state, national and/or international systems.         | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Pre-requisite: minimum 45 hours. Credit is allowed for only CSM 335 or PRM 335   |
| CSM     | 350         | Tourism, Recreation and Sports Marketing        | Critical examination of marketing principles in leisure and related industries in diverse settings, including local, national, and international.   | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Prerequisite(s): CRD 210 or CSM 201 or TDM 205; ENG 102 with C or better; MAT 142 or higher with C or better; minimum 45 hours; Credit is allowed for only CSM 350 or PRM 350 or TDM 350 |
| CSM     | 401         | Managing Leisure Enterprises                    | Analyzes administrative function, structure, and policies. Successful application in administrative situations.   | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Prerequisite(s): CRD 210 or PRM 210; TDM 372 or CSM 303 or PRM 303; minimum 2.50 cumulative GPA; Credit is allowed for only CSM 401 or PRM 401   |
| CSM     | 402         | Assessment and Evaluation of Community Services | Introduces applied leisure research with emphasis on program evaluation, research design, data collection techniques, and data analysis.  | N                 | LEC               | N               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Prerequisite(s): CSM 401, NLM 410, PRM 401, or TDM 401 with C or better. Credit is allowed for only CSM 402, NLM 402, PRM 402 or TDM 402   |
| CSM     | 407         | Ethics and Legal Issues in Sports               | Comprehensive look at ethical decision making from many perspectives in the sports environment. Presents legal issues as they relate to history, present society and future trends.   | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Pre-requisite: CSM 201   |
| CSM     | 463         | Senior Internship                               | Supervised guided experience in selected agencies.  | N                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 6-12  |                 | Prerequisite(s) with C or better: CRD 403 or PRM 413; CSM 402 or NLM 402 or PRM 402 or TDM 402. Credit is allowed for only CSM 463 or NLM 463 or PRM 463 or TDM 463                      |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title               | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department                                    | Units | General Studies | Requirements   |
|---------|-------------|----------------------------|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|--|
| CSM     | 483         | Sports Tourism             | Examines the relationship between sports and tourism, and the role of recreation and amateur sports as an economic and community development strategy. Also considers the motives, behaviors and experiences of sport tourists; the impacts of sport tourism; and trends in sports tourism.   | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Prerequisite(s): Minimum 45 hours. Credit is allowed for only CSM 483 or TDM 483 |
| CSM     | 485         | Sports Events              | Expands the basic concepts of recreation, leisure or tourism program planning and leadership as they are specifically related to sport events management.   | N                 | LEC               | N               | GNA           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 3     |                 | Pre-requisite: minimum 45 hours. Credit is allowed for only CSM 485 or PRM 485   |
| CSM     | 494         | Special Topics             | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Col of Pub Serv & Comm Solutns | School of Community Resources and Development | 1-4   |                 |  |
| DAH     | 194         | Special Topics             | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-4   |                 |  |
| DAH     | 294         | Special Topics             | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-4   |                 |  |
| DAH     | 492         | Honors Directed Study      | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| DAH     | 493         | Honors Thesis              | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| DAH     | 494         | Special Topics             | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-4   |                 |  |
| DAH     | 499         | Individualized Instruction | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-3   |                 |  |
| DAH     | 500         | Research Methods           | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                   |
| DAH     | 580         | Practicum                  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                   |
| DAH     | 590         | Reading and Conference     | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                   |
| DAH     | 591         | Seminar                    | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                   |
| DAH     | 593         | Applied Project            | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                   |
| DAH     | 594         | Conference and Workshop    | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                   |
| DAH     | 595         | Continuing Registration    | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                   |
| DAH     | 598         | Special Topics             | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                   |
| DAN     | 394         | Special Topics             | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-4   |                 |  |
| DBA     | 500         | Research Methods           | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business  | Dean, W.P. Carey School of Business           | 1-12  |                 |  |
| DBA     | 580         | Practicum                  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | W.P. | DBA     | 701         | Macroeconomic Policies in a Global Environment                          | Provides the framework for policy makers when facing macroeconomic situations, the tools in analyzing the costs and benefits of alternative policy options, and the knowledge necessary for making recommendations to policy makers and business leaders. Students learn knowledge and skills about global economy and risks that help facilitate dissertation research.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Dean, W.P. Carey School of Business | 3     |                 | Pre-requisite: W. P. Carey DBA degree seeking graduate student |
| DBA     | 702         | Global Financial Systems: Markets and Institutions                      | Examines the overall architecture of the global financial system, its major components, and their functions in the macro economy.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Dean, W.P. Carey School of Business | 3     |                 | Pre-requisite: W. P. Carey DBA degree seeking graduate student |
| DBA     | 703         | Global Financial Systems-Institutional Investing                        | A large fraction of investors around the world invest in securities markets indirectly, viz. through mutual funds or separate accounts established with investment managers, whether they be endowments, foundations, pension plans or sovereign funds. Exposes students to the global marketplace for such portfolios.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Dean, W.P. Carey School of Business | 3     |                 | Pre-requisite: W. P. Carey DBA degree seeking graduate student |
| DBA     | 704         | Design of Knowledge Base Organizations for Performance and Innovation   | Covers various issues on executive compensation and management pay structure with a particular emphasis on aligning business strategy, organization design to the choice of performance standards and pay structure for managers.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Dean, W.P. Carey School of Business | 3     |                 | Pre-requisite: W. P. Carey DBA degree seeking graduate student |
| DBA     | 705         | Global Corporate Strategy   | Demonstrates that decisions affecting the international expansion of a firm are neither obvious nor totally determined by the technological or economic forces generally associated with globalization. Addresses the most transcendental decisions that multinational firms face in the course of conducting business across borders.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Dean, W.P. Carey School of Business | 3     |                 | Pre-requisite: W. P. Carey DBA degree seeking graduate student |
| DBA     | 706         | Strategic Visioning, Leadership and Change Management                   | Addresses the interrelationship among organizational culture, leadership, and the management of change in order to promote continuous improvement of the organization's market position. Addresses the role of strategy, how strategy explicates vision, and how effective strategies are created.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Dean, W.P. Carey School of Business | 3     |                 | Pre-requisite: W. P. Carey DBA degree seeking graduate student |
| DBA     | 707         | Risk Management : An Enterprise Perspective                             | Provides an understanding of the broad set of risks an enterprise faces; their origin, characteristics and potential impact on business; and how they can be efficiently managed at the enterprise level.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Dean, W.P. Carey School of Business | 3     |                 | Pre-requisite: W. P. Carey DBA degree seeking graduate student |
| DBA     | 708         | Challenges of Corporate Finance and Governance                          | Helps students understand the link between finance and corporate strategies, as well as examine ways to establish and reform the practices of corporate governance in China.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Dean, W.P. Carey School of Business | 3     |                 | Pre-requisite: W. P. Carey DBA degree seeking graduate student |
| DBA     | 709         | Finance and Law   | Helps students learn about the philosophy of law, various legal systems, the relationships among law and economics and finance, the practice of law in a global context.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Dean, W.P. Carey School of Business | 3     |                 | Pre-requisite: W. P. Carey DBA degree seeking graduate student |
| DBA     | 710         | Financial Decision Making   | Provides a framework of conceptual knowledge and enables students to understand what the literature on financial theory is trying to do and how it all fits together. Also provides an in-depth experience with the subject of finance and equips students for their future development as a practicing executive.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Dean, W.P. Carey School of Business | 3     |                 | Pre-requisite: W. P. Carey DBA degree seeking graduate student |
| DBA     | 711         | Finanacial Innovations  | Focuses on how financial innovations influence the evolution of finance. Discusses many of the major financial innovations in recent history, the forces driving these innovations, their impact on the financial system and the real economy and the risks they bring.   | N                 | LEC               | N               | GNA           | W.P. | DBA     | 721         | Research Seminar I- Research in Action                                  | Provides needed skills for research and thesis work. 1. Focuses mainly on research design and fundamental statistical/survey and field study methods. The key objective is to provide students with the needed required skills and concepts of the scientific method, the philosophy of science, and research design with an emphasis to solve specific problems. This course is spread out during the first year of the program.   | N                 | SEM               | Y               | GNA           | W.P. Carey School of Business | Dean, W.P. Carey School of Business | 3     |                 | Pre-requisite: W. P. Carey DBA degree seeking graduate student |
| DBA     | 722         | Research Seminar II-Research in Action II                               | Focuses on the process of research "in actions" through faculty presentation and research workshops. Faculty with diverse research interest and methodologies present up-to-date research works. Through interaction, students gain first-hand experience on learning the process of how faculty, with diverse research interests, are able to identify specific research topic, choosing the right research methodology to address their research questions. The presentation and research workshop are scheduled at the beginning of the second year and throughout the entire year, allowing the program to leverage faculty availability during their course delivery while enabling students to seek out their faculty mentors for future dissertation engagement. | N                 | SEM               | Y               | GNA           | W.P. | DCE     | 100         | Introduction to Dance                     | Overview of dance as a cultural and performative practice, exploring history and theory, philosophy, and movement practices, with reference to key pioneers in the field from around the world.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 3     | HU              |   |
| DCE     | 110         | Argentine Tango I                         | Introduces basic movement elements, explores various contexts shaping Argentine Tango, and emphasizes social tango with exposure to vals and milonga timing.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 |   |
| DCE     | 111         | Raqs Sharqi I                             | Familiarize students with the ancient art of Middle Eastern dance. Covers posture, styling, basic body isolations, rhythm patterns, footwork, as well as the social significance and history of the dance.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 |   |
| DCE     | 112         | Capoeira I                                | Introduces the Afro-Brazilian martial art and movement form capoeira. Molds elements of self-defense, dance, music, song, language, culture and philosophy into the course.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 |   |
| DCE     | 113         | Dances of Africa I                        | Introduces basic elements of West and Central African dance styles, including the traditional rhythms and cultural context.   | N                 | STO               | Y               | GNA           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 |   |
| DCE     | 114         | Dances of India I                         | Introduces Indian folk dances with an emphasis on the history and various movement elements of an ancient South Indian classical dance form, known as Bharata Natyam.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 |   |
| DCE     | 115         | Yoga I                                    | Introduces a basic physical and philosophical understanding of yoga. Designed by a certified Yoga instructor.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 |   |
| DCE     | 116         | T'ai Chi Chuan I                          | Introduces an ancient Chinese internal martial art form. The structure includes the beginner level of Tai Chi Chuan theory and movement practice.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 |   |
| DCE     | 117         | Feldenkrais I                             | The Feldenkrais method is an approach to enhance awareness of the body, improve functional actions, and expand one's repertoire of movements.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 |   |
| DCE     | 118         | Yoga/Pilates                              | Provides a basic physical and philosophical understanding of yoga and Pilates mat practices.  | Y                 | STO               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 |   |
| DCE     | 120         | Modern Dance I                            | Introduces modern dance and its basic principles, including alignment, core muscular strength, and spatial exploration.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 |   |
| DCE     | 121         | Ballet I                                  | Introduces principles of ballet and development of basic technical skills, including dynamic alignment, functional rotation, and musicality.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 |   |
| DCE     | 122         | Jazz I                                    | Provides students with beginning-level technique class in different jazz styles. Focuses on alignment, technique, and performance skills.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 |   |
| DCE     | 123         | Hip Hop I                                 | Equips student with understanding of hip hop dance history, culture and music through studio work on various hip-hop dance styles.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 |   |
| DCE     | 124         | Latin/Swing/Ballroom I                    | Introduces major Latin and ballroom dances and focuses on a system of elements that are found in all partnership dances, including movement components, rhythmic patterns, dance positions, and unique characteristics used to better define each dance.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 |   |
| DCE     | 125         | Latin/Salsa I                             | Introduces Latin dancing. Instruction focuses on salsa, cha-cha, merengue, and rumba.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 |   |
| DCE     | 126         | Country-Western                           | Initiates the student into the rhythm two-step, progressive two-step, night club two-step, country cha-cha, country waltz, triple swing and a multitude of line dances.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 |   |
| DCE     | 130         | First-Year Movement Practices I           | Introduces diverse somatic movement principles and practices through exploration of movement, context, theory, and personal reflection.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 | Pre-requisite: Dance major  |
| DCE     | 131         | First-Year Movement Practices II          | Modular structure enables a series of short intensive studies including movement, context, theory, and personal reflection.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 | Prerequisite(s): Dance student; DCE 130 with C or better  |
| DCE     | 133         | Urban Movement Practices I                | Designed as an introduction to dance, history, culture, and music in urban movement styles.   | N                 | LEL               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 | Pre-requisite: Dance majors, BA Performance and Movement, BIS-Dance, Dance minor; Credit is allowed for only DCE 133, 194 (Intro to Urban Mvt. Practices) or 494 (Urban Movement Practices)                         |
| DCE     | 134         | Postmodern Contemporary I                 | Introduces postmodern contemporary dance technique and theory. Designed to enhance the dancer's technical and artistic proficiency by using movement that is athletically challenging, nuanced, and rhythmically complex.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 | Pre-requisite: BA Performance and Movement or BFA Dance major   |
| DCE     | 135         | Contemporary Ballet I                     | Introduces contemporary view of ballet technique and theory with attention to enhancing student's dynamic alignment.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 | Pre-requisite: BA Performance and Movement or BFA Dance major   |
| DCE     | 136         | Somatic Practices I                       | Survey course offers a practical and theoretical introduction to some of the major somatic practices evolving out of the 20th century. Guest practitioners and teachers of various embodied practices share theory, practice and context. Explores movement and the integration of the body and mind through a variety of somatic lenses (e.g., the Alexander Technique, Authentic Movement, and experiential anatomy). | N                 | LEL               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 | Credit is allowed for only DCE 136 or 194 (Intro Movemnt Language Sources)  |
| DCE     | 137         | African and Diaspora Movement Practices I | Foundational course in the African and the Diaspora movement practices curriculum.  | N                 | LEL               | Y               | OPT           | Herberger Inst Design & Arts  | School of Film, Dance and Theatre   | 2     |                 | Pre-requisite: Dance BFA, BIS-Dance concentration or Dance minor; Credit is allowed for only DCE 137, 194 (Mvt Practice: Africa/Diaspora), 294 (Mvt Practice: Africa/Diaspora) or 494 (African & Diaspora Mvt Prac) |

| DCE     | 161         | First-Year Creative Practices II    | Explores creativity and creative processes with reference to some key historical practices and influential artists. Encourage and develops students' awareness of their own imagination and creative process through individual and group projects involving problem solving, creative tasks, and reflection.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Dance BFA student; DCE 160 with C or better  |
| DCE     | 170         | First-Year Seminar I                | Orientation to the university learning environment and profession of dance with emphasis on developing tools and processes for reflection and critical thinking.  | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Prerequisite(s): Dance major  |
| DCE     | 171         | First-Year Seminar II               | Continuation of First-Year Seminar I. Focuses on orientation to the larger field of contemporary dance practice with an emphasis on developing tools and processes for reflection, synthesis, and critical thinking. Requires participation in School of Dance "Dance Matters."   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Prerequisite(s): Dance major  |
| DCE     | 194         | Special Topics                      | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-3   |                 |   |
| DCE     | 201         | Dance, Culture, and Global Contexts | Introduces the study of dance as culture in diverse global contexts.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | HU              |   |
| DCE     | 202         | Dance in U.S. Popular Culture       | Investigates vital cultural heritages that have shaped dance in U.S. American popular culture from 20th century to the present. Emphasizes dance as a producer of social space and cultural identity as well as a reflection of diverse social realities and dynamics of power. Following required reading and videos, the course surveys time periods of dance from the late 1800s through the 20th century to the present day.  | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | HU & C          | Credit is allowed for only DCE 202 or 294 (Dance in US Popular Culture)   |
| DCE     | 203         | Walk this Way                       | Addresses walking as a key component in movement studies and further brings the study of bodily movements center stage as a means to address the dynamic between self and society. Designed for nonmajors. Not eligible for majors credit.  | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre- or corequisite(s): ENG 101, 105 or 107 with C or better; Credit is allowed for only DCE 203 or 294 (Walk this Way) |
| DCE     | 210         | Argentine Tango II                  | Builds upon concepts, figures, and elements of the Argentine Tango introduced in level one.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: DCE 110 or DAN/DCE 194 (Argentine Tango I)   |
| DCE     | 211         | Raqs Sharqi II                      | Focuses on refining beginning technique, advanced movements, layering and musical interpretation. Uses choreography and improvisation to encourage mind-body awareness.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): DCE 111 or DAN 194 (Raqs Sharqi I)   |
| DCE     | 216         | T'ai Chi Ch'uan II                  | Intermediate-level study of the ancient Chinese martial art of rounded, fluid, balanced movements. Teaches the sets of long form Yang style of Tai Chi Ch'uan in a slow and relaxed manner.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: DCE 116 or DAN 194 (T'ai Chi Ch'uan I)   |
| DCE     | 220         | Modern Dance II                     | Explores modern dance practices, including somatic techniques, stylistic versatility, and performance skills.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Credit is allowed for only DAN 130 (Modern II) or DCE 220   |
| DCE     | 221         | Ballet II                           | Explores contemporary and classical ballet practices, focusing on whole body integration and performance strategies.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 |   |
| DCE     | 222         | Jazz II                             | Explores intermediate level of jazz dance techniques.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: DCE 122 or DAN 130 (Jazz I)  |
| DCE     | 223         | Hip Hop II                          | Intermediate-level class that provides the knowledge of hip hop dance history, culture and music through studio work on various hip hop dance styles.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: DCE 123 or DAN 194 (Hip Hop I)   |
| DCE     | 224         | Latin/Swing/Ballroom II             | Continues development of level one Latin/Swing/Ballroom dances to prepare student to have command of the complex rhythmic patterns and figures used in major partnership dances.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: DCE 124 or DAN 194 (Latin/Swing/Ballroom I)  |
| DCE     | 225         | Latin/Salsa II                      | Reviews and reinforces the basics introduced in Latin/Salsa I and builds upon more complicated concepts and figures.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: DCE 125 or DAN 194 (Latin/Salsa I)   |
| DCE     | 230         | Second-Year Movement Practices I    | Investigates selected movement forms in the second-year movement practices. New movement forms include but are not limited to contact improvisation, Alexander technique, Feldenkrais, Body Mind Centering (BMC), taekwondo, aikido, wushu, LMA, yoga, or somatic bodywork.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): Dance majors; DCE 131 with C or better   |
| DCE     | 231         | Second-Year Movement Practices II   | This course is set up in two modules. In module one, students will investigate a movement form, include but are not limited to contact improvisation, Alexander technique, Feldenkrais, Body Mind Centering (BMC), taekwondo, aikido, wushu, LMA, yoga, or somatic bodywork. Module two expands the practice of rhythmic awareness through exploration and investigation of the close relation between thought and act, the kinesthetic and the verbal, the text and the beat, as well as the breath and the word.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): Dance student; DCE 230 with C or better  |
| DCE     | 233         | Urban Movement Practices II         | A practical and theoretical investigation of the urban movement forms and practices developed over recent years in urban centers around the world. Addresses the evolution of hip hop/urban movement dance through the study of House style.  | N                 | LEL               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): DCE 133 with B+ or better  |
| DCE     | 234         | Postmodern Contemporary II          | Investigation and practices of postmodern contemporary dance technique. Development of movement quality and performance skills.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): Performance and Movement BA or Dance BFA major; DCE 134 with C or better                               |
| DCE     | 235         | Contemporary Ballet II              | Explores the possibilities of contemporary ballet technique and theory with awareness of student's individual anatomical differences.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): Performance and Movement BA or Dance BFA major; DCE 135 with C or better                               |
| DCE     | 236         | Somatic Practices II                | Laboratory for somatic education that explores the foundations of movement, voice, expression and spatial awareness. Open to nonmajors, the class welcomes and encourages the participation of students from a wide variety of disciplines. Taught through the principles of specific somatic lenses (e.g., the Alexander Technique, Bartenieff Fundamentals, and Body Mind Centering), the course highlights how embodied awareness affects artistic process and choice making, as well as enhancing physical capacities, kinesthetic intelligence, and the refinement of performance and technical skills. Emphasizes developing a holistic perception of ourselves, our relation to one another, and to the environment. | N                 | LEL               | Y               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 |   |
| DCE     | 240         | Media for Dance                     | Computer applications for human movement modeling, digital video design and creation, sound composition, and the incorporation of multimedia design elements into online environments.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | CS              |   |

|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|------------------------------|-----------------------------------|-------|-----------------|---|
| DCE     | 260         | Second-Year Creative Practices I                  | Explores concepts introduced in the first year of creative practice and further expands into the themes of analysis and investigation. Year two experience involves the investigation of learning to compose and construct choreographic material through individual, collaborative, improvisational, and group exploration.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Dance major; DCE 161 with C or better  |
| DCE     | 261         | Second-Year Creative Practices II                 | Continues developing students' awareness of their own creative process through individual and group projects involving problem solving, creative tasks, and reflection.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite(s): Dance major; DCE 260 with C or better   |
| DCE     | 262         | Rhythmic Theory for Dance I                       | Elements of music, music structures, and their relationship to dance. Emphasis on rhythmic analysis and dance accompaniment.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: BA Performance and Movement or BFA Dance major   |
| DCE     | 270         | Second-Year Seminar I                             | Continues developing tools and processes for reflection and critical thinking by identifying individual goals and objectives related to the students' current and future academic and professional careers  | N                 | SEM               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Prerequisite(s): Dance major; DCE 171   |
| DCE     | 271         | Second-Year Seminar II                            | Provides basic understanding of costume design, sound production, and interactive performance for dance.  | N                 | SEM               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Prerequisite(s): Dance major; DCE 270 with C or better  |
| DCE     | 294         | Special Topics                                    | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-4   |                 |   |
| DCE     | 300         | Moving Histories                                  | In-depth study of the history of Western dance in Europe and America. Students learn about various ways of conducting research into dance history, including interviewing, researching using primary resources and performing scholarship.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | HU              | Prerequisite(s): ENG 101, 105 or 107 with C or better   |
| DCE     | 301         | Meaning in Motion                                 | Critical inquiry into the nature of dance through the lens of dance theory. Covers philosophical and theoretical issues raised by the study of dance in relation to specific historical and global contexts.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | L or HU         | Prerequisite(s): ENG 101 (or ENG 105 or 107) with C or better   |
| DCE     | 303         | The Body Condition(ed)                            | Examines contemporary practices of conditioning the body from a triangulation of perspectives: physical, social, and experiential. Enhances the ability to obtain a holistic understanding of how the self/social dynamic operates within the context of body conditioning. Designed for Non-Majors. Not Eligible for Dance Major Requirements.   | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | SB              | Pre/Co-requisite: ENG 102, ENG 105 or ENG 108   |
| DCE     | 324         | Latin/Swing/Ballroom III                          | Refines dances learned in the intermediate level of Latin and ballroom dances, including foxtrot, waltz, salsa, cha cha, rumba, samba, west coast swing, bolero, tango, and swing. Prepares students to have a more advanced command of the complex rhythms and figures used in the major partnership dances.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: DCE 224 or DAN 294 (Latin/Swing/Ballroom II)   |
| DCE     | 330         | Third-Year Movement Practices I                   | Focuses on the application of diverse movement forms and somatic studies in a range of performance contexts. These contexts may include live and mediated performance, community-based projects, pedagogy, analysis of movement forms in relation to musical compositions or the creation of new movement languages.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: Dance major; DCE 231   |
| DCE     | 331         | Third-Year Movement Practices II                  | Student will focus on the integration of diverse movement forms and somatic practices, as well as developing an in-depth understanding of a range of performance contexts practically and theoretically.  | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): Dance student; DCE 330 with C or better  |
| DCE     | 333         | Urban Movement Practices III                      | A practical and theoretical integration of the urban movement forms that have been investigated and practiced in the urban movement practices curriculum.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): DCE 233 with B+ or better  |
| DCE     | 334         | Postmodern Contemporary III                       | Integrates dance theory and practices of postmodern contemporary dance technique. Refines movement quality and performance skills.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Performance and Movement BA or Dance BFA major; DCE 234 with C or better   |
| DCE     | 335         | Contemporary Ballet III                           | Expansion of student's technical skills and theoretical knowledge through utilization of a hybridized ballet movement vocabulary.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite: BA Performance and Movement or BFA Dance major   |
| DCE     | 336         | Somatic Practices III                             | Laboratory for somatic education that explores the foundations of movement, voice, expression and spatial awareness. Open to nonmajors, the class welcomes and encourages the participation of students from a wide variety of disciplines. Taught through the principles of specific somatic lenses (e.g., the Alexander Technique, Bartenieff Fundamentals, and Body Mind Centering), the course highlights how embodied awareness affects artistic process and choice making, as well as enhancing physical capacities, kinesthetic intelligence, and the refinement of performance and technical skills. Emphasizes developing a holistic perception of ourselves, our relation to one another, and to the environment. | N                 | LEL               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): minimum 45 hours   |
| DCE     | 338         | Urban Movement Practices Ensemble                 | Focuses on building a cooperative practice among artists. The ensemble of dancers and musicians explore the connections between urban musical praxis and urban movement forms in a live, improvisatory setting. Places special emphasis on hybridization, or the blending of musical and gestic traits from two or more genres. Participants are expected to experiment in a cross-disciplinary manner throughout the semester. Course serves as an "experiment lab" for students enrolled in DCE 333 as well as other music and dance students.  | N                 | LAB               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Prerequisite(s): minimum 45 hours; Corequisite(s): DCE 333; Credit is allowed for only DCE 338 or DCE 294 (Urban Movement Practices Ensemble) |
| DCE     | 350         | Dance in the Classroom: Learning Through Movement | Explores theories of learning, thought development, and knowledge construction through aesthetic movement experiences. Students look to theories from the fields of aesthetics, phenomenology (study of lived experiences), somatics (study of the soma or body/mind), sociology and epistemology (theory of knowledge) to understand how the intertwined relationship of human thought development and movement patterning can affect children's learning and development.   | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | HU              | Prerequisite(s): ENG 102, 105 or 108 with C or better; minimum junior standing  |
| DCE     | 354         | Creative Approaches to Teaching Dance I           | Explores creative strategies and methodologies for teaching dance to a variety of populations in diverse settings.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Dance BFA major  |
| DCE     | 356         | Creative Approaches to Teaching Dance II          | Explores creative strategies and methodologies for teaching dance to a variety of populations in diverse settings.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite: Dance major  |
| DCE     | 360         | Third-Year Creative Practices I                   | Provides an orientation to the field of community dance practice. Students investigate foundational theories pertaining to the development of community dance worldwide, are exposed to leaders in community dance practice, and have in-depth applied experiences interacting with different populations in a variety of community dance contexts.   | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite(s): Dance BFA student; DCE 261 with C or better   |
| DCE     | 361         | Third-Year Creative Practices II                  | Historical survey of music and compositional elements relative to dance. Emphasis on analysis of choreography from a musical standpoint.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite(s): Dance major; DCE 360 with C or better   |

| DCE     | 370         | Third-Year Seminar I                 | Provides an orientation to the field of community dance practice. Over two consecutive semesters, students investigate foundational theories pertaining to the development of community dance worldwide, are exposed to leaders in community dance practice, and have in-depth applied experiences interacting with different populations in a variety of community dance contexts.   | N                 | SEM               | N               | YGB           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Pre-requisite: Dance major; DCE 271 with a Y   |
| DCE     | 371         | Third-Year Seminar II                | Hones skills in collaborative approaches, teaching, leading, and facilitation through partnerships with community organizations in the Phoenix metropolitan area. Students study community dance practices covering a range of creative process and community building tools that can be used in diverse settings. Applies research methods, such as data collection, analysis, and reflection, to measure the efficacy of community arts practices.  | N                 | SEM               | N               | YGB           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Pre-requisite: Dance major; DCE 370 with a Y.  |
| DCE     | 394         | Special Topics                       | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-4   |                 |  |
| DCE     | 402         | Ethnography of Dance Practices       | Examines the field of ethnochoreology, ethnographic methods, and interpretive research practices. Develops critical writing, thinking, and viewing skills for comparative dance study.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | L               | Pre-requisite(s): DCE 201 with C or better; ENG 102, 105, or ENG 108 with C or better                |
| DCE     | 404         | Dance and Ethics                     | Examines ethical issues as they relate to the field of dance, including the following: the ethical treatment of dancers within educational and professional institutions; the ethical creation of dances sensitive to copyright/appropriation concerns as well as issues of form and content; the ethical engagement of the arts by the state; the ethical use of dance in trauma recovery and community building.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): ENG 102, 105 or 108 with C or better; minimum junior standing                       |
| DCE     | 405         | Rhetorical Moves                     | Addresses creative practice from the perspective of the embodied creative artist. Embodiment is theorized using a conflation of interdisciplinary concepts to analyze the complex and fluid nexus that occurs as the artist creates. Students theorize the creative artist as a rhetor and the creative practice as a rhetorical situation to understand the deconstructive interaction of the creative act. Explores ways to utilize this new theorization of embodiment for interdisciplinary research into creative practice.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | L or HU         | Prerequisite(s): minimum 45 hours  |
| DCE     | 438         | Dance Theatre Performance/Production | Performance or technical theatre work in designated dance productions. 3 hours a week per semester hour.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Prerequisite(s): Dance BFA, Performance and Movement BA, Dance minor or BIS Dance concentration      |
| DCE     | 460         | Transition Project I                 | Original choreography for group performance with analysis and critique of problems encountered in production.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): Dance BFA major   |
| DCE     | 461         | Transition Project II                | Original research that integrates dance and a related field of interest. Includes production of written document and public presentation. Fall semester must be completed before spring registration. May be repeated for a total of 4 semester hours.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): Dance major; DCE 460 with C or better   |
| DCE     | 470         | Fourth-Year Seminar                  | Explores and investigates the larger world of dance as it pertains to transitioning out of the university environment into professional lives. Discussion revolves around career opportunities, options and finding potential work synergies that will parlay into meaningful and exciting lives.   | N                 | SEM               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Pre-requisites: BFA Dance major; DCE 371; Credit is allowed for only DCE 470 or 494 (4th-Yr Seminar) |
| DCE     | 484         | Internship                           | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 |  |
| DCE     | 492         | Honors Directed Study                | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| DCE     | 493         | Honors Thesis                        | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| DCE     | 494         | Special Topics                       | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-4   |                 |  |
| DCE     | 499         | Individualized Instruction           | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-3   |                 |  |
| DCE     | 500         | Research Methods                     | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                       |
| DCE     | 501         | Philosophy of Dance                  | Analyzes traditional and contemporary theories of dance with regard to issues of expression, form, and meaning.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                       |
| DCE     | 502         | Cultural Concepts of Dance           | Examines the close connections among culture, dance, and movement through writings in cultural theory, dance ethnology, and philosophy.   | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                                       |
| DCE     | 504         | Dance and Ethics                     | Examination of ethical issues as they relate to the field of dance, including the following: the ethical treatment of dancers within educational and professional institutions; the ethical creation of dances sensitive to copyright/appropriation concerns as well as issues of form and content; the ethical engagement of the arts by the state; the ethical use of dance in trauma recovery and community building.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Dance MFA student   |
| DCE     | 505         | Rhetorical Moves                     | Addresses creative practice from the perspective of the embodied creative artist. Embodiment is theorized using a conflation of interdisciplinary concepts to analyze the complex and fluid nexus that occurs as the artist creates. Students theorize the creative artist as a rhetor and the creative practice as a rhetorical situation to understand the deconstructive interaction of the creative act. Explores ways to utilize this new theorization of embodiment for interdisciplinary research into creative practice.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisites: Herberger Institute of Design and the Arts graduate students                         |
| DCE     | 530         | Graduate Movement Practices I        | The four-semester sequence of graduate movement practices are a sequence of graduate-level movement studies experiences designed to emphasize in-depth psychophysical explorations of specific somatic movement practices and frameworks as well as epistemological frameworks for learning in and through the body. Addresses the integrated practices and theoretical underpinnings of Laban/Bartenieff praxis, Body Mind Centering and other somatic practices that are explored within the four-course sequence that facilitate movement exploration, movement functioning, movement performance and movement creation as well as performance and social theory constructs. | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: MFA Dance student   |

| DCE     | 531         | Graduate Movement Practices 2   | The series of graduate movement practices courses are a sequence of two graduate-level movement studies experiences designed to emphasize in-depth psychophysical explorations of specific somatic movement practices and frameworks as well as epistemological frameworks for learning in and through the body. Classroom experiences are approached from theoretically grounded and contextualized perspectives that address through practice current somatic and epistemological thinking. The overarching frameworks for the first and fourth modules are designed as "bookends" for introducing, contextualizing, and synthesizing classroom experiences and concepts explored within the two-course sequence.   | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: MFA Dance student   |
| DCE     | 534         | Postmodern Contemporary   | Preparation in the performance and comprehension of professional-level modern dance for first-year graduate students. 6 hours weekly.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite: Dance Graduate student  |
| DCE     | 535         | Contemporary Ballet   | Graduate-level theoretical study and movement practice of contemporary ballet for contemporary dancers.   | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: MFA Dance student   |
| DCE     | 536         | Somatic Practices   | Laboratory for somatic education that explores the foundations of movement, voice, expression and spatial awareness. Open to nonmajors, the class welcomes and encourages the participation of students from a wide variety of disciplines. Taught through the principles of specific somatic lenses (e.g., the Alexander Technique, Bartenieff Fundamentals, and Body Mind Centering), the course highlights how embodied awareness affects artistic process and choice making, as well as enhancing physical capacities, kinesthetic intelligence, and the refinement of performance and technical skills. Emphasizes developing a holistic perception of ourselves, our relation to one another, and to the environment. Integrated lecture/lab. Prerequisite(s): degree- or nondegree-seeking graduate. | N                 | LEL               | Y               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only DCE 536 or DCE 598 (Movement Language Sources) or (Somatic Practices) |
| DCE     | 537         | African and Diaspora Movement Practices   | Investigates and integrates historical and cultural contexts for West, Central, and South African and Post-African (diasporic) movement practices. Engages movement and physical articulation as tools to examine specific dance cultural knowledge and demonstrate/embody techniques representing that cultural knowledge.   | N                 | LEL               | Y               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite: MFA Dance major; Credit is allowed for only DCE 537 or DCE 598 (African Diaspora Movement Practices)                                      |
| DCE     | 538         | Dance Theatre   | Performance in specially choreographed dance productions.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Pre-requisite: MFA Dance student   |
| DCE     | 540         | Issues in Media for Dance   | Introduces desktop multimedia as it relates to dance creation, production, education, and research.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite: MFA Dance student   |
| DCE     | 543         | Sound Design for Dance  | Audio mixing for analog/digital recording and editing.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Pre-requisite: Dance majors  |
| DCE     | 554         | Teaching Praxis I: Postsecondary Teaching Philosophies, Foundations and Practices | Provides both the theoretical basis and practical application of principles for teaching contemporary dance disciplines in a postsecondary setting. Includes discussion, co-teaching and individual teaching projects and sessions, practical application of course readings, and guest speakers. Both dance and discussion of ideas in each class session.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Dance MFA student   |
| DCE     | 560         | Graduate Creative Practices I   | Artistic research through the practices of improvisation, choreographic choice making, and interdisciplinary collaboration.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite: MFA Dance student   |
| DCE     | 561         | Graduate Creative Practices II  | Explores a variety of contemplative practices designed to cultivate awareness and serve as stimuli for generating choreography and creative approaches in interdisciplinary collaborations.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite: Dance Graduate student; DCE 560   |
| DCE     | 563         | Rhythmic Awareness  | This course focuses on the kinesthetic aspects of weight, space, and time. It is opportunity for individual exploration as well as an ensemble experience, a chance to come together as a group through the communicative nature of sound, movement, and visual patterns.   | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Dance MFA student   |
| DCE     | 570         | Graduate First-Year Seminar I   | Part of a four-semester sequence that offers a cohort experience to increase awareness of current global dance practices, present opportunities for dialoguing about topics significant to fulfilling degree requirements and that promote success in the dance program as well as to facilitate transition into the professional world. Seminar.   | N                 | SEM               | N               | YGB           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Pre-requisite: Dance Graduate student; Credit is allowed for only DCE 570 or DCE 591 (1st Year Graduate Seminar)   |
| DCE     | 571         | Graduate First-Yr Seminar II  | Part of a four-semester sequence that offers a cohort experience to increase awareness of current global dance practices; present opportunities for dialoguing about topics significant to fulfilling degree requirements and that promote success in the dance program as well as to facilitate transition into the professional world.  | N                 | SEM               | N               | YGB           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Prerequisite(s): Dance MFA student   |
| DCE     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LAB               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DCE     | 583         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DCE     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DCE     | 590         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DCE     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DCE     | 593         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DCE     | 594         | Conference and Workshop   | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DCE     | 595         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DCE     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DCE     | 634         | Postmodern Contemporary   | Preparation in the performance and comprehension of professional-level modern dance for second-year graduate students. 6 hours weekly.  | N                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite: Dance Graduate student  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department                                    | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|---|
| DCE     | 654         | Teaching Praxis II: Theories, Contexts, Populations, Psychomotor Development and Curriculum Design | Applies current learning theories and psychomotor development approaches to teaching practices and curriculum design for a variety of contexts and populations ranging from early childhood to late adulthood and community to institutional settings. Students develop and implement pedagogical praxis frameworks that stem from their developing teaching perspectives, values and objectives. Course experiences are designed to help students effectually integrate pedagogical theory and practice toward successful and meaningful ends.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 3     |                 | Prerequisite(s): DCE 554; Credit is allowed for only DCE 654 or DCE 598 (Apprenticeship)  |
| DCE     | 656         | Teaching Praxis III: Secondary Practices and Teacher Preparation Course Development/Implementation | Prepares students to teach in secondary dance education settings; to develop and teach higher education dance pedagogy, curriculum development, and teacher prep courses that meet professional teaching standards, state and national learning standards and requirements and institutional benchmarks. Participants develop specific teaching strategies and frameworks, as well as gain practical experience, within the settings of secondary dance education and university teacher preparation courses. Utilizes Laban Movement Analysis and other social somatic frameworks as inroads into teaching, curricular design and student assessment. Students help instruct and mentor undergraduate dance majors in a secondary dance teaching methods course. Illuminates current sociocultural and educational issues that influence teaching and learning in secondary dance classrooms, and addresses strategies and requirements for pre-service teacher preparation courses. | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 4     |                 | Prerequisite(s): DCE 554; Credit is allowed for only DCE 656 or DCE 680 (Secondary Teaching Praxis and Teacher Training Frameworks) |
| DCE     | 657         | Pedagogical Research and Fieldwork   | Provides a theoretical and practical foundation for students to engage in pedagogical research and fieldwork. Places primary emphasis on investigating and applying qualitative methods to processes of pedagogical inquiry and research. Students are mentored through processes of gathering information, focusing, designing, implementing and assessing an educational research project through fieldwork in a context of their choosing. The outcomes of students' fieldwork projects are documented and articulated in the forms of a scholarly research paper and live research presentation.  | N                 | RSC               | N               | GNA           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 2     |                 | Prerequisite(s): DCE 554  |
| DCE     | 660         | Graduate Creative Practices III  | Artistic research through the practices of choreographic choice making, exploration, and experimentation of integrated environments and interdisciplinary collaboration.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 3     |                 | Pre-requisite: MFA Dance student  |
| DCE     | 661         | Graduate Creative Practices IV   | Culmination of a four-semester Creative Practices sequence, focusing on articulating individual creative practices and identifying the needs of each student relative to their Applied Projects. Students are also responsible for understanding the content and requirements for the selected modules of this course.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 3     |                 | Pre-requisite: MFA Dance student  |
| DCE     | 670         | Graduate Second-Year Seminar I   | Part of a four semester sequence that offers a cohort experience to increase awareness of current global dance practices, presents opportunities for dialoguing about topics significant to fulfilling degree requirements and promotes success in the dance program as well as to facilitate transition into the professional world. Reflection is a key component of the School of Dance curriculum; develops ability and skills in analysis, but more importantly builds awareness of intuitive and habitual patterns of response to new stimuli. The Seminar is a key moment each week to develop a community of inquiry amongst peers.   | N                 | SEM               | N               | YGB           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1     |                 | Pre-requisite: MFA Dance student; Credit is allowed for only DCE 591 (2nd Yr Seminar) or DCE 670                                    |
| DCE     | 671         | Graduate Second-Year Seminar II  | The Second-Year Graduate Seminar is part of a four semester sequence that offers a cohort experience to increase awareness of current global dance practices, present opportunities for dialoguing about topics significant to fulfilling degree requirements and that promote success in the dance program as well as to facilitate transition into the professional world.  | N                 | SEM               | N               | YGB           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1     |                 | Prerequisite(s): Dance MFA student  |
| DCE     | 680         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCE     | 683         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCE     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCE     | 693         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCE     | 695         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Herberger Inst Design & Arts   | School of Film, Dance and Theatre             | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCI     | 191         | First-Year Seminar   | Small course emphasizing student-faculty discussion/interaction. Strongly recommended for first-year students.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-3   |                 |   |

| DCI     | 690         | Reading and Conference                               | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post Baccalaureate Undergraduate student   |
| DCI     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post Baccalaureate Undergraduate student   |
| DCI     | 701         | Curriculum Theory and Practice                       | Curriculum theory and practice as a field of study. Its current orientations and applications, modes of inquiry, and community of scholars and practitioners.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post Baccalaureate Undergraduate student   |
| DCI     | 702         | Interdisciplinary Research Seminar                   | Core research course for students in the interdisciplinary PhD in Curriculum and Instruction program.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCI     | 780         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DCI     | 784         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post Baccalaureate Undergraduate student   |
| DCI     | 790         | Reading and Conference                               | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post Baccalaureate Undergraduate student   |
| DCI     | 791         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post Baccalaureate Undergraduate student   |
| DCI     | 792         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-15  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post Baccalaureate Undergraduate student   |
| DCI     | 795         | Continuing Registration                              | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post Baccalaureate Undergraduate student   |
| DCI     | 799         | Dissertation   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-15  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Post Baccalaureate Undergraduate student   |
| DNP     | 601         | Theoretical Foundations for Advance Practice Nursing | Examines philosophical foundations of advanced nursing practice by analyzing interrelationships among theory, philosophy, practice, and research.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation    | College of Nursing and Health Innovation      | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DNP     | 602         | Evaluating Research for Practice                     | Provides opportunities for graduate students to develop the knowledge and skills to critically analyze scientific literature and research for application to practice.  | N                 | SEM               | N               | OPT           | Nursing & Health Innovation    | College of Nursing and Health Innovation      | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| DNP     | 603         | Health Equity and Social Justice                     | Focuses on the application of theories related to social justice and knowledge of social determinants of health to the role of the graduate prepared nurse for the purpose of advocating for health equity and creating innovative methods of addressing social injustices to improve health outcomes.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation    | College of Nursing and Health Innovation      | 3     |                 | Prerequisite(s): admission to graduate Nursing program  |
| DNP     | 604         | Advanced Human Pathophysiology Across Lifespan       | Core course focuses on human pathophysiology and concepts of genetics for advance practice nursing.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation    | College of Nursing and Health Innovation      | 4     |                 | Prerequisite(s): DNP Advanced Nursing Practice (Adult-Gerontology or Fam Psy MentHlth or Family NP or Women's Hlth NP or Neonatal NP or Pediatric NP) major or Family Nurse Practitioner or Family Psychiatric and Mental Health Nurse Practitioner certificate |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                               | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|-----------------------------|--|-------|-----------------|--|
| DNP     | 605         | Advanced Health Assessment Across Lifespan  | Advanced health assessment skills, including history-taking strategies and physical, functional, developmental, and psychosocial assessment.  | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisites: DNP Adv Nursing Practice major or Family Nurse Practitioner or Family Psychiatric and Mental Health Nurse Practitioner certificate |
| DNP     | 608         | Advanced Pharmacotherapeutics Across Lifespan   | For advanced practice nurses, expands theoretical and evidence-based knowledge and promotes synthesis of pharmacotherapeutic concepts and principles across the lifespan.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisites: DNP Adv Nursing Practice major or Family Nurse Practitioner or Family Psychiatric and Mental Health Nurse Practitioner certificate |
| DNP     | 609         | Advanced Practice Nursing Role  | Focuses on the examination and implementation of the advanced practice nursing (APN) role. Presents historical and contemporary social and political influences on the development and implementation of the APN role and the circumstances prompting the movement of education for advanced practice to the doctoral level. Emphasizes the analysis of the role the APN and the Doctor of Nursing Practice prepared provider within the greater health care system. Explores issues and challenges related to advanced practice. | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 1     |                 | Prerequisite(s): Doctor of Nursing Practice student  |
| DNP     | 613         | Women's Health Promotion I  | Didactic course focuses on theories of health behavior, health promotion, disease prevention and patient education.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Women's Health student; Co-requisite: DNP 614   |
| DNP     | 614         | Women's Health Practicum I  | Clinical assessment and education of women across the lifespan for the purposes of health promotion and disease prevention.   | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Women's Health student; Co-requisite: DNP 613   |
| DNP     | 615         | Management of Common Problems in Women's Health   | Focuses on management of nursing care for high-risk perinatal women and women with common health problems.  | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Women's Health student; Co-requisite: DNP 616   |
| DNP     | 616         | Advanced Women's Health Practicum II  | Clinical application of theories, concepts, and principles in area of concentration.  | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Women's Health student; Co-requisite: DNP 615   |
| DNP     | 617         | Management of Complex and Chronic Disease in Women  | Didactic course focused on using current evidence-based research as the context for the assessment and management of complex and chronic reproductive and gynecologic health status across the lifespan and patient education.  | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Women's Health student; Co-requisite: DNP 618   |
| DNP     | 618         | Advanced Women's Health Practicum III   | Clinical course focused on using current evidence-based research as the context for the assessment and management of complex and chronic reproductive and gynecologic health states across the lifespan and patient education.  | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Women's Health student; Co-requisite: DNP 617   |
| DNP     | 621         | Health Assessment Skills  | Skill-based course focuses on advanced clinical skills including suturing, splinting, x-ray, ECG and advanced lab interpretation.   | N                 | LEL               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 1     |                 | Prerequisite(s): DNP 605   |
| DNP     | 623         | Adult-Gerontology Health Promotion  | Introduces health promotion and disease prevention for adults across the lifespan emphasizing principles of evidence-based practice in clinical and community settings.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): DNP Advanced Nursing Practice (Adult-Gerontology Nurse Practitioner) major. Corequisite(s): DNP 624                               |
| DNP     | 624         | Adult-Gerontology Health Promotion Practicum  | Clinical practicum designed to apply principles of evidence-based practice in health promotion and disease prevention in clinical and community settings.   | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2-6   |                 | Prerequisite(s): DNP Advanced Nursing Practice (Adult-Gerontology Nurse Practitioner) major. Corequisite(s): DNP 623                               |
| DNP     | 625         | Management of Common Health Problems in Adults Across the Lifespan                            | Includes theory and research that guides the management and maintenance of adults across the lifespan with common health alterations.   | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): DNP Advanced Nursing Practice (Adult-Gerontology Nurse Practitioner) major. Corequisite(s): DNP 626                               |
| DNP     | 626         | Management of Common Health Problems/Adults Across the Lifespan Practicum                     | Diagnosis, management, and application of advanced knowledge and skills in caring for adults across the lifespan.   | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2-6   |                 | Prerequisite(s): DNP Advanced Nursing Practice (Adult-Gerontology Nurse Practitioner) major. Corequisite(s): DNP 625                               |
| DNP     | 627         | Management of Complex Health Alterations in Adults Across the Lifespan                        | Focuses on application of EBP in care of adults of all ages with complex health alterations.  | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): DNP Advanced Nursing Practice (Adult-Gerontology Nurse Practitioner) major. Corequisite(s): DNP 628                               |
| DNP     | 628         | Management of Adults Across the Lifespan w/Complex Health Alterations Practicum               | Clinical practicum designed to apply principles of evidence-based practice in primary care management of adults across the lifespan with complex health alterations.  | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2-6   |                 | Prerequisite(s): DNP Advanced Nursing Practice (Adult-Gerontology Nurse Practitioner) major. Corequisite(s): DNP 627                               |
| DNP     | 633         | Family Health Promotion   | Focuses on concepts and strategies to promote, manage, and maintain health of children, adults, and families.   | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: Advanced Nursing Practice (Family Nurse Practitioner) major; Co-requisite: DNP 634  |
| DNP     | 634         | Family Health Promotion Practicum   | Clinical application of theories, concepts, and principles in the care of children,   | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: Advanced Nursing Practice (Family Nurse Practitioner) major; Co-requisite: DNP 633  |
| DNP     | 635         | Management of Common Health Problems in Children, Adults and Families                         | Didactic course that integrates research into clinical decision making as the context for the assessment and management of acute and common health problems in family practice across the life span.  | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Advanced Nursing Practice (Family Nurse Practitioner); Co-requisite: DNP 636  |
| DNP     | 636         | Management of Common Health Problems in Children, Adults, and Families Practicum              | Clinical application of theories, concepts, and research related to the management of acute and common problems in family practice across the lifespan.   | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Advanced Nursing Practice (Family Nurse Practitioner); Co-requisite: DNP 635  |
| DNP     | 637         | Management of Complex and Chronic Health Problems in Children, Adults and Families            | Didactic course that integrates research into clinical decision making as the context for the assessment and management of complex and chronic problems in family practice across the lifespan.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Advanced Nursing Practice (Family Nurse Practitioner); Co-requisite: DNP 638  |
| DNP     | 638         | Management of Complex and Chronic Health Problems in Children, Adults, and Families Practicum | Clinical application of theories, concepts, and research related to the management of complex and chronic problems in family practice across the life span for Family Nurse Practitioner role specialty.  | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Advanced Nursing Practice (Family Nurse Practitioner); Co-requisite: DNP 637  |
| DNP     | 640         | Advanced Human Pathophysiology Pediatrics   | Didactic course for pediatric nurse practitioner students focuses on applying concepts of human pathophysiology and genetics in pediatric patients.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 4     |                 | Pre-requisite: DNP Advanced Nursing Practice (Pediatric Nurse Practitioner)  |
| DNP     | 641         | Advanced Health Assessment Pediatrics   | Skills-based advanced health assessment course that includes history-taking strategies and physical, functional, developmental, psychosocial health assessment of children (birth-21).  | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): Advanced Nursing Practice DNP (Pediatric Nurse Practitioner)  |
| DNP     | 642         | Applied Pharmacotherapeutics for Pediatrics   | Applies evidence-based pharmacotherapeutic principles to disease treatment and health promotion and maintenance for pediatric patients.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Advanced Nursing Practice (Pediatric Nurse Practitioner)  |
| DNP     | 643         | Developmentally Based Care of the Well Child  | Offers information for theory-based developmental care of well children. Includes anticipatory guidance for parents and/or children/teens.  | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Advanced Nursing Practice (Pediatric Nurse Practitioner); Co-requisite: DNP 644   |
| DNP     | 644         | Well Child Advanced Practicum   | Clinical application of theories, concepts and principles as they relate to the developmentally based care of the well child.   | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Advanced Nursing Practice (Pediatric Nurse Practitioner); Co-requisite: DNP 643   |
| DNP     | 645         | Management of Common Problems in Pediatric Primary Care                                       | Provides health promotion and disease prevention strategies for the advanced nursing care of all children and families.   | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Advanced Nursing Practice (Pediatric Nurse Practitioner); Co-requisite: DNP 646   |
| DNP     | 646         | Management of Common Problems in Pediatric Primary Care Practicum                             | Facilitates development of advanced clinical skills in the assessment and management of childhood health, health surveillance and promotion.  | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Advanced Nursing Practice (Pediatric Nurse Practitioner); Co-requisite: DNP 645   |
| DNP     | 647         | Management of Complex and Chronic Health Problems in Pediatric Primary Care                   | Third pediatric didactic course focuses on assessment and management of childhood complex and chronic health problems and special health conditions.  | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Advanced Nursing Practice (Pediatric Nurse Practitioner); Co-requisite: DNP 648   |

|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|-----------------------------|--|-------|-----------------|--|
| DNP     | 648         | Management of Complex & Chronic Problems Pediatric Primary Care Practicum   | Clinical course assists students in developing advanced clinical skills in decision making with chronically ill or special needs pediatric patients.  | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Advanced Nursing Practice (Pediatric Nurse Practitioner); Co-requisite: DNP 647   |
| DNP     | 650         | Advanced Human Pathophysiology Neonates                                     | Didactic course for neonatal nurse practitioner students focuses on applying concepts of human pathophysiology and genetics in neonatal patients.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 4     |                 | Pre-requisites: DNP Advanced Nursing Practice (Neonatal Nurse Practitioner)  |
| DNP     | 651         | Advanced Health Assessment of Neonates                                      | Skill-based course focuses on advanced health assessment skills, including history-taking strategies and the physical, functional, genetic, developmental, and psychosocial/cultural health assessment of neonates. | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): Advanced Nursing Practice (Neonatal Nurse Practitioner) DNP   |
| DNP     | 652         | Applied Pharmacotherapeutics for Neonates                                   | Focuses on the application of knowledge of pharmacological principles in the treatment of diseases and promotion of health for neonates and their families.   | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Advanced Nursing Practice (Neonatal Nurse Practitioner)   |
| DNP     | 653         | Advanced Development and Family Health Promotion: Neonatal Theory I         | Concepts, theories, interventions, and research related to the promotion, management, and maintenance of physical, behavioral, and developmental needs of at-risk newborns and infants and their families.          | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Advanced Nursing Practice (Neonatal Nurse Practitioner); Co-requisite: DNP 654  |
| DNP     | 654         | Neonatal Practicum I  | Clinical application of theories, concepts, and principles in area of concentration.  | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Advanced Nursing Practice (Neonatal Nurse Practitioner); Co-requisite: DNP 653  |
| DNP     | 655         | Management of Common Neonatal Problems                                      | Proactive neonatal theory course focusing on the concepts, theories, and research related to acute and chronic health deviations of neonates and infants.   | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Advanced Nursing Practice (Neonatal Nurse Practitioner) Co-requisite: DNP 656   |
| DNP     | 656         | Neonatal Practicum II   | Clinical application of theories, concepts, and principles in area of concentration.  | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Advanced Nursing Practice (Neonatal Nurse Practitioner); Co-requisite: DNP 655  |
| DNP     | 657         | Management of Complex Problems in Neonates                                  | Examines the application of knowledge of complex, multi-system alterations in neonatal health from a theoretical and research perspective in preparation for clinical practice.                                     | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Advanced Nursing Practice (Neonatal Nurse Practitioner)   |
| DNP     | 658         | Neonatal Practicum III: Management of Complex Problems in Neonates          | Develops and applies advanced neonatal assessment, clinical decision making, and management skills to complex health alterations in at-risk neonates to include cultural, ethical, legal, and advocacy issues.      | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Advanced Nursing Practice (Neonatal Nurse Practitioner); Co-requisite: DNP 657  |
| DNP     | 659         | Embryology and Genetics   | Prepares advanced practice nurses to use embryology, genetics, and physiology concepts within the nursing process in the care of pediatric and neonatal patients.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): Advanced Nursing Practice (Adult-Gerontology NP, Family Psychiatric Mental Health NP, Family NP, Pediatric NP, or Women's Health NP) DNP student  |
| DNP     | 660         | Advanced Neuropsychopathology Lifespan                                      | Manifestations of altered neurophysiology and psychopathology over the lifespan. Uses evidence-based support for theoretical views of psychiatric disorders to analyze the relationships of neuropsychopathology.   | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2     |                 | Pre-requisite: DNP Adv Nurse Pract (Family Psych & Mental Health Nurse Practitioner) or (Adult Psych Mental Health Nurse Practitioner) or Child and Adolescent Mental Health Intervention or Family Psychiatric and Mental Health Nurse Practitioner |
| DNP     | 671         | Advanced Mental Health Assessment Across the Lifespan                       | Focuses on comprehensive mental health assessment of psychiatric disorders occurring in children, adolescents, and families.  | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2     |                 | Pre-requisite: DNP Adv Nurse Pract (Family Psych & Mental Health Nurse Practitioner) or (Adult Psych Mental Health Nurse Practitioner) or Family Psychiatric and Mental Health Nurse Practitioner  |
| DNP     | 672         | Psychopharmacology Across the Lifespan                                      | Focuses on evidence-based use of medications for mental health disorders across the lifespan.   | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Adv Nurse Pract (Family Psych & Mental Health Nurse Practitioner) or (Adult Psych Mental Health Nurse Practitioner) or Family Psychiatric and Mental Health Nurse Practitioner  |
| DNP     | 673         | Mental Health Promotion Across the Lifespan                                 | Focuses on evidence-based interventions to promote mental health across the lifespan.   | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Adv Nurse Pract (Family Psych & Mental Health Nurse Practitioner) or (Adult Psych Mental Health Nurse Practitioner) or Family Psychiatric and Mental Health Nurse Practitioner. Co-requisite: DNP 674                             |
| DNP     | 674         | Mental Health Promotion Across the Lifespan Practicum                       | Clinical experiences to become skilled in assessment and evidence-based individual intervention of mental health disorders across the lifespan.   | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Adv Nurse Pract (Family Psych & Mental Health Nurse Practitioner) or (Adult Psych Mental Health Nurse Practitioner) Family Psychiatric and Mental Health Nurse Practitioner; Co-requisite: DNP 673                                |
| DNP     | 675         | Management of Common Mental Health Disorders Across the Lifespan            | Emphasizes the assessment and evidence-based management of common mental health disorders across the lifespan.  | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Adv Nurse Pract (Family Psych & Mental Health Nurse Practitioner) or (Adult Psych Mental Health Nurse Practitioner) or Family Psychiatric and Mental Health Nurse Practitioner Co-requisite: DNP 676                              |
| DNP     | 676         | Management of Common Mental Health Disorders Across the Lifespan Practicum  | Clinical experiences necessary to become skilled in the assessment and evidence-based management of the most common mental health disorders across the lifespan.  | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Adv Nurse Pract (Family Psych & Mental Health Nurse Practitioner) or (Adult Psych Mental Health Nurse Practitioner) or Family Psychiatric and Mental Health Nurse Practitioner; Corequisite: DNP 673                              |
| DNP     | 677         | Management of Complex & Chronic Mental Health Disorders Across the Lifespan | Focuses on modalities of evidence-based treatment with children, adolescents, adults, and families with complex and/or chronic psychopathology.   | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: DNP Adv Nurse Pract (Family Psych & Mental Health Nurse Practitioner) or (Adult Psych Mental Health Nurse Practitioner) or Family Psychiatric and Mental Health Nurse Practitioner; Co-requisite: DNP 678                             |
| DNP     | 678         | Management of Complex & Chronic MH Disorders Across the Lifespan Practicum  | Clinical experiences in the assessment and evidence-based management of the most complex and chronic mental health disorders across the lifespan.   | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2-6   |                 | Pre-requisite: DNP Adv Nurse Pract (Family Psych & Mental Health Nurse Practitioner) or (Adult Psych Mental Health Nurse Practitioner) or Family Psychiatric and Mental Health Nurse Practitioner; Co-requisite: DNP 677                             |
| DNP     | 679         | Biostatistics: Principles of Statistical Inference                          | Examines principles of statistical inference and their application to the analysis and interpretation of epidemiological, psychosocial, medical, nursing, and healthcare data.                                      | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): Nursing graduate student  |
| DNP     | 680         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|------------------------------|--|-------|-----------------|--|
| DNP     | 682         | Geriatric Health Promotion  | Examines theoretical perspectives in aging and cultural and contextual approaches for health promotion in older adults.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DNP     | 688         | Management of Complex Diseases and Syndromes in Geriatric Population            | Focuses on diagnosis and management of complex diseases and syndromes in the geriatric population.  | N                 | SEM               | N               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DNP     | 690         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | N                 | IND               | N               | Z1            | Nursing & Health Innovation  | College of Nursing and Health Innovation | 1-12  |                 |  |
| DNP     | 691         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DNP     | 695         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Nursing & Health Innovation  | College of Nursing and Health Innovation | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DNP     | 703         | Innovation in Communication-Scholarly and Professional Writing                  | Provides a review of principles of scholarly and professional writing, plagiarism and APA 6th edition format.   | N                 | SEM               | N               | GNA           | Nursing & Health Innovation  | College of Nursing and Health Innovation | 2     |                 | Prerequisite(s): Doctor of Nursing Practice student  |
| DNP     | 704         | Principles of Evidence-Based Care in Advanced Practice                          | Foundational course focuses on the evidence-based process and understanding of evidence-based practice principles assist advanced practice nurses and other healthcare professionals in clinical decision making in order to provide best care.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation | 4     |                 | Pre-requisite: Doctor of Nursing Practice student  |
| DNP     | 705         | Health Care Outcomes Management   | Outcomes management methodology supports implementation of evidence-based practice and measurement of both patient and health care system outcomes attributed to adoption of best practices.  | N                 | SEM               | N               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): Doctor of Nursing Practice student; DNP 704   |
| DNP     | 706         | Implementing Sustainable Change toward Evidence-Based Practice                  | Facilitates student learning about striving for and evaluating sustainable change that hinges on active improvement of practices through implementing evidence-based practice (EBP). Students engage strategies designed to facilitate advanced practice nurses' leadership of this change. Students analyze the success of their evidence-based applied clinical project that is implemented in their clinical residency course. Students evaluate the impact of their doctorally prepared evidence-based advanced practice nurse role on shifting culture to best practice. Students explore the use of adult learning, ethical, and mentorship principles to facilitate understanding of EBP in their workplace. | N                 | LEC               | N               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation | 4     |                 | Pre-requisite: Doctor of Nursing Practice major; DNP 704; DNP 705; Co-requisite: DNP 712   |
| DNP     | 707         | Disseminating Evidence to Advance Best Practice in Healthcare and Health Policy | Focuses on methods for dissemination of evidence to advance best practice within local, regional, and/or national settings, as well as advancement of EBP in health policy and the media.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation  | College of Nursing and Health Innovation | 4     |                 | Prerequisite(s): DNP 705   |
| DNP     | 708         | Systems Thinking in a Complex Healthcare Environment                            | Studies basic and advanced systems principles as they relate innovation to the American healthcare system.  | N                 | SEM               | N               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: Doctor of Nursing Practice student  |
| DNP     | 709         | Individual and Innovation Leadership in Healthcare Practice                     | Introduces the role of the innovator, including the essential behaviors of risk taking, managing workload, and addressing the challenges of innovation.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: Doctor of Nursing Practice student  |
| DNP     | 710         | Clinical Perspectives on Biomedical Device Design                               | Examines clinical perspectives on principles of biomedical device design, including interprofessional engagement with engineering and regulatory professionals.   | N                 | LEC               | N               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): Doctor of Nursing Practice student  |
| DNP     | 711         | Healthcare Policy and Innovation  | Introduces the political, organizational, and economic dimensions of healthcare policy with emphasis on strategies for innovative policy and practice.  | N                 | SEM               | Y               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation | 3     |                 | Pre-requisite: Doctor of Nursing Practice student  |
| DNP     | 712         | Clinical Residency and Management   | Demonstrates DNP competencies through portfolio documentation of clinical learning experiences and implementation of the DNP Evidence-Based Clinical Applied Project. Doctoral students submit the DNP Portfolio in partial fulfillment of the degree.  | N                 | PRA               | Y               | Z1            | Nursing & Health Innovation  | College of Nursing and Health Innovation | 1-12  |                 | Pre-requisites: Doctor of Nursing Practice student   |
| DNP     | 713         | Analysis of Organizational Cultures in Healthcare                               | Analyzes culture, organizational implications and relationships to change and innovation in healthcare.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation  | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): Advanced Nursing Practice (Innovation Leadership) major   |
| DNP     | 714         | Professional Relationships in Healthcare  | Analyzes professional relationships within healthcare organizations and evidence-based strategies to improve communication, coordination, and collaboration.  | N                 | LEC               | N               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): Advanced Nursing Practice (Adult-Gerontology NP, Family Psychiatric Mental Health NP, Family NP, Innovation Leadership, Pediatric NP, or Women's Health NP) DNP student |
| DNP     | 715         | Dynamics and Principles of Information in Health Care                           | Analyzes and applies multiple sources of information for health care leaders across the continuum of evidence including research, evidence-based practice, translational research, improvement science and quality improvement.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation  | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): Advanced Nursing Practice DNP student   |
| DNP     | 716         | Leadership of Innovation in Healthcare  | Analyzes leadership theories in the creation of complex healthcare system innovation.   | N                 | SEM               | N               | GNA           | Nursing & Health Innovation  | College of Nursing and Health Innovation | 4     |                 | Pre-requisite: Doctor of Nursing Practice concentrations major   |
| DNP     | 791         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DSC     | 100         | ASU Design Experience   | Covers ASU's mission as the New American University, the importance and benefits of an entrepreneurial approach to problem solving, solutions to sustainability challenges, and the importance of social embeddedness. Additionally, through various course discussions and assignments, students examine the concept of academic integrity and its potential impact on their future, gain awareness of the value of engaging in research activities, and learn about taking an interdisciplinary perspective.  | N                 | REC               | N               | GNA           | Herberger Inst Design & Arts | The Design School                        | 1     |                 | Prerequisite(s): BS, BSD or BSLA Design School major. Credit is allowed for only DSC 100 or 194 (ASU Design Experience)  |
| DSC     | 101         | Design Awareness  | Surveys cultural, global, and historical context for the design professions.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School                        | 3     | HU & G          |  |
| DSC     | 102         | Introduction to Design  | Introduces design, with an emphasis on understanding the process and principles by which design shapes our world.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | The Design School                        | 3     |                 |  |
| DSC     | 191         | First-Year Seminar  | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                        | 1-3   |                 |  |
| DSC     | 194         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                        | 1-4   |                 |  |
| DSC     | 236         | Introduction to Computer Modeling   | Computers in design, including software concepts, specific packages, and problem solving, illustration, typography, modeling, and animation.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | The Design School                        | 3     | CS              | Prerequisite(s): Industrial Design major; passed milestone   |
| DSC     | 294         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                        | 1-4   |                 |  |
| DSC     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                        | 1-4   |                 |  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department                      | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---------------------------------|-------|-----------------|--|
| DSC     | 484         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 |  |
| DSC     | 492         | Honors Directed Study  | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School               | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| DSC     | 493         | Honors Thesis  | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Herberger Inst Design & Arts   | The Design School               | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| DSC     | 494         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School               | 1-4   |                 |  |
| DSC     | 498         | Pro-Seminar  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School               | 1-7   | L               |  |
| DSC     | 499         | Individualized Instruction                                   | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School               | 1-3   |                 |  |
| DSC     | 500         | Research Methods   | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Pre-requisite: Master of Science in Design or PhD in Environmental Design & Planning student   |
| DSC     | 501         | Qualitative Research in Design                               | Theory and application of qualitative research. Emphasizes using ethnography to identify and specify innovative concepts and  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts   | The Design School               | 3     |                 | Prerequisite(s): Master of Industrial Design or Master of Science in Design major  |
| DSC     | 520         | Contemporary Design Issues                                   | Issues influencing contemporary design such as sustainability, globalization, education, gender, collaboration and emotion.   | N                 | SEM               | N               | OPT           | Herberger Inst Design & Arts   | The Design School               | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DSC     | 558         | Daylighting  | Daylighting as a design determinant; concepts, techniques, methodology, experiments, and case studies.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts   | The Design School               | 3     |                 | Pre-requisite: Herberger Institute of Design and the Arts graduate student   |
| DSC     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Pre-requisite: Master of Science in Design student   |
| DSC     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Pre-requisite: Design (Graphic Design) MSD, Design (Indus Design) MSD or Design (Inter Design) MSD student   |
| DSC     | 590         | Reading and Conference                                       | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Pre-requisite: Design (Graphic Design) MSD, Design (Indus Design) MSD, or Design (Inter Design) MSD student  |
| DSC     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Pre-requisite: Design (Graphic Design) MSD, Design (Indus Design) MSD, or Design (Inter Design) MSD student  |
| DSC     | 593         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Pre-requisite: Design (Graphic Design) MSD, Design (Indus Design) MSD, or Design (Inter Design) MSD student  |
| DSC     | 594         | Conference and Workshop                                      | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | PRA               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DSC     | 595         | Continuing Registration                                      | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Herberger Inst Design & Arts   | The Design School               | 1     |                 | Prerequisite(s): Master of Industrial Design, Master of Interior Architecture, Master of Science in Design, or Master of Visual Communication Design major |
| DSC     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School               | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DSC     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Pre-requisite: Design (Graphic Design) MSD, Design (Indus Design) MSD, or Design (Inter Design) MSD student  |
| DSC     | 680         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | RSC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DSC     | 683         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DSC     | 684         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DSC     | 690         | Reading and Conference                                       | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DSC     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | RSC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DSC     | 692         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| DSC     | 693         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School               | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EAC     | 484         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation | 1-12  |                 |  |
| ECD     | 191         | First-Year Seminar   | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 1-3   |                 |  |
| ECD     | 211         | The Developing Child: Theory into Practice, Prenatal-Grade 3 | Examines process of physical, social, emotional, cognitive, language, and literacy development of young children; includes observation, practical application, fieldwork.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     | SB              |  |

|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---------------------------------|-------|-----------------|--|
| ECD     | 220         | Introduction to Nutrition, Health and Safety                            | Emphasizes providing proper nutrition, promoting a safe but challenging learning environment, and becoming knowledgeable of a child's health status. Also covers practical applications for assisting young children to develop good habits and attitudes and to assume lifelong responsibility for their own well-being.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 2     |                 |  |
| ECD     | 294         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 1-4   |                 |  |
| ECD     | 298         | Honors Directed Study   | Independent study or practicum under the supervision of a faculty member.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 1-6   |                 | Prerequisite(s): Barrett Honors student                |
| ECD     | 302         | Foundations of Early Childhood Education                                | Foundational basis of the early childhood field, including historical roots, current practices, ethics, models of teaching, and application in early childhood settings.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): admission to the Professional Program |
| ECD     | 312         | Social/Emotional Foundations of Learning                                | Foundations of early social development and evidence-based practices for promoting social-emotional development; young children's understanding, interactions, and relationships to the social world.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): admission to the Professional Program |
| ECD     | 313         | Technology in Early Childhood Education                                 | Evaluates technology and technological learning tools for early childhood classrooms; integrates technology and its tools into students' learning. <u>Lecture, discussion, active participation.</u>  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): admission to the Professional Program |
| ECD     | 315         | Classroom Organization and Guidance of Young Children                   | Theories and strategies to guide children's development toward becoming self governing; typical and atypical behaviors; implementing age-appropriate classroom management techniques that foster individual, social, and academic competence.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): admission to the Professional Program |
| ECD     | 316         | Teacher Research: Studying Children in Context                          | Introduces designing, conducting, interpreting, and reporting teacher research; methods of research and fieldwork with children to improve teaching practices and child outcomes.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): admission to the Professional Program |
| ECD     | 321         | Emerging Language and Literacy  | Language and literacy development; language acquisition; methods of facilitating oral language in relation to emergent reading and writing; methods of facilitating early literacy development; clinical observation.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): admission to the Professional Program |
| ECD     | 323         | Building Home, School, and Community Partnerships                       | Knowledge and skills to facilitate positive and continuous family-school partnerships; family background, social context, family involvement, and current research on family-school interaction and academic success.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     | SB              | Prerequisite(s): admission to the Professional Program |
| ECD     | 324         | Social Studies and Creative Arts Curriculum, Instruction and Assessment | Social studies and creative arts standards, curriculum, and instructional and assessment strategies in an integrated social studies and creative expression curriculum for children birth through grade 3.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): admission to the Professional Program |
| ECD     | 341         | Administration/Evaluation of EC Programs                                | Administration and evaluation of early childhood programs. Emphasizes planning and evaluation; regulations; health, nutrition, and safety; operations, budgeting, and supervision of personnel.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): admission to the Professional Program |
| ECD     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 1-4   |                 |  |
| ECD     | 396         | Student Teaching: Early Childhood (Ages Birth-5)                        | Student teaching in early childhood education classrooms ages birth to 5: synthesized experience in curriculum, instruction, assessment and classroom management.   | N                 | PRA               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 1-4   |                 | Prerequisite(s): admission to the Professional Program |
| ECD     | 406         | Assessment: Birth-Grade 3   | Examines assessments appropriate to birth - grade 3 instruction to align curriculum with learner needs. Focuses on test design, interpretation, lesson design, and aspects related to multiple classroom and formal assessments.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): admission to the Professional Program |
| ECD     | 416         | Social and Educational Policies Affecting Children and Families         | Social policies at the national and state levels; values and assumptions of policies; political factors shaping policy and implementation; links between policy, educational practice, schools, and family functioning.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): admission to the Professional Program |
| ECD     | 418         | Instructional Methods for Young Children: Integrating Digital Media     | Develops integrated experiences with children's literature for facilitating development in reading, writing, speaking, and listening. Further develops educational strategies for promoting growth in the social studies and creative arts curriculum, and instructional/assessment strategies for preprimary- and primary-level children; developmentally appropriate methods and strategies for effective instruction.  | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): admission to the Professional Program |
| ECD     | 477         | Student Teaching: Birth to Pre-K  | Supervised practicum in a birth to pre-K program.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 4-6   |                 | Prerequisite(s): admission to the Professional Program |
| ECD     | 478         | Student Teaching: Early Childhood (Grades K-3)                          | Student teaching in early childhood education classrooms grades K-3: synthesized experience in curriculum, instruction, assessment and classroom management.  | Y                 | PRA               | Y               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3-9   |                 | Prerequisite(s): admission to the Professional Program |

| ECD     | 577         | Practicum: Early Childhood (Ages Birth-5)                            | Student teaching in early childhood education classrooms ages birth to 5: synthesized experience in curriculum, instruction, assessment and classroom management.   | N                 | PRA               | Y               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ECD     | 578         | Student Teaching: Early Childhood (Grades K-3)                       | Student teaching in early childhood education classrooms grades K-3: synthesized experience in curriculum, instruction, assessment and classroom management.  | N                 | PRA               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ECD     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                               |
| ECD     | 583         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                               |
| ECD     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                               |
| ECD     | 590         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                               |
| ECD     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                               |
| ECD     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                               |
| ECD     | 593         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                               |
| ECD     | 594         | Conference and Workshop  | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                               |
| ECD     | 595         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                               |
| ECD     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-4   |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                               |
| ECD     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                               |
| ECD     | 680         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                               |
| ECD     | 683         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student                               |

| ECN     | 331         | Economics of the European Economic Union       | Examines broad economic policies seeking to influence individuals' decisions, the history of European economic development and policies, as well as institutions and social systems.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Economics | 3     | SB & G          | Prerequisite(s): ECN 211 or 213, ECN 212 or 214, and MAT 211 or 271 with C or better  |
| ECN     | 335         | South Asia and the World Economy               | Develops and discusses alternative theories of trade, development, and growth in the context of south Asia and the world economy.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Economics | 3     | SB & G          | Prerequisite(s): ECN 211 or 213 with C or better; ECN 212 or 214 with C or better; MAT 211, 266, or 271 with C or better  |
| ECN     | 342         | Sports Economics                               | Applies microeconomic concepts of competitive and imperfectly competitive markets, collective bargaining, antitrust issues and public finance to the sports industry.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Economics | 3     |                 | Prerequisite(s): ECN 211 or 213 with C or better; ECN 212 or 214 with C or better; MAT 211 or 271 with C or better; Credit is allowed for only ECN 342 or ECN 394 (Economics of Sport)                |
| ECN     | 345         | Survey of Environmental and Resource Economics | Economic principles applied to private and public policy decisions involving environmental resources, natural resource management, and policy analyses. Focuses on how economic methods can contribute to making better environmental decisions.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Economics | 3     |                 | Prerequisite(s): ECN 211 or 213 with C or better; ECN 212 or 214 with C or better; MAT 211 or 271 with C or better  |
| ECN     | 355         | Economics of Healthcare                        | Uses economic tools and models to discuss and evaluate the American healthcare system. Applies standard concepts in microeconomics, macroeconomics, and public choice economics to the study of the evolution and the current state of the healthcare system and to the study of proposals for change. Focuses on the promise and problems of using economic tools in a historical, ethical, and cultural context to understand the current healthcare system. | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Economics | 3     |                 | Prerequisite(s): ECN 211 or 213 with C or better; ECN 212 or 214 with C or better; MAT 211 or 271 with C or better  |
| ECN     | 360         | Economic Development                           | Theories of economic growth and development. Role of capital formation, technological innovation, population, and resource development in economic growth.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Economics | 3     | SB & G          | Prerequisite(s): ECN 211 or 213, ECN 212 or 214, and MAT 211 or 271 with C or better  |
| ECN     | 365         | Economics of Russia and Eastern Europe         | Origins and analysis of contemporary institutions. Comparative development and differentiation in the 20th century.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Economics | 3     | SB & G          | Prerequisite(s): ECN 211 or 213 with C or better; ECN 212 or 214 with C or better; MAT 211 or 271 with C or better  |
| ECN     | 382         | Managerial Economics                           | Applies economic analysis to managerial decision making. Market analysis in the context of the socio-legal environment. Does not satisfy Economics major requirements.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Economics | 3     |                 | Pre-requisites: Not open to Economics or Business majors. Minimum 2.0 ASU cumulative GPA and minimum of 56 total earned hours OR Non-degree student with minimum 2.0 ASU cum GPA OR Graduate student. |
| ECN     | 394         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | GNA           | W.P. Carey School of Business | Department of Economics | 1-4   |                 | Prerequisite(s): ECN 211 or 213 with C or better; ECN 212 or 214 with C or better; MAT 211 or 271 with C or better  |
| ECN     | 404         | History of Economic Thought                    | Development of economic doctrines, theories of mercantilism, physiocracy, classicism, neoclassicism, Marxism, and contemporary economics.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Economics | 3     | SB              | Prerequisite(s): ECN 214 or 314 with C or better; Pre- or corequisite: ECN 213 or 313   |
| ECN     | 410         | Applied Regression Analysis and Forecasting    | Applies regression techniques to forecasting in business and institutional environments.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Economics | 3     |                 | Prerequisite(s): ECN 221, ECN 231, IEE 380 or STP 226 with C or better; ECN 214 or ECN 312 with C or better   |
| ECN     | 413         | Advanced Honors Macroeconomics                 | Develops and uses various macroeconomic models to evaluate important economic policies. Emphasizes honing students' policy evaluation skills.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Economics | 3     |                 | Prerequisite(s): Barrett Honors student; ECN 213 or 313 with C or better; ECN 214 or 312 with C or better   |
| ECN     | 414         | Advanced Honors Microeconomics                 | Develops and uses various microeconomic models to evaluate important economic issues. Emphasizes the economics of uncertainty and information.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Economics | 3     |                 | Prerequisite(s): Barrett Honors student; ECN 214 or 312 with C or better; Pre- or corequisite(s): ECN 213 or 313 with C or better if completed  |
| ECN     | 416         | Game Theory and Economic Behavior              | Introduces game theory and its application to various economic situations under conditions of complete and incomplete information.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Economics | 3     |                 | Prerequisite(s): ECN 214 or 312 with C or better; Pre- or corequisite(s): ECN 213 or 313  |
| ECN     | 421         | Labor Economics                                | Labor supply and demand, unemployment, determinants of wages, earnings inequality, labor unions and the structure of labor contracts.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Economics | 3     | SB              | Prerequisite(s): ECN 214 or 312 with C or better; Pre- or corequisite: ECN 213 or 313   |
| ECN     | 423         | Economics of Education                         | Focuses on educational decisions, including individual choices, institutional strategies and government policies. Topics include measuring the costs and returns of education, the relationship between education and inequality, and the role of K-12 and postsecondary institutions in economic growth.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Economics | 3     |                 | Prerequisite(s): ECN 214 or 312 with C or better; Pre- or corequisite(s): ECN 213 or 313; Credit is allowed for only ECN 423 or 494 (Economics of Education)  |
| ECN     | 425         | Introduction to Econometrics                   | Elements of regression analysis: estimation, hypothesis tests, prediction. Emphasizes use of econometric results in assessment of economic theories.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Economics | 3     |                 | Prerequisite(s): ECN 221, ECN 231, IEE 380 or STP 226 with C or better; ECN 214 or 312 with C or better   |
| ECN     | 436         | International Trade Theory                     | Comparative-advantage doctrine, including practices under varying commercial policy approaches. Economic impact of international disequilibrium.   | N                 | LEC               | N               | GNA           | W.P. | ECN     | 498         | Pro-Seminar   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | SEM               | Y               | GNA           | W.P. Carey School of Business | Department of Economics | 1-7   |                 | Prerequisite(s): ECN 313 and 312 with C or better   |
| ECN     | 499         | Individualized Instruction  | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | W.P. Carey School of Business | Department of Economics | 1-3   |                 |   |
| ECN     | 502         | Decisions, Market Structure and Games: Managerial Economics           | Applies microeconomic analysis to managerial decision making in areas of demand, production, cost, and pricing. Evaluates competitive strategies.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Economics | 2-4   |                 | Prerequisite(s): MBA degree program student; Credit is allowed for only ECN 502 or FIN 535  |
| ECN     | 503         | Global Business Environment   | Macroeconomic analysis of issues related to economic growth, inflation, interest rates behavior, unemployment, exchange rate determination, and global competitiveness.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Department of Economics | 1-4   |                 | Prerequisite(s): MBA degree program student   |
| ECN     | 504         | Basics of Decisions, Market Structure and Games: Managerial Economics | Applies microeconomic analysis to managerial decision making in areas of demand, production, cost and pricing. Evaluates competitive strategies. Designed for students with limited business experience and without an undergraduate business degree.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Economics | 3     |                 | Prerequisite(s): ASU degree-seeking graduate student  |
| ECN     | 510         | Microeconomic Theory and Applications                                 | Applies economic theory to production, consumer demand, exchange, and pricing in a market economy.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Department of Economics | 2-4   |                 | Pre-requisites: W.P. Carey degree seeking graduate student  |
| ECN     | 525         | Applied Regression Models   | Simple linear regression, multiple regression, indicator variables, and logistic regression. Emphasizes business and economic applications.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Department of Economics | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECN     | 527         | Categorical Data Analysis   | Discrete data analysis in business research. Multidimensional contingency tables and other discrete models.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Department of Economics | 3     |                 | Pre-requisites: ECN 525   |
| ECN     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Economics | 1-12  |                 | Pre-requisites: W.P. Carey degree seeking graduate student  |
| ECN     | 590         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Economics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECN     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | W.P. Carey School of Business | Department of Economics | 1-12  |                 | Pre-requisites: W.P. Carey degree seeking graduate student  |
| ECN     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | W.P. Carey School of Business | Department of Economics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECN     | 593         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Economics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECN     | 594         | Conference and Workshop   | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | Z2            | W.P. Carey School of Business | Department of Economics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECN     | 595         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | W.P. Carey School of Business | Department of Economics | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECN     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Economics | 1-4   |                 | Prerequisite(s): W.P. Carey degree seeking graduate student; ECN 712 and ECN 714 with C or better                                   |
| ECN     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | W.P. Carey School of Business | Department of Economics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECN     | 690         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Economics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECN     | 691         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | W.P. Carey School of Business | Department of Economics | 1-12  |                 | Pre-requisites: W.P. Carey degree seeking graduate student  |
| ECN     | 692         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Economics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECN     | 695         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | W.P. Carey School of Business | Department of Economics | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECN     | 700         | Research Methods  | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Economics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECN     | 711         | Macroeconomic Analysis I  | Current theories of output, employment, inflation, and asset prices as well as major aggregates. Introduces dynamic optimization techniques.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Department of Economics | 3     |                 | Pre-requisites: W.P. Carey degree seeking graduate student  |
| ECN     | 712         | Microeconomic Analysis I  | Theory of production, consumer demand, resource use, and pricing in a market economy.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Department of Economics | 3     |                 | Pre-requisites: W.P. Carey degree seeking graduate student  |
| ECN     | 713         | Macroeconomic Analysis II   | Focuses on growth theory, dynamic general equilibrium models, monetary theory, open-economy issues.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Department of Economics | 3     |                 | Pre-requisites: W.P. Carey degree seeking graduate student  |

Carey degree seeking graduate student; ECN 711 and 712 with C+ or better; Co-requisite: ECN 713 and 714  |
| ECN     | 770         | Mathematics for Economists                                 | Surveys mathematical ideas encountered in economics and econometrics. Topics include measure theory, probability theory, and mathematical statistics.  | N                 | LEC               | N               | OPT           | W.P. Carey School of Business  | Department of Economics         | 3     |                 | Pre-requisites: W.P. Carey degree seeking graduate student  |
| ECN     | 784         | Internship   |  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business  | Department of Economics         | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECN     | 790         | Reading and Conference                                     | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business  | Department of Economics         | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECN     | 791         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | SEM               | Y               | OPT           | W.P. Carey School of Business  | Department of Economics         | 1-12  |                 | Pre-requisites: W.P. Carey degree seeking graduate student  |
| ECN     | 792         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | W.P. Carey School of Business  | Department of Economics         | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECN     | 795         | Continuing Registration                                    | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.            | Y                 | RSC               | Y               | Z3            | W.P. Carey School of Business  | Department of Economics         | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECN     | 799         | Dissertation   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | W.P. Carey School of Business  | Department of Economics         | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ECS     | 310         | Foundations in Typical / Atypical Child Development        | Examines the process of typical and atypical physical, social, emotional, cognitive, and language development of young children with or at risk for delay.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): minimum junior standing  |
| ECS     | 312         | Social and Emotional Development of the Young Child        | Examines genetic, environmental and biological influences on typical and atypical social and emotional developmental processes through current research, current issues, as well as connections to practice.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     | SB              | Prerequisite(s): Professional Teacher Preparation Program student OR Educational Studies BAE student; minimum junior standing OR Early Childhood minor OR Educational Studies minor |
| ECS     | 315         | Classroom Organization and Child Guidance                  | Develops and implements analysis, intervention, and consultation strategies for effective management of classroom behavior for students with and without disabilities. Age-appropriate techniques addressing individual, social, and academic competence.  | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): minimum junior standing  |
| ECS     | 316         | Assessment/Evidence-based Practice                         | Examines assessments appropriate to birth - grade 3 instruction to align curriculum with learner needs. Focuses on test design, interpretation, lesson design, and aspects related to multiple classroom and formal assessments. Introduces designing, conducting, interpreting, and reporting teacher research; methods of research and fieldwork with children to improve teaching practices and child outcomes. | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): minimum junior standing  |
| ECS     | 321         | Communication, Language Development, and Emergent Literacy | Language and literacy development; language acquisition; methods of facilitating oral language in relation to emergent reading and writing; methods of facilitating early literacy development; clinical observation.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): minimum junior standing  |
| ECS     | 340         | Creative Curriculum for Children Birth to 8                | Provides an overview of research and curricular strategies for preschool classrooms, including best practices for classroom design, management, scheduling and lesson development. A comprehensive, research-based curriculum that features exploration and discovery as a way of learning.  | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): minimum junior standing  |
| ECS     | 394         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 1-4   |                 |   |
| ECS     | 397         | Student Teaching: Inclusive Early Childhood (Ages Birth-5) | Student teaching in early childhood education inclusive classrooms ages birth to 5: synthesized experience in curriculum, instruction, assessment and classroom management.  | N                 | PRA               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 1-4   |                 | Prerequisite(s): admission to the Professional Program  |

|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|--|
| ECS     | 411         | Instructional Methodologies for Young Children: STEM  | Explores, applies and integrates STEM (Science, Technology, Engineering and Math) content, project-enhanced instructional strategies and assessments.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): admission to the Professional Program   |
| ECS     | 412         | Mathematics Curriculum, Instruction and Assessment  | Focuses on math content, methods, skills, and attitudes to be considered in teaching young children. Examines the theoretical foundation for young children's inquiry and learning. Methods focus on practical application of theory in classroom practice.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): admission to the Professional Program   |
| ECS     | 413         | Literacy Curriculum, Instruction and Assessment   | Extends ECD 321; language and literacy development in K-3 classrooms; language acquisition; methods of facilitating oral language in relation to emergent reading and writing; methods of facilitating early literacy development; clinical experience.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     | L               | Prerequisite(s): admission to the Professional Program   |
| ECS     | 420         | Evaluation and Intervention Strategies for Infants, Toddlers and Preschoolers with Disabilities | Students will learn to screen, assess and provide services to young children with special needs using norm-referenced, criterion-referenced, and formative assessments to determine special education eligibility, plan individualized family service programs, and monitor progress for eligible students.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): minimum junior standing   |
| ECS     | 430         | Systems, Policy, and Advocacy in Early Childhood/Special Education                              | Social policies at the national and state levels; values and assumptions of policies; political factors shaping policy and implementation; links among policy, educational practice, schools, and family functioning that have a direct impact on both typical and special needs children in early childhood programs.  | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): admission to the Professional Program   |
| ECS     | 431         | Family, Community and Professional Support Systems  | Covers methods and issues in cooperative teaching for special education students in general education classrooms, with an emphasis on collaborative communication skills for working with a variety of school professionals and families.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): admission to Professional Teacher Preparation Program or enrolled in Educational Studies program or enrolled in Early Childhood minor |
| ECS     | 478         | Student Teaching: Special Education (Grades K-3)  | Student teaching in early childhood education inclusive classrooms grades K-3: synthesized experience in curriculum, instruction, assessment and classroom management.  | N                 | PRA               | Y               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-6   |                 | Prerequisite(s): admission to the Professional Program   |
| ECS     | 499         | Individualized Instruction  | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-3   |                 |  |
| ECT     | 479         | Capstone Seminar in ECT   | Reflective, experience-based integration of theory and practice; professional development for preschool through grade 3 teachers.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): admission to the Professional Program   |
| EDA     | 499         | Individualized Instruction  | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-3   |                 |  |
| EDA     | 501         | Competency/Performance in Educational Administration  | Nature of educational administration and the concept of competency as it applies to educational administration.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 505         | American Education System   | Political, social, historical, and philosophical analyses of American education at all levels. Examines primary sources, legal findings, and case studies.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 511         | School Law  | Interpreting state and federal law and policy in school settings. Includes statutory authority for administrators, liability, constitutional rights, law, and ethics.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 514         | Leadership in Curriculum and Assessment   | Curriculum and assessment responsibilities of school administrators.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 526         | Instructional Supervision   | Administering curriculum improvement, in-service education, evaluating, and improving teaching competence; administrative instructional responsibilities.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 548         | School, Family, and Community Connections   | Administrative factors of primary importance in developing community involvement in public schools. Emphasizes theory and skill of school system and individual communication.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 572         | School Finance and Human Resources  | Effective ethical models and strategies for organizing and administering the conduct of school site human resources administration and school financial affairs.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 578         | Critical Issues in Educational Leadership   | Explores current critical issues in school leadership, including student support and relationships with governmental agencies and the community.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 583         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 590         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 593         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 594         | Conference and Workshop   | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDA     | 595         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department                                    | Units | General Studies | Requirements  |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|---|
| EDA     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 611         | Educational Policy and the Law  | Emphasizes policy analysis and application of federal and state law to policy evaluation and development in public schools.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 634         | Instructional Leadership  | Theory, practice, and issues in school change and reform with a focus on leading change efforts at the school site.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 676         | The School Superintendency  | Critical examination of the school superintendency and the primary functions of this educational position. Includes the duties, responsibilities, activities, and problems of the school superintendent. Examines the unique leadership role of the school superintendent.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 679         | Administration of Special Programs in Education                               | For personnel administering special education and federal programs; responsibilities of principals, supervisors, counselors, and directors for special education and federally funded programs.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 680         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 683         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 684         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 685         | Education in Global Contexts  | Global perspectives on education in contemporary society with emphasis on social, political, and economic factors that affect access and equity.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3-6   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 690         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 691         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 692         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 693         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 695         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 700         | Research Methods  | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 701         | Advanced Quantitative Methods   | Data collection, analysis, interpretation in studies using quantitative methods of inquiry situated in action research, evaluation and data-informed decision making.   | N                 | LEL               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): Leadership and Innovation EdD student; Credit is allowed for only EDA 701 or TEL 701 |
| EDA     | 702         | Dynamic Contexts of Education   | Explores current ethical issues influencing leadership decisions with a focus on real problems in the educational setting.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): Leadership and Innovation EdD student; Credit is allowed for only EDA 702 or TEL 702 |
| EDA     | 703         | Innovation in Teaching and Learning   | Development and psychological processes of human cognition, motivation, and performance applied to cognitively diverse, English language learners, adult professional development.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): Leadership and Innovation EdD student; Credit is allowed for only EDA 703 or TEL 703 |
| EDA     | 704         | Leadership for Organizational Change  | Develops understanding of dynamic and systemic nature of organizations, with emphasis on leadership for building organizational capacity and learning.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): Leadership and Innovation EdD student; Credit is allowed for only EDA 704 or TEL 704 |
| EDA     | 772         | School District Human Resources and Business Management                       | Effective ethical models and strategies for organizing and administering the conduct of school site human resources administration and business affairs.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 773         | The Superintendency and School District Leadership Roles and Responsibilities | Examines management roles and responsibilities of public school district superintendents and other leaders in identifying and addressing critical issues.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 780         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 783         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 784         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 790         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 791         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDA     | 792         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| EDP     | 454         | Statistical Data Analysis in Education                | Role of data analysis in research and decision making. Elements of exploratory data analysis, descriptive indexes, and statistical inference.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     | CS              |  |
| EDP     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-12  |                 |  |
| EDP     | 492         | Honors Directed Study                                 | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| EDP     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| EDP     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-4   |                 |  |
| EDP     | 499         | Individualized Instruction                            | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-3   |                 |  |
| EDP     | 502         | Introduction to Data Analysis                         | Descriptive statistics, visual approaches, estimation, and inferential methods for univariate and bivariate educational research problems. Experience using statistical software.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 503         | Introduction to Qualitative Research                  | Terminology, historical development, approaches (including ethnography, ethnomethodology, critical theory, grounded theory, and hermeneutics), and qualitative versus quantitative social sciences; methods of inquiry.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 504         | Learning and Instruction                              | Introduces psychology of learning and instruction. Includes the foundations of learning theories and their application to educational practice.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 510         | Psychology in Education                               | Planning and conducting effective instruction based on learning theories and principles.  | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDP     | 514         | Psychology of the Adolescent                          | Cognitive, physical, and social development of adolescents in contemporary society. Impact of family, school, and workplace on adolescent development.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 523         | Educational Assessment                                | Increases teachers' and others' competence in classroom assessment, grading, and testing. Emphasizes integration of curriculum, instruction, and assessment.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDP     | 529         | Lifespan Human Development                            | Issues and models of human development as it occurs across the lifespan.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite(s): degree- or nondegree-seeking graduate student  |
| EDP     | 530         | Theoretical Issues and Research in Human Development  | Psychological theories, research, and methods relevant to human development, emphasizing the relations between early development and later performance.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 536         | Physiology of Behavioral Disorders                    | Critical study of nervous system, brain function for fundamental behaviors, and system dysfunctions in mental/neurological disorders.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 540         | Learning Theories and Instructional Strategies        | Studies grounded instructional strategies rooted in established theories of learning to form the basis of building instruction. Explores how teaching, learning and performing can be designed via technological environments to support instruction.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate student; Credit is allowed for only EDP 540 or LSE 540 |
| EDP     | 541         | Motivating Students to Learn                          | Examines multiple perspectives on motivation and the management of learning environments as bases for reflecting on educational practice.   | N                 | SEM               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student  |
| EDP     | 552         | Multiple Regression and Correlation Methods           | Educational applications of regression techniques. Quantitative and qualitative predictors, curvilinear trends, and interactions. Emphasizes analyzing data and interpreting results.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 554         | Analysis-of-Variance Methods                          | Educational applications of ANOVA techniques. Between- and within-subjects designs, multiple comparisons. Emphasizes using statistical software and interpreting results.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 563         | Consultation and Supervision                          | Examines consultation and supervision research relevant to school psychology practice.  | N                 | SEM               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student  |
| EDP     | 566         | Advanced Psychoeducational Practice                   | Develops advanced knowledge and skills in psychoeducational assessment and intervention with an emphasis on case conceptualization and evidence-based methods.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisites: EDP 560 and 562 with B or better   |
| EDP     | 567         | School Psychological Services for Diverse Populations | Examines historical, legal, ethical, and practical issues involved in the delivery of school psychological services to diverse populations.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 568         | Psychological Assessment and Intervention             | Skills-building course emphasizing interventions, assessment, and outcome-based educational decisions for students experiencing emotional and/or behavioral difficulties.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student  |
| EDP     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDP     | 583         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department                                    | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|--|
| EDP     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 590         | Reading and Conference                               | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 593         | Applied Project                                      | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 594         | Conference and Workshop                              | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 595         | Continuing Registration                              | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.                     | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 597         | Applied Research and Reflection                      | The dual purpose of the project is to synthesize learning from multiple areas of scholarship on teaching and learning, and to reflect on the content and process of the master's degree program. Culminating product includes a reflective paper with a corresponding project, such as a literature review, curricular model, technology product, or other project as agreed upon by the student and the student's advisor. | N                 | SEM               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDP     | 598         | Special Topics                                       | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-4   |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 651         | Methods and Practices of Qualitative Research        | Advanced course for students familiar with theory and extant work. Topics include data collection, analysis, reporting, and an extensive fieldwork project.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): COE 503 with C or better  |
| EDP     | 652         | Multivariate Procedures for Data Analysis            | Educational applications of multivariate methods, including MANOVA, discriminant analysis, and exploratory factor analysis. Emphasizes analyzing data and reporting results.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 654         | Structural Equation Modeling in Educational Research | Educational applications of confirmatory factor analysis, path analysis, and full latent variable models. Experience in conducting analyses and reporting results.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 680         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 683         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 684         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 690         | Reading and Conference                               | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 692         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 693         | Applied Project                                      | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 700         | Research Methods                                     | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDP     | 780         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 783         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 784         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 790         | Reading and Conference                               | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 791         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department                                    | Units | General Studies | Requirements   |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|--|
| EDP     | 792         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-15  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 795         | Continuing Registration                                 | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDP     | 799         | Dissertation  | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-15  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EDS     | 191         | First-Year Seminar                                      | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 1-3   |                 | Pre-requisites: Freshman standing, Maximum 25 hours  |
| EDS     | 194         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 1-4   |                 |  |
| EDS     | 200         | Design Literacy and Communication                       | Builds the requisite skills for students to be able to express their ideas visually. Gives exercises to create an understanding of basic principles of design as well as design communication, principles of composition and aesthetic evaluation. Uses tools such as sketching, drawing, computer graphics and model making as a vehicle to develop an understanding of visual methods of expressing one's self.  | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 | Prerequisite(s): Environmental Design or The Arts (Fashion Design) major   |
| EDS     | 201         | Fundamentals of Sustainability in Design                | Explores sustainability as it relates to the key disciplines that comprise environmental design. Topics range from issues affecting the preservation of the urban fabric to the development of earth-friendly materials used by interior designers and product designers to the design of sustainable buildings by architects through the use of appropriate materials and requisite energy efficiencies. Surveys the literature of sustainability, identifying critical issues on the subject today. Explores the theoretical underpinnings of the sustainability movement as it affects environmental design and related disciplines.  | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 |  |
| EDS     | 223         | Design Thinking   | Introduces the notion of design thinking, a concept that is gaining significant recognition in several disciplines including art, design, business, engineering and others. Design thinking can be described as a creative, multidisciplinary, human-centered approach to solving complex problems. Contemporary society faces numerous challenges, and the need for new tools and methods to tackle and solve these problems is more pressing than ever before. Offers several new techniques of design thinking and creative problem solving through engaging lectures and exciting projects.  | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 |  |
| EDS     | 294         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 1-4   |                 |  |
| EDS     | 301         | Contemporary Issues in Design Strategies and Innovation | Covers theories and methods needed in design, innovation and management of environmental design projects. Uses best practices and case studies related to the design of artifacts and to the design of built environments as a vehicle to develop students' understanding of different aspects of environmental design in a real-world setting. Also discusses the impact of contemporary issues such as globalization, digital tools, global connectivity on the theories and practice of environmental design.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 | Pre- or corequisite(s): EDS 200  |
| EDS     | 302         | Design Inquiry and Undergraduate Research               | Theories and methods of design inquiry within a research environment. Prepares students for the senior-year synthesis courses. Students take on design-related research and develop and write a proposal for an integrative experience/project for an environmental design intervention and make an implementation plan to realize this intervention.  | N                 | RSC               | N               | GNA           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 | Pre-requisite: EDS 301   |
| EDS     | 394         | Special Topics  |  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 1-4   |                 |  |
| EDS     | 401         | Environmental Design Synthesis I                        | First of a two-semester sequence of synthesis courses intended to be integrative, based on design research and inquiry. Serves as a culminating experience where, through the successful completion of an environmental design research project/application or experience, students demonstrate their understanding and synthesis of the knowledge and skills they have acquired in the program. Students identify a relevant research problem in environmental design and undertake the necessary literature search and reading regarding theories and methods related to the selected research question. Emphasizes the use of visual methods as a method of inquiry and research. | N                 | RSC               | N               | GNA           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 | Prerequisite(s): GRA 440 with C or better  |
| EDS     | 402         | Environmental Design Synthesis II                       | Second of a two-semester sequence of synthesis courses intended to be integrative, based on design research and inquiry. Serves as a culminating experience where, through the successful completion of an environmental design research project/application or experience, students demonstrate their understanding and synthesis of the knowledge and skills they have acquired in the program. Students implement the research study identified in the first semester of the two-semester sequence. Emphasizes the use of visual methods as a method of inquiry and research.   | N                 | RSC               | N               | GNA           | Herberger Inst Design & Arts   | The Design School                             | 3     |                 | Pre-requisite: EDS 401   |
| EDS     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School                             | 1-12  |                 |  |
| EDS     | 492         | Honors Directed Study                                   | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.  | N                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School                             | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| EDS     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | RSC               | N               | Z1            | Herberger Inst Design & Arts   | The Design School                             | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| EDS     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 1-4   |                 |  |
| EDS     | 498         | Pro-Seminar   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts   | The Design School                             | 1-7   | L               |  |

| EDS     | 499         | Individualized Instruction   | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.  | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts   | The Design School               | 1-3   |                 |  |
| EDT     | 180         | Technology Literacy: Problem Solving using Digital Technology Applications | Introducing digital technologies and their place in society. Applies 21st-century skills to problem solving using digital technology applications including spreadsheets and databases.  | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     | CS              | Credit is allowed for only EDT 180 or EDT 321  |
| EDT     | 184         | Modeling, Inquiry, & Analysis Using Technology Tools                       | Project-based course as an overview of modeling, simulation, statistics, probability, and the role of technology in education, business and personal. Investigates exploration and presentation of emerging technology along with their acquisition, use, and implementation into society. Course includes the use of software programs and online simulations for scientific investigation, internet research, data collection, visual representation of data, probability, measures of central tendency, Action Research, 3D modeling, and Web page design.  | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 |  |
| EDT     | 210         | Games, Technology and Society  | Introduces the role and significance of digital games in society and the process of designing games for impact in areas such as education, healthcare and social activism. Explores general theories about the relationship between technology and society, using games as examples, as well as develops a better understanding of methods that take a systemic, contextualized approach to designing games for impact.  | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 |  |
| EDT     | 220         | Understanding Games for Impact   | Explores the nature of learning in and around games designed for entertainment as well as games designed intentionally for impact. Students gain familiarity with current research on course topics; develop a language for reflection on the cognitive, sociocultural and educational merits and drawbacks of game-centered learning environments; and gain new insights into the ways in which digital playspaces and pastimes shape how people think and learn. Develops the ability to analyze learning in games and game-related social contexts, using different theoretical perspectives and tools.   | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): ENG 101, ENG 105, or ENG 107 with C or better   |
| EDT     | 294         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 1-4   |                 |  |
| EDT     | 310         | Games for Impact: The Full Life Cycle                                      | Focuses on the complete life cycle of impact games, from perceived need through design to evaluating impact. Highlights ethics of game-based learning, unintended consequences of impact interventions, and how to involve stakeholders in the design process. Students collaboratively workshop an original impact game concept and publishing plan to address a key 21st-century challenge.  | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): junior or senior standing   |
| EDT     | 321         | Computer Literacy: Mobile Technologies and Your World                      | Uses mobile technologies across disciplines for communication, collaboration, creativity and problem solving. Employs digital tools including Microsoft Office's spreadsheets and databases, Google apps, mobile apps, and a variety of other Web-based tools in problem-based environments.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     | CS              | Pre-requisite: Minimum 45 hours; Credit is allowed for only EDT 180 or EDT 321   |
| EDT     | 329         | Games, Simulations, and Virtual Environments                               | Focuses on the use of Gaming, Simulations, and Virtual Environments (GS/VE) in education and instruction. Examines how educational professionals and other practitioners can leverage students interests in digital culture to accelerate their learning. Participants explore the foundational, social, and cultural implications of these new media and the power they hold to engage learners in new ways. Discusses historical overview of GS/VE with an emphasis on educational applications. Analyzes the distinctive features of GS/VE from different pedagogical, psychological (cognitive/emotional), social, and entertainment perspectives. Participants learn how to analyze the design of games, simulations, and virtual environments, creating evaluative criteria for the selection of products in educational environments. | N                 | LEL               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 |  |
| EDT     | 340         | Designing Games for Impact   | Introduces concepts, methods, techniques and issues associated with designing interactive, game-centered experiences that are developed through a lens of impact. As a cumulative project, students create and test a digital game or game-based experience that demonstrates understanding of impact models and learning science principles.  | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): junior or senior standing   |
| EDT     | 394         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation | 1-4   |                 |  |
| EDT     | 440         | Creating and Marketing Mobile Apps   | Focuses on conceptualizing, creating and marketing of apps for mobile devices.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): minimum 45 hours; Credit is allowed for only EDT 440 or EDT 494 (Creating and Marketing Mobile Apps) or EDT 540 |
| EDT     | 460         | Games, Technology and Society  | Education, healthcare and social activism. Explores general theories about the relationship between technology and society using games as examples, as well as develops a better understanding of methods that take a systemic, contextualized approach to designing games for impact. Students play and analyze existing impact games as well as conduct a landscape analysis for an impact game on a topic of their own choosing.  | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Pre-requisite: Junior or Senior standing; Credit is allowed for only EDT 460 or 560  |
| EDT     | 461         | Understanding Games for Impact   | Explores the nature of learning in and around games designed for entertainment as well as games designed intentionally for impact. Students gain familiarity with current research on course topics; develop a language for reflection on the cognitive, sociocultural and educational merits and drawbacks of game-centered learning environments; and gain new insights into the ways in which digital playspaces and pastimes shape how people think and learn. Develops the ability to analyze learning in games and game-related social contexts, using different theoretical perspectives and tools.   | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): minimum junior standing   |
| EDT     | 462         | Designing Games for Impact   | Concepts, methods, techniques and issues associated with designing interactive, game-centered experiences that are developed through a lens of impact. As a cumulative project, students create and test a digital game or game-based experience that demonstrates understanding of impact models and learning science principles.   | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation | 3     |                 | Prerequisite(s): minimum junior standing   |

| EDT     | 463         | Games for Impact: The Full Life Cycle                | Presents an impact game publishing methodology covering the full life cycle and key considerations for impact game design, development and publishing as well as the unique challenges in making games for impact. Applies methodology to examine an existing impact game currently in development. Students collaboratively workshop an original impact game concept and publishing plan that harnesses the power of games to address a key 21st-century challenge.   | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): junior or senior standing. Credit is allowed for only EDT 463 or EDT 563   |
| EDT     | 494         | Special Topics                                       | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-4   |                 |   |
| EDT     | 499         | Individualized Instruction                           | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.  | N                 | IND               | N               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-3   |                 |   |
| EDT     | 501         | Foundations of Learning Design and Technologies      | Foundations and evolution of the field of learning design and technology; examines accomplishments and issues in the field and explores possible career paths.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate   |
| EDT     | 502         | Design and Development of Instruction                | Centers on the design and development of competency-based instructional materials, based on a variety of instructional design models, for learning in a multitude of settings.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate   |
| EDT     | 503         | Design of Effective Communications                   | Explores the theory, research and practice of computer-mediated communication including principles of graphic design for the purposes of creating effective presentations, job aids/infographics and video/audio for educational purposes. Includes a focus on accessibility and Section 508 compliance.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): EDP 540; EDT 501; EDT 502; degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate  |
| EDT     | 504         | Modalities of Learning                               | Focuses on the development, design and creation of various forms of Web-based instruction including blended, hybrid and online learning. Examines the characteristics of interactive media, synchronous and asynchronous forms of distance/online learning, eLearning software and project management.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): EDP 540; EDT 501; EDT 502; degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate  |
| EDT     | 506         | Evaluation of Learning Systems                       | Examines procedures for evaluating educational programs, training systems and new-technology applications. Focuses on basic evaluation concepts, steps in conducting a systematic evaluation project, the preparation of an evaluation report, as well as ethical issues.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): EDP 540 or EDT 501 or EDT 502; degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate; Credit is allowed for only CED 525 or EDT 506 |
| EDT     | 507         | Performance Improvement and Leadership               | Introduces the field of human performance technology. Emphasizes the analysis of performance problems, their causes, and interventions.  | N                 | SEM               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate   |
| EDT     | 523         | Issues in Online and Distance Education              | Investigates current issues and trends specific to the implementation of web-based teaching and learning as well as practices for effective online instruction. Examines online learning principles, practices and their effectiveness by exploring the use of related systems and applications.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate; EDP 540; EDT 501; EDT 502  |
| EDT     | 524         | Principles and Issues in K-12 Online Learning        | Examines current issues, policies, and trends pertaining to K-12 Web-based teaching and learning. Actively explores research related to online learning, with a focus on virtual schooling and emerging best practices for effective online instruction.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Practicing or licensed K-12 teacher  |
| EDT     | 530         | Technology Integration Methods across the Curriculum | Examines a constructivist approach to technology in education. Investigates technology as a catalyst for rethinking instructional goals and practices.   | Y                 | LEL               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDT     | 540         | Creating and Marketing Mobile Apps                   | Focuses on conceptualizing, creating and marketing of apps for mobile devices.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only EDT 440 or EDT 494 (Creating and Marketing Mobile Apps) or EDT 540                   |
| EDT     | 545         | Using the Internet in Education                      | Explores the Internet as an educational tool for research, inquiry-based learning, and online learning communities. Incorporates constructivist theory.  | N                 | LEL               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EDT     | 560         | Games, Technology and Society                        | The role and significance of digital games in society and the process of designing games for impact in areas such as education, healthcare and social activism. Explores general theories about the relationship between technology and society, using games as examples, as well as develops a better understanding of methods that take a systemic, contextualized approach to designing games for impact.   | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only EDT 460 or EDT 560   |
| EDT     | 561         | Understanding Games for Impact                       | Explores the nature of learning in and around games designed for entertainment as well as games designed intentionally for impact. Students gain familiarity with current research on course topics; develop a language for reflection on the cognitive, sociocultural and educational merits and drawbacks of game-centered learning environments; and gain new insights into the ways in which digital playspaces and pastimes shape how people think and learn. Develops the ability to analyze learning in games and game-related social contexts, using different theoretical perspectives and tools. | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only EDT 461 or EDT 561   |
| EDT     | 562         | Designing Games for Impact                           | Concepts, methods, techniques and issues associated with designing interactive, game-centered experiences that are developed through a lens of impact. As a cumulative project, students create and test a digital game or game-based experience that demonstrates understanding of impact models and learning science principles.   | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only EDT 462 or EDT 562   |
| EDT     | 563         | Games for Impact: The Full Life Cycle                | Focuses on the complete life cycle of impact games, from perceived need through design to evaluating impact. Highlights ethics of game-based learning, unintended consequences of impact interventions, and how to involve stakeholders in the design process. Students collaboratively workshop an original impact game concept and publishing plan to address a key 21st-century challenge.  | N                 | LEL               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only EDT 463 or EDT 563   |
| EDT     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): EDT 501, 502, and 503 with C or better   |

|---------|-------------|------------------------------------|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|--|
| EDT     | 590         | Reading and Conference             | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDT     | 591         | Seminar                            | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDT     | 593         | Applied Project                    | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | N                 | LEC               | N               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): EDP 540; EDT 501; EDT 502; degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate   |
| EDT     | 594         | Conference and Workshop            | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDT     | 595         | Continuing Registration            | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDT     | 598         | Special Topics                     | Topical courses not offered in regular course rotation—e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-4   |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDT     | 680         | Practicum                          | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate  |
| EDT     | 683         | Fieldwork                          | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisites: Accepted in either the MED in EDTCH, PHD in EDTECH, or the certificate in EDTECH programs  |
| EDT     | 684         | Internship                         | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | N                 | PRA               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisites: Accepted in either the MED in EDTCH, PHD in EDTECH, or the certificate in EDTECH programs  |
| EDT     | 690         | Reading and Conference             | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | N                 | IND               | N               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDT     | 691         | Seminar                            | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDT     | 695         | Continuing Registration            | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDT     | 701         | Research in Educational Technology | Review and analysis of research studies in educational technology. Methodology for designing, conducting, and reporting educational technology research.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): EDT 501 with C or better; EDT 502 with C or better  |
| EDT     | 704         | Emerging Technologies in Education | Examines the role and impact of emerging technologies in education.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student; Credit is allowed for only EDT 591 (Emerging Technologies in Education) or 704 |
| EDT     | 780         | Practicum                          | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): EDT 502 with C or better  |
| EDT     | 783         | Fieldwork                          | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisites: Accepted in either the MED in EDTCH, PHD in EDTECH, or the certificate in EDTECH programs  |
| EDT     | 784         | Internship                         | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): EDT 501, 502, and 503 with C or better  |
| EDT     | 790         | Reading and Conference             | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EDT     | 791         | Seminar                            | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EDT     | 792         | Research                           | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-15  |                 | Prerequisite(s): EDT 701 with C or better  |

| EED     | 324         | Social Studies in Elementary Schools                   | Provides strategies for integrating social studies content knowledge with other curricular areas. Addresses a variety of issues related to social studies instruction in the elementary school, with an emphasis on valuing diverse cultures and experiences within historical and geographical perspectives. Emphasizes meeting the academic and linguistic needs of all learners including English language learners. Explores instructional materials, technology tools and social studies programs. | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): admission to the Professional Program   |
| EED     | 394         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-4   |                 |  |
| EED     | 396         | Clinical Experience I                                  | Applies course content in elementary education classrooms grades 1-8: emphasizes observation, pupil management, planning and delivery of instruction, and assessment.   | N                 | PRA               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-2   |                 | Prerequisite(s): admission to the Professional Program   |
| EED     | 397         | Clinical Experience II                                 | Applies course content in elementary education classrooms grades 1-8: emphasizes observation, pupil management, planning and delivery of instruction, and assessment.   | N                 | PRA               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-2   |                 | Prerequisite(s): admission to the Professional Program   |
| EED     | 411         | Science in Elementary Schools                          | Science education standards, curriculum, instructional and assessment strategies for all children.  | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): admission to the Professional Program; Credit is allowed for only EED 411 or SCN 411            |
| EED     | 411         | Science in Elementary Schools                          | Science education standards, curriculum, instructional and assessment strategies for all children.  | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): admission to the Professional Program; Credit is allowed for only EED 411 or SCN 411            |
| EED     | 411         | Science in Elementary Schools                          | Science education standards, curriculum, instructional and assessment strategies for all children.  | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): admission to the Professional Program; Credit is allowed for only EED 411 or SCN 411            |
| EED     | 411         | Science in Elementary Schools                          | Science education standards, curriculum, instructional and assessment strategies for all children.  | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): admission to the Professional Program; Credit is allowed for only EED 411 or SCN 411            |
| EED     | 412         | Mathematics in Elementary Schools                      | Methods of teaching mathematics to all students at the K-8 level, instructional planning and assessment.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): admission to the Professional Program; Credit is allowed for only EED 412 or MTE 412 or SPE 410 |
| EED     | 433         | Language Method Management and Assessment              | Theory on the social nature of oral and written language and congruent teaching, management and assessment practices. Emphasizes skills, strategies and dispositions for teaching 21st-century multimodal literacies to diverse learners including ELL with a focus on learners as creators of content, communicators, collaborators and global citizens.   | N                 | LEL               | N               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3     |                 | Prerequisite(s): admission to the Professional Program   |
| EED     | 478         | Student Teaching: Elementary School (Grades 1-8)       | Student teaching in elementary education classrooms grades 1-8: synthesized experience in curriculum, instruction, assessment and classroom management.   | N                 | PRA               | Y               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 3-15  |                 | Prerequisite(s): admission to the Professional Program   |
| EED     | 492         | Honors Directed Study                                  | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| EED     | 493         | Honors Thesis  | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| EED     | 494         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-4   |                 |  |
| EED     | 497         | Honors Colloquium                                      | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | N                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| EED     | 499         | Individualized Instruction                             | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.     | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-3   |                 | Prerequisite(s): admission to the Professional Program   |
| EED     | 500         | Research Methods                                       | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EED     | 511         | Curriculum Theory and Instructional Planning           | Contemporary curriculum theories. Curriculum as an interrelated entity. Process for instructional planning for student understanding and achievement.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EED     | 521         | Instructional Planning for the Diverse Classroom       | Planning and delivering instruction; making adaptations for English language learners and students with special needs.  | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EED     | 524         | Social Studies Methods and Assessment                  | Provides strategies for integrating social studies content knowledge with other curricular areas. Addresses a variety of issues related to social studies instruction in the elementary school, with an emphasis on valuing diverse cultures and experiences within historical and geographical perspectives. Emphasizes meeting the academic and linguistic needs of all learners including English language learners.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EED     | 526         | Communication Arts in the Elementary School            | Critical examination of school language arts teaching, focusing on theoretical assumptions regarding oral- and written-language development.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EED     | 529         | Science Methods and Assessment                         | Problems and trends of current programs. Development of a balanced and articulated science program.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EED     | 531         | Teaching with Educational Technology                   | Focuses on using technology in K-12 classrooms. Addresses the integration of technology in all curricular areas for all students.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EED     | 537         | Mathematics Methods and Assessment                     | Contemporary mathematics teaching. Content, materials, and approaches to instruction.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student or undergraduate postbaccalaureate student        |
| EED     | 550         | Elementary Methods in Content Areas                    | Advanced level of development of knowledge and skills of instructional planning and methods of teaching and evaluating in elementary schools.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only EED 550 or SPE 504    |
| EED     | 567         | Clinical Experience I                                  | Applies course content in elementary education classrooms grades 1-8: emphasizes observation, pupil management, planning and delivery of instruction, and assessment.   | N                 | PRA               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EED     | 576         | Clinical Experience II                                 | Applies course content in elementary education classrooms grades 1-8: emphasizes observation, pupil management, planning and delivery of instruction, and assessment.   | Y                 | PRA               | Y               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Prerequisite(s): EED 567; degree- or nondegree-seeking graduate student  |
| EED     | 578         | Student Teaching: Elementary School (1-8)              | Student teaching in elementary education classrooms grades 1-8: synthesized experience in curriculum, instruction, assessment and classroom management.   | N                 | PRA               | Y               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EED     | 579         | Apprentice Teaching: Elementary Education (Grades 1-8) | Apprentice teaching in elementary school classrooms. Synthesized experience in classroom management, curriculum, instruction and assessment. Must be taken four times for a total of 12 semester hours.   | N                 | PRA               | Y               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 2-3   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title            | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department                                    | Units | General Studies | Requirements   |
|---------|-------------|-------------------------|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|--|
| EED     | 580         | Practicum               | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EED     | 583         | Fieldwork               | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EED     | 584         | Internship              | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EED     | 590         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EED     | 591         | Seminar                 | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EED     | 592         | Research                | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EED     | 593         | Applied Project         | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EED     | 594         | Conference and Workshop | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EED     | 595         | Continuing Registration | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EED     | 598         | Special Topics          | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-4   |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EED     | 599         | Thesis                  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EED     | 680         | Practicum               | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EED     | 683         | Fieldwork               | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EED     | 684         | Internship              | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |

| EED     | 790         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |
| EED     | 791         | Seminar                 | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department                                    | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|--|
| EED     | 792         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-15  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EED     | 795         | Continuing Registration                                 | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EED     | 799         | Dissertation  | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-15  |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student   |
| EEE     | 101         | Introduction to Engineering Design                      | Introduces engineering design, teaming, engineering profession; computer models and programming; communication skills; design of electrical and computer-based systems.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 2     |                 |  |
| EEE     | 120         | Digital Design Fundamentals                             | Number systems, conversion methods, binary and complement arithmetic, Boolean algebra, circuit minimization, ROMs, PLAs, flipflops, synchronous sequential circuits.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 3     |                 | Prerequisite(s): degree-seeking student; Credit is allowed for only CSE 120 or EEE 120   |
| EEE     | 191         | First-Year Seminar                                      | Small course emphasizing student-faculty discussion/interaction. Strongly recommended for first-year students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 1-3   |                 |  |
| EEE     | 194         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 1-4   |                 |  |
| EEE     | 202         | Circuits I  | Principles for analyzing linear and nonlinear circuits. Uses SPICE and MATLAB. Design and measurement of linear analog electrical systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 4     |                 | Prerequisite(s): degree-seeking student; Pre- or corequisite(s): MAT 274 or 275 with C or better if completed; PHY 131 with C or better if completed   |
| EEE     | 203         | Signals and Systems I                                   | Introduces continuous and discrete time signal and system analysis, linear systems, Fourier, and z-transforms.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 3     |                 | Prerequisite(s): degree-seeking student; EEE 202; AND MAT 242 with C or better or Pre- or corequisite(s): MAT 342 or 343 with C or better if completed   |
| EEE     | 230         | Computer Organization and Assembly Language Programming | Register-level computer organization. Instruction set architecture. Assembly language. Processor organization and design. Memory organization. IO programming. Exception/interrupt handling.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 3     |                 | Prerequisite(s) all with C or better: degree-seeking student: CSE 100 or 110; CSE 120 or EEE 120 OR Software Engineering BS major: CSE 100 or 110; SER 232 OR Computer Science & Engineering grad student; Credit is allowed for only CSE 230 or EEE 230 |
| EEE     | 241         | Fundamentals of Electromagnetics                        | Vector analysis, differential operators, fourier analysis, scalar, vector fields, electro/magneto statics, time-varying fields, boundary value problems, dielectric, magnetic materials, Maxwell's equations.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 3     |                 | Prerequisite(s): degree-seeking student; MAT 267 or 272 with C or better; MAT 274 or 275 with C or better; PHY 131 with C or better; Pre- or corequisite(s): EEE 202   |
| EEE     | 294         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 1-4   |                 |  |
| EEE     | 304         | Signals and Systems II                                  | Communication, signal processing, control systems, continuous, discrete transforms, sampling theorem, analog, digital modulation, filter design, signal processing applications, state space.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 4     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 203  |
| EEE     | 307         | Signal Processing for Digital Culture                   | Signal processing for non-majors. Digital filters, Fourier and z transform, DFT and FFT, digital signal processing computing, interdisciplinary DSP applications.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 3     |                 | Prerequisite(s): non-ECEE major; MAT 210, MAT 265, or MAT 270; Credit is allowed for only EEE 307 or EEE 394 (Signal Analysis for the Digital Culture)   |
| EEE     | 333         | Hardware Design Languages and Programmable Logic        | Develops digital logic with modern practices of hardware description languages. Emphasizes usage, synthesis of digital systems for programmable logic, VLSI.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 4     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 120 or CSE 120; EEE 202  |
| EEE     | 334         | Circuits II   | Design of analog and digital circuits. Diodes/BJTs/Mosfets. Digital and analog circuit building blocks. Fundamentals of mixed signal circuits.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 4     |                 | Prerequisite(s): Fulton ECEE, SEMTE, BHSE undergraduate student or Computer Systems Engineering or Computer Systems Engineering (Information Assurance) student; EEE 202   |
| EEE     | 335         | Analog and Digital Circuits                             | Analog, digital microelectronic circuits and systems. Amplifiers, frequency response, gate sizing, timing analysis, sequential digital circuits.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 4     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student or Computer Systems Engineering or Computer Systems Engineering (Information Assurance) major; EEE 334  |
| EEE     | 341         | Engineering Electromagnetics                            | Time-varying electromagnetic fields, waves in homogeneous and stratified media, transmission lines, waveguides and cavity resonators, radiation and antennas.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 4     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 203; EEE 241   |
| EEE     | 350         | Random Signal Analysis                                  | Probabilistic and statistical analysis as applied to electrical signals and systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; MAE 317 or pre- or corequisite: EEE 203; or Fulton Engineering graduate student  |
| EEE     | 352         | Properties of Electronic Materials                      | Schrodinger's wave equation, potential barrier problems, bonds of crystals, the band theory of solids, semiconductors, superconductor dielectric, and magnetic properties.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 4     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; CHM 114, 115, 116 or 118; EEE 241; PHY 241 with a C or better  |
| EEE     | 360         | Energy Systems and Power Electronics                    | Conventional and alternate energy sources for power systems, three-phase analysis, AC generators, transformers, induction, DC motors, power electronic speed control.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 4     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 202; Pre- or corequisite(s): EEE 241   |
| EEE     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 1-4   |                 |  |
| EEE     | 404         | Real-Time DSP Systems                                   | Digital signal processors, translating signals and systems concepts into real-time multimedia and communications applications, real-time algorithms.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 4     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; CSE 230 or EEE 230; EEE 203  |
| EEE     | 407         | Digital Signal Processing                               | Time and frequency domain analysis, difference equations, z-transform, FIR and IIR digital filter design, discrete Fourier transform, FFT, and random sequences.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 4     |                 | Prerequisites: Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 203; MAT 342 or 343 with C or better   |
| EEE     | 425         | Digital Systems and Circuits                            | Digital logic gate analysis and design. Propagation delay times, fan out, power dissipation, noise margins. Design of MOS and bipolar logic families, including NMOS, CMOS, standard and advanced TTL, ECL, and BiCMOS. Inverter, combinational and sequential logic circuit design, MOS memories, VLSI circuits. Computer simulations using PSPICE.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 4     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 335  |
| EEE     | 433         | Analog Integrated Circuits                              | Analysis, design, and applications of modern analog circuits using integrated bipolar and field-effect transistor technologies.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering      | Electrical Engineering Program                | 4     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 335  |

|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--------------------------------|-------|-----------------|---|
| EEE     | 434         | Quantum Mechanics for Engineers                  | Angular momentum, wave packets, Schrodinger wave equation, probability, problems in one dimension, principles of wave mechanics, scattering, tunneling, central forces, angular momentum, hydrogen atom, perturbation theory, variational techniques.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 352   |
| EEE     | 435         | Fundamentals of CMOS and MEMS                    | Introduces basic CMOS processing and fabrication tools. Covers the fundamentals of thermal oxidation, CVD, implantation, diffusion, and process integration.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 352   |
| EEE     | 436         | Fundamentals of Solid-State Devices              | Semiconductor fundamentals, pn junctions, metal-semiconductor contacts, metal-oxide-semiconductor capacitors and field-effect transistors, bipolar junction transistors.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 352   |
| EEE     | 437         | Optoelectronics                                  | Basic operating principles of various types of optoelectronic devices that play important roles in commercial and communication electronics; light-emitting diodes, injection lasers, and photodetectors.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 352   |
| EEE     | 439         | Semiconductor Facilities and Cleanroom Practices | Microcontamination, controlled environments, cleanroom layout and systems, modeling, codes and legislation, ultrapure water, production materials, personnel and operations, hazard management, advanced concepts.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 352   |
| EEE     | 443         | Antennas for Wireless Communications             | Fundamental parameters; radiation integrals; wireless systems; wire, loop, and microstrip antennas; antenna arrays; smart antennas; ground effects; multipath.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 341   |
| EEE     | 445         | Microwaves                                       | Waveguides; circuit theory for waveguiding systems; microwave devices, systems, and energy sources; striplines and microstrips; impedance matching transformers; measurements.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 341 (EEE 340)   |
| EEE     | 448         | Fiber Optics                                     | Principles of fiber-optic communications.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 341 (EEE 340)   |
| EEE     | 455         | Communication Systems                            | Signal analysis techniques applied to the operation of electrical communication systems. Introduction to and overview of modern digital and analog communications.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 350   |
| EEE     | 459         | Communication Networks                           | Fundamentals of communication networks. Study of Seven-Layer OSI model. Focus on functionality and performance of protocols used in communication networks.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 203; Corequisite(s): EEE 350  |
| EEE     | 460         | Nuclear Power Engineering                        | Radioactivity and decay. Radiation interactions and dose. Nuclear reaction, fission and fusion theory. Fission reactors, four factor formula, moderation. Nuclear power, TMI, Chernobyl. Nuclear fuel cycle.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; CHM 114 or 116; MAT 274 or 275 with C or better; PHY 241 or 361 with C or better  |
| EEE     | 463         | Electrical Power Plants                          | Generation of electric power using fossil, nuclear, and renewable, including solar, geothermal, wind, hydroelectric, biomass and ocean, energy sources. Power plant thermal cycle analysis. Cogeneration and combined cycles. Economics, operations, and design of electric power stations. Energy storage.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; CHM 114 or 116; MAE 240 or PHY 241 with C or better; MAT 274 or 275 with C or better                                      |
| EEE     | 465         | Photovoltaic Energy Conversion                   | Photovoltaics for production of electricity from solar energy. The grand energy challenge. Solar radiation and utilization. Fundamentals of semiconductors for photovoltaics: crystal structures, band theory, doping, carrier statistics, optical absorption, and p-n junctions. Principles of solar cells including loss mechanisms and design principles. Current solar cell technologies. Manufacturing of silicon solar cells. Solar modules, arrays and systems. Economic analysis of solar photovoltaic systems. Terawatt-scale deployment of solar cells. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 352; Credit is allowed for only EEE 465 or 498: Solar Energy  |
| EEE     | 470         | Electric Power Devices                           | Analyzes devices used for short circuit protection, including circuit breakers, relays, and current and voltage transducers. Protection against switching and lightning over voltages. Insulation coordination.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 360   |
| EEE     | 471         | Power System Analysis                            | Review of transmission line parameter calculation. Zero sequence impedance, symmetrical components for fault analysis, short circuit calculation, review of power flow analysis, power system stability, and power system control concepts.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 360   |
| EEE     | 472         | Power Electronics and Power Management           | Principles of switch mode power conversion, analysis, design and control of dc-dc converters, PWM rectifiers and inverters, power management, power electronics applications in information technology, renewable energy systems, motion control and lighting.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 203   |
| EEE     | 473         | Electrical Machinery                             | Operating principles, modeling and speed control of DC, brushless DC, and AC machines; power converters for DC and AC motors  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 360   |
| EEE     | 480         | Feedback Systems                                 | Analysis and design of linear feedback systems. Frequency response and root locus techniques, series compensation, and state variable feedback.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 203 or MAE 318 with C or better   |
| EEE     | 481         | Computer-Controlled Systems                      | Implements computer-based, embedded, control systems using MATLAB xPC Target toolbox. Small-scale, representative projects demonstrate theoretical issues and provide hands-on expertise.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 203 and EEE 230/CSE 230, or MAE 318   |
| EEE     | 488         | Senior Design Laboratory I                       | Design process: research, concept, feasibility, simulation, specifications, benchmarking, and proposal generation. Technical communications and team skills enrichment.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     | L               | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; ENG 102, 105 or 108, EEE 241; EEE 334; EEE 350; three courses from the following list: EEE 304, 333, 335, 341, 352 or 360 |
| EEE     | 489         | Senior Design Laboratory II                      | Implement, evaluate, and document EEE 488 design. Social, economic, and safety considerations. Technical communications and team skills enrichment.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     | L               | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE senior or post-bacc undergraduate student; EEE 488   |
| EEE     | 492         | Honors Directed Study                            | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-6   |                 | Prerequisite(s): Barrett Honors Electrical Engineering BSE senior   |
| EEE     | 493         | Honors Thesis                                    | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 0-6   | L               | Prerequisite(s): Barrett Honors Electrical Engineering BSE senior   |
| EEE     | 494         | Special Topics                                   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 1-4   |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student; EEE 433   |
| EEE     | 498         | Pro-Seminar                                      | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 1-7   |                 | Prerequisite(s): Fulton ECEE, SEMTE, or BHSE undergraduate student  |
| EEE     | 499         | Individualized Instruction                       | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-3   |                 | Prerequisite(s): Electrical Engineering BSE senior  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                       | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                     | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--------------------------------|-------|-----------------|--|
| EEE     | 501         | Overview of Electrical Engineering                 | Electromagnetic fields, electrical circuit analysis, transmission lines, communications systems, electromagnetic interference and compatibility, computational techniques and electromagnetic software  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 505         | Time-Frequency Signal Processing                   | Joint time-frequency analysis of time-varying signals and systems; linear and quadratic time-frequency representations; applications in current areas of signal processing.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 506         | Digital Spectral Analysis                          | Principles and applications of digital spectral analysis, least squares, random sequences, parametric, and nonparametric methods for spectral estimation.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 507         | Multidimensional Signal Processing                 | Processing and representation of multidimensional signals. Design of systems for processing multidimensional data. Introduces image and array processing issues.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 508         | Digital Image and Video Processing and Compression | Fundamentals of digital image perception, representation, processing, and compression. Emphasizes image coding techniques. Signals include still pictures and motion video.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 509         | DSP Algorithms and Software                        | Linear systems review, digital filter design, software aspects, DFT, FFT, random signals, programming aspects, applications projects, MATLAB and Java simulations.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 510         | Multimedia Signal Processing                       | Speech/audio coding algorithms. LPC, CELP, MPEG, Cell phone, DTV, cinema, and surround sound standards. MPEG/JPEG introduction.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 511         | Artificial Neural Computation                      | Networks for computation, learning function representations from data, learning algorithms and analysis, function approximation and information representation by networks, applications in control systems and signal analysis.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering graduate student   |
| EEE     | 518         | Fundamentals of Microelectronics Packaging         | Multidisciplinary foundation course in addressing electrical, thermal, materials, chemical, manufacturing, and reliability problems in packaging.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, SBHSE, SEMTE or SSEBE graduate student; Credit for only MSE 518, EEE 518, MAE 518, MSE 475, or CHE 518   |
| EEE     | 521         | Low-Power Bioelectronics                           | Begins with fundamental theory and techniques for low-power analog circuit design especially subthreshold CMOS and BJT circuits (e.g., translinear circuits), then moves to biomedical applications and bio-inspired systems focused upon neuromorphic circuits. Also touches on concepts such as wireless challenges for implants, energy harvesting and electrochemistry. Students have the opportunity to have their final projects fabricated in a commercial CMOS process. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, SBHSE, SEMTE or SSEBE graduate student; Credit is allowed for only EEE 521 or EEE 598 (Low Power Bioelectronics)   |
| EEE     | 523         | Advanced Analog Integrated Circuits                | Analysis and design of analog integrated circuits: analog circuit blocks, reference circuits, operational-amplifier circuits, feedback, and nonlinear circuits.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton Engineering graduate student   |
| EEE     | 524         | Communication Transceiver Circuits Design          | Communication transceivers and radio frequency system design; fundamentals of transceivers circuits; RF, IF, mixers, filters, frequency synthesizers, receivers, CAD tools, and lab work on IC design   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton Engineering graduate student   |
| EEE     | 525         | VLSI Design  | Analysis and design of Very Large Scale Integrated (VLSI) circuits. Physics of small devices, fabrication, regular structures, and system timing.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton Engineering graduate student   |
| EEE     | 526         | VLSI Architectures                                 | High throughput and low-power VLSI architectures for signal processing. Array processor systems; data path design and optimization; memory design; high-level synthesis; low-power design at system level, algorithm level, and architecture level.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering graduate student   |
| EEE     | 527         | Analog to Digital Converters                       | Detailed introduction to the design of Nyquist rate, CMOS analog to digital converters. Requires knowledge of analog integrated circuits (analog circuit blocks, reference circuits, operational-amplifier circuits, feedback, and nonlinear circuits) to be successful in this course.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton Engineering graduate student   |
| EEE     | 528         | Introduction to Microelectromechanical Systems     | Microelectromechanical systems and devices emphasizing analytical and numerical modeling of actuation and sensing mechanisms with an overview of fabrication technology.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering graduate student   |
| EEE     | 529         | Semiconductor Memory Technologies and Systems      | Design of semiconductor memory technologies and systems, from the device cell structures to the array and architecture design, with emphasis on the industry trends and cutting-edge technologies including SRAM, DRAM and FLASH technologies and emerging memory technologies such as STT-MRAM, PCRAM and RRAM.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton Electrical, Comp & Energy Engr (ECEE), CIDSE, POLY, SBHSE, SEMTE, or SSEBE graduate student; Credit is allowed for only EEE 529 or EEE 598 (Semicondctr Memory Tech & Sys) or CEN/CSE 591 (Memory Sys: Device, Circuit & Architecture) |
| EEE     | 530         | Advanced Silicon Processing                        | Thin films, CVD, oxidation, diffusion, ion-implantation for VLSI, metallization, silicides, advanced lithography, dry etching, rapid thermal processing.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering graduate student   |
| EEE     | 531         | Semiconductor Device Theory I                      | Transport and recombination theory, pn and Schottky barrier diodes, bipolar and junction field-effect transistors, and MOS capacitors and transistors.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering graduate student   |
| EEE     | 532         | Semiconductor Device Theory II                     | Advanced MOSFETs, charge-coupled devices, solar cells, photodetectors, light-emitting diodes, microwave devices, and modulation-doped structures.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Engineering graduate student   |
| EEE     | 533         | Semiconductor Process/Device Simulation            | Process simulation concepts, oxidation, ion implantation, diffusion, device simulation concepts, pn junctions, MOS devices, bipolar transistors.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 534         | Semiconductor Transport                            | Carrier transport in semiconductors. Hall effect, high electric field, Boltzmann equation, correlation functions, and carrier-carrier interactions.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 535         | Electron Transport in Nanostructures               | Nanostructure physics and applications. 2-D electron systems, quantum wires and dots, ballistic transport, quantum interference, and single-electron tunneling.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                            | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                     | Units | General Studies | Requirements   |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|---------------------------|--------------------------------|-------|-----------------|--|
| EEE     | 536         | Semiconductor Characterization          | Measurement techniques for semiconductor materials and devices. Electrical, optical, physical, and chemical characterization methods.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 537         | Semiconductor Optoelectronics           | Electronic states in semiconductors, quantum theory of radiation, absorption processes, radiative processes, nonradiative processes, photoluminescence, and photonic devices.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 538         | Optoelectronic Devices                  | Provides graduate students with detailed theory and practical knowledge of semiconductors materials and optoelectronic devices such as light-emitting diodes, lasers, photodetectors and solar cells. Also discusses the applications of these devices. Offers not only classroom lectures but also demonstration of real-world experiments in research laboratories at ASU.         | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, SBHSE, SEMTE or SSEBE graduate student; Credit is allowed for only EEE 538 or EEE 598 (Optoelectronic Devices)                     |
| EEE     | 539         | Intro Solid-State Electronics           | Crystal lattices, reciprocal lattices, quantum statistics, lattice dynamics, equilibrium, and nonequilibrium processes in semiconductors.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 540         | Fast Computational Electromagnetics     | Method of moments, finite difference time-domain, finite element methods implemented using fast algorithms (wavelets, FMM, Nystrom) to gain high efficiency.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 541         | Electromagnetic Fields and Guided Waves | Polarization and magnetization; dielectric, conducting, anisotropic, and semiconducting media; duality, uniqueness, and image theory; plane wave functions, waveguides, resonators, and surface guided waves.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 543         | Antenna Analysis and Design             | Impedances, broadband antennas, frequency independent antennas, miniaturization, aperture antennas, horns, reflectors, lens antennas, and continuous sources design techniques.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 544         | High-Resolution Radar                   | Fundamentals; wideband coherent design, waveforms, and processing; stepped frequency; synthetic aperture radar (SAR); inverse synthetic aperture radar (ISAR); imaging.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 545         | Microwave Circuit Design                | Analysis and design of microwave attenuators, in-phase and quadrature-phase power dividers, magic tees, directional couplers, phase shifters, DC blocks, and equalizers.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 546         | Advanced Fiber Optics                   | Theory of propagation in fibers, couplers and connectors, distribution networks, modulation, noise and detection, system design, and fiber sensors.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 547         | Microwave Solid-State Circuit Design I  | Applies semiconductor characteristics to practical design of microwave mixers, detectors, limiters, switches, attenuators, multipliers, phase shifters, and amplifiers.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 548         | Coherent Optics                         | Diffraction, lenses, optical processing, holography, electro-optics, and lasers.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 550         | Transform Theory and Applications       | Introduces abstract integration, function spaces, and complex analysis in the context of integral transform theory. Applications to signal analysis, communication theory, and system theory.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 551         | Information Theory                      | Entropy and mutual information, source and channel coding theorems, applications for communication and signal processing.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 552         | Digital Communications                  | Complex signal theory, digital modulation, optimal coherent and incoherent receivers, channel codes, coded modulation, Viterbi algorithm.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 553         | Coding and Cryptography                 | Introduces algebra, block and convolutional codes, decoding algorithms, turbo codes, coded modulation, private and public key cryptography.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 554         | Random Signal Theory                    | Applies statistical techniques to the representation and analysis of electrical signals and to communications systems analysis.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 556         | Detection and Estimation Theory         | Combines the classical techniques of statistical inference and the random process characterization of communication, radar, and other modern data processing systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 557         | Broadband Networks                      | Physics of wireless and optical communications. Broadband multiplexing and switching methods. Blocking and queuing analysis. Network optimization, routing, and economics.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 558         | Wireless Communications                 | Cellular systems, path loss, multipath fading channels, modulation and signaling for wireless, diversity, equalization coding, spread spectrum, TDMA/FDMA/CDMA.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 559         | Wireless Networks                       | Design principles of cellular networks. Multiple access control protocols for wireless systems. Wireless routing and TCP/IP. Mobile management. Call admission control and resource allocation (e.g., power control and rate control). Wireless security. Future-generation wireless networks. A previous course in random signal theory is required to be successful in this class. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, SBHSE, SEMTE or SSEBE graduate student; Credit is allowed for only CSE 591 (Wireless Networks), EEE 559 or 598 (Wireless Networks) |
| EEE     | 562         | Nuclear Reactor Theory and Design       | Principles of neutron chain reacting systems. Neutron diffusion and moderation. One-, two-, and multigroup diffusion equation solution methods. Heterogeneous reactors. Nuclear fuel steady-state performance. Core thermal-hydraulics. Core thermal design.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |

ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                    | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                     | Units | General Studies | Requirements  |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|---------------------------|--------------------------------|-------|-----------------|---|
| EEE     | 563         | Nuclear Reactor System Dynamics and Diagnostics | Time-dependent solution to neutron diffusion equation. Reactor kinetics and reactivity changes. Dynamics, stability, and control of reactor systems. Modeling neutronic and thermal processes. System characterization in time and frequency domains. Reactor surveillance and diagnostics.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student  |
| EEE     | 564         | Interdisciplinary Nuclear Power Operations      | Nuclear power plant systems. Studies interrelationship and propagation of effects that systems and design changes have on one another, especially in relation to nuclear power plant safety and operations. Case studies and design projects.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student  |
| EEE     | 565         | Solar Cells                                     | Introduction to the generation and utilization of electricity from solar energy. Exploration of the science and engineering of direct conversion (photovoltaics), including the design, fabrication, and operation of solar cells, and the construction and performance of solar cell modules. Prior knowledge of properties of electronic materials is required to be successful in this course.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student  |
| EEE     | 571         | Power System Transients                         | Simple switching transients. Transient analysis by deduction. Damping of transients. Capacitor and reactor switching. Transient recovery voltage. Travelling waves on transmission lines. Lightning. Protection of equipment against transient overvoltages. Introduces computer analysis of transients.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student  |
| EEE     | 572         | Advanced Power Electronics                      | Analyzes device operation, including thyristors, gate-turn-off thyristors, and transistors. Design of rectifier and inverter circuits. Applications such as variable speed drives, HVDC, motor control, and uninterruptible power supplies.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student  |
| EEE     | 573         | Electric Power Quality                          | Sinusoidal waveshape maintenance; study of momentary events, power system harmonics, instrumentation, filters, power conditioners, and other power quality enhancement methods.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student  |
| EEE     | 574         | Computer Solution of Power Systems              | Algorithms for digital computation for the Newton and fast-decoupled power flow problem, and fault analysis. Sparse matrix and vector programming methods, creation of elimination trees, network equivalencing, solution of the least squares problem, introduction to state estimation.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student  |
| EEE     | 575         | Power System Stability                          | Dynamic performance of power systems with emphasis on stability. Modeling of system components and control equipment. Analysis of the dynamic behavior of the system in response to small and large disturbances. Knowledge of EEE470, 471 and 473 (or equivalents) is required to be successful in this course.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student  |
| EEE     | 576         | Power System Dynamics                           | Dynamic performance of power systems with emphasis on control. Modeling of control equipment, FACTS devices, wind generators, and nonlinear loads. Design of power system stabilizers. Prior knowledge of electric power devices, power system analysis, and electrical machinery is required to be successful in this course.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, SBHSE, SEMTE or SSEBE graduate student; Credit is allowed for only EEE 576 or 598 (Power System Dynamics)     |
| EEE     | 577         | Power Engineering Operations and Planning       | Economic dispatch, unit commitment, dynamic programming, power system planning and operation, control, generation modeling, AGC, and power production.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student  |
| EEE     | 579         | Power Transmission and Distribution             | High-voltage transmission line electric design; conductors, corona, RI and TV noise, insulators, clearances. DC characteristic, feeders voltage drop, and capacitors.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student  |
| EEE     | 581         | Filtering of Stochastic Processes               | Modeling, estimation, and filtering of stochastic processes, with emphasis on the Kalman filter and its applications in signal processing and control.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student  |
| EEE     | 582         | Linear System Theory                            | Controllability, observability, and realization theory for multivariable continuous time systems. Stabilization and asymptotic state estimation. Disturbance decoupling, noninteracting control.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student  |
| EEE     | 584         | Internship                                      | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student  |
| EEE     | 586         | Nonlinear Control Systems                       | Stability theory, including phase-plane, describing function, Liapunov's method, and frequency domain criteria for continuous and discrete, nonlinear, and time-varying systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student  |
| EEE     | 587         | Optimal Control                                 | Optimal control of systems. Calculus of variations, dynamic programming, linear quadratic regulator, numerical methods, and Pontryagin's principle.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student  |
| EEE     | 588         | Design of Multivariable Control Systems         | Practical tools for designing robust MIMO controllers. State feedback and estimation, model-based compensators, MIMO design methodologies, CAD, real-world applications.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student  |
| EEE     | 589         | Linear Algebra and Convex Optimization          | Linear algebra and convex optimization. Vector spaces, matrix algebra, linear programming, Lagrange multipliers, Karush-Kuhn-Tucker (KKT) conditions, duality theory and algorithms for convex optimization. Newton's method, gradient and steepest descent methods. Algorithms for unconstrained, equality constrained and inequality constrained problems, which include interior point methods. Applications to approximation and data fitting and some geometric problems. Applications to signal processing, communications and control systems. Background in linear algebra necessary to be successful in this course. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, SBHSE, SEMTE or SSEBE graduate student; Credit allowed for only EEE 589 or 598: Advanced Linear Algebra & Opt |
| EEE     | 590         | Reading and Conference                          | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Master of Engineering or Electrical Engineering MS, MSE or PHD students  |
| EEE     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                 | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                     | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--------------------------------|-------|-----------------|--|
| EEE     | 592         | Research                                     | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 593         | Applied Project                              | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 594         | Conference and Workshop                      | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 595         | Continuing Registration                      | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering | Electrical Engineering Program | 1     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 598         | Special Topics                               | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 1-4   |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 599         | Thesis                                       | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 600         | Research Methods                             | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 606         | Adaptive Signal Processing                   | Principles and applications of adaptive signal processing, adaptive linear combiner, Wiener least-squares solution, gradient search, performance surfaces, LMS/RLS algorithms, block time/frequency domain LMS.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 607         | Speech Coding for Multimedia Communications  | Speech and audio coding algorithms for applications in wireless communications and multimedia computing.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 625         | Advanced VLSI Design                         | Practical industrial techniques, circuits, and architectures appropriate to high-performance and low-power digital VLSI designs such as microprocessors.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 627         | Oversampling Sigma-Delta Data Converters     | Introduces design and analysis of sigma delta oversampled data converters from an IC design perspective.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 4     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 631         | Advanced Optoelectronics                     | Principles of heterojunctions and quantum well structures, band lineups, optical, and electrical properties. Introduces heterojunction devices. Knowledge of transport and recombination theory, pn and Schottky barrier diodes, bipolar and junction field-effect transistors, and MOS capacitors and transistors. is required to be successful in this course.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 641         | Advanced Electromagnetic Field Theory        | Cylindrical wave functions, waveguides, and resonators; spherical wave functions and resonators; scattering from planar, cylindrical, and spherical surfaces; Green's functions.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 643         | Advanced Topics in Electromagnetic Radiation | High-frequency asymptotic techniques, geometrical and physical theories of diffraction (GTD and PTD), moment method (MM), radar cross section (RCS) prediction, Fourier transforms in radiation, and synthesis methods.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 680         | Practicum                                    | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 683         | Fieldwork                                    | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 684         | Internship                                   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 686         | Adaptive Control                             | Main topics covered: adaptive identification, convergence, parametric models, performance and robustness properties of adaptive controllers, persistence of excitation, and stability.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 690         | Reading and Conference                       | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Electrical Engineering MS, MSE, or PHD student or Master of Engineering student   |
| EEE     | 691         | Seminar                                      | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 692         | Research                                     | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |
| EEE     | 700         | Research Methods                             | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student |

|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--------------------------------|-------|-----------------|--|
| EEE     | 731         | Advanced MOS Devices                         | Threshold voltage, subthreshold current, scaling, small geometry effects, hot electrons, and alternative structures.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 3     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 780         | Practicum                                    | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 783         | Fieldwork                                    | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 784         | Internship                                   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 790         | Reading and Conference                       | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Electrical Engineering PhD students   |
| EEE     | 791         | Seminar                                      | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 792         | Research                                     | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-15  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 793         | Applied Project                              | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-12  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 795         | Continuing Registration                      | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering | Electrical Engineering Program | 1     |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EEE     | 799         | Dissertation                                 | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Ira A. Fulton Engineering | Electrical Engineering Program | 1-15  |                 | Prerequisite(s): Fulton Electrical, Computer and Energy Engineering (ECEE) graduate student or CIDSE, POLY, SBHSE, SEMTE or SSEBE graduate student   |
| EET     | 406         | Control System Technology                    | Control system components, analysis of feedback control systems, stability, performance, and application.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 3-4   |                 | Pre-requisites: EST 310; MAT 266; Credit for EET 506 or EET 406  |
| EET     | 408         | Digital Real-Time Control                    | Analysis, simulation, and design of discrete systems. Approach taken in this class begins with the analysis, simulation and design of a continuous system, which yields an s-based, transfer function compensator. Then, this compensator is transformed into a z-based transfer function, which can be realized with a difference equation in a microcontroller.                                       | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs           | 3     |                 | Pre-requisite: EET 406; Credit is allowed for only EET 408 or 494 (Digital Realtime Control)   |
| EET     | 430         | Instrumentation and Measurement Systems      | Instrumentation and measurement techniques, sensors operating principles. Signal and error analysis. Signal conditioning and data acquisition.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 3     |                 | Pre-requisites: EST 310; Credit is allowed for only EET 430 or 530   |
| EET     | 494         | Special Topics                               | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 1-4   |                 |  |
| EET     | 506         | System Dynamics and Control                  | Time, frequency, and transform domain analysis of physical systems. Transfer function analysis of feedback control systems performance and stability. Compensation.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only EET 406 or EET 506  |
| EET     | 508         | Digital Real-Time Control                    | Sample data control techniques and applications to process control.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 3     |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student OR Fulton Schools of Engineering senior student with minimum 3.00 ASU GPA |
| EET     | 530         | Electronic Test Systems and Applications     | Analysis, design, and application of electronic test equipment, test systems, specifications, and documentation.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 3     |                 | Pre-requisites: Graduate (degree or non-degree) students; Credit is allowed for only EET 430 or EET 530  |
| EET     | 598         | Special Topics                               | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 1-4   |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student OR Fulton Schools of Engineering senior student with minimum 3.00 ASU GPA |
| EGR     | 101         | Foundations of Engineering Design Project I  | Introduces engineering as a profession, critical thinking in engineering design and modeling, team dynamics, engineering communication.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 3     |                 |  |
| EGR     | 102         | Foundations of Engineering Design Project II | Development and experimental verification of engineering models, engineering design, data acquisition, critical analysis of data, introduction to CADD, engineering communications.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 3     |                 | Prerequisite(s): EGR 101; MAT 170 or higher; Pre- or corequisite(s): ENG 101, 105, 107, or 111   |
| EGR     | 104         | Critical Inquiry in Engineering              | Critical thinking. Systematic evaluation of information as input to well-informed decision making. Close reading and substantive writing in a technical setting.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 3     | L               | Prerequisite(s): ENG 101, 105 or 107   |
| EGR     | 194         | Special Topics                               | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 1-4   |                 |  |
| EGR     | 201         | Use-Inspired Design Project I                | Design, professionalism, and engineering practice developed in a multidisciplinary project setting.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 3     |                 | Prerequisite(s): EGR 102; MAT 265 or 270 with C or better  |
| EGR     | 202         | Use-Inspired Design Project II               | Design, problem solving, and engineering practice developed in a multidisciplinary project setting.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs           | 3     |                 | Prerequisite(s): EGR 104 with C or better; EGR 201 with C or better  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department           | Units | General Studies | Requirements  |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|---------------------------|----------------------|-------|-----------------|---|
| EGR     | 216         | Engineering Electrical Fundamentals           | Introduces modeling of electrical systems using mathematical and scientific principles. Covers electrical circuit analysis techniques including Kirchhoff's and Ohm's laws, series and parallel circuit elements, equivalent elements and circuits, and nodal analysis. These techniques are developed for DC, AC, and transient conditions. Also introduces the basic structure of a modern electronic measurement system and relates this structure to measurement accuracy, precision and resolution.              | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): MAT 265 or 270 with C or better; Credit is allowed for only EGR 216 or EGR 294 (Engineering Fundamentals I)            |
| EGR     | 217         | Engineering Mechanics Fundamentals            | Provides a foundation in the theory and principles of statics and dynamics. Examines the effect of forces acting on particles and rigid bodies. Vector mechanics is used extensively. Statics addresses the topics of equilibrium in two and three dimensions, to include distributed loads, trusses, frames, friction and cables. Dynamics addresses kinematics, including translating and rotating reference frames, and two-dimensional kinetics methods of force-acceleration, work-energy, and impulse-momentum. | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): PHY 121 with C or better; Credit is allowed for only EGR 217 or EGR 294 (Engineering Fundamentals II)                  |
| EGR     | 218         | Materials and Manufacturing Processes         | Applies material properties and manufacturing processes to the design and fabrication of engineered artifacts.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): CHM 113 or 114 with C or better; Credit is allowed for only EGR 218 or EGR 294 (Engineering Materials & Manufacturing) |
| EGR     | 219         | Computational Modeling of Engineering Systems | Introduces computing that develops software to find solutions to engineering problems. Students write and document code to solve problems in data acquisition, modeling of physical systems, and optimization.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Credit is allowed for only EGR 219 or 294 Computational Modeling  |
| EGR     | 240         | CADD and Solid Modeling                       | Uses 3-D solid modeling software to model mechanical parts and produce valid engineering drawings, including use of geometric dimensioning and tolerancing.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 |   |
| EGR     | 280         | Engineering Statistics                        | Applications-oriented introduction to statistics with computer-based experience using statistical software for formulating and solving engineering problems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     | CS              | Prerequisite(s): MAT 265 or 270 with C or better  |
| EGR     | 294         | Special Topics                                | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 1-4   |                 |   |
| EGR     | 301         | Concentration Project I                       | Design, communication, and critical thinking developed in a project setting based on selected concentration.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): MAT 267 or 272 with C or better  |
| EGR     | 302         | Concentration Project II                      | Design, engineering practice, and communication developed in a project setting based on selected concentration.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 301 with C or better   |
| EGR     | 303         | Mechanical Systems Project I                  | Analyze, design, implement and characterize a mechanical system through an in-depth mechanical system design project. Project includes modeling, analysis and measurement of the dynamic behavior of the mechanical system. Develops professional and engineering skills in this project setting.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 202 with C or better; EGR 217 with C or better; EGR 218 with C or better; EGR 219 with C or better                 |
| EGR     | 304         | Embedded Systems Design Project I             | Design, implement and debug an embedded electromechanical system through an in-depth design project. Develops professional and engineering skills in this project setting.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 202 with C or better; EGR 216 with C or better; EGR 219 with C or better   |
| EGR     | 305         | Robotics Systems Project I                    | Analyze, design, implement and debug a robotic electromechanical system through an in-depth robotic system design project. Develops professional and engineering skills in this project setting.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 202 with C or better; EGR 216 with C or better; EGR 219 with C or better   |
| EGR     | 306         | Automotive Systems Project I                  | Analyze, design, implement and verify an automotive system through an in-depth design project. Develops professional and engineering skills in this project setting.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 202 with C or better; EGR 217 with C or better; EGR 219 with C or better   |
| EGR     | 307         | Humanitarian Engineering Project I            | Analyzes, designs, implements and characterizes an engineered system that addresses a humanitarian objective. Project includes modeling, analysis and measurement of the behavior of the system. Develops professional and engineering skills in this project setting.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 202 with C or better; EGR 217 with C or better; Pre- or corequisite(s): EGR 321                                    |
| EGR     | 313         | Mechanical Systems Project II                 | Applies design principles to conceptualize, implement and characterize a fluid and/or thermodynamic system in a project setting. Project emphasizes communication with project stakeholders; applying an appropriate design approach in the context of a fluid and/or thermodynamic system; critical thinking in developing system specifications and evaluating a prototype relative to these specifications; and increasing technical competence.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 202 with C or better; EGR 217 with C or better; EGR 218 with C or better; EGR 340 with C or better                 |
| EGR     | 314         | Embedded Systems Design Project II            | Applies design principles to conceptualize, implement and characterize an embedded electromechanical system in a project setting. Project emphasizes communication with project stakeholders; applying a human-centered design approach in the context of an embedded system; critical thinking in developing system specifications and evaluating a prototype relative to these specifications; and increasing technical competence.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 304 with C or better   |
| EGR     | 315         | Robotic Systems Project II                    | Applies design principles to conceptualize, implement and characterize an electromechanical robotic system in a project setting. Project emphasizes communication with project stakeholders; applying a human-centered design approach in the context of a robotic system; critical thinking in developing system specifications and evaluating a prototype relative to these specifications; and increasing technical competence.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 305 with C or better; EGR 455 with C or better   |
| EGR     | 316         | Automotive Systems Project II                 | Applies design principles to conceptualize, implement and characterize an automotive system in a project setting. Project emphasizes communication with project stakeholders; applying a human-centered design approach in the context of an automotive system; critical thinking in developing system specifications and evaluating a prototype relative to these specifications; and increasing technical competence.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 306 with C or better   |
| EGR     | 317         | Humanitarian Engineering Project II           | Applies design principles to conceptualize, implement and characterize an engineered system that addresses a humanitarian objective in a project setting. Project emphasizes communication with project stakeholders, applying an appropriate design approach, thinking critically in developing system specifications and evaluating a prototype relative to these specifications, and increasing technical competence.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 307 with C or better; EGR 371 with C or better   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                    | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department           | Units | General Studies | Requirements  |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|---------------------------|----------------------|-------|-----------------|---|
| EGR     | 321         | Water Resource Systems                          | Fundamentals of water supply and surface water hydrology in the context of the engineering, design and analysis of water resources systems. Places particular emphasis on those aspects of water systems that apply in the context of the developing world as well as in the context of environmentally sustainable systems. Course delivery is designed for engineering students with a broad understanding of engineering fundamentals but without specialist civil engineering knowledge.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 217 with C or better; EGR 219 with C or better   |
| EGR     | 324         | Structural Design for Land Development          | Covers essential structural engineering concepts including loads, materials, constraints, specifications, optimization, and the design environment; structural modeling, analysis, and design.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 221; EGR 222   |
| EGR     | 325         | Water and Wastewater Treatment                  | Essential elements of aquatic chemistry, water pollution and water and wastewater treatment technologies. Provides a fundamental basis for understanding sustainable water and wastewater treatment processes and their design considerations. Includes critical evaluation of contemporary issues concerning our water environment and the associated regulatory framework to strengthen and emphasize importance of adequate practices used in operation and design of engineered water and wastewater treatment systems.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): CHM 113 with C or better; EGR 321 with C or better   |
| EGR     | 330         | Design of Electrical Systems                    | Overview of electrical system architectures and components used in design of smart electrical and electromechanical systems.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 216 with C or better; EGR 219 with C or better   |
| EGR     | 333         | Distributed Circuits and Systems                | Analysis and modeling of the generation and distribution of electrical signals and energy across distributed systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 235; MAT 274 or 275  |
| EGR     | 334         | Analog-Digital Interface                        | Signal processing and operational tools that lie between sensors and digital data processors developed from a system perspective. Includes selection, deployment and analysis of sensors, analog signal processors and converters as well as their appropriate power supplies and the impact of all these components on system performance and cost. Uses experimental and simulation tools to demonstrate typical-use cases for medical, military, industrial and consumer applications.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 216 with C or better; EGR 219 with C or better   |
| EGR     | 338         | Microcontrollers in Smart Systems               | Microcontroller implementation of smart systems. Microcontrollers applied to control dynamic systems, including the interface with sensors and actuators as well as developing simple open- and closed-loop control laws.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 330 with C or better; EGR 334 with C or better   |
| EGR     | 339         | Fabrication of Electrical Systems               | Overview of electrical fabrication techniques; design cycle time, cost, quality, reliability, product life cycle, and testing; programmable versus hard-wired implementation.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 235; MAT 274 or 275  |
| EGR     | 340         | Engineering Thermo-Fluids I                     | First and second laws of thermodynamics, systems, processes, equations of state, property tables. Fluid statics, conservation of momentum, Bernoulli's equation, applications.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): MAT 274 or 275 with C or better; PHY 121 with C or better; Credit is allowed for only EGR 340 or MET 340 |
| EGR     | 343         | Mechanics of Solid Materials                    | Studies strength and physical performance, such as deformations and load-carrying capacity, of natural and artificial solid structures.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 217 with C or better; EGR 218 with C or better   |
| EGR     | 363         | Automotive Powertrains and Thermal Systems      | Internal combustion engine (ICE) design in the context of automotive systems and heat management in vehicle systems, including thermal design of engine and transmission cooling systems. Operating characteristics and efficiencies of the ICE, terminology and abbreviations used in the automotive industry, contemporary fuels and the latest hybrid technology, CAFE standards and EPA vehicle emissions standards, lubrication systems and fluids appropriate for a given design, and current and future standards requirements.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Pre- or corequisite(s): EGR 340 with C or better if completed   |
| EGR     | 371         | Best Practices for Humanitarian Engineering     | Technological and process-based best practices for engineering students to gain applied competence in low-cost and low-tech appropriate methods and technologies for small-scale technical problems in local and international humanitarian development contexts.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): Fulton Schools of Engineering major; junior or senior standing   |
| EGR     | 388         | Engineering Materials And Semiconductor Science | Semiconductor technology operates at the limits of our understanding of many sciences—materials, optics, mechanics, plasma chemistry and charge movement. As well as examining the concepts, considers how they interact within tight constraints and how this affects continuous production, future development options and trouble shooting.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Pre-requisite: Engineering BSE or Manufacturing Engineering BS major; Junior standing                                     |
| EGR     | 394         | Special Topics                                  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 1-4   |                 |   |
| EGR     | 401         | Professional Design Project I                   | First half of a comprehensive project experience based on cumulative knowledge and skills gained in earlier course work.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     | L               | Prerequisite(s): EGR 302 (or EGR 303 and 313) or EGR 314 or 315 or 316 or 317 (or MFG 308 and 318) with C or better       |
| EGR     | 402         | Professional Design Project II                  | Second half of a comprehensive project experience based on cumulative knowledge and skills gained in earlier course work.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 401 with C or better taken within one previous term  |
| EGR     | 425         | Unit Treatment Technologies and Systems         | Addresses fundamental concepts of unit treatment technologies and the scientific and engineering principles that govern the proper design, operation and management of these systems. Course is divided into two overlapping major categories of unit treatment technologies: air-pollution controls and soils/groundwater remediation. Enhances understanding of the unit treatment technologies by reviews of dimensional analysis, mass transport mechanisms, mass balances, modeling, kinetics and reactors.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 325 with C or better   |
| EGR     | 426         | Integrated Solid Waste Systems                  | Addresses the fundamental concepts of solid waste, pathways and transformation processes following the from cradle-to-grave approach. Follows the life of the solid waste from point of generation, reclamation and treatment to point of disposal. Emphasizes describing the present solid waste systems as an integrative set of functional units. Considers physical, chemical and biological transformations of the solid waste, together with the existing technologies and practices for management, treatment and disposal of the solid waste. Includes a specific overview of sustainable solid waste practices such as waste minimization, pollution prevention, reuse and reclamation, together with current domestic and foreign regulations. Addresses planning and design of solid waste operations and facilities. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 325 with C or better   |

|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|---------------------------|----------------------|-------|-----------------|--|
| EGR     | 427         | Principles of Hazardous Waste and Materials                 | Trains future environmental engineers and professionals in fundamental hazardous waste and materials concepts. Addresses regulatory requirements; materials hazard communication; material safety concepts; types of hazardous waste/materials (chemical, radioactive, and infectious); risk assessment and routes of exposure; personal protective equipment; prudent practices; treatment; storage and disposal of hazardous waste/materials through the lens of the cradle-to-grave concept. Gains knowledge about the hazardous waste enforcement processes. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 325 with C or better  |
| EGR     | 430         | Design, Fabrication, and Architecture of Electronic Devices | Comprehensive introduction to the design, operation, production and application of the most common semiconductor devices and categories of integrated circuit. Demonstrates the close interaction among materials, semiconductor physics and circuit performance, especially in terms of the applications and economics of digital systems.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 330 with C or better  |
| EGR     | 431         | Power Management  | Devices and techniques to supply and manage power in electrical systems.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 330 with C or better  |
| EGR     | 432         | Engineering Thermo-Fluids II                                | Thermodynamic analysis of mixtures and power cycles. Design and analysis of fluid systems, conduction heat transfer, and introduction to convection and radiation.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 340 with C or better; Credit is allowed for only EGR 432 or MET 432   |
| EGR     | 433         | Transforms and Systems Modeling                             | State-space and transform-domain modeling and analysis of electrical and electromechanical systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 216 with C or better; EGR 455 with C or better; MAT 274 or 275 with C or better; Pre- or corequisite(s): MAT 342 or 343 with C or better if completed |
| EGR     | 438         | RF Systems  | Applies fundamental principles of electromagnetics to design and analyze engineered RF systems and applications. Introduces and describes transmission lines, Smith Charts, s-parameters, waves in free space, reflection and refraction and their use in engineering systems.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): PHY 331; Credit is allowed for only EGR 438 or EGR 494 (Fundamentals of RF)   |
| EGR     | 444         | Engineering Design  | Applies fundamentals of mechanics in analysis and synthesis of machine components and systems, with emphasis on stress and failure.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 343 with C or better  |
| EGR     | 445         | Mechanical Engineering Systems                              | Design and modeling of multicomponent electromechanical systems. Applications of computers, controllers, electronics using system hardware and software development.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 219 with C or better; EGR 444 with C or better  |
| EGR     | 455         | Robotic Systems I   | Analysis and design of robotic systems focusing on kinematics, dynamics, coordinate transformations and modeling.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 217 with C or better; EGR 219 with C or better; Credit is allowed for only EGR 455 or EGR 394 (Robotics I)  |
| EGR     | 456         | Robotic Systems II  | Design of robotic systems focusing on dynamics, modeling and controlling a robot.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 455 with C or better; Credit is allowed for only EGR 456 or EGR 494 (Robotics II)   |
| EGR     | 463         | Vehicle Electrical Systems and Hybrid Systems               | Basic theory and operation of hybrid electric drive systems of motor vehicles. Covers fundamentals of next generation electrification including: batteries technology, charging, power electronic operation. Emphasizes the principals of HEV energy management strategies and HEV modeling fundamentals.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 216 with C or better; EGR 363 or EGR 394 (Intro to Concepts in Automotive Engineering) with C or better   |
| EGR     | 465         | Ground Vehicle Dynamics                                     | Basic understanding of vehicle dynamics principles and a sufficient knowledge to analyze vehicle dynamic performance and associated chassis system design concepts. Understanding of various dynamical equations of motion governing vehicle behavior as well as computer simulation.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 363 or EGR 394 (Intro to Concepts in Automotive Engineering) with C or better   |
| EGR     | 475         | Alternative Energy  | Covers basic principles, thermodynamics and economics of alternative energy conversion technologies including solar photovoltaics, concentrating solar, wind, biomass, nuclear, fuel cells and energy storage. Briefly discusses conventional heat and power systems as they pertain to alternative energy integration. Introduces operating characteristics of renewable energy technologies through simulation and then reinforces through hands-on demonstrations and experiments with renewable energy systems.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EEE 202, EGR 340, MAE 240, or PHY 151 with C or better  |
| EGR     | 476         | Microgrid Design and Operation                              | Design, modeling, integration, operation and maintenance of microgrids. Simulation-based design is coupled with hands-on integration to provide a comprehensive approach to microgrid systems.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): EGR 216, EEE 202, MAE 240, or PHY 151 with C or better  |
| EGR     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Engineering Programs | 1-12  |                 |  |
| EGR     | 492         | Honors Directed Study                                       | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.  | N                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Engineering Programs | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| EGR     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | LEC               | N               | Z1            | Ira A. Fulton Engineering | Engineering Programs | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| EGR     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 1-4   |                 |  |
| EGR     | 499         | Individualized Instruction                                  | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 1-3   |                 |  |
| EGR     | 500         | Research Methods  | Course on research methods in a specific discipline.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 520         | Engineering Analysis  | Analytical methods for evaluation of engineering systems.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 525         | Lean Systems  | Creates a framework and model of lean engineering and a methodology for applying lean practices to systems engineering as a basis for lean product development.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 530         | Principles of Systems Engineering                           | Engineering is increasingly about complex systems. Addresses scale, scope and complexity increase that engineers need to consider to bring together technical and social issues in a highly integrated way as they design flexible, adaptable, robust systems that can be easily modified and reconfigured to satisfy changing requirements and new technological opportunities.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; EGR 520  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department                                    | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|--|
| EGR     | 535         | Engineering Innovation and Entrepreneurship                             | Provides knowledge of innovation and entrepreneurship practices and experience in the application of engineering systems innovation within an entrepreneurial setting of driving a product or process to successful launch. Includes protection of intellectual property and contractual relations.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering      | Engineering Programs                          | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 565         | Qualitative Methods for Engineering Education Research                  | Provides a deep, empirical exposure to interpretive research methods in engineering education research.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering      | Engineering Programs                          | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 570         | Capstone Design   | Comprehensive project experience based on cumulative knowledge and skills gained in earlier course work. Small-group project designing, building, evaluating and analyzing components, assemblies and systems.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering      | Engineering Programs                          | 3     |                 | Pre-requisite: EGR 530   |
| EGR     | 572         | Quantitative Methods for Engineering Education Research                 | Specific quantitative analysis techniques used in the field of engineering education, with special focus on instrument design, ANOVA and multiple regression. Prior coursework or experience with basic statistical techniques is necessary to be successful in this course.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering      | Engineering Programs                          | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 574         | Engineering Education Systems in Context                                | Provides a systems understanding of current trends in engineering education research to engage engineering education research graduate students with the latest developments in the field in which they will situate their research projects.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering      | Engineering Programs                          | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Ira A. Fulton Engineering      | Engineering Programs                          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering      | Engineering Programs                          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 590         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering      | Engineering Programs                          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering      | Engineering Programs                          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 593         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering      | Engineering Programs                          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 594         | Conference and Workshop   | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering      | Engineering Programs                          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 595         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.                             | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering      | Engineering Programs                          | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 598         | Special Topics  | Topical courses not offered in regular course rotation—e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering      | Engineering Programs                          | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering      | Engineering Programs                          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 602         | Principles of Independent Research                                      | Practice of key components of independent research that include project planning, literature survey, interview, data collection and analysis, proposal development, technical writing and presentation.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering      | Engineering Programs                          | 3     |                 | Prerequisite(s): Engineering PhD major   |
| EGR     | 608         | Advanced Simulation   | Simulation has a central role in design, operation, optimization and evolution of complex systems. There are many tools but they have a common need for rigorous science/math, parameterized models and realistic validation. Uses and compares five common platforms.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering      | Engineering Programs                          | 3     |                 | Prerequisite(s): Engineering PhD major   |
| EGR     | 611         | Complex Engineering Systems   | Advanced concepts in design and evaluation of engineering systems: subsystems, systems architectures and seamless integration of subsystems.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering      | Engineering Programs                          | 3     |                 | Prerequisite(s): Engineering PhD major   |
| EGR     | 671         | Applications of Qualitative Methods for Engineering Education Research  | Provides a deep, situated exposure to making and handling data in qualitative engineering education research projects.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering      | Engineering Programs                          | 3     |                 | Prerequisite(s): EGR 565; PhD standing   |
| EGR     | 673         | Applications of Quantitative Methods for Engineering Education Research | Applies quantitative analysis techniques to an engineering education research project. Specific focus on data collection, instrument development, and ANOVA/regression analysis techniques. Prior coursework or experience with basic statistical techniques is necessary to be successful in this course.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering      | Engineering Programs                          | 3     |                 | Prerequisite(s): PhD standing; EGR 572   |
| EGR     | 792         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering      | Engineering Programs                          | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EGR     | 799         | Dissertation  | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering      | Engineering Programs                          | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ELL     | 504         | Instructional Design for Culturally and Linguistically Diverse Students | Provides a foundation in instructional design to meet the academic and linguistic needs of culturally and linguistically diverse students, with a focus on English language learners.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only BLE 404 or ELL 504 or SPE 404 |
| ELL     | 515         | Structured English Immersion (SEI) Methods                              | Addresses the role of language and culture in teaching, program types, and specific SEI strategies for teaching English Language Learners (ELLs).   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ELL     | 516         | Advanced SEI Methods for ELLs   | More fully prepares teachers for linguistically diverse classrooms in which there are students learning through SEI methodology.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ELS     | 501         | Environmental Life Sciences: Grand Challenge: Global Climate Change     | Introduces first-year graduate students to a range of fields related to the Environmental Life Sciences graduate program. Co-instructed by an interdisciplinary faculty team, combines overview lectures and active discussion of current literature in the fields of inquiry. Culminates in synthetic collaborative research proposals on topics that foster transdisciplinary approaches to environmental life science questions. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences      | School of Life Sciences                       | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                            | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department               | Units | General Studies | Requirements   |

| ELS     | 502         | Environmental Life Sciences: Field Camp | Combines lecture, field, and laboratory components; provides opportunities to develop field skills relevant to current questions in environmental life science, and to carry out a wide range of observations and measurements in natural systems. Instructed by an interdisciplinary faculty team. Travel out of the country is required and students need to be in possession of a valid passport.   | N                 | PRA               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences  | 4     |                 | Pre-requisites: ELS 501  |
| ELS     | 535         | Sustainable Ecosystems                  | How human activities and management practices alter biodiversity, ecosystem functioning and the provisioning of ecosystem services; use of economic and other social-science perspectives to estimate the value of ecosystem services; evaluation of options for achieving the sustainable flow of services from ecosystems.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences  | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only ELS 535 or SOS 535  |
| ELS     | 591         | Seminar                                 | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences  | 1-12  |                 |  |
| ELS     | 598         | Special Topics                          | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences  | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ELS     | 700         | Research Methods                        | Course on research methods in a specific discipline.   | Y                 | RSC               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ELS     | 784         | Internship                              | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences | School of Life Sciences  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ELS     | 790         | Reading and Conference                  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | RSC               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ELS     | 792         | Research                                | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Life Sciences  | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ELS     | 795         | Continuing Registration                 | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | RSC               | Y               | Z3            | Liberal Arts and Sciences | School of Life Sciences  | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ELS     | 799         | Dissertation                            | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences | School of Life Sciences  | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EMS     | 501         | Sustainability Leadership Workshop I    | Formally takes students into the four learning threads of the EMSL program and the ASU brand of sustainability. Hands-on collaboration and group time with peer cohort members, field trips and deep diving into discussion, and application of sustainability theories into real-world scenarios. Sustainability speakers and practitioners engage students in critical thought.  | N                 | SEM               | N               | OPT           | School of Sustainability  | School of Sustainability | 1     |                 | Prerequisite(s): Executive Masters for Sustainability Leadership major   |
| EMS     | 502         | Global Context I                        | Examine global sustainability issues, determine materiality for their organization and practice communicating this information to critical stakeholders, i.e., translating the complex global context into compelling organizational realities. Applies tools to identify relevant risks and opportunities within their organizational context and investigates potential responses.   | N                 | LEC               | N               | OPT           | School of Sustainability  | School of Sustainability | 2     |                 | Prerequisite(s): Executive Masters for Sustainability Leadership or Master of Sustainability Leadership major; Corequisite(s): EMS 503; Pre- or corequisite(s): EMS 501 or SOS 501 |
| EMS     | 503         | Strategic Sustainability I              | As a foundational course in strategic sustainability, focuses on sustainability as a strategic lens. Explores the interface among strategy, sustainability and ongoing success, developing a framework for strategic sustainability that underpins authentic and transparent strategic efforts. Identifies the different levels and implications of organizational maturity from a strategic sustainability perspective. Engages in systems mapping, planning and prioritizing methods, tools and techniques to identify and assess strategic opportunities. | N                 | LEC               | N               | OPT           | School of Sustainability  | School of Sustainability | 2     |                 | Prerequisite(s): Executive Masters for Sustainability Leadership or Master of Sustainability Leadership major; Corequisite(s): EMS 502; Pre- or corequisite(s): EMS 501 or SOS 501 |
| EMS     | 504         | Communications and Sustainability I     | This foundational course for professional communications aims to create chief sustainability storytellers. Helps students survey their internal communications environments, understand their target audiences and their unique customer centricities, and develop their voices through the use of proven story structures and techniques.   | N                 | LEC               | N               | OPT           | School of Sustainability  | School of Sustainability | 2     |                 | Prerequisite(s): EMS 502, 503. Corequisite(s): EMS 505   |
| EMS     | 505         | Sustainability Leadership I             | Focuses on emerging sustainability leadership. Students meld powerful and traditional leadership skills while challenging their prior knowledge with a multiple lens examination of leadership in a sustainability context. Provides a view of oneself to prepare students to better understand others. Students create the first phase of their personal plans for their unique needs and individual growth toward sustainability leadership.   | N                 | LEC               | N               | OPT           | School of Sustainability  | School of Sustainability | 2     |                 | Prerequisite(s): EMS 502, 503. Corequisite(s): EMS 504   |
| EMS     | 506         | Global Context II                       | Building on the skills gained in previous course work, explores proactive response strategies to material global sustainability challenges and opportunities. Examine how organizations can evolve from risk avoidance and compliance to innovation and thought leadership and explores what role they can play as sustainability leaders.   | N                 | LEC               | N               | OPT           | School of Sustainability  | School of Sustainability | 2     |                 | Prerequisite(s): EMS 504, 505; Corequisite(s): EMS 507   |
| EMS     | 507         | Strategic Sustainability II             | Uses reframing, re-visioning and backcasting via a sustainability lens as constructs for introducing strategic sustainability across all aspects of an organization both internally and externally. Students apply and integrate various science-based methods, used successfully by organizations large and small, for developing flexible action platforms for sustainable enterprises. Expects students to create a strategic vision and action plan for an organization.   | N                 | LEC               | N               | OPT           | School of Sustainability  | School of Sustainability | 2     |                 | Prerequisite(s): EMS 504, 505. Corequisite(s): EMS 506   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                  | Department               | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|--------------------------|--------------------------|-------|-----------------|--|
| EMS     | 508         | International Immersive                             | The international immersive experience takes place in a compelling location where all the challenges and opportunities of sustainability are in play. It is designed as a dynamic vehicle to make real-world connections to sustainability leaders, projects and communities, and is among the most memorable experiences of the program. Students "see" and "feel" sustainability from another country and culture's perspective and see the overlap and conflict to their own context. Extending one's professional network to other host countries and generating a reflective experience and analysis report are experiential learning artifacts that are generated from this experience. Collaborative teams work through a sustainability case study and present their solutions. | N                 | SEM               | N               | OPT           | School of Sustainability | School of Sustainability | 2     |                 | Prerequisite(s): EMS 506, 507                                  |
| EMS     | 509         | Communications and Sustainability II                | Focuses on audiences and looks at how and where students are telling their stories of sustainability. Students map internal, external and target audiences/markets, strategize channels to reach them with their sustainability stories, and create multi-channel communications plans that incorporate modes of engagement for all audiences.  | N                 | LEC               | N               | OPT           | School of Sustainability | School of Sustainability | 2     |                 | Prerequisite(s): EMS 506; EMS 507;<br>Corequisite(s): EMS 510  |
| EMS     | 510         | Sustainability Leadership II                        | Challenges prior definitions of systems, responsibility and community from a sustainability and leadership perspective. Also provides a toolbox for leading with sustainability as a fundamental success platform. Provides information needed for students to better understand others, a necessary skill to be able to persuasively lead others to transform their organization into a sustainable enterprise. The focus shifts away from being centered around oneself and towards a focus on audience/stakeholders. Students continue to develop their personal leadership skills.  | N                 | LEC               | N               | OPT           | School of Sustainability | School of Sustainability | 2     |                 | Prerequisite(s): EMS 506; EMS 507;<br>Corequisite(s): EMS 509  |
| EMS     | 511         | Global Context III                                  | Expands student perspectives beyond the needs of their organizations and considers what could be gained from industry and cross-industry collaborations. Assesses the implications of changes in leadership perspectives to their organizational contexts.  | N                 | LEC               | N               | OPT           | School of Sustainability | School of Sustainability | 2     |                 | Prerequisite(s): EMS 509, 510.<br>Corequisite(s): EMS 512      |
| EMS     | 512         | Strategic Sustainability III                        | Focuses on expanding efforts for strategic planning and sustainable success beyond the bounds of a given enterprise through strategic collaboration, partnering, innovation and resource development. Applies strategic sustainability as a tool for developing synergistic collaborations and driving innovation for more sustainable enterprises and enterprise systems. Also develops sustainability-informed collaborative approaches to identify and garner resources for strategic imperatives.   | N                 | LEC               | N               | OPT           | School of Sustainability | School of Sustainability | 2     |                 | Prerequisite(s): EMS 509, 510.<br>Corequisite(s): EMS 511      |
| EMS     | 513         | Communications and Sustainability III               | Ignites the storyteller within as students learn to think like authors; craft their stories in scenes; and produce their presentations to entertain, educate and engage their audiences to move them to action. Reveals the students' transformation into courageous storytellers in presentations that combine their compelling narratives with captivating visual storytelling. Also creates social media editorial calendars to publish their stories to help express their thought leadership in sustainability online. By the end of this course, students learn how to own any room, from the boardroom and break room to the chat room and living room.  | N                 | LEC               | N               | OPT           | School of Sustainability | School of Sustainability | 2     |                 | Prerequisite(s): EMS 511; EMS 512;<br>Corequisite(s): EMS 514  |
| EMS     | 514         | Sustainability Leadership III                       | Focuses on transformational leadership for global success, which requires students to identify and apply pathways to inspire, persuade and influence others to act toward a shared global vision. Some of the challenges that all future sustainability leaders face are future orientation; reframing organizations to be globally scalable yet locally focused; and redefining success and growth using sustainability as a success lens. These are just a few of the challenging tasks that sustainability leaders face. Importantly, sustainable leadership involves being an effective change leader, and this course provides the tools and learning needed to initiate and sustain change.   | N                 | LEC               | N               | OPT           | School of Sustainability | School of Sustainability | 2     |                 | Prerequisite(s): EMS 511, 512.<br>Corequisite(s): EMS 513      |
| EMS     | 515         | Capstone I  | Capstone project and gateway to starting innovative sustainability initiatives and thinking. Planning, components and deliverables of the capstone from the first in-person immersion in January. Students perform a proof of concept to show viability and applicability that serves as a springboard for postgraduation continuation of capstone project into their organizations; environments. The proof of concept also becomes the final component of the e-portfolio.  | N                 | SEM               | N               | OPT           | School of Sustainability | School of Sustainability | 2     |                 | Prerequisite(s): EMS 513, 514                                  |
| EMS     | 516         | Capstone II - Sustainability Leadership Workshop II | Develops a proof of concept based on project proposal and feasibility study. Requires a TED-style final project presentation.   | N                 | SEM               | N               | OPT           | School of Sustainability | School of Sustainability | 1     |                 | Prerequisite(s): EMS 515                                       |
| EMS     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | Z1            | School of Sustainability | School of Sustainability | 0     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EMS     | 586         | Introduction to MSL Capstone                        | Students select and prepare for their final capstone project in the MSL program. Students have an opportunity to present and discuss their concepts and plans with faculty and with other students in the cohort. Students also learn project management techniques for completing their capstone project.  | N                 | LEC               | N               | GNA           | School of Sustainability | School of Sustainability | 1     |                 | Prerequisite(s): EMS 504; EMS 505                              |
| EMS     | 587         | MSL Capstone Preparation                            | Students take their culminating capstone project from proposal to hands-on implementation. Students connect, network, leverage, test, adapt and finally implement their capstone projects.  | N                 | LEC               | N               | GNA           | School of Sustainability | School of Sustainability | 1     |                 | Prerequisite(s): EMS 586                                       |
| EMS     | 588         | MSL Capstone  | Students complete and fully implement their capstone projects.  | N                 | RSC               | N               | GNA           | School of Sustainability | School of Sustainability | 2     |                 | Prerequisite(s): EMS 587                                       |
| EMS     | 590         | Reading and Conference                              | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic  | Y                 | IND               | Y               | Z1            | School of Sustainability | School of Sustainability | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EMS     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | School of Sustainability | School of Sustainability | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EMS     | 593         | Applied Project                                     | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | School of Sustainability | School of Sustainability | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EMS     | 594         | Conference and Workshop                             | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | School of Sustainability | School of Sustainability | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |

| ENG     | 205         | Introduction to Writing, Rhetorics and Literacies | How do we understand the ways in which people in systems--both small and large--social, political, and economic, throughout the world use language and other symbolic resources to carry out work? Three fields of study take this kind of questioning especially seriously: studies in writing, studies in rhetoric, and studies in literacy. Inquiry--that persistent, deliberate commitment to question and to build methods sufficient to that questioning--is a generative force in each of these fields of study. Familiarizes students with such questioning traditions and to help them judge for themselves what each is good for. The goal is to strengthen your own repertoire and decision-making power for producing and circulating work (widely defined across material, print, and digital media) that matters in our risk-ridden world. Quite simply, then, this is a course in asking good questions and in evaluating responses to situations that spur questioning. | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | Department of English                            | 3     | L               | Prerequisite(s): ENG 102, 105, or 108 with C or better  |

| ENG     | 229         | Love and Lust in Medieval Literature              | The medieval period, roughly 600-1500, cannot reasonably be called the "dark ages." Indeed, the Middle Ages provides us with a corpus of literature replete with complex characters struggling to live and love, dealing with sin and lust, unity and diversity, faith and reason within a tumultuous cultural milieu and religious rigor, all of which are feeling the winds of changes. Explores medieval literature, noting the astonishing differences from our own time, as well as surprising similarities. Western civilization, our own 21st century, for better or for worse, is indebted to the love and lust of the medievals.   | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     |                 | Prerequisite(s): ENG 102, 105 or 108 with C or better; Credit is allowed for only ENG 229 or 294 (Love and Lust in Medieval Lit)                             |

| ENG     | 235         | Introduction to Contemporary Theory               | Introduces key ideas and concepts in contemporary critical and cultural theory. In addition to the "posts"--postmodernism, poststructuralism, post-Marxism, postcolonial studies, post-feminism and posthumanism--explores new theoretical formations that have emerged in response to our contemporary social condition, such as queer theory, trauma theory, disability studies, cognitive studies, the new "object-oriented" philosophies and materialist theories. And then there's the "trans" domains--transnationalism, transgender studies and transhumanism--which, like so many contemporary theoretical formations opens up new perspectives on where and how we live, who we are and even what we are. The contemporary theories studied in this course provide the tools for understanding 21st-century life and the limits and enjoyments of our humanity. | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | Department of English                            | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only ENG 235 or ENG 294 (Literary Theory & Interdisciplinary Studies) or ENG 294 (Introduction to Contemporary Theory) |

| ENG     | 315         | Medieval Literature in Translation            | Medieval literature (insular and continental) in translation, from Beowulf to Malory (excluding Chaucer), emphasizing cultural and intellectual backgrounds.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Department of English                            | 3     | HU              | Prerequisite(s): ENG 102, 105, or 108 with C or better (FYC)   |
| ENG     | 315         | Medieval Literature in Translation            | Medieval literature (insular and continental) in translation, from Beowulf to Malory (excluding Chaucer), emphasizing cultural and intellectual backgrounds.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | HU              | Prerequisite(s): ENG 102, 105, or 108 with C or better (FYC)   |
| ENG     | 316         | Literary Readings of the Hebrew Bible         | Literary analysis of two of the main genres of the Hebrew Bible: narrative art and poetry. Students learn the main literary conventions of biblical prose and poetry, and how these conventions are applied or subverted. Each class comprises the study of a literary aspect, close readings, and thematic discussions. Biblical texts are read only in translation. They are situated in the religious, literary and artistic traditions that have developed on their basis.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Department of English                            | 3     | L or HU         | Prerequisite(s): minimum 45 hours. Credit is allowed for only ENG 316, HEB 316, JST 316, REL 316 or HEB 394 (Literary Readings of the Bible) |
| ENG     | 317         | Cross-Cultural Writing                        | Cultural differences and their impact on writing and/or their role in miscommunication and misinterpretation.   | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts         | 3     | (L or HU) & G   | Prerequisite(s): ENG 102, 105, or 108 with C or better (FYC)   |
| ENG     | 317         | Cross-Cultural Writing                        | Cultural differences and their impact on writing and/or their role in miscommunication and misinterpretation.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Department of English                            | 3     | (L or HU) & G   | Prerequisite(s): ENG 102, 105, or 108 with C or better (FYC)   |
| ENG     | 317         | Cross-Cultural Writing                        | Cultural differences and their impact on writing and/or their role in miscommunication and misinterpretation.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | (L or HU) & G   | Prerequisite(s): ENG 102, 105, or 108 with C or better (FYC)   |
| ENG     | 318         | The Life and Death of Languages               | The history of language development, spread and contraction as well as thinking on where language may be going in the future. Discusses how languages differentiate and become new languages, how they mix with each other and how the development of writing can change this process. Maintains a focus on the ways speakers from different language communities have found to communicate through pidgin languages, bilingualism and languages of wider communication. Moreover, discusses the invention of new varieties and languages by people who feel their current choices do not fit their needs. Lastly, in considering what might be needed in the future, addresses issues such as machine translation, brain-to-brain communication, aspects of intergalactic communication posed in science fiction and interspecies communication. | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | Department of English                            | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only ENG 318 or ENG 394 (The Life and Death of Languages)      |
| ENG     | 320         | Medievalism in Modern Culture                 | Studies the representation of Medieval narratives, characters, themes, myths, and images in modern culture.   | Y                 | LEC               | Y               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts         | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better (FYC)   |
| ENG     | 320         | Medievalism in Modern Culture                 | Studies the representation of Medieval narratives, characters, themes, myths, and images in modern culture.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Department of English                            | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better (FYC)   |
| ENG     | 321         | Shakespeare                                   | Readings in Shakespeare's major comedies, tragedies, histories, romances and/or poems.  | N                 | LEC               | N               | OPT           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts         | 3     | L or HU         | Prerequisite(s): ENG 102, 105, or 108 with C or better (FYC)   |
| ENG     | 321         | Shakespeare                                   | Readings in Shakespeare's major comedies, tragedies, histories, romances and/or poems.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Department of English                            | 3     | L or HU         | Prerequisite(s): ENG 102, 105, or 108 with C or better (FYC)   |
| ENG     | 321         | Shakespeare                                   | Readings in Shakespeare's major comedies, tragedies, histories, romances and/or poems.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | L or HU         | Prerequisite(s): ENG 102, 105, or 108 with C or better (FYC)   |
| ENG     | 323         | Rhetoric and Grammar                          | Practical course taught in the computer lab. Emphasizes rhetorical strategies and grammar for writers.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | L               | Prerequisite(s): ENG 102, 105, or 108 with C or better (FYC)   |

Requires term paper or equivalent out-of-class written work.   | N                 | SEM               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     |                 | Prerequisite(s): ENG 210 or 288 with C or better; Credit is allowed for only ENG 310 or ENG 388                         |
| ENG     | 390         | Methods of Inquiry  | Studies in writing, rhetoric and literacy are multiple and diverse because these areas deal with complicated ways people create meaning, circulate meaning, and understand meaning in a variety of contexts and a variety of modal formats. Examines ways of developing research problems and questions, designing studies and conducting, reading and evaluating research in the areas of writing, rhetoric and literacy. Qualitative methods (e.g., case study, ethnographic methods, interviewing); historical methods (e.g., archival, document analysis and artifact interpretation); rhetorical analysis and discourse analysis; feminist approaches to research and analysis; and recent advances in research in the fields of rhetoric, writing and literacy studies. Investigates the many attitudes and assumptions about creativity and cultural work that make methods of inquiry as controversial as they are significant to contemporary public | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | Department of English                            | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better  |

|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|------------------------------|--|-------|-----------------|--|
| ENG     | 391         | Writing in Context                     | How do we understand the ways in which people use written language to carry out work in professional, academic, social and/or personal contexts? How does our understanding of the ways writing is produced for an audience shift between and among these different contexts? More importantly, how do writers adapt their writing practices in order to facilitate audience understanding as well as cultivate an audience's capacity for action? Familiarize students with rhetorical practices that position them to read, assess and respond to the rhetorical demands of a wide range of writing contexts. Strengthens students' existing rhetorical skill sets and problem-setting capacities for producing and circulating work (widely defined across material, print and digital media) that responds to a range of problems in an applied manner. Assesses the rhetorical demands of writing contexts and in developing and producing tailored, audience-specific texts that forward work in complex, interdisciplinary environments. | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | Department of English                            | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better   |
| ENG     | 392         | History of Rhetorical Theory           | Begins in ancient Greece with the rise of the art of public oratory (known as rhetoric) and ends in the present, an era dominated by mass media. Engages in a great deal of reading--lots of very old writings as well as some newer ones. Covers a great many topics and ideas; focuses by continually returning to the subject of public discourse. Challenging readings designed to emphasize the connection between systems of philosophy (or "worldview") and systems of communication. By focusing on big ideas, students become a better thinker and communicator in any chosen career.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | Department of English                            | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better   |
| ENG     | 393         | Theories of Literacy                   | While theories of literacy have, for the most part, been determined by the primacy of reading and writing script, more recent scholarship in literacy theory and history has served to challenge such limitations. Many contemporary perspectives on literacy view scripted text as one component of complex acts and practices of written communication that occur in social contexts. Studies that examine such communicative acts in their local contexts reveal that literate practices and the texts that are produced are imbued with social and cultural values and traditions and the needs and desires of individuals. As the statements above illustrate, theories of literacy themselves are embedded within the values and assumptions of individuals, institutions, and academic specialization. Examines some of these theories, their influences on academic scholarship and pedagogy, the ideological assumptions that inform them, and how we might view these theories within broader social-cultural landscapes.             | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | Department of English                            | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better   |

| ENG     | 485         | Digital Tools   | Digital (online, electronic) tools as best utilized in language arts curriculum and instruction for junior and senior high schools. Addresses many practical classroom matters; broadens knowledge of Web 2.0 opportunities for teaching and learning. Creates a detailed inventory of the digital tools familiar to secondary students, and compares these to what a clever English teacher can access in a public school classroom. Imaginations, studies, and designs digital tools to enhance student achievement. Uses digital tools to increase student access to history and culture and opportunities for individuals to find and articulate their voices, as well as opens avenues for their creativity. Empowers the English language arts classroom with critical understandings of media, culture and public relations (digital information manipulation) and develops secondary students from passive consumers to literate participants in democracy. | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | Department of English                            | 3     |                 | Prerequisite(s): English (Secondary Education) BA major; ENG 102, 105, 108 and one other ENG course with C or better   |

| ENG     | 486         | Teaching Text   | Approaches to texts (poetry, nonfiction and fiction) as best utilized in language arts curriculum and instruction for junior and senior high schools. Language arts teachers want all of their students to love literature and become immersed in the texts they assign (poems, short stories, plays, nonfiction and informative texts, and novels). Explores activities and philosophies for building a strong reading workshop in the secondary language arts classroom. Through identifying proficient readers, conducting thoughtful conversations about students and reading, and using a variety of ways to invite readers into books, designs and experiences reading workshops based on innovative and effective teaching strategies. Offers hands-on strategies for supporting struggling readers and for teaching reading from a critical lens.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | Department of English                            | 3     |                 | Prerequisite(s): English (Secondary Education) BA major; ENG 102, 105 or 108 and one other ENG course with C or better; Credit is allowed for only ENG 486 or 598 (Teaching Text)  |

| ENG     | 571         | Foundations for Teaching English Learners             | Provides teachers with foundational knowledge of English language learner education including: identification and knowledge of English language learners in school contexts, the role of culture in learning, principles of second language acquisition and teaching, historical and current perspectives and policies related to English learner education, and the role of parents and communities in the education of English learners.  | N                 | LEC               | Y               | GNA           | Liberal Arts and Sciences    | Department of English                            | 3     |                 | Prerequisite(s): ENG 580 (1 hour); Credit is allowed for only ENG 571 or ENG 598 (Foundations for Teaching English Learners)   |
| ENG     | 572         | Strategies for Teaching English Learners              | Supports teachers through a review of core knowledge of strategies and correlated assessments for the instruction of English learners. Teachers learn to assess EL language needs and apply appropriate teaching strategies for supporting learning English and content. Primary emphasis is in the integration of EL language and learning needs and implementation of lesson planning, strategies and appropriately leveled instruction. Teachers complete a semester-long inquiry on integrating course content into their teaching practices. | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | Department of English                            | 3     |                 | Prerequisite(s): ENG 571; Pre- or corequisite(s): ENG 580 (2 hours); Credit is allowed for only ENG 572 or ENG 598 (Strategy/Assessment/Core for Teaching Eng Learners)            |
| ENG     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences    | Department of English                            | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

| ENG     | 652         | Advanced Composition Studies   | Selected topics on particular composition theories, practices, pedagogies, and figures.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences     | Department of English                         | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ENG     | 654         | Advanced Studies in Rhetoric, Writing, Technology, and Culture       | Advanced study of theoretical, methodological, and pedagogical issues concerning the interrelationships among rhetoric, culture, writing, and writing technologies.   | N                 | SEM               | Y               | OPT           | Liberal Arts and Sciences     | Department of English                         | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ENG     | 655         | Disciplinary Discourses  | Investigation of professional and disciplinary issues related to linguistics and applied linguistics.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences     | Department of English                         | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only ENG 655 or LIN 655   |
| ENG     | 656         | Studies in Cross-Cultural Discourse                                  | Theoretical and methodological issues in the comparative study of discourses between cultures and communities of practice.  | N                 | SEM               | Y               | OPT           | Liberal Arts and Sciences     | Department of English                         | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ENG     | 662         | Poetic Genres  | Creative writing courses in the long poem, the erotic image, death and transfiguration, reading and influence, and others.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences     | Department of English                         | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ENG     | 664         | Mixed Genres   | Creative writing courses in the prose poem, magical realism, the literature of obsession.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences     | Department of English                         | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ENG     | 665         | Creative Methods   | Creative writing courses in theory of the novel, poetics, story into film, and others.  | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences     | Department of English                         | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ENG     | 667         | Issues in the Writing Professions                                    | Focuses on career preparation, resources, the role of writing in the community, creative writing, and the Internet.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences     | Department of English                         | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ENG     | 680         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences     | Department of English                         | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ENG     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences     | Department of English                         | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ENG     | 695         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences     | Department of English                         | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ENG     | 780         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences     | Department of English                         | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ENG     | 784         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences     | Department of English                         | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ENG     | 790         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences     | Department of English                         | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ENG     | 791         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences     | Department of English                         | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ENG     | 792         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences     | Department of English                         | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ENG     | 795         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences     | Department of English                         | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ENG     | 799         | Dissertation   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Liberal Arts and Sciences     | Department of English                         | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ENT     | 305         | Principles of Entrepreneurship                                       | Entrepreneurship, with an interdisciplinary basis, focusing principles that involve the startup of a new organization, as well as its management into a fully established firm. Specific discipline-based concepts range from marketing to finance and strategic management.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Management and Entrepreneurship | 3     |                 | Prerequisite(s): W.P. Carey Business Entrepreneurship BS major or Entrepreneurship and Innovation certificate or Small Business and Entrepreneurship certificate; minimum 2.50 GPA; minimum 30 hours  |
| ENT     | 340         | Creativity and Innovation  | Teaches key concepts and useful tools and techniques of creativity and innovation to students in order to encourage development of creative skills and habits that can propel them in their career or guide them down a path to start a new venture of their own. Coursework and activities involve complex problem solving activities and relevant trend and environmental analysis in order to explore alternative approaches to challenges. Coursework includes both individual and team activities. | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Management and Entrepreneurship | 3     | L or HU         | Prerequisite(s): W.P. Carey BS or BA student OR non-bus student with min 2.50 ASU GPA and min 56 hours; Pre- or corequisite(s): MGT 290 or 294 (My Life Venture); Credit is allowed for only ENT 340 (or MGT 340), MGT or WPC 394 (Creativity & Innovation) |
| ENT     | 360         | Entrepreneurship and Value Creation                                  | In-depth application of entrepreneurial concepts including opportunity recognition, value creation and new business management. Identifies the needs of a market and problem solves to meet those needs through innovation. Covers common mistakes made in the new venture process and how to work to avoid these mistakes.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Management and Entrepreneurship | 3     |                 | Prerequisite(s): Business undergrad with ACC 241 or 242 with C or better OR Engineering junior OR non-Business junior with minimum 2.50 cumulative GPA; Credit is allowed for only ENT 360 or FSE 301   |
| ENT     | 440         | Entrepreneurship   | Prepares students for the challenges of assembling and growing high-potential innovative ventures through the use of analytical frameworks that encompass uncertainty inherent in entrepreneurship (or in entrepreneurial activity). In-depth discussion of cases provides a strong empirical foundation.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Department of Management and Entrepreneurship | 3     |                 | Prerequisite(s): W.P. Carey BA or BS major; FIN 300, 302, or 303 with C or better; MGT 300, 303, or 310 with C or better  |
| ENT     | 441         | Entrepreneurial Management   | Provides a framework for dealing with issues from an entrepreneur's perspective. Covers all areas of entrepreneurship from idea conception to prototype development, to testing, refining and harnessing resources. Covers readings and cases related to topics of business models, business plans, managing startups, business law, founder's issues, managing growth, broad business functions and overall strategic and financial positioning.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Management and Entrepreneurship | 3     |                 | Prerequisite(s): W.P. Carey Business Entrepreneurship BS major; ENT 305 with C or better; MGT 360 with C or better  |
| ENT     | 445         | Business Model Development   | Develops a complete strategic business model emphasizing the planning process undertaken by successful small business owners and entrepreneurs.   | N                 | LEC               | N               | OPT           | W.P. Carey School of Business | Department of Management and Entrepreneurship | 3     |                 | Prerequisite(s): W.P. Carey BA or BS major; ENT 440 (or MGT 440) with C or better   |

| ENT     | 446         | Venture Capital Experience                     | Students learn the details of the startup funding process and available resources. Exposes the history of venture capital and other types of capital, current trends, and the trends that are anticipated in the future. Students learn due diligence process as performed by investors and applies these concepts to building and growing their own ventures. Coursework includes both individual and team activities and is open to students in any major of study with the required   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Management and Entrepreneurship | 3     |                 | Prerequisite(s): W.P. Carey BA or BS major; ACC 240, 241, or 242 with C or better OR non-business student; minimum 2.50 GPA; minimum 56 hours; Credit is allowed for only ENT 446 (or MGT 446) or MGT 494 (Venture Capital Experience)     |
| ENT     | 447         | Lean Launch                                    | Students learn lean and customer development methodologies to test assumptions made about a new business concept that they wish to explore or launch. Teaches how to effectively utilize business models and critically assess the assumptions made through the testing of hypotheses to create innovative and market-ready ventures. Includes weekly presentations of learning points and team activities outside of the classroom. Open to students in any major of study with the required prerequisite.  | N                 | LEC               | N               | GNA           | W.P. | ENV     | 191         | First-Year Seminar                             | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.   | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 1-3   |                 |  |
| ENV     | 194         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 1-4   |                 |  |
| ENV     | 201         | Fundamentals of Environmental Science          | Examines the functioning of the earth system and how it has changed over long and short time scales. Emphasizes understanding global processes and how human activities can disrupt these processes, changing the ability of our global environment to support life. Also emphasizes important feedbacks between biological and physical processes and their effects on the biosphere. Discusses the response of natural and managed ecosystems to global change along with prospects for the future.  | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 3     |                 | Prerequisite(s): BIO 181 and 182 with C or better; CHM 116 with C or better  |
| ENV     | 294         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 1-4   |                 |  |
| ENV     | 302         | Plants and Civilization                        | Plants and plant products used by people throughout the world. Cultivation, processing, and uses in modern life (beverages, fibers, foods, medicinals, and perfumes).  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 3     |                 |  |
| ENV     | 310         | Soil Science                                   | Fundamental principles of soil science, including physical, chemical, biological and ecological properties. Applies these principles to explain the importance of soil as both a natural resource and ecosystem. Discusses the role of soils as the heart of terrestrial ecosystems, both natural and managed, and the importance of this key natural resource to environmental health and biological productivity. Explores how human activity and global change are impacting this vital natural resource and ecosystem that is crucial to life on earth. The laboratory component also introduces applications and standard methodology for investigating these principles. | N                 | LEL               | N               | GNA           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 4     |                 | Prerequisite(s): BIO 320 with C or better; CHM 116 with C or better; PHY 101 or higher with C or better  |
| ENV     | 345         | Spatial Analysis in the Environmental Sciences | Develops an understanding of the methods, tools and technologies used to collect, display, analyze and interpret spatial data in environmental science and natural resource management. Provides overview of geographic information system (GIS) applications in these fields. Basics of integrating the global position system (GPS) and remote sensing (RS) into GIS to solve problems in environmental science and natural resource management.   | N                 | LEL               | N               | GNA           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 3     |                 | Prerequisite(s): ENV 201 with C or better  |
| ENV     | 385         | Environmental Impact Assessment                | An understanding of federal and state environmental laws, including the scientific processes that are incorporated into decision making, is critical for a variety of careers in the environmental sciences. Provides an overview of these laws and processes and develops the specific written and oral communications skills needed for many environmental, biophysical and natural science professions.   | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 3     |                 | Prerequisite(s): ENV 201 with C or better  |
| ENV     | 388         | Research Fundamentals for the Natural Sciences | Teaches research skills in the natural sciences. Topics covered include the basic research techniques of the study organism and system, experimental design, literature searches, statistical analysis and preparation of scientific papers and posters.   | N                 | LEL               | N               | GNA           | New Interdis Arts & Sciences  | School of Mathematical and Natural Sciences   | 3     | L               | Prerequisite(s): BIO 181; BIO 182 OR ACO 320 OR MAT 272; Credit is allowed for only LSC 388 or LSC 498 (Research Fundamentals for the Natural Sciences) or ENV 388 or FOR 388 or PLB 388 or PTX  |

| ENV     | 499         | Individualized Instruction                            | Provides an opportunity for original study or investigation in the major or field of specialization, on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. This course may be taken only by outstanding senior students who have completed at least one semester in residence and who have a cumulative GPA of 3.00 or higher in the major or field of specialization. A special class fee may be required.  | Y                 | IND               | Y               | Z1            | New Interdis Arts & Sciences   | School of Mathematical and Natural Sciences   | 1-3   |                 | Prerequisite(s): minimum 45 hours                              |
| EPA     | 500         | Research Methods                                      | Course on research methods in a specific discipline.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 |  |
| EPA     | 532         | Becoming an Informed Consumer of Educational Research | Development of critical analyses skills in the examination and synthesis of educational research.  | N                 | SEM               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EPA     | 555         | Translating Research for Educational Change           | Teaches educators how to translate research to promote educational change in their schools and districts. Three concepts emerge to empower practitioners to translate research to their individual schools and communities: (1) a needs assessment to understand the context (student population, community, networks); (2) an emphasis on the generalizability of research to provide an understanding of which findings are most applicable to specific contexts at which times and under which conditions; and (3) explicit training on ways of knowing to encourage practitioners to develop their own theoretical perspectives and test them against the academic research.   | N                 | SEM               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EPA     | 556         | Data Analysis for Education Decision Makers           | Prepares educators to use the sources of information (i.e., results, reports and interactive programs) at their disposal to make educational decisions. Dynamic content is adapted based on the real-world information sources brought forth by the course participants.   | N                 | SEM               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EPA     | 559         | Systematic Inquiry for Problem Solving                | Trains participants to produce a policy analysis aimed at addressing a problem they identify within their own organizations. Participants identify a problem, gather, analyze data and evidence to draw conclusions, and clearly and succinctly report their findings and recommendations to policymakers.   | N                 | SEM               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EPA     | 565         | Critical Topics in Education Policy                   | Critical topics in contemporary educational policy debates in the USA. Explores the dominant ideological and theoretical perspectives about what should be the purposes of schooling. Students analyze the humanist, core-curriculum, vocational, pragmatic as well as the standards-based, market-driven, professionally led, and networked models of reform, theories of change, implementation challenges, and the critiques leveled against these approaches. Students analyze critical topics such as policy formation, leadership, teachers unions, academic performance and community involvement. Encourages students to learn critical "policy skills" and reach reflexive and research-based conclusions about what are the requirements to develop "good school systems" and what their their individual and collective contributions could be. | N                 | SEM               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EPA     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 |  |
| EPA     | 583         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 |  |
| EPA     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 |  |
| EPA     | 590         | Reading and Conference                                | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | REC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EPA     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EPA     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 |  |
| EPA     | 593         | Applied Project                                       | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 |  |
| EPA     | 594         | Conference and Workshop                               | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 |  |
| EPA     | 595         | Continuing Registration                               | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 |  |
| EPA     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-4   |                 |  |
| EPA     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 |  |
| EPA     | 691         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EPA     | 784         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EPA     | 790         | Reading and Conference                                | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |

| ERM     | 203         | Environmental Regulations                               | Explains and discusses federal environmental laws and regulations that apply to the field of environmental management. Addresses the most important Arizona state and county/local regulations that impact decision making in the environmental management practice area. Emphasizes the federal-level requirements, including laws that are most likely to be used by professionals who are not lawyers and working in positions having environmental management and engineering assignments. Uses case studies to help students learn how the laws are applied and implemented in practical situations. Develops an understanding of the fundamentals of environmental laws and regulations. Provides essential knowledge used by environmental and engineering professionals who manage regulatory issue problem solving for industry, government, consulting firms, military installations, academic institutions and nonprofit organizations. | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): any SG or SQ course   |
| ERM     | 294         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 1-4   |                 |  |
| ERM     | 302         | Water and Wastewater Treatment Technology               | Explores the development of treatment technologies. Addresses regulatory standards. Emphasizes theory and practice of system design, lab analysis standards and procedures.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): CHM 101 or 113; MAT 170 or higher   |
| ERM     | 364         | Toxicology and Biohazards in Emergency Management       | Introduces poisons. Dose response routes of exposure and toxicokinetics. Diseases associated with natural disasters. Clinical presentation of treatments.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 |  |
| ERM     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 1-4   |                 |  |
| ERM     | 401         | Hazardous Waste Management                              | Definition of hazardous waste, RCRA and CERCLA regulations, hazardous waste classification system. Overview of hazardous waste management.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): CHM 101 or 113; ERM 203 or 302  |
| ERM     | 402         | Unit Treatment Technologies                             | Addresses various treatment technologies for contaminated air, water, and soil. Emphasizes design based upon medium, type of contamination, and concentration.   | N                 | LEC               | N               | OPT           | Ira A. | ERM     | 406         | Environmental Chemistry                                 | Examines reactions, transport, and fates of hazardous chemicals in water, soil, air, and living organisms.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Pre-requisites: CHM 101 (or 113) and MAT 170 or higher   |
| ERM     | 407         | Occupational Hygiene                                    | Overview of occupational health hazards, including recognition, evaluation, and control. Includes regulatory status and health standards.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): CHM 101 or 113; ERM 203 or 302  |
| ERM     | 426         | Environmental Issues                                    | Explores the science and policy implications of contemporary problems that threaten the environment.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 |  |
| ERM     | 428         | International Environmental Management                  | Emphasizes technological and economic pressures experienced by developing countries.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     | G               | Prerequisite(s): minimum 45 hours; Credit is allowed for only ERM 428 or ERM 528   |
| ERM     | 432         | Sustainable Solid Waste Management                      | Addresses engineering and management principles associated with integrated solid waste systems. Follows the life of the solid waste from point of generation, reclamation and treatment to point of disposal. Emphasizes the functional units of a solid waste system and the relationships among them. Addresses the physical, chemical and biological transformations of the solid waste, together with the existing technologies and engineering practices for collection, management, treatment and disposal of the solid waste. Emphasizes the sustainable practices such as waste minimization, pollution prevention, reuse and reclamation of the solid waste. Also discusses existing domestic and foreign regulations guiding the proper solid waste management techniques, as well as planning and design of solid waste system operations and facilities.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): MAT 170 or higher; minimum junior standing; Credit is allowed for only ERM 432 or ERM 494 (Integrated Solid Waste Systems) or ERM 532 |
| ERM     | 480         | Senior Project  | Capstone project experience refining skills in communication, research and information retrieval, critical analysis and criticism, and demonstrating technical competence in each student's area of study.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): ERM 203; ERM 302; Pre- or corequisite(s): ERM 402   |
| ERM     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Environmental and Resource Management | 1-12  |                 |  |
| ERM     | 492         | Honors Directed Study                                   | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.  | N                 | LEC               | N               | Z1            | Ira A. Fulton Engineering | Environmental and Resource Management | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| ERM     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | RSC               | N               | Z1            | Ira A. Fulton Engineering | Environmental and Resource Management | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| ERM     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 1-4   |                 |  |
| ERM     | 498         | Pro-Seminar   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 1-7   | L               |  |
| ERM     | 499         | Individualized Instruction                              | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. This course may be taken only by outstanding senior students who have completed at least one semester in residence and who have a cumulative GPA of 3.00 or higher in the major or field of specialization. A special class fee may be required.   | Y                 | IND               | Y               | Z1            | Ira A. Fulton Engineering | Environmental and Resource Management | 1-3   |                 |  |
| ERM     | 501         | Principles of Hazardous Materials and Waste Management  | Foundation for courses in curriculum. Topics include definitions of toxic and hazardous substances and wastes, RCRA classification, and OSHA criteria.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ERM     | 502         | Regulatory Framework for Toxic and Hazardous Substances | Examines federal, state, and local regulations for hazardous materials and wastes. Includes history and trends in regulatory development.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ERM     | 503         | Principles of Toxicology                                | Interaction of chemicals with life and environment. Mechanisms of toxic action, dose-response relationships, toxicity testing models, predictive toxicology, and epidemiology.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ERM     | 506         | Chemistry of Hazardous Materials                        | Chemistry and toxicology of hazardous chemicals. Topics include proper handling, storage, transportation, and disposal.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ERM     | 507         | Industrial Hygiene                                      | Emphasizes chemical hazards in industrial settings. Topics include recognizing and measuring hazards, control techniques, and regulatory standards.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ERM     | 520         | Sustainability and Sustainable Development              | Explores broad field of environmental sustainability with U.S. and international coverage of green living practices.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|---------------------------|---|-------|-----------------|---|
| ERM     | 522         | Air Pollution and Toxic Chemicals                   | Examines issues in the measurement analysis and control of toxic chemicals in air pollution.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management     | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ERM     | 523         | Soils and Groundwater Contamination                 | Theoretical and practical hydrogeology as it applies to cleaning up contamination. Investigative techniques, monitoring, risk assumptions, and assessment methodology.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management     | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ERM     | 527         | Environmental/Resources Regulations Concepts        | Environmental regulations related to water, land use, endangered species, NEPA and other policy issues.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management     | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ERM     | 528         | International Environmental Management              | Studies environmental issues and laws outside the U.S., impact of free trade, and multinational corporations.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management     | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ERM 428 or ERM 528   |
| ERM     | 532         | Sustainable Solid Waste Management                  | Addresses engineering and management principles associated with integrated solid waste systems. Follows the life of the solid waste from point of generation, reclamation and treatment to point of disposal. Emphasizes the functional units of a solid waste system and the relationships among them. Addresses the physical, chemical and biological transformations of the solid waste, together with the existing technologies and engineering practices for collection, management, treatment and disposal of the solid waste. Emphasizes the sustainable practices such as waste minimization, pollution prevention, reuse and reclamation of the solid waste. Also discusses existing domestic and foreign regulations guiding the proper solid waste management techniques, as well as planning and design of solid waste system operations and facilities. | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Environmental and Resource Management     | 3     |                 | Prerequisite(s): Fulton Schools of Engineering or School of Sustainability or Urban and Environmental Planning graduate student or enrolled in ERM 4+1 program; Credit is allowed for only ERM 432 or ERM 532 or ERM 598 (Sustainable Solid Waste System) |
| ERM     | 533         | Water and Wastewater Treatment Technologies         | Covers the most essential elements of aquatic chemistry, water pollution and water and wastewater treatment technologies to graduates in environmental and resource management and other interested parties. Provides a fundamental basis for understanding sustainable water and wastewater treatment operations. Includes critical evaluation of contemporary issues concerning our water environment and the associated regulatory framework in the lectures to strengthen and emphasize the importance of adequate practices used in the management of engineered water and wastewater treatment systems. Incorporates lectures, field trips and professional guest speakers.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Environmental and Resource Management     | 3     |                 | Prerequisite(s): graduate student in Ira A. Fulton Schools of Engineering, the School of Sustainability, or Urban Planning  |
| ERM     | 535         | Water Law and Policy                                | Regulatory framework that governs use of surface water and groundwater, including federal and state laws, interstate compacts and international treaties. Emphasizes the history and development of water resources in the arid American West. Explores the impact of climate change, population growth and competing interests of sectors such as agriculture, municipalities, tribes and hydropower in terms of policy implications for water use.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Environmental and Resource Management     | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ERM     | 540         | International Environmental Law and Policy          | Studies international environmental agreements, enforcement mechanisms, and the role of NGOs and international organizations.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management     | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ERM     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Environmental and Resource Management     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ERM     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Environmental and Resource Management     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ERM     | 593         | Applied Project                                     | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Environmental and Resource Management     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ERM     | 595         | Continuing Registration                             | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering | Environmental and Resource Management     | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ERM     | 598         | Special Topics                                      | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Environmental and Resource Management     | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ERM     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.  | Y                 | LEC               | Y               | Z2            | Ira A. Fulton Engineering | Environmental and Resource Management     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 501         | Social Theory and the Environment                   | Investigates key conceptual domains of environmental social science from interdisciplinary and comparative perspectives.   | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 502         | Political Ecology: Theory and Research              | Investigates key theories and research of political ecology through the conceptual domains of environmental social science from interdisciplinary and comparative perspectives.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 504         | Analysis of Large-Scale Socio-Technological Systems | Provide skills and methods to analyze the design and management of large-scale socio-technological systems and the societal impacts of large-scale technological systems change. Emphasizes assessing the intertwining of lives and livelihoods in large-scale technological systems and the risks and vulnerabilities associated with large-scale systems failures, including the effects of both technological failures and natural hazards.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 510         | Urban Environments                                  | Investigates major issues and themes on the urban environment, from urban sprawl to environmental justice.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 513         | Institutions  | Studies formal and informal institutional arrangements for the governance of natural resources using case studies, experiments, and formal models.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 514         | Urban and Environmental Health                      | Integrates theory and practice of social sciences (including anthropology, demography, and human geography) to understand environmental contexts of health, particularly urban.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| Subject | Catalog Nbr | Course Title                            | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                                | Units | General Studies | Requirements  |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|---------------------------|---|-------|-----------------|---|
| ESS     | 540         | Statistical Modeling for Sustainability | Equips students with sufficient knowledge of statistical theory and methods of applied data analysis to begin conducting empirical analyses in their domains of interest; bring students to a high level of competency in using a cutting-edge statistical software package (Stata) for data management and data analysis tasks; expose students to applications of statistical methods in the economics/policy/social science sustainability literatures in order to develop an understanding for how statistical tools are operationalized in the research world; and develop an appreciation for the careful synthesis of social and natural science theory, knowledge of data and its limitations and command of statistical tools that constitute quality empirical research. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 4     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only AML, ESS or SOS 540  |
| ESS     | 577         | Interdisciplinary Writing Seminar       | If you want your work to make a difference in the world, you need to be able to communicate your ideas to diverse audiences in a way that is interesting and accessible. Teaches students to write clearly, persuasively and ethically to people in their disciplines, in other disciplines, and outside academia. Approaches writing as a way to think critically and refine ideas, as well as to communicate them to others.   | N                 | SEM               | Y               | GNA           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 2     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is only allowed for ESS 577 or SOS 577 or SOS 598 (Interdisciplinary Writing) or SOS 598 (Writing Seminar) |
| ESS     | 580         | Practicum                               | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 583         | Fieldwork                               | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.   | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 584         | Internship                              | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 590         | Reading and Conference                  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 591         | Seminar                                 | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 592         | Research                                | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 595         | Continuing Registration                 | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | N                 | LEC               | Y               | Z3            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 598         | Special Topics                          | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 599         | Thesis                                  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 680         | Practicum                               | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 683         | Fieldwork                               | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.   | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 684         | Internship                              | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 690         | Reading and Conference                  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 691         | Seminar                                 | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | SEM               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| ESS     | 692         | Research                                | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| ESS     | 795         | Continuing Registration                      | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | N                 | LEC               | Y               | Z3            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| ESS     | 799         | Dissertation                                 | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences | School of Human Evolution & Social Change | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EST     | 115         | Digital Systems I                            | Introduces digital electronics. Topics include number systems and codes used in digital systems, Boolean algebra, logic gates, logic families, and combinational and memory circuits.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs                      | 3     |                 |  |
| EST     | 160         | Introduction to Electronic Systems           | Introduces the components, devices, and practical design principles that are used to create competitive electronic systems.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs                      | 3     |                 | Credit is allowed for only EST 160 or 194 (Intro to Electronic Systems)  |
| EST     | 194         | Special Topics                               | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs                      | 1-4   |                 |  |
| EST     | 200         | Project Lab                                  | Provides theoretical and practical overview of principles of measuring instruments and the main objective is to build good lab disciplines.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs                      | 2     |                 | Pre-requisites: Sophomore standing   |
| EST     | 210         | Circuit Analysis I                           | Parallel/Series circuits, ohm's law, network theorems, capacitors/inductors and transient analysis. Overview of electronic devices, BJTs, FETs, op-amps.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs                      | 3     |                 | Prerequisites: MAT 266 (or 271); PHY 112 (or 131)  |
| EST     | 294         | Special Topics                               | Covers topics of immediate or special interest to a faculty member and students.  | N                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs                      | 1-4   |                 |  |
| EST     | 310         | Circuit Analysis II                          | Electronic device analysis and introduction to design. Power supplies, diode circuits, FETs, BJTs, op-amps. Emphasizes frequency response.  | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs                      | 3     |                 | Pre-requisites: EST 210  |
| EST     | 315         | Digital Systems II                           | Digital electronics systems, HDL circuits and systems design techniques, and device applications.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs                      | 3     |                 | Pre-requisite: EST 115 and 210; Credit is allowed for only EST 315 or 394 (Digital Electronics II)   |
| EST     | 345         | Planning and Delivering Engineering Projects | Project-based, hands-on course teaches team building, planning, soft skills, tracking progress, and powerful methods that deliver successful, on-time projects.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs                      | 3     |                 | Pre-requisites: EST 200  |
| EST     | 350         | Microcontroller Applications                 | Interfacing of microcontrollers to sensors, switches, indicators, and other human interfaces using the C programming language. Applications involve the integration of both hardware and software. Also addresses applications dealing with open- and closed-loop applications.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs                      | 3     |                 | Pre-requisite: EST 315; Credit is allowed for only EST 350 or 394 (Adv Micro Controllers)  |
| EST     | 370         | Sensors                                      | Overview of sensor technology, including mechanical, magnetic, radiation, thermal, chemical, and biological applications.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Engineering Programs                      | 3     |                 | Pre-requisites: EST 200; EST 210; UET 331  |
| EST     | 380         | Electronic Devices                           | Covers materials, structures, and technology for the design, production, and application of the major categories of electronic devices.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs                      | 3     |                 | Pre-requisite: UET 331; Credit is allowed for only EST 380 or 394 (Intro to Electronic Devices)  |
| EST     | 394         | Special Topics                               | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs                      | 1-4   |                 |  |
| EST     | 410         | Electronic System Design                     | Analysis and design of Op-amps, power amplifiers, and digital logic families, Feedback design using frequency response. Computer analysis and design.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs                      | 3     |                 | Pre-requisite: EST 310; Credit is allowed for only EST 410 or 494 (Electronics Systems Design)   |
| EST     | 465         | Statistical Process Control                  | Introduces statistics, seven QC tools, and control charts for data analysis and interpretation; process capability, 6-sigma, lean manufacturing, and quality system.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs                      | 3     |                 | Prerequisite(s): Fulton Schools of Engineering undergraduate student; Senior standing; Credit is allowed for only EST 465, 494 (Statistical Process Control) or 565                          |
| EST     | 470         | Capstone Design I                            | Small-group projects designing, building, evaluating, and analyzing components, assemblies, and systems.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs                      | 3     |                 | Pre-requisites: EST 345; EST 370; EST 372  |
| EST     | 471         | Capstone Design II                           | Continuation of a small-group project encompassing designing, building, evaluating, and analyzing components, assemblies, and systems.  | N                 | LEL               | N               | GNA           | Ira A. | EST     | 498         | Pro-Seminar                                  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs                      | 1-7   | L               | Prerequisite(s): Fulton Schools of Engineering undergraduate student; min GPA 2.25; OR Fulton Schools of Engineering graduate student  |
| EST     | 499         | Individualized Instruction                   | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Engineering Programs                      | 1-3   |                 |  |
| EST     | 500         | Research Methods                             | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs                      | 1-12  |                 | Prerequisite(s): Fulton Polytechnic School graduate student; minimum 15 hours graduate level courses   |
| EST     | 565         | Statistical Process Control                  | Seven QC tools and control charts for data analysis and interpretation; process capability, 6-sigma, lean manufacturing, quality system, case study and lab experiment.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Engineering Programs                      | 3     |                 | Pre-requisites: Graduate (degree seeking or nondegree seeking) student; Credit is allowed for only EST 465, 565 or 598 (Statistical Process Control)   |
| EST     | 580         | Practicum                                    | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Engineering Programs                      | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student OR Fulton Schools of Engineering senior student with minimum 3.00 ASU GPA |

|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|------------------------------|--|-------|-----------------|--|
| EST     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering    | Engineering Programs                             | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student OR Fulton Schools of Engineering senior student with minimum 3.00 ASU GPA                 |
| EST     | 590         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering    | Engineering Programs                             | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student OR Fulton Schools of Engineering senior student with minimum 3.00 ASU GPA                 |
| EST     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                             | 1-12  |                 | Pre-requisites: MS in Technology graduate student  |
| EST     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering    | Engineering Programs                             | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student OR Fulton Schools of Engineering senior student with minimum 3.00 ASU GPA                 |
| EST     | 593         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering    | Engineering Programs                             | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student OR Fulton Schools of Engineering senior student with minimum 3.00 ASU GPA                 |
| EST     | 594         | Conference and Workshop  | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                             | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student OR Fulton Schools of Engineering senior student with minimum 3.00 ASU GPA                 |
| EST     | 595         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering    | Engineering Programs                             | 1     |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student OR Fulton Schools of Engineering senior student with minimum 3.00 ASU GPA                 |
| EST     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering    | Engineering Programs                             | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EST     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Ira A. Fulton Engineering    | Engineering Programs                             | 1-12  |                 | Prerequisite(s): Graduate student (degree seeking or nondegree seeking) or Undergraduate Postbaccalaureate student OR Fulton Schools of Engineering senior student with minimum 3.00 ASU GPA                 |
| ETH     | 100         | Ethnic and Indigenous Lives  | Undertakes an introductory comparative analysis of ethnic groups to understand cultural diversity within the United States.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | SB & C          |  |
| ETH     | 194         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 1-4   |                 |  |
| ETH     | 300         | Principles of Ethnic Studies   | Familiarizes students with a range of analytical and theoretical frameworks in the field of ethnic studies.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | C               |  |
| ETH     | 310         | Critical Research Methods  | Examines methodological approaches common to programs in such disciplines as American Studies, Ethnic Studies, and Women's Studies. Critical qualitative, historical, archival, and feminist methodological approaches to the study of diverse United States populations comprise the focus of this course.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | SB              | Pre-requisite: Minimum 40 hours  |
| ETH     | 334         | The American Southwest in Literature and Film                          | Evaluates literary texts and films addressing the diverse literatures and cultures of the American Southwest.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | (L or HU) & C   | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only AMS 336 or ENG 334 or ETH 334   |
| ETH     | 353         | African American Literature: Beginnings through the Harlem Renaissance | Focuses on the history of African American literature through the Harlem Renaissance, as exemplified in selected slave narratives, poems, and fiction.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | (L or HU) & C   | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only AFR 353 (or AFH 353) or AMS 353 or ENG 353 or ETH 353   |
| ETH     | 354         | African American Literature: Harlem Renaissance to the Present         | Examines the literary productions of African Americans from the Harlem Renaissance (about 1920) to the present focusing on fiction, poetry, drama, and essays.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | (L or HU) & C   | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only AFR 354 (or AFH 354) or AMS 354 or ENG 354 or ETH 354   |
| ETH     | 380         | Race, Gender, and Class  | In-depth examination of how social inequalities are reproduced and perpetuated. Explores the intersections of race, class and gender in culture and society.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | SB & C          | Prerequisite(s): WST 100 or WST 300 or minimum 30 hours; Credit is allowed for only AMS 380 or ETH 380 or WST 380  |
| ETH     | 394         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 1-4   |                 |  |
| ETH     | 428         | Chicano Cultures in the Southwest                                      | Examines the history and cultures of people of Mexican descent in the Southwestern region of the United States through exploration of "cultural citizenship" and "belonging" as they relate to the pursuit of civil rights, equality, justice and cultural production.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | SB              | Prerequisite(s): ENG 102 or 105 or 108 with C or better; Credit is allowed for only AMS 428 or ETH 428 or LAS 428 or MAS 598 (Chicano Cultures in Southwest)   |
| ETH     | 430         | Gender on the Borderlands  | Examines women's status in the U.S.-Mexico borderlands through key issues such as migration, labor, violence, education, and culture.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | SB & G          | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 24 hours OR WST 100 or 300 with C or better; Credit is allowed for only ETH 430 or LAS 430 or WST 430 or JHR 598 (Gender on the Borderlands) |
| ETH     | 449         | Hate Speech, Manifestos, and Radical Writings                          | Examines writings, speeches and texts that provoke radical or even revolutionary social change. At its core, this course asks: What is the radical and what does it do? How do radical writings function as texts, speech acts, inspirational documents, testimonies, accounts of madness, frightening moments, calls to arms, peacekeeping entities or speaking truth to power? Examines injurious speech and provocative writings that span a range of social movements and topics, including radical feminism, radical queer, Black power, indigenous rights, art and performance, anti-technology, animal rights, violence, madness and revolutionary resistance. | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | SB & C          | Prerequisite(s): minimum 35 hours; minimum 2.50 GPA; Credit is allowed for only AMS 449 or ETH 449 or WST 449 or WST 394 (Hate Speech and Manifestos)  |
| ETH     | 450         | Latina/os, Schooling and Social Inequality                             | Advanced interdisciplinary understanding of the issues facing Chicano, Mexican American and Latino communities in relation to K-16 schooling in the southwestern United States. Examines various schools of thought that have shaped social discourse and policies, develops a critical perspective on the social and political issues affecting education, and identifies issues--both historical and contemporary--affecting Chicanos in public education.  | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | C               | Prerequisite(s): minimum 45 hours; Credit is allowed for only AMS 450 or ETH 450 or LAS 450 or AMS 429 (Latino/a School & Social Inequity)   |

| ETH     | 469         | Abject Bodies and the Politics of Trash                                 | Examines the possibilities inherent in "theorizing from the gutter"; looking at the world not from a lofty "Ivory Tower" but from the slime, the muck, the dumpster, the trash heap, the wasteland, the discarded and the downtrodden. Takes its theoretical framework from a radical 1960s manifesto called SCUM Manifesto by Valerie Solanas and from the French feminist philosophies of Julia Kristeva, who theorized the abject as a relationship with the grotesque that reveals the deep-seated fear of death. Uses these theoretical positions to examine trash, both abstractly and literally. Works through a variety of concepts ranging from actual trash, garbage, waste, toxic sludge, pollution and dirt, and tackles more abstract notions of trash such as the knowledge produced on the fringe in circuses, amusement parks, "trailer trash" zones, freak shows and the bodies of those marked as "Other" or different. | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies    | 3     | SB & C          | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 36 hours; Credit is allowed for only AMS 469 or ETH 469 or WST 469 or WST 494 (Trash, Freaks and SCUM) or JHR 598 (Trash, Freaks and SCUM) or MAS 598 (Trash, Freaks and SCUM) |
| ETH     | 473         | Indigenous and Latina/Chicana Representation                            | Examines from an interdisciplinary perspective contemporary issues experienced by Indigenous and Chicana/Latina women in the U.S.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies    | 3     | SB & C          | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 45 hours; Credit is allowed for only ETH 473 or LAS 473 or WST 473   |
| ETH     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies    | 1-12  |                 |  |
| ETH     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies    | 1-4   |                 |  |
| ETH     | 498         | Pro-Seminar   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | IND               | Y               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies    | 1-7   | L               |  |
| ETH     | 499         | Individualized Instruction  | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | LEC               | Y               | Z1            | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies    | 1-3   |                 |  |
| EVE     | 214         | Environmental Engineering Mechanics                                     | Concepts of engineering statics and dynamics in the context of environmental processes.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering    | School of Sustainable Engineering & Built Environmt | 3     |                 | Prerequisite(s): MAT 266; PHY 121 or 122   |
| EVE     | 261         | Introduction to Environmental Processes                                 | Concepts of air, soil, water and sediment pollution; contaminant fate and transport; risk assessment; environmental laws and regulations.   | N                 | LEC               | N               | GNA           | Ira A. | EVO     | 500         | Research Methods  | Course on research methods in a specific discipline.  | Y                 | RSC               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EVO     | 520         | Evolution and Ecology of Emerging Infectious Diseases                   | Applying principles and concepts from Ecology, Evolution, and Epidemiology for studying emerging infectious diseases. Emphasizing the interplay of these areas. Intended for life sciences majors and first year graduate students.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                             | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only BIO 494 (Emerging Infectious Diseases) or EVO 520 or MIC 520  |
| EVO     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EVO     | 583         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EVO     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences    | School of Life Sciences                             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EVO     | 590         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | School of Life Sciences                             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EVO     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EVO     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | School of Life Sciences                             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EVO     | 593         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences    | School of Life Sciences                             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EVO     | 594         | Conference and Workshop   | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Life Sciences                             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

| EVO     | 684         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences   | School of Life Sciences                  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 690         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences   | School of Life Sciences                  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 691         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences   | School of Life Sciences                  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 692         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences   | School of Life Sciences                  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 693         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences   | School of Life Sciences                  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 695         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | N                 | RSC               | Y               | Z3            | Liberal Arts and Sciences   | School of Life Sciences                  | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 700         | Research Methods  | Course on research methods in a specific discipline.  | Y                 | RSC               | Y               | OPT           | Liberal Arts and Sciences   | School of Life Sciences                  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 780         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences   | School of Life Sciences                  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 783         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences   | School of Life Sciences                  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 784         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences   | School of Life Sciences                  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 790         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences   | School of Life Sciences                  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 791         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences   | School of Life Sciences                  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 792         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences   | School of Life Sciences                  | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 793         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences   | School of Life Sciences                  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 795         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | N                 | RSC               | Y               | Z3            | Liberal Arts and Sciences   | School of Life Sciences                  | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EVO     | 799         | Dissertation  | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences   | School of Life Sciences                  | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| EXW     | 100         | Introduction to Health and Wellness                                 | Current concepts in health, exercise, and wellness. Emphasizes personal health, theories, attitudes, beliefs, and behaviors.  | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     | SB              | Credit is allowed for only EXW, HSC or KIN 100                 |
| EXW     | 101         | Foundations in Exercise Science and Wellness                        | Student-centered instructional course designed to excite and propel the student into the development of a successful academic and professional career path in the field of exercise science and wellness. Presents a general overview of the career opportunities for students in the field with group and individual assignments that enable students to more thoroughly explore options related to their goals. Divided into 3 major sections: academic preparation, professional development and career exploration. Helps students develop their own individual blueprint for accomplishing their professional goals and understand the skills they need to develop along the way to be successful. | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Credit is allowed for only EXW 101 or EXW 290 or EXW 300       |
| EXW     | 102         | Principles and Foundations of Health Education and Health Promotion | Designed for students who anticipate working as a health educator in clinical, governmental, worksite/corporate, research-based, or other professional settings. Students gain an understanding of the selected historical, cultural, philosophical, professional and ethical issues in the practice of health education.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 |  |

| EXW     | 105         | Physical Activity Instruction: Beginning                 | Beginning instruction in a variety of physical activities such as aerobics, aquatics, racquet sports, physical conditioning, and golf. Y grade only. May be repeated for credit. 2 hours per week.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 1     |                 |  |
| EXW     | 191         | First-Year Seminar                                       | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.   | Y                 | SEM               | Y               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 1-3   |                 |  |
| EXW     | 194         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 1-4   |                 |  |
| EXW     | 212         | Instructional Competency Laboratory                      | Methods of instructing and leading fitness activities including aerobic, resistance, and flexibility activities.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 2     |                 | Prerequisite(s): Exercise and Wellness or Physical Education major   |
| EXW     | 214         | Flexibility Instructional Competency Laboratory          | Science and methods of instruction related to flexibility exercises and activities.  | N                 | LEL               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 2     |                 | Prerequisite(s): Exercise and Wellness major or enrolled in Personal Fitness Training certificate                            |
| EXW     | 216         | Muscular Strength Instructional Competency Laboratory    | Science and methods of instruction related to resistance training and muscular strength activities.  | N                 | LEL               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 2     |                 | Prerequisite(s): Exercise and Wellness major   |
| EXW     | 218         | Cardiovascular Instructional Competency Laboratory       | Science and methods of instruction for cardiovascular exercise and fitness activities.   | N                 | LEL               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 2     |                 | Prerequisite(s): Exercise and Wellness major   |
| EXW     | 284         | Exercise and Wellness Preinternship                      | Professional development course designed to help students prepare for their respective senior-year internships and post-graduate career fields, while developing and enhancing professional practice skills. Students engage in individual assessment and group learning with student peers through activities such as required readings and self assessments, career-related exploration assignments and networking. Utilizes on-campus resources, such as Career Services and the Writing Center, for support and assistance with course work and assignments. Focuses on developing long-term professional and interpersonal competencies career preparation, professional self marketing, and workplace professionalism. | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 1     |                 | Prerequisite(s): minimum 75 hours  |
| EXW     | 294         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 1-4   |                 |  |
| EXW     | 302         | Fundamentals of Wellness                                 | Overview of fundamental health, exercise and wellness concepts. Emphasizes personal wellness assessment and application.   | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     | L               |  |
| EXW     | 303         | Human Sexuality for Health Education                     | Provides preprofessional primary/secondary teachers and health education specialists with knowledge of the physiological, psychological and social aspects of human sexuality for health education. Provides content knowledge and curriculum development strategies to support educators in creating human sexuality curriculum for school and community health settings.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 310         | Computer Skills and Technology for Exercise and Wellness | Applies computer technology to principles of social marketing, tailored communication, e-health consumerism, and statistical analysis.   | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     | CS              | Prerequisite(s): Exercise and Wellness student; MAT 114, 117, 119, 142 or 170 with C or better                               |
| EXW     | 311         | Special Populations in Exercise and Wellness             | Introduces the challenged population and surveys the agencies that work with special populations.  | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 |  |
| EXW     | 312         | HIV/AIDS Prevention                                      | Provides an introductory, nontechnical examination of the HIV/AIDS epidemic and HIV/AIDS, examining biological, social, epidemiology, prevention, history, compassion, legal issues, testing and societal implications of acquired immunodeficiency syndrome (AIDS) and HIV infection. The need for HIV/AIDS education emerges from a comprehensive model of addressing epidemics. Health professionals need to become competent in the delivery of HIV information and prevention planning.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 1     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 315         | Physiological Foundations of Movement                    | Studies human movement with emphasis on physiological function of the body in response to physical activity and fitness training.  | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): BIO 201 with C or better; BIO 202 with C or better; Pre- or corequisite(s): EXW 101; Corequisite(s):        |
| EXW     | 316         | Physiological Foundations of Movement Laboratory         | Investigates theories and methods of exercise physiology in a laboratory and/or applied setting.   | N                 | LAB               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 1     |                 | Prerequisite(s): BIO 201 with C or better; BIO 202 with C or better; Corequisite(s): Exercise and Wellness BS major: EXW 315 |
| EXW     | 320         | Management and Leadership in Exercise and Wellness       | Studies management, leadership, legal, ethical, and programmatic theories and applications in fitness and wellness settings.   | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Pre-requisites: ENG 102, 105 or 108; Minimum 30 hours  |
| EXW     | 321         | Consumer Health  | Provides preprofessional primary/secondary educators and community health education specialists with (1) a model for making informed consumer health-related decisions; (2) current information involving consumer related topics, emphasizing necessity of current information for making informed decisions; (3) mechanisms for continued consumer awareness.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 1     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 322         | Spa Management I   | History of the spa industry. Overview of different types of spas, spa programs and services, facilities and equipment, operational procedures and systems, the wellness component of spas, and computer applications in spa operations.  | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 2     |                 |  |
| EXW     | 325         | Fitness for Life   | Analyzes physical fitness and benefits of exercise with emphasis on application of strategies for fitness and wellness evaluation, behavior change, and lifelong program planning.   | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Pre-requisites: ENG 101; Minimum 30 hours  |
| EXW     | 330         | Kinesiological Foundations of Movement                   | Study and consideration of human movement with emphasis on kinesiology principles and their application to movement and fitness.   | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 4     |                 | Prerequisite(s): BIO 201 with C or better; Pre- or corequisite(s): EXW 101   |
| EXW     | 331         | Violence Prevention                                      | Examines violence prevention strategies and violence prevention content. Examines the literature to understand principles for use in the development of violence prevention curriculum in school and community settings.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 1     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 335         | Physical Activity and Fitness Concepts                   | Topics are designed for the physical activity and health education professional and focus on application of basic exercise physiology and nutritional concepts in the design and implementation of exercise and physical activity programs to increase physical function and improve health risk factors.  | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Pre-requisites: BIO 201 and 202 with C or better   |
| EXW     | 340         | Health Behavior Theory                                   | Focuses on health behavior change theories and concepts that are necessary for planning, implementing and evaluating health education and health promotion programs.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): PSY 101 (or PGS 101); minimum 45 hours  |
| EXW     | 341         | Injury Prevention  | Explores specific strategies for injury prevention. Examines principles for the development of school and community health curriculum that address injury prevention in various areas such as home safety, fire safety, personal protection, responding to emergencies, firearm safety, motor vehicle safety, occupational safety, recreational safety, school safety and related issues.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 1     |                 | Prerequisite(s): minimum 45 hours  |

| Subject | Catalog Nbr | Course Title                                     | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                               | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|-----------------------------|--|-------|-----------------|--|
| EXW     | 342         | Health Behavior Change                           | Examines major theories of health behavioral change. Develops intervention strategies and techniques employed to facilitate health behavioral change.   | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Pre-requisites: PSY 101 (PGS 101); minimum hours 45  |
| EXW     | 344         | Physical Activity in Health and Disease          | Examines the role of physical activity and fitness in the development of morbidity and mortality throughout the human life span.  | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): BIO 202; Pre- or corequisite(s) for non-Health Education and Health Promotion majors: EXW 101 (or EXW 290 or 300)   |
| EXW     | 348         | Methods of Health Education                      | Intended for the pre-professional health educator to learn how to develop sound, effective, and appropriate presentation methods to create learning experiences that facilitate voluntary changes leading to health-enhancing behaviors. Focuses on the knowledge and skills necessary to understand learning and the diverse learner; structure the learning environment; develop appropriate behavioral learning objectives; select appropriate instructional methods; and develop quality lesson, presentation, and unit plans with sound strategies for evaluating learning.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 350         | Substance Abuse and Addictive Behavior           | In depth study of the pharmacology and effects of addictive substances and the psychosocial risk factors and consequences of substance abuse.   | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): BIO 201; PSY 101 (or PGS 101); Pre- or corequisite(s): BIO 202  |
| EXW     | 351         | Substance Abuse Prevention                       | Prepares preprofessional primary/secondary school and community health educators to prepare and deliver substance abuse prevention education and programming.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 1     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 361         | Social Media and Marketing in Health Education   | Develops competence in technologies using social media that support and promote health education. Intended for preprofessional, primary/secondary teachers and community health education specialists to learn how to create and apply health-related social marketing messages and strategies to information systems that facilitate health education and health promotion.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 1     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 371         | Conflict Management and Mediation                | Covers conflict resolution and methods of preventing, managing and resolving conflict. Prepares students to address conflict, deal effectively with difficult people and incorporate effective conflict management and mediation strategies in various interdisciplinary settings within the classroom and community.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 1     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 380         | Body Image and Wellness                          | Explores body image in American culture from physical, psychological, historical, and societal perspectives.  | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): PSY 101 with C or better; minimum 30 hours  |
| EXW     | 394         | Special Topics                                   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 1-4   |                 |  |
| EXW     | 400         | Stress Management for Wellness                   | Examines the stress response and management from a behavioral perspective as it pertains to individuals or groups.  | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Pre-requisites: BIO 202; PSY 101; 45 minimum hours   |
| EXW     | 410         | Obesity Perspectives and Prescriptions           | Provides a structure for understanding, critiquing and synthesizing the information and misinformation about obesity, weight loss and health. Explores topics: the obesity epidemic; health consequences of obesity; fitness and fatness; etiology of weight gain; health implications of weight loss; psychological, cultural, social and political considerations of obesity; and a review of the application of prevention and treatment of obesity. Examines a wellness perspective about obesity by considering obesity as a normal physiological response within a pathological environment.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Pre-requisite: BIO 202; PSY 101. Credit is allowed for only EXW 410 or EXW 494 (Obesity Perspectives and Prescriptions)Pre-req for EXW 410                                       |
| EXW     | 412         | Pediatric Obesity                                | Covers a variety of aspects related to pediatric obesity including the causes and consequences in terms of physiologic, genetic, psychosocial, environmental and economic. Also discusses potential interventions such as behavioral, pharmacologic, surgical and public health and policy. Evidenced-based course where research guides class lectures and discussions.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): EXW 315 or KIN 340; Credit is allowed for only EXW 412 or KIN 446 or EXW 494 (Pediatric Obesity) or KIN 494 (Pediatric Obesity)                                 |
| EXW     | 420         | Exercise Testing                                 | Theoretical basis and practical application of pre-exercise screening, exercise testing, estimates of energy expenditure, and interpretation of results.  | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 4     |                 | Prerequisite(s): EXW 214 with C or better; EXW 216 with C or better; EXW 218 with C or better; EXW 315 with C or better; EXW 316 with C or better; EXW 330 with C or             |
| EXW     | 425         | Exercise Prescription                            | Theoretical basis for and application of general principles of exercise prescription to various ages, fitness levels, and health states.  | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): EXW 420 with C or better  |
| EXW     | 434         | Fitness and Strength Conditioning                | Applied course covering advanced fitness, strength and conditioning concepts and techniques. Applies to professionals working with individuals in whom a major goal of their physical activity program is to maximize human performance potential either for personal fitness goals or success in specific sports or for applications in occupational athletes (military, fire and police). Guides in development of techniques and skills critical to safe, effective and motivating instruction of advanced speed, power, agility and conditioning exercises and programs for varying individuals and teams. Includes both lecture and participatory application labs. Expects students to search and analyze the literature on advanced fitness conditioning concepts and techniques. Addresses a significant number of core competencies identified for the NSCA Certified Strength and Conditioning Specialist (CSCS) examination. | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): EXW 216; minimum 75 hours; Pre- or corequisite(s): EXW 315; EXW 330; Credit is allowed for only EXW 434 or EXW 494 (Sports and Fitness Conditioning) or EXW 534 |
| EXW     | 443         | Emotional Health and Interpersonal Relationships | Explores factors associated with the development of emotional health and well being. Emphasizes pre-professional primary/secondary teachers and health education specialists teaching and promoting emotional health within a school or community setting. Encourages pre-professional primary/secondary teachers and health education specialists to deepen their commitment to effective curriculum principles related to emotional health.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): minimum 45 hours  |
| EXW     | 444         | Epidemiology                                     | Introduces epidemiological concepts and prepares the student to read, comprehend, and report epidemiological research.  | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): any CS statistics course with C or better   |
| EXW     | 446         | Health Promotion and Program Evaluation          | Applies theory-based concepts and methods of health promotion and program evaluation.   | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Pre- or corequisite(s): EXW 101 or 102 (or EXW 290 or 300) with C or better if completed; EXW 340, 342, or 394 (Health Behavior Theory) with C or better if completed            |
| EXW     | 448         | Foundations of School Health Education           | Explores various special topics for the school and community health educator including the CDC's Division of Adolescent and School Health, the School Health Index, the Health Education Curriculum Analysis Tool, and the Coordinated School Health Approach.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 2     |                 | Prerequisite(s): minimum 45 hours  |

| EXW     | 450         | Social Determinants of Health and Health Behavior              | Examines the social determinants (e.g., early childhood, family, schools, worksites, built and food environments, and socio-economic status) of health and health behavior, particularly physical activity behavior and eating.   | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     | (L or SB) & C   | Prerequisite(s): PSY 101 with C or better   |
| EXW     | 452         | Health Advocacy in Health Education                            | Links advocacy for individual patients/consumers (patient advocacy) with advocacy for groups of patients/consumers (policy advocacy). Identifies and explores specific skills needed by community health educators, pre-professional primary/secondary health teachers and health education specialists for developing a practice of advocacy in their work. Methods, techniques and resources used in advocating in health promotion.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): minimum 45 hours   |
| EXW     | 454         | Health Promotion Program Planning and Implementation           | Applies theory-based concepts and methods of health promotion (HP). Covers selected topics in HP across a variety of domains of health. Program planning concepts include the use of planning frameworks, needs assessments, and the use of theory in health promotion program planning. Also covers practical issues related to health promotion program implementation such as resource management and program marketing.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): EXW 101 or 102 (or EXW 290 or 300) with C or better; EXW 340 or 342 or 394 (Health Behavior Theory) with C or better   |
| EXW     | 456         | Health Promotion Program Evaluation                            | Covers program evaluation concepts including how to plan an evaluation, how to analyze and interpret data, and how to report evaluation results. Students learn a basic framework for conducting a program evaluation, various research/evaluation designs, and data analysis and statistics. Topics are covered in enough detail so that the student may understand how inferences are made regarding program evaluation.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Pre- or corequisite(s): EXW 454   |
| EXW     | 460         | Resistance Training Application and Theory                     | Fosters critical thinking as it applies to resistance training theory.  | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): EXW 216 with C or better; EXW 315 with C or better   |
| EXW     | 466         | Health Promotion Program Management and Administration         | Uses team and individual processes to build knowledge and skills for managing and administering health education/promotion programs. Emphasizes management perspectives, professional skill development and demonstrating leadership; performing team collaboration roles; managing human and financial program resources; and developing collaborative research. Aligned with specific competencies and objectives required for Certified Health Education Specialists (CHES) offered by the National Commission for Health Education Credentialing (NCHEC). | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): minimum 45 hours   |
| EXW     | 476         | Community Health   | Applies major concepts of community health. Focuses on populations, settings and social issues related to community health. Basics of epidemiology, disease prevention, and health promotion. Explores community health concepts related to organizing and building community coalitions and health programs. Also explores school health, maternal, infant and child health, minority health, and environmental influences on community health.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): EXW 101 or 102 (or EXW 290 or 300) with C or better; EXW 340 or 342 or 394 (Health Behavior Theory) with C or better; Pre- or corequisite(s): EXW 446 or 456 with C or better  |
| EXW     | 484         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 1-12  |                 | Prerequisite(s) with C or better: Exercise & Wellness major: EXW 420; EXW 425; min 2.00 GPA OR Health Promotion major: EXW 284; EXW 315 or 335; EXW 446; min 2.00 GPA OR Health Education & Health Promotion major: EXW 284; EXW 436 or 476; min 2.00 GPA |
| EXW     | 492         | Honors Directed Study  | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | College of Health Solutions | School of Nutrition and Health Promotion | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| EXW     | 493         | Honors Thesis  | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | College of Health Solutions | School of Nutrition and Health Promotion | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| EXW     | 494         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 1-4   |                 |   |
| EXW     | 498         | Pro-Seminar  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 1-7   | L               |   |
| EXW     | 499         | Individualized Instruction                                     | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | LEC               | Y               | Z1            | College of Health Solutions | School of Nutrition and Health Promotion | 1-3   |                 |   |
| EXW     | 500         | Research Methods   | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 501         | Research Statistics  | Statistical procedures; sampling techniques, hypothesis testing, and experimental designs as they relate to research publications.  | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 530         | Theory and Application of Resistance Training                  | Critical analysis of the theories and mechanisms of resistance training with application for the development of resistance training programs for a variety of populations and outcomes.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only EXW 530 or EXW 598 (Resistance Training Application and Theory) or EXW 598 (Theory of Strength Training)   |
| EXW     | 534         | Sports and Fitness Conditioning                                | Bases of sports and fitness conditioning, including aerobic and anaerobic power, strength, flexibility, and analysis of conditioning components for sports and fitness.   | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only EXW 434 or EXW 494 (Sports and Fitness Conditioning) or EXW 534  |
| EXW     | 535         | Advanced Exercise Assessment and Prescription                  | Theory and practice of laboratory methods in applied exercise physiology. Procedures for assessment and prescription for individuals with chronic disease.  | N                 | LEL               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 536         | Physiological Aspects of Physical Activity and Chronic Disease | Role of physiological mechanisms associated with acute and long-term physical activity and its influence on chronic disease and wellness.   | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 538         | Obesity, Exercise and Health                                   | Critically examines scientific and medical evidence concerning obesity, exercise, and health across the life span.  | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 540         | Mindfulness, Stress and Health                                 | Overview of the theory, measurement, research and efficacy of mindful awareness practices and programs on stress reduction, health outcomes and health behavior. Includes an experiential learning component focused on practices and content consistent with mindfulness-based stress reduction.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only EXW 540 or EXW 598 (Mindfulness Stress and Health)   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                               | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|-----------------------------|--|-------|-----------------|--|
| EXW     | 542         | Health Promotion   | Theory and research concerning fitness and wellness programs in nutrition, physical activity, smoking cessation, and stress management.   | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EXW     | 544         | Fitness/Wellness Management  | Development of the fitness/wellness industry. Planning, organizing, promoting, and managing fitness/wellness programs.  | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EXW     | 554         | Planning and Implementation in Health Promotion                                    | Covers selected topics in health promotion across a variety of domains of health. Program planning concepts include the application of planning frameworks, needs assessments, and theory in health promotion program planning and development. Also focuses on practical issues related to health promotion program implementation such as implementation planning, resource management and program marketing. Also covers process evaluation and quality improvement strategies.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EXW     | 556         | Program Evaluation in Health Promotion   | Comprehensive and systematic introduction to the key concepts and methodologies of program evaluation, specifically related to health programs. Discusses approaches to program evaluation in relation to the program's stage of development, resources and informational needs for decision-making. Focus includes program evaluation literature related to physical activity and nutrition.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only EXW 556 or EXW 598 (Program Evaluation) |
| EXW     | 560         | Cardiopulmonary Rehabilitation   | Exercise testing and prescription for cardiac and pulmonary patients as well as pharmacology, electrocardiography, pathophysiology of chronic diseases, and leadership of patients in cardiac rehabilitation and pulmonary rehabilitation programs.   | N                 | LEL               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EXW     | 562         | Functional Assessment and Exercise Prescription for Older Adults                   | Assessment of functional capacity and prescription of exercise that is appropriate for older adults including healthy, frail, diseased and very old.  | N                 | LEL               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): MS Clinical Exercise Physiology or Exercise and Wellness major  |
| EXW     | 564         | Aging and Lifestyle Behaviors  | Provides an overview of health behaviors in older adults. Centers on the perceptions and behaviors of older adults in reference to illness prevention, health promotion and reactions to acute and chronic illness and the context in which these behaviors occur. Specifically examines the psychological, familial, cultural and contextual factors which influence older adults' personal health practices and illness behaviors. Considers the older person as an individual in a complex system, engaged in decision making and his/her subsequent actions to maintain or improve health status. Solidifies concepts through the use of in-class case studies and discussions. | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Pre-requisite: EXW 542   |
| EXW     | 565         | Cardiovascular and Pulmonary Physiology  | In-depth study of the physiology of exercise with special regard to cardiovascular and pulmonary responses in healthy and chronically diseased individuals.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): MS in Clinical Exercise Physiology major  |
| EXW     | 568         | Management and Treatment of Chronic Disease for the Clinical Exercise Physiologist | Investigates the physiology, pathophysiology and treatment options for a variety of diseases that the clinical exercise physiologist routinely encounters in the work environment. Prepares students to qualify for ACSM Clinical Exercise Physiologist certification.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Pre-requisite: EXW 560   |
| EXW     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | College of Health Solutions | School of Nutrition and Health Promotion | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EXW     | 590         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | College of Health Solutions | School of Nutrition and Health Promotion | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EXW     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EXW     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | College of Health Solutions | School of Nutrition and Health Promotion | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EXW     | 593         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | College of Health Solutions | School of Nutrition and Health Promotion | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EXW     | 595         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | College of Health Solutions | School of Nutrition and Health Promotion | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EXW     | 597         | Capstone Project   | For non-thesis students in the MS degree program to provide a culminating field experience or non-research project for students to apply the coursework and healthy aging concepts.   | N                 | RSC               | N               | YGB           | College of Health Solutions | School of Nutrition and Health Promotion | 1-12  |                 | Prerequisite(s): EXW 500; EXW 501; EXW 536; EXW 542; EXW 591   |
| EXW     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EXW     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | College of Health Solutions | School of Nutrition and Health Promotion | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EXW     | 635         | Physical Activity and Aging  | Examines and discusses the theoretical and applied health-related research on physical activity and aging.  | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EXW     | 640         | Analysis of Variance for Exercise and Wellness                                     | Analyzes variance methods with an emphasis on research measures of human performance.   | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EXW     | 641         | Qualitative Research Methods   | Introductory overview of qualitative research methods frequently used in education and health. Emphasizes analysis of research and practical application.   | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| EXW     | 642         | Exercise Epidemiology  | Physical activity, exercise, and physical fitness and the development of chronic disease.   | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): EXW 500 with C or better; EXW 501 with C or better  |
| EXW     | 643         | Correlation/Regression/Multivariate Statistics                                     | Graduate-level statistics course for PhD/master's students who will be doing research in the area of exercise and wellness.   | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                               | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department                                   | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|------------------------------|--|-------|-----------------|---|
| EXW     | 645         | Advanced Applied Methods and Data Analysis | Heavily applied focus on implementing research methods and statistical modeling techniques in the health promotion sciences. Addresses practical issues in specifying, interpreting and presenting research findings using appropriate statistical techniques. Addresses reporting standards (e.g., CONSORT, STROBE, PRISMA) and practical issues related to manuscript submission. Covers analytical methods including multiple regression and logistic regression, ANOVA, mediation and moderation, exploratory factor analysis, multilevel models for hierarchical data and intensive longitudinal data, basic time-to-event analyses (i.e., survival), and meta-analysis; also remains flexible to address critical and emerging methodologies in the health promotion sciences. Covers statistical methods in a conceptual nature with a focus on the use of statistical software packages (primarily SPSS) and interpretation of outputs. | N                 | LEC               | N               | OPT           | College of Health Solutions  | School of Nutrition and Health Promotion     | 3     |                 | Prerequisite(s): EXW 640, 643   |
| EXW     | 655         | Physical Activity and Public Health        | In-depth analysis of the role of physical inactivity as a public health problem and public health approaches to the study and practice of increasing physical activity. Includes analysis of public health strategies for increasing physical activity at the community, national and international levels.   | N                 | LEC               | N               | GNA           | College of Health Solutions  | School of Nutrition and Health Promotion     | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only EXW 655 or EXW 598 (Pa Pub Health) |
| EXW     | 691         | Seminar                                    | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | College of Health Solutions  | School of Nutrition and Health Promotion     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 692         | Research                                   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | College of Health Solutions  | School of Nutrition and Health Promotion     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 700         | Research Methods                           | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions  | School of Nutrition and Health Promotion     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| EXW     | 701         | Advanced Research Methods                  | Provides doctoral students in Nutrition and Health Promotion with instruction in methods to enhance scientific writing skills in the health sciences and guidance through the process required to organize and submit a fundable research grant proposal.   | N                 | SEM               | N               | GNA           | College of Health Solutions  | School of Nutrition and Health Promotion     | 3     |                 | Prerequisite(s): EXW 700  |

| FAS     | 403         | Aging, Lifespan Development, and the Family                 | Analyzes aging issues and their effects on family members of older adults. Integrates social policy, health, and relational factors.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences     | 3     |                 | Pre-requisites: Minimum 60 hours (including 6 hours of PSY and/or SOC).   |
| FAS     | 410         | Military Family Systems in a Democracy                      | In-depth overview of recent research, issues, trends relating to military families and the interactions within the military culture and societal cultures.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 | Prerequisite(s): FAS 101 or PSY 101 (or PGS 101) or SOC 101; minimum 30 hours   |
| FAS     | 421         | Caregiving for Older Adults                                 | In-depth analysis of the theory and practice of caregiving for the senior population. Integrates multiple perspectives (family caregivers, professionals, paraprofessionals, government, and industry policies). Dynamics of the relationships between parents and adolescents.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences     | 3     |                 | Pre-requisites: Minimum 60 hours (including 6 hours of PSY and/or SOC). Credit is allowed for only ALD 431, 531 or FAS 421                        |
| FAS     | 431         | Parent-Adolescent Relationships                             | Developmental characteristics of adolescence and the corresponding adult stage.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     | SB              |   |
| FAS     | 435         | Advanced Marriage and Family Relationships                  | In-depth examination of research, issues, and trends relating to marriage and family interaction.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     | L or SB         | Prerequisite(s): SOC 101, PSY 101 (PGS 101), FAS 101 or FAS 331 with C or better; Minimum 30 hours; Credit is allowed for only SOC 435 or FAS 435 |
| FAS     | 436         | Sexuality in Mid-Life and Beyond                            | Analyzes physical changes, myths and stereotypes, gender issues, and relationship issues pertaining to sexuality in the middle and older adult years.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences     | 3     |                 | Pre-requisites: Minimum 60 hours (including 6 hours of PSY and/or SOC).   |
| FAS     | 440         | Fundamentals of Marriage and Family Therapy                 | Introduces the fundamental orientations of marriage and family therapy.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 |   |
| FAS     | 460         | Leadership, Research, and Collaboration in Community Change | Advanced understanding of leadership and the development of proposals for innovative plans that enhance the well-being of children, youth and families.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 | Prerequisite(s): minimum 60 hours; Credit is allowed for only FAS 460 or FAS 498 (Leadership Research & Collaboration in Change) or SOC 460       |
| FAS     | 461         | Community Action Research Experience Research Internship    | Second course in Community Action Research Experience (CARE) sequence. Students apply leadership, professional collaboration, project management and research skills in conducting an approved community action research project.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: FAS 460 (or SOC 460); Minimum 60 hours. Credit is allowed for only FAS 461 or SOC 461  |
| FAS     | 472         | Women, Aging, and the Life Course                           | Critical evaluation of issues affecting women as they age, including media messages, cultural differences, economic issues, and relationships.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences     | 3     |                 | Pre-requisites: Minimum 60 hours (including 6 hours of PSY and/or SOC).   |
| FAS     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 1-12  |                 |   |
| FAS     | 492         | Honors Directed Study                                       | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| FAS     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| FAS     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 1-4   |                 |   |
| FAS     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences     | 1-4   |                 |   |
| FAS     | 497         | Honors Colloquium   | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| FAS     | 498         | Pro-Seminar   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 1-7   |                 |   |
| FAS     | 499         | Individualized Instruction                                  | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 1-3   |                 |   |
| FAS     | 499         | Individualized Instruction                                  | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. |---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|------------------------------|--|-------|-----------------|--|
| FAS     | 512         | Secondary Data Analysis   | Works with existing data to produce a publishable article.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only FAS or SOC 512  |
| FAS     | 531         | Theoretical Issues in Family Sciences                                     | Historical and current approaches to theory development, evaluation, and application in family studies.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FAS     | 539         | Research Issues in Family Interaction                                     | Critical review of current and past research in the area of family dynamics. Emphasizes interactional processes within the family.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FAS     | 570         | Introduction to Marriage and Family Therapy                               | Introduces major marriage and family therapy orientations. Reviews history, theory, application, and outcome research for each orientation.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-MFT student   |
| FAS     | 571         | Assessment in Marriage and Family Therapy                                 | Assessment and outcome evaluation of couples and families involved in marital and family therapy.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-MFT student   |
| FAS     | 572         | Advanced Techniques in Marriage and Family Therapy                        | In-depth review of assumptions and advanced techniques associated with contemporary marriage and family therapy approaches.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-MFT student   |
| FAS     | 573         | Dysfunctional Families  | Critical review of current theory and empirical evidence connecting marital and family interaction patterns with aberrant behavior.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-MFT student   |
| FAS     | 574         | Family Theory for Marriage and Family Therapy                             | Examines the theoretical orientations within the family therapy field, including the evolution, premises, and assumptions of each.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-MFT student   |
| FAS     | 575         | Applied Issues in Couples - Therapy                                       | Examines issues unique to therapeutic work with couples, including lifespan transition, multicultural issues, divorce, parenting, and remarriage. Seminar. Enroll requirements: Pre-requisites: Admission into MAS-MFT program.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-MFT student   |
| FAS     | 576         | Applied Issues in Human Development for MFT: Psychopathology              | Recognition and diagnosis of maladaptive behavior according to DSM criteria across human development.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-MFT student   |
| FAS     | 577         | Applied Issues in Children and Adolescents in Marriage and Family Therapy | Examines developmental factors that lead to disorders in children and adolescents, with an emphasis on a systemic framework.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-MFT student   |
| FAS     | 578         | Applied Issues in Sexuality for Marriage and Family Therapy               | Examines the major methods used to assess and treat sexual issues and the treatment of sexual disorders.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-MFT student   |
| FAS     | 579         | Applied Research in Marriage and Family Therapy                           | Critical examination of research concepts, quantitative and qualitative research designs, and applicability in clinical settings.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-MFT student   |
| FAS     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FAS     | 581         | Professional Issues and Ethics  | Examines legal and ethical concerns of marriage and family therapists, emphasizing licensing standards and the Code of Ethics.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 | Pre-requisite: MAS-MFT student   |
| FAS     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FAS     | 586         | Capstone I  | Professional exploration and goal specification for non-thesis capstone project.  | N                 | PRA               | N               | GNA           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 | Prerequisite(s): degree-seeking graduate student in the Sanford School of Social and Family Dynamics; Credit is allowed for only FAS 586 or SOC 586  |
| FAS     | 587         | Capstone II   | Develops professional expertise and area of focused interest.   | N                 | RSC               | N               | GNA           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 | Prerequisite(s): FAS 586 or SOC 586. Credit is allowed for only FAS 587 or SOC 587   |
| FAS     | 588         | Capstone III  | Applies developed expertise and knowledge to professional goal.   | N                 | PRA               | N               | GNA           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 3     |                 | Prerequisite(s): CDE 501 or SOC 501; CDE 531 or SOC 585; FAS 500 or SOC 500; FAS 587 or SOC 587; 12 additional graduate-level hours in CDE, FAS, and/or SOC; Credit is allowed for only FAS 588 or SOC 588 |
| FAS     | 590         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FAS     | 590         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | New Interdis Arts & Sciences | School of Social and Behavioral Sciences     | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FAS     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FAS     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FAS     | 593         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FAS     | 594         | Conference and Workshop   | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FAS     | 595         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FAS     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Sanford School of Social and Family Dynamics | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

| FIN     | 493         | Honors Thesis  | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | W.P. Carey School of Business | Department of Finance | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| FIN     | 494         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Finance | 1-4   |                 | Pre-requisites: W.P. Carey Finance BS student; ACC 315 or ACC 303 or ACC 340, FIN 331, and FIN 303 or FIN 361 all with C or better                   |
| FIN     | 497         | Honors Colloquium  | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | N                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Finance | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| FIN     | 498         | Pro-Seminar  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business | Department of Finance | 1-7   |                 | Prerequisite(s): W.P. Carey Finance students with professional status; FIN 331 and 361 with C or better; ACC 315 or 340 with C or better             |
| FIN     | 499         | Individualized Instruction                                       | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | W.P. Carey School of Business | Department of Finance | 1-3   |                 | Pre-requisites: W.P. Carey Finance students with professional status   |
| FIN     | 501         | Basics of Finance: The Art of Managing Resources to Create Value | Develops analytical techniques and financial theories used to make optimal decisions in a corporate setting. Designed for students with limited business experience and without an undergraduate business degree.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Finance | 3     |                 | Prerequisite(s): ASU degree-seeking graduate student   |
| FIN     | 502         | Finance: The Art of Managing Resources to Create Value           | Develops analytical techniques and financial theories used to make optimal decisions in a corporate setting.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Finance | 2-4   |                 | Prerequisite(s): ACC 502 with C or better; ECN 501 with C or better  |
| FIN     | 520         | Valuation Techniques   | Improves the understanding of valuation concepts and how to apply them. Shows how to value assets using free cash flow and economic value-added methods.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Finance | 1-4   |                 | Prerequisite(s): Degree-seeking graduate student; FIN 502 with C or better   |
| FIN     | 525         | Investment Strategies  | Presents the fundamental principles of risk and return, portfolio diversification, asset allocation, efficient markets, active portfolio management, portfolio evaluation. Reviews selected alternative investment strategies such as hedge fund investments.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Finance | 1-4   |                 | Prerequisite(s): Degree-seeking graduate student; FIN 502 with C or better   |
| FIN     | 530         | Derivatives  | Intermediate- to advanced-level course in derivative assets such as options, forward and futures contracts, swaps and financial engineering.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Finance | 1-4   |                 | Prerequisite(s): Degree-seeking graduate student; FIN 502 with C or better   |
| FIN     | 535         | Financial Statistics   | Financial statistics techniques with an emphasis on time-series methods and robust inference.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Finance | 3     |                 | Prerequisite(s): Finance MS student; Credit is allowed for only ECN 502 or FIN 535   |
| FIN     | 540         | Advanced Financial Management                                    | Offers a comprehensive exploration of the revolutionary developments occurring in the world's financial markets.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Finance | 1-4   |                 | Prerequisite(s): Degree-seeking graduate student; FIN 502 with C or better   |
| FIN     | 545         | Advanced Corporate Finance                                       | Studies major decision-making areas and selected topics in corporate finance. Attempts to develop decision-making ability in these areas using both lectures and cases.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Finance | 1-4   |                 | Pre-requisite: W. P. Carey degree-seeking graduate student; Credit is allowed for only FIN 545 or 591 (Advanced Corporate Finance)                   |
| FIN     | 550         | Fixed Income   | Intermediate- to advanced-level course in fixed income instruments and associated relative valuation of the securities.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Finance | 1-4   |                 | Prerequisite(s): Degree-seeking graduate student; FIN 502 with C or better   |
| FIN     | 555         | Entrepreneurial Finance  | Provides an overview of the economics and institutions involved in entrepreneurial finance. Focuses on the financing of new ventures. Consists primarily of case analysis, supplemented with in-class exercises and lecture material.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Finance | 1-4   |                 | Prerequisite(s): W.P. Carey degree-seeking graduate student; Credit is allowed for only FIN 455 or FIN 494 (Entrepreneurial Finance) or FIN 555      |
| FIN     | 560         | International Finance  | Examines the financial issues of an international investment decision. Main topics include foreign exchange market, investment alternatives in the international capital markets, and the management of foreign exchange risk.  | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Finance | 1-4   |                 | Prerequisite(s): Degree-seeking graduate student; FIN 502 with C or better   |
| FIN     | 565         | Risk Management in Banks and Financial Institutions              | Provides a risk management view of financial institutions (also known as financial intermediaries). Traditionally, banking courses have focused on an overview of the financial services industry, sector by sector, concentrating on balance sheet presentations and overlooking management decision making and risk management. In contrast, this course emphasizes a risk management approach.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Finance | 1-4   |                 | Pre-requisite: W. P. Carey degree-seeking graduate student   |
| FIN     | 575         | Finance Capstone   | Provides a culminating experience as a step in completing the degree. Applies finance principles related to the investment, risk management and financing policies of the firm to develop decision-making ability in these areas. Emphasizes analysis of finance problems through selected readings and case studies.   | N                 | LEC               | N               | GNA           | W.P. Carey School of Business | Department of Finance | 1-4   |                 | Pre-requisite: W. P. Carey degree-seeking graduate student; Credit is allowed for only FIN 575 or 591 (Finance Capstone)                             |
| FIN     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | GNA           | W.P. Carey School of Business | Department of Finance | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FIN     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Finance | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FIN     | 590         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | W.P. Carey School of Business | Department of Finance | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FIN     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | GNA           | W.P. Carey School of Business | Department of Finance | 1-12  |                 | Pre-requisite: W.P. Carey degree-seeking Graduate student  |
| FIN     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | W.P. Carey School of Business | Department of Finance | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FIN     | 593         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | W.P. Carey School of Business | Department of Finance | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FIN     | 594         | Conference and Workshop  | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | GNA           | W.P. Carey School of Business | Department of Finance | 1-12  |                 | Prerequisite(s): FIN 502 with C or better  |

| FIN     | 792         | Research                               | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | W.P. Carey School of Business   | Department of Finance                          | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| FIN     | 793         | Applied Project                        | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | LEC               | Y               | OPT           | W.P. Carey School of Business   | Department of Finance                          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| FIN     | 795         | Continuing Registration                | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | IND               | Y               | Z3            | W.P. Carey School of Business   | Department of Finance                          | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| FIN     | 799         | Dissertation                           | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | W.P. Carey School of Business   | Department of Finance                          | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| FIS     | 101         | SFIS: The ASU Experience               | Welcomes freshman students enrolled in the Innovation in Society major at ASU. Introduces the array of resources available to them as ASU students, stimulates them to reflect on their choice of major, and provides an opportunity to hear about the career trajectories and interests of faculty and alumni from the School for the Future of Innovation in Society. Capped at sections of 20 students to promote discussion and a sense of community.  | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 1     |                 |  |
| FIS     | 111         | Welcome to the Future                  | Explores the ways in which the future inspires, shapes and motivates the present. Illustrates how possible futures are used by people and institutions to advance agendas, shape conversations and sell products. Examines how science, technology and other forces are mobilized to create change. Empowers students to play a role in shaping our collective future.   | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 |  |
| FIS     | 201         | Innovation in Society                  | In the modern age, governments, multinational corporations and civil society movements have rallied around the idea that innovation is necessary for the maintenance of health, prosperity and the good life in general. Examines the vast implications of this promise, the reasons why it is so powerful and explanations for why it falls short. Also examines what innovation is, who funds it and why some innovations succeed while others fail. Links innovation with society to see how change happens differently in different places and how diverse populations are impacted.   | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     | H               |  |
| FIS     | 294         | Special Topics                         | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Future of Innovation in Society | School for the Future of Innovation in Society | 1-4   |                 |  |
| FIS     | 305         | Ways of Knowing                        | Students research, beginning with the concept of research itself and its various purposes, highlighting knowledge and how it is created in different disciplinary approaches. Exposes historical and philosophical underpinnings of how research is conceptualized, presented and implemented, including what constitutes information, knowledge and evidence. Introduces material that is in a traditional research design and methodology course; however, the emphasis uniquely focuses on knowledge creation, innovation, the nature of disciplinary knowledge and its impact on society. Explores the epistemological differences in problem identification and approaches to inquiry in the disciplinary perspectives of engineering, the sciences and in the social sciences. | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     | L               | Prerequisite(s): minimum 45 hours                              |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                       | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                         | Department                                     | Units | General Studies | Requirements   |
|---------|-------------|------------------------------------|---|-------------------|-------------------|-----------------|---------------|---------------------------------|--|-------|-----------------|--|
| FIS     | 307         | Navigating Futures                 | Foresight methods and their potentials as entry-points into public discussions about near- and mid-range technoscientific developments. Four elements constitute the organizing axis of the course: (1) the history of foresight exercises in government agencies and business organizations; (2) the methods of four forms of foresight exercises (technology foresight, science and technology studies, anticipatory governance and scenario development); (3) a comparative assessment of these dominant forms; and (4) a group-based application exercise using one of the foresight methods.   | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     | SB              | Prerequisite(s): minimum 45 hours  |
| FIS     | 308         | Politics, Markets and Innovation   | Studies the roles that governments, markets and other factors play in promoting, disseminating and regulating science-based technological innovation. Includes examining the theoretical literature on factors that structure markets and shape diffusion, as well as case studies that illustrate the processes and mechanisms that govern innovations in society. In addition to studying the role of governments, firms and universities, also considers the role of publics as consumers who adopt innovations but also as citizens who may be skeptical of them. Includes case studies in agriculture, health care, biotechnology and digital rights.  | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     | SB              | Prerequisite(s): minimum 45 hours  |
| FIS     | 331         | Technology and the Modern World    | Explores how technological systems are developed and embedded in the modern world with an eye to playing a role in creating better futures. Examines how machines and techniques can shape institutions, relationships and values. Challenges students to envision futures that they want and work to develop strategies for moving us (and our systems) toward those futures. Analyzes technologies past, present and imagined, and describes the ways in which technologies shape our world and the ways in which we shape those technologies. Through repeated practice in class students play a productive role in and even facilitate conversations that tease out the relationships between values and technological systems.   | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): minimum 45 hours  |
| FIS     | 332         | Risk and the Future                | Examines the evolving global risk landscape that is resulting from rapidly increasing global connectivity, tight coupling and massive complexity. Develops an understanding of how innovation in society is changing the risk landscape and considers how innovation in approaches to risk can help navigate this emerging landscape. Topics include technological risk, sociopolitical risk, catastrophic risk, existential risk, converging technologies, perception and uncertainty, anticipation, precaution, uncertainty and risk innovation.  | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     | L               | Prerequisite(s): minimum 45 hours  |
| FIS     | 333         | Governing Emerging Technologies    | Examines the variety of ways in which societies make collective decisions or govern science and technology. Focuses on a particular category of science and technology: the set of emerging technologies like nanotechnology, artificial intelligence and robotics, genetic modification and synthetic biology, cognitive science and neurotechnology, geoengineering, and others that pose particular problems of high stakes, high uncertainty and ambiguous novelty. Closely allied with the research agenda of numerous faculty in the School for the Future of Innovation in Society, especially those in the Center for Nanotechnology in Society, the Risk Innovation Lab, and others; exposes students to inquiry and skills directly from the research front. Students perform numerous research tasks.  | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     | SB              | Prerequisite(s): minimum 45 hours  |
| FIS     | 334         | Science, Technology and Inequality | Conceptual and theoretical frameworks; provides empirical case studies that contribute to understandings of science and technology as they are used in society. The applications of science and technology in society need to be understood as instrumental to the creation and maintenance of inequality within and between societies. Science and technology does not merely cause or alleviate inequality, but are more profoundly implicated in social relations regarding distribution and access to the benefits of different technologies as well as exposure to risks from science and technology projects in society. The more pervasive and obdurate sources of social distribution are enshrined and entrenched in these scientific and technological systems.   | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     | C               | Prerequisite(s): minimum 45 hours; Credit is allowed for only FIS 334 or JUS 334 |
| FIS     | 335         | Designing Knowledge                | Provides a foundational understanding of how social organizations make and use knowledge. From research laboratories to biotechnology companies to statistical agencies, many organizations are specifically designed to be knowledge enterprises, enterprises whose primary purpose is to produce knowledge. All organizations in modern societies also operate knowledge systems: systems whose purpose is to create, validate, circulate, communicate and apply knowledge in the making of decisions. Examines how these forms of organization work and contribute to modern societies.  | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): minimum 45 hours  |
| FIS     | 336         | Science and Technology Policy      | Science and technology are powerful forces in the modern world. They have been hailed as a way to address everything from world hunger to old age. This does not, however, happen automatically, nor does it always work out the way one presumes. Governments make numerous decisions that affect the direction and application of science and technology, and government policies are affected by a myriad of social, political, and cultural factors. This class will explore the variety of ways in which governments make these policies, how the policies shape the development of science and technology and their applications, and how policy may be shaped to create better futures. Governments around the world have coalesced around the idea that science and technology are necessary for the promotion of the good life. We will examine how they put this idea into action by looking at five interrelated topics: Food, Security/Military, Health, Economy, and Sustainability. | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 |  |

ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                         | Department                                     | Units | General Studies | Requirements                               |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------------|--|-------|-----------------|--|
| FIS     | 337         | Innovation and Global Development                      | International development, the role of technology and innovation, and the current era of globalization. Focuses primarily on socioeconomic development. The globalization of the world economy, with the end of the Cold War, and the advent of global information and communications technologies, has had significant implications for development around the globe. While wealth is rising in many countries and among certain social classes, there is still overwhelming poverty, lack of access to clean water, adequate nutrition, and health services for the majority of people in the world. This is not a new situation; however the advent of the recent era of globalization, which includes both political and technological changes, is a variable that influences development in complex ways.  | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     | G               | Prerequisite(s): minimum 45 hours          |
| FIS     | 371         | Innovation for Impact: Impact Journey                  | Builds on the ideas, concepts and experiences engaged in earlier course work. Innovation allows for amazing possibilities, and within each one of us is the potential to create, apply, research and scale innovation to realize impact goals. Grounded in a use-inspired framework with a focus on transforming society, engages innovation for impact with a particular focus on what constitutes and how one achieves sustainable and scalable outcomes.   | N                 | SEM               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 1     |                 | Prerequisite(s): minimum 45 hours          |
| FIS     | 372         | Innovation for Impact: Inquiry Journey                 | Builds on the ideas, concepts and experiences engaged in earlier course work. Grounded in a use-inspired framework with a focus on transforming society, engages innovation for impact with a particular focus on meaning making, grounded claims, and what it means to gather, analyze, construct and advance meaningful assertions and storied truths that advance productive claims about the potential of an innovation to realize impact goals.  | N                 | SEM               | N               | OPT           | Future of Innovation in Society | School for the Future of Innovation in Society | 1     |                 | Prerequisite(s): minimum 45 hours          |
| FIS     | 373         | Innovation for Impact: Innovation Journey              | Builds on the ideas, concepts and experiences engaged in earlier course work. Grounded in a use-inspired framework with a focus on transforming society, engages innovation for impact with a focus on imagining, designing, developing and optimizing a particular innovation such that it is likely to realize impact goals. Beyond product-centric perspectives that locate change within the innovation, this journey emphasizes an ecological perspective that positions innovation as a shared accomplishment distributed across the designed innovation, engaged participants, prepared facilitators and a responsive ecosystem.   | N                 | SEM               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 1     |                 | Prerequisite(s): minimum 45 hours          |
| FIS     | 394         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Future of Innovation in Society | School for the Future of Innovation in Society | 1-4   |                 |  |
| FIS     | 431         | Technology, Security and Insecurity in Global Politics | Focuses on the international political aspects of technological change; examines the impact of technological innovation and political change on the international political system. The overall goal is to create an awareness of and ability to analyze and synthesize world events, the particular role of technology, and consider the myriad ways that globalization and technology as a main driver could be changing the international system of nation-states. Technological innovation often takes place within a political context, including international politics, as nation-states and other entities develop technologies within the context of competition and power. There are several issues that run throughout the course as major themes. One is the role of technology in political and social change, and the impact of the latter on the former.   | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): minimum 45 hours          |
| FIS     | 480         | Innovation in Society Studio                           | Facilitates experiential learning and allows students to work with clients in the field of technology, innovation and sustainability. Through team projects with identified stakeholders, students engage, plan, design, implement and assess projects while learning interpersonal skills and managing client relationships. Students gain real-world experience and develop skills in project management, including planning, implementing and evaluating a complete project cycle. Allows students to manage both client-based projects and team relationships to complete projects. Students carry out project-based research, conduct interviews and meetings, make site visits, develop work plans and scope of works, negotiate clear deliverables with clients, implement projects and give public presentations. Presentations are grounded in the idea of conducting effective science communication. | N                 | SEM               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): FIS 305                   |
| FIS     | 481         | Innovation for Impact: Application Journey             | As a culminating experience, course brings together the previous experiences and emerging expertise to investigate, innovate and cultivate an impact innovation to achieve impact goals. Starting with building a grounded appreciation for a particular impact outcome, participants then design an innovation to realize a better future state, grounding this work in lessons with respect to logic models, design fictions, agile startups, and rapid prototyping. Some participants simply test a component and produce a reflective analysis, while others expand credit requirements and iterate to achieve transformative outcomes.   | N                 | SEM               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): FIS 371; FIS 372; FIS 373 |
| FIS     | 484         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Future of Innovation in Society | School for the Future of Innovation in Society | 1-12  |                 |  |
| FIS     | 492         | Honors Directed Study                                  | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Future of Innovation in Society | School for the Future of Innovation in Society | 1-6   |                 | Prerequisite(s): Barrett Honors student    |
| FIS     | 493         | Honors Thesis  | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Future of Innovation in Society | School for the Future of Innovation in Society | 1-6   | L               | Prerequisite(s): Barrett Honors student    |
| FIS     | 494         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 1-4   |                 |  |
| FIS     | 498         | Pro-Seminar  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Future of Innovation in Society | School for the Future of Innovation in Society | 1-7   |                 |  |
| FIS     | 499         | Individualized Instruction                             | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | IND               | Y               | Z1            | Future of Innovation in Society | School for the Future of Innovation in Society | 1-3   |                 |  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department                        | Units | General Studies | Requirements  |

| FMP     | 201         | Film: The Creative Process I                            | History, elements, and techniques of theatrical film: cinematography, directing, acting, scriptwriting, producing, and criticism.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | HU              |   |
| FMP     | 220         | Film and Media Post-Production I                        | Required 45-hour lab designed to teach students how to use the Avid Media Composer editing program and supporting software with an emphasis on editing techniques and workflow. Part of the Avid Learning Partner program, taught by a Certified Avid Instructor. Satisfies the Media Composer 100-level certification as part of Avid's official curriculum. Upon completion of this course, students take an exam to become an Avid Certified User.  | N                 | LEL               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1     |                 | Pre-requisite: Film and Media Production student  |
| FMP     | 222         | Education in Film                                       | Critically examines how teachers, students, administrators and educational issues are dramatized and represented in popular media. Explores professional teacher preparation, socio-cultural contexts of education systems and learning, and the use of cinema as social critique.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | L               | Prerequisite(s): ENG 101 (or ENG 102) with C or better. Credit is allowed for only FMP 222 or FMP 294 (Education in Film)   |
| FMP     | 225         | Introduction to Visual Effects                          | Introductory look into the theory and practice of creating visual effects for film, television and games. Focuses on principles of 2D visual effects as derived and modernized from traditional special effects practices as seen in pre-digital film making. Students view, discuss and critique effects from films in the 20th and 21st centuries and engage in the creation of visual effects shots in a variety of styles employing a number of standard techniques. Covers the use of Adobe Photoshop and After Effects; however, considers some use of 3D applications in the second half of the semester. At the heart of good visual effects is a critical eye and attention to detail that is gained through critique of professional and student works on a weekly basis.  | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Credit is allowed for only FMP 225 or FMP 394 (Introduction to Visual Effects)  |
| FMP     | 240         | Introduction to Animation for Film                      | Introduces history, theory, technique and practices of 2D and 3D animation. Covers types of animation and how to create projects for a broad variety of end uses (e.g., motion graphics, TV/film, Web, games). Students create short projects that serve as exercises to study animation techniques as well as more in-depth projects of student design.   | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Credit is allowed for only FMP 240 or FMP 294 (Introduction to Animation)   |
| FMP     | 250         | Sex and Violence in Film and TV: Ethics Survey          | Sex and violence portrayals in media; examines societal evolution, technological development, market imperatives, production codes, and industry realities and practices.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 |   |
| FMP     | 255         | Media Authorship  | Surveys the manipulation, editing, compression, encoding and search engine optimization of digital sound and video media.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     | CS              | Credit is allowed for only FMP 255 or 294 (Media Authorship)  |
| FMP     | 261         | Introduction to Screenwriting                           | Basic skills of screenwriting including exercises in conflict and resolution, plot points, and theories of three-act structure and design.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): ENG 101, 105 or 107 with C or better   |
| FMP     | 294         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEL               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-4   |                 |   |
| FMP     | 300         | Focus on Film   | Specialized study of prominent film artists, techniques, and genres. Emphasizes the creative process.  | Y                 | LEL               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisite: ENG102, 105 or 108 with C or better  |
| FMP     | 318         | Directing for Film and Media I                          | In-depth analysis of directing theory, textual analysis, visualization, shot composition and spatial connection, staging, rehearsal techniques, and camera movement.   | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Film (Film and Media Production) major; FMP 300 with C or better   |
| FMP     | 320         | Film and Media Post-Production II                       | In-depth analysis of editing theory, storytelling, nonlinear editing techniques and equipment, basics of visual and audio effects and color grading using the Avid Media Composer editing program and supporting software with an emphasis on storytelling and aesthetics. Part of the Avid Learning Partner program, taught by a Certified Avid Instructor. Satisfies the Media Composer 200-level certification as part of Avid's official curriculum. Upon completion of this course, students take an exam to become an Avid Certified Professional.   | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Film (Film & Media Production) BA major; FMP 220 with C or better; FMP 300 (Film Production Part 1 or Film Production: Film & Media Part 1 or THE 400) with C or better  |
| FMP     | 325         | Guerilla VFX  | Offers the opportunity to work with a broad variety of projects with assets ranging from excellent quality to those that are more difficult to work with. In addition to work with pre-prepared assets, students also get the opportunity to create their own effects sequences from scratch (including capturing footage). Students learn best practices for capturing all needed elements on the day of the shoot as well as planning the sequence before recording. Covers work in both 2D and 3D visual effects including: matte painting (2D and 3D), set extensions and additions, blue/green screen compositing, and 3D animation for the addition of elements into a shot. The first section of the class consists of short individual assignments aimed at teaching basic core VFX skills, finishing with the production of a class-produced VFX short film. Class member assignments are based off of individual skill and interest. | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): FMP 225 with C or better; Credit is allowed for only FMP 325 or FMP 294 (Guerilla VFX)   |
| FMP     | 330         | Professional and Technical Writing for Film/TV Industry | Professional (noncreative) writing skills that prepare students for a career in the entertainment industry.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): THF 220 with C or better; Minimum 56 hours; Credit is allowed for only FMP 330 or 494 (Prof & Tech Writing for Film, Media & TV Industry)  |
| FMP     | 345         | Cinematography I  | Cinematographer's role, photographic and visual theory, framing, shot composition, cameras and equipment, crew management, basic lighting for film and video.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Pre-requisites: FMP 220 and FMP 300 OR FMP 394 (Non-Linear Editing for Film and Media)  |
| FMP     | 361         | Intermediate Screenwriting                              | Explores the basic components of feature screenwriting: story creation, story structure, character development, conflict, pace, tone, dialogue. Each of these skills will be revisited in more detail, culminating in a series of writing exercises (10-20 pages each), verbal pitch exercises and other focused exercises designed to develop the student's unique writing voice.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): FMP 261 with C or better; Credit is allowed for only FMP 361 or FMP 394 (Intermediate Screenwriting) or FMS 394 (Intermediate Screenwriting)   |
| FMP     | 365         | Developing a Series                                     | Acquaints students with the development process for episodic series (network, cable, Web, on-demand). Also explores the many facets of the television industry (creative, financial, cultural, historical) and surveys the advances in television content along with an analysis of the cultural impact of television on society.  | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Digital Culture (Film) or Film major or Film & Media Production minor or Film & Media Production concentration; FMP 261 with B or better; Credit is allowed for only FMP 365 or FMP 394 (Developing a TV Series) |
| FMP     | 370         | Producing for Film and Media                            | Provides the information and techniques to understand the process of being a producer in the film and media industries.  | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): FMP 300 with C or better; Credit is allowed for only FMP 370 or FMP 494 (Producing Film)   |
| FMP     | 380         | Film Production Crew                                    | Provides a practical, on-set experience for all Film (Filmmaking Practices) majors.  | N                 | PRA               | Y               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-3   |                 | Prerequisite(s): Film (Filmmaking Practices) BA major; minimum 2.50 ASU cumulative GPA; FMP 300 with C or better; Credit is allowed for only FMP 380 or 494 (Film Production Crew)  |

| FMP     | 394         | Special Topics                                | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEL               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-4   |                 |  |
| FMP     | 398         | Capstone Development                          | Provides the opportunity for all Film and Media Production majors to conceive, develop and complete the intellectual property that will form the basis of their required final capstone projects for FMP in the School of Theatre and Film at Arizona State University.   | N                 | SEM               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 2     |                 | Prerequisite(s): Film (Film and Media Production) major; minimum junior standing   |
| FMP     | 417         | Business and Legal Practices in Entertainment | Examines standard business and legal elements of the film and media entertainment industry, including historical, theoretical and ethical frameworks for understanding current practices.   | N                 | SEM               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): minimum 45 hours  |
| FMP     | 418         | Directing for Film and Media II               | Expands on effective techniques for working with actors and on the director's preparation for shooting scenes and films. Students learn while directing with professional set protocols in this hands-on, set-driven class.   | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Film (Film and Media Production) BA major; FMP 220 with C or better; Credit is allowed for only FMP 418 or FMP 494 (Film & Media Directing II)  |
| FMP     | 420         | Film and Media Post-Production III            | In-depth analysis of editing theory, storytelling, nonlinear editing techniques and software, advanced Sound Design and Color Grading using the Avid Media Composer editing program and supporting software with an emphasis on storytelling and aesthetics. Students receive critiques of their work after each project to determine the development of their proficiency of craft and creativity. Integrated lecture/lab.   | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Film (Film and Media Production) major; FMP 220 with C or better; FMP 300 with C or better; FMP 320 with C or better  |
| FMP     | 465         | Series Writers Workshop                       | Offers selected students the opportunity to develop and refine material for a proposed episodic series through collaborative workshops and writing sessions that are equivalent to the development processes utilized in various industry paradigms (network, cable, internet/on-demand).   | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): FMP 365 or 394 (Developing a TV Series) with C or better; Digital Culture (Film) or Film major or Film & Media Prod. minor or BIS (Film & Media Prod.); minimum junior standing. Credit for only FMP 465 or 494 (Television Writing Workshop) |
| FMP     | 475         | Producing Series                              | Function and responsibilities of episodic series producers and production executives for television-based platforms (network, cable, internet/on-demand). Explores a close examination of the business of television, specifically budget, license fees, distribution, and union obligations. Other topics include the structure of studios and networks, producing and marketing series for traditional and new media platforms, and general entertainment business practices.                     | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Film (Film & Media Production) or Film (Filmmaking Practices) major; minimum junior standing. Credit is allowed for only FMP 475 or FMP 494 (Producing Television)  |
| FMP     | 480         | Film Production Capstone I                    | Preparation for final project: screenplay, budget, shooting schedule, production lists and reports for preproduction of required capstone film.   | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Film and Media Production student; FMP 318 with C or better; THE 220 with C or better   |
| FMP     | 481         | Film Production Capstone II                   | Final project shooting and postproduction: shooting, editing picture, sound, effects and music; audience screening of required capstone film.   | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 3     |                 | Prerequisite(s): Film and Media Production BA major; FMP 480 with C or better  |
| FMP     | 484         | Internship                                    | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 |  |
| FMP     | 492         | Honors Directed Study                         | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| FMP     | 493         | Honors Thesis                                 | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| FMP     | 494         | Special Topics                                | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEL               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-4   |                 | Pre-requisites: Film and Media Production student or Filmmaking Practices student or Film and Media Production minor   |
| FMP     | 498         | Pro-Seminar                                   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-7   |                 |  |
| FMP     | 499         | Individualized Instruction                    | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-3   |                 | Pre-requisites: Film & Media Production or Filmmaking Practices student  |
| FMP     | 590         | Reading and Conference                        | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | SEM               | Y               | Z1            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FMP     | 592         | Research                                      | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FMP     | 598         | Special Topics                                | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | RSC               | Y               | OPT           | Herberger Inst Design & Arts | School of Film, Dance and Theatre | 1-4   |                 | Pre-requisite: Fine Arts Graduate student  |
| FMS     | 100         | Introduction to Film                          | Introduces the narrative structure, visual style, and cultural elements of film.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Department of English             | 3     | HU              |  |
| FMS     | 110         | Introduction to New Media                     | Explores the cultural effects of new media technologies.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Department of English             | 3     | HU              |  |
| FMS     | 191         | First-Year Seminar                            | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Department of English             | 1-3   |                 |  |
| FMS     | 194         | Special Topics                                | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Department of English             | 1-4   |                 |  |
| FMS     | 200         | Film History                                  | Introduces the technological, aesthetic, social, and economic aspects of international film history.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Department of English             | 3     | (L or HU) & H   |  |
| FMS     | 202         | Religion and Popular Culture                  | Explores various intersectors between religion and the popular media, including music, news, advertising, the visual arts, literature, performance, and film.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Department of English             | 3     | HU & C          | Credit is allowed for only FMS 202 or REL 202  |
| FMS     | 209         | Screenwriting Fundamentals                    | Studies the creativity and the technique of screenwriting for the conventional narrative film and for TV; student writing exercises culminate in a script for micro cinema.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Department of English             | 3     |                 |  |
| FMS     | 287         | Topics in Film, Media, and Religion           | Explores specialized topics in the study of film, media and religion. Analyzes how religious values, identities and practices related to various cultural traditions are constructed, communicated and presented through films and media.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Department of English             | 3     | HU & G          | Credit is allowed for only FMS 287 or REL 287  |

| FMS     | 309         | Intermediate Screenwriting                             | Utilizing the elements of storytelling, students develop and write a treatment and the first act of a screenplay.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): Film and Media Studies student; ENG 102, 105 or 108 with C or better; FMS 100 with C or better; FMP 261, FMS 209 or THP 261 with C or better  |
| FMS     | 312         | Film, Media, and Politics Today                        | Examines how entertainment technologies inform political innovation and campaigning.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     |                 |  |
| FMS     | 313         | Anti-Semitism in the Media                             | By examination and discussion of various media, explores the phenomenon of modern anti-Semitism.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; FMS 100 with C or better   |
| FMS     | 340         | Contemporary American Film and Popular Culture         | Analyzes American films, television programs, and music as popular cultural documents.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | Department of English | 3     | HU              | Prerequisite(s): ENG 102, 105, or 108 with C or better; FMS 100 with C or better   |
| FMS     | 345         | Asian Pacific Americans and Film                       | In-depth examination of the representations of Asian Pacific Americans in narrative, popular, experimental, and documentary film.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     | HU & C & H      | Pre-requisite: APA 200, APA 210, or FMS 100, or minimum 30 hours. Credit is allowed for only APA 345 or FMS 345  |
| FMS     | 351         | Emerging Digital Media                                 | Analyzes modern cultural and digital technologies.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): ENG 102, 105 or 108 with C or better  |
| FMS     | 352         | Chicana/o Film   | Explores how Chicano and Chicana filmmakers have interpreted the Chicano experience through the medium of film.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     | C               |  |
| FMS     | 354         | Critical Studies in Animation                          | Provides critical and practical tools for analyzing mainstream, experimental, and hybrid animation aesthetics.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     |                 | Pre-requisite: FMS 100   |
| FMS     | 370         | Signs of Aliens: Semiotics of Film and Popular Culture | Introduces semiotics and cultural studies; looks at various meanings ascribed to the sign of the alien.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     | HU              | Credit is allowed for only FMS 370 or TCL 370  |
| FMS     | 374         | American Visions: Innovators in Popular Media          | In-depth examination of the career of an innovator in media, whether a producer, director, or scriptwriter, through his/her status as a unique storyteller of the American experience.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 45 hours   |
| FMS     | 375         | LGBTV: Television and Sexuality                        | Some of TV's most popular shows now feature lesbian, gay, bisexual and transgender (LGBT) characters. This course looks at representations of LGBT characters and personalities, with a focus on the specificities of the television industry. Looks at LGBT representations on reality shows, sitcoms and dramas in relation to the economic and regulatory structures of the TV business to understand the complex functions of sexual identity in the television industry. Addresses particular texts and images as they relate to TV's industrial practices, paying attention to cultural, political and aesthetic issues of minority representations. | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; FMS 100 with C or better; Credit is allowed for only FMS 375 or FMS 394 (LGBTV: Television and Sexuality)  |
| FMS     | 376         | Virgin Mary in History, Film, and Culture              | Introduces formation and development of cult of the Virgin Mary; analyzes transformations of Mariology within historical, cinematic, and cultural contexts.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     | L or HU         | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only FMS 376 or REL 376  |
| FMS     | 377         | Baseball, Film, and American Dreams                    | Critical viewing and analysis of both narrative and documentary baseball film. Genre typically explores American values and national culture, and changes in our concepts of gender roles, race, aging, social class.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     |                 | Pre-requisites: FMS 100, ENG 101 and 102   |
| FMS     | 380         | Race and Gender in American Film                       | Critical analysis of how film shapes perceptions of race and gender in American society.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     | HU & C          | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only FMS 380 (FMS 270) or TCL 380 (TCL 270)  |
| FMS     | 394         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | Department of English | 1-4   |                 |  |
| FMS     | 409         | Advanced Screenwriting                                 | Utilizing the elements of storytelling, students outline, develop, and write a feature-length screenplay.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): Film and Media Studies student; ENG 102, 105 or 108 with C or better; FMS 100 with C or better; FMS 309 with C or better  |
| FMS     | 411         | Screenwriting Adaptation Studies                       | Explores the many issues related to narrative adaptation across movies and other media such as television, various Internet phenomena and gaming.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): Film and Media Studies major, minor or BIS Film and Media Studies concentration; ENG 102, 105, or 108 with C or better; FMP 261 or FMS 209 with C or better; Credit is allowed for only FMS 411 or FMS 494 (Screenwriting Adaptation Studies) |
| FMS     | 412         | Story Analysis for Film and Television                 | Investigates Hollywood's creative development process from submission to shooting script. Critiques the scripts of award-winning films, and evaluates the necessary elements of a well-told story.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): Film and Media Studies major, minor, or Film and Media Studies BIS concentration; ENG 102, 105, or 108 with C or better; FMP 261 or FMS 209 with C or better; Credit is allowed for only FMS 412 or FMS 494 (Story Analysis for Film and TV)  |
| FMS     | 426         | Films of India   | Examines classic, Bollywood and diasporic films of India from 1950 to the present.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): any 200-level or higher course in APH, ARS, ENG, FMS, HST, or MHL with B or better; Credit is allowed for only ARS 444 or ARS 544 or FMS 426 or ARS 494 (Films of India) or ARS 494 (South Asian Cinema)                                      |
| FMS     | 427         | Identity and World Film                                | Examines how films around the world represent gender, race, ethnicity, and sexual orientation through the lens of genres and their variations and how genres reinforce or critique stereotypes.  | N                 | PRA               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): any 200-level or higher course in APH, ARS, ENG, FMS, HST, or MHL with B or better; Credit is allowed for only ARS 440 or ENG 465 or FMS 427  |
| FMS     | 430         | Artists in Film: Artists' Biopics                      | Examines artists' "biopics," biographical films about artists, chronologically from the subgenre's first appearance in 1936 to recent films. Explores relationships between film and history and between film and myths of creativity; major directors' attraction to artists' biopics; stereotypes of artists (e.g., genius, deviant); and how notions of creativity are inflected by gender, race and national identity. Assignments include weekly readings and film viewings and one short paper; optional documentaries and films are also available.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): any 200-level or higher course in APH, ARS, ENG, FMS, HST, or MHL with B or better; Credit is allowed for only ARS 443 or FMS 430   |
| FMS     | 440         | Los Angeles: Movies and Culture                        | Explores film treatment of the historical culture of Los Angeles.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     | (L or HU) & C   | Prerequisite(s): BA Film and Media Studies major or minor or BIS Film and Media Studies concentration; ENG 102, 105 or 108 with C or better; FMS 100 with C or better  |
| FMS     | 441         | Global Cinema  | Examines how film represents three important dimensions of globalization: its relationship to national culture, terrorism, and immigration.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     | HU & G          | Prerequisite(s): ENG 102, 105 or 108 with C or better; FMS 100 with C or better  |

| FMS     | 442         | Experimental Narrative                  | Examines texts that experiment with form, content and narrative perspective within print, film and digital media.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): ENG 200 with C or better; one ENG 200- or 300-level literature course with C or better OR minimum 45 hours; Credit is allowed for only ENG 447, FMS 442 or SLC 450   |
| FMS     | 445         | The Holocaust in German-Mediated Memory | Examines representations of the Holocaust from across different media (literature, film, architecture, memoir, photography) and from across multiple generations of German engagement with this period in history.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): ENG 200 or ENG 201 or ENG 202 or ENG 204 or FMS 100 or FMS 200 or JST 210 or JST 230 or SLC 202 with C or better; Credit is allowed for only FMS/GER/JST/SLC 445 or GER 494 (Holocaust & German Media or Holocaust & German Mediated Memory) |
| FMS     | 446         | Weimar-Era German Film                  | Examines early film production in Germany during the period of the Weimar Republic.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): ENG 200 or 201 or 202 or 204 or FMS 100 or 200 or SLC 202 with C or better; Credit is allowed for only FMS 446 or GER 446 or SLC 446 or GER 494 (Weimar German Cinema) or GER 494 (Studies in German Film)                                   |
| FMS     | 450         | Technology, Culture, and Media          | Studies the socio-political relationships among technology, culture, and media.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     | HU              | Prerequisite(s): ENG 102, 105 or 108 with C or better; FMS 100 with C or better   |
| FMS     | 455         | Comedy as Social Discourse              | Focuses upon the way that comedy can speak with particular clarity to the American condition from behind the microphone and, by extension on the big and small screens. By examining how comic conventions, personae and sensibilities in standup respond to change in social and political sensibilities at specific historical moments, we tease out why comedy, perhaps more than any other genre, can get people to engage (and to think about) a variety of human experiences--often in spite of themselves. | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; FMS 100 with C or better; Credit is allowed for only FMS 455 or FMS 494 (Comedy as Social Discourse)  |
| FMS     | 460         | Masculinity and Film                    | Examines the representation of masculinity and the male body in film.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     | HU              | Prerequisite(s): ENG 102, 105 or 108 with C or better; FMS 100 with C or better   |
| FMS     | 461         | Film Theory and Criticism               | Examines the major positions and issues in film theory from an historical perspective.  | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | Department of English | 3     | HU              | Prerequisite(s): ENG 102, 105 or 108 with C or better; FMS 100 with C or better; Credit is allowed for only FMS 461 or SLC 440  |
| FMS     | 464         | Latina/o Literature                     | Development of Latina/o literature. Study of genres and themes; attention to literary antecedents of the new U.S.-based Latina literature.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     | (L or HU) & C   | Prerequisite(s): ENG 200 with C or better; one ENG 200- or 300-level literature course with C or better OR minimum 45 hours; Credit is allowed for only ENG 458 or FMS 464 or TCL 464   |
| FMS     | 465         | Chicana/o and Latina/o History on Film  | Explore history on film; the processes, developing critical perspectives about historiography, and film in relation to U.S.-Mexican borderlands.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     | HU & C          | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only FMS 465 or TCL 465   |
| FMS     | 466         | Constructing the Border on Film         | Explores the U.S.-Mexico border on film, examining how border images have been constructed and shaped over time.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     | C               | Credit is allowed for only FMS or TCL 466   |
| FMS     | 468         | Crime and Violence in American Film     | Addresses three primary aspects of crime and violence in film: representation, societal attitudes, effects on audience.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     | HU              | Prerequisite(s): Film and Media Studies student; ENG 102, 105 or 108 with C or better; FMS 100 with C or better   |
| FMS     | 470         | Race, Sex, and Identity Online          | Relying on critical and cultural theory, addresses the relationship between race, sex, and social identity online.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only FMS 470 or TCL 470   |
| FMS     | 471         | Latinos In Hollywood                    | Studies representations of Latinos in film; stereotyping, politics of metaphor, allegory, star discourse, self-representation, resistance, and independent film.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     | HU & C          |   |
| FMS     | 475         | Latin American Film                     | Examines the role of film in contemporary Latin American culture; films viewed and analyzed as casebook examples. Focuses on the aesthetics and generic conventions of contemporary Latin American films.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     | (L or HU) & G   | Prerequisite(s): ENG 102, ENG 105, ENG 108, FMS 100, or SLC 202 with C or better; Credit is allowed for only FMS 475 or SLC 475 or SPA 475 or THE 475 or FMS 494/SLC 494/SPA 494/THE 494 (Latin   |
| FMS     | 482         | Entertainment Industries                | Uses historical methodologies to critique emerging trends in the business of new media storytelling.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): BA Film and Media Studies major or minor or BIS Film and Media Studies concentration; ENG 102 or ENG 105 or ENG 108 with C or better; FMS 100 with C or better   |
| FMS     | 484         | Internship                              | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | Department of English | 1-12  |                 |   |
| FMS     | 486         | Holocaust on Film                       | Examines how motion pictures recorded actual holocaust events and have depicted them since World War II.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; FMS 100 with C or better; Credit is allowed for only FMS 486 or REL 486   |
| FMS     | 490         | Capstone Seminar                        | Capstone seminar.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     | HU              | Prerequisite(s): BA Film and Media Studies major; minimum 56 hours; ENG 102, 105 or 108 with C or better; FMS 100 with C or better  |
| FMS     | 492         | Honors Directed Study                   | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | Department of English | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| FMS     | 493         | Honors Thesis                           | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | Liberal Arts and Sciences | Department of English | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| FMS     | 494         | Special Topics                          | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | Department of English | 1-4   |                 |   |
| FMS     | 498         | Pro-Seminar                             | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | Department of English | 1-7   |                 |   |
| FMS     | 499         | Individualized Instruction              | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.               | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | Department of English | 1-3   |                 |   |
| FMS     | 502         | Hollywood Film Historiography (Online)  | This course is offered online only. Explores historiographic and critical scholarship on Hollywood as an industrial, cultural, and aesthetic enterprise.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | Department of English | 3     |                 | Prerequisite(s): American Media and Popular Culture MAS students  |

| FMS     | 503         | Media Industries                                      | Examines the business of contemporary U.S. media practices including film, television, Web-based media, music, video games, mobile phones, and other interactive media. Explores the changing economic structures of these media industries and their relationship to artistic vision and production.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | Department of English                       | 3     |                 | Prerequisite(s): American Media and Popular Culture MAS students  |
| FMS     | 504         | Film Analysis   | Introduce formal and cultural issues important to understanding movies.  | N                 | REC               | N               | OPT           | Liberal Arts and Sciences    | Department of English                       | 3     |                 | Pre-requisites: Master of Liberal Studies student or MAS in American Media and Popular Culture student. Credit is allowed for only MLS or FMS 504                                     |
| FMS     | 507         | Crime and Violence in American Film (Online)          | This course is available online only. Focuses on historiographic and critical scholarship on three aspects of crime and violence in American film: (1) regulation and censorship; (2) representation and society; and (3) theories about the effects on audiences of viewing crime and violence in films.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | Department of English                       | 3     |                 | Prerequisite(s): American Media and Popular Culture MAS students  |
| FMS     | 508         | Race and Gender in American Film                      | Investigates the diverse ways in which race and gender are represented in American film history and culture. In a broader context, also analyzes how the meaning of race and gender, and their intersectionality, has shifted and changed across time and space, and how cinema has contributed to these shifts. Gives attention to the relationships among visual style, narrative structure, generic convention and identity. Students become more literate about the power of film to reflect and refract ideologies of race and gender, and to analyze how these identities impact the experiences of individuals and groups in our society. | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | Department of English                       | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only FMS 508 or FMS 598 (Race and Gender in American Film)                                      |
| FMS     | 511         | Fundamentals of Cinema & Television Narrative Online  | Studies the creativity and the technique of screenwriting for the conventional narrative film and for television. Student writing exercises culminate in a script for micro-cinema. Seminar. Pre-requisite: online student in MAS American Media and Popular Culture   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | Department of English                       | 3     |                 | Prerequisite(s): American Media and Popular Culture MAS students  |
| FMS     | 512         | Intermediate Cinema and Television Narrative (online) | Focuses on the feature-length screenplay; students complete the first act and treatment of an original feature.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | Department of English                       | 3     |                 | Prerequisite(s): American Media and Popular Culture MAS students  |
| FMS     | 520         | Cultural History of US Television: Theory & Method    | Engages both the theory and methods of cultural studies as implemented in television studies and U.S. television history (from the 1940s to the present).  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | Department of English                       | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking)   |
| FMS     | 522         | Los Angeles: Movies and Culture                       | Focuses on historiographic and critical scholarship of industry, genre and representation in post-war, self-reflexive Hollywood cinema.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | Department of English                       | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| FMS     | 523         | Film Authorship                                       | Explores the notion of authorship in film, television, and digital media by engaging with a number of critical methodologies such as auteurism, structuralism, post-structuralism, feminism.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | Department of English                       | 3     |                 | Prerequisite(s): American Media and Popular Culture MAS students  |
| FMS     | 527         | Identity and World Film                               | Examines how films around the world represent gender, race, ethnicity, and sexual orientation through the lens of genres and their variations and how genres reinforce or critiques stereotypes.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | Department of English                       | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only ARS 540, FMS 527 or (ARS 494, ENG 465, FMS 494 or ARS 598 Identity and World Film) |
| FMS     | 535         | Comedy as Social Discourse                            | Focuses upon the way that comedy can speak with particular clarity to the American condition from behind the microphone and, by extension, on the big and small screens. By examining how comic conventions, personae and sensibilities in stand-up respond to change in social and political sensibilities at specific historical moments, we tease out why comedy, perhaps more than any other genre, can get people to engage (and to think about) a variety of human experiences--often in spite of themselves.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | Department of English                       | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only FMS 535 or FMS 598 (Comedy as Social Discourse)  |
| FMS     | 543         | Artists in Film: Artists' Biopics                     | Examines artists' "biopics," biographical films about artists, chronologically from the subgenre's first appearance in 1936 to recent films. Explores relationships between film and history and between film and myths of creativity; major directors' attraction to artists' biopics; stereotypes of artists (genius, deviant, etc.); and how notions of creativity are inflected by gender, race and national identity. Assignments include weekly readings and film viewings and one short paper; optional documentaries and films are also available.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | Department of English                       | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ARS 443 or ARS 543 or FMS 430 or FMS 543 or ARS 598 (Artists in Film: Biopics)             |
| FMS     | 590         | Reading and Conference                                | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | Department of English                       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| FMS     | 593         | Applied Project                                       | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences    | Department of English                       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| FMS     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | Department of English                       | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| FOR     | 105         | Physical Evidence and the Crime Scene                 | First course in a two-semester series of laboratory and lecture courses focusing on introducing non-scientists to forensic science. Explores the investigative and laboratory technologies behind common forensic techniques utilized in crime scene documentation and reconstruction, the identification and value of physical evidence, documentation and collection of evidence, comparative analysis, and the latest technologies in mobile device forensics.  | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 4     | SQ              |   |
| FOR     | 106         | Biology Behind the Crime Scene                        | Second of two courses offering the non-scientist an introduction to the forensic sciences. Focuses on the biology and chemistry in analytical techniques used in the crime lab such as quantitative DNA analysis, toxicology and controlled substance analysis. Also covers topics related to death investigation, as well as plant and pollen identification as they relate to forensic science and criminal investigations.  | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 4     | SQ              |   |
| FOR     | 191         | First-Year Seminar                                    | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.   | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1-3   |                 |   |
| FOR     | 194         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1-4   |                 |   |
| FOR     | 210         | Sociology of Murder                                   | Sociological perspectives on various forms of murder and types of murderers. Also considers forms of punishment for murder.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     | SB              | Credit is allowed for only FOR 210 or SOC 210   |
| FOR     | 286         | Principles of Forensic Science                        | Introduces and surveys the practices and procedures used by forensic scientists in the modern crime laboratory. Students apply lecture topics to forensic-themed laboratory activities.  | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 4     |                 | Prerequisite(s): BIO 181; BIO 182; CHM 113; CHM 116   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                   | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department                                  | Units | General Studies | Requirements   |
|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|------------------------------|---|-------|-----------------|--|
| FOR     | 290         | Historical Perspectives of Forensic Science    | Explores the history and evolution of forensic science and its use in criminal investigations. Topics include: the "discovery" of DNA, the societal impact of forensic science, increased use of forensic science in criminal investigations, and a timeline of technological advances that has helped propel forensic science into popular culture.   | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Credit is allowed for only FOR 290 or FOR 294 (Historical Perspectives of Forensic Science)  |
| FOR     | 294         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1-4   |                 |  |
| FOR     | 298         | Honors Directed Study                          | Independent study or practicum under the supervision of a faculty member.  | N                 | PRA               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| FOR     | 350         | Computer Forensics                             | Concepts of computer forensics, forensic analysis techniques, computer forensic tools and software for forensic investigators, network forensics, data forensics, mobile device forensics, malware forensics, cyber crimes and fraud, computer security incident response.   | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): ACO 100 with C or better  |
| FOR     | 370         | Modern Practices in Forensic Science           | In-depth treatment of the practices and procedures used by forensic scientists in the modern crime laboratory. Students apply lecture topics to forensic-themed laboratory activities.   | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): BIO 181; BIO 182; BIO 305 or FOR 286; CHM 113; CHM 116  |
| FOR     | 377         | Forensic Analytical Chemistry Laboratory       | Focuses on common analytical techniques currently used in forensic laboratories and provides further hands-on experience with methods and instrumentation utilized in a modern crime laboratory. Applies gained knowledge to lab exercises designed with crime laboratory evidence types and protocols in mind.  | N                 | LAB               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 2     |                 | Prerequisite(s): FOR 375 or LSC 375 with C or better; FOR 376 or LSC 376 with C or better  |
| FOR     | 380         | Analysis of Nonhuman Forensic DNA Evidence     | Nonhuman biological materials are so pervasive in the environment that they often contaminate victims, perpetrators and crime scenes by means of direct deposit or secondary transfer. As the reliability, sensitivity and specificity of animal, plant and microbial DNA assays improve with the advent of new technologies, the potential probative value of DNA information from nonhuman biomaterials also increases, especially for establishing or refuting alibis, determining the chronology of a criminal event and for crime scene reconstruction. | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Pre- or corequisite(s): LSC 347; Credit is allowed for only FOR 380 or LSC 380   |
| FOR     | 388         | Research Fundamentals for the Natural Sciences | Teaches research skills in the natural sciences. Topics covered include the basic research techniques of the study organism and system, experimental design, literature searches, statistical analysis and preparation of scientific papers and posters.   | N                 | LEL               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     | L               | Prerequisite(s): BIO 181; BIO 182 OR ACO 320 OR MAT 272; Credit is allowed for only LSC 388 or LSC 498 (Research Fundamentals for the Natural Sciences) or ENV 388 or FOR 388 or PLB 388 or PTX                          |
| FOR     | 394         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1-4   |                 |  |
| FOR     | 400         | Comparative Forensics                          | Familiarizes students with the comparative methods used in the forensic analysis of fingerprint, questioned document and firearms evidence. Discusses the theory and principles of individualization as assessed in forensic casework. Exposes the operation and theory of the scientific instruments used when performing comparative analysis. Reinforces learning objectives through case studies, practical exercises, outside projects and guest lectures.  | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): BIO 181; BIO 182; CHM 113; CHM 116; Pre- or corequisite(s): BIO 305 or FOR 286; Credit is allowed for only FOR 394 (Comparative Forensics) or FOR 400   |
| FOR     | 401         | Forensic Toxicology                            | Focuses on toxicology as it pertains to forensic science. Topics include: the history of toxicology; the pharmacodynamics and pharmacokinetics of drugs and alcohol in the human body; as well as the legal applications of toxicology. Also discusses ethics, quality control and quality assurance, and courtroom testimony (as they relate to forensic toxicology). May address other topics such as environmental toxicology, poisons, and current topics related to forensic toxicology.  | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): BIO 181; BIO 182; CHM 113; CHM 116; Pre- or corequisite(s): BIO 305 or FOR 286; Credit is allowed for only FOR 394 (Forensic Toxicology) or FOR 401   |
| FOR     | 402         | Forensic Biology                               | Focuses on molecular genetics and biology pertaining to forensic science. Course subject matter includes: the history of forensic biology, serological techniques, DNA and DNA analyses, topics in molecular genetics, and forensic biology in the crime lab. Also discusses ethics, quality control and quality assurance, and courtroom testimony (as they relate to forensic biology). Addresses other topics such as current court cases and topics related to forensic biology.   | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): BIO 181; BIO 182; CHM 113; CHM 116; Pre- or corequisite(s): BIO 305 or FOR 286; LSC 347; LSC 348; Credit is allowed for only FOR 402 or FOR 394 (Forensic Biology)                                      |
| FOR     | 406         | Moral Dilemmas                                 | Philosophical analysis of moral dilemmas arising in professional and public settings. Ethical decision making in business, educational, human service, and scientific communities.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     | L or HU         | Prerequisite(s): ENG 101 or 105 or 107 with C or better. Credit is allowed for only FOR 406 or IAS 406 or PHI 406  |
| FOR     | 410         | Professional Practices in Forensic Science     | Focuses on professional practices as they relate to the forensic scientist or forensics professional working in a modern crime laboratory (public or private). Topics include quality assurance programs and practices; ethics and analytical bias; the audit and accreditation processes; and the relationship with forensic science and the courtroom, to include courtroom testimony procedures. Includes oral mock court scenarios, as well as enhancing writing skills appropriate to the forensic sciences.  | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     | L               | Prerequisite(s) with C or better: BIO 305 or FOR 286; ENG 102 or 105 or 108  |
| FOR     | 425         | Analytical Chemistry for Life Sciences         | Presents an analysis of chemicals, including the theoretical and practical considerations regarding the separation, detection and quantitative determination of chemicals. Illustrates the application of different analytical procedures using some of the common chemicals of concern in the forensics and environmental fields.   | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): CHM 234 with C better; CHM 238 with C or better; Credit is allowed for only FOR 425 or LSC 425  |
| FOR     | 426         | Analytical Chemistry for Life Sciences Lab     | Provides hands-on experience with sample extraction, sample clean-up, and instrumental analysis of common chemicals. Largely focuses on the application of analytical chemistry methods to the fields of forensics and the life sciences. Mainly uses the solvent and solid-phase analyte extraction methods; gas chromatography-mass spectrometry, FTIR and NMR, generally determines analyte identification.   | N                 | LAB               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 2     |                 | Prerequisite(s): CHM 234 with C or better; CHM 238 with C or better; Corequisite(s): FOR 425 or LSC 425; Credit is allowed for only FOR 426 or LSC 426   |
| FOR     | 447         | Molecular Genetics Laboratory                  | Investigative lab involving DNA isolation, PCR, gel electrophoresis, enzyme digestion and ligation, transformation, and hybridization analysis.  | N                 | LAB               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1     |                 | Prerequisite(s): minimum 45 hours; Credit is allowed for only FOR 447 or LSC 447   |
| FOR     | 454         | History of Genocide                            | Examines the individuals and institutions responsible for the most infamous episodes of state-sanctioned violence in the 20th century.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     | G & H           | Prerequisite(s): minimum 45 hours. Credit is allowed for only FOR 454 or HST 454   |
| FOR     | 456         | Studies in Forensic Linguistics                | Focuses on the three main aspects of that branch of applied linguistics, namely language and the law, court cases where language is the central dispute, and linguistic evidence.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): ENG 200 with C or better; one 200-level literature course with C or better; minimum 45 hours; Credit is allowed for only ENG 456 or FOR 456 or PAX 456 or ENG/FOR 494 (Studies in Forensic Linguistics) |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                 | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department                                   | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|------------------------------|--|-------|-----------------|---|
| FOR     | 475         | Principles of Toxicology                     | Presents the fundamental principles of toxicology and its application to both human and environmental situations. Starts with the means of defining and quantifying toxic effects through dose response curves (e.g. LD50, EC50, LOEL, NOEL). Then focuses on absorption pathways for toxicants as well as the degradation metabolism pathways for toxicants. Finally focuses on the mechanism of toxic action for common poisons and environmental pollutants. Emphasizes toxicants that students are likely to encounter in forensics and environmental fields. | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences  | 3     |                 | Prerequisite(s): BCH 361 or BCH 371 or LSC 394 (Modern Concepts in Biochemistry) with C or better; BIO 353 with C or better; Credit is allowed for only FOR 475 or LSC 475 or PTX 475                         |
| FOR     | 480         | Advanced Topics in Human Forensic DNA Typing | Examines the science of current forensic DNA typing methods by focusing on the technology behind STR, Y-STR and mtDNA typing, real-time PCR, serology tests, capillary electrophoresis, expert systems and statistics.  | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences  | 3     |                 | Prerequisite(s): BIO 181; BIO 182; LSC 347; Credit is allowed for only FOR 480 or FOR 494 (Advanced Topics in Human Forensic DNA Typing) or LSC 480 or LSC 494 (Advanced Topics in Human Forensic DNA Typing) |
| FOR     | 484         | Internship                                   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | YGB           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences  | 1-12  |                 | Prerequisite(s): minimum 45 hours   |
| FOR     | 485         | Forensic Science Capstone                    | Culmination course integrating all components of Forensic Science major courses demonstrating knowledge and competency in the field of forensic science. Includes Forensic Science Assessment Test (FSAT) preparation and FSAT completion.  | N                 | LEL               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences  | 3     |                 | Prerequisite(s): BIO 305 or FOR 286; FOR 410; 6 additional hours of upper-division FOR coursework; senior standing  |
| FOR     | 486         | Peer Mentoring in the Forensic Sciences      | Advanced students learn and apply mentoring skills in teaching labs.  | N                 | SEM               | Y               | YGB           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences  | 1     |                 | Prerequisite(s): minimum 45 hours   |
| FOR     | 492         | Honors Directed Study                        | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences  | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| FOR     | 493         | Honors Thesis                                | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences  | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| FOR     | 494         | Special Topics                               | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences  | 1-4   |                 |   |
| FOR     | 497         | Honors Colloquium                            | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences  | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| FOR     | 498         | Pro-Seminar                                  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences  | 1-7   | L               |   |
| FOR     | 499         | Individualized Instruction                   | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | IND               | Y               | Z1            | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences  | 1-3   |                 |   |
| FRE     | 101         | Elementary French I                          | Introduces the French language and culture through a variety of topics from everyday life. Focuses on the development on all four communicative: listening, speaking, reading and writing.  | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 4     | G               | Students may not enroll in FRE 101 if credit with C or better earned in FRE 102, 110, 201, 202, 210, 305, 311, 312, 321, 322, 411, or 412   |
| FRE     | 102         | Elementary French II                         | Introduces the French language and culture through a variety of topics from everyday life. Focuses on the development on all four communicative: listening, speaking, reading and writing.  | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 4     | G               | Prerequisite(s): FRE 101 with C or better; Students may not enroll in FRE 102 if credit with C or better earned in FRE 110, 111, 201, 202, 210, 305, 311, 312, 321, 322, 411, or 412                          |
| FRE     | 110         | Intensive French I                           | Proficiency-based course that provides an intensive introduction to the French language and culture. Introduces the language and culture through a variety of topics from everyday life. Focuses on the development on all four communicative skills. Class time is spent mainly on communicative activities based on active listening and speaking practice of everyday French as used in different social situations, with much use of various print, video and Web-based media.  | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 6-8   | G               | Credit is allowed for only FRE 101 or FRE 102 or FRE 110 or FRE 111   |
| FRE     | 111         | Fundamentals of French                       | Primarily for students with two years of high school French who need review to enter second year study.   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 4     |                 | Students may not enroll in FRE 111 if credit with C or better earned in FRE 101, 102, 201, 202, 305, 311, 312, 321, 322, 411 or 412   |
| FRE     | 191         | First-Year Seminar                           | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 1-3   |                 | Pre-requisites: Freshman standing; Maximum 25 hours   |
| FRE     | 194         | Special Topics                               | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 1-4   |                 |   |
| FRE     | 201         | Intermediate French I                        | Grammar review, with emphasis on development of skills of speaking, reading, writing, and listening comprehension.  | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 4     | G               | Prerequisite(s): FRE 102, 110, or 111 with C or better; Students may not enroll in FRE 201 if credit with C or better earned in FRE 202, 210, 305, 311, 312, 321, 322, 411, or 412                            |
| FRE     | 202         | Intermediate French II                       | Continuation of grammar review with emphasis on development of skills in speaking, reading, writing, and listening comprehension.   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 4     | G               | Prerequisite(s): FRE 201 with C or better; Students may not enroll in FRE 202 if credit with C or better earned in FRE 210, 305, 311, 312, 321, 322, 411, or 412  |
| FRE     | 210         | Intensive French II                          | Second semester of an intensive, proficiency-oriented language course designed to develop functional proficiency in French in a dynamic communicative environment. Class time is spent mainly on a variety of communicative activities based on active listening and speaking practice of everyday French as used in different social situations, with much use of various print, video and Web-based media.  | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 6-8   | G               | Prerequisite(s): FRE 102, 110, or 111 with C or better; Credit is allowed for only FRE 201 or FRE 202 or FRE 210  |
| FRE     | 294         | Special Topics                               | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 1-4   |                 |   |
| FRE     | 305         | Readings in French Literature                | Survey of francophone literature designed to teach reading with facility and comprehension. Vocabulary building, familiarity with literary terms, their meaning and use, and introduction to textual analysis of literary genres are major elements.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     | G               | Prerequisite(s): FRE 202 or FRE 210 with C or better; Students may not enroll in FRE 305 if credit earned in FRE 321 or FRE 322   |
| FRE     | 311         | Oral and Written Expression I                | Practices interpersonal and interpretive writing and speaking, emphasizing current usage and promoting facility in the expression of ideas.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     | G               | Prerequisite(s): FRE 202 or 210 with C or better  |
| FRE     | 312         | Oral and Written Expression II               | Practices presentational writing and speaking, emphasizing current usage and promoting facility in the expression of ideas.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     | G               | Prerequisite(s): FRE 202 or 210 with C or better  |

| FRE     | 451         | French Poetry of the 19th Century                      | From Romanticism to Parnassian poetry to Symbolism.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Pre-requisites: FRE 322; 6 hours of 300-level French courses   |
| FRE     | 452         | French Novel of the 19th Century                       | From Constant, Hugo, Balzac, Stendhal, and Sand to Flaubert and Zola, with emphasis on major literary movements.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | HU              | Pre-requisites: FRE 322; 6 hours of 300-level French courses   |
| FRE     | 453         | Theater of the 19th Century                            | From Romantic drama to the Symbolist Theater. Representative plays of Hugo, Musset, Vigny, Dumas, Becque, Rostand, Feydeau, and Mirbeau.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | HU              | Pre-requisites: FRE 322; 6 hours of 300-level French courses   |
| FRE     | 461         | Modern Narrative                                       | Representative authors from Gide to the new Nouveau Roman.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | HU              | Pre-requisites: FRE 322; 6 hours of 300-level French courses   |
| FRE     | 462         | Modern Poetry  | Representative authors from Mallarme to Bonnefoy.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | HU              | Pre-requisites: FRE 322; 6 hours of 300-level French courses   |
| FRE     | 471         | The Literature of Francophone Africa and the Caribbean | Selected prose, poetry, and drama of black authors from Africa and the Caribbean.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | HU              | Pre-requisites: FRE 322; 6 hours of 300-level French courses   |
| FRE     | 472         | Franco-Canadian Civilization                           | Study of the civilization of Quebec in particular through its history, language, literature, music, and customs.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): 6 hours of 300-level French courses   |
| FRE     | 480         | Translation Theory and Practice                        | Theoretical and practical approaches to the fundamentals of meaning-based translation.  | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Pre-requisites: FRE 412  |
| FRE     | 484         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 |  |
| FRE     | 492         | Honors Directed Study                                  | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| FRE     | 493         | Honors Thesis  | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures | 1-6   | L               | Prerequisite(s): Barrett Honors student  |
| FRE     | 494         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-4   |                 |  |
| FRE     | 498         | Pro-Seminar  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-7   |                 |  |
| FRE     | 499         | Individualized Instruction                             | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures | 1-3   |                 |  |
| FRE     | 500         | Research Methods                                       | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FRE     | 510         | Introduction to Textual Analysis                       | Introduces various oral and written techniques aimed at explicating literary texts. Required of all French graduate students focusing on literature.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only FRE 494 (Introduction Textual Analysis) or 510                                       |
| FRE     | 521         | History of the French Language                         | Principal phonological, morphological, and semantic developments of French from Latin to present, with emphasis on Old and Middle French. Some familiarity with Latin is recommended.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FRE     | 550         | French for Reading Knowledge                           | Teaches non-speakers of foreign language, or those with only basic notions of the language, how to read in a foreign language at an advanced level. Consists of a concise overview of grammar as well as reading comprehension practice for students who plan to take the Graduate Foreign Language Exam or others who would merely like to learn to read in a foreign language. Focuses only on reading and not on listening, speaking or writing as in a traditional language course.             | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only FRE 494 (French for Reading Knowledge) or FRE 550 or FRE 598 (French for Reading Knowledge) |
| FRE     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FRE     | 590         | Reading and Conference                                 | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FRE     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|--|
| FRE     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FRE     | 593         | Applied Project                                  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FRE     | 595         | Continuing Registration                          | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences | School of International Letters and Cultures | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FRE     | 598         | Special Topics                                   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FRE     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FRE     | 790         | Reading And Conference                           | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| FSE     | 100         | Introduction to Engineering                      | Introduces the engineering design process; working in engineering teams; the profession of engineering; engineering models, written and oral technical communication skills.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Dean, Ira A. Fulton Schools of Engineering   | 2     |                 |  |
| FSE     | 104         | EPICS Gold Feasibility and Planning              | First of a sequence of three one-credit service-learning courses in which EPICS GOLD groups are formed from students potentially representing all engineering, computer science and construction disciplines as well as other ASU majors, including sustainability, business, liberal arts, sciences and others. Groups of 4-5 students work together to assess the feasibility and sustainability of their proposed plans for long-term projects that solve problems and benefit clients and often, the larger community. Project work centers on the engineering, technology, computing, sustainability, business and other needs of a not-for-profit community partner; interdisciplinary group interaction is an integral element for the project success. | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Dean, Ira A. Fulton Schools of Engineering   | 1     |                 | Prerequisite(s): Fulton Schools of Engineering student; Credit is allowed for only FSE 104 or FSE 194 (EPICS Gold I)   |
| FSE     | 104         | EPICS Gold Feasibility and Planning              | First of a sequence of three one-credit service-learning courses in which EPICS GOLD groups are formed from students potentially representing all engineering, computer science and construction disciplines as well as other ASU majors, including sustainability, business, liberal arts, sciences and others. Groups of 4-5 students work together to assess the feasibility and sustainability of their proposed plans for long-term projects that solve problems and benefit clients and often, the larger community. Credit is allowed for only FSE 150 or FSE 194, Perspectives on Grand Challenges for EngineeringPrerequisite(s): admission to the Engineering Grand Challenge Scholars Program. Credit is allowed for only FSE 150 or FSE 194, Perspectives on Grand Challenges for Engineering |
| FSE     | 181         | Technological, Social, and Sustainable Systems   | Introduces the importance and role of technological, social, and sustainable systems in the modern world. Provides a framework for the theory and practice of sustainable engineering.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Dean, Ira A. Fulton Schools of Engineering   | 3     | HU              | Credit is allowed for only SOS 181, FSE 181, or CEE 181  |
| FSE     | 194         | Special Topics                                   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Dean, Ira A. Fulton Schools of Engineering   | 1-4   |                 |  |
| FSE     | 201         | Engineering Undergraduate Teaching Assistant     | Theory and rationale of active learning and teaching strategies that stimulate intellectual development. Leadership, teaching, teamwork and communication skills needed to facilitate effective undergraduate learning in engineering. Implementation of these skills in a classroom setting.  | N                 | PRA               | Y               | YGB           | Ira A. Fulton Engineering | Dean, Ira A. Fulton Schools of Engineering   | 1     |                 | Prerequisite(s): Ira a Fulton School of Engineering major; minimum sophomore standing  |
| FSE     | 294         | Special Topics                                   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Dean, Ira A. Fulton Schools of Engineering   | 1-4   |                 |  |
| FSE     | 298         | Honors Directed Study                            | Independent study or practicum under the supervision of a faculty member.  | N                 | RSC               | N               | OPT           | Ira A. Fulton Engineering | Dean, Ira A. Fulton Schools of Engineering   | 1-6   |                 | Prerequisite(s): Barrett Honors student  |
| FSE     | 301         | Entrepreneurship and Value Creation              | In-depth application of entrepreneurial concepts including opportunity recognition, value creation and new business management. Identifies the needs of a market and problem solves to meet those needs through innovation. Covers common mistakes made in the new venture process and how to work to avoid these mistakes.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Dean, Ira A. Fulton Schools of Engineering   | 3     |                 | Prerequisite(s): Business major; ACC 241 or 242 with C or better OR engineering major; minimum junior standing OR non-Business majors; minimum junior standing; minimum 2.50 GPA; Credit is allowed for only ENT 360 or FSE 301  |
| FSE     | 394         | Special Topics                                   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Dean, Ira A. Fulton Schools of Engineering   | 1-4   |                 | Prerequisite(s): Fulton Engineering undergraduate student  |
| FSE     | 399         | Cooperative Work Experience                      | Work periods with industrial firms or government agencies alternated with full-time course work. Not open to students from other colleges.   | N                 | PRA               | Y               | OPT           | Ira A. Fulton Engineering | Dean, Ira A. Fulton Schools of Engineering   | 1-15  |                 | Prerequisite(s): Fulton Engineering undergraduate student  |

| FSE     | 591         | Seminar                         | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Dean, Ira A. Fulton Schools of Engineering | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student        |
| FSE     | 592         | Research                        | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Dean, Ira A. Fulton Schools of Engineering | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student        |
| FSE     | 593         | Applied Project                 | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering | Dean, Ira A. Fulton Schools of Engineering | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student        |
| FSE     | 594         | Conf and Workshop               | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Dean, Ira A. Fulton Schools of Engineering | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student        |
| FSE     | 595         | Continuing Registration         | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Ira A. Fulton Engineering | Dean, Ira A. Fulton Schools of Engineering | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student        |
| FSE     | 598         | Special Topics                  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Dean, Ira A. Fulton Schools of Engineering | 1-4   |                 | Prerequisite(s): Fulton Engineering graduate student                  |
| FSE     | 599         | Thesis                          | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering | Dean, Ira A. Fulton Schools of Engineering | 1-12  |                 |   |
| FSE     | 600         | Research Methods                | Course on research methods in a specific discipline.  | Y                 | RSC               | Y               | OPT           | Ira A. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Ira A. Fulton Engineering    | Dean, Ira A. Fulton Schools of Engineering | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| FSE     | 799         | Dissertation                   | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering    | Dean, Ira A. Fulton Schools of Engineering | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| FSH     | 125         | Survey of the Fashion Industry | Prepares the student to know how the fashion industry operates and what to expect when working in it. From manufacturing to retail, it is important for all members of the fashion industry to understand how the processes interrelate.  | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Art                              | 3     |                 | Credit is allowed for only FSH 125 or HDA 125   |
| FSH     | 194         | Special Topics                 | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                              | 1-4   |                 |   |
| FSH     | 201         | Textiles Survey                | Offers a broad survey of textiles as they relate to art, fashion and their place in human culture. Topics explore material content, weaves and textile properties; the artistic and social history of textiles; modern textile manufacturing and consumption; and innovations in textile invention for science and industry. The goal of this semester is for you to more fully understand the underlying content and structure of textiles in order to better appreciate the overwhelming variety of textiles that have been created over time, place, gender, ethnicity, purpose and methodology. | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Art                              | 3     |                 | Prerequisite(s): FSH 125 or HDA 125 with C or better; Credit is allowed for only FSH 201 or ART 294 (Textiles Survey) |
| FSH     | 202         | Fashion Construction           | Prepares students for a career in the apparel industry or for continued study in graduate school. Introduces core concepts of fashion materials and construction: cutting, sewing and finishing techniques for creating garment prototypes. Focuses on the fashion industry as well as apparel construction and production.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art                              | 3     |                 |   |
| FSH     | 203         | Fashion Illustration           | In this studio setting, students practice drawing the fashion figure from a live model, both in leotard and in clothing, facilitating understanding of drape, shape, shadow, silhouette and how it relates to fashion design. Demonstrates and practices fundamental skills of visual communication and problem solving, including fabric rendering and proportion and how it relates to the fashion designer's sketch. Brief lectures, demos and critiques are an integral component of each class. Materials used in class include, yet are not limited to, charcoal and gouache.                 | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art                              | 3     |                 | Prerequisite(s): ART 110; Credit is allowed for only FSH 203 or FSH 294 (Fashion Illustration)                        |
| FSH     | 204         | Social Aspects of Fashion      | Introduces ways of examining clothing and fashion in context. How do we read images and representations of clothing and how do they manipulate the meaning of the garment and its wearer? In what ways is this visual language used to select and produce fashion? What influences how we dress on a daily basis and over time? These are just some of the questions about appearance, clothing and culture that are used to embark on a participatory research project and as a point of departure for class discussions and related readings.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Art                              | 3     |                 | Prerequisite(s): ENG 101, 102, 105, 107, or 108; FSH 125  |
| FSH     | 206         | Fashion Design                 | Provides a foundation for the design process through drafting, flat pattern, construction and draping the professional way. In this hands-on setting, students apply principles of art to clothing design. Develops an understanding of the design concept based on the relationship of the two-dimensional pattern shape to the three-   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | School of Art                              | 3     |                 | Prerequisite(s): ART 110; FSH 125 with B or better  |
| FSH     | 280         | Fashion Merchandising          | Examines the business side of the fashion industry with a focus on fashion marketing and the fundamentals of merchandising and retailing.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | School of Art                              | 3     |                 | Credit is allowed for only FSH 280 or MKT 280   |
| FSH     | 294         | Special Topics                 | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                              | 1-4   |                 |   |
| FSH     | 300         | Global Fashion Industry        | Considers the textile and apparel industries in a global context. Examines issues from several viewpoints providing the facts and data needed to consider the ramifications of events with unbiased perspectives.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | School of Art                              | 3     |                 | Prerequisite(s): FSH 204 or FSH 206 with C or better  |
| FSH     | 394         | Special Topics                 | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                              | 1-4   |                 | Prerequisite(s): minimum 45 hours   |
| FSH     | 397         | Fashion Capstone Development   | Guides students in the development of a detailed capstone project proposal. Capstone projects are completed with faculty/staff guidance in subsequent fashion capstone course. Students arrive at a project to be completed in one or two semesters that represents the culmination of their education.   | N                 | LEC               | Y               | GNA           | Herberger Inst Design & Arts | School of Art                              | 1     |                 | Prerequisite(s): minimum 60 hours   |
| FSH     | 484         | Internship                     | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Herberger Inst Design & Arts | School of Art                              | 1-12  |                 | Prerequisite(s): minimum 45 hours   |
| FSH     | 492         | Honors Directed Study          | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | School of Art                              | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| FSH     | 493         | Honors Thesis                  | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | School of Art                              | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| FSH     | 494         | Special Topics                 | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | GNA           | Herberger Inst Design & Arts | School of Art                              | 1-4   |                 | Prerequisite(s): minimum 45 hours   |
| FSH     | 497         | Fashion Capstone               | Formally structures the relationship between students conducting independent capstone projects and faculty/staff mentors. A variable credit practicum course, students implement, document and evaluate their capstone project. Acceptance into this course depends on the successful completion and acceptance of a project proposal and formal instructor approval in prerequisite course.  | N                 | PRA               | Y               | GNA           | Herberger Inst Design & Arts | School of Art                              | 3-9   |                 | Prerequisite(s): FSH 397 with B or better   |
| FSH     | 498         | Pro-Seminar                    | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | School of Art                              | 1-7   | L               | Prerequisite(s): minimum 45 hours   |

| FSH     | 499         | Individualized Instruction   | Provides an opportunity for original study or investigation in the major or field of specialization, on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. This course may be taken only by outstanding senior students who have completed at least one semester in residence and who have a cumulative GPA of 3.00 or higher in the major or field of specialization. A special class fee may be required. | Y                 | IND               | Y               | Z1            | Herberger Inst Design & Arts | School of Art | 1-3   |                 | Prerequisite(s): minimum 45 hours |
| GAP     | 10          | Academic Skills I for International Pathways                       | Non-credit course designed for international ASU-USA Pathways students from any discipline who want to develop both their general English language competence and the academic skills which they need in order to succeed in their for-credit studies. The curriculum has been organized around tasks that students need to master in order to perform and interact appropriately in an international English-medium higher education setting.  | N                 | LEL               | N               | GNA           | Office of the Provost        | Global Launch | 3     |                 |                                   |

| GCU     | 171         | The Thread of Energy                              | Follows the thread of energy through every aspect of our lives. Discusses the technical, social, legal, and policy contexts of all energy resources, including present and unconventional fossil fuels, nuclear power, and renewable resources. Addresses energy use throughout history, the influence of energy on quality of life, the role it plays in political strategies and environmental quality, how it shapes our neighborhoods and cities, its contribution to our personal comfort and national security, and how its importance is reflected in the worlds of business and the humanities. Its dual role is as a stand-alone introduction to energy, and as a first step to more advanced studies of energy in the natural, technical, and social sciences. | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB & G          | Credit is allowed for only GCU or SOS 171                                     |
| GCU     | 191         | First-Year Seminar                                | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-3   |                 | Pre-requisites: Freshman standing; Maximum 25 hours                           |
| GCU     | 194         | Special Topics                                    | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-4   |                 |   |

| GCU     | 322         | Geography of U.S. and Canada                      | Spatial distribution of relevant physical, economic, and cultural phenomena in the United States and Canada.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB & C          |   |
| GCU     | 323         | Geography of Latin America                        | Spatial distribution of relevant physical, economic, and cultural phenomena in South, Middle, and Caribbean America. Requires advanced critical thinking and evaluative skills appropriate to students at the junior or senior level as numerous analytical essays and an in-depth research paper, in addition to regular tests and quizzes, are required.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB & G          | Pre-requisite: Minimum 45 hours   |
| GCU     | 325         | Geography of Europe                               | Broad and systematic overview of Europe, emphasizing physical, economic, and cultural phenomena.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB & G          |   |
| GCU     | 326         | Geography of Asia                                 | Spatial distribution of relevant physical, economic, and cultural phenomena in Asia, excluding the former Soviet Union.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB & G          |   |
| GCU     | 328         | Geography of Middle East and North Africa         | Spatial distribution of relevant physical, economic, and cultural phenomena in the Middle East and North Africa.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB & G          |   |
| GCU     | 332         | Geography of Australia and Oceania                | Spatial distribution of relevant physical, economic, and cultural phenomena in Australia, New Zealand, and Pacific Islands.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB & G          |   |
| GCU     | 344         | Geography of Hispanic Americans                   | Examines the homelands, migrations, settlements, landscapes, roles, and selected cultural traditions of Hispanic Americans.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB & C          |   |
| GCU     | 350         | The Geography of World Crises                     | Contemporary world crises viewed from a perspective of geographic concepts and techniques.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB & G          |   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department   | Units | General Studies | Requirements  |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|------------------------------|--|-------|-----------------|---|
| GCU     | 351         | Population Geography                                | Demographic patterns; spatial, temporal, and structural investigation of the relationship of demographic variables to cultural, economic, and environmental factors.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB & G          | Prerequisite(s): MAT 117 with C or better, or other course meeting General Studies MA requirement with C or better      |
| GCU     | 356         | Central American Studies                            | Part of the summer ASU study abroad Costa Rica Program, which is a language and social sciences immersion program in the capital city, San Jose. A summer offering permits students to enroll in the program without conflicting with full course loads during the fall or spring semester. However, the course is proposed as a stand-alone course that can be offered in a regular semester as well.  | N                 | REC               | Y               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences           | 3     | SB & G          | Credit is allowed for only ASB 356 or GCU 356 or POS 354 or SBS 356 or SOC 356  |
| GCU     | 357         | Social Geography                                    | Environmental perception of individuals and groups. Stresses the spatial aspect of social and physical environments.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB              |   |
| GCU     | 357         | Social Geography                                    | Environmental perception of individuals and groups. Stresses the spatial aspect of social and physical environments.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences           | 3     | SB              |   |
| GCU     | 359         | Cities of the World I                               | Historical evolution of urban patterns and structures in the Middle East, India, Southeast Asia, China, Japan, and Europe.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB & G & H      |   |
| GCU     | 360         | Cities of the World II                              | Historical evolution of urban patterns and structures in Latin America, North America, Sub-Saharan Africa, and Australasia.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB & G          |   |
| GCU     | 361         | Urban Geography                                     | External spatial relations of cities, internal city structure, and spatial aspects of urban problems in various parts of the world, particularly in the United States.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB              |   |
| GCU     | 361         | Urban Geography                                     | External spatial relations of cities, internal city structure, and spatial aspects of urban problems in various parts of the world, particularly in the United States.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences           | 3     | SB              |   |
| GCU     | 364         | Energy in the Global Arena                          | Production, transportation, and consumption of energy, emphasizing the electric power industry and its environmental problems.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB & G          |   |
| GCU     | 373         | Introduction to Geographic Information Science      | Introduces theoretical and computer-based aspects of Geographic Information Systems, involving data analysis and map generation.  | N                 | LEL               | N               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences           | 4     | SG              | Pre-requisite: PSY 230 or SBS 304   |
| GCU     | 394         | Special Topics                                      | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-4   |                 |   |
| GCU     | 394         | Special Topics                                      | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences           | 1-4   |                 |   |
| GCU     | 414         | Teaching Geography Standards                        | Introduces Arizona Geography Standards for K-12 educators, emphasizing exciting curricula and illustrated with best practices by master teachers.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     |                 |   |
| GCU     | 421         | Geography of Arizona and Southwestern United States | Geography of the Southwest with an emphasis on Arizona. Divided into physical geography, history, people, and economy.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB & C          |   |
| GCU     | 424         | Geography of Mexico and Middle America              | Central America and Mexico.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB & G          |   |
| GCU     | 425         | Geography of the Mexican American Borderland        | Geography of a binational and bicultural region. Examines settlement, boundary issues, ethnic subregions, population change, industrial development, and urban growth.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | (L or SB) & G   |   |
| GCU     | 426         | Geography of Russia and Surroundings                | Examines the geography of Russia and other post-Soviet states.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB & G          |   |
| GCU     | 432         | Geography of China                                  | Examines the physical, economic, cultural, social, demographic, agricultural, political, historical, and environmental aspects of the geography of China.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB & G          |   |
| GCU     | 433         | Geography of Southeast Asia                         | Examines the biophysical and social features of Southeast Asian nations and peoples.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     |                 |   |
| GCU     | 441         | Economic Geography                                  | Spatial distribution of primary, secondary, and tertiary economic and production activities.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB              |   |
| GCU     | 442         | Geographical Analysis of Transportation             | Networks, modes, economics, and flows at the urban, national, and international scales.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB              |   |
| GCU     | 474         | Public Land Policy                                  | Geographic aspects of federal public lands, policy, management, and issues. Emphasizes western wilderness and resource development problems.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | SB              |   |
| GCU     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-12  |                 |   |
| GCU     | 485         | International Field Studies                         | Organized field study, culture and language in specified international locations.   | Y                 | RSC               | Y               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-12  | G               | Pre-requisite: Junior standing; Credit is allowed for only GCU 485 or GPH 485 or LAP 485 or POR 485 or PUP 485 or 585   |
| GCU     | 492         | Honors Directed Study                               | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| GCU     | 493         | Honors Thesis                                       | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| GCU     | 494         | Special Topics                                      | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-4   |                 |   |
| GCU     | 494         | Special Topics                                      | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences           | 1-4   |                 |   |
| GCU     | 496         | Geographic Research Methods                         | Scientific techniques used in geographic research.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     | L               | Prerequisite(s): GPH 111 with C or better; GCU 102 with C or better; GCU 121 with C or better; GIS 205 with C or better |
| GCU     | 497         | Honors Colloquium                                   | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| GCU     | 498         | Pro-Seminar   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-7   |                 |   |
| GCU     | 499         | Individualized Instruction                          | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-3   |                 |   |

| Subject | Catalog Nbr | Course Title                                    | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department   | Units | General Studies | Requirements  |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|------------------------------|--|-------|-----------------|---|
| GCU     | 514         | Human Dimensions of Sustainability              | Concepts and definitions of the human dimensions of sustainability; the role of attitudes and values in shaping sustainability goals, practices, and programs; the diversity of values and socio-cultural contexts relating to sustainability; bottom-up and top-down sustainable policy development, social data collection methodologies.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only GCU 514 or SOS 514   |
| GCU     | 515         | Human Migration                                 | Economic, political, social, and geographic factors underlying population movements. Migration selectivity, streams and counter-streams, labor migration, and migration decision making.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 529         | Contemporary Geographic Thought                 | Comparative evaluation of current philosophy concerning the nature and trends of geography.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 542         | Geographical Analysis of Transportation         | Examines the geographical aspects of transportation systems. Looks at the geography of networks; transport costs and rates; different modes of transport, trade, economic development, and technology. Studies the movement of freight and passengers at the individual, urban, national, and international scales.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 580         | Practicum                                       | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 583         | Fieldwork                                       | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 584         | Internship                                      | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 585         | Geographic Research Design and Proposal Writing | Prepares students to undertake creative geographic research culminating in the generation of new knowledge. Serves as a foundation for the student in achieving the objective of a productive and successful degree. To accomplish this, instruction stresses a research framework, ethical practice, and the generation of an original research proposal. Specific learning objectives are: to produce an area of specialization statement, literature review, problem statement, description of methods and final proposal; to develop the skills needed to conceive and plan a research project; to communicate ideas effectively in written and oral form; to develop and articulate informed opinions about research designs; to learn about academic publishing format and process; and to understand and engage in ethical research practices. | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     |                 | Pre-requisite: Graduate student   |
| GCU     | 586         | International Field Studies                     | Organized field study in specified international locations.   | N                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-12  |                 | Pre-requisite: Graduate (degree or nondegree) student; Credit is allowed for only GCU 485 or 586 or GPH 485 or 585 or LAP 485 or 585 or POR 485 or PUP 485 or 585 |
| GCU     | 590         | Reading and Conference                          | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 590         | Reading and Conference                          | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | New Interdis Arts & Sciences | School of Social and Behavioral Sciences           | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 593         | Applied Project                                 | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | N                 | LEC               | N               | Z1            | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-12  |                 |   |
| GCU     | 594         | Conference and Workshop                         | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 595         | Continuing Registration                         | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | IND               | Y               | Z3            | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 596         | History of Geographic Thought                   | Historical development of geographic thought from pre-Greek days to the early 20th century.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 598         | Special Topics                                  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 598         | Special Topics                                  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Social and Behavioral Sciences           | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | IND               | Y               | Z2            | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 600         | Research Methods                                | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 671         | Introduction to Geographic Teaching             | Intensive course in geographic education, scientific method in research on geographic education, research trends, resources for teaching, best practices.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 672         | Physical Geography for Teachers                 | Transfer of matter and energy exhibited in the Earth's climate, hydrology, soils, biogeography, and landforms; case studies; virtual field trips.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 673         | Human Geography for Teachers                    | Analyzes cultural, economic, urban, historical, transportation, population, political, and development geography; case studies; virtual field trips.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 674         | Geographic Techniques for Teachers              | Introduces geographic techniques, including GPS, GIS, remote sensing, cartography, qualitative, and field methods.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GCU     | 675         | World Geography for Teachers                    | Systematic overview of geographic knowledge about different world regions.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| GCU     | 676         | North American Geography for Teachers     | Systematic overview of geographic knowledge about different North American regions.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GCU     | 677         | Geography Across the Curriculum           | Intensive course on intergrating reading, writing, and mathematics standards with geography content; selected case studies; best practices.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GCU     | 680         | Practicum                                 | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GCU     | 683         | Fieldwork                                 | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GCU     | 684         | Internship                                | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GCU     | 690         | Reading and Conference                    | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GCU     | 691         | Seminar                                   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GCU     | 692         | Research                                  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GCU     | 695         | Continuing Registration                   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GCU     | 700         | Research Methods                          | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GCU     | 780         | Practicum                                 | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GCU     | 783         | Fieldwork                                 | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GCU     | 784         | Internship                                | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GCU     | 790         | Reading and Conference                    | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GCU     | 791         | Seminar                                   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GCU     | 792         | Research                                  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GCU     | 795         | Continuing Registration                   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | IND               | Y               | Z3            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GCU     | 799         | Dissertation                              | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | IND               | Y               | Z2            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GER     | 101         | Elementary German                         | Reading, writing, speaking, and understanding of basic German, with emphasis on pronunciation and grammar.  | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures       | 4     | G               | Credit is allowed for only GER 101 or 111  |
| GER     | 102         | Elementary German                         | Reading, writing, speaking, and understanding of basic German, with emphasis on pronunciation and grammar.  | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures       | 4     | G               | Prerequisite(s): GER 101 with C or better; Credit is allowed for only GER 102 or 111   |
| GER     | 110         | Intensive German I                        | Students learn to read, listen, write and speak German. Develops ability to communicate in German using a variety of tools. Uses German to ask and answer questions; name and describe persons, things, places and events; deals with certain situations; narrates orally and in writing; writes letters and postcards; fills out forms; and comprehends some texts. Expands knowledge of the cultures of the German-speaking countries. Students contribute to the class discussions what they might already know. | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures       | 6-8   | G               | Credit is allowed for only GER 101 or GER 102 or GER 110 or GER 111  |
| GER     | 111         | Fundamentals of German                    | Primarily for students with two years of high school German who need review to enter second-year study.   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures       | 4     |                 | Prerequisite(s): GER 101 with C or better; Credit is allowed for only GER 102 or 111   |
| GER     | 191         | First-Year Seminar                        | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures       | 1-3   |                 | Pre-requisites: Maximum 25 hours   |
| GER     | 194         | Special Topics                            | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures       | 1-4   |                 |  |
| GER     | 201         | Intermediate German                       | Intensive review of grammar, with emphasis on the development of the skills of speaking, listening comprehension, reading, and writing.   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures       | 4     | G               | Prerequisite(s): GER 102 or 111 with C or better   |
| GER     | 202         | Intermediate German                       | See GER 201   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures       | 4     | G               | Prerequisite(s): GER 201 with C or better  |
| GER     | 210         | Intensive German II                       | Helps develop reading, writing, listening and speaking skills and strategies with activities both inside and outside of class. Guides student further into learning about the cultures of the German-speaking countries.  | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures       | 6-8   | G               | Prerequisite(s): GER 102 or 111 with B or better OR GER 110 with C or better; Credit is allowed for only GER 201 or GER 202 or GER 210 |
| GER     | 294         | Special Topics                            | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures       | 1-4   |                 |  |
| GER     | 310         | Advanced German Grammar and Composition I | Intensive, contextualized advanced German grammar and intensive practice in writing, emphasizing covered style and grammar.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures       | 3     | G               | Prerequisite(s): GER 202 or 210 with C or better   |
| GER     | 311         | German Conversation                       | Expansion of idiom through oral practice dealing with contemporary articles, essays and stories.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures       | 3     | G               | Prerequisite(s): GER 202 or 210 with C or better   |
| GER     | 312         | Readings in German Culture                | Provides strategies for building reading proficiency in German through longer cultural texts.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures       | 3     | G               | Prerequisite(s): GER 202 or GER 210 with C or better   |

| GER     | 412         | Advanced German                            | Improvement of writing and speaking ability.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | G               | Prerequisite(s): GER 313 with C or better   |
| GER     | 415         | German Civilization                        | Aspects of political, social, and cultural life of the German-speaking world from the beginning through 1600.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | HU & H & G      | Pre-requisite: A 300-level German course  |
| GER     | 416         | German Civilization                        | From 1600 through 1945.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | HU & H & G      | Pre-requisite: A 300-level German course  |
| GER     | 421         | German Literature Survey, 800-1800         | From the beginning to Classicism.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | HU              | Prerequisite(s): GER 310 with C or better   |
| GER     | 422         | German Literature Survey, 1800-Today       | From Romanticism to the present.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | L or HU         | Prerequisite(s): GER 310 with C or better   |
| GER     | 431         | German Humor                               | Popular and literary texts (collections of jokes, pranks and comedies) in the print and visual media provide a basis of comparison for students to reflect critically on the function of humor in German culture from the sixteenth century until the present. Exposes the different types and functions of German humor and understands both the historical and the contemporary theoretical debate on the study of (German) humor. Taught almost exclusively in German, with reading and writing assignments done in the target language.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): Two 300-level GER courses with C or better; Credit is allowed for only GER 431 or GER 494 (German Humor and Comedy)  |
| GER     | 441         | Fairy Tales                                | Foundational fairy tale texts collected by the Brothers Grimm and written by Hans Christian Andersen and their modern permutations reflect basic human desires, fears and aspirations as well as the values of the period in which they are written. These stories and their variants in popular culture across the globe permit students to reflect critically on the functions of fairy tales in both past and present civilizations. Students perceive the ways in which ancient tales can be utilized for various purposes and understand the contemporary theoretical debate on the study of fairy tales and their role in popular culture. Course taught in English. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | HU & G          | Prerequisite(s): ENG 102, 105 or 108 with C or better; one other ENG or GER upper-division course with C or better. Credit is allowed for only GER 441, GER 494 (Fairy Tales), or SLC 441   |
| GER     | 445         | The Holocaust in German-Mediated Memory    | Examines representations of the Holocaust from across different media (literature, film, architecture, memoir, photography) and from across multiple generations of German engagement with this period in history.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): ENG 200 or ENG 201 or ENG 202 or ENG 204 or FMS 100 or FMS 200 or JST 210 or JST 230 or SLC 202 with C or better; Credit is allowed for only FMS/GER/JST/SLC 445 or GER 494 (Holocaust & German Media or Holocaust & German Mediated Memory) |
| GER     | 446         | Weimar-Era German Film                     | Examines early film production in Germany during the period of the Weimar Republic.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): ENG 200 or 201 or 202 or 204 or FMS 100 or 200 or SLC 202 with C or better; Credit is allowed for only FMS 446 or GER 446 or SLC 446 or GER 494 (Weimar German Cinema) or GER 494 (Studies in German Film)                                   |
| GER     | 447         | German Modernism                           | Examines examples of modernism in literature, art and film from German-speaking Europe.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): ENG 200 or 201 or 202 or 204 or FMS 100 or 200 or SLC 202 with C or better; Credit is allowed for only GER 447 or SLC 447 or GER 494 (German Modernism)  |
| GER     | 453         | German Literary Masterpieces on Film       | Film and literature in their correlation to each other and to cultural, political, and social trends in German-speaking countries. Special arrangements for graduate students and those without a knowledge of German.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | HU & H & G      |   |
| GER     | 455         | Multi-Kulti: Multiculturalism Through Film | Examines how ethnic identities are perceived, constructed and marketed as well as how they perceive themselves and the "others." Critically engages with such concepts as migration, assimilation, citizenship, hybridity and authenticity. Focuses on exemplary films, including comparisons with minority experiences in other countries. Through film and other material on the topic, will learn to contextualize recruitment of guest workers, xenophobia and racism, citizenship law, immigration and national identity, the institutions of multiculturalism, religion, the private sphere, multilingualism, popular culture and globalization.                     | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     | G               | Prerequisite(s): ENG 101 or 105 or 107 with C or better; Credit is allowed for only GER 455 or SLC 455 or GER 494 (Multi-Kulti: Multiculturalism in Central Europe) or SLC 494 (Multi-Kulti: Multiculturalism in Central Europe)                              |
| GER     | 465         | Intercultural Communicative Competence     | Focuses on the importance of culture(s) and the ways in which culture(s) effects and interrelates with communication. Communicating across cultures is very important in order for us to be able to function in a globalized, diverse world, e.g., workplace, city. Using our own experiences and discussions as well as the readings, course increases our sensitivity, understanding and awareness of our own culture(s) as well as other culture(s). Approaches the study of intercultural communicative competence in a theoretical and practical way.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 3     |                 | Prerequisite(s): ENG 101, 105, or 107 with C or better; Credit is allowed for only GER 465 or SLC 465 or GER 494 (Intercultural Communicative Competence) or SLC 494 (Intercultural Communicative Competence)   |
| GER     | 484         | Internship                                 | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures | 1-12  |                 |   |
| GER     | 492         | Honors Directed Study                      | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.  | N                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| GER     | 493         | Honors Thesis                              | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | LEC               | N               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| GER     | 494         | Special Topics                             | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-4   |                 |   |
| GER     | 498         | Pro-Seminar                                | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-7   |                 |   |

| GER     | 499         | Individualized Instruction   | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | N                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures       | 1-3   |                 |   |
| GER     | 500         | Research Methods   | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GER     | 521         | History of German Language   | Linguistic development of German from the earliest records to the present.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures       | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GER     | 550         | German for Reading Knowledge   | Teaches non-speakers of foreign language, or those with only basic notions of the language, how to read in a foreign language at an advanced level. Consists of a concise overview of grammar as well as reading comprehension practice for students who plan to take the Graduate Foreign Language Exam or others who would merely like to learn to read in a foreign language. Focuses only on reading and not on listening, speaking, or writing as in a traditional language course.            | N                 | LEC               | Y               | GNA           | Liberal Arts and Sciences | School of International Letters and Cultures       | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only GER 494 (German for Reading Knowledge), GER 598 (German for Reading Knowledge), or GER 550 |
| GER     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GER     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GER     | 590         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GER     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GER     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GER     | 593         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GER     | 595         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences | School of International Letters and Cultures       | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GER     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures       | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GER     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences | School of International Letters and Cultures       | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GIS     | 194         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-4   |                 |   |
| GIS     | 201         | Spatial Thinking   | Introduces spatial thinking, a cross-disciplinary foundation for geographic information science (the science of dealing with spatial/geographical data; their manipulation, interpretation and use in problem solving); geospatial technologies (the specific technologies underpinning geographic information science); and spatial analysis (the science of solving spatial problems).  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 |   |
| GIS     | 205         | Geographic Information Technologies                                    | Introduces modern geographic information technologies, including cartography, GIS, remote sensing, global positioning systems, and statistical analyses.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     | CS              |   |
| GIS     | 211         | Geographic Information Science I                                       | History and basic aspects of GIS including map and data file structure, conversions, and synthesis with a computerized environment.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 4     | CS              |   |
| GIS     | 220         | Mathematical Principles in GIS   | Covers the basic math principles needed to excel in GIS and spatial analysis.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Pre-requisite: MAT 265 (or MAT 270) with C or better  |
| GIS     | 294         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-4   |                 |   |
| GIS     | 311         | Geographic Information Science II                                      | GIS as a basis for microcomputer spatial analysis and synthesis. Includes digitizing, database organization, spatial retrieval, and graphics.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 4     | CS              | Prerequisite(s): GIS 211 with C or better   |
| GIS     | 321         | Programming Principles in GIS  | Basic principles of programming for GIS in python covering data processing, analysis, and application development.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Pre-requisite: CSE 110  |
| GIS     | 322         | Spatial Data Structures and Algorithms                                 | Fundamental data structures and algorithms for the integration, management, processing and analysis of geographically referenced data.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Pre-requisite: GIS 321  |
| GIS     | 341         | Introduction to Cartography and Georepresentation                      | Study and creation of maps. Fundamental mapping principles (projection, scale, generalization, symbolization) and computer-based cartographic production.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     | CS              | Prerequisite(s): minimum 45 hours   |
| GIS     | 351         | Air Photo Interpretation   | Subset, remote sensing, includes photography, films, aerial geometry, image components, stereoscopy, photogrammetry, ground truthing; interpret physical, cultural, economic, intelligence information.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): minimum 45 hours   |
| GIS     | 394         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-4   |                 |   |
| GIS     | 412         | Spatial Decision Support Systems                                       | Theoretical and technical requirements for implementing spatial decision support tools.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): CSE 110 with C or better; GIS 311 with C or better   |
| GIS     | 431         | Spatial Databases  | Covers data modeling concepts, the relational data model for the storage and retrieval of spatial and nonspatial information. The data retrieval emphasizes the industry-standard query language SQL and Spatial Query Languages.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Pre-requisite: GIS 311; GIS 322   |
| GIS     | 441         | Geographics: Interactive and Animated Cartography and Geovisualization | Advanced cartography, stressing influence and application of the computer on geographic representation. Emphasizes creation of maps for the Internet.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     | CS              | Prerequisite(s): GIS 321  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department   | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|---|
| GIS     | 461         | Optimization Fundamentals for Spatial Analysis | Covers the fundamentals of optimization for spatial analysis. Reviews elements of calculus, matrices, and basic linear algebra. Introduces linear programming, integer programming and branch and bound, and heuristics. Provides the basics for use and application of GIScience and spatial analysis methods. Objectives include: reviewing basics of math, calculus and linear algebra; introducing optimization approaches, including linear programming, integer programming and heuristics; and applying these methods to structured problems.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): MAT 270, 271 or 272 with C or better; Credit is allowed for only GIS 461, 561, PUP 481, 581, GCU 494 (Optimization Fundamentals) or GCU 598 (Optimization Fundamentals)                  |
| GIS     | 462         | Location Analysis and Modeling                 | Provides a technical overview of location theory in the context of GIScience, focusing on analysis and modeling issues. Relies upon applications associated with emergency service planning, natural resource management, retail site selection, among others, to make connections among models, spatial information, and interpretation of findings. Explores utilization and implementation considerations using GIS. Objectives include: exposing a range of location analysis and modeling approaches; applying approaches in combination with GIS and optimization software; and carrying out an application-oriented study relying on acquired skills.                                    | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): GIS 211 with C or better; GIS 461 with C or better; Credit is allowed for only GIS 462 or GIS 562 or PUP 482 or PUP 582 or PUP 598 (Location Modeling)                                   |
| GIS     | 470         | Statistics for Geographers                     | Statistical techniques applied to the analysis of spatial distributions and relationships. Introduces models and theory in geography.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     | CS              | Prerequisite(s) MAT 117, 119, 142, 170, 210, 211, 251, 265 or 270 with C or better  |
| GIS     | 471         | Geographic Information Analysis                | Basics of spatial data analysis. Topics include point pattern analysis, spatial autocorrelation, spatial regression, and kriging.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Pre-requisite: GIS 470  |
| GIS     | 472         | Spatial Regression Analysis                    | Students gain insight into the scope of spatial regression methods, apply them in an empirical setting, and properly interpret the results of spatial regression analysis.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Pre-requisite: GIS 471; Credit is allowed for only GIS 472 or GPH 598 (Spatial Regression)  |
| GIS     | 484         | Internship                                     | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 |   |
| GIS     | 494         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-4   |                 |   |
| GIS     | 498         | Pro-Seminar                                    | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-7   |                 |   |
| GIS     | 499         | Individualized Instruction                     | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | IND               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-3   |                 |   |
| GIS     | 500         | Research Methods                               | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 |   |
| GIS     | 501         | GeoDesign in Practice                          | Covers the basic topics of GeoDesign in practice including data, analysis, geocoding, mapping and projected implementation.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): GIS 601 and 602 (or PUP 576)   |
| GIS     | 505         | GeoDesign Principles                           | Systematic exploration and evaluation of alternative complex human-environmental systems using spatially and temporally explicit theories, data and methods.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 2     |                 | Prerequisite(s): GIS 601 and 602, or PUP 576; Credit is allowed for only GIS 505 or PUP 505   |
| GIS     | 512         | Spatial Decision Support                       | Designs and implements a spatial decision support system and analyzes and understands the theoretical underpinnings that form these systems.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): Degree- or Nondegree-seeking graduate; Credit is allowed for only GIS 412 or GIS 512   |
| GIS     | 515         | GIS Workshop                                   | GIS as a tool to address large, multifaceted problems.  | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only GIS 515 or PUP 576   |
| GIS     | 521         | Geographic Information Science III             | In-depth look at programming within GIS. Focuses on programming and methodology, utilizing specific software, and basic scientific computing.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GIS     | 531         | Spatial Databases                              | Advanced data modeling concepts, the relational data model for the storage and retrieval of spatial and non-spatial information. Data retrieval emphasizes the industry-standard query language SQL and spatial query languages. Covers research topics for graduate students.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): Degree- or Nondegree-seeking graduate; Credit is allowed for only GIS 431 or GIS 531   |
| GIS     | 561         | Optimization Fundamentals for Spatial Analysis | Covers the fundamentals of optimization for spatial analysis. Reviews elements of calculus, matrices and basic linear algebra. Introduces linear programming, integer programming and branch and bound, and heuristics. Provides the basics for use and application of GIScience and spatial analysis methods. Objectives include: (1) review basics of math, calculus and linear algebra; (2) introduce optimization approaches, including linear programming, integer programming and heuristics; and (3) apply these methods to structured problems.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only GCU 494 (Optimization Fundamentals) or GCU 598 (Optimization Fundamentals) or GIS 461 or GIS 561 or PUP 481 or PUP 581 |
| GIS     | 562         | Location Analysis and Modeling                 | Provides a technical overview of location theory in the context of GIScience, focusing on analysis and modeling issues. Relies upon applications associated with emergency service planning, natural resource management, retail site selection, among others to make connections among models, spatial information and interpretation of findings. Explores utilization and implementation considerations using GIS. Objectives include: (1) exposure to a range of location analysis and modeling approaches; (2) ability to apply approaches in combination with GIS and optimization software; and (3) capability of carrying out an application-oriented study relying on acquired skills. | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Pre-requisites: GIS 561; Credit is allowed for only GIS 462, 562, PUP 482, 582, or 598 (Location Modeling)  |
| GIS     | 580         | Practicum                                      | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GIS     | 583         | Fieldwork                                      | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GIS     | 584         | Internship                                     | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GIS     | 590         | Reading and Conference                         | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GIS     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                       | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department   | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|--|
| GIS     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-15  |                 |  |
| GIS     | 593         | Applied Project                                    | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GIS     | 594         | Conference and Workshop                            | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GIS     | 595         | Continuing Registration                            | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GIS     | 598         | Special Topics                                     | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GIS     | 600         | Research Methods                                   | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GIS     | 601         | Introduction to Geographic Information Systems     | Introduces GIS theory and practice for professionals.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 2     |                 | Prerequisite(s): Geographic Information Systems MAS student  |
| GIS     | 602         | Intermediate GIS                                   | Introduces visualization, spatial analysis and open source tools.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 2     |                 | Prerequisite(s): Geographic Information Systems MAS student  |
| GIS     | 603         | Spatial Statistics and Modeling                    | Introduces spatial statistics and modeling.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 2     |                 | Prerequisite(s): Geographic Information Systems MAS student  |
| GIS     | 604         | Implementation in the Corporate and Public Sectors | GIS use in the corporate and public sectors including proposal development.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 2     |                 | Prerequisite(s): Geographic Information Systems MAS student  |
| GIS     | 605         | GIS Project Planning and Implementation            | Moving from project proposal to implementation.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 2     |                 | Prerequisite(s): Geographic Information Systems MAS student  |
| GIS     | 606         | GIS Project Presentation                           | Development of technical reports and presentations.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 2     |                 | Prerequisite(s): Geographic Information Systems MAS student  |
| GIS     | 610         | Programming the GIS Environment                    | Programming fundamentals for desktop GIS and custom applications.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): Geographic Information Systems MAS student  |
| GIS     | 630         | GIS Technologies                                   | Uses of GIS technology for data collection and management.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): Geographic Information Systems MAS student  |
| GIS     | 640         | GIS for Business                                   | Uses of GIS in business practice including site suitability, demographic data and business analysis.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): Geographic Information Systems MAS student  |
| GIS     | 650         | GIS for the Internet                               | Programming GIS for the Internet and mobile applications.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): Geographic Information Systems MAS student  |
| GIS     | 680         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 |  |
| GIS     | 683         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GIS     | 684         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GIS     | 690         | Reading and Conference                             | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GIS     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GIS     | 692         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GIS     | 693         | Applied Project                                    | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GIS     | 695         | Continuing Registration                            | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | RSC               | Y               | Z3            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GIT     | 135         | Graphic Communications                             | Technologies and processes involved in the design, image generation, transmission, and industrial production of graphic information.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology                     | 3     |                 |  |
| GIT     | 191         | First-Year Seminar                                 | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology                     | 1-3   |                 | Prerequisite(s): Applied Science (Graphic Information Technology) BAS or Graphic Information Technology BS or Graphic Information Technology (Gaming) BS major |
| GIT     | 194         | Special Topics                                     | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology                     | 1-4   |                 |  |
| GIT     | 210         | Creative Thinking and Design Visualization         | Fundamental methods, concepts, and techniques of creative thinking, design visualization, and problem solving, including communication and societal influences.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology                     | 3     |                 |  |
| GIT     | 211         | Introduction to Video Game Art                     | 2D and 3D art assets for video games. Areas covered: classic pixel art, seamless texturing and tiling, sprite animation, 3D virtual studio, box modeling.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Graphic Information Technology                     | 3     |                 |  |
| GIT     | 215         | Introduction to Web Authoring                      | Graphic user interface planning and evaluation using industry-standard languages; graphics, color layout and file format considerations.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology                     | 3     |                 |  |
| GIT     | 230         | Digital Illustration in Publishing                 | Raster and vector illustration in publishing.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology                     | 3     |                 |  |
| GIT     | 237         | Web Content Design                                 | User-centered design principles for visual content on the World Wide Web with emphasis on usability, page architecture, search engine optimization, coding, scripting and interactivity.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology                     | 3     |                 | Prerequisite(s): GIT 215; GIT 230 or Prerequisite(s): BAS in Graphic Information Technology or BAS in Internet and Web Development student                     |
| GIT     | 250         | Introduction to Commercial Print                   | Provides an overview of current print technology, a basic understanding of the print process and current workflows.   | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering | Graphic Information Technology                     | 3     |                 |  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                      | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                     | Units | General Studies | Requirements  |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|---------------------------|--------------------------------|-------|-----------------|---|
| GIT     | 294         | Special Topics                                    | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 1-4   |                 |   |
| GIT     | 295         | Introduction to Technical Imaging                 | Explores imaging technologies utilized in industry. Covers basic imaging concepts, chip technologies, optics, motion analysis, high-speed video, thermal imaging, and science relating to light and latent imaging.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Pre-requisite: Undergraduate student; Credit is allowed for only GIT 295 or 294 (Introduction to Technical Imaging)   |
| GIT     | 303         | Digital Publishing                                | Web and print publication design and production using industry-standard composition software, proofing, and output devices.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Pre-requisite: GIT 230 or BAS student in Graphic Information Technology or Internet/Web Development.  |
| GIT     | 310         | Web Foundations                                   | 7.5-week course covers fundamental methods, concepts and techniques of semantic and validated Web development as well as aesthetic Web design. Includes Photoshop, HTML5 and CSS technologies.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Prerequisite(s): Applied Science (Graphic Information Technology or Internet and Web Development) BAS major; minimum junior standing; Credit is allowed for only GIT 215 or GIT 237 or GIT 310 or GIT 394 (Web Foundations) |
| GIT     | 312         | 3-D Computer Graphics Modeling and Representation | 3-D modeling applications: modeling for video games, mapping techniques, texturing, box modeling, geometric representation, strategies and assemblies.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 3     | CS              | Pre-requisites: GIT 211 or GIT 294 (Intro to 2D-3D Video Game Art)  |
| GIT     | 314         | Multimedia Design, Planning and Storyboards       | The creative process of generating ideas, conceptualizing projects, planning, designing, story boarding, and presenting interactive multimedia products.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Prerequisite(s): minimum junior standing; GIT 230 OR Applied Science (Graphic Information Technology) BAS or Applied Science (Internet and Web Development) BAS major   |
| GIT     | 315         | Digital Video Techniques                          | Covers video production, including planning, pre-production, production, post-production and online video technologies and how video is an integral part of the graphic information industry. Concentrates on commercial and client-driven video production. | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Prerequisite(s): GIT 230; Credit is allowed for only GIT 315 or GIT 294 (Intro to Video Content)  |
| GIT     | 333         | Printing Technology                               | Theory and application of sheet and web press technology for offset-lithography, flexography, screen process, and digital printing.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Prerequisite: GIT 303   |
| GIT     | 334         | Image Editing and Manipulation                    | Theory and application of advanced image editing and raster techniques for reproduction and dissemination.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Prerequisite(s): GIT 230 or Graphic Information Technology or Internet/Web Development BAS major  |
| GIT     | 335         | Computer Systems Technology                       | Computer technology: hardware, software, storage, networking, Internet, telecommunications, and information systems. Requires independent research. Not for credit for BS Graphic Information Technology major.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Prerequisite(s): minimum junior standing; Not for credit for the Graphic Information Technology BS degree   |
| GIT     | 340         | Information Design and Usability                  | Design and technology solutions for increasing Website usability and methods of organizing information to improve the user experience.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Prerequisite(s): junior standing; Credit is allowed for only GIT 340 or GIT 494 (Information Design and Usability)  |
| GIT     | 384         | Commercial Photography                            | Digital image capture, and output in a commercial studio emphasizing publishing workflow.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Pre-requisites: GIT 230 or BAS student in Graphic Information Technology or Internet/Web Development  |
| GIT     | 394         | Special Topics                                    | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 1-4   |                 |   |
| GIT     | 402         | New Media Internet Technologies                   | Project-based exploration of new media Internet technologies from a graphic technology prospective. Emphasizes how, why, and when new media can be used to enhance a Web site and the user's experience.   | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Prerequisite(s): minimum junior standing  |
| GIT     | 411         | Computer Animation                                | 3-D computer animation methods: rigging for video games, principles of animation, loops, skinning, blending, advanced modeling and motion.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Pre-requisite: GIT 312  |
| GIT     | 413         | Professional Portfolio Design and Presentation    | Digital media portfolio design and production: planning, audience analysis, media selection, authoring, media formats, production, copyright considerations, marketing, and delivery. Requires capstone group project.                                       | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Prerequisite(s): Graphics Information Technology major; senior standing; GIT 303  |
| GIT     | 414         | Web Site Design and Internet/Web Technologies     | Web site design, authoring, standards, protocols, tools, and development techniques for commercial client-sided Web-based graphic information systems.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Prerequisite(s): GIT 237 or 310   |
| GIT     | 415         | Advanced Digital Video Techniques                 | Covers advanced video creation and editing techniques including motion graphics, green screen technology, audio sweetening and creative video editing. Course culminates with a completed video production that is commercial in nature.                     | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Prerequisite(s): GIT 315; Credit is allowed for only GIT 415 or GIT 394 (Advanced Video Techniques)   |
| GIT     | 417         | Advanced Web Markup and Scripting                 | Industry-standard programming languages and techniques to create interactive graphic information Web sites and applications.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Pre- or corequisite(s): GIT 237 or 310  |
| GIT     | 418         | Multimedia Authoring, Scripting and Production    | Production of multimedia projects using industry-standard authoring applications: client considerations and project documentation; user interface design, interactivity, media, and databases.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Prerequisite(s): GIT 417; Credit is allowed for only GIT 418 or GIT 598 (Multimedia Authoring, Scripting and Production)  |
| GIT     | 432         | Graphic Industry Business Practices               | Business practices related to the graphics industry; business models, cost analysis, marketing and management approaches.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Prerequisite(s): minimum senior standing; Credit is allowed for only GIT 432 or GIT 598 (Graphic Industry Business Practices)   |
| GIT     | 435         | Website and E-Commerce Strategies                 | Internet Web site management, security, marketing, and e-commerce business models.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Prerequisite(s): GIT 414; Credit is allowed for only GIT 435 or GIT 598 (Website & E-Commerce Strategy)   |
| GIT     | 437         | Color Reproduction Systems                        | Scientific analysis for the engineering of color reproduction systems and color models used in the graphics industry.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Prerequisite(s): GIT 334; Credit is allowed for only GIT 437 or GIT 573 or GIT 598 (Color Reproduction Systems)   |
| GIT     | 450         | Digital Workflow in Graphic Industries            | Digital production system analysis for content creation, automation output of graphic information to print and Web, including networking and job tracking.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Prerequisite(s): GIT 215; GIT 303 OR Applied Science (Internet & Web Development) BAS major; Credit is allowed for only GIT 450 or GIT 598 (Digital Workflow in Graphic Industries)   |
| GIT     | 480         | Senior Project                                    | Capstone project experience refining skills in communication, research and information retrieval, critical analysis and criticism, and demonstrating technical competence in each student's area of study.   | N                 | LEC               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Prerequisite(s): minimum senior standing; Pre- or corequisite(s): GIT 413 or Applied Science (Internet and Web Development) BAS major   |
| GIT     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | N                 | PRA               | Y               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 1-12  |                 |   |
| GIT     | 490         | Advanced Commercial Photography                   | Studio-based class focusing on set design, advanced photographic techniques, raw workflow, marketing, business, and digital rights management.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering | Graphic Information Technology | 3     |                 | Pre-requisite: GIT 384  |
| GIT     | 492         | Honors Directed Study                             | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.  | N                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering | Graphic Information Technology | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| GIT     | 493         | Honors Thesis                                     | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | LEC               | N               | Z1            | Ira A. Fulton Engineering | Graphic Information Technology | 1-6   | L               | Prerequisite(s): Barrett Honors student   |

ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                    | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department                                  | Units | General Studies | Requirements  |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|------------------------------|---|-------|-----------------|---|
| GIT     | 494         | Special Topics                                  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering    | Graphic Information Technology              | 1-4   |                 |   |
| GIT     | 498         | Pro-Seminar                                     | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.   | Y                 | SEM               | Y               | OPT           | Ira A. Fulton Engineering    | Graphic Information Technology              | 1-7   | L               |   |
| GIT     | 499         | Individualized Instruction                      | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. This course may be taken only by outstanding senior students who have completed at least one semester in residence and who have a cumulative GPA of 3.00 or higher in the major or field of specialization. A special class fee may be required. | Y                 | IND               | Y               | Z1            | Ira A. Fulton Engineering    | Graphic Information Technology              | 1-3   |                 |   |
| GIT     | 500         | Research Methods                                | Course on research methods in a specific discipline.   | Y                 | RSC               | Y               | OPT           | Ira A. Fulton Engineering    | Graphic Information Technology              | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GIT     | 502         | New Media Internet Technologies                 | Project-based exploration of new media Internet technologies from a graphic information technology perspective. Emphasizes how, why and when new media can be used to enhance a Web site and the user's experience while maintaining branding cohesively across all technologies.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering    | Graphic Information Technology              | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only GIT 502 or 598 (New Media Internet Technologies)                   |
| GIT     | 515         | Website Design and Technologies                 | Standards, tools and techniques for creating websites, with emphasis on designing for multiple devices and systems.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering    | Graphic Information Technology              | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate; Credit is allowed for only GIT 414 or GIT 515 or GIT 598 (Website Design and Internet/Web)s   |
| GIT     | 519         | Advanced Scripting for the Web                  | Uses industry-standard markup and scripting languages to develop interactive websites and applications.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering    | Graphic Information Technology              | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only GIT 417 or GIT 519 or GIT 598 (Advanced Internet Programming)      |
| GIT     | 537         | Current Issues in Cross Media Production        | Directed group study of selected current issues relating to cross-media production for the graphic information industries. Requires graduate group leadership.   | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering    | Graphic Information Technology              | 3     |                 | Prerequisite(s): graduate student in Technology (Graphic Info Tech)   |
| GIT     | 538         | Personnel Development for the Graphics Industry | Employee training and development specific to production and management in the graphics industry.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering    | Graphic Information Technology              | 3     |                 | Prerequisite(s): graduate student in Technology (Graphic Info Tech)   |
| GIT     | 540         | Cross-Media Design Solutions                    | Universal design theory, creative problem solving, and case study applications for print, Web, and new media products of the graphics industry.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering    | Graphic Information Technology              | 3     |                 | Prerequisite(s): graduate student in Technology (Graphic Info Tech)   |
| GIT     | 542         | Usability and User Experience                   | Design and technology solutions focusing on how information is organized graphically to communicate and how website usability is employed to improve human interaction with inline information.  | N                 | LEL               | N               | OPT           | Ira A. Fulton Engineering    | Graphic Information Technology              | 3     |                 | Prerequisite(s): graduate student in Technology (Graphic Info Tech); Credit is allowed for only GIT 494 (Information Design and Usability) or GIT 542 |
| GIT     | 573         | Color Metrology                                 | In-depth study and analysis of systems used to manage color reproduction in the graphic arts industry and information technology.  | N                 | LEL               | N               | GNA           | Ira A. Fulton Engineering    | Graphic Information Technology              | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only GIT 437 or GIT 573 or GIT 598 (Color Reproduction Systems) |
| GIT     | 584         | Internship                                      | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | PRA               | Y               | Z1            | Ira A. Fulton Engineering    | Graphic Information Technology              | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GIT     | 590         | Reading and Conference                          | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | LEC               | Y               | Z1            | Ira A. Fulton Engineering    | Graphic Information Technology              | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GIT     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | Ira A. Fulton Engineering    | Graphic Information Technology              | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GIT     | 593         | Applied Project                                 | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | PRA               | Y               | Z1            | Ira A. Fulton Engineering    | Graphic Information Technology              | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GIT     | 595         | Continuing Registration                         | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | RSC               | Y               | Z3            | Ira A. Fulton Engineering    | Graphic Information Technology              | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GIT     | 598         | Special Topics                                  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | Ira A. Fulton Engineering    | Graphic Information Technology              | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GIT     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | Ira A. Fulton Engineering    | Graphic Information Technology              | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GLG     | 101         | Introduction to Geology I (Physical)            | Basic principles of geology, geochemistry, and geophysics. Rocks, minerals, weathering, earthquakes, mountain building, volcanoes, water, and glaciers. Students must complete both GLG 101 and GLG 103 to receive an SQ (general studies).  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3     | SQ              |   |
| GLG     | 101         | Introduction to Geology I (Physical)            | Basic principles of geology, geochemistry, and geophysics. Rocks, minerals, weathering, earthquakes, mountain building, volcanoes, water, and glaciers. Students must complete both GLG 101 and GLG 103 to receive an SQ (general studies).  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     | SQ              |   |
| GLG     | 102         | Introduction to Geology II (Historical)         | Basic principles of applied geology and the use of these principles in the interpretation of geologic history. Both GLG 102 and 104 must be taken to secure SG General Studies credit.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3     | SG & H          |   |
| GLG     | 103         | Introduction to Geology I-Laboratory            | 3 hours lab, some field trips. Both GLG 101 and 103 must be taken to secure SQ General Studies credit.   | N                 | LAB               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1     | SQ              |   |
| GLG     | 103         | Introduction to Geology I-Laboratory            | 3 hours lab, some field trips. Both GLG 101 and 103 must be taken to secure SQ General Studies credit.   | N                 | LAB               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1     | SQ              |   |
| GLG     | 104         | Introduction to Geology II-Laboratory           | Lab techniques involving map interpretation, cross sections, and fossils. Both GLG 102 and 104 must be taken to secure SG general Studies credit.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1     | SG              | Co-requisite: GLG 102   |

| GLG     | 108         | Water Planet                               | Overview of the processes that control water supply to natural ecosystems and human civilizations. Part I introduces the basic science that helps us understand the water planet, including the hydrologic cycle, glaciers and ice; rivers, oceans, and natural hazards associated with water such as flooding, landsliding and tsunamis. Part II covers some of the management and resource allocation topics that face humanity today, including droughts, groundwater contamination, impacts on fisheries, conflicts over water, patterns of water use, and effects of global climate change on future water supplies. Uses water issues facing Arizona and California as examples.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 4     | SQ              | Credit is allowed for only GLG 108 or SOS 182   |
| GLG     | 108         | Water Planet                               | Overview of the processes that control water supply to natural ecosystems and human civilizations. Part I introduces the basic science that helps us understand the water planet, including the hydrologic cycle, glaciers and ice; rivers, oceans, and natural hazards associated with water such as flooding, landsliding and tsunamis. | GLG     | 110         | Dangerous World                            | Geological studies as they apply to interactions between humans and Earth. Includes geological processes and hazards, resources, and global change. Both GLG 110 and 111 must be taken to secure SG General Studies credit.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3     | SG & G          |   |
| GLG     | 110         | Dangerous World                            | Geological studies as they apply to interactions between humans and Earth. Includes geological processes and hazards, resources, and global change. Both GLG 110 and 111 must be taken to secure SG General Studies credit.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     | SG & G          |   |
| GLG     | 111         | Dangerous World Laboratory                 | Basic geological processes and concepts. Emphasizes geology-related environmental problems concerning Arizona. Both GLG 110 and 111 must be taken to secure SG General Studies credit.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1     | SG              |   |
| GLG     | 111         | Dangerous World Laboratory                 | Basic geological processes and concepts. Emphasizes geology-related environmental problems concerning Arizona. Both GLG 110 and 111 must be taken to secure SG General Studies credit.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1     | SG              |   |
| GLG     | 191         | First-Year Seminar                         | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-3   |                 | Pre-requisites: Freshman standing; Maximum 25 hours   |
| GLG     | 194         | Special Topics                             | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-4   |                 |   |
| GLG     | 294         | Special Topics                             | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 1-4   |                 |   |
| GLG     | 301         | Earth Science in Arizona and the Southwest | Place-based application of geology and allied Earth system sciences to explore and interpret the landscapes, rocks, geologic history, climate, resources, and natural hazards of Arizona and the Southwest. Integrates case studies of the interactions of Southwest cultures and societies (past and present) with Earth systems, and inquiry into the future sustainability of Southwestern communities and lifeways.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3     |                 | Prerequisite(s): ENG 101, 105 or 107 with C or better; GLG 101, 102, 110, GPH 111 or SES 121; MAT 117 or higher; Credit is allowed for only GLG 301, 394 (Earth Sci in AZ & SW) or SOS 372                                  |
| GLG     | 304         | Minerals, Energy, and Society              | Studies the science and technology of the minerals and energy industries, how these industries interact with society, and how these interactions may change in the future.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3     |                 | Prerequisite(s): ENG 101, ENG 105 or ENG 107 with C or better; GLG 101, GLG 102, GLG 110, GPH 111, SES 121, or minimum junior standing; Credit is allowed for only GLG 304, GLG 394 (Minerals, Energy & Society) or SOS 373 |
| GLG     | 305         | Dynamic Earth                              | Emphasizes the link between Earth's interior and surface, focusing on Earth systems and cycles, such as observation and modeling of the geometry and motions of Earth's rigid outer shell, the tectonic plates, and how they are coupled to the geologic record, the nature of Earth's internal structure, and convective motions within the planet. Specific topics include: (1) essentials of Earth's dynamic interior (models for physical and chemical evolution); (2) essentials of lithosphere evolution (cooling of oceanic plates, the age of the Earth, and continent formation); (3) multi-scale tectonics (plate tectonics, continental deformation, mountain building, tectonic context of metamorphism); (4) essentials of volcanism in a tectonic context; (5) geodynamic context of plate boundaries; and (6) chemical cycles (role of the solid crust and mantle for transporting, storing, and cycling water and minerals). Provides an essential global context for studies of Earth and Environmental Science. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3     |                 | Prerequisite(s): BIO 100 or CHM 101 (or higher) or PHY 101 (or higher) with C or better; GLG 101 or SES 121 with C or better; MAT 170 or 210 or 251 with C or better  |
| GLG     | 310         | Structural Geology                         | Geologic structures and the mechanical processes involved in their formation.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3     |                 | Prerequisite(s): GLG 101 or SES 121 with C or better; MAT 170, 171, 210, 251, 265, or 270 with C or better  |
| GLG     | 321         | Mineralogy                                 | Crystal chemistry, crystallography, mineral identification, origin and occurrence of minerals, systematic mineralogy.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of Earth and Space Exploration       | 3-4   |                 | Prerequisite(s): CHM 113 (or both CHM 111 and 117 or 114) with C or better; MAT 170, 210, 265 or 270 with C or better   |

| GLG     | 327         | Earth's Critical Zone                  | The Earth's near surface environment (the "critical zone") supports most life and is the dynamic interface between the solid Earth and its fluid envelopes where much of the geologic record is produced. We now know that we face rapid climate change and the consequences of changes in land use, water resources, and ecosystems. Critical to planning a response to, or mitigation of, environmental change is understanding how the Earth surface works. Focuses on how changes to the environment manifest themselves in the critical zone--in the form and function of the Earth's surface (landforms, water resources, soils, ecosystems). Offers a quantitative introduction to the form and function of the processes impacting the Earth's critical zone to build an understanding of the interactions of physical, chemical and biotic processes in shaping the surface and determining fluid, solute and sediment fluxes. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Prerequisite(s) with C or better: GLG 101 & 103 or SES 121 & 123; MAT 170, 171, 210, 251, 265 or 270; PHY 101, 111, 121, or 150 or CHM 101, 107, 113, or 114 or BIO 100, 181, 182, 281, or 282; Credit is allowed for only GLG 327 or SOS 374                 |
| GLG     | 362         | Geomorphology                          | Land forms and processes that create and modify them. Lab and field study of physiographic features.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Prerequisite(s): GLG 101 or SES 121 with C or better; MAT 266 or 271 with C or better   |

| GLG     | 400         | Earth and Space Exploration Colloquium | Presentation of recent research by faculty and guests. Written assignments required. 1 semester hour required for Geological Sciences majors; may be repeated for a total of 2 semester hours.  | N                 | LEC               | Y               | YGB           | Liberal Arts and Sciences | School of Earth and Space Exploration | 1     |                 |   |
| GLG     | 404         | Fundamentals of Planetary Geology      | Surveys planetary topics, including impacts, tectonics, and volcanism on planetary objects, and use of spacecraft data, including geological mapping.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Prerequisite(s): GLG 101 (or GLG 102) or SES 121 (or SES 122) with C or better  |
| GLG     | 406         | Geology of Mars                        | Geological evolution of Mars through analyses of spacecraft data, theoretical modeling, and study of terrestrial analogs; emphasizes current work. Possible field trips to examine Arizona geology.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 |   |
| GLG     | 410         | Computers in Geology                   | Geological computer skills including data processing, visualization, presentation, numerical analysis, software and hardware applications.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     | CS              | Prerequisite(s): GLG 101 or SES 121 with C or better  |
| GLG     | 418         | Geophysics                             | Solid earth geophysics; geomagnetism, gravity, seismology, heat flow. Emphasizes crust and upper mantle.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Prerequisite(s): MAT 272 or 267 with C or better; PHY 131 with C or better; PHY 132 with C or better OR MAT 272 or 267 with C or better; PHY 151 with C or better   |
| GLG     | 419         | Geodynamics                            | Emphasizes application of continuum principles to geological problems, including lithospheric stresses, heat transfer, fluid mechanics, and rock rheology.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Pre-requisite(s): MAT 267 or MAT 272 with C or better; PHY 131 and 132 (or PHY 151) with C or better  |
| GLG     | 420         | Volcanology                            | Distribution of past and present volcanism, types of volcanic activity, mechanism of eruption, form and structure of volcanoes, and geochemistry of volcanic activity.  | N                 | PRA               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Pre-requisite: Engineering, Math or Science major; Minimum Junior standing  |
| GLG     | 422         | Planetary Volcanology                  | Studies the effects of planetary environments and magma compositions on styles of volcanism and the nature of volcanic products on the terrestrial planets and outer planet satellites. Overview of volcanism on specific planetary objects, analysis of spacecraft image data, basic mathematical volcanic modeling, and reviews of key papers.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Prerequisite(s): AST 111 or AST 112 or GLG 101 or 102 or 110 or GPH 111 or SES 121; MAT 170 or MAT 171 or 210 or 251 or 265 or MAT 270 with C or better. Credit is allowed for only GLG 422 or GLG 494 (Planetary Volcanology)                                |
| GLG     | 424         | Petrology                              | Origin of igneous and metamorphic rocks. Optical mineralogy, hand specimen identification, and thin-section analysis.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Prerequisite(s): GLG 321 with C or better   |
| GLG     | 430         | Paleontology                           | Introduces concepts and analytical techniques in biogeology, paleobiology, paleoecology, and paleoenvironmental reconstruction from the fossil record.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Prerequisite(s): GLG 102 or SES 122 with C or better; GLG 104 or SES 124  |
| GLG     | 435         | Sedimentology                          | Origin, transport, deposition, and diagenesis of sediments and sedimentary rocks. Physical analysis, hand specimen examination, and interpretation of rocks and sediments.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Prerequisite(s): GLG 102 or SES 122 with C or better; GLG 321 with C or better  |
| GLG     | 441         | Ore Deposits                           | Origin, occurrence, structure, and mineralogy of ore deposits.  | N                 | PRA               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Prerequisite(s): GLG 101 or SES 121 with C or better; GLG 310 or 321 with C or better   |
| GLG     | 451         | Field Geology I                        | Geological mapping techniques using topographic maps and aerial photos. Intensive field-based instruction.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     | L               | Prerequisite(s): GLG 310 with C or better; Pre- or corequisite: GLG 321   |
| GLG     | 452         | Field Geology II                       | Geological mapping techniques using topographic maps and aerial photos. Intensive field-based instruction.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     | L               | Prerequisite(s): GLG 310 with C or better; GLG 321 with C or better; GLG 451 with C or better   |
| GLG     | 455         | Advanced Field Geology                 | Geologic mapping in igneous, sedimentary, and metamorphic terrains of the Basin and Range province of Arizona.  | Y                 | PRA               | Y               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3-4   |                 | Prerequisite(s): GLG 310 with C or better; Pre- or corequisite(s): GLG 451 with C or better if completed  |
| GLG     | 460         | Astrobiology                           | Origin, early evolution, distribution, and future of life on Earth and elsewhere in the cosmos.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Prerequisite(s): AST 112 or BIO 182 or BIO 282 or GLG 102 or SES 122 with C or better; one 300-level course in AST or BIO or CHM or GLG or MIC or PHY or SES with C or better; Credit is allowed for only AST 460 or GLG 460                                  |
| GLG     | 461         | Geomicrobiology                        | Past and present interactions among microbial life, geological materials, and biogeochemical cycles involving carbon, sulfur, phosphate, nitrogen, and minerals.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 |   |
| GLG     | 464         | Solving Environmental Problems         | Capstone course intended primarily for seniors in the Earth and Environmental Studies degree program. Hybrid self-study design project workshop guided by faculty, in which student teams research and develop plans for a viable solution to a real environmental problem in the American Southwest.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Prerequisite(s): Earth and Environmental Sciences BA seniors; GLG 305, 325 or 327 with C or better  |
| GLG     | 470         | Hydrogeology                           | Geology of groundwater occurrence, aquifer and well hydraulics, water chemistry and quality, contaminant transport, remediation. Emphasizes quantitative methods.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 |   |
| GLG     | 471         | Hydrology                              | Descriptive and quantitative hydrology; hydrologic cycle, models, and systems. Rain-runoff models. Hydrologic design. Concepts, properties, and basic equations of groundwater flow. Emphasizes quantitative methods.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Prerequisite(s): CEE 341 or MEE 340 or GLG 362 with C or better; Credit is allowed for only CEE 440 or CEE 545 or CEE 598 (Hydrology) or GLG 471 or GLG 490 (Hydrology)   |
| GLG     | 476         | Climate Science for Sustainability     | Dynamic interactions among the oceans, earth surface and atmosphere that control Earth's climate in its present state, in the context of past climates and projections for future climates. Assesses the factors that affect the trajectory of future climate change, and the sources and measurement of the critical climate parameters that are essential for guiding decisions for a sustainable future. Also considers recent climate science-related controversies, as well as assessments of scientific statements related to these controversies.  | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Prerequisites with C or better: Sust or Bus (Sust) major: SOS 110; PUP 190 or SOS 111 OR non-Sust major with 2 of these: PUP 190, SOS 100, SOS 110, SOS 111, SOS 300; Credit allowed for only GLG/SOS 476 or 576 or GLG/SOS 494 or 598 (Climate Sci for Sust) |

| GLG     | 481         | Geochemistry                         | Origin and distribution of the chemical elements. Geochemical cycles operating in the Earth's atmosphere, hydrosphere, and lithosphere.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Prerequisite(s): BCH 341, CHM 341, CHM 346, or GLG 321 with C or better; Credit is allowed for only CHM 481 or GLG 481  |
| GLG     | 484         | Internship                           | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Earth and Space Exploration | 1-12  |                 |   |
| GLG     | 485         | Meteorites and Cosmochemistry        | Chemistry of meteorites and their relationship to the origin of the Earth, solar system, and universe.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Prerequisite(s): CHM 341, CHM 346, or GLG 321 with C or better; Credit is allowed for only GLG 485 or CHM 485   |
| GLG     | 489         | Field Geochemistry                   | Explores basic field measurements and sampling techniques for environmental systems, with a focus on carbon cycling in the Colorado River. Surveys a variety of geochemical principles, including: equilibrium aqueous speciation, acid-base chemistry, solution-mineral equilibrium systems, oxidation-reduction reactions, organic and environmental geochemistry and biogeochemical cycles. Applies chemical principles and analytical techniques to answer questions about environmental systems and processes.                         | N                 | LEL               | N               | GNA           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     | L               | Prerequisite(s): CHM 302 or GLG 321 or GLG 481 with C or better; Credit is allowed for only CHM 489 or GLG 490 (Field Geochemistry)   |
| GLG     | 490         | Topics in Geology                    | Special topics in a range of fields in geology.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 1-3   |                 |   |
| GLG     | 492         | Honors Directed Study                | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Earth and Space Exploration | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| GLG     | 493         | Honors Thesis                        | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | Liberal Arts and Sciences | School of Earth and Space Exploration | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| GLG     | 494         | Special Topics                       | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 1-4   |                 |   |
| GLG     | 495         | Undergraduate Thesis                 | Guided research culminating in the completion and presentation of an undergraduate thesis based on supervised research.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 |   |
| GLG     | 497         | Honors Colloquium                    | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| GLG     | 498         | Pro-Seminar                          | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 1-7   |                 |   |
| GLG     | 499         | Individualized Instruction           | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Earth and Space Exploration | 1-3   |                 |   |
| GLG     | 500         | Earth & Space Exploration Colloquium | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GLG     | 546         | Advanced Watershed Hydrology         | Watershed processes leading to runoff generation and the transformation of meteorological forcing through a hydrologic system. Emphasizes physical mechanisms and their treatment in numerical models. Quantification of uncertainty in hydrological modeling through probabilistic methods. Provides hands-on experience with data analysis and hydrologic models.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only GLG 546 or GLG 598 (Advanced Watershed Hydrology) or CEE 546   |
| GLG     | 549         | Ecohydrology of Semiarid Landscapes  | Interactions between terrestrial plants and limiting resources in arid and semiarid environments. Temporal and spatial aspects of plant-water relations. Process-oriented discussion and examples using simple and complex numerical models. Provides experience with data analysis and instrumentation.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only CEE 549 or CEE 598 (Ecohydrology of Semiarid Landscapes) or GLG 549 or GLG 598 (Ecohydrology of Semiarid Landscapes)                             |
| GLG     | 576         | Climate Science for Sustainability   | Dynamic interactions among the oceans, earth surface and atmosphere that control Earth's climate in its present state, in the context of past climates and projections for future climates. Assesses the factors that affect the trajectory of future climate change, and the sources and measurement of the critical climate parameters that are essential for guiding decisions for a sustainable future. Considers recent climate science-related controversies and assessments of scientific statements related to these controversies. | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only GLG 476 or GLG 576 or GLG 494/598 (Climate Science for Sustainability) or SOS 476 or SOS 576 or SOS 494/598 (Climate Science for Sustainability) |
| GLG     | 581         | Isotope Geochemistry                 | Geochemistry and cosmochemistry of stable and radioactive isotopes; geochronology; isotope equilibria.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GLG     | 583         | Fieldwork                            | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GLG     | 584         | Internship                           | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Earth and Space Exploration | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GLG     | 590         | Reading and Conference               | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Earth and Space Exploration | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GLG     | 591         | Seminar                              | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GLG     | 592         | Research                             | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Earth and Space Exploration | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GLG     | 593         | Applied Project                      | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Earth and Space Exploration | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GLG     | 594         | Conference and Workshop              | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GLG     | 595         | Continuing Registration              | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences | School of Earth and Space Exploration | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GLG     | 598         | Special Topics                       | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GLG     | 599         | Thesis                               | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Liberal Arts and Sciences | School of Earth and Space Exploration | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

## ASU Course Catalog Archive - Summer 2018

|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|--|
| GLG     | 690         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Earth and Space Exploration              | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| GLG     | 691         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration              | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| GLG     | 692         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Earth and Space Exploration              | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| GLG     | 695         | Continuing Registration                                       | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences | School of Earth and Space Exploration              | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| GLG     | 783         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration              | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| GLG     | 790         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration              | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| GLG     | 791         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Earth and Space Exploration              | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| GLG     | 792         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Earth and Space Exploration              | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| GLG     | 795         | Continuing Registration                                       | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences | School of Earth and Space Exploration              | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| GLG     | 799         | Dissertation  | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Liberal Arts and Sciences | School of Earth and Space Exploration              | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| GPE     | 10          | English Verbal Skills for International Scholars              | Helps international graduate students (prospective ITAs) as well as other graduate students or visiting scholars at ASU improve their spoken English (pronunciation and fluency). Helps familiarize students with American classroom culture and helps them become effective classroom teachers. Each student receives an individual pronunciation assessment to help him or her focus on areas needing improvement. There is direct instruction and practice of pronunciation (e.g., sound, stress, rhythm, intonation). By participating in and leading class discussions, by working in small groups or pairs and by preparing for videotaped presentations, students improve English fluency. | N                 | LEC               | Y               | YGB           | Office of the Provost     | Global Launch                                      | 3     |                 |  |
| GPE     | 11          | International Scholar Teacher Training                        | Familiarizes international graduate students (prospective ITAs) at ASU with American classroom culture and helps them become effective classroom teachers. Exposes various methods of teaching commonly used in the American university classroom.  | N                 | LEL               | N               | YGB           | Office of the Provost     | Global Launch                                      | 3     |                 |  |
| GPE     | 90          | Business Presentation Skills                                  | Develops ability to verbally persuade, inform and motivate an audience. Covers integral key competencies such as: identifying audience, researching and organizing information, preparing and delivering effective visuals, and communicating concisely in English. Coupled with activities which include impromptu business-themed presentations, evaluations by the professor and feedback from peers.  | Y                 | LEC               | Y               | YGB           | Office of the Provost     | Global Launch                                      | 6     |                 |  |
| GPE     | 91          | Academic and Business Writing Skills                          | Develops the skills needed to write clearly and effectively, in both academic and business settings, through the exploration of efficient techniques and writing processes for targeting specific audiences with impactful content.   | Y                 | LEC               | Y               | YGB           | Office of the Provost     | Global Launch                                      | 6     |                 |  |
| GPE     | 92          | Critical Thinking Through Case Studies and Reading Strategies | Teaches international students reading and critical thinking strategies required for a master's-level program. Teaches how to read and understand dense textbooks, articles and magazines in a timely fashion and identify the important information.   | Y                 | LEC               | Y               | YGB           | Office of the Provost     | Global Launch                                      | 6     |                 |  |
| GPE     | 93          | American Business and Cross-Cultural Communication            | Improves international students' ability to compare and contrast aspects of American business culture with other cultures in order to understand similarities and differences.  | Y                 | LEC               | Y               | YGB           | Office of the Provost     | Global Launch                                      | 6     |                 |  |
| GPE     | 94          | Business Listening and Conversation                           | Improves the student's ability to effectively communicate orally at a master's level. Covers speaking and listening strategies and skills necessary to participate in discussions related to business topics. Students learn to control the input they receive and produce coherent and appropriate responses.  | N                 | LEC               | N               | YGB           | Office of the Provost     | Global Launch                                      | 6     |                 |  |
| GPH     | 111         | Introduction to Physical Geography                            | Spatial and functional relationships among climates, landforms, soils, water, and plants. Both GPH 111 and GPH 112 must be taken to secure SQ General Studies credit.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     | SQ              |  |
| GPH     | 112         | Introduction to Physical Geography Lab                        | Includes some local or virtual field trips. Both GPH 111 and GPH 112 must be taken to secure SQ General Studies credit.   | N                 | LAB               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1     | SQ              | Pre- or corequisite(s): GPH 111                                |
| GPH     | 191         | First-Year Seminar  | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-3   |                 | Pre-requisites: Freshman standing; Maximum 25 hours            |
| GPH     | 194         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-4   |                 |  |
| GPH     | 210         | Society and Environment                                       | Examines the interaction among social processes, key environmental issues, and nature's role as a resource at global and regional scales.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     | G               |  |
| GPH     | 211         | Landform Processes  | Laboratory science class on earth-surface processes, with exercises emphasizing how erosion, transportation, and deposition modifies landforms.   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 4     | SQ              |  |

ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                               | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department   | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|---|
| GPH     | 212         | Introduction to Meteorology                | Fundamentals of weather and climate, including basic atmospheric processes and elements. Students whose curricula require a lab course must also register for GPH 214. Both GPH 212 and 214 must be taken to secure SQ General Studies credit.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     | SQ              |   |
| GPH     | 213         | Climate and Weather                        | Fundamentals of meteorological/climatological analysis, including terminology and symbology. Recommended for meteorology/climatology program students. Both GPH 213 and GPH 215 must be taken to secure SG General Studies credit.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     | SG              |   |
| GPH     | 214         | Introduction to Meteorology Laboratory     | Introduces basic meteorological/climatological data and measurements. Suggested concurrent enrollment in GPH 212. Both GPH 212 and 214 must be taken to secure SQ General Studies credit.   | N                 | LAB               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1     | SQ              |   |
| GPH     | 215         | Climate and Weather Laboratory             | Fundamentals of meteorological/climatological map analysis and interpretation. Recommended for meteorology/climatology program students. May be taken concurrently with GPH 213. Both GPH 213 and GPH 215 must be taken to secure SG General Studies credit.  | N                 | LAB               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1     | SG              |   |
| GPH     | 267         | Extreme Weather                            | Introductory survey of extreme weather and climate processes and the often disastrous consequences at the intersection of human operations.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     | L               | Prerequisite(s): ENG 101, ENG 105, or ENG 107 with C or better  |
| GPH     | 275         | Geography of Cyberspace                    | Focuses on the relationship between geography and human's use of (and creation of) Internet and communications technologies to interact with each other over space and time. Studies the cyberspaces that they produce and their impacts on the information society. Topics include cyberpunk and space in popular culture; computer spaces, virtual worlds, and gaming; mapping cyberspace; bots, crawlers, and viruses; cyberspace law; cyberspace as social media; historical cyberspaces; the Digital Divide; geographies of e-commerce; mobile cyberspaces; cyber-place; and code/space. | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 |   |
| GPH     | 294         | Special Topics                             | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-4   |                 |   |
| GPH     | 314         | Global Change                              | Response of Earth's natural systems (atmosphere, hydrosphere, lithosphere, biosphere) to past environmental change, and effects of potential future changes.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     | HU & G          | Pre-requisite: Minimum 45 hours   |
| GPH     | 381         | Geography of Natural Resources             | Nature and distribution of natural resources and the problems and principles associated with their use.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     | G               |   |
| GPH     | 394         | Special Topics                             | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-4   |                 |   |
| GPH     | 405         | Energy and Environment                     | Sources, regulatory and technical controls, distribution, and consequences of the supply and human use of energy.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Pre-requisites: Minimum 75 hours; Credit is allowed for only GPH 405 or 505   |
| GPH     | 409         | Synoptic Meteorology I                     | Diagnostic techniques and synoptic forecasting. Includes techniques of weather analysis, map interpretation, and satellite and radar analysis.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 4     |                 | Prerequisite(s): MAT 270 with C or better; Pre- or corequisite(s): PHY 121  |
| GPH     | 410         | Synoptic Meteorology II                    | Diagnostic techniques and synoptic forecasting. Includes techniques of weather analysis, map interpretation, and satellite and radar analysis.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 4     |                 | Prerequisite(s): GPH 409 with C or better   |
| GPH     | 412         | Physical Meteorology                       | Physical processes in the earth-atmosphere system on regional and global scales; concepts and analysis of energy, momentum, and mass balances.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): GPH 111; MAT 270; PHY 121/122 with C or better; Credit is allowed for only GPH 412 or GPH 591 (Physical Meteorology) |
| GPH     | 413         | Meteorological Instruments and Measurement | Design and operation of ground-base and aerological weather measurement systems. Collection, reduction, storage, retrieval, and analysis of data.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): GPH 213 with C or better   |
| GPH     | 414         | Climate Change                             | Surveys three climate research areas: paleoclimatology, theories (e.g., greenhouse warming), numerical modeling.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     | G               | Prerequisite(s): GPH 111 or 213 or 314 with C or better   |
| GPH     | 418         | Landforms of the Western United States     | Studies landforms and geomorphic processes in the western United States, including lecture, topographical maps, aerial photographs, satellite imagery, and field trips.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     | L               |   |
| GPH     | 422         | Plant Geography                            | Plant communities of the world and their interpretation, emphasizing North American plant associations.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): BIO 181 or GPH 111 or PLB 200 with C or better; Credit is allowed for only BIO 430 or GPH 422 or PLB 422             |
| GPH     | 433         | Alpine and Arctic Environments             | Regional study of advantages and limitations of the natural environment upon present and future problems involving resource distribution, human activities, and regional and interregional adjustments.   | N                 | PRA               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     | G               | Credit is allowed for only GPH 433 or 598 (Alpine & Arctic Environments)  |
| GPH     | 474         | Dynamic Meteorology I                      | Large-scale atmospheric motion, kinematics, Newton's laws, wind equation, baroclinics, vorticity, and the midlatitude depression.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): MAT 272 with C or better; PHY 131 with C or better; PHY 132 with C or better   |
| GPH     | 475         | Dynamic Meteorology II                     | Topics in climate dynamics. General circulation, numerical modeling, teleconnection phenomena, and surface-atmosphere interaction.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): GPH 474 with C or better   |
| GPH     | 484         | Internship                                 | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 |   |
| GPH     | 485         | International Field Studies                | Organized field study, culture and language in specified international locations.   | Y                 | RSC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  | G               | Pre-requisite: Junior standing; Credit is allowed for only GCU 485 or GPH 485 or LAP 485 or POR 485 or PUP 485 or 585                 |
| GPH     | 491         | Geographic Field Methods                   | Field techniques, including use of aerial photos, large-scale maps, and fractional code system of mapping; urban and rural field analysis to be done off campus.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 |   |
| GPH     | 492         | Honors Directed Study                      | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| GPH     | 493         | Honors Thesis                              | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | LEC               | N               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| GPH     | 494         | Special Topics                             | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-4   |                 |   |
| GPH     | 497         | Honors Colloquium                          | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| GPH     | 498         | Pro-Seminar                                | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-7   |                 |   |
| GPH     | 499         | Individualized Instruction                 | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-3   |                 |   |

## ASU Course Catalog Archive - Summer 2018

|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------|--|-------|-----------------|---|
| GPH     | 500         | Research Methods                         | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 511         | Fluvial Processes                        | Geographical aspects of processes of river erosion, transportation, sedimentation; emphasizing spatial characteristics of forces, resistance, landforms, sediment; includes computer applications.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 535         | Water Law and Planning                   | In-depth study of legal materials providing substantive knowledge of water law, water management issues, and land use planning options.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only PUP or GPH 535   |
| GPH     | 569         | Digital Analysis of Remotely Sensed Data | Focuses on the digital image processing of remotely sensed data for earth resource analysis and applications. Provides the skills and knowledge to apply digital remote sensing techniques for biophysical and environmental planning and problems. Through laboratory work, students have opportunities to practice concepts and techniques learned in the lecture part. Requires a reasonable background in college algebra and basic statistics. | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only GPH 394 (Digital Analysis of Remotely Sensed Data), 569 or 598 (Digital Analysis of Remotely Sensed Data) |
| GPH     | 584         | Internship                               | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 585         | International Field Studies              | Organized field study in specified international locations.   | N                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Pre-requisite: Graduate (degree or nondegree) student; Credit is allowed for only GCU 485 or 586 or GPH 485 or 585 or LAP 485 or 585 or POR 485 or PUP 485 or 585   |
| GPH     | 590         | Reading and Conference                   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 591         | Seminar                                  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 592         | Research                                 | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 594         | Conference and Workshop                  | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 595         | Continuing Registration                  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 596         | Advanced Spatial Statistics              | Multivariate and advanced statistical techniques including Box-Jenkins modeling and spectral analysis. Requires project papers and presentations.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 598         | Special Topics                           | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 599         | Thesis                                   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 600         | Research Methods                         | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 680         | Practicum                                | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 683         | Fieldwork                                | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 684         | Internship                               | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 690         | Reading and Conference                   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 691         | Seminar                                  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 692         | Research                                 | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 693         | Applied Project                          | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 695         | Continuing Registration                  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 700         | Research Methods                         | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 780         | Practicum                                | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 784         | Internship                               | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 790         | Reading and Conference                   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 791         | Seminar                                  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Geographical Sciences and Urban Planning | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| GPH     | 795         | Continuing Registration                 | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GPH     | 799         | Dissertation                            | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Liberal Arts and Sciences    | School of Geographical Sciences and Urban Planning | 1-15  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GRA     | 101         | Designing Life                          | Helps students develop strategies to successfully navigate their education experience. Focuses on critical and reflective thinking.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 3     |                 |   |
| GRA     | 111         | Graphic Design History I                | Surveys development of visual communication from its origins to the 20th century. Investigates significant technological, industrial, and social influences.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 3     | HU              |   |
| GRA     | 112         | Graphic Design History II               | Surveys contemporary and 20th-century graphic design. Investigates relationships among graphic design and related disciplines, technological, industrial, and social influences.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 3     |                 | Pre-requisite: GRA 111 with C or better   |
| GRA     | 121         | Principles for Graphic Design I         | Graphic design as a language and process for creative thinking and realization.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 3     |                 | Prerequisite(s): Environmental Design or Graphic Design major. Corequisite(s): GRA 111  |
| GRA     | 122         | Principles for Graphic Design II        | Continued exploration of graphic design as a language and process for creative thinking and realization.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 3     |                 | Prerequisite(s): GRA 121 with C or better; Environmental Design or Graphic Design major. Corequisite(s): GRA 112  |
| GRA     | 194         | Special Topics                          | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 1-4   |                 |   |
| GRA     | 220         | Design Drawing I                        | Drawing as language to explore and communicate ideas. Development of drawing aptitude as language and process for graphic design thinking.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 3     |                 | Pre-requisites: Graphic Design student; GRA 122 with C or better; Passed Milestone; Co-requisites: GRA 221; GRA 222   |
| GRA     | 221         | Letterform                              | Drawing of letterforms with focus on proportion and structure. Introduces letterform nomenclature and classifications. 6 hours a week.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 3     |                 | Pre-requisites: Graphic Design student; GRA 122 with C or better; Passed Milestone; Co-requisite: GRA 220; GRA 222  |
| GRA     | 222         | Visual Communication I                  | Theoretical and applied studies in shape, drawing, and color. 6 hours a week.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 3     |                 | Pre-requisites: Graphic Design student; GRA 122 with C or better; Passed Milestone; Co-requisite: GRA 220; GRA 221  |
| GRA     | 223         | Typography                              | Theoretical exercises in spatial and textural qualities of type. Problems in tension, activation, and balance. Exercises in simple typographical applications. 6 hours a week.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 3     |                 | Pre-requisites: Graphic Design student; GRA 220 and GRA 221 with C or better; Co-requisite: GRA 224   |
| GRA     | 224         | Visual Communication II                 | Transition from theoretical to applied problems. Emphasizes refinement of visual skills. 6 hours a week.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 3     |                 | Pre-requisites: Graphic Design student; GRA 220 and GRA 222 with C or better; Co-requisite: GRA 223   |
| GRA     | 225         | Communication/Interaction Design Theory | Theory related to the design of communication artifacts and interaction within various media environments.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 3     |                 |   |
| GRA     | 294         | Special Topics                          | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 1-4   |                 |   |
| GRA     | 321         | Technology for Design I                 | Explores the process of technology in design. Projects interface with GRA 361.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 3     |                 | Pre-requisite: Graphic Design student; Co-requisite: GRA 361  |
| GRA     | 322         | Technology for Design II                | Emphasizes advanced technology in design problems. Projects interface with GRA 362.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 3     |                 | Prerequisite(s): GRA 321 with C or better; Corequisite(s): GRA 362  |
| GRA     | 345         | Design Rhetoric                         | Develops critical thinking and expression of ideas in concise and persuasive written and spoken form.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 3     | L               | Prerequisite(s): ENG 102 (or ENG 105 or 108) with C or better; Architecture, Digital Culture (Design), Design Studies, Environmental Design, Graphic Design, Industrial Design, Interior Design, Landscape Architecture major |
| GRA     | 361         | Visual Communication III                | Explores methodologies of strategic communication, development of visual systems, and information design ideation processes leading to applied projects in print and digital media.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 5     |                 | Pre-requisites: Graphic Design student; GRA 223 & 224 with C or better; Co-requisite: GRA 321   |
| GRA     | 362         | Visual Communication IV                 | Comprehensive studio projects with emphasis on production processes leading to multidisciplinary applied projects in print, 3-D space, and digital media.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 5     |                 | Pre-requisites: Graphic Design student; GRA 361 with C or better; Co-requisite: GRA 322   |
| GRA     | 394         | Special Topics                          | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 1-4   |                 |   |
| GRA     | 401         | Creative Environment                    | Explores and investigates theories of the psychology of space, psychology of people in space, and the psychology of objects as it pertains to creativity and the creative environment.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 3     |                 |   |
| GRA     | 421         | Exhibit Design                          | Familiarization with the processes associated with the design of exhibits, especially visual communication in 3-D.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 3     |                 | Pre-requisites: Graphic Design student; GRA 362 with C or better; Co-requisites: GRA 422; GRA 461   |
| GRA     | 422         | Motion Graphics and Interaction Design  | Discusses and explores theory related to the design of motion graphics and interaction through lectures and studio projects.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 3     |                 | Pre-requisites: Graphic Design student; GRA 322 with C or better; Co-requisites: GRA 421; GRA 461   |
| GRA     | 423         | Advanced Interaction Design             | Advanced discussion and exploration of theory related to the design of interaction.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 3     |                 | Pre-requisite: GRA 422  |
| GRA     | 424         | Advanced Media                          | Advanced exploration of digital media for communication.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 3     |                 | Prerequisite(s): GRA 422 with C or better   |
| GRA     | 440         | Finding Purpose                         | Career orientation in the creative professions, including value clarification, decision making, lifestyle planning, goal setting, and expression of individual talents.   | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 3     |                 |   |
| GRA     | 461         | Visual Communication V                  | Comprehensive studio projects with emphasis on design processes, including research, writing, critical thinking, practice, presentation, and analysis.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 5     |                 | Prerequisite(s): Graphic Design major; GRA 362 with C or better; Corequisite(s): GRA 421; GRA 422   |
| GRA     | 462         | Visual Communication VI                 | Comprehensive studio projects pursued in cooperation with a public organization or private enterprise. All projects culminate in an exhibit.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 5     |                 | Prerequisite(s): Graphic Design major; GRA 461 with C or better; Corequisite(s): GRA 423; GRA 424   |
| GRA     | 464         | Collaborative Design Development I      | Team-based product development course featuring applied projects. Open to senior students from business, engineering, design, and other disciplines.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 5     | L               | Prerequisite(s): minimum 45 hours; Credit is allowed for only ENT 464 (or MGT 464) or GRA 464 or IND 464 or SOS 474   |
| GRA     | 465         | Collaborative Design Development II     | Team-based product development course featuring applied projects. Open to senior students from business, engineering, design, and other disciplines.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School                                  | 5     | L               | Prerequisite(s): minimum 45 hours; Credit is allowed for only ENT 465 (MGT 465) or GRA 465 or IND 465 or SOS 475  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                                      | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department        | Units | General Studies | Requirements  |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|------------------------------|-------------------|-------|-----------------|---|
| GRA     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | N                 | PRA               | N               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Prerequisite(s): Graphic Design major; GRA 362 with C or better; Corequisite(s): GRA 461 or GRA 464   |
| GRA     | 492         | Honors Directed Study                             | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| GRA     | 493         | Honors Thesis                                     | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Herberger Inst Design & Arts | The Design School | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| GRA     | 494         | Special Topics                                    | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-4   |                 |   |
| GRA     | 499         | Individualized Instruction                        | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.                         | Y                 | IND               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-3   |                 |   |
| GRA     | 501         | Creative Environment and Collaborative Leadership | Explores and investigates creativity and group collaboration leadership as it applies to the creative process.  | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | The Design School | 3     |                 | Prerequisite(s): graduate Herberger Institute for Design and the Arts major   |
| GRA     | 521         | Advanced Visual Communication Design Studio I     | Students translate data, stories and references that they collect in their research into masterful visual narratives. This studio is an inquisitive environment for exploring ways to frame information and weave stories with graphic design. Students acquire new knowledge as individuals and as a group. Emphasizes studio-based research, conceptual development and articulation of process, voice and a high level of design execution.  | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | The Design School | 5     |                 | Prerequisite(s): Master of Visual Communication Design major. Credit is allowed for only GRA 521 or GRA 590 (Advanced Visual Communication Design Studio I) |
| GRA     | 522         | Advanced Visual Communication Design Studio II    | Encourages students to develop a framework for understanding the role of design systems, tools and objects as cultural artifacts and their reflection on social diversity. In particular, students focus on the cultural experience of collaborative consumption as it is fostered through visual communication design.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | The Design School | 5     |                 | Prerequisite(s): GRA 521. Credit is allowed for only GRA 522 or GRA 590 (Advanced Visual Communication Design Studio II)                                    |
| GRA     | 526         | Visiting Designers                                | Series of workshops (three per semester) in which students work closely with professionals and scholars in design and related disciplines.  | N                 | SEM               | N               | OPT           | Herberger Inst Design & Arts | The Design School | 3     |                 | Pre-requisites: Master of Science in Design or PhD in Environmental Design & Planning student   |
| GRA     | 561         | Methods in Visual Communication I                 | Introduces methodology in visual communication.   | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School | 3     |                 | Pre-requisites: Master of Science in Design or PhD in Environmental Design & Planning student   |
| GRA     | 562         | Methods in Visual Communication II                | Advanced theories and methodologies in visual communication. Emphasizes visual search as the synthesis of theory and practice.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School | 3     |                 | Prerequisite(s): GRA 561 with C or better   |
| GRA     | 563         | Thesis Document Design                            | Emphasizes the construction of the final thesis document as a visual communication object and/or medium.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School | 3     |                 | Pre-requisites: Master of Science in Design student   |
| GRA     | 581         | Internship in Teaching Design                     | Develop assignments, conduct critiques, structure dialogue, make presentations, and assist in the instruction of studio and lecture courses.  | N                 | STO               | N               | OPT           | Herberger Inst Design & Arts | The Design School | 3     |                 | Pre-requisites: Master of Science in Design student   |
| GRA     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GRA     | 590         | Reading and Conference                            | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GRA     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GRA     | 593         | Applied Project                                   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GRA     | 594         | Conference and Workshop                           | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | PRA               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GRA     | 595         | Continuing Registration                           | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Herberger Inst Design & Arts | The Design School | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GRA     | 598         | Special Topics                                    | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GRA     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GRA     | 621         | Advanced Visual Communication Design Studio III   | Structured around the Design School traveling-studio model, this studio challenges students to work together to identify new design opportunities. For approximately one week during the semester, students travel to an off-campus location to examine a local condition there for which new design solutions are needed. Students return to ASU and continue working on the project for the semester.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | The Design School | 5     |                 | Prerequisite(s): GRA 522  |
| GRA     | 622         | Advanced Visual Communication Design Studio IV    | As a culmination of study at the master level, the student is responsible for the development of an individually determined, semester-long project in response to defined objectives, periodic commentary by committee, and formal review. Students meet regularly with a faculty member to discuss assignments. Final faculty review and project book containing a written as well as graphic theoretical component are the forms of final presentation for this contribution to the field of visual communication design. | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | The Design School | 5     |                 | Prerequisite(s): GRA 621  |
| GRA     | 690         | Reading and Conference                            | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 |   |
| GRA     | 691         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

## ASU Course Catalog Archive - Summer 2018

|---------|-------------|--|--|-------------------|-------------------|-----------------|---------------|------------------------------|--|-------|-----------------|---|
| GRA     | 692         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School                            | 1-12  |                 |   |
| GRD     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | LEC               | Y               | OPT           | Graduate College             | Graduate College                             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GRD     | 595         | Continuing Registration                                    | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.                    | Y                 | LEC               | Y               | Z3            | Graduate College             | Graduate College                             | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GRD     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | N                 | LEC               | Y               | Z1            | Graduate College             | Graduate College                             | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GRD     | 791         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | LEC               | Y               | GNA           | Graduate College             | Graduate College                             | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GRK     | 101         | Elementary Ancient Greek                                   | The beginnings of the ancient Greek language, the language of Homer, Sophocles, Plato and the New Testament. Grammar and vocabulary, with an emphasis on reading ability. For beginning students only.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 4     |                 |   |
| GRK     | 140         | Greek and Latin Roots in Bioscientific Terminology         | Introduces students to the ancient Greek and Latin root words most commonly used in biological, medical, and other scientific terminology, and gives practice identifying them in context. The knowledge of these root words enables students to memorize with greater ease and increased retention the bioscientific terminology they encounter in other coursework as well as in their medical or scientific profession. | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     |                 |   |
| GRK     | 142         | Ancient Greek Civilization                                 | Ancient Greek civilization and culture. Studies (in roughly equal parts) the art, archaeology, literature, culture and history of ancient Greece from prehistoric times until after the conquests of Alexander the Great (the Hellenistic Age).  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     | HU & H          | Credit is allowed for only GRK 142, GRK 194 (Ancient Greek Civilization) or SLC 142   |
| GRK     | 191         | First-Year Seminar   | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 1-3   |                 | Pre-requisites: Freshman standing; Maximum 25 hours   |
| GRK     | 194         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 1-4   |                 |   |
| GRK     | 201         | Intermediate Ancient Greek                                 | Ancient Greek syntax and grammar, equipping the student to read the foundational texts of Greco-Roman antiquity.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 4     |                 | Prerequisite(s): GRK 101 with C or better   |
| GRK     | 221         | Survey of Ancient Greek Literature                         | Introductory survey of ancient Greek literature. Familiarizes students with the important literary genres, texts, and authors of the ancient Greeks from Homer to the Hellenistic period. All readings in English.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     | HU              | Credit is allowed for only GRK 221, SLC 221 or 294 (Ancient Greek Literature in Translation)  |
| GRK     | 223         | Introduction to Greek and Roman Mythology                  | Familiarizes students with the characters and events of ancient Greek and Roman myths through their literary manifestations, and moves beyond mere narrative to consider the possible interpretations and functions of these myths, thus revealing the central concerns of ancient society and giving insights into the working of our own society and its literary and artistic traditions.                               | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     | HU              | Credit is allowed for only GRK 223, LAT 223, SLC 223, GRK 294 (Greek and Roman Mythology)   |
| GRK     | 294         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 1-4   |                 |   |
| GRK     | 301         | Ancient Greek Literature I                                 | Readings in ancient Greek prose; advanced grammar. May be repeated for credit.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     | HU              | Prerequisite(s): GRK 201 with C or better   |
| GRK     | 302         | Ancient Greek Literature II                                | Readings in ancient Greek poetry.  | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     | HU              | Prerequisite(s): GRK 201 with C or better   |
| GRK     | 344         | Classics and Comics  | Explores the connections between the classical tradition of Ancient Greek and Roman literature and the modern American superhero comic book tradition.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     |                 | Prerequisite(s): ENG 101 or 105 or 107 with C or better; Credit is allowed for only GRK 344 or LAT 344 or SLC 344 or GRK/LAT/SLC 394 (Classics and Comics) or SLC 494 (Classics and Comics) |
| GRK     | 346         | Ancient Greece II: Late Classical and Hellenistic Period   | Traces the transformation of the Greek world between the end of the Peloponnesian War (404 B.C.) and the absorption of the last major Greek state by growing power of Rome (30 B.C.), with special attention to how Greeks in this period lived and thought and how the period's political and economic changes helped to create new forms of culture.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     | SB & H          | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 30 hours; Credit is allowed for only GRK 346 or HST 346 or SLC 346  |
| GRK     | 347         | Ancient Greece I: Bronze Age through the Peloponnesian War | Traces Greek History from its prehistoric beginnings through the Peloponnesian War (431-404 B.C.), with a special focus on the Archaic (ca. 800-480 B.C.) and Early Classical periods.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 30 hours; Credit is allowed for only GRK 347 or HST 347 or SLC 345  |
| GRK     | 360         | Greece and Rome at War                                     | Familiarizes students with the major battles, leaders and tactics of Classical Greece and Rome. Supplements lectures with student participation including study of original sources, group presentations, and gaming battle simulations. This multifaceted approach gives a greater sense of the evolution of the leaders, armies and tactical systems of the Greeks and Romans.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     |                 | Prerequisite(s): ENG 101, 105 or 107 with C or better; Credit is allowed for only GRK 360, HST 397, LAT 360, SLC 360 or SLC 394 (Greece and Rome at War)                                    |
| GRK     | 362         | Ancient Greek Religion                                     | Surveys ancient Greek religion, including its gods, ritual practices and festivals. Analyzes the development of the religion over time, and how both ancient and modern figures interpreted its meaning.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     |                 | Prerequisite(s): ENG 101 (or ENG 105 or 107) with C or better; Credit is allowed for only GRK 362, REL 360, SLC 362 or SLC 394 (Ancient Greek Religion)                                     |
| GRK     | 394         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 1-4   |                 |   |
| GRK     | 444         | Heroes, Ancient and Modern                                 | Explores the heroic literature of the ancient Greeks and Romans, then traces the classical tradition and reception of the classical hero in medieval and modern texts. Incorporates history, art history and material culture from the relevant societies to supplement study of the texts involved.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures | 3     | L or HU         | Prerequisite(s): ENG 101, 105 or 107 with C or better; Credit is allowed for only GRK 444, LAT 444, SLC 444 or SLC 494 (Heroes: Ancient and Modern)   |
| GRK     | 492         | Honors Directed Study                                      | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.  | N                 | LEC               | Y               | Z1            | Liberal Arts and Sciences    | School of International Letters and Cultures | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| GRK     | 493         | Honors Thesis  | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.  | N                 | LEC               | N               | Z1            | Liberal Arts and Sciences    | School of International Letters and Cultures | 1-6   | L               | Prerequisite(s): Barrett Honors student   |

ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                   | Department                                   | Units | General Studies | Requirements   |

| GRK     | 494         | Special Topics                 | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of International Letters and Cultures | 1-4   |                 |  |
| GRK     | 499         | Individualized Instruction     | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of International Letters and Cultures | 1-3   |                 |  |
| GSC     | 501         | War, Conflict and Security     | Explores the rapidly changing and highly complex geopolitical, technological and strategic context within which modern conflict and war occur. Introduces the profound social, political, economic and cultural implications of the changing nature of war and conflict. Provides an overview of the historical background of war and conflict, and some of the classic philosophical and military-strategic theories and conceptions of war. Introduces the institutional framework, the Westphalian state-based system of modern international law and relations, within which much of the theory and practice of modern conflict and war has developed.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Politics and Global Studies        | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| GSC     | 502         | Security Studies               | Continues the exploration of the rapidly changing and highly complex geopolitical, technological and strategic context within which modern conflict and war occur; the profound social, political, economic and cultural implications of the changing nature of war and conflict. Provides an overview of several fundamental themes that run through the history of war and strategy, and discusses the increasing importance of nonmilitary "soft power" in managing conflict situations. Also introduces the importance of regional knowledge in conflict as a critical operational competence (using the Russian invasion of Crimea and Ukraine as a case study), as well as the broader challenges of civilizational conflict and the importance of identity and narrative in modern conflict.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Politics and Global Studies        | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| GSC     | 503         | Future of War                  | Provides an overview of key issues, themes and ideas associated with the future of war. Contextualizes this discussion with a reflection on the impact of 9/11, especially within the U.S. Engages a number of core concepts, including the meaning, nature and experience of war including theories that violence is in decline. Also considers the changing impact of new wars on civilians, shifts in current and future technology and future scenarios including questions of climate change, global demographics and potential major power conflicts. Links the ideas, theories and understandings of the future of war with specific cases and concrete examples.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Politics and Global Studies        | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| GSC     | 504         | Understanding Conflict and War | Provides a critical overview of different definitions and meanings of war and armed conflict. Engages key theories used to understand conflict including realism, neorealism, liberalism and constructivism. Considers core issues in the field, linking empirical studies with explanations for what drives, sustains and resolves conflict including reviewing the fact that democratic states tend not to go to war with each other (the democratic peace); the structure and logic of arms races; escalation and alliance; and core ideas regarding peace, conflict management and conflict resolution. Many of the issues and theories reviewed in this class are linked with case studies and concrete examples.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Politics and Global Studies        | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| GSC     | 505         | Law of War                     | Provides an overview of key elements of the law of war, also known as international humanitarian law (IHL) and the law of armed conflict (LOAC). Engages basic questions of international law, reviewing its history, sources and structure. Covers jus ad Bellum, the rules governing how states legally go to war as well as jus in bello, the established ideas regarding how to manage actions during armed conflict. Covers key principles within the law of war, including distinction, proportionality and necessity as well as reviewing the differences between international and noninternational armed conflicts and other key ideas. Reviews the systems through which the law of war is enforced and also considers basic theoretical and practical issues regarding compliance. In general, links the ideas, practices, rules and understandings of the law of war with specific cases and concrete examples. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Politics and Global Studies        | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| GSC     | 506         | U.S. Politics of Security      | Builds a foundational understanding of the complex system of formal and informal actors and structural forces that shape U.S. security policy. Starts with both theoretical and case study examinations of the role domestic politics plays in the production of policy decisions. Analyzes critical institutional actors and relationships between actors, including: the President and Congress, the National Security Council and interagency, and the civilian-military relationship. Finally, investigates key structural forces placed on the policy-making process by the American society, and the relationship between policymakers and the public.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Politics and Global Studies        | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| GSC     | 507         | Global Politics of Security    | Offers several approaches to understanding the global politics of security, including: the structure of international and multinational security institutions and actors including nongovernmental organizations (NGOs), the United Nations' Security Council, peacekeeping missions, regional organizations (NATO, EU, Inter-American System, ASEAN) and others. Also considers the roles of private military and intelligence contractors and corporations working on issues of direct and indirect relation to security issues. Through specific case studies and examples, reviews the operation of these bodies and their complex relationships.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Politics and Global Studies        | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |

| GSC     | 508         | Comparative Studies of Conflict                       | Provides a critical overview of key theories on the causes, justifications and structures of political conflict and the use of violence. Begins by outlining core issues within the problem of social order, that is, how to think about managing governance and power. Reviews the idea of "collective action" and its link with force and violence, ideas that are contrasted with nonviolence as a political strategy. Then considers civil wars and interstate wars, comparing these forms of organized violence, as well as the current challenges of armed nonstate actors (within an international system premised on states) and an overview of the meaning of peace. Links the issues and theories reviewed in this class with case studies and concrete examples as a means of linking key ideas with their practical and   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences       | School of Politics and Global Studies          | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GSC     | 509         | Emerging Technologies and Global Security             | Provides an introduction to the implications of accelerating changes in military and security technologies, fueled by rapid developments in five core technology systems: nanotechnology, biotechnology, information and communications technology (ICT), robotics and applied cognitive science. Also introduces the idea of revolutions in military affairs, a concept that has been used to frame discussions about the strategic implications of new technologies from drones to cyber.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences       | School of Politics and Global Studies          | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GSC     | 510         | Governance in Post-Conflict and Transitional Contexts | One of the most pressing current global security policy issues involves understanding and implementing strategies, mechanisms and processes to address post-conflict and transitional contexts. How do societies create and manage representational governance after the fall of authoritarian regimes? How can institutions be rebuilt and reconstituted? How can a social order address the justice demands of victims of brutal political violence whose suffering was often a key element of prior systems of rule? Provides a critical introduction to the field of post-conflict reconstruction and transitional justice. Reviews the tense and uncertain nature of post-conflict environments and their challenges, engages the security questions raised by peacekeeping and stability operations. Also considers the difficulties of governance and reconstruction in the aftermath of conflict. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences       | School of Politics and Global Studies          | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GSC     | 511         | Terrorism and Insurgency                              | Provides a critical overview of the use of terror by governments, insurgents and other nonstate actors. Engages the definition of terrorism and provides an overview of key practices and strategies. Reviews key theories as to the causes, meaning and impact of the deployment of terror as a strategy by distinct groups. This involves a consideration of state terror, insurgencies and global terror networks. Links many of the core ideas reviewed in this class with a set of case studies designed to ground the broader discussion of terror within specific situations and contexts.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences       | School of Politics and Global Studies          | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GSC     | 512         | Global Trends   | Provides an overview of a number of key issues within global politics in the post-Second World War era. Reviews important institutions, including the United Nations, the World Bank, the International Monetary Fund. Provides a critical review of key theories, discourses and practices of international development, decolonization, democratization, poverty and gender issues. Reviews these major aspects of global society in relationship to core questions of governance and social order with a consideration of past, present and future trends.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences       | School of Politics and Global Studies          | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GSC     | 550         | Capstone  | Serves as the culminating experience of the Masters in Global Security (MAGS). The capstone course allows each student to explore a research area, interest, theme or question. Final written products will be developed individually based on consultation with faculty.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences       | School of Politics and Global Studies          | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GSC     | 595         | Continuing Registration                               | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Liberal Arts and Sciences       | School of Politics and Global Studies          | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GSC     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences       | School of Politics and Global Studies          | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GTD     | 501         | Global Technology and Development                     | Major theories of economic, political, and social development, with particular emphasis on the impact of current technologies and globalization.  | N                 | LEC               | N               | OPT           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GTD     | 503         | Technology and the International Political System     | Historical development of international political system, with emphasis on role of technology.  | N                 | SEM               | N               | OPT           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GTD     | 504         | Technology and Development in Zones of Conflict       | Examines the special context of technology and development in zones of conflict that face wars among other nations, civil strife and dramatic political change.   | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GTD     | 505         | Research Design in Technology and Development         | Emphasizes techniques of primary data collection, effective uses of secondary sources, for qualitative and quantitative applications.   | N                 | LEC               | N               | OPT           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GTD     | 506         | Quantitative Analysis in Technology and Development   | Uses correlation and regression-based multivariate statistical approaches in development studies.   | N                 | LEC               | N               | OPT           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| GTD     | 507         | Technology and Development in The Middle East         | Examines historical and current patterns of political and socioeconomic development in the Middle East, including the role of technological development and current events.   | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only GTD 507 or GTD 598 (Political Development in the Middle East)         |
| GTD     | 508         | Technology and Development in Latin America           | Examines historical and current patterns of political and socioeconomic development in Latin America, including the role of technological development and current events.   | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only GTD 508 or GTD 598 (Technology and Development in Latin America)      |
| GTD     | 509         | Technology and Development in North Africa            | Examines historical and current patterns of political and socioeconomic development in North Africa, including the role of technological development and current events.  | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only GTD 509 or GTD 598 (Technology and Development in North Africa)       |
| GTD     | 510         | Technology and Development in Sub-Saharan Africa      | Examines historical and current patterns of political and socioeconomic development in Sub-Saharan Africa, including the role of technological development and current events.  | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only GTD 510 or GTD 598 (Technology and Development in Sub-Saharan Africa) |

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                         | Department                                     | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|---------------------------------|--|-------|-----------------|---|
| GTD     | 511         | Development Policy and Practices                                 | Since the Bretton Woods Agreements in 1944, enormous energy has been devoted to generating the right tools for global development policy. Yet, little attention is given to the relationship between these tools, the practice of development and actual outcomes. At best, it is understood as a "gap" between the theory of development policy and practices. There is no reflection on what the good development policy looks like or what collective learning we have thus far. Informs students on the complexity of policy making and its relationship to development practices through time. Creates an intellectual space to discuss the practices of global development; uses case studies to enhance students' creativity and skill needed in managing and negotiating critical development challenges. Approaches development policy (models, strategies and project design) primarily as a tool to legitimize power relation rather than to orient practice for desired development outcomes. | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GTD     | 512         | International Governance and Development of Nuclear Technologies | Examines the historical context, present development and possible futures of nuclear technologies around the world. Topics include the origins of the modern nuclear era (1945-present), the nuclear fuel cycle including waste management, nuclear energy for security and modernization, nuclear catastrophes, and new possibilities in nuclear technologies, as well as international policies, national imperatives and local concerns with nuclear development. Students gain a better understanding of the complex political, environmental, cultural and economic values that inform and shape the development and implementation of, as well as resistance to, nuclear technologies.  | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only GTD 512 or GTD 598 (Technology and Development in Global Nuclear Energy) |
| GTD     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Future of Innovation in Society | School for the Future of Innovation in Society | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GTD     | 590         | Reading and Conference   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Future of Innovation in Society | School for the Future of Innovation in Society | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GTD     | 592         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Future of Innovation in Society | School for the Future of Innovation in Society | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GTD     | 593         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | Future of Innovation in Society | School for the Future of Innovation in Society | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Future of Innovation in Society | School for the Future of Innovation in Society | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GTD     | 598         | Special Topics   | Topical courses not offered in regular course rotation—e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | Future of Innovation in Society | School for the Future of Innovation in Society | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| GTD     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | LEC               | Y               | Z2            | Future of Innovation in Society | School for the Future of Innovation in Society | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCD     | 100         | Introduction to the Science of Health Care Delivery              | Introduces the science of health care delivery in the United States. Presents basic concepts in health services, health care organizations, and the delivery of safe, accessible, high-quality health care. Solidifies concepts through the use of assignments, exams and discussions.  | N                 | LEC               | N               | GNA           | College of Health Solutions     | School for the Science of Health Care Delivery | 3     |                 |   |
| HCD     | 101         | Introduction to Public Health                                    | Introduces public health in the United States. Familiarize students with the broad discipline of public health and how it influences community and individual health status. Discusses the role of various agencies in public health, methods of measurement and evaluation, major public health issues in the United States, and factors that contribute to individual and community health. Solidifies concepts through the use of in-class discussion, group work and individual analysis.   | N                 | LEC               | N               | GNA           | College of Health Solutions     | School for the Science of Health Care Delivery | 3     |                 | Credit is allowed for only HCD 101 or PBH 100   |
| HCD     | 191         | First-Year Seminar   | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions     | School for the Science of Health Care Delivery | 1-3   |                 |   |
| HCD     | 194         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions     | School for the Science of Health Care Delivery | 1-4   |                 |   |
| HCD     | 201         | Economics for Health Majors                                      | Introduces economics and demonstrates the relevance of economic principles to the study of health care delivery systems and public health. Combines elements of a traditional introductory economics curriculum with broad coverage of the history of economics, and specific application to current issues in health care delivery and public health policy. Prepares the student for further study of health economics.   | N                 | LEC               | N               | GNA           | College of Health Solutions     | School for the Science of Health Care Delivery | 3     |                 | Credit is allowed for only HCD 201 or PBH 201   |
| HCD     | 210         | Cultural Aspects of Health                                       | Examines how culture influences health, health care practices, barriers to health care, interactions with health care professionals, and health disparities in the U.S. Addresses the need for cultural competence among health practitioners.  | N                 | LEC               | N               | OPT           | College of Health Solutions     | School for the Science of Health Care Delivery | 3     | C               |   |
| HCD     | 294         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions     | School for the Science of Health Care Delivery | 1-4   |                 |   |
| HCD     | 298         | Honors Directed Study  | Independent study or practicum under the supervision of a faculty member.   | N                 | PRA               | N               | OPT           | College of Health Solutions     | School for the Science of Health Care Delivery | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| HCD     | 300         | Biostatistics  | Biostatistics and its use in health and health services research. Familiarize students with statistical concepts and methods to analyze and interpret data and conceptually addresses statistical theory. Introduces SPSS software to analyze large data sets.  | N                 | LEC               | N               | GNA           | College of Health Solutions     | School for the Science of Health Care Delivery | 3     | CS              | Prerequisite(s): completion of General Studies MA requirement with C or better; minimum 30 hours; Credit is allowed for only HCD 300 or PBH 300                     |
| HCD     | 302         | Health Care Management   | Broad concepts and skills of management; application of these techniques to health care organizations. Students appreciate the variability of management styles and personalities and begin to develop their own style. Solidifies concepts through the use of case studies and asynchronous discussion boards.   | N                 | LEC               | N               | GNA           | College of Health Solutions     | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): minimum 30 hours   |

ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                                     | Units | General Studies | Requirements   |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|-----------------------------|--|-------|-----------------|--|
| HCD     | 303         | Global Health Care Systems                               | Examines health care delivery systems internationally and explores contemporary issues affecting the institutions that provide health care and the people who seek health services. Covers the historical development of international health care systems, the organization and financing of systems of care, and the policy process and priority setting. Also covers current efforts at health care reform. Provides students with the necessary professional skills to be effective participants in efforts to evaluate and improve the delivery of health care nationally and internationally. | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     | G               | Prerequisite(s): minimum 30 hours  |
| HCD     | 304         | Health Care Finance                                      | Influence and effect of health care financing from an institutional and individual perspective. Examines current issues in health care financing including the Affordable Care Act, payment models, Medicaid expansion, accountable care organizations, the role of health insurance and efforts to contain health care costs.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): HCD 302   |
| HCD     | 305         | Public and Community Health                              | Provides a broad survey of national, state and local community health sciences and services including cultural and ethnic issues. Examines the concepts of health and wellness and introduces health education as a foundation for population-based health care.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): Medical Studies major or HCD 101 or PBH 100   |
| HCD     | 310         | Health Communication                                     | Focuses on communicating topics related to health through an examination of theoretical frameworks, communication techniques, and different technologies including ehealth and mhealth. Addresses communication through channels that promote the health of individuals and communities. Topics may include clinician to client communication, peer to peer communication, health literacy, health in the media, and effective public health communication.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only HCD 310 or HSC 394 (Health Communication) |
| HCD     | 320         | Applied Medical/Health Care Ethics                       | Integrates the theory and practice of ethics within health-related disciplines and the application of bioethics by health science professionals, including health disparities.  | N                 | LEC               | N               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 3     | HU              | Prerequisite(s): minimum 30 hours  |
| HCD     | 330         | Health Care Systems in the U.S.                          | Presents and integrates the organization, financing, and delivery of health services in the United States from the professional, organizational, community, and systems perspectives.   | N                 | LEC               | N               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): minimum 30 hours  |
| HCD     | 332         | Health Care Legislation                                  | Provides an overview of the federal/state health policy legislative process, how it is implemented in institutions, and its effect on health science professionals and delivery of services.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): minimum 30 hours; Credit is allowed for only HCD 332 or HSC 494 (Health Care Legislation)                   |
| HCD     | 340         | Complementary Health Care                                | Evaluates the major components of complementary and alternative health care models and evidenced-based recommendations related to complementary healthcare.   | N                 | LEC               | N               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): minimum 56 hours  |
| HCD     | 394         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 1-4   |                 |  |
| HCD     | 400         | Interpreting the Scientific Literature                   | Emphasizes clinical relevance and application of searching and interpreting the literature, using case studies as examples. Applies these skills through in-class activities and through written report at the conclusion of the course. These tools ultimately assist the student with critical thinking and application of concepts to clinical scenarios. Class is held in a computer lab to facilitate class engagement.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): minimum 45 hours  |
| HCD     | 401         | Leadership and Professionalism                           | Leadership, leadership theory and inter-professionalism in practice. Applies didactic content to case studies and activities designed to promote critical thinking and effective teamwork. Solidifies concepts through the use of assignments, exams and discussions.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): minimum 45 hours; Credit is allowed for only HCD 401 or MED 450   |
| HCD     | 402         | Health Economics   | Emphasizes clinical relevance and application of searching and interpreting the literature, using case studies as examples. Applies these skills through in-class activities and through written report at the conclusion of the course. These tools ultimately assist the student with critical thinking and application of concepts to clinical scenarios. Class is held in a computer lab to facilitate class engagement.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): ECN 211 or ECN 212 or PBH 201; minimum 45 hours   |
| HCD     | 403         | Process Engineering                                      | Core concepts in process engineering, specifically related to systems improvement and patient safety. The Institute of Medicine (IOM) advocates for integrating process engineering within health care to optimize health care outcomes. The IOM addresses multiple dimensions of health, including efficiency, effectiveness, safety, equity, patient-centeredness and access. These domains provide the framework from which faculty approach course content.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): minimum 45 hours  |
| HCD     | 404         | Advanced Concepts in the Science of Health Care Delivery | Applies the themes of science, systems and leadership across the continuum of health and health care. Application and discussion of core competencies to facilitate critical thinking.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): minimum 45 hours  |
| HCD     | 405         | Health Technology  | Develops essential skills in identifying, analyzing and evaluating information technology applications in health care. Examples include electronic health records, computerized prescriber order entry, and computerized clinical decision support. Discusses the use of health technology in a variety of care settings, including outpatient and inpatient, and facilitate access to health care in resource-poor communities through the use of efficient technology.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): minimum 45 hours  |
| HCD     | 410         | Supporting the Health of Older Adults                    | Focuses on community and national policies and programs that affect the health of older adults, programs to improve access to healthcare as well as to improve overall health, issues related to family and professional caregiving, and future challenges related to caring for older adults.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): minimum 45 hours  |
| HCD     | 412         | Health Issues in Later Life                              | Focuses on health issues that primarily affect adults ages 50 years and over as related to nutrition, physical activity, environmental toxins. Focuses on exploring those factors known to promote healthy aging.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): minimum 45 hours  |
| HCD     | 422         | Health Disparities and Access to Health                  | Racial and ethnic health disparities in the United States. Explores disparities in healthcare seen at the provider and system level and their effects on health in the community. Also considers the historical context of racial and ethnic health disparities and the demographic and conceptual issues surrounding health disparities research. Reflects on the effects of behavior, socioeconomic status and group-specific disparities on community health status.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): minimum 45 hours; Credit is allowed for only HCD 422 or PBH 422   |
| HCD     | 432         | Legal Issues in Health Care                              | Legal doctrines provide protection of consumers, health care providers, and health care institutions with regard to health care delivery including access and cost. Provides an overview of the legal obligation and rights of private and public stakeholders in the delivery and receipt of health care services.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): minimum 45 hours  |
| HCD     | 444         | Science of Health Care Delivery Internship               | Applies the themes of science, systems and leadership across the continuum of health and health care. Application and discussion of core competencies to facilitate critical thinking.  | N                 | RSC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): minimum 45 hours  |

| HCD     | 482         | Capstone I                                   | First course in capstone sequence wherein a student identifies a project to complete in Capstone II and conducts background research. Projects are related to broad topics explored during prior coursework in the student's program.   | N                 | LEC               | Y               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 1     |                 | Prerequisite(s): minimum 45 hours   |
| HCD     | 483         | Capstone II                                  | Independent study in which a student, under the supervision of capstone coordinator, conducts research that is expected to lead to a specific project such as a thesis, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript. Capstone II projects can be done in conjunction with a health care organization or health agency.  | N                 | LEC               | Y               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): HCD 482  |
| HCD     | 484         | Internship                                   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 | Prerequisite(s): minimum 2.00 GPA; senior standing  |
| HCD     | 492         | Honors Directed Study                        | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | College of Health Solutions | School for the Science of Health Care Delivery | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| HCD     | 493         | Honors Thesis                                | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | College of Health Solutions | School for the Science of Health Care Delivery | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| HCD     | 494         | Special Topics                               | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 1-4   |                 |   |
| HCD     | 497         | Honors Colloquium                            | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| HCD     | 498         | Pro-Seminar                                  | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 1-7   | L               |   |
| HCD     | 499         | Individualized Instruction                   | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | IND               | Y               | Z1            | College of Health Solutions | School for the Science of Health Care Delivery | 1-3   |                 |   |
| HCD     | 500         | Research Methods                             | Course on research methods in a specific discipline.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |   |
| HCD     | 501         | Biostatistics and Data Management            | Provides an understanding of the statistical tools and principles of research design and methods in health behavior research in health environments. Encompasses an overview of quantitative, qualitative and mixed designs and focuses on the interpretation and communication of health behavior research through published reports and presentations. Incorporates research approaches and methodologies utilized in an array of content areas. Helps students gain a strong conceptual understanding and application of the statistical tools and research methods used to answer research questions of interest to health and health behavior researchers; it does not focus on mathematical treatments of underlying assumptions and formulae and related statistical problems sets or exercises. | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCD     | 502         | Health Care Systems and Design               | Introduces direct health care delivery structures and processes within and across health care settings, and their impact on the patient, family and community experience of the health care system and services. Examines the interaction among people, resources, delivery systems and built environments using perspectives, tools and strategies from multiple disciplines to evaluate strengths, gaps and opportunities for system improvements.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCD     | 510         | High-Value Patient-Centered Care             | Evidence-based strategies for clinicians and health care administrators to implement into their workplace setting to promote healthy lifestyle behaviors and ultimately promote high-value, patient-centered care.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCD     | 511         | Health Economics, Policy, and Payment Models | Economics provides a framework to understand and predict human decision making under scarcity, uncertainty and imperfect information. Examines concepts central to health care economics and their application to important decisions made by patients, families, practitioners, administrators and policy makers. Uses an individual family's scenario through a progressive case study to evaluate how incentives and information affect the health and health care of each family member. Each meeting integrates basic economic principles, existing facts and knowledge from economic research, and individual perspectives and experience regarding how these concepts apply to health care policy.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): Degree- or Nondegree-seeking graduate; Credit is allowed for only BMD 511 or HCD 511 |
| HCD     | 520         | Population Health                            | Presents population health within a framework of health care delivery, public health, health promotion and prevention, health policy, and community programs and resources. Emphasizes a solutions-based perspective consistent with the Triple Aim.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCD     | 521         | Law and Health Promotion                     | Analyzes case studies which illustrate the impact of policy and law on health promotion strategies and health outcomes. Includes discussions of the theoretical foundations supporting legal, ethical and economic decision making related to health promotion and real-world examples of the impact of current policies.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCD     | 531         | The Health Care System                       | Health care delivery in the United States, including its composition, function and historical organization. The broad discipline of health services systems, health care organizations, and the delivery of safe, accessible, high-quality health care. Discusses the health care system from the perspective of various patient populations, including the aging patient population. Examines the influence of health care reform on health care delivery and costs. Solidifies concepts through the use of in-class case studies and discussions.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCD     | 532         | Health Care Management and Finance           | Health care organizations are very complex institutions and require sophisticated understanding of modern management techniques. Provides a comprehensive overview of health care management concepts and principles with a focus on developing individual management skills. Centered on the management function and its unique purpose for an organization. Emphasizes planning, organizing, motivating and controlling, and how to acquire competency in these functions. Also addresses health care finance, which is an essential management competency.   | N                 | LEC               | Y               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                                     | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|-----------------------------|--|-------|-----------------|--|
| HCD     | 540         | Seminar in Science of Health Care Delivery                      | Provides an introduction to the science of health care delivery, an exciting field that focuses on how to achieve the quality care that providers want to deliver and patients expect to receive. Too often quality care is compromised by inadequately designed systems of care. Provides an overview of the health care delivery system and then introduces the major components of the field.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                   |
| HCD     | 550         | Capstone  | Discusses the results from student capstone projects, done in teams, and these projects related to broad topics explored during the prior coursework in the program. Capstone projects are identified early in the master's program in conjunction with and overseen by the degree leaders and the industry partners, and often a health care organization or health agency. These projects are worked on through the year with final written and verbal reports due in the last half of the semester.  | N                 | RSC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 1-2   |                 | Prerequisite(s): HCD 502 with C or better  |
| HCD     | 560         | Systems Metabolic Physiology                                    | Studies vertebrate energy metabolism in the context of systems physiology. With a particular focus on mammals and especially humans, discusses macronutrient storage, mobilization and utilization at the whole organism level. Presents theory and practice of several methodologies used to measure metabolic turnover, including indirect calorimetry, mass balance, isotopic tracers and doubly labeled water. Topics include metabolic rate and fuel selection during rest, locomotion and environmental stress such as energy scarcity or oversupply.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): minimum 3.00 GPA; degree- or nondegree-seeking graduate student |
| HCD     | 561         | Cellular Energetics and Metabolism                              | Focuses on the thermodynamics and kinetics of energetic processes at the cellular level. Discusses the metabolism of macronutrients by cells, principally skeletal muscle, cardiac muscle, adipose and liver. Presents membrane transport, energy storage and mobilization, non-oxidative/oxidative pathways of ATP synthesis and energy dissipation processes. Develops and uses concepts of metabolic control, energetic efficiency, metabolic scope and signaling to explore classic and current biomedical literature. Particularly emphasizes mitochondrial metabolism, including the chemiosmotic theory, proton leak, superoxide (free radical) production, interactions between the glycolytic and oxidative pathways, and the central role mitochondria play in health, disease and mortality. Describes the theory and practice of several methodologies central to the study of energy metabolism. | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): minimum 3.00 GPA; degree- or nondegree-seeking graduate student |
| HCD     | 562         | Emerging Bioethical Issues in Translational Biomedical Research | Discusses ethics and policy issues related to translational biomedical sciences research. Emphasizes research involving human subjects. Topics include: genomics and biospecimen research, especially related to biobanks, including confidentiality issues, genetic testing, ownership of genetic information, community advisory boards and return of results questions; regulation of research and proposals including human research oversight by the Institutional Review Board (IRB); relationship between medical research and medical treatment; and communication with patients, within and between institutions and with the general public.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): minimum 3.00 GPA; degree- or nondegree-seeking graduate student |
| HCD     | 563         | The Metabolic Syndrome  | Provides a comprehensive understanding of the metabolic syndrome from an environmental, genetic and molecular perspective. Also discusses the treatment of this complex disease including lifestyle changes, pharmacological interventions and surgical procedures. Evidenced-based course where research guides class lectures and discussions.  | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                   |
| HCD     | 564         | Translational Biomedical Sciences Seminar and Data Club         | Combined seminar and data club related to translational biomedical sciences.  | N                 | SEM               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): minimum 3.00 GPA; degree- or nondegree-seeking graduate student |
| HCD     | 570         | Process Engineering   | Provides an overview of process engineering and the specifics of Lean Six Sigma as it applies quality improvement/process improvement in health care. The current health care system cannot deliver the necessary quality to ensure safety or consistent outcomes in predictable and controllable ways. It is essential to understand the impact of process engineering to improve the performance of health care delivery, and to understand the steps to performing a Lean Six Sigma process improvement project. This course builds on the quality improvement techniques introduced in earlier course work. Also enables students to obtain their Green Belt Certification in Lean Six Sigma.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                   |
| HCD     | 575         | Leadership and Professionalism                                  | Integrates principles of leadership theory, innovation leadership, change leadership and systems thinking through didactic and experiential learning. Identifies characteristics of successful leaders in health and health care, develops competence and confidence in creativity and innovation, and identifies ways to implement meaningful change in the dynamic health care environment. Applies theories to case studies in health and health systems to promote critical analysis, discussion and reflection on topics that provide the framework for future coursework.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School for the Science of Health Care Delivery | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student                   |
| HCD     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |  |
| HCD     | 583         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |  |
| HCD     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |  |
| HCD     | 590         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |  |
| HCD     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |  |
| HCD     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | College of Health Solutions | School for the Science of Health Care Delivery | 1-15  |                 |  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description   | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                                     | Units | General Studies | Requirements  |
|---------|-------------|---|--|-------------------|-------------------|-----------------|---------------|-----------------------------|--|-------|-----------------|---|
| HCD     | 593         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | LEC               | Y               | Z1            | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |   |
| HCD     | 594         | Conference and Workshop   | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |   |
| HCD     | 595         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | RSC               | Y               | Z3            | College of Health Solutions | School for the Science of Health Care Delivery | 1     |                 |   |
| HCD     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 1-4   |                 |   |
| HCD     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |   |
| HCD     | 600         | Research Methods  | Course on research methods in a specific discipline.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |   |
| HCD     | 680         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |   |
| HCD     | 683         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |   |

| HCD     | 691         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |   |
| HCD     | 692         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | LEC               | Y               | Z1            | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |   |
| HCD     | 693         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | LEC               | Y               | Z1            | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |   |
| HCD     | 695         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | LEC               | Y               | Z3            | College of Health Solutions | School for the Science of Health Care Delivery | 1     |                 |   |
| HCD     | 700         | Research Methods  | Course on research methods in a specific discipline.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |   |
| HCD     | 780         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |   |
| HCD     | 783         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.   | Y                 | LEC               | Y               | GRD           | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |   |
| HCD     | 784         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student            |
| HCD     | 790         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | LEC               | Y               | Z1            | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |   |
| HCD     | 791         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |   |
| HCD     | 792         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | College of Health Solutions | School for the Science of Health Care Delivery | 1-15  |                 |   |
| HCD     | 793         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | LEC               | Y               | OPT           | College of Health Solutions | School for the Science of Health Care Delivery | 1-12  |                 |   |
| HCD     | 795         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | LEC               | Y               | Z3            | College of Health Solutions | School for the Science of Health Care Delivery | 1     |                 |   |
| HCD     | 799         | Dissertation  | Supervised research focused on preparation of dissertation, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | College of Health Solutions | School for the Science of Health Care Delivery | 1-15  |                 |   |
| HCI     | 194         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation       | 1-4   |                 |   |
| HCI     | 294         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation       | 1-4   |                 |   |
| HCI     | 298         | Honors Directed Study   | Independent study or practicum under the supervision of a faculty member.  | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation       | 1-6   |                 | Prerequisite(s): Barrett Honors student                                   |
| HCI     | 311         | Health Innovation: Foundational Concepts  | Organized around the Seven Pillars of Innovation: innovation process, leadership structure, outcomes, evidence-based practice, finance, policy, and technology and communication. Provides basic definitions and principles of innovation in addition to characteristics, skills and knowledge required for the innovator.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation       | 3     |                 | Prerequisite(s): ENG 102 or 105 or 108 with C or better; minimum 45 hours |
| HCI     | 313         | Philosophy of Science in Health Care: Understanding Paradigms of Health and Healing | Philosophy of science and its application to health and healing paradigms. Employs selected schools of thought and individual philosophers within philosophy of science to closely examine health and healing paradigms. Discusses concepts such as "life" and "death". Explores questions: What is science? What is health? Examines the way in which philosophy of science informs perceptions and definitions of health and healing in individuals and populations. | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation       | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 45 hours  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                               | Units | General Studies | Requirements   |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|-----------------------------|--|-------|-----------------|--|
| HCI     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-4   |                 | Prerequisite(s): minimum 45 hours                              |
| HCI     | 412         | Transforming Health Care: A Systems Perspective for Innovation                        | Basic elements of systems thinking as a framework for innovation in addressing current and future issues in health care. Focuses on what occurs at the intersection of disciplines as being fundamental to transforming health care. Stresses the importance of collaboration to the systems perspective, in addition to the value of individual worldviews.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCI 311 with C or better                      |
| HCI     | 421         | Health Care Policy: The Innovator's View  | Innovation perspective on policy decision making in the health care environment. This perspective views policy-making as a fluctuating, dynamic and evolving process as seen through a lens of innovation principles. Explores the relationship between politics and policy and discusses factors influencing policy development. Identifies methods to formulate and implement policy and presents models to evaluate, analyze and modify health care policy.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCI 311 with C or better                      |
| HCI     | 425         | Facilitating Innovation to Achieve Outcomes   | Principles of facilitation that promote and enable the implementation of innovation to achieve outcomes. This approach identifies facilitation as requiring input seeking, ongoing evaluation, and emergent correction of an existing plan of action. Discusses characteristics of effective teams, innovation leadership behaviors that impact change, and involvement of end-users. Compares and contrasts traditional project management processes with innovative facilitation techniques.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCI 311 with C or better                      |
| HCI     | 428         | Technology: A Tool to Advance Innovation in Health Care                               | Analyzes the role of technology in achieving the Triple Aim: improved quality, improved patient experience, and decreased cost. Discovers tools that are defined as health information technology and those that support business services. Compares and contrasts tools of technology that hold the potential to advance innovation in health care.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCI 311 with C or better                      |
| HCI     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-12  |                 | Prerequisite(s): minimum 45 hours                              |
| HCI     | 492         | Honors Directed Study   | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-6   |                 | Prerequisite(s): Barrett Honors student                        |
| HCI     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-6   | L               | Prerequisite(s): Barrett Honors student                        |
| HCI     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-4   |                 | Prerequisite(s): minimum 45 hours                              |
| HCI     | 497         | Honors Colloquium   | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | Y                 | LEC               | Y               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-6   |                 | Prerequisite(s): Barrett Honors student                        |
| HCI     | 538         | Innovation and the Individual   | Introduces the role of the innovator, including the essential behaviors of risk taking, managing workload, and addressing the challenges of innovation.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| HCI     | 540         | Understanding and Applying Principles of Evidence-Based Practice                      | Understanding how application of evidence-based practice principles assists health care professionals to provide the best care.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCI 538 with C or better                      |
| HCI     | 542         | Systems Thinking in a Complex Environment   | Examines basic and advanced systems principles as they relate to national and international health and healing systems. Specific emphasis is given to systems thinking from a complexity science perspective and the implications for innovation.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCI 538 with C or better                      |
| HCI     | 543         | Approaches to Health Care Innovation  | Theory-based survey course introduces approaches to lead innovation in an organization. Many change initiatives are designed by those not completing the work, leaving workers isolated, restricted and powerless. Teaches health care leaders to value collaboration with and seeking input from those who will carry out the work. Analyzes approaches to planned change: positive deviance, appreciative inquiry and creation of a learning organization. Students construct a change plan using an appropriate approach to address a health care problem. | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| HCI     | 544         | IT for Healthcare Innovation  | Focuses on the information technology (IT) trends and their strategic application in healthcare. Students develop an IT strategy that addresses a specific healthcare area of concern. Students gain an understanding of the role of IT in healthcare innovation and develop skills in business process improvement, change management, strategy definition, value proposition, responding to feedback and managing resistance.   | N                 | SEM               | Y               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): Health Care Innovation MHI student            |
| HCI     | 545         | Public Speaking for Innovation: Building Your Presence and Making the Case for Change | New ideas take a lot of explaining, and innovation often involves persuasion. Builds presence as a speaker and a leader--and gains expertise in public speaking for innovation. Public speaking for innovation is a combination of finding and building one's presence as a speaker and a leader--and translating that to an ability to explain and persuade, making the case for change. Students build their presence and gain the foundational knowledge necessary to successfully explain and persuade in innovation contexts.                            | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| HCI     | 546         | Communication, Technology, and Innovation   | Overview of traditional, contemporary and innovative communication strategies in the 21st century.  | N                 | SEM               | Y               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisites: Master of Healthcare Innovation major          |
| HCI     | 548         | Advanced Principles and Concepts of Innovation  | Explores and analyzes the innovation in complex systems, focusing on developing specific skills for successful innovations.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCI 538 with C or better                      |
| HCI     | 550         | Health Care Policy and Innovation   | Introduces the political, organizational, and economic dimensions of health care policy, emphasizing strategies for innovative policy and practice.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| HCI     | 552         | Financing for Innovation  | Provides an overview of healthcare economics; develops budgeting, planning, and management skills; and culminates in financial analysis skills necessary to facilitate management decision making or writing business plans or grant proposals.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| HCI     | 554         | Outcomes Evaluation   | Outcomes measurement, management, and evaluation for health care practitioners and/or leaders.  | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCI 538 with C or better                      |
| HCI     | 561         | Innovation Methods  | Innovation methods for use in a health care setting. Helps students generate ideas, explore appreciative inquiry and demonstrate competencies related to the theories and processes of innovation.  | N                 | SEM               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| HCI     | 562         | Capstone Innovation Project II  | Introduces the process of conceptualizing an innovation and building a plan or proposal to move forward with the innovation in either an entrepreneurial or intrapreneurial context.  | N                 | SEM               | Y               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |

## ASU Course Catalog Archive - Summer 2018

| HCI     | 563         | Capstone: Final Innovation Project   | Applies the concepts learned in MHI core courses and presents evidence of knowledge in innovation principles, applications and strategies for implementation and evaluation. Develops an innovation project in the form of a mindmap. Provides a comprehensive methodology for completing all aspects of an innovation opportunity. Student-directed demonstrations of the application of learned leadership skills and techniques for facilitating team and individual implementation.  | N                 | SEM               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 5     |                 | Prerequisite(s) with C or better: HCI 538; HCI 540; HCI 542; HCI 544; HCI 548; HCI 550; HCI 552; HCI 554; HCI 561   |
| HCI     | 570         | Innovation Proposal: Culminating Experience for Health Care Innovation Certificate | Applies concepts learned and operationalizes skills acquired throughout the Health Care Innovation certificate. Students envision emerging paths toward an outcome by first presenting a problem they have identified within a health care organization, and creating collaborative relationships and developing strategies to initiate change in their chosen setting.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 4     |                 | Prerequisite(s): HCI 538; HCI 542; HCI 554; HCI 561   |
| HCI     | 571         | Health Care Innovation Leadership Portfolio: Culminating Experience                | Examines and applies personal leadership potential. Focuses on the effective development and facilitation of human networks to advance innovation in the health care space. Challenges students to appraise and analyze personal leadership strengths, challenges and opportunities. Explores strategies to evaluate students' current networks; develops the students' emergent professional networks. Gives focus to building relationships necessary to advance innovation in the health care space. Students develop and implement an action plan to advance their personal leadership growth and network utilization. | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCI 538; HCI 543; HCI 545; NLM 562   |
| HCI     | 580         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | N                 | PRA               | Y               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCI     | 584         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCI     | 591         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.  | N                 | SEM               | Y               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCI     | 595         | Continuing Registration  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | LEC               | Y               | Z3            | Nursing & Health Innovation | College of Nursing and Health Innovation | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCI     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCR     | 194         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-4   |                 |   |
| HCR     | 210         | Clinical Health Care Ethics  | Healthcare ethics emphasizing analysis and ethical decision making at clinical and health policy levels for healthcare professionals.  | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     | HU              | Prerequisite(s): ENG 102,105, or 108 with C or better   |
| HCR     | 220         | Introduction to Nursing and Health Care Systems                                    | Introduces the social, political, and economic contexts in which the nursing profession and health care systems in the United States evolved.  | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     | H               |   |
| HCR     | 230         | Culture and Health   | Cultures of diverse groups and health/illness. Cross-cultural communication, awareness of own cultural influences, indigenous and alternative healing practices.   | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     | C & G           |   |
| HCR     | 240         | Human Pathophysiology  | Chemical, biologic, biochemical, and psychological processes used in study of structural and functional alterations in health with selected therapeutics.  | N                 | LEC               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 4     |                 | Prerequisite(s): BIO 201 with C or better; BIO 202 with C or better; CHM 101 or higher with C or better; MIC 205 with C or better; MIC 206 with C or better |
| HCR     | 260         | Health Care Industry and Regulation  | Overview of the complex system of regulations that frame the oversight and monitoring of the U.S. health care industry. Provides a foundational understanding of federal and state regulations as well as private health care regulatory agencies' requirements as they relate to physicians and other health care professionals, hospitals and other health care institutions, and insurance companies.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 |   |
| HCR     | 261         | Health Care Compliance   | Introduces health care compliance as an industry and a profession. Explores federally legislated mandates for formal compliance programs, program elements and organizational steps for program implementation in specific health care settings.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 |   |
| HCR     | 262         | Health Care Licensure, Professional Development and Practice                       | Introduces interprofessional practice, professional licensure, education and training, certification and scope of practice within the health care industry. Explores compliance standards and accreditation as they relate to the authority and scope of licensure boards, which are designed to safeguard the public health.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 |   |
| HCR     | 263         | Introduction to Medical Billing and Compliance                                     | Introduces the complex process of medical coding and billing practices and related federal regulations and programs. Provides learners with a fundamental understanding of medical coding and billing processes including terminology, stakeholders and regulatory impact.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 260  |
| HCR     | 264         | Regulatory Essentials of Compliance Program Design I                               | Offers a comprehensive overview of the regulations that impact the health care delivery industry. These regulations include: protections against fraud and abuse, patient rights and privacy, protected health information (PHI) and electronic protected health information (ePHI), and occupational health and safety.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 261  |
| HCR     | 265         | Regulatory Essentials of Compliance Program Design II                              | Comprehensive study of the creation, management and evaluation of all aspects of a formal health care compliance program. Learners investigate and discuss roles of the compliance officer and compliance committee, risk analysis, recommendations for and implementation of corrective action.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 264  |
| HCR     | 294         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-4   |                 |   |
| HCR     | 298         | Honors Directed Study  | Independent study or practicum under the supervision of a faculty member.  | N                 | PRA               | N               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| HCR     | 301         | Research Methods for the Health Care Professional                                  | Explores basic concepts of qualitative and quantitative research design utilizing methods of assessment, planning, implementation and evaluation.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): STP 226, PSY 230, SOC 390, or SWU 321 with C or better; TWC 347 or 362 with C or better; ENG 101, 105, or 107 with C or better             |

## ASU Course Catalog Archive - Summer 2018

|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|-----------------------------|--|-------|-----------------|--|
| HCR     | 302         | Social Determinants of Health                                  | Addresses issues of social determinants and health disparities at the local, national and global levels.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): TWC 347 or 362; Pre- or corequisite(s): HCR 301 with C or better OR Health Care Coordination BIS emphasis or Health Care Coordination minor   |
| HCR     | 303         | Assessing Needs, Assets and Capacity for Health Education      | Assesses needs, assets and capacity for health education at the individual, family and community levels.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): CDE 232 with C or better; HCR 210 and 230 with C or better  |
| HCR     | 320         | Foundational Concepts for Health Care Coordination             | Focuses on the foundational elements of health care coordination. Discusses the health care coordination process including assessment, implementation and evaluation.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 220 with C or better  |
| HCR     | 321         | Advanced Concepts for Health Care Coordination                 | Presents advanced concepts for health care coordination, including: interprofessional teamwork, medication reconciliation, patient/family engagement and other tools that facilitate best practices for health care coordination. Students also learn models for health care coordination, and concepts and practices to facilitate transitions of care.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 320 with C or better  |
| HCR     | 330         | Fundamentals of Community Health                               | Provides a framework for understanding community health concepts.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): minimum 45 hours  |
| HCR     | 331         | Communication within Communities                               | Focuses on the integral nature of communication in health care, including the role communication plays in shaping individual, social and cultural beliefs and expectations about health. Provides skills for effective communication when working with individuals, groups and the media.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): minimum 45 hours  |
| HCR     | 335         | Program Development and Management for Community Health        | Incorporates models, research and resource management to plan, strategize and evaluate community programs that promote healthy lifestyle choices in various, as well as specific, geographic communities.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): General Studies Literacy course; minimum 45 hours   |
| HCR     | 336         | Environmental Community Health                                 | Examines the interdependent relationship between the health of the environment and the health of communities. Includes a focus on specific communities, as well as agencies and laws involved in the health of communities.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 330 with C or better  |
| HCR     | 340         | Foundations of Integrative Health                              | Discusses the similarities and differences of the biomedical and integrative health care systems providing an overview of integrative health.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better   |
| HCR     | 341         | Biological, Manipulative, and Body-Based Therapies             | Analyzes the principles and practices of select biological and body-based therapies and modalities and their use in the health care system.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): any BIO course or any CHM course  |
| HCR     | 342         | Mind-Body and Energy Therapies and Modalities                  | Analyzes the principles and practices of select mind-body and energy therapies and modalities and explains and distinguishes their use in the health care system.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): any BIO course or any CHM course  |
| HCR     | 343         | Historical and Cultural Foundations of Integrative Health Care | Distinguishes commonalities and differences between early healing traditions and investigates the utility for today's health care system.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 340 with C or better  |
| HCR     | 350         | Introduction to Clinical Research                              | Provides an introduction to the biomedical and clinical research field and associated operational processes. Examines clinical trial development phases, regulatory protections for human subjects, clinical research team specializations, research organizations, good clinical practice, institutional review board functions, and research funding mechanisms. Explores specialized career positions for nursing and allied health professionals. | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre-requisites: Minimum 45 hours; Credit is allowed for only HCR 350 or 394 (Introduction to Clinical Research Management)   |
| HCR     | 360         | Data Security and Privacy in Health Care Compliance            | Focuses on administrative practices that ensure the security of computerized systems and the protection of health information. Topics include communication and reporting, as well as specific regulations and authorities such as the Health Insurance Portability and Accountability Act (HIPAA) Privacy and Breach rules, and HIPAA Security and Meaningful Use Attestation.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 260; HCR 261  |
| HCR     | 361         | Risk Management in Health Care Compliance                      | Risk management practices as they relate to the oversight of operations and processes within the health care industry. Utilizes various tools to predict, analyze and mitigate practices that may lead to industry noncompliance.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 260; HCR 261  |
| HCR     | 362         | Monitoring and Auditing for Health Care Compliance             | Ongoing health care compliance evaluation process critical to a successful compliance program. Provides the knowledge to utilize monitoring and auditing systems to ensure health care operations conform to established standards or comply with federal, state or local rules and regulations.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 260; HCR 261  |
| HCR     | 394         | Special Topics   | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-4   |                 |  |
| HCR     | 400         | Evidence-Based Practice for the Health Care Professional       | Methods of clinical and scientific inquiry. Focuses on the application of an evidence-based practice approach.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 301; TWC 347 or 362, OR Applied Science (Health Innovation) BAS major   |
| HCR     | 402         | Advocacy for Health and Health Education                       | Discusses and analyzes existing or proposed policies on health and strategies for influencing the policy-making process.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 303 with C or better  |
| HCR     | 406         | Health Literacy for Health Care Professionals                  | Prepares students to use best practices for health communication that promote consumer health literacy.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 210 or HSC 320; HCR 230 or HSC 210 OR Applied Science (Health Innovation) BAS major; Pre- or corequisite(s): HCR 301 with C or better if completed or Applied Science (Health Innovation) BAS major |
| HCR     | 420         | Professional Role Development: Health Care Coordination        | Professional role development including role transition, leadership and project management for health care coordination.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 320 with C or better; HCR 321 with C or better  |
| HCR     | 422         | Policy and Financial Principles in Health Care Coordination    | In-depth look at the history of health care policy in the United States from World War II to the present focusing on how Medicare, Medicaid and the Affordable Care Act impact health care system and patient reimbursement. Also discusses elements of insurance, managed care and universal care.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 320 with C or better  |
| HCR     | 426         | Health Care Coordination Capstone                              | Applies higher-level critical thinking, teamwork, effective communication, informatics and design process required to develop a "real-world" health care coordination solution that will be a catalyst for change by improving safe patient-centered transitions, lowering readmission rates, increasing patient safety, and/or decreasing the cost of care.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 321 with C or better; HCR 400 with C or better; HCR 422 with C or better  |
| HCR     | 430         | Foundation to Health Care Systems                              | Explores the impact of the current U.S. health care system on the health of individuals, families and communities.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 260 or 330 with C or better   |
| HCR     | 435         | Leaders in Community Health                                    | Prepares students to assume a leadership role in health promotion in communities.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 330 with C or better; HCR 335 with C or better  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                     | Department                               | Units | General Studies | Requirements  |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|-----------------------------|--|-------|-----------------|---|
| HCR     | 439         | Community Health Seminar  | Provides the opportunity to explore the health status of communities and to develop strategies for community health improvement.  | N                 | SEM               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s) with C or better: HCR 330, 331, 335, 336. Pre- or corequisite(s): HCR 430, 435 with C or better if completed    |
| HCR     | 440         | Interprofessional Approaches to Integrative Health Care         | Prepares learners to develop and lead interprofessional teams with a focus on roles and responsibilities of integrative health care providers and practitioners.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 340 with C or better   |
| HCR     | 441         | Legal and Ethical Issues Impacting Integrative Health Care      | Examines current laws, government regulations, ethical principles and case studies to understand issues and consumers' use of integrative modalities.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 340 with C or better   |
| HCR     | 449         | Integrative Health Care Capstone                                | Provides the opportunity to design a healing environment project that reflects the philosophy, mission and values of a health care organization in relation to underlying philosophy and beliefs of integrative health care.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 340 and 341 and 342 and 343 and 400 and 440 all with C or better; Pre- or corequisite(s): HCR 441; TWC 443 |
| HCR     | 460         | Investigations and Disclosures in Health Care Compliance        | Types of disclosures required by and investigations conducted by regulatory and accrediting agencies overseeing health care entities. Introduces oversight activities, enforcement and potential penalties incurred by health care entities.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 362  |
| HCR     | 461         | Corrective and Preventive Action Plans                          | Use of corrective and preventive actions (CAPA) in meeting the challenges of a compliant health care services operation. Covers design and implementation of CAPA to respond to deviations or errors in the health care environment. Identifies problems, implements corrective actions, evaluates consequences and employs preventive measures.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre- or corequisite(s): HCR 460   |
| HCR     | 462         | Specialty Topics in Health Care Compliance                      | Provides a comprehensive review of case studies and recent enforcement action involving litigation and enforcement of health care law, including review of landmark and contemporary cases brought by the United States Office of Inspector General, the Office of Civil Rights and state attorney generals. Applies knowledge and skills acquired from earlier coursework to real-world situations.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 2     |                 | Prerequisite(s): HCR 260; HCR 261   |
| HCR     | 463         | Capstone Project Health Care Compliance                         | Culminating course integrating all components of health care compliance core courses and demonstrating knowledge and competency in the field of health care compliance.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre- or corequisite(s): HCR 460; HCR 461  |
| HCR     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-12  |                 |   |
| HCR     | 492         | Honors Directed Study   | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| HCR     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| HCR     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-4   |                 |   |
| HCR     | 497         | Honors Colloquium   | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | Y                 | LEC               | Y               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| HCR     | 498         | Pro-Seminar   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-7   |                 |   |
| HCR     | 499         | Individualized Instruction                                      | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | Nursing & Health Innovation | College of Nursing and Health Innovation | 1-3   |                 |   |
| HCR     | 545         | Foundations of Biospecimen Repository Administration            | Examines the biospecimen repository industry from a business perspective. Students learn the scientific basis, collaborative nature, required personnel, timelines and processes that underlie the business environment of biospecimen repositories and their administration.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCR     | 546         | Management of Biospecimen Repository Operations                 | Examines the biospecimen repository industry from an operational perspective. Students learn the process aspects of repository start-up through collection, maintenance and disbursement of specimens. Key elements include personnel training, planning, quality control, risk management, project management and safety implementation.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 545  |
| HCR     | 547         | Biospecimen Resource and Technology Management                  | Examines the biospecimen repository industry from a technology and resource perspective. Students learn the planning and selection of technology and resources for the support of the start-up and long-term maintenance of a biospecimen repository. Key elements include technology and resources assessment and choice, cost-benefit analysis, initial budget, long-term and short-term planning.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 545  |
| HCR     | 548         | Regulation and Ethics in Biospecimen Repository Administration  | Examines the biospecimen repository industry from an ethical and regulatory perspective. Students learn the ethical and consenting challenges of biospecimen collection, storage and disbursement. Examines relevant historical case histories to inform current policies and practices.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCR     | 549         | Scientific Innovation and Biospecimen Repository Administration | Explores the driving effects of scientific innovation on biospecimen administration management. Students learn how scientific advancements increase the demand of high-quality biospecimens and high-quality data, referred to as next-generation biorepository research. Examines tracking pre-analytical variables, adequate preservation and storage methods, controlled biospecimen and data custodianship, governance with ethical and scientific oversight of operations.                     | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): HCR 545  |
| HCR     | 551         | Clinical Research Monitoring                                    | Introduces clinical trial monitoring processes and procedures.  | N                 | SEM               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre- or corequisite(s): HCR 561 with C or better if completed   |
| HCR     | 552         | Medical Device Development and Regulation                       | Comprehensive examination of the regulatory framework for the design, development, approval/clearance and marketing of medical devices in the United States throughout the product lifecycle.   | N                 | SEM               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre- or corequisite(s): HCR 561 with C or better if completed   |
| HCR     | 553         | Quality Assurance and Clinical Research                         | Explores basic quality assurance techniques, standards and applications in the clinical research arena.   | N                 | SEM               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre- or corequisite(s): HCR 561 with C or better if completed   |
| HCR     | 554         | International Regulatory Affairs                                | Principles of international regulatory affairs and requirements for marketing regulated products globally. Key regulations that relate to medical product safety, the origins of these regulations, and marketing applications in major foreign markets. Covers similarities and differences among global regulations and those in the United States.   | N                 | LEL               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Pre- or corequisite(s): HCR 561 with C or better if completed   |

| HCR     | 555         | Pharmaceutical Safety and Risk Management                               | Comprehensive examination of regulatory, legal, and scientific factors in pharmacovigilance and risk management and risk mitigation.  | N                 | LEC               | N               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 3     |                 | Pre- or corequisite(s): HCR 561 with C or better if completed   |
| HCR     | 557         | Clinical Research Design and Methods                                    | Explores basic clinical trial biostatistical methods in concert with clinical trial design and methods.   | N                 | LEC               | N               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 3     |                 | Pre- or corequisite(s): HCR 561 with C or better if completed   |
| HCR     | 558         | Technical Writing for the Regulatory Professional                       | Focuses on teaching and applying writing and presentation skills critical for regulatory professionals.   | N                 | LEC               | N               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 3     |                 | Pre- or corequisite(s): HCR 561 with C or better if completed   |
| HCR     | 559         | Regulatory Science Internship   | Internship in the field at a regulatory agency or in a regulated industry. Practicum.   | N                 | PRA               | Y               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 1-3   |                 | Pre-requisite: Regulatory Science and Health Safety Master of Science student   |
| HCR     | 560         | Regulatory Science Capstone   | Culmination course integrating all components of regulatory core courses demonstrating knowledge and competency in the field of regulatory science.   | N                 | LEC               | Y               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 1-3   |                 | Pre-requisite: Regulatory Science and Health Safety Master of Science student   |
| HCR     | 561         | Responsible Conduct of Clinical Research                                | Introduces concepts and policies for the responsible conduct of research (RCOR), institutional review boards, and dissemination of findings.  | N                 | LEC               | N               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCR     | 562         | Clinical Research Data Management and Technology Implementation         | Orientation to database design and management, technology assessment methods, auditing procedures for continuous quality improvement (CQI), and cost-effectiveness analysis (CEA).  | N                 | LEC               | Y               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 3     |                 | Pre- or corequisite(s): HCR 561 with C or better if completed   |
| HCR     | 563         | Fundamentals of Regulatory Affairs                                      | Principles of clinical research management and regulatory affairs. Overview of national/international regulatory systems and agencies, and trends in conducting clinical research.  | N                 | LEC               | Y               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 3     |                 | Pre- or corequisite(s): HCR 561 with C or better if completed   |
| HCR     | 564         | Capstone Clinical Research Management Project                           | Culmination course integrating all components of CRM core courses demonstrating knowledge and competency in designing and managing clinical trials. Students must have documentation of unencumbered professional license in the state where the capstone project will be completed, if required.   | N                 | REC               | N               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 3     |                 | Pre-requisites: Clinical Research Management Master of Science or Clinical Research Management Certificate student  |
| HCR     | 565         | Clinical Research Operations  | Development, implementation, and operations of FDA clinical research trials, including budgeting, contract negotiations, site evaluation, marketing, project management, and reporting.   | N                 | LEC               | Y               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCR     | 566         | Clinical Research Management Capstone                                   | Culmination course integrating CRM degree coursework by demonstrating knowledge and competency in clinical research management planning, operations, and implementation processes.  | N                 | LEC               | Y               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 3     |                 | Prerequisite(s): HCR 551 with C or better; HCR 561 with C or better; HCR 563 with C or better; HCR 565 with C or better; HCR 574 with C or better; 15 additional hours of HCR graduate-level courses with C or better |
| HCR     | 567         | Research Management and Contemporary Research Topics                    | Management and leadership principles integrated with contemporary research topics will be introduced.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 3     |                 | Pre- or corequisite(s): HCR 561 with C or better if completed   |
| HCR     | 568         | Health Care Project Management  | Designed for graduate students and managers who desire to improve their effectiveness as project managers in the health care context.   | N                 | SEM               | N               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCR     | 570         | Introduction to International Health Systems, Professions, and Research | Introduces systems of international healthcare delivery, professions that provide healthcare delivery, and international research principles and practices.   | N                 | LEC               | Y               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCR     | 571         | Cultural Diversity and Healthcare Delivery                              | In-depth exploration of culturally diverse aspects of population health, including culture-bound syndromes, folk practices, assessment approaches, and interactions.  | N                 | LEC               | N               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCR     | 572         | International Healthcare Delivery Capstone                              | Culminating course integrating all International Health requirements that produce culturally responsive implementation and evaluation plan for the student's clinical practice. A portion of the course will be held in Mexico.   | N                 | LEC               | Y               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 4     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCR     | 574         | Scientific and Research Review Boards                                   | The role and responsibilities of Scientific and Research Review Boards in the conduct of human research.  | N                 | SEM               | N               | GNA           | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 3     |                 | Pre- or corequisite(s): HCR 561 with C or better if completed   |
| HCR     | 575         | Contracting and Budgeting for Industry-Sponsored Clinical Trials        | Examines best practices in contracting, negotiating and budgeting for industry-sponsored clinical trials.   | N                 | LEC               | N               | GNA           | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 3     |                 | Pre- or corequisite(s): HCR 561 with C or better if completed   |
| HCR     | 590         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic or writing a literature review of a topic.  | Y                 | LEC               | Y               | Z1            | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCR     | 592         | Research  | Independent study that is expected to lead to a specific project such as a thesis or dissertation, report or publication, in which a student conducts research under the supervision of a faculty member. Assignments might include data collection, experimental work, data analysis or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCR     | 593         | Applied Project   | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCR     | 595         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned. | Y                 | LEC               | Y               | Z3            | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HCR     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Nursing & Health Innovation  | College of Nursing and Health Innovation          | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HDA     | 101         | ASU & Herberger Institute Experience                                    | Introduces all new first-time ASU students to the unique elements, culture, challenges and opportunities of their university and the Herberger Institute for Design and the Arts. Explains and defines success with integrity, ASU resources and involvement, the importance of arts to society and the community, personality and learning style, and success in college and beyond.                   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1     |                 | Pre-requisites: Herberger Institute for Design and the Arts BA in the Arts or BA in Design Studies major; Credit is allowed for only HDA 101 or 194 (ASU Herberger Inst Experience)                                   |
| HDA     | 111         | Art and Society   | Introduces the interplay between art and society, particularly how one influences the other.  | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 3     |                 |   |
| HDA     | 125         | Survey of the Fashion Industry  | Prepares the student to know how the fashion industry operates and what to expect when working in it. From manufacturing to retail, it is important for all members of the fashion industry to understand how the processes interrelate.  | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 3     |                 | Credit is allowed for only FSH 125 or HDA 125   |
| HDA     | 194         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-4   |                 |   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title  | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department  | Units | General Studies | Requirements  |
|---------|-------------|---|---|-------------------|-------------------|-----------------|---------------|------------------------------|---|-------|-----------------|---|
| HDA     | 210         | Creativity and Innovation in Design and the Arts  | Designed to get students thinking in a focused manner about creative practice and process. Many young designers and artists arrive at higher education in their discipline having taught themselves or having received a piecemeal education in the directed application of ideas. Aids students in knowing why and how they are creative. Covers types of creativity, how inspiration happens, how to take a project from idea to reality, how to work creatively in teams and how to fuse creative ideas with an understanding of environment to help realize work in socially useful ways. | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 3     |                 | Credit is allowed for only HDA 210 or 294 (Creativity & Innovation for Design and the Arts)                           |
| HDA     | 225         | Fashion Design  | Expands upon fashion design fundamentals learned earlier to encompass additional aspects of the fashion industry, which includes fashion as business, and as a sociological and cultural phenomenon.  | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 3     |                 | Prerequisite(s): HDA 125 with C or better   |
| HDA     | 252         | Foundations of Arts Entrepreneurship  | Develops entrepreneurial knowledge and skills supporting the self-actualization, self-efficacy, and market acumen of artists.   | N                 | LEL               | N               | OPT           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 3     |                 | Prerequisite(s): Herberger Institute student  |
| HDA     | 294         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-4   |                 |   |
| HDA     | 310         | Socially Engaged Practice   | Students gain a wide literacy in the community arts field through reading, discussion and technical practice. Examines theories and techniques of community-based project development. Pairs artists with communities to create art rooted in the needs, values, desires, triumphs and challenges of that community. Helps prepare the artist of the 21st century with skills to apply artistic practices in diverse contexts.  | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 3     |                 | Pre-requisites: Minimum 42 hours; Credit is allowed for only HDA 310 or 494 (Public Practice: Engagement & Community) |
| HDA     | 311         | Work and Careers in the Cultural and Creative Industries                                | Introduces fundamental questions in the study of work and careers in the cultural and creative industries, including an overview of historical changes in the relationship between the individual and his or her work environment; comparisons between different types of work arrangements (part-time, freelance, internships); and practical implications for contemporary workers.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 3     |                 | Prerequisite(s): minimum 45 hours   |
| HDA     | 394         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-4   |                 |   |
| HDA     | 397         | Capstone Development  | Prepares students for a successful capstone project. Students develop a formal proposal and identify a mentor for the project.  | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1     |                 | Prerequisite(s): The Arts BA major; minimum 56 hours  |
| HDA     | 410         | Design and the Arts Corps Seminar   | Explores specific strategies and approaches to socially engaged art practices through readings, visiting artist presentations and direct engagement with community-based projects.  | N                 | SEM               | N               | GNA           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 3     |                 | Prerequisite(s): HDA 310; Credit is allowed for only HDA 410 or HDA 510   |
| HDA     | 420         | Design and the Arts Business Administration   | Design and the arts business seminar course that covers core business principles for design or arts businesses such as human resources, legal issues, accounting and finance. Asks with each of these areas how these disciplines uniquely work within design or arts settings. Investigates global business topics and discusses why ethics is integral to every design or arts business enterprise. Provides a broad understanding of design or arts business activities and practices, allowing more effective participation in business discussions in the future.                        | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 3     |                 | Pre-requisites: Minimum 45 hours; Credit is allowed for only HDA 420 or 494 (Design & the Arts Bus Admin)             |
| HDA     | 484         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-12  |                 |   |
| HDA     | 492         | Honors Directed Study   | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| HDA     | 493         | Honors Thesis   | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| HDA     | 494         | Special Topics  | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-4   |                 |   |
| HDA     | 498         | Pro-Seminar   | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-7   | L               |   |
| HDA     | 499         | Individualized Instruction  | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-3   |                 |   |
| HDA     | 510         | Design and the Arts Corps Seminar   | Explores specific strategies and approaches to socially engaged art practices through readings, visiting artist presentations and direct engagement with community-based projects.  | N                 | SEM               | N               | GNA           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only HDA 410 or HDA 510         |
| HDA     | 511         | Leadership in the Creative Industries   | The creative industries construct and principles of leadership as applied within and affecting it through curated interaction with leaders in the field.  | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1     |                 | Prerequisite(s): Creative Enterprise and Cultural Leadership MA student   |
| HDA     | 512         | Strategy: Problem Identification and Opportunity Recognition in the Creative Industries | Through a combination of short lectures and collaborative exercises, students learn to identify challenges and opportunities for entrepreneurial interventions in the creative industries and arts and culture sectors.   | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 2     |                 | Prerequisite(s): Creative Enterprise and Cultural Leadership MA student   |
| HDA     | 513         | Creativity and Design Thinking  | Activates abilities as a creative thinker and problem solver for the cultural and creative industries through short lectures and collaborative workshop activities.   | N                 | LEL               | N               | GNA           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 3     |                 | Prerequisite(s): Creative Enterprise and Cultural Leadership MA student   |
| HDA     | 521         | Arts, Culture and the Economy   | Builds understanding of economic concepts as applied to the arts and culture sector, with specific attention to how art and culture enterprises work as businesses, how such enterprises function in our wider economic system, which are growing and which disappearing (and why), all toward the goal of building the student's capacity to lead arts and culture enterprise in a complex economic environment.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HDA     | 522         | Media Literacy and Distribution   | Addresses the impact that digital distribution has had on traditional media business models and the way media and our culture are changing because of it. Also looks at the way in which industries are adapting to this change in the media landscape. Three distinct sections: content literacy, production and distribution metrics, economic and cultural implications.   | N                 | LEC               | N               | GNA           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HDA     | 580         | Practicum   | Structured practical experience in a professional program, supervised by a practitioner or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HDA     | 583         | Fieldwork   | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title                          | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                      | Department  | Units | General Studies | Requirements   |
|---------|-------------|---------------------------------------|---|-------------------|-------------------|-----------------|---------------|------------------------------|---|-------|-----------------|--|
| HDA     | 584         | Internship                            | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HDA     | 590         | Reading and Conference                | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic or writing a literature review of a topic.  | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HDA     | 591         | Seminar                               | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HDA     | 592         | Research                              | Independent study that is expected to lead to a specific project such as a thesis or dissertation, report or publication, in which a student conducts research under the supervision of a faculty member. Assignments might include data collection, experimental work, data analysis or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HDA     | 593         | Applied Project                       | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | RSC               | Y               | Z1            | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HDA     | 594         | Conference and Workshop               | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HDA     | 595         | Continuing Registration               | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | LEC               | Y               | Z3            | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HDA     | 598         | Special Topics                        | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HDA     | 599         | Thesis                                | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HDA     | 684         | Internship                            | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HDA     | 784         | Internship                            | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | Dean, Herberger Institute for Design and the Arts | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HEB     | 101         | Elementary Modern Hebrew              | Reading, writing, speaking, and understanding of basic modern Hebrew, with emphasis on pronunciation and grammar.   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures      | 4     | G               |  |
| HEB     | 102         | Elementary Modern Hebrew              | Reading, writing, speaking, and understanding of basic modern Hebrew, with emphasis on pronunciation and grammar.   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures      | 4     | G               | Prerequisite(s): HEB 101 with C or better  |
| HEB     | 131         | Biblical Hebrew I                     | Offers an introduction to Biblical Hebrew, the language in which most of the books of the Hebrew Bible/Old Testament have been written. Provides the basic tools to understand and translate Biblical Hebrew texts. Covers the Hebrew alphabet, basic vocabulary, morphology and syntax. Students learn idiomatic expressions, basic literary techniques in narratives and poetry, as well as specificities of Semitic languages. Emphasizes a critical approach to the ancient text. Also introduces the evolution of the biblical text, from ancient manuscripts to contemporary editions and translations. Includes an introduction to the development of writing and to the evolution of Hebrew, from earliest inscriptions to its revival in modern Israel. The texts translated in class are situated in the history of Israel, but also in their Jewish and Christian cultural and religious contexts. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures      | 3     |                 | Credit is allowed for only HEB, JST, REL 131 or HEB 194 (Biblical Hebrew I)  |
| HEB     | 132         | Biblical Hebrew II                    | Completes the study of basic Biblical Hebrew grammar and vocabulary (Futato's Beginning Biblical Hebrew, chapters 21-40). Prepares students to translate narrative and legal texts from Hebrew Bible. Students learn to use dictionaries, grammars, paradigms and critical editions of the biblical text.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures      | 3     |                 | Prerequisite(s): HEB, JST, REL 131 or HEB 194 (Biblical Hebrew I) with C or better; Credit is allowed for only HEB, JST, REL 132 or HEB 194 (Biblical Hebrew II)   |
| HEB     | 191         | First-Year Seminar                    | Small course emphasizing student-faculty discussion and interaction. Required for first-year students. Must have taken 25 or fewer credit hours. Consulting an academic advisor before enrolling is recommended.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures      | 1-3   |                 | Pre-requisites: Freshman standing; Maximum 25 hours  |
| HEB     | 194         | Special Topics                        | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures      | 1-4   |                 |  |
| HEB     | 201         | Intermediate Modern Hebrew            | Intensive review of grammar, with emphasis on the development of the skills of speaking, listening comprehension, reading, and writing.   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures      | 4     | G               | Prerequisite(s): HEB 102 with C or better  |
| HEB     | 202         | Intermediate Modern Hebrew            | Intensive review of grammar, with emphasis on the development of the skills of speaking, listening comprehension, reading, and writing.   | N                 | LEL               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures      | 4     | G               | Prerequisite(s): HEB 201 with C or better  |
| HEB     | 231         | Biblical Hebrew III                   | Advanced study of Biblical Hebrew. Deepens understanding of the grammar and composition of the Hebrew Bible. Translates texts of different literary genres (narrative, legal, poetic, prophetic) and different periods. Introduces the basic principles of textual criticism and different approaches to interpret the texts of the Hebrew Bible.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures      | 3     |                 | Prerequisite(s): HEB, JST, REL 132 or HEB 194 (Biblical Hebrew II) with C or better; Credit is allowed for only HEB, JST, REL 231 or HEB 294 (Biblical Hebrew III) |
| HEB     | 232         | Biblical Hebrew IV                    | Addresses advanced topics in Biblical Hebrew grammar and interpretation. The first half of the semester is devoted to texts from the Hebrew Bible; the second half on extra-biblical texts written in ancient Hebrew (for example: Dead Sea Scrolls, Rabbinic texts, ancient Hebrew poetry). Topics and texts change annually.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures      | 3     |                 | Prerequisite(s): HEB, JST, REL 231 or HEB 294 (Biblical Hebrew III) with C or better; Credit is allowed for only HEB, JST, REL 232 or HEB 294 (Biblical Hebrew IV) |
| HEB     | 294         | Special Topics                        | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures      | 1-4   |                 |  |
| HEB     | 313         | Advanced Modern Hebrew                | Continues developing speaking, reading, and writing skills in modern Hebrew, with a focus on different aspects of the Israeli culture studied in literature, cinema, and music.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures      | 3     | G               | Prerequisite(s): HEB 202 with C or better  |
| HEB     | 314         | Advanced Modern Hebrew                | Continues developing speaking, reading, and writing skills in Modern Hebrew, with a focus on different aspects of the Israeli culture studied in literature, cinema, and music.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures      | 3     | G               | Pre-requisites: HEB 202  |
| HEB     | 316         | Literary Readings of the Hebrew Bible | Literary analysis of two of the main genres of the Hebrew Bible: narrative art and poetry. Students learn the main literary conventions of biblical prose and poetry, and how these conventions are applied or subverted. Each class comprises the study of a literary aspect, close readings, and thematic discussions. Biblical texts are read only in translation. They are situated in the religious, literary and artistic traditions that have developed on their basis.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences    | School of International Letters and Cultures      | 3     | L or HU         | Prerequisite(s): minimum 45 hours. Credit is allowed for only ENG 316, HEB 316, JST 316, REL 316 or HEB 394 (Literary Readings of the Bible)                       |

| HEB     | 347         | Modern Israeli Literature in Translation   | Modern Hebrew, or Israeli Hebrew, started at the end of the 19th century in Europe and today it is the language of the State of Israel. During this short period modern Hebrew developed literature with its unique local characteristic, as well as universal ideas. Reads and examines four books against their social and historical background.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences      | School of International Letters and Cultures  | 3     | HU & G          | Prerequisite(s): ENG 101, 105, or 107 with C or better; Credit is allowed for only ENG 347 or HEB 347 or JST 347 or SLC 347 or ENG/HEB/JST/SLC 394 (Modern Hebrew Literature in Translation)   |
| HEB     | 348         | Israeli Society and Culture                | Different partitions of the Israeli society, based on ethnic origin, by religious affiliation or by political association. Depicts how Israel is an absorbing immigration state. Israel is a welfare state and the course covers aspects of a welfare state, such as health, retirement, public transportation, art, higher education and more.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences      | School of International Letters and Cultures  | 3     | HU & G          | Prerequisite(s): ENG 101, ENG 105 or ENG 107 with C or better; Credit is allowed for only HEB 348, HEB 394 (Israeli Culture and Society), JST 348, REL 311, or SLC 348   |
| HEB     | 349         | Israeli Wars in Israeli Movies             | From its first day, the State of Israel has been in a state of war with the Arab countries. Every few years, the fighting erupted into an open war. At the beginning of the country, there was a consensus that the wars were forced on the Israelis, and therefore, the heavy toll on human life was unavoidable. Since the Six Day War, 1967, and the political change in 1977, Israeli society is split in attitude toward war. The absolute belief in the political and military leaders was shaken, and new political agendas entered the political arena. To this divided society, the Intifadas occurred with the waves of terrorism. These events added fire to the heated debates in Israel. One means of expression is through the cinema. In this course, students watch, analyze, and discuss selected movies on the Israeli wars and terrorism in the streets of Israel. Through these movies, produced by Israelis, we'll try to understand the mood and attitude of the Israelis toward war, enemies, and political and military leaders. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences      | School of International Letters and Cultures  | 3     | HU & G          | Prerequisite(s): ENG 101, 105, or 107 with C or better; Credit is allowed for only HEB 349 or HEB 394 (Israeli Wars in Israeli Movies)   |
| HEB     | 375         | Contemporary Culture of Israel             | Intense study of aspects of historical, social, political, and cultural modern life in Israel. Beginning of Zionism to present day.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences      | School of International Letters and Cultures  | 3     | HU & G          |  |
| HEB     | 394         | Special Topics                             | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences      | School of International Letters and Cultures  | 1-4   |                 |  |
| HEB     | 411         | Judaism and the Beginnings of Christianity | Studies the beginnings of Christianity in relation to Judaism: their common context, the process of their distinction and their mutual influence. Through a historical and thematic approach, explores the parallel construction of Jewish and Christian identities. Combines readings from primary sources (Hellenistic Judaism, Qumran, New Testament, Early Christianity, Rabbinic Judaism) and up-to-date scholarly literature.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences      | School of International Letters and Cultures  | 3     |                 | Prerequisite(s): ENG 101 or 105 or 107 or 108 or HST 100 or 102 or REL 100 or SLC 142 or 202 with C or better; Credit is allowed for only HEB/JST/REL 411 or HEB 394 (Judaism and the Origins of Christianity) or HEB 494 (Judeo-Hellenistic Literature) |
| HEB     | 494         | Special Topics                             | Covers topics of immediate or special interest to a faculty member and students.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences      | School of International Letters and Cultures  | 1-4   |                 |  |
| HEB     | 499         | Individualized Instruction                 | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences      | School of International Letters and Cultures  | 1-3   |                 |  |
| HEB     | 590         | Reading and Conference                     | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | LEC               | Y               | Z1            | Liberal Arts and Sciences      | School of International Letters and Cultures  | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HEB     | 598         | Special Topics                             | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences      | School of International Letters and Cultures  | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HED     | 484         | Internship                                 | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-12  |                 |  |
| HED     | 494         | Special Topics                             | Covers topics of immediate or special interest to a faculty member and students.   | N                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Division of Teacher Preparation               | 1-4   |                 |  |
| HED     | 510         | Introduction to Higher Education           | Overview of American higher education, including philosophical, political, and social aspects.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HED     | 527         | Seminar: Student Affairs Administration    | Organizational models, administrative competencies and skills, and emerging challenges of student affairs administration.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HED     | 573         | Applied Inquiry in Higher Education        | Provides an overview of research, evaluation and assessment practices in higher education and strategies for utilizing these practices as professionals in higher education. Focuses on learning about and demystifying the process of scientific inquiry, with the intent of translating that knowledge to regular practice in a higher education professional career. It is not a highly technical methods course--no advanced knowledge of statistics or qualitative techniques is assumed--but instead gives practitioners a foundation in educational research design as well as the tools to be literate, thoughtful, critical and frequent consumers of research.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): MEd Higher and PostSecondary Education major. Credit is allowed for only HED 573 or HED 591 (Applied Inquiry)   |
| HED     | 580         | Practicum                                  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.   | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HED     | 583         | Fieldwork                                  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.   | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HED     | 584         | Internship                                 | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | PRA               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HED     | 590         | Reading and Conference                     | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HED     | 591         | Seminar                                    | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HED     | 592         | Research                                   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HED     | 593         | Applied Project                            | Preparation of a supervised applied project that is a graduation requirement in some professional majors.  | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HED     | 594         | Conference and Workshop                    | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

## ASU Course Catalog Archive - Summer 2018

| Subject | Catalog Nbr | Course Title   | Course Description  | Allow Mult Enroll | Component Primary | Crse Repeatable | Grading Basis | College                        | Department                                    | Units | General Studies | Requirements  |
|---------|-------------|--|---|-------------------|-------------------|-----------------|---------------|--------------------------------|---|-------|-----------------|---|
| HED     | 595         | Continuing Registration                                  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 598         | Special Topics   | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 599         | Thesis   | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 603         | Foundation of Data Analytics in Higher Education         | How decisions are made in higher education and how data and analytics can support university leaders.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 604         | Analytics Process and Technology in Higher Education     | Process and technology used to facilitate data-informed decision making in higher education.  | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 2     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; HED 603 |
| HED     | 605         | Data Management and Preparation for Higher Ed Analytics  | Data preparation and management for data-informed decision making in higher education institutions.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; HED 603 |
| HED     | 606         | Advanced Analytic Methods for Higher Education           | Advanced analytic methods, including data mining, in support of data-informed decision making in higher education institutions.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; HED 603 |
| HED     | 607         | Visualization and Presentation for Higher Education      | Principles of effective presentation and visualization of data for exploratory, predictive and persuasive purposes.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 608         | Trends in Advanced Analytic Methods for Higher Education | Emerging advanced analytic method in use within higher education.   | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 620         | Diversity in Higher Education                            | Overview of the demographic profile of college students, faculty, and staff. Addresses issues of access, retention, and development.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 634         | The American Community College                           | Philosophy, history, curriculum, faculty, students, organization, financing, research, policy and current issues.   | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 644         | Higher Education Finance and Budgeting                   | Financial planning and budgeting in higher education institutions. Issues related to financing public and private colleges and universities.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 649         | Law of Higher Education                                  | Analyzes legal issues related to higher education; examines key court decisions.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 679         | The American College Student                             | Overview of American college student from demographic, background characteristics, and values/attitudes/perspectives. Includes access, persistence, and degree completion.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 683         | Fieldwork  | Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 684         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 688         | Organizational Theory                                    | Major views of organizations and their influence on role definition and participant behaviors in educational organization.  | N                 | SEM               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 689         | Leadership in Higher Education                           | Theory and practice of leadership and administration in higher education institutions.  | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 690         | Reading and Conference                                   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 691         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 692         | Research   | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 693         | Applied Project  | Preparation of a supervised applied project that is a graduation requirement in some professional majors.   | Y                 | LEC               | Y               | Z1            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 695         | Continuing Registration                                  | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 701         | Higher Education Doctoral Proseminar                     | Students read and discuss recent writings on the sociology of higher education and explore research interests as well as identities as educational researchers. Visits to several types of higher education institutions in the state of Arizona to meet various program faculty who introduce their interests as researchers and practitioners. Learn better understanding of the challenges and promise of higher education as an academic field and of themselves as researchers and practitioners. Time also spent discussing the dissertation and the writing process. | N                 | LEC               | N               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 3     |                 | Pre-requisite: Higher and Postsecondary Education Doctoral student      |
| HED     | 780         | Practicum  | Structured practical experience in a professional program, supervised by a practitioner and/or faculty member with whom the student works closely.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 784         | Internship   | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 790         | Reading and Conference                                   | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | IND               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |
| HED     | 791         | Seminar  | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student          |

| HPS     | 484         | Internship                  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 |   |
| HPS     | 492         | Honors Directed Study       | Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.   | N                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Life Sciences | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| HPS     | 493         | Honors Thesis               | Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.   | N                 | RSC               | N               | Z1            | Liberal Arts and Sciences | School of Life Sciences | 1-6   | L               | Prerequisite(s): Barrett Honors student   |
| HPS     | 494         | Special Topics              | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 1-4   |                 |   |
| HPS     | 495         | Undergraduate Research      | Supervised research in biology/microbiology/molecular biosciences and biotechnology/or plant biology.   | Y                 | RSC               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 1-3   |                 | Pre-requisite: Junior or senior standing  |
| HPS     | 496         | Undergraduate Thesis        | Guided research culminating in the preparation of an undergraduate thesis based on supervised research done in this and previous semesters.   | N                 | RSC               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Prerequisite(s): junior or senior standing; Credit is allowed for only BIO 496 or HPS 496 or MBB 496 or MIC 496           |
| HPS     | 497         | Honors Colloquium           | A class emphasizing discussion, written and/or oral presentation by students, and active participation.   | N                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 1-6   |                 | Prerequisite(s): Barrett Honors student   |
| HPS     | 498         | Pro-Seminar                 | Small-group study and research for advanced students within their majors. Major status in the department or instructor approval is required.  | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 1-7   |                 |   |
| HPS     | 499         | Individualized Instruction  | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. | Y                 | IND               | Y               | Z1            | Liberal Arts and Sciences | School of Life Sciences | 1-3   |                 |   |
| HPS     | 511         | History of Science          | Teaches crucial skills needed for graduate-level research in history of science, including (1) critical analysis of primary sources from different periods in the history of science and (2) critical analysis and familiarity with important trends in the secondary literature ("historiography of science").   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HPS     | 512         | Philosophy of Science       | Serves as a graduate-level introduction to five central themes in philosophy of science, and as a means to begin to investigate new topics.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HPS     | 516         | History of Biology          | Covers themes such as the voyages of discovery, systematics, and classification; morphology and embryology; Darwin and evolutionary biology; the rise of genetics; molecular and organismal approaches of post-WWII biology; recent history of biology.   | N                 | SEM               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Pre-requisite: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only BIO 518, HPS or HST 516 |
| HPS     | 520         | Masters of Nonfiction       | Students read and critically discuss works by well-known nonfiction writers to improve their own writing skills. Consists of weekly writing exercises, reviewed with workshop-style discussions centered on individual authors, themes or genres such as history, journalism, personal essays, biography, character profiles, travelogues, book reviews and op/ed commentary.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only HPS 520 or HSD 520 or HST 520  |
| HPS     | 584         | Internship                  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HPS     | 590         | Reading and Conference      | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HPS     | 591         | Seminar                     | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HPS     | 592         | Research                    | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HPS     | 595         | Continuing Registration     | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.   | Y                 | RSC               | Y               | Z3            | Liberal Arts and Sciences | School of Life Sciences | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HPS     | 598         | Special Topics              | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HPS     | 599         | Thesis                      | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.   | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HPS     | 615         | Biology and Society Lab     | This course brings together graduate students, postdocs, and faculty members in biology and society. Sessions include panel discussions of biology and society topics from multiple perspectives, student-led discussions of important literature, practice presentations of papers for national meetings, discussion of dissertation and thesis ideas, and other activities that help to forge an active intellectual lab group.   | N                 | LAB               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| HPS     | 620         | Research Prospectus Writing | Workshop-style course where students develop and peer review graduate-level project prospectuses, such as those for NSF grant proposals, journal articles, theses, and dissertations. Appropriate for graduate students in Biology and Society, History and Philosophy of Science, the life sciences, and related programs.   | N                 | SEM               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only HPS 620 or BIO 620             |
| HPS     | 784         | Internship                  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.  | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences | School of Life Sciences | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
