These emerging technologies include nanotechnologies, synthetic biology, and other technologies associated with genetic modification, and information and cognitive science and neuro-technologies.  | N                 | SEM               | N               | OPT           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only PAF 550 or HSD 503 or POS 573                       |
| HSD     | 504         | Analysis of Large-Scale Socio-Technological Systems | Provide skills and methods to analyze the design and management of large-scale socio-technological systems and the societal impacts of large-scale technological systems change. Emphasizes assessing the intertwining of lives and livelihoods in large-scale technological systems and the risks and vulnerabilities associated with large-scale systems failures, including the effects of both technological failures and natural hazards.  | N                 | SEM               | N               | OPT           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HSD     | 505         | Science and Technology Policy Workshop              | Provides the capstone experience for the Professional Science Master's in Science and Technology Policy. Builds on theoretical and analytical work carried out in the program's required courses, providing an integrative experience that requires students to synthesize knowledge gained in prior coursework and apply it to real-world policy problems and settings. By blending exposure to national science and technology policy officials and nationally recognized academic experts, the workshop both advances student learning beyond that possible in the classroom while encouraging students to expand their abilities to connect theoretical and practical insights. At the same time, the workshop provides a natural transition from the student's formal classroom learning to their required applied policy internships, which commences upon the end of the workshop.                           | N                 | SEM               | N               | YGB           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| HSD     | 515         | Science, Technology and Public Affairs              | Explores the political, economic, cultural, and moral foundations of science and technology policy and governance in democratic society.  | N                 | LEC               | N               | OPT           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only BIO 515 or GLG 547 or HSD 515 or PAF 547 or SOS 516 |

| HSD     | 517         | Uncertainty and Decision Making                   | Knowledge is always incomplete, yet decisions must be made. Explores uncertainty and its relation to decision making, with a particular focus on the ways that science and science-derived information is applied with the intent of improving decisions. Explores the many meanings and origins of uncertainty, using theoretical and case-based approaches. A central theme is the relation among uncertainty, scientific prediction, and decision making, especially in politically charged issues, for example as related to management of the environment. Ultimately understands how effective decisions can be made in the face of inevitable uncertainties and contested knowledge.  | N                 | SEM               | N               | OPT           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only ASB 517 or BIO 517 or BIO 591 (Uncertainty & Decision Making) or HSD 517 or POS 527 or SOS 518 |
| HSD     | 520         | Masters of Nonfiction                             | Students read and critically discuss works by well-known nonfiction writers to improve their own writing skills. Consists of weekly writing exercises, reviewed with workshop-style discussions centered on individual authors, themes or genres such as history, journalism, personal essays, biography, character profiles, travelogues, book reviews and op/ed commentary.  | N                 | LEC               | N               | GNA           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only HPS 520 or HSD 520 or HST 520  |
| HSD     | 540         | Responsible Innovation and Research               | Movements throughout Europe and increasingly the U.S. are beginning to consolidate the recognition of the profound effects that research outcomes have upon the world under the idea of responsible innovation and research. The responsible innovation and research pushes beyond the responsibilities of the individual researchers and addresses larger issues such as research agenda setting, management of large-scale research and innovation enterprises, funding priorities and innovation as a national policy priority. Explores the idea of innovation as a national policy; the practical and theoretical underpinnings of responsibility in the research world; the history, current state and future trajectories of responsible research and innovation. Focuses on the current literature in the field. | N                 | SEM               | N               | OPT           | Future of Innovation in Society | School for the Future of Innovation in Society | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| HSE     | 101         | Introduction to Human Systems Engineering       | Introduces basic principles, methods and theories of psychology and applications to engineering problems relevant to human systems. Gives particular attention to the intersection of psychology and engineering. Students learn brain anatomy and physiology, sensation and perception, cognition, social systems and research methods so that they are able to design systems consistent with human capabilities and limitations.  | N                 | LEC               | N               | GNA           | Ira A. Fulton Engineering       | Human Systems Engineering                      | 3     | SB              |  |
| HSE     | 223         | Applied Biology of Human Behavior               | Introduces the biological basis of human behavior and implications for human systems engineering. Structure and function of the nervous system as well as the behavioral effects of the physiological processes outside the brain (for example, hormones secreted by glands). Biological processes involved in many aspects of our behavior such as eating, sleeping, sexual behavior, emotional responses, sensory perception, learning and memory, language and cognitive functions, mental illness and drug abuses. Introduces a wide range of techniques and methods used to investigate the biological foundations of behavior. Prepares students for advanced courses in neuroscience, psychology or related fields. | N                 | LEC               | N               | GNA           | Ira A. | HSE     | 290         | Experimental Methods for Human Systems Research | Introduces the basics of research methodology as applied in human systems engineering. Quantitative and experimental design from an applied perspective. Guided study of the process of conducting research within human systems engineering. Project topics range from research question generation and literature review to reporting of results.  | N                 | LEL               | N               | GNA           | Ira A. | HSE     | 323         | Perceptual Systems                              | In-depth exploration of methods by which humans receive and interpret information from the world by vision, audition, taste, smell, touch and movement. Emphasizes the integration of behavioral and neural research with potential applications to engineering practice. Topics cover a wide range from the biological basis of sensory information processing to the behavioral aspects of perception, and to the applications of perceptual theories to disciplines like computer vision, display technologies, graphic design and sound processing. Solid foundation for further coursework and research in neuroscience or psychology; students also gain knowledge that could be useful in various professions.      | N                 | LEC               | N               | GNA           | Ira A. | HSE     | 324         | Applied Cognitive Science                       | Human cognition and how it bears on the design of technological and social systems. Although focuses on applications, requires student to delve into the basic literature that informs these applications and produce a literature review that draws on both applied and theoretical work. Many weeks involve a hands-on experience with a method or technique, and weekly quizzes emphasize critical thinking about these examples.   | N                 | LEC               | N               | GNA           | Ira A. | HSM     | 575         | Entrepreneurship, Innovation and Strategy in the Health Care Sector | Problems with health care quality, access and costs bedevil all countries. Focuses on the creation of global business innovations in health care that can better meet these needs. At its end, students should understand the opportunities for different kinds of health care innovations and how to create viable strategies and business models to meet them. Enables students to craft business models that attain alignment between an entrepreneurial health care venture and the Six Factors that shape this sector: financing, structure, public policy, consumers, technology and accountability. Covers these issues in every part of the sector, including insurance, services, IT, medical devices, biotechnology, diagnostics and pharmaceuticals. | N                 | LEC               | N               | GNA           | W.P. | HST     | 404         | Conquest and Encounters in Colonial Latin America        | How did Hernan Cortés and Francisco Pizarro defeat the Aztec and Inca Empires? Despite numeric inferiority, limited provisions, and little knowledge about the Americas, Cortés and Pizarro defeated advanced civilizations that had experienced warriors and millions of inhabitants. Possible explanations include the conquistador's valor, advanced weaponry, superior military strategy, Indian allies, and biological attacks. In their encounters with native peoples of the Americas, Europeans were not always conquerors. Alvar Núñez Cabeza de Vaca and Lope de Aguirre failed both in their attempt to conquer a large Indian civilization and in their effort to find mineral wealth. A few Europeans such as Bartolomé de Las Casas spoke out against the abuses committed against the Indians during the conquest. Explores these issues from the perspective of both Europeans and native peoples and looks at the long-term impact for Latin America and its peoples. | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies   | 3     | L & G             | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 55 hours; Credit is allowed for only HST 404 or HST 494 (Conquest & Encounters)   |

| HST     | 439         | Athenian Democracy                               | Discussion-based seminar familiarizes participants with the origins, characteristic institutions and political ideology of the Athenian democracy of the 5th and 4th centuries BCE. Engages selected topics in the study of Athenian democracy and gives participants an idea of the substance of contemporary debates within scholarship. Topics will include: The origins of the Athenian democracy; women, slaves, and other subordinate social groups within the democracy; elite critique of democratic ideology and episodes of outright civil war; leaders and masses; the role of the court system within the democracy; democracy and the Athenian empire; and violence in Athenian society. The goal of the course, in addition to a greater familiarity with the Athenian democracy, will be a research paper with a well-chosen topic and a distinctive thesis. | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies   | 3     | H                  | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 55 hours; Credit is allowed for only HST 439 or HST 494 (Athenian Democracy)  |
| HST     | 441         | Latin America and the World Economy              | Globalization did not begin in the late twentieth century, but rather global trade has linked Latin America with the rest of the world for over five hundred years. The region has been an active and important participant in the world economy since Columbus's first voyage in 1492. This course explores the social, cultural, economic, and environmental impact of such participation on both Latin America and the rest of the world. It is organized both chronologically and thematically. We will study both colonial and post-colonial trade. The commodities studied include sugar, rubber, bananas, and cocaine.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies   | 3     | L & G & H          | Prerequisite(s): ENG 102 or 105 or 108 with C or better; minimum 55 hours; Credit is allowed for only HST 441 or HST 305 (Latin America and the World Economy) or HST 494 (Latin America and the World Economy) |

| IAP     | 361         | Digital Editing and Media Literacy                          | Investigates the approaches used in digital editing with a focus on interactivity, graphics, audio, and desktop video.  | N                 | LEL               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | CS              | Pre-requisites: Interdisciplinary Arts and Performance or Applied Computing or BA Digital Culture student   |
| IAP     | 362         | Games and Narratology                                       | Focuses on design techniques for the writing of nonlinear and interactive stories in the video game development process. Compares and contrasts game writing with other creative writing such as short story, song writing, oral history, poetry, fiction and film. Examines, deconstructs and questions the game design approach commonly referred to as narratology. Inspects key texts in media and cultural studies for attitudes, ideas and thoughts on games and narrative in games. Uses materials, processes, and aesthetic concepts of level design and visual skills needed to create a video game using a game engine. Knowledge of introductory computer science recommended.                                     | N                 | LEL               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better  |

| IBC     | 560         | Strategic Business Planning and Big Data  | Provides a survey of emerging use of "big data" in health care, a term used to describe data sets that contain massive amounts of health care information that are beyond the capacity of commonly used software programs that can be analyzed for the purpose of health care analytics. Covers analytical tools that can be used to leverage health information technology (HIT) from health care systems and applies quality improvement methodologies such as Lean and Six Sigma to make strategic improvement in health care. Covers approaches to big data business intelligence and health care analytics to design, implement and evaluate sustainable health care systems that meet the "triple aim" of improved patient experience of care, improved population health, and reduced utilization and cost of care. Based on principles of value-based health care delivery in which achieving high value for patients is the overarching goal of health care delivery, defined as health outcomes achieved per dollar. | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |

| IBC     | 585         | Interprofessional Consultation, Leadership and Teamwork in Integrated Health Care | Integrates the closely related topics of consultation, leadership and teamwork in integrated health care. Integrated care settings are characterized by interprofessional teams representing diverse stakeholders such as clinical (e.g., PCP, nurse); management (CEO, CFO, Quality) and administrative. External stakeholders such as health plans, specialty care providers and community resources may also need to participate in the integrated care strategic plan. The integrated care consultant must effectively consult with and engage these stakeholders to develop integrated care teams committed to achieving the "Triple Aim" of improved patient experience of care, improved population health and decreased cost. Emphasizes consultation skills designed to engage stakeholders such as networking, marketing and negotiation. Teamwork emphasizes strategies and techniques of building effective and efficient teams across multiple systems of care.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| IBC     | 590         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | LEC               | Y               | Z1            | College of Health Solutions | College of Health Solutions | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |

| IBC     | 595         | Continuing Registration   | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded and no grade is assigned.  | Y                 | RSC               | Y               | Z3            | College of Health Solutions | College of Health Solutions | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| IBC     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | College of Health Solutions | College of Health Solutions | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| IBC     | 601         | Models of Integrated Primary Care   | Provides an overview of the primary care environment as well as current models of integrated primary behavioral health care. Reviews and critiques models of health care based on their success in impacted patient health outcomes and improving physician satisfaction, along with fiscal and care delivery systems for each.  | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |
| IBC     | 602         | Healthcare Statistics   | Provides an overview of contemporary issues in health statistics and develops student proficiency in completing hands-on statistical analyses using Microsoft Excel. Develops proficiency in using Excel to manage data analyses as an ongoing tool to collect and analyze clinical and cost-effectiveness data in primary care and related healthcare settings.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |

| IBC     | 603         | Brief Interventions in Primary Care                     | Provides an overview of evidence-based care for the integrated primary care environment. In particular, reviews and applies the most common approaches to addressing co-morbid behavioral and medical conditions, including but not limited to brief psychotherapy, adherence enhancement, lifestyle medicine, and others, using cognitive-behavioral, acceptance and commitment therapy, solution-focused, and motivational interviewing approaches.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only IBC 603 or IBC 691 (Brief Interventions in Primary Care) or IBC 702 |
| IBC     | 604         | Clinical Medicine/Pathophysiology                       | Overview of each of the main systems within the human body. Addresses the major diseases (symptoms, diagnosis, and medical treatments) within each system. Students learn appropriate medical terminology for symptoms, diseases, treatments, and medical tests so they can communicate effectively with medical practitioners (nurses and physicians). Content is equivalent to pathophysiology training in an RN program. Also addresses the role of behavioral care providers in medical settings; design and implementation of psychoeducational programs in primary care; stress management techniques for use in medical settings; chronic pain management; identification and treatment of somatization disorder; increasing compliance in noncompliant patients; alternative/complementary medicine; overview of nutrition; and the effects of exercise and nutrition on prevention and treatment of diseases.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| IBC     | 608         | Psychopharmacology for the Behavioral Care Provider     | Provides overview of psychopharmacology to equip the behavioral care provider with the understanding of psychotropic medications necessary to make prescription recommendations to primary care physicians and to participate in medication management for patients being prescribed psychotropics. Basic principles of pharmacology in general, including pharmacokinetics, pharmacodynamics, medication development and the FDA approval process, interaction effects, drug company marketing strategies, appropriate and inappropriate medication usage, over-medication, and off-label medication use. Reviews pharmacokinetics and pharmacodynamics in special populations (children, the elderly, and patients with co-morbid medical and psychological conditions).  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| IBC     | 609         | Clinical Neuropathophysiology                           | Presents overview of each of the basic neuroanatomy, neurophysiology, and a focus on the manifestations of neurophysiological dysfunction across the life span for Doctor of Behavioral Health (DBH) program behavioral clinicians. Covers the basic human brain anatomy, neurophysiological processes, development, and maturation. Using case studies, presents and discusses evidence-based support for theories of psychiatric disorders and neuropsychopathology. Incorporates evidence-based research findings on the role of genetics, neurophysiological adaptation, epidemiological and societal influences in order to develop understanding of disruptions in normal neurophysiological functioning.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| IBC     | 610         | Behavioral and Psychological Assessment in Primary Care | Presents a comprehensive model of behavioral and psychological assessment for behavioral health clinicians in primary care and related medical settings. Provides behavioral health consultants with the necessary knowledge base and skills to develop an appropriate assessment and treatment plan for a variety of commonly seen complaints in primary care. Places attention on the assessment of both psychiatric and behavioral complaints across the lifespan. Students become familiar with both structured interview and empirically support quantitative measures consistently utilized to enhance our understanding of the presenting complaint.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| IBC     | 611         | Population-Based Behavioral Health Management           | Overview epidemiology for health care followed by population-based approaches to behavioral intervention. Epidemiology includes concept of populations; descriptions and definitions of health and disease; measurement of health (measures, morbidity, mortality and health); designs for studying the health of populations and standardization of population health measures. Population-based management includes definitions of medical management; planning health care for populations and population health outcomes; quality of care and economic analysis of population-based interventions; adjunctive treatments as a core component of population-based interventions. Also, advanced application of population-based behavioral interventions with a focus on design, measures, analysis, results and discussion of current approaches. Includes predictive modeling methods for defining populations; interventions focusing on stepped-care approaches; engagement strategies, interventions, measurement, and follow-up. | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| IBC     | 612         | Introduction to Behavioral Interventions                | Provides a foundational understanding of behavioral health interventions for primary care settings for those students intending to work in administrative, management or allied health positions. Provides a theoretical basis for various psychological schools of thought, as well as an overview of the empirical evidence for those approaches. Reviews models of therapy including: psychodynamic, brief strategic, cognitive-behavioral and solution-focused. Also reviews two intervention strategies typically used in integrated settings: Acceptance and Commitment Therapy (ACT) and Motivational Interviewing (MI). Explores the ways that these approaches serve as the theoretical framework of the Biodyne model.  | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. Credit is allowed for only IBC 612 or IBC 780 (Introduction to Behavior Intervention)                  |
| IBC     | 613         | Cognitive/Affective Bases of Health                     | Provides an overview of cognitive and affective theories and their intersection with health and health behavior change among individuals and communities. Covers topics including (but not limited to): Health Belief Model, self-efficacy, attribution theory, social-cognitive theory, and the transtheoretical model of change.  | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

| IBC     | 614         | Quality and Performance Measurement, Improvement, and Incentives in Health Care | Overview of health care quality management, emerging models of health care performance measurement, and models of pay for performance incentives in health care designed to reward providers for attaining quality of care goals. Prepares behavioral clinicians to provide services that are consistent with best practices in quality management and performance measurement in health care and to provide care that is consistent with performance incentive programs that are present or on the horizon. A key characteristic of health care reform is increased focus on provider quality of care, accountability for quality via performance measurement, and aligning provider incentives to meet national and regional quality of care performance targets.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| IBC     | 615         | Innovative Technologies in Behavioral Health                                    | Provides a quick overview and answers to basic questions related to both online therapy and telemental health. Gives a downloadable audio recording (MP3) and access to the accompanying video clips that augment a rich sampling of pages extracted from our other coursework. As a composite, this experience introduces our multi-modal learning environment and, more importantly, gives an idea of the issues involved with establishing an online or otherwise remote practice.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. | IBC     | 620         | Psychosomatic Illness: Diagnosis & Treatment                                    | Teaches how to successfully diagnose and treat physical illness caused by various forms of psychosocial stress (psychophysiological disorders, PPD). Because patients are often unaware of the nature or degree of stresses that are responsible for their illness, places emphasis on learning how to detect and use clues that patients provide to develop a more complete understanding of the struggles than they are able to perceive for themselves. Focuses on selecting, assessing and treating a patient known to the student who has medically unexplained physical symptoms.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. | IBC     | 624         | Integrated Behavioral Health Care for Children and Adolescents                  | Integrates developmental psychology with pediatric psychology in order to prepare behavioral clinicians to provide screening, assessment, and intervention for children and adolescents in primary care and other medical settings. Presents an overview of developmental stages with an emphasis on critical tasks, while contrasting normal versus abnormal development. Develops societal, familial, and cultural influences.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| IBC     | 626         | Behavioral Health Management  | Presents an introduction to the roles and responsibilities of supervisor/manager in a health care organization. Provides behavioral health professionals moving into management with the necessary knowledge base and skills to be an entry-level manager and focuses on the further knowledge acquisition needed to become an experienced, effective manager and leader. In addition, discusses the larger context in which healthcare businesses operate—health care reform, regulations and technological changes. Participants take time to look at personal characteristics, interpersonal styles and presentation that affect how one is perceived and responded to in an organization. Too often we have observed individuals with high-level clinical skills moving into management without the requisite skills and understanding of issues, restricting their ability to be successful. | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only IBC 626 (or IBC 724) or IBC 780 (Behavioral Health Management)        |
| IBC     | 630         | Financial Management of Health Care   | Covers the fundamentals of health care finance with a concentration on health care system financing and the related operational management issues. Grounds clinical managers in finance principles and assists those students with understanding the financial issues currently faced by stakeholder organizations in the health care system. Focuses on the information and tools needed by managers to address financial issues and challenges as an organizational leader for integrated care.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only IBC 630 or IBC 691 (Financial Management in Healthcare)               |
| IBC     | 634         | Strategies and Techniques for Behavior Change in Primary Care                   | Examines and discusses the theoretical and applied health-related research changing nutrition, smoking and physical activity behaviors in clinical practice.  | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| IBC     | 640         | Family and Couples in Primary Care  | Explores the systemic dimensions of health care delivery that are relevant to working with families and couples in primary care. Students study models from family therapy and medical family therapy that address family dynamics associated with the management of health and illness, the progression of chronic diseases, and other medical conditions. Reviews strategies for adapting family systemic approaches to provide patient- and family-centered health care in a primary care setting.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only IBC 640 or IBC 691 (Family and Couples in Primary Care)               |
| IBC     | 650         | Veterans Health   | Provides an introduction to the military and veteran culture and the integrated health care needs and management concerns related to this unique population.  | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only IBC 650 or IBC 691 (Veterans)   |
| IBC     | 660         | Healthcare Legal, Ethical, and Professional Issues                              | Integrate three key areas of healthcare ethics, law, and professional issues for the Doctor of Behavioral Health (DBH) clinician in primary care: (1) the code of ethics for psychologists; (2) legal and ethical issues in medicine; and (3) technological issues and the behavioral health provider.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| IBC     | 670         | Integrated Behavioral Health Interventions for Substance Use Disorders          | Focuses on the theoretical foundations, research and strategies for identifying, intervening and/or referring patients in primary care and other healthcare settings that present with substance use disorders or problem use. Provides detailed information about the clinical model of SBIRT (Screening, Brief Intervention, and Referral to Treatment), along with strategies for implementing sustainable business models for SBIRT in healthcare environments.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. | IBC     | 704         | Psychopathology & Personality in Integrated Primary Care  | Covers the basic principles of the Biodyne Model, which are applicable to all behavioral health cases, both in outpatient mental health settings and in integrated care settings. Core knowledge forms the basis for success as a behavioral care provider in integrated medical settings. Includes common psychotherapist mistakes, evidence-based treatment, basics of the Biodyne Model, survey of integrated care approaches, defense mechanisms, case conceptualization strategies for maximum efficiency, and when to refer a patient for specialty care. Presents in detail common conditions (anxiety and depression), with a focus on how these conditions can be subcategorized for maximum treatment efficiency. Emphasizes the development of comprehensive treatment plans (including psychotropic medications, group programs, and other modalities). Presents didactic material in the context of actual cases. Strong focus on case examples, both illustrative cases provided by the instructor and the students' cases (past and/or current). | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| IBC     | 708         | Evidence-Based Behavioral Intervention III  | Covers advanced principles of evidence-based integrated behavioral care in primary care and other medical settings. Continuation and third course in the Evidence Based Behavioral Intervention I and II sequence. Further develops evidence-based approaches in the assessment and treatment of children and families and deepens and expands the skills in specific applications of assessment and treatment modalities for adults.   | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| IBC     | 716         | Health Care Information Management  | Provides a comprehensive overview of health care information technology (HIT), including the effects of the external environment and government policies on its evolution; the expanded role of the CIO; the basics of hardware, software and communication systems; the types of operational, management and clinical applications; and the value HIT brings to the enterprise. Included concepts reflect a broad vision of HIT management as a combination of technology, information and manpower leadership.  | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only IBC 716 or IBC 691 (Healthcare Information Management)           |
| IBC     | 718         | Healthcare Systems: Organization, Delivery and Economics  | Provides an overview of the U.S. healthcare system with a focus on economics and policy. Primary goals of the course are to enable students to recognize the relevance of economics to healthcare and to apply economic principles to better understand health-related issues; understand the U.S. healthcare delivery system in the context of social, policy, and economic factors; evaluate the evolving nature of healthcare reform initiatives and their implications for clinical practice, financing, research and policy; analyze public healthcare policy from an economic perspective. Students also focus on behavioral healthcare economics and policy and the economics of behavioral health services in medical settings. Students also understand the medical cost offset effect, including economic benefits of behavioral interventions for co-morbid medical and behavioral conditions, measurement of medical cost-offset, and cost-offset for psychopharmacology and specific behavioral conditions.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| IBC     | 720         | Behavioral Health Entrepreneurship  | Provides an introduction to the essential entrepreneurship skills for the behavioral healthcare clinician. Focuses on entrepreneurial skills designed to prepare the behavioral clinician to start a new business venture or revitalize an existing organization or business, to meet the needs of the evolving healthcare system and marketplace.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| IBC     | 725         | Effective Consultation in Integrated Health Care  | Prepares students to function as effective consultants in integrated care settings. Effective consultation includes the ability to engage, educate, inform, persuade and collaborate with diverse professionals both within the clinic or hospital setting but also in related systems of care. The hospital or clinic setting includes care providers such as PCPs, nurse, allied health administrative support staff, and managers and executives such as medical director, CEO and CFO. The hospital or clinic also includes related departments such as quality improvement, electronic health records/health information technology, billing, finance and actuary. Systems of care include the patient/family, community, health plans, disease prevention or management companies, specialty mental health and substance use disorder providers, community-based resources, large employer group and related EAP providers.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only IBC 725 or IBC 691 (Effective Consultation in Behavioral Health) |
| IBC     | 728         | Cultural Diversity, Health and Illness  | Focuses on the relationship among cultural diversity, health and illness, and multicultural psychotherapy in primary care and other healthcare settings. Prepares behavioral clinicians to identify the relationship between cultural diversity and health and illness and to use effective psychotherapy informed by cultural diversity in primary care and related medical settings.  | N                 | LEC               | N               | OPT           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| IBC     | 732         | Leadership in Health Care   | Leadership, management and organizational behavior in health care settings. Organizational behavior theories and concepts related to leadership. Uniqueness of structures, processes and interactions in integrated care programs and how to adapt these to medical settings. Communication skills, teamwork and collaboration. Current challenges to leadership in health care reform.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only IBC 732 or IBC 691 (Leadership in Healthcare)                    |
| IBC     | 740         | Integrated Behavioral Interventions, Cost Savings, Medical Cost Offset and Return on Investment | Research has demonstrated that many integrated behavioral interventions designed to prevent or improve chronic disease outcomes result in cost savings by reducing overuse of health services and associated costs. Reviews research on conditions such as depression and anxiety co-morbid with chronic disease, somatizers, cardiovascular risk factors underlying chronic disease, substance use disorder, pain and opioid misuse, cigarette smoking and insomnia that show evidence for cost savings. The interventions are typically delivered in integrated settings such as primary care and based on the population health management model. Interventions include therapeutic lifestyle change, medication adherence, cognitive behavioral treatment and emerging eHealth and mHealth interventions.   | N                 | LEC               | N               | GNA           | College of Health Solutions | College of Health Solutions | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| IFT     | 458         | Middleware Programming and Database Security            | Covers the main concepts of middleware technologies. Includes the various methodologies used to integrate applications, databases and Web services. Students develop multilevel applications using programming/scripting languages (such as PHP, Java, Python, Perl) which access data stored in a database. Middleware programs typically control database access and protect database SQL programs from security breaches. Students access the data from applications and other Web technologies such as XML, as well as protecting the data from unauthorized access. | N                 | LEL               | N               | GNA           | Ira A. | IFT     | 510         | Principles of Computer and Information Technology                 | Comprehensive introduction to computer and information technology (IT). Provides a detailed understanding of computer architecture, system software and important related issues in an IT context. Forms a technical foundation for understanding current technologies and how they work. Topics include principles of systems' physical architecture, operating systems and application software, storage and systems management as well as current developments in cloud computing, green IT, social networking systems, and Internet search.  | N                 | LEC               | N               | GNA           | Ira A. | IFT     | 520         | Principles of Telecommunication Technology                        | Basic communication technology concepts from an information technology perspective. Addresses signals, spectra and bandwidth; attenuation, distortion and noise; filtering, equalizing, modulation and multiplexing; information measurement, source and channel coding, channel capacity, baseband data transmission, digital modulation and spread-spectrum systems; local area networks and architecture and performance; layered network architecture, protocols, switching techniques, TCP/IP, traffic engineering and basic capacity analysis. Focuses not on detailed component design but on understanding the interrelationships of these concepts and telecommunication systems to support broad system design and management. | N                 | LEC               | N               | GNA           | Ira A. | IFT     | 530         | Information Analysis, Modeling, Representation, and Communication | Teaches proven techniques for modeling information requirements and organizational data resources with a strong focus on gleaning information from data. Students learn how to discover and document database requirements, functional system requirements, and user interface requirements at a level appropriate for advanced information technology practitioner. Covers techniques including entity-relationship modeling for data analysis, functional dependency and normalization for the logical design of the database, Structured Query Language (SQL) for data management, and use cases for learning the process of requirement specification.   | N                 | LEC               | N               | GNA           | Ira A. | IFT     | 545         | Advanced Security Analysis  | Advanced inspection of concepts and exercises related to security analysis. Expands analysis techniques to include wireless protocols, interception techniques, man-in-the-middle attacks, forgeries, cloned and replay attacks, cyber warfare, data corruption, data leakage and peer-to-peer networks. Through a variety of exercises, students work with tools and technologies available on the commercial market. The teaching environment is designed to impart the skills required by a corporate security professional.  | N                 | LEL               | N               | GNA           | Ira A. | IND     | 521         | Advanced Industrial Design Studio I         | Design language, motivation and inspiration, form exploration sketching, rough form study mock-ups, form development, and presentation. Product redesign. Students create new design language proposals for an existing product and redesign the product based on one of these languages. Provides instruction and opportunities to understand product design language and how to redesign existing products with different design guidelines. Results include evidence of concept development (sketches, drawings, models); functional development; human factors and ergonomic considerations; materials and process specifications; sustainability recommendations; and appearance visual materials and models (virtual and physical). Project-based course includes readings, presentations, critical analysis, discussion and the public exhibition and presentation of design work. | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | The Design School | 5     |                 | Prerequisite(s): Master of Industrial Design major. | IND     | 621         | Advanced Industrial Design Studio III                                   | Structured around the Design School traveling-studio model, this studio challenges students to identify new design concepts that improve society and the natural environment while also delighting users and creating value for business. For approximately one week, students travel to an off-campus location to examine a local condition there for which new design solutions are needed. Students return to ASU and continue working on the project for the semester. Project-based course includes readings, presentations, critical analysis, discussion and the public exhibition and presentation of design work.  | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | The Design School | 5     |                 | Prerequisite(s): IND 522  |
| IND     | 622         | Advanced Industrial Design Studio IV                                    | Challenges students to create new design concepts that improve society and the natural environment while also delighting users and creating value for business. Requires some independent direction by the student; however, instructor assigns deadlines and expectations for deliverables, and requires cooperation and collaboration among students. Project-based course includes readings, presentations, critical analysis, discussion and the public exhibition and presentation of design work.   | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | The Design School | 5     |                 | Prerequisite(s): IND 621  |
| IND     | 690         | Reading and Conference  | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.   | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| IND     | 691         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.   | Y                 | LEC               | Y               | OPT           | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| IND     | 692         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.  | Y                 | LEC               | Y               | Z1            | Herberger Inst Design & Arts | The Design School | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |
| INT     | 111         | Interior Design Issues and Theories                                     | Interiors issues, theories, and philosophies. Emphasizes unique social and cultural factors that shape 20th-century design concepts.  | N                 | LEC               | N               | OPT           | Herberger Inst Design & Arts | The Design School | 3     | HU              |   |

| JST     | 491         | History of Antisemitism                     | Antisemitism means hostility, negative perceptions and persecution of Jews. Examines the evolution of antisemitism in the West from antiquity to modern times. Explains the history of antisemitism by looking at the interplay of religious, economic, cultural and political factors. Gives special attention to the origins of Christianity, the place of Judaism in Christian self-understanding, the power struggle between popes and emperors during the Middle Ages, the involvement of Jews in money lending, the alliance between the Jews and the secular princes, the rise of modern nationalism, and the place of racism in the politics of modern nation states. With a better understanding of the history of antisemitism, ponders the differences and similarities between premodern anti-Judaism and modern antisemitism. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Historical, Philosophical & Religious Studies, Sch | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 30 hours   |

Each unit is studied through specific readings, film, lectures, and discussion.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Historical, Philosophical & Religious Studies, Sch | 3     |                 | Prerequisite(s): ENG 102, 105 or 108 with C or better; JST 210, 230 with C or better or REL 210 with C or better; Minimum 87 hours |
| JST     | 496         | Biblical Narratives: Literary Approaches    | Presents different trends in synchronic approaches applied to the Bible such as narrative criticism, semiotics, reader-response criticism, and situates them both in the postmodern cultural context and in the history of biblical exegesis. Explores various literary devices in biblical narratives, such as repetition, type-scenes, characterization, the change of points of view, the use of metaphors. Studies each technique on particular biblical texts, literally translated into English, with a special emphasis on how these techniques guide the interpretation and create meaning. Questions the significance of literary approaches for religious or ideological texts, such as the Hebrew Bible. Also considers criticisms raised against these approaches, assesses their limits, and envisions their future.          | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | Historical, Philosophical & Religious Studies, Sch | 3     |                 | Prerequisite(s): ENG 102, 105 or 108 with C or better; JST 210, 230 with C or better or REL 210 with C or better; Minimum 87 hours |

Focuses on how and why the "political" is felt so very personally in everyday life in Israel and Palestine.   | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 36 hours  |
| JUS     | 456         | Human Rights and Sustainability                                   | Addresses the connections between human rights and environmental sustainability. Legal and scholarly approaches linking these areas present new perspectives for addressing some of the greatest challenges of our time, given the important resource dimensions of economic and social rights and the human dimensions of sustainability. Yet human rights demands and environmental concerns are not always in harmony. Explores these tensions and opportunities by examining three substantive areas: urban ecology and human rights, the human right to food, and the human rights implications of extractive industries such as oil and mining. Following an introduction to the key concepts of human rights and sustainability, explores the substantive areas through theoretical and empirical readings on each; grassroots accounts of struggles over environment-related human rights; and selections from literature and film that illustrate the environmental justice issues at stake. | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Social Transformation | 3     | (L or SB) & G   | Prerequisite(s): ENG 102 or 105 or 108 with C or better; minimum 36 hours. | JUS     | 468         | Protest, Justice, Law and the Media                               | Examines research on protests, political deviance, trials/law and justice, and critiques some of the media representations of related ideas. Investigates global social movements, political protests and nascent political trials. Analyzes varied justifications for defining action as diversity, deviance or crime and the reasons for using criminal, civil or alternative (positive) sanctions (especially via indigenous peoples). Explores the encompassing meaning of a political trial. Many people throughout the world find everyday life to be a trial, especially those placed on the margins of globalization. Expands the research on media and trials that usually have been examined narrowly by legal institutions in North America and reinforced by hegemony.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Social Transformation | 3     | SB              | Prerequisite(s): ENG 102, 105, or 108 with C or better; minimum 36 hours; Credit is allowed for only JUS 468 or JUS 494 (Protest, Justice and the Media)  |

| JUS     | 656         | Human Rights and Sustainability                           | Addresses the connections between human rights and environmental sustainability. Legal and scholarly approaches linking these areas present new perspectives for addressing some of the greatest challenges of our time, given the important resource dimensions of economic and social rights and the human dimensions of sustainability. Yet human rights demands and environmental concerns are not always in harmony. Explores these tensions and opportunities by examining three substantive areas: urban ecology and human rights, the human right to food, and the human rights implications of extractive industries such as oil and mining. Following an introduction to the key concepts of human rights and sustainability, explores the substantive areas through theoretical and empirical readings on each; grassroots accounts of struggles over environment-related human rights; and selections from literature and film that illustrate the environmental justice issues at stake. | N                 | SEM               | N               | GNA           | Liberal Arts and Sciences   | School of Social Transformation          | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate. | KIN     | 537         | Comparative Biomechanics and Motor Control       | Guides students to critically evaluate how the physical and mechanical properties of organisms and their environment affect biological tissues, structures, and motor control.   | N                 | LEC               | N               | OPT           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Credit is allowed for only BIO 537 or KIN 437 or KIN 537 or KIN 494 (Comparative Biomechanics and Motor Control) or KIN 598 (Comparative Biomechanics and Motor Control) |
| KIN     | 540         | Advanced Biomechanics of Human Motion            | Describes human movement using biomechanical principles. Uses and combines prerequisite knowledge describing the structure and function of the musculoskeletal system to solve kinematic and kinetic problems in both static and dynamic conditions.   | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): KIN 512   |
| KIN     | 545         | Movement Assessment and Evaluation               | Students perform different laboratory and clinical techniques to analyze human movement for biomechanical applications. Delivered as two components: lecture and laboratory. The lecture component serves to discuss the theory behind quantitative analysis techniques, proper equipment usage, data processing techniques and the connection to biomechanical principles. During the laboratory component students gain hands-on experience with the equipment by performing assigned experiments and clinical assessments. Follows with practice in analyzing, reporting, interpreting and presenting data. Additionally, students make recommendations and assign exercises to correct impaired movement when appropriate. | N                 | LEC               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): KIN 515   |
| KIN     | 547         | ECG Interpretation                               | Comprehensive investigation of the heart rhythm disturbances that occur within the chambers and conducting tissue of the heart. Partitioned into three sections allowing the systematic review of arrhythmias that occur in the atria, AV junction and ventricles of the heart. The material is designed to maximize understanding by analyzing electrocardiogram rhythm strips to reinforce applying the theoretical component of the course. Also uses the application of these theories through laboratory experiences allowing hands-on experience with electrode placement and 12 lead ECG interpretations.   | N                 | LEL               | N               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): Clinical Exercise Physiology MS or Exercise and Wellness MS student; Credit is allowed for only KIN 447 or KIN 547 or KIN 598 (ECG Interpretation)      |
| KIN     | 550         | Clinical Applications in Biomechanics            | Hands-on experience utilizing clinical techniques and equipment to analyze human movement for biomechanical applications. Uses the student biomechanics laboratory as a simulated clinic environment where volunteers may participate as clients for students to gain experience with clinically relevant biomechanical assessments. Additionally, requires students to showcase successful interpersonal skills to be able to work with a variety of individuals (clients, peers and supervisors) and show an ability to think critically and pay attention to details.   | N                 | LAB               | Y               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): KIN 515; KIN 540; KIN 545   |
| KIN     | 552         | Applied Research Methods in Biomechanics         | Develops research skills and gains further experience working in a biomechanics research environment. Assigns a variety of projects to facilitate the student's skill development for biomechanics research such as utilizing modeling applications with related computer processes, inverse kinematics calculations and motion tracking techniques.   | N                 | LEC               | Y               | GNA           | College of Health Solutions | School of Nutrition and Health Promotion | 3     |                 | Prerequisite(s): EXW 500; EXW 501; KIN 540; KIN 545  |

| KOR     | 401         | Advanced Korean                     | Offers students the opportunity to acquire advanced levels of vocabulary, reading proficiency and writing ability for an academic or professional purpose. Also helps students prepare for the TOPIK (Test of Proficiency in Korean). Course materials, ranging from literary works, scholarly articles, journalistic pieces, TV news clips, film scripts and other expository writings, encompass a variety of topics relevant to understanding Korean society and culture. Requires students to master a certain number of basic Sino-Korean characters and to use them in their essays. Throughout the course, students build vocabulary and reading proficiency toward the level expected at college in Korea. All discussions are held in Korean. Students can take this course in conjunction with other Korean three-hundred level language courses upon instructor approval. | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences   | School of International Letters and Cultures | 3     |                 | Prerequisite(s): KOR 314 with C or better; Credit is allowed for only KOR 401 or KOR 494 (Korean for Professional Purposes I)  |
| KOR     | 457         | Premodern Korea in a Global Context | Offers a comprehensive outline of the literary and cultural traditions of premodern Korea from historical and crosscultural perspectives. Targets both undergraduate and graduate students. Gives students an opportunity to read a variety of texts ranging from literary works, historical, philosophical and religious documents, diaries and travelogues, to important recent scholarly works in the field. Identifies representative literary works and terms. Discusses important topics and issues on premodern Korean literature and the cultural exchange between Korea and Japan, and Korea and China, bringing to bear students' own thoughts and ideas which are articulated in their final research papers. | LAS     | 340         | Latin American Women Writers  | In the 20th and 21st centuries, Latin America has seen a proliferation of literature published by women authors. While this explosion of the written word owes in part to changing socioeconomic factors and the opening of the international markets, Latin American women's literary history is often ignored in the canon. Examines the concepts of feminism through a Mexican framework, starting from the point of view of Mexican women theorizing about their own. This is not a history of feminism, but it does aim to highlight certain fundamental texts and key concepts of Mexico's history from the position of women writers, including feminism's critique of social structures beyond the bounds of gender relations. | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     |                 | Prerequisite(s): ENG 102, 105, or 108 with C or better; Credit is allowed for only LAS 340 or WST 341   |
| LAS     | 350         | The Construction of a Nation: Chile in the 20th/21st Century                          | Examines Chilean history, politics and cultural production through its historical development and explores a multiplicity of cultural issues. Develops knowledge and appreciation of cultural and visual production of Chile and Latin America as well as acquired skills for critically analyzing texts in their applicability to modern-day society. Considers the variety of cultural and artistic productions (novel, poetry, short story, film, music, pop culture, presidential speeches) as sources of social commentary in which observations of national identities are constructed.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     |                 | Prerequisite(s): ENG 102 (or ENG 105 or 108) with C or better; Credit is allowed for only LAS 350, ENG 494 (Construction/Nation:Chile in the 20th/21st Cen) or SPA 494 (Construction/Nation:Chile in the 20th/21st Cen) |

| LAW     | 105         | The Structure and Methodology of the American Legal System | What is law? What is the structure of the American legal system? What does it mean to understand law in the context of that system? How is this system effective and problematic and how does its evolution over time change our perceptions of and relationships with those who are part of it? Provides answers to these and other questions while simultaneously developing a working understanding of American law, its practicalities, and externalities. Takes the form of a comprehensive inquiry into the legal system, its origins, structures, applications, success, failure, and decision-making processes. In asking probing questions about the system and its nature, explores the values and philosophies that inform our American conception of the law and its role in society. | N                 | LEC               | N               | OPT           | College of Law | College of Law Dean's Office       | 3     |                 |   |

| LAW     | 662         | Alternative Dispute Resolution and Employment Law | The use of alternative dispute resolution has been most extensive in the area of employment law. Mediation and arbitration are widely used not only in the collective bargaining setting, but also in virtually every aspect of the employment relationship. Offers a comprehensive review of the subject with special emphasis on the extensive body of law that has developed in regulating employer-imposed arbitration. Discussion of mediation includes use of simulations to enable the students to understand how mediation can effectively resolve employment disputes. Opportunities to observe real mediations of employment disputes. Experienced attorneys discuss the "real world" use of employment ADR from a plaintiff's and a defendant's perspective. | N                 | LEC               | N               | OP6           | College of Law | Sandra Day O'Connor College of Law | 2-3   |                 |   |

| LAW     | 737         | Cults and Alternative Religions     | Provides opportunity to study laws and policies governing cults. While the definition of a "cult" will be a topic of initial study in the seminar, it may be conceived of loosely as a group with a charismatic leader whose members are persuaded to relinquish their self-identities and material possessions in furtherance of the group's goals. In addition to analyzing the definition of a cult, the first part of the seminar discusses the various types of cults, studying particular cults, and learning about cultic activities. The remainder covers domestic and foreign legal and policy issues generated by cults, including the legal rights of cultic organizations, anti-cult organizations, cult members, and cult members' families. Covers conventional religions that are conceptually similar to cults, to the degree that religious movements fall outside the mainstream. | N                 | LEC               | N               | OP6           | College of Law | Sandra Day O'Connor College of Law | 2-4   |                 |  |

| LDE     | 621         | Advanced Landscape Architectural Studio III    | Structured around the Design School's "traveling studio" model and provides an opportunity for graduate-level students to refine their talents while also contributing to a better future. Challenges students to work in a multidisciplinary environment to identify new design concepts that improve society and the natural environment. For approximately one week during the semester, students travel to an off-campus location (either in the U.S. or abroad) to examine a local condition there for which new design solutions are needed. Students return to ASU and continue working on the project for the semester. Studio-based course includes reading, presentations by faculty and students, discussion, design research, conceptual design practice, and the public exhibition/presentation of this work in multiple formats. | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts | The Design School | 5     |                 | Prerequisite(s): LDE 522 with C or better; Credit is allowed for only LDE 621 or LDE 690 (Advanced Landscape Architecture Studio III)   |

| LDE     | 622         | Advanced Landscape Architectural Studio IV                  | Capstone course. Students complete a design project that demonstrates mastery of landscape architecture skills and knowledge. Requires some independent direction. The instructor determines deadlines and expectations for deliverables. Requires cooperation and collaboration between students. Design performance is the themed topic and focus. Students develop a complex design project that addresses a significant professional issue. The project explores and demonstrates how advanced design resolves that issue in a performative manner using evidence-based practices and performance-based metrics. Studio-based course includes reading, presentations by faculty and students, discussion, design research, conceptual design practice, and the public exhibition/presentation of this work in multiple formats. | N                 | STO               | N               | GNA           | Herberger Inst Design & Arts  | The Design School                             | 5     |                 | Prerequisite(s): LDE 621 with C or better; Credit is allowed for only LDE 622 or LDE 593 (Advanced Landscape Architectural Studio IV)  |

Integrates psychological with evolutionary, physiological and neuroscientific approaches.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): PSY 101 (PGS 101) with C or better; one semester of biology; Credit is allowed for only LSC 369 or PSY 369 or PTX 369   |
| LSC     | 380         | Analysis of Nonhuman Forensic DNA Evidence     | Nonhuman biological materials are so pervasive in the environment that they often contaminate victims, perpetrators and crime scenes by means of direct deposit or secondary transfer. As the reliability, sensitivity and specificity of animal, plant and microbial DNA assays improve with the advent of new technologies, the potential probative value of DNA information from nonhuman biomaterials also increases, especially for establishing or refuting alibis, determining the chronology of a criminal event and for crime scene reconstruction.      | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Pre- or corequisite(s): LSC 347; Credit is allowed for only FOR 380 or LSC 380   |
| LSC     | 388         | Research Fundamentals for the Natural Sciences | Teaches research skills in the natural sciences. Topics covered include the basic research techniques of the study organism and system, experimental design, literature searches, statistical analysis and preparation of scientific papers and posters.  | N                 | LEL               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     | L               | Prerequisite(s): BIO 181; BIO 182 OR ACO 320 OR MAT 272; Credit is allowed for only LSC 388 or LSC 498 (Research Fundamentals for the Natural Sciences) or ENV 388 or FOR 388 or PLB 388 or PTX        |
| LSC     | 394         | Special Topics                                 | Covers topics of immediate or special interest to a faculty member and students.  | Y                 | LEC               | Y               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1-4   |                 |  |
| LSC     | 425         | Analytical Chemistry for Life Sciences         | Presents an analysis of chemicals, including the theoretical and practical considerations regarding the separation, detection and quantitative determination of chemicals. Illustrates the application of different analytical procedures using some of the common chemicals of concern in the forensics and environmental fields.  | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): CHM 234 with C or better; CHM 238 with C or better; Credit is allowed for only FOR 425 or LSC 425   |
| LSC     | 426         | Analytical Chemistry for Life Sciences Lab     | Provides hands-on experience with sample extraction, sample clean-up, and instrumental analysis of common chemicals. Largely focuses on the application of analytical chemistry methods to the fields of forensics and the life sciences. Mainly uses the solvent and solid-phase analyte extraction methods; gas chromatography-mass spectrometry, FTIR and NMR, generally determines analyte identification.  | N                 | LAB               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 2     |                 | Prerequisite(s): CHM 234 with C or better; CHM 238 with C or better; Corequisite(s): FOR 425 or LSC 425; Credit is allowed for only FOR 426 or LSC 426   |
| LSC     | 430         | Environmental and Human Toxicology             | Lecture/fieldwork course investigating toxic substances in the environment and their effect on the health of organisms, including humans.   | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 4     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 with C or better; CHM 116 with C or better  |
| LSC     | 432         | Fundamentals of Pharmacology                   | Aspects of pharmacology using an integrated approach to familiarize students with natural and synthetic therapeutic agents used in medicine.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): BIO 340 or LSC 347; BIO 353; CHM 231 or 234; Credit is allowed for only LSC 432 or PTX 432  |
| LSC     | 434         | Marine Ecology                                 | Examines ecological processes in oceans, seas, and estuaries that emphasizes species- and community-level phenomena.  | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): BIO 181 with C or better; BIO 182 with C or better; LSC 320 or BIO 320 with C or better   |
| LSC     | 447         | Molecular Genetics Laboratory                  | Investigative lab involving DNA isolation, PCR, gel electrophoresis, enzyme digestion and ligation, transformation, and hybridization analysis.   | N                 | LAB               | N               | OPT           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 1     |                 | Prerequisite(s): minimum 45 hours; Credit is allowed for only FOR 447 or LSC 447   |
| LSC     | 475         | Principles of Toxicology                       | Presents the fundamental principles of toxicology and its application to both human and environmental situations. Starts with the means of defining and quantifying toxic effects through dose response curves (e.g. LD50, EC50, LOEL, NOEL). Then focuses on absorption pathways for toxicants as well as the degradation metabolism pathways for toxicants. Finally focuses on the mechanism of toxic action for common poisons and environmental pollutants. Emphasizes toxicants that students are likely to encounter in forensics and environmental fields. | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Mathematical and Natural Sciences | 3     |                 | Prerequisite(s): BCH 361 or BCH 371 or LSC 394 (Modern Concepts in Biochemistry) with C or better; BIO 353 with C or better; Credit is allowed for only FOR 475 or LSC 475 or PTX 475                  |

| LSC     | 499         | Individualized Instruction                             | Provides an opportunity for original study or investigation in the major or field of specialization on an individual and more autonomous basis. Neither a substitute for a catalog course nor a means of taking a catalog course on an individual basis. Requires application well in advance of regular registration with the student's advisor, the advisor's signature, and approval by both the instructor with whom the student will work and the chair of the department offering the course. This course may be taken only by outstanding senior students who have completed at least one semester in residence and who have a cumulative GPA of 3.00 or higher in the major or field of specialization. A special class fee may be required. | Y                 | IND               | Y               | YGB           | New Interdis Arts & Sciences   | School of Mathematical and Natural Sciences   | 1-3   |                 |   |

| MAS     | 550         | Philosophical and Spiritual Issues in Death and Dying | From Plato to Maimonides to Heidegger to Kubler-Ross, scholars, clinicians, and spiritual writers have recognized that attitudes about death and dying contribute to understandings of human existence. Recalling the ancient Socratic, biblical, and other spiritual traditions of the cura animarum (care for and cure of the soul) and joining contemporary post/secular conversations relevant to integration of body-mind-spirit, this course introduces basic concepts and practices of care ethics and spirituality. Focuses on relations among existential (ontological), therapeutic (psychosomatic), and spiritual (religious) dimensions of care. Theoretically, the course is inter-faith in approach, holistic in scope, and specialized in content. Practically, students examine real-life issues in care ethics and spirituality from multiple perspectives | N                 | SEM               | N               | OPT           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences    | 3-9   |                 | Prerequisite: Graduate (degree or nondegree) student; Credit is allowed for only MAS, PHI 550 or REL 585  |
| MAS     | 573         | Art and Politics                                      | Explores issues and relationships between the arts and politics through historical examples, significant artists and works, key thinkers, and theoretical approaches. Considers topics such as: the arts and ideology, art and the politics of representation, propaganda, censorship, state-supported art, human rights, revolution and war, cultural change, and political aesthetics. Emphasizes interdisciplinary arts and period study, including the arts and The Russian Revolution, the art in the Weimar Republic and Nazi Germany, and, generally, the arts, art and social movements (e.g., U.S. Civil Rights era, Eastern Europe's solidarity movement and Velvet Revolutions), as well as the arts and politics in selected contemporary contexts (e.g., China, the Middle East).  | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | Dean, New Interdisciplinary Arts and Sciences    | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student  |

| MAT     | 171         | Precalculus: Science, Technology, Engineering and Mathematics (STEM) | Robust treatment of advanced algebraic skills and trigonometry that are vital in calculus. Algebra topics include functions, compositions, inverses, transformations, complex numbers, roots of polynomial functions, rational functions, exponential and logarithmic functions and their properties. Trigonometry is approached via the unit circle as well as the right triangle. Topics include the trigonometric functions, their graphs and identities, inverse trigonometry, the laws of sine and cosine, vectors and the dot product with an application toward work, and polar coordinates and roots of complex numbers (deMoivre's theorem).  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 4     | MA              | Prerequisite(s): MAT 117 with C or better, or Mathematics Placement Test with a score of 50% or higher, or ALEKS score of 61 or higher; Credit is allowed for only MAT 170 or MAT 171   |

| MAT     | 207         | Algebra and Geometry in the High School                              | Provides a conceptually rigorous treatment of the central ideas of algebra and geometry in high school. Explores and develops familiar mathematical content from a very different perspective. Focuses squarely on creating meaning for concepts and on building coherence of meaning across concepts and various representations of them. As such, course activities and assessments (class/lab activities, homework assignments, and exams) reflect these expectations, focusing on both doing high school mathematics with meaning and on expressing and communicating that meaning accurately and coherently in verbal and written form. Prior to enrolling in this course, students should have experience with algebra/geometry to at least the high school level. | N                 | LEL               | N               | GNA           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 3     |                 | Co-requisite: MTE 210   |
| MAT     | 208         | Discrete Mathematics for Secondary Teachers                          | Potential secondary teachers of mathematics should master the Math Standards proposed by the National Council of Teachers of Mathematics for college-intending students. Focuses on those aspects of these standards that apply to discrete mathematics with particular emphasis on: mathematical problem solving, mathematics as communication, mathematical reasoning, and discrete mathematics. Taking a broader view, introduces mathematics as a discipline that uses known methods to discover and verify new conclusions through the study of discrete mathematics.   | N                 | LEL               | N               | GNA           | Liberal Arts and Sciences    | School of Mathematical and Statistical Sciences | 3     |                 |   |

| MAT     | 117S        | College Algebra Stretch                         | For students who have an in-progress (Z) grade for MAT 117. The grade earned in MAT 117S replaces the Z grade for MAT 117. Course content is the same as MAT 117, which is intended to develop skills in linear functions, quadratic functions, general polynomial functions, rational functions, exponential functions and logarithmic functions. Also studies systems of linear equations. Emphasizes problem-solving techniques, specifically by means of discussing concepts in each of these topics. | N                 | LEL               | N               | NOG           | Integrative Sciences & Arts  | College of Integrative Sciences and Arts        | 0     |                 | Prerequisite(s): MAT 117 with grade of Z   |

| MCO     | 307         | The Digital Audience                | Who are the people who make up digital audiences? How do digital audiences behave? And why is it important to research, identify and monitor digital audiences and their engagement with your organization? This course introduces the student to the very essence of the digital audience, exploring how community, consumer, social psychology and theory converge on digital platforms and social networks. Through case-study analyses, students learn how audiences differ across industries and platforms, the elements that engage or dissuade users, and how organizations use audience data to manipulate growth strategies. | N                 | LEC               | N               | GNA           | Cronkite School-Journ/Mass Com | Walter Cronkite School of Journalism & Mass Comm | 3     |                 | Prerequisite(s): minimum cumulative 2.00 GPA   |

| MCO     | 425         | Digital Media Literacy              | Helps students begin to navigate the 21st-century media, starting by becoming active users of media, not just passive consumers. The Internet-fueled democratization of media creation has enabled anyone to be a publisher, and given audiences' almost infinite choices, with both great and questionable effects. In a world of information abundance, it can be difficult to discern fact from opinion and truth from fiction. We need to know how to wade through this barrage of information with a critical eye, to be better informed, and ultimately become creators of media ourselves.                                     | N                 | LEC               | N               | GNA           | Cronkite School-Journ/Mass Com | Walter Cronkite School of Journalism & Mass Comm | 3     |                 | Prerequisite(s): minimum cumulative 2.00 GPA; Credit is allowed for only MCO 425 or MCO 494 (Digital Media Literacy)                                 |

| MEE     | 440         | Renewable Energy: Mechanical Systems      | Renewable energy systems are energy conversion systems that rely on naturally replenishing flows of energy. Considers the foundational principles behind many renewable energy systems and application of these principles to practical systems. Emphasizes covering the following energy systems, some only at an introductory level and some with significant depth: solar, wind, geothermal, biomass, hydropower, energy storage, electric power generation.  | N                 | LEC               | N               | OPT           | Ira A. | MEE     | 441         | Wind Energy                               | Wind energy systems convert kinetic energy in the wind into electrical energy. Focuses on flow machines, including for example, aerodynamics and fluid dynamics. Begins with wind resource assessment utilizing atmospheric boundary layer science and then proceeds to computational fluid dynamics to understand the tools of modern wind resource assessment. Includes applications of the Navier-Stokes equations and some basics from turbulence theory. Resource assessment also includes modern remote sensing techniques such as lidar, radar and in situ instrumentation. Also includes discussions from current events and policy. Requires a background in applied experimental statistics, thermodynamics or aerodynamics. | N                 | LEC               | N               | OPT           | Ira A. | MGT     | 404         | Chinese Language and Global Business Communication         | Capstone course designed to synthesize the knowledge acquired from business, language and cultural coursework in the BA in Business: concentration in Chinese Language and Culture. Analyzes case studies in which Chinese language and cultural skills are used to develop communication strategies in doing business in China. Learn new tools and techniques of analysis to enhance communication with Chinese business counterparts. Applies language and cultural skills to a major project in which students demonstrate complex and integrated knowledge of negotiating with the Chinese and using global business skills. Integrates international business knowledge into presentations, research and the use of sophisticated tools of analysis to provide practical training for the global business environment. Students are proficient in communicating in Chinese prior to taking this course. | N                 | LEC               | N               | GNA           | W.P. | MIC     | 501         | Foundations in Microbiology                           | Provides overview of the field of microbiology including: bacterial genetics and physiology, virology and host/pathogen interactions through lectures, reading, presentations and discussion of papers in the field of microbiology and immunology. Students read all papers, participate in class discussions and present papers during the semester.   | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences | School of Life Sciences        | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student; Credit is allowed for only MIC 501 or MIC 591 (Milestones in Microbiology) |
| MIC     | 520         | Evolution and Ecology of Emerging Infectious Diseases | Applying principles and concepts from Ecology, Evolution, and Epidemiology for studying emerging infectious diseases. Emphasizing the interplay of these areas. Intended for life sciences majors and first year graduate students.  | N                 | LEC               | N               | OPT           | Liberal Arts and Sciences | School of Life Sciences        | 3     |                 | Pre-requisites: Graduate student (degree seeking or nondegree seeking); Credit is allowed for only EVO or MIC 520                          |
| MIC     | 584         | Internship  | Structured practical experience following a contract or plan, supervised by faculty and practitioners.   | Y                 | PRA               | Y               | Z1            | Liberal Arts and Sciences | School of Life Sciences        | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| MIC     | 590         | Reading and Conference                                | Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic, or writing a literature review of a topic.  | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Life Sciences        | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| MIC     | 591         | Seminar   | A small class emphasizing discussion, presentations by students, and written research papers.  | Y                 | SEM               | Y               | Z1            | Liberal Arts and Sciences | School of Life Sciences        | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| MIC     | 592         | Research  | Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis, or preparation of a manuscript.   | Y                 | RSC               | Y               | Z1            | Liberal Arts and Sciences | School of Life Sciences        | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| MIC     | 594         | Conference and Workshop                               | Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.  | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences        | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| MIC     | 595         | Continuing Registration                               | Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded, and no grade is assigned.  | Y                 | RSC               | Y               | Z3            | Liberal Arts and Sciences | School of Life Sciences        | 1     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| MIC     | 598         | Special Topics  | Topical courses not offered in regular course rotation--e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics, highly specialized courses responding to unique student demand.   | Y                 | LEC               | Y               | OPT           | Liberal Arts and Sciences | School of Life Sciences        | 1-4   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |
| MIC     | 599         | Thesis  | Supervised research focused on preparation of thesis, including literature review, research, data collection and analysis, and writing.  | Y                 | RSC               | Y               | Z2            | Liberal Arts and Sciences | School of Life Sciences        | 1-12  |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

| MIS     | 101         | Introduction to the United States Army                | Introduces the personal challenges and competencies that are critical for effective leadership and communication. Students learn how the personal development of life skills such as cultural understanding, goal setting, time management, stress management and comprehensive fitness relate to leadership, officership and the Army profession. Focuses on developing basic knowledge and comprehension of Army leadership dimensions, attributes and core leader competencies while gaining an understanding of the Army ROTC program, its purpose in the Army, and its advantages for the student. Builds on the vocabulary introduced in the first three courses, with deeper emphasis on global work situations. Adopts different pedagogical approaches such as group practice, role play and situational dialogues to help students acquire basic skills in listening, speaking, reading and writing Modern Standard Chinese. While oral proficiency is the focus of this course, also includes cultural information that accompanies language use in the teaching as well. | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 5     |                 | Prerequisite(s): MND 101; MND 102; MND 201; Credit is allowed for only CHI 202 or MND 202  |
| MSA     | 101         | Elementary Arabic I                   | Introductory Arabic language focuses on pronunciation of Arabic sounds and basic writing skills. Students learn Arabic culture through standard greetings, common phrases, vocabulary and performance of appropriate social behaviors common in the Arab world which prepares students for work in global organizations.  | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 4     |                 | Credit is allowed for only ARB 101 or MSA 101  |
| MSA     | 102         | Elementary Arabic II                  | Continuation of Elementary Arabic I, adopts different pedagogical approaches such as group practice, role play and situational dialogues to help increase listening, speaking, reading and writing skills. While linguistic elements are the focus, cultural and intellectual contexts provide a medium for understanding the Arab-Islamic world and the global business setting.   | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 4     |                 | Prerequisite(s): MSA 101; Credit is allowed for only ARB 102 or MSA 102  |
| MSA     | 201         | Intermediate Arabic I                 | Directed to students who have completed the first two courses of college-level Arabic. Students reach an advanced level of oral proficiency through concentrating on new verbs, vocabulary and unique structures of sentences which enable them to master a highly sophisticated usage of the language.   | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 4     |                 | Prerequisite(s): MSA 101; MSA 102; Credit is allowed for only ARB 201 or MSA 201   |
| MSA     | 202         | Intermediate Arabic II                | Provides advanced ability to understand, read, write and communicate in Arabic and is directed to students who have completed the first two Arabic elementary courses and the first intermediate course. Focuses on transitive, intransitive and passive and active verbs which enable students to express themselves in highly sophisticated Arabic styles and discourse. Students study how Arabic people perceive and communicate important cultural, historical and economic themes as well as major historical figures and their contributions to Arabic society.  | N                 | LEC               | N               | GNA           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 4     |                 | Prerequisite(s): MSA 101; MSA 102; MSA 201; Credit is allowed for only ARB 202 or MSA 202  |
| MSE     | 100         | Introduction of Materials Engineering | Engineering design process, concepts about materials, and the materials engineering profession, including teaming, computer models, communication, and societal impact. A basic understanding of high school algebra, computing, and physics are necessary to be successful in this course.   | N                 | LEC               | N               | OPT           | Ira A. | MTE     | 301         | Investigating Change: Patterns, Functions, and Modeling             | Examines different conceptions of algebra as the study of (1) generalized arithmetic, (2) reasoning with symbols, (3) reasoning with patterns and functions, (4) structure in the number system, and (5) modeling. Distinguishes arithmetic from algebraic reasoning, and develops an appreciation for the pervasiveness of the function concept in the K-8 school mathematics curriculum. Features algebraic thinking and representation using algebra tiles and other concrete models, realistic problems, dynamic geometry software, graphing calculators, and a variety of virtual tools and Web sites. Topics include, but are not limited to: patterns, relations, functions and covariational thinking; multiple conceptions of quantity, variables, constants, and unknowns; inductive, deductive, and analogical reasoning; rate of change and proportional thinking; algebra learning trajectories; and comparisons of additive vs. multiplicative, absolute vs. relational, and arithmetic vs. algebraic thinking. | N                 | LEC               | N               | GNA           | Integrative Sciences & Arts    | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): admission to the Professional Program  |

Distinguishes arithmetic from algebraic reasoning, and develops an appreciation for the pervasiveness of the function concept in the K-8 school mathematics curriculum. Features algebraic thinking and representation using algebra tiles and other concrete models, realistic problems, dynamic geometry software, graphing calculators, and a variety of virtual tools and Web sites. Topics include, but are not limited to: patterns, relations, functions and covariational thinking; multiple conceptions of quantity, variables, constants, and unknowns; inductive, deductive, and analogical reasoning; rate of change and proportional thinking; algebra learning trajectories; and comparisons of additive vs. multiplicative, absolute vs. relational, and arithmetic vs. algebraic thinking. | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Division of Teacher Preparation                 | 3     |                 | Prerequisite(s): admission to the Professional Program  |
| MTE     | 320         | Conceptual Foundations of 7-12 Mathematics Curricula and Assessment | Focuses on concepts of mathematics curricula and their relationships to perspectives on learning, instruction, and assessment. Using a variety of participation formats (e.g., individual and small group work, and whole group discussions) and directed activities, participants examine curricular principles underlying the historical development of mathematics curricula and assessment, and current curricula and curricular recommendations and controversies surrounding them.  | N                 | LEC               | N               | GNA           | Liberal Arts and Sciences      | School of Mathematical and Statistical Sciences | 3     |                 | Prerequisite(s): MAT 207 with C or better; MTE 210 with C or better; MTE 250 with C or better                               |

| MTE     | 605         | Research-based Practices, Pedagogy and Instructional Leadership in Mathematics | Examines research-based practices, pedagogy, and instructional leadership in mathematics classrooms K-8. Emphasizes learning and teaching mathematics for understanding. Featured practices and pedagogy for fostering symbolic thinking include inductive and deductive concept development, problem-based learning, cognitively guided instruction, learning trajectories, and use of physical manipulatives and virtual tools to facilitate mathematical thinking. Mathematics instructional leadership projects emphasize development of mentoring techniques and professional development expertise. Prepares K-6 and 5-9 mathematics teachers as mathematics teacher leaders, specialists, or coaches in middle schools and the elementary grades. | N                 | LEC               | N               | GNA           | MaryLouFulton Teachers College | Educational Leadership & Innovation, Division   | 3     |                 | Prerequisite(s): degree- or nondegree-seeking graduate student |

| MUP     | 542         | Instrumental Ensembles                                       | Students participate in numerous ensembles and artistic and educational projects that together, comprise a rich assortment of musical experiences. Graduate students especially need opportunities to hone their skills in a great variety of performance opportunities. During the academic year, each student participates in a variety of projects that present a wide range of musical experiences. The curriculum is designed to accommodate the distinctive needs of each student in that artistic-educational experiences are, to a large extent, tailor made to each individual's career aspirations. Consequently, learning outcomes are highly individualized and student driven, rather than institutionally convenient. Each artistic-educational project focuses on specific pedagogical and/or musical learning outcomes that, in various ways, promote the primary course objective: the enhancement of musical diversity and artistic depth in every student. Audition required during the first week of classes. | Y                 | STO               | Y               | OPT           | Herberger Inst Design & Arts | School of Music | 1-2   |                 | Prerequisite(s): graduate Music student  |
| MUP     | 543         | Choral Ensembles   | Active, thoughtful participation in music ensembles can provide for development beyond the possibilities of individual study alone. The ensemble setting is, in part, a forum for the synthesis of component parts of a complete music education. Includes the study and performance of diverse musical expressions that represent a variety of historical and cultural perspectives. These ensembles provide the opportunity to prepare and present varied music composed for the mixed choir from the major stylistic periods with the intent of serving composers, performers and listeners by performing choral music of the highest possible quality.  | Y                 | STO               | Y               | GNA           | Herberger Inst Design & Arts | School of Music | 1-2   |                 | Prerequisite(s): degree- or nondegree-seeking graduate student   |

Through lectures, presentations, readings, listening examples and video/DVDs, studies music identified as strong examples of the major periods, composers and compositions in the history of music. Students learn and adopt a minimum new language to help express the elements of music they experience and listen to and develop strategies for writing and communicating about what they hear and put words to how they respond to it. Because experiencing music performed live is an integral part of the learning process, students are required to attend concerts outside of class and submit critical reviews of what they hear. | N                 | LEC               | N               | OPT           | New Interdis Arts & Sciences | School of Humanities, Arts, and Cultural Studies | 3     | HU              |  |

| NUR     | 520         | Patient Safety and Health Care Quality Principles, Assessment and Methods                     | Focuses on the application of core principles of patient safety and health care quality to patients. Explores current and historical factors that contribute to quality health care outcomes. Examines the influence of financial, legal and regulatory factors on patient safety and health care quality. Applies various theories, concepts and tools to promote patient safety and health care quality. Describes the principles of just culture and the relationship to analyzing errors. Discusses the nurse's role in advancing patient safety and health care quality. Infuses the Quality Safety Education in Nursing (QSEN) competencies into course activities. | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): Nursing (Patient Safety and Health Care Quality) MS major  |
| NUR     | 521         | Health Care Evidence, Informatics and Analysis  | Focuses on applying information technology and research methodology to safety and quality initiatives. Students learn the role of technology related to select human factors engineering concepts and related clinical application (e.g., medication administration, clinical decision making). Focuses on determination of outcome measures related to evidence-based practice (EBP) and quality improvement (QI). Discusses survey methods including construction, data collection methods, and data analysis.  | N                 | LEC               | N               | GNA           | Nursing & Health Innovation | College of Nursing and Health Innovation | 3     |                 | Prerequisite(s): NUR 520 with B- or better  |
