\section*{School Nutrition Certificate (ECNTRCERC)}

Campus: Downtown Phoenix

\section*{Description:}

This certificate program is directed toward current degree-seeking students and postbaccalaureate students who are interested in eligibility for the school nutrition specialist credential offered by the School Nutrition Association. More information for this credential is available at: https://schoolnutrition.org/SNS/ (https://schoolnutrition.org/SNS/).

\section*{Program Requirements:}

The certificate requires that students take the following courses, for a total of 31 credit hours:

Required courses -- 31 credit hours
ACC 382: Accounting and Financial Analysis (3)
EXW 100: Introduction to Health and Wellness (SB) or EXW 325: Fitness for Life (3)
NTR 142: Applied Food Principles (3)
NTR 343: Food Service Purchasing (3)
NTR 344: Nutrition Management and Leadership (L) (3)
NTR 345: Development of Healthy Cuisines or NTR 341: Medical Nutrition Therapy I (3)
NTR 401: Preprofessional Preparation in Nutrition (3)
NTR 445: Management of Food Service Systems (3)
NTR 448: Community Nutrition (L) (3)
NTR 450: Nutrition in the Life Cycle (SB) (3)
NTR 498: Child Nutrition Seminar (L) (1)

Students must earn a minimum grade of C in all courses in the certificate.
Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

\section*{Enrollment Requirements:}

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

The curriculum committee of the nutrition program will approve applications to the certificate program.

\section*{Secondary Education Certificate (TESEDCERT)}

Campus: Polytechnic, Tempe, West, The Gila Valley

\section*{Description:}

The secondary education certificate program prepares students who wish to teach students enrolled in grades 6-12. While students develop a strong content background, the secondary education certification focuses on developing the requisite teaching knowledge and abilities to successfully teach middle or high school students. In order to integrate teacher preparation with the academic specialization, the Teachers College collaborates and communicates with academic departments throughout the university. Clinical experience and student teaching are required components of this certificate. Students who complete this certificate program will be issued an institutional recommendation for certification in Arizona. Students desiring to teach in a public school must also pass the appropriate Arizona educator exams (either the National Evaluation Series or the Arizona Educator Proficiency Assessments) to be certified to teach in the state of Arizona.

The secondary education undergraduate certificate is also available for students who have earned a bachelor's degree; this will be considered a nondegree graduate pathway.

\section*{Program Requirements:}

The certificate requires a minimum of 30 hours.

Required Courses -- 15 credit hours
BLE 407: SEI for Secondary Students (3)
RDG 323: Literacy Processes in Content Areas (3)
SED 322: Classroom Leadership in Secondary Schools (L) (3)
SPE 417: Inclusion Practices at the Secondary Level (3)
TEL 311: Instruction and Management in the Inclusive Classroom (3)

Methods Course (choose one) -- 3 credit hours
Please consult with MLFTC academic advisor to select appropriate subject methods course.
BIO 480: Methods of Teaching Biology (3)
CHM 480: Methods of Teaching Chemistry (3)
ENG 480: Methods of Teaching English: Composition (L) (3)
ENG 482: Methods of Teaching English: Language (L) (3)
GCU 414: Teaching Geography Standards (3)
GLG 490: Topics in Geology (3)
HST 480: Methods of Teaching History: Classroom Resources (3)
HST 481: Methods of Teaching History: Community Resources (3)
MTE 482: Methods of Teaching Mathematics in Secondary School (3)
MTE 485: Teaching Standards-Based Middle and High School Mathematics (3)
PHY 480: Methods of Teaching Physics (3)
SED 403: Secondary Principles, Curriculum and Methods (3)
SED 480: Special Methods of Teaching Social Studies (3)
SED 482: Science Teaching Methods for Secondary Schools (3)
SLC 479: Introduction to Teaching Foreign Languages (3)

Required Clinical Experiences -- 12 credit hours
SED 396: Clinical Experience I or SED 398: Clinical Experience or SED 397: Clinical Experience II or SED 496: Clinical Experience III (1)
SED 478: Student Teaching: Secondary Education (Grades 6-12) (11)
Notes: A full-time 15-week student teaching experience is also required. Degree requirements for student's major must be completed prior to student teaching.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

\section*{Enrollment Requirements:}

Students interested in pursuing the secondary education certificate should be enrolled as a degree-seeking undergraduate student. This program is also available to students in the Phoenix area or Gila Valley area (Morenci) who have already completed a bachelor's degree and want to be certified to teach. Students interested in this option will apply to ASU as a non-degree seeking graduate student.
hours in coursework for the major or a passing score on appropriate teacher certification exam: biology, business, chemistry, Chinese (Mandarin), earth and space science, economics, English, French, general science, geography, German, history, mathematics, physics, political science or Spanish.

Students should have a valid Arizona DPS Identity Verified Print (IVP) fingerprint clearance card.

A 2.50 GPA is required to progress into the final semester of student teaching. Students should contact the Mary Lou Fulton Teachers College for more information.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

\section*{Security Studies Certificate (PPSCSCERT)}

Campus: Downtown Phoenix

\section*{Description:}

The 24 credit hour security studies certificate will provide students with the skills and credentials necessary to expand their employment opportunities in corporate and public security. Students will receive extended education in transdisciplinary topics such as accounting, computer studies and advanced crime and law courses. Upon completion of this certificate, students will be well-equipped to have fluid conversations with professionals from different backgrounds.

\section*{Program Requirements:}

Required Core Courses -- 12 credit hours
ACC 382: Accounting and Financial Analysis (3)
CIS 105: Computer Applications and Information Technology (CS) (3)
CRJ 201: Criminal Justice Crime Control Policies and Practices (3)
CRJ 419: Domestic Terrorism (3)

Select two courses from the following
-- 6 credit hours
CRJ 410: Procedural Criminal Law (3)
CRJ 412: International Terrorism (3)
CRJ 450: Crime Analysis (3)
CRJ 463: White Collar Crime (3)
CRJ 464: Organized Crime (3)

Select one course from the following -- 3 credit hours
CIS 235: Introduction to Information Systems (3)
CPI 101: Introduction to Informatics (CS) (3)
CSE 100: Principles of Programming with C++ (CS) (3)
CSE 110: Principles of Programming (CS) (3)
CSE 180: Computer Literacy (CS) (3)

Select one course from the following -- 3 credit hours
CRJ 484: Internship (3)
LAW 480: Business, Law and Society (3)
LES 305: Business Law and Ethics for Managers (3)

A grade of "C" (2.00 on a 4.00 scale) or better is required for upper-division course work.
Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

\section*{Enrollment Requirements:}

Students should meet with an academic advisor from the School of Criminology and Criminal Justice to formally add the certificate to their degree plan.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

\section*{Small Business and Entrepreneurship Certificate (BASMBCERT)}

Campus: Tempe

\section*{Description:}

Students will learn how to launch their own business or work with small or startup operations. Courses include small business, entrepreneurship and business plan development. Classroom work is complemented by frequent interaction with successful founders and leaders of entrepreneurial ventures.

\section*{Program Requirements:}

The certificate requires 15 credit hours.
Required Courses -- 9 credit hours
ENT 305: Principles of Entrepreneurship (3)
ENT 360: Entrepreneurship and Value Creation (3)
ENT 441: Entrepreneurial Management (3)

Elective (choose one) -- 3 credit hours
ENT 446: Venture Capital Experience (3)
ENT 447: Lean Launch (3)
ENT 448: Corporate Entrepreneurship (3)
ENT 464: Collaborative Design Development I (L) (5)
ENT 465: Collaborative Design Development II (L) (5)
FIN 394: Fundamentals of Entrepreneurial Finance (3)
MKT 440: Creating Digital Experiences (3)
MKT 435: Entrepreneurial Marketing (3)
Small Business Elective (choose one) -- 3 credit hours
ACC 350: Internal Reporting (3)
ACC 430: Taxes and Business Decisions (3)
CIS 300: Web Design and Development (3)
CIS 308: Advanced Excel in Business (3)
CIS 309: Business Process Management (3)
CIS 315: Introduction to Business Data Analytics (3)
CIS 425: Web Technologies for the Enterprise (3)
CIS 440: Capstone in Information Systems (L) (3)
ECN 360: Economic Development (SB \& G) (3)
ECN 410: Applied Regression Analysis and Forecasting (3)
ENT 340: Creativity and Innovation (L or HU) (3)
ENT 484: Internship or MGT 484: Internship (3)
FIN 361: Advanced Managerial Finance (3)
FIN 461: Financial Cases and Modeling (L) (3)
MGT 394: Women and Leadership in Business Today (3)
MGT 411: Leading Organizations (3)
MGT 430: Negotiations (3)
MGT 450: Consulting Projects (L) (3)

MKT 365: Advertising Management (3)
MKT 402: Consumer Behavior (3)
MKT 410: Sales Management (3)
SCM 344: Applied Logistics Management (3)
SCM 345: Logistics Management (3)
SCM 355: Supply Management (L) (3)
SCM 440: Quality Management/Measurement (3)
SCM 445: Advanced Logistics Management (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

\section*{Enrollment Requirements:}

The certificate in small business and entrepreneurship is available only to business majors at ASU. Students majoring in business entrepreneurship or management (entrepreneurship) are not eligible to pursue this certificate. The certificate application is accessed and submitted through Advising SOS: https://wpcarey.asu.edu/SOS (https://wpcarey.asu.edu/SOS).

No more than 6 credit hours may be shared between certificate and other degree programs, minors, and/or other certificates.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

\section*{Social Science Research Methods Certificate (LASSRMCERT)}

Campus: Tempe

\section*{Description:}

This certificate program prepares students to acquire, manage and analyze a broad range of data on human thought and human behavior. Data can be qualitative (e.g., text, images, sound) or quantitative (e.g., direct observation, surveys, GIS). Data acquisition skills may include the downloading and managing of information from online sources or the primary collection of data in surveys or by direct observation. A key feature of this program is a focus on data analysis so that students will be able to analyze any data they collect. All students in this program will demonstrate skills in statistical analysis plus skills in a selection of methods related to their interests.

\section*{Program Requirements:}

Students must complete 18 credit hours. A minimum of a " C " grade ( 2.00 on a 4.00 scale) is required.

Required Course -- 3 credit hours
STP 452: Multivariate Statistics or an equivalent course approved by academic advisor (3)

Electives (Choose four) -- 12 credit hours
AML 441: Mathematical Concepts and Tools in Sustainability (3)
ASB 430: Social Simulation (CS) (4)
FAS 361: Research Methods (L or SB) (3)
FAS 460: Leadership, Research, and Collaboration in Community Change (3)
FAS 461: Community Action Research Experience Research Internship (3)
GCU 373: Introduction to Geographic Information Science (SG) (4)
GCU 442: Geographical Analysis of Transportation (SB) (3)
GCU 496: Geographic Research Methods (L) (3)
GIS 311: Geographic Information Science III (CS) (4)
GIS 322: Programming Principles in GIS II (3)
GIS 341: Introduction to Cartography and Georepresentation (CS) (3)
GIS 351: Air Photo Interpretation (3)

GIS 431: Spatial Databases (3)
GIS 441: Geographics: Interactive and Animated Cartography and Geovisualization (CS) (3)
GIS 461: Optimization Fundamentals for Spatial Analysis (3)
GIS 462: Location Analysis and Modeling (3)
GIS 470: Advanced Statistics for Geography and Planning (CS) (3)
GIS 471: Spatial Statistics for Geography and Planning (3)
GIS 472: Spatial Regression Analysis (3)
POS 301 / SGS 305: Empirical Political Inquiry (SB) (3)
POS 401 / SGS 401: Political Statistics (CS) (3)
PUP 424: Planning Methods (4)
PUP 481: Optimization Fundamentals for Spatial Analysis (3)
PUP 482: Location Analysis and Modeling (3)
SOC 389: Ethnographic Field Lab (1-6)
SOC 391: Research Methods (L or SB) (3)
SOC 433: Applied Demography (SB) (3)
STP 310: Design and Analysis of Experiments (3)
STP 315: Statistical Computing (3)
STP 420: Introductory Applied Statistics (CS) (3)
STP 429: Experimental Statistics (CS) (3)
STP 450: Nonparametric Statistics (3)
STP 460: Categorical Data Analysis (3)

Required Capstone Course -- 3 credit hours
ASB 499: Individualized Instruction or an equivalent capstone course approved by academic advisor (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

\section*{Enrollment Requirements:}

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

\section*{Social Transformation Certificate (LASOTCERT)}

Campus: Tempe

\section*{Description:}

Students enrolled in the certificate program learn how diverse communities, locally and globally have achieved social change and consider how to apply what they have learned in identifying just solutions to the social problems facing communities today. The areas of focus include a variety of themes such as:
- civil rights movements
- democracy movements
- gender equality
- gender justice
- labor movements

\section*{Program Requirements:}

The certificate requires a minimum of 15 credit hours, of which at least 12 credit hours much be completed at the upper-division level. A minimum of 12 credit hours must be completed at ASU. Courses for the certificate must be completed with a grade of " C " ( 2.00 on a 4.00 scale) or higher.

APA 220 / JUS 220 / SST 220: Introduction to Social Transformation (3)
SST 484: Internship or SST 499: Individualized Instruction (3)

Elective Courses (Choose three) -- 9 credit hours
AFR 325 / JUS 326: Music as Political Discourse: Reggae, Calypso, and Hip Hop (HU \& H \& G) (3)
AFR 365: Unruly Voices: Black Women and Cultural Narratives (HU \& C) or WST 364: Unruly Voices: Black Women and Cultural Narratives (C) (3)
AFR 420: Race Ethnicity and Politics in the African Diaspora (SB \& G) (3)
AFR 470: Women's International Human Rights (3)
APA 350: Inequality and Diversity in Education (L \& C) (3)
COM 312: Communication, Conflict, and Negotiation (3)
COM 341: Social Contexts for Performance (3)
ENG 333: American Ethnic Literature ((L or HU) \& C) (3)
ENG 367: Environmental Issues in Literature and Film (L or HU) (3)
ENG 371: Rhetoric of the Environmental Movement (3)
HST 306: Studies in United States History ((HU or SB) \& H) (3)
HST 354: Revolutionary Europe (SB \& H) (3)
JUS 320: Community and Social Justice (SB \& C) (3)
JUS 321: Wealth Distribution and Poverty (SB \& C) (3)
JUS 350: Immigration and Justice (SB \& C) (3)
JUS 375: Justice and the Mass Media (SB) (3)
JUS 430: Social Protest, Conflict, and Change ((L or SB) \& C) (3)
JUS 444: Environment and Justice (L \& C) (3)
JUS 460: Feminism and Justice (C) (3)
JUS 497: Social Enterprise: Innovation and Justice (3)
NLM 410: Social Entrepreneurship (3)
REL 379: Religion, Nationalism, and Ethnic Conflict (HU \& G) (3)
REL 482: Religion, Violence, and Conflict Resolution (3)

\section*{Socially Engaged Practice in Design and the Arts Certificate (HISEPCERT) \\ Campus: Tempe}

\section*{Description:}

Socially engaged practice in arts and design centers around participation, reciprocal relationships and collaborations that promote civic dialogue and investigate pressing issues of our time. This certificate program provides a theoretical framework, rigorous training and field experience in arts and design in civic and applied settings.

\section*{Program Requirements:}

The certificate in socially engaged practice in design and the arts requires 18 credit hours; 12 hours of upper-division course work is required. All courses must be completed with a minimum grade of "C" (2.00) or better. An overall 3.0 GPA is required for this Certificate.

Core -- 6 credit hours
HDA 210: Creativity and Innovation in Design and the Arts (3)
HDA 310: Socially Engaged Practice (3)
Social Engagement -- 3 credit hours
ART 442: Art and Community (3)
NLM 410: Social Entrepreneurship (3)
THP 452: Arts Entrepreneurship Seminar (3)
THP 482: Theatre for Social Change (C) (3)
URB 405: Citizen Engagement and Community Building (3)
Fieldwork / Internship -- 3 credit hours
HDA 484: Internship (3)
Electives (at least 3 credits must be Upper Division) -- 6 credit hours
AME 111: Introduction to Digital Culture (CS) (3)
AME 220: Programming for the Web (3)
AME 230: Programming for the Media Arts (CS) (3)
AME 310: Media Literacies and Composition (3)
AME 330: Digital-Physical Systems (3)
AME 340: Compositional and Computational Principles for Media Arts (3)
AME 411: Advanced Interactive Sound (3)
AME 444: Media Installations (3)
AME 494: Animating Virtual Worlds (3)
AME 494: Integrated System Development (3)
ARS 441: Public Art (3)
ARS 460: Art Now (3)
ART 439: Intermedia Studio (3)
ART 442: Art and Community (3)
ART 443: Intermedia Performance (3)
DCE 133: Urban Movement Practices I (2)
DCE 201: Dance, Culture, and Global Contexts (HU) (3)
DCE 203: Walk this Way (3)
DCE 233: Urban Movement Practices II (2)
DCE 303: The Body Condition(ed) (SB) (3)
DCE 333: Urban Movement Practices III (3)
DCE 360: Third-Year Creative Practices I (3)
DCE 404: Dance and Ethics (3)
DCE 405: Rhetorical Moves (L or HU) (3)
HDA 252: Foundations of Arts Entrepreneurship (3)
MDC 211: Introduction to Digital Sound (3)
MDC 311: Composing and Performing for Hybrid Ensembles (3)
MHL 342: Music History II (HU) (3)
MHL 494: Music and Movement in Urban Culture (3)
MUP 438: The Enterprising Musician (3)
MUP 489: Gamelan (3)
MUP 489: Latin Marimba (3)
MUP 494: Music Product Creation and Development (3)
MUS 362: Rap Music and Hip Hop Culture (HU \& C) (3)
NLM 160: Voluntary Action and Community Leadership (SB) (3)
NLM 302: Inclusive Community Development (C) (3)

\section*{Socio-Legal Studies Certificate (LASLSTCERT)}

Campus: Tempe

\section*{Description:}

The distinction between law on the books and law in action, which refers to how people experience law in their everyday lives, is a cornerstone of the certificate program. The undergraduate certificate in socio-legal studies offers a model for educating and training students in the study of legal ideas, institutions and practices from the perspectives of the social sciences, law and the humanities.

\section*{Program Requirements:}

Students must complete 15 credit hours with at least 12 credit hours completed at the upper-division level. A minimum grade of " C " ( 2.00 on a 4.00 scale) is required for a course to count toward the certificate.

Core Theory and Foundation Courses (Select two) -- 6 credit hours
JUS 303: Justice Theory (L) (3)
JUS 308: Courts and Society (3)
JUS 360 / CRJ 350: Law and Social Control (SB) (3)
JUS 410: Punishment: Logic and Approach (3)
JUS 463: Discretionary Justice (SB) (3)
JUS 465: Death Penalty in the United States (L) (3)
PHI 307: Philosophy of Law (HU) (3)
PHI 336: Social and Political Philosophy (HU) (3)
PHI 408: Feminist Ethics (HU) (3)
POS 315: The Supreme Court (SB) (3)
POS 465: International Organization and Law (SB \& G) (3)
POS 471: Constitutional Law I (SB) (3)
POS 472: Constitutional Law II (SB) (3)

Interdisciplinary Elective Component -- 9 credit hours
Interdisciplinary electives must be taken from at least two different academic disciplines. Any course listed below may count towards this requirement. Other courses can be approved by the certificate program director.
AFR 215: Bob Marley and Reggae: Lyrics of Resistance (HU \& G) (3)

AFR 301 / JUS 300: Race and Racism in Africa/African Diaspora (SB \& G) (3)
AFR 304 / JUS 304: Islands of Globalization: Caribbean Politics and Political Economy (SB \& G \& H) (3)
AFR 420 / JUS 421: Race Ethnicity and Politics in the African Diaspora (SB \& G) (3)
AFR 428 / JUS 428: Critical Race Theory (3)
CRJ 305: Gender, Crime, and Criminal Justice (C) (3)
CRJ 306: Race, Ethnicity, Crime, and Criminal Justice (C) (3)
HON 310: Justice and Law (3)
HON 410: Philosophy, Politics, and Law (3)
JUS 329: Domestic Violence (SB) (3)
JUS 350: Immigration and Justice (SB \& C) (3)
JUS 374: The Holocaust, Genocide, and Human Rights (3)
JUS 422: Women, Law, and Social Control (3)
JUS 432: Racial Justice (L) (3)
JUS 467: Terrorism, War, and Justice (SB) (3)
JUS 469: Political Deviance and the Law ((L or SB) \& C) (3)
JUS 484: Internship (3)
JUS 498: Pro-Seminar (3)
POS 370: Law and Society (SB) (3)
POS 470: Law and the Political Order (SB) (3)
PSY 468: Psychology and Law (3)
SOC 340: The Sociology of Deviance (SB) (3)
SOC 445: Globalization, Development, and Resistance (SB \& G) (3)
TCL 335 / HST 323 / AFR 335: Historical Studies in Race, Crime, and the Law (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

\section*{Enrollment Requirements:}

Students who have attained junior standing (56 credit hours) in any undergraduate degree program at ASU are eligible for admission to the certificate program for socio-legal studies. There is no formal admission procedure, but students should contact the certificate program director or an academic advisor in the School of Social Transformation as soon as they decide to pursue the certificate.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

\section*{Southeast Asian Studies Certificate (LASALCERT)}

Campus: Tempe

\section*{Description:}

The certificate in Southeast Asian studies can supplement a bachelor's degree by demonstrating knowledge of a Southeast Asian language and Southeast Asian history, art, culture and society. This certificate prepares students for admission to graduate programs in Southeast Asian area studies or any academic discipline with a focus on Southeast Asia as well as advanced programs in international law, journalism, business or other professional fields. Recent graduates have gone on to enter medical school, MBA and doctoral programs. An earned certificate will appear on student transcripts as a Southeast Asian studies emphasis.

\section*{Program Requirements:}

The certificate in Southeast Asian studies requires 18 credit hours, of which a minimum of 12 credit hours must be upper-division. A grade of "C" ( 2.00 on a 4.00 scale) or better is required for all courses used to fulfill certificate requirements.

ASB 325: Peoples of Southeast Asia (G) (3)
HST 391: Modern Southeast Asia (SB \& G \& H) (3)

Electives (Choose two) -- 6 credit hours
GCU 433: Geography of Southeast Asia (3)
HST 456: The Vietnam War (SB \& G \& H) (3)
MUP 489: Gamelan (3)
POS 358: Southeast Asia (SB \& G) (3)
REL 348: Religion and Culture in Southeast Asia (3)
REL 357: Theravada Buddhism in South and Southeast Asia ((L or HU) \& G) (3)

Capstone -- 3 credit hours
HST 496: South, Southeast, and East Asia in the Global Matrix (3)
The capstone is only offered in the spring semester.

The certificate requires a simultaneous two-year sequence in a Southeast Asian language (Indonesian, Thai or Vietnamese).
Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

\section*{Enrollment Requirements:}

GPA Requirement: None

Majors Ineligible To Add This Certificate: BA in Asia studies (Southeast Asia)

Students should contact the School of Historical, Philosophical and Religious Studies advising center for more information.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

\section*{Spanish for the Professions Certificate (LSSPPRFCER)}

Campus: Downtown Phoenix

\section*{Description:}

The series of courses in this 18 credit hour certificate will help students hone Spanish communication skills and cultural knowledge so they may serve the needs of the U.S.-Latino community in professional settings (i.e., education, social work, health care, criminology, journalism). This certificate is open to ASU students and to the community at large. The combination of professionally focused courses and practical experience in this program will enhance students' professional preparation for employment in positions that require advanced proficiency in Spanish and an indepth understanding of U.S.-Latino culture.

\section*{Program Requirements:}

Prerequisite: completion of SPA 314 or SPA 316 or SPA 317 or permission of instructor. Spanish for the Professions certificate requires a total of 18 credit hours.

Required Courses -- 12 credit hours
SPA 317: Spanish for the Professions (3)
SPA 404: Spanish in U. S. Professional Communities (C) (3)
SPA 405: Latino Cultural Perspectives for the Professions (C) (3)
SPA 484: Internship (3)

Elective Courses -- 6 credit hours
SPA 403: Spanish Grammar and Stylistics for the Professions (3)

SPA Upper Division Elective (3)
Notes: SPA 300- or 400-level Spanish courses focused on the professions (e.g., health care, business, medical and legal interpretation, journalism, social work, education, legal and justice studies, sustainability, engineering and urban planning)
*Students should complete a minimum of 12 credit hours in the certificate and seek instructor approval before enrolling in SPA 484.
All courses for this certificate will require a minimum grade of " C " (2.00) or better to receive credit toward fulfilling certificate requirements. Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

\section*{Enrollment Requirements:}

The prerequisites for this certificate are SPA 314 Spanish Conversation and Composition or SPA 316 Spanish Conversation and Composition for Bilinguals, or by permission of the instructor.

For additional information and to add the certificate, students should visit the school's website.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

\section*{Special Events Management Certificate (HSRTMUERT)}

Campus: Downtown Phoenix

\section*{Description:}

The special events management certificate is a career enhancement program offered to nondegree-seeking students who already have a degree from an accredited university in any major or students currently pursuing a bachelor's degree in any major at ASU.

\section*{Program Requirements:}

The certificate requires 18 credit hours: 15 credit hours of required core courses and 3 credit hours of electives. Courses taken as part of a university major may count toward that degree and the certificate. To earn the certificate, students must complete all course work in the certificate with a minimum grade of " C " ( 2.00 on a 4.00 scale) or better. An application to the program is required.

Required Core Courses -- 15 credit hours
PRM 486: Special Events Management (3)
Notes: (must take this first, as prerequisite for the following required courses)
PRM 422: Entertainment, Protocol, and Programming for Special Events (3)
PRM 423: Special Event On-Site Operations (3)
PRM 427: Revenue Generation for Special Event Management (3)
PRM 488: Event Marketing and Promotion (3)
Notes: iCourse, offered summers only

Elective Course (select one) -- 3 credit hours
CRD 301: Sustainable Communities (3)
NLM 220: Introduction to Nonprofit Organizations (3)
NLM 310: Volunteer Management (3)
PRM 470: Environmental Communication (3)
Notes: Offered Spring only
PRM 475: Entrepreneurial Recreation and Tourism (3)
PRM 487: Advanced Special Events Management (3)
Notes: Offered Spring only
TDM 205: Introduction to Travel and Tourism (G) (3)
TDM 345: Meeting and Convention Planning (3)
TDM 350: Tourism, Recreation and Sports Marketing (3)

Standards
1. 18 hours of graded classroom course work (no internship, no independent study)
2. minimum of a " C " ( 2.00 on a 4.00 scale) grade required for all classes in the certificate
3. minimum GPA of 2.00 for those pursuing the certificate
4. should be a junior to take 400-level courses

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

\section*{Enrollment Requirements:}

Students wishing to pursue the special events management certificate should consult with an academic advisor in the School of Community Resources and Development. For additional information, students should visit the official website.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

\section*{Speech-Language Pathology Assistant Certificate (LASLPACERT)}

Campus: Tempe

\section*{Description:}

The speech-language pathology assistant certificate program prepares students to work with individuals with communication disorders, under the direction of a licensed speech-language pathologist. Students majoring in speech and hearing science or persons already holding a bachelor's degree in speech and hearing science receive additional coursework and clinical training to be eligible for the speech-language pathology assistant licensure. Speech-language pathology assistants work under the direction and supervision of speech-language pathologists in schools, clinics and rehabilitation agencies that provide speech and language services.

\section*{Program Requirements:}

The speech-language pathology assistant certificate program includes 15 credit hours of course work and clinical internships completed in conjunction with the bachelor's degree in speech and hearing science.
Twelve of the 15 credit hours for the speech-language pathology assistant certificate must be completed at ASU. A minimum grade of "B-" (scale is \(4.00=\) "A") is required for a course to count toward the certificate.

Required courses -- 15 credit hours
SHS 402: Clinical Methods and Treatment of Communication Disorders (3)
SHS 473: Implementation of Treatment Plans for Individuals with Communication Disorders (3)
SHS 483: Professional Issues and Ethical Considerations for the SLPA (3)
SHS 484: Internship (6)
Notes: Two internships of clinical practice

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

\section*{Enrollment Requirements:}

Students who have completed 15 credit hours in speech and hearing science coursework with at least a 2.75 GPA (scale is \(4.00=\) "A") in those courses are eligible to apply. Applications will also be accepted from students who have completed a bachelor's degree in speech and hearing science or communication disorders from a program accredited by the American Speech-Language-Hearing Association, providing their GPA in the major was at least 2.75. Students should contact the Department of Speech and Hearing Science for more information.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

\section*{Sports Business Certificate (BASPBCERT)}

Campus: Tempe

\section*{Description:}

The certificate in sports business is an innovative curriculum designed for BS students in the W. P. Carey School of Business who are interested in deepening their knowledge in the sports business domain. Particular attention is given to providing a foundation in marketing and sales as it is applied to the sports business discipline. The certificate prepares students for success by complementing coursework from a degree program with specialized business knowledge in the sports business area of interest.

\section*{Program Requirements:}

The certificate in sports business is available to BS business majors in the W. P. Carey School of Business. The certificate requires 15 credit hours.

Required Course -- 3 credit hours
MKT 311: Sports Business (3)

Choose at least two of the following courses -- 6 credit hours
MKT 441: Sports Revenue Generation (3)
MKT 451: Sports Business Analytics (3)
MKT 484: Internship or MKT 493: Honors Thesis (L) (3)

Choose no more than two of the following courses -- 6 credit hours
MKT 370: Professional Sales and Relationship Management (3)
MKT 410: Sales Management (3)
MKT 431: Sports Events and Facility Management (3)
MKT 435: Entrepreneurial Marketing (3)
MKT 442: Services Marketing Strategy (3)
MKT 484: Internship or MKT 493: Honors Thesis (L) (3)
MKT 494: Special Topics (3)

A "C" (2.00 on a 4.00 scale) or better is required in all upper-division course work.
Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

\section*{Enrollment Requirements:}

Prerequisites: This program is available to W. P. Carey Bachelor of Science degree program students with a 2.50 ASU cumulative GPA and 56 earned hours. Students must have completed MKT 300, MKT 302 or MKT 303 with a grade of "C" ( 2.00 on a 4.00 scale) or better.

The certificate application is accessed and submitted through Advising SOS: https://wpcarey.asu.edu/SOS (https://wpcarey.asu.edu/SOS).

No more than 6 credit hours may be shared between certificate and other degree programs, minors, and/or other certificates.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

\section*{Symbolic, Cognitive and Linguistic Systems Certificate (LAPHICERT)}

Campus: Tempe

\section*{Description:}

The symbolic, cognitive and linguistic systems certificate program takes a transdisciplinary approach to the symbolic representation and processing of information in human cognition, natural languages and formal mathematical, logical and computing systems. Coursework covers three areas: human cognition and theories of mind, philosophy of language and linguistics, and computing and logic.

\section*{Program Requirements:}

The certificate requires 18 credit hours, of which at least 12 must be upper-division. At least six upper-division credit hours must be taken through the College of Liberal Arts and Sciences. A grade of "C" ( 2.00 on a 4.00 scale) or higher is required for all courses used toward the certificate.

Required Course (Choose one) -- 3 credit hours
CSE 110: Principles of Programming (CS) (3)
CSE 205: Object-Oriented Programming and Data Structures (CS) (3)
CSE 240: Introduction to Programming Languages (3)

Upper Division Philosophy Course (Choose one) -- 3 credit hours
PHI 313: Probability, Evidence, and Decision (3)
PHI 319: Philosophy, Computing and Artificial Intelligence (CS) (3)
PHI 330: Theory of Knowledge (HU) (3)
PHI 331: Philosophy of Language (HU) (3)
PHI 333: Symbolic Logic (3)
PHI 334: Philosophy of Mind (HU) (3)
PHI 401: Rationalism (3)
PHI 402: Empiricism (HU) (3)
PHI 413: Advanced Symbolic Logic (3)

Electives -- 12 credit hours
Elective (3)
Upper Division Electives (9)
Students must complete at least one course each from the cognitive, linguistic and symbolic systems course lists below to earn the certificate. The required CSE course above also satisfies the requirement for a symbolic systems course, but students must cover the other two categories within the electives and upper division PHI course requirement. Once all three categories are satisfied, students may choose any courses from the cognitive, linguistic and symbolic systems lists for the remaining electives.

\section*{Cognitive Systems}

PHI 313: Probability, Evidence, and Decision (3)
PHI 330: Theory of Knowledge (HU) (3)
PHI 334: Philosophy of Mind (HU) (3)
PHI 401: Rationalism (3)
PHI 402: Empiricism (HU) (3)
PSY 323: Sensation and Perception (3)
PSY 324: Memory and Cognition (3)
PSY 434: Cognitive Psychology (L) (3)
PSY 437: Human Factors (L) (3)

Linguistic Systems
ASB 480: Principles of Linguistics (3)
ASB 483: Sociolinguistics and the Ethnography of Communication (SB) (3)
ENG 213: Introduction to the Study of Language (3)
ENG 312: English in its Social Setting (L or HU or SB) (3)
ENG 313: Phonology and Morphology (3)
ENG 314: Modern Grammar (3)
PHI 331: Philosophy of Language (HU) (3)

Symbolic Systems
CSE 110: Principles of Programming (CS) (3)
CSE 205: Object-Oriented Programming and Data Structures (CS) (3)
CSE 240: Introduction to Programming Languages (3)
MAT 243: Discrete Mathematical Structures (3)
MAT 300: Mathematical Structures (L) (3)
MAT 420: Scientific Computing (3)
PHI 319: Philosophy, Computing and Artificial Intelligence (CS) (3)
PHI 333: Symbolic Logic (3)
PHI 413: Advanced Symbolic Logic (3)
With the approval of the director of undergraduate studies, students may substitute one course not on the approved course lists. Please obtain approval prior to enrolling in any course not on the approved list.
Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

\section*{Enrollment Requirements:}

Students should contact the School of Historical, Philosophical and Religious Studies advising center for more information.
A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. \section*{Teaching English to Speakers of Other Languages (TESOL) Certificate (LATESLCERT) Campus: Tempe}

\section*{Description:}

The teaching english to speakers of other languages undergraduate certificate program consists of a coherent set of courses that provides students with the skills necessary to teach English as a foreign language. This certificate is useful for students interested in careers in this increasingly important field. It also serves as excellent preparation for students wishing to pursue graduate studies in the Master's of Teaching English as a Second Language program at ASU or in a similar program at another institution. Note that this certificate does not certify students to teach in Arizona public schools (K-12).

\section*{Program Requirements:}

The certificate program in teaching English as a second language requires a minimum of 18 credit hours, 12 of which must be completed at the upper-division level. At least 6 credit hours must be completed from courses offered by the College of Liberal Arts and Sciences.Each course must be completed with a grade of " C " ( 2.00 on a 4.00 scale) or higher.

Core -- 12 credit hours
ENG 213: Introduction to the Study of Language (3)
ENG 404: Studies in Second Language Acquisition (6)
Students complete two ENG 404 courses, one in second language acquisition and one in TESOL methods.
ENG 484: TESOL Internship (3)
Directed Elective -- 3 credit hours
ENG 404: Studies in Second Language Acquisition or ENG 414: Studies in Linguistics (3)
Notes: ENG 404 must be a topic not used to satisfy required courses.

Linguistics Electives (choose one) -- 3 credit hours
ENG 214: English Grammar and Usage (3)
ENG 312: English in its Social Setting (L or HU or SB) (3)
ENG 313: Phonology and Morphology (3)

ENG 314: Modern Grammar (3)
ENG 413: History of English Language (HU) (3)

Course substitutions may be used with approval of an academic advisor in the Department of English before enrollment.
Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

\section*{Enrollment Requirements:}

For more information about the TESOL certificate, students should contact an advisor in the Department of English.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

\section*{Technical Communication Certificate (LSTECCERT)}

\section*{Campus: Polytechnic}

\section*{Description:}

Through the technical communication program students learn how to produce, design and manage information using traditional and developing technologies.

\section*{Program Requirements:}

The undergraduate certificate requires 18 hours.
Required Courses -- 6 credit hours
TWC 301: Fundamentals of Writing for Digital Media (L) (3)
TWC 401: Fundamentals of Technical Communication (L) (3)

Required Course (choose one) -- 3 credit hours
TWC 411: Principles of Visual Communication (L) (3)
TWC 421: Principles of Web Authoring (L) (3)
TWC 431: Principles of Technical Editing (3)
Electives -- 9 credit hours
TWC 4** Elective (9)

A "C" grade or better is required for all upper-division courses in the certificate.
Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

\section*{Enrollment Requirements:}

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

For disclosure information about the U.S. Department of Education Gainful Employment Program, students should see https://catalog.asu.edu/files/disclosures/LSTECCERT/Gedt.html.

\section*{Translation Certificate (LASPACERT)}

Campus: Tempe

\section*{Description:}

The translation certificate program, which focuses on Spanish and English, is designed to provide advanced training required for professional translation in both public and private sectors, preparation for the rigorous examinations required by national and international agencies, and training as an ancillary skill for professional fields such as international business, public health, medicine and law in accordance with guidelines recommended by the American Translators Association.

\section*{Program Requirements:}

The certificate program requires a minimum of 15 credit hours. At least 12 credit hours must be completed at the upper-division level. A grade of "C" ( 2.00 on a 4.00 scale) or higher is required in all courses.

Students are expected to have completed prerequisite courses including SPA 313 and SPA 314 or SPA 315 and SPA 316 as well as ENG 301 or SPA 412. However, ENG 301 or SPA 412 may be completed in the early semesters after admission to the program.

Required Course -- 3 credit hours
SLC 401: Translation Theory and Practice (3)

Required Applied Translation Courses -- 9 credit hours
SLC 481: Technical and Scientific Translation (3)
SLC 482: Business and Financial Translation (3)
SLC 485: Translation of Legal Texts or SLC 486: Medical Translation (3)
Only one applied translation course is taught in any semester. Each course is only offered once in any two-year period. Students should consult with an academic advisor in the School of International Letters and Cultures and plan their studies accordingly.

Internship Requirement -- 3 credit hours
SLC 484: Internship (3)
Students must complete all required courses before enrolling for an internship. Students must complete 135 on-site internship hours to earn three credit hours in SLC 484.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

\section*{Enrollment Requirements:}

Since entry into the field of professional translation is gained through work, cultural experience and examination, the entrance requirements to this certificate program include a written proficiency examination in both the source and receptor languages at the level of completion of an advanced composition course in Spanish (SPA 412) and English (ENG 301).

Extensive work experience using Spanish and English or demonstrated bilingual writing competence in English and Spanish is also required.

Students should contact an academic advisor in the school for more information.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

\section*{Wildlife Management Certificate (LSWLMCERT)}

Campus: Polytechnic

\section*{Description:}

The undergraduate wildlife management certificate program is for students at ASU interested in biology, conservation, sustainability and management of natural resources. The certificate provides students with professional credentials to qualify for many positions offered by state (e.g., Arizona Game and Fish Department) and federal agencies (e.g., U.S. Forest Service, U.S. Geological Survey, U.S. Bureau of Land Management). The certificate will provide students with application-based and hands-on experience in the field and allow them to engage with wildlife professionals. The certificate may give a hiring edge to those in the growing field of environmental careers in agencies and nongovernment organizations.

\section*{Program Requirements:}

This certificate requires 22 credit hours.

Required Courses -- 13 credit hours
ABS 274: Introduction to Wildlife Management (4)
ABS 376: Wildlife Ecology (3)
ABS 475: Habitat Management for Small Wildlife (3)
ABS 476: Big Game Habitat Management (3)

Elective Courses -- 9 credit hours
ABS 377: International Wildlife Conservation (3)
ABS 380: Restoration and Wildlife Plants (3)
ABS 470: Life History of Mammals (3)
ABS 472: Applied Herpetology (3)
ABS 473: Applied Ornithology (3)

A "C" (2.00 on a 4.00 scale) or better is required in each course.
Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

\section*{Enrollment Requirements:}

Students interested in pursing the certificate should speak with an academic advisor in the College of Integrative Sciences and Arts.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Women and Gender Studies Certificate (ASWSTCERT)
Campus: West

\section*{Description:}

The certificate program in women and gender studies examines the changing political, social, economic and cultural realities of racial, ethnic and indigenous communities in the United States and the Americas. The program combines interdisciplinary topics and methods to critically analyze, unpack and address how relations of gender are embedded in and connected to social, political and cultural transformations. The intellectual core draws from theories, methods and teachings in women and gender studies while engaging complementary fields of social justice, cultural studies, sexuality studies, queer studies, literature, history, sociology, psychology, oral history, ethnicity, race and indigenous studies, and transnational studies. This certificate will prepare students for graduate study or a variety of fields including business, health care, criminal justice, social services, education, public relations, nonprofits, community development, public policy and government.

\section*{Program Requirements:}

The certificate in women and gender studies consists of 18 credit hours. A minimum of 12 credit hours must be upper division. Courses should be chosen in consultation with an academic advisor prior to enrollment. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Core Requirements -- 6 credit hours
HRC 200: Introduction to Social and Cultural Analysis (SB \& C) (3)
WST 100: Women, Gender, and Society (SB \& C) or WST 300: Women and Gender in Contemporary Society (SB \& C) (3)

Electives (chosen from the following) -- 12 credit hours
ENG 454: Gender and Literature (L or HU) (3)
HST 328: Women in U.S. History, 1880-1980 ((HU or SB) \& C \& H) (3)
WST 300: Women and Gender in Contemporary Society (SB \& C) (3)
WST 333: Critical Perspectives on Sexuality (SB \& C) (3)
WST 341: Latin American Women Writers (3)
WST 370: Chronicling Women's Lives (HU \& C) (3)
WST 376: Feminist Theory (H \& C) (3)
WST 380: Race, Gender, and Class (SB \& C) (3)
WST 385: Psychology of Gender (SB) (3)
WST 390 / REL 390: Women, Gender and Religion (HU \& G) (3)
WST 430: Gender on the Borderlands (SB \& G) (3)
WST 449: Hate Speech, Manifestos, and Radical Writings (SB \& C) (3)
WST 473: Indigenous and Latina/Chicana Representation (SB \& C) (3)
WST 485: Women, Gender, and Leadership (SB \& C) (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

\section*{Enrollment Requirements:}

Students wishing to pursue this certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure the appropriate set of courses is taken and the required paperwork is submitted.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

\section*{Women and Gender Studies Certificate (LAWSTCERT)}

Campus: Tempe

\section*{Description:}

Women and gender studies, in the School of Social Transformation, offers students an intensive, liberal arts approach to education that enables students to write well, think critically and analyze problems effectively. The certificate program provides a transdisciplinary alternative to a minor.

\section*{Program Requirements:}

The women and gender studies certificate requires a minimum of 18 credit hours, at least 12 of which must be completed at the upper-division level. Each course must be completed with a a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses (Choose one) -- 3 credit hours
WST 100: Women, Gender, and Society (SB \& C) (3)
WST 300: Women and Gender in Contemporary Society (SB \& C) (3)

Elective Core Course (Choose one) -- 3 credit hours
WST 378: Global Feminist Theory (L \& G) (3)
WST 377: History of American Feminist Thought (H \& C) (3)

Electives -- 12 credit hours
WST Elective (3)
WST Upper Division Elective (9)
WST 100 and WST 300 cannot be used to fulfill the elective requirement.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

\section*{Enrollment Requirements:}

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

\section*{Working with Military Families Certificate (LAWWMFCERT)}

Campus: Tempe

\section*{Description:}

Important complexities surround the dynamics of military families. Military personnel, veterans and their families face unique issues and challenges such as navigating military culture and dealing with multiple deployments, trauma and death. Students interested in careers focusing on these families have a need to understand normative family processes, stress and coping, and military culture and leadership. Students enrolled in the program, offered by the Sanford School and ROTC, will take a unique combination of courses as well as military leadership. Students who complete the certificate program will be conversant with human development, marital and familial relationships, and family dynamics in the context of military culture.

\section*{Program Requirements:}

The certificate requires 18 credit hours. At least 12 credit hours must be completed at the upper-division level and a grade of " C " ( 2.00 on a 4.00 scale) or higher is required in all courses.

Required Courses -- 15 credit hours
CDE 232: Human Development (SB) (3)
FAS 101: Personal Growth in Human Relationships (SB) (3)
FAS 331: Marriage and Family Relationships (SB) (3)
FAS 410: Military Family Systems in a Democracy (3)
MIS 301: Training Management and the Warfighting Functions (L) or AES 301: Air Force Leadership Studies I (L) (3)
Students completing MIS 301 instead of AES 301 will complete 16 hours of required course work in this section.

Internship Requirement -- 3 credit hours
FAS 484: Internship (3)

Students are required to complete a capstone internship project that includes a field work experience, a written integrative paper and an oral presentation.
Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Students in related majors can apply for the certificate through the T. Denny Sanford School of Social and Family Dynamics. Admission will be determined by the admission committee. A student must have a minimum GPA of 3.00 (on a 4.00 scale) in order to be considered for admission to the certificate.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

\section*{Writing (Liberal Arts and Sciences) Certificate (LAENGCERT) \\ Campus: Tempe}

\section*{Description:}

The writing certificate program provides advanced writing instruction for students in any major. Students in the program gain practical skills in effective communication and enhance their ability to create, structure and present information in a variety of contexts.

ASU's Department of English in the College of Liberal Arts and Sciences has an extensive internship program, with opportunities for placements in publishing, media and marketing, government, teaching English as a second language, nonprofits, and film festivals. English also boasts top online programs, rigorous undergraduate research opportunities and options for cultural and community involvement.

\section*{Program Requirements:}

The writing certificate program consists of 19 credit hours, at least 12 of which must be completed at the upper-division level. A minimum of six upper-division credit hours must be courses offered by the Department of English in the College of Liberal Arts and Sciences. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Required Courses -- 16 credit hours
ENG 216: Persuasive Writing on Public Issues (L) or ENG 301: Writing for the Professions (L) (3)
ENG 372: Document Production (L) (3)
ENG 412: Creative Nonfiction (3)
ENG 472: Rhetorical Studies (L) (3)
ENG 484: Writing Certificate Internship (3)
ENG 498: Writing Certificate Portfolio (L) (1)

Writing or Design Elective (choose one) -- 3 credit hours
Students choose one additional writing course in English or Design selected from the following list of approved courses:
ENG 215: Strategies of Academic Writing (L) (3)
ENG 216: Persuasive Writing on Public Issues (L) (3)
ENG 310: Intermediate Creative Writing (3)
ENG 311: Persuasive Writing (L) (3)
ENG 374: Technical Editing (3)
ENG 387: Intermediate Creative Writing Workshop in Poetry: Form, Theory, and Practice (3)
ENG 388: Intermediate Creative Writing Workshop in Fiction: Form, Theory, and Practice (3)
ENG 391: Writing in Context (3)
ENG 474: Review Writing (3)
ENG 475: Popular Periodical Writing (L) (3)
TWC Upper Division Elective (3)

All students are required to submit a portfolio before receiving the certificate.
Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

\section*{Enrollment Requirements:}

Application to the program requires a minimum GPA of 3.00 (scale is \(4.00=\) "A") in ENG 101 and ENG 102, ENG 105, or ENG 107 and ENG 108.

Students must also have completed at least 30 hours of coursework and must have a minimum cumulative GPA of 3.00 (scale is \(4.00=\) " A "). Students should contact the department for more information.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

\section*{Writing (New College) Certificate (ASWRTCERT)}

Campus: West

\section*{Description:}

The certificate in writing offered by the New College of Interdisciplinary Arts and Sciences at the West campus is a valuable program for students in any discipline. The ability to communicate clearly, directly and effectively is a key to advancement in all careers. Certification of advanced writing skills opens the way to a vast array of opportunities, from journalism and publishing to public advocacy, military and government careers, elementary and secondary education, business management, economic development, law, nonprofits and high-tech industry.

The certificate offers five track options (creative writing, generalist, nonfiction writing, professional and technical writing, and publishing and editing) and students can tailor the certificate to their individual interests and career goals. The certificate includes intensive coursework that culminates in an exit portfolio, a collection of work that demonstrates the writing skills mastered by each student.

\section*{Program Requirements:}

The writing certificate consists of 19 credit hours, 13 of which must be upper division. Requirements include 18 credit hours of track courses, chosen in consultation with the faculty certificate coordinator, as well as a writing portfolio (AMS 490, one credit hour). Students must complete a minimum of six upper division credit hours offered by the School of Humanities, Arts, and Cultural Studies and must complete a minimum of 12 credit hours at ASU. Six to nine credit hours may be shared between certificate and major requirements upon approval. All courses used to satisfy the requirements for the certificate must be passed with a "B" (3.00) or better.

Track Requirements (minimum 12 upper-division) -- 18 credit hours

Creative Writing Track
ENG 210: Introduction to Creative Writing (3)
ENG 217: Writing Reflective Essays (L) (3)
ENG 287: Beginning Creative Writing Workshop in Poetry (3)
ENG 288: Beginning Creative Writing Workshop in Fiction (3)
ENG 307: Writing Science Fiction (3)
ENG 310: Intermediate Creative Writing (3)
ENG 317: Cross-Cultural Writing ((L or HU) \& G) (3)
ENG 344: Intermediate Family History Research (3)
ENG 361: Scriptwriting (3)
ENG 368: Art of the Personal Essay (L) (3)
ENG 387: Intermediate Creative Writing Workshop in Poetry: Form, Theory, and Practice (3)
ENG 388: Intermediate Creative Writing Workshop in Fiction: Form, Theory, and Practice (3)
ENG 394: Comedy Writing (3)
ENG 410: Writing for Publication (3)
ENG 411: Advanced Creative Writing (3)
ENG 412: Creative Nonfiction (3)
ENG 494: Canyon Voices (3)
ENG 499: Individualized Instruction (3)

Generalist Track
ENG 205: Introduction to Writing, Rhetorics and Literacies (L) (3)
ENG 210: Introduction to Creative Writing (3)
ENG 216: Persuasive Writing on Public Issues (L) (3)

ENG 217: Writing Reflective Essays (L) (3)
ENG 287: Beginning Creative Writing Workshop in Poetry (3)
ENG 288: Beginning Creative Writing Workshop in Fiction (3)
ENG 301: Writing for the Professions (L) (3)
ENG 302: Business Writing (L) (3)
ENG 307: Writing Science Fiction (3)
ENG 310: Intermediate Creative Writing (3)
ENG 311: Persuasive Writing (L) (3)
ENG 314: Modern Grammar (3)
ENG 317: Cross-Cultural Writing ( \((\mathrm{L}\) or HU\()\) \& G\()(3)\)
ENG 323: Rhetoric and Grammar (L) (3)

ENG 376: Writing a Personal History (L) (3)
ENG 378: Environmental Creative Nonfiction (L or HU) (3)
ENG 379: Travel Writing (L) (3)
ENG 394: Writing the Memoir (3)
ENG 410: Writing for Publication (3)
ENG 412: Creative Nonfiction (3)
ENG 494: Canyon Voices (3)
ENG 499: Individualized Instruction (3)

Professional and Technical Writing Track
ENG 205: Introduction to Writing, Rhetorics and Literacies (L) (3)
ENG 216: Persuasive Writing on Public Issues (L) (3)
ENG 301: Writing for the Professions (L) (3)
ENG 302: Business Writing (L) (3)
ENG 311: Persuasive Writing (L) (3)
ENG 317: Cross-Cultural Writing ((L or HU) \& G) (3)
ENG 323: Rhetoric and Grammar (L) (3)
ENG 372: Document Production (L) (3)
ENG 374: Technical Editing (3)
ENG 410: Writing for Publication (3)
ENG 494: Canyon Voices (3)
ENG 499: Individualized Instruction (3)
Publishing and Editing Track
ENG 314: Modern Grammar (3)
ENG 323: Rhetoric and Grammar (L) (3)

ENG 372: Document Production (L) (3)
ENG 373: Publishing in Literary Magazines (3)
ENG 374: Technical Editing (3)
ENG 377: Editing Family History for Public Audiences (L) (3)
ENG 394: Superstition Review Training (3)
ENG 410: Writing for Publication (3)
ENG 484: Superstition Review Internship (3)
ENG 484: The Pen Project (3)
ENG 494: Canyon Voices (3)
ENG 499: Individualized Instruction (3)

Writing Portfolio -- 1 credit hours
AMS 490: Writing Certificate Portfolio (1)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

\section*{Enrollment Requirements:}

The certificate in writing is open to all ASU undergraduate majors. To gain admission to the program, students must demonstrate fundamental writing skills through the completion of English composition. Students are required to submit an application, which includes at least three samples of writing from lower-division courses or independent writing projects. Applications must be submitted at least two months before the start of the semester they anticipate being admitted. Students wishing to pursue this certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure the appropriate set of courses is taken and all required paperwork is submitted.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

\section*{Undergraduate Programs}

\section*{Undergraduate Degrees (Program Descriptions)}

\author{
Business, W. P. Carey School of
}

\section*{Accountancy, BS (BAACCBS)}

Campus: Tempe, West

\section*{Program Description:}

The School of Accountancy's undergraduate BS program in accountancy offers two tracks during the senior year. The accounting track is followed by most students and is designed to provide a rich educational experience. The accounting master's internship is the track designed for the most highly qualified students who wish to commit to the MAcc or MTax program during the second semester of the junior year.

The internship provides a particularly rich and individualized educational experience during the senior year. It includes a number of distinct advantages for students: a full-time paid internship for credit with a participating accountancy firm, early consideration for scholarships, and possible eligibility for a GMAT waiver and a graduate application fee waiver for the MAcc or MTax program (eligibility is determined by the GPA at the time of application).

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 210 - Brief Calculus
Program Math Intensity: Moderate

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Taxation, MTax
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Freshmen admission requirements: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score, OR graduated in the top eight percent of high school class, OR an overall high school GPA of 3.60 in ASU competency courses (scale is \(4.00=\) " A ").

Freshmen should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice will be placed in a business BA program in W. P. Carey School of Business.

Readmission requirements: Students must meet freshman admission requirements by way of high school GPA, test score or class rank and must have a 3.00 transfer GPA (if applicable) and a cumulative ASU GPA of 3.00.

Transfer Admission Requirements
Transfer admission requirements ( 30 or more semester hours of credit after high school): 3.00 transfer GPA and one of the following: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score OR the student must have graduated in the top eight percent of their high school class

Transfer students should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other business or other degree program outside W. P. Carey School of Business
major or are not admissible to their second major choice are placed in the exploratory social and behavioral sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice are prompted in My ASU to select a new major.

\section*{Change of Major Requirements:}

Students should visit the following W. P. Carey website to determine if they meet change of major requirements: https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors (https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors). Students ready to change their major should submit their request through W. P. Carey's Advising SOS website: https://apps.wpcarey.asu.edu/apps/advising/index.cfm (https://apps.wpcarey.asu.edu/apps/advising/index.cfm).

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

Transfer from a Maricopa Community College in Arizona:

\section*{Agribusiness (Global Agribusiness), BS (AGAGBGABS)}

Campus: Polytechnic

\section*{Program Description:}

The agribusiness industry is increasingly competitive, sophisticated and global, driving demand for innovative leaders who understand the industry's unique challenges and practices. The programs offered through the highly respected Morrison School of Agribusiness and Resource Management prepares graduates for success in graduate school or a wide range of careers.

The BS in agribusiness teaches students the business of agricultural production, finance, marketing and distribution. Through a technology-rich curriculum that focuses on real-world projects, students explore global agribusiness issues such as international trade, food safety and sustainability.

The concentration in global agribusiness is an applied, industry-oriented curriculum. This concentration is specifically designed to meet the needs of the students interested in studying the business aspects of agriculture in the domestic and global economy. Students learn to analyze and manage issues involved in food manufacturing, input and output supply activities, commodity trading and food distribution.

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 210 - Brief Calculus
Program Math Intensity: Moderate

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Freshman and transfer students must submit either an SAT Reasoning test score or an ACT test score by the end of the first semester in the program (we do not require the writing portion of these tests). There is no minimum score requirement.

Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Readmission requirements: Students must meet freshman admission requirements by way of high school GPA, test score or class rank and must have a 3.00 transfer GPA (if applicable) and a 3.00 cumulative ASU GPA.

Transfer Admission Requirements
Transfer applicants must have a 3.00 GPA for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social and behavioral sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be prompted in My ASU to select a new major.

\section*{Change of Major Requirements:}

This program has been discontinued and is therefore not an eligible option in which to change majors.

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. \section*{Business, BA (BABUSBA)}

Campus: Polytechnic, Tempe, West

\section*{Program Description:}

The BA program in business provides an innovative, transdisciplinary approach to learning, which broadens career options upon graduation. Not only do students acquire a strong grounding in the principles of business, they also immerse themselves in coursework outside the business school, supplementing the business degree.

Students in the program learn how to apply core business knowledge in one of the following disciplines:
- agribusiness (global agribusiness)
- business administration
- Chinese language and culture
communication
- food industry management
- global leadership
- global logistics management
- global politics
- human resources
- law
- public service and public policy
- retail management
- Spanish language and culture
- sports and media studies
- statistics
- sustainability
technology
- tourism

\section*{Business (Chinese Language and Culture), BA (BABUSCLBA)}

Campus: Tempe

\section*{Program Description:}

The mission of the concentration in Chinese language and culture within the BA in business degree program is to create global business professionals who can function culturally and linguistically in the business environment in China and domestically. As China becomes an increasingly important participant in the global economy and as the manufacturing and financial sectors become more globalized, the need for business professionals skilled in communicating in the Chinese language is growing. Through a network of 26 flagship programs at 22 institutions of higher education across the U.S., the language flagship graduates students who will take their place among the next generation of global professionals, commanding a superior level of proficiency in languages critical to U.S. national security and economic competitiveness. This program will prepare participants to function professionally in Chinese within diverse business fields.

\section*{Career Opportunities:}

This degree program provides students with fundamental business skills, linguistic training, critical thinking and the intercultural competencies required to work in the increasingly globalized world markets that now rely on trade and commerce with China. Graduates of this program will be equipped to play a key role in companies and organizations seeking out new markets or dealing with international interests in the U.S. and will be suited to the demands of small business enterprises as well as multinational companies. Currently, there are demands for Mandarin-speaking business professionals in the hotel and tourism industry and in the consulting, banking and finance, international trade, sports management and media fields.

\section*{Career Opportunities:}

Career opportunities are generally substantive and in high demand. Senior management roles for corporate accountants include chief financial officer positions. Currently, more than half the CFOs at larger corporations have formal accounting training. Projecting into the future, the longer term trend is for CFOs to have extensive corporate accounting training, particularly since CFOs at public U.S. corporations personally sign the financial statements.

Typical early to mid-career positions held by corporate accountants include controllers, treasurers and vice presidents in areas like financial planning, divisional controlling, cost accounting directing, senior financial analysis and senior accounting. These positions typically report to the CFO.

\section*{Career Opportunities:}

The BA program in business with a concentration in food industry management prepares students for business careers in the food industry, which is defined as the group of firms and organizations involved with manufacturing, marketing and distributing food beyond the farm to retail stores, restaurants and institutions such as schools and hospitals. The industry is becoming increasingly competitive, sophisticated and global and shows a growing demand for professional management as one in six people are employed in the food industry nationwide, with 100,000 in Arizona.

\section*{Contact Information:}

Business, W. P. Carey School of
Morrison School of Agribusiness

\section*{Business (Global Agribusiness), BA (BABUSGAGBA)}

Campus: Polytechnic

\section*{Program Description:}

The agribusiness industry is increasingly competitive, sophisticated and global, driving demand for innovative leaders who understand the industry's unique challenges and practices. The BA in business with a concentration in global agribusiness teaches students the business of agricultural production, finance, marketing and distribution. Through a technology-rich curriculum that focuses on real-world projects, students explore global agribusiness issues such as international trade, food safety and sustainability. The concentration is an applied, industry-oriented curriculum. It is specifically designed to meet the needs of students interested in studying the business aspects of agriculture in the domestic and global economy. Students learn to analyze and manage issues involved in food manufacturing, input and output supply activities, commodity trading and food distribution.

Additional Program Fee: \(Y\)
Second Language Requirement: N
First Required Math Course:
Program Math Intensity: Moderate

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Environmental and Resource Management, MS
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Readmission requirements: Students must have a 3.00 transfer GPA (if applicable) and a 3.00 cumulative ASU GPA.

Transfer Admission Requirements:
Transfer applicants must have a 3.00 GPA for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social and behavioral sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be prompted in My ASU to select a new major.

\section*{Change of Major Requirements:}

Students should refer to the following W. P. Carey website to determine if they meet change of major requirements: https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors (https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors). Students ready to change their major should submit their request through W. P. \section*{Business (Global Logistics Management), BA (BABUSGLBA)}

Campus: West, Online

\section*{Program Description:}

Logistics management focuses on integration and partnerships necessary to meet customer needs on a timely basis, with relevant and high-quality products produced and delivered in a service-effective manner. This BA program in business with a concentration in global logistics management trains students to be strategic thinkers, excellent analysts, effective communicators and team leaders who are focused on efficiency, effectiveness and increasing revenue.

An efficient logistics management system is critical to the success of global corporations, making sure the supply of goods and services flowing through the system closely matches the demand. Logistics management professionals manage, coordinate and transport products from raw materials to the finished goods sitting on a local store shelf or offered by an online retailer. Efficient logistics is a key reason consumers can buy an ever-increasing variety of goods and services at remarkably low prices. Not surprisingly, logistics also plays a major role in the health care industry where efficient, effective delivery systems are gaining significant traction.

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 210 - Brief Calculus
Program Math Intensity: Moderate

\section*{Concurrent Degrees:}

This degree is also offered as concurrent degree program with International Trade, BS

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Readmission requirements: Students must have a 3.00 transfer GPA (if applicable) and a 3.00 cumulative ASU GPA.

Concurrent degree admission requirements:

Students interested in the international trade and business (global logistics management) program must meet general university admission requirements.

\section*{Transfer Admission Requirements}

Transfer applicants must have a 3.00 GPA for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Transfer students must have a 3.00 cumulative transfer GPA and a 3.00 cumulative ASU GPA (if applicable) in addition to meeting the general admission requirements in order to be admitted to this program. If the student does not meet the admission requirements for the concurrent program, they will be placed in the BS in international trade.

Students with fewer than 45 transfer credit hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social and behavioral sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 transfer credit hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be prompted in My ASU to select a new major.

\section*{Business (Health Care), BA (BABUSHCBA)}

Campus: West

\section*{Program Description:}

The BA program in business with a concentration in health care prepares students to operate within the challenging and dynamic health care industry by helping them develop skills and acquire knowledge through one of its five specialized tracks --- health care analytics, communication, coordination, innovation and delivery. Students graduating from the program go on to pursue careers in health care management and leadership by developing an ability to understand different stakeholders in these often-complex environments.

Additional Program Fee: N
Second Language Requirement: N
First Required Math Course: MAT 210 - Brief Calculus
Program Math Intensity: Moderate

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Readmission requirements: must have a 3.00 transfer GPA (if applicable) and a 3.00 cumulative ASU GPA.

Transfer Admission Requirements:
Transfer applicants must have a 3.00 GPA for all transfer coursework and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer credit hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in the Exploratory Social and Behavioral Sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 transfer credit hours who are not admissible to the College of Integrative Sciences and Arts will be contacted to select an appropriate major.

\section*{Change of Major Requirements:}

A current ASU student, in a major outside of business, must have a 3.00 transfer GPA (if applicable) and a 3.00 cumulative ASU GPA to change a major to this W. P. Carey program. Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Career Opportunities:}

The bachelor's degree program in business with a concentration in retail management prepares students to work in the retail industry. Drawing on coursework from four areas in the concentration that provide them with the broad preparation and leadership skills required today, graduates will be ready to assume positions of responsibility in the retail industry. Below are several anticipated career opportunities for students completing this program.
- administrative services manager
- business manager
- food service manager
- general and operations management
- management analyst
- operations specialist
- purchasing or buying manager
- sales manager
- training and development manager
- wholesale and manufacturing representative

\section*{Business (Spanish Language and Culture), BA (BABUSSLBA)}

Campus: Tempe, West

\section*{Program Description:}

The BA in business with a concentration in Spanish language and culture is an innovative, transdisciplinary program intended to prepare students for positions in a variety of professions in which business and communication play an important role in ensuring success. The program mission is to create global business professionals who can function culturally and linguistically in the business environment in both Latin America and the domestic market. Students complete rigorous courses within the Spanish language in addition to the skill and core courses required of all W. P. Carey School of Business majors.

\section*{Business (Sports Business), BA (BABUSMSBA)}

Campus: Tempe

\section*{Program Description:}

The BA program in business with a concentration in sports business is attractive to students with an interest in the sports industry. This concentration has been planned to provide students the necessary skills to build knowledge and understanding of the development of the strategic business process in sports organizations and its relationship to media. The proliferation of mass communication (including television, game systems and social networks) has transformed sports into a highly commercialized industry and, in turn, sports continue to generate revenues for these businesses. The interaction between sports and media has led to a multitude of applications of business knowledge to these fields. The sports business program offers a strong focus on applied elements of the sports industry, especially as it relates to media and its impact on the industry.

\section*{Business (Tourism), BA (BABUSTBA)}

\author{
Campus: Tempe, Online
}

\section*{Program Description:}

The BA degree in business with a concentration in tourism is an innovative, transdisciplinary program intended to prepare students for positions in a variety of professions in which business and tourism play important roles in ensuring success. Developing tourism and recreation opportunities requires an understanding of effective marketing techniques and the ability to interact with many different types of businesses that support those efforts. A solid academic preparation in business helps prepare students for success in the tourism industry and affiliated professions. Students in this program complete rigorous courses within the tourism concentration in addition to the skill and core courses required of all W. P. Carey School of Business majors.

\section*{Additional Program Fee: \(Y\)}

Second Language Requirement: N
First Required Math Course: MAT 210 - Brief Calculus
Program Math Intensity: Moderate

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Readmission requirements: Students must have a 3.00 transfer GPA (if applicable) and a 3.00 cumulative ASU GPA.

Transfer Admission Requirements:
Transfer applicants must have a 3.00 GPA for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social and behavioral sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be prompted in My ASU to select a new major.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-businesstourism)

\section*{Change of Major Requirements:}

Students should refer to the following W. P. Carey website to determine if they meet change of major requirements: https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors (https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors). Students ready to change their major should submit their request through W. P. Carey's Advising SOS: https://apps.wpcarey.asu.edu/apps/advising/index.cfm (https://apps.wpcarey.asu.edu/apps/advising/index.cfm).

\section*{Transfer Agreements:}

\section*{Business Entrepreneurship, BS (BABUENTBS)}

Campus: Tempe

\section*{Program Description:}

The BS program in business entrepreneurship prepares students to identify, evaluate and develop entrepreneurial opportunities in existing companies or through new ventures. Students earning the degree may choose to start a new venture, work for a startup or a small business or work as an innovator within an existing organization. The degree has an emphasis on collaboration, leadership, communication and team-building as well as development in refined analytical, managerial and leadership skills appropriate for people who want to change the world through innovation.

Students in the program frequently collaborate with students from across the university to give students a breadth of understanding in all business disciplines and a depth of understanding in opportunity recognition, feasibility, management of resources and strategy. Students completing the program understand the unique requirements of an entrepreneur and learn how to operate effectively to identify market opportunities, innovative solutions and execution strategies.

\section*{Business Exploratory, (BABUSEXP)}

Campus: Tempe

\section*{Program Description:}

Virtually every profession and organization uses business in some way. Business exploratory students have an opportunity to explore a variety of areas in business prior to selecting one of our nine majors:
- accountancy
- business data analytics
- business entrepreneurship
- computer information systems
- economics
- finance
- management
- marketing
- supply chain management

Students have an opportunity to work with world-class faculty in an environment that values high-quality teaching. Majors in the W. P. Carey School of Business provide students with the skills and knowledge needed in today's companies --- whether they are starting their own businesses or working in large multinational corporations. Additionally, many graduates attend some of the other top-tier graduate schools in the country in a variety of disciplines.

Computer Information Systems, BS (BACISBS)
Campus: Tempe, Online

\section*{Program Description}

Computer information systems are part of every business and organization. In this degree program, students learn about the exciting and innovative ways that information technology is used to help organizations succeed. Dedicated faculty members teach students how to design, build and maintain information systems that support business operations and managerial decision-making. In particular, students learn about:
- business intelligence for competitive advantage
- business process for workflow redesign
- data management for decision-making
- distributed systems for collaboration and globalization
- enterprise integration for synergy
- project management
- solution development for value creation

\section*{Additional Program Fee: Y}

Second Language Requirement: N
First Required Math Course: MAT 210 - Brief Calculus
Program Math Intensity: Moderate

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)

Additional Requirements:
Freshmen admission requirements: Students must have a score of 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016 ) OR 25 ACT score, OR graduated in the top eight percent of high school class, OR an overall high school GPA of 3.60 in ASU competency courses (scale is \(4.00=\) " A ").

Freshmen should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside of the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice will be placed in a business BA program in the W. P. Carey School of Business.

Readmission requirements: Students must meet freshman admission requirements by way of high school GPA, test score or class rank and must have a 3.00 transfer GPA (if applicable) and a 3.00 cumulative ASU GPA.

Transfer Admission Requirements:
Transfer admission requirements ( 30 or more semester hours of credit after high school): Students must have a 3.00 transfer GPA and a score of 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score OR the student must have graduated in the top eight percent of their high school class.

Transfer students should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other business or other degree program outside the W. P. Carey School of Business.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social and behavioral sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be prompted in My ASU to select a new major.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (https://asuonline.asu.edu/online-degree-programs/undergraduate/computer-information-systems-bs)

\section*{Career Opportunities:}

Currently, there is a shortage of information systems professionals, with many more jobs than graduates. With a degree in computer information systems, career choices are limitless. A computer information systems degree offers job opportunities in a variety of industries, including:
- education
- entertainment
- finance
health care
- national defense
- transportation

Information systems are key components in the success of other functional business areas such as accounting, supply chain, finance and marketing. Entry-level information systems positions include:
- computer forensics analyst
database administrator
- information systems consultant
- information technology security manager
- network administrator
- project manager
- software or systems developer
- systems administrator
- systems analyst

Long-term career aspirations for a student with a computer information systems degree include:
chief executive officer
chief information officer
- chief knowledge officer
- chief security officer
- chief technology officer

\section*{Economics, BS (BAECNBS)}

Campus: Tempe, Online

\section*{Program Description:}

The economics program requires a strong core of economic theory, supplemented by mathematics and data analysis. Students in this W. P. Carey BS degree program in economics choose from a variety of electives offered by the Department of Economics or electives offered by any other ASU
department. All students are encouraged to develop programs of study tailored to individual needs and interests. The undergraduate program provides students with the critical-thinking and communication skills needed to succeed in business or graduate school. The department's mission is to provide the highest quality instruction to students, conduct cutting-edge research in economics and provide leadership and service to professional communities.

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 210 - Brief Calculus
Program Math Intensity: Moderate

\section*{Concurrent Degrees:}

This degree is also offered as concurrent degree program with Engineering Management, BSE

\section*{Admission Requirements:}

\section*{Career Opportunities:}

A major in economics provides students with the analytical and quantitative skills needed to prepare them for careers in business, government or public policy. The program of study can also be tailored to prepare students for graduate programs in economics, business or law. Students interested in pursuing a doctorate in economics are strongly encouraged to minor or major in mathematics as well.

Graduates have taken positions such as:
- consultants who serve as advisers to state and federal governments as well as private corporations
- corporate economists who collect data and make forecasts relevant to the firm's business
- employment in banking and financial services firms

Each year, many graduates pursue additional studies at other prestigious universities.

Finance, BS (BAFINBS)

\section*{Campus: Tempe}

\section*{Program Description:}

The finance department has a rich tradition of educating leaders who excel in all aspects of the discipline of finance. Whether ascending to the top ranks of the venture capital industry, executing multimillion dollar real estate deals or becoming successful entrepreneurs with their own ideas and drive, graduates of the BS program in finance from the W. P. Carey School of Business are equipped to succeed.

In particular, the Investment Banking Industry Scholars program mentors students interested in going to Wall Street. The student investment management fund provides undergraduates the opportunity to manage a real-world investment portfolio worth hundreds of thousands of dollars.

Finance department faculty members are considered among the top in the world. The professional advisory board, comprised of leading professionals from the financial services, manufacturing, energy, investment banking and real estate sectors, provides a sounding board for new ideas and is a resource of jobs for top graduates.

\section*{Food Industry Management, BS (BAFIMBS)}

Campus: Polytechnic

\section*{Program Description:}

The BS program in food industry management is unique and has been developed in close coordination with partners in the food industry to help ensure graduates have the knowledge and skills needed to become immediate leaders in the industry. Students combine core courses in business disciplines (finance, marketing, management, accounting, supply chain management and economics) with courses specific to the food industry.
- environmental management and sustainability
- food industry sales and management
- food marketing strategy
- food retailing
- food supply networks
- futures and options markets
- innovation and food product development
- insurance
- pricing and promotion strategy in food markets
- retail information analysis
- risk management

Each of these courses addresses a different issue in which fundamental concepts, theoretical approaches, analytical methods and industry practice are unique to the food industry.

\author{
Additional Program Fee: Y \\ Second Language Requirement: N \\ First Required Math Course: MAT 210 - Brief Calculus \\ Program Math Intensity: Moderate
}

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Freshman and transfer students must submit either an SAT Reasoning test score or an ACT test score by the end of the first semester in the program (we do not require the writing portion of these tests). There is no minimum score requirement.

Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Readmission requirements: must meet freshman admission requirements by way of high school GPA, test score or class rank and must have a 3.00 transfer GPA (if applicable) and a 3.00 cumulative ASU GPA.

Transfer Admission Requirements
Transfer applicants must have a 3.00 GPA for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social and behavioral sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 transfer hours who are not admissible to the College of Letters and Sciences will be contacted to select an appropriate major.

\section*{Career Opportunities:}

The W. P. Carey degree program in food industry management prepares students for business careers in the food industry, which is defined as the group of firms and organizations involved with manufacturing, marketing and distributing food beyond the farm to retail stores, restaurants and institutions such as schools and hospitals. Employing one in six people nationwide, there is a growing demand for professional management in an industry that is becoming increasingly competitive, sophisticated and global.

Potential careers for graduates include:
- brand manager for a food manufacturing firm
- commodities trader for an investment bank or hedge fund
- district manager for a food retailer
- loan officer for a bank with a food-industry portfolio

Management, BS (BAMGTBS)
Campus: Polytechnic, Tempe, West, Online

\section*{Program Description:}

The W. P. Carey BS degree program in management prepares students to become effective managers and team leaders by providing theoretical and conceptual knowledge and building critical skills such as:
- analytical research and problem-solving
- communication
- critical thinking
- global applications
- leadership
- personal ethics and integrity
- teamwork

The curriculum includes the fundamentals of the global economy, the world of e-business, ethics, human resource and strategic management, and collaborative team skills. Throughout the program, theories and concepts of management and ethical leadership are enhanced by experiencing and testing these concepts in skill-based exercises, case discussions and real-world, team-based project work.

\section*{Additional Program Fee: Y}

Second Language Requirement: N
First Required Math Course: MAT 210 - Brief Calculus
Program Math Intensity: Moderate

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Freshmen admission requirements: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score, OR graduated in the top eight percent of high school class, OR an overall high school GPA of 3.60 in ASU competency courses (scale is \(4.00=\) "A").

Freshmen should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside of the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice will be placed in a business BA program in the W. P. Carey School of Business.

Readmission requirements: must meet freshman admission requirements by way of high school GPA, test score or class rank and must have a 3.00 transfer GPA (if applicable) and a 3.00 cumulative ASU GPA.

Transfer Admission Requirements:
Transfer admission requirements ( 30 or more semester hours of credit after high school): 3.00 transfer GPA and one of the following: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score OR the student must have graduated in the top eight percent of their high school class.

Transfer students should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other business or other degree program outside of the W. P. Carey School of Business.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social and behavioral sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be prompted in My ASU to select a new major.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-sciencemanagement)

\section*{Career Opportunities:}

The management major prepares graduates for managerial leadership in a world characterized by:
- corporate accountability
- cross-functional management
- demands for continuous process improvements to enhance the value chain
- ethical decision-making
- growing technological sophistication
- racial, cultural and gender diversity in the workforce
- the fast pace of e-business
- the need for skills in communicating and working with people, directing projects and managing change

Graduates with skills in these areas are likely to be recruited by:
- for-profit and nonprofit organizations
- high-tech firms
- large and small organizations
- management consulting firms
- service and manufacturing firms

The ONET salaries below reflect median salaries, not starting salaries.

\section*{Supply Chain Management, BS (BASCMBS)}

Campus: Tempe

\section*{Program Description:}

Supply chain managers coordinate the purchase of raw materials, the manufacturing and the transportation of materials across multiple vendors and multiple countries to provide the services and finished goods sitting on a local store shelf or available through an online retailer. It is a key reason that people can buy an ever-increasing variety of goods and services at remarkably low prices.

The BS degree program in supply chain management provides W. P. Carey School of Business students with an in-depth knowledge of integrated supply chain management. The curriculum focuses on:
- execution systems
- logistics
- negotiations
- operations
- planning
- procurement
- strategy development

Classes are small and use projects and case studies to bring the material to life.

Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Freshmen admission requirements: Students must have a score of 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score, OR graduated in the top eight percent of high school class, OR an overall high school GPA of 3.60 in ASU competency courses (scale is \(4.00=\) " A ").

Freshmen should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside of the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice will be placed in a business BA program in the W. P. Carey School of Business.

Readmission requirements: Students must meet freshman admission requirements by way of high school GPA, test score or class rank and must have a 3.00 transfer GPA (if applicable) and a 3.00 cumulative ASU GPA.

Transfer Admission Requirements:
Transfer admission requirements ( 30 or more semester hours of credit after high school): Students must have a 3.00 transfer GPA and a score of 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score OR the student must have graduated in the top eight percent of their high school class.

Transfer students should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other business or other degree program outside of the W. P. Carey School of Business.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social and behavioral sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be prompted in My ASU to select a new major.

\section*{Change of Major Requirements:}

Students should visit the W. P. Carey website (https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors (https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors)) to determine if they meet change of major requirements. Students ready to change their major should submit their request through W. P. Carey's Advising SOS:
https://apps.wpcarey.asu.edu/apps/advising/index.cfm (https://apps.wpcarey.asu.edu/apps/advising/index.cfm).

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Career Opportunities:}

Career track progression could lead to the vice president level in supply chain-related areas. Firms recruit ASU supply chain management graduates from around the world and in all sectors of the economy, including:
- health care
- manufacturing
- public and private
- retail
- service

Students from this program are highly sought after and have excellent placements. The following are some positions that supply chain management graduates have obtained:
- buyer or planner
- commodity manager
- distribution manager
- Internet marketing analyst
- inventory specialist
- logistics planner
- materials manager
- operations planner or analyst
- planner or analyst
- product forecaster
- production coordinator
- production line manager
- production scheduler
- quality control specialist
- supply management analyst

Technological Entrepreneurship and Management, BS (TSTEM2BS)
Campus: Polytechnic, Online

The BS program in technological entrepreneurship and management advances the knowledge and practice of entrepreneurship and innovation. To enhance students' understanding of business fundamentals, the Fulton Schools of Engineering have partnered with the W. P. Carey School of Business to offer a degree that is jointly conferred by both colleges. The degree program prepares students to address social and corporate issues to impact and change the world; create, launch and improve technology-based products, services and ventures; and identify and solve open-ended problems using engineering and technology approaches.

Students receive a foundation in both technology and business fundamentals, with an emphasis on technology entrepreneurship and innovation in one of two focus areas: innovation and operation management or social entrepreneurship.

The program objectives for this degree include:
- demonstrate the ability to identify, analyze and synthesize information to address and solve use-inspired, open-ended problems, assessing their impact on social, cultural and economic environments
- formulate methodologies to advance the knowledge of entrepreneurship and innovation
- launch technology-based products and services from idea generation through actualization
- use quantitative and qualitative methods to demonstrate continuous improvement of products, services, and processes
- utilize a systems approach for the effective design and improvement of entrepreneurial and innovation ventures

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Additional Program Fee: \(Y\)}

Second Language Requirement: N
First Required Math Course: MAT 210 - Brief Calculus
Program Math Intensity: Moderate

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with:
Global Technology and Development, MS
Technology (Management of Technology), MSTech
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.

\section*{Design \& the Arts, Herberger Institute for}

\section*{Architectural Studies, BSD (ARSTDBSD)}

Campus: Tempe

\section*{Program Description:}

Architects design buildings and environments that are useful, sustainable and aesthetically pleasing. This implies an understanding of people's needs, the science and technology of building, and the concepts of aesthetics. The faculty in The Design School offer a BSD in architectural studies. In addition to developing knowledge and skills in architectural design, building technology, landscape architecture and professional practice, students are encouraged to select electives from a broad range of approved courses within the institute and across the university. These electives may be selected to devise a minor, to further professional study or to enrich the student's academic experience in some other fashion.

All students who are admitted to the major must pass a degree milestone to continue in the major at the end of the first year. For more information on the milestone process, students should refer to https://design.asu.edu/resources/students/milestones
(https://design.asu.edu/resources/students/milestones).

This is an eight-semester program requiring sequential completion of studio coursework (or approved equivalent) at any point of entry.

\section*{Art (Art Education), BFA (FAARTEBFA)}

\section*{Campus: Tempe}

\section*{Program Description:}

The BFA program in art with a concentration in art education involves:
- art learning strategies and processes
- facilitation of the teaching of art
- policymaking in art
- the study of art

The program focuses on public and private K-12 instruction, art in higher education and educational programs in art museums. Students investigate issues in art teaching and learning from multiple perspectives, including:
- art inquiry
- context
- development
- studio
- visual culture

In addition to their art education coursework, students are required to take coursework in the various studio programs offered in the School of Art.

Students must submit a BFA declaration form after successful completion of the art foundational coursework to be admitted to the major.

\section*{Additional Program Fee: Y}

Second Language Requirement: N
First Required Math Course: MAT 142-College Mathematics
OR MAT 117 OR MAT 119

\section*{Program Math Intensity: General}

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Currently, all art students are admitted to ASU into the Bachelor of Arts (art studies) program. They must complete a series of requirements that include foundational coursework to be eligible for study in one of the school's Bachelor of Fine Arts degree programs, which include upper-division coursework in the studio. There is no portfolio review process for admission to the School of Art.

Students in their second year who are interested in studio art and art education obtain a signed BFA declaration form after completing the core requirements and during completion of the last of the 12 hours of 200 -level art requirements. Students interested in art history or museum studies submit a major declaration form in the semester in which they complete 30 credit hours. The student's major is changed upon successful completion of the major declaration form. Students may choose to remain in and complete the Bachelor of Arts (art studies).

Transfer Admission Requirements:
Transfer students who have completed the foundational core and pre-art requirements may submit a major declaration form before they have been admitted to ASU. To complete an undergraduate degree in four years, it is recommended that community college transfer students, who are completing a two-year degree and have completed the foundational core and pre-art requirements, apply and submit a declaration form in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Beginning Fall 2019, transfer students will be admitted directly to the Art Education concentration upon admittance to the BFA program in art

\section*{Change of Major Requirements:}

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is \(4.00=\) "A"). Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Career Opportunities:}

Graduates in art history at the bachelor's degree level find employment opportunities in commercial art galleries, entry-level jobs with art publications and in museums. A graduate degree is essential for professional jobs; a master's degree prepares individuals to teach at the community college level or to gain entry into museums, auction houses and publishing companies. The doctorate is a necessity for employment as a university or college teacher and for responsible administrative posts in the museum and publishing world.

\section*{Art (Art Studies), BA (FAARTSTDBA)}

Campus: Tempe

\section*{Program Description:}

The art studies curriculum offers students a broad educational foundation in the arts and General Studies. The BA program in art with a concentration in art studies is a transdisciplinary program featuring coursework in art history, studio art, performing arts and a range of arts-related courses throughout the university. This concentration offers students a great deal of flexibility in planning coursework. The scope of offerings in art is unparalleled at smaller institutions and the ability to combine art classes with offerings from other disciplines at ASU makes this a uniquely open
degree. An art studies student can assemble an art-related curriculum focused on individual student needs in consultation with a faculty advisor.
```

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 142-College Mathematics
OR MAT 117 OR MAT 119

```

Program Math Intensity: General

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Students meeting the university requirements for admission may matriculate in the Herberger Institute for Design and the Arts. Separate admission procedures and approvals are required for some programs within the college. Students must contact specific departments or schools for details.

Freshmen may apply directly to the art studies program; there is no portfolio review for this major.

Transfer Admission Requirements:
Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards

Every candidate for the bachelor's degree must earn a minimum of 30 semester hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 semester hours of resident credit in the major as approved by the faculty.

\section*{Change of Major Requirements:}

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is \(4.00=\) "A"). Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Art (Ceramics), BFA (FAARTCBFA)}

Campus: Tempe

\section*{Program Description:}

The BFA program in art with a concentration in ceramics provides a stimulating and challenging environment for artistic and intellectual growth. With the realization that discipline, familiarity with historical precedents, and freedom go hand in hand with creative activities, the area strikes a balance between the acquisition of traditional skills and the promotion of independence and innovation.

Responsibility is placed on the individual student to find personally meaningful content and an effective means to express that content within the ceramic arts. The ceramics program features a complete and varied line of kilns, wheels and other equipment. World-renowned faculty members ensure that students of the program learn the techniques and concepts that will enable their work to take any direction they wish. A strong guest artist schedule enhances the program and the Ceramics Research Center at the ASU Art Museum, with its collection of more than 3,000 pieces, provides unparalleled opportunities to study and research ceramics.

Students must submit a BFA declaration form after successful completion of the art foundational coursework to be admitted to the major.

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 142-College Mathematics
OR MAT 117 OR MAT 119

Program Math Intensity: General

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Currently, all art students are admitted to ASU into the Bachelor of Arts (art studies) program. They must complete a series of requirements that include foundational coursework to be eligible for study in one of the school's Bachelor of Fine Arts degree programs, which include upper-division coursework in the studio. There is no portfolio review process for admission to the School of Art.

Students in their second year who are interested in studio art and art education obtain a signed BFA declaration form after completing the core requirements and during completion of the last of the 12 hours of 200 -level art requirements. Students interested in art history or museum studies submit a declaration form in the semester in which they complete 30 credit hours. The student's major is changed upon successful completion of the major declaration form. Students may choose to remain in and complete the Bachelor of Arts (art studies).

Beginning Fall 2019, students will be admitted directly to the Ceramics concentration upon admittance to the BFA program in art.

\section*{Transfer Admission Requirements:}

Transfer students who have completed the foundational core and pre-art requirements may submit a major declaration form before they have been admitted to ASU. To complete an undergraduate degree in four years, it is recommended that community college transfer students, who are completing a two-year degree and have completed the foundational core and pre-art requirements, apply and submit a declaration form in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Beginning Fall 2019, transfer students will be admitted directly to the Ceramics concentration upon admittance to the BFA program in art.

\section*{Art (Digital Photography), BFA (HIARTDPBFA)}

\section*{Campus: Online}

\section*{Program Description:}

The BFA program in digital photography at ASU teaches students to master the technical, aesthetic and conceptual aspects of photography in the information age. Through assignments, readings, lectures, critiques, discussion and projects, students work with classmates, artists and faculty to develop and refine their own creative vision and comprehensive knowledge of the theory, practice and history of photography. Not bound by traditional schedules or the limitations of location, this program's flexibility creates a unique community of instructors and students and provides excellent studio-practice art education to a wide and diverse student population. The degree culminates in a capstone course dedicated to producing a self-defined final portfolio of accomplished work.

\section*{Art (Drawing), BFA (FAARTDBFA)}

Campus: Tempe

\section*{Program Description:}

The BFA program in art with a concentration in drawing offers a learning environment for creative, intellectual and technical growth that leads to quality art practice and professionalism. The program encourages a wide spectrum of approaches to contemporary drawing as visual expression, ranging from traditional to innovative. Students work under the guidance of a large, full-time faculty of active professionals who are nationally and internationally recognized. Visiting artists of national stature enhance the program with lectures and individual undergraduate critiques.

Students must submit a BFA declaration form after successful completion of the art foundational coursework to be admitted to the major.

\section*{Art (Fibers), BFA (FAARTFBFA)}

Campus: Tempe

The BFA program in art with a concentration in fibers cultivates an environment that stimulates creative and intellectual growth. Coursework ranges from the spinning and processing of raw fiber to digital textile printing. With concentrations in techniques such as weaving, dyeing, textile printing and fiber sculpture, students are encouraged to discover their individual artistic voice. Throughout the program, students are challenged to utilize and interpret textile traditions while considering innovative and interdisciplinary approaches to contemporary practices.

Students must submit a BFA declaration form after successful completion of the art foundational coursework to be admitted to the major.

\section*{Art (Intermedia), BFA (FAARTIBFA)}

Campus: Tempe

\section*{Program Description:}

The BFA program in art with a concentration in intermedia is conceptually driven, with a transdisciplinary approach to art-making. The broad-based curriculum builds on theories of socially engaged art practice and tactical media that carry the aims of social change and democratic engagement in a variety of contexts. Students are empowered to explore new avenues for self-expression, collaboration and community action. Coursework develops students' understanding of themselves as situated, contemporary artists as they learn to analyze significant cultural movements, national and international, from the present and from the recent past. The program covers a range of traditional and emerging forms and orientations reflecting the professional practices of the growing team of faculty members.

Currently, there is an emphasis on performance, installation, 3D printing, digital sculpture, public and place-based art, digital animation, and experimental and documentary video. Faculty also teach special topics including a recent studio seminar on walking as art practice and another that
investigates the engagement of women in the field of art and technology. Collaboration and study across other areas in the School of Art, including sculpture, fibers and photography, are encouraged and supported.

Students must submit a BFA declaration form after successful completion of the art foundational coursework to be admitted to the major.

Additional Program Fee: \(Y\)

\section*{Second Language Requirement: N}

First Required Math Course: MAT 142 - College Mathematics
OR MAT 117 OR MAT 119

Program Math Intensity: General

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Currently, all art students are admitted to ASU into the Bachelor of Arts (art studies) program. They must complete a series of requirements that include foundational coursework to be eligible for study in one of the school's Bachelor of Fine Arts degree programs, which include upper-division coursework in the studio. There is no portfolio review process for admission to the School of Art.

Students in their second year who are interested in studio art and art education obtain a signed BFA declaration form after completing the core requirements and during completion of the last of the 12 hours of 200 -level art requirements. Students interested in art history or museum studies submit a major declaration form in the semester in which they complete 30 credit hours. The student's major is changed upon successful completion of the major declaration form. Students may choose to remain in and complete the Bachelor of Arts (art studies).

Beginning Fall 2019, students will be admitted directly to the Intermedia concentration upon admittance to the BFA program in art.

Transfer Admission Requirements:
Transfer students who have completed the foundational core and pre-art requirements may submit a major declaration form before they have been admitted to ASU. To complete an undergraduate degree in four years, it is recommended that community college transfer students, who are completing a two-year degree and have completed the foundational core and pre-art requirements, apply and submit a declaration form in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Beginning Fall 2019, transfer students will be admitted directly to the Intermedia concentration upon admittance to the BFA program in art.

\section*{Change of Major Requirements:}

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is \(4.00=\) "A"). Students should refer to https://students.asu.edu/changingmajors
(https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Art (Metals), BFA (FAARTMBFA)}

Campus: Tempe

\section*{Program Description:}

The BFA program in art with a concentration in metals offers a wide range of traditional and nontraditional approaches to metals:
- attention to detail
- creativity
- critical thinking
- emphasizing craft skills
- metalworking

A well-equipped studio with a wide variety of metal-smithing tools is offered. Students explore the close relationship with the School of Art's sculpture and foundry programs, learn important entrepreneurial skills, and receive a strong foundation in technical vocabulary and methods for working with metal while being encouraged to experiment with alternative materials and techniques.

Students have the opportunity to gain knowledge and skills through additional educational opportunities that include:
- conferences and symposia
- internship possibilities
- lectures
- visiting artists
- visits to artist studios, museums and exhibitions
- workshops

ASU is located in proximity to numerous galleries and museums as well as local organizations such as:
- The Arizona Artist-Blacksmith Association
- The Arizona Designer Craftsmen
- Metalink

\section*{Art (Museum Studies), BA (FAARTMSBA)}

Campus: Tempe

\section*{Program Description:}

The BA program in art with a concentration in museum studies undergraduate program at ASU is one of the most rigorous in the U.S.

Museum studies students explore:
- art galleries
- art history
- art museums
- public art programs
- visual arts organizations

The program ensures that students are knowledgeable in:
- art history
- critical writing skills
- foreign languages
- museums, galleries and visual arts organizations

The curriculum includes art history courses taught by faculty with diverse specialties. Museum professionals and arts administrators teach specialized classes in their areas of expertise. Internships enable students to work directly with working arts professionals in their field of interest.

Students must take courses in
- art history
- galleries and museums
- research
- small business

Coursework may also include classes in nonprofit management and arts policy.

Students must also demonstrate an ability to read at least one foreign language.

Additional Program Fee: Y
Second Language Requirement: Yes
First Required Math Course: MAT 142-College Mathematics
OR MAT 142 OR MAT 119

Program Math Intensity: General

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Creative Enterprise and Cultural Leadership, MA
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Students meeting the university requirements for admission may matriculate in the Herberger Institute for Design and the Arts. Separate admission procedures and approvals are required for some programs within the college. Students must contact specific departments or schools for details.

Freshmen students applying to the Herberger Institute School of Art enter ASU as art exploratory majors in the School of Art. There is no portfolio review process at the time of admission to ASU for freshmen.

Typically students in their second year interested in studio art and art education submit a portfolio for review once they have completed their core requirements and are completing the last of the 12 hours of 200 -level art requirements, or if they are interested in art history or museum studies they submit a declaration form in the semester in which they complete 30 hours.

Transfer Admission Requirements:
Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards
must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

\section*{Change of Major Requirements:}

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is \(4.00=\) "A"). Students should refer to https://students.asu.edu/changingmajors

\section*{Career Opportunities:}

Museum studies graduates find employment in art galleries, art-based organizations and entry-level positions with art publications and museums. A graduate degree is necessary for professional positions. An MA prepares individuals to teach at community colleges and to gain entry into positions at museums, auction houses and publishing companies. The PhD is necessary for employment as a faculty member at a university or for administrative posts in museums and higher education.

Art (Painting), BFA (FAARTPABFA)
Campus: Tempe

\section*{Program Description:}

The BFA program in art with a concentration in painting offers a learning environment for creative, intellectual and technical growth that leads to quality art practice and professionalism. The program encourages a wide spectrum of approaches to contemporary painting as visual expression, ranging from traditional to innovative. Students work under the guidance of a large, full-time faculty of active professionals who are nationally and internationally recognized. Visiting artists of national stature enhance the program with lectures and individual undergraduate critiques.

To be admitted to the major, students must submit a BFA declaration form after successful completion of the art foundational coursework.

\section*{Art (Photography), BFA (FAARTPHBFA)}

Campus: Tempe

\section*{Program Description:}

Students in the BFA program in art with a concentration in photography are offered a solid education in the creation and analysis of photographs as a form of creative expression. Students work in a wide range of photographic media including specialized 19 th-century processes, traditional black-and-white and state-of-the-art digital output.

The internationally recognized photography faculty at ASU are diverse, representing and encouraging a wide range of approaches to the creation of photo-based art. Students learn to be self-disciplined and self-directed to understand complex ideas around how images function in their work and to develop a strong sense and control of the craft of photography. The Northlight Gallery engages students and provides opportunity to learn about
gallery and museum practice through mounting exhibitions and working with artists and the collection.

Students must submit a BFA declaration form after successful completion of the art foundational coursework to be admitted to the major. Students applying to study photography must also submit a portfolio. Students should see the photography admissions page for details.

\section*{Career Opportunities:}

A degree in the arts offers students a pathway to a rich and varied choice of careers. Students with a photography degree may work as independent studio photographers or contract for commercial work for firms, museums, galleries, individuals and other artists. The bachelor's degree program is essential for advanced study leading to the terminal MFA. This advanced degree offers opportunities in:
- curatorial work in galleries, museums and historical collections
- history or studio areas
- nonprofit arts organization management
- university teaching

\section*{Art (Printmaking), BFA (FAARTPMBFA)}

Campus: Tempe

\section*{Program Description:}

The BFA program in art with a concentration in printmaking provides a complete studio experience with regular courses in:
- book arts
- digital processes
- intaglio
- lithography
- papermaking
- photogravure
- relief
- screenprint
- other graphic applications
are encouraged to pursue a personal direction, the faculty encourage students to become well-rounded printmakers by experiencing and understanding many media, processes and approaches. No style, technique or aesthetic approach is stressed over another, so the individual quality of each student's work is the essential measure of achievement. Collaboration, experimentation and transdisciplinary approaches to making art are encouraged, and students often work with other areas in the School of Art, such as photography, intermedia, painting and drawing, and sculpture.

To be admitted to the major, students must submit a BFA declaration form after successful completion of the art foundational coursework.

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 142 - College Mathematics
OR MAT 117 OR MAT 119

Program Math Intensity: General

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

\section*{Additional Requirements:}

Currently, all art students are admitted to ASU into the Bachelor of Arts (art studies) program. They must complete a series of requirements that include foundational coursework to be eligible for study in one of the school's Bachelor of Fine Arts degree programs, which include upper-division coursework in the studio. There is no portfolio review process for admission to the School of Art.

Students in their second year who are interested in studio art and art education obtain a signed BFA declaration form after completing the core requirements and during completion of the last of the 12 hours of 200 -level art requirements. Students interested in art history or museum studies submit a major declaration form in the semester in which they complete 30 credit hours. The student's major is changed upon successful completion of the major declaration form. Students may choose to remain in and complete the Bachelor of Arts (art studies).

Beginning Fall 2019, students will be admitted directly to the Printmaking concentration upon admittance to the BFA program in art.

\section*{Transfer Admission Requirements}

Transfer students who have completed the foundational core and pre-art requirements may submit a major declaration form before they have been admitted to ASU. To complete an undergraduate degree in four years, it is recommended that community college transfer students, who are completing a two-year degree and have completed the foundational core and pre-art requirements, apply and submit a declaration form in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Beginning Fall 2019, transfer students will be admitted directly to the Printmaking concentration upon admittance to the BFA program in art.

\section*{Change of Major Requirements:}

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is \(4.00=\) "A"). Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select
where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

Transfer from a Maricopa Community College in Arizona:

Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

Trained printmakers are working artists, practicing the expression of a personal understanding of their place in the world. They may find employment as artists or printmakers in schools of all levels teaching the execution and appreciation of visual art. They also work in fine art print studios, executing original prints for other artists. Printmaking skills such as screenprinting or photomechanical and digital techniques, acquired for the production of art, also have commercial, nonart applications that may afford skilled employment. Artists with printmaking skills may also work with graphic designs, illustrations and signage or may work in museums, conservation, publishing, galleries and in other art-related activities. Additionally, their art may sell successfully in the open marketplace.

\section*{Art (Sculpture), BFA (FAARTSBFA)}

\section*{Campus: Tempe}

\section*{Program Description:}

The BFA program in art with a concentration in sculpture recognizes the broad, transdisciplinary nature of sculpture today. A wide range of media now falls within an expanded definition of sculpture. Coursework includes:
- architectural sculpture
- foundry
- interactive and kinetic sculpture
- neon
- small metals
- wood
- video and sound installation

While classes run the gamut of the contemporary sculpture environment, there also is an emphasis on helping students put today's creations in the contexts of the history of sculpture and the larger field of contemporary art. Critical inquiry is augmented by courses in the art history program. Visiting artists, curators and critics connect students to the contemporary context.

To be admitted to the major, students must submit a BFA declaration form after successful completion of the art foundational coursework.

Arts (BA in the Arts), BA (FAATSBA)
Campus: Tempe

\section*{Program Description:}

The BA in the arts is an interdisciplinary degree program designed for students who are passionate about the arts and interested in combining knowledge about multiple arts disciplines. Students will gain an increased understanding of the theoretical, historical and cultural forces that shape the arts through an open-ended path for the exploration and development of a range of skills that will be valuable for advanced study in multiple areas.

The major includes a common core for all students, and students choose a focus from arts administration or entertainment design or the student may design a focus that is subject to approval by the institute's standards committee and the dean's office.

\section*{Dance, BFA (FADANBFA)}

Campus: Tempe

\section*{Program Description:}

The School of Film, Dance and Theatre provides a dynamic and culturally diverse learning environment in which students develop as creative artists, scholars and educators. The BFA program in dance offers a transdisciplinary curriculum that emphasizes collaboration and a holistic approach to education. The program encourages the thought that artists of the 21 st century need to develop multiple skills for success in the arts and related fields.

The core values of the program include creativity, research, leadership, reflection, humanity and context. These values are embedded in a broad range of academic experiences that emphasize:
- creative practices --- the study of the creative process and dance-making using improvisation, choreography and interdisciplinary approaches
- movement practices --- the study of the theory, history and technique of a range of dance forms and mind-body practices, including contemporary ballet, postmodern contemporary dance, somatic practices and urban dance practices
- dance and digital arts
- dance history, ethnography and philosophy
- seminars

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 142-College Mathematics
OR MAT 117 OR MAT 119

Program Math Intensity: Genera

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.

Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Admission to the BFA in dance is selective and based on an interview process. Students are admitted to ASU as dance interview students and must successfully complete an interview and audition before enrolling in the dance major. If a student passes the interview, the School of Film, Dance and Theatre will change the student's major to the BFA in dance. In the event the student is admitted to ASU but not selected as a dance major or misses the interview application deadline, the student enters ASU as a dance interview student and will need to successfully pass the dance interview and audition milestone in the first semester in order to gain admission into the program.

Interview days take place in November, February and April of each year. To ensure a smooth curricular progression, all prospective dance students, including transfer students, are strongly encouraged to participate in the interview day during the semester prior to their intended date of enrollment. More information on the interview process and deadlines can be found at https://filmdancetheatre.asu.edu/degree-programs (https://filmdancetheatre.asu.edu/degree-programs).

Additional Requirements:

Dance Interview Days 2017-18

Materials due November 10, 2017 for November 18, 2017 interview.

Materials due February 9, 2018 for February 17, 2018 interview.

Materials due March 30, 2018 for April 7, 2018 interview.

Transfer Admission Requirements:
Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

\section*{Change of Major Requirements:}

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is \(4.00=\) "A"). Students should refer to https://students.asu.edu/changingmajors

The comprehensive academic foundation of the Bachelor of Fine Arts degree program in dance prepares students to be leading dance professionals of the 21st century. Graduates of the program have the expertise to pursue professions as choreographers, performers, educators, community artists, scholars and much more. After leaving ASU, many graduates:
- conduct academic research
- curate or produce dance festivals and events
- direct or manage performing art companies, studios or dance-related organizations
- facilitate community partnerships and projects
- produce dance media for performance or instruction
- pursue certification in somatic practices (Laban Movement Analysis, Feldenkrais, Alexander Technique, Body-Mind Centering, etc.)
teach and design curriculum
- work as a dance critic
- work in the areas of health and wellness (fitness, yoga, massage therapy, etc.)
- work in the field of arts management and administration
- work in technical theatre and dance production
- write for scholarly publications

\section*{Dance (Dance Education), BFA (FADANEBFA)}

Campus: Tempe

\section*{Program Description:}

The BFA program in dance with a concentration in dance education prepares students for certification to teach dance in K-12 schools in the state of Arizona. Students in this degree program are required to complete additional state certification requirements. The School of Film, Dance and Theatre provides a dynamic and culturally diverse learning environment where students develop as creative artists, scholars and educators. Studies in dance cultures, music, digital media, dance history, philosophy and criticism, movement science, somatics and stage and screen production enhance the rich educational setting. Creativity and research, the core program values, are embedded in a broad range of academic experiences emphasizing movement and creative practices, artistic process, leadership and pedagogy.

\section*{Additional Program Fee: Y}

Second Language Requirement: N
First Required Math Course: MAT 142-College Mathematics
OR MAT 117 OR MAT 119

Program Math Intensity: General

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

\section*{Additional Requirements:}

Admission to the BFA in dance is selective and based on an interview process. Students are admitted to ASU as dance interview students and must successfully complete an interview and audition before enrolling in the dance major. If a student passes the interview, the School of Film, Dance and Theatre will change the student's major to the BFA in dance. In the event that the student is admitted to ASU but not selected as a dance major or misses the interview application deadline, the student enters ASU as a dance interview student and will need to successfully pass the dance interview and audition milestone in the first semester in order to gain admission into the program.

Interview days take place in November, February and April of each year. To ensure a smooth curricular progression, all prospective dance students, including transfer students, are strongly encouraged to participate in the interview day during the semester prior to their intended date of enrollment. More information on the interview process and deadlines can be found at https://filmdancetheatre.asu.edu/degree-programs (https://filmdancetheatre.asu.edu/degree-programs).

Additional Requirements:

Dance Interview Days 2017-18

Materials due November 10, 2017 for November 18, 2017 interview.

Materials due February 9, 2018 for February 17, 2018 interview.

Materials due March 30, 2018 for April 7, 2018 interview.

Transfer Admission Requirements:
Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

\section*{Change of Major Requirements:}

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is \(4.00=\) "A"). Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn) Estrella Mountain Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn) GateWay Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn) Glendale Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn) Mesa Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn) Paradise Valley Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn) Phoenix College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn) Rio Salado College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn) Scottsdale Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn) South Mountain Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)

Transfer from an Arizona Community College:

\section*{Design Studies, BA (ARDSNBA)}

Campus:

\section*{Program Description:}

The BA in design studies is a four-year, nonstudio program of study in design that focuses on the design disciplines offered in the ASU Herberger Institute:
- architectural studies
- graphic design
- industrial design
- interior design
- landscape architecture

It is a highly flexible program of study, much like a liberal arts degree, in which students select design and design-related courses offered in the institute and throughout the university. Students acquire a breadth of design knowledge via courses taken from three categories: communication for design, design history and general design

It provides a design education, general and specific, to students who seek opportunities in the broader design sector or in graduate education.

Students may undertake the program in one of two specific concentrations: design studies, which allows students to discover the myriad possibilities of design as a subject area as well as the flexibility that it provides for further exploration; or design management, which offers a selection of courses in management and human communication that complement design.

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 142 - College Mathematics
OR MAT 117 OR MAT 119

\section*{Digital Culture, BA (HIDGCBA)}

Campus: Tempe

\section*{Program Description:}

The BA program in digital culture equips students with the technical skills to create computational media and the cultural skills to know when or why to apply them. Students learn to create computational media, computation combined with objects, sound, video, time, space, culture and bodies; breathe behavior into media, objects or systems by programming; and think critically about how computation impacts lives and how culture makes a difference in how people experience computational media, a critical skill in the dynamic 21 st century.

Armed with skills and judgment, graduates work in cultural communication, marketing, design, social media, health, education, entertainment and creative arts, and all areas in which culture is shaped by technology and computational media. All students gain techniques to change the world and communicate using contemporary computational media, a vital power in the 21st century. Some go on to invent fresh techniques.

This program is also offered as an accelerated degree with an MA in Creative Enterprise and Creative Leadership. More information can be found on the Creative Enterprise and Cultural Leadership website: https://herbergerinstitute.asu.edu/research-and-initiatives/enterprise-and-entrepreneurship-programs/curb-enterprise-leadership/master-of-arts (https://herbergerinstitute.asu.edu/research-and-initiatives/enterprise-and-entrepreneurship-programs/curb-enterprise-leadership/master-of-arts).

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 210 - Brief Calculus
Program Math Intensity: Moderate

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Creative Enterprise and Cultural Leadership, MA
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

\section*{Career Opportunities:}

Upon graduation, digital culture students have a wide array of career opportunities in new media involving the fields of:
- communications (CISCO, Google, Facebook)
- computing (Apple, Microsoft)
- gaming and entertainment (Industrial Light and Magic, Electronic Arts, Pixar)
- media arts (engineering multimedia shows, video and sound production)

The digital culture curriculum also prepares students for roles in the development of modern media systems that address complex socio-technical problems, such as:
- diagnostic, monitoring, and assistive cyber-physical tools and systems that can be used by health care providers
- new systems for collaborative, participatory content creation and sharing
- social networking and reflection tools for promoting sustainability
- systems for interactive, adaptive learning and computational assessment in educational organizations

Graduates of the digital culture program who are interested in continuing their higher education will be well prepared to apply for admission to the top interdisciplinary new media programs in the nation, including the graduate programs through the School of Arts, Media and Engineering at ASU.

Digital culture alumni have received job opportunities in:
- audio and video
- engineering
- graphic design
- illustration
- iOS development
- journalism
- programming
- software engineering
- special effects
- 3D modeling and fabrication
- visual media

Northland Pioneer College(https://transfer.asu.edu/tag)
Pima Community College(https://transfer.asu.edu/tag)
Tohono O'odham Community College(https://transfer.asu.edu/tag)
Yavapai College(https://transfer.asu.edu/tag)

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

Upon graduation, digital culture students have a wide array of career opportunities in new media involving the fields of:
- communications (CISCO, Google, Facebook)
- computing (Apple, Microsoft)
- gaming and entertainment (Industrial Light and Magic, Electronic Arts, Pixar)
- media arts (engineering multimedia shows, video and sound production)

The digital culture curriculum also prepares students for roles in the development of modern media systems that address complex sociotechnical problems, such as:
- diagnostic, monitoring, and assistive cyber-physical tools and systems that can be used by health care providers
- new systems for collaborative, participatory content creation and sharing
- social networking and reflection tools for promoting sustainability
- systems for interactive, adaptive learning and computational assessment in educational organizations

Graduates of the digital culture program who are interested in continuing their higher education will be well prepared to apply for admission to the top interdisciplinary new media programs in the nation, including the graduate programs through the School of Arts, Media and Engineering at ASU.

Digital culture alumni have received job opportunities in:
- audio and video
- engineering
- graphic design
- illustration
- iOS development
- journalism
- programming
- software engineering
- special effects
- 3D modeling and fabrication
- visual media

\section*{Digital Culture (Design), BA (HIDGCDBA)}

Campus: Tempe

\section*{Program Description:}

The BA program in digital culture equips students with the technical skills to create computational media and the cultural skills to know when or why to apply them. Students learn to create computational media, computation combined with objects, sound, video, time, space, culture and bodies; breathe behavior into media, objects or systems by programming; and think critically about how computation impacts lives and how culture makes a difference in how people experience computational media, a critical skill in the dynamic 21 st century.

Armed with skills and judgment, graduates work in cultural communication, marketing, design, social media, health, education, entertainment and creative arts, and all areas in which culture is shaped by technology and computational media. All students gain techniques to change the world and communicate using contemporary computational media, a vital power in the 21 st century. Some go on to invent fresh techniques.

Digital Culture - Design Concentration

The digital culture program with a concentration in design allows students to specialize in hybrid (physical and digital) product and space design. Students complement their knowledge with an understanding of the principles of space and product design as well as the historical and theoretical aspects of design, and they develop integrative design approaches to the digital and physical elements of hybrid products and spaces.

All students gain techniques to change the world and communicate using contemporary computational media, a vital power in the 21 st century. Some go on to invent fresh techniques.

Digital Culture - English Concentration

The digital culture program with a concentration in English is designed for students who wish to explore the historical, scientific and theoretical intersections of art, media and technology. Sharing of stories and media through electronic communities, participatory art-making and creativity forums on the web, gaming, digital movies and effects, mediated public spaces and electronic design are only a few of the new activities that are defining and evolving culture. Students in the major will assist in the establishment, evolution and proliferation of such culture at the state, national and international level. Students will use tools of inquiry to examine, analyze and create works of art through a hands-on approach to communication, writing, rhetoric and literacies in collaboration with the English department.

All students gain techniques to change the world and communicate using contemporary computational media, a vital power in the 21st century. Some go on to invent fresh techniques.

Digital Culture - Interdisciplinary Arts and Performance Concentration

This digital culture program in interdisciplinary arts and performance is offered in partnership with the New College of Interdisciplinary Arts and Sciences. The program focuses on a transdisciplinary and collaborative approach to the arts, technology and performance. It emphasizes the traditions of transdisciplinary, avant-garde and experimental arts and on contemporary art and performance. Courses include digital media arts, music and electronic sound art, performance studies, theatre and performance practice, and digital graphics.

Tohono O'odham Community College(https://transfer.asu.edu/tag)
Yavapai College(https://transfer.asu.edu/tag)

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

Upon graduation, digital culture students have a wide array of career opportunities in new media involving the fields of:
- communications (CISCO, Google, Facebook)
- computing (Apple, Microsoft)
- gaming and entertainment (Industrial Light and Magic, Electronic Arts, Pixar)
- media arts (engineering multimedia shows, video and sound production)

The digital culture curriculum also prepares students for roles in the development of modern media systems that address complex sociotechnical problems, such as:
- diagnostic, monitoring, and assistive cyber-physical tools and systems that can be used by health care providers
- new systems for collaborative, participatory content creation and sharing
- social networking and reflection tools for promoting sustainability
- systems for interactive, adaptive learning and computational assessment in educational organizations

Graduates who are interested in continuing their higher education will be well prepared to apply for admission to the top interdisciplinary new media programs in the nation, including the graduate programs through the School of Arts, Media and Engineering at ASU.

Digital culture alumni have received job opportunities in:
- audio and video
- engineering
- graphic design
- illustration
- iOS development
- journalism
- programming
- software engineering
- special effects
- 3D modeling and fabrication
- visual media

\section*{Digital Culture (Media Processing), BA (HIDGCMPBA)}

Campus: Tempe

\section*{Program Description:}

The BA program in digital culture equips students with the technical skills to create computational media and the cultural skills to know when or why to apply them. Students learn to create computational media, computation combined with objects, sound, video, time, space, culture and bodies; breathe behavior into media, objects or systems by programming; think critically about how computation impacts lives and how culture makes a difference in how people experience computational media, a critical skill in the dynamic 21 st century.

Armed with skills and judgment, graduates work in cultural communication, marketing, design, social media, health, education, entertainment and creative arts, and all areas in which culture is shaped by technology and computational media. All students gain techniques to change the world and communicate using contemporary computational media, a vital power in the 21 st century. Some go on to invent fresh techniques.

Digital Culture - Media Processing Concentration

This digital culture program in media processing is offered in partnership with the Ira A. Fulton Schools of Engineering. The program is designed for students who desire to specialize in media processing aspects of new media. Students complement their knowledge with a more advanced understanding of programming, data structures, signals processing and system architecture aspects of new media.

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 210 - Brief Calculus
Program Math Intensity: Moderate

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

\section*{Change of Major Requirements:}

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is \(4.00=\) "A"). Students should refer to https://students.asu.edu/changingmajors
(https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Environmental Design, BS (HIEDSBS)}

Campus: Tempe

\section*{Program Description:}

The BS program in environmental design offers an integrated curriculum in environmental design primarily in a nonstudio format. This undergraduate program is designed to create a deep awareness and knowledge of issues that influence the design of built environments and the design of artifacts in general.

The program of study emphasizes general knowledge and design research as well as focus areas. Focus areas include histories and theories of design; innovation, technology and design strategies; and sustainability in environmental design. The curriculum provides special understanding of theories, technologies, social issues and management aspects related to the student's chosen focus area. While studio courses cannot be taken as electives, students take career-specific design electives, and the degree prepares students for all graduate programs in The Design School.

The program itself is not a professional degree program but provides a broad base of skills and knowledge in environmental design.

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 170 - Precalculus
Program Math Intensity: Moderate

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Creative Enterprise and Cultural Leadership, MA
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

\section*{Change of Major Requirements:}

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts or one of its programs must have a minimum cumulative GPA of 2.50 (scale is \(4.00=\) "A"). Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change the major to this program.

\section*{Transfer Agreements:}

\section*{Fashion, BA (HIFSHBA)}

Campus: Tempe

\section*{Program Description:}

The BA degree program in fashion at ASU combines history, business practices and hands-on studio experience to prepare students for a variety of roles in this important industry. This program is distinguished from other fashion programs in the U.S. through its integration with other research disciplines in the university. Students have the opportunity to pursue tracks in marketing and merchandising, costuming, wearable technology, sustainability, management and leadership, international experience, and fashion and culture. In the capstone experience, students develop a substantial project within their focus track. Opportunities for internships and study abroad further advance students' professional goals. Through the leadership of well-known industry professionals, the bachelor's degree in fashion is connected globally to leaders in the industry.

\section*{Film (Film and Media Production), BA (FAFLMBA)}

Campus: Tempe

\section*{Program Description:}

The School of Film, Dance and Theatre offers a BA in film with a concentration in film and media production. Students pursuing this concentration develop a comprehensive and practical knowledge of production, awareness and impact of media and entertainment on audiences and culture and an understanding of the role of the artist in society. Students have access to digital cameras, lighting and sound equipment, post-production software and facilities, and other resources and technologies that will give them an opportunity to produce a final capstone project of exceptional technical quality.

Within this concentration, students have a choice between three upper-division tracks of study: directing, producing and media technology. Each of these focused courses of study is supported by the degree-wide emphasis on ethical filmmaking practices, innovative creative expression and preparation for a career as an industry professional.

All students enter as majors in the filmmaking practices concentration. After completing the required five core film degree courses (for 15 credits), students are eligible to apply to the studio-based concentration in film and media production. Students who enter ASU as freshman typically apply for the film and media production program in their third or fourth semester; transfer students may apply earlier depending on academic record, experience and preparation.

Additional Program Fee: Y
Second Language Requirement: \(N\)
First Required Math Course: MAT 142 - College Mathematics
OR MAT 117 OR MAT 119

Program Math Intensity: General

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

\section*{Additional Requirements:}

All film students will be admitted to ASU into the Bachelor of Arts in film, filmmaking practices concentration. Students who wish to pursue the highly selective, studio-based Bachelor of Arts in film, film and media production concentration must complete the 15 -hour film core and successfully pass an interview and review of their creative work to enter the concentration. This interview and creative work review generally takes place in the third or fourth term at ASU.

\section*{Change of Major Requirements:}

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is \(4.00=\) "" \(\mathrm{A} " \mathrm{"}\) ). Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Film (Filmmaking Practices), BA (FAFPRBA)}

Campus: Tempe

\section*{Program Description:}

Students who pursue the BA program in film with a concentration in filmmaking practices receive grounding in fundamental production skills; entertainment and media ethics; feature, short, and episodic screenwriting; and general film and media industry history and practices.

Students have the option of two tracks of study in the upper division: screenwriting or preprofessional. Students who choose the track in screenwriting are required to take multiple writing courses at the intermediate and advanced levels. Students in the preprofessional track chose among a series of course options in each of these areas: writing, producing, and film and media technology. Production experience is regularly available through select lower-division courses that provide creative coursework options, the upper-division course FMP 300, and credited opportunities to work on projects produced by students, faculty, and the School of Film, Dance and Theatre. All students complete a year-long senior project, initiated and developed by the students and supported with dedicated faculty mentorship.

\section*{Additional Program Fee: Y}

Second Language Requirement: N
First Required Math Course: MAT 142-College Mathematics
OR MAT 117 OR MAT 119

Program Math Intensity: General

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Creative Enterprise and Cultural Leadership, MA
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Graphic Design, BSD (ARGRABSD)}

Campus: Tempe

\section*{Program Description:}

The faculty in The Design School offer the BSD in graphic design.

Graphic designers are responsible for designing how information is communicated. Forms of communication include print, video, film and electronic (Web). Graphic designers are concerned with:
- appearance
- choosing the appropriate mechanism for communication
- clarity of information and its effectiveness
- how communication is transferred and received

This program places an emphasis on strategic communication, developed through a design process that includes research, analysis, conceptualization, planning and realization. The process leads to innovative visual communication design solutions for contemporary design problems that are local to global in scope.

All students who are admitted to the major must pass a degree milestone at the end of the first year to continue in the major. For more information on the milestone process, students should visit https://design.asu.edu/resources/students/milestones
(https://design.asu.edu/resources/students/milestones).

This is an eight-semester program requiring sequential completion of studio coursework (or approved equivalent) at any point of entry.

\section*{Industrial Design, BSD (ARINDBSD)}

Campus: Tempe

\section*{Program Description:}

Industrial designers are responsible for the design of product and service systems that people use in their everyday lives. The BSD program in industrial design at ASU focuses on a new model of transdisciplinary product development called integrated innovation. Using this model of innovation, students systematically work through a matrix of four questions:
- What is valuable to users?
- What is possible through engineering?
-What is desirable to business?
-What is good for society and the environment?

The goal of the program is to help students learn how to create product and service systems that:
- benefit society while minimizing impacts on the environment
- can be realized through appropriate technology and engineering
- create measurable value for business
- satisfy people's needs

All students who are admitted to the major must pass a degree milestone to continue in the major at the end of the first year. For more information on the milestone process, students should visit https://design.asu.edu/resources/students/milestones (https://design.asu.edu/resources/students/milestones).

This is an eight-semester program requiring sequential completion of studio coursework (or approved equivalent) at any point of entry.

They may obtain employment as members of in-house design teams at corporations in a variety of industries including, but not limited to:
- consumer goods
- furniture
- health care and medical products
- packaging design
- sports and outdoor goods
- toys
- trade show and exhibit design
- transportation and mobility device design
- user interface design

Graduates may obtain employment with consulting firms that design products and services for a variety of clients. They may obtain employment with nonprofit institutions or nongovernmental organizations addressing specific social or environmental problems. They may pursue entrepreneurship opportunities; some graduates have established their own design and manufacturing ventures; or graduates may pursue teaching a variety of courses in art and design schools, colleges or universities, part time or full time.

Interior Design, BSD (ARINTBSD)
Campus: Tempe

\section*{Program Description:}

Coursework in the BSD program in interior design examines the context and spaces in which individuals and groups live and work.

Interior designers create environments within buildings that meet the physical and psychological needs of individuals and institutions, providing a useful, rich and rewarding environment for their lives. Interior design involves the design of space, equipment and furniture. It requires substantial technical and organizational understanding; sensibility to form, lighting, color and texture; and an awareness of design history and theory.

\section*{Program Description:}

The BSLA program offers students the opportunity to engage with the community in applied projects that focus on designing sustainable outdoor environments and improving the ecological and social health of the urban environment

Undergraduate landscape architecture program projects can range from large-scale work encompassing urban design, landscape reclamation, open space preservation planning, and landscape ecological design to projects at the more intimate scale of a neighborhood park or residential back yard. Emerging areas of focus include biotechnical design; urban agriculture; greenways, green roofs and living walls; and healing environments. Students complement their design learning with electives from a broad range of approved courses.

All students must pass a degree milestone at the end of the first year to continue in the major. For more information, students should visit https://design.asu.edu/resources/students/milestones (https://design.asu.edu/resources/students/milestones).

This is an eight-semester program requiring sequential completion of studio coursework (or approved equivalent).

Additional Program Fee: Y

First Required Math Course: MAT 170 - Precalculus
Program Math Intensity: Moderate

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

\section*{Change of Major Requirements:}

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change the major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)
Estrella Mountain Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)

Yavapai College(https://transfer.asu.edu/tag)

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

The bachelor's degree program is designed to prepare students for landscape architecture professional practice and advanced study at the graduate level, and graduates have found employment in nationally recognized firms working with notable landscape architects in large multinational firms or in public agencies. Graduates also have gone on to pursue graduate study at universities with distinguished graduate programs in landscape architecture and allied design fields.

The U.S. Bureau of Labor Statistics projects employment for landscape architects will grow 16 percent from 2010 to 2020, about as fast as the average for all occupations. The bureau also notes that "employers prefer to hire entry-level landscape architects who have internship experience,
which significantly reduces the amount of on-the-job training required." The bachelor's degree program has an internship requirement meant to address this preference and better prepare graduates for employment.

Music, BA (FAMUSBA)
Campus: Tempe

\section*{Program Description:}

The BA program in music provides students with a broadly based liberal arts degree applicable to careers in music and many other fields. The music curricular core provides more flexibility than a BMus, leading students to develop mainstream and alternative musical competencies; to explore music as human history, cultural artifact and social behavior; and to pursue other areas of interest.

Additional Program Fee: Y
Second Language Requirement: Yes
First Required Math Course: MAT 142 - College Mathematics
OR MAT 117 OR MAT 119

Program Math Intensity: General

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Creative Enterprise and Cultural Leadership, MA
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements: Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music application. Students should visit https://music.asu.edu/admissions/undergraduate-steps-to-apply (https://music.asu.edu/admissions/undergraduate-steps-to-apply) for details. Admission to the School of Music is based on an audition. Live auditions take place on campus in November (spring admission) and in January and February (fall admission) of each year. Applicants may review audition information at http://music.asu.edu/admissions/undergraduateauditions (http://music.asu.edu/admissions/undergraduate-auditions).

Admission to the School of Music is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, the applicant's major will be changed to music. In the event a student is admitted to ASU but not to the School of Music or misses the audition deadline, the student will remain as a music audition major and will need to successfully pass the music audition milestone in the first semester in order to gain admission into the program.

Application Deadlines: Students should visit http://music.asu.edu/admissions/undergraduate-deadlines-fees (http://music.asu.edu/admissions/undergraduate-deadlines-fees) for complete music deadlines.

Fall 2018: The deadline to apply for admission to this program is Jan. 5, 2018.

Transfer Admission Requirements:
Transfer Applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

\section*{Change of Major Requirements:}

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is \(4.00=\) "A"). Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change the major to this program.

\section*{Music (Music and Culture), BA (HIMUSMCBA) \\ Campus: Tempe}

\section*{Program Description:}

The BA program in music with a concentration in music and culture provides students with a broadly based liberal arts degree applicable to careers in music and many other fields. The music curricular core is combined with elective flexibility, leading students to develop mainstream and alternative musical competencies; to explore musics as human history, cultural artifact and social behavior; and to pursue other areas of interest. This is a liberal arts-based degree program in which students have a higher percentage of elective courses, allowing them to tailor both the General Studies courses and the music electives to suit their career goals.

\section*{Additional Program Fee: Y}

Second Language Requirement: Yes
First Required Math Course: MAT 117-College Algebra
Or MAT 119 or MAT 142

Program Math Intensity: General

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music application. Students should visit https://music.asu.edu/admissions/undergraduate-steps-to-apply (https://music.asu.edu/admissions/undergraduate-steps-to-apply) for details. Admission to the School of Music is based on an audition. Live auditions take place on campus in November (spring admission) and in January and February (fall admission) of each year. Review audition information at http://music.asu.edu/admissions/undergraduate-auditions (http://music.asu.edu/admissions/undergraduate-auditions).

Admission to the School of Music is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, the applicant's major will be changed to music. In the event a student is admitted to ASU but not to the School of Music or misses the audition deadline, the student will remain as a music audition major and will need to successfully pass the music audition milestone in the first semester in order to gain admission into the program.

Audition process for admittance to music and culture concentration:
- Submit a writing sample, which will be evaluated by all musicology faculty members.

Submit evidence of musicianship broadly defined (basic notational literacy plus live audition on, for example, didgeridoo or gospel-style composition, or documented transdisciplinary installation including music), which will be evaluated by all musicology faculty.
- Attend an interview with at least three musicology faculty members.
- Each student will be matched with a musicology advisor at the time of acceptance. The advisor will assist students in the choice of ensembles (as qualified) and electives to support their programs of study. Students must audition and be accepted into large ensembles following established procedures.
- Students who wish to take studio lessons as part of the degree must audition for the appropriate performance faculty members. Students should follow the BA in music audition requirements.

Application Deadlines:Students should visit http://music.asu.edu/admissions/undergraduate-deadlines-fees (http://music.asu.edu/admissions/undergraduate-deadlines-fees) for complete music deadlines.

Spring 2018: The deadline to apply for admission to this program is Oct. 16, 2017.

Fall 2018: The deadline to apply for admission to this program is Jan. 5, 2018.

Transfer Admission Requirements:
Transfer Applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio and class piano courses with respect to performance standards.

\section*{Music Therapy, BMUS (FAMUSTHBM)}

Campus: Tempe

\section*{Program Description}

The BMus program in music therapy prepares students for a career in the health care and special education professions. Music therapists use carefully planned music interventions to achieve desired changes in client individualized behavior and functioning. Music therapy is a profession in which engagement in active music-making helps a client achieve nonmusical therapeutic goals. Educating the potential music therapist requires both a wide range of musical skills and the ability to work with people in a therapeutic manner. Music therapy students have many opportunities to develop their clinical skills. Students also study:
- human anatomy
- musical improvisation
- popular music styles
- psychology
- songwriting
- special education
- world music

Graduates are eligible to sit for the music therapy certification examination given by the Certification Board for Music Therapists. Positions are available regionally and nationally in hospitals, schools, rehabilitation centers, nursing homes and other health care facilities. Graduates are prepared to work in:
- community music therapy and wellness
- geriatric care
- mental health
- physical rehabilitation
- special education
- veteran and military populations

A music therapy career may also provide an opportunity for private practice with flexible hours.

\section*{Performance (Collaborative Piano), BMUS (FAMUSPPBM)}

Campus: Tempe

\section*{Program Description:}

The BMus in performance with a concentration in collaborative piano offers private instruction in both solo and collaborative piano, offers faculty coaching of chamber music repertoire as well as offers ample opportunity for extensive collaborative performance experiences. The program focuses on the core repertoire of art song, piano chamber music and selected works from the operatic, musical theatre and oratorio repertoire. Collaboration within the School of Music involves all performance areas, including:
- classes and opportunities with the Lyric Opera Theatre
- concerts with large ensembles and choirs
- duo recitals with instrumental and voice colleagues
- performances of great chamber music literature

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 142-College Mathematics
OR MAT 117 OR MAT 119

Program Math Intensity: General

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music application. Students should visit https://music.asu.edu/admissions/undergraduate-steps-to-apply (https://music.asu.edu/admissions/undergraduate-steps-to-apply) for details. Admission to the School of Music is based on an audition. Live auditions take place on campus in November (spring admission) and in January and February (fall admission) of each year. Applicants may review audition information at http://music.asu.edu/admissions/undergraduateauditions (http://music.asu.edu/admissions/undergraduate-auditions).

Admission to the School of Music is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, the applicant's major will be changed to music. In the event a student admitted to ASU but not to the School of Music or misses the audition deadline, the student will remain as a music audition major and will need to successfully pass the music audition milestone in the first semester in order to gain admission

Application Deadlines: Students should visit http://music.asu.edu/admissions/undergraduate-deadlines-fees (http://music.asu.edu/admissions/undergraduate-deadlines-fees) for complete music deadlines.

Spring 2018: The deadline to apply for admission to this program is Oct. 16, 2017.

Fall 2018: The deadline to apply for admission to this program is Jan. 5, 2018.

Transfer Admission Requirements
Transfer Applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

\section*{Change of Major Requirements:}

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is \(4.00=\) "A"). Students should refer to https://students.asu.edu/changingmajors
(https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Performance (Jazz), BMUS (FAMUSPJBM)}

Campus: Tempe

\section*{Program Description:}

The BMus in performance with a concentration in jazz places an emphasis on the improvisational aspects of jazz. The curriculum combines jazz performance, composition and pedagogy in a program that allows the student to express himself or herself musically while emphasizing the skills necessary to pursue a career as a professional musician. The study of jazz performance can be a suitable background for work in:
- contemporary composition
- film scoring, writing and arranging
- performance
private instruction
- recording studios
- teaching jazz pedagogy and other related fields in the music industry

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music application. Students should visit https://music.asu.edu/admissions/undergraduate-steps-to-apply (https://music.asu.edu/admissions/undergraduate-steps-to-apply) for details. Admission to the School of Music is based on an audition. Live auditions take place on campus in November (spring admission) and in January and February (fall admission) of each year. Review audition information at http://music.asu.edu/admissions/undergraduate-auditions (http://music.asu.edu/admissions/undergraduate-auditions).

Admission to the School of Music is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, the applicant's major will be changed to music. In the event a student is admitted to ASU but not to the School of Music or misses the audition deadline, the student will remain as a music audition major and will need to successfully pass the music audition milestone in the first semester in order to gain admission into the program.

Application Deadlines: Students should visit http://music.asu.edu/admissions/undergraduate-deadlines-fees (http://music.asu.edu/admissions/undergraduate-deadlines-fees) for complete music deadlines.

Spring 2018: The deadline to apply for admission to this program is Oct. 16, 2017.

Fall 2018: The deadline to apply for admission to this program is Jan. 5, 2018.

Transfer Admission Requirements:
Transfer Applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

\section*{Change of Major Requirements:}
cumulative GPA of 2.50 (scale is \(4.00=\) "A"). Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Performance and Movement, BA (HIPERMVBA)}

Campus: Tempe

\section*{Program Description:}

The BA in performance and movement is an inclusive, transdisciplinary degree program that encourages students to develop collaborative approaches to learning and professional industry skills in the performing arts. This program is grounded in cultivating community practice through theatre, dance and music. The bachelor's degree program is located within the ecosystem of Phoenix, the sixth largest urban center in the United States, and enabling students to understand, deconstruct and uplift diverse artistic modes across media and encouraging the student to create a flexible degree program that intersects and engages these areas of interest. This degree program offers a number of focus areas: dance and theatre, music theatre, social and partnership dance, and urban arts.

Dance and theatre --- The dance and theatre focus area is designed for dancers who seek experience working with theatrical performance and acting; actors and performers who seek to balance text and voice work with movement exploration; and writers and directors who want to explore a wide range of approaches to live performance.
performance and dance. Students are offered a variety of courses within the School of Music and the School of Film, Dance and Theatre. This unique academic program allows students to blend key elements of traditional musical theatre curriculum with an expanded focus on foundational courses that provide skills and tools to be a well-rounded theatre artist.

Social and partnership dance --- The social and partnership dance focus area is an innovative program that allows students to explore multiple styles and approaches in social and partnership dance both in formal classroom study and informal student-centered community events. The focus area seeks to prepare future Latin social and ballroom dance leaders with pedagogical, performance and community-building strategies to support the need for serving local and national community engagement in social dance as a means to create social transformation and change.

Urban arts --- The urban arts focus area is designed for the student interested in melding intersectional embodied practice, social justice and urban arts culture by offering a critical look at the historical, social and practical application of urban arts scholarship and culture. The program focus spans various forms of urban artistry and expression through thought-provoking in-studio courses and hands-on practical application and connects students with scholars and urban arts practitioners, to embrace the interdisciplinary nature of urban arts: dance, music, visual and voice.

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Creative Enterprise and Cultural Leadership, MA
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)

Additional Requirements:
Students interested in the BA in theatre are admitted directly into the major by indicating their degree preference on their ASU admission application.

Students interested in the BA in theatre, BA in theatre with a concentration in acting, or BA in theatre with a concentration in design and production will enter as BA theatre majors. Once students begin to complete classes at ASU in the BA theatre program, they may apply to a concentration in either acting or design and production.

Transfer Admission Requirements:
Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards

Every candidate for the bachelor's degree must earn a minimum of 30 semester hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 semester hours of resident credit in the major as approved by the faculty.

\section*{Change of Major Requirements:}

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is \(4.00=\) "A"). Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

\section*{Theatre (Acting), BA (FATHEABA)}

Campus: Tempe

\section*{Program Description:}

The BA program in theatre with a concentration in acting provides students with a rigorous academic and hands-on theatre education that emphasizes performance in both live theatre and recorded media. Within the context of a comprehensive liberal arts education, the program prepares students for both advanced graduate study in the field and entry-level careers in acting and performance. The program offers specialty coursework in the following areas:
- film
- movement
- new work development
- performance styles
theatre for youth
- voice and speech

\section*{Additional Program Fee: Y}

Second Language Requirement: N
First Required Math Course: MAT 142 - College Mathematics
OR MAT 117 OR MAT 119

Program Math Intensity: General

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Students interested in the BA in theatre are admitted directly into the major by indicating their degree preference on their ASU admission application.

Students interested in the BA in theatre, BA in theatre with a concentration in acting, or BA in theatre with a concentration in design and production will enter as BA theatre majors. Once students begin to complete classes at ASU in the BA theatre program, they may apply to a concentration in either acting or design and production.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards

Every candidate for the bachelor's degree must earn a minimum of 30 semester hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 semester hours of resident credit in the major as approved by the faculty.

\section*{Change of Major Requirements:}

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is \(4.00=\) "A"). Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Theory and Composition (Composition), BMUS (FAMUSTCBM)}

Campus: Tempe

\section*{Program Description:}

Students pursuing the BMus in theory and composition must choose a concentration in either theory or composition, and completion of the requirements for this concentration result in the award of one degree in either theory or composition. Students who select the concentration in composition focus on developing techniques for writing music. The School of Music offers students the opportunity to study with composers who have established national and international reputations. This program may be used as the first step toward a master's degree or doctorate in music composition or another graduate academic music degree.

\section*{Additional Program Fee: \(Y\)}

Second Language Requirement: N

\section*{Program Math Intensity: Genera}

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music application. Students should visit https://music.asu.edu/admissions/undergraduate-steps-to-apply (https://music.asu.edu/admissions/undergraduate-steps-to-apply) for details. Admission to the School of Music is based on an audition. Live auditions take place on campus in November (spring admission) and in January and February (fall admission) of each year. Applicants may review audition information at http://music.asu.edu/admissions/undergraduateauditions (http://music.asu.edu/admissions/undergraduate-auditions).

Admission to the School of Music is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, the applicant's major will be changed to music. In the event a student is admitted to ASU but not to the School of Music or misses the audition deadline, the student will remain as a music audition major and will need to successfully pass the music audition milestone in the first semester in order to gain admission into the program.

Application Deadlines: Students should visit http://music.asu.edu/admissions/undergraduate-deadlines-fees (http://music.asu.edu/admissions/undergraduate-deadlines-fees) for complete music deadlines. Submission of a prescreening portfolio is required for all composition applicants. Applicants may review audition information at "a href="https://music.asu.edu/admissions/undergraduate-auditions">https://music.asu.edu/admissions/undergraduate-auditions.

Spring 2018: The deadline to apply for admission to the Bachelor of Music in composition is Oct. 2, 2017. A prescreening portfolio is required, uploaded to the online School of Music Application.

Fall 2018: The deadline to apply for admission to the Bachelor of Music in composition is Dec. 1, 2017. A prescreening portfolio is required, uploaded to the online School of Music Application.

Transfer Admission Requirements:
Transfer Applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

\section*{Change of Major Requirements:}

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is \(4.00=\) "A"). Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Engineering, Ira A. Fulton Schools of}

\section*{Aeronautical Management Technology (Air Traffic Management), BS (ESAMTATBS)}

Campus: Polytechnic

\section*{Program Description:}

The BS program in aeronautical management technology with a concentration in air traffic management provides a technical foundation in the air traffic control procedures used by air traffic controllers in air traffic control towers and air traffic control radar facilities. Students gain a strong background in aircraft operations, management skills and business principles through coursework specific to air traffic control and aviation. As a part of the degree program, students are required to take courses that will qualify them to earn their airline dispatcher certificate.

This is an intensive program of classroom study and laboratory practice using state-of-the-art air traffic control simulators to enhance and reinforce classroom study. Students develop the following skills:

\footnotetext{
- analytical thinking
}
- clear and concise communication
- problem-solving
- teamwork

The Aviation Accreditation Board International accredits this program and the Federal Aviation Administration certifies flight and ground instruction.

\author{
Additional Program Fee: N \\ Second Language Requirement: N \\ First Required Math Course: MAT 170 - Precalculus \\ Program Math Intensity: Moderate
}

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Technology (Aviation Management and Human Factors), MSTech
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)
Additional Requirements:
To be considered for employment by the Federal Aviation Administration, graduates of the program need to be aware of minimum requirements for employment. See https://www.faa.gov/jobs/career_fields/aviation_careers (https://www.faa.gov/jobs/career_fields/aviation_careers/) for more information. Graduates of the program are not guaranteed employment by the Federal Aviation Administration. Students who do not have U.S. citizenship may be admitted to the program but will not be eligible for employment by the Federal Aviation Administration.

\section*{Change of Major Requirements:}

A current ASU student has no additional requirements for changing majors. Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

The Federal Aviation Administration's 2016 Controller Workforce Plan has projected that the agency plans to hire more than 7,400 new controllers over the next five years to keep pace with the expected attrition rate and traffic growth. The total number of planned hires for the period of 2016-2025 is 12,088 new controllers. Increases in the volume of air traffic will require more controllers to handle the additional work. New computerized systems will assist controllers by automatically making many of the routine decisions. This will allow controllers to handle more traffic, thus increasing their productivity.

To prepare for this challenge, students receive training in the methodologies and technologies that are currently being developed for the next generation of air traffic control systems. Despite the obvious demand for new controllers in the immediate future, competition to get into the FAAapproved training programs is expected to remain intense as there generally are many more applicants than there are openings. Graduates who have met all the FAA requirements will be eligible for consideration for employment.

\section*{Aeronautical Management Technology (Air Transportation Management), BS (TSAMTMBS)}

Campus: Polytechnic

\section*{Program Description:}

The air transportation management concentration, under the BS program in aeronautical management technology, provides students with a strong foundation of aviation concepts, including aviation law, policy and human factors as well as technical knowledge focusing on power plants, structures and aerodynamics. Students then progress into courses focusing on business and management and operational aspects of aviation such as airline administration and airport planning. All students finish the program by participating in an internship within industry and completion of a capstone project.

This program prepares students for leadership positions within airlines, airports, government, consulting and entrepreneurial enterprises.

The Aviation Accreditation Board International accredits this program.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 170-Precalculus
Program Math Intensity: Moderate

\section*{Aeronautical Management Technology (Professional Flight), BS (TSAMTFBS)}

Campus: Polytechnic

\section*{Program Description:}

Students in the professional flight concentration learn to fly in an academic environment that prepares graduates for careers as professional pilots. Flight training is offered by an ASU-approved flight provider in late-model aircraft equipped with state-of-the-art avionics. The Polytechnic campus is adjacent to the Phoenix-Mesa Gateway Airport where flight instruction takes place. Students may take advantage of pathway agreements for guaranteed interviews with regional air carriers.

This program is for students who are seriously interested in becoming professional airline pilots. Graduates are prepared to assume responsibilities in a wide variety of technically related areas within professional aviation flight operations.

The Aviation Accreditation Board International accredits this program and the Federal Aviation Administration certifies flight and ground instruction.

Additional course-related fees apply; students should see the program website for more information.

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 170-Precalculus
Program Math Intensity: Moderate

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Technology (Aviation Management and Human Factors), MSTech

\title{
Aeronautical Management Technology (Unmanned Aerial Systems), BS (TSAMTUASBS) Campus: Polytechnic
}

\section*{Program Description:}

The unmanned aerial systems concentration prepares students for careers in the rapidly growing area of unmanned aerial systems, including operations, remote sensing, data collection and analysis. The concentration incorporates all aviation management technology core courses and unmanned aerial systems concentration courses. This provides an overview of unmanned aerial systems operations followed by detailed knowledge of unmanned aerial systems-specific systems and technology (ground control stations; data links; flight planning and operations; search, detect and avoid technologies; and payloads) and unmanned aerial systems sensor operations. A critical aspect of this academic area of study is the data capture and transfer of the sensor information collected from the unmanned aerial vehicle. This innovative concentration brings together the most up-to-date and relevant aspects facing multiple industries today by addressing flight system planning and operations and the employment of the systems in the congested National Airspace System.

\section*{Aerospace Engineering (Aeronautics), BSE (ESAEROBSE)}

Campus: Tempe

\section*{Program Description:}

The aerospace engineering curriculum provides students with an education in technological areas critical to the design and development of aerospace vehicles and systems. The aeronautics concentration, under the BSE in aerospace engineering, emphasizes engineering and the design of aircraft, helicopters, missiles and other vehicles that fly through the atmosphere. Topics in required courses cover:
- aerodynamics
- aerospace materials
- aircraft structures
- flight mechanics
- propulsion
- stability and control

Required astronautics topics include:
- attitude control
- orbital mechanics

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (http://www.abet.org/).

\section*{Additional Program Fee: \(Y\)}

Second Language Requirement: N
First Required Math Course: MAT 265-Calculus for Engineers I
Program Math Intensity: Substantial

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with:

\section*{Aerospace Engineering, MS}

Mechanical Engineering, MS
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant (see http://global.asu.edu/future/undergrad (http://global.asu.edu/future/undergrad)), then admission to engineering requires a minimum

TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements:
Transfer students with fewer than 24 transferable college credit hours:
- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours:
- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

\section*{Change of Major Requirements:}

Admission requirements for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards. Students should see https://engineering.asu.edu/admission-requirements/ (https://engineering.asu.edu/admission-requirements/) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Transfer from another state:

\section*{Career Opportunities:}

A majority of students entering the field of aerospace engineering desire to work on the design and analysis of aerospace vehicles. Most graduates are employed in the aerospace industry or in government positions related to aerospace. Specific careers in aerospace engineering include:
- aeronautical and space systems integration
- configuration development
- material and structural design
- propulsion engineering
- space mission design and analysis
- vehicle and component analysis using computer-aided tools
- vehicle design and performance
- wind tunnel and flight testing

The aerospace engineering program has the following educational objectives:
- Through volunteering, entrepreneurial endeavors, community service, employment, etc., graduates of the aerospace engineering program will demonstrate commitment to the Sun Devil ideals of global engagement, social embeddedness, social transformation and sustainability. Graduates of the aerospace engineering program should have attained one or more of the following objectives within a few years after completing their degrees:
- employment in aerospace or other field in a position that capitalizes on the skills and abilities gained through the degree in aerospace engineering, in positions of increasing responsibility and leadership within the organization
- admission into a graduate degree program in aerospace engineering or other technical field
- admission into a professional degree program, such as law or business, in accordance with the specific interests and abilities of the graduate

- configuration development
- material and structural design
- propulsion engineering
- space mission design and analysis
- vehicle and component analysis using computer-aided tools
- vehicle design and performance
- wind tunnel and flight testing

The aerospace engineering program has the following educational objectives:
- Through volunteering, entrepreneurial endeavors, community service, their employment, etc., graduates of the aerospace engineering program demonstrate commitment to the Sun Devil ideals of global engagement, social embeddedness, social transformation and sustainability. Graduates of the aerospace engineering program should have attained one or more of the following objectives within a few years after completing their degrees:
- employment in aerospace or other field in a position that capitalizes on the skills and abilities gained through the degree in aerospace engineering, in positions of increasing responsibility and leadership within their organization
- admission into a graduate degree program in aerospace engineering or other technical field
- admission into a professional degree program, such as law or business, in accordance with the specific interests and abilities of the graduate

\section*{Aerospace Engineering (Autonomous Vehicle Systems), BSE (ESAEAVSBSE)}

Campus: Tempe

\section*{Program Description:}

Emerging emphasis on autonomous aircraft technology and operations in both military and civilian sectors signals a new era within the aeronautical community focused on autonomous vehicles and systems. The autonomous vehicle concentration will provide graduates with knowledge and skills required for any career in aerospace engineering plus those specific to unmanned aerial vehicles and systems. The concentration curriculum is structured so that students will have general exposure to the engineering of autonomous aircraft plus track courses in one area important to this field. The tracks are guidance, navigation and control; and communications. Both tracks are intended for aerospace engineering students. All paths through this concentration satisfy accreditation criteria for aerospace engineering.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (http://www.abet.org).

\section*{Additional Program Fee: Y}

Second Language Requirement: N
First Required Math Course: MAT 265-Calculus for Engineers I
Program Math Intensity: Substantial

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with:
Aerospace Engineering, MS
Mechanical Engineering, MS
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see http://global.asu.edu/future/undergrad (http://global.asu.edu/future/undergrad)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

\section*{Freshman Admission:}
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements:
Transfer students with fewer than 24 transferable college credit hours:
- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours:
- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

\section*{Change of Major Requirements:}

Admission requirements for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards. Students should refer to https://engineering.asu.edu/admission-requirements/ (https://engineering.asu.edu/admission-requirements/) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Air Traffic Management, BS (TSATMBS)}

Campus: Polytechnic

\section*{Program Description:}

The air traffic management program provides a technical foundation in the air traffic control procedures used by air traffic controllers in air traffic control towers and air traffic control radar facilities. Students gain a strong background in aircraft operations, management skills and business principles through coursework specific to air traffic control and aviation. As a part of the degree program, students are required to take courses that will qualify them to earn their airline dispatcher certificate.

This is an intensive program of classroom study and laboratory practice using state-of-the-art air traffic control simulators to enhance and reinforce classroom study. Students develop the following skills:
- analytical thinking
- clear and concise communication
- problem-solving
- teamwork

The Aviation Accreditation Board International accredits this program and the Federal Aviation Administration certifies flight and ground instruction.
```

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 265-Calculus for Engineers I
Program Math Intensity: Substantial

```

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Technology (Aviation Management and Human Factors), MSTech
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
To be considered for employment by the Federal Aviation Administration, graduates of the program need to be aware of minimum requirements for employment. See https://www.faa.gov/jobs/career_fields/aviation_careers/
(https://www.faa.gov/jobs/career_fields/aviation_careers/) for more information. Graduates of the program are not guaranteed employment by the Federal Aviation Administration. Students who do not have U.S. citizenship may be admitted to the program but will not be eligible for employment by the Federal Aviation Administration.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

The Federal Aviation Administration's 2015 Controller Workforce Plan has projected that the agency plans to hire more than 6,300 new controllers over the next five years to keep pace with the expected attrition rate and traffic growth. The total number of planned hires for the period of 2015-2024 is 10,241 new controllers. Increases in the volume of air traffic will require more controllers to handle the additional work. New computerized systems will assist controllers by automatically making many of the routine decisions. This will allow controllers to handle more traffic, thus increasing their productivity.

To prepare for this challenge, students receive training in the methodologies and technologies that are currently being developed for the next generation of air traffic control systems. Despite the obvious demand for new controllers in the immediate future, competition to get into the FAAapproved training programs is expected to remain intense as there generally are many more applicants than there are openings. Graduates who have met all the FAA requirements will be eligible for consideration for employment.

\section*{Applied Computer Science, BS (TSACSBS)}

Campus: Polytechnic

\section*{Program Description:}

The BS program in applied computer science provides students with an education that targets the computing profession. Students will learn to use mathematics, science and economics, along with technological knowledge and skill in the application of programming languages and software processes, to design, analyze, implement and test software systems and applications. The program is problem- and project-based, using the languages, tools and methods of computing best practices. Graduates gain significant exposure to team-based software development through industry-driven projects.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Campus: Polytechnic}

\section*{Program Description:}

The BAS program is a transfer pathway specifically for students who have earned a community college AAS degree. The goal of the program is to provide students with management, leadership, critical thinking and communication skills along with significant work in a professional specialization. Students must complete an Associate of Applied Science degree to be eligible for this program. AA and AS students are not eligible for this program

This program allows students who have earned an Associate of Applied Science degree from a regionally accredited institution to transfer 60 credit hours toward a Bachelor of Applied Science degree at ASU. Students who have earned an Associate of Applied Science degree from a regionally accredited Arizona community college may be eligible to transfer up to 75 credits toward the Bachelor of Applied Science degree. The Bachelor of Applied Science curriculum builds on the general education content of the Associate of Applied Science and includes four blocks of credits: general studies, core, concentration and assignable credits.

The ASU General Studies requirements will be completed through upper-division coursework. The applied science core curriculum includes content in management and organization, professional communication, statistical processes and computer competency. The concentration has a 20-credit hour minimum of specialization courses. The assignable credits (six credit hours) are traditional electives selected in consultation with an advisor to enhance the curriculum. Assignable credit also can be used to strengthen math and science capabilities or computer skills.

Students in the Bachelor of Applied Science program can select one of six specialty concentrations shown below. Students who choose to create their own specialty should select the courses in conjunction with an advisor.
- aviation management technology
- electronic and energy systems
- graphic information technology
- Internet and Web development
- manufacturing technology and management
- operations management technology

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Additional Program Fee: N
Second Language Requirement: N
First Required Math Course: ASC 315-Numeracy in Technology

\section*{Applied Science (Aviation), BAS (TSAMTABAS)}

Campus: Polytechnic

\section*{Program Description:}

This program allows students who have an applicable AAS from an accredited institution to transfer 60 credit hours toward a BAS at ASU. Students pursuing this degree may have more than 60 credit hours to complete in order to obtain their Bachelor of Applied Science upon transfer to ASU. Students who have earned an Associate of Applied Science degree from a regionally accredited Arizona community college may be eligible to transfer up to 75 credits toward the Bachelor of Applied Science degree. Students should work with their academic advisor to ensure their courses will meet degree requirements.

The concentration in aviation is for students who have received training and education in some aspect of the air transportation industry, such as air transportation management, flight or aviation maintenance, as part of their associate degree.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue)

Additional Program Fee: N

\section*{Second Language Requirement: N}

First Required Math Course:
Any math course with the MA general studies designation will satisfy the math requirement.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.

\section*{Applied Science (Electronic Energy Systems), BAS (TSEESBAS)}

Campus: Polytechnic

\section*{Program Description:}

The BAS program is flexible, designed specifically for students who have earned an AAS from a regionally accredited institution.

The electronic and energy systems concentration serves students with an electronics background via three paths or emphasis areas: alternative energy, electronic systems and integrated electronic systems (focused on the semiconductor industry).

The alternative energy technologies emphasis explores various alternative energy resources. This program provides hands-on laboratory experience on energy conversion and storage technologies, including photovoltaics, fuel cells, batteries, electrolyzers and supercapacitors.

The electronic systems emphasis allows students to continue to develop a knowledge of electrical and electronic fundamentals, with an applications perspective and a focus on the general topics of microcontrollers and advanced digital controllers and how these are used in industry.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Additional Program Fee: N

\section*{Second Language Requirement: N}

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree from a regionally accredited institution. This program is not available for freshmen.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Applied Science (Graphic Information Technology), BAS (TSGITBAS)}

Campus: Polytechnic

\section*{Program Description:}

The BAS program with a concentration in graphic information technology allows students who have an applicable AAS from an accredited institution to transfer 60 credit hours toward a Bachelor of Applied Science degree at ASU. Students pursuing this degree may have more than 60 credit hours to complete in order to obtain their Bachelor of Applied Science upon transfer to ASU. Students who have earned an Associate of Applied Science degree from a regionally accredited Arizona community college may be eligible to transfer up to 75 credits toward the Bachelor of Applied Science degree. Students should work with their academic advisor to ensure their courses will meet degree requirements.

This concentration in graphic information technology prepares graduates in the cross-media design technologies that includes Web design and development; 2D-3D animation; commercial photography and video; digital design, print and publishing.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Additional Program Fee: N}

\section*{Second Language Requirement: N}

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Technology (Graphic Information Technology), MSTech
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)

Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Students applying to this program must have completed an Associate of Applied Science degree in a similar field such as computer graphic design, digital arts, digital photography, eLearning design specialist, game technology, graphic design, animation and Web publishing design, graphic design: visual communication, information technology; Web and graphic design, media arts; desktop publishing, media art; Web design, multimedia, multimedia and business technology, and video production technology.

\section*{Change of Major Requirements:}

Students interested in changing to this BAS degree must have completed a related AAS degree at a regionally accredited university in a similar program, such as graphic design, animation, visual communication, Web design and development, commercial photography and video, etc. Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. \section*{Biomedical Engineering, BSE (ESBMEBSE)}

Campus: Tempe

\section*{Program Description:}

Biomedical engineering applies principles of engineering to the study and resolution of problems in biology and medicine.
Graduates are trained to apply their skills in an ethical, sustainable and environmentally responsible manner to make contributions that address societal and individual needs.

The program objective is to prepare high-quality graduates with a broad-based education in biomedical engineering for productive employment, graduate study or professional programs, especially in human and animal medicine, biotechnology and related biology-based engineering fields; for continued development of technical knowledge, awareness and leadership abilities so graduates may address domestic or global issues in human health; and for preparation to ethically and responsibly contribute to society by drawing from an integrated, transdisciplinary biomedical engineering education that focuses on sustainability and environmentalism.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org/ (http://www.abet.org/).

\section*{Additional Program Fee: Y}

Second Language Requirement: N
First Required Math Course: MAT 265-Calculus for Engineers I
Program Math Intensity: Substantial

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Biomedical Engineering, MS Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their
academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant (see http://global.asu.edu/future/undergrad (http://global.asu.edu/future/undergrad)), then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements:
Transfer students with fewer than 24 transferable college credit hours:
- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

\section*{Primary Criteria}
- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria
- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 3.00 in all critical courses for Terms 1 and 2 (see major map for critical courses)

\section*{Change of Major Requirements:}

Current ASU students should refer to https://engineering.asu.edu/admission-requirements (https://engineering.asu.edu/admission-requirements/) for the major change requirements for this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

Biomedical engineers are primarily employed in:
- governmental regulatory agencies
- hospital and research facilities
- medical and educational institutions
- medical device, biotechnology and pharmaceutical industries

In industry, they may work in all aspects of product development including:
- business development
- manufacturing
- marketing
- quality
- regulatory
- research and design
- sales

Because of their background in both the engineering and medical fields, they often serve a coordinating or interfacing function and provide a key role for transdisciplinary teams. Government positions may involve evaluating new technologies, testing product quality and safety, and setting standards.

In the hospital, biomedical engineers serving in a clinical engineering function may provide advice on the selection and use of medical equipment and supervise performance testing and maintenance. Biomedical engineers may also build customized devices for special health care, rehabilitation or research needs.

Chemical Engineering, BSE (ESCHEBSE)

\section*{Program Description:}

Chemical engineering deals with the application of chemistry, physics and mathematics to the process of converting raw materials or chemicals into more useful or valuable forms. Chemical engineering also involves the design of valuable new materials and chemical products.

The BSE offered in the chemical engineering program builds on a broad base of knowledge within the basic and mathematical sciences and engineering, and it offers excellent career opportunities. Chemical engineers are engaged in the development and production of a diverse range of products, including high-performance materials needed for aerospace, automotive, biomedical, electronic and environmental applications. The modern discipline of chemical engineering is intertwined with biology and biomedical engineering.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org/ (http://www.abet.org/).

\section*{Additional Program Fee: Y}

Second Language Requirement: N
First Required Math Course: MAT 265 - Calculus for Engineers I
Program Math Intensity: Substantial

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with:
Chemical Engineering, MS
Materials Science and Engineering, MS
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant (see http://global.asu.edu/future/undergrad (http://global.asu.edu/future/undergrad)), then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements:
Transfer students with fewer than 24 transferable college credit hours:
- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours:
- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Admission requirements for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards. Students should refer to https://engineering.asu.edu/admission-requirements (https://engineering.asu.edu/admission-requirements/) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Career Opportunities:}

Chemical engineers have traditionally played a key role in industries as varied as:
- artificial fibers
- ceramics
- food
- glass
- petrochemicals
- petroleum
- plastics
- primary metals
- specialty chemicals

There are also many newer fields with great demand for chemical engineering graduates, such as: semiconductors, biotechnology, biomedical engineering, modern materials (composites, superconductors) and the solution of environmental problems.

\section*{Civil Engineering, BSE (ESCEEBSE)}

Campus: Tempe

\section*{Program Description:}

Civil engineering majors in the Ira A. Fulton Schools of Engineering have three choices within the accredited BSE program:
- civil engineering
- civil engineering with environmental engineering concentration
- civil engineering with sustainable engineering concentration

The first choice allows students to choose among design and technical elective courses in their senior year. The other choices specify design and technical courses to students with minimal choices. Regardless of choice, the Bachelor of Science in Engineering in civil engineering is accredited by ABET.

Civil engineering involves the analysis, planning, design, construction, maintenance and application of sustainable practices in all areas of urban infrastructure for government, commerce, industry and the public domain. These include airports, bridges, canals, dams, factories, office towers, roadway systems, schools, tunnels and subway systems, and water purification facilities.

Civil engineers are concerned with the impact their projects have on the public and the environment; they coordinate the needs of society with technical and economic feasibility.

The curriculum exposes students to the following areas of civil engineering, with a strong emphasis on sustainability:
- construction engineering
- environmental engineering
- geotechnical engineering
- hydrosystems engineering
- structures
- transportation

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org/ (http://www.abet.org/).

\section*{Additional Program Fee: Y}

Second Language Requirement: N
First Required Math Course: MAT 265 - Calculus for Engineers I
Program Math Intensity: Substantial

\section*{Career Opportunities:}

ASU graduates with a bachelor's degree in civil engineering readily find employment. Civil engineers work in many different types of companies, from large corporations to small, private consulting firms or governmental agencies. A civil engineering background is an excellent foundation for jobs in management and public service. Civil engineering is one of the best engineering professions from the viewpoint of international travel opportunities or for eventually establishing one's own consulting business. The bachelor's degree program prepares graduates for the fundamentals of engineering examination, the professional engineering examination and for graduate degree programs.

- civil engineering with sustainable engineering concentration

The first choice allows students to choose among design and technical elective courses in their senior year. The other choices specify design and technical courses to students with minimal choices. Regardless of choice, the Bachelor of Science in Engineering in civil engineering is accredited by ABET.

Civil engineering with a concentration in environmental engineering is a transdisciplinary field based on traditional civil engineering principles and on chemistry, biology and geology. Environmental engineers are involved with:
- air pollution technology
- analysis of the fate and transport of pollutants
- application of sustainable practices in all areas of urban infrastructure
- construction of hazardous waste containment systems
- design and operation of water and wastewater treatment systems
- remediation of contaminated soils and waters
- surface water quality management
- water conservation and reuse

The curriculum also exposes students to other traditional civil engineering areas.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org/ (http://www.abet.org/).

\section*{Career Opportunities}

Civil engineers with knowledge of sustainable engineering may find employment in many different types of companies: from large corporations to small, private consulting firms or governmental agencies. Civil engineering is one of the best engineering professions from the viewpoint of international travel opportunities or for eventually establishing one's own consulting business. The bachelor's degree in civil engineering prepares graduates for the fundamentals of engineering examination, the principles and practice of engineering examination, and for graduate degrees.

\section*{Computer Science, BS (ESCSEBS)}

Campus: Tempe

\section*{Program Description:}

Computer science professionals design, analyze and improve the quality of computer software and systems for a variety of applications, including:
- artificial intelligence
- computer vision
- graphics
- information management
- multimedia
- networking
- security

Examples of projects a computer scientist might work on include:
- computer networking
- database and information systems
- distribution processing systems
- gaming systems
- next-generation computing systems
- search engines
- software engineering
- Web services

The BS program in computer science focuses on the design of computers, computational processes for problem-solving and information transfer and transformation with an emphasis on improving software and system quality, security, performance and usability. The program supports the evolution of the computing and informatics disciplines: the integration of computer and information sciences with engineering, science and other disciplines.

Accredited by the Computing Accreditation Commission of ABET, http://www.abet.org/ (http://www.abet.org/).

\section*{Additional Program Fee: \(Y\)}

Second Language Requirement: N
First Required Math Course: MAT 265 - Calculus for Engineers I
Program Math Intensity: Substantial

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with:
Computer Science (Art, Media and Engineering), MS
Computer Science (Big Data Systems), MCS
Computer Science (Big Data Systems), MS
Computer Science (Biomedical Informatics), MS
Computer Science (Cybersecurity), MCS
Computer Science (Cybersecurity), MS
Computer Science, MCS
Computer Science, MS
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)

\section*{Additional Requirements:}

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see http://global.asu.edu/future/undergrad (http://global.asu.edu/future/undergrad)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements:
Transfer students with fewer than 24 transferable college credit hours
- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

\section*{Primary Criteria}
- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

\section*{Secondary Criteria}
- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

\section*{Change of Major Requirements:}

Current ASU students should refer to https://engineering.asu.edu/admission-requirements/ (https://engineering.asu.edu/admission-requirements/) for the major change requirements for this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

Computer science graduates secure employment in a variety of capacities ranging from computer and software design to development of information technologies. Their jobs are often distinguished by the high level of theoretical expertise applied to solving complex problems and to the creation and application of new computing technologies. Some computer science-related jobs may include:
- creating computer games and graphics systems
- designing artificial intelligence systems
- developing mobile computing applications
- developing network security applications
- discovering data management and mining solutions for large scale data analytics
- inventing and implementing more efficient computing systems for managing data and information, including information retrieval and search on the Internet

With the theoretical foundation built into the program, computer science graduates can excel in system and software development as well as in designing effective computing solutions for emerging and challenging problems in modern society. Skills in system development and research can lead to entrepreneurial activity that produces innovative computing products and services.

\section*{Computer Science (Software Engineering), BS (ESCSESBS)}

Campus: Tempe

\section*{Program Description:}

The software engineering concentration is appropriate for computer science students seeking careers as software engineers. Students learn advanced processes, methodologies and tools for developing and testing large and small software applications in emerging areas such as:
- databases
- enterprise systems
- interoperable systems
- mobile computing
- service-orientated computing

They also learn information assurance concepts and techniques, or principles of human-computer interaction and methods, for developing these applications. The curriculum prepares students to assume leadership roles in software development organizations and to practice professional standards and emerging software technology to the software engineering life-cycle activities

Accredited by the Computing Accreditation Commission of ABET, http://www.abet.org (http://www.abet.org/).

\section*{Career Opportunities:}

Career opportunities are plentiful for software engineers. Graduates of this program possess the knowledge and skills to work across the spectrum of software development process activities, including:
- architecture
- coding
project management
- quality assurance
- requirements engineering
- testing

Careers include:
- software analyst
- software architect
- software engineer
- software task leader
- software tester

Graduates of the software engineering concentration find employment in large and small organizations that develop, deploy and manage software systems. They work on all types of projects that include large, complex engineering systems, distributed banking, financial and government software and gaming.

\section*{Computer Systems Engineering, BSE (ESCSEBSE)}

Campus: Tempe

\section*{Program Description:}

The computer systems engineering program focuses on the analysis, design, testing, integration and evaluation of hardware and software systems. The curriculum is grounded in many engineering disciplines, including the applications of science and technology to the design of:
- computer architecture
- computer security
digital circuits
- distributed and embedded systems
- networking
- operating systems

Students engage in the design of integrated hardware and software solutions for computing, communication and control applications. They practice many aspects of engineering activities, such as the development of:
- computer networks
- embedded and ubiquitous systems
- high-performance computer systems
- individual digital components

Students become skilled at interfacing different pieces of hardware and software components and integrating systems and products with new capabilities and improved quality and performance.

\section*{Career Opportunities:}

Computer systems engineers are employed in industry, government, education and consulting firms where they engage in the design, development and operation of hardware and software systems of computer and networking equipment.

Computer systems engineers often find themselves focusing on engineering problems or challenges of emerging computer systems, from chips to device controllers, embedded systems and high-performance computing servers. Their jobs usually involve the research, design and development of computer hardware and software for practical applications. Their work can result in innovative, state-of-the-art products that integrate computing and communication capabilities, such as those in:
- avionics and space vehicles
- digital television and photography
- intelligent highways and control systems for vehicles
- mobile devices and smart applications
- new apparatuses for health care and for the sight-impaired or others with physical disabilities
- security and defense systems

\section*{Computer Systems Engineering (Cybersecurity), BSE (ESCSEIBSE)}

\section*{Campus: Tempe}

\section*{Program Description:}

The cybersecurity concentration in the computer systems engineering BSE degree program provides students with the knowledge and skills needed to build dependable and secure information systems and networks and to ensure the integrity and quality of the information being stored, processed and transmitted.

ASU has been certified as a National Center of Academic Excellence in Information Assurance Education and a National Center of Academic Excellence in Information Assurance - Research by the National Security Agency and the Department of Homeland Security. Information assurance courseware at ASU has been certified by the Information Assurance Courseware Evaluation Program to satisfy the standards for Information Systems Security Professionals (NSTISSI 4011) and Senior Systems Managers (CNSSI 4012). For more information on information assurance courseware at ASU, students should refer to http://ia.asu.edu/education.php (http://ia.asu.edu/education.php).

\section*{Additional Program Fee: Y}

Second Language Requirement: \(N\)
First Required Math Course: MAT 265-Calculus for Engineers I
Program Math Intensity: Substantial

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with:
Computer Science (Art, Media and Engineering), MS
Computer Science (Big Data Systems), MCS
Computer Science (Big Data Systems), MS
Computer Science (Biomedical Informatics), MS
Computer Science (Cybersecurity), MCS
Computer Science (Cybersecurity), MS
Computer Science, MCS
Computer Science, MS
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see http://global.asu.edu/future/undergrad (http://global.asu.edu/future/undergrad)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

\section*{Freshman Admission:}
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5 , 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements:
Transfer students with fewer than 24 transferable college credit hours:
- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT
combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

\section*{Primary Criteria}
- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

\section*{Secondary Criteria}
- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

\section*{Change of Major Requirements:}

Current ASU students should refer to https://engineering.asu.edu/admission-requirements/ (https://engineering.asu.edu/admission-requirements/) for the major change requirements for this program.

\section*{Transfer Agreements}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

Students enrolled in the cybersecurity concentration are eligible for federal fellowships such as the Department of Defense Information Assurance Scholarship Program and the Federal Cyber Service Scholarship for Service Program. For more information on the scholarship programs, students should visit http://ia.asu.edu/scholarship.php (http://ia.asu.edu/scholarship.php).

Graduates with a degree in computer systems engineering with a concentration in cybersecurity find employment in a variety of capacities ranging from computer systems and software development to research on information assurance technologies. Some related jobs may include:
- analyzing computer forensic data
- designing secure information systems and networks
information security consulting
- information systems security engineering
- network security engineering

\section*{Construction Engineering, BSE (ESCONBSE)}

Campus: Tempe

\section*{Program Description:}

The BSE program in construction engineering focuses on a combination of design and management topics, preparing students for a career in the engineering and construction industry. The program prepares students who wish to gain a professional engineering license while working at the interface of design and construction, and it is attractive for students interested in a career that emphasizes the construction of infrastructure.

The degree program makeup includes engineering design and construction management courses with a focus on sustainability and building information modeling topics. Construction management content includes:
- construction methods
- contract management
cost and schedule control
- people management
- project estimating

The curriculum's design content includes structures, geotechnical engineering and transportation. Students are further prepared with the computer, management, technical and people skills needed to succeed. This degree is the third in the Southwestern U.S. and one of about 20 worldwide.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org/ (http://www.abet.org/).

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

The construction engineering graduate is prepared to begin as a field engineer, project engineer or project designer working for:
- construction companies
- design firms
- facility owners
- material suppliers
- specialty subcontractors

Graduates have unique skills to be able to take on the role of integrator in the delivery of design-build projects or development activities. As the graduate's career progresses, they should be able to take on leadership roles in the delivery of sustainable facilities in the built environment and then progress through successively higher levels of management responsibility. The graduate should be particularly attuned to design and construction of heavy civil and industrial facilities meeting the infrastructure needs of society.

\section*{Construction Management, BS (ESCONMGTBS)}

Campus: Tempe

\section*{Program Description:}

The BS program in construction management allows students to specialize in commercial, heavy, residential and specialty construction and facility management. Students learn to organize, lead and manage the building construction business processes related to real estate, facility and infrastructure projects. Construction management is the most vital function on a job site. Construction managers represent the interests of the building owner or the contractor and interact with architects, engineers, subcontractors, vendors and suppliers to ensure the success of the construction projects in the built environment. This program focuses on the business of construction and technology, such as building information modeling.

Students learn:
- the basics of design
- the construction methods specific to each type of construction (heavy, residential, commercial, specialty)
- how to estimate, schedule and control the costs of a project
- the process of sustainable or green construction
- what it takes to manage the people involved and the various types of contracts

Students are prepared with the computer, management, technical and people skills needed to succeed. This is one of two construction programs in the state of Arizona and one of approximately 80 accredited programs in the nation.

\section*{Career Opportunities:}

The construction management program provides a foundation for students who wish to pursue careers as project managers, project engineers, estimators or schedulers and eventually become principals of firms engaged in the construction of industrial, commercial or residential projects.

The heavy construction emphasis area prepares students for careers related to public works such as highways, airports, bridges, utility systems and water or waste treatment facilities.

The commercial and residential emphasis areas prepare students for careers in real estate development, home production systems, commercial construction, health care and special industrial building projects. Students are also prepared to enter the sustainable or green construction market.

The specialty construction emphasis prepares students to organize, lead and manage the building process at the subcontractor level and prepares students for careers as contractors working with mechanical and electrical systems. It also prepares students for careers in management at specialty contracting firms, such as control systems, electrical distribution or heating, ventilation and air conditioning systems for large and complex facilities such as data centers, health care organizations and semiconductor manufacturing plants as well as commercial facilities.

\section*{Career Opportunities:}

The concrete industry management concentration provides a foundation for students who wish to pursue careers as project managers, estimators, schedulers or a combination of all three at an executive level. Concrete industry management career opportunities include:
- advanced mixing technology or equipment manufacturing
- cement
- concrete or general contracting
concrete production
- development
- field sales
- operations
- project and production management
- technical service

\section*{Electrical Engineering, BSE (ESEEEBSE)}

Campus: Tempe, Online

\section*{Program Description:}

The goal of the electrical engineering undergraduate program is to prepare graduates for positions as electrical engineers. Faculty in the Ira A. Fulton Schools of Engineering offer a BSE in electrical engineering. Following initial coursework in mathematics and sciences, the foundation classes build a solid base of engineering knowledge. The electrical engineering curriculum includes a number of required upper-division electrical engineering and technical elective courses in such areas as:

\footnotetext{
circuits
communication, signal processing and control systems
- computer engineering
- electromagnetics
- power
- solid-state devices
}

Approved technical elective courses provide students with an opportunity either to broaden their background in electrical engineering or to study, in greater depth, technical subjects in which they have special interest.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org/ (http://www.abet.org/).

\section*{Additional Program Fee: Y}

Second Language Requirement: N
First Required Math Course: MAT 265 - Calculus for Engineers I
Program Math Intensity: Substantial

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with:
Computer Engineering (Electrical Engineering), MS
Electrical Engineering, MSE
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)
Additional Requirements:
The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see http://global.asu.edu/future/undergrad (http://global.asu.edu/future/undergrad)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

\section*{Freshman Admission:}
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements:
Transfer students with fewer than 24 transferable college credit hours:
- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

\section*{Primary Criteria}
- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

\section*{Secondary Criteria}
- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-engineering-electrical-engineering?utm_source=asu\&utm_medium=degree-search\&utm_campaign=asu)

Current ASU students should refer to https://engineering.asu.edu/admission-requirements/ (https://engineering.asu.edu/admission-requirements/) for the major change requirements for this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

Transfer from a Maricopa Community College in Arizona:

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

Graduates with the bachelor's degree in electrical engineering find many exciting opportunities in industry. These include:
- communication equipment and network providers
- computer and peripheral device manufacturers and defense organizations
- consulting companies
- electric power utilities
- semiconductor chip designers and manufacturers

The program also prepares graduates for continued learning experiences, either in a formal graduate program or in continuing education applications.

\section*{Contact Information:}

Engineering, Ira A. Fulton Schools of Electrical Engineering Program https://ecee.engineering.asu.edu/
GWC 209
askee@asu.edu
480-965-3424

\section*{Program Description:}

The goal of the electric power and energy systems concentration is to prepare graduates for positions in industries dealing with generation, transmission and utilization of electric power. Generation includes conventional power generation (fossil fuel and nuclear) and alternative energy systems, including solar, wind and fuel cells.

Students in this program complete the foundation courses in math, science and engineering. They are then required to take the pathway course in electric power and complete nine of the 15 technical elective credit hours with power classes. In addition, the senior design capstone project focuses upon the area of electric power and energy systems.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (http://www.abet.org/).

\section*{Career Opportunities:}

Career opportunities for graduates with a concentration in electric power and energy systems include:
- consulting engineering firms
- employment in utility companies
- entrepreneurial opportunities
- power equipment manufacturers
- research and design organizations
- state, federal and municipal agencies

This concentration also prepares students to pursue graduate degrees in the areas of:
- power generation
- power systems
- power transmission and distribution
- renewable and sustainable energy sources

The program also prepares graduates for continued learning experiences, either in a formal graduate program or in continuing education applications.

\section*{Electronics Engineering Technology (Alternative Energy Technologies), BS (TSEETABS)}

Campus: Polytechnic

\section*{Program Description:}

The curriculum of the BS program in electronics engineering technology serves the needs of students interested in applied aspects of electronics technology. The electronics engineering technology program has a practice-based approach and uses laboratories to make electronics technology real to students. Major components of the program include:
- design
- electronics-related technical courses
- engineering science
- general education
- science and mathematics

The alternative energy technologies concentration explores the demands of energy resources in the new economy. This program strives to educate individuals in the use of energy sources such as solar, wind, ocean, geothermal and biomass and provides hands-on laboratory experience on several energy conversion and storage technologies, including photovoltaics, fuel cells, batteries, electrolyzers and supercapacitors.

Accredited by the Engineering Technology Accreditation Commission of ABET, http://www.abet.org (http://www.abet.org).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Career Opportunities:}

Graduates have an understanding of energy and power technology, how materials and components contribute to the performance of electronic systems, and how to exploit the power of integrated electronics to enhance productivity and technology solutions. The alternative energy technologies concentration is designed to prepare graduates for careers in alternative energy as related to electric power conditioning, control systems, electronics and instrumentation. The specific positions might include:
- application interface
- environmental and reliability analysis
- policy analysis
- process control
- system design
- technology analysis

Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

Graduates have an understanding of energy and power technology, how materials and components contribute to the performance of electronic systems, and how to exploit the power of integrated electronics to enhance productivity and technology solutions. Upon completion of this concentration, graduates are prepared for careers in the microelectronics industry. Graduates secure positions in:
- diverse scientific engineering teams
- field applications
- integrated circuit processing
- system integrators
- testing

\section*{Engineering, BSE (TSEGRBSE)}

Campus: Polytechnic

\section*{Program Description:}

The ABET-accredited BSE in engineering program prepares graduates to collaborate across disciplines to design and build solutions to real-world problems. In the engineering program, students apply engineering fundamental knowledge and design thinking to real projects every semester.

In the Bachelor of Science in Engineering program, students choose a disciplinary concentration where they develop in-depth knowledge in a specific area, as well as a secondary focus area. This flexibility allows students to tailor their degree to achieve their individual career and life goals.

Students can choose from the following concentrations:
- automotive systems
- electrical systems
- mechanical engineering systems
- robotics

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (http://www.abet.org).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Additional Program Fee: Y
Second Language Requirement: \(N\)

\section*{Engineering (Automotive Systems), BSE (TSEGRASBSE)}

Campus: Polytechnic

\section*{Program Description:}

The ABET-accredited BSE engineering program prepares graduates to collaborate across disciplines to design and build solutions to real-world problems. In the program, students apply fundamental engineering knowledge and design thinking to real projects every semester.

Students in the automotive systems concentration of the Bachelor of Science in Engineering program first build a broad engineering foundation to which they add skills and knowledge necessary for vehicle design and testing. The concentration curriculum focuses on automotive engineering fundamentals, including powertrain engineering and chassis system design as well as hands-on projects that involve designing, analyzing and building of actual automotive systems. Graduates in this concentration will be able to provide leadership in automotive engineering settings, especially automotive testing and hybrid propulsion systems, which are intrinsically transdisciplinary in nature.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (http://www.abet.org).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. \section*{Program Description:}

The ABET-accredited BSE engineering program prepares graduates to collaborate across disciplines to design and build solutions to real-world problems. In the Bachelor of Science in Engineering program, students apply fundamental engineering knowledge and design thinking to real projects every semester.

Students in the humanitarian engineering concentration first build a broad engineering foundation to which they add the skills and knowledge necessary to adapt water and energy systems to local and developing-world needs. They work with ASU's Global Resolve organization to learn to identify and implement appropriate technological and cultural solutions. Graduates of the concentration will be positioned to work on transdisciplinary teams addressing vital engineering needs of communities in the developing world. They have real-world experience with the challenges and opportunities inherent in this environment and impact lives by solving real problems.

The program's emphasis on open-ended design and project-based learning supports the development of entrepreneurial skills and attitudes, and some students start companies of their own.

Engineers with mechanical expertise are in high demand in many different industry sectors, including transportation, agriculture, a wide variety of process industries, product development, manufacturing, and energy and defense systems. Mechanical engineers also work in close collaboration with other engineering disciplines in a wide variety of fields, including biomedical, building and construction, transportation, and aerospace. Graduates from this program have a broad base of technical knowledge and operational skills that make them invaluable members of multidisciplinary engineering teams, well-suited for employment across the whole spectrum of applications.

\section*{Engineering (Robotics), BSE (TSEGRRBSE)}

Campus: Polytechnic

\section*{Program Description:}

The ABET-accredited BSE program in engineering prepares graduates to collaborate across disciplines to design and build solutions to real-world problems. In the program, students apply fundamental engineering knowledge and design thinking to real projects every semester.

Students in the robotics concentration of the Bachelor of Science in Engineering program first build a broad engineering foundation to which they add skills and knowledge necessary to contribute robotics subject matter expertise in transdisciplinary engineering teams. This expertise includes electromechanical systems, sensor and actuator integration, embedded digital systems application, and design and analysis of dynamic systems. The robotics curriculum also provides significant hands-on experience designing and implementing robotics systems to meet the needs of users.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (http://www.abet.org).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 265-Calculus for Engineers I
Program Math Intensity: Substantial

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with:
Engineering, MS
Manufacturing Engineering, MS
Secondary Education (Teacher Certification), MEd
Technology (Management of Technology), MSTech
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)

\section*{Change of Major Requirements:}

A current ASU student has no additional requirements for changing majors. Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

Transfer from a Maricopa Community College in Arizona:

\section*{Career Opportunities:}

Engineers collaborate on transdisciplinary teams to design, manufacture and deliver innovative technological products and services. The Bachelor of Science in Engineering program enables students to develop sophisticated technical skills in tandem with the professional skills of communication; teamwork and collaboration; and self-motivation and adaptability that many employers seek. Graduates are prepared to work in large corporations, government agencies, small businesses, as well as to go on to graduate school to pursue advanced degrees. The program's emphasis on open-ended design and project-based learning supports the development of entrepreneurial skills and attitudes, and some students start companies of their own.

Robotics plays an increasingly important role in many different industries, including manufacturing, automotive, defense systems, biomedical devices and aerospace. Graduates from this program have a broad base of technical knowledge in the design and implementation of robotic electro-mechanical systems. In addition, they have the operational and communication skills that make them invaluable members of multidisciplinary engineering teams, well-suited for employment across the whole spectrum of applications.

\section*{Engineering Exploration, (TSEGRPRE)}

\author{
Campus: Tempe
}

\section*{Program Description:}

Engineering exploration provides an opportunity for students to become aware of the diverse engineering and technology related programs within the Ira A. Fulton Schools of Engineering on both the Tempe and Polytechnic campuses; to develop the knowledge and skills to succeed at ASU; and to develop the confidence and motivation to select a major in the Fulton Schools. Engineering exploration is not a degree-granting program. Students in the exploration program may transfer into a Fulton Schools degree-granting program once they meet the published transfer admission requirements for their desired program. All students are required to change their major at the end of three semesters.

\section*{Additional Program Fee: \(Y\)}

Second Language Requirement: N
First Required Math Course: MAT 170-Precalculus
Program Math Intensity: Substantial

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Prospective students may not apply to the engineering exploration program. Freshman applicants to Ira A. Fulton Schools of Engineering programs will be considered for engineering exploration if they are not admitted to their first choice. Please contact Engineering@asu.edu (mailto: engineering@asu.edu) for questions regarding admission and program eligibility.

\section*{Engineering Management, BSE (ESEMGBSE)}

Campus: Tempe, Online

\section*{Program Description:}

The BSE program in engineering management is designed to provide the graduate with skills for effective management and leadership of engineering-driven enterprises. The curriculum provides a breadth of engineering science and design with depth in one specific area suitable for practice. This knowledge is augmented with an understanding of business practices, organizational behavior and management skills to enable the graduate to succeed in the management of a scientific or engineering enterprise. Topics covered include project and resource management, financial engineering, risk management, configuration management, service plans, product liability, entrepreneurship and operations management, in addition to product design and process development. Graduates have a deep understanding of at least one industry sector based upon the focus area courses.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (http://www.abet.org/).

\section*{Additional Program Fee: \(Y\)}

Second Language Requirement: N
First Required Math Course: MAT 265-Calculus for Engineers I
Program Math Intensity: Substantial

\section*{Concurrent Degrees:}

This degree is also offered as concurrent degree program with Economics, BS

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Industrial Engineering, MS Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
The admission requirements for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission requirements. Students should select a second major choice when applying for admission to a degree program in the Ira A. Fulton Schools of Engineering.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant (see https://students.asu.edu/international/future/undergrad (https://students.asu.edu/international/future/undergrad)), then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5 .

Freshman Admission:
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- Admission may be granted with one deficiency in no more than two competency (https://students.asu.edu/admission/competencies) areas.

Deficiencies in both math and laboratory science are not acceptable.

Transfer Admission Requirements:
Transfer students with fewer than 24 transferable college credit hours:
- minimum transfer GPA of 2.75 for less than 24 transfer hours, and
- satisfy the freshmen admission requirements

Transfer students with more than 24 transferable college credit hours:
- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- if Admission Services requires submission of a high school transcript, admission may be granted with one deficiency in no more than two competency (https://students.asu.edu/admission/competencies) areas. Deficiencies in both math and laboratory science are not acceptable.

Concurrent degree admission requirements: Engineering Management, BSE and Economics, BS:
- minimum 1250 SAT combined evidence-based reading and writing plus math score ( 650 minimum on SAT math) or minimum 29 ACT combined score (29 minimum on ACT math), and
- 3.00 minimum ABOR GPA

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (https://asuonline.asu.edu/online-degree-programs/undergraduate/engineering-engineering-management-bse?utm_source=asu\&utm_medium=degree-search\&utm_campaign=asu)

\section*{Change of Major Requirements:}

Current ASU students should refer to https://engineering.asu.edu/admission-requirements/ (https://engineering.asu.edu/admission-requirements/) for the major change requirements for this program.

\section*{Transfer Agreements}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Transfer from a Maricopa Community College in Arizona}

\section*{Environmental Engineering, BSE (ESEVEBSE)}

Campus: Tempe

\section*{Program Description:}

The environmental engineering BSE degree program educates tomorrow's engineers to solve complex environmental problems and design systems at the human, urban, and planetary scale. Environmental engineers are actively involved with:
- air quality monitoring and air pollution control technology
- analysis of fate and transport of pollutants
- application of sustainable design principles
- design of solid waste management systems
- design of hazardous waste containment systems
- design and operation of water and wastewater treatment systems
- remediation of contaminated soil, sediment, and water
- water quality, water conservation, and water reuse

In recognition of the interdisciplinary nature of environmental engineering challenges, the degree incorporates courses from other programs in the Fulton Schools of Engineering including chemical engineering and environmental resources management. Engineering courses build on strong foundation in chemistry, biology, geology, physics and mathematics. Courses cover fundamental engineering concepts applied to environmental processes and environmental engineering design, as well as applied learning experiences including required internship or research experience and capstone design course.

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 265-Calculus for Engineers I
Program Math Intensity: Substantial

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Freshman Admission:
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements
Transfer students with fewer than 24 transferable college credit hours:
- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with more than 24 transferable college credit hours:

Primary
- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admissions Services requires submission of a high school transcript)

Secondary Criteria
minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

\section*{Change of Major Requirements:}

Current ASU students should refer to https://engineering.asu.edu/admission-requirements (https://engineering.asu.edu/admission-requirements/) for the major change requirements for this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. \section*{Career Opportunities:}

Graduates from the environmental engineering program have career opportunities in both the private and public sectors. The private sector consulting industry in environmental engineering is growing as greater environmental awareness and emerging novel pollutants require continual refinement of regulations and environmental system design standards. We seek to accredit the BSE in environmental engineering to allow graduates to pursue professional licensure that enables environmental engineers to design and build drinking water and wastewater treatment facilities, contaminated soil and water remediation systems, and hazardous and solid waste confinement systems. In the public sector, municipalities and regulating agencies require a knowledgeable workforce to understand how public policy can improve human health and ecosystem services through environmental engineering processes.

\section*{Environmental and Resource Management, BS (TSETMBS)}

Campus: Polytechnic

\section*{Program Description:}

The BS program in environmental and resource management provides critical scientific and management skills for graduates who work in industry or government to ensure the health of natural ecosystems and mitigate the environmental impact of our industrial world.

The curriculum combines a strong foundation in biology, chemistry, physics and mathematics, with a solid grounding in environmental law and policy. Students learn to apply environmental technologies to drinking water and wastewater treatment, management of hazardous and solid wastes, and control of industrial and mobile sources of air pollution. They study OSHA regulations on health and safety and strategies to protect workers in hazardous environments. International environmental issues and legal frameworks are included along with U.S. environmental laws.

Graduates with these skills are in high demand and can find work in industry, governmental management and regulatory agencies, or in policymaking organizations.

An accelerated BS/MS degree option is available in which up to nine hours of the bachelor's degree may be applied toward the 33 hours required for the master's degree in environmental and resource management. A special application is required for this option.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Additional Program Fee: N
Second Language Requirement: N
First Required Math Course: MAT 210 - Brief Calculus
Program Math Intensity: Moderate

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with:
Environmental and Resource Management (Water Management), MS
Environmental and Resource Management, MS
Technology (Environmental Technology Management), MSTech
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

Campus: Polytechnic, Online

\section*{Program Description:}

The cross-media nature of the graphic information industry requires graduates to understand the full spectrum of graphic technology, publishing processes and current business practices. The BS program in graphic information technology is preparation for a seamless career as a graphic technologist encompassing Web design and development, printing and digital publishing, commercial photography and videography, and 2D-3D animation. This is an intensive program of study emphasizing theory and hands-on laboratory practice. Students develop the following skills:
- commercial photography and videography
- multimedia and interactive technologies
- premedia, digital publishing and print technologies
- project and content management
- technical imaging
- user experience design
- Web design and development

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Additional Program Fee: N
Second Language Requirement: N
First Required Math Course: MAT 170-Precalculus
Program Math Intensity: Moderate

\section*{Concurrent Degrees:}

This degree is also offered as concurrent degree program with Journalism and Mass Communication, BA

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Technology (Graphic Information Technology), MSTech
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Concurrent degree admission requirements:

Freshman applicants must meet all of the following standards:
- 3.75 minimum ABOR GPA
- no English competency deficiencies
- 960 SAT Reasoning (or 1040 if taken prior to March 5, 2016) or 22 ACT score

Transfer Admission Requirements
Transfer students must have a minimum cumulative GPA of 3.00 from a transfer institution.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-graphic-information-technology-concentration?utm_source=asu\&utm_medium=degree-search\&utm_campaign=asu)

\section*{Change of Major Requirements:}

A current ASU student has no additional requirements for changing majors. Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program

ASU students who would like to change their majors to the concurrent program with journalism and mass communication must have at least a 3.00 cumulative GPA in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's nonelective general studies requirements.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Graphic Information Technology (Gaming), BS (TSGITGBS)}

Campus: Polytechnic

\section*{Program Description:}

The cross-media nature of the graphic information industry requires graduates to understand the full spectrum of graphic technology, reproduction processes and current business practices. The BS program in graphic information technology prepares graduates for a seamless transition into a career as a graphic technologist encompassing Web development and Internet technologies, printing and digital publishing, commercial and technical imaging, and gaming technologies. Graduates of the Bachelor of Science in graphic information technology with a concentration in gaming will be able to critically analyze, design and develop the various game appearance and art assets needed to create video games. Students will learn and apply the latest game visual development skills, tools and technologies. Students develop the following skills:
- commercial photography and videography
document design
- gaming and simulation technologies
- multimedia and interactive technologies
- premedia, digital publishing and print technologies
- project and content management
- technical imaging
- user experience design
- Web design and development

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. \section*{Human Systems Engineering, BS (ESHSEBS)}

Campus: Polytechnic

\section*{Program Description:}

The BS program in human systems engineering in the Ira A. Fulton Schools of Engineering provides students with an understanding of the science of human performance and with experience using methods and tools to apply this understanding to design and problem-solving in a wide variety of domains such as product usability, learning design, sports performance, and workplace and hospital safety.

A broad range of professions need experts in human factors to work on problems that involve an understanding of human performance. Interest areas include user experience, aviation human factors, cognitive performance, consumer psychology, transportation human factors, patient safety, effective teamwork, health psychology, learning optimization, social cognition, threat detection and sports psychology.

\section*{Additional Program Fee: Y}

\section*{Industrial Engineering, BSE (ESIEEBSE) \\ Campus: Tempe}

\section*{Program Description:}

Industrial engineering is concerned with the design, improvement, installation and operation of integrated systems of people, materials, information, equipment and energy. The purpose is to determine efficient ways to make a product or to provide a service. Industrial engineering draws upon specialized knowledge and skill in the mathematical, physical and social sciences together with the principles and methods of engineering analysis and design.

The underlying concepts for the BSE program in industrial engineering include certain business principles but emphasize the use of mathematics and information technology to build models to describe, understand and optimize system performance. Depending on the subspecialties involved and the intended application, industrial engineering may also be known as operations management, management science, operations research, systems engineering or manufacturing engineering.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (http://www.abet.org/).

\section*{Additional Program Fee: Y}

Second Language Requirement: N
First Required Math Course: MAT 265-Calculus for Engineers I
Program Math Intensity: Substantial

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Industrial Engineering, MS
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant (see \(\mathrm{http}: / / \mathrm{global} . a s u . e d u / f u t u r e / u n d e r g r a d\) (http://global.asu.edu/future/undergrad)), then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements:
Transfer students with fewer than 24 transferable college credit hours:
- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

\section*{Primary Criteria}
- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

\section*{Secondary Criteria}
- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

\section*{Change of Major Requirements:}

Current ASU students should refer to https://engineering.asu.edu/admission-requirements (https://engineering.asu.edu/admission-requirements/) for the major change requirements for this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Career Opportunities:}

Graduates in industrial engineering are prepared to design and manage systems for a wide range of organizations. They find exciting career opportunities in all types of manufacturing and service industries, including:
- banking and finance
- defense and government
- health care
- hospitality, sports and entertainment
- management consulting
- manufacturing (e.g., aerospace, automotive, semiconductor)
- software industry
- telecommunication
- transportation and logistics

Industrial and Organizational Psychology, BS (ECPSYBS)

\section*{Campus: Polytechnic}

\section*{Program Description:}

Americans spend more than 54 percent of their waking hours at work. As a result, students who want to make a real impact on peoples' lives are beginning to focus on the psychology of work. Industrial and organizational psychology helps organizations identify the right job candidates to hire, determine the best job fit for each worker, design enjoyable and effective workplaces, and determine the appropriate work-life balance for employees in the organization. Finally, one specialty, human factors, focuses on designing tools and products that are easy to use and reduce human error.

In addition to strong education in human learning, memory, emotion, judgment and social psychology, which prepare students for employment or graduate school, students can choose to focus in two of five focus areas:
- consumer psychology
- human resources and organizational behavior
- human systems engineering
- learning technology
- user experience

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue)

Pima Community College(https://transfer.asu.edu/tag)
Tohono O'odham Community College(https://transfer.asu.edu/tag)
Yavapai College(https://transfer.asu.edu/tag)

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

Some students pursue master's or doctoral degrees, but many career opportunities exist for graduates with bachelor's degrees, especially in the areas of human resources, human factors design, user experience and consumer behavior.

We routinely place our qualified undergraduate students in internships in leading companies or government agencies in the fields of technology, transportation, training, defense and health care. According to the 2012 Occupational Outlook Handbook, published by the U.S. Department of Labor, industrial and organizational psychology is one of the best-paying specialties in psychology, and demand for industrial and organizational psychologists is growing at a rate of about 29 percent annually.

Informatics, BS (ESCPIBS)
Campus: Tempe

\section*{Program Description:}

Informatics is about discovering, developing and understanding computer applications that improve people's lives. The BS program in informatics prepares skilled professionals who take a transdisciplinary, user-oriented perspective toward information and computing systems, apply current informatics methods to address society's needs, and contribute to the next generation of such systems.

The informatics bachelor's degree program provides an option for students interested in a flexible program in applied information and computing technologies. The program provides skills in design and implementation of computer systems while offering opportunities for building applications used by people in many fields. Students learn to develop software for devices of all sizes, from supercomputers to cell phones and even smaller. The challenges of informatics include designing, developing and applying tools that model, aid or automate activities within science, engineering, business, geography, education and entertainment.

Informatics careers center on solving problems through the design and creation of information systems, user interfaces, mobile technologies and social media.

\section*{Additional Program Fee: Y}

Second Language Requirement: N
First Required Math Course: MAT 210 - Brief Calculus
or MAT 265-Calculus for Engineers I

Program Math Intensity: Substantial

\section*{Admission Requirements:}

General University Admission Requirements:

All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
The admission requirements for a Bachelor of Science in informatics are higher than minimum university admission requirements. Students should select a second major choice when applying for admission to a degree program in the Ira A. Fulton Schools of Engineering.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see http://students.asu.edu/international-admission (http://students.asu.edu/international-admission)) and admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5 .

Freshman Admission:
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- A competency deficiency in either math or laboratory science is allowed. Competency deficiencies in both math and science are not allowed.

Transfer Admission Requirements
Transfer students with fewer than 24 transferable college credit hours:
- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- A competency deficiency in either math or laboratory science is allowed. Competency deficiencies in both math and science are not allowed, and - minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer students with more than 24 transferable college credit hours:

Primary Criteria
- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- A competency deficiency in either math or laboratory science is allowed. Competency deficiencies in both math and science are not allowed (if Admission Services requires submission of a high school transcript).

\section*{Secondary Criteria}
- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

\section*{Change of Major Requirements:}

Students can view change of major requirements for the Ira A. Fulton Schools of Engineering at https://engineering.asu.edu/admissionrequirements/ (https://engineering.asu.edu/admission-requirements/).

\section*{Transfer Agreements}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

Transfer from a Maricopa Community College in Arizona:

GateWay Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)
Glendale Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)
Mesa Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)
Paradise Valley Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)
Phoenix College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)
Rio Salado College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)
Scottsdale Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)
South Mountain Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)

Transfer from an Arizona Community College:

Arizona Western College(https://transfer.asu.edu/tag)
Central Arizona College(https://transfer.asu.edu/tag)
Cochise College(https://transfer.asu.edu/tag)
Coconino Community College(https://transfer.asu.edu/tag)
Dine College(https://transfer.asu.edu/tag)
Eastern Arizona College(https://transfer.asu.edu/tag)
Gila Community College(https://transfer.asu.edu/tag)
Mohave Community College(https://transfer.asu.edu/tag)
Northland Pioneer College(https://transfer.asu.edu/tag)
Pima Community College(https://transfer.asu.edu/tag)

Information Technology, BS (TSIFTBS)
Campus: Polytechnic, Online

\section*{Program Description:}

Information technology is for those who want to be responsible for designing or architecting, selecting, implementing and managing computer-based information solutions. Information technology students learn to design and create effective networking technology solutions to today's knowledgebased problems.

In the BS degree program in information technology, students create project solutions to hone technical, team and personal development and presentation skills. Integrated laboratory and lecture courses provide students with the necessary skills to become valued contributors within any organization in an information technology role. In addition to selecting a primary focus area (networking and security, information systems or enterprise computing), students create their own secondary focus area that meets their specific career objectives. Each student is required to successfully complete an industry-based capstone project prior to graduation.
enterprise computing. They design and create network architectures, configure and administer complex computer and database systems, analyze security issues, and support enterprise usage involving information technology.

The networking and security focus explores the tools, frameworks, technologies and processes underlying the design, development, deployment and support of computer networks. This includes a background that embraces confidentiality, integrity and availability in networking architectures and security analysis.

The information systems focus provides students with the concepts associated with database structure, including cloud computing, database security and control, structured query language programming, and database management systems.

The enterprise computing focus provides students will an understanding of the enterprise and how information technology is used to further business interests. It includes many aspects of using technology to support the overall enterprise, including operations, funding and promotion. Students learn how technology can be used in business strategy and creating innovative new ways to support business.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Additional Program Fee: N
Second Language Requirement: N
First Required Math Course: MAT 210 - Brief Calculus
Program Math Intensity: Substantial

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Information Technology, MS Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Manufacturing Engineering, BS (TSMEGRBS)}

Campus: Polytechnic

\section*{Program Description:}

Successful manufacturing enterprises balance design, sustainability and quality with production to prosper in the global marketplace. Manufacturing engineering combines manufacturing processes (e.g., how materials are altered in either shape or properties) and the processes of manufacturing (e.g., design and management of manufacturing systems).

The BS program in manufacturing engineering prepares graduates to:
- analyze, synthesize and control manufacturing operations using statistical methods
- collaborate across disciplines to design and build solutions to real-world problems
- design innovative products and the equipment, tooling and environments necessary for their manufacture
- model, simulate and analyze manufacturing production processes for both small- and large-scale environments
- provide technological leadership

The curriculum is project-based, hands-on, teamwork-oriented and delivered in outstanding fabrication facilities. Graduates of this program become key team members who create and implement processes for making such varied products as airplanes, surgical instrument, toys and foodstuffs.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (http://www.abet.org).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Career Opportunities:}

Engineers collaborate on transdisciplinary teams to design, manufacture and deliver innovative technological products and services. The Bachelor of Science in Engineering program in manufacturing engineering enables students to develop sophisticated technical skills in tandem with the professional skills of communication, teamwork and collaboration, and self-motivation and adaptability that many employers seek. Graduates are prepared to work in large corporations, government agencies, small businesses, as well as to go on to graduate school to pursue advanced degrees. The program's emphasis on open-ended design and project-based learning supports the development of entrepreneurial skills and attitudes, and some students start companies of their own.

Graduates typically work as manufacturing engineers in a variety of companies, large and small. They are often members of design and development teams, cooperating with other people within and outside of their company. Career employment opportunities include direct manufacturing support, manufacturing management, and quality control and assurance. Due to a strong, broad and practical engineering skill set, graduates are highly valuable in small or new startup companies. Program graduates are well-placed and command top salaries.

\section*{Manufacturing Engineering Technology (Mechanical), BS (TSMETMBS)}

Campus: Polytechnic

\section*{Program Description:}

Manufacturing is in a period of dramatic transformation. Future manufacturing will involve a global supply network to enable innovation, design and integration of products and services. At its core, manufacturing engineering is about creating and delivering products and services that have value to customers and society.

Manufacturing engineers are key team members in the production of products such as automobiles, airplanes, electronic devices, surgical instruments, toys, building products and foodstuffs. Manufacturing engineers design the processes to make products with the required functionality, to desired quality standards based on customers needs, at the best possible price and in environmentally friendly ways. The manufacturing curriculum is project-based and provides students a hands-on, team-based learning environment. The manufacturing program has outstanding fabrication facilities that are a hallmark of the program.

Accredited by the Engineering Technology Accreditation Commission of ABET, http://www.abet.org (http://www.abet.org).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)
Additional Requirements:
The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant (see http://global.asu.edu/future/undergrad (http://global.asu.edu/future/undergrad)), then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements:
Transfer students with fewer than 24 transferable college credit hours:
- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria
- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

\section*{Secondary Criteria}
- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

\section*{Change of Major Requirements:}

Admission requirements for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards. Students should refer to https://engineering.asu.edu/admission-requirements (https://engineering.asu.edu/admission-requirements/) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

Transfer from a Maricopa Community College in Arizona:

\section*{Career Opportunities:}

Materials engineers are in demand in a wide range of industries and professions, including:
- aerospace
- automotive
- computer
- electronics
- energy
- health care
- microelectronics
- nanotechnology
- robotics
- telecommunications

The career paths in these industries offer opportunities to impact technological advances through working in a team environment with engineers from the chemical, electrical, mechanical, aerospace and other engineering disciplines.

\section*{Mechanical Engineering, BSE (ESMAEMBSE)}

Campus: Tempe

\section*{Program Description:}

Mechanical engineering is a creative, diverse discipline. Mechanical engineers design, build and control the devices, machines, processes and systems that are the mainstay of modern industrialized society.

Students are prepared for a career in mechanical engineering through a curriculum that includes study of the principles governing energy transfer, mechanical design, sensors and control devices, and the application of these principles to the creative solution of practical modern problems.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (http://www.abet.org).

\section*{Additional Program Fee: Y}

Second Language Requirement: N
First Required Math Course: MAT 265-Calculus for Engineers I
Program Math Intensity: Substantial

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with:
Aerospace Engineering, MS
Materials Science and Engineering, MS
Mechanical Engineering, MS
Solar Energy Engineering and Commercialization, PSM
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see http://global.asu.edu/future/undergrad (http://global.asu.edu/future/undergrad)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer Admission Requirements:
Transfer students with fewer than 24 transferable college credit hours:
- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours:
- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

\section*{Change of Major Requirements:}

Admission requirements for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards. Students should refer to https://engineering.asu.edu/admission-requirements/ (https://engineering.asu.edu/admission-requirements/) for information about how to change a major to this program.

\section*{Career Opportunities:}

A major strength of a mechanical engineering education is the flexibility it provides in future employment opportunities for its graduates. Mechanical engineers are employed in virtually every kind of industry. They are involved in seeking new knowledge through research, in generating creative design and development, and in the production, control, management and sales of the devices and systems needed by society.

The BSE program in mechanical engineering has the following program educational objectives:
- Through volunteering, entrepreneurial endeavors, community service, their employment, etc., graduates of the mechanical engineering program will demonstrate commitment to the Sun Devil ideals of global engagement, social embeddedness, social transformation and sustainability. Graduates of the mechanical engineering program should have attained one or more of the following objectives within a few years after completing their degrees:
- employment in engineering or other fields in a position that capitalizes on the skills and abilities gained through the degree program in mechanical engineering (holding positions of increasing responsibility and leadership within their organizations)
- admission into a graduate degree program in mechanical engineering or other technical field.
- admission into a professional degree program, such as law, business or medicine, in accordance with the specific interests and abilities of the graduate

\section*{Mechanical Engineering (Computational Mechanics), BSE (ESMAECBSE)}

Campus: Tempe

\section*{Program Description:}

As mathematical and numerical modeling takes on a much larger role in product development, graduates who are highly skilled in computational and mathematical engineering will be in high demand. The concentration in computational mechanics, under the BSE program in mechanical engineering, is designed to teach students the modern computational tools available for solving large-scale and complex technical problems. The curriculum focuses on high-performance computing and the accurate modeling of large and small scale systems.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (http://www.abet.org).

\section*{Mechanical Engineering (Energy and Environment), BSE (ESMAEEBSE)}

Campus: Tempe

\section*{Program Description:}

The concentration in energy and environment within the BSE in mechanical engineering is designed to prepare students to analyze technical problems in
- air pollution
- climate change
- energy efficiency
- environmental sustainability
- renewable energy
- timely issues facing the global community

Although the primary focus of this program is technical, the general education courses in the areas of the humanities and social and behavioral sciences introduce students to the global, political and societal issues relating to energy and the environment. By focusing on issues such as air pollution, water scarcity and the lack of alternative transportation, this program becomes even more attractive for employers in the greater Phoenix area as well as nationwide.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (http://www.abet.org).

\section*{Mechanical Engineering Technology, BS (TSMECBS)}

Campus: Polytechnic

\section*{Program Description:}

Mechanical engineering technology programs offer students four years of applied engineering education in a hands-on, experiential, team-based learning environment. Faculty members have real-world engineering experience, which they use to teach students how to apply engineering theory to practice in state-of-the-art labs stocked with up-to-date equipment used in industry today. Students learn how to produce practical and technically innovative solutions to real-world problems, thereby helping people and the environment.

Accredited by the Engineering Technology Accreditation Commission of ABET, http://www.abet.org (http://www.abet.org).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program
(http://students.asu.edu/admission/wue).

Northland Pioneer College(https://transfer.asu.edu/tag)
Pima Community College(https://transfer.asu.edu/tag)
Tohono O'odham Community College(https://transfer.asu.edu/tag)
Yavapai College(https://transfer.asu.edu/tag)

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

Graduates often work as members of design and development teams, cooperating with other people in and outside of their company. The BS program in mechanical engineering technology, including specialty concentrations, offers great flexibility in type of work and location. Employment opportunities exist in companies that design, develop, manufacture, implement and improve products, machinery and systems. Employment areas include:
- engineering design
- manufacturing
- research and development

Companies large and small, in this region and elsewhere, provide a wide range of opportunities for graduates.

\section*{Mechanical Engineering Technology (Aeronautical Engineering Technology), BS (TSMECEBS)}

Campus: Polytechnic

\section*{Program Description:}

Mechanical engineering technology programs offer students four years of applied engineering education in a hands-on, experiential, team-based learning environment. Faculty members have real-world engineering experience, which they use to teach students how to apply engineering theory
to practice in state-of-the-art labs stocked with up-to-date equipment used in industry today. Students learn how to produce practical and technically innovative solutions to real-world problems, thereby helping people and the environment

The aeronautical engineering technology concentration provides a specialization in aircraft, with classes in aircraft systems, design and performance, structures and aerodynamics (including wind tunnel testing).

Accredited by the Engineering Technology Accreditation Commission of ABET, http://www.abet.org (http://www.abet.org).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 170-Precalculus
Program Math Intensity: Substantial

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\title{
Product Development and Manufacturing Technology, BS (TSMETBS)
}

Campus: Polytechnic

\section*{Program Description:}

Product development and related manufacturing technology is a wide-ranging and dynamic field. Conceiving of products and moving them to market is a complex and fascinating process that begins with an understanding of the humans who will use the product. Then, the prototype must be made, developed and manufactured on a scale that ensures financial success. The BS in product development and manufacturing technology provides students with the opportunity to learn all these facets of successful product development. At its core, product development is about creating and delivering products that have value to customers and society.

People with deep knowledge of product development are key team members in the production of products such as automobiles, airplanes, electronic devices, surgical instruments, toys, building products and foodstuffs. They often work closely with manufacturing engineers in the design of processes to make products with the required functionality, to desired quality standards, based on customer's needs, at the best possible price and in environmentally friendly ways. The product development curriculum provides students a hands-on, team-based learning environment, with students having access to outstanding fabrication facilities.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Additional Program Fee: Y
Second Language Requirement: \(N\)
First Required Math Course: MAT 170-Precalculus
Program Math Intensity: Moderate

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. \section*{Software Engineering, BS (TSSERBS)}

Campus: Polytechnic, Online

\section*{Program Description:}

The BS program in software engineering blends engineering, computing, project leadership and software construction. Students learn how to make creative software solutions to today's problems. Software systems are complex, often including millions of lines of code. Graduates of the bachelor's degree program in software engineering possess the knowledge and skills of a defined engineering approach to complex systems analysis, planning, design and construction.

The program has a unique, project-driven curriculum, establishing a new model for software engineering education. The program is built around the concepts of engaged learning, discovery-based education and learn-by-doing. Students complete projects in every semester of the program to provide emphasis in communication, teamwork, critical thinking and professionalism. Students have flexibility in designing their course of study; they select a software engineering application area such as Web and mobile applications or embedded systems as their primary focus, and they may obtain interdisciplinary knowledge through a secondary area of their design.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (http://www.abet.org/).

The accelerated program is only allowed for the software engineering program on the Polytechnic campus.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 265-Calculus for Engineers I
Program Math Intensity: Substantial

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Software Engineering, MS Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant (see http://global.asu.edu/future/undergrad (http://global.asu.edu/future/undergrad)), then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- Admission may be granted with one deficiency in no more than two competency (https://students.asu.edu/admission/competencies) areas.

Deficiencies in both math and laboratory science are not acceptable.

Transfer Admission Requirements:
Transfer students with fewer than 24 transferable college credit hours:
- minimum transfer GPA of 2.75 for less than 24 transfer hours, and
- satisfy the freshmen admission requirements

Transfer students with more than 24 transferable college credit hours:
- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- If Admission Services requires submission of a high school transcript, admission may be granted with one deficiency in no more than two competency (https://students.asu.edu/admission/competencies) areas. Deficiencies in both math and laboratory science are not acceptable.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-software-engineering?utm_source=asu\&utm_medium=degree-search\&utm_campaign=asu)

\section*{Change of Major Requirements:}

Current ASU students should refer to https://engineering.asu.edu/admission-requirements (https://engineering.asu.edu/admission-requirements/) for the major change requirements for this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

Software engineers solve a broad set of transdisciplinary problems and apply new technologies to improve the quality of life. Graduates design and engineer innovative systems that may include mechanical and electrical components that interact with software. The bachelor's degree program in software engineering is a unique program in which students learn by solving engaging projects, commonly as a member of a development team. The program prepares graduates for advanced study in computing, an allied field, or to enter the computing profession (most commonly as an application software engineer). According to the Bureau of Labor Statistics, software engineers are highly paid, and there is significant growth in the number of employment opportunities. Some software engineering jobs may include:
- creating applications for mobile devices
- creating Web applications
- working on data, network, security or computer systems administration

\section*{Technological Entrepreneurship and Management, BS (TSTEM2BS)}

Campus: Polytechnic, Online

\section*{Program Description:}

The BS program in technological entrepreneurship and management advances the knowledge and practice of entrepreneurship and innovation. To enhance students' understanding of business fundamentals, the Fulton Schools of Engineering have partnered with the W. P. Carey School of Business to offer a degree that is jointly conferred by both colleges. The degree program prepares students to address social and corporate issues to impact and change the world; create, launch and improve technology-based products, services and ventures; and identify and solve open-ended problems using engineering and technology approaches.

Students receive a foundation in both technology and business fundamentals, with an emphasis on technology entrepreneurship and innovation in one of two focus areas: innovation and operation management or social entrepreneurship.

The program objectives for this degree include:
impact on social, cultural and economic environments
- formulate methodologies to advance the knowledge of entrepreneurship and innovation
- launch technology-based products and services from idea generation through actualization
- use quantitative and qualitative methods to demonstrate continuous improvement of products, services, and processes
- utilize a systems approach for the effective design and improvement of entrepreneurial and innovation ventures

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Additional Program Fee: \(Y\)
Second Language Requirement: N
First Required Math Course: MAT 210 - Brief Calculus
Program Math Intensity: Moderate

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with: Global Technology and Development, MS Technology (Management of Technology), MSTech
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (https://asuonline.asu.edu)

\section*{Change of Major Requirements}

A current ASU student has no additional requirements for changing majors.Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Global Management, Thunderbird School of}

\section*{Global Management, BGM (TBTGMBGM)}

Campus: West

\section*{Program Description:}

The BGM degree program draws on Thunderbird School of Global Management's expertise in global management practices and intercultural communication training to provide students with a highly specialized, global business education.

The Bachelor of Global Management program prepares students to take on leadership roles in multinational corporations as well as nongovernmental organizations. Thunderbird's outstanding global management faculty members and strong relationships with global organizations allows students to develop the skills needed to operate effectively in today's globally connected world. Students develop skills that international employers, governments and nongovernmental entities value highly.

The program offers two tracks: the international business, language and culture track, in which two years of foreign language is required; and the international business and culture track, in which there is no foreign language requirement but more emphasis on management-related courses. Students who select the foreign language track may complete coursework in Chinese or Spanish. Speakers of English as a second language can choose the international business and culture track, or choose a third language within the international business, language and culture track.

Students have the opportunity to put the skills they have learned into practice in real-world settings through a required internship. Although the program strongly encourages students to pursue international internships, students may also satisfy this requirement by doing a local internship with an international orientation. Students also complete a senior capstone project of their choice, which draws upon the unique skills they have developed throughout the program. The internship and the capstone project allow students to demonstrate their skills and work experience for potential employers as part of their professional development plan.

Additional Program Fee: Y
Second Language Requirement: Yes

First Required Math Course: MAT 117-College Algebra
Program Math Intensity: Moderate

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Global Affairs and Management, MA Acceptance to the graduate program requires a separate application. \section*{International Trade, BS (TBINTRABS)}

Campus: West

\section*{Program Description}

The BS program in international trade provides rigorous training in skills related to a career in international trade. Students learn the functional disciplines of international business while gaining an in-depth understanding of the political, cultural and economic aspects of doing business in the international market. Supported by Thunderbird's emphasis on a global perspective, students acquire tools to manage supply chains, systematically assess risk, export and import goods and services, and use economic agreements to develop effective strategies for conducting international trade.

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 117-College Algebra
Program Math Intensity: Moderate

\section*{Concurrent Degrees:}

This degree is also offered as concurrent degree program with Business (Global Logistics Management), BA

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Global Affairs and Management, MA Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Concurrent degree admission requirements:
Students interested in the international trade and business (global logistics management) program must meet general university admission requirements.

Transfer students wishing to pursue the concurrent degree combination must have a 3.00 cumulative transfer GPA and a 3.00 cumulative ASU GPA (if applicable) in addition to meeting the general admission requirements in order to be admitted to this program. If the student does not meet the admission requirements for the concurrent program, they will be placed in the BS in international trade.

\section*{Change of Major Requirements:}

\section*{Applied Science (Health Sciences), BAS (NUHSCBAS)}

Campus: Downtown Phoenix, Online

\section*{Program Description:}

The BAS program with a concentration in health sciences is designed specifically for students who have earned an AAS degree from a regionally accredited institution. In completing the bachelor's degree program, students complete all ASU graduation requirements.

This is a flexible undergraduate degree designed for students entering the health and health care workforce at a variety of levels. Students can complete up to 60 credit hours at a community college prior joining the degree program, at which time they are required to complete as few as 60 additional credit hours at ASU to earn the Bachelor of Applied Science. Degrees can be customized based on student area of interest, including health and aging, health legislation, integrative care, Spanish and health, and community based health outcomes.

\section*{Additional Program Fee: Y}

Second Language Requirement: N
First Required Math Course: MAT 142-College Mathematics
Program Math Intensity: General

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree. This program is not available for freshmen.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (https://asuonline.asu.edu/degree-programs/undergraduate/bachelor-applied-science-health-sciences?utm_source=asu\&utm_medium=degree-search\&utm_campaign=asu)

\section*{Change of Major Requirements:}

Only students who have earned a Associate of Applied Science are eligible to change their majors to this degree program. Students should see https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Transfer from a Maricopa Community College in Arizona}

Chandler-Gilbert Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn) Estrella Mountain Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn) GateWay Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn) Glendale Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn) Mesa Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn) Paradise Valley Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn) Phoenix College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)

\section*{Applied Science (Medical Laboratory Science), BAS (NUMLSBAS) \\ Campus: Downtown Phoenix}

\section*{Program Description:}

The BAS in medical laboratory sciences is designed to provide the academic knowledge and professional skills that allow students to advance their employment opportunities within the fields of medical technology, cytology, clinical laboratory science and related areas.

Medical laboratory scientists, also known as clinical laboratory scientists, are highly skilled professionals who perform analytical tests on blood, tissue and body fluids to provide laboratory information for the detection, diagnosis and treatment of human diseases. There also is a growing trend for medical laboratory scientists to perform wellness laboratory testing aimed at preventing disease. They work independently and have skills and knowledge that are greater in depth and breadth compared to medical laboratory technicians, who typically are graduates of a two-year or community college program.

A detailed description of courses and the transfer path is available through the major map link.

\section*{Career Opportunities:}

The Bureau of Labor Statistics reports that 13,000 new laboratory professionals will be needed in the United States each year; however, current training programs graduate only 5,000 students each year. The majority of medical laboratory scientists and technologists work in hospital laboratories. Others work in independent laboratories, reference laboratories, clinics, health maintenance organizations, public health agencies, pharmaceutical firms, research institutions, scientific equipment companies, physicians' offices and as teachers in college clinical laboratory science programs. The working environment is as varied as the types of practice in which medical laboratory scientists are engaged.

\section*{Biomedical Informatics, BS (ESBMIBS)}

Campus: Tempe

\section*{Program Description:}

Biomedical informatics combines information technology, data science and knowledge for improvement in patient health care. The program educates undergraduate students in the informatics knowledge and skills that are so important in today's health care industry.

The program will enable graduates to improve the quality of patient health care and reduce the cost of it by consolidating patient health history and interventions across hospitals and clinics; providing the right information about patient health to clinicians; and, reducing clinical errors and waste. They will be able to minimize the number of hospital visits by managing and monitoring a patient's clinical condition at home, and they will be able to shorten hospital stays and improve the patient hospital experience by providing the patient with faster access to resources.

Graduates will be able to evaluate a patient's condition; make an early detection of disease; support the clinician in making a better, more precise diagnosis and prognosis; plan a treatment for the patient's disease; and track disease progression.

\section*{Additional Program Fee: Y}

Second Language Requirement: N
First Required Math Course: MAT 251-Calculus for Life Sciences
Program Math Intensity: Substantial

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Biomedical Informatics, MS Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.

\section*{Exercise and Wellness, BS (ECEXERBS)}

Campus: Downtown Phoenix

\section*{Program Description:}

The BS degree program in exercise and wellness provides students with in-depth scientific knowledge and hands-on experiences in the field of promoting health through physical activity and enhancing human performance across a broad range of populations. Students complete a core curriculum of exercise science then have the ability to choose upper-division electives specific to their area of interest. A degree in exercise and wellness prepares students for immediate careers in fitness and provides hands-on skills that can be used in professional schools.

Additional Program Fee: Y

\section*{Career Opportunities:}

Graduates of this program may pursue employment locations such as:
- health care systems and medical centers
- lifestyle and weight management consulting firms
- nonprofit disease prevention agencies (e.g., American Heart Association)
- university fitness and wellness centers

Specialty areas may include:
- bariatric weight loss clinic counseling and management
- corporate fitness and worksite wellness

Possible careers titles may include the following:
- athletic trainer*
- fitness center director
- group exercise specialist
- occupational therapist*
- personal training
- physical therapist*
- physical therapy technician
- sports performance coach
- sports performance director
- sports scout
- tactical performance coach
*Advanced degrees or certifications may be required for academic or clinical positions.

Students also are well-prepared for admission into graduate programs in exercise physiology, obesity prevention and management, rehabilitative fields (e.g., physical therapy), and medicine.

\section*{Exercise and Wellness (Exercise for Obesity Prevention), BS (NHEXWOPBS) \\ Campus: Downtown Phoenix}

\section*{Program Description:}

The concentration program in exercise for obesity prevention will prepare students to assist others in adopting physical activity behaviors for healthy lifestyles, obesity prevention and weight management. Students will engage in focused study involving the use of exercise to reduce disease risk and improve health in those classified as overweight or obese. Students will learn to assess health and fitness, learn about the etiology and consequences of obesity, receive education on health behavior change, and provide appropriate exercise prescriptions for health and weight management goals. Students in this concentration will be exposed to applied assessment labs and practical internships to gain the knowledge and experience they will need to be competent exercise and health promotion professionals. Graduates will be prepared for the American College of Sports Medicine exam for Certified Exercise Physiologist.

\section*{Exercise and Wellness (Fitness and Wellness Specialist), BS (ECEXWBS)}

Campus: Downtown Phoenix

\section*{Program Description:}

The BS program in exercise and wellness provides students with the knowledge and practical skills necessary to assist individuals in reaching optimal health. Students are prepared to pursue nationally recognized and credentialed certifications provided by professional organizations in fields of study related to physical activity, strength and conditioning, or exercise physiology. The exercise and wellness student is also well prepared, with the addition of the prerequisite courses, to continue into graduate schools required for careers in physical therapy, occupational therapy, athletic training or other medical fields.

The exercise and wellness program consists of a carefully designed curriculum emphasizing:
- competency in the instruction of basic and advanced techniques related to flexibility, resistance training and cardiovascular exercise
- competencies required to attain advanced level certifications from professional associations in the field
- foundational knowledge of exercise physiology and applied kinesiology
- methods to understand and help improve individuals with regard to their health behavior choices
- skills in assessing and interviewing clients in preparation for fitness and wellness programming
- skills in designing and manipulating program variables to work with apparently healthy or symptomatic individuals

Students in the exercise and wellness degree program also have the ability to enroll in courses that will enhance their abilities to work with high performance athletes, obese individuals or those at risk for suffering from other hypokinetic diseases.

Employment of fitness and wellness professionals is expected to grow by up to 24 percent through 2020, much faster than other occupations, driven by efforts to reduce health care costs by teaching people about healthy behaviors. The need for exercise and wellness programming and facilities will increase the need for workers in these areas.

\section*{Career Opportunities:}

Students who complete the exercise and wellness degree will have enhanced opportunities in fitness and wellness employment settings because
clients and employers prefer to work with people who are more highly prepared and qualified.

Undergraduates in this concentration often pursue careers in such fields as:
- clinical exercise
- corporate fitness
- fitness management
personal training
- sports performance
- wellness center management

Students may also pursue further graduate study in such fields as:
- athletic training*
- cardiac rehabilitation*
- occupational therapy*
- physical therapy*
physician assistant*
*Advanced degrees or certifications may be required for academic or clinical positions

\section*{Exercise and Wellness (Health Promotion), BS (ECEXWHBS)}

Campus: Downtown Phoenix

\section*{Program Description:}

The BS program in exercise and wellness with a concentration in health promotion provides students a pathway to become a Certified Health Education Specialist. Students will gain the knowledge, skills and expertise to develop and deliver programs that enhance awareness about healthy lifestyle behavior, increase health-enhancing behaviors, decrease health risk behaviors and create environments supportive of healthy lifestyles.

Students are prepared with:
- competencies required to pursue the Certified Heath Education Specialist certification
- foundational knowledge in nutrition, physical activity and stress for chronic disease prevention
- knowledge, skills and ethics for assessing and understanding group and community health needs
- methods for helping people make health behavior changes and teaching people about health risks and behaviors
- skills in designing, implementing, administering and evaluating effective health promotion programs in work site, community, health care and agency settings

A distinctive aspect of the health promotion concentration is an outstanding capstone internship that provides preprofessional experience in health promotion settings.

\section*{Career Opportunities:}

The rising cost of health care has increased the need for individuals with the skills and abilities to provide health education and health promotion programs. As health care costs continue to rise, insurance companies, employers and governments are attempting to find ways to curb costs. One of the more cost-effective ways is to employ health promotion professionals to teach people how to live healthy lives and avoid costly treatments for illnesses. Health promotion professionals work in various environments based on the industry in which they are employed. In public health, nonprofit organizations, corporations and businesses, colleges and universities, and medical care settings, they primarily work in offices. However, they may spend a lot of time away from the office implementing and attending programs, meeting with community organizers, speaking with patients or teaching classes.

Undergraduates in this concentration often pursue careers in such fields as:
- college and university wellness and health promotion
- government health departments and agencies
- health and wellness coaching
- nonprofit disease prevention agencies
- private health care organizations
- wellness centers
- worksite wellness and health promotion

Students may also pursue further graduate study in such fields as:
- health education
- health promotion
- health psychology
- medicine
- occupational therapy
- physician assistant
- public health

Advanced degrees or certifications may be required for academic or clinical positions.

\section*{Exercise and Wellness (Strength and Conditioning Specialist), BS (NHEXWSCBS)}

Campus: Downtown Phoenix

\section*{Program Description:}

The strength and conditioning specialist concentration is designed for students who want to work with active or athletic populations, including sport and tactical occupations. These students may work with high school, college or professional sports organizations in scholastic or private sports performance training facilities, with tactical sports performance clients (e.g., military, police, firefighters, EMT) in municipal or government-run facilities or with individual clients participating in more active, higher intensity-based fitness programs. Students in this concentration will be exposed to applied assessment labs and practical fieldwork to gain the knowledge they will need to be competent coaches in this field. Graduates will be prepared to sit for the Certified Strength and Conditioning Specialist or the Tactical Strength and Conditioning-Facilitator examinations offered by the National Strength and Conditioning Association (https://www.nsca.com (https://www.nsca.com)) at the completion of their coursework. Students interested in careers in the field of sports medicine (athletic trainers, sports physical therapists, orthopedic surgeons, etc.) may also benefit from the coursework to provide an understanding of the training programs that accompany sports participation.

\title{
Health Education and Health Promotion, BS (NHHEHPBS)
}

Campus: Downtown Phoenix, Lake Havasu, Online

\section*{Program Description:}

The BS in health education and health promotion provides students a pathway to become a certified health education specialist through the National Commission for Health Education Credentialing (https://www.nchec.org/ (https://www.nchec.org/)). Based on a random sample of community health job advertisements (September, 2017), health professionals with the CHES credential earn up to a 47 percent higher salary than health professionals without it.

The program provides professional preparation in population-based health education, including school and community health education. Students pursuing a bachelor's degree in health education and health promotion gain foundational knowledge in health promotion program planning, implementation, and evaluation as well as in certified health education specialist competencies, and they learn about specific health education strategies for effectively delivering community and school health education. interventions. Students develop an understanding of various areas addressed by certified health education specialists, including injury prevention, violence prevention, substance abuse prevention, sexual health education, emotional health education, foundations of school health education, social media and marketing in health education, nutrition, physical activity, and stress for chronic disease prevention.

\section*{Health Sciences, BS (NHHSCBS)}

Campus: Downtown Phoenix, West

\section*{Program Description:}

The BS program in health sciences is designed to provide the academic knowledge and skills that allows students to move directly into a range of employment opportunities within the health field or to continue their education in discipline-specific programs. Students choose a track focus in either community-based health outcomes, health legislation and regulation, integrated care, or Spanish and health.

A limited number of students each year may apply to pursue the echocardiography certificate through the Mayo Clinic. Once the certificate is successfully completed, students may transfer the credits to Arizona State University, and those credits may be applied toward completion of the Bachelor of Science in health sciences.

Health Sciences (Health Policy), BS (NUHSCHPBS)
}

Campus: Downtown Phoenix

\section*{Program Description:}

The BS program in health sciences is designed to provide the academic knowledge and skills to allow students to move directly into a range of employment opportunities within the health field or continue their education in discipline-specific programs. Students complete a complement of core courses that emphasize ethics, communication skills, critical thinking and cultural awareness

The health policy program is designed for students interested in the community policy aspects of disease prevention and health promotion. The continuum of health care now spans a diverse array of health providers ranging from private practitioner offices and outpatient care centers to residential care facilities and acute care hospitals. Key to the enhancement of health care within the U.S. is the development and implementation of innovative, cost-effective and universally accessible programs. Students in this concentration are required to complete a supervised practicum, providing hands-on experience within their field of interest. Students may also wish to consider using their electives to complete a minor in nonprofit administration, which requires 15 credit hours.

\title{
Health Sciences (Healthy Lifestyles Coaching), BS (NUHSCHLCBS)
}

Campus: Downtown Phoenix, West, Online

\section*{Program Description:}

The BS program in health sciences with a concentration in healthy lifestyles coaching is designed to provide the academic knowledge and skills to allow students to move directly into a range of employment opportunities within the health field or continue their education in discipline-specific programs. Students complete a complement of core courses that emphasize ethics, communication skills, critical thinking and cultural awareness. The healthy lifestyles coaching emphasis brings together coursework from exercise and wellness, nutrition, and health care delivery to give students a strong background in preventative health care.

The degree program allows students to explore a range of interests in health education and is designed for students who are seeking immediate employment in the community health education or health promotion fields.

Students who complete this degree and one additional course are eligible for the National Board Certification for Health and Wellness Coaches offered by International Consortium for Health \& Wellness Coaches: http://www.ichwc.org (http://www.ichwc.org).

\section*{Career Opportunities:}

According to the U.S. Bureau of Labor Statistics, employment for health coaches and health educators is projected to grow 21 percent from 2012 to 2022, faster than the average for all occupations. Growth is driven by efforts to improve health outcomes and to reduce health care costs by teaching people about healthy habits and behaviors and utilization of available health care services. Health coaches work in hospitals and health care facilities, schools, public health departments, nonprofit organizations, and private businesses. Career options include positions such as:
- elder service or congregate meal program coordinator
- health and patient educator
- Healthy Start or corporate wellness coordinator
- school health and nutrition program specialist
- women, infants, children and community nutrition aide

\title{
Health Sciences (Pre-professional), BS (NUHSCPREBS)
}

Campus: Downtown Phoenix

\section*{Program Description:}

The BS program in health sciences is designed to provide the academic knowledge and skills to allow students to move directly into a range of employment opportunities within the health field or continue their education in discipline-specific programs. The preprofessional program is designed for students planning to enter medical, dental, osteopathic, physical therapy, veterinary, pharmacy and similar professional schools. In addition to a comprehensive core of basic science courses, the concentration is unique in that it provides a solid base in ethics; communication; the evaluation of research (the cornerstone of evidence-based practice); and healthy lifestyles (the foundation of health promotion and chronic disease risk reduction avenues of health care), including the role of complementary and alternative care within the U.S. health care system. Students have the ability to incorporate electives that contribute to their knowledge of and sensitivity to the needs of populations impacted by health disparities.

\section*{International Public Health, BIPH (NHIPHBIPH)}

\author{
Campus: Online
}

\section*{Program Description:}

The Bachelor of International Public Health advances the core principles of the PLuS Alliance by developing solutions to global challenges and generating social impact in health and health care. This degree program is designed to build and strengthen the international public health workforce and includes coursework from three leading universities: ASU, the University of New South Wales and King's College. Aligned with U.S. accreditation standards in public health, the coursework teaches new approaches to emerging public health issues including health promotion, communicable disease prevention, environmental health, public health surveillance and global health management.

Students also have the opportunity to study abroad through optional faculty-led Global Intensive Experiences as well as semester, summer and spring break programs.

In their final year, students will complete a capstone experience either locally or abroad in their area of interest, which will prepare them for careers in global health policy, data and informatics, systems thinking, and community-based care.

\section*{Kinesiology, BS (NUKINBS)}

Campus: Downtown Phoenix, Lake Havasu

\section*{Program Description:}

Kinesiology is a discipline emphasizing the study of human movement as it relates to health, physical activity and exercise, disease prevention and treatment, and physical rehabilitation. Using human models and reflecting research ranging from basic to applied, undergraduate students in the program gain a disciplinary knowledge of the anatomical, biomechanical, developmental, neural, physiological and psychological mechanisms underlying human movement. A degree in kinesiology prepares students for graduate study in physical or occupational therapy, physician assistant programs, medicine, and other health-related professional programs.

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 170 - Precalculus
Program Math Intensity: Moderate

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Clinical Exercise Physiology, MS Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Medical Studies, BS (NHMEDBS)}

Campus: Downtown Phoenix, West

\section*{Program Description:}

The BS program in medical studies allows students to meet the prerequisites for a variety of health professions programs (medicine or MD programs, dentistry, physician assistant, pharmacy, occupational therapy, physical therapy, optometry and others) and prepares the student for required postgraduate entrance exams, including the revised MCAT.

Students can customize the medical studies degree to meet the prerequisites of the health professions programs for which they intend to apply. Students have the opportunity to learn directly from health care providers, and they can select clinically related internships or electives during their junior year.

This degree program integrates communication, ethics, critical thinking, teamwork and leadership, all of which are essential competencies for members of today's health care team.

\section*{Nutrition, BS (NHNTRBS)}

Campus: Downtown Phoenix, Online

\section*{Program Description:}

The BS program in nutrition provides students with the ability to apply nutrition principles in a variety of fields based on one of the following tracks.

Food and nutrition management --- Students develop an understanding of the food industry, learn to manage and market food, and develop a food or menu that meets a specific nutritional guideline, preparing them to apply their knowledge to food production.

Nutrition communication --- Students become experts in communicating health and nutrition information through nutrition courses that provide content for the articles students write in their communication-related studies. This track provides students with a strong understanding of the scientific method, statistics, nutrition, health care and wellness that some traditional journalists might lack.

Food studies --- Students gain knowledge in all aspects of food and food production through a strong foundation in nutrition, food systems and food marketing.

\section*{Career Opportunities:}

According to the National Restaurant Association, the number of food service managers is projected to increase by 15 percent in the next 10 years. The food and nutrition management track prepares students to become food service directors at schools, health care facilities and corporate food service operations. Graduates of the program aspire to own restaurants or nutrition-related businesses, work in supplement or pharmaceutical sales, or work in food marketing and distribution.

The nutrition communication track offers employment opportunities with community and health care agencies, magazines, newspapers, private corporations (e.g., public relations firms) and Web-based companies. Graduates can pursue careers as authors, consultants in program or product development, freelance writers for newspapers and magazines, and public relations representatives for food and beverage companies.

The food studies track prepares graduates for careers in food media, food policy, food history, culinary and food tourism, food product marketing and food product development.

\section*{Nutrition (Dietetics), BS (ECNTRDBS)}

Campus: Downtown Phoenix

\section*{Program Description:}

The BS in nutrition with a concentration in dietetics prepares students with the required coursework and skill set to apply for a dietetic internship required to sit for the registration exam to become a registered dietitian, which is a food and nutrition expert. In addition to a core of professional nutrition courses, students will complete a broad range of science, management and communication classes. The program emphasizes the application of nutrition within clinical, community, food production and wellness areas.
us/become-an-rdn-or-dtr (https://www.eatrightpro.org/resources/about-us/become-an-rdn-or-dtr).

ASU's bachelor's degree program in nutrition with a concentration in dietetics is accredited as a Didactic Program in Dietetics by the Accreditation Council for Education in Nutrition and Dietetics, 120 S. Riverside Plz., Ste. 2190, Chicago IL 60606-6995, phone: 800-877-1600, ext. 5400.

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 142-College Mathematics
Program Math Intensity: General

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.

\section*{Nutrition (Food and Nutrition Management), BS (ECNTRMBS)}

Campus: Downtown Phoenix, Online

\section*{Program Description:}

The BS program in nutrition with a concentration in food and nutrition management provides students with the ability to apply nutrition principles to food production. This concentration is designed to provide students with an understanding of the food industry so they can manage and market food and develop a food or menu that meets a specific nutritional guideline.

Coursework focuses on a strong foundation in food purchasing, production and planning. Additional coursework in management, marketing and nutrition prepares students for a variety of food service positions. Graduates can also pursue the credentials of certified dietary manager, school nutrition specialist or registered sanitarian.

Nutrition (Human Nutrition), BS (ECNTRHBS)

\section*{Program Description:}

The BS program in nutrition with a concentration in human nutrition provides students with a strong foundation in nutrition and science that prepares them for careers in public or community health programs and clinical or graduate research programs.

In addition to providing a strong foundation in medical nutrition therapy, the coursework includes anatomy, physiology, chemistry and microbiology. Students gain knowledge of nutritional concepts that health care professionals sometimes lack.

Students from this program have gone on to study:
- dentistry
- medicine
- naturopathic medicine
- optometry and podiatry
- osteopathic medicine
- pharmacy

\section*{Nutrition (Nutrition Communication), BS (ECNTRCBS)}

Campus: Downtown Phoenix, Online

\section*{Program Description:}

The BS in nutrition with a concentration in nutrition communication is designed to help students become experts in communicating health and nutrition content. This concentration was originally developed in collaboration with the Walter Cronkite School of Journalism and Mass Communication.

Nutrition courses provide the content for articles students write in their communication-related classes. This degree program provides students with a strong understanding of the scientific method, statistics, nutrition, health care and wellness that many traditional journalists lack. Faculty members teach students how to avoid sensationalism or sacrificing reality to get a better story.

\section*{Public Health, BS (NHPBHBS)}

Campus: Downtown Phoenix

\section*{Program Description:}

The BS degree program in public health teaches students to develop and apply knowledge from multiple disciplines for the promotion and protection of the health of the human population. This degree is designed to appeal to students interested in populations of people (rather than an individual's health), preparing the students with skills in the five core areas of public health, namely:
- behavior science and health education
- biostatistics
- community-based education and intervention
environmental health
epidemiology and geographic information systems
- systems modeling

The required internship component of the program (PBH 444: Public Health Field Experience) allows students to gain practical experience in public health professions. Graduates typically work as public health practitioners who are competent to plan, implement, evaluate and monitor public health functions and activities in a variety of settings. They are prepared to fill various positions in public and community health as well as pursue further education through graduate study, including a Master in Public Health degree

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

Graduates of this program will qualify for entry-level positions in public health education, sanitation and environmental control, public health administration, health promotion and similar areas. Employment opportunities are available within national, state or local health departments and in community clinics, community or private advocacy groups, health education programs and nonprofit organizations.

Popular positions include:
- Community health workers --- liaise as front line public health worker (requires a deep understanding of a served community) with community officials and health services to improve the quality and cultural competence of health care service delivery to the community or to vulnerable groups such as children, veterans and the homeless
- Environmental specialists --- investigate potential environmental health and food risks, advise the community on how to reduce these risk, and implement public health projects
- Health educators --- teach people about behaviors that promote wellness, and develop and implement strategies to improve the health of individuals and communities
- Occupational health and safety specialists --- analyze many types of work environments and procedures, inspect workplaces for adherence to regulations regarding safety, health and the environment, and design programs to help prevent injuries and diseases in workers
- Program managers --- plan, direct and coordinate public health programs and initiatives within communities

\section*{Speech and Hearing Science, BS (LASHSBS)}

Campus: Tempe, Online

\section*{Program Description:}

Students in the BS program in speech and hearing science study the normal aspects of the communication process. Emphasis is placed on the anatomy and physiology of the hearing mechanism; on speech, language and hearing science; and on the human communication system, including normal development of speech and language.

Graduates attain broad-based knowledge in the basic aspects of speech, language and hearing sciences, which prepares them for graduate study in audiology or speech-language pathology, or potential employment opportunities in related health and behavioral fields.

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 170-Precalculus
Program Math Intensity: Moderate

\section*{Admission Requirements:}

\section*{Career Opportunities:}

Employment opportunities for those with a bachelor's degree may include positions as:
- hearing aid or cochlear implant company representatives
- research assistants or associates in behavioral disciplines
- speech-language pathology assistants
- support personnel in rehabilitation or health facilities

Many graduates in speech and hearing sciences gain entrance into a graduate-level program in speech-language pathology or audiology. In both fields, a graduate degree is required for employment.

The undergraduate degree in speech and hearing science is also excellent preparation for those who wish to enter professional or graduate programs in fields such as:
- counseling
- education
- law
- medicine
- rehabilitation
- social work
- special education
- teaching for the deaf

Graduates in speech-language pathology and audiology can work with children or adults with communication disorders in a variety of settings, including:
- clinics
- hospitals
- private practice
- schools, all levels of preschool through secondary

\section*{Honors - Barrett, The Honors College}

\section*{Honors College, (9HOHONALL)}

Campus: Downtown Phoenix, Polytechnic, Tempe, West

\section*{Program Description:}

ABOUT THE COLLEGE

Barrett at ASU is internationally known as the model for supporting honors students from multiple disciplines. Barrett stands alone in dedicated resources, size and complexity, with a presence on four ASU campuses, a multimillion dollar endowment used to support honors students and their projects, and dedicated deans, faculty and staff that include seven administrators, 42 Faculty Fellows, 62 staff within the college and more than 1,800 faculty members who teach honors students university-wide each year. Barrett represents a powerful and unique combination of the special
care and attention an honors student should expect in academics and advising from an excellent residential liberal arts college, with the vast program choices and research mentoring resources of a vibrant Research I university. This honors community is known nationally for its recordbreaking number of scholars recognized by the National Merit Scholarship Corporation, National Hispanic Recognition Program, and Flinn Foundation and its numbers of nationally ranked recipients of Fulbright, Truman, Goldwater, Udall and Marshall fellowships.

In 2009, Barrett opened the nation's first comprehensive four-year residential honors college within a top-tier Research I university. The \(\$ 140\) million nine-acre honors campus community on the Tempe campus includes all the Barrett Faculty Fellows and administrative offices as well as classrooms and residence halls for 1,700 honors students, a signature dining hall, refectory and café, and several courtyards, student lounges, activity rooms, computer labs and a community center. The four-year residential campus in Tempe expanded to the 18-acre Vista Del Sol site across the street in 2013 and now accommodates 1,500 additional beds for upper-division honors students, the honors admissions and recruiting operations, and an entire campus of community space, offices and amenities that include a theater, pool, writing center, fitness, recreation and events facilities. Barrett students on the Polytechnic, West, and Downtown campuses also enjoy new facilities plus the benefits of living in growing honors communities that offer academic and cocurricular experiences and faculty and staff solely committed to enabling the best education possible for intellectually engaged students from Arizona, America and the world. Recently, Barrett expanded its global initiatives platform to include a Distinguished Global Leader Series, expanded summer abroad and term-time student abroad opportunities, international courses, internship and service abroad, and credit and noncredit global experience trips.

\section*{STUDENT OPPORTUNITIES}

Barrett students take advantage of opportunities that specifically enrich the honors experience. They receive national and international graduate scholarships. They engage in cutting-edge research with distinguished ASU faculty and benefit from special partnerships with the Mayo Clinic, the Biodesign Institute, and Intel. Students develop iPhone applications, build robots, design games and develop tools to improve health care, meet global energy needs, provide clean water or secure data and information privacy. There are numerous internship opportunities developed exclusively for Barrett students, and many of the nation's top companies, government agencies and non-profits specifically seek opportunities to recruit Barrett students.

Barrett students on all four campuses are leaders outside the classroom as well, and they cultivate service and leadership opportunities both in Barrett and throughout ASU, serving as officers in student organizations, mentors, tutors and change makers. Barrett offers a full range of studentdriven service, wellness, arts, cultural, social, entrepreneurial, professional development and sustainability programming. More recently, Barrett formed unique partnerships with Indigo and CalmCircle to provide students access to individualized personal development and well-being tools.

Popular events on the Tempe campus include Lunch with the Dean, Dinner with Faculty nights, and the Ladies Tea at the historic University Club. Barrett students have opportunities to attend Tony Award-winning Broadway musicals at Gammage Theater; explore the world's only Musical Instrument Museum; round up cattle on our cattle drive; attend bi-weekly yoga classes; learn healthy eating habits from a certified nutritionist; and share their musical talents at monthly Open Mic Nights in Barrett's very own Burning B Café.

Our Downtown Phoenix campus hosts an Urban Tour series with visits to Chase Field (home of the Arizona Diamondbacks) and the arts district at Roosevelt Row. Popular events Downtown include Donuts with the Dean, the Barrett Fashion Show, Career Development night, and the Barrett Red Carpet Formal.

The Polytechnic campus is known for cutting-edge labs, innovative faculty and students that are solving real-world problems with ground-breaking applied technology and solutions. The Ira A. Fulton Polytechnic Innovation Showcase is an impressive exhibition featuring many of these innovative student projects and interdisciplinary collaborations. The Barrett Polytechnic campus faculty and staff also host unique programming such as the Human Event Tribunals, kayaking excursions, sustainable Earth Week activities, healthy cooking demos, service projects and many more.

Our West campus Barrett faculty and staff host Culture Clash, an event that immerses students in different cultures to enjoy food, discussion, and film from each unique culture. West campus students also partake in traditions like the Barrett Ball and Bowling with the Deans.

Barrett students on all four campuses participate in travel abroad programs that enable them to enjoy small classes taught by Barrett faculty and experience different cultures while earning honors credits. Great American Cities is one of the most popular travel programs. Students visit cities like Boston, New York City, New Orleans, Anchorage and Miami and engage in a service project while enjoying the history, culture and great food of their destination. Other travel opportunities range from turn-around trips to Arizona monuments to overnight trips to Disneyland.

\section*{Additional Program Fee: Y}

Second Language Requirement: N

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Students must complete an application to Arizona State University before submitting a separate application to Barrett, The Honors College. Students who have demonstrated high levels of academic achievement in high school or college may apply for admission to Barrett. Each candidate must file an application to the college separate from the ASU application, in accordance with the appropriate Barrett deadlines.

Applicants are evaluated on the basis of their academic records, their ranking within the graduating class, and their performances on the SAT or ACT. The college also values students who have special talents and aptitudes, exhibit exceptional leadership qualities, have had unusual life experiences or display significant community involvement.

The Barrett admission application and additional information about the college and its activities are available at https://barretthonors.asu.edu (https://barretthonors.asu.edu).

Integrative Sciences and Arts, College of

\section*{Agribusiness (Preveterinary Medicine), BS (AGAGBPBS)}

Campus: Polytechnic

\section*{Program Description:}

The BS in agribusiness teaches students the business of agricultural production, finance, marketing and distribution. Students explore global agribusiness issues such as international trade, food safety and sustainability through a technology-rich curriculum that focuses on real-world projects.

The agribusiness industry is increasingly competitive, sophisticated and global, driving demand for innovative leaders who understand the industry's unique challenges and practices. The programs offered through the highly respected College of Integrative Sciences and Arts prepare graduates for success in graduate school or a wide range of careers.

By adding a concentration in preveterinary medicine, students can build on coursework in chemistry and biology, to open opportunities for further study, including in veterinary medicine. Others may seek to apply their science knowledge in the human or veterinary pharmaceutical industries or in the food industry, with a focus on processing, production and food safety.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Applied Biological Sciences (Applied Biological Sciences), BS (TSABSABS)}

Campus: Polytechnic

\section*{Program Description:}

The BS program with a concentration in applied biological sciences offers students solid foundations in biology and related sciences while allowing them to focus on an area of special interest. This concentration works well for students interested in pursuing research careers in biology or for students planning to enter graduate or professional programs related to human health including:
- biotechnology
- dentistry
- epidemiology
- medical technology
- medicine
- physical therapy
- physician's assistant programs
- public health

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. \section*{Applied Biological Sciences (Natural Resource Ecology), BS (LSABSNRBS)}

Campus: Polytechnic

\section*{Program Description:}

The natural resource ecology program is for students who are interested in sustainably managing and restoring degraded plant, soil and wildlife resources. Graduates of this degree program have the academic background and hands-on experience that allow them to work in government agencies or environmental consulting firms or enter graduate programs in the area of natural resource ecology. Range conservationists, wildlife managers and other ecologists work in a variety of ecosystems to ensure sustainability of our natural resources for future generations.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Additional Program Fee: N
Second Language Requirement: N
First Required Math Course: MAT 210 - Brief Calculus
or MAT 251

Program Math Intensity: Moderate

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Applied Biological Sciences, MS Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

\section*{Change of Major Requirements:}

A current ASU student has no additional requirements for changing majors. Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Applied Biological Sciences (Preveterinary Medicine), BS (LSABSPMBS)}

Campus: Polytechnic

\section*{Program Description:}

The purpose of the concentration in preveterinary medicine in the BS program in applied biological sciences is to prepare undergraduate students to successfully complete the admission requirements for pursuing an advanced degree in veterinary medicine. The concentration curriculum emphasizes a solid foundation in biology, chemistry, physics, animal science and mathematics while offering specialized courses in veterinary medicine and opportunities for placement in internships in the field.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. \section*{Applied Biological Sciences (Secondary Education in Biology), BS (TSABSSBS) \\ Campus: Polytechnic}

\section*{Program Description:}

The secondary education in biology concentration is designed for students who want to teach biology at the high school level. In addition to the standard curriculum, students receive hands-on experience in laboratory instruction in this BS program in applied biological sciences. Our goal is to prepare teachers who excel in biology and the related sciences.

Students should also contact the Mary Lou Fulton Teachers College.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. \section*{Applied Biological Sciences (Sustainable Horticulture), BS (TSABSUBS)}

\author{
Campus: Polytechnic
}

\section*{Program Description:}

The sustainable horticulture concentration is designed for students who want theory and practical experiences in the unique aspects of the culture of plants in an urban desert environment. Students acquire the skills to produce, design and care for ornamental and edible plantscapes using sustainable technologies.

Students are prepared for a range of horticulture careers in the private and public sectors, including in nursery plant production, landscape design and culture as well as local food production and organic urban farming.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

Horticulture is a multibillion dollar national and international enterprise that offers a diverse and exciting choice of professional careers. Graduates can pursue numerous entry-level careers in horticulture. Employment opportunities exist in private and public sectors. The sustainable horticulture concentration prepares graduates to succeed in graduate or professional schools in disciplines such as:
- aftermarket care of plants
- biology of the plants in desert cities
- care and management of trees in cities
- creation of public, community and private gardens in arid climates
- design and installation of outdoor landscapes including landscape irrigation systems
- integrated pest management
- nursery production
- marketing
- organic farming
- plant identification
- plant propagation

The general program in sustainable horticulture also prepares graduates to succeed in roles such as:
- arboretum or botanical garden manager
- city horticulturist
- city park superintendent or manager
- horticultural consultant
- horticultural plant researcher or educator
- horticulture products and supplies
- horticulture supply sales representative
- integrated pest management specialist
- interior plant specialist
- irrigation system designer or consultant
- landscape designer or contractor
- landscape services company owner or operator
- nursery plant broker and plant salesperson
- nursery production owner or manager
- organic farmer or permaculturist
- plant propagator
- urban forester, tree specialist or arborist
urban plant ecologist

Career opportunities for urban horticulture graduates are not limited to any one geographic location; graduates can embark on careers throughout the United States, Canada, Mexico and overseas

\section*{Applied Mathematics, BS (LSMATBS)}

Campus: Polytechnic

\section*{Program Description:}

The BS degree program in applied mathematics offered by the College of Integrative Sciences and Arts is a transdisciplinary program focused on developing flexible problem-solvers who can apply mathematical techniques and skills to a wide range of problems in the sciences, such as biology, social sciences, chemistry, physics and engineering. The coursework builds a foundation in mathematical modeling, data analysis and the interpretation of mathematical results in real-world settings. Students choose electives in the sciences, technology, engineering or other areas of interest to complement and provide context for their mathematical training.

Additional Program Fee: N

\section*{Applied Physics, BS (LSAPHYBS)}

Campus: Polytechnic

\section*{Program Description:}

The acceleration of advances at the frontier between physics, engineering and technology creates a need for interdisciplinary training and research that is not readily accommodated by traditional single-focus programs in physics. Bringing fundamental physics together with its immediate applications, the BS in applied physics will be attractive to students whose interests span new physical technologies in industry and engineering. The degree combines physics, computer science and applied mathematics to tackle complex real-life problems in physics, material sciences, engineering, chemistry and others.

The bachelor's degree program brings together the expertise of physics faculty, particularly in the modeling of physical systems which relies heavily on both modern numerical techniques and fundamental physics. The growing presence of Intel and other high-tech companies in the east valley and metropolitan Phoenix presents a unique opportunity to enhance the students' interaction with industry. Given the importance of hands-on experience, the degree program offers a series of unique courses allowing students interactive involvement in a project-based environment.

\section*{Applied Quantitative Science, BS (LSAQSBS)}

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Students learn to integrate and apply STEM-supported skills that are increasingly in demand in the 21st century.

Graduates of the applied quantitative science degree program acquire six habits of mind, mental activity that becomes increasingly automatic over progress through the curriculum and extending into career development. They are able to:
- apply and project quantitative reasoning to unfamiliar contexts
- communicate well within and without the expert domain
- critically and adaptably think about complex problems
- effectively search through and evaluate information
- experiment creatively and in an informed manner in search of new insights
- use sophisticated insight involving statistical inference and quantitative reasoning

This program is offered as a stand-alone degree on the Polytechnic campus. Students pursuing degrees on all four metropolitan campuses can add this degree as a concurrent degree.

Additional Program Fee: N

\section*{Applied Science (Applied Leadership), BAS (LSALSBAS)}

Campus: Polytechnic, COCHS, CAC, The Gila Valley, Online

\section*{Program Description}

This BAS program prepares students for leadership positions in a wide variety of organizations and career fields. The concentration in applied leadership provides a valuable degree pathway for students with Associate of Applied Science degrees in fields such as fire science, environmental technology, machine shop technology and welding technology. Students learn leadership skills necessary to prepare them to become effective leaders in diverse environments --- applying those skills as team leaders, floor managers and shift captains.

The concentration in applied leadership focuses on the practice of innovative and effective leadership and helps students develop the skills and knowledge that leaders need to solve problems, communicate effectively, resolve conflicts, assess program effectiveness, lead projects and manage resources.

Additional Program Fee: N
Second Language Requirement: N
First Required Math Course: MAT 117-College Algebra
Program Math Intensity: General

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Transfer Admission Requirements:
Students applying to this program must have completed an Associate of Applied Science degree from a regionally accredited institution. For students with an AAS from an Arizona community college, the AGEC is recommended but not required. This program is not available for freshmen.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (https://asuonline.asu.edu/online-degree-programs/undergraduate/applied-leadership-bas)

\section*{Change of Major Requirements:}

Only students who have completed a Associate of Applied Science degree are eligible to declare Bachelor of Applied Science majors at ASU. Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change the major to this program.

\section*{Applied Science (Technical Communication), BAS (LSTECBAS)}

Campus: Polytechnic

\section*{Program Description:}

The BAS program with a concentration in technical communication is a flexible degree plan designed specifically for students who have earned an AAS degree from a regionally accredited institution. This major combines the technical experience gained in the student's associate degree program with a broader education of skills in management, leadership, critical thinking and communication.

Technical communication is applied workplace communication that makes technical information understandable and available to many audiences. In the technical communication concentration, students learn how to produce, design and manage information using both traditional and developing technologies.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Communication, BA (LSCOMBA)}

Campus: Downtown Phoenix, Polytechnic

\section*{Program Description:}

The BA program in communication in the College of Integrative Sciences and Arts explores how communication processes create, maintain and transform identities, relationships, workplaces and communities. With a dual emphasis on urban communication and technology, it allows for a concerted focus on the rapidly changing modalities of communication occurring today. The program's mission statement is: Through the study and critique of human communication, we generate knowledge, creativity and understanding to facilitate healthy relationships and workplaces, civil and secure communities, and constructive intercultural interaction.

Students must complete a minimum of 12 upper-division credit hours of COM courses offered by the College of Integrative Sciences and Arts.

Additional Program Fee: N

\section*{Counseling and Applied Psychological Science, BS (LSCAPSBS)}

Campus: Polytechnic

\section*{Program Description:}

Counseling and applied psychological science is a specialty in promoting psychological well-being. Counselors and applied psychologists provide the tools and resources necessary for individuals, families and organizations to cope with everyday problems. The BS program in counseling and applied psychological science provides foundational training in counseling theories, career and lifespan development, ethics and research methods. A unique aspect of the program is its attention to cultural diversity that includes age, gender, race, ethnicity, sexual orientation, religion and socioeconomic status.

Graduates may qualify for employment in community agencies, hospitals, rehabilitation centers and other behavioral healthcare delivery settings to support counselors and other mental health professionals. Graduates will be prepared for careers as behavioral health technicians, vocational rehabilitation assistants, human service workers, life-skills instructors and others. Graduates will not be license-eligible as professional counselors but will be well-prepared to enter advanced graduate degree programs in counseling and related fields.

\section*{Career Opportunities:}

The bachelor's degree program in English prepares scholars and teachers for graduate or professional study and for careers in education, writing and other related fields. Career prospects for secondary language arts teachers in Arizona are particularly strong. More importantly, students in the program develop skills that employers value, such as analyzing ideas and problems, finding and evaluating information, communicating effectively and presenting clear and logical arguments. With these skills, graduates of the program can find jobs such as these:
- advertising and promotions managers
- broadcast news analysts
- copy writers
- court reporters
- editors

English language and literature teachers
- judicial law clerks
- lawyers
- legal support workers
- marketing managers
- media and communication workers
- middle school teachers
- paralegals and legal assistants
- poets, lyricists and creative writers
- postsecondary teachers
- public relations specialists
- sales managers
- sales representatives
- secondary school teachers
- teachers and instructors
- technical writers
- writers and authors

\section*{Exploratory Health and Life Sciences, (UCHSCIEXPL)}

\author{
Campus: Downtown Phoenix, Polytechnic, Tempe, Lake Havasu, Online
}

\section*{Program Description:}

The exploratory health and life sciences track offers students an opportunity to explore a variety of majors related to the health and life science professions. ASU recognizes that many students are not ready to choose a specific academic program of study when first entering the university. Allowing students the option to declare exploratory status permits them to begin meeting General Studies requirements that all ASU graduates must fulfill as well as affording students some time to explore a variety of academic courses that may lead to a potential major interest.

All College of Integrative Sciences and Arts exploratory students are required to enroll in the following major and career exploration courses, which must be taken sequentially:

UNI 150 Major and Career Exploration (1)
UNI 250 Choosing a Major (1)
UNI 270 Career Direction for a Successful Future (1)

For a complete list of all majors associated with this exploratory track, students should refer to https://cisa.asu.edu/exp-health-life-sciences-majors (https://cisa.asu.edu/exp-health-life-sciences-majors).

Additional Program Fee: N
Second Language Requirement: N

\section*{First Required Math Course:}

Math courses needed will be determined by potential major choice.

Program Math Intensity: General

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (https://asuonline.asu.edu)

\section*{Change of Major Requirements:}

Students who have completed fewer than 45 college credit hours may change to exploratory status.

Details for declaring all College of Integrative Sciences and Arts majors are available at https://cisa.asu.edu/advising (https://cisa.asu.edu/advising). Students should see https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for additional ASU information regarding changing the major.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{General Studies, BA (LSGNSBGS)}

Campus: Downtown Phoenix, Polytechnic, Lake Havasu

\section*{Program Description:}

The BA degree program in general studies offers students a flexible, innovative path to degree completion. Graduates of the program are informed and effective members of society who are well-prepared for a changing global marketplace with its diverse cultures.

The theme of this degree is society and the individual. Students explore the tensions between individualism and collectivism, the public and private selves and the interplay of culture and identity.

Students who have majored in general studies have the option of working in almost any field that requires effective interaction with others, from sales to social services and organizational management to government administration. Graduates are equipped with transferable skills highly desired by many employers; therefore, a wide array of job choices are available. The bachelor's degree creates great flexibility in career choice because of the versatility within the program.

Graduates may choose to enter one of the occupations for which their cluster prepares them, including:
- administrative services manager
- curator
- medical and health service
- middle school teacher
- postsecondary teacher
- property, real estate and community association managers
- public relations specialist
- purchasing manager
- real estate sales agent
- sales manager
- writer and author

\section*{History, BA (LSHISBA)}

Campus: Polytechnic

\section*{Program Description:}

The BA program in history focuses on American history, with coursework in European, Latin American and global historical perspectives. Faculty expertise includes the history of technology and science, biography, war and its effect on society, public history, aviation, environmental history, and
related fields. Students are trained in methods of historical research and study the development of human society from social, cultural and political perspectives.

Students must complete a minimum of 12 upper-division credit hours of HST courses offered by the College of Integrative Sciences and Arts.

Students who would like to combine this degree with teaching certification should contact the Mary Lou Fulton Teachers College.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Career Opportunities:}

The bachelor's degree program in history prepares scholars and teachers for graduate and professional studies and for careers in education, writing and other related fields. Career prospects for secondary history and social studies teachers in Arizona are particularly strong. Students in the program develop skills in:
- analyzing ideas and problems
- communicating effectively
- finding and evaluating information
- presenting clear and logical arguments

With these skills, graduates of this program may find jobs as:
- archivists
- broadcast news analysts
- court reporters
- curators
- historians
- history teachers
- judicial law clerks
- lawyers
- legal support workers
- media and communication workers
- middle school teachers
- museum technicians and conservators
- paralegals and legal assistants
- postsecondary teachers
- reporters and correspondents
- secondary school teachers
- teachers and instructors
- writers and authors

The degree also prepares students to continue in graduate and professional programs.

History of Science, Ideas and Innovation, BA (LSHSIIBA)
Campus: Polytechnic

\section*{Program Description:}

Leveraging the Polytechnic campus as a hub of innovation, the BA program in the history of science, ideas and innovation provides students with a grounding in the social and intellectual issues central to understanding the role of science, technology and ideas from past to present. This transdisciplinary degree program encourages students to combine coursework in the natural and applied sciences with historical and philosophical approaches to social knowledge. Students majoring or minoring in the history of science, ideas and innovation program graduate with a foundation for advanced work in the humanities, the sciences or in transdisciplinary fields bridging written and technical work.

\section*{Integrative Social Science, BS (LSISSBS)}

Campus: Polytechnic

\section*{Program Description:}

The BS in integrative social science is a degree program designed to cross-educate students in the disciplines of the social sciences to meet the complex issues that confront the human society in the 21st century. The emphasis of the program lies in bridging traditional disciplinary boundaries to immerse students in the myriad of theories and skills available across disciplines, allowing for true fusion of ideas and methodologies which otherwise may elude them with traditional, single-discipline social science programs. Thus, graduates of the program are prepared with theory and research skill sets that allow them to draw from the best of the multiple disciplines of the social sciences as they confront a technically sophisticated 21st century world.

Interdisciplinary Studies, BA (LSBISBIS)
Campus: Downtown Phoenix, Polytechnic, Tempe, Online

\section*{Program Description:}

The ASU interdisciplinary studies degree, one of the top five in the country, offers students the freedom to select two areas of study, referred to as concentration areas, from a rich menu of more than 140 possibilities (concentration check sheets may be seen at https://cisa.asu.edu/interdisciplinary-studies-concentrations (https://cisa.asu.edu/interdisciplinary-studies-concentrations)). The core curriculum provides students the intellectual tools to integrate their concentration areas, engage in transdisciplinary problem-solving and prepare for careers and graduate programs that increasingly cross disciplinary boundaries.

An interdisciplinary studies student could choose to integrate concentrations like music and business, psychology and social welfare, communication and justice studies, public administration and ethics, digital culture and computer gaming, or many other unique combinations.

Interdisciplinary studies is an approach to answering questions, solving problems and addressing contemporary social issues from multiple perspectives. Interdisciplinary studies students take an active role in designing their educational plans and defining their career goals. The degree emphasizes written communication, versatility, self-assessment and critical thinking --- essential skills for today's dynamic world.

Those interested in the online program for interdisciplinary studies may visit the ASU Online website for more information.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Career Opportunities}

Because of the flexibility of the interdisciplinary studies program, graduates take many exciting career paths after leaving ASU. While some students complete graduate or professional degrees, others immediately enter the job market. For example, one graduate combined business and
communication and now owns a small business; another integrated sociology and family studies to further a career in law enforcement; another studied philosophy and economics to prepare for law school; another combined biology and chemistry in preparation to pursue a master of pharmacy degree; yet another studied Spanish and religious studies and now works as an employee trainer for a major company.

Possible career opportunities include:
- archivist
- chief executive
- climate change analyst
- compliance manager
- computer network support specialist
curator
- editor
- environmental restoration planner
- general and operations manager
- regulatory affairs manager
- reporters and correspondent
- Web developer
- wholesale and retail buyer (except farm products)

Interdisciplinary Studies (Organizational Studies), BA (LSORGBIS)
Campus: Online

\section*{Program Description:}

Interdisciplinary studies is an approach to answering questions, solving problems and addressing contemporary social issues from multiple perspectives. Interdisciplinary students develop the intellectual tools needed to build bridges between academic disciplines and apply their skills, innovations and knowledge in various academic and practical settings.

The BA degree in organizational studies is intended for students seeking an interdisciplinary degree and who possess a desire to learn about the dynamics of contemporary organizations. Organizational studies students gain valuable knowledge of management styles, communication strategies, technologies, diversity, ethics and politics. All coursework for organizational studies is offered online, giving students freedom and flexibility in completing their requirements.

Those interested in the online program for interdisciplinary studies (organizational studies) may visit the ASU Online website for more information.

\section*{Liberal Studies, BA (LABLSBLS)}

Campus: Polytechnic, Online

\section*{Program Description:}

The BA program in liberal studies helps to address student interests in a broad array of disciplines and subject matter. The program aims to give students the grounding to use knowledge as more successful thinkers, decision-makers and leaders. The liberal studies core classes are designed to: promote critical and creative thinking as students learn how to draw upon diverse disciplinary perspectives and modes of inquiry, help advance communication skills, and support professional career development.

Students majoring in liberal studies have become part of an international movement in higher education. This movement has proven empowering to people who are given the flexibility to explore multiple interests or approach a particular interest from various perspectives. Students are not alone in their chosen path. In fact, this program is just one of hundreds of similar programs offered in colleges and universities across the nation.

The program shares with all other liberal arts and science degrees the goal of developing analytical and communicative abilities. The program offers breadth of learning in an online setting. The liberal studies degree is transdisciplinary, providing students a thematic approach to education.

Those interested in the online program for liberal studies may visit the ASU Online website for more information.

\section*{Career Opportunities:}

Liberal studies graduates are prepared to enter the workforce or pursue graduate or professional studies.

Liberal studies courses prepare students for careers as:
chief executives
- data warehousing specialists
- document management specialists
- elementary, middle and high school principals
- emergency medical technicians and paramedics
- general and operations managers
human resources specialists
-industrial ecologists
- lawyers
paralegals and legal assistants
police detectives
- postsecondary teachers
technical writers
- Web administrators

\section*{Program Description:}

Students interested in completing the BA program in the Gila Valley or Pinal County are encouraged to complete a Transfer Admission Guarantee program. Students should see admission requirements below.

The BA program in organizational leadership uses transdisciplinary methods that prepare students to become leaders in organizations. Students develop the skills and knowledge that leaders need to solve problems, communicate effectively, assess programs, manage resources and use emerging technologies in organizations. Students are prepared for a range of positions in the public and private sectors, including in government, health care administration, nonprofit agencies, in businesses and the service industry.

Arizona State University has established partnerships with Central Arizona College and Eastern Arizona College that allows students to complete their associate degree at CAC or EAC and then pursue this bachelor's degree through classes delivered on these campuses. More information about ASU degrees offered at these locations is available at https://transfer.asu.edu (https://transfer.asu.edu/). This program is also offered at the ASU Colleges in Lake Havasu City; the major map is shown at https://webapp4.asu.edu/programs/t5/roadmaps/ASU00/LSORGLBA/null/CALHC/2018
(https://webapp4.asu.edu/programs/t5/roadmaps/ASU00/LSORGLBA/null/CALHC/2018).

Those students interested in the organizational leadership online program may visit the ASU Online website for more information.

\section*{Additional Program Fee: N}

Second Language Requirement: N
First Required Math Course: MAT 142 - College Mathematics
Online: MAT 142 or MAT 117 or higher. Lake Havasu: MAT 117 or higher. Students simply need to fulfill the General Studies math requirement.

Program Math Intensity: General

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Transfer Admission Requirements:
The Gila Valley and Yuma Students:

ASU has a pathway that allows students to complete the ASU Transfer Admission Guarantee in organizational leadership, a prescribed sequence of courses that meets the requirements for the community college's Associate of Arts degree and the lower-division requirements for the ASU Bachelor of Arts in organizational leadership. Upon completion of the TAG, students will complete the remaining requirements for ASU's bachelor's program. Visit https://transfer.asu.edu/ (https://transfer.asu.edu/) for more information about ASU degrees offered at local community colleges.

This program may also accept transfer credit in lieu of a TAG agreement. Please contact the department for details.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-organizational-leadership?utm_source=asu\&utm_medium=degree-search\&utm_campaign=asu)

\section*{Change of Major Requirements:}

A current ASU student has no additional requirements for changing majors. Students should see https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change the major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, lllinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

Transfer from a Maricopa Community College in Arizona:

\section*{Political Science, BS (LSPOLBS)}

Campus: Polytechnic

\section*{Program Description:}

The BS program in political science gives students the background and skills to gain employment in a relevant profession, to continue their studies in graduate programs in political science or in the social sciences, or to pursue a particular discipline at a professional school. The program helps students understand the assumptions underlying political science and develop the research skills to analyze complex socio-political issues. Those objectives are accomplished by offering a flexible program and by providing students with both individual and group experiences, working with faculty on concrete intellectual and policy issues.

\section*{Additional Program Fee: N}

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

The program serves as good preparation for staff, manager or policy analyst positions in local, state and federal government. This degree is recognized by employers as qualification for many careers in business (for-profit and nonprofit) and industry. Opportunities may include positions that involve binational, crossborder positions linking U.S. and Mexican businesses, Arizona-Sonora local government or local community groups on both sides of the border.

Many students use the degree as a gateway to law school or as a basis for further study in such applied fields as:
- community development
- political science
- public administration
- public policy
- social science
urban affairs
- urban and regional planning

\section*{Psychology, BA (LSPGSBA)}

\author{
Campus: Polytechnic
}

\section*{Program Description:}

Psychology is the scientific study of mind and behavior. This program emphasizes critical thinking, reasoning, and empirical research and writing. It adds practical experience through internships, service-learning and faculty-supervised research. The BA program provides a broad foundation in psychology and affords students the flexibility to choose from a variety of courses outside the major. Because of this, the Bachelor of Arts curriculum requires fewer lab science and math courses than the Bachelor of Science program. The Bachelor of Arts program in psychology prepares students for employment or preparation for graduate study in applied psychology and related fields (e.g., social work, counseling and management).

\section*{Additional Program Fee: N}

Second Language Requirement: N
First Required Math Course: MAT 170-Precalculus
Program Math Intensity: Moderate

\section*{Career Opportunities:}

The Bureau of Labor Statistics shows that the job outlook (2014-24) for psychologists is \(19 \%\) (which is "much faster than average").

A degree in psychology prepares students for a career in various settings:
- community centers
- consulting firms
- government (sales and marketing, human resources, research, administration, management)
- hospitals
- industries and organizations
- mental health agencies
- private companies
- schools and colleges (school psychologists, educators, professors)
- social services (high school psychology teacher, occupational analyst)
- substance abuse treatment clinics

The degree program also provides an excellent foundation for graduate study in fields such as public administration, law, family studies, communication and the various graduate program fields in psychology:
- clinical and counseling
- cognitive neuroscience
- developmental
- environmental
- health
- legal
- physiological
- social

\section*{Science, Technology and Society, BS (ECSTSBS)}

Campus: Polytechnic

\section*{Program Description:}

Questions surrounding the interaction of science, technology and human systems are highly transdisciplinary and cultural, requiring analytical techniques that transcend space and time. Thus, the BS program in science, technology and society stresses the need to step outside both disciplinary and cultural boxes in pursuit of knowledge. Accordingly, the program is heavy on cultural and information literacy and critical thinking. The primary goal is to produce generalists who understand the intricate interrelationship of science, technology and society and who are armed with the technical skills to change their environment. The following three tracks are available:
- general science, technology and society
- global technology and development
- science, technology and governance

Students may use the general science, technology and society track to design targeted programs of their choosing, including premed and prelaw.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

The bachelor's degree program in science, technology and society prepares professionals and scholars for careers in the 21st century world focusing primarily, but not exclusively, on the interaction of science and technology with human systems. The program focuses on the development of the technical skills required to audit social, political and policy impacts of technological advancement and the competence required to navigate questions surrounding the future trajectory of science and technology. Graduates are prepared for graduate or professional study or professional careers as:
- commercial and industrial designers
- compliance managers
- environmental restoration planners
- public relations specialists
- recycling coordinators
- regulatory affairs specialists
- sales representatives (wholesale, manufacturing, technical, scientific products)
- sustainability specialists
- training and development specialists
- transportation planners
- urban and regional planners

\section*{Technical Communication, BS (LSTECBS)}

\author{
Campus: Polytechnic, Online
}

\section*{Program Description:}

Technical communication is applied workplace communication that makes technical or specialized information understandable and available to many different users. It involves using a range of technologies to craft an ever-expanding array of print and digital information products: websites, social media sites, help files, training materials, grants and proposals, and information graphics, to name just a few. Technical communicators work in many professional roles, such as information developers, grant writers, Web interface designers or usability experts. What all of these roles have in common is the focus on creating accessible and appealing communication that has a practical purpose and is intended for a particular audience. In the technical communication program, students learn how to write, design, produce and manage print and digital information using traditional and developing technologies.

The BS degree program in technical communication in the College of Integrative Sciences and Arts is the only undergraduate technical communication degree program available in the state of Arizona.

Those interested in the technical communication online program may visit the ASU Online website for more information.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. \section*{Career Opportunities:}

The Bureau of Labor Statistics estimates that job growth in technical writing and related areas will continue to be significantly higher than average during the next five years. Software and electronics companies, media corporations, financial institutions, government agencies, nonprofits and other areas will see an increased demand for writers. Students in the program prepare for careers as:
- communications teachers (postsecondary)
- computer user support specialists
- copy writers
- desktop publishers
- editors
- media and communication workers
- proofreaders and copy markers
- public relations specialists
- technical writers
- Web developers

Technical Communication (User Experience), BS (LSTECUBS)
Campus: Polytechnic, Online

\section*{Program Description:}

The user experience concentration is designed to provide technical communication majors with an interdisciplinary foundation in communication, research and design that is central to the rapidly growing area of user experience. The UX concentration provides students with a conceptual understanding and applied skills in methods of gathering user information, analyzing data and communicating research findings to stakeholders.

Although its disciplinary home and primary focus is technical communication, the concentration includes courses from human systems engineering and graphic information technology in order to provide students with the multiple perspectives and complementary skills needed for UX work.

\section*{Interdisciplinary Arts \& Sciences, New College of}

\section*{American Studies, BA (ASAMSBA)}

\section*{Campus:}

\section*{Program Description:}

The School of Humanities, Arts and Cultural Studies offers a BA in American studies in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program --- the only undergraduate American studies degree in the state --- is a place for rigorous and adventurous conversations about American culture, politics and history, exploring knowledge beyond disciplinary boundaries, bringing differing perspectives and understandings into dialogue with one another, and generating a unique level of intellectual rigor and excitement.

To this end, the goals of the American studies program are to create a community of learning through classroom instruction, internship and study abroad experiences, program field trips, and activities and lectures; encourage knowledge and innovation in coursework as well as through the capstone thesis project; and help students synthesize and critically evaluate knowledge from diverse fields about American history and culture.

\section*{Additional Program Fee: N}

Second Language Requirement: N
First Required Math Course: MAT 142 - College Mathematics
Program Math Intensity: General

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with:
Communication Studies, MA
Interdisciplinary Studies, MA
Social Justice and Human Rights, MA
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Applied Computing, BS (ASACOBS)}

Campus: West

\section*{Program Description:}

Students in the BS program in applied computing learn a computer science foundation and then explore the established knowledge and emerging developments in the high-demand areas of database systems, computer networks and cybersecurity. The program also provides the opportunity to investigate interdisciplinary connections, including the combination of computing with its real-world application in other disciplines through concurrent degrees and minors. Hands-on class projects, internships, industry partnerships and authentic and impactful research conducted with faculty provide numerous opportunities for students to apply their knowledge before they graduate. Students use their programming expertise, systems knowledge and critical thinking skills to effectively problem-solve and articulate their experience through presentations, scientific posters and professional papers. Students' depth of knowledge and experience in databases, networks and cybersecurity provide graduates with a strong foundation in systems with established interconnections among these fields, preparing them for graduate study and careers including cybersecurity
analysts, database architects and network engineers.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Applied Computing (Cybersecurity), BS (ASACOCBS)}

Campus: West

\section*{Program Description:}

The cybersecurity concentration is designed to prepare students for a continuing and progressive career in cybersecurity. Our innovative cybersecurity concentration builds upon the BS program in applied computing. Students acquire the technical knowledge to secure networks and applications; an understanding of cybersecurity governance models and risk-management fundamentals; methods of communicating complex risk issues; and solutions for the challenges of implementing cybersecurity controls within various organizational models. Leadership, critical thinking and effective communication also are emphasized.

Students gain experience with real-world cybersecurity organizations, protecting digital assets against compromise or theft. Graduates of the applied computing program with a concentration in cybersecurity are well prepared for graduate study as well as entry-level employment with businesses, nonprofits, government agencies and academic institutions.

\section*{Applied Mathematics, BS (ASMATBS)}

Campus: West

\section*{Program Description:}

The School of Mathematical and Natural Sciences offers a BS degree in applied mathematics in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Applied mathematics is an interdisciplinary program that provides a broad and rigorous foundation in applied mathematics. It includes a foundation in computing and statistics as well as both theoretical and applied mathematics.

The program emphasizes quantitative problem-solving and critical thinking through courses that expose students to a variety of mathematical theories, techniques and applications currently used by analysts and researchers in government, industry and nonprofit organizations.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Applied Science, BAS (ASBASBAS)}

Campus: West

\section*{Program Description}

The School of Humanities, Arts and Cultural Studies offers a BAS degree in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program, for students who have already earned an AAS degree, allows students to apply the technical knowledge gained from their associate degree and significantly broaden their education.

The program offers unique areas of concentration tailored to students' individual interests and career goals. These include but are not limited to business, communication, criminal justice, teaching, environmental issues, languages and cultures, and social sciences.

Students who have earned an Associate of Applied Science from an accredited institution may transfer 60 credit hours toward the Bachelor of Applied Science degree. Students who have earned an Associate of Applied Science degree from a regionally accredited Arizona community college may be eligible to transfer up to 75 credits toward the Bachelor of Applied Science degree. The program also includes a capstone project.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue)

Additional Program Fee: N

Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree. This program is not available for freshmen.

\section*{Change of Major Requirements:}

A current ASU student must hold an Associate of Applied Science degree in order to change the major to this program. Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change the major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

Transfer from a Maricopa Community College in Arizona:

Biology, BA (ASLSCBA)

\section*{Campus: West}

The BA program in biology, with an emphasis in the natural sciences, examines the interdisciplinary nature of the life and physical sciences, focusing on the ways in which these disciplines intersect. The program's organization and flexibility allows students to simultaneously study another subject outside their major, and students are encouraged to add a minor or concurrent degree in another subject area.

Students gain hands-on experience as they work both in small groups and one-on-one with individual faculty members. Students may participate in cutting-edge scientific research by assisting in faculty research laboratories or even publish in top journals and present their results at regional and national scientific meetings.

Graduates are prepared for entry-level jobs in research, nonprofit, education and outreach organizations or for other roles in the life sciences and for related graduate programs.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Additional Program Fee: N
Second Language Requirement: N
First Required Math Course: MAT 170-Precalculus
Program Math Intensity: Moderate

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with:
Communication Studies, MA
Social Justice and Human Rights, MA
Social Technologies, MA
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)

\section*{Biology, BS (ASLSCBS)}

Campus: West, Lake Havasu

\section*{Program Description:}

The BS program in biology, with an emphasis in the natural sciences, examines these disciplines through experiential learning, and all of the program's core courses include laboratories. By learning in an integrative environment that emphasizes the connectedness of the life sciences, students gain a better understanding of larger scientific concepts and can view these concepts from multiple perspectives.

Students are encouraged to conduct independent research under the mentorship of faculty members or during internships. Some even publish in top journals and present their results at scientific meetings.

Graduates are prepared for employment with state and federal agencies or private organizations such as biomedical laboratories and environmental consultancies, or to enter graduate or doctoral programs in human or veterinary medicine, pharmacy, dentistry or scientific research.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

This program prepares graduates for a wide range of careers by offering course and laboratory work and quantitative research opportunities that develop fundamental problem-solving, critical thinking, writing and communication skills. Graduates may enter careers in:
- business
- laboratory or field research
- medicine
- publishing
- scientific journalism
- teaching

Undergraduate laboratory experience, both on and off campus, enhances employability as a laboratory technician or research associate in university and government research laboratories; in hospital and diagnostic laboratories; and in pharmaceutical, biotechnology, agricultural and food
processing companies.

Students engaged in field studies are prepared for entry-level positions in private companies and state and federal agencies (e.g., wildlife biologist, environmental consultant or conservation officer).

Biology (Environmental Science), BS (ASLSCEBS)
Campus: West, Lake Havasu

\section*{Program Description:}

The BS program in biology with a concentration in environmental science emphasizes experiential learning with courses that include required laboratories. By learning in an integrative environment that underscores the connectedness of these disciplines, students gain a better understanding of larger scientific concepts, and they view these concepts from multiple perspectives. Students pursuing this concentration take a set of courses which focus more on environmental science than those pursuing a Bachelor of Science in biology.

While the emphasis is on science, students learn to approach environmental science from an interdisciplinary perspective, in part by studying environmental ethics and policy.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Tohono O'odham Community College(https://transfer.asu.edu/tag)
Yavapai College(https://transfer.asu.edu/tag)

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

According to the 2010-2011 Occupational Outlook Handbook (U.S. Bureau of Labor Statistics, 2010), employment of environmental scientists is expected to grow by 28 percent between 2008 and 2018. This is far more rapid growth than the average rate of growth for all occupations. The handbook indicates most rapid growth will occur in the private sector, primarily in private environmental consulting firms.

This concentration allows students to tailor their courses of study to their interests in the science of the environment to help prepare them for careers in the public and private sectors (e.g., in environmental consulting, environmental remediation, natural resource management, etc.) as well as for entry into graduate programs in environmental science and related disciplines.

Biology (Forensics), BS (ASLSCFBS)

\section*{Campus: West}

\section*{Program Description:}

The forensics concentration of the BS program in biology emphasizes the study of scientific techniques used to solve crimes. Students pursuing the forensics concentration take a more forensics-relevant set of courses than those students pursuing the BS in biology.

Much of the required coursework is completed in chemistry or biology lab science courses to ensure that graduates of this program are competitive as they apply to graduate degree programs, pursue relevant careers and enter the workforce.

Graduates are prepared to pursue careers in forensics laboratories and in the research and development of new criminal forensic technologies. Completion of the bachelor's degree in biology also ensures graduates are prepared for graduate, professional or medical degree programs.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Yavapai College(https://transfer.asu.edu/tag)

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

Graduates of this program pursue careers in forensics laboratories and in the research and development of new technologies in forensics. Graduates are particularly competitive for positions in forensics laboratories because the concentration focuses heavily on chemistry and biology laboratory coursework (areas that administrators and current employees in crime labs have reported are critically important). For example, as reliance upon DNA fingerprinting technologies increases, demand for forensic scientists trained in the requisite amounts of molecular biology will increase. The concentration also places focus on oral communication skills (e.g., through coursework in argumentation, COM 222 Argumentation (3) or COM 422 Advanced Argumentation (3)), which will prepare graduates for the multifaceted aspects of their careers in forensics (e.g., providing articulate and compelling expert testimony in criminal trials). Graduates of this program are also well positioned to enter graduate programs in forensic science.

\section*{Contact Information:}

Interdisciplinary Arts \& Sciences, New College of

\section*{Biology (Pharmacology/Toxicology), BS (ASLSCPBS)}

Campus: West

\section*{Program Description:}

The pharmacology and toxicology concentration of the BS program in biology provides an emphasis in the biochemical, molecular and physiological components of drug and body interactions. The degree program emphasizes experiential learning and all required core courses have laboratories. By learning in an integrative environment that emphasizes the connectedness of the disciplines, students gain a better understanding of larger scientific concepts, and they can view these concepts from multiple perspectives. To have a thorough understanding of the interactions of chemicals in the biological system, students study both biology and chemistry and become familiar with chemical interactions at physiological, molecular and cellular levels.Undergraduates have the opportunity to conduct independent research under the mentorship of faculty members or in internships outside the school.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. \section*{Biotechnology and Bioenterprise, BS (ASBITEBS)}

Campus: West

\section*{Program Description:}

The BS program in biotechnology and bioenterprise provides students with essential transdisciplinary and practical experience in biotechnology research. Students acquire the associated business and entrepreneurship skills needed to develop and market biotechnological innovations and solutions to problems facing the biotechnology and health sciences communities in Arizona, the nation and beyond. The program emphasizes coursework in the biological, biomolecular and biotechnological sciences, which are key components that underpin biotechnology. Students are able to tailor the degree to their specific interests and aspirations through focus areas in biotechnology, bioenterpreneurship and biostatistics. The program is unique due to its focus on blending biotechnology and entrepreneurship.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Communication, BA (ASCOMMBA)}

Campus: West, Lake Havasu

\section*{Program Description:}

The communication program offered at ASU's West campus prepares students to do far more than give a speech or two in front of their peers. It provides an extensive understanding of the practical, theoretical and professional nuances of today's field of communication, designed to equip students with the skills needed to convey complex ideas clearly and effectively through both the spoken and written word.

Utilizing the nationally recognized Communication Assessment Learning Lab, this program trains and prepares students for in-depth study into what contributes to (and detracts from) effective human communication, recognizing that the art of communication is far more nuanced than simple speaking and writing prowess.

With focuses like conflict resolution, social media and technology, global communication, communication philosophy, and risk and crisis communication, this communication program leads the way to an ever-increasing landscape of employment choices. Career options for those who complete this program are vast.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Career Opportunities:}

The Bachelor of Arts in communication is a broadly-based program that trains individuals to speak and write competently, manage relationships well, problem-solve effectively and understand the role and function of communication in public forums, organizational settings, relationa exchanges and intercultural situations. Because these skills are crucial to many professions, communication graduates work in a variety of fields, including:
- advertising
- customer service and customer relations
- education
- fundraising
- health and human services
- human resources
- international service
- legal professions
- lobbying
- management
marketing
- media and public relations
- mediation
- ministry
- public administration
- public advocacy
- public office
- research
- sales
- social media design and implementation
- speech writing
- training and development

\section*{English, BA (ASENGBA)}

Campus: West

\section*{Program Description:}

Students in the BA in English learn how to write clearly and effectively and to think critically and construct well-supported arguments.

The program stresses the formal aesthetic qualities of texts and the issues of class, gender, race and ethnicity relating to literary representation. Students gain a familiarity with standard literary-critical terminology and an awareness of various theoretical approaches to literary study. Students also become aware of uses of the English language in the U.S. and around the world.

The program provides students with a balanced overview of major literature in the English language and an awareness of the role of literary discourse in broader social and historical contexts.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Environmental Science, BA (ASENVBA)}

Campus: West, Lake Havasu

\section*{Program Description:}

The study of society's impact on the earth's ecosystems and resources has become increasingly important over the past 20 years. The BA program in environmental science at ASU's West campus is dedicated to finding solutions to the challenges posed by climate change.

As technology evolves at a dizzying pace and the global population grows each year, the measurement of the human race's impact on our environment has created many new jobs and career paths.

Environmental basics are required, ensuring that students are well-versed in biological study including molecular, organismal and ecosystem biology. This is backed by a strong foundation in chemistry, statistics and geographic information systems.

Because environmental science is a versatile, multifaceted field, ASU supplements this degree with a focus on the management and communication skills necessary in various environmentally-specific careers.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Additional Program Fee: N}

Second Language Requirement: N
First Required Math Course: MAT 170-Precalculus
Program Math Intensity: Moderate

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with:
Communication Studies, MA
Social Justice and Human Rights, MA
Social Technologies, MA
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements) International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

\section*{Change of Major Requirements:}

A current ASU student has no additional requirements for changing majors. Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Ethnicity, Race and First Nations Studies, BA (ASETHBA)}

\section*{Campus:}

\section*{Program Description:}

The first such program in Arizona, this program provides an integrated, comparative and comprehensive approach to the study of diversity among ethnic and racial groups and First Nations. A highlight of the program is the internship, which fosters direct links between the university and community-based settings. Both theoretical and applied perspectives are embedded in a curriculum addressing how ethnicity, race and First Nations shape identities, literacies, public policies and communities in local and transnational U.S. contexts. Students identify a career area enabling them to integrate their knowledge with specific coursework tied to their career and advanced educational goals.

\section*{Exploratory Applied Computing, Mathematics and Technology, (ASACMTEXPL) Campus: West}

\section*{Program Description:}

The exploratory applied computing, mathematics and technology track provides students with the opportunity to explore a variety of majors related to applied computing, mathematics and technology professions.

Many students are not ready to choose a specific academic program of study when first entering the university. Exploratory programs provide an opportunity to discover the options available at ASU and students are provided the time, resources and guidance needed to assess their skills, interests and aptitudes. Declaring exploratory status permits students to begin meeting General Studies requirements that all ASU graduates must fulfill. It also allows students to take some time to explore a variety of academic courses that may lead to a potential major interest.

\section*{Additional Program Fee: N}

Second Language Requirement: N
First Required Math Course: MAT 117-College Algebra
Program Math Intensity: Substantial

\section*{Admission Requirements:}

\section*{Forensic Science, BS (ASFOREBS)}

Campus: West

\section*{Program Description:}

Forensic science is the study and application of scientific methods to matters of law. The BS program in forensic science emphasizes laboratory coursework in chemistry and biology as both areas provide essential experience with techniques commonly used in crime labs. Rigorous coursework in the natural and mathematical sciences is required to ensure graduates are competitive in the workforce. The program is enhanced by a focus on oral communication skills that help prepare graduates for the multifaceted, transdisciplinary aspects of careers in forensic science, such as providing articulate expert witness testimony.

If a student is interested in pursuing a career as a forensic DNA analyst, nine cumulative hours of coursework in biochemistry, molecular biology and genetics are required, and coursework in population genetics is desirable. Students should note that the addition of these courses to the academic program may mean the student would have more than 120 credit hours. Employers may require documentation for completed coursework, such as an official course syllabus.

Forensic science students may apply for and participate in internships sponsored by metropolitan Phoenix area crime labs or other crime labs around the country. Internships are competitive, and the application process takes time. Generally, fall semester internships require application in the spring semester prior, and spring or summer semester internships require application by the start of the preceding fall semester. Internship positions are unpaid and require concurrent enrollment in FOR 484 Internship. Also, students must have a faculty mentor and abide by all internship standards of the school and those of the organization providing the internship. Students may also participate in cutting-edge research with a faculty mentor either as a volunteer in the faculty member's lab or by registering for FOR 499 Individualized Instruction. For more information, students

Job applicants and students seeking a volunteer or internship position within a crime lab are required to undergo an extensive background check that includes a polygraph exam, fingerprinting and drug testing. Actions that can disqualify an applicant include recent or past illicit drug use (including marijuana), felony convictions and drunk driving convictions.

History, BA (ASHISBA)
Campus: West

\section*{Program Description:}

The BA degree program in history provides a strong foundation for understanding the forces of change that shape society, the marketplace and people's lives. The program introduces students to a broad span of history that covers the ancient world through the modern period and extends from Europe to Latin America and the United States. In addition to learning about the origins and development of various peoples, ideas and institutions of the past, students engage in the practice of history by learning to conduct research, analyze historical evidence and formulate arguments using historiographical perspectives and methodological approaches.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\title{
Interdisciplinary Arts and Performance, BA (ASIAPBA) \\ Campus: West
}

\section*{Program Description:}

Students in the BA program in interdisciplinary arts and performance engage with faculty in collaborative investigation of many disciplines preparing for the complex and changing world through current approaches to artistic and aesthetic research. Students in this major engage in practical and theoretical studies of visual, sonic, performance, game and interactive arts to become versatile artists. With skill sets preparing them for professional and entrepreneurial opportunities, they can tap into evolving marketplaces and expanding fields of arts research and practice.

Students who major in interdisciplinary arts and performance receive extensive preparation for careers as artists, performers and creative professionals, and they develop critical backgrounds useful for teaching and scholarship

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Interdisciplinary Arts and Sciences, BA (ASIASBA)
Campus: West

\section*{Program Description:}

Today's employment landscape is evolving into one that prizes expertise in an increasing number of specialized fields. The BA program in interdisciplinary arts and sciences at ASU's West campus allows students to build a flexible, customized degree that is unique to their specific career goals. For example, a business degree with an emphasis in communications can lead to employment opportunities that aren't as easily accessed by a traditional business degree alone.

By providing the opportunity to combine disciplines, the college equips students with the specialized education they need to reach their individual career goals.

This degree culminates in a capstone internship experience that provides real-world perspective, skills and connections, creating versatile graduates and attractive job applicants in the corporate world.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. \section*{Latin American Studies, BA (ASLASBA)}

Campus: West

\section*{Program Description:}

Unlike programs that are predominantly based on social science and taught in English, the BA program in Latin American studies fosters language and cultural knowledge beyond print literature and is unique in its inclusion of the arts and sciences.

The program allows students to immerse themselves in content courses while honing their Spanish language skills, and it provides a broad foundation for students to study Latin America, the United States and the Iberian Peninsula.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue)

Additional Program Fee: N
Second Language Requirement: Yes
First Required Math Course: MAT 142 - College Mathematics
Program Math Intensity: General

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with:
Communication Studies, MA
Social Justice and Human Rights, MA
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

A current ASU student has no additional requirements for changing majors. Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change the major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

Transfer from a Maricopa Community College in Arizona:

\section*{Pharmacology and Toxicology, BS (ASPTXBS)}

\section*{Campus: West}

\section*{Program Description:}

The human body comes into contact with countless chemicals and drugs during the course of a lifetime. The study of how these foreign materials react with our bodies has been an intense and enduring venture that has yielded astounding breakthroughs and contributions to the medical community.
to have a thorough understanding of the interactions of chemicals in the biological system, students in the program study both biology and chemistry, and become familiar with chemical interactions at physiological, molecular and cellular levels.

With a heavy focus on experiential learning within the laboratory, graduates of the pharmacology and toxicology degree program are better prepared to obtain careers ranging from clinical research coordinators to veterinarians to even governmental roles.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Philosophy, Religion and Society, BA (ASRELBA)
Campus: West

\section*{Program Description}

The School of Humanities, Arts and Cultural Studies offers a BA in philosophy, religion and society in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The program comprises historical, theoretical and practical perspectives on philosophy, religion and social ethics and emphasizes social and political concerns by putting the studies of philosophy and religion into action. This interdisciplinary degree offers three areas of concentration: applied ethics, continental philosophy and religious studies.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Political Science, BA (ASPOLBA)}

Campus: West, Lake Havasu

\section*{Program Description:}

Political science is the study of governmental practices, politics and theories. Coursework in the BA program in political science covers American institutions, international relations, political theory and world affairs.

The program helps students gain a basic understanding of the assumptions underlying political science and helps them develop the necessary research skills for analyzing complex sociopolitical issues. In addition to coursework, students learn through internships, service-learning and research opportunities.

Graduates of this program are prepared for work as analysts or aides in local, state or national legislative offices, among other roles. Many graduates go on to law school or graduate programs in political science, social science, urban planning or public administration.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Career Opportunities:}

The political science curriculum provides a solid background for employment in a relevant profession and prepares students for graduate work in:
- political science
- professional schools
- social science disciplines
- urban planning

The program serves as a good precursor to staff, manager or policy analyst positions in local, state and federal government. This degree is recognized as qualification for many careers in business (for-profit and nonprofit) and industry.

Work may include binational, cross-border positions linking U.S. and Mexican businesses, Arizona-Sonora local government or local community groups on both sides of the border. Many students use the degree as a gateway to law school or as basis for further study in such applied fields as:

\section*{- community development}
- public administration
- public policy
- urban affairs and urban and regional planning

\section*{Political Science, BS (ASPOLBS)}

Campus: West

\section*{Program Description:}

The School of Social and Behavioral Sciences offers a BS in political science in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Political science is the study of governmental practices, politics and theories. Coursework in the political science program covers American institutions, international relations, political theory and world affairs. The program helps students gain a basic understanding of the assumptions underlying political science and develop the necessary research skills for analyzing complex sociopolitical issues. In addition to coursework, students learn through internships, service-learning and research opportunities. The BS degree differs from the BA degree in that it requires an additional statistics course and a methods course.

Graduates of this program are prepared for work as analysts or aides in local, state or national legislative offices, among other roles. Many graduates go on to law school or graduate programs in political science, social science, urban planning or public administration.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Psychology, BA (ASPGSBA)
Campus: West, Lake Havasu, Online

\section*{Program Description:}

Psychology is the scientific study of human behavior. This diverse field includes mental health and counseling as well as child development, neuroscience and brain function, memory and decision-making, behavior analysis, statistics and more. It also crosses over into other disciplines such as medicine, law, business and economics.

This program --- which emphasizes critical thinking and reasoning, quantitative research methods and writing --- goes beyond the classroom, adding practical experiences through internships, service-learning and faculty-supervised research. (Some opportunities are not available to students enrolled in the degree offered through ASU Online.)

Graduates are prepared for graduate programs in psychology or other areas as well as professional employment.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Additional Program Fee: N

\section*{Career Opportunities:}

A degree in psychology prepares students for a career in:
- government (sales and marketing, human resources management)
- industry
- mental health professions (youth counselor, substance abuse counselor)
- social services (high school psychology teacher, occupational analyst)

The degree also provides an excellent foundation for graduate study in fields such as public administration, law, family studies, communication and the various graduate program fields in psychology:
- clinical and counseling
- cognitive neuroscience
- developmental
- environmental
- experimental
- health
- legal
- physiological
social

\section*{Psychology, BS (ASPGSBS)}

Campus: West, Lake Havasu, Online

\section*{Program Description:}

Psychology is the scientific study of human behavior. This diverse field includes mental health and counseling as well as child development, neuroscience and brain function, memory and decision-making, behavior analysis, statistics and crosses into other disciplines such as medicine, law, business, and economics.

Emphasizing critical thinking and reasoning, and quantitative research methods and writing, this program goes beyond the classroom with practical experiences through internships, service-learning and faculty-supervised research. (Some opportunities are not available to students enrolled in the degree offered through ASU Online.)

The BS degree differs from the BA in that it requires two additional lab courses and advanced statistical training, providing a greater depth of knowledge in the biological and neuroscientific aspects of psychology that are increasingly important for bother research and clinical practice. The advanced statistical training further prepares students for careers and graduate training involving psychological research, clinical research and legal policy research.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Psychology (Forensic Psychology), BA (ASPGSFPBA)}

Campus: West, Online

\section*{Program Description:}

Forensic psychology is the application of psychology to the law. The concentration in forensic psychology within the BA program in psychology combines general training in psychology with specialized coursework in criminal law, criminal behavior, the diagnosis and treatment of mental disorders, and legal decision-making.

When courts are faced with cases in which a psychology-related question arises, they may turn to psychologists and ask for help with the case. For example, psychologists might assist the court in understanding a criminal's mental state at the time of a crime or whether a particular jury might have been biased against a defendant based on his or her race. This is the realm of forensic psychology.

This program teaches students about the various roles for psychologists in the legal system and helps them discover which roles they might like to pursue through careers in mental health, criminal justice or through graduate training.

The Bachelor of Science degree differs from the Bachelor of Arts degree in that it requires two additional lab science courses.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. \section*{Social Justice and Human Rights, BA (ASJHRBA)}

Campus: West

\section*{Program Description:}

The BA program in social justice and human rights spans the social sciences and the humanities to prepare students to meet the challenges of twenty-first century issues of social justice and protection of human rights in local, national, international and global contexts. The degree program introduces students to principles and practices of everyday humanitarianism, multimedia advocacy, and theories and practices of social justice and human rights.

Students in the program have the opportunity to select from three uniquely theoretical and applied areas of focus including:
- advocacy and social change
- critical trauma studies and everyday humanitarianism
- materialism, intersectionality and inequality

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

The interdisciplinary degree is an excellent option that matches the individual's interests and fulfills many employers' expectations of a bachelor's degree, namely that it should expose the student to a variety of outlooks and challenges.

Such a degree is competitive in most situations in which the disciplinary social and behavioral degrees are accepted, and it is advantageous when seeking entry to broad professional programs such as regional planning or urban studies.

This degree provides a solid background in social sciences and methodologies that prepares students for graduate work in community development, counseling, criminal justice, professional schools (e.g. law, public administration, social work), public policy, social science disciplines and urban studies or planning.

Other careers include:
- border patrol officer
- community developer
- customer services manager
- housing specialist
- human Relations Officer
- immigration advocate
- lawyer
- lobbyist
- mediator
- nonprofit manager
- social sciences professor
- social services case worker
- statistical analyst
urban planner
victim's advocate

\section*{Social and Behavioral Sciences, BS (ASSBSBS)}

Campus: West

\section*{Program Description:}

The curriculum of the BS in social and behavioral sciences provides an understanding of assumptions underlying the social and behavioral sciences; enables students to develop research skills necessary for analysis of complex social issues; offers a flexible program tailored to the career goals of the individual student; and offers individual and group experiences in working with faculty on concrete intellectual and policy issues.

The core courses provide students a background suitable to help them better understand psychological and social principles related to the behavior of individuals across multiple social contexts and institutions (e.g., community, culture, family and society). The Bachelor of Science differs from the BA degree in that this degree program has a stronger focus on the use of statistics.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Additional Program Fee: N
Second Language Requirement: N
First Required Math Course: MAT 142-College Mathematics
Program Math Intensity: Moderate

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with:
Communication Studies, MA
Interdisciplinary Studies, MA
Social Justice and Human Rights, MA
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

\section*{Change of Major Requirements:}

A current ASU student has no additional requirements for changing majors. Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

Social and Cultural Analysis (American Studies), BA (ASSCAASBA)
Campus: West

The BA program in social and cultural analysis with a concentration in American studies engages in the transdisciplinary and comparative study of the United States as a cultural and political site of ongoing change and conflict. Students learn diverse methods of analyzing nationalist politics; public and private cultural practices; transnationalism; and the nation-making processes of migration, in keeping with the creative and critical scholarship of the discipline. The curriculum also brings attention to identity formations around gender, sexuality, race and ethnicity. As a transdisciplinary field, American studies unites the social sciences, the humanities and the arts, to stimulate students into engaging in rigorous and adventurous conversations about American culture, politics and history. Students explore knowledge beyond disciplinary boundaries by bringing differing perspectives and understandings into dialogue with one another and generating a unique level of intellectual rigor and excitement.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. \section*{Social and Cultural Analysis (Ethnicity, Race and Indigenous Studies), BA (ASSCAERBA) Campus: West}

\section*{Program Description:}

The BA program in social and cultural analysis with a concentration in ethnicity, race and indigenous studies combines transdisciplinary topics and methods to critically analyze relationships among individuals, groups, institutions, governments, economies and environments. The program enriches the study of individual racialized and indigenous groups by drawing upon theories, methods and pedagogies in ethnicity, race and indigenous studies while engaging complementary fields of literature, history, sociology, oral history, sexuality, queer studies, social justice, and transnational and cultural studies. Coursework grounds the students in a deep understanding of the particular historical, social, economic, cultural and political experiences of individual racialized groups as well as in an analysis of the relationships among them.

Social and Cultural Analysis (Peace Studies), BA (ASSCAPSBA) \\ Campus: West
}

\section*{Program Description}

The BA in social and cultural analysis with a concentration in peace studies is a unique, transdisciplinary offering that fosters a critical investigation of peace. It does so primarily through a humanities lens, but not exclusively, and it provides an analysis of peace in connection with issues such as gender, ethnicity, race and religion. Students learn many perspectives on peace and approaches to it, including theories and practices of peace building, nonviolence, and conflict avoidance and resolution. The program builds on the expertise of faculty in the humanities and social sciences in fields such as history, linguistics, literature, ethics, philosophy, sociology, ethnic studies, and women and gender studies.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. \section*{Career Opportunities:}

There is a growing concern for peace building within social and political institutions. As a consequence, numerous jobs now exist in peace-related sectors. Graduates of this program are prepared with the skills and knowledge necessary for graduate work as well as for careers in government, education, business and nonprofit organizations. Knowledge gained can be applied toward professional and personal advancement in education, writing, policy, law, cross-cultural communication, ethics and work with nongovernmental organizations. Due to the emphasis on the social aspects of peace, diversity, and identity, students will develop an awareness of the needs of diverse populations and the discourses that help create a culture of peace. Graduates apply their knowledge to areas as diverse as the following:
- civil rights organizations
- colleges and universities
- corporations
- government agencies
- law firms
- libraries
- museums
- nongovernmental organizations (NGOs)
- Peace Corps
- political action groups
- public relation firms
- research organizations
- social service agencies

\title{
Social and Cultural Analysis (Queer and Sexuality Studies), BA (ASSCAQSBA)
}

Campus: West

\section*{Program Description:}

The BA program in social and cultural analysis with a concentration in queer and sexuality studies combines transdisciplinary topics and methods to critically analyze the function of ideologies of sexuality; the history and present conditions of sexual identity formation; structural inequalities and queer resistance to those same inequalities; and the diversity of LGBTQA communities. Drawing from the premise that sex, gender and sexual orientation are both private experiences as well as profoundly political and public issues with important legal, social and cultural implications, the intellectual core of this program draws from theories, methods and pedagogies in queer theory and sexuality studies while engaging complementary fields of social justice, cultural studies, women's studies, gender studies, literature, history, sociology, psychology and transnational studies. Areas of emphasis include sexuality in culture, transnational queer studies, queer social movements and resistance, sexual fluidity, trans studies and critical heterosexualities.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Social and Cultural Analysis (Women and Gender Studies), BA (ASSCAWSBA)
Campus: West

\section*{Program Description:}

The BA in social and cultural analysis with a concentration in women and gender studies offers students a transdisciplinary curriculum that focuses on the diverse experiences of women in both national and international contexts. The program also examines the meaning of gender as a socially constructed category that shapes personal identities, beliefs, opportunities and behaviors. The wide range of classes explores the intersections of gender, race, class and sexuality; the institutional structures that have an impact on women's and men's lives; and the broad range of feminist theories that seek to explain and influence women's status in society. Areas of emphasis include gender and sexuality, critical race feminisms, gender and the borderlands, transnational feminisms, social activism and social movements, histories of feminism and critical embodiment studies.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. \section*{Sociology, BA (ASSOCBA)}

Campus: West, Lake Havasu

\section*{Program Description:}

The School of Social and Behavioral Sciences offers a BA in sociology in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Sociology is the study of the organization and development of societies and the institutions within them. The sociology program helps students better understand the development, structure, interaction and collective behavior of organized groups. The program explores the theories, practices, and policies underlying the issues of social change, inequality and diversity. This degree program provides training in important research skills used to describe, interpret and evaluate evidence across diverse settings and designs important in the new economy.

This is a flexible program that provides opportunities for students to work collaboratively with faculty on intellectual and policy issues and helps them develop the research skills necessary for the analysis of complex social issues.

Graduates are prepared for employment in corporate or governmental organizations or to continue their studies in graduate programs in sociology, social science or professional schools.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Additional Program Fee: N
Second Language Requirement: N
First Required Math Course: MAT 142-College Mathematics
Program Math Intensity: General

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with:
Communication Studies, MA
Interdisciplinary Studies, MA
Social Justice and Human Rights, MA
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.

- the criminal justice system
- the health professions

Coursework in sociology provides a valuable preparation for careers in:
- journalism
- law
- politics
- public administration
- public relations
- nonprofit sector

These are all fields that involve investigative skills and an ability to work with diverse groups. Graduates with an advanced degree in sociology may become:
- community activists
- community developers
criminologists
- demographers
- gerontologists
- organizational advocate
- research analysts
- statisticians
- survey researchers
- urban planners

\section*{Statistics, BS (ASSTABS)}

Campus: West

\section*{Program Description:}

Almost every industry in the modern economy relies on the collection and analysis of data. The statistics program offered at ASU's West campus prepares students to meet the demands of the ever-growing data analysis field. In fact, this program is the only BS degree in statistics in the state of Arizona, making this program a launching pad for a statistics-driven career.

Through innovative research opportunities and internships with Phoenix-area corporations, including PING, students build a solid foundation of mathematics and computing, helping them grasp a thorough understanding of both theoretical and practical statistics. This prepares students for careers in finance, pharmaceuticals, medicine and manufacturing.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

In the era of big data, there is great demand for individuals with all levels of statistical training. Graduates of this program have an understanding of the transdisciplinary nature of statistics and are prepared for graduate study in statistics and related areas or for entry-level positions in a variety of fields, including business, government and the natural and social sciences.

Statisticians are in high demand in many areas of industry, government and academia. Some areas with particularly high demand include:
- finance
- manufacturing
- medical

\section*{Women and Gender Studies, BS (ASWSTBS)}

\section*{Campus: West}

\section*{Program Description:}

This interdisciplinary BS program in women and gender studies has a qualitative emphasis, and explores intersectional approaches to the study of gender, race, class, ethnicity and sexuality in national and transnational contexts.

Consistent with the university's design imperatives of social embeddedness and use-inspired research, the program's course offerings, research initiatives and co-curricular programs further the understanding of women and gender, and promote social justice. Students gain a solid knowledge base and educational foundation as well as the critical-thinking skills necessary for dealing with changing gender roles in society.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program
(http://students.asu.edu/admission/wue).

Journalism and Mass Communication, BA (CSJMCBA)
Campus: Downtown Phoenix

\section*{Program Description:}

The BA in journalism and mass communication at ASU's Walter Cronkite School of Journalism and Mass Communication, one of the best
journalism schools in the country, is a highly professional, hands-on degree program that prepares students for careers in media.

Undergraduate students at the journalism school learn the values and principles that have long formed the core of the journalism profession, and they master the highly specialized, practical skills needed to succeed in today's digital world and start a career in journalism or mass communication.

High-performing students can apply to the school's accelerated bachelor's degree and master's degree program, which allows for the completion of both degrees in five years. They can also become part of ASU's Barrett, The Honors College.

\section*{Additional Program Fee: Y}

Second Language Requirement: Yes
First Required Math Course: MAT 142-College Mathematics
or any MAT course that satisfies the math requirement

Program Math Intensity: General

\section*{Concurrent Degrees:}

This degree is also offered as concurrent degree program with:
Geography (Meteorology-Climatology), BS
Graphic Information Technology, BS
Transborder Chicana/o and Latina/o Studies (Media and Expressive Culture), BA
Transborder Chicana/o and Latina/o Studies (Transborder Community Development and Health), BA Transborder Chicana/o and Latina/o Studies (US and Mexican Regional Immigration Policy and Economy), BA

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with: Master of Mass Communication, MMC Sports Journalism, MA
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
The Bachelor of Arts in journalism and mass communication degree program has higher admission requirements and an application deadline of June 1 for fall. Students should select a second choice major on the application. All applicants will be reviewed by the school. Those who are not admitted to the Cronkite School will, if eligible, be admitted to their second choice major.

Freshman applicants must meet all of the following standards:
- have a 3.00 ( 4.00 = "A") ABOR GPA
- have no English competency deficiencies
- 1040 SAT Reasoning if taken before March 2016 or 1120 SAT Reasoning if taken after March 2016 or 22 ACT score

Concurrent degree admission requirements:

Freshman applicants must meet all of the following standards:
- 3.75 minimum ABOR GPA
- no English competency deficiencies
- 1040 SAT Reasoning if taken before March 2016 or 1120 SAT Reasoning if taken after March 2016 or 22 ACT score

Transfer Admission Requirements:
Transfer students (with 12 or more transfer hours after high school graduation) are required to have a cumulative transfer GPA of 3.00 or higher and no English competency deficiencies. Transfer students should contact the school for additional steps after admission to ASU. For more information regarding transfer admission see http://cronkite.asu.edu/undergrad/xfer_major_change.php
(http://cronkite.asu.edu/undergrad/xfer_major_change.php).

Concurrent degree admission requirements:

Transfer students must have a minimum cumulative GPA of 3.00 from a transfer institution.

\section*{Change of Major Requirements:}

ASU students who would like to change their majors to journalism and mass communication must have at least a 3.00 cumulative GPA in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's nonelective General Studies requirements. The course MCO 120 Media and Society, SB (3), an introductory course for nonmajors, can count in place of JMC 110 Principles and History of Journalism, SB (3).

Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change their major to this program.

\section*{Actuarial Science, BS (LAACTBS)}

Campus: Tempe

\section*{Program Description:}

The BS program in actuarial science at ASU provides the tools to succeed in this dynamic career.

Actuarial science majors learn to use tools from mathematics, statistics and finance to measure the impact of risk in order to improve forecasting and decision-making in business and government. Actuaries must pass a series of intensive professional exams to become credentialed, and this degree program prepares students for these exams.

Actuaries enjoy an excellent starting salary, exceptional job security with numerous opportunities for career growth.

\section*{Additional Program Fee: \(Y\)}

Second Language Requirement: N
First Required Math Course: MAT 270-Calculus w/Analytic Geometry I
Program Math Intensity: Substantial

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

\section*{Change of Major Requirements:}

Current ASU students wishing to change their major to actuarial science should have a cumulative GPA of at least 3.00 (scale is \(4.00=\) "A"), have completed at least MAT 265 or MAT 270 and CIS 105 (or CSE 100 or CSE 110), and have earned a "B" grade or better in all critical classes they have already completed. Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

Risk is a part of daily life, and wherever there is risk, there are opportunities to be an actuary. Many actuaries work with insurance companies to calculate premiums, determine reserves needed to ensure an organization's financial health and to make sure organizations conform to stringent, complex legal mandates. Others help companies to establish retirement plans or are employed as consultants. With a Bachelor of Science degree in actuarial science, students acquire skills that are transferable to any industry and any organization that requires risk modeling and management, including:
- accounting firms
- colleges and universities
- energy, such as utilities, oil and gas
- environment (on issues such as climate change and the financial impact or risk of extreme events)
- financial services, such as banking and investment management
- government agencies such as Social Security, the Department of Labor, and Medicare (to manage social programs and to develop regulations and legislation)
- transportation, such as shipping and air travel

Students can also apply the advanced problem-solving skills learned in the actuarial science undergraduate program to a variety of other professional careers, including:
- analysts
- business operations specialists
- consultants
- teachers

- advertising
- business
- counseling
- education
- human resources
international relations
- journalism
- justice
- management
- travel

The program prepares students for work in:
- civil rights organizations
- colleges and universities
- corporations
- government agencies
- hotel chains
- law firms
- libraries
- museums
- nonprofit organizations
- political action groups
- public relation firms
- research organizations
- sales departments

American Indian Studies, BS (LAAISBS)
}

\section*{Campus: Tempe}

\section*{Program Description:}

The BS program in American Indian studies provides students with unique opportunities to evaluate issues of American Indian nations within domestic and international contexts. The bachelor's degree program in American Indian studies encompasses two areas of emphasis: legal, policy, community and economic development; and arts, languages and culture. The American Indian studies program is committed to broadening the knowledge of students interested in the histories, languages, cultures, arts and contemporary situations of American Indian nations and peoples. The program is designed to protect the integrity and identity of the indigenous populations of North America and to create a learning environment conducive to critical and creative thought.

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

Graduates of the American Indian studies program are qualified to fill positions at the tribal, state and federal government levels and in the private sector. Graduates can advance to graduate school or can pursue professional careers in fields such as government service or public service. For example, federally and tribally operated schools located in remote areas within Indian Country have high turnover rates for both teachers and staff. American Indian studies graduates should be available to help fill these positions. Furthermore, the federal government, a major employer on many reservations across the country, is in need of qualified people who are knowledgeable of Indian cultures, laws and policies. Additionally, many American Indian nations' economies and infrastructures are developing at a rapid pace, and they are in continuous need to fill mid-management and management-level positions.

Graduates find positions in many areas, such as:
- community action work
- public administration (tribal or state relations, nonprofit management, education administration, planner)
- public health
- the arts
- tribal employment (political office, tribal management, cultural resource programming, grant writer, cultural specialist, youth services)

This program also provides suitable preparation for graduate study or law school.

\section*{Anthropology, BA (LAASBBA) \\ Campus: Tempe, Online}

\section*{Program Description:}

Anthropology helps students develop strong critical-thinking and oral and written expression skills, which are important for success in many careers. The BA program in anthropology gives students an opportunity to learn how and why humans evolved and how our evolutionary biological, social and cultural trajectories help us understand the meaning of being human in past, present and future environments.

In this degree program students learn how to use the scientific method to formulate and test hypotheses and gather qualitative and quantitative data through participant observation, interviewing, ethnographic study, careful excavation and measurement. They also learn how to employ statistics to analyze and extract meaning from data.

A special feature of the ASU anthropology program is its relevance to other disciplines and many exciting hands-on learning opportunities in laboratories and through study abroad and field-based courses.

\section*{Applied Mathematics for Life and Social Sciences, BS (LAAMLBS) \\ Campus: Tempe}

\section*{Program Description}

The BS degree program in applied mathematics for the life and social sciences offers a challenging and exciting curriculum that investigates and integrates complex areas of the physical, life and social sciences while preparing a new generation skilled in the use of theories and techniques such as mathematical modeling and computational methods to solve practical real-world problems.

The program focuses on the development of critical-thinking skills and purposeful competencies in mathematics. It instills an appreciation for the contributions of mathematics to the fields of sciences, engineering, business, government and economics. Coursework is directed toward an understanding of mathematical theory and its relation to other fields of studies. Emphasis is placed on precision of definition, reasoning to accurate conclusions, and analyzing and developing solutions to problems using mathematical principles

\section*{Career Opportunities:}

The bachelor's degree program in applied mathematics for the life and social sciences prepares students to enter the environmental, life, health, mathematical and social science fields. Graduates of the program possess the quantitative, scientific and analytical skills that are critical for professionals working in these areas.

The need for scientists and professionals quantitatively trained in the life and social sciences is strong in Arizona and the nation. This degree's applied use of mathematics, modeling, statistics and simulation methodologies are in high demand and provide excellent training for future academics and professionals in industries including:
- astrophysics
- biostatistics
- chemical engineering
- communications
- computational biology
computer animation
data mining
demography
- digital and medical imaging
- e-commerce
- education
forensics
- genomics
- informatics and complex systems research
materials science
- neuroscience
pharmaceutical engineering
- political science
public health
risk management
- security and military
- social network analysis

\section*{Asian Languages (Chinese), BA (LACHIBA)}

Campus: Tempe

\section*{Program Description:}

The BA degree program in Asian languages with a concentration in Chinese emphasizes proficiency in reading, writing and speaking Mandarin and in reading classical Chinese. It provides an in-depth understanding of the fundamentals of the rich Chinese cultural tradition, centered on primary Chinese texts (in Chinese and in English translation) from the literary, intellectual and religious cultures of Chinese-speaking societies. These texts include visual and written materials on a variety of topics, including:
- history
- linguistics
- literary theory
- media
- philosophy
- religion
- urban culture

Students in the program have a number of available options for enhancing their education through study abroad: https://mystudyabroad.asu.edu (https://mystudyabroad.asu.edu/). Highly-motivated students interested in learning Chinese to professional-level proficiency are encouraged to inquire about the Chinese Language Flagship Program: https://international.clas.asu.edu/chineseflagship (https://international.clas.asu.edu/chineseflagship). All students with higher levels of linguistic competency may enroll in targeted courses (conducted in Chinese) offered as part of the Chinese flagship track.

\section*{Asian Languages (Japanese), BA (LAJPNBA)}

Campus: Tempe

\section*{Program Description:}

Students in the BA program in Asian languages with a concentration in Japanese study the language, literature and culture of Japan and gain a respectable measure of competence in reading, writing, oral and aural skills in the Japanese language. Students also gain linguistic and cultural competence through the required study of classical Japanese. Throughout the program, students take courses in either Chinese or Korean language or culture and related courses in Japanese and East Asian culture on topics such as:
- art
government
- Japanese history
- linguistics
- literary and cultural theory
- religion

In addition, ASU offers summer or yearlong programs to study abroad in Japan. More information on study abroad opportunities is available at https://mystudyabroad.asu.edu (https://mystudyabroad.asu.edu/).

\section*{Asian Pacific American Studies, BA (LAAPABA)}

Campus: Tempe

\section*{Program Description:}

The BA program in Asian Pacific American studies provides an opportunity for students to study the long history and rich contemporary experiences, cultures and communities of Asian Pacific Americans in the Southwest with dedicated, inspiring faculty. A liberal arts emphasis on critical thinking, complex reasoning and solid writing skills prepares students to engage in research that informs meaningful dialogues between policymakers, educators and society at large about Asian American and Pacific Islander communities for years to come. The Asian Pacific American studies program is housed in ASU's School of Social Transformation, the only school of its kind in the United States.

\section*{Biochemistry, BA (LABCHBA)}

Campus: Tempe

\section*{Program Description:}

The BA program in biochemistry provides students with a course of study in the chemical processes of living organisms. Among the endeavors that depend upon a thorough grounding in this area are discoveries of new drugs, the recognition and control of new pathogens, development of new catalysts for energy transformations, and the production of new materials and solutions to problems such as food production and environmental

This program is a flexible option for students interested in a liberal arts degree with a strong grounding in physical science. It is ideal for students seeking to complete two degrees. Students wishing to pursue a scientific graduate degree should consider the BS in biochemistry.

Additional Program Fee: Y

\section*{Second Language Requirement: Yes}

First Required Math Course: MAT 251 - Calculus for Life Sciences
Students may complete MAT 270 Calculus with Analytic Geometry I (4) in lieu of MAT 251 Calculus f
Program Math Intensity: Moderate

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

\section*{Change of Major Requirements:}

A current ASU student has no additional requirements for changing majors. Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. \section*{Biological Sciences, BS (LABSCBS)}

Campus: Tempe, Online

\section*{Program Description:}

The life sciences delve into the basic organization and processes of life (microbes, plants and animals) at scales ranging from molecules to ecosystems and in time from picoseconds to millennia. This includes investigations into how hereditary information is transferred and organisms evolve, the interplay of organisms and their environments, and how these factors interact in health and disease. Students interested in a degree in life sciences can opt for a BS in biological sciences or choose one of five concentrations:
- biology and society
- biomedical sciences
- conservation biology and ecology
- genetics, cell and developmental biology
- neurobiology, physiology and behavior

This program is available as an accelerated degree program: https://sols.asu.edu/degree-programs/accelerated-bachelor-master-science (https://sols.asu.edu/degree-programs/accelerated-bachelor-master-science).

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 251-Calculus for Life Sciences
Program Math Intensity: Moderate

\section*{Concurrent Degrees:}

This degree is also offered as concurrent degree program with Secondary Education, BAE

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with:

\section*{Career Opportunities:}

The biological sciences major with no concentration is designed for students who are committed to studying and training in multiple disciplines in biology and students who want to get more exposure to the life sciences before deciding whether they want to declare a concentration as an undergraduate. Therefore, students in this major take core courses from several concentrations. Students in this major have more flexibility to customize their program of study so they can focus on their own area of interest that may not have a concentration, such as plant biology or genomics.

The biological science major provides an excellent foundation for graduate study as well as preparation for professional schooling in:
```

- dentistry

```
- medicine
- pharmacy
- veterinary medicine

Graduates may also enter positions in:
- biotechnology
- education
- government
- industry

\section*{Biological Sciences (Biology and Society), BS (LABSCSBS)}

Campus: Tempe

\section*{Program Description:}

The BS program in biological sciences with a concentration in biology and society focuses on training biology students to understand the social context of their science, to ask how and why a biological problem has been and should be studied. Students explore the ways in which policy decisions shape and are shaped by biological research and they investigate the meaning and significance of the life sciences in understanding our complex world.

The biology and society curriculum is highly individualized. This unique degree is home to world-class researchers and teachers in diverse fields, including bioscience ethics, history and philosophy of science, science communication, science education and science policy, all brought together under one program. Students have the opportunity to work with many renowned scholars in independent study and research projects.

This program is available as an accelerated degree program: https://sols.asu.edu/degree-programs/accelerated-bachelor-master-science (https://sols.asu.edu/degree-programs/accelerated-bachelor-master-science)

\section*{Career Opportunities:}

Biology and society students gain the historical, philosophical, political and ethical perspectives needed to explore interactions between the life sciences and related, complex human issues. As a result, the program contributes to better informed and more effective teachers, writers, policymakers, clinicians and researchers in areas related to biology, medicine and society.

As a result of the individualized, skill-based curriculum, biology and society majors are eligible for a broad range of career options. Most graduates have chosen to pursue professional degrees in medicine, law, public health or public policy, or graduate study in biology, ethics, education or history and philosophy of science. Our graduates enter the workforce, whether in academia, industry, government or clinical practice, with a deep sensitivity to the complexity of biology in society and the skill to navigate that complexity throughout their careers.

\section*{Biological Sciences (Biomedical Sciences), BS (LABSCMBS)}

Campus: Tempe

\section*{Program Description:}

The biomedical sciences concentration serves students in the biological sciences BS degree program who wish to pursue careers in medicine, other health professions or biomedical research in an academic, clinical or industry settings. The curriculum aligns with the broad scientific competencies recommended for premed students in a report of the American Medical Colleges and the Howard Hughes Medical Committee and
reflected in the 2015 changes to the MCAT.

Coursework draws from the school's concentration in genetics, cell and developmental biology and the concentration in neurobiology, physiology and behavior, with the addition of courses in biology and in medicine and society. The concentration focuses on the chemistry, biochemistry, math and physics coursework that is necessary to prepare students for the MCAT or medical school admissions. The concentration emphasizes core concepts, competencies and critical intellectual skills necessary to succeed in medical school or biomedical research.

This program is available as an accelerated degree program:https://sols.asu.edu/degree-programs/accelerated-bachelor-master-science (https://sols.asu.edu/degree-programs/accelerated-bachelor-master-science).

\section*{Additional Program Fee: Y}

Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

Upon completion of the biological sciences degree with a concentration in biomedical sciences, students are well-equipped to enter into careers as research scientists or as scientists in the health professions. Students will have met the majority of prerequisite requirements and mastered many of the competencies valued by graduate programs in medical, dental and optometry fields or in programs which prepare students to be physician assistants or physical therapists. Additionally, graduates of this program will have an understanding of the process of science preparing them for a career in research. They will have knowledge of foundational concepts in biological sciences, chemistry, physics and statistics, as well as the ability to understand and apply core biomedical concepts. This will prepare students to enter into biology research in a vast number of areas, some of which include genetics, genomics, evolution, physiology and immunology.

\section*{Biological Sciences (Conservation Biology and Ecology), BS (LABSCCBS) \\ Campus: Tempe}

\section*{Program Description:}

Ecology is the study of the distribution and abundance of organisms, the interactions among organisms, and the interactions between organisms and the physical environment. Conservation biology is an applied science based on ecological principles that focuses on conserving biological diversity and on restoring degraded ecosystems. Arizona State University has made a commitment toward a more sustainable world, and knowledge of conservation biology and ecology, gained through the BS program in biological sciences with a concentration in conservation biology and ecology, is one critical component to help meet this global challenge.

Conservation biologists at ASU investigate the impact of humans on Earth's biodiversity and develop practical approaches to prevent the extinction of species and promote the sustainable use of biological resources. Some investigate the causes of ecosystem degradation and use ecological principles to reestablish desired conditions within a range of ecosystems, including rivers, wetlands, grasslands, urban landscapes and forests.

This program is available as an accelerated degree program: https://sols.asu.edu/degree-programs/accelerated-bachelor-master-science (https://sols.asu.edu/degree-programs/accelerated-bachelor-master-science).

\section*{Additional Program Fee: Y}

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

The curriculum prepares students for employment and provides a solid platform for students who wish to attend graduate school. The skills and concepts are preparation for careers with:
- governmental agencies such as the Environmental Protection Agency and state game and fish departments
- K-12 education, colleges and universities
- nongovernmental organizations such as The Nature Conservancy and Conservation International
- private companies focused on environmental resources, environmental law or environmental economics

The concentration can provide training in specific skills that might be needed in these areas:
- animal and plant physiology, identification and ecology
- behavioral ecology and population biology
- community, ecosystem and landscape ecology
- conservation of endangered species
- ecology of different habitats, including cities, lakes, rivers and grasslands
- restoration of degraded ecosystems

\section*{Biological Sciences (Genetics, Cell and Developmental Biology), BS (LABSCGBS)}

Campus: Tempe

\section*{Program Description:}

The BS degree program in biological sciences with a concentration in genetics, cell and developmental biology integrates the study of three exciting, closely related areas of life science research. Genetics examines the blueprints of life, such as DNA sequence and gene expression, while cell biology studies the machinery of life enclosed within the boundaries of cells. Developmental biology uses both genetics and cell biology to understand how genes and the environment interact to produce a whole new individual from a single cell as well as the various developmental changes that organisms undergo throughout life. The combined study of genetics, cell biology and development has resulted in a better understanding of many diseases and promises to prove even more important in the future.

This program is available as an accelerated degree program: https://sols.asu.edu/degree-programs/accelerated-bachelor-master-science (https://sols.asu.edu/degree-programs/accelerated-bachelor-master-science).

\section*{Career Opportunities:}

Students who pursue this concentration have a variety of career options. This degree provides the fundamental coursework necessary for admission into medical, dental, veterinarian, pharmacy or graduate schools or any of the health professions. There also are many employment opportunities that can be pursued upon receipt of the Bachelor of Science with this concentration:
- animal breeder technician
- bioinformaticist
- biotechnologist
- cell culture specialist
- cloning technician
- crime lab technician
- cytotechnologist
- drug design technician
- food and drug inspector
- genetic counselor
- histologist
- in-vitro fertilization technician
- plant improvement specialist
- teacher
- technical writer
- vaccine development technician

Students in this concentration program learn critical-thinking skills that can be applied to many scientific problems and professions as well as to the challenges of daily life. Students are encouraged to engage in independent research projects or internship opportunities in order to develop a better sense of how science is done.

\section*{Biological Sciences (Neurobiology, Physiology and Behavior), BS (LABSCABS)}

Campus: Tempe

\section*{Program Description:}

The neurobiology, physiology and behavior concentration serves students in the biological sciences BS degree program with a broad yet rigorous education. While it might seem that physiology and behavior are quite separate fields, the two interact extensively in living organisms to achieve common goals. By studying behavior and physiology from the perspectives of molecular and cellular biology, evolution, organ systems (neural, endocrine, cardiovascular, respiratory, immune, etc.) and the environment, the concentration in physiology and behavior provides insight into how these aspects work together in a variety of ways. Students in this concentration also learn to apply principles from mathematics, chemistry and physics. Discoveries are made at the laboratory bench and in the field, and students in the concentration are encouraged to participate in research projects in the labs of our faculty members.

This program is available as an accelerated degree program: https://sols.asu.edu/degree-programs/accelerated-bachelor-master-science (https://sols.asu.edu/degree-programs/accelerated-bachelor-master-science).

\section*{Additional Program Fee: Y}

\section*{Career Opportunities:}

The broad education and critical-thinking skills students receive in this concentration are well suited for a variety of rewarding careers. Premedical, preveterinary and predental students get the background and courses needed for professional school application and beyond. Many students go on to graduate school for academic, teaching or research careers in areas such as:
- endocrinology
- environmental or behavioral physiology
-human physiology
- metabolism
- neurobiology
- social behavior

With a Bachelor of Science degree with this concentration, there are opportunities for technical positions in hospitals, research institutes and industry (food, dairy, chemical, pharmaceutical and biotechnology) as well as in government laboratories and agencies. The most important skills students learn in the concentration are critical-thinking and problem-solving skills that can be applied to many scientific problems and professions as well as to the challenges of daily life.

\section*{Chemistry, BA (LACHMBA)}

Campus: Tempe

\section*{Program Description:}

Chemistry is concerned with the composition, properties and reactions of matter. The BA program in chemistry provides the fundamental knowledge and skills necessary to address scientific needs of society in transdisciplinary areas such as energy and sustainability, medicine and health, materials and nanoscience, geologic and biospheric science, frontiers of chemical measurement and fundamental molecular science.

The Bachelor of Arts degree in chemistry is a flexible option for students interested in a liberal arts degree with a strong grounding in physical science. It is ideal for students seeking to complete two degrees. Students pursuing a bachelor's degree in chemistry have opportunities to explore interests in analytical, inorganic, organic and physical chemistry as well as biochemistry, geochemistry, solid-state and materials chemistry. Students wishing to pursue a scientific graduate degree should consider the BS in chemistry.

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

A solid undergraduate education in chemistry provides the necessary background for many career paths in chemical industries, government and other areas. Chemistry can be combined with law for patent work, with economics for sales and marketing careers, and with computer science for careers in information storage and retrieval. Students planning careers in medicine, dentistry or veterinary medicine often pursue a course of study in chemistry with supporting work in biology as the route for preprofessional training.

Chemistry, BS (LACHMBS)
Campus: Tempe

\section*{Program Description:}

Chemistry is concerned with the composition, properties and reactions of matter. The BS program in chemistry provides students the knowledge and skills necessary to address contemporary scientific challenges in transdisciplinary areas such as energy and sustainability, medicine and health, materials and nanoscience, geologic and biospheric science, frontiers of chemical measurement and fundamental molecular science.

Students complete coursework in the foundational chemistry disciplines of analytical, inorganic, organic and physical chemistry as well as biochemistry as part of a curriculum approved by the American Chemical Society. This degree is appropriate for further study of chemistry or other physical sciences in graduate school or for scientific careers.

\section*{Additional Program Fee: Y}

Second Language Requirement: \(N\)
First Required Math Course: MAT 270-Calculus w/Analytic Geometry I
Program Math Intensity: Substantial

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with: Biochemistry (Medicinal Chemistry), MS
Nanoscience, PSM
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

\section*{Change of Major Requirements:}

A current ASU student has no additional requirements for changing majors. Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Chemistry (Environmental Chemistry), BS (LACHMEBS)}

Campus: Tempe

\section*{Program Description:}

The BS in chemistry with an environmental chemistry concentration is a transdisciplinary degree program that combines training in the traditional disciplines of chemistry with related environmental sciences courses from geology, mathematics and physics. Discoveries of new materials, processes and solutions to problems such as pollution control and climate change depend upon a thorough grounding in this area of science.

This program prepares students to become scientists and leaders in solving environmental problems and serves as excellent preparation for a career in environmental science or further study of physical sciences in graduate school.

\section*{Civic and Economic Thought and Leadership, BA (LACELBA) \\ Campus: Tempe}

\section*{Program Description:}

The BA program in civic and economic thought and leadership inspires and prepares the next generation of leaders through transdisciplinary study in political philosophy, economic thought, political and intellectual history, and American political thought and constitutionalism, combined with practical leadership experiences and the study of leadership and statesmanship. The degree program examines broad and fundamental concepts and questions across human civilization and the challenges of leadership and statesmanship in the 21 st century world. Coursework is augmented by an internship experience, access to world-class scholars and intellectuals in the public affairs and speakers program, and contact with visiting Fellows. The multifaceted perspective and comprehensive educational resources of this degree program prepare students for graduate school, to compete for prestigious graduate scholarships, and for leadership roles in the public and private sectors. The result is a new breed of student who is uniquely positioned to address contemporary challenges through a traditional lens.

\section*{Communication, BA (LACOMBA)}

Campus: Tempe

\section*{Program Description:}

The BA degree program in communication at ASU's Tempe campus focuses on how message processes create, maintain and transform identities, relationships, workplaces and communities. This program provides a culturally based liberal arts focus with a second-language requirement. Such courses and activities will allow students to explore many fascinating questions, such as how messages can optimally advocate for a cause, sports team or organization, how people can communicate creatively in a variety of settings and styles, how valid messages differ from invalid messages, how and why cultural differences make communication difficult and why some topics are difficult to discuss and consistently lead to conflict.

Through rigorous coursework and rewarding applied experiences, graduates gain effective communication skills that are highly sought by employers. Students learn to write and speak effectively and are able to convey complex ideas simply. They are prepared for employment in communication-intensive fields or for graduate study.

\section*{Additional Program Fee: N}

Second Language Requirement: Yes

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.

\section*{Computational Mathematical Sciences, BS (LACMSBS)}

Campus: Tempe

\section*{Program Description:}

New technologies, from smartphones to DNA sequencers, are changing the way people live, and the science behind these innovations owes a lot to computational mathematics.

This cutting-edge bachelor's degree program is a fusion of mathematics, science and computing. Students in the BS program in computational mathematical sciences learn how to translate problems in science and engineering into mathematical problems and solve them using computing algorithms. They develop strong problem-solving, analytical and programming skills as they work across diverse areas of science and mathematics.

Additional Program Fee: Y
Second Language Requirement: N

\section*{Career Opportunities:}

In a recent study, mathematics, computer science, applied mathematics and statistics all ranked among the top 15 most valuable college majors in terms of salary and career prospects. The computational mathematical sciences program brings all these disciplines together.

A bachelor's degree in computational mathematical sciences is one of the most versatile math degrees, offering students many career options. The degree positions students for careers in computer technology, business, medical research, teaching and education, engineering and more. Some students pursue graduate opportunities in areas such as biophysics, economics, medicine, statistics and law. Diverse areas of study such as cancer modeling, weather forecasting and financial modeling all involve computational mathematical sciences.

\section*{Earth and Environmental Studies, BA (LAEESBA)}

Campus: Tempe

\section*{Program Description:}

The BA program in earth and environmental studies provides a foundational understanding of the evolution of the earth system with an emphasis on the planetary context for sustainable human societies. The degree program includes broad training in the physical sciences, especially processoriented geosciences that focus on Earth's life-sustaining surface environment. Advanced courses focus on topics including:
- climate change
- Earth's water, energy and material resources
- impact of land-use change on human civilization
- physical, chemical and biological process interactions that define Earth's evolution

This is designed as a liberal arts program with an emphasis on basic scientific literacy, not as a preparatory degree program for graduate study in the natural sciences. However, successful earth and environmental studies graduates are well prepared for green energy career opportunities such as:
- education
- environmental reporting
- natural resource management
- public planning
- sustainability

Additional Program Fee: Y
Second Language Requirement: Yes
First Required Math Course: MAT 170 - Precalculus
Program Math Intensity: Moderate

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

\section*{Change of Major Requirements:}

A current ASU student has no additional requirements for changing majors. Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

Transfer from a Maricopa Community College in Arizona

Chandler-Gilbert Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)
Estrella Mountain Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)
GateWay Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)
Glendale Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)
Mesa Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)
Paradise Valley Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)
Phoenix College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)
Rio Salado College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)
Scottsdale Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)
South Mountain Community College(http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp\%2Brn---bsn)

Transfer from an Arizona Community College:

Arizona Western College(https://transfer.asu.edu/tag)
Central Arizona College(https://transfer.asu.edu/tag)
Cochise College(https://transfer.asu.edu/tag)
Coconino Community College(https://transfer.asu.edu/tag)
Dine College(https://transfer.asu.edu/tag)
Eastern Arizona College(https://transfer.asu.edu/tag)
Gila Community College(https://transfer.asu.edu/tag)
Mohave Community College(https://transfer.asu.edu/tag)
Northland Pioneer College(https://transfer.asu.edu/tag)
Pima Community College(https://transfer.asu.edu/tag)
Tohono O'odham Community College(https://transfer.asu.edu/tag)
Yavapai College(https://transfer.asu.edu/tag)

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

With a breadth of knowledge and experience and the acquired skills to integrate various domains of knowledge, graduates of the earth and environmental studies program are prepared for a variety of careers that help find solutions to tomorrow's environmental and sustainability challenges. Chief among these are careers in the following settings:
- consultancy
- education
- governmental agencies
- industry
- museums
- nongovernmental organizations
- nonprofit organizations
- publishing
- regulatory agencies
- utilities

Recent environmental awareness in business and government has also resulted in new employment opportunities (e.g., environmental coordinators, directors and managers). Graduates are also well-prepared for admission to strong professional schools in fields outside the natural sciences.

\section*{Earth and Space Exploration, BS (LASESBS)}

Campus: Tempe

\section*{Program Description:}

The BS program in earth and space exploration offers students an integrated education across earth sciences, planetary sciences, astrophysics and engineering. The degree program incorporates a learning community that includes science and engineering students, a yearlong collaborative capstone senior exploration project and strong quantitative preparation.

This strong foundation in geosciences, astrophysics and exploration engineering prepares students for key roles in:
- earth resources and exploration
- environmental and geologic engineering
- space research and industry
- water and environmental use policy

\section*{Additional Program Fee: Y}

Second Language Requirement: N
First Required Math Course: MAT 265-Calculus for Engineers I
or MAT 270 Calculus with Analytic Geometry I

Program Math Intensity: Substantial

Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

The earth and space exploration major addresses critical future shortfalls in the national and regional training of the next generation of geoscientists and aerospace engineers. Arizona has an expanding space industry with major new investments and is prepared to engage new technologies to monitor and understand environmental issues in Arizona, the Southwest and throughout the world. Students who major in earth and space exploration will have the tools, knowledge and understanding to address key problems of a global nature, whether they are working in the private or public sector.

\title{
Earth and Space Exploration (Astrobiology and Biogeosciences), BS (LASESABBS)
}

Campus: Tempe

\section*{Program Description:}

Astrobiology studies the origins, evolution, distribution and future of life in the universe. Biogeoscience focuses on the interaction of biological and geological processes on Earth at present and in the geologic past. These topics are closely related because the concepts of biogeoscience inform the study of planetary habitability and the search for habitable worlds. Therefore, the astrobiology and biogeoscience concentration in BS program in earth and space exploration is designed to offer students a strong foundation for exploring the interaction of geological and biological processes, how such interactions sustain life on Earth, and how they might operate on other planets. This scientific background is needed to contribute to the search for life on other planets as well as the exploration of extreme environments here on Earth. It also provides training in the interplay of forces that impact global change.

Additional Program Fee: Y
Second Language Requirement: N
First Required Math Course: MAT 265 - Calculus for Engineers I
or MAT 270

Program Math Intensity: Substantial

\section*{Earth and Space Exploration (Astrophysics), BS (LASESABS)}

Campus: Tempe

\section*{Program Description:}

The BS in earth and space exploration with a concentration in astrophysics is designed to offer students a fundamental grounding in astronomy and astrophysics, with exposure to the related fields of geology, planetary science and engineering. Students emerge from this program with the skills to pursue a career in astrophysics, physics or related fields.
