The rigorous coursework includes a combination of physics courses taught in the School of Earth and Space Exploration and the Department of Physics. Students should graduate from the program with the ability to compete at the national level on standardized physics exams. The tools of astronomical discovery are increasingly dependent on technological advances so students will be exposed to engineering principles. Through the capstone project in the senior year, students gain valuable experience in translating science drivers into engineering solutions.

Additional Program Fee: \(Y\)
Second Language Requirement: N
First Required Math Course: MAT 270-Calculus w/Analytic Geometry I
or MAT 265 Calculus for Engineers I

Program Math Intensity: Substantial

\section*{Admission Requirements:}

\section*{Earth and Space Exploration (Exploration Systems Design), BS (LASESESDBS)}

Campus: Tempe

\section*{Program Description:}

The BS program in earth and space exploration with a concentration in exploration systems design offers students a fundamental curriculum in geology, physics and astrophysics while providing tools that enable them to design and build hardware and software to achieve specified scientific goals.

At the heart of the program is a sound grounding in the fundamentals of physics, mathematics and chemistry. Upon that foundation, students explicitly tackle issues concerning hardware design and instrument assembly and, ultimately, how to knit these components together when
conceiving the requirements needed for a mission or project destined for space or another planet.

As part of this degree program, each student has the opportunity to learn how projects and missions are designed and planned, starting with the scientific drivers and then defining engineering specifications. All students are expected to complete a senior project that takes a desired scientific measurement and realizes the technological solution to achieve the observation.

\section*{Earth and Space Exploration (Geological Sciences), BS (LASESGSBS)}

Campus: Tempe

\section*{Program Description:}

Geological science is the study of the Earth and other planets with an emphasis on the processes that have shaped them since the origin of the solar system. Students explore topics such as the co-evolution of life, oceans, atmosphere and the Earth's climate system, and the record of that evolution encoded in rocks, soil, ice and isotopes

The BS program in earth and space exploration with a concentration in geological sciences educates students in the fundamentals of the geological sciences, providing a solid background in chemistry, mathematics and physics as well as transdisciplinary training in engineering, astronomy and planetary science

Students gain a strong understanding of field methods as well as modern computing, remote sensing and instrumentation in order to effectively study the natural environment and Earth's resources. Graduates of the program can apply their knowledge for the benefit of Arizona, the nation and society in general.

\section*{Economics, BS (LAECNBS)}

Campus: Tempe, Online

\section*{Program Description:}

The mission of the Department of Economics at ASU is to provide the highest quality instruction to students, conduct cutting-edge research in economics, and provide leadership and service to our professional communities. The department's undergraduate program aims to provide students with the critical-thinking and communication skills needed to succeed in business, government or graduate school.

The BS in economics is built on a strong core of economic theory, supplemented by mathematics and data analysis. All students are encouraged to develop programs of study tailored to their individual needs and interests. Students choose from a variety of courses within the department as well as from the College of Liberal Arts and Sciences and the university to broaden their knowledge and skills and individualize their learning experience.

\section*{Economics (Politics and the Economy), BS (LAECNPECBS) \\ Campus: Tempe}

\section*{Program Description:}

The concentration in politics and the economy serves undergraduate students in the BS program in economics who wish to pursue careers in business, economic and political consulting, political science, law and government. In addition to coursework drawn from economics, the concentration also requires coursework that highlights the impact of government policies on the economy and the conditions under which government interventions may be warranted. Students take political science courses that provide a deep understanding of political processes and institutions as well as methodologies for understanding that behavior.

\section*{English (Creative Writing), BA (LAENGCBA)}

Campus: Tempe

\section*{Program Description:}

Undergraduate students can pursue BA degrees in English with concentrations in creative writing, linguistics, literature, secondary education, and writing, rhetorics and literacies. A bachelor's degree in English is also offered completely online.

Students in the creative writing concentration study and practice the art of writing poetry and fiction. The distinguished faculty in the Department of English are actively engaged in creative writing and scholarly research. Students gain practical experience through research and internships that prepare them for an ever-expanding variety of careers. The undergraduate programs also prepare students to continue their studies in graduate and professional programs

\section*{English (Secondary Education), BA (LAENGSEBA)}

Campus: Tempe

\section*{Program Description:}

Undergraduate students can pursue BA degrees in English with concentrations in creative writing, linguistics, literature, secondary education and writing, rhetorics and literacies. A bachelor's degree in English is also offered completely online.

The BA in English with a concentration in secondary education focuses on rigorous content in literature, composition, linguistics and secondary teaching pedagogy. This program provides extensive preparation for meeting the needs of all student populations, including attention to levels of academic performance and cultural and linguistic diversity. Students finish the program with Arizona Department of Education certification for middle and high school English language arts. Both a fingerprint clearance and a background check are required in the second year of the program.

Additional Program Fee: N

Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

Students graduating with a bachelor's degree in English with a concentration in secondary education have tremendous opportunities for employment. With more than one million students in a state ranked seventh in the nation in population growth, the need for certified teachers in Arizona is self-evident. Arizona State University provides more of those teachers than any other institution of higher education. In the last 15 years, ASU graduates have had their pick of teaching jobs around the valley and around the state. After student teaching in school districts in the greater Phoenix area or in one of the 22 Native American nations in the state, students are often hired to teach in the same school in which they completed their internship. New teachers continue to be in demand because the predicted rate of population growth in Arizona is still strong and the retirement rate of teachers is increasing.

\section*{English (Writing, Rhetorics and Literacies), BA (LAENGWBA)}

Campus: Tempe

\section*{Program Description:}

Undergraduate students can pursue BA degrees in English with concentrations in creative writing; linguistics; literature; secondary education; and writing, rhetorics and literacies. A bachelor's degree in English is also offered completely online.

The concentration in writing, rhetorics and literacies teaches students strategies for inquiry. Students explore the ways in which communication has, does and will create knowledge and action, and they study how communication is constructed, circulated, reacted to and repurposed through time and place. Through differing tools of inquiry, students investigate the history, theories and methods of inquiry as well as pragmatic and social actions of rhetoric, writing and literacies.

\section*{Career Opportunities:}

The film and media studies concentration provides undergraduates with skills that can be applied in a number of professional fields, including as leaders within these areas of the media and entertainment industries:
- creative management
- criticism
- development
- marketing
- regulation
- teaching

Some graduates of film and media studies have gone on to pursue graduate studies at prestigious universities, while others elect to begin their careers at the completion of their degree program.

\section*{French, BA (LAFREBA)}

Campus: Tempe

\section*{Program Description:}

The BA program in French offers the opportunity to study the language, literature and culture of France and francophone countries. Students gain competence in reading, writing, oral and aural skills in the French language and take a number of related courses on topics such as:
- art
- cinema
- colonization
- government and political science
- history and civilization
- international business
- linguistics
- literature and theater
- popular culture
- religion

Students are encouraged to join the French Club to help them gain proficiency in the language. In addition, the School of International Letters and Cultures offers faculty-directed summer study abroad programs in France and Quebec, Canada, and it endorses partnership and exchange programs in francophone Africa, Canada and Europe. More information on study abroad opportunities is available at https://silc.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages (https://silc.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages).

\section*{Geographic Information Science, BS (LAGISBS)}

Campus: Tempe, Online

\section*{Program Description:}

The BS degree program in geographic information science focuses on the computational dimension of geographic information system technology. Students in the program learn:
- commercial and open source GIS and related software
- computational principles in GIS
- concepts in spatial thinking and geographic problem solving
- mathematical and statistical spatial modeling
- programming in multiple languages (e.g., Java, C++, and Python)

These essential programming skills combined with GIS knowledge form the basis for designing and implementing GIS software.

Additional Program Fee: \(Y\)

First Required Math Course: MAT 270-Calculus w/Analytic Geometry I
Program Math Intensity: Moderate

\section*{Admission Requirements:}

Geography, BA (LAGCUBA)
Campus: Tempe, Online

\section*{Program Description:}

The BA program in geography teaches students to see the world through the twin lenses of space and place.

Geographers have a unique spatial perspective in understanding the modern world, from global to local. The Bachelor of Arts program in geography emphasizes humanistic and cultural traditions. Students pursuing undergraduate studies in geography typically concentrate knowledge-building in understanding various cultural phenomena or in studying regions such as:
- Africa
- Asia
- Australia and Oceania
- Europe
- Latin America
- North America

\section*{Geography (Meteorology-Climatology), BS (LAGCUMBS)}

Campus: Tempe

\section*{Program Description:}

The meteorology-climatology concentration under the BS in geography is designed to meet the requirements for certification as a meteorologist by the National Weather Service. It covers dynamic as well as synoptic meteorology.

Required courses include:
- atmospheric physics
- operational weather forecasting
three semesters of calculus
- two semesters of calculus-based physics

\section*{Additional Program Fee: N}

Second Language Requirement: N
First Required Math Course: MAT 170-Precalculus
Program Math Intensity: Substantial

\section*{Concurrent Degrees:}

This degree is also offered as concurrent degree program with Journalism and Mass Communication, BA

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements
Concurrent degree admission requirements:

Freshman applicants must meet all of the following standards:
- no English competency deficiencies
- 1040 SAT Reasoning or 22 ACT score

Transfer Admission Requirements
Transfer students must have a minimum cumulative GPA of 3.00 from a transfer institution.

\section*{Change of Major Requirements:}

A current ASU student has no additional requirements for changing majors. Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

ASU students who would like to change their majors to the concurrent program with journalism and mass communication must have at least a 3.00 cumulative GPA in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's nonelective General Studies requirements.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Geography (Urban Studies), BS (LAGCUUBS)}

Campus: Tempe

\section*{Program Description:}

Geographers have a unique spatial perspective in understanding the modern world, from global to local, through the twin lenses of space and place.

The urban studies concentration under the BS program in geography applies the tools of geography to the study of urban areas. Students have an opportunity to focus in particular on the Phoenix metropolitan area and other rapidly urbanizing regions in arid climates. Tied with geographic information science, the urban studies major brings together both knowledge and skill sets in a powerful way.

\section*{Career Opportunities:}

Students successfully completing the BS program in geography with a concentration in urban studies pursue employment with city planning agencies as well as other government entities at various levels (county, state, federal). The urban studies concentration, especially when combined with a focus on geographic information science, gives graduates an advantage in careers that combine urban planning with GIS and in other jobs dealing with urban issues, including:
- economic development planning
- GIS databases for city governments
- housing issues
- sustainable planning
- transportation

\section*{German, BA (LAGERBA)}

Campus: Tempe

\section*{Program Description:}

Students in the BA program in German study the language, literature and culture of German-speaking people and gain a respectable measure of competence in reading, writing, oral and aural skills in the German language. Students broaden and deepen their studies with related courses on topics such as:
- art
- government
- history
- international business
- linguistics
- literature and culture
- religion

Students are encouraged to study abroad in Germany as participants in the School of International Letters and Cultures faculty-directed summer program in Regensburg or in one of the academic-year exchange programs available at several German universities. More information on study abroad opportunities is available at https://mystudyabroad.asu.edu (https://mystudyabroad.asu.edu/).

Additional Program Fee: N
Second Language Requirement: Yes
First Required Math Course: MAT 142 - College Mathematics
Program Math Intensity: General

General University Admission Requirements:
All students are required to meet general university admission requirements.

\section*{Global Health, BA (LASSHBA) \\ Campus: Tempe, Online}

\section*{Program Description:}

The BA in global health is a transdisciplinary degree program designed for students who seek a broad and flexible set of skills for understanding contemporary health challenges and thinking about how they might best be solved. Global is understood in the anthropological sense, meaning ways of understanding and addressing disease, health and well-being that can incorporate all cultures, places and time and that can integrate knowledge of health's social, historical, biological and ecological dimensions.

The curriculum emphasizes the development of core skills in critical thinking, problem-solving and the importance of direct experience (research, study abroad, service learning and advocacy). The program cultivates capacities to deal with any complex problem with social components: how to identify the critical issues, ask the right questions and create solutions that are meaningful and effective.

Students are required to participate in an approved global health study abroad program.

Additional Program Fee: N
Second Language Requirement: Yes
First Required Math Course: MAT 142-College Mathematics
Program Math Intensity: General

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Global Health, MA
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

Nationally and internationally, the health field provides enormous and varied career opportunities, and demand is high and growing for graduates with skills. The major supports the goals of those pursuing careers in academic research, teaching and health services. Sample employment venues include:
- departments of health
- government agencies
- international agencies (World Health Organization, Center for Disease Control, Global Health Council, World Bank, Inter-American Development Bank)
- nongovernmental organizations
- private sector
- universities

The degree also provides a broad intellectual base for those who plan advanced specialist health training in fields such as:
- dentistry
- medicine
- nursing
- pharmacy

In Arizona and elsewhere, there is a pressing need for professionals with appropriate skills to work in cross-cultural settings or with underserved populations (such as migrants, minorities and those living in poverty), and many of these jobs are directly or indirectly related to health.

Global Studies, BA (LASGSBA)
Campus: Tempe, Online

\section*{Program Description:}

The BA program in global studies examines the causes and consequences of problems that cross national boundaries and the governance of these problems in social, cultural and economic contexts. The degree program aims to address real-world problems and their solutions. This mission is enabled by an internationally recognized faculty that has extensive global experience from a wide variety of disciplines in the social sciences, humanities and law. The global studies program uses teaching, research and public policy activities to address some of the most challenging issues that include:
- built environments
- economic and social development
- global cities and urbanization
- global governance of health and climate change
- justice and human rights
- religious identities, rights and conflicts
- world culture

Global studies faculty members orient their work toward solving global problems by drawing on expertise in diverse disciplines, including:
- anthropology
- economics
- geography
- history
- law
- planning
political science
- sociology

History, BA (LAHISBA)
Campus: Tempe, Online

\section*{Program Description:}

Students pursuing the BA in history study the growth and development of human society from political, social, economic and cultural perspectives. Students learn to craft stories from materials other people have left behind --- constitutions, land deeds, diaries, guns and bones. They learn to make decisions about what to investigate, about whom to believe, about what happened first, and about why things fell apart or came together.

History is a discipline that constantly adopts new techniques of analysis and new ways of gathering and presenting information. Students of history learn to use and create digital media, to perform quantitative as well as qualitative analysis, and to present their findings in compelling ways to all kinds of audiences.

\section*{Career Opportunities:}

History majors are in demand. They know how to find and evaluate evidence, form arguments and present analysis --- skills essential to most careers including law, business, education, medicine and government

Three out of four employers surveyed by the Association of American Colleges and Universities say they want colleges to place more emphasis on helping students develop five key learning outcomes: critical thinking, complex problem-solving, written communication, oral communication and applied knowledge in real-world settings. These learning outcomes are integral elements of an undergraduate degree in history.

History majors seek jobs in:
- business and industry
- communications
- education
- foreign service
- law enforcement
- museums
public administration
- social services

History is an excellent foundation for graduate and professional studies in:
- business
- history
- justice studies
- law
- medicine
- public administration
public history
theology

\section*{History (Secondary Education), BA (LAHISSEBA)}

Campus: Tempe

\section*{Program Description:}

The secondary education concentration within the BA in history offers a flexible degree for students who are considering a career in education. The concentration program fully prepares students for teaching and certification. At the same time, the concentration provides all the disciplinary knowledge of a traditional history degree and prepares students for a variety of noneducation careers. By developing strong critical reading, writing and research skills as well as skills in oral presentation, the program creates a solid foundation for graduate work in history, law or business.

\section*{Integrated Studies, BA (LAISTBA)}

Campus: Tempe

\section*{Program Description:}

The integrated studies program is a unique and highly focused individualized plan of study for students whose academic interests are not served by more traditional disciplinary pursuits. Developed for academically superior students whose interests lie beyond established departmental emphases and boundaries, the integrated studies program provides students the opportunity to work one-on-one with faculty mentors to create a personalized and individually tailored BA plan.

Students who are approved to develop an integrated studies major will pursue a focused and coherent course of study that draws its curricula from more than one academic department or college.

Additional Program Fee: N
Second Language Requirement: Yes
First Required Math Course: MAT 142 - College Mathematics
Some courses of study require more intensive mathematics coursework to meet prerequisites for certain classes.

\section*{Program Math Intensity: Genera}

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Not available to freshmen. There is an additional application for this degree. Admissions consist of completion of 32 credit hours at ASU with a GPA of at least 3.25 and three letters of recommendation from ASU faculty members. For more information, students should contact the senior director for advising and retention, Office of Student and Academic Programs, Futures Center, Armstrong Hall, Suite 112

\section*{Change of Major Requirements:}

This degree program is only for students who have earned at least 32 graded credit hours at ASU, who have a minimum cumulative GPA of 3.25 and whose study interests are not met by an already-existing major offered by Arizona State University. Students who meet the above qualifications and who have faculty mentors in their areas of interest are invited to meet with the Office of Student and Academic Programs in the College of Liberal Arts and Sciences to discuss the possibility of being allowed to pursue this opportunity. Appointments may be scheduled by calling (480) 965-6506.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Integrated Studies, BS (LAISTBS)}

Campus: Tempe

\section*{Program Description:}

The integrated studies program is a unique, highly-focused, individualized plan of study for students whose academic interests are not served by more traditional disciplinary pursuits. Developed for academically superior students whose interests lie beyond established departmental emphases and boundaries, the integrated studies program provides students the opportunity to work one-on-one with faculty mentors to create a personalized and individually tailored BS plan.

Students who elect and are approved to develop an integrated studies major pursue a focused and coherent course of study that draws its curricula from more than one academic department or college.

\title{
International Letters and Cultures, BA (LASLCBA)
}

Campus: Tempe

\section*{Program Description:}

The BA in international letters and cultures is a degree grounded in the advanced study of at least one foreign language. It is more transcultural and transdisciplinary than a traditional languages and literature degree program and is designed to encourage students to explore and challenge the traditional boundaries of cultures, texts and disciplines. Students work closely with faculty and advisors to choose a program that combines study and research in a minimum of two cultures or disciplines, or in both.

Students must meet with an advisor in the School of International Letters and Cultures to discuss this degree option; it is not recommended for firstyear students.

Additional Program Fee: N
Second Language Requirement: Yes
First Required Math Course: MAT 142 - College Mathematics
Program Math Intensity: Genera

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

\section*{Change of Major Requirements:}

A current ASU student has no additional requirements for changing majors. Students should see https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change the major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. \section*{International Letters and Cultures (Arabic Studies), BA (LASLCASBA)}

Campus: Tempe

\section*{Program Description:}

The BA program in international letters and cultures with a concentration in Arabic studies provides critical and cultural diversity in advanced Arabic language and literature that enriches ASU students' undergraduate experience; helps them gain a broad knowledge and understanding of the culture, literature and traditions of the vast Arabic-speaking world; and prepares them for the job market. The Arabic studies concentration benefits students interested in academic research and careers in public and diplomatic service as well as in national security. This concentration complements existing degree programs in the School of International Letters and Culture and enhances studies in social science disciplines such as political science and global studies, and in humanities fields including anthropology, history, philosophy and religious studies.

\section*{International Letters and Cultures (Classical Civilization), BA (LASLCVBA)}

Campus: Tempe

\section*{Program Description:}

Classics is a transdisciplinary field that includes the study of the literature, art, history and philosophy of the ancient Greeks and Romans, subjects which fueled the Renaissance and have continued to provide an intellectual foundation for innovative and influential people ever since.

ASU's BA program in international letters and cultures with a concentration in classical civilization provides a thorough grounding in the culture and history of the ancient Greeks or Romans while allowing students to satisfy their language requirement. The degree begins with two cores: an introduction to ancient Greek and Roman literature (read in English translation) and knowledge of ancient history. With that basis, students are allowed to build a program to meet their needs and interests. Among the variety of topics students pursue are:
- ancient history, war, politics and economics
- archaeology of the ancient Mediterranean world
- art and architecture of the ancient Egyptians, Greeks and Romans
- mythology and religious practices of the Greeks and Romans
- thought of figures such as Plato, Aristotle and Lucretius
- use of the classics in today's film, books and other media

Additional Program Fee: N
Second Language Requirement: Yes
First Required Math Course: MAT 142-College Mathematics
Program Math Intensity: General

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

College graduates with a degree in the classics have developed skills in research and the precise use and analysis of language that will serve them well in a wide range of fields. The transdisciplinary study of a culture very different from the modern world, yet lying at the root of it, also fosters a student's ability to view issues from many angles and think critically about them. Classics graduates often find careers in:
- business
- Christian ministry
- film, television and multimedia
- law
- politics
- education
- writing and editing (fiction, journalism, technical writing)

As many employers are well aware, a classics graduate has the training to solve difficult puzzles, to see through obscure language, and to conduct rigorous research on often ill-defined problems. These skills are prized in any field of endeavor.

Italian, BA (LAITABA)
Campus: Tempe

\section*{Program Description:}

The BA program in Italian offers students an opportunity to study the literature and culture of Italy while gaining a respectable measure of competence in reading, writing, oral and aural skills in the Italian language. Students broaden their knowledge by completing a number of related courses on topics such as:
- art
- film
- government
- history
- literature and culture
- religion

Faculty-directed summer programs in Italy are available for students who wish to study the language and culture while living in the country. Study abroad programs in various cities in Italy are also available during the academic year.

More information on study abroad opportunities may be found at https://silc.asu.edu/student-life/study-abroad/faculty-directed-summer-programpages (https://silc.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages).

\section*{Jewish Studies, BA (LAJSTBA)}

Campus: Tempe

\section*{Program Description:}

The BA in Jewish studies offers a transdisciplinary, cross-cultural program of study focusing on the study of Judaism, defined as the civilization of the Jews. It considers Jewish history and modern life and facilitates enhanced cultural awareness and global perspective. As with other degree programs in the humanities, a bachelor's degree program in Jewish studies can provide a balance to studies in contemporary science and technology.

Students choose a thematic concentration from history and society, literature and culture, or religion and thought.

\section*{Career Opportunities:}

Students who receive a bachelor's degree in Jewish studies and pursue a career with one of the hundreds of U.S. companies that do business in Israel will have a competitive edge because of their familiarity with Jewish culture. Jewish studies graduates are also prepared to:
- attend rabbinical seminary in preparation for becoming a community rabbi or chaplain
- engage in world political and economic issues
- pursue advanced education in Jewish professional service fields

The degree also provides a firm foundation for students who wish to pursue advanced degrees related to their area of interest in fields that may include:
- archaeology
- creative writing
- ethics
- film and media
- history
- journalism
- justice studies
- law
- philosophy
political science
- religious studies

Mathematics, BA (LAMATBA)
Campus: Tempe

\section*{Program Description:}

Math is the science of problem-solving. Students in the BA degree program in mathematics apply the critical-thinking and problem-solving skills they learn to many endeavors, because math is a crucial component in engineering, life sciences, business, economics and social sciences. In the bachelor's degree program in mathematics, students acquire a strong general mathematics background, but retain the flexibility to pursue other areas of interest through a minor or even a second major. Combining a second area of study such as life science, physics, computer science or business creates a powerful combination for future career goals.

\section*{Additional Program Fee: Y}

Mathematics is foundational and can be applied to many different types of careers. Math is a crucial part of engineering, life sciences, business, economics and social sciences. Many undergraduate math majors also pursue graduate studies in medicine or law. These are just a few of the top careers possible with a BS in mathematics:
- cryptographer
- engineer
- financial analyst
- mathematician
- operations research analyst
- statistician
- teacher

Students interested in a career in teaching or education may also consider the bachelor's degree in mathematics concentration in secondary education: https://math.asu.edu/content/mathematics-secondary-education (https://math.asu.edu/content/mathematics-secondary-education).

Mathematics (Secondary Education), BS (LAMATSBS)
Campus: Tempe

\section*{Program Description:}

School districts across the country are struggling with shortages of teachers, particularly in math. ASU's BS program in mathematics with a concentration in secondary education provides a new pathway for students interested in teaching. Students acquire strong content knowledge in diverse areas of math and the skills to convey these concepts to others. This degree program offers a deeper mastery of mathematics coupled with the ability to handle the challenges of a high school classroom

Students who wish to teach at the secondary level take courses preparing them to earn certification in the State of Arizona through this program. By providing a carefully designed curriculum of courses and instructional experiences the program develops the deep understandings and connections needed to be a highly effective mathematics teacher. Graduates emerge equipped to provide mathematics instruction that is coherent, meaningful and challenging.

\section*{Career Opportunities:}

The secondary education concentration provides its graduates the flexibility to apply their knowledge in a variety of ways. It combines the options of a bachelor's degree in mathematics and a bachelor's degree in education with choices ranging from teaching high school mathematics to jobs in diverse fields, such as:
- business
- finance
- industry
- technology

Students can also choose to pursue graduate studies in mathematics or mathematics education.

\section*{Mathematics (Statistics), BS (LAMATTBS)}

Campus: Tempe

\section*{Program Description:}

In the BS program in mathematics with a concentration in statistics students learn innovative mathematical, computational and statistical methods to analyze data sets as well as how to use data in real-world applications. Using data analytics, students discover how to generate insights that inform fact-based decision-making. They use cutting-edge techniques to study and understand methods of statistical inference and explore strategies for dealing with uncertainty.

\section*{Career Opportunities:}

Statistical analysis and data mining have been identified as two of the most desirable skills in today's job market. Based on factors like pay, growth and job satisfaction, statistics has been named in separate job reports as one of the best careers for millennials. Data and the analysis of data is big business, and the Department of Labor projects a 25 percent growth in the need for employees trained in data analytics. For students pursuing a bachelor's degree in mathematics with a concentration in statistics, that means an exciting future of career opportunities in fields as diverse as business, finance, engineering, technology, sports, marketing, government and other areas of the economy.

These are just a few of the top career paths you can pursue with a major in this bachelor's degree program:
- actuary
- data scientist
- financial analyst
- market research analyst
- software engineer
- sports statistician
- teacher or professor

Students also can combine statistics with other disciplines, such as business or economics, to enhance preparation for their personal career goals.

\section*{Microbiology, BS (LAMICBS)}

\section*{Campus: Tempe}

\section*{Program Description:}

The BS program in microbiology combines the study of the branch of biology involving the smallest of living things (bacteria, fungi, algae, protozoa and viruses) and immunology (the study of all aspects of the immune system). Despite their small size, microbes are fundamental to life on Earth and compose the majority of all Earth's life forms. In addition to their essential contributions to the natural world, microbes have been model
experimental subjects due to their impact on human health and ease of manipulation in the laboratory. A significant portion of medical research employs microbiological and immunological methods in order to examine basic genetic and biological phenomena

This program is available as an accelerated degree program. Students can visit this website to learn more about accelerated degree programs: https://sols.asu.edu/degree-programs/accelerated-bachelor-master-science.

\section*{Additional Program Fee: Y}

Second Language Requirement: N
First Required Math Course: MAT 251-Calculus for Life Sciences
or MAT 270 Calculus with Analytic Geometry I

Program Math Intensity: Moderate

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with: Biology, MS
Molecular and Cellular Biology, MS
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.

\section*{Career Opportunities:}

The microbiology degree program places emphasis on understanding microorganisms and their interrelationships with other organisms in nature and on the influence of microorganisms in biomedicine and biotechnology. Students in the microbiology degree program will study not only the background and current findings in the field of microbiology but also acquire the critical-thinking skills and the hands-on laboratory and field skills required to succeed in science. The major provides excellent training for premedical, predental, preveterinary and prepharmacy students as well as advanced study in microbiology and immunology.

The discipline of microbiology is diverse and the job opportunities for microbiologists are enormous. Graduates with a degree in microbiology have opportunities for employment in:
- government
- hospitals
- industrial laboratories (food, dairy, chemical, pharmaceutical, environmental and biotechnology companies)
- public health laboratories
- research laboratories

Many students are also suitably prepared for admission into graduate school and advanced study in these fields:
- dentistry
- medicine
pharmacy
- veterinary medicine

\section*{Microbiology (Medical Microbiology), BS (LAMICMBS)}

Campus: Tempe

\section*{Program Description:}

The medical microbiology concentration serves students in the microbiology BS degree program who aim to pursue careers in health professions, medical microbiology or other areas of biomedical research.

The curriculum aligns with the scientific competencies recommended for premed students in a report of the American Medical Colleges and the Howard Hughes Medical Institute Committee and are also reflected in the 2015 changes to the MCAT. Coursework includes many of the courses in the microbiology major, including chemistry, biochemistry, math and physics, but some microbiology courses have been replaced with cell biology, animal physiology and courses that relate to human biology and society.

The concentration program emphasizes core concepts, competencies and critical intellectual skills necessary to succeed in medical school or biomedical research. The coursework that students need to prepare for the MCAT or medical school admission are included in the concentration.

This program is available as an accelerated degree program. Students can visit this website to learn more about accelerated degree programs: https://sols.asu.edu/degree-programs/accelerated-bachelor-master-science

\section*{Additional Program Fee: \(Y\)}

Second Language Requirement: N

\section*{Career Opportunities:}

Upon completing the bachelor's degree program in microbiology with a concentration in medical microbiology, students will have fulfilled the
majority of prerequisite requirements and mastered many of the competencies valued by graduate programs in medical, dental and optometry fields and by programs which prepare students to be physician assistants or physical therapists. Additionally, graduates of this program will have a practical understanding of the process of science, preparing them for a career in research. Students will have knowledge of foundational concepts in biological sciences, chemistry, physics and statistics as well as the ability to understand and apply core microbiology concepts. This will prepare students to enter research in a number of areas including, but not limited to, cellular biology, immunology, bacteriology and virology.

\section*{Molecular Biosciences and Biotechnology, BS (LAMBBBS)}

Campus: Tempe

\section*{Program Description:}

The BS program in molecular biosciences and biotechnology encompasses many of the cutting-edge disciplines in life sciences research. Biotechnology is an exciting, rapidly growing field with major applications in agriculture (green biotechnology, leading to improved crops or production of vaccines in plants), health care (red biotechnology, leading to better therapeutics, diagnostics and personalized medicine) and industry (white biotechnology, leading to sustainable production of energy, enzymes and chemicals).

This molecular biosciences and biotechnology degree program is differentiated from the other life sciences majors by its focus on the interface between molecular biology and biotechnology. The interface drives many major advancements in knowledge and in applied research and development, like the development of next-generation biomedical products or biofuels. Other hallmarks of this program are the focus on hands-on research and the capstone course with both science and business or entrepreneurial components.

This program is available as an accelerated degree program. Students can visit this website to learn more about accelerated degree programs: https://sols.asu.edu/degree-programs/accelerated-bachelor-master-science.

\section*{Additional Program Fee: Y}

Second Language Requirement: N

\section*{Career Opportunities:}

The molecular biosciences and biotechnology degree program provides an excellent background and training for a growing number of careers that incorporate this innovative area of the molecular life sciences. Independent research and courses with classroom plus lab components result in a solid base of knowledge and practical expertise in biotechnology and the molecular biosciences, providing many options for further education or for entering the workforce.

After graduation, many molecular biosciences and biotechnology students enter graduate programs in a molecular biosciences and biotechnologyrelated area. A number of students also enroll in medical school, other health-related professional programs or in other advanced programs. Students also have the knowledge and technical skills to enter the biotechnology workforce in an area matching their expertise and interest.

The molecular biosciences and biotechnology program has a faculty mentoring program which provides students with the opportunity to speak with faculty regarding career choices, selection and timeline of major courses and of independent research projects, and much more.

Neuroscience, BS (LABMENBS)
Campus:

\section*{Program Description:}

Neuroscience is concerned with understanding the structure and function of the nervous system and their relation to behavior. The field spans all
levels of biological analysis with interfaces to many fields such as mathematics, law and engineering.

The BS degree program in neuroscience consists of rigorous, in-depth training in cellular, molecular, and systems biology. With this broad depth of fundamental knowledge, students gravitate toward different areas of specialization in neuroscience. Students are prepared for collaborative and interdisciplinary research and teaching positions in neuroscience. The degree program also enable students to enter biomedical fields that prepare students for careers in medicine, nursing or veterinary medicine and to integrate innovative outcomes from the research community into their practices.

Additional Program Fee: N
Second Language Requirement: N
First Required Math Course: MAT 251 - Calculus for Life Sciences or MAT 265 or MAT 270

Program Math Intensity: Moderate

\section*{Philosophy, BA (LAPHIBA)}

Campus: Tempe, Online

\section*{Program Description:}

The BA program in philosophy teaches students how to think well, which in turn lays the foundation for personal and professional success. Philosophy students learn how to structure arguments, write precisely and clearly, and communicate their ideas in an orderly, persuasive and unambiguous way. Many philosophical texts are complicated, and philosophy courses teach students how to read, comprehend and summarize conceptually difficult material. In short, studying philosophy trains one to be a better, clearer thinker.

Coursework includes the major subfields of philosophy such as metaphysics, epistemology and ethics as well as electives that connect philosophy to other areas of inquiry and emphasize the social relevance of philosophy. Philosophy alumni are well-prepared for leadership roles in whatever path they take, whether it be in business, law, politics, medicine or education.

\section*{Additional Program Fee: N}

Second Language Requirement: Yes
First Required Math Course: MAT 142-College Mathematics
Program Math Intensity: General

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)

Philosophy (Morality, Politics and Law), BA (LAPHIMPBA)
Campus: Tempe, Online

\section*{Program Description:}

The BA degree program in philosophy with a concentration in morality, politics and law combines the basic analytical approaches of philosophy with
an emphasis on the moral questions that arise in political theory and law. The foundations of our political and legal systems are moral values, such as individual liberty, equality and justice. These are contested values, open to different understandings of their nature and implications.

Students explore the nature of morality, political theory, legal theory and the interconnections between them. Students complete philosophy courses as well as courses from disciplines related to philosophy to enrich and enliven their understanding of the intersections of morality, politics and law. This degree program is of special interest to students planning to pursue postgraduate work in law, policy or politics.

\section*{Physics (Secondary Education), BS (LAPHYSEBS)}

Campus: Tempe

\section*{Program Description:}

The BS program in physics with a concentration in secondary education provides rigorous training in physics and in education. Physics is the cornerstone of STEM disciplines --- science, technology, engineering and mathematics --- and the shortage of highly qualified physics teachers in every state is an ongoing problem. This concentration is designed to produce more and better-qualified physics teachers to meet local and national needs. Students who graduate from this program are recommended by the Mary Lou Fulton Teachers College for certification by the State of Arizona.

\section*{Career Opportunities:}

Fewer than half of in-service physics teachers have degrees in physics. Program graduates have tremendous opportunities for employment. With more than one million students in a state ranked seventh in the nation in population growth, the need for certified teachers in Arizona is self-evident. During the last 15 years, ASU graduates have had their pick of teaching jobs around the valley and in the state. After student teaching in school districts in the greater Phoenix area or with one of the 22 Native American nations in Arizona, students are often hired to teach in the same school where they completed their internship. As the predicted rate of population growth climbs and the number of teachers retiring increases, new teachers continue to be in demand.

\section*{Political Science, BA (LAPOSBA)}

Campus: Tempe, Online

\section*{Program Description:}

Political science is the study of how citizens interact with their governments and how governments at all levels formulate policies to serve their citizens.

The BA program in political science offers a variety of courses and opportunities to study politics and policies at the local, national and global levels. The program aims to provide students with the tools and skills necessary to link theory with real-world problems and issues. By combining coursework in several areas of political science with broad exposure to ASU's liberal arts offerings, the Bachelor of Arts degree in political science aims to produce well-rounded learners with the research and writing skills useful for success in political or governmental careers, law school, graduate study, business or the nonprofit sector.

First Required Math Course: MAT 142 - College Mathematics
Program Math Intensity: General

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Political Science, MA
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-political-science?utm_source=asu\&utm_medium=degree-search\&utm_campaign=asu)

\section*{Change of Major Requirements:}

A current ASU student has no additional requirements for changing majors. Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select
where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Career Opportunities:}

Many graduates of this degree program have found positions in:
- Arizona governor's office
- Federal Reserve
- foreign service
- judiciary branches of government
- local and national newspapers
- local, national and global nonprofit organizations
- local, state and national government
- multinational corporations

In addition, some graduates have gone on to other top-tier graduate and professional schools. These students have found a range of employment opportunities in the fields of:
- communication
- education
- foreign service
- journalism
- law
political science
- public service

\title{
Politics and the Economy, BS (LAPECBS)
}

Campus: Tempe

\section*{Program Description:}

The BS program in politics and the economy prepares students for careers that require a sophisticated understanding of the relationship between politics and the economy. This degree is a response to the growing recognition that many of the world's most pressing problems (e.g., growth and development, tax reforms and climate change) are fundamentally political and economic problems. The program combines core courses in economics and political science. Utilizing the strengths of both the Department of Economics and the School of Politics and Global Studies, students graduate with strong quantitative and modeling skills and a rich understanding of political context.

\section*{Additional Program Fee: N}

Second Language Requirement: N
First Required Math Course: MAT 210 - Brief Calculus
Program Math Intensity: Moderate

Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

According to external forecasters of employment growth (U.S. Department of Labor and the U.S. News \& World Report), job opportunities for graduates of the politics and the economy degree program are expected to grow as fast or faster than the average growth of the labor force. They note that the demand for graduates grounded in economics and political science is driven by the growing complexity of the global economy, the increased implementation of financial regulations in wealthier nations, and the growing competitiveness of the business environment. In terms of specific sectors, undergraduates are well-prepared for entry positions in government at all levels (local, state and federal), business, economic and political consulting, and law. They are also prepared to pursue advanced degrees in law, business, economics or political science.

\section*{Psychology, BA (LAPGSBA)}

Campus: Tempe

\section*{Program Description:}

In the Psychology BA degree program at ASU's Tempe campus, students use scientific methodology to explore fundamental questions about the brain, mind and behavior. Students work with faculty and other psychology majors in a collaborative, diverse environment in coursework, research and other engagement activities to explore such fascinating questions as whether robots can explain how we field in baseball; what effects stress and emotions have on adolescent adjustment; how humans recognize and regulate emotions; how body image relates to eating disorders; how chronic stress affects the brain; how evolution shapes our choice of partner; and what the physical and psychological consequences of substance abuse might be in adolescents.

\section*{Additional Program Fee: Y}

Second Language Requirement: Yes
First Required Math Course: MAT 170-Precalculus
Program Math Intensity: Moderate

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Transfer Admission Requirements:
Transfer applicants must meet university transfer admission requirements.

\section*{Change of Major Requirements:}

A current ASU student has no additional requirements for changing majors. Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change the major to this program.

\section*{Psychology (Psychological Science), BS (LAPGSPSBS)}

Campus: Tempe

\section*{Program Description:}

The BS program in psychology with a concentration in psychological science emphasizes critical-thinking and analytic and quantitative skills involved in psychological research to prepare students for graduate study. Students take advanced coursework in statistics and receive hands-on research experience by working with faculty members in the laboratory. Students are exposed to theories and research, addressing questions such as how people can use social influence to increase compliance; how children develop; how people remember information over long periods of time; how the mind and body react to stress; and, which types of treatment are most effective for individuals who are depressed.

\section*{Additional Program Fee: Y}

\section*{Religious Studies, BA (LARELBA)}

Campus: Tempe, Online

\section*{Program Description:}

Religion is an important part of most human experience. Religious understanding informs and shapes politics, literature, philosophy, art and science as well as the daily life of millions around the globe. An understanding of religious traditions is critical to understanding our shared past and present and to navigating toward our shared future.
many find fascinating and exciting about religious studies is that it draws from a wide variety of disciplines --- history, philosophy, anthropology, literature, political science and theology, to name a few. Course offerings reflect a diversity of approaches (historical, anthropological, ethical and theological); regions (North America, South America, Europe, Middle East, Africa, South Asia and Southeast Asia) and traditions (Buddhism, Christianity, Hinduism, Islam, Judaism and Native American traditions).

Additional Program Fee: N

\section*{Religious Studies (Religion, Culture and Public Life), BA (LARELCPBA)}

Campus: Tempe, Online

\section*{Program Description:}

The BA program in religious studies with a concentration in religion, culture and public life approaches religion as a mode of human culture, as it is constituted in intellect, language, emotion, practice, art and everyday life. The program focuses on the role religions play in the formation of cultural identities, traditions, norms and memories, and it examines in particular the impact religions have on culturally specified ways people reason, communicate, socialize, work, entertain, dress, eat, live and die. Special consideration is given to the influence of religion on gender roles and sexual norms, the formation of images of the body and the moral assessment of medical practices, and the reflection and reproduction of religion in film, popular culture, and conventional, digital and social media.

The concentration will address present-day interests and prepare students for jobs in a variety of professions, including education, journalism, media studies, gender studies, health care, politics, law, education, migration and international studies.

Additional Program Fee: N
Second Language Requirement: Yes
First Required Math Course: MAT 142-College Mathematics
Program Math Intensity: General

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. Religious Studies (Religion, Politics and Global Affairs), BA (LARELPGBA)
Campus: Tempe

\section*{Program Description:}

The BA program in religious studies with a concentration in religion, politics and global affairs considers how the study of religion expands our understanding of political culture, communal formation, governance, nationalism, statehood and citizenship in both domestic and global contexts. The program explores the role religion has in shaping political values, social movements, civic organizations and communal norms, with particular attention on how religion impacts issues of health, the environment, migration, peace, conflict, violence, and various issues of social justice. Special consideration is given to the religious intersections of nationality, ethnicity, race, gender and other vital facets of human community and identity.

\section*{Russian, BA (LARUSBA)}

Campus: Tempe

\section*{Program Description:}

The BA program in Russian offers students a unique opportunity to study the language, literature and culture of Russia. Students in the program gain intermediate to advanced reading, writing, oral and aural Russian language skills.

The Russian language program also partners with the Melikian Center to offer a transdisciplinary baccalaureate certificate in Russian, Eurasian and East European Studies for students in agribusiness, anthropology, architecture, economics, geography, history, political science, religious studies, Russian, sociology and women's studies.

Students of Russian are encouraged to take advantage of an ASU exchange program in Russian language and translation by spending a semester or year in Moscow, St. Petersburg or Kazan. For more information, students should visit https://mystudyabroad.asu.edu/ (https://mystudyabroad.asu.edu/).

Despite the fall of the Soviet Union, Russia has remained an active player in world affairs. Russia's continued presence on the current international stage makes knowledge of Russian language and culture a valuable asset for students interested in government, diplomacy and international affairs and commerce. Knowledge of multiple languages and intercultural competencies enhance any occupation and offers graduates many career opportunities.

Career fields and occupations using languages include:
- administration of nongovernmental organizations
- advertising and marketing
- airlines
- cultural advisor
- diplomatic and foreign service
- domestic and international business
- film, television and multimedia
- foreign correspondent and journalist
- hotel and resort management
- intelligence
- international banking
- international education and study abroad administration
- international law
- interpreting and translation
- medicine and health professions
- military
- ministry
- public relations
- publishing
- social work
- teaching and research
- travel and tourism
- technology industries

Additional education and certification may be required for some career paths.

\section*{Sociology, BS (LASOCBS)}

Campus: Tempe, Online

\section*{Program Description:}

Sociology is the study of social life, social change and the social causes and consequences of human behavior. The BS program in sociology offers courses on contemporary social issues that range from crime to population trends. Sociology courses also explore social institutions such as family, education, religion and the workplace. Students develop proficiency in written communication, computer skills, statistical analysis and research methodology.

\section*{Spanish, BA (LASPABA)}

Campus: Tempe, Online

\section*{Program Description:}

Students pursuing a BA degree in Spanish have the opportunity to gain reading, speaking and writing proficiency in the language. The Tempe campus program offers two study options: the Spanish linguistics track and the Spanish literature and culture track.

The linguistics track provides an in-depth understanding of the Spanish language (syntax, morphology) while the literature and culture track addresses historical and contemporary issues throughout the Spanish-speaking world as seen through the lenses of Spanish language, and Latin American and Mexican American culture and literature.

A Bachelor of Arts degree in Spanish is also available for ASU Online students; it combines courses from both the linguistics track and the literature and culture track.

Students majoring in Spanish also may work toward a professional certificate in Spanish-to-English translation.

Students are encouraged to contact a school advisor to discuss which option is best for them. Throughout the year, through study abroad and exchange programs, ASU offers opportunities to study in Spain, Mexico and other countries in which Spanish is spoken. More information regarding study abroad opportunities is available at https://mystudyabroad.asu.edu/ (https://mystudyabroad.asu.edu/).

Additional Program Fee: N
Second Language Requirement: Yes

\section*{Transborder Chicana/o and Latina/o Studies (Media and Expressive Culture), BA (LATCLMBA)}

Campus: Tempe

\section*{Program Description:}

The BA program in transborder Chicana/o and Latina/o studies focuses on the political, cultural, economic, sociological, historical, psychological and artistic experiences of Mexican-origin and Latina/o populations in the United States and the U.S.-Mexico transborder region. Students explore the complexities of the Chicana/o and Latina/o experience on the U.S.-Mexico border and beyond, with implications for other border communities around the world.

In the media and expressive culture concentration, students focus their study on the cultures of Latina/o communities. Students learn about the cultural diversity of Chicana/o, Mexican, Puerto Rican, Cuban, Dominican, Central American and other Latina/o populations in the United States and their contributions to the arts by analyzing:
- film and the media
- history
- literature (novels, short stories, poetry)
- performance
- visual art

Additional Program Fee: N
Second Language Requirement: Yes
First Required Math Course: MAT 142-College Mathematics
Program Math Intensity: General

\section*{Concurrent Degrees:}

This degree is also offered as concurrent degree program with Journalism and Mass Communication, BA

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Concurrent degree admission requirements:

Freshman applicants must meet all of the following standards:
- 3.75 minimum ABOR GPA
- no English competency deficiencies
- 1040 SAT Reasoning or 22 ACT score

Transfer Admission Requirements:
Transfer students must have a minimum cumulative GPA of 3.00 from a transfer institution.

\section*{Change of Major Requirements:}

A current ASU student has no additional requirements for changing majors. Students should see https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

ASU students who would like to change their majors to the concurrent program with journalism and mass communication must have at least a 3.00 cumulative GPA in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's nonelective general studies requirements.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Transborder Chicana/o and Latina/o Studies (Transborder Community Development and Health), BA (LATCLTBA)}

Campus: Tempe

\section*{Program Description:}

The BA degree program in transborder Chicana/o and Latina/o studies focuses on the political, cultural, economic, sociological, historical, psychological and artistic experiences of Mexican-origin and Latina/o populations in the United States and the U.S.-Mexico transborder region. Students will be able to understand the complexities of the Chicana/o and Latina/o experience on the U.S.-Mexico border and beyond, with implications for other border communities around the world.

In the transborder community development and health concentration students will focus their learning on the health inequalities and issues affecting Mexican-origin, Chicana/o and Latina/o communities. Students will also develop an understanding of the relationship between the places where people live, play, work and heal and the impact they have on people's health and well-being. Overall, students will be able to design, implement and evaluate community-based health programs.

\section*{Additional Program Fee: N}

Second Language Requirement: Yes
First Required Math Course: MAT 142-College Mathematics
Program Math Intensity: General

\section*{Concurrent Degrees:}

This degree is also offered as concurrent degree program with Journalism and Mass Communication, BA

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)

Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
Concurrent degree admission requirements:

Freshman applicants must meet all of the following standards:
- 3.75 minimum ABOR GPA
- no English competency deficiencies
- 1040 SAT Reasoning or 22 ACT score

Transfer Admission Requirements:
Transfer students must have a minimum cumulative GPA of 3.00 from a transfer institution.

\section*{Change of Major Requirements:}

A current ASU student has no additional requirements for changing majors. Students should see https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

ASU students who would like to change their majors to the concurrent program with journalism and mass communication must have at least a 3.00 cumulative GPA in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's nonelective general studies requirements.

\section*{Transfer Agreements}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

\section*{Urban Planning, BSP (ARPUPBSP)}

Campus: Tempe, Online

\section*{Program Description:}

Urban planning is shaping the way our cities, states and communities operate, how people navigate the globe, and how cities are planned for success. Urban planners guide communities in making wise decisions about their use of land and resources. The BSP program in urban planning provides students with expertise in both the analysis and the synthesis of the physical, social, political and economic issues that shape urban and regional development. Planning includes:
- computer and research methods
- environmental impact assessment
- geographic information systems
- housing
- landscape architecture and urban design
- planning and zoning law
- public policy formulation and administration
transportation
- urban and development economics
- utilities

Students take courses that include:
- comprehensive planning
- computer and analytical methods
- planning law
- public policy formulation and administration
- site planning
- socioeconomic and environmental analyses
- urban design

\section*{Career Opportunities:}

Graduates in urban planning pursue career opportunities with private planning firms and governmental planning agencies, mainly at the city level, but also with county, state and federal entities. Some planners elect to pursue graduate degrees to develop specialty skills and to enhance their opportunities for career advancement. The urban planning degree, especially when combined with a focus on geographic information science, gives graduates an advantage in careers that combine urban planning with GIS and in other jobs dealing with urban issues, including:
- comprehensive and long-range planning
- economic development planning
- housing issues
- planning law
- public participation in the planning process
- socioeconomic and environmental analyses
- sustainable planning
- transportation

Community Health, BS (NUCHLTBS)
Campus: Downtown Phoenix, West, Online

\section*{Program Description:}

The BS program in community health is designed for students who want to create healthy, sustainable communities. Changes to the health care system call for an increased number of community health professionals who can advocate for individuals, families and communities as well as provide health education services. Graduates of this program provide health education, health promotion, care coordination, disease management, health care navigation and advocacy services for individuals, families, and communities.

This degree program has the same prerequisites as the nursing major; therefore, students may transition seamlessly to this program and obtain a bachelor's degree in a health-related field.

\section*{Health Care Coordination, BS (NUHCCOBS)}

Campus: Downtown Phoenix, West, Online

\section*{Program Description:}

The BS program in health care coordination prepares students to effectively coordinate resources to optimize individual health outcomes.

Through coursework, students build a thorough understanding of health care systems, community and public health, community resources, health education and health advocacy.

This degree program uses the same prerequisites as the nursing major; therefore, students may transition seamlessly to this program and obtain a bachelor's degree in a health-related field.

\title{
Health Innovation, BS (NUHCIBS)
}

Campus: Downtown Phoenix, West, Online

\section*{Program Description:}

With a focus on transdisciplinary experiences, the BS program in health innovation provides students with a broad background in the principles of innovation, leadership, complexity science, change theory, collaboration and evidence-based decision-making to prepare graduates to manage implementation of innovation in the health care arena.

This unique program situates students at the intersection of innovation and entrepreneurship in health and healing.

\section*{Integrative Health, BS (NUIHLTBS)}

\author{
Campus: Downtown Phoenix, West, Online
}

\section*{Program Description:}

The BS program in integrative health provides a foundation in integrative health, a holistic approach to wellness that focuses on the mind, body and spirit. The program provides students with a foundation of innovative and interprofessional approaches to serving and supporting diverse populations.

Students learn to differentiate the ethics, legalities and standards of practice of integrative health and to think critically about different therapies, modalities and practitioners. Coursework and experiences include an emphasis on research and evidence-based practices and gaining an understanding of the historical and cultural foundations of the integrative health field.

This degree has the same prerequisites as the nursing major; therefore, students may transition seamlessly to this program and obtain a bachelor's degree in a health-related field.

Nursing and Health Innovation, College of College of Nursing and Health Innovation https://nursingandhealth.asu.edu/integrative-health

\section*{Nursing, BSN (NUNURDBSN)}

\author{
Campus: Downtown Phoenix, The Gila Valley, Online
}

\section*{Program Description:}

Through a curriculum centered upon evidence-based practice, clinical reasoning, innovation, interprofessional communication and information technology, the BSN degree program prepares students to provide high-quality professional nursing care. The Bachelor of Science in Nursing may be earned through several unique pathways.

Prelicensure Nursing Programs:

The College of Nursing and Health Innovation offers two prelicensure tracks that lead to a Bachelor of Science in Nursing: the traditional prelicensure clinical nursing program and the postbaccalaureate clinical nursing program.

Students pursuing advancement to the traditional prelicensure clinical nursing program complete prerequisite coursework and request advancement to the upper-division nursing program. The upper-division nursing program may be completed in a 16-month year-round schedule or a 24 -month academic year schedule. Students admitted directly into a traditional prelicensure clinical nursing program must meet continuing eligibility criteria to advance to the upper-division nursing program. Directly admitted nursing students who do not meet continuing eligibility criteria, transfer students, or students who are changing majors may apply for advancement to the upper-division nursing program, competing for any remaining spaces.

Students pursuing advancement to the postbaccalaureate clinical nursing program complete prerequisite coursework and apply for advancement to the 12-month upper-division clinical nursing program. Students are admitted to the postbaccalaureate nursing program annually in the spring semester.

\section*{Online RN to BSN program}

The online RN to BSN program (https://bsn.asu.edu (https://asuonline.asu.edu/rnbsn?utm_source=nursingjournal\&utm_medium=print\&utm_campaign=Now2)) is available to students who have earned an associate degree in nursing or a nursing diploma and have a current RN license in good standing with the Board of Nursing. The RN to BSN program courses are offered online in \(7.5-w e e k\) sessions and can be completed in 14 to 24 months. There are five starts per year: twice in the fall, twice in the spring, and once in the summer. Assignments vary from course to course and may include readings, papers, presentations and practice application activities completed in the student's geographic area. Transfer pathway agreements are in place with all community colleges in Arizona, which provide additional benefits to students. The RN to BSN program does not have approval from the Boards of Nursing in Tennessee, Rhode Island or Washington to be offered to RNs licensed in those states. More information can be found at https://bsn.asu.edu (https://asuonline.asu.edu/rnbsn?utm_source=nursingjournal\&utm_medium=print\&utm_campaign=Now2).

\section*{Concurrent Enrollment Program}

The concurrent enrollment program pathway is offered through participating community colleges. This program is designed for qualified nursing students who are interested in earning their Bachelor of Science in Nursing while simultaneously pursuing their AAS in nursing. Selected students will be enrolled in the community college program and ASU RN to BSN courses concurrently. RN to BSN courses taken at ASU will be delivered in an online format.

\section*{Eastern Arizona College Partnership}

The ASU and Eastern Arizona College partnership has two options: the concurrent enrollment program and the RN to BSN. The concurrent enrollment program is designed for qualified students pursuing an Associate of Applied Science in nursing from EAC while simultaneously earning a Bachelor of Science in Nursing from ASU. Another option allows students with an associate degree or diploma in nursing to pursue the ASU BSN at Eastern Arizona College on the Thatcher campus. Courses in this program are delivered in a hybrid format.

Students should see https://transfer.asu.edu/thegilavalley (https://transfer.asu.edu/thegilavalley) for more information about ASU degrees offered through ASU@TheGilaValley (mailto:ASU@TheGilaValley).

Additional Program Fee: \(Y\)
Second Language Requirement: N
First Required Math Course: MAT 142-College Mathematics
Program Math Intensity: General

\section*{Admission Requirements:}

General University Admission Requirements:

All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
The admission standards for majors in the College of Nursing and Health Innovation are higher than minimum university standards. Freshmen admission requirements: top 25 percent of high school graduating class OR 3.30 GPA in ASU competency courses (based on 4.00 grading scale) AND either a 24 ACT combined score OR an 1100 SAT (prior to March 2016) or 1170 SAT (March 2016 and later) combined evidence-based reading and writing plus math score.

Freshmen should select an additional major when applying for admission.

English language proficiency for applicants whose native language is not English:
- minimum score of 540 (paper-based), 207 (computer-based), or 76 (Internet-based) on the Test of English as a Foreign Language (TOEFL)
- minimum overall band of 6.5 with no band below 5.5 on the International English Language Testing System (IELTS).

Students not admissible directly to the BSN Nursing program will be placed into the BS program in community health.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (https://asuonline.asu.edu/degree-programs/undergraduate/bachelor-science-nursing-rn-bsn?utm_source=asu\&utm_medium=degree-search\&utm_campaign=asu)

\section*{Change of Major Requirements:}

Current ASU students interested in changing to this program would need to apply for the upper division clinical nursing program through an advancement application process. Space is limited, and selection is based upon GPA and score earned on the Test of Essential Academic Skills. Students should contact an advisor in the College of Nursing and Health Innovation for more information on how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

Transfer from a Maricopa Community College in Arizona:

\section*{Applied Science (Emergency Management), BAS (PPEMGBAS)}

Campus: Downtown Phoenix

\section*{Program Description:}

The BAS program with a concentration in emergency management is a flexible, 60 credit hour degree program. The curriculum is designed specifically for students who have earned an AAS from a regionally accredited institution. The required capstone class provides experience to students through coordinated internships.

In cooperation with the Arizona Division of Emergency Management, ASU hosts and maintains Arizona's Alternate State Emergency Operations Center on the Polytechnic campus. This contextual learning laboratory is used for demonstrating practical applications of theory taught within the Bachelor of Applied Science curricula as well as providing a platform for conducting exercises and demonstrations of emerging technologies in emergency management.

Students applying to this program must have completed an Associate of Applied Science from a regionally accredited institution. This program is not available to freshmen.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Additional Program Fee: N
Second Language Requirement: N
First Required Math Course: MAT 142-College Mathematics
Program Math Intensity: General

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree from a regionally accredited institution. This program is not available for freshmen.

\section*{Change of Major Requirements:}

A current ASU student must have completed an Associate of Applied Science from a regionally accredited institution to change to this major. Students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change the major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. If you do not see your state or institution listed, please check back as we are always working on creating new partnerships.

Community Advocacy and Social Policy, BA (PPCASPBA)
Campus: Downtown Phoenix, West, Online

\section*{Program Description:}

The BA program in community advocacy and social policy focuses on advocacy strategies through an in-depth exploration, analysis and comparison of social service systems and policies from an empowerment perspective. Examining the needs of individuals, families and
communities that have been historically under-served is the program emphasis. Policy analysis and social change are critical themes in developing an advocacy knowledge base as are the equally important themes of prevention and social well-being. Students complete courses in two core areas: diversity and oppressed populations and social issues and interventions.

\section*{Community Sports Management, BS (PPCSMBS) \\ Campus: Downtown Phoenix}

\section*{Program Description:}

The BS program in community sports management focuses on the many roles recreational and amateur sports play within a community as a mechanism to contribute to quality of life, domestically and abroad. The program has been designed to study the role of sports in youth development, the role of sports organizations and programs in community development, the impact of sports tourism and multisport events on community development and the role of sports in delivery of nonprofit agency services. Both a program and a managerial emphasis are targeted, with a focus on delivery of services across the lifespan. Some specific areas of opportunity include work with youth sports, adaptive sports, sports events, sports tourism and sports clubs.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Criminology and Criminal Justice, BS (PPCRIMJBS)}

Campus: Downtown Phoenix, West, Lake Havasu, Yuma, Online

\section*{Program Description:}

Students interested in completing the BS program in Yuma are encouraged to complete a TAG program. Admission requirements are below.

The criminology and criminal justice program is for students who want to understand the causes of crime, the role of criminal justice agencies in the control of crime and the consequences of crime. They will learn sociological, psychological, biological and economic explanations for individual crime as well as differences in crime across neighborhoods, states, countries and over time. They will learn about the history, legal issues and current practices of crime control via police agencies, the court system, prisons, probation and parole.

These topics are delivered by top-ranking research faculty who offer students hands-on research opportunities and by experienced criminal justice professionals with intimate knowledge of the daily realities of crime and criminals. Students are encouraged to take advantage of internship opportunities in more than 200 agencies, study abroad programs, and flexible course scheduling offered in-person, online and across multiple campuses.

Additional Program Fee: N

First Required Math Course: MAT 142 - College Mathematics
Program Math Intensity: General

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with:
Criminal Justice, MA
Criminology and Criminal Justice, MS
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Transfer Admission Requirements:
Yuma Students: ASU has a pathway that allows students to complete the ASU Transfer Admission Guarantee in criminology and criminal justice, a prescribed sequence of courses that meets the requirements for the community college's Associate of Arts degree and the lower-division requirements for the ASU Bachelor of Science in criminal justice and criminology. Upon completion of the TAG, students will complete the remaining requirements for ASU's bachelor's degree program. Visit https://transfer.asu.edu (https://transfer.asu.edu/) for more information about ASU degrees offered at local community colleges.

This program may also accept transfer credit in lieu of a TAG agreement. Please contact the department for details.

\section*{Nonprofit Leadership and Management, BS (PPNLMBS)}

Campus: Downtown Phoenix

\section*{Program Description:}

Through the BS program in nonprofit leadership and management, students are empowered to become successful professionals who work to advance the quality of life in communities. The nonprofit sector in the United States is unique in form and function. This sector includes institutions and individuals situated between government, public, business and commerce sectors. It is this sector, with more than 1.6 million organizations in the U.S., that employs more people than the finance, insurance and real estate industries combined.

Philanthropy (voluntary action for the public good) is a hallmark of the nonprofit sector as individuals give their time, money and know-how to causes about which they care. Students in the nonprofit leadership and management program learn about the nonprofit sector through curriculum instruction and field experience. The required internship component of the program leads students to professional opportunities within the nonprofit sector. Within the undergraduate degree requirements, students also may choose to pursue the National Certified Nonprofit Professional credential through ASU's affiliation with the Nonprofit Leadership Alliance (formerly American Humanics, Inc.). For more information, students should access the school's website.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Depending on their interests, graduates seek work in diverse settings that include a wide range of missions, including arts and culture, environmental, health, youth development, etc. Some graduates find employment with local, grassroots, direct-service nonprofits while others find work with grant-making foundations. Many work in affiliates of well-known national organizations such as:
- American Red Cross
- America's Second Harvest
- Humane Society of the United States
- March of Dimes
- National Urban League
- United Way
- youth-serving entities such as Big Brothers Big Sisters, Boys and Girls Clubs, Boy Scouts of America, Girl Scouts of the USA, Camp Fire USA and the YMCA of the USA

Increasing opportunities in the nonprofit sector include careers across the spectrum of community issues such as the arts, environment, health care and others. Typical positions include roles as:
- field executives
- fund development directors
- program directors
- program officers for grant-making organizations
- volunteer program managers

\section*{Nonprofit Leadership and Management (American Indian Studies), BS (PPNLMAIBS) \\ Campus: Downtown Phoenix}

\section*{Program Description:}

Through the BS program in nonprofit leadership and management, students are empowered to become successful professionals who work to advance the quality of life in communities. The nonprofit sector in the United States is unique in form and function. This sector includes institutions and individuals situated between government, public, business and commerce sectors. Students in the nonprofit leadership and management program learn about the nonprofit sector through curriculum instruction and field experience. Many students in the nonprofit sector work with American Indian populations. The concentration in American Indian studies familiarizes students with American Indian worldviews, current issues and tribal governance.

The required internship component of the program leads students to professional opportunities within the nonprofit sector. Students also may choose to pursue the National Certified Nonprofit Professional credential through ASU's affiliation with the Nonprofit Leadership Alliance.

\section*{Parks and Recreation Management, BS (PPPRMBS)}

Campus: Downtown Phoenix

\section*{Program Description:}

The BS program in parks and recreation management provides a transdisciplinary education in the management of parks, protected areas, community-based recreation services and special-event management. The parks and recreation field emerged from the youth development, recreation and park movements of the late 19th century. Students learn to integrate the managerial, natural and social sciences to make informed decisions for recreation service delivery.

The curriculum of classroom instruction and field experiences covers:
- communication
- history
- inclusive services
- management
parks and recreation policy
- planning
- programming

The required internship component of the program allows students to gain practical experience in the parks and recreation professions. The bachelor's degree program in parks and recreation management prepares students for professional positions in a variety of public, private and nonprofit organizations. The National Recreation and Park Association accredits this degree program. There are three areas of emphasis:
- community recreation services management
- natural resource recreation management
- special event management

Students interested in the Bachelor of Science in parks and recreation management also may be interested in the school's therapeutic recreation program. Students should see the school website for details.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Public Service and Public Policy, BS (PPPAFBS)}

\author{
Campus: Downtown Phoenix, Online
}

\section*{Program Description:}

The BS program in public service and public policy prepares students for work in government at all levels and in nonprofit organizations through comprehensive coverage of topics in public policy, public leadership and management, and urban studies.

Students discover the challenges of management and learn how to lead a public organization and understand the process of policy development. This program examines the public sector and addresses, in a practical way, the challenges facing the public. The program is unique because it enables students to study public service, policy and administration with a professional focus.

Students select one of the following concentrations or focus areas to supplement their core courses:
- American Indian studies
- business
- criminology
- emergency management
- health policy
- law and policy
- nonprofit leadership and management
- parks and recreation management
- public leadership and management (focus area)
- public policy (focus area)
- science and technology
- social services delivery
- sustainability
- urban studies (focus area)

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. \section*{Career Opportunities:}

The program is primarily focused on individuals working in or interested in working in the public sector. The skills and knowledge the students acquire in the program will allow them to successfully function in many other types of organizations as well; however, the primary focus is on public organizations. This bachelor's degree program in public service and public policy prepares students for entry- and mid-level supervisory and managerial positions in city, county, state and federal agencies. For those who already have work experience, the degree provides further opportunity for promotion.

The business concentration prepares students with an interest in policy to focus on business issues and their policy implications.

\section*{Public Service and Public Policy (Criminology), BS (PPPAFCBS)}

Campus: Downtown Phoenix

\section*{Program Description:}

The School of Public Affairs offers a concentration in criminology as part of the BS in public service and public policy. Criminology continues to be a highly sought-after area and it presents broad policy implications for future public sector professionals. The concentration program introduces students to the fundamental foundations in criminal justice and criminology by preparing them to think critically, contribute to society and enhance public safety.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Additional Program Fee: N
Second Language Requirement: N
First Required Math Course: MAT 142-College Mathematics
Program Math Intensity: General

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with:
Public Administration (Emergency Management), MPA
Public Administration (NonProfit Administration), MPA
Public Administration (Public Finance), MPA
Public Administration (Urban Management), MPA
Public Administration - Downtown Phoenix, MPA
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

\title{
Public Service and Public Policy (Emergency Management and Homeland Security), BS (PPPAFEHBS)
}

Campus: Downtown Phoenix, Online

\section*{Program Description:}

The School of Public Affairs offers a concentration in emergency management and homeland security as part of the BS in public service and public policy. This concentration program provides students with the skills and knowledge to manage and assume positions of leadership within the field of emergency management and homeland security. Concepts of public policy and management are blended together with emergency management principles to enhance and foster critical thinking within the general field of study. More specifically, the program's focus provides the student with a comprehensive perspective which is critically important for today's and tomorrow's disaster managers.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

The program is primarily focused on providing students with the knowledge and skills required for entry- and mid-level supervisory and managerial positions in the public sector, such as city, county, state and federal agencies, though they would successfully function in many other types of organizations as well. For those who already have work experience, the degree provides further opportunity for promotion. In addition, the program prepares students for future graduate study in law, public policy and public administration.

Retiring baby boomers, along with increasing demand for public services, has resulted in an increase in job opportunities for graduates in the public sector. The federal government is the nation's largest employer with nearly two million people employed across the country, and nearly 85 percent of those jobs exist outside the Washington, D.C. area. The federal government is anticipated to hire tens of thousands of new employees for mission-critical positions in the next few years. Students with preparation in academic areas related to public service will have an advantage in that market.

\section*{Public Service and Public Policy (Health Policy), BS (PPPAFHPBS)}

Campus: Downtown Phoenix

\section*{Program Description:}

The School of Public Affairs offers a concentration in health policy as part of the BS in public service and public policy. This program allows students to build a course of study that emphasizes their own areas of interest. The health care industry is continuing to be a major part of the U.S. and world economy.

The concentration in health policy provides students who have an interest in policy to focus on health-related issues and their policy implications. The courses in the concentration are offered by the School of Nutrition and Health Promotion and the School of Human Evolution and Social Change. All the courses are part of the college's regular degree offerings. Thus, students emerge from the program prepared to address policy issues in this substantive area with an understanding of the range of public service careers (including government, nonprofit and for-profit options), the economics of public affairs, the challenge of leadership in the public context, and the dynamics of administering public programs.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program

Yavapai College(https://transfer.asu.edu/tag)

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

The program is primarily focused on individuals working or interested in working in the public sector. The skills and knowledge students acquire allow them to successfully function in many other types of organizations; however, the emphasis is on public organizations. A bachelor's degree program in public service and public policy prepares students for entry- and mid-level supervisory and managerial positions in city, county, state and federal agencies. For those who already have work experience, the degree provides further opportunity for promotion.

The parks and recreation management concentration provides students with more specialized knowledge about the policy implication of the development and management of leisure in modern life.

Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

The BS program in public service and public policy is focused primarilyon providing students with the knowledge and skills required for entry- and mid-level supervisory and managerial positions in the public sector, such as city, county, state and federal agencies, though they would successfully function in many other types of organizations as well. For those who already have work experience, the degree provides further opportunity for promotion. In addition, the program prepares students for future graduate study in law, public policy and public administration.

Retiring baby boomers and an increasing demand for public services have resulted in an increase in job opportunities for graduates in the public
sector. The federal government is the nation's largest employer with nearly two million people employed across the country, and nearly 85 percent of those jobs exist outside the Washington, D.C. area. The federal government is anticipated to hire tens of thousands of new employees for mission-critical positions in the next few years. Students with preparation in academic areas related to public service and social services delivery will have an advantage in that market.

\section*{Public Service and Public Policy (Sustainability), BS (PPPAFSBS)}

Campus: Downtown Phoenix

\section*{Program Description:}

The BS program in public service and public policy prepares students for work in government at all levels and nonprofit organizations through comprehensive coverage of topics in public policy, public leadership and management, and urban studies.

Sustainability continues to be a highly sought-after area and it presents broad policy implications. Through this concentration, students explore the challenges of sustainability and how it may be used to develop solutions to pressing issues at local and global levels.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Recreation Therapy, BS (PPRECTBS)}

Campus: Downtown Phoenix

\section*{Program Description:}

The BS program in recreation therapy prepares students for national professional certification in therapeutic recreation. The program is designed for students who have an interest in providing therapeutic interventions and adaptive recreation services in a variety of settings for individuals with social problems, illnesses and disabling conditions. Students develop knowledge and skills to assess individuals, develop plans of service, provide diverse therapeutic interventions, and evaluate and document outcomes of care. They gain competencies to effectively provide comprehensive therapeutic recreation services that include program design and evaluation, individual and group service provision, and advocating for individuals. The required internship component of the program allows students to gain practical experience in the therapeutic recreation field.
program is one of two such programs in Arizona, both offered by the School of Community Resources and Development. This degree has a heavier emphasis on clinical settings such as hospitals and other health care facilities while the BS parks and recreation (therapeutic recreation) is more oriented toward community settings such as parks and recreation departments and state health services departments

\section*{Social Work, BSW (PPSWUSWU)}

Campus: Downtown Phoenix, West, Tucson

\section*{Program Description:}

Students interested in completing the BSW program in Tucson are encouraged to complete a Transfer Admission Guarantee program. The Tucson location option is only available to transfer students. For admission requirements, students should see https://socialwork.asu.edu/bsw (https://socialwork.asu.edu/content/social-work).

Social work practitioners are committed to the enhancement of individual, family and group problem-solving capacities and the creation of a more nurturing, just and humane social environment. The undergraduate curriculum leads to a Bachelor of Social Work. Juniors and seniors majoring in social work focus on social work courses in social policy and services, human behavior in the social environment, social work practice, research and field instruction in community agencies. In addition, majors take elective courses in related areas.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. \section*{Career Opportunities:}

The program prepares students to be generalist social work practitioners, focusing on advocacy, referrals, case management and problem-solving functions with individuals, groups, families, organizations and the community.

Employment in social work is expected to increase commensurately with the needs of a growing and diverse population.

Social workers are employed in public and private agencies dealing with a wide variety of social issues, including:
- adoption
- aging
- AIDS
- child abuse
- corrections
- delinquency
- disability
- discrimination
- domestic violence
- family dysfunction
- foster care
- health
- homelessness
- mental health
- poverty
- school-related problems
- substance abuse
- teen pregnancy

Social work skills such as problem-solving, resource utilization, counseling, group work and community organization are also useful for positions with industry in employee relations and mediation.

\section*{Tourism Development and Management, BS (PPTDMBS)}

Campus: Downtown Phoenix

\section*{Program Description:}

Through the BS program in tourism development and management, students acquire the planning and management skills related to the growth and development of tourism throughout the world. The curriculum prepares students for employment across a wide variety of occupations in the rapidly expanding travel and tourism industry while taking full advantage of its strong connections with the professional tourism community in Phoenix.

The required internship component of the program allows students to gain practical experiences leading to professional positions in various travel, tourism and related fields. Exposure to the practices of heritage tourism, sustainable tourism, resort management, and meeting and convention planning prepares students for successful careers in the travel and tourism industry. While pursuing the bachelor's degree in tourism development and management, a student may also choose to complete a certificate in convention sales and meeting planning. Additionally, students have the opportunity to participate in a study abroad program.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

\section*{Career Opportunities:}

The travel and tourism industry is the largest employer in the world and the second largest in Arizona. Based upon interests, graduates can seek work in the public, nonprofit or private and commercial sectors. Graduates find employment in such diverse settings as resorts, meeting planning, convention and visitor bureaus, tour operations and commercial recreation businesses. In such settings, graduates design, develop and manage services that address the needs of a particular clientele. The metropolitan Phoenix area is a major hub of tourism in the southwestern U.S. and has experienced rapid growth in:
- air transportation
- business and corporate travel
- gaming and casinos
- meetings and conventions
- resorts and hotels
- sports tourism
- state and national parks

\section*{Tourism Development and Management (Resort and Hotel Leadership), BS (PPTDMRBS) \\ Campus: Downtown Phoenix}

The BS in tourism development and management with a concentration in resort and hotel leadership attracts students and professionals who have interests in the diverse areas of knowledge needed within the accommodations sector, knowledge such as:
- ecological, social and economic sustainability practices in the industry
- hospitality management and leadership
- meeting the expectations of hotel and resort guests
- the interrelated functions within departments of the lodging, food and beverage industries

The concentration program in resort and accommodations leadership provides students an academic option to study in-depth the resort and accommodations system and gain knowledge of the importance of the business relationships between suppliers, intermediaries and vendors, guests, and the public and private sectors. It also prepares students to serve their communities by developing the skills, knowledge, techniques and capabilities needed for addressing major issues related to resorts and other tourism accommodations.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue)

\section*{Tourism Development and Management (Sustainable Tourism), BS (PPTDMSBS)}

Campus: Downtown Phoenix

\section*{Program Description:}

The BS program in tourism development and management provides students with the theoretical understanding necessary to maneuver the complexities of one of the world's largest industries. A concentration in sustainable tourism allows students to hone their understanding of the key concepts of sustainability and of how these concepts can be applied to tourism destinations and development.

Students learn the dominant theories and language that make up sustainability science and the skills necessary to measure, create and implement sustainability policies in tourism destinations, from the planning to management stages of development.

Students take courses offered by the School of Sustainability in addition to courses in the School of Community Resources and Development, guaranteeing a strong foundation in the basic theories of the growing field of sustainability while applying these newfound skills to tourism development and management.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. \section*{Urban and Metropolitan Studies, BA (PPURBBA)}

Campus: Downtown Phoenix

\section*{Program Description:}

Located in the heart of downtown Phoenix, the BA program in urban and metropolitan studies is for students who have a yearning to study and understand urban theory in order to effectively address the challenges of rapid growth along with other contemporary urban issues.

Students discover what makes the city tick --- and the city is their classroom. They examine challenges and solutions by researching history, society, culture, economy and politics in order to understand urban theory, and they use that knowledge to get involved in their communities. This gives them an outlet through which they can experience practical ways of solving complex problems faced by metropolitan regions. The students are invested in their neighborhoods. Many of them live and work downtown and they learn how to improve urban health and well-being, often training themselves to be the future leaders of urban environments. Others focus on making a wide variety of other contributions to society, studying the role of arts and culture, business and property development, revitalization and community-building in the life of the region.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (http://students.asu.edu/admission/wue).

The urban and metropolitan studies program prepares students for work in a wide range of fields. The transdisciplinary approach of the program allows graduates to successfully enter fields as diverse as urban management, revitalization, community development, urban sustainability and urban planning.

There are many careers and advanced degrees that may be pursued with a bachelor's degree in urban and metropolitan studies. Some of these careers require additional graduate-level studies and professional experience. Students in the program are advised to explore their options with academic and career advisors to prepare an appropriate program of study and plan to participate in an internship that complements their long-term
professional goals.

\section*{Career Opportunities:}

The urban and metropolitan studies program prepares students for work in a wide range of fields. The transdisciplinary approach of the program allows graduates to successfully enter fields as diverse as urban management, revitalization, community development, urban sustainability and urban planning.

There are many careers and advanced degrees that may be pursued with a bachelor's degree in urban and metropolitan studies. Some of these careers require additional graduate-level studies and professional experience. Students in the program are advised to explore their options with academic and career advisors to prepare an appropriate program of study and a plan to participate in an internship that complements their longterm professional goals.

\section*{Sustainability, School of}

\section*{Sustainability, BA (SUSUSTBA)}

Campus: Polytechnic, Tempe, Online

\section*{Program Description:}

Students in ASU's School of Sustainability are rethinking and reinventing the future of a world at risk. The school's programs encourage experiential learning, study abroad (https://schoolofsustainability.asu.edu/student-life/study-abroad (https://schoolofsustainability.asu.edu/student-life/studyabroad/), research with faculty (https://schoolofsustainability.asu.edu/undergraduate-research (https://schoolofsustainability.asu.edu/undergraduate-research/)), community engagement and leadership development (https://schoolofsustainability.asu.edu/student-life/engagement-opportunities (https://schoolofsustainability.asu.edu/student-life/engagementopportunities/)). The knowledge and solutions that are created today will shape the social and environmental quality of life for future generations. Students select from one of four tracks:
- international development and sustainability
- policy and governance in sustainable systems
- society and sustainability
- sustainable urban dynamics

The School of Sustainability offers two degrees in sustainability: a BA and a BS. Both programs introduce students to the concept of sustainability in the context of real-world problems and focus on developing practical solutions to some of the most pressing environmental, economic and social challenges of sustainability. The curriculum trains students to approach challenges with consideration of complex adaptive systems and resilience; interconnections and cascading effects between scales; management of trade-offs; stakeholder engagement; future visioning and scenario typologies for transitioning social-ecological systems; and other cutting-edge frameworks.

The Bachelor of Arts is geared toward students interested in the social and human aspects of sustainability in global, regional and local contexts such as international environmental law, urban policy, etc. Disciplinary perspectives included in the core courses of the degree tracks include anthropology, urban planning and design, environmental economics, ethics, geography, philosophy of science, political science, sociology and other disciplines relevant to the sustainability of environmental resources and social institutions.

Students in the School of Sustainability not only gain an understanding of the field of sustainability and strong problem-solving, systems-thinking, stakeholder engagement and future scenario-building skills, they also develop strength in a more traditional discipline of their choice (in addition to their track). Students apply the skills from their core Bachelor of Arts classes and knowledge from their track and related discipline courses in two required capstone experiences in the senior year.

Capstone requirements consist of an internship (https://schoolofsustainability.asu.edu/student-life/sustainability-internships-opportunities (https://schoolofsustainability.asu.edu/student-life/sustainability-internships-opportunities/)) with a sustainability-focused organization and a workshop course in which students work together as a team to develop solutions to real sustainability problems. These workshops are great resume builders as they usually include real work for actual organizations such as city governments, sports organizations, nonprofits, local and global companies, local schools, and ASU Facilities or Sustainability Practices. Students are also offered workshops on making documentary films, redesigning buildings and downtown areas, and other engaging projects.

Students graduate with a portfolio of accomplishments and skills. They also have the opportunity to participate in study abroad programs, student organizations (https://schoolofsustainability.asu.edu/student-life/engagement-opportunities (https://schoolofsustainability.asu.edu/student-life/engagement-opportunities/)), professional development workshops and hands-on initiatives such as ProMod (https://schoolofsustainability.asu.edu/student-life/student-sustainability-research/promod (https://schoolofsustainability.asu.edu/student-life/student-sustainability-research/promod/)).

\section*{Additional Program Fee: N}

Second Language Requirement: Yes
First Required Math Course: SOS 101 - Intro Appl Math Life \& Soc Sci
Program Math Intensity: Moderate

\section*{Concurrent Degrees:}

This degree is also offered as concurrent degree program with Supply Chain Management, BS

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with Sustainability Solutions, MSUS Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Additional Requirements:
The School of Sustainability has higher admission requirements. Applicants must select a second choice for their major on the application. Students who are not admitted to the School of Sustainability and who did not select a second major or are not admissible to the second major choice will be admitted to the exploratory social and behavioral sciences program within the College of Integrative Sciences and Arts. Students with more than 45 transfer hours who are not admissible to the College of Integrative Sciences and Arts will be contacted to select an appropriate major.

Freshman applicants must meet the following standards:

\footnotetext{
- Minimum cumulative high school GPA of \(3.00(4.00=\) "A") in competency courses (https://students.asu.edu/admission/competencies) AND
}
- rank in the top 25 percent of their high school graduating class OR
- an SAT combined score of
- 1040 or higher (if taken prior to March 2016) or
- 1120 or higher (if taken in or after March 2016) OR
- an ACT combined score of 22 or higher.

Transfer Admission Requirements:
Transfer students (those with 12 or more transfer credit hours after high school graduation) are required to have a cumulative transfer GPA of 3.00 or higher. The School of Sustainability will review transfer applications that fall below this GPA level on an individual basis.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-sustainability?utm_source=asu\&utm_medium=degree-search\&utm_campaign=asu)

\section*{Change of Major Requirements:}

ASU students who would like to change their major to sustainability are required to have a cumulative ASU GPA of 3.00 or higher (based on at least 12 credit hours of ASU coursework). Students should see https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. Transfer from another state:

California(https://transfer.asu.edu/california)
Illinois(https://transfer.asu.edu/illinois)
Washington(https://transfer.asu.edu/washington)

\section*{Career Opportunities:}

In addition to going on to graduate school, graduates of the program are qualified for well-paying positions in:
- consultancy
- government
- industry
- intergovernmental organizations
- international development
- management
- municipalities
- nongovernmental organizations
- nonprofits
- policy-making enterprises
- regulatory agencies
- utilities

Recent interest in sustainability within business and government has created new employment opportunities (e.g., sustainability coordinators, directors and managers). Of undergraduate alumni who have shared their experiences with the school (https://schoolofsustainability.asu.edu/careers/employment-data (https://schoolofsustainability.asu.edu/careers/employment-data/)), 79 percent are employed in sectors such as those listed above and 16 percent have gone on to a graduate program. Of those employed, 70 percent have jobs directly related to sustainability. Sustainability students offer employers and graduate programs an integrated approach to developing solutions to sustainability challenges. They understand the complexity of systems, have engaged in a range of knowledge and experience from different disciplinary perspectives, and understand the importance of planning for the future and how to engage stakeholders in that process. Graduates of the program are adaptable and prepared for a changing world.

\section*{Teachers College, Mary Lou Fulton}

\section*{Early Childhood and Early Childhood Special Education, BAE (TEECSEBAE)}

\author{
Campus: Tempe
}

\section*{Program Description:}

The BAE program for early childhood and early childhood special education prepares students for certification in both early childhood education (birth to age 8 or grade 3) and early childhood special education (birth to age 8 or grade 3).

This is a premier program taught by nationally renowned faculty who emphasize community connectedness, technology integration, policy analysis and advocacy related to young children with or without disabilities or developmental delays.

The program teaches child development, best practices in early childhood education and the skills to assess, monitor and report the progress of children with and without disabilities. It provides techniques and approaches to involve family members in the growth and development of young children.

The teacher certification program in early childhood and early childhood special education is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in coursework to practice in preK-12 classrooms. Students complete internships during their junior year that require one to two days per week in a classroom and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools coach interns and student teachers during required preschool and grades K-3 general education and special education clinical experiences. The clinical experience provided by the program, known as iTeachAZ, is unmatched in Arizona. It provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive, hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

This program also offers a full, structured English immersion endorsement to work with English language learners and provides extensive experiences in integrating technology into teaching.

Graduates are recommended for teacher certification. Those desiring to teach in a public school must pass the appropriate Arizona educator exams, National Evaluation Series or Arizona Educator Proficiency Assessments, to be certified to teach in the state of Arizona.

\section*{Education Exploratory, (TEEDUEXPL)}

Campus: Polytechnic, Tempe, West

\section*{Program Description:}

Students in the education exploratory track have the unique opportunity to explore different certification areas prior to selecting one of many majors within the Mary Lou Fulton Teachers College. During the program's course, TEL 101 The Teachers College Experience, and through specific events scheduled throughout freshman year, students on this track are exposed to all programs and certification areas. Students make a more informed decision about the grade level or subject they want to teach while the exploratory track keeps them on track to graduate from any of the BAE programs. This track does not lead to a degree, and students need to declare a major after completion of 30 credit hours.

\section*{Educational Studies, BAE (EDSLSTBAE)}

Campus: Polytechnic, Tempe, West, Online

\section*{Program Description:}

Learning happens everywhere and at all ages. The BAE program in educational studies prepares graduates to work with children, youth and adults in nonprofit settings, community institutions, civic organizations and businesses. The degree program provides a foundation for students to shape the role of education in society and the act of learning. It also helps graduates with effective communication, collaboration, effective leadership, advocacy and innovation. Graduates have identities as educators wherever life takes them, and graduates are ready to help others learn and change the face of learning throughout society.

The BAE in educational studies is intended for students seeking a career in education outside the classroom. This degree does not lead to teacher certification.

Veterans may be interested in this program, as credit may be offered for military service.

An educational studies minor is also available to ASU students in other degree programs.

Additional Program Fee: \(N\)
Second Language Requirement: N
First Required Math Course: MAT 142-College Mathematics
Program Math Intensity: General

\section*{Accelerated Degrees:}

Accelerated bachelors-masters degree options: This degree is also offered in an accelerated format with:
Educational Policy, MA
Learning Sciences, MA
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

\section*{Admission Requirements:}

\section*{Elementary Education, BAE (TEEEDBAE)}

Campus: Polytechnic, Tempe, West

\section*{Program Description:}

The elementary education BAE program leads to elementary education certification in the state of Arizona for grades K-8.

This program offers students a firm grounding in academic content with current research and best practices, accompanied by real-world classroom experiences. Faculty are nationally recognized in their fields of expertise. This program also provides extensive experiences in integrating technology into teaching.

The teacher certification program for elementary education is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in coursework to practice in preK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during their junior year that require one day per week in grades K-8
classrooms and student teaching, which is a full-time, year-long apprenticeship known as their senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences. The clinical experience provided by the program, known as iTeachAZ, is unmatched in Arizona. It provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive, hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

Graduates are recommended for grades K-8 elementary teacher certification. Those desiring to teach in a public school must pass the appropriate Arizona educator exams, National Evaluation Series or Arizona Educator Proficiency Assessments, to be certified to teach in the state of Arizona.

\section*{Elementary Education (Bilingual Education and English as a Second Language), BAE (TEDLLBAE)}

\author{
Campus: Tempe
}

\section*{Program Description:}

The BAE program for elementary education with a concentration in bilingual education and English as a second language offers students a firm grounding in current research about and best practices for English language learners, accompanied by real-world classroom experiences.

Students learn principles of first- and second-language acquisition, foundations of various program models, global awareness and diversity in families and communities in multicultural settings, as well as academic content areas including math, language arts, computer literacy and science with a specific focus on meeting the academic and linguistic needs of English language learners.

The elementary education, bilingual education and English as a second language teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in coursework to practice in preK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during the junior year that require one day per week in grades K-8 classrooms and student teaching, which is a full-time, year-long apprenticeship known as their senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences with high concentrations of English language learners. The clinical experience provided by the program, known as iTeachAZ, is unmatched in Arizona. It provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive, hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

The program requires six credit hours of a foreign language or its equivalent and enables students to work with second-language learners.

Graduates are recommended for grades K-8 elementary teacher certification. Those desiring to teach in a public school must pass the appropriate Arizona educator exams, National Evaluation Series or Arizona Educator Proficiency Assessments, to be certified to teach in the state of Arizona. In addition, students must complete six credit hours of a foreign language or equivalent and pass an appropriate language proficiency test to be eligible for the BLE endorsement.

Elementary Education (Science, Technology, Engineering and Mathematics), BAE

\section*{(TEESTEMBAE)}

\author{
Campus: Polytechnic
}

\section*{Program Description:}

The BAE program in elementary education with an emphasis on science, technology, engineering and mathematics has course work designed for teachers looking to advance their skills in STEM disciplines and learn techniques to effectively engage K-12 learners in the 21st century. The coursework addresses essentials for educators to equip the learners with the specialized knowledge needed in STEM topics to solve challenging problems and apply critical thinking skills. The STEM program offers students a firm grounding in science, using the tools of technology, the processes of engineering and the language of math, with current research and best practices accompanied by real-world experiences.

The elementary education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in coursework to practice in preK-12 classrooms. \section*{Secondary Education, BAE (TESEDBAE)}

Campus: Polytechnic, Tempe, West, The Gila Valley, Yuma

\section*{Program Description:}

This program is available at Eastern Arizona College and Arizona Western College in partnership with the secondary education Transfer Admission Guarantee program.

This program is only available as a concurrent degree for students at ASU's Tempe, Polytechnic and West campuses who are pursuing majors that align with content taught in a secondary education setting. For more information how to add this program as a concurrent degree, students should contact the Mary Lou Fulton Teachers College advising office.

The BAE program in secondary education prepares educators to teach youth enrolled in grades 6-12. While teacher candidates develop a strong theoretical background in their specific content areas, the program focuses on developing the skills and teaching abilities required to successfully teach middle or high school students. This program also offers a full, structured English immersion endorsement to work with English language learners and provides extensive experiences in integrating technology into teaching.

In order to integrate teacher preparation with the secondary education requirements for an academic specialization, the Mary Lou Fulton Teachers College collaborates with academic departments across the university. Secondary education certification is offered in the following content areas, depending on campus location: biological sciences, chemistry, earth and space sciences, economics, English, French, geography, German, history, Japanese, mathematics, physical education, physics, political science and Spanish.

The secondary education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide students with multiple opportunities to apply knowledge learned in coursework to practice in the classroom. Mary Lou Fulton Teachers College students complete internships during the junior and senior years, one day a week ( 75 hours each semester), while enrolled in upper-division education courses. The culminating experience is a student teaching practicum, which requires working alongside a highly qualified mentor teacher, full-time, for the entire semester. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences. The clinical experience provided by the program, known as iTeachAZ, provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive, hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

Second Language Requirement: N
First Required Math Course: MAT 170 - Precalculus
Program Math Intensity: Moderate

\section*{Concurrent Degrees:}

This degree is also offered as concurrent degree program with:
Biological Sciences, BS
Chemistry, BA

\section*{Admission Requirements:}

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (https://students.asu.edu/freshman/requirements)
Transfer (https://transfer.asu.edu/index.php?q=transferrequirements)
International (https://students.asu.edu/international/future)
Readmission (https://students.asu.edu/readmission)

Transfer Admission Requirements:
ASU has a pathway that allows students to complete the ASU Transfer Admission Guarantee in secondary education, a prescribed sequence of courses that meets the requirements for the community college's Associate of Arts degree and the lower-division requirements for the ASU Bachelor of Arts in Education in secondary education. Upon completion of the TAG, students will complete the remaining requirements for ASU's secondary education BAE at a local community college. Visit https://transfer.asu.edu/ (https://transfer.asu.edu/) for more information about ASU degrees offered at local community colleges. Applicants must have completed the TAG agreement and earned an associate degree for acceptance to the bachelor's degree program.

\section*{Change of Major Requirements:}

This program is only available as a concurrent degree at ASU's Tempe, Polytechnic and West campuses. Students should contact the advising office to add this program as a concurrent degree.

A current ASU student at ASU@The Gila Valley or ASU@Yuma must have completed all lower-division requirements and hold a 2.50 GPA in order to change majors to this program. Eligible students should refer to https://students.asu.edu/changingmajors (https://students.asu.edu/changingmajors) for information about how to change a major to this program.

\section*{Transfer Agreements:}

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Select where you are transferring from to see if there is a partnership agreement between your institution and ASU for this degree program. \author{
Campus: Polytechnic, Tempe, West
}

\section*{Program Description:}

The BAE program in secondary education prepares educators to teach youth enrolled in grades 6-12. While teacher candidates develop a strong theoretical background in their specific content areas, the program focuses on developing the skills and teaching abilities required to successfully teach middle or high school students. This program also provides extensive experiences in integrating technology into teaching.

The secondary education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in coursework to practice in preK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during the junior year that require one day per week in grades 6-12 classrooms and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences. The clinical experience provided by the program, known as iTeachAZ, provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive, hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

Graduates of the program desiring to teach in a public school must pass the appropriate Arizona educator exams, National Evaluation Series or Arizona Educator Proficiency Assessments, to be certified to teach in the state of Arizona.

This program also offers a full structured English immersion endorsement to work with English language learners and provides extensive experiences in integrating technology into teaching.

In order to integrate teacher preparation with the secondary education requirements for an academic specialization, the college collaborates with academic departments across the university. The program offers the following secondary education certification areas: biological sciences, chemistry, earth and space sciences, economics, English, French, geography, German, history, Japanese, mathematics, physical education, physics, political science and Spanish.

The secondary education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in coursework to practice in preK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during the junior year that require one day per week in grades 6-12 classrooms and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences. The clinical experience provided by the program, known as iTeachAZ, provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

Graduates of the program desiring to teach in a public school must pass the appropriate Arizona educator exams (either the National Evaluation Series or Arizona Educator Proficiency Assessments) in both content area and professional knowledge to be certified to teach in the state of Arizona.

\section*{Secondary Education (Physical Education), BAE (ECPPEBAE)}

Campus: Polytechnic

\section*{Program Description:}

The BAE program in secondary education with a physical education concentration leads to a K-12 teaching certificate. While teacher candidates develop a strong theoretical background in their specific content areas, the program focuses on developing the requisite teaching knowledge and abilities to successfully teach elementary, middle or high school students. The curriculum directly aligns with Arizona's standards for teachers and the National Association for Sport and Physical Education's beginning teacher standards. This program also provides extensive experiences in integrating technology into teaching.

The secondary education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in coursework to practice in preK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during the junior year that require one day per week in grades 6-12 classrooms and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences. The clinical experience provided by the program, known as iTeachAZ, provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

Graduates of the program desiring to teach in a public school must pass the appropriate Arizona educator exams (either the National Evaluation Series or Arizona Educator Proficiency Assessments) to be certified in the state of Arizona.

\title{
Special Education and Elementary Education, BAE (TESPEBAE)
}

Campus: Polytechnic, Tempe, West

\section*{Program Description:}

The BAE program in special education and elementary education leads to the following teaching certificates: Mild-Moderate Disabilities Special Education, K-12 and Elementary Education, grades K-8. The certification program prepares students to work with both typical children and youths and those with mild to moderate disabilities in inclusive settings. This program also provides extensive experiences in integrating technology into teaching.

The bachelor's degree program is designed to give preservice teachers foundational knowledge in evidence-based practices for children with special learning needs, with a firm grounding in general education content and evidence-based practices in literacy, math, sciences, health and social studies; integration of technology into all areas; and real-world experience in classrooms through the iTeachAZ program.

The special education and elementary education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in coursework to practice in PreK-12 classrooms. Students in the Mary Lou Fulton Teachers College complete internships during the junior year that require one day per week in grade K-8 classrooms serving students with special needs, and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences. The clinical experience provided by the program, known as iTeachAZ, provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive, hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

Because the general education classroom is a viable placement option for many students with mild and moderate learning and behavioral disabilities, training special education teachers to collaborate is emphasized throughout the professional preparation sequence. Students receive additional training in interpersonal communication and problem-solving skills. They also learn adaptive techniques and assistive technologies that facilitate the successful integration of students with diverse learning needs into general education classrooms.

Graduates of the program desiring to teach in a public school must pass the appropriate Arizona educator exams (either the National Evaluation Series or Arizona Educator Proficiency Assessments) to be certified to teach in the state of Arizona. Graduates receive mild to moderate certification in special education for K-12 students with mild to moderate intellectual disabilities, emotional disorders, specific learning disabilities, orthopedic impairments and other health impairments. They also receive an elementary certificate for teaching grades K-8.

In order to complete this concurrent degree in four years, you must take courses during the summer. This may impact your financial aid. Financial aid is available to those who apply and qualify, and students may receive funds to help cover costs for each semester of enrollment. The amount of financial aid that a student is eligible for varies depending on prior education experience and other individual factors. Learn more about summer financial aid and additional ways to cover summer costs.

In order to complete this concurrent degree in 4 years, you must take courses during the summer. This may impact your financial aid. Financial aid is available to those who apply and qualify, and students may receive funds to help cover costs for each semester of enrollment. The amount of financial aid that a student is eligible for varies depending on prior education experience and other individual factors. Learn more about summer financial aid and additional ways to cover summer costs.

Upper Division Technical Electives
AEE 426: Design of Aerospace Structures
AEE 465: Rocket Propulsion
AEE 466: Rotary Wing Aerodynamics and Performance

AEE 471: Computational Fluid Dynamics

MAE 341: Mechanism Analysis and Design

MAE 404: Finite Elements in Engineering
MAE 417: System Dynamics and Control II
MAE 436: Combustion
MAE 455: Polymers and Composites
MEE 323: Computer-Aided Engineering II
MEE 340: Heat Transfer
MEE 351: Manufacturing Processes
MEE 434: Internal Combustion Engines
MEE 440: Renewable Energy: Mechanical Systems

MEE 441: Wind Energy
MEE 472: Intermediate Fluid Mechanics
MEE 482: Intermediate Thermodynamics
Students may choose no more than one course from the following:

AST 321: Introduction to Planetary and Stellar Astrophysics (SQ)

AST 322: Introduction to Galactic and Extragalactic Astrophysics (SQ)

CEE 440: Hydrology
CHM 325: Analytical Chemistry

EEE 304: Signals and Systems II

EEE 333: Hardware Design Languages and Programmable Logic

EEE 334: Circuits II

EEE 350: Random Signal Analysis

EEE 480: Feedback Systems

EEE 481: Computer-Controlled Systems

EGR 433: Transforms and Systems Modeling

FSE 301: Entrepreneurship and Value Creation
IEE 300: Economic Analysis for Engineers

MAT 300: Mathematical Structures (L)
MAT 362: Advanced Mathematics for Engineers and Scientists

MAT 371: Advanced Calculus I

MAT 420: Scientific Computing
MAT 421: Applied Computational Methods (CS)

MAT 423: Numerical Analysis I (CS)
MAT 425: Numerical Analysis II (CS)
MAT 451: Mathematical Modeling (CS)
MSE 330: Thermodynamics of Materials
PHY 310: Classical Particles, Fields, and Matter I

PHY 361: Introductory Modern Physics
SES 311: Essentials of Astrobiology:
Exploration for Life in the Universe

SES 350: Engineering Systems and Experimental Problem Solving

SES 405: Exploration Systems Engineering
SES 410: Senior Exploration Project I

By approval only:
MAE 484: Internship
MAE 492: Honors Directed Study
MAE 493: Honors Thesis (L)
MAE 498: Pro-Seminar or MAE 499:
Individualized Instruction
*Students who do not meet the enrollment requirements for these courses may be allowed to enroll with instructor consent. Courses not listed here require a department petition form.

To take any 494 class, please check with your advisor first. A max of 3 credits from MAE 484/498/499 can be applied toward the TE requirements.

Humanities, Arts and Design (HU) AND Cultural Diversity in the 3 U.S. (C)

Minimum 2.00 GPA ASU Cumulative.
Term hours subtotal:
- An SAT, ACT, Accuplacer, IELTS, or TOEFL score determines placement into first-year composition courses
- Mathematics Placement Assessment score determines placement in mathematics course
- ASU 101 or College specific equivalent First Year Seminar required of all freshman students.
- ASU 101-CHE and FSE 100 required for freshmen and should be completed first semester. Non-freshmen: see advisor for petitioning replacement electives.
- If ENG 105 is taken, a 3 hr applicable elective must also be taken prior to graduation. See Advisor.
- Prep for success using the Freshman Guide.
- Join a Fulton community
- Explore engineering and technical professions

In order to complete this concurrent degree in four years, you must take courses during the summer. This may impact your financial aid. Financial aid is available to those who apply and qualify, and students may receive funds to help cover costs for each semester of enrollment. The amount of financial aid that a student is eligible for varies depending on prior education experience and other individual factors. Learn more about summer financial aid and additional ways to cover summer costs.

\section*{Notes}
- An SAT, ACT, Accuplacer or TOEFL score determines placement into first-year composition courses
- Mathematics Placement Assessment score determines placement in mathematics course
- ASU 101 or College specific equivalent First Year Seminar required of all freshman students
- ASU Language Placement: Only true beginners are eligible for 101-level courses. All other students are required to take a placement exam, regardless of prior credit earned.
1. Minimum 2.50 GPA ASU Cumulative.

- For Focus Area Courses, students must select one of the following focus areas:
- Web Design and Development
- 2D-3D Gaming Animation
- Digital Design, Print and Publishing
- Commercial Photography and Video

All 12 hours of focus area courses must be taken from the same focus area.

\end{tabular}
- Select SER prefix course for primary focus. Consult with a Software Engineering academic advisor for course options.
- Consult with a Software Engineering academic advisor for secondary focus course options.
- - Students select both a primary and a secondary focus area. The primary focus area is comprised of 9 semester hours of upper division SER-prefix courses. During the junior year in the program, students should work with an academic advisor to identify course options/selection.
- The secondary focus area is comprised of 9 semester hours which form a coherent theme. At least 6 of the 9 semester hours must be upper division. Students should work with an academic advisor to identify course options/selection.
- Students who elect to take PHY121/122 and PHY131/132 for the lab science sequence will need to select another course (4 hours) from the Lab Science Sequence list below.

Hide Course List(s)/Track Group(s)
Lab Science Sequence

BIO 181: General Biology I (SQ) AND BIO
182: General Biology II (SG)
BIO 201: Human Anatomy and Physiology I
(SG) AND BIO 202: Human Anatomy and Physiology II (SG)

CHM 113: General Chemistry I (SQ) AND
CHM 116: General Chemistry II (SQ)

\end{tabular}
- - Students select both a primary and a secondary focus area. The primary focus area is comprised of 9 semester hours of upper division SER-prefix courses. During the junior year in the program, students should work with an academic advisor to identify course options/selection.
- The secondary focus area is comprised of 9 semester hours which form a coherent theme. At least 6 of the 9 semester hours must be upper division. Students should work with an academic advisor to identify course options/selection.
- Students who elect to take PHY121/122 and PHY131/132 for the lab science sequence will need to select another course (4 hours) from the Lab Science Sequence list below.

Hide Course List(s)/Track Group(s)
Lab Science Sequence
BIO 181: General Biology I (SQ) AND BIO
182: General Biology II (SG)
BIO 201: Human Anatomy and Physiology I
(SG) AND BIO 202: Human Anatomy and
Physiology II (SG)
CHM 113: General Chemistry I (SQ) AND
CHM 116: General Chemistry II (SQ)
PHY 131: University Physics II: Electricity
and Magnetism (SQ) AND PHY 132:
University Physics Laboratory II (SQ)
Note: Students who want to take PHY121/122
and PHY131/132 for their Lab Science
Sequence will need to select a different lab
science course (4 hours) from the list.
