The Arizona Criminal Justice Commission (ACJC) is a statutorily authorized entity mandated to carry out various coordinating, monitoring and reporting functions regarding the administration and management of criminal justice programs in Arizona. In accordance with statutory guidelines, the Commission is comprised of 19 members who represent various elements of the criminal justice system in Arizona. Fourteen of the 19 Commissioners are appointed by the governor and are municipal, county or elected officials. The remaining five are state criminal justice agency heads. Appointed Commissioners serve for two years and terminate when the first regular session of the legislature is convened; they may be re-appointed.

The ACJC was created in 1982 to serve as a resource and service organization for Arizona's 480 criminal justice agencies on a myriad of issues ranging from drugs, gangs, victim compensation and assistance to criminal record improvement initiatives. The ACJC works on behalf of the criminal justice agencies in Arizona to facilitate information and data exchange among state-wide agencies by establishing and maintaining criminal justice information archives, monitoring new, and continuing legislation relating to criminal justice issues and gathering information and researching existing criminal justice programs.

ACJC Mission: To sustain and enhance the coordination, cohesiveness, productivity, and effectiveness of the Criminal Justice System in Arizona.

Ouarterly Summary Report October 1, 2006 – December 31, 2006

House Bill 2554 appropriated \$3,000,000 from the state general fund in fiscal year 2007 to the Arizona Criminal Justice Commission (ACJC) for distribution to each County Board of Supervisors for "...increased methamphetamine interdiction efforts including investigation, training, prosecution, abuse treatment, or education programs."

By statute, each county that receives HB 2554 funds is required to submit quarterly reports to ACJC regarding the use and effectiveness of their award. The quarterly reporting forms provided to all counties requested information on the type of program(s) being developed and a description of the performance measures to be used to document the effectiveness of these funds.

This report provides a brief summary of second quarter activities and provides a more detailed summary of the reports submitted by each county. This report fulfills the statutory obligation for ACJC to provide a quarterly summary of the reports to the Governor, the President of the Senate, the Speaker of the House, and the Joint Legislative Budget Committee.

These funds are to be distributed in quarterly allotments unless there is justification from the counties for lump sum distributions.

Table 1 describes the distribution of HB 2554 funds by County.

During the first month of service to the schools, Greenlee County Sheriff's Office noted an increase in calls for service from the schools. Local school officials have explained to the Sheriff's Office that the reason for the increase is due to a better understanding of the availability and commitment of law enforcement to the schools.

The Sheriff's Office is using the findings from the 2006 Arizona Youth Survey to better understand the methamphetamine problem in their schools and meet weekly with school administrators to determine the effectiveness of the program. These meetings also provide opportunities to adjust the program to better meet the needs of the schools and communities they serve.
