2004 PUBLIC SCHOOL CONTRIBUTIONS/FEEES Individual Income Tax Credit

Arizona Revised Statute 43-1089.01 allows a non-refundable credit up to \$250 for fees or cash contributions paid to a public school for the support of extracurricular activities or character education programs.

Beginning with the 2003 calendar year, public (which includes charter) schools are required to file a report with the Department of Revenue by February 28 of each year indicating the number of donors and their total contributions and/or fees paid, and the amount of contributions and/or fees spent by specific activity or program and the number of children that participated in that activity or program. The report is to be filed regardless if contributions or fees are collected or spent.

For tax year 2004, Public Schools reported 213,987 people donated \$30.96 million. For that calendar year, Public Schools reported that 2,109,248 students participated in the extracurricular or character education programs. A total of \$25.8 million was spent on these activities. The contributions/fees and expenditures amounts most likely should not agree on the report as most contributions are received late in the calendar year and are not utilized until the following year.

The table titled "2004 Public School Donors and Contributions/Fees Received for Extracurricular Activities or Character Education Programs" lists by district the total amount of donors and the total dollar amount of fees/contributions received. A bold font in the name field indicates that one or more school in that district did not submit a report; an italicized and bold font in the name field indicates one report was submitted for all of the schools in that district; a shaded box in the data area indicates no school in that district submitted a report; a \$0 entry indicates the district reported receiving no contributions or fees. The following table shows those districts that reported contributions/ fees in excess of \$1 Million; these seven districts accounted for 45% of all the contributions received:

2004 Public School Donors and Contributions/ Fees Received for Extracurricular Activities or Character Education Programs

A bold font indicates information for at least one school is missing; a shaded box in the data entry area indicates no school from that district submitted a report; a light shading in the name field indicates a report was filed but there were no expenditures; a dark shading in the name field indicates the amount of expenditures matched exactly to the amount of contributions/fees received for the year.

The following table shows those districts reporting at least 100,000 children who participated in extracurricular activities or charter education programs funded by contributions and/or fees:
