I applaud WIFA Board Chairman Steve Owens, the WIFA Board of Directors and the WIFA with in cutotonding record of achievement and dedication to coming Arizona's communities. staff for their outstanding record of achievement and dedication to serving Arizona's communities.

With keep appreciation of the key financial and environmental role it plays. WIEA's programs will Stall for their outstanding record of achievement and dedication to serving Arizona's communities.

With keen appreciation of the key financial and environmental role it plays, WIFA's programs will continue to benefit our citizene by maintaining and enhancing Arizona's natural recourses multiwith keen appreciation of the key maintaining and enhancing Arizona's natural resources, public continue to benefit our citizens by maintaining and enhancing Arizona's natural resources, public health and quality of life Yours very truly,

Janet Napolitano health and quality of life.

Governor

As director of the Arizona Department of Environmental Quality (ADEQ), I am pleased to serve as chairman of the WIFA Board of Directors, an agency with a long history of accomplishments. This report on WIFA's year in review highlights some of its recent successes. ADEQ and WIFA enjoy a close working partnership, and this partnership has enabled us to effectively meet ongoing challenges such as the federally-mandated arsenic standards, economic constraints, sustainable growth and infrastructure funding.

Colorado River Water Quality

Coordination between WIFA and ADEQ has laid the groundwork for substantial public health and water quality improvements in communities along the Colorado River, a significant water resource with some of the region's most critical wastewater infrastructure needs. WIFA continues to provide financial support for Lake Havasu City's \$463 million centralized sewer project, which replaces over 25,000 septic tanks. This year the board also approved \$16.2 million for additional sewer improvements in Bullhead City and provided \$7.4 million to the City of Yuma for drinking water upgrades.

Historic Tribal Loans

WIFA became the first state agency in the nation to lend revolving funds to a tribal nation. In February 2003, Governor Napolitano and I

awarded the White Mountain Apache Housing Authority with checks for \$2 million for sewer infrastructure and \$3 million for drinking water improvements for the Apache Dawn housing project on the White Mountain Apache Indian Reservation.

New Executive Director

After nine years of distinguished service, long-time executive director, Greg Swartz, left WIFA for the private sector. In September 2003, Jay Spector became WIFA's new executive director. Jay's skills and experience will help WIFA address the federal funding allocation disparity as well as lead the agency to the next level of performance. Prior to joining WIFA, he served as special assistant to the Secretary of the Interior in Washington, D.C. and as the director of intergovernmental affairs and outreach for ADEO.

Arizona Funding Disparity

Although Arizona has made significant strides in water quality, our continued responsiveness to future water quality requirements is highly dependent on revising the state revolving fund formula, which is based on outdated 1970s population figures and needs. WIFA, ADEQ and other strategic partners are proactively addressing this funding allocation disparity to obtain a greater and more equitable share of infrastructure funding for Arizona.

WIFA plays an invaluable role in protecting Arizona's precious water supplies, ensuring safe drinking water, and providing a foundation for growth across the state. WIFA's accomplishments this past year point to continued progress for the future.

Stephen A. Owens
Board Chairman

Goal 1: Award WIFA's resources in accordance with the needs of Arizona's citizens.

Table 1

As shown in Table 1, all 11 water projects funded during 2003 were in the top 50 of the DWRF Priority List. Similarly, all 7 wastewater projects funded were in the top 50 of the CWRF Priority List. Like Funding Cycle 2002 WIFA maintains its level of assistance directed to the most significant public health and water quality problems.

During Funding Cycle 2003, WIFA provided 8 loans to small, rural communities, allocating financial assistance to correct problems in communities with fewer resources. As shown in Table 2, the majority of these loans went to communities with populations under 2,500.

A vital measure of the benefit WIFA loans provide to communities throughout Arizona is the savings to tax/rate payers when compared to traditional market financing. In Funding Cycle 2003, WIFA's below market interest rates and reduced closing costs will save Arizona communities an estimated \$7,870,774 over the term of the loans. Since the inception of the Authority, WIFA conservatively estimates total savings of \$150,000,000 to tax/rate payers.

Arizona continues to position itself as a state revolving loan fund leader nationally and in the region. EPA Region 9 includes Arizona, California,

Nevada and Hawaii.

During 2003 Arizona was on par with the region but below the US in percent of Drinking Water Revolving Fund (DWRF) assistance to communities with less than 10,000 population. Forty-seven percent of DWRF funds were provided to communities between 10,000 and 100,000 population.

From July 1987 through July 2003, WIFA has provided \$412.3 million in Clean Water Revolving Fund (CWRF) loans. Shown in Figure 2, Arizona's CWRF funds allocated to communities with fewer than 10,000 population increased from 38% in 2002 to 48% in 2003.

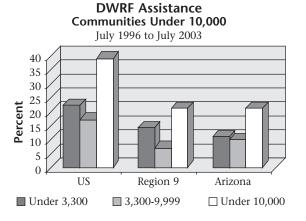

Figure 1*

WIFA ranks 5th nationally in the percent of DWRF assistance allocated to privately-owned drinking water systems. Arizona provides almost twice the US average of 4.8%, indicated in Table 3.

Arizona ranks 8th nationally in percent of total DWRF assistance provided for system compliance. Arizona's percent is 77.1 compared with 42.8% for the US and 89.5% for California. In terms of total cumulative dollars provided for compliance, Arizona ranks 4th in the US after New York, Texas and California.

CWRF Assistance Communities Under 10,000 July 1987 to July 2003

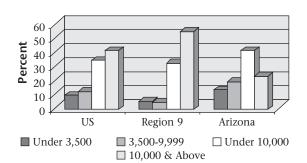

Figure 2*

Among the 10 states funding non-point source (NPS) projects, Arizona ranks 2nd with 19% of monies allocated to wastewater treatment solutions. Arizona leads the nation with 31% or \$91.41 million provided for wastewater treatment solutions to NPS pollution.

Table 3*

Annual Report 2

3

^{*}Sources: Progress of the Drinking Water State Revolving Fund Program and Progress of the Clean Water State Revolving Fund Program, U.S. Environmental Protection Agency, 2003.

In 2003 WIFA made history with the first tribal revolving fund loan in Arizona and the US to the White Mountain Apache Housing Authority on the White Mountain Apache Indian Reservation. WIFA was the first state agency to qualify as a US Housing and Urban Development lender, allowing the Authority to obtain a Title VI loan guarantee.

Goal 2: Maintain the fiscal integrity of WIFA's funds and assure continuous enhancement for future generations.

In addition to maintaining fiscal integrity, WIFA invests its monies to ensure that growth in the fund keeps pace with inflation. WIFA's loan interest revenues increased by 11% from 2002, as shown in Figure 3. Loan servicing fees also increased by 34%. However, total non-program earnings decreased over \$.164 million, or approximately 2% during Fiscal Year 2003.

Further evidence of WIFA's commitment to preserve and grow the funds is shown in WIFA's Statement of Financial Position (see page 12.)

Figure 4 reflects a decrease in WIFA's investment portfolio which provides security to loans and generates interest earnings. The decrease is a result of cash disbursements to WIFA borrowers during Fiscal Year 2003.

Funds Invested

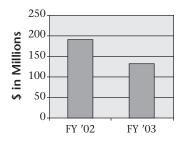

Figure 4

Income By Fiscal Year

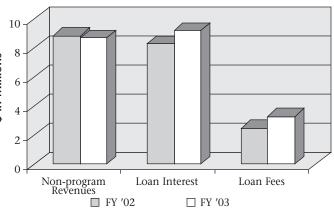

Figure 3

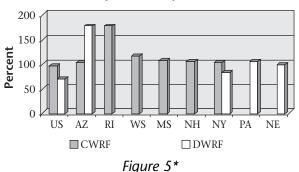

Arizona leads the nation in DWRF assistance provided as a percent of total revolving funds available for projects, more than twice the US average of 72%. It now exceeds the national average and comparable states for CWRF assistance, indicated in Figure 5.

Arizona's DWRF ranks 3rd nationally in assistance as a percent of federal capitalization grants, trailing only New York and Colorado, shown in Figure 6. Arizona's CWRF ranks first among the 52 states and US territories; it was previously in 8th place.

As a result of leveraging, Arizona's CWRF has provided an additional \$193.2 million, or a 49% increase. Arizona's DWRF ranks second in the US in additional leveraged assistance at \$131.6 million.

CWRF & DWRF Assistance Provided as Percent of Total Assistance Available

July 1987 - July 2003

Goal 3: Facilitate access to and efficiently deliver financial and technical assistance.

WIFA's principal mission is to improve water quality through the use of its funds. The Authority often provides assistance to borrowers with relatively weak or no credit. WIFA must do so without harming the integrity of the funds it manages.

During Funding Cycle 2003, WIFA financed a diverse portfolio of borrowers. The presence of strong borrowers within the portfolio benefits the weaker ones. As shown in Figure 7, WIFA provided fewer loans in Funding Cycle 2003 to borrowers with strong credit ratings than to those who were not rated. However, in monetary terms, the total amount loaned to strong borrowers exceeded the amount loaned to those who were not rated.

Through Funding Cycle 2003, WIFA maintained "Aaa" and "AAA" credit ratings from Moody's Investors Service and Fitch, respectively. WIFA was awarded these ratings due to its demonstrated commitment to responsible fiscal fund management. These ratings are the highest awarded, and reduce WIFA's cost of borrowing from investors

CWRF & DWRF Assistance Provided as Percent of Federal Cap. Grants

July 1987- July 2003

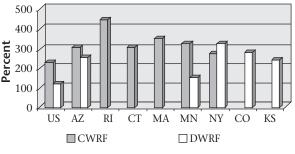

Figure 6*

when WIFA issues bonds. This allows WIFA to set its loan rates as low as possible, thereby passing the benefit of its credit rating along to borrowers.

During Funding Cycle 2003 WIFA received 52 applications requesting \$149,022,259 in financial assistance for wastewater projects and 55 applications requesting \$101,829,268 in financial assistance for drinking water projects.

WIFA approved loan resolutions for 7 wastewater construction projects for a total amount of \$36,400,245 and 11 drinking water loans totaling \$14,616,858.

Funding Cycle '03 Loans by Rating Category \$34,992,802

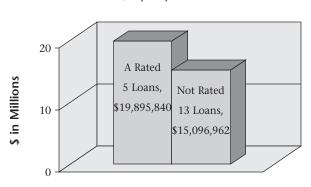

Figure 7

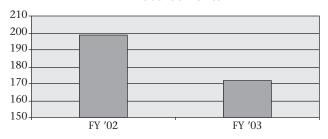

*Sources: Progress of the Drinking Water State Revolving Fund Program and Progress of the Clean Water State Revolving Fund Program, U.S. Environmental Protection Agency, 2003.

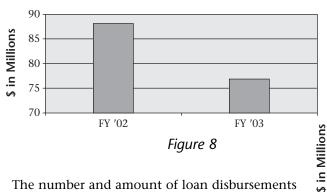

The Authority is able to provide technical assistance pre-design and design grants and loans to eligible wastewater and drinking water systems. It targets this assistance, made available through interest and fee earnings, to communities with fewer resources to develop projects.

In Funding Cycle 2003 WIFA received 22 CWRF applications requesting \$927,574 in technical assistance for wastewater projects and 32 DWRF applications requesting \$2,173,490 (includes one \$1 million request) in technical assistance for drinking water projects. Thirteen (13) wastewater projects received \$247,000 in technical assistance grants, and 18 drinking water projects received \$355,000 in TA grants.

Disbursements

Amount Disbursed

The number and amount of loan disbursements made by WIFA is shown in Figure 8. The number and amount of disbursements decreased by 14%, as compared to the prior year, and the amount of funds disbursed decreased accordingly.

Goal 4: Efficiently administer WIFA within a positive work environment.

WIFA seeks to reduce operating expenses and secure services from those qualified to provide that service at the least cost. Figure 9 shows the allocation of operating expenditures.

Operating Expenditures FY '03 \$ 1,336,210

Figure 9

In Fiscal Year 2003 WIFA increased its budget to accommodate growth and expenditures, and levels increased accordingly. WIFA continues to expend at levels substantially below its budget authority as indicated in Figure 10.

Funding Cycle Funding Cycle 2002 2003

Assets \$ 479.0 Million

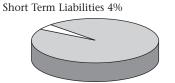

\$ 479.2 Million

During Fiscal Year 2003, WIFA's assets grew by \$.2 million, remaining almost the same as the previous year. In the last three years, WIFA assets have increased from \$346.5 million to \$479.2 million. This growth is attributable to increases in the loan portfolio and additional federal and state contributions.

Liabilities

\$ 252.4 Million

Long Term Liabilities 96%

\$ 240.5 Million

Short Term Liabilities 6%

WIFA's liabilities decreased from the previous year by \$11.9 million, primarily due to a reduction in bonds payable. These liabilities are directly linked to the Authority's leveraged loan portfolio and are also secured by investment reserves managed by WIFA.

Net Assets

\$ 226.6 Million

Unrestricted Net Assets 14%

\$ 238.7 Million

Restricted Net Assets 83%

WIFA's net assets are growing rapidly. In 2001, its net assets were \$204.3 million; by Fiscal Year 2002 they were \$226.6 million, and this year net assets increased to \$238.7 million. The equity growth rate for 2003 was 5%. The overall growth rate since 2001 is 17%.
