Subject: ASU West Strategic Plan Budget and Space Information

3/8/91

Attached please find the budget and space information for the ASU West Strategic Plan Update. I apologize for the late submittal. As we discussed, the data covers only the first three years of the planning period.

The FY 1992-93 budget information is derived from the Arizona State University West Five Year Plan, 1992-96 and may change depending on the campus' FY 1991-92 legislative appropriation.

If you have any questions, or require further clarification, please let me know.
