## SUPREME COURT

### TO HEAR CASES ON EVACUATION

The test case of Mitsuye Endo, who demands release from a war relocation center, will be "near the top of the list" of more than 500 cases to be taken up by the United States Supreme Court during the new term which opened yesterday, October 2, according to an AP report credited to Paul M. Yost.

Scheduled also is the appeal of a young man born in this country of parents who were nationals of Japan. He questions the constitutionality of the army evacuation orders under which he was taken from his California home and put in a relocation center in Utah. This refers to the Korematsu test case.

The Supreme Court is scheduled to have opened at noon yesterday for the first time since the last session ended on June 12. According to the AP report, the nine justices will be confronted by an unusually large stack of more than 500 cases piled up since they scattered for vacations.

## Bennett Reports On Conference

Project Director Leroy H. Bennett, who returned Friday from the Denver conference of WRA project directors, stated that the main topic discussed at the meeting was again relocation.

Another matter of importance discussed was the possible necessity of reducing various types of center employment if the labor situation becomes too critical.

Bennett also stated that since Tule Lake is so crowded, no transfers will be made to the Tule center except perhaps for single individuals, and

## PFC. HIGA SCHEDULED TO SPEAK THIS SUNDAY

Pfc. Thomas Higa, twice wounded member of the famed 100th Battalion and holder of the Purple Heart for battle scars suffered in Italy, will bring war accounts right into Rivers

this week-end when he addresses Butte and Canal Issei groups this Sunday with two talks in Japanese at the respective high school auditoriums.

Pfc. Higa is scheduled to speak at the Butte High School auditorium 2 o'clock Sunday afternoon, October 8, and at the Canal auditorium 7:30 that evening. Shimpei Tanaka and Frank Sasaki, representing the Servicemen's Parents and Relatives Association of Butte and Canal, respectively, will be in charge of program arrangements. The Nisei veteran is expected to arrive in Rivers sometime Saturday and may stay until Monday. His schedule, aside from the two talks in Japanese, are not definite.

A member of the "puka-puka" battalion composed initially of Nisei of the Hawaiian Islands, Higa entered the service in June, 1941. He was patrolling the beaches near Honolulu at the time of the Pearl Harbor attack. In May, 1942, the 100th Battalion left Hawaii to train for combat at Camp McCoy, Wis., and later at Camp Shelby, Miss. In August of the same year the 100th left for the Mediterranean theatre of war.

## COACH OBTAINED FOR OCT. 12

Since over forty people have already signed up to leave on the special train from Chandler on Thursday, October 12, it can be definitely stated that a coach will be chartered on that day, announced Wilson Hart, relocation adviser. There are, however, about fifteen additional vacancies on the train for any others who wish to leave. Reservations may be made this week at either the Butte or Canal relocation offices.

Reservations may also be made at any time during the next two and a half weeks for seats on the October 26 train. Present indications are that these two trains will be the last special coaches chartered this year for use of Gila relocators exclusively. Consequently, people who wish to take advantage of this facility, are urged to notify the relocation office as soon as possible.

## Chicago Offers Some Housing

Chicago, Ill.—A second unit of housing for young girls under the chaperonage of Issei couple is now available in Chicago. The first chaperoned housing available there was that offered at St. Mary's School for Girls.

The newest development in this field is the opening of a boarding house by Koichi and Matsuyo Matsumoto at 3949 S. Lake Park Avenue. The house itself and the equipment is above average and Mr. and Mrs. Matsumoto have agreed to carefully chaperone the residents on the upper floor which will be occupied only by girls, according to a WRA report from Chicago. Separate rooms on lower floors will be used by the girls for entertaining visitors. There will be accommodations for 20 young women.

## DEWEY AND EVACUEES

(Letter to S.F. Chronicle, September 25, 1944, by Monroe E. Deutch, vice president of the University of California.)

Editor -- In The Chronicle for September 19 I note the statement that Governor Dewey "expects to get first-hand information on the question of the return of wartime evacuated Japanese to Pacific states "from the people with whom I confer this week" in California." It is a little difficult to understand what this means. Since the Japanese and American-Japanese were removed from this area by the military authorities, their return will not take place until the military authorities permit. But when the military authorities have taken this action, it is difficult for one to see what the views of the people of California will determine. There is a document called the Constitution of the United States; I assume that, as an attorney, Governor Dewey knows it well. I should like to know under what authority it is legally possible to prevent American citizens, whatever their ancestry, from coming back to California after the military authorities have removed the ban. Or is Governor Dewey following the path of Governor Bricker, who stated that he favored allowing each community to determine whether the Japanese should be allowed to come back? The absurdity of that statement was pointed out by several writers to The Chronicle, including Chester Rowell.

I am sure that Governor Dewey would be one of the first to emphasize the importance of living fully up to the Constitution. This should be done, however, not merely in those instances where popular support is readily obtainable, but even for those who may momentarily be unpopular in the eyes of some of our people. Surely, when one reads of the heroic deeds of the Americans of Japanese descent in Italy and sees the commendation given to them by Lieutenant General Mark Clark, when one scans the list of Japanese names among the wounded and among the dead, he has no right to treat them as though they are anything other than loyal citizens of the United States.

## CHICAGO

### FIRMS EMPLOY JAPANESE

Raymond G. Booth, relocation officer in Chicago, writes that there are over 1700 firms in that city which are or have been employing Japanese and Japanese Americans. The number of persons employed by these firms ranges from one to 300. Not all of the firms are in defense work, but perhaps the majority of them are. In some plants prior PMGO clearance must be secured before entering upon the job. There are others where it is possible for resettlers to work pending PMGO clearance. In these cases the procurement agency agrees to make the "calculated rush" pending the clearances.

## DISTRIBUTION OF JAPANESE URGED

The expulsion of disloyal Japanese and a voluntary distribution of the remainder among the states were suggested by Senator Downey, Democrat of California, last Friday in proposing a national post-war "share the Japs" program, according to an AP release.

"It is my hope," said Downey, "that some mutually agreeable basis can be found, one that would be fair and acceptable to Japanese who are citizens, for dispersing them throughout the country. A few hundred or a few thousand in New York would not hurt, or a few thousand in New England or in Illinois or Ohio or somewhere else. Then there would not be any problem."

### Welfare Worker

William May, social welfare worker from Tule Lake, arrived here Sunday afternoon and has been assigned to the welfare section since yesterday.

## VOCATIONAL CLASSES OPEN FOR CITIZENS

The State Board of Education agreed Saturday, September 30, to open vocational classes for citizens from 17-25 inclusive, in the agricultural and allied fields, announced W.C. "Tom" Sawyer, supt. of education.

In 1943, Rivers had operated vocational classes and the enrollment had been 1,677. In November 1943, by the order of the State Board of Education, all support of such a program had been eliminated. Also, the State Vocational Board had ordered the discontinuance of such a program in the relocation centers of Arizona.

Following the issuance of such orders, the local education staff had been working on the matter. Saturday's decision was the result of the action taken.

The opening of the vocational program indicates that federal funds will be made available.

## BUTTE YBA TO FILL FIVE VACANCIES

Thirteen nominees to fill five vacancies on the Butte YBA cabinet were put up Sunday night at a short YBA meeting after the church service.

The positions to be filled because of vacancies left by relocation are two for the executive board, a secretary, a social chairman, and an usher chairman. The election will be held this Sunday.

The nominees are as follows:

He will work on special family problems under William Tuttle, chief of the social welfare section.

days, the state director of the Vocation Education office will arrive on the project to set the machinery in operation, said Sawyer.

The change in attitude of the board was due admittedly to the fine record which the project had made in army enlistment; response to selective service, war fund drive, and Red Cross drives; and the sales of bonds.

The following are some of the courses offered by the vocational board: operation, care and repair of tractors, trucks, and automobiles; metal work including welding, tempering, drilling, shaping, and machinery repair; increasing milk production; increasing poultry for meat production; increasing pork production; increasing vegetable production; production, conservation, and processing of food for farm families; and training of farm workers.

## Boy Scouts Enjoy Camping

Thirteen boy scouts of Butte, under the direction of J.T. Koseki, vice chairman of the Rivers district, returned Sunday morning from an overnight camping trip to Pima Butte some four miles south of the center.

They started on the trip 8:30 Saturday morning and were back 11 a.m. Sunday. The boys experienced tent building, hiking, nature study, cooking, and bed making.

Those who made the trip are as follows: Lawrence Matsumiya (lead off scout), Nobu Kimura, Harold Hasegawa, Takashi Narasaki, Robert Yagami, Tadashi Ikemoto, Takazumi Asakura, Akashi Asakura, Richard Yagami, Kiyoshi Tokubo, Frank H. Sata, Akira Ikeda, and Edward Ohta.

Koseki stated that the trip was possible because of the full cooperation of all mess supervisors in providing material for their dinners, the carpenter shop for the stakes, transportation for the canvas, and A.L. Griswold, who gave his personal attention to see that the boys had water.

### PVT. AWAKUNI BAZOOKA GUNNER GETS ARMY MEDAL

WITH THE FIFTH ARMY, ITALY--A nine-month veteran of the Fifth Army's Italian campaign, Private Masao Awakuni of Hilo, Hawaii, member of the 100th Infantry Battalion, composed entirely of Japanese American men from Hawaii, recently was awarded the Bronze Star for meritorious service in action.

An expert with the "bazooka" anti-tank gun, Private Awakuni has on several occasions disregarded his own safety to open fire on German tanks at close range.

Below Cassino, he knocked out a German tank and prevented a surprise attack on his company's flank.

While serving with the 34th Infantry Division in the Cassino battle, Private Awakuni lugged his weapon forward to within thirty feet of a huge German tank that was firing on his unit with a three-inch gun. Completely ignoring the great danger involved, he attacked the tank himself and set it on fire with his third shot. He was pinned down

## Broncos Coast To Easy Victory

Breaking loose in the opening minutes of the game, Broncos coasted to an easy win over the "rookie" Mustangs 18-0 last Sunday morning in front of a huge Sunday football crowd.

The Broncos booted the initial kickoff and intercepted a pass a few plays later to take the ball on the Mustangs 20 yard line. The following play caught the inexperienced Mustangs off guard as Tak Kiriyama of the Broncos rifled through center to emerge on the other side of the pile standing up to cross into pay dirt untouched.

In the second quarter, the Broncos again scored on a 25 yd. heave by "Muscles" Ushiro over Hiroshi Adachi's head into the waiting hands of Akira Tsutsui who trotted an additional 10 yds over the goal line ending the first half with the score highly in favor of the Broncos 12-0.

From the half the Mustangs played heads up and at times even threatened to march down the field for a touchdown.

But the Broncos, stopping these in time, marched down the field in the early part of the 4th quarter with Sam Nakashima hitting the center and "Muscles" Oshiro skirting around the ends. On the Mustangs 20 yd line, Akira Tanaka taking a double reverse from Ushiro scurried wide around left end to dodge one would be tackler and crossed into pay dirt with Hiroshi Adachi hot on his tracks.

After the final score both sides made little headway but credit goes to Benny Komatsu's deceptive running even though on the losing end of the crushing 18-0 defeat.

## CUBS ROLL UP IMPRESSIVE 26-0 SCORE OVER CANAL HIGH

Scoring in almost every period the Cubs rolled to an impressive 26-0 victory over the Canal High eleven in the opening game of the Northwestern League.

Although Ryono of the

Canal eleven kicked a beautiful punt of 50 yards from his own 5 yard line to the Cubs 45 the winners followed up with line plays and a 20 yard pass from left half Kenshi Zenimura to quarterback Tets Hasegawa who went over for the first touchdown. The extra point kick by Art Mikamo went wide of the goal posts.

### SAFETY ADDS 2

Immediately after their first score the Cubs' kickoff was fumbled by Bobby Nakagawa and was tackled by Tets Hasegawa behind the goal line for a safety which gave the Cubs two extra points.

In the third period Ryono fumbled a center on his own 20. The Cubs took over and six plays later Tanaka crossed into pay dirt. Kataoka's conversion kick was no good.

Marching from their own forty yard line, the Cubs scored again in the third quarter with Kenshi Zenimura hitting pay dirt on an off-tackle play. Kataoka's conversion pass was incomplete.

The winners final touchdown was scored by a 30 yard pass from Frank Tanada tonight end Hebert Sugiyama. In trying for the extra point, the Cubs fumbled a bad center and the try failed.

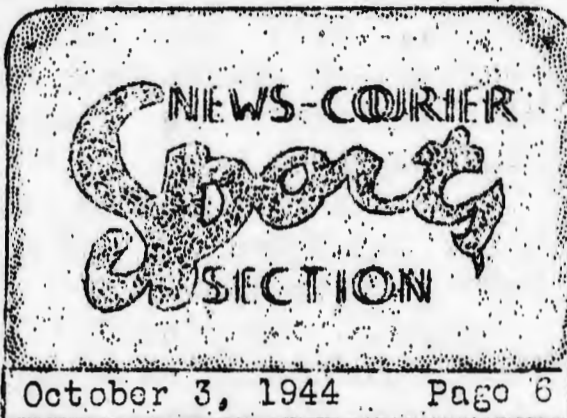

### 26-0

After the final score the Canal High eleven desperately took to aerial plays but just couldn't click, and as a result the game ended by a score of 26-0 in favor of the Cubs.

Playing heads-up through the whole game for the Cubs were Kenshi Zenimura and Tets Hasegawa. Goro Yamada substituted for Eddie Makimoto, who had been retired to the hospital after hitting a bench on the sideline, and did a creditable job of carrying the ball.

## RAMBLERS WIN IN LAST STANZA

The Ramblers still hold their undefeated record in the Southwestern League as they opened their 1944 season with a close 6-0 victory over the Yellowjackets last Sunday aft. Though the Yellowjackets threatened to score in the first half, the two teams battled evenly to a 0-0 tie, but the Ramblers, with a slight edge over their opponents, pushed across their only but decisive touchdown late in the final quarter.

The Ramblers got in scoring position when left end Ken Tashiro recovered a fumble on their opponents one foot line by left half Joe Arai of the Yellowjackets. On the following play fullback Eddie Akizuki of the Ramblers hit pay dirt on a line plunge through center.

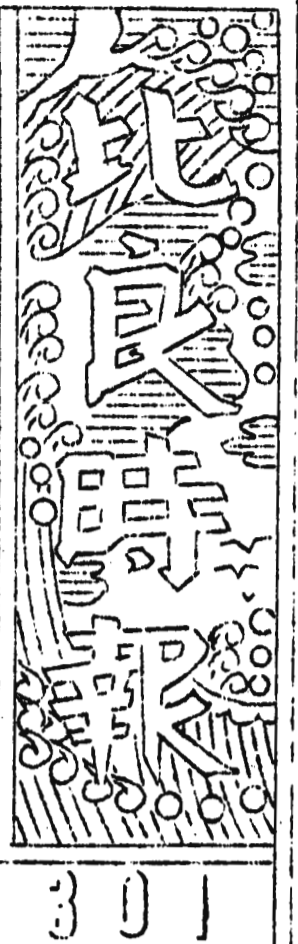

Left end Taka Hamamoto's conversion kick went wide of the uprights. With two minutes remaining in the game, the Ramblers defended their six points lead to emerge victorious for their sixth win in their football career.

## PASADENA

### Anti-Japanese Leader Reforms

"When I'm wrong I'll admit it, and I was wrong," admitted George L. Kelley, who was chairman of the "Ban the Japs Committee," last Saturday in Pasadena, according to the L. A. Times.

He and his committee for the past several weeks had bombarded the Board of Education, President Roosevelt, Governor Dewey and General Bonesteel with petitions protesting the enrollment of Esther Takai, 19-year-old Nisei, at Pasadena J. C.

Immediately after his resignation from the "Ban the Japs Committee," he applied for membership in the Committee for American Principles and Fair Play which the night before had sponsored the appearance of Dillon S. Myer, director of the WRA.

"That Dillon Myer followed convinced me. Why, I have always felt just like they do only I didn't know it. They practice civil rights. At that meeting the people I'd been bucking invited me to sit on the platform with them," said Kelley.

Mrs. Maynard Force Thayer, chairman of the

## BFD TAKES FIRST PLAYOFFS; PLAYED ERRORLESS OFFENSE

In the first game of a two out of three championship playoff, chucker Fred Minakata of the BFD ten delivered an exciting 1-0 shutout victory against Blk. 33 last Tuesday afternoon on the BFD field. BFD gave their chucker good support, playing errorless ball throughout the game. Though of the losers, Shorty Tanaka chucked a good game allowing only four safties.

The winners' deciding run was scored in the fourth inning as lead off batter Tad Nakamura reached first on an error, advanced to second on brother Roy's out and Ken Zenimura came through with a hit to right field to bring in the only run of the game. From there the winners defended their one point lead until the final inning to win the first game of a two out of three championship playoff.

The two teams will cross bats this afternoon on the BFD field and if Blk. 33 wins today, the third game has been set for Monday.

## HOW NISEI DEMOLISHED NAZI MACHINEGUN NEST

WITH THE FIFTH ARMY, ITALY--Assigned to knock out a machinegun nest that was puring harassing fire on his company position,

Technical Sergeant Bert M. Tanaka of Koloa, Kauai, with the assistance of his rifle platoon, took less than 10 minutes to complete the mission.

Tanaka fights with the Japanese American 100th Infantry Battalion then attached to the 34th "Red Bull" Division on the Fifth Army front in Italy.

The machinegun nest lay about 100 yards from them, partially hidden in the weeded terrain. As Tanaka and his men set out, they were met with blistering machinegun and machine pistol fire and were pinned down. Ordering his men to infiltrate around the flanks of the position, Tanaka proceeded to crawl directly toward it. At a given signal from himself, the men opened fire to cover his advance.

When he was 20 yards from the dugout, he opened fire with his carbine, emptied three clips, and then tossed four grenades in rapid succession at the dugout entrance. Combined with the increased

Students of Canal will undergo short periods Friday afternoon to see their prepsters in their second game of the season.

But the High School Eagles will play the Yellowjackets on Sunday because of there being only 2 sets of equipment in Rivers.

fire from the flanks, it forced the Germans to withdraw to the rear of their shelter.

## Chicago Plans JACL Chapter

Despite a rainstorm approximately 60 Nisei were present at the Chicago room of the YMCA College building on the evening of September 27 to welcome Tebure Hida, National JACL President, to Chicago. The affair turned out to be a grand union of former JACL leaders from Pacific N.P. to Southern California. The Chairman of the meeting was William Minami, formerly of Oakland.

Those present agreed to organize a JACL chapter in Chicago to assist and stimulate interest in the broad program the national headquarters had been carrying on in behalf of all persons of Japanese parentage. A committee of five was set up to draft organizational plans.

## GI JOE

### NISEI BROADCAST AT 4 P.M. TODAY

The NBC broadcast of "They Call Me Joe" today will be from 4:00 p. m., Mt. Standard Time instead of 10:00 p. m. as previously announced.

This broadcast will tell a story of a Nisei boy fighting in Italy and also the manner in which the earliest Japanese emigres severed ties with Japan and Japanese militarism and embraced American ideals.

### Butte Rec. Ass'n Meets Monday

### HIGA, VETERAN OF ITALY SPEAKS HERE TOMORROW

Pfc. Thomas Higa, twice wounded veteran of the 100th Battalion, is scheduled to arrive on the project sometime today and will speak in Japanese tomorrow at the Butte amphitheater and the Canal High auditorium at 2:00 and 7:30 p. m. respectively.

He will speak at 2, at the Butte amphitheater instead of in the auditorium since fresh paint is being applied on the auditorium floor.

A great deal of interest has been created in the lecture tour of Pfc. Higa, who is traveling under the sponsorship of the Japanese American Citizens League. His primary purpose is to speak in Japanese to the parents and relatives of the Nisei GIs overseas and explain the life of the Nisei soldier, their rela-

### MANPOWER COMMISSION DISCUSSES REASSIGNMENT

Brought about by the critical labor situation and culminating a series of meetings between community leaders and staff members, the executive committee of the Gila Man Power Commission held its organizational meeting yesterday.

John Fukushima of Butte was selected chairman. Other members of the committee are Ben Fukuzawa and Sam Mitsuyoshi from Canal and Tom Ikemoto and Joseph Koseki of Butte.

The entire Man Power Commission is composed of L. F. Bennett, B. F. Runyan, J. H. Janeway, John Seater, Hoyt Martin, Ethel Fleming, T. I. Reynolds, L. S. Plack, Earl Goodman, R. S. Davidson, Dr. West, Tom Vinson and James Shelley from the staff and John Fukushima, Mas Kato, Joseph Koseki, Tom Ikemoto, Ben Fukuzawa, Taketo Hamai, Shigeru Jio, Henry Yoshimi, Sam Mitsuyoshi and Shobei Sasaki representing the community.

After discussion of the labor situation in the Center the committee found there was urgent need for reclassifying and reassigning many workers who are employed in positions which do not use their highest skill. It was the consensus that the reassignment of workers to take advantage of their fitness and former experience will benefit the entire community.

The executive committee in cooperation with personnel management is reviewing all assignments to determine what workers are not working in proper jobs. Particular attention will be given to positions now held by men but which could be handled by women.

This survey will be (continued on page 3)

Everywhere Pfc. Higa has visited, he has been appreciated by the parents and relatives. His tour started from Spokane, Wash., on August 15 and continued through the states of Oregon, Idaho, Utah, Colorado, Nebraska, Wyoming, New Mexico and Arizona.

The Chicago committee in charge of the itinerary in the Midwest area are planning for his appearances in Chicago, Fort Snelling, Minneapolis, Ann Arbor, Detroit, Cincinnati, Cleveland and other communities where arrangements may be made before he proceeds to the East.

**OCHIKUBO**

**CASE DOES NOT AFFECT OTHERS**

Recent discussions in a number of project papers of the injunction suit filed by Dr. George Ochikubo to prevent interference with his proposed return to the West Coast military area, have included a misleading inference that should the case be tried in court its outcome will determine the rights of Nisei in general.

This, project attorneys have pointed out, is an erroneous interpretation of the facts. The Army has revoked the applicability of the mass exclusion order as far as Dr. Ochikubo is concerned and has issued to him an individual exclusion order. Decision in his case will therefore pertain to him alone, and will not decide the question of return to the West Coast of other evacuees, either individually or as a group.

**CLEVELAND AIDS FAMILY HOUSING**

A new policy designed to help families come to Cleveland as complete units and have immediate security of housing was announced today by Max L. Franzen, Director of the Cleveland Baptist Hostel here.

The new setup, worked out through a joint effort by Franzen, the Cleveland War Relocation Authority, the Cleveland Resettlement Committee and the Cleveland Federation of Churches, calls for progressively turning over the facilities of the hostel to family groups.

Under the plan, a man, his wife and children would live together in the hostel as long as it was necessary until adequate housing was found. The cost would be moderate, calling for \$1.00 a day for each adult and 50¢ a day for each child.

Franzen suggested that interested family heads contact the hostel representative or leave officer at each project to make the necessary arrangements.

**PREVENT THAT FIRE**

What! Another warning about fire, residents might say in disgust after being warned so often about that match, the cigarette, the rubbish, that lumber around the barrack, etc.

But this time it's no false alarm; it's the real stuff. For Rivers will be just one of thousands of communities in the United States that will be observing Fire Prevention Week from tomorrow until next Saturday, October 8 to 14.

**THE HAZARDS**

Fire prevention week comes at just about the right time too, for autumn is the time when fire prevention needs renewed stimulation. With the heat of summer gone and the cool mornings and evenings approaching, dangers of fire recede into the back of the brain to hibernate for the winter. It's exactly this type of attitude plus the coming of stoves that can cause a large fire, unexpectedly too. In fact it was on October 9 in 1871 that Mrs. O'Leary's cow kicked over a lamp to start the famous Chicago fire, which is still remembered to this day by this national Fire Prevention Week.

Rivers' part in fire prevention, not only for this special week but also for all the 51 other weeks of the year, will be to cooperate with the fire department in eliminating fire hazards.

Although Rivers hasn't suffered serious residential fires, the 31% increase in fire losses during the past year for WRA as a whole is not a pleasant indication.

Fire Chief E.D. Mausor lists the common hazards as follows:

Rubbish and scrap lumber, stoves, electric appliances and cords, smoking, and matches. He states that fuel oil must not be stored inside buildings except in screw top metal containers. Stoves should be in good condition before using this winter. Careless smoking too has caused most of the fires in the centers.

**OUR PART**

Rivers has a fire department in each camp, backed by a group of 598 volunteer firemen, 462 in Butte and 136 in Canal. Each block is organized into a company and a captain appointed for each group. They have been given special instructions in fire fighting, fire prevention, and the common fire hazards found in camps.

Add to this organization the conscious effort on the part of each of the 9000 residents to individually eliminate hazards, and we ought to have a pretty good protection against fire destruction.

## TOOELE OPEN TO FAMILY MEN

Men who have left the center on either indefinite, trial, or seasonal leave but who have not called their family, will be accepted for employment at Tooele Ordnance Depot, if they wish to be reunited with their family members. As in the case of family at the center, Tooele positions are open only to men who wish to move their entire family group to the Depot. Family heads who are now on the outside may obtain complete information regarding the Tooele offer from the nearest relocation office in the field. Such persons need not return to the project in order to apply for a job at Tooele.

## FIRE PREVENTION WEEK OCT. 8-14

## chushingura JAPANESE FILM TO BE SHOWN

"Chushingura," the popular Japanese film, will probably be shown in Butte and Canal on Tuesday and Wednesday evening of next week, October 10 and 11 at the respective community stages.

The Gila Health Committee, through the cooperation of the community activities section, has been granted permission to use this film as a benefit movie to raise money for the year's-end gift for hospital workers. The regular seven cents per head contributions have dwindled and the Health Committee has decided on this benefit movie to raise the year's-end gift for the hospital workers.

The benefit movie is sanctioned by the community councils.

## TRAIN LEAVES HOUR EARLIER

As a result of the time change, train schedules in Arizona hereafter will move departure times one hour earlier than heretofore. Persons leaving on the Thursday morning special train from Chandler will leave Chandler at 4:50 a.m. on October 12 and October 26. It will be necessary, therefore, for the relocators leaving on either of these two trains to leave the project by 3:00 a.m. on Thursday morning.

Although the train leaving on October 12 is almost full, there is an unlimited number of seats still available on the October 26 train which will probably be the last special coach of 1944, announced Wilson Hart, relocation adviser.

and 12 at the office of mess operation for the fall and winter term. Two lessons will be given each week with lecture and demonstration lessons by Dr. Grace Lawson, chief dietitian. Class hours will be 7 to 10 p.m. at mess hall 42.

A nutrition guide and the text book on "Large Quantity Bread Recipes" will be furnished to each student. Lessons will all be practical, worthwhile, filled with interest for every person, to make life better here and better when we relocate.

Dr. Grace Lawson has returned from one month's study of the new food materials and findings at the large universities on the Pacific Coast. Dr. Lawson is eager to have all the old students back and as many new one as can be accommodated.

A. J. Lorenz, chairman of the state food and nutrition committee, California War Council, will visit Dr. Lawson's classes in a few weeks. Also several other well known nutritionists are eager to see the work that is being done.

## OMAHA'S WAR INDUSTRIES FACE LABOR SHORTAGE

The latest labor-market information pertaining to the Omaha-Council Bluffs Area states that production of war materials vitally necessary to our armed forces is being delayed because of an acute labor shortage. In fact, the Omaha area has been reclassified as a Group II labor market. This situation is reflected in the Omaha VRA office by more and more unsolicited offers from essential industries.

A plan has been worked out by representatives of the Omaha Pacific Schools, the Chamber of Commerce, the Associated Retailers, and the Omaha Manufacturers Association whereby students whose scholastic standing permits part-time employment can be recruited. They will be able to put in 24 hours a week, 8 hours on Monday starting at noon, 8 hours on Saturday, and 8 hours distributed throughout the week.

## Seabrook Farm Seeks Workers

The general manager and statistician of the Seabrook Farms accompanied by Harold Ouchida and Kaoru Kamikawa, former chairman of block manager of Jerome, are visiting the project on their way to tour all the other centers to recruit workers for the farm.

Harold Ouchida stated that there are over 600 Japanese at the farm at present including the 79 families.

Thirty-four high school students are well accepted at the Bridgeton High School and 29 children are enrolled at the elementary school which is located within the project.

All four men will attend the block manager's meeting on Monday morning at Canal.

Anyone desiring information on Seabrook Farm may see one of the representative from the farm at the relocation offices.

# MYER SPEAKS IN BEHALF OF JAPANESE AMERICANS

"Americanism is not a matter of race or ancestry, but a matter of the mind and heart. It is a creed learned by practice and action." So stated Dillon S. Myer, WRA director, in behalf of the Japanese Americans at an inter-faith meeting at the Friday Morning Club in Los Angeles last Monday, according to the L.A. Times.

This was the second of his addresses in Southern California in which he spoke for the interests of the Japanese Americans.

"In the past several months the temper of public opinion on this issue of 'Ban the Japs' has been changing rapidly and unmistakably," he told the religious leaders. "The change has been brought about, I am convinced, by the magnificent combat record of the Nisei boys in the uniform of the US Army."

## 1300 MEN

He pointed out the record of the 100th Infantry Battalion which first met action around the Salerno beach head. To the 1300 men who have served in this unit, he said, more than 1000 Purple Hearts, 44 Silver Stars, 31 Bronze Stars, 9 Distinguished Service Crosses and 3 Legion of Merit medals had been awarded. The entire battalion had received a Presidential citation within the past three weeks, he also stated.

Myer reminded the audience that the Nisei in uniform, many of them evacuated from the West Coast 2 years ago, are not only on the Italian front, but are in Burma, China, the Pacific islands, and some with the famed Merrill's Marauders.

## 30,000 LEAVE CAMPS

Branding as extremists, those who keep the fires of hatred burning against the Japanese Americans, he said that "they based their suspicion not on disloyalty but on racial prejudices."

He disclosed that about 30,000 people of Japanese ancestry have been released from the camps, whose peak was reached at about 107,500 internees. Approximately 800 of that number are now living in the West Coast area.

### Canal Hi C's Tie Bobcats 6-6

Canal High "C" team regained its name partially by tying the hard-fighting Bobcats, who played their initial football game in the 1944 season, yesterday afternoon at the local Canal gridiron.

The Bobcats had the satisfaction of crossing the goal line first in the first quarter. Willie Fujimoto packed the ball through center to hit pay dirt for the first score of the game.

Canal Hi prepsters followed up in the second quarter by marching 40 yds. for the tying touchdown. On the Bobcats' 10-yd. line, Joe Hanashiro rifled through center on a reverse from Suyenori Yamada to land triumphant in the diagonal-marked zone.

From the half, both teams fought up and down the field, with Canal Hi holding the Bobcats on edge by threatening to score.

## CANAL GRADUATE WRITES ABOUT N.C.C. TRAINING

### Shintaku Injured On Battlefield

Pfc. Bob Kiyoshi Shintaku, son of Mrs. Toka Shintaku of the Colorado River War Relocation Center, was "slightly injured" on the Italian battlefield, according to a war department message received this week. Private first class Shintaku has already been awarded the Purple Heart for wounds received in action in Italy earlier this year, while he was a private.

Inducted into the army before the Pearl Harbor attack, the wounded soldier was formerly a filling station operator in Salinas, Calif.

## 33 DOWNS BFD TO EVEN SERIES; HITS 13 SAFETIES

In the second game of the two out of three championship playoff in the Men's Independent Softball League, the Blk. 33 aggregation downed BFD by an impressive 7-1 victory to even up the series with one win apiece. The third and deciding game is scheduled for Monday afternoon on the BFD diamond from 4 p.m.

### BUTTE

## CUBS AND EAGLES IN 2ND CLASHES

The jubilant Cubs and Butte Hi Eagles will make their second appearance on the gridiron by clashing with the Mustangs at 9:30 a.m. and the Yellowjackets at 2:30 p.m., respectively, at the Butte CAS, Lot 50 field.

Today at Canal, the Butte Broncos are tangling with the Canal Hi "B" team.

Chucker Shorty Tanaka was supported well, as his team played an errorless game on the defensive and showed offensive power as they banged away 13 safeties through the offerings of Chucker Fred Minakata, Hideki Yamanaka, Hiroshi Adachi, and Mas Saito led the winners at the plate with Yamanaka and Adachi collecting three safeties in three trips to the plate, and Saito singled twice in two tries.

Roy Nakamura and Joe Osada led the losers' offensive, collecting two for three hits. BFD's offensive was pressed down by Shorty Tanaka who allowed only six hits.

This Monday's game is the very final and deciding game of the Men's Independent Softball League, and BFD is favored as Blk. 33 will be minus their ace chucker Shorty Tanaka, who left for the US Army last night.

She is the daughter of Mr. and Mrs. K. Yagi of Newell, Calif. She went to Milwaukee from this project about a year ago.

## **PFC. HIGA**

### *Relates War Experiences*

Japanese American soldiers in the U.S. Army are fighting, not to kill or to win glory, but to insure a place in this country for all persons of Japanese ancestry. Nisei soldiers are valiant fighters because they have that purpose in mind. The greatest support that civilians can give to these fighting men is to keep writing letters to them in English or in Japanese.

This, in brief, was the message brought from Italy to Rivers' residents Sunday as Pfc. Thomas Higa, wounded veteran of the Italian battles, delivered his two and one-half hour speech at the Butte amphitheater Sunday afternoon and again at the Canal auditorium that evening.

Higa, who arrived here Saturday, left for Poston yesterday.

The Hawaii born, Japan educated, United States soldier Higa, speaking in forceful Japanese, gave an account of his experiences as a member of the 100th Battalion, which left Hawaii on June 5, 1942, left New York harbor on August 20, 1943, and saw first action on September 29 at Salerno.

Pfc. Higa discounted rumors that boys who enter the Army learn to gamble and dissipate in general, and that the Nisei battalion had to spearhead most

## **SUPREME COURT TO HEAR NISEI CASES THIS WEEK**

The United States Supreme Court will hear the Korematsu and Endo cases on Wednesday and Thursday from present indications. The first case on the calendar will be the Korematsu case which will decide the question whether the mass evacuation from the Pacific Coast of all persons of Japanese parentage was constitutional or not. The arguments are expected to start on Wednesday

afternoon.

The Endo case which will define the authority of the War Relocation Authority over citizens of Japanese ancestry who are now living in the relocation centers will be argued right after, most likely on Thursday morning.

Wayne Collins of the Northern California branch of the American Civil Liberties Union is expected to argue the Korematsu case. James Purcell of San Francisco is expected to argue the Endo case. Charles Horskey of Washington, D.C., ACLU member, most likely will be allotted some time to argue both cases.

These two test cases, according to the statement of Roger N. Baldwin, director of the ACLU, are the two most important cases pertaining to civil liberties to arise during World War I and World War II.

## **HOSPITAL PLANS ANNIVERSARY DAY**

The second anniversary of the opening of the Rivers hospital will be on October 24 at which time there will be an open house, announced Dr. Grace Lawson.

All residents are invited to the open house which will be from 2 o'clock in the afternoon and the garden party following which will be at the hospital lawn.

of the attacks. Higa stated that of the 1,315 soldiers not a single person started gambling in the Army; everyone who gambled there had gambled as a civilian.

He stated that in the Army there is no such thing as racial discrimination against Nisei. All soldiers take equal risks. When the first Nisei soldiers waded up to the Salerno

### **JAPANESE FILM TONIGHT**

"Chushingura," the Japanese film, will be shown tonight in Butte, and tomorrow night in Canal from 7.

The purpose of showing the film is to raise money for the year's end gift for the hospital workers.

Tickets are being sold by the block managers in their respective blocks.

The projection area in the amphitheater is not a reserved section but a section for those who are working during the evening to sit, announced Tosh Goto of the CAS.

Persons other than workers are asked to cooperate with the CAS by not entering the projection area.

## **USO DRIVE**

### *Rivers Asked To Raise \$900*

Arizona's USO drive starts next week with Pinal County's quota set at \$15,000, of which Rivers is asked to raise \$900.

Leslie J. Ross and Paul Loucks, representatives of the county USO Fund Committee were here today discussing Rivers' quota and details of the drive.

The Community Councils will be asked to determine whether they prefer to combine the USO drive and Community Chest drive as was done last year.

Funds for USO go to member organizations such as Salvation Army, YMCA, War Prisoner Relief, etc., while local community chest funds go to national agencies represented on the project such as Nurses Aides, Boy and Girl Scouts, YRA, YWCA, and YMCA.

# SANTA 'BARBARIANS' SIGN ANTI-JAPANESE PLEDGE

Pledges which forbid sale or lease of lands to Japanese after the war in the northern part of the Santa Barbara County have been signed by 1200 farmers in the Santa Maria and Lompoc valleys, according to the L.A. Times.

Robert E. Easton, chairman of the California Citizens' Committee, urged tolerance in the problem but asserted it would be better for all concerned if Japanese did not re-enter agriculture in this county. His committee is asking that farm land be held for use of Americans, including returning servicemen.

Before the Japanese exclusion, it was estimated that 2500 Japanese were engaged in agriculture in Santa Barbara County, and Easton said they controlled about 12,000 acres of

(continued from page 1) lerno beach, a six mile beachhead had already been won, and the other American soldiers were waiting to receive the Nisei. But, Higa added in his humorous way, of course it wasn't like being welcomed in to San Francisco or some other friendly port.

The Japanese Americans, when they first landed in Africa, were going to be used to guard railroads. It was then that the 100th volunteered for front line duty because they felt that a good combat record would insure all Americans of Japanese ancestry a place in the U.S. Thus the 100th was tried by the Army as a sort of experiment, passed the test of battle, and were found not wanting. They were "proved."

Higa described the Salerno battle of September 29, Castle Hill of Oct. 23,

farm land. He stated that much of the land was obtained through subterfuge and the soil was seriously damaged by excessive use of water and fertilizers.

He also said that the county committee had joined with the American League to educate eastern people on the West Coast's Japanese problem.

Stressing the importance of letters, he related an incident of a wounded soldier where a letter from his mother gave him the extra will to live, making him crawl 500 yards to safety, while otherwise he would have given up the fight. Paper and one envelope should be enclosed in letters to soldiers on the front, he said, because letters are often delivered in fox holes where paper is unavailable. He said that a soldier in a fox hole is eager to answer immediately because he may die any moment and he wants to let his folks know how he fared to the last moment.

## FOOTBALL

### Butte Hi Edges Yellowjackets

A lucky break at the half in the evenly matched pigskin thriller last Sunday afternoon gave the edge to the Butte High Eagles, who maintained the lead to pull out a close 6-0 win over the disheartened Yellowjackets.

It was the second quarter before the Eagles could gain enough yardage to make 3 consecutive first downs. Charlie Yamaguchi faded well back on the next play, dodged a few would be tacklers and heaved a 30 yd. pass into the Yellowjacket's end zone as the half whistle blew. The Yellowjacket's Teruo Kozaki relaxing a bit as he heard the half whistle blow failed to stop Shig Kawata from nestling the ball into his arms for the only tally of the game.

Determined to come out victorious, the Yellowjackets rolled up a number of first downs but finally ran out of downs. In the fourth quarter the tired Yellowjackets slowly gave way to the steady poundings of the Eagles, but was saved by a few penalties and fumbles on the part of the Eagles as the Butte Hi prepsters reached the 5 yd. mark to leave the score unmolsted at the end, 6-0.

## BRONCOS AERIAL ATTACK BREAKS CANAL HI DEFENSE

The hard hitting Broncos brought home a hard fought, 12-0 victory over a much improved Canal High eleven last Saturday afternoon. The game was played in a whirl of dust on the Canal gridiron which was in very poor condition.

During the first half, due to the dusty field, the smooth operating Bronco backfield had a difficult time getting their offensive power into high gear, and as a result the first half was battled quite evenly to a 0-0 tie. In the second half, the winners "came through" to score twice, once in the third and again in the last period on aerial attacks.

The Broncos's third quarter touchdown was scored on a sleeper when

## BUTTE FIRE DEPARTMENT CAPTURES SOFTBALL TITLE

B.F.D. captured the Butte Men's Independent Softball League Championship by rallying in the first inning to defeat Block 33 to the tune of 7-2 in the final championship playoff yesterday afternoon on the B.F.D. field. B.F.D. took advantage of chucker Ken Matsu-

naga's cold arm to score all their seven runs in the first inning. Chucker Fred Minakata of the winners, receiving good support, held down the losers to two runs.

George Kataoka led the winners at the plate with two safeties in three trips to the plate.

Batting honors for Blk. 33 goes to Art Mikamo and Hiroshi Adachi who also got two hits in three trips to the plate. Second sacker Honda knocked a round tripper in the fourth frame to score 33's second run.

The roster for the championship team is as follows:

George Ikenaga, Fred Minakata, Tad Nakamura, Roy Nakamura, Joe Osada, Ralph Osada, George Kataoka, Sam Kawahata, Eddie Iwao, Michio Iwao, Ken Zenimura, Tak Abo, and Tom Okahara (relocated).

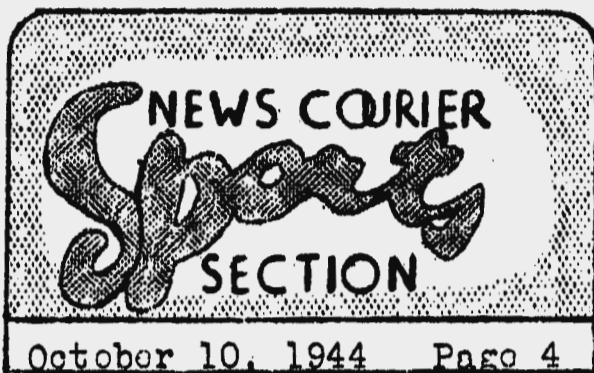

## NW LEAGUE

### Cubs Roll Over Mustangs 25-0

With one of the soundest offenses seen in the Northwestern League this year, the Cubs rolled up an impressive score of 25-0 against the Mustangs last Sunday morning.

The winners scored in almost every quarter with Frank Tanaka, Kenshi Zenimura, Tets Hasegawa, and George Okada sharing scoring honors.

In the first quarter Frank Tanaka scored on an off tackle play and Kenshi Zenimura followed with the same play in the same quarter. Both of the conversion kicks were blocked. The Cubs scored again in the third quarter when quarterback Tets Hasegawa passed to left end George Okada who caught the ball over the goal for the third touchdown. Frank Tanaka added another touchdown in the final quarter and also added an extra point on a quarterback sneak. From there, the Mustangs desperately tried to score a touchdown on aerial plays, but was unsuccessful and the game ended highly in favor of the Cubs by a score of 25-0.

With less than four minutes to play in the final quarter, the winners scored again on a pass, this time from Canal's 30 yard line. The pass was from "Muscles" Ushiro to left end Akira Tsutsui who ran over for their second touchdown. Fullback Sam Nakashima's extra point kick failed.

Playing an outstanding game for the losers were Bobby Nakamura with his deceptive running and Takashi Ryono with his beautiful punts.

## CO-OP REFUNDS

### Transferees To Receive Cash

Co-op patronage refunds for the fiscal year ending June 30, 1944, for those who went to Tule Lake, those relocated, and others permanently transferring or transferred from this center will be paid outright to them in cash.

This was the unanimous decision reached by the Co-op Board of Directors at a meeting held yesterday morning.

Refund checks for those already out of this center will be mailed as soon as correct addresses are notified at patronage refund departments in Butte and Canal.

Those leaving on indefinite leaves may collect their refunds upon presentation of revolving fund certificates, duly enclosed, and evidence substantiating indefinite leaves.

The Board of Directors agreed to pay to residents here, sometime around Christmas, a percentage of the revolving fund certificates issued for the past fiscal year ending June 30, 1944.

## 99½% DIE FROM NATURAL CAUSES

The War Relocation Authority revealed last Saturday that only 431 Japanese, interned in the WRA centers, had died from January 1 to October 1 of this year and that 99½ per cent of the deaths were from "natural causes," according to an AP release.

Of the 431 deaths, 75 of them occurred at the Tule Lake center.

Many of the deaths, WRA said, were among elderly Japanese.

The figures were released following a Tokyo broadcast which said "memorial services" will be held in Tokyo October 18, for "more than 1000 Japanese internees in America, Canada, Australia, and India" who have died since January.

**ITALY**

**Nisei Destroy German Nests**

WITH THE FIFTH ARMY, ITALY--Two Japanese American soldiers, homet own buddies from Waianae, Oahu, serving with the Fifth Army's Japanese American battalion in Italy, recently destroyed four German machinegun nests, enabling their platoon to capture an important hill position above Rome.

They are Technical Sergeant Yeki Kobashigawa, platoon leader, and Private First Class Shinyei Nakamine, both veteran infantrymen who have fought with the Fifth Army since Salerno.

As their platoon began its advance against heavy enemy fire, Kobashigawa and Nakamine crawled to within 50 feet of the first machinegun nest and silenced it with several well aimed hand grenades, capturing two Germans and killing one.

Similar tactics knocked out another gun emplacement directly behind it, yielding four prisoners in the process.

Leading their platoon steadily forward, they shot up two other machinegun nests with tommy guns at close range.

In this daring advance the two Hawaiians worked so swiftly and efficiently that their whole platoon suffered only one casualty though it was constantly moving against superior forces.

**BOOKS FOR SOLDIERS**

The suggestion had been made to JACL national headquarters from members overseas that the league should start a drive immediately to start book clubs for wounded Nisei GIs overseas. If this program were carried out, the soldier members thought that a little message written inside by the individual or organization would be appropriate. Then after the Nisei soldiers finish reading the books, they could be passed on to the American soldiers of other nationality background.

**INITIAL STEP**

As an initial step, books were purchased through the contribution of the JACL national headquarters' staff members. Other book lists are being compiled, among them being the forthcoming book of Carey McWilliams concerning the Pacific Coast evacuation. Also contacts are being made with publishing concerns in the East by the JACL New York office in order that special rates may be obtained.

The JACL office announced that it would be glad to accept money or latest books to be sent to the wounded soldiers overseas. Arrangements have been made with an officer of the 442nd to distribute the books.

Returning Nisei wounded soldiers all state that the latest books are in great demand. The boys take good care of them because everyone is anxious to read to pass away the time. Most of the books donated by many groups are old and out-dated so the latest publications are the things desired.

**FOR CHRISTMAS GIFTS**

The program of the JACL calls for sending the books by first class postage in order that the books may not go several months after mailing or be lost in transit. The Xmas gift season for overseas may be the ideal time to send these books to the 442nd Combat Team. The JACL National Headquarters or regional offices will be glad to help with the mailing.

He said, 'Out here in camp we have mail calls twice a day. I received my first letter from Uncle Sam, and my second I received today from my sister. ## CANAL HI CS & BS WILL VISIT BUTTE FOR THIRD GAMES

Canal Hi will buck up against the diligent Yellowjackets, who so far seem to have hit the hard luck side in their previous games, tomorrow afternoon, with the kickoff scheduled at 3:15 instead of 3:00 p.m. at the Butte lot 50 gridiron.

This is the second time Canal Hi will travel to Butte to play and will be confronted with a determined-to-win Yellowjackets eleven.

The following afternoon at 3:00, at the Butte field, the disheartened Mustangs will challenge the visiting Canal Hi eleven to determine which team will win the cellar champ spot for the first round.

## PHILADELPHIA HOSTEL REPORT

A total of 149 resettlers, including 14 family groups, were among some 200 individuals who were provided with temporary shelter by the Philadelphia hostel and otherwise aided in relocating during the period from early April, 1944, when the hostel was opened, until mid-September, a report from the Philadelphia W R A states.

Twenty Issei and 15 children under the age of sixteen were among the hostel's evacuee residents, most of whom resettled in Philadelphia or in other communities in Pennsylvania and Southern New Jersey.

In addition to incoming evacuees from relocation centers, the hostel sheltered 47 other persons. Among these were several Nisei soldiers on furlough and the five Issei from Gila River who were obliged to leave a farm at Great Meadows, N. J. by neighbors' protests and who were later employed by another farmer from nearby Newtown, Pa.

### Nisei Serve With Burma Marauders

Several stories have appeared in Chicago, Ill., and Madison, Wis., newspapers recently telling of the experiences of Japanese American soldiers serving with Merrill's Marauders in Burma. One story which appeared in the Wisconsin State Journal of Madison on September 12, 1944, and was given more than a column of space in the paper's editorial page consists of a letter from Sgt. Henry Goshō of Seattle, Wash., to his friend, Toshiko Senda. Sgt. Goshō says that there were 14 Japanese Americans serving with Merrill's Marauders. Sgt. Goshō writes in part:

"I am very proud to say that 14 of us were one of the first elements of Merrill's Marauders to leave the States...We hold the recognition to be the first Nisei to be assigned to front line action with platoons...I was proud to be with the boys because we were so readily accepted and the importance of

hostelers, was represented by the largest number of resettlers from any one center. Other centers were represented as follows: Central Utah, 20; Heart Mountain, 14; Minidoka, 11; Gila River, 10; Rohwer, 10; Granada, 9; Jerome, 8; and Manzanar, 6.

## 64TH REGIMENT

### SOFTBALL CHAMPS PLAY ALL STARS

The 64th Regiment's IRTC softball champions, consisting of Nisei, won one game and were tied once in a 3 game series with the Station Complement's All-Stars as of October 6, the Camp Blanding Bayonet reported.

The game was played at the Red Cross Field before 1,500 spectators. Twirling for the 64th's was Pvt. Jimmy Takahashi.

our work was recognized. Two hundred per cent cooperation was given us and they looked after us better than brothers.

"My baptism of fire came at Valawbeun (Burma) when our platoon was flanked on all sides by Japanese. Believe you me, Toshiko, the good Lord I know is looking after me. We were caught in a cross-fire of machine guns and all I got in this four hour battle was a bullet hole in my pants leg. My knees were shaking but strangely enough I was calm and collected enough to translate enemy officer's orders who foolishly shouted aloud and enabled us to know their next move...It was the calmness, coolness and alertness of the other 47 men in our platoon which kept me under control. Gee, but they sure are a bunch of swell pals and it brings a lump to my throat when I realize that each man in our outfit sort of secretly looks after my safety from capture.

## MAN POWER

### Age Ceiling On Four Mess Jobs

In a second move to alleviate the Center's critical labor situation, Gila's Man Power Executive Committee on Thursday, placed an age ceiling on four mess hall jobs. Hereafter no men under fifty will be assigned as dishwashers, potwashers, pantry clerks or timecheckers. Men under fifty now holding these positions will be transferred to more valuable assignments and replaced by women or older men. Through this program the Committee hopes to jar loose able bodied men now performing work in mess halls which could be done by women. These persons will then be available for more pressing jobs.

The Committee also tackled the mess operations truck swamper's problem. It developed that swamper's have been making deliveries only to the mess hall door, the pantry clerks taking it inside for storage. This system not only results in damage to the food but requires mess halls to maintain husky pantry clerks to handle it. It was recommended that the Supply Officer instruct swamper's to deliver merchandise inside the mess hall as directed by the Chef.

will not be tolerated. The Committee emphasized that all requests for transfer must first clear through personnel management. No one is authorized to contact workers regarding transfer except representatives of personnel management. Requests will not be approved if this procedure is omitted. It was pointed out that the administration of labor priorities rests solely with the personnel management section and possession of a high priority is not a license to violate established procedures.

The Committee also requested that division and section heads re-examine activities conducted by their units to see if unnecessary labor is assigned.

action taken by the council last year which provided that only Community Chest and Red Cross organizations might make a general solicitation for funds.

This action by the councils was taken, as the National War Fund again asked community support and as last quarter allotments were made to local organizations participating in the Community Chest.

The drive for funds will get under way next week, using the national slogan: "Give a Day's Pay!"

Teams from the various participating agencies will work with block managers and block representatives next week in conducting the drive.

The National War Fund is a federation of the leading war related appeals, except Red Cross, to provide essential wartime services to our Armed Forces, Merchant Marine and prisoners of war. Arizona is assigned to raise \$132,000, Pinal County \$15,000, and Rivers \$900. Last year Rivers topped its goal by giving \$922 and the community received State wide recognition and praise for exceeding its goal and being one of the first in the State to do so. The committee seeks to do the same again this year.

The Community Chest provides a fund from which all of the youth organizations on the project re-

vent delinquency followed. Arthur L. Griswold, Kimi Shigaki, and Helen Swift spoke on this subject. Principal Albert R. Hutchinson discussed the problem in relation to the school; he then introduced the old and new faculty.

An executive committee meeting is scheduled for next week. Regular meetings will be held on the second Tuesday of each month.

**THOMAS****Expresses Views  
On Evacuation**

Californians who oppose the return of the Japanese Americans to their homes in California "legally, if possible, illegally if necessary," do not believe in democracy, Norman Thomas, presidential candidate of the Socialist party, declared in a campaign speech before a San Francisco club on Sept. 26, according to the AP.

Thomas said the flareup of "racism" against the California-born Japanese is "a far greater danger to American liberty in general than to the Japanese Americans in particular."

He stated that "What was done on the west coast was, as Justice Murphy admitted, painfully similar in principle to the German treatment of the Jews."

Thomas insisted that "greed for land made fertile by Japanese skill and labor was partly at the bottom of the herding of these American citizens into concentration camps. Thomas argued that if military necessity dictated the treatment accorded them, they should be paid damages for what was done to them, "just as we give property owners damage for things done to their property under military necessity."

**GILANS NAMED  
IN ESCHEAT CASE**

The state of California has started an escheat action in Fresno Co. against Mr. and Mrs. Tamigoro Chiamori, residents of Canal, and their two sons, Akira and Yasushi.

The escheat case involves an 80 acre orchard and vineyard land, valued at \$50,000, which is located one mile southwest of Parlier. The state charges that it was owned by aliens of Japanese ancestry in violation of the state anti-alien land law.

The petition alleges that the alien Japanese obtained title to the property as the distributee of son, Kiyoshi, who had died. The property was

**PARENTS' RESPONSIBILITY**

The importance of the home, school, and religion in a child's life was outlined by Cecil F. Andres, assistant counselor of the social welfare section, in a talk entitled "Juvenile Delinquency--A Challenge to Parents," delivered before a meeting of the Butte Elementary PTA last week.

One of the big factors leading to juvenile delinquency is unhappiness, turmoil, and discord between parents within the home, the one place where a child looks for support though all else in the world may fall apart.

**A SECURE HOME**

Mrs. Andres stated that the most important influence in a child's life is his home, his parents, and family life. To a child his parents represent almost God-like beings. A child must have a sense of "home" as a place where no harm can come to him because his parents are there. He should have the feeling of security of acceptance and understanding. Parents must set a constant example of honorable character for the child to follow.

It is not mere chance that the greater number of delinquents come from broken homes where parents are separated, divorced, or where there is such unhappiness between the parents that it almost soaks into the child's body.

When a child enters school, the teacher can only share but never completely take over the parents' responsibility. The child must have definite hours for study at home. The parents must see to it that he is never unnecessarily absent since such habits lead to laziness, discouragement, and failure. When a parent fails to meet this obligation, when a child truants, then the community must step in because such neglect can be a threat to all.

Religious training is of utmost importance. It is one of the greatest sources of ethics, faith, courage, and comfort.

**COMMUNITY'S PART**

How can society as a group prevent juvenile delinquency? Youth must be given outlets to their natural instincts for dare and adventure. A youth center might be a solution. A clubroom, perhaps, where boys can make as much noise as they want without being bothered, play games, turn on the radio or phonograph. They can be taught to make things such as airplanes, cabinets, desks, or clay articles. Exhibitions of these articles will serve to give incentive to their efforts. They must be given tools of learning, for play and for work.

In conclusion she declared to her PTA audience:

"The world moves forward on the feet of its children. Will these feet be strong, sure, purposeful or will they be faltering, wayward and lead to destruction for themselves and their people? How will we meet the challenge? The answer rests with you."

then transferred to Akira and then to Yasushi.

The petition charges that the conveyances from the father to Akira and from Akira to Yasushi were subterfuges to cover the fact of the father's illegal ownership of the farm.

## NISEI TEST CASES TAKEN BEFORE SUPREME COURT

The Korematsu and Endo cases, testing the constitutionality of evacuating and confining American citizens of Japanese ancestry, were taken before the United States Supreme Court on Tuesday, according to the AP release.

### KOREMATSU

Fred Korematsu, formerly of Oakland, asked the high tribunal to rule on the validity of evacuation orders which resulted in his being placed in the Topaz WRA Center. Mitsuye Endo, formerly of Sacramento, demands freed from the same center and a court declaration that she has the right to go wherever she pleases.

The court was told that there is no question of the loyalty of either to the United States, and that there was no evidence involving any Japanese American citizen in espionage or sabotage on the west coast.

### ACTION UNINTENDED

Attorneys for Korematsu charged that neither Congress nor the President intended such action and said that only in Nazi German could a similar "imprisonment program" be

## LEADERS TRAINING INSTITUTE TO BE ORGANIZED HERE

A Leadership Training Institute, the purpose of which will be to train community activity leaders, club officers, and advisers, and to help individuals in general to grow through group experiences will be held in Rivers from November 7 through November 17.

Chief of this Institute will be Masao Satow, executive secretary for Japanese work of the national council of the YMCA, who will arrive here on October 30 to set up the Institute. Satow was formerly general secretary of the Japanese Y in Los Angeles.

Others who will participate in Gila's Institute are Marshall Stalley, community activities adviser from Washington; Esther Briesemeister, secretary, Japanese project, national council of the YWCA; and Juanita Luck, Children's Bureau, Dept. of Labor.

Miss Briesemeister will not be here for the total Institute. She plans to come here on November 6 and leave on November 11 for Manzanar. Two other centers, Rohwer and Manzanar, will carry on a similar program of leadership training.

A.L. Griswold, Rivers CAS adviser will attend a Phoenix meeting Monday with all group work agency people to plan for the Phoenix people to participate in the Rivers Leadership Training Institute.

## Special Coach For October 26

Definite assurance may now be given that a special coach will be chartered on October 26 for relocaters who wish to travel on the Southern Pacific announced Wilson Hart, relocation adviser.

About 15 seats are still available for persons who wish to travel on this train, but have not yet made reservations.

Reservations can be made at either the Canal or Butte relocation offices any time next week.

 FOUND: A gold bracelet in block 65 girls' wash-room. Claim at block 65 managers' office.

## Six Juveniles Disturb Peace

Six young juveniles, children of appointed members, charged with reckless driving in block 73 and disturbing the peace, were picked up by the internal security Wednesday night, stated John Nichol, police chief.

The boys were arraigned before Project Director Leroy H. Bennett this morning. The sentence will be announced later. Complaints against these boys had come in from block 73 residents.

Counsel for Miss Endo contended that the only legal ground for her detention was "implied authority" said to be conferred by Congress and the President.

Solicitor General Charles Fahy urged the court to consider circumstances involved in the cases in the light of sacrifices made by millions of other citizens so far in the war.

Fahy said that after the attack on Pearl Harbor, evacuation and detention were necessary, that it has always been the government's plan to restore evacuees to full liberty as soon as circumstances permit, and stated the people concerned had been treated in a "fair and decent manner."

### JACL EXPENDS

JACL National Treasurer, Hito Okada stated that the Citizens' League was spending close to \$1500 on these test cases; \$3000 for research; \$500 for attorney's fee; about \$300 for printing the report; and the balance for traveling and other incidental expenses.

**FUND DRIVE  
TO START**

(continued from page 1)  
ceive funds to carry on their programs

During the past year most of the furnishings in the YM and YWCA club rooms and the Girl Scouts and Boy Scout quarters were provided from community chest funds. The USO (Butte), Navy and White (Canal) had funds for games, socials and stationery for soldiers home on visits. The Y.B.A. used the funds for purchase of supplies for furthering its program, and nurses aides had funds for purchase of furniture for relaxation periods and items of special diet.

To carry on the expand the programs of these organizations community funds are needed and if juvenile delinquency is to be combatted the programs of the organizations must be expanded greatly, stated W.C. Sawyer, chairman of the drive.

Tickets may be purchased from members of the junior class. The yellow ticket must be exchanged for a reserved seat at the high school office before 4 p.m. Nov. 3. Only a limited number are on sale, and so those planning to attend are advised to get their tickets early.

## YELLOWJACKETS OVERPOWER CANAL HI FOR FIRST WIN

The Yellowjackets proved their driving and scoring powers by breaking into the win column yesterday, overpowering the unsuccessful Canal Hi "C" team 18 - 6 on the Butte gridiron in the inter-camp Southwestern "C" league.

In the opening quarter, lefthalf Teruo Kozaki's deadly pass, which went true, was nestled into his arms by Joe Arai, who hot-footed it across into pay dirt for the initial score of the game.

In the second quarter lightning fast, right half Joe Arai, on a wide end run from the Canal's 20 yard line, crossed into pay dirt for the Yellowjackets' second touchdown.

Canal's only score was made in the third period by "Toastie" Hiratsuka who caught George Katayama's pass on the opponent's 30 yard line and ran the remaining yards to cross the pay line.

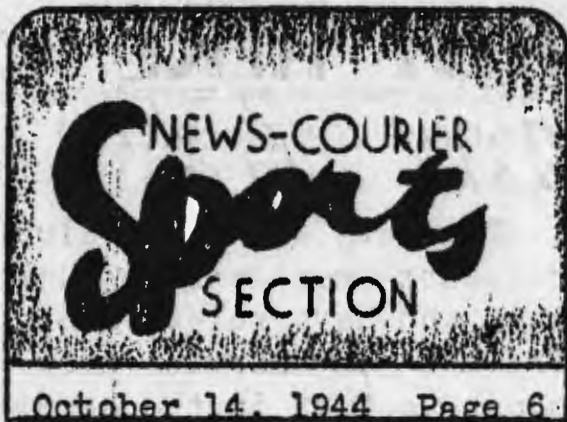

Late in the final quarter, the Yellowjackets scored their third touchdown as Kozaki's pass from Canal's 20 yard line to right end George Masagatani in the end zone was good for six points to end the third game the Yellowjackets encountered a success by a score of 18-6.

## NISEI COACHES UNDEFEATED TEAM

So far this season only three first downs have been scored against Ida's chargers, one by Nelson Hi on a penalty and the other two on passes by Edgar Hi School. Against both teams Deshler scored over 300 yards, 15 first downs, and completed 50 per cent of the passes attempted.

The ever rolling Cubs will clash for the third time in an all in all important pigskin match tomorrow morning at 9:30 as Broncos march proudly and bravely out on the Butte gridiron to challenge them to who will be crowned the first round champions.

So far in two starts, both teams have scored fairly evenly taking both games with comfortable margins. The Cubs have rolled up 51 points to that of a total of 30 accumulated by the Broncos. As evidence shows the Cubs are more powerful, but, it remains a question still to be answered as to who will win tomorrow's clash although the Cubs will be favored.

BRONCOS: LF-Min Mayeda, LT-Akira Tsutusi, LG-Yoshimi Shinto, C - Jiro Ino, RG-Herbert Tomiyasu, RT-Mort Kojima, RE-Sam Matsufuji, Q-Masami Fukai, LH - "Muscles" Ushiro, RH-Tak Kiriyama, F-Sam Nakashima.

## STOVES

### Housing Dept. Releases Policy

Due to shortage of stoves the following policies have been drawn up by the housing dept. approved by Project Director L.H. Bennett.

All single person will be allowed to remain where they are without stoves, but single men who want heat will have to move to another apartment which is occupied by a single person who has a stove. Single persons who have stoves must accept people moving in from a place without a stove. In some instances it may be necessary to move a stove and the single person from an apartment to a quarter of other single persons.

Except for moving, all requests must be taken up with the block manager. Contact the housing department directly when a family or single person wishes to move.

## CANAL COUNCIL MEETING MINUTES

The regular meeting of the Canal Community Council was held last Tuesday.

The council gave unanimous approval in holding a joint Community Chest and War Fund Drive. The War Fund Drive started on Sunday and will continue for a week with the quota for Rivers being \$900 this year. The cooperation of all was requested for the success of this drive. S. Uchiyama and Allen Aoyagi were appointed as the Canal Community Chest Drive Committee.

The chairman reported on the Manpower Commission's Executive Board meeting which was held in October at which time the solving of the labor shortage was discussed. The problem will be worked out by reassigning workers from less needed positions

## MYIER DEFENDS CITIZENS' RIGHTS

Dillon S. Myer, W R A director, told the "Remember Pearl Harbor" League organized by the farmers in the White river and Puyallup valleys in Washington, who oppose the return of evacuated Japanese, to "let these who want to fight go overseas to do it," according to the UP release.

He told Corydon Garret, newspaperman and spokesman for the recently organized league, that the organization advocates taking the citizenship away from the Nisei, and when they do that, they are "monkeying with your own citizenship and mine, and I don't care for that."

Myer believed that the friction was mostly economic, and that the sponsors of the league feared competition offered by the Japanese, who before the war were prominent in the truck farming industry in the White river and Puyallup valleys.

"They forget we have some 12,000 Japanese Americans fighting with our armies, some of them in the South Pacific," he said. "In one relocation center recently we had 46 gold star mothers whose sons had been killed in action."

to essential work.

The following persons were approved for appointment to the Juvenile Board: George Onoda, Mary Fukuzawa, Toyoko Ito, Masako Fukuda, and Kumakichi Sekiguchi.

The shortage of nurses aides for the Ward D will be further studied and reported by the Hospital Board. The help of the families of the patients in D Ward for their fine cooperation in alleviating the shortage of nurses aides by volunteering were appreciated.

## THIS WEEK

### War Fund, Chest Drives To Start

Rivers will begin her National War Fund Drive at the latter part of this week, announced W.C. "Tom" Sawyer.

Contributions will be collected by volunteer workers and block managers. Details will be worked out at a meeting today, when representatives of all organizations, which shall benefit from the drive, will work out plans for the drive.

Residents are reminded to keep in mind the slogan, "Juvenile delinquents don't develop in our organized clubs. Keep the clubs open. Give a day's pay to the Community Chest."

The distribution of the community chest funds collected last year was as follows:

Nurses aides - \$500,  
Y.B.A.-500, Y.M.C.A.-350,  
Y.W.C.A.-350, Girl Scouts-  
U.S.O. (Navy and White) -  
275. Total-\$2625.

## BUTTE BLOCK MANAGERS DISCUSS ART EXHIBIT

An art exhibit will be held on November 10, 11, and 12, it was revealed at last week's Butte Block Managers meeting by Meijiro Sato of the Butte CAS.

### DUNWOODY GIVES TRAINING PROGRAM

Complete information on the veteran's training program at the William Hood Dunwoody Industrial Institute is now available, states Maxine Hagan, student relocation adviser.

This institute provides industrial and mechanical training and is open to Nisei, other than veterans.

Any one interested may inquire at 13-10-A.

lowing Sunday.

Advisers for this group are Mary Mark and Tomiko Okuda.

The Block Managers, following the suggestion made by the disposal division representative, recommended that following points be made known to the block residents:

1. That shrubbery and branches be cut to a suitable length and left in a neat pile so that it could be easily collected.

2. That melon rinds, egg shells, coffee grinds, and orange peelings be placed in a separate box or container.

3. That notice be placed in the latrine for proper disposal of foreign material.

At this time James L. Shelly, successor to Hugo Wolter as assistant project director in charge of community management, was introduced. Reporting on the recent Denver conference, he stated it was based on the relocation problem, encouraging residents to think about relocation and its opportunities. For those unable to relocate and unable to take care of themselves, especially the old age and the sick cases, some adjustment will be made through another source.

A suggestion to retract the shower curfew regulation was unanimously accepted by the body.

One block manager stated that upon his personal investigation, about 19 steel beds were being used as a back stop for baseball games at the appointed staff field. His idea was that steel beds should be given to all residents having cot beds if such steel beds could be secured, and the body was unanimously in favor of his opinion.

## CURTISS CANDY COMPANY ASKS FOR MORE WORKERS

Because of the success of the evacuees at the Curtiss Candy Company of Chicago, Illinois, the plant superintendents are asking for more Issei and Nisei workers. Harry Mayeda, plant personnel department, has made arrangements with K. Matsumoto for housing and boarding girls who seek employment in the plant. There are adequate showers and bathing facilities and the hotel is within easy access of the various plants. Two to three girls will be in each room. Weekly rates are \$12.00 with three meals a day. Similar arrangements for housing and boarding of men, or couples without children have been made.

The plant also offer part time work for girls and boys who wish to go to school. At the present there are a number of students who are working on part time basis.

Anyone interested should contact the relocation office, Elmer L. Shirrell or Harry Mayeda, Curtiss Candy Company, 1101 Belmont Avenue, Chicago 13, Illinois.

## MUSTANGS DOWNED

### CANAL HI TAKES FIRST GRID WIN

The Canal Hi eleven took their first grid win in the Northwestern League as they downed the scoreless Mustangs by a score of 14-0 on the Butte grid-iron last Saturday afternoon.

The two teams battled quite evenly for the first three periods, holding each other scoreless, but in the final quarter the winners pushed across two touchdowns. The first touchdown was scored on a sleeper pass from the Mustang's thirty yard line by fullback Frank Katayama to right half Norio Aoki. A pass from Katayama to left end Kiyo Ogawa was good for an extra point.

#### FUMBLE BY MUSTANGS

In the closing minutes of the final quarter, Canal Hi recovered a Mustang fumble on their five yard line and on the following

## RAMBLERS TROUNCE BOBCATS; GAME FORFEITED IN FOURTH

The dazzling, deceptive runnings of Shosan Shimasaki was too much for the poor sportsmen of Canal as the Ramblers trounced the Bobcats 27-0 Sunday afternoon.

In the initial quarter of the game, the Ramblers kicked off and held the Bobcats to make it necessary for them to punt out. Taking the punt on his 30 yard line, Shosan Shimasaki ran the pigskin all the way back to the Bobcats' 20 yard stripe. A few plays later the deadly left arm of Shosan went to work as he slung a pass into the end zone right into the waiting arms of "Iggie" Tashiro. The conversion kick by Tak Hamamoto sailed true through the uprights for the extra point.

#### AKIZUKI SCORES

The following quarter, a punt by the Bobcats was again returned by Shosan of the Ramblers to the Bobcats' 10 yard line. In three consecutive downs, Eddie Akizuki, fullback of the Ramblers, plunged through the center of the line to hit pay dirt. On the conversion play, Tak Hamamoto kicked the ball

## CUBS TRIUMPH SUNDAY TO CAPTURE 1ST ROUND TITLE

A crowd of about a thousand people witnessed the grid clash which gave the Cubs the first round Northwestern League title as they defeated the Broncos 7-0 on the Butte grid-iron Sunday morning.

The Cubs played a very

play, Katayama hit pay dirt on a line plunge to score their second touchdown. It was Katayama again who passed to right end Joe Mori for the conversion point which cinched the game for Canal Hi at 14-0.

between the uprights for the second consecutive time to end the score at the half 14-0 in favor of the jubilant Ramblers.

#### SHIMASAKI ROMPS 70YDS.

The Bobcats kicked off to open the second half with Hamamoto returning the kick to the Bobcats' 30 yard line. The ball exchanged hands and on fourth down the Bobcats punted out of their territory. Shimasaki took the punt from his own thirty yard line and managed to get past his opponents' defense and romped over for a 70 yard touchdown. The attempted conversion was unsuccessful.

#### KOMATSU INTERCEPTS

Following this score, the Ramblers kicked off, and on third down the Bobcats threw a pass which was intercepted by Mits Komatsu from his own 40 yard line and ran sixty yards for the Ramblers' final score.

#### FORFEIT BY BOBCATS

The Ramblers discovered that the Bobcats were using several illegal players, and so the game was forfeited to them at the beginning of the final quarter.

interesting passing game as they took to almost nothing but aerial attacks by Kenshi Zenimura and Tets Hasegawa.

#### DEADLY PASSES PAY

The winners' only, but deciding, score came in the second quarter. On fourth down with one yard to go for first down, quarterback Tets Hasegawa from the Broncos 42 yard line passed to left end George Odaka who was tackled on the 21 yard line. The Broncos held for three downs, but on fourth down Kenso Zenimura caught a pass from Tets, slipped away from a tackler and plunged over for a touchdown. Kenshi Zenimura carried the ball on a quarterback sneak for their conversion point.

#### BRONCOS HOLD

In the Third quarter the Cubs threatened to score another touchdown when Akira Tanaka of the Broncos fumbled on his own seven yard line and Isao Yukawa recovered for the Cubs, but the Broncos line held for five downs. An off side penalty against the Broncos gave the Cubs the extra down.

#### CUBS SAVED

The Broncos counter attacked in the second quarter with aerial plays and were well on their way for a touchdown, as they started from their own 20 yard line and moved up to the Cubs' 25, but a 15 yard penalty because of an illegal receiver stopped the Bronco's chances of scoring.

#### BRILLIANT PLAYING

Playing heads up throughout the game for the Cubs were the Zenimura brothers and Tets Hasegawa in the backfield, and Isao Yukawa stood out in the Cub line. Sam Morishita did an outstanding job as linebacker.

#### "SPARKPLUG" FUKAI

Though on the tough luck side, quarterback Masani Fukai, as in other games, deserves much credit for the commendable job he had done of holding his team together. He led his team with plenty of fighting spirit, and never gave up until the final whistle blow.

## CHUSHINGURA

### Benefit Movie Nets \$888.50

The Gila Health Committee reported the net benefit of \$888.50 for the "Chushingura" movie program.

The financial report of the movie is as follows:

Incoming: Butte	\$582.70
Canal	305.80
Expense: Movie Fee	\$75.00

A special donation of \$75 from the Gila Co-op paid for the movie fee making the net balance of \$888.50

This balance will be reserved in the health fund until the end of this year to be presented to the hospital evacuee personnel as their annual bonus.

The Committee expressed its appreciation for the cooperation given by CAS officers, Gila Co-op, Block Managers and the whole community in making the program a success.

## TWO COACHES FOR NOVEMBER

Because of the heavy demand for seats on the two special coaches chartered during October, plans have been made to schedule two coaches during November. They will leave Chandler on Thursday, November 9, and Thursday, November 30 at 4:50 a.m. Seats may be reserved on either of these coaches by persons on short-term or trial leave and visitors returning to eastern points, as well as by relocators who are taking indefinite leave.

Reservation of both trains may be made at the Canal or Butte relocation offices at any time. The coach leaving Gila October 26 is almost completely full, although several seats remain available for emergency use by last mi-

## WAR FUND, CHEST DRIVES GET GOOD PARTICIPATION

Generous subscription to the United War Fund and Community Chest greeted workers who started the campaign among the appointed personnel on Tuesday afternoon. The campaign teams report practically unanimous participation with many staff members giving more than a day's pay and very few giving less.

The drive started among the appointed personnel before the general community drive got under way because of the comparative

simplicity of organizing the drive among the appointed staff and the desire to make a good early showing in the state campaign.

Representatives of the various participating groups in the Community Chest and of churches, councils and block managers are meeting today at 4:30 in Butte and Friday at 11:30 in Canal to organize and plan their campaign for the drive in the various blocks.

Saturday's NEWS-COURIER will carry more detailed account of the time and method of soliciting in the blocks. "We have set \$3000 as our goal," says W.C. Sawyer chairman of the drive, "and I feel confident that we shall be able to reach our goal." "We want it clearly understood however that this is to be a voluntary contribution. Credit will be given to those who do contribute but no workers will return to 'pressure' people who feel that they cannot give."

## Plans Progress For Institute

A steering committee to draft plans for the Leadership Institute scheduled here from November 7 to 17 is being appointed this week.

A.L. Griswold, CAS supervisor, who attended a Phoenix meeting Monday, states that members of the Phoenix YMCA, YWCA, girl scouts, and campfire girls indicated they may participate in the Rivers Leadership Institute.

Among the tentatively listed activities for the Institute are an arts and crafts exhibit, club group meetings, general assemblies for all young people, an Armistice Day parade, football games, and a social evening.

The chief of the Institute will be Masao Satow, executive secretary for Japanese work of the national council of the YMCA, who will arrive here at the end of this month. The purpose of this Institute is to strengthen leisure time services for people in relocation centers by helping individuals lead and participate in group activities.

minute travelers.

## Men Needed To Install Stoves

Eight men are needed immediately to help install stoves in evacuee barracks. Unless these additional workers are secured at once the installation of stoves will not be completed before cold weather sets in, stated Thomas I. Reynolds, a assistant personnel officer.

This is a permanent job and experience is not necessary. The Manpower Executive Committee has given this work a high priority rating and men not employed in other essential activities should apply to the personnel management section for transfer if they are interested in this work.

## T/S Chomori's Commission

WITH THE FIFTH ARMY, ITALY--For demonstrating exceptional qualities of leadership against the enemy on the Fifth Army front in northern Italy, Technical Sergeant Masuo Chomori, formerly of Glendale, Calif. has been commissioned a second lieutenant.

A platoon sergeant with the Japanese American 442d Regimental Combat Team since its activation in Camp Shelby, Miss., in February, 1943, Chomori won his battlefield commission for his exemplary and inspiring leadership during both training and battle periods. He demonstrated his abilities as a field commander under the most adverse conditions in combat.

When his platoon leader was wounded during an attack in the vicinity of Suvereto, Italy, Chomori assumed command. His rifle platoon was counterattacked by enemy forces consisting of one infantry company, three Mark I V tanks, and one self-propelled 83 - mm gun. The enemy also had the advantages of commanding ground, initial surprise, and superior fire power.

Chomori reorganized his platoon and directed its withdrawal to a more tenable position. His cheerfulness and efficiency contributed much to the maintenance of morale in his platoon and company.

On another occasion, in the vicinity of Hill 140, near Molino A Ventoabbato, he again assumed charge of his platoon when his platoon leader was wounded. His company had dug in to hold off enemy counter thrusts after capturing its objective. His platoon was entrenched in the center of the company sector on high ground which dominated the fields of fire to the company front.

Toward evening, German artillery laid an extremely heavy barrage on the Japanese American positions, followed by a concentrated 81 - mm mortar barrage.

## Chicago's Church

Established to be of assistance to its members relocating to this area, the Chicago Buddhist Church, 5487 S. Dorchester, was opened Sunday, October 8, with an inaugural worship service of dignity and beauty. A good-sized congregation chiefly Nisei but including Americans, of other ancestries, was present.

The Rev. Gyomay M. Kubose, pastor, officiated, with the aid of Roy Y. Higashi, assistant minister and executive secretary. In his sermon, "Life Without Regret," the Reverend Kubose, who was born in San Francisco and graduated from the University of California, emphasized Nisei dedication to the teachings of their parents and the principles of their fellow Nisei who are giving their lives on scattered battlefronts. The sermon, as well as all other parts of the service, was in English.

The new church is affiliated with the Buddhist House of Los Angeles and the Dharma House of Santa Fe. It will maintain a counselling service for resettlers and assist with such problems as housing and general information.

### FOLLOWERS WIDESPREAD

The incense offering was particularly impressive with representatives of the eight War Relocation projects, Nisei servicemen, the Issei, and longtime Japanese American residents of Chicago taking part. Included were: George Fujihawa, Central Utah; Bob Shimizu, Colorado River; Jiro Aratani, Gila River; Kikuyo Masuda, Granada; Asako Kubo, Heart Mountain; Kiyo Nishimori, Manzanar; Koichi Hayashi, Minidoka; Shig Kitahata, Rohwer; Sgt. Hiroshi Taniyama, Camp Snelling; Teruo Muroyama, Chicago, and T. Mayeda, Issei.

The service was opened by Arthur A. Takemoto, executive secretary of the Young Buddhist Association of Chicago, who introduced Taro Kawa, chairman, formerly an active Bussei leader of Los Angeles and Gila River. Takemoto, who is from the Colorado River and Central Utah centers, is the only Japanese American member of the Board of Directors of the Buddhist Brotherhood in America.

G. Raymond Booth, Chicago district relocation officer of the WRA, gave a congratulatory message, while Gustav Carus, attorney and son of the late Dr. Paul Carus, author of a number of well-known books on Buddhism, responded in behalf of the church. A period of silent meditation was observed for the nation's war dead.

### OFFERTORY

The offertory ceremony was conducted by Handy Matsuda, San Fernando and Gila River, and James Mayeda, Los Angeles and Manzanar. Helen Munekiyo of Yakima, Washington, and Heart Mountain, was the pianist.

The Reverend Kubose was in Japan for six years of graduate study after leaving the University of California. He returned to this country just before the outbreak of the war and was associated with the Buddhist Church in Oakland. A former resident of Heart Mountain Project, he is planning to visit various centers in the near future. Mrs. Kubose and their two sons, 7 and 3, are presently living with her parents at the Colorado River Project.

In the face of the extremely difficult and hazardous situation Chomori displayed extraordinary coolness in controlling his men. Several German counterattacks in force were driven back, largely through the effective rifle fire of the platoon under his direction. Though his group suffered ten casualties during this action, he personally supervised their evacuation to safer territory.

In all subsequent action, for a period of almost three weeks, he remained in sole charge of his platoon in lieu of an officer during some of the bitterest fighting for the approaches of Pisa and Leghorn.

His wife, Mrs. Elsie F. Chomori, lived in Compton, Calif., before she was evacuated to the Rohwer Relocation Center. His parents, Mr. and Mrs. Kin-saku Chomori, and four brothers and two sisters live in the Manzanar Relocation Center.

A 5% an hour increase in wage rates is now in effect at Seabrook, which means that men are now paid 60¢ an hour and women are paid 55¢. ## BAPTISTS URGE FAIR ATTITUDE

A resolution urging that Japanese authorized to return to Pasadena area be received with "true Christlike spirit," was adopted by the delegates to the Southern California Baptist convention in Pasadena last week, according to the L.A. Times.

The resolution follows:

"Sharing as we do with our fellow Christians the firm conviction that individual human personality and intrinsic worth of Christian character transcend all barriers of class, creed or race, now therefore be it resolved by the Southern California Baptist convention that we individually and as a community co-operate in every way possible with the WRA and with all other government agencies by receiving with true Christlike spirit these persons of Japanese ancestry whose return to the Pacific Coast has been duly and regularly authorized and whose return to their homes in this area will not, in judgement of those authorities, be inimical to the best interests of our State or nation."

## DEATH

### Fall Fatal To Ex-Lodi Man

Teruo Matsumoto, 28, of 44-14-D, died yesterday morning from injuries suffered when he fell from a mess operations truck on which he was working. His father, Gunichi Matsumoto, believed to be residing in the Rohwer Center in Arkansas, is being notified.

Young Matsumoto fell from the back of a vegetable delivery truck just before it stopped at mess hall 40 to unload vegetables about 9 o'clock yesterday morning. He apparently landed on his head and fractured his skull. It was apparently accidental as far as could be determined at this time.

Judge Walter B. Love, ex-officio coroner for Casa Grande, will investigate the matter and will announce officially the cause of the death.

## SEEK STUDENTS PREFERRING WEST

Persons interested in attending colleges on the Pacific Coast are asked to submit their names to 43-3-A, stated Mabel Sheldon.

The request for names is made by Marjorie Noble, secretary of the Friends of the American Way.

## BLOCK DRIVES BEGIN NEXT WEEK

Block by block drives for the Community Chest and the National War Fund will start next Wednesday in Canal and Thursday in Butte. Those days were chosen to avoid engei-kai and movie nights.

Block managers and councilmen of the respective blocks will be assisted by teams formed by the various center organizations in making house to house drives for donations from each worker.

## DIET WORKERS BADLY NEEDED

Special diet for hospital patients will have to be discontinued unless more workers are obtained for the dietary department, Dr. Grace Lawson, chief dietitian, declared.

Recovery and often the lives of many patients depend on these special diet that they are receiving, she stated.

The present diet workers are so over-worked that they must have a rest or they will soon become hospital patients themselves.

Dietary workers are given lessons while they work. It is one of the most desirable places in the hospital to work, Dr. Lawson stated.

Workers should apply immediately with Dr. Lawson at the hospital diet kitchen. English speaking ability is not imperative.

The slogan is "give a days pay," as it was last year, but it must be clearly understood that contributions are entirely voluntary, stated W. C. Sawyer, chairman of the drive.

that some manpower is being wasted due to irregularities in scheduling workers and in time reporting. A survey is now under way to determine how much leakage is resulting from this practice. The Committee also recommended that section and unit heads carefully examine this matter to see that timekeepers are making correct entries on time reports.

The serious shortage of stove installation workers came in for more attention. It was decided that if sufficient workers do not come forward voluntarily it will be necessary to effect transfers from among those holding less essential jobs.

R.S. Davidson, chief of agriculture, gave the Committee a resumé of the survey he is conducting in the agriculture section. He stated a great many places had been discovered where a little tightening up would lead to better utilization of available manpower.

It was emphasized that section and unit heads must be more prompt in notifying personnel management when a project or activity is temporarily closing or nearing completion. In this way the workers can be transferred to other jobs without loss of time. These workers would, however, be available to return to that job if it reopened.

## NISEI ENGINEERS ON THE FRONT

WITH THE FIFTH ARMY, ITALY--An advance company of volunteer Japanese-American Engineers has been working and fighting with front-line Infantrymen in the Fifth Army's drive over the forested mountains of northern Italy.

They built roads, constructed by-passes and picked up hundreds of enemy mines, all in range of German shell fire--meanwhile knocking off their share of Krauts.

### TOUGH JOB

Part of a special regimental combat team activated and trained at Camp Shelby, Mississippi, last year, all members of the Engineer company are Americans of Japanese descent who volunteered for combat duty from Hawaii and relocation centers in the United States.

When they joined the Fifth Army as fresh troops, they were assigned the main road of advance in their sector--one of the toughest jobs on the front.

"From the first day we knew we had a smart, rugged gang," said First Lieutenant Frank Hanten of White Lake, South Dakota, Engineer officer. "They're eager to learn and they cooperate perfectly. They're a good GI Engineer outfit."

Their normal work is routine and laborious. Road gangs swing picks and axes in broiling sun, often missing the noon meal. Sometimes they work 24 hours in one shift, filling up shell holes with rocks and gravel.

### CLEAR THE WAY

One of their most important jobs in constructing by-passes--emergency run-arounds through stream beds where retreating Germans have blown up bridges. Huge, rumbling bulldozers and air drills are used for this work. As soon as the Krauts give up a bridge position, the advance Japanese-American Engineers swarm in to chop down trees around it, grade down the embankments. With every minute counting, the husky little GIs,

## APPLYING FOR RETURN

The Friends of the American Way group of Pasadena has suggested the procedure to follow for evacuees formerly of Pasadena who are eligible to return to the Western Defense Command area.

We believe that the procedure is a good one to follow for any evacuee who wishes to return to the Western Defense area and are printing it for those who might be interested.

1. Have a definite place to go to live. If you are to live with a family in the community, have them write you a letter telling you they want you and what the living arrangements will be.

2. Have a definite job and a statement from your employer giving the terms of employment, type of work, etc. If you are going to school, have a copy of your admission papers.

3. Send these with your request for return to the coast to the Commanding General, Western Defense Command, Presidio, San Francisco, Calif. He is the only person who can grant you this permission.

In sending these applications to the Commanding General we believe that the applicants should also give other pertinent information, especially if they have family members or relatives in the armed forces of the United States. Indications are that those with close relatives in the armed forces get quicker and more favorable action on their applications.

The general policy of exclusion from the West Coast still remains, and each application is considered individually.

## CINCINNATI

### Marine's Appreciation

The Rev. John Yamazaki, former Gilan, now an Episcopal priest in Cincinnati, tells a story of a Cincinnati Nisei girl bride and her experience on a recent trip to visit her soldier husband at Camp Blanding in Florida.

The Nisei bride was reading a paper in the coach when a Caucasian Marine came to her, tapped her on the shoulder and asked: "Are you a Nisei?"

Here is her account of what followed: "I wondered why he should ask me but I told him I was a Nisei. This seemed to please him very much. 'I have been in the South Pacific for two years,' he told me, 'and I have been very close to the Nisei out in the front lines. I owe plenty to the Nisei and I want to show my appreciation. You must be my guest for the rest of the trip.'

"From then on (the bride continued), he took me to all my meals in the diner and insisted on paying for them and for all other incidentals on the trip, like papers, magazines, sandwiches and coffee. I knew I would have hurt his feelings if I refused."

## STATE ATTORNEYS URGE LIFTING OF COAST BAN

Attorneys general of California, Oregon, and Washington, on October 7, petitioned the U.S. Supreme Court to lift--as soon as national security permits--civilian exclusion orders against citizens of Japanese ancestry issued by military authorities in the West Coast area, according to an AP report under a Washington dateline.

Filing a joint petition as friends of the court in the case of Fred T. Korematsu, Oakland Nisei, the petitioners said the high tribunal had emphasized in the decisions handed down previously that except in the most unusual circumstances racial discriminations are prohibited. The petition asserts that "it was reasonable for the military commanders to meet the danger threatened (after Pearl Harbor) from the unidentified disloyal members of the group (of persons of Japanese ancestry) by excluding the group as a whole." The attorneys concluded, however, that "the restrictions placed upon this group of our citizens must be removed as soon as the military authorities determine and the national security permits."

**YATABE-YOSHINO TEAM MAKES ROCHESTER TOUR**

The team of Dr. T.T. Yatabe and Miss Ruby Yoshino completed their visit to the Rochester and Syracuse district and returned to New York City. Approximately 3462 persons were contacted, the largest audience being about 2500.

The reception in the beginning was rather cold and even the sponsors were skeptical. But once the people heard Dr. Yatabe speak and Miss Yoshino sing, many extra requests were made. The team was invited to return next spring when the friends promised to arrange for many more meetings. Inasmuch as the Rochester area has considerable prospects for farming, the visit has been declared to have laid a good foundation for a friendly reception for settlers.

The JAFL Sponsors' Committee, consisting of Mr. and Mrs. Harper Sibley and Rev. Dr. E. McNeill Poteat, and the Rochester Resettle-

ment Committee, were helpful in arranging the meetings. Gaude C. Cornwall, formerly relocation officer in the Topaz Relocation Center and now resettlement officer at Rochester wrote to Peter Aoki of the New York JAFL office to the following effect about the meeting at the Fairport High School:

"They listened in complete attention to Dr. Yatabe and gave him an ovation at his conclusion, and I felt that the reaction was in complete sympathy with his presentation. Miss Yoshino's concluding numbers were heartily applauded, and members of the faculty who came up to greet us afterwards expressed appreciation."

## Ramblers Annex Third Grid Win

The Ramblers annexed another win as they traveled to Canal and edged out a close 7-0 win over the Canal Hi eleven yesterday afternoon.

This triumph was the third for the Ramblers and gave the Canal Hi eleven their third defeat.

The Ramblers pushed across the only touchdown of the game late in the second period. Starting from their own fifteen yard line, the Ramblers marched the remaining yards to score on line bucks by fullback Eddie Akizuki and end runner and passes by left half Shosan Shimasaki. The final play which gave the Ramblers the six points was a line buck through the center by fullback Eddie Akizuki from the two yard line with only twenty nine seconds of play remaining in the first half. Left end Taka Hamamoto placed a conversion kick straight through the uprights for the extra point.

The winners successfully defended their precious seven point margin and as a result came through with the 7-0 victory.

## CHEST FUND

### Drive Starts Here Tomorrow

The community chest and National War Fund Drive will be held tomorrow in Canal and Thursday in Butte.

Residents are urged to be prepared to give their contributions to the volunteer collectors.

This is the only time during the year that Gila will have the opportunity to support their youth activities, and so generosity in donations is urged by the drive committee.

The Canal elementary staff was the first unit to gain the 100% mark. Their contributions exceeded a day's wages.

Thus far, the appointed personnel has contributed over \$500.

Estimates of property damage ranged up \$15,000,000. Officials of the Gas Company, owner of the \$6,000,000 liquifying and storage properties, said an explosion in a near-by testing laboratory of the American Gas Association apparently fired the liquid gas tanks. The cause is not known.

## SEABROOK

### Kawamura Says More Jobs Open

Additional opportunities exist for a large number of family groups to resettle successfully at Seabrook Farms, according to Hideo Kawamura of 31-13-B, who has returned from Seabrook for a visit. Kawamura transferred here from Jerome and left Gila in July for Seabrook, where he has been working since that time. He states that the reports to the effect that Japanese workers are only getting 5 hours of work a day are unfounded. He states that he has worked continuously on an 8 to 10 hour day since his arrival there and lost only 2 days time when the hurricane hit the Atlantic Coast last month. He is certain that all persons now on the job at Seabrook will work a minimum 48 hour week throughout the winter and that starting next March or April, they will have unlimited overtime.

Kawamura is a foreman at the dehydration plant where he is in charge of a group of men. He states that he was worried at first when large groups of Issei from Gila River arrived at Seabrook in August and September because he feared that community sentiment would be unfavorable since many of these people have difficulty speaking English. After they had been there several weeks, however, he became convinced that his fears were needless, for all the Gila families seemed to make a satisfactory adjustment.

## EVACUEE FARMER GETS \$1,500 LOAN FROM FSA

Word was received recently of a \$1500 Farm Security Administration Government Loan made to an evacuee farmer who settled near Lapeer, Michigan. A complete account of the case was given in a letter from the FSA County Supervisor to Lee A. Marsa, relocation officer, in Detroit.

### FROM ARKANSAS

The evacuee farmer relocated from Arkansas Center in 1943 and worked for a farm near Lapeer on a salary basis during the summer. Of that year in the winter, he earned additional capital in a Detroit war plant. Since he had been a truck farmer and produce man in California, he returned to Lapeer in the spring and on the basis of recommendations from his former employee and the County Agent, who he had met the proceeding summer his loan was approved. Since machinery, including a truck, was leased with the farm, the money loaned was used entirely for operating expenses. Security consisted of a mortgage on the crops to be grown this year. Although the farm was hampered in the earlier part of the season with difficulty in obtaining satisfactory labor, workers were finally recruited from the center and the crops were not seriously affected.

### LOAN SUCCESSFUL

The FSA man writes, "From present indications I believe that the loan will be a financial success as well as giving the applicant an establishment of his own. The farmer's two children attend a rural school near the farm and the family states that the children like their school work very much and are getting along better than they did in California. Produce is marketed on the eastern market in Detroit.

"This family is making an attempt to get along in the community and seem to be succeeding well. They exchange work and use of machinery with the neighbors and also have attained some valuable advice as to farming practices," the letter concludes.

Anyone desiring to get rapid, efficient training in any of these courses to go into well-paying jobs, should come immediately to Des Moines on community invitation and get enrolled for school work and take a part-time job, if necessary for maintenance while in school, according to Frank E. Gibbs, relocation officer.

## BUTTE GRIDSTERS

# Squeeze 9-0 Win At Canal

An unusually large crowd of football fans saw the invading Butte gridsters capture the Canal eleven by a score of 9-0 Sunday afternoon in an unlimited exponent clash played on the Canal gridiron.

The Butte eleven scored their touchdown early in the first quarter. The winners started their offensive march from their own forty yard line and got into scoring position on the five yard line on line bucks by Hank Kanemoto and off tackles and end sweeps by Min Sakaguchi. Hank Kanemoto hit pay dirt after three successive line bucks. Min Sakaguchi's extra point kick failed. Butte added three extra points in the third quarter when Min Sakaguchi kicked a field goal from the twenty-five yard line.

On several occasions the Canal eleven came knocking deep into Butte territory but was stopped every time by the charges of the Butte line, and as a result the game ended 9-0 in favor of the Butte eleven.

## MORE ON SEABROOK

(continued from page 1)

In Bridgeton, a town of 1500 located a few miles from Seabrook Farms, stores, restaurants, and other public places have given unqualified welcome to Japanese, citizens and aliens alike. A bus runs between the Farm and the town every Saturday for shopping tours. He feels that by this time most of the family people are settled and content.

### LITTLE SOCIALS

There is still a number of jobs and housing available for single people, but he feels single people are not satisfied at Seabrook because there is not enough social activity.

Two-thirds of the apartments that have been built for family groups are still vacant and more are being built. All the vacant ones are brand new and clean. No family at Seabrook has paid any rent for his living accommodations nor will be expected

# EAGLES TROUNCE BOBCATS; TAKES THIRD STRAIGHT WIN

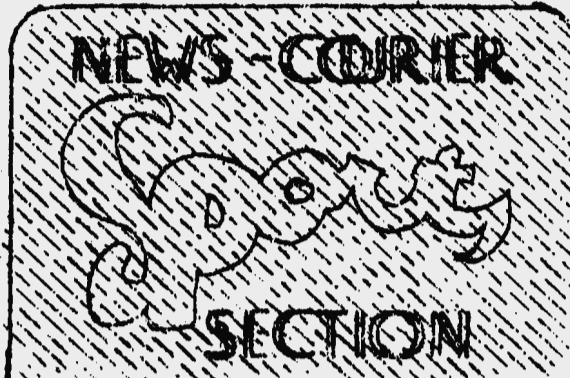

The Butte High Eagles dumped the Bobcats of Canal by an impressive score of 32-0 on the Butte CAS gridiron Saturday afternoon.

The Eagles scored in almost every period as they crossed the pay line twice in the first quarter, once in the second,

and twice in the last.

In the first quarter, fullback Charlie Yamaguchi scored the initial touchdown from the four yard line on an off tackle play. Right end Shig Kawata placed a kick through the uprights for the extra point. In the same quarter Yosh Yamaguchi followed with the second touchdown as he smashed through from the one yard line. In the second quarter Yosh Yamaguchi scored again as he took a reverse from quarterback Teruo Katayama from the four yard line and bucked through for the winners' third touchdown to put the Eagles ahead at half time by a score of 14-0.

In the last quarter, a Bobcat punt from their own ten yard line was blocked by Jim Kataoka and recovered by left end Jim Taniguchi in the end zone to give the winners another touchdown. Shig Kawata's kick was again good for an extra point. Willie Mukai scored the final touchdown as he ran back a punt for a forty five yard touchdown. The Eagles' attempt for an extra point failed and the game ended with the Butte High Eagles on the victorious end of a 32-0 score.

### WAGE RISE

Recently the WLB authorized a wage increase so that now persons at Seabrook are paid a starting wage of 60¢ an hour for men and 50¢ for women. Mr. Kawamura figures that this is equivalent to 85¢ or 90¢ in Chicago or Cleveland and that housing at Seabrook is better than that available by evacuees in any of the larger cities until they have been there for a considerable length of time. In addition, Seabrook pays a 2½¢ bonus at Christmas time for all hours worked during the preceding year to every worker who is per-

manent. As soon as a worker acquires a permanent status he is admitted to the Union. Most of the evacuees expect to enter the Union in December. The production record at Seabrook during the last three months has proved to the management that Japanese workers are more efficient than white or Negro workers. Consequently, Mr. Seabrook is anxious to staff his plant with Japanese workers 100% and shall assure them top wages and ideal post-war opportunities.

### 'HAVE MADE GOOD'

"Japanese Americans at Seabrook have made good. For anyone who wishes to return to normal life as soon as possible, Seabrook is the best place," Mr. Kawamura concluded. Anyone who wishes to discuss the matter personally with him is invited to his home at 31-13-B.

## WAR FUND

### CHEST DRIVES CONTINUE TONIGHT

Everyone is urged to be ready to give generously to the War Fund and community chest when contacted tonight, stated W. C. Sawyer, drive chairman.

The appointed staff contribution has reached \$962 with some small amount yet to come in.

Despite windstorm and rain, about half of the Canal blocks almost completed the drive last night.

Honors for the highest contribution for the first night go to block 3 in Canal which turned in \$50.81 with few families yet unaccounted for.

Last year blocks 27 and 46 stole honors for highest donations for the two camps.

### The resolution, passed BROWN ACTS AS CAS SUPERVISOR

Dr. G. Gordon Brown, community analyst, will act as community activities supervisor from today until Monday, October 26 through October 30. A. L. Griswold, the community activities supervisor will be on leave during that time.

on Monday, October 23, reads as follows:

Be it adopted by the evacuee residents of Butte community represented in the Community Council of Gila River Relocation Center, Rivers, Arizona, as

WHEREAS, the majority of residents in this center are still bearing undue financial burden beyond their means by maintaining the old customs of exchanging gifts on various special occasions, and

WHEREAS, many of the residents during meal time are in the habit of practicing improper customs in the mess hall.

## CRAFTSMEN BUILD 800 MODEL SHIPS

The Navy flier hunting enemy targets in Philippine waters will spot warships faster because he first learned their outlines through ship models made by Japanese American craftsmen in the Gila River Relocation Center, the WRA reported last week.

Young Americans, with Japanese names and faces, built nearly 800 models of Japanese, German, and American ships for the Navy in the ship model shop at this center.

### VALUE

The value of the miniature craft is estimated at \$25,000 in monetary terms. They are considered of inestimable value in teaching new Navy personnel attending ship identification training classes, the characteristics of ships of various types and nations. Except for materials the work was done at no cost to the Navy, the WRA reports.

The pocket-size counterparts of World War II warships range in size from two inches to two feet. The fleet, fashioned from poplar, scrap pine, and tin cans, included small replicas of the German battleship Tirpitz, the German cruiser Prinz Eugen, the German destroyer Koln, a number of submarines and many PT boats.

### SPECIAL JOBS

One of the scale model Prinz Eugens was presented to Mrs. Roosevelt, when she visited the center, as a gift to the President. One of two special jobs, a seven foot fully operative miniature of the Cruiser Cleveland was placed on display in a Naval laboratory in New York City. The other special undertaking valued at \$1200 was an eight-foot replica of the U. S. S. South Dakota, with all parts operative above the waterline.

One particular order called for two-foot long precision minatures of a number of models of Japanese ships. These, scaled down to exact detail and valued at \$60 each, were produced at the rate of 40 a month.

## DENATURALIZATION LAW

The law permitting an American citizen to renounce his citizenship, while residing in this country or its outlying possessions, is now operative, following the recent publication of procedures in the Federal Register.

No application will be accepted unless it is submitted in accordance with the regulations. Only individual applications will be considered.

Information received in Washington from the field indicates that few evacuees will take action under the new law.

The Department of Justice has indicated that no renunciation will be granted without careful examination of the facts and the reasons motivating the application. Requests for renunciation from citizens who are motivated by a desire to avoid Selective Service or other legal obligations, will be subject to particular scrutiny.

Highlights of the procedure follows:

The applicant forwards to the Attorney General his application for renunciation of citizenship, on the prescribed form, together with specified citizenship documents. Forms may be secured from the Attorney General as soon as they are printed. In the event the requested renunciation does not appear contrary to the interests of national defense, a hearing is conducted by a hearing officer whom the Attorney General designates. The applicant is notified of the time and place of hearing.

After the hearing the applicant may file formal renunciation of citizenship on a prescribed form and request its approval. The hearing officer recommends approval or disapproval to the Attorney General. This officer is authorized, also to consider results of investigations and available records from government agencies and other sources.

A renunciation of citizenship does not become effective until the Attorney General approves it. Notice of approval or disapproval is given the applicant. If approval is granted, other stipulated government agencies are notified so that the renunciation may be recorded on specified documents pertaining to the applicant.

Full particulars may be obtained from Project Attorney James H. Terry.

The wearing of coats by men at any special gatherings, assemblies, or meetings during the hot season be discontinued.

Second, that the practice of presenting or exchanging gifts on special occasions be discouraged.

AND BE IT FURTHER RESOLVED, that in the mess halls such practices by adults as eating without a shirt or shoes, or with a hat on one's head be peremptorily discontinued. A mess hall is a public place and should be so respected by the residents.

That a copy of this resolution be published in the GILA NEWS-COURIER, a copy noted on the permanent record of the Council, and a copy of the same be delivered to the Project Director.

Passed and approved by a majority vote of the Council this 23rd day of October, 1944.

## BUTTE COOKING CLASS TO LEARN "PIE BAKING"

"A Piece of Good Pie" will be this Friday's lesson at the Butte cooking school which is meeting at mess hall 42.

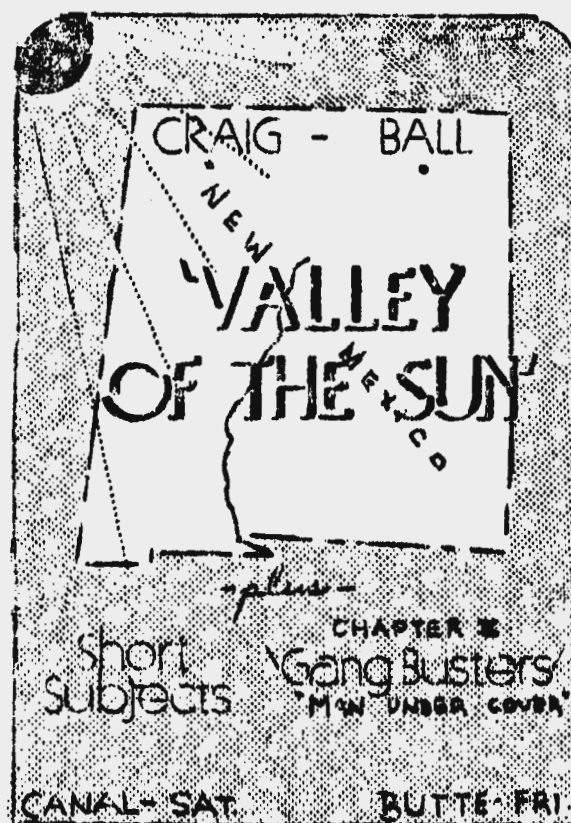

There were more than a hundred requests for this lesson, stated Dr. Grace Lawson, chief dietitian. This lesson is one of the most popular and was repeated seven times last winter. It was mostly the men members of the class that requested the lesson. "Men know a good pie when they eat one," was Dr. Lawson's comment.

Registration for these cooking classes will close at the end of this month. The classes are called "The 'Basic Seven' Nutrition and Cooking Class."

The Wheat Flour Institute of Chicago has supplied copies of the "Large Quantity Bread Recipes" free along with its best

wishes and commending the Issoi in particular.

The General Mills, Inc., at Minneapolis has supplied copies of the "Nutrition Guide" stating that it is dedicated to better nutrition for the American people.

## 500 SCHOOLS ENROLL NEARLY 3,000 NISEI

Five hundred and fifty American institutions of higher learning have enrolled nearly 3,000 Japanese American students in the past two and a half years, comprising almost all the young evacuees formerly in relocation and assembly centers who wanted college training, the War Relocation Authority reported this week.

The current enrollment is approximately 2,500 about evenly divided between men and women. Since selective service for Nisei was reinstated in January of this year, the percentage of male students had declined sharply. Many of the men, who might have gone to college, went from the relocation centers into the Army as volunteers and inductees, the WRA said, while others later interrupted their college studies to enter military service along with many of their classmates.

The Japanese American college group on December 7, 1941 totaled 2,300 Nisei registered in 74 colleges and universities in California, Oregon and Washington and about 200

## Chicago Has Jobs In Hotel, Restaurant

Iwaichi Ishimoto, formerly of Block 47 who has returned from Chicago on a visit is leaving this Thursday with his family to return to that city. I. Ishimoto and Fukuda have recently purchased a 350-room hotel at 670 North Clark Street. There are work such as janitors, housekeepers, dishwashers, cooks and bell hops. Top wages will be paid and Issei are preferred.

More than 700 sons from Gila make USO club rooms their "home" in off duty hours. Support the USO through your community chest drive.

## Nurses Return From Leaves

Three registered nurses of the Rivers hospital returned to the project this week after taking short leaves. They are Lena Bierdeman, Grace Pauline Kimmel, and Rosa J. Williams.

Gertrude M. Smith, medical social work consultant, left Tuesday night for Los Angeles as escort to two medical cases. She will be gone for about two weeks.

GILA SHIPS CAR OF VEGETABLES

One car of mixed vegetables from Gila's farm was shipped to the Manzanar Relocation Center yesterday. The vegetables included sweet potato, Armenian cucumber, turnips, and daikon.

Robert Davidson, farm chief, stated that the canning factory in Canal has tried dehydrating and canning some sweet potatoes. This has proved quite successful.

INFORMATION ON MIDWEST AREA

Leo T. Simmons, acting relocation supervisor of the Kansas City area office, has sent to the project a list of names and addresses of a number of Issci who have relocated in Des Moines, Iowa; Kansas City, Missouri; and Omaha, Nebraska. He suggests that any center residents who wish first hand information on any of these areas might write some of the people named on the list. Anyone interested in contacting these persons may find the list of names and addresses at the project relocation offices. Several former Gilans are included.

Catholic Mass This Sunday

Catholic mass will be held this Sunday at the 42-13 church. Catholic mass is held the last Sunday of each month. Father Clement will be present at the church service.

STAFF HOUSING

CHANGES LOCATION

The staff housing department, formerly located next to the agent cashier in the Butte annex building, has moved to the personnel management office in the same building. George Oye of staff housing says that his new telephone number is 235.

NISEI STUDY IN 550 SCHOOLS

(continued from page 4) in colleges elsewhere in the country. Evacuation from the West Coast in the spring and summer of 1942 virtually wiped out the enrollment there, leaving only the 200 Nisei students in colleges east of the Sierra Nevadas.

Through relocation to campuses away from the Pacific states, the college population of Japanese American students now has climbed back to the level existing at the time of Pearl Harbor, in spite of military inductions of students, annual graduation and other departures from colleges. The most striking change, the WRA pointed out, is that the Nisei are now studying in the classrooms of 550 universities, colleges and hospital nursing schools scattered through 46 states.

Each year about 400 of the 2,000 students who graduate from the high schools at the eight relocation centers leave to enter college. Since May 1 college applicants among those graduates have been accepted by more than 150 different institutions, WRA reported.

COUNCIL

TWO SUBMIT RESIGNATION

Two resignations were accepted by the Butte Community Council and new men were elected to take their places at a meeting held Monday in the 69-6 courtroom building.

Resignations were submitted by Joseph T. Koseki, vice chairman, executive board member of the council, chairman of the Recreation Association; and by Dr. David Takahashi, executive secretary and executive board member of the council. Both gave relocation as their reasons. Koseki has gone to Utah, and Takahashi left this morning for New Jersey. Both men expressed appreciation for the cooperation given them during their stay here.

Masato Kato of block 34 was elected vice chairman of the council, and Yoichi Nakase of 52 was elected executive secretary.

The following appointment were made by the chair:

D. Ichikawa of block 47; chairman of the Butte Recreation Association; John Fukushima and Masato Kato, committee on the Butte High School auditorium to make a schedule for the auditorium's use.

Donation For Soldiers Asked

Young Buddhists of Canal are asked to donate what they can to help buy athletic equipment for Nisei soldiers now stationed at Camp Shelby. A letter from Chaplain George Aki of the 171st Inf. Bn., Sep. Camp Shelby, asked for the above donation.

Since many brothers, friends, or relatives are in the service, contributions by young Buddhists is one of the ways to back the home effort. Interest in this matter will be greatly appreciated.

The contribution box will be placed at church at the YBA service this Sunday.

**WRA OFFICER****REPORTS FROM SEABROOK**

As a result of reports received by several center residents from friends or relatives at Seabrook Farms to the effect that Seabrook workers were not receiving full time employment, a letter was written to H. Leon Yager, relocation officer at Seabrook Farms in an effort to obtain the facts. Yager reports as follows:

**WORKING HOURS**

"The report that there is not, at present, enough working hours is false. Of course, there is part-time work available at Seabrook Farms for high school students who may be free on Saturday or for others who are mainly occupied with their family duties.

"I have interviewed a great many of our Japanese Americans at Seabrook in the past months and have made a point of finding out whether Mr. Seabrook's guarantee is proving true. That guarantee is that he will provide pay at the straight hourly rate and on an annual basis equal to an average minimum work week of 48 hours. In all of the interviews, I found not one who had fallen below an average of 48 working hours a week. Of course, more working hours will be available in summer than in winter.

**WAGES**

"Another rumor you mentioned is that Japanese workers are paid lower wages than non-Japanese workers in comparable service. As a matter of fact, our Japanese American men have been started at 55¢ an hour which is 5¢ above the usual starting wage. This is done on the basis that our Japanese Americans are experienced. It should be remembered that Mr. Seabrook desires to obtain the Japanese Americans as his year-around stable labor supply. We want to emphasize here that an increase of 5¢ in all hourly rates has just now gone into effect making the lowest starting hourly rate for men 60¢.

**FOR THE SERVICEMEN**

For the purpose of extending hospitality to the great number of Nisei servicemen coming into Chicago on furloughs and passes, an enthusiastic group of resettlers is now making plans for organizing a committee to entertain them. They have chosen the name "Servicemen's Reception Committee" and the YWCA in Chicago is graciously allowing the committee the use of its facilities. Nisei girls in the city will act as hostesses to the servicemen and a number of older married resettlers will act as chaperones. The doors will be opened every Friday night at the YWCA where the servicemen may come and enjoy themselves. Refreshments will be served.

The Advisory Board of the Servicemen's Reception Committee is made up of prominent Issei and Nisei leaders in the city and also of Caucasians interested in this venture. The committee will operate under policies similar to that of the USO and rules and regulations are in the process of being set up. The Committee has consulted USO and Chicago Servicemen's Center officials who report that Japanese American servicemen are welcome at their centers and are already using their facilities.

The Committee plans to hold monthly dances and dinners, arrange for trips to hospitals to visit the wounded, and sponsor tours throughout Chicago's many points of interest.

**Chicago Institute Send Books, Good Wishes**

The Wheat Flour Institute of Chicago, which sent more than 300 copies of the "Large Quantity Recipe Book" for the use of Rivers' cooking classes, wrote the following letter to Dr. Grace Lawson:

"Under separate cover we are sending you the copies of our Large Quantity Recipe Book that you requested. I am sorry there has been a bit of delay in getting them off to you but I hope they will reach you in time so that they will still be a real service in your food preparation course. You certainly are to be commended for the fine work you are doing.

"Thank you for your cordial invitation to me to visit your project some time. I should like very much to accept it and hope that I may have the pleasure of doing so. I certainly shall let you know should my tripping bring me to your vicinity.

"With all good wishes for every success in the work you are doing, I am"

Sincerely yours,

Director  
Department of Foods and Nutrition.

## More Workers To Seabrook

(continued from page 2)

"As to the need of further workers at Seabrook Farms, 1500 to 1600 people are needed to carry on the work at Seabrook Farms during the winter. By December 15 the migratory groups now working at Seabrook Farms will have returned to their homes leaving between 1100 and 1200 employees on the farms. Mr. Seabrook will, therefore, need some 300 to 400 more employees. He wishes to secure Japanese Americans. Mr. Seabrook wants 200 to 250 more unattached people or childless couples who would want to live in dormitories. In addition, he also wants 80 more families. Of course, it is impossible to tell how soon this quota will be filled inasmuch as they are arriving from several centers."

From the foregoing, it appears that permanent workers at Seabrook Farms are guaranteed a minimum yearly wage of \$1500. Since the efficiency of Japanese workers has been proved to Mr. Seabrook, he is anxious to employ as many additional workers as possible during the winter and spring months.

TO ARRIVE IN RIVERS**

Dr. Hachiro Yuasa, associated with the New York Church Committee for Japanese Americans, will arrive in Gila this week-end to conduct a Christian Missions lecture tour in Canal and Butte, as a part of his 6 center series which began the first of October and will be concluded on November 12.

Dr. Yuasa's speaking schedule, published elsewhere in this issue, starts Sunday and ends on Wednesday.

**SANSEI**

Dr. Yuasa is a third generation Christian. He came to America, the land of his dreams, as a boy and worked on farms in California. In this country he took academic training at Kansas State College, the University of Illinois, Cornell and the University of Chicago. He took his Ph. D. in entomology.

One gets an appreciation of the scholarship of Dr. Yuasa when he learns that in addition to the training received in American Educational Institutions, he spent a year in the universities of Germany, France and Italy. He was called to the Presidency of the Doshisha

University in Japan in 1934 and served until 1937, when he resigned.

Dr. Yuasa is not only a scholar but he is a Christian scholar. In recognition of his Christian leadership, the Foreign Missions Conference of North America invited him to attend the World Missionary meeting at Madras, India, in December, 1938. He accepted, representing the Christian Churches of Japan. Immediately after Madras he came to America to participate in the post Madras Conference held across this nation. He traveled as one member of a team of speakers.

**MISSION WORK**

After this work, Dr. Yuasa was invited by the American Board of Commissioners for Foreign Missions to remain in America and to work for a larger Christian fellowship.

At the urgent request of the Department of Evangelism of the Federal Council of Churches of Christ in America, he has been loaned for six weeks to conduct a series of Christian Missions in the Japanese American Relocation Centers. These Missions began last autumn, when nine were held in as many Centers.

The six relocation centers he will visit, spending five days in each center, are Hunt, Idaho; Topaz, Utah; Manzanar, California; Poston, Arizona; Gila River, Arizona, and McGehee, Ark.

The Butte High Eagles have been crowned the Southwestern League's first round titlists as they victored over the Ramblers by a close margin of 7-0 on the Butte gridiron yesterday afternoon.

The winner's supercharged T formation clicked in the fourth quarter as right half Hide Kagawa took a reverse from quarterback Teruo Katayama from the Rambler's 35 yard line and romped all the way for the only touchdown of the game. Shig Kawata placed a conversion kick for the extra point.

Following this touchdown, the most exciting part of the game was played as the Ramblers came back and threatened to score twice. They came to the Eagle's one yard and one foot lines, but failed to push it over, and so the Eagles came through with a 7-0 victory to be crowned as first round champions.

"Invasion" by Charles Wertebaker is an account of the Allied invasion of France written by a correspondent for "Time" and "Life" magazines. "Being Met Together" is a romantic and adventurous tale with a Revolutionary War background and was written by Vaughan Wilkins, the author of "And So Victoria."

### Courier Changes To Semi-Weekly

Today's issue, October 31, will be the last of the regular tri-weekly, and the next issue to roll off the press will be this Saturday, November 4. Thereafter the paper will come out every Wednesday and Saturday.

The reasons for the change are explained in the editorial page of this issue.

the mounted internal security, colors, and U S Army guard, grand marshal, men in uniform who are visiting the project, Ex-Servicemen, members of the Servicemen's Relatives Association, and numerous other groups and organizations.

The Gila Ex-Servicemen's Club is extending an invitation to men and women in the service visiting on the project during Armistice Day to join with the others in the parade.

Representatives from various Ex-Servicemen's Clubs residing in areas near the project have been invited.

The Butte parade committee consists of Ward H. Bell, chairman, Captain L. S. Black, and Buichi Umeda.

## FARM

### PRODUCTION FIGURES GIVEN

At a meeting of the farm unit and sub-unit foremen last Friday, Robert Davidson, farm chief, stated he wishes all workers to put in 44 hours a week. The foremen and sub-foremen were all willing to help each other in different fields.

All fields are trying to follow the planting schedule as closely as possible so that harvests will come out as scheduled. Already out shipments to other centers have started.

Hoyt Martin of the canning factory gave information on canning of vege-

tables. He brought some sample sweet potato, solid tomatoes, and tomato juice. Farm men who tasted the samples said they were delicious, especially the sweet potato.

Farm figures released show that Rivers has 2,200 beef cattle, of which 60 are slaughtered each week, 30 for the center's use and 30 to send to Poston.

There are 1,800 pigs and 200 baby pigs. About 40 or 45 are slaughtered each week for the center.

The 76 dairy cows produce about 200 gallons of milk per day for the center's use.

## NISEI COMMITTEE ENDORSES FDR

As the presidential candidate best-fitted to carry America through her crucial years of a war to be won and a peace to be fashioned among a family of nations, the Japanese American Committee for Democracy endorsed the candidacy of Franklin Delano Roosevelt for the President of the United States of America, Friday October 20, at a general membership meeting.

In making its choice the organization has acted on the stand that to remain inarticulate now was to jeopardize the domestic reforms that have come from twelve years of President Roosevelt's administration and the enduring peace that must follow the war.

### JACL CHAIRMAN

Ernest Iiyama, chairman of the JACL pointed out that the endorsement of the Roosevelt Truman ticket does not necessarily imply approval of the Democratic Party candidates in general. The criterion is what candidate for any electoral office, regardless of party affiliations, best serves the interests of the greatest number of people, he said.

President Roosevelt, on the basis of his record on domestic and foreign problems, offers America far greater hope for prosperity at home and stability abroad than the Republican candidate, he said.

Iiyama declared that most Republicans, unable to offer leadership, proffered in their stead "fuel for prejudices and have turned to pure vilification."

### VOICES OPINION

Such irresponsible statements by men running for high office will spread seeds of distrust which will adversely affect plans for a healthy world organization, he continued.

In typing up the interests of the Japanese Americans with that of the victory of the Roosevelt-Truman ticket, Iiyama

## A SEMI-WEEKLY PAPER

The change from a tri-weekly to a semi-weekly paper is made, not without regrets, for we realize the importance of distributing information often enough to keep the news fresh. It is only after careful consideration and attempts to find some other alternative that we have finally made this decision, which we feel was the best way to meet the critical manpower shortage which has been haunting the staff for several months.

By changing to a semi-weekly, we hope to be able to maintain more nearly the standards set by the NEWS-COURIER when it had a full staff and more experienced people. Necessarily, of course, timeliness in many of the stories will be sacrificed, but even before timeliness, we feel, accuracy should take precedence. With a depleted staff working overtime inaccuracies are bound to creep in, and have. Now with an extra day in which to collect, edit, and publish the news, while we do not promise to come anywhere near publishing errorless issues, our reporters will have time to verify more closely the facts that are collected, our proofreaders can be more careful in checking grammatical errors, and we shall not be rushed to the point of slapping stories into place and hoping that the facts phoned in or collected are true.

While not attempting to rationalize for changing to two issues a week, we should like to point out that your paper is not the only one that is a semi-weekly. In fact all papers of the eight other WRA centers with the exception of one, have been coming out only twice a week, some only once. The GILA NEWS-COURIER will now do likewise, not just to be following suit but to remedy an intolerable situation arising out of manpower needs. And so with regrets for having to publish less frequently, and bowing only to circumstances, we go into a new era of a twice-weekly publication from November.

As in the past we shall continue to welcome criticisms of all kinds, especially constructive criticisms that are given to improve the paper. We also welcome and encourage letters to the paper on any subject of community wide interest. We feel that only through continued interest by the people in their paper can such an institution continue to survive and thrive.

stated that in essence there is no difference between the interests of the plain people of America and of the world and that of the Japanese Americans. If the political, economic, and social conditions make for the greatest good to the greatest number, the Japanese American can likewise expect a square deal, he asserted.

### RECOMMENDED

The JACL membership acted upon a recommendation by the Executive Board forwarded from a regular board meeting held last month.

## Co-op Meets

At the monthly Co-op delegates meeting Saturday the financial report for the month of August and the report of the cash overage were given. Also the various subjects on the Co-op were discussed at this time.

# DEFINITE MEAL HOURS SET FOR BUTTE CANAL

opinion that a 5:30 p.m. supper hour would not cause workers to leave their jobs before 5:00 p.m. But investigation indicates that office workers, farm workers, and motorpool employees immediately took advantage and left earlier than they had previously stopped work.

"Administrative instructions require us to maintain an eight-hour work day, five days per week and a four hour work day on Saturday. The hours established are 8:00 a.m. to 12:00 noon and 1:00 p.m. to 5:00 p.m.

"It is, therefore, necessary that the supper hour be so set that workers can remain on their jobs until 5:00 p.m., and have time to go from their residences to the mess hall. Workers claim this cannot be done in thirty minutes and therefore insist that if the supper hour is 5:30 p.m., they must leave at 4:30 p.m. and this violates (continued on page 5)

## S/SGT SASAKI WRITES CONDITIONS IN FRANCE

A letter by Staff Sergeant Herbert M. Sasaki, son of Frank Sasaki of Canal, telling of hardships to be endured this winter in France, was recently quoted in the Pomona Progress. Sgt. Sasaki formerly of Pomona, is serving in the army somewhere in France on the road to Germany, according to a letter received by a friend in Pomona. He also makes comparison of France and Italy, where he formerly saw action.

### ITALY, FRANCE

His letter reads in part:

"The weather over here is much colder--have almost frozen to death ever since coming here. For a couple of days the wind almost blew everybody's tent down and now it is raining cats and dogs. Mud, mud, everywhere. A very messy situation.

"The people here in France seem to be much better off than in Italy--also much cleaner. At least I don't have to watch poor little dirty ragged children with tin cans scooping food out of garbage pits. It seems that the little hungry kids pay the most terrible price for war--a sight I'll never be able to forget.

"Like in Italy, inflation is taking over and the black market is operating regardless of all attempts to stop it. Cigaretts sell for one dollar a package, gum is 25 cents a pack and 'C' rations one dollar each.

### COLD WINTERS

"I went on past to Marseilles the other day, but it was too crowded with troops to enjoy. I gave up trying to convince the Chinese that our troops were Japanese Americans--they don't seem to know anything about what is going on the world except that there is a war going on. And somehow the French put uniforms on them to fight as soldiers. I doubt if the reason why has ever entered their heads...

"Gosh, I hate to think of the coming winter campaign. It is bad enough now without trying to endure the weather under battle conditions. Almost all the boys have colds as it is. I think the weather will cause more casualties than shells or bullets. Perhaps it's best, tho, for shells and bullets are hard to recover from. I hate to think of those we left behind in Italy who will never recover..."

**HOUR ADJUSTED FOR DINNER**

(continued from page 3) instructions.

"Workers bitterly complained that if they did not arrive at the mess halls on time, they had much difficulty in securing meals and if they were thirty minutes late, some mess halls would not feed them at all.

"The schools have complained bitterly that children are leaving classes early because they also cannot get into the mess halls at the luncheon hour, which I have been informed in some cases is set at twelve noon instead of the authorized hour of 12:15. I cannot believe that the parents of the children want them to miss any of their school hours simply because a dinner hour is set too early.

"Under the circumstances, I see no alternative but to definitely establish the dinner hour at 12:15 p.m., and the supper hour at 6:00 p.m. I trust you will well understand the reason for this requirement and will adjust meal hours in all mess halls to comply with my requests."

## BRONCOS

### Pull Through To Win 20-0

Keiichi Nakamura's hard charging Broncos pulled through with a 20-0 victory over a much improved Canal High eleven Saturday afternoon on Butte's gridiron.

The Broncos were held scoreless throughout the first half, but the hard charging Bronco line and backfield proved too much for Canal High as they succeeded to score twice in the third quarter and once in the fourth. Muscles Ushiro intercepted a Canal pass from his own 45 yard line and receiving good downfield blocking from quarterback Masani Fukai ran the remaining yards for the winners' first touchdown. Fullback Sam Nakashima split the goal post in half as he placed a conversion kick for the extra point. The second touchdown was scored in the same quarter as the Broncos marched from their own 45 yard line with backs alternating on line bucks and end sweeps. Sam Nakashima, with four tacklers riding him, bucked four yards to score another touchdown. Don Koda failed to convert.

In the final quarter Akira Tsutsui blocked a Canal punt which was recovered by Bronco's left tackle Mort Kojima on the 40 yard line. The winners advanced to their opponents' six yard line and Masani Fukai bucked the remaining yards to score the final touchdown. Sam

## 'BATTLE WORN' MUSTANGS GIVE WAY TO CUBS IN 4TH

The Cubs squeezed a close 13-0 victory over the "battle worn" Mustangs last Sunday in the pre-

sence of a wildly shrieking crowd at the Butte lot 50.

The Mustangs, beaten by large scores in the previous round, came back in the second round opener to hold the first round champs almost at a standstill for three quarters and running and passing circles around the astonished Cubs. In the third stanza the Mustangs threatened to score by breaking loose and coming up to the 12 yard line, but were stopped by the recovering Cubs.

The last quarter finally saw the Mustangs give way as Kiyoshi Akai's pass was intercepted by Kenso Zenimura on the Mustang 30 yard line. A few plays later Tets Hasegawa rifled a pass over James Agawa's head into the hands of Tets Furukawa, who crossed the goal for the first time. Kenso Zenimura added an extra point by booting the ball between the uprights.

Disheartened by the turn of tide, the "sub lacking" Mustangs could not hold the rushing Cub line which blocked George Watanabe's punt on the Mustangs' 20 yard line. Eight plays later Goro Yamada broke loose on an end sweep to tally the final score. Art Mikamo's extra point kick was blocked to end the hilarious day with the steady Cubs victoring 13-0 over the up-and-coming Mustangs.

### Canal Hi C's & B's To Play

## YELLOWJACKETS

### TROUNCE HARD FIGHTING BOBCATS

The Yellowjackets traveled to Canal and came home with an impressive 41-6 trouncing over the Bobcats Sunday afternoon on Canal's gridiron to end the Southwestern League's first round schedule.

Much of the Yellowjackets' offensive was led by Teruo Kozaki's deadly passes to right end Butch Inouye and deceptive runnings by right half Joe Arai. Others who shared scoring honors for the Yellowjackets were Tosh Watanabe and Masami Kawamura. The Yellowjackets succeeded in making five out of six conversion attempts.

The Bobcats scored their touchdown on a pass in the third quarter and failed to convert.

Nakashima converted another point to bring the Broncos through with a 20-0 victory.
