OKAWA FIGHTS IN KANSAS CITY, MO.

Fighting in the 147-pound division for the Kansas City West Side boxing team, Okawa recently won his sixth straight victory at the Municipal Auditorium. An excerpt from the Kansas City Times read, "Pvt. Chester (Satoru) Okawa, West Side, who packs a mean wallop in either mitt, scored a technical knockout over Richard Tulley, Northeast. Tulley took counts of nine twice before the bout was halted."

In a rematch with the same Richard Tulley, Okawa, who is 20 years old and weighs 145 pounds, won by a knockout in one minute of the third round.

BOYLE HEIGHTS, 28;

Sasaki, Breeze center, trailed Matsumoto with nine digits.

With Yamane feeding, Murata scoring and Omori controlling the defensive backboard, the Ramblers led at intermission, 20-9.

Briefly

by Cpl. Ben Kudo

Today we have a special guest column for you, from Cpl. Ben Kudo, who was furloughing here last week. He is from Ft. Snelling, Minn. His topic deals with girls. We do not have room to print all of his column today, so it will be continued in the next issue.

AFTER BEING...

...away so long, it seems swell to see so many young, pretty girls still in camp. I guess to those of us in the service, anything would look nice after so long...but I guess that's what we're fighting for... to come home to these so-called "weaker sex", which I have been told to be the route of all trouble...(now don't get me wrong, girls.)

IT SEEMS AS THOUGH...

...I haven't been giving much credit to these girls but it's surprising how much a letter from a girl can boost the morale of a soldier."

Government and personal damages had not been determined at press time, but losses were believed to be high.

The following is a letter received from Cpl. Narimatsu by Setsugo Sakamoto. The letter was mailed on October 15.

"Dear Mr. Sakamoto, Somewhere in France in a muddy adobe field stands a pup tent. From this tent I say Bonjour, meaning good day. Yes, it might be a good day in Poston, but here it's not so good--mud to your ankles and deeper, and rain helping the mud along every day.

A LETTER FROM A SOLDIER WHO WAS KILLED IN FRANCE

(continued from front page)
we've traveled a few more miles. Mr. Sakamoto, what I really want to tell you is what our folks worry most about: being of Japanese ancestry, they believe we get raw deals when fighting comes we fight

KANSAS CITY FACTORY JOBS OPEN TO NISEI (cont. from front page)
with double time on the seventh day and holidays. Hourly wage and bonus is automatic, after 60 days.

Those who are accustomed to military work can advance rapidly, Pvt. Okawa says. There are several rates of pay, with rate 1 at 71¢, rate 2 at 81¢, rate 3 at 84¢, rate 4 at 89¢ per hour, and going as high as rate 11 and 12. Seniority counts when there are openings.

Work is said to be simple, with everything operated by machinery. Deferment for those eligible may be obtained after 60 days, with reasonable guarantee of post-war work. In case one is called for active duty, seniority is still retained, and the job will be open to the soldier after the war.

Nisei working at the refinery are now getting \$104 weekly, in rate 2, working 12 hours at press machines, according to Pvt. Okawa.

Open shop prevails, and workers can join the CIO or not. The attitude of Kansas City people and co-workers in the company are said to be favorable.

Pvt. Okawa may be contacted at the main relocation office.

TWO MORE ARE WOUNDED (cont. from front page)
January, 1941, at Ft. MacArthur (San Pedro, Calif.) He is a graduate of Calexico high school and El Centro junior college, where he was also instructor's helper in photography.

Stationed at Camp Grant, ILL., for 2½ years as X-ray technician, he was transferred to Camp Blanding and to Camp Shelby, Miss., and went overseas in August, 1944.

A brother, Kats, is also overseas.

where the fighting is toughest. So far I haven't seen any action, but having a few friends in the 100th and also 442nd who have seen action, I've told them what our folks' worries were and they laugh and some think it a joke. They admit that fighting is no vacation but no need to worry thinking that we have gotten and will get raw deals. Far as that goes, it's no vacation living as we do here. I wish that people back home could talk to some of these fellows, they maybe they would change their feeling toward having their sons enter service. Maybe then they'd quit bad talk of the 100th and 442nd Combat Team.

"Myself, I'm very proud to be a member of this team, and now if I was given a chance to leave this unit for any other unit in the army, I wouldn't accept it. I'm so proud of this team no other combat team is good enough for me. Mr. Sakamoto, you being a man as you are and seeing things the correct way, I wish you could be here with us for a few days. Then I'd know no one else would need to tell you a thing and you'd be very proud of us fellows, the fellows who are fighting for our country and for the betterment of the Japanese people in the U. S.

"There's many things I'd like to tell you of this unit but there's no limit. We're also a popular outfit here, overseas. Yes, if some man like you could only come here and see and hear the combat team and could go back home to tell our folks it'd sure help. Maybe before long some boys with the Purple Heart can go back and try to convince our folks. Even with that I can hear some folks saying, oh the army hired that boy. If the boys back home could understand us they wouldn't hold back as some are doing. Here the boys are trying to build a stepping stone for the Japanese in the U.S., and there are some crazy fools breaking it away faster than we can build. I know when we come back those boys will more than hear about it for we here know about it. I'm sure that the sooner they get off of that one track mind of theirs, it'll not only help them but the whole Japanese population.

"Well, Mr. Sakamoto, as I've said before, there is really no limit to how much I can go on, so guess I'd better call it stops. Before closing, my regards to the whole family. The next time you write to Jimmy and Ed, forward my regards, please.

Just, John

MISSING THE RAIL

by Edith Fukaya

FROM FORT DES MOINES, Nelly Sasuga, my WAC friend, wrote recently and said: "We're already in the third week of basic. Boy! Are we busy. I never realized that I could put on so much clothing in so little time.

"We also had our fourth series of inoculations...

"About twenty-four of us are here in the upper story of these red brick barracks... Yesterday, as each Friday night, we washed our windows, scrubbed our floors, made our beds G I (of course, nice, neat; if there's a wrinkle, the inspecting officer tears it apart); I'll be an expert bedmaker for one thing...

"It's a great life, though. Not as tough as the men's army.

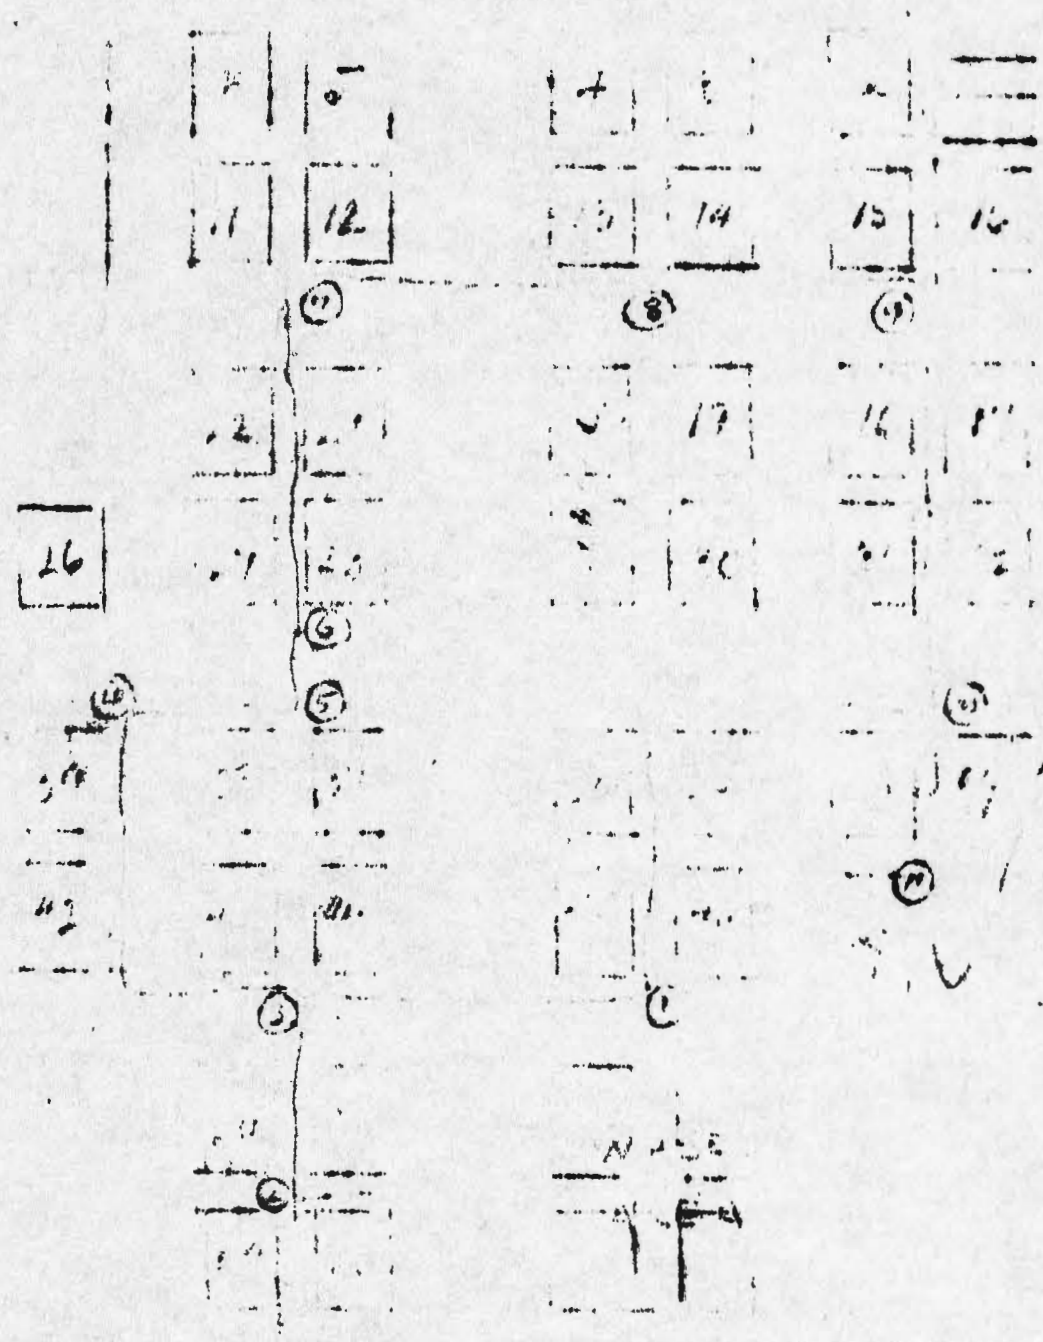

"There's another Japanese-American girl in my company who was chosen to be the colonel's orderly. It's an honor and we were happy to hear that a girl from our company received this honor during the regular guard duty.

"I've had K. P. duty already. Washing and scrubbing from morn till evening. But work is fun if you make it so. I had a swell girl working with me. She kept calling me "Kid." Kid this and kid that. In fact, most of the girls call each other "honey." Nothing unusual.

"We were in another parade today. It's an awfully wonderful feeling with the drums beating, and the band playing..."

Briefly,
by Cpl. Ben Kudo

This column is continued from Saturday:

"SPEAKING OF LETTERS..."

...There are very many rare types of letters:

(1)...

...The type that brings sunshine to a gloomy day...and...

(2)...

...the other, which no soldier likes to receive, is the "Dear John" type. This type of letter comes from a soldier's girl-friend stating that "it has been such a long time and things have changed. I have met a young gentleman and we have been going quite steady for some-time." Nothing can lower the morale of a soldier than to get a letter of this type. We can tell if a soldier receives such a letter because he doesn't act the same or talk much after that.

THANK YOU, BEN...

...The staff is sure the residents are grateful for your contributing a column; especially taking your precious time-out on your furlough to contribute.

MORALE...

...like Cpl. Kudo says, is the strongest type of strength a soldier can have. And giving them strength is by letters, so let's write to them. It doesn't have to be long, just a few cheerful lines can cheer up a soldier for a whole day.

DON'T GIVE UP...

...or don't lose fight if he doesn't write to you right away. Give them time, for we're sure they haven't forgotten you; and too, you must consider that they are getting a tough work-out every day and we're sure they are very tired.

IN APPRECIATION

We wish to take this means to express our deepest and sincerest gratitude to the Camp I, II, and III Fire Depts., Camp II Police Dept., and all our friends for your kindness and everything that you have done for us as a result of our recent misfortune.

D U S T N
D E S E R T

Around this time of the year, dates are designated to express our thankfulness to everything we should be grateful for. Such dates are Thanksgiving and Ho-Onko.

After spending over two years of mass living under trying conditions, we have almost forgotten what the feeling of gratitude really is...We are now full of "monkus"..... everything irritates and disgusts us...from food to people. We have forgotten to appreciate little things because we try to compare ourself with other Americans who are living in a "real home" just the way they want to...But when we stop and take the world as a whole--all the people starving, getting killed, and our fellow brothers living in water-filled, ~~holes~~ holes, we have plenty to be thankful for.... So let us awaken our sleeping hearts for appreciation and express gratitude for all the small things in our daily lives and let's all attend church! (Who's telling who?)

Sights of our boys in uniform are once again common on these Poston grounds...perhaps their last furlough for a long time.

Let's try to make their short stay here as enjoyable as possible.

THANK YOU NOTE

We wish to express our deepest gratitude to all the hospital staff and friends for the kindness extended toward our daughter, Nadine, during her confinement at the hospital.

Mr. and Mrs. Stone Saruwatari, Blk. 316

PLEASE DON'T DUMP YOUR BURNING CHARCOAL

Some people are said to be dumping still-burning charcoal embers around the premises of Poston Square Garden after movies and shibais. This practice should stop at once for the wind can carry the fire to the theatre or even to the barracks.

Also it is very dangerous for children as they may step on it or fall on it as the ~~ground~~ ground rushes out.

Let's cooperate and get rid of the little "stove" you carry to the movies in a safer manner.

REV. KUBOSE HERE AS RELOCATION COUNSELOR

Rev. Gyomay Kubose, head of the Chicago Buddhist Church, has been here since November 28, after visiting evacuees in the mid-western area and speaking at Gila and Granada centers.

Appointed Buddhist relocation counselor in Chicago, Rev. Kubose has studied the conditions and problems of resettlement in the midwestern states and has been here to assist those who are interested in relocation to that area. On the whole, he said, the status of relocatees in that area is very encouraging. He was surprised at the variety of occupations in which they were engaged. Issei are doing very well, and some have purchased their own homes.

Rev. Kubose has been staying at 221-14-A.

COMMUNITY'S SOUVENIR BOOK FOR WADE HEAD HAS BEEN COMPLETED

The community's souvenir book for Wade Head, former project director, has just been completed after about six months of work. Credit for most of the labor should go to Shozo Sasuga, Jie tsuo Kurushima, Yuki-taro Kawasaki and Ichiro Nakajima, according to Ryohei Onishi of the Community Council.

Besides photographs of Mr. Head, the project, and drawings by artistically inclined members of the community, the paperback-covered book contains autographs of almost every evacuee in the three units.

It was displayed in Unit I earlier this week and will be on display in II until Saturday, and in III next week until Wednesday. The Council has asked Mr. Head, now superintendent of the Papago Indian Reservation at Sells, Ariz., to visit the center so that the book may be presented to him.

The Rev. Lawrence Sullivan is a member of a prominent Canadian family, and has a very wide experience in things Catholic and Christian and is a frequent contributor to prominent Catholic magazines, both Canadian and American. He is an Auxiliary Chaplain in the U.S. armed forces.

The services will be at 7 o'clock each evening at the Maryknoll Catholic Chapel, Block 45. Rev. Sullivan will answer any questions pertaining to religion.

Everyone, both Catholic and non-Catholic, is invited to attend.

CHICAGO WAR PLANT WANTS 200-300 WORKERS

International Harvester Company in Chicago, which is engaged in vital war work, wants 200-to 300 workers, according to Rev. Gyomay Kubose of the Chicago Buddhist Church, who has been visiting here.

Workers at the plant are deferred if over 26 and with dependents. There are three shifts, morning, evening, and night. Minimum wages is 77¢ an hour, and 10% more is given for night shift work.

At present there are 300 Nisei working there, Rev. Kubose said, including many Postonians. Labor relations are said to be satisfactory.

Those desiring information should contact the unit relocation offices.

NEW MAN JOINS INTERNAL SECURITY

Ellis formerly served on the Los Angeles police force with James LeBarth, chief of internal security, and Lt. Paul Stanley.

SLINGSHOTS ARE ILLEGAL

To have possession of a slung-shot (or sling-shot) is a violation of state law in Arizona, as it is in many other states. The internal security office requests that all sling-shots be turned in to the unit police departments or internal security office immediately, as they are considered detrimental to the life and property of the residents.

Parents are urged to cooperate in confiscating the "weapons."

taken by the Council to form a citizens resettlement committee of prominent residents in all walks of life to assist the WRA in obtaining employment and housing for evacuees.

Pittsburgh, which has a population of almost 700,000 people, is a labor shortage area. It is the last of the great cities to open its door to relocation.

The delay was explained primarily by the inability on the part of the Great Lakes area to turn its attention to the city before this, although numerous inquiries had been received from residents during the year.

TRANSPORTATION OFFICE
MOVES TO 310

PERMISSION GRANTED FOR
DANCE AND MOVIES

It was an unusually sunny Sunday -- three years ago today... Innocent of the oncoming chaos, we were planning on our basketball team and our thoughts were all turned to this big problem of ours... As usual on Sunday, 11:30 a.m. we turned our dial to the University of Chicago Round Table Discussion. The program was interrupted with--An unidentified plane, presumably Japanese bombed Pearl Harbor!! Pearl Harbor? Where was that? Perhaps we had learned it in Geography, but it was never left in our minds as we have never been out of the states. When we told our folks that Japan bombed Hawaii, they told us not to be funny... Why should they? There will be no war... but as we listened to it, the feeling that this was really to be a war crept upon us. We hoped against hope it was another Orson Welles superb acting again, but we really felt that war between the countries was on, when we went out to town.

Little did we know then, that this war would bring the tragic events of mass evacuation... Little did we know that our American citizenship meant nothing until it was proved by actual sacrifice of life on the bloody field of battle.

The anxiety and emptiness at not knowing where we belonged, was the hardest beating we had to take... perhaps more than any physical changes we had to go through...

Today, three years later--it is no use to cry over the hardships of the past... Instead, let's make this experience materialize into

Due to the efforts of Administrator Yoshimine and the cooperation of the Transportation department, headed by Bob Fujimoto, the transportation office was moved to 310 Motor Pool at the beginning of this week.

This move will be greatly beneficial for the residents, as 310 is an centralized location.

The tickets will be issued from the office at the motor pool and the bus will leave from the front of the Police department. The daily hospital trucks to Camp I Hospital and the weekly departure busses will also leave from the same locality.

Bus schedules are the same.

something worthwhile in days to come.

Many today are passing this fateful Dec. 7 in some eastern or mid-western metropolis --a place they never even dreamed of visiting, and taking their place in normal American life... confident that America is definitely their Home... Some are passing it in Tule Lake, waiting to take the first boat to what they think is the Land of Cherry Blossoms... Many are still in camp like us... some who are planning relocation... some who are not quite decided-- getting optimistic when they hear that the door to California may reopen and of the people who are helping the Japanese and then getting pessimistic when they hear of such persons as honorable Mr. Hale. But we are sure that wherever we are, or wherever we may go, our hope is mutual and that is for the earliest World Peace.

TONIGHT'S MOVIE " THE RAINS CAME" AT PSG.

The Girls League of Parker Valley High School, represented by Yasuko Ozawa and Doris Kuwada, requested permission to hold a dance 15¢ per person on December 9, in order to raise funds for emblems and sports letters.

Kiyomi Aoki, representing the Annual and Hi-Times, asked to be permitted to hold a New Year's Eve movie, charging 15¢ to aid in covering expenses for the "Campus Echo" publication. An Hi-Times dance and dine social will be on Dec. 23 for 35¢ a couple plus a refreshment sale to raise funds to purchase mimeograph supplies and pay postage to send the paper to relocated students.

The Council granted the three above requests.

"STARDUST SERENADE"
LET'S GO DANCING

Girls' League of Parker Valley High is sponsoring a "Stardust Serenade" this coming Saturday night, December 9 from 7-11 p.m. at the high school auditorium.

The public is invited A stag and stagette affair, it will be 20¢ per person.

Over 800 Soldiers Are Listed

Paying tribute to the more than 800 men and women serving in the armed forces of the United States from the three units in this center, the Poston Honor Roll was set up between the Post Office and administration building in Unit I on November 31.

Measuring 21 feet, 6 inches in length and approximately 7 feet in height, the grey-painted, glass-encased honor roll is to be extended with 7½ feet wings on either side. When completed, there will be space for more than 1,400 names.

MILES E. CARY HIGH SCHOOL NEW NAME FOR POSTON II HIGH SCHOOL

Briefly,

SCENES OUTSIDE....

...How is it on the outside? Did you have lots of fun? These and many other similar questions are asked when one returns from the outside.

IT'S ALL RIGHT...

...Working and struggling ahead like we were taught to do in school. Many are really making good in gaining their goal. This is what we are destined to do.

ACTIVITIES...

...There certainly are plenty of them. You can do anything you want to under the sun, but in enjoying one's self, the expenses run high.

FUNNY THING...

...When you're outside, you live like you should. Unlike the life here in camp. Working everyday, waking up at 6:00 a.m., cooking your own breakfast, making lunches to take to work, and rushing, if we have to, so that we will be in time for work.

THRU LETTERS...

...you may think it would be good living outside, but actually, it is only for awhile. It's the same routine day in and day out. Up early, cook your own meals and go to work. The only thing we do is look forward to the weekends. Then at night our thoughts start to wander off to the life of the Poston people....leisure....and patiently waiting for the clanging of the dinner bell...waking up when you feel like and etc. Of course, there isn't much to do here, but that is out of the question! Just the idea of that good ole Arizona sun and weather just pounds into you. Before you know it, you're on the

Warren Pledges Support If Military Decides on Mass Japanese Return

California Governor Earl Warren declared recently that if the government decides that Japanese exclusion is no longer necessary, the state government would give "full recognition to their constitutional and statutory rights" according to the Associated Press.

This concluded a written statement which was prompted by a misapprehension among "many people" that the state could prevent Japanese return.

He also said that because California is proud of its "freedom from racial conflict... and we are apprehensive of re-introducing Japanese into our...strained wartime life," he has suggested that the Commanding Generals "evaluate the dangers to the war effort from civil disturbance."

UNIT III MAN IS VICTIM OF HATCHET ASSAULT

Hiroshi Shima of 307 suffered lacerations of the scalp and contusions about the face and neck last Wednesday night, after he was assaulted with a hatchet, according to James LeBerthon, internal security chief.

Atsunobu Sato, 57, of 307-7-A, suspected of having committed the assault, tried to kill himself by cutting his throat with a razor Sunday night at Unit III police station, where he was being held prior to being taken to Yuma for trial. He is now at the hospital.

Shima said that he had been threatened three days previous to the attack. He and Sato have known each other for 20 years.

The motive is believed to have been jealousy.

Active Duty Group of 56 Given Send off Last Night

Fifty-six more young men left last night for Ft. Douglas, Utah, to receive active duty assignments, bringing to 900 the number of men and women who are now estimated to be serving in the armed forces from this center.

The send off program at Block 4 stage began with the Call to the Colors, the flag salute and the playing of the Star Spangled Banner.

Masu Kawashima, master of ceremonies, read the roll call, and Project Director Duman Mills and Gyosuke Iseda of the Council were the speakers. After a musical number, Taps sounded by the Boy Scout bugler concluded the ceremonies.

A total of 58 have left this month for active service, two leaving on December 4 for Fort Snelling.

ROBERT DOLINS OF WASHINGTON RELOCATION LIAISON SECTION VISITS CENTER

Robert Dolins, representative of the center liaison section of the Washington WRA relocation division, visited here last week.

His purpose was to assist the staffs in further developing the family counseling and relocation advising program, and to further the extent of evacuee participation in plan-

ning the program for relocation. He met with the staffs of the

PLEASE RETURN STAND

A metal, gold-painted flag stand, which was used at the memorial service at Block 4, Sunday, Dec. 3, is missing, reports the internal security office.

relocation and welfare sections in all the units and spoke with various division heads and evacuee groups.

He said that since there is some possibility that the West Coast may be opened up in the future it is important that both appointed personnel and evacuees be prepared to handle the problems of relocation which would occur at such a time.

ONE REFUSES INDUCTION

Joe Kaminaka, 14 5 B, has refused induction according to the Selective Service office.

CORRECTION-

NAVY SCHOOL WANTS JAPANESE TEACHERS

Japanese teachers are wanted by Navy School of Oriental Languages at the U. of Colorado, Boulder, Colo., according to Corlies R. Carter, relocation officer.

Inquiries may be made at Relocation

President Roosevelt in response to a reporter's question at a press conference, commended the "wonderful record" established by Nisei who fought in Italy and are now fighting in France.

His support was behind the WRA's relocation program, he said, adding that Japanese American citizens could be readily absorbed throughout the country.

He noted that many lawyers believe that Japanese Americans cannot lawfully be confined in the centers, but said he did not know whether military restrictions would be relaxed to allow their return to the West Coast.

Using his "favorite word", the President said it would not discombobulate the existing population much if 75,000 Japanese Americans were distributed around the United States.

PASADENA DEDICATES NISEI HONOR ROLL

In Pasadena last month, an honor roll containing the names of 109 Japanese Americans from California who are in the U.S. Army was dedicated at the Pasadena Federated Mission.

More than 75 people attended the ceremonies, including Esther Takei, first Japanese American to return to Pasadena and Lt. Jack Robinson, Negro athlete, who led the flag salute.

A gold star was included in the honor roll for Pvt. Henry Kondo, first Pasadena Nisei to be killed in action.

QUAD III HAS MEETING TO DISCUSS FIRE PREVENTION; FIVE RULES SET UP

Quad III Block Managers and their councilmen had a joint meeting last Wednesday night. Many subjects were discussed, but the topic of fire

was the most important.

SHOJI-NABESHIMA ENGAGEMENT TOLD

The engagement of Lily Shoji to Pvt. Harry Nabeshima was revealed by her parents, Mr. and Mrs. Katsuji Shoji last Wednesday evening at the bride-elect's home.

Baishakunins for this couple are Mr. and Mrs. Niichi Tera-moto and Mr. and Mrs. Yoshihiro Umeda.

Miss Shoji is currently of 229, and Pvt. Nabeshima was also of 229. He left for active duty last night to Ft. Douglas, Utah. Both are formerly of Sacramento, Calif.

No date has been set for the wedding.

INDUCTEES REQUESTED TO GO TO RED CROSS OFFICE BEFORE LEAVING CENTER

It was requested by the Unit II Red Cross office that anyone who is to be inducted or leaving for active duty, contact the office a few weeks or ten days before leaving the center.

Many important matters including dependency benefits will be explained, so the Red Cross urges that every inductee see them and receive all the information concerning benefit payment.

EL CHAP PLEDGE CARDS GO ON SALE. BUY NOW!

The El Chaparral pledge cards are now on sale. This year, the school annual will include the Unit II administration and various scenery around this camp as well as the activities of the school.

The price set is \$1.00 for pledge, and

Here are the five laws which were made at the meeting in case of fire within the quad:

1. Anyone who first spots fire, should run for the nearest fire phone. If one can't speak English, he should say the location, for instance, 213-9-0.

The operator should understand and make connections to the fire station right away because she knows that the only purpose the fire phone is used is for fires.

2. During the fire, the residents must help vacate the belongings of the one nearest to the fire and not your nearest friends.

3. White ribbons will be issued to residents who are going to help so that they can tell whether outsiders are tampering with the goods.

4. Every block of the quad has five firemen aids to help the Fire Dept. These persons are to get their training at the local Fire Station.

5. Fujins of the block are to help get the young and the old to safety and to move goods farther away from the fire.

later when the annuals arrive, an amount less than \$.50, which is the price indicated on the cards, will be paid.

Everyone is requested to buy the pledge cards, so that a better annual can be printed. It will be a souvenir of the camp as well as of the school.

These cards can be purchased from El Chaparral salesmen who are assigned to each block.

When it's hot, we wish it were cool and when it is cold, we wish it were warm.... with the freezing, frosty mornings, and nights we are having now-a-days, we crave for a little warmer atmosphere. The weather is really extreme here, it's either too hot or cold. We only have two seasons, summer and winter and are miss out on the most livable seasons, spring and summer. When it's summer it's too hot to do our best and in winter it is too cold...no wonder we are becoming so lazy and easy-going. We can hug the stove and still shiver, but of course, we may have about the warmest of winters among the centers....Especially after sitting at the movies or shibai, our joints get frozen and the way we walk home so stiffly or half bent is really funny.. Seems like the little bucket of coal is the only thing that can keep us warm... But let's be careful not to perform another show by burning our blankets or making a smoke screen and let's be very careful how we dispose of the ashes. Be sure to bury them carefully..Fire is a very disastrous thing.

Our friend, Witty Tateichi, recently took a trip to Phoenix and he visited Miss Cushman at the Indian School.. He also was thrilled to have danced with an Indian girl..she asked him...after all, it's still a leap year... but he says he is too good to write a column for us...When William gets started on his cracks, he puts Bob Hope to shame....

DELANO CAPTURES TOURNAMENT CROWN RED DEVILS UPSET, 34-32 SAINTS WIN

Nearly 1000 rabid spectators witnessed the Delano Dukes upset the Red Devils in the final play-off for the City Tournament championship at court 13, Sunday afternoon.

Ben Yamaguchi, capable Delano pilot and star guard, proved to be the key man as he personally sank seven baskets with unerring accuracy in the first half, all from distances of 35 to 40 feet.

With both teams employing a man-to-man defense, fouls were many, the Dukes being responsible for 13 and the Red Devils, 15. But only six valid free throws were registered by each side.

From the opening quarter, the Dukes scrambled into an early lead, 12-5, with Yamaguchi sinking three of his remarkable 40-footers and Ikemiya ably assisting with two additional goals.

Throughout the following two quarters, Delano retained a safe 10 point margin. Both teams shot considerably, but made only a small percentage.

In the fourth quarter, the Dukes were leading by eight markers, 24-26, with less than three minutes left to play, when three successive goals by Eddow, Kunitamura, and Hori whittled the Duke's lead to two points. But by freezing the ball for the remaining thirty-five seconds, the Delano Dukes became the Kings of the 3rd annual cage classic.

Kunitamura, as usual, led the Red Devil's offensive with 15 di-

gits. The Devil forward was held to a single bucket in each of the last two quarters.

SEMI-FINALS

RESULTS:

In the semi-finals Saturday afternoon, Delano overthrew the Boyle Heighters, 27-19, while the Red Devils drubbed the Salty Five, 39-14.

In the consolation semi-finals, the Blackhawks were smeared, 33-14, and the Cougar Cubs eliminated the Clowns, both tangling on Friday night.

CONSOLATION

Tallying over half of their points on charity throws, the Saints took a rugged, but rugged, tilt from the Cougar Cubs, 29-11, to win the consolation crown in the preliminary, Sunday afternoon.

The latter half closely resembled a grid-iron tussle, with the Cougars committing a total of 23 violations. Of the 22 gratis shots offered them, the Saints swished the nets with 15.

Ito sank the only Cougar bucket during the entire first half, while Nishimura, ace Saint forward, paced the point-makers with 10. Negoro garnered six for the Cubs.

School Vandalism Must be Curbed to Get Accreditation

Damage and loss of school property during the past two years influenced the accreditation refusal last year, in addition to insufficient laboratory equipment in various courses. Curbing of such vandalism in the hope of gaining accreditation this year was one of the topics discussed last Friday by the Poston I Advisory Board.

The help of the PTA is to be enlisted in preventing further vandalism.

The College Bound Club and elementary school auditorium funds were also discussed, and committees were formed to decide on their use.

C.E. TRUCK SPILLS ALL

Overladen on one side with sacks of rice, boxes of raisins, copies of the Pacific Citizen, shoes and other merchandise for the canteens, the C.E. truck tipped on its side Tuesday afternoon at the corner of Construction-Maintenance.

Although the contents of the truck were strewn about, only one-half sack of rice and one-half carton of raisins were damaged.

Workers on the back of the truck escaped serious injury with only a few scratches.

Damages to the 1936 Chevrolet stake truck were smashed gates, dented right fender, and slightly smashed cab above the right door.

GIRLS AND SOLDIERS FREE

EVACUEE PROPERTY PROGRAM INFORMATION: AUTOS

This is the third of a series of five articles dealing with the services and limitations of the evacuee property program.

Requests to the Property Office by evacuees who wish to sell their autos or trucks must be accompanied by ownership and registration certificates signed by the owner of the vehicle. If the evacuee does not have the certificates he should then make out an "Application for Duplicate Ownership Certificate." In such a case, he must be sure that the application for it is made out in the same name as the original.

An evacuee wishing to sell an auto or truck which has not been in use since evacuation (but which has been in storage) should provide an "Affidavit of Non-Operation". The evacuee should write to the custodian of the truck or auto in storage and authorize him to allow the WRA to inspect and remove the car when it is sold. In cases where the vehicle is being used by the custodian, arrangements for its release should also be made by the evacuee.

CARS IN STORAGE

The evacuee-seller should understand that cars in storage usually require some servicing such as a battery recharge or a new battery. Therefore it is necessary that the evacuee provide funds for placing the car in usable condition so that it can be demonstrated to prospective buyers. If a car is to be sold "as is" without any repair work, a top price cannot be obtained. Evacuees should understand that later models bring higher prices but that there are OPA price ceilings which cannot be violated.

The evacuee should provide the Property Office with any information as to storage charges, if any, and if they or other charges exist, they must be paid before the car is put up for sale.

The evacuee must remember that the WRA is not able to obtain or provide drivers to move evacuee-owned vehicles from the military area. It is the responsibility of the evacuee to hire the driver and arrange for his pay.

Under OPA regulations, ration boards are authorized to provide special rations of gasoline for the removal of automobiles from one part of the country to another when a legal change of residence occurs. Only the owner or authorized driver may apply for supplemental gasoline. The driver should also be authorized in writing to obtain the car from its place of storage and to sign the necessary papers to obtain gasoline rations.

The Office of Defense Transportation will not authorize gasoline rations for a trip of more than two hundred miles for trucks or pick-up trucks, and the evacuee usually has to arrange to have his truck shipped to him by rail if the distance is over the 200 mile limit.

(How can an evacuee go about collecting debts? How can he arrange to lease or rent properties? The next article will tell how the Property Office can aid him. Watch for it.)

RIILING THE TRAIL

--by Edith Fukayo

AT PRESENT, I AM READING Virginia, A Guide to the Old Dominion, a Virginia Writers' Project book.

-o-o-o-

PART I SAYS IN 1930, 67.6% of the population of 2,421,851 was rural, and 59.3% actually resided on farms. In 1950, about a fourth, or 650,165 of the population was Negro. There is no evidence of competition between Negroes and whites except in unskilled trades.

-e-o-o-

INDUSTRIAL WAGES ARE (1930) here about two-thirds of those of northern states, and on the whole higher than wages paid in other Southern States. In 1937, its manufacturing industries employed 152,643.

-o-o-o-

PUBLIC SCHOOLS' STANDARD is low, despite good planning, due to inadequate appropriation of funds. Discrimination against Negroes exists; they get lower wages than whites, have separate schools, and have to pay a poll tax to vote, which curtails their participation in government.

-o-o-o-

THE TRAGEDY OF THE Civil War helped weld the people into one. The homogeneity of the people is due to the absence of an admixture of recent foreign blood. No large cities serve as electromagnets for a melting pot; the presence of the Negro keeps out the foreigner who in other States competes with the native manual laborer to get his start in America.

GIRL SCOUTS' BENEFIT MOVIE TOMORROW

Tickets are being sold at 25¢ for reserved seats, and 15¢ for general admission, at the YWCA office, and by all Girl Scout.

The main feature stars Eleanor Powell, Dennis O'Keefe, Cab Calloway and Woody Herman, both with their orchestras. A cartoon will also be shown. Two showings are scheduled. The first will begin at 8:00 p.m., the second at 8:00 o'clock.

ONCE EVERY YEAR, a Christmas play, will be sponsored by the Junior Class of Poston High School Saturday, Dec. 23, at the high school auditorium.

Under the direction of Charles Whitcomb, the following cast will appear in the yuletide production:

Shoko Nomoto, Mary Akamatsu, Sally Maeda, Ruth Horikawa, Agnes Ito, Marcella Miyata, Eon Yasuda, Tamio Yoshida, Frank Yamamoto, Donald Miyaji, and Akira Sanbonmatsu.

Backstage hands include head property man, George Yamaguchi; make-up, Taeko Omori and Mary Inouye. Tickets will be handled by Sets Masutani and Kiyoshi Kajiko.

Two performances are scheduled, a matinee at 1:45 p.m. (\$.15 to be paid at door) and an evening show at 7:30 (tickets \$.25).

REV. LAWRENCE SULLIVAN BEGINS SERVICES TONIGHT

Tonight, a four-day mission (Catholic Revival) service, for the people of Poston, appointed personnel and evacuees, will be begun by Rev. Lawrence Sullivan, a member of the Catholic Diocese of Tucson.

Everybody, both Catholic and non-Catholic, is invited to attend, according to Father Clement of the Maryknoll Catholic Chapel, Block 45.

"This is an opportune time to learn about the Catholic Church from the inside, and to have a better understanding among Christians and non-Christian friends in an endeavor to work toward the Christian ideals of a lasting Peace," says Father Clement.

Conservation of Fuel Oil Necessary To Avoid Shortage

All center evacuees, as well as appointed personnel, are asked to conserve fuel oil in every possible way in order to avert the threatened shortage, reports Maurice Lipian, assistant project director.

Because of transportation difficulties, an ample supply of fuel oil cannot be brought into Parker. At the present time, each shipment consists of two rail-tanks which is enough for summer needs but inadequate for winter weather.

Due to the gravity of the situation, Mr. Lipian will go to Los Angeles, probably next week, to discuss this matter. Whether this shortage will last throughout the winter or will be temporary, will depend greatly upon the outcome of this conference.

It is imperative that the consumption of oil in heating stoves be reduced in every possible way and everyone is urged to make a serious effort to decrease the use of fuel oil, Mr. Lipian said.

CIGARETTE RATIONING TO BEGIN NEXT WEEK

Under the conditions that prevail, there are several shortages of different items which a man (and even a woman) misses very much.

To the man (or woman) who loves the lovely aroma of tobacco, there is nothing quite so lovely as the lovely aroma of tobacco.

This brings up the little matter of cigarettes which people all over the nation (including Poston) are missing.

GETTING DOWN TO BUSINESS Because of this shortage, smokers will be issued coupons beginning next week, which will entitle them to their share of cigarettes, pipe tobacco or Bull Durham.

The first issue of the coupons must be used before Dec. 25, as they will be void after that date. New coupons will be issued every ten days. If this system does not prove satisfactory, other methods are to be tried.

The coupon will entitle a person to purchase ten packages of cigarettes, or five packages of either pipe tobacco or Bull Durham.

EVACUEE PROPERTY PROGRAM INFORMATION, NO. 4

(Here is the fourth of a series of five articles dealing with the services and limitations of the evacuee property program.)

Evacuees who wish to collect debts owed them may do so with the aid of the Property Office if they will supply complete information.

The date of the note or the date the debt was made; explanation of how and for what the debt was made (for work done, goods purchased, etc.); the original amount of the debt, rate of interest and the plan of repayment agreed upon; the balance due, name and address of the debtor; and any evidence of the debt, such as a note, mortgage, purchase contract, etc., should be given to the Property Office to speed collection.

ACCURATE DESCRIPTION: Where an evacuee wishes to rent or lease property he should supply an accurate description and the location of the property. He should specify rental rates but must keep in mind that OPA rent ceilings may apply and that where they exist rental rates cannot be raised unless proper authorization from the OPA is given. Such permission is usually hard to get. Complete details about the terms of leases, length of lease desired and other special terms should be given.

In cases where farm land is to be rented out or leased, it is important that the evacuee supply complete details about irrigation assessments, electricity bills, water district taxes, methods of determining shares when rent is desired, use of farm equipment left on the farm, building insurance as well as the evacuee's desires regarding all other leasing specifications.

Dates for payment of rent and expiration of leases should be specified. The Property Office can also help the evacuee in handling matters such as inspection of property, fire insurance, vandalism and pilferage.

Evacuees should understand that as long as the military exclusion order remains in effect the WRA will provide storage space for property left in the evacuated area or left in a center by an evacuee who either relocates or is inducted into the armed forces.

On the other hand the WRA cannot assume responsibility for the storage or care of a relocated evacuee's property at the point of relocation. The WRA will, however, assist in moving the household, personal and commercial property of evacuees going out on indefinite leave.

Any evacuee inducted into the armed forces and who wants the WRA to store property he has left in a relocation center or on the West Coast, should designate some person to represent him in dealing with the WRA.

PICKUP FORM: Any evacuee wishing to have personal or commercial property picked up and stored must fill out Form WRA - 155. The form must be filled out, signed and witnessed. It must be signed by the owner or for him by someone who holds power of attorney.

Evacuees who wish property stored by them in a commercial warehouse or in private storage transferred to a WRA warehouse must pay storage costs that have accrued before the WRA can move such property to a WRA warehouse. Warehousing receipts must be supplied by the evacuee.

ANSWERS CALL

SPEND NEXT SATURDAY
THE HI-TIME WAY

A huge crowd assembled at 310 Departure station to give a grand send-off to 21 boys of this unit who were leaving here to answer Uncle Sam's call. With dusk covering the crowd so soon, it was very hard to find the persons we wanted to say good-bye and good luck to and we missed some of our friends.....We follow the line thinking it's our friend and we end up shaking hands with a stranger...However, soon we believe there will be lights around the place so it will be a little better

Our boys in uniform are seen all around the place now and it's really good to see them back once more... Among those visiting here was Tots Ishida, one-time ace reporter of this paper and really an humorous and jolly fellow...He had all his friends in tears with his hilarious interpretation of army life with Hawaiian accent...Such a popular boy, we failed to grab him, before he left, for a piece of his superb writing... Shucks, we better take a lesson from Unit II staff in how to get the boys in uniform to write for them.....

For a special Xmas edition, we will appreciate any contributions, whether poems, stories, or other things which you have written and would like to see in print...Of course, we need it by Monday night so there won't be much time but if you have anything.....

The girl's basketball double elimination tournament is nearing its completion...With the energetic Girls' Athletic Department

girls working so hard, the tournament was quite a success. It brought the girls together for a game of fun and sportsmanship.

With this tournament's experience behind you, we hope to see your team surprising the others in the new league to start early next year.....Camp IV, the queens of courts from Roku III; Reedley sextette, the polished team composed of 318 girls; and Midgets, a team with the cream of the crop of Roku I are the top teams.....

The event that all you "young uns" have been waiting for has just been announced.

Yes sir, a week from today, the Hi-Times will present the "Juke Box Saturday Night", a strictly different affair and a strictly couples affair that will be held at the high school auditorium. The "cover-charge" for the affair is 15%.

So boys, line up them dates and spend December 23rd the Hi-Times way.

MASS EXCLUSION TERMINATED!

NOTICE FOR ALL RESIDENTS OF THE CENTER

By

HEADQUARTERS WESTERN DEFENSE COMMAND

CENTER WILL REMAIN OPEN FOR A YEAR

Now that the blanket exclusion orders have been lifted, the War Relocation Authority has made a number of basic policy decisions covering the immediate future of its program. These decisions are:

(1) WRA assistance will now be made available for relocation in the evacuated area on the same basis as elsewhere.

(2) All relocation centers will be closed within a period of six months to one year after the revocation of the exclusion orders. No centers, however, will be closed without three month's advance notice to the residents.

(3) Essential services at the relocation centers--food, housing, and medical care--will be provided until the centers close. Schools will be maintained at

The Commanding General of the Western Defense Command has today issued the necessary orders to terminate mass exclusion of persons of Japanese ancestry from the Pacific coastal area. In the future only those individuals whose records indicate that they are potentially dangerous to the military security are to be excluded.

The new system will permit the great majority of persons of Japanese ancestry to move freely anywhere in the United States that they may wish to go. The military authorities have now classified Japanese-Americans in three groups:

1. A group of those persons who will be free to move about or reside in any part of the United States. The vast majority of persons of Japanese ancestry will be in this group.

2. A group of those who have definitely indicated that they are not loyal to the United States or are considered as potentially dangerous to the military security. These individuals will continue to be excluded.

3. A very small group of individuals whose cases have not yet been determined.

The Project Director of the center has been supplied with a list of those individuals who are to be permitted to move freely throughout the United States..... Those on this list who wish to have identification cards from the Western Defense Command in their possession may secure them by applying through the Project Director, to the Western Defense Command.

the centers through the end of the present school year.

(4) Relocation in areas outside the evacuated zone will continue.

(5) WRA assistance will be extended, within certain limits, to previously relo-

cated and who now wish to return to the evacuated area.

(6) There will be no further processing of evacuees for leave clearance and leave permits will no longer be necessary for relocation. Relocation assistance, however, will be made available only to those whose relocation plans are approved by WRA.

(7) Arrangements will be made with appropriate state and local agencies to provide public assistance throughout the country for those evacuees who are incapable of self-support.

mand have arrived at the center and starting immediately will individually notify any individuals who are to be excluded. They will also notify those individuals whose cases have not yet been determined and will interview such individuals in order to determine their final status.

It is not contemplated that any list will be published to the general public of those whose exclusion is to be continued.

In order that the movement away from the center may be accomplished in an orderly and peaceful manner and in order that proper plans may be made to receive them at their destination, the restrictions now in effect concerning departure from the relocation center will be continued in effect until January 20, 1945. Between the present date and January 20, those individuals who have already received or may receive permits from the western Defense Command may leave the center. After January 20, all restrictions will be lifted except in the cases of individuals who will be specifically and individually notified.--December 17, 1944.

National YWCA, in New York City, since Aug., 1942, arrived here Monday, Dec. 11, and was expected to leave today.

HONORING...

...Pfc. Charles Sukekane who was furloughing here in Poston last week, the 216 Caissons and Caissonettes gave a weenie bake last Saturday night at the sand dunes. Games were played, and everyone shared an enjoyable evening.

'MOST ANXIOUSLY...

...waiting are the school students who can hardly wait for the Christmas vacation to start. Patience, patience, students, there's only 3 more days.

REMEMBER...

...when we were still in school and waited for the vacation to roll around? That ever popular song, "Santa Claus is Coming to Town" makes us kinda forget that we're out of that stage, doesn't it?

LETTERS FROM...

...former Postonites tell us that this year they're going to enjoy a "White Christmas" instead of a dry Christmas way out in the middle of a desert WE HATE...

...to keep reminding you like this, but it seems as though not enough residents are purchasing the El Shap pledge cards. C'mon, now, everyone, this is going to be a good souvenir, so get yours now. Let's back the school for a good annual this year.

BEARS...

...or whatever you want to call them. Isn't that what we human beings look like in our big overcoats....like vicious grizzly bears. JUST IN CASE...

...you need any more Xmas Cards, you may buy them at the canteen!

RADIOS TAKEN IN FOR REPAIR NOW

Kaz Oshima of the Radio Repair Shop in 213-14-D has announced that more radios, irons, and other electrical appliances that need repairing will be accepted.

Also the 6th chapter of the thrilling serial, "The Secret of Treasure Island" will be shown.

NO FISHING ALLOWED IN SWIMMING POOL

It was disclosed by the Unit II Red Cross Dept. that no fishing is allowed in the Swimming Pool.

LOST AND FOUND

Three pens are waiting to be claimed, at the Police Dept. They are: Parker, Waver, and Waterman.

If these pens are not claimed within a month, they will be disposed of.

JAN. 15 IS DEADLINE FOR FILING INCOME TAX

January 15th is the deadline set for farmers to file their income tax returns. Any one who was a seasonal worker and whose gross income was more than \$500 must file his returns before March 15, 1945, or he will not receive his refund check, it was disclosed by the Legal Dept.

Many evacuees are entitled to obtain a fairly high refund, so residents concerned are requested to contact the Legal Dept. for the proper forms to file.

It was cause for rejoicing to hear that we do not have to spend a mochi-less New Year, especially to those who love these rice cakes and Issei--mochi in some way signifies that the New Year has opened...

Glad tidings came to Murase family of 308 and George Kawano family of 309 when they were the first in this unit to be exempted from the exclusion order.

Before we entered camp and in the early days of it, Nisei were a source of worry for their parents. They were afraid that they would run wild, etc.... But, it seems with two and a half years in camp, the tide has turned to vice-versa. The Issei seem to be the one that is getting off the beam and the source of most trouble here... However, they are not all to blame.. They don't have work suited for them and the time is aplenty to think, and thinking is not always a happy occupation.....

Their entertainment is limited--the shibai is held only sparingly. To comfort the minds of Issei and some better enjoyment, it may be a good idea next year to show more Japanese movies, of course, inspected and passed by the authorities. We know there are many non-militaristic pictures stored somewhere and we think that this type of movies will be greatly beneficial to the Issei and their morale.

CHRISTMAS

The Boston Chronicle

AND A
HAPPY
NEW YEAR

VOL. XXII NO. 1

POSTON, ARIZONA

DECEMBER 25, 1944

CENTER WILL HAVE CHRISTMAS HOLIDAY

All evacuees and appointed personnel will have a day off on Christmas Day, according to Project Director Duncan Mills.

Schoolchildren will have a vacation from Dec. 23-Jan. 1.

Although gifts from the outside are reported to be fewer this year, younger children will probably receive enough presents to make this a day of delight for them.

In the three units, special church services are scheduled for Christmas Eve and Christmas morning. Several groups are planning to go caroling.

All mess hall chefs are planning special holiday dinners.

Merry Christmas, everyone!

P.S. There will be work and chicken for dinner on New Year's Day.

SNELSON, CHIEF PROJECT STEWARD, LEAVES DEC. 31

C.E. Snelson, chief project steward since Nov. 1942, has resigned and will leave with his family on Dec. 30.

He will be employed by the Clifton cafeterias in Los Angeles, and the family will take up residence in their Westwood home. Mrs. Snelson expects to continue teaching in California.

Appointed as acting chief steward is John L.E. Burdick, former steward.

CONSTITUTIONALITY OF EVACUATION UPHELD BY U.S. SUPREME COURT

Mass Meeting Held To Inform Residents Of Exclusion Lift

The Unit I high school auditorium was filled to capacity Monday afternoon, as Project Director Duncan Mills read particulars of the exclusion lift.

Remaining here for more than a year is out of the question, Director Mills said. The imperative step is to formulate plans for leaving Poston. The government, he was confident, has resources for assistance, which are not charity. He plans mass meetings before the closing.

"There is a great deal of work to be done, and at times, all of us will have to lend a hand," he added.

Basic Issues Avoided

Because U. S. shores were threatened, the Army had a right to remove Coast Japanese in 1942 as an emergency measure, a Supreme Court majority ruled this week, an AP dispatch said.

But the court differentiated between the exclusion orders and others whereby Japanese were detained in centers. Unanimously, it ordered the unconditional release of Mitsuye Endo, Topaz resident.

No military law was involved, and WRA had no right to detain loyal citizens under the circumstances, the tribunal ruled.

In neither case were broad constitutional issues ironed out.

The evacuation edict was canceled Dec. 17 by the War Department, effective at midnight, Jan. 2.

WARD III WILL HAVE SPECIAL HOLIDAY HOURS

Ward III of the hospital will be open to visitors all day, Dec. 24 and 25, from 9 a.m. to 8 p.m.

The same hours will hold during New Year's, Dec. 31 and Jan. 1. Visitors to Ward III must be 16 or over.

All other wards will have the usual visiting hours.

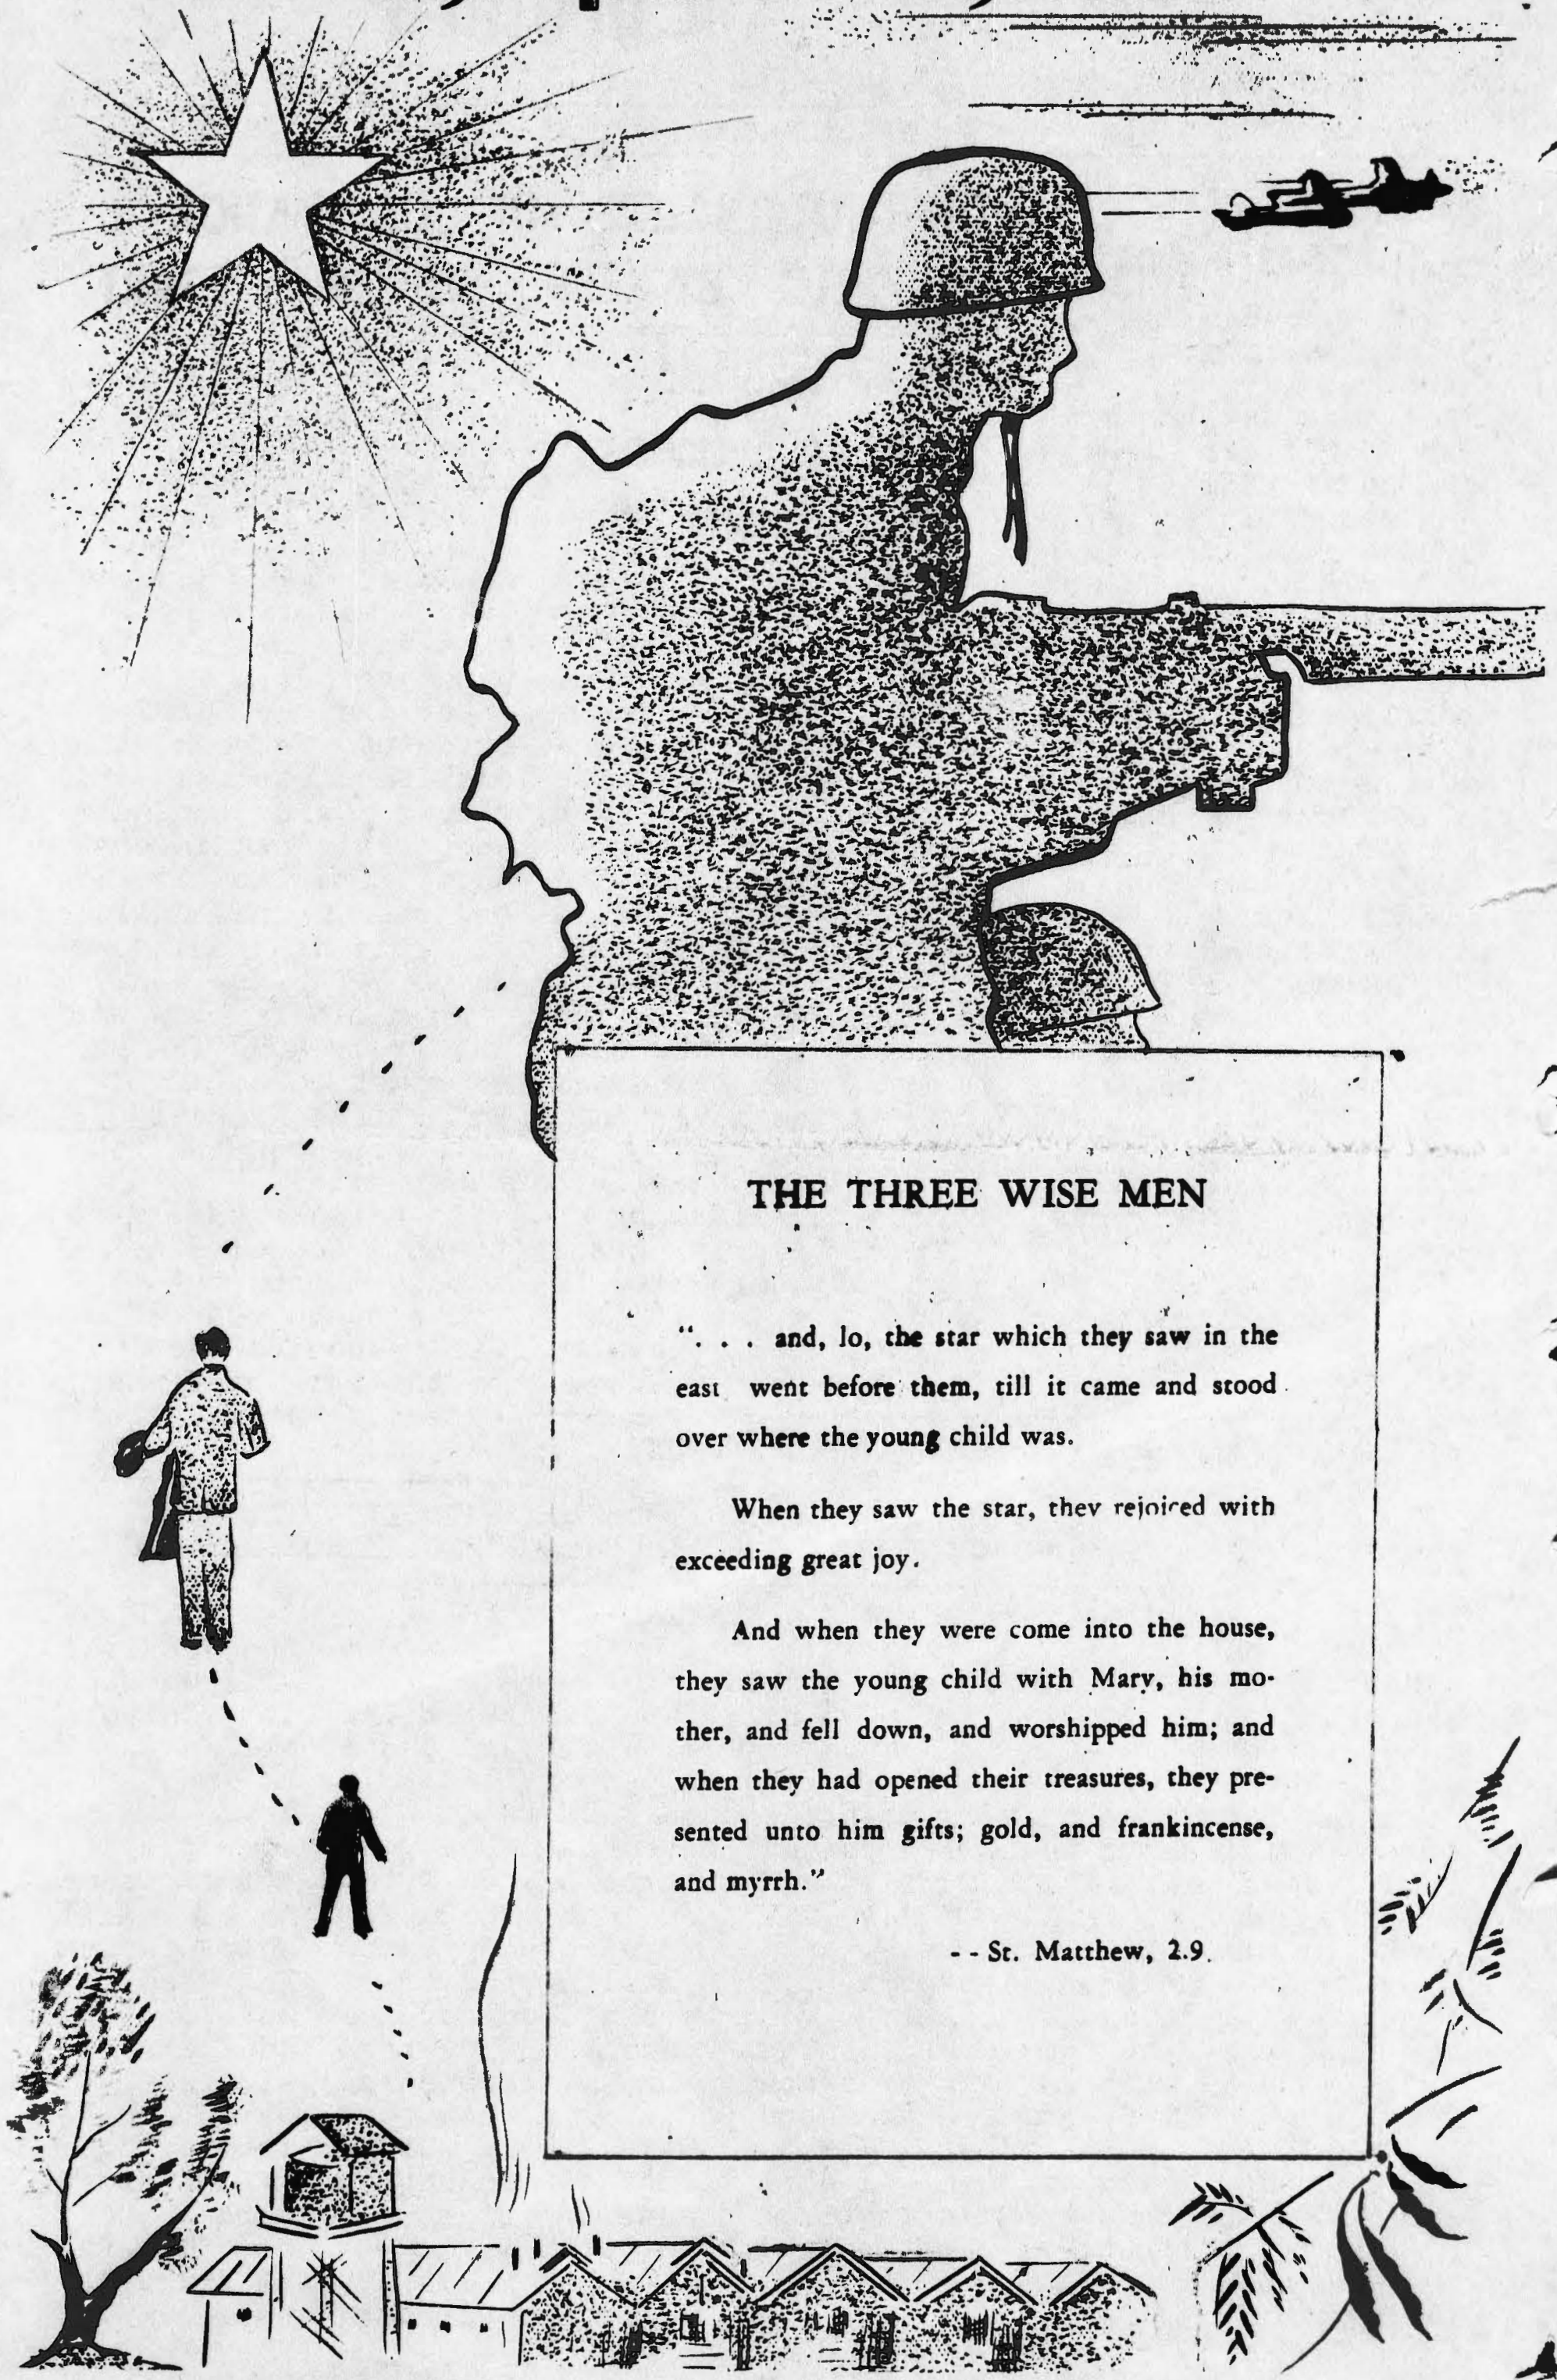

PROJECT DIRECTOR'S CHRISTMAS MESSAGE

To All Residents of Poston:

You are about to celebrate your ~~the third~~ Christmas in Poston. Already a third of those who celebrated with you in 1942 have left this community. By next Christmas all of us will have found new homes. In December 1942 it was difficult for many in Poston to believe in the ~~existence~~ existence of good will among men. The months since then have been marked repeatedly by actions and opportunities signalling the triumph of good will. This year we shall celebrate the removal of the last restrictions on that vast majority of evacuees who have demonstrated their own high sense of responsibility and cooperation despite the distress which war had brought them. I join all of you in hoping that this Season brings a genuine omen of peace on earth among men of good will.

THE THREE WISE MEN

“. . . and, lo, the star which they saw in the east went before them, till it came and stood over where the young child was.

When they saw the star, they rejoiced with exceeding great joy.

And when they were come into the house, they saw the young child with Mary, his mother, and fell down, and worshipped him; and when they had opened their treasures, they presented unto him gifts; gold, and frankincense, and myrrh.”

-- St. Matthew, 2.9.

"GLORY TO GOD IN THE HIGHEST AND ON EARTH PEACE
TO MEN OF GOOD WILL!"

FORMER BLOCK 22
RESIDENTS RETURN
TO ORANGE COUNTY

Thus sang the angels of old over the Christ-Child in the stable on Bethlehem's outskirts. What is this peace of which the angels sing? It is a treasure we may have if we will. It is the peace that surpasseth all understanding. The peace that Christ told us about on the mount. "Blessed are the peacemakers for they shall be called the children of God." This peace is in the heart of the God-like man who is wise enough to receive the "One Who came unto His own" though His own received Him not. For to those who receive Him He gives the power to become children of God. The Infant Saviour, wrapped in swaddling clothes, and stretching forth His tiny hands to the world and to each of us individually, offers us this Peace.

See His first adorers, poor and simple shepherds whom the angels called to worship Him. Then came the wise rich in the person of the Three Kings, called by the Star. They knew how to use their wealth in the search and service of the King of Kings, the Prince of Peace -- the Babe of Bethlehem.

Today He calls us to His crib in the stable. He says to each one of us: "See how Love is come down from Heaven from the Throne of Eternal Glory to win Eternal Joy and Peace for all through suffering and death. Love is the key to peace and joy. Love forgets itself for the loves ones. If you will have peace, come, follow Me, for I have loved thee with everlasting Love."

Men of good will! Heed His call. Enjoy the peace the angels promised you in the first Christmas greetings: "Peace on earth to men of good will!"

BARBER SHOP INCIDENT HAS NICE REPERCUSSIONS

Pvt. Raymond Matsuda of the nationally publicized Parker barber shop incident, has received sympathy letters from almost every state, according to Reports Officer Pauline Bates Brown.

One came from Mrs. M. Waegell of Elk Grove, Calif., who invited Matsuda to spend his convalescence at her farm, "where you would be most welcome."

One was from a Boy Scout in Washington, D.C., who asked for the soldier's autograph

to add to a collection including General Marshall, Eisenhower, MacArthur, Montgomery, Doolittle, Tedder and Bradley. "We would like to have your name among these great soldiers," said Scout Ben Kohn.

Others came from a "Pacific vet of New Guinea", a wife in Chicago, and from the mother of an American flier who was killed.

THANK YOU, THANK YOU

The Poston Chronicle, English and Japanese sections, the Reports office and the Print Shop wish to thank Mr. and Mrs. W. Freitas of San Juan Bautista for the boxes of beautiful pears.

The family of William S. Fukuda, formerly of 22-7-A, returned recently to Anaheim, Calif., from Littleton, Colo., where they had relocated last year.

They were accepted calmly by the community, newspaper reports said, and were "given a warm welcome on their return," while "neighboring ranchers whisked away the older daughters (Janet, Lou Anne), to begin practice for participation in a Christmas program to be presented by the Lutheran Church."

The family includes Mr. Fukuda, his wife, Rose, and three daughters. Accompanying them was Shigeto, Mr. Fukuda's brother, who was at Camp Shelby, Miss., until he was given an honorable discharge. Mr. Fukuda's parents still reside at 22-7-B.

Already in Orange County from Poston is Mechia Barlow, wife of a Navy man, who, with her children, was given permission to return to Buena Park, Calif., quite some time ago.

MAKE THIS A SAFE CHRISTMAS AND SAFE NEW YEAR

Each Christmas hundreds of homes and many lives are lost by fire throughout the United States. The gayest hours of the year have too often become scenes of tragedy.

Many fires could be avoided if people were more careful. Be sure that your Christmas electric cords are in good condition. Keep decorations away from lights and heaters. Do not use candles.

Do not hang clothing over or too near the stove. Do not allow children to play with matches. Do not pour oil in the top of stoves -- wait until oil has had a chance to flow into the burner.

Let us all work together to make this a Safe Christmas, and a Safe New Year.

"This Is It!" by a Camp Shelby Soldier

The couch feels good beneath weary muscles; and juke box blares and then becomes soothing and blares again. The old familiar strain fills the club and the mind drifts back--far back five and one-half months. How long the time seems; then again terribly short.

It was then five and one-half months ago--that I was an evacuee, unwanted and shunned by society; yet now barely five and one-half months since that time, I have become a vital cog in this country and in this war. By the simple change of clothes, one changes from the unwanted into the wanted--a soldier. How simple it is.

And what are the changes that took place in those fast-flying days?

I have changed; one must change in order to tolerate this new life. What a gap there is between living in an evacuee center and an army camp. The difference is as marked as day and nite. One can live a lifetime in five and one-half months, believe me, for it is so.

How vividly the days return. The early mornings, stumbling out of bed, half asleep, half-dazed. Sweeping, mopping, making the bed; then the blare of the whistle in the darkness of the dawn. The feet scurrying. Far away the bugle calls. The

ranks form quickly in the semi-gloom. The long hikes with perspiration oozing out on the neck and on the back. The wet spot grows on the man ahead of you. The sour smell of sweat. The breaks and rain. Of death and laughter. Sitting on the wooden pews--strange it seems to be in church with a uni-

AS OF CHRISTMAS 1944

--Lloyd Fujimoto--

It's rather strange to see the stars That loom so calmly over earth. That fill the deep and silent nights, With their array of breathless lights,

Because we know that somewhere, wars Are barking out their sullen mirth Of screaming steel and cries of men. --Although it's Christmastime again.

It's Christmas--like we used to know, Except a little different now-- For, after all, the world is strewn With cities toppling onto ruin;

And noises dead since long ago Awaken with the war-cry now Of gun-fire, bombs, and rockets' trail-- (The naked crosses bare the tale).

And yet, we see the mistletoe... The curled holly on the bough... The gaudy, baubled Christmas tree Resplendent, gay and tinselley;

And sparkling white, as though with snow, The passing year takes its last bow, Wrapped in carols and diamond frost To prove that Christmas is not lost....

form and grieving the death of a fellow soldier--a victim of accident. All strange and new things in a separate world. Days on bivouac. The fireflies at night and the moon grinning down at you. Firing the mortars and rifles and carbines and pistols. An unexplainable thrill this. The instrument of

of death in your hands. A slight pressure of the fingers and the messenger of death on its way. The action is so simple; everything to do with death is simple, never complicated.

The days going by on wings, never dragging. The weeks rushing by, and above it all is the sensing that death is near --so very near. That all this marching and sweating and cursing has but one objective --

death. Death to kill, to maim, to harass the foe. And the prevention of death to one's self--that was the objective. And as the days slipped by, this one feeling got lost somehow, but occasionally one thought of it, but not as before, for a new feeling is now gushing thru the veins and in the pit of the stomach and in the mind. The feeling--oh, how shall I explain those many feelings one has on being a soldier. The feeling that this is IT!

LOCAL PHILOSOPHER GIVES ATTENTION TO THE BEWILDERING SUBJECT OF WOMEN

--M.S.

Desperation

--J.Y.

The dimly-lit room was warm and crowded. Perspiration ran freely from my pores. I tried to push through the mass of people before me again and again, but each time I was jostled, elbowed, and shoved back. It was almost midnight, and as each minute sped by, I grew more desperate.

It's getting late... I must get through... I must.

Then someone was speaking through a microphone. My heart began to beat frantically when I heard that...

It was almost hopeless now, but I was too determined to give up. Lowering my head, I rammed against the human barrier with all the strength I could muster together. Slowly, they began to give... inch by inch, I was getting through. Then at last, I did it... I made it... I was through.

Elated, but overcome with fatigue, I stumbled forward. But... it was the voice over the microphone again... "Will the person who just broke through the stagline, please step off the dance floor? This is the last dance now, and you're not allowed to cut in."

I was talking to a prominent statistician one day and for some unknown reason we got on the subject of WOMEN.

"You know," he said, "New York women hate to be over 40, Paris women hate to be over 30."

"Well," I said, "How about Japanese women?"

He replied, "They hate to be 29."

Well now, what is it that makes you girls want to hide your age? If you're 17, you go around telling people you're 21, and if you're 21, you go around trying to be a teen-ager. If you're young, you put make-up on to look older, and if you're old, you daub it on to look young. Now we men don't try to look younger or older just for the general public. Do we, girls? We wouldn't submit our beards to them "fandangle" permanent wave and nor would we go into society with one of them stylish, low-cut, strapless evenings gowns. Why, if you should go to one of these New York night clubs, you'd see more barebacks than you would at a rodeo.

Today, you give us that 1000 kilowatt look with those nice eyes filled with warmth and animation, and a big heart-warming Ipana

smile that brightens your face like sunshine, but just wait 'til tomorrow--for some unknown reason, the weather suddenly changes, and lady, you're an iceberg with your proboscis erected at a perpendicular inclination. Ah, but you're such an angel, okay--but let us cross you once and you pout and shout and hit the ceiling and make a guy feel like 2¢.

What chance has a guy when you fold up and melt in tears? Then's the time when we have to get on our hands and knees, and, "Oh, now, honey, I didn't mean it that way."

To get another load off the chest, do men, unlike you, gossip, whether it be over a phone, at a party, or a plain get-together? We do? Nonsense! Ridiculous!

A husband comes home from a swank party and the dear wifey gives him the third-degree. Who was at the party? She was? What did you have to eat? What kind of dress did she have on? Lady, that certainly isn't us men.

Well, that's that. Anybody know where I can get a New Year's date?

THIS IS IT!

(Continued from page nine) by

a Camp Sneyoy Soldier

This is what one lives for; the biggest thing in life's game. This is life, a game of football or baseball or basketball, where skill counts. The prize was life or death, not a trophy. This then is the ultimate triumph. What matters if we live or die, but to feel this companionship with death. To kill and destroy the enemy. Action--that's it--like the thrill of a game multiplied a

thousand times. These are the things that are with me now as I write.

And if we should never return or return maimed or return altogether--the body intact--that is not for you or I to decide. Someone takes care of those things. Some call it fate. And since one has no control over life or death, why burden ourselves with its worry. If the times comes, it comes--one cannot chan-

ge it. The thing to do is to give everything one has learned--the strength of the human body, the agility of the human mind, the thoughts, the feelings--the best of everything; then leave the rest to whomever is given the task to apportion death and destruction.

Yes, we will give all we have for victory, which will mean peace and quiet and back to the normal channels of life.

POSTON SOLDIER GLAD TO HEAR PHILIPPINE NEWS

LEGION POST CRITICIZED FOR ANTI-NISEI ACTION

The Hood River (Ore) Post of the American Legion which lately removed the names of 16 Japanese-Americans from the Hood River Community Honor Roll has been roundly criticized by editorials in the Detroit (Mich.) Free Press, the Milwaukee (Wis.) Journal, by Secretary of War Henry L. Stimson and at least two other Legion Posts.

Wolverine Post 360 of Reading, Mich., protested, "It is the opinion of this Post that your reported action is not only an insult to those men whose names were removed, but also to every member of our armed forces and to the American Legion as well, upon whom this action has brought discredit and shame."

The New York Post also condemned its Oregon brother organization and incited the 16 Nisei soldiers to join its chapter.

CANTEENS WILL HAVE SPECIAL HOLIDAY HOURS

Poston Community Enterprises announces its business hours before the holiday, and dates when stores in the three units will be closed.

In Unit I, stores 1, 3, 4, and Rainbow Mart will be open from 6:30-8:30 p.m. on Saturday, Dec. 25, in addition to the regular daily hours, and all day Sunday but will be closed on Dec. 26 and 28.

In Unit II, stores 1 and 4, and in Unit III, stores 1 and 4, will follow the same schedule as Unit I stores. The Co-op office and warehouse are to follow the above schedule.

Check cashing windows will also be closed on Dec. 25 and 26.

United Nations soldiers everywhere greeted the news of the American invasion of the Philippines with enthusiasm, but nowhere was the enthusiasm greater or more sincere than in the Vosges mountains sector of northeastern France where the 442nd is fighting, the Monterey (Calif.) Peninsula Herald reported recently.

First Sergeant Royal Manada, formerly of Monterey, whose family resides at 13-5-D, was making out his morning report when the invasion news came over his captured German radio. In his excitement, he fell into a mud puddle as he hurried to tell his men that General Mac Arthur had landed in the Phil-

"That's the biggest news since D-Day at Normandy!" he exclaimed. And his comrades agreed. Among them was Cpl. Misano Endo from Los Angeles, whose family lives here at 26-10-D. "It's damn good news, but there's still a lot of war to be won," the latter said. Endo ought to know, the news story said, because he spent 15 years in Japan, 15 years in which he learned by painful experience that the American way of life is best. "The defeat of Japan may bring liberalism, or even democracy", he stated, "and then perhaps the common man over there will get a break."

A special task force of Japanese-American soldiers felt so good over the news that they surprised the enemy in a wide-flanking movement and captured 54 prisoners and killed 80. Another group chased 17 Germans into two houses, surrounded the houses and proceeded to "barrack" them into submission, the story concluded.

POSTON GIRL AND SOLDIER BROTHER MEET IN PA.

Under the caption "Re-united in War Relocation Office Here," the Philadelphia Evening Bulletin recently published a picture showing the reunion at the Philadelphia WRA office of the Misses Mariko Ozaki and Nellie Haruko Nagano, who are employed there as secretaries, and their soldier brothers, Corporal Mike Masayuki Ozaki and Technical Sergeant Patrick Noriyoshi Nagano, who were visiting their sisters while on furlough. The Ozakis are from Minidoka, and the Naganos from Colorado River.

Miss Nagano, 21, is a native of Morro Bay, Calif., and her brother Patrick, 26, was born in San Luis Obispo, Calif. At the time the Nagano family was evacuated from Morro Bay, Patrick was managing a truck farm there and Nellie was attending San Luis Obispo Junior College. At Colorado River, Nellie was a secretary in the Maintenance Dept. of Camp III and her brother was head of the sanitation department. Nellie left Poston in August 1943 for Philadelphia, where she was employed by the Japanese American National Student Relocation Council until March 1944, when she took her present position in Philadelphia relocation office.

T/Sgt. Nagano entered military service as a volunteer and was trained at Camp Shelby, Camp Savage, and Fort Snelling prior to undertaking his present assignment in Maryland. He is a graduate of San Luis Obispo Senior High School and Stanford University, where he was a Phi Beta Kappa pre-medical student and a member of the varsity baseball team. He was awarded the bachelor's of science

degree in 1941.

The parents of Nellie and Patrick, Mr. and Mrs. George Yoshio Nagano, now reside in Minneapolis, Minn., where their sister, Mr. Takeshi Shibuya, also lives. Two other Nagano boys, Pfc. William H. and Pvt. George K., are both stationed at Fort Snelling.

64th AFL CONVENTION CONDEMN'S PERSECUTION (cont. from page 11)

SOLVED THAT, this 64th Convention of the American Federation of Labor in session in New Orleans, in reaffirmation of our great tradition of the struggle against intolerance and oppression, strongly condemn and unwarrented persecution and discrimination against American citizens of Japanese ancestry.

"Your Committee recommends that the resolution be referred to the Executive Council for thorough-going study, for such recommendation and action as seem most appropriate."

CHRISTMAS GREETINGS FROM NATIONAL YWCA

The following message was to have been included in the Christmas issue of the Resettlement Bulletin issued by the Committee on Resettlement of Japanese Americans of New York City, but was omitted because it was received after deadline:

The Christmas star shines in the sky, beautiful and eternal. Clouds may cluster and hide the steady light, but only for a time.

Who can doubt, even in this world's deep grief of war and dreadful desolation, that some day we shall learn to walk a brighter path together--all the peoples of this earth.

To all of you, our Japanese American friends in Relocation Centers, the Young Women's Christian Association sends very special greetings. Before we raise our eyes another year toward the Christmas sky we dare to hope with you that those valiant ones who have fought our battle on far flung fields can be coming back--not to fences which shut way, but to American communities across this land and to American homes warmed with sturdy faith and courage, with neighborliness and shining dreams of the future.

Christmas joy we send to you, and high hopes for a New Year that shall be life's best.

EVACUEE PROPERTY PROGRAM INFORMATION: NO. 5

(Last article in series dealing with services, limitations of the evacuee property program.)

An evacuee who wishes to arrange for shipment of personal property must fill out Form WRA-156, giving complete information and having the signature witnessed.

Evacuees are entitled to free shipment of their household or personal effects from original storage to a center, or a point of relocation or, if they already have them in a center, to a point of relocation. Evacuees wishing to have property shipped from a center to the point of relocation should make their requests to the Project Director.

The WRA will help the evacuee to get information on costs when the evacuee wishes to have a private company ship his property. Request for such help should be made on Form WRA-153.

In the matter of shipping commercial property, the Property Office will help the evacuee arrange for shipment to any point he desires but all costs for shipment must be paid by him.

However, the WRA will pay for shipment to points of relocation the equipment of an evacuee's trade, including farm machinery and equipment sufficient for a family-sized venture (but not over 5,000 lbs. per family), if the Relocation Officer in the community in which the evacuee relocates or intends to relocate will certify that the use of such equipment is necessary to the evacuee's successful relocation and cannot be replaced locally at the time because of wartime shortages.

All shipments are by freight unless the items are difficult to send safely by freight because of high value or small size. Furthermore, if the Project Director or Relocation Officer certifies on Form WRA-156 that express shipment is necessary in the interest of the relocation program, goods may be sent by express. Express shipments at government expense may not exceed 500 pounds.

Evacuees should consult with the Property Office in all matters pertaining to shipment of goods, sale of property, or in matters involving rentals, leases, taxes or disputes arising from contracts.

The Property Office has been established to aid the evacuee. While its functions necessarily are limited, it can help him solve many types of individual problems. The evacuee is welcome at the Property Office and should avail himself of the services offered.

JAPANESE SCULPTOR AND DANCERS MAKE NEWS

New York critics are rather dubious about the nationality of Teiko, who presented a program of Eastern dances at the New York Times Hall last month, it is reported.

One writer called her an "American born of Mongolian parents," while another played safe and classed her as an "Oriental."

According to local sources, she is part-Japanese, her name is Teiko Ito, and she is a sister-in-law of Michio Ito, famed Japanese teacher of dance.

Isamu Noguchi, sculptor, who was once a Block 5 resident, is reported to have designed the settings for the Martha Graham Dances in Festival which took place last month in New York. The settings were described as "sensitive and original." Yona Noguchi, California poet, who was sometimes called the Japanese Tagore, was the father of Isamu Noguchi. The latter has won several prizes for his work, including a Guggenheim award.

Studying under Martha Graham in New York now are two Nisei, Yuriko Amemiya from Gila and Michiko Isari from Mt. Mountain. Miss Graham was once a pupil of Michio Ito.

JUDICIAL COMMISSION DISMISSES CASES

SPECIAL XMAS GREETINGS

Gleanings

--by Manabu Fukuda

TODAY WE ARE...

...very fortunate to have Manabu Fukuda's "Gleanings" column to end out last issue of the Chronicle for the 1944 year!

NOTHING...

...is more pleasantly aggravating than sitting down (it's not "sitting" that's aggravating) and writing names on the season's greeting cards. Deciding whether Joe should get a prettier card than Hanako is certainly an ugly task. In desperation we flip a coin--and invariably we feel that the decision should be reversed, so we finally address the prettier one to Hanako! We often wonder why we didn't get just one kind of cards, but we think this is fun, don't you?

SOMETHING...

...should be done about the dirty, smudgy spots, and a slow-flowing "facsimile-of-air" that they're dumping into our tanks no days. In the mornings we can see clouds of black smoke lazily rolling over our heads. We can see the black flakes floating hither and yon trying to land on someone's white shirt or on the tip of our nose.

If we don't remedy this "dark" situation soon, we'll have a pretty "black Christmas" this winter. Our stoves aren't smudge pots, and who wants to be scraping carbons during the holiday season!

EVERYTHING...

...pales in front of this one! Last Sunday, Dec. 10, we asked the Sunday school class

Because of the present day universal turmoil, Christmas will have a deep meaning for everyone this year. To a confused world it will bring hope; to the bewildered nations it will bring peace; to the searching people it will bring joy.

May the Christmas spirit fill your hearts with goodwill and happiness and may this Christmas season find each one of you in good health.

/s/ Rev. Konei Takeda

Poston II Christian Church

As we look at the last leaf of the calendar of 1944, we are stirred with deep emotion in reviewing the extended center residence of some two and a half years. We can all realize the remarkable progress made in the development of the community of today as we reminisce about the days of frontier activity.

The smooth-functioning of Camp II is a credit to each and every resident. The Project Management Section of Camp II--Unit Administration and Central Block Manager offices gratefully express their appreciation to the residents for the cooperation accorded towards the community endeavors.

The prime objective of the Unit Administration and Central Block Managers offices is to give every possible service to the community during the period of existence of this Project. In welcoming the new year of 1945, let us all resolve and pledge to strive with united and coordinated efforts to aim for continual progress, physically and morally, in preparedness for the post-war circumstances as well as the increasing development of this center.

Our season's greeting of Merry Christmas and Happy New Year is extended to you all for your health and happiness.

/s/ Kenji Uyeno,

Unit II Administrator

/s/ John Kubota,

Central Block Manager

Each Christmas hundreds of homes and many lives are lost by fire throughout the United States. If proper precaution is taken with Christmas decorations no tragic results may happen to mar this Happy Christmas time.

Wishing you all a Merry Xmas and a Happy and Prosperous New Year.

/s/ Harry M. Frum,

Fire Prevention Officer

(9 to 13 years old) "bird-minded" friends this question: "What won't become "bird-brains!" Of course, A small boy, no older than 10 years of age, yelled: "A gossip and start throwing things at us, except these beautiful birds... We're hoping our with gay plumage!"

Very Merry Xmas From the Poston II Chronicle Staff

The lights on the streets are low. Beads with candles glowing brightly can be seen through the windows. As we peer in, we sight the Christmas tree with all the attractively wrapped gifts adding to the beauty of the picture. It is Christmas Eve. Suddenly, a faint humming hits our ears, and as we stand there listening intently, we recognize the traditional Christmas carol, "Silent Night, Holy Night." White flakes fall gently on their shoulders. Gradually the street and lamp posts turn white. The carolers' footprints are left in the deep snow. Summarizing it, it turns out to be the long-awaited white Christmas. This is the kind of Christmas that we've dreamed about; this is the kind of Christmas that some of us have already enjoyed, but now we are in camp to enjoy a "plain Christmas." We can make this elaborately celebrated holiday a merry one, too, if we try, so let's put all we have into it! Let's let this one top the other two Christmases that we have spent here. The Chronicle staff wishes you all, a merry Christmas!

(s) Unit III Chronicle Staff

With the exception of a few persons, this is the third Christmas which we will have spent in Boston. The first one was quite eventful as relocation had not yet affected the center population, and the activities were many and varied. Most of the original residents were still here to share in the numerous programs planned that year. The second Christmas, however, found many of our friends gone and the season's activities were consequently planned on a smaller scale. It was during this Christmas and Christian Church groups throughout the country sent gifts to the people in Boston and all other relocation centers. This year, the churches are again sending gifts for distribution. At the same time, we find a still fewer number of our friends here to participate in the joyous season. It is truly a tangible expression of good will on the part of these Christians throughout the nation who are voluntarily contributing toward our happiness at this time.

On our part, there is much to reflect upon as our relationship with those on the outside has been predominately one of receiving. In our center life, all have given unselfishly of their time and energies in attempting to create a comfortable and harmonious community, but such cannot be said of our efforts to contribute beyond our immediate needs. This limitation of our efforts within the center was prompted by the tremendous task which awaited the residents upon arrival here and further by feeling common among underprivileged society--that of limited endeavor.

As this Christmas brings again its message of hope, peace and good will, we can enter into the true spirit of the Nativity by identifying ourselves with those services and sacrifices which others are making for us.

Throughout this nation and in other parts of the world, the relocatees have gone ahead to open the way into new communities in order that those who follow may do so in confidence, and are rendering unselfish services to that end. These servicemen are making unparalleled sacrifices in a conflict which they felt they could not stand idly by and ignore. The Christian friends are sending gifts with the hope of making our Christmas a more enjoyable one. The realization of all these things spurs us to a consciousness of the contributions we too can make in contrast to the prevailing attitude of resignation. True, our means are limited as to the things we can do or give but in times such as these, the emphasis is on the spiritual and not the material blessings of life. An encouraging message of cheer to some servicemen in the field of combat means more than an expensive gift. Similarly, a friendly letter to some friend who has relocated in a new community may change that person's entire perspective in the new environment. News of our activities here are always welcome to our former friends on the Coast and may open the way for future resettlement for us and others. The humble and lowly surroundings in which the Christ Child was born did not detract from significance of the occasion. Our situation is opportune in which to grasp the simple yet deep message contained in the hope, peace, and good will of Christmas that we fail to realize in times of peace under prosperous conditions. May Christmas, 1944, by for each one of us are re-wakening of our hopes and joys and a re-dedication of our services toward a better community, nation, and world.

THE EAST AND THE WEST

I'm Dreaming Of
A Next Christmas..

....Edith Mason Waterman

"You're home! Gee, you're really home at last! Golly, it's good to have you home for keeps!!", grasping tightly his arms with my both hands I cried with happy tears flowing down my cheeks.

He didn't say anything but as he gathered me in his arms and held me tight--the way he did, oh so long ago before he went over, I knew he was happy to be back too.

I left everything the way it was before evacuation because I wanted for him to come to the home he has always been picturing in the battlefields, foxholes and tents.

It was a beautiful Christmas morning in 1945..no, there were no snows to beautify our little farm house, where we lived, were evacuated from, and came back to, but what did it matter. He was home now!

When I used to sing "White Christmas" after you left I always changed the "white" to "our Christmas" as I longed to have you home with me.

The Lord must have been with you--you came home after all the tight spots and facing such a close death in two injuries. I never expected that you would come through--our separation was so hard to take.

But here you are--with scars, of course, but I'll love you even more as those scars indicate that you have done your utmost so that we may live the life we want....

Thank you, darling!!

With my heart full of gratitude, my dream was broken by the breakfast chow bell...Shucks, it was only a dream and the calendar still showed December 25, 1944.

Two scenes associated with the Christmas season come to my mind at this time. One is in the far east and the other in the near west; both in our country.

Massachusetts's State House, with its golden dome, is on Beacon Hill in the city of Boston. On Christmas Eve, hundreds of lighted candles shine forth from its many windows, while nearby homes also show lighted candles. This glowing region of lights reflects the warmth of genuine hospitality, deep thoughts of genial joy in life, abundance of culture, and steady progress for all indicate more than the outside beauty reveals. Perhaps their special messages to the whole world at this time are two-fold: "Let your individual light shine wherever you are," and, "As Beacon Hill wishes 'A Merry Christmas,' so will you wish the people where you live, the same."

Before the present war, Santa Rosa Avenue in Altadena, California, and Christmas tree Lane in Fresno, famous for its rows of Christmas trees, was lighted every evening between Christmas and New Year's. For a mile on either side of this avenue, these majestic towering Himalayan cedars of Altadena reminded people of Christmas. Some called them God trees and appreciated the thoughtfulness of the men who long ago brought the seeds from India. Crowds admired the trees in the daytime but when night came and they blazed forth with myriad lights, it was for all who viewed them a scene of fairy-like beauty. Here, living Christmas trees, seventy-five feet and more in height and thirty or forty in diameter sparkled with lights in every color of the rainbow. The gracefulness of these cedars was seen in the spreading of their branches whose dark pendulous tips of long bluish-green needles contrasted with the brilliancy of the lights and made a suitable background for them.

Dorothea Hoaglin Hayden has written a long poem in which these evergreen trees tell their history. Three stanzas at the close are:

"And some one named us 'Christ trees'"
In this land of heart's desire,
And every year at Christmas time
Our branches blaze with fire!

Fire of opal and emerald,
Amethyst, tourmaline, blue,
Like gifts the Wise Men carried
To the little Christ child, new.

Our branches sing of the Christ Child
As we point the way He trod;
And strike deep root in this glad new world
As we watch the stars with God."

Yet I feel some comfort for a hopeful sleeping vision..It's too late for this Xmas to have you opening the door to our home but may next year bring you really back into my arms.....

CHRISTMAS AT SCHOOL

In line with Christmas in Poston, the students have been busy during the holiday season. This holiday was earmarked with many activities put on by the go-getting high school students.

Here is a sort of panoramic review of the activities, with special emphasis on the Hi-Times social.

December 19 was the date for the Girl Reserves' play, "Burglars for Christmas" which only students were allowed to attend.

Next on the list was the different "Hi-Times social entitled, "Juke Box Saturday Nite", featuring a juke box and nightclub setting with food and entertainment on the list. The food was served nite club style with charges being made for the chili, hot dogs, hot cheese sandwiches and cokes that were served. The auditorium was gaily decorated for the affair in red and green and we think it was the high light of the Christmas season.

Events to follow includes the Senior presentation of the pay movie for the public on the 29th.

On the 31st and January 1st of next year, the Annual Staff will put on a real "spook-thriller" at the high school auditorium. Admission will be taken to cover the publication expenses of the annual.

All in all, the students of the camp really closed up the book for 1944 with "lots of fire"; the way they should. Let's hope they keep on this way!

The Christian Church has distributed gifts from the outside churches to each block of this unit to given to children on Christmas.
