My dear Carl:

I am just in receipt of your letter of March 25 advising me that Stephen Mather, Director of the National Park Service, will arrive in Phoenix on the 6th.

I am glad that you have given him a letter to me, although I met him some years since. I shall take a real pleasure in doing anything possible for him, not only because he is your friend, but because I feel he is doing a constructive, unselfish, worthwhile piece of work.

Please accept my sincere thanks for your wire advising that you were mailing the report of the Engineers on the High Line Canal. I shall read this report with great interest.

With kind regards, believe me

Yours sincerely,
