November 2, 1925.

Dear Mr. Hayden:

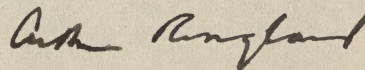

I wired you today as follows:

FORWARDING COPY COMMITTEES REPORT TODAY STOP STILL
AWAITING DETAILS OF ROAD SURVEY THROUGH BUGGELNS
RANCH

I am enclosing the complete report of the Coordinating Commission on National Parks and Forests, together with a set of maps. These maps are on too large a scale to give specific boundary information; this is particularly true of the Grand Canyon. Some time ago I received a letter from Superintendent Eakin of the Grand Canyon National Park stating that he was sending me shortly the details of the road survey through Buggeln's ranch along lines agreed upon with Martin Buggeln. I have not received the survey but will ask the Park Service if they have any information. I am sending, herewith, a copy of the last letter received from Mr. Eakin re this.

I am sorry for this delay. No doubt you thought I had overlooked my promise.

Very sincerely yours, .

Arthur Ringland,
Executive Secretary.

Hon. Carl Hayden,
Phoenix,
Arizona.
