

September 20, 1923.

Hon. Arno B. Cammerer,
Acting Director, National Park Service,
Washington, D. C.

My dear Sir:

With further reference to my letter to you of August 11th, and your reply of August 29, 1923, I am enclosing a supplemental communication I have received from Mr. Jesse L. Boyce, of Williams, Arizona, which he believes will more fully enlighten you concerning the situation, about which he previously complained, at Grand Canyon. You will note Mr. Boyce questions the accuracy of Mr. Crosby's report, and takes exception to certain statements therein contained which he feels savor very much of an attempt on the part of the Superintendent to misrepresent him.

Any further action you deem it necessary to take in the matter which might be helpful in more satisfactorily satisfying Mr. Boyce's complaint, will be greatly appreciated by,

Yours very respectfully,

M. C. Arizona.
