

ADDRESS ONLY
THE DIRECTOR, NATIONAL PARK SERVICE
WASHINGTON, D. C.

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
WASHINGTON

August 13, 1923.

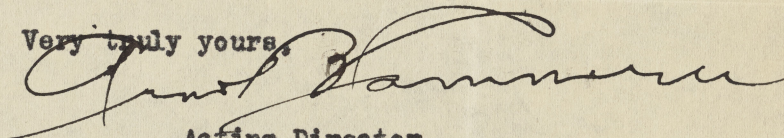

My dear Mr. Hayden:

By your reference of August 11th I have received complaint made by Mr. Jesse L. Boyce in regard to the manner in which TNT is stored in Grand Canyon National Park.

I am taking the matter up with Superintendent Crosby there and upon receipt of his report will write you in further reference to it.

A year or two ago when I was at the Canyon this TNT was stored nearer to the village of Grand Canyon, and it was at my direction that it was moved to a point near Rowe Well, where there was comparatively little travel just then, and which at the same time was fairly accessible to the center of operations. It seems though as if travel has followed us around pretty closely.

Very truly yours,

Gust Hammer

Acting Director.

Hon. Carl Hayden,
House of Representatives, U. S.
