

Student Body To Have Direct Control Monday Assemblies

THE TEMPE COLLEGIAN

VOL. V.

TEMPE, ARIZONA, FRIDAY, SEPTEMBER 20, 1929.

No. 1

FORTY MEN REPORT FOR GRIDIRON PLAY

Two Members of Student Body And One Faculty Advisor Will Arrange All Assembly Programs

Plan Is Unanimously Adopted at Joint Session Held This Week by Faculty and Student Body; Entails Many Responsibilities

Direct control of all Monday assemblies passed into the hands of the Student Body this week when the faculty and student executive councils, meeting in joint session, voted unanimously to place the planning and conducting of such meetings in the hands of a student committee.

This committee, to be composed of two members of the Student Body appointed by the student council, and one faculty advisor appointed by President Matthews, will arrange all assembly programs. It will act on petitions of campus organizations bidding to present assembly entertainments, and act as a board of review at final dress rehearsals of such presentations. The committee will also be responsible for checking and reporting attendance at assemblies.

While the plan will be more or less on trial this semester and its permanency will depend on the co-operation of the Student Body, it is believed it will be a means of arousing greater interest in weekly assemblies. Should the system meet with student approval it will be continued, succeeding assembly committees probably being elected by the Student Body.

The two student members of the new body will be selected before the end of this month, and will have charge of the first October assembly, according to present plans.

The committee idea was first conceived last semester and developed in a series of conferences between Epes Williams, student council proxy, and F. M. Irish, representing the faculty. Mr. Irish, incidentally, has been appointed by President Matthews as the faculty member of the new committee. He has promised his continued support of the plan, and is seconded by the entire faculty council, which has expressed a desire to see the faculty and student body welded even closer together.

Another important motion adopted by the councils at their meeting Monday provides for a student program committee. This committee, composed of three members of the student body appointed by the student council will arrange the calendar of all school events a year in advance. This schedule will include assemblies, dances, plays and all student body affairs.

President Matthews presided over the meeting which was attended by the following: F. M. Irish, J. O. Grimes, J. L. Felton, faculty; Albert Huber, Ione Hodges, seniors; Molly Wright, Horace Chesley, sophomores; Caroline Contreras, Tom McCarty, juniors; Katherine Vandy, Onward Cochran, freshman; Epes Williams, president, student council.

HOW CRUEL!

Doctor: "Your husband must have absolute quiet if he is to recover from that accident at the plant. Here is a sleeping draught."

Wife: "And when do I give it to him?"

Doctor: "You don't give it to him. You take it yourself."

"Love is not getting, but giving. It is goodness and honor and peace and pure living—yes, love is that, and is the best thing in the world, and the thing that lives longest."—Vandyke.

Introduction of Faculty Features First Assembly

Phillips Unable to Be Present; Allen and Sandige Speak to Student Body

The first assembly of the year, held September 10, was devoted to the introduction of the new and old members of the faculty. Dr. Matthews told the students something about each member of the faculty when he introduced them.

Mr. Irish made several announcements concerning the seating arrangement in assembly and other school activities.

Miss Gerrish led the singing of the school song.

The assembly held September 16 was brought to order by Mr. Irish, who made several announcements of student activities.

Dr. Matthews then read a telegram from Governor Phillips which expressed his regrets on being unable to speak before the assembly.

Mr. Elijah Allen, of Mesa, and Mr. Sandige, of Phoenix, members of the school board, then spoke to the students. Mr. Sandige, who had graduated from Tempe Normal, tried to convince the college students that campus life was much better and more interesting in the "good old days."

Dr. Matthews told of several students who worked their way through school and have become well-known men and women of today.

Miss Gerrish led the assembly in singing "America, the Beautiful."

President's Reception An Enjoyable Affair

The president's reception was held on the lawn near the Matthew's home, from 8 until 10 o'clock on Thursday, September 12.

President and Mrs. Matthews were assisted in receiving the new students, and the old returning students, by Mr. Irish, registrar; Mrs. Waite, the head resident of the halls, and the new faculty members, together with the presidents of each hall.

It was an informal reception attended by a large number of students and alumnae of the college. A program of singing was the feature of the evening.

BAGNANIMOUS SON

"I'll give you 50 cents if you'll wash your face," said the college professor to his son.

"Keep it and get a haircut," was the young hopeful's reply.

Pasteur Scientifics To Hear Talk By Mr. Casida, Oct. 2

The Pasteur Scientific Society had its first meeting of the year at the home of its monitor, Dr. Bateman.

Due to the increased enrollment in the Physical Sciences courses the society expects many pledges in the near future.

On the evening of October 2, Mr. Casida of the Department of Agriculture will speak on the subject, "Science and Agriculture." All persons interested are invited to attend. The program committee at this date states that such subjects as, "The Rise of the Copper Industry," "Astronomy," "Science and Medicine," and "Science and Health" have been booked for the near future. The people who will speak on these subjects are people who are well versed on the topic.

Geographic Society To Hold Opening Meeting Tonight

The first meeting of the year for the Geographic Society of the College will be held as usual upon the Hoover lawn tonight.

The officers will outline the objectives of the society and tentative plans for the year's program. A splendid year may be anticipated by the members of the Society with Miss Gracebel Swift at the helm. The Geographic Society fosters programs and field excursions for its members and features some of the college's best programs for the general public. The activities of the Society last year culminated with a week-end trip to the Natural Bridge near Payson which is one of Arizona's most remarkable natural wonders.

LIBRARY FIRST AID

At what hours is the College Library open?
From 8 a. m. till 12 (noon), from 1:10 p. m. till 5 p. m. on regular school days. From 9 a. m. till 12 (noon) and from 1:30 to 4 p. m. on Saturdays. From 7:15 till 9:15 on Mondays, Tuesdays, Wednesdays and Thursdays.

Is it open on holidays or on Sundays?
No.

Do books circulate at night?
No.

What is the limit of books that may be taken at one time?
Three—two non-fiction and one fiction.

What is a "reference" book?
A "reference book is a book which is used for looking up particular points rather than for reading through." Such books as encyclopedias, dictionaries, bound volumes of the magazines, etc., are reference books and are found outside the stacks.

May "reference" books be taken from the library?
No.

How long may a book be kept?
Fourteen days, unless it is a "reserve" book.

How long may a "reserve" book be kept?
Overnight, or over the week-end, and must be returned by 8 a. m.

What system of fining is used?
Two cents a day is charged for 14 day books if overdue, and twenty-five cents for the first hour and ten cents for each succeeding hour on "reserve" books.

How can I tell when a book is due?
Look at the date slip in your book. The date due is stamped on this.

How often may I renew a book?
Once.

What happens if a book is damaged or lost while charged to me?
You are responsible and must pay the damage or loss.

If a book is found is the money refunded.
Yes, if the book is returned during the school year.

How may I find books or information which I cannot find or do not know how to find for myself?
Call on the librarians. They are glad to serve you in any way at any time.

Many Veterans Return to Battle For A. S. T. C. Bulldogs; Light Workouts Feature Early Practice

First Clash of Season To Be With Texas School of Mines, at El Paso, October 5; New Men Make Good Showing During Debut

Have you noticed our handsome Mr. Begg walking around in a dream lately? What could be the matter? I met him on the campus Friday and he was humming, "Seein' Nellie Home." Now don't get jealous, girls!

At Coach McCreary's announcement of football practice, forty men reported on the College gridiron last Monday afternoon to start the football season for 1929.

The men were put through light workouts the first few days so as to limber up their muscles because the next three weeks will be devoted to hard practice to prepare the 1929 Bulldog eleven for their first clash of the season with the Texas School of Mines at El Paso on October 5.

Many veterans have returned to do their best for the Bulldogs. The veteran linemen are: C. Caywood, Willard McCuller, Huber, Williams, O. Anderson, Clements, Watts, England, Goddard, who has been frolicking at Phoenix Junior College for one year and E. Anderson, who has returned after two years layoff. The old backfield men are: Captain Finley, W. Caywood, Smitheran, McCarty, Cole, Steverson, Moses and Smith. All the men mentioned above have had one or more years of experience in college football which helps to make a good team for A. S. T. C.

Some of the new players who appear good at present are: Watson, D. Murdock, Auggie DeMille, although small of stature, shows good football training and all are Freshmen. Also Kempton, a transfer from Gila College, is showing up well in practice. There are other men who are looking better everyday and may be in limelight as the season progresses. There is more football material in the school who could make the second team if they would go out and practice. A schedule is being arranged for the second team which should help the recruits from getting discouraged if they do not make the first team.

With the assistance of Mr. Begg, Coach McCreary will develop a first rate eleven to represent the college on the gridiron.

the bath or changing clothes.

SECTION 3— Girls' Vigilance Committee will set punishment for failure to wear ribbons.

Article III.

SECTION 1— If the Freshmen Class wins the Tug-o-War against the Sophomore Class, on Home-Coming Day, the ribbons and beanies need not be worn longer.

SECTION 2— If the Sophomore Class wins the Tug-o-War against the Freshmen Class, on Home-Coming Day, the ribbons and beanies will be worn in observance of Articles I and II until the end of the semester.

SECTION 3— The Freshmen-Sophomore Tug-o-War, on Home-Coming Day, will be in charge of the Junior and Senior members of the Lettermen's Club.

Article IV.

No beanies or ribbons shall be defaced in any way, either by writing or alteration of size.

'Hell Week' to Start Monday, September 23

Upper Classmen Announce Rules Governing Freshmen During Formal Initiation Period

Monday, Sept. 23, 1929, will start the Freshmen initiation. From Monday to the following Friday night will be known as "Hell Week."

During "Hell Week" Freshmen will refrain from speaking to upper classmen unless spoken to. No Freshman may speak to a member of the opposite sex of any class.

During "Hell Week" all Freshmen will observe the regulations for Freshmen as posted by each hall committee.

During "Hell Week" Freshmen will stay off the grass.

INSIGNA RULES

Article I.

Beginning at dawn, Monday, Sept. 23, 1929, all Freshmen boys will wear green beanies of the approved type, according to the following rules:

SECTION 1— Beanies will be worn at all times when out-of-doors excepting Sundays.

SECTION 2— Beanies may be removed, when out-of-doors only in honor of the National colors. The National Anthem, or as a salutation to a member of the feminine sex. Immediately following the consummation of these three salutations beanies will be replaced in observance of Article 1, Section 1.

SECTION 3— Failure to observe Section 1 and 2 will be punished by 3 (three) licks from a paddle. Applied to that part of the anatomy which is known as the "posterior prominence."

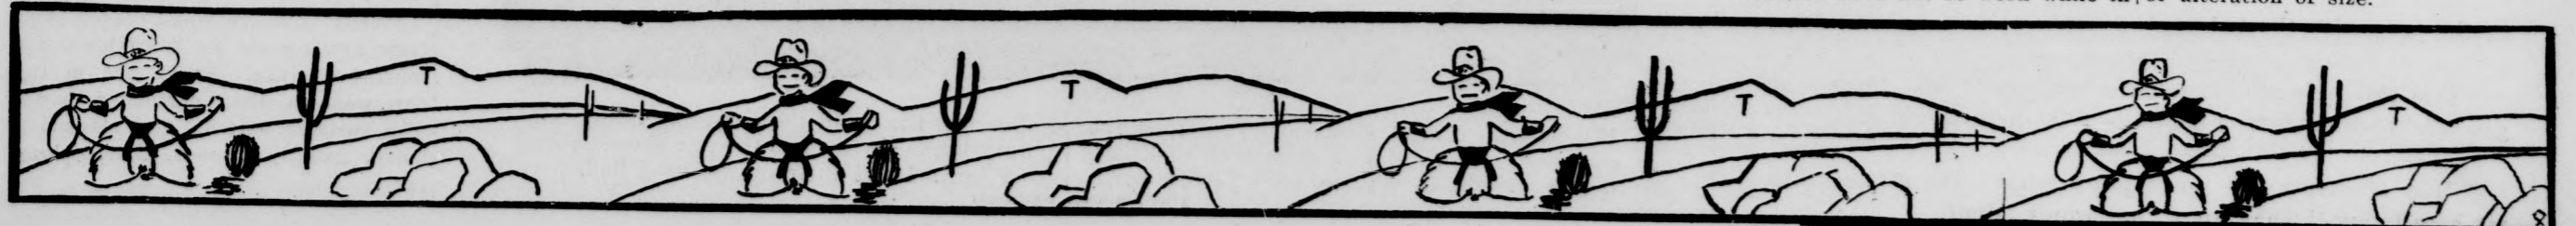

SECTION 4— Paddles used shall not exceed 3 feet in length, 6 inches in width or 1/2 inch in thickness. Paddling surface shall be flat and smooth, having neither holes, nails or other appendages. All paddles must be of wood.

Article II.

Beginning Monday, Sept. 23, 1929, all Freshmen girls will wear a ribbon, green in color, not less than 13 inches long nor more than 2 inches in width. This ribbon will be worn on the right or left arm and NO PLACE ELSE in accordance to the following rules:

SECTION 1— Ribbons must be worn between 7 a. m. and 7 p. m. every day except Sunday.

SECTION 2— Ribbons need not be worn while in

WE'RE OFF!

We're off in a cloud of dust, Students! Let's keep on the way we have started and make this year the most worthwhile one in our history.

WELCOME TO OUR COLLEGE

We welcome you, new faculty members. It is up to us as students to make you feel at home, though some of you come from far distant cities.

HERE'S TO THE FRESHMEN

Let's give a cheer for the new Freshmen enrolled in our college for the first time. It is their duty to uphold the high standards we have set for them.

It is nearing the time of year when the tired business man, returning from his summer outing will begin wondering whether his wife has sufficient sense of humor to appreciate that moonlight romance with the dizzy beach blonde, in case she finds out about it.

Temptation was originally pictured as the snake in the garden. We've often wondered how the snakes induced the lady involved in that incident to remain long enough to hear what it said.

We have always insisted that life consisted of only two things. One was hoping for rain and the other wishing it would quit.

Prophecy is dangerous business; in 1857 Emerson wrote the child was not then living that would see the abolition of slavery in America. He saw it himself six years later.

Another of life's many unsolved mysteries is why it is that the fans always cheer lustily when the umpire is struck by a foul tip.—Louisville Times.

Dieticians say there are vitamins in hash, and some day the scientists may succeed in finding out what else there is in it.—Springfield Union.

A wise man of the younger school says that when a man expresses the wish that he were young again, he really means he wishes he were single again.

A bowling ball was taken to President Hindenberg on the Graf Zeppelin. Possibly Germany's new slogan is, "Deutschland ueber alleys!"

Men never will be able to understand how women can become life-long friends five minutes after being introduced.

If present styles continue, a lot of girls are going to suffer from chapped hips this winter.

The St. Louis woman who hit her husband with a ukulele had the right idea. The blow ruined the uke.

It's a pity no interviewer got to the whale in Jonah's day to see how he felt about stowaways.

When you set a thief to catch a thief the two of them usually join forces to catch you.

Blue laws serve usefully in emphasizing how much we have progressed since they were enacted.

All compliments received are the property of the person giving them and should be returned.

The life of a motorist is lived mostly behind a bus or truck.—Toledo Blade.

Recipe for making money in the stock market, price \$1: 1. Buy at a certain price. 2. Sell at a higher price.

The man with the hoe nowadays doesn't get as far as the man with the hokum.

One thing about this sun-tan business is that those who get into the rotogravure pages do so in natural color.

Men often say: "I don't know what's the matter with me here lately." They know, but won't admit.

DO IT NOW

By ARTHUR R. HUDSON

If, with pleasure, you are viewing, any work a man is doing. If you like him or you love him, tell him now; Don't withhold your approbation 'till the parson makes oration As he lies with snowy lilies o'er him brow; For no matter how you shout it he won't really care about it; He won't know how many teardrops you have shed; If you think some praise is due him, now's the time to slip it to him. For he cannot read his tombstone when he's dead. More than fame and more than money, is the comment kind and sunny, And the hearty, warm approval of a friend. For it gives to life a savor and it makes you stronger, braver, And t gives you heart and spirit to the end; If he earns your praise—bestow it; If you like him, let him know it; Do not wait 'till life is over and he's underneath the clover, For he cannot read his tombstone when he's dead.

Cats Vanquished in Furious Fight with Vicious Rattlesnake

Two pet house cats belonging to S. W. Purcell tackled more than they could handle recently at the Purcell mining camp when they started a battle with a four-foot rattler, it was learned here when Purcell returned to his Tucson office.

According to his account of the fight the cats met him at the gate when he returned to camp. This is usually the case, but they did not show their usual interest in their master. Circling about a clump of bushes with their tails erect and hair on end they made no secret of their uneasiness.

Then one of the cats leaped forward to fight as the rattle of the snake sounded a shrill warning. There was a flurry of action in the dusk of the evening, a sudden movement of heavy coils and the cat leaped high in the air, mortally wounded.

She turned and ran toward the house, falling in spasms in about 100 feet and dying in about one-half hour. The other cat retreated.

Purcell went to the house for his shotgun and guided by the furious rattling of the snake as night closed down, shot its head off.—Cocoino Sun

THE GOOD OLD DAYS (Miami Silver Belt)

Judge C. C. Faires, of the Gila county superior court, has been delving into the historical records of the county recently, having been invited by several organizations to make addresses on these themes. The judge, among other sources, consulted the old files of the Silver Belt, as well as the old records at the court house. He remarked that the files of the Silver Belt, which was edited by Judge Hackney at the time, seemed to coincide with the files at the court house, except in spelling of the names of some of the officials elected at the time of organization of the county. A friend who listened to the judge's remarks observed that the thing which interested him most was that the list of the early officials named seemed to tally fairly well with the officials during these latter days, save for the fact that the pioneers had two coroners and no county superintendent of schools. He couldn't understand the reason for the two coroners, until Judge Faires related the story of the hangings at the Cottonwoods of Globe during the good old days of yore.

Dr. R. D. Kennedy, of Globe, listening to some of the stories of the early days, related an incident which occurred a year or so ago while he was returning from a trip to Brazil. A gentleman on the steamer, ascertaining that he was from Arizona, told how he had arrived in this section many years ago for the purpose of inspecting a mine near Globe. It was at the time of the Cottonwood hangings, and he had been vividly impressed by that incident. Returning to the mine which he was inspecting, he found that a man had been shot and killed there. The gentleman explained that he left at once for the east without stopping to finish the work of inspecting the mine.

LET YOUR EGO BE YOUR GUIDE (Cocoino Sun)

You can read into these facts whatever comment seems appropriate:

The Navajo Indians are threatened with starvation because they haven't land enough to feed their flocks. From the tribal funds \$100,000 was taken by a government bureau to help build a bridge over the Colorado river—a bridge which was of no possible value to them and which they did not want.—Harry Carr in Los Angeles Times.

Harry's little slam is all true except as to the actual facts in the case.

The Navajos are not starving. They might have starved at times but for the government coming to their rescue with appropriations.

The Navajos have no tribal funds. The government charged the \$100,000 against possible future tribal funds when oil and mineral lands are opened up, if ever, on that reservation.

The Navajos made no objections, but a few white politicians did along with a few others like Harry, who knew nothing of the situation.

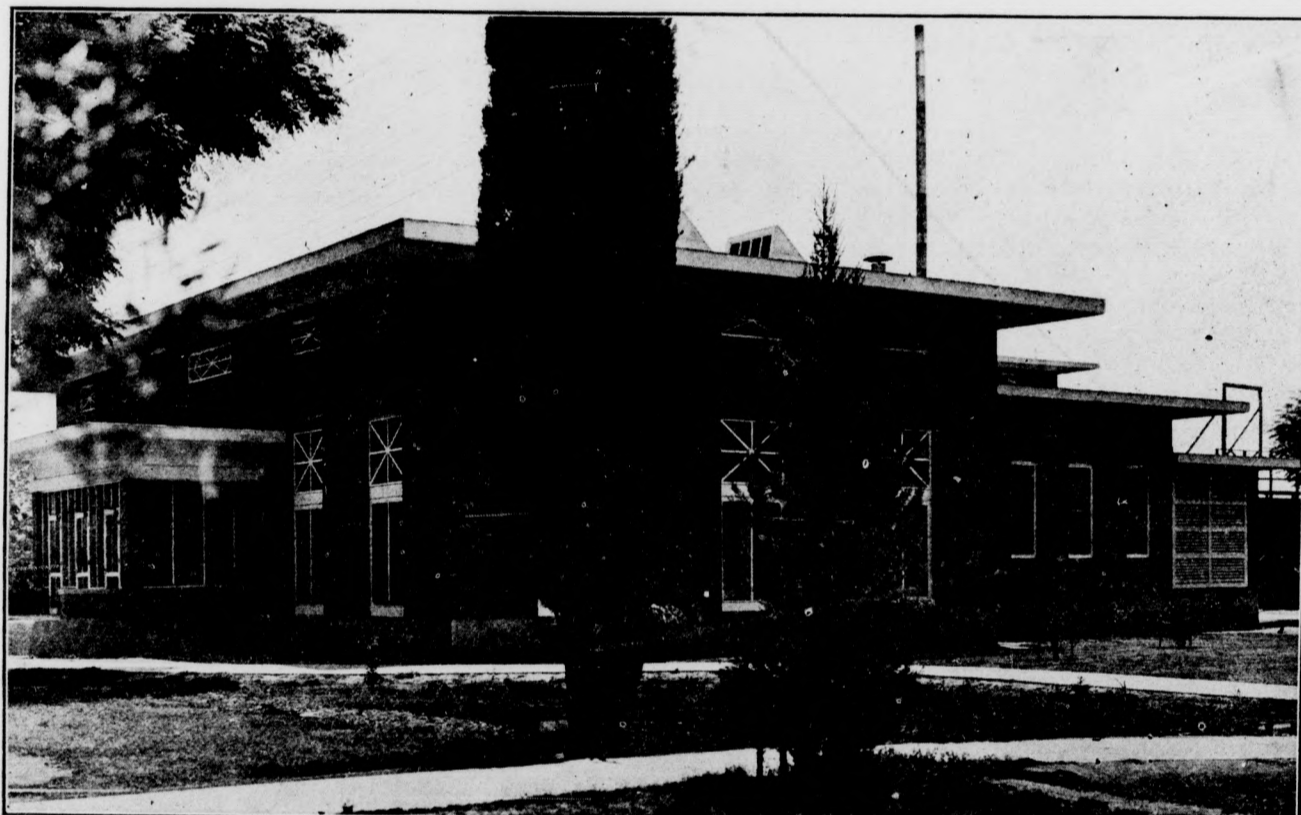

Though Mr. Carr was at the dedication of the bridge he saw no good in Arizona and made little or no mention of it. He mentioned Grand Canyon because he thought it was "near Los Angeles." Some folks only beat up a typewriter to hear the noise it makes or to tell the world how familiar and homey they are with famous men.

Soft jelly can be used in many appetizing ways. Spread it on pancakes, on jelly roll, put it in pastry shells with a bit of whipped cream on top; fill apples that have been cooked tender in syrup with some of it, put a bit on such milk desserts as blanc mange, custard, Spanish cream or bread pudding, use it to sweeten fruit punch, tart soft jelly is good in meat gravy.

Roast meat is better cooked without water. In case there is not very much fat, get an extra piece of suet and skewer it to the top. Place the meat in a very hot oven to sear on the outside. Then reduce the temperature and cook slowly until done.

sound from lower six everyone looked that way.

Finally the snoring ceased and from new sounds we knew lower six must be awake. Every eye in the car was on that particular berth. The curtains parted. Out stepped a small, daintily dressed, timid-looking lady.

A Campus Building

SNORES AND MORE SNORES

The train I was to take passed through our town at 10 o'clock at night. When I got on the train, all the berths were made up. One had been saved for me across from lower six.

I went to bed immediately, but sleep was impossible. I had heard people snore before, but none could "hold a candle" to the man in lower six. He would let up for a minute

and I would doze off, to be suddenly awakened by another loud snort. How many times this happened, I do not know. I have never spent such a miserable, sleepless night. I finally decided that sleep was impossible. I began to picture in my mind just what kind of man could snore like that.

He must be a big fat man, having a deep, gruff voice. He would have

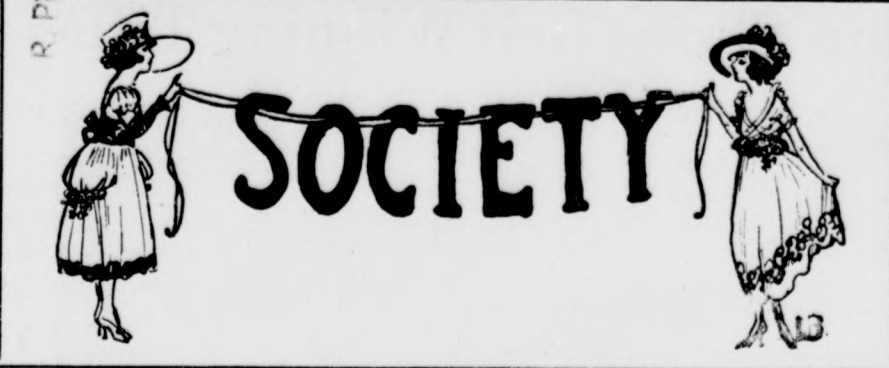

to have a deep, gruff voice to give snorts like those. He probably had adenoids, a broken nose, or something. He would wear a loud checked suit, bright neckties, and light shoes with toes like boxcars.

People began to get up. I decided to get up, too, in order to see if my description fit the snoring man. I think other people in the car wanted to see him, too, for with every new

Where Arabs Attacked Jewish Rabbis

When Arab raiders swooped down upon the outlying districts of Jerusalem they took particular delight in making each Jewish synagogue feel the ire of their wrath. Many temporary buildings such as the one shown above were burned and their occupants killed. (International Newswire)

Delta Sigma Group Elects Officers for Current Semester

The Delta Sigma Society, a society made up of girls living off the campus, met Monday evening at their usual meeting place. Officers for this semester were elected as follows: Mamie Trapman, president; Charlotte Roach, vice-president; Joy Mercer, sec-treas. Plans were also discussed for this year's work.

Kalkagathians Hold Initial Session and Enjoy Bunco Game

The Kalakagathia Society held its first meeting of the year on Tuesday evening at the home of Miss Robinson, the assistant monitor. Important business was discussed, after which Bunco was played. Kalakagathia welcomes Miss Alice Knight, who was one of the first members of the society. Next Tuesday evening a swimming party will be held at Tempe Beach, after which plans for the coming year will be made.

Delta Theta Society Holds First Meeting, Social Hour Enjoyed

The first meeting of the Delta Theta Society was held Tuesday evening, September 10. After a short business meeting a social hour was enjoyed. Many old Delta Thetas are back to enjoy the society. Regular plans for the year will be presented to the society at the next meeting.

Pierians Meet and Discuss Plans For Swimming Party

The first meeting of the Pierian Literary Society was held at the Industrial Arts building on Tuesday evening, September 10. Those who returned from last year are: The monitor, Miss Irma Wilson; two-third year students, Helen Kincaid and Charlotte Roach, and Mollie Wright, Emma Joslyn, Mildred Tucker, Thelma Frances, Mabel May Corn and Virginia Young. Plans were made to hold the next meeting at Tempe swimming pool to enjoy a swim and refreshments. Pierians are looking forward to a very interesting and busy year. They plan to study different types of plays each quarter and act out some of them for the benefit and pleasure of the society.

Philomathians Hold First Meeting; Greet Officers, Members

Last Tuesday the Philomathian Society held its first meeting of the year. The main purpose was to welcome the new officers and the returned members. After much rejoicing at being together, the group began planning the work to be accomplished and the pleasures to be indulged in for the ensuing year. Although the Society is somewhat handicapped at present by a small membership, all indications seem favorable enough to warrant a successful, happy season. The present membership is as follows: Pearl Pilcher, monitor; Miss Dobbs, honorary member; Elsie McCreary, honorary member; Betty Woodward, president; Irma Cowperthwaite, vice-president; Georgia Hensley, secretary; Lucile Amberson, treasurer; Ione Hodges, Norita Voelker, Roline Sikes, Gertrude Stewart.

Clionian Society to Study Music and Poetry During Year

The Clionians held their first meeting Tuesday evening in the office of Prof. Ira D. Payne. It was decided that the program for the year should consist of varied programs which would include the study of poetry and music. A program committee was appointed,

consisting of Ariel Norris, Rachael Clark and Mae Sisson. Ruby Bowser was appointed publicity manager. The second meeting was held at the Clionian rendezvous. This was an occasion for a picnic supper and a program which was given by the two new members, Willa Clark and Violet Nareman. This was the beginning of their initiation, which will last until Friday. The officers of the society for this year are: President, Elene Webb; vice-president, Ariel Norris; secretary, Margaret Tompkins; treasurer, Willa Clark; sergeant-at-arms, Violet Foreman.

Summer Activities Are Discussed By Lambda Kappa Club

Lambda Kappa held the first meeting of the year at the home of Mr. and Mrs. L. Fairbanks, Tuesday evening, September 10. Reports of the summer were heard and important business discussed. Plans for the year were presented before the society for discussion. The majority of the meetings will be devoted to the study of music, art, and poetry, it was decided. After the business meeting a short social period was enjoyed and delicious refreshments were served by Mrs. Fairbanks. The sale of T. S. T. C. seals is now on. They may be obtained from any Lambda Kappa. Lambda Kappas returning this year are: Lillian Morris, president; Lois Benedict, vice-president; Merle Hicks, secretary; Leonora Anderson, treasurer; Esther Randall, Dorothy Corson, Ellen Cardan, Ethel Buck.

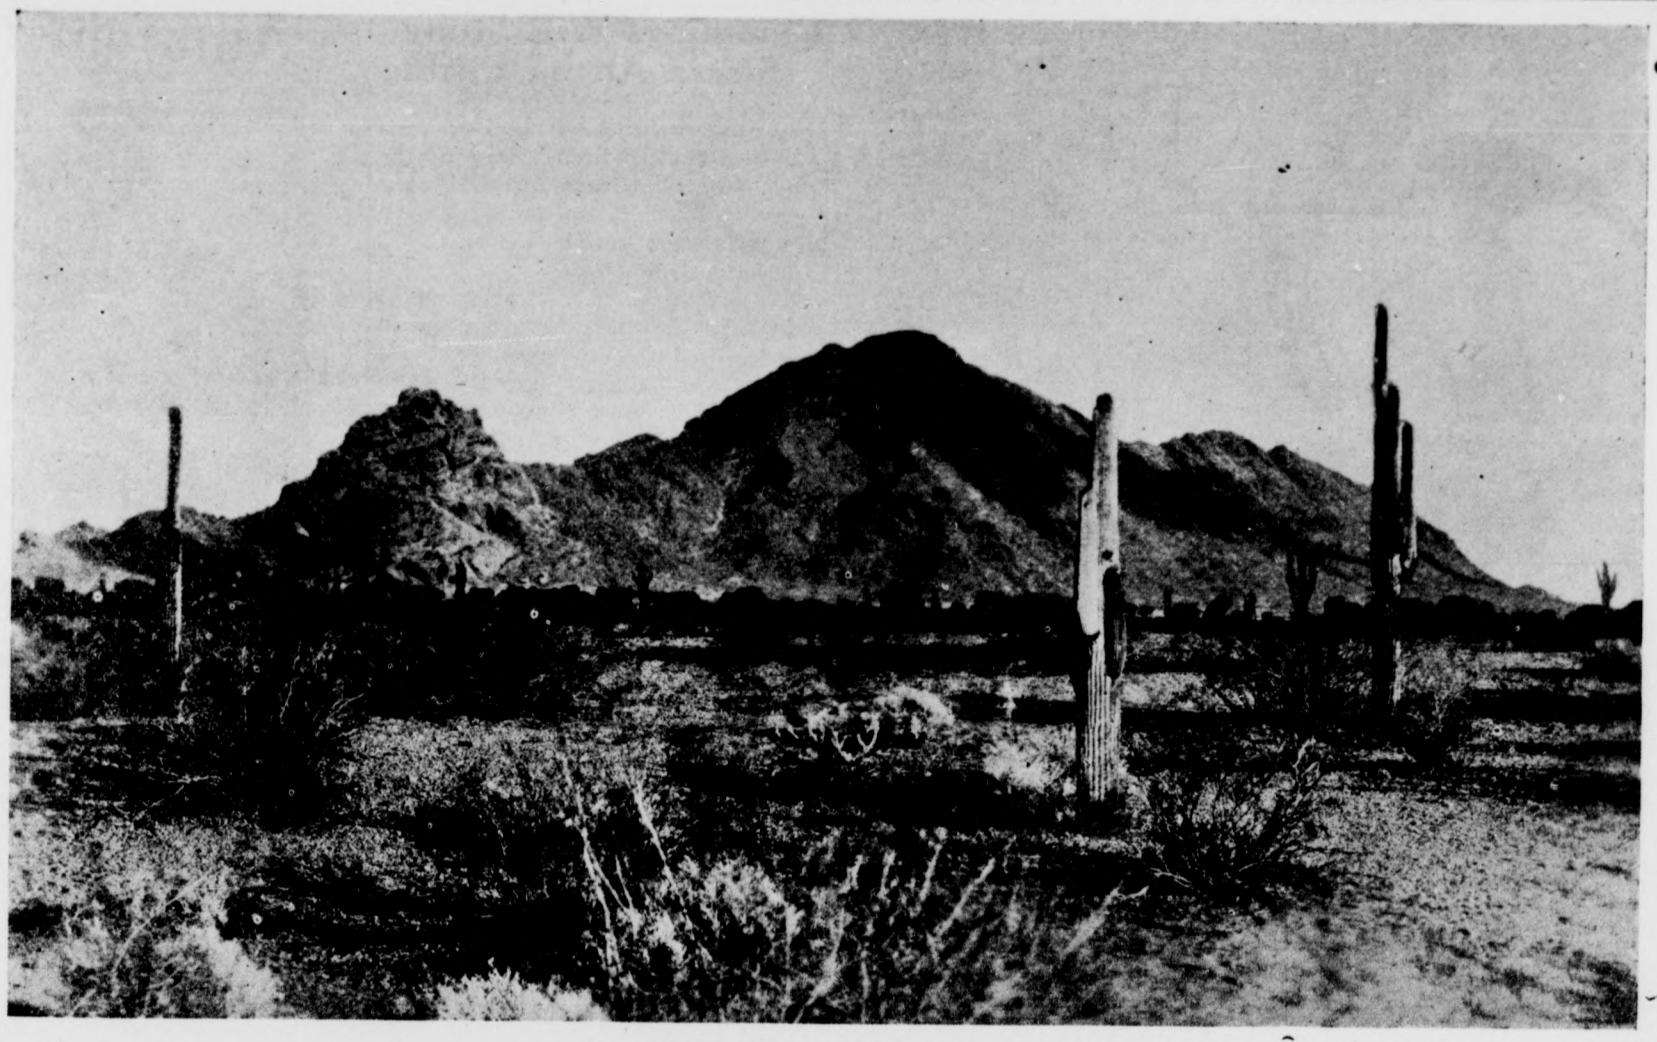

What About It?

Why do young men and women go to college nowadays? Not to think it may be cheerfully admitted. Rather, giving due weight to serious intention, they go to learn. Much of what they learn or most of it is valuable, even though not all of it was sought as learning. As the result of things learned they go out on the whole with better manners, better social position and more information. But does the college give them better minds? Do they do more thinking? Not always. Perhaps not often. All students have opportunities for reflection and some leisure for it. Even athletics does not interfere necessarily with thinking, and athletes who reflected in college have not been unknown, just as members of Phi Beta Kappa have been known who never did anything of the sort. Plenty of statistics have proven that a larger percentage of students of high rank do well in business, statesmanship, and in the learned professions than of students who do not rank high. But this is merely because a larger proportion of high-rank students have found the pleasure and learned the technique of reflection than of middle or low-rank students. And therefore, and only therefore, more grinds than loafers, more Phi Beta Kappas than athletes achieve some distinction in later life. And have, may we add, a better time.

YES, YOU!

"Next."
 "Who, me?"
 "Born?"
 "Yes, sir."
 "Where?"
 "Russia."
 "What part?"
 "All of me."
 "Why did you leave Russia?"
 "I couldn't bring it with me."
 "Where were your forefathers born?"
 "I only got one father."
 "Your business?"
 "Rotten!"
 "Where is Washington?"
 "He's dead."
 "I mean the capital of the United States?"
 "They loaned it all to Europe."
 "Now, do you promise to support the Constitution of America?"
 "Me? How can I, I've got a wife and six children to support."

It's surprising how many things a girl can learn in a dormitory that will never be any use to her.

North Hall Has Splendid Group of Girls This Term

North Hall has a lovely group of Freshman girls this year. Come over and see them some evening. If you want to hear some good piano music, we have it.

Mary Hand was the guest of Mrs. F. B. Baptist, at her home in Phoenix, over the week-end.

Don Hughes, from near Tempe, visited Lola Wells on Saturday, September 14.

Mary Bowers visited her home in Mesa over the week-end.

Mildred Marcella was the guest of Virginia Cunningham at her home in Phoenix over the week-end.

Mary Robertson and Cathryn Brown spent Saturday, September 14, shopping in Phoenix.

Lois Benedict spent the week-end at the home of Mr. and Mrs. E. M. Moores of Phoenix.

Anna Stewart was the guest of her aunt, Mrs. Marie Elliot, at her home in Phoenix, over the week-end.

Dan Crumley, from Flagstaff, visited Mary Robertson on Friday evening, September 13.

Martha Knowles, from Phoenix, visited her sister, Lillian, on Saturday, September 14. Lillian returned to Phoenix with her and spent Saturday night and Sunday visiting.

Mae Sisson spent the week-end with friends in Glendale.

Lucille Marcella and Bessie McDonald were North Hall guests on Sunday, September 15.

Vivian Crowe visited relatives in Phoenix over the week-end.

North Hall is backing the Hiking Club 100 per cent this year. Come on, girls, let's go!

South Hall Girls Hold First House Meeting of Year

On September the eleventh girls in South Hall held their first house meeting. The rules and regulations were read to the new girls. Then the seniors gave a short program for the Freshmen. The program consisted of stunts, a piano solo, and group songs. Frosties were served for refreshments.

So-Called Vacations Of College Athletes

Athletes have to be careful about their jobs, because snoopers are always ready to charge them with professionalism. "Major John L. Griffith, commissioner of athletics of the Western Conference, keeps a list of the summer jobs of all the athletes in the Big Ten, and many of the other conferences follow a similar custom.

Ruth Nichols Greets Additions to Ranks Of East Hall Girls

On Monday evening the first house meeting of the year was held. Ruth Nichols, the hall president, welcomed the new girls to the hall. Mrs. Waite also welcomed the new girls, and read some of the "do's" and "don't's" of dormitory life.

At the short business meeting, the Freshmen members of the executive council were elected. They are Catherine Vendy, Ruth Ridgeway and Margaret Holt.

After the meeting the girls enjoyed a half hour of music and dancing. Frosties were served.

East Hall now has sixty girls including forty new ones.

Mohair Clippings in North 50,000 Pounds

KINGMAN—As the fall clipping of sheep goes ahead in Mohave county the general supply in the Babbitt Brothers Trading Company warehouse, under the care of the Arizona Central Bank, continues to grow and has now reached a point where 22,802 pounds of the precious mohair is safely stored away, awaiting sale on October 1, when according to Ira Hart of the bank, the mohair growers in the county expect to have approximately 50,000 pounds. At that time buyers from all over the United States will be invited to come to the sale and will bid for their respective companies for the hair which will then be shipped east where the raw material will be manufactured into many and sundry commodities.

TICKET WINDOW ARITHMETIC

Girl: "We want to buy a ticket."
 Ticket Agent: "But there are two of you."
 Girl: "Well, ain't we half-sisters? Add that up."

A Decade of Educational Achievement

The National Education has just sent out a statement of a decade of educational achievement which is rather startling. Ten years ago, we are reminded, the average salary of teachers was \$635 as compared with \$1300 as the present average salary. But—then High School graduation was the average certification requirement whereas it is now two years of Normal School or College training. Ten years ago there were 330,689 students enrolled in colleges and universities where now it is 664,226. High School enrollment was then 1,600,000, and is now 4,000,000. Summer School attendance was then 40,000 and now 250,000. \$750,000,000 were expended for Public School Education and now \$2,000,000,000 is expended. What will the next ten years bring forth? Still more teachers will undoubtedly be needed and salaries may continue to rise, but if, so the standards of the profession must just as surely continue to rise. Hence the wise are not satisfied by the minimum requirements for certification at present but are looking ahead to be prepared to meet the ever increasing competition.

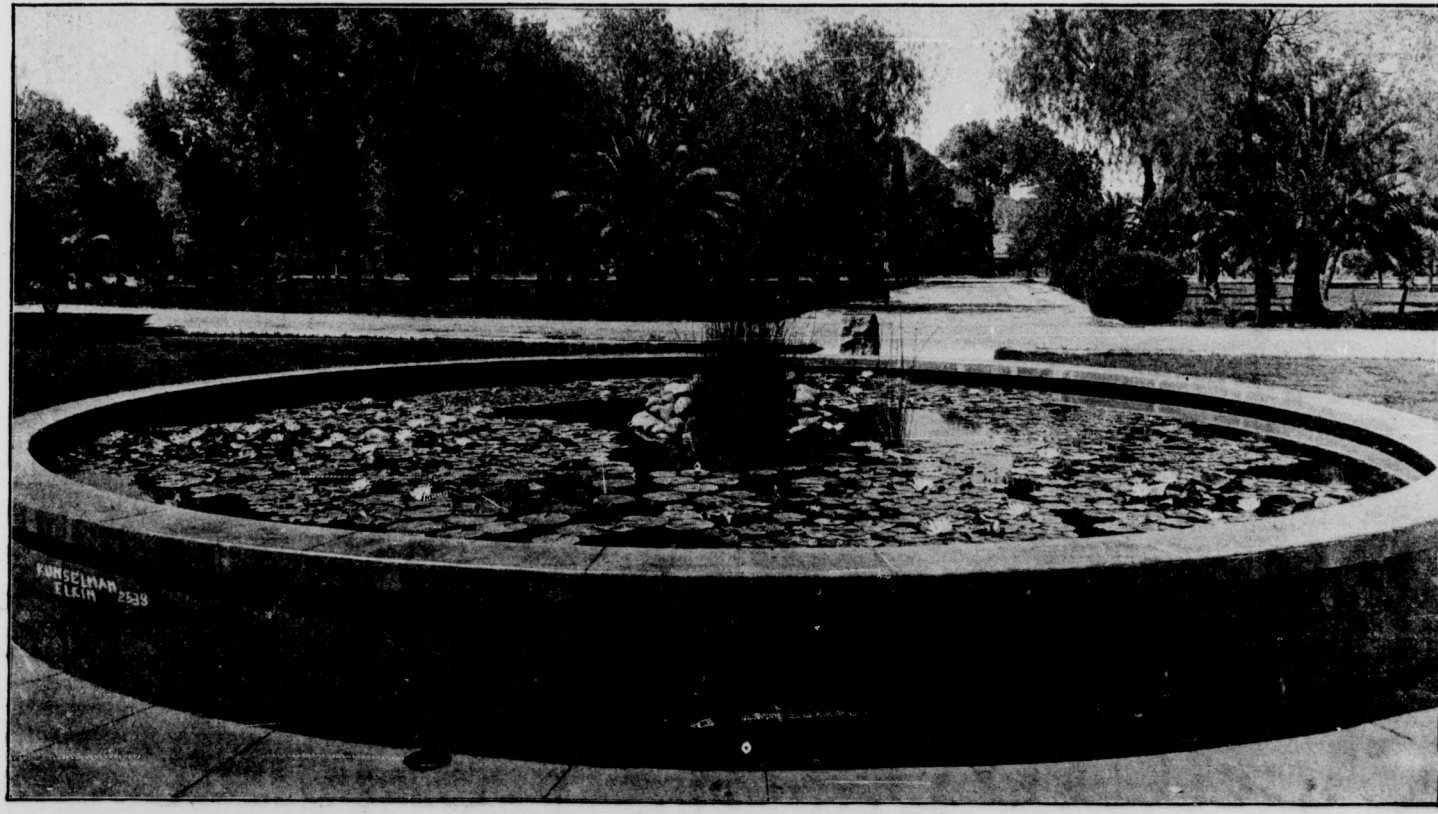

TRUTH

There's nothing like a wedding
 To make a feller learn.
 At first he thinks she's his'n,
 But later learns he's her'n.

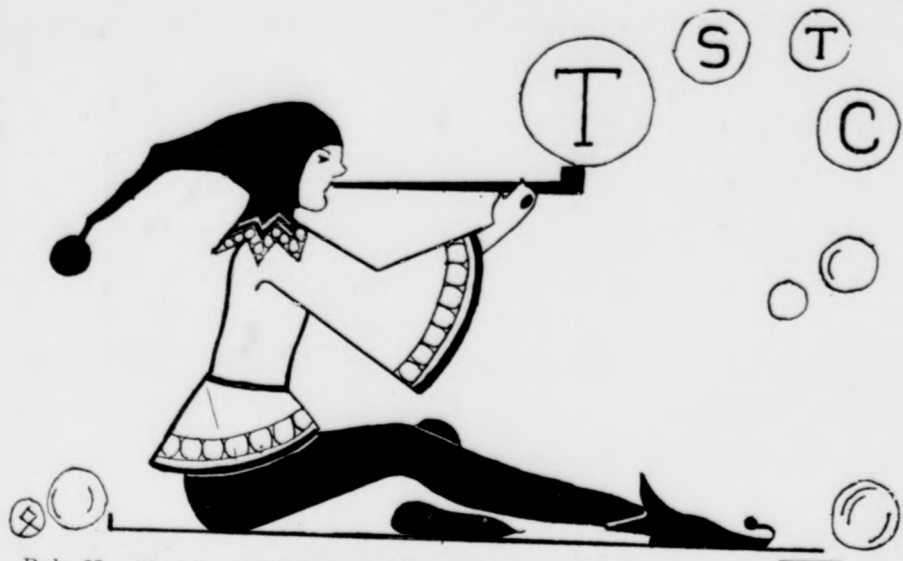

Tourist returned from Nogales:
 "The Mexicans are very bright people. Even the children speak Spanish."

phenom made good money staging a rodeo in his home town. Nick Kutsch and Lowell Otte, former Iowa grid-ders, rode ponies herding cattle in the Omaha stock yards, and Frank Foss of Cornell, former holder of the world's record in the pole vault, was a buyer in the Chicago stock yards.

"Some football squads gather intact at a boy's camp to work out throughout the summer. Various University of Minnesota football men gather at Emil Iverson's camp at Vermilion Lake, Minnesota, and Seabright, New Jersey, is a rendezvous of Pennsylvania and other Eastern footballers."

View of Campus and Buildings

Bob H.—"I am crazy about you." Joe M.—"Well, run along. This is no insane asylum."

Harley A.—"Say, there's hairs in the soup!"

Mrs. Krause—"That's all right. This is noodle soup."

Prof.—"Are you using a crib?"

Albert A.—"No. Just a regular bed."

Georgia H.—"I suppose you are on the football team?"

Little Hot Dog—(proudly)—"Well, yes; I do the aerial work."

Georgia T.—"What is that?"

Little Hot Dog—"I blow up the footballs."

A man who shot and wounded a saxophone player one night, pleaded that he thought it was a cat.

"But you musn't even shoot a cat," said the magistrate.

"I thought this one was very ill," pleaded the man.

Five-year-old Mary was teaching three-year-old Audrey the value of different coins:

"That's a dime, it will buy lots of candy. That's a nickel; it will buy an ice cream cone. That's a penny; it's only good for Sunday school."

"Have a good time at the New Year's party?" he inquired.

"Glorious!" exclaimed the young lady. "I had a lovely dinner, did not miss a dance, and was insulted three times before I finally passed out."

Detective: "We think we have found your mother-in-law who has been missing for six months."

Man: "What did she say?"

Detective: "Nothing."

Man: "Then it is not my mother-in-law."

Artist's Friend (viewing new painting): "To be frank, old chap, I don't like it; yet there's something remarkable about it."

Artist: "It's sold, anyway."

Friend: "Ah! Probably that's it."

SAD BUT TRUE

Bones: "Mr. Interlocutor, why is a fire extinguisher like a waiter?"

Mr. I.: "Why, I'm sure I never figured it out."

B.: "Well, you have to tip 'em both before you get any service."

TOUGH LUCK

The most pitiful case of the month was the experience of a man who paid \$14 for a room at the Ritz and then dreamed he was sleeping in the park.

CANADA TELL?

How much did Philadelphia Pa? How much does Columbus O? How many eggs did Louisiana La? What grass did Joplin Mo? We call Minneapolis Minn; Why not Annapolis Ann? If you can't tell the reason why, I'll bet Topeka Kan.

Cummings Will Study Sierra Ancha Pueblo

GLOBE—Dr. Byron Cummings, dean of the school of archaeology at the University of Arizona, may direct a party of students in the excavation of some of the pueblos in the Sierra Anchas.

Dr. Cummings has spent the past few days visiting with friends in the Sierra Anchas and has expressed himself exceedingly interested in some of the ruins.

About five miles up the canyon from Lewis lodge is supposed to be one of the richest regions for prehistoric study in those mountains. A small party partly uncovered cliff dwelling has been found under a massive granitic cliff, and it is believed that extensive work might reveal a pueblo as valuable as the one on the Roosevelt road near the lake.

BACK ON THE FARM

A boy left the farm and got a job in the city. Wanting to impress his brother with his new life, he wrote: "Thursday we autoed out to the Country Club, where we golfed until dark. Then we motored to the beach and week-ended."

But his brother on the farm refused to be impressed, and wrote back:

"Yesterday we buggied to town and baseballed all the afternoon. Today we muled out to the corafield and gee-hawed until sundown. Then we suppered and piped for a while. After that we staircased to our room and bedsteaded till the clock fived."

DOES SHE KNOW?

"Don't you know that you should always give half of the road to a woman driver?" asked the police of a motorist who came near having a collision on the street with another car.

"I always do," the man replied, "when I find out which half of the road she wants."

"Now, son, do you know what I hit you for?"

"Gee, Dad, don't you know either?"

World Map a Blank To Most Freshmen

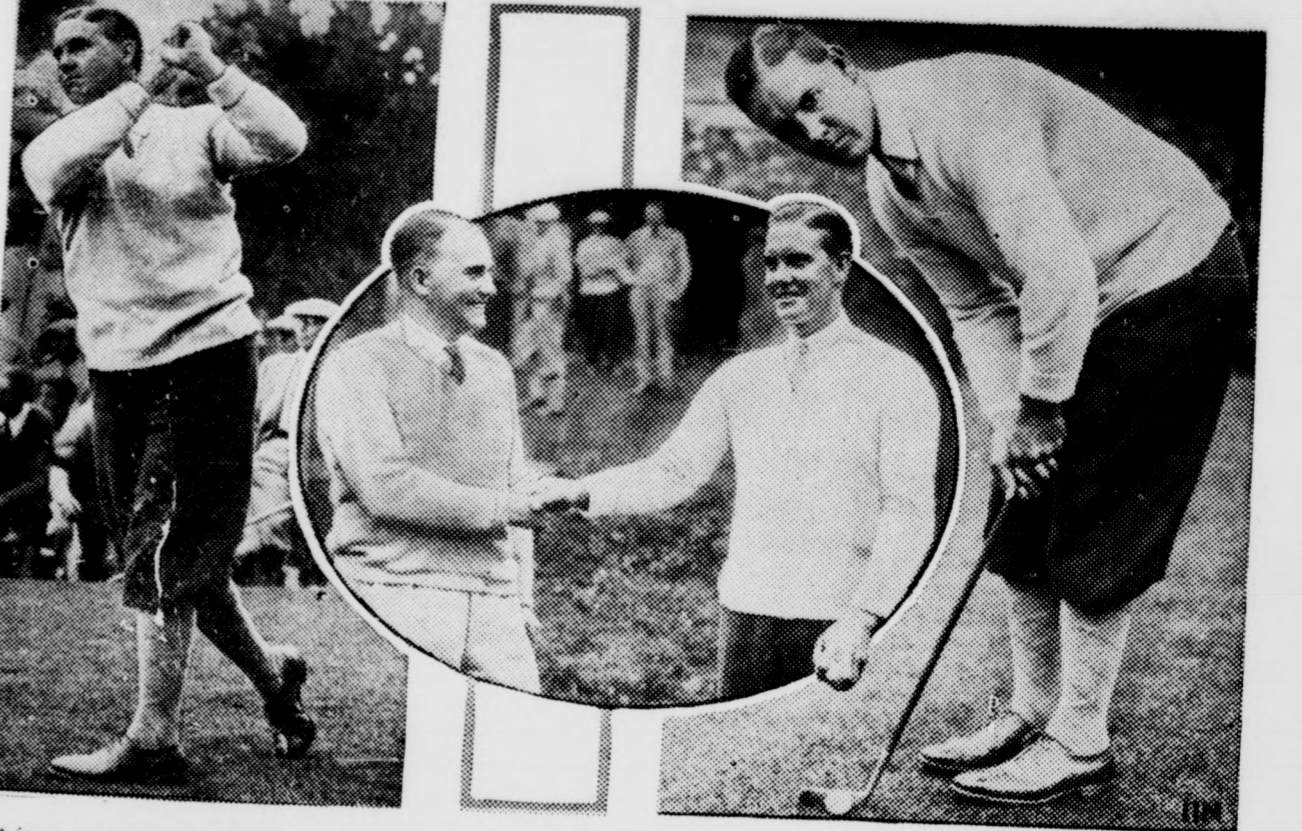

The test given the Freshmen entering Geography classes last week revealed the world to be as topsyturvy as ever; at least in the mind of the average Freshman. Very few Freshmen are able to make 50 per cent on a test of locations of countries, cities, etc., of major importance and of frequent mention in public utterance and current print. Quite a few are unable to make even 15 per cent. Five Freshmen were apparently unable to recognize an outline map of Asia, two filling in states of the United States and three the countries of Europe. Glancing at several of the papers one is informed that the Appalachian Mountains are scattered about Mexico, South America, Europe and Asia, while the highest mountains in South America are the Himalayas or Urals. The Amazon River is in Africa, the Nile is in China and also in Alaska. The Columbia River is also in Alaska as well as in New York. Most Freshmen think that Porto Rico is one of the Dutch East Indies, but others think it is in Africa or in India. France's boundaries have been expanded to include both Venice and Vienna, while Dublin has been transferred to Belgium. Rio Janiero is the largest city not only in Mexico, but also in Spain and in the Philippines. Such is the general run of opinion, but as most Freshmen refrain from committing themselves on such international complications, the map of the world still remains mostly a blank and unknown void. Where are we?

Shiny fabrics, even black, tend to increase the size of the wearer and should be avoided by large, stout women. Coarsely woven, thick, or fuzzy materials also increase the apparent bulk of the figure. Soft, clinging materials should be chosen. Light and bright colors are not so good as dark neutral colors for the woman of large build.

A thick steak after searing may be successfully finished in a hot oven (450 degrees Fahrenheit). Slip a rack under the steak in the skillet, and the meat will cook evenly without being turned.

Jonah (inside the whale): "My, I'd give anything if I had my camera along. Nobody will believe this. They'll think it's another of my fish

Amateur Champ Shows Grit Winning Title

After fighting his first round opponent to the nineteenth hole before a verdict, Harrison Jimmy Johnson, left, of St. Paul, Minn, is the new amateur golf king. It was in this same first round that Bobby Jones was eliminated. Many will say that had Bobby remained in the tournament that Jimmy would not have won. That's a question. The St. Paul player showed indomitable courage all through his matches. The great shot from the beach on the eight-

eenth to half the hole to save himself from elimination is enough proof of his calibre. Jimmy's putter, as you see, right, always carried him safely on the greens. Any man who can beat Dr. Willing of Portland, Ore., a wily seasoned fairway veteran, shown, left center, congratulating the winner after the finals at Pebble Beach, Cal., is worthy to wear the amateur crown regardless of Jones.

(International Newsreel)

Cheese is one of the richest of all common foods in calcium. Many Americans do not get enough calcium in their foods to furnish their bodies with the quantity of this mineral needed for building and repairing teeth and bones. Cheese made from whole milk also contains a considerable quantity of fat. The protein of cheese is the same efficient kind as that in meat. A cheese dish is therefore high in food value.

The fact is, of course, that somebody has to be employed to tell the farmer that he needs relief.

A movement is under way to organize a Sox Appeal Club for the benefit of those girls who hold positions in which they cannot wear sox. It is a wonderful feeling to be without hose, and in order that every one may experience this feeling, we are organizing this club, and those girls who cannot go without them in the day time can go without them after dark, and thus satisfy their desire to experience this pleasure.

NOW, IT'LL BE GOOD (A Foley Contribution) The world is just a little ball; It really doesn't count at all. A bus-league wart that dropped too soon From off the face of sun and moon. All planets crack their sides in mirth At chest expansions of the earth.

A famous sword swallower is appearing in a circus coming to Phoenix next week. We understand he started in quite a modest way with green peas on a knife.
